NOTES.

INDIAN CUSTOMS REVENUE—

The grand total of gross Indian Sea and Land Customs Revenue (excluding salt revenue) collected during the month of October, 1934, amounted to Rs. 5,25 lakhs as against Rs. 4,63 lakhs in the preceding month and Rs. 4,32 lakhs in October, 1933. The total revenue realised in the seven months ended October, 1934, was Rs. 30,19 lakhs as compared with Rs. 27,97 lakhs during the same period last year. Import duties accounted for Rs. 22,19 lakhs of this amount, export duties for Rs. 2,19 lakhs, excise duties on motor spirit, kerosene, sugar and matches for Rs. 2,99 lakhs, Rs. 1,71 lakhs, Rs. 27 lakhs and Rs. 49 lakhs, respectively, and Land Customs and Miscellaneous for Rs. 35 lakhs. Increases were noticeable under import duties on motor cars, cotton fabrics, kerosene, tobacco, artificial silk yarn and thread, metals other than iron and steel, etc., dyes derived from coal tar, cotton hosiery, iron and steel, pneumatic rubber tyres and tubes, oils, batching, fuel and lubricating, railway plant and rolling stock, silver bullion, coin, sheets, plates and other manufactures, cinematograph films and wireless reception instruments and apparatus; excise duties on motor spirit and kerosene also showed noticeable increases. On the other hand, import duties on sugar, silk fabrics, cotton yarn and thread, betelnuts, motor spirit, machinery, boots and shoes, tea, toys, games and sports goods, paper and stationery, liquors and spices, the export duties on rice, jute, raw and manufactured and land customs receipts showed noticeable decreases. The detailed statement will be found at pages 840-41.

THE BRITISH INDUSTRIES FAIR, 1935—

The next British Industries Fair will open in London at Olympia and the White City on Monday, the 18th February, 1935, and will close on Friday, the 1st March, 1935. The London Section is being organised by the Department of Overseas Trade. Exhibits of the lighter trades will be presented as usual at Olympia, while the Textile and Furniture Sections of the Fair will again be organised at the White City. The Textile Section will represent the cotton, woollen, silk, artificial silk and linen industries and other branches of textile manufacture, while the Furniture Section is expected to be held on a substantially larger area than that occupied at the Fair of 1934.

The Engineering and Hardware Section of the Fair is being organised by the Birmingham Chamber of Commerce under the auspices of the Department of Overseas Trade. As the Chamber is of opinion that the month of May is likely to be more favourable for the sale of the products of heavier industries, this Section of the Fair which will be held under

the specific title of "The Engineering and Hardware Section of the British Industries Fair" will open at Castle Bromwich, Birmingham, on Monday, the 20th May and close on Friday, the 31st May, 1935.

The Indian Trade Commissioner in London has decided to participate in this Fair and intends to display a representative collection of Indian produce and manufactures of commercial importance and possibilities.

Firms wishing to exhibit their products at this Fair should communicate with the Indian Trade Commissioner, "India House", Aldwych, London, W. C. 2, who will be pleased to make arrangements for their display on the Indian Stand.

As the Fair is attended in large numbers by buyers from most parts of the world, the exhibits are likely to receive widespread notice which may lead to satisfactory business connections. Booklets and show-cards relating to the Fair have been received from His Majesty's Trade Commissioner in India, Calcutta, and may be seen in the Commercial Library and Reading-Room at 1, Council House Street, Calcutta.

SECOND ANNUAL MOMBASA TRADE EXHIBITION—

Information has been received from His Majesty's Trade Commissioner in East Africa that a trade exhibition to be held at Mombasa from the 8th to the 10th January, 1935, is being organised by the Muslim Association of Mombasa. The exhibition will coincide with the Id-ul-Fitr celebrations and is likely to be very largely attended.

The Rental for a Stall measuring 20 ft. by 10 ft. will be Shs. 60 for the full period of three days, during which the Exhibition is to be held. Special terms will be available to those Exhibitors who require additional accommodation or a Stall of particular size and design.

Applications for Stall accommodation should be submitted as early as possible. The Closing Date for Applications is the 30th November, 1934, after which date the allotment of Stalls will be made. All applications must be accompanied by the full amount of the Rental of the Stall accommodation required. The Rental of Shs. 60 per Stall measuring 20 ft. by 10 ft. includes the use of one 50 c.p. electric lamp but for any special lighting required, the Stallholders are to make their own arrangements. Applicants must state in which Section they desire their Stall to be located and a convenient form of application will be found below.

Application for stall space should be made in the form given below. Details as regards other particulars may be obtained from the Honorary Secretary, The Mombasa Trade Exhibition, 1935, P. O. Box No. 430, Mombasa, Kenya Protectorate.

Form of application for Stall Space.

To
The Honorary Secretary,
THE MOMBASA TRADE EXHIBITION, 1935,
P. O. Box No. 430,
Mombasa, Kenya Protectorate.

Sir,

I/We hereby apply for.....Stall/Stalls..... of
20 ft. x 10 ft. each in the*.....Section, for
which I/we enclose herewith the sum of Shs.....
as the rent thereof.

I/We agree to abide by all the decisions of your
Committee in connection with the above applica-
tion.

Yours faithfully,

The Exhibition has been divided into five principal
Sections, as follows:—

1. Wholesale Merchants and Manufacturers' Representatives.
2. Automobile and Machinery.
3. Local Industries.
4. Agricultural Produce.
5. Shipping and Miscellaneous.

JOINT STOCK COMPANIES IN BENGAL—

During the month of October, 1934, twenty-four new Joint Stock Companies, limited by shares, with an aggregate authorised capital of Rs. 1,01,60,800 were registered under the Indian Companies Act (VII of 1913) in the Bengal Presidency. The respective details are given below:—

	Rs.
2 Banking	2,50,000
1 Chemicals and allied trades	20,000
1 Iron, steel and shipbuilding	50,00,000
1 Engineering	5,00,000
1 Canvas and India rubber trades	1,00,000
1 Public service companies—Gas, water, electric light, power and telephone	5,00,000
1 Clay, stone, cement, lime and other building and constructing materials	5,00,000
1 Ice and aerated waters	50,000
4 Agencies (including Managing Agent Companies)	90,800
1 Tea box and cabinet manufac- turing	1,00,000
1 Soap, candles, etc.	20,000
1 Match	1,00,000
3 Other trading and manufacturing	80,000
1 Jute mills	15,00,000
1 Other mining and quarrying	1,00,000
2 Sugar (including jaggery) manu- facture	11,00,000
1 Hotels, theatres, entertainments	1,50,000
Total	1,01,60,800

* Applications for Stalls should be made under their respective reference numbers as shown above.

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, I, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 11th November.—Widespread in Chota Nagpur, Bihar and Burma on 2 days, east Gujarat, west Central India, west Central Provinces, south of the Peninsula, Central India, Central Provinces, south-east of Madras, Bengal, Assam and south-east Bengal on 1 day. Locally heavy falls along the Chittagong-Arakan Coast and Burma on 1 day. Local or a few falls elsewhere.

Crops: Madras, week ending 3rd November.—Good rainfall in Presidency; heavy in Carnatic, Central districts, west Coast and in parts of Circars and Deccan. Transplanting or sowing of paddy proceeding in parts of Carnatic, Central districts, south and west Coast. Standing crops generally fair, except in parts of Deccan where adversely affected for want of rain. Bihar and Orissa, week ending 6th November.—Light rain fell in Champaran, districts of Orissa division, Palamau, Manbhum, Singhbhum, and in parts of Santal Parganas, Hazari- bagh and Ranchi; no rain elsewhere. Standing crops including sugarcane generally good. Thresh- ing of *bhadoi* crops continues in Orissa districts. Prospects of winter rice generally fair. Harvesting of early paddy going on in Chota Nagpur, Santal Parganas and Sambalpur. Sowing of *rabi* crops going on and that of spring oilseeds commenced. Punjab, week ending 5th November.—Weather remained dry. Rain badly wanted. Standing

crops generally average on irrigated and below average on unirrigated areas. Insects caused some damage to sugarcane in parts of Jullundur. Damage to cotton by boll worm is reported from parts of Lyallpur and Multan. General complaint that *toka* damaging newly sown crops in Sialkot *tahsil*. Central Provinces, week ending 3rd November.—Weather cloudy and light showers of rain in all districts, except Saugor and Raipur. Standing *khari* crops good generally. Some damage to cotton on account of rain reported from Nagpur and Buldana districts. Harvesting of rice in progress though rain interfered with it. Germination of *rabi* crops satisfactory and recent showers helped sowing opera- tions. Bengal, week ending 7th November.—Ex- cepting heavy showers in places rainfall generally light to moderate improving prospects of winter paddy but somewhat affecting agricultural opera- tions of spring crops. Reaping of early winter paddy continues in places. Assam, 12th Novem- ber.—Weather generally seasonable but compara- tively heavy rain in Surma Valley. Outturn and prospects of crops fair.

Intermediate Crop Reports. Cotton: Assam.— Since last forecast weather generally favourable and present prospects of crops generally fair. Ben- gal.—Since last forecast weather generally fair except in Tripura State, where heavy rain caused some damage to crop. Outturn anticipated to be 75 per cent of normal. Bombay.—Crop in Gujarat somewhat damaged in places Broach district by wilt, stem-borer and boll worm. Early sown cotton gen- erally doing well but late sown crop suffering due failure of late rains. In Deccan picking commenced in places, unpicked cotton adversely affected by recent heavy rains. Irrigated crop progressed well but dry crop, particularly in lighter soils, suffered in parts due insufficient moisture. In Karnatak sowing done very late especially in eastern dry tracts due want of rain and where sown in anticipation of rain germination not satisfactory. Under recent rains, however, crop improving generally. Central Provinces and Berar.—Since last forecast weather clear with only light showers of rain, which though generally beneficial reported to have done some damage to crop in Nagpur and Buldana districts, but generally provincial estimate of 77 per cent of normal holds good. Madras.—In central districts and south sowings of cotton still in progress. The area under crop expected to be normal or slightly above normal. In Deccan, sowings of *hingari* or late cotton generally concluded and area expected to be slightly above normal in Kurnool and Cudda- pah, and slightly below normal in Bellary and Anan- tapur. Condition of crop fairly satisfactory. The yield from *mungari* or early cotton in parts of Deccan expected to be below normal. Rice: Assam.— Autumn Rice Crop: Weather continued to be generally favourable since last forecast and prospects of crop fair generally, but no material change in

estimated percentage outturn reported in last fore- cast anticipated. Winter Rice Crop: Weather generally favourable for both broadcast and trans- planted crops since last forecast. Slight damage by insects reported from some districts. Present prospects of crop generally fair, but no material change in estimated percentage outturn expected. Bengal.—Autumn rice: Since last forecast favour- able weather conditions improved prospects in some east Bengal districts, whereas drought and flood are responsible for low outturn in Malda and some West Bengal districts. Provincial outturn anticipated to be 72 per cent of normal. Bihar and Orissa.— Owing to irregularity of *hathia* rains condition factor for winter and autumn rice crops decreased by one and six per cent, respectively, as compared with the figures reported in last forecast. Estimates of crops are now 94 per cent for winter rice and 91 per cent for autumn rice of the past ten years' average. Bombay.—Since last report rice in Gujarat, except places south suffered at grain formation stage due want of late rains. In Konkan crop progressed well generally but late rice lodged in parts by untimely heavy rains in first week of November. Crop in Deccan suffered places north due absence of late rains but progressed satisfactorily elsewhere, though slightly damaged in naval tract by recent rains. In Karnatak crop suffered in places due deficient rain and poor yield expected. Early varieties harvested or being harvested while late ones attaining matu- rity. Central Provinces.—Crop benefited by light to moderate showers of rain, which were well distributed at beginning of October. Outturn above normal expected. Sind.—Since last report crop in Sukkur, Upper Sind, Frontier and Karachi districts suffered owing deficiency of water. For same reason crop in Tando division of Hyderabad district is a failure. In Karachi district rice crops generally poor and many of late varieties will not mature. Early varieties harvested or being harvested while late ones attaining maturity. Madras.—Paddy: Harvest of first crop either concluded or is conclud- ing in Coimbatore, Trichinopoly, south and west coast. Yield reported to be generally normal, except in districts of Coimbatore and Tinnevely, where reported to be below normal due to insufficient supply of water in Channels. Crop in parts of Dec- can, Carnatic and Central districts reported to have been affected by drought to some extent. Con- dition of crop reported to be generally satis- factory in other districts. Sugarcane: Assam.— Weather generally favourable for crop since last forecast. Slight change anticipated in percentage outturn estimated in first forecast. Bihar and Orissa.—No change in the condition factor for crop which remains at 93 per cent of past ten years' average. Bombay.—Crop progressing satisfactorily almost everywhere in Presidency, except parts in Karnatak and north Deccan where somewhat suffer- ing from deficient moisture. Attack of leaflice

in Panch Mahals now abating. Recent rains reported improving crop generally. Central Provinces.—Estimate of outturn given in last forecast, viz., 112.5 per cent of normal remains unchanged. Sind.—Crop progressing satisfactorily everywhere. Crop being cut and sold for chewing purposes in some parts. Madras.—Crop affected somewhat by drought in summer and subsequent heavy rains in parts of Ganjam and Vizagapatam, and by drought in Bellary, Anantapur, Cuddapah, Madura and parts of Ramnad. Condition of crop satisfactory in other districts and yield expected to be normal if season continues to be favourable. *Groundnuts*: 1934 crop. Madras.—Condition of winter crop of groundnut satisfactory in Vizagapatam, Chingleput, south Arcot, Chittoor and north Arcot. Crop affected by late sowing and subsequent heavy rains in Ganjam, and by drought to some extent in other districts, especially in light soils of Bellary, where it is reported to have suffered very much. *Gingelly*: 1934-35 Crop. Madras.—Yield of crop expected to be normal only in Madura, Ramnad, Tinnevely and west Coast. Crop affected to some extent by drought in most of other districts. Bombay, 8th November.—Cotton: Market steady. No. 3 Fine M. G. Oomras Rs. 184½ December-January, 1935.

Calcutta, 10th November.—Jute market rather quieter in tone with small business reported done with shippers in Firsts at Rs. 25-10 for ready. Hessians ruled quiet in sympathy with lower *Futka* market. Nine Porters Rs. 8-11; Elevens Rs. 11-2 Ready. Heavies dull and buyers showing little interest. B. Twills Rs. 24-4 for November shipment.

Calcutta, 9th November.—Shellac T. N. Rs. 40-8. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 10th November.—Paddy Rs. 75 to Rs. 76 (river) and Rs. 74 to Rs. 75 (rail).

Wheat: 8th November: Lyallpur.—Rs. 2-0-6 f.o.r. per maund. 9th November: Karachi.—Punjab White Rs. 20-3-6 per candy.

Twenty-first Tea sale, Calcutta, 5th and 6th November.—19 thousand chests Leaf for export and 10 thousand chests for Internal consumption, average price As. 8-5 and As. 4-11, respectively, and 9 thousand chests Dust at As. 5-1, sold. Fair demand. Clean Common Pekoes and most grades of Fannings maintained their former level and there was continued good enquiry for any Orange Pekoes with style and tip; also for any teas showing signs of improved quality. Pekoes, both common and medium kinds, easier by about 3 pies per lb., and all commonest grades only required at similar drop in value. *Internal Consumption*: Enquiry general and demand good. Prices, however, frequently in buyers' favour for plain Broken Pekoes and most grades of Fannings; other kinds show little change in value. Market for Dusts less animated. Best grainy types, and thick liquoring kinds sold at former prices, but there was good deal of irregularity for inferior grades and a decline of 3 pies per lb. was frequent.

TRADE OF BURMA IN SEPTEMBER, 1934.

The Report on the principal variations in the trade of the province of Burma (excluding Government Stores, Treasure and Inter-portal trade) during the month of September, 1934, as compared with the corresponding period of 1933, states:—

TOTAL TRADE.

The total trade of the province of Burma, both imports and exports, foreign and coasting combined during the period under review increased to Rs. 504.5 lakhs from Rs. 401.04 lakhs.

The foreign import trade increased to Rs. 80.0 lakhs from Rs. 63.98 lakhs, while the foreign export fell from Rs. 110.92 lakhs to Rs. 104.69 lakhs, the decrease being Rs. 6.23 lakhs.

Coasting imports dropped from Rs. 69.10 lakh to Rs. 61.38 lakhs, while coasting exports expanded from Rs. 157.06 lakhs to Rs. 258.47 lakhs.

FOREIGN TRADE.

The total of imports and exports was Rs. 184.6 lakhs as against Rs. 174.88 lakhs, showing an increase of Rs. 9.81 lakhs.

(a) *Imports*.—The total value of merchandise increased by Rs. 16.04 lakhs to Rs. 80.00 lakh. The following were the items which showed increase the value and the amount of increase being noted against each:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Mining machinery	5.83	4.70
Sugar machinery	2.08	2.07
Cotton twist and yarn	1.53	1.17
Cotton piecegoods, coloured, etc.	8.20	2.94
Cotton blankets	1.72	1.49

Fuel oil to an extent of 9,853 tons valued at Rs. 3,26,560 was imported during the month under report against nil in the corresponding period of the last year.

(b) *Exports*.—The decrease in the export trade of Indian merchandise was Rs. 6.23 lakhs, and the principal articles that contributed to the same were the following:—

	Value. Rs. lakhs.	Decrease. Rs. lakhs.
Rice not in the husk	41.22	4.58
Zinc or spelter	1.80	2.64
Paraffin wax	11.08	8.30

No copper matte was exported in September this year, whereas in the corresponding period of last year a quantity of copper matte valued at Rs. 4.43 lakhs went out of Burma.

Increases were, however, noticed in the following articles, the value and the amount of increase being noted against each:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Rice bran	7.33	4.80
Beans	2.18	1.73
Lead, pig	14.56	1.54
Tin ore	6.50	1.36
Wolfram ore	4.34	3.97
Teak wood	5.84	1.42

COASTING TRADE.

The combined value of imports and exports was Rs. 319.85 lakhs as against Rs. 226.16 lakhs, showing an increase of Rs. 93.68 lakhs.

(a) *Imports*.—The total value of merchandise decreased from Rs. 69.10 lakhs to Rs. 61.38 lakhs. The following were the principal articles which showed decreases:—

	Value. Rs. lakhs.	Decrease. Rs. lakhs.
Coal	1.92	2.03
Machinery	.31	7.63
Cotton twist and yarn	3.48	1.56
Cotton piecegoods—coloured, etc.	5.75	1.64
Jute gunny bags	4.92	2.50

Increases were, however, noticed in the following articles:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Fish—dry—unsalted	3.78	2.22
Seeds	2.85	2.55
Cotton piecegoods—White	3.78	1.27

(b) *Exports*.—The total value of merchandise increased from Rs. 157.06 lakhs to Rs. 258.47 lakhs. The following were the principal articles which showed increases:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Paddy	2.61	2.33
Rice	64.17	19.08
Petrol	52.64	29.47
Kerosene	97.06	42.05
Teak wood	17.63	5.76
Other timber	2.44	1.37

A decrease of Rs. 3.08 lakhs was noticed against the item "Lubricating oil", the value of exports being Rs. 3.43 lakhs as against Rs. 6.51 lakhs in September, 1933.

PROGRESSIVE TOTALS.

The progressive total of imports and exports, foreign and coasting combined, for the six months ending September, 1934, amounted to Rs. 34,34.43 lakhs as against Rs. 31,03.31 lakhs during the same period in the previous year, thus showing an increase of Rs. 331.12 lakhs.

The progressive total of foreign trade, both imports and exports, for the six months ending September, 1934, amounted to Rs. 12,02.77 lakhs as against Rs. 12,91.37 lakhs, thus showing a decrease of Rs. 88.60 lakhs, while that of the coasting trade of both imports and exports increased by Rs. 419.72 lakhs to Rs. 22,31.66 lakhs.

REPORT ON CONDITIONS IN THE ARGENTINE GRAIN TRADE FOR SEPTEMBER, 1934.

[From a Buenos Aires Correspondent to the Imperial Council of Agricultural Research, India, under date of 2nd October 1934.]

Wheat.

Supplies.—438,890 metric tons of wheat and 6,874 tons of wheat flour, a total of 445,764 tons were exported during September as compared to 469,475 tons in the previous month and 212,753 tons in September, 1933. The statistical position now (at the end of September) as compared with that at the corresponding time of 1933 is as follows:—

	1933-34.	1932-33.
	Tons	Tons
Second Official estimate of crop	7,787,000	6,405,993
Carry over from previous crop	199,294	300,559
Total Supplies	7,986,294	6,706,552
Seed and domestic requirements	2,600,000	2,600,000
Balance available for export	5,386,294	4,106,552
Exported to end of September	3,694,373	3,625,173
Balance still available for export	1,691,921	481,379

As will be seen from the above, shipments overseas continue on a high level, and although the freight market has been less active recently, there is still a good volume of tonnage booked, something over 1,800,000 tons, which would indicate a continuance of fairly heavy exportation up to the end of the year. If the present rate is maintained during the remaining three months of the current year, the carryover looks like being not very much more than normal.

Receipts from country points are only moderate. Not a great deal of wheat remains in the hands of the farmer, and according to a statement just published by the Grain Control Board, the balance of wheat remaining in the hands of the Board unsold has been reduced to 560,000 tons.

Markets.—Throughout the month market conditions here have been very unsatisfactory, and there has been a steady decline in price levels, the demand having been inadequate to take care of the liberal offerings.

The month closed with Spot wheat worth 6.30 pesos per quintal, and December 6.73, equal to 55½c. and 59½c. Canadian per bushel at current rates of exchange. In Winnipeg on the same day December closed at 82½c. per bushel.

New Crop.—Weather conditions during the month have been very favourable for the new crop of wheat. Frosts visited various localities, especially in Santa Fé and Cordoba, on the 11th and 12th September, and some were also reported on the 13th and 14th September.

The monthly report of the Ministry of Agriculture made its appearance on the 26th September, and from it the following extracts are taken:—

Buenos Aires.—The general condition of the wheat may be considered good, although a large part of the crop is somewhat behind in development for the period of the year. The plants have rooted well, present a vigorous appearance and have a good colour. No damage is reported. The frosts of the first half of the month were not severe and their effects were ameliorated by the moist condition of the soil and by the abundant and general rains which immediately followed. The fields which were in the least satisfactory condition in some parts of the south and west, and which until the first days of September gave rise to fears of important losses through drought, have re-acted appreciably since the rains and now look well. On the other hand, in the central zone of the province the excessive humidity of the soil has prevented a normal development, and this is the least satisfactory district.

Santa Fé.—The condition of the wheat fields in the province is good, with the exception of the damage which may have been caused by the frosts of the 11th and 12th September, and which can only be estimated later on; but it may be supposed that the humidity of the soil proved a good defence and ameliorated their effects. In the north the warm temperature and rains in previous months caused excessive development of foliage, which became very thick. The stalks appear strong, the plants are a good height and present a healthy appearance. No damage from drought is to be seen, although the condition of the fields which were eaten down by locusts is somewhat deficient by reason of the soil having been exposed to the sun too much. In some districts in the south the plants are very thick and have been losing colour. Some rust is also to be seen. There is some frost damage in the fields where the stalk is forming. In the rest of the region the wheat fields have attained a height of ten to twelve inches and look well.

Cordoba.—Generally speaking, in the various zones of this province the condition of the wheat is not considered satisfactory. In the north the greater part of the crop is heading out and presents various aspects according to the amount of the local precipitation and the devastations of the locusts, especially in some places where these were accompanied by drought. The damage caused by the frosts of the 11th and 12th September cannot yet be estimated, but it is certain that some was pro-

duced in view of the condition of the plants, although it would be much alleviated in the zones most favoured by rains. In the centre and east of the province the condition of the wheat is good, the vegetation strong and in many cases excessive, but in general even and healthy. In the south and south-west, where the drought was the most felt, the plants have a thin development above ground, but they have resisted the lack of moisture, and it is expected that the recent rains will be of great benefit. The sanitary condition of the plants is satisfactory, and the late frosts have done little damage, only the most backward fields being affected.

Entre Rios.—The early sown wheats are already heading, if indeed only a small proportion. The height of the plants varies according to the time of sowing of each lot; but in general the condition is good to very good in respect of development, colour, abundance of foliage and sanitary condition.

The Pampa.—The condition of the wheat is good in general, the stalks having begun to form in the north of the territory. The late sowings, which had germinated and sprouted unevenly, now present a uniform appearance and stimulated by the moisture provided by the rains which fell during the month, the growth is vigorous and there is no evidence of the presence of vegetable plagues.

Santiago del Estero.—From seeding right up to the present moment the climatic conditions have been favourable for the normal development of the wheat crop, and now 40 per cent is more or less advanced for the season and has been partially affected by the late frosts. In general the condition of the wheat fields is good. Flying locusts have caused damage in the Rivadavia district, but no appreciable damage by other plagues is to be seen.

Assistance to Farmers.—The Argentine National Bank announces that it is prepared to make advances to farmers in order to enable them to construct granaries on the farms so as to avoid the necessity of dumping their wheat on the market as soon as it is harvested, with the consequent detrimental effect on prices.

Loans are to be made available to tenant farmers with up to 125 acres of crop, of the equivalent of \$400. (Canadian), for building portable granaries of specified capacity; those with 200 acres under crop, \$700; those with 500 acres, \$1,100; and for landowners whose land is worked by tenants, loans not exceeding \$10,000 will be available for the construction of granaries for the use of tenants who may not be in a position to contract a loan themselves. All the loans will bear 5 per cent interest, and will be repayable in five annual instalments.

If advantage is taken of this scheme to any extent it will help to prepare the way for the modernising of the Argentine grain handling methods by the installation of the national system of elevators which

Nov. 15, 1934.]

is being planned by a commission with the assistance of Canadian experts at the present time, and will facilitate the change from bags to bulk handling.

Maize.

Exports of maize during the month of September were 494,577 tons, as against 574,094 tons shipped in August.

Near the end of the month the Ministry of Agriculture made public its second estimate of the volume of the 1933-34 crop of maize, viz., 5,901,000 metric tons, and increase of 401,000 tons over the first.

According to the statement issued by the Ministry, the area seeded to Maize was 16,089,580 acres, of which there was lost or proved unfit for harvesting 6,372,600 acres leaving to be harvested an area of only 9,716,980 acres.

As will be seen the average yield on this reduced acreage works out at nearly 24 bushels per acre.

The present crop is inferior by 900,504 tons to that of last year, and is 1,819,898 tons below the average for the five year period 1928-29—1932-33, which was 7,720,898 tons.

The new estimate is regarded as still too low by most of the grain trade, who are inclined to add another 400,000 tons to the governmental figure. But using for the present the official figures, the following is now the statistical position:—

	Tons.
Revised official estimate, 1933-34 crop	5,901,000
Official estimate carry over from 1932-33	57,995
Total supplies	5,958,995
Deduct for domestic consumption	1,280,000
Deduct for seed grain	150,000
	1,430,000
Available for export	4,528,995
Exported to September 30th	3,240,573
Balance still available	1,288,422

In common with wheat and other grains, maize has suffered a considerable reduction in price during the month. Most of the time the price per bushel of wheat and maize have been nearly on a parity, but latterly maize has been quite appreciably higher than wheat, and at the close of the month was quoted 36 centavos per quintal higher.

Spot Yellow for export closed at \$6.67 paper pesos per 100 kilos and the December option at \$7, alongside in the port of Buenos Aires, equivalent to 56c. and 58½c. per bushel (U. S.) at the current rates of exchange. On the same day Chicago Dec. closed at 77½c. per bushel.

In the local market, Red closed at \$7, White at \$7.20 and Cuarenteno at \$7.20 per quintal.

Considerable maize has already been sown for the new crop. In some districts the work was done prematurely in view of the wetness of the soil and the coolness of the temperatures, and the fields will have to be reseeded. But generally speaking the land is in excellent condition for ploughing and cultivating, and encouraged by the high prices received for the last crop, the farmers are actively and enthusiastically prosecuting the work with a view to planting the utmost possible acreage. Reports from every direction indicate a probable increase in the area sown.

Linseed.

103,893 tons were shipped out during September as compared with 85,840 tons in August and 79,800 tons in September, 1933. The supply position is now as under:—

	1933-34.	1932-33.
	Tons.	Tons.
Second Official estimate of crop	1,440,000	1,328,609
Carry over from previous crop	13,579	47,943
Total Supplies	1,453,579	1,376,552
Deduct for seed and domestic requirements	190,000	190,000
Exportable balance	1,263,579	1,186,552
Exported to end of September	1,105,846	1,161,966
Balance still available	157,733	24,586

The market has been very quiet during the month until the last week, when some little animation was shown and prices improved a little, but not sufficient to offset the decline already recorded as compared with the previous month. Neither Europe nor the United States was in the market for any great quantity of seed. But with the small balance still on hand as shown by the above statement, the lack of present demand is not a cause of worry.

At the close of the month Spot Linseed was quoted at \$12.90 paper pesos per quintal, and the November option at \$13.20, equal to per bushel 108½c. and 110½c. U. S. at prevailing exchange rates. At the same time Dec. was being quoted in Duluth at 184c. per bushel.

The new crop is progressing favourably. Some frost damage has been sustained, especially to the linseed already in flower, and in the north the locusts have been busy in some districts. But it is not anticipated that the losses will be at all serious. In Entre Rios there are complaints that weeds are getting ahead, but in the other zones the fields are reported generally clean.

Oats.

September exports were 72,108 tons, as against 43,848 in August. This leaves the supply position as under:—

Second Official estimate 1933-34 crop	Tons.
Carry over from 1932-33	833,000
	138,121
Total	971,121
Deduct for seed and domestic requirements	460,000
Exportable balance	511,121
Exported to September 30th	316,722
Balance still available	194,399

Oats have maintained their price level relatively better than the other grains, having only declined from \$6.10 to \$5.85 paper pesos per quintal during the month (say 31½c. to 29½c. U. S. per bushel). This strength has been due to the sustained demand, particularly from the United States, which bought a number of cargoes.

From practically all districts reports indicate that the new crop is making good progress, having been greatly benefited by the rains during the past month.

Barley.

September exports were only 18,306 tons, as compared with 25,911 tons in the previous month.

There is still a considerable stock available for export, as shown in the following statement:—

Second Official estimate, 1933-34	Tons.
Carry over from 1932-33	784,000
	102,547
Total	886,547
Seed and domestic requirements	143,000
Balance for export	743,547
Exported to September 30th	515,671
Balance still available	227,876

The market is quiet, but a reasonably firm tone prevails. Spot feed barley for export is worth \$7.85 paper pesos per 100 kilos, with brewing grades nominally 10 per cent higher.

**EXTRACT FROM LINSEED CIRCULAR
ISSUED BY THE IMPERIAL COUNCIL
OF AGRICULTURAL RESEARCH, INDIA.**

No. 43 of 1934.

London, 26th October, 1934—

Quotations for Linseed and Linseed Oil—	£ s. d.
Indian Linseed.—October-November delivery c.i.f. per ton	10 15 0
Argentine Linseed.—October-November delivery c.i.f. (excluding duty) per ton	9 12 6
Linseed Oil.—October-November delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	18 0 0

Market Conditions.—The easy tone reported last week has developed further with only occasional interest shown for early shipments of Calcutta seeds. The easiness of oil and lack of demand for cakes in view of the open weather have been contributory factors to the weakness of the market. Varying Argentine weather reports have also had a depressing influence on prices. The La Plata new crop came in for some attention on the Continent.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 16th October, 1934—

Quotations for Linseed Oil—	
Linseed Oil, European make (Raw)	Rs. 1-8-6 per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1-10-6 per gallon f.a.s.

Market Conditions.—The linseed market is practically unchanged.

Bombay, 20th October, 1934—

Quotations for Linseed Oil—	
Linseed Oil	Rs. 3-8-0 per maund.

Imports of Linseed into United Kingdom:—

		During January to September.		
	During September, 1934.	1934.	1933.	1932.
	Tons.	Tons.	Tons.	Tons.
From Argentina	125	42,331	109,992	263,071
From British India	9,834	109,657	68,033	5,167

No. 44 of 1934.

London, 2nd November, 1934—

Quotations for Linseed and Linseed Oil—	£ s. d.
Indian Linseed.—November-December delivery c.i.f. per ton	10 12 6
Argentine Linseed.—November-December delivery c.i.f. (excluding duty) per ton	9 3 9
Linseed Oil.—November-December delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	17 7 6

Market Conditions.—Offers of Calcutta seed were more pressingly made at about 5s. decline and United Kingdom interest became rather better. Prices generally may still be retarded owing to continued satisfactory account of Argentine crop. Fair business

THE INDIAN TRADE JOURNAL.

recorded in La Plata seeds to United Kingdom and France.

[NOTE (i). Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 24th October, 1934—

Quotations for Linseed Oil—	
Linseed Oil, European make (Raw)	Rs. 1-8-6 per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1-10-6 per gallon f.a.s.

Market Conditions.—The linseed market has registered a further decline in sympathy with Home markets, shippers buying very cautiously.

Bombay, 27th October, 1934—

Quotations for Linseed Oil—	
Linseed Oil	Rs. 3-5-0 per maund.

Stocks of Linseed.—Linseed stock in Bombay on the 27th October, 1934, was estimated at 7,000 tons with merchants and 7,000 tons with offices.

TRADE OF ADEN IN SEPTEMBER, 1934.

—At page 838 of this issue is published a return of the trade of the Port of Aden for September, 1934. The number of merchant vessels over 200 tons that used the Port in September, 1934, was 126 as compared with 107 in the corresponding month last year, and the total tonnage was 530,000 as compared with 441,000. Excluding Coal, Salt, Fuel Oil and Military and Naval Stores and Transport Cargo, the total tonnage of Imports in the month was 7,700 and of Exports 5,000 as compared with 7,000 and 4,500, respectively, for the corresponding month last year. The total value of Imports excluding Government Stores was Rs. 31,95,000 as compared with Rs. 38,17,000 for September, 1933, and of Exports Rs. 20,70,000 as compared with Rs. 26,08,000. The total value of both Imports and Exports together was Rs. 52,65,000 as compared with Rs. 64,25,000 for the corresponding month last year. Imports during the month were above those for September, 1933, in the case of Seeds, Sugar and Tobacco, unmanufactured and below in the case of Coffee, Grain, Pulse and Flour, Gums and Resins, Hardware, Hides, raw, Skins, raw, Piecegoods, Grey, White and Printed or Dyed, Twist and Yarn, Tobacco, manufactured and Treasure, Private. Exports were above those for September, 1933, in the case of Grain, Pulse and Flour, Sugar and Tobacco, unmanufactured; and below in the case of Coffee, Gums and Resins, Hardware, Hides, raw, Seeds, Skins, raw, Piecegoods, Grey, White and Printed or Dyed, Twist and Yarn, Tobacco, manufactured and Treasure, Private.

BOOKS OF REFERENCE.

The following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta:—

U. K. and Parliamentary Publications—

Mines Department.—Coal Mining Industry—Statistical summary of Output and of the costs of production, proceeds and profits of the coal mining industry for the quarter ended 30th June, 1934.

Output and Employment at Metalliferous Mines Quarries, etc., during the quarter ended 30th June, 1934.

Trade and Navigation.—Accounts relating to Trade and Navigation of the United Kingdom for each month during the year 1934—September, 1934.

India.—The Forest Research Institute—Forest Research in India, 1933-34. (Price Re. 1-12.)

Department of Commerce—List of Steamers, Motor Vessels, Steam Launches, etc., registered in India under the Merchant Shipping Act, 1894, for the year 1933. (Price 10 as.)

Punjab.—Department of Agriculture—Report on the Season and Crops of the Punjab for the agricultural year ending 30th June, 1934.

Department of Industries—Report on the Department of Industries for the year ending 31st March, 1934.

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) *Accounts relating to the Coasting Trade and Navigation of British India for August, 1934.* (Price Rs. 3-12.) This publication contains statistical tables showing the coastal trade registered at the British Indian ports, i.e., the trade of these ports with one another and with Indian ports not British for the month of August and the five months ended August, 1934, as compared with the corresponding periods of the preceding two years.

(2) *Return showing the total gross Indian Sea and Land Customs Revenue (excluding Salt Revenue) in the month of October, 1934, and in the seven months ended October, 1934, as compared with the corresponding periods of the two preceding years.* (Price one anna.) The return contains the details of duty collected on the principal articles of import and also on the export of jute, rice, and raw skins together with the amounts of excise duty collected on silver, motor spirit, kerosene oil, sugar and matches and land customs and miscellaneous receipts. The actuals for the years 1932-33 and 1933-34 and the budget estimates for 1934-35 under the specific heads of revenue are also shown therein.

(3) *Monthly Statistics of the Production of Certain Selected Industries of India, August, 1934.* (Price As. 2.)

(4) *Wholesale Prices of Certain Staple Articles of Trade at Selected Stations in India—No. 3 of 1934.* (Price As. 5 or 6d.) This publication shows wholesale prices of certain staple articles of trade at Selected Stations in India during the first week of each quarter in 1933 and the months of July, August and September, 1934.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

STATE RAILWAY EARNINGS—

The total approximate gross earnings of all State-owned Railways for the week ending the 20th October, 1934 (29th week), amounted to Rs. 1,59 lakhs, Rs. 14 lakhs less than the figures for the preceding week—calculated at 7/13th of the period (13 days) ending the 13th October, 1934—and Rs. 14 lakhs more than the actuals for the corresponding week of the previous year and Rs. 4 lakhs more than the actuals for the corresponding week of 1932-33.

Nov. 15, 1934.]

The total approximate gross earnings from the 1st April, to the 20th October, 1934, amount to Rs. 47.71 crores or Rs. 2,79 lakhs more than the actuals for the corresponding period of the previous year and Rs. 352 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year :—

Railways.	Up to 20th October, 1933.	Up to 20th October, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)

N. W.	7.18	7.71	+53
S. I.	2.91	3.03	+12
Tirhoot & Lucknow-Bareilly.	98	99	+1
Other Railways	21	23	+2
TOTAL	44.92	47.71	+2.79

A comparison with the figures of the previous week—calculated at 7/13th of the period (13 days) ending the 13th October, 1934—for the principal State-owned Railways shows decreases in the approximate gross earnings of all Railways except the B., B. and C. I. and Burma. A comparison with the actuals of the corresponding week of 1933, shows increases in the approximate gross earnings of all the principal State-owned Railways except the Assam-Bengal.

The principal variations in earnings as compared with the actuals for the corresponding week of the previous year, in thousands of rupees, were :—

A. B.	—26; coaching earnings (—3), goods earnings (—16) and other earnings (—7).
B. N.	+75; due mainly to increased passenger earnings.
B., B. & C. I.	+2.99; coaching earnings (+1.07) due to Kharaj fair held at Ajmer, goods earnings (+1.85) under coal, grains, oilseeds, cotton and other traffic in full wagon loads and other earnings (+7).

Burma . . . +25; coaching earnings (+19) and goods earnings (+6).
E. B. . . . +81; coaching earnings (+19), goods earnings (+57) under coal, home line stores, jute and ballast and other earnings (+5).

E. I. . . . +2.38; coaching earnings (+2.00) due to Durga Puja holidays traffic and goods earnings (+38) due to more despatches of iron, tea, cement and kerosene oil.

G. I. P. . . . +1.52; coaching earnings (—65), goods earnings (+2.11) under oilseeds, coal for public and general merchandise and other earnings (+6).

M. & S. M. . . . +1.72; coaching earnings (+26), goods earnings (+1.43) due mainly to larger movements of rice, ground-nuts, cotton-seeds, tobacco and food grains other than wheat and rice and other earnings (+3).

N. W. . . . +3.48; coaching earnings (+53) due to the earnings from Dusehra holiday return tickets issued during the week, goods earnings (+2.86) due mainly to increased earnings from cotton raw and manufactured, wheat, gram and pulses, salt, oilseeds and iron and steel, and other earnings (+9).

S. I. . . . +55; coaching earnings (+20) due to more long distance passengers and greater coolie traffic to Ceylon, goods earnings (+34) under grains, cotton, til seeds, potatoes and coconut oil and other earnings (+1).

Tirhoot and Lucknow-Bareilly . . . +29; due chiefly to increased passenger traffic on the B. & N. W. and R. & K. Railways.

The total approximate gross earnings of all State-owned Railways for the week ending the 27th October, 1934 (30th week), amounted to Rs. 1,62 lakhs, Rs. 3 lakhs more than the figures for the preceding week and Rs. 10 lakhs more than the actuals for the week and Rs. 12 lakhs more than the actuals for the corresponding week of the previous year and Rs. 12 lakhs more than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April, to the 27th October, 1934, amount to Rs. 49.40 crores or Rs. 2,96 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,71 lakhs more than the actuals for the corresponding period of 1932-33. The following are the up-to-date approximate gross earnings of the State-owned Railways from the

1st April, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 27th October, 1933.	Up to 27th October, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)
A.-B.	85	1,02	+17
B.-N.	4,02	4,87	+85
B., B. & C. I.	5,62	5,91	+29
Burma	1,85	2,01	+16
E. B.	2,79	2,90	+11
E. I.	9,49	10,30	+81
G. I. P.	6,21	6,44	+23
M. & S. M.	3,92	4,04	+12
N. W.	7,44	8,03	+59
S. I.	3,02	3,12	+10
Tirhoot and Lucknow-Barilly.	1,01	1,02	+1
Other Railways	22	24	+2
[TOTAL]	46,44	49,40	+2,96

Credit adjustments to the extent of Rs. 7 lakhs (approximately) have been made in the above figure of Rs. 49.40 crores, on account of the difference between the approximate and audited gross earnings for the month of August, 1934, as detailed below:—

Railways.	Rs.
A.-B.	—48,000
B.-N.	+1,72,000
B., B. & C. I.	—2,27,000
Burma	+24,000
E. B.	+1,99,000
E. I.	—1,66,000
G. I. P.	+6,10,000
N.-W.	+1,60,000
S. I.	—46,000
Jodhpur-Hyderabad Section	+56,000
Other minor adjustments	—13,000
TOTAL	+7,21,000

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways, except the B.-N., B., B. and C. I., Burma, E. B. and S. I. A comparison with the actuals of the corresponding week of 1933 shows increases in the approximate gross earnings of all the principal State-owned Railways, except the B.-N., Burma, E. B. and S. I.

The principal variations in earnings as compared with the actuals of the corresponding week of the previous year, in thousands of rupees, were:—

A.-B.	+34; coaching earnings (—4), goods earnings (+34) due to more bookings of rice, kerosene oil and petrol and other earnings (+1).
-------	--

B.-N.	—23; coaching earnings (+22) goods earnings (—48) under coal, manganese ore, lime and iron ore and other earnings (+3).
B., B. & C. I.	+1,49; coaching earnings (+7) goods earnings (+135) under coal and coke, grains and pulse oilseeds, cotton and miscellaneous traffic in full wagon loads and other earnings (+7).
Burma	—88; coaching earnings (—2) at goods earnings (—86) due to fall in grain and potato traffic.
E. B.	—1,20; coaching earnings (+1) goods earnings (—1,34) due heavy fall in jute traffic and other earnings (+5).
E. I.	+5,08; coaching earnings (+4) due to more bookings of 3 class passengers and goods earnings (+1,68) under coal, tea, piecegoods, cotton seeds, gram and pulse and oilseeds.
G. I. P.	+21; coaching earnings (—49) due mainly to decrease in other coaching earnings, goods earnings (+69) under general merchandise and other earnings (+1).
M. & S. M.	+1,22; coaching earnings (+11), goods earnings (+1,10) due to larger movements of rice, groundnuts, cotton, cotton seeds and food grains other than wheat and rice and other earnings (—8).
N. W.	+4,14; coaching earnings (+30) due mainly to fall in other coaching earnings and partly in passenger earnings, goods earnings (+3,97) under wheat, rice not in husk, oilseeds, sugar, fruits and vegetables and petrol and other earnings (+47).
S. I.	—97; coaching earnings (—18), goods earnings (—83) due to loss movement of groundnuts and other earnings (+4); heavy rainfall during the week adversely affected both coaching and goods earnings.
Tirhoot and Lucknow-Barilly	+30; due to improved passenger and goods traffic on the B. and N.-W. and R. and K. Railways.

WAGONS OF REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 20th October, 1934, and for the cumulative period from the 1st April, to the 20th October, 1934, with the corresponding periods of the previous year are as follows:—

(a) Total loadings during the week.

During the week ending the 20th October, 1934 there were loaded on the broad gauge 66,521 wagons being 4,498 more than in the corresponding week of

the previous year, or an increase of 7.25 per cent. On the metre gauge there were loaded 44,102 wagons, being 5,765 more than in the corresponding week of the previous year, or an increase of 15.0 per cent.

(b) Cumulative loadings from the 1st April, 1934.

(i) For the period from the 1st April, to the 20th October, 1934, there were loaded on the broad gauge 2,186,113 wagons, being 147,718 more than in the corresponding period of the previous year, or an increase of 7.25 per cent, and on the metre gauge 1,372,929 wagons, being 85,812 more than in the corresponding period of the previous year, or an increase of 6.67 per cent.

(ii) *Coal and coke*.—In the same period 548,656 wagons, broad and metre gauge, were loaded as compared with 494,694 in the corresponding period of the previous year, being 53,962 more, or an increase of 10.9 per cent. In addition, 62,136 wagons, broad gauge, were loaded during the period by the B.-N. and E. I. Railways for their own use, as compared with 54,629 in the corresponding period, being 7,507 more, or an increase of 13.7 per cent.

(iii) *Grains and pulses*.—In the same period 469,044 wagons, broad and metre gauge, were loaded as compared with 405,687 in the corresponding period of the previous year, being 63,357 more, or an increase of 15.6 per cent.

(iv) *Oilseeds*.—In the same period 129,388 wagons, broad and metre gauge, were loaded as compared with 131,838 in the corresponding period of the previous year, being 2,450 fewer, or a decrease of 1.86 per cent.

(v) *Cotton*.—In the same period 76,514 wagons, broad and metre gauge, were loaded as compared with 66,761 in the corresponding period of the previous year, being 9,753 more, or an increase of 14.6 per cent.

(vi) *Home line stores and materials*.—In the same period 205,160 wagons, broad and metre gauge, were loaded as compared with 185,192 in the corresponding period of the previous year, being 19,968 more, or an increase of 10.8 per cent.

(vii) *Miscellaneous smalls*.—In the same period 872,476 wagons, broad and metre gauge, were loaded as compared with 847,047 in the corresponding period of the previous year, being 25,429 more, or an increase of 3.00 per cent.

(viii) *Miscellaneous full wagons*.—In the same period 1,257,804 wagons, broad and metre gauge, were loaded as compared with 1,194,293 in the corresponding period of the previous year, being 63,511 more, or an increase of 5.23 per cent.

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 27th October, 1934, and for the cumulative period from the 1st

April, to the 27th October, 1934, with the corresponding periods of the previous year are as follows:—

(a) Total loadings during the week.

During the week ending the 27th October, 1934, there were loaded on the broad gauge 76,456 wagons, being 10,693 more than in the corresponding week of the previous year or an increase of 16.3 per cent. On the metre gauge there were loaded 42,817 wagons, being 32 more than in the corresponding week of the previous year or an increase of 0.08 per cent.

(b) Cumulative loadings from the 1st April, 1934.

(i) For the period from the 1st April, to the 27th October, 1934, there were loaded on the broad gauge 2,262,626 wagons, being 158,406 more than in the corresponding period of the previous year, or an increase of 7.52 per cent, and on the metre gauge 1,415,395 wagons, being 85,057 more than in the corresponding period of the previous year, or an increase of 6.39 per cent.

(ii) *Coal and coke*.—In the same period 567,678 wagons, broad and metre gauge, were loaded as compared with 509,861 in the corresponding period of the previous year, being 57,817 more, or an increase of 11.3 per cent. In addition, 64,052 wagons, broad gauge, were loaded during the period by the B.-N. and E. I. Railways for their own use, as compared with 55,978 in the corresponding period, being 8,074 more, or an increase of 14.4 per cent.

(iii) *Grains and pulses*.—In the same period 481,357 wagons, broad and metre gauge, were loaded as compared with 418,406 in the corresponding period of the previous year, being 62,951 more, or an increase of 15.0 per cent.

(iv) *Oilseeds*.—In the same period 132,207 wagons, broad and metre gauge, were loaded as compared with 134,992 in the corresponding period of the previous year, being 2,785 fewer, or a decrease of 2.06 per cent.

(v) *Cotton*.—In the same period 78,970 wagons, broad and metre gauge, were loaded as compared with 68,926 in the corresponding period of the previous year, being 10,044 more, or an increase of 14.6 per cent.

(vi) *Home line stores and materials*.—In the same period 211,758 wagons, broad and metre gauge, were loaded as compared with 190,924 in the corresponding period of the previous year, being 20,834 more, or an increase of 10.9 per cent.

(vii) *Miscellaneous smalls*.—In the same period 905,568 wagons, broad and metre gauge, were loaded as compared with 876,682 in the corresponding period of the previous year, being 28,886 more, or an increase of 3.30 per cent.

(viii) *Miscellaneous full wagons*.—In the same period 1,300,483 wagons, broad and metre gauge, were loaded as compared with 1,234,767 in the corresponding period of the previous year, being 65,716 more, or an increase of 5.32 per cent.

WORKING EXPENSES OF STATE-OWNED RAILWAYS—

The following are the approximate ordinary working expenses including suspense but excluding appropriation to and from depreciation fund of the State-owned Railways from the 1st April to the 30th September, 1934, as compared with the actuals of the corresponding period of last year :—

DRAFT NOTIFICATION FOR CONDITIONS FOR REMISSION OF DUTY ON SALT MANUFACTURED IN OR IMPORTED BY LAND INTO CERTAIN NORTHERN INDIA TERRITORIES WHEN SUCH SALT IS USED FOR CERTAIN INDUSTRIAL PURPOSES—

The following Notification (No. 43-Salt, dated the 10th November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues) :—

The following draft of a notification which the Governor General in Council proposes to issue in exercise of the powers conferred by clause (b) of section 7 of the Indian Salt Act, 1882 (XII of 1882), is published for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration on or after the 1st January 1935. Any objection or suggestion which may be received in respect of the draft before the date specified will be considered by the Governor General in Council.

DRAFT NOTIFICATION.

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT (CENTRAL REVENUES).

NOTIFICATION.

SALT.

New Delhi, the

1935.

No.—In exercise of the powers conferred by clause (b) of section 7 of the Indian Salt Act, 1882 (XII of 1882), and in supersession of the notification of the Government of India in the Finance Department (Central Revenues), No. 4, dated the 4th February 1928, (vide the *Indian Trade Journal*, dated the 9th February, 1928, page 282) the Governor General in Council is pleased to remit the duty imposed under clause (a) of the said section on salt manufactured in or imported by land into the territories within the jurisdiction of the Commissioner, Northern India Salt Revenue, hereinafter referred to as the Commissioner, or with the special approval of the Governor General in Council, within any other place, when such salt is used within those territories for any industrial purpose other than the preparation of refined salt or black salt otherwise known as saunchal salt, or as an ingredient, or preservative in any article of food or drink, subject to the following rules :—

1. Any person intending to use salt in an industrial process (hereinafter referred to as the manufacturer) and wishing to be admitted to the concession shall make an application to the Commissioner stating the industrial purpose for which he intends to use the salt and the approximate quantity of salt required in the year. If he wishes the concession to extend to more than one factory or works, a separate application shall be made for each such factory or works. A concession granted for one factory will not be transferred to another factory. If he intends to use any salt other than salt educed in the manufacture of saltpetre, for which a special low rate of duty has been fixed, he must apply for sanction of the Commissioner, stating the reasons why such educed salt is not suitable for his purposes.

2. If the application is sanctioned, the manufacturer shall pay a supervision fee of Rs. 100 (Rupees one hundred) to cover the cost of requisite inspections and any other departmental expenses involved; provided that no fee shall be payable by a manufacturer admitted to the concession described in these rules who has already paid a fee in respect of his admission to a similar concession under Article 2 in part I of Schedule II to the Indian Tariff Act, 1894 (VIII of 1894), provided also that if the concession is granted after six months of a financial year have expired, the supervision fee payable for the said year shall be Rs. 50 (Rupees fifty only) and that if the full annual fee of Rs. 100

Nov. 15, 1934.]

(Rupees one hundred only) has been paid and a concession is surrendered before the expiry of six months of a financial year or in the case of a new grantee within six months of the grant, Rs. 50 (Rupees fifty only) shall be refunded.

All fees payable under the rules shall be deposited in the nearest district treasury under the head "III—Salt—Miscellaneous", and the treasury receipt forwarded to the Assistant Commissioner, Northern India Salt Revenue, in whose jurisdiction the factory or works are situated, hereinafter referred to as the Assistant Commissioner. The rebate of duty will only be allowed on salt used from the date of deposit of the inspection fee into the treasury.

3. After making this payment the manufacturer shall, in the first instance, provide himself with a duty-paid salt from a salt works, depot or from a firm of salt dealers approved by the Commissioner. At the close of each half year the manufacturer shall submit to the Assistant Commissioner an application for the refund of the duty on the salt used, supported by the receipt of the firm from which the salt has been purchased, or by the permits issued for the removal of the salt, as the case may be. Receipts which must be in the form prescribed by these rules (Form No. A) will not be returned to the manufacturer. A stamped receipt for the amount claimed will be submitted in advance, along with the application for refund. On receipt of the cheque for the amount of rebate claimed, the firm will submit an unstamped receipt to the Assistant Commissioner in acknowledgment of having received the cheque.

4. For the purpose of these rules duty on salt purchased in the market shall be deemed to have been paid at the rate in force on the date of purchase.

5. (1) The application for refund of duty shall contain the following particulars :—

- the balance of salt in store at the beginning of the half year;
- the quantity of salt purchased during the half year;
- the quantity of salt used during the half year and the quantity on which a refund of duty is applied for;
- the balance of salt in store at the close of the half year;
- the quantity, weight and such other details of products manufactured during the half year as may be required by the Assistant Commissioner;
- a declaration stating the product manufactured and the name and situation of the factory or works, and that the salt the factory or works, and that the salt on which a refund of duty is applied for has been used *bona fide* by the applicant in the process of manufacture of such product and has not been used for any other purposes.

(2) The particulars entered in accordance with clauses (i), (ii), (iii) and (iv) of sub-rule (1) shall distinguish between salt on which duty has been paid, or is deemed under Rule 4 to have been paid, at different rates.

6. On receipt of the application for refund, the Assistant Commissioner shall make such enquiry as he thinks fit and when satisfied that the figures contained in the application are correct shall issue orders for the refund of the duty on the salt used in the process of manufacture. In the absence of special sanction from the Commissioner under Rule 1, duty shall not be refunded at a higher rate than that leviable on salt educed in the manufacture of saltpetre at the date of purchase of the salt. A return shall be submitted monthly by the Assistant Commissioner to the Commissioner giving a list of the refunds sanctioned. On receipt of these returns, the Commissioner may order such further enquiry as he considers necessary.

7. The manufacturer shall provide and set apart, for the storage of salt purchased for use in the factory or works a store-room, which shall be, to the satisfaction of the Assistant Commissioner, securely constructed and fitted with a strong door capable of being locked. Salt manufactured within British India and salt imported by sea shall be stored separately in the store-room, as also shall salt on which duty has been paid, or is under Rule 4 deemed to have been paid, at different rates.

8. (1) The store-room shall not be opened except between the hours of sunrise and sunset and then only for one of the following purposes, namely ;

- for the receipt of salt into store;
- for the preparation by grinding or for the issue of salt required for purposes connected with manufacture;
- to allow the stock of salt to be checked by weighment or otherwise by an officer of the Salt Department deputed for the purpose.

(2) The store-room shall not be opened except by or in the presence of the Manager of the factory or works or the store-keeper who shall retain the key in his own possession.

9. All spent-lye or other useless refuse containing salt shall be effectually destroyed on or near the premises in such manner as the Assistant Commissioner may direct.

10. The manufacturer shall maintain a register in Form B which shall be written up daily and signed by the manufacturer or his manager and which shall show particulars of all salt purchased, expended, and stored together with the weight or quantity of products manufactured. Separate registers shall be maintained for salt on which duty has been paid or is under Rule 4 deemed to have been paid at different rates. With the sanction of the Com-

missioner the weight or quantity of the product manufactured may be written up monthly instead of daily.

11. The premises of the factory or works may be entered upon and examined at any time by any officer of the Northern India Salt Revenue Department authorized by the Commissioner or by any officer of the Salt Department of a province other than those within the jurisdiction of the Commissioner, Northern India Salt Revenue, who may be specially empowered in this behalf by the Central Board of Revenue, and due facilities for examining the manufacturer's salt register as well as for checking the stock of salt received, expended and in hand, shall be afforded by the manufacturer and all other persons employed by him. Salt shall be stored in the bags in which it is received from the Salt Works or depot and the bags shall be arranged in tiers so as to facilitate checking and weighing.

12. The manager of the factory or works shall furnish the Assistant Commissioner with a monthly statement to be posted by the 10th of each following month, showing the opening balance of salt at the beginning of the month, the quantity purchased during the month, the quantity expended during the month, the balance at the close of the month and the weight or quantity or other particulars, as may be required, of the article produced for which salt was used. The manufacturer's book showing the weight or quantity of the article dealt with and the product manufactured shall be open at any time to the inspection of any officer of the Northern India Salt Revenue Department.

13. (i) On any breach of these rules by the Manufacturer, or there being reason to believe that the concession of a drawback of duty on the salt used by the said Manufacturer is being otherwise abused, the Government shall be competent to impose a preventive establishment at the cost and expense of the Manufacturer, or to cancel or withdraw the concession granted under these rules, and to forfeit the amount of inspection fee deposited for the year, and the Manufacturer shall on demand refund all duty, the remission of which shall have been wrongfully claimed and sanctioned.

(ii) The manufacturer shall also be responsible for any loss or damage that may be occasioned by the breach of rules referred to in clause (i) above.

FORM A.

FORM OF RECEIPT.

(Rule 3).
Received from _____ the sum of Rs. _____
in payment for _____ maunds of*
salt purchased for use in his factory at _____

Signature of Approved Dealer.

Date _____

* Here state the quality of salt, i.e., refinery salt, full duty paid salt (specifying source of manufacture) or imported salt.

FORM B.

FORM OF SALT REGISTER.

(Rule 10.)

Register of Salt purchased, expended and in store together with the weight or quantity of products manufactured.

Date.	Opening balance of Salt.	Quantity of Salt received into store.	Total quantity of Salt in hand.	Quantity of Salt issued and expended.	Closing balance of Salt.	Quantity or weight of products manufactured.	Manager's Signature.	Remarks.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

TARIFF VALUATIONS: FURTHER AMENDMENTS.

The following Notification (No. 73-T. (24)/34, dated the 10th November, 1934) has been issued by the Government of India in the Department of Commerce:—

In exercise of the powers conferred by section 3 of the Indian Tariff Act, 1894 (VIII of 1894), the Governor General in Council is pleased to direct that the following further amendments shall be made in the Notification of the Government of India in the Department of Commerce, No. 73-T. (9)/33, dated the 16th December, 1933 (vide the *Indian Trade Journal*, dated the 21st December, 1933, pages 926-931), namely:—

In the Import Tariff Schedule appended to the said Notification—

(1) After the heading "Dyes and Colours" and the entries thereunder, the following heading and entry shall be inserted, namely:—

"METALS, IRON AND STEEL.

195	Iron and steel cans or drums—		
	When imported containing kerosene and motor spirit, namely:—		
	Cans, lined, of four gallons capacity.	can	0 6 0
	Cans or drums, not lined, of two gallons capacity—		
	(a) with faucet caps	can or drum	1 8 0
	(b) ordinary	"	0 6 0
	Drums of four gallons capacity—		
	(a) with faucet caps	drum	2 0 0
	(b) ordinary	"	1 0 0 "

(2) After the heading "Oils" and the entries thereunder, the following heading and entries shall be inserted, namely:—

	"METALS, IRON AND STEEL.		
285	Iron, pig	ton	70 0 0
286	Iron or steel nails, and washers—		
	Nails, rose, deck and flat-headed	cwt.	12 6 0
	Nails, bullock and horse-shoe	"	88 0 0
	Washers, black, structural	"	9 0 0 "

CHILE.

IMPORT DUTIES ON SACKS AND SACKING REDUCED.

The *Board of Trade Journal*, dated the 18th October, 1934, states that H. M. Representative at Santiago reports that a recent Decree reduced by 50 per cent the import duties on sacking of hemp or jute, tarred or not, having in a square of 5 mm. side 8 threads or less (Tariff No. 300) and on sacks of hemp and jute (Tariff No. 419).

FRANCE.

DUTY-FREE ADMISSION OF LINSEED.

The following is republished from the *Board of Trade Journal*, dated the 18th October, 1934:—

The French Customs Tariff provides for the duty-free admission into France of a certain quantity of linseed for sowing to be fixed by Decree. A Decree of September 30, published in the French "Journal Officiel" of October 5, fixes the quantity to be admitted during the period September 1, 1934, to August 31, 1935, at 45,000 quintals, of which 4,500 quintals are reserved exclusively for agricultural associations in France. Licences are required in order to secure duty-free admission in this way.

GERMANY.

CUSTOMS TARIFF MODIFICATIONS: BRAN.

Information has been received that an Order, dated the 15th September, 1934, effective as from the 20th September, 1934, provides for the following amendments (among others) to the German Customs Tariff:—

Tariff No. and Article.	RATE OF DUTY.	
	Former.	Revised.
	Reichsmarks per 100 kilogs.	
ad 192. Bran, imported by an Office to be fixed by the Minister for Food and Agriculture, up to March 31, 1935—		
If the bran is derived from barley or edible peas.	10	2
Other		1

HUNGARY.

TARIFF MODIFICATIONS.

The *Board of Trade Journal* has received from H. M. Minister at Budapest translation of two Decrees (No. 7660 M.E. of August 31, 1934, and No. 8240 M.E. of September 21, 1934) which pro-

vide for the following modifications of the Hungarian Customs Tariff :—

Tariff No. and Classification.	Import Duty (in Gold Kronen per 100 kilogs.)	
	Former.	New.
42 Pepper, pimento— (a) Not ground (b) Ground	120 220	240* 440*
49. Coriander, cumin and fennel	20	35†

* As from September 1, 1934. † As from September 22, 1934.

ITALY.

IMPORT QUOTAS AND RESTRICTIONS.

As notified in the *Indian Trade Journal* of the 24th May, 1934 (page 813), a Decree-Law of April 14 provided that the importation into Italy of oilseeds should be subject to licence, licences being granted having regard to the trade turnover with the country of origin of the goods.

The *Board of Trade Journal*, dated the 18th October, 1934, states that on August 15 a quota of approximately 43,000 tons, later increased by a further 30,000 tons, was fixed to cover the country's requirements of oilseeds up to November 30 next. Towards the end of September it was found that India had absorbed practically the whole of the first 43,000 tons granted; for this reason India was excluded from the supplementary quota and imports therefrom have been prohibited until November 30 next.

NYASALAND.

CUSTOMS TARIFF MODIFICATIONS.

A supplement to the "Nyasaland Government Gazette" for August 9 contains a Notice (No. 84), which provides for the addition of the following item to Table VI of the Nyasaland Customs Tariff, goods dutiable at 3 per cent *ad valorem* :—

Raw fibre and single-ply fibre yarn, imported exclusively for rope and twine making purposes.

These goods were presumably formerly dutiable under Table V, at 20 per cent *ad valorem*.

SPAIN.

IMPORT QUOTAS.

The "Gaceta de Madrid" for September 27 contains a Decree, dated September 25, which fixes the quotas for the first quarter of 1935 for the under-mentioned goods, which are already subject to the quota system in Spain.

The quotas, which are fixed as a percentage of the average imports of each item during the corresponding period in the years 1931-32 or 1931-33, are at the same rates as hitherto, viz. :—

Tariff No. and Article.	Basic Years.	Quota.
799 Coconut oil; palm oil freed from colour or refined, and other oils.	1931-33	Per cent 100
996 Copra, palm kernels, etc.	1931-32	75
997 Linseed	1931-32	80
998 Castor oil beans	1931-33	100
999 Hemp seed, poppy seed, almonds and other oleaginous seeds not specially mentioned elsewhere in the Tariff.	1931-33	100

SWITZERLAND.

FURTHER IMPORT RESTRICTIONS.

The *Board of Trade Journal* has received from H. M. Minister at Berne, copies of three Decrees, dated October 2 and effective on October 6, introducing new and extending existing import restrictions in the case of various classes of goods imported into Switzerland. A licence must be obtained from the Department of Public Economy for the importation into Switzerland of the following goods (among others) from any countries :—

Tariff No.	
205	Seeds not otherwise mentioned.
3906	Jute yarn, unbleached, single.

LICENCE FEES.

The fees chargeable for the issue of licences in respect of the above goods are shown below :—

Tariff No.	Amount of fee Frs. per 100 kilogs.
205	0.50
3906	0.50

SYRIA.

CERTIFICATION OF INVOICES.

The *Board of Trade Journal*, dated the 11th October, 1934, states that H. M. Consul-General at Beirut has forwarded a copy of a recent Decree modifying the regulations concerning the certification of the invoices which are required to be presented in respect of all foreign goods imported into Syria. In the case of goods from countries which are members of the League of Nations or from the United States, the certification is to take the form of a visa by a Chamber of Commerce or any other organisation recognised as competent by the Syrian authorities, instead of the visa of a French Consul as hitherto. The visa must certify both the price and the origin of the goods.

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the *Journal* are given for purposes of reference :

25th October, 1934.

BRITISH EMPIRE.

UNITED KINGDOM.—Key Industry Duty: Exemption of certain Chemicals. Import Duties Act, 1932: Drawback on Cartridge Cases and Smokeless Propellant Powder. Import Duties Act, 1932: Drawback on Stainless Steel Sheets.

CHANNEL ISLANDS.—Customs Tariff Changes in Jersey.

CYPRUS.—Exemption from Customs Duty of certain Vermouth Essence.

NEW ZEALAND.—Exemptions from Primage Duty.

IRISH FREE STATE.—Importation of certain Motor Cars, Motor Chassis and Motor Bodies Prohibited. Customs Tariff Modifications.

JOHORE.—Amendment of Preference Regulations.

PALESTINE.—Exemption from Customs Duty of certain Crepe Paper.

SEYCHELLES.—Package Tax on Piping. Customs Duty on Condensed Milk.

FOREIGN

AUSTRIA.—Increase of Consumption Tax on Benzine and Other Motor Car Fuels.

BELGIUM.—Customs Tariff Modifications.

CHINA.—Export Duty on Silver.

FRANCE.—Exhaustion of Quota: Fish. Increased Duties on certain Rubber Wares. Import of Printing Paper.

GERMANY.—Tariff Modifications. Import of Wood Pulp Board (Agreement with Finland). Import of Watches Works Thereof Restricted.

ICELAND.—Import Restrictions.

NETHERLANDS.—Revised Import Quota for Underclothing.

SPAIN.—Payment of Customs Duties.

SYRIA.—Duty Modifications.

TURKEY.—Import Quota Restrictions.

UNITED STATES OF AMERICA.—Regulation of the Traffic in Containers of Distilled Spirits.

YUGOSLAVIA.—Tariff Modifications (Treaty with Greece).

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 27th October to the 2nd November, 1934 :—21292. A. H. Bishop.—Improvements in or relating to supporting and means for flat-bottomed rails for rail roads. 21293. P. D. Woodman.—An improved key for fitting the rail in a rail chair. 21294. J. D. Doyle.—Improvements in electrical storage batteries. (October 30, 1933). 21295. W. B. Normelli.—Improvements in and relating to absorption refrigerating machines. 21296. Brick Trust Ltd.—A process for the manufacture of a synthetic balsam by condensation of phenols with aldehydes. 21297. J. P. Rae.—Improvements in or relating to air compressors. 21298. Woodall-Duckham (1920), Ltd.—Improvements in rotary furnaces for the combustion of town refuse and the like. (December 2, 1933). 21299. Standard Telephones and Cables, Ltd.—Improvements in or relating to automatic or semi-automatic telephone systems. (March 16, 1934). 21300. I. G. Farbenindustrie Aktiengesellschaft.—The manufacture of wool-like artificial fibres. (January 10, 1934). 21301. M. W. Coutts and J. S. Gibbons.—Improvements in or relating to bottle seals or caps. (November 27, 1933). 21302. Hoare & Co. (Engineers), Ltd.—Improvements in and relating to drying apparatus. (March 7, 1934). 21303. Quigley Co. Inc.—Improvements in and relating to the production of refractory material and bodies. (December 12, 1933). 21304. H. H. McVicar.—Whipstock. 21305. J. C. Seailles.—Improvements relating to processes for the treatment of lime aluminates. 21306. Filter Tips Ltd.—Improvements in or relating to the manufacture of cigarettes. 21307. Filter Tips Ltd.—Improvements in or relating to the manufacture of cigarettes. 21308. F. Herglotz.—A process of producing coarse-pieced coke from brown coal. 21309. (Mrs.) C. B. Powell.—An improved anchor for checking creep on rails. [Addition to No. 20201.] 21310. Maiuri Refrigeration Patents Ltd.—Improvements in apparatus for the production of liquid and solid carbon dioxide. (February 20, 1934).

EXPORTS OF RAW JUTE IN OCTOBER, 1934.

—The total exports of raw jute from Bengal during October, 1934, amounted to 354,749 bales of 400 lbs each, of which 330,008 bales were exported from Calcutta and 24,741 bales from Chittagong. The total exports from Bengal in the month of October, 1932 and 1933, were 347,547 and 376,034 bales respectively, the shipments from Calcutta being 323,333 and 342,647 bales, the remainder being from Chittagong.

WEATHER AND CROP REPORTS.

BENGAL.

12th November.

Except for heavy showers in places rainfall was generally light to moderate. It has improved the prospects of winter paddy but somewhat affected agricultural operations of spring crops. Reaping of early winter paddy continues in places.

ASSAM.

12th November.

During the week the weather was generally seasonable but comparatively heavy rain fell in Surma Valley. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

6th November.

During the week under report light rain fell in Champaran, the districts of Orissa Division, Palamau, Manbhum, Singhbhum, and in parts of the Santal Parganas, Hazaribagh and Ranchi. There was no rain in the rest of the province. The condition of standing crops including sugarcane is generally good. Threshing of *bhadoi* crops continues in Orissa districts. Prospects of winter rice are, on the whole, fair. Harvesting of early paddy is going on in Chota Nagpur, the Santal Parganas and Sambalpur. Sowing of *rabi* crops is going on and that of spring oilseeds has commenced.

CENTRAL PROVINCES.

3rd November.

During the week the weather was cloudy and there were light showers of rain in all districts except in Saugor and Raipur. Standing *kharif* crops are in good condition on the whole. Some damage to cotton on account of the rain is reported from Nagpur and Buldana districts. Harvesting of rice is in progress though the rain has interfered with it. Germination of *rabi* crops is satisfactory and the recent showers have helped sowing operations.

MADRAS.

3rd November.

During the week there has been good rainfall in the Presidency. The rainfall was heavy in the Carnatic, the Central districts, west Coast and in parts of the Circars and the Deccan. Transplanting or sowing of paddy is proceeding in parts of the Carnatic, the Central districts, the south and the west Coast. The condition of standing crops is generally fair except in parts of the Deccan where the crops have been adversely affected for want of rain.

PUNJAB.

8th November.

During the week the weather remained dry. Rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated areas. Insects have caused some damage to sugarcane in parts of Jullundur. Damage to cotton by boll worm is reported from parts of Lyallpur and Multan. There is also a general complaint that *toka* is damaging newly sown crops in Sialkot *tahsil*.

GENERAL WEATHER SUMMARY.

During the first half of the week ended Tuesday last a storm developed in the Bay of Bengal and moving north-eastwards crossed the Arakan Coast near Akyab and then weakened on the 10th November. It caused widespread and locally heavy rains in Assam and Burma on two days; and in the south-east of Madras, Chota Nagpur, Bihar, Bengal, south-east Bengal and the Chittagong-Arakan Coast on one day. The western disturbance reported in this *Journal* last week passed away eastwards through Kashmir after causing a few light showers there and in the North-West Frontier Province.

During the second half of the week the weather continued dry except for general rain in Tenasserim on one or two days.

Local or few falls occurred elsewhere.

INTERMEDIATE CROP REPORTS.

SECOND INTERMEDIATE REPORT ON THE COTTON CROP, 1934-35.

Assam.

Since the issue of the second forecast the weather has been generally favourable and the present prospects of the crop are, on the whole, fair.

Bengal.

Since the issue of the second forecast weather has been generally fair except in the Tripura State where heavy rain has caused some damage to the crop. The outturn is anticipated to be 75 per cent of the normal.

Bombay.

Since the issue of the last report cotton crop in Gujarat has been somewhat damaged in places of Broach district by wilt, stemborer and boll worm. Early sown cotton is generally doing well but late

Nov. 15, 1934.]

sown crop is suffering due to failure of late rains. In the Deccan picking has commenced in places. Unpicked cotton has been adversely affected by recent heavy rains. Irrigated crop has progressed well but dry crop particularly in lighter soils has suffered in parts due to insufficient moisture. In Karnatak sowing was done very late especially in eastern dry tracts due to want of rain and where sown in anticipation of rain germination was not satisfactory. Under recent rains, however, the crop is improving generally.

Central Provinces.

Since the issue of the second forecast the weather has been clear with only light showers of rain. These showers though generally beneficial are reported to have done some damage to the crop in Nagpur and Buldana districts, but on the whole the provincial estimate of 77 per cent of the normal holds good.

Madras.

In the Central districts and the south, the sowings of cotton are still in progress. The area under the crop is expected to be normal or slightly above normal.

In the Deccan, the sowings of *hingari* or late cotton have generally concluded and the area is expected to be slightly above normal in Kurnool and Cuddapah and slightly below normal in Bellary and Anantapur. The condition of the crop is fairly satisfactory. The yield from *mungari* or early cotton in parts of the Deccan, is expected to be below normal.

Punjab.

Owing to scarcity of rain and damage in some districts by boll worm, *toka* and rootrot condition of cotton crop for 1934 should be reduced from 95 to 83 per cent.

Sind.

First picking in *American* is over and second in progress while first picking in *deshi* cotton has started. Condition of the crop is fairly good.

United Provinces.

In addition to the damage caused by the excessive rains of August and September, the crop further suffered from the early cessation of rains. The probable outturn, therefore, is not expected to be as high as 80 per cent as reported in the second forecast. The extent of loss varies considerably. The outturn will not exceed 75 per cent of normal.

INTERMEDIATE REPORT ON THE GINGELLY CROP, 1934-35.

Madras.

The yield of gingelly is expected to be normal only in Madras, Ramnad, Tinnevely and the west Coast. The crop has been affected to some extent by drought in most of the other districts.

INTERMEDIATE REPORT ON THE GROUNDNUT CROP, 1934.

Madras.

The condition of the winter crop of groundnut is satisfactory in Vizagapatam, Chingleput, South Arcot, Chittoor and North Arcot. The crop has been affected by late sowing and subsequent heavy rains in Ganjam and by drought to some extent in the other districts, especially in the light soils of Bellary where it is reported to have suffered very much.

INTERMEDIATE REPORT ON THE PADDY CROP, 1934-35.

Madras.

The harvest of the first crop of paddy has either concluded or is concluding in Coimbatore, Trichinopoly, the south and the west Coast. The yield is reported to be generally normal except in the districts of Coimbatore and Tinnevely where it is reported to be below normal due to insufficient supply of water in channels. The crop in parts of the Deccan, the Carnatic and the Central districts is reported to have been affected by drought to some extent. The condition of the crop is reported to be generally satisfactory in the other districts.

FIRST INTERMEDIATE REPORTS ON THE RICE CROP, 1934-35.

Assam.

Autumn Rice.—The weather continued to be generally favourable since the issue of the preliminary forecast and the prospects of the crop are fair on the whole, but no material change in the estimated percentage outturn reported in the preliminary forecast is anticipated.

Winter Rice.—The weather has been generally favourable for both broadcast and transplanted crops since the issue of the first forecast. Slight damage by insects has been reported from some districts. The present prospects of the crop are generally fair but no material change in the estimated percentage outturn is expected.

Bengal.

Autumn Rice.—Since the issue of the preliminary forecast favourable weather conditions have improved the prospects in some east Bengal districts where as drought and flood are responsible for the low outturn in Malda and some west Bengal districts. The provincial outturn is anticipated to be 72 per cent of the normal.

Winter Rice.—Rainfall in October has a good effect on the transplanted winter rice generally. The outturn is anticipated to be 78 per cent of the normal.

Bihar and Orissa.

Owing to the irregularity of the *hathia* rains the condition factor for winter and autumn rice crops has decreased by one and six per cent, respectively, as compared with the figures reported in the first forecast of the respective crops issued last. The estimates of the crops are now 94 per cent (for winter rice) and 91 per cent (for autumn rice), respectively, of the past ten years' average.

Bombay.

Since the issue of the last report rice in Gujarat except in places in south has suffered at grain formation stage due to want of late rains. In Konkan crop has progressed well generally but late rice was lodged in parts by untimely heavy rains in the first week of November. Crop in the Deccan has suffered in places of the north due to absence of late rains but progressed satisfactorily elsewhere in the division though slightly damaged in naval tracts by recent rains. In Karnatak crop has suffered in places due to deficient rain and poor yield is expected. Early varieties harvested or being harvested while late ones are attaining maturity.

Central Provinces.

The crop has been benefited by the light to moderate showers of rain which were well distributed at the beginning of October. An outturn above the normal is expected.

Sind.

Since the issue of the last report crop in Sukkur, Upper Sind Frontier and Karachi districts suffered owing to the deficiency of water. For the same reason crop in Tando division of Hyderabad district is a failure. In Karachi district rice crops are generally poor and many of the late varieties will not mature. Early varieties harvested or being harvested while late ones are attaining maturity.

United Provinces.

The condition of the crop is, on the whole, satisfactory, although a slight damage is reported to

have been caused to late varieties from the early cessation of rains. The probable outturn is expected to range between 85 and 90 per cent.

SECOND INTERMEDIATE REPORT ON THE SUGARCANE CROP, 1934-35.**Assam.**

The weather has been generally favourable for the crop since the issue of the second forecast. Slight change is anticipated in the percentage outturn estimated in the first forecast due to the facts stated in the second forecast.

Bengal.

Since the issue of the second forecast weather conditions have continued to be generally fair except in some east Bengal districts where insects have caused some damage to the crop. The estimate of condition given in the second forecast should be reduced from 84 to 80 per cent of the normal.

Bihar and Orissa.

There is no change in the condition factor for sugarcane crop which remains at 93 per cent of the past ten years' average as reported in the second sugarcane forecast.

Bombay.

Since the issue of the last report sugarcane is progressing satisfactorily almost everywhere in the Presidency except in parts of Karnatak and the north Deccan where it is somewhat suffering from deficient moisture. Attack of leaflice in Panch Mahals is now abating. Recent rains is reported to be improving crop generally.

Central Provinces.

The estimates of outturn given in the second forecast, viz., 112.5 per cent of the normal remain unchanged.

Madras.

The sugarcane crop was affected to some extent by drought in the summer and subsequent heavy rains in parts of Ganjam and Vizagapatam and by drought in Bellary, Anantapur, Cuddapah, Madur and parts of Ramnad. The condition of the crop satisfactory in the other districts and the yield expected to be normal if the season continues to be favourable.

Punjab.

Owing to scarcity of rain and damage by insect condition figure of sugarcane crop for 1934 should be reduced from 93 to 86 per cent of the normal.

Sind.

Crop is progressing satisfactorily everywhere. No disease or insect pest is reported so far. Crop being cut and sold for chewing purposes in some parts.

United Provinces.

The condition of the crop is, on the whole, good. Some damage is reported to have been caused from the early cessation of rains as well as an attack of *pyrilla* and leaf scale insect but the probable outturn is not expected to go below 85 per cent.

CROPS IN FOREIGN COUNTRIES.

The following summary prepared from the latest (September, 1934) issue of the "International Review of Agriculture", published by the International Institute of Agriculture, Rome, supplements the information already published in the *Indian Trade Journal* in respect of important crops in foreign countries:—

Wheat.

According to the latest information available, the preliminary estimate of the production of wheat in Europe (excluding U. S. S. R.) for 1934 is placed at 1,474 million bushels, as against 1,751 million bushels in the preceding year. The production this year thus appears to be considerably below the exceptionally high outturn of last year, but it exceeds all European wheat harvests prior to 1932.

In the Southern Hemisphere, according to the most recent information, there has been a reduction in the area sown as compared with last year. The conditions under which the crops are growing are reported to be fairly favourable in Argentina but unsatisfactory in the important areas of Australia. It thus appears that a harvest smaller than that of last year is to be expected.

Rice.

In Cambodia and Cochin-China, transplantings were delayed or even stopped for lack of water. The drought caused the loss of some nurseries and the crop suffered in many districts. The revised estimates of the area and yield of rice in Cochin-China for 1933-34 are now placed at about 4,943,000 acres and 4,954 million pounds, as against 5,066,000 acres and 4,257 million pounds in the preceding year.

Cotton.

In Uganda, the area planted to cotton up to the end of July, 1934, in the Buganda, Eastern and

Northern Provinces on the whole, is estimated at 582,000 acres, as against 522,000 acres, the corresponding estimate of last year. Weather conditions in most districts were dry during the month of July; and germination was good everywhere except in South Bugishu. The condition of the crop was normal.

Groundnuts.

In Argentina, the area harvested in 1933-34 is estimated at 206,000 acres, as against 193,000 acres in 1932-33. The corresponding production is estimated at 2,291,000 centals, as against 1,726,000 centals in the preceding year.

Tea.

In Japan, owing to good weather conditions, the crop condition of tea on September 1 was fairly good.

(NOTE.—1 bushel of wheat=60 lbs; 1 cental=100 lbs.)

CROP FORECASTS.**(FOREIGN)****CANADIAN WHEAT AND LINSEED CROPS—**

According to a cable dated the 9th November, 1934, received from the Dominion Bureau of Statistics, Ottawa, the area and yield of the wheat and linseed crops of Canada for the current year are now estimated at 23,936,000 acres and 275,252,000 bushels (or 7,373,000 tons) for wheat, and 227,000 acres and 955,000 bushels (or 24,000 tons) for linseed. Last year's corresponding estimates were 25,991,000 acres and 271,821,000 bushels (or 7,281,000 tons) for wheat, and 244,000 acres and 679,000 bushels (or 17,000 tons) for linseed.

UNITED STATES' COTTON CROP.

According to a cable dated the 8th November, 1934, received from the United States Department of Agriculture, Washington, the production of the cotton crop in the United States of America during the current year is now estimated at 9,634,000 bales of 500 lbs each (or 12,042,000 bales of 400 lbs each), as against 13,100,000 bales of 500 lbs each, the corresponding estimate of last year.

UNITED STATES' LINSEED CROP.

According to a cable dated the 9th November 1934, received from the United States Department of Agriculture, Washington, the production of the linseed crop of the United States of America for 1934 is now estimated at 5,198,000 bushels (or 130,000 tons), as against 7,500,000 bushels (or 187,000 tons), the corresponding estimate of last year.

THE COMMISSIONERS FOR THE PORT OF CALCUTTA.

Supply of Coal.

Tenders are invited for 10,000 tons of Steam Rubble Coal, screened through a 2" mesh-screen and over a 1/2" mesh-screen, for the year 1935.

The coal is to be delivered in Railway wagons direct from the Colliery in such quantities as may be ordered from time to time by the Commissioners' Controller of Stores. The Commissioners reserve the option within the first seven calendar months of the year of declaring that they will order any quantity of coal, not exceeding 110 per cent nor less than 90 per cent of the amount of coal named in the contract.

The rates quoted by tenderers should be f.o.r. Colliery but should not include the cost of inspection by the Chief Mining Engineer. His Inspector will inspect all coal and the inspection fees will be paid by the Commissioners.

Tenders must be submitted in the prescribed form, copies of which can be had on application at the Office of the Secretary, The Commissioners for the

Port of Calcutta, 7/1, Koilaghat Street, Calcutta, on payment of Re. 1 per sheet. Tenders not so submitted will not be considered.

Tenderers should state the colliery, seam, grade and calorific value of the coal tendered, the Railway freight and siding or other additional charges in the spaces provided for the purpose in the Tender Forms.

Tenders, which must be accompanied by a receipt from the Commissioners' Cashier evidencing the deposit of Rs. 400 as earnest money, should be sent in sealed covers superscribed "Tenders for Coal 1935" addressed to the Secretary, and must reach that Officer before noon on the 13th November, 1934. In the case of tenderers who have already deposited the money in connection with the Commissioners' recent call for Tenders for coal, it will be sufficient if the number of the receipt granted to them for the deposit is shown in the Tender Form.

The Commissioners do not bind themselves to accept any or the lowest tenders but reserve the right to discharge them all if they think fit without assigning any reason for their action.

Successful tenderers will be required, within ten days of the receipt of the contract, to execute an agreement with the Commissioners in a form which may be seen at the Office of the Secretary, The Commissioners for the Port of Calcutta, 7/1, Koilaghat Street, Calcutta, and to deposit within the time laid down in Clause 11 of the agreement 2½ per cent of the value of the order allotted to them as security for the due and proper fulfilment of the contract.

CORPORATION OF CALCUTTA.

Registration of Names as Contractors for 1934-35.

Applications are invited in duplicate for Registration of Names as Contractors for the *Petty Improvement Works (other than Petty Plumbing and House Drainage Works)* of the Corporation for the year 1934-35 in Districts I, II, III, IV and Dhappa and will be received by the 1st Deputy Executive Officer up to 2 p.m. on Thursday, the 29th November, 1934. Each application in duplicate must be enclosed in a sealed cover and superscribed "Application for Registration of name as Contractor for.....". Application forms in duplicate may be obtained during office hours from the Central Record Office on payment of Rs. 2 in each case. Further particulars may be obtained from the Chief Engineer's office. The Petty Improvement Works consist of works, the estimated value of which is below Rs. 1,000. Every applicant will have to deposit in the Corporation Treasury a sum of Rs. 500 either in cash or its equivalent in the Calcutta Municipal Debenture as earnest money and the same in the case of selected Contractors will be held as security

for the due performance and observance of the terms and conditions of the agreement or contract, a form of which may be inspected at the Chief Engineer's office.

CORPORATION OF CALCUTTA.

Supply of Stone-Setts, etc.

Tenders are invited in duplicate for the following and will be received by the 1st Deputy Executive Officer, Corporation of Calcutta, Calcutta, on the date noted for each, up to 2 p.m. Each tender in duplicate must be enclosed in a sealed cover and superscribed—"Tender for....." Specifications with tender forms in duplicate may be obtained during office hours from the Central Record Office, Corporation of Calcutta, Calcutta, on payment of Rs. 2 in each case.

1. Covering the roof of the overhead reservoir at Tallah Pumping Station.

GREAT INDIAN PENINSULA RAILWAY.

Sale of Non-Ferrous Scrap, viz., Aluminium, Brass, Brasses Scrap Borings, Copper, Copper Scrap Borings, Lead, White Metal Scrap, Borings and Ingots, Zinc and Bronze Scrap, available at the Mechanical Branch Stores Depot, Parel, Bombay.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the purchase of the above materials.

The prescribed form of tender with conditions on which tenders will be considered can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 2 per form, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Purchase of Non-Ferrous Materials". Tenders not complying with these conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 19th December, 1934.

MONEY AND BULLION MARKETS.

BANK RATE (Wednesday evening) Imperial Bank of India $3\frac{1}{2}$ per cent since 16th February, 1933.

IMPERIAL BANK CASH BALANCE—
Rs. (1,000)
Cash balance of the Imperial Bank of India on the 9th November, 1934 . . . 23,46,43

TREASURY BILLS—

The Controller of the Currency notifies that tenders for Rs. 1½ crores of three months Treasury Bills were opened on Tuesday, the 20th November, 1934. The total amount offered was Rs. 3,74,00,000. Tenders at Rs. 99-10-3 were allotted approximately 66 per cent. Lower tenders were rejected. Total amount accepted was Rs. 1½ crores, the average rate of accepted tenders being Rs. 1-7-0 per annum. Tenders for Rs. 1½ crores of three months Treasury Bills will be received on Tuesday, the 27th November, 1934. Successful tenderers should make payment on Friday, the 30th November, 1934. Other conditions are as usual.

Three months intermediates will be sold from the 21st to the 26th November, 1934, at Rs. 99-10-6 per cent subject to the conditions previously announced.

Three months intermediates sold from the 14th to the 19th November, 1934, amounted to Rs. 1,85,50,000.

SECURITY PRICES—

Calcutta, 21st November—

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, I, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

WEEKLY CABLE TO LONDON.

WEATHER during week ending 18th November.—Generally dry over country except for scattered falls in places.

Crops: Madras, week ending 10th November.—Rainfall moderate in parts of Circars, Central districts and South. Transplanting or sowing of paddy proceeding in parts of Carnatic, Central districts, south and west Coast and sowing of dry crops in parts of Deccan. Standing crops generally fair, except in parts of Deccan where adversely affected for want of rain. Bihar and Orissa, week ending 13th November.—Light to moderate rain fell in all districts, except Champaran, Bhagalpur, Cuttack, Balasore, Puri, Sambalpur, Singhbhum and parts of Muzaffarpur, Monghyr, Purnea, Santal Parganas, Angul and Manbhum where no rain.

Standing crops including sugarcane generally good. Threshing of *bhadoi* crops continues in Orissa districts. Prospects of winter rice generally fair. Harvesting of winter paddy commenced in some districts. Sowing of *rabi* crops still going on and that of spring oilseeds continues. Punjab, week ending 12th November.—Weather dry. Rain badly wanted. Standing crops generally average on irrigated and below average on unirrigated areas. Damage to sugarcane by pyrilla insect reported from parts of Jullundur and to cotton by boll worm and *tela* from parts of Multan. Attack of boll worm decreasing in Lyallpur. Central Provinces, week ending 10th November.—Weather cloudy in first half of week and light to moderate showers of rain in all districts, except Wardha and Bhandara. Rainfall at Buldana rather heavy and reported to have caused slight damage to full grown *kharif* crops. Otherwise standing *kharif* crops satisfactory and recent showers should prove beneficial both to late sown cotton and *juar*. Harvesting of rice continues and picking of cotton commenced. *Rabi* crops being sown under favourable conditions and germination satisfactory. Recent rain enabled to bring more area under *rabi*. Bengal, week ending, 14th November.—Rainfall generally light and scattered. Cultivation of spring crops progressing favourably. Harvesting of early winter paddy continues in places. Prospects of standing crops generally fair. Assam, 19th November.—Weather seasonable. Outturn and prospects of crops generally fair.

Intermediate Crop Reports. Cotton: Ajmer-Merwara.—In Ajmer *tahsil* condition of crop on *Barani* area good. Crops on wet area being irrigated from tanks and wells. In Merwara sub-division so far as Beawar *tahsil* is concerned crops affected owing to unfavourable winds while in Todgarh *tahsil* condition good. In Kekri sub-division crops damaged partly owing to no rainfall in September and October and partly from pests. Outturn expected to be 14 as. in the rupee in Ajmer *tahsil*, 12 as. in Beawar *tahsil*, normal in Todgarh *tahsil* and 12 as. in Kekri sub-division. Punjab.—Owing to scarcity of rain and damage in some districts by boll worm, *tela* and rootrot condition of crop for 1934 be reduced from 95 to 83 per cent. Sind.—First picking in American over and second in progress, while first picking in *deshi* cotton started. Condition of crop fairly good. United Provinces.—In addition to damage caused by excessive rains of August and September crop further suffered from early cessation of rains. Probable outturn not expected to be as high as 80 per cent, as reported in last forecast. Extent of loss varies considerably. Outturn will not exceed 75 per cent of normal. Rice: Bengal.—Rainfall in October has good effect on transplanted winter rice generally. Outturn anticipated to be 78 per cent of normal. United

Provinces.—Condition of crop generally satisfactory, although slight damages reported to late varieties from early cessation of rains. Probable outturn expected between 85 and 90 per cent. *Sesamum*: Ajmer-Merwara.—Condition of crop reported to be good everywhere, except in Kekri sub-division, where crop damaged to extent of 6 as. in the rupee. Outturn expected to be 75 per cent in Ajmer *tahsil* and normal in Beawar *tahsil* and Todgarh *tahsil*. *Sugarcane*: Bengal.—Since last forecast weather conditions continued to be generally fair, except in some east Bengal districts where insects caused some damage to crop. Estimate of condition given in last forecast should be reduced from 84 to 80 per cent of normal. Punjab.—Owing to scarcity of rain and damage by insects condition figure of crop for 1934 be reduced from 93 to 86 per cent of normal. United Provinces.—Condition of crop generally good. Some damage reported from early cessation of rains and from insects but probable outturn not expected to go below 85 per cent.

Bombay, 15th November.—Cotton: market steady. No. 3 Fine M. G. Oomras Rs. 187-12-0 December-January, 1935.

Calcutta, 17th November.—Jute market steady, but not much doing. Sellers quoting Rs. 27-6 for Firsts for shipment, ready or November. Hessians ruled steady with little more business. Nine Porters Rs. 8-11; Elevens Rs. 11-1 Ready-November. Heavies unchanged with small business. B. Twills for November Rs. 24-5.

Calcutta 16th November.—Shellac T. N. Rs. 42. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 14th November.—Specials White Rice Big Mills Rs. 195; Small Mills Rs. 197-8 November. 17th November.—Paddy Rs. 70 to Rs. 71 (river) and Rs. 69 to Rs. 70 (rail).

Wheat. 15th November: Lyallpur.—Rs. 2-0-6 f.o.r. per maund. Bombay.—White Delhi per cwt. railway terms Rs. 3-15-6 January and Rs. 4-4-9 May. 16th November: Karachi.—Punjab White Rs. 20-5-6 per candy.

Twenty-second Tea Sale, Calcutta, 12th and 13th November.—18 thousand chests Leaf for export and 10 thousand chests for internal consumption, average price As. 8-6 and As. 5, respectively, and 8 thousand chests Dust at As. 5, sold. Market rather more animated there being more general demand. All types of Leaf teas advanced; Common Pekoes being firm to 3 pies per lb., dearer and medium kinds frequently advancing full ½ anna with sustained enquiry for Orange Pekoes with style. Other grades maintained previous prices, common and medium Broken Pekoes occasionally being exception. *Internal consumption*: Demand continued on previous lines. Prices maintained with well-made Leaf grades frequently showing small advance. Dusts, however, irregular market, common sorts steady at about 5 annas per lb. but above this price generally in buyers' favour.

FOREIGN TRADE OF CALCUTTA IN OCTOBER, 1934.

THERE was a further improvement in the overseas import trade of Calcutta in private merchandise in October, 1934, over that of the previous month, the value rising from Rs. 2-93 crores to Rs. 3-19 crores against Rs. 3-05 crores in October, 1933. Exports, however, declined from Rs. 5-43 crores to Rs. 5-40 crores against Rs. 5-70 crores in October, 1933.

IMPORTS.

A comparison of the values of the principal imports with the figures for October, 1933, is given below, the figures in brackets representing the increase or decrease as the case may be:—

	In lakhs of rupees.
Cotton goods	64 (+29)
Machinery and millwork	41 (—18)
Wool	18 (+4)
Iron and steel	14 (—2)
Oils, mineral	14 (—7)
Electrical instruments	10 (+3)
Paper and pasteboard	9 (+2)
Hardware	8 (—1)
Provisions and oilman's stores	8 (No change)
Liquors	7 (+1)
Chemicals and chemical preparations (excluding chemical manures and medicines)	7 (—2)
Sugar	6 (—3)
Drugs and medicines	6 (—1)
Motor cars	5 (—1)
Betelnuts	4 (No change)

The total yardage of cotton piece-goods increased from 14 million to 33 million and the value advanced from Rs. 23 lakhs to Rs. 51 lakhs. It is after many months that an appreciable quantity of refined sugar was imported from Java. The fall under oils—mineral was principally due to lesser imports of Russian oil.

EXPORTS.

The variations in the values of the principal exports as compared with the trade of October, 1933, are indicated below:—

	In lakhs of rupees.
Jute manufactures	2,32 (—9)
Tea	1,27 (—14)
Jute, raw	78 (—5)
Lac	24 (+6)
Oilseeds (non-essential)	13 (—16)
Hides and skins	13 (—2)
Pig iron	10 (+4)
Grain, pulse and flour	6 (+1)

The heavy fall under oilseeds was due to abnormally low exports of linseed.

DIRECTION OF EXPORTS.

Tea, lac and manganese ore were shipped mainly to the United Kingdom, raw jute and hides to Ger-

many, gunny bags to the Commonwealth of Australia, gunny cloth to the Argentine Republic, pig iron to Japan, linseed to Egypt, skins to the United States of America and rice to the Union of South Africa.

FOREIGN TRADE OF KARACHI IN OCTOBER, 1934.

THE statistics of the foreign trade of the port of Karachi for October, 1934, issued by the Collector of Customs, Karachi, show that the total value of imports (merchandise) amounted to Rs. 1-64 crores, an increase of Rs. 31 lakhs, and that of exports to Rs. 81 lakhs, an increase of Rs. 7 lakhs as compared with the figures for October, 1933. The progressive totals for the seven months ending October, 1934, show an increase of Rs. 1-45 crores or 19 per cent under imports and of Rs. 2-04 crores or 31 per cent under exports.

Comparative figures of the principal imports and exports for October, 1933 and 1934, are given below:—

IMPORTS.

Articles.	In October, 1934.		Increase (+) or Decrease (—) as compared with October, 1933.	
	Quantity.	Value.	Quantity.	Value.
		Rs.		Rs.
Cotton manufactures	..	30,30,161	..	+20,36,814
Woollen goods	..	24,67,630	..	+11,96,553
Metals and ores	..	12,63,168	..	+4,72,283
Vehicles	..	6,63,550	..	+3,21,786
Cotton, twist and yarn	..	9,074	..	+3,152
Machinery and mill-work	..	9,42,401	..	—10,47,563
Oils	..	6,67,470	..	—9,28,576
Sugar . . . tons	7,151	5,74,178	+465	—1,03,341
Liquors	..	2,89,344	..	—80,641

The increase under cotton manufactures occurred in receipts of all the three main sub-divisions of piece-goods, viz., grey, white and coloured. Imports of grey goods amounted to nearly 1½ million yards valued at Rs. 2 lakhs as against 1 million yards valued at Rs. 1 lakh, while those of white and coloured goods totalled 11½ million yards valued at Rs. 19 lakhs and 7½ million yards valued at Rs. 17 lakhs as against 4½ million yards valued at Rs. 8 lakhs and 3½ million yards valued at Rs. 7 lakhs, respectively, in October, 1933. The total imports of cotton piece-goods during the seven months ending October, 1934, amounted to 127½ million yards valued at Rs. 2-29 crores, showing an increase of 35 per cent

in quantity and 47 per cent in value as compared with the corresponding period last year. The share of the United Kingdom in the total imports of cotton piece-goods during the seven months ending October, 1934, was 103 million yards valued at Rs. 1-87 crores, an increase of 45 per cent in quantity and 52 per cent in value, while that of Japan was 21½ million yards valued at Rs. 35 lakhs, a decrease of 4 per cent in quantity but an increase of 12 per cent in value as compared with the first seven months of 1933-34. The increase under woollen goods occurred mainly in receipts of yarn and knitting wool from Japan, blankets and rugs from Italy and piece-goods from the United Kingdom and Japan. The increase under metals was most noticeable in receipts of steel bars from Belgium and Luxemburg. The decrease in imports of machinery occurred chiefly in receipts of sugar machinery from the United Kingdom, Belgium and the Netherlands, while that under oils occurred in receipts of kerosene oil from Russia and mineral oils, other kinds from Roumania. Of the total quantity of sugar imported during the month, 6,650 tons came from Java and 465 tons represented imports of beet sugar from the United Kingdom. The total quantity of sugar imported during the seven months ending October, 1934, was 35,933 tons as against 38,332 tons in the corresponding period last year.

EXPORTS.

Articles.	In October, 1934.		Increase (+) or Decrease (—) as compared with October, 1933.	
	Quantity.	Value.	Quantity.	Value.
	Tons.	Rs.	Tons.	Rs.
Cotton, raw	8,640	36,43,243	+4,280	+16,31,712
Barley	4,633	2,99,115	+4,622	+2,98,411
Wheat	1,247	97,525	+1,178	+91,601
Wheat flour	604	61,144	+281	+23,615
Wool, raw (Indian and Foreign).	1,287	11,03,357	—1,188	—7,86,785
Rapeseed	5,320	6,17,247	—3,673	—3,31,013
Skins, raw	168	1,48,114	—250	—2,63,521
Hides, raw	91	39,893	—30	—29,730

The increase under cotton occurred mainly in shipments to Japan, Belgium, Germany and the United Kingdom. France, the Netherlands, Italy and China also took more. The total quantity of cotton exported during the seven months ending October, 1934 was 135,193 tons (757,081 bales) as against 78,139 tons (437,579 bales) in the corresponding period last year. Of the total quantity of barley exported during the month, about 1,200 tons were shipped to the United Kingdom and 3,300 tons were sent to Port Said "or orders". The United

Kingdom purchased 250 tons of wheat and 900 tons were shipped to Port Said "for orders". The decrease in exports of raw wool occurred in shipments to the United Kingdom and the United States of America, while that under rapeseed was most noticeable in shipments to the United Kingdom and Germany. Reduced purchases of goat skins by the United States of America mainly accounted for the fall in exports of raw skins.

DEVELOPMENT OF COTTON GROWING IN SIND.

THE Publicity Officer, Indian Central Cotton Committee, writes:—

The Annual Report of the Department of Agriculture in Sind for the year 1932-33, just published by W. J. Jenkins, Esquire, M.A., B.Sc., I.A.S., Chief Agricultural Officer in Sind, is a highly informative document recording, among other things, the great strides taken in the development of cotton cultivation in Sind and the progress made by the various schemes financed by the Indian Central Cotton Committee, which are directed towards cotton development and improvement in the Barrage areas.

During the year under report, practically the entire new Canal Systems under the Lloyd Barrage were worked during both the kharif and rabi seasons. Of a total area of 13,67,000 acres on the main Canal Systems in the Barrage areas, cotton occupied about 3,55,000 acres in the kharif season. The transition from the old system of inundation irrigation to the new Barrage Canal Systems resulted, according to the Chief Agricultural Officer, in a somewhat unsettled and irregular supply of water in the early months. This caused delay in sowings and reduction in crop areas. The cotton crop in the middle Sind areas was affected by malformation, sterility and bad opening largely due to late sowing.

The Indian Central Cotton Committee held its half-yearly meeting in January, 1933, at Karachi and at its later meeting held in August, 1933, the Committee sanctioned a further grant of Rs. 2,96,540 for the extension of the cultivation of improved varieties of cotton in the Barrage areas. A trade exhibition of departmental cottons from Sind was held at Karachi and at Bombay at the time of the Committee's meetings.

BOTANICAL WORK FOR COTTON IMPROVEMENT.

The policy, in accordance with the opinion expressed by the Committee when sanctioning an additional grant of approximately three lakhs of rupees for cotton extension work in Sind, has been to concentrate future work on the improvement of Sind cottons upon the medium and long-stapled varieties, i.e., Sind American and imported American and Egyptian types. The trend of trade demand in India and abroad also justifies such a policy.

Insufficient and irregular irrigation during the early part of the season adversely affected the cotton crop in some parts of Sind. Replicated field scale trials of improved Sind Americans at Sakrand and Mirpurkhas indicated the superiority of 289F-1, and 285F-2 over 285F-21 in respect of immunity to 'red-leaf'. Selection work among these types to obtain earlier and higher yielding strains with a silkier staple is in progress and a new strain 289F-20 which was found promising, is being multiplied. Work on types of cotton imported from Russian Turkistan, Africa, Uganda and the United States of America was continued and yielded promising material. Plot trials of numerous selections made by the Agricultural Departments in other cotton growing provinces in India, which were grown at Sakrand, did not reveal any material superior to the improved varieties now being handled by the Agricultural Department in Sind. Hybridization work was limited to the study of two crosses, viz., 285F-1 × Sea Island and 4F-18 × Meade, which were grown in the F-8 and F-5 generations respectively. The segregates are breeding true for length of staple and high ginning percentage. Samples of their lint are being sent to the Technological Laboratory at Matunga for fibre and spinning tests. Work on the botanical improvement of the long stapled American and Egyptian cottons has been transferred to the Government Seed Farm, Mirpurkhas. Samples of the improved cottons now being extended in the cotton growing districts of Sind were submitted to the Committee's Technological Laboratory at Matunga and the results obtained compared favourably with those of the previous years.

COTTON PHYSIOLOGICAL RESEARCH SCHEME.

The Cotton Physiological Research Scheme, Sind, operating in the extended period of five years, sanctioned by the Indian Central Cotton Committee, has now entered an important stage in its investigations. Particular attention was given during the year under report to discovering the best methods of distributing irrigation supply within a fixed 'delta' to the cotton crop in order to increase final yields. Results obtained indicated that the reduction of intervals between waterings at flowering and fruiting times, i.e., August-September, is beneficial. Investigations on the effect on cotton yields and disease resistance of the application of quick acting nitrogenous manures at critical periods of crop growth are being continued. The factors responsible for the appearance of types of 'red-leaf' condition, the breeding of disease resistant types, soil conditions in regard to plant nutrition, etc., are being studied. Minor investigations into the control of the white-ant pest and the relationship between the root development of different varieties of cotton and their adaptability to environmental conditions in Sind were also carried out. In view of the prospective extension on a large scale of

cotton cultivation in the Barrage areas of Sind, the results of the present investigations conducted under the scheme at Sakrand should be of great economic value.

SIND COTTON EXTENSION SCHEME.

The activities covered by the Sind Cotton Extension Scheme, worked by the Agricultural Department, for which the Indian Central Cotton Committee granted a sum of Rs. 31,000 per annum for three years—and which has recently been extended for a further period of five years at a cost of approximately three lakhs—are being pursued in two sections, one in the Left Bank areas and the other in the Right Bank areas. Each section is under the charge of a Cotton Supervisor. In the Left Bank Section, cotton varietal tests carried on to test the respective yields and suitability for extension of different varieties of cotton on zamindari lands in Thar Parkar, Nawabshah and Hyderabad districts, have again demonstrated the high yielding capacity of the superior improved Sind American types 289F-1 and 285F-2, in the Jamrao tract. Demonstrations of cotton cultivation have been organized in the hitherto non-cotton growing tracts of the Right Bank areas and in Nawabshah district to show the technique and possibilities of cotton cultivation to zamindars. Over 5000 maunds of seed of improved cotton varieties grown on the lands of registered seed growers were distributed for extension in the districts by the Cotton Supervisors. In the Right Bank Section—hitherto a non-cotton growing area—the work on thirty demonstration plots, comprising an area of nearly 100 acres on zamindari lands, has brought promising results from 27 W. N. (improved Sind Deshi) and 4F-18 (an improved Sind American type). This work has had considerable effect in stimulating private interest in cotton cultivation on the part of zamindars. The Cotton Supervisor, Right Bank, and his staff are giving all possible assistance and advice to intending cotton cultivators in this tract. The report of the Director, Technological Laboratory, Matunga, on tests of samples of cotton grown in the Right Bank areas states that the samples are in no way inferior to similar cottons grown in the long-established cotton growing areas of the Left Bank.

With a potential cotton area of over 800,000 acres in Sind, the work now being carried on under the Scheme to discover the varieties best suited to local cultivation in the different tracts and to extend cotton cultivation, must take a large share in the progressive development of cotton cultivation in the Barrage areas. An important feature of the work has been the effective collaboration between the Department of Agriculture, Sind, and the publicity Department of the Indian Central Cotton Committee in evolving and carrying out measures designed to accelerate the progress of cotton cultivation in Sind.

EXPORTS OF SUGAR FROM JAVA DURING SEPTEMBER, 1934.

(Supplied by the Sugar Technologist, I. C. A. R., India.)

ACCORDING to the figures issued by the "Centraal Kantoor Voor de Statistiek," Weltevreden, the exports of different assortments of sugar from Java during the month of September, 1934, amounted to 126,563 metric tons as against 99,837 tons during the same time last year. The respective quantities of the different assortments shipped were as under:—

Assortments.	September, 1934.	Total for 5 months May to September, 1934.
	Metric Tons.	Metric Tons.
Superior Head Sugar	76,878	291,823
Superior Soft Sugar	529	2,734
Head Sugar 16 D. S. and Higher	34,496	138,951
Mascovadoes	4,037	26,230
Molasses Sugar	10,623	27,681
Centrifugalled bag Sugar	..	..
TOTAL	126,563	487,419

Out of the above total shipments during the month of September 1934, 4,276 metric tons went to destinations West of Suez, as against 8,861 tons during the month of September, 1933. British India took 39,527 metric tons during the month of September, 1934, as against 19,536 tons during the same month last year. Hongkong and China between themselves took 37,255 metric tons during the month of September, 1934, as against 34,637 tons during the same month last year, while Japan increased her imports of Java sugar from 13,710 metric tons during the month of September, 1933, to 20,736 tons during the month of September, 1934.

The table below gives the details of exports during the month of September, 1934, as compared with the corresponding month of 1933.

TOTAL	126,563	487,419	99,837	488,410

The stocks of all grades of sugar in the different ports of Java on the 1st October, 1934, were estimated at 2,379,782 metric tons as against 3,072,622 tons and 3,139,576 tons on the same date during 1933 and 1932, respectively.

TEA CULTURE IN ASSAM, 1933.

THE Director of Agriculture, Assam, in his report on Tea Culture in that province for the year 1933 states:—

NUMBER OF ESTATES.

The number of gardens in Assam at the close of the year was 999 as in the previous year. Of these 259 gardens were owned by Indians. Two new gardens were opened in Sylhet, one each in Goalpara, Nowgong, Sibsagar, Lakhimpur and one garden was divided into two in Darrang, while one garden each was closed in Sylhet, Goalpara, Darrang, Sibsagar and two in Lakhimpur. One of the gardens reported closed was European, and three Indian owned. The acreage involved was 2,973 acres only, and only 162 labourers are reported to have been thrown out of employment. One garden (European owned) which was not working in the previous year is reported finally closed in Sylhet during the year under report. Twenty gardens were not worked during the year, viz., ten in Kamrup, eight in Sibsagar and two in Lakhimpur.

AREA UNDER TEA.

The total area under tea during the year increased from 428,414 acres (revised) of the previous year to 430,267 acres, new extensions being 7,772 acres and abandonments 5,919. There was a decrease in the districts of Cachar, Sylhet, Darrang, Nowgong and Sadiya Frontier Tract and an increase in Goalpara, Kamrup, Sibsagar and Lakhimpur. The area

plucked increased from 399,307 acres to 406,163 acres and represents 94.4 per cent of the total area under tea against 93.3 per cent of the previous year. The area owned by Indians was 50,199 acres.

TOTAL AREA OF ESTATES.

The total area of land comprised within the tea estates in Assam was 1,656,022 acres against 1,683,531 in the preceding year, of which 26 per cent was actually under tea. The area in the occupation of Indian planters was 220,880 acres.

LABOUR EMPLOYED.

The daily average number of labourers employed in tea gardens during the year was 517,167 against 522,073 in the previous year, the permanent garden labour being 460,034, permanent outside labour 26,216 and temporary outside labour 30,917 against 462,774, 26,870 and 32,429 persons, respectively, in the previous year. The decline in the number of labourers employed is attributed to the practice of economy owing to the depressed condition of the industry. The incidence of area under tea to labour comes to .78 acre per man against .82 acre in the previous year. Although the wages earned were lower than in former years, this was partly counter-balanced by the low prices of all commodities.

CHARACTER OF THE SEASON.

The weather during the year under report was generally not favourable in any of the districts except Goalpara, from which district it is reported to be satisfactory. The rainfall was insufficient and unevenly distributed throughout the season. Droughts seriously affected the growth of the crop in the beginning and middle of the season in many districts, while rainfall unevenly distributed, caused some damage to the crop in the latter part. In Cachar, hailstorms caused some damage. Further reports of damage to the crop by red spider, blight, black rot and green flies were received from Cachar, Nowgong and North Lakhimpur.

OUTTURN.

The total outturn of tea in the province during the year was 218,456,147 lbs. of black and 884,979 lbs. of green tea against 257,043,694 lbs. and 739,038 lbs. respectively in the previous year, or a decrease of 38,441,606 lbs. in all. The decrease occurred in all districts except Goalpara and Kamrup and is due partly to the unfavourable weather and partly to the restriction scheme. Green tea was manufactured in certain gardens in Sylhet and in one garden in Nowgong during the year against two gardens each in Sylhet and Cachar in the previous year. The total outturn of green tea increased from 739,038 lbs. to 884,979 lbs. in the year under report, showing an increase of 145,941 lbs. The figures given below show the outturn of manufactured tea per acre in each district for the

last five years, the average outturn per acre for the province decreased in the year under report by 106 lbs. as compared with the previous year.

District.	Outturn of Manufactured Tea in lbs. per acre.				
	1929.	1930.	1931.	1932.	1933.
Cachar	523	449	480	554	481
Sylhet	574	544	551	644	504
Goalpara	391	486	509	515	529
Kamrup	298	330	384	397	310
Darrang	686	592	535	616	558
Nowgong	582	515	559	542	514
Sibsagar	618	571	612	630	528
Lakhimpur	314	706	764	745	633
Sadiya Frontier Tract	650	701	640	735	644
Average for the province	649	581	605	646	540

PRICE OF TEA.

The prices of tea improved during the year under report due to the adoption of the restriction scheme. The Secretary of the Indian Tea Association, Calcutta, has, as usual, kindly furnished the following statistics of supplies and prices of tea in London and Calcutta for teas produced in this province.

Sales and period of sales.	Brahmaputra Valley.		Surma Valley.	
	Number of packages.	Price per lb.	Number of packages.	Price per lb.
London sales finishing about the 31st March 1934.	886,180	£ 1 3-19	279,172	£ 1 0-45
London sales finishing about the 31st March 1933.	895,623	0 11-04	277,381	0 6-56
Calcutta sales finishing about the 31st March 1934.	303,860	As. P. 8 4	162,703	As. P. 7 4
Calcutta sales finishing about the 31st March 1933.	250,797	5 11	171,148	4 4

TEA SEED.

The demand for tea seed in this province during the year was still very low owing to the depressed state of the industry.

CONDITION OF THE INDUSTRY.

The general condition of the industry was much better than in the previous year owing to the successful working of the crop restriction scheme.

Strict economy had, however, to be observed in all the gardens to keep them going and although the prospects are less gloomy, the situation will require careful handling for some time to come.

The condition of the industry is hopeful at present. Twenty gardens were not worked during the year, and many more, especially the smaller concerns, are greatly feeling the effects of the slump.

EXTRACT FROM LINSEED CIRCULAR No. 45 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 9th November, 1934—

		£	s.	d.
Quotations for Linseed and Linseed Oil—				
Indian Linseed.—November-December delivery c.i.f. per ton				
		10	13	9
Argentine Linseed.—November-December delivery c.i.f. (excluding duty) per ton				
		9	6	3
Linseed Oil.—November-December delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton				
		17	7	6

Market Conditions.—Business in Indian seed indicated a slow demand not only for the United Kingdom but also for the Continent although tempting offers were made. Occasional interest shown in the United Kingdom for Plate seed of the new crop with a fairly active demand on the Continent.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 31st October, 1934—

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) *Trade at Stations Adjacent to Land Frontier Routes for August, 1934.* (Price As. 12.) This publication contains statements of (i) Rail-borne trade in selected articles at stations adjacent to land frontier routes of India proper and (ii) Trade in selected articles at stations on the important land frontier routes of Burma during the month of August, and the five months ended August, 1934, as compared with the corresponding periods of the preceding two years.

(2) *Accounts relating to the Inland (Rail and River-borne) Trade of India for June, 1934.* (Price Rs. 2 or 3s. 6d.) This publication offers a summary view of the inland trade of India during the month of June, 1934. The statistics contained in these accounts relate to the inland trade of India, carried by the railways and the steamer services, and represent the movement of the trade into and from a province, taken as a whole, or a chief port or ports, the trade of which is registered separately from that of the trade of the province in which such port or ports may be situated. The trade dealt with in these accounts thus falls into one or other of the following categories—(i) the trade of a province with other provinces, (ii) the trade of a chief port with the province in which it is situated, and (iii) the trade of a chief port with other provinces—the statistics being given separately in respect of 18 principal trade blocks, namely, (1) 9 blocks representing the British provinces, excluding Burma, (2) 4 representing the principal port towns and (3) 5 representing Indian States.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

THE BERAR KEROSENE (DUTIES) ORDER, 1934—

The following Notification (No. 558-I. B., dated the 14th November, 1934) has been issued by the Government of India in the Foreign and Political Department :—

In exercise of the powers conferred by section 5 of the Indian Motor Spirit (Duties) Act, 1917 (II of 1917) as applied to Berar and as made applicable to the collection and levy of an excise duty on kerosene by section 5 of the Indian Finance Act, 1922 (XII of 1922) as applied to Berar, the Governor General in Council is pleased to apply in the adapted form set out below certain provisions of the Indian Sea Customs Act, 1878 (VIII of 1878) and to make certain rules for the purpose of providing for the assessment and collection in Berar of the duty imposed by the first mentioned Act :—

1. *Short title.*—This Order may be called "The Berar Kerosene (Duties) Order, 1934".

2. *Definitions.*—In this Order, unless there is anything repugnant in the subject or context,—

(1) "The Act" means the Motor Spirit (Duties) Act, 1917 (II of 1917) as applied to Berar and as made applicable to the collection and levy of an excise duty on kerosene ;

(2) "Collector" means the Deputy Commissioner of the district, or such other officer as the Local Government may appoint in this behalf by name or in virtue of his office to perform all or any of the duties of a Collector under this Order.

3. *Agent of owner to be deemed owner for certain purposes.*—When any person is expressly or impliedly authorized by the owner of any manufactory to be his agent in respect of such manufactory for all or any of the purposes of this Order and such authorization is approved by the Collector such person shall for such purposes be deemed to be the owner of such manufactory.

4. *Owner of manufactory to furnish a return of kerosene produced.*—(1) The owner of every manufactory,—

(a) shall prepare, or cause to be prepared, a return in Form A set out in the Schedule to this Order of all kerosene produced within the meaning of section 3 of the Act in such manufactory during the preceding month, and shall lodge the said return with the Collector within seven days of the close of the month to which it relates ;

(b) shall subscribe at the foot of the said return a declaration that the particulars set out therein are true to the best of his knowledge and belief ; and

(c) shall deposit with the said return the amount of the duty payable under section 3 (1) of the Act on the quantity of the kerosene shown in column 2 of the said return less any amount or amounts that may have been paid, before the return is submitted, into an approved treasury or approved treasuries elsewhere ; provided that evidence of such payment or payments shall be presented to the Collector within 14 days of the close of the month to which the return relates.

(2) If any person refuses, or without lawful excuse (the burden of proving which shall lie upon such person) neglects,—

(a) to prepare, or cause to be prepared, to the best of his knowledge and belief a return required by sub-rule (1) ;

(b) to subscribe at the foot thereof a declaration required by that sub-rule ; or

(c) to lodge the said return with the Collector within the period required by that sub-rule ;

he shall be punishable with fine which may extend to five hundred rupees.

(3) If any person makes a statement in the declaration mentioned in this rule which is false, and which he either knows or believes to be false, or does not believe to be true, he shall be punishable with fine which may extend to one thousand rupees.

5. *Procedure in case of non-payment of duty.*—(1) If the amount of the duty is not deposited with the return prescribed in rule 4, the Collector shall cause a notice in Form B set out in the Schedule to this Order to be served on the owner requiring him to make payment of the aforesaid duty within ten days of the date of service of the said notice.

(2) A notice prescribed by sub-rule (1) may be served on the owner of any manufactory by delivering or tendering to him at his ordinary place of business a copy of the notice or, if this cannot be done, by fixing a copy of the notice on one of the outer doors of the manufactory.

6. *Owner of manufactory to maintain books of account, etc.*—(1) The owner of every manufactory shall maintain such records and books of account as will admit of ready comparison to the satisfaction of the Collector with the entries made in the return prescribed in rule 4.

(2) If any person fails without lawful excuse (the burden of proving which shall lie upon such person) to maintain the records and books of account required by sub-rule (1), he shall be punishable with fine which may extend to five hundred rupees.

7. *Collector's power of entry, etc.*—(1) The Collector, or any other officer duly appointed by the Local Government in this behalf, shall have free access at all reasonable times to any manufactory and may, with or without notice to the owner, take samples and make tests of any substance produced therein,

and examine and take copies or extracts from any accounts or registers for the purpose of testing the accuracy of the return prescribed in rule 4, or of informing himself as to any particulars regarding which information is required for the purposes of the Act or of this Order.

(2) If any person—

- (a) voluntarily obstructs, or offers any resistance to or impedes, or otherwise interferes with, or
- (b) withholds any information in his possession which he is required to furnish under the provisions of sub-rule (1) from, or
- (c) wilfully gives false or misleading information, to the Collector or any officer duly appointed under sub-rule (1) who is acting in accordance with his duty under the provision of that sub-rule, such person shall be punishable with fine which may extend to five hundred rupees.

8. *Payment of duty short-levied or erroneously refunded.*—When duty has been short-levied through inadvertence, error or misconstruction on the part of the Collector, or through mis-statement as to quantity on the part of the owner,

or, when any such duty after having been levied has been, owing to any such cause erroneously refunded, the person chargeable with the duty so short-levied, or to whom such refund has erroneously been made, shall pay the deficiency or repay the amount paid to him in excess, on demand being made within three months from the close of the month in respect of which the duty shall have been levied or from the date of making the refund.

FORM B.

Notice of Demand of Payment of Duty under rule 5 of the Order made under Act II of 1917, as applied to Berar and as applied to kerosene.

No.

COLLECTOR'S OFFICE:

19 .

For the month of

19 .

Owner

Amount rupees

Collector.

9. *No refund of duty erroneously levied or paid unless claimed within three months.*—No duty which has been paid and of which payment wholly or in part is claimed in consequence of the same having been paid through inadvertence, error or misconstruction shall be returned unless such claim is made within three months from the date of such payment.

THE SCHEDULE.

(See rules 4 and 5.)

FORM A.

Particulars of kerosene produced at manu-
factory during the month of 19 .

1	2
Description of kerosene.	Quantity (Imperial gallons) issued out of the premises on which duty is leviable.

I do hereby declare that I have compared the above particulars with the records and books of my manufactory, and that they are, in so far as I can ascertain, accurate and complete.

Dated this day of 19 .
(Signed.)

(To be signed by the Owner, Managing Agent, or other principal officer of the manufactory.)

FORM B.

Notice of Demand of Payment of Duty under rule 5 of the Order made under Act II of 1917, as applied to Berar and as applied to kerosene.

No.

COLLECTOR'S OFFICE;

19 .

To

Take notice that on behalf of Government I hereby demand payment by you of the sum of rupees now due and unpaid on account of duty on kerosene for the month of 19 , and that if the above amount be not paid into this office within ten days after the date of service hereof on you, I shall proceed to obtain payment of the same according to the provisions of the Motor Spirit (Duties) Act, 1917, as applied to Berar.

Collector.

N.B.—No payment should be tendered on Sunday, nor after 2-30 P.M. on any day, nor after 12-30 P.M. on Saturdays.

MERCHANT SHIPPING: MEDICINES AND SURGICAL APPLIANCES NECESSARY FOR CERTAIN SHIPS—

The following Notification (No. 58-M. I. (2)/31, dated the 17th November, 1934) has been issued by the Government of India in the Department of Commerce:—

In exercise of the powers conferred by sub-section (1) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor General in Council is pleased to direct that the following further amendments shall be made in the rules published with the Notification of the Government of India in the late Finance and Commerce Department, No. 1354, dated the 14th March, 1889, the same having been previously published as required by sub-section (3) of the said section, namely:—

1. In column 3 of Schedule A to the said Notification after the entry "Antiseptic gauze..... 1 yard", the following entry shall be inserted, namely:—

"Tannic Acid Outfit for Burns.....1".

2. In columns 2 and 3 of each of the Schedules B and C to the said Notification, after the entry "Absorbent cotton wool.....½ lb." the following entry shall be inserted, namely:—

"Tannic Acid Outfit for Burns.....1".

MERCHANT SHIPPING: MEDICINES AND SURGICAL APPLIANCES TO BE CARRIED ON CERTAIN FOREIGN-GOING BRITISH SHIPS AND HOME TRADE SHIPS—

The following Notification (No. 58-M. I. (2)/31, dated the 17th November, 1934) has been issued by the Government of India in the Department of Commerce:—

In exercise of the powers conferred by section 87 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor General in Council is pleased to direct that the following further amendments shall be made in the Notification of the Government of India in the Department of Commerce, No. 58-M. I. (2)/31, dated the 18th March, 1933 (*vide the Indian Trade Journal*, dated the 23rd March, 1933, page 904), namely:—

In the said Notification—

1. In column 3 of Scale A after the entry "Antiseptic gauze.....1 yard", the following entry shall be inserted, namely:—

"Tannic Acid Outfit for Burns.....1".

2. In columns 2 and 3 of each of Scales B and C, after the entry "Absorbent cotton wool.....½ lb." the following entry shall be inserted, namely:—

"Tannic Acid Outfit for Burns.....1".

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

ASSESSMENT OF COTTON NETTING.

Customs Ruling No. 4 of 1934 (dated the 5th November, 1934) of the Central Board of Revenue is as follows:—

All cotton netting is assessable to duty as "cotton fabrics not otherwise specified" under item No. 158 C (ii) of the Statutory Import Tariff Schedule.

FURTHER AMENDMENT IN MOTOR SPIRIT (DUTIES) ORDER, 1917.

The following Notification (No. 37-Central Excises, dated the 17th November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 5 of the Motor Spirit (Duties) Act, 1917 (II of 1917), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Motor Spirit (Duties), Order, 1917, namely:—

In the said Order after rule 9-A the following rule shall be inserted, namely:—

"9-B. *Drawback on export to Cutch.*—When any motor spirit, upon which the excise duty leviable under the Act has been paid, is proved to have been hereafter despatched by sea from the port of Karachi to a port in Cutch, the whole of the excise duty paid in British India shall be repaid as drawback, provided the Customs-Collector is satisfied that the motor spirit has been landed in Cutch."

FURTHER AMENDMENT IN KEROSENE (DUTIES) ORDER, 1922.

The following Notification (No. 38-Central Excises, dated the 17th November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 5 of the Motor Spirit (Duties) Act, 1917 (II of 1917), as made applicable to the levy and collection of an excise duty on kerosene by section 5 of the Indian Finance Act, 1922 (XII of 1922), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Kerosene (Duties) Order, 1922, namely:—

In the said Order, after rule 9-A the following rule shall be inserted, namely:—

"9-B. *Drawback on export to Cutch.*—When any kerosene, upon which the excise duty leviable under the Act has been paid, is proved to have been here-

after despatched by sea from the port of Karachi to a port in Cutch, the whole of the excise duty paid in British India shall be repaid as drawback, provided the Customs-Collector is satisfied that the kerosene has been landed in Cutch."

EXEMPTIONS FROM CUSTOMS IMPORT DUTIES— AMENDMENT: AIRCRAFT MOORINGS.

The following Notification (No. 81-Customs, dated the 17th November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India in the Finance Department (Central Revenues), No. 14-Customs, dated the 9th April 1932 (*vide the Indian Trade Journal*, dated the 14th April, 1932, pages 72-79), namely:—

In the said Notification, in Schedule I—Import Duties, under the head "B—Government Departments", after entry 22, the following entry shall be inserted, namely:—

No.	Description	When imported by or on behalf of the Royal Air Force.	The whole.
" 22A	Aircraft moorings		

PROHIBITION OF IMPORT BY SEA OR BY LAND OF KEROSENE OR MOTOR SPIRIT FROM CUTCH.

The following Notification (No. 82-Customs, dated the 17th November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to prohibit the bringing into British India by sea or by land from Cutch of any kerosene or motor spirit.

CHINA.

EXPORT DUTY ON SILVER.

The following is reproduced from the *Board of Trade Journal*, dated the 25th October, 1934:—

H. M. Commercial Counsellor at Shanghai reports, by telegraph, that the Chinese Government has fixed the Customs duty on exports of silver, effective as from October 15, 1934, as follows:—

On silver dollars and mint bars, 7½ per cent.

On other forms of silver, 10 per cent (in lieu of 2½ per cent).

In addition an equal charge will be imposed on exports of silver equal to deficiency, if any, existing between theoretical parity of London silver and a rate of exchange officially fixed by the Central Bank of China after making allowance for export duty.

CEYLON.

ALTERATIONS IN THE CUSTOMS IMPORT TARIFF: AMENDMENT.

The Order under the Public Revenue Protection Ordinance No. 33 of 1921, dated the 24th July, 1934, and published in the *Ceylon Government Gazette Extraordinary* No. 8065 of the same date (*vide the Indian Trade Journal* of the 6th September, 1934, page 1109), has ceased to be valid, the resolution to alter the rates of duty on beer and wheat flour having been withdrawn on the 30th August, 1934.

The import duties therefore remain as before, namely:—

		Duty.	
		Preferential.	General.
		Rs. C.	Rs. C.
Beer, ale and porter and all other malt liquors.	per gal.	1 00	1 25
Flour, wheat	per cwt.	..	2 00

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the *Journal* are given for purposes of reference:—

1st November, 1934.

IRAQ.—Import of Old Newspapers.

NETHERLANDS EAST INDIES.—Exemptions from Customs Duty of certain Raw Materials.

SPAIN.—Cheese Import Quota. Import Quota for Frozen Meat.

PROPOSED TARIFF CHANGES—

FRENCH EQUATORIAL AFRICA (GABOON).—Proposed Modified Customs Tariff.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 31st October and the 8th November, 1934:—21311. J. H. Warr.—Improved method of and apparatus for rolling, twisting and/or breaking down green tea leaf in the manufacture of tea. (August 13, 1934.) 21312. Filter Tips Ltd.—Manufacture of cigarettes. (November 2, 1933.) 21313. C. Naiker.—Improved ornamental designs in cement blocks. 21314. D. J. Banerji and G. K. Mitter.—Improvements in the manufacture of boards. 21315. L. R. H. Irvine.—A machine for the heat treatment of earth for use in road making and other construction. (November 17, 1933.) 21316. Chaudhri S. S. S. Saini.—A process for manufacturing opal or enamelled glass. 21317. Dr. H. D. Sen, and K. C. Joshi.—A process for the manufacture of an insoluble road composition from molasses. 21318. M. Ahmad Din.—An improved overflow device particularly for use with oil engines. 21319. D. M. Watkins and W. E. Dilke.—Improvements in screwthread cutting tools. (April 13, 1934.) 21320. C. C. Wakefield and Co. Ltd.—Improvements in or relating to lubricating apparatus. (January 27, 1934.) 21321. J. S. Burns.—Improvements in and relating to road grading machines. (November 30, 1933.) 21322. F. A. van Zimmeren.—A ball for use in football, handball, basketball and similar games. (October 10, 1934.) 21323. The General Electric Co. Ltd., Dr. Ing. E.

Marx, and H. Buchwald.—Improvements in electrode arrangements for electric arc converters. (October 5, 1934.) 21324. The General Electric Co. Ltd.—Improvements in or relating to electrical timing circuits. (November 10, 1933.) 21325. The General Electric Co. Ltd.—Improvements in or relating to circuits comprising gasfilled triodes. (November 29, 1933.) 21326. The General Electric Co. Ltd., Dr. Ing. E. Marx and H. Buchwald.—Improvements in electrode arrangements for electric arc converters. (October 5, 1934.) 21327. G. Gadd.—Improvements in or relating to methods and means for treating black tea. 21328. Henry Simon Ltd.—Improvements relating to the retreading of tyres. 21329. I. F. Harvey and E. T. Harvey.—Improvements relating to the weaving of pile fabrics. (November 9, 1933.) 21330. K. E. H. Rodwell.—Improvements in the production of anti-corrosive coatings. (December 12, 1933.) 21331. O. Haas.—Improvements in or relating to typewriters. 21332. P. Sartory and N. V. S. Knibbs.—Improvements in and relating to autogenous heating devices for use in curling and waving the hair. (November 8, 1933.) 21333. A. Caprotti.—Braking valve gear for reversible engines. 21334. M. Ahmad Din.—Improvements in or relating to oil engines. [Divisional date, June 5, 1934.] 21335. M. Ahmad Din.—Improvements in or relating to oil engines. [Divisional date, June 5, 1934.] 21336. M. Ahmad Din.—Improvements in or relating to governors more particularly for oil engines. [Divisional date, June 5, 1934.] 21337. M. D. Frame-Maker.—Improvements in or relating to oil burners. 21338. Soapless Foam Ltd.—Combination baths. 21339. Soapless Foam Ltd.—Improvements in or relating to apparatus for producing foam for fire extinguishing purposes and/or for bathing purposes. 21340. Vereinigte Stahlwerke Aktiengesellschaft.—Improvements in tube rolling mills. (March 29, 1934.) 21341. Vereinigte Stahlwerke Aktiengesellschaft.—Process for producing tubes and apparatus therefor. (April 16, 1934.) 21342. Vereinigte Stahlwerke Aktiengesellschaft.—Process for producing seamless tubes. (May 1, 1934.) 21343. A. Sen.—A resonance speed-meter for gramophones. 21344. Filter Tips Ltd.—Improvements in or relating to cigarettes. (November 8, 1933.)

INDIA'S FOREIGN SEA-BORNE TRADE IN OCTOBER, 1934.

—The total imports of private merchandise in October, 1934, amounted to Rs. 12.47 lakhs, and total exports, including re-exports to Rs. 12.37 lakhs. Net exports of private treasure during the month of report were Rs. 4.21 lakhs and total visible balance of trade in merchandise and treasure was Rs. 4.15 lakhs in favour of India. Balance of remittances of funds was minus Rs. 3.69 lakhs.

WEATHER AND CROP REPORTS.

BENGAL.

19th November.

During the week the rainfall was generally light and scattered. Cultivation of spring crops is progressing favourably. Harvesting of early winter paddy continues in places. Prospects of standing crops are generally fair.

ASSAM.

19th November.

During the week the weather was seasonable. The outturn and prospects of crops are generally fair.

BIHAR AND ORISSA.

13th November.

During the week under report light to moderate rain fell in all the districts of the province except Champaran, Bhagalpur, Cuttack, Balasore, Puri, Sambalpur, Singhbhum and in parts of Muzaffarpur, Monghyr, Purnea, the Santal Parganas, Angul and Manbhum, where there was no rain. The condition of the standing crops including sugarcane is generally good. Threshing of *bhadoi* crops continues in Orissa districts. Prospects of winter rice are, on the whole, fair. Harvesting of winter paddy has commenced in some districts. Sowing of *rabi* crops is still going on and that of spring oilseeds continues.

CENTRAL PROVINCES.

10th November.

The weather was cloudy in the first half of the week and there were light to moderate showers of rain in all districts except Wardha and Bhandara. The rainfall at Buldana was rather heavy and it is reported to have caused slight damage to full grown *kharif* crops. Otherwise the condition of standing *kharif* crops is satisfactory and the recent showers should prove beneficial both to late sown cotton and *juar*. Harvesting of rice and minor millets continues and picking of cotton has commenced. *Rabi* crops are being sown under favourable conditions and germination is satisfactory. Recent rain has also enabled the agriculturists of the north to bring more area under *rabi* which would otherwise have been left unsown.

MADRAS.

10th November.

During the week the rainfall was moderate in parts of the Circars, the Central districts and the South. Transplanting or sowing of paddy is proceeding in parts of the Carnatic, the Central districts, the south and the west Coast and sowing of dry crops in parts of the Deccan. The condition of standing crops is generally fair, except in parts of the Deccan where the crops have been adversely affected for want of rain.

PUNJAB.

12th November.

During the week the weather continued dry. Rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated areas. Damage to sugarcane by pyrilla insect is reported from parts of Jullundur and to cotton by boll worm and *tela* from parts of Multan. The attack of boll worm is decreasing in Lyallpur.

GENERAL WEATHER SUMMARY.

Weather in India during the week ended Tuesday last remained dry over the country except for a few light showers in Tenasserim throughout the week, in south-east Madras on 3 days and in south Madras, Mysore and Assam on one or two days. Pamban reported one inch of rain on the 15th November.

The western disturbance passed eastwards after causing local falls of rain in the North-West Frontier Province and a few light showers of rain or snow in Kashmir.

Local or few falls occurred elsewhere.

INTERMEDIATE CROP REPORTS.

ADDITIONAL INTERMEDIATE REPORT ON THE COTTON CROP OF AJMER-MERWARA FOR THE MONTH OF NOVEMBER, 1934.

In the Ajmer *tahsil* the condition of the cotton crops on Barani area is good. The crops on wet area are being irrigated from tanks and wells. In the Merwara Sub-division so far as the Beawar *tahsil* is concerned the cotton crops have been affected owing to unfavourable winds known as Parwai, while in the Todgarh *tahsil* the condition is good. In the Kekri Sub-division the cotton crops have been damaged partly owing to no rainfall in the months of September and October and partly from pests.

ADDITIONAL INTERMEDIATE REPORT ON THE SESAMUM CROP OF AJMER-MERWARA FOR THE MONTH OF NOVEMBER, 1934.

The condition of the crop is reported to be good everywhere except in the Kekri Sub-division where the crop has been damaged to the extent of 6 annas in a rupee. The outturn is expected to be 75 per cent in Ajmer *tahsil* and normal in both Beawar and Todgarh *tahsils*.

CROP FORECAST.

SECOND REPORT ON THE GINGER CROP OF THE BOMBAY PRESIDENCY, 1934-35.

The ginger crop principally grown in Belgaum, district Karnatak, in garden lands, is reported to be doing fairly well and is estimated to return a yield of about 65 per cent of the normal.

*To this approximate stock of 212,500 maunds of lac or its equivalent quantity of shellac, lac and chowli lying in the above 12 divisions by the end of October, 1934, add the stock lying in Assam, Rangoon, Federated Shan States, Siam, Singapore and Calcutta.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Witter Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsarop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

System of Payment for Stores Purchased and Inspected by the Indian Stores Department.

With a view to simplify the procedure and expedite payments, it has been decided that, with effect from the 1st April, 1935, bills for the full value of

stores (known as 100 per cent bills) shall not pass through the Inspectorates of the Indian Stores Department, as at present, but will be submitted direct to consignees in triplicate (or in quadruplicate in the case of supplies to Ordnance Factories, for which five copies are required at present), supported by a copy of the Inspection Certificate, and the Docket form (I. S. D. 7D), which has been introduced to check delays. The consignees will forward, after verification, the original and duplicate copies of the bills to the Audit Officer, Indian Stores Department, for audit and payment.

The certificate in respect of stores having been tendered by the firms within the time stipulated in the order, or extended by competent authority, at present recorded by the Inspectorates on bills will, in future, be included in Inspection Certificates and incorporated therefrom in bills by the consignees.

2. Advance payment (80 per cent or 90 per cent) bills which do not pass through consignees will continue to be submitted to Inspectorates and final 10 per cent bills to consignees as at present. The procedure in regard to these bills will remain unaltered.

3. In special cases in which a part (80 per cent) payment is made in advance, and the final 20 per cent on final inspection and tests at site, the final 20 per cent bills will also continue to be submitted to Inspectorates as at present.

INDIAN STORES DEPARTMENT.

Supply of Electrically Driven Vertical Spindle Tube-Well Turbine Pumping Sets required for the N. W. Railway Administration at Rchri (N. W. Railway).

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below :—

Tender No. N-3355.—Four sets—Electrically Driven Vertical Spindle Tube-Well Turbine Pumping Sets, each capable of delivering 12,500 G. P. H. against a total head of 48'-0", complete with A. C. Motor and Starter.

Price of tender forms, etc., is Rs. 5 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 15th January, 1935, and opened on the 16th January, 1935.

I. S. D. Standard Specifications P114/D or PI/116A will apply.

INDIAN STORES DEPARTMENT.

Supply of Materials for the State Railways, Posts and Telegraphs and the Army in India.

The Chief Controller of Stores, Indian Stores Department (Textiles Section), New Delhi, invites

tenders for the stores detailed below.

Price of tender forms, etc., is as noted below per set of two copies (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tender forms giving full particulars can be obtained from the Controller of Stores, B. and N. W. Railway, Samastipur, Bihar, on payment of Rs. 3 each copy, up to the 24th December, 1934.

The Agent does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Pine Baulks and Planks.

Tenders are invited for the following by the Agent, Eastern Bengal Railway, Calcutta, and should reach him not later than 3 p.m. (Calcutta Time) on the 3rd December, 1934.

- (1) Pine Baulks, 12" x 12" x not less than 40 ft. in length — 200 Nos.
- (2) Pine Planks, 12" x 3" x in lengths 20 ft. to 30 ft. — 800 Nos.

Offers from stock are particularly required. The necessary tender forms and envelopes can be had from the "Stores Information Bureau", No. 3, Koilaghat Street (Bankshall Street-end), Calcutta. Price of tender form is Rs. 2 per set.

EASTERN BENGAL RAILWAY.

Supply of M. S. Well Curbs.

Tenders are invited for the supply of M. S. Well Curbs for Bridges on the Rangiya-Tangla Branch.

Forms of tender with instructions can be obtained from the Chief Engineer, E. B. Railway, Calcutta, on prepayment, in cash or Money Order, of Rs. 4 which will not be refunded.

Tenders are to be submitted not later than 3 p.m. on the 7th December, 1934, at which time they will be opened. Tenderers may be present at the opening.

A sum of Rs. 100 must be deposited as earnest money with the Superintendent, Cash and Pay Branch, E. B. Railway, Sealdah, and the number and date of the receipt must be quoted in the tender; unless this is done, no tender will be considered.

The Eastern Bengal Railway Administration reserves to itself the right to reject or accept any tender without assigning any reason.

EASTERN GROUP—SLEEPER CONTROL.

Supply of Half Checked Floor Boards.

Sealed tenders are invited and will be received by the Sleeper Control Officer, B.-N. Railway House, Kidderpore, up to 3 p.m. on the 29th November, 1934, for the supply of 60,000 Half Checked Floor Boards by the 31st March, 1935, at destination. Early deliveries are essential.

Tender forms, detailing Specification and other particulars can be obtained from the Sleeper Control Officer, B.-N. Railway House, Kidderpore, on payment of Rs. 5 which will not be returned.

Tenderers should deposit Rs. 100 as earnest money with the Chief Auditor, B.-N. Railway.

The Sleeper Control Officer does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance of a tender and reserves the right to accept the whole or any part of a tender.

GREAT INDIAN PENINSULA RAILWAY.

Tender No. 1934-33 for the Supply of Copper Ingots.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of 60 tons of Copper Ingots, to I. R. S. Specification No. N.4-29. Supplies will be subject to test and must conform strictly to the specification.

The prescribed form of tender, with conditions on which tenders will be considered, can be obtained from the Office of the Railway's Controller of Stores at Parel, Bombay, on payment of Re. 1 per form, which amount will not be returned. Tenders must be submitted on the prescribed form, and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Copper Ingots".

A sum of Rs. 700 must be deposited with, and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in cash or wholly in Government Promissory Notes, Municipal Debentures or Port Trust Bonds, and the Agent, on behalf of the Administration, reserves to himself the right to appropriate or cancel the Government Promissory Notes, Debentures or Bonds, or confiscate the cash deposit, should the successful tenderer fail to put in the security deposit in terms and conditions of the tender. No interest will be allowed on cash deposits. Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 5th December, 1934.

The result of the tender will be notified in the "Indian Trade Journal".

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Miscellaneous Stores.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

New Delhi.

THE following particulars regarding contracts which have been placed by the Indian Stores Department have been received from the Chief Controller of Stores, Indian Stores Department, New Delhi. (Orders of less than Rs. 100 in value are not included.)

I.—ENGINEERING SECTION.

Contracts placed during the week ending 15th November, 1934.

Tender No. and Article.	No. or Quantity.	Name of Firm.	Value of Contract.
			Rs.
N-3531/1—Poles, steel, tubular type T-10, 38 ft. overall length.	56	Messrs. Wright Pinhorn & Partners, Ltd., New Delhi.	4,266-8-0
Pole caps for the above poles.	56	Ditto	79-8-6
N-3225/2—Buffer heads with spindles, nuts and cotters, for American Wagons.	20	Messrs. Vickers Ltd., Calcutta.	709
Sockets, outer, cast steel, for Buffers for Bogie covered goods wagons.	250	Ditto	1,526
N-3225/5—Washers, I. R., 4" dia. x 1 1/2" thick x 1 1/2" hole.	9,000	The United Engineering Corporation, Bombay.	1,852
Plates steel dividing, 4 1/2" dia. x 1 1/2" thick x 1 1/2" hole.	34 gross	Ditto	374
N-2953/2—Component parts for Marshall's Diesel tractor No. 480.	lot	Messrs. Marshall Sons & Co., Ltd., Calcutta.	189
N-2953/4—Component parts for Corn Crusher No. 15-B Mill, by Messrs. E. R. & F. Turner, Ltd., Ipswich, England.	lot	Messrs. Greaves Cotton & Co., Ltd., Bombay.	141
N-2953/7—Component parts for No. 3-F. R. Corn Crusher by Messrs. Richmond & Chandler, Ltd., Manchester.	lot	Messrs. T. E. Thomson & Co., Ltd., Calcutta.	140
N-3487/11—Wire, copper, bare, hard-drawn, stranded, 0.2 sq. in. (7/193").	25,360 lbs.	The Indian Cable Co., Ltd., Calcutta.	8,321-4-0
Ditto 0.1 sq. in. (7/136").	85,640 lbs.		28,100-10-0

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT—contd.

New Delhi—contd.

(X-141) A firm in California (U. S. A.) desires to be put in touch with exporters of Yak Tail Hair in India.

WEEKLY CABLE TO LONDON.

WEATHER during week ending 25th November.—Generally dry over country, except for a few falls of rain in places.

Crops: Madras, week ending 17th November.—Practically no rainfall. Transplanting or sowing of paddy proceeding in parts of Carnatic, Central districts, south and west Coast and sowing of dry crops in parts of Deccan. Standing crops generally fair, except in parts of Deccan, where adversely affected for want of rain. Bihar and Orissa, week ending 20th November.—No rain. Standing crops including sugarcane generally good. Threshing of *bhadoi* crops continues in Orissa districts. Prospects of winter rice generally fair. Harvesting of winter paddy going on in some districts. Sowing of *rabi* crops still going on and that of spring oilseeds con-

tinues. Punjab, week ending 19th November.—Weather remained dry. Rain badly wanted. Standing crops generally average on irrigated and below average on unirrigated areas. Sugarcane damaged by *Pyrilla* insect in parts of Jullundur and cotton by boll worm and *tela* in parts of Multan. *Tela* also reported to have affected cotton in Muktesar *tahsil*, Ferozepore district. Central Provinces, week ending 17th November.—Weather clear and cool. Standing *kharif* crops satisfactory. Sowing of *rabi* crops continues in Jubbulpore and Chhattisgarh divisions and practically over elsewhere. Germination successful. Harvesting of *kharif* crops and picking of cotton continue. Assam, 26th November.—Weather seasonable. Outturn and prospects of crops fair. Bengal, week ending 21st November.—Dry. Sowing of spring crops and harvesting of winter paddy progressing under favourable conditions. Prospects of standing crops generally fair.

Intermediate Crop Reports. North-West Frontier Province: Cotton.—Since last forecast no change in total area sown with cotton. Practically no rain fell during month under report. Yield expected to be average. Sugarcane.—No change in total area planted since last forecast. Outturn expected to be average.

Bombay, 22nd November.—Cotton: Market strong. No. 3 Fine M. G. Oomras Rs. 195-12-0 December-January 1935.

Calcutta, 24th November.—Jute market quiet with no business. Rates unchanged with Firsts for ready shipment quoted at Rs. 27-12-0. Hessians ruled quiet but steady with values nominally unchanged. Nine Porters Rs. 8-13; Elevens Rs. 11-5 November. Heavies unchanged and only small business reported. B. Twills done at Rs. 24-8 November.

Calcutta, 23rd November.—Shellac T. N. Rs. 41-8. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 21st November.—Specials White Rice Big Mills Rs. 177-8. Small Mills Rs. 183-8 November. 24th November.—Paddy Rs. 65 to Rs. 66 (river) and Rs. 64 to Rs. 65 (rail).

Wheat. 22nd November: Lyallpur.—Rs. 2-1-9 f.o.r. per maund. Bombay.—White Delhi per cwt. railway terms Rs. 4-1 January and Rs. 4-6-6 May. 23rd November: Karachi.—Punjab White Rs. 20-12 per candy.

Twenty-third Tea Sale, Calcutta, 19th and 20th November.—20 thousand chests Leaf for export and 8 thousand chests for internal consumption, average price As. 8-7 and As. 5-1, respectively, and 8 thousand chests Dust at As. 4-11, sold. Rather better demand and prices generally well maintained. Any Pekoes and Orange Pekoes with make and style in strong demand and prices show advance over those of a week ago by full 3 pies per lb., while noticeably better prices forthcoming for tippy Fannings grades more particularly those with improved cup quality. Generally market may be

described strong. *Internal Consumption*: Good demand for all types. Former prices fully maintained and Orange Pekoes and Pekoes, especially those having good make, advanced about $\frac{1}{2}$ anna per lb. Also stronger demand for any broken grades and Fannings possessing tip, and prices often showed advance of 3 to 6 pice per lb. Dusts rather steadier, but good deal of irregularity continues, common and medium sorts both selling on much the same basis.

Trade returns for October, 1934, in lakhs of rupees.—Exports: Grain, pulse and flour 70; tea 245; hides, raw 7; skins, raw 17; tanned hides and skins 41; jute, raw 84; jute goods 232; seeds 119; shellac 20; raw cotton 105; total merchandise including re-exports 12.37. Imports: sugar 26; iron and steel 55; machinery and mill-work 115; cotton piecegoods 168; total merchandise 12.48. Net exports, private and government, gold 3.84, silver 1.09.

FOREIGN TRADE OF BOMBAY IN OCTOBER, 1934.

THE total value of the foreign trade of Bombay—Imports and Exports—for the month of October, 1934, amounted to Rs. 10.83 crores, showing an increase of Rs. 1.66 crore, or 18 per cent over the figures for October, 1933, and of Rs. 38.16 lakhs, or 3 per cent over those for October, 1932. The increase of Rs. 1.66 crore is due to larger arrivals of merchandise and to increased shipments of treasure and foreign merchandise. Imports of treasure and exports of Indian produce showed decreases.

Imports of merchandise amounted to Rs. 4.94 crores, showing an improvement of Rs. 65.92 lakhs, or 15 per cent and of Rs. 1.11 crore, or 29 per cent, respectively, over the figures for October, 1933, and October, 1932. The improvement of Rs. 65.92 lakhs is attributable to larger arrivals of cotton piecegoods (+11½ million yards and +Rs. 27.24 lakhs), motor cars, including motor wagons, cycles and parts, etc. (+Rs. 11.35 lakhs), wool manufactures (+Rs. 11.05 lakhs), artificial silk piecegoods (+over 1½ million yards and +Rs. 5.87 lakhs), metals and ores (+Rs. 5.84 lakhs) and cotton twist and yarn (+nearly ½ million lbs. and +Rs. 5.81 lakhs). There were, however, noticeable decreases in the arrivals of mineral oils (—nearly 3 million gallons and —Rs. 7.59 lakhs), silk manufactures (—Rs. 5.35 lakhs), cotton, raw (—411 tons and —Rs. 4.13 lakhs) and precious stones and pearls, unset (—Rs. 3.37 lakhs). Imports of gold amounted to Rs. 2.7 lakhs as against Rs. 2.78 lakhs and Rs. 7.67 lakhs and those of silver to Rs. 44,934 against Rs. 13.43 lakhs and Rs. 19,100, respectively.

Exports of Indian produce amounted to Rs. 1.78 crore, showing a fall of Rs. 6.86 lakhs, or nearly 4 per cent, from the figures for October, 1933, but a rise of Rs. 27.38 lakhs, or 18 per cent, over those for October, 1932. The fall of Rs. 6.86 lakhs is due to

the larger shipments of cotton, raw (+1,308 tons and +Rs. 6.27 lakhs) having been more than counter-balanced by smaller exports of seeds (—5,774 tons and —Rs. 7.36 lakhs), cotton twist and yarn (—nearly ½ million lbs. and —Rs. 2.52 lakhs), cotton manufactures (—Rs. 2.17 lakhs) and wool raw (—½ million lbs. and —Rs. 2.11 lakhs). Exports of gold amounted to Rs. 3.57 crores as against Rs. 2.66 crores and Rs. 4.87 crores and those of silver to Rs. 26.29 lakhs against Rs. 1 lakh and Rs. 1.23 lakh, respectively.

Re-exports of foreign merchandise advanced by Rs. 3.83 lakhs and Rs. 9.47 lakhs, respectively, to Rs. 23.83 lakhs.

The trade statistics of the first seven months of the current financial year show a rise, in imports, of Rs. 3.43 crores, or nearly 13 per cent over the figures for the corresponding months of the preceding year but a fall of Rs. 3.95 crores, or nearly 12 per cent, from those for the same months of the year 1932-33 and, in exports, a decline of Rs. 65.36 lakhs, or nearly 1.4 per cent as compared with the figures for the corresponding period of 1933-34, but an advance of Rs. 1.82 crore, or 4 per cent as compared with those for the same months of 1932-33. Imports of gold declined by Rs. 11.21 lakhs and Rs. 21.18 lakhs, respectively, to Rs. 24.04 lakhs and those of silver by Rs. 3.31 lakhs and Rs. 66.02 lakhs to Rs. 20.38 lakhs. Imports of merchandise amounted to Rs. 29.86 crores, showing an increase of Rs. 3.59 crores, or over 13 per cent but a decrease of Rs. 3.07 crores, or 9 per cent as compared with the figures for the corresponding period of the years 1933-34 and 1932-33, respectively. The increase of Rs. 3.59 crores is spread over most of the principal articles of import, the more important among them being motor cars, including motor wagons, cycles and parts thereof (+Rs. 68.53 lakhs), aniline dyes (+Rs. 39.65 lakhs), artificial silk piecegoods (+nearly 11 million yards and +Rs. 35.83 lakhs), wool manufactures (+Rs. 35.47 lakhs), cotton coloured piecegoods (+over 11½ million yards and +Rs. 35.06 lakhs), metals and ores (+Rs. 26.28 lakhs), cotton twist and yarn (+1½ million lbs. and +Rs. 19.89 lakhs), artificial silk yarn (+2½ million lbs. and +Rs. 15.17 lakhs), instruments, etc. (+Rs. 14.18 lakhs) and cotton manufactures and silk manufactures (+Rs. 12.31 lakhs each). Imports of mineral oils, on the other hand, decreased by 5½ million gallons in quantity and by Rs. 17.74 lakhs in value and those of sugar by 10,990 tons in quantity and by Rs. 11.68 lakhs in value.

Exports of gold amounted to Rs. 25.06 crores as against Rs. 28.45 crores and Rs. 32.22 crores and those of silver to Rs. 1.29 crores against Rs. 6.77 lakhs and Rs. 10.57 lakhs, respectively. Shipments of Indian produce amounted to Rs. 18.17 crores, showing an improvement of Rs. 1.67 crores, or 10 per cent and of Rs. 7.75 crores, or 74 per cent respectively as compared with the figures for the corres-

ponding months of the years 1933-34 and 1932-33. The improvement of Rs. 1.67 crore is almost entirely due to increased shipments of cotton, raw (+37,142 tons and +Rs. 2.22 crores). Noticeable decreases were, however, recorded in the exports of seeds (—18,196 tons and —Rs. 39.03 lakhs), wool, raw (—nearly 4½ million lbs. and —Rs. 18.87 lakhs) and cotton twist and yarn (—nearly 2 million lbs. and —Rs. 9.98 lakhs).

Re-exports of foreign merchandise were valued at Rs. 1.04 crore as against Rs. 1.2 crore and Rs. 99.53 lakhs, respectively.

INDIAN MINERAL PRODUCTION DURING 1933.

THE following extract and table showing the total value of Minerals for which returns of production are available for the years 1932 and 1933 is taken from the Report on the Mineral Production of India during 1933, by Mr. L. L. Fermor, O.B.E., D.Sc., A.R.S.M., F.R.S., F.G.S., F.A.S.B., M.Inst.M.M., Director, Geological Survey of India (published in the *Records of the Geological Survey of India*, Vol. LXVIII, Part 3 of 1934):—

The average figure for the quinquennium, 1919-23, was £25,194,123. In the following year, 1924, there was an apparent increase of over £3,500,000; this was, in part, however, due to the higher average value of the rupee during that year. Since 1924, there has been a steady decline, which persisted down to the year 1928, for which the value was £21,888,528. There was an arrest in this decline in 1929, which showed an increase in total value to £22,328,686 or about 2 per cent over that of 1928. In 1930, however, the decline was resumed and the total value of the production fell by over £2,500,000 to £19,750,233, this continuing in 1931, by over £2,000,000 to £17,739,994, and again in 1932 by

over £2,000,000 to £15,612,235. In 1933, however the tide has turned and the total value of the output increased by more than £1,000,000 to £16,618,069. Of each of the fourteen minerals with a value of over £100,000 annually, increases are shown by zinc concentrates (104.2 per cent), tin-ore (57.2 per cent), saltpetre (26.9 per cent), petroleum (23.3 per cent), mica (22.1 per cent), building materials (16.5 per cent), copper-ore and matte (16.1 per cent), gold (9.0 per cent), silver (5.4 per cent), and lead and lead-ore (3.8 per cent), whilst decreases are shown by iron-ore (36.2 per cent), manganese-ore (12.0 per cent), coal (10.1 per cent), and salt (4.4 per cent). For the first time petroleum heads the list of values as the most important mineral. Otherwise the most important changes are the further decreases in the value of the output of coal and manganese-ore, India's two most distressed mineral industries. Amongst less important minerals the largest increases in value are shown by tungsten-ore and antimonial lead, steatite, ochres and magnesite, whilst the most important decreases are shown by jadeite, ilmenite, chromite, refractory materials and clays.

An increase or decrease in value does not always correspond to a similar variation in output, and cannot, therefore, be regarded as an infallible indication of the state of an industry. But in 1933, in all cases, with nine exceptions, an increase or decrease of value accompanied an increase or decrease of the quantity of production. The exceptions were diamonds, manganese-ore, salt, clays, refractory materials and zircon, in which increases in output were accompanied by decreases in total value; and petroleum, nickel-speiss and amber, in which decreases in quantity were accompanied by increases in value, the disparity in the case of petroleum being especially marked, for a small decrease in quantity was accompanied by a large increase in value.

Total Value of Minerals for which Returns of Production are available for the Years 1932 and 1933.

Names of Minerals.	1932.	1933.	Increase.	Decrease.	Variation per cent.
	£	£	£	£	
Petroleum	3,818,875	4,707,959	889,084	..	+23.3

DEVELOPMENT OF CAMBODIA COTTON IN COIMBATORE DISTRICT.

THE Publicity Officer, Indian Central Cotton Committee, writes:—

The years after 1919 have witnessed an uninterrupted progress in the development of Cambodia cotton in the Coimbatore District by the Department of Agriculture in Madras supplemented by the Seed Multiplication Scheme financed by the Indian Central Cotton Committee. Having regard to the growing demand for improved Indian cotton, the success achieved marks a step in the evolution of superior varieties of cotton in the Madras Presidency which, in contrast with the state of affairs preceding 1918, deserves the special attention of textile manufacturers in India and growers in South India.

In order to appreciate properly the progress made, it is worth while recalling the deplorable condition of the cotton crop prior to 1918-19. Although an almost fortuitous combination of favourable conditions such as promising season and good rainfall had helped to enhance the prestige of Cambodia cotton which had practically replaced the local Uppam in all the black soil areas in the Coimbatore District, yet years of poor rainfall and the consequent deterior-

ation of the kapas, had witnessed a standing temptation to palm off adulterated kapas, instead of selling good and bad varieties separately. This led to impoverished quality in the supply of sowing seed and complaints from consumers with low quotations. The uneconomical nature of the procedure caused the ryots to fall back upon the indigenous Uppam.

LINE OF DEVELOPMENT.

The development and improvement of the Cambodia cotton in the Coimbatore District which thus opened up an immense field of fruitful work began, in its initial stages till departmental seed was available, with the purchase of carefully selected seed cotton out of the arrivals at the ginning factories through a special officer deputed for the purpose, and reselling it during sowing time. The second stage was the formation of an association of growers, sellers and buyers called the "Cambodia Cotton Marketing Association", resulting in the starting of a cotton market at Tiruppur and the fixing of cotton standards to form the basis for all purchases and sales. Unfortunately the former never functioned. The third and most important stage of development was the distribution of seed of selected heavy yielding strain out of the strains then avail-

able in the Central Farm, Coimbatore, to a few good growers in the district on contract.

INDUCEMENT TO RYOTS.

In pursuance of the policy of supplying seed and marketing the crop under a system of contract with the growers, the Department took opportunity to study prevailing agricultural methods and effect improvements wherever possible and gave free seed for sowing, carried out roguing while the crop was standing, paid advances (up to Rs. 30 per acre) when the seed was sown for after-cultivation expenses and bought the season's produce at a premium in the villages through a series of agreed undertakings. This arrangement was found necessary in the initial stages in order to reach the growers direct, eliminate the middlemen, on whom the grower had to depend for sowing seed, advances and marketing facilities, and thus maintain the purity of the selected strain. The ryots, in their turn, agreed to sow the pure seed (supplied free) in well farmed lands, to weed the crop and thin it when necessary, to pick the kapas clean, to dry the season's kapas before storing and to remove stained kapas. The growers also agreed to deliver the stored kapas when required by the Department for ginning.

LATER DEVELOPMENT.

After two years, with the difficulties of financing and meeting the growing demand for departmental cotton seed, many of these concessions were relaxed and confined only to financing the bare minimum of after-cultivation needs. In the following years the Department undertook to buy only the seed at a premium and acted purely in an advisory capacity in arranging and guiding the growers in the matter of market fluctuations for their lint. After 1925, it was felt desirable to hand over the production of seed to private agencies, and Co-operative Non-Credit Seed Societies in typical villages were accordingly started to answer this purpose. Twelve such societies were started of which eight were eventually transferred to the Co-operative Department. Alongside, new strains, as they were being evolved by the Cotton Specialist, were tried in the villages, and No. 15, Co. 1 (No. 295), and Co. 2 (No. 440) were each successively introduced between the years of 1921 and 1929. The introduction of the Pest Act and the Transport Act had, meanwhile, helped to prevent pest diseases and adulteration, though it must be admitted that owing to the heterogeneous nature of the varieties from further south in the Presidency, prevention of adulteration was made more difficult than it need have been.

The Co. 2 Seed Multiplication Scheme, introduced and financed by the Indian Central Cotton Committee in 1932-33, is being worked by the Tiruppur Co-operative Trading Society with the object of making available as much of pure Cambodia seed as would meet the needs of all the growers of the

district. The financial gain accrues to the grower in two ways, (1) by extra yield, (2) by way of premium through the sale of lint and seed.

Coimbatore, where this development in Cambodia was initiated and systematically carried out, caters to the needs of other districts in the matter of supply of improved seed for sowing.

**EXTRACT FROM LINSEED CIRCULAR No. 46
ISSUED BY THE IMPERIAL COUNCIL
OF AGRICULTURAL RESEARCH, INDIA.**

London, 16th November, 1934—

	£	s.	d.
Quotations for Linseed and Linseed Oil—			
Indian Linseed.—November-December delivery c.i.f. per ton	10	12	6
Argentine Linseed.—November-December delivery c.i.f. (excluding duty) per ton	9	7	6
Linseed Oil.—November-December delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	17	17	6

Market Conditions.—Enquiries in the United Kingdom for Indian seeds afloat and early shipments rather better. The prospect of unfavourable weather in Argentina is causing speculative interest. Good continental demand for the old and new *La Plata* crop. Reported possibility of more extensive purchases in America from Argentina or India in the near future in view of the rapid disappearance of home-grown linseed.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 7th November, 1934—

Quotations for Linseed Oil—		
Linseed Oil, European make (Raw)	Rs. 1-8-6	per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1-10-6	per gallon f.a.s.

Market Conditions.—The linseed market has been steady since the last report, prices remaining practically unchanged.

Bombay, 10th November, 1934—

Quotations for Linseed Oil—		
Linseed Oil	Rs. 3-3-0	per maund.

Stocks of Linseed.—Linseed stock in Bombay on the 10th November, 1934, was estimated at 6,000 tons with merchants and 7,000 tons with offices.

Imports of Linseed into United Kingdom —

	During October, 1934.	During January to October.

BOOKS OF REFERENCE.

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) *Raw Cotton Trade Statistics (Rail and River)* for July, 1934. (Price Re. 1-10.) This publication contains statistics of raw cotton imported into and exported from each internal trade block in each province by rail and river from and to other trade blocks of the other provinces of India. A summary table showing the inter-provincial trade is also included.

(2) *Monthly Accounts of the Sea-borne Trade and Navigation of British India for October, 1934.* (Price Re. 1-4.) These accounts contain the particulars of the quantity and value of the principal articles of imports, re-exports and exports of merchandise, together with the figures of imports and exports of treasure and the amount of duty collected during the month of October, 1934, and the seven months April to October, 1934, as compared with the corresponding periods of the preceding two years and also the number and tonnage of vessels employed in the foreign and coasting trade of British India during the month of October, and the seven months ended October, 1932, 1933 and 1934. The total value of the import and export trade with each of the principal countries during October and the seven months ended October, 1933 and 1934, is also shown in these accounts. A table showing the declared values per unit of principal articles of imports and exports during the month of October, 1932, 1933 and 1934, is included in these accounts.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

THE MAYNARD GANGA RAM PRIZE.

—In 1925 the late Sir Ganga Ram, Kt., C.I.E., M.V.O., R.B., Lahore, handed over to the Punjab Government a sum of Rs. 25,000 for the endowment of a prize of the value of Rs. 3,000 to be called the Maynard Ganga Ram Prize and to be awarded every three years, for a discovery, or an invention, or a new practical method which will tend to increase agricultural production in the Punjab on a paying basis. The competition is open to all throughout the world. Government servants are also eligible to compete for it. Entries for the next award were invited by the 31st December, 1933. None of the entries was considered to be of sufficient merit and it has been decided by the Managing Committee of the prize that the award should be postponed for another year and that further entries should reach the Director of Agriculture, Punjab, Lahore, on or before the 31st December, 1935.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

STATE RAILWAY EARNINGS—

The total approximate gross earnings of all State-owned Railways for the week ending the 3rd November, 1934 (31st week), amounted to Rs. 1,63 lakhs, Rs. 1 lakh more than the figures for the preceding week as well as the actuals for the corresponding week of the previous year and Rs. 14 lakhs more than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 3rd November, 1934, amount to Rs. 51.03 crores or Rs. 2,97 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,85 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year :—

Railways.	Up to 3rd November, 1933.	Up to 3rd November, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.).	(In lakhs of Rs.).	(In lakhs of Rs.).
A.-B.	89	1,05	+16
B.-N.	4,17	4,53	+36
B., B. & C. I.	5,81	6,11	+30
Burma	1,92	2,07	+15
E. B.	2,91	3,01	+10
E. I.	9,81	10,67	+86
G. I. P.	6,43	6,64	+21
M. & S. M.	4,04	4,14	+10
N. W.	7,70	8,30	+60
S. I.	3,12	3,21	+9
Tirhoot and Lucknow-Bareilly.	1,04	1,05	+1
Other Railways	22	25	+3
TOTAL	48,06	51,03	+2,97

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways except the A.-B., B. B. & C. I., M. and S. M., N. W., and S. I. A comparison with the actuals of the corresponding week of 1933 shows increases in the approximate gross earnings of the B.-N., B. B. and C. I., E. I. and N. W. Railways.

The principal variations in earnings as compared with the actuals of the corresponding week of the previous year, in thousands of rupees, were :—

A.-B. —12; coaching earnings (—8) due to less number of passengers carried, goods earnings (—1) and other earnings (—3).

STATE RAILWAY EARNINGS—contd.

B.-N. +97; coaching earnings (—24) due to decrease under passenger and other coaching earnings, goods earnings (+1,20) under coal, iron ore, manganese ore and lime and other earnings (+1).

B. B. & C. I. . . . +67; coaching earnings (—59), goods earnings (+1,23) and other earnings (+3).

Burma —52; coaching earnings (+20) goods earnings (—73) and other earnings (+1).

E. B. —1,19; coaching earnings (—37) due to the inclusion of earnings from *mela* traffic passengers in the corresponding week, goods earnings (—86) resulting from heavy fall in jute and grain traffic and other earnings (+4).

E. I. +4,56; coaching earnings (—30) and goods earnings (+4,86) due to increased earnings from coal, tea, iron and gram and pulse.

G. I. P. —1,75; coaching earnings (—36) solely under other coaching earnings, goods earnings (—1,34) due to a falling off in the receipts from cotton, oil seeds and food grains other than wheat and rice and other earnings (—5).

M. & S. M. —1,68; coaching earnings (—64) due to less bookings of passengers, goods earnings (—1,06) due to less movements of groundnuts, rice, cotton seeds, tobacco and food grains other than wheat and rice and other earnings (+2).

N. W. +72; coaching earnings (—1,05) due to decrease in the number of passengers carried, goods earnings (+1,62) mainly under cotton, food grains, oilseeds, salt, kerosene oil and petrol and other earnings (+15).

S. I. —1,24; coaching earnings (—20), goods earnings (—1,05) under groundnut and paddy resulting from heavy rainfall, and other earnings (+1).

Tirhoot and Lucknow-Bareilly —15; due to decreased coaching earnings on the B. & N. W. and R. & K. Railways.

The total approximate gross earnings of all State-owned Railways for the week ending the 10th November, 1934, (32nd week), amounted to Rs. 1,44 lakhs, Rs. 19 lakhs less than the figures for the preceding week and Rs. 25 lakhs less than the actuals for the corresponding week of the previous year and Rs. 16 lakhs less than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 10th November, 1934, amount to Rs. 52.47 crores or Rs. 2,72 lakhs more than the actuals for the corresponding period

STATE RAILWAY EARNINGS—contd.

of the previous year and Rs. 3,69 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year.

Railways.	Up to 10th November, 1933.	Up to 10th November, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.).	(In lakhs of Rs.).	(In lakhs of Rs.).
A.-B.	93	1,09	+16
B.-N.	4,31	4,65	+34
B., B. & C. I.	6,01	6,28	+27
Burma	1,98	2,13	+15
E. B.	3,03	3,11	+8
E. I.	10,14	10,98	+84
G. I. P.	6,67	6,81	+14
M. & S. M.	4,16	4,23	+7

Tirhoot and Lucknow-Bareilly.	1,08	1,08	..
Other Railways	23	26	+3
TOTAL	49,75	52,47	+2,72

A comparison with the figures of the previous week for the principal State-owned Railways shows decreases in the approximate gross earnings of all Railways except the A.-B. and Burma. A comparison with the actuals of the corresponding week of 1933 shows decreases in the approximate gross earnings of all the principal State-owned Railways except the A.-B.

The principal variations in earnings as compared with the actuals of the corresponding week of the previous year, in thousands of rupees, were :—

A.-B. +12; coaching earnings (—16), goods earnings (+26) due to greater bookings of rice, paddy, kerosene oil and petrol and other earnings (+2).

B.-N. —1,88; coaching earnings (—44) both under passenger and other coaching earnings, goods earnings (—1,40) under coal, cotton manufactured, jute, kerosene oil, oilseeds, rice, tobacco and other earnings (—4).

B., B. & C. I. . . . —2,93; coaching earnings (—82), goods earnings (—2,13) under grain and pulses, oilseeds, cotton and miscellaneous traffic in full wagon loads and other earnings (+2).

Burma —62; coaching earnings (+4), goods earnings (—67) under grains and other earnings (+1).

STATE RAILWAY EARNINGS—*contd.*

E. B.	—2,38; coaching earnings (—48) mainly under passenger earnings, goods earnings (—1,85) due chiefly to heavy fall in jute traffic and other earnings (—5).
E. I.	—1,98; coaching earnings (—66) chiefly under 3rd class passengers, and goods earnings (—1,32) due to decreased earnings from jaggree, kerosene oil, wheat and oilseeds.
G. I. P.	—6,87; coaching earnings (—80) both under passenger and other coaching traffic, goods earnings (—6,09) chiefly under cotton, wheat, oilseeds, sugar and jaggree, kerosene oil and food grains other than wheat and rice, and other earnings (+2).
M. & S. M.	—2,91; coaching earnings (—1,06) due to less bookings of passengers, goods earnings (—1,86) due to less movements of rice, groundnuts, cotton seeds and food grains other than wheat and rice, and other earnings (+1).
N.-W.	—3,38; coaching earnings (—45) due to decrease under other coaching earnings, goods earnings (—2,88) mainly under cotton raw, grain and pulses, sugar, fruits and vegetables and kerosene oil, and other earnings (—5).
S. I.	—1,59; coaching earnings (—14) and goods earnings (—1,45) due to less movement of groundnuts; Deepavali festival occurred during this week, when both passenger and goods traffic is usually dull.
Tirhoot and Lucknow-Bareilly	—54; due to decreases under coaching and goods earnings on the B. and N.-W. Railway.

WAGONS OF REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 3rd November, 1934, and for the cumulative period from the 1st April to the 3rd November, 1934, with the corresponding periods of the previous year are as follows:—

(a) *Total loadings during the week.*

During the week ending the 3rd November, 1934, there were loaded on the broad gauge 77,135 wagons, being 3,438 more than in the corresponding week of the previous year, or an increase of 4.67 per cent. On the metre gauge there were loaded 42,774 wagons, being 1,828 fewer than in the corresponding week of the previous year or a decrease of 4.10 per cent.

WAGONS OF REVENUE FREIGHT—*contd.*(b) *Cumulative loadings from the 1st April, 1934.*

(i) For the period from the 1st April to the 3rd November, 1934, there were loaded on the broad gauge 2,339,441 wagons, being 161,524 more than in the corresponding period of the previous year, or an increase of 7.42 per cent, and on the metre gauge 1,458,373 wagons, being 83,554 more than in the corresponding period of the previous year, or an increase of 6.07 per cent.

(ii) *Coal and coke.*—In the same period 588,093 wagons, broad and metre gauge, were loaded as compared with 526,556 in the corresponding period of the previous year, being 61,537 more or an increase of 11.7 per cent. In addition, 66,444 wagons, broad gauge, were loaded during the period by the B.-N. and E. I. Railways for their own use, as compared with 57,693 in the corresponding period of the previous year, being 8,751 more, or an increase of 15.2 per cent.

(iii) *Grains and pulses.*—In the same period 493,194 wagons, broad and metre gauge, were loaded as compared with 432,806 in the corresponding period of the previous year, being 60,388 more, or an increase of 14.0 per cent.

(iv) *Oilseeds.*—In the same period 134,778 wagons, broad and metre gauge, were loaded as compared with 139,267 in the corresponding period of the previous year, being 4,489 fewer, or a decrease of 3.22 per cent.

(v) *Cotton.*—In the same period 81,812 wagons, broad and metre gauge, were loaded as compared with 71,594 in the corresponding period of the previous year, being 10,218 more, or an increase of 14.3 per cent.

(vi) *Home line stores and materials.*—In the same period 218,362 wagons, broad and metre gauge, were loaded as compared with 196,958 in the corresponding period of the previous year, being 21,404 more, or an increase of 10.9 per cent.

(vii) *Miscellaneous smalls.*—In the same period 938,734 wagons, broad and metre gauge, were loaded as compared with 907,848 in the corresponding period of the previous year, being 30,886 more, or an increase of 3.40 per cent.

(viii) *Miscellaneous full wagons.*—In the same period 1,342,841 wagons, broad and metre gauge, were loaded as compared with 1,277,707 in the corresponding period of the previous year, being 65,134 more, or an increase of 5.10 per cent.

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 10th November, 1934, and for the cumulative period from the 1st April to the 10th November, 1934, with the corresponding periods of the previous year are as follows:—

WAGONS OF REVENUE FREIGHT—*contd.*(a) *Total loadings during the week.*

During the week ending the 10th November, 1934, there were loaded on the broad gauge 63,958 wagons, being 14,074 fewer, than in the corresponding week of the previous year, or a decrease of 18.0 per cent. On the metre gauge there were loaded 38,862 wagons, being 7,729 fewer than in the corresponding week of the previous year, or a decrease of 16.6 per cent.

(b) *Cumulative loadings from the 1st April, 1934.*

(i) For the period from the 1st April to the 10th November, 1934, there were loaded on the broad gauge 2,403,483 wagons, being 147,534 more than in the corresponding period of the previous year, or an increase of 6.54 per cent and on the metre gauge 1,497,248 wagons, being 75,838 more than in the corresponding period of the previous year, or an increase of 5.34 per cent.

(ii) *Coal and coke.*—In the same period 604,386 wagons, broad and metre gauge, were loaded as compared with 544,728 in the corresponding period of the previous year, being 59,658 more, or an increase of 11.0 per cent. In addition, 68,583 wagons, broad gauge, were loaded during the period by the B.-N. and E. I. Railways for their own use, as compared with 59,590 in the corresponding period of the previous year, being 8,993 more, or an increase of 15.1 per cent.

(iii) *Grains and pulses.*—In the same period 503,232 wagons, broad and metre gauge, were loaded as compared with 447,718 in the corresponding period of the previous year, being 55,514 more, or an increase of 12.4 per cent.

(iv) *Oilseeds.*—In the same period 136,789 wagons, broad and metre gauge, were loaded as compared with 144,100 in the corresponding period of the previous year, being 7,311 fewer, or a decrease of 5.07 per cent.

(v) *Cotton.*—In the same period 84,264 wagons, broad and metre gauge, were loaded as compared with 74,640 in the corresponding period of the previous year, being 9,624 more, or an increase of 12.9 per cent.

(vi) *Home line stores and materials.*—In the same period 224,840 wagons, broad and metre gauge, were loaded as compared with 203,316 in the corresponding period of the previous year, being 21,524 more, or an increase of 10.5 per cent.

(vii) *Miscellaneous smalls.*—In the same period 967,416 wagons, broad and metre gauge, were loaded as compared with 939,642 in the corresponding period of the previous year, being 27,774 more, or an increase of 2.96 per cent.

(viii) *Miscellaneous full wagons.*—In the same period 1,379,804 wagons, broad and metre gauge, were loaded as compared with 1,323,215 in the corresponding period of the previous year, being 56,589 more, or an increase of 4.28 per cent.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

INTERPRETATION OF "SATEEN WEAVE."

Addendum to Customs Ruling No. 2 of 1934 (dated the 8th November, 1934) of the Central Board of Revenue, is as follows:—

Addendum.

Add the following as the third sentence—

"By 'surface of the cloth' is meant the 'correct' side of the cloth as used by the consumers."

MATCHES (EXCISE DUTY) ORDER, 1934: SALE OF MATCHES IN BRITISH INDIA—AMENDMENT.

The following Notification (No. 39-Central Excises, dated the 24th November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by sub-section (2) of section 8 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India in the Finance Department (Central Revenues), No. 8-Central Excises, dated the 16th June 1934 (*vide the Indian Trade Journal*, dated the 21st June, 1934, page 1272), namely:—

In the said Notification after the proviso the following further proviso shall be added, namely:—

"Provided further that matches in respect of which a declaration has been made in accordance with the rules published with the notification of the Government of India in the Finance Department (Central Revenues) No. 26, dated the 29th September, 1934 (*vide the Indian Trade Journal* dated the 4th October, 1934, pages 20-21), and which bear a special banderol manufactured in and issued from the Government Security Press, Nasik, for the purpose of being affixed to boxes or booklets containing such matches may until further orders be sold or offered or kept for sale in British India."

CANADA.

INVOICE REGULATIONS.

The *Board of Trade Journal*, dated the 1st November, 1934, states that an Order-in-Council P. C. 2096, of September 7, amends the instructions contained at the heading of Declaration Form N by authorising a Justice of the Peace as an officer before whom the declaration may be made in British countries. The declaration may accordingly be made before a Collector of Customs, Justice of the

Peace, Notary Public or any official authorised to administer oaths. Form N contains the Certificate of Value and of Origin which must accompany invoices of articles shipped to Canada on consignment prior to sale by the exporter.

GERMANY.

MONOPOLY TAX ON LARD.

The following is reproduced from the *Board of Trade Journal*, dated the 1st November, 1934:—

A Proclamation, dated October 17, 1934, fixes the monopoly tax on lard (*ex No. 126 of the German Customs Tariff*) during the period October 22 to October 31, 1934, at 24 Reichsmarks per 100 kilogs.

MONOPOLY TAX ON CERTAIN FEEDING STUFFS.

The *Board of Trade Journal*, dated the 1st November, 1934, states the following:—

A Proclamation, dated October 15, 1934, effective from October 15 to December 31, 1934, issued by the State Office for Grain, Fodder and other Agricultural Products, fixes the monopoly tax (*i.e.*, the surcharge added to the monopoly purchase price to form the monopoly selling price) at one Reichsmark per metric ton on fish meal, blood of slaughtered cattle, dried, greave cakes, meat fodder meal, and similar animal waste (*ex No. 161 of the German Customs Tariff*).

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference:—

8th November, 1934.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 8th and the 14th November, 1934:—21345. W. V. Gilbert.—Improvements in or relating to the preparation of chromic acid and sparingly soluble chromates. (November 9, 1933.) 21346. M. Ahmad Din.—Pumps for oil engines or like purposes. 21347. A. Sen.—A new system of recording and reproducing sound by means of gramophone records. 21348. Filter Tips Ltd.—Improvements in or relating to cigarettes. (November 9, 1933.) 21349. Filter Tips Ltd.—Improvements in or relating to cigarettes. (November 9, 1933.) 21350. Filter Tips Ltd.—Improvements in or relating to cigarettes. (November 9, 1933.) 21351. C. E. L. Bruges.—Improvements in and relating to drawing boards and ruling devices therefor. 21352. J. Morton.—Improved apparatus for supplying fibrous material for incorporation in fabrics. 21353. B. G. Leites.—Method of producing and employing materials with high content of proteins, obtaining as a by-product in manufacturing vegetable oils, especially from castor beans, sunflower seeds or the

like. 21354. E. I. Du Pont De Nemours and Co.—Improvements in or relating to the manufacture of hydrocyanic acid. 21355. Pirelli-General Cable Works, Ltd.—Improvements in or relating to apparatus for extruding metal. (December 1, 1933.) 21356. Associated Electrical Industries, Ltd.—Improvements relating to the control of electric motors in traction systems. 21357. The Burmah Oil Co., Ltd.—Preparation from Kashmir bentonite and other clays of Indian origin of substances which form gels with water and when mixed with drilling muds, cements, etc., enhance their properties. 21358. D. F. Brown and The Westinghouse Brake and Saxby Signal Co., Ltd.—Improvements in and relating to automatic vacuum braking apparatus. (December 29, 1933.) 21359. E. R. Harrap.—Improvements relating to slabs, blocks or tiles of asbestos cement or like compositions. (December 7, 1933.) 21360. H. Hardy.—Process for the manufacture of agglomerates without addition of pitch. (October 13, 1934.) 21361. Filter Tips Ltd.—Improvements in or relating to apparatus for the production of cigarettes. 21362. Filter Tips Ltd.—Improvements in or relating to the manufacture of cigarettes. 21363. Filter Tips Ltd.—Improvements in or relating to the manufacture of cigarettes. 21364. J. B. Svadling.—Improvements in or relating to whip-stitching. 21365. Schering-Kahlbaum Aktiengesellschaft.—The manufacture of acyl derivatives of the dyhydrofollicle hormone. (December 22, 1933.) 21366. "Eternit" Pietra Artificiale, Societa Anonima.—Process and apparatus for obtaining cement-asbestos pipes fitted with muff in a single monolithic complex, both the pipe and the muff being manufactured with the same process. 21367. J. J. Curtis.—Improvements in and relating to sliding frames for railway carriage windows and to lock or catch mechanism therefor. [Divisional date, December 11, 1933.] 21368. Compagnie Generale De Geophysique.—A method of electrically prospecting the undersoil. 21369. S. N. Dutt.—Rail creep arrester.

WEATHER AND CROP REPORTS.

BENGAL.

26th November.

During the week the weather was dry. Sowing of spring crops and harvesting of winter paddy are progressing under favourable conditions. Prospects of standing crops are generally fair.

ASSAM.

26th November.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

20th November.

During the week under report there was no rain in the province. The condition of standing crops

including sugarcane is generally good. Threshing of *bhadoi* crops continues in Orissa districts. Prospects of winter rice are, on the whole, fair. Harvesting of winter paddy is going on in some districts. Sowing of *rabi* crops is still going on and that of spring oilseeds continues.

CENTRAL PROVINCES.

17th November.

During the week the weather was clear and cool. Standing *kharif* crops are in satisfactory condition. Sowing of *rabi* crops continues in the Jubbulpore and Chhattisgarh divisions and is practically over elsewhere. Germination is successful. Harvesting of *kharif* crops and picking of cotton continue.

MADRAS.

17th November.

During the week there was practically no rainfall. Transplanting or sowing of paddy is proceeding in parts of the Carnatic, the Central districts, the south and the west Coast and sowing of dry crops in parts of the Deccan. The condition of standing crops is generally fair, except in parts of the Deccan where they have been adversely affected for want of rain.

PUNJAB.

19th November.

During the week the weather remained dry. Rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated areas. Sugarcane has been damaged by *Pyrilla* insect in parts of Jullundur and cotton by boll worm and *tela* in parts of Multan. *Tela* is also reported to have affected cotton in Muktsar tahsil, Ferozepore district.

GENERAL WEATHER SUMMARY.

During the week ended Tuesday last weather in India was dry except for few or scattered falls of rain in Assam, south-east Madras and south Madras on two or three days.

The western disturbance also persisted for a few days and then passed away eastwards after causing few light showers of rain or snow in Kashmir and Baluchistan.

At the end of the week conditions became unsettled in the south Bay of Bengal which developed into a storm and caused local rain in south-east Madras on the 27th November.

Local or few falls occurred elsewhere.

INTERMEDIATE CROP REPORTS.

SECOND INTERMEDIATE REPORT ON THE COTTON CROP OF THE NORTH-WEST FRONTIER PROVINCE FOR 1934.

Since the issue of the last forecast there has been no change in the total area sown with cotton. Practically no rain fell during the month under report. The yield is expected to be average.

SECOND INTERMEDIATE REPORT ON THE SUGAR-CANE CROP OF THE NORTH-WEST FRONTIER PROVINCE FOR 1934.

Since the issue of the last forecast there has been no change in the total area planted with sugarcane. The outturn is expected to be average.

CROPS IN FOREIGN COUNTRIES.

THE following summary prepared from the latest (October, 1934) issue of the "International Review of Agriculture", published by the International Institute of Agriculture, Rome, supplements the information already published in the *Indian Trade Journal* in respect of important crops in foreign countries:—

Wheat.

According to the latest available estimates, the preliminary forecast of the production of wheat in Europe (excluding U. S. S. R.) for 1934 is now placed at 1,477 million bushels, as against the record production of 1,749 million bushels in the preceding year. The decrease is attributed in a small part to the reduction in the acreage cultivated, which amounts to about two and a half million acres, but chiefly to lower yields as compared with yields obtained a year ago. Nevertheless production this year is a good one, exceeding the average of five years ending 1932 by 48 million bushels.

In Argentina, the condition of the wheat crop from the time of sowing in May-June up to the time of report has given no cause for anxiety and the heavy rains which fell in September and in the first half of October have proved very beneficial to the crop. If weather continues favourable up to the time of harvesting, it may be expected that in Argentina, a crop of the same magnitude as that of last year, will be obtained.

Stocks of wheat.—The following figures show the estimated stocks of wheat on 1st August 1933 and 1934, in the principal exporting countries together with the quantities afloat at the same date:—

Exportable wheat stocks at the end of season.

Country.	1934. Million bushels.	1933. Million bushels.
United States (a)	255	357
Canada (b)	194	210
Argentina	96	50
Australia	77	43
Quantity afloat	34	32
TOTAL	656	692

(a) Including domestic wheat in store in Canada.

(b) Including domestic wheat in store in U. S. A.

Rice.

In the United States of America, the production of rough rice for 1934-35 is now placed at 16,407,000 centals, as against 16,029,000 centals last year. In Italy, the area and production of rough rice for 1934-35 are estimated at 324,000 acres and 13,385,000 centals, as against 316,000 acres and 13,398,000 centals in the preceding year.

Cotton.

In Uganda, the area planted to cotton up to the end of August 1934 in the Buganda, Eastern and Northern Provinces together is estimated at 988,000 acres. Weather conditions, in general, were favourable in August, although in some areas rainfall was excessive. In most areas damage by *Lygus* was reported and a reduction in yield was expected on account of the damage to the leaves and buds, if this infestation continued.

Groundnuts.

In the United States of America, according to the most recent estimate the production of groundnuts this year is estimated at about 10,497,000 centals, as against 9,205,000 centals in 1933.

NOTE.—1 bushel of wheat = 60 lbs.; 1 cental = 100 lbs.

CROP FORECASTS.

(FOREIGN)

RICE CROP IN JAPAN, 1934.

According to a cable dated the 23rd November, 1934, received from Tokio, the second estimate of the rice crop of Japan for 1934 is placed at 50,746,000 *koku* (=7,117,000 tons), as compared with 70,847,000 *koku* (=9,936,000 tons), the actual yield of last year.

RICE CROP IN FORMOSA, 1934.

According to a communication dated the 1st November, 1934, received from His Majesty's Acting Consul at Tamsui, the area under the second rice crop of Formosa for 1934 is reported to be 935,000 acres, showing a decrease of 3 per cent as compared with the corresponding area of last year. The production is estimated at 23,249,000 bushels (or 657,000 tons), which exceeds the last year's corresponding production by 1,298,000 bushels (or 37,000 tons). The crop has sustained damage from drought especially in the north, and from insect pests in the centre and the south, but its growth has been greatly stimulated by an abundant supply of water and favourable weather after the middle of September.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from:—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Witter Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsarop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Supply of Steel Conduits and Fittings for Electrical Wirings.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below:—

Tender No. N-3839.—Rate Contract for Supply during 1st May, 1935, to 30th April, 1936, of Steel Conduits and Fittings for electrical wiring, conforming in all respects to B. S. I. Specification No. 31, (latest edition), for delivery f.o.r. Calcutta, Bombay, Madras, Karachi, Rangoon, Lahore and Delhi.

Price of tender forms, etc., is Rs. 2 per set of 2 copies (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 15th January, 1935, and opened on the 16th January, 1935.

INDIAN STORES DEPARTMENT.

Supply of Hercules Bicycles.

The Controller of Purchase, Indian Stores Department, Hararwalla Building, Witter Road, Ballard Estate, Bombay, invites tenders on a Rate Contract basis for the supply of Hercules Bicycles and their accessories for a period of one year commencing from the 1st January, 1935 (*Tender No. B. H.-8182*).

Price of tender form is Rs. 2 per set of two copies (not refundable).

Tenders will be received up to 10-30 a.m. on the 17th December, 1934, and will be opened at 11 a.m. on the 17th December, 1934.

INDIAN STORES DEPARTMENT.

Supply of Loco. Axles and Tyres and Wheel Chilled and Axles for C. & W. required for the N. W. Fly. at Karachi.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed in the statement on the next page.

Price of tender forms, etc., is Rs. 8 per set (not refundable). Payment should be made in cash or by Money Order, quoting *Tender No. N-3857* and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 21st January, 1935, and opened on the 22nd January, 1935.

ARMY HEADQUARTERS, INDIA.

Supply of Glycerine.

Tenders are invited for the supply of Pure Glycerine (for manufacture of Nitro-Glycerine) required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla.

Payment must be made by Money Order on the coupon of which the number of the tender (No. P/M-30), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 12th January, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

ARMY HEADQUARTERS, INDIA.

Supply of Cooking Utensils.

Tenders are invited for the supply of Cooking Utensils (*Degchies, Thalies, Chamchas*, Frying Pans, etc.), required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order on the coupon of which the number of the tender (No. P/O-119), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 7th January, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

ARMY HEADQUARTERS, INDIA.

Supply of Dubbing.

Tenders are invited for the supply of Dubbing (a) for Boots and (b) for Harness Saddlery and Leather Equipment, required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order on the coupon of which the number of the tender (No. P/O-222), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 17th January, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

BENGAL CINCHONA DEPARTMENT.

Supply of Slaked Lime for the Government Quinine Factory, Mungpoo.

Tenders are invited for the supply of 600 maunds Slaked Lime for the Government Quinine Factory, Mungpoo. Samples are to be sent direct to the Quinologist to the Government of Bengal, Mungpoo P. O., Riyang, D. H. Railway, and quotations to the Superintendent, Cinchona Cultivation in Bengal, Royal Botanic Garden, Calcutta. Applications received after the 10th December, 1934, will not be accepted.

GOVERNMENT MEDICAL STORES DEPÔT, MADRAS.

Supply of Medicines, Chemicals, etc.

Sealed tenders for medicines, Chemicals, Raw Materials, Packing Articles and Miscellaneous Stores required by the above depôt during 1935-36 will be received up to 12 noon on Tuesday, the 15th January, 1935, by the Officer-in-Charge, Government Medical Store Depôt, Madras, from whom Schedules and tender forms can be obtained on payment of Rs. 2 per two sets.

BURMA RAILWAYS.

Supply of Miscellaneous Tools and Stores of English Manufacture.

Tenders will be received at the Office of the Agent, Burma Railways, Rangoon, up to noon on Thursday, the 17th January, 1935, for the supply of Miscellaneous Tools and Stores of English Manufacture required during the official year 1935-36.

Tenders should be forwarded in covers sealed and superscribed "Tender for the Supply of Miscellaneous Tools and Stores of English Manufacture, 1935-36" and should be accompanied by a receipt from the Chief Accounts Officer, Burma Railways, Rangoon, for the amount of deposit required, (*vide* para. 6 of the "Notes for the Guidance of Tenderers").

The Agent does not bind himself to accept the lowest or any tender, or assign reasons for rejections.

Tender forms may be obtained from the Office of the Superintendent of Stores, Burma Railways, Rangoon, on payment of Rs. 2 per copy.

Postage stamps and telegraphic tenders will not be accepted.

For drawings and other particulars, application should be made to the Superintendent of Stores, Burma Railways, Rangoon.

EASTERN BENGAL RAILWAY.

Tender for Earthwork, Bridgework and Miscellaneous Works for the Proposed New Station at Faridpur.

Tenders are invited for the proposed New Station at Faridpur comprising earthwork, bridgework and miscellaneous works.

Form of Tender with instruction to tenderer, specification, special conditions of contract forming enclosures thereto, can be obtained from the Chief Engineer, E. B. Railway, Calcutta, on payment in cash or Money Order of Rs. 2 only, which will not be refunded in any circumstances.

Tenders are to be submitted not later than 12 noon on the 15th December, 1934, at which time and date they will be opened. Tenderers may be present at the opening.

A sum of Rs. 100 must be deposited as earnest money with the Superintendent, Cash and Pay

Branch, E. B. Railway, Sealdah, and the number and date of the receipt must be quoted in the tender; unless this is done no tender will be considered.

The Eastern Bengal Railway Administration reserves to itself the right to reject any tender or portion of a tender and does not bind itself to accept the lowest tender, the whole of a tender or any tender, and will furnish no reasons for rejection or non-acceptance.

The names and details of successful tenderers will be published in the *Indian Trade Journal*.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Pine Baulks and Planks.

Tenders are invited for the following by the Agent, Eastern Bengal Railway, Calcutta, and should reach him not later than 3 p.m. (Calcutta Time) on the 3rd December, 1934.

- | | |
|---|-----------|
| (1) Pine Baulks, 12" x 12" x not less than 40 ft. in length | —200 Nos. |
| (2) Pine Planks, 12" x 3" x in lengths 20 ft. to 30 ft. | —800 Nos. |

Offers from stock are particularly required. The necessary tender forms and envelopes can be had from the "Stores Information Bureau", No. 3, Koilaghat Street (Bankshall Street-end), Calcutta. Price of tender form is Rs. 2 per set.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Miscellaneous Stores.

The Agent, M. and S. M. Railway, Madras, invites tenders for the supply of Miscellaneous Stores (consisting of Asbestos goods, Brooms, Brushes, Crucibles, Chemicals, Cloth and Canvas goods, Belting, Carriage Roofing, Glass, Iron and Tinware, Leather goods, Hides, Soaps, Locks, Ropes, Twine, Disinfecting fluid, Gunny bags, Charcoal, Handles, Fire Clay Country, Mantles for H. P. Lamps, etc.) required during the year commencing from the 1st April, 1935.

Tender forms can be obtained from the Railway's Controller of Stores at Perambur on payment of Rs. 3 per copy. Closing date is the 11th December, 1934.

NORTH WESTERN RAILWAY.

Supply of Capstan Turning Lathes.

Tenders are invited on a rupee basis, for the purchase by the N. W. Railway of two Capstan Turning Lathes. Tenders must reach the Office of the Agent, N. W. Railway, Lahore, not later than 14 hours on the 3rd January, 1935 and will be opened in the Office of the Controller of Stores, N. W. Railway, Lahore, at 11 hours on the following working day. Tender forms and other relative documents can be seen at and obtained from the Office of the Controller of Stores, N. W. Railway, Lahore. The sale price of the tender is Re. 1 only.

OFFICE OF THE FOREST UTILIZATION OFFICER, BENGAL.

Sale of Muli Bamboos.

Offers are invited for the purchase of 300,000 of Muli Bamboos at Rs. 25 a thousand alongside Chittagong Jetty. Loading on to River Steamer or Ocean Steamer or A.-B. Railway trucks will be supervised free of charge. Only actual labour expenses will be charged. Further particulars may be obtained from the Forest Utilization Officer, Government of Bengal, Darjeeling.

ASSAM-BENGAL RAILWAY.

Sale of Generating Set.

The Superintendent of Stores, A.-B. Railway, Pahartali, notifies that the following articles are for sale:—

One—75 K. W., 525 R. P. M. steam driven, direct coupled, Generating Set, complete with shunt regulator. Engine by Belliss & Morcom, two crank, compound, vertical enclosed, patent self lubricating. 120 lb. steam pressure. Dynamo by Electric Construction Co., 230 Volt, D.C., open type.

One—40 K. W., 525 R. P. M., steam driven, direct coupled, Generating Set, complete with shunt regulator. Engine as above. Dynamo by British Westinghouse, 230 volt., D. C., open type.

Both sets were first put into commission in 1915 and have been in regular service since.

The whole plant is in perfect running condition and may be viewed, by appointment, running at the Laksam Power House of the Railway Company.

The Plant will be available in February, 1935. Further particulars may be obtained on application to the Superintendent of Stores, Assam-Bengal Railway, Pahartali, Chittagong.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Sale of Waste Paper, etc.

Tenders are invited by the Agent, Eastern Bengal Railway, 3, Koilaghat Street, Calcutta, and will be received by him up to 3 p.m. on the 14th December, 1934, for the purchase and removal of Waste Paper including all Waste Papers, Straw-boards, Sweepings, Hollerith Cards, Old Records, etc., not required by the Eastern Bengal Railway, during the period 16th February, 1935, to the 15th February, 1936.

Tender forms, with instructions and envelopes, may be had without charge from the Information Bureau of the Controller of Stores' office, E. B. Railway, 3, Koilaghat Street, Calcutta.

EAST INDIAN RAILWAY.

Sale of Scrap and Surplus Machines.

Sealed tenders are invited for the following and will be received in the Agent's office, East Indian Railway, 105, Clive Street, Calcutta, up to noon on Monday, the 10th December, 1934.

Tender No. Sale/58.—For the purchase of Scrap and Surplus Machines in Belur South Yard.

The Agent is not bound to accept the highest or any tender, and reserves the right to divide the contract.

Tender form, together with full particulars, can be had from the Controller of Stores' office, E. I. Railway, 105, Clive Street, Calcutta, on payment of Rs. 2 per copy of each tender, to the Treasurer, E. I. Railway, at 105, Clive Street, Calcutta, and on production of his receipt. This amount is non-refundable.

Firms outside Calcutta may, however, remit the amount to the Controller of Stores, E. I. Railway, 105, Clive Street, Calcutta, direct, by Money Order.

Sealed tenders delivered by hand should be presented for registration in the Agent's office and then put into the Tender Box outside the Deputy Agent's (Works) room by the tenderer or his representative.

GREAT INDIAN PENINSULA RAILWAY.

Sale of Empty Kerosene Oil Tins and Cases.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the purchase of the following which will become available at the General Stores Depot, Parel, Bombay, during the year commencing 1st January, 1935:—

(a) Empty kerosene oil tins.

(b) Cases with two empty kerosene oil tins of any brand in each.

Separate tender forms for each of the above, giving particulars and conditions on which tenders will be received, can be had from the Railway's Controller of Stores, Parel, Bombay, on payment of Re. 1 per form which amount will not be returned. The tenders must be submitted on the prescribed form, and the envelopes enclosing them must be sealed and endorsed "Tender for the Purchase of Empty Tins" or "Tender for the Purchase of Cases with two Empty Tins in each" as the case may be. Tenders not complying with these conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 19th December, 1934.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Sale of Second-hand Girders.

The Agent, M. & S. M. Railway, Madras, invites tenders for the purchase of second-hand Girders (16 Spans of 150' each and 1 span of 155') available at Kudchi and Hubli Stations on the Metre Gauge Section of the M. & S. M. Railway. Tender forms can be obtained from the Railway's Controller of Stores at Perambur, on payment of Rs. 5 per copy. Closing date is the 18th December, 1934.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

New Delhi.

FOREIGN TRADE OF BRITISH INDIA IN OCTOBER, 1934.

Merchandise—The trade returns for October, 1934, are summarised below :—

Month of October.

	1933	1934	Increase (+) or Decrease (—) in 1934, as compared with 1933	
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Per cent
Exports	12.61	12.07	—54	—4.3
Re-exports	80	30	..	..
Total exports	12.91	12.37	—54	—4.2
Imports	10.62	12.48	+1.86	+17.5
Excess of total exports over imports	2.29	—11	—	—

Seven months, April to October.

	1933	1934	Increase (+) or Decrease (—) in 1934, as compared with 1933	
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Per cent
Exports	83.65	86.02	+2.37	+2.8
Re-exports	1.91	1.66	—25	—13.1
Total exports	85.56	87.68	+2.12	+2.5
Imports	66.12	74.61	+8.49	+12.8
Excess of total exports over imports	19.44	13.07	—	—

Treasure.—Imports of treasure (private) were valued at Rs. 7 lakhs in October, 1934, as compared with Rs. 23 lakhs in the corresponding month of the last year. The exports on private account amounted to Rs. 4.23 lakhs in the month under report as against Rs. 3.52 lakhs in October, 1933.

Imports.—As compared with October, 1933, the value of Food, drink and tobacco rose by Rs. 48 lakhs to Rs. 1.62 lakhs in October, 1934, due mainly to increases in the imports of rice, fruits and vegetables and chiefly to smaller imports of mineral oils. Articles wholly or mainly manufactured, amounting to Rs. 9.40 lakhs showed an increase of Rs. 1.61 lakhs, due chiefly to increases in the imports of metals, motor vehicles, cotton, wool and artificial silk manufactures, although there was a decrease under machinery. Living animals rose by Rs. 1 lakh to Rs. 5 lakhs and Postal articles by Rs. 37,000 to Rs. 20 lakhs.

Comparing the values of the imports in October, 1934, with those in October, 1933, the chief increases and decreases are as follow :—

Increase.	Rs.	Increase—continued.	Rs.
Rice not in the husk	23,04,336	Woolen piecegoods	3,65,644(a)
Dates	3,71,983	Motor cars	11,58,140
Sugar 16 D. S. and above (including beet)	3,76,167	omnibuses	9,08,308
Electrical instruments	6,62,749	Artificial silk piecegoods.	9,88,028
Tobacco, unmanufactured	5,54,619		
Electrical machinery	6,12,911		
Steel bars	6,23,017		
Copper, wrought	4,84,801	Sugar machinery	87,01,701
Cotton, yarn	8,61,431	Silk piecegoods	9,60,627
" piecegoods—		Mineral oils—	
Grey	22,70,740	Kerosene	23,85,310
White	11,26,601	Other kinds	7,12,709
Coloured	39,65,692	Cotton, raw	8,91,111

The following are the principal instances of an increase in quantity combined with a decrease in value and vice versa :—

Quantity.	Value.	Quantity.	Value.
	Rs.		Rs.
Woolen piecegoods	—291,031 yds.	Pencils (stationery)	—58,260 doz.
Artificial silk yarn	+130,694 lbs.	Mats and matting	+4,160 sq. yds.
Glue	+155 cwt.	Pneumatic motor tubes	+1,694 no.

Exports.—As compared with October, 1933, the exports of Food, drink and tobacco in October, 1934, increased by Rs. 4 lakhs to Rs. 3.59 lakhs, due to an increase in the exports of tobacco. Raw materials and produce decreased by Rs. 3 lakhs to Rs. 4.56 lakhs, due mainly to decreases in the exports of groundnuts, linseed, raw jute, raw skins and raw wool, notwithstanding increases in the shipments of raw cotton and oilcakes. Articles wholly or mainly manufactured decreased by Rs. 27 lakhs to Rs. 3.83 lakhs, owing mainly to decreases in the shipments of jute gunny bags, paraffin wax and lead pig.

(a) Quantity decreased.

Comparing the values of the exports of Indian merchandise in October, 1934, with those in October, 1933, the chief increases and decreases are as follows :—

Increase.	Rs.	Decrease.	Rs.
Cotton, raw	21,58,202	Groundnuts	14,35,771
Oilcakes	13,52,066	Skins, raw	10,37,714
Teakwood	2,13,548	Tea, Black	10,32,600
Hides, raw	2,35,392	Rice	6,98,683
Lack (a)	6,16,151	Wool, raw	6,49,332
Carpets and rugs	3,47,487	Linseed	27,51,822
Barley	2,98,376	Lead pig	8,96,972
Gram	2,92,712	Paraffin wax	10,73,766
Tobacco	5,36,413	Raw jute	9,15,758
		Jute, gunny bags	10,82,462

The following are the principal instances of an increase in quantity combined with a decrease in value and vice versa :—

Quantity.	Value.	Quantity.	Value.
	Rs.		Rs.
Fishmaws and sharkfins	+52 cwt.	Skins, tanned	—91 tons
Rice bran	—12,450 tons	Mica	+3,683 cwt.
Boiled rice	—5,861 "	Castor oil	—7,830 gals.
Horns, etc.	+412 cwt.	Chillies	—16,051 cwt.
Lao	—19,088 "	Cotton piecegoods	—1,273,792 yds.

Trade in seven months, April to October, 1934.—During the seven months ended October, 1934, the value of the imports increased, as compared with the corresponding period of 1933, by Rs. 8 crores or 13 per cent and amounted to Rs. 75 crores and the total exports, including re-exports, rose by Rs. 2.12 lakhs or 2 per cent to Rs. 88 crores. The exports of Indian merchandise showed an increase of Rs. 2.37 lakhs or 3 per cent and re-exports decreased by Rs. 25 lakhs or 13 per cent. The grand total of imports, exports and re-exports amounted to Rs. 162 crores as against Rs. 152 crores, an increase of Rs. 10 crores or 7 per cent.

Imports of treasure (private and Government) increased by Rs. 1.37 lakhs to Rs. 2.46 lakhs. Gold bullion fell by Rs. 15 lakhs to Rs. 31 lakhs, sovereigns and other British gold coin by Rs. 5 lakhs to Rs. 12 lakhs, and other coined gold by Rs. 58 thousands to Rs. 89 thousands. The value of silver imported increased by Rs. 1.59 lakhs to Rs. 2.01 lakhs, while imports of currency notes fell by Rs. 1 lakh to nearly Rs. 2 lakhs. Exports of treasure decreased by Rs. 5.30 lakhs to Rs. 32.09 lakhs. Exports of gold alone amounted to Rs. 27.14 lakhs as against Rs. 31.60 lakhs in 1933.

Balance of Trade.—India's visible balance of trade in merchandise and treasure during the seven months, April to October, 1932, 1933, and 1934 is shown in the following table. The figures are arrived at by combining the balances of transactions in (1) private merchandise and (2) treasure (private account). The balance of remittances of funds is also shown with details at the end of this table. In these balances the sign plus (+) indicates net export and minus (—) net import.

	SEVEN MONTHS, APRIL TO OCTOBER		
	1932	1933	1934
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)
Exports of Indian merchandise (private)	+72.09	+83.65	+86.02
Re-exports of foreign	+1.74	+1.91	+1.66
Imports of foreign	—80.73(b)	—85.95(b)	—74.34(b)
Balance of trade in merchandise	—6.90	+19.61	+13.34
Gold (private)*	+34.63	+30.96	+26.71
Silver (private)*	—70	+8	+1.33
Currency notes (private)	+6	+10	+19
Balance of transactions in treasure (private)*	+33.99	+31.14	+28.28
Total visible balance of trade	+27.09	+50.75	+41.57
Council Bills, purchases of sterling and other Government remittances to the United Kingdom (c)	—18.96	—27.05	—25.44
Sterling transfers on London sold in India	—6	—7	—40
Transfers of Government securities	—22	—22	—13
Interest drafts on India in respect of Government of India securities	—19.24	—27.20	—25.17
Balance of remittances of funds			

Shipping.—In the month of October, 1934, there were 306[†] arrivals and 296[†] sailings with cargoes in and from India, as against 249 and 229 respectively in October, 1933.

The tonnage (net register tonnage) of vessels entered with cargoes at ports in British India from foreign countries and British Possessions during the seven months ended October, 1934, amounted to 4,488,923 and the tonnage (net register tonnage) cleared to 4,592,050 as against 4,155,911 tons entered and 4,383,744 tons cleared during the corresponding period of 1933.

(a) Quantity decreased.
(b) Exclusive of the value of Railway materials (Rs. 17 lakhs, Rs. 17 lakhs and Rs. 27 lakhs in the seven months, April to October, 1932, 1933 and 1934, respectively), imported direct by State Railways working under Company management which was not paid for in the ordinary way and not, therefore, taken into account in arriving at the balance of trade.

(c) This head includes, in addition to Council Bills, (1) Sterling purchases in India and (2) payments in India to Local Bodies, etc., against proceeds of sterling loans floated by them in London and taken over by the Secretary of State.

* These exclude transactions which do not enter into the balance of trade.
† The provincial details are as follows :—Bengal 21, Bombay 57, Sind 69, Madras 130 and Burma 29.
‡ The provincial details are as follows :—Bengal 31, Bombay 47, Sind 68, Madras 126 and Burma 29.

MONEY AND BULLION MARKETS.

BANK RATE (Wednesday even-
ing)

Imperial Bank of India 3½
per cent since 18th Feb-
ruary, 1933.

IMPERIAL BANK CASH BALANCE—

Cash balance of the Imperial Bank of India
on the 30th November, 1934 Rs. (1,000)
28,35,75

TREASURY BILLS—

The Controller of the Currency notifies that tenders for Rs. 1½ crores of three months Treasury Bills were opened on Tuesday, the 4th December, 1934. Total amount offered was Rs. 2,54,00,000. Tenders at Rs. 99-10-6 were accepted in full and those at Rs. 99-10-3 were allotted approximately 61 per cent. Lower tenders were rejected. Total amount accepted was Rs. 1½ crores, the average rate of accepted tenders being Rs. 1-6-11 per annum.

Tenders for Rs. 1½ crores of three months Treasury Bills will be received on Tuesday, the 11th December, 1934. Successful tenderers should make payment on Friday, the 14th December, 1934. Other conditions are as usual.

Three months intermediates will be sold from the 5th December to the 10th December, 1934, at Rs. 99-10-9 per cent subject to the conditions previously announced.

Three months intermediates sold from the 28th November to the 3rd December, 1934, amounted to Rs. 65,00,000.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 2nd December.—Nearly general in Mysore and south-east Madras on 1 day. Elsewhere weather generally dry, except for a few falls in places.

Crops: Madras, week ending 24th November.—Practically no rainfall. Transplanting or sowing of paddy proceeding in parts of Carnatic, Central districts and south. Standing crops generally fair, except in parts of Deccan where adversely affected for want of rain. Bihar and Orissa, week ending 27th November.—No rain. Standing crops including sugarcane generally good. Prospects of winter rice generally fair. Harvesting of early winter paddy going on in most districts. Harvesting and pressing of sugarcane commenced. Sowing of *rabi* crops still in progress in some districts. Sowing of *daluz* paddy commenced in Cuttack. Punjab week ending 26th November.—Weather remained dry. Rain badly wanted. Standing crops generally average on irrigated and below average on un-irrigated areas. Damage to sugarcane by *Pyrilla* reported from parts of Jullundur and to cotton by boll worm and *tela* from parts of Multan. Cotton also reported to have been affected by *tela* in Muktsar *tahsil*, Ferozepore district. Central Provinces, week ending 24th November.—Weather continued to be clear and cool. Standing *kharif* crops satisfactory. Harvesting of rice in progress and threshing commenced. Reaping of *juar* in parts of Hoshangabad and that of *juar* and *til* in Nimar started. Picking of cotton in progress. Sowing of *rabi* crops continues in northern districts. Germination good. Young *rabi* plants in healthy condition. Assam,

3rd December.—Weather seasonable. Outturn and prospects of crops fair. Bengal, 3rd December.—Weather continued practically dry. Sowing of spring crops advanced. Harvesting of winter paddy in brisk progress. Prospects of standing crops generally satisfactory.

Intermediate crop Reports. *Groundnut*: Bombay.—Since last forecast crop reported to be doing fairly well in Gujarat and harvesting in progress. Recent rains in parts of south Gujarat helped harvesting. In Deccan early crop harvested, while late one almost ready for harvest. No change in crop condition reported in last forecast, except crop slightly affected by heavy rains in places in north. In Karnatak early variety (Spanish peanut) harvested, while late varieties improved under recent rains. Burma.—No change in condition of crop since last forecast. *Sesamum* (*til*): Bengal.—Weather generally satisfactory for growth of crop. Outturn anticipated to be 80 per cent of normal. Bihar and Orissa.—No change in condition factor for crop which remains at 93 per cent of last ten years' average as reported in last forecast. Bombay.—Crop reported in poor to fair condition in Gujarat due to deficient rains after sowing, hairy caterpillar attack in parts in early stage and continuous rain and cloudy weather in Ahmedabad district at flowering period. In Deccan crop nearly harvested and no change in condition reported in previous forecast. In Karnatak early sown crop suffered due to deficient rain, and now harvested. Late variety grown as sprinkling in cotton somewhat improved in places under recent rains. In Konkan crop reported having done fairly well on the whole. Central Provinces and Berar.—Showers in last week of September and beginning of October caused some damage to *kharif til*, when it was in flower. In Saugar crop seriously damaged by continuous rain and consequently outturn reduced. Light showers in first week of November, however, proved beneficial to *rabi* variety. Estimate of outturn given in last forecast, viz., 91 per cent of normal is reduced to 88 per cent. Sind.—Crop condition reported fairly good, except that it has suffered somewhat from *aphis* disease in Thar Parkar district. Crop harvested and being threshed in some places. Punjab.—Owing to scarcity of rains condition of crop for 1934 may be reduced from 88 to 70 per cent of normal. United Provinces.—No change in condition of crop since last forecast.

Bombay, 29th November.—Cotton: Market weak. No. 3 Fine M. G. Oomras Rs. 202 December-January, 1935.

Calcutta, 1st December.—Jute market steadier in tone. Sellers asking Rs. 29-4 for Firsts for ready shipment. Hessians ruled firm and good business done at higher rates. Nine Porters Rs. 9; Elevens Rs. 11-11 Ready. Heavies also firm although no great volume of business reported. B. Twills done at Rs. 24 April-June.

Calcutta, 30th November.—Shellac T. N.Rs. 41-8. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 28th November.—Specials White Rice Big Mills Rs. 182-8 (Old crop—December) and Rs. 165 (New crop—January, 1935); Small Mills Rs. 186 (Old crop—December) and Rs. 176 (New crop—January, 1935). 1st December.—Paddy Rs. 64 to Rs. 65 (river) and Rs. 63 to Rs. 64 (rail).

Wheat. 29th November: Lyallpur.—Rs. 2-6-6 f.o.r. per maund. Bombay.—White Delhi, per cwt. railway terms Rs. 4-2-6 January and Rs. 4-8-6 May. 30th November.—Karachi.—Punjab White Rs. 21-12 per candy.

Twentyfourth Tea Sale, Calcutta, 26th and 27th November.—19 thousand chests Leaf for export and 9 thousand chests for internal consumption, average price As. 8-8 and As. 5-2, respectively, and 9 thousand chests Dust at As. 4-10, sold. Demand fairly general, but very little change in prices. Most B. O. P. grades with tip, also fannings, in rather better demand, and small advance in prices occurred. Leaf grades, which sold so readily during past sale or two, did not meet with as much support and mostly withdrawn at a decline in prices of about 3 to 6 pies per lb. All other grades unchanged. Internal Consumption: On previous established level very good demand and frequently small advances forthcoming, mostly for Orange Pekoes and Pekoes. Market for Dusts easier and prices show irregular decline of 3 pies per lb. Selection of Dusts, however, poor one.

Freights.—Rates to Australian Main Ports for 1935 reduced by 5s. per ton.

Total authorised capital Joint Stock Companies registered during October, 1934:—Rs. 714 lakhs.

TRADE OF KERMAN IN 1933-34.

THE total value of imports into Kerman during 1933-34 was *Rials* 7,609,000 as against *Rials* 8,321,000, showing a decrease of *Rials* 712,000. The total value of exports from Kerman during the year under review was *Rials* 15,776,000 as against *Rials* 12,770,000 during the preceding year, showing an increase of *Rials* 3,006,000. Over 2 millions of this increase is accountable by the increase in exports of Kerman carpets.

Judging by the above figures, the province did not fare badly, especially as regards exports. In spite of this, however, the year was distinctly a bad one. Except for the improvement in the carpet trade, business was dull and money unusually scarce throughout the year. This was in the first place due to the general world crisis and the general feeling of financial insecurity which has resulted in the wealth of the country being accumulated in fewer hands and the few capital owners holding on to their money more tenaciously than ever, the demand for money continuing to decrease all the time.

FOREIGN COMPETITION.

There was a tremendous drop in the Russian imports of over two million *Rials* during the year under report, the decrease in the imports of sugar alone being over half a million *Rials*.

Japanese imports increased, as compared with the previous year, by nearly two lakhs of *Rials*, and, comparing the figures for the last four years, Japanese imports increased from a quarter million in 1930-31 to very nearly one and a half million *Rials* in 1933-34. In cotton piecegoods Japan has knocked, not only India and the United Kingdom, but Russia as well, out of the market.

Japanese firms were active during the year in corresponding with the local merchants, with a view to establishing business relations. A Japanese commercial agent visited Kerman in the autumn to study trade conditions and to collect samples of the goods mostly in demand in the market.

Some four dozen Japanese cycles were imported into Kerman for the first time and sold at prices ranging between *Rials* 225 and 300.

The chief reason why Japanese cotton piecegoods have flooded the market at the cost of British and other goods, appears to be their cheapness.

Germany still commands the bulk of business in synthetic indigo, which has completely superseded the natural product from India.

PRINCIPAL IMPORTS INTO KERMAN FROM INDIA.

The following statement shows the principal imports into Kerman from India, together with figures for competing countries (if any), during 1933-34, as compared with the preceding two years:—

(In thousands of *Rials*.)

Article.	Country.	1931-32	1932-33	1933-34
Candles	India (Burma)	55	80	22
Coffee beans	India	85	68	54
Cotton piecegoods	Japan	250	850	925
	India	345	265	180
	United Kingdom	305	180	120
	Russia	1,250	575	375
Cotton yarn	India	885	285	240
	Japan	..	420	500
Spices	India	95	125	110
Sugar.	Java and India	380	300	380
	Russia	1,050	2,000	415
	Belgium	220	250	685
Tea	India	550	450	425
	Java	250	200	140

(N.B.—The average selling rates between 21st March, 1933, and 20th March, 1934, was *Rials* 625-48 = 100 Rupees.)

DEVELOPMENT OF COTTON CULTIVATION IN CENTRAL PROVINCES.

THE Publicity Officer, Indian Central Cotton Committee, writes:—

The progressive expansion of the area under Verum cotton in the Central Provinces and the practical achievements of research into a number of problems vitally affecting the cotton industry, financed by the Indian Central Cotton Committee, are some of the interesting facts recorded in the Annual Report of the Department of Agriculture, Central Provinces, for the year ending 31st March, 1934.

BOTANICAL RESEARCH ON COTTON.

Research on cotton with financial aid from the Indian Central Cotton Committee under the Botanical Scheme, renewed for another 5 years, was mostly concerned with the testing and multiplication of the two new strains—late Verum and V-434. The latter proved the most conspicuously successful under the most divergent conditions of soil and climate by virtue of its wilt resistance, drought resistance, prolific flowering capacity, quickness in forming buds and setting fruit, excellent lint characters and good ginning percentage. It has been specially selected for areas of short duration rainfall and seed sufficient to cover 2,000 acres has been obtained. In view of large demands for late Verum seed as a result of experiments, which have been in keeping with those of previous years, it was decided to multiply this strain as much as possible and seed for 16,000 acres is now available. New selections have been obtained by work on Bani E-B-31 and Bani 306, and high yielding strains have been isolated from the white linted types of Chanda 'jari.'

The purification of G. Indicum and G. Cernuum crosses which have shown great wilt resistance is in hand and those which show uniformity of lint and good ginning percentage will be retained. Hybridization work consisted in the making of new crosses including E-B-31 × bishnoor, roseum × bishnoor, verum × roseum and malvensis × roseum.

MARKETING OF VERUM COTTON.

The marketing of Verum cotton which was subsidized by the Indian Central Cotton Committee has been in operation and has definitely grown into a normal feature of the cotton policy in the Central Provinces. "This scheme," says a Resolution of the Central Provinces Government, reviewing the Director of Agriculture's Report, "has certainly passed the experimental stage and its success and possibilities have been demonstrated beyond doubt."

The season which promised well in the beginning but proved disastrous, particularly to the Verum cotton crop in Nagpur, Wardha and Yeotmal districts,

falsified expectations for at least 7,000 bales were expected to be dealt with in the pools and the bales actually sold were 5,087, 73 per cent of the output being provided by Buldana and Nimar districts. Verum cotton sold through these pools fetched a price equivalent to Rs. 226-04 per khandi f.o.r., Bombay basis. The average figure for Oomras was Rs. 170-3 and the premium of nearly Rs. 56 per khandi over Oomras fetched by Verum is almost identical with that of last year. The scheme for marketing Verum cotton has thus put into the pockets of those who participated in it an additional income of Rs. 1½ lakhs.

EXTENSION OF VERUM COTTON.

Very promising results have been obtained from the tests made on Government Farms and by private individuals by growing, on a field scale, new strains of Verum cotton which it is hoped, will eventually replace Verum 262. The cultivation of 'roseum' has had an added stimulus on account of the susceptibility of Verum 262 to unseasonal weather, but the prospects, on the balance, seem to be in favour of the new strains of Verum. This will have the effect of turning the main Oomras tract of India into a medium-staple producing area. Verum has also continued to make headway in the Nimar district and 1,472 bales were sold through the marketing pool.

An investigation into the cost of growing cotton in the Central Provinces and its rotation crops has been started and is well under way through financial aid from the Indian Central Cotton Committee. The Committee has, during the year, spent an aggregate sum of Rs. 56,783-8-3 on its various schemes in the Central Provinces. In addition, 2 new schemes, entailing an annual expenditure of Rs. 30,862, have been placed on foot, viz., an Entomological Scheme designed to find out the incidence of and the damage done by the Pink and Spotted Boll Worms in the Central Provinces and Berar and a scheme for the extension of Verum cotton in the Province. The all round progress thus recorded is a gratifying reflection on the endeavours to improve cotton cultivation in the Central Provinces and owes a great deal to the "initiative, vigour and enthusiasm" for which the Resolution of the Central Provinces Government, on the Report of the Agricultural Department rightly praises the present Director and his predecessor.

RANGOON FREE FROM PLAGUE.

—A notification issued by the Government of Burma declares Rangoon to be free from plague under the terms of the Paris Sanitary Convention, 1903.

QUARTERLY REPORT OF THE INDIAN TRADE COMMISSIONER, LONDON, JULY—SEPTEMBER, 1934.

THE following is the quarterly report of Mr. Y. N. Sukthankar, I.C.S., Acting Indian Trade Commissioner in London, for the period July to September, 1934 :—

Prices.

Appendix A to this Report sets forth the details of the highest and lowest prices at which staple Indian commodities were sold in the United Kingdom markets during the period under review, month by month.

2. During this period, the improvement in the prices of rice, to which a reference was made in the last quarterly report*, has been well maintained. Between July and September the highest price of Two Star Burma rice rose from 7/5½d. to 8/4½d. and the lowest from 6/7½d. to 8/1½d. The difference between the highest and lowest prices has been reduced from 9½d. to 3d. The demand for Burma rice in India itself has been quite steady in spite of the increase in price and declined only towards the end of September. The demand in China for Burma rice has not been active lately in spite of the reported drought.

3. Jute prices have registered a fall in September as compared with August, although the highest price obtainable in September was higher than that registered last June. The prices of castor seed, groundnuts and groundnut cake have shown a definite improvement. There have been slight fluctuations in the linseed prices, due in some measure to favourable reports of linseed crop prospects in the Argentine. Lack of support from the oil values and the cake trade has also contributed towards these fluctuations. There has been a slight decline in the prices for tea, but on the whole they have remained steady. There is a marked, though not excessive, improvement as compared with the last quarter in the prices of cotton, for which the increase in demand for Indian cotton in Lancashire seems to be responsible. As regards shellac, there is a definite fall in the prices compared with the last quarter. This is to be accounted for by the fact that very large stocks of TN, firmly held in London, are acting as deterrent to speculative buying while the prices now ruling reflect more accurately the actual demand.

Trade.

4. Appendix B gives the statistics of imports into the United Kingdom of staple commodities in which India is interested as an exporter. The statistics cover nine months, January to September, during each of the three years 1932-1934. Imports

* Vide the Indian Trade Journal, dated the 30th August, 1934, pages 977-982.

from India's chief competitors and the total trade in each commodity are included. It will be seen that imports of rice have gone up appreciably but at the same time an increase in the imports of rice from Spain from 25,000 cwts. to 161,000 must be noted. This increase is mostly due to the imports of subsidised Spanish paddy. The situation is being watched to see if any action is necessary to counteract attempts made by foreign exporters to deprive India of her advantage under the Ottawa Agreement. As regards rice, broken and mixtures, French Indo-China is India's competitor in appreciably increasing her exports to the United Kingdom. The exports of tea are regulated under the scheme which came into force in 1933 and there is a proportionate decline in the exports of tea from India, Ceylon and the Dutch East Indies. There is an increase in the exports of coffee, but the figures for the values of exports show that there is an appreciable decline. The question of the improvement of the quality of Indian coffee is under consideration. In pepper there has been a steady decline and the trade is being taken away by Malaya and the Dutch East Indies. In unmanufactured tobacco there is a decline in the exports as compared with last year. During the same period there has been an appreciable increase in the exports from the U. S. A. Linseed and other oilseeds have been doing well throughout the period. As regards textiles, there is an increase in the jute exports. There is an appreciable increase in the exports of raw cotton under both the medium and short staple varieties, owing to the increasing demand in Lancashire for Indian cotton. There is a slight decline in the exports of wool. The question of improving the quality by eliminating dirt and other foreign matter to be found in Indian wool is under examination. The increase in Argentine exports of wool from 8,300,000 lbs. to 19,800,000 must be noted. There has been a decline in the exports of coir yarn and coir mats and matting, but there has also been a corresponding decrease in the total imports of these commodities into the United Kingdom, so that there has not been much change in India's share in the imports of these commodities into the U. K. The export trade in carpets has shown satisfactory improvement. What is more, there has been an improvement in the quality as well as prices. The value of the exports for the period from January to September, 1934, is £390,241 as against £261,732 in the value of the exports for the same period last year. There has been an appreciable increase in the exports of sawn teak wood and also shellac, seedlac and sticklac. Taking the full period of nine months there has been an increase in the exports of undressed hides and leather, but the figures for August and September show that there has been a considerable decline in these exports as compared with the same months last year. This decline is in all probability due to the restrictions on Indian

exports imposed by some of the continental countries. Tin ore and concentrates and pig iron show an appreciable increase, whereas pig lead shows a decline in spite of the improvement last year.

Enquiries.

5. During the months of July, August and September, 1934, the number of trade enquiries received exceeded those for the preceding quarter, and, as usual, they covered a large and extensive field.

6. The enquiries emanating from importers, firms and traders in the United Kingdom, and other countries included in the area for which this department is responsible, covered almost all foodstuffs, commodities and manufactures, and the tone of these communications tends to indicate that there is an increasing demand for Indian goods. Brief notes regarding a few of these enquiries will be of interest. A large firm of importers in London and one in Cardiff asked to be put in touch with exporters of Fancy Jute Webbing, and the names of certain firms in Calcutta manufacturing this commodity were supplied. There would appear to be a real demand for this class of Webbing. A firm of Brush manufacturers and Carpet Factors in Portsmouth asked for the names of exporters of Palmyra fibre, and a trading company in Cardiff expressed an interest in carpets of the Mirzapore type for purchase in quantities. These two firms were furnished with the names of likely suppliers. An enquiry from an important firm of shippers in Manchester stated that a larger quantity of Indigo Dyed Blue Cloth, which at present is obtained from firms in Pondicherry, could be imported by them into the British possessions of the West Coast of Africa if this cloth could be obtained by them from British India. The names of suitable exporters in India of this material were brought to their notice. Another firm expressed an interest in Indian made rubber sports shoes, and, after enquiry through the Director-General of Commercial Intelligence and Statistics, the names of two manufacturers of canvas rubber soled shoes were supplied. The names of some exporters of cotton waste in Bombay were given to a large firm of importers in Manchester, and a London firm desirous of extending business in groundnuts and oilcakes were given the names of leading exporters. A Scottish firm indicated that they were desirous of importing large sized sheep horns, and, after communication with the Director-General of Commercial Intelligence and Statistics, the names of certain firms likely to meet their requirements were supplied. In addition, from Canada, Italy, Spain, Roumania and Turkey enquiries were received in respect of the following: chutneys and curry powders in bulk, celery seed and Bombay red lentils, linseed and groundnuts, Burmese lacquer-ware, raw jute, gunnies, black pepper, raw cotton, coffee, rice, dried casings, tea, shellac, castor oil, and dried

and salted buffalo hides. The names of exporters of all these commodities were supplied in each case.

7. From India enquiries relating to exportation were constant and varied. They covered such commodities as foodstuffs, wool, cotton, condiments, poppadums, silk fabric, toilet requisites, sports goods, etc. One Indian firm was considering a proposal to establish markets in the United Kingdom and on the Continent for certain canned fruits, and a test of the market was promised on their behalf on the receipt of samples. Two other enquiries related to the possibility of marketing pineapples in the United Kingdom, and they were referred to the competent authorities in India able to advise them. As far as can be ascertained the marketing of fresh Indian grown pineapples in this country has not hitherto been attempted. It would not be out of place here to again repeat the absolute necessity of firms obtaining from the Horticulturist, Bombay Government, the fullest information regarding the packing and other conditions appertaining to the shipment of fruit. The enquiry regarding toilet requisites might be mentioned in more detail. A firm who were sole agents for a hair pomade of Indian manufacture desired to introduce the article in England and on the Continent. They were advised that the question would be investigated on receipt of particulars and prices but that there were numerous similar preparations in competition on the European markets. The Director of Agriculture, North-West Frontier Province, requested information with regard to the possibility of a suitable market in England for the following manufactures and produce of the Province, viz. :—

- (1) Baskets, wooden bowls, blankets and fans, products of the cottage industries,
- (2) pears,
- (3) narcissi bulbs.

Samples were forwarded by the Director in each case and these were subjected to special investigation and the report of the trade. With regard to (1) the Director was furnished with a report as to market possibilities, together with the name of a firm who had agreed to accept a trial consignment. This consignment is now on its way. In respect of (2) the report of the Investigation Branch of the Department of Scientific and Industrial Research is awaited, and in connection with (3) the bulbs, through the courtesy of the Ministry of Agriculture, have been planted out at the Kirton Agricultural Institution, near Boston, Lincs., and their flowering in the Spring will enable their commercial value to be rated. The Department of Agriculture, Punjab, through the Imperial Council of Agricultural Research, India, enquired whether it would be worth while sending to London an experimental consignment of soya bean with a view to ascertaining whether the bean would find a ready sale in this country, and, possibly, on the Continent. From

enquiries made among brokers and others it would appear that there would be a fairly good market in London and on the Continent for the Indian bean, provided that the quality is in no way inferior to the Manchurian bean, and prices remain competitive. The question of quality and the actual testing of the market awaits a small consignment of the bean from the Punjab.

Timber.

8. The market for hard woods has been very dull throughout the quarter. The improvement anticipated after the August holidays has not yet materialised.

9. Imports of unmanufactured hard woods into the United Kingdom during the nine months, January to September, 1934, were 544,000 tons as against 424,000 tons during the corresponding period of 1933. Imports of sawn teak from India during the same period increased from 10,400 tons in 1933 to 19,500 tons in 1934. Figures for the quantity of timber other than teak imported are not yet available. Nor are there any figures for the imports of teak in the form classed as hewn.

10. Sales of timber through the agency of this Office during the quarter were 54 tons and deliveries totalled 234 tons. In addition 14 tons of sandalwood were sold and six tons delivered.

11. Indian timbers were well represented at the Building Exhibition at Olympia.

12. The Timber Development Association formed by the Timber Trades Federation of the United Kingdom is doing good work to combat the insidious attacks that are continually being made against timber with the object of favouring its competitors.

Minerals.

13. The prices of base metals, with the exception of the strictly controlled tin, continued to sag, copper falling £4-0-0, lead a few shillings and zinc £1-10-0 and at present there does not seem to be any signs of recovery as the adverse influences at work are still dominant.

14. Owing to the action of the U. S. A., the price of silver has appreciated considerably and will probably continue to do so under speculative influences.

15. Wolfram prices recovered during the quarter and now stand at 42/ per unit on 65 per cent basis. Manganese ore is steady. There are, however, no very marked signs of increased demand for this ore.

16. In spite of the apparent recovery of trade in the United Kingdom, enquiries for Indian minerals are not very frequent, partly accounted for by the occurrence of the holiday season during the quarter.

17. Granite, Beryl, Manganese ore, Mica, Monazite and Barytes have been the subject of enquiries from merchants and others in the United Kingdom and abroad.

18. Requests from India for markets in the United Kingdom and elsewhere have included Chromite, Talc, Barytes, Granite and Beryl.

Trade Publicity, Exhibitions and Fairs.

19. During the quarter under review, one shop and six exhibitions were undertaken by this Department. The shop display which commenced in the previous quarter was concluded in the quarter under review and an account thereof is therefore included in this report.

I.—NOTTINGHAM SHOP: 23RD JUNE—7TH JULY, 1934.

Since the abolition of the Empire Marketing Board, this was the first shop organized by this Department entirely at its own cost, and without financial assistance from any outside source. The shop was situated at No. 8, South Parade, Nottingham, a very prominent and busy shopping locality in the town. Its striking feature was the beautiful arcade, 32 feet long and 18 feet deep, which made it possible to put up an attractive window display.

This being a grocery shop, exhibits of Indian products in the grocery line were displayed, and samples were also sold to the public by way of advertisement.

The opening ceremony was performed by the Lord Mayor of Nottingham, with the Deputy High Commissioner in the chair.

Sale of Samples.—3,200 samples, to the value of £57, were sold. Of these, chutneys, curry powders, rice and cigars accounted for half the sales; tea was responsible for one-third of the sales and the rest of the samples sold were those of spices, sauces, cashew nuts, jams, jellies, lentils, canned mangoes and patels, etc.

Cooking Demonstrations.—These were given twice a day and were largely attended and frequently ended in the purchase of samples.

Visits to Trade.—Personal canvassing of 30 retail and wholesale grocers was done and they were supplied with posters of our shop display and about 17 of them made simultaneous displays of Indian products in their shop windows. A meeting of the Local Grocers' Association was specially convened to meet the officer of this Department and discuss the question of popularizing the Indian products, and the officer received their sympathy and in some cases promises of stocking Indian food-stuffs were obtained. The principal criticism made was that India's canned fruits were not up to the mark and were not also available in sufficient quantities to induce them to stock these as regular lines. Twenty-four enquiries from retail shop-keepers were received and were passed on to the wholesale distributors.

The cost of participation amounted to £250.

II.—ALDERSHOT EMPIRE SHOW: 4TH—7TH JULY, 1934.

This is an annual feature organized by the Aldershot Command. It is growing in popularity from year to year and the attendance at this year's show reached the figure of 36,000.

We took part in it as in the past and exhibited samples of Indian food-stuffs in the grocery line as well as arts and crafts ware.

At an official luncheon, given to the representatives of the press, arrangements were made to distribute Indian cigars to the guests, with a view to securing advertisement and publicity for this product. Samples were sold as usual and £23 were realized.

As a result of our participation in this show for the last few years, it is now possible to purchase Indian groceries at any of the important grocery stores in the district, and buyers of samples at our stall were referred to these shops for their regular supplies.

The cost of the Exhibition amounted to £30.

III.—DOMINIONS, INDUSTRIES AND TRADES EXHIBITION, SALFORD: 17TH JULY—11TH AUGUST, 1934.

The period of this exhibition synchronized partly with the Royal visit, and consequently it attracted a large number of visitors from Salford and neighbouring districts.

We had a whole marquee, 40 feet by 20 feet, for our stall. There was thus sufficient space to make an adequate display of food products as well as arts and crafts ware. This was carried out against a background of scenics and dioramas, illustrating some of the more important industries of India.

About 1,500 samples were sold to the value of £40. Considering the long term of this Exhibition, this could not be regarded as very encouraging, but this was due mainly to the prevailing economic depression in the district.

With the co-operation of the Chamber of Commerce and local Trades Associations, contact was made with retail and wholesale grocers and fancy goods merchants in the district. An article on Indian Trade was inserted in the *Chamber of Commerce Journal* to draw special attention to the Indian stall. Personal canvassing of about 38 tradesmen stall. Personal canvassing of about 38 tradesmen in the district was done. Amongst them were some of the largest stores and two of these stores showed particular interest in Indian chutneys and cigars and rice, and expressed their willingness to stock them in future.

In art-ware, the more expensive lines could not be sold, mainly due to the economic depression referred to above, but the cheaper lines were disposed of and contact was made for these goods with a firm of wholesale distributors covering Blackpool, Southport, and Morecambe. One Manchester firm took over our stock of papier-maché articles.

The cost amounted to £100.

IV.—CANADIAN NATIONAL EXHIBITION, TORONTO: 24TH AUGUST—8TH SEPTEMBER, 1934.

This is a very popular and important exhibition of Canada. We first took part in it in 1928 with good results. For financial reason, however, participation was not repeated until this year and repetition was rendered possible by the Government of India sanctioning a special additional grant of funds.

We were allotted a prominent position in the Government Building—the most popular building in the Exhibition. It was an island site right opposite the main entrance at the front and equally good entrance at the back. It covered an area of 1,850 square feet, which was laid out in 16 separate stalls, each for a different class of merchandise. Exhibits were received from 38 firms, of which 25 were firms in India, 10 in the United Kingdom, 2 in New York and 1 in Toronto. The distribution of the stalls and the number of exhibitors showing in each is specified below:—

	Stall.	Exhibi- tors.
Leather	1	4
Coir mats	1	1
Tea	1	..
Chutneys, cigars and cashew nuts	1	{ 1 1 1
Raw products	1	3
Sports goods and leather goods	1	{ 7 1
Woodware	1	3
Kashmir embroideries and numdahs	1	2
Brassware	2	4
Ivory and silver	1	3
Lace and linen	1	2
Cotton curtains	1	1
Carpets	1	2
Railway Bureau	1	1
Shellac	1	1
	16	38

The Railway stall, which was put up in the interest of Indian tourist traffic, was placed under the management of the Manager, Indian Railways Bureau in New York.

The Exhibition was officially opened on the 24th August by His Excellency the Governor-General of Canada, but the Government Building, in which were housed all Dominion exhibits, was opened on the preceding night by His Majesty's High Commissioner in Canada before a distinguished gathering. This opening was followed by a special press view.

The Exhibition was extremely popular and was of great interest to the trade and the public alike. The attendance reached the figure of 1½ million during the fortnight of its existence and on the most conservative estimate it could be said that at least a fourth of this, that is 375,000 people, must have visited the Indian stand. There was a constant flow of visitors from 9 in the morning when the Exhibition opened to 10 at night when it closed.

About 700 special invitations were issued to firms in Canada within the radius of 300 miles of Toronto, with the rating of from 6,000 to 10,000 dollars according to the classes of merchandise.

Seventy-one trade enquiries were received as under :—

Leather	21
Reptile skins	7
Brassware	7
Tennis rackets and football cases	5
Cashew nuts and pea nuts	4
Shellac	4
Miscellaneous, viz., druggets, chutneys, wood-ware, cotton yarn dyed, semi-precious stones, numdahs, lace, spices, tobacco, silver-ware, ivory-ware, gold leaf, resins, gums and jute belting	23
	71

Three of these enquiries came from the United States of America and the rest from Canada. Besides, as the exhibitors' names and addresses were displayed along with their exhibits, a number of parties interested in these exhibits took down these names and these enquiries could not be recorded.

The enquiry for chutneys came from an important firm of packers and manufacturers of food products, and it is understood that the Indian shippers are in negotiation with this firm for establishing an agency. Similarly the enquiry for cigars has, it is understood, resulted in the establishment of an agency for Indian cigars throughout Canada. The Railway Bureau has reported satisfactory enquiries likely to result in actual tours to India.

Sample orders to the value of £91 were booked as follows :—

	£ s. d.
Sports goods	14 0 0
Brassware	34 0 0
Lace	4 0 0
Silks	5 0 0
Cigars	34 0 0

With the exception of unsaleable samples and sports goods, the Indian exhibits were sold to the

trade at the end of the Exhibition to the value of £437, as shown below :—

	£ s. d.
Ivory-ware of 3 firms	149 9 7
Brassware of 4 firms	89 2 7
Leather suit-cases and bags of 1 firm	63 18 3
Carved and inlaid woodwork of 3 firms	31 17 11
Cotton curtains and bed spreads of 1 firm	28 18 6
Woollen druggets of 1 firm	15 0 9
Chutneys and curry powders of 1 firm	11 12 6
Table linen of 1 firm	10 7 5
Kashmir embroideries and numdahs of 2 firms	9 3 0
Silver-ware of 1 firm	8 16 4
Lace of 1 firm	8 14 6
Cigars of 1 firm	3 0 9
Calico prints of 1 firm	2 5 0
Clay figures of 1 firm	2 0 2
Cashew nuts of 1 firm	1 10 8
Coir mats of 1 firm	1 4 0
	437 1 11

While the Indian Trade Publicity Officer was at Toronto in connection with this Exhibition, he settled one trade dispute between an Indian firm and a firm in Toronto in favour of the Indian firm.

It was observed that very little was known in Canada about India and its resources, its culture and civilization and its place in the international trade of the world, and what little was known did not seem to go beyond the "Mystic East" stage. This Exhibition must have served to spread some up-to-date knowledge of India in that country.

Trade between India and Canada is very small indeed at present. In good times the Canadian imports were over 1,000 million dollars a year, of which India's contribution amounted to just over 9 million dollars a year. There are many articles in which India's import trade into Canada could be improved. For instance, in 1933, which was not a favourable year for trade, the Canadian imports of pea-nuts amounted to 27,000,000 lbs. Almost all of it came from the United States of America and China, but none from India. In cleaned rice, the position was almost the same. Canada imported 117,000 cwts. of this cereal, the bulk of which was taken from the United States of America and Hong-kong; only 1,900 cwts. went from India. In uncleaned rice, though in quantity Canada took from

India an appreciable amount of its total imports, in value it was less than half that from Japan. The figures for 1933 were :—

Total imports of uncleaned rice—503,000 cwts., to the value of 810,000 dollars, of which the contribution from India was 152,000 cwts. to the value of 135,000 dollars, and that from Japan was 85,000 cwts. to the value of 307,000 dollars.

It seems that Canada imports better quality rice, and if India could supply that, there should be a market for it. Of the total imports of hides and skins to the value of nearly 3 million dollars, practically none went from India; similarly of the total imports of 2 million dollars of unmanufactured leather, practically none was taken from India. These are only a few instances to show the insignificance of India's export trade with Canada, compared with other countries. There is good scope for improvement. Exhibitions like this might be of help in that direction.

The cost of participation amounted to about £700.

V.—NORTHERN TOBACCO TRADE EXHIBITION AND CONFERENCE: 10TH—15TH SEPTEMBER, 1934.

This was organized by the Northern Tobacco Trades Association in conjunction with the conference of the Tobacco Trade. The opening ceremony was performed by the Lord Mayor of Salford, and a lecture on Indian Tobacco was given by the Indian Trade Commissioner on the occasion. This lecture was subsequently printed in "Tobacco World".

Exhibits were invited from firms and institutions in India as well as in this country. Amongst the Indian exhibitors were the following :—

- The Imperial Institute of Agricultural Research, Pusa.
- The Deputy Director of Agriculture, Gujerat, Bombay Presidency.
- The Agricultural Chemist to the Government of Bengal, Dacca.
- The Tobacco Breeding Station at Nadiad, Bombay.
- The United Leaf Tobacco Development Co., Ltd., Chitwala, S. India.
- Messrs. McDowell & Co., Ltd., Madras.

The exhibits consisted of leaf tobaccos, cigars and some fancy tobacco trades requisites as under :—

- Adcock and Pusa Type 142.
- Sun-cured indigenous tobacco leaf, from Bombay, suitable for use in Hookahs.

- Flue-cured Adcock (Virginia) leaf.
- Air-cured Guntur leaf.
- Manila leaf and Sumatra leaf—shade-cured.
- Ohio—fire-cured.
- Indian strip tobacco of semi-bright bar-cured type and Country Seed tobacco—machine dried.
- Tobacco strips suitable for a cheap pipe-smoking mixture.
- Bright stemmed tobacco, fit for use as flake, shag and other pipe tobaccos.
- Indian cigars and cheroots from Madras.

With regard to the exhibits received from India, interest of the trade centred chiefly round the samples of bright and semi-bright tobaccos, and comments of the Trade were very favourable, the only objection being that the Indian leaf was inclined to be too short, and secondly that it contained "sand", necessitating further processing at this end. One enquirer stated that there was a good field for this type of Indian leaf in Denmark which showed a preference for the Birley (Virginia) leaf and in this respect Indian leaf was preferable to Rhodesian tobacco. Particular interest was expressed in Pusa strip No. 142 and was commented on as being one of the best specimens of leaf of that type that had been seen for some time. (In fact, one enquirer wished to have it as a museum specimen!)

The general comments of the trade seemed to indicate the possibility of an increased use of Indian leaf generally but the prices quoted in certain cases were not regarded favourably.

The enquiries received were as follows :—

- 3 for semi-bright and bright strip tobaccos.
- 2 for Pusa strip 142.
- 8 for Indian cigars and cheroots.
- 2 for tobacco sundries, namely, brass cigarette boxes, ash trays, etc.

One enquirer was specially interested in Indian tobaccos containing a high percentage of nicotine content, and he said that he would purchase large quantities if the right material were available. Principal wholesalers and retailers were personally visited and one wholesale dealer in Manchester took over our entire exhibits with a view to continuing the exhibition at their premises for a further period of a fortnight.

Sample sales amounted to £9.
The cost of participation was £110.

VI.—HULL DAILY MAIL BRIGHTER HOMES EXHIBITION: 18TH—29TH SEPTEMBER, 1934.

The venue of the exhibition was the City Hall of Hull, and, on account of its central position, it attracted a very good attendance.

We had a small stall at this exhibition, covering an area of 160 square feet. This was divided into two sections, one for food-stuffs and the other for arts and crafts ware. Simultaneous window displays of Indian food-stuffs were made by a number of retail grocers in the district and retail buyers making enquiries for Indian products were referred to these shops. Sample sales at our stall were very satisfactory, realizing an amount of £47.

In food-stuffs, tea proved to be the best seller, over 600 packets of which were sold during the period of the show. Indian cigars did not prove of much interest in this district, though a new line of Burma cheroots proved successful. A local tobacco-nist purchased our entire stock of this article and he was also put into touch with the exhibitor for future business. Besides, our whole exhibits of condiments and chutneys were taken over by a big retail shop which did not use to stock these products before.

Personal canvassing was done as usual of 28 local retail tradesmen and 2 wholesale firms.

The cost of the exhibition amounted to £100.

VII.—INTERNATIONAL GROCERS' EXHIBITION, LONDON: 22ND—28TH SEPTEMBER, 1934.

This is an annual event and a most important exhibition of the Grocery Trade.

We have been taking part in it for the past several years. Being essentially a trade exhibition, there could be no sample sales. However, a few samples were sold to the value of £6.

Thirty-six trade enquiries were received as follows:—

Rice—packed and bulk	14
Tea—packed and loose	7
Condiments	3
Beans and lentils	3
Shelled ground nuts	1
Cashew nuts	2
Guava jelly, typ. jam	3
Miscellaneous	3
	36

The cost amounted to £93.

APPENDIX A.

Range of Prices of Staple Indian Commodities in the United Kingdom—Quarter ending September 1934.

Commodity.	Unit.	JULY.			AUGUST.			SEPTEMBER.		
		Highest.	Lowest.	Difference.	Highest.	Lowest.	Difference.	Highest.	Lowest.	Difference.

EXTRACT FROM LINSEED CIRCULAR No. 47
ISSUED BY THE IMPERIAL COUNCIL
OF AGRICULTURAL RESEARCH, INDIA.

London, 23rd November, 1934—

	£	s.	d.
Quotations for Linseed and Linseed Oil—			
Indian Linseed.—November-December delivery c.i.f. per ton	10	18	9
Argentine Linseed.—November-December delivery c.i.f. (excluding duty) per ton	9	5	0
Linseed Oil.—November-December delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	17	15	0

Market Conditions.—United Kingdom linseed market was firmer but trade in Indian seed was affected as a result of the cheap offer of Argentine new crop. Good business was reported to have been done in the December shipments of La Plata to the United Kingdom. Demands for La Plata on the Continent were fair.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 14th November, 1934—

Quotations for Linseed Oil—	
Linseed Oil, European make (Raw)	Rs. 1-8-6 per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1-10-6 per gallon f.a.s.

Market Conditions.—The linseed market has remained steady during the week, shippers buying daily; but business is limited as sellers are very reserved and arrivals are still very small.

Bombay, 17th November, 1934—

Quotations for Linseed Oil—	
Linseed Oil	Rs. 3-3-0 per maund.

BOOKS OF REFERENCE.

THE following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta:—

U. K. and Parliamentary Publications—

Committee of the Privy Council for the Organisation and Development of Agricultural Research.—Report of the Agricultural Research Council for the period July, 1931 to 30th September, 1933.

Department of Overseas Trade.—Report on the Economic Conditions in Turkey—June, 1934—By Colonel H. Woods, O.B.E., Commercial Secretary to His Majesty's Embassy, Istanbul.

Department of Scientific and Industrial Research.—Report of the Committee on the Mechanical Testing of Timber.

France No. 2 (1934).—Convention between His Majesty in respect of the United Kingdom and the President of the French Republic providing for the Reciprocal Enforcement of Judgments in Civil and

Commercial Matters with protocol—Paris, January 18, 1934. (The Convention has not been ratified by His Majesty.)

Mines Department.—Report of H. M. Electrical Inspector of Mines for the year 1933.

Treaty Series No. 28 (1934).—Exchange of Notes between the Government of the Irish Free State and the Costa Rican Government in regard to Commercial Relations—Panama, August 2, 1933/San José, April 2, 1934.

Treaty Series No. 29 (1934).—Agreement between His Majesty's Government in the United Kingdom and the Norwegian Government regarding Claims in respect of Damage to Fishing Gear—London, November 5, 1934.

Foreign and Colonial Publications—

Canada.—Department of Trade and Commerce, Dominion Bureau of Statistics, External Trade Branch—Quarterly Report of the Trade of Canada (Imports for Consumption and Export)—June, 1934.

Summary of the Trade of Canada—August, 1934.

China.—The Maritime Customs—Monthly Returns of the Foreign Trade of China—September, 1934.

Ceylon.—Ceylon Customs Returns—October, 1934.

Colonial Reports.—Annual Report on the Social and Economic Progress of the People of New Hebrides, 1933.

Geneva.—League of Nations—Monthly Bulletin of Statistics—November, 1934.

[Continued on p. 1156.]

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India:—

(1) *Kathiawar Trade Statistics, August, 1934.* (Price Rs. 3-2.) This publication contains statements showing (i) the foreign sea-borne trade of the maritime States in Kathiawar during the month of August, and the five months ended August, 1934, and (ii) statistics of the imports into British India from Kathiawar across the Viramgam-Dhandhuka Land Customs Line during the same periods.

(2) *Statistical Tables relating to Banks in India, 1932 (19th issue).* (Price Re. 1-12 or 3s.) This is the nineteenth issue of the volume containing available statistics relating to all classes of Banks doing business in India. The data have been brought upto 1932 as far as information is available.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

THE BERAR MANUFACTURED DRUGS RULES, 1934—

The Berar Manufactured Drugs Rules, 1934, are published in Part I of the *Gazette of India*, dated the 1st December, 1934, under Notification No. 650-I. B., dated the 29th November, 1934, of the Government of India in the Foreign and Political Department. They come into force on the 1st December, 1934, whereupon all rules made by whatever authority under an enactment specified in the first three columns of Schedule II to the Dangerous Drugs Act, 1930 (II of 1930), as applied to Berar, and for a purpose specified in sub-section (2) of section 6 of the said Act shall be cancelled, except as regards anything done, or any offence committed, or any fine or penalty incurred, or any proceedings instituted before the said date.

THE BERAR OPIUM RULES, 1934—

The Berar Opium Rules, 1934, are published in the *Gazette of India*, dated the 1st December, 1934, under Notification No. 651-I. B., dated the 29th November, 1934, of the Government of India in the Foreign and Political Department. They come into force on the 1st December, 1934, whereupon all rules made by whatever authority under an enactment specified in the first three columns of Schedule II to the Dangerous Drugs Act, 1930 (II of 1930), as applied to Berar and for a purpose specified in sub-section (2) or sub-section (3) of section 5 of the said Act shall be cancelled, except as regards anything done, or any offence committed, or any fine or penalty incurred, or any proceedings instituted before the said date.

AMENDMENT IN THE BERAR OPIUM RULES, 1934—

The draft of a certain amendment to the Berar Opium Rules, 1934, which it is proposed to make in exercise of the powers conferred by sub-sections (2) and (3) of section 5 of the Dangerous Drugs Act, 1930 (II of 1930), as applied to Berar is published in Part I of the *Gazette of India*, dated the 1st December, 1934, under Notification No. 652-I. B., dated the 29th November, 1934, of the Government of India in the Foreign and Political Department, for the information of all persons likely to be affected thereby. The draft will be taken into consideration by the Governor-General-in-Council on or after the 1st February, 1935. Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Governor-General-in-Council.

AMENDMENTS IN MERCHANT SHIPPING ACT, 1923—

The draft of certain further amendments to the rules published with the Notification of the Government of India in the late Finance and Commerce

Department, No. 1354, dated the 14th March, 1889, which it is proposed to make in exercise of the powers conferred by sub-section (1) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), read with section 20 of the Indian Merchant Shipping (Second Amendment) Act 1933 (XXV of 1933) and with section 22 of the General Clauses Act, 1897 (X of 1897), is published as required by sub-section (3) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), in Part I of the *Gazette of India*, dated the 1st December, 1934, under Notification No. 58-M. I. (2)/34, dated the 1st December, 1934, of the Government of India in the Department of Commerce, for the information of all persons likely to be affected thereby. The draft will be taken into consideration by the Governor-General-in-Council on or after the 24th December, 1934. Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Governor-General-in-Council.

EXPORTS OF STICKLAC FROM SINGAPORE.

—The following figures showing the exports of sticklac from Singapore to countries outside Malaya during the month of October, 1934, have been received from the Registrar-General of Statistics, Straits Settlements and Federated Malay States, Singapore :—

Countries of Consignment.	Quantity.	Value.
	Tons	Dollars
British India	117.55	35,009
Ceylon	.12	38
Italy	1.00	420
French India	11.24	3,606
TOTAL	129.91	39,073

[NOTE.—The rate of exchange at the end of October, 1934, was Rs. 155.28=100 dollars.]

EXPORTS OF STICKLAC FROM BANGKOK.

—The following figures showing the exports of sticklac from Bangkok during the month of October, 1934, have been received from His Majesty's Consul-General at Bangkok :—

Countries of Consignment.	Quantity.	Value.
	Piculs.	Ticals.
Singapore	11,449	222,019
India	320	6,400
Italy	34	672
Germany	250	4,500
TOTAL	12,053	233,591

[NOTE.—One picul=133½ lbs; the rate of exchange on the 15th November, 1934, was Rs. 121½=100 ticals.]

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

MATCHES (EXCISE DUTY) ACT, 1934 : DELEGATION OF POWERS TO MAKE RULES, ETC. TO LOCAL GOVERNMENTS AND ADMINISTRATIONS.

The following Notification (No. 40-Central Excises, dated the 1st December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues) :—

In exercise of the power conferred by sub-section (4) of section 18 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor-General-in-Council is pleased to delegate to all local Governments and Administrations—

(1) his power under clause (i) of sub-section (2) of the said section to make rules to authorise and regulate the inspection or searching of any place or conveyance used for the manufacture, storage or carriage of matches, splints, or veneers, and

(2) his power under sub-section (3) of the said section in so far as it relates to the provision of punishments for breaches of rules made under the power hereinbefore delegated.

PROHIBITION OF EXPORTS OF AIRCRAFT, AIRCRAFT MOTORS AND PARTS THEREOF TO BOLIVIA AND PARAGUAY.

The following Notification (No. 83-Customs, dated the 1st December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues) :—

In exercise of the powers conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor-General in Council is pleased to prohibit the taking out from British India to Bolivia and Paraguay of aircraft, aircraft motors and parts thereof.

UNITED KINGDOM.

IMPORT DUTIES ACT, 1932 : TREES AND SHRUBS.

The following is reproduced from the *Board of Trade Journal*, dated the 8th November, 1934 :—

1. The Additional Import Duties (No. 33) Order, 1934, made by the Treasury under Sections 3 and 19 of the Import Duties Act, 1932, directs that as from 31st October, 1934, an amendment is to be made in the First Schedule to the principal Additional Duties Order in regard to trees and shrubs. The effect of the amendment is as follows :—

Class I, paragraph 10. Cancel sub-paragraph (ix) and substitute :—

Class or Description of Goods.	Additional Duty.	Additional Duty plus 10 per cent general ad valorem duty.
(ix) Trees and shrubs (excluding rose trees, fruit trees, azalea indica and sweet bays), whether with bare or balled roots, other than in flower		£1 0s. 0d. per cwt.

2. It is to be noted that under the Order, trees and shrubs with balled roots liable to duty under the above heading will be chargeable with duty on the full weight of the goods inclusive of the weight of the soil.

3. *Date of operation of Order.*—This alteration becomes effective in respect of the trees and shrubs affected not entered with the Customs, or delivered from bonded warehouse, before 31st October, 1934.

4. *Customs and Excise Tariff.*—The Order involves an amendment in Part 3 (Additional Duties) of the Customs and Excise Tariff.

Notice No. 334.
October, 1934.

Custom House,
London, E.C. 3.

FRANCE.

RENEWAL OF IMPORT QUOTA : COFFEE.

The French "Journal Officiel" of October 31 announces that the amount of Coffee which may be imported into France during the month of November, 1934, has been fixed at 165,500 quintals, of which 39,250 quintals is for countries other than Brazil, Haiti and Peru (the same as for each of the two previous months). Import continues subject to licence.

MODIFIED DUTIES ON TEAK.

The French "Journal Officiel" of October 31 contains a Decree, dated October 30, which revises the French Customs duties on teak wood (*ex Tariff No. 138*). The new rates, under the "Minimum" Tariff, are as follows :—

Article.	"Minimum" Tariff Duty.
Teak :—	Frs. per 100 kilograms.
Rough logs, not squared, with or without bark, of any length or circumference	Free
Squared or sawn, including railway sleepers, having a thickness of—	
80 millimetres and over	12
From 35 millimetres exclusive to 80 millimetres inclusive	14
From 2 millimetres exclusive to 35 millimetres inclusive, not including veneer sheets and leaves	12
2 millimetres and less	Dutiable as veneers under Tariff No. 603 <i>quater</i> .

Goods of the above kinds proved to have been sent direct to France before October 31 will be admitted at the former rates of duty, even if they have been warehoused.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 17th and the 23rd November, 1934:—
 21370. S. W. Haidar.—A construction to strengthen structures (bridges, buildings and the like) against the effects of earthquakes by means of anchors, reinforcement, arrangement of masonry within the structure, and ditching. 21371. E. Reckmeier.—Device for multi-colour cameras for the compensation of distortion of the image between the various part-negatives. [Divisional date December 13, 1933.] 21372. E. Reckmeier.—Process for the simultaneous exposure of several colour records in multi-colour cameras. [Divisional date December 13, 1933.] 21373. G. Fraser, N. Fraser and J. Fraser.—Improvements in bobbin drag arrangements for spinning and like textile frames. 21374. O. K. Kolb.—Improvements in or relating to photographic recording of sounds on to a film. (November 20, 1933). 21375. The General Electric Co., Ltd.—Improvements in or relating to light diffusing glasses. (December 1, 1933). 21376. British Celanese Ltd.—Improvements in the manufacture of artificial textile and other materials. (November 22, 1933). 21377. A. Spencer and George Spencer Moulton & Co., Ltd.—Improvements in and relating to India-rubber springs. (November 21, 1933). 21378. The British Cotton Industry Research Association.—A method of and means for producing slivers or ends of fibrous materials. (November 25, 1933). 21379. Automatic Electric Co., Ltd.—Improvements in electro-magnetic pawl and ratchet driving mechanisms. 21380. Tecalemit Ltd. and R. A. Chalmers.—Improvements in pipe joints particularly for lubrication systems. 21381. N. de Souza.—Hardening edible oils by an edible oil. 21382. M. S. Chavan.—Improved sheva and chakali (eatables commonly prepared by Hindus) making appliance. 21383. M. Abdullah.—The use of engines run by petrol for the purpose of petrol economy to be called "Petrol economiser" which is an improvement upon the existing petrol saving gazettes. 21384. P. Sanchez.—Improvements in treating sugar. 21385. Deutsche Gold-und Silber-Scheideanstalt Vormals Roessler.—Bactericidal products with oligodynamic action and process for manufacturing the same. 21386. C. R. Sharpe.—Process for the treatment of surfaces such as wood and the like. 21387. M. Hemraj.—Improvements in Aldrops made of iron. 21388. J. F. Saldanha.—Compressed air as a means of utilising the reserve power of a generating plant by bringing into use its full capacity at its rated efficiency. 21389. D. N. M. Rajagopalan.—A hanking device for yarn thread or the like. 21390. D. N. M. Rajagopalan.—A device for giving a predetermined quantity of fluid. 21391. D. N. M. Rajagopalan.—Warping device. 21392. Mrs. N. B. De.—Improvements in cookers.

WEATHER AND CROP REPORTS.

BENGAL.

3rd December.

During the week the weather continued practically dry. Sowing of spring crops has advanced. Harvesting of winter paddy is in brisk progress. Prospects of standing crops are generally satisfactory.

ASSAM.

3rd December.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

27th November.

During the week under report there was no rain in the province. The condition of standing crops including sugarcane is generally good. Prospects of winter rice are, on the whole, fair. Harvesting of early winter paddy is going on in most districts. Harvesting and pressing of sugarcane have commenced. Sowing of *rabi* crops is still in progress in some districts. Sowing of *dahua* paddy has commenced in Cuttack.

CENTRAL PROVINCES.

24th November.

During the week the weather continued to be clear and cool. The standing *kharif* crops are in a satisfactory condition. Harvesting of rice is in progress and threshing has commenced. Reaping of *juar* in parts of Hoshangabad and that of *juar* and *til* in Nimar has started. Picking of cotton is in progress. Sowing of *rabi* crops continues in the northern districts. Germination is good. Young *rabi* plants are in healthy condition.

MADRAS.

24th November.

During the week there was practically no rainfall. Transplanting or sowing of paddy is proceeding in parts of the Carnatic, the Central districts and the South. The condition of standing crops is generally fair, except in parts of the Deccan where the crops have been adversely affected for want of rain.

PUNJAB.

26th November.

During the week the weather remained dry. Rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated areas. Damage to sugarcane by *Pyrilla* is reported from parts of Jullundur and to cotton by boll worm and *tela* from parts of Multan. Cotton is also reported to have been affected by *tela* in Muktsar tahsil, Ferozepore district.

GENERAL WEATHER SUMMARY.

Weather in India during the week ended Tuesday last was dry over the country except for a few or scattered falls of rain in places. At the beginning of the week the Bay storm caused nearly general rain in Mysore and south-east Madras on one day. Local or a few falls occurred elsewhere.

INTERMEDIATE CROP REPORTS.

FIRST INTERMEDIATE REPORT ON THE GROUNDNUT CROP, 1934-35.

Bombay.

Since the issue of the last forecast the groundnut crop is reported to be doing fairly well in Gujarat and harvesting is in progress. Recent rains in parts of the south Gujarat have helped the harvesting. In the Deccan the early crop has been harvested while the late one is almost ready for harvest. No change in the condition of the crop is reported since the last forecast, except that the crop has been slightly affected by heavy rains in places in the north. In Karnatak, the early variety (Spanish Peanut) has been harvested while the late varieties have improved under recent rains.

Burma.

There has been no change in the condition of the crop since the last forecast.

FIRST INTERMEDIATE REPORT ON THE SESAMUM (TIL) CROP, 1934-35.

Bengal.

The weather has been, on the whole, satisfactory for the growth of the crop. The outturn is anticipated to be 80 per cent of the normal.

Bihar and Orissa.

There is no change in the condition factor for sesamum (*til*) crop which remains at 93 per cent of the last ten years' average as reported in the second sesamum forecast.

Bombay.

Since the issue of the last forecast sesamum has been in poor to fair condition in Gujarat due to deficient rains after sowing, hairy caterpillar attack in parts in the early stage and continuous rain and cloudy weather in Ahmedabad district at flowering period. In the Deccan the crop has been nearly harvested and no change in the condition is reported since the previous forecast. In Karnatak the early sown crop has suffered due to deficient rain and has now been harvested. The late variety grown as sprinkling in cotton has somewhat improved in places under the recent rains. In Konkan the crop

is reported having done fairly well on the whole. In Sind, the condition of the crop is reported to be fairly good, except that it has suffered somewhat from *aphis* disease in Thar Parkar district. The crop has been harvested and is being threshed in some places.

Central Provinces and Berar.

Showers in the last week of September and in the beginning of October caused some damage to *kharif til* when it was in flower. In Sangor the crop was seriously damaged by the continuous rain and consequently the outturn was reduced. Light showers in the first week of November, however, proved beneficial to the *rabi* variety. The estimate of outturn given in the second forecast, viz., 91 per cent of the normal, is reduced to 88 per cent.

Punjab.

Owing to scarcity of rains the condition of sesamum for 1934 may be reduced from 88 to 70 per cent of the normal.

United Provinces.

There has been no change in the condition of crop since the issue of the second forecast.

CROP FORECASTS.

(FOREIGN)

COTTON CROP IN EGYPT.

According to a cable dated the 3rd December, 1934, received from the International Institute of Agriculture, Rome, the second estimate of the production of cotton in Egypt during the current season is placed at 1,932,000 bales of 400 lbs. each, as against 2,174,000 bales of 400 lbs. each at the corresponding time last year.

RICE CROP OF SIAM.

The final result of the 1933-34 rice crop in Siam shows that the total area planted was 20,283,000 *rai* (or 8,113,000 acres), which was 197,000 *rai* (or 79,000 acres) more than in the preceding season. The area damaged is reported to be 1,445,000 *rai* (or 578,000 acres). The total outturn of paddy was 83,462,000 *piculs* (or 4,968,000 tons), which is 1,811,000 *piculs* (or 108,000 tons) less than in the preceding season but above the average of the last ten years by 8,308,000 *piculs* (or 495,000 tons).

The area planted with the new crop in 60 provinces at the end of September, 1934, is estimated at 18,109,000 *rai* (or 7,244,000 acres), as against 17,555,000 *rai* (or 7,022,000 acres) at the corresponding period of last year. The area damaged is placed at 641,000 *rai* (or 256,000 acres). The condition of the crop is, on the whole, reported to be fairly good.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Wittet Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsaroop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Tenders are invited, in duplicate, for the following and will be received by the 1st Deputy Executive Officer, Corporation of Calcutta, Calcutta, on the date noted for each, up to 2 p.m. Each tender, in duplicate, must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms please apply to the Central Record Keeper, Corporation of Calcutta, Calcutta. Price of tender form is Rs. 2 per set.

1. Supply of Straw for the year 1935.
2. Supply of Hay for the year 1935.

Tenders for 1 and 2 will be opened on the 13th December, 1934 (Thursday), and the rates quoted in them are to hold good for three months.

BURMA RAILWAYS.

Supply of Miscellaneous Tools and Stores of English Manufacture.

Tenders will be received at the Office of the Agent, Burma Railways, Rangoon, up to noon on Thursday, the 17th January, 1935, for the supply of Miscellaneous Tools and Stores of English Manufacture required during the official year 1935-36.

Tenders should be forwarded in covers sealed and superscribed "Tender for the Supply of Miscellaneous Tools and Stores of English Manufacture, 1935-36" and should be accompanied by a receipt from the Chief Accounts Officer, Burma Railways, Rangoon, for the amount of deposit required, (vide para. 6 of the "Notes for the Guidance of Tenderers").

The Agent does not bind himself to accept the lowest or any tender, or assign reasons for rejections.

Tender forms may be obtained from the Office of the Superintendent of Stores, Burma Railways, Rangoon, on payment of Rs. 2 per copy.

Postage stamps and telegraphic tenders will not be accepted.

For drawings and other particulars, application should be made to the Superintendent of Stores, Burma Railways, Rangoon.

BURMA-RAILWAYS.

Supply of Permanent Way and Signal Materials for 1935-36.

Scaled tenders are invited and will be received by the Agent, Burma Railways, at his office in Rangoon, up to noon on Thursday, the 24th January, 1935, for the supply of the above materials required during the official year 1935-36.

Tenders must be submitted on the prescribed form obtainable from the Superintendent of Stores, Burma Railways, Rangoon, on payment of Rs. 2 per copy, and should be accompanied by a receipt from the Chief Accounts Officer, Burma Railways, Rangoon, for the amount of deposit required (vide para. 6 of the "Notes for the Guidance of Tenderers").

The Agent reserves to himself the right to reject any or all of the tenders received without assigning any reason for such rejection.

For drawings and other particulars application should be made to the Superintendent of Stores, Burma Railways, Rangoon, or the Director General, India Store Department, London.

Postage stamps and telegraphic tenders will not be accepted.

EAST INDIAN RAILWAY.

Construction of Officer's Bungalow with Servants' Quarters at Jamalpur.

Scaled tenders are invited and will be received by the Chief Engineer, East Indian Railway, Calcutta, on or before 3 p.m. on Wednesday, the 19th December, 1934, for construction of one Administrative Officer's Bungalow with one block of servants quarters at Jamalpur.

Forms of tender, specification and conditions of contract, may be had from the Office of the Chief Engineer, East Indian Railway, Calcutta, on production of a receipt for the sum of Rs. 10 paid to the Treasurer, East Indian Railway, Calcutta, on this account. Firms outside Calcutta may obtain the tender form by remitting the amount per Money Order to the Treasurer, East Indian Railway, Calcutta. The amount paid for the tender form shall under no circumstances be refunded.

Tenders not submitted on the prescribed form will not be considered.

EAST INDIAN RAILWAY.

Special Items Costing Over Rs. 8,000.

Supply of Mild Steel Billets.

Scaled tenders are invited and will be received in the Agent's office, 105, Clive Street, Calcutta, up to 12 o'clock noon on the 18th December, 1934.

Tender No. S/SP/Gb. 4/204/QI/C.—For the supply of Billets, Mild Steel, Square, Class I and II, of sizes.

Tender No. S/SP/Gb. 4/206/QI/C.—For the supply of Billets, Mild Steel, Square, Class III and IV, of sizes.

Tender forms and full particulars can be had from the Controller of Stores' office, East Indian Railway, 105, Clive Street, Calcutta, on payment of Rs. 2 per copy of each tender to the Treasurer, East Indian Railway, Calcutta, and on production of his receipt when applying for the same. Firms outside Calcutta, may, however, remit the amount to the Controller of Stores, direct, by Money Order. No refund of this payment is permissible.

Scaled tenders delivered by hand should be presented for registration in the Agent's office and then put into the Tender Box outside the Deputy Agent's (Works) room by the tenderer or his representative.

EASTERN BENGAL RAILWAY.

Supply of M. S. Well Curbs for a Bridge on the Dacca Section.

Tenders are invited for the supply of M. S. Well curbs for a Bridge on the Dacca Section.

Forms of tender with instructions can be obtained from the Chief Engineer, E. B. Railway, 3, Koilaghat Street, Calcutta, on prepayment in cash or by Money Order of Rs. 4, which will not be refunded.

Tenders are to be submitted not later than 3 p.m. on the 8th January, 1935, at which time they will be opened. Tenderers may be present at the opening.

A sum of Rs. 50 must be deposited as earnest money with the Superintendent, Cash and Pay Branch, E. B. Railway, Sealdah, and the number and date of the receipt must be quoted in the tender; unless this is done, no tender will be considered.

The Eastern Bengal Railway Administration reserves to itself the right to reject or accept any tender without assigning any reason.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Tender for Making up Woollen and Cotton Garments.

Tenders are invited by the Agent, Eastern Bengal Railway, for the Making up Woollen and Cotton Garments for the periods noted below:—

Woollen Garments from 1st March, 1935, to 31st March, 1937.

Cotton Garments from 1st April, 1935, to 31st March, 1937.

Necessary Tender Documents comprising both Woollen and Cotton Uniform making requirements, can be obtained from the "Stores' Information Bureau", No. 3, Koilaghat Street (Bankshall Street-end), Calcutta, on payment of Rs. 5 per set.

Tenders will be opened at 3 p.m. (Calcutta Time) on the 9th January, 1935.

EASTERN GROUP—SLEEPER CONTROL.

Supply of Wagon Floor Boards.

Sealed tenders are invited and will be received by the Sleeper Control Officer, B.-N. Railway House, Kidderpore, up to 3 p.m. on the 4th January, 1935, for the supply between 1st April, 1935 and the 31st March, 1936, of 67,000 Wagon Floor Boards.

Tender forms, detailing specification, and conditions of supply, can be obtained from the Sleeper Control Officer, B.-N. Railway House, Kidderpore, on payment of Rs. 5, which will not be returned.

Tenderers should deposit Rs. 100 as earnest money with the Chief Auditor, B.-N. Railway.

The Sleeper Control Officer, B.-N. Railway House, Kidderpore, does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance of a tender, and reserves the right to accept the whole or any part of a tender.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Stationery, Paper and Printing Materials, etc., during 1935-36.

The Agent, M. & S. M. Railway, Madras, invites tenders for the supply of Stationery, Paper, Printing Materials and Red Sealing Wax, required during the year commencing 1st April, 1935.

Tender forms can be obtained from the Railway's Controller of Stores at Perambur, on payment of Rs. 3 per copy. Closing date is the 15th January, 1935.

NORTH WESTERN RAILWAY.

Tender for 1 lac B. G. Wooden Sleepers.

The date for receiving tenders for above sleepers fixed for 23rd November, 1934 (*vide the Indian Trade Journal*, dated the 8th November, 1934, page 653), has been extended to 3rd January, 1935. Tenders will be opened at 14 hours on the following working day.

GOVERNMENT STORES DEPARTMENT, CEYLON.

Supply of Teak Squares.

Tenders are hereby invited for the supply of 60 tons first class Indian quality Rangoon or Bangkok teak squares.

A deposit of Rs. 50 will be required to be made at the Government Stores Department, Colombo, and a receipt produced for the same before any form of tender is issued. Applications for tender forms must be made to the Colonial Storekeeper, Colombo, Ceylon. Tenders should reach the Chairman of the Tender Board, General Treasury (P. O. Box 500), Colombo, not later than midday on the 18th

December, 1934. Tenders should either be deposited in the Tender Box in the General Treasury or be sent through the post under registered cover.

Tenders from tenderers not resident in Ceylon will not receive consideration unless submitted by a duly constituted agent resident in Ceylon especially empowered to tender for the same and to execute a valid contract in that behalf and to fulfil all the terms of the contract. In the case of local firms tendering as agents of firms outside Ceylon the "duly constituted" agents in Ceylon should hold a power of attorney from their principals to enable them to enter into a contract should their tender be accepted.

Each tender must be accompanied by a letter signed by two responsible persons whose addresses must be given engaging to become security for the due fulfilment of the contract.

Security to the extent of Rs. 150 in cash will be required to be furnished for the due fulfilment of the contract.

The Government of Ceylon reserves to itself the right without question of rejecting any or all tenders and the right of accepting or rejecting any portion of a tender.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

New Delhi.

The following particulars regarding contracts which have been placed by the Indian Stores Department have been received from the Chief Controller of Stores, Indian Stores Department, New Delhi. (Orders of less than Rs. 100 in value are not included.)

I.—ENGINEERING SECTION.

Contracts placed during the week ending 29th November, 1934.

Tender No. and Article.	No. or Quantity.	Name of Firm.	Value of Contract.
N-3953/5.—Components parts for Rajah Reaper and Rajah Fodder cutter.	lot	Messrs. Volkart Bros., Karachi.	Rs. 1,165 f.o.r. Hissar.
N-2730.—Transformers, switchboards and motors, for the P. W. D. Central Workshops, Amritsar.	lot	The General Electric Co. (India), Ltd., Lahore.	26,288 free delivery at Amritsar Rly. Station including erection and test.
N-3747.—Zinc elements, for cells A. D. wet conversion type No. 220.	100	Messrs. Sorabji & Co., Bombay.	250 free delivery Storespura Rly. Station.

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

INDIAN—

Silk Yarns.

(X-144) A firm in Hinoo (Ranchi) desires to be put in touch with suppliers of Silk Yarns in Calcutta.

FOREIGN—

Pomeloes.

(X-145) A firm in London desires to be put in touch with exporters of Pomeloes in tins in India.

INDIAN CUSTOMS REVENUE.

The grand total of gross Indian Sea and Land Customs Revenue (excluding salt revenue) collected during the month of November, 1934, amounted to Rs. 4,80 lakhs as against Rs. 5,30 lakhs in the preceding month and Rs. 4,36 lakhs in November, 1933. The total revenue realised in the eight months ended November, 1934, was Rs. 35,00 lakhs as compared with Rs. 32,33 lakhs during the same period last year. Import duties accounted for Rs. 25,68 lakhs of this amount, export duties for Rs. 2,62 lakhs, excise duties on motor spirit, kerosene, sugar and matches for Rs. 3,34 lakhs, Rs. 1,94 lakhs, Rs. 33 lakhs and Rs. 67 lakhs, respectively, and Land Customs and Miscellaneous for Rs. 41 lakhs. Increases were noticeable under import duties on cotton fabrics, motor cars, tobacco, kerosene, metals other than iron and steel, etc., artificial silk yarn and thread, dyes derived from coal tar, cotton hosiery, silver bullion, coin, sheets, plates and other manufactures, oils, batching, fuel and lubricating, iron and steel, pneumatic rubber tyres and tubes, railway plant and rolling stock, wireless reception instruments and apparatus and tin, block; excise duties on motor spirit and kerosene also showed noticeable increases. On the other hand, import duties on sugar, silk fabrics, cotton yarn and thread, betelnuts, motor spirit, boots and shoes, tea, machinery, paper and stationery, toys, games and sports goods, and liquors, the export duties on rice, jute, raw and manufactured and land customs receipts showed noticeable decreases. The detailed statement will be found at pages 1296-97.

WEEKLY CABLE TO LONDON.

WEATHER during week ending 9th December.—Generally dry over country except for a few falls in places.

Crops: Madras, week ending 1st December.—Fairly good rainfall in southern half of Presidency. Transplanting or sowing of paddy proceeding in parts of Carnatic, Central districts and west Coast. Standing crops generally fair except in parts of Deccan where adversely affected for want of rain. Bihar and Orissa, week ending 4th December.—No rain. Standing crops including sugarcane generally good. Prospects of winter rice generally fair. Harvesting of early winter paddy in progress in most districts. Harvesting and pressing of sugarcane going on. Sowing of *rabi* crops still in progress in some districts. Sowing of *dahua* paddy continues in Cuttack. Punjab, week ending 3rd December.—Weather remained dry. Rain badly wanted. Standing crops generally average on irrigated and below average on unirrigated areas. Sugarcane being damaged by pyrrilla in Hoshiarpur, Jullundur and Ludhiana. Damage to cotton by boll worm and *tela* reported from parts of Multan. Central Provinces, week ending 1st December.—Weather generally clear and cool. Standing *kharif* crops satisfactory. Harvesting of *kharif* crops and picking of cotton in progress. Reaping of *juar* and threshing of rice commenced. Sowing of *rabi* crops nearing completion in northern districts. Germination satisfactory and young *rabi* plants healthy though slight damage from caterpillars reported in Panagarh circle of Jubbulpore district. Assam, 10th December.—Weather seasonable. Outturn and prospects of crops fair. Bengal, 10th December.—Weather continued practically dry. Harvesting of winter paddy progressing briskly. Sowing of spring crops much advanced. Prospects of standing crops generally satisfactory.

Intermediate Crop Reports. *Sugarcane*: Assam.—Weather continued favourable since last report. Present condition and prospects of crop fair. No change in estimated outturn shown in first forecast expected. Central Provinces and Berar.—Estimate of condition reported in last forecast, viz., 112.5 per cent of normal remains uncharged.

Bombay, 6th December.—Cotton: Upward trend in prices. No. 3 Fine M. G. Oomras Rs. 211 December-January, 1935.

Calcutta, 8th December.—Jute market quiet and rather easier in absence of demand. Sellers of Firsts for ready quoting Rs. 28-14. Hessians ruled quiet. Nine Porters Rs. 9; Elevens Rs. 11-11 Ready—December. Heavies also quiet with very little business. B. Twills sold at Rs. 24-12 December.

Calcutta, 7th December.—Shellac T. N. Rs. 42-8. Imperial Bank rate unchanged at $3\frac{1}{2}$ per cent.

(a) Imports. The total value of merchandise increased from Rs. 65.85 lakhs to Rs. 82.65 lakhs. The following were the items which showed increases, the value and the amount of increase being noted against each :-

Decreases were noticed in the following articles, the value and the amount of decrease being noted against each :—

Increases were, however, noticed in the following articles, the value and the amount of increase being noted against each :—

(a) *Imports*.—The total value of merchandise increased from Rs. 72·63 lakhs to Rs. 95·07 lakhs. The following were the principal articles which showed increases :—

(b) *Exports*.—The total value of merchandise increased from Rs. 1,39.32 lakhs to Rs. 2,10.63 lakhs. The following were the principal articles which showed increases :—

Decreases were, however, noticed in the following articles :—

The statistical position is now as follows:—

As shown above, there has been a substantial reduction in the movement of wheat from the ports, but, on the other hand, freight bookings continue heavy and there are at the present time either loading, waiting to load or chartered, 1,572,450 tons,

against a total of only 555,850 tons on the corresponding date of last year. As the stocks of maize, linseed and other grains are comparatively light, it is to be supposed that much of this tonnage is intended for wheat.

Markets.—Conditions in the grain market here have been very disappointing throughout the month, and there has been a slow but consistent decline in prices. The demand from abroad has been quite inadequate to take care of the volume of wheat offering, and the export of French wheat to the United Kingdom has provided some unlooked for and unwelcome competition.

So far no indication has been given by the Government as to its intentions with regard to the continuance of the Grain Control Board, although it is understood that great pressure is being used by the producers to secure this.

Meanwhile, quotations have been officially opened on the Futures Market for new wheat for February delivery. This closed at \$5.94, as compared with the close of Spot wheat at \$5.75. This figure of \$5.75 is the minimum fixed by the Board for the old crop.

At the close of business yesterday Spot Wheat closed at \$5.74 the quintal, equal to 50½c. Canadian per bushel at the current rates of exchange and December closed at \$5.85—51½c. Canadian. At the same time in Winnipeg December closed at 75c. per bushel.

The periodical report on crop conditions of the Ministry of Agriculture, regards the wheat crop as in good condition generally, but points out that there is a possibility that the late frosts by weakening the plants, and the prolongation of the rainy season, may favour the spread of rust, the presence of which has been observed in most of the zones. Details by provinces follow:—

Buenos Aires.—The general condition of the wheat is considered good up to this moment. In the east there are threats of the spread of rust if the wet weather continues. In the centre the wheat has developed well in the hilly region, although it has not yet acquired its normal height. In the Salado valley some spring wheat looks bad. In the south the rains have favoured the wheat sown late especially, but in general all have benefited. Most of the fields show initial attack of rust. In the west the wheat looks well with strong stalks. There is rust in the districts closest to the centre of the province, but only to the same extent as every year. In the north where most of the wheat has headed out the condition of the tops is good but the lower shoots are deficient in development. Mild attacks of rust are to be seen.

Santa Fe.—In the north of this province the condition generally may be said to be fair to good, improving towards the south. The continuous rains have not caused visible damage, but have rather

been beneficial in some districts. The effects of the September frosts are beginning to show, some of the fields having been caught at the moment of heading. The damage is most noticeable on the poorer lands. In general the foliage is exuberant and too high, which may produce the lodging of the wheat with a naturally weak stalk or a stalk weakened by the frosts. The late sowings are heading normally, but the most advanced are uneven. Rust has made its appearance and is spreading in the thick grain, especially in that affected by frost. Locusts have caused no appreciable damage, but it is feared that some may be done by the hoppers recently hatched in spite of the campaign recently carried out against them. In the centre and the south of the province, the condition of the wheat is good at the moment. The damage that was produced in the central districts by the frosts will be seen at harvest time in the form of a reduced yield. The development of the grain has been normal, and in general it is expected that the damage resulting from the frosts in the fields that were in the short blade will be off-set by the yields in other fields. In the southern zone the sanitary conditions of the fields is good. Leaf rust exists in normal proportion, and the locusts which invaded some zones arrived heavy and ready to lay.

Cordoba.—The general condition of the wheat fields of the province is good. The damage produced by the late frosts, although it cannot be gauged in concrete form since it will reflect itself in the yields and quality of the grain, is considered to be alleviated by the humidity of the soil and the arrival of subsequent rains. In the northern and eastern zones of the province the development has been good. The plants are a good height and well stooled, with stalk and head sound and vigorous. In the south-western zone since the rains the vegetation has reached a normal development; the wheat is healthy and has stooled and headed well, except in the northern part of some counties, where the effects of the frost of the 12th October are more noticeable. No locust damage is recorded, but in some parts of the north the presence of isoca is noted, especially in the fields of Lin Calel wheat.

Entre Rios.—Heading of the wheat is general, and is normal. The general condition is good, abundant stooling and strong stalks. The frosts of the past month have left no visible effects on the wheat fields whose appearance is satisfactory.

Pampa.—The present condition of the wheat is good, heading having begun in the north, and the stalk appearing in the southern zone. Yellow rust is noted in the fields, but the present condition of the fields and the manner in which the weather has favoured their development permits a hope that the effects of this plague may not be appreciable.

Santiago del Estero. In the irrigated zone the condition of the wheat fields may be considered

normal, whilst on the dry lands the frost of the 11th October caused damage, principally in the country of Rivadavia, where they reach a high percentage, and in that of Belgrano, to which must be added the damage done by the flying locusts which are considered of certain importance in the aggregate. The damage is greatest in the early sown fields, since that later ones have been restored in great part as a result of the rains which have fallen during the current month. Rust is noted in the fields, and in isolated cases, loose smut.

Since the publication of the above official report, it is announced that the Ministry of Agriculture has sent out special investigators to ascertain the facts with regard to the outbreaks of rust.

It is anticipated that the harvesting of the wheat crop will start about the middle of the month in the northern districts, from which it will gradually extend south.

Maize.

October exports of maize totalled 397,915 metric tons, which compares with shipments of 494,577 tons in September.

The statistical position now is as follows:—

	Tons.
Revised official estimate of 1933-34 crop	5,901,000
Official estimate of carry over from 1932-33	57,995
Total	5,958,995
Deduct for domestic consumption	1,280,000
and seed again	150,000
	1,430,000
Exportable balance	4,528,995
Exported to October 30th	3,638,488
Balance still available	890,507

In sympathy with the declining prices of wheat, quotations for maize have fallen during the month, in spite of the shrinking volume of the Argentine stocks. Increased competition from South African and Danubian maize has also assisted the downward trend, and after selling for some time at a higher price than wheat on the local market here, maize finished the month more or less on a parity with it.

Spot Yellow for export closed at \$5.75 paper per quintal, equal to 48½ cents U. S. per bushel at current exchange rates. The December option closed at \$5.93 per quintal, the equivalent of 50c. U. S. per bushel. At the same time December maize closed in Chicago at 76c.

In the domestic market, white, red and cuarenteno maize are all selling at a premium over the yellow.

The new crop of maize got off to rather a bad start in places, owing to the weather being too cool and the ground too moist, and resowing had to be resorted to in some cases. But the crop is now

doing better with the warmer weather prevailing recently, although a little more backward than is normal. Some of it is well above ground in the northern zones, and these fields suffered a set-back from the frosts of last month. Sowing will continue for some time, and it is quite expected that the acreage will show a considerable increase over that of last year, in view of the reduction in the acreage under wheat and the profitable returns which have accrued to the maize grower on recent crops, especially the last one.

Linseed.

Exports of linseed during October were 103,067 metric tons, practically the same quantity as was shipped in the previous month, viz., 103,893 tons. The supply position is now as follows:—

	Tons.
Second official estimate of 1933-34 crop	1,440,000
Carry over from 1932-33 crop	13,579
Total Supplies	1,453,579
Deduct for seed and domestic requirements	190,000
Exportable balance	1,263,579
Exported to October 30th	1,208,913
Balance still available	54,666

As the above figures show the stock of linseed are now almost exhausted, and with supplies from the new crop still a long way off, very little trading is being done at the present time.

Prices have shared in the general decline, about \$1.30 the quintal being the loss during the month. Spot linseed closed at \$11.60 per quintal, equivalent to 97½c. U. S. per bushel at current exchange rates; and the December option at \$11.53, equal to 97c. per bushel. On the same day in Duluth December closed at 179c. per bushel.

Reports on the progress of the new crop are very good, and the present prospect is that a good volume will be harvested. Some frost damage has been sustained, and in some districts there are complaints of a heavy growth of weeds, but both the government and the private reports received agree that the general conditions of the crop is good.

As in the case of wheat, producers are anxiously awaiting an announcement by the Ministry of Agriculture as to whether the Grain Control Board will again protect them on the price of the new crop of linseed.

Oats.

Shipments during the month were 59,995 tons, a considerable drop from the figure of 72,108 tons

in the preceding month. The supply position is now :—

	Tons.
Second official estimate of 1933-34 crop	833,000
Carry over from 1932-33	138,121
Total Supplies	971,121
Seed and domestic requirements	460,000
Exportable balance	511,121
Exported to October 30th	375,717
Still available for export	135,404

The demand for Argentine oats for the United States appears to have died down again for the present, and the lack of it has made quite a difference in the activity of the market here. There is very little demand from other sources, with the result that prices have weakened considerably.

Spot oats closed at \$5.30 paper pesos per quintal, the equivalent of 27½ cents U. S. per bushel, as compared with \$5.85 a month ago.

The official report describes the condition of the new crop as excellent, and this is confirmed by information from private sources.

Barley.

16,006 tons of Barley were shipped from Argentine ports during October, as compared with 18,306 tons in September. This has not made much impression on the available stocks, which still stand at 211,870 tons, as shown in the following statement :—

	Tons.
Second official estimate of 1933-34 crop	784,000
Carry over from 1932-33 crop	102,547
Total	886,547
Seed and domestic requirements	143,000
Exportable balance	743,547
Exported to October 30th	531,677
Still available for export	211,870

The market is inactive, and the tendency of prices is weak. Spot feed barley for export closed at \$7.20 per 100 kilos, with brewing qualities nominally higher.

The new crop is reported as making good progress under favourable weather conditions.

EXTRACT FROM LINSEED CIRCULAR No. 48 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 30th November, 1934—

	£	s.	d.
Quotations for Linseed and Linseed Oil—			
Indian Linseed.—November-December delivery c.i.f. per ton	11	5	0
Argentine Linseed.—November-December delivery c.i.f. (excluding duty) per ton	9	8	9
Linseed Oil.—November-December delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	18	10	0

Market Conditions.—Linseed market was unsteady on account of the reports of damage to the crop in Argentine, causing active speculative interest in forward positions for the new crop in the United Kingdom and on the Continent. Only spasmodic interest is shown for the Indian seeds.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 21st November, 1934—

Quotations for Linseed Oil—	
Linseed Oil, European make (Raw)	Rs. 1-8-6 per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1-10-6 per gallon f.a.s.

Market Conditions.—The linseed market has remained steady with prices slightly higher in sympathy with Home markets.

Bombay, 23rd November, 1934—

Quotations for Linseed Oil—	
Linseed Oil	Rs. 3-3-0 per maund.

Stocks of Linseed.—Linseed stock in Bombay on the 24th November, 1934, was estimated at 7,500 tons with offices and 7,500 tons with merchants.

BOOKS OF REFERENCE.

Madras.—Report on the Administration of the Excise Revenue in the Presidency of Fort St. George for the year 1933-34. (Price Re. 1-2).

Report on the Operations of the Department of Agriculture, Madras Presidency, for the year 1933-34. (Price As. 8).

United Provinces.—Administration Report of the Department of Industries for 21 months ending 31st March, 1934. (Price As. 10).

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) **Exports of Indian Artware and Sports Goods for December, 1933.** (Price Re. 1.) This publication

contains statements showing the exports of artware and sports goods of Indian manufacture from British India to foreign countries during December, and the nine months ending December, 1933, as compared with the corresponding periods of the preceding two years.

(2) **Accounts relating to the Coasting Trade and Navigation of British India for September, 1934.** (Price Rs. 3-12.) This publication contains statistical tables showing the coastal trade registered at the British Indian ports, i.e., the trade of these ports with one another and with Indian ports not British for the month of September and the six months ended September, 1934, as compared with the corresponding periods of the preceding two years.

(3) **Return showing the total gross Indian Sea and Land Customs Revenue (excluding Salt Revenue) in the month of November, 1934, and in the eight months ended November, 1934, as compared with the corresponding periods of the two preceding years.** (Price one anna.) The return contains the details of duty collected on the principal articles of import and also on the export of jute, rice, and raw skins together with the amounts of excise duty collected on silver, motor spirit, kerosene oil, sugar and matches and land customs and miscellaneous receipts. The actuals for the years 1932-33 and 1933-34 and the budget estimates for 1934-35 under the specific heads of revenue are also shown therein.

(4) **Joint Stock Companies, September, 1934.** (Price As. 10 or 1s.) This publication shows (i) the number and authorised capital of new Joint Stock Companies, registered in British India and in certain Indian States, (ii) the number and capital of Companies, which having ceased work went into liquidation or were finally dissolved or otherwise became defunct, and (iii) changes in the authorised capital of existing Joint Stock Companies during the month of September, 1934.

(5) **Monthly Statistics of Cotton Spinning and Weaving in Indian Mills, August, 1934.** (Price As. 2.) This publication shows statistics of the quantity and counts of yarn spun and the quantity and description of woven goods manufactured in the Indian Cotton Mills during August, 1934, and five months, April to August, 1934. These statistics have been compiled from the returns furnished in accordance with the Cotton Industry (Statistics) Act of 1926.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUE'S AND OTHER NOTICES AFFECTING TRADE.

THE CENTRAL OPIUM RULES, 1934: POPPY CULTIVATION IN THE UNITED PROVINCES—

The following Notification (No. 11-Dangerous Drugs, dated the 8th December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In pursuance of clause (a) of rule 2 of the Central Opium Rules, 1934 (*vide* the *Indian Trade Journal*, dated the 8th March, 1934, pages 912-16), the Governor-General in Council is pleased to define in accordance with the Schedule appended hereto the tracts in the United Provinces of Agra and Oudh within which the poppy may be cultivated on account of Government during the year ending the 30th September, 1935.

SCHEDULE.

District.	Parganas.
Ghazipur . .	Zamania, Saidpur, Ghazipur, Shadiabad and Pachotar.
Gorakhpur . .	Dhuriapar, Unaula, Bhawapar and Chillupar.
Azamgarh . .	Ghosi, Nathupur and Sagri.
Bareilly . .	Ballia and Saneha.
Shahjahanpur . .	Jalalabad and Kant.
Gonda . .	Gonda, Paharapur, Gwarich, Digsir, Nawabganj and Mahadewa.

MERCHANT SHIPPING ACT, 1923: DRAFT AMENDMENT—

The following Notification (No. 58-M. I. (3)/34, dated the 8th December, 1934) has been issued by the Government of India in the Department of Commerce:—

The following draft of a further amendment to the rules published with the Notification of the Government of India in the late Finance and Commerce Department No. 1354, dated the 14th March 1889, which it is proposed to make in exercise of the powers conferred by sub-section (1) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), is published, as required by sub-section (3) of the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration by the Governor-General in Council on or after the 24th December, 1934.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor-General in Council.

Draft Amendment.

In the list of approved disinfectants set forth in the Appendix to the said rules after the entry "Lactar" the following entry shall be inserted, namely:—

"Lawes' W. O. Fluid—W/A Grade".

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 24th and the 26th November, 1934:—
21393. G. Gunn.—Preparation of an improved composition for the preservation of wood, timber and other materials. (November 24, 1933.)
21394. C. C. Wakefield & Co. Ltd.—Improvements in or relating to the prevention of sludge formation in lubricating oils.
21395. W. V. Gilbert.—Improvements in or relating to lubricants.
21396. Prof. Dr. E. Atzler.—A process for preparing a remedy.
21397. G. Uchimoto and J. Yokoyama.—Improvements in and relating to shoe-sheets.
21398. F. J. T. Barnes.—Improved liquid dispensing apparatus. (November 28, 1933.)

TRADE OF ADEN IN OCTOBER, 1934.

—The number of merchant vessels over 200 tons that used the Port in October, 1934, was 150, as compared with 134 in the corresponding month last year, and the total tonnage was 636,000 as compared with 600,000. Excluding Coal, Salt, Fuel Oil and Military and Naval Stores and Transhipment Cargo, the total tonnage of Imports in the month was 9,200 and of Exports 5,900, as compared with 9,900 and 5,800, respectively, for the corresponding month last year. The total value of Imports *excluding* Government stores was Rs. 42,49,000 as compared with Rs. 44,74,000 for October, 1933, and of Exports Rs. 26,81,000 as compared with Rs. 29,26,000. The total value of both Imports and Exports together was Rs. 69,30,000 as compared with Rs. 74,00,000 for the corresponding month last year. Imports during the month were above those for October, 1933, in the case of Sugar, Piecegoods white, and printed or dyed, Twist and Yarn, Tobacco unmanufactured and Treasure private, and below in the case of Coffee, Grain, pulse and flour, Gums and resins, Hardware, Hides raw, Seeds, Skins raw, Piecegoods grey, and Tobacco manufactured. Exports were above those for October, 1933, in the case of Gums and resins, Hardware, Hides raw, Seeds, Skins raw, Sugar, Tobacco unmanufactured and manufactured and Treasure private, and below in the case of Coffee, Grain, pulse and flour, Piecegoods grey, white and printed or dyed and Twist and Yarn.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

OTTAWA TRADE AGREEMENT RULES, 1932: AMENDMENTS IN THE FORM OF CERTIFICATE OF ORIGIN FOR ADMISSION AT PREFERENTIAL RATES OF DUTY OF CERTAIN ARTICLES.

The following Press *communiqué*, dated the 1st December, 1934, has been issued by the Central Board of Revenue:—

In consequence of the further amendments made to the Ottawa Trade Agreement Rules, 1932 (*vide* the *Indian Trade Journal*, dated the 29th December, 1932, pages 930-33), by the Notification of the Government of India in the Commerce Department, No. 780-T. (II)/32, dated the 13th October, 1934 (*vide* the *Indian Trade Journal*, dated the 18th October, 1934, page 279), the Central Board of Revenue has made the following amendment to the form of the Certificate of Origin appended as Form A to the Board's Press *communiqué*, dated the 20th December, 1932 (*vide* the *Indian Trade Journal*, dated the 29th December, 1932, pages 933-34), as amended by its Press *communiqué*, dated the 24th March, 1934 (*vide* the *Indian Trade Journal*, dated the 29th March, 1934, page 1274), namely:—

For sub-paragraph (a) of paragraph 5, the following should be substituted, namely:—

"(a) That the final process of manufacture of each and every article (excluding the process of bottling, labelling, packing into retail containers or the like, and, in the case of rum and Angostura bitters, excluding also the process of mixing, if these constitute the only final process of manufacture carried out in the country) has been performed in that country."

This amendment will come into force with effect from the 1st January, 1935.

MATCHES (EXCISE DUTY) ORDER, 1934: REFUND OF PURCHASE PRICE OF BANDEROL ON UNSERVICEABLE BOXES.

The following Notification (No. 41-Central Excises, dated the 8th December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the power conferred by section 18 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor-General in Council is pleased to direct that the following further amendment shall be made in the Matches (Excise Duty) Order, 1934 (*vide* the *Indian Trade Journal*, dated the 10th May, 1934, pages 567-72), namely:—

After sub-rule (2) of rule 45 of the said Order the following sub-rule shall be inserted, namely:—

"(3) If any matches contained in boxes to which banderols have been affixed are

proved to the satisfaction of the Collector to have become unserviceable before they are issued from a manufactory, the Collector may permit the boxes containing such matches to be destroyed under supervision and the owner of the manufactory shall receive a refund of the purchase price of any banderol so destroyed."

FRANCE.

MODIFIED DUTIES ON TEAK: CORRECTION.

With reference to the notice in last week's *Indian Trade Journal*, page 1139, regarding modified French Customs duties on teak, it should be noted that the French "Journal Officiel" of November 9 announces that the new "Minimum" Tariff duty on squared or sawn teak having a thickness from 2 millimetres exclusive to 35 millimetres inclusive, not including veneer sheets and leaves, is 18 frs. per 100 kilogs., and not 12 frs. per 100 kilogs., as previously stated.

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference:—

15th November, 1934.

WEATHER AND CROP REPORTS.

BENGAL.

10th December.

During the week the weather continued to be practically dry. Harvesting of winter paddy is progressing briskly. Sowing of spring crops has much advanced. Prospects of standing crops are generally satisfactory.

ASSAM.

10th December.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

4th December.

During the week under report there was no rain in the province. The condition of standing crops including sugarcane is generally good. Prospects of winter rice are, on the whole, fair. Harvesting of early winter paddy is in progress in most districts. Harvesting and pressing of sugarcane are going on. Sowing of *rabi* crops is still in progress in some districts. Sowing of *dalu* paddy continues in Cuttack.

CENTRAL PROVINCES.

1st December.

During the week the weather was generally clear and cool. The standing *kharif* crops are in a satisfactory condition. Harvesting of *kharif* crops and picking of cotton are in progress. Reaping of *juar* and threshing of rice have commenced. Sowing of *rabi* crops is nearing completion in the northern districts. Germination is satisfactory and young *rabi* plants are in healthy condition though slight damage to them from caterpillars is reported in Panagarh Circle of the Jubbulpore district.

MADRAS.

1st December.

During the week there was fairly good rainfall in the southern half of the Presidency. Transplanting or sowing of paddy is proceeding in parts of the Carnatic, the Central districts and the west Coast. The condition of standing crops is generally fair, except in parts of the Deccan where the crops have been adversely affected for want of rain.

PUNJAB.

3rd December.

During the week the weather remained dry. Rain is badly wanted. Condition of standing crops is generally average on irrigated and below average on unirrigated areas. Sugarcane is being damaged by pyrilla in Hoshiarpur, Jullundur and Ludhiana and the pest is so widespread that no control measures will be effective at this stage. Damage to cotton by boll worm and *tela* is reported from parts of Multan.

GENERAL WEATHER SUMMARY.

Weather in India during the week ended Tuesday last was dry over the country except for a few light showers in south-east Madras, Assam and Bengal on one or two days.

The western disturbance persisted for several days and after causing light showers in the North-West Frontier Province was passing eastwards through the extreme north at the end of the week.

Local and scattered showers of rain also occurred in many places.

MONTHLY WEATHER REPORT FOR AUGUST, 1934.

THE following report on weather conditions in India during August, 1934, has been issued by the Director-General of Observatories:—

Summary.—The monsoon was normally active over the country, excepting the northwest, during the first three weeks and weakened generally in the Peninsula as far north as the Central Provinces and in the northwest of India thereafter and over the rest of the country after the 25th.

The unsettled conditions off the Circars coast towards the end of July passed inland and a shallow depression appeared over the east Central Provinces on the 2nd. The depression moved slowly, first northwards and then northwestwards, and filled up over the United Provinces on the 6th; influenced by this depression, the monsoon was active over the country except in the south of the Peninsula, Bihar and Orissa and the northwest of India on the first seven days. Another depression formed in the north Bay of Bengal on the 9th, crossed the Orissa coast on the next day and moving westnorthwestwards filled up over the west Central Provinces on the 12th. It was responsible for fairly well-distributed rain over the country excepting the northwest of India between the 8th and 13th, rainfall being locally heavy along and near its track. The monsoon strengthened further in the Peninsula and Lower Burma after the 13th and conditions were unsettled off the Orissa-Ganjam coast on the 14th morning. During the course of that day, the unsettled conditions developed into a depression which passed inland on the 17th morning and then moved northwestwards and broke up in the Kumaon hills on the 20th. By this time another depression had already formed at the head of the Bay of Bengal, which, moving northwestwards, filled up over north Rajputana on the 26th; under the influence of these last two depressions, the monsoon was active over the Peninsula up to the 19th, in the central parts of the country till the end of third week and generally in Burma, northeast India and the United Provinces and its neighbourhood till the 25th. Rainfall was locally heavy in the neighbourhood of the depressions. According to newspaper reports, heavy rain in the Gangetic valley in connection with the last depression caused severe floods in the Ganges, the Jumna and the Gandak rivers as a result of which the river banks collapsed at many places and considerable damage was done to life and property in the United Provinces and Bihar. The river Padma is also reported to have been in high flood towards the end of the month and considerable damage was done to property in Rajshahi and surrounding districts in east Bengal. The monsoon was generally weak over the country on the last six days of the month.

The temperature distribution over the country was more or less normal during this month.

The month's total rainfall was in moderate to large defect in Bihar, the east United Provinces, southeast Madras and the Madras Deccan and in slight defect in Upper Burma, Bengal, the North-West Frontier Province, south Hyderabad, Mysore and Malabar; it was normal in Assam, Kashmir, Baluchistan and Sind, in slight to moderate excess in Lower Burma, Orissa, Chota Nagpur, the west United Provinces, the Punjab, Gujarat, the west and the east Central Provinces, the Konkan, the Bombay Deccan and the north Madras coast and in large excess elsewhere. Averaged over the plains of India, the total rainfall during the month was in excess by 21 per cent.

The mean monthly maximum temperature was below normal in the Bay Islands, the east and north Punjab, Kashmir, Rajputana, Berar, the Bombay Deccan and north Hyderabad and the mean minimum above it in Baluchistan and Sind.

Skies were more clouded than usual in Orissa, the Punjab, the North-West Frontier Province, Rajputana and southeast Madras.

Humidity was above normal in Kashmir and Rajputana.

INTERMEDIATE CROP REPORTS.

THIRD INTERMEDIATE REPORT ON THE SUGARCANE CROP, 1934-35.

Assam.

Since the issue of the second intermediate report the weather has continued favourable. The present condition and prospects of the crop are fair. It is expected that no change will occur in the estimated outturn shown in the first forecast.

Central Provinces and Berar.

The estimate of condition reported in the second forecast, viz., 112.5 per cent of the normal, remains unchanged.

CROP FORECAST.

(FOREIGN)

UNITED STATES' COTTON CROP.

According to a cable dated the 8th December, 1934, received from the United States Department of Agriculture, Washington, the production of the cotton crop in the United States of America during the current year is now estimated at 9,731,000 bales of 500 lbs. each (or 12,164,000 bales of 400 lbs. each). Last year's corresponding estimate of production was 13,177,000 bales of 500 lbs. each. The area for harvest for the current season is placed at 27,515,000 acres.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Tenders will be opened in the presence of such tenderers as may desire to be present.

BURMA RAILWAYS.

Supply of Country Stores.

Tenders will be received at the Office of the Agent, Burma Railways, Rangoon, up to noon on Thursday, the 31st January, 1935, for the supply of Country Stores required during the official year 1935-36.

Tenders should be forwarded in covers sealed and superscribed "Tender for the Supply of country Stores, 1935-36" and be accompanied by a receipt from the Chief Accounts Officer, Burma Railways, Rangoon, for the amount of deposit required (*vide* para. 5 of the "Notes for the Guidance of Tenderers").

The Agent does not bind himself to accept the lowest or any tender, or assign reasons for rejections.

Tender forms should be obtained from the Office of the Superintendent of Stores, Burma Railways, Rangoon, on payment of Rs. 2 per copy.

Postage stamps and telegraphic tenders will not be accepted.

BURMA-RAILWAYS.

Supply of Permanent Way and Signal Materials for 1935-36.

Sealed tenders are invited and will be received by the Agent, Burma Railways, at his office in Rangoon, up to noon on Thursday, the 24th January, 1935, for the supply of the above materials required during the official year 1935-36.

Tenders must be submitted on the prescribed form obtainable from the Superintendent of Stores, Burma Railways, Rangoon, on payment of Rs. 2 per copy, and should be accompanied by a receipt from the Chief Accounts Officer, Burma Railways, Rangoon, for the amount of deposit required (*vide* para. 6 of the "Notes for the guidance of Tenderers").

The Agent reserves to himself the right to reject any or all of the tenders received without assigning any reason for such rejection.

For drawings and other particulars application should be made to the Superintendent of Stores, Burma Railways, Rangoon, or the Director General, India Store Department, London.

Postage stamps and telegraphic tenders will not be accepted.

EAST INDIAN RAILWAY.

Annual Contract Items and Special Items Costing Over Rs. 8,000.

Supply of M. S. Jaws.

Sealed tenders are invited for the following and will be received in the Agent's office, East Indian Railway, 105, Clive Street, Calcutta, up to 12 o'clock noon, on the 4th January, 1935.

Tender No. Track/59 of 1934-35.—For the supply of 400,000 Nos. Jaws, M. S., for C. I. Sleepers, as per Chief Engineer's Drawing No. B 145-33 (P. L. No. 874).

Tender forms for the above, and full particulars, can be had from the Controller of Stores' office, East Indian Railway, 105, Clive Street, Calcutta, on payment of Rs. 2 per copy to the Treasurer, East Indian Railway, Calcutta, and on production of his receipt when applying for the same. Once these documents are issued, no refund is permissible.

Copies of Ferro Prints of the Drawing can be had on payment of eight annas per copy to the Treasurer, and on production of his receipt.

Firms outside Calcutta may, however, remit the amount to the Controller of Stores, direct, by Money Order.

Sealed tenders delivered by hand, should be presented for registration in the Agent's office and then put into the Tender Box outside the Deputy Agent's (Works) room, by the tenderer or his representative.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Tender for Making up Woollen and Cotton Garments.

Tenders are invited by the Agent, Eastern Bengal Railway, for the Making up Woollen and Cotton Garments for the periods noted below:—

Woollen Garments from 1st March, 1935, to 31st March, 1937.

Cotton Garments from 1st April, 1935, to 31st March, 1937.

Necessary Tender Documents comprising both Woollen and Cotton Uniform making requirements, can be obtained from the "Stores' Information Bureau", No. 3, Koilaghat Street (Bankshall Street-end), Calcutta, on payment of Rs. 5 per set.

Tenders will be opened at 3 p.m. (Calcutta Time) on the 9th January, 1935.

EASTERN BENGAL RAILWAY.

Supply of Stone Ballast.

Tenders are invited for the supply of eight lakhs c.ft. of broken stone ballast, 2" size, from private quarries on Asansol and Dhanbad areas on the E. I. Railway and B.-N. Railway.

Forms of tenders, with instructions and conditions of contract, can be obtained from the Chief Engineer, E. B. Railway, Calcutta, on prepayment in cash or by Money Order of Rs. 2, which will not be refunded.

Tenders are to be submitted not later than the 17th December, 1934, at which time they will be opened. Tenderers may be present at the opening.

The sum of Rs. 100 must be deposited as earnest money with the Superintendent, Cash and Pay Branch, E. B. Railway, Sealdah, and the number and date of the receipt must be quoted in the tenders. Unless this is done no tender will be considered.

The Eastern Bengal Railway Administration reserves to itself the right to reject or accept any tender or part of a tender without assigning any reason.

EASTERN GROUP—SLEEPER CONTROL.

Supply of Wagon Floor Boards.

Sealed tenders are invited and will be received by the Sleeper Control Officer, B.-N. Railway House, Kidderpore, up to 3 p.m. on the 4th January, 1935, for the supply between 1st April, 1935 and the 31st March, 1936, of 67,000 Wagon Floor Boards.

Tender forms, detailing specification, and conditions of supply, can be obtained from the Sleeper Control Officer, B.-N. Railway House, Kidderpore, on payment of Rs. 5, which will not be returned.

Tenderers should deposit Rs. 100 as earnest money with the Chief Auditor, B.-N. Railway.

The Sleeper Control Officer, B.-N. Railway House, Kidderpore, does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance of a tender, and reserves the right to accept the whole or any part of a tender.

EASTERN GROUP—SLEEPER CONTROL.

Supply of Sal Bridge and Crossing Sleepers.

Sealed tenders are invited for the supply of 20,600 Sal Bridge and Crossing Sleepers between the 1st April and the 31st December, 1935.

Tender forms, detailing sizes, and other particulars, can be obtained from the Sleeper Control Officer, Eastern Group, B.-N. Railway House, Kidderpore, Calcutta, on payment of Rs. 5, which will not be refunded.

Tenders will be received up to 3 p.m. (Calcutta Time) on the 8th January, 1935, when the Tender Box will be opened and rates announced to tenderers present.

The Sleeper Control Officer does not bind himself to accept the lowest or any tender, nor to assign any reason for the non-acceptance of a tender, and also reserves the right to accept the whole or any part of a tender.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Stationery, Paper and Printing Materials, etc., during 1935-36.

The Agent, M. & S. M. Railway, Madras, invites tenders for the supply of Stationery, Paper, Printing Materials and Red Sealing Wax, required during the year commencing 1st April, 1935.

Tender forms can be obtained from the Railway's Controller of Stores at Perambur, on payment of Rs. 3 per copy. Closing date is the 15th January, 1935.

SOUTH INDIAN RAILWAY.

GENERAL STORES DEPARTMENT.

Supply of Special Stores during 1935-36.

Tenders are invited and will be received by the Superintendent of Stores, South Indian Railway, Negapatam, for the supply of the articles mentioned below:—

Articles required.	Date Tenders Due.
Special stores consisting of:— Oils, such as castor, coconut, kerosene, linseed, groundnut, machinery and cutting. Country sealing wax and flax Laterite and chocolate paints, turpene and coal tar, etc. (As per Schedule A)	4th February, 1935.

The cost of a copy of the Schedule is Rs. 2 which sum should be prepaid and is not refundable nor will the Schedule be sent by V.-P. Post.

Copies of the Specification, Tender forms and other particulars can be had from the Superintendent of Stores, South Indian Railway, Negapatam.

Samples are required and must reach the Superintendent, Government Test House, Alipore, or the Superintendent of Stores, South Indian Railway,

Negapatam, as required in the Schedule, by the 2nd January, 1935.

The Agent, South Indian Railway, will not consider any tender except on the Company's authorised form as aforesaid and does not bind himself to accept the lowest or any tender nor to assign any reasons for non-acceptance. He further reserves to himself the right of accepting any tender in part.

GREAT INDIAN PENINSULA RAILWAY.

Sale of Ferrous Materials.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the purchase of the following ferrous scrap:—

Ferrous Materials, viz., Iron and Steel Scrap, Condemned Machinery, Boiler Shells and Wagon Bodies, etc., available at Haji Bunder Depot, Bombay.

The prescribed forms of tender, with conditions, on which tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 2 per form, which amount will not be returned. The tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the purchase of Ferrous Materials, etc.". Tenders not complying with these conditions will not be considered.

Tenders will be received in the Agent's office up to 3 p.m. (Standard Time) on Thursday, the 3rd January, 1935.

NOTES.

CLAIMS OF INDIAN EXPORTERS AGAINST GERMAN FIRMS—

Information has been received from the Indian Government Trade Commissioner, Hamburg, that the German Government have under consideration a scheme for the payment of old German commercial debts but no decision has been arrived at yet.

The German Government are prepared, however, to allow outstanding debts of German importers in respect of Indian goods to be settled by means of additional exports of German goods to India. Indian creditors will thus be able to liquidate their claims by purchasing German goods but each individual claim will have to receive the formal sanction of the competent Control Office. It is understood that if an Indian exporter places an order for German goods for the exact amount of his frozen claim there would not be any difficulty in obtaining the necessary sanction.

The Hamburg Chamber of Commerce has offered its services to the Indian Government Trade Commissioner at Hamburg for the purpose of helping Indian exporters to get into touch with German exporters and to obtain the formal sanction referred to above. If firms in India who have claims in Germany and who wish to liquidate them by importing German goods, will communicate full particulars as regards their claim and the goods which they wish to import, to the Indian Government Trade Commissioner at Hamburg, he will be glad to render them all possible assistance in the matter.

THE THIRD ALL-INDIA COTTON FORECAST, 1934-35—

The Third All-India Cotton Forecast, 1934-35, is expected to be published in the *Indian Trade Journal* of the 3rd January, 1935. The forecast estimates will, however, be exhibited at the main street door of the Office of the Director-General of Commercial Intelligence and Statistics, at 1, Council House Street, Calcutta, on Friday, the 21st December, 1934 at 3 p.m. (Calcutta Time) or 2-36 p.m. (Standard Time).

EXPORTS OF RAW JUTE IN NOVEMBER, 1934—

The total exports of raw jute from Bengal during November, 1934, amounted to 458,209 bales of 400 lbs. each, of which 441,851 bales were exported from Calcutta and 16,358 bales from Chittagong. The total exports from Bengal in the months of November, 1932 and 1933, were 362,398 and 623,790 bales, respectively, the shipments from Calcutta being 347,917 and 573,026 bales, the remainder being from Chittagong.

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

INDIAN—**Cured Crocodiles and Other Animals.**

(X-146) A firm in Cawnpore (United Provinces) desires to be put in touch with purchasers of Cured Crocodiles and other Cured Animals.

Gum Katira and Gum Boswellia Serratta.

(X-147) A firm in Katni (Central Provinces) desires to be put in touch with purchasers of Gum extracted from *Sterculia Urens* (Vern: Gum Katira or Katila) and Gum Boswellia Serratta (Vern: Gum Salai or Gugal) in India.

Marbles.

(X-148) A firm in Alwar (Rajputana) desires to be put in touch with purchasers in India of Marbles both in the raw state as well as finished product.

Umbers.

(X-149) A firm in Bombay desires to be put in touch with suppliers of Umbers or similar brown earth colours in India.

FOREIGN—**Hornmeal.**

(X-150) A firm in Copenhagen (Denmark) desires to be put in touch with exporters of Hornmeal in India.

INDIAN SECURITIES RULES, 1935.

—A draft of certain rules which it is proposed to make in exercise of the powers conferred by section 24 of the Indian Securities Act, 1920 (X of 1920), and in supersession of the Indian Securities Rules, 1920, is published in Part I of the *Gazette of India*, dated the 15th December, 1934, under Government of India Finance Department Notification No. D-9345-F., dated the 15th December, 1934 for the information of all persons likely to be affected thereby. The draft will be taken into consideration by the Governor-General in Council on or after the 1st February, 1935. Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Governor-General in Council.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 16th December.—Nearly general in North-West Frontier Province and Baluchistan on 1 day. Elsewhere local or a few falls or dry weather.

Crops: Madras, week ending 8th December.—Light showers in southern half of the Presidency. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts. Standing crops generally fair, except in parts of Deccan where adversely affected for want of rain. Bihar and Orissa, week ending 11th December.—Light rain fell in Purnea, Santal Parganas, Balasore, Angul, Puri, Sambalpur, Singhbhum and in parts of Bhagalpur; no rain elsewhere. Standing crops including sugarcane generally good. Prospects of winter rice generally fair. Harvesting of winter paddy in progress in most districts. Harvesting and pressing of sugarcane going on. Sowing of *rabi* crops nearing completion. Sowing of *dahua* paddy continues in Cuttack. Punjab, week ending 10th December.—Weather dry. Rain badly wanted. Standing crops generally average on irrigated and below average on unirrigated areas. Sugarcane being damaged by pyrrilla in Hoshiarpur, Jullundur and Ludhiana. Boll worm and *tela* reported to have damaged cotton in parts of Multan. Central Provinces, week ending 8th, December.—Weather clear and cool with occasional passing clouds. Harvesting of *kharif* crops and threshing of rice continue. Picking of cotton, though late, in progress. In Nagpur, Wardha and Harda *taluk* of Hoshangabad district cotton plants reported to be deteriorating. In parts of Akola, Amraoti and Yeotmal crop reported to have been affected in places by insects. Standing *kharif* crops otherwise good. Sowing of *rabi* crops nearly over. Germination satisfactory and growing plants healthy. Assam, 17th December.—Weather seasonable. Outturn and prospects of crops generally fair. Bengal, 17th December.—Excepting heavy showers in places rainfall generally light to moderate. Sowing of spring crops nearly finished. Harvesting of winter paddy proceeding, but operation somewhat affected by recent rainfall. Prospects of standing crops generally fair.

Intermediate Crop Reports. Sugarcane: Bengal.—Since last report weather condition continued to be generally favourable for crop. Estimate of condition anticipated to be 82 per cent of normal. Bihar and Orissa.—Outturn of crop now estimated at 87½ per cent in north Bihar. Condition factor for whole province comes to 92 per cent of ten years' average against 93 per cent reported in last forecast. Bombay.—Since last report crop reported doing well almost all over presidency and expected to give normal yield except parts of Karnatak where crop suffered due deficient moisture and though somewhat improved under October and November rains

may yield below normal. Madras.—Crop affected to some extent by drought in Bellary, Anantapur and Salem. Rains received towards end of October and beginning of November lodged crop in parts of Cuddapah *taluk*. Condition of crop satisfactory in other districts and yield expected to be normal if season continues to be favourable. Punjab.—Owing to scarcity of rains and damage by insect pests condition of crop for 1934 may be reduced from 86 to 84 per cent of normal. Sind.—Crop done well everywhere and being harvested. United Provinces.—No marked change in outturn reported previously. There are indications, however, that quality of cane in western districts very much below than that usually at this season which is largely to be attributed to pyrrilla which has caused extensive damage over this particular tract. Total yield will probably lie between 80 to 85 per cent of normal.

Bombay, 13th December.—Cotton: Market steady. No. 3 Fine M. G. Oomras Rs. 212½ December-January 1935.

Calcutta, 15th December.—Jute market firm and advancing with sellers reserved. Small business done in First at Rs. 29-8 for ready. Hessians ruled firm in sympathy with steadier jute market. Nine-Porters Rs. 8-15; Elevens Rs. 11-11 Ready-December. Heavies unchanged but undertone steady. B. Twills at Rs. 24-10.

Calcutta, 14th December.—Shellac T. N. Rs. 45. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 12th December.—Specials White Rice Big Mills Rs. 170 (Old Crop-December) and Rs. 167-8 (New Crop-January, 1935); Small Mills Rs. 177-8 (Old Crop-December) and Rs. 175 (New Crop-January, 1935). 15th December.—Paddy Rs. 63 to Rs. 64 (river) and Rs. 62 to Rs. 63 (rail).

Wheat, 13th December: Lyallpur.—Rs. 2-5 f.o.r. per maund. Bombay, White Delhi per cwt. railway terms Rs. 4-5 January and Rs. 4-10-6 May. 14th December: Karachi.—Punjab White Rs. 22-4 per candy.

Twenty-sixth Tea Sale, Calcutta, 10th and 11th December.—23 thousand chests Leaf for export, and 6 thousand chests for Internal Consumption, average price As. 8-8 and As. 5-5, respectively, and 8 thousand chests Dust at As. 5, sold. Except for any B. O. P. grades with good appearance and best liquoring kinds, which grades showed little change in value, market declined. Leaf teas in poor request and with few exceptions declined about ½ anna per lb. Common broken more often than not failed to attain last prices, while medium broken only wanted at a drop of about 3 pies. Internal Consumption: Demand continues strong for all grades. Anything below 5 annas per lb. and broken types with style showed tendency to advance. Improved enquiry for Dusts with however prices unchanged.

FOREIGN TRADE OF CALCUTTA IN NOVEMBER, 1934.

THERE was a slight set-back in November, 1934, in the improvement recorded in the overseas import trade of Calcutta in private merchandise in the previous month, the value receding from Rs. 3-19 crores to Rs. 3-05 crores, against Rs. 2-81 crores in November, 1933. Exports, however, advanced from Rs. 5-4 crores to Rs. 5-94 crores, against Rs. 6-11 crores in November, 1933.

IMPORTS.

A comparison of the values of the principal imports with the figures for November, 1933, is given below, the figures in brackets representing the increase or decrease as the case may be:—

	In lakhs of rupees.
Cotton goods	41 (+9)
Machinery and millwork	40 (—4)
Iron and steel	18 (+1)
Electric instruments	10 (+3)
Paper and pasteboard	10 (+2)
Provisions and oilman's stores	10 (+2)
Wool	10 (+5)
Motor cars	8 (+2)
Chemicals and chemical preparations (excluding chemical manures and medicines)	8 (—1)
Hardware	8 (—1)
Drugs and medicines	7 (+1)
Liquors	7 (No change)
Betelnuts	7 (+2)
Oils, mineral	5 (—14)
Rubber	4 (No change)
Salt	4 (No change)
Sugar	3 (No change)

The total yardage of cotton piecegoods increased from 10 millions to 17 millions and the value advanced from Rs. 17 lakhs to Rs. 29 lakhs. The heavy fall under oils, mineral, was principally due to no imports of kerosene oil from Russia.

EXPORTS.

The variations in the values of the principal exports as compared with the trade of November, 1933, are indicated below:—

	In lakhs of rupees.
Jute manufactures	200 (+14)
Tea	174 (+2)
Jute, raw	109 (—27)
Lac	33 (+9)
Hides and skins	16 (—1)
Oilseeds (non-essential)	9 (—16)
Pig iron	8 (+1)
Wool manufactures	6 (+1)
Grain, pulse and flour	5 (—1)

The heavy fall under oilseeds is due to lesser exports of linseed.

DIRECTIONS OF EXPORT.

Tea, lac and raw jute were shipped mainly to the United Kingdom, gunny cloth and skins to the

United States of America, hides to Italy, gunny bags to the Commonwealth of Australia, pig iron to Japan, seeds to Egypt and rice to the Union of South Africa.

FOREIGN TRADE OF KARACHI IN NOVEMBER, 1934.

THE statistics of the foreign trade of the port of Karachi for November, 1934, issued by the Collector of Customs, Karachi, show that the total value of imports (merchandise) amounted to Rs. 1-46 crores, an increase of Rs. 30 lakhs, and that of exports to Rs. 85 lakhs, an increase of Rs. 16 lakhs as compared with the figures for November, 1933. The progressive totals for the eight months ending November, 1934, show an increase of Rs. 1-76 crores or 20 per cent under imports, and of Rs. 2-50 crores or 36 per cent under exports.

Comparative figures of the principal imports and exports for November, 1933 and 1934, are given below:—

IMPORTS.

	In November, 1934.		Increase (+) or Decrease (—) as compared with November, 1933.	
	Quantity.	Value.	Quantity.	Value.
	Tons.	Rs.	Tons.	Rs.
Cotton manufactures	..	40,60,868	..	+19,17,431
Oils	..	12,52,565	..	+8,87,480
Woollen goods	..	9,66,962	..	+6,85,553
Metals and ores	..	11,97,302	..	+2,56,583
Vehicles	..	5,82,993	..	+22,066
Cotton, twist and yarn	..	18,093	..	+12,547
Machinery and mill work	..	9,79,018	..	—8,29,577
Sugar	2,313	1,98,247	—5,045	—5,45,716
Liquors	..	4,59,527	..	—36,844

The increase under cotton manufactures occurred in receipts of all the three main sub-divisions of piecegoods, viz., grey, white and coloured. Imports of grey goods amounted to nearly 3 million yards valued at Rs. 4 lakhs as against 1½ million yards valued at Rs. 1-51 lakhs, while those of white and coloured goods totalled 14 million yards valued at Rs. 22 lakhs, and 6½ million yards valued at Rs. 12 lakhs, as against 7¾ million yards valued at Rs. 13 lakhs, and 2½ million yards valued at Rs. 5 lakhs,

respectively, in November, 1933. The total imports of cotton piecegoods during the eight months ending November, 1934, amounted to 150½ million yards valued at Rs. 2.68 crores, showing an increase of 42 per cent in quantity and 53 per cent in value as compared with the corresponding period of last year. The share of the United Kingdom in the total imports of cotton piecegoods during the eight months ending November, 1934, was 119½ million yards valued at Rs. 2.14 crores, an increase of 50 per cent in quantity and 54 per cent in value, while that of Japan was 28½ million yards valued at Rs. 45 lakhs, an increase of 12 per cent in quantity and 30 per cent in value, as compared with the first eight months of 1933-34. The increase under woollen goods occurred in receipts of yarn and knitting wool from Japan, blankets and rugs from Italy, shawls from Germany and piecegoods from Japan, Germany and the United Kingdom. The increase under oils was most noticeable in receipts of kerosene oil from Russia and fuel oils from Persia. The improvement in imports of metals was the result of larger arrivals of copper sheets from the United States of America (+Rs. 1,54,489), iron or steel hoops and strips from Belgium, the United Kingdom and Germany and sleepers and keys of steel or iron for Railways from the United Kingdom. The decrease in imports of machinery, occurred chiefly in receipts of sugar machinery from the United Kingdom, Belgium and the Netherlands. Of the total quantity (2,313 tons) of sugar imported during the month, 757 tons came from Java and the rest was mostly beet sugar from the United Kingdom. The total quantity of sugar imported during the eight months of the current official year was 38,246 tons as against 45,690 tons in the corresponding period last year.

EXPORTS.

	In November, 1934.		Increase (+) or Decrease (—) as compared with November, 1933.	
	Quantity.	Value.	Quantity.	Value.
	Tons.	Rs.	Tons.	Rs.
Cotton, raw . .	11,082	46,78,251	+ 5,650	+ 23,03,214
Barley	1,050	61,050	+ 1,046	+ 61,610
Wheat	323	27,558	+ 243	+ 20,759
Wool, raw (Indian and Foreign).	1,093	9,49,628	— 912	— 5,33,514
Skins, raw . .	388	3,11,095	— 285	— 3,68,573
Wheat flour . .	681	67,316	— 154	— 22,352
Hides, raw . .	29	16,852	— 23	— 8,716
Rapeseed . . .	4,542	5,25,332	— 277	— 4,520

The expansion in exports of cotton was most noticeable in shipments to Japan, Italy, France, Belgium and the United Kingdom. Spain and Germany, on the other hand, took less. The total quantity of cotton exported during the eight months ending November, 1934, was 146,275 tons (819,138 bales) as against 83,571 tons (467,998 bales) in the corresponding period last year. Almost the entire quantity of barley exported during the month was purchased by the United Kingdom. The decrease in exports of raw wool occurred in shipments to the United Kingdom and the United States of America, while that under raw skins was due to reduced purchases of goat skins by the United States of America.

EXTRACT FROM LINSEED CIRCULAR No. 49 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 7th December, 1934—

Quotations for Linseed and Linseed Oil—		£	s.	d.
Indian Linseed.—December-January delivery c.i.f. per ton		11	13	9
Argentine Linseed.—December-January delivery c.i.f. (excluding duty) per ton		9	15	0
Linseed Oil.—December-January delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton		19	2	6

Market Conditions.—Indian linseed met with only a desultory enquiry. Greater interest was shown in the La Plata new crop following the unsatisfactory weather news from Argentina supported by the firmness of grain and an upward move in edible oil price. There is a likelihood of linseed oil becoming more attractive due to its comparative cheapness.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 28th November, 1934—

Quotations for Linseed Oil—		Rs.	1/8	0
Linseed Oil, European make (Raw)		per	gallon	f.a.s.
Linseed Oil, European make (Boiled)		Rs.	1-10-6	per gallon f.a.s.

Market Conditions.—The linseed market has registered a further rise during the week in sympathy with Plate seed, shippers buying daily at prevailing rates.

Bombay, 1st December, 1934—

Quotations for Linseed Oil—		Rs.	3/6	0
Linseed Oil		per	maund.	

BOOKS OF REFERENCE.

The following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta :—

U. K. and Parliamentary Publications—

Board of Trade.—Instructions as to the Survey of Life Saving Appliances—Supplement No. 4 to 1926 edition.

Ministry of Transport.—Railway Statistics of Great Britain—Particulars of Traffic carried by Coaching Trains and selected Traffic conveyed at Freight Train Rates for the calendar month of August, 1934, and Statistics of Traffic conveyed by Freight Trains, Operations, etc., for four weeks ended 8th September, 1934.

Registry of Ships.—A Return of Steam, Motor and Sailing Ships belonging to the United Kingdom and British Oversea Dominions and Protectorates, reported to the Registrar-General of Shipping and Seamen in respect of their Registry during the month of October, 1934.

Treaty Series No. 30 (1934).—Exchange of notes between His Majesty's Government in the United Kingdom and the Italian Government for the reciprocal validation of Certificates of Airworthiness, Rome, September, 17, 1934.

Treaty Series No. 31 (1934).—Convention between His Majesty in respect of India and the Emperor of Japan regarding Commercial Relations between India and Japan with Protocol, London, July 12, 1934 (Ratifications exchanged at London on October 22, 1934).

Treaty Series No. 32 (1934).—Agreement between His Majesty's Government in the United Kingdom and the President of the Republic of Estonia—Supplementary to the Treaty of Commerce and Navigation of January, 18, 1926 (with Protocol and Notes), London, July 11, 1934 (Ratifications exchanged at London, August 29, 1934).

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) *Trade at Stations Adjacent to Land Frontier Routes for September, 1934.* (Price As. 12.) This

publication contains statements of (i) Rail-borne trade in selected articles at stations adjacent to land frontier routes of India proper and (ii) Trade in selected articles at stations on the important land frontier routes of Burma during the month of September, and the six months ended September, 1934, as compared with the corresponding periods of the preceding two years.

(2) *Raw Cotton Trade Statistics (Rail and River)* for August, 1934. (Price Re. 1-10.) This publication contains statistics of raw cotton imported into and exported from each internal trade block in each province by rail and river from and to other trade blocks of the other provinces of India. A summary table showing the inter-provincial trade is also included.

(3) *The Review of the Trade of India in 1933-34* (Price Rs. 2-8.) The publication is divided into two parts. Part I consists of six chapters :—(i) General Summary, (ii) Imports of Merchandise, (iii) Exports of Merchandise, (iv) Direction of Overseas Trade, (v) Frontier and Indo-Burma Trade and (vi) Balance of Trade and Movements of Treasure. Part II consists of Statistical Tables. It also contains a number of Charts illustrating the growth and changes in the direction of Indian trade and prices of certain staple commodities in India. A separate chart has also been inserted showing the exports of gold from British India.

(4) *Accounts relating to the Inland (Rail and River-borne) Trade of India for July, 1934.* (Price Rs. 2 or 3s. 6d.) This publication offers a summary view of the inland trade of India during the month of July, 1934. The statistics contained in these accounts relate to the inland trade of India, carried by the railways and the steamer services, and represent the movement of the trade into and from a province, taken as a whole, or a chief port or ports, the trade of which is registered separately from that of the trade of the province in which such port or ports may be situated. The trade dealt with in these accounts thus falls into one or other of the following categories—(i) the trade of a province with other provinces, (ii) the trade of a chief port with the province in which it is situated, and (iii) the trade of a chief port with other provinces—the statistics being given separately in respect of 18 principal trade blocks, namely, (1) 9 blocks representing the British provinces, excluding Burma. (2) 4 representing the principal port towns and (3) 5 representing Indian States.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

INDIAN SOFT COKE CESS ACT, 1929: CONTINUANCE OF CERTAIN SECTIONS OF THE ACT FOR A FURTHER PERIOD OF FIVE YEARS—

The following Notification [No. 45-C. (4)/34-Commerce, dated the 15th December, 1934] has been issued by the Government of India in the Department of Commerce:—

In exercise of the powers conferred by the proviso to section 8 of the Indian Soft Coke Cess Act, 1929 (VIII of 1929), the Governor-General in Council is pleased to declare, on the recommendation of the Soft Coke Cess Committee constituted under section 4 of the said Act, that sections 2 to 7 thereof shall continue in force for a further period of five years with effect from the 1st January, 1935.

STATE RAILWAY EARNINGS

The total approximate gross earnings of all State-owned Railways for the week ending the 17th November, 1934 (33rd week), amounted to Rs. 1,61 lakhs, Rs. 17 lakhs more than the figures for the preceding week and Rs. 8 lakhs less than the actuals for the corresponding week of the previous year and Rs. 5 lakhs less than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 17th November, 1934, amount to Rs. 54.08 crores or Rs. 2,64 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,64 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 17th November, 1933.	Up to 17th November, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.).	(In lakhs of Rs.).	(In lakhs of Rs.).
A.-B.	96	1,12	+16
B.-N.	4,45	4,79	+34
B., B. & C. I.	6,22	6,49	+27
Burma	2,05	2,10	+14
E. B.	3,15	3,21	+6
E. I.	10,48	11,33	+85
G. I. P.	6,91	7,01	+10
M. & S. M.	4,27	4,33	+6
N. W.	8,30	8,85	+55
S. I.	3,30	3,38	+8

TOTAL	51,44	54,08	+2,64

STATE RAILWAY EARNINGS—contd.

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways except the A. B. and E. B. A comparison with the actuals of the corresponding week of 1933 shows decreases in the approximate gross earnings of all the principal State-owned Railways except the B., B. and C. I., E. I. and S. I.

The principal variations in earnings as compared with the actuals for the corresponding week of the previous year, in thousands of rupees, were:—

A.-B.	—7; goods earnings (—7).
B.-N.	—55; coaching earnings (+2) and goods earnings (—57) under coal, other grains, oilseeds, lac, gunny, sugar and jaggree and jute.
B., B. & C. I.	+19; coaching earnings (+34), goods earnings (—18) and other earnings (+3).
Burma	—33; coaching earnings (+14), goods earnings (—49) and other earnings (+2).
E. B.	—1,01; coaching earnings (+8), goods earnings (—1,01) due to fall in coal, home line stores, grains, jute and other traffic in full wagon loads and other earnings (—8).
E. I.	+1,00; coaching earnings (+75) chiefly under 3rd class passengers and goods earnings (+25).
G. I. P.	—4,25; coaching earnings (—52) resulting from decreased other coaching traffic, goods earnings (—3,74) under cotton, oilseeds, food grains other than wheat and rice and general merchandise and other earnings (+1).
M. & S. M.	—1,57; coaching earnings (—25), goods earnings (—1,35) due to less movements of groundnuts, rice, cotton seeds, piece goods and food grains other than wheat and rice and other earnings (+3).
N.-W.	—1,17; coaching earnings (—48) due to a fall in other coaching earnings, goods earnings (—81) under wheat, cotton raw, food grains, other than wheat and rice
S. I.	+21; coaching earnings (+56) due to festival traffic to Tiruvannamalai, Palni, Tiruchendur and other centres and goods earnings (—35) due to less movement of groundnuts and coal.
Tirhoot and Lucknow- Bareilly	—22; due chiefly to decreases under both passenger and goods traffic on the B. & N.-W. Railway.

The total approximate gross earnings of all State-owned Railways for the week ending the 24th Nov-

STATE RAILWAY EARNINGS—contd.

ember, 1934 (34th week), amount to Rs. 1,73 lakhs, Rs. 12 lakhs more than the figures for the preceding week and Rs. 4 lakhs more than the actuals for the corresponding week of the previous year and Rs. 8 lakhs more than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 24th November, 1934, amount to Rs. 55.82 crores or Rs. 2,69 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,73 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 24th November, 1933.	Up to 24th November, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)
A. B.	99	1,15	+16
B.-N.	4,59	4,95	+36
B., B. & C. I.	6,42	6,70	+28
Burma	2,12	2,26	+14
E. B.	3,25	3,31	+6
E. I.	10,81	11,70	+89
G. I. P.	7,17	7,25	+8
M. & S. M.	4,39	4,44	+5
N. W.	8,59	9,16	+57
S. I.	3,41	3,47	+6
Tirhoot & Lucknow- Bareilly.	1,14	1,15	+1
Other Railways	25	28	+3
TOTAL	53,18	55,82	+2,69

Credit adjustments to the extent of Rs. 1 lakh (approximately) have been made in the above figures of Rs. 55.82 crores, on account of the difference between the approximate and audited gross earnings for the month of September, 1934, as detailed below:—

Railways.	Rs.
B.-N.	+76,000
B., B. & C. I.	—92,000
E. B.	—1,31,000
E. I.	—1,04,000
G. I. P.	+2,45,000
Jodhpur-Hyderabad Section	+78,000
N. W.	+1,44,000
Tirhoot	—52,000
Other Minor Adjustments	—17,000
TOTAL	+1,47,000

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways, except the South Indian. A comparison with the actuals of the corresponding week of 1933

STATE RAILWAY EARNINGS—contd.

shows increases in the approximate gross earnings of all the principal State-owned Railways, except the Burma, Great Indian Peninsula, Madras and Southern Mahratta and South Indian.

The principal variations in earnings as compared with the corresponding week of the previous year, in thousands of rupees, were:—

A.-B.	+18; coaching earnings (—4), goods earnings (+15) due to larger bookings of grain, kerosene oil and petrol and other earnings (+7) under jetty receipts.
B.-N.	+1,33; coaching earnings (+20), goods earnings (+1,16) under coal, iron ore, manganese ore, lime, iron and steel wrought, kerosene oil wheat and timber, and other earnings (—3).
B., B. & C. I.	+2,20; coaching earnings (+84) due to Pushkar fair, goods earnings (+1,32) under grains, cotton and other traffic in full wagon loads and other earnings (+4).
Burma	—46; coaching earnings (+18), goods earnings (—62) and other earnings (—2).
E. B.	+91; coaching earnings (+43) due to Mela traffic, goods earnings (+51) under other traffic in full wagon loads and other earnings (—3).
E. I.	+1,92; coaching earnings (+1,53) chiefly in 3rd class passengers, goods earnings (+3,39) under coal, salt, cement, piece-goods, tea, cotton seeds and gram and pulse.
G. I. P.	—4,02; coaching earnings (—73), mainly under other coaching earnings, goods earnings (—3,31) under cotton, oil seeds and general merchandise and other earnings (+2).
M. & S. M.	—1,11; coaching earnings (—53) due to less passengers, goods earnings (—62) under groundnuts, rice, cotton seed and foodgrains other than wheat and rice and other earnings (+4).
N. W.	+62; coaching earnings (—79) mainly due to fall in other coaching earnings and partly in passenger earnings, goods earnings (+1,35) under rice in husk, salt, iron and steel, food grains other than wheat and rice, gram and pulses and jaggree and other earnings (+6).

STATE RAILWAY EARNINGS—*contd.*

S. I. -96; Goods earnings (-95) due to less movement of groundnut *dhall* paddy, cotton, betelnuts and gravel and other earnings (-1).

Tirhoot and Lucknow-Bareilly +32; due to increased coaching earnings on the Bengal and North-Western and Rohilkund and Kumaon Railways.

The total approximate gross earnings of all State-owned Railways for the week ending the 1st December, 1934 (35th week), amounted to Rs. 1,71 lakhs, Rs. 2 lakhs less than the figures for the preceding week and Rs. 1 lakh less than the actuals for the corresponding week of the previous year and Rs. 5 lakhs more than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 1st December, 1934, amount to Rs. 57.53 crores or Rs. 2,68 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,78 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 1st December, 1933.	Up to 1st December, 1934.	Increase (+) or Decrease (-) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)

A comparison with the figures of the previous week for the principal State-owned Railways shows decreases in the approximate gross earnings of all Railways except the A.-B., B., B. and C. I., G. I. P., M. and S. M., and N. W. A comparison with the actuals of the corresponding week of 1933 shows decreases in the approximate gross earnings of all

STATE RAILWAY EARNINGS—*contd.*

the principal State-owned Railways, except the A. B., B. N., B. B. and C. I., E. B., E. I. and N. W. The principal variations in earnings as compared with the corresponding week of the previous year, in thousands of rupees, were:—

A.-B. +14; coaching earnings (-2) goods earnings (+15) under kerosene oil and petrol and other earnings (+1)

B.-N. +1,06; coaching earnings (+7), and goods earnings (+99) under coal, iron ore, manganese ore, iron and steel manufactured, timber, lime, cotton manufactured and wheat.

B., B. and C. I. . . . +2,05; coaching earnings (-12), goods earnings (+2,18) under grain and pulses, oil seeds and cotton and other earnings (-1).

Burma -39; coaching earnings (+2), goods earnings (-42) and other earnings (+1).

E. B. +42; coaching earnings (+8), goods earnings (+38) under jute and other traffic in full wagon loads and other earnings (-4).

E. I. +2,78; coaching earnings (-17), goods earnings (+2,94) under coal and other earnings (+1).

G. I. P. -4,04; coaching earnings (-95) mainly under other coaching earnings, goods earnings (-3,13) under cotton, oilseeds, general merchandise and coal for public and other earnings (+4).

M. and S. M. . . . -1,66; coaching earnings (-67) due to less bookings of passengers, goods earnings (-1,01) resulting from less movements of groundnuts, rice, sugar, cotton seeds and food grains other than wheat and rice and other earnings (+2).

N. W. +18; coaching earnings (-94) due mainly to fall in other coaching earnings and partly to fall in passenger earnings, goods earnings (+99) under cotton raw, wheat, rice not in husk and iron and steel and other earnings (+13).

S. I. -1,27; coaching earnings (-85) due to Krithigai festival having occurred during the corresponding period of last year, goods earnings (-44) under groundnut dholl, gravel, betelnuts and coal and other earnings (+2).

Tirhoot and Lucknow-Bareilly -1; mainly due to decreased goods earnings on the B. and N.-W. Railway.

WAGONS OF REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 17th November, 1934, and for the cumulative period from the 1st April to the 17th November, 1934, with the corresponding periods of the previous year are as follows:—

(a) Total loadings during the week.

During the week ending the 17th November, 1934, there were loaded on the broad gauge 78,236 wagons, being 312 more than in the corresponding week of the previous year, or an increase of 0.40 per cent. On the metre gauge there were loaded 46,024 wagons, being 3,551 fewer than in the corresponding week of the previous year, or a decrease of 7.16 per cent.

(b) Cumulative loadings from the 1st April, 1934.

(i) For the period from the 1st April to the 17th November, 1934, there were loaded on the broad gauge 2,481,746 wagons, being 147,883 more than in the corresponding period of the previous year, or an increase of 6.34 per cent, and on the metre gauge 1,543,674 wagons, being 72,689 more than in the corresponding period of the previous year, or an increase of 4.94 per cent.

(ii) *Coal and coke.*—In the same period 623,285 wagons, broad and metre gauge, were loaded as compared with 562,040 in the corresponding period of the previous year, being 61,245 more or an increase of 10.9 per cent. In addition 70,681 wagons, broad gauge, were loaded during the period by the B. N. and E. I. Railways for their own use, as compared with 61,346 in the corresponding period of the previous year, being 9,335 more, or an increase of 15.2 per cent.

(iii) *Grains and pulses.*—In the same period 516,306 wagons, broad and metre gauge, were loaded as compared with 462,748 in the corresponding period of the previous year, being 53,558 more or an increase of 11.6 per cent.

(iv) *Oilseeds.*—In the same period 139,703 wagons, broad and metre gauge, were loaded as compared with 148,549 in the corresponding period of the previous year, being 8,846 fewer or a decrease of 5.95 per cent.

(v) *Cotton.*—In the same period 87,922 wagons, broad and metre gauge, were loaded as compared with 77,879 in the corresponding period of the previous year, being 10,043 more or an increase of 12.9 per cent.

(vi) *Home line stores and materials.*—In the same period 232,069 wagons, broad and metre gauge,

WAGONS OF REVENUE FREIGHT—*contd.*

were loaded as compared with 209,483 in the corresponding period of the previous year, being 22,586 more or an increase of 10.8 per cent.

(vii) *Miscellaneous smalls.*—In the same period 1,000,103 wagons, broad and metre gauge, were loaded as compared with 972,751 in the corresponding period of the previous year, being 27,352 more or an increase of 2.81 per cent.

(viii) *Miscellaneous full wagons.*—In the same period 1,426,032 wagons, broad and metre gauge, were loaded as compared with 1,371,398 in the corresponding period of the previous year, being 54,634 more or an increase of 3.98 per cent.

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 24th November, 1934, and for the cumulative period from the 1st April to the 24th November, 1934, with the corresponding periods of the previous year are as follows:—

(a) Total loadings during the week.

During the week ending the 24th November, 1934, there were loaded on the broad gauge 82,750 wagons, being 4,658 more than in the corresponding week of the previous year, or an increase of 5.96 per cent. On the metre gauge there were loaded 46,546 wagons, being 4,413 fewer than in the corresponding week of the previous year, or a decrease of 8.66 per cent.

(b) Cumulative loadings from the 1st April, 1934.

(i) For the period from the 1st April to the 24th November, 1934, there were loaded on the broad gauge 2,565,323 wagons, being 153,221 more than in the corresponding period of the previous year, or an increase of 6.35 per cent, and on the metre gauge 1,590,600 wagons, being 68,197 more than in the corresponding period of the previous year, or an increase of 4.48 per cent.

(ii) *Coal and coke.*—In the same period 644,581 wagons, broad and metre gauge, were loaded as compared with 579,522 in the corresponding period of the previous year, being 65,059 more or an increase of 11.2 per cent. In addition, 72,715 wagons, broad-gauge, were loaded during the period by the Bengal-Nagpur and East Indian Railways for their own use, as compared with 62,812 in the corresponding period of the previous year, being 9,903 more, or an increase of 15.8 per cent.

(iii) *Grains and pulses.*—In the same period 529,374 wagons, broad and metre gauge, were loaded as compared with 477,804 in the corresponding

THE INDIAN MERCHANT SHIPPING (SECOND AMENDMENT) ACT, 1933: DATE OF ENFORCEMENT OF CERTAIN SECTIONS.

The following Notification [No. 60-M. I. (2)/34, dated the 15th December, 1934] has been issued by the Government of India in the Department of Commerce:—

In pursuance of sub-section (2) of section 1 of the Indian Merchant Shipping (Second Amendment) Act, 1933 (XXV of 1933), the Governor General in Council is pleased to appoint the 1st January 1935 as the date on which sections 2 to 19, 21 to 29, 31 and 33 to 34 of the said Act shall come into force,

THE CONTROLLER OF INSPECTION, CALCUTTA INSPECTION CIRCLE (INDIAN STORES DEPARTMENT), CALCUTTA, APPOINTED AS COLLECTOR FOR THE PURPOSES OF THE STEEL INGOTS (EXCISE DUTY) ORDER, 1934.

The following Notification (No. 42-Central Excises, dated the 15th December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In pursuance of Sub-rule (2) of rule 2 of the Steel Ingots (Excise Duty) Order, 1934, the Governor-General in Council is pleased to appoint the Controller of Inspection, Calcutta Inspection Circle (Indian Stores Department), Calcutta, as a Collector for the purposes of that Order.

SUGAR (EXCISE DUTY) ORDER, 1934: EXEMPTION FROM DUTY ON SUGAR PRODUCED FOR DEMONSTRATION PURPOSES IN THE BENGAL GOVERNMENT SUGAR FACTORY AT RAJSHAHI.

The following Notification (No. 43-Central Excises, dated the 15th December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In pursuance of Clause 10 of the Sugar (Excise Duty) Order, 1934, the Governor-General in Council is pleased to exempt from the payment of the duty leviable under the Sugar (Excise Duty) Act, 1934 (XIV of 1934) sugar produced for demonstration purposes in the Bengal Government Sugar Factory at Rajshahi.

SUGAR (EXCISE DUTY) ORDER, 1934: FURTHER AMENDMENT.

The following Notification (No. 44-Central Excises, dated the 15th December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by sections 10 and 11 of the Sugar (Excise Duty) Act, 1934 (XIV of 1934) the Governor-General in Council is pleased to direct that the following further amendment shall be made in the Sugar (Excise Duty) Order, 1934, namely:—

In rule 6 of the said Order the following shall be added, namely:—

"less any amount or amounts that may have been paid, before the return is submitted, into an approved treasury or approved treasuries elsewhere, provided that evidence of such payment or payments shall be presented to the Collector within 14 days of the close of the month to which the return relates."

UNITED KINGDOM.

THE IMPORT DUTIES (DRAWBACK) (No. 21) ORDER, 1934.

DRAWBACK ON LINSEED OIL.

The following is the text of the Import Duties (Drawback) (No. 21) Order, 1934, dated November 21, 1934, made by the Treasury under section nine of the Finance Act, 1932 (22 and 23 Geo. 5. c. 25):—

Whereas under section nine of the Finance Act, 1932, the Treasury have power, after consultation with the appropriate Department, by order to approve a scheme submitted to them under the said section by the Import Duties Advisory Committee for the allowance of drawback as respects duties chargeable under Part I of the Import Duties Act, 1932, (22-3 G. 5. c. 8), in respect of any materials of a class or description used in the manufacture of goods of any class or description manufactured in, and exported or shipped as stores from, the United Kingdom, and it is provided by the said section that the Treasury shall not approve any such scheme unless satisfied that, having regard to the matters therein mentioned, it is in the national interest that drawback should be allowed as provided by the scheme:

And whereas by sub-section (5) of section one of, and the Second Schedule to, the Ottawa Agreements Act, 1932 (22-3 G. 5. c. 53) it is provided that the said section nine shall have effect in relation to goods chargeable with a duty of customs under section one of that Act as it has effect in relation to goods chargeable with a duty of customs under the Import Duties Act, 1932:

And whereas the Committee have submitted to the Treasury under the said section nine the schemes set out in the Schedule to this Order:

And whereas the Treasury consulted with the appropriate Department and are satisfied that, having regard to the matters aforesaid, it is in the national interest that drawback should be allowed as provided by the said schemes:

Now, therefore, the Lords Commissioners of His Majesty's Treasury, by virtue of the power conferred on them by section nine of the Finance Act, 1932, and of all other powers enabling them in that behalf, hereby make the following Order:—

1. *Approval of schemes.*—The schemes set out in the Schedule to this Order are hereby approved.

2. *Short title, interpretation and commencement.*—(1) This Order may be cited as the Import Duties (Drawback) (No. 21) Order, 1934.

(2) The Interpretation Act, 1889 (52-3 V. c. 63) applies to the interpretation of this Order as it applies to the interpretation of an Act of Parliament.

(3) This Order shall come into operation on the 22nd day of November, 1934.

Dated this 21st day of November, 1934.

Austin Hudson,

Walter J. Womersley,

Two of the Lords Commissioners of His Majesty's Treasury.

SCHEDULE.

SCHEME I.

1. Subject to the provisions of this scheme, drawback as respects duties chargeable under section one of the Ottawa Agreements Act, 1932, shall be allowed in the case of linseed oil manufactured in the United Kingdom and exported or shipped as stores therefrom either unmixed or in the form of an ingredient of any of the prescribed goods, in respect of linseed used in the manufacture of such linseed oil.

2. Subject to the provisions of sub-section (4) of section nine of the Finance Act, 1932, the drawback shall be allowed in respect of the average quantity of linseed used by manufacturers generally in the manufacture of such linseed oil, that is to say $3\frac{1}{2}$ tons of linseed to every ton of linseed oil.

3. The rate of drawback shall be 18s. for every ton of linseed.

4. In the case of fractions of a ton, the quantity of linseed and the amount of drawback shall be calculated proportionately.

5. The drawback shall not be allowed in respect of linseed imported before the twenty-second day of May, 1933.

6. In this scheme the expression "the prescribed goods" means the following goods, that is to say:—

- paint;
- enamel;
- varnish;
- printers' inks;
- putty;
- mixed oils, being mixtures of linseed oil and other oils, with or without the addition of driers or of rosin or of both;
- mixtures of linseed oil and driers.

SCHEME II.

1. Subject to the provisions of this scheme, drawback as respects duties chargeable under section one of the Ottawa Agreements Act, 1932, and Part I of the Import Duties Act, 1932, or under either of those enactments, shall be allowed in the case of the following goods, that is to say:—

- the prescribed goods;
- linseed oil, refined or heat-treated, or both refined and heat-treated, in respect of linseed oil used in the manufacture thereof.

2. Subject to the provisions of sub-section (4) of section nine of the Finance Act, 1932, the drawback shall be allowed in respect of the quantity of linseed oil actually contained in the goods.

3. The rate of drawback shall be 60s. for every ton of linseed oil.

4. In the case of fractions of a ton, the amount of drawback shall be calculated proportionately.

5. The drawback shall not be allowed in respect of linseed oil imported before the twenty-second day of May, 1933.

6. In this scheme the expression "the prescribed goods" has the same meaning as in Scheme I of this schedule.

SCHEME III.

1. Subject to the provisions of this scheme, drawback as respects duties chargeable under section one of the Ottawa Agreements Act, 1932, shall be allowed in the case of goods of the classes or descriptions specified in the first column of the Table annexed to this scheme in respect of linseed used in the manufacture thereof.

2. Subject to the provisions of sub-section (4) of section nine of the Finance Act, 1932, the drawback shall be allowed in respect of the average quantity of linseed used by manufacturers generally in the manufacture of goods of the said classes or descriptions respectively, that is to say, to every ton of goods of a class or description specified in the first column of the Table annexed to this scheme the quantity of linseed specified in the second column of the said Table in relation to that class or description of goods.

3. The rate of drawback shall be 18s. for every ton of linseed.

4. In the case of fractions of a ton the quantity of linseed and the amount of drawback shall be calculated proportionately.

5. The drawback shall not be allowed in respect of linseed imported before the twenty-second day of May, 1933.

The annexed table above referred to.

Class or description of goods in the case of which drawback is to be allowed.	Average quantity of linseed used in manufacture.
Printed Linoleum and Floorcloth	1,726 lbs. per ton.
Linoleum, other than printed	2,163 lbs. per ton.
Cork Carpets	3,176 lbs. per ton.
Felt Base	400 lbs. per ton.
Cellulose Plastic Flooring	1,456 lbs. per ton.
Fishing Nets	3,280 lbs. per ton.
Oil Balze	2,303 lbs. per ton.
Leathercloth	2,600 lbs. per ton.

SCHEME IV.

1. Subject to the provisions of this scheme, drawback as respects duties chargeable under section one

of the Ottawa Agreements Act, 1932, and Part I of the Import Duties Act, 1932, or under either of those enactments, shall be allowed in the case of goods of the classes or descriptions specified in the first column of the Table annexed to this scheme in respect of linseed oil used in the manufacture thereof.

2. Subject to the provisions of sub-section (4) of section nine of the Finance Act, 1932, the drawback shall be allowed in respect of the average quantity of linseed oil used by manufacturers generally in the manufacture of goods of the said classes or descriptions respectively, that is to say, to every ton of goods of a class or description specified in the first column of the Table annexed to this scheme the quantity of linseed oil specified in the second column of the said Table in relation to that class or description of goods.

3. The rate of drawback shall be 60s. for every ton of linseed oil.

4. In the case of fractions of a ton the quantity of linseed oil and the amount of drawback shall be calculated proportionately.

5. The drawback shall not be allowed in respect of linseed oil imported before the twenty-second day of May, 1933.

The annexed table above referred to.

Class or description of goods in the case of which drawback is to be allowed.	Average quantity of linseed oil used in manufacture.
Printed Linoleum and Floorcloth	518 lbs. per ton.
Linoleum, other than printed	640 lbs. per ton.
Cork Carpets	953 lbs. per ton.
Felt Base	120 lbs. per ton.
Cellulose Plastic Flooring	437 lbs. per ton.
Fishing Nets	984 lbs. per ton.
Oil Balze	709 lbs. per ton.
Leathercloth	780 lbs. per ton.

FINLAND.

DECLARATION OF ORIGIN OF GOODS.

The Board of Trade Journal has received from H. M. Representative at Helsingfors particulars of a Decree, dated October 10, 1931, which renders obligatory the declaration of the country of purchase, sale, origin and consumption of goods imported into Finland or exported therefrom, as well as a statement of their value.

A translation of the text of the Decree, which enters into force on January 1, 1935, is given below :—

DECREE RELATING TO THE INDICATION OF THE COUNTRY OF PURCHASE, SALE, ORIGIN AND CONSUMPTION AND VALUE IN THE IMPORTATION OR EXPORTATION OF MERCHANDISE.

Para. 1.

A declaration shall be made for statistical purposes, in accordance with previous legislation for all

goods imported into Finland or exported from Finland, stating the country of purchase and the country of origin or the country of sale and destination as well as the value of the goods.

Para. 2.

As the country of purchase shall be stated the country where the goods were bought, or, in the case of goods not purchased, the country from which the goods were despatched either directly or via another country for sale or other purpose, and as the country of sale shall be meant the country to which the goods were sold, or, in the case of unsold goods, the country for which the goods are ultimately destined for sale or other purpose.

As country of origin shall be stated, in the case of natural produce, the country where the goods were produced, and in the case of industrial products, the country where the goods have been brought to the finished state, in which they are imported into this country. If the country of origin is not known, that country (country of despatch) shall be stated from which the goods were originally shipped to Finland with or without transshipment *en route*.

As country of consumption shall be stated the country where the goods are intended to be used, or where they undergo transformation, repair or completion. If the country of consumption is not known, the country (country of destination) to which the goods are despatched, with or without transshipment of the goods, shall be stated.

Repacking, re-sorting or blending shall not be regarded as finishing, unless the goods by such treatment became classifiable under another item of the trade statistical headings.

Para. 3.

As value of the goods shall be stated the price of the goods at the border. Consequently the purchase price, or, in the case of goods not purchased, the market price at the place of shipment, with an addition in either case of the cost of freight, insurance and other charges incurred until the goods have arrived at the Finnish port or border (c.i.f.) shall be given as the value of the goods in the case of imports, and the price of sale, or, if unsold goods, the market price at the place of sale, adding in either case the cost of freight and other costs in Finland (f.o.b.), shall be given in case of exports.

The statement of value indicated above does not apply in the case of goods dutiable on an *ad valorem* basis. The value of such goods must be given in the manner especially prescribed therefor.

Para. 4.

Should the holder of the goods be unable at the time of Customs entry to state the separate value

of each kind of goods, he shall without prejudice be entitled to clear the goods against a written assurance to supply within a comparatively short period, to be fixed by the Customs Administration, the prescribed statement of value. Similarly in the case of exports the holder of the goods shall be entitled, within a stipulated period of time after exportation, to state the value of the goods.

Para. 5.

Any owner of goods, who either intentionally or through carelessness gives wrong information for the statistical purposes to which this enactment refers, shall be punishable by fine equivalent to not less than ten days and not more than 20 days' imprisonment.

Any owner of goods who fails, within the period stipulated by the Customs administration, to provide a statement of the value of goods, shall be punishable by fine equivalent to not more than ten days' imprisonment.

Helsingfors, October 19, 1931.

FRANCE.

INCREASED DUTIES ON BARLEY AND MALT: WITHDRAWAL OF LICENCE TAXES.

The French "Journal Officiel" of November 3 contains a Decree, dated November 2, which increases the Customs duties on barley and malt, and raises a new Tariff heading in respect of malt extracts. For purposes of comparison the former and new duties under the "Minimum" Tariff are given below :—

Tariff No. and Article.	"Minimum" Tariff Duties.	
	Former.	New.
70 Barley :—		
In the grain	Frs. per 100 kilogs.	
Crushed grain and bran meal containing more than 10 per cent of meal.	15* 22-50*	40* 59*
Meal	25*	66-50*
74 Malt (germinated barley) :—		
Whole	40	75
Flour	60	125
74 bis Malt extracts (New item)	Not specified	350

* Plus a special tax of 2 fr. per 100 kilogs., imposed to raise funds for the defence of the wheat market.

Goods of the above kinds proved to have been sent to France before November 3 will be admitted at the former rates of duty if declared for consumption without having been warehoused.

A further Decree of the same date provides, however, for the withdrawal as from November 3 of the licence taxes hitherto paid by persons importing barley and malt into France (except Saar) and

Algeria under licence or quota certificate, which were as follows :—

Barley in the grain . . .	25 frs. per 100 kilogs.
Barley in crushed grain, etc. . .	35 frs. per 100 kilogs.
Barley meal . . .	40 frs. per 100 kilogs.
Whole malt . . .	35 frs. per 100 kilogs.
Malt flour . . .	65 frs. per 100 kilogs.

DUTIES IMPOSED ON WOOLGREASE AND WOOL- GREASE OLEINS.

The French "Journal Officiel" of November 7 contains a Decree, dated November 6, instituting the following Customs duties ("Minimum" Tariff rates only are shown), viz.:—Unpurified woolgrease—25 francs per 100 kilogs.; Woolgrease oleins containing more than 50 per cent of saponifiable material and having at the same time an index of saponification equal to or greater than 100 and an index of acidity equal to or greater than 70—30 frs. per 100 kilogs.

These goods were previously free of duty; when proved to have been sent direct to France before November 7 they will be admitted duty-free if declared for consumption without having been warehoused.

NIGERIA.

CERTIFICATES OF VALUE AND OF ORIGIN.

With reference to the notice in the *Board of Trade Journal* of October 4 the Board of Trade have now received a copy of Regulation No. 27 of 1934, dated October 1, which provides for cancellation of Forms 39, 39A and 39B and the substitution of the following revised Form 39 :

CUSTOMS FORM 39.

Certificate of Value and of Origin.

I (i) _____ of (iii) _____ manufacturer/
supplier of the goods specified† in this invoice amount-
ing to _____ hereby declared that I
(iv) have the authority to make and sign this
certificate on behalf of the said manufacturer/
supplier and that I have the means of knowing
and do hereby certify as follows :—

1. That this invoice is in all respects correct and contains a true and full statement of the price actually paid or to be paid for the said goods, and the actual quantity thereof.

2. That no arrangement or understanding affecting the purchase price of the said goods has been or will be made or entered into between the exporter and purchaser, or by anyone on behalf of either of them, either by way of discount, rebate, compensation or

* The person making the declaration should be a principal or a manager, chief clerk, secretary or responsible employee.
† The word "supplier" may be interpreted as including the actual exporter or consignor of the goods to Nigeria.

in any manner whatever other than as fully shown in this invoice, or as follows (v).

3. ‡ (a) That the country of origin of all the goods mentioned in this invoice is (vi).

‡ (b) That the countries of origin of the goods mentioned in this invoice are as declared in the appropriate column of the invoice.

Dated at _____ this _____ day of _____, 19 ____
(Signature of Witness.) (Signature.)

- (i) Here insert manager, chief clerk, or as the case may be.
- (ii) Here insert name of firm or company.
- (iii) Here insert name of city or country.
- (iv) These words should be omitted when the manufacturer or supplier himself signs the certificate.
- (v) Here insert particulars of any special agreement.
- (vi) Insert name of country.

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference :—

22nd November, 1934.

BRITISH EMPIRE—

UNITED KINGDOM.—Import Duties (Exemptions) (No. 13) Order, 1934 : Bleached Straw Pulp.
CANADA.—Export of Hay and Straw Restricted.

ITALY.—Import Quotas.

MANCHURIA.—Revision of Customs Tariff.

PARAGUAY.—Import Duties Increased.

ROUMANIA.—Import, Export and Exchange Control.

TURKEY.—Quota for Cotton Tissues.

YUGOSLAVIA.—Amended Rates on Turnover Tax.

UNITED STATES OF AMERICA.—Processing and Compensating Taxes on Imported Peanuts. Importation of Sugar Quota Regulations.

WEATHER AND CROP REPORTS.

BENGAL.

17th December.

During the week the rainfall was generally light to moderate while there were heavy showers in places. Sowing of spring crops is nearly finished. Harvesting of winter paddy is proceeding but operation is somewhat affected by the recent rainfall. Prospects of standing crops are generally fair.

ASSAM.

17th December.

During the week the weather was seasonable. The outturn and prospects of crops are generally fair.

BIHAR AND ORISSA.

11th December.

During the week under report light rain fell in Purnea, the Santal Parganas, Balasore, Puri, Sambalpur, Singhbhum and in parts of Bhagalpur. There was no rain in the rest of the province. The condition of standing crops including sugarcane is generally good. Prospects of winter rice are, on the whole, fair. Harvesting of winter paddy is in progress in most districts. Harvesting and pressing of sugarcane are going on. Sowing of *rabi* crops is nearing completion. Sowing of *dabua* paddy continues in Cuttack.

CENTRAL PROVINCES.

8th December.

During the week the weather was clear and cool with occasional passing clouds. Harvesting of *khari* crops and threshing of rice continue. Picking of cotton, though late, is in progress and the number of cotton cart arrivals in the markets is still low. In Nagpur, Wardha and the Harda *tahsil* of the Hoshangabad district the cotton plants are reported to be deteriorating. In parts of Akola, Amraoti and Yeotmal, the crop is reported to have been affected in places by pink coloured scale insects locally termed as *chikla*. The standing *khari* crops are otherwise in good condition. Sowing of *rabi* crops is nearly over. Germination is satisfactory and the growing plants are in healthy condition.

MADRAS.

8th December.

During the week there were light showers in the southern half of the Presidency. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts. The condition of standing crops is generally fair, except in parts of the Deccan where the crops have been adversely affected for want of rain.

PUNJAB.

10th December.

During the week the weather was dry. Rain is badly wanted. Condition of standing crops is

generally average on irrigated and below average on unirrigated areas. Sugarcane is being damaged by pyrilla in Hoshiarpur, Jullundur and Ludhiana. The pest is widespread but no control measures can be effective at this late stage. Boll worm and *tela* are reported to have damaged cotton in parts of Multan.

GENERAL WEATHER SUMMARY.

During the week ended Tuesday last weather conditions in India were affected by the western disturbance over the extreme north which caused nearly general rain in the North-West Frontier Province and Baluchistan on one or two days. Rainfall was also widespread along and near the North-West Frontier, the Punjab, Kumaon Hills and in Kashmir on several days while scattered showers also occurred in south-east Madras almost throughout the week. Elsewhere the weather was dry.

INTERMEDIATE CROP REPORTS.

THIRD INTERMEDIATE REPORT ON THE SUGARCANE CROP, 1934-35.

Bengal.

Since the issue of the last report weather conditions have continued to be generally favourable for the crop. The estimate of condition is anticipated to be 82 per cent of the normal.

Bihar and Orissa.

The outturn of the sugarcane crop is now estimated at 87½ per cent in north Bihar. The condition factor for the whole province comes to 92 per cent of the ten years' average, against 93 per cent reported in the second forecast.

Bombay.

Since the issue of the last report the crop is reported to be doing well almost all over the Presidency and is expected to give normal yield, except in parts of Karnatak where it has suffered due to deficient moisture, and though somewhat improved under October-November rains it may yield below normal. In Sind the crop has done well everywhere and is being harvested.

Madras.

The sugarcane crop was affected to some extent by drought in Bellary, Anantapur and Salem. The rains received towards the end of October and the beginning of November have lodged the crop in parts of the Cuddapah *tahsil*. The condition of the crop is satisfactory in the other districts and the yield is expected to be normal if the season continues to be favourable.

Punjab.

Owing to scarcity of rains and damage by insect pests the condition of sugarcane for 1934 may be reduced from 86 to 84 per cent of the normal.

United Provinces.

There has been no marked change in the outturn reported previously. There are indications, however, that the quality of cane in the western districts is very much below than that usually at this season. This is largely to be attributed to pyrilla which has caused extensive damage over this particular tract. The total yield will probably lie between 80 to 85 per cent of the normal.

CROP FORECAST.

(FOREIGN)

UNITED STATES' WHEAT AND LINSEED CROPS.

According to a cable dated the 18th December, 1934, received from the United States Department of Agriculture, Washington, the area and yield of the wheat and the linseed crops of the United States of America for 1934 are now estimated at 42 million acres and 496 million bushels (or 13.3 million tons) for wheat and 1 million acres and 5.3 million bushels (or 0.13 million tons) for linseed. The final estimates for last year were 47.5 million acres and 528 million bushels (or 14.1 million tons) for wheat and 1.3 million acres and 6.8 million bushels (or 0.17 million tons) for linseed.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

ADVERTISED TENDERS OF THE INDIAN STORES DEPARTMENT.

In order to enable supplying firms to determine whether they are in a position to submit tenders in connection with any demand advertised by the Indian Stores Department, the following arrangement has been introduced:—

A copy of each advertised tender will, on publication, or as soon as possible thereafter, be exhibited in the following offices for perusal by the representatives of supplying firms who may be interested:—

Controller of Purchase,
Calcutta Circle,
6, Esplanade East, Calcutta.

Controller of Purchase,
Bombay Circle,
Hararwalla Buildings,
Ballard Estate, Bombay.

Controller of Purchase,
Karachi Circle,
'Sat Saroop' Building,
Victoria Road, Karachi.

Inspector-in-Charge,
Upper India Circle, Atter Singh Building,
The Mall, Lahore.

Inspector-in-Charge,
Madras Inspection Branch,
Old High Court Building,
Madras.

Inspector-in-Charge,
Cawnpore Inspection Branch,
254, Nawabganj, Cawnpore.

For
Textile
stores
only.

INDIAN STORES DEPARTMENT.

OFFICE OF THE CHIEF CONTROLLER OF STORES.

Punctual Compliance with Orders and Prompt Submission of Bills.

The attention of all firms with whom orders are placed by the Indian Stores Department is drawn to the necessity for punctual compliance with orders and the prompt submission of bills. Supplies must be arranged within the delivery terms stipulated and bills must be submitted as soon as stores are despatched.

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from:—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Wittet Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsaroop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

System of Payment for Stores Purchased and Inspected by the Indian Stores Department.

With a view to simplify the procedure and expedite payments, it has been decided that, with effect from the 1st April, 1935, bills for the full value of stores (known as 100 per cent bills) shall not pass through the Inspectorates of the Indian Stores Department, as at present, but will be submitted direct to consignees in triplicate (or in quadruplicate in the case of supplies to Ordnance Factories, for which five copies are required at present), supported by a copy of the Inspection Certificate, and the Docket form (I. S. D. 7D), which has been introduced to check delays. The consignees

will forward, after verification, the original and duplicate copies of the bills to the Audit Officer, Indian Stores Department, for audit and payment.

The certificate in respect of stores having been tendered by the firms within the time stipulated in the order, or extended by competent authority, at present recorded by the Inspectorates on bills will, in future, be included in Inspection Certificates and incorporated therefrom in bills by the consignees.

2. Advance payment (80 per cent or 90 per cent) bills which do not pass through consignees will continue to be submitted to Inspectorates and final 10 per cent bills to consignees as at present. The procedure in regard to these bills will remain unaltered.

3. In special cases in which a part (80 per cent) payment is made in advance, and the final 20 per cent on final inspection and tests at site, the final 20 per cent bills will also continue to be submitted to Inspectorates as at present.

INDIAN STORES DEPARTMENT.

Supply of Charpoys.

The Chief Controller of Stores, Indian Stores Department (Miscellaneous Section), New Delhi, invites tenders for the stores detailed below.

Price of tender forms, etc., is Rs. 8-8 per set of two copies (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. ARMY HEADQUARTERS, INDIA.

OFFICE OF THE DIRECTOR OF CONTRACTS.

Supply of Metal Polish.

Tenders are invited for the supply of Metal Polish, liquid, required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order, on the coupon of which the number of the tender (No. P/O-278), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 22nd January, 1935, inclusive.

Tenderers, whose names are not already on the Director of Contracts' list of approved contractors, must state in their applications for tender forms the name of their Bankers.

ARMY HEADQUARTERS, INDIA.

OFFICE OF THE DIRECTOR OF CONTRACTS.

Supply of Oxygen Gas.

Tenders are invited for the supply of Oxygen Gas, required for the Army during the period 1st May, 1935, to 30th April, 1936.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order on the coupon of which the number of the tender (No. P/R. C.-84), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 14th January, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

GOVERNMENT MEDICAL STORE DEPOT, CALCUTTA.

Supply of Medical Stores and Sundries.

Sealed tenders, in duplicate, will be received by the Officer-in-Charge, Medical Store Depot, 9, Clyde Row, Hastings, Calcutta, up to 12 noon on the 15th January, 1935, for the supply of local articles (Medical Stores and Sundries) for the period from 1st April, 1935, to 31st March, 1936.

Tenders will be considered only when received on the printed forms, which can be obtained on application from the office of the Government Medical Store Depot, Calcutta, up to 9th January, 1935, accompanied by a fee of Rs. 3 in cash. Tenders must bear the address and signature of the tenderers in full. A list of articles required will be supplied with the tender forms.

Further particulars may be had on application to the Officer-in-Charge, Medical Store Depot, 9, Clyde Row, Hastings, Calcutta.

GOVERNMENT MEDICAL STORE DEPOT, RANGOON.

Supply of Medical and Miscellaneous Stores.

Sealed tenders, in duplicate, will be received by the Officer-in-Charge, Medical Store Depot, Rangoon Cantonment, up to 12 noon on Tuesday, the 15th January, 1935, for the supply of Medical and Miscellaneous Stores to the Government Medical Store

Depôt, Rangoon Cantonment, for the year 1935-36 in quantities noted against each in the Schedule.

The tenders will be opened at that hour in the presence of tenderer who may choose to attend.

Forms of tenders and schedule of stores may be obtained from the office of the Medical Store Depôt, Rangoon, on payment of Rs. 2 per set of forms, in duplicate, and Re. 1 extra for a spare form, if necessary, on application in writing.

The tenderers must deposit in the nearest Government Treasury earnest money at the rate of two per cent on the total value of tender (Schedule) and produce the Treasury Receipt with the tender, and in no case shall the amount of the earnest money be less than Rs. 25.

Tenders may either be placed by the tenderers in the box kept in the verandah of the Depôt for that purpose or handed over to the Officer-in-Charge personally.

All covers containing tenders should be addressed to the Officer-in-Charge, Government Medical Store Depôt, 57, Newlyn Road, Rangoon Cantonment, and not by name.

The Officer-in-Charge, Medical Store Depôt, Rangoon Cantonment, does not bind himself to accept the lowest or any tender.

INDIAN SOFT COKE CESS COMMITTEE

Supply of Printed Matters, etc.

Tenders are invited for the supply of the following articles required by the Indian Soft Coke Cess Committee for 12 months commencing from January, 1935:—

- (1) *Printed matter*.—Various kinds of forms, handbills, pamphlets, books, etc., in different languages. Samples of Forms, etc., may be seen at the Office of the Committee during office hours. The rates per 1,000 copies for each kind of work should be quoted and these should include the cost of paper and blocks, etc., and delivered free to the Committee's Office.
- (2) *Wall Posters*.—Attractive poster designs showing advantages of Soft Coke as a domestic fuel over other kinds of fuel such as wood, charcoal, etc., posters are required in different languages. The rates per 1,000 copies should be quoted delivered free to the Committee's office. Size offered should be stated and sketches of design submitted.
- (3) *Calendars*.—Best design Calendars for the year 1935 showing advantages of Soft Coke as a domestic fuel over other kinds of fuel. Government and Public holidays should be shown in the Calendar. Rates per 1,000 copies should be quoted delivered free to the Committee's office. Sketches of design should be submitted.

Delivery orders for the articles will be sent from time to time during the year as required by the Committee.

Tenders from *bonafide* printing houses or recognised Managing Agents only will be considered. Tenders should be addressed to the Secretary, Indian Soft Coke Cess Committee, in sealed covers superscribed "Tender for Printed Matters" and will be received in the Office of the Committee at No. 1, Council House Street, Calcutta, up to forenoon of the 28th December, 1934.

The Committee reserve the right to reject any tender without assigning a reason and do not bind themselves to accept the lowest or any tender.

BURMA RAILWAYS.

Supply of Country Stores.

Tenders will be received at the Office of the Agent, Burma Railways, Rangoon, up to noon on Thursday, the 31st January, 1935, for the supply of Country Stores required during the official year 1935-36.

Tenders should be forwarded in covers sealed and superscribed "Tender for the Supply of Country Stores, 1935-36" and be accompanied by a receipt from the Chief Accounts Officer, Burma Railways, Rangoon, for the amount of deposit required (*vide* para. 5 of the "Notes for the Guidance of Tenderers").

The Agent does not bind himself to accept the lowest or any tender, or assign reasons for rejection.

Tender forms should be obtained from the Office of the Superintendent of Stores, Burma Railways, Rangoon, on payment of Rs. 2 per copy.

Postage stamps and telegraphic tenders will not be accepted.

EAST INDIAN RAILWAY.

Annual Contract Items and Special Items Costing Rs. 5,000 to Rs. 8,000.

Supply of Brass and Coppers.

Sealed tenders are invited for the following and will be received in the Controller of Stores' office, East Indian Railway, 105, Clive Street, Calcutta, up to 12 o'clock noon on the 3rd January, 1935.

Tender No. S/SP/Gb. 4/202/QI/C.—For the supply of Brass and Coppers of descriptions and sizes.

Tender forms, and full particulars, can be had from the Controller of Stores' office, 105, Clive Street, Calcutta, on payment of Rs. 2 per copy to the Treasurer, East Indian Railway, 105, Clive Street, Calcutta, and on production of his receipt when applying for the same. No refund of this payment is permissible. Firms outside Calcutta may, however, remit the amount to the Controller of Stores, direct, by Money Order.

EAST INDIAN RAILWAY.

Supply of Hydraulic Press.

Sealed tenders are invited for the following and will be received in the Agent's office, 105, Clive Street, Calcutta, up to noon on the 8th January, 1935.

Tender No. S/NS/A/4669.—For the supply of Hydraulic Four Column Press.

Tender form can be had from the Controller of Stores, E. I. Railway, Calcutta, on payment of Rs. 2 (not refundable) per copy, to the Treasurer, E. I. Railway, 105, Clive Street, Calcutta, and on production of his receipt with the firm's application.

Firms outside Calcutta may, however, remit the amount to the Controller of Stores, E. I. Railway, Calcutta, direct, by Money Order.

Sealed tenders delivered by hand should be presented for registration in the Agent's office and then put into the Tender Box outside the Deputy Agent's (Works) room by the tenderer or his representative.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Jointing High Pressure Graphited Sheets.

Tenders are invited by the Controller of Stores, Eastern Bengal Railway, Calcutta, for 15½ cwt. Jointing High Pressure Graphited Sheets, 1½", on a Running Contract basis for the period 1st February, 1935, to 31st October, 1935.

Necessary tender documents may be obtained from the "Stores' Information Bureau", No. 3, Koilaghat Street (Bankshall Street-end), Calcutta, on payment of Re. 1 per set.

Tenders will be opened at 2 p.m. (Calcutta time) on the 4th January, 1935.

EASTERN GROUP—SLEEPER CONTROL.

Supply of Sal Bridge and Crossing Sleepers.

Sealed tenders are invited for the supply of 20,600 Sal Bridge and Crossing Sleepers between the 1st April and the 31st December, 1935.

Tender forms, detailing sizes, and other particulars, can be obtained from the Sleeper Control Officer, Eastern Group, B.-N. Railway House, Kidderpore, Calcutta, on payment of Rs. 5, which will not be refunded.

Tenders will be received up to 3 p.m. (Calcutta Time) on the 8th January, 1935, when the Tender Box will be opened and rates announced to tenderers present.

The Sleeper Control Officer does not bind himself to accept the lowest or any tender, nor to assign any reason for the non-acceptance of a tender, and also reserves the right to accept the whole or any part of a tender.

EASTERN GROUP—SLEEPER CONTROL.

Supply of First Class Sal Sleepers.

Sealed tenders are hereby invited for the supply of the undernoted additional quantities of First Class Sal Wood Track Sleepers required during the financial year 1935-36:—

1,88,000 Broad Gauge.

3,44,450 Metre Gauge.

20,000 (Light) Narrow Gauge.

The above quantities are approximate and are subject to variation *plus* or *minus* ten per cent at the option of the Sleeper Control Officer, B.-N. Railway House, Kidderpore.

Delivery is required progressively between the 1st April, 1935, and 31st January, 1936, unless otherwise stated in the conditions of tender.

Tenderers must deposit Rs. 100 as earnest money with the Chief Auditor, B.-N. Railway House, Kidderpore, Calcutta, and the receipt for same must accompany the tender.

Sets of tender forms (consisting of 1 conditions of tender, 1 agreement form, 1 tender form and 1 cover) can be obtained from the Sleeper Control Officer, B.-N. Railway House, Kidderpore, on payment of Rs. 10 per set, which will not be refunded.

Tenderers failing to comply strictly with all the conditions and instructions laid down will render their tenders null and void, as will tenderers submitting tenders in any other than the prescribed form.

Tenders will be received in the Tender Box of the Sleeper Control Officer, B.-N. Railway House, Kidderpore, during office hours, up to 3 p.m. (Calcutta Time), on 15th January, 1935, which will then be opened and rates announced in the presence of tenderers.

The Sleeper Control Officer, B.-N. Railway House, Kidderpore, does not bind himself to accept the lowest or any tender not to assign any reason for the non-acceptance of a tender but reserves the right to accept or reject the whole or any part of a tender.

JODHPUR RAILWAY.

Supply of Four-Wheeler Wagons, etc.

Tenders are invited for the supply of one hundred I. R. S. Covered 4-Wheeler Wagons, Type "MC." Metre Gauge. Tenders for Wheels and Axles and Vacuum Brake equipment may be submitted separately.

Schedules, specifications and general conditions of contract may be had on application to the Controller of Stores, Jodhpur Railway, Jodhpur.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Cess Work in connection with Stone Ballasting 40 Miles on Guntur—Macherla Railway.

The Chief Engineer, M. & S. M. Railway, Madras, invites tenders for the above work. Prescribed

forms are available till the 5th January, 1935, at the Office of the Chief Engineer, M. & S. M. Railway, Madras, at a cost of Rs. 5 (not refundable). Tenders should be sealed and superscribed as above. Closing date is the 7th January, 1935, 12 noon.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Improvements to Loco Chawls—Menials Quarters (5 Blocks of 10 units each) at Hubli.

The Chief Engineer, M. & S. M. Railway, Madras, invites tenders for the above work. Prescribed forms are available till the 5th January, 1935, at his office. Cost is Rs. 5 (not refundable.) Tenders should be sealed and superscribed as above. Closing date is the 8th January, 1935, 12 noon.

NORTH WESTERN RAILWAY.

Supply of Axle Box Bodies, Cast Steel.

Tenders are invited on a rupee basis, for the purchase by the N. W. Railway of 700 Axle Box Bodies, Cast Steel, 10 inches × 5 inches, Journal 1 inch grooves. Tenders must reach the Office of the Agent, N. W. Railway, Empress Road, Lahore, not later than 14 hours on the 11th February, 1935, and will be opened in the Office of the Controller of Stores, N. W. Railway, Lahore, at 11 A.M. on the following working day. Tender forms and other relative documents can be seen at and obtained from the Office of the Controller of Stores. The sale price of tender is Rs. 2 complete with Drawing.

SOUTH INDIAN RAILWAY.

GENERAL STORES DEPARTMENT.

Supply of Special Stores during 1935-36.

Tenders are invited and will be received by the Superintendent of Stores, South Indian Railway, Negapatam, for the supply of the articles mentioned below:—

Articles required.	Date Tenders Due.
Special stores consisting of:— Oils, such as castor, coconut, kerosene, linseed, groundnut, machinery and cutting. Country sealing wax and flax Laterite and chocolate paints, turpene and coal tar, etc. (As per Schedule A)	4th February, 1935.

The cost of a copy of the Schedule is Rs. 2 which sum should be prepaid and is not refundable nor will the Schedule be sent by V.-P. Post.

Copies of the Specification, Tender forms and other particulars can be had from the Superintendent of Stores, South Indian Railway, Negapatam.

Samples are required and must reach the Superintendent, Government Test House, Alipore, or the Superintendent of Stores, South Indian Railway, Negapatam, as required in the Schedule, by the 2nd January, 1935.

The Agent, South Indian Railway, will not consider any tender except on the Company's authorised form as aforesaid and does not bind himself to accept the lowest or any tender nor to assign any reasons for non-acceptance. He further reserves to himself the right of accepting any tender in part.

CEYLON GOVERNMENT RAILWAY.

Supply of Teak Scantlings.

Tenders are invited for the supply of Teak Scantlings to the Ceylon Government Railway—delivery to be completed at the Mechanical Engineering Workshops, Ratmalana, not later than the 28th February, 1935, in accordance with the description, specification, and conditions obtainable on application at the office of the Railway Storekeeper, Colombo.

Tenders are due at the office of the Chairman of the Tender Board, General Treasury, Post Box No. 500, Colombo, not later than 12 noon on Tuesday, the 8th January, 1935.

Tenders from non-residents of Ceylon will receive no consideration unless submitted by a duly constituted agent resident in Ceylon, specially empowered to tender for the same, to execute a valid contract in that behalf and to fulfil all the terms of the contract. In the case of local firms tendering as agents of firms outside Ceylon, the "duly constituted" agents should hold a power of attorney from their principals to enable them to enter into a contract, should their tender be accepted.

A copy of detailed tender notice and list of articles has been received and may be seen in the Commercial Library and Reading-Room at No. 1, Council House Street, Calcutta.

For further particulars application may be made to the Railway Storekeeper, Ceylon Government Railway, Colombo.

EASTERN BENGAL RAILWAY.

Sale of Saw Dust.

Tenders are invited and will be received by the Controller of Stores, E. B. Railway, Calcutta, up to 2-30 p.m. (Calcutta Time) on the 9th January, 1935, for the purchase of Saw Dust for the period of 14 months commencing from 1st February, 1935, to the 31st March, 1936. The approximate quantity that will be available will be about 6 tons per week.

Tender forms, with instruction sheet and envelope, may be obtained from the "Information Bureau" of the Controller of Stores' office, 3, Koilaghat Street (Bankshall Street-End), Calcutta, free of charge.

NOTES.

THE PRAGUE INTERNATIONAL SAMPLES FAIR, 1935—

With reference to the notice regarding the Spring Session of the above fair, published on page 3 of the *Indian Trade Journal* of the 4th October, 1934, it is notified that the dates have since been altered. The fair will be held from the 10th March to 17th March, 1935, instead of from 3rd March to 10th March, 1935. Firms wishing to participate in this fair may obtain full particulars on application to the Consul for Czechoslovakia, 34, Park Street, Calcutta.

UNITED KINGDOM IMPORT DUTIES ADVISORY COMMITTEE: PEPPERCORNS—

Under the Import Duties (Substitution) (No. 2) Order, 1934 (S. R. & O., 1934, No. 1198), which the Treasury have made on the recommendation of the Import Duties Advisory Committee, the specific rate of duty corresponding to 10 per cent *ad valorem*, on peppercorns, the fruit of *piper nigrum*, unground, is raised to 7s. 3d. per cwt., as from November 23, 1934.

The Treasury Order, together with the Recommendation of the Advisory Committee to which it gives effect, is published (Cmd. 4743) by H. M. Stationery Office, Adastral House, Kingsway London, W. C. 2.

N. B.—The text of the Order is reproduced elsewhere in this issue from the *Board of Trade Journal*, dated the 29th November, 1934.

INDIAN CENTRAL COTTON COMMITTEE.

Award of Cotton Research Studentships.

The Indian Central Cotton Committee will award in February, 1935, two Research Studentships tenable for two years from April, 1935. The Studentships are of the value of Rs. 100 per mensem during the first year and Rs. 125 per mensem during the second. One will be allotted in Botany (Cotton Breeding) and the other in Cotton Entomology if suitable applications are received.

The qualification required is an honours degree of an Indian University or its equivalent in the special subject offered. Special weight will be attached to post-graduate research and agricultural experience.

Applications must reach the Director of Agriculture of a candidate's Province or State before 10th January, 1935.

Application forms and full particulars have been supplied to all Directors of Agriculture and to Registrars of Indian Universities and may also be obtained from the Secretary, Indian Central Cotton Committee, Vulcan House, Nicol Road, Ballard Estate, Bombay. Forms will be supplied only to applicants who appear to be qualified.

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 23rd December.—Nearly general in Baluchistan on 2 days. Wide-spread rain also occurred in places. Local or a few falls elsewhere.

Crops: Madras, week ending 15th December.—Rainfall generally below normal. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts. Standing crops generally fair, except in parts of Deccan where crops adversely affected for want of rain. Bihar and Orissa, week ending 18th December.—Rain fell in parts of Saran, Bhagalpur, Purnea and Santal Parganas, moderate in parts of Santal Parganas and light elsewhere; no rain in rest of province. Standing crops including sugarcane generally good. Harvesting of winter paddy in progress in most districts and threshing commenced in some. Harvesting and pressing of sugarcane going on. Sowing of *rabi* crops nearly completed. Sowing of *dahua* paddy continues in Cuttack. Central Provinces, week ending 15th December.—Weather generally clear and cool. Picking of cotton and harvesting of *juar* and *til* in progress. Threshing of rice continues. Outturn of cotton in Hoshangabad and Wardha districts reported to be only about 8 annas. Crop reported deteriorating in Nagpur. In parts of Amraoti and Yeotmal districts cotton plants affected by disease. Young *rabi* plants thriving well but winter showers needed for growth in Hoshangabad, Betul and Chhindwara districts. Punjab, week ending 17th

December.—Light rain fell in parts of all districts, except Hissar and Gurgaon. It proved beneficial to standing crops but more rain badly wanted. Standing crops generally average on irrigated and below average on unirrigated areas. Sugarcane being damaged by pyrrilla in Hoshiarpur, Jullundur and Ludhiana.

Bombay, 20th December.—Cotton: Quiet tone during early part. Business limited and prices fluctuated in narrow range. Later market firmed up. No. 3 Fine M. G. Oomras Rs. 214½ December-January, 1935.

Calcutta, 22nd December.—Jute market firm with sellers reserved. Firsts at Rs. 30-8 for ready, but no business reported. Hessians continue steady with very small business. Nine Porters Rs. 9; Elevens Rs. 11-13 Ready. Heavies unchanged. B. Twills done at Rs. 24-9 for December delivery.

Calcutta, 21st December.—Shellac T. N. Rs. 42. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 19th December.—Specials White Rice Big Mills Rs. 165 (Old Crop-December) and Rs. 160 (New Crop-January, 1935); Small Mills Rs. 175 (Old Crop-December) and Rs. 170 (New Crop-January, 1935). 21st December.—Paddy Rs. 62 to Rs. 63 (river) and Rs. 61 to Rs. 62 (rail).

Wheat, 20th December: Lyallpur.—Rs. 2-4-3 f.o.r. per maund. Bombay, White Delhi, per cwt. railway terms Rs. 4-3 January and Rs. 4-10 May. 21st December: Karachi.—Punjab White Rs. 22-8 per candy.

Twenty seventh Tea Sale, Calcutta, 17th and 18th December.—26 thousand chests Leaf for export, and 6 thousand chests for internal consumption, average price As. 8-7 and As. 5-5, respectively, and 8 thousand chests Dust at As. 5, sold. Notwithstanding weak feeling prevailing in London and elsewhere demand quite fair. Tendency, however, for easier market and commonest kinds both Leaf and Broken, Medium Broken Pekoes, also Orange Pekoes and Pekoes easier by 3 to 6 pies per lb. Appearance of latter grades now showing customary decline and part of falling away in demand attributed to this cause. Good common Broken, however, and any good liquoring teas sold without much change. *Internal Consumption:* Strong competition for all types prices being inclined to advance, more particularly for Leaf grades having good style and any B. O. P's with tip. Dusts also met with good market and occasional small advances occurred.

Trade returns for November, 1934, in lakhs of rupees. Exports: Grain, pulse and flour 64; tea 2,47; hides, raw 7; skins, raw 27; tanned hides and skins 40; jute, raw 1,11; jute goods 2,00; seeds 67; shellac 28; raw cotton 1,53; total merchandise including re-exports 12,30. Imports: Sugar 16; iron and steel 53; machinery and millwork 1,03; cotton piecegoods 1,43; total merchandise 11,40. Net exports: Private and government, gold 5,47, silver 52.

FOREIGN TRADE OF BOMBAY IN NOVEMBER, 1934.

THE aggregate value of the foreign trade of Bombay—Imports and Exports for the month of November, 1934, amounted to Rs. 12.75 crores, showing an improvement of Rs. 3.97 crores, or 49 per cent and of Rs. 16.88 lakhs, or nearly 4 per cent over the figures for the corresponding month of the years 1933-34 and 1932-33, respectively. The improvement of Rs. 3.97 crores is due to larger shipments of treasure and to increased imports of merchandise and silver.

Imports of merchandise amounted to Rs. 4.54 crores, showing a rise of Rs. 59.19 lakhs, or 15 per cent over the figures for November, 1933, and of Rs. 5.8 lakhs, or over 1 per cent over those for November, 1932. The rise of Rs. 59.19 lakhs is chiefly due to larger arrivals of cotton piecegoods—grey and coloured (+over 12¼ million yards and +Rs. 20.88 lakhs), cotton, raw (+1,978 tons and +Rs. 18.15 lakhs), wool manufactures (+Rs. 7.02 lakhs), cotton twist and yarn (+over ½ million lbs. and +Rs. 5.85 lakhs), artificial silk piecegoods (+nearly 2 million yards and +Rs. 5.7 lakhs), metals—copper (+Rs. 5.65 lakhs), instruments, etc. (+Rs. 4.4 lakhs) and motor cars including motor wagons, cycles and parts thereof and dates (+over Rs. 3 lakhs each). On the other hand, there was a noticeable fall in the imports of silk raw and manufactures (—Rs. 9.64 lakhs) and machinery and millwork (—Rs. 8.39 lakhs). Imports of kerosene oil also recorded a fall of over 2½ million gallons in quantity and of Rs. 7.22 lakhs in value. Imports of gold amounted to Rs. 2.14 lakhs as against Rs. 2.43 lakhs and Rs. 9.03 lakhs and those of silver to Rs. 22.11 lakhs against Rs. 8.54 lakhs and Rs. 7.79 lakhs, respectively.

Exports of Indian produce amounted to Rs. 1.85 crore, showing a fall of Rs. 10.68 lakhs, or 5 per cent from the figures for November, 1933, but a rise of Rs. 4.21 lakhs, or 2 per cent over those for November, 1932. The fall of Rs. 10.68 lakhs is chiefly attributable to smaller shipments of seeds (—25,614 tons and —Rs. 30.06 lakhs), wool, raw (—nearly 1½ million lbs. and —Rs. 6.15 lakhs) and cotton twist and yarn (—over ¼ million lbs. and —Rs. 4.63 lakhs), though exports of cotton, raw were larger by 5,251 tons in quantity and by Rs. 25.44 lakhs in value. Exports of gold amounted to Rs. 5.49 crores, as against Rs. 2.53 crores and Rs. 5.71 crores and those of silver to Rs. 42.56 lakhs against Rs. 1,532 only and Rs. 3.17 lakhs, respectively.

Re-exports of foreign merchandise amounted to Rs. 24.21 lakhs, as against Rs. 23.83 lakhs and Rs. 16.67 lakhs, respectively.

The trade statistics of the first eight months of the current financial year show, in imports, an improvement of Rs. 4.16 crores, or 13 per cent over the figures for the same months of the previous

year but a deficit of Rs. 3.82 crores, or nearly 10 per cent as compared with those for the corresponding months of the year 1932-33. In exports, however, they show an advance of Rs. 2.58 crores, or 5 per cent and of Rs. 2.04 crores, or nearly 4 per cent, respectively, over the figures for the same period of the years 1933-34 and 1932-33. Imports of gold amounted to Rs. 26.18 lakhs as against Rs. 37.68 lakhs and Rs. 54.25 lakhs and those of silver to Rs. 42.5 lakhs against Rs. 32.23 lakhs and Rs. 94.19 lakhs, respectively. Imports of merchandise amounted to Rs. 34.4 crores, showing an increase of Rs. 4.19 crores, or nearly 14 per cent over the figures for the first eight months of the year 1933-34 but a fall of Rs. 3.01 crores, or 8 per cent from those for the corresponding months of the year 1932-33. The increase of Rs. 4.19 crores is spread over most of the principal articles of import, the more important being—motor cars including motor wagons, cycles and parts thereof (+Rs. 71.56 lakhs), cotton piecegoods—grey and coloured (+over 26½ million yards and +Rs. 66.24 lakhs), wool manufactures (+Rs. 42.49 lakhs), artificial silk piecegoods (+over 2½ million yards and +Rs. 41.53 lakhs), aniline yes (+Rs. 36.38 lakhs), metals and ores (+Rs. 31.9 lakhs), cotton twist and yarn (+over 2 million lbs. and +Rs. 25.73 lakhs), instruments, etc. (+Rs. 18.59 lakhs), artificial silk yarn (+2½ million lbs. and +Rs. 17.38 lakhs) and cotton, raw (+1,782 tons and +Rs. 16.71 lakhs). Imports of sugar were, however, smaller by 11,995 tons in quantity and by Rs. 12.78 lakhs in value.

Exports of gold amounted to Rs. 30.51 crores as against Rs. 30.98 crores and Rs. 37.96 crores and those of silver to Rs. 1.72 crore against Rs. 6.79 lakhs and Rs. 13.75 lakhs, respectively. Exports of Indian produce were valued at Rs. 20.02 crores showing an increase of Rs. 1.57 crore, or 8 per cent and of Rs. 7.79 crores, or nearly 64 per cent, respectively, over the figures for the same period of the years 1933-34 and 1932-33. The increase of Rs. 1.57 crore is almost entirely due to larger shipments of cotton, raw (+42,393 tons and +Rs. 2.47 crores). On the other hand, noticeable decreases were recorded in the shipments of seeds (—43,810 tons and —Rs. 69.08 lakhs), wool, raw (—nearly 6½ million lbs. and —Rs. 25.02 lakhs), cotton twist and yarn (—over 2½ million lbs. and —Rs. 14.51 lakhs) and hides and skins, tanned (—Rs. 5.68 lakhs).

Re-exports of foreign merchandise were valued at Rs. 1.28 crore as against Rs. 1.44 crore and Rs. 1.16 crore, respectively.

UNITED KINGDOM IMPORT DUTIES ADVISORY COMMITTEE: CARPETS.

The Committee announce that they have decided not to make any recommendation in respect of the application previously advertised for increases in the import duties on carpets.

COMPENSATION TRADE BETWEEN GERMANY AND OTHER COUNTRIES.

ACCORDING to information received from the Indian Government Trade Commissioner, Hamburg, the German Government have laid down certain principles with regard to business transactions on a compensation basis. A summary of which is published below for the information of firms interested in trade with Germany.

1. German merchants wishing to import foreign goods on a compensation basis must apply in the first instance for permission to the competent Import Control Office, giving full particulars of the import as well as export transaction. If the Import Control Office approves of the case, the application is passed on to the Foreign Exchange Control Office, who finally decide whether the necessary licence may be issued.

The Import Control Office is also authorised to issue a general permit to merchants who want to do future trade on a compensation basis. If the application is approved, the Control Office will fix an amount to which extent the trade on a compensation basis may be done, provided the prices for the imported foreign goods will not exceed the market prices. When the importer has completed all negotiations with the foreign exporter as well as the foreign importer direct, or indirectly through a German exporter, he must present an application with full particulars of the import/export transaction, together with the general permit, to the Foreign Exchange Control Office, which will finally grant the necessary licence.

2. (a) *Raw materials and semi-manufactured goods which were controlled before the 24th September, i.e., wool, hides and skins, jute, hemp, flax, animals and animal products, cotton, animal hair, metals, iron and steel, and cotton yarn.*

The Foreign Exchange Control Office is authorised to issue a licence for the importation of goods on a compensation basis up to the value of Rm. 500,000.—per month to one and the same firm. Transactions exceeding this amount will be referred to the Reichs Foreign Exchange Control Office in Berlin. In all cases of the above mentioned goods, the value of the exported goods need not necessarily exceed the value of the imported goods.

(b) *Other raw materials, semi-manufactured and finished goods.*

The Foreign Exchange Control Office is authorised to issue a licence in respect of the above mentioned goods, not exceeding the value of Rm. 200,000.—per month to one and the same firm. There is, however, one import stipulation which must be observed, i.e., the value of the exported goods must exceed that of the imported goods by at least 30 per cent. This 30 per cent excess of the value of the imported goods must be paid into the Reichsbank in foreign currency. There are special regulations

pertaining to subsidized exports which are applicable to compensation trade.

3. Business transactions falling under paragraph 2, sub-paragraphs (a) and (b), are also subject to the following regulations:—

(a) The German goods which are being exported must go to the country from which the foreign goods are being imported into Germany, i.e., triangular trade is not permitted. In the case of semi-manufactured and finished goods imported into Germany, the German goods being exported must go to the country in which the goods imported into Germany were mainly manufactured.

(b) German goods intended for exportation must not contain more than 20 per cent of their value of foreign materials (raw or other). Exceptions to this rule may be made provided that the value of the foreign materials used in the manufacture of such goods exceeding 20 per cent is paid into the Reichsbank in foreign currency.

(c) In order to avoid that the incomings of foreign currency accruing from German exports are not decreased as a result of business done on a compensation basis, a licence may not be granted (a) if the import and export business has already been transacted at the time when application was made for the licence and (b) if, in accordance with the laws on foreign exchange of the importing foreign country it can be reckoned with that the German exported goods will be paid for in foreign currency.

4. Compensation Trade by means of a Special Foreigner's Account in Germany.

Foreign exporters may open a so-called special foreigner's account in Germany, into which payments may be made by their German creditors in respect of goods imported into Germany on a compensation basis. Foreign firms require a special permit to hold such an account and the permit may be cancelled at any time. A German importer is allowed to make Mark payments into such accounts for certain goods, even though he may not have a permit to purchase foreign exchange. All payments in Marks into this special account require previous sanction from the competent authorities. The amount of payments in and out of the foreigner's account may be unlimited or limited to a certain amount fixed by the competent Control Office. When a German merchant wishes to make a Mark payment into this account, he will have to prove to the bank that he has actually imported foreign goods. The foreign firm may utilise the amount accumulated on his account for Mark payments of German goods

which he wishes to purchase. The German exporter has to prove that payment is actually being made for goods purchased by the holder of the foreign account for exportation. The amounts on the foreigner's account may also be used for payments of German customs duty, freight, etc., but on principle the money accumulated on this special account may only be used for payments of German goods intended for exportation to the country with which the compensation business is being transacted; no triangular trade is permitted. It should, however, be emphasised that the import as well as the export transaction requires previous sanction by the competent German authorities, which may be applied for by any one of the parties concerned.

EXTRACT FROM LINSEED CIRCULAR No. 50 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 14th December, 1934—

		£	s.	d.
Quotations for Linseed and Linseed Oil—				
Indian Linseed.—December-January	delivery c.i.f. per ton	11	13	9
Argentine Linseed.—December-January	delivery c.i.f. (excluding duty) per ton	9	11	3
Linseed Oil.—December-January deli-	very (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	18	7	6

Market Conditions.—In spite of reported damage to the Argentine crop the exportable surplus from Argentine is reported to be 10 to 20 per cent larger than last season. Enquiries for La Plata seed have somewhat subsided and are chiefly concerned with seed afloat and early December clearances. Calcutta seed is firmly held but remains out of line with the market.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 5th December, 1934—

Quotations for Linseed Oil—		
Linseed Oil, European make (Raw)	per gallon f.a.s.	Rs. 1-8-6
Linseed Oil, European make (Boiled)	per gallon f.a.s.	Rs. 1-10-6

Market Conditions.—The tone of the linseed market is very firm and prices have been higher since the last report. Shippers are buyers daily at prevailing rates, but the turnover of business is very small as sellers are very reserved and arrivals are still small.

Bombay, 8th December, 1934—

Quotations for Linseed Oil—		
Linseed Oil	per maund.	Rs. 3-6-0

Stock of Linseed.—Linseed stock in Bombay on the 8th December, 1934, was estimated at 4,000 tons.

BOOKS OF REFERENCE.

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India:—

(1) *Monthly Accounts of the Sea-borne Trade and Navigation of British India for November, 1934.* (Price Re. 1-4.) These accounts contain the particulars of the quantity and value of the principal articles of imports, re-exports and exports of merchandise, together with the figures of imports and exports of treasure and the amount of duty collected during the month of November, 1934, and the eight months April to November, 1934, as compared with the corresponding periods of the preceding two years and also the number and tonnage of vessels employed in the foreign and coasting trade of British India during the month of November, and the eight months ended November, 1932, 1933 and 1934. The total value of the import and export trade with each of the principal countries during November and the eight months ended November, 1933 and 1934, is also shown in these accounts. A table showing the declared values per unit of principal articles of imports and exports during the month of November, 1932, 1933 and 1934, is included in these accounts.

(2) *Exports of Indian Artware and Sports Goods for January, 1934.* (Price Re. 1.) This publication contains statements showing the exports of artware and sports goods of Indian manufacture from British India to foreign countries during January, and the ten months ending January, 1934, as compared with the corresponding periods of the preceding two years.

(3) *Kathiawar Trade Statistics, September, 1934.* (Price Rs. 3-2.) This publication contains statements showing (i) the foreign sea-borne trade of the maritime States in Kathiawar during the month of September, and the six months ended September, 1934, and (ii) statistics of the imports into British India from Kathiawar across the Viramgam-Dhandhuka Land Customs Line during the same periods.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

THE INDIAN MERCHANT SHIPPING (FIRE APPLIANCES) RULES, 1934.

—The Indian Merchant Shipping (Fire Appliances) Rules, 1934, are published in Part I of the *Gazette of India*, dated the 22nd December, 1934, under Notification No. 46-M. I. (6)/34, dated the 22nd December, 1934, of the Government of India in the Department of Commerce.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

DATE OF ENFORCEMENT OF INDIAN TARIFF ACT, 1934.

The following Notification [No. 139-T. (11)-Tariffs, dated the 22nd December, 1934] has been issued by the Government of India in the Department of Commerce:—

In pursuance of sub-section (3) of section 1 of the Indian Tariff Act, 1934 (XXXII of 1934), the Governor General in Council is pleased to appoint the 1st January, 1935, as the date on which the said Act shall come into force.

N.B.—The full text of the Act was published as a supplement to the *Indian Trade Journal*, dated the 11th October, 1934.

AMENDMENT IN MOTOR SPIRIT (DUTIES) ORDER, 1917.

The following Notification (No. 85-Customs, dated the 22nd December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 5 of the Motor Spirit (Duties) Act, 1917 (II of 1917), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Motor Spirit (Duties) Order, 1917, namely:—

To rule 9-A of the said Order the following further proviso shall be added, namely:—

“and provided further that the claim for drawback shall be submitted to the Customs-collector within six months from the date of shipment”.

AMENDMENT IN KEROSENE (DUTIES) ORDER, 1922.

The following Notification (No. 86-Customs, dated the 22nd December, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 5 of the Motor Spirit (Duties) Act, 1917 (II of 1917), as made applicable to the levy and collection of an excise duty on Kerosene by section 5 of the Indian Finance Act, 1922 (XII of 1922), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Kerosene (Duties) Order, 1922, namely:—

To rule 9-A of the said Order, the following further proviso shall be added, namely:—

“and provided further that the claim for drawback shall be submitted to the Customs-collector within six months from the date of shipment”.

INDIA—TURKEY.

COMMERCIAL *Modus Vivendi*.

Information has been received that the Turkish Government have denounced the Indo-Turkish *Modus Vivendi* (vide the *Indian Trade Journal* of the 30th October, 1930, page 239) as from the 22nd November, 1934. The denunciation will take effect from the 22nd February, 1935.

UNITED KINGDOM.

MERCHANDISE MARKS ACT, 1926: JUTE SACKS AND BAGS EXEMPTION DIRECTION.

The Board of Trade announce that, in pursuance of the powers conferred on them by Section 3 of the Merchandise Marks Act, 1926, they have given a Direction to the effect that the Merchandise Marks (Imported Goods) No. 10 Order, 1934, shall not apply to imported jute sacks and bags until April 1, 1935.

The text of this Direction is given below:—

THE MERCHANDISE MARKS (IMPORTED GOODS) EXEMPTION DIRECTION (No. 5), 1934, DATED NOVEMBER 28, 1934, MADE BY THE BOARD OF TRADE UNDER SECTION 3 (1) OF THE MERCHANDISE MARKS ACT, 1926 (16 AND 17 GEO. 5. C. 53).

Whereas by Section 3 sub-section (1) of the Merchandise Marks Act, 1926 (16 and 17 Geo. 5. c. 53), it is provided that if, where an Order-in-Council has been made under that Act with respect to any goods, it is shown to the satisfaction of the appropriate Department by persons appearing to the Department to have a substantial interest in the matter that the application of the provisions of the Order or of some of those provisions to any particular class or description of those goods has caused, or is likely to cause, injury or hardship to the said persons or any of them, the Department may direct that the Order, or any particular provisions of the Order, shall cease to apply to goods of that class or description or shall apply to such goods subject only to such modifications and conditions as the Department think fit, and the Order shall, while the Direction is in force, have effect subject thereto:

And whereas by Article 1 of the Merchandise Marks (Imported Goods) No. 10 Order, 1934, (a) it is (amongst other things) provided that it shall not be lawful to sell or expose for sale in the United Kingdom any imported goods of the descriptions specified in Class III of the Schedule to that Order unless they bear an indication of origin:

And whereas sacks and bags made wholly or mainly of woven piece-goods wholly or partly of jute, whether or not coated, impregnated, or in any other way treated or operated upon are included in

(a) S. R. & O. 1934 (No. 1185).

the descriptions of goods specified in Class III of the Schedule to the said Order:

And whereas by Article 6 of the said Order it is (amongst other things) provided that the said Order shall come into force so far as regards goods specified in Class III of the Schedule thereof on the 1st March 1935:

And whereas the Board of Trade, being the appropriate Department in this case, having considered representations made to them in that behalf by persons appearing to the Board to have a substantial interest in the matter, are satisfied that the application of the aforesaid provisions of Article 1 of the said Order to sacks and bags of the aforesaid descriptions prior to the first day of April, 1935, is likely to cause hardship to the said persons:

Now, therefore, the Board of Trade in pursuance of the powers conferred upon them by the said Section 3 hereby direct as follows:

1. Until the first day of April, 1935, Article 1 of the Merchandise Marks (Imported Goods) No. 10 Order, 1934, shall not apply to imported sacks and bags made wholly or mainly of woven piece-goods wholly or partly of jute, whether or not coated, impregnated, or in any other way treated or operated upon.

2. This Direction may be cited as the Merchandise Marks (Imported Goods) Exemption Direction (No. 5), 1934.

Dated this twenty-eighth day of November, 1934.

H. F. CARLILL.

A Secretary to the Board of Trade.

IMPORT DUTIES (SUBSTITUTION) (No. 2) ORDER, 1934: PEPPERCORNS.

1. By virtue of their powers under Section 16 of the Finance Act, 1933, the Lords Commissioners of His Majesty's Treasury have by Order directed that the rate of duty shown below shall be charged in lieu of the duty at present payable in the case of imported goods of the following class or description:—

Class or Description of Goods.	Rate of Duty.
Peppercorns, the fruit of <i>piper nigrum</i> , unground	7s. 3d. per cwt.

2. *Date of Operation of Order.*—The Order becomes operative in respect of imported goods of the above class or description not entered with the Customs, or delivered from bonded warehouse, before November 23, 1934.

3. *Customs and Excise Tariff.*—The Order involves an amendment of Part 3 (Import Duties Act, 1932) of the Customs and Excise Tariff.

Notice No. 339.

November 22, 1934.

Custom House,

London, E. C. 3.

AUSTRIA.

INCREASE OF LICENCE DUTY.

Information has been received that the Austrian Government has issued an order which is effective as from the 14th November, 1934, increasing the licence duty on the undermentioned items from 1 Austrian shilling per 100 kilogs. to 3 Austrian shillings.

Tariff No. and Article.

- ex 554 Animal feeding stuffs made from fish waste or meat waste.
- ex 555 Bran (with the exception of fodder meal); rice waste; malt-germs; chaff; solid residues from the manufacture of fatty oils, ground or not; distillers' wash except spirits of wine wash; swill; exhausted beet slices.

In the same order the licence duty of 3 Austrian shillings per 100 kilogs. is raised to 4 Austrian shillings on the following items:—

Tariff No. and Article.

- 25 (Note) Barley for cattle food.
- 26 Oats.
- 27 Maize.
- ex 555 (b) Fodder meal.

CEYLON.

ALTERATIONS IN THE CUSTOMS IMPORT TARIFF.

The *Ceylon Government Gazette*, No. 8093, dated the 30th November, 1934, contains the text of a Resolution under section 11 of Ordinance No. 17 of 1869, passed by the State Council at its public session on the 7th November, 1934, and duly sanctioned by H. E. the Governor of Ceylon and the Secretary of State for the Colonies, providing for alterations in the rates of import duties on goods mentioned below. The provisions of the Resolution took effect from the midnight of November 30/December 1, 1934.

	DUTY.	
	Preferential.	General.
	RS. C.	RS. C.
Rubber tyres intended for and adopted solely for use on bullock carts and either (a) fitted, on importation, to wheels of bullock carts, or (b) bearing an indelible indication that they are intended for use on wheels of bullock carts.	ad valorem	5 per cent.

THE CEYLON IMPORTATION OF TEXTILES (QUOTAS) ORDER IN COUNCIL, 1934.

The following is republished from the *Ceylon Government Gazette*, No. 8091, dated the 23rd November, 1934:—

Regulations made by the Governor under Article 10 of the Ceylon Importation of Textiles (Quotas) Order in Council, 1931.

By His Excellency's command,

THE TREASURY, H. J. HUXHAM,
Colombo, November 23, 1934. Financial Secretary.

Regulations.

1. It shall be lawful for the Collector to issue at any time a licence, in Form G of the schedule to these regulations, authorizing the reimportation of any specified quantity of any class of regulated textiles, if the fact of the exportation from the Island, and the identity, of that specified quantity are established, by proof of registration at the Customs Office prior to exportation or by any other adequate proof, to the satisfaction of the Collector.

2. Regulated textiles of any class reimported under a licence in Form G, shall not be taken into account for the purpose of determining whether any quota in respect of that class of regulated textiles have been attained.

SCHEDULE.

Form G.

The Ceylon Importation of Textiles (Quota) Order in Council, 1934.

CHINA.

INTER-PORT DUTY ON GUNNY BAGS.

The *Board of Trade Journal* has received from H. M. Commercial Counsellor at Shanghai a copy of Customs Notification No. 1387, notifying that, in accordance with Government instructions, all old foreign gunny bags, as well as all native gunny bags, old or new, will, from September 1, 1934, be exempt from the payment of inter-port duty on shipment coastwise and that native gunny bags produced in privileged factories when moved within China will likewise be exempt from payment of the single duty leviable in accordance with the rules for the duty treatment of factory products.

In the case of coastwise shipments of new foreign gunny bags for which no proof of import duty payments is forth-coming, if the Customs are not satisfied that import duty has been paid, the Re-export Application will be marked "No Proof of Duty Payment: To Pay."

Any inter-port duty collected on coastwise shipments of gunny bags on and after September 1, 1934, will be refunded at the shipper's request.

CUBA.

IMPORTATION OF JUTE SACKS.

The Cuban "Gaceta Oficial" of September 22, contains a Decree, dated September 21, and effective on the date of publication, whereby the import duties on jute sacks and burlap have been fixed as follows under the "General" Tariff :—

Tariff No. and Article.	Rate of Duty Dollars per 100 kilogs.
130 Jute sacks and burlap :—	
(a) Sacks for packing	8
(b) Jute cloth (burlap), weighing 20 kilogs. or more per 100 sq. metres, number of threads not exceeding six	8

The number of jute sacks that may be imported into Cuba between July 1, 1934, and June 30, 1935, is limited to 25,000,000, and the number of yards of burlap to 7,000,000.

Machinery falling under Tariff Nos. 216 (c) and (d), 217, 218 and 219, may be imported into Cuba during the period of one year free of Customs duty when intended for the manufacture of the above-mentioned articles.

Further particulars may be obtained from the Department of Overseas Trade, 35, Old Queen Street, London, S.W.1.

GERMANY.

MONOPOLY TAX ON MAIZE.

The following is republished from the *Board of Trade Journal*, dated the 29th November, 1934 :—

A Proclamation, dated November 16, 1934, and effective as from the same date, issued by the State

Office for Grain, Fodder and other Agricultural Products, fixes the monopoly tax (i.e., the surcharge added to the monopoly purchase price to form the monopoly selling price) on maize at 65 reichsmarks per metric ton.

ITALY.

IMPORT QUOTAS : VEGETABLE OILS.

The *Board of Trade Journal*, dated the 29th November, 1934, states that information has been received, by telegraph, from the Commercial Counsellor to H. M. Embassy at Rome that British India and Ceylon have been allotted one quintal for November and December, 1934, and 5 quintals for 1935 for unspecified vegetable oils (Tariff No. 125h).

KENYA.

CUSTOMS TARIFF MODIFICATIONS.

The *Board of Trade Journal* of the 22nd November, 1934, states that H. M. Trade Commissioner at Nairobi has forwarded to the Board of Trade a copy of the Customs Tariff (Amendment) Ordinance, 1934, assented to on October 24, which provides for certain modifications to the Kenya Customs Tariff. Items of interest to India are reproduced below :—

[Note: The wording in italics represents an addition to the Tariff description. The wording in brackets [] has been deleted from the Tariff description.]

38A Apparel and blankets :—		
(i) Blankets [cotton] . . .	Each 30 cents or 20% ad val., whichever is higher.	25 cents or 20% ad val., whichever is higher.
(ii) Boots and shoes [made principally of rubber and canvas] of which the soles are made of rubber and the uppers of canvas and/or leather.	Per pair, 40 cts. or 20% ad val., whichever is higher.	40 cts. per pair or 20% ad val., whichever is higher.
(iii) Cardigans, jerseys and pull-overs.	Each 35 cts. or 20% ad val., whichever is higher.	Each 30 cts. or 20% ad val., whichever is higher.
(iv) Shirts	Each 35 cts. or 20% ad val., whichever is higher.	Each 30 cts. or 20% ad val., whichever is higher.

PERSIA.

IMPORT QUOTAS 1934-35.

With reference to the notice under the above heading in the *Indian Trade Journal* of the 11th October, 1934 (page 166) it should be noted that the quotas published in the *Board of Trade Journal*, dated the 13th September, 1934, represent the total amounts which may be imported from all countries. The quantities allowed to be imported from countries other than Soviet Union are published in the *Board of Trade Journal*, dated the 22nd November, 1934. Items of interest to India are given below :—

No. in Quota List and Article	Quota for Economic Year ending June, 1935
10 Cotton tissues made with coloured threads, even if mercerised or figured; plushes, etc.	Rials
11 Tissues of pure wool, tissues of wool and cotton containing 70 per cent. or more of wool, alpacas, interlinings, linen tissues, etc.	Prohibited
12 Cotton shirtings, etc.	20,000,000*
16 Tea	Prohibited
19 Leather and leather goods	80,000,000
20 Bleached cotton tissues, also bleached cotton linen	800,000*
22 Cotton cloth, printed or dyed	Prohibited
30 Varnishes, lacs, seccative-oils, etc.	880,000
31 Vegetable and animal oils and fats, inedible	600,000
34 Resin and crude bitumen, eternit for roofing	200,000
38 Candles	500,000
40 Rope, cordage and twine	Prohibited
41 Boot and shoe lasts, wooden nails for footwear	100,000
42 Cochineal, artificial and animal, and unspecified natural colours (except indigo)	700,000
46 Coffee, unroasted; cocoa and chocolate	1,200,000†
52 Books and other printed matter	2,820,000
55 Goloshes	600,000
66 Chemical products	9,000,000‡
69 Cotton yarn in hanks	Prohibited
70 Sewing thread	3,080,000
74 Natural indigo	400,000

* Subject to obligatory purchase of 100 per cent of exporters' exchange at 28-28 rials to the dollar.

† Subject to obligatory purchase of 30 per cent of exporters' exchange at 28-23 rials to the dollar.

‡ Subject to obligatory purchase of 10 per cent of exporters' exchange at 28-23 rials to the dollar.

POLAND.

CUSTOMS DUTIES ON COLONIAL GOODS AND VEGETABLE OILS.

The "Dziennik Ustaw" of October 30, 1934, contains an Order, dated October 25, 1934, and effective from October 30, 1934, to March 31, 1935, which provides for specially reduced Customs duties at fixed rates on the undermentioned goods (among others) imported into Poland through Polish ports and under permit of the Minister of Finance.* Formerly these goods were admitted into Poland at reduced rates based on a percentage of the normal

* Particulars of the regulations governing the issue of permits were given in the *Indian Trade Journal* of the 21st December, 1933, pages 932-33.

Tariff No. and Article.	Rate per Duty.	
	New.	Former.
40 Piece-goods :—		
(a) Cotton, grey and unbleached, not elsewhere specified (including cloths having a drawn-thread effect by the omission of warp threads or with the addition of coloured yarn to form a heading, or with coloured yarn in the selvage).	10 cts. per sq. yd. or 20% ad val., whichever is higher.	9 cts. per sq. yd. or 20% ad val., whichever is higher.
(b) Other (including scarves, shukas, chadders, khansas, bed-spreads and the like) made of cotton or admixtures of cotton with other material not elsewhere specified.	12 cts. per sq. yd. or 20% ad val., whichever is higher.	10 cts. per sq. yd. or 20% ad val., whichever is higher.
(c) Made of silk or artificial silk or of materials containing silk or artificial silk.	20 cts. per sq. yd. or 20% ad val., whichever is higher.	See immediately below.
[This item formerly read: Made of artificial silk or admixture of artificial silk and other material.]	See immediately above.	15 cts. per sq. yd. or 20% ad val., whichever is higher.]

PALESTINE.

AMENDMENT OF INVOICE REGULATIONS.

The *Board of Trade Journal*, dated the 22nd November, 1934, states :—

The Board of Trade have received a copy of the "Palestine Gazette" of September 27, containing a copy of the Customs (Invoice) Regulations, 1934, made under section 230 of the Customs Ordinance, 1929, which amends the requirements in respect of invoices (see the *Board of Trade Journal* of August 18, 1932), by deleting Regulation 1 and substituting the following :—

1—(1) All invoices of imported goods shall state the true value of such goods and shall contain :

- a correct and full description of the goods with true numbers, weights or quantities according to the terms of the Customs Tariff Ordinance for the time being in force, and
- a statement of the country of origin of the goods.

(2) For the purposes of sub-regulation (1) hereof, the country of origin of any goods :

- in the case of primary goods shall be the country in which the goods were grown and produced, and
- in the case of manufactured articles, the country in which the manufacturing process was substantially completed.

rates (indicated in square brackets in the comparative statement below) :—

Tariff No. and Article	Former. Percentage of Normal Duty Payable.	New. Fixed Rate of Customs Duty in zlot per 100 kilogs.
76 (1) Coffee and coffee husks, raw . . .	28 [320]	90
78 (2)a Tea, not separately mentioned in the Tariff, packed in lots of over 2 kilogs . . .	60 [775]	545
82 (3) Cardamoms	664 [1,500]	1,000
82 (4) Black pepper, white pepper, English herbs, cinnamon :— (a) Not ground	35 [530]	186
(b) Ground, cut	40 [580]	235
82 (5) Cloves, clove flowers, badian, ginger, mace, nutmeg, Turkish pepper in dry pods and other spices not spe- cially mentioned in the Tariff :— (a) Not ground	32 [580]	190
(b) Ground, cut	40 [630]	255
211 (1) Solid vegetable oils at 15 deg. C., not separately mentioned in the Tariff, with a free fatty acid content of 2.5 per cent. or more	50 [50]	25

CUSTOMS DUTY ON TEA.

The "Dziennik Ustaw" of October 30, 1934, contains an Order, dated October 26, 1934, and effective as from October 30, 1934, which increases the specially reduced Customs duty under the note to Tariff No. 78(2)a on tea in packages weighing over 2 kilogs. imported into Poland through Polish ports from 600 to 630 zlot per 100 kilogs.*

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference :—

THE INDIAN MERCHANT SHIPPING (CONTROL OF WATERTIGHT OPENINGS) RULES, 1934.

—The Indian Merchant Shipping (Control of Watertight Openings) Rules, 1934, are published in Part I of the *Gazette of India*, dated the 22nd December, 1934, under Notification No. 46-M. I.(7)/34, dated the 22nd December, 1934, of the Government of India in the Department of Commerce.

WEATHER AND CROP REPORTS.

ASSAM.

24th December.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

18th December.

During the week under report rain fell in parts of Saran, Bhagalpur, Purnea and the Santal Parganas. There was no rain in the rest of the province. The fall was moderate in parts of the Santal Parganas and light elsewhere. The condition of standing crops including sugarcane is generally good. Harvesting of winter paddy is in progress in most districts and threshing has commenced in some. Harvesting and pressing of sugarcane are going on. Sowing of *rabi* crops is nearly completed. Sowing of *dalua* paddy continues in Cuttack.

CENTRAL PROVINCES.

15th December.

During the week the weather was generally clear and cool. Picking of cotton and harvesting of *juar*, *til* and *kodon-kutki* are in progress. Threshing of rice continues. The outturn of cotton in Hoshangabad and Wardha districts is reported to be only about eight annas. The report from Nagpur states that the crop is deteriorating. In parts of Amraoti and Yeotmal districts the cotton plants have been affected by a disease locally known as "chikta". No serious deterioration is, however, reported from Berar. Young *rabi* plants are thriving well but winter showers are needed for their growth in Hoshangabad, Betul and Chhindwara districts.

MADRAS.

15th December.

During the week the rainfall was generally below normal. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts. The condition of standing crops is generally fair, except in parts of the Deccan where the crops have been adversely affected for want of rain.

PUNJAB.

17th December.

During the week light rain fell in parts of all the reporting districts except Hissar and Gurgaon. It proved beneficial to standing crops but more rain is badly wanted. The condition of standing crops is generally average on irrigated, and below average on unirrigated, areas. Sugarcane is being damaged by pyrilla in Hoshiarpur, Jullundur and Ludhiana. The pest is widespread but no control measures can be effective at this late stage.

GENERAL WEATHER SUMMARY.

During the six days ending Monday last there was nearly general rain in Baluchistan on two days. Fairly widespread rain also occurred in the west

United Provinces on two days and near and along the Punjab Hills, and the east and north Punjab on one day. The western disturbance passed away eastwards through Kashmir after causing local rain or snow in Kashmir, and a few falls of rain in Rajputana and the North-West Frontier Province. Local or a few falls also occurred elsewhere.

INTERMEDIATE CROP REPORTS.

THIRD INTERMEDIATE REPORT OF THE SUGARCANE CROP, 1934-35.

Central Provinces and Berar.

The estimate of condition reported in the second forecast (*viz.*, 112.5 per cent of the normal) remains unchanged.

North-West Frontier Province.

There has been no appreciable change in the total area planted with sugarcane since the issue of the last forecast. The outturn is expected to be generally normal on the whole. The crop is reported to be suffering from red-rot disease in certain *tahsils* of the Peshawar district.

(FOREIGN)

ARGENTINE WHEAT AND LINSEED CROPS.

According to a cable dated the 21st December, 1934, received from the International Institute of Agriculture, Rome, the area and yield of the wheat and linseed crops in Argentina during the current season *i.e.*, 1934-35, are now estimated at 17,199,000 acres and 6,890,000 metric tons (or 6,779,000 tons) for wheat, and 6,919,000 acres and 1,830,000 metric tons (or 1,801,000 tons) for linseed. The final estimates for the preceding season were 18,041,000 acres and 7,662,000 tons for wheat, and 4,878,000 acres and 1,417,000 tons for linseed.

CROP FORECASTS.

(ALL-INDIA)

SECOND RICE FORECAST, 1934-35.

THIS forecast is based on reports furnished by the undermentioned provinces and States, which comprise 96 per cent of the total rice area in India. The forecast refers practically to the whole of the rice crop (early and late) in all the reporting provinces and States, with the exception of the summer crop and the crop in Coorg and Mysore, information regarding which will be included in the Final General Memorandum to be published in February, 1935. The reports relate generally to conditions up to the beginning of December.

The total area reported is 78,486,000 acres, as against 79,762,000 acres (revised) at this time last year, or a decrease of 2 per cent.

Weather conditions have not been quite favourable, but the present condition of the crop appears to be fairly good.

The following tables show the area and the estimated outturn as far as available. The table of outturn is incomplete, owing to the absence of estimates from Madras, the United Provinces, Hyderabad, Baroda and Bhopal which are not available at this time.

Second Forecast.

(a) Includes autumn and winter rice.
(b) Revised.
(c) Not yet available.

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of the area under rice cultivated in that tract to the total area under rice in India based on the figures for the five years ending 1932-33.

Bengal (24·8 per cent).—(i) The area sown with autumn (*aus*) rice is estimated at 5,572,000 acres, as against 5,775,000 acres last year. According to the estimates of the District Officers, the average outturn of the crop for the province works out at 72 per cent of the normal, as against 85 per cent last year. On this basis, the total yield of cleaned rice works out at 1,842,000 tons, as against 2,254,000 tons last year. As reported in the first forecast issued in October last, the crop was affected more or less by drought in some west and north Bengal districts and by flood in parts of east Bengal. But favourable weather conditions later on improved the prospects of the crop in some districts. As a result of sudden flood in September the yield has however been reduced in Rajshahi and in parts of west Bengal. On the whole, a fairly satisfactory crop has been reaped for the province.

(ii) The area under winter (*aman*) rice, the main crop, is estimated at 14,760,000 acres, which is 5 per cent below the corresponding estimate of last year. The weather was not favourable both for transplantation and early period of growth owing to drought in parts of west and north Bengal and to

sudden rise of rivers in some important districts of east Bengal. Subsequently sudden floods in September also affected the crop in places in Nadia, Murshidabad, Jessore and Rajshahi. Good rainfall in October, however, materially helped the growth and final development of the transplanted winter paddy. According to the estimates of the District Officers, the average outturn of the crop for the province as a whole works out at 81 per cent of the normal. On this basis, the total outturn of the crop is estimated at 5,929,000 tons, as against 6,626,000 tons at this time last year.

Bihar and Orissa (16·3 per cent).—(i) The area under autumn rice is estimated at 3,381,000 acres, as against 3,354,000 acres last year. The yield is estimated at 924,000 tons, as against 956,000 tons last year. The condition figure for the crop is estimated by the District Officers at 85 per cent of the normal, as against the past ten years' average of 91 per cent. This means that this year's yield is estimated at 93 per cent of the past ten years' average. The crop is reported to have suffered from heavy rains and floods in places.

(ii) The area under winter rice is estimated at 10,324,000 acres, showing an increase of 6 per cent over the corresponding area of last year, due to favourable weather conditions at the time of sowing. The yield is estimated at 3,754,000 tons, as compared with 3,298,000 tons at this time last year. Weather conditions are reported to have been favourable in all the districts except in Singhbhum. The condition of the crop is, according to the District Officers, estimated at 89 per cent of the normal, as against the past ten years' average of 90 per cent. This means that the outturn of this year's crop is estimated at 99 per cent of the past ten years' average.

Burma (14·9 per cent).—The area sown is reported to be 12,658,000 acres, as against 12,820,000 acres (revised) at this time last year. The total yield is estimated at 7,452,000 tons of unhusked rice (=4,968,000 tons of cleaned rice), which is 5 per cent below the corresponding estimate (revised) of last year. The crop in Lower Burma is not, on the whole, as good as last year when conditions were unusually favourable; while in Upper Burma there was a shortage of water in some irrigated areas in the middle of the season. The surplus available for export from this year's crop is estimated at 4,662,000 tons of unhusked rice (equivalent to 3,450,000 tons of rice and rice products or 3,108,000 tons of cleaned rice), as compared with 4,324,000 tons of unhusked rice (equivalent to 3,200,000 tons of rice and rice products or 2,883,000 tons of cleaned rice) reported at this time last year.

Madras (13·3 per cent).—The area sown up to the 25th of November is estimated at 9,711,000 acres, as compared with 10,491,000 acres, the corresponding area of last year, or a decrease of 7 per

cent due to late and insufficient rains. The first crop has generally been harvested throughout the Presidency; and the yield is reported to be normal or a little below it. The seasonal factor for the Presidency works out at 98 per cent of the average, as against 97 per cent at this time last year.

United Provinces (8·1 per cent).—The area sown is now estimated at 6,391,000 acres (52,000 acres being in the Rampur State), as against 5,998,000 acres at this time last year. The rainfall in July and August was general and proved beneficial to the crop. In September, the rainfall was unevenly distributed having been below normal in some places while above normal in others. The rainfall in October was defective almost all over the provinces and November was practically rainless. Conditions were favourable for the early rice but not so for the late variety. For the provinces as a whole, the average outturn of both the early and late rice is estimated at 80 per cent of the normal.

Central Provinces and Berar (7·6 per cent).—The area sown is estimated at 6,782,000 acres (1,130,000 acres being in eleven Feudatory States), as compared with 6,881,000 acres, (revised) last year. The yield is estimated at 2,081,000 tons (296,000 tons being in the Feudatory States), as against 1,987,000 tons (revised) last year. The season was favourable and the crop did very well on the whole in the principal rice-growing districts. Excessive rain lowered the outturn slightly in a few districts where bumper crops were expected. For the province as a whole, the average outturn is estimated at 107 per cent of the normal, as against a full normal yield last year.

Assam (5·5 per cent).—(i) The area under autumn rice is estimated at 852,000 acres, as against 889,000 acres, last year. The average outturn of the crop for the province is estimated at 75 per cent of the normal, the same as in last year. The total yield is estimated at 204,000 tons, as against 213,000 tons last year. The weather was generally favourable but floods and insects caused damage to the crop in almost all districts.

(ii) The area under winter rice is estimated at 3,573,000 acres, as against 3,496,000 acres, the corresponding area of last year. The average outturn of the crop for the province is estimated at 89 per cent of the normal, as compared with 80 per cent at this time last year. The total yield is estimated at 1,272,000 tons, as against 1,119,000 tons, the corresponding yield of last year. The weather after the issue of the first forecast in October last continued to be generally favourable for both broadcast and transplanted crops. The crop is, however, reported to have been damaged by flood, drought and insects.

Bombay (4·2 per cent).—The information relates to estimates up to the 15th November. The area sown in the Presidency is reported to be 2,286,000 acres (436,000 acres being in the Indian States),

which is 5 per cent below the revised area of last year due to insufficient early rains. The yield is estimated at 1,060,000 tons (193,000 tons being in the Indian States), which is 2 per cent below the revised yield of last year. In Gujarat, the crop has done fairly well on the whole, although it suffered at the grain formation stage in many places in the northern parts of the division owing to want of rains from the middle of September onwards. In the Deccan, sowings were somewhat delayed owing to the late rains of the season. The crop was generally benefited by rains in July and August although these were rather heavy in parts of the division; while its prospects were further improved by the fair weather in September. In parts of the north Deccan, however, the crop slightly suffered in the growing period due to absence or deficiency of late rains, while the late variety suffered to some extent at the ripening stage and was lodged in places. In the Karnatak, the early crop suffered generally in the western parts from deficiency of rains, but the late varieties grown in the low-lying areas and under irrigation have fared somewhat better. The crop also suffered in many places in the east from want of sufficient moisture due to prolonged drought in the middle of the season. On the whole, the season has not been favourable for the crop in this division and its outturn, it is apprehended, may be much below the normal. In the Konkan, the crop progressed splendidly till the time of harvest almost everywhere except in parts of the Kanara district where it was affected to some extent by deficient rains in July and again in September. The late variety was, however, lodged in places owing to heavy rainfall at the end of October and in the first week of November.

In Sind, the area sown is estimated at 1,041,000 acres (6,000 acres being in the Khairpur State),

as against 1,121,000 acres (revised) last year. The decrease is due to less cultivation on the perennial Barrage canals. The yield is estimated at 438,000 tons (2,000 tons being in the Khairpur State), as against 515,000 tons, the revised yield of last year. The crop has suffered severely from lack of irrigation water on account of the poor inundation in the Karachi and Hyderabad districts while it has failed in the Tando division of the Hyderabad district. A good yield is, however, expected in the Larkana district.

The total area and yield in Bombay and Sind (including Indian States) are thus estimated at 3,327,000 acres (442,000 acres being in the Indian States) and 1,498,000 tons (195,000 tons being in the Indian States), as against 3,537,000 acres and 1,599,000 tons, the revised area and yield of last year.

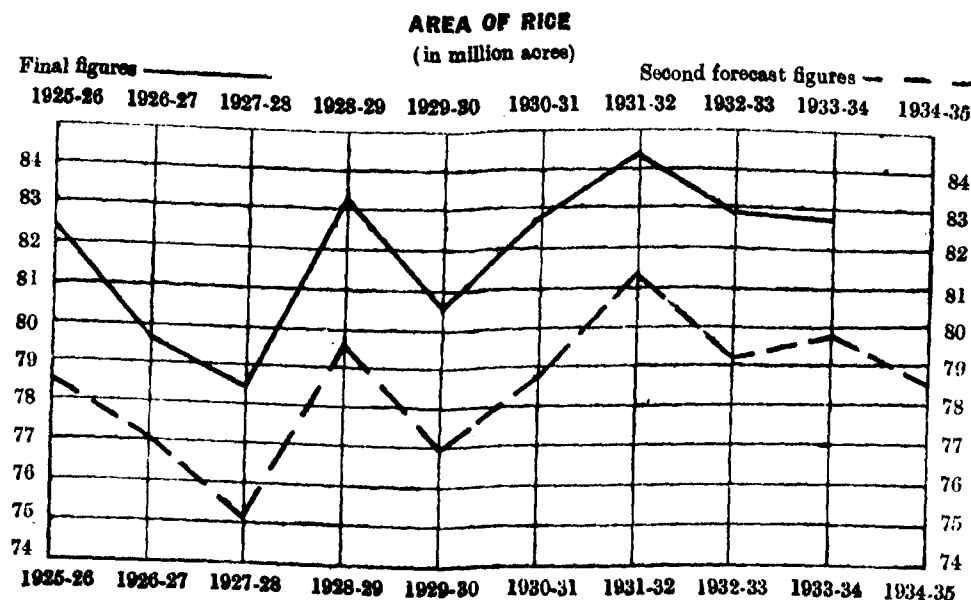

Hyderabad (1 per cent).—The area sown is estimated at 909,000 acres, which shows a decrease of 11 per cent as compared with the corresponding area of last year due to want of adequate and timely rains. Harvesting of the early crop is progressing. The crop is reported to be good except in certain parts where it has been adversely affected by inadequate rainfall and damaged by plant disease.

Baroda (0.3 per cent).—The area is reported to be 223,000 acres, as compared with 178,000 acres at this time last year.

Bhopal.*—The area sown is estimated at 23,000 acres, which is practically the same as at this time last year. The outturn is expected to be slightly above normal.

Chart.—The chart below illustrates the variations in the second forecast estimates of acreage, as compared with the final figures of the preceding nine years.

* In Central India.

Rice Crop in Foreign Countries.—From information specially obtained, it appears that the official estimates of the second rice crop of Formosa for 1934 place the area and yield at 935,000 acres and 23,249,000 bushels (or 657,000 tons), showing a decrease of 3 per cent in area but an increase of 6 per cent in yield, as compared with the same crop of 1933. The second estimate of the rice crop in Japan for 1934 is placed at 50,746,000 *koku* (or 7,117,000 tons), as compared with 70,847,000 *koku* (or 9,936,000 tons), the actual yield of last year. The total area and yield of the 1933-34 crop of Siam were 20,283,000 *rai* (or 8,113,000 acres) and 83,462,000 *piculs* (or 4,968,000 tons), as against 20,086,000 *rai* (or 8,034,000 acres) and 85,273,000 *piculs* (or 5,076,000 tons) in 1932-33. The area planted with the new crop in 60 provinces at the end of September, 1931, was estimated at 18,109,000

rai (or 7,244,000 acres), as against 17,555,000 *rai* (or 7,022,000 acres) at the corresponding period of last year. The condition of the crop was, on the whole, reported to be fairly good at the end of September last.

From the latest available bulletin published by the International Institute of Agriculture, Rome, it appears that the estimates of the 1934 crop of the United States of America are 737,000 acres and 751,000 tons, showing a decrease of 4 per cent in area but an increase of 5 per cent in yield as compared with the preceding year. In Italy, the area under rice this year is 324,000 acres, as against 316,000 acres in 1933. The yield of the crop is placed at 598,000 tons, which is practically the same as in last year. In Egypt, the area under rice in 1934-35 is 395,000 acres, which is 10 per cent less than in the preceding season.

Estimate of the Rice Crop, 1934-35.

SUMMARY OF CROP FORECASTS.

The following is a summary of crop forecasts relating to the season 1934-35 :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute—Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	Acres 2,497,000	99.2	Acres 2,517,000	7,964,000 bales (c)	99.4	8,012,000 bales (c)	Sept. 6, 1934.
Sugarcane—Second.	United Provinces, Punjab, Bihar and Orissa, Bengal, Madras, Bombay, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal† (98 per cent of the total sugarcane area of India)	3,444,000	108	3,305,000	(b)	..	5,067,000 tons	Oct. 25, 1934
Groundnut—Second.	Madras, Bombay, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	5,064,000	74(d)	6,115,000	(b)	..	3,235,000 tons	Nov. 1, 1934.
Sesamum—Second.	Burma, United Provinces, Madras, Bombay, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal†, Baroda, and Kotab† (89 per cent of the total sesamum area of India).	4,067,000	86(d)	6,192,000	(b)	..	535,000 tons	Nov. 1, 1934.
Rice—Second.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces, Central Provinces and Berar, Assam, Bombay, Hyderabad, Baroda and Bhopal† (96 per cent of the total rice area of India).	78,486,000	98	81,977,000	(b)	..	30,353,000 tons	Dec. 27, 1934.
Cotton—Third. (c)	All cotton-growing tracts	22,000,000	98	23,739,000	4,555,000 bales	98	4,970,000 bales	Dec. 27, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (a) Including Cochin Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year. (e) The detailed forecast will be published in the next issue of the Indian Trade Journal.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	Acres 1,656,000	96	Acres 1,617,000	146,000 tons	97	151,000 tons	Feb. 22, 1934.
Rape and Mustard—Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar, Baroda and Hyderabad (about 96 per cent of the total rape and mustard area of India).	6,033,000	99	6,094,000	964,000 tons	91	1,046,000 tons	May 31, 1934.
Linseed—Final.	Central Provinces and Berar*, United Provinces, Bihar and Orissa, Bombay, Bengal, Punjab, Hyderabad, Kotab† and Bhopal† (about 94 per cent of the total linseed area of India).	3,257,000	99	3,299,000	377,000 tons	92(a)	406,000 tons(a)	May 31, 1934.
Wheat—Final.	Punjab*, United Provinces*, Central Provinces and Berar*, Bombay*, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	36,063,000	100	33,970,000	9,355,000 tons	99	9,449,000 tons	Aug. 16, 1934.

* Including Indian States. † In Rajputana. ‡ In Central India. (a) Excluding Bhopal from which report has been received for the first time this year.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Wittet Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsaroop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42"×28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Supply of Wheels and Axles required for the E. B. Railway at Saidpur, Kanchrapara, etc.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below—

Tender No. N-3730.

Item No. 1.—Wheels and Axles, disc centre, tyred, 10"×5" journals (B. G.), complete, to I. R. S. part drawing No. W. A. 23 revision nil, and I. R. S. Specn. No. R-19-30 302 Pairs.

Item No. 2.—Wheels and Axles, disc centre, tyred, 9"×4½" journal (B. G.), complete, to I. R. S. part drawing No. W. A. 36 revision nil, and I. R. S. Specn. No. R-19-30 1,196 Pairs.

Item No. 3.—Wheels and Axles, disc centre, tyred, 6"×3¼" journal (2'—6" N. G.), complete, to Consulting Engineers drawing No. E/NBC 650/56 (I. R. S. drawing No. 1600/37), and I. R. S. Specn. No. R-19-30 40 Pairs.

N.B.—The above mentioned drawings can be had direct (if required) on payment from the Chief Controller of Standardization, Central Standards office for Railways, New Delhi.

Price of tender forms, etc., is Rs. 10 per set (not refundable). Payment should be made in cash or by Money Order quoting Tender Number N-3730 and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 25th February, 1935, and opened on the 26th February, 1935.

INDIAN STORES DEPARTMENT.

Supply of Generating Sets.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below.

Tender N-4016.—Direct coupled generating sets for Khajuri Plain posts required for M. E. S., Northern Command, each capable of continuous output of 7.5 K. W. 230/250 volts, direct current 3 sets.

Price of tender forms, etc., is Rs. 2 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 30th January, 1935, and opened on the 31st January, 1935.

INDIAN STORES DEPARTMENT.

Supply of Materials required for the Posts and Telegraphs etc.

The Chief Controller of Stores, Indian Stores Department (Textiles Section), New Delhi, invites tenders for the stores detailed below.

Price of tender forms, etc., is as noted against each item per set of two copies (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tender No. and Fee.	Description of Goods.	Approximate quantity.	Delivery.	Tenders will be received up to	opened on
<i>Materials required for the Posts and Telegraphs and State Railways.</i>					
X2/4697—Rs. 5.	Twill cloth, woollen, khaki, 54" wide.	12,090 yds.	As and when required during 1st March, 1935, and 29th February, 1936.	29th January, 1935.	30th January, 1935.

INDIAN STORES DEPARTMENT.

Supply of Train Lighting Batteries required for the Eastern Bengal Railway.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the supply of Complete Single Batteries, Train Lighting, 24 volts, Alkaline or Lead Acid, 300 Amp. hour capacity—20 sets, and 210/225 Amp hour capacity—32 sets.

Price of tender forms, etc., is Rs. 8 per set of two copies (not refundable). Payment should be made in cash or by Money Order, quoting Tender Number N-3783 and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 28th January, 1935, and opened on the 29th January, 1935.

Specification will be issued free with the tender documents.

INDIAN STORES DEPARTMENT.

Annual Rate Contracts commencing from 1st June, 1935, for the Supply of the undernoted Flexible Cords and V. I. R. Cables for delivery F.O.R. Calcutta, Bombay, Madras, Karachi, Rangoon, Lahore and Delhi.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below.

Price of tender forms, etc. (not refundable), is given below. Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Description of Stores.	Tender No.	Price of tender forms per set of two copies.	Tenders receivable up to	Tenders to be opened on
Flexible Cords, 600 Megohm grade, I. S. D. Specification No. H-40B, and B. S. I. Specification No. 7.	N-4010	Rs. 6	13th February, 1935.	14th February, 1935.
Cables, V. I. R. Braided, Single and Twin Core, 250 volts, 600 Megohm Grade, to I. S. D. Specification No. H-57A.	N-4011	8	20th February, 1935.	21st February, 1935.
Cables, V. I. R., Tough Rubber Sheathed, Single and Two Core, 250 volts, 600 Megohm Grade, to B. S. I. Specification No. 7.	N-4012	7	27th February, 1935.	28th February, 1935.
Cables, V. I. R. Lead Sheathed, Single and Twin Core, 250 volts, 600 Megohm Grade, to B. S. I. Specification No. 7.	N-4013	8	5th March, 1935.	6th March, 1935.

The I. S. D. Specifications will be supplied free with tender documents.

INDIAN STORES DEPARTMENT.

Supply of Beacon Floodlights and Lighting of Aerodromes for Air Routes.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the manufacture, supply including free delivery and erection at site, and the tests, of the equipment detailed below :—

Tender No. N-3982.

Beacon floodlights and lighting of Aerodromes for the Karachi, Delhi, Calcutta, Rangoon Air Routes and for Bombay and Sukkur.

The all electric equipment required comprises the following :—

PART I.—*Karachi Air Port.* (Plan I. S. D. No. 3350.)

- (1) Floodlights.
- (2) Beacons.
- (3) Boundary lights.
- (4) Wind T.

PART II.—*Hyderabad landing ground.* (Plan I. S. D. No. 3351.)

- (1) Boundary lights.
- (2) Obstruction lights.
- (3) Wind T.

PART III.—*Daro Naro.*

- (1) Automatic type beacon.

PART IV.—*Uterlai landing ground.* (Plan I. S. D. No. 3352.)

- (1) Boundary lights.
- (2) Obstruction lights.
- (3) Wind T.

- (4) Suitable generating plant.

PART V.—*Degana.*

- (1) Automatic type beacon.

PART VI.—*Badhal landing ground.* (Plan I. S. D. No. 3353.)

- (1) Beacon.
- (2) Boundary lights.
- (3) Obstruction lights.
- (4) Wind T.
- (5) Suitable generating plant.

PART VII.—*Rewari.*

- (1) Automatic type beacon.

PART VIII.—*Delhi Aerodrome.* (Plan I. S. D. No. 3354.)

- (1) Boundary lights.
- (2) Obstruction lights.
- (3) Wind T.

PART IX.—*Etah.*

- (1) Automatic type beacon.

PART X.—*Cawnpore.* (Plan I. S. D. No. 3355.)

- (1) Mobile floodlight and beacon.
- (2) Beacon.
- (3) Boundary lights.
- (4) Obstruction lights.
- (5) Wind T.

PART XI.—*Allahabad Aerodrome.* (Plan I. S. D. No. 3356.)

- (1) Floodlights.
- (2) Beacon.
- (3) Boundary lights.
- (4) Obstruction lights.
- (5) Wind T.

PART XII.—*Moghal Sarai.*

- (1) Beacon.

PART XIII.—*Gaya landing ground.* (Plan I. S. D. No. 3358.)

- (1) Combined floodlight and beacon.
- (2) Boundary lights.
- (3) Obstruction lights.
- (4) Wind T.
- (5) Suitable generating plant.

PART XIV.—*Asansol Aerodrome.*

- (1) Beacon.

PART XV.—*Dum Dum Aerodrome, Calcutta.* (Plan I. S. D. No. 3360.)

- (1) Combined Beacon and floodlight mobile unit.
- (2) Boundary lights.
- (3) Obstruction lights.
- (4) Wind T.

PART XVI.—*Akyab Aerodrome.* (Plan I. S. D. No. 3361.)

- (1) Floodlight.
- (2) Boundary lights.
- (3) Obstruction lights.
- (4) Wind T.

PART XVII.—*Mingaladon Aerodrome, Rangoon.* (Plan I. S. D. No. 3362.)

- (1) Combined floodlights and beacon mobile unit.
- (2) Boundary lights.
- (3) Obstruction lights.
- (4) Wind T.

PART XVIII.—*Bombay Aerodrome.* (Plan I. S. D. No. 3369.)

- (1) Combined floodlight and beacon.
- (2) Boundary lights.
- (3) Obstruction lights.
- (4) Wind T.

PART XIX.—*Sukkur landing ground.* (Plan I. S. D. No. 3364.)

- (1) Boundary lights.
- (2) Obstruction lights.
- (3) Wind T.

A route map I. S. D. No. 3371, showing sites is also available and will be supplied with the tender documents.

Price of tender forms including three sets of schedule of requirements and one set of drawings only for each tender is Rs. 30 (not refundable). Payment should be made in cash or by Money Order quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Additional set of tender forms, etc., without drawings shall be charged Rs. 5 per copy.

Drawings if required will be supplied at eight annas per copy, postage extra.

Tenders should particularly note that tenders will only be considered from tendering firms or their principals who are able to show evidence that they possess the experience in the supply and erection of similar plant in other countries.

Tenders will be received up to the 11th March, 1935, and opened on the 12th March, 1935.

INDIAN STORES DEPARTMENT.

Supply of Buffer Cases required for the E. I. Railway at Howrah General Stores.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below.

P. L. No. BU-67.—Case outside for BUA-1, BUA-5, BUA-7, to E. I. Railway drawing No. BU-67 (I. S. D. No. 2912), and to I. R. S. Specification No. R10-33—1,200 Nos.

N.B.—Cost of I. S. D. drawing No. 2912 is not included in the cost of tender forms and the same can be had from the office of the Chief Controller of Stores, Indian Stores Department, Engineering Section, New Delhi (if required), on remittance of eight annas along with the cost of tender forms.

Price of tender forms, etc., is Rs. 3 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number *N-4024* and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 14th January, 1935, and opened on the 15th January, 1935.

INDIAN STORES DEPARTMENT.

Supply of Cold Starting Crude Oil Engine driven Vertical Spindle Tube Well Turbine Pump, required for the N. W. Railway, at Mandra (Mile No. 489.7), Rawalpindi Division.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), New Delhi, invites tenders for the stores detailed below:—

Tender No. N-3989.—One Cold Starting Crude Oil Engine driven Vertical Spindle Tube Well Turbine Pump (belt driven), with 1/4 turn belt, capable of pumping 4,500 G. P. H. against a total head of 165 feet excluding friction losses in the Pump column. If desired by the buyer, the successful tenderer will be called upon to erect the pump at site.

Price of tender forms, etc., is Rs. 3 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 18th February, 1935, and opened on the 19th February, 1935.

I. S. D. Specification PI/116A or PI/114D (saleable) will apply in this case.

ARMY HEADQUARTERS, INDIA.

OFFICE OF THE DIRECTOR OF CONTRACTS.

Supply of Soda Caustic and Soda Ash.

Tenders are invited for the supply of Soda Caustic and Soda Ash required for the Army.

Tender forms, in duplicate, showing the particulars and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order on the coupon of which the number of the Tender (No. *P/O-293*), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 4th February, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

ARMY HEADQUARTERS, INDIA.

OFFICE OF THE DIRECTOR OF CONTRACTS.

Supply of Cream Cartons.

Tenders are invited for the supply of Cartons, Cream, with Lids (2 oz. and 4 oz. sizes), required for the Army.

Tender forms, in duplicate, showing the particulars and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order on the coupon of which the number of the Tender (No. *P/F-21*), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 18th February, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

ARMY HEADQUARTERS, INDIA.

OFFICE OF THE DIRECTOR OF CONTRACTS.

Supply of Weighbridges.

Tenders are invited for the supply of Weighbridges required for the Army.

Tender forms, in duplicate, showing the particulars and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order on the coupon of which the number of the Tender (No. *P/O-1844*), the name and full address of the applicant must be clearly stated.

Tender forms, duly completed, will be received by the Director of Contracts up to the 19th January, 1935, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must state in their applications for tender forms the name of their Bankers.

GOVERNMENT OF INDIA RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

Supply of Coal required by the Government of India Army Department, during the year 1935-36.

Tenders are invited for the supply of—

	Tons.
First Class Steam Coal	70,000
Rubble Coal, Mechanically Screened, size 1" to 2 1/2"	16,500
Rubble Coal, Mechanically Screened, size 1" to 2"	16,500
Rubble Coal, Mechanically Screened, size 1" to 1 1/2"	16,500
Hard Coke	1,400
Hard Coke Rubble	400

The coal is required by the various branches of the Government of India Army Department, for delivery during the period 1st April, 1935, and 31st March, 1936.

The price quoted should be f.o.r. Colliery.

The tenders will be considered ordinarily as for approximately equal monthly supplies.

Deliveries shall be made as directed from time to time by notice in writing and the Chief Mining Engineer, Railway Board, will have the option of taking 25 per cent more or less of the contracted quantity. The Secretary of State for India will not receive any quantities other than those actually demanded as and when required.

The coal must be free from shale or other deleterious matter. It must be fresh coal. Weathered coal will not be accepted. Only coal actually raised by the contracting firm is to be supplied. No "Bought" coal will be allowed.

There is no special tender form.

Tenders from Colliery Proprietors or recognised Managing Agents only will be considered.

The tenders which may be submitted for the whole or for any portion of the quantities noted above should be addressed in sealed cover to the Chief Mining Engineer, Railway Board, 1, Council House Street, Calcutta, superscribed "Tenders for the Supply of Coal to the Army Department" and will be received in his office up to the forenoon of the 15th January, 1935. The tender should be deposited in the Tender Box kept in the Chief Mining Engineer's office.

The successful tenderers will be required, if necessary, to execute an agreement in the Railway Board's tender form for the supply of coal to the State Railways.

The Chief Mining Engineer, Railway Board, does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance; he further reserves the right to accept any tender wholly or in part at his option.

GOVERNMENT OF MYSORE.

STORES PURCHASE COMMITTEE.

Enquiry No. 1179.—Supply of Locomotive, Carriage and Wagon Stores.

Tenders are being invited by the Mysore Government, Stores Purchase Committee, for Locomotive, Carriage and Wagon spare parts required by the Mysore Railways during the year 1934-35 through the Consulting Engineers, Messrs. Rendel, Palmer & Tritton, 55, Broadway, Westminster, London, S. W. 1, tenders being returnable by the 15th of February, 1935.

Firms in India interested in this enquiry are advised to get into touch with Messrs. Rendel, Palmer & Tritton, London, who will issue the necessary specifications and drawings and send the tenders direct to the Committee.

Sealed tenders are invited for the following and will be received in the Controller of Stores' office,

105, Clive Street, Calcutta, up to 12 o'clock noon on the 23rd January, 1935—

(1) **Tender No. Track/60 of 1934-35.**—For the supply of 200 sets of Plates, Fish, Compound, 90 lbs. F. F. R. B. S. with 88½ lbs. B. H. or 90 lbs. F. F. E. I. rails, as per Chief Engineer's drawing No. B 265-33. (P. L. No. 5584).

(2) **Tender No. Track/61 of 1934-35.**—For the supply of 170 sets of Plates, Fish, Compound, 90 lbs. F. F. R. B. S. with 90 lbs. F. F. B. S. rails, 20" long, as per Chief Engineer's drawing No. B 345-33. (P. L. No. 1604).

Tender forms and full particulars, may be had from the Controller of Stores' office, E. I. Railway, 105, Clive Street, Calcutta, on payment of Rs. 2 per copy of each tender, to the Treasurer, E. I. Railway, Calcutta, and on production of his receipt when applying for the same. Once these documents are issued, no refund is permissible.

Copies of ferro-prints of the Drawing can be had on payment of Rs. 2 per copy of each Drawing to the Treasurer, and on production of his receipt.

Firms outside Calcutta, may, however, remit the amount to the Controller of Stores, direct, by Money Order.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Workshop and Pneumatic Machinery.

Tenders are invited by the Agent, Eastern Bengal Railway, for the supply of Workshop and Pneumatic Machinery.

Necessary tender documents can be obtained from the "Stores' Information Bureau," No. 3, Koilaghat Street (Bankshall Street-end), Calcutta, on payment of Rs. 5 per set.

Offers from stock are particularly required.

Tenders will be opened in the Agent's office at 3 p.m. (Calcutta Time) on the 22nd January, 1935.

EASTERN BENGAL RAILWAY.

Supply of Broken Stone Ballast, Gravel and Shingle Stone.

The attention of the tenderers who are interested in the supply of Broken Stone Ballast, Gravel and Shingle Stone from Chutiapara, Jainti and Dima Railway Quarries is drawn to the Tender Notice No. AGT/4/2, dated 15th December, 1934, issued by the Executive Engineer, Lalmanirhat, E. B. Railway.

Forms of tender documents can be obtained from the Executive Engineer, Lalmanirhat, on prepayment in cash or by Money Order of Rs. 2 only in direct communication with that officer.

Tenders must be addressed to the Executive Engineer in sealed envelope superscribed "Tender for supply of Stone Ballast" and must reach the Office of the Executive Engineer, Lalmanirhat, at Lalmanirhat, before 11 hours on the 2nd January, 1935,

at which time, date and place they will be opened in public.

A sum of Rs. 50 must be deposited with the Executive Engineer, Lalmanirhat, or with the Chief Accounts Officer, Cash and Pay Branch, E. B. Railway, Sealdah, and a preliminary receipt obtained therefor.

The Chief Engineer, E. B. Railway, reserves the right to divide up the work between a number of contractors, if considered necessary. Tenderers should state definitely whether the rates tendered for are subject to their being given the whole work. In the absence of any such definite statement, it will be presumed that the tenderer is prepared to accept part of the work at the rate quoted in his tender.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Jointing High Pressure Graphited Sheets.

Tenders are invited by the Controller of Stores, Eastern Bengal Railway, Calcutta, for 15½ cwts. Jointing High Pressure Graphited Sheets, 1½", on a Running Contract basis for the period 1st February, 1935, to 31st October, 1935.

Necessary tender documents may be obtained from the Stores' "Information Bureau", No. 3, Koilaghat Street (Bankshall Street-end), Calcutta, on payment of Re. 1 per set.

Tenders will be opened at 2 p.m. (Calcutta Time) on the 4th January, 1935.

EASTERN GROUP-SLEEPER CONTROL.

Supply of First Class Sal Sleepers.

Sealed tenders are hereby invited for the supply of the undernoted additional quantities of First Class Sal Wood Track Sleepers required during the financial year 1935-36:—

1,88,000 Broad Gauge.

3,44,450 Metre Gauge.

20,000 (Light) Narrow Gauge.

The above quantities are approximate and are subject to variation plus or minus ten per cent at the option of the Sleeper Control Officer, B.-N. Railway House, Kidderpore.

Delivery is required progressively between the 1st April, 1935, and 31st January, 1936, unless otherwise stated in the conditions of tender.

Tenderers must deposit Rs. 100 as earnest money with the Chief Auditor, B.-N. Railway House, Kidderpore, Calcutta, and the receipt for same must accompany the tender.

Sets of tender forms (consisting of 1 conditions of tender, 1 agreement form, 1 tender form and 1 cover) can be obtained from the Sleeper Control Officer, B.-N. Railway House, Kidderpore, on payment of Rs. 10 per set, which will not be refunded.

Tenderers failing to comply strictly with all the conditions and instructions laid down will render

their tenders null and void, as will tenderers submitting tenders in any other than the prescribed form.

Tenders will be received in the Tender Box of the Sleeper Control Officer, B.-N. Railway House, Kidderpore, during office hours, up to 3 p.m. (Calcutta Time), on 15th January, 1935, which will then be opened and rates announced in the presence of tenderers.

The Sleeper Control Officer, B.-N. Railway House, Kidderpore, does not bind himself to accept the lowest or any tender nor to assign any reason for the non-acceptance of a tender but reserves the right to accept or reject the whole or any part of a tender.

GREAT INDIAN PENINSULA RAILWAY.

Tender No. 1934/36—Supply of Pig Lead.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of 20 tons of Pig Lead of the best quality, soft and of minimum purity of 99.8 per cent. Supplies will be subject to test and must conform strictly to the specification.

The prescribed form of tender, with conditions on which tenders will be considered, can be obtained from the Office of the Railway's Controller of Stores at Parel, Bombay, on payment of Re. 1 per copy, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Pig Lead".

A sum of Rs. 200 must be deposited with, and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) and the Agent, on behalf of the Administration, reserves to himself the right to confiscate the cash deposit should the successful tenderer fail to put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 9th January, 1935.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.

Cancellation of Tender for Supply of Copper Plates and Phosphor Copper.

With reference to the call for tenders for the supply of Copper Plates and Phosphor Copper (published on page 411 of the *Indian Trade Journal* of the 25th October, 1934), it is notified that the tender has since been cancelled. A fresh tender notice (No. 1935/J) for the supply of Copper Plates only has been issued and is published on the next page.

GREAT INDIAN PENINSULA RAILWAY.**Tender No. 1935/1—Supply of Copper Plates.**

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of the above-mentioned material.

The prescribed form of tender, with special conditions on which tenders will be considered, together with the relative drawings, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 5-8 per set, which amount will not be returned. Tenders must be submitted on the prescribed form and envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Copper Plates".

Additional copies of tender form without drawings, may be obtained, if required, at Rs. 2 per copy.

A sum of Rs. 400 must be deposited with, and sent direct, to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) and the Secretary of State reserves to himself the right to appropriate or confiscate the cash deposit, should the successful tenderer fail to put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 23rd January, 1935.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.**Tender No. 1934/30—Supply of 6 Y. 6 Type Locomotive Boilers.**

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of the above-mentioned material.

The prescribed form of tender, with special conditions on which the tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 5 per copy, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of 6 Y. 6 Type Locomotive Boilers".

A sum of Rs. 1,000 must be deposited with, and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tender, without which deposit no tender will be considered. This deposit must be made wholly in cash or wholly in Government Promissory Notes, Municipal Debentures, or Port Trust Bonds, and the Agent, on behalf of the Administration, reserves to himself the right

to appropriate or cancel the Government Promissory Notes, Debentures or Bonds or confiscate the cash deposits, should the successful tenderer fail to put in the security deposit in terms and conditions of the tender. No interest will be allowed on cash deposits.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's Office up to 3 p.m. (Standard Time) on Wednesday, the 6th February, 1935.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.**Tender No. 1934/31—Supply of 28 HS. 10 Type Locomotive Boilers.**

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of the above mentioned material.

The prescribed form of tender, with special conditions on which tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 5 per copy which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of 28 HS. 10 Type Locomotive Boilers".

A sum of Rs. 1,000 must be deposited with, and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tender, without which deposit no tender will be considered. This deposit must be made wholly in cash or wholly in Government Promissory Notes, Municipal Debentures, or Port Trust Bonds, and the Agent, on behalf of the Administration, reserves to himself the right to appropriate or cancel the Government Promissory Notes, Debentures or Bonds or confiscate the cash deposits, should the successful tenderer fail to put in the security deposit in terms and conditions of the tender. No interest will be allowed on cash deposits.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's Office up to 3 p.m. (Standard Time) on Wednesday, the 6th February, 1935.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.**Tender No. 1935-36/A—For Cutting, Sewing and Making Complete in every respect Uniform Clothing, etc., during the 12 months from 1st April, 1935, to 31st March, 1936.**

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the above work

such quantities as may be required on order from time to time during the year commencing 1st April, 1935.

The prescribed form of tender with special conditions, on which the tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 2 per form, which amount will not be returned. FOREIGN TRADE OF BRITISH INDIA IN NOVEMBER, 1934.

Merchandise—The trade returns for November, 1934, are summarised below :—

Month of November.

	1933	1934	Increase (+) or Decrease (—) in 1934, as compared with 1933	
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Per cent
Exports	12,85	11,98	-87	-6.8
Re-exports	85	82	-3	-3.6
Total exports	13,20	12,80	-90	-6.8
Imports	10,00	11,40	+1,40	+14.0
Excess of total exports over imports	3,20	90	—	—

Eight months, April to November.

Exports	96,50	98,00	+1,50	+1.6
Re-exports	2,26	1,98	-28	-12.4
Total exports	98,76	99,98	+1,22	+1.2
Imports	76,11	86,01	+9,90	+13.0
Excess of total exports over imports	22,65	13,97	—	—

Treasure.—Imports of treasure (private) were valued at Rs. 31 lakhs in November, 1934, as compared with Rs. 19 lakhs in the corresponding month of the last year. The exports on private account amounted to Rs. 6,07 lakhs in the month under report as against Rs. 2,60 lakhs in November, 1933.

Imports.—As compared with November, 1933, the value of Food, drink and tobacco rose by Rs. 14 lakhs to Rs. 1,46 lakhs in November, 1934, due mainly to an increase in the imports of rice. Raw materials and articles mainly unmanufactured increased by Rs. 16 lakhs to Rs. 1,35 lakhs due chiefly to larger imports of raw cotton. Articles wholly or mainly manufactured, amounting to Rs. 8,33 lakhs showed an increase of Rs. 1,09 lakhs, due chiefly to increases in the imports of metals, motor vehicles, cotton, wool and artificial silk manufactures although there was a decrease under machinery. Living animals rose by Rs. 5,000 to Rs. 1 lakh and Postal articles by Rs. 2 lakhs to Rs. 25 lakhs.

Comparing the values of the imports in November, 1934, with those in November, 1933, the chief increases and decreases are as follow :—

Increase.	Rs.	Increase—continued.	Rs.
Rice not in the husk	16,45,980	Motor cars	2,21,905
Dates	3,92,295	omnibuses	3,39,585
Mineral oils, other than kerosene	11,77,007	Artificial silk piecegoods	9,09,616
Electrical instruments	5,59,666		
Copper, wrought	8,27,717		
Cotton, raw	20,88,887		
piecegoods—			
Grey	14,81,328	Sugar 16 D. S. and above (including beet)	10,85,819
White	13,38,090	Sugar machinery	28,92,368
Coloured	34,67,469	Silk, raw	5,10,918
Woollen piecegoods	5,22,475	Silk piecegoods	8,59,597
		Kerosene oil	15,97,634

The following are the principal instances of an increase in quantity combined with a decrease in value and vice versa :—

Quantity.	Value.	Quantity.	Value.
	Rs.		Rs.
Iron or steel—		Cloves (spices)	+1,903 cwts. —18,988
Beams, channels, etc.	—193 tons. +14,522	Skins, raw	+12 tons. —36,813
Tinned or canned fish	+1,513 cwts. —20,980	Alc and beer	—14,860 gals. +3,723
Confectionery	+258 —22,793	Lubricating oils	—281,778 " +62,225
Oil engines, other than locomotives	+17 no. —1,63,609		

Exports.—As compared with November, 1933, the exports of Food, drink and tobacco in November, 1934, decreased by Rs. 47 lakhs to Rs. 3,43 lakhs, due to decreases in the exports of rice and tea. Raw materials and produce decreased by Rs. 40 lakhs to Rs. 4,98 lakhs, due mainly to decreases in the exports of groundnuts, linseed, raw jute, raw skins and raw wool, notwithstanding increases in the shipments of raw cotton and lac. Articles wholly or mainly manufactured increased by Rs. 2 lakhs to Rs. 3,47 lakhs, owing mainly to increases in the shipments of jute bags, and cloth and cotton piecegoods in spite of a decrease in the value of hides and skins tanned.

Comparing the values of the exports of Indian merchandise in November, 1934, with those in November, 1933, the chief increases and decreases are as follow :—

Increase.	Rs.	Decrease.	Rs.
Cotton, raw	41,25,387	Groundnuts	28,50,570
Lac	9,76,783	Skins, raw	9,43,205
Jute, gunny bags	8,98,728	Tea, Black	52,39,288
cloth	6,56,518	Rice	13,63,189
Cotton piecegoods	4,70,787	Wool, raw	9,51,178
		Linseed	26,86,144
		Hides, tanned	11,61,637
		Raw jute	39,69,129

The following are the principal instances of an increase in quantity combined with a decrease in value and vice versa :—

Quantity.	Value.	Quantity.	Value.
	Rs.		Rs.
Fibre for brushes, etc.	+3 tons —9,823	Rape and sesamum cake	—629 tons +32,722
Sheep skins, raw	—27 " +72,334	Rubber, raw	—34,176 lbs. +1,91,655
Lac	—21,749 cwts. +9,76,783	Spices—pepper	—160 cwts. +23,216

Trade in eight months, April to November, 1934.—During the eight months ended November, 1934, the value of the imports increased, as compared with the corresponding period of 1933, by Rs. 10 crores or 13 per cent and amounted to Rs. 86 crores and the total exports, including re-exports, rose by Rs. 1,22 lakhs or 1 per cent to Rs. 100 crores. The exports of Indian merchandise showed an increase of Rs. 1,50 lakhs or 2 per cent and re-exports decreased by Rs. 28 lakhs or 12 per cent. The grand total of imports, exports and re-exports amounted to Rs. 186 crores as against Rs. 175 crores, an increase of Rs. 11 crores or 6 per cent.

Imports of treasure (private and Government) increased by Rs. 1,49 lakhs to Rs. 2,77 lakhs. Gold bullion fell by Rs. 17 lakhs to Rs. 35 lakhs, sovereigns and other British gold coin by Rs. 5 lakhs to Rs. 13 lakhs, and other coined gold by Rs. 75 thousands to Rs. 90 thousands. The value of silver imported increased by Rs. 1,73 lakhs to Rs. 2,27 lakhs, while imports of currency notes fell by Rs. 1½ lakhs to nearly Rs. 2 lakhs. Exports of treasure decreased by Rs. 1,56 lakhs to Rs. 38,43 lakhs. Exports of gold alone amounted to Rs. 32,65 lakhs as against Rs. 34,13 lakhs in 1933.

Balance of Trade.—India's visible balance of trade in merchandise and treasure during the eight months, April to November, 1932, 1933, and 1934 is shown in the following table. The figures are arrived at by combining the balances of transactions in (1) private merchandise and (2) treasure (private account). The balance of remittances of funds is also shown with details at the end of this table. In these balances the sign plus (+) indicates net export and minus (—) net import.

	1932	1933	1934
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)
Exports of Indian merchandise (private)	+84,20	+96,50	+98,00
Re-exports of foreign	+2,01	+2,26	+1,98
Imports of foreign	—91,84(a)	—75,91(a)	—85,72(a)
Balance of trade in merchandise	—5,63	+22,85	+14,26
Gold (private)*	+41,20	+33,42	+32,18
Silver (private)*	—70	+2	+1,58
Currency notes (private)	+8	+11	+23
Balance of transactions in treasure (private)*	+40,58	+33,55	+33,99
Total visible balance of trade	+34,95	+59,40	+48,25
Council Bills, purchases of sterling and other Government remittances to the United Kingdom (b)	—29,89	—27,05	—27,07
Sterling transfers on London sold in India	—6	—	—
Transfers of Government securities	—23	+7	+41
Interest drafts on India in respect of Government of India securities	—	—24	—20
Balance of remittances of funds	—30,18	—27,22	—26,86

Shipping.—In the month of November, 1934, there were 269½ arrivals and 267½ sailings with cargoes in and from India, as against 239 and 249 respectively in November, 1933.

The tonnage (net register tonnage) of vessels entered with cargoes at ports in British India from foreign countries and British Possessions during the eight months ended November, 1934, amounted to 5,171,991 and the tonnage (net register tonnage) cleared to 5,274,932 as against 4,747,474 tons entered and 5,045,381 tons cleared during the corresponding period of 1933.

(a) Exclusive of the value of Railway materials (Rs. 20 lakhs, Rs. 20 lakhs and Rs. 30 lakhs in the eight months, April to November, 1932, 1933 and 1934, respectively), imported direct by State Railways working under Company management which was not paid for in the ordinary way and not, therefore, taken into account in arriving at the balance of trade.

(b) This head includes, in addition to Council Bills, (1) Sterling purchases in India and (2) payments in India to Local Bodies, etc., against proceeds of sterling loans floated by them in London and taken over by the Secretary of State.

* These exclude transactions which do not enter into the balance of trade.

† The provincial details are as follows :—Bengal 18, Bombay 73, Sind 51, Madras 93 and Burma 34.

‡ The provincial details are as follows :—Bengal 35, Bombay 41, Sind 53, Madras 95 and Burma 43.

§ Quantity decreased.

SUPPLEMENT TO THE "INDIAN TRADE JOURNAL", NOVEMBER 15, 1934.

INDIAN CUSTOMS TARIFF.

(TENTH ISSUE)

AMENDMENT SLIP.

The passing of the Mechanical Lighters (Excise Duty) Act, 1934, and the Iron and Steel Duties Act, 1934, and the issue of Government of India, Commerce Department, Notifications No. 73-T. (24)/34, dated the 3rd November, 1934, and No. 73-T. (24)/34, dated the 10th November, 1934, necessitate a number of amendments in the Indian Customs Tariff (Tenth issue) and these are detailed below :—

1. For Serial No. 75, the following should be substituted :—

75	142	Coal tubs, tipping wagons and the like conveyances designed for use on light rail track, if adapted to be worked by manual or animal labour and if made mainly of iron or steel ; and component parts thereof made of iron or steel—				
	(a) of British manufacture	ton	..	1 1/2 times the excise duty leviable for the time being on steel ingots produced in British India ;* or 10 per cent ad valorem, whichever is higher.	..	..
	(b) not of British manufacture	ton	..	1 1/2 times the excise duty leviable for the time being on steel ingots produced in British India* plus Rs. 40 per ton ; or 20 per cent ad valorem, whichever is higher.	..	..

2. For Serial Nos. 101a to 103t, with footnotes wherever they appear under these numbers, the following should be substituted :—

101a	235	Iron alloys, viz., ferro-manganese, ferro-silicon, ferro-chrome, spiegeleisen and the like as commonly used for steel making.	..	Ad valorem	20 per cent	10 per cent	..
101b	143	Iron or steel angle, channel, tee, flat, beam, zed, trough and piling—					
	(a) not fabricated—						
	(i) of British manufacture—						
	not coated with other metals	ton	..	1 1/2 times the excise duty leviable for the time being on steel ingots produced in British India ;* or 10 per cent ad valorem, whichever is higher.	..	..	..
	coated with other metals	ton	..	1 1/2 times the excise duty leviable for the time being on steel ingots produced in British India ;* or 10 per cent ad valorem, whichever is higher.	..	..	..

* The rate of excise duty on the 1st November, 1934, and until further notice, on all steel ingots produced in British India is Rs. 4 per ton.

1b— nd.	143	Iron or steel angle, channel, tee, flat, beam, zed, trough and piling— <i>contd.</i>							
		(a) not fabricated— <i>contd.</i>							
		(ii) not of British manufacture	ton	..	1½ times the excise duty leviable for the time being on steel ingots produced in British India* plus Rs. 43 per ton.	..	..		
		(b) fabricated—

SECTION XXII.—Articles not otherwise specified	87

THE SECOND SCHEDULE.

EXPORT TARIFF	1—4
INDEX	PAGES 63—75

INDIAN CUSTOMS TARIFF.

NOTE 1.—In the expression “*ad valorem*” used in these Schedules the reference is to “real value” as defined in section 30 of the Sea Customs Act, 1878 (VIII of 1878), unless an article has a tariff value assigned to it.

NOTE 2.—Tariff-valued heads are based on the ordinary trade description of each article and cover all reduced grades and mixtures unless they are separately provided for.

NOTE 3.—In this publication, the expression “standard rate of duty” means, in the case of articles liable to preferential rates of duty, the standard rate of duty as opposed to the preferential rate, and in the case of other articles, the ordinary rate of duty.

THE FIRST SCHEDULE.—IMPORT TARIFF.

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
				The United Kingdom.	A British Colony.

				The United Kingdom.	A British Colony.	

SECTION XVI—*contd.*MACHINERY AND APPARATUS; ELECTRICAL MATERIAL—*contd.*

72(3)	Component parts of Machinery as defined in Items Nos. 72, 72(1) and 72(2), namely, such parts only as are essential for the working of the machine or apparatus and have been given for that purpose some special shape or quality which would not be essential for their use for any other purpose : Provided that articles which do not satisfy this condition shall also be deemed to be component parts of the machine to which they belong if they are essential to its operation and are imported with it in such quantities as may appear to the Collector of Customs to be reasonable.	Revenue	10 per cent ad valorem			
72(4)	Passenger Lifts and component parts and accessories thereof.	Revenue	25 per cent ad valorem			
72(5)	Domestic Refrigerators	Preferential revenue.	30 per cent ad valorem	20 per cent ad valorem.		
72(6)	Machinery and component parts thereof, meaning machines or parts of machines to be worked by manual or animal labour, not otherwise specified, and any machines (except such as are designed to be used exclusively in industrial processes) which require for their operation less than one-quarter of one brake-horse-power.	Preferential revenue.	30 per cent ad valorem	20 per cent ad valorem.		
72(7)	Water-lifts, sugar-mills, sugar centrifuges, sugar pug-mills, oil-presses, and parts thereof, when constructed so that they can be worked by manual or animal power and pans for boiling sugar-cane juice.		Free			
72(8)	The following Agricultural Implements, namely, winnowers, threshers, mowing and reaping machines, binding machines, elevators, seed and corn crushers, chaff-cutters, root-cutters, ensilage-cutters, horse and bullock gear, ploughs, cultivators, scarifiers, harrows, clod-crushers, seed-drills, hay-tedders, hay presses, potato-diggers, latex spouts, spraying machines, powder-blowers, white-ant exterminating machines, beet pullers, broadcast seeders, corn pickers, corn shellers, culti-packers, drag scrapers, stalk cutters, huskers and shredders, potato planters, lime sowers, manure spreaders, listers, soil graders, and rakes; also agricultural tractors, also component parts of these implements, machines or tractors, provided that they can be readily fitted into their proper places in the implements, machines or tractors for which they are imported, and that they cannot ordinarily be used for purposes unconnected with agriculture.*		Free			

* Under Government of India, Finance Department (Central Revenues) Notification No. 14, dated the 9th April 1932, as amended subsequently, the following agricultural machines and implements, namely, flame throwers for attachment to spraying machines designed for the extermination of locusts, and latex cups, are exempt from payment of import duty.

THE FIRST SCHEDULE.—IMPORT TARIFF—*contd.*

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
				The United Kingdom.	A British Colony.	

SECTION XVI—*contd.*MACHINERY AND APPARATUS; ELECTRICAL MATERIAL—*contd.*

72(9)	The following Dairy and Poultry Farming Appliances, namely, cream separators, milking machines, milk sterilizing or pasteurizing plant, milk straining and cooling apparatus, churns, butter dryers, butter workers, milk-bottle fillers and cappers, apparatus specially designed for testing milk and other dairy produce, and incubators; also component parts of these appliances, provided that they can be readily fitted into their proper places in the appliances for which they are imported, and that they cannot ordinarily be used for other than dairy and poultry farming purposes.	Free	..	..	..	..
73	Electrical Instruments, apparatus and appliances, not otherwise specified, excluding telegraphic and telephonic.	Preferential venue.	re-	30 per cent ad valorem	20 per cent ad valorem.	..
73(1)	The following Electrical Instruments, Apparatus and Appliances, namely :— Electrical Control Gear and Transmission Gear, namely, switches (excluding switch-boards), fuses and current-breaking devices of all sorts and descriptions, designed for use in circuits of less than ten amperes and at a pressure not exceeding 250 volts; and regulators for use with motors designed to consume less than 187 watts; bare or insulated copper wires and cables, any one core of which, not being one specially designed as a pilot core, has a sectional area of less than one-eighth part of a square inch, and wires and cables of other metals of not more than equivalent conductivity; and line insulators, including also cleats, connectors, leading-in tubes and the like, of types and sizes such as are ordinarily used in connection with the transmission of power for other than industrial purposes, and the fittings thereof but excluding electrical earthenware and porcelain otherwise specified.	Preferential venue.	re-	30 per cent ad valorem	20 per cent ad valorem.	..
73(2)	The following Electrical Instruments, Apparatus and Appliances, namely, telegraphic and telephonic instruments, apparatus and appliances not otherwise specified, flash lights, carbons, condensers, and bell apparatus, and switch-boards designed for use in circuits of less than ten amperes and at a pressure not exceeding 250 volts.* †	Revenue	..	25 per cent ad valorem	..	..
73(3)	Telegraphic Instruments and Apparatus and parts thereof imported by, or under the orders of, a Railway Administration.	Revenue	..	15½ per cent ad valorem	..	..

* Under Government of India, Finance Department (Central Revenues) Notification No. 14, dated the 9th April 1932, as amended subsequently, the following apparatus is liable to duty at 2½ per cent ad valorem :—
(i) apparatus for wireless reception (excluding apparatus specially designed for the reception of broadcast wireless and apparatus of the description specified in clause (ii)) and component parts of such apparatus, when imported under cover of a certificate issued by the Director-General of Posts and Telegraphs to the effect that he is satisfied that the apparatus will not be used for the reception of broadcast wireless;
(ii) apparatus for wireless reception incorporated in a single unit with transmitting apparatus;
(iii) wireless transmission apparatus and component parts thereof;
Provided that nothing shall be deemed to be a component part of apparatus for wireless telegraphy or telephony for the purpose of this exemption unless it is essential for the working of such apparatus and has been given for that purpose some special shape or quality that would not be essential for its use for any other purpose.

† Under Government of India, Finance Department (Central Revenues) Notification No. 14, dated the 9th April 1932, as amended subsequently, telegraphic and telephonic apparatus and parts thereof imported for supply from bond for use of a Railway Administration are liable to duty at 15½ per cent ad valorem, provided that the bill-of-entry for warehousing is made thereon by the importer to the effect that the goods have been imported for supply from bond to a Railway Administration; and (ii) a certificate from an Officer of the Railway Administration, duly empowered in that behalf by the Agent, is produced upon application for clearance out of bond that the goods in question are not merely guaranteed stock, but will be definitely appropriated for the use of such Railway on day bond.

THE FIRST SCHEDULE.—IMPORT TARIFF—*contd.*

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
				The United Kingdom.	A British Colony.	

SECTION XVI—*contd.*MACHINERY AND APPARATUS; ELECTRICAL MATERIAL—*contd.*

1(4)	Wireless Reception Instruments and Apparatus and component parts thereof, including all electric valves, amplifiers and loud speakers which are not specially designed for purposes other than wireless reception or are not original parts of and imported along with instruments or apparatus so designed.*	Preferential venue.	re-	50 per cent ad valorem	40 per cent ad valorem.	..
1(5)	Electrical earthenware and porcelain, the following, namely :— (a) Insulators, Shackle, Sinclair, Cordeaux or Pin-type, not otherwise specified— (i) fitted	Preferential venue.	re-	30 per cent ad valorem or Re. 1-2 per dozen, whichever is higher.	20 per cent ad valorem.	..
	(ii) not fitted	Preferential venue.	re-	30 per cent ad valorem or fourteen annas per dozen, whichever is higher.	20 per cent ad valorem.	..
	(b) Two-way cleats	Preferential venue.	re-	30 per cent ad valorem or four annas per gross of pairs, whichever is higher.	20 per cent ad valorem.	..
	(c) Spacing insulators	Preferential venue.	re-	30 per cent ad valorem or two annas per gross, whichever is higher.	20 per cent ad valorem.	..
	(d) Ceiling roses— (i) fitted	Preferential venue.	re-	30 per cent ad valorem or ten annas per dozen, whichever is higher.	20 per cent ad valorem.	..
	(ii) not fitted	Preferential venue.	re-	30 per cent ad valorem or eight annas per dozen, whichever is higher.	20 per cent ad valorem.	..
	(e) Joint-box cut-outs— (i) fitted	Preferential venue.	re-	30 per cent ad valorem or eight annas per dozen, whichever is higher.	20 per cent ad valorem.	..
	(ii) not fitted	Preferential venue.	re-	30 per cent ad valorem or six annas per dozen, whichever is higher.	20 per cent ad valorem.	..
(6)	Rubber-Insulated Copper Wires and Cables, no core of which, other than one specially designed as a pilot core, has a sectional area of less than one-eighth part of a square inch, whether made with any additional insulating or covering material or not.	Revenue	..	6½ per cent ad valorem	..	..

* Under Government of India, Finance Department (Central Revenues) Notification No. 14, dated the 9th April, 1932, as amended subsequently, the following wireless apparatus is liable to duty at 2½ per cent ad valorem :—
(i) apparatus for wireless reception [excluding apparatus specially designed for the reception of broadcast wireless and apparatus of the description specified in clause (ii)] and component parts of such apparatus, when imported under cover of a certificate issued by the Director-General of Posts and Telegraphs to the effect that he is satisfied that the apparatus will not be used for the reception of broadcast wireless;
(ii) apparatus for wireless reception incorporated in a single unit with transmitting apparatus;
(iii) wireless transmission apparatus and component parts thereof;
Provided that nothing shall be deemed to be a component part of apparatus for wireless telegraphy or telephony for the purpose of this exemption unless it is essential for the working of such apparatus and has been given for that purpose some special shape or quality that would not be essential for its use for any other purpose.

THE FIRST SCHEDULE.—IMPORT TARIFF—*contd.*

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
				The United Kingdom.	A British Colony.	

SECTION XVII.

TRANSPORT MATERIAL.

74	Coal tubs, tipping wagons and the like conveyances designed for use on light rail track, if adapted to be worked by manual or animal labour and if made mainly of iron or steel; and component parts thereof made of iron or steel—					
	(a) of British manufacture	Protective	1½ times the excise duty leviable for the time being on steel ingots produced in British India* or 10 per cent ad valorem, whichever is higher.	..	..	March 1941.
	(b) not of British manufacture	Protective	1½ times the excise duty leviable for the time being on steel ingots produced in British India* plus Rs. 40 per ton; or 20 per cent ad valorem, whichever is higher.	..	..	March 1941.
74(1)	Tramcars and component parts and accessories thereof.	Revenue	25 per cent ad valorem	..	..	..
74(2)	Railway materials for permanent-way and rolling-stock, namely, sleepers, other than iron and steel, and fastenings therefor; bearing plates, chairs, interlocking apparatus, brake-gear, shunting skids, couplings and springs, signals, turn-tables, weigh-bridges, carriages, wagons, traversers, rail removers, scooters, trolleys, trucks; also cranes, water-cranes and water-tanks when imported by or under the orders of a railway administration:	Revenue	15½ per cent ad valorem	..	..	..
Provided that for the purpose of this entry 'railway' means a line of railway subject to the provisions of the Indian Railways Act, 1890, and includes a railway constructed in a State in India and also such tramways as the Governor General in Council may, by notification in the Gazette of India, specifically include therein: Provided also that articles of machinery as defined in Item No. 72 or No. 72 (3) shall not be deemed to be included hereunder.						

* The rate of excise duty on the 1st January, 1935, and until further notice, on all steel ingots produced in British India is Rs. 4 per ton.

THE FIRST SCHEDULE.—IMPORT TARIFF—*contd.*

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
				The United Kingdom.	A British Colony.	

SECTION XVII—*contd.*TRANSPORT MATERIAL—*contd.*

74(3)	Component parts of Railway Materials, as defined in Item No. 74 (2), namely, such parts only as are essential for the working of railways and have been given for that purpose some special shape or quality which would not be essential for their use for any other purpose:	Revenue	15½ per cent ad valorem	..	..	..
Provided that articles which do not satisfy this condition shall also be deemed to be component parts of the railway material to which they belong, if they are essential to its operation and are imported with it in such quantities as may appear to the Collector of Customs to be reasonable.						
75	Conveyances not otherwise specified and component parts and accessories thereof; also motor vans and motor lorries imported complete.	Revenue	25 per cent ad valorem	..	..	..
75(1)	Motor cars including taxi cabs and articles (other than rubber tyres and tubes) adapted for use as parts and accessories thereof, provided that such articles as are ordinarily also used for other purposes than as parts and accessories of motor vehicles included in this item or in Items Nos. 75 (2) and 75 (3) shall be dutiable at the rate of duty specified for such articles.	Preferential revenue.	37½ per cent ad valorem	30 per cent ad valorem.	..	..
75(2)	Motor cycles and motor scooters and articles (other than rubber tyres and tubes) adapted for use as parts and accessories thereof except such articles as are also adapted for use as parts and accessories of motor cars.	Revenue	37½ per cent ad valorem	..	..	..
75(3)	Motor omnibuses; chassis of motor omnibuses, motor vans and motor lorries; and parts of mechanically propelled vehicles and accessories not otherwise specified, excluding rubber tyres and tubes and such parts and accessories of motor vehicles included in this item as are also adapted for use as parts and accessories of motor cars.	Preferential revenue.	25 per cent ad valorem	17½ per cent ad valorem.	..	..
75(4)	Carriages and carts which are not mechanically propelled, not otherwise specified, and cycles (other than motor cycles) imported entire or in sections and parts and accessories thereof; excluding rubber tyres and tubes.*	Preferential revenue.	30 per cent ad valorem	20 per cent ad valorem.	..	..
76	Aeroplanes, aeroplane parts, aeroplane engines, aeroplane engine parts and rubber tyres and tubes used exclusively for aeroplanes.	Revenue	2½ per cent ad valorem	..	..	..

* Under Government of India, Finance Department (Central Revenues) Notification No. 14, dated the 9th April, 1932, as amended subsequently, wheels of bullock carts fitted with pneumatic tyres and tubes especially designed for use on bullock carts, including such wheels fitted with axles and hubs, are liable to duty at the rate of 15 per cent ad valorem when they are liable to a standard rate of duty and at the rate of 5 per cent ad valorem when they are liable to a preferential rate of duty.

THE FIRST SCHEDULE.—IMPORT TARIFF—*contd.*

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
				The United Kingdom.	A British Colony.	

SECTION XVII—*concl.*TRANSPORT MATERIAL—*concl.*

76(1)	Ships and other vessels for inland and harbour navigation, including steamers, launches, boats and barges imported entire or in sections : Provided that articles of machinery as defined in Item No. 72 or No. 72 (3) shall, when separately imported, not be deemed to be included hereunder.	Revenue	15½ per cent ad valorem	..	..	..
76(2)	Light ships	..	Free	..	..	..
76(3)	Furniture tackle and apparel, not otherwise described, for steam-sailing, rowing and other vessels.	Revenue	25 per cent ad valorem	..	..	..

SECTION XVIII.

SCIENTIFIC AND PRECISION INSTRUMENTS AND APPARATUS; WATCH-MAKERS' AND CLOCKMAKERS' WARES; MUSICAL INSTRUMENTS.

77	Instruments, apparatus and appliances other than electrical, all sorts not otherwise specified, including photographic, scientific, philosophical and surgical.*	Preferential revenue.	30 per cent ad valorem	20 per cent ad valorem.	..	..
77(1)	Instruments, apparatus and appliances, imported by a passenger as part of his personal baggage and in actual use by him in the exercise of his profession or calling.	..	Free	..	..	..
77(2)	Optical Instruments, apparatus and appliances	Revenue	25 per cent ad valorem	..	..	..
78	Clocks and watches and parts thereof	Revenue	50 per cent ad valorem	..	..	..
79	Musical Instruments and parts thereof, all sorts not otherwise specified.	Preferential revenue.	50 per cent ad valorem	40 per cent ad valorem.	..	..
79(1)	The following Musical Instruments, namely, complete organs and harmoniums and records for talking machines.	Revenue	50 per cent ad valorem	..	..	..

SECTION XIX.

ARMS AND AMMUNITION.

80	Save where otherwise specified, all articles which are arms or parts of arms within the meaning of the Indian Arms Act, 1878 (excluding springs used for air guns), all tools used for cleaning or putting together the same, all machines for making, loading, closing or capping cartridges for arms other than rifled arms and all other sorts of ammunition and military stores, and any articles which the Governor General in Council may, by notification in the Gazette of India, declare to be ammunition or military stores for the purposes of this Act.	Revenue	50 per cent ad valorem	..	..	..
----	---	---------	------------------------	----	----	----

THE FIRST SCHEDULE.—IMPORT TARIFF—*contd.*

WHEELS and AXLES

for locomotives, tenders, railway carriages and wagons, for tramcars, for colliery locomotives, for industrial and narrow gauge railways.

SPECIALITY:
LIGHT WEIGHT
WHEELS and AXLES DRP
and other foreign patents, with hollow axles, for main, secondary and industrial railway carriages and wagons and for tramcars.

COMPONENT PARTS

All types of tyred wheels, loose tyres, disc wheel centres, spoke wheel centres, axles, crank axles, return cranks, pins, etc.

SPRINGS OF ALL KINDS

LAMINATED BEARING SPRINGS, VOLUTE SPRINGS, HELICAL SPRINGS

of steel complying with the specifications of all home and foreign railways and buyers.

Speciality: Laminated bearing spring with new plate section DRP and continuous lubrication.

THE INDIAN TARIFF ACT, 1934.

THE following Act of the Indian Legislature received the assent of the Governor General on the 8th September, 1934 :—

ACT No. XXXII of 1934.

An Act to Consolidate the Law relating to Customs Duties.

WHEREAS it is expedient to consolidate the law relating to customs duties on goods imported into or exported from British India by sea and to customs duties on goods imported into or exported from British India by land; It is hereby enacted as follows :—

1. *Short title, extent and commencement.*—(1) This Act may be called the Indian Tariff Act, 1934.

(2) It extends to the whole of British India except the Chief Commissionership of Aden.

(3) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint in this behalf.

2. *Duties specified in Schedules to be levied.*—(1) There shall be levied and collected in every port to which this Act applies, the duties specified in the First and Second Schedules.

(2) The Governor General in Council may, by notification in the *Gazette of India*, fix, for the purpose of levying the said duties, tariff values of any articles enumerated, either specifically or under general headings, in the said Schedules as chargeable with duty *ad valorem* and may alter any tariff values for the time being in force.

(3) Different tariff values may be fixed for different classes or descriptions of the same article.

(4) Nothing in this Act shall authorise the levy of customs duties on any article carried from one customs port in British India to another such port except salt, opium and spirit.

3. *Levy of duty where standard rate and preferential rate are specified.*—(1) Where in respect of any article a preferential rate of revenue duty is specified in the First Schedule if the article is the produce or manufacture of the United Kingdom or of a British Colony, the duty to be levied and collected shall be at the standard rate, unless the article is the produce or manufacture of the United Kingdom or of a British Colony and the article is determined, in accordance with rules made under sub-section (2), to be such produce or manufacture.

(2) The Governor General in Council may, by notification in the *Gazette of India*, make rules—

(a) for determining if any article is the produce or manufacture of the United Kingdom or a British Colony; and

(b) making provision in cases where at the time of importation proof is not forthcoming where required in accordance

with the rules made under clause (a) that any article is the produce or manufacture of the United Kingdom or a British Colony—

(i) whereby duty may be levied at the standard rate and a refund given of the extra duty paid, if such proof is produced within a prescribed period, and

(ii) whereby duty may be accepted provisionally at the preferential rate on execution of a bond for the payment of the balance of duty if such proof is not produced within the prescribed period, and for the recovery of any balance due after the expiry of the prescribed period as if such balance were duty short-levied within the meaning of section 39 of the *Sea Customs Act, 1878* (VIII of 1878).

(3) For the purposes of this section and of the First Schedule, the expression "United Kingdom" means the United Kingdom of Great Britain and Northern Ireland, and the expression "British Colony" includes a British Protectorate and any of the Mandated Territories of Tanganyika, the Cameroons under British Mandate and Togoland under British Mandate.

4. *Power of Governor General in Council to alter protective duties.*—(1) Where, in respect of any article chargeable under the First Schedule with a duty characterised in the third column thereof as protective, the Governor General in Council is satisfied, after such inquiry as he thinks necessary, that such duty has become ineffective or excessive for the purpose of securing the protection intended to be afforded by it to a similar article manufactured in India, he may, by notification in the *Gazette of India*, increase or reduce such duty to such extent as he thinks necessary either generally or in respect of such article when imported from or manufactured in any country or countries specified in the notification :

Provided that the duty leviable on any such article shall in no case be less than the duty leviable on a like article of British manufacture.

(2) The Governor General in Council may, by notification in the *Gazette of India*, prescribe the conditions subject to which articles shall be deemed to be of British manufacture for the purposes of this section and of the First Schedule.

5. *Duties on imports and exports by land.*—Where a customs duty at any rate prescribed by or under this Act or any other law for the time being in force is leviable on any article when imported into, or on any article when exported from, a port in British India, the Governor General in Council may, by

notification in the *Gazette of India*, direct that a duty of customs at the like rate shall be leviable on any such article when imported or exported, as the case may be, by land from or to any territory outside British India, which he may, by a like notification, declare to be foreign territory for the purposes of this section.

6. *Duty on salt, opium and spirit, when protected by a certificate.*—(1) Salt, opium and spirit imported from any port in British India and protected by the certificate of any officer empowered in that behalf by the Governor General in Council or the Local Government, are chargeable with only the amount, if any, by which the duty leviable thereon under the First Schedule exceeds the duty shown by such certificate to have been already paid in respect thereof.

(2) The amount, if any, paid to the Government as the price of such salt or opium is not duty within the meaning of this section.

(3) Nothing in this section applies to spirit which is exported under bond for excise duty from one customs-port to another customs-port, under the provisions of Chapter XIV of the Sea Customs Act, 1878 (VIII of 1878).

7. *Application of certain provisions as to duties and goods.*—So far as regards the Presidency of Fort Saint George the unrepealed provisions of the Madras Inland Customs Act, 1844 (VI of 1844), and so far as regards the Presidency of Bombay, the unrepealed provisions of the Bombay Land-customs Act, 1857 (XXIX of 1857), relating to the levy of duties and to dutiable goods, shall, *mutatis mutandis*, apply to duties levied and goods liable to duty under or by virtue of section 5.

8. *Additional import duty on bounty-fed articles.*—(1) Where any country, dependency or colony pays or bestows, directly or indirectly, any bounty or grant upon the production therein or the exportation therefrom of any article and the article is chargeable with duty under the provisions of this Act, then, upon the importation of any such article into British India, whether the same is imported directly from the country of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Governor General in Council may, by notification in the *Gazette of India*, impose an additional duty equal to the net amount of such bounty or grant, however the same be paid or bestowed.

(2) The net amount of any such bounty or grant as aforesaid shall be, from time to time, ascertained, determined and declared by the Governor General in Council, and the Governor General in Council may, by notification in the *Gazette of India*, make rules for the identification of such articles and for the assessment and collection of any additional duty imposed upon the importation thereof under sub-section (1).

9. *Special import duty on sugar in certain cases.*—(1) Where the rate of duty or other taxation imposed in any country, dependency or colony upon sugar not produced therein exceeds the rate of duty or other taxation imposed upon sugar produced therein by more than the equivalent of six francs per one hundred kilogrammes in the case of refined sugar or five francs and fifty centimes per one hundred kilogrammes in the case of other sugar, then, upon the importation of any sugar from such country, dependency or colony into British India, whether the same is imported directly from the country of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Governor General in Council may, by notification in the *Gazette of India*, impose in addition to any other duty or taxation imposed under this Act or any other law for the time being in force, a special duty not exceeding one moiety of such excess.

(2) The Governor General in Council may, from time to time, by general or special order, declare, for the purposes of sub-section (1),—

- (a) what articles or substances containing any saccharine matter shall be deemed to be "sugar" and what kinds of sugar shall be deemed to be "refined sugar" or "other sugar", respectively; and
- (b) what sums in the currency of British India shall be deemed to be the equivalent of "francs" and "centimes", respectively.

(3) The amount of the excess referred to in sub-section (1) shall be from time to time ascertained, determined and declared by the Governor General in Council, and the Governor General in Council may, by notification in the *Gazette of India*, make rules for the identification of sugar and for the assessment and collection of any special duty imposed upon the importation thereof under sub-section (1).

10. *In contracts amount of increased or decreased duty to be added or deducted.*—In the event of any duty of customs or excise on any article being imposed, increased, decreased or remitted after the making of any contract for the sale of such article without stipulation as to the payment of duty where duty was not chargeable at the time of the making of the contract, or for the sale of such article duty paid where duty was chargeable at that time,—

- (a) if such imposition or increase so takes effect that the duty or increased duty, as the case may be, or any part thereof, is paid, the seller may add so much to the contract price as will be equivalent to the amount paid in respect of such duty or increase of duty, and he shall be entitled to be paid and to sue for and recover such addition, and

- (b) if such decrease or remission so takes effect that the decreased duty only or no duty, as the case may be, is paid, the purchaser may deduct so much from the contract price as will be equivalent to the decrease of duty or remitted duty, and he shall not be liable to pay, or be sued for, or in respect of, such deduction.

11. *Duration of protective duties and power of Governor General in Council to modify or remit certain duties.*—(1) When the duty specified for any article in the First Schedule is characterised as protective in the third column of that Schedule, that duty shall have effect only up to the date, if any, specified in the seventh column of that Schedule.

(2) If, after such inquiry as he thinks necessary, the Governor General in Council is of opinion that the duty specified in the First Schedule in respect of wheat has become unnecessary or excessive, he may, by notification in the *Gazette of India*, remit such duty or reduce it to such extent as he thinks fit.

(3) If, after such inquiry as he thinks necessary, the Governor General in Council is of opinion that

the duty specified in the First Schedule in respect of wheat flour is excessive, he may, by notification in the *Gazette of India*, reduce such duty to such extent as he thinks fit, but not so as to make it lower than an *ad valorem* duty of twenty per cent.

12. *Power to cancel notifications.*—All notifications published under this Act may be cancelled by the authority publishing the same.

13. (1) *Repeals.*—The Acts mentioned in the Third Schedule are repealed to the extent specified therein.

(2) All notifications published and all rules and orders made, or deemed to have been made, under any of those Acts and in force immediately before the commencement of this Act shall, so far as they are consistent herewith, be deemed to have been, respectively, published and made under this Act, and all references made, or deemed to be made, to the Indian Tariff Act, 1894 (VIII of 1894), in Acts or Regulations passed before the commencement of this Act shall be deemed to be made to this Act.

THE FIRST SCHEDULE.

IMPORT TARIFF.

Item No.	Name of article.	Nature of duty.	Standard rate of duty.	Preferential rate of duty if the article is the produce or manufacture of		Duration of protective rates of duty.
