REPORT ON COCONUT ENQUIRY IN INDIA—

The following Press *communiqué*, dated the 1st October, 1934, has been issued by the Secretary, Imperial Council of Agricultural Research, Simla:—

The Imperial Council of Agricultural Research in order to ascertain the real facts of the position in South India in regard to the supply of coconut products and coconut oil appointed Dr. J. S. Patel, Oilseeds Specialist to the Government of Madras, as a whole time Officer under the Council for a period of about seven months.

The Officer visited the most important coconut growing districts in India and Ceylon to study at first hand the economics of coconut production with special reference to:—

- The prices now obtained by the cultivators for coconuts and coconut products.
- The prices paid for copra by oil crushers in South India.
- The extent to which the coir industry interferes with the copra supply.
- Whether the shortage of coconut products in South India is local or general; if the former, the difficulties in getting supplies to the oil crushers.
- The extent of the increase of coconut cultivation during the last few years.
- The area of new coconut gardens not in bearing.
- The extent of first class coconut land already planted and the scope there is for expansion.
- The cost of cultivation and general agricultural practices.
- The yields of coconuts in the different tracts in various conditions.

The results of his investigations are contained in the Report on Coconut Enquiry in India which is published today (1st October) for the information of the public. The report covers 168 pages and can be obtained from the Manager of Publications, Civil Lines, Delhi (price Rs. 3-8-0 or 6s. a copy).

JOINT STOCK COMPANIES IN BENGAL—

During the month of August, 1934, twenty-five new Joint Stock Companies, limited by shares, with an aggregate authorised capital of Rs. 61,64,000 were registered under the Indian Companies Act

(VII of 1913) in the Bengal Presidency. The respective details are given below:—

French India	71	200
TOTAL	130-03	42,332

[NOTE.—The rate of exchange at the end of August, 1934, was Rs. 155-50=100 dollars.]

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 30th September.—Nearly general in Lower Burma and west Central Provinces on 4 days, west Central India, east United Provinces, north Madras coast, Konkan and Bombay Deccan 2, Bengal, Kashmir, Upper Burma, north Hyderabad, Orissa, east Central Provinces, Central Provinces, Hyderabad and east Central India on 1 day. Local or a few falls elsewhere. Monsoon generally weak.

Crops: Madras, week ending 22nd September.—Rainfall generally below normal. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts. Standing crops generally fair except in flood affected area of east Godavari and in parts of Bellary, Anantapur, Madura and Tinnevely where adversely affected for want of rain. Bihar and Orissa, week ending 25th September.—Rain fell in all districts; heavy in Bhagalpur, Cuttack, Angul, Puri, Sambalpur and in parts of Gaya, Darbhanga, Monghyr, Santal Parganas, Balasore and Singbhum and light to moderate elsewhere. Standing crops including sugarcane generally good. Jute being harvested in Cuttack and Balasore. More rain needed in parts of Purnea. Punjab, week ending 24th September.—Weather remained practically dry. Rain badly wanted in some districts. Standing crops generally average to good on irrigated and below average to average on unirrigated areas. Damage to sugarcane by "top-borer" reported from parts of Rohtak and Karnal and by "Pyralid-borer" from parts of Gurdaspur. Insects damaged standing crops in parts of Gurgaon, Hissar and Dera Ghazi Khan. Cotton also reported to have been affected by *tela* and root-rot disease in Sargodha *tahsil*, Shahpur district. Central Provinces, week ending 22nd September.—After short break in beginning of week weather turned cloudy and bay depression which extended east-north of province gave heavy rain in Chhattisgarh and northern districts. Elsewhere rainfall light with occasional sunshine. In districts of Jubbulpore and Nagpur divisions standing crops on rich and low-lying soils reported to be backward on account of excessive moisture and lack of sunshine. Long break badly needed to improve their condition. In rice country standing crops good while in Berar rapidly improving owing to suitable break. Weeding and other field operations in progress. United Provinces, week ending 22nd September.—Light to moderate rain except in districts of Dehra Dun, Saharanpur, Muzaffarnagar, Bulandshahr, Aligarh Mainpuri, Etah, Bijnor, Moradabad, Shahjahanpur, Pilibhit, Farrukhabad, Garhwal, Sitapur, Hardoi, Bahraich and Bara Banki. Damage reported from Tehri Garhwal State. Preparation of land for *rabi* and harvesting of *kharif* continue. Standing crops doing well and prospects so far favourable. Bombay, 29th September.—Rainfall during week practically

absent except light showers in places Khandesh, in north Deccan, Gujarat and Konkan. In Konkan outlook fairly satisfactory. Elsewhere *rabi* sowings hampered in parts and standing crops withering in places. Rain badly needed. Sind, 29th September.—No rain during week. Sky mostly clear. Picking of early sown American cotton in full swing. Other *kharif* crops good. Assam, 1st October.—Weather seasonable. Outturn and prospects of crops fair. Bengal, 1st October.—Excepting heavy showers in places rainfall generally light to moderate. Transplanted winter paddy flourishing under favourable conditions. Prospects generally fair.

Intermediate Crop Report:—Cotton: North-West Frontier Province.—Since last forecast no increase in total area sown. Rainfall practically throughout province except in vicinity of Peshawar City. Prospects normal.

Bombay, 27th September:—Cotton: Market steady. No. 3 Fine M. G. Oomras Rs. 185 December-January, 1935.

Calcutta, 29th September.—Jute market ruled quiet and easier with shippers showing no interest. New Crop Firsts Rs. 24-8 ready. Hessians little business. Nine Porters Rs. 8-8; Elevens Rs. 10-15 Ready. Heavies quiet but steady with little business. B. Twills Rs. 23-15 for October delivery.

Calcutta, 28th September.—Shellac T. N. Rs. 46. Imperial Bank rate unchanged at 3½ per cent. Rangoon, 26th September.—Specials White Rice, Big Mills Rs. 207-8; Small Mills Rs. 219 October. Paddy, 29th September.—Rs. 86 and Rs. 87 (river) and Rs. 85 to Rs. 86 (rail).

Wheat, 27th September: Lyallpur.—Rs. 1-14-9 f.o.r. per maund. Bombay.—White Delhi per cwt. railway terms Rs. 3-15-3 January and Rs. 4-1-6 May. 28th September: Karachi.—Punjab White Rs. 20 per candy.

Sixteenth Tea Sale, Calcutta, 24th and 25th September.—16 thousand chests Leaf for export and 16 thousand chests for Internal consumption average price As. 8-2 and As. 4-9, respectively, and 10 thousand chests Dust at As. 5-3, sold. Moderate supply met improved demand. Low level established at previous sale produced more general enquiry and although common and medium Pekoes and Orange Pekoes frequently failed to attain last prices, there was considerably more demand for all other grades. Common broken often 3 to 6 pies per lb. dearer and medium broken grades sold more readily at small advance. Fannings grades, which had proved such weak feature of recent sales, received considerably better support and these advanced frequently ½ to ¾ anna. Few stylish Orange Pekoes available on offer secured full prices. Internal consumption: Further large quantity offered. Good general demand, and with occasional irregularity last week's prices maintained.

Total authorised capital, Joint Stock Companies registered during August, 1934, Rs. 2,47 lakhs.

Oct. 4, 1934.]

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

INDIAN—

Ilmenite.

BURMA'S RICE AND PADDY TRADE IN 1933-34.

THE Report on the Maritime Trade of Burma for the official year 1933-34 states:—

The outstanding feature of the rice trade of the year under review was the diversion of exports from foreign ports to meet the large demand from India.

Exports to foreign countries fell for various reasons chief among them being—

- (i) the imposition by Chinese Government of import duty on rice, and
- (ii) the disallowance of the import of rice into Japan except under license which practically meant total prohibition of trade.

But taking the whole financial year into consideration, the total exports to foreign countries fell by only 130,303 tons to 1,526,689 tons when compared to the previous year; if China and Japan alone were taken together, the total decrease for these two places was 136,170 tons, the actual decrease in Europe's share of the trade being quite small. The coasting exports rose by 742,652 tons to 1,788,914 tons. Had it not been for the fact that Japan and Siam supplied some quantities of rice to India from the commencement of the latter part of the official year, exports of Burma rice to India would have gone up still further. The net result of the total export trade was therefore an increase in quantity of 612,349 tons during the year 1933-34.

The value of the export trade of rice from Burma represented in the year under review 41 per cent of the total trade of Indian merchandise exported from the Province as against 43 per cent in the previous year. Rangoon's share of the total quantity of rice exported amounted to 70 per cent against 73 per cent in the previous year. Bassein's, Akyab's and Moulmein's contributions were 13 per cent, 9 per cent and 8 per cent as against 11 per cent, 9 per cent and 7 per cent.

An important factor in the trade of this commodity during the year under report was that there were practically no exports of paddy to foreign countries, except Ceylon, though the prices were very low.

PRICES.

The operations of the market were interesting, and a brief review of them would not be out of place. The outlook from the very commencement of the year under report (April, 1933) was gloomy, and it remained so till the end, paddy quotations being down to Rs. 60 per 100 baskets of 46 lbs. each and rice (Big mills) down to Rs. 147-8 per 100 baskets of 75 lbs. each. May, 1933, was a little brisker owing to heavy shipments to Hong Kong and the price rose to Rs. 155 to Rs. 162-8, while the price of paddy stood at Rs. 64/65. About the middle of June, price of rice rose to Rs. 170 while paddy to Rs. 70. Though the prices had gone up, they showed no firmness for long, and a downward tendency soon developed. From the last week of June to end of August the prices of rice were ruling between Rs. 165 and Rs. 152-8 with minor fluctuations. By about the middle of August Indian markets were fully stocked and the prospects of further sale were rather gloomy. At the same time news of the new Dutch Import Regulations had assisted to depress the markets with the result that the market was very inactive.

The continued absence of demand, due probably to the Japanese and Siamese entry to Indian markets at this part of the year, caused great stagnation. In addition there were no buyers for new crop and

the result was that September, 1933, saw a dull and depressed market, price of rice being down to Rs. 145 and paddy to Rs. 63/65. Due to scarcity of supplies of old crop the prices of rice again showed an upward tendency, and in fact they went as far as Rs. 180 and Rs. 190 in the last two weeks of November, but there were few buyers at these prices. New crop business also continued almost neglected, there being no apparent demand from anywhere. This state of affairs continued till the middle of December, 1933, when the prices again fell.

Taking advantage of this fall in prices, January, 1934, looked brighter due to Indian demands, though there was no improvement in foreign. As even the Indian demand steadied down, not being affected by the havoc played by Bihar Earthquake, prices gradually fell, the price of rice in early February, 1934, being from Rs. 138 to Rs. 145, while paddy was at Rs. 60. There was again a further decline in prices from the latter part of February, 1934, onwards, and the year (March, 1934) closed with a price for rice (Big mills) from Rs. 132-8 to Rs. 128 and for paddy at Rs. 53.

NEW CROP.

The Government forecast of the exportable surplus out of the new crop was 3-20 million tons (all kinds of rice and rice products), i.e., short by 0-25 million tons on the corresponding forecast for the previous year. This shortage might be attributed to the economic condition of the Agricultural class.

EXPORTS OF SUGAR FROM JAVA DURING JULY, 1934.

(Supplied by the Sugar Technologist, Imperial Council of Agricultural Research, India.)

ACCORDING to the figures issued by the "Centraal Kantoor Voor de Statistiek", Weltevreden, the exports of different assortments of sugar from Java during the month of July, 1934, amounted to 95,577 metric tons as against 99,012 tons during the same month last year. The respective quantities of the different assortments shipped were as under.

Assortments.	July, 1934.	Total for 3 months May to July, 1934.
	Metric tons.	Metric tons.
Superior Head Sugar	53,712	157,820
Superior Soft Sugar	1,011	1,131
Head Sugar 16 D. S. and higher	32,936	74,020
Mascovadoes	2,539	13,614
Molasses sugar	5,379	7,150
TOTAL	95,577	253,544

Out of the above total shipments during the month of July, 1934, 14,637 metric tons went to destinations West of Suez as against 22,443 tons during the month of July, 1933. British India took 27,633 metric tons during the month of July, 1934, as against 20,919 tons during the corresponding month of 1933. Hongkong and China between themselves took 21,521 metric tons during the month of July, 1934, as against 26,677 tons during the same month last year, while Japan increased her imports of Java sugar from 6,055 metric tons during the month of July, 1933, to 9,249 tons during the month of July, 1934.

The table below gives the details of exports during the month of July, 1934, as compared with the corresponding month of 1933 :-

Destinations.	July, 1934.	Total for 3 months May to July, 1934.	July, 1933.	Total for 3 months May to July, 1933.

The stocks of all grades of sugar in the different ports of Java on the 1st August, 1934, were estimated at 2,378,404 metric tons as against 2,773,868 tons and 2,427,120 tons on the same date during 1933 and 1932, respectively.

Oct. 4, 1934.]

CORIANDER.

THE following Press *communiqué* has been issued by the Secretary, Imperial Council of Agricultural Research, Simla :-

Coriander is a commodity which rarely appears in statistics or official publications but which is a fairly important condiment in Indian cookery and is one of those minor crops which give a fairly high return to the cultivator. Grown mainly for internal consumption, we have nevertheless a substantial export which at present price is valued at about Rs. 5 lakhs per annum, our principal customers being the Straits Settlements and Ceylon.

During the visit of the Ceylon Trade Deputation in 1933 mention was made of the fact that Indian Coriander seed seemed to be losing ground in the Ceylon market and a complaint was received both in regard to its flavour and the purity of the samples. In particular it was stated that the Coriander seed shipped from India to Ceylon contained disproportionate amounts of husk and dirt and compared unfavourably with Coriander from Morocco.

Through the courtesy of the Chief Collector of Customs, Ceylon, the Imperial Council of Agricultural Research was able to obtain samples of Russian Coriander, Moroccan Coriander, Tuticorin Coriander and Rangoon Coriander as imported into Ceylon. For comparison typical trade samples of Coriander from the Udampet market in the Coimbatore district were obtained. These were examined in detail by the Agricultural Chemist to Government, Madras, whose report is being published in the forthcoming number of Agriculture and Live Stock in India. The main results are of general interest as they provide a striking example of Indian produce of intrinsically good quality losing ground by reason of adulteration of the clumsiest character. The Tuticorin sample of Coriander contained about 3/10th per cent of stalk—a figure which coincides closely with that for Moroccan Coriander and the extraneous seeds and other grains amounted to also 3/10th per cent again the same as Moroccan Coriander but the extraneous material, in other words dirt, amounted to over 20 per cent as against less than one per cent for Moroccan produce. A sample from Rangoon contained 1-68 per cent stalk which was certainly excessive but contained only 0-10 per cent other grains and less than 4 per cent of extraneous material. The figures for local Coimbatore Coriander as sold in the bazar for local consumption are most instructive—other grains amounted to one-ninth per cent and stalk to one-eighth per cent, so that taking it all round the Coimbatore district sample was the cleanest of all those examined. These Russian samples contained very little stalk but higher amounts of 'other grains and seeds' than the Indian samples.

The essential oil content, which may be said to determine the pungency and efficacy of a sample of Coriander, was also determined and the Indian samples were in no way inferior to the Moroccan samples but on the whole had rather a higher trend. In regard to the flavour of the seed and the characters of the essential oil, the Indian samples were found to be highly satisfactory.

It is obvious that with even reasonable attention to cleanliness, Indian Coriander can easily hold its own and it is important that steps to this end should be taken for India cannot afford to lose any of its markets for these minor agricultural products which in the aggregate mean so much to the cultivator and market gardener.

EXTRACT FROM LINSEED CIRCULAR NO. 38 OF 1934 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 21st September, 1934—

Quotations for Linseed and Linseed Oil—	£ s. d.
Indian Linseed.—September-October delivery c.i.f. per ton	11 10 0
Argentine Linseed.—September-October delivery c.i.f. (excluding duty) per ton	10 10 0
Linseed Oil.—September-October delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	19 0 0

Market Conditions.—Indian linseed was offered more freely during the week and prices were in sympathy with other oilseeds. The response of buyers was not encouraging in view of reported satisfactory crop developments in Argentine and favourable new crop ascribed to India. Continent interest in Plate seed is moderate.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed: 'Bombay, Bold commands a premium over 'Calcutta'.]

Calcutta, 12th September, 1934—

Quotations for Linseed Oil—	Rs. 1 12 0
Linseed Oil, European make (Raw)	per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1 14 0
	per gallon f.a.s.

Market Conditions.—The linseed market has remained quiet during the week with values slightly easier in sympathy with Home and Plate markets.

Bombay, 15th September, 1934—

Quotations for Linseed Oil—	Rs. 3-8-0 per
Linseed Oil	maund.

Stocks of Linseed.—Linseed stock in Bombay on the 15th September, 1934, was estimated at 15,000 tons.

THE SUGAR (EXCISE DUTY) BERAR ORDER, 1934.

THE following Notification (No. 451-I. B., dated the 20th September, 1934) has been issued by the Government of India in the Foreign and Political Department:—

In exercise of the powers conferred by sections 10 and 11 of the Sugar (Excise Duty) Act, 1934 (XIV of 1934), as applied to Berar, the Governor General in Council is pleased to apply in the adapted form set out below certain provisions of the Sea Customs Act, 1878 (VIII of 1878), and to make certain rules for the purpose of providing for the assessment and collection of the duty imposed by the first mentioned Act.

CHAPTER I.

Short title and definitions.

1. This Order may be called "The Sugar (Excise Duty) Berar Order, 1934".

2. In this Order unless there is anything repugnant in the subject or context:—

(i) "the Act" means the Sugar (Excise Duty) Act, 1934, as applied to Berar;

(ii) "Collector" means the chief officer in charge of the revenue administration of a district and includes any officer specially authorized to exercise throughout Berar or any specified area therein all or any of the powers of a Collector under this Order;

(iii) "Inspecting officer" means any officer of the Land Revenue, Excise, Customs, Salt or Income-tax Department authorized by the Collector to inspect the premises in which sugar liable to duty is possessed or manufactured and shall include an officer permanently stationed at the factory to supervise its operations:

Provided that no officer of the Customs, Salt or Income-tax Department shall be appointed by the Collector to be an Inspecting Officer without the previous approval of the Central Board of Revenue;

(iv) "Duty" means the duty payable under section 3 of the Act.

CHAPTER II.

Special appointments and delegations.

3. Unless the Governor General in Council shall in any case otherwise direct, the power of specially authorizing any officer to exercise throughout Berar or any specified area therein all or any of the powers of a Collector under this Order shall be exercisable by the Local Government.

CHAPTER III.

Manufacture.

4. Every owner of a factory shall keep a correct daily account in Form A appended to this Order. Separate accounts shall be kept for (a) sugar other than khandasari sugar or palmyra sugar; (b) khandasari sugar; and (c) palmyra sugar.

5. Within five days after the close of each month, every owner of a factory shall submit to the Collector a monthly return in Form B appended to this Order showing the quantity of sugar issued from the premises of the factory or used within the said premises for the manufacture of any commodity other than sugar during that month. Separate returns shall be filed for (a) sugar other than khandasari sugar or palmyra sugar, (b) khandasari sugar, and (c) palmyra sugar.

6. On receipt of the return referred to in Clause 5, the Collector shall, after verification of the return of exports, if any, to places outside India and such other enquiry as he may deem fit, assess the duty payable on sugar removed from the factory or used within its premises for the manufacture of any commodity other than sugar. If the owner of a factory fails to submit a return the Collector may make a summary assessment on such information as may be available. The amount assessed shall be communicated to the owner of a factory who shall pay it into the Treasury by the end of the month following that for which the return was required to be made.

7. The Collector or Inspecting Officer may enter the premises of any owner of a factory and inspect the building, the machinery, the stocks and the accounts and may at any time check the correctness of the records made of removals of sugar from the factory or their transfer within the factory to that part of the premises (if any) in which it is to be used for the manufacture of any commodity other than sugar.

8. Any owner of a factory who fails to keep a correct daily account or refuses to permit any authorized officer to enter his premises and inspect the building, machinery, stocks and accounts shall be punishable with imprisonment which may extend to six months or with fine which may extend to one thousand rupees or with both.

CHAPTER IV.

Refunds and Remissions.

9. Any person who exports from Berar to any place outside India sugar on which duty has been paid under the Act, shall, on production of satisfactory evidence before the Collector that the sugar has been so exported and that the duty has been paid in respect of such sugar receive a refund of that duty. If the exporter is the owner of the factory

in which the sugar was produced, such refund may, at the discretion of the Collector, be paid in cash or be set off against duty due from the owner of the factory.

9A. Any owner of a factory who receives into the factory for the purpose of further refinement or manufacture, sugar on which duty has been paid under the Act, shall, on production of satisfactory evidence before the Collector that the duty has been paid in respect of such sugar, receive a refund of that duty. Such refund may, at the discretion of the Collector, be paid in cash or be set off against duty due from the owner of the factory.

10. The Governor General in Council may, by notification in the *Gazette of India*, exempt any sugar from the whole or any part of the duty leviable thereon.

CHAPTER V.

Miscellaneous.

11. Any dispute as to the sucrose content of sugar shall be determined by reference to such officer as the Local Government may empower in this behalf.

12. An appeal shall lie from any order of the Collector to such authority as the Local Government may direct, and any order of the Collector— or of such authority may be revised by the Local Government or such higher authority as the Local Government may direct: provided that in the case of an officer whose special authorization under Clause 3 has been made by the Governor General in Council, the appeal shall lie to the Central Board of Revenue and any order of such Collector or of the Central Board of Revenue may be revised by the Governor General in Council:

Provided further that no order in revision shall be passed having an effect more prejudicial to the person concerned than the order under revision without such person being given an opportunity of stating his case.

13. No appeal under Clause 11 shall be admitted unless received by the appellate authority within three months of the date of the Collector's order.

14. The Local Government may empower any officers of any department under its control to search any place, vessel, cart or means of conveyance for sugar liable to duty and to seize and remove or detain any sugar which may appear to them to have been illegally imported or manufactured.

15. The Collector may accept from any person who is reasonably suspected of having committed an offence under the Act or under this Order a sum of money not exceeding one thousand rupees in lieu of punishment for breach of any of the provisions of this Order.

16. When duty has been short-levied through inadvertence, error, or misconception on the part of the Collector, or through mis-statement as to quantity on the part of the owner of a factory,

or, when any such duty after having been levied has been, owing to any such cause, erroneously refunded,

the person chargeable with the duty so short-levied, or to whom such refund has erroneously been made, shall pay the deficiency or repay the amount paid to him in excess, on demand being made within three months from the close of the month in respect of which the duty shall have been levied or from the date of making the refund.

17. No duty which has been paid and of which repayment wholly or in part is claimed in consequence of the same having been paid through inadvertence, error or misconception shall be returned unless such claim is made within three months from the date of such payment.

THE MATCHES (EXCISE DUTY) BERAR ORDER, 1934.

THE following Notification (No. 453-I. B., dated the 20th September, 1934) has been issued by the Government of India in the Foreign and Political Department :—

In exercise of the powers conferred by sections 17 and 18 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), as applied to Berar the Governor General in Council is pleased to apply in the adapted form set out below certain provisions of the Sea Custom Act, 1878 (VIII of 1878), and to make certain rules for the purpose of providing for the assessment and collection of the duty imposed by the first mentioned Act and for control over the manufacture, importation and supply of veneers and splints :—

CHAPTER I.

Short title and definitions.

1. This Order may be called "The Matches (Excise Duty) Berar Order, 1934."

2. In this Order unless there is anything repugnant in the subject or context,—

- (i) "the Act" means the Matches (Excise Duty) Act, 1934, as applied to Berar ;
- (ii) "Collector" means the chief officer-in-charge of the revenue administration of a district and includes any officer specially authorized to exercise throughout Berar or any specified area therein all or any of the powers of a Collector under this Order ;

(iii) "Inspecting officer" means any officer of Government authorized by the Collector to inspect any premises in which matches liable to duty or splints or veneers are possessed or manufactured ; and includes any officer permanently stationed at any such premises :

Provided that no officer of the Customs, Salt or Income-tax Department shall be appointed by the Collector to be an Inspecting Officer without the previous approval of the Central Board of Revenue.

(iv) "Duty" means the duty payable under the Act.

CHAPTER II.

Special appointments and delegations.

3. Unless the Governor General in Council shall in any case otherwise direct the power of specially authorizing any officer to exercise throughout Berar or any specified area therein all or any of the powers of a Collector under this Order shall be exercisable by the Local Government.

CHAPTER III.

Manufacture of Matches.

4. The Collector may issue to any person, firm or company, being the owner of a manufactory, a licence in Form A appended to this Order to manufacture matches :

Provided that the holder of such a licence shall not, without the sanction of the Governor General in Council, be given a licence in respect of any other manufactory within the same district.

5. The holder of a licence in Form A may manufacture matches subject to the conditions of this licence.

6. The position of the premises covered by a licence to manufacture matches shall be clearly described in the licence and the licensee shall manufacture matches within the premises therein described and not elsewhere.

7. Every holder of a licence in Form A shall keep a correct daily account in the form prescribed in the licence.

8. Within five days after the close of each month, every holder of a licence in Form A shall submit to the Collector a monthly return in Form B appended to this Order showing the number of boxes of matches removed from the manufactory during that month.

9. On receipt of the return referred to in clause 8, the Collector shall, after verification of the return of exports, if any, to places outside India, and such other enquiry as he may deem fit, assess the duty payable on matches (other than matches in boxes or booklets bearing a banderol) removed from the

Oct. 4, 1934.]

manufactory. If the licensee fails to submit a return the Collector may make a summary assessment on such information as may be available. The amount assessed shall be communicated to the licensee who shall pay it into the Treasury by the end of the month following that for which the return was required to be made.

10. The Collector or Inspecting Officer may enter the premises of any holder of a licence in Form A and inspect the licence, the building, the machinery, the stocks of matches and of materials for use in manufacturing matches and the accounts.

11. A licensee shall not transfer his licence or sublet the licensed premises to any other person without the permission in writing of the Collector.

12. Any licensee who fails to keep a correct daily account or refuses to permit any authorized officer to enter the licensed premises and inspect the licence, building, machinery, stocks and accounts or transfers the licence or sublets the licensed premises to any other person without the permission of the Collector shall be punishable with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

CHAPTER IV.

Refunds and Remissions.

13. Any person who exports from Berar to any place outside India matches on which duty has been paid under the Act, shall, on production of satisfactory evidence before the Collector that the matches have been so exported and that the duty has been paid in respect of these matches, receive a refund of that duty.

14. The Governor General in Council may, by notification in the *Gazette of India*, exempt any matches from the whole or any part of the duty leviable thereon.

CHAPTER V.

Manufacture and Importation of Splints and Veneers.

15. A licence in Form A shall be deemed to authorize the holder thereof to manufacture splints and veneers to be used in the manufacture within his own manufactory of matches and match boxes.

16. The Collector may issue to any holder of a licence in Form A a licence in Form C appended to these Rules to manufacture splints and veneers for use in the manufacture of matches in another manufactory and may likewise issue to any other person, firm or company a licence in the same form to manufacture splints and veneers.

17. Any holder of a licence in Form C may manufacture splints and veneers subject to the conditions of his licence.

18. The position of the premises covered by a licence to manufacture splints and veneers shall be clearly described in the licence and the holder of the licence shall manufacture splints and veneers within the premises described therein and not elsewhere.

19. Every holder of a licence in Form C shall keep a correct daily account in the form prescribed in the licence.

20. The Collector or Inspecting Officer may enter the premises of any holder of a licence in Form C and inspect the licence, the building, the machinery, the stocks and the accounts.

21. The holder of a licence in Form C shall not transfer his licence or sublet the licensed premises to any other person without the permission in writing of the Collector.

22. Any holder of a licence in Form C who fails to keep a correct daily account or refuses to permit any authorized officer to enter the licensed premises and inspect the licence, building, machinery, stocks and accounts or transfers the licence or sublets the licensed premises to any other person without the permission of the Collector shall be punishable with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees or with both.

23. The Chief Customs officer for any Customs-port may issue to any person, firm or company a licence in Form D appended to these Rules to import splints and veneers through such port.

CHAPTER VI.

Miscellaneous.

24. The duty on matches to which clause (b) of section 4 of the Act applies shall be at the rate of four annas for every 1,440 matches or fraction thereof.

25. Every holder of a licence in Form A or Form C shall furnish such security as may be demanded by the Collector for the observance of the conditions of his licence and for the payment of duty.

26. The period of a licence to manufacture matches or to manufacture splints and veneers or to import splints and veneers shall be from 1st April in any year or any later date on which the licence may be issued to the 31st March following.

27. There shall be a counterpart for each licence and the counterpart shall be in the same form as the licence itself. The licensee shall, at the time his licence is delivered to him, be required to sign the counterpart of his licence in token of his acceptance of the conditions specified in the licence.

28. A fee of rupees one hundred shall be payable for every licence to manufacture matches or to manufacture splints and veneers or to import splints and veneers for each year or part of a year :

Provided that (i) a licence to manufacture splints and veneers shall be issued free on application to any holder of a licence in Form A, and

(ii) a licence to import splints and veneers at a Customs-port shall be issued free to any holder of a similar licence available at any other Customs-port.

29. The Collector who grants a licence under this Order may cancel it in case of a breach of any of the conditions therein or of the Act or of the provisions of this Order.

30. The Collector may permit the surrender of a licence issued under this Order on one month's written notice; and shall grant such refund, if any, of part of the fee paid for the year during which the licence is surrendered as the Local Government may in each case determine.

31. Every holder of a licence in Form A shall, before the expiry, cancellation or surrender of his licence, pay all the duty payable by him under the Act:

Provided that if the licence is renewed on expiry the date on which payment is due shall be determined under clause 9.

32. An appeal shall lie from any order of the Collector to such authority as the Local Government may direct and any order of the Collector or of such authority may be revised by the Local Government or such higher authority as the Local Government may direct: provided that in the case of an officer whose special authorization under clause 3 has been made by the Governor General in Council, the appeal shall lie to the Central Board of Revenue, and any order of such Collector or of the Central Board of Revenue may be revised by the Governor General in Council:

Provided further that no order in revision shall be passed having an effect more prejudicial to the person concerned than the order under revision without such person being given an opportunity of stating his case.

33. No appeal under clause 32 shall be admitted unless received by the appellate authority within three months of the date of the Collector's order.

34. The Local Government may empower any officers of any department under its control to search any place, vessel, cart or means of conveyance for matches liable to duty and to seize and remove or detain any matches which may appear to them to have been illegally imported or manufactured.

35. The Collector may accept from any person whose property is liable to confiscation under the Act or who is reasonably suspected of having committed an offence under the Act or under the provisions of this Order a sum of money not exceeding one thousand rupees in lieu of confiscation of goods or of punishment for breach of any provision of this Order.

36. If there is any doubt as to the average number of matches per box, the Collector may, after giving

notice of his intention to the owner of the manufactory, determine this number by causing samples to be taken, of at least one box in every ten gross of boxes and causing the number in each sample so taken to be counted and the duty payable shall be assessed on the results of this sampling.

37. When duty has been short-levied through inadvertence, error, or misconstruction on the part of the Collector, or through mis-statement as to quantity on the part of the owner of the manufactory,

or, when any such duty after having been levied has been, owing to any such cause erroneously refunded,

the person chargeable with the duty so short-levied or to whom such refund has erroneously been made, shall pay the deficiency or repay the amount paid to him in excess, on demand being made within three months from the close of the month in respect of which the duty shall have been levied or from the date of making the refund:

Provided that a person chargeable with duty short-levied as the result of an offence under the Act of which he has been convicted in Court shall pay the deficiency on demand being made at any time.

38. No duty which has been paid and of which repayment wholly or in part is claimed in consequence of the same having been paid through inadvertence, error or misconstruction shall be returned unless such claim is made within three months from the date of such payment.

CHAPTER VII.

39. The provisions of this Chapter apply to matches (other than matches intended for export from India) issued out of a manufactory.

40. (1) All matches issued from a manufactory shall be contained in boxes or booklets and the number of matches contained in a box or booklet shall not exceed eighty.

(2) Any owner of a manufactory who issues matches in contravention of this rule shall be punishable with imprisonment which may extend to six months or with fine which may extend to ten thousand rupees or with both.

41. The duty on matches shall be collected through the sale to owners of manufactories of the banderol required to be affixed to boxes or booklets of matches by Foreign and Political Department Notification No. 455-I.B., dated 20th September, 1934.

42. (1) The banderols to be affixed to boxes or booklets of matches shall be banderols manufactured in and issued from the Government Security Press, Nasik.

(2) Such banderols shall be of the following classes and shall be on sale at Government Treasuries at the following rates, namely:—

Class of Banderol.	Price of Banderol.
1. Banderols for boxes or booklets containing on an average not more than 40 matches.	Per gross of banderols, one rupee.
2. Banderols for boxes or booklets containing on an average more than 40 but not more than 60 matches.	Per gross of banderols, one rupee and eight annas.
3. Banderols for boxes or booklets containing on an average more than 60 but not more than 80 matches.	Per gross of banderols, two rupees.

(3) Special banderols of the above classes but of distinctive colour shall be provided for use exclusively on boxes or booklets of matches in respect of which a rebate of duty has been granted by rules made under section 19 of the Act.

43. (1) Every box or booklet of matches, and where such boxes or booklets are issued in packets, each box or booklet of a packet, shall bear a banderol of class 1, class 2 or class 3, according as the average number of matches contained in the box or booklet is forty or less, more than 40 but not more than 60, or more than 60.

(2) The special banderols referred to in sub-clause (3) of clause 42 shall not be affixed to boxes or booklets of matches other than those in respect of which a rebate of duty has been granted by rules made under section 19 of the Act.

44. Every banderol shall be so affixed to the box or booklet that—

- the words and figures on the banderol specifying the maximum number of matches covered by the banderol are legible;
- the box or booklet cannot be opened without tearing the banderol; and
- in the case of a box, the ends of the banderol are covered by the manufactory's label.

45. (1) An owner of a manufactory shall receive a refund of the purchase price of any banderol not employed by him on a box or booklet issued from his manufactory on returning the banderol to the Collector.

(2) An owner of a manufactory shall receive a refund of the purchase price of any banderol accidentally rendered unfit for use on a box or booklet on returning the damaged banderol to the Collector and satisfying the Collector that the banderol has not been used on a box or booklet issued from a manufactory.

46. The Collector may, subject to any conditions he may see fit to impose, authorise the supply without payment to any owner of a manufactory of banderols for use on boxes or booklets of matches in the manu-

factory, on such owner executing a bond or furnishing adequate security to the satisfaction of the Collector for the price of the banderols so supplied; but no boxes or booklets bearing banderols so supplied shall be issued from the manufactory until payment has actually been made to the Treasury for the banderols affixed to such boxes or booklets.

FORM A.

LICENCE FOR THE MANUFACTURE OF MATCHES.

(Vide Clause 4.)

District.....

Serial No. of Licence.....

Name of Licensee.....

Be it known that.....resident of..... is hereby authorized by the undersigned, Collector of.....to manufacture matches on the premises described in the Schedule attached..... from the date of this licence to the 31st day of March 19 , after which this licence will cease to have effect.

It is required of the holder of this licence, as a condition of its remaining in force, that he duly and faithfully perform and abide by the following conditions:—

I. That he produce this licence on demand by any Excise Officer not below the rank of Inspector, or by any Revenue Officer duly authorized by the Collector in this behalf.

II. That he permit inspection of the licensed premises, the machinery, the stocks and the accounts by any Excise Officer not below the rank of Inspector, or by any Revenue Officer duly authorized by the Collector in this behalf.

III. That he do not transfer, or purport to transfer, this licence, or sublet the licensed premises to any other person without the permission in writing of the Collector.

IV. That he keep correct daily accounts in the following form, separate accounts being maintained for—

- matches to which item (i) of clause (a) of section 4 of the Matches (Excise Duty) Act, 1934, as applied to Berar applies,
- matches to which item (ii) of the said clause applies,
- matches to which item (iii) of the said clause applies, and

THE MECHANICAL LIGHTERS (EXCISE DUTY) ORDER, 1934.

The following Notification (No. 27-Central Excises, dated the 29th September, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by Sections 14 and 15 of the Mechanical Lighters (Excise Duty) Act, 1934 (XXIII of 1934), the Governor General in Council is pleased to apply in the adapted form set out below certain provisions of the Sea Customs Act, 1878 (VIII of 1878) and to make certain rules for the purpose of providing for the assessment and collection of the duty imposed by the first mentioned Act.

CHAPTER I.

Short title and definitions.

1. This Order may be called "The Mechanical Lighters (Excise Duty) Order, 1934."

2. In this Order unless there is anything repugnant in the subject or context:—

(i) "the Act" means the Mechanical Lighters (Excise Duty) Act, 1934;

(ii) "Collector" means the chief officer-in-charge of the revenue administration of a district and includes any officer specially authorized to exercise throughout a Province or any specified area therein all or

any of the powers of a Collector under this Order;

(iii) "Inspecting officer" means any officer of Government authorized by the Collector to inspect any premises in which mechanical lighters liable to duty are possessed or manufactured; and includes any officer permanently stationed at any such premises;

Provided that no officer of the Customs, Salt or Income-tax Department shall be appointed by the Collector to be an Inspecting Officer without the previous approval of the Central Board of Revenue.

(iv) "Duty" means the duty payable under the Act.

CHAPTER II.

Special appointments and delegations.

3. Unless the Governor General in Council shall in any case otherwise direct, the power of specially authorizing any officer to exercise throughout a Province or any specified area therein all or any of the powers of a Collector under this Order shall be exercisable by the Local Government.

CHAPTER III.

Manufacture of Mechanical Lighters.

4. The Collector may issue to any person, firm or company, being the owner of a manufactory, a licence in Form A appended to this Order to manufacture mechanical lighters:

Provided that the holder of such a licence shall not, without the sanction of the Governor General in Council, be given a licence in respect of any other manufactory within the same district.

5. The holder of a licence in Form A may manufacture mechanical lighters subject to the conditions of his licence.

6. The position of the premises covered by a licence to manufacture mechanical lighters shall be clearly described in the licence and the licensee shall manufacture mechanical lighters within the premises therein described and not elsewhere.

7. Every holder of a licence in Form A shall keep a correct daily account in the form prescribed in the licence.

8. Within five days after the close of each month, every holder of a licence in Form A shall submit to the Collector a monthly return in Form B appended to this Order showing the number of mechanical lighters removed from the manufactory during that month.

9. On receipt of the return referred to in clause 8, the Collector shall, after verification of the return of exports, if any, to places outside India, and such other enquiry as he may deem fit, assess the duty payable

on mechanical lighters removed from the manufactory. If the licensee fails to submit a return the Collector may make a summary assessment on such information as may be available. The amount assessed shall be communicated to the licensee who shall pay it into the Treasury by the end of the month following that for which the return was required to be made.

10. The Collector or Inspecting Officer may enter the premises of any holder of a licence in Form A and inspect the licence, the building, the machinery, the stocks of mechanical lighters and of materials for use in manufacturing mechanical lighters and the accounts.

11. A licensee shall not transfer his licence or sublet the licensed premises to any other person without the permission in writing of the Collector.

12. Any licensee who fails to keep a correct daily account or refuses to permit any authorized officer to enter the licensed premises and inspect the licence, building, machinery, stocks and accounts or transfers the licence or sublets the licensed premises to any other person without the permission of the Collector shall be punishable with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

CHAPTER IV.

Refunds and Remissions.

13. Any person who exports from British India to any place outside India mechanical lighters on which duty has been paid under the Act, shall, on production of satisfactory evidence before the Collector that the mechanical lighters have been so exported and that the duty has been paid in respect of these mechanical lighters, receive a refund of that duty. If the exporter is the owner of the manufactory in which the mechanical lighters were made, such refund may be paid, at the discretion of the Collector, either in cash or by set off against duty due from such exporter.

14. The Governor General in Council may, by notification in the Gazette of India, exempt any mechanical lighters from the whole or any part of the duty leviable thereon.

CHAPTER V.

Miscellaneous.

15. Every holder of a licence in Form A shall furnish such security as may be demanded by the Collector for the observance of the conditions of his licence and for the payment of duty.

16. The period of a licence to manufacture mechanical lighters shall be from 1st April in any year or any later date on which the licence may be issued to the 31st March following.

17. There shall be a counterpart for each licence and the counterpart shall be in the same form as the

licence itself. The licensee shall, at the time his licence is delivered to him, be required to sign the counterpart of his licence in token of his acceptance of the conditions specified in the licence.

18. A fee of Rupees one hundred shall be payable for every licence to manufacture mechanical lighters for each year or part of a year.

19. The Collector who grants a licence under this Order may cancel it in case of a breach of any of the conditions therein or of the Act or of the provisions of this Order.

20. The Collector may permit the surrender of a licence issued under this Order on one month's written notice; and shall grant such refund, if any, of part of the fee paid for the year during which the licence is surrendered as the Local Government may in each case determine.

21. Every holder of a licence in Form A shall, before the expiry, cancellation or surrender of his licence, pay all the duty payable by him under the Act:

Provided that if the licence is renewed on expiry the date on which payment is due shall be determined under clause 9.

22. An appeal shall lie from any order of the Collector to such authority as the Local Government may direct, and any order of the Collector or of such authority may be revised by the Local Government or such higher authority as the Local Government may direct; provided that in the case of an officer whose special authorization under clause 3 has been made by the Governor General in Council, the appeal shall lie to the Central Board of Revenue, and any order of such Collector or of the Central Board of Revenue may be revised by the Governor General in Council.

Provided further that no order in revision shall be passed having an effect more prejudicial to the person concerned than the order under revision without such person being given an opportunity of stating his case.

23. No appeal under clause 22 shall be admitted unless received by the appellate authority within three months of the date of the Collector's order.

24. The Local Government may empower any officers of any department under its control to search any place, vessel, cart or means of conveyance for mechanical lighters liable to duty and to seize and remove or detain any mechanical lighters which may appear to them to have been illegally imported or manufactured.

25. The Collector may accept from any person whose property is liable to confiscation under the Act or who is reasonably suspected of having committed an offence under the Act or under the provisions of this Order a sum of money not exceeding one thousand rupees in lieu of confiscation of goods or of punishment for breach of any provision of this Order.

In exercise of the powers conferred by section 19 of the Matches (Excise Duty) Act, 1934 (XVI of 1934) as applied to Berar the Governor General in Council is pleased to make the following rules to provide for the grant of a rebate of the duty payable under section 3 of the said Act, namely :—

“ 1. A rebate of the duty payable under section 3 of the Matches (Excise Duty) Act, 1934, as applied to Berar shall be granted on all matches to which the provisions of Chapter VII of the Matches (Excise

Duty) Berar Order, 1934, apply, manufactured in any manufactory whose daily output does not exceed 100 gross of boxes at the following rates, namely:—

- (i) where the average number of matches in a box or booklet is 40 or less, a rebate of ten pies per gross of boxes or booklets;
- (ii) where the average number of matches in a box or booklet is more than 40 but not more than 60, a rebate of one anna and three pies per gross of boxes or booklets; and
- (iii) where the average number of matches in a box or booklet is more than 60, a rebate of one anna and eight pies per gross of boxes or booklets.

2. The rebate shall be made by a reduction in the selling price to the owner of such manufactory of the banderols required to be affixed to boxes or booklets of matches by Foreign and Political Department Notification No. 455-I. B., dated the 20th September, 1934.

3. An owner of a manufactory claiming a rebate under these rules shall present to the Treasury Officer at the time of purchasing banderols a certificate from the Collector of the District in which the manufactory is situated that the daily output of the manufactory does not exceed 100 gross of boxes of matches.

4. The certificate referred to in rule 3 shall not be valid for more than three months from the date of issue, and may be cancelled by the Collector at any earlier time if it appears to the Collector that the daily output of the manufactory to which it relates exceeds 100 gross of boxes.

5. The Treasury Officer shall, on presentation of such certificate, issue to the owner of the manufactory banderols of class 1, 2 or 3 specified in clause 42 of the Matches (Excise Duty) Berar Order, 1934, of distinctive colour at the following prices, namely:—

Banderols of class 1	Per gross of banderols, fifteen annas and two pies.
Banderols of class 2	Per gross of banderols, one rupee, six annas and nine pies.
Banderols of class 3	Per gross of banderols, one rupee, fourteen annas and four pies.

EXEMPTION FROM PAYMENT OF DUTY LEVIABLE UNDER THE SUGAR (EXCISE DUTY) ACT, 1934, AS APPLIED TO BERAR, OF SUGAR EXPORTED BY SEA TO ANY COUNTRY OUTSIDE INDIA.

The following Notification (No. 457-I. B., dated the 20th September, 1934) has been issued by the Government of India in the Foreign and Political Department:—

In pursuance of clause 10 of the Sugar (Excise Duty) Berar Order, 1934, the Governor General in Council is pleased to exempt from the payment of the duty leviable under the Sugar (Excise Duty) Act, 1934 (XIV of 1934), as applied to Berar, sugar exported by sea to any country outside India.

EXEMPTION FROM PAYMENT OF DUTY LEVIABLE UNDER THE MATCHES (EXCISE DUTY) ACT, 1934, AS APPLIED TO BERAR, OF MATCHES EXPORTED BY SEA TO ANY COUNTRY OUTSIDE INDIA.

The following Notification (No. 458-I. B., dated the 20th September, 1934) has been issued by the Government of India in the Foreign and Political Department:—

In pursuance of clause 14 of the Matches (Excise Duty) Berar Order, 1934, the Governor General in Council is pleased to exempt from the payment of the duty leviable under the Matches (Excise Duty) Act, 1934 (XVI of 1934), as applied to Berar, matches exported by sea to any country outside India.

MATCHES (EXCISE DUTY) ACT, 1934: RULES REGARDING POSSESSION OF UNBANDEROLLED MATCHES.

The following Notification (No. 26-Central Excises, dated the 29th September, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 18 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor General in Council is pleased to make the following rules:—

1. Every person who is the owner of a manufactory or is engaged in the sale of matches and who has in his possession on the 1st October, 1934, a quantity of matches in boxes or booklets not bearing a banderol of the nature and affixed in the manner prescribed in Chapter VII of the Matches (Excise Duty) Order, 1934, shall, if the quantity exceeds 50 gross of boxes or booklets, furnish to the Collector, so as to reach him not later than the 4th October, 1934, a declaration in the following form, namely:—

"I, _____, hereby declare that on this 1st October, 1934, I have in my possession the following quantities of unbanderolled matches:—

Number of boxes.

- (1) In boxes or booklets containing on the average forty matches or less.
- (2) In boxes or booklets containing on the average more than forty but less than sixty matches.
- (3) In boxes or booklets containing on the average more than sixty matches.

OCT. 4, 1934.]

I further declare that the above information is true to the best of my knowledge and belief.

Signed _____

(Name of manufacturer or dealer)."

Date _____

2. If any owner of a manufactory or person engaged in the sale of matches who has in his possession a quantity of such unbanderolled matches amounting to or exceeding 50 gross of boxes or booklets fails to make within the time prescribed a declaration as required by the foregoing rule, the Collector may confiscate such matches and may cause them to be destroyed.

MECHANICAL LIGHTERS (EXCISE DUTY) ACT, 1934: DATE OF ENFORCEMENT OF PROHIBITION SET FORTH IN SECTION 7.

The following Notification (No. 28-Central Excises, dated the 29th September, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In pursuance of section 7 of the Mechanical Lighters (Excise Duty) Act, 1934 (XXIII of 1934), the Governor General in Council is pleased to fix the 1st of October, 1934, as the date from which the prohibition set forth in the said section shall have effect.

INSPECTORS OF BOMBAY SALT DEPARTMENT POSTED IN THE KARACHI, HYDERABAD AND THAR PARKAR DISTRICTS IN SIND APPOINTED TO BE CUSTOMS OFFICERS.

The following Notification (No. 69-Customs, dated the 29th September, 1934) has been issued by the Government of India in the Finance Department, (Central Revenues):—

In exercise of the power conferred by section 6 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to appoint the Inspectors of the Bombay Salt Department posted in the Karachi, Hyderabad and Thar Parkar Districts in Sind to be officers of Customs for their respective jurisdictions and to exercise the powers conferred and to perform the duties imposed by the said Act on such officers.

FRANCE.

GENERAL INCREASE OF CUSTOMS DUTIES.

With reference to the notice in the *Indian Trade Journal* of August 23, pages 875-76, regarding a forthcoming increase of the French Customs duties on imported goods by not more than 4 per cent in order to finance various measures for the protection of the mercantile marine in France and certain French Colonies, the *Board of Trade Journal*, dated

the 23rd August, 1934, states that the French "Journal Officiel" of August 12, contains a Decree, dated August 10, which provided that a 4 per cent increase of Customs Duties was to come into operation on August 16. Various articles are, however, exempted from this general increase of which the undermentioned items are of interest to India.

Tariff Nos.

Ex 23 (Dyed wool and noils, combed and carded wool); ex 27 (Silk cocoons and waste); 79 (Rice); ex 80 (Pulse); ex 112 (Certain kinds of volatile and essential oils); 115 quater (Certain resinous products including gum lac); 128 and 128 bis (Common wood in rough logs, squared or sawn); 365 to 366 bis, 367 ter, 368, 369, 372, 373, 375, 379-381 ter (Various kinds of yarns); 407 (Printed cotton tissues); 420 bis (Handmade lace); 442 (Woollen carpets); 476 A (Hides and skins simply tanned, not dressed or dyed); 620 ter (Mica in sheets or plates, articles of mica, etc.); ex 0379 (Certain kinds of Phosphatic fertilizers).

SPAIN.

TAX ON CERTAIN OILS, ETC.

An Order of August 17, 1933, imposed a tax of one silver peseta per 100 kilogs on the following oilseeds, etc., on importation into Spain:—Copra, palm kernels, etc.; linseed; castor oil beans; all other oilseeds not specified elsewhere in the Tariff (Tariff Nos. 996-9).

According to the *Board of Trade Journal*, this tax has now been increased to ten pesetas by Decree of August 15, and the following Tariff item (among others) has been made subject to the increased rate as from August 18, 1934:—

Tariff No. Additional Items Subject to Tax.

799 Coconut oil; palm oil freed from colour or refined and other oils.

Consignments of the above goods already in transit for Spain on the coming into force of this Decree, or awaiting clearance at a Customs House are exempted from its effects.

A part of the proceeds of this tax will be used to indemnify those manufacturers using imported oleaginous products who have ceased, or who may cease, operations as a result of the protection accorded to the olive oil industry.

The establishment of new oil factories or the extension of ones already existing, with the exception of those concerned with the preparation of olive oil, is prohibited.

ZANZIBAR.

IMPORT OF EXHAUSTED OR IMITATION TEA PROHIBITED.

The Zanzibar Government "Official Gazette" of June 23 contains a copy of Government Notice

No. 43, dated June 20, which prohibits the importation into the Protectorate of exhausted tea and any substance or article being or purporting to be an imitation of tea.

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference:—

13th September, 1934.

BRITISH EMPIRE—

AUSTRALIA.—Tariff Decisions.

BARBADOS.—Amendment of Preference Regulations.

CANADA.—Export of Arms to Bolivia and Paraguay Prohibited. Customs Rulings.

CYPRUS.—Customs Tariff Modifications.

GAMBIA.—Customs Duties on Certain Japanese Goods. Customs Tariff Modifications.

HONG KONG.—Customs Tariff Modifications on Beer, etc.

IRISH FREE STATE.—Importation of certain Pneumatic Tyres Prohibited. Customs Tariff Modifications. Export Bounty on Bacon.

UNFEDERATED MALAY STATES (KELANTAN).—Modification of Customs Duties on Cycles, etc.

UNFEDERATED MALAY STATES (TRENGGANU).—Modification of Customs Duties on Cycles, etc.

FOREIGN—

CHILE.—Import Duty Reductions.

CHINA.—Consular Invoice Regulations.

FRANCE.—Marking of various Imported Goods. Import of Certain Cereal Products. Quotas for Chemical Products: Applications for Import Licences. Exhaustion of Quotas.

FRENCH WEST AFRICA.—Import of Certain Textiles.

GERMANY.—Tariff Modifications (Agreement with Hungary). Modification of Monopoly Tax on Rice Offals, Oil Cake, etc. Monopoly Tax on Butter. Importation of Coal and Coke from the United Kingdom.

ITALY.—Import Restrictions.

NETHERLANDS EAST INDIES.—Tariff Modifications.

NORWAY.—Import Restrictions.

SPAIN.—Payment of Customs Duties.

SWEDEN.—Pharmaceutical Specialities.

TRIPOLITANIA AND CYRENAICA.—Duty-free Importation of Italian Machinery, etc.

TURKEY.—Import Quota Restrictions.

PERSIA.—Import Quotas: 1934-35.

PORTUGAL.—Surtax on Petrol Increased.

UNITED STATES OF AMERICA.—Prohibition of the Import of Willow Withes as Plant Ties.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 15th and the 21st September, 1934:—
21173. Kumardhubi Fireclay & Silica Works, Ltd.—Improvements in and relating to porous bricks, blocks or other articles of refractory substance and to the manner of manufacturing the same. 21174. W. G. Copley.—A combined double or single mantle inverted incandescent gas burner. 21175. N. V. Philips' Gloeilampenfabrieken.—Improvements in or relating to electric gasfilled discharge tubes. 21176. (Mrs.) B. Turner.—Improvements in and relating to drain-valves for steam engine cylinders. 21177. Dr. J. R. Carp and A. A. Ruben.—Improvements in refrigerating apparatus for the storage and preservation of food delicacies and the like. (September 18, 1933) [Addition to No. 20180]. 21178. W. F. DePenning.—Process for altering the energy contents of dipole substances. 21179. Associated Electrical Industries, Ltd.—Improvements in or relating to electric transformers. (October 3, 1933). 21180. J. B. J. M. Abadie.—Improvements in electrodes. 21181. Pirelli-General Cable Works, Ltd.—Improvements in or relating to methods of or apparatus for extruding metal. (October 9, 1933). 21182. O. H. Skinner.—Improved sealing device. 21183. Harrow Industrial Co., Ltd.—Improvements in or relating to road vehicles of the trailer type. (September 19, 1933). 21184. T. Ditchburn.—Improvements in and relating to sheet piling. (October 9, 1933). 21185. Marconi's Wireless Telegraph Co., Ltd.—Improvements in or relating to modulated carrier wave transmitters and apparatus for use therewith. (November 17, 1933). 21186. Naamlouze Vennootschap Irma Industrie en Ruwmaterialen Maatschappij.—Improvements in lubricating inter-layers for insertion between bodies which otherwise would be in frictional contact with each other and a process for the manufacture thereof. 21187. J. E. Peterkin and F. W. Marlow.—Tooth brush spoons. 21188. Spence, Ltd.—Improved method of and apparatus for delivering solid or semi-solid lubricant. 21189. M. A. Korn.—Improved method of constructing and improved construction of roof, ceiling, floor or the like. 21190. D. N. Biswas and B. Laljee.—Improvement in or relating to photographic cameras and the like. 21191. B. Ali, S. Singh and J. Bhagwan.—Improvements in or relating to tube well strainers. 21192. Bengal Glass Works, Ltd.—An improved process and means for cutting and/or cracking off of glass. 21193. A. E. Tilburn.—Improvements in or relating to bridles. (October 7, 1933). 21194. W. E. Molins.—Improvements in or relating to the manufacture of cigarettes. (September 21, 1933). 21195. S. A. Harjivandas.—The lotus best cotton and artificial silk real elastic. 21196. E. A. Freundlich and P. Stapp.—Improve-

ments in and relating to the storing and handling of carbonic acid. 21197. E. A. Freundlich and P. Stapp.—Improvements in and relating to the production of solid carbon dioxide.

WEATHER AND CROP REPORTS.

BENGAL.

1st October.

Except for heavy showers in places the rainfall during the week was generally light to moderate. Transplanted winter paddy is flourishing under favourable conditions. Prospects are generally fair.

ASSAM.

1st October.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

25th September.

During the week under report rain fell in all the districts of the province. The fall was heavy in Bhagalpur, Cuttack, Angul, Puri, Sambalpur and in parts of Gaya, Darbhanga, Monghyr, the Santal Parganas, Balasore and Singhbhum and light to moderate elsewhere. The condition of standing crops including sugarcane is generally good. Harvesting of *bhadoi* crops continues in most districts. Jute is being harvested in Cuttack and Balasore. More rain is needed in parts of Purnea.

BOMBAY.

29th September.

During the week there was practically no rain except for light showers in places in Khandesh and in the north Deccan, Gujarat and the Konkan: In the Konkan the outlook is fairly satisfactory. Elsewhere *rabi* sowing has been hampered in parts and the standing crops are withering in places. Rain is badly needed.

Sind.—During the week there was no rain. Picking of early sown American cotton is in full swing. Other *kharif* crops are in good condition.

CENTRAL PROVINCES.

22nd September.

After a short break in the beginning of the week the weather turned cloudy and the Bay depression which extended east-north of the province gave heavy rain in Chhattisgarh and the northern districts. Elsewhere the rainfall was light with occasional sunshine. In the districts of Jubbulpore and Nagpur divisions the standing crops on rich and low-lying soils are reported to be backward on account of excessive moisture and lack of sunshine. A long break is badly needed to improve their condition.

MADRAS.

22nd September.

During the week the rainfall was generally below normal. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts. The condition of standing crops is generally fair except in the flood affected areas of east Godavari and in parts of Bellary, Anantapur, Madura and Tinnevely where they have been adversely affected for want of rain.

PUNJAB.

24th September.

During the week the weather remained practically dry. Rain is badly wanted in some districts. The condition of standing crops is generally average to good on irrigated and below average to average on unirrigated areas. Damage to sugarcane by "top-borer" is reported from parts of Rohtak and Karnal and by "Pyralid-borer" from parts of Gurdaspur. Vigorous measures for the destruction of sugarcane pests are being continued in Rohtak and Karnal. Insects have damaged standing crops in parts of Gurgaon, Hissar and Dera Ghazi Khan and action for their destruction is being taken in the former district. Cotton is also reported to have been affected by *tela* and "root-rot" disease in Sargodha *tahsil*, Shahpur district.

UNITED PROVINCES.

22nd September.

During the week there was light to moderate rain in the province except in the districts of Dehra Dun, Shaharanpur, Muzaffarnagar, Bulandshahr, Aligarh, Mainpuri, Etah, Bijnor, Moradabad, Shahjahanpur, Pilibhit, Farrukhabad, Garhwal, Sitapur, Hardoi, Bahraich and Bara Banki. Damage is reported from Tehri Garhwal State. Preparation of land for *rabi* and harvesting of *kharif* continue. Standing crops are doing well. Prospects are so far favourable.

GENERAL WEATHER SUMMARY.

At the beginning of the week ended Tuesday last the monsoon remained weak over the country. In the middle of the week conditions were unsettled off the Konkan coast and widespread rain fell from Konkan to the Central Provinces. A low pressure wave which was moving across central Burma caused general rain there and on the Burma coast. At the end of the week a low pressure area over the Chittagong coast intensified into a deep depression

and caused very heavy rain on the Chittagong-Arakan coast.

Rainfall was nearly general in Lower Burma and west Central Provinces on five days; in the east Central Provinces on three days; in the east United Provinces, north Hyderabad, north Madras coast, Konkan and the Bombay Deccan on two days; and in Assam, Bengal, Upper Burma, Kashmir, east and west Central India and Orissa on one day. Local or a few falls occurred elsewhere.

MONTHLY WEATHER REPORT FOR JUNE, 1934.

THE following report on weather conditions in India during June, 1934, has been issued by the Director-General of Observatories:—

Summary.—The chief features of weather during the month were (1) somewhat late appearance but subsequent rapid establishment of the monsoon, (2) the formation of one depression off Konkan and of two depressions at the head of the Bay of Bengal and (3) well distributed rainfall over the country.

An advance of the monsoon occurred in the south-east Arabian Sea about the 2nd. The monsoon gradually strengthened thereafter and appeared in Malabar on the 8th, extending northwards along the west coast of the Peninsula on the succeeding days. A shallow depression formed off Kanara on the 10th in front of the monsoon current. It moved slowly northwards as the monsoon current advanced but weakened at the same time, and on the 14th, a low pressure area lay off Kathiawar. The low pressure area persisted there till the 26th when it began to move northwestwards and merged into and accentuated the seasonal low in northwest India on the 29th. This low pressure wave deflected moist air into the Deccan where widespread thunderstorms occurred after the 8th and the monsoon was established about the middle of the month. It also helped the inflow of humid air into the central parts of the country, Bihar and Orissa, the United Provinces, Rajputana and the western Himalayas and was responsible for widespread thundershowers in those divisions during the third week and for the establishment of the monsoon in central and north-west India and the United Provinces between the 22nd and 26th. Rainfall was locally heavy along the west coast of the Peninsula during the last three weeks. This branch of the monsoon current gave normal rainfall in the Peninsula and excess rainfall in northwest and central India.

The Bay monsoon current, which extended into Burma towards the end of May, remained shallow during the first three weeks of June; it had however extended into Assam and Bengal towards the end of the second week. The current began to deepen

at the beginning of the last week and a shallow depression formed in the northwest angle of the Bay on the 26th. The depression moved north-westwards and filled up over the east Central Provinces on the 29th. Another depression formed at the head of the Bay of Bengal on the last day of the month. These disturbances were responsible for an extension of monsoon into Bihar and Orissa during the last week; rainfall was also locally heavy in Lower Burma and Orissa. This branch of the monsoon caused normal rainfall for the month in Burma and northeast India excepting Bihar. Very heavy rain which occurred in and near the Assam hills towards the end of the third week caused severe floods in the Brahmaputra river which according to newspaper reports resulted in loss of lives and cattle and considerable damage to property in the districts in the neighbourhood of the river in Assam and southeast Bengal; railway traffic was also considerably interrupted due to floods.

A western disturbance which passed eastwards through the extreme north caused dust and thunderstorms and local rain in northwest India between the 6th and 8th and showery weather continued in Kashmir up to the 10th. Another western disturbance passed away eastwards on the 15th without giving any precipitation. A third western disturbance caused widespread dust or thunderstorms in the hills of northwest India on the 16th and 17th and in the plains of the Punjab on the former date.

Day temperature was generally markedly above normal in the east Central Provinces and the Bombay Deccan up to the 8th, in the central parts of the country, the United Provinces and the Punjab from the 10th to 15th and along and near the north-west frontier from the 20th to 22nd; it was below normal in northwest India after the 24th.

The total rainfall during the month was in moderate to large defect in Lower Burma, Bihar and Orissa, the North-West Frontier Province, Hyderabad and the north Madras coast and in slight defect in the Bombay Deccan; it was normal in Bengal, the east United Provinces, Kashmir, Berar and Mysore, in slight to moderate excess in the Bay Islands, Upper Burma, Assam, the east and north Punjab, east Rajputana, Central India, the west and the east Central Provinces, Malabar, southeast Madras and the Madras Deccan and in large excess elsewhere. Averaged over the plains of country, the month's rainfall was in excess by 4 per cent.

The month's mean maximum temperature was above normal in Berar and the east Central Provinces and the mean minimum in Baluchistan.

Humidity was roughly normal everywhere.

Cloud amount was above normal in the United Provinces, the east and north Punjab, the North-West Frontier Province, Baluchistan, Sind, east Rajputana, the east Central Provinces and south-east Madras.

GENERAL FINAL REPORT ON THE BAISAKI LAC CROP, 1934.

[Issued by the Indian Lac Cess Committee (Crop Statistical Section).]

(All estimates are in maunds of Sticklac.)

Divisions.	Preliminary Estimate, 1934.	Actual Yield, Final 1934.	Finals last two years' crop.		Estimated Normal.	Approximate	
			1933.	1932.		Stock.	Date.

TOTAL BAISAKI	675,500	637,000	491,000	551,500	800,000	373,000*	..

* To this approximate stock of 373,000 mds. of lac or its equivalent quantity of shellac, lac and chowri, lying in the above twelve lac divisions on or about the month of July, 1934, the stock lying in Assam, Rangoon, Federated Shan States as well as in Siam, Singapore and Calcutta is to be added.

CROP FORECAST.

(FOREIGN)

EGYPTIAN COTTON CROP.

According to a cable dated the 1st October, 1934, received from the International Institute of Agri-

culture, Rome, the first estimate of the production of the cotton crop in Egypt during the current season is placed at 1,992,000 bales of 400 lbs. each, as compared with 1,962,000 bales of 400 lbs. each, the corresponding estimate of the preceding year.

SUMMARY OF CROP FORECASTS.

The following is a summary of crop forecasts relating to the season 1934-35 :-

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute—Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	Acres 2,497,000	99.2	Acres 2,517,000	7,964,000 bales (a)	99.4	8,012,000 bales (a)	Sept. 6, 1934.
Cotton—First.	All cotton-growing tracts (refers mainly to early cotton).	12,985,000	93	23,739,000	(b)	--	4,970,000 bales	Aug. 23, 1934.
Sugarcane—First.	United Provinces†, Punjab, Bihar and Orissa, Bengal, Madras, Bombay†, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal‡ (95 per cent of the total sugarcane area of India)	3,409,000	102	3,305,000	(b)	--	5,067,000 tons	Aug. 23, 1934.
Groundnut—First.	Madras, Bombay†, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	2,040,000	91(d)	8,115,000	(b)	--	3,285,000 tons	Aug. 30, 1934.
Sesamum—First.	Burma, Madras, Bombay†, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal‡, Baroda, and Kotah§ (about 71 per cent of the total sesamum area of India).	2,520,000	93(d)	6,192,000	(b)	--	535,000 tons	Aug. 30, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (a) Including Cochin Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :-

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Caster seed	Practically all castor-growing tracts	Acres 1,354,000	96	Acres 1,517,000	144,000 tons	97	151,000 tons	Feb. 22, 1934.
Rice—Final.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces*, Central Provinces and Berar*, Assam, Bombay*, Coorg, Hyderabad, Mysore, Baroda and Bhopal‡ (about 97 per cent of the total rice area of India).	51,977,000	99	52,661,000	30,353,000 tons	98	31,080,000 tons (a)	Mar. 1, 1934.
Rape and Mustard—Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay*, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar, Baroda and Hyderabad (about 96 per cent of the total rape and mustard area of India).	6,532,000	99	6,094,000	953,000 tons	91	1,044,000 tons	May 31, 1934.
Linseed—Final.	Central Provinces and Berar*, United Provinces, Bihar and Orissa, Bombay*, Bengal, Punjab, Hyderabad, Kotah‡ and Bhopal‡ (about 54 per cent of the total linseed area of India).	3,257,000	99	3,299,000	377,000 tons	98(a)	405,000 tons(a)	May 31, 1934.
Wheat—Final.	Punjab*, United Provinces*, Central Provinces and Berar*, Bombay*, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	36,062,000	100	36,970,000	9,352,000 tons	99	6,448,000 tons	Aug. 16, 1934.

* Including Indian States. † In Rajputana. ‡ In Central India. (a) Excluding Bhopal from which report has been received for the first time this year.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

The Office of the Chief Controller of Stores, Indian Stores Department, will open at New Delhi on the 20th October, 1934. All communications which cannot reach the office in Simla on or before the 19th October, 1934, should be addressed to New Delhi.

INDIAN STORES DEPARTMENT.**System of Payment for Stores Purchased and Inspected by the Indian Stores Department.**

With a view to simplify the procedure and expedite payments, it has been decided that, with effect from the 1st April, 1935, bills for the full value of stores (known as 100 per cent bills) shall not pass through the Inspectorates of the Indian Stores Department, as at present, but will be submitted direct to consignees in triplicate (or in quadruplicate in the case of supplies to Ordnance Factories, for which five copies are required at present), supported by a copy of the Inspection Certificate, and the Docket form (I. S. D. 7D), which has been introduced to check delays. The consignees will forward, after verification, the original and duplicate copies of the bills to the Audit Officer, Indian Stores Department, for audit and payment.

The certificate in respect of stores having been tendered by the firms within the time stipulated in the order, or extended by competent authority, at present recorded by the Inspectorates on bills will, in future, be included in Inspection Certificates and incorporated therefrom in bills by the consignees.

2. Advance payment (80 per cent or 90 per cent) bills which do not pass through consignees will continue to be submitted to Inspectorates and final 10 per cent bills to consignees as at present. The procedure in regard to these bills will remain unaltered.

3. In special cases in which a part (80 per cent) payment is made in advance, and the final 20 per cent on final inspection and tests at site, the final 20 per cent bills will also continue to be submitted to Inspectorates as at present.

INDIAN STORES DEPARTMENT.**Standard Specifications and Drawings.**

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Witter Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsarop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

GREAT INDIAN PENINSULA RAILWAY.

Supply of Tin Ingots.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of 30 tons of Tin Ingots, 99.3 per cent purity. Supplies will be subject to test and no trace of lead must be found.

The prescribed form of tender, with conditions on which tenders will be considered, can be obtained from the office of the Railway's Controller of Stores at Parel, Bombay, on payment of Re. 1 per copy, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Tin Ingots".

A sum of Rs. 1,000 must be deposited with, and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in Cash (of which no interest will be allowed) or wholly in Government Promissory Notes, Municipal Debentures or Port Trust Bonds, and the Agent on behalf of the Administration reserves to himself the right to appropriate or cancel the Government Promissory Notes, Debentures or Bonds, or confiscate the cash deposit, should the successful tenderer fail to

put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Thursday, the 18th October, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.

Tender No. 1935/D.—Rate Contract for the Supply of Miscellaneous Stores during the period 1st January, 1935, to 31st October, 1935.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of Miscellaneous Stores required during the period 1st January, 1935, to 31st October, 1935, such as Asbestos goods, Blacking, Plumbago moulders, Emery cloth, Soda caustic and washing, Cuttle fish bones, Sand moulding, Mantles, Baskets cane and bamboo, Glass paper, etc.

The prescribed form of tender, with conditions on which tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 2 per form, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender No. 1935/D for the Supply of Miscellaneous Stores".

A sum of Rs. 1,000 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in Cash (on which no interest will be allowed) or wholly in Government Promissory Notes, Municipal Debentures or Port Trust Bonds, and the Agent, on behalf of the Administration, reserves to himself the right to appropriate or cancel the Government Promissory Notes, Municipal Debentures or Port Trust Bonds or confiscate the cash deposit, should the successful tenderer fail to fulfil the contract.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 31st October, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of Metals

required during the period 1st January, 1935, to 30th September, 1935, viz.:—Aluminium bars, brass rods, sheets and wire; copper rods, sheets and tubes; and lead tin and zinc sheets.

The prescribed form of tender, with conditions on which tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 2 per form, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender No. 1935/F for the Supply of Miscellaneous Stores".

A sum of Rs. 1,000 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) or wholly in Government Promissory Notes, Municipal Debentures or Port Trust Bonds, and the Agent, on behalf of the Administration, reserves to himself the right to appropriate or cancel the Government Promissory Notes, Municipal Debentures or Port Trust Bonds or confiscate the cash deposit should the successful tenderer fail to put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 14th November, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Mineral Oils.

The Agent, M. and S. M. Railway, Madras, invites tenders for the supply of the following Mineral Oils during the year commencing 1st April, 1935:—

1. Cylinder Oil, saturated steam . . . 37 tons.
2. Cylinder Oil, Superheated steam . . . 150 "
3. Carriage and Wagon Axle Oil . . . 860 "

Tender forms can be obtained from the Railway's Controller of Stores at Perambur on payment of Rs. 3 per copy. Closing date is 6th November, 1934.

GREAT INDIAN PENINSULA RAILWAY.

Sale of Miscellaneous Surplus Stores comprising Gas Plant and Machinery, Water Tanks, Fish Plates and Rails available for disposal at various Stations on the G. I. P. Railway.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the purchase of the above material.

The prescribed form of tender with conditions on which tenders will be considered can be obtained

from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 5 per form which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Purchase of Miscellaneous Surplus Stores available at various Stations on the G. I. P. Railway". Tenders not complying with these conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 14th November, 1934.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

Simla.

THE following particulars regarding contracts which have been placed or cancelled by the Indian Stores Department have been received from the Chief Controller of Stores, Indian Stores Department, Simla. (Orders of less than Rs. 100 in value are not included.)

I.—ENGINEERING SECTION.

Contracts placed during week ending 27th September, 1934.

Tender No. and Article.	No. or Quantity.	Name of Firm.	Value of Contract.
			Rs.
<i>Rate Contract No. A-3654.</i> —Target Apparatus, Carey's Hythe pattern.		Messrs. Carstairs & Cumming, Karachi.	95 per set f.o.r. Karachi.
<i>Flat Rate Contract No. N-3229/2.</i> —Pig Iron, Grade No. 2, coke quality, machine or sand cast.		The Tata Iron & Steel Co., Ltd., Calcutta.	53 per ton, free delivery Jamalpur Rly. Station, E. I. R. at B. M. rate of freight.
N-3174.—Galvanised steel fencing wire, strand (7-ply) 14 S. W. G.	200 cwts.	Messrs. Richardson & Cruddas, Bombay.	2,363 free delivery, G. I. P. Rly. General Stores Depot, Parel, Bombay.
N-3242.—Point Rodding (tubular), including bolts and nuts.	5,000 ft.	Messrs. Burn & Co., Ltd., Howrah.	1,490 f.o.r. Calcutta.
N-3260.—Self-acting, sliding, surfacing and screw-cutting gap bed lathes, 8½" centre × 8 ft. bed, complete with 12" dia. independent 4 jaw chucks.	2		2,222
"Pallas" Model "N" Universal Milling Machine with working surface of table 56" × 8½", with extra.	1	Messrs. Turner Hoare & Co., Ltd., Bombay.	3,197

TREASURY BILLS

The Controller of the Currency notifies that tenders for Rs. 1½ crores of three months Treasury Bills were opened on Tuesday, the 9th October, 1934. Total amount offered was Rs. 2,18,25,000. Tenders at Rs. 99-10-6 and above were accepted in full and those at Rs. 99-10-3 were allotted approximately 66 per cent. Lower tenders were rejected. Total amount accepted was Rs. 1½ crores, the average rate of accepted tenders being Rs. 1-6-8 per annum.

Tenders for Rs. 1½ crores of three months Treasury Bills will be received on Wednesday, the 24th October, 1934. Successful tenderers should make payment on Friday, the 26th October, 1934. Other conditions are as usual.

Three months intermediates will be sold from the 10th to the 23rd October, 1934, at Rs. 99-10-9 per cent subject to the conditions previously announced.

Three months intermediates sold from the 3rd to the 8th October, 1934, amounted to Rs. 1,12,75,000.

NOTES.

INDIAN CUSTOMS REVENUE—

The grand total of gross Indian Sea and Land Customs Revenue (excluding salt revenue) collected during the month of September, 1934, amounted to Rs. 4,61 lakhs as against Rs. 4,29 lakhs in the preceding month and Rs. 3,80 lakhs in September, 1933. The total revenue realised in the six months ended September, 1934, was Rs. 24,87 lakhs as compared with Rs. 23,64 lakhs during the same period last year. Import duties accounted for Rs. 18,19 lakhs of this amount, export duties for Rs. 1,94 lakhs, excise duties on motor spirit, kerosene, sugar and matches for Rs. 2,51 lakhs, Rs. 1,42 lakhs, Rs. 20 lakhs and Rs. 30 lakhs, respectively, and Land Customs and Miscellaneous for Rs. 31 lakhs. Increases were noticeable under import duties on kerosene, motor cars, artificial silk yarn and thread, metals other than iron and steel, etc., dyes derived from coal tar, cotton hosiery, iron and steel, pneumatic rubber tyres and tubes, oils, batching, fuel and lubricating, railway plant and rolling stock, silver bullion, coin, sheets, plates and other manufactures, tobacco and wireless reception instruments and apparatus; export duties on jute, raw and manufactured, and excise duty on motor spirit also showed increases. On the other hand, import duties on sugar, silk fabrics, cotton yarn and thread, cotton fabrics, motor spirit, betelnuts, machinery, boots and shoes, toys, games and sports goods, liquors, paper and stationery and tea, the export duty on rice, the excise duty on kerosene and land customs receipts showed noticeable decreases.

BULLETIN OF THE IMPERIAL INSTITUTE—

The current number (Vol. XXXII, No. 2, issued July, 1934) of the *Bulletin of the Imperial Institute* has been received and may be seen in the Commercial Library and Reading-Room at 1, Council House Street, Calcutta. The following are the main contents:—*Reports of Recent Investigations at the Imperial Institute: Essential Oils from East Africa: (i) Geranium; (ii) Peppermint; (iii) Grass Oils; (iv) Eucalyptus citriodora; (v) Patchouli; (vi) Cinnamon Leaf; (vii) Aframomum Amaniense; (viii) Brachylana Hutchinsii; (ix) Coleus Spp.; (x) Hoslundia Opposita; (xi) Ocimum Spp.; (xii) Widdringtonia Whytei; and (xiii) Zanthoxylum Sp.* Article:—*Some East African Essential Oils*, by R. R. Le G. Worsley, A.R.C.S., D.I.C., Ph.D. (Lond.), Bio-chemist, East African Agricultural Research Station, Amani, Tanganyika Territory. *Recent Research on Empire Products:—Agriculture*. Copies of the Bulletin may be obtained from Mr. John Murray, Albemarle Street, London, W. (Price 3s. 9d. post free.)

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

TRADE OF ADEN IN AUGUST, 1934.

—At page 204 of this issue is published a return of the trade of the Port of Aden for August, 1934. The number of merchant vessels over 200 tons that used the Port in August was 142 as compared with 112 in the corresponding month last year and the total tonnage was 578,000 as compared with 463,000. Excluding Coal, Salt, Fuel Oil and Military and Naval Stores and Transhipment Cargo, the total tonnage of Imports in the month was 7,200 and of Exports 4,900 as compared with 7,500 and 4,300, respectively, for the corresponding month last year. The total value of Imports excluding Government stores was Rs. 47,50,000 as compared with Rs. 38,35,000 for August, 1933, and of Exports Rs. 22,32,000 as compared with Rs. 24,98,000. The total value of both Imports and Exports together was Rs. 69,82,000 as compared with Rs. 63,33,000 for the corresponding month last year. Imports during the month were above those for August, 1933, in the case of Hardware, Seeds, Sugar, Piecegoods, white, Tobacco, unmanufactured and manufactured; and below in the case of Coffee, Grain, Pulse and Flour, Gums and Resins, Hides raw, Skins raw, Piecegoods, grey, printed or dyed, Twist and Yarn and Treasure private. Exports were above those for August, 1933, in the case of Coffee, Grain, Pulse and Flour, Gums and Resins, Hides raw, Sugar, Piecegoods, white, Tobacco, unmanufactured and manufactured, and Treasure private; and below in the case of Hardware, Seeds, Skins raw, Piecegoods, grey, printed or dyed, and Twist and Yarn.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 7th October.—Nearly general in Lower Burma and Assam on 4 days and west and east Central Provinces 1 day; fairly widespread in Assam on 2 days and Lower Burma 1 day. Elsewhere local or few falls only. **Monsoon** withdrawn from north-east India and Burma and weak elsewhere.

Crops: Madras, week ending 29th September.—Rainfall generally below normal. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts. Standing crops generally fair except in parts of Bellary, Anantapur, Cuddapah, north Arcot, Coimbatore, Trichinopoly, Madura and Tinnevely where adversely affected for want of rain. Bihar and Orissa, week ending 1st October.—Rain fell in all districts of province, heavy in parts of Angul and light to moderate elsewhere. Standing crops including sugarcane generally good. Harvesting of *bhadai* crops continues. Jute being harvested in Cuttack and Balasore. Ploughing of fields for *rabi* commenced. More rain needed in parts of Purnea and Santal Parganas. Punjab, week ending 1st October.—Light rain fell in parts of most districts. Rain badly needed in some districts. Standing crops generally average to good on irrigated and below average to average on unirrigated areas. Sugarcane damaged by "top-borer" in parts of Rohtak and Karnal and by "pyralid-borer" in parts of Gurdaspur. Vigorous measures for destruction of sugarcane pests being continued. Damage to standing crops by insects reported from parts of Gurgaon and Dera Ghazi Khan and action for their destruction being taken. Cotton reported affected by "root rot" disease in parts of Shahpur and by *tela* in parts of Sheikhupura. Central Provinces, week ending 29th September.—Weather generally cloudy with heavy showers in northern and plateau districts and in Wardha and Nagpur towards week end. Elsewhere rainfall light to moderate. *Til* and *guar* on low-lying and level land in Saugor reported seriously damaged and crops generally on rich and low-lying soils in Hoshangabad, Nimar, Betul, Wardha and Nagpur somewhat affected on account of excessive moisture and lack of sunshine. Long break badly needed to improve their condition. In Chhattisgarh and Berar divisions standing crops generally in good condition. Weeding and inter-cultural operations and preparation of land for *rabi* sowings in progress. United Provinces, week ending 29th September.—Rainfall general throughout province except in districts of Muzaffarnagar and Bijnor; somewhat heavy in Jhansi and light in other districts. Slight damage reported from excessive rain and flood in districts of Jhansi and Jalaun. Preparation of land for *rabi* and harvesting of *kharif* continue. Sowing of *rabi* and picking of cotton commenced at places. Standing crops doing well. Prospects so far favourable. Bombay, 6th October.—Rainfall during week absent in Gujarat except casual showers

in Broach and generally inadequate in Nasik and Poona in Deccan and west Karnatak. More rain badly needed in these areas and also east Karnatak where rain fairly good in parts. Elsewhere rainfall fair to good and crops reported doing fairly well. *Kharif* harvesting proceeding most places and *rabi* sowing in progress parts Deccan. Sind, 6th October.—No rain during week. Skies mostly clear. Picking in early-sown American cotton continues. Early-sown rice being harvested. Other *kharif* crops progressing well. Labour scarce due to Malarial season. Water supply adequate.

Bombay, 4th October.—Cotton: Market weak sympathetically with American decline, and business limited. No. 3 Fine M. G. Oomras Rs. 178-4 December-January, 1935.

Calcutta, 6th October.—Jute market firm with sellers reserved. New crop First Rs. 26 ready. Hessians quiet with little or no business reported. Nine Porters Rs. 8-9; Elevens Rs. 11-1 ready. B. Twills Rs. 24-4 October.

Calcutta, 5th October.—Shellac T. N. Rs. 43.

Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 3rd October.—Specials White Rice, Big Mills Rs. 220; Small Mills Rs. 236 October. Paddy, 6th October.—Rs. 88 to Rs. 89 (river) and Rs. 87 to Rs. 88 (rail).

Wheat. 4th October: Lyallpur.—Rs. 1-15-6 f.o.r. per maund. Bombay.—White Delhi, per cwt., railway terms Rs. 3-15 January and Rs. 4-3 May. 5th October: Karachi.—Punjab white Rs. 19-10 per candy.

Seventeenth Tea sale, Calcutta, 1st and 2nd October.—15 thousand chests Leaf for export and 9 thousand chests for internal consumption, average price As. 8-11 and As. 5, respectively, and 5 thousand chests Dust at As. 5-6, sold. Export quality remains unchanged, and of an average standard for the time of year. Improved quality of previous week developed. Demand was of a much more general nature than for some weeks last resulting in rise of prices for practically all grades. Common broken grades were strongest feature and there was little but commonest types available under As. 8-9 per lb., which represents a rise of a full anna per lb. over last sale. Medium broken also dearer by about 9 pies per lb., while most grades of Fannings advanced about ½ anna. A good deal of irregularity, however, visible. Leaf grades, especially those of good style and appearance, were strongly supported and prices advanced a full 6 pies per lb.; inferior types, whilst not appreciating to quite same extent, were in good demand. Range in value for all grades remains very narrow and 10 annas per lb. infrequently offered. Much small offerings for internal consumption met ready demand. Prices advanced generally by about 3 pies per lb., leaf grades being especially well enquired for. All grades of Dust continued well supported, range of value being between 5 annas and 5 annas 9 pies per lb.

QUARTERLY REPORT BY S. N. GUPTA, ESQ., I.C.S., GOVERNMENT OF INDIA TRADE COMMISSIONER, HAMBURG, FOR THE PERIOD APRIL-JUNE, 1934.

Prices.

THE predominant feature of the quarter under review, so far as Germany is concerned, has been the severe restrictions placed on the importation of raw materials and semi-manufactures. During the first 3 months of the calendar year, Germany's international balance of payments revealed a large import surplus instead of the usual surplus of exports. The authorities ascribed this adverse change to two major causes: (i) abnormally heavy imports of raw materials to meet the demands of reviving industries and (ii) the various obstacles placed in the way of German exports in the world's markets, e.g., high tariffs, import quotas, exchange restrictions, devalued currencies and finally the political-economic boycott. As a result of this change in the balance of payments the German Government passed a series of decrees in March and April imposing a temporary prohibition on the importation of a large number of important raw materials in which India is interested, e.g., cotton, wool, jute, hemp, flax, animal hair, hides and skins and certain metals other than iron and steel. Side by side with these total import prohibitions the Government also drastically reduced the amount of foreign currency available for the payment of imports. Up to March this amount was 50 per cent of the average monthly basis during 1931. This percentage was cut down step by step to 45 per cent, 35 per cent, 25 per cent, 10 per cent, and finally to 5 per cent, by the end of the quarter under review, with the further proviso that the amount of foreign currency available for payment of imports shall not from day to day exceed the amount earned by the Reichsbank.

2. With the exception of wool, all the other import prohibitions were lifted by the end of May. In their place were installed Government Control Offices whose purpose is to supervise and check imports, and to conserve and ration the supply of raw materials to the manufacturing industries. Industrial output is also controlled by these offices. As a result of these measures a number of countries have concluded agreements with Germany for the purpose of facilitating payments for goods exchanged. The U. K. has concluded such an agreement. This is made possible because the U. K. buys more from Germany than she sells to her. But the opposite is the case in regard to the trade between Germany and India and Germany and the Dominions, and this fact militates against the conclusion of agreements between India and the Dominions and Germany. The position, therefore, that has now been reached in the trade between Germany and

the Empire is that no increase in imports into Germany from Empire sources is possible without "additional" German exports to the Empire. The position is an extremely unsatisfactory one and cannot remain so for any length of time; because, if it does, the present industrial revival in Germany will receive a severe check, which in its turn will aggravate the unemployment problem which the Government is anxious to solve as quickly as possible.

3. Coming to actual prices, Jute first marks declined steadily throughout the quarter from £16 7s. 6d. in the beginning of April to £14 15s. 0d. by the end of June. On the other hand cotton prices showed a small improvement. Bremen Class I commenced the quarter at 3-70d. and rose to 3-80d. at the end of June, Bremen Class II also rising from 4-50d. to 4-60d. Shellac (T. N. Orange) prices rose very considerably, but their course was not too steady during the quarter. In April T. N. Orange was quoted at 85s.; by the middle of May prices rose steeply to 118s.; but from that time they declined again gradually to 112s. by the end of June. Speculative activity was at the bottom of this unsteadiness in shellac prices.

4. After the first week in April there have been no subsequent quotations of Burma L. R. O. rice. While the Bassein and Arracan varieties dropped very slightly as compared with the beginning of the quarter, Moulmein rice picked up from Rm. 13-20 to Rm. 14-20. But on the whole the prices of all varieties displayed comparative steadiness throughout the 3 months under review, there being no variations after the middle of April. It is interesting to note that two new types of rice have just recently found their way into the exchange quotations, viz., (i) New Type German People's Rice dry and (ii) New Type German People's Rice polished. These two types are mixtures of Burma and Italian and Saigon and Italian and are intended for popular consumption in Germany. Tea quotations lost ground during the quarter, Northern Indian declining from 14-16d. to 12-93d. and Southern Indian from 14-34d. to 13-01d. Pepper prices showed an improvement and rose steadily from Rm. 58 to Rm. 67 by the beginning of June, ending off at Rm. 64 at the end of that month.

5. Oils were fairly firm during the quarter. Linseed oil improved from Rm. 26 to Rm. 30-50, Groundnut oil from Rm. 18-50 to Rm. 20-50 and coconut oil from Rm. 18 to Rm. 19. Oilseeds also recorded increases. Linseed commenced the quarter at £11 and rose to nearly £13 by the third week of May, ending up at £12 7s. 6d. at the end of June. Groundnuts improved from £8 in April to nearly £9 at the beginning of June, though there was a subsequent setback to £8 10s. 0d. at the end of the quarter. Castor seed also improved a little from £9 5s. 0d. to £9 10s. 0d. In regard to oilcakes, a feature of the quarter was a steady decline of prices

from April till the 3rd week of May. Prices then rose again steeply and at the beginning of June were actually higher than in April. Then another slump took place at the end of which prices were again more or less at their April level, the only exception being groundnut cake which maintained the earlier improvement and finished the quarter in a strong position.

Imports.

6. Imports of raw jute into Germany increased considerably in the first half of 1934 as compared with the two previous years; this in spite of the temporary prohibition during April and May. It should, however, be stated that amounts contracted for previous to the prohibition decree were allowed to come in as usual. Imports reached 66,197 tons this year as compared with 48,312 tons and 35,642 tons in the corresponding periods of 1933 and 1932. It remains to be seen what effect the cutting down of the foreign exchange percentage will have on the import of jute during the second half of 1934. Jute manufactures from India dwindled to a mere nothing as compared with previous years, though Czechoslovakia continued to maintain her exports of jute cloth and bags, as also did Holland in regard to bags. Imports of raw cotton increased from 95,552 bales in the first six months of 1933 to 151,924 bales in 1934, a very satisfactory improvement. Indian cotton prices have been favourable *vis à vis* American prices and this has helped Indian cotton a great deal. Indian hemp has more or less maintained its position in 1934 as compared with 1933. Imports of both coir fibre and coir yarn show increases as compared with 1933, coir yarn imports being 5,551 tons as compared with 4,169 tons in the previous year.

7. Imports of both polished and unpolished rice from India declined heavily in 1934 as compared with 1933. Polished rice declined from 31,909 tons in 1933 to only 11,334 tons in 1934, while unpolished rice declined from 81,922 tons in 1933 to 66,353 tons in 1934. It will be noticed that total imports of polished rice into Germany decreased by a half as compared with 1934, but unpolished rice more or less maintained its total position in 1934. While Italy sold only a half of her 1933 amount of polished rice, her sales of unpolished rice leapt up from 341 tons in 1933 to 10,611 tons in 1934. This result is directly attributable to the German-Italian rice agreement of June, 1933, under which Germany arranged to purchase large supplies of Italian unpolished rice in exchange for other concessions. It will be seen from the Appendix of Imports that the rice bran trade to Germany has at last come to a standstill, there being no imports of rice bran into Germany during 1934. This is a severe blow to Burma who had for years carried on a very valuable trade with Germany in rice bran.

Both coffee and tea imports from India show decreases in 1934 as compared with 1933. In 1934 Germany suddenly purchased 4,930 tons of peas from India.

8. In 1934 Germany again increased her purchases of Indian wet cow hides, imports increasing from 2,042 tons in 1933 to 3,585 tons this year. Raw sheep skins and goat skins also record very satisfactory increases, especially the latter. Reptile skins decreased by almost half as compared with 1933. Prepared goat and sheep skins from India again record substantial increases as compared with 1933.

9. In regard to oilseeds, rapeseed imports improved from 7,424 tons in 1933 to 8,747 tons this year. Imports of undecorticated groundnuts decreased very considerably from 7,053 tons in 1933 to only 2,123 tons in 1934, but imports of the decorticated variety improved from 87,022 tons to 118,893 tons this year. Linseed more or less retained its last year's position. The oilcake position this year is a very bad one for India. There were no imports at all of Indian cakes during 1934. It will be recalled that even so recently as last year, Germany bought 57,887 tons of groundnut cake alone, apart from linseed cake, cotton seed cake and kopra cake. This is a severe blow to the Indian export trade.

10. Due to increased building activity imports of Indian teak improved from 100 tons in 1933 to 829 tons this year. Gum lac imports were double those of last year but shellac purchases receded a little. In regard to minerals Indian pig iron imports improved from 4,062 tons in 1933 to 5,092 tons in 1934. But imports of manganese ore from India suffered a severe setback this year as compared with last year, 7,413 tons as compared with 19,615 tons last year. Soviet Russia improved her position considerably, Russian imports increasing from 35,790 tons in 1933 to 110,586 tons this year. German purchases of Indian nickel increased from 1,270 tons to 1,864 tons. 387 tons of pig lead were imported this year. Mica improved slightly from 212 tons in 1933 to 285 tons this year. Imports of paraffin wax also increased from 591 tons to 1,378 tons.

Enquiries.

11. The following enquiries from among those received by this office during the quarter under review are selected for mention in this report:—A mining firm in South India asked through the Director-General of Commercial Intelligence and Statistics for addresses of Continental importers of granite kerb stones. Enquiries were made and the names of firms in Germany, Austria and Czechoslovakia interested in this matter were sent out to India. The Director-General of Commercial Intelligence and Statistics asked for names of importers of "marking nuts." It was ascertained that marking nuts were known in Hamburg as cashew nuts,

that they were not imported for their colour properties but rather for use in the confectionery trade. Names of firms interested in the enquiry were sent out to the Director-General of Commercial Intelligence. A firm in Poona wrote and asked us to introduce them to parties interested in the import of cordage plant leaves for the purpose of artificial silk manufacture. Enquiries were made and the Indian firm was put in touch with interested importers. A firm in Bombay representing a co-operative union of cotton growers and ginner in Surat district wrote and said a representative would visit cotton centres in Europe for the purpose of appointing agents here for their cotton exports. The necessary advice and assistance will be given to the representative when he calls, though new business in regard to Germany will present difficulties in view of stringent currency restrictions. An importer in Cologne asked for exporters of horns and horn tips (buffalo and cow). Names of suitable exporters were given and an enquiry has also been instituted in India. A firm in Brussels asked to be put in touch with exporters of cotton and silk yarns: introductions were effected after the necessary enquiries. A firm of wood and timber importers in Paris was put in touch with exporters of fancy woods for high class furniture. A firm of chemical manufacturers in Central Germany was put in touch with exporters of essential oils, rosin and drugs. A manufacturer in Czechoslovakia was introduced to exporters of leather uppers for shoes, and suitable samples of such uppers were obtained from India through the Director-General of Commercial Intelligence and Statistics for transmission to the firm in Prague. Another firm in Prague wrote and asked for introductions to exporters of jute, oilseeds and rice. Names of interested exporters were, supplied to the Prague firm. A firm in Ghent,

Belgium, asked to be put in touch with exporters of jute and hemp. Enquiries were made and the names of interested parties were forwarded to the Belgian firm. A Hamburg firm was put in touch with exporters interested in the export of graphite. A firm in Berlin wrote and asked to be introduced to exporters of salted sheep casings. Enquiries were made in India and the names of suitable exporters interested in this enquiry were forwarded to Berlin.

12. The Director of Industries, Punjab, asked to be supplied with names of manufacturers of steel reed making machines and healed knitting machines. Enquiries were made and the names of suitable German manufacturers were transmitted to India. The Fibre Expert of the Bengal Government wrote and asked for full detailed information regarding flax-retting in East Prussia. Enquiries were made both in East Prussia and Poland and all available information and literature on flax-retting has been forwarded to the Fibre Expert in Bengal. An educational institute in Allahabad wrote and asked for names of manufacturers of "garogene" apparatus for working internal combustion engines by gas produced from charcoal. Enquiries were made and the names of French and German manufacturers were forwarded to India. A firm in Indore was supplied with names of manufacturers of textile machinery of various sorts. A Punjab firm was given names of manufacturers making hosiery machinery. A Bombay firm of bullion brokers was put in touch with French and German firms manufacturing machinery for melting and refining gold and silver. A firm in Cawnpore was given the names of manufacturers of glass bottles. A firm in Bareilly was put in touch with German suppliers of colours and paints.

EXTRACT FROM LINSEED CIRCULAR NO. 39 OF 1934 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 28th September, 1934—

Quotations for Linseed and Linseed Oil—	£	s.	d.
Indian Linseed.—September-October delivery c.i.f. per ton	11	10	0
Argentine Linseed.—September-October delivery c.i.f. (excluding duty) per ton	10	10	0
Linseed Oil.—September-October delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	18	15	0

Market Conditions.—United Kingdom demand for linseed is still disappointing. On reported frost in Argentine Indian linseed was offered at much higher figures which precluded important business. Prices eased at the close. America is reported to

be a fair buyer of Bombay seed on occasions. Plate seed is neglected in the United Kingdom and there is moderate business on the Continent.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 19th September, 1934—

Quotations for Linseed Oil—	Rs.	12	0
Linseed Oil, European make (Raw)	per gallon f.a.s.		
Linseed Oil, European make (Boiled)	Rs. 1 14 0		
	per gallon f.a.s.		

Market Conditions.—The linseed market remained quieter during the week in sympathy with foreign markets, small business being done daily by ship-owners.

Bombay, 21st September, 1934—

Quotations for Linseed Oil—	Rs.	3-8-0	per maund.
Linseed Oil			

BOOKS OF REFERENCE.

THE following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta :—

U. K. and Parliamentary Publications—

Board of Trade.—International Convention for the Protection of Industrial Property and International Agreement regarding False Indications of Origin—Comparison of the Hague and London Texts with Explanatory Notes by the British Delegates.

Poland No. 1 (1934).—Agreement between His Majesty in respect of the United Kingdom and the President of the Republic of Poland relating to Commercial Travellers—Warsaw, October 26, 1933.

Treaty Series No. 21 (1934).—Exchange of Notes between H. M. Government in the United Kingdom and the Egyptian Government and the Italian Government respecting the Boundary between the Sudan and Libya—Rome, July 20, 1934.

Foreign and Colonial Publications—

Canada.—Dominion Bureau of Statistics—Monthly Bulletin of Agricultural Statistics—June, 1934.

Geneva.—League of Nations—Financial Committee—Report to the Council on the Work of the Fifty-fifth Session of the Committee—Geneva, September 3rd-10th, 1934.

Malaya.—Foreign Imports and Exports during the year 1933.

Rotterdam.—Chamber of Commerce and Industry—Statistics of Trade, Industry and Traffic of Rotterdam in respect of the second quarter of 1934, with comparative figures in respect of the four quarters of 1933 and the first quarter of 1934.

United States of America.—Department of Commerce—Commerce Reports—25th August, 1934.

Monthly Summary of Foreign Commerce of the United States—Part II: May, 1934.

Indian Publications—

Bombay Port Trust.—Annual Administration Report of the Bombay Port Trust for the year 1933-34.

The Commissioners for the Port of Calcutta.—Administration Report and Annual Accounts for the year 1933-34.

Karachi Port Trust.—Administration Report of the Karachi Port Trust for the year 1933-34.

STATISTICAL PUBLICATIONS—

THE following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) **Trade at Stations Adjacent to Land Frontier Routes for July, 1934.** (Price As. 12.) This publication contains statements of (i) Rail-borne trade in selected articles at stations adjacent to land frontier routes of India proper and (ii) Trade in selected

articles at stations on the important land frontier routes of Burma during the month of July and the four months ended July, 1934, as compared with the corresponding periods of the preceding two years.

(2) **Accounts relating to the Coasting Trade and Navigation of British India for July, 1934.** (Price Rs. 3-12.) This publication contains statistical tables showing the coastal trade registered at the British Indian ports, i.e., the trade of these ports with one another and with Indian ports not British for the month of July and the four months ended July, 1934, as compared with the corresponding periods of the preceding two years.

(3) **Return showing the total gross Indian Sea and Land Customs Revenue (excluding Salt Revenue) in the month of September, 1934, and in the six months ended September, 1934, as compared with the corresponding periods of the two preceding years.** (Price one anna.) The return contains the details of duty collected on the principal articles of import and also on the export of jute, rice, and raw skins together with the amounts of excise duty collected on silver, motor spirit, kerosene oil, sugar and matches and land customs and miscellaneous receipts. The actuals for the years 1932-33 and 1933-34 and the budget estimates for 1934-35 under the specific heads of revenue are also shown therein.

(4) **Accounts relating to the Inland (Rail and River-borne) Trade of India for May, 1934.** (Price Rs. 2 or 3s. 6d.) This publication offers a summary view of the inland trade of India during the month of May, 1934. The statistics contained in these accounts relate to the inland trade of India, carried by the railways and the steamer services, and represent the movement of the trade into and from a province, taken as a whole, or a chief port or ports, the trade of which is registered separately from that of the trade of the province in which such port or ports may be situated. The trade dealt with in these accounts thus falls into one or other of the following categories—(i) the trade of a province with other provinces, (ii) the trade of a chief port with the province in which it is situated, and (iii) the trade of a chief port with other provinces—the statistics being given separately in respect of 18 principal trade blocks, namely, (1) 9 blocks representing the British provinces, excluding Burma, (2) 4 representing the principal port towns and (3) 5 representing Indian States.

(5) **Monthly Statistics of the Production of Certain Selected Industries of India, July, 1934.** (Price As. 2.)

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

STATE RAILWAY EARNINGS—

The total approximate gross earnings of all State-owned Railways for the week ending the 8th September, 1934 (23rd week), amounted to Rs. 1.47 lakhs*, Rs. 5 lakhs more than the figures for the preceding week and Rs. 4 lakhs more than the actuals for the corresponding week of the previous year and Rs. 2 lakhs more than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 8th September, 1934, amount to Rs. 38.01 crores or Rs. 2.13 lakhs more than the actuals for the corresponding period of the previous year and Rs. 2.96 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year :

Railways.	Up to 8th Sept., 1933.	Up to 8th Sept., 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)
A. B.	63	78	+15
B. N.	3.05	3.40	+35
B., B. & C. I.	4.38	4.57	+19
Burma	1.43	1.59	+16
E. B.	2.02	2.09	+7
E. I.	7.35	7.88	+53
G. I. P.	4.89	5.00	+11
M. & S. M.	3.13	3.19	+6
N. W.	5.74	6.10	+36
S. I.	2.29	2.39	+10
Tirhoot & Lucknow-Bareilly	80	83	+3
Other Railways	17	19	+2
TOTAL	35.88	38.01	+2.18

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways except the Burma, G. I. P., M. and S. M. and N. W. A comparison with the actuals of the corresponding week of 1933 shows increases in the approximate gross earnings of all the principal State-owned Railways except the B. N., B., B. and C. I., Burma, E. I. and Tirhoot and Lucknow-Bareilly.

The principal variations in earnings as compared with the actuals for the corresponding week of the previous year, in thousands of rupees, were :

A. B.	+40; coaching earnings (+3) and goods earnings (+37) due to increased bookings of grain, tea and wax.
---------------	---

*The mileage open up to the 30th June, 1933, was 42,912.62.

B. N.	—10; coaching earnings (—55) and goods earnings (+45) under coal, iron ore, lime, timber, kerosene oil, manganese ore and wheat.
B., B. & C. I.	—39; coaching earnings (—19), goods earnings (—22) and other earnings (+2).
Burma	—16; coaching earnings (—2), goods earnings (—16) and other earnings (+2).
E. B.	+1.32; coaching earnings (+16) mainly due to increased parcel traffic, goods earnings (+1.12) due to general all round improvement in traffic particularly under jute and other earnings (+4).
E. I.	—46; coaching earnings (—45) due chiefly to less 3rd class passengers, goods earnings (—12) and other earnings (—11).
G. I. P.	31; coaching earnings (+98) due to increased passenger earnings and goods earnings (—67) due to decreased earnings from oilseeds and cotton manufactured.
M. & S. M.	+49; coaching earnings (+4), goods earnings (+59) under groundnuts, rice, cotton, cotton seeds and food grains other than wheat and rice and other earnings (—6).
N. W.	1.84; coaching earnings (—65) due possibly to the reduction in 3rd class fares, goods earnings (—2.10) under wheat (+1.04), barley, rice not in husk, gram and pulses and oilseeds and other earnings (+39).
S. I.	35; coaching earnings (—30) due to a general falling off in the number of passengers booked, goods earnings (+57) under groundnut, dhul, potatoes, rice, grains and twist and other earnings (+8).
Tirhoot & Lucknow-Bareilly	63; mainly due to decreased coaching and goods earnings on the B. and N. W. Railway.

The total approximate gross earnings of all State-owned Railways for the week ending the 15th September, 1934 (24th week), amounted to Rs. 1.49 lakhs, Rs. 2 lakhs more than the figures for the preceding week and Rs. 4 lakhs more than the actuals for the corresponding week of the previous year and Rs. 1 lakh more than the actuals for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 15th September, 1934, amount to Rs. 39.50 crores or Rs. 2.5 lakhs more than the actuals for the corresponding period of the previous year and Rs. 2.97 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year :—

Railways.	Up to 15th Sept., 1933.	Up to 15th Sept., 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)
A. B.	66	81	+15
B. N.	3.19	3.54	+35
B., B. and C. I.	4.54	4.73	+19
Burma	1.49	1.65	+16
E. B.	2.12	2.19	+7
E. I.	7.56	8.20	+64
G. I. P.	5.06	5.18	+12
M. and S. M.	3.25	3.31	+6
N. W.	5.96	6.34	+38
S. I.	2.39	2.50	+11
Tirhoot & Lucknow-Bareilly	83	85	+2
Other Railways	18	20	+2
TOTAL	37.33	39.50	+2.17

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways except the A. B., B. N., E. B. and M. and S. M. A comparison with the actuals of the corresponding week of 1933 shows increases in the approximate gross earnings of the E. I., G. I. P., N. W. and S. I. Railways.

The principal variations in earnings as compared with the actuals for the corresponding week of the previous year, in thousands of rupees, were :—

A. B.	—8; coaching earnings (—1), goods earnings (+2) and other earnings (—9).
B. N.	—36; coaching earnings (—72) mainly due to decreased passenger earnings, goods earnings (+38) under manganese ore, lime and iron ore and other earnings (—2).
B., B. and C. I.	—3; coaching earnings (—24), goods earnings (+18) and other earnings (+3).
Burma	—2; coaching earnings (—3), goods earnings (—3) and other earnings (+4).
E. B.	—12; coaching earnings (+1), goods earnings (—12) mainly under jute and other earnings (—1).
E. I.	+1.42; coaching earnings (—16), goods earnings (+1.48) under coal and other earnings (+10).
G. I. P.	+52; coaching earnings (+1.09) due to increased passenger earnings and goods earnings (—57) under oilseeds and cotton manufactures.
M. and S. M.	—37; coaching earnings (+18), goods earnings (—48) and other earnings (—7).

N. W.	+2.61; coaching earnings (+40) due to fluctuations in passenger traffic, goods earnings (+1.99) under wheat (+76), barley, gram and pulses, oilseeds and iron and steel and other earnings (+22).
S. I.	+44; coaching earnings (+40) due to Kandoori festival, marriage season and coolie traffic, goods earnings (—1) and other earnings (+5).
Tirhoot & Lucknow-Bareilly	—59; chiefly due to decreased coaching and goods earnings on the B. and N. W. Railway.

WAGONS REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 8th September, 1934, and for the cumulative period from the 1st April to the 8th September, 1934, with the corresponding periods of the previous year are as follows :—

(a) Total loadings during the week.

During the week ending the 8th September, 1934, there were loaded on the broad gauge 69,652 wagons, being 1,876 more than in the corresponding week of the previous year, or an increase of 2.77 per cent. On the metre gauge there were loaded 39,745 wagons, being 1,426 more than in the corresponding week of the previous year, or an increase of 3.72 per cent.

(b) Cumulative loadings from 1st April, 1934.

(i) For the period from the 1st April to the 8th September, 1934, there were loaded on the broad gauge 1,742,019 wagons, being 108,040 more than in the corresponding period of the previous year, or an increase of 6.61 per cent and on the metre gauge 1,110,777 wagons, being 77,654 more than in the corresponding period of the previous year, or an increase of 7.52 per cent.

(ii) Coal and coke.—In the same period 427,924 wagons, broad and metre gauge, were loaded as compared with 392,340 in the corresponding period of the previous year, being 35,584 more, or an increase of 9.07 per cent. In addition, 48,991 wagons, broad gauge, were loaded during the period by the B. N. and E. I. Railways for their own use, as compared with 41,958 in the corresponding period, being 7,033 more, or an increase of 16.8 per cent.

(iii) Grains and pulses.—In the same period 390,122 wagons, broad and metre gauge, were loaded as compared with 336,133 in the corresponding period of the previous year, being 53,989 more, or an increase of 16.1 per cent.

(iv) Oilseeds.—In the same period 107,818 wagons, broad and metre gauge, were loaded as compared

with 110,673 in the corresponding period of the previous year, being 2,855 fewer, or a decrease of 2.58 per cent.

(v) *Cotton*.—In the same period 66,487 wagons, broad and metre gauge, were loaded as compared with 57,593 in the corresponding period of the previous year, being 8,894 more, or an increase of 15.4 per cent.

(vi) *Home line stores and materials*.—In the same period 163,716 wagons, broad and metre gauge, were loaded as compared with 148,993 in the corresponding period of the previous year, being 14,723 more, or an increase of 9.88 per cent.

(vii) *Miscellaneous smalls*.—In the same period 689,054 wagons, broad and metre gauge, were loaded as compared with 671,108 in the corresponding period of the previous year, being 17,946 more, or an increase of 2.67 per cent.

(viii) *Miscellaneous full wagons*.—In the same period 1,007,675 wagons, broad and metre gauge, were loaded as compared with 950,262 in the corresponding period of the previous year, being 57,413 more, or an increase of 6.04 per cent.

Comparisons of figures of wagon loadings on Class I Railways for the week ending the 15th September, 1934, and for the cumulative period from the 1st April to the 15th September, 1934, with the corresponding periods of the previous year are as follows:—

(a) *Total loadings during the week.*

During the week ending 15th September, 1934, there were loaded on the broad gauge 71,253 wagons, being 1,601 more than in the corresponding week of the previous year, or an increase of 2.30 per cent. On the metre gauge there were loaded 40,865 wagons, being 864 fewer than in the corresponding week of the previous year, or a decrease of 2.07 per cent.

(b) *Cumulative loadings from 1st April, 1934.*

(i) For the period from the 1st April to the 15th September, 1934, there were loaded on the broad gauge 1,813,348 wagons, being 109,717 more than in the corresponding period of the previous year, or an increase of 6.44 per cent and on the metre gauge 1,151,643 wagons, being 76,791 more than in the corresponding period of the previous year, or an increase of 7.14 per cent.

(ii) *Coal and coke*.—In the same period 447,330 wagons, broad and metre gauge, were loaded as compared with 410,157 in the corresponding period of the previous year, being 37,173 more, or an increase of 9.06 per cent. In addition, 51,557 wagons, broad gauge, were loaded during the period by the B. N. and E. I. Railways for their own use, as compared

with 44,484 in the corresponding period, being 7,071 more, or an increase of 15.9 per cent.

(iii) *Grains and pulses*.—In the same period 401,260 wagons, broad and metre gauge, were loaded as compared with 347,799 in the corresponding period of the previous year, being 53,461 more, or an increase of 15.4 per cent.

(iv) *Oilseeds*.—In the same period 111,874 wagons broad and metre gauge, were loaded as compared with 114,594 in the corresponding period of the previous year, being 2,720 fewer, or a decrease of 2.37 per cent.

(v) *Cotton*.—In the same period 67,882 wagons broad and metre gauge, were loaded as compared with 58,939 in the corresponding period of the previous year, being 8,943 more, or an increase of 15.2 per cent.

(vi) *Home line stores and materials*.—In the same period 171,248 wagons, broad and metre gauge, were loaded as compared with 155,732 in the corresponding period of the previous year, being 15,516 more, or an increase of 9.96 per cent.

(vii) *Miscellaneous smalls*.—In the same period 717,440 wagons, broad and metre gauge, were loaded as compared with 700,999 in the corresponding period of the previous year, being 16,441 more, or an increase of 2.34 per cent.

(viii) *Miscellaneous full wagons*.—In the same period 1,047,957 wagons, broad and metre gauge, were loaded as compared with 990,263 in the corresponding period of the previous year, being 57,694 more, or an increase of 5.83 per cent.

WORKING EXPENSES OF STATE-OWNED RAILWAYS—

The following are the approximate ordinary working expenses including suspense but excluding appropriation to and from depreciation fund of the State-owned Railways from the 1st April to the 31st July, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 31st July, 1933.	Up to 31st July, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

CHINA.

CONSULAR INVOICE REGULATIONS.

The following is republished from the *Board of Trade Journal*, dated the 13th September, 1934:—

With reference to the notices* under the above heading in previous issues of the "B. T. J.," the Commercial Counsellor at Shanghai reports that the Chinese Customs announce that if the total f.o.b. value of one consignment of goods imported by one steamer for one consignee is above 200 dollars Chinese currency, and if this consignment is covered by two or more bills of lading each issued in respect of goods valued at or below 200 dollars Chinese currency, the shipment in question must be covered by one Consular invoice.

* Notices on this subject have also appeared in previous issues of the *Indian Trade Journal*.

CYPRUS.

CUSTOMS TARIFF MODIFICATIONS.

The following is an extract from the *Board of Trade Journal*, dated the 13th September, 1934:—

The Board of Trade have received a copy of the Cyprus (Customs, Excise and Revenue) Order-in-Council, 1931, Amendment (No. 4) Law, 1934, effective as from August 1, 1934, which provides for the following modifications to the Customs Tariff of Cyprus.

Article.	New Duties.		Former Duties.	
	Full Rate.	Preferential Rate.	Full Rate.	Preferential Rate.
Oils, edible 100 okes	s. cp. 12 0	Two-thirds of Full Rate.	See below.

JAPAN.

PREVENTION OF UNFAIR COMPETITION.

A Law for the prevention of unfair competition was promulgated in Japan on March 26, 1934. The Law provides, *inter alia*, as follows:—

A person who has with the object of unfair competition performed any of the following acts shall be liable for damages to an injured party:

(1) Acts creating confusion with the goods of another by means of the use in territory where this Law is in force of an indication identical with or similar to a personal name, trade name, trade mark, container or wrapping or other indication, widely recognised in trade as belonging to another person, that articles are the merchandise of another person: or by means of the sale or distribution in the said territory of merchandise using such an indication.

(2) Acts causing a mistake as to place of origin by a false indication on goods of their place of origin in conjunction with a fictitious or fraudulently used trade name; or by the sale or distribution of goods bearing such false indication.

The Law is to come into force on a date to be determined by Imperial Ordinance.

MOZAMBIQUE.

CUSTOMS DUTIES.

The following is a translation of a Decree No. 23,920 published in the "Boletim Oficial" of the Colony of Mozambique (Portuguese East Africa) on the 21st June, 1934:—

Decree No. 23,920.

Article 1.—Unspecified textiles of cotton, wool and linen of foreign manufacture imported into the Colony of Mozambique after the entry in force in the Colony of this Decree shall pay Customs duties respectively as follows:—Escudos 20\$00, 50\$00 and 25\$00 per kilogram.

Article 2.—Foreign footwear, whether made by hand or by machinery, shall pay Escudos 50\$00 per pair.

Article 3.—Foreign goods declared at the Customs houses of the above Colony may never be given a value lower than that of similar Portuguese goods which the Colony imports, or, in the absence of Portuguese goods, goods of European origin.

Article 4.—The provisions of this Decree apply to all goods entering the Customs houses of the Colony after the date of its publication in the "Boletim Oficial" of the Colony of Mozambique.

PERSIA.

IMPORT QUOTAS, 1934-35.

Particulars regarding the quotas fixed for goods imported into Persia from countries other than the Soviet Union during the economic year ending June, 1935, are published in the *Board of Trade Journal*, dated the 13th September, 1934. Extracts of interest to India are given below. (Extracts relating to the import quotas for 1933-34 were published in the *Indian Trade Journal*, dated the 9th November, 1933, page 455.)

No. in Quota List and Article.	Quota for Economic Year ending June, 1935.
4 Spices	Rials. 9,000,000*
10 Cotton tissues made with coloured threads, even if mercerised or figured; plushes, etc.	Prohibited
11 Tissues of pure wool, tissues of wool and cotton containing 70 per cent or more of wool, alpacas, interlinings.	20,000,000†
12 Cotton shirtings, etc.	Prohibited
16 Tea	80,000,000
19 Leather and leather goods	1,000,000†
20 Bleached cotton tissues, also bleached cotton linen	Prohibited
22 Cotton cloth, printed or dyed	Prohibited
30 Varnishes, lacs, siccatives, oils, boiled linseed oil, oils for varnish.	1,000,000
31 Vegetable and animal oils and fats, inedible	600,000
40 Rope, cordage and twine	Prohibited
46 Coffee, unroasted; cocoa and chocolate	1,200,000†
69 Cotton yarn in hanks	Prohibited
74 Natural indigo	400,000

* Subject to obligatory purchase of 10 per cent of exporters' exchange at 28-28 rials to the dollar.
† Subject to obligatory purchase of 100 per cent of exporters' exchange at 28-28 rials to the dollar.
‡ Subject to obligatory purchase of 30 per cent of exporters' exchange at 28-28 rials to the dollar. In the case of item No. 46 it applies to chocolate only.

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference:—

20th September, 1934.

BRITISH EMPIRE—

UNITED KINGDOM.—Import Duties Act, 1932: Additional Import Duties (No. 31) Order, 1934: Alterations in rates of Duty on Certain Manufactures of Zinc.

AUSTRALIA.—New Invoice Certificate. Cigarette Papers and Tubes: Marking. Dutiable Value of Silk and Artificial Silk Goods Exported to Australia.

BAHAMAS.—Foreign Textile Quotas.

BRITISH HONDURAS.—Package Tax.

CANADA.—Value for Duty of Hats, Hoods, Berets, etc. Amendments to the Customs Act and Customs Tariff regarding Value for Duty.

CYPRUS.—Duty-free Importation of Certain Flax Yarn.

IRISH FREE STATE.—Customs Duty Imposed on Meat Extracts. Pneumatic Tyre Quotas. Customs Duties on Coloured Yarns. Customs Duties on Rope, Cord, etc.

NEW ZEALAND.—Customs Decisions. Customs Tariff Changes. Exemption of Certain Lead from Primage Duty.

FOREIGN—

ARGENTINA.—Import of Pedigree Livestock from the United Kingdom.

BELGIUM.—Import Restrictions: Carbide of Calcium. Import Restrictions: New Taxes Imposed.

CZECHOSLOVAKIA.—Supplementary Duties on Grain.

MEXICO.—Trade in Insecticides, etc. Customs Tariff Modifications.

SPAIN.—Import of Stearine Restricted.

URUGUAY.—Forthcoming Marking of Origin Requirements.

TURKEY.—Import Quota Restrictions.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 22nd and the 29th September, 1934:—
21198. S. S. Mistri.—Improvements in cutter lids forming the subject-matter of patent No. 18282/31.
21199. S. C. Chakravarti.—Improvement in and connected with indicator to show differences in levels of liquids in two different receptacles.
21200. G. V. Marcar.—An improved spike extractor. [Addition to No. 17838.]
21201. The Burmah Oil Co., Ltd.—Improvements relating to the preparation of contract or absorbent substances and their application.
21202. The Batey Metallic Packing Co., Ltd., J. Batey and W. G. McGregor.—Improvements in and relating to pistons and piston valves.
21203. E. Cohn.—Improvements in or relating to wireless receiving or transmission apparatus.

(Continued on page 198.)

WEATHER AND CROP REPORTS.

BENGAL.

8th October.

During the week the rainfall was heavy in parts of east Bengal; elsewhere it was light to moderate. It helped the development of transplanted winter paddy. The condition of standing crops is generally favourable.

ASSAM.

8th October.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

2nd October.

During the week under report rain fell in all the districts of the province. The fall was heavy in

parts of Angul and light to moderate elsewhere. The condition of standing crops including sugarcane is generally good. Harvesting of *bhadoi* crops continues. Jute is being harvested in Cuttack and Balasore. Ploughing of fields for *rabi* has commenced. More rain is needed in parts of Purnea and the Santal Parganas.

BOMBAY.

6th October.

During the week there was no rain in Gujarat except casual showers in Broach; the rainfall was generally inadequate in Nasik and Poona, in the Deccan and west Karnatak. More rain is badly needed in these areas and also in east Karnatak where the rainfall has been fairly good in parts. Elsewhere the rainfall has been fair to good and crops are reported to be doing fairly well. *Kharif* harvest is proceeding in most places and *rabi* sowing is in progress in parts of the Deccan.

Sind.—During the week there was no rain. Picking of early sown American cotton continues. Early sown rice is being harvested. Other *kharif* crops are progressing well.

CENTRAL PROVINCES.

29th September.

The weather was generally cloudy with heavy showers in the northern and plateau districts and in Wardha and Nagpur towards the week end. Elsewhere the rainfall was light to moderate. *Til* and *juar* on low-lying and level land in Saugor are reported to have been seriously damaged and the crops generally on rich and low-lying soils in Hoshangabad, Nimar, Betul, Wardha and Nagpur have been affected to some extent on account of excessive moisture and lack of sunshine. A long break is badly needed to improve their condition. In Chhattisgarh and Berar divisions the standing crops are generally in good condition. Weeding and intercultural operations and preparation of land for *rabi* sowings are in progress.

MADRAS.

29th September.

During the week the rainfall was generally below normal. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts. The condition of standing crops is generally fair except in parts of Bellary, Anantapur, Cuddapah, North Arcot, Coimbatore, Trichinopoly, Madura and Tinnevely where they have been adversely affected for want of rain.

PUNJAB.

1st October.

During the week light rain fell in parts of most districts. Rain is badly wanted in some districts.

The condition of standing crops is generally average to good on irrigated and below average to average on unirrigated areas. Sugarcane has been damaged by "top-borer" in parts of Rohtak and Karnal and by "pyralid-borer" in parts of Gurdaspur. Vigorous measures for the destruction of sugarcane pests are being continued. Damage to standing crops by insects is also reported from parts of Gurgaon and Dera Ghazi Khan and action for their destruction is being taken. Cotton is reported to have been affected by "root rot" disease in parts of Shahpur and by *tela* in parts of Sheikhupura.

UNITED PROVINCES.

29th September.

There was general rain throughout the province during the week except in the districts of Muzaffarnagar and Bijnor. It was somewhat heavy in Jhansi and light in other districts. Slight damage is reported from excessive rain and flood in the districts of Jhansi and Jalaun. Preparation of land for *rabi* and harvesting of *kharif* continue. Sowing of *rabi* and picking of cotton have commenced at places. Standing crops are doing well. Prospects are so far favourable.

GENERAL WEATHER SUMMARY.

During the week ended Tuesday last the monsoon withdrew from north-east India, Burma and the Peninsula. At the beginning of the week very heavy rain fell along the Chittagong coast, Cox's Bazar reporting 16 inches. Fairly widespread rain occurred in Lower Burma and Assam on several days. Local or a few falls occurred elsewhere.

CROP FORECASTS.

(FOREIGN)

FIRST RICE CROP IN FORMOSA FOR 1934.

The area under the first crop of rice in Formosa in 1934 is reported to be 713,000 acres, showing an increase of about 1 per cent over the area under the same crop in 1933. The yield is now estimated at 22,388,000 bushels (or 633,000 tons), which is about 15 per cent more than that of the first crop of last year. The increase is attributed to uniformly good weather and absence of disease.

UNITED STATES' COTTON CROP.

According to a cable, dated the 8th October, 1934, received from the United States Department of Agriculture, Washington, the production of the cotton crop in the United States of America during the current season is now estimated at 9,443,000 bales of 500 lbs. each (or 11,804,000 bales of 400 lbs. each), as against 12,885,000 bales of 500 lbs. each, the corresponding estimate of last year.

SUMMARY OF CROP FORECASTS.

THE following is a summary of crop forecasts relating to the season 1934-35 :-

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute—Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	Acres 2,497,000	99.2	Acres 2,517,000	7,964,000 bales (c)	99.4	8,012,000 bales (c)	Sept. 6, 1934.
Cotton—First.	All cotton-growing tracts (refers mainly to early cotton).	12,985,000	93	23,739,000	(b)	..	4,970,000 bales	Aug. 23, 1934
Sugarcane—First.	United Provinces, Punjab, Bihar and Orissa, Bengal, Madras, Bombay, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal (95 per cent of the total sugarcane area of India).	8,409,000	102	8,305,000	(b)	..	5,067,000 tons	Aug. 23, 1934
Groundnut—First.	Madras, Bombay, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	2,049,000	91(d)	8,115,000	(b)	..	3,235,000 tons	Aug. 30, 1934.
Sesamum—First.	Burma, Madras, Bombay, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal, Baroda, and Kotah (about 71 per cent of the total sesamum area of India).	2,520,000	93(d)	6,102,000	(b)	..	535,000 tons	Aug. 30, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (a) Including Cooch Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :-

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1932-33	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1932-33	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	Acres 1,556,000	96	Acres 1,617,000	146,000 tons	97	151,000 tons	Feb. 23, 1934.
Rice—Final.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces*, Central Provinces and Berar*, Assam, Bombay*, Coorg, Hyderabad, Mysore, Baroda and Bhopal (about 97 per cent of the total rice area of India).	81,977,000	99	82,661,000	30,358,000 tons	98	81,089,000 tons (a)	Mar. 1, 1934.
Rape and Mustard—Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay*, North-West Frontier Province, Central Provinces and Berar, Delhi, Aitwar, Baroda and Hyderabad (about 96 per cent of the total rape and mustard area of India).	6,083,000	99	6,004,000	952,000 tons	91	1,046,000 tons	May 31, 1934.
Linseed—Final.	Central Provinces and Berar*, United Provinces, Bihar and Orissa, Bombay*, Bengal, Punjab, Hyderabad, Kotah and Bhopal (about 94 per cent of the total linseed area of India).	8,257,000	99	8,299,000	877,000 tons	92(a)	406,000 tons (a)	May 31, 1934.
Wheat—Final.	Punjab*, United Provinces*, Central Provinces and Berar*, Bombay*, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	36,062,000	109	32,970,000	9,358,000 tons	99	9,449,000 tons	Aug. 16, 1934.

* Including Indian States. † In Rajputana. ‡ In Central India. (a) Excluding Bhopal from which report has been received for the first time this year.

INDIAN STORES DEPARTMENT.

Appointment of a Head Draftsman for the Office of the Chief Controller of Stores, Indian Stores Department.

Wanted a Head Draftsman for the Office of the Chief Controller of Stores, Indian Stores Department. Applicants should be Statutory natives of India and of not less than 28 and not more than 40 years of age. They must have been regularly trained as Mechanical Engineers, should have had workshop experience preferably in a Locomotive or a Carriage and Wagon Workshop and must have held a responsible position for not less than 5 years in the Railway Rolling Stock Section of the Drawing Office of a Railway or a firm of Locomotive or Carriage and Wagon Builders of repute. The applicants must be fully conversant with the nomenclature and types of locomotive and carriage and wagon components. Experience in checking designs and layout of steel structures will be an advantage. The appointment will be on an officiating basis in the first instance, but there are prospects of its continuance and eventual confirmation. It carries a scale of Rs. 250-10-350 with the benefits of a Contributory Provident Fund on confirmation, but persons already in service, who are entitled to old scales of pay, will be placed on the scale of Rs. 300-20-400 a month.

Applications giving full particulars of age, general and engineering education and practical experience in the lines mentioned above should be addressed to the Chief Controller of Stores (and not by name to any officer of the Department). They must reach his office at New Delhi before the 1st November, 1934.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Sealing and Labelling of Samples.

Every sample forwarded by a firm to any office of the Indian Stores Department must be provided with a durable label securely attached to the sample and sealed thereto by means of sealing wax or a lead, tin, or other suitable seal. The sealing arrangement used should show a clear impression of the firm's seal or stamp.

Any sample received without a durable label securely attached and sealed thereto is liable to be ignored.

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Wittet Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsaroop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Supply of Materials for State Railways, etc.

The Chief Controller of Stores, Indian Stores Department (Textiles Section), invites tenders for the stores detailed below.

Price of tender forms, etc., is as noted below per set of 2 copies (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission

to follow these instructions will result in delay in the issue of tender forms.

Tender No. and Fee.	Article.	No. or Quantity.	Delivery.	Tenders will be

GOVERNMENT OF INDIA RAILWAY DEPARTMENT.
(RAILWAY BOARD.)

Supply of Coal to the State-managed Railways and to the Assam-Bengal, Bengal-Nagpur, Bengal and North-Western and South Indian Railways during the year 1935-36.

Tenders are invited for the supply of the following quantities of Coal for the above Railways during the period 1st April, 1935, to 31st March, 1936 :—

	Tons.
1. Steam Coal, by rail	29,90,000
2. Steam Coal, by sea	4,90,000
TOTAL	34,80,000
3. Slack coal from Central Provinces and Pench Valley	66,000
4. Screened Slack coal from Bengal for Power House	4,500
5. Rubble Coal from Bengal $\frac{3}{4}$ " $\times$ $1\frac{1}{2}$ "	15,000
6. Coke Breeze	7,300
7. Soft Coke for Workshop purposes	4,000
8. Hard Coke	2,300
9. Soft Smithy Coke by sea	600

The quality and grading of Slack Coal should conform to the Specification given below :—

Calorific value between 9,000 and 11,500 British Thermal Units and containing not more than 20 per cent Ash, shall be capable of producing and super-heating continuously under working conditions as an economical output 60,000 lbs. of steam per hour at a pressure of 270 lbs. per sq. in. (gauge) at the super-heater outlet and super-heated to 725° Fahr., measured at the super-heater outlet from water supplied at a temperature of approximately 130° Fahr. Grading of size of coal is to be as follows :—

Specifications for quality.		Grading of Coal.	
Grade.	No. 1. No. 2.	Lower Limit. Percentages.	Upper Limit. Percentages.

Passed	1"	14"	60
Retained	1"	14"	25
Passed	1"	14"	75

Forms of Tender, Specifications and Instructions to tenderers may be obtained from the Office of the Chief Mining Engineer, Railway Board, No. 1, Council House Street, Calcutta, on payment of Re. 1 for each set.

The successful tenderers will be required to execute an agreement (paying the Stamp Duty thereon) on a form provided by the Company-managed Railways mentioned above, if so desired. The Agents of the Company-managed Railways do not bind themselves to accept the lowest or any tender or to assign any reason for non-acceptance of tenders;

they reserve the right to accept any tender wholly or in part.

Tenders should be deposited in the Tender Box kept in the Office of the Chief Mining Engineer, Railway Board, 1, Council House Street, Calcutta, before 11 a.m. on the 12th November, 1934, and they will be opened at 11-15 a.m. in the presence of tenderers on the same day.

GOVERNMENT OF INDIA RAILWAY DEPARTMENT.
(RAILWAY BOARD.)

Transport of Coal for State-managed Railways from Calcutta to Rangoon during 1935-36.

Tenders are invited from Shipping Companies for the transport of approximately 220,000 tons of Coal and 600 tons Soft Smithy Coke in bulk from the Port of Calcutta to Rangoon during the period 1st April, 1935, to 31st March, 1936, in accordance with the programme to be given by the Chief Mining Engineer, Railway Board.

Tenders are to be deposited in the Tender Box kept in the Office of the Chief Mining Engineer, Railway Board, 1, Council House Street, Calcutta, up to 3 p.m. (Calcutta Time) on the 12th November, 1934, and will be opened in the presence of such tenderers as may like to attend, at 3-15 p.m. (Calcutta Time) on that date.

Conditions of tender may be obtained on application to the Chief Mining Engineer, Railway Board, Calcutta.

The Shipping Company will be required to enter into an Agreement for the transportation of this quantity.

There is no special Tender Form.

OFFICE OF THE DIRECTOR OF INDUSTRIES, UNITED PROVINCES.

Tender No. 66.—Supply of Storage Battery.

Sealed tenders will be received up to noon of the 1st November, 1934, by the Director of Industries, United Provinces, Stores Purchase Section, Cawnpore, for the supply of the articles noted below. The tenders will be opened at noon on the 2nd November, 1934.

Intending tenderers may obtain from the Assistant Store Purchase Officer, Office of the Director of Industries, United Provinces, Cawnpore, copies of tender forms and tender notice giving full particulars.

Tenderers, whose names are not on the Stores Purchase Section list of approved contractors, must forward with their application for tender form and tender notice, certificates from their Bankers as to their financial standing, and from the Civil

Authorities (such as the Director of Industries) of their province.

Names of Articles.

1. Elements of a battery of 124 cells of Tudor J-4 type, of capacity 146 amps. hours when discharged at a 10 hours' rate to 1.85 volts per cell.
Plates to be of Heavy Positive and Negative type ready burnt to connecting bars for bolted connections, complete with bolts, nuts, separators and end springs.
2. Twenty-five suitable glass containers—Inside dimensions : $7\frac{1}{2}$ " $\times$ $8\frac{1}{2}$ " $\times$ $10\frac{1}{4}$ " depth.

CORPORATION OF CALCUTTA.

Repairs to Gowkhana, District No. I, etc.

Tenders are invited in duplicate for the following and will be received by the 1st Deputy Executive Officer on the date noted for each, up to 2 p.m. Each tender in duplicate must be enclosed in a sealed over and superscribed "Tender for.....". For specifications and tender forms please apply to be Central Record Keeper. Price Rs. 2 per set.

1. Repairs to Gowkhana, District No. I.
2. Construction of a Pail Depôt in Chunaputty Area.
3. Repairs to Babcock and Wilcox Boiler at the Palmer's Bridge Drainage Pumping Station.
4. Fixing up four Reflux Valves at the delivery ends of Pumps at the Tallah Pumping Station.

Tenders for 1 and 2 will be opened on the 31st October, 1934 (Wednesday), and for 3 and 4 on 1st November, 1934 (Thursday). The rates quoted in tenders for 1 to 4 are to hold good for three months.

EAST INDIAN RAILWAY.

Construction of Indian Type Quarters and Incidental Works at Dinapore.

The call for tenders for the construction of 63 units of Indian Type Quarters and Incidental Works at Dinapore, which appeared in the *Indian Trade Journal* of the 27th September, 1934 (pages 1558-9), should be considered as cancelled.

EAST INDIAN RAILWAY.

Annual Contract Items and Special Items costing over Rs. 8,000.

Supply of Locomotive Superheater Conversion Boiler, etc.

Sealed tenders are invited for the following and will be received in the Agent's office, 105, Clive Street, Calcutta, up to 12 o'clock on the 7th December, 1934.

Tender No. S/SP/768/A.—For the supply of Locomotive Superheater Conversion Boiler and materials for 4-6-0-P. Cl. Class.

Tender form which includes Specification can be had from the Controller of Stores' office, East Indian Railway, Calcutta, on payment of Rs. 5 per copy and copies of necessary drawings may be had from the Chief Mechanical Engineer's office, East Indian Railway, Calcutta, on payment of Re. 1-8 per copy of full size and annas twelve per copy of small size sheet.

These amounts should be paid to the Treasurer, East Indian Railway, 105, Clive Street, Calcutta, and on production of his receipt at the Controller of Stores' office and the Chief Mechanical Engineer's office, the tender form and copies of drawing, respectively, may be obtained. Once these documents are issued, refund is not permissible.

Any particulars required may be obtained from the Chief Mechanical Engineer's office, Calcutta.

Firms outside Calcutta may, however, remit the money to the Controller of Stores' office, direct, by Money Order.

Sealed tenders, delivered by hand, should be presented for registration in the Agent's office and then put into the Tender Box outside the Deputy Agent's (Works) room by the tenderer or his representative.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Metre Gauge Wheel Lathe.

Tenders are invited by the Agent, Eastern Bengal Railway, for one 60" General purpose, Medium duty, Metre Gauge Wheel Lathe, complete with necessary Motor and Control Gear.

Necessary Tender Documents may be obtained from the "Stores Information-Bureau," No. 3, Koilaghat Street (Bankshall Street-end), Calcutta, on payment of Rs. 2 per copy.

Similarly a set of 16 Drawings in connection with this tender is available for inspection or for sale on payment of Rs. 5 per set at the "Stores Information-Bureau".

Tenders will be opened at 3 p.m. (Calcutta Time) on the 21st November, 1934.

EASTERN BENGAL RAILWAY.

Supply of Pitching Stone.

Tenders are invited for the following two items :—

- (1) Quarrying, carrying and loading into B. G. trucks 10,000 tons of special pitching stone, each piece weighing 1,000 lbs. to 2,000 lbs., in the E. B. Railway quarries near Bakudih Station on the E. I. Railway with all loads, lifts and descents,

and including clearance of all jungle and overburden up to any depth or thickness, removal of all spoil, earth and undersized chips and gravels and all cost for blasting, etc.

- (2) Supply of 10,000 tons of special pitching stone from private quarries, each piece of stone weighing 1,000 lbs. to 2,000 lbs. quarried out of granite, trap, basalt or similar hard, tough and durable rock f.o.r. at the nearest suitable Railway Siding.

Every tender should be accompanied by a piece of sample stone to determine the quality of the stone, duly labelled, showing the name of the quarry, name of the nearest Railway Station and the name and address of the tenderer. It should also be accompanied with a dimensioned sketch showing the siding accommodation and stacking ground for loading 20 vehicles at a time nearest to the Quarry. No tender will be considered without these accompaniments.

Forms of each of the above two tenders with Instructions to Tenderers, Specification and Special Conditions of Contract forming enclosures thereto, can be obtained from the Chief Engineer, E. B. Railway, Calcutta, on payment in cash or Money Order of Rs. 2 in each case which will not be refunded in any circumstances.

Tenders are to be submitted separately for each item not later than 3 p.m. on the 2nd November, 1934, at which time and date they will be opened. Tenderers may be present at the opening.

A sum of Rs. 100 must be deposited in each case as earnest money with the Superintendent, Cash and Pay Branch, Sealdah, and the number and date of the receipt must be quoted in the tender; unless this is done no tender will be considered.

The Eastern Bengal Railway Administration reserves to itself the right to reject any tender or portion of a tender and does not bind itself to accept the lowest tender, the whole of a tender or any tender and will furnish no reasons for rejection or non-acceptance.

The name of the successful tenderer, with other details, will be published in the *Indian Trade Journal*.

The tenderer must state the quantity he can quarry, carry and load per diem.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Mineral Oils.

The Agent, M. and S. M. Railway, Madras, invites tenders for the supply of the following Mineral Oils during the year commencing 1st April, 1935 :—

- | | |
|------------------------------------|----------|
| 1. Cylinder Oil, saturated steam | 37 tons. |
| 2. Cylinder Oil, Superheated steam | 150 " |
| 3. Carriage and Wagon Axle Oil | 860 " |

Tender forms can be obtained from the Railway's Controller of Stores at Perambur on payment of Rs. 3 per copy. Closing date is 6th November, 1934.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Coal during 1935-36.

Tenders are invited for the supply of about 320,000 tons Steam Coal to the Madras and Southern Mahratta Railway during the 12 months ending 31st March, 1936, as follows :—

Coal to be delivered by Sea at Mormugao into wagons to be provided by the Railway	80,000 to 100,000 tons.
Coal to be supplied f.o.r. Colliery or f.o.b. Kidderpore Docks or c.i.f. Madras	220,000 to 240,000 tons.

The coal must be either of Selected Grade or Grade I, either hand-picked or screened and be free from shale or other deleterious matter. It must be fresh coal. "Weathered" coal will not be accepted.

Forms of Tender, Specifications and Instructions to Tenderer may be obtained from the Office of the Chief Mining Engineer, Railway Board, No. 1, Council House Street, Calcutta, on payment of Re. 1 for each set.

No tender will be considered unless it is submitted in the prescribed form.

The tenders which may be submitted for the whole or for any portion of the quantity noted above should be addressed in sealed covers to the "Agent, Madras and Southern Mahratta Railway, c/o the Chief Mining Engineer, Railway Board, Calcutta", superscribed "Tenders for the Supply of Coal". The tenders should be lodged in the Tender Box kept in the Office of the Chief Mining Engineer, Railway Board, 1, Council House Street, Calcutta, before 11 a.m. on the 12th November, 1934.

The Agent does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance; he further reserves the right to accept any tender wholly or in part at his option.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Sale of Secondhand and Unserviceable Scrap.

The Agent, M. and S. M. Railway, Madras, invites tenders for the purchase of secondhand and unserviceable (ferrous) Scrap available at Perambur and Arkonam Depôts. Tender forms can be obtained from the Railway's Controller of Stores at Perambur on payment of Rs. 5 per copy. Closing date is 30th October, 1934.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

Simla.

THE following particulars regarding contracts which have been placed or cancelled by the Indian Stores Department have been received from the Chief Controller of Stores, Indian Stores Department, Simla. (Orders of less than Rs. 100 in value are not included.)

I.—ENGINEERING SECTION.

Contracts placed during week ending 4th October, 1934.

Tender No. and Article.	No. or Quantity.	Name of Firm.	Value of Contract.
<i>N-3525.</i> —			
Steel shelves, 3' wide x 3' deep x 17 gauge thickness.	75	Messrs. Godrej & Boyce Mfg. Co., Ltd., Bombay.	431
Angle, Iron Standards, each 8' 6" long x 1½" x 1½" x ½".	10	Ditto	28
<i>N-3058/2.</i> —Cross cut saw, fully automatic, electrically driven, "Wodkins" one metal table 8' long with turnover spokes and one saw 18" in dia.	1	Messrs. Craven Bros. (India), Ltd., Bombay.	3,338 f.o.r. Moghalpura.
<i>N-3058/3.</i> —Universal Flue Cleaning Machine, electrically driven, Ryerson improved, with a capacity of 1½" to 6½" o.d. complete.	1	The Baldwin Locomotive Works, Calcutta.	8,100
<i>N-3058/4.</i> —Incandescent Heat Co.'s Horizontal Oil Fired Furnace.	1	Messrs. Associated British Machine Tool Makers, Ltd., Calcutta.	17,308
<i>N-3100.</i> —Wire, steel, solid, galvd., for signalling purposes, 10 S. W. G.	60 cwts.	Messrs. A. & J. Main & Co., Ltd., Calcutta.	962 free delivery Bhusawal.
<i>N-3480/1.</i> —Copper ingots, for foundry use, 99.5 per cent purity.	80 "	Messrs. Pragdas Mathuradas, Calcutta.	2,295 f.o.r. Howrah.
<i>N-3480/2.</i> —Block tin, minimum purity 99.5 per cent.	6 "	Messrs. Soorchand Kewal Das, Bombay.	1,074 f.o.r. Amritsar.
<i>N-3298.</i> —L & W N Mower, Ransome's 24" Patent Geared with grass box.	29	Messrs. Jessop & Co., Ltd., Calcutta.	7,192 f.o.r. New Delhi.
<i>N-3567.</i> —Plug, complete, for I. B. C. A. Pattern carriage electric coupling.	30	Messrs. Acme Manufacturing Co., Ltd., Bombay.	675 free delivery at Storespura at R. M. rate of freight.

CONTRACTS PLACED BY THE INDIAN STORES
DEPARTMENT—contd.

Calcutta.

The following particulars regarding contracts which have been placed by the Indian Stores Department during the week ending the 4th October, 1934, have been received from the Controller of Purchase, Indian Stores Department, Calcutta. (Orders of less than Rs. 100 in value are not included.)

I.—ENGINEERING SECTION.

Tender No. and Article.	No. or Quantity.	Name of Firm.	Value of Contract.
			Rs.
P. N. 2600/R.—Ironite.	85 cwts.	Messrs. Heatly & Gresham, Ltd.	1,750 f.o.r. Bombay.
P. N. 2233/T.—Fans, oscillating.	2	The General Electric Co. (India), Ltd.	100
P. N. 2664/S.—Rods, brass, soft rolled, of sizes.	42 cwts.	Messrs. Chunilal Hemraj.	1,249
P. N. 2566/J.—Timber, Thula, in squares.	100 tons	Messrs. Gladstone Wyllie & Co.	5,000
P. N. 2452/W/2.—Cable, electric.	120 yds.	The Indian Cable Co., Ltd.	134
P. N. 2476/R.—Oil, Shell.	4 drums	The Burmah-Shell Oil Storage and Distributing Co., Ltd.	335
P. N. 2334/S.—Belt-ling.	150 ft.	The Leyland and Birmingham Rubber Co. (India), Ltd.	225
P. N. 2628/M.—Coal, steam.	200 tons	Messrs. Joshi & Co.	419 f.o.r. Nimcha Colliery.
P. N. 585/T/O.—Cells, inert.	1,400	Messrs. Ericsson Telephones, Ltd.	2,975 free delivery at Karachi.
P. N. 1817/V/3.—Fittings, Street lighting, and Reflectors.	56	Messrs. F. & C. Osler, Ltd.	616
P. N. 1817/V/6.—Meters, electric.	2	The General Electric Co. (India), Ltd.	227
P. N. 2639/V.—Cross-ings, Permanent Way.	2	Messrs. Henry Williams India (1931), Ltd.	496
P. N. 2560/V.—Steel, mild, round.	50 bars	The United Steel Cos. (India), Ltd.	632
P. N. 2561/V.—Ditto	80	Ditto	290
P. N. 2603/V.—Steel, bright, hex. bars.	30 cwts.	Messrs. Exors. of James Mills, Ltd.	328
P. N. 2260/J/7.—Wire, fencing, G. I.	10 tons	Messrs. Chunilal Hemraj.	3,050 free delivery, Salke.
P. N. 2494/W/1.—Sleeves, McIntyre.	45,000	Messrs. W. T. Henley's Telegraph Works Co., Ltd.	3,175 free delivery at Bombay.
P. N. 2494/W/2.—Ditto.	25,000	Ditto	1,875 free delivery at Alipore.

THE INDIAN TRADE JOURNAL.

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

INDIAN—

Copper Ore.

(X-115) A correspondent in Mysore State desires to be put in touch with suppliers of Copper Ore preferably that which contains Malachite.

FOREIGN—

Magnesium Chloride.

(X-116) A firm in Sydney (Australia) desires to be put in touch with exporters of Magnesium Chloride in India.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 14th October.—Nearly general in Malabar and Mysore on 3 days, Lower, Burma, south-east Madras, Burma, Konkan and Bombay Deccan on 1 day. Widespread rainfall also occurred in places. Local or a few falls elsewhere. Monsoon withdrawn.

Crops: Madras, week ending 6th October.—Rainfall generally below normal. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts, standing crops generally fair except in parts of Deccan, Chittoor, Coimbatore and Tinnevely where adversely affected for want of rain. Bihar and Orissa, week ending 9th October.—Light rain fell in all districts except in parts of Gaya, Shahabad, Champaran, Darbhanga, Monghyr and Manbhum. Standing crops including sugarcane generally good. More rain needed in parts of Bhagalpur and Santal Parganas. Punjab, week ending 8th October.—Weather remained dry. Rain badly wanted. Standing crops generally average to good on irrigated and below average to average on unirrigated areas. Damage to sugarcane by "top-borer" continues to be reported from parts of Rohtak and Shahpur and by "Pyralid-borer" from parts of Gurdaspur. Insects damaged standing crops in parts of Gurgaon and rice in parts of Muzaffargarh and Dera Ghazi Khan. Cotton reported to have been affected by root-rot disease and tela in parts of Shahpur. United Provinces, week ending 6th

October.—General light rain throughout province except in Meerut, Agra, Rohilkhand and Kumaun divisions. Sowing of rabi and picking of cotton commenced at most places. Standing crops doing well. Prospects so far favourable. Central Provinces, week ending 6th October.—Weather during first half of week cloudy with light to moderate rain throughout province except in Saugor and Raipur where rainfall rather heavy and clear in second half. Break beneficial and likely to improve greatly condition of crops particularly those affected by excessive moisture. *Til* seriously damaged by continuous rain and *juar* on heavy soils also poor in Saugor district. Otherwise standing crops generally satisfactory. Weeding and intercultural operations in progress. Bombay, 13th October.—Practically no rain during week all over presidency except scattered rain in Karnatak permitting cotton sowing in places. Crops withering places north Deccan. Late crops in Gujarat and Konkan also not satisfactory and need rain. *Kharif* harvest continues and *rabi* sowing in progress parts Deccan. Sind, 13th October.—No rain during week. Skies mostly clear. Picking of cotton going on. Harvesting of early sown rice continues. Other *kharif* crops good. Bengal, week ending 10th October.—Rainfall heavy except in parts of west and north Bengal where light to moderate. Prospects of standing crops generally fair. Preparation of lands for sowing spring crops commenced in places.

Bombay, 11th October.—Cotton: Market strong. No. 3 Fine M. G. Oomras, Rs. 179¼ December-January, 1935.

Calcutta, 13th October.—Jute market ruled steady but idle. Sellers of Firsts for ready at Rs. 26. Hessians quiet but steady. Nine Porters Rs. 8-11; Elevens Rs. 11-1 Ready-October. Heavies also quiet with no business.

Calcutta, 12th October.—Shellac T. N. Rs. 42-8. Imperial Bank rate unchanged at 3½ per cent.

Rangoon, 10th October.—Specials White Rice, Big Mills Rs. 215; Small Mills Rs. 230 October. Paddy, 13th October.—Rs. 85 to Rs. 86 (river) and Rs. 84 to Rs. 85 (rail).

Wheat. 11th October: Lyallpur.—Rs. 2 f.o.r. per maund. Bombay.—White Delhi, per cwt., railway terms Rs. 4-1-6 January and Rs. 4-5-0 May. 12th October: Karachi.—Punjab White Rs. 20-4 per candy.

Eighteenth Tea Sale, Calcutta, 8th and 9th October.—23 thousand chests Leaf for export and 11 thousand chests for Internal Consumption, average price As. 9 and As. 5-1, and 9 thousand chests Dust at As. 5-5, sold. Although enquiry again fairly well distributed, active tone of previous sale less evident, and former prices not always forthcoming. For any well-made black Pekoes market frequently 3 to 6 pies per lb. dearer, with improved demand at former prices for other leaf grades and

any B.O.P.'s and Fannings with tip. Common B.P.'s, B. P. S. and Fannings easier by about 3 pies per lb. and medium broken generally in buyers' favour. *Internal Consumption*: Offerings readily absorbed and with exception of Fannings grades, prices advanced generally by irregular 3 pies per lb. Dusts also in good demand. Little change in rates, although prices, except for best kinds, occasionally in buyers' favour.

FOREIGN TRADE OF CALCUTTA IN SEPTEMBER, 1934.

THE overseas import trade of Calcutta in private merchandise in September, 1934, showed an improvement over that of the previous month, the value rising from Rs. 2.78 crores to Rs. 2.93 crores against Rs. 2.25 crores in September, 1933. Exports also slightly advanced from Rs. 5.40 crores to Rs. 5.43 crores against Rs. 5.68 crores in September, 1933.

IMPORTS.

A comparison of the values of the principal imports with the figures for September, 1933, is given below, the figures in brackets representing the increase or decrease as the case may be:—

	In lakhs of rupees.
Cotton goods	59 (+33)
Machinery and millwork	33 (—11)
Iron and steel	15 (+2)
Wool	17 (+7)
Drugs and medicines	5 (—1)
Hardware	9 (+3)
Electrical instruments	9 (+4)
Liquors	4 (+1)
Chemical and chemical preparations (excluding chemical manures and medicines)	6 (—1)
Oils, mineral	9 (—7)
Betelnuts	5 (no change)
Provisions and oilman's stores	6 (+1)
Paper and pasteboard	6 (+1)
Motor cars	4 (+1)

The total yardage of cotton piecegoods increased from 11 millions to 29 millions and the value advanced from Rs. 16 lakhs to Rs. 48 lakhs. There was no importation of wheat from abroad.

EXPORTS.

The variations in the values of the principal exports as compared with the trade of September, 1933, are indicated below:—

	In lakhs of rupees.
Jute manufactures	190 (—25)
Tea	169 (+8)
Jute, raw	69 (no change)
Oil seeds (non-essential)	21 (—7)
Hides and skins	12 (—9)
Lac	15 (+6)
Pig iron	9 (+2)
Grain, pulse and flour	12 (+2)
Manganese ore	3 (+1)

DIRECTION OF EXPORTS.

Tea and raw jute were shipped mainly to the United Kingdom, pig iron to Japan, linseed and gunny bags to the Commonwealth of Australia, skins, lac, manganese ore and gunny cloth to the United States of America, hides to Germany and rice to Mauritius.

FOREIGN TRADE OF KARACHI IN SEPTEMBER, 1934.

THE statistics of the foreign trade of the port of Karachi for September, 1934, issued by the Collector of Customs, Karachi, show that the total value of imports (merchandise) amounted to Rs. 1.44 crores, an increase of Rs. 27 lakhs, and that of exports to Rs. 70 lakhs, an increase of Rs. 10 lakhs, as compared with the figures for September, 1933. The progressive totals for the six months ending September, 1934, show an increase of Rs. 1.14 crores or 18 per cent under imports, and of Rs. 1.97 crores or 34 per cent under exports.

Comparative figures of the principal imports and exports for September, 1933 and 1934, are given below:—

Articles.	IMPORTS.		Increase (+) or Decrease (—) as compared with September, 1933.	
	In September, 1934.			
	Quantity.	Value.	Quantity.	Value.
		Rs.		Rs.
Cotton manufactures	..	33,84,493	..	+18,64,583
Oils	..	12,39,800	..	+5,84,484
Woollen goods	..	22,71,045	..	+5,47,276
Metals and ores	..	10,40,955	..	+2,08,863
Vehicles	..	4,28,333	..	+1,93,567
Liquors	..	3,60,769	..	+1,64,345
Cotton, twist and yarn	..	19,331	..	+13,102
Machinery and millwork	..	8,50,679	..	—0,22,469
Sugar tons	4,737	3,91,953	262	—1,08,081

The increase under cotton manufactures occurred in receipts of white and coloured goods. Imports of white goods amounted to 8½ million yards valued at Rs. 13 lakhs as against 5½ million yards valued at Rs. 9 lakhs, while those of coloured goods totalled 7½ million yards valued at Rs. 17 lakhs as against 3 million yards valued at Rs. 7 lakhs in September, 1933. Imports of grey goods declined from 1,438,000 yards to 1,434,000 yards in quantity, but increased from Rs. 1.86 lakhs to Rs. 2 lakhs in value. The total imports of cotton piecegoods during the six months ending September, 1934, amounted to 106½ million yards valued at Rs. 1.91 crores, showing an increase of 25 per cent in quantity and 37 per cent

in value as compared with the corresponding period last year. The share of the United Kingdom in the total imports of cotton piecegoods during the six months ending September, 1934, was 87 million yards valued at Rs. 1.58 crores, an increase of 34 per cent in quantity and 41 per cent in value, while that of Japan was 17½ million yards valued at Rs. 27 lakhs, a decrease of 12 per cent in quantity, but an increase of 2 per cent in value as compared with the first six months of 1933-34. The increase under woollen goods was most noticeable in receipts of yarn and knitting wool from Japan, while that under oils occurred in receipts of kerosene oil from Russia. The improvement in imports of metals was the result of larger arrivals of copper sheets and iron or steel rails, chairs and fishplates from the United Kingdom. The decline in imports of machinery occurred mainly in receipts of sugar machinery from the United Kingdom and Belgium. The decrease in imports of sugar occurred in receipts of beet sugar from the United Kingdom. Java, on the other hand, sent more, viz., 4,647 tons as against 3,503 tons in September, 1933. The total quantity of sugar imported during the half year ending September, 1934, was 28,782 tons as against 31,646 tons in the corresponding period of 1933-34.

EXPORTS.

Articles.	In September, 1934.		Increase (+) or Decrease (—) as compared with September, 1933.	
	Quantity.	Value.	Quantity.	Value.
	Tons.	Rs.	Tons.	Rs.
Cotton, raw	8,255	36,53,159	+3,409	+12,58,062
Barley	2,310	1,59,886	+2,304	+1,59,528
Wheat	1,564	1,46,075	+1,472	+1,37,900
Wool, raw (Indian and Foreign).	951	8,53,590	—116	+13,622
Skins, raw	180	1,57,759	—192	—2,01,745
Rapeseed	3,164	3,65,210	—750	—74,336
Hides, raw	41	20,040	—63	—36,637
Wheat flour	509	51,175	—78	—11,409

The increase under cotton occurred mainly in shipments to Italy, Japan and France. The total quantity of cotton exported during the six months ending September, 1934, was 126,553 tons (708,696 bales) as against 73,779 tons (413,163 bales) in the corresponding period last year. Of the total quantity (viz., 1,564 tons) of wheat exported during the month under report, 1,391 tons were shipped to the United Kingdom and the remainder went to the Persian Gulf ports and Ceylon. Almost the entire quantity of barley exported during the month was purchased by the United Kingdom. The decrease in exports of raw skins was due to reduced purchases of goat skins by the United States of America, while the falling off in exports of rapeseed occurred in shipments to the Netherlands and Germany.

EXTRACT FROM LINSEED CIRCULAR NO. 40 OF 1934 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 5th October, 1934—

	£	s.	d.
Quotations for Linseed and Linseed Oil—			
Indian Linseed.—October-November delivery c.i.f. per ton	11	5	0
Argentine Linseed.—October-November delivery c.i.f. (excluding duty) per ton	10	2	6
Linseed Oil.—October-November delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	18	5	0

Market Conditions.—Interest in Indian linseed was again poor and confined to parcels afloat at a material discount compared with shipments ahead. Oil values have failed to provide support and the oil-cake trade has not so far developed to any appreciable extent. La Plata seed almost neglected on the Continent and United Kingdom.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 26th September, 1934—

Quotations for Linseed Oil—	
Linseed Oil, European make (Raw)	Rs. 1 12 0 per gallon f.a.s.
Linseed Oil, European make (Boiled)	Rs. 1 14 0 per gallon f.a.s.

Market Conditions.—The linseed market has remained practically unchanged.

Bombay, 29th September, 1934—

Quotations for Linseed Oil—	
Linseed Oil	Rs. 3-8-0 per maund.

Stocks of Linseed.—Linseed stock in Bombay on the 29th September, 1934, was estimated at 5,000 tons with offices and 8,000 tons with merchants.

EXPORTS OF RAW JUTE IN SEPTEMBER, 1934.

—The total exports of raw jute from Bengal during September, 1934, amounted to 313,466 bales of 400 lbs. each, of which 281,014 bales were exported from Calcutta and 32,452 bales from Chittagong. The total exports from Bengal in the month of September, 1932 and 1933, were 270,637 and 279,059 bales, respectively, the shipments from Calcutta being 252,879 and 262,898 bales and the remainder from Chittagong.

REPORT ON CONDITIONS IN THE ARGENTINE GRAIN TRADE FOR AUGUST, 1934.

(From a Buenos Aires Correspondent to the Imperial Council of Agricultural Research, India.)

Wheat.

Supplies.—Exports of wheat and wheat flour during August totalled 469,475 metric tons made up of wheat 459,983 tons and flour 9,492 tons as compared with a total of 443,147 tons in July, 1934, and 448,806 tons in August, 1933.

The Statistical Department of the Ministry of Agriculture has just made public its second estimate of the volume of the 1933-34 crop which shows a substantial increase over the figures of the first estimate made in December last in the case of wheat. The new official estimate is 7,787,000 metric tons as against the first estimate of 6,972,000 metric tons. On the basis of these new figures, the last crop of wheat was the biggest on record for the Republic with the exception of that of the year 1928-29, when the volume was 9,499,716 tons.

The following is now the statistical position as compared with that at the corresponding period in 1933 :—

	As on 31st August. 1933-34. Metric Tons.	1932-33. Metric Tons.
Second official estimate of crop	7,787,000	6,405,993
Carry-over from previous crop	199,294	300,559
Total supplies	7,986,294	6,706,552
Deduct Seed and domestic requirements	2,600,000	2,600,000
Balance available for export Exported to August 31st— Tons.	5,386,294	4,106,552
Wheat	3,188,849	3,412,420
Flour	59,760	
Balance still available for export	2,137,685	694,132

Receipts from country points continue on a moderately heavy basis, and the movement overseas, although the total is a shade lower than on the corresponding date of a year ago, possibly because of much heavier maize shipments, is still on a fairly generous scale.

New Crop.—Adequate precipitation, fairly well distributed, has been one of the features of the month. Another has been the mildness of the temperatures prevailing. These conditions have kept the new wheat growing fast, and in some districts there are complaints of undue development above ground. Cold, frosty weather would now be welcome, in order to promote development of the roots and strengthen the plants.

The Government report on crop conditions, which has latterly been appearing with commendable

regularity each month was duly published on the 24th, and from it the following extracts have been taken :—

Buenos Aires.—Wheat: Since the last report the climatic conditions have been favourable. Breezes have dried out the lands which were too damp, and the rains of the middle of the month helped the south-west zone, not so much by the quantity of the precipitation as by its slow distribution. Although unseasonably late, sowing of spring varieties is at this moment being finished in some parts of the centre where the land was too wet and in the Trs Arroyos district where there was a relative drought. In the north the most forward wheat fields are being harrowed to arrest the excessive leafiness and stop the caking of the soil. Generally the condition of the wheat in this zone is unsurpassable, as the sharp frosts and the lateness of the sowing have tended to avoid the excessive leafiness which the surplus moisture might have brought about. In the west the condition of the wheat fields is also good, with the exception of the sandy zone contiguous to the Pampa, where it is precarious because of the lack of humidity and the weakness of the plants. The recent rains will bring about a rapid recovery. Finally, the danger which the fields of winter wheat in the south-west were running has disappeared for the present, except south of Bahia Blanca, where the rains have been insufficient.

Santa Fé.—The condition of the wheat fields throughout the province is good, the plants showing a good colour and vigorous aspect. The cool temperatures and general weather conditions have been favourable. In some districts of the north locusts have partly eaten off the wheat, but the damage is not serious as the grain is again sprouting. For this reason the farmers are not carrying on the work intended to arrest the excessive leafiness. Generally it is judged that there is a diminution of the area sown.

Cordoba.—With the exception of the south-west zone of the province, where the continued drought maintains the precarious condition of the sowings, the state of the wheat fields is good, the plants having germinated and developed well up to the present. In the area mentioned the wheat is backward, pale and yellow, although it is expected that good rain will bring a favourable reaction. In the north the first sowings, representing 65 per cent of the total, are beginning to form the stem, this being advanced for the season.

Entre Rios.—Some wheat fields are too forward, requiring to be pastured or worked in order to restrain vegetation; but in general the condition is good throughout the province.

La Pampa.—The early sowings of wheat up to the middle of July were struggling against the intense drought. Since then they have begun to deteriorate. The later sowings are those which have suffer-

ed most. Until the rains came in the middle of August the crop prospects were really alarming, since the drought, the cold weather and the daily strong winds had prevented the germination of the late sown seed and broken down or damaged the young plants. For the sandy soils of the Pampa the quantity of rain which fell (an inch to an inch and quarter) was of less importance than the slowness of the precipitation and the cloudy weather which followed. At the date of the report little reaction was visible, but there was every reason to anticipate that improvement would soon follow.

Santiago Del Estero.—The condition of the wheat fields is considered good. Unfortunately, locusts have invaded one district, and it is feared that damage will be done.

The Ministry of Agriculture has announced its first estimate of the area seeded for the new crop. In the case of wheat it is said to be 18,475,600 acres, which is 6 per cent less than the area seeded last year, viz., 19,654,531 acres. This is more or less what was anticipated, the general view of the grain trade having been that there would be a reduction of between 5 and 10 per cent in the area seeded, on account of weather conditions prevailing whilst the work was in progress.

Markets.—The past month was about the most active of the current year in the grain market here. The crop news from the United States and Canada, losing nothing in the course of transmission, caused prices to soar, and as is usual in a period of rising prices, the speculators stepped in and carried them to still greater heights. The inevitable reaction followed, in spite of the fact that official reports showed that the private advices of crop damage had unfortunately a substantial foundation, and by the close of the month much of the gain in prices had been lost again.

Apart from speculative business, a good deal of wheat changed hands on the exchange. The European demand was good, and the United Kingdom was purchasing freely in the early part of the month, although later less interest was shown in Plate wheats.

At the close of the month Spot wheat was quoted at \$7.40 paper pesos per 100 kilos (as compared with \$6.96 a month ago), and the October option was changing hands at \$7.53, these prices being equivalent to 65½c. and 67c. Canadian per bushel at the day's rate of exchange. In Winnipeg on the same day October wheat closed at 81½c. per bushel.

Maize.

Exports of maize during August were 574,094 tons, an appreciable drop from the July shipments of 671,278 tons.

No revised estimate of the maize crop is included in the second estimate just published with regard to the other grains. The following table showing the statistical position is therefore based on the

original official figures, although these are generally considered to be much too low.

	Tons.
First official estimate 1933-34 crop	5,500,000
Deduct Seed and domestic requirements	1,430,000
Balance available for export	4,070,000
Exported to August 31st	2,745,996
Still available for export	1,324,004

Although prices recently have weakened a little in sympathy with those of other grains, market conditions during the month have been very satisfactory, and the demand has been steady and occasionally quite active for maize. At one time there was the unusual spectacle of maize selling at a slightly higher price per bushel than wheat. This was only a momentary condition, but prices still continue to be on a very satisfactory basis from the sellers' viewpoint.

At the close of the month Spot Yellow maize was selling at \$7.21 paper pesos per quintal, equal to 60½ cents U. S. at current exchange rates, and November at \$7.57, equal to 64 cents U. S. per bushel. At the same time December maize closed at 79½c. in Chicago.

Red maize was worth \$7.40, white \$7.60, and Cuarenteno \$7.60 per quintal, all prices on railway wagons in the port.

Preparation of the land for the new crop is under way, and it is generally anticipated that the area seeded to maize will show increase over that of last year, especially in view of the remunerative prices which are now being paid, although there is little expectation of these prices holding any great length of time. The reduced acreage under wheat is another factor which will tend to influence the maize area.

Linseed.

Exports during August were 85,840 metric tons as compared with 99,759 metric tons in August, 1933.

The supply position is now as under :—

	As on 31st August. 1933-34. Metric Tons.	1932-33.* Metric Tons.
Second official estimate of crop	1,440,000	1,328,609
Carry-over from previous crop	13,579	47,943
Total supplies	1,453,579	1,376,552
Deduct for Seed and domestic requirements	190,000	190,000
Balance still available for export	1,263,579	1,186,552
Exported to August 31st	1,001,953	1,082,166
Still available for export	261,626	104,386

* The final estimates of production of 1932-33 crop (as published on 1st September, 1934) amounted to 1,454,000 metric tons.

In the early part of the month there was considerable activity in the market for linseed, but latterly this has fallen off as the demand petered out, and the month closed with prices on a lower level than at the opening—\$13.95 as against \$14.15 for Spot seed. The October option closed at \$14.00 per quintal, equal to 118½ c. U. S. per bushel at current exchange rates. On the same date October closed at 193 in Duluth.

Reports on the new crop are generally good, and most of the seed is now in the ground, although in parts it has been deliberately delayed in order to avoid possible frost damage. Some re-seeding has had to be done in Santa Fé to replace frost damaged fields, and some damage is also reported from locusts, but it is early enough for these plants to grow again.

According to the Government's estimate of the acreage, there is an increase of a little over 5 per cent as compared with that of last year, the figures being 7,212,400 acres in 1934, as against 6,850,619 in 1933.

As mentioned last month, this increase in the acreage is due in part to the profitable prices not being received, but also in part to the fears of a drought in the coming summer, which would possibly be less damaging to linseed than to wheat and other grains.

Oats.

The second Government estimate of the volume of the last crop of oats is a little lower than the first, the difference being 11,000 tons.

August exports were 43,848 tons, making the total for the year to date 244,614 tons. The following is the supply position:—

	Tons.
Second official estimate 1933-34 crop .	833,000
Carry-over from 1932-33 .	138,121
Total supplies .	971,121
Deduct for Seed and domestic requirements .	460,000
Exportable balance .	511,121
Exported to August 31st .	244,614
Balance still available .	266,507

The improvement in price levels which commenced in July continued last month, and Spot oats closed at \$6.10 paper pesos per quintal as compared with \$5.30 a month ago, this price of \$6.10 being equivalent to 31½ c. U. S. per bushel at current exchange rates. October closed at \$6.25 per quintal equal to 32½ c. U. S. per bushel. At the same time September oats closed in Chicago at 51½ c.

The new crop is making good progress, with an exuberant growth in some districts, which is being submitted to heavy pasturing.

The area planted to oats shows a slight decrease from that of last year: 3,334,500 acres in 1934; 3,564,951 in 1933.

Barley.

August exports were 25,911 tons.

The second official crop estimate gives the volume of the last crop as very slightly more than the first estimate.

The following table shows the supply position:—

	Tons.
Second official estimate 1933-34 crop .	784,000
Carry-over from 1932-33 crop .	102,547
TOTAL .	886,547
Deduction for Seed and domestic needs .	143,000
Exportable balance .	743,547
Exported to August 31st .	497,365
Balance still available for export .	246,182

The market has not been very active lately, the demand being somewhat limited, and a tendency to weakness exists. Feed barley is worth \$7.90 per quintal on wagons in the port, and Brewing barley \$8.50 paper pesos.

The condition of the new crop is more or less on a par with that of the crop of oats, and the acreage shows a slight increase over that of last year: 1,840,150 acres against 1,781,784.

BOOKS OF REFERENCE.

THE following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta:—

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

STATE RAILWAY EARNINGS—

The total approximate gross earnings of all State-owned Railways for the week ending the 22nd September, 1934 (25th week), amounted to Rs. 1,58 lakhs*, Rs. 9 lakhs more than the figures for the preceding week and 11 lakhs more than the actuals for the corresponding week of the previous year and those for the corresponding week of 1932-33. The total approximate gross earnings from the 1st April to the 22nd September, 1934, amount to Rs. 41.08 crores or Rs. 2,28 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,08 lakhs more than the actuals for the corresponding period of 1932-33.

*The mileage open up to the 30th June, 1933, was 42,912.62.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 22nd Sept., 1933.	Up to 22nd Sept., 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)
A. B.	69	84	+15
B. N.	3,32	3,67	+35
B., B. & C. I.	4,71	4,94	+23
Burma	1,54	1,70	+16
E. B.	2,23	2,29	+6
E. I.	7,99	8,54	+55
G. I. P.	5,22	5,36	+14
M. & S. M.	3,38	3,44	+6
N. W.	6,18	6,61	+43
S. I.	2,49	2,61	+12
Tirhoot & Lucknow-Bareilly.	86	88	+2
Other Railways	19	20	+1
TOTAL	38,80	41,08	+2,28

A comparison with the figures of the previous week for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways except the Burma and S. I. A comparison with the actuals of the corresponding week of 1933 shows increases in the approximate gross earnings of all the principal State-owned Railways except the B.-N., Burma, E. B., M. and S. M. and Tirhoot and Lucknow-Bareilly.

The principal variations in earnings as compared with the actuals of the corresponding week of the previous year, in thousands of rupees, were:—

A. B.	+6; coaching earnings (—14), goods earnings (+22) and other earnings (—2).
B. N.	—29; coaching earnings (—1,38) mainly under passenger earnings, goods earnings (+1,11) and other earnings (—2).
B., B. & C. I.	+3,59; coaching earnings (+2,79) due to the inclusion of the amounts on account of postal bills, goods earnings (+78) and other earnings (+2).
Burma	—7; coaching earnings (—1), goods earnings (—7) and other earnings (+1).
E. B.	—73; coaching earnings (—65) due to the Durga Puja traffic having occurred during the corresponding week of the previous year, goods earnings (—7) and other earnings (—1).
E. I.	+1,01; coaching earnings (+5), goods earnings (+97) and other earnings (—1).
G. I. P.	+2,34; coaching earnings (+1,23) mainly under passenger earnings, goods earnings (+1,11) under food grains, sugar and jagree and general merchandise.
M. & S. M.	—1; coaching earnings (—6), goods earnings (+12) and other earnings (—7).

N. W.	+4,55; coaching earnings (+64) mainly due to increased passenger traffic, goods earnings (+3,16) under wheat, barley, rice, gram and pulses, oilseeds, iron and steel and kerosene oil and other earnings (+75).
S. I.	+97; coaching earnings (+51) due to Kandoori festival at Nagore and coolie traffic to Ceylon, goods earnings (+43) under rice, pulses, grain tiles, cotton yarn, coal and groundnut and other earnings (+3).
Tirhoot & Lucknow-Bareilly	-41; due to decreased passenger and goods earnings on the B. and N. W. Railway.

WAGONS OF REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I, Railways for the week ending the 22nd September, 1934, and for the cumulative period from the 1st April to the 22nd September, 1934, with the corresponding periods of the previous year are as follows:—

(a) Total loadings during the week.

During the week ending the 22nd September, 1934, there were loaded on the broad gauge 73,096 wagons, being 5,888 more than in the corresponding week of the previous year, or an increase of 8.76 per cent. On the metre gauge there were loaded 42,037 wagons, being 1,352 more than in the corresponding week of the previous year, or an increase of 3.32 per cent.

(b) Cumulative loadings from 1st April, 1934.

(i) For the period from the 1st April to the 22nd September, 1934, there were loaded on the broad gauge 1,886,423 wagons, being 115,584 more than in the corresponding period of the previous year, or an increase of 6.53 per cent, and on the metre gauge 1,193,641 wagons, being 78,104 more than in the corresponding period of the previous year, or an increase of 7.00 per cent.

(ii) *Coal and coke*.—In the same period 468,070 wagons, broad and metre gauge, were loaded as compared with 427,735 in the corresponding period of the previous year, being 40,335 more, or an increase of 9.43 per cent. In addition, 53,873 wagons, broad gauge, were loaded during the period by the B. N. and E. I. Railways for their own use, as compared with 47,778 in the corresponding period, being 6,095 more, or an increase of 12.8 per cent.

(iii) *Grains and pulses*.—In the same period 413,229 wagons, broad and metre gauge, were

loaded as compared with 358,514 in the corresponding period of the previous year, being 54,715 more, or an increase of 15.3 per cent.

(iv) *Oilseeds*.—In the same period 115,870 wagons, broad and metre gauge, were loaded as compared with 117,988 in the corresponding period of the previous year, being 2,118 fewer or a decrease of 1.80 per cent.

(v) *Cotton*.—In the same period 69,421 wagons broad and metre gauge, were loaded as compared with 60,221 in the corresponding period of the previous year, being 9,200 more, or an increase of 15.3 per cent.

(vi) *Home line stores and materials*.—In the same period 178,505 wagons, broad and metre gauge, were loaded as compared with 163,143 in the corresponding period of the previous year, being 15,362 more, or an increase of 9.42 per cent.

(vii) *Miscellaneous smalls*.—In the same period 747,286 wagons, broad and metre gauge, were loaded as compared with 729,815 in the corresponding period of the previous year, being 17,471 more, or an increase of 2.39 per cent.

(viii) *Miscellaneous full wagons*.—In the same period 1,087,683 wagons, broad and metre gauge, were loaded as compared with 1,028,960 in the corresponding period of the previous year, being 58,723 more, or an increase of 5.77 per cent.

THE SECOND ALL-INDIA COTTON FORECAST, 1934-35.

—The Second All-India Cotton Forecast, 1934-35, is expected to be published in the *Indian Trade Journal* of the 1st November, 1934. The forecast estimates will, however, be exhibited at the main street door of the Office of the Director-General of Commercial Intelligence and Statistics at 1, Council House Street, Calcutta, on Saturday, the 20th October, 1934, at 1 p.m. (*Calcutta Time*) or 12-36 p.m. (*Standard Time*).

THE BRITISH PHARMACEUTICAL CODEX, 1934.

—A copy of "The British Pharmaceutical Codex, 1934", published by direction of the Council of the Pharmaceutical Society of Great Britain at the Pharmaceutical Press, 23, Bloomsbury Square, London, W. C. 1, has been received and may be seen in the Commercial Library and Reading-Room at 1, Council House Street, Calcutta. The Codex contains, *inter alia*, general monographs on Chemicals, Crude Drugs, etc. Copies are obtainable from Messrs. Evans Sons Lescher & Webb, Ltd., 56, Hanover Street, Liverpool, at 35 shillings, excluding postage, etc.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

PROHIBITION OF IMPORT OF MATCHES FROM CERTAIN INDIAN STATES: AMENDMENTS.

The following Notification (No. 29-Central Excises, dated the 13th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the power conferred by section 7 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor General in Council is pleased to direct that the following amendments shall be made in the Notification of the Government of India in the Finance Department (Central Revenues), No. 16-Central Excises, dated the 28th July, 1934 (*vide the Indian Trade Journal*, dated the 2nd August, 1934, page 468), namely:—

In the list of States set forth in the said notification the entries 'Gondal' and 'Palanpur' shall be omitted.

SUGAR (EXCISE DUTY) ACT, 1934: SUGAR PRODUCED IN THE FACTORY ATTACHED TO THE JULLUNDUR EXPERIMENTAL FARM EXEMPTED FROM DUTY.

The following Notification (No. 30-Central Excises, dated the 13th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In pursuance of Clause 10 of the Sugar (Excise Duty) Order, 1934, the Governor General in Council is pleased to exempt from the payment of the duty leviable under the Sugar (Excise Duty) Act, 1934 (XIV of 1934), sugar produced in the factory attached to the Jullundur Experimental Farm.

AMENDMENTS IN OTTAWA TRADE AGREEMENT RULES, 1932.

The following Notification [No. 780-T. (11)/32, dated the 13th October, 1934] has been issued by the Government of India in the Department of Commerce:—

In exercise of the powers conferred by sub-section (3-B) of section 3 of the Indian Tariff Act, 1894 (VIII of 1894), the Governor General in Council is pleased to direct that the following further amendments shall be made in the Ottawa Trade Agreement Rules, 1932 (*vide the Indian Trade Journal*, dated the 29th December, 1932, pages 930-33), namely:—

(1) In the *Explanation* to sub-rule (2) of rule 4 of the said Rules the word "mixing" shall be omitted and to the said *Explanation* the following proviso shall be added, namely:—

"Provided that where the article concerned is an article specified in the first column of

the Third Schedule this *Explanation* shall be construed as though the word 'mixing' were included therein before the word 'bottling'."

(2) In the Third Schedule to the said Rules, for the heading "(See rule 4-A)", the heading "[See the proviso to the *Explanation* to rule 4 (2) and rule 4-A]" shall be substituted.

IRISH FREE STATE.

CUSTOMS DUTIES ON ROPE, CORD, ETC.

The following is republished from the *Board of Trade Journal*, dated the 20th September, 1934:—

The United Kingdom Trade Commissioner at Dublin has forwarded to the Board of Trade a copy of the Emergency Imposition of Duties (No. 48) Order, 1934, which imposes a Customs duty of 40 per cent *ad valorem* on rope, cord, twine or thread of cotton, flax, hemp, ramie, jute, or coir or any like material or a combination of any two or more of those materials, but excluding binder twine and plaited or cable-laid sash cord and also excluding any article which at importation forms part of another article, imported into the Irish Free State on and after September 12, 1934.

This duty is in substitution for the former Customs duty of 40 per cent *ad valorem* on cordage, cables, ropes and twine of hemp or like materials, excluding binder twine, coir yarn, and plaited or cable-laid sash cords, and also excluding any article which at importation formed part of another article.

The Order also contains the following provision:—

"Whenever the Minister for Finance, after consultation with the Minister for Industry and Commerce, so thinks proper, the Revenue Commissioners may by licence authorise any particular person, subject to compliance with such conditions as they may think fit to impose, to import without payment of the duty imposed by this Order any articles chargeable with such duty either, as the Revenue Commissioners shall think proper, without limit as to time or quantity or either of them or within a specified time or in a specified quantity."

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the *Journal* are given for purposes of reference:—

27th September, 1934.

BRITISH EMPIRE—

UNITED KINGDOM.—Import Duties Act, 1932: Import Duties (Exemptions) (No. 11) Order, 1934: Animal Ivory.

AUSTRALIA.—Primage Duty Amendments.
CANADA.—Excise Taxes on Sugar applied to certain Fruits and Peels.
IRISH FREE STATE.—Import of certain Boots and Shoes Prohibited. Control of Imports Regulations.

PERU.—Proposed New Customs Tariff.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 1st and the 5th October, 1934:—
21219. E. Altenkirch.—Improvements relating to a process and apparatus for controlling the moisture content of atmospheric air. 21220. Standard Telephones and Cables, Ltd.—Carrier wave signalling arrangements. 21221. E. W. Vero.—Improvements in helmets and other like head coverings. 21222. J. Fallon.—Improvements in gas-producer machines or units for use in conjunction with metallurgical and like furnaces. (December 11, 1933). 21223. Associated Electrical Industries, Ltd.—Improvements relating to braking equipments for moving apparatus such as hoisting, winding, hauling and like gear. (October 25, 1933). 21224. Associated Electrical Industries, Ltd.—Improvements relating to winding or hoisting apparatus for mines. (October 25, 1933). 21225. The General Electric Co., Ltd.—Improvements in or relating to electrode arrangements or controlling electric arcs. (October 10, 1933). 21226. Dunlop Plantations, Ltd.—Improved method and means for coating a surface, particularly a metallic surface with fusible material

or substance. (February 3, 1934). 21227. R. C. K. Young.—An improved electric heater. 21228. A. Danzinger.—Process for bleaching cellulose-containing fibres, for instance cotton, by means of solutions of per-compounds. 21229. Dognin Societe Anonyme.—Improvements in or relating to tulles and laces comprising multiple elastic threads. 21230. Electric & Musical Industries, Ltd.—Improvements in or relating to cathode ray tubes. (October 3, 1933). 21231. Indian Lac Cess Committee.—Process for isolating lac resin from lac. 21232. Schering-Kahlbaum Aktiengesellschaft.—The manufacture of hydrogenation products of follicle hormones. (October 26, 1933). 21233. A. B. Lall.—Improvement in apparatus for cooking, baking and frying the food or similar substances. 21234. V. Duraiswami Pillai.—Four-rib ricehuller cylinder. 21235. S. M. H. Jafri.—A clamping device for fitting auriscope or the like medical apparatus with a torch to avail of the light therefrom. 21236. S. M. H. Jafri.—A device for clamping and operating torch lights or the like. 21237. S. M. H. Jafri.—An improved medical apparatus for examination purposes more particularly for the examination of ear, eye and nose. 21238. H. M. R. Barjot.—Improvements in direction signals for motor cars.

WEATHER AND CROP REPORTS.

BENGAL.

10th October.

During the week the rainfall was heavy except in parts of west and north Bengal where it was light to moderate. Prospects of standing crops are generally fair. Preparation of lands for sowing of spring crops has commenced in places.

ASSAM.

15th October.

During the week the weather was generally seasonable. The prospects and outturn of crops are fair.

BIHAR AND ORISSA.

9th October.

During the week under report light rain fell in all the districts of the province except in parts of Gaya, Shahabad, Champaran, Darbhanga, Monghyr and Manbhum. The condition of standing crops including sugarcane is generally good. Harvesting of *bhadoi* crops continues. Weeding of *Saradh* paddy is going on in Balasore, Puri and Sambalpur. Ploughing of fields for *rabi* crops continues. More rain is needed in parts of Bhagalpur and the Santal Parganas.

BOMBAY.

13th October.

During the week there was practically no rain all over the Presidency except scattered rain in the Karnatak permitting cotton sowing in places. Crops

are withering in places in the north Deccan. Late crops in Gujarat and Konkan are also not satisfactory and need rain. *Kharif* harvest continues and *rabi* sowing is in progress in parts of the Deccan.

Sind.—During the week there was no rain. Picking of cotton is going on. Harvesting of early sown rice continues. Other *kharif* crops are in good condition.

CENTRAL PROVINCES.

6th October.

During the first half of the week the weather was cloudy with light to moderate rain throughout the province except in Saugor and Raipur where the rainfall was rather heavy. In the second half it became clear with bright sunshine. The break is beneficial and likely to improve greatly the condition of crops particularly of those affected by excessive moisture. *Til* is, however, reported to have been seriously damaged by the continuous rain, and *juar* on heavy soils is also poor in the Saugor district. Otherwise the standing crops are generally in a satisfactory condition. Weeding and intercultural operations are in progress. Preparation of land for *rabi* sowings continues. Harvesting of minor millets and groundnut has commenced.

MADRAS.

8th October.

During the week the rainfall was generally below normal. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts. The condition of standing crops is generally fair except in parts of the Deccan, Chittoor, Coimbatore and Tinnevely where they have been adversely affected for want of rain.

PUNJAB.

8th October.

During the week the weather remained dry. Rain is badly wanted. The condition of standing crops is generally average to good on irrigated and below average to average on unirrigated areas. Damage to sugarcane by "top-borer" continues to be reported from parts of Rohtak and Shahpur and by "Pyralid-borer" from parts of Gurdaspur. Measures for the destruction of sugarcane pests are being continued in these districts. Insects have damaged standing crops in parts of Gurgaon and rice in parts of Muzaffargarh and Dera Ghazi Khan. Action for their destruction is being taken in Gurgaon and Dera Ghazi Khan. Cotton is reported to have been affected by "root rot" disease and *tela* in parts of Shahpur.

UNITED PROVINCES.

6th October.

There was general light rain throughout the province during the week except in Meerut, Agra, Rohilkhand and Kumaun divisions. No damage is

reported. Preparation of land for *rabi* and harvesting of *kharif* continue. Sowing of *rabi* and picking of cotton have commenced at most places. Standing crops are doing well. Prospects are so far favourable.

GENERAL WEATHER SUMMARY.

During the week ended Tuesday last unsettled conditions in the Bay of Bengal caused some widespread falls of rain in north-east India, Burma and the Peninsula. At the beginning of the week a western disturbance caused local showers in Kashmir and a few falls in the North-West Frontier Province and the Punjab Hills.

CROP FORECASTS.

(FOREIGN)

WHEAT CROP IN AUSTRALIA.

According to a cable, dated the 16th October, 1934, received from the Commonwealth Bureau of Census and Statistics, Melbourne, the preliminary estimates of the wheat crop in Australia for the season 1934-35 are placed at 12,965,000 acres and 137,000,000 bushels (or 3.7 million tons). Last year's corresponding estimates were 14,780,000 acres and 165,000,000 bushels (or 4.4 million tons).

WHEAT AND LINSEED CROPS IN THE UNITED STATES OF AMERICA.

According to a cable, dated the 10th October, 1934, received from the United States Department of Agriculture, Washington, the production of the wheat and linseed crops of the United States of America for the current year is now estimated at 496,982,000 bushels (or 13,312,000 tons) for wheat and 5,228,000 bushels (or 131,000 tons) for linseed. Last year's corresponding estimates were 515 million bushels (or 13.8 million tons) for wheat and 7.4 million bushels (or 0.18 million tons) for linseed.

COTTON CROP IN MANCHURIA.

The production of raw cotton in Manchuria this year is estimated at 159 million lbs. (or 397,000 bales of 400 lbs. each), showing an increase of 25 per cent over the last year's yield of 127 million lbs. (or 317,000 bales of 400 lbs. each). Weather conditions during sowing time were unfavourable and the increase in the estimates is based on an increase by 60 per cent in the area under cultivation.

RICE PRODUCTION IN JAPAN.

According to a cable, dated the 9th October, 1934, received from Tokio, the production of the rice crop of Japan for 1934 is now estimated at 57,027,000 koku (=7,998,000 tons), which is 19.5 and 8.9 per cent below the actual crop of last year and the average of the last five years, respectively.

SUMMARY OF CROP FORECASTS.

The following is a summary of crop forecasts relating to the season 1934-35 :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute— Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	Acres 2,497,000	99.2	Acres 2,517,000	7,964,000 bales (c)	99.4	8,012,000 bales (c)	Sept. 6, 1934.
Cotton— First.	All cotton-growing tracts (refers mainly to early cotton).	12,065,000	98	23,789,000	(b)	..	4,970,000 bales	Aug. 23, 1934.
Sugarcane— First.	United Provinces, Punjab, Bihar and Orissa, Bengal, Madras, Bombay, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal (95 per cent of the total sugarcane area of India).	3,409,000	102	3,305,000	(b)	..	5,067,000 tons	Aug. 23, 1934.
Groundnut— First.	Madras, Bombay, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	2,049,000	91(d)	8,115,000	(b)	..	3,235,000 tons	Aug. 30, 1934.
Sesamum— First.	Burma, Madras, Bombay, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal, Baroda, and Kotah (about 71 per cent of the total sesamum area of India).	2,520,000	93(d)	6,192,000	(b)	..	535,000 tons	Aug. 30, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (e) Including Coosh Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100—figure of same date preceding year)	Final figure 1932-33	Estimated output	Per cent of preceding year (100—figure of same date preceding year)	Final figure 1932-33	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	Acres 1,556,000	96	Acres 1,617,000	146,000 tons	97	151,000 tons	Feb. 22, 1934.
Rice— Final.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces*, Central Provinces and Berar*, Assam, Bombay*, Coorg, Hyderabad, Mysore, Baroda and Bhopal† (about 97 per cent of the total rice area of India).	31,977,000	99	32,661,000	30,353,000 tons	98	31,089,000 tons (a)	Mar. 1, 1934.
Rape and Mustard— Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay*, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar†, Baroda and Hyderabad (about 96 per cent of the total rape and mustard area of India).	6,033,000	99	6,094,000	952,000 tons	91	1,046,000 tons	May 31, 1934.
Linseed— Final.	Central Provinces and Berar*, United Provinces, Bihar and Orissa, Bombay*, Bengal, Punjab, Hyderabad, Kotah† and Bhopal† (about 94 per cent of the total linseed area of India).	3,257,000	99	3,299,000	377,000 tons	92(a)	406,000 tons(a)	May 31, 1934.
Wheat— Final.	Punjab*, United Provinces*, Central Provinces and Berar*, Bombay*, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	35,062,000	109	32,970,000	9,353,000 tons	99	9,449,000 tons	Aug. 16, 1934.

(a) Excluding 1 hospital from which report has been received for the first time this year, † in Rajputana.

INDIAN STORES DEPARTMENT.

Appointment of a Head Draftsman for the Office of the Chief Controller of Stores, Indian Stores Department.

Wanted a Head Draftsman for the Office of the Chief Controller of Stores, Indian Stores Department. Applicants should be Statutory natives of India and of not less than 28 and not more than 40 years of age. They must have been regularly trained as Mechanical Engineers, should have had workshop experience preferably in a Locomotive or a Carriage and Wagon Workshop and must have held a responsible position for not less than 5 years in the Railway Rolling Stock Section of the Drawing Office of a Railway or a firm of Locomotive or Carriage and Wagon Builders of repute. The applicants must be fully conversant with the nomenclature and types of locomotive and carriage and wagon components. Experience in checking designs and layout of steel structures will be an advantage. The appointment will be on an officiating basis in the first instance, but there are prospects of its continuance and eventual confirmation. It carries a scale of Rs. 250-10-350 with the benefits of a Contributory Provident Fund on confirmation, but persons already in service, who are entitled to old scales of pay, will be placed on the scale of Rs. 300-20-400 a month.

Applications giving full particulars of age, general and engineering education and practical experience in the lines mentioned above should be addressed to the Chief Controller of Stores (and not by name to any officer of the Department). They must reach his office at New Delhi before the 1st November, 1934.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from:—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.

3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Witter Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsaroop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Supply of Pressure Filter Plant required for the M. E. S. Ranikhet, at Kathgodam Railway Station (R. & K. Railway).

The Chief Controller of Stores, Indian Stores Department (Engineering Section), invites tenders for the stores detailed below:—

Tender No. N-3689.

Three—Pressure Filter Units each capable of a minimum output of 4,200 gallons per hour and capable of withstanding a pressure equivalent to a head of 600 ft. (calculated) provided with such coagulation, cleaning and wash water arrangements as may be necessary.

and alternatively—

Three—Pressure Filter Units each capable of a minimum output of 3,500 gallons per hour with such coagulation, cleaning and wash water arrangements as may be necessary, and two oil engine driven pumping sets each capable of delivering 3,600 gallons per hour against a total head of 600 feet.

Price of tender forms, etc., is Rs. 6 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 10th December, 1934, and opened on the 11th December, 1934.

I. S. D. Standard Specification PI/114. D (saleable) will apply in this case.

INDIAN STORES DEPARTMENT.

Supply of Water Tube Boiler.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), invites tenders for the stores detailed below:—

Tender No. N-3652.—Supply of One Water Tube Boiler, having evaporative capacity of 15,000 lbs. (actual) water per hour complete with Mechanical Stoker fittings, pipe work, etc., for Asansol Power House, E. I. Railway.

Price of tender forms, etc., is Rs. 6 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 26th November, 1934, and opened on the 27th November, 1934.

INDIAN STORES DEPARTMENT.

Supply of Material required for the Public Works Department, Nagpur.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), invites tenders for the stores detailed below:—

Tender No. N-3686.—For two 5 c.ft. capacity Portable Asphalt Mixer Sets.

Price of tender forms, etc., is Rs. 3 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 14th November, 1934, at New Delhi, and opened on the 15th November, 1934.

I. S. D. Standard Specification No. P. I. 116-A (saleable) will apply in this case.

INDIAN STORES DEPARTMENT.

Supply of Vertical Spindle Tube Well Turbine Pumping Plant required for the N. W. Railway at Budhapur Station, N. W. Railway.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), invites tenders for the stores detailed below:—

Tender No. N-3690.—One—Cold starting crude oil engine driven Vertical Spindle Tube Well Turbine Pump, capable of delivering 4,500 Imperial gallons per hour against a total head 175 feet from all causes.

Price of tender forms, etc., is Rs. 2 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 26th November, 1934, and opened on the 27th November, 1934.

I. S. D. Standard Specification P. I. 114D or P. I. 116A (both saleable) will be applicable.

INDIAN STORES DEPARTMENT.

Supply of Electrically Driven Pumping Sets required for the Joint Water Board, New Delhi, at New Delhi Railway Station (Barakhamba Siding), N. W. Railway.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), invites tenders for the stores detailed below:—

Tender No. N-3653.

Two—Electrically driven Centrifugal Pumping Sets, capable of delivering 300 gallons per minute of silt and water against a total head from all causes of 25 ft., direct coupled to 400 volts, 3 phase, 50 cycles, A. C. Motor complete with control gear and pipe work.

Two—Electrically driven Centrifugal Pumping Sets, capable of delivering 120 gallons per minute of muddy water against a head from all causes of 230 ft., direct coupled to 400 volts, 3 phase, 50 cycles, A. C. Motor complete with control gear and pipe work.

Price of tender forms, etc., is Rs. 2 per set (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 22nd November, 1934, at New Delhi, and opened on the 23rd November, 1934.

I. S. D. Standard Specifications P. I/60A and P. I/116A (saleable) are applicable in this case.

ARMY HEADQUARTERS, INDIA.**OFFICE OF THE DIRECTOR OF CONTRACTS.****Supply of Hair and Shaving Brushes.**

Tenders are invited for the supply of Hair and Shaving Brushes, required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order, on the coupon of which the number of the tender (No. P/O-76), the name and full address of the applicant must be stated.

Tender forms duly completed will be received by the Director of Contracts up to the 1st December, 1934, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must forward with their applications for tender forms certificates from their Bankers as to their financial standing.

ARMY HEADQUARTERS, INDIA.**OFFICE OF THE DIRECTOR OF CONTRACTS.****Supply of Painters' Brushes.**

Tenders are invited for the supply of Brushes (Lacquer, Paint, Varnish, Sash Tool, etc.), required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order, on the coupon of which the number of the tender (No. P/O-102), the name and full address of the applicant must be clearly stated.

Tender forms duly completed will be received by the Director of Contracts up to the 1st December, 1934, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must forward with their applications for tender forms certificates from their Bankers as to their financial standing.

ARMY HEADQUARTERS, INDIA.**OFFICE OF THE DIRECTOR OF CONTRACTS.****Supply of Brooms and Brushes.**

Tenders are invited for the supply of Brooms (Bass) and Brushes (Sweeping, Scrubbing, Tar, etc.), required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order, on the coupon of which the number of the tender (No. P/O-175), the name and full address of the applicant must be clearly stated.

Tender forms duly completed will be received by the Director of Contracts up to the 1st December, 1934, inclusive.

Tenderers whose names are not already on the Director of Contracts' list of approved contractors must forward with their applications for tender forms certificates from their Bankers as to their financial standing.

ARMY HEADQUARTERS, INDIA.**OFFICE OF THE DIRECTOR OF CONTRACTS.****Supply of Aluminiumware.**

Tenders are invited for the supply of Aluminiumware (Meat Dishes, Washing Basins and Frying Pans), required for the Army.

Tender forms, in duplicate, showing the particulars, and the terms and conditions covering supply, can be obtained on payment of Rs. 3 from the Director of Contracts, Army Headquarters, Simla. Payment must be made by Money Order, on the coupon of which the number of the tender (No. P/O-116), the name and full address of the applicant must be clearly stated.

Tender forms duly completed will be received by the Director of Contracts up to the 16th November, 1934, inclusive.

	R.ft.
(a) 4" diameter	500
(b) 5" "	500
(c) 6" "	4,000

Pipes to be galvanized or coated and wrapped with reliable rust protecting solution.

POLICE SUPPLIES, BURMA.

Supply of Clothing, Accoutrements, Saddlery, Miscellaneous Stores, Hardware, etc., to the Burma Police.

Sealed tenders for the supply of Clothing for the Burma Police, for the period from 1st April, 1935, to 31st March, 1936, are invited and will be received by the Superintendent of Police Supplies, Burma, Rangoon, up to noon on Wednesday, the 6th February, 1935, when they will be opened in the presence of any tenderers or their accredited agents who desire to be present.

Tenders which may be for any group or groups must be submitted in the prescribed forms and must be accompanied either by a *chalan* receipted at a Government Treasury or a Bank receipt for the earnest-money deposit in respect of each Schedule and no tender without it will be considered. Neither cash nor currency notes will be accepted and on no account should any money be enclosed with the tender. Earnest-money deposits will be refunded to unsuccessful tenderers as soon as possible after orders have been passed.

All particulars regarding the contract can be obtained on application to the Superintendent of Police Supplies, Burma, Rangoon. All supplies must be strictly in accordance with the sealed samples and specifications maintained in the office of the Superintendent of Police Supplies, Burma, Rangoon. Samples of articles can be seen at the Police Supply Depot, Rangoon, during office hours, except on holidays.

The successful tenderer or tenderers will be required to deposit a security deposit calculated at 10 per cent of the value of the contract in Treasury receipts or Bank receipts within a week of the receipt of the communication advising the acceptance of the tender and to sign an agreement with the least possible delay. The earnest-money of the successful tenderer will be forfeited if he does not sign the contract within a fortnight of the date of acceptance of his tender. The successful tenderer, if not a local resident, will be required to maintain an agency in Rangoon for the receipt and delivery of goods and to receive payments and grant receipts.

Any attempt on the part of a tenderer to enlist support for his tender from Government officials or persons of influence will entail the rejection of his tender.

A complete set of Schedules for tenders "A" to "D" is available on payment of Rs. 4, or separately at the following rates: "A" at Rs. 2, "B" at Rs. 2, "C" at Re. 1 and "D" at Re. 1.

The Superintendent of Police Supplies, Burma, Rangoon, does not bind himself to accept or recommend for acceptance the lowest or any tender or to assign reasons for the rejection of any tender.

BOMBAY, BARODA AND CENTRAL INDIA RAILWAY.

Tenders for Loading and Unloading of Stores Materials, etc., at (1) Dohad, (2) Ajmer, (3) Bharatpur Depôts on the B. B. and C. I. Railway.

Tenders are invited for the above-mentioned Works and are returnable on Monday, the 12th November, 1934, at 11-30 a.m. Tender forms can be obtained on application to the Controller of Stores, B. B. and C. I. Railway, Mahalaxmi, the Superintendent of Stores, B. B. and C. I. Railway,

Ajmer, and the Assistant Superintendent of Stores, B. B. and C. I. Railway, Dohad, on payment of Rs. 2 only per copy for each Depot.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of the above-mentioned material.

The prescribed form of tender, with specification and special conditions on which the tenders will be considered, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Re. 1 per copy, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Flood Light Projectors."

A sum of Rs. 300 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) and the Secretary of State reserves to himself the right to appropriate or confiscate the cash deposit, should the successful tenderer fail to put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 28th November, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Improvements to Station Approach Road at Hubli.

The Chief Engineer, M. & S. M. Railway, Madras, invites tenders for the above. Prescribed forms will be available till the 12th November, 1934, at his office. The cost is Rs. 5 (not refundable). Tenders are to be sealed and superscribed as above. Closing date is 13th November, 1934, 12 noon.

SOUTH INDIAN RAILWAY.

GENERAL STORES DEPARTMENT.

Supply of Mineral Oils during 1935-36.

Tenders are invited and will be received by the Superintendent of Stores, South Indian Railway

Co., Ltd., Negapatam, up to the 26th November, 1934, for the supply of the articles mentioned below :—

Mineral axle oil	about 700,000 lbs.
Mineral cylinder oil	85,000 "
Mineral superheater cylinder oil	160,000 "

These oils should conform to the specifications recorded in the Schedule which are the same as those of the Indian Stores Department of the Government of India and to each tender should be attached in original, a certificate of a recent date, obtained by the tenderer from the Government Test House, Alipore, for each of the oils tendered for. A special test by the Alipore Test House in connection with this tender is not necessary. If originals cannot be produced with the tender, certified true copies should be sent and originals should be submitted as soon as available. The originals will be returned within a reasonable time after perusal.

With each tender should also be submitted a sample, free of cost and carriages paid, of not less than 2 quarts of the oil tendered for and a certificate of guarantee that the sample conforms, in all respects, to the specification embodied in the original test certificate should accompany the tender.

Tenderers are advised, in their own interests, to see that the samples are fully labelled and so carefully packed as to ensure safe arrival.

The Schedule together with the connected Tender Form and General Conditions of Contract and any other particulars can be had from the Superintendent of Stores, S. I. Railway Co., Ltd., Negapatam. The cost of the Schedule is Rs. 2 per copy and this sum should be prepaid and is not refundable. The Schedule cannot be sent by V.-P. Post.

The Agent, S. I. Railway Co., Ltd., will not consider any tender except on the Company's authorized form as aforesaid, and he does not bind himself to accept the lowest or any tender or to assign any reasons for non-acceptance. He further reserves to himself the right of accepting any tender in part.

CEYLON GOVERNMENT RAILWAY.

Supply of Teak.

Tenders are invited for the supply of—

- (a) 300 tons of selected Indian first class squares Rangoon teak, averaging 40-50 cubic feet, 220 tons with sides not less than 12 inches and length not less than 15 feet, and 80 tons with sides not less than 18 inches and length not less than 18 feet.
- (b) 340 tons of selected Indian first class squares Bangkok teak, averaging 40-50 cubic feet, with sides not less than 12 inches and length not less than 15 feet.

The teak must be sound in every respect, free from knots, shakes, and bee holes.

Tenders are to be made on forms which will be supplied on application at the Office of the Railway Store-keeper, Colombo, and no tender will be considered unless it is on the recognized form.

A deposit of Rs. 100 in favour of the General Manager will be required to be made at the Chief Accountant's Office, Maradana, or at any Kacheheri outside Colombo, and a receipt produced for the same before any form of tender is issued.

Applications from outside Ceylon accompanied by a draft on a Colombo Bank in favour of the General Manager of the Railway will be considered on intimation being received from the Bank that such a draft has been placed to the credit of the Government.

All tenders should be in duplicate, and be accompanied by a letter signed by two responsible persons, whose addresses must be given, engaging to become security for the due fulfilment of the contract. The documents must be sealed under one cover marked "Tender for Supply of Teak to the Ceylon Government Railway" in the left hand top corner of the envelope, and be addressed to the Chairman of the Tender Board, General Treasury, Post Box No. 500, Colombo, and must either be deposited in the Tender Box in the General Treasury (Room No. 223, 2nd floor, Galle Face Secretariat), or be sent through the post under registered cover, to reach the Chairman of the Tender Board not later than 12 noon on Tuesday, October 23, 1934.

Tenders from tenderers not resident in Ceylon will not receive consideration unless submitted by a duly constituted agent resident in Ceylon, specially empowered to tender for the same and to execute a valid contract in that behalf and to fulfil all the terms of the contract. In the case of local firms tendering as agents of firms outside Ceylon, the "duly constituted" agents should hold a power of attorney from their principals to enable them to enter into a contract, should their tender be accepted.

The tenderers shall specify their prices in rupees and cents per ton of 50 cubic feet for delivery over ship's side in Colombo Harbour, free of all freight and charges. The teak shall be at the risk of the contractor until it is so delivered.

The teak is to be delivered in Colombo Harbour in the following quantities, and at the following dates, viz. :—

November, 1934	Rangoon teak, 180 tons (which should include the 80 tons of large logs).
March, 1935	Bangkok teak, 150 tons.
	Rangoon teak, 120 tons.
	Bangkok teak, 190 tons.

Tenderers should give an address to which orders and correspondence relating to the tenders and

contract are to be sent. Any change of address should be notified to the General Manager, Ceylon Government Railway, Colombo, forthwith.

Further particulars may be obtained from the Railway Storekeeper, Ceylon Government Railway, Colombo.

[N.B.—A copy of the detailed Tender Notice has been received and may be seen in the Commercial Library and Reading-Room at 1, Council House Street, Calcutta.]

SALE OF FOREST PRODUCE.

A sale of Kanara Timber will be held at Kodibag (near Karwar) on the 19th November, 1934, and subsequent days and at Hattikeri (15 miles from Karwar) on the 23rd November, 1934.

Approximate quantity in tons at
Kodibag Depôt. Hattikeri Depôt.

Teak logs	1,109	125
Shisum logs	119	76
Matti logs	195	..
Honno logs	7	..
Teak beams	29	..
Teak poles	100 (Number)	..

Further particulars may be obtained from the Divisional Forest Officer, W. D. Kanara, Karwar.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

Simla.

The following particulars regarding contracts which have been placed by the Indian Stores Department have been received from the Chief Controller of Stores, Indian Stores Department, Simla. (Orders of less than Rs. 100 in value are not included.)

TRADE ENQUIRIES.

The following trade enquiries have been received by the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, who will welcome replies to be addressed to him direct by any individual or firm interested.

Firms replying to these enquiries should furnish their bank references with their replies.

Replies to enquiries for more than one commodity should specify in which of them the respondent is interested.

INDIAN—

Button Lac.

(X-117) A firm in Amritsar (Punjab) desires to be put in touch with suppliers of Button Lac in Calcutta and Mirzapur.

Fish Net Bullets.

(X-118) An enquirer in Bally (near Calcutta) desires to be put in touch with purchasers of Cast Iron Fish Net Bullets (Jāl Kānti) in India.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 21st October.—Nearly general in Assam and associated with thunderstorms in Malabar on 1 day. Widespread rain also occurred in north-east India on 3 days and in upper India on 1 day. Local or a few falls elsewhere.

Crops: Madras, week ending 13th October.—Fairly good rainfall in most parts of presidency. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts and West Coast and sowing of dry crops in parts of Circars. Standing crops generally fair except in parts of Bellary and Anantapur where adversely affected for want of rain. Bihar and Orissa, week ending 16th October.—Rain fell in Patna, Monghyr, Purnea, Santal Parganas, districts of Orissa division, Ranchi, Palamau, Manbhum and Singhbhum, moderate in Cuttack; no rain elsewhere. Standing crops including sugarcane generally good. More rain needed for paddy in parts of Bhagalpur. Punjab, week ending 15th October.—Except for slight rain in parts of Kangra and Hoshiarpur weather remained dry. Rain badly wanted. Standing crops generally average to good on irrigated and below average to average on unirrigated areas. Sugarcane continues to be damaged by "top-borer" in parts of Rohtak and Shahpur and by "Pyralid-borer" in parts of Gurdaspur. Damage to standing crops by insects reported from parts of Dera Ghazi Khan and to rice from parts of Gujranwala and Muzaffargarh. Cotton affected by tela and root

rot disease in parts of Shahpur and by winds and boll worm in parts of Lyallpur. Central Provinces, week ending 13th October.—Weather continued to be clear with occasional passing clouds. Crops affected by excessive moisture reported to be improving except that juar on low-lying and heavy soils in Saugor and Nagpur may not recover sufficiently to give satisfactory outturn. Condition of standing kharif crops otherwise satisfactory. Harvesting of early rice and groundnut continues. Sowing of linseed and minor rabi crops commenced. Bengal, week ending 17th October.—Excepting heavy showers in parts of north and east Bengal rainfall generally light to moderate. It materially helped development of late transplanted winter paddy. Harvesting of jute still continues. Field operations for early spring crops in progress. United Provinces, week ending 13th October.—No rain; rain needed at some places. Picking of cotton commenced at most places. Standing crops doing well and prospects so far favourable. Bombay, 20th October.—Rainfall during week fairly good in west Karnatak and Konkan except Ratnagiri where scanty, light to fair in Broach and Panch Mahals, in Gujarat and south Deccan and practically absent elsewhere. Condition of crops fairly good except places east Karnatak where suffering for want of rain. Harvesting of kharif crops continues generally and rabi sowing in progress parts Deccan and Karnatak. Sind, 20th October.—No rain during week. Skies clear. Harvesting of early rice in progress. Picking of cotton continues. Other kharif crops progressing satisfactorily. Assam, 22nd October.—Weather generally seasonable. Outturn and prospects of crops fair.

Bombay, 18th October.—Cotton: Market weak. No. 3 Fine M. G. Oomras Rs. 181½ December-January 1935.

Calcutta, 20th October.—Jute market quiet but steady. Sellers of ready Firsts at Rs. 25-8-0. Hessians continue quiet with minimum of business. Nine Porters Rs. 8-11-0; Elevens Rs. 11-1 Ready-October. Heavies practically unchanged with insufficient business to test rates. B. Twills October-November at Rs. 24-8-0.

Imperial Bank rate unchanged at 3½ per cent. Rangoon, 17th October.—Specials White Rice, Big Mills Rs. 210; Small Mills Rs. 223-8 October. Paddy 20th October.—Rs. 85 to Rs. 86 (river) and Rs. 84 to Rs. 85 (rail).

Wheat, 18th October: Lyallpur.—Rs. 2-0-6 f.o.r. per maund. Bombay.—White Delhi, per cwt., railway terms Rs. 4-0-3 January and Rs. 4-4-6 May. 19th October: Karachi.—Punjab white Rs. 19-14 per candy.

Traffic survey being carried out by agency of Bengal-Nagpur Administration for a line of railway on 5 ft. 6 in. gauge from Badampahar to Joda, a distance of about 71 miles, sanctioned.

TRADE OF BURMA IN AUGUST, 1934.

The Report on the principal variations in the trade of the Province of Burma (excluding Government stores, Treasure and Inter-portal trade) during the month of August, 1934, as compared with the corresponding period of 1933, states:—

TOTAL TRADE.

The total trade of the Province of Burma, both import and export, foreign and coasting combined, during the period under review increased to Rs. 574.58 lakhs from Rs. 437.31 lakhs.

The foreign import trade increased to Rs. 76.78 lakhs from Rs. 64.18 lakhs while the foreign export fell from Rs. 138.45 lakhs to Rs. 129.95 lakhs.

Coasting imports and exports both expanded from Rs. 62.77 lakhs and Rs. 171.91 lakhs to Rs. 85.14 lakhs and Rs. 282.72 lakhs, respectively.

FOREIGN TRADE.

The total of imports and exports was Rs. 206.73 lakhs as against Rs. 202.63 lakhs, showing an increase of Rs. 4.10 lakhs.

(a) Imports.—The total value of merchandise increased by Rs. 12.60 lakhs to Rs. 76.78 lakhs. The following were the items which showed increases, the value and the amount of increase being noted against each:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Arms, etc.—		
Gelatine dynamite	1.13	1.13
Machinery—		
Mining	4.49	2.98
Rice and flour mill	1.05	1.01

Articles that showed decreases were as follows:—

	Value. Rs. lakhs.	Decrease. Rs. lakhs.
Sugar 23 D. S. and above	.06	1.07

(b) Exports.—The decrease in the export trade in Indian merchandise was Rs. 8.50 lakhs, i.e., from Rs. 138.45 lakhs to Rs. 129.95 lakhs, and the principal articles that contributed to the same were the following:—

	Value. Rs. lakhs.	Decrease. Rs. lakhs.
Grain, pulse and flour		
Rice not in the husk	59.92	21.38
Paraffin wax	8.80	6.72

Increases were, however, noticed in the following articles, the value and the amount of increase being noted against each—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Rice bran	6.65	2.70
Metals and ores—		
Copper-others (Mattee)	1.70	1.70
Wolfram ore	10.90	7.25
Zinc and spelter	2.70	1.45
Ground-nut cake	4.61	3.40
Rubber (raw)	1.65	1.43

COASTING TRADE.

The combined value of imports and exports was Rs. 367.86 lakhs as against Rs. 234.68 lakhs, showing an increase of Rs. 133.18 lakhs.

(a) Imports.—The total value of merchandise increased from Rs. 62.77 lakhs to Rs. 85.14 lakhs. The following were the principal articles which showed increases:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Coal	7.21	2.94
Fish, dry, unsalted	5.04	2.58
Wheat flour	4.20	2.26
Iron	1.80	1.58
Ground-nut seeds	1.75	1.75
Cotton piecegoods—		
White	4.89	2.05
Coloured	7.74	1.46
Jute gunny bags	7.05	1.84

A decrease of Rs. 1.14 lakhs was noticed against the item "Metals, etc.—Tin" as there were practically no imports of this article in August, 1934.

(b) Exports.—The total value of merchandise increased from Rs. 171.91 lakhs to Rs. 282.72 lakhs. The following were the principal articles which showed increases:—

	Value. Rs. lakhs.	Increase. Rs. lakhs.
Grain, pulse, etc.—		
Rice not in the husk	93.75	41.36
Matches	2.77	1.33
Oils—mineral—		
Petroleum, dangerous	64.86	47.26
Kerosene	73.26	12.64
Lubricating oils	12.42	9.35
Teak wood	14.20	3.42

PROGRESSIVE TOTALS.

The progressive total of imports and exports, foreign and coasting combined, for the five months ending August, 1934, amounted to Rs. 29,29.90 lakhs as against Rs. 27,02.27 lakhs during the same period in the previous year thus showing an increase of Rs. 2,27.63 lakhs.

The progressive total of foreign trade, both import and export, for the months of April, May, June, July and August, 1934, amounted to Rs. 10,18.08 lakhs as against Rs. 11,16.49 lakhs, thus showing a decrease of Rs. 98.41 lakhs, while that of the coasting trade, both import and export, increased by Rs. 3,26.04 lakhs to Rs. 19,11.81 lakhs.

Import Trade—Salt.—Foreign import of salt during the months of April to August, 1934, amounted to 433,704 mds. as against 312,256 mds. during the same period of last year; but the quantity which actually went into consumption decreased during the same period from 490,799 mds. to 374,283 mds. This decrease in consumption, it is understood, is partly counterbalanced by increased production of Burma salt.

EXPORTS OF SUGAR FROM JAVA DURING AUGUST, 1934.

(Supplied by the Sugar Technologist, Imperial Council of Agricultural Research, India.)

ACCORDING to the figures issued by the "Centraal Kantoor Voor de Statistiek", Weltevreden, the exports of different assortments of sugar from Java during the month of August, 1934, amounted to 107,312 metric tons as against 84,350 tons during the same month last year. The respective quantities of the different assortments shipped were as under.

Assortments.	August, 1934.	Total for 4 months May to August, 1934.
	Metric Tons.	Metric Tons.
Superior Head Sugar	57,816	214,945
Superior Soft Sugar	1,074	2,205
Head Sugar 16 D. S. and higher	30,435	104,455
Muscovadoes	8,579	22,198
Molasses Sugar	9,908	17,058
Centrifugalled Bag Sugar	..	..
TOTAL	107,312	360,866

Out of the above total shipments during the month of August, 1934, 15,431 metric tons went to destina-

tions West of Suez as against 13,804 tons during the month of August, 1933. British India took 24,239 metric tons during the month of August, 1934, as against 16,008 tons during the corresponding month of 1933. Hongkong and China between themselves took 31,921 metric tons during the month of August, 1934, as against 19,386 tons during the same month last year, while imports of Java sugar into Japan amounted to 15,637 metric tons during the month of August, 1934, as against 15,622 tons during the same month of 1933.

The table below gives the details of exports during the month of August, 1934, as compared with the corresponding month of 1933:—

Destinations.	August, 1934.	Total for 4 months May to Aug., 1934.	August, 1933.	Total for 4 months May to Aug., 1933.
	Metric Tons.	Metric Tons.	Metric Tons.	Metric Tons.

Elsewhere	..	..	5	5
TOTAL	107,312	360,866	84,350	388,578

The stocks of all grades of sugar in the different ports of Java on the 1st September, 1934, were estimated at 2,409,739 metric tons as against 2,093,100 tons and 2,883,006 tons on the same date during 1933 and 1932, respectively.

EXTRACT FROM LINSEED CIRCULAR NO. 41 OF 1934 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 12th October, 1934—

Quotations for Linseed and Linseed Oil—	£	s.	d.
Indian Linseed.—October-November delivery c.i.f. per ton	11	8	9
Argentine Linseed.—October-November delivery c.i.f. (excluding duty) per ton	10	7	6
Linseed Oil.—October-November delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton	18	17	6

Market Conditions.—On receipt of reports that the frosts have been detrimental to the Argentine crops Indian seed was sparingly offered. This together with the upward move in oil value caused prices to harden. Fair demand for La Plata old crop on the Continent.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 3rd October, 1934—

Quotations for Linseed Oil—	Rs.	1-12-0
Linseed Oil, European make (Raw)	per gallon f.a.s.	
Linseed Oil, European make (Boiled)	per gallon f.a.s.	

Market Conditions.—The linseed market has been steady with prices practically unchanged, small business being done daily.

Bombay, 6th October, 1934—

Quotations for Linseed Oil—	Rs.	3-4-0
Linseed Oil	per maund.	

BADAMPAHAR-JODA RAILWAY SURVEY.

—The Railway Board have sanctioned a Traffic survey being carried out by the agency of the Bengal-Nagpur Administration for a line of railway on the 5-ft. 6-in. gauge from Badampahar to Joda, a distance of about 71 miles. The survey will be known as the Badampahar-Joda Railway survey.

PROTOCOL TO THE CONVENTION REGARDING THE COMMERCIAL RELATIONS BETWEEN INDIA AND JAPAN.

SHIPMENTS OF RAW COTTON FROM INDIA TO JAPAN AND OF COTTON PIECE-GOODS FROM JAPAN TO INDIA.

THE following statement showing the progress of shipments of raw cotton to Japan and of cotton piece-goods from Japan in accordance with the terms of the Protocol to the Convention regarding the commercial relations between India and Japan is published for general information:—

	Bales of 392 lbs.
(1) Exports of raw cotton from India to Japan from 1st January, 1934, to 31st August, 1934	*1,715,325
* NOTE.—This figure has not been adjusted for re-exports of raw cotton from Japan for the period 1st July to 31st August.	

(2) Permissible exports from Japan of cotton piece-goods—	Yards.
(a) Allotment for the period 8th January to 31st March, 1934	77,997,260
(b) Allotment for the period 1st April to 30th September, 1934	200,000,000
TOTAL	277,997,260

(3) Permissible exports from Japan of cotton piece-goods by categories (see Art. 7 of the Protocol)—	
(a) Without transfer between categories—	
Plain greys	125,098,767
Bordered greys	36,139,644
Bleached (white) goods	22,239,781
Coloured (printed, dyed or woven) goods	94,519,068
TOTAL	277,997,260
(b) Maximum permissible exports under each category if transfers are effected under Art. 7 (2)—	
Plain greys	137,608,644
Bordered greys	43,367,573
Bleached (white) goods	26,687,737
Coloured (printed, dyed or woven) goods	103,970,975

NOTE.—Any increase of one sub-allotment must be made at the expense of other sub-allotments. It is not permissible to increase the total allotment.

(4) Gross imports into India of cotton piece-goods from Japan from 8th January to 30th September which count against the allotment for that period—	Yards.
Plain greys	91,373,929
Bordered greys	21,756,125
Bleached (white) goods	26,028,200
Coloured (printed, dyed or woven) goods	89,213,687
TOTAL	228,371,941

Oct. 25, 1934.]

THE INDIAN TRADE JOURNAL.

393

(5) Re-exports of cotton piece-goods from India which under Art. 3 of the Protocol are excluded from the allotment—

	Yards.
Plain greys	13,643,923
Bordered greys	166,000
Bleached (white) goods	9,034,101
Coloured (printed, dyed or woven) goods	12,118,601
TOTAL	34,962,625

(6) Net imports, that is to say, imports less re-exports, into India of cotton piece-goods from Japan from 8th January to 30th September which count against the allotment for that period—

	Yards.
Plain greys	77,730,006
Bordered greys	21,590,125
Bleached (white) goods	16,994,099
Coloured (printed, dyed or woven) goods	77,095,086
TOTAL	193,409,316

NOTE 1.—Statements (4) and (6) do not include figures of imports for ports in Indian maritime States except Alleppey (for the months of March to June) and Bhavnagar (for the months of June to September).

Statement (5) does not include figures of re-exports for any of the ports in Indian maritime States.

NOTE 2.—These statements show apparently considerable divergence from the Monthly Accounts of the Sea-borne Trade of India. It is, however, to be remembered that the first controlled shipments did not leave Japan before January 8th, 1934, and did not, therefore, start to arrive in India until February at earliest.

BOOKS OF REFERENCE.

THE following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta:—

INDIA'S FOREIGN SEA-BORNE TRADE IN SEPTEMBER, 1934.

—The total imports of private merchandise in September, 1934, amounted to Rs. 10.54 lakhs, and total exports, including re-exports, to Rs. 12.07 lakhs. Net exports of private treasure during the month of report were Rs. 96 lakhs and the total visible balance of trade in merchandise and treasure was Rs. 2.54 lakhs in favour of India. Balance of remittances of funds was minus Rs. 5.11 lakhs.

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

AMENDMENT IN MATCHES (EXCISE DUTY) ORDER, 1934.

The following Notification (No. 31-Central Excises, dated the 20th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by sections 17 and 18 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Matches (Excise Duty) Order, 1934, namely:—

In rule 35 of the said Order after the words "any provision of", the words "the Act or of", shall be inserted.

PROHIBITION OF IMPORT OF MATCHES IN BOXES OR BOOKLETS NOT BEARING A BANDEROL AS PRESCRIBED IN CHAPTER VII OF THE MATCHES (EXCISE DUTY) ORDER, 1934.

The following Notification (No. 72-Customs, dated the 20th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to prohibit the bringing into British India by sea or by land of matches in boxes or booklets not bearing a banderol of the nature and affixed in the manner prescribed in Chapter VII of the Matches (Excise Duty) Order, 1934.

EXEMPTIONS FROM CUSTOMS IMPORT DUTIES—AMENDMENT: ARTICLES OF OFFICE EQUIPMENT IMPORTED FOR USE IN THE OFFICES OF H. M. TRADE COMMISSIONERS AND OF THE CANADIAN GOVERNMENT TRADE COMMISSIONER IN INDIA.

The following Notification (No. 73-Customs, dated the 20th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India in the Finance Department (Central Revenues), No. 14-Customs, dated the 9th April, 1932 (*vide* the

Indian Trade Journal, dated the 14th April, 1932, pages 72-79), namely:—

In the said notification, in Schedule 1- Import duties, for the entry in column 2 relating to Serial No. 32, the following entry shall be substituted, namely:—

"Articles of office equipment imported for use in the offices of His Majesty's Trade Commissioners and of the Canadian Government Trade Commissioner in India."

TARIFF BOARD ENQUIRY REGARDING THE GRANT OF PROTECTION TO THE WOOLLEN INDUSTRY.

The following is a Resolution [No. 9-T. (2)/34, dated the 20th October, 1934] of the Government of India in the Department of Commerce:—

The Government of India have received representations from certain woollen mills in India requesting that protection may be extended to the woollen industry. In pursuance of paragraph 3 of the Resolution of the Government of India, Department of Commerce, No. 3748, dated the 10th July, 1923, the Government of India have decided that the claims of the industry should be the subject of an enquiry by the Tariff Board.

2. In making its enquiry the Tariff Board will be guided by the principles laid down in the Resolution adopted by the Legislative Assembly on February 16th, 1923, and will consider—

(a) whether the conditions laid down in paragraph 97 of the Report of the Indian Fiscal Commission are satisfied in the case of the woollen textile industry in India; and

(b) in what form, to what extent and in respect of what articles or class or description of articles protection should be given.

3. The Board will also take into account other relevant considerations including those stated in parts (b) and (c) of the Resolution adopted by the Legislative Assembly on the 16th February, 1923, and, further, will consider how its recommendations, if any, will affect industries using woollen yarn or any other article made of wool.

4. Firms or persons interested who desire that their views should be considered by the Tariff Board should address their representations to the Secretary to the Board, Town Hall, Bombay.

UNITED KINGDOM.

IMPORT DUTIES ACT, 1932: IMPORT DUTIES (EXEMPTIONS) (No. 11) ORDER, 1934: ANIMAL IVORY.

The following is republished from the *Board of Trade Journal*, dated the 27th September, 1934:—

1. By virtue of their powers under Section 1 of the Import Duties Act, 1932, the Treasury have directed

by the above Order that the following class and description of goods shall be added to the First Schedule to the Import Duties Act, 1932, as from September 21, 1934:—

Animal ivory, raw, whether whole tusks or sections of tusks, not cut to shape or in any way prepared, treated or worked.

2. The Order applies to goods of the class and description set out above which are entered with the Customs on or after September 21, 1934, or which have not been removed from a bonded warehouse before that date.

3. The Order involves an amendment to Part 3 (Exemptions) of the Customs and Excise Tariff at page 12.

Custom House, BY ORDER OF THE COMMISSIONERS
London, E.C. 3. OF CUSTOMS AND EXCISE.
September, 1934.

CANADA.

CUSTOMS TARIFF ITEMS ESTABLISHED BY ORDER-IN-COUNCIL: BEESWAX, ETC.

The *Board of Trade Journal* has received cabled advice from H. M. Trade Commissioner, Toronto, to the effect that the following item (among others) has been added to the Canadian Customs Tariff by Order-in-Council, with effect from September 24 last:—

Tariff No. and Article.	Duties.		
	British Preferential Tariff.	Intermediate Tariff.	General Tariff.
817. Beeswax, not bleached, when for use in Canadian manufactures of valorem	Free	20%	20%

[N.B.—The above information, having been received by telegraph, is subject to confirmation.]

DENMARK.

IMPORT RESTRICTION ON RICE.

The following is republished from the *Board of Trade Journal*, dated the 27th September, 1934:—

The Commercial Secretary to H. M. Legation at Copenhagen reports that by virtue of a Decree issued under Law No. 360 of December 13, 1933, as from September 1, 1934, the importation into Denmark of rice, unhusked and husked, is subject to import licence requirement.

HUNGARY.

IMPORT RESTRICTIONS.

The *Board of Trade Journal* states that by virtue of Decree No. 5901 M.E. of June 30, 1934, the

following (among others) are added to the list of goods the importation of which into Hungary is subject to import licence requirement. This Decree came into force on July 1, 1934.

Tariff No. Goods.

54 Raw rice, wholly or partly husked.
146 Prepared rice for rice husking mills to be polished, subject to special permit and under control.
(Note 3)

TARIFF ALTERATIONS.

The same Decree provides for the following alterations (among others) in the autonomous rates of duty in the Customs Tariff:—

Tariff No. and Classification.	Import Duty in Gold Kronen per 100 kilograms.	
	Former.	New.
146 Rice, husked, polished, broken rice, rice semolina and rice flour	12	13-20
Note 3 Rice for rice husking mills, to be polished, subject to special permit and under control	4-50	5-50

ITALY.

INCREASED MANUFACTURING TAX ON SEED OILS.

The "Gazzetta Ufficiale" (Rome) of September 22 contains a Royal Decree-Law dated September 20, in force on publication, which increases the manufacturing tax and the corresponding import surtax on seed oils from 65 to 120 lire per 100 kilograms. The Decree further gives power to the Minister of Finance, up to December 31, 1935, to vary the rate of this tax in accordance with the needs of the market and the price of olive oil.

PALESTINE.

MODIFICATION OF CUSTOMS DUTY ON BARLEY.

The Customs Tariff (Amendment) Ordinance (No. 5) No. 27 of 1934, dated August 23, provides that the Customs duty on barley imported into Palestine shall be 3 mils per kilogram. Formerly the duty was 2 mils per kilogram.

MISCELLANEOUS.

Details of changes in Customs Regulations, etc., are published regularly in the *Board of Trade Journal*. The particulars are too lengthy for publication here, but the headings of the items and the date on which they appeared in the Journal are given for purposes of reference:—

4th October, 1934.

BRITISH EMPIRE—

UNITED KINGDOM.—List of Goods Prohibited to be Exported Except under Board of Trade or Home

Office Licence: October 1, 1934. List of Goods Prohibited to be Imported Except under Board of Trade or Home Office Licence: October 1, 1934.—(I) Open General Licence for the Export of Aircraft, Aircraft Engines, Bayonets, Swords and Lances. (II) Open General Licence for the Export of Smooth-Bore Shotguns, Munitions for use therewith and Certain Industrial Explosives. (III) Open General Licences for the Import and Export of Firearms, etc., by Holders of Firearm Certificates. (IV) Open General Licence for the Import of Smooth-Bore Shotguns, Air Guns, Air Rifles and Ammunition therefor.

CANADA.—Value for Duty of Hoods, Shapes, Bodies and Capelines. Customs Tariff Items Established by Order-in-Council.

CYPRUS.—Exemption from Customs Duty of Certain Borax.

IRISH FREE STATE.—Temporary Importation of Motor Vehicles.

NIGERIA.—Requirements as to Invoices and Certificates of Origin.

PALESTINE.—Modifications of Customs Duties on Paper and Silk, etc., Goods. Landing of Certain Goods at Jaffa Prohibited. Modification of Customs Duty on Barley.

STRAITS SETTLEMENTS.—Foreign Textile Quotas.

FOREIGN—

BELGIUM.—Certificates of Origin Requirements.

FINLAND.—Importation of Apples Temporarily Prohibited.

FRANCE.—Renewal of Import Quotas: Fish. Renewal of Import Quota: Coffee. Renewals of Import Quotas: Industrial Products.

FRENCH WEST AFRICA.—Renewal of Quotas for Certain Textiles.

GERMANY.—Customs Duty on Hops (Agreement with Czechoslovakia). Customs Tariff Modifications.

HUNGARY.—Tariff Modifications. "Concessional" Duties Abolished. "Concessional" Duties Amended. Increased Customs Duties (Additional Agreement with France). Import Restrictions. Tariff Alterations.

ITALY.—Manufacturing Tax on Butter Substitutes. Increased Manufacturing Tax on Seed Oils.

NETHERLANDS EAST INDIES.—Import of Domestic Earthenware and Porcelain: Restriction Suspended.

POLAND.—Regulations Governing the Manufacture and Marketing of Cosmetic Preparations. Temporary Reduction of Duty on Certain Apricot Kernels.

ROUMANIA.—Increased Quota Taxes and Extension of Quota System.

SPAIN.—Codfish Import Quota.

SYRIA.—Duty on Fatty Acids.

UNITED STATES OF AMERICA.—Notice of Investigation and Hearing under National Industrial Recovery Act. Marketing of Country of Origin.

YUGOSLAVIA.—Reciprocal Agreement with the United Kingdom Abolishing the Customs Duty on Tourist Propaganda Literature.

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 6th and the 11th October, 1934:—21239. Dr. R. J. Guzdar.—Improved U-shaped spring buffer for the drivers, pickers or the like of looms. 21240. T. O. D. Jansen.—Improvements in buckets and similar vessels. 21241. C. Skelton.—Improved portable track for guide rail road transport. 21242. S. P. Nair.—Improvements in self-locking hasps integral with and intended for securing together the component vertical and horizontal sections of disjoinable steel furniture for example bedsteads. 21243. A. B. Taylor.—Means for fastening the metal bands that are used for securing bales of jute, wool and the like. 21244. B. Barmé, and F. Barmé.—Improvements in reflecting lenses. 21245. A. E. Gull.—Improvements in or relating to torque convertors. (October 10, 1933). 21246. A. Zachariassen and M. E. Petersen.—Process and apparatus for measuring or delivering liquid or gases. 21247. D. Gabor and Universag Technische A. G.—Improvements in and relating to electric lamps. 21248. U. N. Singha.—Improvements in casting rice bowls. 21249. Nofrango Ltd.—Improvements in and relating to the building and constructing of canals, channels, dykes, ditches, tanks, ponds, reservoirs. (October 25, 1933). 21250. The General Electric Co. Ltd.—Improvements in luminous electric discharge tubes. (September 5, 1934). 21251. Electric and Musical Industries Ltd.—Improvements in sound records. (October 26, 1933). 21252. Neptunia A. G.—Improvements in or relating to a method for producing a concentrate of chrome-ores. (August 1, 1934). 21253. H. Lindars.—Improvements relating to cylinder castings. 21254. G. Smith and C. Smith.—A machine for dusting sheet materials. 21255. E. Lawrence.—Method of and means for supplying cool air or the like to beds, cubicles and the like. 21256. H. K. Chakravorty.—An improved type of metal sheet perforating machine. 21257. Society of Chemical Industry in Basle.—Manufacture of polynuclear cyclic Ketones. 21258. P. Bery.—An improved sheller or husking machine for grains. 21259. P. R. Dhanji.—Improved means for fitting a cover in a box, almirah, show case or the like. 21260. R. H. Turnbull.—Improvements in or relating to cleansing or cleansing and disinfecting compounds. 21261. R. H. Turnbull.—Improvements in or relating to compounds for treating water in boilers and the like.

WEATHER AND CROP REPORTS.

BENGAL.

17th October.

Except for heavy showers in parts of north and east Bengal the rainfall was generally light to moderate. It has materially helped the development of late transplanted winter paddy. Harvesting of jute still continues. Field operations for early spring crops are in progress.

ASSAM.

22nd October.

During the week the weather was generally seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

16th October.

During the week under report rain fell in Patna, Monghyr, Purnea, Santal Parganas, the district of Orissa division, Ranchi, Palamau, Manbhum and Singhbhum. There was no rain in the rest of the province. The fall was moderate in Cuttack and light elsewhere. The condition of standing crops including sugarcane is generally good. Harvesting of *bhadoi* crops is going on in some districts. Weeding of *saradh* paddy is going on in Balasore, Puri and Sambalpur. Ploughing of fields for sowing of *rabi* crops continues. More rain is needed for paddy in parts of Bhagalpur.

BOMBAY.

20th October.

During the week the rainfall was fairly good in west Karnatak and Konkan, except in Ratnagiri where it was scanty; light to fair in Broach and Panch Mahals in Gujarat and south Deccan; and practically absent elsewhere. The condition of the crops is fairly good except in places in east Karnatak where they are suffering for want of rain. Harvesting of *kharif* crops continues generally and *rabi* sowings are in progress in parts of the Deccan and Karnatak.

Sind.—During the week there was no rain. Harvesting of early rice is in progress. Picking of cotton continues. Other *kharif* crops are progressing satisfactorily.

CENTRAL PROVINCES.

13th October.

During the week the weather continued to be clear with occasional passing clouds and bright sunshine. The crops affected by excessive moisture are reported to be improving except that *juar* on low lying and heavy soils in Saugor and Nagpur may

not recover sufficiently to give a satisfactory outturn. The condition of standing *kharif* crops is otherwise satisfactory. Harvesting of early rice, minor millets and groundnut continues. Weeding, intercultural operations and preparation of land for *rabi* sowings are in full swing. Sowing of linseed, gram and minor *rabi* crops has commenced.

MADRAS.

13th October.

During the week there was fairly good rainfall in most parts of the Presidency. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts and the West Coast and sowing of dry crops in parts of the Circars. The condition of standing crops is generally fair except in parts of Bellary and Anantapur where they have been adversely affected for want of rain.

PUNJAB.

15th October.

Except for slight rain in parts of Kangra and Hoshiarpur the weather remained dry during the week. Rain is badly wanted. The condition of standing crops is generally average to good on irrigated and below average to average on unirrigated areas. Sugarcane continues to be damaged by "top-borer" in parts of Rohtak and Shahpur and by "Pyralid-borer" in parts of Gurdaspur. Measures for the destruction of sugarcane pests are being continued in these districts. Damage to standing crops by insects is reported from parts of Dera Ghazi Khan and to rice from parts of Gujranwala and Muzaffargarh and action for their destruction is being taken in Dera Ghazi Khan. Cotton is reported to have been affected by *tela* and root rot disease in parts of Shahpur and by winds and boll worm in parts of Lyallpur.

UNITED PROVINCES.

13th October.

During the week there was no rain. It is needed at some places. Preparation of land for *rabi*, sowing of *rabi* and harvesting of *kharif* continue. Picking of cotton has commenced at most places. Standing crops are doing well. Prospects are so far favourable.

GENERAL WEATHER SUMMARY.

During the week ended Tuesday last local rainfall occurred in Burma, Assam, Malabar and south-east Madras on several days. A few falls occurred elsewhere. In the middle of the week the north-east monsoon was setting in in the south of the Bay of Bengal.

CROP FORECASTS.

(ALL-INDIA)

FIRST RICE FORECAST, 1934-35.

This forecast is based on reports furnished by the undermentioned provinces and States which comprise 96 per cent of the total rice area in India. The reports deal with autumn and winter rice. Information regarding the summer crop will be included in the Final General Memorandum which will, as usual, issue in February next.

The total area sown is reported to be 75,261,000 acres, as against 75,080,000 acres, the corresponding estimate (revised) of last year, or an increase of 181,000 acres only.

Weather conditions have not been quite favourable, but the present condition of the crop appears to be generally good.

The detailed figures for the provinces and States are as follows:—

First Forecast, October.

Provinces and States	1934-35	1932-34	Increase (+) or Decrease (—)
	(1,000 acres)	(1,000 acres)	(1,000 acres)
Bengal (a)	20,161	21,154	—993
Bihar and Orissa (a)	18,478	18,124	+354
Burma	12,614	(d) 12,745	—131
Madras	7,244	7,479	—235
United Provinces (b)	6,132	5,656	+476
Central Provinces and Berar (b)	6,835	(d) 6,514	+321
Assam (a)	4,472	4,325	+147
Bombay (c)	3,304	(d) 3,152	+152
Hyderabad	780	765	+15
Baroda	221	153	+68
Bhopal (Central India)	20	23	—3
TOTAL	75,261	(d) 75,080	+181

(a) Including autumn and winter rice.

(b) Including Indian States.

(c) Including Sind and Indian States.

(d) Revised.

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of the area under rice cultivated in that tract to the total area under rice in India based on the figures for the five years ending 1932-33.

Bengal (24·8 per cent).—(i) The area sown with autumn (au) rice is estimated at 5,563,000 acres, as against 5,770,000 acres at this time last year. The rainfall in February, though defective, was sufficient for the preparatory tillage, but subsequently field operations were hampered by prolonged drought. From early April, seasonable showers fell in east and north Bengal and facilitated sowings a good deal; but in some west Bengal districts there was insufficient rainfall at sowing time with the result that less area was sown. Heavy rainfall in June caused water-logging of fields and damaged the crop in some east Bengal districts, notably in Dacca, Mymensingh, Tipperah and Noakhali. As a result of weak monsoon the crop has been affected more

or less in some west and north Bengal districts; elsewhere a fairly satisfactory crop is expected. The average outturn of the crop for the province, according to the District Officers' estimates, works out at 72 per cent of the normal, as against 85 per cent at this time last year.

(ii) The area under winter (aman) rice is estimated at 14,598,000 acres, as compared with 15,384,000 acres reported at this time last year, or a decrease of 5 per cent. The weather at the outset was practically dry and preparatory tillage for broadcast paddy progressed slowly. But with seasonable showers in early April sowings were carried on satisfactorily. Occasional showers in May and June were favourable for preparation of lands for transplanted winter paddy and sowings in seed-beds and for growth of the germinated deep-water paddy. Heavy rain in June and the sudden rise of rivers affected the crop in some important districts of east Bengal. Rainfall in July helped transplantation in low-land tracts, but in high lands the progress of the operation was slow owing to insufficient rain. The deficient rainfall in August delayed transplantation in west and parts of north Bengal; elsewhere, the operation was normally active. Good rainfall in the middle of September further facilitated late transplantation. As a result of weak monsoon this year the area has decreased considerably and the outturn of the crop is also likely to be affected in the high-land tracts. The average outturn of the crop for the province, according to the District Officers' estimates, works out at 78 per cent of the normal, as against 84 per cent at the corresponding time last year.

Bihar and Orissa (16·3 per cent).—(i) The area under autumn rice is estimated at 3,495,000 acres, as against 3,364,000 acres reported at this time last year. Weather conditions are reported to have been not very favourable in Saran, Bhagalpur, Purnea and Angul, and the condition of the crop is reported to be fair to good except in Saran and Monghyr where it is poor. The crop is also reported to have been slightly damaged in the flood-affected areas of Champaran and Muzaffarpur. According to the district returns, the average outturn of the crop for the province is expected to be 86 per cent of the normal.

(ii) The area under winter rice is estimated at 9,983,000 acres, as against 9,760,000 acres reported in the corresponding forecast of last year, or an increase of 2 per cent due to favourable weather conditions at sowing time. Weather conditions have been favourable in all the districts except in Saran, Monghyr, Bhagalpur, Balasore, Manbhum and Singbhum; and the condition of the crop is reported to be fair to good except in Saran, Monghyr,

and in parts of Angul where it is poor. In parts of Patna, Champaran and Purnea districts also the crop has been slightly damaged by floods. The average outturn of the crop for the province, according to the District Officers' estimates, works out at 86 per cent of the normal, against a ten years' average of 90 per cent. This means that the condition of this year's crop is now estimated at 96 per cent of the past ten years' average.

Burma (14·9 per cent).—The area sown is estimated at 12,614,000 acres, as against 12,745,000 acres, the corresponding estimate (revised) of last year. The decrease occurs mainly in Upper Burma and is due to the late commencement of the rains. The monsoon broke late and agricultural operations were slightly retarded. The condition of the standing crop is good, and a good harvest is anticipated for the province as a whole, if the October rains prove favourable.

Madras (13·3 per cent).—The area sown up to the end of September is estimated at 7,244,000 acres, as compared with 7,479,000 acres reported at this time last year. The decrease is attributed to the late and insufficient rains during the south-west monsoon period. The first crop is being harvested in parts of Coimbatore, the South and on the West Coast. The outturn is reported to be generally normal except in Tinnevely where the yield has been much reduced for want of sufficient water in the channels. The condition of the standing crop is satisfactory except in parts of East and West Godavari where the crop was damaged by floods and in parts of Bellary, Nellore and Salem where it was affected by drought to some extent.

United Provinces (8·1 per cent).—The area sown is estimated at 6,132,000 acres (52,000 acres being in the Rampur State), as against 5,656,000 acres, the corresponding estimate of last year, or an increase of 8 per cent. The rainfall in June was sufficient for the requirement of the crop and sowings generally commenced in the last week of the month. There was general rain in July but it was unevenly distributed. General and widespread rain was received in August throughout the province and proved beneficial to the crop. The rainfall in September was defective in the Meerut and Agra divisions and a few other districts; elsewhere it was above the average. The crop is reported to have been damaged to some extent by heavy rains and floods in some districts especially in the low lands in the Gorakhpur and Bahraich districts. The outturn for the province as a whole is estimated at 87 per cent of the normal.

Central Provinces and Berar (7·6 per cent).—The area sown is estimated at 6,835,000 acres (1,138,000 acres being in eleven Feudatory States), as compared with 6,514,000 acres (revised) reported at this time last year. The regular monsoon set in by the third week of June; and its current was very strong towards the end of the month. Moderate

to heavy showers fell all over the province till about the middle of July when there was a break for about a week. The rainfall was general and heavy during the greater part of August and a break set in towards the end of the month. The weather in September was seasonable in the chief rice-growing districts. Sowings were made under favourable conditions and germination was successful everywhere except in parts of Balaghat where some re-sowing was necessary on account of the damage by excessive rain. The condition of the crop is reported to be good and prospects are hopeful.

Assam (5·5 per cent).—(i) The area under autumn rice is estimated at 882,000 acres, as against 826,000 acres, the corresponding estimate of last year, or an increase of 7 per cent due partly to favourable weather at sowing time and partly to extension of cultivation. At the beginning of the season, the weather was quite favourable, but subsequently continuous heavy rains in almost all the districts hampered the growth of the crop to some extent. Floods and insects also have caused some damage to the crop in places. The average outturn for the province is estimated at 72 per cent of the normal, as against 83 per cent at this time last year.

(ii) The area under winter rice is estimated at 3,590,000 acres, as against 3,499,000 acres reported in the corresponding forecast of last year. The weather was generally favourable at sowing time for the broadcast crop which was afterwards seriously damaged in low lands by floods in June and July. Subsequently the weather improved and has been favourable for the transplanted crop. The present prospects are good for the transplanted crop and fair for the standing broadcast crop. The average outturn for the province as a whole is estimated at 81 per cent of the normal, as compared with 82 per cent at this time last year.

Bombay (4·2 per cent).—The information is incomplete. The area sown in the Presidency proper (including Indian States) so far reported, is 2,310,000 acres (457,000 acres being in the Indian States), as against 2,089,000 acres reported at this time last year, or an increase of 11 per cent. The increase is due partly to good sowing rain and partly to the receipt of more complete information from Gujarat States this year. In Konkan, the season has so far been favourable and the crop is progressing satisfactorily. In Gujarat, the crop is also progressing well except in the eastern parts of the division; early sown varieties are in grain formation stage and transplanted rice also is in a good condition. In the eastern parts of the division, the condition of the crop is not, however, so good owing to defective rainfall. In the north Deccan, the crop was sown late owing to late rain but it is now doing well; in the south Deccan, the crop, however, suffered to some extent in places on account of deficient rains. In the Karnatak, the crop in the western part is now thriving fairly well, but it is badly in need of rain for further development; while in the eastern

part of the division, the crop is reported to be suffering from insufficient moisture.

In Sind, the area is estimated at 994,000 acres (7,000 acres being in the Khairpur State), as against 1,063,000 acres (revised) at the corresponding time of last year. The decrease is attributed partly to insufficient water supply in the early part of the season and partly to restriction put on the non-established rice cultivation since the introduction of the Barrage Canal System. The condition of the crop so far is fairly good. The crop is reported to have been attacked with "Ruro" disease in the Lower Sind rice areas.

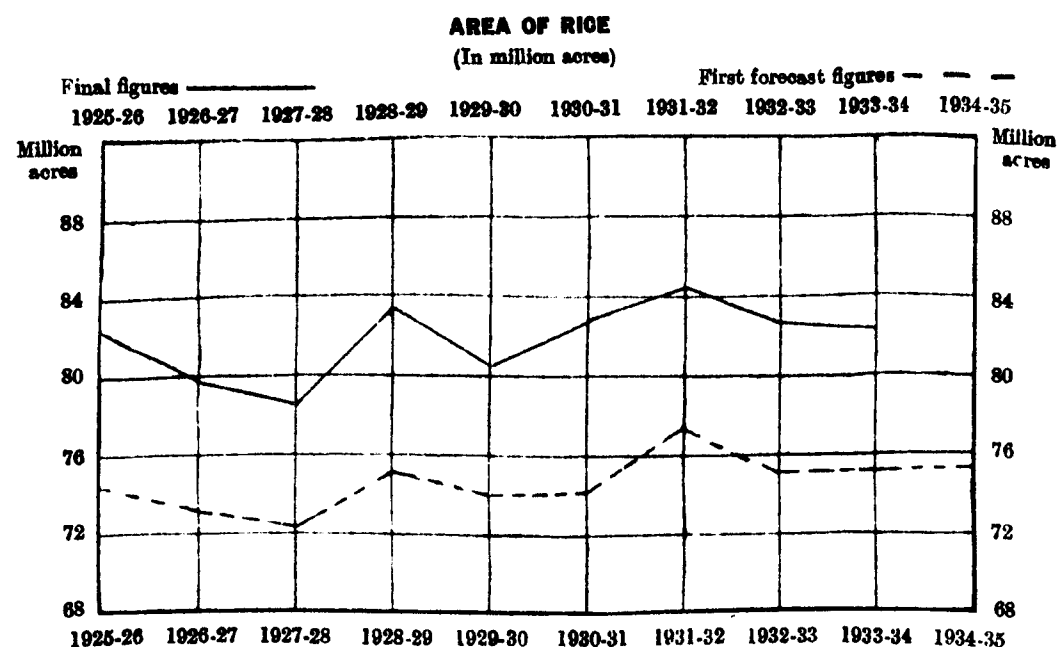

The total area in Bombay and Sind including Indian States is thus estimated at 3,304,000 acres (464,000 acres being in the Indian States), as against 3,152,000 acres (revised) at the corresponding time last year.

Hyderabad (1 per cent).—The area sown with the early crop is estimated at 780,000 acres, as against 755,000 acres in the corresponding period of last year. The increase is attributed to favourable seasonal conditions. The crop is reported to be faring well except in parts of four districts where it has been affected slightly by disease and insect pest. Weeding and transplanting operations are in progress.

Baroda (0.3 per cent).—The area so far reported is estimated at 221,000 acres, as against 153,000 acres, the corresponding estimate of last year.

Bhopal.—The area sown is estimated at 20,000 acres, as against 23,000 acres in the corresponding forecast of last year. The outturn of the crop is expected to be normal.

Chart.—The chart below illustrates the variations in the preliminary estimates of area, as compared with the final figures of the preceding nine years.

Rice Crop in Foreign Countries.—From information specially obtained, it appears that the official estimates of the first rice crop of Formosa for 1934 place the area and yield at 713,000 acres and 22,398,000 bushels (or 633,000 tons), showing a slight increase in area and about 15 per cent in yield, as compared with the corresponding estimates of 1933. The production of the rice crop of Japan for 1934 is estimated at 57,027,000 koku (or 7,998,000 tons) which is 19.5 per cent less than the actual crop of 1933. The area planted in Siam at the end of January, 1934 amounted to 20.25 million rai (or 8.1 million acres), as against 19 million rai (or 7.6 million acres) at the same time last year. The total outturn was estimated at 83.4 million piculs of paddy (or about 5 million tons), as compared with 81.2 million piculs (or 4.8 million tons), the corresponding estimate of last year. The exportable surplus is

calculated at 39.3 million piculs of paddy (or 2.3 million tons) or 1.7 million tons of rice and rice products.

From the latest available bulletin published by the International Institute of Agriculture, Rome, it appears that the production of the 1934 crop of the United States of America is estimated at 703,000 tons, showing a decrease of 2 per cent as compared with the 1933 crop. In Italy, the area sown for 1934-35 is 304,000 acres, as against 324,000 acres in 1933-34. The condition of the crop is satisfactory and is expected to give a good outturn. In Indo-China, the total production of the rough rice for 1933-34 is estimated at about 6 million tons, as against 5.8 million tons in 1932-33. The crops of the first half of the 1934-35 season have suffered from drought, particularly in Tonkin, and, to a less extent, in Annam.

SECOND SUGARCANE FORECAST, 1934-35.

THIS forecast is based on reports received from provinces and States which contain, on an average, 95 per cent of the total area under sugarcane in India.

The area, so far reported, this year comes to 3,444,000 acres, as against 3,349,000 acres at this time last year, or an increase of 3 per cent.

Weather conditions have been generally favourable, and the present condition of the crop is, on the whole, reported to be good.

The detailed figures for the provinces and States are as follows:—

Second Forecast, October.

Provinces and States	1934-35 (1,000 acres)	1933-34 (1,000 acres)	Increase (+) or Decrease (—) (1,000 acres)
United Provinces (a)	1,836	1,791	+45

(a) Including Indian States.
(b) Including Sind and Indian States.

The provincial reports are summarised below. The figures in brackets following the name of each province and State indicate the average percentage of sugarcane area in that tract to the total area under sugarcane in India based on the figures for the five years ending 1932-33.

United Provinces (51.7 per cent).—The area was estimated in August last at 1,836,000 acres (including 26,000 acres for the Rampur State), as against 1,791,000 acres reported at the corresponding time last year. No change in the estimate has so far been reported. There was general and widespread rain in August throughout the province. The rainfall in September was below the normal in Meerut, Agra and Rohilkhand divisions and in a few other districts, while it was above the normal in the remaining part of the province. Floods have caused a slight damage to the crop in a number of districts. The probable outturn for the province as a whole is estimated at 85 per cent of the normal.

Punjab (14.7 per cent).—The estimated area up to the end of September is 476,000 acres, as against 510,000 acres reported at this time last year, or a decrease of 7 per cent. The rainfall in July and August proved beneficial to the standing crop, but it was deficient in September. "Top borer" is reported to have damaged the crop in parts of Rohtak, Gurgaon, Karnal and Shahpur and "pyralid borer" in parts of Gurdaspur. The condition figure for the crop is estimated at 93 per cent, as against a ten years' average of 89 per cent. This means that the condition of this year's crop is equal to 104.5 per cent of the past ten years' average.

Bihar and Orissa (9.7 per cent).—The area planted is estimated at 468,000 acres, as against 418,000 acres, the corresponding estimate of last year, or an increase of 12 per cent. The increase is attributed partly to favourable weather at sowing time and partly to the opening of several sugar factories in north and south Bihar. Weather conditions have been generally favourable, and the condition of the crop is reported to be fair to good. The condition figure for the crop is, according to the district returns, estimated at 88 per cent, against the past ten years' average of 95 per cent. This means that the yield of this year's crop is now expected to be 93 per cent of the last ten years' average.

Bengal (7.2 per cent).—The area is now reported to be 276,000 acres, as against 254,000 acres at the corresponding date of last year, or an increase

of 9 per cent. As reported in the August forecast, the weather was generally favourable both for planting and germination. Subsequent conditions also proved helpful to the growth of the crop except in parts of west Bengal where prolonged drought affected the outturn to some extent. The season has, on the whole, been a satisfactory one for the crop. The condition figure for the crop is estimated at 84 per cent of the normal, as against a ten years' average of 83.9 per cent. This means that the condition of this year's crop is practically equal to the average of the past ten years.

Madras (3.7 per cent).—The area planted up to 25th September is estimated at 115,000 acres, as compared with 113,000 acres at the corresponding period of last year. The condition of the crop is satisfactory except in Ganjam, Vizagapatam, Bellary, Anantapur, Salem, Trichinopoly and Tanjore. The crop suffered from prolonged drought in the summer and subsequent heavy rains in Ganjam and Vizagapatam and from deficient rainfall in the other districts. It has also been affected by "smut" disease in parts of Trichinopoly. On the assumption that the season will be normal during the remaining portion of the growing period, the yield is expected to be 319,000 tons of raw sugar (*gur*), against 322,000 tons estimated at this time last year.

Bombay (3.3 per cent).—The area is estimated at 105,000 acres (of which 69,000 acres are reported for the British districts and 34,000 acres for the Indian States in the Bombay Presidency proper and 2,000 acres in Sind) showing an increase of 10 per cent over the corresponding area of last year. The increase is attributed to extension of cultivation of the crop on Deccan Canals by sugar factories. In Gujarat, the crop is progressing well generally. In places of Panch Mahals, however, the crop was somewhat affected by leaf-lice owing to continuous cloudy weather, but it is now reported to be improving. In the Deccan, the crop is generally doing well except in parts of canal areas where its growth was slightly checked by long break in rains. In the Karnatak, the crop suffered from deficient rains in September, though the irrigated variety is doing fairly well in places. In Konkan, the crop in the Kanara district is reported to be satisfactory. Taking the Presidency proper as a whole, the crop in its present condition is expected to yield between 75 per cent of the normal and a full normal. In Sind, the general condition of the crop is reported to be good and there has been no damage from any disease or insect pest.

North-West Frontier Province (1.6 per cent).—The area remains the same (47,000 acres) as

reported in the August forecast, which is 10 per cent below the corresponding estimate of last year. The condition of the standing crop is, on the whole, average; and the total outturn of raw sugar (*gur*) is now approximately estimated at 52,000 tons, as against 64,000 tons at this time last year.

Assam (1.1 per cent).—The area is estimated at 31,000 acres, practically the same as at the corresponding period of last year. After the issue of the first forecast in August last, the weather improved but subsequent heavy rain in almost all districts interfered with interculture and hindered the growth and damaged the crop to some extent. The present prospects of the crop, however, appear to be fair.

Central Provinces and Berar (0.8 per cent).—The area is estimated at 28,000 acres, as against 29,000 acres, the corresponding area of last year. Ample rain was received during August and September which proved beneficial to the crop. The condition of the crop is, on the whole, satisfactory. For the province as a whole, the yield is estimated at 112.5 per cent of the normal.

Delhi (0.1 per cent).—The area is estimated at 5,000 acres, as compared with 4,000 acres at this time last year. The general condition of the crop is good, but rain is wanted.

Hyderabad (0.9 per cent).—The total area under the crop is reported to be 50,000 acres, as against 46,000 acres at the corresponding period of last year. The increase is due to generally favourable seasonal conditions and to the opening of the Nizam Sagar project in the Nizamabad district, where the cultivation is steadily increasing. The crop is reported to be faring well.

Baroda (0.1 per cent).—The area is estimated at 2,000 acres, which is practically the same as at this time last year.

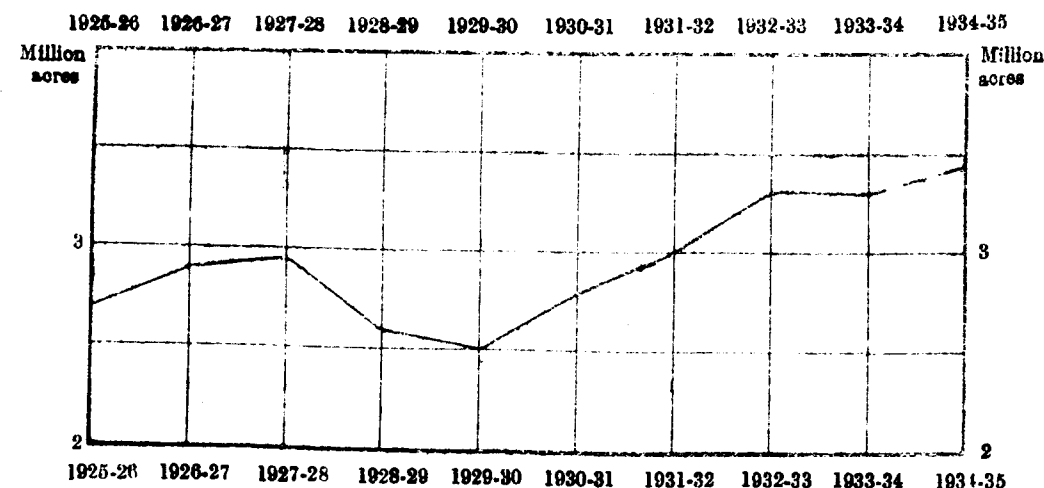

Bhopal* (0.1 per cent). The total area under the crop is estimated at 5,000 acres, as compared with 4,000 acres, the corresponding estimate of last year. Climatic conditions up to the end of August were quite favourable, but abnormally heavy rain in September damaged the crop to a certain extent. The yield is accordingly expected to be slightly below normal.

*In Central India.

Chart.—The chart below shows the variations in the preliminary estimate of area now made with the final figures of the preceding nine years.

AREA OF SUGARCANE

(in million acres)

NOTE.—Information relating to 'Sugar in Foreign Countries' will be published in the *Indian Trade Journal* of the 1st November, 1934.

SUMMARY OF CROP FORECASTS.

The following is a summary of crop forecasts relating to the season 1934-35:—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date pre-eding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date pre-eding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute— Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	Acres 2,497,000	99·2	Acres 2,517,000	7,964,000 bales (c)	99·4	8,012,000 bales (c)	Sept. 6, 1934.
Groundnut— First.	Madras, Bombay, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	2,049,000	91(d)	2,115,000	(b)	..	2,235,000 tons	Aug. 30, 1934.
Sesamum— First.	Burma, Madras, Bombay, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer Merwata, Hyderabad, Bhopal, Baroda, and Kotah (about 71 per cent of the total sesamum area of India).	2,520,000	93(d)	2,192,000	(b)	..	535,000 tons	Aug. 30, 1934.
Cotton— Second (a).	All cotton-growing tracts (refers mainly to early cotton).	20,365,000	103	23,739,000	(b)	..	4,970,000 bales	Oct. 25, 1934.
Sugarcane— Second.	United Provinces, Punjab, Bihar and Orissa, Bengal, Madras, Bombay, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal (95 per cent of the total sugarcane area of India).	2,444,000	103	2,305,000	(b)	..	5,067,000 tons	Oct. 25, 1934.
Rice— First.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces, Central Provinces and Berar, Assam, Bombay, Hyderabad, Baroda and Bhopal (96 per cent of the total rice area of India).	75,251,000	100·2	81,977,000	(b)	..	80,353,000 tons.	Oct. 25, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (a) Including Cochin
 Behar and Tripura States. (b) Not yet available (c) Includes figures for Nepal. (d) Excluding Hyderabad from which
 report has been received at this stage for the first time this year. (e) The detailed forecast will be published in the next issue of the *Indian
 Trade Journal*.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of pre-ceeding year (100 = figure of same date pre-ceeding year)	Final figure 1932-33	Estimated outturn	Per cent of pre-ceeding year (100 = figure of same date pre-ceeding year)	Final figure 1932-33	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	Acres 1,556,000	98	Acres 1,617,000	148,000 tons	97	151,000 tons	Feb. 22, 1934.
Rape and Mustard— Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay*, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar, Baroda and Hyderabad (about 96 per cent of the total rape and mustard area of India).	6,033,000	99	6,094,000	952,000 tons	91	1,046,000 tons	May 31, 1934.
Linseed— Final.	Central Provinces and Berar*, United Provinces, Bihar and Orissa, Bombay*, Bengal, Punjab, Hyderabad, Kotah and Bhopal; (about 94 per cent of the total linseed area of India).	3,257,000	99	3,299,000	377,000 tons	92(a)	406,000 tons(a)	May 31, 1934.
Wheat— Final.	Punjab*, United Provinces*, Central Provinces and Berar*, Bombay*, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	36,062,000	109	32,970,000	9,358,000 tons	99	9,449,000 tons	Aug. 18, 1934.

(a) Excluding Bhopal from which report has been received for the first time this year.

INDIAN STORES DEPARTMENT.

Appointment of a Head Draftsman for the Office of the Chief Controller of Stores, Indian Stores Department.

Wanted a Head Draftsman for the Office of the Chief Controller of Stores, Indian Stores Department. Applicants should be Statutory natives of India and of not less than 28 and not more than 40 years of age. They must have been regularly trained as Mechanical Engineers, should have had workshop experience preferably in a Locomotive or a Carriage and Wagon Workshop and must have held a responsible position for not less than 5 years in the Railway Rolling Stock Section of the Drawing Office of a Railway or a firm of Locomotive or Carriage and Wagon Builders of repute. The applicants must be fully conversant with the nomenclature and types of locomotive and carriage and wagon components. Experience in checking designs and layout of steel structures will be an advantage. The appointment will be on an officiating basis in the first instance, but there are prospects of its continuance and eventual confirmation. It carries a scale of Rs. 250-10-350 with the benefits of a Contributory Provident Fund on confirmation, but persons already in service, who are entitled to old scales of pay, will be placed on the scale of Rs. 300-20-400 a month.

Applications giving full particulars of age, general and engineering education and practical experience in the lines mentioned above should be addressed to the Chief Controller of Stores (and not by name to any officer of the Department). They must reach his office at New Delhi before the 1st November, 1934.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Sealing and Labelling of Samples.

Every sample forwarded by a firm to any office of the Indian Stores Department must be provided with a durable label securely attached to the sample and sealed thereto by means of sealing wax or a lead, tin, or other suitable seal. The sealing arrangement used should show a clear impression of the firm's seal or stamp.

Any sample received without a durable label securely attached and sealed thereto is liable to be ignored.

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from:—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Wittet Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsaroop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42"×28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Supply of Axles, Tyres, Wheels, etc., required for the G. I. P. Railway, E. B. and E. I. Railways at Bombay, Saidpur, Haliahahar, Kachrapara and Howrah General Stores, respectively.

The Chief Controller of Stores, Indian Stores Department (Engineering Section), invites tenders for the stores detailed in the statement below. Price of tender forms, etc., is Rs. 10 per set (not

refundable). Payment should be made in cash or by Money Order, quoting tender number N-3555 and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

Tenders will be received up to the 20th December, 1934, and opened on the 21st December, 1934.

N.B.—If any drawing referred to in this advertisement is required separately (i.e., not with tender forms) postage of two annas if sent unregistered and five annas if sent registered will be charged extra in addition to the cost of each drawing.

Tender No. N-3555.

Item No.	Description of Goods.	Number required.	No. of Drawing and Specification conforming to which supply is required.			Cost of each drawing which is not included in the cost of tender forms.	Name of Office from where the drawings are obtainable if required.

- (iii) Drawing Materials :—Brushes and colour box.
- (iv) Writing Materials :—Pen nibs, Erasers.
- (v) Miscellaneous articles :—Needles, Sail.
- (vi) Binding Materials :—Linen.
- (vii) Binding Materials :—Winterbottoms or similar.

POLICE SUPPLIES, BURMA.**Supply of Clothing, Accoutrements, Saddlery, Miscellaneous Stores, Hardware, etc., to the Burma Police.**

Sealed tenders for the supply of Clothing for the Burma Police, for the period from 1st April, 1935, to 31st March, 1936, are invited and will be received by the Superintendent of Police Supplies, Burma, Rangoon, up to noon on Wednesday, the 6th February, 1935, when they will be opened in the presence of any tenderers or their accredited agents who desire to be present.

Tenders which may be for any group or groups must be submitted in the prescribed forms and must be accompanied either by a *chalan* receipted at a Government Treasury or a Bank receipt for the earnest-money deposit in respect of each Schedule and no tender without it will be considered. Neither cash nor currency notes will be accepted and on no account should any money be enclosed with the tender. Earnest-money deposits will be refunded to unsuccessful tenderers as soon as possible after orders have been passed.

All particulars regarding the contract can be obtained on application to the Superintendent of Police Supplies, Burma, Rangoon. All supplies must be strictly in accordance with the sealed samples and specifications maintained in the office of the Superintendent of Police Supplies, Burma, Rangoon. Samples of articles can be seen at the Police Supply Depot, Rangoon, during office hours, except on holidays.

The successful tenderer or tenderers will be required to deposit a security deposit calculated at 10 per cent of the value of the contract in Treasury receipts or Bank receipts within a week of the receipt of the communication advising the acceptance of the tender and to sign an agreement with the least possible delay. The earnest-money of the successful tenderer will be forfeited if he does not sign the contract within a fortnight of the date of acceptance of his tender. The successful tenderer, if not a local resident, will be required to maintain an agency in Rangoon for the receipt and delivery of goods and to receive payments and grant receipts.

Any attempt on the part of a tenderer to enlist support for his tender from Government officials or persons of influence will entail the rejection of his tender.

A complete set of Schedules for tenders "A" to "D" is available on payment of Rs. 4, or separately at the following rates: "A" at Rs. 2, "B" at Rs. 2, "C" at Re. 1 and "D" at Re. 1.

The Superintendent of Police Supplies, Burma, Rangoon, does not bind himself to accept or recommend for acceptance the lowest or any tender or to assign reasons for the rejection of any tender.

BENGAL-NAGPUR RAILWAY.**Supply of Brushes, Wood Working Tools, etc.**

Tenders enclosed in sealed covers are invited for supply of the following for the period from the 1st April, 1935, to the 31st March, 1936:—

Tender "Group I"—

Brushes, such as Brushes carriage washing, Brushes banister, Brushes Paint and Varnish, etc., etc.

Wood Working Tools, such as Adzes, Augers, Braces, Chisels, Iron Spares, Saws, etc., etc.

Drills, Stocks, Taps and Dies and Files of sorts and sizes.

Miscellaneous Tools, such as Pick Axes, Beaters, Blades for Hack Saws, Braces Engineers, Double Ratchet, Brands Figures and Lettering, Emery Cloth, Glass Cloth, Hammers, Wooden Handles, Punches octagonal and round of sizes, Rakes Iron Ballast, Shovels, Spanners, Screw-drivers, Measuring Tapes, Grinding Wheels, Electrodes, etc., etc.

Tenders for the above must be submitted on the prescribed forms which are obtainable from the Office of the Controller of Stores, B.-N. Railway, Calcutta, during office hours. The cost of Tender Forms, viz., Rs. 3 per copy, should be paid to the Chief Auditor, B.-N. Railway, Kidderpore, Calcutta, and his Receipt presented to the Controller of Stores' office when applying for same. Tenders must reach the Controller of Stores' office by 12 o'clock noon on the 6th December, 1934. Refund of cost of tenders purchased but not used will not be granted.

No tender form will be issued per V.-P. P. nor will any quotation except on the Railway Company's authorised form be considered.

Money Order Coupons must contain the full address of the tenderer, otherwise Money Orders will not be accepted by the Chief Auditor, B.-N. Railway, Calcutta.

For accepted items costing over Rs. 5,000, particulars will be published in the *Magazine and Commercial and Technical Journal* issued by the B.-N. Railway and also in the *Indian Trade Journal*. Tenderers requiring any further information should apply to the Controller of Stores, B.-N. Railway, Kidderpore.

Specimen tender forms may be seen by intending tenderers at the Office of the Controller of Stores or at the B.-N. Railway Booking Office, Esplanade Mansions, during office hours.

BOMBAY, BARODA AND CENTRAL INDIA RAILWAY.**Supply of Lubricating Oils, etc.**

Tenders are invited for the supply of the following material and will be received by the Controller of Stores, Mahaluxmi, Bombay. Tender forms containing specifications and conditions of contract

are obtainable from the Office of the Controller of Stores, on remitting to him Rs. 5 in cash per copy in advance. Extra copies (not more than two), if required, will be issued at Re. 1 per copy. Cheques will not be accepted.

Tender for	Period of Contract.	Date of submitting Tender
Oils, Lubricating, Greases, Petrol and Turpentine (substitute).	Kerosene, 1st January, 1935, to 31st December, 1935.	10th November, 1934.

Any tender despatched or delivered wrongly to any official of the Railway Company other than the Controller of Stores will be at the risk of the tenderer. No tender form will be issued per V.-P. P. nor will any quotation except on the Railway Company's authorised form be considered. Money Order coupons must contain the full address of the tenderer and must state the nature of tender form required, otherwise Money Orders will not be accepted. Cost of the tender form purchased will on no account be refunded.

EASTERN BENGAL RAILWAY.**STORES DEPARTMENT.****Supply of Rail Anchors.**

Tenders are invited by the Agent, Eastern Bengal Railway, for the supply of one lac Rail Anchors on a one delivery contract basis.

Tenders will be opened at 3 p.m. (Calcutta Time) on the 22nd November, 1934.

EASTERN GROUP—SLEEPER CONTROL.**Supply of C. P. Teak Squares.**

Sealed tenders are invited and will be received by the Sleeper Control Officer, B. N. Railway House, Kidderpore, up to 3 p.m. on the 8th November, 1934, for the supply of 500 tons C. P. Teak Rough Hewn Squares.

Delivery must be made at the rate of 100 tons per mensem commencing from December, 1934.

Tender Forms detailing the specification and other particulars can be obtained from the Sleeper Control Officer, B. N. Railway House, Kidderpore, on payment of Rs. 5 which will not be returned.

Tenderers should deposit Rs. 100 as earnest money with the Chief Auditor, B. N. Railway.

The Sleeper Control Officer, B. N. Railway House, Kidderpore, does not bind himself to accept the

lowest or any tender or to assign any reason for non-acceptance of a tender and reserves the right to accept the whole or any part of a tender.

GREAT INDIAN PENINSULA RAILWAY.**Tender No. 1935-J for the Supply of Copper Plates and Phosphor Copper.**

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of above-mentioned materials.

The prescribed form of tender, with specification and special conditions on which tenders will be considered together with relative drawings, can be obtained from the Railway's Controller of Stores, at Parel, Bombay, on payment of Rs. 5-8 per set which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Copper Plates and Phosphor Copper".

Additional copies of tender form without drawings, may be obtained, if required, at Rs. 2 per copy.

A sum of Rs. 400 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money, before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be wholly in cash (on which no interest will be allowed) and the Secretary of State reserves to himself the right to appropriate or confiscate the cash deposit, should the successful tenderer fail to put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 28th November, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.**Tender No. 1935/K for the Supply of Carriage and Wagon and Locomotive Engine Parts and Fittings.**

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of the above-mentioned materials, comprising axle boxes, cotters and mild steel panel plates.

The prescribed form of tender, with specification and special conditions on which tenders will be considered together with relative drawings, can be obtained from the Railway's Controller of Stores at Parel, Bombay, on payment of Rs. 8-15 per set, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender for the Supply of Carriage and Wagon and Locomotive Engine Parts and Fittings".

Additional copies of tender form without drawings may be obtained, if required, at Rs. 2 per copy. A sum of Rs. 800 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money before the time fixed for opening the tender, without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) or wholly in Government Promissory Notes, Municipal Debentures or Port Trust Bonds and the Agent on behalf of the Administration reserves to himself the right to appropriate or cancel the Government Promissory Notes, Municipal Debentures or Port Trust Bonds or confiscate the cash deposit should the successful tenderer fail to put in the security deposit in terms and conditions of the tender.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 28th November, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

GREAT INDIAN PENINSULA RAILWAY.

Tender No. 1935/B.—Rate Contract for the Supply of Miscellaneous Stores required during the period commencing 1st January, 1935, to 15th May, 1935.

The Agent, G. I. P. Railway, Victoria Terminus, Bombay, invites tenders for the supply of Miscellaneous Stores including oil cans, chains short link, springs moulders, watering cans, hinges, split pins, sanitary and mortar pans, screws, washers copper and spring and aluminium utensils required during the period commencing 1st January, 1935, to 15th May, 1935.

The prescribed form of tender, with conditions on which tenders will be considered can be obtained from the Railway's Controller of Stores, at Parel, Bombay, on payment of Rs. 2 per copy, which amount will not be returned. Tenders must be submitted on the prescribed form and the envelopes enclosing them must be sealed and endorsed "Tender No. 1935/B for the Supply of Miscellaneous Stores".

A sum of Rs. 400 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as earnest money before the time fixed for opening the tenders, without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) and the Agent, on behalf of the Administration, reserves to himself the right to appropriate or confiscate the cash deposit, should the successful tenderer fail to fulfil the contract.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Agent's office up to 3 p.m. (Standard Time) on Wednesday, the 21st November, 1934.

The result of the tender will be notified in the *Indian Trade Journal*.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Coal during 1935-36.

Tenders are invited for the supply of about 320,000 tons Steam Coal to the Madras and Southern Mahratta Railway during the 12 months ending 31st March, 1936, as follows:—

Coal to be delivered by Sea at Mormugao into wagons to be provided by the Railway	80,000 to 100,000 tons.
Coal to be supplied f.o.r. Colliery or f.o.b. Kidderpore Docks or c.i.f. Madras	220,000 to 240,000 tons.

The coal must be either of Selected Grade or Grade I, either hand-picked or screened and be free from shale or other deleterious matter. It must be fresh coal. "Weathered" coal will not be accepted.

Forms of Tender, Specifications and Instructions to Tenderer may be obtained from the Office of the Chief Mining Engineer, Railway Board, No. 1, Council House Street, Calcutta, on payment of Rs. 1 for each set.

No tender will be considered unless it is submitted in the prescribed form.

The tenders which may be submitted for the whole or for any portion of the quantity noted above should be addressed in sealed covers to the "Agent, Madras and Southern Mahratta Railway, c/o the Chief Mining Engineer, Railway Board, Calcutta", superscribed "Tenders for the Supply of Coal". The tenders should be lodged in the Tender Box kept in the Office of the Chief Mining Engineer, Railway Board, 1, Council House Street, Calcutta, before 11 a.m. on the 12th November, 1934.

The Agent does not bind himself to accept the lowest or any tender or to assign any reason for non-acceptance; he further reserves the right to accept any tender wholly or in part at his option.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Supply of Oils, Cotton Waste, Tallow, etc.

The Agent, M. & S. M. Railway, Madras, invites tenders for the supply of Castor, Coconut, Linseed and Kerosene Oils, Turpentine substitute, Cotton waste, Weavers' and Reelers' Tallow and Coal Tar required during the year commencing 1st April, 1935.

Tender forms can be obtained from the Railway's Controller of Stores at Perambur on payment of Rs. 3 per copy. Closing date is 27th November, 1934.

SOUTH INDIAN RAILWAY.

GENERAL STORES DEPARTMENT.

Supply of Mineral Oils during 1935-36.

Tenders are invited and will be received by the Superintendent of Stores, South Indian Railway Co., Ltd., Negapatam, up to the 26th November, 1934, for the supply of the articles mentioned below:—

Mineral axle oil	about 700,000 lbs.
Mineral cylinder oil	85,000 "
Mineral superheater cylinder oil	160,000 "

These oils should conform to the specifications recorded in the Schedule which are the same as those of the Indian Stores Department of the Government of India and to each tender should be attached in original, a certificate of a recent date, obtained by the tenderer from the Government Test House, Alipore, for each of the oils tendered for. A special test by the Alipore Test House in connection with this tender is not necessary. If originals cannot be produced with the tender, certified true copies should be sent and originals should be submitted as soon as available. The originals will be returned within a reasonable time after perusal.

With each tender should also be submitted a sample, free of cost and carriages paid, of not less than 2 quarts of the oil tendered for and a certificate of guarantee that the sample conforms, in all respects, to the specification embodied in the original test certificate should accompany the tender.

Tenderers are advised, in their own interests, to see that the samples are fully labelled and so carefully packed as to ensure safe arrival.

The Schedule together with the connected Tender Form and General Conditions of Contract and any other particulars can be had from the Superintendent of Stores, S. I. Railway Co., Ltd., Negapatam. The cost of the Schedule is Rs. 2 per copy and this sum should be prepaid and is not refundable. The Schedule cannot be sent by V.-P. Post.

The Agent, S. I. Railway Co., Ltd., will not consider any tender except on the Company's authorized form as aforesaid, and he does not bind himself to accept the lowest or any tender or to assign any reasons for non-acceptance. He further reserves to himself the right of accepting any tender in part.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

7. Cable, C. T. S., C. M. A., 600 megohm grade, 230 volts, single core 7/029, English, to merchant's own make.	8,700 "	Iditto	1,484-7 Mahalaxmi.

CONTRACTS PLACED BY THE GREAT
INDIAN PENINSULA RAILWAY.

With reference to this Railway's call for tenders for the supply of Locomotive Boilers (*vide* the *Indian Trade Journal*, dated the 5th July, 1934, pages 21-22), the Controller of Stores, G. I. P. Railway, Lower Parel, Bombay, notifies that the tender of Messrs. Shaw Wallace & Co., Bombay, has been accepted as follows:

33 Locomotive Boilers, superheated, coal burning, with "Belpaire" fire boxes, circular smoke boxes with saddle casting, ash pans, rocking grates, all boiler mountings, clothing sheets, all steam pipes and elbows and other connections from smoke box header to cylinder together with casings, etc., type H. S. 9 Nos. 1235 to 1267 for renewals on existing H/4 type 2-8-0 B. E. S. A. superheated engines. The engines to be fitted with these renewal boilers will not be converted to Poppet valve gear and will be generally similar to H. S. 7 boilers supplied on India Office Contract No. L. 79/6537 of 9th April, 1930, but with the modifications and additional fittings mentioned in the explanatory note attached to the tender schedule subject to the following further modifications:

- (a) All boilers are required to be fitted with "Clyde" Superior Soot Blowers.
 (i) and (j) The "Cyclone" type Spark Arrestor is to be fitted to one boiler only.
 (p) All exposed brass or gunmetal fittings on Wakefield Transfer Fillers are to be made of ferrous metal.
 (q) No boilers are to be fitted with Greshams "Duplex" Feed Heaters and the internal bent copper delivery pipes referred to under item (a2) are to be fitted to all boilers.

Rate.—Rs. 23,700 each, delivered at the Mechanical Works, Parel, Bombay (subject to reduction on account of the further modifications referred to).

Delivery.—To commence at the Mechanical Works, Parel, in 26/27 calendar weeks from the date of receipt of the letter of acceptance by the firm, at the rate of 3 boilers per week, and total quantity to be delivered completely to the Works Manager, Mechanical Works, Parel, loaded into wagons, within 36/37 calendar weeks from the date of receipt of the letter of acceptance by the firm.

Makers.—The Royal Hungarian State Iron, Steel & Machine Works, Diosgyor, Budapest.

The boilers are subject to inspection by the India Store Department, London.

1 Agencies (including managing agent Cos.)	20,000
6 Other trading and manufacturing	1,15,000
1 Hotels, theatres, and entertainments	50,000
TOTAL	12,25,000

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 28th October.—Nearly general in south Madras on one day. Wide-spread rain also occurred in places. Local or a few falls elsewhere.

Crops: Madras, week ending 20th October.—Rainfall generally below normal. Transplanting or sowing of paddy proceeding in parts of Carnatic and Central districts and west coast. Standing crops generally fair except in parts of Kurnool, Bellary, Anantapur, Coimbatore, Malabar and Nilgiris where adversely affected for want of rain. Bihar and Orissa, week ending 23rd October.—Rain fell in all districts of province except in parts of Manbhum and Singhbhum; heavy in parts of Bhagalpur and Purnea and light to moderate elsewhere. Standing crops including sugarcane generally good. Harvesting of *bhadoi* crops nearly finished and threshing commenced in some districts. Prospects of winter rice generally fair. Sowing of *rabi* crops commenced. Punjab, week ending 22nd October.—Weather remained dry. Rain badly wanted. Standing crops generally average to good on irrigated and below average to average on unirrigated areas. Insects caused some damage to crops in parts of Mianwali and Dera Ghazi Khan. Cotton reported to have been adversely affected by *tela* and root rot in parts of Shahpur and by boll worm in parts of Lyallpur and Multan. General complaint that *toka* damaging newly sown crops in Sialkot. Central Provinces, week ending 20th October.—Weather continued to be clear and getting cool. Standing *kharif* crops satisfactory. Harvesting of early rice and groundnut in progress. Preparation of land for *rabi* sowings continues but a few showers needed for *rabi* ploughing in Mandla and Hoshangabad districts, while in Saugor difficulty being experienced on some soils in obtaining proper tilth owing to effect of continued rain on soil. Sowing of linseed and minor *rabi* crops going on. Bombay, 27th October.—Practically no rain during week in presidency except light showers in places south Konkan and Karnatak. *Rabi* sowing proceeding but progress not satisfactory and hindered places Deccan due insufficient moisture. Cotton picking in full swing Deccan canals. *Kharif* harvest in progress generally. *Kharif* crops in Karnatak reported suffering due deficient rain. Sind, 27th October.—No rain during week. Cotton pickings still continue. Rice harvests in full swing. Other *kharif* crops progressing satisfactorily. Bengal, week ending 24th October.—Rainfall generally light to moderate except parts north and east Bengal where heavy sowing *rabi* crops continues. Prospects standing crops generally fair. Harvesting early winter paddy commenced parts east Bengal. Assam, 29th October.—Weather seasonable. Outturn and prospects of crops fair.

Bombay, 25th October.—Cotton: No. 3 Fine M. G. Oomras Rs. 181-4-0 December-January, 1935.

Calcutta, 27th October.—Jute market steady in sympathy with firm Goods market, but very little doing. Sellers quoting Rs. 25-12-0 for Firsts for ready shipment. Hessians business restricted. Nine Porters Rs. 8-14; Elevens Rs. 11-3 Ready-October. Heavies fully steady but inactive with sellers reserved. B. Twills Rs. 24-10 November-December delivery.

Calcutta, 26th October.—Shellac T. N. Rs. 43.

Imperial Bank rate unchanged at $3\frac{1}{2}$ per cent.

Rangoon, 24th October.—Specials White Rice, Big Mills Rs. 202-8; Small Mills Rs. 207-8 October. Paddy, 27th October.—Rs. 75 to Rs. 76 (river) and Rs. 73 to Rs. 74 (rail).

Wheat, 25th October: Lyallpur.—Rs. 2 f.o.r. per maund. Bombay.—White Delhi, per cwt. railway terms Rs. 3-15 January and Rs. 4-4 May. 26th October: Karachi.—Punjab White Rs. 19-13 per candy.

Nineteenth Tea Sale, Calcutta, 22nd and 23rd October.—21 thousand chests Leaf for export and 11 thousand chests for Internal Consumption, average price As. 8-7 and As. 5, respectively, and 9 thousand chests Dust at As. 5-4, sold. Demand once again slackened off and buyers only prepared to operate at irregular decline of about 3 to 6 pies per lb. A few B. O. P.'s O. F's and better types of Orange Pekoes frequently made former prices but, with this exception, market lower; common and medium broken, fannings and well made leaf grades being 3 pies per lb. lower, inferior stalky leaf grades declining 3 to 6 pies per lb. *Internal Consumption*: Demand good though not quite so well distributed. Up to about As. 4-9 per lb. market showed little change: above this slight irregularity and previous rates occasionally not attained. Good enquiry for Dusts, common kinds sold rather more readily than better grainy sorts and prices show appreciably little change.

Trade Returns for September, 1934, in lakhs of rupees:—Exports: Grain, pulse and flour 76; Tea 285; Hides, raw 6; Skins, raw 11; Tanned hides and skins 41; Jute, raw 78; Jute goods 191; Seeds 111; Shellac 11; Raw cotton 142; Total merchandise including re-exports 1207. Imports: Sugar 28; Iron and steel 43; Machinery and mill-work 97; Cotton piecegoods 146; Total merchandise 1055. Net exports, private and Government, Gold 67 Silver 77.

Total authorised capital Joint Stock Companies, registered during September, 1934, Rs. 2,70 lakhs.

MOULMEIN FREE FROM PLAGUE.

—A notification issued by the Government of Burma declares the port of Moulmein to be free from plague under the terms of the Paris Sanitary Convention, 1903.

FOREIGN TRADE OF BOMBAY IN SEPTEMBER, 1934.

THE total value of the foreign trade of Bombay—Imports and Exports—for the month of September, 1934, amounted to Rs. 6.49 crores, showing a decrease of Rs. 3.8 crores, or 37 per cent, as compared with the figures for September, 1933, and of Rs. 6.32 crores, or 49 per cent, as compared with those for September, 1932. The decrease of Rs. 3.8 crores is entirely due to the heavy fall in the shipments of gold. Imports of merchandise and exports of silver, however, recorded noticeable increases.

Imports of merchandise amounted to Rs. 4.12 crores, showing a rise of Rs. 58.58 lakhs, or over 16 per cent, over the figures for September, 1933, but a fall of Rs. 14.99 lakhs, or over 3 per cent, from those for September, 1932. The rise of Rs. 58.58 lakhs is spread over most of the principal articles of import, the more important being motor cars, including motor wagons, cycles and parts thereof (+Rs. 15.43 lakhs), wool manufactures (+Rs. 9.41 lakhs), artificial silk piecegoods (+2½ million yards and +Rs. 6.51 lakhs), cotton coloured piecegoods (+over ¾ million yards and +Rs. 5.44 lakhs), aniline dyes (+Rs. 5.43 lakhs), sugar (+5,313 tons and +Rs. 4.97 lakhs), cotton, raw (+584 tons and +Rs. 4.64 lakhs), cotton grey piecegoods (+2½ million yards and +Rs. 3.68 lakhs) and metals and ores (+Rs. 3.02 lakhs). Imports of mineral oils and machinery and millwork, however, fell by Rs. 6.21 lakhs and Rs. 4.34 lakhs, respectively. Imports of gold decreased by Rs. 2.22 lakhs and Rs. 3.31 lakhs to Rs. 2.12 lakhs and those of silver by Rs. 5.23 lakhs and Rs. 7.86 lakhs to Rs. 12.716 only, respectively.

Exports of Indian produce amounted to Rs. 1.7 crore, which was almost equal to the value of exports in September, 1933, but short by Rs. 22.95 lakhs, or nearly 12 per cent of the value of exports in September, 1932. Exports of cotton, raw, which showed an increase of 7,161 tons in quantity and of Rs. 39.64 lakhs in value were almost entirely counter-balanced by decreases in the exports of seeds (—22,684 tons and —Rs. 34.47 lakhs) and cotton twist and yarn (—over ¾ million lbs. and —Rs. 4.32 lakhs). Exports of gold amounted to Rs. 28.77 lakhs as against Rs. 4.75 crores and Rs. 6.32 crores and those of silver to Rs. 24.83 lakhs against Rs. 1.04 lakh and Rs. 1.62 lakh, respectively.

Re-exports of foreign merchandise declined by Rs. 7.76 lakhs and Rs. 1.93 lakh, respectively, to Rs. 12.04 lakhs.

The trade statistics of the first half of the current financial year show, in imports, an improvement

of Rs. 2.91 crores, or 13 per cent over the figures for the corresponding half of the previous year, but a fall of Rs. 5.01 crores, or 16 per cent from those for the same period of the year 1932-33. In exports, however, they show a decrease of Rs. 1.78 crore, or 4 per cent, as compared with the figures for the first six months of 1933-34 but an increase of Rs. 2.5 crores, or over 6 per cent, as compared with those for the corresponding months of 1932-33. Imports of gold amounted to Rs. 21.34 lakhs as against Rs. 32.47 lakhs and Rs. 37.55 lakhs and those of silver to Rs. 19.93 lakhs against Rs. 10.26 lakhs and Rs. 86.21 lakhs, respectively. During this period imports of merchandise amounted to Rs. 24.91 crores, showing an advance of Rs. 2.93 crores, or 13 per cent, from the figures for the corresponding period of the preceding year and a decline of Rs. 4.17 crores, or 14 per cent, from those for the same period of the year 1932-33. The advance of Rs. 2.93 crores is chiefly due to larger arrivals of most of the articles of import, the more important among them being motor cars, including motor wagons, cycles and parts thereof (+Rs. 57.18 lakhs), aniline dyes (+Rs. 39 lakhs), artificial silk piecegoods (+9½ million yards and +Rs. 29.96 lakhs), wool, manufactures (+Rs. 24.42 lakhs), silk, raw and manufactures (+Rs. 22.15 lakhs), metals and ores (+Rs. 20.44 lakhs), cotton coloured piecegoods (+over 4½ million yards and +Rs. 19.29 lakhs), artificial silk yarn (+over 2½ million lbs. and +Rs. 17.89 lakhs), cotton twist and yarn (+over 1 million lbs. and +Rs. 14.08 lakhs), machinery and millwork (+Rs. 12.68 lakhs) and cotton manufactures and instruments, apparatus, etc. (+over Rs. 11 lakhs, each). Imports of sugar, on the other hand, were lesser by 10,638 tons in quantity and by Rs. 11.16 lakhs in value and those of mineral oils by over 2½ million gallons in quantity and by Rs. 10.15 lakhs in value.

Exports of gold amounted to Rs. 21.49 crores as against Rs. 25.79 crores and Rs. 27.35 crores and those of silver to Rs. 1.03 crore against Rs. 5.77 lakhs and Rs. 9.34 lakhs, respectively. Exports of Indian produce were valued at Rs. 16.39 crores, showing an improvement of Rs. 1.74 crore, or nearly 12 per cent, and of Rs. 7.48 crores, or 83 per cent, respectively, as compared with the figures for the corresponding period of the years 1933-34 and 1932-33. The improvement of Rs. 1.74 crore is entirely due to larger shipments of cotton, raw (+35,834 tons and +Rs. 2.16 crores, though shipments of seeds and wool, raw, recorded decreases of 12,422 tons in quantity and of Rs. 31.66 lakhs in value and of nearly 4½ million lbs. in quantity and of Rs. 16.77 lakhs in value, respectively.

Re-exports of foreign merchandise amounted to Rs. 80 lakhs as against Rs. 1 crore and Rs. 85.16 lakhs, respectively.

BOOKS OF REFERENCE.

THE following publications have been received and may be seen in the Commercial Library attached to the Department of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta:—

U. K. and Parliamentary Publications—

Department of Overseas Trade.—Report on Economic Conditions in Syria (May, 1934), by G. T. Havard, C.M.G., H.M. Consul-General, Beirut.

Meteorological Department.—India Weather Review—Annual Summary for 1933—Part B: Snowfall.

Tehri-Garhwal State.—Annual Administration Report of the Tehri-Garhwal State for the year 1933-34.

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) *Kathiawar Trade Statistics, July, 1934.* (Price Rs. 3-2.) This publication contains statements showing (i) the foreign sea-borne trade of the maritime States in Kathiawar during the month of July and the four months ended July, 1934, and (ii) statistics of the imports into British India from Kathiawar across the Viramgam-Dhandhuka Land Customs Line during the same periods.

(2) *Exports of Indian Artware and Sports Goods for November, 1933.* (Price Re. 1.) This publication contains statements showing the exports of artware and sports goods of Indian manufacture from British

India to foreign countries during November, and the eight months ending November, 1933, as compared with the corresponding periods of the preceding two years.

(3) *Monthly Accounts of the Sea-borne Trade and Navigation of British India for September, 1934.* (Price Re. 1-4.) These accounts contain the particulars of the quantity and value of the principal articles of imports, re-exports and exports of merchandise, together with the figures of imports and exports of treasure and the amount of duty collected during the month of September, 1934, and the six months April to September, 1934, as compared with the corresponding periods of the preceding two years and also the number and tonnage of vessels employed in the foreign and coasting trade of British India during the month of September, and the six months ended September, 1932, 1933 and 1934. The total value of the import and export trade with each of the principal countries during September and the six months ended September, 1933 and 1934, is also shown in these accounts. A table showing the declared values per unit of principal articles of imports and exports during the month of September, 1932, 1933 and 1934, is included in these accounts.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE.

STATE RAILWAY EARNINGS—

The total approximate gross earnings of all State-owned Railways for the period (8 days) ending the 30th September, 1934 (26th week), amounted to Rs. 1,78 lakhs*, Rs. 2 lakhs less than the figures for the preceding week—compared with a period of seven days calculated at seven-eighths of the period of eight days ending the 30th September, 1934—and Rs. 8 lakhs more than the actuals for the corresponding period of the previous year and Rs. 5 lakhs more than the actuals for the corresponding period of 1932-33. The total approximate gross earnings from the 1st April to the 30th September, 1934, amount to Rs. 42-91 crores or Rs. 2,41 lakhs more than the actuals for the corresponding period of the previous year and Rs. 3,18 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the

* The mileage open up to the 30th June, 1933, was 42,912-02

1st April, 1934, as compared with the actuals of the corresponding period of last year :—

Railways.	Up to 30th September, 1933.	Up to 30th September, 1934.	Increase (+) or Decrease (—) as compared with the figures for the previous year.
	(In lakhs of Rs.)	(In lakhs of Rs.)	(In lakhs of Rs.)
A. B.	73	89	+16
B. N.	3,46	3,83	+37
B., B. and C. I.	4,90	5,15†	+25
Burma	1,61	1,77	+16
E. B.	2,35	2,43	+8
E. I.	8,31	8,93	+62
G. I. P.	5,46	5,60†	+14
M. and S. M.	3,52	3,58	+6
N. W.	6,45	6,89	+44
S. I.	2,63	2,72	+9
Tirhoot and Lucknow-Bareilly	89	91	+2
Other Railways	19	21	+2
TOTAL	40,50	42,91	+2,41

† Estimated figures, owing to non-receipt of information from Railways.

Credit adjustments to the extent of Rs. 5 lakhs (approximately) have been made in the above figure of Rs. 42-91 crores, on account of the difference between the approximate and audited gross earnings for the month of July, 1934, as detailed below :—

Railways.	Rs.
A. B.	+46,000
B. N.	+1,26,000
E. B.	+1,16,000
E. I.	+1,36,000
G. I. P.	+1,42,000
M. and S. M.	+60,000
S. I.	—1,91,000
Tirhoot	+47,000
Jodhpur-Hyderabad	+40,000
Other minor adjustments	+20,000
TOTAL	+5,42,000

A comparison with the figures of the previous week compared with a period of seven days—calculated at seven-eighths of the period of eight days ending the 30th September, 1934—for the principal State-owned Railways shows decreases in the approximate gross earnings of all railways except the B.N., Burma, E. B., G. I. P., S. I. and Tirhoot and Lucknow Bareilly. A comparison with the actuals of the corresponding period of 1933 shows increases in the approximate gross earnings of all the principal State-owned Railways except the G. I. P., M. and S. M., S. I. and Tirhoot and Lucknow-Bareilly.

The principal variations in earnings as compared with the actuals of the corresponding period of the previous year, in thousand of rupees, were :—

A. B.	+31; coaching earnings (—4) and goods earnings (+35).
B. N.	+88; coaching earnings (—84), goods earnings (+1,77) and other earnings (—5).
B., B. & C. I.	+1,45; coaching earnings (—67) goods earnings (+2,08) and other earnings (+4).
Burma	..; coaching earnings (+3) and goods earnings (—3).
E. B.	+82; coaching earnings (—24) due to Durga Puja holiday traffic in the corresponding period of the previous year, goods earnings (+1,04) under coal, grains, jute and other traffic in full wagon loads and other earnings (+2).
E. I.	+5,61; coaching earnings (—1,04) due to Durga Puja holiday occurring in the corresponding period of the previous year, goods earnings (+6,67) due to more despatches of coal, salt, tea, iron, gunny, piece-goods, gram and pulse and sugar and other earnings (—2).
G. I. P.	—1,86; coaching earnings (—1,95) due to adjustment of running power charges over the Delhi-Kilokri section for half year ending the 30th September, 1934, goods earnings (+50) chiefly under food grains.
M. and S. M.	—31; coaching earnings (—67) due to less bookings of passengers, goods earnings (+48) due to larger movements of rice, groundnuts, cotton, cotton seeds and food grains other than wheat and rice and other earnings (—12).
N. W.	+1,06; coaching earnings (—72) due mainly to decrease in parcel and luggage earnings, goods earnings (+1,53) under grain and pulse, oilseeds, wheat, rice not in husk and cotton raw and other earnings (+25).
S. I.	—2; coaching earnings (—42) due to larger number of short distance passengers, goods earnings (+48) under paddy, rice, grains, potatoes, cotton—twist, tiles and coal and other earnings (—8).
Tirhoot and Lucknow-Bareilly	—51; due mainly to reduced bookings of sugar, grains and salt on the B. and N. W. Railway.

WAGONS OF REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I Railways for the period (8 days) ending the 30th September, 1934, and for the cumulative period from the 1st April to the 30th September, 1934,

with the corresponding periods of the previous year are as follows:—

(a) *Total loadings during the period (8 days).*

During the period ending the 30th September, 1934, there were loaded on the broad gauge 82,026 wagons, being 14,087 more than in the corresponding period of the previous year, or an increase of 20.5 per cent. On the metre gauge there were loaded 47,490 wagons, being 130 fewer, than in the corresponding period of the previous year, or a decrease of 0.27 per cent.

(b) *Cumulative loadings from 1st April, 1934.*

(i) For the period from the 1st April to the 30th September, 1934, there were loaded on the broad gauge 1,969,520 wagons, being 127,634 more than in the corresponding period of the previous year or an increase of 6.93 per cent, and on the metre gauge 1,241,046 wagons, being 73,486 more than in the corresponding period of the previous year, or an increase of 6.29 per cent.

(ii) *Coal and coke.*—In the same period 490,375 wagons, broad and metre gauge, were loaded as compared with 443,384 in the corresponding period of the previous year, being 46,991 more or an increase of 10.6 per cent. In addition, 56,487 wagons, broad gauge, were loaded during the period by the B. N. and E. I. Railways for their own use, as compared with 48,898 in the corresponding period, being 7,589 more, or an increase of 15.5 per cent.

(iii) *Grains and pulses.*—In the same period 427,772 wagons, broad and metre gauge, were loaded as compared with 371,324 in the corresponding period of the previous year, being 56,448 more or an increase of 15.2 per cent.

(iv) *Oilseeds.*—In the same period 119,944 wagons, broad and metre gauge, were loaded as compared with 123,019 in the corresponding period of the previous year, being 3,075 fewer, or a decrease of 2.50 per cent.

(v) *Cotton.*—In the same period 71,175 wagons, broad and metre gauge, were loaded as compared with 62,091 in the corresponding period of the previous year, being 9,084 more or an increase of 14.6 per cent.

(vi) *Home line stores and materials.*—In the same period 186,071 wagons, broad and metre gauge, were loaded as compared with 169,351 in the corresponding period of the previous year, being 16,720 more or an increase of 9.87 per cent.

(vii) *Miscellaneous smalls.*—In the same period 781,080 wagons, broad and metre gauge, were loaded as compared with 762,717 in the corresponding period of the previous year, being 18,363 more or an increase of 2.41 per cent.

(viii) *Miscellaneous full wagons.*—In the same period 1,134,149 wagons, broad and metre gauge, were loaded as compared with 1,077,640 in the corresponding period of the previous year, being 56,509 more or an increase of 5.24 per cent.

THE STEEL INGOTS (EXCISE DUTY) ORDER, 1934.

THE following Notification (No. 32-Central Excises, dated the 27th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by sections 6, 7 and 9 of the Iron and Steel Duties Act, 1934 (XXXI of 1934), read with section 22 of the General Clauses Act, 1897 (X of 1897), the Governor General in Council is pleased to apply in the adapted form set out below certain provisions of the Sea Customs Act, 1878 (VIII of 1878), and to make certain rules for the purpose of providing for the assessment and collection of the duty of excise imposed by the first mentioned Act on steel ingots produced in British India.

1. *Short title.*—This Order may be called "The Steel Ingots (Excise Duty) Order, 1934".

2. *Definitions.*—In this Order, unless there is anything repugnant in the subject or context,—

(1) "the Act" means the Iron and Steel Duties Act, 1934;

(2) "Collector" means the Collector or the Deputy Commissioner of the district, or such other officer as the Governor General in Council may appoint in this behalf by name or in virtue of his office to perform all or any of the duties of a Collector under this Order.

3. *Agent of owner to be deemed owner for certain purposes.*—When any person is expressly or impliedly authorised by the owner of any manufactory of steel ingots to be his Agent in respect of such manufactory for all or any of the purposes of this Order and such authorization is approved by the Collector, such person shall for such purposes be deemed to be the owner of such manufactory.

4. *Owner of manufactory to furnish returns of steel ingots produced.*—(1) The owner of every manufactory of steel ingots—

(a) shall prepare or cause to be prepared a return in Form A set out in the Schedule to this Order of all steel ingots produced in the manufactory each day, and shall lodge the said return with the Collector on the day to which it relates;

(b) shall prepare or cause to be prepared a consolidated return in Form B set out in the Schedule to this Order of all steel ingots produced in the manufactory during the preceding month, and shall lodge the said return with the Collector within seven days of the close of the month to which it relates.

(c) shall subscribe at the foot of the said returns a declaration that the particulars set out therein are true to the best of his knowledge and belief; and

(d) shall deposit with the said return Form B, the amount of the duty payable under section 4 of the Act on the total weight of ingots produced during the month, or evidence of payment of such duty into an approved treasury elsewhere.

(2) If any person refuses, or without lawful excuse (the burden of proving which shall lie upon such person) neglects—

(a) to prepare, or cause to be prepared, to the best of his knowledge and belief the returns required by sub-clause (1);

(b) to subscribe at the foot thereof a declaration required by that sub-clause; or

(c) to lodge the said returns with the Collector within the times required by that sub-clause;

he shall be punishable with fine which may extend to two thousand rupees.

5. *Procedure in case of non-payment of duty.*—

(1) If the amount of the duty is not deposited with the return Form B prescribed in clause 4, the Collector shall cause a notice in Form C set out in the Schedule to this Order to be served on the owner requiring him to make payment of the aforesaid duty within ten days of the date of service of the said notice.

(2) A notice prescribed by sub-clause (1) may be served on the owner of any manufactory of steel ingots by delivering or tendering to him at his ordinary place of business, a copy of the notice or, if this cannot be done, by fixing a copy of the notice on one of the outer doors of the manufactory.

6. *Owner of manufactory to maintain books of account, etc.*—(1) The owner of every manufactory of steel ingots shall maintain such records and books of account as will admit of ready comparison to the satisfaction of the Collector with the entries made in the returns prescribed in clause 4.

(2) If any person fails without lawful excuse (the burden of proving which shall lie upon such person) to maintain the records and books of account required by sub-clause (1), he shall be punishable with fine which may extend to two thousand rupees.

7. *Collector's power of entry, etc.*—(1) The Collector, or any other officer duly appointed by the Governor General in Council in this behalf, shall have free access at all reasonable times to any manufactory of steel ingots and may, with or without notice to the owner, examine and take copies or extracts from any accounts or registers for the purpose of testing the accuracy of the returns prescribed in clause 4, or of informing himself as to any particulars regarding which information is required for the purposes of the Act or of this Order.

(2) If any person—

(a) voluntarily obstructs, or offers any resistance to or impedes, or otherwise interferes with, or

(b) wilfully gives false or misleading information to the Collector or any officer duly appointed under sub-clause (1) who is acting in accordance with his duty under the provisions of that sub-clause,

such person shall be punishable with fine which may extend to two thousand rupees.

8. *Power to exempt from duty.*—The Governor General in Council may, by notification in the *Gazette of India*, exempt any steel ingots from the whole or part of the excise duty leviable thereon.

9. *Drawback.*—When a drawback of excise duty under section 7 of the Act is claimed on the export of steel ingots or of articles manufactured therefrom, the exporter shall be required to prove to the satisfaction of the Collector of Customs at the port of export by documentary or other evidence that excise duty was actually paid on the steel ingots so exported or on those from which the articles so exported were manufactured.

10. *Payment of duty short-levied or erroneously refunded.*—When duty has been short-levied through inadvertence, error or misconstruction on the part of the Collector, or through mis-statement as to quantity on the part of the owner,

or, when any such duty after having been levied has been, owing to any such cause, erroneously refunded,

the person chargeable with the duty so short-levied, or to whom such refund has erroneously been made, shall pay the deficiency or repay the amount paid to him in excess, on demand being made within three months from the close of the month in respect of which the duty shall have been levied or from the date of making the refund.

11. *No refund of duty erroneously levied or paid unless claimed within three months.*—No duty which has been paid and of which repayment wholly or in part is claimed in consequence of the same having been paid through inadvertence, error or misconstruction shall be returned unless such claim is made within three months from the date of such payment.

12. An appeal shall lie from any order of the Collector to the Central Board of Revenue, and any order of the Central Board of Revenue may be revised by the Governor General in Council.

Provided further that no order in revision shall be passed having an effect more prejudicial to the person concerned than the order under revision without such person being given an opportunity of stating his case.

13. No appeal under clause 12 shall be admitted unless received by the appellate authority within three months of the date of the Collector's order.

EXEMPTIONS FROM CUSTOMS IMPORT DUTIES:
AMENDMENT.

The following Notification (No. 78-Customs, dated the 27th October, 1934) has been issued by the Government of India in the Finance Department (Central Revenues):—

In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India in the Finance Department (Central Revenues), No. 14-Customs, dated the 9th April, 1932 (*vide the Indian Trade Journal*, dated the 14th April, 1932, pages 72-79), namely:—

In the said Notification, in Schedule I—Import Duties, under the head "C.—Other Special Consignees", after entry 37, the following sub-head and entry shall be inserted, namely:—

" (e) Tourists.

37-A.	Motor cars, motor cycles, motor trailers and catavans brought with motor vehicles imported by sea into British India by any person resident abroad and intending to make only a temporary stay in British India, and wireless sets built into such motor vehicles.	Provided—	The whole "
		(i) that the importer is a member of an Automobile Club belonging to the International Federation of Recognised Automobile Clubs or of an Association belonging to the International Touring Alliance.	
		(ii) that he produces to the Customs Collector for the purpose of the same being duly signed and stamped by him the Pass-book or carnet de Passages en Douanes issued by the Alliance Internationale de Tourisme or the Pass-book (Triptyque) in the form approved and issued to him by an Association guaranteed by the Western India Automobile Association and in respect of which all the rules and conditions relating to pass-books or pass-ports have been complied with, and	
		(iii) that he satisfies the aforesaid officer that the motor vehicle of any of the descriptions mentioned in column 2 which he has imported corresponds in all respects with that described in the pass-book or pass-ports and for this purpose produces for examination and record of particulars by him the said motor vehicle.	

GERMANY.

MODIFICATION OF MONOPOLY TAX ON RICE OFFALS,
OIL CAKE, ETC.

A Proclamation dated August 30, 1934, effective from September 1 to December 31, 1934, issued by the State Office for Grain, Fodder and other Agricultural Products, revises the monopoly selling prices applicable to the undermentioned products (the marketing of which is a monopoly of the Office), whether of German origin or imported from abroad, viz.:—

Tariff No. and Article.	Monopoly Tax (i.e., the surcharge added to the Monopoly Purchase Price to form the Monopoly Selling Price).
	R.Mks. per metric ton.
ex 192 Rice offals (waste from rice hulling and polishing), unfit for human consumption.	16
Broken rice, for cattle feed	16
193 Solid residues from the manufacture of fatty oils even ground or in the form of cakes (oil-cake), also almond bran:—	
Linseed cake	28
Earthen cake	81
Boys' bean meal remaining over after the extraction of the oil	23
Bech acorn and walnut cake	4
Other	29
194 Residues from the manufacture of maize starch, unfit for human consumption	17-50

TURKEY.

IMPORT QUOTA RESTRICTIONS.

The Board of Trade Journal has received from the Commercial Secretary at Istanbul particulars of a Decree (No. 2/1156), dated August 21, introducing the Turkish import quotas for the period October, 1934, to March, 1935. Many modifications have been made in the existing system of applying the quotas, special import facilities being granted to countries which either have a Clearing Agreement with Turkey or which encourage the importation of Turkish produce. Details of the treatment accorded to various goods of more particular interest to United Kingdom exporters are published in the Board of Trade Journal, dated the 20th September, 1934. Extracts of interest to India are given below.

Under the new quota system, goods are divided into the following categories:—

List S.—This list specifies the articles which may be introduced free of quota restrictions. It replaces the existing List A, but is much shorter. The Minister of Economy may, on giving forty days' notice reserve wholly or partly the right to import under List S to countries which qualify for admission under List KL (*see below*).

List KL.—Goods falling within the tariff positions specified in this list may be imported free of quota restrictions provided they are the produce or manufacture of countries;

(a) having a clearing agreement with Turkey based on a balance of trade or payments, or

(b) whose commercial exchanges are in favour of Turkey and in which no special measures of restriction are applied to imports from Turkey.

The Minister of Economy is to specify the countries covered by (b). This list includes many goods now on List A.

List V.—As hitherto, goods enumerated in this list require an import licence from the competent Government Department, but the authorisation of the Minister of Economy is to be required in addition in the case of countries which do not qualify for admission under List KL.

List T.—The goods included in this list may be imported from countries which encourage the importation of Turkish produce by, for example, increasing their quotas for such goods, exempting them from restrictions, or reducing the duties thereon.

List K.—This is the list of general quotas.

The existing List M, under which the quotas for certain goods are allocated by country of origin, is to be abolished, and most of the goods covered by this list have been included in List K.

The Decree maintains the system under which an additional quantity of double the fixed quota may be imported provided the value thereof is deposited with the State Bank in Turkish currency before the goods are withdrawn from the Customs, and that the corresponding foreign exchange will not be issued by the Bank until after six months.

Provision is made in the Decree for the importation outside the quotas of parts of industrial and public utility installation, which constantly need replacement and (under certain conditions) of samples; it also maintains the existing provision for the admission of spare parts of machines by parcel post.

Tariff No. and Article.	Quota for Six Months October, 1934—March, 1935.
<i>Tea.</i>	
213A Tea in small packages, such as packets and tins	200,000

WEATHER AND CROP REPORTS.

BENGAL.

24th October.

During the week the rainfall was generally light to moderate except in parts of north and east Bengal where it was heavy. Sowing of *rabi* crops continues. Prospects of standing crops are generally fair. Harvesting of early winter paddy has commenced in parts of east Bengal.

ASSAM.

29th October.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

23rd October.

During the week under report rain fell in all the districts of the province except in parts of Manbhum and Singhbhum. The fall was heavy in parts of Bhagalpur and Purnea and light to moderate elsewhere. The condition of standing crops including sugarcane is generally good. Harvesting of *bhadoi* crops is nearly finished and threshing has commenced in some districts. Prospects of winter rice are, on the whole, fair. Sowing of *rabi* crops has commenced.

BOMBAY.

27th October.

During the week there was practically no rain in the Presidency except for light showers in places in south Konkan and the Karnatak. *Rabi* sowing is proceeding but progress is not satisfactory and has been hindered in places in the Deccan due to insufficient moisture. Picking of cotton is in full

swing in the Deccan canals. Harvesting of *kharij* crops is in progress generally. *Kharij* crops in the Karnatak are reported to be suffering due to deficient rain.

Sind.—During the week there was no rain. Picking of cotton still continues. Harvesting of rice is in full swing. Other *kharij* crops are progressing satisfactorily.

CENTRAL PROVINCES.

20th October.

During the week the weather continued to be clear. The standing *kharij* crops are in satisfactory condition. Harvesting of early rice, minor millets and groundnut is in progress. Preparation of land for *rabi* sowings continues but a few showers are needed for *rabi* ploughing in Mandla and Hoshangabad districts, while in Saugor difficulty is being experienced on some soils in obtaining a proper tilth owing to the effect of the continuous rain on the soil. Sowing of linseed, gram and other minor *rabi* crops is going on.

MADRAS.

20th October.

During the week the rainfall was generally below normal. Transplanting or sowing of paddy is proceeding in parts of the Carnatic and the Central districts and the West Coast. The condition of standing crops is generally fair, except in parts of Kurnool, Bellary, Anantapur, Coimbatore, Malabar and the Nilgiris where they have been adversely affected for want of rain.

PUNJAB.

22nd October.

During the week the weather remained dry. Rain is badly wanted. The condition of standing crops is generally average to good on irrigated and below average to average on unirrigated areas. Insects have caused some damage to crops in parts of Mianwali and Dera Ghazi Khan. Cotton is reported to have been adversely affected by *tela* and root-rot in parts of Shahpur and by bollworm in parts of Lyallpur and Multan. There is also a general complaint that *toka* is damaging newly sown crops in Sialkot.

GENERAL WEATHER SUMMARY.

During the week ended Tuesday last unsettled conditions in the south-west Bay of Bengal caused widespread rainfall in the Madras Presidency and Mysore. A few falls occurred elsewhere.

MONTHLY WEATHER REPORT FOR JULY, 1934.

THE following report on weather conditions in India during July, 1934, has been issued by the Director-General of Observatories:—

Summary.—Rainfall was normal except in the northwest of India, despite a weakening of the monsoon for about ten days after the 10th.

During the first ten days of the month, the monsoon was generally active over the country except in the south of the Peninsula. This activity was associated with two depressions which had formed in the north Bay of Bengal. The first of these had formed at the head of the Bay on the 30th June. It moved northwestwards and filled up over the central parts of the country on the 4th. The second depression formed over the northwest angle of the Bay on the 7th, moved slowly northnorthwestwards and filled up over Bihar and north Bengal on the 10th. Thereafter the monsoon weakened generally over the Peninsula and central and northwest India and its activity during the next week was confined to Burma, southeast Bengal and the hills and submontane districts from Assam to the east Punjab. A low pressure wave from the east moved across Burma and the north Bay of Bengal to Chota Nagpur and Orissa between the 17th and 21st and was responsible for a strengthening of the monsoon to a certain extent over the country excepting northwest India. The monsoon strengthened further on the 23rd and conditions were unsettled off the Circars coast between the 23rd and 26th and again on the last three days of the month. During the last week, the monsoon was on the whole strong in the Peninsula, Upper Burma and from Assam to the east and north Punjab. It is reported that locally heavy rain in the hills of the east Punjab and the United Provinces caused floods in the Chenab, Beas, Sutlej and Indus rivers in the Punjab and also in the Rapti river in the Gorakhpur district in the east United Provinces, causing considerable damage to property in villages on the banks of the rivers. Widespread rain in north Bihar also caused floods there, accentuated by the changes in level due to the great earthquake in January and according to reports damage was done to property in Motihari and Muzaffarpur districts.

Day temperature was generally below normal in northwest and central India between the 2nd and 11th in connection with the activity of the monsoon there.

The total rainfall during the month was in large defect in Rajputana, in moderate defect in Baluchistan, Mysore, Malabar and southeast Madras and in slight defect in the Bay Islands, the south-west Punjab, east Central India and the Konkan;

it was normal in Lower Burma, Bengal, Orissa, Chota Nagpur, the west United Provinces, the North-West Frontier Province, Gujarat, west Central India and the west and the east Central Provinces, in slight to moderate excess in Upper Burma, Assam, Bihar, the east United Provinces, the east and north Punjab, Kashmir, Berar, the Bombay Deccan, Hyderabad, the Madras Deccan and the north Madras coast and in large excess in Sind. Averaged over the plains of India, the month's rainfall was in defect by 1 per cent.

The mean maximum temperature was below normal in Upper Burma, Sind and east Rajputana and the mean minimum above it in Kashmir.

The cloud amount was above normal in the east United Provinces and southeast Madras and below it in the southwest Punjab and Baluchistan.

Humidity was in excess in the North-West Frontier Province, east Central India and the Madras Deccan.

CROP FORECASTS.

(ALL-INDIA)

SECOND SUGARCANE FORECAST, 1934-35.

THE following information relates to 'Sugar in Foreign Countries', which could not be included in the Second Sugarcane Forecast, 1934-35, published in the *Indian Trade Journal*, dated October 25, 1934.

Sugar in Foreign Countries.—From the latest information received from the Sugar Technologist to the Imperial Council of Agricultural Research, India, Cawnpore, it appears that the **world's production** of sugar, both cane and beet, in 1933-34, is estimated by Messrs. Willett & Gray at 25,569,000 tons (16,991,000 tons of cane sugar and 8,578,000 tons of beet sugar), showing an increase of 1,428,000 tons (475,000 tons of cane sugar and 953,000 tons of beet sugar) as compared with the preceding season. In **Cuba**, where the 1934 crop is practically completed, the sugar production up to the middle of August amounted to 2,264,000 tons. In **Louisiana**, the sugar output of this season is estimated at 215,000 short tons (192,000 tons), as compared with 205,000 short tons (183,000 tons) last season. In the **Hawaiian Islands**, prospects have greatly improved as a result of abundant moisture, high temperatures and ample sunshine during June and July; and an outturn of 1,100,000 short tons (982,000 tons) of sugar can be attained this year if there be no restriction in output. In **Porto Rico**, milling of the 1934 sugar crop has been completed and the final outturn is placed at 994,000 tons, which beats the previous record crop of 1932 by 12 per cent. In the **Argentine**, sugar production for the season 1933-34 is reported to be 319,000 metric tons (314,000 tons), of which 316,000 metric tons were cane and 3,000 metric tons beet. This shows a decrease of 9 per cent as compared with the previous season. In **Mauritius**, good rains in the beginning of May improved the prospects, but the latest indications show that the sugar crop will be below normal, not exceeding 210,000 tons. In the **Union of South Africa**, the preliminary estimate for the 1934-35 sugar crop is placed at 395,000 short tons (353,000 tons), but it is believed that the actual outturn may fail to reach the above figure on account of the lateness of the season and the damage done to the cane by locusts. The production in 1933-34 was 391,000 short tons (349,000 tons). In **Java**, the sugar

production this year is estimated at 615,000 tons, which appears to be the smallest in the last 35 years and shows a reduction of 55 per cent as compared with the outturn in 1933. It is believed that the plantings in 1935 will be restricted with the object of limiting the yield of the 1936 crop to 500,000 tons. In **Japan**, the sugar outturn during 1933-34 is placed at 796,000 tons (773,000 tons of cane sugar and 23,000 tons of beet sugar), as against 793,000 tons in 1932-33. In **Australia**, the crop harvested is not very greatly inferior to that of last year and the outturn of sugar may closely approach that of 1933. In the **Philippines**, the final sugar outturn for 1933-34 is estimated at 1,393,000 tons. In **Brazil**, the sugar production in 1934 is placed at 984,000 tons, as compared with 954,000 tons in 1933. In **Jamaica**, the sugar crop of the 1933-34 season is now approaching completion and the total production is estimated at 70,000 tons, showing an increase of about 27 per cent over that in 1932-33.

In **Europe**, extremely hot, dry weather during the second half of July was followed by copious rains in August in most of the beet districts, and this has relieved the immediate danger from lack of moisture. The beet sugar production in Europe (excluding Russia) for 1934 was estimated at the end of August last at 6,394,000 metric tons (6,291,000 tons), raw value, showing an increase of 4 per cent over the production in 1933. Reports from the **Soviet Union** place the estimated beet harvest at 10,000,000 tons, against 9,000,000 tons last year out of which about 6,000,000 tons were manufactured into sugar. In the **United States of America**, the beet harvest was estimated in August last at 6,801,000 short tons (6,072,000 tons), as against 11,030,000 short tons (9,848,000 tons) last year. With a sugar yield equal to that of last season, which was above the average of preceding years, an output of 1,025,000 short tons (915,000 tons) of refined sugar is expected. The crop may make some recovery during the remainder of the growing season but it seems improbable that the production will reach the estimate of a million and a quarter tons made earlier in the season.

SECOND COTTON FORECAST, 1934-35.

THIS forecast is based upon reports furnished by the undermentioned provinces and States, which comprise the entire cotton area of India. The reports, however, generally relate to sowings made up to 1st October.

The total area so far reported this year is 20,365,000 acres, as compared with 19,835,000 acres (revised) at the corresponding time last year, or an increase of 3 per cent.

Weather conditions have not been favourable, and the present condition of the crop, on the whole, is reported to be fair.

The detailed figures for the provinces and States are given below :—

Second Forecast, October.

Provinces and States	ACRES (THOUSANDS)		
	1934-35	1933-34	1932-33
Bombay (a)	5,700	(c) 5,223	4,464

GRAND TOTAL	20,365	(a) 19,835

(a) Revised.
(b) Included under "Sind-Punjab", separate figure not being available.

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of the cotton area in that tract to the total area under cotton in India based on the figures for the five years ending 1932-33.

Bombay (28.2 per cent).—The information is incomplete. The area sown with both early and late cotton in the Presidency proper is now estimated at 5,038,000 acres (2,135,000 acres being in the

Indian States), which is 8 per cent greater than the corresponding area of last year. In Gujarat, the crop was damaged, especially in the low-lying areas in Broach and Panch Mahals districts, by excessive rains in July and August, but it is now reported to be improving owing to fair weather. In the Deccan, the Khandesh crop suffered in parts of East Khandesh owing to excessive rains in August, but it is now reported to be improving as a result of a favourable break. In the other Deccan districts, the irrigated crop has done well generally, but the unirrigated variety is reported to have suffered on account of deficient rains in many places, especially in the east. In the Karnatak, sowings of the *Coompta* variety have been completed in the west, but the young crop is reported to be suffering from want of rain. In the east of this division, sowings have been postponed in many places owing to insufficient rain.

In Sind, the area sown, so far reported, is estimated at 662,000 acres (including 18,000 acres in the Khairpur State), showing an increase of 17 per cent over the corresponding estimate (revised) of last year. The increase is attributed to the functioning of Barrage canals and increased interest in cotton growing. Sowings commenced at the end of March and germination was normally successful. The condition of the crop is reported to be good and there has been no damage by excessive rain. Flowering is reported to be general in the late-sown crop, while the early-sown crop is in bolls. The American variety is reported to be ready for first picking.

The total area in Bombay (including Sind and Indian States) is thus estimated at 5,700,000 acres, as against 5,223,000 acres, the corresponding estimate (revised) of last year. The total area by trade descriptions is as follows :—

	Acres
Oomras—	
Khandesh	1,023,000
Barsi and Nagar	197,000
Dholleras	2,205,000
Bengal-Sind—	
Sind-Punjab	502,000
American (Sind)	160,000
Broach	732,000
Coompta-Dharwars	782,000
Westerns and Northern	99,000

Central Provinces and Berar (19.2 per cent).—The area sown is estimated at 4,277,000 acres (2,914,000 acres being in Berar), which is 2 per cent above the corresponding estimate of last year. The rainfall in August and September was excessive in the chief cotton-growing districts of the Central Provinces and the crop was damaged to some extent in the low-lying areas. There was, however, a break in the third week of September and the crop

began to improve, but heavy showers in the last week of the month impeded recovery. The clear weather which has subsequently set in has, however, been very opportune and is likely to improve the condition of the crop. In Berar, the crop suffered from heavy and continuous rain in August, but some of the lost ground was recovered during the breaks in September. The condition and prospects of the crop appear to be fair on the whole, provided the fine weather continues for some time more. The probable outturn for the province, as a whole, is estimated at 77 per cent of the normal, as against 83 per cent reported at this date last year.

Punjab (10.4 per cent).—The area sown is estimated, on the basis of district returns, at 2,579,000 acres (424,000 acres being in the Indian States), which is 5 per cent above the corresponding estimate of last year. The estimate of sown area framed by selected land-holders (Zamindars) of three important districts, however, is in excess of the district estimate by 4 per cent. The monsoon appeared in the first week of July and started with a good rainfall in most districts and light to moderate rain elsewhere. It was, however, very heavy in montane districts and in Karnal. The rainfall during August was sufficient except in a few central and western districts. During September, it was generally deficient and affected the crop adversely in some districts. The crop has been affected by root rot disease and by *tela* (insect) in parts of Shahpur district. The condition of the crop is, on the whole, now reported to be 95 per cent of the normal.

The area by trade descriptions is as follows :—

	Acres
American	736,000
Desi (Bengal-Sind)	1,843,000

Madras (9 per cent).—The area under cotton up to the 25th September, 1934, is estimated at 734,000 acres, as compared with 740,000 acres reported at the corresponding time last year. The area in the south and the central districts relates partly to the last year's crop and partly to the current year's sowings, which have commenced in places. In the Deccan, the early crop has been affected by drought to some extent in places.

The area by trade descriptions is as follows :—

	Acres
Tinnevellies, Salems and Cambodias	157,000
Westerns and Northern	476,000
Cocanadas	87,000
Others	14,000

United Provinces (3.1 per cent).—The area sown is, on the basis of advance returns, estimated at 759,000 acres (9,000 acres being in the Rampur State), as against 541,000 acres reported at this date last year. Though the crop is reported to

have been injured by excessive rains in August and September, its prospects are reported to be not bad on the whole. The average outturn for the province, as a whole, is now estimated at 80 per cent of the normal.

Burma (1·3 per cent).—The area sown is estimated at 412,000 acres, as compared with 361,000 acres reported at the corresponding time last year. The condition of the standing crop in the chief cotton-growing districts is reported to be generally fair, but more rain is needed in the Pakokku and Sagaing districts.

Bengal (0·3 per cent).—The area under both early and late cotton is reported to be 73,000 acres, as compared with 75,000 acres reported at this time last year. As reported in the first forecast in August last, the weather was generally favourable both for sowing and for the early period of growth. Subsequent conditions also proved beneficial to the crop. The present outlook is reported to be satisfactory, on the whole. Sowings of the late variety commenced in Midnapore under favourable conditions.

The area by trade descriptions is as follows:—

	Acres
Bengal-Sind	5,000
Comillas	68,000

Bihar and Orissa (0·3 per cent).—The area sown is estimated at 40,000 acres, as against 45,000 acres reported at this date last year. Weather conditions are reported to have been favourable in all the districts except Patna, Saran and Champaran; and the condition of the crop is reported to be generally fair to good.

Assam (0·2 per cent).—The area is estimated at 34,000 acres, as compared with 35,000 acres reported at the corresponding time last year. After the issue of the first forecast in August last, weather conditions improved to some extent, but heavy rain in some districts in September affected the growth of the crop to some extent. The present prospects of the crop, however, appear to be fair.

Ajmer-Merwara (0·1 per cent).—The area sown is estimated at 29,000 acres, as against 30,000 acres reported at this time last year. The condition of the crop is reported to be good.

North-West Frontier Province (0·1 per cent).—The area sown is estimated at 20,000 acres, as compared with 17,000 acres reported at the corresponding time last year. The increase occurs mainly in the Peshawar district and is attributed to sufficient rainfall at the time of sowing. The yield is so far expected to be average, and the total outturn is approximately estimated at 5,000 bales.

Delhi.—The area sown is reported to be 2,000 acres, which is slightly less than that reported at

the corresponding time last year. The general condition of the unirrigated crop is reported to be fair. Rain is wanted.

Hyderabad (14·9 per cent).—The area sown with both early and late cotton is now estimated at 2,616,000 acres, as against 3,207,000 acres reported at this date last year, or a decrease of 18 per cent. The decrease is attributed partly to cultivation having started late on account of insufficient rainfall and partly to interruption of agricultural operations in places as a result of excessive rains. The early crop is reported to be faring well on the whole. Sowings of late cotton have been generally delayed on account of insufficient rainfall at the time of sowing; but the crop is progressing in the few places, where sowing was made at the usual time.

The area by trade descriptions is as follows:—

	Acres
Oomras—	
Hyderabad-Gaorani	833,000
Barsi and Nagar	1,670,000
Westerns and Northern	92,000
Cocanadas	21,000

Central India (5 per cent).—The total area sown is estimated at 1,155,000 acres, as against 1,105,000 acres, the corresponding area (revised) of last year, or an increase of 4 per cent.

The detailed figures are as follows:—

	1934-35 Acres	1933-34 Acres
Indore	630,000	586,000
Bhopal	177,000	177,000†
Baghelkhand	8,000	9,000
Bundelkhand	10,000	11,000
Malwa	168,000	159,000
Southern States*	162,000	163,000
TOTAL	1,155,000	1,105,000†

* Including the British tract of Panth Piploda.
† Revised.

Baroda (3 per cent).—The area sown is reported to be 792,000 acres, as compared with 716,000 acres reported at the corresponding time last year. The area by trade descriptions is as follows:—

	Acres
Branch	561,000
Dholeras	231,000

Gwalior (2·5 per cent).—The area sown is estimated at 632,000 acres, as against 597,000 acres reported at this time last year. Excessive rain is reported to have damaged the crop in places.

Rajputana (1·9 per cent).—The total area sown amounts to 475,000 acres, as against 474,000 acres reported at this date last year.

The detailed figures are as follows:—

	1934-35 Acres	1933-34 Acres
Bikaner	60,572	68,434
Sirohi	1,190	1,102
Marwar	44,974	41,113
Mewar	185,356	172,334
Dungarpur	653	592
Banswara	1,326	1,602
Partabgarh	8,750	10,162
Kushalgarh	550	515
Jhalawar	30,913	34,253
Shahpura	8,048	9,116
Tonk	40,796	35,104
Bundi	6,001	9,069
Kishangarh	8,029	7,697
Jaipur	24,022	31,254
Alwar	11,578	5,885
Kotah	25,647	27,180
Karauli	950	1,158
Bharatpur	9,328	13,430
Dholpur	6,490	3,608
TOTAL	475,167	473,608

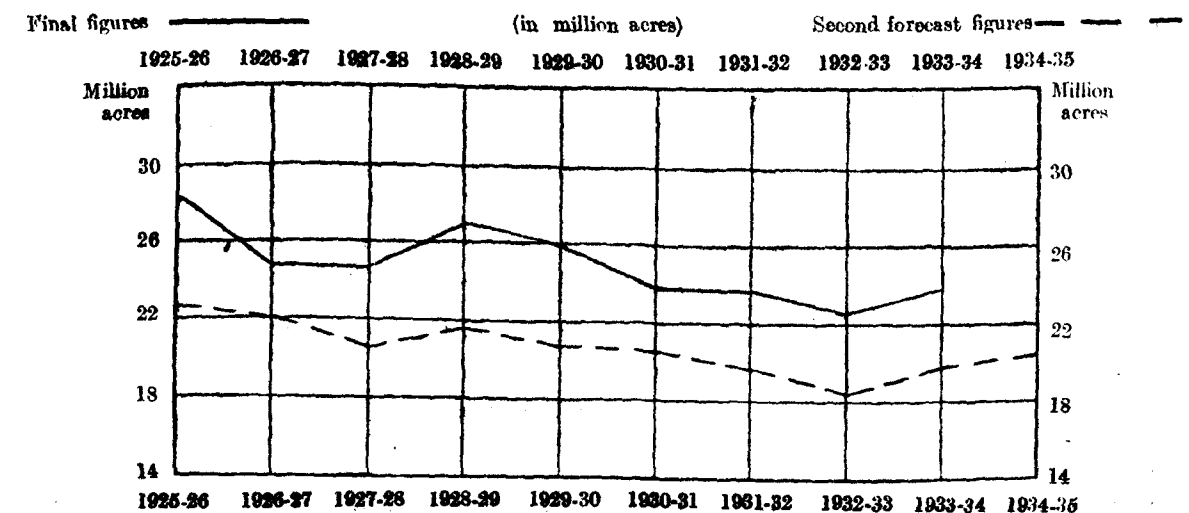

Mysore (0·3 per cent).—The area so far sown is estimated at 36,000 acres, as against 41,000 acres reported at the corresponding time last year. The condition of the standing crop is fair and prospects are, so far, reported to be favourable. But rain is urgently needed.

The area by trade descriptions is as follows:—

	Acres
Coompta-Dharwar	30,000
Cambodias	2,000
Other sorts	4,000

Chart.—The chart below illustrates the variations in the second estimates of area as compared with the final figures of the preceding nine years.

AREA OF COTTON

Cotton in Foreign Countries.—From information specially obtained, it appears that the production of the 1934 cotton crop of the United States of America is estimated at 9,443,000 bales of 500 lbs each (equivalent to 11,804,000 bales of 400 lbs each), as against 12,885,000 bales and 13,047,000 bales, the corresponding and final estimates of last year, respectively. The area and the first estimate of production of the cotton crop in Egypt for the current season are placed at 1,798,000 acres and 1,992,000 bales of 400 lbs each, showing a decrease of 4 and 6 per cent, respectively, as compared with

1933-34. The production of raw cotton in Manchuria this year is estimated at 159 million lb. (equivalent to 397,000 bales of 400 lbs each), showing an increase of 25 per cent over the last year's yield of 127 million lbs (equivalent to 317,000 bales of 400 lbs).

From the latest available bulletin published by the International Institute of Agriculture, Rome, it appears that the production of lint cotton in Anglo-Egyptian Sudan for 1933-34 is finally estimated at 161,000 bales of 400 lbs each, showing an increase of 11 per cent as compared with the preceding season.

SECOND FORECAST OF THE SESAMUM (TIL OR JINJILI) CROP, 1934-35.

THIS forecast is based on reports received from provinces and States which comprise 89 per cent of the total sesamum acreage in India. The returns dealt with in this forecast, however, exclude estimates for the 'mixed' crop of the United Provinces and for the late crops of Madras and Bengal. The final memorandum, which will be published in January, 1935, will include, as usual, estimates for these crops.

The total area, so far reported for the present season, comes to 4,097,000 acres (including 403,000 acres for the Hyderabad State from which report has been received at this stage for the first time this year), as against 4,303,000 acres, the revised estimate at this time last year. Excluding the area for the Hyderabad State for which estimate at this time of last year is not available, the present estimate of area shows a decrease of 14 per cent.

The present condition and prospects of the crop are reported to be only fair.

Details of the area by provinces and States are as follows:—

Second Forecast, October.

Provinces and States	1934-35 (1,000 acres)	1933-34 (1,000 acres)	Increase (+) or Decrease (—) (1,000 acres)
Burma	1,410	1,565	—155
United Provinces (unmixed crop).	356	435	—79
Madras (early crop)	405	532	—127
Bombay (a)	530	(b) 520	+10
Central Provinces and Berar	497	578	—81
Bihar and Orissa	189	199	—10
Bengal (early crop)	107	107	..
Punjab	98	126	—28

TOTAL	4,097	4,303(d)	—206(e)

(a) Including Sind and Indian States.

(b) Revised.

(c) Not available.

(d) Revised and excluding Hyderabad.

(e) Excluding Hyderabad.

The provincial reports are summarised below. The figures in brackets following the name of each province and State indicate the average percentage of the total area under sesamum in India cultivated in that province or State during the five years ending 1932-33.

Burma (20·7 per cent).—The area sown with both early and late varieties is now estimated at 1,410,000 acres, as compared with 1,565,000 acres

reported at this date last year. Harvesting of the early crop commenced generally about the normal time except in Magwe, Myingyan and the Lower Chindwin where it was late; and the outturn is below normal. The condition of the late crop is generally good; but more rain is needed in Pakokku and Sagaing districts.

United Provinces (18·4 per cent).—The area sown with the unmixed crop is estimated at 356,000 acres, as against 435,000 acres at this time last year. The rainfall in August and September was sufficient for the requirements of the crop, but in a number of districts it was excessive and injured the crop when in flower. The probable outturn of the crop for the province as a whole is now estimated at 76 per cent of the normal.

Madras (12 per cent).—The area sown up to the 25th of September is estimated at 405,000 acres, as compared with 532,000 acres reported at the corresponding date last year, or a decrease of 24 per cent attributed to the insufficiency of rains at sowing time. The early crop has been harvested in parts and the yield has been generally below normal. The standing crop has been affected by drought to some extent. In Guntur, the crop is reported to be withering for want of rains.

Bombay (9·7 per cent).—The area sown in the Presidency Proper is estimated at 505,000 acres (373,000 acres being in the Indian States), as against 488,000 acres reported at this time last year. In Gujarat, the crop in parts of Kaira and Broach and Panch Mahals districts was damaged by hairy caterpillars in its early stage and also suffered from excessive rain in the flowering period; elsewhere in the division, the crop is doing fairly well. In the Deccan, the crop is reported to be progressing well, except in Nasik where it has suffered for want of timely rain. In the Karnatak, the crop has suffered much owing to deficient rain in September and this may result in reduced outturn. In the Konkan, the crop is reported to be doing well.

In Sind, the area sown is so far reported to be 34,000 acres (including about 200 acres for the Khairpur State), as compared with 32,000 acres (revised) at this time last year. The crop, which is in flower or in the pod formation stage, is reported to have been attacked with *aphis* disease in the Thar Parkar district.

The total area in Bombay (including Sind and Indian States) is thus estimated at 539,000 acres (373,000 acres being in the Indian States), as against 520,000 acres (revised) at the corresponding time last year.

Central Provinces and Berar (8·8 per cent).—The area sown is estimated at 497,000 acres, as against 573,000 acres reported at this time last year. The decrease is attributed to unfavourable climatic conditions at sowing time. Owing to heavy and continuous rain in August and September, the growth

of the plants was stunted and the crop was damaged to some extent on low-lying and rich soils. But the break, which has subsequently set in, is likely to improve the condition of the crop. For the province as a whole, the outturn is now estimated at 91 per cent of the normal.

Bihar and Orissa (3·1 per cent).—The area sown is at present estimated at 139,000 acres, as against 199,000 acres reported at this time last year. The decrease is mainly noticeable in the Sambalpur district where the sowing of the late variety has just begun owing to heavy showers in September. Weather conditions have, on the whole, been favourable and the condition of the crop is reported to be generally fair. According to the estimates of the District Officers, the average outturn of the crop for the province is estimated at 88 per cent of the normal, as compared with the past ten years' average of 95 per cent. This means that the yield of this year's crop is expected to be 93 per cent of the last ten years' average.

Bengal (2·4 per cent).—No report is furnished in October. The figures reported in the August forecast for the early crop were 107,000 acres and 22,000 tons, as against 107,000 acres and 23,000 tons last year.

Punjab (2·1 per cent).—The area sown up to the end of September is estimated at 93,000 acres, as against 126,000 acres, the corresponding estimate of last year. The crop is reported to have been affected by scarcity of rains and its condition is reported to be 88 per cent of the normal.

Ajmer-Merwara (0·3 per cent).—The area sown is estimated at 16,000 acres, as against 19,000

acres reported at this time last year. The condition of the crop is reported to be good in Ajmer *tahsil* but fair in Kekri sub-division.

Hyderabad (8·1 per cent).—This is the first time that an estimate of the crop has been received from the State at this stage. The total area sown is now estimated at 403,000 acaes. The crop is reported to be faring well on the whole.

Bhopal* (1·4 per cent).—The area sown is estimated at 26,000 acres, as against 115,000 acres, the corresponding estimate of last year. Abnormally heavy and almost continuous rain in July, August and September afforded very little opportunity for sowing of the late crop with the result that the area under that variety has been seriously restricted this year. The crop is also reported to have been damaged extensively and its prospects are very poor.

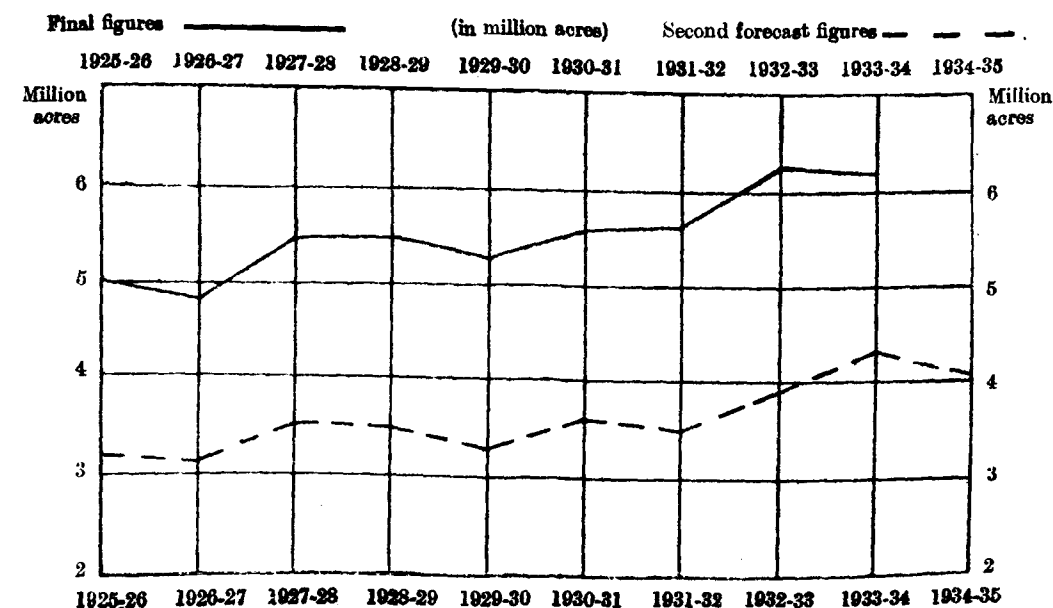

Baroda (1·2 per cent).—The area is estimated at 68,000 acres, as against 72,000 acres at this time last year.

Kotah† (0·8 per cent).—The area is reported to be 38,000 acres, as compared with 40,000 acres, the corresponding estimate of last year.

Chart.—The chart below illustrates the variations in the second estimates of acreage, as compared with the final figures of the preceding nine years. The second estimates, it should be remembered, exclude the 'mixed' crop (i.e., sesamum grown in combination with other crops) of the United Provinces and the late crops of Madras and Bengal. They also exclude the crop in the Hyderabad State up to the year 1933-34.

* In Central India. † In Rajputana.

AREA OF SESAMUM

SECOND GROUNDNUT FORECAST, 1934-35.

THIS forecast is based on reports received from the three provinces of Madras, Bombay and Burma and the States of Hyderabad and Mysore, which together contain 96 per cent of the total area under groundnut in India.

The total area sown in the above-mentioned tracts is estimated at 5,094,000 acres, as against 5,670,000 acres reported at the corresponding time last year. Excluding the Hyderabad State for which the area at the corresponding time of last year is not available, the present estimate shows a decrease of 26 per cent.

Weather conditions have not been favourable, and the present condition and prospects of the crop are reported to be only fair.

Details for the provinces and States are as follows:—

Second Forecast, October.

Provinces and States	1934-35	1933-34	Increase (+) or Decrease (—)
	(1,000 acres)	(1,000 acres)	(1,000 acres)
Madras	1,937	3,211	—1,274
Bombay (including Indian States)	1,504	1,695	—191
Burma	611	547	+64
Hyderabad	910	(a)	..
Mysore	123	217	—94
TOTAL	5,094	(b) 5,670	(b) —1,495

(a) Not available.
(b) Excluding Hyderabad.

The provincial reports are summarised below. The figures in brackets following the name of each province and State indicate the average percentage of the total area under groundnut in India cultivated in that province or State during the five years ending 1932-33.

Madras (49.9 per cent).—The area sown up to the 25th of September is estimated at 1,937,000 acres, as against 3,211,000 acres reported at the corresponding date of last year, or a decrease of 40 per cent, which is attributed to the insufficiency of rains at sowing time and to the fall in the price of groundnut. Harvesting of the summer crop and of the early crop in Salem and Coimbatore has been completed, and the yields have been generally below normal. The condition of the standing crop is not satisfactory outside Vizagapatam, Kurnool, Cuddapah, Chittoor and North Arcot. The crop was affected by heavy rains in Ganjam and by drought in other districts. It is reported to be withering in parts of Guntur and Salem, while it has withered in parts of Bellary, Anantapur and Tanjore.

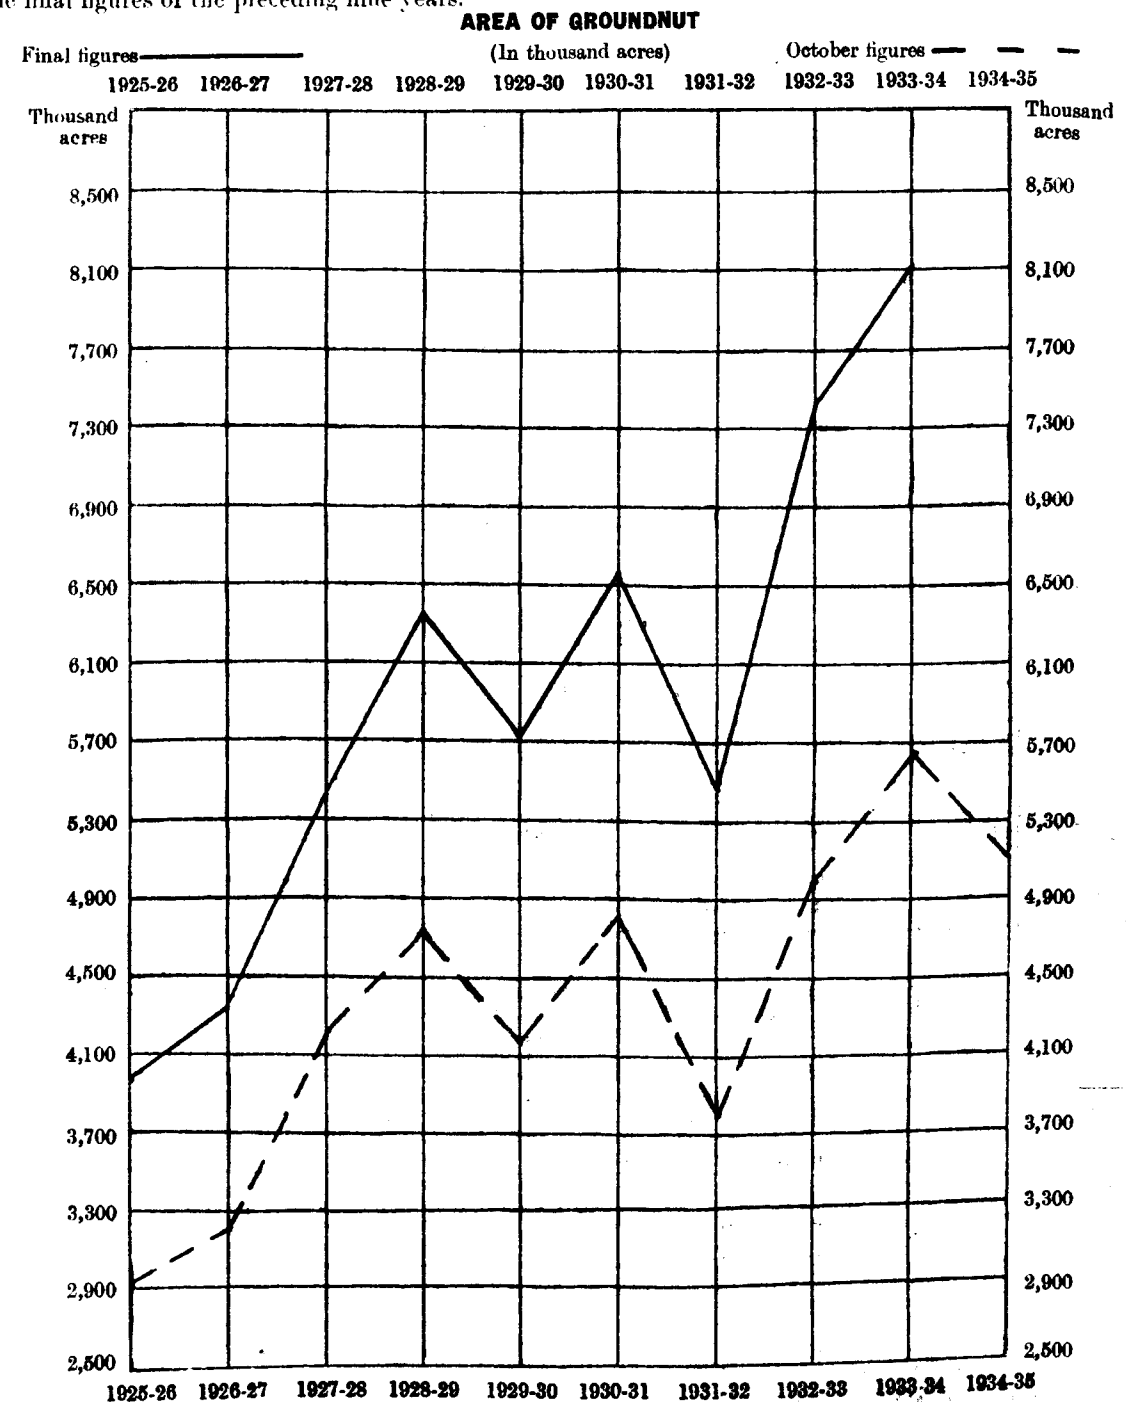

Bombay (23.1 per cent).—The area sown is reported to be 1,504,000 acres (630,000 acres being in the Indian States), as against 1,695,000 acres estimated at the corresponding date of last year. There has been a decrease in area in the Deccan and Karnatak which is attributed to deficient rains at sowing time. In Gujarat, the crop on heavy soils in Khandesh turned yellow owing to heavy rains in August and September but it is now reported to be improving under favourable break; elsewhere in the division the crop has been affected by long drought except in Satara where the condition of the crop is reported to be satisfactory. In the Karnatak, the crop is badly suffering from deficient rains and may result in reduced outturn.

Burma (8 per cent).—The area sown is estimated at 611,000 acres, as against 547,000 acres reported at the corresponding date of last year. The condition of the standing crop is reported to be fair in Pakokku, Meiktila, Shwebo and Sagaing districts but good elsewhere. More rain is, however, needed in Pakokku and Sagaing districts.

Hyderabad (10.6 per cent).—This is the first year that a forecast of the crop has been received at this stage from the State. The total area under the crop is now estimated at 919,000 acres; and the condition of the crop is reported to be generally fair.

Mysore (4.5 per cent).—The total area sown is reported to be 123,000 acres, as against 217,000 acres at the corresponding date of last year. Prospects are reported to be generally unfavourable at present and more rain is needed.

Chart.—The chart below shows the variations in the October estimates of area as compared with the final figures of the preceding nine years.

COTTON PRESSING FACTORIES IN BENGAL, 1934.

THE following list supplements the list of Cotton Pressing Factories in Bengal for the Cotton year 1934, published in the *Indian Trade Journal*, dated the 6th September, 1934 (page 1148)*:—

Name of Factory.	Location.	Name of Owner or Lessee.	Special Mark.
1. Camperdown Jute Press	5, Rustomjee Parsee Road, Cossipore.	Camperdown Pressing Co., Ltd. (Managing Agents: Messrs. Jute Industries, Ltd.)	14 L.
2. Sun Jute Press	3, Cossipore Road, Cossipore	Messrs. Radhakissen Motilall	3 L.

* Vide also the *Indian Trade Journal*, dated the 13th September, 1934 (page 1306).

SUMMARY OF CROP FORECASTS.

The following is a summary of crop forecasts relating to the season 1934-35 :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute— Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	2,497,000	99.2	2,517,000	7,964,000 bales (c)	99.4	8,012,000 bales (c)	Sept. 6, 1934.
Cotton— Second.	All cotton-growing tracts (refers mainly to early cotton).	20,365,000	103	23,739,000	(b)	..	4,970,000 bales	Oct. 25, 1934.
Sugarcane— Second.	United Provinces, Punjab, Bihar and Orissa, Bengal, Madras, Bombay, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal (96 per cent of the total sugarcane area of India).	3,444,000	103	3,305,000	(b)	..	5,067,000 tons	Oct. 25, 1934.
Rice— First.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces, Central Provinces and Berar, Assam, Bombay, Hyderabad, Baroda and Bhopal (96 per cent of the total rice area of India).	75,261,000	100.2	81,977,000	(b)	..	80,353,000 tons.	Oct. 25, 1934.
Groundnut— Second.	Madras, Bombay, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	5,094,000	74(d)	8,115,000	(b)	..	3,235,000 tons	Nov. 1, 1934.
Sesamum— Second.	Burma, United Provinces, Madras, Bombay, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal, Baroda, and Kotah (89 per cent of the total sesamum area of India).	4,097,000	80(d)	6,192,000	(b)	..	535,000 tons	Nov. 1, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (a) Including Cochin Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	1,556,000	96	1,617,000	146,000 tons	97	151,000 tons	Feb. 22, 1934.
Rape and Mustard— Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar, Baroda and Hyderabad (about 96 per cent of the total rape and mustard area of India).	6,032,000	99	6,094,000	952,000 tons	91	1,044,000 tons	May 31, 1934.
Linseed— Final.	Central Provinces and Berar, United Provinces, Bihar and Orissa, Bombay, Bengal, Punjab, Hyderabad, Kotah and Bhopal (about 94 per cent of the total linseed area of India).	3,257,000	99	3,299,000	377,000 tons	92(a)	406,000 tons(a)	May 31, 1934.
Wheat— Final.	Punjab, United Provinces, Central Provinces and Berar, Bombay, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	36,062,000	109	33,970,000	9,358,000 tons	99	9,449,000 tons	Aug. 16, 1934.

* Including Indian States. † In Rajputana. ‡ In Central India. (a) Excluding Bhopal from which report has been received for the first time this year.

FOREIGN TRADE OF BRITISH INDIA IN SEPTEMBER, 1934.

Merchandise.—The trade returns for September, 1934, are summarised below :—

Month of September

	1933	1934	Increase (+) or decrease (—) in 1934, as compared with 1933	
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Per cent
Exports	11,80	11,85	+55	+4.9
Re-exports	81	22	-9	-29.0
Total exports	11,61	12,07	+46	+4.0
Imports	8,75	10,55	+1,80	+20.6
Excess of total exports over imports	2,86	1,52	—	—

Six months, April to September

	1933	1934	Increase (+) or decrease (—) in 1934, as compared with 1933	
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Per cent
Exports	71,04	73,95	+2,91	+4.1
Re-exports	1,61	1,86	+25	+15.5
Total exports	72,65	75,81	+3,16	+4.3
Imports	55,49	62,18	+6,69	+12.0
Excess of total exports over imports	17,16	13,63	—	—

Treasure.—Imports of treasure (private) were valued at Rs. 14½ lakhs in September, 1934, as compared with Rs. 14 lakhs in the corresponding month of the last year. The exports on private account amounted to Rs. 1,11 lakhs in the month under report as against Rs. 5,82 lakhs in September, 1933.

Imports.—As compared with September, 1933, the value of Food, drink and tobacco rose by Rs. 21 lakhs to Rs. 1,12 lakhs in September, 1934, due mainly to increases in the imports of rice and sugar. Raw materials and articles mainly unmanufactured increased by Rs. 2 lakhs to Rs. 1,10 lakhs due chiefly to larger imports of raw cotton, although there was a decrease under mineral oils. Articles wholly or mainly manufactured amounting to Rs. 8,13 lakhs showed an increase of Rs. 1,59 lakhs, due chiefly to increases in the imports of dyes, metals, motor vehicles, cotton, woollen and artificial silk manufactures, and Postal articles by Rs. 1 lakh to Rs. 18 lakhs.

Comparing the values of the imports in September, 1934, with those in September, 1933, the chief increases and decreases are as follow :—

Increases		Increases—continued	
	Rs.		Rs.
Rice not in the husk	10,89,982	Motor cars	12,67,836
Sugar 16 D. S. and above (including beet)	6,52,656	" omnibuses	6,98,270
Steel bars	2,48,026	Artificial silk yarn	4,50,524
Copper, wrought	4,31,182	" " piecegoods	9,48,808
Cotton, raw	8,97,687		
" twist and yarn	4,67,221		
" piecegoods, Grey	15,75,460		
" " White	8,31,147		
" " Coloured	38,54,146		
Yarn and knitting wool	5,74,989		
Coal tar dyes	6,57,684		

The following are the principal instances of an increase in quantity combined with a decrease in value and vice versa :—

Quantity	Value	Quantity	Value
	Rs.		Rs.
Coconut oil	+57,460 gals.	Boots and shoes	+57,880
Cloves	+25 cwts.	Betelnuts	+40,998
Woollen piecegoods	+548,018 yds.	Camphor	+2,730 lbs.

Exports.—As compared with September, 1933, the exports of Food, drink and tobacco in September, 1934, increased by Rs. 59 lakhs to Rs. 3,85 lakhs, due to an increase in the exports of tea. Raw materials and produce increased by Rs. 59 lakhs to Rs. 4,65 lakhs, due mainly to increases in the exports of raw cotton, groundnuts, oilcakes and fodder, bran and pollards notwithstanding decreases in the shipments of linseed, castor seed and skins, raw. Articles wholly or mainly manufactured decreased by Rs. 64 lakhs to Rs. 3,24 lakhs, owing mainly to decreases in the shipments of jute gunny bags, coir manufactures and opium.

Comparing the values of the exports of Indian merchandise in September, 1934, with those in September, 1933, the chief increases and decreases are as follow :—

Increases		Decreases	
	Rs.		Rs.
Tea, black	50,11,555	Castor seed	11,04,397
Cotton, raw	72,53,459	Skins, raw	12,61,505
Lac (S)	6,17,440	Hides, tanned	5,46,652
Oilcakes	9,49,318	Linseed	41,93,380
Groundnuts	20,02,367	Opium	8,64,000
Jute, gunny cloth	19,64,149	Coir manufactures	9,90,693
Fodder bran and pollards	5,82,686	Jute, gunny bags	41,50,406

The following are the principal instances of an increase in quantity combined with a decrease in value and vice versa :—

Quantity	Value	Quantity	Value
	Rs.		Rs.
Turmeric	+8,90 cwts.	Butter	+23 cwts.
Gram	—54 tons	Essential seeds	+67 tons
Hides, raw	+69 "	Mustard seed	—39 "
Lac	—7,280 cwts.	Cotton—piecegoods	+110,835 yds.
Skins, tanned	+27 tons	Raw wool	—39,523 lbs.

Trade in six months, April to September, 1934.—During the six months ended September, 1934, the value of the imports increased, as compared with the corresponding period of 1933, by Rs. 7 crores or 12 per cent and amounted to Rs. 62 crores and the total exports, including re-exports, rose by Rs. 2,66 lakhs or 4 per cent to Rs. 75 crores. The exports of Indian merchandise showed an increase of Rs. 2,91 lakhs or 4 per cent and re-exports decreased by Rs. 25 lakhs or 15 per cent. The grand total of imports, exports and re-exports amounted to Rs. 137 crores as against Rs. 128 crores, an increase of Rs. 9 crores or 7 per cent.

Imports of treasure (private and Government) increased by Rs. 1,53 lakhs to Rs. 2,39 lakhs. Gold bullion fell by Rs. 12 lakhs to Rs. 27 lakhs, sovereigns and other British gold coin by Rs. 5 lakhs to Rs. 10 lakhs, and other coined gold by Rs. 48 thousands to Rs. 82 thousands. The value of silver imported increased by Rs. 1,71 lakhs to Rs. 1,99 lakhs, while imports of currency notes fell by Rs. 70 thousands to Rs. 1½ lakhs. Exports of treasure decreased by Rs. 6,15 lakhs to Rs. 27,06 lakhs. Exports of gold alone amounted to Rs. 23,25 lakhs as against Rs. 28,16 lakhs in 1933.

Balance of Trade.—India's visible balance of trade in merchandise and treasure during the six months, April to September, 1932, 1933, and 1934 is shown in the following table. The figures are arrived at by combining the balances of transactions in (1) private merchandise and (2) treasure (private account). The balance of remittances of funds is also shown with details at the end of this table. In these balances the sign plus (+) indicates net export and minus (—) net import.

	SIX MONTHS, APRIL TO SEPTEMBER		
	1932	1933	1934
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)
Exports of Indian merchandise (private)	+80.59	+71.04	+73.95
Re-exports of foreign	+1.48	+1.61	+1.36
Imports of foreign	—70.80(a)	—55.35(a)	—61.00(a)
Balance of trade in merchandise	—8.73	+17.30	+13.41
Gold (private)*	+28.06	+27.61	+22.87
Silver (private)*	—75	+15	+99
Currency notes (private)	+4	+9	+16
Balance of transactions in treasure (private)*	+28.35	+27.85	+24.02
Total visible balance of trade	+19.62	+45.15	+37.48
Council Bills, purchases of sterling and other Government remittances to the United Kingdom (b)	—13.21	—24.65	—21.28
Sterling transfers on London sold in India	—5	+9	—9
Transfers of Government securities	—16	—20	—11
Interest drafts on India in respect of Government of India securities			
Balance of remittances of funds	—13.42	—24.76	—21.48

Shipping.—In the month of September, 1934, there were 219½ arrivals and 236½ sailings with cargoes in and from India, as against 187 and 241 respectively in September, 1933.

The tonnage (net register tonnage) of vessels entered with cargoes at ports in British India from foreign countries and British Possessions during the six months ended September, 1934, amounted to 3,764,460 and the tonnage (net register tonnage) cleared to 3,901,116 as against 3,490,368 tons entered and 3,797,460 tons cleared during the corresponding period of 1933.

* Quantity decreased.
(a) Exclusive of the value of Railway materials (Rs. 12 lakhs, Rs. 14 lakhs and Rs. 28 lakhs in the six months, April to September, 1932, 1933 and 1934, respectively), imported direct by State Railways working under Company management which was not paid for in the ordinary way and not, therefore, taken into account in arriving at the balance of trade.
(b) This head includes, in addition to Council Bills, (1) Sterling purchases in India and (2) payments in India to Local Bodies, etc., against proceeds of sterling loans floated by them in London and taken over by the Secretary of State.
* These exclude transactions which do not enter into the balance of trade.
† The provincial details are as follows :—Bengal 17, Bombay 47, Sind 31, Madras 86 and Burma 31.
‡ The provincial details are as follows :—Bengal 24, Bombay 31, Sind 40, Madras 107 and Burma 30.

SEA-BORNE TRADE OF THE BOMBAY PRESIDENCY, EXCLUDING SIND, 1933-34.

THE following extracts from the Report on the Sea-borne Trade of the Bombay Presidency, excluding Sind, for the official year ending 31st March, 1934, are published for general information :—

GENERAL SUMMARY.

The following statement summarises the sea-borne trade, foreign and coasting, inclusive of Government transactions, of the Bombay Presidency for the year ending March 31st, 1934, and the four previous years :—

—	1929-30.	1930-31.	1931-32.	1932-33.	1933-34.	Increase or Decrease in 1933-34.
(I) FOREIGN TRADE (PRIVATE).	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
<i>Imports.</i>						
Merchandise	82,65,31,263	56,93,80,038	49,76,07,176	54,31,54,339	46,18,75,025	-8,12,79,314
Gold	8,91,36,217	8,78,04,419	1,66,13,106	76,73,840	56,60,687	-20,13,153
Silver	9,65,17,312	9,05,86,092	2,73,38,463	1,10,00,490	40,35,666	-69,64,824

The year under report opened with a brighter outlook than that of the preceding one owing to the gradual clearance of the political atmosphere in India. For the first time, after a long spell of political weariness, the trade had breathing time to take stock of the existing position. It was expected that the World Economic Conference and the Disarmament Conference which were to be held during the year would so adjust and improve conditions abroad that India would also be beneficially affected by the results of such deliberations. But these expectations were not realised, as the Conferences did not succeed in formulating schemes for the solution of the economic difficulties which had beset the nations of the world. Needless to say that the failure to find the expected relief had its repercussions in India. The American experiments for the improvement of business and economic conditions caused considerable instability and uncertainty in trade circles. There was another factor which made trade apprehensive and nervous in placing orders for goods. Although by the commencement of the official year, it had got accustomed to the preferential tariff imposed as a result of the Ottawa Agreement, it was generally known that other changes in the tariff were contemplated, and while the negotiations and discussions with the Japanese and Lancashire Trade Delegations lasted, considerable uneasiness as to the final outcome of these was felt. Badly bitten as the trade was by years of continued depression, it was in no mood to take a leap in the dark, and a cautious and conservative spirit guided it in putting through its transactions. The local Textile Industry felt very severely the strain imposed on it by Japanese competition. The depreciated prices at which goods of Japanese manufacture continued to be imported and sold dislocated not only the Textile Industry but also trade in general to a considerable extent. Some deflection of trade to non-British Indian ports and the poor purchasing power of the masses resulting from the low prices which agricultural produce continued to fetch constituted the other factors which contributed to the marked setback which the Foreign trade of the Presidency of Bombay (excluding Sind) suffered during the year under review.

Exports of gold though lesser than those of the previous year continued to be heavy. The appreciable increase in the exports of Indian produce is a redeeming feature of the year and give some definite hope of a revival in the export side of the foreign trade.

Imports of private merchandise which had been declining for 4 years since 1928-29, though improved by Rs. 4·55 crores in 1932-33, again contracted by Rs. 8·13 crores or nearly 15 per cent to Rs. 46·19 crores. This is partly due to falling prices and partly to the general trade depression. Most of the principal articles of import have shared in this contraction, the more important being cotton raw (including waste), cotton manufactures, artificial silk, oils and cotton twist and yarn. The only important articles which have recorded noticeable increases are machinery and millwork and motor cars and motor cycles (including omnibuses, etc., and parts). Imports of treasure further declined from Rs. 1·91 crore to Rs. 1·01 crore.

Exports of Indian produce improved by Rs. 4·24 crores or nearly 18 per cent to Rs. 27·41 crores. Had it not been for the low level of commodity prices, the improvement would have been more noticeable. Most of the principal articles of export have contributed towards it, the more important being cotton raw (including waste), seeds, wool raw and hides and skins raw; cotton manufactures, grain, pulse and flour and oil cakes however recorded decreases.

The percentage distribution of Bombay's trade indicates that the United Kingdom has regained the pride of place which she had yielded to Japan last year. The share of the United Kingdom in the total trade improved by nearly 3½ per cent, while that of Japan declined by 2¼ per cent owing chiefly to smaller takings of cotton, raw. Trade with the Continent of Europe showed a slight improvement while that with America declined by over 2¼ per cent.

The value of the total foreign trade of Bombay Presidency, excluding Sind, further contracted by Rs. 11·56 crores, or 8 per cent to Rs. 130·49 crores. Both imports and exports shared in this heavy decline—the former by Rs. 9·03 crores and the latter by Rs. 2·53 crores, in spite of heavy shipments of articles of Indian produce. Both imports and exports of the precious metals also declined by Rs. 89·77 lakhs and Rs. 6·95 crores, respectively.

The value of the total coasting trade also declined by Rs. 1·58 crore, or 3 per cent to Rs. 49·96 crores, exports decreasing by Rs. 1·91 crore, but imports increasing by Rs. 33·04 lakhs.

The gross collections of the Bombay Customs House declined from Rs. 15,80,23,178 to Rs. 14,03,82,418. These figures exclude the collections on account of various cesses such as the cotton cess and the tea cess. The ratio of true expenditure to revenue was 1·07 as against 0·9 per cent, in the previous year.

CHIEF PORT—BOMBAY.

The total sea-borne trade of the port of Bombay with foreign countries and Indian ports is shown in the subjoined table :—

—	1929-30.	1930-31.	1931-32.	1932-33.	1933-34.	Increase or Decrease in 1933-34.

Total, Private Trade	2,31,66,68,036	1,81,17,20,644	2,01,89,29,690	1,86,76,96,785	1,72,67,40,522	—14,09,56,263
III.—Aggregate Government Transactions.	5,42,65,104	3,45,46,080	2,39,90,754	1,91,21,161	5,16,65,713	+3,25,44,552
Total, Trade	2,37,09,33,140	1,84,62,66,724	2,04,29,20,444	1,88,68,17,946	1,77,84,06,235	—10,84,11,711

The aggregate value of the Foreign trade (private) of Bombay further fell by Rs. 11·63 crores to Rs. 130·4 crores, i.e., 8 per cent., or if treasure be excluded, by Rs. 3·78 crores or nearly 5 per cent, to Rs. 75·66 crores. During the same period the foreign trade of Calcutta improved by Rs. 3·64 crores, or 4 per cent, to Rs. 90·65 crores while that of Karachi declined by Rs. 50·67 lakhs, or nearly 2 per cent, to Rs. 27·19 crores. Imports of merchandise into Bombay fell by nearly 15 per cent while those into Calcutta and Karachi by 7 per cent, and 20 per cent respectively. Cotton raw (including waste), cotton manufactures, artificial silk, oils, cotton twist and yarn, silk raw (including waste), metals and ores, sugar, paper and pasteboard, glass and glassware, silk manufactures, and fruits and vegetables mainly account for the decrease at Bombay; cotton goods (excluding twist and yarn), sugar, salt, grain, pulse and flour and tobacco at Calcutta; and cotton manufactures and sugar at Karachi. On the other hand, there were noticeable improvements in the imports of machinery and millwork, motor cars and motor cycles (including omnibuses, etc., and parts), instruments and apparatus, etc., and grain, pulse and flour at Bombay; machinery and millwork, metals and ores, motor cars and motor cycles and mineral oils at Calcutta and machinery and millwork at Karachi.

Exports of Indian produce advanced by Rs. 4·17 crores, or 18 per cent, to Rs. 27·34 crores at Bombay, by Rs. 6·15 crores, or nearly 12 per cent, to Rs. 58·12 crores at Calcutta and by Rs. 2·75 crores, or 25 per cent to Rs. 13·58 crores at Karachi. Cotton raw (including waste), seeds, wool raw and hides and skins, raw are chiefly responsible for the increase at Bombay; tea, lac, hides and skins, raw, jute, raw, opium and cotton, raw at Calcutta and cotton, raw, wool, raw and hides and skins, raw at Karachi. On the other hand, the only noticeable decreases were of cotton manufactures at Bombay, grain, pulse and flour and jute manufactures at Calcutta and seeds and grain, pulse and flour at Karachi.

The total value of the private coasting trade, excluding treasure, also fell away by Rs. 2·25 crores, or 5 per cent to Rs. 42·07 crores. Imports improved but exports declined. Of the principal articles under imports, cotton raw (excluding waste) and grain, pulse and flour showed an improvement while oils—petroleum dangerous, etc., jute manufactures (excluding twist and yarn) and tea declined; under exports noticeable decreases were recorded under cotton piecegoods, cotton twist and yarn and grain, pulse and flour. Re-exports of foreign merchandise increased by Rs. 27·44 lakhs to Rs. 4·41 crores mainly as a result of larger re-shipments of carriages and carts and parts thereof.

FOREIGN TRADE.

The following table shows the value of the import and export trade of the port of Bombay grouped according to the classes under which they are shown in the Government accounts :—

Articles.	1929-30.	1930-31.	1931-32.	1932-33.	1933-34.	Increase or Decrease in 1933-34.

Total, Exports . . .	74,22-98	56,25-35	34,35-29	25,13-93	29,49-41	+4,35-48

Imports.—All the classes except the unimportant class IV recorded decreases. The most important group under imports is class III—Articles wholly or mainly manufactured—which recorded a decrease of Rs. 3-04 crores owing mainly to smaller arrivals of most of the principal articles, the more important among them being cotton yarn and manufactures, other yarn and textile fabrics, metals other than iron and steel, glass and glassware, paper, paste-board and stationery, silk yarn and manufactures, rubber manufactures, chemicals, drugs and medicines and leather and manufactures thereof. Machinery of all kinds, vehicles (excluding locomotives for Railways), electrical goods and apparatus (other than machinery), woollen yarn and manufactures, cutlery, hardware and instruments and apparatus, etc., however, showed noticeable increases. Class II recorded a greater fall, viz., of Rs. 4-6 crores which was chiefly due to smaller arrivals of cotton raw and waste, oils, silk raw and waste, and wool raw. Smaller receipts of sugar, fruits and vegetables, provisions and oilman's stores, spices, tea, and tobacco account for the decrease of Rs. 48-04 lakhs in class I.

Exports—Indian Produce.—Classes II, IV and V showed an improvement. The increase of Rs. 4-28 crores in the most important Class II is due mainly to larger shipments of cotton, raw and waste, seeds including nuts for oils, wool raw and waste and hides and skins, raw and untanned. Smaller despatches of grain, pulse and flour and spices account for the fall of Rs. 11-65 lakhs in Class I and those of cotton yarn and manufactures are responsible for the falling off of Rs. 2-71 lakhs in Class III. Shipments of hides and skins, tanned or dressed and leather and dyes and colours, however, showed marked increases.

Re-exports.—The increase of Rs. 22-38 lakhs in Class III was almost entirely due to larger reshipments of other yarns and textile fabrics and silk yarn and manufactures. Smaller re-exports of hides and skins, raw and untanned, were, however, chiefly responsible for the decrease of Rs. 2-03 lakhs in Class II.

IMPORTS.

The following table shows imports other than Government importation arranged in order of comparative importance :—

Articles.	1929-30.	1930-31.	1931-32.	1932-33.	1933-34.	Increase or Decrease in 1933-34.	Percentage of each item to total imports of Merchandise in 1933-34.	Percentage of Trade of United Kingdom in each article.

Total Merchandise	82,63,68,911	56,93,20,130	49,75,42,932	54,30,07,765	46,16,46,538	-813-61	100-00	33-9	27-48	26-0	26-4	31-1

The total value of imported merchandise which had been successively declining from 1928-29 to 1931-32, though improved by Rs. 4-55 crores in 1932-33 again contracted by Rs. 8-14 crores to Rs. 46-16 crores in the year under review. This is chiefly attributable to lower level of commodity prices consequent upon the general trade depression and reduced purchasing power of the people. The contraction is more marked in cotton raw (including waste), cotton manufactures, artificial silk, oils, cotton twist and yarn, silk raw (including waste), and metals and ores. Sugar, paper and paste-board, glass and glassware, silk manufactures including silk yarn, noils, and warps and fruits and vegetables also recorded decreases. The only articles in which increases were noticeable were machinery and millwork, motor cars and motor cycles, etc., and instruments and apparatus, etc. The decrease of Rs. 14-9 lakhs under paper and pasteboard can be traced to reduced supplies from all the principal supplying countries except the United Kingdom whose shipments increased from Rs. 15-67 lakhs to Rs. 19-55 lakhs and the fall of Rs. 14-83 lakhs under glass and glassware mainly to smaller arrivals of bangles from Japan and Czechoslovakia. Fruits and vegetables fell by Rs. 12-25 lakhs chiefly owing to smaller receipts of dates from Iraq. Shipments of almonds from Italy, however, improved by Rs. 3-19 lakhs but those from Persia declined by Rs. 1-68 lakh. Smaller supplies of canned and bottled provisions from the United Kingdom and the Netherlands were mainly responsible for the fall of Rs. 8-59 lakhs under provisions and oilman's stores. In spite of larger arrival from Japan of chemicals and chemical preparations the total imports thereof declined by Rs. 7-91 lakhs owing mainly to smaller supplies from all the other sources of supply while the decrease of Rs. 6-13 lakhs under rubber is accounted for by smaller shipments of pneumatic motor covers from the United States of America, Italy and Germany. The United Kingdom, however, increased her supplies. Imports of carriages and wagons and parts for railways declined by Rs. 4-36 lakhs due almost entirely to reduced despatches of wagons and parts from the United Kingdom while those of earthenware and porcelain fell by Rs. 3-62 lakhs owing to smaller arrivals from Japan. Imports of tobacco recorded a decrease mainly as a result of smaller receipts of unmanufactured tobacco from the United States of America and of cigarettes from the United Kingdom. Imports of instruments, apparatus and appliances, etc., on the other hand, showed an improvement of Rs. 20-34 lakhs mainly on account of increased shipments of electrical appliances from the United Kingdom and cinematograph films from Germany and the United Kingdom. Supplies of grain, pulse and flour also rose by Rs. 11-38 lakhs owing to larger receipts of pulse from Iraq and rice not in the husk from Japan.

EXPORTS.

Tanganyika Territory	5.99	3.81	2.55	1.81	1.62	—19

The entrepôt trade of Bombay which had been continuously declining since 1927-28 improved during the year under report and amounted to Rs. 2.16 crores as against Rs. 1.97 crore in the previous year. The increase of Rs. 19 lakhs is mainly due to larger re-shipments of metals and ores, cotton manufactures, cotton raw and silk manufactures. Re-exports of metals and ores advanced from Rs. 9.69 lakhs to Rs. 17 lakhs in consequence of increased demands from Japan and Italy particularly for scrap iron for re-manufacture. Re-shipments of cotton manufactures further rose from Rs. 46.25 lakhs to Rs. 51.41 lakhs representing increased re-exports of coloured piecegoods to Persia, of white to Persia and Iraq and of grey to Aden and Dependencies, Ceylon and Muskat Territory. Re-shipments of cotton grey piecegoods to Iraq fell from 3 million to nearly 1½ million yards in quantity and from Rs. 6.89 lakhs to Rs. 3.52 lakhs in value. Smaller demand from the United Kingdom and the United States of America is chiefly responsible for the fall of Rs. 7.62 lakhs in the re-exports of hides and skins. Re-exports of cotton twist and yarn also fell by Rs. 5.51 lakhs to Rs. 4.11 lakhs due to lesser demand from Persia and those of wool manufactures by Rs. 3.56 lakhs to Rs. 4.7 lakhs as a result of reduced demand for carpets and rugs from the United Kingdom.

EXPORTS—contd.

Indian Produce and Manufactures.

In the following table the relative values of the more important articles of export are shown :—

	1929-30.	1930-31.	1931-32.	1932-33.	1933-34.	Increase or Decrease in 1933-34.	Percentage of each item to total exports of merchandise in 1933-34.

Exports of Indian produce and manufactures which were continuously declining for the last four years improved from Rs. 23.17 crores to Rs. 27.34 crores during the year under review. This increase is chiefly spread over cotton, raw, seeds, wool raw, hides and skins, raw and tanned, metals and ores, myrabolans, etc., which represent nearly 77 per cent of the total export trade. Owing to the depression in the Textile Mill Industry in Bombay and Ahmedabad there was more shipment of raw cotton. There was an increase in the export of seeds, specially of linseed to America. Larger shipments to the United Kingdom account for the increase of Rs. 5.49 lakhs under myrabolans. Exports of oil cakes declined in consequence of smaller demand for groundnut cakes from Germany and for linseed cakes from Belgium, the Netherlands, the United Kingdom and Germany. The fall in the exports of spices is accounted for by lesser demand for ginger, cardamoms, and pepper from almost all the principal buying countries.

DIRECTION OF TRADE.

The following table shows the distribution of the trade of Bombay with foreign countries in the years 1932-33 and 1933-34 :—

	Imports (Merchandise).				Exports (Merchandise).				Percentage which the total of each country bears to the whole.	
			Percentage to total imports.				Percentage to total exports.

Sesamum—Second.	Burma, United Provinces, Madras, Bombay†, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal‡, Baroda, and Kotah§ (89 per cent of the total sesamum area of India).	4,097,000	86(d)	6,192,000	(b)	..	535,000 tons	Nov. 1, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (a) Including Cooch Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :-

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	Acres 1,556,000	96	Acres 1,617,000	146,000 tons	97	151,000 tons	Feb. 22, 1934.
Rape and Mustard—Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay†, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar†, Baroda and Hyderabad (about 98 per cent of the total rape and mustard area of India).	6,032,000	99	6,094,000	952,000 tons	91	1,046,000 tons	May 31, 1934.
Linseed—Final.	Central Provinces and Berar*, United Provinces, Bihar and Orissa, Bombay*, Bengal, Punjab, Hyderabad, Kotah† and Bhopal‡ (about 94 per cent of the total linseed area of India).	2,257,000	99	2,299,000	277,000 tons	92(a)	406,000 tons(a)	May 31, 1934.
Wheat—Final.	Punjab*, United Provinces*, Central Provinces and Berar*, Bombay*, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	22,062,000	109	22,970,000	9,358,000 tons	99	9,449,000 tons	Aug. 16, 1934.

* Including Indian States. † In Rajputana. ‡ In Central India. (a) Excluding Bhopal from which report has been received for the first time this year.

Nov. 8, 1934.]

THE INDIAN TRADE JOURNAL.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :-

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Witter Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsarop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.
8. The Manager of Publications, Civil Lines, Delhi.
9. The High Commissioner for India, Publications Branch, India House, Aldwych, London, W. C. 2.

The price of each standard specification is eight annas or 10d. postage extra (5 annas if sent by inland registered post and 2 annas if sent by ordinary post).

Standard drawings can be obtained from the Office of the Chief Controller of Stores, Indian Stores Department. A charge of Re. 1 per copy is made for drawings of size 42" x 28" or over and eight annas per copy below that size, postage extra.

INDIAN STORES DEPARTMENT.

Sealing and Labelling of Samples.

Every sample forwarded by a firm to any office of the Indian Stores Department must be provided with a durable label securely attached to the sample

and sealed thereto by means of sealing wax or a lead, tin, or other suitable seal. The sealing arrangement used should show a clear impression of the firm's seal or stamp.

Any sample received without a durable label securely attached and sealed thereto is liable to be ignored.

INDIAN STORES DEPARTMENT.

Supply of Electrically driven Pumping set for the Joint Water Board, New Delhi (Tender No. N-3653).

The date for receiving tenders for the above, the call for which appeared in the *Indian Trade Journal*, of the 18th October, 1934, (page 285), is extended to the 29th November, 1934. Tenders will now be opened on the 30th November, 1934.

INDIAN STORES DEPARTMENT.

Supply of Garments for G. I. P. Railway Staff.

The Controller of Purchase, Indian Stores Department, Bombay, invites tenders for the supply of Garments for the G. I. P. Railway (Tender No. BX-3037).

Price of tender forms is Rs. 5 per set of two copies (not refundable).

Tenders will be received up to 10-30 a.m. on the 10th December, 1934, and opened at 11 a.m. on the 10th December, 1934.

INDIAN STORES DEPARTMENT.

Supply of Materials for the Army in India and Indian State Railways, etc.

The Chief Controller of Stores, Indian Stores Department (Textiles Section), invites tenders for the Stores detailed below.

Price of tender forms, etc., is as noted below per set of two copies (not refundable). Payment should be made in cash or by Money Order, quoting tender number and remitter's full address on the coupon. Cheques and stamps are not accepted. Omission to follow these instructions will result in delay in the issue of tender forms.

WEEKLY CABLE TO LONDON.

RAINFALL during week ending 4th November.—Widespread in Mysore on 3 days, Madras Presidency and Deccan 2, Peninsula, west of Peninsula, north Madras coast, west coast of the Peninsula and Konkan on 1 day. Some heavy falls in the coastal districts of south of Madras on the 29th October. Local or a few falls elsewhere.

Crops: Madras, week ending 27th October.—Good rainfall in Southern half of the Presidency; heavy in parts of Carnatic and South. Transplanting or sowing of paddy proceeding in parts of Carnatic, Central districts and west coast. Standing crops generally fair, except in parts of Deccan where adversely affected for want of rain. Bihar and Orissa, week ending 30th October.—Light rain fell in parts of Cuttack and Ranchi; no rain elsewhere. Standing crops including sugarcane generally good. Harvesting of *bhadoi* crops finished and threshing continues in some districts. Prospects of winter rice generally fair. Harvesting of early paddy commenced in Chota Nagpur. Sowing of *rabi* crops going on. Punjab, week ending 29th October.—Rain badly wanted. Standing crops generally average on irrigated and below average on unirrigated areas. Damage to sugarcane by "top borer" reported from parts of Ambala. Insect pests also caused damage to other crops in Mianwali and Dera-Ghazi Khan. *Desi* cotton damaged by boll worm in parts of Lyallpur and Multan. Central Provinces, week ending 27th October.—Weather clear and generally cool. Standing *kharif* crops satisfactory though *til* in parts of Mandla and some others elsewhere suffered for want of sufficient rain. Cotton in Katol *tahsil* damaged slightly on account of a plant disease. Harvesting of light rice continues and picking of cotton commenced in places in Nagpur and Buldana districts. Sowing of *rabi* crops in progress everywhere. Bombay, 3rd November.—General rain throughout Presidency except Gujarat. Rain beneficial to sown *rabi* crops and stimulating new *rabi* sowings but injurious to *kharif* crops in places. Unpicked cotton and other standing *kharif* crops in parts Deccan adversely affected and rice in Konkan lodged due rain. Early rice in Karnatak slightly damaged. Late cotton in Gujarat poor due deficient moisture. Assam, 5th November.—Weather seasonable. Outturn and prospects of crops fair. Bengal, week ending 31st October.—Excepting light showers in places week rainless. Preparatory tillage for and sowing of spring crops progressing under favourable conditions. Prospects of standing crops generally fair.

Bombay, 1st November. Cotton: Market steady. No. 3 Fine M. G. Oomras Rs. 182 December-January, 1935.

Calcutta, 3rd November.—Jute market steady but idle. Firsts Rs. 25-12. Hessians inactive. Nine

Porters Rs. 8-12; Elevens Rs. 11-3 Ready. Heavies also neglected with no fresh demand from consuming markets.

Calcutta, 2nd November.—Shellac T. N. Rs. 41-8.

Imperial Bank rate unchanged at $3\frac{1}{2}$ per cent.

Rangoon, 31st October.—Specials White Rice Big Mills Rs. 187-8; Small Mills Rs. 191 November. Paddy, 3rd November.—Rs. 76 to Rs. 77 (river) and Rs. 75 to Rs. 76 (rail).

Wheat, 1st November: Lyallpur.—Rs. 1-15-6 f.o.r. per maund. Bombay.—White Delhi, per cwt. railway terms Rs. 3-14 January and Rs. 4-3 May. 2nd November: Karachi.—Punjab White Rs. 19-12 per candy.

Twentieth Tea Sale, Calcutta, 29th and 30th October.—20 thousand chests Leaf for export and 11 thousand chests for Internal Consumption, average price As. 8-5 and As. 4-11, respectively and 8 thousand chests Dust at As. 5-3, sold. General tone of market lower. Commonest kinds both leaf and broken rather easier, common broken about steady, and medium broken lower by about 3 pies per lb. Leaf grades, with exception of any Orange Pekoes with style fully steady, declined 3 to 6 pies per lb. All types of Fannings however met improved demand, and prices for these and for any Broken Orange Pekoe grades with tip maintained. Internal Consumption: Good market for all grades with tendency for prices to advance. Ordinary Broken grades frequently a pie or two per lb. dearer, and any grades with tip and Orange Pekoes with style made improved prices. Dusts, although in good demand, did not always realise former quotations.

EXPORTS OF STICKLAC FROM BANGKOK.

—The following figures showing the exports of sticklac from Bangkok during the month of September, 1934, have been received from His Majesty's Consul-General at Bangkok:—

Countries of Consignment.	Quantity.		Value.
	Piculs.	Ticals.	
Singapore	335-00	6,700	
India	185-00	4,000	
Union of South Africa	4-97	150	
TOTAL	524-97	10,850	

[NOTE.—One picul=133½ lbs.; the rate of exchange on the 15th October, 1934, was Rs. 121½=100 ticals.]

EXTRACT FROM LINSEED CIRCULAR NO. 42 OF 1934 ISSUED BY THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH, INDIA.

London, 19th October, 1934—

Quotations for Linseed and Linseed Oil—		£	s.	d.
Indian Linseed.—October-November delivery c.i.f. per ton		11	3	9
Argentine Linseed.—October-November delivery c.i.f. (excluding duty) per ton		10	1	3
Linseed Oil.—October-November delivery (This quotation is for oil of United Kingdom crushing, delivered ex-mill, and not for foreign oil) per ton		18	12	6

Market Conditions.—Indian linseed offered more readily at about 5 shillings below last week's price but demand again disappointing, small business being confined to afloat and early shipments of Calcutta seed. Demand for cake remains unsatisfactory. Moderate trade effected on the Continent in La Plata seed parcels.

[NOTE.—Unless otherwise stated the quotations for Indian linseed in this circular refer to 'Calcutta' linseed. 'Bombay' Bold commands a premium over 'Calcutta'.]

Calcutta, 10th October, 1934—

Quotations for Linseed Oil—		Rs.	1-8-6
Linseed Oil, European make (Raw)	per gallon f.a.s.		
Linseed Oil, European make (Boiled)	per gallon f.a.s.	Rs.	1-10-6

Market Conditions.—The linseed market has registered a decline during the week, small business passing daily at prevailing rates.

Bombay, 13th October, 1934—

Quotations for Linseed Oil—		Rs.	3-6-0
Linseed Oil	per maund.		

Stocks of Linseed.—Linseed stock in Bombay on the 13th October, 1934, was estimated at 17,000 tons.

EXPORTS OF STICKLAC FROM SINGAPORE.

—The following figures showing the exports of sticklac from Singapore to countries outside Malaya during the month of September, 1934, have been received from the Registrar-General of Statistics, Straits Settlements and Federated Malay States, Singapore:—

Countries of Consignment.	Quantity.		Value.
	Tons	Dollars	
British India	19-96	6,410	
French India	1-42	496	
TOTAL	21-38	6,906	

[NOTE.—The rate of exchange at the end of September, 1934, was Rs. 155-38=100 dollars.]

NOTE ON PRODUCTION OF SUGAR DIRECTLY FROM CANE IN MODERN FACTORIES IN INDIA DURING THE SEASON 1933-34*

BY

R. C. SRIVASTAVA, B.Sc.,

Sugar Technologist, Imperial Council of Agricultural Research, India, Cawnpore.

I.—Number of Factories Operating.

THE remarkable expansion of the Sugar Industry in India, following on the grant of protection in 1932, is shown by the rate at which new factories

have been built during the last two years. Prior to 1932-33 there were only 31 cane factories in operation. The first batch of 27 new factories (including one small experimental factory) was added during 1932-33. Another 65 new factories were built for working in 1933-34, making a total of 123 factories in India, an increase of almost 400 per cent in two years.

The present Note deals with 112 out of the 123 factories, as 7 factories were not ready in time for working, 3 failed to submit returns and one has been excluded as it is a small experimental factory for training of students, with a nominal and uncertain output.

The following table shows the provincial distribution of factories working with cane during the last three seasons.

Table I.—Provincial Distribution of Factories working with Cane.

Provinces.	Number of Cane Factories operating.					
	Season 1933-34.				Season 1932-33.	Season 1931-32.
	New Factories commencing operation for the first time in 1933-34.	Factories commencing operation for the first time in 1932-33.	Factories commencing operation prior to 1932-33.	TOTAL.		
1. United Provinces	27	19	14	60	33	14
2. Bihar and Orissa	14	7	12	33	19	12
3. Punjab	5	..	1	6	1	1
4. Madras	2	..	2	4	2	2
5. Bombay	4	..	1	5	1	2
6. Bengal	2	..	..	2	..	..
7. Burma	..	..	1	1	1	1
8. Indian States	1	..	..	1	..	..
TOTAL	55	26	31	112	57	32

It will be seen that the United Provinces registered the largest increase, the number of factories in the province being now more than half of the total number working in India during the Season. For the first time two factories were built in Bengal and one in an Indian State. Burma is the only province in which no new factory was built during the year.

II.—Duration of Season.

Information regarding the duration of the cane crushing season under review is tabulated in the following Tables. Table II shows the dates of starting of campaign by factories in each province. One new factory in the Punjab failed to supply information regarding the date of commencing operations. Hence Table II gives particulars for 111 out of 112 factories.

* It may be pointed out that the present Note does not deal with the total production of sugar in India, but only with the portion produced by modern vacuum pan factories directly from cane. In addition to this considerable quantities of sugar are manufactured from cane by small scale open pan factories and also refined from gur in vacuum pan refineries.

Table II.—Dates of Commencement of Cane Crushing Season 1933-34.

Date of Starting.	United Provinces.		Number of Factories Started.						Total for India Season 1933-34.	Total for India Season 1932-33.
	New* Factories.	Old Factories.	Bihar and Orissa.		All Other Provinces.					
			New* Factories.	Old Factories.	New* Factories.	Old Factories.				
4th-17th October, 1933	..	..	..	..	..	1	1	..		
18th-31st October, 1933	1	..	..	..	..	..	1	3		
1st-7th November, 1933	1	7	..	3	1	..	12	7		
8th-14th November, 1933	1	8	..	7	..	..	16	9		
15th-21st November, 1933	2	10	..	3	..	1	16	13		
22nd-28th November, 1933	3	2	2	3	..	..	10	4		
29th November to 5th December, 1933.	2	2	1	..	..	..	5	2		
6th-12th December, 1933	..	1	..	..	..	..	1	5		
13th-19th December, 1933	3	2	1	2	1	1	10	3		
20th-26th December, 1933	1	..	1	..	2	..	4	1		
27th December, 1933, to 10th January, 1934.	5	..	2	..	..	..	7	7		
11th-25th January, 1934	5	1	2	..	2	2	12	1		
26th January to 8th February, 1934.	1	..	1	1	2	..	5	1		
9th-22nd February, 1934	1	..	3	..	1	..	5	1		
23rd February to 9th March, 1934.	..	..	..	..	1	..	1	..		
10th-23rd March, 1934	1	..	..	..	3	..	4	..		
24th March to 1st April, 1934	..	..	1	..	..	..	1	..		
TOTAL	27	33	14	19	13	5	111	57		

* The term "New Factories" denotes factories which commenced working for the first time during the Season 1933-34, whilst "Old Factories" covers all other factories and includes the factories which were in operation prior to 1932 as well as the new ones which commenced operations during the Season 1932-33. This nomenclature has been followed throughout the present Note.

The crushing season 1933-34 commenced at approximately the same period as the previous year's season, but, it is noteworthy that a factory in the Bombay Presidency established a record in early starting by commencing the campaign in the beginning of October.

The new factories were on the whole late in starting work. More than half of them were not ready

for working till the end of December. One new factory in Bihar and Orissa commenced working only in the beginning of April.

The majority of old factories throughout India began their Seasons between the beginning of November and the middle of December.

The dates of closing of the season are shown in Table III.

TABLE III.—Dates of Closing of Cane Crushing Season 1933-34.

Date of Closing.	Number of Factories Closed.						Total for India, 1933-34.	Total for India, 1932-33.

TOTAL .	27	33	13	18	12	5	108	57

The above table does not include 4 out of the 112 factories which worked during the season. Two of these (one new and one old) in Bihar and Orissa were so badly damaged by the earthquake of the 15th January, 1934, that they could not resume work before the close of the Season. A factory in Southern India was expected to continue working till September (the crushing season in this locality extending over 8 to 9 months in the year) and hence information regarding the date of closing of this factory also has been excluded from the above table. The only other factory not included in the above table is one of the factories situated in the Punjab which failed to submit a complete return.

All the factories, both new and old, in the United Provinces had stopped working by the end of May, 1934, whilst the crushing season in Bihar and Orissa lasted till the end of June—the latter province thus having an advantage of about a month. As against

this, it may be mentioned that much of the cane crushed by the Bihar factories towards the end of the season was obtained from the earthquake affected areas, which was transported, in many cases, over long distances. This was done as a measure of relief to the cane growers, as the recovery of sugar from such cane was generally low.

An old factory in Southern India continued working till the middle of July.

Statistics relating to the actual number of days (maximum, minimum and mean) for which factories worked during the season are summarised in Table IV. The figures in this Table are obtained by making allowance for stoppages of crushing during the period intervening between the dates of commencement and closing of the season. For comparison figures for the previous year are also shown in the Table.

Table IV.—Number of Days of Actual Working of Factories during Cane Crushing Season 1933-34.

Particulars.	Number of Days of Actual Working.							
	Season, 1933-34.				Season, 1932-33.			
	United Provinces.	Bihar and Orissa.	All other Provinces.	All India.	United Provinces.	Bihar and Orissa.	All Other Provinces.	All India.
Old Factories—								
Maximum	166	164	208	208	182	184	175	184
Minimum	60	84	84	60	114	95	43	43
Mean	128	119	137	126	144	154	112	143
New Factories—								
Maximum	172	128	143	172	179	175	..	179
Minimum	20	30	25	20	39	51	..	39
Mean	93	86	57	84	129	142	..	132
All Factories—								
Maximum	172	164	208	208	182	184	175	184
Minimum	20	30	25	20	39	51	43	39
Mean	112	105	84	106	136	149	112	138

It will be seen that the maximum number of days worked by a factory during the season 1933-34 was 208 against 184 in the previous year. The average number of working days for the whole of India during the season is, however, only 106 as against 138 last year.

This reduction in the number of working days was due to various causes: delay in completion of new factories, damage and dislocation caused by the earthquake, and a poor cane crop in the western parts of the United Provinces.

A further analysis of the duration of the cane crushing season is given in Table V.

Table V.—Analysis of Duration of Crushing Season.

Number of Working Days.	United Provinces.		Bihar and Orissa.		All Other Provinces.		All India, 1933-34.	All India, 1932-33.
	New Factories.	Old Factories.	New Factories.	Old Factories.	New Factories.	Old Factories.		
200 and over	..	..	..	..	..	1	1	..
175 to 199	..	..	..	..	..	1	1	7

25 to 49	1	..	2	..	6	..	9	2
24 and under	2	..	..	..	1	..	3	..
Total	27	33	13	18	12	5	108	55

It will be observed from this table that out of a total of 60 old and new factories in the United Provinces 11 worked for 150 to 174 days and 14 for 125 to 149, and 13 each for 100 to 124 and 75 to 99 days. In the case of Bihar and Orissa, out of a total of 31 factories only 5 worked for 150 to 174 days, 6 for 125 to 149 days and 7 for 100 to 124 days.

The comparative figures for the season 1932-33 show the longer duration of that season.

III.—Capacities of Factories.

Data relating to capacities of factories expressed in terms of the total quantity of cane crushed during the season 1933-34 are summarised in the following table.

Table VI.—Quantity of Cane Crushed by Factories during Season 1933-34.

IV.—Effect of Earthquake on the Sugar Industry.

The severe earthquake which occurred on the 15th January, 1934, caused very extensive damage to a number of sugar factories in Bihar. Of the 33 factories operating in the province all excepting about half a dozen had to be closed down temporarily after the earthquake, but fortunately the damage in most cases was not serious and work was resumed after a short time.

Eight factories were damaged seriously. Of these 3 are situated in the Champaran district, 2 in the Muzaffarpur district and 3 in the Darbhanga district. Two factories, one each in the districts

of Muzaffarpur and Darbhanga, were damaged to such an extent that they could not be re-started during the season. The total number of deaths reported from six of the eight factories is 32, whilst a much larger number of men received injuries. The cost of repairing the damage caused to plant and buildings of sugar factories is estimated at Rs. 20 lakhs.

The effect of the earthquake on recovery of sugar and number of working days of the eight factories referred to above may be estimated from the following table which gives comparative figures for the seasons 1932-33 and 1933-34.

Table VIII.—Effect of Earthquake on Factories which were severely damaged.

Factory.	District.	Recovery of Sugar per cent Cane.		Number of Working Days.	
		1933-34.	1932-33.	1933-34.	1932-33.
No. 1	Champaran	7.5	8.1	55	175
No. 2	Do.	8.2	8.4	105	174
No. 3	Do.	7.0	8.3	97	123
No. 4	Muzaffarpur	6.1	New factory	39	New factory
No. 5	Do.	7.2	8.5	117	143
No. 6	Darbhanga	8.4	8.7	131	177
No. 7	Do.	8.4	8.7	56	174
No. 8	Do.	8.6	8.7	90	173

The damage to standing cane crop was not serious but as a result of the break down of sugar factories and dislocation of rail and road transport approximately 150 lakh maunds of cane had to be disposed of from the affected area. Of this quantity about 30 lakh maunds were taken up by the damaged factories after they were repaired and re-started and about 33 lakh maunds were consumed by the undamaged and slightly damaged factories in the earthquake affected area. The Cane Marketing Board started by Government was able to supply further 27 lakh maunds to factories outside this area. The balance of 60 lakh maunds was either crushed in bullock driven mills for conversion into gur or was used as fodder.

The large quantity of cane, amounting to 90 lakh maunds, which was taken by factories from the earthquake area had a serious effect on their average recovery of sugar as, on account of difficulty of transport, most of this had considerably deteriorated before it could be crushed.

The damage to cane lands due to depositing of sand is not considered to be permanent or serious.

V.—Sugar Production.

The production of sugar direct from cane in India totalled 453,965 tons during the season 1933-34 as against 290,177 tons during 1932-33. Out of the total production for 1933-34, the production of sugar by new factories amounted to 147,706 tons, whilst that of old factories was 306,259 tons. The production of old factories thus shows an increase of 5.5 per cent over the previous year. The total increase in the output of sugar during the season 1933-34 over that of the previous year amounts to 163,788 tons.

The tables below show details of sugar production for factories in (a) the United Provinces; (b) Bihar and Orissa; (c) Bombay, Madras, the Punjab, Bengal, Indian States and Burma; and (d) India as a whole.

Table XII.—Total Production of Sugar and Molasses by Factories in India.

Particulars.	1933-34.			1932-33.		
	Old Factories.	New Factories.	Total.	Old Factories.	New Factories.	Total.
Number of Factories worked	57	55	112	31	26	57
Cane crushed . . . Tons	3,427,009	1,780,364	5,157,373	2,152,053	1,198,178	3,350,231
Sugar produced . . . "	306,259	147,706	453,965	187,685	102,492	290,177
Molasses produced . . . "	127,913	62,471	190,384	81,692	48,727	130,419
Recovery of sugar per cent cane . . .	8.93	8.53	8.80	8.72	8.55	8.66
Recovery of molasses per cent cane . . .	3.73	3.61	3.68	3.80	4.10	3.90

It will be observed that the quantities of cane crushed and sugar and molasses manufactured by the old factories in the United Provinces during 1933-34 were considerably larger than in 1932-33. But the new factories did not do as well as the old ones due to their lower extraction percentage and the shorter working period during the season. The working results of the new factories were inferior to

those of the old factories in all the provinces during this season.

The all-India increase in the quantity of cane crushed was over 53 per cent and in that of sugar and molasses produced 56 and 45 per cent, respectively.

An analysis of the average percentage recovery of sugar from cane for factories in different provinces during the season 1933-34 is given in Table XIII.

Table XIII.—Average Percentage Recovery of Sugar from Cane during Season 1933-34.

Particulars.	Average Percentage Recovery of Sugar from Cane.							
	1933-34.				1932-33.			
	United Provinces.	Bihar and Orissa.	All Other Provinces.	All India.	United Provinces.	Bihar and Orissa.	All Other Provinces.	All India.
Old Factories:—								
Maximum . . .	10.03	10.00	10.98	10.98	9.50	9.10	11.10	11.10
Minimum . . .	6.87	6.27	7.10	6.27	7.00	6.10	6.90	6.10
Mean . . .	9.21	8.38	9.26	8.93	8.48	8.67	9.90	8.72
New Factories:—								
Maximum . . .	10.27	9.50	9.90	10.27	9.20	9.20	..	9.20
Minimum . . .	6.60	5.50	4.38	4.38	6.70	6.90	..	6.70
Mean . . .	8.81	8.19	8.11	8.53	8.61	8.44	..	8.55
All Factories:—								
Maximum . . .	10.27	10.00	10.98	10.98	9.50	9.20	11.10	11.10
Minimum . . .	6.60	5.50	4.38	4.38	6.70	6.10	6.90	6.10
Mean . . .	9.08	8.32	8.75	8.80	8.55	8.60	9.90	8.66

The highest recovery for the season was 10.98 per cent as against 11.10 per cent during the preceding season. It is gratifying to note that in spite of a number of adverse circumstances the average extraction for the whole of India shows a slight increase, the figure being 8.80 for 1933-34 as against 8.66 for 1932-33.

The average extraction percentage shows a marked increase in the United Provinces, the figure being 9.08 per cent as against 8.55 per cent during the

previous year. But in Bihar and Orissa the recovery has declined from 8.60 per cent in 1932-33 to 8.32 per cent in 1933-34, due to the havoc wrought by the last earthquake.

The recovery of sugar in new factories was, on the whole, satisfactory though the figures for a few factories were very low.

A further analysis of the recovery of sugar is given in Table XIV.

Table XIV.—Analysis of the Recovery of Sugar.

Recovery of Sugar per cent Cane.	United Provinces.		Bihar and Orissa.		All Other Provinces.		All India.

Below 5 . . .	1	..	..	..	2	..	..	..
TOTAL . . .	27	33	14	19	14	5	112	57

This table brings out clearly the improvement in recovery which has been a feature of the results obtained by factories in the United Provinces during the last season. As many as 9 factories in India had recoveries of 10 per cent and over. Out of 112 factories in India 63 had recoveries of 8.5 per cent and over. The factories which did best in Northern India were those situated in the eastern districts of the United Provinces and in the Saran district of Bihar. This area was not affected either by the

earthquake or by the adverse natural conditions which prevailed in the west of the United Provinces, and the season in the area was therefore normal. This shows that, given a normal crop, the factories are now in a position to show results well above those obtained in the past.

A review of the average percentage recovery of sugar from cane during the last five seasons is given in Table XV.

Table XV.—Recovery of Sugar from Cane during the Five Seasons 1929-30 to 1933-34.

Province.	Recovery of Sugar per cent Cane.				
	1929-30.	1930-31.	1931-32.	1932-33.	1933-34.

1933-34	112	5,157,373	453,905	8.80	..

V.—Conclusion.

The year under report was in several respects an unfortunate one for the cane sugar industry of India. In the western districts of the United Provinces, which comprise a large cane acreage, the crop was damaged by late rains and floods followed by an attack of certain insect pests. The demand for cane was, at the same time, increased as a number of new factories were built in this area. This resulted in a shortage of cane supply and in a deterioration of the quality of the raw material, which on the one hand shortened the working season and on the other lowered the recovery of sugar of these factories. In North Bihar, another important sugar producing tract, the disastrous earthquake in January, 1934, caused serious damage to several factories particularly in the districts of Champaran, Muzaffarpur and Darbhanga. The diversion of cane crop to other factories was hampered by the dislocation of rail and road transport. Such cane from the earthquake area as could eventually be taken up by factories was so dry and stale that the average recovery of sugar was materially lowered.

It is a remarkable tribute to the inherent soundness of the industry that in the face of these adverse natural factors, and in spite of the fact that a record large number of new factories made their debut during the year, the all-India average recovery of sugar registered a distinct advance over the preceding year, which is most marked in the case of the United Provinces. The prospects for the coming season are favourable and it is expected that this improvement in recovery will be well maintained. Apart from a good crop and the improvements and extensions of plant, which have recently been made, the most hopeful feature consists in the realization on the part of factory owners of the supreme importance of employing only the best technical staff. The determining factor in the future, in regard to improvement in efficiency will be the extent to which the importance of employing none but the best qualified technical staff is realized.

Pusa.—Scientific Reports of the Imperial Institute of Agricultural Research (including the Reports of the Imperial Dairy Expert, Physiological Chemist and Sugarcane Expert)—1932-33. (Price Rs. 4-12).

STATISTICAL PUBLICATIONS—

The following publications have been issued by the Department of Commercial Intelligence and Statistics, India :—

(1) *Raw Cotton Trade Statistics (Rail and River)* for June, 1934. (Price Re. 1-10.) This publication contains statistics of raw cotton imported into and exported from each internal trade block in each province by rail and river from and to other trade blocks of the other provinces of India. A summary table showing the inter-provincial trade is also included.

(2) *Monthly Statistics of Cotton Spinning and Weaving in Indian Mills, July, 1934.* (Price As. 2.) This publication shows statistics of the quantity and counts of yarn spun and the quantity and description of woven goods manufactured in the Indian Cotton Mills during July, 1934, and four months, April to July, 1934. These statistics have been compiled from the returns furnished in accordance with the Cotton Industry (Statistics) Act of 1926.

(3) *Joint Stock Companies, August, 1934.* (Price As. 10 or 1s.) This publication shows (i) the number and authorised Capital of new Joint Stock Companies, registered in British India and certain Indian

States, (ii) the number and Capital of Companies which having ceased work went into liquidation or were finally dissolved or otherwise became defunct, and (iii) changes in the authorised Capital of existing Joint Stock Companies during the month of August, 1934.

Copies of the above publications are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depot, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, COMMUNIQUÉS AND OTHER NOTICES AFFECTING TRADE. STATE RAILWAY EARNINGS—

The total approximate gross earnings of all State-owned Railways for the period (13 days) ending the 13th October, 1934, amounted to Rs. 321 lakhs, Rs. 20 lakhs more than the figures for the period (8 days) ending the 30th September, 1934—compared with a period of 8 days calculated at 8/13th of the period of 13 days ending the 13th October, 1934—and Rs. 31 lakhs more than the actuals for the corresponding period of the previous year and Rs. 30 lakhs more than the actuals for the corresponding period of 1932-33. The total approximate gross earnings from the 1st April to the 13th October, 1934, amount to Rs. 46.12 crores or Rs. 265 lakhs more than the actuals for the corresponding period of the previous year and Rs. 348 lakhs more than the actuals for the corresponding period of 1932-33.

The following are the up-to-date approximate gross earnings of the State-owned Railways from the 1st April, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 13th October, 1933. (In lakhs of Rs.).	Up to 13th October, 1934. (In lakhs of Rs.).	Increase (+) or Decrease (—) as compared with the figures for the previous year. (In lakhs of Rs.).
A. B.	79	96	+16
B. N.	3.77	4.09	+32
B., B. and C. I.	5.25	5.52	+27
Burma	1.72	1.89	+17
E. B.	2.57	2.67	+10
E. I.	8.90	9.65	+75
G. I. P.	5.83	5.98	+15
M. and S. M.	3.73	3.82	+9
N. W.	6.94	7.43	+49
S. I.	2.82	2.93	+11
Tirhoot and Lucknow-Bareilly	95	97	+2
Other Railways	20	22	+2
TOTAL	43.47	46.12	+2.65

A credit adjustment of Rs. 7 lakhs (approximately) has been made by the Bengal-Nagpur Railway in the figures for 1932-33, due to the adoption of revised figures.

A comparison with the figures for the period (8 days) ending the 30th September, 1934—compared with a period of 8 days calculated at 8/13th of the period of 13 days ending the 13th October, 1934, for the principal State-owned Railways shows increases in the approximate gross earnings of all Railways. A comparison with the actuals of the corresponding period of 1933 shows increases in the approximate gross earnings of all the principal State-owned Railways except the Tirhoot and Lucknow-Bareilly.

The principal variations in earnings as compared with the corresponding week of the previous year, in thousands of rupees, were:—

A. B.	+ 67; mainly due to an increase in coaching and goods earnings.
B. N.	+1.03; coaching earnings (+1.10) due to increased earnings in passenger traffic; goods earnings (—12) under coal, iron ore and lime stone and other earnings (+5).
B., B. and C. I.	+ 2.28; chiefly due to an increase in goods earnings under coal and coke, grain and pulses, oilseeds, cotton, salt, smalls and other traffic in full wagon loads.
Burma	+ 33; coaching earnings (—9) and goods earnings (+42) due to improved grain traffic.
E. B.	+ 2.08; coaching earnings (+1.11) due to long lead Puja traffic and to more luggage and parcel traffic, goods earnings (+99) under ballast traffic, coal and home line stores and other earnings (—2).
E. I.	+13.46; coaching earnings (+3.30) due to Durga Puja holidays, goods earnings (+10.14) under coal, salt, iron, cement, kerosene oil, sugar and gram and pulses and other earnings (+2).
G. I. P.	+ 90; mainly due to an increase under food grains, oilseeds and general merchandise.
M. and S. M.	+ 2.63; coaching earnings (—90) due to less bookings of passengers, goods earnings (+3.49) under rice, groundnuts, cotton seeds and food grains other than wheat and rice and other earnings (+4).

N. W.	+5.65; coaching earnings (+1.48) due possibly to Dusehra holiday return tickets issued during this period, goods earnings (—3.93) under cotton raw, wheat, rice not in husk, gram and pulses, salt, iron and steel and fruits and vegetables and other earnings (+24).
S. I.	+1.89; coaching earnings (—60) due to Kandoori festival having occurred during the corresponding period of previous year and also to a general fall in the number of passengers travelling, goods earnings (+2.35) under grains, rice and paddy and other earnings (+14).
Tirhoot and Lucknow-Bareilly	—36; due to decreased coaching and goods earnings on the B. and N.W. and R. and K. Railways.

WAGONS OF REVENUE FREIGHT—

Comparisons of figures of wagon loadings on Class I Railways for the period (13 days) ending the 13th October, 1934, and for the cumulative period from the 1st April to the 13th October, 1934, with the corresponding periods of the previous year are as follows:—

(a) Total loadings during the period.

During the period (13 days) ending the 13th October, 1934, there were loaded on the broad gauge 149,651 wagons, being 15,533 more than in the corresponding period of the previous year, or an increase of 11.6 per cent. On the metre gauge there were loaded 86,626 wagons, being 6,862 more than in the corresponding period of the previous year, or an increase of 8.60 per cent.

(b) Cumulative loadings from the 1st April, 1934.

(i) For the period from the 1st April to the 13th October, 1934, there were loaded on the broad gauge 2,119,679 wagons, being 143,307 more than in the corresponding period of the previous year, or an increase of 7.25 per cent, and on the metre gauge 1,328,827 wagons, being 30,047 more than in the corresponding period of the previous year, or an increase of 6.41 per cent.

(ii) *Coal and coke.*—In the same period 532,945 wagons, broad and metre gauge, were loaded as compared with 478,235 in the corresponding period of the previous year, being 54,710 more, or an increase of 11.4 per cent. In addition, 61,547 wagons, broad gauge, were loaded during the period by the B. N. and E. I. Railways for their own use, as compared with 53,048 in the corresponding period, being 8,499 more, or an increase of 16.0 per cent.

(iii) *Grains and pulses.*—In the same period 456,120 wagons, broad and metre gauge, were load-

ed as compared with 395,315 in the corresponding period of the previous year, being 60,805 more, or an increase of 15.4 per cent.

(iv) *Oilseeds.*—In the same period 126,329 wagons, broad and metre gauge, were loaded as compared with 129,241 in the corresponding period of the previous year, being 2,912 fewer, or a decrease of 2.25 per cent.

(v) *Cotton.*—In the same period 74,609 wagons, broad and metre gauge, were loaded as compared with 65,237 in the corresponding period of the previous year, being 9,372 more, or an increase of 14.4 per cent.

(vi) *Home line stores and material.*—In the same period 200,027 wagons, broad and metre gauge, were loaded as compared with 179,876 in the corresponding period of the previous year, being 20,151 more, or an increase of 11.2 per cent.

(vii) *Miscellaneous smalls.*—In the same period 841,030 wagons, broad and metre gauge, were loaded as compared with 819,193 in the corresponding period of the previous year, being 21,837 more, or an increase of 2.67 per cent.

(viii) *Miscellaneous full wagons.*—In the same period 1,217,446 wagons, broad and metre gauge, were loaded as compared with 1,158,055 in the corresponding period of the previous year, being 59,391 more, or an increase of 5.13 per cent.

WORKING EXPENSES OF STATE-OWNED RAILWAYS—

The following are the approximate ordinary working expenses including suspense but excluding appropriation to and from depreciation fund of the State-owned Railways from the 1st April to the 31st August, 1934, as compared with the actuals of the corresponding period of last year:—

Railways.	Up to 31st August, 1933. (In lakhs of Rs.).	Up to 31st August, 1934. (In lakhs of Rs.).	Increase (+) or Decrease (—) as compared with the figures for the previous year. (In lakhs of Rs.).

TARIFF CHANGES AND CUSTOMS NOTIFICATIONS.

BRITISH INDIA.

PROHIBITION OF IMPORT OF MATCHES FROM CERTAIN TERRITORY IN SABAR KANTHA AGENCY.

The following Notification (No. 35-Central Excises, dated the 3rd November, 1931) has been issued by the Government of India in the Finance Department (Central Revenues) :—

In exercise of the powers conferred by section 7 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor General in Council is pleased to prohibit absolutely the bringing of matches into British India from the territory of the Talukdar of Adesar-Santalpur in the Sabar Kantha Agency.

AMENDMENT IN THE MATCHES (EXCISE DUTY) ORDER, 1934.

The following Notification (No. 36-Central Excises, dated the 3rd November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues) :—

In exercise of the powers conferred by section 18 of the Matches (Excise Duty) Act, 1934 (XVI of 1934), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Matches (Excise Duty) Order, 1934, namely :—

In the said Order, for rule 34, the following rule shall be substituted, namely :—

"34. The Local Government may empower any officers of any department under its control to search any place, vessel, cart or means of conveyance for matches liable to duty and to seize and remove or detain any matches which may appear to them to have been illegally imported or manufactured, or to have been issued from the manufactory or stocked or kept for sale in contravention of any direction or rule made under the Act."

EXEMPTIONS FROM CUSTOMS IMPORT DUTIES—AMENDMENT: STEREO FLONG.

The following Notification (No. 79-Customs, dated the 3rd November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues) :—

In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India, in

the Finance Department (Central Revenues), No. 14—Customs, dated the 9th April, 1932 (*vide* the *Indian Trade Journal*, dated the 11th April, 1932, pages 72-79), namely :—

In the said Notification, in Schedule I—Import Duties, under the head "A.—General" and sub-head "I.—Duties generally" after entry 13-E the following entry shall be inserted, namely :—

13-F	Stereo flong	So much of the duty as is in excess of the duty leviable on printing and lithographic material."
------	------------------------	--

EXEMPTIONS FROM CUSTOMS IMPORT DUTIES—AMENDMENT: CONTAINERS.

The following Notification (No. 80—Customs, dated the 3rd November, 1934) has been issued by the Government of India in the Finance Department (Central Revenues) :—

In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India in the Finance Department (Central Revenues), No. 14—Customs, dated the 9th April, 1932 (*vide* the *Indian Trade Journal*, dated the 14th April, 1932, pages 72-79), namely :—

In the said Notification, in Schedule I—Import Duties, under the head "E.—Containers", in clause (a) of the entry in column 3 relating to Serial No. 46, for the words "not more than one year previously", the words "not more than three years previously" shall be substituted.

CERTAIN AMENDMENTS IN TARIFF VALUATIONS.

The following Notification (No. 73-T. (24)/34, dated the 3rd November, 1934) has been issued by the Government of India in the Department of Commerce :—

In exercise of the powers conferred by section 3 of the Indian Tariff Act, 1894 (VIII of 1894), the Governor General in Council is pleased to direct that the following further amendment shall be made in the Notification of the Government of India in the Department of Commerce, No. 73-T. (9)/33, dated the 16th December, 1933 (*vide* the *Indian Trade Journal*, dated the 21st December, 1933, pages 926-931), namely :—

In the Import Tariff Schedule appended to the said notification, the heading "Metals, Iron and Steel" and the entries thereunder shall be omitted.

AUSTRALIA.

CUSTOMS TARIFF AND PRIMAGE DUTY.

A copy of a statement showing reductions in Primage Duty included in the Australian Budget proposals for the year 1934-35 and an amendment to the Current Australian Customs Tariff have been received from H. M. Senior Trade Commissioner in Australia. These necessitate certain changes in the extracts from the Australian Customs Tariff and Primage Duty Proposals published in the *Indian Trade Journal*, dated the 3rd May, 1934 (pages 420-29) and relevant extracts from these are published below :—

PATENT OFFICE NOTICES.

APPLICATIONS in respect of the following new inventions were filed in the Patent Office, Calcutta, between the 6th and the 11th October, 1934:—

21262. Mead McLean & Co., Ltd.—Improvements in or relating to ventilators for moving vehicles, such as railway carriages, motor coaches, etc. (October 19th, 1933.)

21263. J. Banerjee.—Soldering all articles made out of pure aluminium or any percentage thereof. 21264. J. S. Mehta.—Improved rotary internal combustion engine. (October 18, 1933.)

21265. Maschinenfabrik Surth, Zweigniederlassung Der Gesellschaft Fur Linde's Eismaschinen A.-G.—Process for making carbon dioxide ice. [Addition to No. 19867.]

21266. W. B. Normelli.—Improvements in and relating to absorption refrigerating machines. 21267. T. McClements.—Improvements in gas producers for use with internal combustion engines. 21268. A. H. Wood and R. F. Stephen.—Improvements in or relating to racks and cabinets for the fermentation of tea leaf. (February 19, 1934.)

21269. Standard Telephones and Cables, Ltd.—Improvements in or relating to automatic or semi-automatic telephone systems. (March 16, 1934.)

21270. E. F. Matthews.—Oil feed-rod having feed-blades in the shape of the segments of a ring, for lubricating axle-bearings. (May 24, 1934.)

21271. C. Dell and H. L. Read.—Power transmission gear. (February 28, 1934.)

21272. R. Reddie.—Improvements in spinning spindles and method of lubricating same. 21273. J. H. Haiste and W. Riseam.—Improvements relating to the propulsion of boats. 21274. Société Anonyme d'Etudes et de Constructions d'Appareils Mécaniques pour la Verrierie.—Improvements in rotating basins forming suction chambers annexed to glass furnaces. 21275. E. Würth.—Arrangement for automatically changing weaving shuttles. 21276. W. H. Smith.—Improvements in and relating to presses for moulding plastic substances. 21277. Naamlouze Vennootschap D. Bataafsche Petroleum Maatschappij.—Improved elastic pendulum, particularly for measuring the gravitational force. 21278. A. H. Bishop.—Improvements in or relating to metal sleepers. 21279. R. J. R. Patell.—An automatic humidity regulator [Addition to No. 20717.]

21280. Sirdar Raja Babu.—Improvements in bricks and the appliance for manufacturing same. 21281. J. Sircar.—An improved levelling instrument. 21282. Holding Luxembourgaise Pour Produits Liquides Charbons Huiles.—Process and apparatus for the cracking of hydrocarbons, oils, tars and coal-oil suspensions (October 26, 1933.)

21283. M. T. Philipps.—Valve for controlling pressure and rate of supply of fluids. 21284. Carl Freudenberg G. m. b. H.—Process for the production of fibrous-material from animal skins. 21285. F. Casablancas.—Improvements in the drawing mechanism for textile roving [Addition to No. 15363.]

21286. Ateliers. Neyre

Nov. 8, 1934.]

THE INDIAN TRADE JOURNAL.

Beylier and Piccard-Pictet.—Improvements in or relating to control flumes. (September 27, 1934.)

21287. Ateliers Neyret-Beylier and Piccard-Pictet.—Improvements in or relating to flumes. (September 28, 1934.)

21288. Ateliers Neyret-Beylier and Piccard-Pictet.—Improvements in or relating to valves. (September 29, 1934.)

21289. Carl Freudenberg G. m. b. H.—Process for the manufacture of spun goods, fabrics and other textiles by using or partly using fibres obtained from animal skins. 21290. The Electric Welding and Manufacturing Co. (India), Ltd., and C. Mackenzie.—Improvements in or relating to bobbins, reels and the like. 21291. Naamlouze Vennootschap Chemische Fabrik "Servo".—Process of preparing improved cold soluble starch products.

WEATHER AND CROP REPORTS.

BENGAL.

31st October.

Except for light showers in places there was no rain during the week. Preparatory tillage for and sowing of spring crops are progressing under favourable conditions. Prospects of standing crops are generally fair.

ASSAM.

5th November.

During the week the weather was seasonable. The outturn and prospects of crops are fair.

BIHAR AND ORISSA.

30th October.

During the week under report light rain fell in parts of Cuttack and Ranchi. There was no rain in the rest of the province. The condition of standing crops including sugarcane is generally good. Harvesting of *bhadoi* crops is finished and threshing continues in some districts. Prospects of winter rice are, on the whole, fair. Harvesting of early paddy has commenced in Chota Nagpur. Sowing of *rabi* crops is going on.

BOMBAY.

3rd November.

During the week there was general rain throughout the Presidency except in Gujarat. The rain was beneficial to sown *rabi* crops and stimulating to new *rabi* sowings but injurious to *kharif* crops in places. Unpicked cotton and other standing *kharif* crops in parts of the Deccan has been adversely affected and rice in Konkan lodged due to rain. Early rice in Karnatak has been slightly damaged. Late cotton in Gujarat is poor due to deficient moisture.

CENTRAL PROVINCES.

27th October.

During the week the weather was clear and generally cool. Standing *kharif* crops are in satisfactory condition though *kutki*, *jagui* and *til* in parts of Mandla and late sown *kutki* in Betul *tahsil* are reported to have suffered for want of sufficient rain. Cotton in Katol *tahsil* (Nagpur) is reported to have been damaged slightly on account of a plant disease locally known as '*dahia*.' Harvesting of light rice and minor millets continues and picking of cotton has commenced in places in Nagpur and Buldana districts. Sowing of *rabi* crops is in progress everywhere.

MADRAS.

27th October.

During the week there has been good rainfall in the southern half of the Presidency. The rainfall was heavy in parts of the Carnatic and the South. Transplanting or sowing of paddy is proceeding in parts of the Carnatic, the Central districts and the West Coast. The condition of standing crops is generally fair, except in parts of the Deccan where they have been adversely affected for want of rain.

PUNJAB.

29th October.

During the week there was no rain. Condition of standing crops is generally average on irrigated and below average on unirrigated areas. Damage to sugarcane by "top borer" is reported from parts of Ambala. Insect pests have also caused damage to other crops in Mianwali and Dera Ghazi Khan. Control measures are in progress. *Desi* cotton has been damaged by bollworm in parts of Lyallpur and Multan.

GENERAL WEATHER SUMMARY.

During the first half of the week ended Tuesday last unsettled conditions off the Malabar Coast moved northwards and intensified into a storm off the Konkan which caused widespread rain in the Peninsula, west of the Peninsula, the west Coast of the Peninsula in Mysore and the Deccan.

During the second half of the week the storm weakened into a depression and moving northwards filled up off Kathiawar. It caused widespread rainfall and light showers in the Konkan, Central India, Gujarat, the Deccan and the Central Provinces on two days; and in the south of the Peninsula, west Central Provinces, Chota Nagpur and Bihar on one day. At the end of the week a western disturbance while passing through the extreme north caused local rain or snow in Kashmir and a few falls of rain in the North-West Frontier Province.

Local or few falls also occurred elsewhere.

SUMMARY OF CROP FORECASTS.

The following is a summary of crop forecasts relating to the season 1934-35 :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Jute—Final.	Bengal (a), Bihar and Orissa, and Assam (100 per cent of the total jute area in India).	Acres 2,497,000	99.2	Acres 2,517,000	7,904,000 bales (e)	99.4	8,012,000 bales (e)	Sept. 6, 1934.
Cotton—Second.	All cotton-growing tracts (refers mainly to early cotton).	20,365,000	103	23,739,000	(b)	..	4,970,000 bales	Oct. 25, 1934.
Sugarcane—Second.	United Provinces, Punjab, Bihar and Orissa, Bengal, Madras, Bombay, North-West Frontier Province, Assam, Central Provinces and Berar, Delhi, Hyderabad, Baroda and Bhopal (95 per cent of the total sugarcane area of India).	3,444,000	103	3,305,000	(b)	..	5,067,000 tons	Oct. 25, 1934.
Rice—First.	Bengal, Bihar and Orissa, Burma, Madras, United Provinces, Central Provinces and Berar, Assam, Bombay, Hyderabad, Baroda and Bhopal (96 per cent of the total rice area of India).	75,361,000	100.2	81,977,000	(b)	..	30,333,000 tons.	Oct. 25, 1934.
Groundnut—Second.	Madras, Bombay, Burma, Hyderabad and Mysore (96 per cent of the total groundnut area of India).	5,094,000	74(d)	8,115,000	(b)	..	3,235,000 tons	Nov. 1, 1934.
Sesamum—Second.	Burma, United Provinces, Madras, Bombay, Central Provinces and Berar, Bihar and Orissa, Bengal, Punjab, Ajmer-Merwara, Hyderabad, Bhopal, Baroda, and Kotah (89 per cent of the total sesamum area of India).	4,097,000	88(d)	6,192,000	(b)	..	535,000 tons	Nov. 1, 1934.

* Issued by the Director of Agriculture, Bengal. † Including Indian States. ‡ In Central India. § In Rajputana. (e) Including Cochin Behar and Tripura States. (b) Not yet available. (c) Include figures for Nepal. (d) Excluding Hyderabad from which report has been received at this stage for the first time this year.

The following is a summary of the latest forecasts for the season 1933-34 for crops for which forecasts have not yet been made in the current season :—

Crop and Forecast	Tracts comprised in the figures and percentage of total Indian crop represented by them	Estimated area	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Estimated outturn	Per cent of preceding year (100 = figure of same date preceding year)	Final figure 1933-34	Date of publication of the forecast in the Journal
1	2	3	4	5	6	7	8	9
Castor seed	Practically all castor-growing tracts	Acres 1,556,000	96	Acres 1,617,000	146,000 tons	97	151,000 tons	Feb. 22, 1934.
Rape and Mustard—Final.	United Provinces, Punjab, Bengal, Bihar and Orissa, Assam, Bombay, North-West Frontier Province, Central Provinces and Berar, Delhi, Alwar, Baroda and Hyderabad (about 98 per cent of the total rape and mustard area of India).	6,032,000	99	6,094,000	952,000 tons	91	1,046,000 tons	May 21, 1934.
Linseed—Final.	Central Provinces and Berar, United Provinces, Bihar and Orissa, Bombay, Bengal, Punjab, Hyderabad, Kotah and Bhopal (about 94 per cent of the total linseed area of India).	3,257,000	99	3,299,000	377,000 tons	92(a)	400,000 tons(a)	May 21, 1934.
Wheat—Final.	Punjab, United Provinces, Central Provinces and Berar, Bombay, Bihar and Orissa, North-West Frontier Province, Bengal, Delhi, Ajmer-Merwara, Central India, Gwalior, Rajputana, Hyderabad, Baroda and Mysore (a little over 98 per cent of the total wheat area of India).	30,062,000	109	32,970,000	9,358,000 tons	99	9,449,000 tons	Aug. 16, 1934.

* Including Indian States. † In Rajputana. ‡ In Central India. (a) Excluding Bhopal from which report has been received for the first time this year.

TENDER NOTICES.

(Notices for this section should be sent to the Director-General of Commercial Intelligence and Statistics, 1, Council House Street, Calcutta, in time to reach him not later than Tuesday in each week, the day on which the Journal goes to press.)

INDIAN STORES DEPARTMENT.

Standard Specifications and Drawings.

Standard specifications referred to in invitations to tender published by the Indian Stores Department are priced publications and can be had on payment from :—

1. The Chief Controller of Stores, Indian Stores Department, Simla/New Delhi.
2. The Controller of Inspection, Calcutta Circle, Indian Stores Department, 6, Esplanade East, Calcutta.
3. The Controller of Inspection, Bombay Circle, Indian Stores Department, Hararwalla Building, Ballard Estate, Witter Road, Bombay.
4. The Inspector-in-Charge, Karachi Inspection Circle, Indian Stores Department, Satsarop Building, Victoria Road, Karachi.
5. The Inspector-in-Charge, Upper India Circle, Indian Stores Department, The Mall, Lahore.
6. The Inspector-in-Charge, Madras Inspection Branch, Indian Stores Department, Old High Court Buildings, Madras.
7. The Inspector-in-Charge, Cawnpore Inspection Branch, Indian Stores Department, 254, Nawabganj, Cawnpore.

Tenders and Contract forms will be issued to any one deputed to receive them by the Chief Storekeeper, Bombay Municipality, 566, DeLisle Road, Byculia, Bombay No. 11, on payment of Re. 1 for a set of each agreement form and four annas for a set of each Schedule. The required information will be given to the tenderer on an application to the Chief Storekeeper, Bombay Municipality, 566, DeLisle Road, Byculia, Bombay No. 11. Tender forms will not be sent by V. P. P.

Tender deposit should not be enclosed in the sealed cover but should be separately paid in the Chief Accountant's Office.

The names of all partners of the Contracting firms should be specified in the tender.

The tenderers have (a) to fill in the figures in the column of amounts, (b) to note the totals on each page, in case any schedules cover more than one page, and (c) to work out the final figures at the end of each Schedule. Any irregularity on this point may justify the rejection of the tender.

Rates should be legibly written. Erasures or corrections in figures without tenderers' initials will render the tender liable to rejection.

The would-be tenderers are at liberty to peruse the figures of actual supplies in the preceding three years in the Office of the Chief Storekeeper, Bombay Municipality, 566, DeLisle Road, Byculia, Bombay No. 11, during office hours.

All the samples in respect of tenders lodged in the manner prescribed above should be sent separately to the Chief Storekeeper, Bombay Municipality, 566, DeLisle Road, Byculia, Bombay No. 11, giving reference to the tender for which they are meant.

Tenderers wishing to give any particulars about the articles offered by them are particularly requested to write such particulars separately for each individual schedule and not embody them in one general letter.

If any of the days fixed falls on a Public Holiday, the tenders should be delivered on the next working day.

CORPORATION OF CALCUTTA.

Complete Reform of Road Surface, etc.

Tenders are invited in duplicate for the following and will be received by the 1st Deputy Executive Officer on the date noted for each, up to 2 p.m. Each tender in duplicate must be enclosed in a sealed cover and superscribed—"Tender for.....". For specifications and tender forms please apply to the Central Record Keeper. Price Rs. 2 per set.

1. Complete reform of road surface with stone or *jhamu* metal for the year 1934-35 for District I and Cossipore-Chitpore.
2. Complete reform of road surface with stone or *jhamu* metal for the year 1934-35 for District II and Maniktolla.

Tenders for 1 will be opened on the 12th November, 1934 (Monday), and for 2 on the 13th November, 1934 (Tuesday). The rates quoted in tenders for 1 and 2 are to hold good for three months.

CORPORATION OF CALCUTTA.

Water Works Extensions—Contract No. 71.

Tenders enclosed in sealed covers and superscribed "Tender for....." are invited in triplicate for the construction of additional menials' quarters,

alteration to kitchen, service privies, etc., at Tallah Pumping Station and will be received by the 1st Deputy Executive Officer, Corporation of Calcutta, up to 2 p.m. on Friday, the 23rd November, 1934. The rates quoted in tenders must remain open for acceptance for three months from the date of opening of tenders. Specification, tender forms, etc., in triplicate, may be obtained during office hours from the Central Record Office on payment of Rs. 15. The drawings can be seen and any further information may be obtained at the Office of the Constructional Engineer, Corporation of Calcutta, Water Works Extensions, at the Central Municipal Office, Calcutta.

CORPORATION OF MADRAS.

Supply of Liquid Chlorine.

Tenders in sealed envelopes for the supply of Liquid Chlorine, guaranteed chemically pure in returnable steel cylinders each containing 68 lbs. or 150 lbs. nett or thereabouts, delivered free of all charges at the Filter Beds, Kilpauk or anywhere within the City Municipal limits, for the year 1935-36, will be received by the Commissioner, Corporation of Madras, up to 3 p.m. on Monday, the 19th November, 1934.

Every tender should be accompanied by a receipt for Rs. 500 paid into the Municipal Treasury towards tender deposit, which will be refunded when the tenders are finally disposed of. No cash or cheques will be accepted at the time of tender.

The probable monthly requirement will be about 8,160 lbs. in cylinders of 68 lbs. or 150 lbs. nett each. This contract quantity may be varied by 50 per cent on either side.

Every tender shall contain full particulars as to the quality and nett quantity in cylinders and the rates quoted for shall be in Indian Currency.

Delivery of cylinders shall be subject to following conditions:—

- (a) Cylinders shall be on loan, free without deposit, and without any restriction as to the number of cylinders to be supplied and retained at any time.
- (b) Cylinders as soon as emptied shall be removed by the Contractors at their cost.

Should the accepted tenderer withdraw his tender, he shall forfeit his tender deposit of Rs. 500.

ASSAM-BENGAL RAILWAY.

Supply of Cement.

Sealed tenders are invited for the supply of 800 tons more or less of Rapid Hardening Cement, for a period of 12 months from 1st April, 1935, to 31st March, 1936, and will be received by the Superintendent of Stores, A.-B. Railway, Pahartali, up to 12 hours on the 5th January, 1935.

Tenders must be submitted on the prescribed form which may be had from the Superintendent of Stores,

Assam-Bengal Railway, Pahartali, on payment of Re. 1 per copy.

EAST INDIAN RAILWAY.

Installation of Sanitary Fittings, etc., in Officers' Bungalows at Jamalpur.

Sealed tenders are invited and will be received by the Chief Engineer, East Indian Railway, Calcutta, up to 3 p.m., on Monday, the 3rd December, 1934, from experienced Water and Sanitary Engineering Contractors for the installation of Sanitary fittings, etc., in Officers' Bungalows at Jamalpur.

Forms of tender, specification and conditions of contract may be had from the Office of the Chief Engineer, East Indian Railway, Calcutta, from the 16th November, 1934, on production of a receipt for the sum of Rs. 10 paid to the Treasurer, East Indian Railway, Calcutta, on this account. Firms outside Calcutta may obtain the tender form by remitting the amount per Money Order to the Treasurer, East Indian Railway, Calcutta. The amount paid for the tender form shall, under no circumstances, be refunded.

Tenders not submitted on the prescribed form will not be considered.

EAST INDIAN RAILWAY.

Special Item Costing Rs. 5,000 to Rs. 8,000.

Supply of Lead Pig.

Sealed tenders are invited for the following and will be received in Controller of Stores' office, 105, Clive Street, Calcutta, up to 12 o'clock noon on the 14th November, 1934.

Tender No. S/SP/Gb.4/410/C. For the supply of Lead Pig.

Tender forms and full particulars can be had from the Controller of Stores' office, East Indian Railway, 105, Clive Street, Calcutta, on payment of Rs. 2 per copy to the Treasurer, East Indian Railway, Calcutta, and on production of his receipt when applying for the same. Firms outside Calcutta, may, however, remit the amount to the Controller of Stores, direct, by Money Order. No refund is permissible of this payment.

EAST INDIAN RAILWAY.

Special Item Costing over Rs. 8,000.

Supply of Tin Ingot.

Sealed tenders are invited and will be received in Agent's office, 105, Clive Street, Calcutta, up to 4 o'clock, on the 14th November, 1934.

Tender No. S/SP/Gb.4/1747/C. For supply of Tin Ingot, to I. R. S. Specification No. N-8-29.

Tender forms and full particulars can be had from the Controller of Stores' office, 105, Clive

Street, Calcutta, on payment of Rs. 2 per copy to the Treasurer, East Indian Railway, Calcutta, and on production of his receipt when applying for the same. This amount will on no account be refunded.

Firms outside Calcutta may, however, remit to the Controller of Stores, Calcutta, direct, by Money Order.

Sealed tenders delivered by hand should be presented for registration in Agent's office and then put into the Tender Box outside the Deputy Agent's (Works) room by the tenderer or his representative.

EASTERN BENGAL RAILWAY.

STORES DEPARTMENT.

Supply of Equipments for Heat Treatment Shop at Kanchrapara.

Tenders are invited by the Agent, Eastern Bengal Railway, for Equipments for Heat Treatment Shop at Kanchrapara, such as:—

Oil-fired car bottom Furnace, Oil-fired Twin Chamber Solid Hearth Furnace, Oil-fired Tool Hardening Furnace, Oil-fired Lead Pot, Electric Hardening Furnace, Electric Tempering Furnace, Recording Potentiometers, Hardness Testing Machines and Pyrometer, to E. B. Railway's Specifications.

Necessary Tender Documents can be obtained from "Stores Information Bureau" No. 3, Koilaghat Street, (Bankshall Street-end), Calcutta, on payment of Rs. 5 per set.

Tenders will be opened in the Agent's office at 3 p.m. (Calcutta Time) on the 21st December, 1934.

MADRAS AND SOUTHERN MAHRATTA RAILWAY.

Improvements to Bezwa-Masulipatam Branch-Stage I-Stone Ballasting, etc.

The Chief Engineer, M. and S. M. Railway, Madras, invites tenders for the above. Prescribed forms will be available till the 20th November, 1934, at his Office. The cost is Rs. 5 (not refundable). Tenders are to be sealed and superscribed as above. Closing date is 21st November, 1934, 12 noon.

NORTH WESTERN RAILWAY.

Supply of Sleepers during 1935-36.

Tenders are invited on a rupee basis, for purchase by the N. W. Railway of one lac B. G. hill sawn indigenous wooden Sleepers, deodar, chir and fir, measuring nine feet by ten inches by five inches. Tenders must reach the Office of the Agent, N. W. Railway, Lahore, not later than 16 hours on the 23rd November, 1934, and will be opened in the Office of the Sleeper Control Officer, Lahore, at 14 hours on the following working day. Tender forms and other relative documents can be seen at and obtained from the Office of the Sleeper Control

Officer. The sale price of tender form is Rs. 5 per copy.

GOVERNMENT OF MADRAS.

Sale of Waste Paper and Press Cuttings.

Sealed tenders are invited for the purchase and removal of Waste paper and Press Cuttings from the Government Offices in the Presidency Town of Madras during 1935-36. Tenders will be received by the Superintendent of Stationery, Madras, up to the 12 noon on Monday, the 10th December, 1934.

Detailed information can be had of the Superintendent of Stationery, Madras, on application.

SALE OF ABOUT 40 MAUNDS OF KUSUM AND PALAS DAL LAC.

The Divisional Forest Officer, Raipur Division, Raipur, Central Provinces, announces that an auction sale of about 40 maunds of *Kusum* and *Palas Dal* lac will be held at Dhamtari Range Office at 1 p.m. on Monday, the 19th November, 1934, subject to the following conditions:—

1. The sale of lac will be either by auction or tender for lots as will be decided by the Presiding Officer. The Presiding Officer reserves to himself the right to refuse any bid or tender without any reason being assigned for it.

2. The successful bidder or tenderer must pay 25 per cent of the purchase price on the fall of the hammer or on acceptance of a tender and balance within 7 days of the sale.

3. All the lac must be taken delivery of, and removed from the godown within 7 days of the date of sale. On no account may the value of lac removed from the godown exceed the amount paid.

4. After the fall of the hammer or acceptance of a tender, the lac will, until delivery is taken of it, remain in the godown at the risk of the purchaser.

5. If the purchaser fails to take delivery of the lac within the period of 7 days specified above, wharfage at the rate of two annas per maund per day will be chargeable at the discretion of the Divisional Forest Officer.

6. If the purchaser fails to pay the purchase price in full within 7 days of the sale, the lac will be resold either by public auction or by private negotiation without any further notice, and any loss occurring from such resale will be recovered from the defaulters as if it were arrears of land revenue.

7. Government does not bind itself to accept the highest or any bid or tender.

8. Intending purchasers should inspect the lac in the lac godown at Dhamtari near Range Office on the day previous to the sale and satisfy themselves as to the quality of the lac before purchasing the same. No complaints of any kind as regards the quality of the lac will be admitted after the completion of the sale.

CONTRACTS PLACED BY THE INDIAN STORES DEPARTMENT.

New Delhi.

THE following particulars regarding contracts which have been placed by the Indian Stores Department have been received from the Chief Controller of Stores, Indian Stores Department, New Delhi. (Orders of less than Rs. 100 in value are not included.)

I.—ENGINEERING SECTION.

A.—Contracts placed during the period 11th to 25th October, 1934.*

Rate Contract Against Tender No. N-2770.
