KALANIDHI

Vol. I.

FEBRUARY 1937

No. 2.

Editorial

It is our desire to give a list of selected Stocks and Shares every month, in our issue for the benefit of our readers who intend to invest.

It is our experience that persons who do business as per advice given by a shrewd and scientific astrologer will not lose. We strongly advice our readers who are keen in business to make the best use of our service and be profited. We do not recommend forward business. We guarantee that people who do cash transactions according to our scientific advice, will not repent. In cash transactions, though the volume of business done be comparatively small yet the profit will be sure and certain. A lay man with a certain amount of common sense will be able to handle this kind of business easily. But, he may not know exactly when to buy or when to sell which can only be done with the sound guidance of astrological science. The stability of a particular company of which the investor intends to buy the shares is well understood by person who scientifically does business. This advantage is not derived by a layman. You will find in our journal "Kalanidhi" all that you want in respect of Business, such as Stocks and Shares, Exchange, Finance and etc.; besides, it fortells your fortune.

The following are the predictions for the month of February for persons born under the 12 Lagnas (Birth signs) or Rasis (moon signs)

In Southern India many eminent astrologers give importance to the moon sign (Rasi) and predict. Some others in other parts give importance to Birth sign (Lagna) and predict. Western astrologers give importance to Sun's sign and then they give the general predictions.

I find that the Great Maharshi Varaha-mihearacharya, the Greatest authority on astrology says the importance should be given to the sign which is stronger of the two, ie Lagna (Birth sign) or Rasi (Moon sign).

In my experience I find the predictions to be accurate according to this method.

Should the readers of this journal find it difficult to say which of their signs (Birth or moon signs) is stronger we will be pleased to help them on receipt of 2 annas stamp to cover the postage.

N.B. To those who are born in India, daily results will come on the same day with a slight change in time depending upon the Longitude and Latitude of the place.

For those born in Europe, the results will come a day earlier.

For persons who do not know the Rasi in which they are born the following table will help them to find it out.
