Tea. Fifth Tea Sale, Calcutta, 22nd and 23rd June.—8,600 packages teas at average price Rs. 1-4-7 for export, and 200 packages green teas at average price As. 15-9, 3,000 packages Dusts at average price As. 14-3, and 4,800 packages other grades at average price Rs. 1-0-8 for internal consumption, sold. A rather larger quantity of better quality teas for export was on offer including some good tippy second flush Assam invoices. Prices on lower basis all round. Common Brokens approximately 2 annas and Pekoes 1 anna lower than last week. Tippy teas lower by 4 to 8 annas, drop in price for Orange Fannings being less than for Broken Orange Pekoes and Orange Pekoes. Demand from Bombay and Iranian buyers continued fairly general but prices for medium teas particularly stalky brokens tended to decline as sale progressed. Green teas of polished variety only were on offer and for these market was firm at approximately previous rates. In Dusts rates eased in general by 1 to 2 annas. In other grades more discrimination was displayed by buyers. Clean leaf Brokens and Fannings showed least change but all teas, especially Orange Pekoes and Pekoes containing excessive stalk and fibre, declined by 2 to 4 annas. Assam Broken Pekoes and Broken Pokoe Souchongs practically maintained previous rates whilst common brokens eased by ½ to 1 anna. Leaf Grades were irregular and receded by about 3 annas.

Reserve Bank rate unchanged at 3 per cent.

MARKET REPORT ON LINSEED AND LINSEED OIL.

Indian Market Report.

***Calcutta,** 30th June—*

Quotations for Linseed Oil—
Linseed oil, Calcutta Mills (Raw) . . Rs. 21-0-0 per md. loose.
Linseed oil, Calcutta Mills (Boiled) . . Rs. 22-0-0 per md. loose.

Summary of Market Conditions.—The linseed market during the week has been firm with prices advanced by a few annas and appearing to be bullishly inclined. Shippers have been showing some interest at lower prices but sellers have been very reserved even at the prevailing rates owing to shortage of wagons. Local unsold stock has been *nil*. The oil mills have also been buyers daily at the prevailing rates owing to a good demand for Linseed oil at higher prices but the daily business has been very small.

***Bombay,** 27th June—*

Quotation for Linseed Oil—
Linseed Oil. Rs. 6-12-0 per quarter.

BLOCK PURCHASE OF OUTMARKET TEAS: ADEQUATE QUANTITY FOR INTERNAL MARKET—

The following Press Note, dated the 16th June 1942, has been issued by the Government of India in the Department of Commerce:—

A report has recently appeared in the Press that the United States of America, United Kingdom and the Union of South Africa are buying up almost the whole of the world's tea supply and that it will be apportioned among them according to the three peoples' present requirements. This has resulted in considerable speculative buying and further advance in infernal prices.

The Government of India wish to make it clear that in any arrangement which may be ultimately adopted in regard to the block purchase of outmarket teas, an adequate quantity of tea will be reserved for the internal market and that there is no justification for speculative buying in anticipation of a shortage of tea on this account later in the year.

Preparatory tillage and sowing are progressing.

CENTRAL PROVINCES.

19th June.

Preparation of land, manuring of fields and repairing of field embankments were nearing completion. Sowing of paddy was in progress in the Jubbulpore, Mandla and Chanda districts and in the Chhattisgarh division. Sowing of *kharif* crops was also started in parts of the Hoshangabad, Nimar, Betul and Chhindwara districts and in the Berar division.

ORISSA.

22nd June.

Sowing of *biali* paddy continues in the Cuttack, Balasore and Sambalpur districts and has commenced in the Puri and the Ganjam districts, and that of *saradh* paddy has commenced in the Cuttack and the Puri districts. Sowing of jute continues in the Balasore district and has commenced in the Puri district and that of *ragi* and groundnut continues in the Koraput district. In the Puri district fields are being prepared for the next season's crops. Transplantation of *bhadoi ragi* has commenced in the Ganjam district. Jute and sugarcane are generally thriving.

PUNJAB.

22nd June.

The condition of standing crops are generally average to above average on irrigated and average on unirrigated areas.

SIND.

27th June.

Transplantation of paddy is in progress.

UNITED PROVINCES.

20th June.

Sugarcane crop on unirrigated areas in the Pilibhit district suffered for want of rain. Preparation of land and sowing of *kharif* crops are in progress. Harvesting of extra crops is also going on at places. Irrigation of sugarcane and extra crops continues in irrigated areas. The condition of the standing crops and the prospects are, on the whole, fairly satisfactory.

ANNUAL REVIEW OF THE TRADE OF BRITISH INDIA FOR 1940-41: RECORD INDUSTRIAL OUTPUT.

Bigger Exports to U. S. A. and Empire Countries: Government Help to Primary Producers.

The following Press Note has been issued :—

The output of iron and steel, coal and paper have broken all records, says the Annual Review of the Trade of India for 1940-41, issued today. Excepting a few industries, the increase in industrial production was fairly widespread.

The output of cotton piecegoods increased to 4,269 million yards as compared with 4,012 million yards in the preceding year, the cotton mill industry resorting to double shift working on a large scale.

The output of paper rose to 1,753,000 cwts.—the highest output since 1928-29.

The two important articles that did not share the general expansion of industry were jute and sugar. The production of jute fell by 14 per cent and of sugar by 13 per cent as compared with the preceding year. In both cases, the heavy stocks carried over from the previous year forced manufacturers to reduce their output.

A large number of other industries also received a powerful stimulus from the war. War supply orders encouraged the production of a number of industrial articles, not hitherto produced in India or produced only in small quantities.

Another index of industrial prosperity is provided by industrial profits and industrial prices. Between 1937 and 1940 the index of industrial profits rose from 61 to 112—a rise of 84 per cent. From September 1940 prices of variable-yield securities recovered and with a slight interruption in December 1940 kept rising up to the end of the year.

From September 1940 prices of manufactured articles began to rise and every successive month till March 1941 saw the prices attaining a higher level. This rise in prices was the combined result of a variety of factors such as the receipt of further Government orders, the improved situation in the jute mill industry, the seasonal revival of demand for cotton piecegoods and the institution of a stricter Government control over the affairs of the sugar industry.

The heavy accumulation of surpluses of certain commodities, especially jute, groundnuts and sugar, created panic in the market, but confidence was gradually restored by various steps taken by Central and Provincial Governments. The Government of India introduced a scheme of war risk insurance on land, relaxed restrictions on the export of oilseeds to neutral countries, despatched an exploratory mission to the United States of America, extended the chain of Trade Commissioners and set up a fund for the relief of groundnut cultivators.

Simultaneously the Bengal Government attempted to support the prices of raw jute and enforced a compulsory restriction of area under jute. Other measures included propaganda in Madras for restricting the area under groundnuts, various schemes of research undertaken by the Board of Scientific and Industrial Research for exploring alternative uses for vegetable oils and oilseeds, the Supply Department's efforts to ensure the increased use of short staple cotton for manufacturing textiles for Government purposes, and Government of India's coffee control scheme for securing a smooth disposal of coffee surplus.

The cotton surplus was reduced to some extent by the increased exports to China and by the high level of activity in the mill industry which brought about a big increase in consumption. However, in view of the slump in the export trade the problem of surplus cotton, particularly in the short staple varieties, can hardly be said to have been solved in this way.

With the conspicuous exceptions of rice and wheat, the average prices of almost all other agricultural products—principally raw cotton, raw jute, groundnut—recorded a perceptible decline.

The spread of the war in Europe and the Middle East stopped trade with a number of countries. With countries still open to trade, trading was subjected to most trying conditions arising from an acute shortage of shipping, an abnormal rise in freights and insurance rates, the complicated net work of exchange and trade restrictions set up in almost every country and above all the uncertainty created by the political situation in the Eastern countries.

The shrinkage in foreign trade was in part an outcome of all these factors. The relatively greater reduction in exports was partly due to the price factor and to the blockade of industrialised Europe which affected the demand for raw materials more than industrial products. Moreover the shortage of freight space itself affects the value of exports much more than that of imports as the latter are mainly composed of industrial products and, therefore, occupy less space per unit of value.

But since the outbreak of the war exports from India by Government for defence purposes have not been recorded in the trade returns and since India has been exporting vast quantities of materials and foodstuffs to different theatres of war, the actual value of exports are considerably higher than the recorded figures.

A large part of the loss due to the closure of European markets was made good by increased exports to Empire countries and the United States of America. During 1940-41, exports of Indian merchandise to Empire countries amounted to Rs. 1,16,64 lakhs as compared with Rs. 1,14,06 lakhs in 1939-40 and Rs. 85,37 lakhs in 1938-39. Similarly, exports to the United States of America increased from Rs. 13,88 lakhs in 1938-39 to Rs. 25,90 lakhs in 1940-41. A remarkable increase has been recorded in the exports to China.

In terms of recorded value, the export trade of India in 1940-41, though smaller than in 1939-40, was higher than in 1938-39 and in 1937-38. The total value of India's exports to all countries including Burma amounted to Rs. 1,87 crores as compared with Rs. 2,04 crores in the preceding year and Rs. 1,63 crores in 1938-39. The value of imports showed a relatively smaller reduction, amounting to Rs. 1,57 crores as against Rs. 1,65 crores in 1939-40 and Rs. 1,52 crores in 1938-39.

The nominal balance of trade in merchandise was adversely affected; the total favourable balance of trade amounted to Rs. 42 crores as compared with Rs. 49 crores in 1939-40, though it still remained considerably higher than in 1937-38 or 1938-39 when it amounted to Rs. 16 crores and Rs. 17 crores respectively.

Reduction was recorded in exports of raw jute, jute manufactures, cotton, raw and waste, oilseeds (though castorseed, rapeseed and linseed showed an improvement), coffee and hides and skins. Exports of raw goat skins were, however, fully maintained as both the principal export markets, the U. S. A. and the United Kingdom, were still open. Tea and rice, not in the husk, recorded decreases in quantity but increases in value. Exports of wheat registered a substantial increase in both.

Exports of cotton piecegoods from India rose by more than Rs. 4½ crores to Rs. 10·64 crores, the highest level for more than a decade. Exports of metals, ores and minerals declined in quantity but rose in value. Several other industrial articles such as boots and shoes, building and engineering materials, chemicals, paper and pasteboard, rubber manufactures, manufactured tobacco, etc., recorded varying increases.

As regards imports, in most cases in which an increase in value has been recorded, the increase was either accompanied by a decline in quantity or was out of proportion to the increase in quantity. An increase in industrial production places a country simultaneously in a position to reduce its intake of foreign industrial products, to increase its exports of manufactured articles, to utilise a larger quantity of its own raw materials at home and to consume additional supplies of raw materials from abroad. During 1940-41 this trend was prominently in evidence.

Inland trade in hides and skins, raw jute and oilseeds suffered a noticeable reduction. On the other hand sugar (including *gur*), iron and steel, raw cotton, cotton piece-goods and gunny bags and cloth recorded increases. The total quantity of inland trade in certain important articles decreased from 828 million maunds in 1939-40 to 803 million maunds, though it still remained higher than in any recent year other than 1939-40.

Cheap money and investors' confidence in the future of gilt-edged prices mainly accounted for the steady tone of gilt-edged values. The intrinsic strength of the security market was indicated by the consistent demand for long term issues. There was no banking crisis, despite the pressure of hoarding.

The persistence of cheap money was due, among other things, to the expanding cash resources of the money market as a result of the accretions of sterling, the operations of the Reserve Bank, the maintenance of the bank rate and bond rate at 3 per cent, the relative and temporary setback suffered by agriculture and trade and the lower level of agricultural prices. Part of accumulated balances with the Reserve Bank was used for repatriating India's sterling debt.

REPORT OF THE INDIAN TRADE AGENT, KABUL, ON NEW MARKETS WITH OPENINGS FOR INDIAN COMMODITIES, FOR THE MONTHS OF AUGUST AND SEPTEMBER 1941.

The following enquiries relating to articles which were previously obtained from sources other than India were received and dealt with in this office.

The Government Central Medical Depot, Kabul, enquired whether India could supply its immediate requirements in respect of glass flasks for boiling medicines, blow lamps for sealing ampoules, grinding mill for medicines, medicine bottles of all sizes including big ones of several kilos capacity in wicker baskets, glass beakers and measured glasses pestles and mortar of glass and porcelain, glass and enamelled funnels, pill making machines and tablet compressors, test tubes and evaporating dishes. The enquiry was passed on to the Director-General of Commercial Intelligence and Statistics, Calcutta, who put a few Indian firms in touch with the enquirer. Before the outbreak of the Russo-German hostilities in June 1941 most of these articles were being obtained by Afghanistan from Germany through Russia.

Enquiries were also received regarding the supply of veterinary instruments and necessary information was furnished to the enquirer.

The Ministry of Posts, Telegraphs and Telephones of the Afghan Government wanted to have certain electrical instruments repaired and asked this office for the names of a few firms in India that undertake the repair of electrical measuring instruments of the hot wire, moving coil and thermo-junction types. The desired information was obtained from the Director-General of Commercial Intelligence and Statistics, Calcutta, and furnished to the Ministry.

The Director of the Cinema, Kabul, required a large number of carbon rods suitable for use in the Cinema apparatus which is of German manufacture. The enquiry was placed through the Director-General of Commercial Intelligence and Statistics.

A local firm desirous of purchasing a butter-making machine asked to be put in touch with a reliable firm in India. Necessary action was taken through the Director-General of Commercial Intelligence and Statistics.

The Russian Trade Agent asked to be put in touch with some Indian transport company and also to be furnished with a list of the various export firms in India as a preliminary to the starting of trade between India and Russia through Afghanistan. The local representative of an Indian transport Co. was introduced to the enquirer. The Trade Agent was told that it was difficult to furnish him with a complete list of all export firms but that a few Indian firms could be introduced provided an indication was given of the main articles which Russia intended to buy from India. A local representative of a big tea concern in India was also introduced to the Russian Trade Agent.

THE SUGAR CONTROL ORDER, 1942: (REVISED).

The following Notification [No. 1-SC(6)/42, dated the 29th June 1942] has been issued by the Government of India in the Department of Commerce :—

In exercise of the powers conferred by sub-rule (*2*) of rule 81 of the Defence of India Rules and in supersession of the Sugar Control Order, 1942, published with the Notification of the Government of India in the Department of Commerce, No. Econ. Ad. (P.C.)-225/42-(I), dated the 14th April 1942*, the Central Government is pleased to make the following Order, namely :—

1. (1) This Order may be called the Sugar Control Order, 1942.

(2) It extends to the whole of British India.

(3) It shall come into force at once.

2. In this Order, unless there is anything repugnant in the subject or context,

(*a*) "Controller" means the person appointed as the Sugar Controller for India by the Central Government, and includes any person authorised by the said Controller to exercise all or any of the powers of the Controller under this Order.

(*b*) "dealer" means a person dealing in the purchase, sale or distribution of sugar.

(*c*) "*ex*-factory price" means the price of sugar, inclusive of excise duty, packed in accordance with the usual market practice, and loaded at the buyer's option, on buyer's carts or lorries, or into railway wagons at the railway station or siding generally used by the producer, and all incidental charges, including those for siding and forwarding, being on account of the *ex*-factory seller.

(*d*) "producer" means a person carrying on the business of manufacturing sugar with the aid of power and using vacuum pans or evaporators.

(*e*) "recognised dealer" means a dealer who has been recognised by the Controller for the purposes of this Order.

3. No producer shall, after such date as the Controller may notify in this behalf, dispose of, or agree to dispose of, or, in pursuance of any agreement entered into on or before such date make delivery of, any sugar, except—

(i) to or through a recognised dealer, or,

(ii) to a person specially authorised by the Controller to acquire sugar on behalf of the Central Government or of a Provincial Government.

4. The Controller may, by general or special order, prohibit, or limit to such quantities as may be specified in the order, the manufacture by any producer or by producers generally of such types or grades of sugar or sugar products as the order may specify, and no producer to whom such order applies shall manufacture any sugar or sugar products in contravention thereof.

5. Every dealer shall comply with such directions regarding the sale or distribution of sugar as may be given to him by the Controller.

6. (1) The Controller may, from time to time, fix the prices at which any sugar made in India may be sold.

(2) Where such prices have been fixed—

(*a*) the price at which any sugar may be sold for delivery otherwise than *ex*-factory shall be the price fixed under sub-clause (*1*) for sale *ex*-factory *plus* such charges in respect of transport to or in specified areas and other incidental charges as are approved by the Controller.

(*b*) no person shall sell or purchase or agree to sell or purchase any sugar at a price different from that fixed under the provisions of this clause.

(*c*) no sugar shall be delivered or accepted in pursuance of an agreement entered into before such fixing of prices which provides for the payment of a price different from that fixed under the provisions of this clause unless the agreement is by consent of parties so revised as to substitute for the price originally agreed the price so fixed.

7. (1) The Controller may, from time to time—

(i) allot quotas for the requirements of any specified Province or other area, or of any specified market, and

(ii) issue directions to any producer to supply sugar to such areas or markets or such persons or organisations, in such quantities, of such types or grades, at such times and in such manner as may be specified by the Controller.

(2) Every producer shall, notwithstanding any existing agreement with any other person, give priority to, and comply with, any directions issued to him under sub-clause (*1*).

8. (1) No sugar in consignments of more than one bag shall, after such date as the Controller may notify in this behalf, be offered for transport by rail by a consignor or accepted by a Railway for transport except under a permit issued by the Controller in such form and subject to such conditions and in respect of such areas as he may from time to time prescribe :

**See* the *Indian Trade Journal*, dated the 23rd April 1942, page 207.

Provided that this clause shall not apply to the transport by rail of sugar (*a*) by a *bonâ fide* traveller as part of his personal luggage, or (*b*) under and in accordance with Military Credit Notes, or (*c*) under and in accordance with a permit issued by a Provincial authority before the date of this notification.

(2) A permit issued in pursuance of sub-clause (*1*) shall be returned by the consignor to the Controller on completion of despatch, or on expiry of the period of its validity, whichever is earlier, with the particulars of actual despatches in the prescribed form, and certified by the Station Masters concerned.

(3) For the purposes of this clause "sugar" means sugar manufactured by any process, including sugar made in vacuum pan factories from cane or *gur* or palmyrah jaggery, as well as *khandsari* sugar and *Bura*, but excluding powdered jaggery and sugar candy (*misri*).

9. The Controller may, by notification in the official Gazette, make rules for carrying into effect the purposes and objects of this Order.

10. Notwithstanding the supersession of the Sugar Control Order, 1942, published with the notification of the Government of India in the Department of Commerce, No. Econ. Ad. (P.C.)-225/42-(I), dated the 14th April 1942*, all notifications, orders and directions issued thereunder shall, so far as they are not inconsistent with this Order, be deemed to have been made hereunder.

SHIPS' EMERGENCY RATIONS ORDER, 1942.

THE following Notification [No. 159-M. I. W. (3)/41, dated the 4th July 1942] has been issued by the Government of India in the Department of Commerce :—

In exercise of the powers conferred by rule 62C of the Defence of India Rules, the Central Government is pleased to make the following Order, namely :—

1. (1) This Order may be called the Ships' Emergency Rations Order, 1942.

(2) It shall come into force on.....

2. In this Order,—

(*a*) "coasting trade" means trade between any ports in British India or between any port in British India and any port in the continent of India or in Burma or Ceylon ;

(*b*) "ship" means any vessel used in navigation and propelled wholly or in part by the agency of steam, electricity or other mechanical power.

3. No ship engaged solely in the coasting trade shall proceed to sea from any port in British India on a voyage to any port in the continent of India, Burma or Ceylon unless there are on board the ship emergency rations for every person carried on board the ship in accordance with the scale set out in the Schedule to this Order.

4. No ship registered in British India and engaged solely in the coasting trade shall proceed to sea from any port, unless there are on board the ship emergency rations for every person carried on board the ship in accordance with the scale set out in the Schedule to this Order.

5. For the purpose of ascertaining the emergency rations which a ship is required by this Order to have on board, no account shall be taken of any provisions which, apart from this Order, any person would require to furnish for consumption on board the ship, and such emergency rations shall be placed in charge of the Master or some person authorised by him in that behalf and shall be kept separately from the said provisions.

6. The emergency rations on board a ship shall not be consumed, or supplied for consumption, by any person except with the authority of the Master.

SCHEDULE.

PROTECTION TO THE CALCIUM CHLORIDE INDUSTRY.

The following is a Resolution [No. 150-T(1)/42, dated the 4th July 1942] of the Government of India in the Department of Commerce :—

The Government of India have been approached by a firm, engaged in the manufacture of calcium chloride and anxious to expand its production, with a request for an assurance of post-war protection against unfair competition from abroad.

As calcium chloride is required in increasing quantities in connection with war industries and as imports thereof are difficult to obtain, the Government of India have, in accordance with their declared policy, decided to give the desired assurance to all those who are either at present engaged in, or wish to undertake, indigenous manufacture of calcium chloride provided that their affairs are conducted on sound lines.

AUSTRALIA.

IMPORT PROHIBITIONS.

Attention of exporters in India is invited to the notices regarding import restrictions and prohibitions in force in Australia published in the issues of the *Indian Trade Journal* of the 18th December 1941 and the 18th June 1942 and they are warned that goods arriving in that country in contravention of those regulations are liable to be confiscated. Shippers in India are therefore advised that before despatching any of the restricted goods to Australia they should ascertain whether their importers at the other end are in possession of the necessary import licence.

EGYPT.

I. Import Permits.

The Prime Minister has issued the following military Proclamation relating to the restrictions imposed on imports of merchandise:

An article has been added to proclamation No. 177 (*see* the *Indian Trade Journal*, dated the 2nd April 1942, pages 9-11) forbidding the importation of certain goods, under the heading of 4 b. It reads:

Article 4 b: The Minister of Finance has the right to order the confiscation of goods imported in contravention of Articles 1 and 2.

The importation of goods and products despatched from abroad before obtaining permission from the Ministry of Finance will be considered as contravening the articles of the present proclamation.

For the sake of clarity, the Prime Minister recalls Articles 1 and 2 of Proclamation 177, *viz.*

Article 1: Unless a permit is first obtained from the Ministry of Finance, it is strictly forbidden to import by sea any goods or products indicated in Tables 1 and 2 annexed to the present proclamation.

The goods listed in Table 1 and whose importation is authorised will have sea transport priority over those indicated in Table 2.

Article 2: The importation by sea of goods listed in Table 3, annexed to the present proclamation, is forbidden; no importation permit may be delivered in this connection.

II. New Ministerial Decree.

The Minister of Finance has issued the following Arrete No. 65 of 1942, regulating the issue of import permits:

Article 1: Any person wishing to obtain authorisation for the importation of goods or products listed in Table 1, annexed to the present proclamation, will have to apply to the import Permits Bureau. Application should be made for every article separately on a special form and bearing a stamp of 30 m/ms. It will have to be accompanied by the usual commercial documents, establishing the reason for the application.

Applications which do not fill the above-mentioned requirements will be ignored.

Priority for obtaining importation permits will be accorded in the chronological order of the applications filling the required conditions, and in the limit of the quantities of imports allowed monthly.

Article 2: No import permit will be accorded for Articles listed in Table 2 annexed to the present proclamation unless they are imported from the following countries:

Turkey, Iran, East Africa, Eritrea, Abyssinia, British Somaliland, Italian Somaliland, Kenya, Uganda, Tanganyika, Nyasaland, Northern Rhodesia.

Article 3: The Ministerial Arrete No. 243 of 1941, as well as Article of the Ministerial Arrete No. 281 of 1941 are abrogated.

Article 4: The present Arrete comes into force as soon as it is published in the "Journal Officiel."

The importation of the following articles may be allowed:

(1) Alum.
(2) Caustic Soda.
(3) Bicarbonate of Soda.
(4) Carbonate of Soda.
(5) Dyes.
(6) Tanning Materials.
(7) Raw metals.

Notice to Importers.

Priority will be given to applications for import according to their chronological order providing they are within the limits of the authorised quantities.

The Ministry of Finance reached the conclusion that a large number of applications for imports are obviously exaggerated. Permits, however are only issued on the basis of their chronological order of applications and providing they are within the limits of the monthly allowance of importation. It is also evident that such exaggerations can only prevent certain manufacturers from obtaining permits for necessary raw materials. On the other hand, certain speculators would be able to import goods they had never formerly dealt in, at the expense of old, well-established importers.

In view of this, and in order to safeguard the nation's industries by facilitating the import of raw materials and to protect in as large a measure as possible the interests of recognised importers by allowing them to continue their business preventing the abuses resulting from speculation and monopoly, the Ministry of Finance has decided to amend the regulations governing the issue of import permits as follows: Goods to be imported are divided into two groups, namely:

1.—Raw materials which can only be used for industrial purposes and those for direct consumption. Import permits will only be issued to manufacturers or to merchants supplying them on the basis of a contract.

2.—Goods intended solely for direct consumption. All merchants without distinction, can present applications for import permits, priority being given only on the basis of chronological order. The Ministry of Finance has fixed the maximum amount of goods which can be imported by big recognised dealers at 5 per cent of the total monthly quota of import, the amount allotted to the remainder will not exceed one per cent.

When applying for the import of goods mentioned above in the first group, manufacturers must attach to their applications a statement of their average monthly requirements.

The Ministry of Finance requests importers to conform to the above regulations when applying for import permits.

Merchants importing goods for the account of Government administrations or for the military authorities are informed that, in order to benefit from the special facilities granted by exporting countries to the Ministry of Finance, they must attach to their applications a statement of the administration or military authorities concerned to the effect that the goods to be imported are for their account or that they will be used in fulfilment of contracts concluded with them.

Explanation.

Many importers have apparently been informed by their suppliers abroad that they would not be able to secure their export and manufacturing permits and reserve shipping space for goods destined for Egypt unless they are furnished with the number of the import permit as well as that of the permit issued by the Middle East Supply Centre.

This is a misunderstanding and does not apply to orders for which import permits have been delivered. In this case the number to be furnished is that of the permit itself, or in other words, that printed in the top left hand corner. It is this number only which the supplier needs.

All communications concerning imports must be sent to the Bureau of Import Permits, Ministry of Finance, who will in turn inform the competent authorities in the exporting countries.

No correspondence should be addressed to or enquiries made at the Middle East Supply Centre.

Tea. Seventh Tea Sale, Calcutta, 6th and 7th July.—About 14,100 packages teas at average price Rs. 1-2-10 for export, and 50 packages Green teas at average price As. 13, 3,700 packages Dusts at average price As. 14-7, and 4,100 packages other grades at average price As. 14-2 for internal consumption, sold. Selection of teas for export more representative and included a number of attractive invoices of second Flush quality, particularly from Assam. In general, market declined irregularly from 1 to 2 annas, but although a few lots of finest tippy types recorded high prices, tippy Orange Pekoes and Broken Orange Pekoes were mostly from 4 to 6 annas lower. An exception was good liquoring Broken Pekoe Souchongs which were fully firm. Buying, however, was more general with plenty of enquiry at lower levels. Negligible quantity of Green teas sold at firm rates. Rates for Dusts were mainly 6 pies dearer though best qualities appreciated more. After quiet opening on substantially lower level, rates for other grades revived especially for medium and sweet common broken grades which recovered to nearly their former level. Market, however, generally easier especially for Fannings and most leaf grades which declined by 2 to 3 annas.

Reserve Bank rate unchanged at 3 per cent.

INDIA'S TRADE WITH THE UNITED STATES OF AMERICA.

Bigger Trade in 1940-41: Indian Fruits for U. S. A.

THE following Press Note has been issued :—

India's trade with the United States of America recorded a further increase in 1940-41. Imports nearly doubled, rising from Rs. 14,86 lakhs to Rs. 27,00 lakhs, while exports increased from Rs. 27,18 lakhs to Rs. 31,94 lakhs.

India's principal exports to the U. S. A. consisted of raw and manufactured jute, hides and skins, lac, fruits and vegetables, raw cotton and raw wool.

While the export of raw jute amounted to 46,000 tons as compared with 51,000 tons during the previous year, export of jute cloth rose to 873 million yards from 764 million yards in 1939-40, the value advancing by Rs. 1,93 lakhs to Rs. 12,34 lakhs. There was a smaller demand for lac and tanned and dressed hides and skins, but shipments of fruits and vegetables were valued at Rs. 1,39 lakhs as compared with Rs. 98 lakhs in the previous year.

India's imports from the U. S. A. consisted chiefly of machinery and millwork, motor vehicles, mineral oils, instruments, manufactured tobacco, chemicals, dyeing and tanning substances, iron and steel, zinc, paper and paste-board and raw cotton.

Imports of machinery and millwork rose in value from Rs. 2,49 lakhs to Rs. 3,09 lakhs. While the number of cars imported declined from 2,969 to 1,989, the number of omnibuses imported advanced from 10,334 to 13,408.

There was also considerable improvement in the import of paper and paste-board which advanced from 0·2 million cwts. (Rs. 24 lakhs) to 1·1 million cwts. (Rs. 1,76 lakhs). The value of dyeing and tanning substances advanced from Rs. 24 lakhs to Rs. 2,38 lakhs; and zinc from Rs. 2 lakhs to Rs. 59 lakhs.

In all the above, and other cases, relevant information was furnished to the enquirers. In respect of certain commodities, it was also explained to the parties concerned that their export from India was controlled as a war measure and it was accordingly necessary for them to apply for export licences in the first instance.

REPORT OF THE INDIAN TRADE AGENT, KABUL, ON NEW MARKETS WITH OPENINGS FOR INDIAN COMMODITIES, FOR THE MONTHS OF OCTOBER AND NOVEMBER 1941.

THE following enquiries relating to articles which were previously obtained from sources other than India were received and dealt with in this office.

In reply to an enquiry from the Afghan Military authorities for the purchase from India of flax canvas water buckets which were previously obtained by them from Czechoslovakia, a Calcutta firm supplied samples of a made-up bucket and different qualities of canvas which were passed on to the enquirers who eventually placed an order for 3,500 buckets.

The Director General of the Radio Department of the Ministry of Posts, Telegraphs and Telephones of the Afghan Government asked to be put in touch with the suppliers in India of motor generators. A few firms interested in the enquiry were asked by the Director General of Commercial Intelligence and Statistics, Calcutta, to correspond direct with the enquirer.

The Ministry of Public Works of the Afghan Government expressed an interest in the experiments made in the Punjab of running motor buses with coal gas. Necessary enquiries were made and the Ministry was put in touch with a Lahore firm of motor engineers which supplied them with the specifications of the charcoal gas producing plant together with an estimate of the cost of fixing the same on motor trucks.

SUMMARY OF EARNINGS AND WORKING EXPENSES OF STATE-OWNED RAILWAYS FOR THE YEAR 1941-42.

THE following Press *communiqué*, dated the 7th July 1942, has been issued by the Government of India, Railway Department (Railway Board) :—

The total approximate gross receipts for 1941-42 are Rs. 1,28·74 crores against the revised budget estimates of Rs. 1,27·00 crores. The receipts this year are Rs. 16¾ crores more than those in 1940-41. After taking into account miscellaneous receipts and deducting working expenses and interest charges, the net surplus is approximately Rs. 27·56 crores against an estimated surplus of Rs. 26·20 crores.

Coaching earnings show an increase of about Rs. 8 crores, goods earnings of about Rs. 7½ crores while miscellaneous earnings and suspense account for the balance. The increase in coaching earnings is chiefly due to diversion of traffic from road to rail due to petrol rationing, withdrawal of cheap and concession tickets, movement of large bodies of people to places of greater safety and movement of military personnel. Earnings from goods show a general increase under all commodities except petrol, kerosene oil, cotton manufactured, *gur*, *jagree* and molasses, and iron and steel. Earnings from coal, foodgrains, sugar, oilseeds and military traffic show big increases.

The approximate working expenses including appropriation to depreciation fund for the year 1941-42 amount to Rs. 73·56 crores or about Rs. 7,91 lakhs more than the actuals of last year and Rs. 43 lakhs more than the revised budget estimates for 1941-42.

DIRECTIONS IN CONNECTION WITH THE DESPATCH OF SUGAR BY RAIL FROM THE UNITED PROVINCES AND THE PROVINCE OF BIHAR.

THE following Notification [No. 1-SC (6)/42, dated the 6th July 1942] has been issued by the Government of India in the Department of Commerce :—

With reference to clauses 5 and 8 of the Sugar Control Order, 1942 (*see* the *Indian Trade Journal*, dated the 9th July 1942, pages 45-46), the following directions in connection with the despatch of sugar by rail from the United Provinces and the Province of Bihar are notified for public information :—

SUGAR PERMIT RULES.

1. Clause 8 of the Order is reproduced below :—

"8. (1) No sugar in consignments of more than one bag shall, after such date as the Controller may notify in this behalf, be offered for transport by rail by a consignor or accepted by a Railway for transport except under a permit issued by the Controller in such form and subject to such conditions and in respect of such areas as he may from time to time prescribe :

Provided that this clause shall not apply to the transport by rail of sugar (*a*) by a *bona fide* traveller as part of his personal luggage, or (*b*) under and in accordance with Military Credit Notes, or (*c*) under and in accordance with a permit issued by a Provincial authority before the date of this Notification.

(2) A permit issued in pursuance of sub-clause (1) shall be returned by the consignor to the Controller on completion of despatch, or on expiry of the period of its validity, whichever is earlier, with the particulars of actual despatches in the prescribed form.

(3) For the purposes of this clause 'sugar' means sugar manufactured by any process, including sugar made in vacuum pan factories from cane or *gur* or palmyrah jaggery, as well as *khandsari* sugar and Bura, but excluding powered jaggery and sugar candy (*misri*)".

2. Under Notification No. 35-SC (1)/42, dated the 6th July 1942*, the 1st August 1942, has been notified as the date after which no sugar in consignments of more than one bag shall be offered for transport by rail by a consignor or accepted by a Railway for transport from any station in the United Provinces and in the Province of Bihar to any place outside those Provinces, except under a permit.

* *See* page 99 of this issue of the Journal.

3. Where the consignor is a producer or the sugar is consigned from a factory or factory godown, the consignment of such sugar shall be governed by a permit in form A issued from time to time by the Sugar Controller for India in accordance with the requirements of the Provinces and States to which the sugar has been allotted. This permit will be sent to producers whenever the Sugar Controller considers it necessary ; in special cases however producers may apply, in the form annexed hereto, for supplementary permits in form A.

4. Where the consignor is not a producer or desires to offer for transport by rail sugar from a place other than a factory or factory godown, he shall, if he desires to offer the sugar for transport from a Railway Station within the United Provinces, make application to the Chairman, Sugar Commission, United Provinces and Bihar (who has been empowered to issue permits in form B in his discretion) in writing so as to reach him not later than the 15th day of the preceding month. If he desires to offer the sugar for transport from a Railway Station within the Province of Bihar, he shall apply to the Chief Controller of Prices and Supplies, Bihar The application shall be in the prescribed form annexed hereto.

5. The issuing authority may, by general or special order, extend the validity of any permit for any subsequent period, and may, at any time, without assigning any reason, revoke or suspend any permit issued by him.

6. Permits are not transferable.

7. Permits do not entitle the holders to priority in the supply of wagons by the booking Railway.

8. If a permit (Form A or B) is lost by a consignor before or during the period of despatch of the quantities covered by the permit, the consignor should apply to the issuing authority for a new permit (by telegram if necessary).

AUSTRALIA.

Restrictions of Imports from Sterling Areas.

The following is reproduced from the *Board of Trade Journal*, dated the 21st February 1942 :—

With reference to the notices under the above heading in the "Board of Trade Journal" of 13th December (pages 372-378)* and 31st January (page 62)† the High Commissioner for Australia has received telegraphic advice of the following further rulings of the Commonwealth Department of Trade and Customs :—

A. Prohibited goods on order.

(1) Blankets and rugs. All firm orders are being admitted.

(2) Woollen outer wear, *viz.*, coats, trousers, overcoats, suits and costumes (Tariff Item 110A). Local supply position is to be taken into account in considering applications for licences by persons who previously made substantial purchases from Australian sources.

(3) Other goods. No changes in present procedure.

(4) As regards importers with no base year, licences are to be granted on basis of estimated three-months' supply.

B. Quota goods on order.

(1) Woollen piece-goods for manufacture of apparel for outer wear. Local supply position is to be taken into account in considering applications for licences by persons who previously made substantial purchases from Australian sources. In cases where the applicant did not previously obtain supplies locally, licences may be granted for goods on order up to a figure not exceeding base year imports from sterling sources.

(2) Other goods. Where it is not practicable to cancel orders, licences may be issued to an amount not exceeding base year's imports.

(3) In the case of aforesaid quota goods on order, debits are to be made against future allocations for amounts in excess of one quarter's quota.

(4) Importers with no base year. Consideration is to be given to size of importer's business and licences granted to an amount that would not be out of keeping with B (1) or B (2).

C. Goods specially branded and goods packed ready for shipment.

No further concessions than those outlined in A and B are to be granted.

D. Woollen piece-goods n.e.i. classifiable under Tariff Item 105, F. 2.

Certain piecegoods used mainly in the manufacture of underwear have been excepted from the licensing requirement.

The decisions given in A and B do not affect the instructions as to date of shipment or importation already given (*see* "Board of Trade Journal" of 31st January, page 62*).

Regarding the condition that prohibited goods shall be shipped by first available ship after 15th February, and quota goods by first available ship after 28th February (*see* "Board of Trade Journal" of 31st January, page 62*), the High Commissioner announces that, provided the goods concerned were packed and ready for shipment on 15th or 28th February (whichever applicable) and the exporter is able to produce evidence that he had made genuine efforts to effect shipment by the relevant date, the "first available" ship will be the first on which the exporter is able to obtain space. The certification of the High Commissioner's Office that the above conditions have been complied with will be necessary for the entry into Australia of goods affected and any exporters having prohibited or quota goods awaiting shipment to Australia are advised to apply to the High Commissioner's Office (Customs Branch, Room 423, Fourth Floor), Australia House, Strand, London, W.C.2, for information as to the procedure to be followed.

WEEKLY CROP REPORTS.

ASSAM.

13th July.

The prospects and the outturn of crops are fair.

BIHAR.

29th June.

The condition of the standing crops including sugarcane is generally fair. Ploughing of fields, sowing of *bhadoi* crops and transplanting of winter paddy are going on.

BOMBAY.

11th July.

Crops partly have been adversely affected and the field operations were delayed in the Western areas of the Province. Elsewhere sowings are progressing and the crop condition is satisfactory.

CENTRAL PROVINCES.

3rd July.

Sowings of *kharif* crops were in full swing except in parts of the Mandla and the Yeotmal districts where they were retarded to some extent. Sowing of *juar* was nearing completion in the Hoshangabad district and was started in the Wardha, Nagpur, Chanda and Akola districts. In the Buldana district sowings of cotton and groundnut were nearing completion. Germination of crops already sown is reported to be quite satisfacctory so far. Agriculturists are busy preparing land for trans. plantation of paddy in the Chanda and Bhandara districts.

MADRAS.

3rd July.

The transplantation and sowing of paddy were proceeding in parts of the Circars, the Central districts and the Southern districts and the West Coast. Sowing of dry crops in parts of the Circars, the Ceded and the Central districts and the Carnatic was proceeding. The condition of the standing crops was fair.

ORISSA.

29th June.

Sowing of paddy continues in the Cuttack, Balasore, Puri, Sambalpur and Ganjam districts and has commenced in the Koraput district, and that of jute continues in the Balasore and Puri districts. Sowing of *ragi* and groundnut continues in the Koraput district and that of *mandia*, maize and groundnut has commenced in the Puri district. In the Balasore district, jute seeds are germinating at places. The transplantation of *bhadoi ragi* continues in the Ganjam district. Sugarcane is generally thriving.

PUNJAB.

6th July.

The condition of standing crops is average to above average on irrigated and generally average on unirrigated areas. Cotton is reported to have been affected by *toka* in the Shahpur *tehsil*.

UNITED PROVINCES.

4th July.

No damage to crops is reported except from the Badaun district where sugarcane has suffered to some extent due to floods. Preparation of land and sowing of *kharif* crops still continue. Harvesting of extra crops is also in progress at certain places. The condition of the standing crops and the prospects are, on the whole, satisfactory.

NOTE ON THE PRODUCTION OF SUGAR REFINED FROM *GUR* IN INDIA, 1941

By

K. S. ARNOLD, B.Sc., M.I. MECH. E.,

Director, Imperial Institute of Sugar Technology, India, Cawnpore.

I.—Introduction.

THE production of sugar by refining *gur* in 1941 was about 64 per cent higher than that of the previous year; it increased from 29,600 tons in 1940 to 48,500 tons in 1941. The increase took place mainly in the United Provinces; of the total increase of 18,900 tons, 15,900 tons was in the United Provinces and 3,000 tons in the rest of India. The recovery of sugar per cent *gur*, on the other hand, decreased; it decreased by 3·5 per cent in the United Provinces and 2·7 per cent in India as a whole.

II.—Number of Factories Operating.

The table below shows the distribution of refineries according to provinces in the year 1941:—

INDIA'S TRADE WITH BRITISH EMPIRE COUNTRIES.

Larger Exports to Ceylon, Burma and Australia.

THE following Press Note has been issued :—

An increase in India's export and import trade with the British Empire was recorded in 1940-41.

The export trade with the British Empire as a whole increased from 56 to 61 per cent, notwithstanding decreases in the shares of the United Kingdom and Canada. The increase was mainly due to the larger volume of exports to Ceylon, Burma and Australia.

Imports from the British Empire accounted for 57 per cent of the total import trade as against 56 per cent in the preceding year. While imports from the United Kingdom declined, those from the Straits Settlements, Ceylon, South Africa, East Africa, Australia and Canada showed improvement.

India's imports from the United Kingdom fell by Rs. 5,65 lakhs or 14 per cent and the exports to the United Kingdom by Rs. 10,09 lakhs or 13 per cent.

The principal commodities imported from the United Kingdom were machinery and millwork, metals and ores, chiefly iron and steel, chemicals, cotton manufactures and instruments. The principal commodities exported were as usual tea, jute, seeds, hides and skins, raw cotton, metals and ores, raw wool, oil-cakes and food grains.

India's exports of cotton piecegoods to Burma and Ceylon showed marked improvement. There was also an increase in the export of cotton twist and yarn to Burma ; rice not in the husk to Ceylon ; and gunny bags and linseed to Australia.

On the import side, more oils came from the Straits Settlements, more copra from Ceylon, more raw cotton from East Africa, more raw wool, provisions and liquors from Australia, and more omnibuses, motor vehicles, paper and paste-board from Canada.

QUARTERLY REPORT OF THE INDIAN GOVERNMENT TRADE COMMISSIONER IN AUSTRALIA AND NEW ZEALAND, SYDNEY, OCTOBER-DECEMBER, 1941.

Import Restrictions.

EARLY in December the total prohibition from all sterling countries of the importation of more than 600 items was announced, New Zealand and British and French Pacific Islands being exempted from the ban. The importation of a further two hundred items was restricted at the same time.

Among the goods totally banned were :—Foodstuffs (including meat and fish), beer, boots, shoes, manufactured tobacco and cigarettes, edible nuts, ginger (ground preserved and dry unground), mustard, furs, luxury dress materials and piecegoods, gloves, readymade clothing, perfumery and toilet preparations, handbags, hats and hosiery, vacuum cleaners, refrigerators, soaps, leather manufactures, many medical supplies, cocoa, many motor accessories and replacement parts, advertising material, inks and ink powders, oil and water colour paintings.

Imports of wireless valves are restricted to 25 per cent of 1938-39 values and licences will be issued only for replacement purposes.

Goods which are admitted to the extent of only 50 per cent of 1938-39 values include :—Whisky and other spirits, woollen piecegoods, carpets, linoleum, games, toys, photographic films and papers, and cameras for other than commercial use. Items which will be allowed importation at the rate of 75 per cent of the 1938-39 values are :—Lace, wallpapers and stationery. A further small list of which imports will be allowed equivalent to 100 per cent of 1938-39 values include tiles, sanitary and lavatory ware, pens and pencils (including fountain pens), oil baize and leather cloth.

Among the goods the imports of which are totally prohibited, those that affect India are ginger, edible nuts, *viz.*, peanuts, almonds, and walnuts, articles of coir, sponge cloths, sweat rags and dorset cloths. Of the goods the importation of which have been cut by half, the only items that would adversely affect imports from India are carpets and carpeting.

IMPORT RESTRICTIONS—POSTAL PARCELS.

The following is reproduced from the *Board of Trade Journal*, dated the 25th April 1942 :—

The Board of Trade have been informed by telegraph that import licences issued after 8th March 1942 are not valid for goods imported by parcel post, unless they are specifically endorsed to that effect. Postal parcels which do not comply with this regulation will be confiscated on arrival.

Exporters are therefore advised to ascertain before despatching goods that the consignee is in possession of an import licence bearing this endorsement.

WEEKLY CROP REPORTS.

ASSAM.

20th July.

The prospects and the outturn of crops are fair.

BIHAR.

6th July.

The condition of the standing crops, including sugarcane, is generally fair. Ploughing of fields, sowing of *bhadoi* crops and transplanting of winter paddy are going on.

BOMBAY.

13th July.

The germination and the growth of crops are fairly satisfactory.

CENTRAL PROVINCES.

10th July.

Sowing of *kharif* crops was retarded to some extent in parts of the Jubbulpore and Raipur districts owing to heavy rain. Sowing of cotton, groundnut and paddy was nearing completion and that of *juar* and other minor *kharif* crops was in progress. Germination of crops is reported to be satisfactory throughout the Province. Land is being prepared for transplantation of paddy in the Nagpur and Chanda districts and in the Seoni subdivision of the Chhindwara district. Transplantation of paddy has commenced in the Bhandara and Balaghat districts. *Biasi* operation has begun in some places in the Raipur district.

ORISSA.

13th July.

Sowing of *saradh* paddy is in progress in all the districts and that of *biali* paddy has been completed in the Cuttack and Balasore districts. Sowing of *mandia* has been completed in the Cuttack district and is proceeding in the Puri and Koraput districts. Transplantation of paddy in the Balasore district and that of *bhadoi ragi* in the Ganjam district is in progress. Maize, groundnut and *arhar* are being sown in the Puri district and groundnut in the Ganjam district. Paddy plants are germinating in the Cuttack district. Standing crops, *viz.*, sugarcane, paddy and *ragi*, are thriving.

PUNJAB.

13th July.

The condition of standing crops is average to above average on irrigated and average on unirrigated areas. Cotton, *jowar* and *bajra* have been damaged by excessive rain in the Multan district. Swarms of locusts appeared in parts of Gurgaon but caused no damage to crops.

SIND.

18th July.

Sowing of *bajri* and transplantation of paddy are still in progress. Cotton and other crops are flourishing well. Root-rot disease in cotton has increased.

UNITED PROVINCES.

11th July.

Preparation of land and simultaneous sowing of *kharif* crops continue. Harvesting of extra crops still continues in certain districts. The condition of the standing crops and the prospects are, on the whole, favourable.

CROP FORECASTS.

(ALL-INDIA)

PRELIMINARY FORECAST OF THE JUTE CROP, 1942.

The following is the Preliminary Forecast of this year's Jute crop in Bengal, Bihar, Orissa, Assam and Indian States, published by the Director of Agriculture, Bengal :—

Consolidated Statement for Bengal, Bihar, Orissa, Assam and Indian States.

[This forecast deals with estimates of areas only. Estimates of outturn are dealt with in the Final Forecast.]

Area in 1942.—The estimated area of jute in the three other Provinces, two Indian States and the licensed* area in Bengal is 3,727,645 acres.

The consolidated figures are as follows :—

Name of Province and State.	Area under Jute			Difference between Preliminary forecast, 1942, and Final forecast, 1941. Increase or decrease.
	1941.		1942.	
	Prelimi-nary.	Final.

(a) Revised.

*Subject to modification when the examination of Jute Lands under section 14 of the Jute Regulation Act is completed.

BENGAL.

[Note.—On an average of the five years ending 1939-40, the areas under jute in the Province of Bengal and the Indian States to which this forecast relates, represent some 78·7 and 1·3 per cent respectively of the total area under jute in India.]

The Preliminary Forecast deals with the area and the condition of the crop at the time of publication of the forecast. It is not a forecast of the outturn. With the coming into force of the Bengal Jute Regulation Act, 1940, the previous methods of estimating the acreage under jute in the province have been superseded. The area shown for the present season is the licensed acreage which will require modifications in the ensuing final forecast when the examination of jute lands under section 14 of the Act is completed.

Area in 1942.—In Bengal, excluding Cooch Behar and Tripura, the returns for the licensed acreage show a total area of 3,190,415 acres as against 1,532,855 acres last year of the licensed area with certain modifications as shown in the final forecast, 1941. The acreages reported by the Cooch Behar and the Tripura States are 36,880 and 15,000 respectively against 38,600 and 17,000 last year.

Character of the season.—Weather conditions have been generally favourable for the growth of crop in most of the East and North Bengal districts; but in the Daisee tracts of the West Bengal districts, its effect has not been satisfactory.

Present state of the crop.—The present condition of the crop is satisfactory in East and North Bengal districts and fair in West Bengal.

Stock.—Considerable stock in the hands of cultivators is reported from a number of districts.

BIHAR.

[Note.—On an average of the five years ending 1939-40, the area under jute in Bihar to which this forecast relates, has represented some 11·3 per cent of the total area under jute in India.]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospect but makes no reference to the probable outturn either in percentage figures or in bales.

Acreage.—The Director of Agriculture, Bihar, estimates the area sown during the current and four preceding years, in round numbers as follows :—

Year.	Acres.
1938	315,500
1939	265,500*
1940	282,200
1941	242,500
1942	238,600

*Revised.

Weather conditions.—In March light rain fell in all the jute-growing districts, the fall being below the normal everywhere except in Darbhanga and Bhagalpur where it was above the normal. In April rainfall was above the normal everywhere except in Champaran and Muzaffarpur where it was below the normal. In May the rainfall was light to moderate in all the districts. The weather conditions were favourable. Sowings were normal.

District returns.—Last year's area under jute was finally estimated at 242,500 acres. The total area under jute this year is estimated by the District Officers in round figures at 238,600 acres. The decrease in area is due mainly to slump in jute.

Condition and prospects.—The present condition of the crop is on the whole good.

General.—The quantity of jute which remains in the province from the crops of 1941 is reported to be not much on the whole.

ORISSA.

[Note.—On an average of the five years ending 1939-40, the area under jute in Orissa to which this forecast relates, represents about 0·7 per cent of the total area under jute in India.]

The present forecast deals only with the estimates of area sown and the condition of the crop up to the first week of June. It makes no reference to the probable outturn either in percentage figure or in bales.

Acreage.—The total area sown is estimated at 12,250 acres against 25,055 acres in the last year.

Character of the season.—The weather has been fairly favourable.

Condition and prospects.—The present condition of the crop is fair. The stocks in the hands of the cultivators are reported to be considerable.

ASSAM.

[Note.—On the average of the five years ending 1939-40, the area under jute in Assam represents some 7·8 per cent of the total area under jute in British India.]

Season.—The weather was generally favourable for the cultivation and growth of the crop. In certain districts heavy rains interfered with weeding operations. The present condition of the crop is reported to be fair on the whole.

Area sown.—The total area under jute as estimated by the Deputy Commissioners is 234,500 acres against 296,000 acres (revised) of last year. The decrease in area is due to the low price of jute and propaganda for substituting food crops for jute.

Stock.—According to the reports of the Deputy Commissioners little jute remains in stock from last year's crop.

(FOREIGN)

CANADIAN WHEAT AND LINSEED CROPS.

According to recent cables, received from the Dominion Bureau of Statistics, Ottawa, the condition of the Canadian wheat crop for the current season is now estimated at 135 per cent of the normal, while that of the linseed crop is reported to be 94 per cent. Last year's corresponding estimates were 80 per cent of the normal in the case of wheat and 87 per cent for linseed.

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUE.

—The total gross Indian Sea and Land Customs Revenue, excluding Salt Revenue, collected in British India during the month of June 1942, amounted to Rs. 2,53 lakhs as compared with Rs. 2,68 lakhs in May 1942 and Rs. 3,91 lakhs in June 1941. The total gross central excise duties on motor spirit, kerosene, sugar, matches, etc., amounted to Rs. 86 lakhs in June 1942, as compared with Rs. 1,03 lakhs in May 1942 and Rs. 88 lakhs in June 1941. The grand total of gross Customs and Central Excise Revenues realised in the three months ended June 1942, was Rs. 10,95 lakhs as compared with Rs. 13,87 lakhs during the same period last year. Of this amount import duties accounted for Rs. 7,30 lakhs, export duties for Rs. 68 lakhs, land customs and miscellaneous for Rs. 26 lakhs and central excise duties for Rs. 2,71 lakhs. Comparing the figures for April to June 1942, with those for the corresponding period of the preceding year, there were decreases under import duties on cotton fabrics, artificial silk yarn and thread, artificial silk fabrics, kerosene oil, iron and steel, betelnuts, motor vehicles, dyes derived from coal-tar and coal-tar derivatives, silver bullion, coin, sheets, plates and other manufactures, machinery, cotton yarn and thread, raw silk, silk yarn and thread, tin (block), metals other than iron and steel, etc., fabrics of artificial silk mixed with other materials, spices, pneumatic rubber tyres and tubes, silk fabrics, cotton hosiery, electric lighting bulbs and wireless reception instruments and apparatus, under export duties on raw jute and other agricultural produce and the excise duty on sugar. On the other hand import duties on tobacco, liquors, batching, fuel and lubricating oils, raw cotton and motor spirit, the export duties on manufactured jute, land customs receipts and the excise duties on motor spirit and matches showed increases.

GOVERNMENT OF INDIA TREASURY BILLS—

The following Press *communiqué*, dated the 21st July 1942, has been issued by the Reserve Bank of India, Central Office, Bombay :—

With effect from the 29th July 1942, a successful tenderer at a Treasury Bill auction who has a Treasury Bill maturing between the day on which the result is published and the day preceding the next publication, both inclusive, may offer such maturing Treasury Bill against his allotment; the difference between the face value of the old Bill and the cost of the new Bill will be paid in cash, and the new Bill will be dated with the date on which the old Bill falls due for repayment. The balance, if any, of his allotment outstanding will be payable by him as before on the date on which cash payment is announced to be made in the weekly *communiqué*. Particulars of the amounts and maturity dates of Bills which it is proposed to offer accordingly should be shown in the tenders presented to the Reserve Bank of India on auction days. Further particulars may be ascertained from the local office of the Reserve Bank of India.

The following Press *communiqué*, dated the 28th July 1942, has been issued by the Manager, Reserve Bank of India, Calcutta :—

Tenders for Rs. 8 crores of 3 months' Government of India Treasury Bills were opened on Tuesday, the 28th July 1942. The total amount offered was Rs. 12,53,50,000. Tenders at Rs. 99-14-0 per cent were accepted in full, and those at Rs. 99-13-9 per cent were allotted approximately 93 per cent. Lower tenders were rejected. The total amount accepted was Rs. 8 crores, the average rate of accepted tenders being Re. 0-9-0 per cent per annum.

Tenders for Rs. 6 crores of 3 months' Government of India Treasury Bills will be received on Tuesday, the 4th August 1942, in Bombay up to 11 a.m. (Standard Time) and up to the close of business on Monday, the 3rd August 1942, at other centres. Successful tenderers should make payment on Friday, the 7th August 1942. Other conditions are as usual.

During the week ended the 24th July 1942, Government of India Treasury Bills for Rs. 2,32,00,000 were sold in favour of the Issue Department of the Reserve Bank of India.

Ninth Tea Sale, Calcutta, 20th and 21st July.—About 19,200 packages teas at average price Re. 1-0-2 for export, and 150 packages Green teas at average price Re. 1-0-7, 6,600 packages Dusts at average price As. 13-9, and 5,300 packages other grades at average price As. 13-7, for internal consumption, sold. Wider selection of teas for export was on offer and though quality generally showed a falling off, several invoices of good quality, particularly from Assam, were included. Market easier. Leaf Grades were steadiest feature though tippy Orange Pekoes and stalky descriptions were lower. Common brokens declined by ¼ to ½ anna but better sorts were frequently 1 to 1½ annas lower. Tippy teas and all Fannings types sold at prices 2 to 4 annas below last week's rates. Darjeelings though in small supply met with little competition. One invoice of Green teas of polished variety realised satisfactory rates. Common and medium kinds of Dusts were ½ to 1 anna easier, but best qualities frequently dearer. Broken Grades lower by 3 pies to 1 anna particularly for stalky varieties, whilst Fannings declined by 2 to 3 annas. Leaf Grades tended dearer especially good quality types.

Reserve Bank rate unchanged at 3 per cent.

In exercise of the powers conferred by section 2 of the Defence of India Act, 1939 (XXXV of 1939), the Central Government is pleased to direct that the following further amendments shall be made in the Defence of India Rules, namely :—

I. In rule 92A* of the said Rules,—

(i) in sub-rule (*2*) the word "or" at the end of clause (*a*) shall be omitted, and after clause (*b*) the following clauses shall be added, namely :—

"(*c*) transfer any security, or create or transfer any interest in a security, to or in favour of any such person ;

(*d*) transfer any security from a register in British India to a register outside the sterling area, or do any act which is calculated to secure, or forms part of a series of acts which together are calculated to secure, the substitution for any security which is either in, or registered in, British India of any security which is either outside or registered outside, the sterling area."

(ii) after sub-rule (*3*), the following sub-rule shall be inserted, namely :—

"(*3A*) Where at any time the following conditions are fulfilled in the case of any individual, namely, that he is outside the sterling area and that either—

(*a*) he was on the third day of September 1939, a British subject resident in British India and has not since that day been in India, or

(*b*) he is, by virtue of a direction given by the Reserve Bank of India under sub-rule (*4*) or under sub-rule (*5*), to be treated for the purpose of this rule as resident outside the sterling area,

the Reserve Bank of India may give a direction to any bank that, until the direction is revoked, any sum from time to time standing to the credit of an account of that individual at any office or branch of that bank in British India specified in the direction shall not be dealt with except with permission granted by the Reserve Bank of India."

(iii) in sub-rule (*4*), for the word "resided", the word "been" shall be substituted ; and

(iv) in sub-rule (*6*) after the words "given under", the word, brackets, figure and letter "sub-rule (*3A*)", shall be inserted.

II. After rule 92C, of the said Rules, the following rule shall be inserted, namely :—

92D. "*Requirements as to payment for goods exported to certain territories.*—(*1*) Where any goods have been exported from British India to any territory in respect of which an order has been issued by the Central Government under sub-rule (*3*) of rule 84 prohibiting the export of any goods to that territory unless a declaration is furnished to the Collector of Customs by the exporter that foreign

WEEKLY CROP REPORTS.

ASSAM.

27th July.

The prospects and the outturn of crops are fair.

BIHAR.

13th July.

The condition of the standing crops, including sugarcane, is generally fair, but some damage has been done to the crop at Hazaribagh by rain. Ploughing of fields and sowing of *bhadoi* crops are going on in full swing. Transplanting of winter paddy is progressing but more rain is needed in Purnea for the operation.

BOMBAY.

25th July.

Paddy and sugarcane have been affected by flooding in places in the south Konkan. Interculturing, weeding and transplanting operations are progressing. The general condition of the crops is satisfactory.

CENTRAL PROVINCES.

17th July.

Sowings of cotton, groundnut and paddy have almost been completed and those of *juar* and other *kharif* crops continued in several districts. Germination of crops is reported to be quite satisfactory but some resowing is necessary in the areas damaged by floods and in parts of the Nagpur and Bilaspur districts owing to rains. Weeding was generally held up except in Berar. Transplantation of paddy, though stopped for a few days in the Bhandara and Balaghat districts owing to rains, was in progress and *biasi* of early paddy was also started in Chhattisgarh. Slight damage to maize and paddy plants by insects is reported from the Lakhnadon *tahsil* of the Chhindwara district.

MADRAS.

27th June.

Transplantation and sowing of paddy were proceeding in parts of the Circars, the Central and Southern districts and in the West Coast; sowing of dry crops was proceeding in parts of the Circars, Ceded, the Central and Southern districts and the Hills. The condition of the standing crops was fair.

ORISSA.

20th July.

Puddling of *saradh* paddy is proceeding in the Cuttack and Balasore districts. Sowing of *saradh* paddy in the Puri, Sambalpur and Koraput districts and of *biali* paddy only in the Puri district continues. Jute, maize and *mandia* in the Puri district, groundnut in the Sambalpur district and *mandia* and *sumu* in the Koraput district are also being sown. Rainfall has been favourable for the growth of *biali* paddy and *mandia* in the Cuttack district, while more rain is needed for the paddy crop at certain places in the Sadar sub-division of the Puri district. Jute and sugarcane in the Cuttack and Balasore districts, groundnut, *arhar*, *til* and sugarcane in the Puri district, paddy, *mandia*, *til* and *arhar* in the Ganjam district and sugarcane and groundnut in the Koraput district are thriving.

PUNJAB.

20th July.

The condition of the standing crops is average to above average on irrigated and average on unirrigated areas. Standing crops have been damaged to some extent by rains in parts of Multan and Muzaffargarh and slightly by floods in the Jhelum river in Shahpur *tahsil*.

SIND.

25th July.

Root-rot and white-ant attacks have been reported in cotton. Inter-cultivation is in progress.

UNITED PROVINCES.

18th July.

Preparation of land and simultaneous sowing of *kharif* crops continue. Preparation of land for *rabi* has also been taken up at places. Harvesting of a few extra crops like *Ghuiyan* is still going on. Irrigation of sugarcane continues in parts of Etah district. The standing crops are doing well and the prospects are favourable but much depends upon future rains.

Remarks.—The slight increase in the present estimate over that of the *Preliminary report, is mainly due* to heat and drought during April-May, which affected the standing crop particularly where it usually matures and is cut and collected a little late. In all probability the drought and excessive heat will affect to a certain extent the *Baisaki* brood for the future propagation as *Kalki*. The present import is not up to expectation owing to the present unfavourable condition of the big cultivators and dealers of lac who do not care to export good stock for the prevailing scarcity of transport facilities.

During April to June 1942, Howrah and Shalimar Railway stations received 117,290 mds. shellac, 152,451 mds. seedlac and 11,084 mds. sticklac as compared with 82,130 mds. shellac, 116,420 mds. seedlac and 10,664 mds. sticklac during the said period of 1941; or in other words, the import statistics show an increase in 1st quarter this year by 35,161 mds. shellac, 73,248 mds. seedlac and 52,031 mds. lac.

SUMMARY OF EARNINGS FOR THE MONTH OF JUNE 1942 AND WORKING EXPENSES FOR THE MONTH OF MAY 1942 OF STATE-OWNED RAILWAYS—

The total approximate gross earnings of all State-owned Railways for the month of June 1942, amounted to Rs. 11·69 crores, *i.e.*, Rs. 1,59 lakhs more than the actuals for the corresponding month of the previous year and Rs. 3,48 lakhs more than the corresponding month of 1940-41. Compared with the last year, coaching earnings increased by about Rs. 99 lakhs and goods earnings by about Rs. 58 lakhs during this month.

The increase under coaching is mainly due to enhancement of fares, more military personnel, long distance passengers and parcels. Earnings from goods show a general increase in all commodities except in the case of ore, wheat, cement, wool raw, oilseeds and cotton; the last-mentioned specially shows a heavy fall.

2. The total approximate gross earnings from 1st April to 30th June 1942, amount to Rs. 34·65 crores and are more by Rs. 4,34 lakhs as compared with the actuals for the same period of last year, and more by Rs. 7,64 lakhs in comparison with the corresponding period of 1940-41.

3. During the month, the number of wagons loaded with goods traffic decreased by 16·6 per cent on the broad gauge and 15·4 per cent on the metre gauge as compared with 1941. From 1st April to 30th June 1942, the number of wagons loaded decreased by 15·0 per cent on the broad gauge and by 20·3 per cent on the metre gauge. The decrease is under all commodities.

4. *Working expenses.*—The approximate ordinary expenses including suspense but excluding appropriation to and from the depreciation fund, of State-owned Railways from 1st April to 31st May 1942, are more by Rs. 44 lakhs than the actuals for the same period last year. The increase is noticeable on the Bengal-Nagpur, Great Indian Peninsula and Madras and Southern Mahratta Railways while the East Indian Railway shows a decline.

—:—

APPROXIMATE GROSS EARNINGS OF STATE-OWNED RAILWAYS—

The total approximate gross earnings of all State-owned Railways for the period (10 days) ending the 20th July 1942 (11th period) amounted to Rs. 3,77 lakhs. This is :—

(*a*) Rs. 79 lakhs *more* than the approximate gross earnings for the corresponding period of 1941-42,

(*b*) Rs. 62 lakhs *more* than the actuals for the corresponding period of 1941-42 and

(*c*) Rs. 1,09 lakhs *more* than the actuals for the corresponding period of 1940-41.

The total approximate gross earnings from 1st April to 20th July 1942, amount to Rs. 42·49 crores. This is :—

(*a*) Rs. 5·86 crores or 16·0 per cent *more* than the actuals for the previous year, and

(*b*) Rs. 10·26 crores *more* than the actuals for 1940-41.

WEEKLY CROP REPORTS.

ASSAM.

3rd August.

The prospects and the outturn of crops are fair.

BIHAR.

20th July.

The condition of the standing crops, including sugarcane, is generally fair although some damage has been done to the crop at Hazaribagh. Sowing of *bhadoi* crops is nearing completion. Transplanting of winter paddy is progressing but it is retarded in Purnea for want of sufficient rain.

BOMBAY.

1st August.

Agricultural operations were suspended in many places due to rains, while the germinated crops are suffering from excessive soil moisture. Elsewhere the general condition of the crops is satisfactory.

CENTRAL PROVINCES.

24th July.

Kharif sowings were almost complete but those of *juar* in the Wardha, Chanda and Bhandara districts and of *kodon-kutki* and *til* in the Jubbulpore and Mandla districts were retarded owing to rain. Germination is reported to be satisfactory everywhere but some resowing of paddy in the areas affected by floods, is being done in the Drug district and will be necessary in about 1,500 acres of land in the Raipur district. Weeding was held up, and *juar* in the Saugor district, paddy on heavy soils in Mandla and cotton in rich and low-lying fields in Wardha are reported to have been affected to some extent by rains. Recent floods caused some damage to crops in parts of the Nagpur, Balaghat and Raipur districts. Transplantation of paddy was in full swing and *biasi* commenced everywhere in the Chhattisgarh district. In Berar, intercultural operations though in progress, were interrupted by rain.

MADRAS.

4th July.

Transplantation and sowing of paddy were proceeding in parts of the Circars, the Ceded districts, the Central and the Southern districts and in the West Coast; sowing of dry crops was proceeding in parts of the Circars, the Ceded and the Central districts and in the Hills. The condition of the standing crops was fair.

ORISSA.

27th July.

Puddling of *saradh* paddy is proceeding in the Cuttack, Balasore and Puri districts and has commenced in the Sambalpur district. Weeding of *biali* paddy continues in the Cuttack and Puri districts. Transplantation of *mandia* is in progress in the Cuttack and Puri districts and that of paddy continues in the Balasore district and has commenced in the Sambalpur district. Jute and sugarcane in the Cuttack district, jute, maize, groundnut, *arhar*, sugarcane and *til* in the Puri district, paddy and groundnut in the Koraput district and paddy, *ragi*, *til*, *arhar* and sugarcane in the Ganjam district are thriving.

PUNJAB.

27th July.

The condition of the standing crops is generally average to above average. Standing crops have been damaged to some extent in parts of Ambala, Gurdaspur and Muzaffargarh.

SIND.

1st August.

The *kharif* crop has been affected by flood in Upper Sind. Transplanting of paddy is in progress.

UNITED PROVINCES.

25th July.

Preparation of land for *rabi* has been taken up. Sowing of *kharif* crops is still in progress at places. Standing crops are doing well and the prospects appear favourable, but much depends upon future rains.

Selection of teas for export less representative and included large proportion of poor liquoring stalky teas. After weak and uncertain opening good general demand developed, market closing firm to dearer compared with last week's levels, except for stalky teas which definitely lower. Brokens generally fully firm, while tippy teas, clean well-made leaf teas and Fannings ½ anna to 2 annas dearer. One very small Polished Invoice of Green teas sold well. Common and medium sorts of Dusts full one anna lower, but those of good quality remained firm in price. Market in other grades very irregular especially for leaf grades and mainly easier particularly for stalky and badly made types. Fannings mostly firm, whilst medium brokens sold slightly in buyers' favour.

REPORT OF THE CENTRAL BOARD OF DIRECTORS OF THE RESERVE BANK OF INDIA FOR THE YEAR 1ST JULY 1941 TO 30TH JUNE 1942.

ECONOMIC SITUATION IN INDIA.

THE following are extracts from the Report of the Central Board of Directors of the Reserve Bank of India for the year 1st July 1941 to 30th June 1942:—

The economic situation in India reflected the developments in the war situation. The extension of hostilities to the Pacific led to a virtual cessation of trade with the Far Eastern countries, and had far-reaching consequences on the country's agricultural and industrial economy. With the closure of important export markets for a number of commodities, particularly raw cotton and raw jute and the cessation of imports of foodgrains, notably wheat and rice, a reduction in the acreage under cash crops and a corresponding increase in the area under foodgrains was indicated, and various measures were adopted during the year in order to induce cultivators to grow more food-crops. The repercussions of the interruption of trade with the Far Eastern countries on the country's economy were also reflected in the trend of wholesale prices, and while the indices of foodstuffs tended to rise, those of raw cotton and raw jute showed a downward tendency, which, however, was partially arrested towards the close of the year. The expansion of the defence programme and the curtailment of imports of manufactured articles, particularly from Japan, gave a further stimulus to Indian industries and industrial production as shown by the available figures up to March 1942 was generally maintained at a higher level than in the corresponding period of the preceding year.

COMMODITY PRICES.

The trend of commodity prices reflected the repercussions of war developments on the economy of the country, amongst which must be recorded transport

difficulties resulting in wide fluctuations of prices between the producing and the consuming centres. The prices of the commodities which constituted the greater part of the exports to the Far Eastern countries registered a decline after the outbreak of war with Japan. Foodstuffs, such as rice and sugar, formerly imported from Burma and the Netherlands East Indies, as also manufactured articles which were previously imported from Japan, recorded a sharp rise. As a result, the Calcutta index number of wholesale prices for all commodities (July 1914=100) rose further from 137 in June 1941 to 182 in June 1942.

Among foodgrains, the index number for cereals rose from 114 to 154 during the year while that for pulses advanced from 99 to 151 during the same period. The price of sugar recorded an increase of 71 points to 210, while that of tea fluctuated widely between 169 and 263. The prices of "other food articles" also tended to higher levels, and their index rose by 109 points to 294. Among textiles, large government orders for sandbags led to a rise in the indices for raw jute and jute manufactures from 73 and 141 in June 1941 to 104 and 167 respectively in September, but the dislocation of shipping in the Pacific after the outbreak of war with Japan resulted in a sharp fall and the indices declined to 72 and 126 respectively in June 1942. Raw cotton, which had improved from 81 in June 1941 to 88 in July, declined to 70 in March 1942 as a result of war developments but rose again to 90 in June on expectations of a reduction in the acreage. The index for cotton manufactures rose from 158 in June 1941 to 237 in November. Thereafter there was a decline as a result of nervous liquidation of stocks following developments in the neighbouring theatres of war and the index fell to 171 in February 1942 but recovered to 190 in March. Owing to their war-time importance the indices of metals and hides and skins advanced by 66 and 16 points to 263 and 87 respectively.

BALANCE OF TRADE.

The total value of India's foreign trade continued to expand during the year. The value of merchandise exported from the country on private account amounted to Rs. 241·91 crores during the eleven months ended May 1942 as compared with Rs. 169·03 crores in the corresponding period of 1940-41, while that of imports was slightly lower at Rs. 138·01 crores as against Rs. 146·25 crores. As a result, the balance of trade in merchandise in favour of India rose by Rs. 81·12 crores from Rs. 22·78 crores to Rs. 103·90 crores. These figures do not take into account war purchases by His Majesty's and Allied Governments which are paid for in sterling. A part of the increase in the total value of exports is to be attributed to the rise in prices.

A feature of India's foreign trade during the period has been the increase in the trade between this country and the rest of the British Empire. Another feature has been the sharp rise in the exports of manufactured goods, particularly textiles.

EXCHANGE.

The rupee-sterling exchange market was steady throughout the year. The sellers' quotation for telegraphic transfers for merchant business was raised from 1*sh.* 5-15/16*d.* on the 25th September to 1*sh.* 5-31/32*d.* in anticipation of an improvement in the supply of sterling in the approaching export season. The buying rates for telegraphic transfers and three months D/A bills were also raised by 1/32*d.* to 1*sh.* 6-1/32*d.* and 1*sh.* 6¼*d.* respectively, and as a result of the change in the rupee-sterling exchange rate, the buying and selling rates for telegraphic transfers on New York were reduced by eight annas to Rs. 329½ and Rs. 332½ respectively. Owing to the improvement in the balance of trade, net sterling purchases of the Bank from the market were higher than in the previous year and amounted to £81,604,025-11-7 as compared with £54,074,993-6-7 in 1940-41. Repayments made by the Secretary of State on account of recoverable war expenditure and purchases made on behalf of His Majesty's and Allied Governments, after deducting the sterling requirements of the Central Government and the Government of Burma, left a net credit in favour of India of £145,360,000 against £25,545,000 in the previous year.

EXCHANGE CONTROL.

The main developments in the system of exchange control during the year under review were largely the result of the growing tension in the Far Eastern political situation and the territorial changes following the outbreak of war with Japan. With the freezing of Japanese assets, the Japanese Banks were placed under the supervision of the Reserve Bank, and the drawings from and credits to the accounts of Japanese firms and companies were restricted to the settlement of outstanding contracts.

With the outbreak of war with Japan, the Japanese Empire was declared enemy territory by the Government of India. All Japanese assets became vested in the Custodian of Enemy Property and the Reserve Bank ceased to administer Japanese accounts.

The system of import control also underwent certain changes during the year under review. The cessation of supplies from Continental Europe led to greater imports from the United States and other countries and owing to the increasing need for conserving foreign exchange and shipping space, the previous import restrictions were extended so as to cover all articles from all foreign countries with the exception of certain goods from Canada.

REPORT ON CONDITIONS IN THE ARGENTINE GRAIN TRADE DURING MAY 1942.

[From a Buenos Aires Correspondent of the Imperial Economic Committee under date of 2nd June 1942.]

(NOTE.—"Tons" throughout denotes "Metric Tons.")

Crop Conditions.

THE weather during May was generally cold, with frequent frosts at night, and very little rain. Ploughing of the land, the principal rural task, was made difficult by the hardness and dryness of the soil, and seeding of wheat has been set back a little.

The Wheat Crop.—In Buenos Aires ploughing for the new crop continues, insufficient rain during May having made the work difficult. In the south-west this has practically paralyzed the task.

In Santa Fé the preparation of the land has not been undertaken with the enthusiasm of other years on account of the uncertainty of the situation of the tenant farmers, who do not know whether their leases will be renewed. Nevertheless, it can be estimated that 70 per cent of the area normally used for wheat is now ready for seeding. Already planting of slow growing varieties has been commenced here and there, and in the first half of June the work will be intensified.

In Cordoba planting has been commenced in the centre and south, and in the north half the total area has already been seeded.

In Entre Rios the work is going on without enthusiasm. It is expected that sowing will commence in mid-June.

Throughout the cereal region, with the exception of Cordoba, it is anticipated that there will be a decrease in the area devoted to wheat; although in the Pampa it is thought that the area planted will approximate that of last season.

The condition of the fields already germinated is good in all the zones.

The Linseed Crop.—In Santa Fé ploughing land for linseed is proceeding under good conditions, although there is a certain backwardness in the work. Only 15 per cent of the area normally planted is yet ready for the seed.

In Cordoba the work is more advanced than in Santa Fé. But in Entre Rios cultivation has been delayed by the rains.

SUPPLIES AND MARKETS.

Wheat.

Shipments during May were 186,192 tons of wheat and 5,187 tons of flour in terms of wheat, a combined total of 191,379 tons. This compares with a combined total of 217,295 tons in April.

On the basis of the new official calculation of the crop the statistical position is now as shown hereunder:

	1941-42. Metric Tons.	1940-41. Metric Tons.
Third official estimate of the crop	6,100,000	7,380,200
Carry over from previous year's crop	3,259,516	74,279
Total Supplies	9,359,516	7,454,479
Deduction for seed and domestic needs	3,000,000	2,750,000
Exportable balance	6,359,516	4,704,479
Exported to the end of May	921,075	1,041,758
Balance still available for export	5,438,441	3,662,721

Minimum prices for the 1940-41 crop of wheat were abolished in mid-month, ample opportunity having been given to the growers who desired to do so to take advantage of the Government's offer to purchase their grain. The measure appears to have been received with general approval.

There has been no change in market conditions. Business remains completely under Government control through the official Grain Board, and the grain of the new crop, having now been released for sale it is practically monopolising the attention of buyers. Prices were increased early in the month to $7·70 for new wheat for export to Europe and Brazil, and to $8·10 per 100 kilos for shipment to other neighbouring countries; but no change was made in the prices of old grain, which are still $6·90 *ex* Buenos Aires, $6·80 *ex* Bahia Blanca, and $6·77½ *ex* Rosario.

The demand from Europe was very small, and apart from two or three cargoes for Great Britain, no sales were made.

For South American destinations small contracts were effected almost daily principally to Brazil and Chile, the Government of this latter country arranging to take a few cargoes as part of an interchange of produce.

A commercial delegation from Spain is now in Buenos Aires, and negotiations are in progress with a view to exchanging iron and other minerals for 100,000 tons of Argentine wheat.

The prohibition against the use of new crop wheat by the domestic millers has now been removed, and a recent Decree permits the use of a maximum of 30 per cent of grain of the 1941-42 crop for mixture with that of previous crops.

Linseed.

May exports were 40,712 tons, as against 56,643 tons in the preceding month, leaving the supply position as follows :—

	1941-42. Metric Tons.	1940-41. Metric Tons.
Third official estimate of the crop	1,600,000	1,459,600
Carry-over from previous year's crop	653,267	57,959
Total Supplies	2,253,267	1,517,559
Deduction for seed and domestic requirements	350,000	200,000
Exportable balance	1,903,267	1,317,559
Exported to the end of May	209,346	219,441
Balance still available for export	1,693,921	1,098,118

As in the case of wheat, minimum prices for linseed for the 1940-41 crop were abolished on May 14th. To what extent producers were affected has not been announced.

Very little market activity was visible during the month. The Grain Board having apparently come to the conclusion that its price of $20·40 pesos per 100 kilos might be an obstacle to business, reduced it to $20 and subsequently to $19·50, but no demand seems to have been brought to light, the other deterrent, lack of marine tonnage, not yet having been removed or even ameliorated.

On the other hand, the Board's policy of endeavouring to stimulate local crushing seems to have borne some fruit, as shipments of linseed oil during the first 4 month of this year amounted to 11,200 tons with a value of $6,843,000 pesos. In pre-war years shipments only averaged in value $25,800 pesos per annum. In 1940 linseed oil exports were valued at $3,400,000 pesos, and in 1941 $8,194,000 pesos. The significance of the change may be realised when it is considered that one ton of the oil has about 10 times the export value of a ton of seed, and occupies far less space aboard ship.

Deliveries of seed by the growers in recent weeks have been much reduced, the spread of almost 100 per cent between the buying and selling prices of the Grain Board not encouraging voluntary sales.

Quotations for Linseed Oil—

Linseed oil, Calcutta Mills (Raw)	Rs. 22-0-0 per md. loose.
Linseed oil, Calcutta Mills (Boiled)	Rs. 23-0-0 per md. loose.

Summary of Market Conditions.—The tone of the linseed market during the week seems to have weakened somewhat and prices have remained at low levels. There have been regular enquiries from shippers and local mills and actual business done has been quite fair, considering the prevailing scarcity of wagons.

REGULATION OF TEA EXPORTS—

The following Press Note, dated the 6th August 1942, has been issued by the Government of India in the Department of Commerce :—

In order to conserve the available supply of tea for the purpose of equitable distribution to consumers relying on Indian tea, a proposal for the purchasing of the entire exportable surplus is under active consideration.

The arrangements contemplated for the purpose may necessitate that, on and from a certain date (that is, from the date of the introduction of the arrangement which will be announced in due course), no teas can be exported from India by any person other than the Tea Controller for India or his nominees.

The Government of India desire to bring it to the notice of all exporters and purchasers of tea in the auctions that all private exports of tea may be prohibited if and when the proposed arrangements are brought into force.

COTTON TEXTILES SIZING AND FILLING CONTROL ORDER, 1942—

The following Notification [No. 130-I. C. (1)/42, dated the 8th August 1942] has been issued by the Government of India in the Department of Commerce :—

In exercise of the powers conferred by sub-rule (2) of rule 81 of the Defence of India Rules, the Central Government is pleased to make the following Order, namely :—

COTTON TEXTILES SIZING AND FILLING CONTROL ORDER, 1942.

1. *Short Title*: This Order may be called the Cotton Textiles Sizing and Filling Control Order, 1942.

2. *Definition*: In this Order, unless there is anything repugnant in the subject or context, "cotton piece-goods" includes any woven or knitted fabric or material containing more than 90 per cent by weight of cotton after removal of any size or filling.

3. *Sizing or filling*: No person shall on or after the 1st day of September 1942, manufacture or process, or cause to be manufactured or processed, any cotton piece-goods which contain any sizing or filling material, or both, of any description, exceeding in the aggregate 20 per cent of the weight of the cotton in the cloth.

4. No person shall on or after the 1st September, 1942, sell or otherwise dispose of or purchase or otherwise acquire any cotton piece-goods which have been manufactured, processed or finished in contravention of clause 3.

5. *Tests*: For the purposes of this Order, the proportion of sizing or filling material, or both relative to the weight of the cotton in any finished cotton piece-goods shall be determined by such test as the Central Government may, from time to time, prescribe by order in writing and the result of such test shall be conclusive.

6. *Inspection of premises*: Any officer authorised by the Central Government in writing in this behalf may, enter upon and inspect any premises in which he has reason to believe that cotton piece-goods are manufactured or processed or sized or filled in contravention of the provisions of this Order, and may ask for any information relating to the manufacture, processing, sizing or filling of such piece-goods in those premises.

7. *Existing contracts*: Nothing in this Order shall apply to or affect the manufacture, processing, sizing or filling of any cotton piece-goods, which is in pursuance of any firm contract entered into before the 8th August, 1942, if particulars of such contracts are furnished to the Central Government in the Department of Commerce not later than the 28th August, 1942, but all contracts not saved by the provisions of this clause shall, in so far as they are at variance with the provisions of this Order, be void.

WEEKLY CROP REPORTS.

ASSAM.

10th August.

The prospects and the outturn of crops are fair.

BOMBAY.

8th August.

In many areas of Gujarat and west Karnatak and in the northern and western areas of the Deccan, crop growth was checked and field operations were retarded. In the Konkan and the central Karnatak the outlook was satisfactory.

BIHAR.

27th July.

The condition of the standing crops, including sugarcane, is generally fair. Sowing of *bhadoi* crops is nearly completed and transplanting of winter paddy is going on.

CENTRAL PROVINCES.

31st July.

Sowing of *kodon-kutki* in the Chhattisgarh district and re-sowing of *kharif* crops in the areas damaged by floods in the Chhindwara, Nagpur and Drug districts were in progress. In the districts of the Jubbulpore division, except Nimar, the standing *kharif* crops are somewhat stunted in growth and are also slightly affected in the low-lying and rich soils. Cotton in low-lying areas in the Hinganghat *tahsil* of the Wardha district and cotton and *juar* in the Akola district, cotton and *til* in the Warora *tahsil* of the Chanda district and *juar* in the Balaghat district are reported to have been damaged to some extent. Caterpillars also caused some damage to the maize and *juar* crops in the Mandla and Chhindwara districts. In the Chhattisgarh division, the condition of paddy is, however, satisfactory and *biasi* is being continued. Transplantation of paddy was also in progress.

ORISSA.

3rd August.

Transplantation of *saradh* paddy is proceeding in the Cuttack, Balasore, Sambalpur and Ganjam districts. Weeding of *biali* paddy continues in the Cuttack and Puri districts. Puddling and weeding of *saradh* paddy has commenced in the Balasore, Puri and Sambalpur districts. Transplantation of *mandia* is going on in the Cuttack district. Jute and sugarcane in the Cuttack and Balasore districts, jute, maize, *mandia*, groundnut, *arhar*, sugarcane and cotton in the Puri district and *ragi*, redgram and sugarcane in the Ganjam and Koraput districts are thriving. Groundnut is being sown in the Koraput district.

PUNJAB.

3rd August.

The condition of the standing crops is generally average to above average. Standing crops have been damaged to some extent in parts of Ambala, Sheikhupura, Shahpur and Muzaffargarh. Swarms of locusts appeared in parts of Gurgaon, but caused no damage to crops.

SIND.

8th August.

Paddy has been affected by floods in the Larkana district. Cotton, *jowar* and *bajri* are progressing satisfactorily.

UNITED PROVINCES.

1st August.

Preparation of land for *rabi* and *kharif* crops continued. Sowing of *kharif* crops is going on and transplantation of late rice has also commenced in the Basti, Azamgarh and Sultanpur districts. The condition of the standing crops and the prospects are, on the whole, satisfactory.

REVIEW OF THE QUALITY OF SUGAR MANUFACTURED IN INDIA BY CENTRAL SUGAR FACTORIES AND REFINERIES DURING THE SEASON 1941-42

By

R. C. Srivastava, B.Sc., O.B.E.,

Director, Imperial Institute of Sugar Technology, India, Cawnpore.

I.—Introduction.

This Review is based on the results of quality analysis in terms of the Indian Sugar Standards of 1941, of samples of sugar manufactured by Central Sugar Factories and Refineries during the season 1941-42, and received in the Bureau of Sugar Standards for testing.

Out of 168 Sugar Factories and Refineries in India 158 are expected to have worked during this season, and samples were actually received from 128 factories, as compared to 114 factories sending samples for the Museum last year. The total number of samples received was 433, as against 245 for last year. Besides 433 samples of plantation white sugars, 5 samples of refined sugar and 13 samples of fancy sugars were also received.

The distribution of samples received from different parts of India was as follows:—

Table I.

Group.	Territory covered.	No. of Factories sending Samples.		No. of Samples received in	
		1940-41.	1941-42.	1940-41.	1941-42.
A	The Punjab, Indian States in the Punjab and N. W. F. P.	3	4	5	11
B	Western United Provinces.	16	17	38	51
C	Central United Provinces.	12	13	25	64
D	Eastern United Provinces.	28	29	68	108
E	Districts of Champaran and Saran (Bihar).	15	15	35	67
F	Districts of Muzzafarpur, Darbhanga, Bhagalpur, Purnea, Shahabad, Patna, Gaya and Orissa.	14	14	33	52
G	Bengal and Assam	3	5	10	31
H	Deccan including Central Provinces and Sind.	23	23	41	49
	Total	114	128	245	433

From the above table it will be seen that there is an all-round increase in the number of samples received this year from the different parts of India. Whereas the increase compared with last year in the number of factories sending samples is only 14, the actual number of samples received this year is very much larger being almost double that of last year. This large increase in the number of samples may be due to the fact that in the past factories sent for the Museum, samples of sugar representing only the principal qualities of their production and not the entire production. This year's samples were from every lot made by factories, however small in quantity. This year's data are therefore more representative of India's production of sugar than in the previous years.

II.—Commercial Qualities.

As in previous years, quite a large number of samples were found to bear different quality designations. Many of these designations do not convey any idea of the true quality of sugar, and sugars marked with the same designations but manufactured by different factories, showed wide differences in quality. The following quality designations were used by factories on the samples received:—

1. Sugar A.

It will be seen that the number of commercial designations in use in factories is very much larger than reported in previous Reviews. This may be partly due to the very much larger number of samples received this year. The above list shows that 6 factories (Serial Nos. 119 to 124) have adopted I.S.S. Numbers for designating their sugars as compared to 3 factories last year.

All the samples of sugar bearing the above-mentioned quality designations may, however, be classed* into the four common commercial qualities given below, the number of samples received for each commercial quality being noted against each :—

	No. of Samples.	Percentage.
Special Crystal	15	3·46
First Crystal	350	80·84
Second Crystal	34	7·85
Crushed Grades	34	7·85
Total	433	100·00

* The basis on which the above classification has been made is as follows :—

1. All samples having grain size A, not finer than B and B with colour from I. S. S. No. 28 to 26 were taken to belong to the quality "Special Crystal".
2. All samples having colour ranging between I. S. S. No. 26 and 24 and grain size A to G and also having colour 28 to 26 and grain size C to G were classed as "First Crystals".
3. Such samples as had colour between 23 to 19 and grain size A to G were classed as Second Crystals, and
4. The "Crushed Grades" comprise all sugars having colour from I. S. S. No. 13 to 8.

III.—Special Crystals.

Details of the number and quality of samples belonging to the category of "Special Crystals", are given in Table II below :—

Table II.

Total	2	..	13	15

It will be seen from the above table that 26 B was the most common quality amongst special crystals.

IV.—First Crystals.

Details of the number and quality in terms of I.S.S. Numbers of samples classed as 'First Crystals' are given in Table No. III below :—

B. 1861 W. 12-8-43.

It will be noted that the largest number of samples were of the quality D 26 and a majority of the 'First Crystals' were in the range given by I.S.S. No. 25 to I.S.S. No. 27 in colour, and I.S.S. No. C to F in grain size. The majority of last year's 'First Crystals' were of Grade E 26. It will thus be observed that there is some improvement in the size of grain this year. It may also be noted that as many as 9 samples had colour corresponding to the highest colour standard No. 28 which shows that there is an increasing tendency for manufacturing superior class of sugars in India.

V.—Second Crystals.

The 'Second Crystals' include samples ranging in colour from I.S.S. No. NB 23 to I.S.S. No. 19 and in grain size from I.S.S. No. A to G. Table IV below gives details of such samples :—

Table IV.

Total	1	..	6	..	11	..	13	..	3	34

It will be seen from the above table that the majority of the Second Crystals were of colour 23 and 22, and of grain size F and E.

VI.—Crushed Grades.

Table V gives the number of samples of crushed sugars corresponding to different colour standards :—

VII.—General Remarks on the Quality of Factory-made Sugars.

An analysis of the quality in terms of I. S. S. Numbers for all samples received, is given in Table VI below. Figures are also given for the preceding four seasons for comparison :—

Graphs A* and B†, drawn on the basis of figures given in the above table, show at a glance the percentage of samples of each standard grade as received this year, compared with corresponding figures for the last 4 seasons.

It will be seen from the above table that, as in the previous year, the majority of samples received this year also had colour ranging between I. S. S. Nos. 25 and 26 and grain size ranging between I. S. S. Nos. D and E, but in the matter of grain size the percentage of samples this year is higher for bolder grain sizes than for finer ones. There is thus an improvement in the size of grain of crystal sugar this year. Most of the samples were of mixed grain sizes and some contained twins and conglomerates. Graph C‡ is also appended showing by cumulative line the improvements in the colour of sugars produced in the past five crops.

VIII.—Number of Grades produced by Factories.

Table VII below gives the number of factories producing one, two, three or more, grades of sugar each :—

TABLE VII.

Number of Grades.	No. of Factories. 1941-42.	Percentage of Factories. 1941-42.	No. of Factories. 1940-41.	Percentage of Factories. 1940-41.
One grade	17	13·28	36	31·60
Two grades	26	20·32	38	33·30
Three grades	41	32·03	28	24·60
Four grades	18	14·06	12	10·50
Five grades	14	10·94	..	..
Six grades	3	2·34	..	..
Seven grades	5	3·91	..	..
Eight grades	1	0·78	..	..
Nine grades	1	0·78	..	..
Twelve grades	1	0·78	..	..
Thirteen grades	1	0·78	..	..
Total	128	100·00	114	100·00

From the above table it would appear that the tendency for producing a number of different grades is on the increase but a closer scrutiny would show that as in the previous year, the general tendency was to produce up to four grades at the maximum, two and three grades being most common this year as against one and two grades last year.

IX.—Foreign Sugars.

Samples of this year's production of foreign sugars were not received in the Bureau as these were not available in the market.

X.—Refined and Fancy Sugars.

A few samples of Indian-made refined and fancy sugars were also received. The grading according to I. S. S. Numbers of 5 samples of refined sugar showed that their colour was equal to or above I. S. S. No. 28 and grain size mostly G. The following samples of Indian fancy sugars were also received :—

1. Castor Sugar.
2. Cube Sugar.
3. Icing Sugar.
4. Demerara Sugar.
5. Cone Sugar.
6. Coffee Crystal.

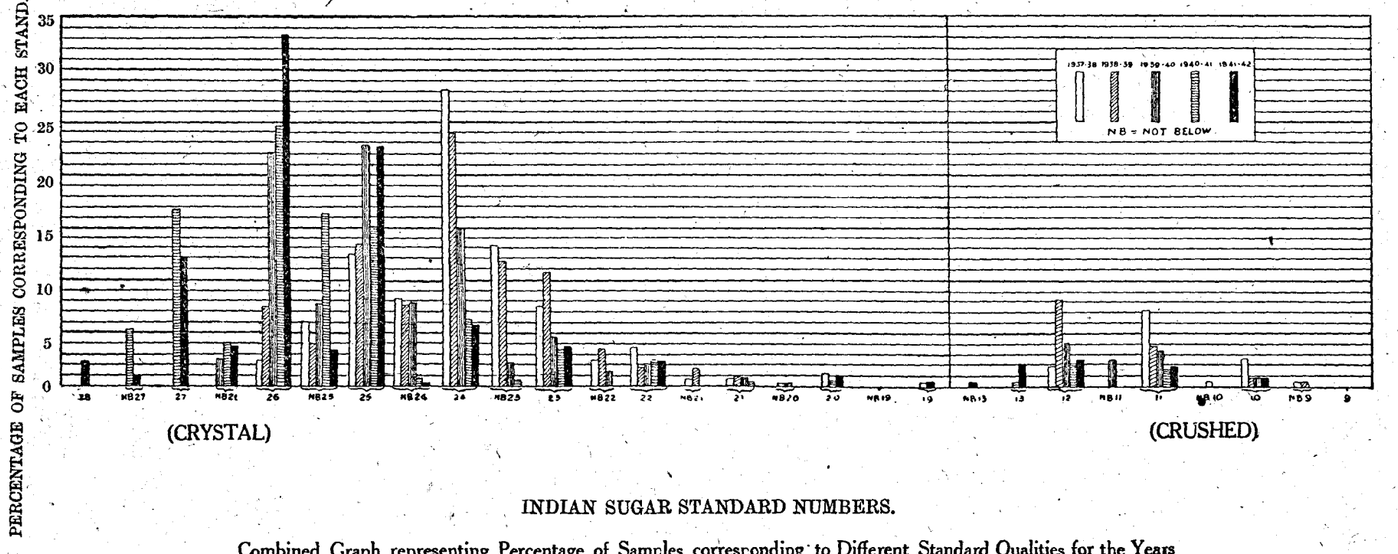

Manufacture of refined and fancy sugars in India marks a new feature in the sugar industry of this country and it is satisfactory to note that these compare favourably in quality with those of foreign brands.

XI.—Conclusion.

The data brought together in the present Review, which are more comprehensive than in any previous year, show that the salient features of the quality of sugar produced by Indian factories, have not altered materially, excepting for a slight improvement in the grain size. The season under review was a short one and factories had ample time for giving more attention to quality and efficiency. A more marked improvement was to be expected ordinarily under these circumstances. The Imperial Institute of Sugar Technology has been drawing the attention of manufacturers, for several years, to the importance of standardising their production and confining it to a small number of well-defined grades, as this would simplify price fixation, make sales easier and reduce the number of disputes about quality of sugar. Hardly any improvement is, however, noticeable in this direction so far. It is for consideration if such improvement can be accelerated by the adoption of some scheme of price fixation which would give no price advantage in respect of small differences in quality but provide substantial price differentials between a limited number of quality groups only.

NOTICE TO IMPORTERS: WAR RISK INSURANCE SURCHARGES.

The following Notice has been issued by the Commissioner of Customs, Kenya and Uganda :—

No. 6 of 1942.

For purposes of assessment of customs duty, it is essential that all insurance charges, including war risk insurance, should be shown on invoices for goods liable to duty at *ad valorem* rates. If no war risk insurance has been undertaken by the shipper of

the goods, invoices should bear the following certificate :—

"I.....certify that no war risk or any other insurance other than that quoted on this invoice has been undertaken in respect of the goods shown on this invoice.

Signed.....

....."

Failing the production of the above certificate war risk rates as shown in "Notice to Importers" No. 5/1942 will be added to the value for duty purposes. For easy reference, the current rates are reprinted below (these are subject to alteration from time to time). It will be observed that an addition of 2 per cent has been made in respect of United Kingdom shipments on account of Unlimited Transhipment Insurance :—

WEEKLY CROP REPORTS.

ASSAM.

17th August.

The prospects and the outturn of crops are fair.

BIHAR.

3rd August.

The condition of the standing crops, including sugarcane, is generally fair, except in Hazaribagh where the crops have been partially damaged and in Palamau where they are not doing well due to continuous rain. Sowing of *bhadoi* crops is nearly completed and transplanting of winter paddy is going on. But the operation has been retarded in Purnea owing to insufficient rainfall.

CENTRAL PROVINCES.

7th August.

Sowings of *kharif* crops were almost complete but those of *juar* in heavy soils and of other minor *kharif* crops have been resumed and are now in full swing. Weeding and intercultural operations are also in progress. Standing *kharif* crops are somewhat stunted in growth owing to excessive moisture. *Jarila* cotton in water-logged areas in the Wardha district and cotton in low-lying areas in the Akola and Buldana districts and cotton and *til* in the Warora *tahsil* of the Chanda district are reported to have been damaged slightly by excessive rain. Floods also caused some damage to crops in the riverain areas of the Saugor, Nimar and Amraoti districts. Caterpillars on maize are reported to be disappearing in the Mandla district, while they are causing some damage to the maize crop in parts of the Jubbulpore and Balaghat districts. Transplantation and thinning of rice were in progress.

ORISSA.

10th August.

Transplantation of paddy continues. Weeding of *biali* paddy is proceeding in the Cuttack and Puri districts. Puddling and weeding of *saradh* paddy are in progress in the Cuttack, Puri and Sambalpur districts. Jute, *mandia* and sugarcane in the Cuttack district; jute, *maize*, *mandia*, groundnut, *arhar*, sugarcane and cotton in the Puri district; and *ragi*, *gingelly*, redgram and sugarcane in the Ganjam and Koraput districts, are thriving. *Til* is in flowers and pods in the Puri district. More rain is needed for agricultural operations in parts of the Ganjam district.

UNITED PROVINCES.

8th August.

Some damage to crops by floods, is reported from the Jhansi and Mirzapur districts. The maize crop in some places in the Meerut district is reported to have been damaged by rain. Preparation of land for *rabi* and *kharif* crops still continues. Sowing of *kharif* crops and transplantation of late rice continued. The condition of the standing crops and the prospects are, on the whole, satisfactory.

CROP FORECAST.

(ALL-INDIA)

FINAL GENERAL MEMORANDUM ON THE WHEAT CROP OF 1941-42.

(Calcutta, August 11, 1942.)

This memorandum is based on returns of finally revised acreage and outturn of the wheat crop of the season 1941-42 received from provinces and States which comprise 98 per cent of the total wheat acreage of India. The returns, therefore, cover practically all the important wheat-growing tracts in India.

The total area reported is 33,979,000 acres, as against 34,849,000 acres last year, or a decrease of 2·5 per cent. The total yield of the crop, which has already been harvested, is estimated at 10,070,000 tons (46,993,000 quarters of 480 lbs each), as compared with 10,027,000 tons (46,793,000 quarters) last year, or an increase of 43,000 tons only.

The detailed figures for the provinces and States are as follows (similar figures for the previous year are given in the appended statement) :—

Provinces and States	Area (thousand acres)	Yield (thousand tons)	Yield per acre (lbs)
Punjab (*a*)	11,610	4,393	848
United Provinces (*b*)	8,001	2,657	744
Central Provinces and Berar (*c*).	2,926	400	306

Total for 1941-42	33,979	10,070	664
Total for 1940-41	34,849	10,027	645

(*a*) Including Indian States.
(*b*) Including Rampur State.
(*c*) Including Eastern Agency States, formerly C. P. States.
(*d*) Including Khairpur State.
(*e*) 500 tons.

It will be seen from the appended statement that the present estimates of yield as compared with the final figures of last year show a general decrease. But this has been counterbalanced by an increase mainly in the Punjab. The yield per acre for all-India in the present season is 664 lbs, as compared with 645 lbs last season.

In addition to the areas for which particulars are given above, the crop is grown in certain other tracts* from which no reports are received, and the average area under wheat in those tracts for the last five years has been estimated at 747,000 acres with a yield of 221,000 tons.

Exports.—The following table shows the exports of wheat by sea from British India to foreign countries in each month of the three official years ending 1940-41 and in the eleven months ending February 1942 :—

Months	1938-39	1939-40	1940-41	1941-42 (Eleven months)

*Madras, Kashmir, Benares State and certain other Punjab States.

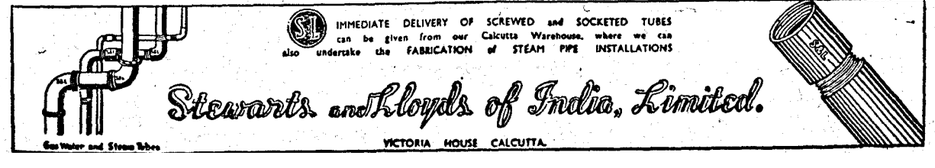

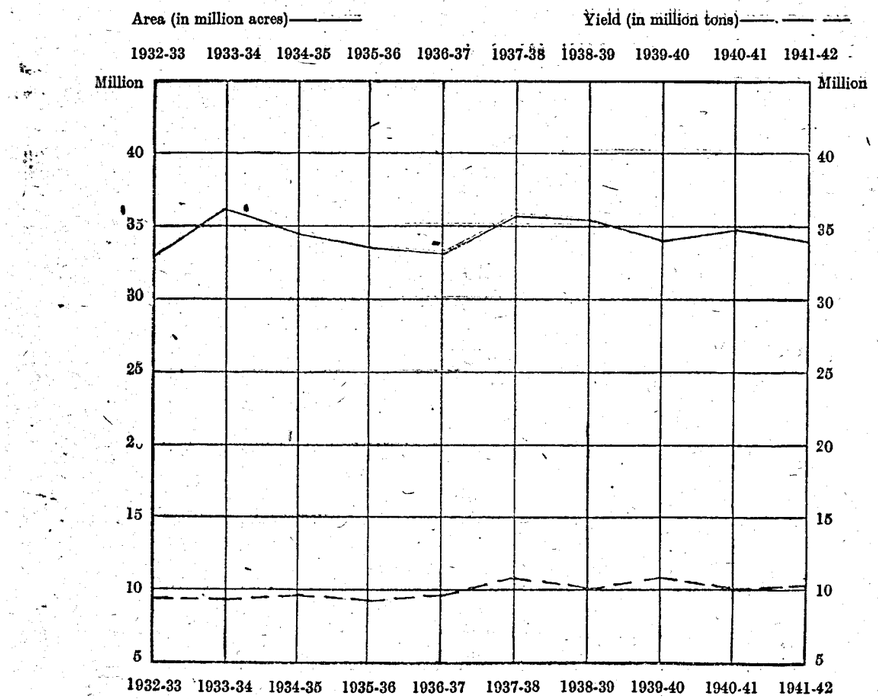

Chart.—The chart below illustrates the variations in the present estimates of area and yield, as compared with the final figures of the preceding nine years.

Wheat in Foreign Countries.—From information specially obtained, it appears that the area sown with winter wheat for the 1942 crop in the United States of America is estimated at 39,318,000 acres, as against 45,663,000 acres in the preceding season; and the production is estimated at 630,913,000 bushels (or 16,899,000 tons), as compared with 671,293,000 bushels (or 17,981,000 tons) in 1941. In Canada, the condition of the wheat crop during the current season is now estimated at 149 per cent of the normal, as against 72 per cent at this time last year. In Australia, the estimates for the 1941-42 wheat crop are 12,654,000 acres and 162,088,000 bushels (or 4,342,000 tons), as against 12,454,000 acres and 82,654,000 bushels (or 2,214,000 tons) in the preceding season. The third estimate of yield of the wheat crop of Argentina for 1941-42 is placed at 6,002,000 tons, as compared with 8,021,000 tons in 1940-41.

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUE—

The total gross Indian Sea and Land Customs Revenue, excluding Salt Revenue, collected in British India during the month of July 1942, amounted to Rs. 2,98 lakhs as compared with Rs. 2,53 lakhs in June 1942, and Rs. 4,14 lakhs in July 1941. The total gross central excise duties on motor spirit, kerosene, sugar, matches, etc., amounted to Rs. 92 lakhs in July 1942, as compared with Rs. 95 lakhs in June 1942, and Rs. 1,06 lakhs in July 1941. The grand total of gross Customs and Central Excise Revenues realised in the four months ended July 1942, was Rs. 15,05 lakhs as compared with Rs. 19,07 lakhs during the same period last year. Of this amount, import duties accounted for Rs. 10,03 lakhs, export duties for Rs. 92 lakhs, land customs and miscellaneous for Rs. 28 lakhs and central excise duties for Rs. 3,82 lakhs. Comparing the figures for April to July 1942, with those for the corresponding period of the preceding year, there were decreases under import duties on cotton fabrics, artificial silk yarn and thread, artificial silk fabrics, iron and steel, kerosene oil, betelnuts, motor vehicles, raw silk, dyes derived from coal-tar and coal-tar derivatives, matches, match splints and veneers, machinery, cotton raw, silver bullion, coin, sheets, plates and other manufactures, tin (block), silk yarn and thread, cotton yarn and thread, silk fabrics, fabrics of artificial silk mixed with other materials, spices, wireless reception instruments and apparatus, metals other than iron and steel, etc., cotton hosiery, electric lighting bulbs pneumatic rubber tyres and tubes, toys, games and sports goods and railway plant and rolling stock, under export duties on raw jute and other agricultural produce and under excise duty on sugar. On the other hand, import duties on tobacco, liquors, batching, fuel and lubricating oils and motor spirit, land customs receipts and the excise duties on matches, motor spirit and kerosene showed increases.

MONTHLY REPORT OF THE INDIAN TRADE AGENT, KABUL, ON NEW MARKETS WITH OPENINGS FOR INDIAN COMMODITIES, DECEMBER 1941.

On account of the restrictions placed by the Government of India on the export of most of the articles which enter into the import trade of Afghanistan, the number of trade enquiries from this end has fallen considerably. Besides, whatever direct trade existed previously between this country and the overseas sources of supply has, with the entry of Japan into the war, practically ceased except in the case of the United States of America and the United Kingdom. Most of the American and United Kingdom goods are purchased from stocks placed under bond in India. There is also no trade at present with the Union of the Soviet Socialist Republics. India is therefore practically the only source of supply for all the ordinary needs of Afghanistan in respect of imported goods. Moreover, the majority of import traders of this country have of late adopted the practice of paying personal visits to India and purchasing their requirements on the spot after making sure that necessary export licences would be forthcoming. In the circumstances, the question of finding new markets with openings for Indian commodities does not seem to arise in any practical shape so far as this country is concerned. Nevertheless the following enquiries will be of interest in this connection :—

The Chief of the Department of Agriculture of the Afghan Government asked for an enquiry to be made from India regarding the possibility of supply of corn-threshing machines operated by manual or animal labour. The enquiry was passed on to the Director-General of Commercial Intelligence and Statistics, Calcutta.

At the instance of the Ministry of Public Works, a Lahore firm of Motor Engineers which had previously furnished specifications of and price quotations for the producer gas plant for motor trucks was addressed again for certain particulars which were received and furnished to the Ministry in due course.

The Directorate of Cinema of the Afghan Government took up again the question of purchasing new cinema projectors from India and was rendered all possible assistance in this connection. They eventually sent an official down to India who made the purchase on the spot.

QUARTERLY REPORT OF THE INDIAN TRADE AGENT, KABUL, JULY—SEPTEMBER 1941.

Introductory.

On the outbreak of war between Germany and Russia on the 22nd June 1941 the prices of Russian cotton piecegoods rose abruptly in Afghanistan and this led to a rise in the prices of Japanese and Indian piecegoods also. Speculators got busy in purchasing stocks of cotton piecegoods, particularly white and grey shirting, and persons who were not normally engaged in trade invested the money they could spare in the purchase of Japanese white and grey shirting cloth and started hoarding it. The Afghan Government were not slow in realizing the gravity of the situation and imposed a strict control on the prices, both wholesale and retail, of the popular lines of textile goods and limited profits of wholesale and retail dealers of cloth to a percentage of the invoice value of such goods. This drove stocks underground. There was a general rise in prices in India also and so far as the cotton piecegoods trade is concerned the position was accentuated by the denunciation by the Government of India of treaties with Japan and the issue of orders freezing Japanese assets. There was therefore a contraction of trade between India and Japan and Japanese piecegoods were greatly in demand. Price control in Afghanistan did not allow markets here to respond fully to the rise in prices in India. The result was that there were reduced imports of cotton piecegoods across the Indo-Afghan frontier in the quarter under review.

The Ministry of National Economy of the Afghan Government advised importers and wholesale traders of cloth not to sell goods to those persons who bought with the object of hoarding stocks in the hope of realizing better prices later on. They also advised them to raise prices gradually if fresh stocks were not forthcoming at the old rates and to sell goods in small quantities.

The contraction in the imports of cotton piecegoods led to an appreciable fall in the customs revenue. There were also smaller imports of capital goods with consequent reduction in the external financial obligations of the Afghan Government and Afghan Shirkats. There was therefore plenty of foreign exchange available and with a view to utilising it in the import of bazaar goods and thereby helping customs revenue a new powerful Shirkat was formed under the name of Shirkat-i-Marast, with a capital of one crore Afghanis, for the purchase and import of foreign goods, particularly piecegoods. During the latter part of the period under review this shirkat made large purchases of cotton piecegoods from Bombay and Karachi.

After the German attack on Russia the latter country reduced her supply of petrol to Afghanistan. India, the other source of supply, had on account of her wartime needs also to cut down her supplies by 25 per cent, that is to say, by the same figure by which supplies available for general consumption in India itself had been reduced. In view of these reductions the Afghan Government had to impose restrictions on internal consumption of petrol. This resulted in considerable curtailment of lorry traffic and consequent dislocation of trade on the main trade routes. Transport charges also went up. The issue of petrol to private cars other than those belonging to members of diplomatic corps was stopped altogether from the 1st September 1941 and special arrangements were made for the export of fresh fruits to Peshawar and Chaman. Transport vehicles which were provided petrol for this purpose were required on the return journey to carry Afghan Government goods and goods belonging to Afghan shirkats in preference to those belonging to private importers. On account of reduction in lorry traffic pack animals reappeared in the carrying trade, and have secured a considerable share in the transport of goods on the main highways of the country.

During the period under report the local branch of the German firm Messrs. F. Undutsch & Co., Bremen, which was carrying on export and import trade with Germany, disposed of its trade samples and closed its office, as after the outbreak of hostilities between Germany and Russia it had become impossible for it to do any business for want of a convenient overland route.

A number of requests asking for assistance in getting export licenses for various articles of export from India was received from Indian and Afghan traders and dealt with in the quarter under review.

Foreign Trade.

No statistics of trade across the Russo-Afghan frontier are available. The following analysis of the external trade of Afghanistan is therefore based on the statistics of trade recorded on the Indo-Afghan frontier.

The total value of imports into Afghanistan during the quarter under review representated about one-third of the total exports from the country. While the imports have shown a slight reduction of a little over two lakhs of rupees (Indian), the exports have registered an increase of over fifty-three lakhs over the figures of the corresponding quarter of the preceding year.

The principal articles of export from Afghanistan are Persian lambskins (Karakulis), fruits, nuts, and vegetables, raw cotton and raw wool; and these four items taken together accounted for 98·5 per cent of the value of the entire exports during the quarter under review as compared with 97·5 per cent in the corresponding quarter of the preceding year. Persian lambskins alone constituted 76 per

cent of the total exports in the quarter as against 73 per cent in the corresponding quarter of the previous year.

In the case of imports into Afghanistan foreign goods in direct transit accounted for 39 per cent of the total imports in the quarter as compared with 66 per cent in the corresponding period of last year. While the total imports do not show much reduction, the reduced imports of foreign goods in transit have been counterbalanced by increased imports of Indian goods which accounted for 59 per cent of the total imports as against 31 per cent in the corresponding quarter of the preceding year. India has therefore taken full advantage of the situation created by the war and has made up the deficiency in the supply of foreign goods. The additional supplies from India have mainly been under the heads sugar, petrol and dyeing materials with corresponding reductions from foreign sources. India held the Afghan market, as usual, in boots and shoes, cement, leather and tea and with the exception of cement the imports under all these heads have shown big increases. The reduction in the imports of cement is due to the suspension of some of the major works in this country. India has also increased her share in the supply of glass and glassware, paper, provisions, rubber manufactures, prices, cotton piecegoods, jute manufactures and cigarettes but has sent smaller quantities of chemicals, cordage and rope, drugs, medicines and perfumery, leather manufactures, machinery and millwork and iron and steel material in the quarter under review as compared with the corresponding quarter of last year. The supply from Germany having ceased, there is scope for improvement in the export of chemicals, drugs, medicines and perfumery to this country.

During the quarter the value figures of exports of Persian lambskins across the Indo-Afghan frontier showed an increase of 38 per cent over those of the corresponding quarter of the preceding year. There were presumably no exports of Persian lambskins to Russia or through that country to Germany. A recent publication of the Afghan National Bank gives the following figures of exports of Karakul skins to New York in the period of three months [illegible] corresponding to the quarter under review :—

	Three months from 22nd June to 22nd September.
	No. of Skins.
[illegible]	460,577
[illegible]	765,185

The [illegible] important items of exports from Afghanistan which showed an appreciable reduction in the quarter under review are raw cotton, drugs and medicines, wool manufactures and raw tobacco.

As already stated, India improved her position considerably in the Afghan market having sent 85 per cent more goods in the quarter than in the corresponding period of last year. India's rival, Japan, lost some ground and held the second position having sent goods worth less than half the value of exports from India. Two-thirds of the imports from Japan consisted of cotton piecegoods and the remaining one-third was accounted for by silk manufactures, woollen goods, green tea, cotton twist and yarn, glass and glassware, hardware and cutlery, instruments, apparatus and appliances, iron and steel goods, etc. The third position was held by the U. S. A., and the fourth by the United Kingdom, both of which lost some ground as compared with the figures of the corresponding quarter of last year. The U. S. A. supplied mainly motor vehicles, machinery and millwork, iron and steel material, apparel, manufactures of brass and copper and paper with small quantities of drugs and medicines, dyeing materials, chemicals, instruments, etc., while the United Kingdom sent instruments, apparatus and appliances, cotton piecegoods, silk and woollen goods, cigarettes, rubber manufactures, machinery, iron and steel material, manufactures of brass and copper and provisions.

As stated above, India supplied in the quarter under review 59 per cent of the total imports, Japan 25 per cent, the U. S. A. 5 per cent, the United United Kingdom 3 per cent, Iran 2 per cent, Bahrein Islands 1·7 per cent, China 1·2 per cent and Burma a little less than 1 per cent. The imports from Iran, Bahrein Islands and Burma were of petrol and kerosene oil while those from China consisted mainly of green tea and silk goods.

A brief account of the principal articles of import from India is given below :—

Cotton Piecegoods and other Cotton Manufactures.—This is the most important single item of imports into this country and in the quarter under review the principal suppliers were India and Japan with shares in the total imports of cotton manufactures of 44·5 per cent and 52·8 per cent, respectively. Russia which was in the past the third great supplier of these goods to Afghanistan did not send much in the quarter on account of its preoccupation with the war. It is understood, however, that there were sufficient stocks of Russian cotton piecegoods in Mazar and Herat to last for six months. Compared with the quantity figures of the corresponding quarter of the year 1940, there was nearly a 50 per cent shrinkage in the total volume of imports of cotton piecegoods from all countries across the Indo-Afghan frontier in the quarter under review. This was due partly to the fact that unusually large stocks of cotton piecegoods, particularly of Japanese manufacture, had been purchased by big Afghan shirkats in the year 1940-41 against war emergencies and partly to the rise in prices.

Silk Manufactures.—This consists largely of artificial silk piecegoods. India's share in this trade is steadily increasing and stood at 35 per cent of the imports under this head in the quarter while Japan supplied 49 per cent and China and the United Kingdom 7 per cent each.

Tea.—The imports of black tea are entirely from India. She also holds a predominant share in the market for green tea and supplied 76 per cent of the value of total imports under the head in the period under review as compared with 69 per cent in the corresponding quarter of the preceding year. The balance came from Japan and China.

Paper.—The imports of paper in the quarter from India as well as from all sources show an appreciable increase as compared with the corresponding period of last year. India supplied the bulk of it and about one-fifth came from the United States of America.

Boots and Shoes.—The imports are now entirely from India. The figures of the last three years show a rapid increase in imports and consumption of these articles in this country.

Drugs, Medicines and Perfumery.—The total imports as also the imports from India under this head show a reduction in the quarter under review as compared with the figures of the corresponding quarter of the last year. This seems to be due to shipping difficulties in the case of imports from overseas and restrictions on exports from India. The imports from the U. S. A. show some increase.

Dyeing Materials.—There was an appreciable increase in the imports of these articles from India and a reduction in those from other countries, particularly the United Kingdom. The W. S. A., however, sent increased supplies.

Matches.—There were no imports of matches from India or Burma. Japan sent matches worth Rs. 17,121. Russian matches were also available in the market.

Machinery and Millwork.—The imports of machinery have in the past been derived from the United Kingdom, Germany, Italy, Czechoslovakia and latterly from the United States of America. India's share in this item has been insignificant. The imports from the United Kingdom have registered a decline in the quarter while those from the U. S. A. and other foreign sources have increased. The imports of German and Italian machinery have ceased altogether.

Glass and Glassware.—Russia, Japan and India have been the principal suppliers of glass materials to this country in recent years. While the imports from India showed a small increase in the quarter under review those from Japan registered a big one. The supplies from other countries were small.

Sugar.—As stated in the previous reports, particular attention has been paid by this office to the question of development of India's export trade in sugar and consequently increasingly large quantities have been purchased during the last two years by the Afghan Sugar Company which holds the monopoly for the import, production and sale of sugar in this country. Exports of sugar from India to Afghanistan and other countries contiguous to the land frontier of India were previously hampered somewhat by the heavy railway freight. As a result of representations made by Indian sugar interests the North Western and East Indian Railways reduced from March 1941 rates for sugar intended for export to Afghanistan and Iran. Subsequently similar concessions were also granted by some other Indian Railways. This gave a further stimulus to the exports to Afghanistan and consequently Indian sugar almost entirely replaced Java sugar from the Afghan market in the quarter under report.

Exchange and Prices.

The official rates of exchange for the Indian currency remained unchanged at the following figures throughout the quarter under review :—

	Afghanis per Rs. 100 (Indian).
Bank's buying rate	395
Bank's selling rate	400

With the exception of a few days towards the end of the months of July and September during which there was a slight improvement, the official rates of exchange for the Pound Sterling and American Dollar remained stationary at the following figures :—

	Bank's buying rate. Afghanis.	Bank's selling rate. Afghanis.
Pound Sterling	52·67	53·52
American Dollar	1306·95	1346·95

The quarter under review opened with the unofficial rate of 485 Afghanis per Rs. 100 (Indian) at which the Afghan National Bank issued rupee drafts on India to import traders other than monopoly shirkats which get their foreign exchange at the official rate. This unofficial rate or what the Bank calls "free rate" improved to 480 Afghanis on the 23rd July 1941, 475 Afghanis on the 11th August and 470 Afghanis per Rs. 100 (Indian) on the 18th August 1941 and remained at that level throughout the remainder of the quarter.

As usual, a table showing the wholesale prices of the principal commodities in which India is interested as a supplier has been prepared and forms an Appendix to this report. It will be seen that the quarter under review was a period of rising prices and that the prices of some of the principal lines of piecegoods registered an increase of 50 to 60 per cent.

Trade Enquiries.

During the quarter under report a number of trade enquiries was received both from Indian manufacturers and exporters of different classes of goods and from firms and Government Departments in Afghanistan. In all cases necessary investigations were made and relevant information was supplied to the enquirers.

A brief account of the principal enquiries received by the Trade Agency during the quarter under review is given below :—

Coir Mats and Matting.—A South Indian firm of manufacturers of coir mats and matting addressed an enquiry to this office regarding market possibilities in this country for its products. The firm was furnished with the names and addresses of certain dealers in Afghanistan through the Director-General of Commercial Intelligence and Statistics.

Cinema Machinery.—The Cinema Directorate of the Afghan Government asked for the assistance of this office in connection with the purchase of a new cinema apparatus of American manufacture from a firm in Bombay. Necessary enquiries were made and the Directorate was put in touch with the suppliers.

Carbon Rods.—The same Department required a number of carbon rods suitable for use in the existing cinema apparatus which is of German manufacture and asked this office to put it in touch with the sources of supply in India. The samples of rods already in use were also furnished. The enquiry was placed through the Director-General of Commercial Intelligence and Statistics.

Steel Tools and Implements.—A Sialkot firm of manufacturers of steel tools and implements and various other articles relating to the sheet metal industry, such as hinges, hasps and staples, belt joints, washers, etc., approached this office for being put in touch with a few importers of these articles in this country. The firm was informed through the Director-General of Commercial Intelligence and Statistics, Calcutta, that in view of the restrictions placed by the Government of India on the export of iron and steel material of the kind manufactured by it, it was doubtful whether the introduction asked for would serve any useful purpose.

Butter-making Machine.—A Kabul firm desirous of purchasing butter-making machine asked to be put in touch with a reliable supplying firm in India. Necessary action was taken through the Director-General of Commercial Intelligence and Statistics.

Cotton Waste and Scrap Iron.—A Bombay firm of stockists of what it called "hard and soft waste" asked for the names and addresses of merchants importing such goods into this country. The firm was informed through the Director-General of Commercial Intelligence and Statistics that Afghanistan being an agricultural country without any developed industries there was practically no use here for the goods in the export of which it was interested.

Veterinary Instruments.—The Manager of the Government Central Medical Depôt, Kabul, asked for introduction to exporters in India of veterinary instruments. Necessary action was taken.

Weighing Balances for Medicines.—The same officer asked to be put in touch with the suppliers in India of weighing balances. A well-known firm of Calcutta dealing in these articles was introduced to the enquirer and the enquiry was also forwarded to the Director-General of Commercial Intelligence and Statistics for necessary action.

Cotton Piecegoods.—An Ahmedabad firm dealing in printed cloth and chintz approached this office through the Director-General of Commercial Intelligence and Statistics for being put in touch with importers of such goods in this country. Necessary introduction with well-known importers was arranged.

An Ahmedabad Cotton Mill manufacturing piecegoods, especially *saris*, shirtings, *doria* and long cloth, asked for the names and addresses of some reputable firms desirous of importing such goods. Necessary information was furnished through the Director-General of Commercial Intelligence and Statistics.

Another Ahmedabad firm of whosesale stockists of silks and coatings manufactured in its own factories asked for a list of leading dealers and agents in their line with a view to direct correspondence together with information regarding exchange and delivery of documents. A list of prominent importers of textile goods and other necessary information asked for was furnished through the Director-General of Commercial Intelligence and Statistics.

Boots and Shoes.—A Sialkot firm of makers of sports footwear approached this office for ascertaining market possibilities for its products. A local firm which expressed an interest in the enquiry, was introduced to the enquirer through the Director-General of Commercial Intelligence and Statistics.

An Agra firm of shoe makers which wanted to start business relations with this country was furnished with the names and addresses of a few well-known importers of footwear through the Director-General of Commercial Intelligence and Statistics.

Leather and Leather Goods.—A well-known firm of Calcutta asked for the names and addresses of finished leather and shoe material merchants, shoe and leather goods manufacturers and of such persons as might be desirous of representing it in Afghanistan. Necessary enquiries were made and the desired information was furnished to the Indian firm through the Director-General of Commercial Intelligence and Statistics.

A Cawnpore firm of leather goods manufacturers which had previously supplied samples of a sowar saddle and its accessories with a view to finding a market for such goods here, was informed that the question of purchase of saddles of the type was engaging the attention of the Afghan Military authorities.

Silk Goods and Embroidered Fancy Goods.—A Chamber of Commerce in India interested in the export of silk textiles, gold-thread and embroidery work, muslin and cotton manufactures asked that if importers of such goods make enquiries from this office they should be referred to the Chamber. The request was noted for compliance through the Director-General of Commercial Intelligence and Statistics.

Tea.—During the quarter under review there were reports of Russia being in the Afghan market for the purchase of tea. A local representative of a big tea concern in India was introduced to the Russian Trade Agent in this connection.

A newly formed Afghan shirkat asked for the introduction of its representatives to a few tea concerns in India, which was arranged through the Director-General of Commercial Intelligence and Statistics.

Motor Parts.—A Delhi firm manufacturing selected motor parts such as pistons, pins, etc., wanted contact to be established with the transport companies in this country and asked for certain information in this connection which was furnished through the Director-General of Commercial Intelligence and Statistics.

Electrical Material.—The National Electrical Association of Afghanistan asked to be put in touch with the suppliers in India of electric heaters and electric water kettles. The enquiry was placed through the Director-General of Commercial Intelligence and Statistics, Calcutta.

The Ministry of Posts, Telegraphs and Telephones of the Afghan Government wanted to have certain electrical instruments repaired and asked this office for the names of a few firms in India that undertake such work. The desired information was obtained from the Director-General of Commercial Intelligence and Statistics, Calcutta, and furnished to the Ministry.

Cotton, Raw.—A firm from Cawnpore interested in the purchase of raw cotton from this country asked this office to furnish it with information regarding the production of cotton in Afghanistan, its type and quality, the season of sowing, picking and marketing, means of transportation from Afghanistan to the nearest rail head in India, etc. The required information was collected and furnished to the firm through the Director-General of Commercial Intelligence and Statistics.

Rough Emeralds.—A Jaipur firm of jewellers and commission agents interested in the purchase of rough emeralds from an export organization of Moscow approached this office for assistance in the matter of inspection of samples with Vistock Entorg in Kabul, question of payment of price and transit through this country. Necessary enquiries were made from the Vistock Entorg and the firm was informed through the Director-General of Commercial Intelligence and Statistics of the position with regard to the possibility of obtaining Russian goods through Afghanistan.

Lapis Lazuli.—A well-known British firm of jewellers from Simla asked this office to put it in touch with the suppliers of this article in Afghanistan. After necessary enquiries, introduction was arranged through the Director-General of Commercial Intelligence and Statistics, with the Stone Cutting and Carpentry Company of Kabul which holds the monopoly for the supply of *lapis lazuli* and has up-to-date machinery for cutting stones.

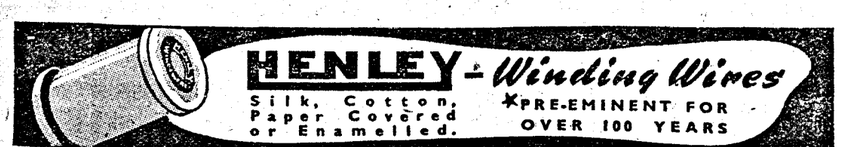

Wool.—A wool exporting organization of Kalimpong asked for the prices of wool and addresses of local wool dealers together with any information relevant to the purchase of this commodity. Enquiries were made from the Afghan National Bank and the available information was furnished through the Director-General of Commercial Intelligence and Statistics, Calcutta.

General.—A big cigarette manufacturing concern in India asked for a copy of Afghanistan Customs Regulations. As the English edition of the Afghan Customs Tariff was not available, the firm was informed of the rates of the Afghan customs duty on cigars and cigarettes and the various tariff valuations fixed for this purpose.

The Russian Trade Agent asked to be put in touch with some Indian Transport Company and also to be furnished with a list of the various export firms in India as a preliminary to the starting of trade between India and Russia through Afghanistan. The local representative of an Indian Transport Co., was introduced to the enquirer. The Trade Agent was told that it was difficult to furnish him with a complete list of all export firms but that a few Indian firms could be introduced to him provided an indication was given of the main articles which Russia intended to buy from India.

MARKET REPORT ON LINSEED AND LINSEED OIL.

Indian Market Report.

***Calcutta,** 25th August—*

Quotations for Linseed Oil—

Linseed oil, Calcutta Mills (Raw) . Rs. 22-0-0 per md. loose.

Linseed oil, Calcutta Mills (Boiled) . Rs. 23-0-0 per md. loose.

Summary of Market Conditions.—There has been a slight increase in the linseed prices during the week as no stocks of ready goods are available due to railway breaches in production districts. Buyers have still been keen, however, but with sellers being so cautious, only very small lots have changed hands. There have been no transactions for forward deliveries.

SUMMARY OF EARNINGS FOR THE MONTH OF JULY 1942 AND WORKING EXPENSES FOR THE MONTH OF JUNE 1942 OF STATE-OWNED RAILWAYS—

The total approximate gross earnings of all State-owned Railways for the month of July 1942 amounted to Rs. 11·79 crores, *i.e.* Rs. 1,65 lakhs more than the actuals for the corresponding month of the previous year and Rs. 3,80 lakhs more than corresponding month of 1940-41. Compared with the last year, coaching earnings increased by about Rs. 1,12 lakhs and goods earnings by about Rs. 55 lakhs during the month. Other earnings, however, showed a decrease of about Rs. 2 lakhs.

The increase under coaching earnings is mainly due to enhancement of fares, more military personnel, long distance passengers and parcels. Earnings from goods show a general increase in all commodities except in the case of ore, wheat, cement, cotton raw and manufactured and petrol. Kerosene oil and coal show substantial increases.

2. The total approximate gross earnings from 1st April to 31st July 1942 amount to Rs. 46·85 crores and are more by Rs. 6·40 crores when compared with the actuals for the same period of last year and more by Rs. 11·85 crores in comparison with the corresponding period of 1940-41.

3. During the month, the number of wagons loaded with goods traffic decreased by 12·5 per cent on the broad gauge and 9·40 per cent on the metre gauge as compared with 1941. From 1st April to 31st July 1942, the number of wagons loaded decreased by 14·4 per cent on the broad gauge and by 17·7 per cent on the metre gauge. The decrease is under all commodities. For details please see para. 5 below.

4. *Working Expenses.*—The approximate ordinary expenses including suspense but excluding appropriation to and from the depreciation reserve fund, of State-owned Railways from 1st April to 30th June 1942, are more by Rs. 1,04 lakhs than the actuals for the same period of last year. The increase is noticeable on the Bengal & Assam, Bengal-Nagpur, Great Indian Peninsula and North Western Railways while the East Indian Railway shows a decline.

—:—

WAR RISKS INSURANCE SCHEMES—

The following Press *communiqué* has been issued by the Government of India in the Department of Commerce :—

Government desire to inform all policy-holders under the War Risks (Goods) Insurance Scheme and the War Risks (Factories) Insurance Scheme that as in the event of a claim arising under either of the above Schemes the onus of proving the claim will lie on them, it is in their interest to maintain a complete inventory of the property insured to enable them to submit details required to substantiate their claims. It is also advisable that the records maintained should contain as precise details as possible of the situation, description and value of the property insured, item by item, held by the policy-holder from time to time. In cases where the property insured is located in more than one place, separate details in respect of each place should be maintained.

As the possibility of complete destruction of the original records cannot be ruled out, it is to the advantage of the insured that he should have a duplicate set of records in a safe place which might be produced in support of a claim where the originals have been destroyed. The attention of all policy-holders, is, therefore, drawn to the desirability of maintaining duplicates of their business records in a safe place.

SULPHURIC ACID CONTROL ORDER, 1942.

THE following Notification (No. SS/101/42, dated the 13th August 1942) has been issued by the Government of India in the Department of Supply :—

In exercise of the powers conferred by sub-rule (2) of rule 81 of the Defence of India Rules, the Central Government is pleased to make the following order :—

1. *Short title and extent.*—(i) This Order may be called the Sulphuric Acid Control Order, 1942.

(ii) It extends to the whole of British India.

2. *Definitions.*—In this Order, unless there is any thing repugnant in the subject or context—

(*a*) " sulphuric acid " means all grades and concentrations of sulphuric acid or oil or vitriol ;

(*b*) " Licensing Authority " means the Director General of Supply, New Delhi or any officer appointed by him to perform the duties of the Licensing Authority ;

(*c*) " manufacturer " means a person who manufactures sulphuric acid for sale ;

(*d*) " Form " means a form appended to the order.

3. *Prohibition of sale except through valid licences.*—On and after the 1st October 1942.

(*a*) no manufacturer other than manufacturer registered under clause 4 shall sell sulphuric acid ; and

(*b*) no manufacturer registered as aforesaid shall sell or otherwise dispose of sulphuric acid except on the authority of a basic or special sales licence issued under this order by the Licensing Authority.

4. *Registration of manufacturers.*—(1) Every manufacturer who wishes to sell sulphuric acid shall, on or before the 1st October 1942 make an application for registration in Form SA/A to the Licensing Authority, stating the names and addresses of all persons to whom he supplied sulphuric acid during the calendar year 1941 together with the quantities of each grade supplied. The application shall also state the estimated quantity of sulphuric acid which he expects to manufacture and make available for sale during the period 1st October 1942 to 31st December 1942. Such manufacturer shall from time to time as hereafter directed in writing by the Licensing Authority furnish a statement to the Licensing Authority of the estimated quantities of sulphuric acid which he expects to manufacture and make available for sale during such subsequent period or periods as the Licensing Authority may indicate in the discretion.

(2) The Licensing Authority, if he sees fit, shall grant a Registration Certificate in Form SA/B and shall issue a basic sales licence in the same Form stating the quantity of each grade of sulphuric acid

which the registered manufacturer may supply during the period specified in the licence and the persons to whom he may supply it.

(3) The Licensing Authority may at any time during the currency of the licence rescind or amend the licence without notice by order in writing to the licence holder.

5. *Power to fix prices.*—The Central Government may, by notification in the official Gazette fix from time to time the price or prices at which manufacturers shall supply sulphuric acid to consumers and the Licensing Authority shall, in issuing a licence quote the price at which the manufacturer shall supply during the period specified in the licence.

6. *Information to consumers of the quantity of sulphuric acid and supplier from whom they may purchase.*—The Licensing Authority shall inform each consumer or person named in a basic sales licence of the name of the manufacturer authorised to supply him with sulphuric acid, together with the quantity of each grade which such manufacturer may supply to him, the period during which and the prices at which the supply shall be made.

7. *Application for Special Licence.*—Any consumer or person included in a basic sales licence who wishes to purchase sulphuric acid in excess of the quantities authorised in respect of him by such licence, and any consumer or person not included in a basic sales licence who wishes to purchase sulphuric acid shall apply in Form SA/C to the Licensing Authority,

8. *Issue of Special Licences.*—The Licensing Authority shall pass such orders on each application under clause 7 as it thinks fit and shall either inform the applicant that his application has been rejected or—

(*a*) shall issue a licence in Form SA/C for the whole or part of the quantity of sulphuric acid applied for, naming in the licence the supplier from whom the applicant may get his supply or

(*b*) if the applicant is not already included in a basic sales licence, and if it is considered suitable, include the applicant in one or other of the basic sales licences already issued and shall specify the quantity of sulphuric acid of each grade which may be supplied to him and shall inform the supplier concerned.

WEEKLY CROP REPORTS.

ASSAM.

24th August.

The prospects and the outturn of crops are fair.

BIHAR.

16th August.

The condition of the standing crops, including sugarcane, is generally fair, except in Hazaribagh where the crops have been partially damaged. Sowing of *bhadoi* crops is over and transplanting of winter paddy is going on.

BOMBAY.

15th August.

Crops have been affected by excessive soil moisture in parts of Gujarat. Cotton is suffering from water-logging and root-rot in low-lying areas of the Deccan. Elsewhere the crop condition is satisfactory. Weeding and interculturing are in progress.

CENTRAL PROVINCES.

14th August.

Sowing of *til, kodon kutki* and *jagni* was in progress and that of *juar* on heavy soils was nearing completion. Weeding, transplantation and *biasi* operations were in full swing and intercultural operations were also revived. The condition of the standing paddy crop was good and that of other *kharif* crops improved to some extent on account of the break of rain. In the water-logged areas, crops have already suffered some damage by excessive rain.

MADRAS.

8th August.

Transplantation and sowing of paddy were proceeding in parts of the districts of the Circars, the Ceded districts, the Central, the South and the West Coast and in the Hills, and sowing of dry crops was proceeding in parts of the districts of the Circars, the Ceded and the Central districts and a district of the Carnatic and the Hills. The condition of the standing crops was fair, except in parts of the districts of the Circars and the Ceded districts.

ORISSA.

17th August.

Transplantation of paddy continues. Weeding of *biali* paddy is proceeding in the Puri district. Puddling and weeding of *saradh* paddy are in progress in the Cuttack, Puri and Sambalpur districts. *Bhadoi* rice, groundnut, *til* and sugarcane in the Cuttack district; jute, maize, groundnut, *arhar*, sugarcane and cotton in the Puri district; and *ragi*, maize, redgram, *sama* and sugarcane in the Koraput district, are thriving. *Til* is in flower and pods in the Puri district.

PUNJAB.

17th August.

The condition of the standing crops is generally average to above average. Standing crops have been damaged by excessive rains in Ambala and parts of Simla and Gurdaspur and by floods in parts of Karnal, Ferozepore, Gurdaspur and Muzaffargarh.

SIND.

15th August.

Standing *kharif* crops are doing well and no serious disease or pest is reported.

UNITED PROVINCES.

15th August.

Some damage to crops is reported from the Lalitpur *tahsil* of the Jhansi district. Preparation of land for *rabi* crops continues. Sowing of *kharif* crops and transplanting of late paddy still continue. Harvesting of *Sawan* has started in the Saharanpur district, and the maize crop in the irrigated parts of the Mainpuri district has already been harvested. The condition of the standing crops and the prospects are, on the whole, satisfactory.

CROP FORECAST.

(INDIAN—PROVINCIAL)

PRELIMINARY FORECAST REPORT ON THE GINGER CROP IN THE BOMBAY PROVINCE, 1942-43.

The ginger crop is grown to some extent in Gujarat and the Thana district and to a very limited extent in the Belgaum district. Sowing of the crop was done from the end of May to the middle of June. Germination is satisfactory and further growth is fairly good.

QUARTERLY REPORT OF THE INDIA GOVERNMENT TRADE COMMISSIONER, TORONTO, CANADA, JANUARY—MARCH, 1942.

Trade Enquiries.

THE number of trade enquiries received and dealt with by this office increased considerably during the first quarter of 1942. The majority of the enquiries were received direct from Indian and Canadian firms, but a number were passed on to this office for reply by the Commercial Intelligence Service at Ottawa, the offices of His Majesty's Trade Commissioners in Canada, the Canadian Manufacturers' Association, and the India Government Trade Commissioner at New York. Due to the unfavourable war news from the East, and the slowness and irregularity of the mails from India, the number of enquiries received during March was less than in the two previous months.

Some of the main written enquiries dealt with are summarized below :—

A.—TRADE ENQUIRIES FROM INDIA.

Aircraft Spares and Accessories.—A Karachi firm asked to be put in touch with Canadian manufacturers of aircraft parts and accessories. The enquiry was circulated amongst various Canadian manufacturers, but due to Canadian war and Government orders, only one firm expressed interest. The name of the Canadian firm was communicated to the Indian firm.

Arts and Crafts.—Firms from Meerut, Saharanpur and Hoshiarpur enquired for the names of Canadian importers of inlaid and carved woodwork, brassware and novelties. The names of a number of Canadian importers were supplied.

Booksellers.—A Lahore firm enquired for the names of booksellers and bookstall holders in Canada. The names of a number of Canadian firms were forwarded to the Indian firm.

Cutch.—A Bombay firm asked for information regarding the type of cutch used by the Canadian and Newfoundland fishermen in the Atlantic fishing grounds. The information was supplied as well as a sample of the cutch used by Newfoundland fishermen.

Dental Supplies and Equipment.—A Madras firm enquired regarding Canadian manufacturers of dental supplies and equipment. A list of manufacturers was forwarded.

Essential Oils.—A Bombay firm enquired regarding the sale of their sandalwood oil, palma rosa oil, senna leaves and pods, black tamarind, etc., in Canada. The enquiry was circulated amongst the Canadian importers and the names of the interested firms were communicated to the Indian firm.

Hides and Skins.—A Hyderabad firm asked for the names of Canadian importers of raw hides and skins, and a number of names were supplied.

Jute.—A Calcutta firm asked for the names of Canadian buyers of jute, gunnies and hessians. The names of firms dealing in these products were communicated to the Calcutta firm.

Lace goods.—Firms in Amalapuram, Narsapur, Coconada and Rajahmundry, manufacturing Indian hand-made lace goods, enquired for names of Canadian firms importing lace. The names of a number of firms were supplied.

Manganese and Chrome Ore.—Two Madras firms made enquiries regarding the possibilities of placing their manganese and chorme ores in Canada. The enquiries were circulated amongst all the large Canadian users of these ores. Due to the unsettled conditions in the Far East and to shipping difficulties, only two firms expressed interest, although several others replied that they were already being supplied with these ores from India. The names of the interested firms were communicated to India.

Mica.—The representative of a Gudur mica company, at present in the United States, enquired regarding the possibilities of selling Indian mica in Canada. The mica market in Canada was investigated thoroughly and the results of the investigation communicated to the Indian representative.

Musical Instruments.—Two Sialkot City firms asked for the names of Toronto dealers in musical instruments. The required names were supplied as well as the names of dealers in Montreal and Vancouver.

Provisions.—A Bombay firm informed this office that they were interested in agencies in India for wines, all sorts of canned goods, patent medicines, electric goods, etc. The enquiry was circulated amongst a number of Canadian manufacturers, and the names of those expressing interest were forwarded to the Bombay firm.

Spices, Seeds and Nuts.—The New York representative of an Indian exporter of groundnuts, Alleppe pepper, cumin seeds, rape seeds, fennel seeds, dill seeds and coriander seeds, asked for the names of Canadian wholesale importers of these products. The names of a number of Canadian firms were supplied.

A Mangalore firm asked for the names of Canadian importers of cardamoms and pepper. The name of a Canadian firm which had recently enquired regarding these products was supplied.

Sporting goods.—A Sialkot City firm asked for the names of Canadian importers of sporting goods, and Canadian exporters of supplies for the manufacture of sporting goods. The names of a number of Canadian importers were given, but it was pointed out that due to the war demands, Canadian firms would have few supplies for the manufacture of sporting goods, such as cork, gut, rubber, leather, etc., available for export.

Supplies for Cotton and Jute Mills.—A Baroda firm enquired regarding supplies for jute and cotton textile mills, such as wooden bobbins, dyes and chemicals, leather beltings and rollers. The enquiry was circulated amongst Canadian manufacturers of these products, and the names of those expressing interest were communicated to the Baroda firm.

Textiles.—Two firms in Bombay asked for the names of Canadian importers of cotton textiles and piecegoods. The names of a number of Canadian firms were supplied.

Wool and Goat Hair.—Two Karachi firms asked for the names of Canadian importers of raw wool

and goat hair. The enquiries were circulated amongst the various Canadian importers and the names of those to express interest were communicated to the Indian firms.

Miscellaneous.—A Bombay firm asked for the names of Canadian exporters of various novelty articles such as combs, brushes, buttons, goggles, hair pins, razor blades, etc. A list of names was supplied.

B.—TRADE ENQUIRIES FROM CANADA.

The summary given below covers the main written enquiries received by this office from Canadian firms during the quarterly period covered by this report. In this connection, however, it is necessary to mention that in addition a large number of Canadian enquiries were received and dealt with over the telephone, and by personal call at this office.

Arts and Crafts.—Requests were received from two Toronto firms for the names of Indian exporters of carved woodware, brassware, Kashmir silver and novelties. A list of names was given to each of the firms, and a request was forwarded to India for additional names.

Citric Acid.—The Director-General of Commercial Intelligence and Statistics, Calcutta, referred to this office the enquiry of a Toronto firm regarding the import of citric acid from India. As citric acid is under Indian export control, it was necessary to secure further details regarding the intended use of the acid and the quantities in which it was to be imported. This information was obtained and forwarded to the Director-General.

Nuts, Spices and Rice.—A Vancouver firm asked for names of Indian exporters of long-grained Patna rice, and shelled walnuts. A London firm asked for the names of Indian exporters of spices, sauces and nuts. A list of names was supplied to each of these firms.

Kapok and Burlap.—A Vancouver firm asked for information regarding supplies of burlap and kapok from India for use in the upholstering trade. Necessary information and a list of Indian exporters of these products were supplied to the firm.

Textiles.—A Montreal firm asked for a list of names of cotton handkerchief manufacturers in India. A list of Indian manufacturers was forwarded to the firm.

Wool and Jute Yarns.—A Toronto firm, interested in acting as agents for the sale of Indian wool and jute yarns in Canada, requested this office to send a communication to India on their behalf. After an investigation of the standing of the firm, the communication was sent as requested.

C.—CLAIMS.

A communication was received from a Montreal firm regarding a shipment of white lamb skins which they had obtained from an Indian firm. The Montreal firm claimed that the skins were not up to specifications and sought the assistance of this office in obtaining an adjustment. A request was sent to India asking that the matter be investigated there.

A Meerut firm required the assistance of this office in collecting an amount owing them by a firm in Regina. The matter was investigated, and it was found that payment had not been made due to a misunderstanding on the part of the Regina firm. The amount has now been remitted to the Meerut firm.

Details of the claim of a Bangalore firm against a Barrie manufacturers' Agent were received from the Director-General of Commercial Intelligence and Statistics, Calcutta. Considerable investigation was required in connection with this claim, and at the end of March, this office was still endeavouring to arrange some form of settlement.

D.—OFFICIAL ENQUIRIES.

Director-General of Commercial Intelligence and Statistics.—Requests were received during the quarter from the Director-General of Commercial Intelligence and Statistics, Calcutta, for the names of Canadian importers of snuff, and of hemp and rope cuttings. In each case, the necessary names were obtained and forwarded to the Director-General.

Director of Industries, Punjab.—The Director of Industries, Punjab, asked for the names of Canadian suppliers of rayon and cotton yarns. The required list was forwarded to the Director.

EGYPT.

Marking of Goods.

The following is reproduced from the *Board of Trade Journal*, dated the 16th May 1942 :—

The Egyptian "Journal Officiel" of the 23rd March contains a decree dated the 19th March and in force as from 26th March providing for the marking of origin, variety and weight on all teas. The required manner of marking will be laid down by the Ministry of Commerce and Industry and announced later by an Order.

Import Restrictions.

The following is reproduced from the *Board of Trade Journal*, dated the 13th June 1942 :—

With reference to the previous notices under the above heading in the "Board of Trade Journal," a Proclamation published in the Egyptian "Journal Officiel" dated the 12th May 1942, enables the Minister of Finance to order the confiscation of any goods imported in contravention of the original Import Licensing Proclamation (*see* the "Board of Trade Journal" of 25th October 1941, pages 257-258). The Proclamation also states that the importation of goods dispatched from a foreign country before obtaining the authority of the Ministry of Finance is considered as having been shipped in contravention of the provisions of this Proclamation

REPORT OF THE INDIAN GOVERNMENT TRADE COMMISSIONER IN EAST AFRICA, MOMBASA, DEALING WITH OPENINGS FOR INDIAN COMMODITIES, FOR THE MONTHS OF MARCH, APRIL AND MAY, 1942.

THE prevailing export restrictions in India in respect of a number of commodities and difficulties in securing shipping space have naturally caused a slight setback to the progressive flow, into this office, of trade enquiries from importers in the East African territories. The following brief details of some of the selected enquiries received during the months of March, April and May will prove to be of interest to the manufacturers and exporters in India. These enquiries relate mostly to articles which, before the war, were imported into this country from sources other than India:—

A firm in Nairobi wished to import from India *motor hood* cloth. Names of firms in India known to be manufacturing such fabrics, together with sample cuttings received in this office from one of the manufacturers, were supplied to the Nairobi firm to enable them to place orders direct.

A firm in Kampala (Uganda) desired to establish connections with the manufacturers in India of *cotton bedsheets* suitable for European trade. Names of some of the reliable parties were furnished to the enquirers.

A Bacon Factory in Uplands (Kenya Colony) asked for assistance in getting in touch with a firm in India who could supply *ground white pepper.* Names of some of the principal exporters of spices in India were furnished to the enquirers. It was reported that supplies of ground white pepper were no longer available from the usual channels in the United Kingdom.

A firm in Nairobi, who wished to import *ammonia* and other chemicals, were furnished with the addresses of the principal manufacturing chemists in India.

An enquiry was received from Kampala (Uganda) regarding the possibility of importing *pith helmets* from India. Names of some of the manufacturers of hats and helmets were furnished to the enquirer. There appears to be good scope for India to capture trade in this line. A number of consignments of Indian pith hats have already come into these markets and are gaining popularity.

A number of enquiries were received for *knitting wool.* Various firms in Uganda are finding it difficult to replenish their stocks of this commodity from their usual sources of supply. Indian knitting wool has already appeared in the East African market and is gradually gaining popularity. It may be noted that the demand is for finer qualities of wool suitable for European taste.

A number of enquiries were received for *cotton mosquito netting,* and the addresses of Indian manufacturers were furnished to the enquirers to enable them to place orders.

In response to a request received from the Medical Entomologist, Nairobi, samples of mosquito netting were obtained from the various Indian manufacturers and were furnished to him for the purpose of testing their suitability to the conditions in East Africa. Some consignments of Indian mosquito netting have already come into these markets, and there appears to be good scope for expanding trade in this article.

An enquiry was received from the Director of Agriculture, Tanganyika Territory, regarding the possibility of obtaining *Datura Stramonium* from India. With the assistance of the Director-General of Commercial Intelligence and Statistics, Calcutta, quotations were obtained from certain Indian producers of this commodity and were furnished to the enquirer to enable him to order his requirements.

A number of enquiries were received for *matches* and the enquirers were put in touch with exporters of this commodity in India. Large consignments of Indian matches have already entered the East African market and are finding ready sale. In view of the elimination of pre-war sources of supply, there is an ever increasing demand for Indian matches. South African matches have also gained popularity in this country on account of slightly better quality of wood used in their manufacture, but supplies from that source are rather limited.

A number of enquiries were received for *leather footwear* in response to which the names of Indian manufacturers were furnished. A wide scope exists for expanding India's trade in this line with these territories. Large consignments of Indian leather footwear have already entered these markets and are selling at competitive prices. The local manufacture of leather footwear is yet on too small a scale to cope with the demand.

STATISTICAL PUBLICATIONS—

The following publication has been issued by the Department of Commercial Intelligence and Statistics, India :—

Estimates of Area and Yield of Principal Crops in India, 1940-41 (43rd issue). (Price Re. 1-8 or 2*s.* 3*d.*) This publication contains the estimates of area and yield of rice, wheat, sugarcane, tea, cotton, jute, linseed, rape and mustard, sesamum, castor, groundnut, coffee and rubber, together with the average yield per acre of each of these crops in each province. A separate table showing the area and yield of principal crops in Burma for the last ten years has been included in the volume. The estimated area and yield of certain other crops, *viz.*, barley, *jowar*, *bajra*, maize, gram, tobacco and indigo, for which forecasts are not prepared, have also been given in supplementary tables. The figures of area and yield of all the crops mentioned above have been shown separately for the British Provinces and Indian States. Statements showing the actual and normal rainfall in each province, the condition of weekly rainfall during the monsoon period from June to October, 1940, and the reported area and yield of certain crops in foreign countries are also given, with appendices describing the methods of framing estimates of crops and of collecting the statistics, province by province, the dates prescribed for the issue of the All-India forecasts of crops and the season of sowing and harvesting of the crops and the tracts where they are mainly grown. An appendix containing a summary of the seasonal or other conditions affecting prices of foodgrains, etc., in each quinquennium from 1861-65 has also been added. A series of charts illustrating the variation in the estimates of yield of principal crops in the last ten years has been inserted in the frontispiece.

Copies of the above publication are obtainable from the Manager of Publications, Civil Lines, Delhi, from the Government of India Book Depôt, 8, Hastings Street, Calcutta, and also from the agents for the sale of India Government publications, a list of whom can be obtained on application to the Manager.

GOVERNMENT ORDERS, *COMMUNIQUÉS* AND OTHER NOTICES AFFECTING TRADE.

INTERNATIONAL SUGAR AGREEMENT : INDIA TO KEEP OUT—

The following Press Note, dated the 28th August 1942, has been issued by the Government of India in the Department of Commerce :—

After consulting the sugar industry, the Provincial Governments and other interests concerned and the Central Sugar Advisory Board, a body composed entirely of representatives of Central, Provincial and State Governments, the Government of India have decided not to join in the proposed extension of the International Sugar Agreement. India's obligations under the Agreement will thus terminate from September 1, 1942.

India was a party to the International Sugar Agreement, which was concluded in 1937 with a view to establishing and maintaining an orderly relationship between supply and demand of sugar and to regulate the world prices of sugar. Under this Agreement India undertook to prohibit exports of Indian sugar by sea elsewhere than to Burma.

The present term of the Agreement expires on August 31, 1942, and the International Sugar Council recommended to the contracting Governments a continuance of the Agreement either for the duration of the war and for one quota year after the date of termination of hostilities or for a period of two years from August 31, 1942, whichever be less.

INDIAN TEA CONTROL (AMENDMENT) ORDINANCE, 1942.

THE following is the text of the Indian Tea Control (Amendment) Ordinance, 1942, published in the *Gazette of India Extraordinary*, dated the 1st September 1942 :—

ORDINANCE No. XLVII OF 1942.

AN

ORDINANCE

further to amend the Indian Tea Control Act, 1938.

WHEREAS an emergency has arisen which makes it necessary further to amend the Indian Tea Control Act, 1938 (VIII of 1938)*, for the purposes hereinafter appearing ;

NOW, THEREFORE, in exercise of the powers conferred by section 72 of the Government of India Act, as set out in the Ninth Schedule to the Government of India Act, 1935 (26 Geo. 5, c. 2), the Governor General is pleased to make and promulgate the following Ordinance :—

1. *Short title and commencement.*—(*1*) This Ordinance may be called the Indian Tea Control (Amendment) Ordinance, 1942.

(*2*) It shall come into force at once.

2. *Amendment of section 17, Act VIII of 1938.*—(*1*) In section 17 of the Indian Tea Control Act, 1938 (VIII of 1938),—

(*a*) after sub-section (*2*), the following sub-section shall be inserted, namely :—

"(*2A*) A person to whom a special export licence has been issued in lieu of an export licence covering the export of tea in the financial year ending on the 31st day of March, 1942, may transfer the licence with all rights conferred thereby to a person or persons nominated by him, but a licence once so transferred shall not be further transferable." ;

(*b*) to sub-section (*3*) the following proviso shall be added, namely :—

"Provided that a special export licence issued in lieu of an export licence covering the export of tea in the financial year ending on the 31st day of March, 1942, shall not cease to be valid on the 31st day of May of the year in which it was issued, but shall continue to be valid up to the 31st day of March, 1943."

(*2*) The amendments made by sub-section (*1*) shall be deemed to have taken effect on the 1st day of April, 1942.

   - (vi) Aniline and alkylated aniline.
   - (vii) Calcium Acetate (acetate of lime).
   - (viii) Calcium Carbide.
   - (ix) Chlorinated Hydrocarbons including Carbon Tetra-Chloride.
   - (x) Chrome alum.
   - (xi) Lithopone and Cadmium Lithopone.
   - (xii) Naphthalene.
   - (xiii) Phosphorus.
   - (xiv) Potassium bichromate.
   - (xv) Sodium bichromate.
   - (xvi) Sodium Hydrosulphite.
   - (xvii) Sodium Nitrite.
   - (xviii) Toluol (Toluene).
4. Drugs and medicines, the following :—

   Acidum Acetylsalicylicum, Acidum Boricum, Acidum Citricum, Acid Cresylic, Acidum Mandelicum, Acidum Tannicum, Acidum Tartaricum, Acriflavina, Aether Anaestheticus, Arsenious oxide, Atropinae Sulphas, Barbitonum Solubile, Borax, Brilliant Green, Cinchona bark or powder, Chlorofomum, Cocainae Hydrochloridum, Creosotum, Dextrosum, Emetinae Hydrochloridum, Ergota Praeparata and preparations, Fluoresceinum, Hexobarbitonum Solubile, Homatropinae Hydrobromidum, Hyoscinae Hydrobromidum, Insulinum, Iodum and preparations, Ipecacuanha and preparations, Mepacrine Hydrochloride, Pamaquin, Paraldehydum, Pentothol Sodium, Percaine, Potassii Bromidum, Potassii Iodidum, Procainae Hydrochloridum, Quinine Salts, Sodii Salicylas, Sulphonamide preparations (*e.g.*, Sulphanilamide, Soluseptasine M. & B. 693, etc.).

5. Any medicinal preparation containing any one or more of the drugs or medicines specified in item 4 of this Part whether in bulk or in any other form, such as tablets, ampoules, solutions, ointments, etc., including all proprietary brands and Trade Mark preparations and equivalents of them intended for oral, hypodermic, intravenous or external use.

   - (iii) Wet salted buffalo hides (trimmed according to trade custom) from 25 lbs. upwards.
   - (iv) Dry salted or dry (arsenicated or otherwise) buffalo hides (trimmed according to trade custom) from 12 lbs. upwards.
8. Horse hair and manufactures thereof.
9. Horses and mules.
10. Instruments, Apparatus and Appliances, and parts thereof, the following :—
    - (i) Cameras.
    - (ii) Clinical thermometers.
    - (iii) Optical glass, formed and unformed.
    - (iv) Optical instruments, all sorts, not specified in Part C.
    - (v) Surveying instruments and appliances.
11. Leather unwrought, the following :—
    - (i) All vegetable tanned leather produced from buffalo hides weighing in hides 14 lbs. and over, or in sides 7 lbs. and over.
    - (ii) All classes of vegetable tanned leather produced from cow hides, kips or calf-skins weighing 5 lbs. or over other than "East India Kips".
    - (iii) All chrome tanned upper leather produced from cow or buffalo hides and having a minimum substance of 1·5 mm. and a minimum area of 9 sq. ft. per half hide (side) or 18 sq. ft. per full hide.

12. Metals and Ores, the following :—

(i) Antimony.
(ii) Ferro alloys including ferro-chrome, ferro-manganese, ferro-phosphorus, ferro-silicon, ferro-titanium, ferro-tungsten, ferro-vanadium and ferro-molybdenum.
(iii) Magnesium and magnesium alloys.
(iv) Nickel; nickel oxide; nickel ore and matte; nickel alloys.
(v) Phosphor alloys.
(vi) Tin, wrought and unwrought; tin alloys.
(vii) Zinc or spelter, wrought and unwrought; zinc concentrates, dross and manufacturing residues; zinc alloys.
(viii) Scrap containing any of the metals or alloys specified in entries (i) to (vii).

13. Pyrethrum flowers, whole or powdered, and extracts of any strength obtained therefrom, also insecticides containing pyrethrum flowers or extract of pyrethrum flowers.
14. Roofing felts and associated joining materials.
15. Textiles, the following :—

(i) Flax, raw.
(ii) Flax manufactures.

16. Vessels for inland and harbour navigation (such as launches, boats, barges and dredgers) and component parts and equipment thereof.

17. Wood preservatives, the following :—

(i) Coal tar.
(ii) Creosote.
(iii) Mixtures containing coal tar or creosote.

Part B.

(*Licences issued by the Export Trade Controller.*)

1. Ascorbic acid.
2. Bakelite and other synthetic moulding powders.
3. Bacon and ham, not canned or bottled.
4. Condiments, not canned or bottled.
5. Drugs crude and refined, both indigenous and imported, medicines and medicinal preparations, other than those specified in Parts A and C.

(i) Photographic papers, plates and films (excluding those used in X-ray photography and excluding cinema films).

9. Malt.
10. Seed potatoes.

Part C.

(*Licences issued by the Central Government in the Department of Supply or by an officer authorised by that Department in this behalf*).

1. Abrasives manufactured, including grinding wheels.
2. Belting for Machinery—

(i) of cotton;
(ii) of hair;
(iii) of leather.

3. Bitumen.
4. Bristles, pig, and manufactures thereof.
5. Buttons, all sorts.
6. Carbonised coconut shell.
7. Cement.
8. Chemicals and chemical preparations, the following :—

(i) Acid Hydrochloric.
(ii) Acid Nitric.
(iii) Acid Sulphuric.
(iv) Alcohol Methyl.
(v) Aluminous sulphates (including all forms of alum except chrome alum).
(vi) Ammonia and ammonium compounds excluding ammonium sulphate.
(vii) Barium Sulphate (Barytes).
(viii) Bleaching powder and chlorine.
(ix) Calcium chloride.
(x) Caustic soda.
(xi) Chemical manures other than Ammonium sulphate.
(xii) Glycerine.
(xiii) Iodine.
(xiv) Magnesium sulphate.
(xv) Potassium and Potassium compounds excluding Potassium bichromate and potassium chlorate.
(xvi) Gases, all sorts.
(xvii) Salts and other compounds of arsenic, chromium, copper, lead, mercury, molybdenum, nickel, platinum, radium, tin and zinc.
(xviii) Sodium bicarbonate.
(xix) Sodium carbonate.
(xx) Sodium silicate.
(xxi) Sodium sulphate.
(xxii) Sodium sulphide.
(xxiii) Sodium thiosulphate.
(xxiv) Sulphur.

9. Cork and cork manufactures.
10. Drugs and medicines, the following :—

Acidum Salicylicum, Adrenalina and preparations, Aethylis Chloridum, Amylis Nitris, Amylocaine Hydrochloride, Antrypol, Naganol, Argentoproteinum, Belladonna roots and leaves, Benzoinum, Bismuthi Carbonas, Caffeina, Calcii Gluconas, Camphora, Chloral Hydras, Chrysarobinum, Glucosum liquidum, Hexamina, Hydrargyrum and preparations, Liquor Formaldehydi, Menthol, Morphine salts, Neoarsphenamina, Oleum Menthæ, Piperitae, Phenacetinum, Phenobarbitonum Solubile, Phenol, Physostigminæ Salicylas, Pituitary Extract, Resorcinol, Saccharinum, Sodii Bicarbonas, Sulpharsphenamina, Thymol.

11. Any medicinal preparation containing any one or more of the drugs or medicines specified in item 10 of this Part whether in bulk or in any other form, such as tablets, ampoules, solutions, ointments, etc., including all proprietary brands and Trade Mark preparations and equivalents of them intended for oral, hypodermic, intravenous or external use.
12. Glass, sheet.
13. Graphite and graphite crucibles.
14. Hydraulic packing.
15. Instruments, Apparatus and Appliances, and parts thereof, the following :—

(i) Accumulators and dry cells.
(ii) All electrical instruments, apparatus and appliances, not specifically included under any other entry.
(iii) Electric fans and accessories.
(iv) Electrical insulating materials of all sorts.
(v) Electric lamps.
(vi) Electric lighting accessories and fittings.
(vii) Electric wires and cables (including telegraph and telephone) wires and accessories.
(viii) Microscopes.
(ix) Photographic plates and films used in X-ray photography.
(x) Surgical and veterinary instruments, apparatus and appliances, including cotton wool and lint.
(xi) Telegraph and telephone instruments and apparatus.
(xii) Wireless instruments and parts thereof.

16. Leather goods, all sorts, including boots and footwear.
17. Liquors, all sorts, excluding perfumed spirits.
18. Machinery and millwork, including parts thereof, but excluding—

(i) machine tools of any description, and
(ii) parts of machinery and millwork which are exported for purposes of repairs or are returned to the manufacturers as defective.

19. Machine Tools of all description and parts thereof.
20. Metals and Ores, the following :—

(i) Aluminium and aluminium alloys.
(ii) Antimony alloys containing more than 10 per cent of antimony including printing and bearing alloys.
(iii) Beryl (Beryllium), ore, metal and alloys.
(iv) Copper ores; copper wrought and unwrought; copper plates and sheets; copper wire, drawn; copper alloys.
(v) Iridium; osmiridium; iridosmine and concentrates containing iridium.
(vi) Iron or steel :—

(*a*) Pig iron.
(*b*) High speed Tool Steel in any form.
(*c*) Die steel of any form.
(*d*) Steel ingots.
(*e*) Rolled, forged or cast steel.
(*f*) Iron castings.
(*g*) Tin plate.

(vii) Lead ore; pig lead; lead sheets; lead pipes and tubes; lead alloys.
(viii) Mercury.
(ix) Molybdenum and molydenum ores.
(x) Platinum, crude and refined; platinum alloys.
(xi) Radium, radium ores and concentrates.
(xii) Tin concentrates and ores.
(xiii) Tungsten and Tungsten ore (Wolfram).
(xiv) Vanadium and Vanadium ores.
(xv) Scrap containing any of the metals or alloys specified in entries (i) to (xiv).

21. Manufactured articles, not specified elsewhere in this Schedule, made wholly or mainly of any of the metals or alloys specified in item 12 of Part A or in item 20 of this Part; including containers, when not in use as containers or when in use as containers of goods specified in this Part.

KENYA AND UGANDA.

Despatch of Invoices in Ships' Boxes.

The following Notice to Importers (No. 8 of 1942) has been issued by the Commissioner of Customs, Kenya and Uganda :—

No. 8 of 1942.

Delay is frequently caused in clearance of goods from Bombay by the non-arrival of invoices and the consequent necessity of increased Customs examination and payment of duty on deposit.

In order to ensure that invoices arrive at the same time as the goods to which they relate, arrangements have been made with the British India Steam Navigation Company, Limited, by which every assistance possible will be given at Bombay to facilitate the posting of invoices in the ship's box. On arrival in Mombasa, the ship's box will be cleared, and after being passed by the Censor, the letters will be delivered in the ordinary way to addressees.

It is hoped that local merchants will instruct their suppliers in India to make full use of this facility, thus avoiding delay in effecting clearance and preventing unnecessary congestion in the Port area.

Custom House, Mombasa,
26th August 1942.

WEEKLY CROP REPORTS.

ASSAM.

7th September.

The prospects and the outturn of crops are fair.

BIHAR.

24th August.

The condition of the standing crops, including sugarcane, is generally fair, except in Hazaribagh where the crops have been partially damaged. Transplanting of paddy is going on.

BOMBAY.

29th August.

The crop condition is satisfactory, except in the south-eastern tracts where more rain is needed for the proper growth of crops. Interculturing and weeding are progressing generally and *rabi* tillage has commenced in some area.

CENTRAL PROVINCES.

28th August.

In the districts of the Jubbulpore division except Nimar, the standing *kharif* crops, excluding paddy, were generally stunted in growth and slightly damaged in rich soil and low-lying areas. A sufficiently long break was necessary to improve their condition. In the Nagpur division, cotton on heavy soil was damaged to some extent, but on light soil the condition of the crop, including *juar*, was satisfactory. The standing crops, except paddy, were generally stunted in growth and a good break was essential for their revival. In the Chhattisgarh division, the standing *kharif* crops, especially paddy, are reported to be faring well. Owing to longer breaks and less rainfall, the condition of standing *kharif* crops in most of Berar was generally good, though a break was still needed in the Akola and Yeotmal districts to foster the growth of crops. Sowing of *til*, *kutki* and *jagni* was continued in four districts. Weeding and intercultural operations and preparation of land for *rabi* crops were in progress.

MADRAS.

22nd August.

Transplantation and sowing of paddy were proceeding and concluding in parts of some districts of the Circars, the Ceded, the Central, the Southern and in parts of a district in each of the Carnatic, the West Coast and the Hills, and sowing of dry crops was proceeding in parts of the districts of the Ceded, the Carnatic and the Central districts and in parts of a district in each of the Circars, the Southern districts and the Hills. The condition of the standing crops was fair, except in parts of two districts of the Ceded districts.

ORISSA.

31st August.

Weeding and transplantation of *saradh* paddy continues in the Cuttack, Puri, Balasore and Sambalpur districts. *Biali* paddy is in ears in the Cuttack and Balasore districts and it is attending maturity in the Puri district. Sugarcane, *til* and groundnut in the Cuttack district ; sugarcane in the Balasore district ; groundnut, *arhar* and sugarcane in the Puri district ; and paddy, *rabi*, maize, sugarcane, redgram, gingelly and groundnut in the Koraput district, are thriving. Maize and *til* are ripening and being harvested in the Puri district. More rain is required at places in the southern sub-division of the Puri district for agricultural operations.

PUNJAB.

31st August.

The condition of the standing crops is generally average to above average. Standing crops have been damaged by excessive rains in Hoshiarpur and parts of Ambala and Ludhiana and by floods in parts of Karnal, Ambala, Ludhiana, Lahore, Amritsar, Gurdaspur, Gujranwala, Multan and Muzaffargarh.

SIND.

5th September.

The cotton crop is doing well. Other *kharif* crops are progressing satisfactorily. Early rice is being harvested.

CROP FORECAST.

(*ALL-INDIA*)

FIRST FORECAST OF THE SESAMUM (*TIL* OR *JINJILI*) CROP, 1942-43.

(Calcutta, September 1, 1942.)

THIS forecast is based on reports received from provinces and States which comprise 86 per cent of the total sesamum acreage in India. The returns dealt with in this forecast refer mainly to the early crop and exclude estimates of the area in the United Provinces which are not available at present. The reports relate generally to conditions at the end of July or the beginning of August.

The total area so far reported, comes to 1,727,000 acres, as against 1,558,000 acres, the corresponding estimate of last year, or an increase of 11 per cent.

Weather conditions at sowing time have been generally favourable, and the condition of the crop is reported to be good on the whole.

Details of the area by provinces and States are as follows :—

(*a*) Estimates of the area in the United Provinces are not reported until October.
(*b*) Including Indian States.
(*c*) Excluding the United Provinces.

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of the sesamum area in that tract to the total area under sesamum in India based on the figures for the five years ending 1940-41.

United Provinces (25 per cent).—Sowings generally commenced in time. The first week of June was practically rainless, while in the second week light showers were received in some districts only. The rainfall was, however, general during the second half of the month. In July, general rain was also, received which proved sufficient for the crop. Germination is reported to have been good and weeding operations have been carried out satisfactorily so far. It is now too early to make an estimate of the area sown.

Madras (16 per cent).—The area sown up to 25th July is estimated at 300,000 acres, as compared with 282,000 acres, the corresponding area of last year. The crop suffered from drought to some extent in Vizagapatam, North Arcot, Trichinopoly, Ramnad and Tinnevelly. The yield is expected to be generally normal in other districts.

Bombay (10·6 per cent).—The report relates to estimates made up to 1st August and the information is incomplete. The area, so far reported, is 376,000 acres (261,000 acres being in the Indian States), as against 298,000 acres, the corresponding estimate of last year. The increase in area is almost general and is due to favourable rains at sowing time and also to greater demand for the crop. Germination is reported to have been good and the condition of the crop is satisfactory except in parts of West Deccan where continuous wet conditions affected the crop. More rain is, however, needed in the eastern parts of Karnatak.

Central Provinces and Berar (9·3 per cent).—The area is at present estimated at 514,000 acres, as against 479,000 acres, the corresponding estimate of last year. Sowings were made under favourable conditions and germination has been successful. The condition of the crop is generally satisfactory and prospects are reported to be hopeful. A break with sunshine is, however, needed to stimulate the growth of plants and to enable weeding and intercultural operations to be carried out properly.

Bengal (3·7 per cent).—The area sown with the early (summer) crop is estimated at 125,000 acres, as against 131,000 acres last year. Sowings commenced generally in normal time but a long spell of drought retarded the growth of the crop in a number of districts. The average outturn of the crop for the province works out at 69 per cent of the normal, as against 65 per cent last year; and on this basis, the total yield is estimated at 22,000 tons, which is practically the same as last year.

Bihar (2·3 per cent).—The area, so far sown, is estimated at 118,000 acres, as against 116,000 acres, the corresponding estimate of last year. Weather conditions have, on the whole, been favourable.

The condition of the crop is reported to be fair to good except in parts of Champaran. It is as yet too early to make a fair estimate of outturn, but, according to the District Officers' estimates, the condition of the crop is 93 per cent of the past ten years' average.

Orissa (2·3 per cent).—The area sown with the early crop up to the middle of July is reported to be 38,000 acres, as against 36,000 acres, the corresponding estimate of last year. The weather has been favourable, and the average outturn of the crop for the province as a whole is estimated at 86 per cent of the normal.

Punjab (1·8 per cent).—The area sown up to the end of July is estimated at 89,000 acres, as against 80,000 acres, the corresponding estimate of last year. The season has been generally favourable and the condition of the crop is reported to be 95 per cent of the normal.

Ajmer-Merwara (0·4 per cent).—The area is estimated at 3,000 acres, as against 1,000 acres the corresponding estimate of last year.

Sind (0·3 per cent).—The area sown up to 25th July is estimated at 6,000 acres (50 acres only being in the Khairpur State), which is practically the same as the corresponding estimate of last year. The condition of the crop is reported to be fairly good and no damage by pest or disease has so far been reported.

Hyderabad (10·6 per cent).—The area sown is estimated at 70,000 acres, as against 52,000 acres, the corresponding estimate of last year. The condition of the crop is reported to be generally fair.

Bhopal* (1·3 per cent).—The area sown with the early crop is estimated at 10,000 acres, as compared with 8,000 acres at this time last year. Sowings were made under favourable conditions and germination has been successful. The crop is, however, reported to have been considerably damaged by incessant and abnormally heavy rainfall at the end of July.

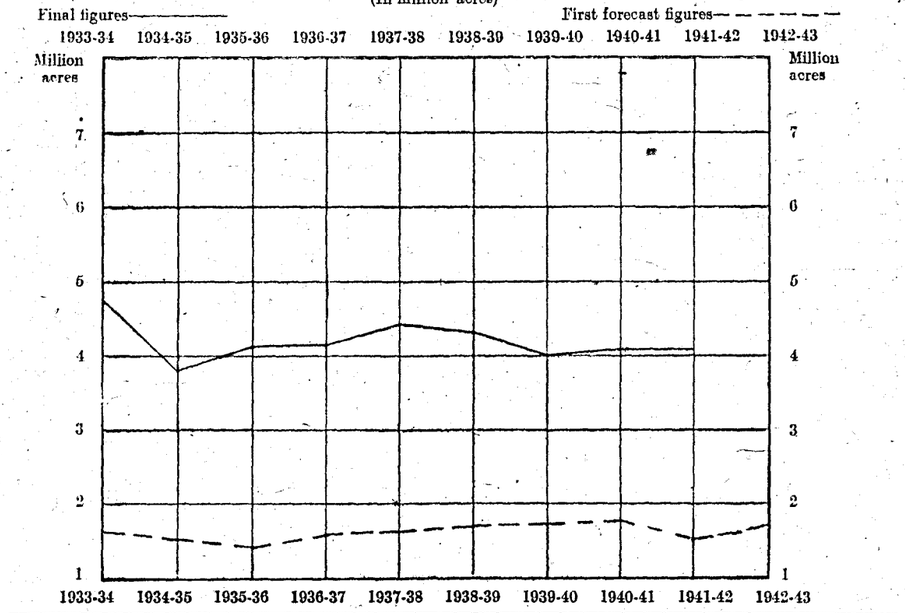

Kotah† (1·2 per cent).—The area is reported to be 51,000 acres, as compared with 41,000 acres at the corresponding time last year.

Baroda (1·1 per cent).—The area is estimated at 27,000 acres, as against 28,000 acres, the corresponding estimate of last year.

Chart.—The chart below illustrates the variations in the preliminary estimates of acreage, as compared with the final figures of the preceding nine years. The preliminary figures, as already stated, exclude estimates for the United Provinces (which do not make any estimate in the first forecast), and for the late crops in certain tracts.

Use of Old Packing Materials for Despatch of Government Consignments.

Old Packing Cases and other packing materials are very often used by Contractors when despatching Consignments *by passenger trains* against contracts placed by the Department of Supply, without obliterating old markings. The presence of such old markings causes delay and confusion in identifying consignments on arrival at destination. It is, therefore, essential that when using old packing cases and packing materials, Contractors will take special care to ensure that all old steneil or other markings are obliterated before handing over the consignments to Railways.

GREAT INDIAN PENINSULA RAILWAY.

Tender No. 1942/14 for Reconditioning of Scrap White Metal Miscellaneous.

The Controller of Stores, G. I. P. Railway, Gipstore Lane, Lower Parel, Bombay 13, invites tenders for the above work.

The prescribed form of tender with Special Conditions on which tenders will be considered can be obtained from the office of the Controller of Stores on payment of Rs. 2 per copy, which amount will not be refunded.

Tenders must be submitted on the prescribed form to the Controller of Stores and the envelopes enclosing them must be sealed and endorsed "Tender No. 1942/14 for Reconditioning of Scrap White Metal Miscellaneous".

Tenderers are required to hand in their tenders at the office of the Controller of Stores and envelopes containing the same must be registered with the Contract Superintendent prior to being placed in the box provided for their reception. In the case of tenderers outside Bombay who desire to forward tenders through the post the same must be despatched under registered cover, acknowledgment due.

A sum of Rs. 500 must be deposited with and sent direct to the Chief Cashier, G. I. P. Railway, Victoria Terminus, Bombay, as Earnest Money, before the time fixed for opening the tenders without which deposit no tender will be considered. This deposit must be made wholly in cash (on which no interest will be allowed) and the Governor General reserves to himself the right to confiscate the cash deposit, should the successful tenderer fail to put in the Security Deposit in terms and conditions of the tender.

Samples of the scrap to be reconditioned, not exceeding 5 lbs. each, can be purchased for test purposes from the District Controller of Stores, "Mechanical", Mechanical Stores Depôt, Parel, at the rate of Rs. 49 per cwt.

Tenders not complying with any of the above conditions will not be considered.

Tenders will be received at the Controller of Stores' office up to 3 p.m. (Standard Time) on Wednesday, the 30th September 1942.

SECOND MEMORANDUM ON THE PRODUCTION OF SUGAR REFINED FROM *GUR* IN INDIA DURING 1942

BY

R. C. Srivastava, B.Sc., O.B.E.,

Director, Imperial Institute of Sugar Technology, India, Cawnpore.

I.—Introduction.

In the First Memorandum on the production of sugar refined from *gur* in India during 1942 the production was estimated at 26,100 tons of which 13,200 tons was by refineries in the United Provinces and 12,900 tons by refineries in Bengal, Madras and Indian States. It is now necessary to revise these estimates. Returns recently received from refineries show that production in the United Provinces would be only about 1,600 tons and production elsewhere in India about 12,200 tons, making a total for the whole country of 13,800 tons. The production estimate for the United Provinces had to be reduced drastically, for two reasons, namely :—

(*a*) one of the biggest refineries in the province could not work owing to a fire which broke out in its premises and damaged some of its plant, and

(*b*) even the refineries which were able to work could not realise the outputs they had originally anticipated owing to acute shortage of raw materials and fuel.

II.—Number of Refineries Operating.

Twelve refineries are reported to be working during the current year, of which seven are cane sugar factories refining *gur* in the off-season. The table below shows the distribution of refineries according to provinces :—

Table I.—*Distribution of Refineries according to Provinces.*

III.—Production.

On the basis of forecast figures received from factories, the quantities of *gur* that would be melted during the year, and the quantities of sugar and molasses that would be produced have been estimated and given in Tables II, III and IV :—

NOTE ON THE PRODUCTION OF SUGAR DIRECTLY FROM CANE IN MODERN FACTORIES IN INDIA DURING THE SEASON 1941-42

BY

R. C. Srivastava, B.Sc., O.B.E.,

Director, Imperial Institute of Sugar Technology, India, Cawnpore.

I.—Introduction.

As the result of production of sugar in season 1939-40 in excess of the demand and the accumulation of surplus stocks of sugar with factories in the United Provinces and Bihar, the Governments of these two provinces found it necessary to enforce a two-year programme of restriction of output. The Governments decided to restrict production in the two provinces in 1940-41 to 7·2 lakhs tons ; crushing quotas were allotted to factories accordingly. The actual production was, however, 7·59 lakhs tons, as the recovery of sugar per cent cane turned out to be higher than was anticipated by the Governments at the time of allotment of crushing quotas. But restriction of production in 1940-41 did not greatly reduce the surplus stocks ; it only prevented its further growth. The surplus stocks with factories at the end of season 1939-40 was thus largely carried over to season 1941-42. A more drastic restriction of output, therefore, became necessary in 1941-42, and the Governments decided to limit production in the two provinces to 5·75 lakhs tons. As the season advanced, it became apparent, that owing to cane shortage in parts of the United Provinces and in Bihar, coupled with the low minimum price of cane announced at the commencement of the season, even this limited production would not be realised. In spite of the abolition of all quota restrictions by the Government of the United Provinces and the much higher prices paid for cane toward the close of the season, factories in the two provinces could only produce 5·00 lakhs tons. Cane shortage in 1941-42 was general throughout the country and factories in all provinces, except possibly Bombay were handicapped by it.

II.—Number of Factories Operating.

In the season 1941-42, 150 cane factories worked out of a total of 161 factories existing in India. 10 factories did not operate during the season and one has been excluded from this review since it is a small experimental factory for training students with a small and uncertain output.

Table I shows the distribution according to provinces of cane factories operating during the past three seasons :—

The season was short in all provinces. In the United Provinces and Bihar this was partly due to the restriction of output by Government action and partly due to the unsatisfactory nature of the crop which prevented even the sanctioned outputs being realised. In other provinces also, the crop was poor, necessitating the early closing of factories. The distribution of factories according to the number of days of actual crushing in 1941-42 and 1940-41 is shown in Table V :—

The maximum, minimum and average actual capacities of factories (tons of cane crushed per day for actual working), during the seasons 1941-42 and 1940-41 are given below :—

Factories, generally, crushed less cane per day than in the previous season, possibly as a result of the cane shortage..

V.—Sugar Production.

The production of sugar directly from cane in India totalled 778,100 tons in the season 1941-42, as against 1,095,400 tons in 1940-41, and 1,241,700 tons in 1939-40. The production in 1941-42 is 29 per cent below the production in 1940-41 and 37 per cent below the production in 1939-40. The production was less than in either of the two previous seasons in all provinces except Bombay. The causes of the short production were a general failure of the cane crop all over the country and in the case of the United Provinces and Bihar the restriction of production by the Provincial Governments.

Tables VIII to XII show the quantities of cane crushed and sugar and molasses produced and the percentage recoveries of sugar and molasses for seasons 1941-42 and 1940-41 in the various Provinces and States :—

The highest recovery for the season was 12·45 per cent as against 11·16 per cent during the preceding season. The average extraction for the whole country was almost the same as that of the previous season. The recovery in Bihar increased by 0·49 per cent while the recovery in provinces other than the United Provinces and Bihar slightly decreased. The high recovery in Bihar is due to the extreme shortness of the season and the introduction of certain improved varieties of cane. In a very large number of cases, crushing was limited to the months of January and February when the cane available is in a fully ripe state. The distribution of factories according to recoveries of sugar per cent cane was as shown in Table XIV :—

VI.—Conclusion.

The actual output of sugar in India in season 1941-42 was about 1½ lakhs tons below the estimates made at the beginning of the season—the production in the United Provinces and Bihar was 5·00 lakhs tons against the anticipated figure of 5·75 lakhs tons and the production in the rest of India 2·78 lakhs tons against the earlier estimate of 3·50 lakhs tons. But this production together with the production of sugar refined from *gur* and *khandsari* sugar and the considerable stocks carried over from the previous seasons will, it is hoped, be sufficient for the consumption requirements of the country. There should, therefore, be no serious sugar shortage anywhere in the country, if facilities for the transport of sugar from the centres of production to the various consuming areas are adequate.

WEEKLY CROP REPORTS.

ASSAM.

14th September.

The prospects and the outturn of crops are fair.

BIHAR.

31st August.

The condition of the standing crops, including sugarcane, is generally fair, except in Hazaribagh where the crops have been partially damaged. Transplanting of paddy is going on and it is almost finished in the Chota Nagpur Division.

* *See* the *Indian Trade Journal*, dated the 2nd April 1942, page 24.

BOMBAY.

5th September.

The standing crops are progressing normally, except in low-lying fields in the Konkan in some areas. Field operations were hindered in places in Gujarat. More rain is needed in the Karnatak for sowing of cotton. *Rabi* tillage and other field operations are progressing.

CENTRAL PROVINCES.

4th September.

The growth of *juar* is reported to be stunted, particularly on heavy soils. Weeding and intercultural operations and preparation of land for *rabi* were interrupted in many districts.

MADRAS.

29th August.

Transplantation and sowing of paddy were proceeding in parts of the districts of the Circars, the Ceded, the Carnatic and the Central districts and two districts of the Southern districts, a district on the West Coast and the Hills. The condition of the standing crops was fair, except in parts of a district of the Ceded districts.

ORISSA.

7th September.

Weeding and transplantation of *saradh* paddy continue in the Cuttack, Puri, Balasore, Sambalpur and Ganjam districts. *Biali* paddy is in ears and is ripening in the Balasore and Puri districts, respectively. Sugarcane, *til* and groundnut in the Cuttack district; sugarcane and jute crops in the Balasore district; jute, groundnut, *arhar* and sugarcane in the Puri district; and paddy, sugarcane, *ragi*, *sama*, maize and gingelly in the Koraput district, are thriving. *Bhadoi* paddy and *mandia* are in ears and are ripening in the Cuttack district. Cotton is in flowers and pods in the Puri district.

PUNJAB.

7th September.

The condition of the standing crops is generally average to above average. The standing crops have been damaged by rains in Hissar, Rohtak, Gurgaon, Karnal, Ambala, parts of Ludhiana, Ferozepore and Amritsar and by floods in parts of Hissar, Karnal, Ambala, Ludhiana, Lahore, Amritsar, Gurdaspur, Sialkot, Gujranwala, Sheikhupura, Montgomery, Multan and Muzaffargarh.

SIND.

12th September.

Early-sown cotton and rice are being picked and harvested. Other *kharif* crops are progressing satisfactorily. Preparatory tillage for *rabi* has been started. Red-leaf attack continues.

UNITED PROVINCES.

5th September.

Damage to crops is reported from the low-lying tracts of the Saharanpur, Aligarh, Etwah and Jhansi districts. Some damage due to floods is also reported from the Mainpuri, Farrukhabad and Etwah districts. Preparation of land for *rabi*, sowing of *kharif* crops and transplantation of late paddy continued. Harvesting of *kharif* crops is in progress in certain parts of the Province. The condition of the standing crops and the prospects are, on the whole, satisfactory.

—o—

INTERMEDIATE CROP REPORTS.

FIRST INTERMEDIATE REPORT ON THE COTTON CROP, 1942-43.

Assam.

The present prospects of the crop are generally fair.

Central Provinces and Berar.

The growth of the plants is stunted and the crop in low-lying and water-logged areas has been damaged to some extent in the Wardha, Nagpur, Chanda, Buldana and Yeotmal districts. Ploughing up of damaged cotton fields is also reported from the Wardha, Chanda and Buldana districts and such areas have either been re-sown with *juar* or left for *rabi* crops. As a result, it is anticipated that there will be a further shrinkage in the cotton area this season than that estimated in the first forecast issued on the 8th August 1942. The outlook of the crop, on the whole, is satisfactory in the Nimar district and in the greater part of Berar and fair in other important cotton-growing districts.

United Provinces.

The outturn is not expected to exceed 64 per cent of the normal.

FIRST INTERMEDIATE REPORT ON THE SUGARCANE CROP, 1942-43.

Assam.

The condition of the crop is reported to be fair and no change in the percentage outturn estimated in the first forecast is anticipated.

Bihar.

There has been a change in the outturn of the sugarcane crop since the issue of the first forecast of the crop in August last. The condition factor for the outturn of the crop is now estimated at 96 per cent of the past ten years' average against 92 per cent reported in the first forecast.

Central Provinces and Berar.

The condition of the crop is satisfactory and the prospects are hopeful.

Orissa.

Since the issue of the first forecast of the sugarcane crop, there has been no change in the area or outturn of the crop.

United Provinces.

The condition of the crop is reported to be satisfactory. Slight damage by insects, white-ants and red-rot is reported from most of the districts in the Province. The outturn is likely to be slightly less than 90 per cent of the normal.

CROP FORECAST.

(*FOREIGN*)

CANADIAN WHEAT AND LINSEED CROPS

According to a cable, dated the 10th September, 1942, received from the Dominion Bureau of Statistics, Ottawa, the area and production of the Canadian wheat and linseed crops for the current season are now estimated at 21,587,000 acres and 615,243,000 bushels (or 16,480,000 tons) for wheat and 1,492,000 acres and 16,981,000 bushels (or 425,000 tons) for linseed. Last year's corresponding estimates were 22,372,000 acres and 306,459,000 bushels (or 8,209,000 tons) for wheat and 958,000 acres and 7,362,000 bushels (or 184,000 tons) for linseed.

CROP FORECASTS.

(*ALL-INDIA*)

FIRST COTTON FORECAST, 1942-43.

(*Calcutta, August 31, 1942.*)

THIS forecast is based upon reports furnished by the undermentioned provinces and States, which comprise the entire cotton area of India. The reports, however, refer mainly to early cotton and deal generally with the condition of the crop at the end of July or early August.

The area sown is at present estimated at 11,089,000 acres, as compared with 12,475,000 acres at the corresponding time of last year, or a decrease of 11 per cent. The decrease is due chiefly to the restriction of sowings as a result of "Grow more food crops" campaign.

Weather conditions at sowing time were generally favourable, and the present condition of the crop is reported to be fairly good on the whole.

Detailed figures for the provinces and States are as follows :—

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of cotton area in that tract to the total area under cotton in India based on the figures for the five years ending 1940-41.

Bombay (24·4 per cent).—The information is incomplete. The area sown up to the 1st August is estimated at 1,020,000 acres (7,000 acres being in the Indian States), which is 25 per cent below the estimate reported at the corresponding date last year. The decrease is general and is attributed chiefly to the restriction of sowings as a result of "Grow more food crops" campaign. Sowings were made in time and germination was satisfactory. In the Deccan, the crop in the west is reported to have been affected by continuous wet conditions; while in the eastern parts of Karnatak, the crop is in need of more rain. Slight attack of root-rot is reported from places in north Deccan.

The area by trade descriptions is as follows :—

	Acres
Oomras—	
Khandesh Oomras	720,000
Khandesh Banilla	87,000
Barsi-Nagar Oomras	68,000
Surti	23,000
Dholleras—	
Gujerat-Dholleras	6,000
Kathiawar-short staple	1,000
Southerns—	
Kumpta and Upland	115,000

Central Provinces and Berar (15·5 per cent).—The area sown is estimated at 3,177,000 acres (2,380,000 acres being in Berar), which is 8 per cent below the corresponding estimate of last year. The decrease occurs in the area under short-staple cottons and is attributed to "Grow more food crops" campaign and the propaganda done in connexion with the offer of a subsidy on the decrease in cotton area. There was, however, been a great increase in the areas under the medium and long-staple cottons (*e.g.* 'C. P. and Berar Verum' and 'Buri') which is due to high prices fetched by these varieties last year. The rainfall in June was generally well-distributed and sufficient. In July, moderate to heavy rain fell all over the province, and high floods which occurred about the middle of the month caused damage to the crop in the riverain areas in five districts. Sowings were made under favourable conditions and germination was successful. Some resowing was, however, necessary in the areas damaged by heavy rain or floods in three districts. Heavy and persistent rain interfered with weeding and intercultural operations and stunted the growth of the crop, particularly in low-lying and water-logged areas. The present condition of the crop is, however, reported to be satisfactory on the whole, but a break with bright sunshine is urgently needed for the proper growth of plants and for facilitating weeding and intercultural operations.

The area by trade descriptions is as follows :—

	Acres
Oomras—	
C. P. Oomras	559,000
Berar Oomras	262,000
Nimar Oomras	10,000
C. P. and Berar Verum	2,247,000
Americans—	
Buri	99,000

Punjab (15·2 per cent).—The area sown is estimated, according to district returns, at 2,908,000 acres (330,000 acres being in the Indian States), which is 6 per cent below the estimate made at the corresponding time last year. The estimate of sown area framed by selected and-holders (zamindars)

of the three important districts, however, falls short of the district estimate by 9 per cent. The decrease, which occurs particularly under Deshi varieties, is attributed to "Grow more food crops" campaign. Climatic conditions were generally favourable for sowings which commenced on normal dates. Supplies of canal water were also generally sufficient. Rains received during July proved beneficial to the standing crop, the present condition of which is reported to be 97 per cent of the normal.

The area by trade descriptions is as follows :—

	Acres
Bengals—	
Punjab Deshi	1,187,000
Americans—	
Punjab-American	1,721,000

Madras (9·8 per cent).—The area under cotton up to the 25th July, 1942, is estimated at 241,000 acres, as against 167,000 acres, the corresponding estimate of last year. The increase is attributed to favourable rains received in the early part of the season. The yield of the crop in the south and in the central districts (mainly "Cambodias" tract), where the area represents generally the last year's crop left on the ground for second picking before the plants are removed in September under the Pest Act, is expected to be generally normal.

The area according to trade descriptions is as follows :—

	Acres
Southerns—	
Westerns	60,000
White and Red Northerns	6,000
Warangal and Cocanadas	3,000
Chinnapathi (short staple)	6,000

Sind (4·1 per cent).—The area sown up to the 20th July, 1942, is estimated at 775,000 acres (34,000 acres being in the Khairpur State), which is 22 per cent below the area reported at the corresponding time last year. The crop on the Left Bank is doing well. Early-sown 'American' variety in the Thar Parkar and in parts of Hyderabad districts is in flowers. On the Right Bank also, the earlier-sown crop is progressing satisfactorily and is in flowers. The crop is reported to have been slightly damaged in places by white-ant, root-rot and black head cricket pests.

The area by trade descriptions is as follows :—

	Acres
Bengals—	
Sind Deshi	72,000
Americans—	
Sind-American	703,000

United Provinces (2·3 per cent).—The area sown is approximately estimated at 359,000 acres (9,000 acres being in the Rampur State), as compared with 309,000 acres, the corresponding estimate of last year. Compared with the actual area of last year (*viz.*, 435,000 acres), however, the present estimate shows a decrease of 17 per cent, which is attributed chiefly to "Grow more food crops" campaign and partly to low prices. Sowings generally commenced in time and germination is reported to be good. Weeding operations have been carried out properly except in a few districts where they were retarded by continuous rain.

Bengal (0·4 per cent).—The area sown is reported to be 106,000 acres, which is practically the same as reported at this time last year. The weather has been generally favourable for the growth of the crop.

The area by trade descriptions is as follows :—

	Acres
Bengals—	
U. P. Deshi	1,000
Comillas	105,000

Bihar (0·2 per cent).—The area so far sown is estimated at 40,000 acres, as against 41,000 acres reported at the corresponding time last year. Weather conditions have been generally favourable and the present condition of the crop is reported to be fair to good.

Assam (0·2 per cent).—The area is estimated at 32,000 acres, as compared with 38,000 acres at this time last year. The season has been generally favourable for the cultivation and growth of the crop, the present prospects of which are reported to be fair.

Ajmer-Merwara (0·1 per cent).—The area sown is estimated at 9,000 acres, as compared with 10,000 acres, the corresponding estimate of last year.

North-West Frontier Province (0·1 per cent).—The area sown is estimated at 17,000 acres, as against 16,000 acres reported at the corresponding time last year. The weather was favourable for sowings, which commenced on normal dates. Rains received during April to June proved beneficial to the standing crop, the present condition of which is reported to be average.

Orissa (0·03 per cent).—The area so far sown is estimated at 8,000 acres, which is practically the same as at this time last year. Weather conditions have been favourable and the present condition of the crop is reported to be fair.

The area by trade descriptions is as follows :—

(*a*) Information was not available at the time of report.

Chart.—The chart below illustrates the variations in the preliminary estimates of area as compared with the final figures of the preceding nine years.

Cotton in Foreign Countries.—From information available in this Department, it appears that the production of the cotton crop in the United States of America for the current year is at present estimated at 14,028,000 bales of 500 lbs. each (equivalent to 17,535,000 bales of 400 lbs. each), as compared with 10,710,000 bales of 500 lbs. each (equivalent to 13,387,000 bales of 400 lbs. each), at the corresponding time last year. The area planted with cotton in Egypt during the current year, which appears to be the lowest during the last fifty years, is estimated at 703,000 acres, as against 1,644,000 acres in 1941. The yield is estimated at 768,000 bales of 400 lbs. each, as compared with 1,733,000 bales last year. In Uganda, the cotton crop of 1941-42 (picked during the period November, 1941 to March, 1942) is estimated at 364,000 bales of 400 lbs. each, as against 325,000 bales in 1940-41.

FIRST GROUNDNUT FORECAST, 1942-43.

(Calcutta, September 7, 1942.)

THIS forecast is based on reports received from the four provinces of Madras, Bombay, Central Provinces and Berar and Orissa and the States of Hyderabad, Mysore and Baroda,* which together contain 97 per cent of the total area under groundnut in India. The report does not, as will be seen from the detailed notes below, include information regarding the main crop of Madras, but relates only to the summer and early varieties grown in that province. The information contained in the forecast relates to the condition of the crop at the end of July or beginning of August.

The total area so far reported, is estimated at 2,809,000 acres, as against 2,662,000† acres (revised) at the corresponding time last year. Excluding the Baroda State, from which forecast of this crop has been received for the first time this year, the present estimate shows an increase of 2 per cent.

Weather conditions at sowing time were generally favourable and the present condition of the crop is reported to be good, on the whole.

Details for the provinces and States are as follows :—

The provincial reports are summarised below The figures in brackets following the name of each province or State indicate the average percentage of the area under groundnut in that tract to the total area under groundnut in India based on the figures for the five years ending 1940-41.

Madras (44·9 per cent).—The area sown up to the end of May with the summer (or irrigated) crop is estimated at 40,000 acres, as against 65,000 acres reported at the corresponding time last year, showing a decrease of 38 per cent. The decrease is attributed to want of rain at sowing time, propaganda for the restriction of groundnut cultivation and low price at sowing time. The harvesting of the crop is in progress and the yield is expected to be normal in all districts except Chingleput where the crop was affected to some extent by drought. The total yield of this variety is estimated at 35,000 tons of unshelled nuts, as against 51,000 tons, the corresponding estimate of last year. The area sown up to the 25th July with the early variety (mostly unirrigated) in the districts of Salem and Coimbatore is estimated at 141,000 acres, as against 105,000 acres, reported at the corresponding time of last year. The crop is expected to be normal in both the districts and the total yield of this variety is estimated at 70,000 tons of unshelled nuts, as against 52,000 tons reported at this time last year.

Bombay (27·6 per cent).—The information relates to estimates made up to 1st August and is incomplete. The area so far reported, is 1,730,000 acres (712,000 acres being in the Indian States), as against 1,885,000 acres reported at the corresponding date of last year. Germination has been satisfactory and the condition of the crop is reported to be good. In parts of south Gujarat and west Karnatak districts, however, the crop was affected to some extent by continuous rains.

Central Provinces and Berar (2·6 per cent).—The total area sown is estimated at 237,000 acres, as against 209,000 acres reported at the corresponding time of last year. Sowings were made, on the whole, under favourable conditions and germination was successful. The present condition of the crop is reported to be satisfactory but a break in the rains is needed.

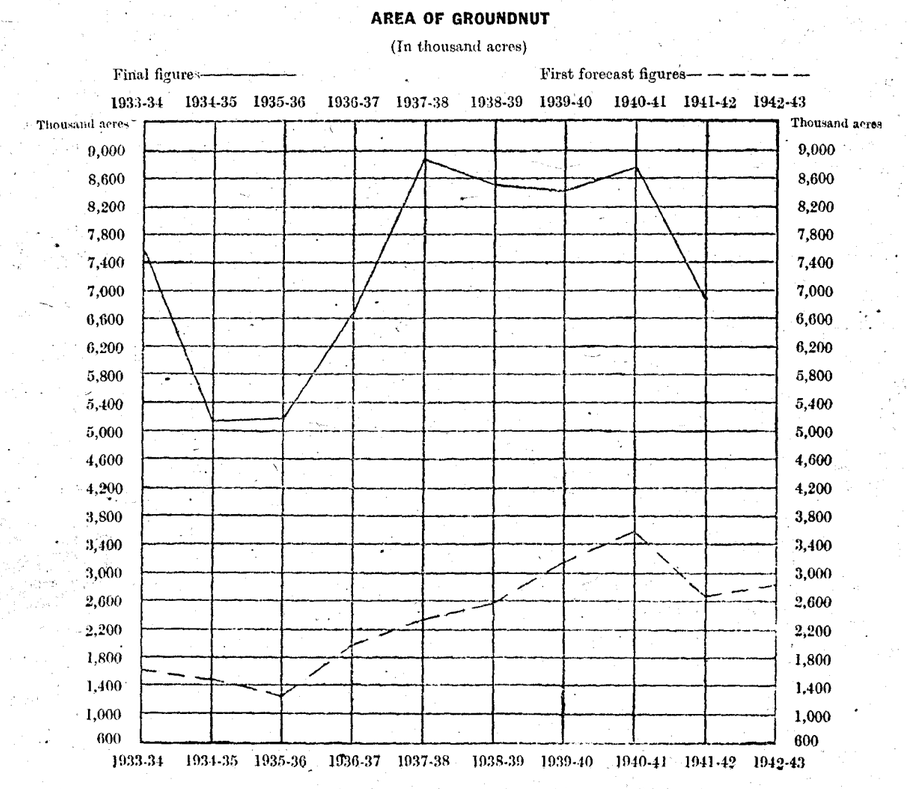

Orissa (0·2 per cent.)—The area so far sown is estimated at 16,000 acres, which is practically the same as reported at the corresponding time last year. Weather conditions have generally been favourable, and the average outturn of rice crop for the province as a whole is estimated at 78 per cent of the normal.

Hyderabad (17·7 per cent).—The total area sown is estimated at 462,000 acres, as against 317,000 acres reported at the corresponding date of last year.

Mysore (2·4 per cent.)—The total area sown is reported to be 97,000 acres, as against 65,000 acres (revised) at the corresponding date of last year. The increase is attributed to timely and sufficient rains. The present condition of the crop is reported to be good.

Baroda (1·3 per cent).—This is the first time that a forecast of the crop has been received from the State. The area under the crop is estimated at 86,000 acres, as compared with 104,000 acres, the actual area of last year.

Chart.—The chart below shows the variations in the preliminary estimates of area as compared with the final figures of the preceding nine years. (The figures for earlier years do not include those for Central Provinces and Berar and Orissa, which have been preparing preliminary forecasts of this crop only from 1939-40 and for Hyderabad and Baroda States, which have been preparing such forecasts from 1934-35 and 1942-43 respectively.)

STATISTICS OF INDUSTRIAL DISPUTES IN BRITISH INDIA FOR THE YEAR 1941.

THE following tables contain statistics of industrial disputes in British India for the year ending the 31st December 1941.

The total number of strikes during the year (including 5 strikes in progress at the close of the year) was 359 and the number of workers involved 291,054 as compared with 322 strikes involving 452,539 workers during 1940. The total number of working days lost was 3,330,503 as compared with 7,577,281 in 1940.

Cotton and Jute Mills accounted for 44 per cent of the strikes, 70·3 per cent of the workers involved and 66·6 per cent of the loss of working days. In 227 disputes or 63·2 per cent, the chief demands related to wages or bonuses. The number of strikes in which the workmen were successful in gaining any concessions was 186 or approximately 52·5 per cent of the total number of strikes ended during the year.

The Government of India appointed a Court of Inquiry under section 3 of the Trade Disputes Act, 1929, during the year consisting of Mr. S. R. Deshpande, M.B.E., B.A., B. Litt. (*Oxon.*), J. P., *in connection* with an apprehended trade dispute between the Central Excises and Salt Department, North Western India, and the miners working in the Salt mine at Khewra regarding improvement in the general conditions of service of miners and grant of certain concessions to them.

In the Central Provinces and Berar, the Provincial Government appointed a committee under the chairmanship of Mr. T. C. S. Jayaratnam, C.I.E., I.C.S., to inquire into the grievances of textile workers in the Province. The Provincial Government endorsed the Committee's recommendations in regard to the restoration of the wage cut, reversion of the wage level to that prevailing in 1931-32, grant of dearness allowance at the rate recommended by the Mahalanobis Committee in 1940 and regularity bonus of Rs. 18 a year for absence not exceeding 12 days.

The important strikes which occurred during the year 1941 were :—

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUE.

—The total gross Indian Sea and Land Customs Revenue, excluding Salt Revenue, collected in British India during the month of August 1942, amounted to Rs. 2,70 lakhs, as compared with Rs. 2,99 lakhs in July 1942, and Rs. 3,16 lakhs in August 1941. The total gross Central excise duties on motor spirit, kerosene, sugar, matches, etc., amounted to Rs. 79 lakhs in August 1942, as compared with Rs. 99 lakhs in July 1942, and Rs. 1,19 lakhs in August 1941. The grand total of gross Customs and Central Excise Revenues realised in the five months ended August 1942, was Rs. 18,61 lakhs as compared with Rs. 23,42 lakhs during the same period last year. Of this amount, import duties accounted for Rs. 12,51 lakhs, export duties for Rs. 1,12 lakhs, land customs and miscellaneous for Rs. 30 lakhs and Central excise duties for Rs. 4,68 lakhs. Comparing the figures for April to August 1942, with those for the corresponding period of the preceding year, there were decreases under import duties on cotton fabrics, artificial silk yarn and thread, artificial silk fabrics, kerosene oil, iron and steel, betelnuts, motor vehicles, raw silk, matches, match splints and veneers, raw cotton, dyes derived from coal-tar and coal-tar derivatives, machinery, silk fabrics, wireless reception instruments and apparatus, tin (block), cotton yarn and thread, fabrics of artificial silk mixed with other materials, silk yarn and thread, pneumatic rubber tyres and tubes, cotton hosiery, toys, games and sports goods, electric lighting bulbs and railway plant and rolling stock, under export duties on raw jute and other agricultural produce, and under excise duty on sugar. On the other hand, import duties on tobacco, motor spirit, liquors and batching, fuel and lubricating oils, export duty on manufactured jute, land customs receipts and the excise duties on motor spirit and matches showed increases.

REPORT ON THE WORK OF THE INDIAN GOVERNMENT TRADE COMMISSIONER IN EAST AFRICA, MOMBASA, DURING 1940-41, BY SANGAT SINGH, ESQ.

Introductory.

With a view to finding markets for Indian manufactured goods, the Trade Commissioner visited, from time to time, the important commercial centres in Kenya, Uganda, Tanganyika and Zanzibar. Markets were studied and personal contacts with merchants were maintained. Experience has shown that the practice of collecting and forwarding samples of foreign goods selling in the East African markets for counter-sampling in India is productive of substantial results. This practice has proved especially helpful to the development of trade in cotton piecegoods and hosiery. The Trade Commissioner also attends certain important meetings of the various Chambers of Commerce in East Africa of which he is elected as an honorary Member. His presence at these meetings enables him to keep himself in closer touch with the trade developments in the country. The recommendations of these commercial bodies are invariably enacted into law by the local Governments and, with a view to safeguarding the interests of the Indian export trade, it becomes necessary for the Trade Commissioner to watch their deliberations with unceasing interest.

The Kenya Supply Board has co-opted the Indian Government Trade Commissioner as well as his British and South African colleagues, as members of its sub-committee dealing with imports into Kenya and Uganda. This has placed him in a better position to keep himself informed of any important developments affecting trade with India.

An important development, which took place during the period under review, was the adoption of a procedure according to which certificates of origin and value on the invoices relating to goods exported from India to Kenya and Uganda, issued by certain authorised Chambers of Commerce and Trade Associations in India are accepted by the Customs Authorities in this country. This procedure appears to have worked satisfactorily and has served to eliminate, to an appreciable extent, the difficulties of the importers on this side. For the guidance of the manufacturers and exporters in India, the details of the procedure in force are shown in Appendix I. Manufacturers and exporters in India are strongly advised to pay special attention to the following matters :—

Stamping of correct dimensions on the cloth and correct declarations of the dimensions on the invoices.

Piecegoods are normally charged to duty in this country at specific rates per square yard and any under-declaration of length or width, however small, constitutes an offence against the local Customs laws. In the case of a number of consignments from India the width of the cloth was noticed to be under-declared by one or two inches and the length by one or two feet. While the Customs authorities here took the view in those particular cases that it was most unlikely that there had been any intent to defraud the revenue, at the same time, it was necessary for them to impose minor penalties on the importers to meet the requirements of the Customs laws and the importers were warned that heavier fines would be imposed in the case of any future wrong declarations on invoices. It will, no doubt, be appreciated that it was not the fault of the importers in this country since they made the declarations according to the invoices they had received from shippers in India and presumably those invoices were made out according to the dimensions stamped on the cloth by the manufacturers. It is needless to emphasise that if heavy fines are imposed on the importers here, the reaction on Indian export trade is bound to be serious. Manufacturers in India are accordingly advised to take particular care to stamp accurate dimensions on piecegoods.

External markings of bales and packages.

A very large number of consignment of goods, mainly piecegoods and clothing, which were received from Bombay during the period covered by this Report brought to light very forcibly the unsatisfactory marking and packing of goods. Considerable delay and confusion was experienced and both traders and the Landing Contractors to the Port Administration were put to much inconvenience in endeavouring to sort out the packages suitably to marks. It appears that the indecipherable external marking on the packages and bales is due to complete disregard on the part of shippers in India of the port rules at destination. The delay in clearing goods from the port warehouses involves not only waste of time but unnecessary warehouse charges. Attention of the exporters in India is, therefore, specially drawn to the local Harbour Regulations, which require that—

(i) Each bale or package must have external distinguishing marks *and* numbers written clearly in *English*. All old marks or writings on the wrapper must be obliterated.

(ii) The invoices must show corresponding marks and numbers.

(iii) The invoices must show the gross weight and measurement of each bale or package separately.

New openings for Indian commodities.

The monthly Reports of the Indian Government Trade Commissioner dealing with openings for Indian commodities, which have been published

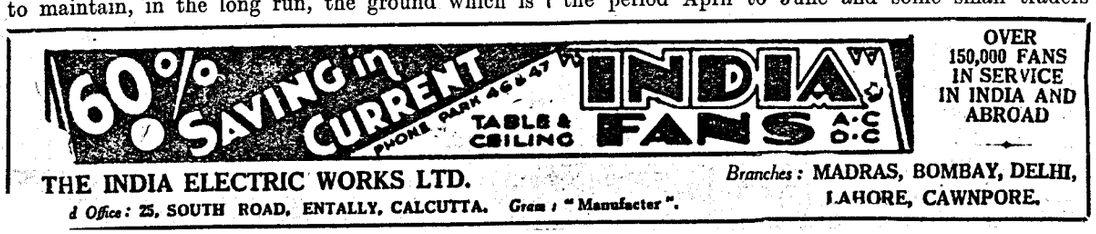

from time to time in the *Indian Trade Journal* contained brief surveys of certain commodities which had hitherto been imported into the East African territories mainly from countries other than India, *e.g.*, Biscuits, confectionery, electric bulbs, safety matches, enamelled hollowware, leather manufactures, chinaware and porcelainware, cutlery, silicate of soda, sulphuric acid, drugs and medicines, building hardware, brooms and brushes, sanitaryware, paints, colours and varnishes, glassware, hosiery, ready-made clothing, toys, musical instruments, electrical goods, buttons, umbrellas, toilet soaps, perfumery, playing cards, cells for torches, bakelite articles, caustic soda, printing ink, sewing thread, etc. The above commodities are now known to be manufactured in India on a commercial scale, and there is every reason to believe that, with the co-operation of the various manufacturers, a substantial portion of the local market could be secured for India. In view of the very wide range of qualities, designs, patterns and sizes in which the articles are marketed, it has not been found feasible to give any clear indication of the prevailing prices, but if the manufacturers in India were to furnish this office with representative samples of the commodities in question, the local market can be tested and the results of such tests duly communicated to them. Due to circumstances created by War, merchants in the East African territories have been experiencing increased difficulties in obtaining their requirements from the previous sources of supply. Imports from enemy and enemy-occupied countries have automatically been suspended, and the normal flow of trade with other countries has been adversely affected as a result of lack of shipping facilities, exchange restrictions, etc. This has provided singular opportunity for the Empire goods to be established in these markets. A number of trade enquiries, embracing fresh commodities mentioned above, were received by this office during the period under review, and, as far as possible, the enquirers were put in touch with principal firms in India known to be manufacturing the commodities on a large scale. Although attempts are being made in this country for the development of local industries and the provision of substitutes for imports, activities in this direction are yet in an exploratory stage. A preponderating portion of the demand from the East African consumers, especially in respect of manufactured articles, must, therefore, for a considerably long period, be met necessarily by imports from outside sources. Manufacturers and exporters in India are accordingly advised to take advantage of the present position and endeavour to establish trade relations with importers in this country. They must realise that if they do not care to study and understand the necessities of this market and to establish business on the most modern system, in line with other countries, they will not be able to maintain, in the long run, the ground which is being steadily gained at present. The present emergent circumstances have, in a way, forced upon these territories to establish connections with India but it must not be forgotten that all other countries, which have lost or are losing the trade with this country, due to force of circumstances, are making preparations in right earnest for postwar recapture of this market. The Indian trade should, therefore, try to establish itself in such a manner as to be able to compete with its rivals by means of modern methods and practices. East Africa is a growing country and its taste varies often in trade goods. It is accordingly necessary that the Indian manufacturers should co-operate with the merchants in these territories in the matter of complying with their specifications. It would benefit them to send out to this country capable commercial travellers with complete ranges of samples to interview importers and secure orders. These commercial travellers can always depend upon this office for every possible assistance in the fulfilment of their mission. It is also advisable for the Indian manufacturers to appoint sole selling agents in this country who should report to them of any changes in the designs and qualities of goods gaining popularity in these markets. It may be noted that cheap but reasonably reliable articles have preference in this market due to the yet low purchasing power of the population in general.

It must, however, be mentioned in this connection that due to emergency created by War, the export from India of some of the articles has been restricted to a certain extent but as soon as circumstances will permit of those articles being exported freely the manufacturers can hope to push their products into these markets.

Economic Developments.

In the face of the many unavoidable difficulties attending import and export trade throughout 1940-41, and the further restrictions necessarily imposed for the better prosecution of the War, the record of the year's trading in the East African territories within the jurisdiction of this office was more than satisfactory. When the order regulating import trade by means of a system of import licenses came into force on the 15th November 1939, a large number of indents placed and accepted prior to that date were outstanding, and the effect of the control was not apparent in the early months of 1940; owing partly to a curtailment of shipping facilities these "pre-order" goods continued to arrive during the period April to June 1940 with the result that the import figures were only slightly affected, as the reduction in the total tonnage that in fact occurred, was compensated for by increased prices. These rose steadily as fresh importations arrived. Accordingly credit continued to be restricted during the period April to June and some small traders

became involved in difficulties. In bazaars on the coast and up-country markets in Tanganyika, trade continued to be quiet, and importers were facing a transition period following the loss of overseas buying markets and the necessity for establishing new connections. However, before the close of June, the trade was reported to be quiet and a decline in the imports from foreign sources was evident, while imports from Empire sources of supply, particularly the United Kingdom and India, were increasing. Generally speaking, it could be said that notwithstanding the many difficulties imposed on traders by reason of war-time restrictions, transport shortage and similar uncontrollable factors, the East African territories had shown a remarkable resiliency and readiness to overcome trouble. Business conditions in all the trade centres in East Africa remained, on the whole, quiet during the period July to September 1940. A steady flow of imported goods to up-country bazaars was reported but buying was cautious in order to avoid overstocking. Commitments continued to be met regularly. There were definite indications that an increasing proportion of indents for cotton piecegoods, etc., was being diverted to India. The period October to December did not, on the whole, experience any noticeable change in the business conditions. Owing largely to a lower level of stocks in the principal bazaars and also to a curtailment of credit, money was fairly plentiful and engagements were being regularly met. The bazaars were dealing mainly in Empire articles and there was a marked increase in a number of lines of Indian goods coming forward. War Risk Insurance Bills covering commodities were enacted by the Governments of the respective East African territories with effect from January 1941. This factor led to a tendency to reduce stocks, and bazaar trade consequently remained quiet during the period January to March of that year.

The economic developments affecting each of the four territories separately are analysed in the following paragraphs :—

KENYA COLONY.

Kenya and Uganda form a single administrative unit for the purpose of Customs and Excise. Freedom of trade between Kenya, Uganda and Tanganyika is secured by a common Customs and Excise tariff and the duty-free exchange of local products. In addition, the system permits of the inter-territorial transfer of duty-paid stocks under a scheme of consignors' declarations, duty being collected in the territory of original importation or production, and credited to the territory of ultimate consumption.

In the case of the Kenya coffee industry, it was felt that, in view of the virtual disappearance of European markets and the restriction or embargo on imports into the United Kingdom, the interests of the industry would best be served by the formation of a pool. An order was, therefore, made under the Defence Regulations, providing for the control of the Kenya coffee crop by a Supply Board appointed by the Government. Under this arrangement the producers had to sell their crops to the Supply Board and purchases were made from the Board. The crop was sold through the established exporting firms and initial payments and final pool proceeds were paid over to planters through regular commission agents. It is said that one effect of this control had been to obviate or reduce the necessity for traders to carry large stocks. The local coffee market was well supplied and sales had been effected at satisfactory prices.

UGANDA PROTECTORATE.

In Uganda, practically all stocks of cotton had been shipped by the end of September 1940, and in consequence there was no local market and prices were nominal. The new cotton buying season reopened on the 30th January 1941, and buying commenced with lint quotations at Shs. 44½ per 100 lbs. A. R. quality. The market remained steady until the middle of February 1941, when prices rose to the maximum of Shs. 50¼, yielding a buying price for growers of 10 cents per lb. in Kampala and Busoga. On the 22nd February 1941, the market fell to Shs. 46½ and it remained at this level thereafter. It was estimated by ginners that approximately 50 per cent of the cotton crop should have been marketed by the end of February. The Agricultural Department reported that the crop would realise the estimate of 325,000 bales and that the grade was good.

TANGANYIKA TERRITORY.

The value of domestic exports, which did not, although, by any means represent the whole of the available surplus production, was the highest on record and for the first time exceeded a total of £5 millions. Imports were affected by a number of adverse factors, among them being import control measures, the difficulty of finding alternative supplies for many goods no longer obtainable from the usual pre-war sources, cessation of building, settlement and development, and the departure of former consumers. Prices were generally higher, and the fall in quantity was greater than was indicated by the small decrease in the gross value.

Enemy estates remained in production throughout the year and leases to approved lessees were, towards the end of the year, changed from an annual basis to one of five years mainly to ensure the proper maintenance of these properties. It can be recorded that despite the manifold difficulties arising from the War, the sisal industry remained intact, a circumstance of considerable importance in view of the large part the production of this crop plays in the economic structure of the Tanganyika Territory. The uncertainties of the future and the difficulties of obtaining essential items of equipment had not, as might have been expected, resulted in any relaxation of effort to improve production methods and the standard of upkeep of plantations had shown no retrograde tendency such as was noticeable after the economic depression. On the whole, local trading conditions in the Tanganyika Territory remained healthy, and most transactions were on a cash basis. In spite of decreased quantitative turnover, arising from difficulty in obtaining many classes of import goods, commercial failures were few and insignificant. Absence of former competition from enemy merchant firms undoubtedly helped traders to meet the new conditions. At the same time both import and export markets were to some degree stimulated by the business activity in the territories to the north, arising from military expansion and preparations for the East African campaign.

ZANZIBAR PROTECTORATE.

In the case of the Zanzibar Protectorate, although import restrictions naturally interfered with trade, and the fall in copra prices reduced the spending power of the Protectorate, an average clove harvest and heavy exports at good prices created a spending power sufficient to improve internal trade beyond expectations. Owing to heavy importations during the early part of the year 1940, stocks of most commodities were sufficient to meet the demand.

Customs Tariffs.

(i) *Kenya, Uganda and Tanganyika.*

The present revised tariff was enacted in the year 1930 simultaneously in the three territories, *viz.*, Kenya, Uganda and Tanganyika.

The basic fiscal rate of import duty is twenty per cent *ad valorem* assessed on the current domestic value of goods in the exporting country together with freight and all other charges up to the time of exportation. Specific duties are charged on goods which lend themselves to such a form of assessment, while in the case of certain imports such as piecegoods, cycles and some articles of wearing apparel, minimum specific duties have been fixed in conjunction with the normal *ad valorem* rate, with a view to safeguarding the revenue against abnormally cheap supplies.

A reduced rate of ten per cent is charged on building requisites, artisans' tools and most raw materials, while a special intermediate rate of fifteen per cent is applied to private motor vehicles and their parts.

The free list includes the chief "development" imports such as machinery; road, rail and water transport equipment; aircraft, coal, coke and oil fuel; packing materials; explosives; insecticides, and agricultural and mining equipments. Exemption from duty is also allowed in the case of drugs, medicines and disinfectants; filters and refrigerators; surgical, scientific and educational requisites, religious articles; music and literature, and used effects brought in by passengers for personal or household use. Treaty and mandatory obligations prevent the grant of Imperial Preference.

Provision is made for the imposition of additional "suspended" duties on sugar, timber, wheat, rice and a few other commodities which are produced or manufactured in one or more of the three territories. These duties may be imposed, varied or revoked unilaterally, thus allowing a modified control by each territory over the degree of protection afforded to the local product concerned.

The customs tariffs of Kenya, Uganda and Tanganyika allow the duty-free interchange of local products and a system is also in force providing for the inter-territorial transfers of imported goods with Treasury credits of import duty. Thus, there are virtually no customs barriers between these three neighbouring territories.

By the enactment of the War Taxation (Customs and Excise Duties) Ordinance on the 6th August 1940, a surcharge of ten per centum was imposed on all *ad valorem* and specific duties, including suspended duties, with the sole exception of the tobacco group, in respect of which increased rates of Customs and Excise were already imposed in November 1939. The following increases in the Excise duties were also imposed by the above Ordinance :—

(*a*) Sugar (not including jaggery), a surcharge of Sh. 1/24 per cwt.
(*b*) Tea, a surcharge of Sh. 0/50 per lb.
(*c*) Beer, a surcharge of Sh. 0/40 per Imperial gallon of worts produced.

With effect from the 18th November 1941, surcharge of duty, ranging from 10 to 100 per cent have been imposed in respect of a large number of items in the Import Tariff of Kenya, Uganda and Tanganyika. Full details of the surcharges imposed are shown in Appendix II (*a*).

(ii) *Zanzibar Protectorate.*

There is an *ad valorem* duty of 15 per cent on all articles not enumerated in Schedule I of the Tariff Decree which provides for a specific duty on a considerable number of articles or in Schedule II which enumerates the articles exempt from duty. For the purpose of assessment to duty the value of goods shall be taken to be the domestic value together with the extra cost of packing and packages for export, carriage to the port of shipment and all other expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, and all other charges up to the time of importation into the Protectorate.

The tariff values of cloves and clove stems for the first six months of 1940 were fixed at Shs. 50/- and Shs. 5/- per cental of 100 lbs., respectively, while those for the second half of the year were fixed at Shs. 55/- and Shs. 5/- per cental of 100 lbs., respectively.

With effect from the 6th December 1941, surcharges of duty, ranging from 10 to 100 per cent, were imposed in respect of a large number of items in the Zanzibar Import Tariff. Full details of these surcharges are shown in Appendix II (*b*).

Miscellaneous.

Section 1.—Enquiries.

During the period April, 1940 to March, 1941, this office received an increasingly large number of trade enquiries from different firms, commercial bodies or individuals, both in East Africa and India. The bulk of the enquiries originated from prominent firms of importers or exporters, and covered a very wide range of Indian raw produce and manufactured articles.

Of the 636 enquiries from East Africa, 321 came from the Kenya Colony, 54 from the Uganda Protectorate, 191 from the Tanganyika Territory and 70 from the Zanzibar Protectorate.

From the trade enquiries received in this office during the period under review, a few selected ones are mentioned below :—

(*a*) Importers in Kenya, Uganda, Tanganyika and Zanzibar.

Ale, beer, etc.—A firm in Mombasa wanted addresses of likely suppliers of ale and beer from India. Another firm in Mbarara (Uganda) wished to import beer from India.

Aluminiumware.—A firm in Dar-es-Salaam (Tanganyika Territory) asked for addresses of exporters of aluminiumware from India.

Acids.—A prominent firm in Mombasa wished to import from India, citric acid, tartaric acid and sulphuric acid for use in the manufacture of mineral waters.

Cycles.—A firm in Mombasa wished to be put in touch with exporters of bicycles and tricycles from India.

Cement.—A firm in Kisumu asked for the addresses of manufacturers of cement in India.

Cigars.—A firm in Nairobi asked for addresses of cigar manufacturers in India.

Cooking ranges.—A firm in Dar-es-Salaam wanted to be put in touch with the exporters of cast iron cooking ranges from India.

Electrical goods.—A firm in Nairobi asked for addresses of manufacturers of electrical accessories in India.

Enamelledware.—A firm in Dar-es-Salaam wanted names of exporters of enamelled hollow ware.

Furnishing fabrics.—A firm in Moshi asked to be supplied with the addresses of manufacturers of furnishing fabrics, such as sofa covers, table covers, curtains, etc.

Flavouring essences.—A tobacco manufacturing concern in Moshi asked for addresses of exporters of essences used for flavouring tobacco.

Fishing nets.—A firm in Jinja desired to import fishing nets from India.

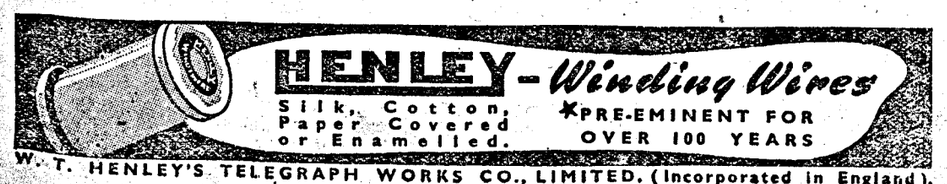

Felt.—A firm of cap manufacturers in Mombasa desired to import from India felt and inner matting used in Fez caps.

Gauze wire.—A prominent European concern in Dar-es-Salaam wished to be introduced to the manufacturers of mosquito gauze (green, copper and galvanised).

Glassware.—A firm in Mombasa wished to be put in touch with exporters of glass chimneys and globes from India.

Another firm in Nairobi asked for addresses of exporters of empty glass bottles from India.

Galvanized sheets.—A firm in Kisumu wanted to import galvanized corrugated iron sheets from India.

B. 1911 W. 27-7-43.

Hosiery.—A firm in Mombasa wished to be supplied with the addresses of manufacturers of hosiery in India.

Hoes.—A firm in Nairobi asked for addresses of manufacturers of hoes in India.

Jute manufactures.—A European firm in Nairobi wished to secure agency for jute bags, hessian and twine.

Jewellery.—A firm in Nairobi wished to be put in touch with the manufacturers of jewellery in India.

Knitting wool.—A firm in Nairobi wished to be furnished with the addresses of exporters of knitting wool from India.

Leather goods.—A European firm of manufacturers' representatives asked to be introduced to the reliable manufacturers of leather goods in India.

Linen welt thread.—A firm in Mombasa desired to import from India linen welt thread used for shoe making.

Machinery.—A firm in Nairobi asked for addresses of manufacturers of oil expelling machinery in India.

Mosquito netting.—A firm in Dar-es-Salaam asked for addresses of manufacturers of mosquito netting in India.

Matches, safety.—A firm in Zanzibar desired to establish business relations with the exporters in India of safety matches.

Musical instruments.—A firm in Dar-es-Salaam wished to import certain musical instruments from India.

Napthalene.—A firm in Dar-es-Salaam asked for addresses of manufacturers of napthalene in India.

Optical goods.—A firm in Nairobi wished to import optical glasses, etc., from India.

Patent medicines.—A firm in Nyeri (Kenya) wished to be introduced to manufacturers of patent medicines in India.

Plywood.—A European concern in Mombasa wanted to be introduced to firms supplying Indian plywood.

Piecegoods.—A large number of firms all over East Africa desired to establish connections with the exporters of piecegoods from India.

Pith hats.—A firm in Mombasa asked for names of exporters of pith hats and helmets from India.

Paints and varnishes.—A firm in Dar-es-Salaam asked to be supplied with the addresses of manufacturers of paints and varnishes.

Petromax lamps.—A firm in Zanzibar wished to be furnished with the names of exporters of spare parts for petromax lamps.

Rocksalt.—A firm in Nairobi wanted to import rocksalt from India.

Razor blades.—A firm in Mombasa wished to be put in touch with the manufacturers of razor blades in India.

Ready-made clothing.—A firm in Mombasa wanted addresses of exporters of ready-made clothing from India.

Sports goods.—A firm in Kampala asked to be put in touch with the sports goods manufacturers in India.

Suiting cloth.—A firm in Bukoba (T. T.) desired connections with exporters of summer suitings from India.

Shoe-making materials.—A firm in Mombasa asked for addresses of exporters of wooden shoe lasts and welted thread for sewing shoes, in India.

Silicate of soda.—A firm in Dar-es-Salaam asked to be put in touch with exporters of silicate of soda from India.

Shoes, boots, chappals.—A prominent firm in Nairobi desired to be put in touch with exporters of shoes, boots and chappals from India.

Seeds (flowers and vegetables).—A limited agricultural concern in Kenya wished to import flower and vegetable seeds from India.

In all the above cases, necessary information was furnished to the enquirers, through the Director-General of Commercial Intelligence and Statistics, Calcutta. In this connection, it is desirable to point out once again that much time will be saved if

enquiries from merchants in India are addressed, in the first instance, to the Director-General of Commercial Intelligence and Statistics at 1, Council House Street, Calcutta, as that office may, and ordinarily will, have on its records the information required.

Section 2.—Publicity.

One of the important functions of this office is to give publicity to the possibilities of Indian trade. With this object in view, one of the rooms in the office has been set apart exclusively for the permanent display of all kinds of goods manufactured in India, which are likely to find a market in East Africa. During the period under review, further batches of samples were received from the millowners and other manufacturers in India. Increasingly large number of local merchants have been visiting this office, from time to time, to inspect samples of Indian products, and it is understood that this method of publicity has proved to be of much value to the Indian export trade.

An attractive exhibition of goods manufactured in India was arranged by this office at Kampala in the month of June 1940. The exhibition was opened by His Excellency the Governor of Uganda. A large number of guests were invited to attend the opening and visitors to the show included Members of the Uganda Supply Board, high Government officials and prominent Indian and European merchants. Several African Chiefs and the Ministers of His Highness the Kabaka also attended the Exhibition. The Show was open to the general public and was exceptionally well attended.

A comprehensive range of goods was on view as the object of the Exhibition was to show that India could offer an excellent variety of products both cheap goods and luxuries—which could be exported in commercial quantities at competitive prices that compared favourably with those of foreign markets that had hitherto been flooding East Africa with cheap mass-produced goods. The cotton goods of India were, of course, well-known and the largest part of the Exhibition was given to their display. The cheaper qualities of mill-made goods included a large range of 'Americani' cloths which are in such large demand in East Africa but which had hitherto come mostly from Japan though India was now able to produce certain varieties on a more competitive basis than was possible formerly. Then there were voiles, plain and printed cotton materials for dresses, shirtings, heavier quality fabrics for upholstery and curtains, inexpensive mill-made *saris* and also native cotton blankets which had previously been supplied in large quantities to East Africa by German manufacturers. There was also a small display of ready-made clothing, men's cotton underwear and water-proof coats of different qualities. Among the better class products were hand-printed and hand-woven fabrics of cotton, silk or wool from the cottage industries of the United Provinces, Bihar, Hyderabad and Punjab. They included charming curtain materials in a good range of colours and designs, bedspreads, *saris*, scarves, teapoy covers, etc. Other art goods included Indian carpets and rugs, brass and silverware, ivory-in-laid tables, carved trays, sandalwood and ebonywood articles and bidarware. Hanava suitings were already popular in this country but one could see in the Exhibition the latest designs and patterns. There was also a range of khaki and grey drills, woollen suitings, pullovers and woollen underwear.

Bath and hand towels, bath mats, damasked table linen and hand-woven curtain materials formed an attractive part of the Exhibition, while other sections showed coir mattings, a variety of hardware such as bolts, locks, brass hinges, etc., and hats and helmets. There was a fine collection of leather-work such as suit cases, purses, wallets, hand bags, writing and dressing cases, holdalls, straps, hat boxes, dog collars, belts, shoes and chappals. Another section of the Show was devoted to the display of sports goods, patent medicines, disinfectants, hair oils and toilet requisites.

The Exhibition created a good deal of interest in Indian products and proved to be of considerable commercial value. Numerous enquiries for most of the articles displayed were made by the merchants, in response to which details regarding prices, etc., and names of manufacturers were supplied to the enquirers to enable them to place orders direct.

Besides the Exhibition held at Kampala, selected ranges of samples were carried from time to time, for purposes of inspection by merchants, to a number of trade centres in East Africa, *viz.*, Nairobi, Nyeri, Kisumu, Nakuru, Dar-es-Salaam, Moshi, Tanga, Arusha, Jinja, Fort Portal and Mbarara.

Propaganda and publicity for Indian goods was also carried out by means of advertisements in the various newspapers. The local representatives of some of the Indian manufacturers also co-operated in this form of publicity.

REPORT OF THE INDIAN TRADE AGENT, KABUL, ON NEW MARKETS WITH OPENINGS FOR INDIAN COMMODITIES, FOR THE MONTHS JANUARY TO MARCH 1942.

THE following is a brief account of the enquiries received and dealt with in this office in respect of articles which were for the most part obtained previously from sources other than India.

Telegraph and telephone material.—A long list of 132 items detailing the Afghan Government's requirements in respect of underground cables, terminal boxes, insulating material, instruments of various kinds and other telegraph and telephone material was received from the Ministry of Posts, Telegraphs and Telephones of the Afghan Government with the request that enquiries might be made from India regarding the availability of the material. The list was passed on to the Director-General of Commercial Intelligence and Statistics, Calcutta. A similar enquiry was received previously also from the same Ministry and was dealt with through the Director-General. A number of firms in India had expressed an interest in the enquiry and had actually submitted tenders for most of the important items but in view of the prevailing war conditions they were unable to make firm offers at fixed prices and no business therefore resulted. Most of the telegraph and telephone material at present in use in this country is of German and Swedish manufacture and in fact an order was placed by the Afghan Government with a Swedish firm of Stockholm for the whole range of articles before the outbreak of the Russo-German war. Before, however, the order could be executed Russia became involved in war with Germany and it was not therefore possible for the Stockholm firm to supply the material.

Electric goods.—A big organisation of Kabul dealing in electric goods asked for contact to be established with firms in India for the supply of electric material including transformers, copper and lead wire, insulated wire, electric flour mills with motors, resistance wire and spare iron plates for heaters. Necessary action was taken through the Director-General.

Leather goods.—The Afghan Military authorities approved of a sample of sowar saddle and accessories supplied by an Indian firm of Cawnpore and decided to purchase 500 sets of the same. Subsequently, however, due to a rise in prices they postponed the purchase indefinitely. Most of the saddles already in use were obtained from Czechoslovakia before the outbreak of war.

Paper.—The Ministry of War of the Afghan Government enquired from the British Legation regarding the supply from India of typewriting paper of large size capable of being typed on both sides. On a reference from the Legation, sources of supply from India were suggested,

MARKET REPORT ON LINSEED AND LINSEED OIL.

Indian Market Report.

Calcutta, *22nd September*—

Quotations for Linseed Oil—

Linseed oil, Calcutta Mills (Raw)	Rs. 23-0-0 per md. loose.
Linseed oil, Calcutta Mills (Boiled)	Rs. 24-0-0 per md. loose.

Summary of Market Conditions.—There has been a slight improvement in the linseed market during the week and a resumption of arrivals has begun to be felt on a small scale. This has already succeeded in decreasing artificially high rates and the tone has now been easier. Shippers and local mills, still cautious, have been offering lower rates, with a preference for ready goods.

Bombay, *2nd September*—

Quotation for Linseed Oil—

Linseed Oil	Rs. 8-2-0 per quarter.

Estimated Stocks of Linseed—

Bombay, 13th June	22,000 tons.
Hyderabad *, at the end of the first fortnight of June	3,956 tons.

SUMMARY OF EARNINGS FOR THE MONTH OF AUGUST 1942 AND WORKING EXPENSES FOR THE MONTH OF JULY 1942 OF STATE-OWNED RAILWAYS—

The total approximate gross earnings of all State-owned Railways for the month of August 1942 amounted to Rs. 10·25 crores, *i.e.*, Rs. 24 lakhs more than the actuals for the corresponding month of the previous year and Rs. 2,30 lakhs more than the corresponding month of 1940-41. Compared with the last year, coaching earnings increased by about Rs. 76 lakhs while goods earnings decreased by about Rs. 55 lakhs during the month. Other earnings, however, showed an increase of about Rs. 3 lakhs. The decrease in earnings as compared with July 1942 is due to dislocation of traffic.

The increase under coaching earnings is mainly due to enhancement of fares, more military personnel, long distance passengers and parcels. Earnings from goods show a general decrease in all commodities except in the case of kerosene oil, salt, metals, military stores, gunnies and rice. Coal shows a decrease of about Rs. 20 lakhs and metallic ores of about Rs. 11 lakhs.

The total approximate gross earnings from 1st April to 31st August 1942 amounted to Rs. 58·05 crores and are more by Rs. 7·59 crores when compared with the actuals for the same period of last year and more by Rs. 15·10 crores in comparison with the corresponding period of 1940-41.

During the month, the number of wagons loaded with goods traffic decreased by 21·4 per cent on the broad gauge and 16·0 per cent on the metre gauge as compared with 1941. From 1st April to 31st August 1942, the number of wagons loaded decreased by 15·8 per cent on the broad gauge and by 18·3 per cent on the metre gauge. The decrease is under all commodities. For details please see under "Wagon Loadings" below.

Working Expenses.—The approximate ordinary expenses including suspense but excluding appropriation to and from the depreciation reserve fund, of State-owned Railways from 1st April to 31st July 1942, are more by Rs. 1,58 lakhs than the actuals for the same period of last year. The increase is noticeable on Bengal and Assam, Bengal-Nagpur, Great Indian Peninsula and North Western Railways,

UNITED KINGDOM—INDIA TRADE AGREEMENT RULES—

Information has been received that the Government of India have decided to extend the limit of three months (subsequently raised to six months, *vide* the *Indian Trade Journal*, dated the 20th February 1941, page 459) prescribed in Rule 6(i) of the United Kingdom—India Trade Agreement Rules, 1939*, to twelve months during the period of the war. For the convenience of the trade, it is repeated here that this Rule in its original form is briefly to the effect that applications for the refund of the extra duty collected on goods which were entered for home consumption at the standard rate of duty for want of sufficient evidence as to their origin, but were entitled to the preferential rate, should be made within three months from the date of payment of the duty at the standard date.

REGULATION OF TEA EXPORTS—

The following Press Note, dated the 14th September 1942, has been issued by the Government of India in the Department of Commerce :—

As already announced by the Government of India, it has been decided to regulate the exports of tea from India to ensure equitable distribution to all consuming countries who rely on Indian tea. A scheme for purchase of exportable surplus of Indian tea through the Tea Controller will shortly be brought into force.

Meanwhile all private exports of tea from India will be prohibited from September 15 subject to the relaxation that exports against licences already granted by the Export Trade Controllers before September 15 will be allowed up to September 30, after which date there will be complete prohibition of private exports even in respect of unexpired licences.

The question of the disposal of any frustrated consignments which were purchased with export rights for shipment but are held back due to the imposition of prohibition, referred to above, is receiving the consideration of the Government of India and an announcement in this respect will be made in due course.

IMPORT TRADE CONTROL SCHEME: CONTROL OF IMPORTS OF DRUGS AND MEDICINES FROM ABROAD—

The following is a Resolution [No. 2(11)-I.T.C./42, dated the 12th September 1942] of the Government of India in the Department of Commerce :—

The Government of India have for some time been considering the question of revising the present method of control of imports of Drugs and Medicines from abroad to ensure that only the most suitable medicines and in the most suitable quantities are imported under the Import Trade Control Scheme.

They have now decided to set up for the purpose an Advisory Panel on Drugs and Medicines with the following terms of reference :—

"To advise the Government of India as to which Drugs and Medicines, other than those the formulas of which are included in the Official Pharmacopœia of the exporting countries, it is essential to import into India from abroad."

(NOTE.—The term 'Official Pharmacopœias' includes the British Pharmacopœia, the British Pharmacopœia Codex, the United States Pharmacopœia, and the National Formulary of the United States of America).

The Panel will consist of officials and non-officials and will include representatives of the drug trade and industry as well as medical and scientific experts. Its work will largely be conducted by correspondence. Ultimately, however, it will meet at the headquarters of the Government of India when the

RUBBER CONTROL ORDER, 1942: AMENDMENTS—

The following Notification [No. 279 (1)-Tr. (R)-I. E. R./42, dated the 12th September 1942] has been issued by the Government of India in the Department of Commerce :—

In exercise of the powers conferred by sub-rule (2) of rule 81 of the Defence of India Rules, the Central Government is pleased to direct that the following further amendments shall be made in the Rubber Control Order, 1942*, namely :—

1. In the said Order—

(1) in sub-clause (1) of clause 5,—

(i) for paragraphs (*a*), (*b*) and (*c*) the following paragraphs shall be substituted, namely :—

"(*a*) approve estates and dealers for the purpose of this Order and maintain a register of approved estates and dealers ;

(*b*) receive the permits sent by the manufacturers after utilisation and check them and the endorsements thereon with the copies of permits sent by the Controller of Rubber Manufactures ;

(*c*) submit to the Central Government in the Commerce Department quarterly returns on the working of this Order ;"

(2) in paragraph (*d*), clause (i) shall be omitted, and clauses (ii) and (iii) shall be renumbered as clauses (i) and (ii), respectively.

2. For clauses 6 to 8 the following clauses shall be substituted, namely :—

"6. *Business of the Committee.*

All questions which may come before the Committee at any meeting or by circulation of papers shall be decided by a majority of votes.

7. *Acquisition of Rubber by manufacturers in the Indian Market.*

(1) Any manufacturer wishing to purchase or otherwise acquire rubber in the Indian market shall apply in Form A to the Controller of Rubber Manufactures.

(2) The Controller of Rubber Manufactures may in his discretion reject any application made under sub-clause (1), in which case he shall inform the applicant, or issue to the applicant, upon payment of the fee prescribed in clause 8, a permit in Form B for the purchase of such quantity of rubber, and subject to such conditions, as he may deem fit to specify in the permit.

(3) The manufacturer to whom a permit has been issued under this clause shall have it endorsed by the approved estates or dealers from whom he purchases or otherwise acquires rubber from time to time in pursuance thereof, and after the permit has been utilised, send it to the Committee.

(4) The Controller of Rubber Manufactures shall send to the Committee a copy of every permit issued by him under this clause.

(5) Permits issued under this clause shall cease to be valid on the expiry of three months from the date of issue.

8. *Fees for permits.*

(1) There shall be paid by the manufacturer for every permit in Form B a fee at the rate of two annas and six pies for every hundred pounds, or part thereof, of rubber covered by the permit ; but the manufacturer shall be entitled to recover the amount *pro rata* from the approved estates and dealers from whom he purchases or otherwise acquires rubber from time to time in pursuance of the permit.

(2) The fee shall be credited to the accounts of the Indian Rubber Licensing Committee constituted under the Act."

3. In clause 8A, for the word and letter "Form B" the word and letters "Form BB" shall be substituted.

4. In clause 10, for the word "Committee" the words "Controller of Rubber Manufactures" shall be substituted.

5. Clause 18 shall be omitted.

ASSAM.

21st September.

The prospects and the outturn of crops are fair.

BIHAR.

7th September.

The condition of the standing crops, including sugarcane, is generally fair except in Hazaribagh. Transplanting of paddy is going on and it is finished in the districts of the Chota Nagpur division except Singhbhum.

BOMBAY.

19th September.

The crops are progressing well, except in the south-eastern areas where their condition is not satisfactory. Sowing of cotton in the Karnatak is progressing. *Rabi* tillage and other field operations continue.

CENTRAL PROVINCES.

11th September.

Sowing of *juar* on rich soil and resowing of the damaged cotton area with *juar* were in progress in the Wardha district. Harvesting of *sawan*, maize and early *kutki* was started in parts of six districts. Weeding and intercultural operations and preparation of land for *rabi* sowing were resumed where they were interrupted by the rains. The condition of standing *kharif* crops was, on the whole, satisfactory though *juar* and maize in Saugor and *juar* in parts of the Jubbulpore, Hoshangabad and Chhindwara districts are reported to have been damaged to some extent either by rain or by caterpillars.

MADRAS.

5th September.

Transplantation or sowing of paddy was proceeding generally throughout the Province and of dry crops in parts of the Deccan, the Carnatic and the Central districts. The condition of the standing crops was generally fair.

ORISSA.

14th September.

Transplantation, weeding and puddling operation of paddy are going on in the Balasore, Puri, Sambalpur and Ganjam districts. *Bhadoi* rice and *mandia* are ripening in the Cuttack district. *Biali* paddy is in ears in the Balasore district and *biali*, maize and *til* are being harvested in the Puri district. *Saradh* paddy, sugarcane, groundnut and *til* in the Cuttack district; sugarcane and vegetable crops in the Balasore district; jute, groundnut, sugarcane and *arhar* in the Puri district; and paddy, *ragi*, gingelly, maize, redgram, *suma*, sugarcane and groundnut in the Koraput district, are thriving. Cotton is in flowers and pods in the Puri district. Harvesting of early *ragi* has commenced in the Berhampur division and harvesting of the maize crop is nearing completion in Khondmals.

PUNJAB.

14th September.

The condition of the standing crops is generally average to above average. The standing crops have been damaged by rains in Karnal, Ambala and parts of Ludhiana and by floods in parts of Hissar, Rohtak, Gurgaon, Karnal, Ambala, Ludhiana and Muzaffargarh.

SIND.

19th September.

Pickings of early-sown cotton and harvesting of rice continue. *Jowar* and *bajri* are in ears. Lands are being prepared for *rabi* crops. Red-leaf disease on cotton continues.

UNITED PROVINCES.

12th September.

Slight damage to crops due to rain and consequent floods is reported from the low-lying tracts of the Aligarh, Mainpuri, Etah and Budaun districts. Preparation of land for *rabi* is still in progress in most districts. Harvesting of *kharif* crops continues. The condition of the standing crops and the prospects are, on the whole, satisfactory.

INTERMEDIATE CROP REPORTS.

FIRST INTERMEDIATE REPORT ON THE COTTON CROP, 1942-43.

Bombay.

Since the issue of the last report in August, the cotton crop suffered in growth in many areas in Gujarat and the Deccan, but it is now improving. Weeding and interculturing operations are in progress. In the Karnatak, sowing was done in time in the western areas, but it was delayed in the eastern tracts owing to deficient soil moisture. Germination and the general condition of the crop are satisfactory. *Aphis*, stem-borer and red-leaf blight attacks on early-sown cotton are reported from places, but the damage has not been serious.

North-West Frontier Province.

Since the issue of the August forecast there has been no change in the total area sown with cotton. The prospects of the crop are average.

FIRST INTERMEDIATE REPORT ON THE SUGARCANE CROP, 1942-43.

Bombay.

The sugarcane crop is in fairly good condition generally and is free from disease, except for red-rot in places in Gujarat. The crop in the Sholapur district is suffering for want of sufficient irrigation water.

North-West Frontier Province.

Since the issue of the August forecast, there has been no change in the total area planted with sugarcane. Prospects of the standing crop are average. Rainfall during August 1942 proved beneficial to the crop.

CROP FORECAST.

(*ALL-INDIA*)

FIRST SUGARCANE FORECAST, 1942-43.

(*Calcutta, September 4, 1942.*)

This forecast is based on reports received from provinces and States which contain, on an average, a little over 96 per cent of the total area under sugarcane in India. The reports relate generally to conditions up to the end of July.

The total area planted with sugarcane this year is estimated at 3,642,000 acres, as against 3,565,000 acres, the corresponding revised area of last year, or an increase of 2 per cent.

Weather conditions at the time of planting were generally favourable, and the present condition of the crop appears to be good on the whole.

The details for the provinces and States are as follows :—

Provinces and States	1942-43	1941-42	Increase (+) or Decrease (—)

(a) Revised.

The provincial reports are summarised below. The figures in brackets following the name of each province or State indicate the average percentage of sugarcane area in that tract to the total area under sugarcane in India based on the figures for the five years ending 1940-41.

United Provinces (52·9 per cent).—The area planted with the crop is estimated at 1,916,000 acres, as against 1,800,000 acres at the corresponding time last year. The increase is attributed to high price of *gur* (raw sugar) and favourable weather conditions at planting time. Plantings generally commenced in time and germination was good on the whole. Manuring and weeding operations have been carried out properly. Prospects so far are favourable, although hot winds, insects and whiteants are reported to have caused slight damage to the crop. The average outturn of the crop is at present estimated at 90 per cent of the normal, as against the past ten years' average of 80 per cent.

The area in the Rampur State is reported to be 30,000 acres, as compared with 34,000 acres at the corresponding time last year.

Punjab (11·6 per cent).—The area is estimated at 475,000 acres, as against 505,000 acres, the corresponding estimate of last year. Compared with the actual area of last year, the present estimate, however, shows an increase of 4 per cent which is attributed to the rise in the price of *gur* (raw sugar). Rains received in June and July proved beneficial to the standing crop. The condition of the crop as a whole is now estimated at 98 per cent of the normal.

Bihar (10·5 per cent).—The area planted is estimated at 401,000 acres, as against 380,000 acres, the corresponding area of last year. Weather conditions have so far been favourable; and the average outturn of the crop for the province, according to the returns of the District Officers, is estimated at 83 per cent of the normal, as against the past ten years' average of 92 per cent. This means that the yield of this year's crop will probably be 90 per cent of the past ten years' average.

Bengal (7·8 per cent).—The total area planted with sugarcane is estimated at 299,000 acres, as against 316,000 acres, the corresponding area of last year. Weather conditions at planting time and during the early stage of the growth of the crop were not quite favourable owing to drought. The crop is, however, reported to be improving.

Bombay (3·3 per cent).—The information is incomplete and relates to estimates up to 1st August, 1942. The area so far reported comes to 147,000 acres (45,000 acres being in the Indian States), which is practically the same as reported at this time last year. In Gujarat, the crop is reported to be in a fairly good condition. In the Deccan, the crop in its early stage suffered slightly from tip-burn, but it improved under rains received in July. In the Karnatak also, the crop suffered in the beginning owing to deficient soil-moisture, but subsequently it improved under good rains and is now reported to be progressing well. The condition of the crop in the Konkan is reported to be good except in the lowlying areas in the Kanara district where the growth of the crop has been affected by continuous heavy rains.

Madras (3 per cent).—The area planted up to 25th July, 1942, is estimated at 98,000 acres, as compared with 91,000 acres at the corresponding period of last year. The increase is almost general and is attributed to high price of jaggery. The condition of the crop is reported to be satisfactory except in the district of South Arcot where the crop has been affected by drought to some extent.

North-West Frontier Province (1·7 per cent).—The area is estimated at 81,000 acres, as against 93,000 acres at the corresponding period of last year. The decrease is attributed to greater attention being paid to the cultivation of other food crops. The condition of the standing crop is reported to be average.

Assam (1 per cent).—The area is estimated at 41,000 acres, which is practically the same as at this time last year. The weather was not generally favourable in the beginning but it improved subsequently to some extent. The average outturn of *gur* (raw sugar) for the province is estimated at 81 per cent of the normal, the same as reported at this time last year.

Orissa (0·8 per cent).—The area planted is estimated at 32,000 acres, as against 31,000 acres at this time last year. Weather conditions have been favourable and the average outturn for the province as a whole is estimated at 89 per cent of the normal, as against 95 per cent reported at this time last year.

Central Provinces and Berar (0·8 per cent).—The area is estimated at 29,000 acres, as against 33,000 acres, the corresponding area of last year. The months of November and December, 1941, were practically rainless. Light to heavy rain followed by hailstorms fell at intervals during the next three months, while April and May were almost rainless except for some scattered showers. The regular monsoon set in after the middle of June and yielded ample rain till the end of July. The condition of the crop is reported to be quite satisfactory.

Sind (0·2 per cent).—The area is estimated at 9,000 acres (including 200 acres in the Khairpur State), which is practically the same as reported at this time last year. The crop is reported to be progressing well and no damage by pest or disease has been reported so far.

Delhi (0·1 per cent).—The area is estimated at 1,000 acres, which is practically the same as at this time last year. The season has been favourable and the general condition of the crop is reported to be fair.

Mysore (1·2 per cent).—This is the first time that a forecast of the crop has been prepared by the State in August. The area is now estimated at 42,000 acres, as against 46,000 acres, the corresponding area of last year.

Hyderabad (1 per cent).—The area so far reported comes to 27,000 acres, as compared with 22,000 acres reported at this time last year. The condition of the crop is reported to be generally fair.

Bhopal* (0·2 per cent).—The area under the crop is estimated at 8,000 acres, as against 9,000 acres reported at this time last year. The condition of the crop is reported to be generally good.

Baroda (0·1 per cent).—The area is estimated at 4,000 acres, which is practically the same as at this time last year.

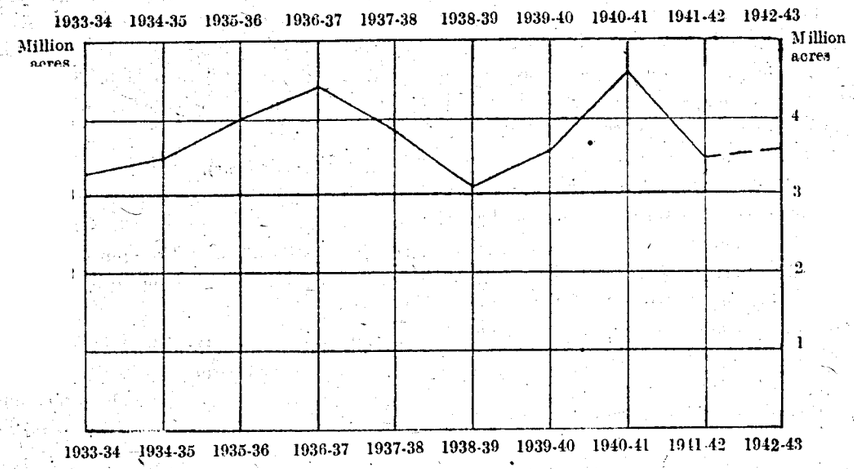

Jaora* (0·1 per cent).—This is the first time that information relating to the state has been included in the all-India memorandum. The area planted with sugarcane this year is estimated at 2,000 acres, as against 3,000 acres, the corresponding area of last year.

Chart.—The chart below shows the variations in the preliminary estimate of area now made with the final figures of the preceding nine years.

AREA OF SUGARCANE

(In million acres)

Sugar in Foreign Countries.—From the latest information received from the Director of the Imperial Institute of Sugar Technology, India, Cawnpore, it appears that the **World's production** of cane sugar during 1941-42, as estimated by Messrs. Willett & Gray, is 18,870,000 tons, as compared with 19,119,000 tons in the preceding season. In **Cuba**, according to the latest estimates, the 1941-42 sugar crop is expected to amount to approximately 3,800,000 tons, raw value, which will be the largest since 1929-30. In **Louisiana (U. S. A.),** the production of sugar during 1942-43 is estimated approximately at 500,000 short tons (446,000 tons), raw value, as against 323,000 short tons (288,000 tons) in the preceding season. In the **Hawaiian Islands,** the latest estimate of sugar production during 1941-42 is placed at 750,000 tons, as against 865,000 tons in the preceding season. In **Porto Rico,** the production of sugar during 1941-42 is expected to amount to 1,200,000 short tons (1,071,000 tons). In **Dominican Republic,** the production of sugar during 1941-42 is estimated at 475,000 tons, raw value, as compared with 394,000 tons in the preceding season. In **Peru,** the production of sugar during 1941-42 is expected to amount to 433,000 tons, raw value, as compared with 424,000 tons in the preceding season. In **Japan,** the production of sugar during 1941-42, is estimated at 1,270,000 tons, as against 981,000 tons in the preceding season. In the **Philippine Islands,** the production of sugar for 1941-42 is estimated at 1,042,000 tons, as compared with 1,028,000 tons in the preceding season. In **Java,** the production of the 1941 sugar crop amounted to 1,678,000 tons. In **Mexico,** the production of sugar during 1941-42 is estimated to range between 400,000 metric tons (394,000 tons) and 440,000 metric tons (433,000 tons). In **Brazil,** the production of sugar during 1941-42 is estimated at 1,257,000 tons, as compared with 1,142,000 tons in the preceding season. In **Australia,** the production of sugar for the 1941-42 season is placed at 785,000 tons, as compared with 809,000 tons in the preceding season. In **Natal,** the production of sugar for the 1941-42 season is estimated at 402,000 tons, raw value, as against 514,000 tons in the previous season.

In the **United States of America,** the acreage planted to beet during 1941 totalled 795,000 acres, while the intention to increase the planting in 1942 by 23·6 per cent is indicated. On the basis of the average abandonment, the harvested acreage under beet during the current year is expected to be about 907,000 acres, as compared with 757,000 acres in 1941.

Use of Old Packing Materials for Despatch of Government Consignments.

Old Packing Cases and other packing materials are very often used by Contractors when despatching Consignments *by passenger trains* against contracts placed by the Department of Supply, without obliterating old markings. The presence of such old markings causes delay and confusion in identifying consignments on arrival at destination. It is, therefore, essential that when using old packing cases and packing materials, Contractors will take special care to ensure that all old stencil or other markings are obliterated before handing over the consignments to Railways.

SUPPLEMENT TO THE "INDIAN TRADE JOURNAL", JULY 9, 1942.

INDIAN CUSTOMS TARIFF.

Note 1.—In the expression "ad valorem" used in these Schedules the reference is to "real value" as defined in section 30 of the Sea Customs Act, 1878 (VIII of 1878), unless an article has a tariff value assigned to it.

Note 2.—The tariff value specified in the second column of the First Schedule shall, unless otherwise expressly provided, apply whether the article is assessed to duty under the item specified in the corresponding entry in the first column or under any other item.

Note 3.—The description of tariff-valued articles in the second column follows the ordinary trade description and covers all reduced grades and mixtures unless they are specially provided for.

Note 4.—In this publication, the expression "standard rate of duty" means, in the case of articles liable to preferential rates of duty, the standard rate of duty as opposed to the preferential rate, and in the case of other articles, the ordinary rate of duty.

Note 5.—Postal parcels, packets and letters on whose contents the total duty payable is not more than 12 annas, are exempt from payment of import duty.

Note 6.—The expression "Far East" covers China, including Hongkong and Macão, Japan and the Japanese Empire, the Straits Settlements, Malaya, Thailand, French Indo-China, the Netherlands East Indies, Sarawak, British North Borneo, the Philippines, Burma and Ceylon.

THE CONTROL OF IRON AND STEEL (No. 18) ORDER, 1941.

STATUTORY RULES AND ORDERS, 1941, No. 2031.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Iron and Steel).

The Control of Iron and Steel (No. 18) Order, 1941, dated December 31, 1941, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made:

Now, therefore, the Minister of Supply in exercise of the powers conferred on him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows:—

1. The Control of Iron and Steel (No. 15) Order, 1941(a), as varied by the Control of Iron and Steel (No. 16) Order, 1941(b), and the Control of Iron and Steel (No. 17) Order, 1941(c), is hereby further varied—

(*a*) in the First Schedule thereto, by substituting for the words "Molybdenum Metal", the words "Molybdenum Metal in powdered or sintered form", and by substituting for the words "Tungsten Metal", the words "Tungsten Metal in powdered or sintered form";

(*b*) in the Third Schedule thereto, by deleting the items (iv), (v), (vi) and (vii);

(*c*) in the Fourth Schedule thereto, by inserting at the end thereof the following new categories:—

Category.	Description.	Quantity.	Value.
"(xvi)	Tinplate	1 ton 6 cwts. or 13 double boxes.	£40
(xvii)	Terneplate	Do.	"
(xviii)	Blackplate	Do.	"
(xix)	Silver-finished plate.	Do.	"; and

(*d*) in the Related Schedules, by revoking those numbered 1, 13, 14, 22, 26, 27, 28, 29, 30, 31, 32, 33, 36, 64, 66, 78, and 80, respectively, and substituting therefor Eighteen further Related Schedules lodged with the Minister of Supply for the purpose of the Order, certified by him in accordance with paragraph (1) of Article 8 of the Order, and numbered 98 to 115 respectively inclusive.

2. This Order shall come into force on the 5th day of January, 1942; and may be cited as the Control of Iron and Steel (No. 18) Order, 1941, and this Order and the Control of Iron and Steel (Nos. 15-17) Orders, 1941, may be cited together as the Control of Iron and Steel (Nos. 15-18) Orders, 1941.

Dated this 31st day of December, 1941.

GENERAL LICENCE UNDER THE FEEDING STUFFS (LICENSING AND CONTROL) ORDER, 1941, THE FEEDING STUFFS CONTROL (NORTHERN IRELAND) ORDER, 1941, AND THE MILLED WHEATEN SUBSTANCES (RESTRICTION) ORDER, 1940, ETC.

STATUTORY RULES AND ORDERS 1941, No. 2063.

EMERGENCY POWERS (DEFENCE).

Food (Feeding Stuffs and Milled Wheaten Substances)—General Licence and Directions.

General Licence under the Feeding Stuffs (Licensing and Control) Order, 1941, the Feeding Stuffs (Control) (Northern Ireland) Order, 1941, and the Milled Wheaten Substances (Restriction) Order, 1940; and Directions under Regulation 55 of the Defence (General) Regulations, 1939. Dated December 18, 1941.

IN exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, and of all other powers him enabling the Minister of Food hereby Orders and Directs as follows:—

1. In this Order:—

(*a*) "The Minister" means the Minister of Food.

(*b*) "Compound or mixed feeding-stuff" has in Great Britain the same meaning as in the Compound and Mixed Feeding Stuffs (Control) (No. 2) Order, 1940(a), as amended (b); and in Northern Ireland the same meaning as in the Second Principal Order.

(a) S.R. & O. 1940 No. 1119.
(b) S.R. & O. 1940 Nos. 1748 and 2005, and 1941 Nos. 270, 994, 1651 and 1934.

"Feeding-stuffs manufacturer" means in Great Britain a person authorised under Article 2 of the Feeding Stuffs (Control of Manufacture) Order, 1941(a), to engage in the manufacture or preparation by way of trade of any compound or mixed feeding-stuff, and who is also the holder of a licence as a wholesale dealer or distributing dealer under the First Principal Order and means in Northern Ireland, a person authorised under Article 2 of the Second Principal Order, both to manufacture or prepare for sale and to sell or supply any compound or mixed feeding-stuff.

"Flour sweepings" means any milled wheaten substances which, having been accidentally spilt from flour bags in the ordinary course of trade, have become unfit for use in the manufacture or preparation of any article of food.

"Sack shakings" means the residue of any milled wheaten substances extracted from flour bags which have previously been emptied so far as is practicable in the ordinary course of emptying flour bags.

"The First Principal Order" means the Feeding Stuffs (Licensing and Control) Order, 1941(b).

"The Second Principal Order" means the Feeding Stuffs (Control) (Northern Ireland) Order, 1941(c).

"The Third Principal Order" means the Milled Wheaten Substances (Restriction) Order, 1940(d), as amended (e).

2. (1) Pursuant to Article 2 of the First Principal Order, Article 2 of the Second Principal Order and Article 2 of the Third Principal Order, the Minister hereby authorises any person to sell to any feeding stuffs manufacturer and any feeding-stuffs manufacturer to buy from any person any flour sweepings or sack shakings for use in the manufacture or preparation of any compound or mixed feeding-stuff.

(2) Pursuant to Article 2 of the Third Principal Order the Minister hereby authorises

(*a*) any feeding-stuffs manufacturer to use in the manufacture or preparation of any compound or mixed feeding-stuff any flour sweepings or sack shakings;

(*b*) any feeding-stuffs manufacturer to use in the manufacture or preparation of any compound or mixed feeding-stuff any damaged flour bought by him for that purpose from or under the authority of the Minister.

3. A feeding stuffs manufacturer who has bought any flour from or under the authority of the Minister for use in the manufacture or preparation of any compound or mixed feeding-stuffs, or who has by virtue of Article 2 of this Order bought any flour sweepings or sack shakings shall not, except under the authority of the Minister, use such flour, flour sweepings or sack shakings for any purpose except for the manufacture or preparation of compound or mixed feeding-stuffs, and shall not sell or otherwise dispose of such flour, flour sweepings or sack shakings.

4. Nothing in this Order shall operate to relieve any person from any restriction imposed by or under any Order made or to be made by the Minister, other than the First Principal Order, the Second Principal Order or the Third Principal Order.

By Order of the Minister of Food.

Dated the 18th day of December 1941.

THE CONTROL OF PAPER (No. 38) ORDER, 1941.

STATUTORY RULES AND ORDERS 1941, No. 2064.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Paper).

The Control of Paper (No. 38) Order, 1941, dated December 18, 1941, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made:—

Now therefore the Minister of Supply in exercise of the powers conferred upon him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows:—

1. No printer shall dispose or offer to dispose of any stripping or reel end produced in the course of printing or of any waste paper so produced except to a local authority, an authorised merchant or an authorised producer of paper.

2. No local authority shall dispose or offer to dispose of any stripping or reel end produced in the course of printing or of any waste paper so produced except to an authorised merchant or an authorised producer of paper.

3. No authorised merchant, who after the date of the coming into force of this Order has acquired any stripping or reel end produced in the course of printing

or any waste paper so produced, shall dispose or offer to dispose of it except to an authorised producer of paper.

4. Notwithstanding the provisions of Articles 1, 2 and 3 of this Order, the Minister of Supply, if it is proved to his satisfaction that special circumstances exist, may by a licence granted or special or general direction issued by him authorise the doing of any act which would otherwise be prohibited by those Articles.

5. Any strippings and reel ends produced in the course of printing, which have not been disposed of by a printer before the date of the coming into force of this Order, shall be deemed for all the purposes of this and any other Order for the Control of Paper to be waste paper.

6. In this Order :

(*a*) the expression "local authority" has the meaning assigned to it by section 30 of the Local Government Act, 1933(a);

(*b*) the expressions "stripping" and "reel end" have respectively the meanings which they are customarily given in the printing trade, and in particular (but without prejudice to the generality of the foregoing) shall include any paper removed from the reel by a printer on account of damage sustained in transit or otherwise;

(*c*) the expressions "authorised merchant", "paper", "producer of paper", "dispose of", "offer to dispose of" and "acquire" have respectively the meanings assigned to them by Article 9 of the Control of Paper (No. 33) Order, 1941(b); and

(*d*) the expression "authorised producer of paper" means any producer of paper who is authorised to acquire waste paper by a licence granted or a special or general direction issued by the Minister of Supply pursuant to the provisions of Article 4 of the Control of Paper (No. 33) Order, 1941.

7. This Order shall come into force on the 23rd day of December, 1941, and may be cited as the Control of Paper (No. 38) Order, 1941.

Dated this 18th day of December, 1941.

H. J. HUTCHINSON,
Under-Secretary, Ministry of Supply.

Food (Home Grown Wheat).

Order, dated December 23, 1941, amending the Home Grown Wheat (Control and Prices) Order, 1941.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, and of all other powers him enabling, the Minister of Food hereby makes the following Order :—

1. The Home Grown Wheat (Control and Prices) Order, 1941(a), as amended (b) (hereinafter referred to as the "Principal Order"), shall be further amended,

(*a*) by inserting after Article 2 thereof the following Article :—

"2A. (1) No grower shall sell or offer or agree to sell to an approved buyer and no approved buyer shall buy or offer or agree to buy from a grower any wheat as non-millable wheat unless it shall have been certified as non-millable by a Local Wheat Committee.

(2) No approved buyer shall use or sell or offer or agree to sell as non-millable wheat any wheat purchased by him as millable or potentially millable unless it shall have been certified as non-millable by a Local Wheat Committee."

(*b*) by substituting for Article 3 thereof the following Article :—

"3. If in relation to a sale or proposed sale of any wheat by a grower to an approved buyer or by one approved buyer to another approved buyer any difference shall arise between the buyer and seller as to whether the wheat is millable, potentially millable or non-millable the matter shall be referred to the Local Wheat Committee in whose area the wheat is situate and the decision of that Committee as to whether the wheat is millable, potentially millable or non-millable shall be final and conclusive"; and

(*c*) by substituting for Part I of the Second Schedule thereto the Schedule to this Order.

2. (1) This Order shall come into force on the 1st day of January, 1942.

(2) Copies of the Principal Order to be printed under the authority of His Majesty's Stationery Office after the date of the coming into force of this Order shall be printed with the amendments provided for by this Order and the Principal Order shall take effect as hereby amended.

THE CONTROL OF TIMBER (No. 21) ORDER, 1941.

STATUTORY RULES AND ORDERS, 1941, No. 2088.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Timber).

The Control of Timber (No. 21) Order, 1941, dated December 24, 1941, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made:

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows:—

Acquisition and Disposal.

1. (1) No person shall acquire or agree or offer to acquire any timber, plywood, boxboards or veneer; except under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

(2) No person shall dispose of or agree or offer to dispose of any timber, plywood, boxboards or veneer; except under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply:

Provided that no licence or direction shall be required for the disposal or agreement or offer to dispose of any timber, plywood, boxboards or veneer to a person who is authorised to acquire that material by virtue of a licence granted by the Minister of Supply.

(3) A licence granted under this Article may set out any material in respect of which it is granted under one or more "Group Numbers"; and may also set out as one or more "Hardwood Selections" any imported hardwoods in respect of which it is granted and which are not already comprised in a "Group Number" in that licence.

Treatment Use and Consumption.

2. (1) No person shall treat use or consume any timber, plywood, boxboards or veneer; except (*a*) by barking or peeling, drying, seasoning or treating with preservative, or (*b*) under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

(2) No person who has obtained a licence to treat use or consume any timber, plywood, boxboards or veneer shall treat use or consume that timber, plywood, boxboards or veneer for any purpose other than that stated in his application for that licence.

Prices: Generally.

3. No person shall buy or sell or agree or offer to buy or sell any timber or plywood: unless a price shall have been provided therefor by or under the provisions of this Order.

Prices: Imported Timber.

4. (1) No person shall buy or sell or agree or offer to buy or sell any imported timber (not being timber certified under Article 8 of this Order as "recovered—unclassified"), at any price other than the fixed price provided therefor by this Article read in conjunction with Article 7 of this Order, nor upon any terms not provided for in that fixed price: except such additional terms as are allowed under and in accordance with the provisions of the Fourth Schedule to this Order, and such other terms as may be permitted under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

(2) The fixed price provided by this Article for any imported timber (not being timber certified under Article 8 of this Order as "recovered—unclassified"), is—

(*a*) in the case of such imported timber which is described in the First Schedule to this Order and is not certified as mentioned in sub-head (*b*) (i) of this paragraph—the fixed price for timber of that description ascertained from the appropriate Part of that First Schedule in accordance with the "Instructions for Ascertaining Fixed Prices" contained in the appropriate Division of that Part of that First Schedule (the appropriate Part being

Part I in the case of such imported timber which either is not National Stock or is exempt National Stock, and

Part II in the case of such imported timber which is National Stock other than exempt National Stock).

(*b*) in the case of such imported timber which is either—

(i) certified by the Minister of Supply as "timber of inferior quality, condition, manufacture or specification", or as "logs of exceptionally large dimensions or of exceptional quality", or (whether or not already set out in a licence granted under Article 1 of this Order as one or more "Hardwood Selections") as "converted timber selected to exceptional dimensions or quality or both", or

(ii) not described in that First Schedule—

either such price as (having regard to the dimensions and quality of the timber shall, before either the sale or the delivery of that timber is made, have been submitted by the prospective buyer and the prospective seller to, and approved by, the Minister of Supply; or such price as the Minister of Supply shall, upon application made to him or otherwise, fix.

Prices: Plywood.

5. (1) No person shall buy or sell or agree or offer to buy or sell any plywood (not being plywood certified under Article 8 of this Order as "recovered—unclassified"), at any price other than the fixed price provided therefor by this Article read in conjunction with Article 7 of this Order, nor upon any terms not provided for in that fixed price: except such additional terms as are allowed under and in accordance with the provisions of the Fourth Schedule to this Order, and such other terms as may be permitted under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

(2) The fixed price provided by this Article for any plywood (not being plywood certified under Article 8 of this Order as "recovered—unclassified"), is—

(*a*) in the case of such plywood which is described in the Second Schedule to this Order and is not certified by the Minister of Supply as "plywood of inferior quality, condition, manufacture or specification"—the fixed price ascertained from that Second Schedule, in accordance with the "Instructions for Ascertaining Fixed Prices" contained therein, for plywood of that description; and

(*b*) in the case of such plywood which is either—

(i) certified by the Minister of Supply as "plywood of inferior quality, condition, manufacture or specification", or

(ii) not described in that Second Schedule—

such price as the Minister of Supply shall, upon application made to him or otherwise, fix.

(3) Nothing in this Article shall prohibit or restrict any sales to merchants by holders of "Trading Quotas" issued by the Minister of Supply in respect of plywood, at reduced prices to the extent provided in such "Trading Quotas".

Prices: Home-Grown Timber.

6. (1) No person shall buy or sell or agree or offer to buy or sell any home-grown timber (not being timber certified under Article 8 of this Order as "recovered—unclassified"), at any price exceeding the maximum price provided therefor by this Article; nor upon any terms not provided for in that maximum price: except such additional terms as are allowed under and in accordance with the provisions of the Fourth Schedule to this Order, and such other terms as may be permitted under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

(2) The maximum price provided by this Article for any home-grown timber (not being timber certified under Article 8 of this Order as "recovered—unclassified") is, subject to paragraph (3) of this Article—

(*a*) in the case of such home-grown timber which is described in the Third Schedule to this Order and which is not also either timber of exceptionally large dimensions or timber for which a maximum price is provided under the provisions of head (*c*) of this paragraph—the maximum price ascertained from that Third Schedule, in accordance with the "Instructions for Ascertaining Maximum Prices" contained therein, for home-grown timber of that description;

(*b*) in the case of such home-grown timber which, not being timber for which a maximum price is provided under the provisions of head (*c*) of this pragraph, is either—

(i) timber which though described in that Third Schedule is nevertheless timber of exceptionally large dimensions, *or*

(ii) timber not described in that Third Schedule—either such price as (having regard to the dimensions and quality of the timber) shall, before either the sale or the delivery of that timber is made, have been submitted by the prospective buyer and the prospective seller to, and approved by, the Minister of Supply; or such price as the Minister of Supply shall, upon application made to him or otherwise, provide; and

(*c*) in the case of such home-grown timber being timber which both—

(i) the owner of a coal mine in respect of which there has not, on or at any time after the day on which this Order comes into force, been any "coal supply", or the owner of a coal mine situate in the County of Monmouth, Glamorgan, Pembroke, Carmarthen or Brecon, or the owner of any mine not being a coal mine, is buying for use underground in that mine for propping or shoring purposes or for pit sleepers, and

(ii) is delivered either at that mine or at the place usual for the seller to deliver to for that mine—

subject to the proviso under this head, the aggregate of

(i) the maximum price that would have been provided for that timber by head (*a*) or (*b*) (as the case may be) of this paragraph, and

(ii) the aggregate amount (if any) up to a limit not exceeding the rate of 10*s*. 0*d*. per ton (or such higher limit as shall in any particular case have been submitted by the prospective buyer and the prospective seller to, and approved by, the Minister of Supply), by which any charge for carriage only by rail or sea or both in respect of such delivery to mine or usual place aforesaid as the case may be, exceeds the rate of 15*s*. 0*d*. per ton of the timber so delivered :

Provided that in respect of any timber which is to be priced under this head of this paragraph, an invoice shall be given showing separately each of the above two items.

(3) In each of the cases following the maximum price provided by this Article for any home-grown converted softwoods or home-grown converted hardwoods may be the price stated therefor in each case, that is to say :—

(*a*) when the seller is the occupier of a certified port-city mill and has in that mill converted the softwood or hardwood into the form in which it is sold—the maximum price provided by paragraph (2) of this Article, increased by up to 40 per centum in the case of softwood, and by up to 30 per centum in the case of hardwood ;

(*b*) when the seller is the occupier of a certified town mill and has in that mill converted the softwood or hardwood into the form in which it is sold—

(i) if the quantity ordered is 20 cubic feet or more—the maximum price provided by paragraph (2) of this Article, increased by up to 25 per centum in the case of softwood, and by up to 20 per centum in the case of hardwood ; and

(ii) if the quantity ordered is less than 20 cubic feet—the maximum price provided by paragraph (2) of this Article, increased by up to 50 per centum in the case of softwood, and by up to 40 per centum in the case of hardwood ;

(*c*) when the seller is the occupier of a country mill or a portable mill or any other mill not referred to in case (*a*) or (*b*) and has in that mill converted the softwood or hardwood into the form in which it is sold, and the quantity ordered is less than 20 cubic feet—the maximum price provided by paragraph (2) of this Article, increased by up to 25 per centum in the case of softwood, and by up to 20 per centum in the case of hardwood ; and

(*d*) when the seller is a retailer who does not proceed under case (*a*) or (*b*) or (*c*)—

(i) if the quantity ordered is 20 cubic feet or more—the maximum price provided by paragraph (2) of this Article, increased by up to 25 per centum in the case of softwood, and by up to 20 per centum in the case of hardwood ; and

(ii) if the quantity ordered is less than 20 cubic feet—the maximum price provided by paragraph (2) of this Article increased by up to 50 per centum in the case of softwood, and by up to 40 per centum in the case of hardwood.

Prices : Group Numbers (Imported Timber and Plywood).

7. Where a licence granted under Article 1 of this Order sets out in a "Group Number" any imported timber or any plywood in respect of which it is granted, and "Fixed *Basis* Prices" have been provided under Article 4 or 5 for all the material comprised in that Group Number and do not in the aggregate attain £15, those "Fixed *Basis* Prices" shall be increased by 20 per centum.

Prices : "Recovered—unclassified" (Imported and Home-Grown Timber and Plywood).

8. (1) The Minister of Supply may certify any timber or plywood, being

(*a*) timber or plywood obtained from the destruction, demolition or breaking up of any structure or article, or

(*b*) timber or plywood which having been utilised for any purpose has thereby deteriorated, or

(*c*) slabs or off-cuts produced in any sawmill in the United Kingdom,

as "recovered—unclassified".

(2) No person shall buy or sell or agree or offer to buy or sell any "recovered—unclassified" timber or plywood at any price exceeding the maximum price provided therefor by this Article, that is to say :—either such price as (having regard to the description of the timber or plywood and its dimensions and quality) shall, before either the sale or the delivery of that timber or plywood is made, have been submitted by the prospective buyer and the prospective seller to, and approved by, the Minister of Supply ; or such price as the Minister of Supply shall, upon application made to him or otherwise, provide.

Records and Inspection of Premises.

9. Every person carrying on any undertaking which involves the production, treatment, keeping, storage, distribution, disposal, acquisition, use or consumption of any timber, plywood, boxboards or veneer shall, in addition to any books, accounts or other records which he may be required to keep under any other Order—

(*a*) keep a record in which there shall be entered by that person particulars of every transaction relating to the acquisition or disposal by him of any timber, plywood, boxboards or veneer or any agreement by him to acquire or dispose of any timber, plywood, boxboards or veneer, which particulars shall show the name and address of the other party to the transaction, the description of the timber, plywood, boxboards or veneer forming the subject matter of the transaction, the quantity acquired or disposed of or agreed to be acquired or disposed of, and the price at which any sale or purchase (as the case may be) was made or agreed to be made (as the case may be) ; and

(*b*) upon being requested so to do either by notice served upon him or by special or general direction issued by the Ministry of Supply—permit such person, or a person of such class or description, as may be mentioned in the notice or direction to enter and inspect, with a view to securing compliance with this Order, any premises used for or in connection with that undertaking.

Exemptions.

10. (1) Nothing in this Order shall prohibit or restrict any person from buying or selling or agreeing or offering to buy or sell at any price any imported unpeeled logs produced from wood grown in Eire or France or Portugal (which logs are commonly known in the South Wales coal trade as "pitwood") which shall have been imported through a Port in the County of Monmouth, Glamorgan, Pembroke or Carmarthen for use in any Coal Mine situate in any of those counties or in the County of Brecon.

(2) Notwithstanding anything contained in Article 3, 4, 5, 6, 7 or 8 of this Order : in any proceedings in respect of any purchase or sale of any timber or plywood or any agreement or offer to purchase or sell any timber or plywood in alleged contravension of any provision of any of those Articles, it shall be a defence if the defendant shall prove either—

(*a*) that the timber or plywood was situate outside the United Kingdom at the time at which the purchase or sale or agreement or offer (as the case may be) was made or, if the agreement or offer did not relate to specific material, that no timber or plywood situate or to be situate in the United Kingdom at the time of appropriation was or was intended to be appropriated to the agreement or proposed agreement ; or

(*b*) that the timber or plywood was not delivered and was not intended to be delivered to any person in the United Kingdom other than a person under an obligation to carry that timber or plywood on behalf of the purchaser thereof to a place outside the United Kingdom.

(3) Nothing in Article 3, 4, 5, 6, 7 or 8 of this Order shall prohibit or restrict the entering into and carrying out of any transaction between the Minister of Supply and any other person at such price as may be agreed between the Minister of Supply and that person.

(4) The provisions of this Order shall not apply in relation to the timber or plywood or boxboards or veneer comprised in any individual retail sale made at a price not exceeding £1 to a purchaser who has not during the calendar month in which that sale was made acquired any timber or plywood or boxboards or veneer.

(5) Nothing in this Order shall apply to—

(*a*) any acquisition or purchase by, or disposal or sale to, a producer of paper, of any wood (not being wood grown in the United Kingdom) for use by him as pulp wood in the production of paper by him(a) ; or

(*b*) to any treatment use or consumption of any wood by any producer of paper as pulp wood in the production of any paper by him(a).

(6) For the purposes of this Order : where any material is acquired by or disposed of to a carrier or warehouseman or servant or processor acting in the ordinary course of his business or employment as such, that material shall be deemed to be acquired by or disposed of to the person on whose behalf or to whose order the carrier or warehouseman or servant or processor so acquires that material and not by or to the carrier or warehouseman or servant or processor ; and where any material is acquired from or disposed of by a carrier or warehouseman or servant or processor acting as aforesaid, that

(a) *See* the Control of Paper Orders made by the Minister of Supply.

material shall be deemed to be acquired from or disposed of by the person on whose behalf or by whose order the carrier or warehouseman or servant or processor so disposes of that material and not from or by the carrier or warehouseman or servant or processor.

Licences.

11. (1) The holder of any licence granted under this Order shall comply with any conditions contained or incorporated in the licence.

(2) If any licence granted under this Order is revoked by the Minister of Supply the holder of the licence shall forthwith deliver up the licence to the Minister of Supply or as directed by him.

Interpretation.

12. (1) In this Order the following expressions have the meanings hereby respectively assigned to them, that is to say :—

"timber" means any wood which is not further prepared than hewn, barked or peeled, cleft or split or riven, sawn, dried, seasoned, planed, dressed, soaked, steamed, bent, tongued, grooved, matched, treated with any preservative or painted; and includes flooring blocks and flooring strips however prepared; but does not include any plywood or any of the materials or articles commonly known in the timber trade as boxboards or veneer;

"plywood" includes the materials or articles commonly known in the timber trade as plywood, laminboard, blockboard or battenboard, but does not include any plywood having any ply which is not of wood;

"home-grown timber" means any timber produced from wood grown in the United Kingdom or in Eire;

"imported timber" means any timber which is not home-grown timber;

"National Stock" means in relation to timber any timber which is for the time being in the possession of or held at the disposal of the Minister of Supply, or which has at any time been delivered by the Minister of Supply to any person;

"exempt National Stock" means in relation to imported timber any National Stock imported timber payment for the purchase of which had before the coming into force of this Order been made to the Minister of Supply by any other person;

"processor" means any person who on behalf of another subjects any timber, plywood, boxboards or veneer to any process or conversion;

"treat use or consume" means in relation to any material any of the following :—

(*a*) subject the material to any process whether or not a process within the limits of preparation set out in the above definition of timber; or

(*b*) convert the material from one shape or set of dimensions into another shape or set of dimensions; or

(*c*) utilise the material for any purpose;

"certified port-city mill" and "certified town mill" mean respectively a port-city mill and a town mill which is for the time being certified as such by the Minister of Supply;

"coal supply" means, in relation to any coal mine or, in a case where more than one coal mine in a District is in the same ownership, in relation to any group of all such coal mines, the aggregate of the export supply and the inland supply of coal supplied from that mine or group of coal mines during that period as ascertained for the purposes of the Central Scheme in force under the Coal Mines Act, 1930(**a**), by the Executive Board for the District in which the coal mine or group of coal mines is situate, and returned by such Executive Board to the Board of Trade under the hand of the Secretary or a member for the time being of the Executive Board; and

"owner" when used in relation to any mine has the same meaning as in Section 122 of the Coal Mines Act, 1911(**b**).

(2) In this Order—

(*a*) references to offers to acquire or dispose of or buy or sell shall be construed respectively as including references to invitations of offers to dispose of or acquire or sell or buy; and

(*b*) the expression "acquire" includes the acquisition, and the expression "dispose of" includes the disposal, of—

(i) ownership, or any proprietary interest; or

(ii) the right to possession; or

(iii) possession, whether or not accompanied by any acquisition or disposal of ownership or of any proprietary interest or of the right to possession.

Forms in respect of Timber Charges.

13. When any imported timber has been certified under Article 4 (2) (*b*) (i) of this Order as "timber of inferior quality, condition, manufacture or specification", then every person who in any month becomes liable under any Timber (Charges) Order to pay any National (General) Timber Charge in respect of that inferior timber shall make the returns required from him under the Control of Timber (No. 14) Order, 1940(**c**), in respect of that inferior timber in the manner following :—

(*a*) the inferior timber shall not be entered in any form in which timber which is not inferior is entered, but shall be entered in a separate form; and

(*b*) the separate form for the inferior timber shall be the appropriate form provided by the Control of Timber (No. 14) Order, 1940, for timber of the same description which is not inferior, amended in ink to show the rates of charge applicable to the inferior timber entered therein.

14. The Control of Timber (No. 13) Order, 1940(**a**), the Control of Timber (No. 15) Order, 1940(**b**), the Control of Timber (No. 16) Order, 1940(**c**), and the Control of Timber (No. 17) Order, 1940(**d**), the Control of Timber (No. 18) Order, 1940(**e**), the Control of Timber (No. 19) Order, 1941(**f**), and the Control of Timber (No. 20) Order, 1941(**g**), are hereby revoked :

Provided that—

(*a*) any licence or certificate which was immediately before the coming into force of this Order in force for the purposes of any of the said revoked Orders shall remain in force and be deemed to be a licence granted or certificate issued under this Order;

(*b*) any price approved or fixed by the Minister of Supply under Article 4 (2) (*b*) of the Control of Timber (No. 13) Order, 1940, as varied by any subsequent Order, for any imported timber which either is not National Stock or is exempt National Stock, shall, if it was in force immediately before the coming into force of this Order, remain in force and be deemed to be a price approved or fixed under Article 4 (2) (*b*) of this Order;

(*c*) any price fixed by the Minister of Supply for any plywood under Article 5 (2) (*b*) of the Control of Timber (No. 13) Order, 1940, as varied by any subsequent Order, and any maximum price approved or provided by the Minister of Supply for any home-grown timber under Article 6 (2) (*b*) thereof, and any higher limit of excess carriage charge approved by the Minister of Supply under Article 6 (2) (*c*) thereof, and any maximum price approved or provided by the Minister of Supply for any "recovered—unclassified" timber or plywood under Article 7A thereof, shall, if in force immediately before the coming into force of this Order, remain in force and be deemed to have been fixed or approved or provided under the corresponding provisions of this Order.

15. This Order shall come into force on the fifth day of January, 1942, and may be cited as the Control of Timber (No. 21) Order, 1941.

Dated this twenty-fourth day of December, 1941.

PART I.

This Part applies *only* to Imported Timber which either is **NOT NATIONAL STOCK** or is **EXEMPT NATIONAL STOCK.***

The provisions which were set out in the First Schedule to the Control of Timber (No. 13) Order, 1940, in its original form (S. R. & O. 1940 No. 1098) are deemed to be repeated here with amendments as follows :—

A. On page 2 in Division A (Imported Softwood) for the title and paragraphs 1 to 4 of the Instructions there set out substitute the following title and paragraphs :—

"INSTRUCTIONS FOR ASCERTAINING FIXED PRICES FOR IMPORTED SOFTWOOD (BEING EITHER NOT NATIONAL STOCK OR EXEMPT NATIONAL STOCK).

1. Unless otherwise stated all prices are per standard of 165 cubic feet.
2. Where a 'dash' ('—') appears instead of a price-element the price-element is to be fixed by the Minister of Supply; and if in the course of ascertaining the fixed price in accordance with these Instructions any part of the calculation is represented by such a 'dash', then application must be made to the Minister of Supply through the Timber Controller for the appropriate price-element to be fixed before the calculation can be completed.
3. The fixed price of any material described in Division A of Part I of this Schedule shall be ascertained (subject to Paragraph 2 of these Instructions) by (1) taking its "Fixed *Basis* Price" (*i.e.* the price given for that material in the Table or sub-Table in which it is described) which price is for that material as described in that Table or sub-Table, delivered by the seller loading it on to a conveyance provided by the buyer at the place where that material is lying;

(2) adding to and deducting from the Fixed *Basis* Price such of the extras and deductions provided on that Table or sub-Table from which that price is taken as are specified in the licence under the authority of which the sale is made;

*NOTE: *The provisions applicable to Imported Timber which is* NATIONAL STOCK OTHER THAN EXEMPT NATIONAL STOCK *will be found* in PART II *of this Schedule.*

PART I—*contd.*

(3) adding to the aggregate of heads (1) and (2) above that "Port Differential" given in Paragraph 5 of these Instructions which is appropriate to that material for its "Port of Entry" (*i.e.* that United Kingdom port through which that material was imported);

(4) in the event of the material lying at an "Inland Yard," *i.e.* at a place designated by the seller being a place outside the port of entry (whether or not situate in some other port of entry)—adding to the aggregate of heads (1), (2) and (3) above the cost of carriage of the material from the port of entry to the inland yard and also a further sum at the rate of 20*s.* per standard of the material so carried; and

(5) in the event of the material being material which has been "Stored under Cover by the Seller" in accordance with the usual trade understanding of that expression—making an addition to the aggregate of heads (1), (2), (3) and (4) above at the rate of 10*s.* per standard.

4. The fixed price is for cash."

B. On page 9, in Division A, Section I, Table 2(f), Royal Swedish Forestry Production, Column (1):—

re-number lines 20-26 inclusive as 1 to 7 inclusive.

C. On page 18, in Division A, Section III, Table 6, Red Pine (Quebec)—

(i) in Column (2), line 4, for "4 in.×4 in." substitute "4 in.×9 in.", and

(ii) in Column (5), line 10, for "46.10.0" substitute "45.10.0."

D. On pages 38 to 41, in Division B (Imported Hardwood) for the Instructions there set out substitute the following Instructions:—

"INSTRUCTIONS FOR ASCERTAINING FIXED PRICES FOR IMPORTED HARDWOOD (BEING EITHER NOT NATIONAL STOCK OR EXEMPT NATIONAL STOCK).

1. All prices are per cubic foot unless otherwise stated, and are for material of FAIR AVERAGE SPECIFICATION and standard grade as imported.*

2. Where a 'dash' ('—') appears instead of a price-element the price-element is to be fixed by the Minister of Supply; and if in the course of ascertaining the fixed price in accordance with these Instructions any part of the calculation is represented by such a 'dash', then application must be made to the Minister of Supply through the Timber Controller for the appropriate price-element to be fixed before the calculation can be completed.

3. The fixed price of any material described in Division B of Part I of this Schedule shall be ascertained (subject to Paragraph 2 of these Instructions) by

(1) taking its "Fixed *Basis* Price" [*i.e.* the price given for that material in the Table or sub-Table in which it is described and in the case of *Stock under 1 inch Thick* not being Prepared Floorings (*as Imported*) referred to in Table 55 the price reckoned in accordance with Paragraph 5 of these Instructions] which price is for that material as described in that Table or sub-Table, delivered by the seller loading it on to a conveyance provided by the buyer at the place of storage of that material at that port in the United Kingdom at which that material was imported;

* NOTE: *The expression* 'F.A.S.' *in the Tables means* '*Firsts and Seconds*', not '*fair average specification*', *and is the American grading equivalent to the United Kingdom grading known as* '*Prime*.'

PART I—*contd.*

(2) adding to and deducting from the Fixed *Basis* Price such of the extras and deductions provided on that Table or sub-Table from which that price is taken as are specified on the licence under the authority of which the sale is made;

(3) in the event of the seller delivering the material by loading it on to a conveyance provided by the buyer at a place designated by the seller being a place other than the place of storage referred to in head (1) above—by adding to the aggregate of heads (1) and (2) above and (4) below the cost of carriage of the material from that aforesaid place of storage to the place designated by the seller at which delivery is made; and

(4) in the event of the material being set out in the buyer's licence (by reason of the dimensions or quality—or both—required) under the heading "Hardwood Selection"—applying to the Minister of Supply through the Timber Controller for the appropriate "Selection Extra" (if any) applicable to that "Hardwood Selection" and adding that "Selection Extra" (if any) to the Fixed *Basis* Price.

4. The fixed price is for cash.

5. STOCK UNDER 1 INCH THICK [not being Prepared Floorings (*as Imported*) referred to in Table 55].

Prices shall be reckoned on a superficial foot basis from the price per superficial foot of such stock 1 inch thick (which price is *one twelfth* of the price per cubic foot of such 1 inch stock given in the appropriate Table or sub-Table).

The Fixed *Basis* Price shall be—

(*a*) for imported unplaned stock—

⅜ in. thick—*half* the price of stock 1 in. thick.
½ in. thick—*five-eighths* of the price of stock 1 in. thick.
⅝ in. thick—*three-quarters* of the price of stock 1 in. thick.
¾ in. thick—*seven-eighths* of the price of stock 1 in. thick.

(*b*) for imported planed stock—

S2S to ¼ in. thick—*half* the price of stock 1 in. thick.
" " ⅜ in. thick—*five-eighths* of the price of stock 1 in. thick.
" " ½ in. thick—*three-quarters* of the price of stock 1 in. thick.
" " ⅝ in. thick—*seven-eighths* of the price of stock 1 in. thick.
" " ¾ in. or ⅞ in. thick—*the same as* the price of stock 1 in. thick.

6. Hardwoods of the following descriptions which have been purchased by the Minister of Supply, or purchased abroad under the authority of a licence granted by the Minister of Supply at any time on or after the 16th September, 1939, are not priced in this Division (notwithstanding that material of similar descriptions may be so priced) and application must be made to the Minister of Supply through the Timber Controller for a price to be fixed for such material:—

(1) Certain Dimension Hardwoods, namely—

(*a*) Hickory and Tough Ash Dimension Stock imported and used for making Handles, Shunt Poles, Squares, Pick Handles, Picking Sticks, Fawn Foot Fellings or Axe Blanks; and

(*b*) Hardwoods imported sawn to dimension and used by the Textile Trade;

PART I—*concld.*

(2) Cornel, Persimmon and Knysna Boxwood Logs and waste of those timbers which are imported and used for Bobbins or Shuttle Blocks;
(3) Hardwood Staves and Cask Head Timber;
(4) Ash and Mahogany used for Aircraft;
(5) Figured Solid Hardwood Logs suitable for Veneers;
(6) Hardwood used for Lead Pencils;
(7) Hardwood used for Matches; and
(8) Lignum-Vitae, Ebony, Rosewood, Boxwood, Satinwood, Patridgewood, Cocus Wood Degame, Lancewood, Prima Vera, Tallowwood, Laurel and Padauk.

E. Delete pages 97 to 103 inclusive (relating to Hardwood Logs from National Stock) and pages 104 to 107 inclusive (relating to Imported Timber for Use in Mines).

PART II.

This Part applies *only* to Imported Timber which is **NATIONAL STOCK OTHER THAN EXEMPT NATIONAL STOCK.***

INSTRUCTIONS FOR ASCERTAINING FIXED PRICES FOR IMPORTED SOFTWOOD (BEING NATIONAL STOCK OTHER THAN EXEMPT NATIONAL STOCK).

1. Unless otherwise stated all prices are per standard of 165 cubic feet.

2. Where a 'dash' ('—') appears instead of a price-element the price-element is to be fixed by the Minister of Supply; and if in the course of ascertaining the fixed price in accordance with these Instructions any part of the calculation is represented by such a 'dash', then application must be made to the Minister of Supply through the Timber Controller for the appropriate price-element to be fixed before the calculation can be completed.

3. The fixed price of any material described in Division A of Part II of this Schedule shall be ascertained (subject to Paragraph 2 of these Instructions) by

(1) taking its "Fixed *Basis* Price" (*i.e.* the price given for that material in the Table or sub-Table in which it is described) which price is for that material as described in that Table or sub-Table, delivered by the seller loading it on to a conveyance provided by the buyer at the place where that material is lying;

(2) adding to and deducting from the Fixed *Basis* Price such of the extras and deductions provided on that Table or sub-Table from which that price is taken as are specified in the licence under the authority of which the sale is made; and

(3) adding to the Fixed *Basis* Price a sum at the rate of—
(i) in the case of telegraph poles—7½ per cent of the Fixed *Basis* Price;
(ii) in the case of goods priced per cubic foot—5*d.* per cubic foot; and
(iii) in the case of all other imported softwood—£3 5*s.* per standard.

4. The fixed price is for cash.

*In this Division the term "African" is used in relation to mahogany to include all the names listed in the British Standard Nomenclature of Hardwoods No. 881—1939 (issued by the British Standards Institution) in Column 5 against "Reference No. 130, mahogany, African."

PART II—*contd.*

INSTRUCTIONS FOR ASCERTAINING FIXED PRICES FOR IMPORTED HARDWOOD (BEING NATIONAL STOCK OTHER THAN EXEMPT NATIONAL STOCK).

1. Unless otherwise stated all prices are per cubic foot and are for SQUARE-EDGED material of FAIR AVERAGE SPECIFICATION and standard grade as imported.*

2. Where a 'dash' ('—') appears instead of a price-element the price-element is to be fixed by the Minister of Supply; and if in the course of ascertaining the fixed price in accordance with these Instructions any part of the calculation is represented by such a 'dash', then application must be made to the Minister of Supply through the Timber Controller for the appropriate price-element to be fixed before the calculation can be completed.

3. The fixed price of any material described in Division B of Part II of this Schedule shall be ascertained (subject to Paragraph 2 of these Instructions) by

(1) taking its "Fixed *Basis* Price" (*i.e.* the price given for that material in the Table or sub-Table in which it is described and in the case of *Stock under 1 inch Thick*' reckoned in accordance with Paragraph 5 of these Instructions) which price is for that material as described in that Table or sub-Table, delivered by the seller loading it on to a conveyance provided by the buyer at the place where that material is lying;

(2) adding to and deducting from the Fixed *Basis* Price such of the extras and deductions provided on that Table or sub-Table from which that price is taken as are specified in the licence under the authority of which the sale is made;

(3) adding to the Fixed *Basis* Price a sum at the rate of 3*d.* per cubic foot; and

(4) in the event of the material being set out in the buyer's licence (by reason of the dimensions or quality or both—required) under the heading "National Hardwood Selection"—applying to the Minister of Supply through the Timber Controller for the appropriate "Selection Extra" (if any) applicable to that "National Hardwood Selection" and adding that "Selection Extra" (if any) to the Fixed *Basis* Price.

4. The fixed price is for cash.

5. STOCK UNDER 1 INCH THICK.

Prices shall be reckoned on a superficial foot basis from the price per superficial foot of such stock 1 inch thick (which price is *one twelfth* of the price per cubic foot of such 1 inch stock given in the appropriate Table or sub-Table).

The Fixed *Basis* Price shall be—

(*a*) for imported unplaned stock—
- ¾ in. thick—*half* the price of stock 1 in. thick.
- ½ in. thick—*five-eighths* of the price of stock 1 in. thick.
- ⅝ in. thick—*three-quarters* of the price of stock 1 in. thick.
- ¾ in. or ⅞ in. thick—*seven-eighths* of the price of stock 1 in. thick.

(*b*) for imported planed stock—
- S2S to ⅜ in. thick—*five-eighths* of the price of stock 1 in. thick.
- S2S to ½ in. thick—*three-quarters* of the price of stock 1 in. thick.
- S2S to ⅝ in. thick—*seven-eighths* of the price of stock 1 in. thick.
- S2S to ¾ in. or ⅞ in. thick—*the same as* the price of stock 1 in. thick.

6. **National Stock Hardwoods of the following descriptions are not priced in this Division** (notwithstanding that material of similar descriptions may be so priced) and application must be made to the Minister of Supply through the Timber Controller for a price to be fixed for such material:—

(1) Certain Dimension Hardwoods, namely—
- (*a*) Hickory and Tough Ash Dimension Stock imported and used for making Handles, Shunt Poles, Squares, Pick Handles, Picking Sticks, Fawn Foot Fellings, or Axe Blanks; and
- (*b*) Hardwoods imported sawn to dimension and used by the Textile Trade;

(2) Cornel, Persimmon and Knysna Boxwood Logs and waste of those timbers which are imported and used for Bobbins or Shuttle Blocks;

(3) Hardwood Staves and Cask Head Timber;

(4) Solid Hardwood logs suitable for Veneers or imported for the manufacture of Plywood;

(5) Hardwood used for Lead Pencils;

(6) Hardwood used for Matches; and

(7) Lignum Vitae, Ebony, Rosewood, Boxwood, Satinwood, Partridgewood, Cocus Wood, Degame, Lancewood, Prima Vera, Tallowwood, Laurel and Padauk.

*NOTE: *The expression 'F.A.S.' in the Tables means 'First and Seconds', not 'fair average specification', and is the American grading equivalent to the United Kingdom grading known as 'Prime'.*

DIVISION C—IMPORTED TIMBER FOR USE IN MINES.

INSTRUCTIONS FOR ASCERTAINING FIXED PRICES FOR IMPORTED TIMBER FOR USE IN MINES (BEING NATIONAL STOCK OTHER THAN EXEMPT NATIONAL STOCK).

1. Where a ' dash ' (' — ') appears instead of a price-element the price-element is to be fixed by the Minister of Supply ; and if in the course of ascertaining the fixed price in accordance with these Instructions any part of the calculation is represented by such a ' dash ', then application must be made to the Minister of Supply through the Timber Controller for the appropriate price-element to be fixed before the calculation can be completed.

2. The fixed price to a buyer of any material described in Division C of Part II of this Schedule shall be ascertained by
(1) taking the " Fixed *Basis* Price " given in Section I for a sale of that material to that buyer, which price is
(*a*) for that material as described in Section I, delivered by the seller loading it on to a conveyance provided by the buyer at the place where that material is lying ; and
(*b*) for payment in cash
(i) in the case of loading on to a conveyance in England or Wales exclusive of the Counties of Monmouth, Glamorgan, Pembroke, Carmarthen and Brecon—not later than the end of the month next following loading,
(ii) in the case of loading on to a conveyance in Scotland—within one calendar month reckoned from the date of the invoice for that material, and
(iii) in the case of loading on to a conveyance in the County of Monmouth, Glamorgan, Pembroke, Carmarthen or Brecon—within fourteen days from the date of the invoice for that material ; and
(2) in the event of the material sold being material described in Table 1 of Section I converted into a form described in Table 1 of Section II—adding to the Fixed *Basis* Price the " Compulsory Fixed Additions " provided in Table 1 of Section II for conversion into that form.

SECOND SCHEDULE.

The provisions which were set out in the Schedule to the Control of Timber (No. 16) Order, 1940 (with the exception of the opening words "THE SCHEDULE (NEW SCHEDULE TO THE CONTROL OF TIMBER (No. 13) ORDER, 1940)" are deemed to be repeated here.

THIRD SCHEDULE.

The provisions which were set out in the "Third Schedule" provided by the Schedule to the Control of Timber (No. 17) Order, 1940, are deemed to be repeated here, with the amendments which were provided by the Control of Timber (No. 18) Order, 1940, and by Article 1 (*a*) of, and the Schedule to, the Control of Timber (No. 19) Order, 1941.

FOURTH SCHEDULE.

ADDITIONAL TERMS OF SALE.

All or any of the following terms may, if agreed between the buyer and the seller, be additional terms of sale if an invoice is given for the material (describing it as in the buyer's acquisition licence) stating separately each such additional term and the charge therefor.

1. The seller to provide for the material the subject of the sale transport beyond such transport (if any) as is provided for in the fixed or maximum price.	The cost incurred by the seller in providing such transport.
2. The seller to give credit to the buyer beyond the period provided for in the fixed or maximum price.	Interest from that time, or such later time as may be agreed, at a rate not exceeding 6 per centum per annum.
3. The seller to subject the material to any processing or conversion provided for in the description of that material in the buyer's acquisition licence.	The cost incurred by the seller in effecting the processing or conversion actually described in the licence and invoice.
4. (In the case of plywood only) the seller to provide packing.	The cost incurred by the seller in providing that packing.
5. The buyer to pay any purchase tax paid on that material by the seller.	The amount of such purchase tax paid by the seller.

THE CONTROL OF TIMBER (NO. 21) ORDER, 1941, DIRECTIONS NOS. 1-6.

STATUTORY RULES AND ORDERS, 1941, No. 2089.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Timber).

The Control of Timber (No. 21) Order, 1941, Directions Nos. 1-6. Dated December 24, 1941.

A. Under Articles 1 and 2 of the Control of Timber (No. 21) Order, 1941(*a*), the Minister of Supply hereby issues the following Directions :—

Direction No. 1.

1. Notwithstanding anything in Article 2 of the Order : any of the following Government Departments or persons or undertakings having—

(1) any timber or plywood being timber or plywood which has not been acquired on or after the 4th October 1939, or

(2) any veneer being veneer which has not been acquired on or after the 4th April 1940,

may, until further notice, without licence treat use or consume that timber, plywood or veneer for the purposes stated in respect of them, that is to say :—

(*a*) any Government Department, any colliery undertaking and any shipbuilder or ship-repairer—for any purpose ;

(*b*) any railway undertaking under the control of the Minister of War Transport by virtue of any Order made under the Defence (General) Regulations, 1939, for the purpose of—

(i) the construction of any new work or equipment to the direct order of a Government Department, or

(ii) the maintenance or renewal of works or equipment, necessary for the operation of essential transport services ;

(*c*) any railway wagon builder or repairer—for the repair or renewal of any railway wagon to be used in the United Kingdom ; and

(*a*) S.R. & O. 1941 No. 208

(*d*) any Local Authority, and any public utility undertaking within the meaning of Regulation 100 of the Defence (General) Regulations, 1939, and not before mentioned in this paragraph—for urgent repair work for the purposes of that authority or undertaking.

2. Notwithstanding anything in Article 2 of the Order: any person not being a person referred to in Paragraph 1 of this Direction having—

(*a*) any timber or plywood being timber or plywood which has not been acquired on or after the 4th October 1939, or

(*b*) any veneer being veneer which has not been acquired on or after the 4th April 1940,

may, until further notice, without licence, treat use or consume from such timber plywood or veneer such quantities as, when added to any quantities of such timber plywood or veneer treated used or consumed by him without licence under the authority of Paragraph 2 of the Control of Timber (No. 13) Order, 1940, Direction No. 1(*a*), will not exceed in the aggregate the following quantities:—

One standard of softwood, and

One hundred cubic feet of hardwood, and

One cubic metre or ten bundles (whichever is the less) of plywood, and

One cubic metre or ten bundles (whichever is the less) of veneer.

Direction No. 2.

Notwithstanding anything in Article 1 or Article 2 of the Order: unpeeled logs produced from wood grown in Eire or France or Portugal (which logs are commonly known in the South Wales coal trade as "pitwood") which have been imported through a port in the County of Monmouth, Glamorgan, Pembroke or Carmarthen, may until further notice, without licence, be acquired for use in any coal mine situate in any of those counties or in the County of Brecon by the owner of any such mine upon such terms and conditions as may, with the approval of the Minister of Supply, be agreed, and may be treated, used or consumed by him; and may be disposed of to him accordingly.

Direction No. 3.

1. Notwithstanding anything in Article 1 or Article 2 of the Order: home-grown timber of the following descriptions—

(i) larch in the round not exceeding 9 in. mean quarter girth over bark;

(ii) fir and hardwoods in the round not exceeding 7 in. mean quarter girth over bark; and

(iii) home-grown timber which has been prepared or partly prepared as round or sawn timber for use underground in mines;

may, until further notice, without licence, be acquired by any person who acquires that timber for disposal directly or indirectly to the owner of a mine; and may be treated used or consumed by that person so far as is necessary to prepare it wholly or partly as round or sawn timber for use underground in mines.

2. Notwithstanding anything in Article 2 of the Order: any person may, until further notice, without licence but subject to the proviso to this Paragraph, convert to any specification of timber any home-grown timber not being timber acquired by him under Paragraph 1 of this Direction:

Provided that the Minister of Supply may serve a notice upon any person prohibiting that person from converting such home-grown timber as may be specified in that notice to such specification or specifications of timber as may be set out in that notice, and thereupon that person shall not be authorised by virtue of this Direction to convert any of the timber so specified to any specification so set out.

Direction No. 4.

1. Notwithstanding anything in Article 1 of the Order, at any licensed public auction any person may, until further notice, without licence acquire or agree or offer to acquire in accordance with the conditions of sale prescribed by the Minister of Supply for that licensed public auction—any timber, plywood, boxboards or veneer offered for sale at that licensed public auction:

Provided that every purchaser at any such auction shall preserve, and produce to the Minister of Supply when requested so to do by notice or direction, a copy of all receipts which he may be required by those prescribed conditions of sale to sign.

2. In this Direction the expression "licensed public auction" means any sale by public auction duly held under the authority of, and in accordance with conditions of sale prescribed by a "sale by public auction licence" granted by the Minister of Supply under Article 1 of the Order.

Direction No. 5.

Notwithstanding anything in Article 2 of the Order: any person who has acquired any timber under the authority of and in accordance with a licence granted under Article 1 of the Order on the "Form T.C.3/8/3" may, until further notice, without licence treat use and consume that timber at the mine specified by him in his application on that Form.

(*a*) S.R. & O. 1940 No. 1099.

Direction No. 6.

Notwithstanding anything in Article 2 of the Order: any processor acting as such on behalf of the holder of a licence to treat use or consume timber, plywood, boxboards or veneer may until further notice, without licence, on behalf of the holder of that licence convert any timber, plywood, boxboards or veneer specified in that licence to any specification of timber, plywood, boxboards or veneer as specified in that licence.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Paper).

The Control of Paper (No. 39) Order, 1941, dated December 24, 1941, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made:—

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows:—

1. Nothing in the Control of Paper (No. 4) Order, 1939(**a**), or in the Control of Paper (No. 26) Order, 1940(**b**), shall from the date of the coming into force of this Order apply to any acquisition or purchase or disposal or sale of any wood grown in the United Kingdom.*

*NOTE.—Pulp Wood produced from wood grown in the United Kingdom is covered by the Control of Timber (No 21) Order, 1941, dated December 24, 1941, S.R. & O. No. 2089.

2. Any reference in any Control of Paper Order to any other Control of Paper Order shall, unless the contrary intention appears, be construed as a reference to that Control of Paper Order as amended by any subsequent Control of Paper Orders; and any reference in any Control of Paper Order to any Article of or Schedule to that Order shall, unless the contrary intention appears, be construed as a reference to that Article or Schedule as amended by any subsequent Control of Paper Orders. For the purposes of this Article any Direction made under any Control of Paper Order shall be deemed to be a part of the Order under which it was made.

3. Article 15 of the Control of Paper (No. 25) Order, 1940(**c**), and Paragraph (*a*) of Article 1 of the Control of Paper (No. 35) Order, 1941(**d**), are hereby revoked.

4. This Order shall come into force on the 5th day of January 1942, and may be cited as the Control of Paper (No. 39) Order, 1941.

Dated this 24th day of December 1941.

THE CONTROL OF PAPER (NO. 36) ORDER, 1941, DIRECTION NO. 2.

STATUTORY RULES AND ORDERS, 1941, No. 2099.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Paper).

The Control of Paper (No. 36) Order, 1941, Direction No. 2, dated December 23, 1941.

WHEREAS Article 8 of the Control of Paper (No. 36) Order, 1941(a), imposes certain restrictions upon the affixing to any container of any label or other paper:

And whereas it is proved to the satisfaction of the Minister of Supply that special circumstances exist in relation to the affixing of labels to metal transit containers for cinematograph films:

Now therefore the Minister of Supply in pursuance of the provisions of paragraph (2) of Article 12 of the Control of Paper (No. 36) Order, 1941(*a*), hereby directs as follows:—

1. Where any metal transit container for cinematograph films is fitted with a slot made for the insertion therein of a label bearing the name and address of any consignee of that case, any person may insert in that slot any such label, provided that the size of the label inserted is not greater than is necessary for its retention in that slot.

2. This Direction shall come into force on the 23rd day of December 1941, and may be cited as the Control of Paper (No. 36) Order, 1941, Direction No. 2.

THE IMPORTED POTASH FERTILISER (RATES OF APPLICATION) ORDER, 1941.

STATUTORY RULES AND ORDERS, 1941, No. 2101.

EMERGENCY POWERS (DEFENCE).

Imported Potash Fertiliser (Rates of Application).

The Imported Potash Fertiliser (Rates of Application) Order 1941, dated December 22, 1941, made by the Minister of Agriculture and Fisheries under Regulations 55 and 62 of the Defence (General) Regulations, 1939.

WHEREAS under and by virtue of the Control of Fertilisers (No. 12) Order, 1941(a) (hereinafter called the Principal Order) and the Control of Fertilisers (No. 12) Order, 1941, Direction No. 2(b), no person who has acquired under Article 4 (1) of the Principal Order any fertiliser containing any imported potassium salts is permitted (except as in the Principal Order provided) to apply that fertiliser to any acreage of crops at rates in excess of those laid down by the Minister of Agriculture:

Now the Minister of Agriculture and Fisheries in pursuance of Regulations 55 and 62 of the Defence (General) Regulations, 1939, hereby orders as follows:—

1. In respect of each of the crops specified in the first column of the Schedule hereto the rate shall be the rate set opposite thereto in the second column of the said Schedule.

2. Nothing in this Order shall prohibit or restrict the application by any person of imported potassium salts at rates in excess of the rates hereby laid down to a part or parts of the acreage of specified crops grown on any agricultural land or holding occupied by him, if the course of good husbandry shall so require, provided that the amount applied does not exceed in the aggregate the quantity which he is authorised by virtue of Article 1 of this Order to apply to his total acreage of specified crops.

3. Nothing in this Order shall prohibit or restrict the use of imported potassium salts or compounds containing imported potassium salts used under the authority and in accordance with a licence granted or a special or general direction issued by the Minister of Agriculture and Fisheries, or a special authority issued by a County War Agricultural Executive Committee.

4. In this Order the expression—

"imported potassium salts" means potassium salts used as fertilisers, including kainit, extra kainit, sylvinite, potash manure salt, muriate of potash, sulphate of potash and sulphate of potash-magnesia.

"specified crops" means the crops specified in the Schedule to this Order.

5. This Order shall come into force on the 29th day of December 1941, and may be cited as the Imported Potash Fertiliser (Rates of Application) Order, 1941.

In witness whereof the Official Seal of the Minister of Agriculture and Fisheries is hereunto affixed this *22nd day of December 1941.*

THE DRIED PEAS, BEANS AND LENTILS (CONTROL AND MAXIMUM PRICES) ORDER, 1941.

STATUTORY RULES AND ORDERS, 1941, No. 2139.

EMERGENCY POWERS (DEFENCE).

Food (Dried Peas, Beans and Lentils).

The Dried Peas, Beans and Lentils (Control and Maximum Prices) Order, 1941. Dated December 31, 1941.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, and of all other powers him enabling, the Minister of Food hereby makes the following Order:—

1. In this Order:—

"The Minister" means the Minister of Food.

"Buy" includes offer or agree to buy and "sell" includes offer or agree to sell.

"Catering business" means the business or undertaking of any public house, hotel, restaurant, buffet, cafe, stall, or any place of refreshment open to the public, or of any club, boarding house, refreshment contractor or canteen.

"Licensed importer" means a person licensed as such for the purposes of this Order.

"Miller" means any person who splits peas or lentils and "mill" shall be construed accordingly.

"Port Area" means any of the areas set out in the Schedule to the Cereals and Cereal Products (Requisition and Control) Order, 1939 (a).

"Port Area Grain Committee" means a Committee of persons appointed by the Board of Trade or the Minister for any port area.

"Sale by a miller" means, in relation to any specified article mentioned in Part II of the First Schedule, a sale by the miller thereof.

"Sale by retail" means a sale to a person other than a person buying for the purpose of resale, and includes a sale to a person for the purposes of a catering business carried on by him, but does not include a sale for manufacturing purposes or a sale to a person for the purposes of a fish frying business carried on by him.

"Specified article" means any article specified in the first column of Parts I and II of the said First Schedule.

2. Except under and in accordance with the terms of a licence granted by or on behalf of the Minister for the purposes of this Order, no person shall:—

(*a*) mill or can any specified article or cause or permit any such article to be milled or canned;

(a) S.R. & O. 1939 (No. 1035) I, p. 1050.

(*b*) manufacture any brosemeal or pea flour;

(*c*) buy or sell otherwise than by retail any specified article.

3. (1) No person shall sell any specified article which has been soaked in water or to which water has been added.

(2) No person shall on or after the first day of April, 1942, buy or sell any specified article mixed with any other article whether a specified article or not.

4. (1) No person shall buy or sell any specified article at a price exceeding the maximum price applicable in accordance with the First Schedule to this Order.

(2) No person shall make or demand any charge in addition to the maximum price except in accordance with the provisions of the Second Schedule to this Order.

(3) Where the maximum price on a sale by retail includes any fraction of a farthing, such fraction shall be regarded as one farthing.

5. On the occasion of any sale other than a sale by retail of any specified article the seller shall furnish to the buyer not later than seven days after delivery thereof an invoice specifying the quantity sold, the sum charged and each and every charge in addition to the maximum price made in accordance with the Second Schedule to this Order.

6. (1) Every person who sells otherwise than by retail any specified articles shall keep or cause to be kept an accurate record of all sales and purchases by him of such articles, such record to include particulars identifying the persons from whom any such articles were purchased and to whom they were sold, as the case may be, and of the prices charged and of each and every charge in addition to the maximum price made in accordance with the Second Schedule to this Order.

(2) Retention by a person of an invoice or a copy of an invoice shall as respects the particulars mentioned in such document be a sufficient compliance by that person with the provisions of the foregoing paragraph of this Article.

7. No person shall in connection with any sale or disposition of any specified articles enter or offer to enter into any artificial or fictitious transaction or make or demand any unreasonable charge.

8. The provisions of this Order are subject to any directions, authorisations or licences which may from time to time be given or granted by or on behalf of the Minister.

9. The holder of any licence granted under this Order, the Dried Peas, Beans and Lentils (Control and Maximum Prices) Order, 1940 (**a**), or the Dried Peas, Beans and Lentils (Control and Maximum Prices) (No. 2) Order, 1940 (**b**), as amended (**c**), shall comply with every condition imposed by such licence.

10. The provisions of this Order shall not apply to any specified article which has been canned or to any specified article sold as part of a meal by a caterer or fish frier in the course of his catering or fish-frying business.

11. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

12. (1) The Dried Peas, Beans and Lentils (Control and Maximum Prices) (No. 2) Order, 1940, as amended, is hereby revoked but without prejudice to any proceedings in respect of any contravention thereof.

(2) All licences [including the General Licence dated 31st August, 1940 (**d**)] granted under the Dried Peas, Beans and Lentils (Control and Maximum Prices) Order, 1940, and the Dried Peas, Beans and Lentils (Control and Maximum Prices) (No. 2) Order, 1940, shall continue to have effect as though granted under and for the purposes of this Order.

13. This Order shall come into force on the 12th day of January, 1942, and may be cited as the Dried Peas, Beans and Lentils (Control and Maximum Prices) Order, 1941.

By Order of the Minister of Food.

Dated the 31st day of December, 1941.

H. L. FRENCH,
Secretary to the Ministry of Food.

"Port Area Grain Committee" means a committee of persons appointed by the Board of Trade or the Minister for any port area.

"Pre-packed" means packed or made up (otherwise than by a retailer for the purpose of retail sale by him) in advance ready for retail sale in a wrapper or container, and "pre-pack" shall be construed accordingly.

"Primary wholesaler" means in relation to the sale of any specified oat products a wholesaler who has bought the same from a miller or importer.

"Sale by an importer" means a sale of any imported specified oat product by the person to whom such imported specified oat product was sold by a Port Area Grain Committee.

"Sale by retail" means in relation to any specified oat product a sale to a person buying otherwise than for the purpose of resale and includes a sale to a person for the purposes of a catering business carried on by him, but does not include a sale by the miller or importer thereof, or in the case of pre-packed oat flakes by the packer thereof.

"Sale by wholesale" means in relation to any specified oat product any sale other than a sale by the miller, importer or in the case of pre-packed oat flakes the packer, thereof and other than a sale by retail, and "wholesaler" shall be construed accordingly.

"Secondary wholesaler" means in relation to the sale of any specified oat product a wholesaler who has bought the same from another wholesaler.

"Specified oat products" means oatmeal, oat flakes and oat flour.

2. Except under and in accordance with the terms of a licence granted by or on behalf of the Minister or in respect of Northern Ireland by or on behalf of the Ministry, no person shall—

(*a*) Mill, manufacture or produce any specified oat product or cause or permit any specified oat product to be milled, manufactured or produced.

(*b*) Pre-pack or cause or permit to be pre-packed any oat flakes.

(*c*) Sell, offer or agree to sell, or expose for sale or buy, offer or agree to buy, or use or cause or permit to be used, any specified oat product except for a permitted purpose.

(*d*) Sell, offer or agree to sell, or expose for sale, or buy, offer or agree to buy, any specified oat product at a price exceeding the price applicable in accordance with the First and Second Schedules to this Order.

3. Where on a sale by retail the maximum price of any specified oat product calculated according to the provisions of this Order includes any fraction of a farthing such fraction shall be regarded as a farthing.

4. (1) Every person who sells otherwise than by retail any specified oat product shall keep or cause to be kept an accurate record of all sales and purchases by him thereof, such record to include particulars identifying the person from whom the goods were purchased and to whom the goods were sold, and particulars of the quantity and description of the goods purchased or sold, as the case may be, and of the prices charged.

(2) Every person who sells by retail any specified oat product, shall keep or cause to be kept an accurate record of all purchases by him thereof, such record to include particulars identifying the person from whom the goods were purchased, and particulars of the quantity and description of the goods purchased, and of the prices charged.

(3) Retention by any person of an invoice or of a copy of an invoice shall as respects the particulars mentioned in such document be sufficient compliance by that person with the provisions of this Article.

5. No person shall in connection with any sale or disposition or proposed sale or disposition of any specified oat product enter or offer to enter into any fictitious or artificial transaction or make or demand any unreasonable charge.

6. This Order shall not apply to any specified oat product which is bought or sold for export from the United Kingdom.

(*a*) S.R. & O. 1939 (1035) I, p. 1050.

7. (1) This Order is subject to any directions, authorisations, or licences which may from time to time be given or granted by or on behalf of the Minister, or in respect of Northern Ireland, by or on behalf of the Ministry.

(2) Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation.

8. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

9. Without prejudice to any proceedings in respect of any contravention thereof, the Oat Products (Control and Maximum Prices) Order, 1941 (*a*), is hereby revoked provided that any licence granted or having effect under that Order and subsisting immediately before the coming into force of this Order shall continue to have effect as though granted under this Order.

10. Any reference to the Oat Products (Control and Maximum Prices) Order, 1941, contained in any Order or direction of the Minister or in any document issued by or on behalf of the Minister for the purpose of any such Order or direction shall be construed as a reference to this Order.

11. (1) This Order shall come into force on the 12th day of January, 1942.

(2) This Order may be cited as the Oat Products (Control and Maximum Prices) (No. 2) Order, 1941.

By Order of the Minister of Food.

Dated the 31st day of December, 1941.

H. L. FRENCH,
Secretary to the Minister of Food.

THE SECOND SCHEDULE.

CHARGES IN ADDITION TO THE MAXIMUM PRICE.

1. *Transport and Storage.*

The maximum prices on any sale other than a sale by retail are fixed on the basis that the costs of transport and storage incurred subsequently to the removal of the specified oat product, in the case of any imported specified oat product, from the quay or store at which delivery was given by the Port Area Grain Committee to the importer thereof, and in the case of any other specified oat product from the premises at which it was milled or manufactured, are for the account of the buyer. Accordingly, subject as provided in paragraph 3 of this Schedule, the following provisions shall have effect :—

(i) On any sale other than a sale by retail the seller may charge in addition to the maximum price a sum not exceeding the reasonable and actual costs paid or incurred by him in respect of such transport or storage as aforesaid including in the case of a sale by wholesale any such costs paid or payable by him to the person from whom he bought the specified oat product,

provided that the seller may in lieu of charging the reasonable and actual cost paid or incurred by him in respect of transport or storage, charge such average or flat rate as, having regard to all the circumstances, is, in its general application, fair and equitable, so however that no average or flat rate shall be charged after the 1st day of March, 1942, unless the same has been approved by the Minister or, as the case may be, the Ministry.

(ii) Where any specified oat product has been delivered to a miller and manufactured by him into a different specified oat product there may, on a sale by that miller, in addition to the amount of any charge made by him in accordance with the preceding sub-paragraph in respect of the latter specified oat product, be added to the maximum price the amount of any sum properly paid by him in accordance with the preceding sub-paragraph in respect of the first specified oat product.

(iii) Except as provided in this paragraph no charge shall be made in addition to the maximum price on any sale of any specified oat product in respect of transport or storage.

2. *Small Lots.*

Subject as provided in paragraph 3 of this Schedule where on a sale by wholesale any specified oat product, other than pre-packed oatflakes, is, at the request of the buyer, sold or delivered in a quantity of less than 70 lbs. there may be added to the maximum price an amount at a rate not exceeding 2*s.* 6*d.* per 280 lbs.

3. *Restriction on amount of preceding additions.*

The sum of the additions made under the preceding paragraphs of this Schedule shall not exceed in total

(*a*) in the case of any sale (except a sale by a secondary wholesaler of any specified oat product other than pre-packed oatflakes), an amount at the rate of 11*s.* 8*d.* per 280 lbs. of the article sold ;

(*b*) in the case of a sale by a secondary wholesaler of any specified oat product, other than pre-packed oatflakes, the amount of any additional charges properly paid or payable by him in respect of transport or storage in accordance with this Schedule to the person from whom he bought the specified oat products, *plus* an amount at a rate not exceeding 2*s.* 10*d.* per 280 lbs. of the article sold.

4. *Credit.*

The maximum prices are fixed on the basis of payment being made within 14 days from the date of the invoice. Where payment is not made within that time a reasonable charge may be made in respect of credit, provided that the amount thereof is specified in the invoice and except as provided in this paragraph no additional charge may be made in respect of credit.

5. *Prohibition of further charges.*

No charge in addition to the maximum price shall be made on a sale of any specified oat product in respect of the provision of wrappers or containers.

THE CONTROL OF NON-FERROUS METALS (No. 8) (ANTIMONY) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 48.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Antimony).

The Control of Non-Ferrous Metals (No. 8) (Antimony) Order, 1942,* dated January 12, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now, therefore, the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows :—

1. (1) No person shall dispose of or agree or offer to dispose of any antimony : except (*a*) to the Minister of Supply, or (*b*) under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

(2) No person shall acquire or agree or offer to acquire any antimony : except (*a*) from the Minister of Supply, or (*b*) from a person who is authorised to dispose of that antimony by virtue of a licence granted by the Minister of Supply, or (*c*) under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Minister of Supply.

2. For the purpose of this Order : where any material is acquired by or disposed of to a carrier or warehouseman or servant acting in the ordinary course of his business or employment as such, that material shall be deemed to be acquired by or disposed of to the person on whose behalf or to whose order the carrier or warehouseman or servant so acquires that material and not by or to the carrier or warehouseman or servant ; and where any material is acquired from or disposed of by a carrier or warehouseman or servant acting as aforesaid, that material shall be deemed to be acquired from or disposed of by the person on whose behalf or by whose order the carrier or warehouseman or servant so disposes of that material and not from or by the carrier or warehouseman or servant.

3. (1) The holder of any licence granted under this Order shall comply with any conditions contained or incorporated in that licence.

(2) If any licence granted under this Order is revoked by the Minister of Supply the holder of that licence shall forthwith deliver up that licence to the Minister of Supply or as directed by him.

4. (1) In this Order the expression—

" antimony " includes any antimony metal containing not less than 75 per centum by weight of antimony, and any crude antimony sulphide, antimony oxide, golden or crimson sulphide of antimony, or antimony ore.

(2) In this Order—

(*a*) references to offers to acquire or dispose of shall be construed respectively as including references to invitations of offers to dispose of or acquire ; and

(*b*) the expression " acquire " includes the acquisition, and the expression " dispose of " includes the disposal, of—

(i) ownership, or any proprietary interest ; or

(ii) the right to possession ; or

(iii) possession, whether or not accompanied by any acquisition or disposal of any ownership or of any proprietary interest or of the right to possession.

5. This Order shall come into force on the 19th day of January 1942 ; and may be cited as the Control of Non-Ferrous Metals (No. 8) (Antimony) Order, 1942.

Dated this 12th day of January 1942.

THE CONTROL OF RUBBER TYRES (No. 2) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 50.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Rubber).

The Control of Rubber Tyres (No. 2) Order, 1942*, dated January 13, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows :—

1. For the purposes of this Order every tyre situate in the United Kingdom shall be a controlled tyre unless it is

(*a*) designed for use on any pedal cycle, motor cycle, motor cycle combination, invalid carriage or similar vehicle, or

* The Control of Rubber Tyres Order No. 1 was made in 1941 (S. R. & O. 1941 No. 2013).

(*b*) designed for use on any aircraft, or

(*c*) a solid tyre, or

(*d*) a new tyre.

2. (1) No person carrying on in the United Kingdom the business of retreading tyres shall charge any other person for the process of retreading any controlled tyre a price greater than that which he might on the 10th day of December 1941 reasonably have been expected to obtain from that other person for that process; and where any person was on the 10th day of December 1941 carrying on the business of retreading tyres at prices regulated in accordance with any price list or lists, the price which that person might on the 10th day of December 1941 reasonably have been expected to obtain for that process shall be ascertained by reference to such price list or lists.

(2) No person shall knowingly pay for the process of retreading any controlled tyre a price greater than that which the person performing that process is permitted under the provisions of this Article to charge.

3. (1) No person shall sell to any other person any retreaded controlled tyre at a price greater than that which on the 10th day of December he might reasonably have been expected to obtain from that other person for that tyre; and where any person was on the 10th day of December 1941 carrying on the business of selling retreaded tyres at prices regulated in accordance with any price list or lists, the price which on the 10th day of December 1941 he might reasonably have been expected to obtain for any retreaded tyre shall be ascertained by reference to such price list or lists.

(2) No person shall knowingly buy any retreaded controlled tyre at a price greater than that which the seller thereof is under the provisions of this Article permitted to charge.

4. (1) No person shall buy or sell any secondhand controlled tyre at a price greater than two-thirds of the appropriate price ascertained in accordance with the provisions of the following paragraphs of a new tyre of the same size, quality and type.

(2) In any case where any secondhand controlled tyre is being sold for use on a commercial vehicle and at the time of that sale the price for a new tyre of the same size, quality and type is fixed by any standard price list generally accepted by the motor trade as applying to sales in the home market of tyres intended for use on a commercial vehicle the appropriate price shall be the price so fixed.

(3) In any case where any secondhand controlled tyre is being sold otherwise than for use on a commercial vehicle and at the time of that sale the retail price for a new tyre of the same size, quality and type is fixed by any standard price list generally accepted by the motor trade as applying to sales by retail in the home market of tyres not intended for use on a commercial vehicle, the appropriate price shall be the price so fixed.

(4) In any case where any secondhand controlled tyre is being sold to any person and at the time of that sale the appropriate price cannot be ascertained in acordance with the provisions of either paragraph (2) or paragraph (3) of this Article, the appropriate price shall be the price which a seller of a new tyre of the same size, quality and type might reasonably have been expected to obtain upon a sale by retail effected by him in the home market at that time.

5. In ascertaining the amount of any price fixed by any price list or in ascertaining the amount of any price by reference to any price list, no regard shall be paid to any provision for any discount contained in that price list.

6. Articles 3 and 4 of this Order shall not be construed so as to apply to the bona fide purchase and sale of any vehicle, including all such tyres as are fitted to and form part of it or are part of its usual equipment.

7. In this Order

(*a*) the expression "tyre" means the outer cover and inner tube of any rubber tyre and either or both of them,

(*b*) the expression "controlled tyre" means any tyre which is controlled within the meaning of Article 1 of this Order,

(*c*) the expression "secondhand controlled tyre" does not include an unused retreaded tyre,

(*d*) the expression "retreading" means retreading, remoulding, recapping, resoling and any other similar method of reconditioning a partly worn tyre by the addition to it of rubber or rubber compound,

(*e*) the expressions "buy" and "sell" include the making of any invitation to buy, and all cognate expressions shall be construed accordingly, and

(*f*) the expressions "charge" and "pay" include the making of any offer or agreement to charge or pay respectively.

8. This Order shall come into force on the 15th day of January, 1942, and may be cited as the Control of Rubber Tyres (No. 2) Order, 1942.

Dated this 13th day of January 1942.

THE DRIED FRUITS (CONTROL AND MAXIMUM PRICES) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 112.

EMERGENCY POWERS (DEFENCE).

Food (Dried Fruits).

The Dried Fruits (Control and Maximum Prices) Order, 1942, dated January 21, 1942.

IN exercise of the powers conferred upon him by Regulations 55 and 60 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling, the Minister of Food hereby makes the following Order :—

1. In this Order :—

"The Minister" means the Minister of Food.

"Authorised mark" means a brand, name or other mark authorised by or on behalf of the Minister for the purposes of this Order, provided that any brand, name or other mark which was in regular use in relation to dried fruit immediately prior to 7th September 1939, shall, unless the Minister otherwise directs, be deemed to be so authorised.

"Buy" includes offer or agree to buy and "sell" includes offer or agree to sell.

"Catering business" means the business or undertaking of an inn, public house, hotel, restaurant, buffet, coffee stall, or any place of refreshment open to the public, or of any club, boarding house, refreshment contractor or canteen and the expression "caterer" shall be construed accordingly.

"Dried fruit" means any of the dried fruits mentioned in the First Column of the First Schedule to this Order.

"Excepted Product" means any of the following products :—

(i) Pickles, sauces and relishes.
(ii) Mincemeat and fruit curd within the meaning of the Mincemeat and Fruit Curd (Control and Maximum Prices) Order, 1941(a).
(iii) Any "classified product" within the meaning of the Sugar Confectionery (Maximum Prices) Order, 1941(b), or the Chocolate and Chocolate Confectionery (Maximum Prices) Order, 1941(c).
(iv) Any medicine and any pharmaceutical preparation.
(v) Bread, buns, puddings, cake and flour confectionery and biscuits; any similar product having flour as a principal ingredient.

"First hand distributor" in relation to a sale of dried fruit means a person who has bought the same from the Minister.

"Manufacturer" in relation to a sale of dried fruit means a person buying the same in connection with any trade or business other than a catering business for use in the manufacture or preparation of any other article.

"Pre-packed" in relation to any dried fruit means packed or made up in advance ready for retail sale in a wrapper or container, and "pre-pack" shall be construed accordingly.

"Sale by retail" means a sale to a person buying otherwise than for the purposes of resale, and includes a sale to a caterer for the purposes of his catering business, but does not include a sale to a manufacturer.

"Sale by wholesale" means any sale other than a sale by retail and "wholesaler" shall be construed accordingly.

2. No person shall buy or sell or expose for sale any dried fruit at a price exceeding the price applicable in accordance with the First and Second Schedules to this Order.

3. Except under and in accordance with the terms of a licence granted by or on behalf of the Minister, no person shall pre-pack or cause or permit to be pre-packed any dates under a registered trade mark or authorised mark.

4. No person shall :—

(a) buy or sell or expose for sale any dried fruit for which a maximum price is prescribed by this Order, mixed with any dried fruit for which a different maximum price is prescribed by this Order;

(b) buy or sell or expose for sale any dried fruit mixed with any article other than dried fruit;

(c) use or cause or permit to be used in connection with any trade or business other than a catering business any dried fruit as an ingredient in any manufactured product;

(d) buy or sell or expose for sale any manufactured product having as an ingredient any dried fruit;

Provided that nothing in this Article shall,

(i) prohibit the sale or purchase by any person of a mixture of nut kernels and dried fruit complying with the provisions of paragraph (a) of Article 3 of the Nut Kernels (Control and Maximum Prices) Order, 1941(a), as amended(b);

(ii) prohibit the manufacture, preparation, sale or purchase of any excepted product.

5. Where on a sale of dried fruit by wholesale any charge is made in addition to the maximum price in accordance with the Second Schedule to this Order, the amount of each such charge shall be shown as a separate item on an invoice to be furnished by the seller to the buyer within seven days of the delivery of the dried fruit.

6. (1) Every person who sells by wholesale any dried fruit shall keep or cause to be kept an accurate record of all sales and purchases by him thereof such record to include particulars identifying the persons from whom the dried fruit was purchased or to whom the dried fruit was sold and particulars of the quantity and description of the dried fruit purchased or sold as the case may be and of the prices charged and of each and every addition to the maximum price.

(2) Every person who sells by retail any dried fruit shall keep or cause to be kept an accurate record of all purchases by him thereof, such record to include particulars identifying the persons from whom the dried fruit was purchased, and particulars of the quantity and description of the dried fruit purchased, and of the prices charged and of each and every addition to the maximum price.

(3) Retention by any person of an invoice or a copy of an invoice shall as respects the particulars mentioned in such document be sufficient compliance by that person with the provisions of this Article.

7. In any proceedings under this Order in respect of an alleged infringement of this Order on the occasion of a sale by retail of any pre-packed dried fruit, the Court may disregard any inconsiderable deficiency in the weight of the dried fruit contained in a single wrapper or container, and may also

regard to the average weight of dried fruit contained in a reasonable number of wrappers or containers of the same kind (if any) sold or delivered by the defendant or in his possession for the purpose of sale or delivery on the same occasion, and generally to all the circumstances of the case.

8. Where the maximum retail price of any dried fruit calculated according to the provisions of this Order includes any fraction of one farthing such fraction shall be regarded as one farthing.

9. No person shall in connection with the sale or disposition or proposed sale or disposition of any dried fruit, enter or offer to enter into any fictitious or artificial transaction or make or demand any unreasonable charge.

10. This Order shall not apply to the sale of any dried fruit as a meal or part of a meal served by a caterer in the course of his catering business.

11. (1) The provisions of this Order are subject to any directions, authorisations or licences which may at any time be given or granted by or on behalf of the Minister.

(2) Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation.

12. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

THE RICE (CONTROL) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 256.

EMERGENCY POWERS (DEFENCE).

Food (Rice).

The Rice (Control) Order, 1942, dated February 11, 1942.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling, the Minister of Food hereby makes the following Order :—

1. In this Order :—

(a) "The Minister" means the Minister of Food.

(b) "Caterer" means a person carrying on the business or undertaking of an inn, public house, hotel, restaurant, buffet, coffee stall or any place of refreshment open to the public or of any club, boarding house, refreshment contractor or canteen, and the expression "catering business" shall be construed accordingly.

"Human food" does not include any article manufactured, produced or prepared by a brewer or distiller in the course of his brewing or distilling business.

"Meat" means bacon, ham, beef, mutton, lamb, veal, pork, edible offal, poultry, game, rabbit, hare, venison or goats flesh.

"Meat product" means any product containing meat.

"Permitted purpose" means use as human food or in the manufacture, production or preparation of human food.

"Rice" means any rice or rice product but does not include cargo-broken rice, rice bran or rice offals.

"Sale by retail" means any sale to a person buying otherwise than for the purpose of resale, and any sale to a person for the purposes of a catering business carried on by him.

"Sell" includes offer or agree to sell and "buy" includes offer or agree to buy.

2. (1) Except under and in accordance with the terms of a licence or other authority granted by or on behalf of the Minister for the purposes of this Order :—

(a) no person shall manufacture for sale flaked rice ;

(b) no person shall use any rice except for a permitted purpose, provided that this

restriction shall not prohibit the use of rice for any purpose for which it is sold by the Minister;

(c) no person shall buy any broken rice except from the Minister or sell any broken rice except to the Minister;

(d) no person shall after the 1st day of March, 1942, buy or sell any rice or rice product for the purpose of manufacturing any meat product.

(2) No person shall after the 1st day of May, 1942,

(i) use or cause to be used any rice or rice product in the manufacture of any bread or any meat product;

(ii) buy or sell any ground rice by retail.

3. Every person (other than a retailer acting in the ordinary course of his retail business) who shall have any dealings by way of trade or business in rice shall keep or cause to be kept an accurate record of all such dealings (including sales made by him to a caterer for the purposes of his catering business) and such person shall include in such record particulars identifying the persons from whom rice was purchased and the persons to whom rice was sold and shall at all reasonable times permit any person authorised by or on behalf of the Minister to inspect such accounts and records.

4. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

5. (1) The provisions of this Order shall have effect subject to any special or general directions, authorisations or licences which may from time to time be given or granted by or on behalf of the Minister.

(2) Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation.

6. The Rice (Control) Order, 1941 (a), is hereby revoked but without prejudice to any proceedings in respect of any contravention thereof.

7. This Order shall come into force on the 16th day of February, 1942, and may be cited as the Rice (Control) Order, 1942.

Food (Nut Kernels and Dried Fruit).

Order, dated February 11, 1942, amending the Nut Kernels (Control and Maximum Prices) Order, 1941, and the Dried Fruits (Control and Maximum Prices) Order, 1942.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling the Minister of Food hereby makes the following Order:—

1. The Nut Kernels (Control and Maximum Prices) Order, 1941 (a), as amended (b), (hereinafter referred to as "the First Principal Order") shall be further amended:—

(a) by inserting at the end of Article 2 thereof the following words: "provided that the restrictions imposed by this Article shall not apply to the sale or purchase of Jordan almonds, Valencia almonds, pistachio or pignolia nut kernels"

(a) S. R. & O. 1941, No. 534.
(b) S. R. & O. 1941, No. 1289.

(b) by deleting paragraph (a) of Article 3 thereof;

(c) by inserting after Article 3 thereof the following Articles:—

"3A. *No person shall mix or cause or* permit to be mixed any nut kernels with fruit for the purpose of sale.

3B. No person shall sell or agree to sell or offer or expose for sale or buy or agree or offer to buy any nut kernels mixed with fruit provided that nothing in this Article shall prohibit the sale or purchase prior to the 1st day of April, 1942, of a mixture of peanut kernels and dried fruit made prior to the date of the coming into force of this Order and of which the peanut kernels constitute not less than 75 per cent. of the net weight";

(d) by substituting for Article 7 thereof the following Article:—

"7. This Order shall not apply to the sale or purchase of nut kernels or desiccated coconut as part of a meal served by a caterer in the course of a catering business carried on by him."

2. The Dried Fruits (Control and Maximum Prices) Order, 1942 (c), (hereinafter referred to as the "Second Principal Order") shall be amended by substituting in proviso (i) to Article 4 thereof for the words "paragraph (a) of Article 3" the words "Article 3B".

3. (1) This Order shall come into force on the 16th day of February, 1942.

(2) Copies of the First Principal Order and the Second Principal Order to be printed under the authority of His Majesty's Stationery Office after the date of the coming into force of this Order shall be printed with the amendments provided for by this Order, and the First Principal Order and the Second Principal Order shall take effect as hereby amended.

IMPORT LICENSING IN THE UNITED KINGDOM.

CONTROL OF WAR-TIME IMPORTS.

THE following is reproduced from the *Board of Trade Journal*, dated the 24th January 1942:—

While an increasing proportion of all imports into the United Kingdom is now being brought in directly for Government account, more than 90,000 import licences, covering a great variety of goods, were issued by the *Import Licensing Department of the Board of Trade in 1941. A considerably greater proportion of applications for licences was considered.

Figures showing current value of United Kingdom imports are not published but in pre-war years total imports were of the order of £900 million a year in value. Import control was instituted in the United Kingdom from the outbreak of war. Practically the whole of this trade to-day is done either for Government account or is subject to Board of Trade licensing control.

NECESSITY FOR CONTROL.

On the outbreak of war it became vitally necessary to safeguard our exchange resources to provide for the greatly increased purchases of raw materials and munitions, particularly in dollar and other hard currency countries. A long list of luxury and non-essential imports became subject to import licensing on 5th September 1939 by an Order issued under the Import, Export and Customs Powers (Defence) Act, 1939.

A considerable saving in expenditure was immediately effected and import licensing was also used to assist the administration of the Defence (Finance) Regulations as well as that of the Trading with the Enemy legislation. As raw materials became subject to Control orders in the United Kingdom, these goods were also added to the import schedule to make the control complete and help to ensure that such raw materials were put to essential wartime uses.

On the collapse of France our shipping position became serious and considerations of shipping space and port handling facilities were then, and are now, so important that even the most essential goods required for direct furtherance of the war effort had to be subject to close import control to ensure an ordered flow of imports.

* The address of the Import Licensing Department, Board of Trade, is 1—6 Tavistock Square, London, W.C.1.

The scale of the original restrictions may be indicated by saying that the list of 5th September 1939 covered goods which had been imported in 1938 to the value of £80 million and that additions were made at an average rate of £90 million a month, until in June 1940 all commodities (except live quadruped animals) were made subject to licence by the Import of Goods (Control) Order, 1940.

A very small range of goods such as newspapers, press photographs, fresh fish (other than frozen), for which import control is either impracticable or undesirable, is exempt from individual licence on import from any country under Open General Licences and a short list of raw materials is also permitted to be imported freely from the British Empire, the Belgian Congo, Ruanda-Urundi and those French Colonies which have rallied to the Free French cause.

As our resources became strained to the utmost to buy, ship and handle the imports urgently required for the prosecution of the war, even further steps were necessary in the modification or withdrawal of three administrative concessions. First, in December 1940, goods returned after exportation from the United Kingdom became subject to licence on re-importation; secondly, in June 1941, a severe modification of the gift parcel concessions was imposed reducing the allowable weight of gift parcels which can be delivered to private addresses from 22 lb., the Post Office limit, to 5 lb., with the further limit that no parcel may contain more than 2 lb. of any one foodstuff; thirdly, in July 1941 goods shipped to the United Kingdom and entered with Customs as in transit or for transhipment to any destination became subject to licence.

Gifts from Abroad.

Apart from import restrictions, other measures are adopted to reduce consumption of less essential goods, such as petrol rationing, control of the release of raw materials and the Limitation of Supplies Orders which restrict the production and sales of a large range of goods forming part of a citizen's normal budget.

The equitable distribution of essential clothes, textiles and foods is effected by rationing on point or quota systems and gifts of such goods in excessive amounts or at frequent intervals (solicitation is illegal) tend to destroy this equitable distribution by giving an advantage to those citizens who have kind-hearted friends or relatives oversea.

Moreover, as the provision of our necessary requirements is ensured by other means, excessive quantities of gift parcels sent to individuals, as distinct from charitable organisations which can distribute under approved schemes, are wasteful of our limited shipping space.

It would be better, of course, if observance of the gift parcel regulations could always be effected at the export end, so avoiding wastage of shipping space and disappointments. A great deal of co-operation in this direction has now been secured through the publicity given to the regulations by Postal Authorities and others abroad, but more might be achieved.

Licensing Procedure.

It is clear that the control in this country must be applied uniformly and with reasonable strictness if the regulations are to be maintained. Fortunately, well-wishers oversea appear to appreciate the motive of the regulations in the principle of fair shares for all at this time when it is necessary to do everything possible to ensure that shipping space is used to the very best advantage.

The principle of equity is also observed in the licensing procedure whereby, when the imports of a commodity are reduced below normal, it is the general policy to restrict the issue of licences to those firms which can prove pre-war imports and the available quantity is distributed proportionately between them on a quota system; but in many cases imports can be allowed to meet Service requirements only.

All import licences are issued by the Board of Trade, but other Government Departments are responsible for the licensing policy for many commodities. Imports of foodstuffs are, of course, the primary responsibility of the Ministry of Food, and most raw materials and some finished products are the responsibility of the Ministry of Supply or one of that Ministry's Controls.

Roughly speaking, the Board of Trade is primarily responsible for imports of tobacco, dyes and dyestuffs, and finished products other than munitions of war. The available shipping space is divided up between these three Departments who work to carefully prepared shipping programmes and exchange allocations.

Forms of application reach the Import Licensing Department of the Board of Trade either directly from importers or *via* some other Government Department. Licences, issued usually to the firm which is primarily responsible for paying the oversea supplier, have to be presented by the importer to his Bank to secure an allocation of exchange and to the Customs Officer at the port or postal depot where the goods arrive.

Either the licence, or a copy of the Customs entry, or both, are passed by Customs to the Import Licensing Department, where full records of the licensing position are kept for each licence holder and each commodity. Although no guarantee can be given that licensed goods will be lifted as soon as they are available at the port of exportation, every endeavour is made to see that shipping space is provided.

Effect of Import Restrictions.

After more than two years of import restrictions the general public is well aware of the results. As examples of the effects on market supplies it may be said that, apart from a few cargoes diverted to this country in 1940 when various European countries were overrun by Germany, there have for two years been no importations from oversea of such goods as toys, domestic glassware pottery, vacuum cleaners, domestic refrigerators, leather footwear, printing and textile machinery, toilet preparations, mechanical lighters, furniture, motor cars and many other articles of common use, as well as many foods forming part of general diet in pre-war years.

Moreover, the production of many of these same products in the United Kingdom has been substantially reduced by a change over to production of various munitions of war.

The passing of the Lend-Lease Act rendered invaluable assistance to the United Kingdom in its war effort, but by no means removed our need to earn and conserve foreign exchange to the utmost, so that it has not been possible to pursue a less strict import licensing policy subsequent to the passing of the Lend-Lease Act. The process of belt tightening still continues and the extent of Government control still widens daily, if more slowly because the more drastic restrictions were made long before December 1941.

IMPORT LICENSING IN THE UNITED KINGDOM.

NOTICE TO IMPORTERS No. 148: SHELLAC REVOCATION OF "EMPIRE" OPEN GENERAL LICENCE.

The following is reproduced from the *Board of Trade Journal*, dated the 24th January 1942:—

The Board of Trade announce that the Open General Licence permitting the importation without separate licence of Shellac from the British Empire, Palestine and Transjordan, the Free French Colonies, the Belgian Congo and Ruanda-Urundi has been revoked with effect from 26th January 1942.

From that date separate licences will be required, but this will not apply to goods which are proved to the satisfaction of the Commissioners of Customs and Excise to have been dispatched to the United Kingdom before the 26th January 1942, and which are imported into the United Kingdom before the 26th March 1942.

The attention of importers is directed to the fact that the term "Shellac" includes seedlac and sticklac.

Applications to import Shellac should be made on the standard form, copies of which may be obtained from the Import Licensing Department, Board of Trade, 1—6 Tavistock Square, London, W.C.1, or from the offices of the Collectors of H. M. Customs and Excise and should be sent to the Import Licensing Department.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Rubber).

The Control of Rubber (No. 7) Order, 1942, dated February 19, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows :—

1. No person shall in the production of any footwear, other than soles, heels, heel tips or sheet soleing produced by any moulded or press cure process, in the United Kingdom use any compound containing

(a) any titanium oxide,
(b) any lamp black,
(c) any lithopone, unless that compound is being used in the production of foxing and the proportion, calculated by weight, of lithopone contained therein does not exceed 10 per centum,
(d) a greater proportion, calculated by weight, of zinc oxide than
  (i) if used in the production of foxing, 5 per centum,
  (ii) if used in the process of frictioning, coating, or spreading in connection with the linings of any footwear, 50 per centum, or
  (iii) if used otherwise than as aforesaid, 30 per centum.

2. (1) No person shall in the United Kingdom produce any boot in the production of which there is used any rubber or rubber compound, and which is of any of the descriptions specified in the first column of the Schedule hereto, if the height of such boot exceeds the permitted height.

(2) The permitted height of a boot of any description specified in the first column of the Schedule hereto shall be the height set opposite that description in the second column of the Schedule hereto and shall be calculated by measuring from the back of the heel in the inside of that boot to the top of the leg.

3. (1) Notwithstanding the provisions of Articles 1 and 2 of this Order, the Minister of Supply may by licence granted by him authorise the doing of any act which would otherwise be prohibited by either or both of those Articles.

(2) The holder of any licence granted under this Order shall comply with any conditions contained or incorporated in the licence.

(3) If any licence granted under this Order is revoked by the Minister of Supply the holder of the licence shall forthwith deliver up the licence to the Minister of Supply or as directed by him.

4. (1) Notwithstanding anything contained in the Control of Rubber (No. 1) Order, 1941(a), the Control of Rubber (No. 5) Order, 1942(b), or the Control of Rubber (No. 6) Order, 1942(c) any maker or repairer of footwear may acquire or agree or offer to acquire and subject to the provisions of the Control of Rubber (No. 4) Order, 1942(d) (which prohibits the production from sole crepe of any sole or heel for any article of footwear), may treat use or consume any sole crepe for the purpose of repairing any footwear.

(2) In this Article references to offers to acquire shall be construed as including references to invitations of offers to dispose of and the expression "acquire" includes the acquisition and the expression "dispose of" includes the disposal of

(i) ownership or any proprietary interest, or
(ii) the right to possession, or
(iii) possession where not accompanied by any acquisition or disposal of ownership or of any proprietary interest or of the right to possession and the expressions "acquisition" and "disposal" shall be construed accordingly.

5. In this Order

(1) the word "footwear" means any boot, shoe, sandal or other article of footwear or part thereof, and

(2) the words "uppers", "legs", "linings" and "foxing" have respectively the meanings which they customarily bear in the trade of manufacturing footwear, provided that the word "foxing" shall not include any foxing exceeding ½ in. in breadth overall.

6. This Order shall come into force on the 25th day of February, 1942, and may be cited as the Control of Rubber (No. 7) Order, 1942.

(2) The full name and address of the person (including firm or company) making the return must be inserted.

(3) Quantities of Wet Grains should be entered in Tons or Bushels. It is not necessary to make the required entries in both columns.

THE FLOUR AND FLOUR MIXTURES (LICENSING AND CONTROL) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 348.

EMERGENCY POWERS (DEFENCE).

Food (Flour).

The Flour and Flour Mixtures (Licensing and Control) Order, 1942, dated February 27, 1942.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling, the Minister of Food hereby makes the following Order:—

1. (1) In this Order:—

(*a*) "The Minister" means the Minister of Food.

(*b*) "Article of food" means any article used as food or drink for human consumption and includes any substance which ordinarily enters into or is used in the composition or preparation of human food, and also includes any flavouring matter or condiment.

"Flour" means national straight run flour, national wheat meal, imported flour and speciality flour.

"Flour mixture" does not include

(i) any custard powder or blancmange powder manufactured in accordance with a licence under the Starch Food Powders (Control) Order, 1941 (a); or

(ii) any cooked manufactured product; but subject thereto means any article of food containing not less than 25 per cent of flour.

"To pack" means to pack for sale in a container containing 28 lb. or less.

(2) Subject to the provisions of this Order, words and expressions in this Order have the same meaning as in the Flour (Control & Prices) Order, 1941(b), as amended (c).

2. Except under and in accordance with the terms of a licence granted by or on behalf of the Minister no person shall on or after the 30th March 1942, in connection with any trade or business,

(*a*) pack or cause or permit to be packed any flour; or

(*b*) manufacture or pack or cause or permit to be manufactured or packed any flour mixture.

Provided that nothing in this Article shall prohibit

(i) the packing of any flour by a flour miller;

(ii) the packing of any flour by a retailer for the purpose of retail sale by him on the premises on which the flour is packed;

(iii) the manufacture or packing by any person during the period of twelve months commencing on the second day of March 1942, or during any successive perod of twelve months thereafter, of a quantity of flour or flour mixtures not exceeding in total in any such period 10 tons (exclusive of any quantities packed by such person by virtue of the two foregoing provisos to this Article); such total to be calculated by adding together the quantities both manufactured and packed by such person and the quantities either manufactured or packed by him.

(a) S. R. & O. 1941 No. 1742.

(b) S. R. & O. 1941 No. 1291.
(c) S. R. & O. 1941 Nos. 1478 and 1529.

3. (1) Every person licensed under Article 2 of this Order shall keep or cause to be kept an accurate record showing the descriptions and quantities of flour and flour mixtures both manufactured and packed by him and the descriptions and quantities either manufactured or packed by him.

(2) Every person licensed under Article 2 of this Order to manufacture any flour mixture shall keep or cause to be kept an accurate record of all purchases by him of all ingredients of such flour mixture and of its disposal and of all agreements made by him for the purchase of such ingredients (including any such agreements entered into before the date of the coming into force of this Order where any of the ingredients thereby agreed to be purchased has not been delivered to him at that date), such record to show in each case the name and address of the seller, the descriptions, quantities (or estimated quantities) and prices of the ingredients and the manner of their disposal.

4. (1) The provisions of this Order are subject to any directions, authorisations or licences which may at any time be given or granted by or on behalf of the Minister.

(2) Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation.

5. The Food Substitutes (Control) Order, 1941(a), shall be amended by inserting after Article 5 thereof the following Article:

"5A. This Order shall not apply to the manufacture or sale of any flour mixture manufactured in accordance with a licence under the Flour and Flour Mixtures (Licensing and Control) Order, 1942."

6. The Soya Flour (Control and Maximum Prices) Order, 1941(b), as amended(c), shall be further amended by inserting at the end of sub-paragraph (*b*) of Article 2 thereof the words "or of any flour mixture manufactured in accordance with a licence under the Flour and Flour Mixtures (Licensing and Control) Order, 1942."

7. The Saccharin (Control and Maximum Prices) Order, 1941(d), as amended(e), shall be further amended by inserting in the proviso to Article 2 thereof before the words "as the case may be" the words "or the Flour and Flour Mixtures (Licensing and Control) Order, 1942."

8. Copies of the Orders hereby amended to be printed under the authority of His Majesty's Stationery Office after the coming into force of this Order shall be printed in accordance with the amendments provided for by this Order and the said Orders shall take effect as hereby amended.

9. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

10. This Order shall come into force on the second day of March, 1942, and may be cited as the Flour and Flour Mixtures (Licensing and Control) Order, 1942.

By Order of the Minister of Food.

THE CONTROL OF RUBBER (No. 8) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 439.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Rubber).

The Control of Rubber (No. 8) Order, 1942, dated March 10, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows :—

Restrictions on use of rubber in belting.

1. No person shall except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply produce in the United Kingdom any belting (except stepped-ply belting) in which the sum of the thicknesses of the rubber covering the face and the back of the belting shall exceed $\frac{1}{8}$ of an inch.

2. No person shall except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply produce in the United Kingdom any stepped-ply belting containing more than 1 step and except as aforesaid the sum of the thicknesses of the rubber covering the face and the back of the belting shall not exceed $\frac{1}{8}$ of an inch at the point or points where there are the greatest number of plys.

3. (1) No person shall except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply produce in th United Kingdom any belting in which the quality of the rubber exceeds that specified in the First Schedule to this Order.

(2) Notwithstanding anything contained in paragraph (1) of this Article any person may produce belting containing rubber of a higher quality than

is specified in the First Schedule to this Order provided that

(a) he believes on reasonable grounds that such belting is required for either or both of the purposes mentioned in the Second Schedule to this Order, and

(b) the rubber covering the face of such belting does not exceed three-sixteenths of an inch in thickness and the rubber covering the back thereof does not exceed one-sixteenth of an inch in thickness, and

(c) such belting has a breaker strip fitted between the top ply and the rubber covering the face to prevent the tearing away of that rubber.

4. For the purposes of Articles 1, 2 and 3 of this Order the thickness of the rubber covering the face or the back of any belting shall be the difference between the thickness of the belting before the said rubber has been stripped off and its thickness afterwards.

Acquisition and disposal of belting.

5. (1) Subject to the provisions of Article 6 of the Order no person shall dispose of or agree or offer to dispose of any belting except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply.

(2) Subject to the provisions of Article 6 of this Order, no person shall acquire or agree or offer to acquire any belting except

(a) from a person who is authorised to dispose of that belting by virtue of a licence granted by the Minister of Supply, or

(b) under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply.

Exceptions and special provisions.

6. (1) Nothing in this Order shall prohibit or restrict any acquisition or disposal or agreement or offer to acquire or dispose of any belting by, from or to the Minister of Supply.

(2) For the purposes of this Order: where any belting is acquired by or disposed of to a carrier or warehouseman or servant acting in the ordinary course of his business or employment as such, the belting shall be deemed to be acquired by or disposed of to the person on whose behalf or to whose order the carrier or warehouseman or servant so acquires that belting and not by or to the carrier or warehouseman or servant; and where any belting is acquired from or disposed of by a carrier or warehouseman or servant acting as aforesaid, that belting shall be deemed to be acquired from or disposed of by the person on whose behalf or by whose order the carrier or warehouseman or servant so disposes of that belting and not from or by the carrier or warehouseman or servant.

(3) In any proceedings in respect of any acquisition or disposal or agreement or offer to acquire or dispose of any belting in alleged contravention of Article 5 of this Order, it shall be a defence if the Defendant shall prove that the belting was situate outside the United Kingdom at the time at which the acquisition or disposal or agreement or offer (as the case may be) was made, or, if and in so far as the agreement or offer did not relate to specific belting, that no belting situate or to be situate in the United Kingdom at the time of appropriation was or was intended to be appropriated to the agreement or proposed agreement.

Licences.

7. (1) The holder of any licence granted under this Order shall comply with any conditions contained or incorporated in the licence.

(2) If any licence granted under this Order is revoked by the Minister of Supply the holder of the licence shall forthwith deliver up the licence to the Minister of Supply or as directed by him.

Interpretation.

8. In this Order—

(a) the expression "belting" means any type of conveyor or elevator belting containing rubber, including stepped-ply belting;

(b) references to offers to acquire or dispose of shall be construed respectively as including references to invitations of offers to dispose of or acquire; and

(c) the expression "acquire" includes the acquisition, and the expression "dispose of" includes the disposal of—

(i) ownership or any proprietary interest, or

(ii) the right to possession, or

(iii) possession, whether or not accompanied by any acquisition or disposal of ownership or of any proprietary interest or of the right to possession,

and the expressions "acquisition" and "disposal" shall be construed accordingly.

Commencement and citation.

9. This Order shall come into force on the 16th day of March, 1942, and may be cited as the Control of Rubber (No. 8) Order, 1942.

THE CONTROL OF THE COTTON INDUSTRY (No. 29) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 412.

Maximum Prices for Cotton Waste.

THE following is reproduced from the *Board of Trade Journal*, dated the 14th March, 1942 :—

The Control of the Cotton Industry (No. 24) Order, 1941, which fixed maximum prices for cotton waste, has been revoked and replaced by the Control of the Cotton Industry (No. 29) Order, 1942 (S.R. & O. 1942 No. 412, price 2*d*.). The No. 24 Order applied to waste of the classes and descriptions specified in the Schedule to that Order.

The new Order extends the application of maximum prices to waste of any of the classes specified in the First Schedule of the Order even though it be not of a specified description. Maximum prices for the various grades of waste of a specified class and description are set out in the Schedule. Sales and purchase of waste of a class but not of a description specified in the Schedule may not be made until the price has been fixed by the Minister. The Order also provides that the Minister may permit, in exceptional cases, a higher price for special grades. No charge may be made for processing controlled cotton waste, other than spinning, bleaching and dyeing, without the previous approval of the Minister of Supply.

The obligation under the No. 24 Order to send a note or memorandum to the buyer on the date of the contract of sale will no longer apply to producers of cotton waste. The Order does not apply to existing contracts or to sales of cotton waste situate outside the United Kingdom and not intended to be imported.

TERMS AND CONDITIONS OF SALE.

Sales of controlled classes of waste must be made in accordance with the terms and conditions set out in the Second Schedule to the Order. One of these terms is that it, under the contract, delivery is to be made at a place other than the seller's premises and the contract so provides, an additional charge may be made equal to the expenses incurred for carriage from the place at which the waste was situated immediately before delivery. It is a breach of the Order for the seller to charge and the buyer to pay more than the expenses properly incurred in such carriage.

Applications for the Minister to fix a maximum price for waste specified as to class but not as to description, for permission to sell at a higher price in the case of special grades, or for approval of processing charges, should be made to the Cotton Control, Cotton Waste Section, Arkwright House, Parsonage, Manchester 3.

THE CONTROL OF THE COTTON INDUSTRY (No. 30) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 442.

EMERGENCY POWERS (DEFENCE).

Cotton Industry.

The Control of the Cotton Industry (No. 30) Order, 1942, dated March 11, 1942, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows :—

1. The Control of the Cotton Industry (No. 18) Order, 1941(**a**), is hereby revoked.

2. The Control of the Cotton Industry (No. 2) Order, 1940(**b**), as varied by the Control of the Cotton Industry (No. 5) Order, 1940(**c**), the Control of the Cotton Industry (No. 9) Order, 1940(**d**), the Control of the Cotton Industry (No. 12) Order, 1940(**e**), the Control of the Cotton Industry (No. 17) Order, 1941(**f**), the Control of the Cotton Industry (No. 20) Order, 1941(**g**), and the Control of the Cotton Industry (No. 28) Order, 1942(**h**), is hereby further varied by :—

(i) substituting for sub-paragraph (*a*) of paragraph (2) of Article 1 thereof the following sub-paragraph :—

"(*a*) at a price less than the price per pound at which the yarn was purchased by him, but subject if he purchased the yarn before the 16th day of March, 1942, to the deduction of 0·60*d*. per lb., if the yarn is a carded yarn, or 0·70*d*. per lb., if the yarn is a combed yarn or ";

(ii) deleting paragraph (7) of Article 1 thereof ;

(iii) deleting from Article 6 thereof all words after the words "the price payable therefor ;"

(iv) substituting for paragraph 1 of Part I of Appendix I thereto the following paragraph :—

"In this Part of this Appendix "the raw cotton cost" in relation to any raw cotton used or intended to be used in producing any yarn means

(*a*) if that cotton was purchased or agreed to be purchased by the producer of the yarn before the 13th day of October, 1941, or is so purchased or agreed to be purchased after the date of the contract of sale of the yarn, the price in pence per lb. fixed by the Minister of Supply for that cotton pursuant to the provisions in that behalf contained in the Order, or

(*b*) if that cotton was purchased or agreed to be purchased by the producer of the yarn on or after the 13th day of October, 1941, but before the date of the contract of sale of the yarn, the price in pence per lb. paid or agreed to be paid by the producer of the yarn for that cotton but subject, if the cotton was so purchased before the 16th day of March, 1942, to the deduction of 0·50*d*. per lb.; " and

(v) deleting from Section 2 and Section 7 of Schedule One in Part III of Appendix I the words "Beams and " and the margins specified in each of those Sections in relation to yarn delivered on beams.

3. (1) No person shall sell or agree or offer to sell any controlled Egyptian type yarn produced or intended to be produced by him wholly or partly from raw cotton purchased or agreed to be purchased by him before the 13th day of October, 1941, or after the date of the contract of sale of the yarn, unless the price for the raw cotton of each kind staple and grade so purchased or agreed to be purchased used or intended to be used by him in producing that yarn has been fixed for the purpose of the Control of the Cotton Industry (No. 2) Order, 1940, as varied as aforesaid, by the Minister of Supply.

(2) The price in pence per pound for raw cotton of any kind staple and grade which is used or intended to be used by any person in producing any controlled Egyptian type yarn and was purchased or agreed to be purchased by him before the 13th day of October, 1941, or is to be so purchased after the date of the contract of sale of the yarn shall, on his making application in writing to the Cotton Controller, be fixed for the purposes of the Control of the Cotton Industry (No. 2) Order, 1940, as varied as aforesaid, by notice in writing given to him by the Minister of Supply.

(3) Any person to whom notice fixing a price for any raw cotton is given under this Article shall keep a record of the price so fixed.

(4) Any record to be kept by any person pursuant to this Article shall if so required by notice in writing given to him by the Minister of Supply be kept in such form as may be prescribed by such notice.

(5) Article 5 of the Control of the Cotton Industry (No. 2) Order, 1940, as varied by the Control of the Cotton Industry (No. 12) Order, 1940, and Article 2 of the Control of the Cotton Industry (No. 20) Order, 1941, shall, notwithstanding anything therein contained, cease to apply in relation to controlled Egyptian type yarn produced on or after the 16th day of March, 1942.

4. Notwithstanding anything contained in the Control of the Cotton Industry (No. 2) Order, 1940, as varied as aforesaid, each of the margins specified in any of the Sections of either of the Schedules in Part III of Appendix I to that Order, as so varied, shall in ascertaining the prescribed price for any Egyptian type yarn be deemed to be increased by 7½ per centum and each of the margins specified in any of the Schedules in Part III of Appendix II to that Order, as so varied, shall in ascertaining the prescribed price for any American type yarn be deemed to be increased by 12½ per centum, and any addition or deduction to be made to or from any of the margins so specified pursuant to the provisions contained in any in those Sections or Schedules in ascertaining any margin shall be increased by the percentage by which the margin so specified is to be increased as aforesaid.

5. Where in accordance with any of the sub-paragraphs under the heading "Adjustments for delivery in other forms" of paragraph 5 in Part II of Appendix I to the Control of the Cotton Industry (No. 2) Order, 1940, as varied as aforesaid, or of paragraph 5 in Part II of Appendix II to that Order, as so varied,

either the amount payable by the buyer for any yarn is to be calculated at the prescribed price for that yarn with an addition calculated at a rate specified in pence per lb. in any of those sub-paragraphs

or the prescribed price for any yarn is the prescribed price for that yarn when delivered in a form specified in the sub-paragraph with an addition calculated at the rate specified in pence per lb. in any of those sub-paragraphs

then notwithstanding anything contained in any of those sub-paragraphs the addition so to be made shall be calculated at the rate so specified increased by 12½ per centum but this Article shall not apply to any addition which in accordance with any of those sub-paragraphs is to be calculated upon the weight of tubes or cones.

6. In calculating for the purposes of the Control of the Cotton Industry (No. 2) Order, 1940, as varied as aforesaid, any margin or any addition to or deduction from any margin or the prescribed price for any yarn any fraction of a penny less than 1/100th but not less than 1/200th shall be counted at 1/100th part of a penny and any fraction of a penny less than 1/200th shall be disregarded.

7. For the purposes of the Control of Cotton Industry (No. 2) Order, 1940, as varied as aforesaid, and Article 3 of this Order "the date of the contract of sale of the yarn" in relation to any offer for sale means the earliest date on which the offer may be accepted.

8. The Control of the Cotton Industry (No. 8) Order, 1940(**a**), as varied by the Control of the Cotton Industry (No. 9) Order, 1940, the Control of the Cotton Industry (No. 17) Order, 1941, and the Control of the Cotton Industry (No. 20) Order, 1941, is hereby further varied by :—

(i) substituting for sub-paragraph (*a*) of paragraph (2) of Article 1 thereof the following sub-paragraph :—

"if the doubled yarn is purchased or to be purchased by him the price per lb. at which the doubled yarn is purchased or to be purchased by him, but subject, if he purchased the doubled yarn before the 16th day of March, 1942, to the deduction at the rate of

0·65*d*. per lb. if the yarn is produced by doubling single carded yarn, or

0·75*d*. per lb. if the yarn is produced by doubling single combed yarn ";

(ii) deleting paragraph (6) of Article 1 thereof ; and

(iii) deleting paragraph (*d*) of Article 3 thereof.

9. This Order shall come into force on the 16th day of March, 1942, and may be cited as the Cotton Industry (No. 30) Order, 1942.

THE CONTROL OF RUBBER (No. 10) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 449.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Rubber).

The Control of Rubber (No. 10) Order, 1942, dated March 11, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows :—

Restriction of treatment use or consumption of liquid latex.

1. (1) Subject to the provisions of paragraph (2) of this Article no person shall in the United Kingdom treat use or consume any liquid latex, except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply.

(2) Notwithstanding anything contained in paragraph (1) of this Article, a person carrying on the business of a maker or repairer of leather footwear may treat, use or consume an amount of liquid latex not exceeding in any one month 44 gallons as an adhesive for the purposes of that business.

(3) In this Article the expression "footwear" has the meaning assigned to it by Article 5 of the Control of Rubber (No. 7) Order, 1942(a).

Licences.

2. (1) The holder of any licence granted under this Order shall comply with any condition contained or incorporated in the licence.

(2) If any licence granted under this Order is revoked by the Minister of Supply the holder of the licence shall forthwith deliver up the licence to the Minister or as directed by him.

Maximum prices for liquid latex.

3. (1) Subject to the provisions of paragraph 2 of this Article no person shall buy or sell or agree or offer to buy or sell any liquid latex of any description specified in column (1) of the First Schedule to this Order at a price exceeding the maximum price provided by column (2) of the said Schedule subject to the provisions of the Second Schedule for liquid latex of that description.

(2) Notwithstanding anything in paragraph (1) of this Article, in any proceedings in respect of any purchase or sale or agreement or offer for the purchase or sale of any liquid latex in alleged contravention of any provision of that paragraph it shall be a defence for the defendant to prove

(*a*) that the liquid latex was situate outside the United Kingdom at the time at which the purchase or sale or agreement or offer (as the case may be) was made or, if the agreement or offer did not relate exclusively to specific liquid latex, that no liquid latex situate or to be situate in the United Kingdom was or was intended to be appropriated to the agreement or proposed agreement, or

(*b*) that the liquid latex was not delivered and was not intended to be delivered to any person in the United Kingdom other than a person under an obligation to carry that liquid latex on behalf of the buyer thereof to a place outside the United Kingdom.

(a) S. R. & O. 1942 No. 302.

4. (1) In this Order the expression "liquid latex" includes aqueous dispersions of rubber whether natural or artificial, and also includes compounded, processed or unprocessed latex, whether normal or concentrated, and the expression "month" means a calendar month commencing on the first day of any month in the calendar.

(2) In this Order references to offers to buy or sell shall be construed respectively as including references to invitations of offers to sell or buy.

Commencement and citation.

5. This Order shall come into force on the 16th day of March, 1942, and may be cited as the Control of Rubber (No. 10) Order, 1942.

Dated this 11th day of March, 1942.

ORDER, DATED MARCH 11, 1942, AMENDING THE FLOUR (CONTROL AND PRICES) ORDER, 1941.

STATUTORY RULES AND ORDERS, 1942, No. 451.

EMERGENCY POWERS (DEFENCE).

Food (Flour).

Order, dated March 11, 1942, amending the Flour (Control and Prices) Order, 1941.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling, the Minister of Food hereby makes the following Order :—

1. The Flour (Control and Prices) Order, 1941(a), as amended(b), (hereinafter referred to as "the Principal Order") shall be further amended as follows :—

(*a*) by substituting for the definition of "national wheatmeal" appearing in paragraph 1(*b*) of Article 1 thereof the following definition :—

"'National wheatmeal' means in relation to flour produced after the 22nd day of March, 1942, flour of 85 per cent extraction, produced in the United Kingdom, so as to contain the maximum quantity of wheat germ which, having regard to the type of milling plant, can be included in such flour, but so as not to include any coarse bran; provided that national wheatmeal does not include flour so produced to which has been added any substance other than a substance authorised by the Minister to be an ingredient of national wheatmeal."

(*b*) by inserting after the definition of "national wheatmeal" appearing in paragraph 1 (*b*) of Article 1 thereof the following definition :—

"'Per cent extraction' means in relation to flour produced by the milling of wheat, the percentage which the weight of the flour separated in such milling bears to the total weight of all the products of that milling together with all screenings, seeds and dust

(a) S. R. & O. 1941 No. 1291.
(b) S. R. & O. 1941 Nos. 1478 and 1529.

extracted from that wheat by the miller prior to the milling thereof."

(*e*) by deleting the definition of "proprietary brown flour" appearing in paragraph 1 (*b*) of Article 1 thereof.

(*d*) by deleting in the definition of "speciality flour" appearing in paragraph 1 (*b*) of Article 1 thereof the words "any proprietary brown flour" and by inserting at the end of that definition the words "but does not include national straight run flour."

(*e*) by deleting in Article 3 thereof the words "national straight run flour or".

(*f*) by inserting after Article 3 thereof the following Article :—

"3A. Every licence to manufacture speciality flour granted by or on behalf of the Minister for the purposes of Article 3 of this Order shall unless the licence otherwise expressly provides be deemed to be subject to the condition that any such speciality flour manufactured on or after the 23rd day of March, 1942, shall not consist of or contain any flour of less than 85 per cent extraction."

(*g*) by inserting after Article 5 thereof the following Article :—

"5A. (1) No flour miller, licensed factor or importer shall sell or agree to sell, or deliver or cause or permit to be delivered to any person (whether or not in pursuance of any contract of sale entered into prior to the 23rd day of March 1942) any specified flour; provided that nothing in this Article shall prohibit any flour miller, licensed factor or importer from selling or delivering

(*a*) to any person any specified flour packed prior to the 23rd March 1942, in containers containing 28 lb. or less; or

(*b*) to any person licensed to produce bread for sale under the Bread (Licensing of Producers) Order, 1941(a), any quantity of specified flour, if at the same time he sells or, as the case may be, delivers, to such person not less than three times such quantity of national wheatmeal.

(2) In this Article, "specified flour" means national straight run flour, Canadian Springs flour of less than 85 per cent extraction, or imported flour."

(a) S. R. & O. 1941 No. 980.

(*h*) by inserting at the end of paragraph (2) of Article 6 thereof the following words :—

"(iii) the sale by a flour miller of any speciality flour to a licensed factor."

(*i*) by inserting after Article 14 thereof the following Article :—

"14A. Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation."

(*j*) by inserting in the first paragraph appearing at the foot of the scale set out in Part I of the First Schedule thereto, after the words "The above prices", the words "which do not include the cost of containers".

(*k*) by substituting for paragraph 4 of Part I of the Second Schedule thereto the following paragraph :—

"4. *Discount.*

The prices prescribed by the First Schedule to this Order are fixed on the basis of payment being made after 21 but within 28 days from the appropriate date. Where payment is made within 21 days from the appropriate date discount shall be allowed as follows on the prescribed price and any additions thereto made in accordance with paragraph 1 of this Part of this Schedule in respect of non-returnable containers :—

	At the rate of
Payment within 7 days from the appropriate date ..	4*d.* in the £
Payment after 7 days but within 14 days from the appropriate date	3*d.* in the £
Payment after 14 days but within 21 days from the appropriate date	2*d.* in the £

In this paragraph "the appropriate date" means in the case of a sale of imported flour by an importer, the date of the delivery order, and in the case of any other sale, the date on which the goods were despatched from the seller's premises or from the premises where the goods were held on the seller's behalf."

(*l*) by deleting in paragraph 2(*b*) of Part II A of the Second Schedule thereto the word "road".

(*m*) by inserting immediately below the heading to Part III of the Second Schedule thereto the words "(Note :—This part of this Schedule does not apply on a sale by a flour miller of speciality flour to a licensed factor)".

2. (1) This Order shall come into force on the 23rd day of March, 1942.

(2) Copies of the Principal Order to be printed under the authority of His Majesty's Stationery Office after the date of the coming into force of this Order shall be printed in accordance with the amendments provided for by this Order and the Principal Order shall take effect as hereby amended.

By Order of the Minister of Food.

THE following is reproduced from the *Board of Trade Journal*, dated the 11th April, 1942:—

The Board of Trade announce that the Open General Licence permitting the importation without separate licence of

"Bristles of the pig, hog or boar, of the kinds specified in Part 3 of the Customs and Excise Tariff, dated 1st January, 1940, Exemptions Group V (2) or Group IX (2) (i)."

consigned from British India has been revoked with effect from 6th April 1942.

As from that date, therefore, separate licences will be required for the importation of such bristles from British India, *even where consignments are already en route to this country*. Applications for import licences should be completed on the official form obtainable from the Import Licensing Department or from the offices of Collectors of Customs and Excise, and should be addressed to the Import Licensing Department, Board of Trade, 1-6, Tavistock Square, London, W.C.1, and should make clear whether the goods are already afloat or not.

Enquiries should be addressed to the Import Licensing Department or to the Raw Materials Department, Ministry of Supply, The Castle, Warwick.

THE CONTROL OF PAPER (No. 36) ORDER, 1941, DIRECTION No. 4.

STATUTORY RULES AND ORDERS, 1942, No. 149.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Paper).

The Control of Paper (No. 36) Order, 1941, Direction No. 4, dated January 27, 1942.

WHEREAS the Control of Paper (No. 36) Order, 1941(a), imposes certain restrictions upon the production of greeting cards :

And whereas it is proved to the satisfaction of the Minister of Supply that special circumstances exist in relation to the production of greeting cards :

Now therefore the Minister of Supply in pursuance of the provisions of paragraph (2) of Article 12 of the Control of Paper (No. 36) Order, 1941, hereby directs as follows :—

1. In this Direction, the expression "producer" means any person who carries on and was on the 1st day of January 1941, carrying on the business of producing greeting cards from paper or wood pulp : and the expression "greeting card" includes any other greeting intended for sale.

2. Any producer may produce from paper or wood pulp any greeting card, if

(a) in so doing he complies with all the provisions of the Control of Paper (No. 36) Order, 1941, except Article 9 (c) thereof, and
(b) the weight of that greeting card does not exceed two-fifths of an ounce, and
(c) all the paper used in the production thereof was before the 12th day of November, 1941, acquired by any producer for the purpose of producing greeting cards, and
(d) the quantity of paper or wood pulp used by him in the production of any greeting cards between the date of the coming into force of this Direction and the 31st day of December 1942, does not exceed one-quarter of the quantity used by him in the production of any greeting cards during the period beginning on the 1st day of January 1941, and ending on the 11th day of November 1941.

3. This Direction shall come into force on the 29th day of January 1942, and may be cited as the Control of Paper (No. 36) Order, Direction No. 4.

Dated this 27th day of January 1942.

THE CONTROL OF FERTILISERS (No. 17) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 153.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Fertilisers).

The Control of Fertilisers (No. 17) Order, 1942*, dated January 24, 1942, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows :—

1. The Control of Fertilisers (No. 15) Order, 1941(a), is hereby varied by substituting for the words "United Kingdom" in Article 1 of that Order, and in Paragraph 2 (a) (ii) (in two places), and Paragraph (c), of the Schedule to that Order—the words "Great Britain".

2. (1) No person shall buy or sell or agree or offer to buy or sell for delivery in Northern Ireland in lots of two hundredweight or more any basic slag at any price exceeding the maximum price provided in the Schedule to this Order for that basic slag.

(2) The maximum prices provided by this Order are cash prices. Where credit is given to the buyer a reasonable extra charge may be made for such credit if an invoice is given for the material and that charge is separately stated thereon.

3. Nothing in this Order shall prohibit or restrict the entering into and carrying out of any transaction between the Minister of Supply and any other person at such price as may be agreed between the Minister of Supply and that person.

4. In this Order references to offers to buy or sell shall be construed respectively as including references to invitations of offers to sell or buy.

5. This Order shall come into force on the 24th day of January, 1942 ; and may be cited as the Control of Fertilisers (No. 17) Order, 1942*.

Dated this 24th day of January, 1942.

H. J. HUTCHINSON,
Under-Secretary, Ministry of Supply.

* The Control of Fertilisers Orders, Nos. 1-16, were made in 1939-41.

"Coupon" means any document issued as a coupon by or on behalf of the Minister for the purposes of this Order.

"Distributing dealer" means the holder of a distributing dealer's licence granted under the Feeding Stuffs (Licensing and Control) Order, 1941(a), or any other Order for the time being in force made by the Minister providing for the control of feeding stuffs.

"Industrial purpose" means use in the manufacture, production or preparation of any article other than an article intended for human consumption or for feeding to any bird, beast or other animal.

"Isle of Man approved buyer" means, in relation to any feeding stuff, a person licensed by or on behalf of the Lieutenant-Governor of the Isle of Man as an approved buyer of that feeding stuff for the purposes of any Order made by the Lieutenant-Governor of the Isle of Man regulating the purchase and sale of that feeding stuff.

"Ration card" means any document issued as a ration card or ration book by or on behalf of the Minister for the purposes of this Order.

"Ration document" means any buying permit, coupon, ration card, counterfoil or any ration card or other similar document, issued by or on behalf of the Minister for the purposes of this Order.

"Rationed feeding stuff" means, subject to the provisions of this Order, any feeding stuff specified in the Schdeule to this Order.

"Ration period" means such period as the Minister may prescribe by notice on any ration document or otherwise, as a ration period for the purposes of this Order.

"Retailer" means a person licensed as such under the Feeding Stuffs (Licensing and Control) Order, 1941, or under any other Order for the time being in force made by the Minister for the control of feeding stuffs.

"Wholesale dealer" means the holder of a wholesale dealer's licence granted under the Feeding Stuffs (Licensing and Control) Order, 1941, or under any other Order in force for the time being made by the Minister for the control of feeding stuffs.

PART II.—SALE OF RATIONED FEEDING STUFFS.

2. (1) Subject as hereinafter provided, no person shall buy or obtain or sell or supply any rationed feeding stuff except under and in accordance with the provisions of this Order :

Provided that the provisions of this Order shall not apply to :

(a) the buying or obtaining by an approved buyer of any grain or pulses grown in the United Kingdom from the grower thereof, or from another approved buyer, or to the buying or obtaining by an approved buyer of any grain or pulses grown in the Isle of Man from another approved buyer or from an Isle of Man approved buyer, or to any sale or supply to an approved buyer as aforesaid ;

(b) the buying or obtaining or sale or supply of any rationed feeding stuff for human consumption, or for use as seed, or for any industrial purpose where its use for that purpose is authorised under any Order for the time being in force made under the Defence (General) Regulations, 1939 ;

(c) the buying or obtaining or sale or supply of National Priority Pigeon Mixture as defined by the Feeding Stuffs (National Priority Pigeon Mixture) Order, 1941(b), or of any rationed feeding stuff intended for use by the buyer in the preparation or production of that mixture ;

(a) S.R. & O. 1941 No. 123.

(b) S.R. & O. 1941 No. 82.

(d) the buying or obtaining by any grower of sugar beet from the British Sugar Corporation Limited of that quantity of dried sugar beet pulp to which he is entitled by virtue of his contract with the said Corporation or to any sale or supply by the said Corporation under such contract ;

(e) any rationed feeding stuffs which have been salvaged but which have not been dried or reconditioned, and which have been certified by or on behalf of the Minister as feeding stuffs which may be disposed of without being dried or reconditioned ; provided that the sale or supply of any such feeding stuffs is to a consumer ;

(f) the screenings derived from screening or dressing any grain specified in the Schedule to this Order,

(i) when sold at a price not exceeding £9 per ton (including transport and all other charges) to a consumer ;

(ii) when sold at a price not exceeding £8 per ton (including transport and all other charges) to a distributing dealer, retailer or wholesaler dealer ;

(g) molasses sold or supplied for silage in accordance with instructions or directions issued by or on behalf of the Minister ;

(h) flour sweepings and shakings from flour sacks ;

(i) oat husks, oat husk meal, and oat cockle ;

(j) (i) oatfeed (containing not more than 25 per cent. fibre when sold at the maximum price applicable to the sale under the Feeding Stuffs (Maximum Prices) Order, 1941(a), less a sum calculated at the rate of not less than £2 per ton and,

(ii) oatmeal seeds or oat dust (each containing not more than 25 per cent. fibre) when sold at the maximum price applicable to the sale under the Feeding Stuffs (Maximum Prices) Order, 1941(a), less a sum calculated at the rate of not less than £1 5*s.* per ton,

together with in the case of any sale mentioned in this sub-paragraph any charges which may be made by the seller in addition to the maximum price in accordance with the provisions of the Sixth Schedule to the said Order.

(2) The provisions of this Order shall be subject to any restrictions in relation to any rationed feeding stuff imposed by any other Order made by the Minister and in force for the time being.

(a) S.R. & O. 1941 No. 1872.

PART III.—CONSUMERS.

3. A consumer may buy or obtain any rationed feeding stuff from a distributing dealer or retailer, and a distributing dealer or retailer may sell or supply any rationed feeding stuff to any consumer in accordance with the following provisions :—

(a) the consumer shall be the holder of a ration card or coupon issued to him for the purposes of this Order :

(b) where the consumer is the holder of a ration card he shall have registered with the distributing dealer or retailer selling or supplying the rationed feeding stuff, in accordance with the instructions upon the ration card, before the expiration of fifteen days from the commencement of the ration period during which the ration card is available for use, or from the date of issue of the ration card, whichever is the later, and shall produce the ration card to the distributing dealer or retailer on each occasion upon which he buys or obtains any rationed feeding stuff :

(c) where the consumer is the holder of a calf-food or horse-feed coupon he shall have surrendered to or deposited with the distributing dealer or retailer any such coupon appropriate to the rationed feeding stuff sold or supplied to him : provided that a consumer shall not deposit horse-feed coupons available for use during any ration period (including coupons available for use during both the last month of that period and the next succeeding month) with more than six suppliers, whether distributing dealers or retailers or both :

(d) where the consumer is the holder of a cereal or protein coupon he shall have registered with the distributing dealer or retailer in accordance with any instructions issued by or on behalf of the Minister and shall have surrendered to or deposited with that distributing dealer or retailer any such coupon appropriate to the rationed feeding stuff sold or supplied to him : provided that a consumer shall not register with more than three suppliers, whether distributing dealers or retailers or both :

(e) a consumer shall surrender to or deposit with one or more of the distributing dealers or retailers with whom he is registered before the expiration of fifteen days from the commencement of the ration period, or from the date of issue of the coupon, whichever date is the later, or within such other time as may

be authorised by the Minister either generally or in any particular case or class of cases, any coupons of which he is the holder against which he wishes to obtain supplies of rationed feeding stuffs and which are available for use during any ration period (including coupons available for use during both the last month of that period and the next succeeding month):

(f) where a consumer buys or obtains a mixture (other than a compound or a concentrate as defined by the Feeding Stuffs (Maximum Prices) Order, 1941, of any rationed feeding stuff or stuffs with any other rationed feeding stuffs or stuffs or with any unrationed feeding stuff or stuffs and no unit has been fixed by the Minister in respect of that mixture, the consumer shall surrender to the seller coupons of the appropriate kind and value for the quantity of rationed feeding stuffs specified in Parts A, B and C of the Schedule hereto contained in the mixture.

4. (1) Any supplier of brewers' or distillers' wet grains may sell or supply such grains to a consumer, and any consumer may buy or obtain any such grains from a supplier, free from the restrictions imposed by Article 3 of this Order, provided that the consumer shall have been registered with the supplier in accordance with directions or authorisations given or granted by the Minister. Such registration may be additional to any other registration effected by the consumer under this Order. For the purposes of this Article "a supplier" means any person licensed by the Minister to deal in such grains or a producer of such grains.

(2) The supplier of any registered consumer shall furnish in writing to the appropriate Agricultural Committee, the names and addresses of all consumers in the area of that Committee who have registered with him for the supply of brewers' or distillers' wet grains, as the case may be, and the approximate monthly quantity for which each consumer has registered.

(3) The supplier of any registered consumer shall also furnish to the appropriate Agricultural Committee on or before the tenth day of each month a return of the total quantity of brewers' or distillers' wet grains supplied to that registered consumer in the preceding month.

(4) Any supplier of brewers' or distillers' wet grains who has sold or supplied any such grains to any person, shall not later than the 10th day of any month make a return to the Minister of all sales or supplies by him of brewers' or distillers' wet grains in the preceding month showing:—

(a) the total quantity of brewers' or distillers' wet grains sold or supplied to consumers; and

(b) the name and address of each distributing dealer or wholesale dealer to whom he has sold or supplied brewers' or distillers' wet grains, and the total quantity supplied to each such person.

(5) For the purposes of this Article "the appropriate Agricultural Committee" means, in relation to England and Wales, the County War Agricultural Executive Committee, and in relation to Scotland, the Agricultural Executive Committee, for the area in which the registered consumer's farm or other premises are situated.

5. Where any consumer deposits one or more coupons with a supplier in accordance with the provisions of Article 3 of this Order:

(a) the supplier shall give the consumer an acknowledgment in writing of the receipt of all coupons deposited by him within 7 days of such receipt, specifying the total number of units of rationed feeding stuffs represented by each kind of coupon; and

(b) no coupon which has been deposited with a supplier shall be withdrawn from him and deposited with any other supplier, except under the authority of the Minister.

PART IV.—Retailers, Distributing Dealers and Wholesale Dealers.

6. Save as herein otherwise provided, a retailer may buy or obtain any rationed feeding stuff from a distributing dealer and a distributing dealer may sell or supply such rationed feeding stuff to a retailer, provided that the buyer shall have surrendered to the seller, before the delivery of that rationed feeding stuff to the buyer, counterfoils or, as the case may be coupons, appropriate to the rationed feeding stuff sold or supplied to him.

7. Save as herein otherwise provided, a distributing dealer may buy or obtain any rationed feeding stuff from any person and any person may sell or supply such rationed feeding stuff to a distributing dealer provided that the buyer shall have surrendered to the seller before the delivery of that rationed feeding stuff, a buying permit issued by or on behalf of the minister appropriate to the rationed feeding stuff sold or supplied to him.

8. (1) Distributing dealers may exchange cereal buying permits with other distributing dealers, and any buying permit received by a distributing dealer as a result of such an exchange may be used by him as if it had been issued to him for the purpose of this Order, provided that:

(a) no such exchange shall be made otherwise than unit for unit;

(b) a distributing dealer who carries on business in England or Wales shall not exchange any such buying permits with any distributing dealer who carries on business in Scotland;

(c) a distributing dealer after receiving by such exchange any cereal buying permits shall endorse thereon legibly his full name and address.

(2) Except under the authority of the Minister, no person shall carry on or conduct any business for the exchange of any ration documents issued under or for the purposes of this Order.

9. Save as herein otherwise provided, a wholesale dealer may buy or obtain any rationed feeding stuff and a person may sell or supply any rationed feeding stuff to a wholesale dealer in accordance with the following provisions:—

(a) the buyer shall have surrendered to the seller before the delivery of any rationed feeding stuff to the buyer a buying permit appropriate to the rationed feeding stuff sold or supplied to him:

(b) the wholesale dealer buying or obtaining the rationed feeding stuff shall have endorsed any such buying permit with the word "Accepted" together with his name and address.

10. (1) Any producer of brewers' or distillers' wet grains may sell or supply such grains to a distributing dealer or wholesale dealer and any distributing dealer or wholesale dealer may buy or obtain any such grains from a producer thereof free from the restriction imposed respectively by Articles 7 and 9 of this Order: provided that

(a) in the case of sale or supply to a distributing dealer the buyer shall have certified in writing that he requires the grains for resale to a registered consumer or for conversion into dried grains: and

(b) in the case of sale or supply to a wholesale dealer, the buyer shall have certified in writing that he requires the grains for resale to a distributing dealer or for conversion into dried grains.

(2) Any wholesale dealer may sell or supply brewers' or distillers' wet grains to a distributing dealer and any distributing dealer may buy or obtain such grains from a wholesale dealer free from the restrictions imposed by Article 7 of this Order provided that the distributing dealer shall have certified in writing that he requires the grains for resale to a registered consumer or for the purpose of conversion into dried grains.

PART V.—General.

11. No producer and no approved buyer of any rationed feeding stuff (other than a grower thereof) shall use any such rationed feeding stuff for consumption by any livestock in his ownership, possession or control or kept on any land in his occupation, except on the surrender by him forthwith to such person as the Minister may authorise to receive it of a ration document appropriate to the quantity and description of the rationed feeding stuff so used.

12. Where any ration document is deposited with or surrendered to any person for the purposes of the sale or supply by him of any rationed feeding stuff in accordance with the foregoing provisions of this Order that person shall,

(a) where he is not required by this Order to surrender or deposit such ration document for the purpose of buying or obtaining that rationed feeding stuff; or

(b) where he is the manufacturer of that rationed feeding stuff and he is not required by this Order to surrender or deposit the ration document for the purpose of buying or obtaining any other rationed feeding stuff from which the rationed feeding stuff aforesaid is manufactured by him: or

(c) where he buys or obtains the rationed feeding stuff from the Minister:

endorse the ration document with the word "Supplied" together with his name and address, and shall deliver it to such person as the Minister may authorise to receive it.

13. Every person who sells or supplies rationed feeding stuffs shall keep accurate records shewing:

(a) the names and addresses of all persons who have registered or deposited coupons, buying permits or counterfoils of ration cards with him under the provisions of this Order;

(b) the quantity or number of units of rationed feeding stuffs represented by each kind of ration card of each person registered with him;

(c) the quantity or number of units of rationed feeding stuffs represented by the coupons or buying permits or counterfoils of ration card of each kind respectively deposited with him by each person and the month to which those coupons, buying permits, or counterfoils respectively relate;

(d) the date of each sale or supply of rationed feeding stuffs;

(e) the name and address of every person to whom the rationed feeding stuffs are sold or supplied;

(f) the quantity or number of units and description of each rationed feeding stuff sold or supplied by him on the occasion of each sale;

Provided that the completion of the statement on any ration card of the quantity supplied on the occasion of any sale or supply of any rationed feeding stuff shall be sufficient record for the purposes of this Article as respects a record of quantities on the occasion of any sale or supply of rationed feeding stuffs.

14. (1) No person shall buy or obtain or sell or supply any rationed feeding stuff by the use of a ration document except in accordance with the instructions specified on that document or with any directions which may be given by or on behalf of the Minister. Without prejudice to the generality of the foregoing provisions, any such instructions or directions may include instructions or directions as to the description or quantity of rationed feeding stuffs which may be bought or obtained or sold or supplied by the use of any such document.

(2) Where any person has bought or obtained any rationed feeding stuff otherwise than in accordance with the instructions specified on the relevant ration document or with any directions given by or on behalf of the Minister, or has failed or neglected to perform any obligation which he has undertaken in relation to the sale or supply or buying or obtaining of any rationed feeding stuff, the Minister may direct that no further rationed feeding stuffs shall be sold or supplied to that person against ration documents held or deposited by him.

15. (1) Every ration document is and shall remain the property of the Minister, but the person to whom it is issued or with whom it is deposited or to whom it is delivered for the purposes of this Order, shall be entitled to and be responsible for its custody.

(2) Where any person is in possession of a ration document, which has not been issued to him for the purposes of this Order, or the possession of which by him is not authorised by this Order, then unless within seven days of that document having come into his possession he shall have returned it to the person entitled to the cusdody thereof, or otherwise dealt therewith as provided by or under this Order he shall forthwith deliver it to a person authorised by the Minister to receive it.

(3) In any case where a new ration document is issued in place of a lost ration document, it shall be the duty of the person to whom the new ration document is issued, if he shall subsequently find the lost ration document forthwith to return it to the Ministry of Food.

(4) Where any person has in his possession any coupon or counterfoil of a ration card which he has not surrendered for the purpose of obtaining a buying permit or any ration document which he does not wish to surrender for the purpose of obtaining any rationed feeding stuff, he shall forthwith deliver that ration card, counterfoil, coupon, buying permit or other ration document, to a person authorised by the Minister to receive it.

16. (1) Where any person has ceased to keep any class of livestock for which ration documents have been issued to him he shall forthwith

(*a*) notify the authority by whom the ration documents were issued that he has ceased to keep that class of livestock;

(*b*) deliver any such ration documents in his possession to that authority; and

(*c*) notify the retailer or distributing dealer with whom he has registered or has deposited coupons as the case may be, that he has ceased to keep that class of livestock.

(2) For the purposes of this Article "class of livestock" means one of the following classes:

(1) Dairy cows and calves.
(2) Pigs and poultry.
(3) Horses.
(4) Poultry kept by the holder of a domestic poultry keepers' ration book.
(5) Rabbits (breeding does).

THE CONTROL OF PAPER (No. 36) ORDER, 1941, DIRECTION No. 5.

STATUTORY RULES AND ORDERS, 1942, No. 168.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Paper).

The Control of Paper (No. 36) Order, 1941, Direction No. 5, dated January 30, 1942.

WHEREAS the Control of Paper (No. 36) Order, 1941(a), imposes certain restrictions upon the exhibition of posters and upon the gratuitous distribution of advertising circulars :

And whereas it is proved to the satisfaction of the Minister of Supply that special circumstances exist in relation to the exhibition of some of such posters and to the gratuitous distribution of some of such circulars :

Now therefore the Minister of Supply in pursuance of the provision of paragraph (2) of Article 12 of the Control of Paper (No. 36) Order, 1941, hereby directs as follows :—

1. In and for the purposes of this Direction
(1) the expression "pre-war period" means the period of twelve calendar months which ended on the 31st day of August 1939,
(2) the expression "quarter" means, subject to the provisions of the next following paragraph, the months of September, October and November 1938, and each succeeding period of three consecutive calendar months,
(3) a week shall be deemed to be in a quarter if the whole or the greater part of it falls within a calendar month belonging to

(a) S. R. & O. 1941 No. 1760.

that quarter and not otherwise, and the expression "quarter" shall be construed accordingly,

(4) the expression "theatre" means any theatre or hall which is normally used for the giving of stage plays or musical entertainments,

(5) the expression "stage play" includes every tragedy, comedy, farce, opera, burletta, interlude, melodrama, pantomime or other entertainment of the stage or any part thereof,

(6) the expression "musical entertainment" means a concert or similar entertainment consisting of the performance of music with or without singing or recitation, and

(7) the expressions "programme poster" and "programme circular" mean any poster and circular respectively, the contents of which relate to any programme of any entertainment consisting wholly or mainly of a stage play or musical entertainment given or to be given at any theatre.

2. (1) Any person may exhibit any programme poster if in so doing

(a) he complies with all the provisions of the Control of Paper (No. 36) Order, 1941, except Article 3 (f) thereof, and

(b) in any quarter the weekly average aggregate area of any programme poster or posters issued for exhibition in connection with any theatre during the week or weeks in that quarter in which that theatre is open does not exceed three-twentieths of the weekly average aggregate area of the programme poster or posters issued for exhibition in connection with that theatre during the week or weeks in which that theatre was open in the corresponding quarter of the pre-war period.

(2) In computing the aggregate area of any programme poster issued for exhibition after the date of the coming into force of this Direction, no programme poster printed or made before the 12th day of November 1941, shall be deemed to have an area exceeding 1,200 square inches.

3. Any person may gratuitously distribute any programme circular, provided that by so doing in any quarter the weekly average aggregate area of the programme circular or circulars gratuitously distributed in connection with any theatre during the week or weeks in that quarter in which that theatre is open does not exceed three-twentieths of the weekly average aggregate area of the programme circular or circulars gratuitously distributed in connection with that theatre during the week or weeks in which that theatre was open in the corresponding quarter of the pre-war period.

4. This Direction shall come into force on the 1st day of February 1942, and may be cited as the Control of Paper (No. 36) Order, 1941, Direction No. 5.

Dated this 30th day of January 1942.

EMERGENCY POWERS (DEFENCE).

Food (Tea).

The Tea (Restriction on Dealings) Order, 1942, dated January 31, 1942.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling the Minister of Food hereby makes the following Order :—

1. In this Order :—

"Buy", "obtain", "sell" or "supply" includes offer or agree to buy, obtain, sell or supply, as the case may be.

"Primary Wholesaler" means a wholesaler of tea who buys tea direct from the Minister of Food.

"Secondary Wholesaler" means any wholesaler of tea other than a primary wholesaler.

2. (1) Except under and in accordance with the terms of a permit granted by or on behalf of the

Minister of Food or against a summary of such permits, no primary wholesaler shall sell or supply, no secondary wholesaler shall buy or obtain or sell or supply and no retailer shall buy or obtain any tea.

(2) The restrictions imposed by the foregoing paragraph of this Article shall not apply,

(*a*) to transactions between a primary wholesaler and another primary wholesaler or between a secondary wholesaler and another secondary wholesaler,

(*b*) to the sale or supply of tea for delivery outside the United Kingdom, or

(*c*) to the sale or supply of tea to or the purchase or obtaining of tea by His Majesty's Forces, the Forces of His Majesty's Allies or Co-belligerents or the Navy, Army and Air Force Institutes.

3. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

4. (1) The provisions of this Order are subject to any special or general directions, authorisations or licences which may from time to time be given or granted by or on behalf of the Minister of Food.

(2) Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation.

5. This Order shall come into force on the 9th day of February 1942, and may be cited as the Tea (Restriction on Dealings) Order, 1942.

By Order of the Minister of Food.

1. The Control of the Cotton Industry (No. 2) Order, 1940(a), as varied by the Control of the Cotton Industry (No. 5) Order, 1940(b), the Control of the Cotton Industry (No. 9) Order, 1940(c), the Control of the Cotton Industry (No. 12) Order, 1940(d), the Control of the Cotton Industry (No. 17) Order, 1941(e), the Control of the Cotton Industry (No. 18) Order, 1941(f), and the Control of the Cotton Industry (No. 20) Order, 1941(g), is further varied by

(i) substituting for Part I of Appendix II thereto the following paragraph :—

"The prescribed price shall be ascertained by adding the price in pence per lb. declared by special or general direction issued by the Minister of Supply to be the price for the purposes of the Order of American raw cotton (basis Middling), to the margin for the appropriate count set out or referred to in the Schedule applying to the yarn" and

(ii) substituting for the note to Schedule U in Part III of Appendix II thereto the following paragraphs :—

"The margins set out in this Schedule apply to all yarns produced from raw cotton the price of which under the contract of sale thereof to the producer of the yarn was not more than

(*a*) 1*d.* per pound in excess of the price of American futures (basis Middling) on the date of the purchase of the cotton if the cotton was purchased before the first day of April 1941,

(*b*) 0·65*d.* per pound in excess of the official price of such futureson the 31st day of March 1941, as defined for the purposes of Article 1 of the Order, if the cotton was purchased after that date but before the 2nd day of February, 1942, or

(*c*) 0·45*d.* per pound in excess of the price in pence per pound declared by special or general direction issued by the Minister of Supply to be the price for the purposes of the Order of American raw cotton (basis Middling) if the cotton was purchased on or after the 2nd day of February 1942.

If the price per pound of the raw cotton under such contract of sale exceeds the price mentioned in such of the foregoing paragraphs as may be applicable by more than the amount per pound specified in that paragraph the amount by which the excess is greater than the amount per pound so specified shall be added to each of the above margins.

If yarn not being shuttle weft is delivered on bastard cops exceeding 7" × 1" the margin shall be increased by 0·15*d.*".

2. This Order shall come into force on the 5th day of February 1942, and may be cited as the Control of the Cotton Industry (No. 28) Order, 1942.

THE CONTROL OF RUBBER (No. 5) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 191.

EMERGENCY POWERS (DEFENCE).

Raw Materials (Rubber).

The Control of Rubber (No. 5) Order, 1942, dated February 2, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made :

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows :—

Maximum prices for waste rubber.

1. No reclaimer shall buy or agree or offer to buy any waste rubber of any description at any price exceeding the maximum price provided for waste rubber of that description by column (1) of the First Schedule to this Order subject to the provisions of the Second Schedule ; and no person shall sell or agree or offer to sell any waste rubber to a reclaimer at any price exceeding such maximum price.

2. No certified waste rubber merchant shall buy or agree or offer to buy any waste rubber of any description at any price exceeding the maximum price provided for waste rubber of that description by column (2) of the First Schedule to this Order subject to the provisions of the Second Schedule ; and no person shall sell or agree or offer to sell any waste rubber to a certified waste rubber merchant at any price exceeding such maximum price.

3. No person, not being a reclaimer or certified waste rubber merchant, shall buy or agree or offer to buy any waste rubber of any description at any price exceeding the maximum price provided for waste rubber of that description by column (3) of the First Schedule to this Order subject to the provisions of the Second Schedule ; and no person shall sell or agree or offer to sell any waste rubber to any person, not being a reclaimer or certified waste rubber merchant, at any price exceeding such maximum price.

4. If it appears to the Minister of Supply that some particular parcel of waste rubber falling within any of the descriptions set out in the First Schedule to this Order is of such exceptional quality that the maximum prices provided by that Schedule (subject to the provisions of the Second Schedule to this Order) for waste rubber of that description are not fairly applicable to that parcel, the Minister may by notice to the person who appears to him to be the owner of that parcel fix for it such higher maximum prices as the Minister may consider reasonable in comparison with the maximum prices provided as aforesaid and regarded as applicable to waste rubber not of exceptional quality ; but the maximum prices provided as aforesaid shall apply to any parcel of waste rubber, even though of exceptional quality, falling within any of the said descriptions unless and until higher maximum prices shall have been fixed for such parcel under this Article.

Exemptions from price provisions.

5. (1) Notwithstanding anything in Article 1, 2, 3 or 4 of this Order, in any proceedings in respect of any purchase or agreement or offer for the purchase of any tyre cover in alleged contravention of any provision of any of those Articles it shall be a defence for the buyer or intending buyer to prove that he bought or (as the case may be) agreed or offered to buy the tyre cover for the purpose of re-treading it or of re-selling it to a person who would re-tread it and that it was in fact or was believed by him on reasonable grounds to be in such condition as to be reasonably capable of being by re-treading rendered fit for service on the road.

(2) Notwithstanding anything in Article 1, 2, 3 or 4 of this Order, in any proceedings in respect of any sale or agreement or offer for the sale of any tyre cover in alleged contravention of any provision of any of those Articles it shall be a defence for the seller or intending seller to prove that either in fact or in his belief on reasonable grounds

both (*a*) the buyer or proposed buyer intended to re-tread the tyre cover or to re-sell it to a person who would re-tread it,

and (*b*) the tyre cover was in such condition to be reasonably capable of being by re-treading rendered fit for service on the road.

6. Notwithstanding anything in Article 1, 2 or 3 of this Order, in any proceedings in respect of any purchase or sale or agreement or offer for the purchase or sale of any waste rubber in alleged contravention of any provision of any of those Articles it shall be a defence for the defendant to prove either

(*a*) that the waste rubber was situate outside the United Kingdom at the time at which the purchase or sale or agreement or offer (as the case may be) was made ; or, if the agreement or offer did not relate exclusively to specific waste rubber, that no waste rubber situate or to be situate in the United Kingdom was or was intended to be appropriated to the agreement or proposed agreement, or

(*b*) that the waste rubber was not delivered and was not intended to be delivered to any person in the United Kingdom other than a person under an obligation to carry that waste rubber on behalf of the buyer thereof to a place outside the United Kingdom.

Restriction of purchases and sales of waste rubber by reclaimers.

7. (1) No reclaimer shall buy or agree or offer to buy any waste rubber except

(*a*) from a certified waste rubber merchant or a local authority, or

(*b*) under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply.

(2) No reclaimer shall sell or agree or offer to sell any waste rubber except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply.

Restriction of treatment, use or consumption of waste rubber.

8. No person shall treat use or consume any waste rubber in the United Kingdom except that

(*a*) a reclaimer may treat use or consume any waste rubber in or for the purposes of reclaiming it,

(*b*) a retreader may treat any tyre cover in or for the purposes of retreading it,

(*c*) any person may treat any waste rubber so far only as may be necessary or expedient for the purpose of adapting it for sale as waste rubber, and

(*d*) any person may treat use or consume any waste rubber under the authority of and in accordance with a licence granted or a special or general direction issued by the Ministry of Supply.

General exemptions.

9. Nothing in this Order shall prohibit or restrict

(*a*) the entering into and carrying out of any transaction between the Minister of Supply and any other person at such price and upon such terms and conditions as may be agreed between the Minister and that person, or

(*b*) the treatment use or consumption of any waste rubber by or on behalf of the Minister of Supply or by any person in performance of a contract between the Minister and that person.

Licences and certificates.

10. (1) The holder of any licence or certificate granted under this Order shall comply with any condition contained or incorporated in the licence or certificate.

(2) If any licence or certificate granted under this Order is determined by the Minister of Supply the holder of the licence or certificate shall forthwith deliver it up to the Minister or as directed by him.

Interpretation.

11. (1) In this Order the following expressions have the meanings hereby respectively assigned to them, that is to say

"rubber" includes latex and gutta percha and balata;

"waste rubber" means any waste, scrap, worn-out or disused material or articles composed wholly or mainly of rubber, and includes rubber trimmings, rubber strippings and rubber dust;

"reclaimer" means any person carrying on a business of producing reclaimed rubber;

"certified waste rubber merchant" means any person for the time being certified as such by the Minister of Supply;

"retreading" means and includes re-treading, re-moulding, re-capping, re-soling and any other similar method of re-conditioning a partly-worn cover of any tyre by the addition to it of rubber or rubber compound;

"re-treader" means any person carrying on a business of re-treading tyre covers;

(2) In this Order references to offers to buy or sell shall be construed respectively as including references to invitations of offers to sell or buy.

(3) For the purposes of this Order the expressions "buy" and "sell" shall be deemed to include respectively the taking and giving of any waste rubber in exchange or part exchange for any other material or article, and the sum allowed for the waste rubber in such exchange or part exchange shall be deemed to be the price thereof.

Commencement and Citation.

12. This Order shall come into force on the 6th day of February, 1942, and may be cited as the Control of Rubber (No. 5) Order, 1942.

Dated this 2nd day of February, 1942.

H. J. HUTCHINSON,
Under-Secretary, Ministry of Supply.

SECOND SCHEDULE.

(Provisions as to maximum prices in special cases.)

PART I.

(Relating to purchases by and sales to reclaimers.)

1. In this Part the expression "standard maximum price" means a price shown in column (1) of the First Schedule.

2. The standard maximum price in each case is for delivery of the waste rubber loaded into vehicles but without any carriage paid or provided by the seller. If delivery is required or permitted to be made otherwise than as aforesaid, the maximum price is a sum equal to the standard maximum price increased or diminished by the amount by which the reasonable cost to the seller of making the actual delivery is greater or less than the reasonable cost to the seller of making delivery as aforesaid.

3. In the cases of Red Motor Tubes and Black and Compound Motor Tubes and Cycle Tubes, the standard maximum prices are for the tubes supplied in the condition of being free of valves and other metal and packed in bags or other suitable containers or baled. If the tubes are not supplied in that condition, the maximum price is a sum equal to the standard maximum price (subject to any appropriate adjustment in respect of delivery as hereinbefore provided) diminished by the reasonable cost of putting the tubes into that condition.

4. If bags or other containers are supplied by the seller he may make a reasonable additional charge for the bags or containers provided that (*a*) such charge is shown separately on an invoice given by the seller to the buyer at or before the time of delivery and (*b*) the charge is made on the terms that the buyer may return the bags or containers or any of them and recover the charge or a proportionate part thereof as the case may be.

PART II.

(Relating to purchases by and sales to certified waste rubber merchants.)

1. In this Part the expression "standard maximum price" means a price shown in column (2) of the First Schedule.

2. The standard maximum price in each case is for delivery of the waste rubber at the buyer's depot and with the carriage thereto paid or provided by the seller. If delivery is required or permitted to be made otherwise than as aforesaid, the maximum price is a sum equal to the standard maximum price increased or diminished by the amount by which the reasonable cost to the seller of making the actual delivery is greater or less than the reasonable cost to the seller of making delivery as aforesaid.

3. If bags or other containers are supplied by the seller he may make a reasonable additional charge for the bags or containers provided that (*a*) such charge is shown separately on an invoice given by the seller to the buyer at or before the time of delivery and (*b*) the charge is made on the terms that the buyer may return the bags or containers or any of them and recover the charge or a proportionate part thereof as the case may be.

PART III.

(Relating to purchases by and sales to persons not being reclaimers or certified waste rubber merchants.)

1. In this Part the expression "standard maximum price" means a price shown in column (3) of the First Schedule.

2. The standard maximum price in each case is for delivery of the waste rubber not loaded and with no carriage paid or provided by the seller. If delivery is required otherwise than as aforesaid, the maximum price is a sum equal to the standard maximum price increased by the amount by which the reasonable cost to the seller of making the actual delivery is greater than the reasonable cost to the seller of making delivery as aforesaid.

3. If bags or other containers are supplied by the seller he may make a reasonable additional charge for the bags or containers provided that (*a*) such charge is shown separately on an invoice given by the seller to the buyer at or before the time of delivery and (*b*) the charge is made on the terms that the buyer may return the bags or containers or any of them and recover the charge or a proportionate part thereof as the case may be.

Raw Materials (Rubber).

The Control of Rubber (No. 6) Order, 1942, dated February 2, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made:

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby orders as follows:—

Restriction of treatment use or consumption.

1. No person shall in the United Kingdom treat use or consume any crude rubber except under the authority of and in accordance with a licence granted or a special or general direction issued by the Minister of Supply.

Licences.

2. (1) The holder of any licence granted under this Order shall comply with any condition contained or incorporated in the licence.

(2) If any licence granted under this Order is revoked by the Minister of Supply the holder of the licence shall forthwith deliver up the licence to the Minister or as directed by him.

Interpretation.

3. In this Order the expression "crude rubber" does not include rubber trimmings, rubber strippings or rubber dust.

Commencement and Citation.

4. This Order shall come into force on the 7th day of February, 1942, and may be cited as the Control of Rubber (No. 6) Order, 1942.

3. The Third Schedule to the Control of Timber (No. 21) Order, 1941, is hereby further varied by adding thereto two new Divisions (Division E and Division F) as set out in the Schedule to this Order.

4. This Order shall come into force on the 9th day of February, 1942, and may be cited as the Control of Timber (No. 23) Order, 1942.

Dated this 3rd day of February, 1942.

H. J. HUTCHINSON,

Under-Secretary, Ministry of Supply.

SCHEDULE.

DIVISION E—TELEGRAPH AND TRANSMISSION POLES.

INSTRUCTIONS FOR ASCERTAINING MAXIMUM PRICES.

1. The maximum price for any material described in this Division shall be ascertained by

(i) taking its Maximum *Basis* Price (*i.e.*, the price given for that material in the Table in which it is described) which price is for that material free on rail at the nearest convenient railway loading station or free on barge at the nearest convenient wharf or free on lorry at the place from which the material is to be taken;

(ii) adding, if the material has previously been delivered to a certified pole depot

(*a*) 10 per centum of the Maximum *Basis* Price, and

(*b*) the cost (not exceeding the reasonable cost of transport by rail to the certified pole depot from the loading station nearest to the point of production) incurred in transporting the material to the certified pole depot:

Provided that an invoice is given for the material and each such addition is shown separately thereon; and

(iii) adding, if the material has been finally dressed or subjected to any preservative treatment such as creosoting, the reasonable cost of such final dressing or treatment, provided that an invoice is given for the material and each such addition is shown separately thereon.

2. In this Division the expression "certified pole depot" means a depot certified by the Minister of Supply.

3. The maximum price is for payment within one calendar month reckoned from the date of the invoice for the material.

[*Reminder*: Article 6 (3) of the Control of Timber (No. 21) Order, 1941, does not apply to material priced in this Division.]

TABLE 1—LOGS (SPECIALLY SELECTED FOR TELEGRAPH AND TRANSMISSION POLES) TRIMMED AND CUT TO SPECIFIED LENGTHS.

Prices are per cubic foot of measurement ascertained by taking the cubic content of the log by quarter-girth Hoppus measurement with tape over bark at mid-length and reducing that cubic content by the appropriate bark allowance shown in the Table.

DIVISION F—SLEEPERS AND CROSSING TIMBERS.

INSTRUCTIONS FOR ASCERTAINING MAXIMUM PRICES.

1. Prices are per piece for sleepers and per cubic foot for crossing timbers.

2. The maximum price for any material described in this Division shall be ascertained by

(i) taking its appropriate Maximum *Basis* Price (*i.e.*, the price given for that material in the appropriate column of the Table in which it is described) which price is for that material free on rail at the nearest convenient railway loading station or free on barge at the nearest convenient wharf or free on lorry at the place from which the material is to be taken;

(ii) adding, if the material has previously been delivered to a certified sleeper depot, the cost (not exceeding the reasonable cost of the transport by rail to the certified sleeper depot from the railway loading station nearest to the point of production) incurred in transporting the material to the certified sleeper depot:

Provided that an invoice is given for the material and such addition is shown separately thereon; and

(iii) adding, if the material has been pressure-creosoted, the reasonable cost of such creosoting, provided that an invoice is given for the material and such addition is shown separately thereon.

3. In this Division—

(*a*) the expression "certified sleeper depot" means a sleeper depot certified by the Minister of Supply;

(*b*) the expression "Main-Line Grade" refers to sleepers or crossing timbers conforming to the British Railways Standard Specification, dated December, 1941; and

(*c*) the expression "Sub-Standard Grade" refers to sleepers or crossing timbers which are serviceable but do not conform to that Specification.

4. The maximum price is for payment within one calendar month reckoned from the date of the invoice for the material.

[*Reminder*: Article 6 (3) of the Control of Timber (No. 21) Order, 1941, does not apply to material priced in this Division.]

THE THRESHED FEEDING PEAS (CONTROL) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 366.

EMERGENCY POWERS DEFENCE.

Food (Threshed Feeding Peas).

The Threshed Feeding Peas (Control) Order, 1942, dated March 2, 1942.

IN exercise of the powers conferred upon him by Regulation 55 of the Defence (General) Regulations, 1939, as amended, and of all other powers him enabling the Minister of Food hereby makes the following Order :—

1. In this Order :—

(a) "The Minister" means the Minister of Food.

(b) "Approved buyer" means a person licensed as such by or on behalf of the Minister for the purposes of this Order provided that a person licensed as an approved buyer for the purposes of the Home Grown Beans (Control and Maximum Prices) Order, 1941(a), as amended(b), shall, unless his licence otherwise expressly provides be deemed to be an approved buyer for the purposes of this Order.

(c) "Feeding peas" means any threshed peas which are of a purple flowered variety and of a description commonly grown for feeding to livestock and includes Greys, Duns, Partridges, Maples and any other peas of the sub-species *Pisum sativum arvense* (Poirct).

(a) S.R. & O. 1941 No. 1293.
(b) S.R. & O. 1941 No. 1793.

(*d*) "Grower" in relation to any peas means the seller (not being an approved buyer) on the occasion of the first sale thereof after threshing.

(*e*) "Licensed pea-picker" has the meaning assigned to it in the Threshed Home Grown Peas (Control and Maximum Prices) Order, 1941(c), as amended(d).

(*f*) "Livestock" means horses, mules, asses, cattle, sheep, pigs, goats, chickens, fowls, ducks, turkeys, guinea fowls, geese and carrier pigeons.

(*g*) "Licensed seed merchant" means a person licensed as such by or on behalf of the Minister for the purposes of this Order provided that a person licensed as a seed bean merchant for the purposes of the Home Grown Beans (Control and Maximum Prices) Order, 1941, shall unless his licence otherwise expressly provides be deemed to be a licensed seed merchant.

(*h*) "Ultimate buyer" in relation to any feeding peas means a person buying the same otherwise than for the purpose of resale.

2. No grower shall sell any feeding peas other than feeding peas sold for use as seed or resale as seed, except to an approved buyer or a licensed pea-picker, and no person other than an approved buyer or licensed pea-picker shall buy or offer or agree to buy any such peas from a grower.

3. No person shall buy or offer or agree to buy or sell or offer or agree to sell any feeding peas for use as seed or resale as seed except in accordance with the following provisions:—

(*a*) An approved buyer who is also a licensed seed merchant may buy any feeding peas for resale as seed from a grower and a grower may sell any feeding peas for resale as seed to an approved buyer unless the grower has reason to believe that such approved buyer is not also a licensed seed merchant.

(*b*) A licensed seed merchant may buy from or sell to any other licensed seed merchant any feeding peas for resale as seed.

(*c*) An ultimate buyer may buy any feeding peas for use as seed from a licensed seed merchant, and a licensed seed merchant may sell any feeding peas for use as seed to an ultimate buyer, provided that the seller shall keep or cause to be kept an accurate record of all such sales showing the date of each such sale, the name and address of the purchaser and the quantity of feeding peas sold. Such record shall at all reasonable times be open to inspection by any person authorised in that behalf by or on behalf of the Minister.

4. (1) On any sale by a licensed seed merchant to an ultimate buyer of any feeding peas for use as seed the seller shall within three days of the delivery of the peas render to the buyer an invoice stating that the peas are sold for use as seed.

(2) An ultimate buyer shall not sell or otherwise dispose of any feeding peas bought by him for use as seed and shall not use any such peas for any purpose other than seed.

5. Every approved buyer and every licensed seed merchant shall keep or cause to be kept an accurate record of all purchases and sales by him of feeding peas showing the names and addresses of the persons from whom he has purchased any peas or to whom he has sold any such peas, whether or not they were sold for use as seed or for resale as seed and particulars of the description and quantities of such peas purchased or sold and shall furnish to the Minister such returns relating to his dealings in such peas as the Minister may from time to time require.

6. Any person authorised in writing by or on behalf of the Minister, may enter upon any premises with a view to securing compliance with the provisions of this Order and may take samples of any feeding peas which he has reason to suspect of being bought or sold in contravention of this Order.

7. No person shall in connection with a sale or disposition of any feeding peas enter or offer to enter into any artificial transaction or make or demand any unreasonable charge.

8. (1) The provisions of this Order are subject to any directions, authorisations or licences which may from time to time be given or granted by or on behalf of the Minister.

(2) Every person holding a licence or authorisation granted under this Order shall comply with every condition imposed by such licence or authorisation.

9. Infringements of this Order are offences against the Defence (General) Regulations, 1939.

10. (1) This Order shall not apply to any feeding peas grown outside the United Kingdom.

(2) This Order shall not apply to Northern Ireland.

11. This Order shall come into force on the 16th day of March 1942, and may be cited as The Threshed Feeding Peas (Control) Order, 1942.

THE CONTROL OF THE COTTON INDUSTRY (No. 29) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 412.

EMERGENCY POWERS (DEFENCE).

Cotton Industry.

The Control of the Cotton Industry (No. 29) Order, 1942, dated March 6, 1942, made by the Minister of Supply under Regulations 55 and 98 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made:

Now, therefore, the Minister of Supply in exercise of the powers conferred on him by Regulations 55 and 98 of the Defence (General) Regulations, 1939, hereby orders as follows:—

1. *Revocation of No. 24 Order.*—The Control of the Cotton Industry (No. 24) Order, 1941(a) is hereby revoked.

2. *Price and prescribed terms and conditions.*—(1) No person shall sell or buy or agree or offer to sell or buy any cotton waste of any of the classes and descriptions specified in the First Schedule to this Order at a price exceeding the price specified in that Schedule for cotton waste of that class and description and, if more than one grade is specified in that Schedule in relation to cotton waste of that class and description, of the grade so specified to which that cotton waste is equivalent or most nearly equivalent in grade.

(2) No person shall sell or buy or agree or offer to sell or buy any cotton waste which is of one of the classes specified in the First Schedule to this Order but is not of any of the descriptions specified in relation to cotton waste of that class, unless the Minister of Supply shall by special or general direction issued in exercise of the powers conferred by Article 5 of this Order have fixed the maximum price for cotton waste of that class and description; and, where the maximum price for cotton waste of any class and description shall have been so fixed, no person shall sell or buy or agree or offer to sell or buy any cotton waste of that class and description at a price exceeding the price so fixed for cotton waste of that class and description and, if different maximum prices are so fixed for different grades of cotton waste of that class and description for the grade to which that cotton waste is equivalent or most nearly equivalent in grade.

(3) No person shall sell or buy or agree or offer to sell or buy any cotton waste of any of the classes specified in the First Schedule to this Order

(*a*) otherwise than upon or subject to the terms and conditions prescribed in the Second Schedule to this Order, or

(*b*) upon or subject to any terms or conditions inconsistent with or repugnant to any of those terms and conditions.

3. *Power for Minister of Supply to determine the class description and grade.*—(1) The Minister of Supply may determine that the cotton waste to which any contract of sale or offer relates or any particular parcel or consignment of cotton waste or cotton waste of any particular class description and grade is of a class and description specified in the First Schedule to this Order or in any direction issued by the Minister of Supply in exercise of the powers conferred by Article 5 of this Order, and, if so, of which of the classes and descriptions so specified and, if there is more than one grade so specified in

(a) S.R. & O. 1941 No. 1187.

relation to cotton waste of that class and description, to which of the grades so specified that cotton waste is equivalent or most nearly equivalent in grade.

(2) Any such determination shall be conclusive in ascertaining for the purposes of this Order the maximum price for the cotton waste to which the determination relates and binding upon any seller or purchaser of any such cotton waste, but may be revoked or varied by the Minister of Supply.

(3) Notice of any determination under this paragraph or of the revocation or variation of any such determination shall be given in such manner as the Minister of Supply thinks best adapted for informing persons affected or likely to be affected thereby as being the owner of cotton waste to which the determination relates, or party to any contract of sale or offer for the sale or purchase of any such cotton waste.

4. *Power of Minister of Supply to permit higher price for special grades.*—(1) If the Minister of Supply is satisfied that any particular parcel or consignment of cotton waste of a class and description specified in the First Schedule to this Order or the cotton waste of any such class and description produced or to be produced by any person is of a grade better than the grade (if any) or the best grade (if more than one) specified in that Schedule in relation to cotton waste of that class and description, then notwithstanding anything contained in this Article the Minister of Supply may permit any person to sell or buy or agree or offer to sell or buy that cotton waste at a price exceeding the maximum price or the highest maximum price (if more than one) specified in the First Schedule to this Order for cotton waste of that class and description by such amount as shall in the opinion of the Minister of Supply fairly represent the difference in grade between the cotton waste to which the permission relates and the cotton waste to which that maximum price applies, but the price so permitted shall not exceed the highest maximum price so specified in relation to cotton waste of that class.

(2) Any permission under this paragraph may be given by notice in writing to the person proposing to sell or buy the cotton waste and may be given subject to such conditions (if any) as the Minister of Supply may think fit and may be revoked or varied by the Minister of Supply.

5. *Power for Minister of Supply to fix maximum price in certain cases.*—(1) The Minister of Supply may by special or general direction fix the maximum price for cotton waste which is of one of the classes specified in the First Schedule to this Order but is not of any of the descriptions so specified in relation to cotton waste of that class but the price so fixed shall not exceed the maximum price or the highest maximum price (if more than one) specified in the First Schedule to this Order for cotton waste of that class.

(2) Any direction issued in exercise of the powers conferred by this Article may fix the maximum price for

all cotton waste of the class and description specified in the direction or

any particular parcel or consignment of cotton waste or

cotton waste of any class and description so specified produced or to be produced by any person specified in the direction

and may fix different maximum prices for different grades of cotton waste of any specified class and description.

6. *Sales and purchases of cotton waste not situate in or to be delivered in the United Kingdom.*—Notwithstanding anything contained in this Order, in any proceedings in respect of any sale or purchase of cotton waste or any agreement or offer to sell or purchase cotton waste in contravention of any of the preceding provisions of this Order it shall be a defence for the defendant to prove

(*a*) that at the time when the sale or purchase or agreement or offer (as the case may be) was made the cotton waste was not situate in the United Kingdom, or, consigned to or intended to be delivered at any place in the United Kingdom, or, if the agreement or offer did not relate exclusively to specific cotton waste, that no cotton waste situate in or consigned to or intended to be delivered at any place in the United Kingdom was appropriated or intended subsequently to be appropriated to the agreement or proposed agreement, or

(*b*) that the cotton waste was not delivered and was not intended to be delivered to any person in the United Kingdom other than a person under obligation to carry it on behalf of the purchaser thereof to a place outside the United Kingdom.

7. *Restriction upon charges to be made for processing.*—No person shall make demand or receive or pay or agree or offer to pay any charge for the subjection of any cotton waste of any of the classes specified in the First Schedule to this Order to any process or treatment except spinning, bleaching and dyeing unless that charge shall previously have been approved in writing by the Minister of Supply but the Minister of Supply shall not approve any such charge which is in his opinion unreasonable or inconsistent with the prices and the terms and conditions prescribed under or by virtue of this Order.

8. *Particulars to be given by seller to buyer.*—Every person selling or agreeing to sell any cotton waste not produced or intended to be produced by him shall on the date of the contract of sale deliver or send to the purchaser a note or memorandum signed by the seller containing the name of the purchaser, full particulars of the weight, class description and grade of the cotton waste, and the price payable therefor in accordance with the contract of sale and the maximum price prescribed therefor by this Order or by any direction issued by the Minister of Supply in exercise of the powers conferred by Article 5 of the Order.

9. *Saving for certain agreements.*—Notwithstanding anything contained in this Order an agreement to sell cotton waste made in writing before the coming into force of this Order shall not by reason only of anything contained in this Order become void or unenforceable, and in any proceedings in respect of the sale or purchase of any cotton waste at a price or upon or subject to any terms or conditions not complying with any of the provisions of this Order it shall be a defence for the defendant to prove that the cotton waste was sold or purchased pursuant to an agreement made in writing before and valid and enforceable at the coming into force of this Order and that he failed to comply with the provisions of this Order so far only as was unavoidable in the proper performance of that agreement.

10. *Saving for transactions with the Minister of Supply.*—Nothing in this Order shall prohibit or restrict the making and carrying out of any sale or purchase or agreement for sale or purchase between the Minister of Supply and any other person at such price and upon such other terms and subject to such conditions as may be agreed between the Minister of Supply and that person.

11. *Definition of "cotton waste".*—In this Order "cotton waste" includes any material containing cotton fibre discarded in the course of the subjection of any material to any of the processes commonly known in the cotton industry as spinning, doubling, weaving, and knitting, or any process incidental or ancillary to any of those processes, or in the course of cleaning or sorting cotton waste, but does not include any material in woven or knitted form containing cotton fibre or any material containing not less than 5 per centum by weight of any textile fibres other than cotton fibre.

12. *Commencement and citation.*—This Order shall come into force on the 12th day of March, 1942, and may be cited as the Control of the Cotton Industry (No. 29) Order, 1942.

Dated this 6th day of March 1942.

THE SECOND SCHEDULE.

1. *Payment.* The price shall under the contract of sale be made payable in cash within 14 days of delivery.

2. *Interest.* If payment is not so made in full within 14 days of delivery, interest on the amount for the time being remaining unpaid shall be charged and paid at the rate of one half of one per centum for each month or part of a month after the 14 days but no interest shall be charged after payment or tender in full shall have been made.

3. *Place of delivery.* Unless the contract of sale expressly otherwise provides delivery of the cotton waste shall be made by the seller and taken by the buyer at the seller's premises or at the nearest convenient railway station thereto.

If pursuant to the contract of sale the seller is required to deliver cotton waste at any place other than the seller's premises or the nearest convenient railway station thereto, then notwithstanding Article 1 of this Order, the seller may, if the contract of sale so provides, charge and the buyer may pay in addition to the price a sum equal to the expenses properly incurred or to be incurred by the seller in respect of the carriage of the cotton waste from the place at which it is or will be situate immediately before the time, at which under the contract of sale delivery is to be made, to the place at which it is in accordance with the contract to be delivered, provided that no charge authorised by this paragraph shall become payable by or be recoverable from the buyer unless the seller shall have delivered to the buyer an invoice showing separately particulars of the charge.

4. *Time or period for delivery.* The contract of sale shall specify the time or times at which or the period within which delivery is to be made, and the latest of such times or the end of such period shall be not more than twelve months after the date of the contract of sale. The contract of sale shall require the seller to deliver, and the buyer to give particulars sufficient for enabling the seller to deliver at the time or times or within the period so specified.

5. *Packing, returnable bags.* No charge shall be made in addition to the price for putting cotton waste into bags or making it up into bales or other form convenient for delivery but if the cotton waste is in accordance with the contract of sale to be delivered in bags, then notwithstanding anything contained in Article 1 of the Order the seller shall charge and the buyer shall pay in addition to the price a sum equal to the reasonable cost to the seller of the bags and the seller shall repay to the buyer a sum equal to the reasonable cost to the seller of any bags which are returned by the buyer in good condition within six months. Empty bags may be returned by the buyer but at the expense of the seller.

When cotton waste is in accordance with the contract of sale to be delivered in bags, the seller shall deliver to the buyer an invoice showing separately the cost to the buyer of the bags.

THE CONTROL OF THE COTTON INDUSTRY (No. 32) ORDER, 1942.

STATUTORY RULES AND ORDERS, 1942, No. 670.

EMERGENCY POWERS (DEFENCE).

Cotton Industry.

The Control of the Cotton Industry (No. 32) Order, 1942, dated April 8, 1942, made by the Minister of Supply under Regulation 55 of the Defence (General) Regulations, 1939.

WHEREAS it appears to the Minister of Supply to be necessary for maintaining supplies and services essential to the life of the community and expedient that this Order should be made;

Now therefore the Minister of Supply in exercise of the powers conferred on him by Regulation 55 of the Defence (General) Regulations, 1939, hereby Orders as follows :—

1. *Price and prescribed terms and conditions on sales of controlled cloth.*—(1) No person carrying on the business of weaving shall sell or agree or offer to sell any controlled cloth produced or intended to be produced by him at a price other than the price ascertained in relation to that cloth in accordance with the provisions contained in the First Schedule to this Order.

(2) No person shall sell or agree or offer to sell any controlled cloth purchased or intended to be purchased by him at a price less than the price at which that cloth is purchased or to be purchased by him.

(3) No person not carrying on the business of weaving shall sell or agree or offer to sell any controlled cloth produced or intended to be produced from yarn belonging to him at a price less than the price ascertained in relation to that cloth in accordance with the provisions contained in the First Schedule to this Order.

(4) No person shall sell or agree or offer to sell any controlled cloth—

(*a*) otherwise than upon or subject to the terms and conditions prescribed by the Second Schedule to this Order, so far as such terms and conditions may be applicable or,

(*b*) upon or subject to any terms or conditions inconsistent with or repugnant to any of those terms and conditions.

(5) Where any person carrying on the business of weaving sells or agrees or offers to sell any controlled cloth produced or intended to be produced by him to a person carrying on business outside the United Kingdom, and that cloth is not under the contract of sale to be delivered by him to any person in the United Kingdom, other than a person under obligation to carry it to a place outside the United Kingdom, then, notwithstanding anything contained in this Article, the price shall not be less than the prescribed price for that cloth, with the addition of such amount as may reasonably represent all expenses properly incurred or to be incurred by him in or in connection with the packing of the cloth, its transport to the place at which under the contract of sale it is to be delivered, and its insurance during such transport.

(6) Where any person produces controlled cloth wholly or partly from yarn not belonging to him for or on behalf of the owner of the yarn, that cloth shall be deemed for the purposes of this Article to be produced by the owner of the yarn and not by the weaver.

(7) Notwithstanding anything contained in this Article such interest and other charges as are provided for by any of the provisions contained in the Second Schedule to this Order shall, when those provisions respectively apply, be charged or made by the seller and paid by the buyer in addition to the price to be so charged in accordance with this Article.

(8) Notwithstanding anything contained in this Article, in any proceedings in respect of any sale or agreement or offer to sell controlled cloth in contravention of this Article, it shall be a defence for the defendant to prove that at the time when the sale or agreement or offer (as the case may be) was made the cloth was not situate in the United Kingdom or consigned to or intended to be delivered at any place in the United Kingdom, or, if the agreement or offer did not relate exclusively to specific cloth, that no controlled cloth situate in or consigned to or intended to be delivered at any place in the United Kingdom was appropriated or intended to be appropriated to the agreement or proposed agreement.

2. *Restriction on charges for weaving controlled cloth.*—(1) Where any person (in this Article referred to as "the weaver") produces or agrees or offers to produce any controlled cloth wholly or partly from yarn not belonging to him for or on behalf of the owner of the yarn, the following provisions shall take effect namely:—

(*a*) no person shall pay or agree or offer to pay to the weaver and the weaver shall not demand receive or make or agree or offer to receive or make any remuneration, charge or other consideration other than a charge calculated by

(i) deducting from the prescribed price for that cloth a sum equal to 9 per centum of the appropriate allowance ascertained in accordance with the Rules and Tables contained in Part II of the First Schedule to this Order,

(ii) multiplying the amount so obtained by the number of yards of cloth so produced or agreed or offered to be produced and dividing by 100, and

(iii) deducting from the sum so obtained the cost of the yarn of each type and quality not belonging to the weaver which is used in the production of the cloth;

(*b*) no additional charge shall be made or received by the weaver in respect of the carriage of the yarn to his premises and if the expense of such carriage is not under the contract for the production of the cloth to be borne by him, the charge authorised by paragraph (*a*) of this Article shall be reduced by such sum as may reasonably represent the expenses properly incurred or to be incurred in or in connection with such carriage; but

(*c*) in addition to the charge authorised as aforesaid, the weaver shall charge and may receive such sum as may reasonably represent any expenses properly incurred or to be incurred by him in or in connection with the carriage of the controlled cloth from his premises or the nearest convenient railway station thereto to the premises at which he is under obligation to deliver that cloth.

(2) The cost of the yarn of any type and quality used in the production of any controlled cloth shall be deemed for the purposes of this Article to be the aggregate of—

(*a*) the sum arrived at by multiplying the number of pounds of yarn so used by the controlled price for that yarn on the date when the contract for the production of the cloth was made or, if there was then no controlled price for that yarn, the price per lb. actually paid by the owner of the yarn, and

(*b*) any expenses properly incurred by the owner of the yarn in or for the purpose of putting the yarn into the form in which under the contract for the production of the cloth the yarn is to be delivered to the weaver and, if the yarn is warp yarn, any other expenses so incurred in or in connection with any process to which the yarn is subjected before delivery to the weaver.

(3) Notwithstanding anything contained in this Article, in any proceedings in respect of any charge demanded made or received or agreed to be made or received in contravention of this Article by the weaver of the controlled cloth, to which the proceedings relate, it shall be a defence for the defendant to prove that he had reasonable grounds for believing and did believe that the charge was calculated in accordance with sub-paragraph (*a*) of paragraph (1) of this Article and that the reduction (if any) to be made pursuant to sub-paragraph (*b*) of that paragraph was made in such charge.

3. *Cotton cloth to which the Order applies.*—(1) Subject to the following provisions of this Article and of Article 4 of this Order, this Order shall apply to any cotton cloth complying with the specification contained in the Third Schedule to this Order.

(2) Notwithstanding anything contained in this Order, in any proceedings in respect of any contravention of Article 1 or Article 2 of this Order it shall be a defence for the defendant to prove that the controlled cloth, to which the proceedings relate, was produced or woven or, if at the material time the cloth had not been produced or woven, was intended to be produced or woven—

(*a*) on a loom equipped with automatic mechanism for replenishing the weft yarn for stopping the loom on the breaking of any of the warp threads and for adjusting the tension in the warp threads according to the amount of yarn on the beam, or

(*b*) (unless the proceedings relate to cloth of the type commonly known as "two and two twills") with more than one lift per pick, or

(*c*) with more than six lifts, or

(*d*) from more than one beam, or

(*e*) from sized warp yarn in which the weight of size exceeds the weight of the unsized warp yarn.

4. *Power for Minister of Supply to determine that Order shall cease to apply or again apply to cotton cloth of any particular type and quality.*—(1) The Minister of Supply may from time to time determine that as from such date as he may fix this Order shall cease to apply to controlled cloth of any particular type and quality, or shall again apply to cotton cloth of any particular type and quality, to which this Order shall by virtue of a determination under this paragraph have ceased to apply, and this Order shall apply and have effect in accordance with any and every such determination.

(2) When the Minister of Supply determines that this Order is to cease to apply or again to apply to cotton cloth of any particular type and quality, such determination shall forthwith be recorded by entering in the register such particulars, as may appear to the Minister of Supply to be material and by deleting or amending, if and so far as requisite, any existing entry or entries therein.

(3) An entry in the register recording that this Order ceased to apply or again applied to cotton cloth of any particular type and quality on any date specified in the register shall be conclusive evidence for all purposes of the matters so recorded, and a copy of any entry in the register purporting to be certified to be a true copy by the Cotton Controller shall in all legal proceedings whatsoever be received as *primâ facie* evidence of such entry and of the matters thereby recorded without any proof of the handwriting or official position of the person certifying to the truth of the copy.

(4) On any entry being made in the register for the purposes of this Article in relation to cotton cloth of any particular type and quality notice of the matters thereby recorded shall be given to any persons appearing to the Minister of Supply to be affected as being engaged in the production of cotton cloth of that type and quality.

5. *Register of controlled cloth.*—(1) The Minister of Supply shall cause to be established a register in such form as he may from time to time prescribe in which shall be entered such particulars as may appear to him to be material relating to cotton cloth of any type and quality to which any determination made by the Minister of Supply in exercise of the powers conferred by paragraph (1) of Article 4 of this Order relates.

(2) The register shall be kept at the office for the time being of the Cotton Controller or at such other place as the Minister of Supply may from time to time determine and shall, subject to any regulations made by the Minister of Supply and for the time

being in force, be open to the inspection of the public at all convenient hours.

6. *Power for Minister of Supply to refer proposals as to application of Order to Advisory Committee.*—(1) If any representation is made to the Minister of Supply that this Order should cease to apply or again apply to cotton cloth of any particular type and quality, he may refer such proposal to a committee (in this Article referred to as "an Advisory Committee") appointed pursuant to paragraph (3) of this Article.

(2) It shall be the duty of an Advisory Committee to consider and advise the Minister of Supply upon any proposals referred to them under paragraph (1) of this Article.

(3) An Advisory Committee appointed for the purposes of this Article shall consist of three persons appointed by the Minister of Supply of whom

one shall be a person engaged in the production of cotton cloth of the type to which the proposals to be submitted to the Committee pursuant to this Article relates,

one shall be a person engaged in spinning cotton yarn, and

one shall be a merchant or a person engaged in the manufacture of any material or article from cotton cloth of that type.

(4) Before advising the Minister of Supply upon any proposal referred to them pursuant to this Article an Advisory Committee may, if they think fit, obtain a report from the Director for the time being of the British Cotton Industry Research Association, and shall have regard to any representations with respect to the proposal made to them by any other person appearing to them to be affected by the proposal as being engaged either in the production of cotton cloth of the type and quality to which the proposal relates, or of any type and quality which may in their opinion be competitive with cloth of that type and quality, or in the manufacture of any material, or article from cotton cloth of any such type and quality, or as a merchant.

(5) Subject to any directions from time to time given to them by the Minister of Supply, an Advisory Committee may elect their own Chairman and otherwise regulate their own procedure as they may think fit.

7. *Certain particulars to be given by seller to buyer of controlled cloth.*—(1) Every person selling or agreeing to sell any controlled cloth shall, on the making of the contract of sale, deliver or send to the buyer a note or memorandum signed by the seller containing the name of the buyer, the number of pieces, the width of the cloth in inches, the length of each piece in yards of 36 inches, and the price payable therefor and

(*a*) if the cloth is sold to a specification, the warp threads per inch, and the number of picks per inch "on the table", and the counts of warp and weft, or

(*b*) if the cloth is not sold to a specification, a quality mark and a description by which the cloth can be identified.

(2) Every person selling or agreeing to sell controlled cloth which is not sold to a specification shall keep in such form as the Minister of Supply may from time to time prescribe a record of the particulars of such cloth.

8. *Restriction on payment of commissions.*—(1) In relation to any sale or purchase or agreement or offer to sell or purchase or any negotiation for a sale or purchase of any controlled cloth produced or intended to be produced by the person selling or proposing to sell the cloth or from yarn belonging to him, no person shall pay or receive commission amounting in the aggregate to more than one per centum of the prescribed price for the cloth or, if the person receiving commission guarantees the payment of the price of the cloth, 1½ per centum of the prescribed price.

(2) No person shall pay any commission in relation to any sale or agreement to sell any controlled cloth produced or intended to be produced by him or from yarn belonging to him, unless the name of the buyer is disclosed to him by the person receiving commission.

(3) No person receiving or entitled to receive any commission in relation to any sale or purchase or agreement or offer to sell or purchase or any negotiation for a sale or purchase, to which this Article applies, shall pay the whole or any part of any commission so received or to which he may be so entitled to any party to the sale or purchase or proposed sale or purchase, or to any other person directly or indirectly for the benefit of any such party or directly or indirectly afford, or enter into any arrangement having the effect or with the object of directly or indirectly affording any benefit or advantage to any such party in relation to any such payment as aforesaid.

(4) This Article shall not apply to any sale by or purchase from a person not carrying on the business of weaving in the United Kingdom or any agreement or offer or negotiation for any such sale or purchase.

(5) In this Article "commission" includes any remuneration or other payment or benefit representing or being in the nature of a commission.

9. *Power for Minister of Supply to permit sales at less than the prescribed price.*—(1) If the Minister of Supply is satisfied that it is necessary or expedient so to do for the purpose of mitigating or avoiding hardship suffered or likely to be suffered by reason of the operation of Article 1 of this Order, he may permit any person to sell any specified parcel or lot of controlled cloth or controlled cloth of a specified type and quality or description produced or to be produced by him at a price less than the prescribed price therefor but not less than such price as may be specified by the Minister of Supply.

(2) Any permission given under this Article may be given subject to such conditions (if any) as the Minister of Supply may think fit, and may be given, revoked or varied by the Minister of Supply by notice in writing to the person proposing to sell the cloth.

10. *Entry upon and inspection of certain premises and taking of samples.*—Every person carrying on or employed in connection with any undertaking engaged in the production or sale of cotton cloth shall, upon being requested so to do either by notice served on him or by special or general direction issued by the Minister of Supply, permit any inspector or examiner appointed by the Minister of Supply to enter and inspect any premises used for or in connection with the undertaking and to take samples of any cotton, cotton yarn or cotton cloth in or upon such premises.

11. *Saving for certain Agreements.*—Notwithstanding anything contained in this Order, an agreement to sell any controlled cloth made in writing before the coming into force of this Order shall not by reason only of anything contained in this Order become void or unenforceable, and in any proceedings in respect of the sale of any controlled cloth at a price or upon or subject to any terms or conditions not complying with any of the provisions of this Order it shall be a defence for the defendant to prove that the cloth was sold pursuant to an agreement for the sale of that cloth made in writing before and valid and enforceable at the coming into force of this Order and that he failed to comply with the provisions of this Order so far only as was unavoidable in the proper performance of that agreement.

12. *Saving for transactions with the Minister of Supply.*—Nothing in this Order shall prohibit or restrict the making and carrying into effect of any sale or purchase or agreement for sale or purchase between the Minister of Supply and any other person at such price and upon such other terms and subject to such conditions as may be agreed between the Minister of Supply and that person.

13. *Definitions and interpretation.*—In this Order

(*a*) "cotton cloth" means a fabric produced by weaving which is in the loom state and contains not less than 95 per centum by weight of controlled single yarn or controlled doubled yarn or a mixture of those yarns exclusive of the yarn used in the headings or selvedge;

(*b*) "controlled cloth" means cotton cloth of any type and quality to which this Order for the time being applies;

(*c*) "cotton yarn" means any single or doubled yarn produced wholly from raw cotton, cotton waste or a mixture of raw cotton and cotton waste;

(*d*) "fixed" means fixed by the Minister of Supply by an Order made under Regulation 55 of the Defence (General) Regulations, 1939;

(*e*) "controlled single yarn" means any single cotton yarn (whether or not coloured for the purposes of identification with a fugitive dye) for which the price to be charged on a sale by the producer is for the time being fixed;

(*f*) "controlled doubled yarn" has the same meaning as in the Control of the Cotton Industry (No. 8) Order, 1940(a), as varied from time to time, and includes yarn coloured for purposes of identification with a fugitive dye but does not include yarn doubled with more than two folds;

(*g*) "prescribed price" in relation to any controlled cloth means the price ascertained in relation to that cloth in accordance with the provisions contained in the First Schedule to this Order;

(*h*) "the controlled price" in relation to any cotton yarn means the price per lb. for the time being fixed as the price to be charged for that yarn on a sale by the producer of the yarn;

(*i*) "the register" means the register to be established under Article 4 of this Order;

(*j*) "weaving", "merchant" and "product of the industry" have the same meanings respectively as in the Control of the Cotton Industry (No. 1) Order, 1939(b); and

(*k*) references to offers to sell any cotton cloth shall be construed as including references to invitations for offers to buy cotton cloth.

14. *Commencement and short title.*—This Order shall come into force on the 17th day of April 1942, and may be cited as the Control of the Cotton Industry (No. 32) Order, 1942.

Dated this 8th day of April 1942.

H. J. HUTCHINSON,
Under-Secretary, Ministry of Supply.

SCHEDULES.

FIRST SCHEDULE.

RULES FOR ASCERTAINING THE PRESCRIBED PRICE FOR CONTROLLED CLOTH.

PART I.

1. In this Schedule—

"controlled warp yarn" means cotton yarn used or to be used as warp for weaving for which the price to be charged on a sale by the producer of the yarn is for the time being fixed but does not include yarn used or to be used for selvedge;

(a) S.R. & O. 1940 (No. 1096) II, p. 1059.
(b) S.R. & O. 1939 (No. 1633) I, p. 1204.

"controlled weft yarn" means cotton yarn used or to be used as weft for weaving for which the price to be charged on a sale by the producer of the yarn is for the time being fixed;

"the tape length" in relation to any controlled cloth means the length to the nearest yard of controlled warp yarn used in the production of 100 yards of that cloth, half of a yard being counted for the purposes of this definition as one yard;

"the date of the contract for production of the cloth" means the date when the contract for production of the cloth is made or, in relation to any offer to produce the cloth, the earliest date on which the offer may be accepted;

"count" in relation to any doubled yarn means half the nominal count of the single yarn; and

"controlled cloth", "cotton yarn", "fixed" and "controlled price" have the same meanings respectively as in the Order.

2. The prescribed price for any controlled cloth means the price calculated in relation to that cloth at a rate per 100 yards of cloth equal to the aggregate of the following costs and allowances calculated in accordance with the provisions contained in this Schedule, namely:—

(a) the cost of the controlled warp yarn used in producing the cloth, or, if controlled warp yarn of more than one type and quality is so used, the cost of the controlled warp yarn of each type and quality so used;

(b) the cost of the selvedge yarn used in producing the cloth, or, if selvedge yarn of more than one type or quality is so used, the cost of the selvedge yarn of each type and quality so used;

(c) the cost of the controlled weft yarn used in producing the cloth, or, if controlled weft yarn of more than one type and quality is used in producing the cloth, the cost of the controlled weft yarn of each type and quality so used;

(d) the cost of any other cotton yarn or of any yarn not being cotton yarn used in producing the cloth, or, if the yarn so used is of more than one type and quality, the cost of the yarn of each type and quality so used;

(e) the weavers' wage for weaving 100 yards of the cloth with the addition of 2 per centum as representing the cost of holidays with pay;

(f) an allowance ascertained in accordance with the Rules and Tables contained in Part II of this Schedule; and

(g) such of the allowances specified in the last column of the Table in Part III of this Schedule as may in accordance with that Table be applicable having regard to the aggregate of the costs and allowances referred to in the foregoing paragraphs of this clause.

3. (1) The cost of the controlled warp yarn of any type and quality used in producing the cloth shall be calculated by multiplying the cost per lb. in the loom of yarn of that type and quality by—

(i) the number of ends of that yarn in the warp (excluding selvedge yarns); and

(ii) the tape length;

and by dividing the sum so obtained by 840 and by the count of that yarn.

(2) The cost of the selvedge yarn of any type and quality used in producing the cloth shall be calculated by multiplying the cost per lb. in the loom of the yarn of that type and quality by—

(i) the number of ends of that yarn in the warp; and

(ii) the tape length;

and by dividing the sum so obtained by 840 and by the count of that yarn.

(3) (a) The cost of the controlled weft yarn of any type and quality used in producing the cloth shall be calculated by multiplying the cost per lb. in the loom of yarn of that type and quality by—

(i) the number of picks per inch in the cloth multiplied by the percentage of weft threads of yarn of that type and quality so used, or, if all the controlled weft yarn so used is of one type and quality and more than 99 per centum of the weft threads in the cloth consist of that yarn, multiplied by 100; and

(ii) the width occupied in the reed by the warp yarn including selvedge yarn;

and by dividing the sum so obtained by 840 and by the count of that yarn.

(b) The width occupied in the reed by the warp yarn shall for the purpose of calculating the cost of any controlled weft yarn be determined by dividing the total number of ends of yarn (including selvedge yarns) in the warp by the number of dents per inch in the reed and by the average number of ends in each dent.

(4) The cost of any other cotton yarn or of any yarn not being cotton yarn of any type and quality used in producing the cloth shall be calculated by multiplying the cost per lb. in the loom of yarn of that type and quality by the weight in pounds of that yarn in 100 yards of the cloth.

(5) (a) The weavers' wage for weaving 100 yards of the cloth shall be calculated at the rate applicable under the Cotton Manufacturing Industry (Rates of Wages for Weavers) Order, 1937(a), to the system of weaving commonly known as "the four-loom system of weaving" but no deduction shall be made for the use of large cops or of re-wound weft or for loom sweeping and cleaning, oiling, cloth carrying or weft carrying.

(b) If the reed space exceeds by more than 7 inches the width of the cloth then for the purpose of calculating the weavers' wage the reed space shall be deemed to exceed the width of the cloth by 7 inches but no more.

4. (1) The cost per lb. in the loom of controlled warp yarn of any type and quality used in producing controlled cloth shall be deemed to be the appropriate controlled price for warp yarn of that type and quality on the date of the contract for production of the cloth, with the addition of such of the allowances ascertained in accordance with the Table and Rules contained in Part IV of this Schedule as shall be appropriate.

(2) In this paragraph—

"the appropriate controlled price" in relation to single warp yarn means—

(a) if the yarn is of Egyptian type, the controlled price for yarn of that type and quality when delivered on large mule cops or ring tubes;

(b) if the yarn is extra coarse or coarse mule yarn of American type, the controlled price for yarn of that type and quality when delivered on twist mule cops;

(c) if the yarn is coarse-medium mule yarn or medium mule yarn of American type, the controlled price for yarn of that type and quality when delivered on bastard cops;

(d) if the yarn is fine-medium mule yarn of American type, the controlled price for yarn of that type and quality with the addition of 0·56*d.* per lb.;

(e) if the yarn is of American type but of any quality not hereinbefore in this paragraph mentioned, the controlled price for yarn of that type and quality when delivered on cops or ring tubes; and

(f) if the yarn is delivered on cops, the controlled price for that yarn when delivered on short tubes; and

(a) S.R. & O. 1937 No. 298.

"the appropriate controlled price" in relation to doubled warp yarns means the controlled price for yarn of that type and quality when delivered on back beams.

5. (1) The cost per lb. in the loom of controlled weft yarn of any type and quality used in producing controlled cloth shall be deemed to be the appropriate controlled price for weft yarn of that type and quality on the date of the contract for production of the cloth with the addition of such of the allowances set out in the Table contained in Part V of this Schedule as shall be appropriate.

(2) In this paragraph—

"the appropriate controlled price" in relation to single weft yarn means—

(a) if the yarn is of Egyptian type, the controlled price for *pin cops of that type*;

(b) if the yarn is medium twist yarn of American type, the controlled price for yarn of that type and quality when delivered on short tubes reduced by 0·17*d.* per lb.; and

(c) if the yarn is of American type but is not medium twist yarn the controlled price for weft mule cops of that type and quality not exceeding in size seven inches by one inch and delivered on short tubes, and

"the appropriate controlled price" in relation to doubled weft yarn means the controlled price for yarn of that type and quality when delivered on pirns.

6. The cost per lb. *in the loom of any* selvedge or other yarn of any type and quality used in producing any controlled cloth (not being controlled warp yarn or controlled weft yarn) shall be deemed to be the aggregate of—

(a) the expenses per lb. of yarn reasonably and properly incurred or to be incurred by the producers of the cloth in purchasing or producing that yarn or in connection with any process to which that yarn is subjected before being used in or prepared for the loom; and

(b) such of the allowances ascertained in accordance with the Table and Rules contained in Part IV or set out in the Table contained in Part V of this Schedule as shall be appropriate.

7. The prescribed price ascertained in accordance with the foregoing provisions of this Schedule is for cloth delivered in the form in which it leaves the loom, but plaited and put into bundles or other simple form convenient for delivery, tied with string, but without external wrapping or cover, and includes the subjection of the cloth to the customary examination by the seller. The prescribed price further includes the cost of inserting in the cloth the heading necessary for identification commonly known as "the tail bar."

If under the contract of sale the seller is required to perform any additional work in relation to the cloth after it leaves the loom or to insert in the cloth any other heading, the prescribed price shall be calculated in accordance with the foregoing provisions of this Schedule and increased by such of the following allowances as may be applicable, namely:—

(i) a sum equal to the wages paid by the seller in performing such work with the addition of the cost to the seller of any materials used in the performance of that work and a further sum equal to half the wages so paid; and

(ii) a sum equal to the amount of any extra wages payable by the seller in respect of such other heading in accordance with any Order made under the Cotton Manufacturing Industry (Temporary Provisions) Act, 1934, and for the time being in force.

PART II.

RULES AND TABLES FOR ASCERTAINING THE ALLOWANCE REFERRED TO IN SUB-PARAGRAPH (*f*) OF PARAGRAPH 2 IN PART I OF THIS SCHEDULE.

1. The allowance referred to in sub-paragraph (*f*) of paragraph 2 in Part I of this Schedule shall be ascertained as follows:—

(a) the appropriate margin shall be increased by such of the following percentages as may be applicable having regard to the quality of the cloth, namely:—

(i) *Reed Allowance*

Cloths with not less than 80 ends per inch and not more than 90 ends per inch	Add 5 per cent.
Cloths with more than 90 ends per inch but not more than 100 ends per inch	Add 7½ per cent.
Cloths with more than 100 ends per inch but not more than 110 ends per inch	Add 10 per cent.
Cloths with more than 110 ends per inch but not more than 120 ends per inch	Add 12½ per cent.

(ii) *Weft Allowance*

Cloths woven with 22s weft count down to and including 18s count	Add 4 per cent.
Cloths woven with weft count coarser than 18s down to and including 14s count	Add 8 per cent.
Cloths woven with weft count coarser than 14s down to and including 12s count	Add 12 per cent.
Cloths woven with weft count coarser than 12s down to and including 10s count	Add 16 per cent.

(iii) *Pickfinding Allowance*

Cloths woven with weft counts down to and including 18s count	Add 6 per cent.
Cloths woven with weft counts below 18s down to and including 14s count	Add 8 per cent.
Cloths woven with weft counts below 14s down to and including 12s count	Add 10 per cent.
Cloths woven with weft counts below 12s down to and including 10s count	Add 12 per cent.

(b) the appropriate margin as so increased shall be multiplied by the number of picks per inch "on the table."

2. In calculating any percentage by which the appropriate margin is to be increased any fraction of a penny less than 1/100th but not less than 1/200th shall be counted as 1/100th of a penny and any fraction of a penny less than 1/200th shall be disregarded.

3. Where two or more of the above-mentioned percentages are applicable, the second percentage added shall be calculated upon the appropriate margin as increased by the

first percentage, and where three of the said percentages are applicable, the third percentage added shall be calculated upon the appropriate margin as increased by the first and second percentages.

4. In this Part of this Schedule "the appropriate margin" means such of the margins set out in the following Table as may be applicable having regard to the width of the cloth, namely :—

Cloth Width in inches	Appropriate Margin	Cloth Width in inches	Appropriate Margin	Cloth Width in inches	Appropriate Margin

SECOND SCHEDULE.

PRESCRIBED TERMS AND CONDITIONS OF SALE.

1. (*a*) *Payment.*—Subject to paragraph 2 below, the price shall under the contract of sale, be made payable in cash within 14 days of delivery, and no deduction for discount shall be allowed.

(*b*) *Interest.*—Subject to paragraph 2 below, if payment is not so made in full within the 14 days of delivery, interest on the amount for the time being remaining unpaid shall be charged and paid at the rate of one-half of one per cent for each month or part of a month after the 14 days, but no interest shall be charged after payment or tender in full shall have been made.

2. *Poyment and Interest on Export Sales.*—If under the contract of sale the cloth is delivered or intended to be delivered to the buyer outside the United Kingdom or to a person under obligation to carry the cloth to a place outside the United Kingdom (*a*) discount may be allowed provided that the amount receivable by the seller after allowing the discount shall not be less than the prescribed price; and (*b*) the price may be made payable more than 14 days after delivery, but, if under the contract of sale payment is not to be made within 30 days of delivery, interest on the price shall be charged at the rate of 5 per centum per annum from the expiration of the 30 days until payment or tender in full shall have been made.

3. *Place of Delivery.*—Unless the contract of sale expressly otherwise provides delivery of the cotton cloth shall be made by the seller and taken by the buyer at the seller's premises or at the nearest convenient railway station thereto.

If pursuant to the contract of sale the seller is required to deliver cotton cloth at any place other than the seller's premises or the nearest convenient railway station thereto, then notwithstanding Article 1 of this Order, the seller shall charge and the buyer shall pay in addition to the price a sum equal to the expenses properly incurred or to be incurred by the seller in respect of the carriage of the cotton cloth from the place at which it is or will be situate immediately before the time, at which under the contract of sale delivery is to be made, to the place at which it is in accordance with the contract to be delivered, and the seller shall deliver to the buyer an invoice showing separately particulars of the charge.

This paragraph shall not apply if the buyer carries on business outside the United Kingdom and the cloth is not under the contract of sale to be delivered by the seller to any person in the United Kingdom other than a person under obligation to carry it to a place outside the United Kingdom.

4. *Time or Period for Delivery.*—The contract of sale shall specify the time or times at which or the period within which delivery is to be made, and the latest of such times or the end of such period shall be not more than twelve months after the date of the contract of sale. The contract of sale shall require the seller to deliver, and the buyer to give particulars sufficient for enabling the seller to deliver, at the time or times or within the period so specified.

5. If under the contract of sale the seller is required to provide any external wrapping or cover, the seller shall charge and the buyer shall pay in addition to the price a sum equal to the cost to the seller of such wrapping or cover and such sum shall be shown separately in the invoice.

6. *Claims and allowances.*—Except in accordance with an Order of the Court or an award of an arbitrator no allowance exceeding 1 per centum of the price shall be made by or sum be recoverable from the seller in respect of faulty cloth or late delivery, unless the amount to be allowed or recovered shall have been approved in writing by the Cotton Controller.

THIRD SCHEDULE.

SPECIFICATION OF CONTROLLED CLOTH.

Width of Cloth.—Not less than 23 inches and not more than 60 inches (the width of cloth to be the width as measured "on the table").

Counts of Yarn—

Controlled Warp Yarn—

Single yarn. { Minimum counts 12's; Maximum ,, 90's

Doubled yarn. { Minimum ,, 2/24's; Maximum ,, 2/120's

Controlled Weft Yarn—

Single yarn. { Minimum ,, 10's; Maximum ,, 120's

Doubled yarn. { Minimum ,, 2/20's; Maximum ,, 2/120's

Warp Ends per inch in cloth.—Any number of ends per inch not exceeding 120.

The warp ends per inch in the cloth shall be determined by dividing the total number of ends in the cloth by the width of the cloth in inches.

Weft ends per inch in cloth.—Any number of ends per inch.

"Controlled warp yarn" and "controlled weft yarn" have the same meanings respectively as in the First Schedule to the Order.

PERSONS OR BODIES OF PERSONS DECLARED TO BE ENEMIES FOR THE PURPOSES OF PART XV OF THE DEFENCE OF INDIA RULES.

THE following Notification (*No.* 1493-W. T. L/1/42, dated the 22nd July 1942) has been issued by the Government of India in the Defence Department :—

In pursuance of clause (*d*) of rule 97 of the Defence of India Rules, and in supersession of the notification of the Government of India in the Defence Co-ordination Department, No. 1396-OR/1/42, dated the 20th May 1942 (*see* the Supplement to the *Indian Trade Journal*, dated the 30th July 1942), the Central Government is pleased to declare, each of the persons or bodies of persons specified in the Schedule hereto annexed to be an enemy for the purposes of Part XV of the said Rules.
