THE MOVING PICTURE AS A SIMILE OF LIFE.

Viewing the science of Astrology from a very human and personal standpoint, the Horoscope can be compared to a Moving Picture which starts to unroll from the moment of birth. Just as in the moving picture world there are Sunny Brook Farm films, those of the Charlie Chaplin order, and still others which portray the greater events of the world, so in the case of people's lives, some individuals play just ordinary parts, others of comedy, furnishing a bit of spice to life, some are the builders of great industries or organizers of artistic and musical movements, while still others, by being impersonal and Universal, help humanity to greater things in science, philosophy and spirituality. Your character which is Destiny, determines what your picture shall be, but the great question is, are you the Star in your picture or are you playing a minor part because you have not made the most of your opportunities and have lacked ambition.

The person possessing a great philosophy and who realizes the power of non-resistance, appreciates that it is safest to follow harmoniously the natural sequence of events and thus

make the most of each picture as it appears on the screen. It requires tremendous spiritual understanding to be able to transcend what to most of us seems the inevitable, but we must try to live up to the conviction that everything which comes to our mill is grist.

The projector realizes that he cannot make his story more interesting or thrilling by showing the pictures from the fifth reel before he has finished the fourth. To make his story intelligent and complete, he must show the incidents in consecutive order. The old saying that "every dog has his day" can be applied to Astrology. Many through procrastination, fail to take advantage of life's opportunities until too late, while others, through being impatient, acting from impulse and without reflection, unwisely force issues. They may apparently succeed, but by doing so have interfered with a larger plan, which through co-operating with Fate would have brought them greater and richer experiences. The degree of success or misfortune varies according to hereditary influences, traditions, and background, as well as personal effort.

Generally every native is under the sujection or influence of a planet. So, the situation of a native under the ruling planet Mercury, is being dealt with hereunder. Let us explore the persons born under the ruling of Mercury:-

Those born during the time of transition of Sun in Mithuna and Kanni, will be subjected to the ruling of Mercury irrespective of their birth year. That means for the individuals born in Ani and Purattasi months, the ruling planet will be Mercury. For these natives, clear wisdom and capacity to acquire high status due to his own efforts will exist. In this there will be much difference between the Mithuna and Kanni. The nature of Mithuna and its luck are to be valued much. Though there is special significance for Kanni in a way, it will not possess the importance of Mithuna. The Mercury is the owner of these two signs. Yet, due the movements of the Sun and the position of Rasi, there will be changes in the situation. The chief planet Sun and other planets have got their own independant qualifies. According to their position, the results are to be predicted. Mercury is a planet of Satva Guna (quality.) His importance lies in the wisdom and the profession. The Mithuna denotes youth, pleasure, earnings of money and fame etc. The native born at the time of location of Sun in Mithuna, however long his longevity, his life will be one of eminence through out. Mainly the financial condition will get increased

day by day. Though he may become old, his activities will be those of a youth. His aim will be always on important matters. Though his speeches are moderate, they will be profitable in substance. He will have the capacity of keeping up his prestige, whatever may be the crisis or difficulties that may come across by using his diplomacy. He will possess the qualities and liking for drama, music, editing papers, printing, races, protecting horses, selling books and fancy goods and generally enthusiasm in trade. He will have belief in the science and Godliness. In spite of all such good virtues in his internal life lack of purity or other drawbacks will exist. He will utilise every opportunity in a profitable way. He will possess the capacity of giving wide publication of his profession and his brilliancy. If the situation of other planets is also favourable according to his horoscope, such a native will be in a rich and prosperous state. The nature of his life will be one of honour and fame. The native will have close relationship with the prominent men or world leaders. Though he may be a man born in a poor family, his condition will be surely admirable. He will have belief in Astrology and Mantra sastras. But, he will be reluctant to disclose it to others. He will have good status with the relatives. The prosperity of the brothers will also be high. He will capture everyone by his speech. There is no doubt that the above said qualities can be seen in the individual born at the time of transition of Sun in Mi-

thuna. Similarly let us see the position of the natives born in Purattasi while the sun was transiting in Kanni. Though the natives of this Rasi, will possess the same quality of Mithuna, the results will be quite different. These natives will always prefer solitary life in silence. But they will have many thoughts in their heart. The sharpness of Mercury, precaution capacity to explore the subjects closely and power to influence others to his side will be his virtues. The natives born in Kanni with Sun will be capable of exploring every little matter and giving wide publication of their ideals. They will critically analyse the substance of every note or article. Naturally, they will have good capacity. It is advisable, to engage such natives in the research of science. The fortune is an invisible thing. When the condition suddenly changes for betterment, we call it a fortune. The good and bad can be ascertained from the planetary position. By knowing our own capacity we will also be able to help others, and also for our self advancement. Only for this purpose we have to know who is the ruling planet. It is clear that the natives born in Kanni with Sun, will be highly attentive. He will look to his life more economically and critically. His life will not be so easy as that of the natives of Mithuna unless there is a change due to the position of other planets. They will show or attach importance to every little item. They will not care for the talks of others. They will have the patience of achieving success in their efforts due to their sincerity. It may cause a surprise when we see the changes in quality, actions and fortune, for the individuals born in the two signs ruled by one and the same planet. But the results are appropriate between expe-

rience and science. The efforts of the natives of Mithuna may be magnificent outwardly but they may be left in an incomplete position. But the situation of the natives of Kanni will be quite different. They will not rest until the works undertaken are brought to a final stage. They will be more industrious. The ruling planet being Mercury for both the natives of Mithuna and Kanni, they can more advantageously take up partnership-business or dealings.

KHARA YEAR.

ANI MONTH.

MRTHUNAM. M. E. 1126

—★—

DEAR READERS,

The position of the market and the fluctuations of the important commodities during the month of Ani, are given hereunder as usual. This is being done purely in the course of research of the market. There is no other aim. Any one of you, who are willing to avail the help of this forecast should do so at their own risk and responsibility. I am not either legally or morally responsible for any loss or gain that may result as a sequel of this forecast.

The Sun is aspected by Saturn during the whole of this month. From June 30th, the Venus is freed from the aspect of the Jupiter and occupies the position of Shashdashana. There is no doubt that this change will cause marked fluctuations in the trade world. At the time of Sun entering Mrthuna (Gemini) Vrishabha (Taurus) rises. The important planets for trade Mercury and Mars are transiting in Uttara-ashwina. Vrishabha is a fixed sign. Its nature is earthly. This is capable of bringing changes in the situation of the market for Sugar, wheat, cotton, jute, textiles or piece-goods, chemicals etc., and especially in the shares. Vrishabha is capable of causing rise in the prices. But the rise will be calm and gradual. Bhama-bhaka is in the 11th house. From 20th June, Mercury transits along with the Sun. For the entire month, the Jupiter transits in the Budhachara (Mercury). A close scrutiny goes to prove that this month is a favourable period for trade. The opportunity can be best utilised in a useful manner by closely following the market situation. It is desirable for anyone to buy at the low rates and dispose of their stocks side by side without aspiring for large profits. There

may be special changes in the situation during the month of July than in June. The price of the important commodities may decline. The situation of oils, sugar, cotton, gold, silver and jaggery etc., important commodities will be as follows:-

From June 16 to 22 the market will be on both sides. Better to buy at low prices and sell away at higher prices. On 24th and 25th the market will be firm and show upward tendency. Similarly upto 29th the fluctuations will be in the alternative. By proceeding with ability good benefits can be realised. From 30th the prices of the important articles may suddenly come down. At certain times the prices of shares, oils, groundnuts, gold and silver may decline to a great extent. Upto 7th July, the prices of piece-goods also may decrease to some extent. The combination of Mars, Sun and Mercury may cause confused situation in the market. This will indicate only the decline in the prices. Subsequent to 8th July, much improvement can be expected in the situation of the market. Afterwards, there is room for the fall of prices on 11th and 15th. It is advisable to consider the situation and proceed with forethought.
