THE IMPORTANCE OF MERCURY IN YOUR LIFE.

(Continuation.)

—:★★:—

Every one is very eager to know the present and future of their life. Will the ruling planet bring good luck? Whether the running period (Dasa) is lucky or unlucky? what about the financial condition during the running Dasa? Whether the status in life will rise or not? What are the changes in regard to his profession, family etc.? And such other problems can be solved with the help of "Udumaha Dasa Phal". When we find out the Ududasa results, we should carefully study the position and nature of Mercury. As Mercury being the planet for education and trade, we have to find out what results or effects he will cause in daily walk of life. Mercury forms to be the ruling planet for those born under the constellations Ashlesha, Jyeshtha, and Revathi. Mercury has gentlemanly qualities. He will always give much luck or ill-lucky. He is watery in nature. He will be always transiting before or behind and very near the Sun. He is the ruler for yellow colour commodities, foreign trade and green colour precious stones.

Let us study what effects will the Budha Dasa give, as per horoscope. Generally, if Mercury is in conjunction with Sun, Jupiter and Venus, during his period the native of the horoscope will enjoy 'Prabhala Yoga' and luck. Even if the Mercury is in conjunction with any of these planets,

the person will enjoy good luck and prosperity. Distinctive changes in several items will take place. Luck will begin to flow according to the status of the native of the horoscope. But if Mercury is in conjunction with Jupiter in Makara, adverse results will be experienced by the native, during his dasa. The native may suffer loss of property and money. There may also be a depression in his status. Here it should be noted that Jupiter is in debilitation. But though Sun and Venus are debilitated, the conjunction of Mercury with them, will yield good results. Good luck and flourishing business can be expected. Mercury is not affected here by the conjunction with debilitated planets.

If Mercury is posited in Kendra-sthana or in Mitunam, Kanya and Vrishabha he will give good results to the native. Budha Dasa will give favourable results, if he is posited in his own house. If he is posited in Makara, Kumbha, Meena, Mesha and Vrischika, his Dasa will bring ill-luck to the native. If Mercury along with Dhanathipathi is posited in triangles, the native of the horoscope, will find good improvement in finance and status during Budha Dasa. Let us explore the results as a result of Mercury being posited in each house

The Moving Picture as a Simile of Life. CONTINUATION.

In one person's Destiny, the early reels may be cheerful and fortunate, and the life will start out in a happy home and with many advantages. Then perhaps the later reels will portray the domestic or business life as clouded by dark shadows and much misfortune but these simply furnish an opportunity for developing the character and weaving into the web of life a deeper and sounder philosophy.

The Destiny of another may start with privations, and gray tones. This individual is denied love, advantages and happiness in early life. Through discipline and hardship he is given an opportunity to cultivate moral and spiritual strength, and may develop into being one of the captains of industry, a leader in politics or preside at the head of a happy or sumptuous home. Character being Destiny, it all depends upon the moral fibre and degree of freewill one has acquired as to whether the early adversity and necessity for self-denial crushes ambition or makes for genius.
