DEMISE OF KING GEORGE VI.

King George VI of Great Britain has breathed his last on the morning of 6th February 1952. His health was not satisfactory for the past few years. Besides, he underwent an operation successfully owing to the lung troubles a few months back, and recovered from it. Yet, he was not spared for a long time. His sudden death has caused grief not only to his own subjects but also to the population of entire World. He completed his 56th year. Though the relationship which had been in existence statutorily, disappeared after the attainment of Freedom by our Nation, there is no doubt that, his demise will be deeply deplored by our Nation. The Indian public will undoubtedly share the grief caused by this incident along with his brother Britishers. It is most significant event that India has attained liberty during his regime.

In this age of democracy, the loyalty of the masses towards the British king has not in any way been affected. We can assuredly expect that the same affection and devotion of the public will exist towards Queen Elizabeth.

HOROSCOPE OF LATE KING GEORGE VI.

Rahu	Born on 14-12-1895 (Morning) in Thula Lagna.		Jupiter
			Kethu
Mercury	Sun Moon Mars	L Saturn Venus	

As per the chart of the king, the Jupiter is exalted in the Rajyastan. Similarly, the Saturn is in conjunction with Lagnadhipathy in his exaltation. These two are the significant facts to be noted. But the Moon the owner of the 10th house is in conjunction with Sun and also debilitated. At present the king is running the sub-period of Saturn under the major period of Venus. He obtained his throne at the beginning of this dasa. The occurrence of the second World war and its ultimate success though there had been many ordeals during this period, are also the important events. According to the Horoscope, the ruling period of Lagnadhipathy is a prosperous one. In addition, the conjunction of exalted Saturn, the owner of the fifth house, has crowned the native with empire. Since Lagnadhipathy also happened to be Ashtamadhipathy, he hastened the death of the King, in the latter part of the same Dasa. If any one of Dhanadhipathy, Kar madhipathy. Ashtamadhipathy and Saturn is posited in the Lagna and if his dasa runs, the native will be subjected to the mortality during the period of less-powerful planet. This is the scientific proof accomplished by actual facts in experience. For the natives of Thula Lagna, Saturn being the planet in exaltation, his period in the beginning did not bring in mortality. The death during the Dasa of Venus who is Ashtamadhipathy is more logical and appropriate, according to science.

Business Markets And Fluctuations.

KHARA YEAR. MASI MONTH. KUMBHAM M.E. 1127
FROM 13-2-1952 TO 13-3-1952.

DEAR READERS,

The trade situation and the fluctuations in the prices for the important commodities during the month of Masi are given hereunder. This is purely intended for the research of science. There is no other aim. Those who are willing to avail the help of this forecast should do so only at their own risk and responsibility. I am not bound either ally or morally for the loss or gains incidental thereon.

At the time of Sun entering Kumbha in this month the Vrischik takes its rise. Vrischik is a perpetual rasi, Watery sign. This rasi of perpetual quality will cause the rising of the prices for the important articles in the trade world. It is a powerful sign. But this rise will be gradual and limited to some extent. Besides, the Moon also transits in Leo at that time. The Mars who is Udhaya Lagnadhipathi or the ruler of Morning Lagna is posited in the 12th sign. By this there comes the Shashtash-taka Dosha between Jupiter and Mars. The important planet for trade, the Mercury, transits in Kumbha from 16th February. His setting position is a matter for deep consideration. But his stay in Kumbha rasi is only for a short while that is upto 3rd March. There after he changes his transition to Meena. His movement before the Sun and having the conjunction of the Jupiter may generally bring certain changes Meena is a Neechasthan (malefic position) to this planet. It is also a point to be noted that, he has the aspect of the Saturn. The Mercury takes his rise from 9th March. A close analogy of these facts goes to reveal that, so long Mercury continues to be in

Kumbha rasi namely i.e., 16th February to 3rd March the situation of the business world will be in an uncertainty. Decline in the prices of the important commodities may also come in. But it will not be steady. From March 3rd, some improvement can be expected in the situation of the market. The prices of the important commodities may gradually go up.

Udhaya Lagna being Vrischik the prices of oils, oilseeds, petrol, linseeds, mustard, groundnuts and cotton seeds etc., will decline to a great extent at the beginning of the month and rise subsequently at the end of the month. As a sequel of the transition of Venus in Makara from 15th February the position of the oil market will not be satisfactory. Further there will be no improvement in respect of cotton, jaggery, jute, silk, wheat, glass, flowers, fruits and shares etc., markets. At certain times the prices may also go down to a great extent.

However the chief planets for business had to take their transition in the signs which are expected to reduce the prices. The situation of the market generally in the beginning of the month will be Mandy and

(Continuation)

SIMHA LAGNA

To the person born in Simha Lagna, Mercury is the lord of second and eleventh houses. If Mercury is posited lonely in any Rasi, he will not cause prosperity to the native. We can predict bad or good only after studying the conjunction of other planets with Mercury.

Mercury posited in Lagna will cause great luck and yoga to the native. Good regard to native in the society, if the native is young, much progress in education, if he is a business man expansion of business, increase of income and fame will be the features. The whole of Budha Dasa is a favourable period. Hence the native is advised to spend his time in fruitful affairs.

The Budha Dasa, if Budha is posited in the second house, will bring income in thousands according to the status of the person. Sound health, comforts in the family, respect to his words, progress in business, friendship with prominent people, attaining the leadership of a party, and favourable atmosphere will be the main features. The principle of 'Making hay while the sun shines' should be adopted.

The Budha dasa, if Mercury is posited in the third house, will be a prosperous period to the person born in this Lagna. Several troubles may occur to younger brothers and sisters in their lives. Great loss in the profession, mental grief, disgrace through relations and friends, partition in the family, losing the expected money, disease pertaining to the ears, and such other troubles will occur. If there is the aspect of benefic planet, the troubles will be reduced to some extent.

The Budha Dasa, if Budha is posited in the 4th house will cause favourable results to maternal relations. As far as the native is concerned his education will not be completed. His influence will be reduced. Loss in business, unnecessary litigation, losing the ancestral properties, disgrace on unreasonable grounds, and such other troubles will be the main features. Forethought is essential.

The Budha dasa, if Mercury is in the 5th house from Lagna, is a prosperous and lucky period, clear thoughts, acquaintance with influential people, profit in foreign trade, visits of holy shrines and places, will be events. Sources for earning money easily will be open to him. He may also be blessed with female children in this dasa.

Mercury in the 6th house, will not cause lucky results during his dasa. Hence all his earnings will be lost. Unnecessary litigations, enmity with prominent people, family worries, put to shame in his society, troubles through debts etc., will prevail. Some may suffer from severe eye disease. If suitable remedy is done in the preliminary stage itself, his difficulties will be reduced to some extent.

Mercury in the 7th house, may cause great yoga at certain times during his dasa. Yet it will not be stable. Some ailment to other to wife and children, with immediate recovery, much income in the profession and subsequently sustaining heavy loss, confused situation in life, avaricious nature without any benefit, will be the important features.
