DEADLOCK IN THE FORMATION OF MADRAS CABINET?

WHAT SHOULD THE CONGRESS DO?

The readers, I hope might not have forgotten the article under the caption "Elections and the Congress" appeared in the previous issues. Congress Cabinets are being established through out the country. But the formation of Ministry in the Madras State is in a fix and causing anxiety. The Congress is the only organisation having single group majority though not absolute majority. We need not say anything about the other parties. It is our duty to explore scientifically the horoscope of the Congress and review what is to happen.

At present the Congress is passing through the Sub-period of Rahu, under the major period of Saturn. The force of the Seven and half years Saturn continues to be the same. Besides the Mars who is the ruler of a major portion of Madras State is transiting in the sign Thula from 5th January 1952. The normal stay of this planet in a sign is 45 days. But he is transiting in the same sign till the beginning of August in retrograde position. By this, there

is the Shashtashtaka Dosha between the Jupiter and the Mars. This situation is chiefly responsible for the reverses of the Congress in the recent elections and the present deadlock. How long this state of things will continue is the present problem. The Jupiter hitherto in the Meena begins his transition in Mesha (Aries) from 30th March. By this the Shashtashtaka Dosha ceases to exist. The direct aspects of Jupiter and Mars are to take place. So the present cabinet crisis will come to an end subsequently. There is no doubt about it. The Congress will get an opportunity for the formation of its Cabinet and thus shoulder the responsibility. But there will be strong opposition as a sequel to the position of Mars. But this will subside to some extent subsequent to 30th March. The Congress Leaders may in the meanwhile explore things critically and make best use of the opportunity available. Negligence or reluctance should not operate. However, it is our firm belief and opinion that the Congress will shoulder responsibility and form its own cabinet.

Business Markets And Fluctuations.

DOES THE CONFUSION OF THE WORLD MARKET CEASE?

KHARA YEAR. PANGUNI MONTH. MEENAM M. E. 1127
FROM 14-3-1952 TO 12-4-1952.

★★★

DEAR READERS,

The trade situation and the fluctuations in the prices for the important commodities during the month of Panguni are given hereunder. This is purely intended for the research of science. There is no other aim. Those who are willing to avail the help of this forecast should do so only at their own risk and responsibility. I am not bound either legally or morally for the loss or gains incidental thereon.

At the time of Sun entering Meena, Vrishchik rises. The Moon also transits in Kanni at that time. Vrishchik is an eternal rasi. It is of watery element and feminine nature. The Mars, the Lord of udhaya lagna is transiting in the 12th sign. Besides, he becomes retrograde on 25th March. Till the end of the month he continues in Thula rasi (12th sign) in his retrogression. By this, significant changes in the trade World is indicated. As a sequel of his situation, the prices of Iron, steel, sugar, rice market, rails, share market, bricks cement, coffee, tea, fuel, dry ginger, land etc., commodities will go down. At certain times the situation of the market will be confused. The planet who is normally to situate in a sign for 45 days, continuing his situation till the beginning of August in one rasi, will seriously affect the market of the important commodities. The specified rasi by it's very nature will cause reduction in the prices. The prices of jute, wheat, cotton, yarn, perfumery articles, food stuffs, fancy goods etc., will decline to a great extent at the beginning of the month. Subsequently, at the end of

the month the market will be some what calm and steady. The prices also will go up to some extent. The Jupiter who was transiting in Meena for several months past, enters Mesha on 30th March. From 2nd April he gets into the position of setting. The important planet for trade the Mercury, transits in Meena, for the entire month. Further, he becomes retrograde on 26th March and reaches setting stage on 27th. Another chief planet Venus begins his transition in Meena from 4th April leaving his mild attitude hitherto had. Analysing all these facts we have to come to a decision. The present slump in the trade world, is a very complicated and confused one. The prices of the several articles had gone down during the last month as per our prediction. Especially the prices of oils, oil-seeds, gold and silver had declined to a large extent and thus caused a confused situation. The markets at certain important centres had to be closed and in certain places the speculation business has been brought to a stand - still. At this critical situation it will not be possible to anybody to speculate about any of the markets or commodities. The readers

are requested to note this. From the present situation of the trade world which is covered by dark clouds what would come out is the primary question? According to the planetary positions of this month the present position or situation cannot be said a firm one. It will not last long. From 24th March, some stability will come up in the trade world. Improvement is indicated in the market for oils, oil-seeds, petrol, linseeds, mustard, ground nut, cotton seeds etc., commodities from 26th March. The present Mandi will not remain. Rising of prices can be expected. From 4th April the prices of important commodities will stabilise generally and the business will run smoothly. The planetary movements being in Mandi at the beginning of the month and going upwards at the end of the month, will cause decline in the prices of the important commodities in the beginning of the month and rise in the later part of the month. This is my personal opinion.

GRAINS

The situation will not be the same as that of the last month. At the end of the month the market will get firm and prices also rise

ARECANUTS

Subsequent to 25th March the prices will go up. The trend of the market shows upward tendency. There is room for teji.

TURMERIC

More-or-less the situation will be the same as that of the last month. From 4th April the prices may rise.

IRON AND STEEL

In spite of fluctuations in general, there is scope for decline of prices.

GOLD AND SILVER

Improvement in the bullion market cannot be expected during this month. The chief planet for this, is in transit in the

rasi which will bring the prices downward. Even if there be rise in the prices it will not be steady. Generally Mandi will prevail. The business can be carried on by following the situation carefully.

MARCH:

14—16 decline
17—18 normal
19—20 rise
21—24 heavy fall at certain times.
25—26 rise
27—28 decline
29—31 rise

APRIL:

1—3 decrease
4—5 rise
6—8 ordinary
9—12 decrease at certain times.

COTTON

The cotton market will not be steady in general. The prices will go down on certain occasions.

GROUNDNUTS

The concerned planet for this commodity is to get teji position. The present decline will change for betterment, i. e. the prices will go up. March 14—16 decrease, 18—20 slight increase, 21—24 fall, 25—26 fall, April 1—3 normal, 4—8 increase, 9—11 decrease.

BLACK PEPPER

The market will be in Mandi even this month. In this, the prices may slightly go up at the end of the month than in the beginning.

CLOVES

The prices will be downwards at the beginning of the month and subsequent to 26th, they may rise to some extent. Better to conduct the business according to situation.

DRY GINGER

In spite of decline in the prices at certain times, there is room mostly for teji. Subse-

quent to 4th April steadiness and rise will exist.

COCOANUT - KERNELS

Whatever may be the fall in the prices, it will not be steady. Subsequent to 3rd April the position of Mandy will change and the prices gradually go up.

FRUIT VARIETIES

The fruit market will neither be firm nor steady. From 16th to 26th March the prices will be downwards and from 3rd to 11th April the prices will slightly increase.

COCOANUTS

The market at the beginning of the month will be at mandy and subsequently will give room for rise.

CAMPHOR

The planet concerning this commodity, is in a Mandy position, during this month. So much improvement in the situation cannot be expected. On certain occasions the present level of the prices may also decline. Subsequent to 5th April slight rise is indicated.

TOBACCO

The situation will more or less be the same as in the last month. In this slight increase in the prices can be expected.

CASSIA

The prices for this commodity will go up at certain times subsequent to 26th March. The stability in the market will also come in.

MERCURY

The relative planet is in a Mandy position. So, there may be heavy decline in the prices. The business should be run according to situation.

LEAD

The market will not be firm or steady. At certain times the prices may come down.

PIECE - GOODS

At the beginning of the month there is room for Mandy to a great extent. So the prices may get down on certain occasions. But the position will be steady and the prices may rise.

YARN & ART SILK

Upto 30th March the prices will be at a low level on certain occasions. There is room for Mandy. But subsequent to 4th April the general condition will rise. Stability also will come in. The prices will then rise to some extent.

YOUR BHAGYODAYA OR FINANCIAL PROSPECTS.

(Continuation.)

—:★★:—

Many Gemini people earn money out of hobbies of special interest personally. Odd and unusual writings, journalism, books etc yield you immense pleasure and profit if you pursue these persistently.

Cancer or Kataka Rasi—There are various cycles of financial stability to you during life time. You have the stability to save and be conservative in money matters—You are not a spend thrift. You are very generous in either buying or selling household and useful articles. When you make investments, you are advised to lay out your coppers on landed property, buildings, stocks and shares of large industrial and commercial concerns, Government Bonds. Never speculate or gamble in big issues or make investments in devious schemes, wild goose chases, Horse Racing or propositions which are not unproductive or fruitful. As you experience financial worries during each decade (Ten years) i. e. 10th, 20th, 30th, 40th, 50th etc. you are advised to be careful during such period—termed bad indicated in your birth chart. In later years, you are able to discern financial disposition rightly and thus save more and most for the rainy day just like the Busy Bee. Judicious investments made will yield a handsome turnover which helps you at your old age—save little by little and be happy.

Leo or Simha Rasi—You enjoy financial success as you have a dashing spirit and undomitable courage. You have a good earning capacity but still you are a lavish spender by your generosity. If you contribute your mite by generosity towards charitable and philanthropic deeds, then your stability is improved as you get Divine Bounty. You must learn the art of making money to work for you. Please begin to do this in a small way and then make it a habit—Remember "Little drops of water, little articles of sand make a Mighty ocean or land in course of time." You can make good investments in buying shares of big concerns, Government Bonds as well as Real Estates etc. Cultivate the art of being reasonably conservative and in the end,

you will have health, happiness and fortune.

Virgo or Kanya Rasi—Your financial affairs vary considerably throughout the course of life. At times, you become parsimonious and at other times fabulously a veritable spender. On account of your being industrious and efficient in the avocation you pursue, you have the good earning power as such financial matters are good. But still you ignore futurity and so, feel yourself distressed on account of stinginess. You usually find out something to do. Indications are also shown generally that you feel monetary difficulties during your 20th, 21st, 30th, 43rd year of life. Please invest money for making homes, buildings, landed property, business concerns (of your own it is better to do so), chemical and medicine companies. Small business enterprises, new schemes yielding a good margin of profit appear to be very favourable. Your financial destiny is very much under your direction and so during good periods, make the best use of opportunities to increase your financial prospects and be happy and congenial.

Libra or Thula Rasi—Financial prospects for you are good as you have a great earning power. But you are somewhat a generous spender in spite of your conservative views on money matters. You save money little by little and after sometime you spend that amount for something you want or desire. Then, you think of saving something again. This attitude makes you feel want of money incessantly, when making investments, don't risk your ideas or schemes putting them to test. Generally Libra people are often fortunate in their ideas pertaining to investments. They are advised to invest their money towards purchase of Government Bonds, shares of big and established concerns etc. Speculations are also prove good to these people but I advise them not to concentrate their attention to this throughout but hobbies or side business investments will also give them pleasure and profit.

How About Budha Dasa In Your Life?

(Continuation.)

—:★★:—

KANYA LAGNA.

Generally to the person born in Kanya Lagna, Budha Dasa is a prosperous period. If there be the aspect of Dhanabagyadhipathi, Venus, luck and prosperity will be increased further. Sukra dasa will also be a prosperous period as Budha Dasa. The aspect of Jupiter has greater importance. But if there be the aspect of Mars, Rahu and the life, luck will depreciate. To this yoga the results will more-or-less be the same if there be the conjunction of the Sun or not. However, the combination of Mercury and Venus has its significance.

The Mercury's dasa (Major period) in the Lagna will cause higher prosperity. The results are to be determined following the situation of the other planets. The immoveable properties such as land and house etc, will be in its plenty. Much fame and high financial prosperity will come through the business concern. Clear wisdom framing progressive schemes foreign trade, political activities and speculations will produce positive results during the Mercury's period. It will also be helpful for education and industry.

The major period of Mercury in the second sign will cause firmness of

mind a high position by rendering service to others and devotional spirit. But it cannot be retained permanently. The native will have to lose the earnings by his liberal attitude and granting loans to the friends and other strangers, having no contact hitherto. Intelligent talk, attractive appearance, profitable activities will be the important items.

The Mercury in the 3rd sign cannot give any appreciable results. Conflicts with the brothers, heavy loss in the business, discouraging speech, wasting the ancestral properties on useless affairs, will be the events. The misery and happiness will be in the alternate. Precaution will be essential in the business and similar other enterprises. It will be wise to preserve or conserve the profits available. Caution will be required even in respect of health, and family etc., affairs.

The period of Mercury in the 4th sign will grant good fortune and yoga. There is no doubt about it. Electing a fine building, success in the politics, much reputation in the society, good profit in the foreign trade, high status in the walk of life, and good luck to the mother-side relations will be the chief happenings. If there be aspects of benefic planets this yoga will be more impetus.

The ruling period of Mercury in the 5th will undoubtedly cause marked improvement in the walk of life. Unexpected luck and profits will come. Peace of mind, accumulation of properties through the earnings will be the chief the items. But anxiety concerning the children will be there to some extent. Efficiency in the politics will come up. In respect of employment high position will be bestowed on him voluntarily. However, the Budha Dasa is a prosperous one, and also beneficial.

The Mercury in the 6th sign will be less fortune. Some kind of sickness and continuous anxiety thereby will exist. Heavy loss in the profession at certain times, enmity with the prominent men in the society, and unnecessary litigations will crop up. If this period happens in the young age, failure in the education is indicated. If it be in the old age family anxieties and sepecation from the wife and children will take place. This will not cause good luck, to any one at any time.

During the period of Mercury in the 7th sign, will produce hardships and loss. His position will go down. Obstacles in the way of financial improvement and consequent by debts will increase. There will be lack of unity between the family and children. Apprehension of sickness will continue. Generally the Mercury in the 7th house will not cause beneficial results, during his Dasa.

Mixed results will come up when the Mercury posited in the 8th house, from the lagna. Heavy loss in the profession, banishment from the native place, disregard in the unnecessary litigations, mental torture, discontentment in several ways, loss of ancestral properties etc., troublesome results will crop up.

The Mercury in the 9th house will be prosperous. In addition to the ancestral properties there will be good improvement through his personal earnings. More properties will accumulate through the profession. Domestic happiness, good influence with the friends and relatives and advancement in all other items easily will be the events. Much profit will come up in the foreign trade. However, there is no doubt that this period is a fortunate one.

The Mercury in the 10th house will cause beneficial results in several ways. If there be favourable atmosphere of other planets the native can expect very good luck.

The period of Mercury posited in the 11th house will produce good fortune in the financial sphere. Sudden rise and improvement will come in the walk of life. Improvement of cash and grain, fine house, garden and valuable conveyances, leadership in the society, high status in the politics and much honour will be the chief consequences.

The period of Mercury posited in the 12th house will make the native a debtor. The ancestral property and his own earnings will gradually deteriorate. Generally this is the period of acute poverty to the native.
