Retiring Pension Regulations.

FORT ST. GEORGE, 19th January 1838.

No. 12 of 1835.—The following General Order by the Honorable the President in Council, under date the 20th December 1837, No. 259, is published for the information of the Army.

GENERAL ORDERS by the Honorable the President in Council.

FORT WILLIAM, 29th December 1837.

No. 253 of 1837.—The Honorable the President in Council has much pleasure in publishing to the Army, the following Extract (Paragraphs 2 to 4) of a letter from the Honorable the Court of Directors, to the Government of India, No. 4, dated 26th September 1837, concerning the grant of additional advantages to the Senior Officers of the Army in respect of Retiring Pension.

"Para. 2. In our Letter of the 23d December 1835, we announced to you that as we considered it hopeless to expect that any Military Retiring Fund could be successfully formed, we have thought it right so far as we could feel justified in doing so to provide for the object contemplated in schemes of that nature by an enlargement of the Retiring Regulations, and that we had in consequence resolved to grant the full pay of Captain to every Officer who should have served in India 23 years, 13 years furlough included; whether he had attained that rank Regimentally or not, and the full pay of each of the superior ranks of Major, Lieutenant Colonel and Colonel after the completion of an additional period of 5 years service for each of those ranks in succession, viz.

For Major's pay,	23 years service, including 3 years for a furlough.
For Lieut. Colonel's pay	33.....do.....do.....do.....do
For Colonel's pay	38.....do.....do.....do.....do

3. Being now of opinion that some additional advantage in respect to the period of retirement may properly be granted to the Senior Officers who would have been more especially the immediate objects of benefit from a Retiring Fund, had such a Fund been established, we have resolved that the period of service, to qualify an Officer for the pay of each advanced rank after that of Captain, shall be reduced from five to four years, the periods of service in India required for such rank being consequently hereafter as follows, viz.

Every Officer who shall have served 23 years (3 years furlough included) shall be allowed to retire on the pay of a Captain whether he shall have attained that rank Regimentally or not.

Every Officer who shall have served 27 years (3 years furlough included) shall be allowed to retire on the pay of a Major whether he shall have attained that rank or not.

Every Officer who shall have served 31 years (3 years furlough included) shall be allowed to retire on the pay of a Lieutenant Colonel whether he shall have attained that rank or not.

Every Officer who shall have served 35 years (3 years furlough included) shall be allowed to retire on the full pay of a Colonel whether he shall have attained that rank or not.

4. These arrangements to have effect without prejudice to any claims arising out of the Retiring Regulations as established in the year 1896.

5. We desire that it may be distinctly understood that the present is a final measure. You will accordingly decline to forward to us any application which may have in view a further extension of the Regulations now established with regard to the retirement of our Military Servants."

The Directors of this Society have caused investigation to be made with great care into the existing Institutions for Life Assurance, &c. &c., and they trust they have been fortunate in selecting from each what, as a whole, will place their Establishment on the most judicious and satisfactory footing, both to the Proprietors and the Assured. They request particular attention to the rates, which, being founded on the most accurate observations of the duration of human life, are as moderate as is consistent with perfect security.

The plan of this Society is to transact all its business on such terms as to leave, in all human probability, a small, but certain excess of profit on the general result of its transactions. A small portion of that profit is set apart as a compensation to the Proprietors who have advanced the Capital necessary for defraying the unavoidable expense of the Institution, and who have pledged the subscribed amount of their Capital, in order to afford that responsibility which relieves the Assured from any contingency of loss to which they might be liable without the intervention of such a guarantee.

ADVANTAGES OFFERED BY THIS SOCIETY.

1. The Profits are declared in each year on the second Wednesday in May from and after which date all persons assured for the whole term of life on the participating scale, and on whose Policies six complete annual, or twelve complete half yearly original premiums have been paid, are entitled to participate in the profits of succeeding years in either of the modes provided by the Deed of Settlement, viz. either by a reduction of the annual or half yearly premiums for the current year as they fall due, or an equivalent addition to the sum assured by way of a bonus. Each assurer on his first becoming entitled to participate in the profits has the option of selecting either of the foregoing methods, and three months, from the date of declaration of the profits, are allowed for his making that selection, which however when once determined on cannot be altered in after years.

2. The practice of an annual division as observed by Mr. BABBAGE, "distributes the profits with more regularity and justice than any others" and it is especially advantageous to persons of advanced years who cannot hope to participate in many septennial or decennial divisions, as practiced by several other offices.

3. One fifth of the ascertained profits of the five past years is divided between the Policy holders and Shareholders—three fourths to the former, and one fourth to the latter—the remaining four fifths are set apart to enter into the average to be struck on the next succeeding year.

4. The following table will shew the operation of the reduction allowed by the division of profits for 1846, which is equivalent to 47

per cent. on the current annual premium of all Policies entitled to participation.

Age next Birth-day when Policy was issued.	Date of Policy previous to the 2d Wednesday	Sum Assured.	Original Premium.	Reduction.	Annual Premium payable where Policies shall have been in force 6 years complete years from 2d Wednesday of May 1st.
20 years	May, 1811	Co.'s Rs. 10,000	Rs. 420	Rs. 197 6 4	Rs. 222 9 3
30 "	" "	" 10,000	" 480	" 225 9 7	" 254 6 5
40 "	" "	" 10,000	" 590	" 277 4 9	" 312 11 3
50 "	" "	" 10,000	" 740	" 347 12 9	" 392 3 3
60 "	" "	" 10,000	" 1,030	" 481 1 7	" 545 14 5

5. From the foregoing explanations it will be seen that the benefits arising from a participation in the profits are actually experienced (when a reduction of the premium is selected) at the periods when the seventh annual, or thirteenth and fourteenth half yearly premiums fall due. In the case however of a Bonus to the sum assured being selected an equivalent sum will be added to the Policy for the current year being such an amount as the reduction in the premium would purchase as a single payment.

6. Separate tables for assurances without participation in profits both Civil and Military have been adopted for the whole of life at reduced rates for such persons as may prefer a lower rate of premium to participation in the general profits.

7. The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but Members of the Military Service holding offices purely Civil, and subject to no extra risk, will be charged the Civil rate of premium only while engaged in duties purely Civil. It will be in the discretion of the Directors in each particular instance to say whether the higher or the lower rate of Premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

8. When application is made for assuring a life subject to more than ordinary hazard, an augmented Premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice between the Society and the Assured, according to circumstances.

9. Premiums are ordinarily payable half-yearly in advance; but Policy-holders are at liberty to make arrangements with the Society to pay their premiums in one amount, in annual or quarterly payments, or for a given number of years, viz. 5, 10, 15, or 20. Some persons

may wish to avail themselves of a present season of prosperity and adopt the latter course, in which case (although their contributions will cease with the expiration of the term they may fix upon) their share of the profits will continue to be added to their Policies annually during the remainder of life.

10. The Parent Institution being in London, with a similar Establishment in Calcutta for granting Policies; Premiums, as well as claims, are payable in either country, at the option of the Policyholder. The appointment of Sub-Committees at Madras and Bombay with power to grant Policies, affords similar facilities to persons residing at either of the sister Presidencies.

11. All Policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death, of the Assured, shall have been furnished to the Directors either in London or Calcutta.

12. The Directors of the Indian Branch of the Society are empowered to treat for the purchase of Policies for the whole term of life on which Premium shall have been paid for a period of not less than five years, or to advance, if required, on such Policies, by way of loan, two-thirds of the estimated value.

13. The accounts of this Society, after being investigated by Auditors, chosen as well by the Assured as by the Proprietors, are laid before General Meetings convened twice a year for that purpose:—in like manner the accounts of the Parent Society are regularly transmitted to India for inspection, the India Branch enjoying reciprocal advantages with the Parent Society.

14. Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued as on the date of approval of the risk by the Directors, but no Assurance to be binding on the Society until the first premium shall have been actually paid to the Agents.

15. Every proposal for Assurance will be immediately attended to, and the Assurance completed generally within a few days after the application is made.

16. All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees.

17. The Tables, Blank Forms, and other particulars, requisite to enable persons to effect Assurances, may be had on application to the agents.

By Order of the Directors,

BAINBRIDGE AND CO.

1st Sept. 1846.

Retiring Pension Regulations.

Fort St. George, 10th January 1838.

No. 13 of 1834.—The following General Order by the Honorable the President in Council, under date the 29th December 1837, No. 254, is published for the information of the Army.

GENERAL ORDERS by the Honorable the President in Council.

Fort William, 20th December 1837.

No. 258 of 1837.—The Honorable the President in Council has much pleasure in publishing to the Army, the following Extract (Paragraphs 2 to 5) of a letter from the Honorable the Court of Directors, to the Government of India, No. 5, dated 20th September 1837, announcing the grant of additional advantages to the Senior Officers of the Army in respect of Retiring Pension.

"Para. 2. In our Letter of the 23d December 1835, we announced to you that as we considered it hopeless to expect that any Military Retiring Fund could be successfully formed, we have thought it right as far as we could feel justified in doing so to provide for the object contemplated in schemes of that nature by an enlargement of the Retiring Regulations, and that we had in consequence resolved to grant the full pay of Captain to every Officer who should have served in India 23 years, 12 years furlough included, whether he had attained that rank Regimentally or not, and the full pay of each of the superior ranks of Major, Lieutenant Colonel and Colonel after the completion of an additional period of 6 years service for each of those ranks in succession, viz.

For Major's pay, 28 years service, including 3 years for a furlough.
 For Lieut. Colonel's pay 33.....do.....do.....do.....do
 For Colonel's pay 38.....do.....do.....do.....do

3. Being now of opinion that some additional advantage in respect to the periods of retirement may properly be granted to the Senior Officers who would have been more especially the immediate objects of benefit from a Retiring Fund, had such a Fund been established, we have resolved that the period of service, to qualify an Officer for the pay of each advanced rank after that of Captain, shall be reduced from five to four years, the periods of service in India required for such rank being consequently hereafter as follows, viz.

Every Officer who shall have served 23 years (2 years furlough included) shall be allowed to retire on the pay of a Captain whether he shall have attained that rank Regimentally or not.

Every Officer who shall have served 27 years (3 years furlough included) shall be allowed to retire on the Pay of a Major whether he shall have attained that rank or not.

Every Officer who shall have served 31 years (3 years furlough included) shall be allowed to retire on the Pay of a Lieutenant Colonel whether he shall have attained that rank or not.

Every Officer who shall have served 35 years (3 years furlough included) shall be allowed to retire on the full Pay of a Colonel whether he shall have attained that rank or not.

4. These arrangements to have effect without prejudice to any claims arising out of the Retiring Regulations as established in the year 1796.

5. We desire that it may be distinctly understood that the present is a final measure. You will accordingly decline to forward to us any application which may here in view a further extension of the Regulations now established with regard to the retirement of our Military Servants."

The Directors of this Society have caused investigation to be made with great care into the existing Institutions for Life Assurance, &c. &c., and they trust they have been fortunate in selecting from each what, as a whole, will place their Establishment on the most judicious and satisfactory footing, both to the Proprietors and the Assured. They request particular attention to the rates, which, being founded on the most accurate observations of the duration of human life, are as moderate as is consistent with perfect security.

The plan of this Society is to transact all its business on such terms as to leave, in all human probability, a small, but certain excess of profit on the general result of its transactions. A small portion of that profit is set apart as a compensation to the Proprietors who have advanced the Capital necessary for defraying the unavoidable expense of the Institution, and who have pledged the subscribed amount of their Capital, in order to afford that responsibility which relieves the Assured from any contingency of loss to which they might be liable without the intervention of such a guarantee.

ADVANTAGES OFFERED BY THIS SOCIETY.

1. The Profits are declared in each year on the second Wednesday in May from and after which date all persons assured for the whole term of life on the participating scale, and on whose Policies six complete annual, or twelve complete half yearly original premiums have been paid, are entitled to participate in the profits of succeeding years in either of the modes provided by the Deed of Settlement, viz. either by a reduction of the annual or half yearly premiums for the current year as they fall due, or an equivalent addition to the sum assured by way of a bonus. Each assurer on his first becoming entitled to participate in the profits has the option of selecting either of the foregoing methods, and three months, from the date of declaration of the profits, are allowed for his making that selection, which however when once determined on cannot be altered in after years.

2 The practice of an annual division as observed by Mr. BABAGE, "distributes the profits with more regularity and justice than any others" and it is especially advantageous to persons of advanced years who cannot hope to participate in many septennial or decennial divisions, as practiced by several other offices.

3.—One fifth of the ascertained profits of the five past years is divided between the Policy holders and Shareholders—three fourths to the former, and one fourth to the latter—the remaining four fifths are set apart to enter into the average to be struck on the next succeeding year.

4. The following table will shew the operation of the reduction allowed by the division of profits for 1846, which is equivalent to 47

per cent. on the current annual premium of all Policies entitled to participation.

Agent's Birth-day when Policy was issued.	Date of Policy previous to the 2d Wednesday	Sum Assured.	Original Premium.	Reduction.	Annual Premium payable where Policies shall have been in force 6 months from the 2d Wednesday of May till.
20 years	May, 1841	Co.'s Rs. 10,000	Rs. 420	Rs. 197 8 4	Rs. 222 9 3
30 "	" "	" 10,000	" 480	" 225 9 7	" 254 6 5
40 "	" "	" 10,000	" 590	" 277 4 0	" 312 11 3
50 "	" "	" 10,000	" 740	" 347 12 9	" 399 3 3
60 "	" "	" 10,000	" 1,030	" 484 1 7	" 515 14 5

5. From the foregoing explanations it will be seen that the benefits arising from a participation in the profits are actually experienced (when a reduction of the premium is selected) at the periods when the seventh annual, or thirteenth and fourteenth half yearly premiums fall due. In the case however of a Bonus to the sum assured being selected an equivalent sum will be added to the Policy for the current year being such an amount as the reduction in the premium would purchase as a single payment.

6. Separate tables for assurances without participation in profits both Civil and Military have been adopted for the whole of life at reduced rates for such persons as may prefer a lower rate of premium to participation in the general profits.

7. The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but, Members of the Military Service holding offices purely Civil, and subject to no extra risk, will be charged the Civil rate of premium only while engaged in duties purely Civil. It will be in the discretion of the Directors in each particular instance to say whether the higher or the lower rate of Premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

8. When application is made for assuring a life subject to more than ordinary hazard, an augmented Premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice between the Society and the Assured, according to circumstances.

9. Premiums are ordinarily payable half-yearly in advance; but Policy-holders are at liberty to make arrangements with the Society to pay their premiums in one amount, in annual or quarterly payments, or for a given number of years, viz. 5, 10, 15, or 20. Some persons

may wish to avail themselves of a present season of prosperity and adopt the latter course, in which case (although their contributions will cease with the expiration of the term they may fix upon) their share of the profits will continue to be added to their Policies annually during the remainder of life.

10. The Parent Institution being in London, with a similar Establishment in Calcutta for granting Policies; Premiums, as well as claims, are payable in either country, at the option of the Policy-holder. The appointment of Sub-Committees at Madras and Bombay with power to grant Policies, affords similar facilities to persons residing at either of the sister Presidencies.

11. All Policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death, of the Assured, shall have been furnished to the Directors either in London or Calcutta.

12. The Directors of the Indian Branch of the Society are empowered to treat for the purchase of Policies for the whole term of life on which Premium shall have been paid for a period of not less than five years, or to advance, if required, on such Policies, by way of loan, two-thirds of the estimated value.

13. The accounts of this Society, after being investigated by Auditors, chosen as well by the Assured as by the Proprietors, are laid before General Meetings convened twice a year for that purpose:—in like manner the accounts of the Parent Society are regularly transmitted to India for inspection, the India Branch enjoying reciprocal advantages with the Parent Society.

14. Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued as on the date of approval of the risk by the Directors, but no Assurance to be binding on the Society until the first premium shall have been actually paid to the Agents.

15. Every proposal for Assurance will be immediately attended to, and the Assurance completed generally within a few days after the application is made.

16. All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees.

17. The Tables, Blank Forms, and other particulars, requisite to enable persons to effect Assurances, may be had on application to the agents.

By Order of the Directors,
