New Furlough Regulations.

FORT ST. GEORGE, 5th December 1854.

No. 288 of 1854.—The following General Order by the Most Noble the Governor General of India in Council, is republished for the information of the Army.

GENERAL ORDER BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

Fort William, 17th November 1854.

No. 1150 of 1854.—The Hon'ble the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations published in Government General Order,* No. 110, of the 1st of February 1854, the Most Noble the Governor General in Council is pleased to cancel that General Order, and to promulgate in a connected form the Rules which have been laid down by the Hon'ble Court for regulating Furloughs and Leaves of Absence.

With the view of adapting the Regulations to the present increased facilities of communication, and to correct, as far as possible, any tendency in them, to deter Officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, the following Rules are established, and are to have effect from the 1st February 1854:—

1. All Regimental Officers in the service on the 1st February 1854, who prefer retaining what may be considered the advantages of the Old Regulations, may do so, provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the New or Old Regulations according to their decisions.
2. Staff Officers, as such, have not the above option allowed them, but they may retain the advantages of the Old Regulations by giving up their appointments, which, in such cases, will be considered vacated from the date of embarkation.
3. To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement, so that their Furloughs or leaves of absence, whether under the Old or the New Rules, and whether on private affairs or sick certificate within or beyond India, will count for service to the authorized extent only, in computing the time for retirement on full pay.
4. Officers who have availed themselves of the option of the Old Rules, are allowed to re-consider the question under the modifications now sanctioned.
5. Officers who have not taken leave subsequent to the publication of the New Rules on the 1st February 1854, and who consequently may not have been called upon to declare whether they would abide by the Old or the New Regulations, will, on retirement from the Service, be entitled to take full advantage of the privileges given by the New Regulations.

Furloughs on Private Affairs.

6. Every Officer will be allowed a Furlough to Europe, or elsewhere, beyond sea, for a period of two years at the

G. O. G. 1st April 1856.

No. 102 of 1856.—The following General Order by the Right Honorable the Governor General of India in Council, is re-published for the information of the Army.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 18th March 1856.

No. 462 of 1856.—The Right Honorable the Governor General of India in Council directs that the following paragraph of a Military Letter from the Honorable the Court of Directors to the Government of India, No. 8, dated 23d January 1856, be published in General Orders.

Para. 8. We have to state in reply to your enquiry, that an Officer proceeding on leave to England for six months, retaining his appointment or otherwise, is not to be considered as having taken his authorized Furlough after ten or twenty years, as the case may be, but may, with your permission, be allowed at any time to take the remainder of the two years' authorized Furlough on private affairs.

Letter No. 213, dated 29th Sept. 1855.

Government forward correspondence relative to certain questions connected with the new Furlough Regulations and request to be informed as to claims of an Officer to the residue of his Furlough on private affairs when he has been already absent on leave to England on private affairs for six months.

G. O. G. 1st July 1856.

No. 211 of 1856.—The following General Orders by the Right Honorable the Governor General of India in Council, are re-published for the information of the Army.

FORT WILLIAM, 16th June 1856.

No. 859 of 1856.—The Right Honorable the Governor General of India in Council is pleased to notify that the Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decisions regarding the new Furlough Rules, published in Government General Order, No. 1150, dated the 17th Nov. 1854:

Referring to Rule 6, 7.—Officers who take their first Furlough after twenty years' service in India, may take their second furlough after an additional service of five years from the date of their last return to duty.

Referring to Rule 9.—Absence for six months under this Rule does not preclude an Officer from taking his Furlough to Europe after ten years' service.

expiration of ten years' service, and for a second period of two years after twenty years' service in India.

7. The second Furlough of two years will only be granted after ten years' service in India, from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative, under any circumstances, but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This rule does not apply to short leave to sea.

8. All grants of Furlough on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of each Regiment by limiting the number of absentees.

9. Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months without losing their appointments; but during that period, they will not be entitled to any portion of their Staff Salary, which will be drawn in full by the Officers officiating for them.

† Vide margin of rule 21.

* Madras G. O. G. 14th February 1854, No. 44.

10. All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to "Furlough pay" only.

Leave of Absence on Sick Certificate.

11. Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe or elsewhere out of India.
12. Extensions of such leave may be granted, as at present, on production of Medical certificates, for further periods not exceeding eighteen months in the whole.

G. O. G. 16th April 1856.

No. 119 of 1856.—The following Notifications from the Calcutta Gazette, are re-published in General Orders.

FORT WILLIAM, Foreign Department, 4th April, 1856.

No. 1884.—The grant of leave of absence to Staff Officers, on Medical Certificate, with half Staff Allowances, for six months, and with the privilege of returning to their Offices, if their absence from India be not prolonged beyond fifteen months, is bestowed by the Honorable Court, in order to enable such Officers to regain their health, and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of returning to duty, the principle on which the rule is founded is infringed, and the indulgence of the Honorable Court is abused; wherefore the Right Honorable the Governor General in Council hereby notifies for general information, that, if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for concluding that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining Office, will not be granted in future.

The foregoing was declared in a Notification, No. 2129, dated 16th April 1856, republished in G. O. G. 2d May 1856. No. 139, to be applicable to all Military Officers holding Political or Civil appointments, either under the Government of India or under any of the Subordinate Governments.

14. An Officer's claim to half Staff Salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service in Europe or elsewhere.
15. No portion of Command Allowance, Medical Staff Salary or other similar allowance, which under the Old Rules was inadmissible to Officers absent from their Corps or Stations at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.
16. All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian Pay and Allowances as was allowed under the Old Regulations to Officers proceeding to the Cape on Medical certificate, and for the remaining period of their leave they will receive Furlough pay only.
17. If the leave on sick certificate be extended, Furlough pay will be continued but under no circumstances for a longer period than three years altogether from the commencement of the absence.

Staff Officers.

18. The term Staff Officer applies to all Officers holding Staff or Detached appointments, Military (General or Regimental), Political or Civil, also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who, under the Old Rules, were entitled to draw half Staff allowance when absent at the Cape.
19. Staff Officers, absent on leave beyond the periods stated in Rules 9 and 13 respectively, cannot retain their appointments and allowances except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Hon'ble the Court of Directors, with the reasons for it, and to be subject to their approbation.
20. The privilege of retaining Staff appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs, until he has been six years in the discharge of the duties of his appointment, from the date of last return to it.

G. O. C. C. 2d July 1856.

No. 34.—His Excellency the Commander-in-Chief directs it to be published in General Orders for the information of the Army, that the Government of India has fixed three (3) months as the maximum period which is to be understood by the terms "short leaves" and "leaves for brief periods," used in rules 7 and 21 of the new furlough regulations.

22. Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India under the same Rules with respect to allowances and tenure of Command or Office as regulated the grant of leave to the Cape to such Officers under the Old Regulations, except as to the duration of those advantages, the time for their continuance being subject to the provisions of the New Regulations.

Date of Furlough and Advances of Pay.

23. The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.
24. Advances of Pay and Allowances, Staff and Regimental, to Officers proceeding on leave of absence on sick certificate, who may be entitled to them, will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for re-payment of advances made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

13. An Officer holding a Staff or other detached appointment will be allowed to be absent on sick certificate in England or elsewhere, beyond sea, for a period of fifteen months, without losing his appointment; and, during the first six months only of such absence, he will be entitled to draw half the Staff Salary of his appointment, the Officer officiating for him drawing the remaining half salary during the first six months, and the whole salary during the remainder of the time.

21. This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

25. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

G. O. G. 19th October 1855, No. 265.

The following Extract from General Orders by His Excellency the Commander in Chief of the Bombay Army is published at this Presidency.

HEAD QUARTERS, AHMEDNUGUR, 17th Sept. 1855.

1. With the sanction of Government, the following decision of the Government of India, having reference to rule 26 of the New Furlough Regulations, is published to the Army:—

"Short leaves on private affairs for periods not exceeding 30 days, which have been granted to Officers in General Orders, previously to 6th December 1854, are to be counted as 'privileged,' provided they do not exceed an aggregate of 30 days in each half year."

Officers of H. M.'s Service.

27. Officers of Her Majesty's Service in India, whether employed Regimentally or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on furlough or leave of absence.
28. In the case of Officers of Her Majesty's Service on Furlough or sick certificate in England or elsewhere, who may retire or exchange into Regiments not on the Indian establishment, the grant to these Officers of Indian allowances will cease from the date of their retirement or exchange, if it take place before the expiration on six months from the date of quitting India.

Periods of absence allowed to be counted as Service for Retiring Pensions.

29. In order that all Officers quitting India on Furlough, or sick certificate, may be placed on an exact equality as regards loss of time, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their corps or station after their return to India, will be considered as time counting for service for the Retiring Pension.
30. No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years' aggregate service, three years in twenty-five years' service and four years in thirty years' service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs.

G. O. G. 13th June 1856.

No. 193 of 1856.—The Right Honorable the Governor in Council is pleased to direct the publication of the following Bengal rule, and to sanction its extension to the Officers of this Presidency.

"Should an Officer who is on privilege leave not rejoin his Corps, but be absent in continuation, on not more than five months' leave on private affairs, or one year and eleven months' leave on Medical Certificate, he will retain his full salary or allowances for the thirty days of privilege leave, which will also count as service, but he will, nevertheless, forfeit all Military Allowances on completing six months or two years absence, (as the case may be) reckoned from the date that he quitted his Corps and station."

32. Officers to be entitled to retire on the full pay of their Regimental rank (under the Regulation of 1796.) must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.
33. Officers to be entitled to retire on the full pay of Captains and Majors (under the Regulations of 1835-7.) must have served twenty and twenty-four years respectively, out of which time leaves of absence for two years in the aggregate, and not more, will be allowed to count as service.
34. Officers to be entitled to retire as Lieutenant-Colonels must have served twenty-eight years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.
35. Officers to be entitled to retire as Colonels, must have served thirty-two years, out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.
36. The scale, for Medical Officers and Veterinary Surgeons, of privileged Furlough, and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years.	Months.	
1	8	in 17 and under 20 years' service.
2	0	in 20 " " 25 " "
3	0	in 25 " " 30 " "
4	0	in 30 and upwards.

37. It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on full pay, until he has completed the full time of service above specified, whether he be in England at the close of his service or elsewhere.
38. The privileged time of absence may, with the permission of the local Government, be taken at any time subject to these Regulations. If therefore, at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough, or sick certificate in Europe, or elsewhere, he will be entitled to retire on the full pay of a Captain without returning to India, and so in the other terms of service for the higher pensions. In like manner a Medical Officer on Furlough, or sick certificate in Europe, or elsewhere, at the end of seventeen years' service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate pension, without returning to India, and so in the other terms of service for the higher pension.

26. The certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe; but will not include the periods allowed for proceeding to the Presidency or port of embarkation, and to enable officers to rejoin their Regiments or Stations, after their return to India, nor the leave of one month's absence in six months as authorized by the Regulations. The last pay certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental pay and allowances and Staff salary to which they would have been entitled under the Old Regulations if proceeding to sea on medical certificate. This information is necessary in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

39. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full pay.

ARMY LIST ADVERTISER.

COLT'S REVOLVERS.

(EXTRACTS FROM NEWSPAPERS.)

LIFE IN THE TRENCHES.

THIS is a modest record of heroism and endurance, written by a practical man. Major PORTER is a man of few words; and as he himself remarks, his hand "has been taught to wield the sword, not the pen." Consequently, all he says is very much to the purpose; and if a longer, more discursive, more romantic, and even, in one sense, more interesting book might have been written by one more accustomed to book-making, and of a less matter-of-fact disposition, we question much whether it would have been half so useful, so truthful, and life-like as the work before us. Major PORTER very properly assigns a good and Soldierly reason for not publishing these pages before. He says that, pending the war, it was not fitting that any details, however trifling, should be laid before the public by an Officer in Her Majesty's Service. We can, however, assure our readers that there is quite enough of novelty in this work, and much of a nature that other writers have overlooked. Major PORTER has given us certain simple details, which to our mind, are intensely interesting. For instance, he gives us a perfect idea of an Engineer's life and duties in the trenches, under the head of "Night work" and "Day work." He then describes twenty-four hours of that work, and those sufferings under which his health at last succumbed. He affords glimpses of the incidents and horrors of the war, which are intensely graphic, because we feel that nothing is exaggerated, but that it is a plain, unadorned narration, not a word being set down for effect. He describes the sortie, the night attack, the flight and result of a shell, a rocket, a round-shot, and a rifle ball, with equal minuteness and simplicity. Some of his anecdotes of the Soldiers and Sailors are extremely characteristic. We have the Irishman who complains bitterly of being made to dig, and who says—"Shure, one of the very reasons why I listed was because I hated spade work, and the Sargent as tuk me swore by St. Pattorick that I should never see a spaid agin; and yet, no sooner does I come out here, that I gits a pick and shovel put in my hand, just as bad as iver it was in Ould Ireland." Then there is the wild gallantry of the ill-rewarded and neglected Naval Brigade. Concerning one of these a story, quaint and horrible enough, is told (pp. 149-50), for which we must refer to the book itself, as it will hardly bear transcribing. We are told of the lamented CATHEART that the fatal shot that killed him pierced his heart through a letter which he had just written home, and that the precious relic was forwarded to England. With respect to the projectile small-arms, this excellent authority gives the preference to COLT'S revolvers over all others in the following passage, pp. 8-9:—

"It may not be amiss here to mention that my subsequent experience in the trenches before Sebastopol led me decidedly to the opinion that COLT'S pistols were, on the whole, superior to those of any other maker. In the first place, I consider them less liable to accident. In the next place, they are more simple in construction, and less likely, consequently, to get out of order; and what is more, should they become defective, are more easily repaired. The necessity of re-cocking the pistol after every discharge, which is held by a default, and the avoidance of which has been the object of our pistol maker is to my mind a decided advantage in a hand-to-hand *mêlée*, such as the nocturnal sorties of the Russians usually were. A man is very apt to waste his ammunition in the hurry of the moment, in a case where he has the power of firing several shots instantaneously."

In re-cocking the pistol, continues Major PORTER:

"The operation, momentary as it is, gives time for reflecting where the next shot may be most advantageously bestowed."

Such testimony as this is most conclusive in favour of the American inventor. We have heard that the strongest efforts are being made by practical Officers in India to get their Troops, both Cavalry and Infantry, armed with this revolver. For outpost duty they would be invaluable, as well as for storming rocky heights and bushy ravines. The mounted Soldiers and patrol police would have his efficiency multiplied six-fold. In all our British Colonial settlements they would be highly advantageous. As a matter of political economy the Government would do well to think of this. To the Irregular Horse in the Punjab, COLT'S pistols would be a precious boon, and both men and Officers are aware of it. As we said, Major PORTER is a man of few words, but those few, in this instance, are decisive to our minds. What more able authority could be adduced than that of a scientific Officer of Engineers, who has fought in the trenches before Sebastopol? We consider the suggestion conveyed in the passage we have quoted as the most important topic in the book before us.—*London United Service Gazette.*

REVOLVING ARMS FOR ENGLAND.

TO THE EDITOR OF THE MORNING CHRONICLE.

SIR,—Every day some new testimonial, or some fresh anecdote adds to the prestige and celebrity of the American revolver. We may have peace for a long or short period, and surely it is worth while in any case to make both our naval and military force as efficacious as possible.

Foreign Governments have become quite alive to the advantages presented by the use of COLT'S revolvers. It is true that they are to a great extent adopted in our Navy, but I question whether the Sailor is made as familiar as he should be with the handling of a weapon which ought henceforth to form an inseparable adjunct to his equipment.

In the Army little or nothing is being done, even after the experience of a Crimean campaign. Our cavalry and artillery ought at once to be provided with these arms, and drilled in their use. Indian officers especially are loud in their demands that at least the Irregular Horse should be supplied with them. Major PORTER, of the Royal Engineers, in his "Life in the Trenches," pays a tribute to the worth of COLT'S revolvers, which he holds to be superior to all others.

I am of opinion that all branches of our service should be gifted with so manifest a superiority, which lies within our grasp and tempts our authorities, as it appears, somewhat vainly. The revolver, before which every living thing, "all creation," as the Yankees would say, from the lion of Africa to the bear of Greenland succumbs, is fired in vain against the wooden popinjay Routine. You may better chip, and bruise that, nay, riddle it through and through, and yet there it is still right in front of our Horse Guards, and many a gallant fellow has bit the dust in obedience to its vacant grin.

In the very centre of ARMYTAG'S striking picture of the Battle of Inkerman, lately, if not still exhibited in Pall-mall, is a COLT'S revolver, in the hand, if I recollect right, of Capt. VERSCHOYLE. I could not help thinking, when the circumstance was pointed out to me, at what much less sacrifice that heroic stand might have been made had every British soldier thus been armed, as he ought to have been, with a brace of revolvers. War with America, thank Heaven, is not quite so probable as it seemed to be a few days since, but were it unhappily to ensue, we should soon learn a pretty lesson on this score.

Since we must look to the Press rather than the War-office as the patron and promoter of anything good and new for the Army, I hope that the powerful aid of *The Morning Chronicle* in forcing a thing, the merits of which are now so universally recognized, upon the attention of the authorities, so that we may be prepared the next time with something beyond even the inestimable pluck dash, and constancy of our brave defenders.

I am, sir, your obedient Servant,

SEMPER PARATUS.

June 18.

COLT'S CARBINES AND RIFLES.

COLONEL COLT, the celebrated inventor of the revolver pistol which bears his name, is about to introduce into this country an exquisitely finished carbine and rifle, on the same principle. We have seen models of these, and pronounce them to be the most effective and satisfactory small-arms we have yet had brought under our notice. Armed with this weapon of Colt, not yet brought to such perfection of finish and skill, Catlin, with but one or two white companions, penetrated nearly 2,000 miles into the interior of South America, and met with no hostility on the part of the fierce roving tribes of Indians, who were struck with awe at the performance of this wonderful "medicine gun," as they termed it. Imagine a charge of British cavalry, each trooper being armed with this carbine and a brace of revolvers! They would be equal to ten times their force ordinarily equipped. We see what delay and bungling is taking place with the Enfield manufactory, which may be in some degree available, as we learn from the debate on the estimates, in about another twelve months. Yet Colonel COLT offered, at the commencement of the war, to supply one million of these arms at the rate of 100,000 a year, at a comparatively trifling expense to that which the Government has undertaken. With regard to some of the other revolving arms, we learn that they have become a drug in the pawnbroker's shops; numbers of purchasers being glad in the first instance to get rid of them, or exchange them for the genuine weapon: this final destination is easily accounted for.—*Retford Advertiser.*
