COURTS MARTIAL—DISCIPLINE.

No. 39.—Cases having occurred of Native soldiers, who it was intended should return to their duty, having been sentenced to imprisonment with hard labor for short periods not involving dismissal from the service ; and as it is imperative under the provisions of 151st Article of War, that all persons so sentenced shall be sent to jail to undergo such imprisonment irrespective of its term ; and as it is considered undesirable and to the detriment of discipline that men who have been so dealt with should return to their duty as soldiers ; His Excellency the Commander-in-Chief would impress on Courts Martial, and on officers holding summary trials, that it is, for the above reason, inadvisable to sentence sepoys to shorter periods of imprisonment with hard labor than three months, (the minimum period involving dismissal from the service).

Should a shorter term of imprisonment be considered adequate, a Court Martial will still have the option of awarding imprisonment without hard labor, which will be carried out as directed in para. 2140 of the Madras Army Regulations.

ARTILLERY—EQUIPMENT—PAY AND ALLOWANCES.

Simla, 20th March 1875, No. 33.—The following General Order, by the Government of India in the Military Department, is re-published:—

No. 206, dated 25th February 1875.—With reference to G. G. O.* No. 72 of 19th January 1875, His Excellency the Governor-General in Council is pleased to notify that the shoeing allowance referred to in para. 5 will be twelve annas per mensem for each horse, and that rupees five per mensem will be granted for fuel, &c., for carriage work. These allowances will be paid to the Farrier Serjeants of batteries.

* G. O., No. 31 of 1874. 2. The following rules for the supply and repair of harness, saddlery, and line gear for batteries of Royal Horse and Field Artillery will take effect from the 1st April 1875.

3. The equipments of the Royal Artillery in India, and materials of all kinds for keeping them in serviceable condition, will be supplied at the expense of the State. Each battery of artillery will indent on the Arsenal on which it is dependent for the supplies necessary to complete its authorized proportion of ordnance stores and materials for repair.

4. Indents from batteries in the Bengal Presidency to complete equipment will be prepared in the form and on the dates laid down in G. O., No. 358 of 1870, and those for materials for repair in the form and on the dates given in this order, and from batteries in the presidencies of Madras and Bombay in the forms and on the dates to be determined on by the Governments of those Presidencies.

5. In the Bengal Presidency all indents, other than emergent, will be forwarded for sanction to the Ordnance Office, Fort William, addressed to the Assistant to the Inspector-General of Ordnance and Magazines, whence they will be sent for compliance to the Arsenal on which the battery is dependent.

6. The rules for emergent indents in Bengal are fully detailed in paras. 2834 to 2840, Revised Army Regulations.

7. Such stores as are authorised by this order to be obtained in the local market, will be purchased by officers commanding batteries, and contingent bills for the cost incurred, supported by the station price current of materials and labor, under the signature of the officer in charge of the principal sudder bazaar, will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

8. Officers commanding batteries will account, in the half-yearly returns submitted to the Examiner, Ordnance Accounts, for all stores thus obtained either on indent or by local purchase.

9. All stores in use, the property of officers commanding batteries, which have been obtained by them on payment from Arsenals or the local market, on their present contract allowances, will be taken over by Government at a valuation to be decided on by a Committee of Officers.

10. Special Committees will be convened on an early date at each station to report on the condition of the entire equipment of Royal Horse Artillery and Field Batteries. These Committees will be assembled in Bengal under the orders of His Excellency the Commander-in-Chief and in Madras and Bombay by direction of the Governments of those Presidencies. All deficiencies of component parts are to be brought to notice, and any and every article of equipment not in serviceable condition, or that requires repair should be carefully noted and reported on.

11. The periods during which the various articles of equipment have been in use will be taken into consideration, and the Committee will record their opinion whether they will last the full time of service, or not. In the latter case, the Committee will state the reasons, whether from use or otherwise, which, as far as can be ascertained, will lead to their earlier condemnation. Articles of line gear must be of a suitable description and in serviceable condition.

12. Materials for repair, and surplus stores of a suitable description which are in hand, the property of officers commanding batteries, will be carefully examined, weighed, counted, or measured in the presence of the Committee. The value of the articles will be noted, and to enable the Committee to arrive at a just valuation, a certificate will be furnished signed by the officer commanding the battery, showing the actual cost incurred for all such materials obtained by him locally.

13. Stores supplied by the Ordnance Department will be rated by the Examiner, Ordnance Accounts—the actual payments made by officers being refunded for all stores thus obtained which are reported to be serviceable.

14. Bills supported by the proceedings of such Committees will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

15. Materials for the repair of saddle-trees, and repair and preservation of harness and saddlery, will be in the following proportions:—

In such cases the damaged articles will be sold by auction, or be returned into store, to the nearest arsenal, under instructions from the Ordnance Office.

29. The following is the list of materials for repair of carriages, wagons, carts, &c., issued with equipment, and such as are expended are to be replaced half-yearly by indent on the Ordnance Department:—

Simla, 26th December, 1874, No. 337.—The Right Honorable the Commander-in-Chief directs that for the celebration of Her Majesty's birthday the following order of parade shall be adhered to by the troops serving under his command:

The brigade will be drawn up at open order, Artillery in action on the right, or, if more than one battery is present, on both flanks.

When the General Officer arrives on the ground, Artillery and Cavalry will carry swords, Infantry will shoulder by word of their respective Commanding Officers. The General Officer will then take command of the parade, and give the words "Unfix bayonets." "The brigade will fire a Feu-de-joie." With this caution, Artillery not in action and Cavalry will slope swords.

The Artillery in action, and Infantry Regiments when armed with Enfields, will then "load," by order of their respective commanding officers.

On a signal from the General, the Artillery on the right will fire seven guns, and after the last is fired the first round will be fired by the Infantry.

The bands of the Infantry, massed in rear of the brigade, will then play the first part of the national Anthem.

Seven more guns will then be fired by the Artillery on the left, if any be placed there, followed a second round from the Infantry, and the second part of the National Anthem.

The last seven guns by the Artillery on the right, followed by a third round from the Infantry, then be fired, and when finished the whole of the National Anthem will be played by the band.

A. H. BAILEY, Esq., of the London Assurance Corporation.

The chief characteristics of this Society are:—

Mutual Assurance.

Policies for terms of years issued at largely reduced rates without participation in Surpluses.

Premiums payable half yearly, on 1st January and 1st July.

Claims paid immediately after satisfactory proof of death. An official Notice of Death in any of Her Majesty's Government Gazettes is a sufficient proof.

Claims can be adjusted, and premiums can be paid in London, if desired by the Policy holders.

Surrender Values allowed for Life Policies issued at fixed rates of premium which have paid three years' premiums.

The Society's funds must be invested in Indian Government Securities or in other guaranteed Indian Securities.

Quinquennial valuations, by a London Actuary, of Assets and Liabilities. The reduction of premiums for the Quinquennium 1871—75 is at the rate of 60 per cent. of premiums paid during 1866-70.

Assurances granted on the lives of Europeans, East Indians or Eurasians, and Parsees.

Past experience leads the Directors to anticipate that the retention of the "Mutual" principle and the Quinquennial distributions of Surpluses, will bring down the cost of Assurance by this office, for Life, to the lowest possible point.

The Medical Examiner sees Applicants for Assurance at his residence, Hanson's Gardens, ungumbakum, on Wednesdays and Saturdays between 11 and 12 A. M.

SHEARWOOD & CO.,

CABINET MAKERS, UPHOLSTERERS,

BILLIARD TABLE MANUFACTURERS,

By appointment to His Excellency the Viceroy and Governor General of India,
AND TO

H. R. H. THE DUKE OF EDINBURGH.

BILLIARD TABLES.

C. LAZARUS & CO., as manufacturers, would invite particular attention to their large stock of full-sized Billiard Tables. One of the chief desiderata in a Billiard Table is to secure such an arrangement as will admit of a Ball being struck so as to attain the highest speed without its jumping. This it need scarcely be said, depends entirely upon the arrangement of the cushions. C. L. & Co., in mentioning this fact, would state that the subject has largely occupied their attention, and after repeated experiments and close consideration, they have discovered a principle in the manufacture of cushions which answers admirably the end desired. Since the manufacture of their cushions on this new principle, C. L. & Co. have received testimonials from some of the first Clubs in India speaking to the merits of the same. To secure truth with speed, that is to say, the maximum of speed compatible with preventing the Ball jumping, is the object which C. L. & Co. have had in view, and which at length they have successfully attained. At the same time, the cushions, it should be stated, are quite as durable, or even more durable, under the new principle of making up than under the old. With a view to the maintenance of the high character of their workmanship, C. L. & Co. have secured for this branch of their business especially, the services of a gentleman who for many years was foreman to the eminent maker, Messrs. Burroughes and Watts, whose experience is a guarantee of the highest possible excellence in the manufacture of Billiard Tables, and of everything connected with that department of their business.

THE NEW PATENT ELECTRIC BILLIARD MARKER.

Sole Wholesale and Retail Agents for India and the East,

C. LAZARUS & Co.

C. LAZARUS & CO., beg to draw the attention of Clubs, Messes and the Public in general to this wonderful and very ingenious adaptation of the great principle of ELECTRICITY, as applied to the noble recreation of BILLIARDS.

One of the greatest inconveniences attendant on this scientific game, and the one mostly felt by players, is the interruption to play by having continually to run to the wall marking-board to mark the score, and the liability to mistakes in so marking. By this new invention mistakes are impossible, and annoyances and inconveniences are done away with, and the interest in the game is double. Every player can now work his score without leaving the table, and from the cushions he is standing near.

The apparatus itself is so simple in construction, that an amateur can put it together in half an hour without the assistance of an electrician.

The battery will last for months without being refilled, and when it needs to be renewed, can be done at any time for a few annas. The extreme simplicity of the ELECTRIC MARKER, and the low charge for the same, C. L. & Co. are satisfied, make it as popular with the Billiard-playing community of India and the East, as it has already become in England, and on the Continent. C. L. & Co. have at present only a very limited supply of the ELECTRIC MARKERS, but are expecting fresh consignments shortly: meanwhile all orders will be registered for execution.

The MARKERS can be seen in full work, and all particulars may be ascertained from C. L. & Co., who have been appointed by the Patentees, Sole Agents for India and the East. They cannot, therefore be procured elsewhere.

IMPORTANT TO MESSES AND BILLIARD CLUBS.

Throughout India, China, Burma, Ceylon and the Straits.

Consequent on the numerous applications that C. LAZARUS & Co. have lately had from parties residing at a distance from Calcutta to have their Billiard Tables re-cushioned on C. L. & Co.'s new principle, and as sending the old cushions to Calcutta for that purpose is attended with great delay, occasioning much inconvenience, C. L. & Co. have been induced to keep a stock of cushions on their new principle always on hand, which can be fitted to any Table, the accurate length and width of the Slate, and only being required.

Up-country Messes and Clubs can, by thus securing a spare set of cushions, ensure the constant use of the Table, a desideratum C. L. & Co. are satisfied they will not be slow to appreciate, as the inconvenience hitherto felt, by the Table being unavailable for play during such time as the old cushions are under repair, has been admittedly very great.

New Cushions fitted to old Tables on the new principle.

ROYAL ARTILLERY—EQUIPMENT.

G. O. G., No. 174 of 16th March 1875.—The following General Order by the Government of India, No. 206, dated 25th February 1875 is re-published:—

2. With reference to para. 4, indents from batteries in the Madras Presidency to complete equipment, will be prepared in accordance with form No. 20, laid down in G. O. C. C., No. 75, dated 6th June 1860, page 532, and those for materials for repair, in the form and on the dates now prescribed by the Government of India.

3. In modification of paras. 5 and 6, in the Madras Presidency all ordinary and emergent indents will be submitted in accordance with existing practice, as detailed in circular order of the Ordnance Department, No. XIII, dated 21st April 1866. Under this arrangement the indents to be submitted under para. 19 of the present G. O. G., need not be in duplicate.

4. The special Committees referred to in para. 10 will be assembled in this Presidency under the orders of His Excellency the Commander-in-Chief.

5. It is hereby notified that the maund mentioned in para. 8 of G. O. G., No. 72* of the 19th January 1875, is the Bengal maund of 82 lbs.

* Madras G. O. G., No. 63, dated 29th January 1875.

Fort William, 25th February 1875, No. 206.—With reference to G. O. G., No. 72 of 19th January 1875, His Excellency the Governor-General in Council is pleased to notify that the shoeing allowance referred to in para. 5 will be twelve annas per mensem for each horse, and that rupees five per mensem will be granted for fuel, &c., for carriage work. These allowances will be paid to the Farrier Sergeants of Batteries.

2. The following rules for the supply and repair of harness, saddlery, and line gear for batteries of Royal Horse and Field Artillery will take effect from the 1st April 1875.

3. The equipments of the Royal Artillery in India, and materials of all kinds for keeping them in serviceable condition, will be supplied at the expense of the State. Each battery of Artillery will indent on the Arsenal on which it is dependent for the supplies necessary to complete its authorized proportion of Ordnance Stores and materials for repair.

4. Indents from batteries in the Bengal Presidency to complete equipment will be prepared in the form and on the dates laid down in G. O., No. 388 of 1870, and those for materials for repair in the form and on the dates given in this order, and from batteries in the Presidencies of Madras and Bombay in the forms and on the dates to be determined on by the Governments of those Presidencies.

5. In the Bengal Presidency all indents, other than emergent, will be forwarded for sanction to the Ordnance Office, Fort William, addressed to the Assistant to the Inspector-General of Ordnance and Magazines, whence they will be sent for compliance to the Arsenal on which the battery is dependent.

6. The rules for emergent indents in Bengal are fully detailed in paras. 2834 to 2840, Revised Army Regulations.

7. Such stores as are authorized by this order to be obtained in the local market, will be purchased by officers commanding batteries, and contingent bills for the cost incurred, supported by the station price current of materials and labor, under the signature of the officer in charge of the principal sudder bazaar, will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

8. Officers commanding batteries will account, in the half-yearly returns submitted to the Examiner, Ordnance Accounts, for all stores thus obtained either on indent or by local purchase.

9. All stores in use, the property of officers commanding batteries, which have been obtained by them on payment from Arsenals or the local market, on their present contract allowances, will be taken over by Government at a valuation to be decided on by a Committee of Officers.

10. Special Committees will be convened on an early date at each station to report on the condition of the entire equipment of Royal Horse Artillery and Field Batteries. These Committees will be assembled in Bengal under the orders of His Excellency the Commander-in-Chief, and in Madras and Bombay by direction of the Governments of those Presidencies. All deficiencies of component parts are to be brought to notice, and any and every article of equipment not in serviceable condition, or that requires repair, should be carefully noted and reported on.

11. The periods during which the various articles of equipment have been in use will be taken into consideration, and the Committee will record their opinion whether they will last the full time of service, or not. In the latter case, the Committee will state the reasons, whether from use or otherwise, which, as far as can be ascertained, will lead to their earlier condemnation. Articles of line gear must be of a suitable description and in serviceable condition.

12. Materials for repair, and surplus stores of a suitable description which are in hand, the property of officers commanding batteries, will be carefully examined, weighed, counted or measured in the presence of the Committee. The value of the articles will be noted, and to enable the Committee to arrive at a just valuation, a certificate will be furnished signed by the officer commanding the battery, showing the actual cost incurred for all such materials obtained by him locally.

13. Stores supplied by the Ordnance Department will be rated by the Examiner, Ordnance Accounts—the actual payments made by officers being refunded for all stores thus obtained which are reported to be serviceable.

14. Bills supported by the proceedings of such Committees will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

15. Materials for the repair of saddle-trees, and repair and preservation of harness and saddlery, will be issued in the following proportions:—

19. Indents for materials for repair of saddlery, harness and saddle-trees are to be submitted on 1st February and 1st August, in the following form, in duplicate:—

16. Materials for the repair and preservation of harness and saddlery sufficient for six months supply are to be carried in the store wagon.

17. In addition to the materials already detailed, the following will be kept as a reserve to be brought into use only should a sudden emergency arise. The officer commanding the battery will be held responsible that this reserve is always maintained, and that the articles are in good and serviceable condition.

18. With this view, stores should not be allowed to remain in reserve from year to year, as they would in course of time deteriorate, but on receipt of new articles, those longest in possession should be brought into use, and the new stores transferred to the reserve.

21. Components can be obtained only on indents supported by proceedings of a Special Committee, which should state that repairs cannot be effected, and for what reasons.

22. Should the manufacture of any components be absolutely necessary, the work may be carried out, but a return of such articles made must accompany the half-yearly demand for materials, and the necessity for their manufacture be fully explained. In such cases the damaged articles will be sold by auction, or be returned, into store, to the nearest arsenal, under instructions from the Ordnance Office.

23. All repairs to saddlery, harness and saddle-trees are to be carried out by the artificers attached to the battery.

24. The iron work of condemned harness and saddlery is invariably to be returned into store for utilization, as far as possible, in future manufacture, under instructions from the Inspector General of Ordnance.
