Gradation List of

HER MAJESTY'S COVENANTED CIVIL SERVANTS.

The Rank of Civil Servants commences from the date of arrival at Madras of the first Civil Servant of their year; and, being thus determined, all Civil Servants belong, while under twelve years standing to Class V,—from the thirteenth to the end of the eighteenth year, to Class IV;—from the nineteenth to the end of the twenty-third year, to Class III;—from the twenty-fourth to the end of the thirty-first year, to Class II; and from and after the thirty-first year, to Class I.

Column 3.—Maj. Rew.=Major Reward; Min. Rew.=Minor Reward; High Profy.=High Proficiency.

Column 4.—The names printed in Italics denote that the Officers are on Furlough or Special leave.

Column 5.—The commencement of Service is reckoned from the date of the Covenant or the Secretary of State's Despatch announcing the Officer's appointment, whichever is the earlier.

G. O. 38—contd.

Para. 120 is cancelled.

Para. 126.—In line 3, for the words "publishing the extract from" substitute "notifying the receipt of."

Para. 168, line 2.—For "Adjutant General" read "Controller of Military Accounts."

Para. 343 is reconstructed as follows:

343. Probationers for the Indian Staff Corps appointed from the Royal Artillery and British or Native Infantry to Native Cavalry regiments will undergo a three months' course of instruction at equitation classes, which will be assembled quarterly or at such longer intervals as may be convenient at one or more of the stations where British Cavalry regiments are stationed. The stations at which the classes will be formed will be named by the Inspector General of Cavalry and duly notified in G.O.C.G.

I.—The classes will consist of not less than eight officers when available, and the course of instruction will be limited to three months.

II.—The instruction imparted will be confined to that laid down in the following pages of the regulations for the instruction and movements of Cavalry, 1887, viz.:

Pages 1 to 41.
60 to 74.
113 to 149.
165 to 217.

(a) The candidates will also be required to attend stables when practicable, and be instructed in stable management, shoeing, &c. But on no account are they to receive any instruction which will not prove of use to them in their future career, and the practice of making them perform the duties of orderly officers, or any other duties, such as employment on roads, courts-martial, &c., is to be strictly prohibited.

(b) The minimum number of mounted drills to be five a week, and officers will be mounted from the British regiments to which they may be attached unless they have been required to bring their own chargers for that purpose.

III.—The Commanding Officer of the British Cavalry regiment to which the candidates are attached will, on the termination of the three months' course, grant them certificates of proficiency in the various branches of the service, and will also certify that the candidates are fit for the duties of the service.

(4) The minimum number of mounted drills to be five a week, and officers will be mounted from the British regiments to which they may be attached unless they have been required to bring their own chargers for that purpose.

V.—It will also be necessary on the completion of the course for the Commanding Officer to report (a) whether the candidate is a good rider, (b) whether he has been attentive to his duties, (c) whether he has made good progress in the various branches of Cavalry instruction, (d) whether he possesses a competent knowledge of the use of carbine, sword and lance, (e) of elementary veterinary instruction such as the ageing and shoeing of horses, &c., (f) of the art of fitting saddlery, and (g) of the general principles of all detached duties.

Should any difficulty be experienced in imparting instruction under (c), candidates should attend the weekly lectures prescribed by para. 224, India Army Regulations, Vol. VIII.

VI.—Officers who have not already passed the Higher Standard Examination in Hindustani, will be expected, while attending the classes of instruction, to utilize their spare time in studying the native languages, and on the termination of the class they will be granted three months' leave for the same purpose (subject to an extension when necessary), during which period they must make every endeavour to qualify.

VII.—The certificates required by paras. III and V will be submitted to the General Officer Commanding, by whom they will be sent to the Officer Commanding the Native regiment to which the probationer belongs for submission to the Adjutant General through the proper channel. If both the British and Native regiments are in the same district the certificates will be sent by the Officer Commanding the former, to the Officer Commanding the latter, who will forward it to Army Head Quarters through the usual channel.

VIII.—Officers proceeding to, and returning from, these classes of instruction will be allowed to travel at the public expense.

Conveyance for chargers will also be allowed in all cases where the Officer Commanding the British Cavalry regiment to which officers are attached certifies that a charger is absolutely necessary.

IX.—Full staff pay of their appointments will be passed to the officers for a period not exceeding three months on the condition that no extra expense thereby will be caused to the State.

X.—These rules are also applicable to officers serving with Native Infantry, who are candidates for appointment to Native Cavalry regiments, and to officers who have already been admitted to the Staff Corps and are holding permanent appointments in Native Cavalry regiments, whose instruction in a course of equitation may notwithstanding be considered desirable by their Commanding Officers.

XI.—Officers of British Infantry regiments who have risen from the ranks of Cavalry regiments are exempted from undergoing the course.

Para. 2411, line 3.—For "head quarters" read "the Controller of Military Accounts."

Para. 2415, lines 2 and 5.—For "Adjutant General" read "Controller of Military Accounts."

After para. 2423 add the following new paras.:

2423 (a). The regulations governing the grant of medals and rewards for meritorious service and good conduct to non-commissioned officers and soldiers of the Native Army are contained in Volume I, Part II, Army Regulations, India.

2423 (b). In addition to the above, a silver medal inscribed "For long service and good conduct," but *without* gratuity, may be granted annually in every corps to a soldier under transfer to the pension establishment, whose field services and irreproachable conduct throughout his service have been such as to mark him for reward, and whose position on the list of candidates has not procured him the medal and gratuity. Recommendations for this medal to be made by commanding officers, but the grant to be made solely at the discretion of the Commander-in-Chief.

2423 (c). Commanding officers should address their recommendations for the medals to the Adjutant General, except in the case of local corps, who will submit their recommendations to the Government of India in the Military Department. The recommendations are to be made on India Army Form No. 21-A. (a separate roll being required in each case), and are to be despatched to the Adjutant General, or to the Military Department, as the case may require, on the 1st of January, with certified copies of the troop, battery, or company defaulter sheets during the whole service of the soldiers who may be recommended. A certified extract showing the charge, finding and sentence of any court-martial by which any one of them may have been tried, and a copy of any civil conviction, are also required.

2423 (d). It is to be understood that the medal with annuity or that with gratuity, is to be given by selection to the soldier who is considered by his commanding officer and squadron or wing commander to be the most deserving of those men who have qualified for the honor and are eligible for it. The mere fact of a man having fulfilled these conditions does not give him a claim to either medal with annuity, or medal with or without gratuity.

2423 (e). As it is desirable that the annuity should be held chiefly by men on the effective list, commanding officers should not, except in very special cases, recommend non-commissioned officers who are about to be transferred to the pension establishment and before any annuitant on transfer to the pension establishment is recommended for a continuance of the annuity,

After para. 2423 add the following new para. 2423 (a). The regulations governing the grant of medals and rewards for meritorious service and good conduct to non-commissioned officers and soldiers of the Native Army are contained in Volume I, Part II, Army Regulations, India.

2423 (b). In addition to the above, a soldier, medal holder, for long service and good conduct, but who is not entitled to be granted annually in every corps to a soldier, may be recommended for the pension establishment, whose full name, rank, and service should be entered in the list of pensioners, and whose position on the list of pensioners should be noted. The pension establishment should be notified of the recommendation, and the pensioner should be notified of the recommendation, and the pensioner should be notified of the recommendation.

2423 (c). Commanding officers should submit recommendations for the medals to the Adjutant General, except in the case of local corps, who will submit their recommendations to the Government of India in the Military Department. The recommendations are to be made on India Army Form No. 21-A. (a) Recommendations are to be made on each case, and are to be despatched to the Adjutant General, or to the Military Department, as the case may require, on the 1st of January. (b) Copies of the report, and of the company's detailed sheets during the whole service of the soldiers who may be recommended, A certified extract showing the charges, finding and sentence of any court-martial by which any one of them may have been tried, and a copy of any civil conviction, are also required.

2423 (d). It is to be understood that the medal with annuity to that with gratuity, is to be given by selection to the soldier who is considered by his commanding officer and squadron or wing commander to be the most deserving of those men who have qualified for the honor and are eligible for it. The mere fact of a man having fulfilled these conditions does not give any claim to either medal with annuity or medal with gratuity.

2423 (e). As it is desirable that the annuity should be held chiefly by men on the effective list, commanding officers should not except in very special cases, recommend non-commissioned officers who are about to be transferred to the pension establishment and before any annuity is granted to the pensioner, recommendation is recommended for a continuance of the annuity.

commanding officers must certify that the conduct of the non-commissioned officer recommended has been such as to warrant the continuance of the annuity.

2423 (f). Soldiers who may have distinguished themselves by gallantry and zeal in the field, after the commission of any offence by which they were rendered ineligible for the medal with annuity or gratuity, as the case may be, may be recommended for the same, but their services must be exceptional and fully explained.

2423 (g). A soldier who has been tried as a non-commissioned officer and reduced to the ranks for an offence for which he would not necessarily have been tried had he been a private soldier, may be recommended for the medal with gratuity if he has qualified for it in other respects, and provided that his company defaulter sheet shows a period of five years' continuous good conduct since the date of his reduction.

2423 (h). It cannot be too strongly impressed on commanding officers that, in making selections for this honorable recognition, their recommendations should be strictly limited to those soldiers who are known to be in every way worthy of the medal, which is only intended as a reward for a long course of meritorious conduct. Commanding officers should bear in mind that although a soldier may have completed the requisite service and be in possession of three good-conduct badges, it does not follow that his previous conduct has always been sufficiently good to render him eligible for such a distinguished reward as a good-conduct medal, which will only be conferred upon those whose characters are of the highest order; each recommendation being judged by the number and nature of the offences in the man's regimental and company defaulter sheet, irrespective of the punishments which may have been awarded.

2423 (i). In order that every man who obtains a good-conduct medal may be held up as an object of respect and emulation to the non-commissioned officers and soldiers of the corps, the grant will be announced in General Orders of the Government of India, and the announcement will be repeated in Army General Orders (except in the case of local Corps) and in regimental orders. The medal will be transmitted to the General Officer Commanding the District in which the corps is serving, who will cause it to be delivered to the soldier at a full-dress parade (as ordered in Queen's Regulations, para. 9, section XX) to be worn by him as an honorable testimonial of the approbation in which his conduct is held.

Para. 2437 is reconstructed as follows:

Medals granted for service in the field are to be withdrawn from native soldiers who on trial by court-martial may be sentenced to transportation, such sentence being confirmed, or who may be dismissed with ignominy, or upon conviction of desertion, or who, on trial by a Criminal Court, may be sentenced to imprisonment for an offence which, if tried by court-martial, would be analogous to disgraceful conduct and thereby involve dismissal with ignominy.

1. In addition to the requirements laid down in Art. 140 of 1877, which will be referred to by the name of the Examination papers, every Officer and Lieutenant in the Royal Artillery will be required to submit 12 months of journal, to pass a practical examination in the use of range-finding proper to that battery.

2. Officers who will not be qualified for promotion will have passed the examination.

3. Officers who have passed the examination will be placed in the following order:

(1) Officers who have passed the examination in the use of range-finding.

(2) Officers on active service.

(3) Officers going through course of instruction, or doing any military duty other than regimental, except at their own request.

(4) Officers of Garrison Batteries detailed where there are no depression range-finders.

(5) Officers of Horse Field or Mountain Batteries in possession of a certificate of the School of Range-finding, Aldershot.

(6) Officers who, on account of defective vision, are unable to take ranges. (These will have their cases separately considered.)

3. Examinations in range-finding will be held twice a year at home and abroad, in every district in which Officers have to be examined. These examinations will be carried out in the months of May and September, and in such manner as the General Officer commanding may direct.

They will be conducted by a Board consisting of three Officers, one of whom will be a Field Officer of the Royal Artillery as President, and two other Officers as members.

4. The following directions are for the guidance of the Boards of Examination mentioned in para. 3:—

Examination in Field Range-finding.

A reliable instrument with complete equipment will be made use of.

The Officers to be examined will be taken to a piece of open and fairly even ground, commanding as extensive a view as possible of the surrounding country; and the Board will select three well-defined objects which can afterwards be identified on the map of the district, and are estimated to be between 1,500 and 3,000 yards distant. Each Officer will, in his turn, be required to find the ranges of the three objects respectively, doing the whole of the work himself (without the assistance of a No. 2), including the laying out of the sub-bases.

Fifteen minutes will be allowed for the entire operation, but the time occupied in taking each range will be noted.

Officers waiting their turn will be placed at some distance from the pickets and not allowed to communicate with those who are at work or have finished.

The result will be entered in Form I, and forwarded as in the case of other examinations in subject (e).

Examination in use of the Depression Range-finder.

A reliable instrument will be made use of.

Each Officer under examination will, in turn, be required to set up and level the range-finder, and find the height above the water. A datum distance will be given to enable him to do this.

He will then take two series of observations of a boat moving in the water at a rate of about 3 knots an hour. Each series will consist of 10 observations at half minute intervals. There will be at least 5 minutes allowed between the two series to allow of re-levelling, &c., if necessary.

The ranges taken are not to exceed 150 times the vertical base.

The true distances will be ascertained by position-finder if available; otherwise, by the mean readings of two other depression range-finders worked independently by experienced observers.

The results will be recorded in Form II, and forwarded as in the case of other examinations in subject (e).

3. An additional test on the heliograph, similar to that on the small flag will be carried out. Each signaller will send and read test messages on the heliograph; thus the value of the regimental signallers, when working together with the heliograph, will be tested.

Para. 2569.—Insert the following before the last clause :

“Casualties in action are to be reported by officers commanding corps and detachments on Army Form B 103 in duplicate ; one copy to be sent to the General Officer Commanding the Division or Brigade, or officer commanding the station, to accompany the despatches, and the other copy to the Surgeon General, Her Majesty's Forces.”

Para. 2572 is expunged and the following substituted :

Para. 2572.—Whenever a British officer or soldier is killed or wounded in action or in the performance of duty on active service, the General or other officer commanding the force will, without delay, report the fact by “urgent” telegram direct to the Secretary to the Government of India, Military Department, care being taken that all necessary details as to date and place are accurately specified, as also the corps and names in full of both officers and men, together with the rank and regimental numbers of the latter.

In the case of wound casualties it is to be reported whether the wounds are dangerous, severe or slight. When, however, immediate information regarding the nature of wounds, regimental numbers, &c., cannot be afforded, the reason is to be distinctly stated in the telegraphic report—a supplementary report, also by “urgent” telegram being sent as soon after as possible with all the necessary information. When the wounds are dangerous, further reports by telegram should only be made when the progress of the patient is not satisfactory.

Duplicates of the telegraphic reports referred to above are to be sent “deferred” to the Adjutant General, Army Head Quarters.

Para. 2572 (a)—Particulars similar to those given in the preceding paragraph will, in the case of casualties amongst native officers and soldiers, be reported by deferred telegram to the Adjutant General, Army Head Quarters, only.

Para. 2576.—Under the heading “half yearly” expunge the following entry which was made by G. O. 9† of 1889:

* Muster Roll (battery, troop, or company.	Under-Secretary of State for War, War Office, London.	1st January and 1st July.	Army Form N 1498.

4. In order that credit may be given for good sending on the flag, when being tested in sending and reading in pairs, an interval of not less than half a mile should separate opposite pairs of signallers. The same interval should be observed when passing a test message through a transmitting station, and in reading the messages sent by an Assistant Instructor on the flag.

5. The heliograph test will be carried out as follows: The signallers will be divided into two parties. The interval between the parties to be arranged by the Inspector and Regimental Instructor. Each signaller will send two test messages which will be read by a signaller of the opposite party. The better of the two messages will be credited. When the signallers of the party have all sent, they will each read two messages sent by each of the signallers of the opposite party.

6. In both flag and heliograph test in pairs, the test messages must be read out to the sender. No reading off the card will be permitted. This rule does not apply to the test messages sent by an Assistant Instructor on heliograph, flag and lamp.

7. All corps must be examined with lamps to qualify for prizes. For the present the Inspectors will take round with them lamps for the purposes of this examination.

8. The Assistant Instructor will send four test messages on the heliograph in the same manner as laid down in the Manual of Instruction in Army Signalling for flag and lamp. Each signaller will thus read two messages, the better of the two being credited to him. All messages sent faster than one minute being reckoned as one minute.

9. No regiment of cavalry or battalion of infantry whose figure of merit is below 535, and no battery of artillery whose figure of merit is below 525, will be considered to have attained the satisfactory standard of efficiency referred to in para. 39, clause 141, Army Circulars, India, 1888.

10. All corps marked in the Inspection Return as V. I. (very inaccurate) will be disqualified for any prize irrespective of their figure of merit, or efficiency of individuals.

11. Corps and batteries which do not bring forward the established number of signallers will not be classified, and will be disqualified from participation in any of the prizes.

12. The degree of accuracy will be computed from the combined results of the reading of the test messages sent on heliograph and flag, by an Assistant Instructor.

13. The individual prize of Rs. 10 will be awarded to each efficient signaller within the recognized establishment in each classified regiment or battery, provided he is not entitled to a higher prize and that his regiment or battery is not classed as V. I. (very inaccurate).

To prove himself efficient a signaller must show that he can send correctly on flag lamp and heliograph at the standard rate and be able to read accurately at that rate. He must also thoroughly understand the mode of signalling a service message.

14. Inspectors will record the names of efficient signallers in each corps, and forward them to the officers commanding the corps inspected, through General Officers Commanding Districts as soon as possible after the inspection, entering the number qualified to obtain the Rs 10 prize in the column showing number of efficient signallers in Army Form B ²²⁵ modified, opposite the regiment or battery.

15. The attention of officers commanding regiments and batteries is specially directed to the provisions of para. 12, Army Circulars, India, clause 141 of 1888, which refers to the selection of intelligent and properly educated men for instruction in signalling. Every man should be tested in writing from dictation, by the Regimental Instructor, before joining a class of instruction.

16. The holders of signalling appointments are to be struck off regimental duty when employed with a class of instruction or on brigade practice, vide Queen's Regulations, section VII, para. 193.

They should also as far as possible, be excused all duties and parades interfering with the supervision of signalling practice.

17. The system of instruction is detailed in the Manual of Instruction, 1888, pages 29 to 32. Regimental Instructors will be careful that no station work is undertaken until the men under instruction can send and read at the standard rate. Very careful supervision should be exercised in the preliminary stages of instruction to prevent men acquiring a bad style of using the flag.

A particular style once adopted is generally adhered to. This applies equally to all instruments.

18. Regimental Instructors should insist on the "rules to be observed by signal parties" as laid down at page 55 of the Manual of Instruction, 1888, being rigidly observed during practice. When these rules are disregarded rapid and accurate signalling is impossible.

19. Regimental Instructors should, preparatory to the Annual Inspection, put the signallers of their respective corps

The rounds will be fired as follows:
Eight rounds in volleys from 600 yards, to about 150 yards, and two rounds in independent firing at 150 yards.

The three first volleys to be fired by the section at 600, 550 and 520 yards, after which the line having made a momentary halt at about 480 yards, the left half-section will be directed to fire a volley, the right half-section will then rush 40 yards to the front, and halt on the words 'fire a volley' from its commander; the men will then prepare to deliver a volley; and the command 'Fire' from their half-section commander will be the signal for the left half-section to align themselves with those in front. In this manner the attack will progress, the right half-section always leading, until about 150 yards is reached, when the commander will give the order to the Section—'Two rounds independent firing, Commence.' The officer superintending will then blow his whistle as a signal to fix bayonets or swords, in readiness to join the second line, presumed to be now passing through the firing line for the assault on the enemy's position."

the orders marginally noted, it is notified for information that in the event of neither of the linked Batta-

lions of a regiment on Foreign Service being in India, the training of reservists will be carried out with the Battalion with which the clothing, &c., of the reservists has been left.

2. Commanding Officers of regiments serving in Burma should be careful that at the commencement of every drill season they take all necessary steps for the training of the reservists of their respective Corps, as any omission in this respect would entail the grant of arrears of pay of the men being deferred until the next drill season.

Advertisements about "Specifics" generally state what good will be derived from their use. Notices regarding Stolberg's Specifics deviate from this rule as they show what good actually has been done.

Stolberg's Specifics cure the diseases they profess to eradicate or heal. They give instantaneous relief to the sufferer and cause ingrafted and long-standing ailments to succumb. Those who have derived benefit from their use testify that Stolberg's Specifics have proved efficacious in the following complaints, viz.:

Asthma; Bronchitis; Carbuncles; Convulsions; Constipation (obstinate); Colds; Croup; Dysmenorrhœa; Erysipelas; Ear-ache; Ghastly Wounds; Gout (Rheumatic); Head-aches; Indigestion; Lumbago; Liver Complaints; Neuralgia; Paralysis; Pains, (severe); Rheumatism with contraction of the joints; Ringworm; Sciatica; Sores (old); Sorethroat; Spinal Sclerosis; Swellings; Scorpion Stings; Tumours; Tooth-ache; &c., &c.

One trial of the A B C Ointment, Balsam, or Syrup as the case may be, will ensure its becoming ever after a Household medicine.

Testimonials have been received and are daily received from all parts of India and other countries; they show the growth of Public Opinion regarding Stolberg's Specifics. A comparison is invited between the former Pamphlet with the present one—which can be had free on application.

STOLBERG'S Stimulating Balsam.

It relieves the worst Nervous Head-ache, Tooth-ache, Neuralgia, Spasms, &c., in less than five minutes, after the affected parts are rubbed in with the Balsam, and the fumes of the Balsam inhaled. It is very fragrant, and its composition is purely vegetable, and in use perfectly harmless.

In the cases of Epileptic Fits, rub the Balsam well over the head and neck and down the spine.—In less than half an hour the sufferer will revive without the painful working usual in those cases.

In future Head-aches have no harm

Nor Tooth-aches have their sway

A B C BALSAM acts like charm

firing will be termed *Marksmen*," and in column 2, after "Defence Practice," add "Individual firing."

Add to Table B3, "Note—Bayonets to be fixed and 'fixed sights' to be used on 7th day."

4. Page 47, line 9. Add—"In cases where men do not readily acquire the several firing positions, they should be called to the front by the Instructor to observe the drill, and by noting the faults made by the men of the squad, learn to avoid them themselves."

5. Page 67. In sub-section 19 of section 2, Chapter III, as amended by Army Order 129 of 1889, under the sub-head "Firing in Square," after "kneeling rank or front kneeling rank; Fire a volley—Ready," omit "At—yards, Present, Fire, Order Arms"; under the last "Present" the word "Fire" will be inserted; and for "Face" (or "Faces") substitute "Face" (or "Faces.")

6. Page 141. In para. 169b, place an asterisk after "firing," and add as a footnote "The names of each section to be entered on separate registers, the total number of hits obtained being apportioned proportionately to the number of men in each section."

In para. 168h, lines 1 and 2, for "each section or squad," substitute "two sections or squads."

In para. 168i, as amended by Army Order 129 of 1889, in line 1, for "the" read "each," and in line 2 omit from "assisted" to "Officer."

For para. 168k, as amended by Army Order 129 of 1889, the following will be substituted:

(k) The rounds will be fired as follows:

Eight rounds will be fired in volleys in the 1st phase, and two rounds in independent firing in the 2nd phase of the 3rd zone (Infantry Drill, 1889).

The line will advance from 600 yards and fire the first volley at 540 yards, after which, the line having made a momentary halt at about 460 yards, the left section will be directed to fire a volley; the right section will then rush 40 yards to the front and halt on the word "Fire a volley" from its commander; the men will then prepare to deliver a volley and the command "Fire" from their section commander will be the signal for the left section to align themselves with those in front. In this manner the attack will progress, the right section always leading, until about 180 yards is reached; the sections will then, under cover of the last volley, rush to about 150 yards, when the commander will at once give them the order "Two rounds independent firing—Commence." The officer superintending will then blow his whistle as a signal to fix bayonets or swords, in readiness to join the second line, presumed to be now passing through the firing line for the assault on the enemy's position.†

† Casualties will not be simulated.

CHURCH OF ENGLAND ASSURANCE INSTITUTION.
ESTABLISHED 1840.

HEAD OFFICE—KING STREET, CHEAPSIDE, LONDON.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

Subscribed Capital £1,000,000.

"Short Term" and "Whole Life" Assurances are granted.

In addition to ordinary Assurances this Company issues Policies by which the sums assured are made payable to the Policy-holder himself on his attaining a specified age or to his representatives in the event of his previous death. By this means Officers and others may both provide for their families and secure *Retiring Provision* for themselves.

Also "Free" Policies are granted which can never altogether lapse in consequence of the non-payment of Premium.

Special allowances made from the Proprietors' fund in aid of Premium on assurances effected by Clergymen and Schoolmasters.

Premium may be paid annually, half-yearly, quarterly or monthly as desired.

Thirty days' grace are allowed for the payment of annual, half-yearly and quarterly premium, and fifteen days for monthly premium. The validity of the Policy will, in every case, be maintained by payment of the Premium within the stipulated period, notwithstanding the death of the Assured may have occurred before such premium shall have been received.

No extra rate is charged for sea-passages, and on arrival in Europe a reduction is made in the premium without the assured being required to pass any Medical examination.

Policies effected by parties on their own lives, and assigned as a *bona fide* security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

Policies issued in Sterling or Rupees.

The Medical Officer, Dr. E. F. Drake-Brockman, sees applicants for Assurance at his residence Pycroft's Gardens, Nungmbaukum on Wednesdays at 11 A.M.

Detailed Prospectuses, with the names of the Directors, Full Tables of Life Premium, and the necessary Forms of Proposal, may be obtained on application to

A. H. BAILEY, Esq., of the London Assurance Corporation.

The chief characteristics of this Society are :—

Mutual Assurance.

Policies for terms of years issued at largely reduced rates, without participation in Surpluses.

Premiums payable half yearly, on 1st January and 1st July.

Claims paid immediately after satisfactory proof of death. An official Notice of death in any of Her Majesty's Government Gazettes is a sufficient proof.

Claims can be adjusted, and premiums can be paid in London, if desired by the Policyholders.

Surrender values allowed for Life Policies issued at fixed rates of premium which have paid three years' premiums.

The Society's funds must be invested in Indian Government Securities, or in other guaranteed Indian Securities.

Quinquennial valuations, by a London Actuary, of Assets and Liabilities. The reduction of premiums for the Quinquennium 1886-90 is at the rate of 70 per cent. of original Annual premiums paid in 1882-85.

Assurances granted on the lives of Europeans, East Indians or Europeans, and Persons.

Past experience leads the Directors to anticipate that the retention of the "Mutual" principle and the Quinquennial distributions of Surpluses, will bring down the cost of Assurance by this Office, for Life, to the lowest possible point.

The Medical Examiner sees Applicants for Assurance at his residence, Pantheon Road, Egmore, on Wednesdays and Saturdays between 11 and 12 A.M.

SOUTH KENSINGTON.

was awarded by Her Majesty's Commissioners to KÖHLER & SON "for their excellent quality of Brass Instruments." The Jury add, "These Makers are among the first improvers of Brass Instruments, and invented a peculiar rotary motion still used by many makers. Their Trombones are very superior, and of established celebrity."—*Vide Jury Report, Class XVI, No. 3470.*

Messrs. KÖHLER & SON's Band Instruments not only excel in TONE and HARMONY, but they are manufactured specially to stand the wear and tear of Military Service in India. Clarinets, Flutes, Bassoons and Oboes hitherto made in wood are now made in EBONITE, which is warranted not to split, crack or warp in any climate, without any increase in price.
