IN THIS SOCIETY are combined the ADVANTAGES OF  
MUTUAL ASSURANCE with MODERATE PREMIUMS.

THE PREMIUMS are so moderate that an Assurance of £1,200 or thereby, may generally be secured from the first for the yearly payment which usually would assure (with profits) £1,000 only—equivalent to an immediate Bonus of 20 per cent.

THE WHOLE SURPLUS goes to the Policyholders on a system at once safe and equitable,—no share being given to those by whose early death there is a loss.

The Surplus at the last investigation was £1,581,000.

Over 60 per cent. of the Members who died during the last Septennium were entitled to Bonuses which, notwithstanding that the Premiums do not as a rule exceed the non-profit rates of other Offices, were, on the average, equal to an addition of over 50 per cent. to the Original Assurances.

**ACCUMULATED FUNDS EXCEED £13,000,000.**

## OFFICERS OF THE ARMY AND NAVY

may cover War or Climate Risk, or both, by an uniform annual extra premium of moderate amount, payable for any period *not exceeding ten years*, but ceasing on permanent retirement from the Service. This arrangement secures relief from the necessarily heavy extra charges which would otherwise be imposed as occasions might arise; but it can be taken advantage of only when there is no near prospect of Active Service or Foreign Residence.

## PATENT DUPLEX PRESS.

SIMPLICITY, DURABILITY, CHEAPNESS, POWER.

For Stamping Notarial, Official, Corporate, and other Seals, &c

MESSRS. HARRISON & SONS beg to call attention to the Patent Duplex Press: so little force is needed to work it, that the Press requires no fixing, and a stand is not necessary; it may be placed on an ordinary table or desk.

It is constructed without screw or springs, the power being produced by a Cam. From the extreme simplicity of its mechanism, it can be supplied at one-half the price of an ordinary screw-press.

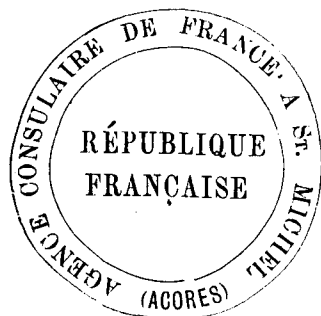

The Patent Duplex Press can be fitted with a lock, so as to prevent its being used by an unauthorized person.

## THE POPULAR FILE.

A tough A B C Case, bound in green cloth, with green Manilla sides. It has a strong web strap and buckle, and a loop at the back for convenience in removing from shelf. The stiff cover projects above and below, and thus protects the gussets from wear. A dozen of these files will hold a year's invoices, letters, &c., in the most accessible manner possible, so that any document may be found *at once*.

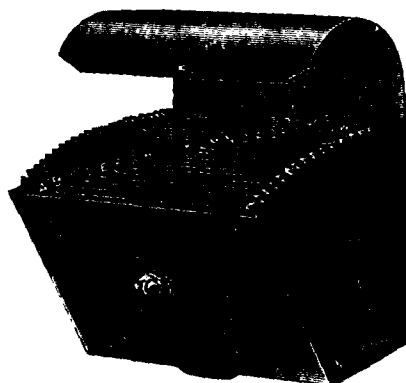

This is the most simple method of storing papers. Notwithstanding their low price, the Files are very strong, and will last for years. A complete set of labels is supplied with each File. They are made in four sizes, with 21 pockets, indexed A to Z.

## THE "MAGPIE" FILE.

A File that will always remain tightly closed whether full or empty.

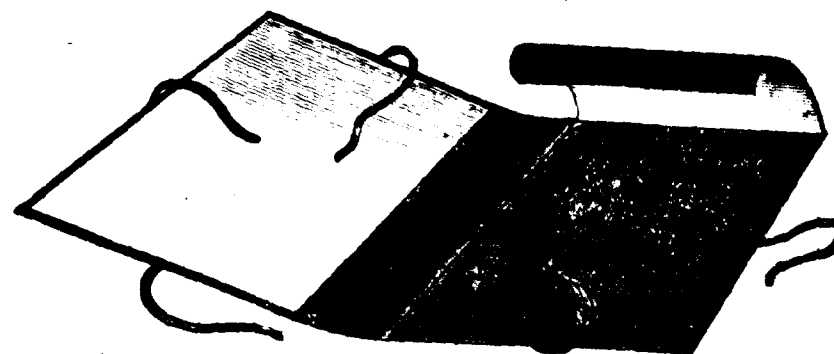

A strong, handsome A B C Expanding File, with flap and adjustable strap fastening, made in a pretty shade of dark grey art vellum cloth, with cloth gussets. The partitions are lettered in a *brilliant white* on a black ground, and catch the eye at once. The adjustable strap is fastened and unfastened in a second; it is simple and strong, and cannot get out of order. This File is on the same principle as the well-known "Popular" File, but is of a more permanent nature. The flap, combined with the adjustable strap (which is practically automatic), effectually prevents dust reaching the papers. A complete set of labels is supplied with each file, width of back, 4 inches.

THE "CONKLIN" SELF-FILLING PEN, with Gold  
Nibs. Fine, Medium, and Broad.

The materials of its parts are of the best quality. The gold pens are warranted 14-carat solid gold with iridium point. The ink reservoir is of the best quality rubber, and will last several years. When necessary a new bulb can be supplied for sixpence.

Many pens are now sold, but they all have the same defect. They need taking to pieces for cleaning, and when empty, replenishing with a separate filler. The "CONKLIN" saves the mess and trouble of all this work.

N.B.—One special feature of this Pen is the impossibility of soiling the fingers when writing. The ink flowing direct from its reservoir to the nib without contact with the barrel of the pen, no leakage at the point is possible.

### HALL'S PATENT SIMPLEX HEKTOGRAPH

Is the latest device introduced for the instantaneous fac-simile reproduction of any Circular, Writing, Drawing or Music in **Black Ink**. It is the most recently improved form of Copying Apparatus by means of Composition, and its perfected character is now such as to constitute it a genuine marvel of its kind.

Outwardly it looks like a book, and could be placed with bound volumes upon the library shelf. It consists of **two** plates, which are movable, and should be used alternately. After the necessary number of copies (which are as sharp and clear as lithography) have been taken, the Ink remaining on the plate is **not washed off**; but after the lapse of a few hours will have disappeared by evaporation, and the plate will again resume its clear appearance. The Directions for Use are placed under the Composition (which is transparent): they are therefore always readable and immediately under the Operator's eye.

## Burke's Landed Gentry of Great

BRITAIN. A New Edition in Preparation. Thoroughly Revised. The Editor has been enabled, in diligent collaboration with the families themselves, to make this edition especially complete, accurate and interesting, not only to the landed classes but to all lovers of family history. All the well-known features of the work will be retained, and much additional information added which will, it is hoped, enhance the value of the book from every point of view. To illustrate the thousands of articles, a very large number of representations in fac-simile of the ARMORIAL BOOK PLATES in use by the heads of families are given. Their artistic merit and heraldic interest must, it is felt, extend the wide popularity of this standard work. The LANDED GENTRY is a vast compendium of genealogical knowledge, for it contains the records of nearly four thousand families in England and Scotland, with all their branches, and accurate descriptions of their heraldic insignia. It is published in one volume, uniform with "The Peerage," "General Armory," &c., &c. Edited by ASHWORTH P. BURKE. Super royal 8vo., cloth gilt. Price £2 2s. net.

## Burke's Peerage, Baronetage, Knight-

AGE, &c. This PEERAGE AND BARONETAGE is the only volume published annually, which gives a genealogical account of the families of the Peers and Baronets of the realm, with their collateral branches. Its plan is therefore not merely confined to lists of the surviving relations of Peers and Baronets, but contains an account of every member of their families living and dead, to each of whom a *separate paragraph* is devoted. In the Key will be found the name of everyone entitled to precedence, with a number prefixed to each, showing at a glance their exact relative precedence. The rules of PRECEDENCE are set forth in ample detail. To the Peerage and Baronetage proper is added the KNIGHTAGE, which gives in alphabetical order an account of every Knight, Commander, Companion and Member of the various orders of Knighthood, and of their widows. The complete list of these ORDERS is also given with their members in order of precedence. An account of FOREIGN TITLES used by British Subjects will be found at the end of the work. The ILLUSTRATIONS with BLAZONS of the Arms are a special feature of this work. Over 2,000 pages, super royal 8vo., cloth gilt. Edited by ASHWORTH P. BURKE. Uniform with the "Landed Gentry." Price £2 2s. (Published annually.)

## Hibernia Hippica. By M. O'CONNOR MORRIS.

Author of "Dublin Castle," "Hibernia Hodierna," &c., &c. Crown 8vo. With four maps of Irish Hunting Districts. Price 5s.

"Sportsmen on both sides of St. George's Channel owe Mr. M. O'Connor Morris no small debt of gratitude for the chatily comprehensive treatise on horses and hunting in Ireland, which he has published under the title 'Hibernia Hippica' (Harrison & Sons). A thorough master of his fascinating subject, as readers of the *Field* for many years have had good reason to know, Mr. O'Connor Morris here provides a sketch of what may be called the equine history of Ireland, and a descriptive account of the various Irish hunts, which will delight not only every hunting man, but all to whom the most important question of horse-breeding is in any way of interest. Writing of a country which has been at all times famous for its horses, the author of this valuable little work finds no lack of material for his survey of the Hibernian record in this regard: nor can it be doubted that his capital descriptions of the existing Irish hunts will have the desired result of inducing more English sportsmen to cross over and avail themselves of the advantages so attractively indicated. An account of the hunting experiences in Ireland of the late Empress of Austria forms not the least interesting chapter of a volume which is to be cordially commended to every lover of horses and every devotee of the chase."—*The World*.

## International Catalogue of Current

SCIENTIFIC LITERATURE. Consists of an annual volume for each subject or branch of science, which enumerates the recent scientific works and papers connected with that branch, the object being to acquaint persons interested in any special branch of science at the earliest possible date with everything that is published upon that particular subject throughout the world. Compiled under the direction of an International Council, for whom it is published, under the auspices of the Royal Society of London.

The subjects are classified as follows—
