ACCOUNT BOOK MANUFACTURERS.

ACCOUNT BOOKS,

Made of the best description of Paper, well Ruled and Printed, and the

MATERIALS USED FOR BINDING ARE OF SUPERIOR QUALITY.

ESPECIALLY THE RUSSIA, CALF, AND VELLUM.

All best Books are made with patent flexible backs, and warranted to open perfectly flat, without danger of the joints or sections giving way.

GENERAL DIRECTIONS FOR ORDERING ACCOUNT BOOKS.

The Size of Paper may be given in inches.

Description of Paper—Blue Laid Hand-made is always used, unless instructions are given to the contrary.

Thickness of Book—The number of Pages should be given; two pages constitute a leaf or folio, and two leaves or folios or four pages form a sheet.

Pattern for Ruling—Patterns of ordinary Rulings are on next page; if any other be required, a whole sheet should be sent.

Description of Binding—Russia, Calf, Vellum, with single or double Russia Bands, Basil, Forril, half Russia, half Calf, half Vellum, half Basil, with cloth or paper sides.

Lettering—If on Back or Side, or both.

Indexes—Ruled blue lines, unless a pattern for the Ruling be sent, are bound up with the Book, if not ordered in a separate binding. The number of leaves to each letter should be stated.

Paging or Folioing—Care should be taken to state distinctly whether the Book is to be paged or folioed; if paged, the numbers run consecutively, thus: (1) (2; if folioed, both pages in the opening have the same number, thus: 1) (1.

45, Pall Mall, London.

Directions for Opening and Shutting the Framed Inkstands.

Push the ink case at the part marked "Push" and, when raised to a right angle with the frame, slide it to the centre. In sliding the ink case back into the frame, apply the pressure at the lowest part, and it will be found to move along the groove quite easily.

THE "REESDALE" EXPANDING ALBUM.

This is a new departure in loose-leaf Albums, the improvement consisting of the ease and quickness with which the book can be fastened or unfastened.

One Half-turn of the button does it.

One leaf, or any number of leaves, can be at once removed for the purpose of mounting or re-arranging, and as quickly replaced. The cover expands, and will hold tightly more or fewer leaves as may be desired.

The action is simplicity itself: one half-turn of the button opens it, one half-turn of the button closes it. The button is flush with the cover; there are no projecting parts anywhere.

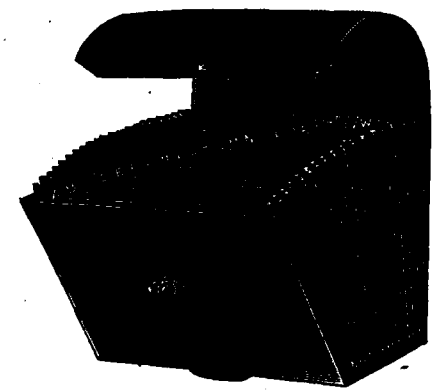
THE POPULAR FILE.

A tough A B C Case, bound in green cloth, with green Manilla sides. It has a strong web strap and buckle, and a loop at the back for convenience in removing from shelf. The stiff cover projects above and below, and thus protects the gussets from wear. A dozen of these files will hold a year's invoices, letters, &c., in the most accessible manner possible, so that any document may be found *at once*.



This is the most simple method of storing papers. Notwithstanding their low price, the Files are very strong, and will last for years. A complete set of labels is supplied with each File. They are made in four sizes, with 21 pockets, indexed A to Z.

THE "MAGPIE" FILE.

A File that will always remain tightly closed whether full or empty.

A strong, handsome A B C Expanding File, with flap and adjustable strap fastening, made in a pretty shade of dark grey art vellum cloth, with cloth gussets. The partitions are lettered in a *vivid white* on a black ground, and catch the eye at once. The adjustable strap is fastened and unfastened in a second; it is simple and strong, and cannot get out of order. This File is on the same principle as the well-known "Popular" File, but is of a more permanent nature. The flap, combined with the adjustable strap (which is practically automatic), effectually prevents dust reaching the papers. A complete set of labels is supplied with each file, width of back, 4 inches.

Quarto	11½ „ 9 ...	X88 ...	4 6	„
Foolscap	14 „ 9 ...	X89 ..	5 6	„

Made in three sizes, with 21 pockets, lettered A to Z.

THE "PHŒNIX" VERTICAL FILE.

THE "PHŒNIX" FILE is made in the form of a box, covered with art canvas, making an exceptionally strong article of light weight and attractive appearance. The flange at the head of the lid is made of sheet iron, giving strength and firmness at the part that receives the greatest strain; it also serves to keep out the dust. The leather fittings are made of Morocco leather, and the catch or fastener is instantaneous in operation, and is perfectly secure when closed. Sheets of lithographed labels (double gummed) containing all titles usually required, together with letters of the alphabet in capitals and small type, etc., are enclosed in each file. Sheets of numerals can also be supplied at an extra charge of twopence per sheet, or one shilling per dozen sheets.

The "Onoto" Patent Self-Filling Pen.

With Shut-off Valve so that the Pen can be carried in any position without fear of leakage.

"ONOTO" (FULL SIZE) PRICE 10/6

DESCRIPTION OF THE MECHANISM.

THE SHUT-OFF AND REGULATING VALVE is formed by the vulcanite rod which runs the whole length of the pen, and is terminated at one end by the head H, and at the other end by the plug S. When the head H is screwed home on the body B, the plug S impinges firmly on the shoulder in the pen-carrier P, and consequently closes the ink and air ducts of the feed. In this condition the body is hermetically sealed, and the pen may be carried in any position without fear of leakage.

Upon unscrewing the head slightly, the plug S is withdrawn, and ink is allowed to flow to the feed. The more the head is unscrewed the wider is the regulating valve opened. It will be found that by only very slightly opening the valve the flow of ink will be so small as to almost instantaneously dry on the paper; whereas if the head be unscrewed a turn and a half, the flow will be as full as that obtained with the common steel nib and ink-well.

Fig. I.

THE SELF-FILLING ARRANGEMENT.

In Fig. I., M is a collapsible leather sucker mounted on the rod of the shut-off valve, near the lower end of the body. In its normal position, when the pen is in use for writing, this sucker occupies an enlarged recess in the body, and ink and air are consequently able to flow past it.

If the pen be empty, and the head H be unscrewed till it is clear of the body, it may be drawn back as shown in Fig. II., the sucker collapsing on the back-stroke, and allowing air and any little ink remaining in the upper end of the body to pass it.

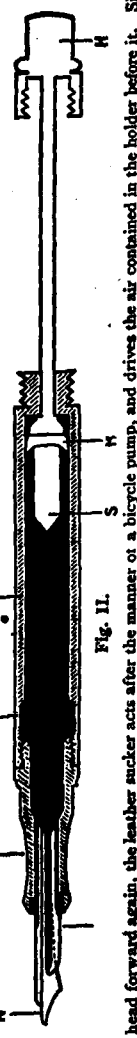

Fig. II.

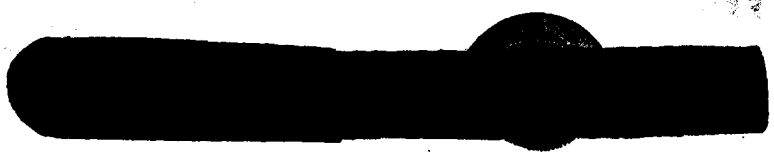
On pressing the head forward again, the leather sucker acts after the manner of a bicycle pump, and drives the air contained in the holder before it. Since the upper end of the path is air-tight, it follows that a vacuum will be left behind the sucker, and this will be maintained till the end of the stroke is reached, when the sucker will enter the enlarged recess F, and the vacuum will be suddenly released, causing the fluid immediately surrounding the end of the pen-carrier to rush in and fill the empty space. If this operation, of pushing home the head, be carried out while the pen-carrier is dipping in ink, it follows that the pen will be filled.



The sucker M is made by mounting a leather washer on to a vulcanite shank. Since the completeness of the vacuum, and hence the efficiency of the self-filling arrangement, depend upon the proper action of such sucker, it is desirable that a ready means be available for replacing it, should it show any tendency to fail in its action. Spare suckers, with instructions for fitting, are sent out with each pen.

Whereas the Shut-off, Regulating, and Self-filling arrangement are operated by a single piece of mechanism, the action of filling the pen is of the simplest character. The head is pressed home, and the pen fills itself.

BLOCK SHOWING HALL'S PATENT SIMPLEX HEKTOGRAPH CLOSED.

HALL'S PATENT SIMPLEX HEKTOGRAPH

Is the latest device introduced for the instantaneous fac-simile reproduction of any Circular, Writing, Drawing or Music in **Black Ink.** It is the most recently improved form of Copying Apparatus by means of Composition, and its perfected character is now such as to constitute it a genuine marvel of its kind.

Outwardly it looks like a book, and could be placed with bound volumes upon the library shelf. It consists of two plates, which are movable, and should be used alternately. After the necessary number of copies (which are as sharp and clear as lithography) have been taken, the Ink remaining on the plate is not washed off; but after the lapse of a few hours will have disappeared by evaporation, and the plate will again resume its clear appearance. The Directions for Use are placed under the Composition (which is transparent); they are therefore always readable and immediately under the Operator's eye.

BLOCK SHEWING HALL'S PATENT SIMPLEX HEKTOGRAPH OPEN. THE TWO PLATES ARE MOVABLE.

Burke's Peerage, Baronetage, Knight-

AGE, &c., 1914. THIS PEERAGE AND BARONETAGE is the only volume published annually, which gives a genealogical account of the families of the Peers and Baronets of the realm, with their collateral branches. Its plan is therefore not merely confined to lists of the surviving relations of Peers and Baronets, but contains an account of every member of their families living and dead, to each of whom a *separate paragraph* is devoted. In the Key will be found the name of everyone entitled to precedence, with a number prefixed to each, showing at a glance their exact relative precedence. The rules of PRECEDENCE are set forth in ample detail. To the Peerage and Baronetage proper is added the KNIGHTAGE, which gives in alphabetical order an account of every Knight Commander, Companion and Member of the various orders of Knighthood, and of their widows. The complete list of these ORDERS is also given with their members in order of precedence. An account of FOREIGN TITLES used by British Subjects will be found at the end of the work. The ILLUSTRATIONS with BLAZONS of the Arms are a special feature. A unique feature of the work is, that by means of a special mark, it is possible to at once ascertain if any given person is living or not, thus obviating the necessity for the perusal of "dead" matter, a very important point, more particularly in the case of a family in which the same Christian names recur. Super royal 8vo., cloth gilt. Edited by ASHWORTH P. BURKE. Uniform with the "Landed Gentry." Price £2 2s. net. (Published annually.)

"Has for more than half-a-century been regarded as containing a history of all the great titled families in the Empire. There is scarcely a page in the volume that is not full of interest. . . . .
