The Markets of the World.

The Lugagne Telegraph Code

If you use the cable at all a few moments' consideration of this Code will set you thinking.

The Lugagne International Code enables one to make himself understood practically throughout the world. We can telegraph, as one would speak, through the medium of seven languages—English, French, German, Italian, Spanish, Portuguese, and Esperanto. It is not necessary to have knowledge of any language other than one's own, as the code words translate themselves automatically into the language of the receiver, or any other at his option.

The code in use is simplicity itself in intelligent hands. The sender is liberated from the serious restriction of being compelled to express himself in ready-made phrases; it permits the compilation simply, directly, and without research, in his own words, of the exact message the sender desires to transmit. This saving of time and the gain in precision is an enormous advantage. The cable is written out in the most concise manner, precisely as if it were to be transmitted without the aid

*automatically
and
accurately
translates
the message
into seven
languages:
English,
French,
German,
Italian,
Spanish,
Portuguese,
Esperanto.*

of a code, condensed, without destroying its value, as is usual. Reference to the Lugagne Code will give in alphabetical order each of the words, terms or phrases to be transmitted, and its three-figure group. Arrange these so as to constitute words of nine letters, and add the check letter which enables the receiver to verify its correctness, and to rectify mechanically any error in transmission, and the cable is complete. Now for its advantages. You can send this message, as you have now coded it, to every part of the world where one of the seven languages is in use, and the receiver will be able at once to decipher it in his own language.

Decoding is just as simple, no matter whether your correspondent cables from Rome or Rio. His message decodes itself into your language.

The Lugagne International Code will serve any and every branch of the commercial world, and, in addition, there are blank groups allowed to enable houses to add any specialised articles, &c.

will halve your Cabling Expenses.

The Lugagne International Code

will save you pounds in time and cabling expenses; it opens the world's markets to you; it enables you to deal with your clients in their own languages. In addition, there is an equivalent table of principal monetary systems, and tables unifying the weights and measures most in use.

A veritable international link in the commercial correspondence of the world, and a commercial Encyclopaedic Dictionary.

COMPLETE IN ONE VOLUME,

Embracing English, French, German, Italian, Spanish, Portuguese, and Esperanto.

£5 net.
