VIZAGAPATAM AGENCY

CENSUS OF 1931

VILLAGE STATEMENT

BISSAMKATAK TALUK

Mother-tongues :—
 { Kond 52 per cent
 { Oriya 36 per cent
 { Telugu 11 per cent

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. The narrow tongue which extends northwards from about the B. and O. Rayagada trijunction shows an Oriya mother-tongue predominance. In the remainder Kond prevails, but Oriya is well represented throughout the taluk.

VILLAGE STATEMENT

GUNUPUR TALUK

Mother-tongues :—

Saora 38 per cent
Telugu 24 per cent
Kond 19 per cent
Oriya 18 per cent

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. Oriya prevails in a small area in the north of the taluk and Telugu in a smaller area on the west. In this as in Rayagada taluk the Oriya-Telugu elements tend to concentrate on communications and trading centres, Telugu preferring on the whole the south and Oriya the north.

JEYPORE TALUK

Mother-tongues :— $\left\{ \begin{array}{l} \text{Oriya 86 per cent} \\ \text{Poroja 6 per cent} \end{array} \right.$

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. Oriya's least percentages occur towards the north-east, i.e., Naurangpur—B. and O. trijunction.

VILLAGE STATEMENT

KORAPUT TALUK

Mother-tongues :— { Oriya 70 per cent
 Kond 25 per cent

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. This taluk could be divided into three zones from the point of view of mother-tongue. In the south and south-west Oriya's predominance is pronounced. The second is the belt running up from Parvatipur. Here the predominant M.T. is Kond or Konda. The third zone is the extreme north of the taluk towards B. & O. Here Oriya is between 60 and 70 per cent, the balance being mainly Kond.

VILLAGE STATEMENT

MALKANAGIRI TALUK

Mother-tongues :—
 Oriya 39 per cent
 Koya 28 per cent
 Telugu 7 per cent
 Poroja 7 per cent
 Kond 6 per cent

As villages less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. From the M.T. aspect this taluk could be divided into 2 broad regions ; the north continues the Jeypore Oriya predominance, the second and larger part shows practically no Oriya M.T. at all except in the circles adjoining the first. Oriya as M.T. in fact diminishes steadily from north to south. Telugu is present mainly in the south and south-east but is not elsewhere important.

VILLAGE STATEMENT

PADWA TALUK

Mother-tongues :— { Oriya 42 per cent
Telugu 38 per cent
Kond 11 per cent

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. The taluk might be divided for M.T. purposes into a north and a south portion, the north being Oriya, the south Telugu, with enclaves of aboriginal M.T. (Kond, Konda, etc.) on the Viravilli and Malkanagiri borders. In the extreme south of the taluk the Oriya element practically vanishes.

PARVATIPUR TALUK

Mother-tongues :—
 { Kond 75 per cent
 { Oriya 14 per cent
 { Telugu 11 per cent

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. An Oriya M.T. element is generally present. Telugu is capricious in appearance but occasionally well marked; both prefer the chief lines of communication.

RAYAGADA TALUK

Mother-tongues :—
 { Kond 68 per cent
 Oriya 18 per cent
 Telugu 12 per cent

As villages of less than 500 inhabitants have been clubbed for the purposes of these statistics, it is not possible to show village linguistic percentages. This is essentially an aboriginal taluk by M.T., and the Oriya and Telugu representations can be closely associated with the main communications. This applies particularly in the case of Telugu.
