EXTRACT FROM THE REPORT TO GOVERNMENT OF THE SPECIAL COMMISSIONER

3RD DIVISION OF VIZAGAPATAM DATED 29TH APRIL 1803.

47. In our report of the 9th September 1802 we submitted to your Lordship in Council the Permanent Settlement of the Havally lands in the 1st and 2nd Divisions of Vizagapatam, and we now proceed to complete that subject by stating the result of our proceedings on the 3rd Division of the Province which comprises the Havallies of Chicacole and Teckaly with the Zemindary of Kimedy.

KIMEDY.

To the Board of Revenue dated 23rd November 1799.

48. Guzzaputty Deo, Zemindar of Kimedy, forfeited his Zemindary for repeated breaches of his engagements, for his disobedience of the orders of the Collector, and for withholding the revenue collected by him. The intention of your Lordship in Council was to qualify this necessary exertion of the Company's power by an indulgent consideration of the situation of the son of the Zemindar of Kimedy, in order to establish the authority of the Company as well as to ascertain the resources of the Zemindary. It was thought expedient to keep that country for a time under the management of the Officers of the Company, and to appoint Doorgarauze, a relation of the family, and interested in its welfare, to be Manager of the Zemindary under the orders of the Collector. A Proclamation to this effect was accordingly published on the 21st December 1799.

To the Board of Revenue 6th March, 1802.

49. On the death of Guzzaputty Deo on the 4th February 1802, your Lordship in Council was pleased in conformity to the tenor of that Proclamation, to constitute and appoint Poorshotum Narrain Deo, to be Zemindar of Kimedy, and to direct that he should be acknowledged and be considered Zemindar by the Collector until the permanent jumma should be fixed.

50. The Zemindary having in the meanwhile been delivered to the authority of the young Zemindar, we now proceed to submit our sentiments of the amount of the jumma to be assessed in perpetuity on the Zemindary of Kimedy.

General Reports of the Board of Revenue dated in 1799 & in 1800.

51. The distraction in which the affairs of this Province were involved by the rebellion of Guzzaputty Deo, and the injury which the country and the revenue sustained from internal commotion, appear to have produced effects correspondent to the nature of such evils, in the diminution of the resources of Kimedy. The management of Doorgarauze, however, under the superintendence of Mr. Cherry, has, in our judgment, been calculated to relieve the consequences of those convulsions, and we trust that the instalment of the young Zemindar, the continuation of Doorgarauze's administration, and the establishment of a system of law and security, will restore this province to its former prosperous condition.

52. By the accounts of the Committee of Circuit, it appears that the value of the Zemindary of Kimedy, including Salt and Sayer, was estimated at Rupees 1,87,051, and that the annual tribute paid by the Zemindar amounted to Rupees 86,000, being a jumma in the proportion of $45\frac{15}{16}$ per cent of the gross revenue.

From Mr. Cherry 22nd June 1802.

53. The accounts procured by Mr. Cherry of the value of the Zemindary of Kimedy, state the gross jumma of that District for

Fusli 1204, including Salt and Sayer at				Rs. 1,31,338	0	0
In Fusli 1205				„ 1,37,875	0	0
In Fusli 1206				„ 1,44,555	0	0
				Total 4,13,768	0	0
				Average 1,37,922	0	0
In Fusli 1209, the year of the disturbances	86,724	0	0			
In Fusli 1210	1,26,600	0	0			
In Fusli 1211	1,30,127	0	0			
				3,43,451	0	0
				Average 1,14,483	0	0
The average of the 1st three years				1,37,922	0	0
The average of the 2nd three years				1,14,483	0	0
				2,52,405	0	0
				Average 1,26,202	0	0

DEDUCT

	Rs.	As.	P.
The amount of Salt, Sayer, and Abkarry on average of 5 years as ascertained by Mr. Cherry	17,930	0	0
The amount of Peshcush paid annually by the Vessayees, and to be in future received through the Collector	2,530	0	0
	20,460	0	
The average land Revenue	1,05,742	0	
⅔rds of which is	70,494	0	
Leaving, on this principle, to the Zemindar, for charges of management and for his maintenance, an estimated annual sum of Rupees	35,247	0	

On this calculation Mr. Cherry has remarked "that, as the Zemindary is just emerging "from a state of extreme confusion and almost ruin, to assess it beyond "the means the Zemindar possesses, would tend more to bring him into "the distress and disgrace suffered by his father, than raise him to the "state I am satisfied it is the intention of Government to do by making "him Zemindar, and I should therefore conceive I neglected my duty did I not state to the "Commissoners my opinion of the means possessed by Poorshotum Deo to discharge the dues "of Government; I, therefore, after the most mature deliberation and in the hope that my pre-"suming to fix on any jumma to be paid in perpetuity by the Kimedy Zemindar, will not be "deemed improper, venture to offer my opinion; he might be able to pay for Fusli 1212 and the "4 ensuing years, 70,000 Rupees, and from Fusli 1217 and in perpetuity, 80,000 Rupees, which "sum is exclusive of the Sayer and Vissayees."

From Mr. Cherry 30th April 1802 Para 4.

54. The result of this arrangement as it relates to the net revenue derivable to the Company would, according to our estimate, be as follows.

Amount of the jumma formerly paid by Guzzaputty Narrain Deo				Rs. 86,000	0	0
Jumma to be fixed in perpetuity on the Zemindary of Kimedy	80,000	0	0			
Salt and Sayer taken on an average of 5 years	17,930	0	0			
Deduct items of land revenue improperly included in the Sayer. (See Collector's letter of the 13th November 1802)	6,903	0	0			
	11,027	0	0			
Add revenue to be received by the Collector direct from the Vissayees	2,530	0	0			
				93,557	0	0
Increase of the jumma paid by the late Zemindar				7,557	0	0

55. Adverting to the former value of this Zemindary, to the liberal means which have been applied to the improvement of the Country under the administration of Doorgarauze, and to the temporary causes which have affected the revenue during the last three years, we are of opinion that, it is advisable to adopt a russud jumma for this Zemindary; and in conformity to the opinion of the Collector, on whose practical knowledge we place great reliance, we propose that, the jumma may be fixed during the first ten years at the sum of 70,000 Rupees* and permanently from the tenth at the sum of 80,000 Rupees† and we recommend that, the Zemindary may be entirely restored to Poorshotum Narrain Deo, subject to that assessment which appears to us to be conformable to the actual circumstances of the Zemindary, and to the object of your Lordship in Council in restoring the young Zemindar.

* Star Pags. 20,000
† Star Pags. 22,857

56. Your Lordship in Council having, by a Proclamation bearing date the—of January 1800, exempted the possessions of the Vissayees from dependence on the Zemindary of Kimedy, we have provided for that object by a separation of their payments from his jumma; and we beg leave to recommend with a view to arrange the future Government of them, with a due regard to their prejudices, that the local authorities be, from time to time, required to gain correct information of the manners and customs of these people.

57. Mr. Cherry having paid much attention to clearing the passes in the country, we beg leave to recommend that an obligation be required from the Zemindar of Kimedy to keep open those means of communication; that the names of the passes to be kept open be inserted by the Collector in the obligation; and, that if Mr. Cherry should deem it advisable to clear the passes in a more effectual manner, authority may be granted by your Lordship in Council for that purpose.

From Mr. Cherry 30th April 1802.

58. The revenue derived from Salt from duties in the transit of commodities by Sea and Land; on the sale of Spirituous Liquors; and on the monopoly of Betel and Tobacco; being considered to be items of revenue exclusively appertaining to Government, we have excluded them from the proposed jumma of the Zemindar of Kimedy, and recommend that the Collector may be directed to resume and administer the revenue derived from the above articles, and, that for the collection of inland duties, Chokies may be placed for the present, and until the amended regulations for the collection of the Sayer shall be published, at the stations pointed out by Mr. Cherry in his letter of the 13th of November 1802.

3

THE HAVALLIES OF CHICACOLE AND OF TECKALY.

59. The Havally of Chicacole is the ancient demesne land of the Company, and on the acquisition of the Northern Circars was farmed for a term of 10 years to Seetaramrauze; the Committee of Circuit appear to have considered this measure to be inconsiderate, and the consequence to have been, that the best manufacturers and artizans, and the most industrious cultivators of the soil, were invited by offers of personal advantage to remove from the district in which the Zemindar had only a short and precarious interest, and that this temporary farmer purchased the means of exhausting the capital, the stock, and the industry of the district, while the officers of the Company, deceived by the considerations of a high rent and a responsible renter, overlooked their permanent disadvantage in such an engagement.

Chicacole.

60. Under Seetaramrauze the regard, however imperfect, which had hitherto been shewn to the ancient rules relative to the division of the harvest, was thought to be an unnecessary diminution of the profits of his lease: the cultivator was compelled to accept whatever share of the grain the renter thought fit to leave in his possession, and at the same time was made responsible for loss arising from the deficiency of the neighbouring Crops.

61. The impoverishment produced by such a mode of management, and the calamity subsequently entailed on the district by the famine, must have materially injured the productive powers of the Havally.

62. Although the Vissabuddy system and destructive practice of Cist Cummoo does not appear to have existed in this Havally, the measures pursued for administering the revenues have constantly fluctuated, little has been hitherto done either to extend by a detailed settlement the benefits of a limited demand, or to suppress the exactions of the renters who have from time to time farmed the revenues.

63. Independently of these events so unfavorable to the improvement of the Havally of Chicacole, some parts of the district suffered considerable injury during the disturbances excited by Guzzaputty Deo, Zemindar of Kimedy, and the great fall in the price of grain, combined with the difficulty of disposing of it about the same time, although it did not so immediately tend to impoverish the people, had the effect of depreciating the revenue.

General Reports' 1799 and 1800.

64. This district was formerly held in Zemindary tenure by the descendants of the ancient house of Orissa on a jumma of about Rupees 20,000 per annum. In the year 1797 the Zemindar in possession died, and no male relation having survived (except a natural son of the father of the last incumbent) the Zemindary escheated to the Company, and was declared Havally——the natural son and only claimant is since dead.

Teckaly.

65. The Havally of Teckaly as well as that of Chicacole suffered material injury during the disturbances in Kimedy in the years 1799 and 1800, the exertions of Mr. Cherry have however effected during the last three years a progressive improvement of the revenue, and although the system of extensive rents has been continued, the evils arising from such rents appear to have been palliated in some measure by his endeavour to suppress the exactions of the renters: still, the beneficial effects of limiting the demand on the husbandman by known rules, and of collecting that demand under the operation of defined laws, remain to be produced by the introduction of the permanent revenue. Without entering minutely therefore into a retrospective examination of the affairs of the Chicacole and Teckaly Havalies, we shall proceed to suggest such arrangements as appear to us to be advisable for fixing a permanent settlement on those lands.

66. The lands of Chicacole and of Teckaly were originally divided into 26 Estates, but Mr. Cherry availing himself of the experience acquired during his personal superintendence of these lands, has revised the original division of them, and by a more convenient combination of their resources, has distributed the lands into 20 Estates, in point of value satisfactory to us, and of extent capable of management by individual Proprietors; the highest value of an Estate does not exceed 8,000 Star Pagodas, and the medium value is about 4000 Star Pagodas, under these circumstances we recommend that the proposed plan of distribution may be confirmed by your Lordship in Council.

From Mr. Cherry 24th March 1802.

67. Previously to the consideration of the amount of land revenue which we shall recommend to be permanently assessed on the lands of the Chicacole and Teckaly Havallies, we shall exhibit the result of the Collector's proposition in the following abstracts.

CHICACOLE.

Statement D.		Rupees.
Col. 22	The valuation of this Havaly is stated by the Committee of Circuit at	2,91,764-0-0
Col. 23	The amount of the rents in Mr. Crawford's time was	2,87,467-0-0
Col. 24	The amount of the rents in the time of Mr. Keating was	2,98,065-0-0
Col. 25	The average gross revenue for 5 years, from Fusli 1202 to Fusli 1206, is	2,94,760-0-0
	The average collections of Fusli 1210 and 1211 and of the jumma of Fusli 1212 is	2,60,702-0-0

68. On the foregoing grounds the Collector has proposed that the assessment on that district shall be

	Rupees.
For the 1st year or Fusli 1213	2,78,032-0-0
For the 2nd year or Fusli 1214	2,85,820-0-0
For the 3rd year or Fusli 1215 and in perpetuity	2,93,239-0-0

69. The jumma of the 1st year (according to this mode of assessment) would be in the proportion of $4\frac{11}{16}$ per cent below the value of the Havally, as stated by the Committee of Circuit, in the proportion of only $5\frac{10}{16}$ below the average gross revenue of the 5 years from Fusli 1202 to 1206 and in the proportion of $6\frac{3}{11}$ per cent above the average collections of Fusli 1210, and 1211 and of the jumma of Fusli 1212.

TECKALY.

Col. 22	The value of this Havaly is stated by the Committee of Circuit at....Rs.	56,352-0-0
Col. 23	The jumma paid by the Zemindar, including the rent of Nowpadah, in Mr. Crawford's time, was	24,472-0-0
Col. 24	During the administration of Mr. Keating the jumma remained at	24,472-0-0
Col. 26	The average gross value from Fusli 1202 to Fusli 1206 amounts to	34,316-0-0
Col. 31	The average of the settlement of Fusli 1210, 1211 and 1212 is	34,453-0-0

70. The Collector proposes to assess the Estates of the Teckaly Havaly as follows.

In the 1st year or Fusli 1213	Rs. 43,000-0-0.
In the 2nd year or Fusli 1214	44,000-0-0.
In the 3rd year, and in perpetuity in the sum of	45,000-0-0.

71. The jumma of the 1st year would be in the proportion of $23\frac{11}{16}$ per cent below the value of the Havally, as stated by the Committee of Circuit, in the proportion of $75\frac{11}{16}$ per cent above the jumma paid by the Zemindar, including the rent of the Village of Nowpadah, in the proportion of 7 per cent above the gross value of the Havaly on an average of 5 years, from Fusli 1202 to Fusli 1206, and in the proportion of 24½ per cent above the average of the collection, and of the jumma of Fusli 1210, 1211 and 1212.

72. Although the mode of managing these Havalies by letting them in large farms, disables us from including in the statement the amount of revenue appropriated to the expenses and profits of the renters, yet, adverting to the rapid gradations by which the revenue has been augmented during the last three years, and which the Collector proposes to pursue during the next three years, we are disposed (notwithstanding our general reliance on the accuracy and fidelity of Mr. Cherry's opinions) to doubt that the amount of the permanent revenue recommended by that Gentleman, can be supported by the evidence of the accounts on which it is founded.

73. The tanks which were destroyed in the year 1795 have been repaired at a great expense, and may be expected to produce a correspondent augmentation of the revenue, but we doubt that the population of the country is at present such as to justify an assessment higher than the value computed by the Committee of Circuit, and we know that the high jummabundy settled during the administration of Mr. Keating was subsequently reduced by the remission of rent granted to the renters, we consider the actual revenue collected during the administration of Mr. Crawford to be a more just criterion of the resources of the Chicacole Havaly, and we deem it to be equally repugnant to the spirit of your Lordship's instructions that the amount of the permanent revenue should become the means of inducing the future Proprietors to attempt encroachments on the rights of the inferior cultivators, or of causing the Estates to relapse through unavoidable failure into the possession of the Company.

To Government 11th September 1797.	
Advanced for repairs of tanks, Rs.	2,10,826
Disbursed	81,012
To Government 27th September 1799.	
Balance of rents Star Pagodas in	
Fusli 1205	58,705
„ 1206	6432
Star Pagodas	65,137

74. Under this impression we have deemed it advisable to reject the rapid augmentation immediately proposed by the Collector, and to recommend a russud jumma for the first five years at the amount of the rents proposed for Fusli 1213, which being calculated on the whole of the Estates of the Chicacole Havaly, the total amount will be equal to Rs. 2,78,032; we also think that the amount of the permanent assessment should not exceed the amount of revenue realized by Mr. Crawford which was the highest actual revenue ever received from the Havaly. In adopting that rate therefore as the standard of the permanent assessment, we shall, we trust, have manifested that care of the public interests which is conformable to practical experience, while the calculation being formed during a period when the Havaly was rented, sufficient reason exists for believing that the interests of the future Proprietors will have been amply secured in that portion of the revenue allotted

Col. 39 *Star Pagodas* 79,437.

during the period in question to the profits of the renters, we accordingly recommend that at the expiration of five years the permanent settlement shall be fixed at those rates which being applied to the whole of the estates, the permanent revenue will amount to the sum of 2,87,000 Rupees. The Statement D to which we have the honor of referring your Lordship in Council will exhibit the detailed operation of this mode of assessment in its application to the several estates.

Star Pagodas 82,000
Col. 44 of enclosure D.

TECKALY.

75. On the grounds on which we recommended the progressive and permanent assessment of the Chicacole Havaly, we recommend that the assessment on the Estates of Teckaly may be fixed during the first five years at the amount of the actual settlement for the Current year, which, being calculated on the whole, will amount to 42,000 Rupees, and that from and after the fifth year, the permanent revenue be fixed at the amount proposed by the Collector, which being calculated on the whole, will amount to 45,000 Rupees.

Col 39 *Star Ps.* 12,000.
Col. 44 *Star Ps.* 12,857.

76. The Statement D will explain to your Lordship in Council the operation of this mode of settlement on the several Estates.

77. If the rates proposed by us should be considered advisable by your Lordship in Council for the permanent assessment of the Havalies of Chicacole and Teckaly, we recommend that the lands may be sold by public auction on the 30th June next, and that the possession of the Estates be transferred to the purchasers on the 12th of July following.

78. We estimate that the introduction of the permanent assessment in the Havalies of the 3rd Division of Vizagapatam, will be productive of an augmentation of net revenue to Government, and we trust that the security of that augmented revenue is established on the solid foundation of the happiness of the people and the prosperity of the Country.

79. It appears that no establishment of Curnums has been maintained in the Havaly of Teckaly, and that no allowances in land or in money have been defrayed from the gross revenue for the support of these Officers. Referring to the obligation provided by the laws on Proprietors of Estates to maintain the establishment of Curnums, we have assessed the jumma on Teckaly according to that provision, and we recommend that the attention of the purchasers of the Teckaly Havaly may be directed, by a special condition of sale, to the necessity of establishing in that Havaly an efficient number of Curnums, and of assigning land or fees in grain for their maintenance.

Regulation XXIX of 1802.

80. The Villages of Moraryspooram Mocassahs to Ramanaputnaidoo have been excluded from the permanent jumma; we recommend that Ramanaputnaidoo may be permitted to hold them until his right to them shall have been tried and determined in the mode and in the manner prescribed by the Regulations.

81. We further beg leave to recommend that the practice of pressing Coolies to work at the Salt pans of Nowpadah be discontinued, that the abolition of the practice be published at the time of the sale, and that the manufacture of Salt be abandoned at that Village unless Coolies can be procured on hire to work at the pans; an extension of the manufacture at other places will probably counterbalance any loss which may at first arise at Nowpadah.

82. In closing our report on the permanent settlement of the 3rd Division of Vizagapatam, we have much pleasure in stating, to your Lordship in Council, our opinion, that the reports of the Collector on the permanent settlement of the Division under his charge, evince as much anxiety for the happiness of the people as desire to advance the public welfare, together with great industry and a considerable degree of ability; we therefore deem it to be our duty to recommend Mr. Cherry to the notice of your Lordship in Council as a meritorious Collector.

(A true Extract)
(Signed) H. CHAMIER, *Deputy Secretary.*

EXTRACT FROM THE MINUTES OF COUNCIL DATED 6TH MAY 1803.

The Board adopt the reasoning of the Special Commission in respect to the resources of the Kimidi Zemindary, and confirm the rate of assessment proposed by them, being for the first ten years Rupees 70,000 or Star Pagodas 20,000, and in perpetuity from the tenth year, Rupees 80,000 or Star Pagodas 22,857.

The recommendations of the Commission respecting the Vissoyers, and the revenue arising from Salt and Customs, are conformable to the intentions of the Board; resolved therefore that they be carried into execution.

The Board approve and confirm the assessment proposed by the Special Commission for the Estates composing the Havalies of Chicacole and Teckaly. The jumma of the former will, in consequence, be fixed for the first five years at Rupees 2,78,032, or Star Pagodas 79,437, & permanently from the expiration of the fifth year at Rupees 2,87,000 or Star Pagodas 82,000. The jumma of the latter Division will be fixed for the first five years at Rs. 42,000 or Star Pagodas 12,000, and permanently from the fifth year at Rupees 45,000 or Star Pagodas 12,857.

The Board approve the recommendations of the Special Commission respecting the sale of the lands, the provision to be made for the Curnums in the Teckaly Havaly, the Moraryspooram Mocassah, and the manufacture of Salt, and it is resolved that they be adopted and carried into execution accordingly.

The Board have much satisfaction in observing the favorable opinion expressed by the Special Commission relative to the exertions of the Collector, Mr. Cherry.
