The value of rice and paddy exported to Pondichery in 1876-77 amounted to about a lakh of Rupees, but in 1877-78 it increased fourfold owing to the concession granted by the Government of India in exempting rice from the duty leviable thereon for the space of one year, beginning from 19th January 1877.

Other Grains.—The important grains comprised under this head are gram, the different kinds of pulses and wheat. The exports of these articles of food have also fallen off for the same reason to which the decrease in the exports of paddy and rice is attributable; 1877-78 is however the first year in which grains* have been exported to the United Kingdom for many years past; the grains exported thereto are chiefly wheat and pulse. The several countries which received grains other than rice and paddy during the last three years are shown below :—

Indigo.—Of the several dye stuffs, indigo is the only one which is manufactured on a large scale in this Presidency. The cultivation of the indigo plant is not restricted to any one district, but is most extensively carried on in Cuddapah, South Arcot, Kistna, Nellore and Kurnool, these districts contributing 119,902 acres out of a total area of 133,282 acres cultivated in 1877-78. The countries to which the article was exported are given in the subjoined statement :—

The short export of this article is due to the very small yield during 1876-77 and 1877-78 owing to the failure of the rains. It is observed that exports to Egypt have considerably increased, while those to the United Kingdom and France are declining.

B

Seeds.—Under this head gingelly occupies the most prominent place; the other principal seeds are niger, rape and castor. During the year about twenty-five lakhs' worth of gingelly seeds were exported to foreign countries, France alone taking nearly the whole, viz., twenty-three lakhs. This was however less than the value in the preceding year by six lakhs. The total exports of niger and rape seeds amounted to about Rs. 4,00,000, and Rs. 1,80,000 respectively; nearly the whole of these goes to the United Kingdom. Bengal is the chief consumer of castor seeds. The value of castor disposed of last year amounted to about twelve lakhs, while the exports this year were only worth three lakhs. This heavy decline is caused by the failure of the crop. The principal countries to which seeds were exported during the years 1875-76, 1876-77, and 1877-78 are given below :—

Cotton, Raw.—This also is one of the most important articles of local produce. Its cultivation is most extensive in Bellary, Tinnevely, Kistna, Kurnool, Coimbatore, Madura and Cuddapah, and it is carried on in a smaller degree in some other districts also. During the last two years the want of rain has greatly retarded the cultivation of the plant, particularly in the districts of Bellary and Kurnool; the area under cultivation in 1876-77 and 1877-78 as compared with that of 1875-76 is shown below :—

Years.	Acres.
1875-76	1,588,951
1876-77	807,785
1877-78	819,364

Cotton is chiefly exported from the ports of Madras, Tuticorin, Cocanada, and sometimes from Masulipatam. It must be observed that the whole of the cotton sent out of this Presidency is not exported by sea, a portion finding its way to Bombay by rail. The quantity exported from Madras is obtained from the Ceded Districts and Coimbatore, that exported from Tuticorin is the produce of Tinnevely and Madura, while the quantity shipped from Cocanada is mainly the produce of Kistna and the Nizam's Territories.

The countries to which the article was exported during the last three years are given below :—

It was observed in last year's review that the effect of the disastrous season would become more conspicuous in the following year, and this proves to be the case. The total exports show a falling off of more than 79 per cent. compared with those of 1875-76.

The cause of the increase in the case of Ceylon is not known, but in the case of Bombay and Pondicherry it is probably due to the increased demand of the Cotton Mills established in those places.

Oils.—Cocoanut-oil forms the bulk of the exports under this head, and Cochin is the principal port of export. During the year Bombay took upwards of fourteen lakhs of gallons, the United Kingdom and Bengal a little more than three and a quarter and two and three quarter lakhs respectively, and British Burmah and Germany 1,06,000 and 83,000 gallons respectively. The remainder, about two lakhs of gallons, consists of animal, castor, gingelly and essential oils. Of these, animal oil was chiefly exported from Malabar ports and sent to the United Kingdom and France, castor and gingelly oils were chiefly exported from the ports of Cocanada and Masulipatam to British Burmah, and Bombay received a large supply of essential oils from South Canara.

The principal countries to which this commodity was exported for the last three years are as follow :—

There is a general decline in the exports of oils during the year, but the decline is much greater in the trade with foreign countries than in that with other Presidencies. It is observed that the exports to foreign countries have fallen off by 64·3 per cent. in quantity and 54·5 per cent. in value.

Under Quantities in the above statement yards refer to cloths and number to handkerchiefs; the decrease in the exports is due to the depressed condition of the weaving industry in consequence of the famine.

Sugar and other Saccharine matter.—The bulk of the exports under this head consists of jag-gery; the chief centres of trade in this commodity are the three northern districts, viz., Ganjam, Vizagapatam, and Godavari. The greater portion of the exports is taken by the United Kingdom, a small quantity going to Pondicherry and Ceylon. The quantities and values exported to the several countries are compared below for 1875-76, 1876-77, and 1877-78 :—

It will be seen that the quantities exported during the year were of the whole less than in 1876-77, but this decrease is counterbalanced by the rise in price in the London market.

Spices.—The principal kinds produced are pepper, ginger, betel-nuts cardamoms, and chillies. Pepper is largely exported to Bombay and France, from the marginal figures it will be observed that the pepper trade with Bombay is increasing while that with France is rapidly declining. The exports to almost every country have fallen off considerably owing to short crops during the year.

Coir, Yarn, and Rope.—Compared with the preceding year, the exports have slightly increased in quantity, but decreased in value, which is explained by the fact that during the year a far larger quantity of cheap cordage was exported than usual. Tobacco.—This plant is extensively cultivated in the district of Godavari, and the port of Canara is the principal seat of trade. During the year the exports exhibit a slight increase both in quantity and value, the result of a favorable crop. The leaf is also grown to some extent in South Canara and Malabar. More than three-fourths of the raw produce goes to British Burmah, where it is converted into cheroots; a portion is also taken by Mauritius and Bourbon for the consumption of the Indian immigrants there. Most of the remainder is manufactured into cigars and sent partly to Bengal and Bombay and partly to the United Kingdom.

The direction of trade during the last three years is shown below :—

Timber and Wood.—The trade under this head does not show any great decline; particulars of the exports are shown in the margin; they are principally from the ports of Malabar. The following are the countries engaged in trade in the years 1875-76, 1876-77, and 1877-78 :—

Animals, living.—Animals living are exported almost entirely from the districts of Madura and Tinnevely to Ceylon. The subjoined statement shows that there has been a falling off of about a lakh and-a-half of Rupees in the total value of animals exported this year; the decrease is due to less exports of sheep from Madura owing to the famine :—

Tea.—The extent of land under the cultivation of this valuable article of commerce was about 3,142 acres in 1876-77. This year the season is reported to have been favourable for the cultivation of the plant throughout the Nilgiri District, and the exports have consequently increased by about 56,000 lbs. in quantity and 26,000 Rs. in value over the exports of the preceding year. England is the

chief consumer and Madras is the principal place from which the shipments are made. A portion of the produce is also exported from the Malabar ports :—

The foreign countries which took the bulk of the re-exports during the year are the United Kingdom (Rs. 1,51,078), Ceylon (Rs. 1,93,800), and the Straits (1,61,938). Apparel, jewellery, books and hardware, are sent to the United Kingdom chiefly from the port of Madras; horses and cotton-goods to Ceylon, the former from Tinnevely and the latter from Fort St. George; and cotton piece-goods (colored) to the Straits from the port of Negapatam. Of the foreign ports in India, Pondicherry obtains a large supply of cotton twist and grey piece-goods from Madras, and spices (betel-nuts) from South Arcot and Tanjore, and Karical gets colored piece-goods from Tanjore.

Grain and Pulse.—The total value of food-grains alone imported during the year amounted to 763½ lakhs or nearly 60 per cent. of the total imported merchandise; compared with the preceding year, this shows an increase of a little more than 332½ lakhs of Rs. or more than 77 per cent. This result is due not only to the larger quantities imported, but also to the enhanced price of grain. Of the total quantities imported, rice shows an increase of 3,222,073 cwts.; paddy 1,012,382 cwts., and other grains 977,303 cwts., making in all an increase of 5,211,758 cwts. The bulk of the imports of food-grains were received at Madras. The countries from which the supply was mainly derived during the last three years are shown below :—

The total quantity of food-grains imported in 1877-78 amounted to cwt. 13,824,947; of this Bengal furnished cwt. 10,294,823 or nearly 75 per cent., and British Burmah cwt. 2,677,597 or about 20 per cent., or both together 95 per cent. of the whole supply. The several kinds* of grains included in the above statement under "Other Grains" are specified in the margin.

Cotton Piece-goods.—The imports have decreased by 14,895,007 yards in quantity and 29,30,672 Rs. in value compared with those of 1876-77, notwithstanding the fact that the production of manufactured goods in Manchester was very extensive and the manufacturers in order to get rid of their heavy stocks were obliged to sell their goods even at unremunerative prices. This is of course due to the effects of the famine.

The subjoined statement shows the quantities and values of cotton piece-goods received from the several countries during the years 1875-76, 1876-77 and 1877-78:—

Cotton Twist.—The imports of twist and yarn have also fallen off during the year by 2,236,259 lbs. in quantity and 14,87,856 Rs. in value. The decrease is almost equally distributed between the United Kingdom and Bombay. Of the total quantity received from Bombay more than 3/4ths were country-made, and the rest foreign.

The bulk of the imports from United Kingdom both of twist and cotton piece-goods is received at Madras, whilst Ceylon trades with the ports of Tinnevely, Tanjore and Madura.

The principal sources of the supply are exhibited in the following table:—

Metals.—The imports of all kinds of metals during the year amounted to cwts. 408,956 valued at Rs. 44,93,469, against cwts. 364,824 valued at Rs. 43,28,798 in 1876-77, showing an increase of cwts. 44,132 in quantity and Rs. 1,64,671 in value. The several classes* of metals brought into this country are noted in the margin. The supply of brass is chiefly from Bombay and Bengal and is mostly wrought. It is converted into utensils of different kinds for use in Hindu families. A very large quantity of copper is imported from the United Kingdom and Bombay; it comes in the shape of mixed or yellow metal for sheathing and sheets. The quantity obtained from Bengal is mostly unwrought. This metal is also converted into vessels and used in the same way as brass.

Iron occupies the first place amongst imported metals. As in the case of other metals, the United Kingdom is the chief source of supply. Nearly the whole of this metal arrives here in the manufactured condition. The value of imports during the year amounted to Rs. 15,40,435, against Rs. 4,60,392 in 1876-77. Bengal and Bombay also furnish us with a considerable quantity of this metal. Tin comes chiefly from the Straits Settlements and Bengal in the shape of blocks. Metals unenumerated to the value of Rs. 1,08,232 were imported during the year. The bulk consisted of gold leaves imported chiefly into the district of Ganjam from Bengal and Bombay to the value of Rs. 73,119. The remaining metals are not of much importance and do not call for separate notice.

The following statement compares the quantity and value of all metals imported from the several countries during the last three years:—

Railway Materials.—The value of the importations of Railway materials shows on the whole a decrease of Rs. 1,13,501. The figures under "Materials for Construction" however show an increase of nearly 5 lakhs of Rs. the value of imports under this head during the year amounting to Rs. 18,03,578 against Rs. 13,36,467 in the preceding year. The increase is probably due to the laying of a second line of rails between Madras and Arkonum. The large imports in this case are more than counterbalanced by the smaller imports under the heads of "Carriages and Trucks," "Locomotive Engines and Tenders" and "Wooden sleepers." The falling off here is no doubt due to the completion of the

South India Railway. The supply is entirely drawn from the United Kingdom, the chief recipients being Madras, Tanjore and Malabar.

Apparel.—There is a falling off in the value of apparel imported during the year of about a lakh of Rupees. The greater portion of the imports comes from France and the United Kingdom. The imports from France show a gradual increase while those from the United Kingdom are declining as will be seen from the following figures for the last six years :—

Years.	France.	United Kingdom.
1872-73	362,865	978,418
1873-74	429,694	808,489

1876-77	712,180	690,463
1877-78	734,965	591,453

Apparel is imported almost wholly for the use of the European residents in this Province.

The following table compares the value of apparel imported from the several countries during the years 1875-76, 1876-77 and 1877-78 :—

Timber and Wood.—The imports of wood amounted during the year to Rs. 14,93,575 against Rs. 17,21,911. Almost the whole of the decrease occurs in the supply from British Burmah, owing to the vessels usually engaged in the timber trade being attracted by the grain traffic in the year under notice.

A large portion of the imports consists of Teak, which is obtained chiefly from British Burmah, the supply therefrom amounting during the year to Rs. 10,28,520 or $\frac{2}{3}$ of the total imports. Most of the remainder is the value of timber other than Teak and of manufactured wood. The former was obtained from Ceylon and Travancore to the value of Rs. 1,64,495 and the latter from Bombay and Ceylon (Rs. 2,01,111).

Liquors.—The three main divisions under this head are Ale, Beer and Porter, Spirits and Wines. Last year's imports under each of these heads were smaller than those of 1875-76. It was thought that the enhancement of duty in August 1875 might have tended to that result; this year however there has been an increase both in quantity and value under all heads, which appears due to the limited supply in the preceding year.

The following statement shows the countries whence spirits were imported during the last three years :—

During the year under report the value of brandy imported from the United Kingdom was Rs. 6,71,001, that of rum Rs. 24,058 and that of "other sorts" Rs. 2,94,602. The supply from France consists chiefly of brandy, its value during the year amounting to Rs. 1,28,698. The bulk of imports from Bombay also consists of brandy.

Of the total value of wines 81 per cent. was credited to the United Kingdom, nearly 10 per cent. to France, 5 per cent. to Pondicherry, and the balance to other countries. The value of the different wines imported from the United Kingdom during the year was as follow :—

Champagne	1,41,489
Claret	1,19,902
Sherry	1,05,915
Port	80,772

It may be noted here that a small quantity of long staple cotton (4,740 lbs.) was imported into Madras for the first time from Egypt during 1877-78. This was probably intended for the manufacture of the finer sort of yarns.

Treasure.—The total movements of treasure exclusive of transactions between British Ports within the Presidency amounted during the year to Rs. 45,88,135 under Imports and to Rs. 62,85,218 under Exports. The whole of the imports under Foreign Countries was from the United Kingdom* and Ceylon.† The principal articles obtained from the United Kingdom

a very large increase in the importation of arms and woollen piece-goods during the year, the value amounting to 12 lakhs and 6 lakhs of Rupees, respectively, against Rupees 1½ lakhs and 3 lakhs in the preceding year. The quantity† of arrack imported from Ceylon was also larger in 1877-78 than in 1876-77. The fluctuations in the other articles are not very marked, and call for no remark.

The imports of stores from British Ports in other Presidencies have decreased by nearly 4½ lakhs, while the exports thither have increased by 2½ lakhs. The whole of the decrease appears in salt, which amounted in value to Rs. 30,000 only against Rs. 4,63,000 in 1876-77, no contract for the supply of the West Coast Districts from Bombay having been entered into for Fasli 1287, the provision being left to private trade. There was also a considerable decrease in the imports of agricultural implements from Calcutta, the value amounting to a little less than 10,000 Rs., whereas in 1876-77 it was 1½ lakhs.

The only articles in which there is any noticeable increase is arms, the value of which during the year amounted to Rs. 2,80,762 against Rs. 26,405 in the year before. Under Exports there was an increase of 2½ lakhs; it appears chiefly in the exports of arms to British Burmah.

The transactions of Government with Ports other than British in India are not of much consequence, their value amounting in all to Rs. 1,628 against Rs. 730 in 1876-77.

As regards movement of stores from one British Port to another in this Presidency, there is an increase both in imports and exports to the extent of 1½ lakhs and 4½ lakhs, respectively. The increase in the former is due to the large quantity of salt, valued at a little more than 2 lakhs of Rupees, sent to the districts of Ganjam and Vizagapatam to supplement the stocks there. The increase in exports does not call for remark, as it is due to the same causes as those given for imports.

Customs Revenue.—The total Customs revenue of the year was, inclusive of refunds and drawbacks, Rs. 21,18,007, and exclusive of them Rs. 20,33,764. The amounts realized under the head of Imports and Exports, both gross and nett, during the last five years were as follow :—

The decrease of revenue under Exports is due to diminished exports of grain, and that under

Imports is owing to the limited quantities of cotton goods imported. The effect of the recent reductions† of duty on cotton goods, &c., cannot be seen till next year.

The subjoined statement shows the several articles on which duty was realized in the years 1875-76, 1876-77, and 1877-78 :—

The articles which contribute most largely to the revenue in imports are spirits and wines, cotton goods, salt, metals, and apparel. The duty levied on these during the year amounted to nearly 16 lakhs, being 85 per cent. of the total imports.

The share of each district in the gross amount of Customs collections is exhibited in the following abstract for the last three years :—

Shipping.—The total number and tonnage of the vessels which entered and cleared from and to foreign countries at all the ports in the Presidency of Madras during the last five years are as follow :—

Years.	Number.	Tons.
1873-74	7,622	1,118,699
1874-75	7,396	1,218,402
1875-76	6,866	1,208,745
1876-77	7,244	1,218,965
1877-78	6,710	1,113,501

The above statement exhibits a large decrease this year both in the number and the tonnage of the vessels engaged in the foreign trade. This is the result of a considerable decline in the external trade of the country, particularly in exports.

The number and tonnage of the vessels entered and cleared with cargoes and in ballast are distinguished in the subjoined statement :—

In 1876-77 and 1877-78 the number of vessels cleared without cargoes is larger than in any of the three preceding years. This is due to there being less cargo in the Presidency available for export

owing to the famine. The nationalities of the vessels employed in the foreign trade for the last two years are shown below :—

Coasting Shipping.—The following statement shows the entries and the clearances of vessels at all ports in this Presidency from and to British Ports in other Presidencies and Foreign Ports in India:—

Years.	Vessels.	Number.	Tons.
1873-74	Sailing	9,277	565,490
	Steam	1,299	1,308,982
1874-75	Sailing	9,005	557,601
	Steam	1,595	1,926,613
1875-76	Sailing	8,893	547,440
	Steam	2,015	2,549,795
1876-77	Sailing	10,134	784,427
	Steam	2,228	2,618,163
1877-78	Sailing	9,628	751,865
	Steam	2,754	3,006,013

Compared with the preceding year there was an increase of 20 in the number of vessels and of 355,288 in the tonnage. The increase in tonnage is out of proportion to the increase in vessels; the explanation of this lies in the fact that during the year the traffic by steam vessels increased considerably, the number of steamers that arrived at and left the Madras Ports in 1877-78 being 2,754 against 2,228 in 1876-77.

The following statement shows the entries and clearances of vessels with cargoes and in ballast for the last five years:—
