REVIEW

OF THE

ACCOUNTS OF TRADE AND NAVIGATION

OF THE

MADRAS PRESIDENCY,

FOR

1879-80.

The total value of the sea-borne trade of the Madras Presidency in the official year 1879-80 excluding transactions on account of Government amounted to Rs. 18,86,19,813 against Rs. 18,91,98,950 in the previous year, showing a decrease of 5½ lakhs :—

 † 1878-79 ... 9,06,92,291
 1879-80 ... 7,82,38,688

2. The trade* with foreign countries has increased to the extent of 118½ lakhs while the coasting trade† decreased by 124½ lakhs, the decrease chiefly occurring in the trade with other Presidencies.

3. The percentage of the external and internal trade compare as follows with that of the preceding two years :—

		PERCENTAGE.		
		1877-78.	1878-79.	1879-80.
External Trade...	{ With Foreign Countries ...	33.7	52.1	58.5
	{ With Foreign Ports in India ...	1.3	1.6	1.4
	{ With British Ports in other Presidencies ...	40.6	30.6	26.
Internal Trade ...	{ With British Ports within the Presidency ...	24.4	15.7	14.1
	Total...	100	100	100

4. *External Trade.*—The increase of 150½ lakhs under exports in the external trade is nearly counterbalanced by a deficit of 125½ lakhs under imports. Foreign trade shows an improvement under both heads. The imports from other Presidencies and Foreign Ports in India have fallen considerably owing to the improvements in the state of the country; the exports to the former increased largely whilst those to the latter fell slightly. The rise in the exports and fall in the imports occur chiefly in staple articles produced in the Presidency.

7. *Coffee.*—This article shows a decrease of Rs. 3 00,000 as compared with 1878-79, but the value of the trade is nevertheless in excess of the average of the preceding five years by 5 lakhs. The decrease is attributed to the failure of the crop on the slopes of the Western Ghāts in Tinnevely and to diminished importation from Ceylon for transshipment. While the direct exports to Foreign countries rose, the trade with Bombay, chiefly for transshipment, decreased considerably.

9. As usual the largest exports were to the United Kingdom. The trade with France has decreased 12½ per cent., probably owing to the heavy duty imposed by the French Government on this article in 1870, while Spain received for the first time 9,900 cwts. worth 3,96,000 rupees.

10. *Cotton.*—With the return of a good season in 1878-79 the exports of cotton began to revive owing to a greater breadth of cultivation and a better yield. The export of cotton in 1879-80 amounted to 132 lakhs, or 33 lakhs more than in the previous year, but it is still much below the figure for 1875-76.

12. The principal ports from which cotton was exported were Madras, Tuticorin, and Cocanada. The exports to almost all countries show a considerable increase. The United Kingdom alone took 55 per cent. of the whole, France, Italy, and Austria 25 per cent. amongst them, and Bombay 13 per cent. The trade with Holland ceased, but the loss was more than compensated for by Germany taking 10,446 cwts. worth Rs. 2,87,700.

14. Madras is chiefly concerned in the exportation of dressed hides and skins. Excepting in the two famine years of 1876-77 and 1877-78, when there was a sudden impetus caused by the abnormal mortality amongst cattle, the trade has been progressing steadily for the past twenty-five* years; the effect on the trade of the abolition of the export duty in 1875 is apparent in the figures.

15. The increase in the current year is due to the fact that the merchants owing to the prevalence of low prices in 1878-79, were not able to dispose of all their stock. Hence a portion was reserved for exportation in the next year. The traffic with the United Kingdom fell off to the

extent of 11 lakhs of rupees owing to the dulness of the market, but a brisk trade sprang up with the United States which more than covered the deficiency :—

18. The large increase in the exports to Ceylon is due not only to the favorable outturn of the crop during the year, but also to the failure of the usual supply to that country from British Burmah. The trade with the United Kingdom and other countries has also revived. The increase in the exports to Bombay is partly owing to the apprehension of a scarcity there during the latter part of 1879 and partly for transshipment to Arabia and Persia, the ports of South Canara not having been visited by vessels from the coasts of those countries as usual. A large quantity of rice was also sent to Bombay by rail.

22. Indigo.—The marginal statement shows the quantity and value of indigo exported from this Presidency. It will be observed that there was a large increase in the year under report, the exports being greater than in any previous year from 1855-56* except in 1871, in which year they rose to Rs. 1,20,82,000. This increase was due to the great demand for the article in Europe and in Bengal, where there was a partial failure of the crop.

23. The countries which received this article are given in the subjoined statement :—

24. A large increase is observable in all the countries except Persia. Almost the whole quantity was exported from Madras.

25. Seeds.—The year under report was one of remarkable activity in the trade in seeds, favored chiefly by a good outturn of the crops, especially in the Northern Districts. Large supplies of gingelly seed were also brought in from the Central Provinces by the Brinjaries for exportation. The exports from the Southern Districts was comparatively small.

34. Spices are exported chiefly from Malabar and to some extent from South Canara. The exports from Tinnevely consist chiefly of chillies to Ceylon* and cardamoms to Bombay; † For St. George, Tanjore, and Madura also contribute in a small degree.

35. The subjoined table shows the transactions in spices with the several countries:—

36. There is a decrease in the value of trade with Foreign Countries in these articles owing to the want of shipping in the district of Malabar, but the falling off is counter-balanced by an increase in the trade with Indian Ports. The exports to the United Kingdom and to the United States consist mostly of ginger and cardamoms; France takes pepper; Ceylon other sorts, including chillies; and Cutch betel-nut and other sorts, whilst Bombay takes all sorts; and Bengal pepper, cardamoms, and betel-nuts:—

37. *Cotton Piece-goods.*—Colored piece-goods and handkerchiefs constitute the bulk of the exports under this head. These goods are mostly exported from Tinnevely, Tanjore, Fort St. George, and Madura. The trade is declining as shown in the margin* and prices have fallen considerably owing to the decadence of the weaving industry and the competition of Manchester goods.

38. The subjoined statement shows the trade with the several countries. Nearly all the cloths which are woven in hand looms are exported to Ceylon, Straits Settlements, and British Burmah for the use of the Indian Emigrants :—

39. The decrease is observable in the traffic with almost all countries; the increase in that with Bombay is due to the carriage of the goods coastwise from ports in Malabar for transshipment to Foreign Countries in lieu of direct exportation.

40. *Sugar.*—The demand for Indian sugar does not depend entirely upon the outturn of the sugar-cane crop in this country, but is affected by the adequacy or otherwise of the supply from the West Indies and Mauritius whence sugar of superior quality is generally exported to the English markets. Compared with the previous year there is an increase of about five lakhs of rupees under this head, but the value is far below that of the exports of 1876-77 and 1877-78, owing to the failure of the cane crop in certain districts. Of the total quantity exported, 20,420 cwts., worth Rs. 3,74,757, were refined and the rest unrefined. The exportation of refined sugar was mostly directed to Indian Ports, as European prices were not favorable.

41. The subjoined statement shows the principal countries concerned in the trade in this commodity :—

42. The whole of the exports to the United Kingdom was in the form of jaggery. Large quantities of unrefined sugar were exported to Pondicherry and Cutch from Tinnevely and Malabar respectively. A considerable quantity of refined sugar was also exported to Scinde, Bombay, and Calcutta, mostly for the use of the British Troops engaged in Afghanistan.

43. *Cocoanuts.*—The exports of cocoanuts show a steady increase during the last few years. Prices, however, have fluctuated considerably, and in the year under review there was a fall of Rs. 11-4-0 per 1,000, owing to the abundance of the crop in Malabar which supplied the bulk of the exports. Bombay and Cutch are the chief customers as shown below :—

44. *Coir-yarn and Rope.*—There was a large decrease in the export of coir, notwithstanding the great increase in the production of cocoanuts during the year. It is reported that the exports to Bombay this year took the form of cordage spun from coir-yarn.

45. The direction of the traffic in this article is shown below :—

46. The decrease under "Foreign Ports" is attributed to a falling off in the number of Arabian ships which visited the Malabar Ports.

47. *Timber and Wood.*—The trade in timber and wood, and in the manufactures thereof, shows a decline, but not to any material extent as will be observed from the marginal figures. Particulars of the articles comprised under this head are compared below :—

49. The decrease in the trade with Foreign Countries is ascribed to diminished demand on the part of the Arab merchants; in respect of "Foreign Ports in India" it is due to a decrease in the number of vessels arriving from the State of Cutch. There was, however, an increase in the exports to Bombay and Kurrachee on account of sapplings required for the Railway to Sibi in course of construction.

50. *Tobacco.*—The trade* in tobacco shows a tendency to expand, and, if proper attention were given to the cultivation and the curing of the raw produce, it would eventually become a prominent article of export. The reason of the marked fluctuations in prices is not apparent.

51. The destination of the article is shown below :—

52. There is an increase in quantity in the exports to the other Presidencies as well as those to Foreign Countries. Nearly the whole of the former and more than one half of the latter were drawn from the Godavari District where excellent tobacco is produced on the islands of the river. The other half of the exports to Foreign Countries was supplied for the most part by Tanjore, Fort St. George, and Tinnevely.

53. *Animals, Living.*—The trade in living animals is ordinarily subject to great fluctuation, and in the year under review shows a decline of Rs. 3,13,495. The exports consist of horses, bullocks, cows, sheep and goats sent chiefly from the districts of Madura and Tinnevely and to some extent from Tanjore to Ceylon. The decrease is explained as being due to the diversion of the trade to Bombay.

54. The subjoined statement shows the transactions with the several countries :—

55. The exports to the Straits Settlements have materially increased.

56. *All other Articles.*—The only articles requiring special notice under this head are oil-cakes, Peruvian bark, tea, myrabolams and ghee.

57. *Oil-cake.*—This article is largely exported to Ceylon for the purpose of manuring the coffee plantations and for feeding cattle. The figures for the year under report show a decrease of 9,295 cwts. in quantity and 1,91,271 rupees in value. The decrease is partially owing to the depression of trade there.

58. The exports for the last five years are as shown below :—

59. *Peruvian Bark.*—The exports of Peruvian bark produced on the Nilgiris amounted to Rs. 4,36,775 and show a considerable increase over the preceding four years. The whole quantity was sent to the United Kingdom from Fort St. George and Malabar.

60. *Tea.*—The trade in this article has of late been assuming greater importance and the exports show steady progress during the last five years; they are mostly to the United Kingdom as will be seen from the statement appended :—

61. *Myrabolams*.—The export of this article used for dyeing purposes shows a considerable decrease compared with the previous years, the falling off being attributed to the injury done to the trees in Vizagapatam and Godavari by the cyclone of 1877-78, the disturbances in Rumpā which impeded the collection of the produce and the fact that the quality of the article obtained in certain parts, does not find favor in European markets. The export were chiefly to the United Kingdom:—

62. *Provisions—Ghee*.—The export of this article shows an extraordinary increase over the preceding year, the value amounting to Rs. 20,32,735 against Rs. 1,78,646. The exports were mostly to Calcutta, the North-Western Provinces, and the surrounding districts which usually supply Calcutta with ghee having been drained by the demand for the supply of the troops in the North-West. Madras was largely indented on to supply the deficiency. The large exports to Burmah and Bombay were also unusual.

63. *Re-exports*.—The re-export of Foreign merchandise ranging only between 1 and 2 per cent. of the total imports are not of any great importance in the Madras Presidency and have been steadily diminishing since 1874-75.

64. The following statement compares the re-exports to the principal countries in 1878-79 and 1879-80:—

65. The re-exports to the United Kingdom and Indian Ports were mainly from Fort St. George, while those to Ceylon and Straits Settlements were chiefly from Tanjore and South Canara. The articles re-exported consisted almost exclusively of cotton manufactures, salted fish, animals living, and apparel as shown in the margin, the first to Pondicherry, Bengal and Ceylon, the second and the third to Ceylon, and the last to the United Kingdom. The re-exports of colored piece-goods to the Straits fell off by two lakhs. No reason is assigned for this.

66. *Imports*.—It has already been remarked that there was a net decrease in the value of imports in merchandise and treasure amounting to 125 lakhs of rupees. It is the result of a gross decrease in the merchandise of 135 lakhs and a gross increase of 9½ lakhs in treasure.

67. The very large decrease in the imports from other Presidencies (chiefly due to less imports of grain from Bengal) is, to a certain extent, compensated for by increase in imports from Foreign countries.

68. The principal articles of imports are noted below. It should here be observed that the revision of the tariff valuation, which was generally towards a reduction of the original valuation, did not materially affect the value of the imports from Foreign countries as the reduction was made good by an increase of quantity:—

69. *Cotton, Twist, and Piece-goods*.—The year 1878-79 (the first after the famine and when its effects were strongly felt in almost every branch of trade) was one of great depression in this as in almost every other class of imports. In 1879-80, however, there was a revival of trade after a fairly good season and stocks were found everywhere deficient. The demand began to improve to such an extent that it outstripped the supply. The quantity imported was even greater than in 1875-76 though, owing to reduction in the tariff valuations, the value is less.

70. *Twist*.—In twist the increase is ascribed to increased imports of Turkey red yarn and larger imports of the lower numbers which are free of duty, while the increase in piece-goods is chiefly in coarser qualities, the importation of which has been stimulated by the exemption of duty.

71. The subjoined statements show the countries which supplied cotton piece-goods and twist :—

72. The machine-made twist and piece-goods being fine and at the same time cheap, find favor with the people generally and this coupled with the poverty of the weavers in India has tended to a great decline of the local manufactures. The large decrease in the imports from Ceylon seems to be due to the above cause.

73. The different classes of piece-goods compare as follows :—

74. Grey piece-goods, which are mostly used by Natives form the bulk of the imports. Mr. Crole, Collector of Sea Customs, Madras, says, "I am free to confess that I have grave doubts as to both the expediency and the benefit of the measure (exemption from import duty) alluded to. Certain it is that it saddles the Custom House with much additional work, is inquisitorial in working, and owing to the damage to goods, as well as the loss of time, I am extremely sceptical whether the trade if polled would not be in favor of the reimposition of a duty which the finances of the country can ill-afford to lose. It must also be observed that after all the increase in twist and piece-goods in the one case fails to bring the imports up to the standard of the last normal year, while in the other it has caused it to be only slightly exceeded."

75. *Grain and Pulse.*—The value of the imports, is the highest on record, excepting the famine years of 1876-77 to 1877-78, and 1878-79. The increase seems to be due to extensive exports to Bombay where scarcity was apprehended during the latter part of the year, and consequent deficiency in stock required for local consumption.

77. The decrease as compared with the previous year is observable in all countries except in the Straits Settlements, Scinde, and Foreign Ports in India. The increase in the imports from Penang is due to certain exports from Burmah last year having been detained there by stress of weather and brought in this year; while that from Foreign Ports is attributable to a consignment of rice from Bengal having been *en route* landed at Pondicherry on account of an accident.

78. The other grains referred to in the above statement compare as follows :—

79. *Metals.*—Among the imports of dutiable goods metals come next to cotton twist and piece-goods. The total imports show an increase of about one lakh in quantity and four lakhs in value over the figures for 1878-79, which is due to the revival of trade. The two most important items under this head are iron and copper.

80. The annexed statement exhibits the countries which supplied metals:—

81. The trade with Foreign countries was confined chiefly to the United Kingdom where alone the increase occurs. Madras is the chief place of importation. The decrease in the imports from other Foreign countries and from Bombay and Bengal is due to the fact of large stocks remaining in the several places which respectively trade with them.

82. *Liquors.*—The three main divisions under this head are (1) ale, beer, and porter; (2) spirits; and (3) wines.

Years.	Gallons.	Value. RS.	83. <i>Spirits.</i> —In spirits the trade this year compares favorably both in quantity and in value with the preceding years; in 1877-78 the imports were abnormally high owing to limited supply in 1876-77.

1879-80	100,903	10,93,399	

84. The increase is in a great measure owing to the increased demand for cheap spirits which are coming more into use among the Natives. The present high rate of duty has not checked the imports.

85. The following statement compares the supply in 1878-79 with that of 1879-80 from the several countries:—

From the United Kingdom.			86. As usual the different kinds of spirits were largely imported from the United Kingdom. The whole of the imports from France and British Burmah consisted of brandy. Bombay supplied 3,000 gallons of brandy valued at Rs. 34,224, and Pondicherry 1,505 gallons worth Rs. 20,005.

87. *Wines and Liqueurs.*—Next to spirits come wines. The imports of wines show a considerable decrease in quantity compared with the preceding four years notwithstanding the reduction of duty on still-wines other than clarets to the rate imposed on clarets, viz., 1 rupee a gallon. The decrease is probably due to the growing use of spirits, whisky having taken the place of beer and higher wines to a great extent.

88. The following statement shows the quantity and value of wines imported from the several countries:—

90. The imports from France consisted chiefly of claret and other sorts, and those from Spain of sherry.

91. *Ale, Beer, and Porter.*—The value of imports of malt liquors on which only a very small duty is levied amounted to Rs. 3,27,079 against 4,26,352 in 1878-79. Beer is not consumed by the Natives of the country, and the quantity imported is used almost solely by the European and Eurasian population. The decrease in this item is due partly to the withdrawal of troops from this Presidency on account of the Afghan war and partly to the fact that beer is falling into disfavor with Anglo-Indians as a beverage.

93. *Apparel.*—The trade in this article, imported chiefly for the use of the European residents, amounted to Rs. 16,77,654 against Rs. 16,08,726 in the preceding year. Madras imported a very large quantity worth Rs. 14,30,492 chiefly from France and the United Kingdom; while Bombay supplied the greater part of the remainder to the Western Ports, especially to Calicut, for eventual conveyance by Railway to the Nilgiris, Bangalore and other places. France has been steadily increasing its supply during the four preceding years; but a reaction is observed in the year under review. On the other hand the imports from the United Kingdom has been steadily decreasing. Bombay has this year contributed largely, but of the total imports Rs. 2,86,181 are of Foreign manufacture.

94. *Timber and Wood.*—The trade in this article is subject to considerable fluctuations, and the year under review shows a large decrease, the value having fallen from Rs. 16,66,146 to Rs. 10,40,879.

97. The following statement compares the transactions of the several countries during the past two years:—

98. *Railway Materials, Imports.*—This cannot be said to be a normal article of trade. For the last few years during which Railways have been under construction large quantities of materials have been imported; but as these Railways approached completion, the imports fell off and future supplies, unless new lines are opened, must consist chiefly of materials required for upkeep of the permanent-way and rolling-stock.

103. There is a considerable decrease in the exports to Calcutta and Rangoon owing to the stoppage of the imports of grain from those places after the cessation of distress. The increase in the remittances to Ceylon seems to be due to the ordinary fluctuations of trade. The export of gold to the United Kingdom entirely ceased.

104. *Treasure Imports.*—The import of treasure from places beyond the Presidency amounted to Rs. 47,66,362. The countries which supplied it are exhibited in the following statement :—

107. The bulk of the exports went to the United Kingdom, Ceylon, Bombay, France, and Bengal,* which together took 84·4 per cent. of the whole. Of the imports from Foreign Countries the United Kingdom and Ceylon† contribute 50 per cent. The imports from other Presidencies were—Bombay 18·1 per cent., Bengal 15·5 per cent., and British Burma 7·1 per cent. The exports to Foreign Countries generally show an increase. There were no exports to Holland during the year. The decrease in the export trade to Asiatic Countries bordering on the Persian Gulf and the Arabian Seas is, as has already been noticed in several portions of the report, owing to fewer Arabian vessels having visited the Western Ports. The exports to other Presidencies have improved, but those to Foreign Ports in India declined. Under imports the trade with the United Kingdom, Italy, Egypt, Mauritius, Bourbon, United States, traits Settlements, China, Arabia, Victoria, New South Wales, Cutch, and Pondicherry has increased. As regards commodities, the trade in the exports of cotton, raw hides and skins, rice, grains other than rice and paddy, indigo, seeds, oils, spices, sugar, cocoanuts, Peruvian bark, tea, and tobacco exhibit an increase, while the exports of coffee, paddy, cotton piece-goods, coir, yarn and rope, timber and wood, animals living, oil-cakes, and myrabolams show a decrease. In imports there is a decrease in every article excepting cotton piece-goods, metals, spirits, apparel, drugs and medicines, spices, silk, stationery, and woollen manufactures.

109. The trade in grain was very active during the famine years of 1876-77 and 1877-78; hence the high figures

in those years as compared with the previous year. The value of trade fell off by 22 lakhs. The exports and imports of merchandise in 1878-79 and 1879-80 are compared in the subjoined statement :—

110. The decrease is equally distributed between the exports and imports. It occurs chiefly in grain and pulse, coffee, seeds, oils, and piece-goods. The decrease in coffee is due to direct exportation to Europe from Mangalore instead of a portion being sent to Calicut as was the case last year. Cotton twist and yarn, on the other hand, shows a large increase owing to larger imports of Madras manufactured twist in the northern districts.

113. The extension of the South Indian Railway and the opening of the Buckingham Canal have reduced the interportal trade. Articles imported from Ceylon are now chiefly landed at Tuticorin and distributed by railway to the adjacent districts, carriage by canal or by railway being both safer and more convenient than carriage by sea.

114. *Customs Revenue.*—The total gross Customs Revenue of the year 1879-80 amounted to—

Duty on Exports	...	Rs. 7,07,177
„ on Imports	...	„ 16,19,592

Excluding Refunds and Drawbacks to the amount of Rs. 20,209, the net revenue was Rs. 23,06,560, of which Rs. 7,04,522 appertain to exports and the remainder, Rs. 16,02,038, to imports.

115. The following statement gives the gross and the net duty realised on exports and imports for the last five years :—

118. The import collections show a decrease of Rs. 3,27,330, including salt, but only Rs. 55,253 exclusive of it. This is the net result of a large decrease under wines, cotton piece-goods, &c., and of an increase in spices, spirits, cotton twist, metals, and other articles. The import trade with foreign countries has generally expanded, but the reductions in the tariff valuation affected the receipts considerably. The exemption from duty of the coarser cloths told upon the revenue derived from cotton goods, but cotton twist and metals show an increase owing to the quantity imported having been very large. The increase under spices is not only due to larger importations, but also to a higher rate of tariff valuation on some of them. The effect of the abolition of four-fifths of the duty on Swedish round iron of all sizes and Swedish iron sheets and plates in March 1880 will be seen next year. The very large decrease in the collections under salt is due to diminished imports on account of extensive sales on the West Coast of reserve stocks of Government salt.

119. The share contributed by each district to the Customs duties collected on exports and imports is as follows:—

120. Three-fourths of the revenue on imports is collected at Madras. Tanjore, whence large quantities of grain were exported to Ceylon and other places, contributed more than half the collections under Exports.

121. Government Stores.—The transactions on account of Government exhibit a decrease of 23 lakhs of rupees

compared with those of the previous years, the total value amounting to Rs. 144,76,273 against Rs. 167,71,921 as shown below. The decrease chiefly occurs in the exports of treasure to other Presidencies:—

122. Imports from Foreign Countries.—The value of the stores imported from foreign countries has increased by nearly 12 lakhs while the exports thereto show but a slight improvement. Except Colombo Arrack imported from Ceylon for consumption within the Town of Madras, the transactions are mainly with England.

123. Imports of Stores from Foreign Countries.—The subjoined statement compares the imports of the principal articles for the last two years:—

Articles.	1878-79. RS.	1879-80. RS.

124. Cement, Drugs, Ale, Beer and Porter, and Stationery seem to have been largely imported, the first probably for the Madras Harbour Works now in active progress. The imports of Arrack from Ceylon have of late been on the decline.

125. The imports of stores from British Ports in other Presidencies have fallen by about three lakhs, but the exports increased by a little more than five lakhs.

126. The following statement shows the principal stores imported from other Presidencies:—

128. The exports to other Presidencies were mostly to British Burmah and comprised the articles noted in the margin. The exports to Bengal consisted chiefly of Military uniforms, valued at Rs. 28,968, scientific instruments of the value of Rs. 17,881, hardware and cutlery worth Rs. 9,449, and telegraph materials worth Rs. 6,616.

129. The exports of treasure diminished by 58½ lakhs as detailed in the margin.

130. The Government transactions with foreign ports in India were inconsiderable.

131. The transactions in stores between the ports in this Presidency show a great fall, but in treasure there is a very large advance.

132. The following two statements compare the variation in imports and exports for the two years :—

133. The decrease is chiefly owing to the absence of transactions in salt which was largely sent in 1878-79 from the Tanjore and Kistna districts to supplement the short stocks in Vizagapatam.

134. *Land-Customs.*—In the year under report the Pondicherry—Villupuram Railway was opened for traffic, the same having been declared by notification of the Madras Government, dated 10th December 1879, to be a route by which goods may be allowed to pass into or out of French Territory, under Regulation VI of 1844. The Company having undertaken the collection of the Customs duties, the stations on that line, five in number, three in British territory and two within the limits of the French Settlement, have been declared Customs Chowkies, and the Station Masters at those places to be officers authorized to collect the duty. Experienced Customs Officials have been temporarily lent to the Company to make the necessary arrangements, and to put the Railway Officers in the way of discharging their duties as Customs Officers. Rules have also been framed for their guidance so as to prevent fraud on the revenue and to cause the least possible inconvenience to passengers.

135. The sanction for the additional establishment entertained in the district of Godavari in connection with the registration of traffic in free goods crossing the Yanam Frontier, having been withheld, this traffic ceased to be dutiable goods in respect of that settlement. With a view to prevent more effectually, than under existing arrangements, smuggling of spirits and wines into British territory, it was proposed to open at Karikal, under the superintendence of the British Consular Agent at that place, a Land Custom Office similar to that already existing at Pondicherry, and a small establishment costing Rs. 22 a month was temporarily and experimentally sanctioned for six months (extended subsequently to another six months). The result of the experiment will be adverted to in the report for 1880-81. The following statements show the registered traffic across the French Frontier and that carried on

between the district of Tinnevely and Travancore territory. Statements showing the latter are furnished to the Board as stated in the last report by the Travancore Sircar.
