

Report of the Committee
on Local Self Government
in Madras 1882.

1883.

Committees will, unless controlled, be in the direction feared by the Committee. Municipal Schools will be established to the detriment of private agencies, and tax-payers will virtually be compelled to send their children to Municipal Schools although they may object to the instruction imparted, whilst all encouragement to private effort will in many cases cease. In other words Municipal Commissioners will, so far as the law goes, be at liberty to deal with education in a manner diametrically opposed to the policy of the State, the first principles of which are the liberty of the tax-payer to educate his children as he will, and for each person seeking to provide such education to receive aid in so doing subject to such conditions and restrictions as the Government may see fit from time to time to prescribe. So decisive is the danger of impediment arising that I understand the Provincial Committee of the Education Commission have unanimously recommended that no further responsibilities in regard to education shall be transferred to Municipal bodies; and in this recommendation I should be inclined to concur if I did not believe that the danger can be averted by the insertion of a protecting provision in the law. The provision that aid shall be given according to the Rules (the Grant-in-Aid Code) promulgated by Government does not afford sufficient protection, for the danger to be feared exists at an early stage, *i.e.*, before the demand for help is made. It is true a clause might be inserted in the Code similar to that proposed for the Act itself; but as the matter is one of principle, it should, I conceive, find a place in the Act, whilst it is certain that it would be to a great extent inoperative if relegated to Rules framed under the Act.

Second.—In Committee I proposed, in view of the financial exigencies of Boards, that the revised Local Funds Act should contain a permissive clause empowering Taluk Boards, with the approval of the District Board and the consent of Government, to raise the land-cess by an amount not exceeding 50 per cent. of the rate now leviable by law. This proposal was lost by the casting vote of the Chairman. It is, in my opinion, hopeless to expect Local Boards to keep pace with the demand for improved communications, for hospitals, and for schools if the funds at their disposal cannot be enhanced beyond the maximum revenue obtainable under the present Act. On the other hand I believe that inquiry will show that the present incidence of the land-cess is practically unequal in its distribution, and that the expenditure is also unequally distributed. The cess, I maintain, does not fall equally on all land-holders and ryots, because it takes no account of the total income of the tax-payer from his land. The anna in the rupee may be a light tax on the man whose cist is Rs. 100, whilst it presses heavily on him who pays Rs. 10 only. Again, the existence of communications and other facilities for trade materially affect the value of landed property in a particular part of a district, whilst the land revenue remains constant.

On the other hand, it is the richer parts of a district which will generally be found to correspond pretty closely with taluk limits which receive a disproportionate share of the expenditure of local monies, partly because their needs are kept prominently before the eyes of the District officials, and partly because from such taluks frequently come the most representative members of the Boards. These rich and more advanced taluks have therefore a double benefit. They are, speaking generally, more lightly taxed as compared with the poorer taluks, whilst they get more than their fair share of the public revenues. To equalise matters and to enable progressive Taluk Boards to progress, I made the above proposal, having also a hope that with the advance of local independence and self-help might come a spontaneous desire amongst the leading men of the rural communities to make sacrifices commensurate with the objects in view. The arrangements proposed by the Committee for taxation in Unions will, if the house-tax be imposed, no doubt go some way towards postponing the day when the pressing demands on the purse of the Local Boards will necessitate increased general taxation for local purposes, but I am persuaded that a thorough scrutiny of the financial prospects of Boards will demonstrate the truth of my position that the means so supplied, partly from their communal character and partly for other reasons, will afford but temporary and partial relief to the Local Boards.

I would remark that if it be admitted that the present cess is levied at rates which are moderate in the case of even the poorer ryots, it will be consonant with economic equity that the richer should pay more if the general progress of the country

demands a larger local taxation. This principle is virtually admitted by the State in introducing into towns, where richer people ordinarily reside, Municipal taxation which is especially intended, whilst taxing more highly, to distribute the demand among classes who escape in the rural tracts. What I propose is, I submit, an effectual, if necessarily imperfect, way of attaining the same object. Increased taxation for local purposes, if it can be imposed without pressing unduly on the poor or crippling industry, is, I hold, in the present backward state of the country, socially and educationally not only justifiable but necessary, in that the money so derived will be expended by public bodies to the greater ultimate advantage of the people than if it remained in their own possession.

MADRAS, 17th January 1883.

H. B. GRIGG.

I concur generally with Mr. Grigg, especially as to the absolute necessity of providing some legal guarantee that the education of the poor of the lower castes in towns will not be neglected, as will otherwise almost certainly be the case.

17th January 1883.

H. W. BLISS.

I concur generally in Mr. Grigg's Minute of Dissent.

17th January 1883.

J. SHAW-STEWART.

APPENDIX No. I.

No. 1.

STATEMENT showing the Receipts of the Provincial Municipalities under the various Heads during the eleven Years ending 1881-82, exclusive of Imperial License Tax.
