

**THE RAIL-BORNE TRADE OF THE MADRAS PRESIDENCY DURING
THE QUARTER ENDING 31ST MARCH 1895.**

The *total traffic* of the Presidency (external and internal) during the quarter under review amounted to 11,473,900 maunds, which was 428,000 maunds or nearly 3·9 per cent. more than that of the preceding quarter, and 2,538,000 maunds or 28·4 per cent. more than that of the corresponding quarter of the previous year. The increase in the former case was chiefly due to the vigour of the internal trade of the chief sea-port towns, and of the exports to other Provinces, though there was a considerable decrease under imports from other Provinces into parts of the Presidency other than the chief sea-ports; and the increase in the latter case was proportionately largest under internal trade, though the external trade also showed a considerable increase. Particulars of increase and decrease are shown in the subjoined statement :—

2. *Sea-port traffic.*—The total traffic of the sea-ports was greater than that of the two previous quarters and that of the corresponding quarter of last year, but considerably smaller than that of the quarter ending June 1894. The increase as compared with the corresponding quarter of the previous year is more or less accounted for by the addition of three new ports (Cuddalore, Cocanada and Vizagapatam) in April 1894. The imports from other Provinces were the highest since the quarter ending December 1891, but the exports to other Provinces, though greater than in the preceding quarter and in the corresponding quarter of the previous year, were yet smaller than in the other two quarters of the year 1894–95. The imports from other parts of the Presidency were second only to those in the first quarter of the year; while the exports to the other parts of the Presidency were smaller than in either of the previous three quarters, though larger than during the corresponding quarter of the previous year. Particulars for each of the last five quarterly periods are given below :—

There was a considerable increase in the quarter under review in the imports of grain and pulse as compared with the previous quarter, the increase being wholly in the imports of "Gram and pulse" and "Ragi" (under other grains) from Mysore to Madras, Calicut and the Central and Malabar blocks; on the other hand, there was a decrease of over 17,000 maunds in the imports of paddy from the same Province to the Central and Malabar blocks, and also a decrease of nearly 10,000 maunds of rice from Hyderabad to the Deccan block. As compared with the five preceding quarters, the imports in the quarter under review were smaller than in either of the five preceding quarters except that ending in December 1894, and were a little over 55 per cent. of what they were during the quarter ending December 1893, having fallen from 794,100 maunds to 439,400 maunds. The decrease of 153,500 maunds as compared with the corresponding quarter of last year was distributed over all the Provinces, Mysore accounting for the greatest part (134,215 maunds). The falling off in the imports from Mysore was chiefly in paddy (82,000 maunds) and ragi (127,000 maunds), mostly consigned to the Central block; on the other hand, there was a slight increase (of 61,000 maunds) in the imports of gram and pulse from Mysore to Madras, Calicut and the N. Carnatic, Central and Malabar blocks. Particulars of the grain imports from different Provinces are given below :—

The large decrease under coal and coke as compared with the preceding quarter and the large increase as compared with the corresponding quarter of last year occurred wholly in the imports from Hyderabad into Cocanada, the Deltas and the Circars.

The large increase under oil-seeds as compared with the corresponding quarter of last year took place wholly in the imports of gingelly and castors from Hyderabad into Cocanada, while the large decrease as compared with the preceding quarter occurred in the imports of gingelly and castors from Mysore into Madras and the Central, South and Malabar blocks, and of earthnuts from Bombay into Madras. There were also slight increases under provisions, spices, sugar and railway plant and rolling-stock, the increase in the last case wholly taking place in the imports of locomotive engines and tenders from Bombay into the Deccan block. As compared with the corresponding quarter of the previous year, there was generally an increase in the imports.

4. *Exports.*—The nature and quantity of the chief articles exported to other Provinces are given in the next table as compared with the traffic in them for the preceding quarter and for the corresponding quarter of last year :—

The trade in coal and coke which formed nearly a third of the total exports showed as compared with the preceding quarter and the corresponding quarter of last year, an increase over 37 and 38 per cent., respectively. The exports in the two articles were mostly from Madras into Mysore. As compared with the preceding quarter there was an increase of over 34 per cent. under provisions, occurring almost entirely in the exports of "Other sorts" of provisions from the Central block to Mysore; under sugar there was an increase of 64,024 maunds; this was in a great measure due to the increased exports of refined sugar from the Deccan block into Bombay and from the Circars into Mysore; under oil-seeds, the exports of linseed in the quarter under review were 57,400 maunds against 17 maunds of the previous quarter, and the whole of the quantity with the exception of 37 maunds was exported from the Deccan into the Bombay Presidency. The whole of the exports under railway plant and rolling-stock consisted of materials for railway construction and were consigned mostly from Madras and the Central block into Mysore. Hyderabad received an additional supply of salt from the deltas. On the other hand, there were slight decreases under spices, in the quantity of betelnuts sent from Malabar to Mysore; and under tobacco, unmanufactured, consigned from the Deltas to Hyderabad and from the Central block to Mysore.

The exports of grain and pulse showed as compared with the preceding quarter and the corresponding quarter of last year, an increase of about 64 and 50 per cent., respectively. The increase was mostly due to a larger quantity of rice having been sent from the deltas into Mysore.

5. *Internal trade.*—Within the Presidency there was a slight increase in the total traffic as compared with the previous quarter, but a very considerable increase as compared with the corresponding quarter of the last year. Compared with the preceding quarter, there were considerable increases under oil-seeds, metals, stone and lime, sugar and coal and coke, while there were considerable decreases under grain and pulse, salt, cotton, manufactured and raw and railway plant and rolling-stock. Compared with the corresponding quarter of the previous year, there was increase in every case except in dyes and tans in regard to which there was a fall of 7 per cent. The largest increases were under grain and pulse, railway plant and rolling stock, stone and lime, sugar and metals. The principal articles are classified and the amounts carried are compared in the following table:—

MADRAS.

Returns of Rail-borne Trade for the quarter ending
30th September 1926.

6069 1861

THE RAIL-BORNE TRADE OF THE MADRAS PRESIDENCY DURING THE QUARTER ENDING 30TH SEPTEMBER 1896.

The total rail-borne traffic of the Madras Presidency during the quarter ending 30th September 1896 amounted to 11,102,000 maunds, which is nearly 1,446,000 maunds (11·5 per cent.) and 491,000 maunds (4·2 per cent.) less than that of the preceding quarter and of the corresponding quarter of the previous year, respectively, as shown in the subjoined statement. The decrease, as compared with the preceding quarter, took place under all the heads, the decrease under the internal trade (—935,000 maunds) being the largest. As compared with the corresponding quarter of 1895, there was decrease under the imports from other provinces (—367,000 maunds) and in the internal trade (—297,000 maunds); but there was an increase of 172,000 maunds in the exports to other provinces:—

2. *Sea-port traffic.*—The traffic of the sea-ports in each of the past six quarters is exhibited in the annexed statement which shows that the exports therefrom to other provinces recovered during the quarter, while the imports therefrom were, as in the corresponding quarter of 1895, comparatively small.

The total imports are less by 22.7 per cent. than in the preceding quarter and 18.7 per cent. less than in the corresponding quarter of the previous year. As compared with the preceding quarter, the large decrease in the imports of coal and coke is noticeable, as well as the considerable increase in the imports of oils and railway plant and rolling stock. The decrease, as compared with the corresponding quarter of 1895, was chiefly due to the diminished imports in the quarter under review of the following articles, viz., coal and coke, grain and pulse, oil-seeds and raw cotton, although it was to some extent compensated for by the increases under provisions, oils, railway plant and rolling-stock, hides and skins, spices and cotton manufactured.

Coal and coke continued to occupy the first place in the imports from other provinces, and contributed 32 per cent. of the total import trade, but the imports were less than that of the preceding quarter by over 184,500 maunds. The import of Singareni coal into the Circars, which amounted to 262,522 maunds in the preceding quarter ceased entirely during the quarter under review, but there was a slight increase in the imports into the Deltas and the Madras, and North Carnatic blocks also imported 36,000 maunds during quarter. The decrease of 303,000 maunds, compared with the corresponding quarter of the previous year, occurred in the imports into the Circars, the Delta and the Deccan Districts.

Grain and pulse, which forms the second item in the order of importance, was imported chiefly from Mysore 278,000 maunds, Hyderabad 47,000 maunds, Bengal 44,600 maunds and Bombay 12,100 maunds. The fluctuations in the imports of the several grains, as compared with those of the preceding quarter and the corresponding quarter of the previous year, are shown below in thousands of maunds :—

Cholum and cumbu	28	16	20
Gram and pulse	120	82	48
Other grains	235	185	218
Total	455	403	384

The increase under wheat was in the imports from Hyderabad into the Deccan Districts, while that under cholum and cumbu occurred mainly in the imports into the Central Districts from the Native States. The large increase in the imports of other grain was chiefly due to the increased imports (of ragi mainly) into the Carnatic and the Central blocks from Mysore and the very large decrease in the imports of gram and pulse took place in the imports into the central block from the same province. The fall of 17,000 maunds in the imports of rice occurred chiefly in the imports into the Circars from Bengal.

Oil-seeds, accounting for 14 per cent. of the total import trade, come next to grain and pulse in the order of importance. Under this head, castors formed the most important item of trade, accounting for nearly 128,000 maunds; and gingelly comes next with 87,000 maunds; the former being imported from Hyderabad into Cocanada and the latter from Mysore into Madras and the North and South Carnatic, Central, Southern and Malabar blocks. Compared with the corresponding quarter of 1895 there was a decrease of 46,600 maunds chiefly due to the fall in the imports of gingelly.

Hides and Skins.—The greater portion of the import (95,000 maunds) came to the port of Madras and the quantity of dressed hides and skins received during the quarter was less than in the previous quarter by 3,000 maunds. Compared with the corresponding quarter of 1895 there was an increase of 9,000 maunds chiefly of dressed hides and skins received at Madras.

Provisions.—The bulk of the trade under this head, consists of those articles which are classified as “Provisions—Others” and which include coffee, fresh fruits, salt-fish, &c. The consignments of these articles from Mysore were less by 48,500 maunds than in the preceding quarter, but greater by nearly 24,000 maunds than in the corresponding quarter of 1895.

Salt is imported almost exclusively from Bombay into the Deccan block; but during the quarter under review, the trade was only 6 per cent. of what it was in the previous quarter.

Sugar.—The decrease of 49,000 maunds took place to a large extent in the imports of Mysore sugar, while the increase, as compared with the corresponding quarter of 1895, took place in the imports from Mysore into Madras port.

Railway plant and rolling stock.—The increase was in the imports of materials for construction chiefly into the Circars from Bengal.

4. *External trade—Exports.*—The trade in the chief articles exported to other provinces, as compared with the preceding quarter and the corresponding quarter of the previous year, is given in the following statement:—

Compared with the previous quarter, the exports decreased by 2 per cent., but increased by 9.3 per cent. as compared with the corresponding quarter of 1895. In the former case, in spite of the very large increases under coal and coke and sugar, the net result was a decrease owing to the fall in the exports of all other articles except oils. In the latter case, the increase occurred under almost all articles except grain and pulse, oils, metals, liquors, tobacco and stone and lime.

Coal and coke.—As in the import trade, coal and coke forms the most important item of export, contributing 41 per cent. of the total trade. As compared with the preceding quarter, the trade in this article shows an increase of 265,800 maunds chiefly in the exports from Madras to Mysore. Compared with the corresponding quarter of 1895, the exports show also an increase of only 32,700 maunds, chiefly from the Circars to Bengal, the present return showing an export of nearly 26,000 maunds while there was no trade in the corresponding quarter of the previous year.

Grain and pulse come next in importance to coal and coke with 11.6 per cent. of the total export trade. As compared with the preceding quarter and the second quarter of 1895, the percentage of difference is 20 and 10, respectively, the chief grain exported being rice (188,000 maunds) mostly sent to Mysore and a little to Hyderabad. The fluctuations in the export trade of the several grains are shown below in thousands of maunds:—

Grain.	Quarter ending		
	30th Sep-tember 1895.	30th June 1896.	30th Sep-tember 1896.
Wheat	4	4	1
Paddy	5	2	13
Rice	205	242	188
Cholam and cumbu	10	15	6
Gram and pulse	30	28	22
Others	5	4	2
Total	259	295	232

The fall in the export of wheat is due to the decreased exports from the delta⁵ to Hyderabad, while that in the exports of cholam and cumbu occurred in the trade between the Deccan and Bombay and was probably due to the anticipation of scarcity in these districts. There was a large decrease in the export of rice to the Native States and Bombay, while the exports of paddy increased by 11,000 maunds, chiefly in the trade between the South Carnatic block and Mysore. There have been decreases also in the exports of gram and pulse and of other grains, chiefly from the Deccan to Mysore and Madras. Compared with the corresponding quarter of the previous year, the exports of all grains, except paddy, to other provinces⁶ decreased; the trade with Bombay showing a decrease of 25,700 maunds and that with Mysore a decrease of 6,000 maunds, but on the other hand, there was an increase of 3,000 maunds in the exports to Hyderabad.

Sugar.—The export of unrefined sugar was greater than in the preceding quarter by 51,700 maunds, the largest increase being in the consignments to Bombay and Mysore from the Deccan and Carnatic blocks; while that of refined sugar decreased by 5,000 maunds as compared with the corresponding quarter of 1895; the increase took place under both heads but that under unrefined sugar was larger.

Raw cotton.—The bulk of the trade was between the Deccan block and Bombay and the quantity exported during the quarter as compared with the corresponding quarter of 1895 more than doubled.

Provisions.—There was a fall in the exports of provisions, other sorts, of 19,000 maunds, chiefly from the Central districts to Mysore, while there was an increase of 12,000 maunds of dried fruits and nuts from the same block to Bombay and Hyderabad. On the other hand there was an increase of 6,400 maunds or 7.4 per cent. as compared with the corresponding quarter of 1895.

Oil-seeds.—The increase in the exports of these articles, as compared with 1895, took place in the exports of "linseed" and "oil-seeds—others" from the Deccan block to Bombay and Hyderabad.

Salt.—As compared with the preceding quarter, the exports of salt from the Circars to Bengal showed a decrease of 11,000 maunds, while those from Madras to

Mysore showed an increase of nearly 5,000 maunds. As compared with the corresponding quarter of 1895, though the exports from Madras show a decline of 6,000 maunds, there was an increase of 45,500 maunds in that from the Circars to Bengal.

Railway plant and rolling-stock.—Though the export of materials for construction of railways has fallen during the quarter by 54·8 per cent. as compared with the preceding quarter, yet it amounted to 87,200 maunds while it was only 4,160 maunds in the corresponding quarter of the previous year.

Tobacco.—There has been a fall of more than 25 per cent. in the exports of tobacco, especially of the unmanufactured leaf, from the Deltas to Hyderabad and from the Central block to Mysore.

5. *Internal trade.*—Within the Presidency, the total traffic decreased by 935,000 maunds or 11 per cent. as compared with the preceding quarter, while it was 297,000 maunds or 3·8 per cent. less as compared with the corresponding quarter of the previous year. In the former case, the very large decrease in the total trade is due to decreases under sugar, oil-seeds, provisions and raw cotton, for the most part seasonal, which were made up for to some extent by increases under grain and pulse, metals and coal and coke. As compared with the quarter ending September 1895, the season traffic in sugar and oil-seeds shows an increase, but that in raw cotton and dyes and tans a decrease. There were also large decreases under grain and pulse, railway plant and rolling-stock, and stone and lime, and large increases under metals and provisions:—

* To the above rates a terminal of Rs. 5-1-0 per 6-ton truck must be added.

STATEMENT of changes in freights and weights on goods carried by the Southern Mahratta Railway from and to the Madras Presidency during the quarter ending 30th September 1896.

1. *Grain and Pulse*.—A terminal charge of 3 pies per maund is levied on "rice" booked from Gódávári North or Gódávári South to *via* Bezwada.

2. *Brass and Copper, Wrought*.—Brass and copper ware, common, and brass and copper articles not otherwise specified, also cooking utensils booked from Bombay to Bangalore City *via* Raichur and Guntakul is, with effect from 1st July 1896, charged as second class.

3. *Kerosine-oil*.—Kerosine-oil booked from Bombay to Bezwada *via* Poona is charged with effect from 1st July 1896 at a special rate of As. 12-10 per maund at owner's risk. The proportions of "Great Indian Peninsula Railway" and Southern Mahratta Railway being As. 1-11 and As. 10-11, respectively.

4. *Cocoanut-oil*.—Cocoanut-oil booked from the following stations to Bezwada is charged as under :—

Station.	Per maund.

Kadium	1 11
Gódávári, North	1 10
Gódávári, South	1 9
Tadepalligudam	1 7
Bhimadol	1 5
Ellore	1 4

5. *Oil-seeds*.—"Ground-nuts," "gunnies" and "indigo seeds" are chargeable at the same rates as quoted in foot-notes (a) and (b) at page 80 of Southern Mahratta Railway Goods Tariff, Part II of 1896. This does not cancel the special reduced rate of As. 2-5 per maund for gunnies from Vizianagram and Vizagapatam to *via* Bezwada.

6. *Hides and Skins*.—Booking of wet hides or skins (File No C.K. 590). With reference to paragraph 6 of Bi-weekly Circular No. 26 of 15th July 1896, consignments of wet hides or skins booked to Madras Railway must not be opened, but must be described as "number, condition and contents unknown." In all other respects the rules laid down in paragraph 6 of Bi-weekly Circular No. 26 of 15th July 1896 must be strictly adhered to.
