PART I.

THE RAIL-BORNE TRADE OF 1896-97.

The statements appended exhibit the rail-borne traffic of the Presidency for the official year 1896-97. They have been compiled in the Board's office from the quarterly returns received from the Examiner of Guaranteed Railway Accounts, Bombay. The establishment employed for the registration of rail-borne traffic, hitherto under the control of the Examiner of Guaranteed Railway Accounts, Bombay, was transferred in October last* to the Railway Companies under the orders of Government.

* *Vide* G.O., No. 3719, dated 17th September 1896.

2. *Lines open.*—During the year under review the East Coast Railway was extended from Bezwada to Cuttack road, with a branch line from Kurda road to Puri (25·34 miles), bringing the length of the line to 524 28 miles. The extension added 33·28 miles to the length of railways in the Presidency, and brought up the total mileage of railways open for traffic at the end of the year to 2,888 miles, as detailed below :—

3. *Season.*—The season of 1896 was generally favourable for agricultural operations, except in the Deccan districts and in parts of the Northern Circars, North Arcot and Salem. The South-West monsoon set in fairly well, and till August the rains were on the whole nearly up to the average, except in the Carnatic, Salem and Trichinopoly. The fall in September, however, was scanty and gave cause for anxiety in respect of the Deccan districts, parts of the Northern Circars, the Carnatic and the Central districts. On the West Coast and on the Nilgiris the rainfall was from 20 to 25 inches in excess of the average. The North-East monsoon set in late, but the rainfall was copious over the whole of the southern half of the Presidency, and dispelled anxiety as to the harvests in that area. A severe drought, however, prevailed throughout the greater part of the Deccan districts and of the Northern Circars, causing extensive failure of crop. Similar drought in the north of India and in Burma caused a rapid rise in the price of food-grains throughout the Presidency, and stimulated the rail-borne grain trade.

4. *The total rail-borne trade of the Presidency.*—Increased by 1·2 per cent. in volume, and decrease by 8 per cent. in value, as compared with that of the previous year. Compared with the average of the five years ending 1894-95, the volume of trade shows

an increase of 22.0 per cent., and the value an increase of 21.8 per cent. The particulars of this increase are given below :—

5. *Imports into the Presidency.*—The rail-borne imports decreased by 19.7 per cent. in volume, and by 8.4 per cent. in value, as compared with 1895-96. The subjoined table shows the quantities imported from British Provinces and Native States outside the Presidency for the past five years :—

A little more than half the total bulk of rail-imports came from the Hyderabad State, consisting chiefly of coal imported into the delta block for use on the East Coast Railway. One-third of the total bulk was imported from Mysore, about half the quantity consisting of grain and pulse.

6. The distribution of the imports within the Presidency was as shown in the following statement :—

Coal and coke—contributed in bulk 34.4 per cent. of the total rail-imports of the year. The quantity imported decreased by 1,381,000 maunds, or 35.9 per cent., as compared with the previous year. Almost the whole quantity was imported, as usual, from the Singareni coal fields, 80 per cent. thereof being consigned to the Deltas, for the use of the East Coast and Southern Mahratta Railways. The decrease during the year was due to the diminished requirements of the latter railway, owing to the high rate charged.

Grain and pulse—show, as might be expected, a decrease, owing to scarcity outside the Presidency.

The following abstract compares the imports of 1896-97 with the average imports of the preceding five years.

The variations in the imports of the different grains are noted below :—

Grains.	1895-96.	1896-97.	Difference.
	MDS.	MDS.	MDS.
Wheat	122,172	85,608	— 36,564

Other grains	703,705	769,637	+ 65,932
Total ..	1,610,650	1,467,689	— 142,961

The decrease under wheat was in the imports from Bombay into Madras port and Deccan block, and from Hyderabad into the latter block; while the very large decrease under *gram and pulse* took place in the imports (1) from Mysore into the Madras and Calicut ports, and the Central and Malabar blocks, (2) from the North-Western Provinces and Oudh into the Deccan, and (3) from Hyderabad into Madras port and North Carnatic block. On the other hand there were increases in the imports from Hyderabad into Cocanada port, and the Deccan block. The increase under *paddy* and *rice* was mainly in the imports from Bengal into the Northern Circars. The large

increase under cholam and cumbu and other grains was chiefly in the imports from Mysore into Madras port, the Deccan and North Carnatic, but, on the other hand, there was a fall of nearly 100,000 maunds in the imports of other grains from the same province into the Central block.

Oil-seeds.—The decrease of 30·5 per cent. under this head is accounted for by the decreased imports (1) of gingelly from Hyderabad into the Cocanada port, and from Mysore into the Madras port, and into the southern half of the Presidency, and (2) of castors from Hyderabad into Cocanada port, the Madras port and the delta block.

Hides and skins.—Out of 480,500 maunds imported, 380,000 maunds were received into Madras port, skins of sheep and goats forming the major portion thereof. Hides of cattle, mostly dressed, were imported to a small extent, chiefly from the Central Provinces. The skins of sheep, &c., were imported chiefly from Bombay, North-Western Provinces and Oudh, Punjab, Hyderabad and Mysore.

Provisions.—The bulk of the trade under this head was in the imports of “Provisions—Others,” chiefly from Mysore into the Madras and Tuticorin ports, and into the Deltas, North Carnatic and the Central blocks. The decrease of nearly 50,000 maunds, or 16 per cent., as compared with 1895–96, occurred mainly in the imports from Hyderabad.

Sugar.—The rail-imports of sugar show an increase, when compared with the figures of the preceding five years, as noted below :—

	MDS.
1891–92	84,838
1892–93	70,423
1893–94	85,589
1894–95	98,743
1895–96	141,089
1896–97	162,201

The imports were almost wholly from Mysore, and were consigned chiefly to the Madras port, the Deccan, Carnatic and Central blocks.

Spices.—The chief imported spice (*quantity* 1,02,192 maunds, *value* Rs. 21,44,378) was betel-nut from Mysore and Bombay into the Deccan and North Carnatic blocks and the Madras port. The decrease under “spices” appears in the imports of betel-nut into the Deccan block from Bombay, and of “spices—others” from Mysore.

Salt—is imported almost exclusively from Bombay into the Deccan block. There was a slight decrease in the quantity imported during the year under review.

Oils.—The chief oil imported was kerosine from Bombay into the Circars, the Deltas and the Deccan blocks.

Cotton manufactured.—The Deccan is the chief centre of import trade in this article, mostly of twist and yarn consigned from Bombay. About 11,000 maunds of Indian twist and yarn were also imported from Mysore into the Madras port. There was a decrease of 6,000 maunds in the imports of European twist and yarn, while the imports of Indian twist and yarn increased by 8,000 maunds.

Cotton, raw, is chiefly imported from Hyderabad, Bombay and Mysore into the Madras port; the Deccan also importing a little. The fall of more than 36,000 maunds is doubtless attributable to drought.

Metals.—The bulk of the trade under this head consists of imports of iron and steel from Mysore and Bombay into Madras, the Deccan, the Deltas, the North Carnatic and the Central blocks. The small decrease during the year was due to the decreased imports into the Madras port.

Liquors.—The chief rail-imports under this head consist of toddy (fermented palm juice) imported from Hyderabad and Mysore into the Deccan block.

Under the orders of the Director-General of Statistics, toddy is to be classed under “liquors—wine.” The Examiner of Guaranteed Railway Accounts, Bombay, has apparently, for some years past, being classing toddy partly as “spirits” and partly as “wines.” In the Board’s office values have been assigned to the quantities so reported on the average of the prices for spirits and wines reported by Collectors, with the absurd result that in the statistics of rail-borne trade for previous years wine and spirits have been shown as imported from Hyderabad and Mysore to the value of between 50 and 60 lakhs a year.

In statement II of the returns for the year under report, the blunder has been corrected, and the toddy has been valued at 4 annas a gallon.

Apart from toddy, the only rail importation of wines, beer and spirits is from Bombay, the quantity being as shown below :—

From.	Wine.	Beer.	Spirits.
	I. MDS.	I. MDS.	I. MDS.
Bombay	594	61	1,007
Calcutta	14	4	3

Jute (gunny bags).—The increase of more than 10,500 maunds in the imports of gunny bags is due to the movements of grain in consequence of the famine.

Railway plant and rolling-stock.—The quantity imported during the year was more than three times that imported during 1895–96. The imports were mostly from Bengal into the Circars, and the port of Vizagapatam for the construction of the East Coast Railway.

8. *Exports from the Presidency*—were greater by 24·4 per cent. in volume, and by 11·4 per cent. in value, than in the previous year. The bulk of the trade was as usual with Mysore; but the greater part of the increase occurred in the exports to Bengal, Bombay, Hyderabad and North-Western Provinces.

The subjoined table shows the quantities exported to the different provinces during the last five years :—

9. The bulk of the exports went from the Madras port, the Deccan, the Deltas, the Central and the Circars blocks as shown below :—

The decrease in the rail exports from the Deltas is presumably due to increased export of grain by sea, owing to the famine outside the Presidency.

10. *Articles of export.*—In the following statement the trade in the principal articles of export during the year is compared with that in the previous year:—

Coal and coke—heads the list as usual with 32.7 per cent. of the total exports of the year. The exports were chiefly from Madras to Mysore, for the Kolar Gold Mines; about 28,700 maunds went to Mysore from the Deltas, and about 58,200 maunds from the Circars to Bengal. In the exports of coal, there has been a steady increase from a little over 132,000 maunds in 1888-89 to nearly three million maunds in 1896-97 as shown below:—

Grain and pulse.—Out of an export of nearly two millions of maunds under this head, about one million of maunds was rice, 461,000 maunds cholam and cumbu and 420,000 maunds gram and pulse. The trade was chiefly with Mysore (735,000 maunds), Bombay (661,000 maunds) Hyderabad, (453,000 maunds) and North-Western Provinces and Oudh (89,000 maunds), and was carried on principally by the Deccan, the Deltas, the Central and the North Carnatic blocks, and the Cocanada and Madras sea-ports. The fluctuations in the export trade of grain and pulse for the last 9 years are shown in the following statement:—

The increase during the year under review was over 75 per cent. and occurred in the exports of all kinds of grains, but chiefly of rice, cholam, cumbu, grain and pulse. There was, however, a large falling off in the consignments of rice from the Madras sea-ports (nearly 35,000 maunds), and from the Deltas (nearly 114,000 maunds).

Salt.—During the year under review there was a considerable export of salt from the Circars to Bengal. About 137,000 maunds were exported from the Deltas to Hyderabad and about 57,000 maunds to Mysore. The increase, as compared with the previous year, was the result of increased exports to Bengal from the Circars. The export from the Calicut port fell from 35,000 to 3,500 maunds.

Railway plant and rolling-stock.—The very large increase under this head was in the exports of sleepers and keys of steel and cast-iron, and of steel rails and fish-plates to Bengal from the Circars and the two ports of Vizagapatam and Cocanada. All these are classed under railway materials used for construction purposes. In the previous year there was no trade with Bengal, the small exports which took place being to the Native States.

Provisions.—The chief articles of trade under this head were dried fruits, nuts and "other provisions" sent to Mysore, Hyderabad and Bombay. There was a decrease of 48,000 maunds in the exports of "other provisions" during the year under review, while there was an increase in the exports of dried fruits and nuts.

Sugar.—The bulk of trade was in unrefined sugar which is exported in large quantities to Bombay, Mysore and Hyderabad. The increase in the trade with Bombay was large. The Deccan, the Central and North Carnatic blocks contributed the largest share in the export trade of this article.

Metals.—As in the import trade, iron and steel form the chief articles of export under this head, the quantity exported being nearly 258,800 maunds, the major portion of which (245,000 maunds) was sent from Madras port chiefly to Mysore.

Stone and lime—are exported from the Deccan block to Bombay and from the Central and the Deccan blocks and the Madras port to Mysore.

Cotton, raw.—is exported by rail almost exclusively from the Deccan block to Bombay and Mysore. The Deltas sent 10,000 maunds to Bombay. The exports of raw cotton from the Deccan block to Bombay showed a large increase.

Spices.—More than half the quantity under this head was exported in the shape of chillies to Bombay, Bengal, Hyderabad and Mysore, chiefly from the Deltas, the Circars and the Central blocks. About 60,000 maunds of "spices,—others" were sent chiefly to the Native States from the Deccan and Madras port. The quantity of chillies exported during the year was more than double that of the previous year, and the total exports of spices increased by 60 per cent.

Oilseeds.—Linseed forms the most important item under this head; what was formerly sent from the Deccan block to Bombay is now sent to Sindh from the same block, but the quantity exported during the year is less than that of last year (72,000 maunds against 102,000 maunds). The other chief items under this head were castors, nearly 23,000 maunds, gingelly 14,500 maunds and unspecified "others" 39,000 maunds. The fall in the exports was mainly due to the decreased exports of linseed; on the other hand there were increases under gingelly and "others."

Cotton, manufactured.—More than 46,000 maunds of European piece-goods and twist and yarn and more than 85,000 maunds of Indian piece-goods and twist and yarn appear under this head. The trade in the European commodity was almost confined to the exports from the Madras port to the Native States of Mysore and Hyderabad, while the Indian manufactures were sent from the Deccan, the Central, the North Carnatic and the Delta blocks, mostly to Mysore and, to a small extent, to Bombay and Hyderabad. The small decrease during the year occurred in the exports of Indian piece-goods from the Deccan block to Bombay.

Tobacco.—Most of the export trade under this article was in unmanufactured tobacco (112,000 maunds) sent chiefly from the Deltas and the Central block to Hyderabad, Mysore and Bombay. Under "manufactured" cigars form the most important item, and were mostly sent from the Central block and the South to Bombay, the Punjab and Mysore. The increase of 33,000 maunds of the unmanufactured leaf took place chiefly in the exports to the Native States.

Oils.—The chief exports consisted of kerosine-oil from the Madras port to Mysore and Hyderabad. Compared with the previous year, there was a fall of 33,000 maunds.

Dyes and tans.—The bulk of these articles was exported from the Deccan block chiefly to Mysore. The chief articles of trade under this head were "other dyes," 41,000 maunds, turmeric, 29,000 maunds, and indigo, 3,000 maunds. There was an increase of nearly 29,000 maunds, during the year, of which 10,000 maunds represent the increase in the quantity of turmeric exported.

Jute (Gunny-bags).—The trade under this head is confined to gunny bags and cloth exported chiefly to Mysore and Hyderabad. The decrease of 10,000 maunds occurred in the exports to Hyderabad chiefly from Cocanada port.

Liquors.—Beer (53,000 maunds) spirits, (8,600 maunds) and wines (3,700 maunds) were exported chiefly from the Madras port to Mysore and Hyderabad; 17,000 maunds of Nilgiri beer were sent from Mettupalaiyam (in the Central block) to Mysore and Hyderabad.

11. **Internal trade.**—The internal trade of the Presidency increased by 1·7 per cent. in volume and decreased by 11 per cent. in value, as compared with the previous year, the increase occurring chiefly under grain and pulse, metals and cotton, raw. The trade in railway plant and rolling-stock, oil-seeds and coal and coke showed a large decrease. The details are shown in the subjoined statement:—

Grain and pulse—formed the most important item of internal trade, accounting for 26·3 per cent. of the total. Compared with 1895-96, there was an increase of 1,142,000 maunds or 15·1 per cent. Under paddy (rice in the husk) there was a decrease of 827,000 maunds, which was, however, more than counterbalanced by increases under rice (+ 1,592,000 maunds), cholam and cumbu (+ 286,000 maunds), gram and pulse (+ 14,000 maunds), and "other grains" (+ 75,000 maunds). The quantity of grain sent to the sea-ports was more than in the previous year by 2,438,000 maunds or 114 per cent., this increase occurring under all the heads, that under rice being the largest (+1,655,000 maunds). The quantity sent inland from the sea-ports was 1,163,000 maunds, or 56 per cent. less than in the previous year, this decrease occurring under all the heads, except cholam and cumbu, where there was

a slight increase of 9,000 maunds. The largest fall was in the quantity of paddy sent inland (— 610,000 maunds). Taking into account the foreign imports and exports by rail, the entire grain trade of the year shows the following net results as compared with the four preceding years:—

(+) = Net imports.

(-) = Net exports.

NOTE.—Up to end of 1893-94, South Arcot, Tanjore and Trichinopoly formed one block, and Salem, Coimbatore and Malabar another block 1894-95; Trichinopoly was added to the Salem-Coimbatore block and Malabar was formed into a separate block. Nellore was divided into two portions, the northern being added to Kistna-Godavari (Delta) block and the southern to the Chingleput-North Arcot block.

The net results of the grain trade by rail of the Presidency during the year was a considerable export, in place of the large import of the preceding four years. The Deccan, Southern and Malabar blocks and the City of Madras show net imports, while the remaining blocks show net exports of grain. The Deccan districts usually export, but in the year under review as in the year 1892-93, the imports, owing to the bad season, considerably exceed exports. In the Central block, on the other hand, a large net import is converted into a net export. Compared with 1895-96, the net imports into the Madras City and Malabar largely increased, but decreased in the Southern districts. In the South Carnatic block, the net exports show no large fluctuation. In the North Carnatic, the Circars and the delta blocks the net exports increased.

Stone and lime.—More than two million maunds were imported into the sea-ports, and out of this nearly 851,000 maunds were sent from the North Carnatic to the Madras port, and 876,000 maunds from the Circars to the Cocanada port.

Salt.—The bulk of the trade consists of exports from the Madras port and the sea-ports of the Carnatic block to the neighbouring districts and the Central block. The trade fell from the previous year by 38,000 maunds in the exports of Madras salt to the Deccan districts.

Metals.—The large quantity of 1,425,000 maunds of "other metals," exported from the Circars to the Vizagapatam port consisted almost entirely of manganese ore from the Vizianagram zamindari.

Sugar.—An increase in the trade in refined sugar was more than counterbalanced by the decrease in unrefined sugar. Refined sugar is exported largely from the South Carnatic block chiefly to Cuddalore, and the quantity exported during the year was more than double that of the previous year. Unrefined sugar is exported chiefly from the Circars to Vizagapatam port, and the quantity was less than half that exported in the previous year.

Provisions.—The decrease of 47,000 maunds took place mainly in "other provisions," though there was an increase of 30,000 maunds in the trade of dried fruits and nuts.

Coal and coke.—There was a large decrease during the year in the internal trade in this article. The large exports of the previous year from the Deccan districts to the several parts of the Presidency, and the two ports of Madras and Cuddalore ceased. On the other hand there was an increase of more than 200,000 maunds in the exports from Cuddalore port to the South Carnatic block.

Oil-seeds.—The bulk of the trade was in gingelly (512,000 maunds), ground-nuts (389,000 maunds) and castors (252,000 maunds). The imports of ground-nuts into the sea-ports of Madras, Pondicherry and Cuddalore decreased by nearly 260,000 maunds chiefly in the exports from the Carnatic blocks. The exports of castor seeds from the Deltas and the Deccan blocks fell off by over 170,000 maunds. The trade in gingelly rose by 11,000 maunds, the increase occurring in the exports from the sea-ports, which were somewhat decreased by the decreased exports from the Central block, the Deccan districts and North Carnatic.

Railway plant and rolling-stock.—The very large decrease under this head was due to the small imports of railway materials to the Northern Circars chiefly from the two ports of Cocanada and Vizagapatam. This decrease was due to the completion of the East Coast Railway.

There has been a fall during the year under report in the local export trade of the sea-ports as well as in the import traffic into portions of the Presidency outside the sea-ports as compared with the previous year. As compared with 1894-95 there has been an increase under both heads. Less than one-third of the foreign import trade and less than one-half of the foreign export trade are with the sea-ports.

13. The next table shows the distribution of the total trade between the different blocks and the fluctuations in each. Most of the latter have been explained above:—

PART II.

STATISTICS OF ROAD TRAFFIC REGISTERED AT THE STATIONS
SELECTED DURING THE YEAR 1896-97.

Registration of road-traffic at the nine stations noted in the margin * for the

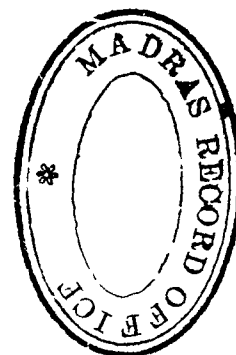

prescribed period of three years was completed with the close of the year 1895-96 bringing up the total number of stations for which returns are complete to 28. The work was continued at the remaining seventeen stations † during 1896-97 and nine other stations were selected in place of those mentioned above. With the close of 1896-97, registration was completed at the seventeen stations mentioned above, so that the number of stations where registration has been completed is now 45.

2. The subjoined table shows the different stations at which traffic was registered during 1896-97 with the trade routes commanded by each of them. It also indicates when these stations were last taken up for registration purposes and the quantity of goods and the number of animals and passengers that passed on each route during the year under report:—

Note.—All traffic between Bezwada and Cocanada appears twice in the statement, once in columns 2 and 3, and once in column 4; see also the following foot-note:—

- (1) The figures in columns 2 and 3 include all the traffic that passes between Cocanada and Bezwada as well as that between Cocanada and other places. The figures in column 4 include all the traffic that passes between Cocanada and Bezwada as well as between Ellore and other places west of the Godavari river. It is impossible to separate the through traffic between Bezwada and Cocanada from the other traffic on the canals dealt with.
- (2) No entries are made in the statement for the Kistna canal from Bezwada to Ellore, as all traffic between Bezwada and Cocanada by that canal necessarily passes over the Godavari canals here given in columns 2, 3 and 4.
- (3) "Up" on the Cocanada, Samalkot and Ellore canals means towards the Godavari river; on the Masulipatam canal towards the Kistna river (Bezwada).
