OFFICE OF SURGEON-GENERAL
WITH THE GOVERNMENT OF MADRAS,
OOTACAMUND, 27th June 1902.

No. T 1/113.

From

SURGEON-GENERAL D. SINCLAIR, M.B., C.S.I., I.M.S.,
Surgeon-General with the Government of Madras,

To

THE CHIEF SECRETARY TO GOVERNMENT,
PUBLIC DEPARTMENT.

SIR,

I have the honour to submit herewith a report with illustrative statistics on the working of the civil medical institutions in this Presidency for the triennial period ending the 31st December 1901. In accordance with the instructions contained in G.O., No. 558, Public, dated 3rd June 1901, the report on the Presidency-Town medical institutions, etc., have been incorporated.

2. *Public Health.*—The state of public health in districts and in the City of Madras may be inferred from the following figures in which the registered deaths for the past triennium are contrasted:—

Chief diseases from which deaths occurred among free population.	1899.		1900.		1901.	
	Districts.	City.	Districts.	City.	Districts.	City.
(1) Cholera	29,082	23	60,662	632	81,370	1,242
(2) Small-pox	10,591	34	27,692	46	26,202	292
(3) Fevers	245,549	3,317	258,521	5,898	294,854	9,151
(4) Dysentery and diarrhoea	31,307	3,520	38,858	3,408	42,084	4,870
(5) All other causes	352,165	10,354	355,126	10,953	351,930	12,476
Total	675,094	17,248	770,859	20,937	796,140	28,031
Ratio per mille of population	19.66	38.12	22.45	45.27	20.84	55.03

From the above it will be seen that the total registered deaths in both districts and city have markedly risen during 1900 and 1901 and that the death-rate in the city far exceeds that in districts, especially in 1901. The decline in the district death-rate for 1901 is due to the calculation being made on the larger population returned by the last census. Diseases classed under "all other causes" are invariably far and away most prolific of death both in districts and city, fevers almost invariably come next, whilst bowel-complaints and cholera *longo intervallo* usually take the third or fourth place. During the last two years the deaths from cholera have increased to a serious extent both in districts and city, and in some measure the same is true of fevers, the mortality from which in the city, particularly during 1901, seems extraordinary. Through the declining dread of plague regulations, people are less afraid to register deaths as due to fever; hence no doubt the larger returns under fevers. How far the differences in the death-rates between districts and city are due to faulty registration is not for me to say.

3. *Plague*.—The total deaths from plague in the Presidency during the triennium were 1,843 in 1899, 665 in 1900 and 3,035 in 1901.

4. *Inspection of Vessels*.—During the past year 433 vessels carrying crews numbering 36,527 persons and 34,312 passengers were inspected in the City of Madras, and in addition 188 steamers arriving from plague-infected ports carrying crews of 16,396 persons and 4,589 passengers were examined.

5. *Number and Class of Institutions*.—On the 1st January 1899 there were 556 institutions of all classes at work; in the year 1900 the number rose to 582. This increase was due to the inclusion in the latter year of statistics of medical institutions belonging to various Railway Companies and private unaided bodies in accordance with the wishes of the Government of India embodied in G.O., No. 512, Public, dated 31st May 1900. At the close of the year under report there were 579 at work, i.e., three less than in the preceding year due to the abolition of four Police hospitals (Vizianagram, Balliguda, Parlákimedi and Ramagiri-Udayagiri) and one private medical institution at Kallikota in the Ganjam district for want of a medical subordinate, and to the inclusion for the first time of two Railway medical institutions (Palasa and Donakonda).

These institutions were classified as follows:—

Class I.—State—						No.
(a) Civil	...	...	...	...	...	* 26
(b) Police	...	...	...	...	...	45
II.—Local and Municipal	...	...	...	...	...	430
III-A.—Private unaided included in statement II-A	...	...	...	...	...	55
III-B.—Private aided	...	...	...	...	...	23
Total	...	...	...	...	...	579

6. *Adequacy of Dispensary provision with reference to population*.—According to statement I the ratio of hospitals and dispensaries inclusive of Civil medical institutions in the City of Madras to every 1,000 of the population (census of 1891) for 1899 and 1900 was .015 and .014, respectively, and for 1901 calculated on the recent census figure .013. The difference between the ratios for the two previous years was due to the inclusion in the general statements of Police hospitals in 1899 and to their exclusion therefrom in the subsequent years. The decrease in the year under review is accounted for by the rise in population by 3,421,648. If the medical institutions included in statement II-A be added to those in the general statements, the ratio of the dispensary provision per mille of population would be .016, .017 and .015 for the years included in the triennial period. The marked increase in the year 1900 was due to the rise in the Railway medical institutions from 10 to 33.

7. *Accommodation*.—Last year 4,617 beds were available in the civil medical institutions and 691 in the institutions included in statement II-A, making a total of 5,308 (3,156 for males and 2,152 for females) as compared with 5,265 (3,188 for males and 2,077 for females) and 5,288 (3,153 for males and 2,135 for females) in 1899 and 1900, respectively. The increase of 43 beds during the triennium is due to more accommodation having been provided in the districts. The proportion of beds for males in the period fell from 60.55 in 1899 to 59.63 and 59.46 per cent., respectively, in 1900 and 1901, the proportion for females being 39.45, 40.37 and 40.54 respectively; so that with a slight decline in the accommodation for males there has been a corresponding increase for females.

8. *Total treated*.—A total of 4,751,692 were treated in civil hospitals and dispensaries in the year 1901 and 261,277 in the institutions included in statement II-A, making a grand total of 5,012,969 (2,575,806 males, 1,143,244 females and

* No statistics were furnished up to date from Government Dispensary at Amin-Devi (Laccadives) for want of communication with the mainland.

1,293,919 children). Of these in-patients numbered 48,984 males, 23,101 females and 3,402 children, or in all 75,487, and out-patients 2,526,822 males, 1,120,143 females and 1,290,517 children or 4,937,482. In the years 1899 and 1900 the total of both in- and out-patients amounted to 4,438,237 (2,228,378 males, 966,081 females and 1,243,778 children), and 4,922,614 (2,465,529 males, 1,078,260 females and 1,378,825 children), respectively. Of these, 63,184 and 73,409 were in-patients and 4,375,053 and 4,849,205 out-patients. There has thus been a continuous rise from year to year in the number, both of in-door and out-door sick. The unusual increase in 1900 was due as already explained to the inclusion in that year of Railway medical institutions. Both sexes contributed to the increase, but there was a falling off in the attendance of children last year as in the year before (1900) an epidemic of eye diseases prevailed chiefly among this class.

9. *Average daily attendance*.—The average daily attendance of in- and out-patients during the year was 31,236.58 as compared with 30,074.61 and 30,929.54 in 1899 and 1900, respectively.

10. *Classes*.—Of the total treated the proportion of Europeans and Eurasians was 2.08 per cent. in 1899, 1.85 in 1900 and 1.7 in 1901; of Hindus 72.58, 72.3 and 72.05, respectively; whereas of Mussalmans it fluctuated between 11.85 and 12.07, whilst among all other classes it ranged from 13.49 to 13.93. These variations are trifling and need no explanation.

11. *Attendance by proxies*.—There was a gradual diminution of attendance by proxies; such attendance declined from 8.88 in 1899 to 7.67 and 7.08 per cent. of total treated in 1900 and 1901, respectively.

12. *Results of treatment among in-patients*.—There was a percentage of 58.25 cured during 1901 as compared with 61.41 and 57.91 in 1899 and 1900, respectively; among those relieved and discharged otherwise, the proportion fluctuated from 28.92 in 1899 to 30.58 in 1900 and 28.82 in 1901. The ratio of deaths was 5.73, 7.69 and 9.18 in 1899, 1900 and 1901, respectively. Excluding the number admitted moribund, viz., 728, 910 and 975, the ratio of deaths would be 4.62, 5.49 and 7.67, respectively. The successive increase was due to a large number admitted for cholera in the last two years. Out of the total number admitted moribund 109, 116 and 104 were removed moribund or 14.97, 12.75 and 10.67 per cent. It is gratifying to note that only 6 septic cases occurred in hospitals during 1901 against 14 and 15 in 1899 and 1900. Of these, 3 took place in the General Hospital, 2 in the Government Maternity Hospital and 1 in Coimbatore. The steps taken to prevent its spread were satisfactory. One hundred and twenty-four, 115 and 117 were admitted septic during the triennial period.

13. *Diseases treated*.—The diseases among in- and out-patients are classified and compared below:—

	1899.		1900.		1901.	
	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.
(1) General diseases	1,354,751	30.52	1,438,735	29.23	1,560,507	29.93
(2) Local diseases	2,848,276	64.18	3,221,468	65.44	3,245,063	64.75
(3) Injuries	225,265	5.07	252,472	5.13	254,532	5.08
(4) Poisons	8,396	0.19	8,396	.17	9,719	.20
(5) No appreciable disease	1,639	0.04	1,563	.03	2,188	.04
Total	4,438,237		4,922,614		5,012,969	

The most important type of disease under the first two heads were —

General Diseases.

	1899.		1900.		1901.	
	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.
(1) Malarial fevers	437,627	9.86	460,955	9.36	508,184	10.14
(2) Worms	283,015	6.38	275,029	5.59	275,300	5.49
(3) Rheumatic affections	206,535	4.65	214,543	4.35	214,184	4.26
(4) Dysentery	71,336	1.62	75,916	1.05	85,916	1.71
(5) Syphilis and gonorrhoea	81,191	1.83	87,712	1.78	91,835	1.83
(6) Cholera	3,262	.07	10,336	.2	10,833	.27
(7) Debility and anaemia	31,377	.77	32,479	.66	34,117	.68

Local Diseases.

	1899.		1900.		1901.	
	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.
Ulcers and diseases of the skin	943,660	21.26	1,030,926	21.13	1,048,839	20.92
Diseases of the digestive system	700,556	15.78	741,420	15.06	768,487	15.33
Of which diarrhoea contributed	32,187	7.2	35,419	7.1	39,423	7.9
Diseases of the eye	310,231	7.06	497,336	10.1	437,170	8.07
Disease of the ear	245,435	5.53	278,108	5.6	263,936	5.33
Disease of the respiratory system	196,001	4.42	201,188	4.09	217,115	4.34

14. *Operations.*—During 1901, 151,695 operations were performed on 149,358 persons as compared with 137,504 on 135,925 in 1899 and 154,200 on 152,600 in 1900. The decrease during 1901 is only nominal and is due to the removal from the list, 6,703 operations on the ear—Removal of wax and foreign bodies from the external meatus. The results during the triennium are compared below :—

	Number of persons operated on including those remaining at the beginning of the year.	Cured.		Relieved and discharged.		Died.	
		No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.
1899	137,527	127,774	93.59	7,692	5.63	287	0.21
1900	152,489	145,058	95.16	7,320	4.77	273	0.18
1901	150,695	142,461	94.54	7,029	4.66	295	0.2

If operations for the removal of wax and foreign bodies from the external meatus were excluded from the two previous years' returns, the results would stand thus—

	Number of persons operated on including those remaining at the beginning of the year.	Cured.		Relieved and discharged.		Died.	
		No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.
1899	130,400	121,714	93.34	7,625	5.85	287	0.22
1900	147,801	139,435	94.34	7,256	4.91	273	0.18
1901	150,695	142,461	94.54	7,029	4.66	295	0.2

There was also a general increase in the important operations performed among in-patients which are summarised below :—

Names of important operations.				Number performed.	Number died.
(1) Excision of tumours	1899	...	...	2,167	7
	1900	...	...	2,051	5
	1901	...	...	2,273	8
(2) Excision of joints	1899	...	...	8	1
	1900	...	...	12	...
	1901	...	...	13	...
(3) Amputations	1899	...	...	515	19
	1900	...	...	551	20
	1901	...	...	605	16
(4) Iridectomy	1899	...	...	248	...
	1900	...	...	212	...
	1901	...	...	192	...
(5) Abdominal section	1899	...	...	59	17
	1900	...	...	56	20
	1901	...	...	75	25
(6) Operations for hernia.	1899	...	...	316	21
	1900	...	...	335	17
	1901	...	...	326	15
(7) Operations on Kidneys.	1899	...	...	3	...
	1900	...	...	2	1
	1901	...	...	4	1
(8) Removal of vesical calculi.	1899	...	...	43	6
	1900	...	...	44	1
	1901	...	...	20	1
(9) Obstetric operations	1899	...	...	1,694	112
	1900	...	...	1,763	87
	1901	...	...	1,801	112

15. *Dentistry.*—The work of the Dental Surgeon attached to the General Hospital, Madras, during the triennium is contrasted below :—

Classes		1899.		1900.		1901.	
		No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.
Classes	Europeans and Eurasians	411	...	342	...	400	...
	Muhammadans	46	...	29	...	39	...
	Hindus	514	...	522	...	620	...
	Other classes	51	...	68	...	124	...
Total		1,022	...	961	...	1,183	...
Sexes	Men	709	...	658	...	750	...
	Women	254	...	239	...	338	...
	Children	59	...	74	...	95	...
Operations	Extraction of teeth	731	...	810	...	942	...
	Filling	63	...	72	...	70	...
	Other dental operations	40	...	146	...	171	...

During the year 1901 chloroform was administered for extractions in 14 cases against 7 in the year previous; and in 23 cases against 20, treatment was refused.

16. *Selected operations.*—I wish to bring to the notice of Government the excellent surgical work done by the following officers, especially Lieutenant-Colonels Sturmer and Maitland and Captain Niblock :—

(1) Lieutenant-Colonel A. J. Sturmer, I.M.S.—

Abdominal section	...	61
Removal of vesical calculi	...	1
Operations on uterus	...	60
Obstetric operations	...	43

(2) Lieutenant-Colonel J. Maitland, I.M.S.—

Amputations	...	17

(4) Miscellaneous charges	0	0	8	0	0	8	0	0	7½
Total	0	4	10½	0	4	5½	0	4	6½

23. *General Remarks.*—(a) *Medical relief.*—Quinine was sold to the public by the Post office agency to the extent of 9,833 packets and 66 powders against 7,760 and 55, respectively, during 1900; and the sale-proceeds realized was Rs. 9,626-12-10, against Rs. 9,266-5-3. In the year 1899, only 5,662 packets and 47 powders were sold for Rs. 8,293-3-7.

(b) *Inspections.*—His Excellency the Governor visited the municipal hospitals at Conjeeveram and Cuddapah during the year.

I inspected all the medical institutions in the City of Madras, many of them more than once, and the hospitals and dispensaries at the head-quarters of 14 districts as also the hospitals at Cochin, Chittoor, Gunjur, Negapatam, Cocanada, Yercaud, Srirangam, Worior and Ootacamund.

- (1) Anantapur.
- (2) Arcot, North.

17. *Training of Medical Students.*—During 1901, 118 students of the college and the apothecary departments attended the General Hospital, Madras, for clinical instruction. Of these 12 were in their fifth, 13 in the fourth, 43 in the third and 50 in the second year of the college curriculum. Thirty-six students at the end of their first year of study also worked at the hospital during the college vacation—April to June. In each of the Government Maternity and Ophthalmic Hospital, 21 students of the college department were afforded clinical training.

18. *Training of Nurses and Midwives.*—On the 1st January 1901 there were 5 nurse probationers in the General Hospital Training school. During the year 16 joined, 3 probationers received certificates and were promoted to the third-grade and 4 left for want of educational qualifications, leaving 14 under instruction at the close of the year. Four special nurse probationers, who pay for their board, joined the school and are still undergoing training. There were 90 applications from women for admission into the school; none for the "Lady Probationers class." From the Government Maternity Hospital, 6 European and Eurasian and 17 Native nurses received diplomas as midwives, 6 Native nurses belonging to Countess of Dufferin's Fund and 1 belonging to Local Fund Boards and Municipality also received diplomas.

19. *Finance—Income.*—The chief sources of income during the triennium were—

	1899.			1900.			1901.		
	Amount.		Ratio per cent.	Amount.		Ratio per cent.	Amount.		Ratio per cent.
	RS.	A. P.		RS.	A. P.		RS.	A. P.

Total ...	15,04,223	8 4		14,52,496	13 9		15,10,655	2 1	

The contribution by Government in each of the three years in the above excludes the grant of Rs. 20,000 made by the Madras Municipality for the upkeep of the five State hospitals in the Presidency Town.

There was a progressive increase in subscriptions received during the period. In the collection from paying patients for diet, there was an increase during 1901 of Rs. 5,019-8-8 over the preceding year's collections due to the revision of rates of hospital stoppages in the Presidency Town State hospitals.

20. *Expenditure.*—The chief items of expenditure were—

	1899.			1900.			1901.		
	Amount.		Ratio per cent.	Amount.		Ratio per cent.	Amount.		Ratio per cent.
	RS.	A. P.		RS.	A. P.		RS.	A. P.
