| Do. G.—Expenditure in guarding and maintaining prisoners in subsidiary jails...                              | 71 to 73 |

# ADMINISTRATION REPORT

OF THE

## INSPECTOR-GENERAL OF PRISONS

FOR THE YEAR 1902.

No. A.

OOTACAMUND,  
11th March 1903.

From

LIEUT.-COLONEL WILLIAM O'HARA, I.M.S.,  
*Inspector-General of Prisons,*

To

THE HON'BLE MR. G. S. FORBES, I.C.S.,  
*Acting Chief Secretary to Government,  
Port St. George.*

SIR,

I have the honour to submit the annual report on the Administration of the Prison Department of the Madras Presidency for the year 1902.

Inspector-General of Prisons. 2. The office of Inspector-General of Prisons was held by me throughout the year.

3. The number of Central (7), District (10) and Subsidiary Jails (303) remained the same throughout the year. Two changes among the Sub-Jails have, however, to be noted: one, the closure of the Holme's Gardens Sub-Jail in the Chingleput district on the 31st January 1902 under G.O., No. 2037, Judicial, dated 18th December 1901; and the other, the provision of a new Sub-Jail at Kalyandrug in the Anantapur district, the construction of which as a component part of the Taluk Office was sanctioned in G.O., No. 95 W., dated 10th January 1899. This Sub-Jail was formally opened on the 26th June 1902.

## JUDICIAL STATEMENTS—GENERAL SUMMARY, STATEMENTS Nos. I to VIII AND MISCELLANEOUS STATEMENT C.

4. The following table compares the figures shown in the General Summary with those of the preceding nine years. It will be seen that during the year under report the daily average population of prisoners fell from 13,020 of the preceding year to 12,491. This reduction in numbers is attributable to improved seasons and the reduction in prices of food-stuffs. There were fewer prisoners received into and discharged from Jails in 1902 than in the two preceding years as also a smaller number remaining at the

end of the year. These results are due to the smaller number of direct admissions and to the less frequent transfers between Jails during the year :—

|                                            | 1893.     | 1894.     | 1895.    | 1896.    | 1897.     | 1898.     | 1899.     | 1900.     | 1901.     | 1902.     |
|--------------------------------------------|-----------|-----------|----------|----------|-----------|-----------|-----------|-----------|-----------|-----------|
| Remained at the commencement of the year   | 10,856    | 10,638    | 9,647    | 9,371    | 10,273    | 10,710    | 10,733    | 11,045    | 13,621    | 13,233    |
| Received during the year                   | 79,598    | 73,388    | 69,995   | 70,411   | 90,318    | 94,282    | 85,499    | 113,188   | 102,890   | 88,694    |
| Total                                      | 90,743    | 84,026    | 79,642   | 80,082   | 100,591   | 104,992   | 96,232    | 124,233   | 116,511   | 101,932   |
| Discharged from all causes during the year | 80,105    | 74,380    | 69,971   | 69,809   | 89,831    | 94,257    | 85,187    | 110,612   | 103,273   | 90,456    |
| Remained at the end of the year            | 10,638    | 9,646     | 9,671    | 10,273   | 10,710    | 10,735    | 11,045    | 13,621    | 13,238    | 11,476    |
| Daily average number.                      | 10,652.14 | 10,025.13 | 9,700.14 | 9,586.59 | 10,327.61 | 10,836.42 | 10,747.48 | 12,532.18 | 13,020.37 | 12,491.13 |

5. As regards the question of the progress of crime in the Madras Presidency it will be seen from the following figures that the proportion of prisoners to the general population has not increased, and this, in spite of the fact that the percentage of offences under 'Other Laws' to the total offences has increased during the last twenty years from 1.4 to 23.4 :—

| Year. | Ratio of prisoners to each 10,000 free population. |
|-------|----------------------------------------------------|
| 1871  | 3.4                                                |
| 1881  | 3.6                                                |
| 1891  | 2.7                                                |
| 1901  | 3.4                                                |

6. There was an appreciable decline in the admissions by direct committal, the number having fallen to 30,002 as against 37,913 in 1900 and 35,034 in 1901, the average for the previous decade being 32,532. This decrease occurred under all classes of Jails and was fairly distributed throughout the Presidency except in the districts of Ganjam, Vizagapatam and Anantapur where there was a slight increase compared with the year previous. The Penitentiary, Madras, received from Burma 57 Police registered prisoners who were natives of this Presidency and who were transferred to Madras (under G.O., No. 1086, dated 8th August 1900) previous to the expiry of their sentences. There were noticeable decreases also in the numbers of convicts transported, executed and released on expiry of sentences. The total mortality amongst the convict population was 194 as compared with 261 of the previous year while the percentage of releases under remission rules rose from 4.5 in 1901 to 5.1 in 1902.

7. The decrease in the number of under-trial prisoners received into Jail during the year under review is even more noticeable than that amongst convicts. The number of admissions fell by more than 15 per cent. as compared with the previous year and the daily average by about 20 per cent. Judged by the corresponding reduction with reference to the total population, it would appear that the average detention was for smaller periods than in the previous year. On the other hand the percentage of prisoners "convicted and sentenced" to the total number of under-trials was only 17.8 as against 18.3 in 1901. There were 55 escapes against 51 in 1901 and 54 in 1900. There were in all 26 deaths as against 22 in the previous year.

8. The daily average number of civil prisoners, 163.76, was lower than that of any year since 1895 when the daily average was 156.50. There were three deaths against none in the previous year.

9. There were 6 State prisoners in confinement in Jails during the year and no fresh admissions or releases.

10. The ratio per cent. of Muhammadan prisoners to the total population of the community was 10; of Hindus 68 and of Christians 05. The proportion of literate and illiterate prisoners to the total census population is more than twice as great in the literate as in the illiterate.

11. The variations noticeable in this statement are accidental and unimportant and call for no remark. The number of fresh admissions generally shows a decrease while the percentage of the death sentence to the total number sentenced is 19, against an average of 24 for the preceding six years.

12. It is satisfactory to note that although the methods employed for the identification of old offenders have improved, yet the percentage of previously convicted prisoners declined from 13.19 in 1901 to 12.53 in 1902 and in the case of juveniles—a class that will be separately noticed—a similar reduction from 8.3 to 7.7 is observable. The rules for the separation of habituals—particularly at night—from the general body of prisoners are carried out as far as possible in all Jails. It may be remarked that the percentage of previously convicted prisoners to the general body of prisoners is, for all India, 14.68, and for the British Jails, 50.2.

The following table, prescribed by the Government of India showing particulars of habitual offenders for the past three years, is given below :—

| 1            | 2                            |        |        | 3                                                                                                                                                            |       |       | 4                                                                                                                                                                            |       |       | 5                                                             |       |       | 6                          |       |       |

Finger-tip impressions.

13. A complete record of finger-tip impressions is maintained in all Jails.

14. The percentage of juveniles to total number of direct committals was the same as in the previous year, namely 1.95, but there has been a marked increase in the number of girls admitted to jail.

From returns received in this office it would appear that only 11 per cent. of the boys and under 3 per cent. of the girls were old offenders, and that in seven cases out of ten, their offences were of a comparatively trivial nature and against special and other laws. It appears to me somewhat inappropriate that the processes of the law should be launched against these children and that they should be consigned to jail when the alternatives of whipping, in the way of school discipline in the case of boys, and admonition or exaction of sureties from parents and guardians in the case of girls, are available. It also appears to me that if the power to deal with these children were vested in the village magistrates, such cases as picking up faggots, or grazing cattle in reserved forest, scraping earth, salt, etc., could be summarily and satisfactorily disposed of. Of the 44 boys recommended for admission into the Reformatory School, 14 only were excluded for want of accommodation. The proposals for reducing the period of detention in jails of juvenile offenders intended for ultimate transfer to the Reformatory and which were sanctioned in G.O., No. 1402, Judicial, dated 15th September 1902, have worked satisfactorily.

15. There has been a very appreciable decline of the number of escapes during the year compared with last year (31 to 19), and also compared with the average of the previous ten years (30.3). This decrease as regards the Sub-Jails may in a measure be due to the precautions ordered in G.O., No. 1288, Judicial, dated 26th August 1902, and which became necessary by the escape the year previous of 8 prisoners with sentences ranging from 1 year to transportation for life.

16. Of the escapes from Central and District Jails only one occurred from inside the jail, and that in the Vellore Central Jail. In this case the prisoner was assisted in climbing over the comparatively low wall of the closed prison by two other convicts. The escaped prisoner was speedily recaptured, and he and his associates were, on prosecution, awarded additional terms of imprisonment. The wall in question has been raised to the level of the main enclosing wall. Of the escapes from outside the jail, only that in which three prisoners escaped from the extramural quarantine of the Coimbatore Central Jail need be noticed. In this case, the prisoners appear to have forced the rivets of their ankle rings and so freed themselves from the bel-chain to which they had been secured. In all cases of escapes the officers responsible were adequately punished either by criminal prosecution or dismissal from the service. It may be remarked that, since 1898, prisoners in the Madras Presidency are ordinarily exempt from the imposition of fetters even when working extra-murally. See G.O., No. 1025, Judicial, dated 2nd July 1898.

17. There were 14,834 prison offences against 13,937 in 1901—the increase occurring chiefly under the head of offences relating to work, and to a small extent, under those relating to the possession of contraband. The Rajahmundry, Cannanore, Salem and Bellary Jails between them account for the increase which is attributed to the stricter discipline enforced. Large building operations were being conducted in these jails while the outturn of their manufactory department had to be maintained. The variations in the award of punishments are however in a large measure due to personal idiosyncrasies, and in all these jails excepting Salem there had been changes of Superintendents. The increase of punishments was for the most part under "Warnings." The ratio of total punishments to the daily average population was for the Madras Jails 141.48 while that for all India in 1901 was 191.57.

18. The ratio of the number of corporal punishments to the total number of punishments rose from 31 to 38 and this is mainly due to twelve such punishments having been awarded in the Bellary district Jail. The Superintendent explains that there was in his Jail a number of

idle and refractory habituals with whom in the interests of discipline it was impossible to deal in any other way.

| Total for 1901 |                     | 46,761                                         | 13,889                         | 3                                              | 25                      | 6                       | 11                      | 45                      | 10                           | 33                           |                                                                                                                                    |        |  |

\* The figures in this column exclude the number of prisoners moved from Jail to Jail within the Province.

19. The work of prison officers was fairly satisfactory and calls for no remarks. Except in the Criminal Lepor Ward, the 10 per cent. limit was not exceeded in any jail, though the average number employed was somewhat higher than in the previous year.

20. The most careful attention continues to be paid in working the system of remission by marks, and there can now be no doubt of the salutary effect that it exercises on the conduct and discipline of the majority of those who come under its operation—a proportionately larger number gaining release on remission each year. During the year under report, a further concession in connection with the mark system, viz., a remission of 15 days for each year of uninterrupted good conduct, was sanctioned by the Government of India, and although it is too early to judge of its results, yet it may be assumed that this new privilege will be helpful to the administration.

21. There has been no change in the diet scales in force in the Madras Jails during the year. Experience has shown that they are both suitable and sufficient for all practical purposes.

#### FINANCIAL STATEMENTS Nos. IX—XIII.

22. The gross expenditure of the Jail Department as registered in the books of my office amounted to Rs. 12,86,644, while the total expenditure recorded in the Finance Accounts was Rs. 12,86,932. The difference of Rs. 288 represents the variations in the adjustment of certain items which were erroneously classified in the Accountant-General's registers and which have been duly pointed out to him. The expenditure of 1901 aggregated Rs. 14,05,291, so that there has been a considerable reduction (amounting to Rs. 1,18,647) in the expenditure of the year under report. This decrease is almost wholly accounted for by the smaller drawings under Dietary charges in consequence of an improvement in the prices of food-grains during the year. The following table compares the expenditure of 1902 with that of 1901 under the various heads of classification:—

|                                   | 1901.    | 1902.    |
|-----------------------------------|----------|----------|
|                                   | RS.      | RS.      |
| General supervision               | 37,044   | 38,879   |
| Establishment                     | 2,55,772 | 2,85,364 |
| Dietary charges                   | 4,84,453 | 3,67,034 |
| Hospital charges                  | 26,040   | 28,939   |
| Clothing and bedding of prisoners | 25,680   | 25,267   |
| Sanitation charges                | 16,595   | 14,356   |

|                                                                           | 1901.<br>RS. | 1902.<br>RS. |

| Grand Total ... ..                                                        | 14,05,291    | 12,86,644    |

23. The most noticeable decreases occurred under Dietary charges (Rs. 1,17,419), sanitation charges (Rs. 2,239), charges for moving prisoners (Rs. 7,383) and manufactures (Rs. 36,470), while the only noticeable advances occurred under Establishment charges (Rs. 29,592) and Petty Construction and Repairs (Rs. 11,089). As regards Dietary charges, the smaller drawings are directly attributable to the fall in prices of food-stuffs, and as regards the chief cereals (rice, ragi, and cholam), it may be mentioned that the number of seers per rupee obtainable in 1902 was, respectively, 11.3, 21.6 and 21.8 as compared with 10.1, 16.5 and 16.1 in 1901. But besides this reduction in cost, the smaller daily average population is accountable for a smaller consumption. The value of rations in stock at the end of the year, as compared with that at the beginning, amounted to Rs. 45,800 as against Rs. 53,700. The reduction under sanitation charges is accounted for by the absence of serious epidemics during the year. The decline under charges for moving prisoners is due to there being no expenditure, as in the previous year, for the removal of Burman convicts from Madras to Burma, and also to the smaller number of admissions and fewer transfers between Jails during the year under report. The smaller drawings under manufactures may be set down chiefly to the smaller requirements of the Penitentiary, Madras, where a large stock of raw materials laid in at the end of the previous year was utilized during 1902, the amount drawn from the Treasury being Rs. 1,20,393 as against Rs. 1,58,916 in 1901. The advance under establishment charges is due to the debit of thirteen months' salaries against eleven months' salaries in the preceding year, and also, in part, to the debit of salary drawn by Captain Browne during the period of his training (three months) at the Central Jail, Coimbatore. The expenditure under Petty Construction and Repairs was specially

restricted in the previous year and as explained in paragraph 26 of the Report for 1901 was due to the action taken early in that year by this office in deferring the construction of all works which were not of a very urgent character in order to meet more pressing requirements in other departments of the administration. The expenditure in 1902 was under the normal and calls for no special remark.

24. The difference between the total expenditure as given in paragraph 22 *supra* and that of Statement No. IX, namely, Rs. 8,01,067, amounts to Rs. 4,85,577 and is thus accounted for:—

| Amounts deducted from total expenditure—                                            | RS.      |
|-------------------------------------------------------------------------------------|----------|

25. The total expenditure decreased in all classes of Jails and the net result was a reduction in the cost per head (amounting to Rs. 4-10-0), i.e., from Rs. 68-12-1 to Rs. 64-2-1. The average cost of guarding and maintaining a prisoner was Rs. 64-14-0 in Central Jails, Rs. 63-14-0 in District Jails and Rs. 61-14-5 in Subsidiary Jails.

26. Turning to individual Jails, it will be noticed that there is considerable difference in the incidence of expenditure under this head. The variations are attributable to fluctuations in the average daily population and also to the operation of the new scheme of reorganization of the class of Assistant Jailors sanctioned in G.O., No. 927, Judicial, dated 24th June 1901, according to which these officers are employed in Central or District Jails without reference to their grade salaries.

27. The average cost per head in Central and District Jails declined from Rs. 37-12-4 and Rs. 34-8-1 to Rs. 27-6-7 and Rs. 27-1-6 respectively, the reduction being noticeable under each individual Jail. The Rajahmundry, Coimbatore, Russellkonda and Nellore Jails show a low average cost for the reason that these Jails had considerable stocks remaining over from the previous year's purchase and hence made smaller drawings. The cost per head under dieting charges, after allowing for increase or decrease in the value of stocks of rations at the close as compared with those at the beginning of the year, is exhibited in Statement E in Appendix II (a statement not authorized by the Government of India). According to this statement the average cost in Central Jails was Rs. 28-4-2 against Rs. 34-9-0 in 1901 and Rs. 27-10-10 in District Jails against Rs. 33-5-1 in 1901. Excepting the Penitentiary, which as usual shows a rate above the average in consequence of its limited garden and the greater costliness of food-stuffs in the Presidency town, and also the presence of a European element in its population for which a more expensive diet is provided, the only other Central Jails which show a rate above the average are the Trichinopoly and Coimbatore Jails. The Superintendent of the Trichinopoly Jail explains that the want of water crippled the "large" garden for many months, that under medical

requisition cholam (a more expensive grain) was issued in place of ragi, and the price of mutton was raised owing to the proximity of the Boer camp. The Coimbatore Jail opened the year with a large stock of rations valued at Rs. 9,531 which was purchased in 1901 at much dearer rates than those paid for similar articles in 1902. This had the effect of reducing the drawings in Statement No. IX (from Rs. 49,000 to Rs. 33,000) and of increasing the cost per head in Statement E. As regards District Jails, the highest rates are shown by the Bellary, Nellore and Cuddalore Jails; but the prices of the chief cereals were not so favourable in the Ceded and Central districts as in other parts of the Presidency, and this accounts for the higher rates shown.

28. There was an increase in the total cost of Rs. 1,778 in spite of a reduction in the daily average number sick from 314 to 272. This increase is accounted for by the enhanced cost of hospital supplies other than diet in the Rajahmundry, Vellore and Coimbatore Jails. The value of the supplies made by the Medical Store Department to these Jails in 1901 was adjusted only in the early part of 1902. The Trichinopoly Central Jail shows the highest expenditure under diet of prisoners sick in hospital, the cost per head being Rs. 213-7-2 against an average for Central Jails of Rs. 127-1-11. This Jail had a large number of bad phthisical cases as well as a large number of old and decrepit prisoners, and the Superintendent explains that the increased expenditure was due to the issue of "extra rations on medical requisition." Among District Jails, the Mangalore Jail shows the highest cost per head, but here the daily average number sick was 2-64 as against 1-55 in 1901, and the Superintendent reports that the increase was due to the treatment of bad cases. The small increases noted against other Jails call for no special remarks.

29. The Coimbatore, Vizagapatam and Mangalore Jails each indented for a supply of cumblies during the year, while the Bellary Jail obtained a supply of coir mats in addition to the usual convict clothing and, therefore, these four Jails show a rate higher than the average for their respective classes.

30. The Trichinopoly Jail incurred expenditure for the erection of temporary sheds in the Jail camping ground in 1901 when the Jail was threatened with an outbreak of cholera, but, owing to unavoidable circumstances, the amount was only paid in 1902. Besides, this Jail has to pay a large annual contribution towards the water-supply. Hence the cost per head under sanitation charges is above the average. The Penitentiary, Madras, also incurs a heavy expenditure on municipal water-supply. The Vizagapatam Jail paid water-taxes leviable in 1901 in 1902, and this increased the rate accordingly in this Jail. The Nellore Jail incurs special expenditure for the removal of night-soil, while the Palamcottah Jail was compelled to move a portion of its prisoners into camp on the occurrence of cholera in one of the blocks of the Jail.

31. The charges in individual Jails depend upon the numbers of transfers made in consequence of overcrowding, upon the distance to which the prisoners are transferred, and upon the numbers released at a distance from their homes, while a low daily average population also affects the cost per head. These reasons explain the varying rates shown by individual Jails. In this connection it may be mentioned that, owing to the inconvenience that would have been occasioned in the work of selecting prisoners for Coronation releases, the second half-yearly transfer of habituels was not carried out.

32. The only sub-head calling for remarks is "Uniform and accoutrements for warders," the charges under which show an increase against several Jails where warders' cumblies were renewed or fresh leather accoutrements indented for. New buttons and crowns were also supplied to certain Jails: these articles are only renewed once in five years and three years, respectively, and in this connection it may be remarked that the new pattern Tudor Crown approved by His Majesty King Edward VII is being adopted in accordance with the orders of Government.

33. The increased expenditure under Postage and Telegraph charges was due to the special and urgent correspondence entailed in connection with the Coronation releases.

34. The provision of conservancy carts, aluminium moulds, and live-stock, &c., explains the larger amounts shown against particular Jails under the respective sub-heads concerned.

35. The total expenditure under Subsidiary Jails as shown in Statement G which corresponds to Statement No. IX in the case of Central and District Jails amounted to Rs. 1,29,552 against Rs. 1,51,860 in 1901. The decrease, equivalent to Rs. 22,308, occurred, as, in the case of the larger Jails, chiefly under Dietary charges, the increases and decreases under other heads counterbalancing one another. The decrease in the total cost amounted to 14-6 per cent., while the daily average number of prisoners in Sub-Jails declined by 17-9 per cent. and as a result the cost per head has risen from Rs. 59-8-9 to Rs. 61-14-5 notwithstanding a large reduction in the total expenditure. The management of this class of Jails is under the direct control of the District Magistrates and no special remarks are called for. The Calicut and Koraput Sub-Jails which are under the immediate supervision of this office show, as usual, a lower cost per head under Diet than other Sub-Jails in the Presidency.

36. As might be expected from a reduced average daily population, the numbers of convicts employed on various occupations also declined except those under the following heads:—(i) prison officers, (ii) gardening and (iii) additions and alterations to Jail buildings under the Public Works Department. The rise in the number of prison officers is chiefly noticeable in the case of the Rajahmundry, Berhampur and Vizagapatam Jails. In the Rajahmundry Jail, a scheme for reduction of Warder Establishment in conjunction with the employment of extra convict work overseers was tentatively tried during the year and has been found to work well. The question of its general adoption and introduction into other Jails is still under consideration, and if the scheme should prove advantageous from all points of view, the proposals will be duly formulated and submitted to Government for sanction. In the Berhampur Jail, the system of watch and ward by night had been imperfectly carried out, and the increase in the number of prison officers is due to the adoption of remedial measures in accordance with prison regulations. As regards the Vizagapatam Jail, it may be mentioned that though the permanent warder strength was based on an average prison population of 300 and the employment of convict warders was not recommended for this Jail as in the case of the Bellary, Tanjore and Palamcottah Jails, yet the daily average population has for several years past ranged between 500 and 600. Owing to the warder force being undermanned and frequent break downs resulting therefrom, the employment of convict warders was provisionally introduced into this Jail for the first time during the year and with marked success. The formal sanction of Government to this arrangement will be duly applied for. The Superintendents of the Rajahmundry, Cannanore, Salem and Bellary Jails undertook the construction of several works (on Jail buildings) for the Public Works Department during the year, and these Jails show a larger number employed under this head in consequence. The extension of gardening and farming operations in the Rajahmundry and Vizagapatam Jails account for the increase noted in the number employed on gardening. In respect to "prison servants," it will be observed that the ten per cent. limit fixed by Government was not exceeded in any Jail, except Rajahmundry where the increase was trifling.

37. The total amount remitted into the Treasury under manufactory receipts according to the registers of my office was Rs. 5,56,717-1-2 as against Rs. 5,56,999-4-11 recorded in the Accountant-General's books. The difference is partly accounted for by the erroneous classification referred to in paragraph 22 *supra*, and partly by the inclusion of a sum of Rs. 55-6-0 remitted into the Bank of Bombay to the credit of the Coimbatore Jail manufactures, and which finds no place in the local Finance accounts. The drawings on manufacturing account aggregated Rs. 3,96,561-13-0.

against Rs. 4,33,032-5-0 in 1901, while the payments into the treasuries aggregated Rs. 5,52,573, against Rs. 5,75,040 in 1901, the cash earnings amounting to Rs. 1,58,265 in 1902 as compared with Rs. 1,39,953 in the previous year. These satisfactory results were obtained notwithstanding a small reduction in the number employed on manufactures. The Penitentiary, Madras, and the Coimbatore, Trichinopoly and Salem Jails, among Central Jails, show larger cash earnings as compared with the previous year, while among District Jails may be particularly mentioned the Cuddalore, Madura, Berhampur and Nellore Jails. The results of manufacturing operations show a steady advance from 1899, and if the year 1898 (in which the cash receipts were unduly swollen by the adjustments of the values of supplies made in 1897 when the recorded earnings were very small) be excepted, the results of 1902 may be regarded as the highest on record in respect to *cash earnings*.

38. The net results of manufacturing operations as set forth in this statement also show a considerable advance over those of the previous year. If the year 1900, when the circumstances in respect to the receipt of large orders from Government Departments were exceptional, be excepted, the results according to this statement may also be regarded as particularly good. The decline noticeable in the Penitentiary and Salem Jails as compared with the previous year is due to the smaller average number employed on manufactures. In the former Jail, the cause for the employment of a smaller number of prisoners is attributable to smaller orders received from Government Departments, while in the latter, a very large number of prisoners was withdrawn for the construction of 224 cells—a large public work undertaken by the Superintendent and whereby a considerable saving on the estimates is expected to accrue to Government. The reduced earnings in the Bellary Jail are attributed to the use of shorn wool in lieu of chunam wool during the first half of the year in the manufacture of a new pattern of cumby for the Police Department. On the whole the general results cannot be regarded as other than very satisfactory.

39. The net cost per prisoner amounted to Rs. 51-7-0 against Rs. 58 in 1901—a reduction of Rs. 6-9-0 per head distributed amongst Central and District Jails, whilst Subsidiary Jails show a slight increase.

40. The value of military supplies made by Jails during the year amounted to Rs. 1,85,735 as compared with Rs. 1,95,966 in 1901 and Rs. 1,92,599 in 1900. This information is given as directed in Government of India, Home Department, Resolution No. 417, dated 24th September 1895.

41. The estimated value of articles manufactured and supplied by Jails for Jail use and consumption is furnished below :—

|                                | 1901.  | 1902.  |
|--------------------------------|--------|--------|
|                                | RS.    | RS.    |
| Clothing and bedding ... ..    | 34,603 | 36,603 |
| Garden and farm produce ... .. | 17,892 | 19,765 |

The value of convict labour supplied to the Public Works Department during the year in connection with building operations is reported to have amounted to Rs. 9,745-13-10 as compared with Rs. 2,402-8-5 in 1901.

#### VITAL STATEMENTS Nos. XIV to XVII AND MISCELLANEOUS STATEMENT B.

42. Judged by the mortality and sick returns, a high standard of health was maintained throughout the year. The death-rate recorded was only 17·8 per mille as against an average of 27·5 during the previous five years; while the ratio per mille of daily average was lower than in any year during the past ten. These very satisfactory

Vital Statement No. XIV—Sickness and mortality in 1902.

results are in a great measure ascribable to the care and attention of Medical Officers and Superintendents and their personal supervision of all matters relating to diet, labour and prison hygiene. The following table exhibits the chief features of Vital Statement No. XIV for a period of ten years :—

| Years.   | Daily average number of prisoners. | Daily average sick. | Ratio per mille of daily sick. | Deaths        |                    |        | Death-rate    |                    |        |
|----------|------------------------------------|---------------------|--------------------------------|---------------|--------------------|--------|---------------|--------------------|--------|
|          |                                    |                     |                                | From cholera. | From other causes. | Total. | From cholera. | From other causes. | Total. |
| 1893 ... | 10,652                             | 238                 | 22·3                           | 28            | 224                | 247    | 2·2           | 21·0               | 23·2   |

| 1895 ... | 9,790                              | 257                 | 26·2                           | 11            | 167                | 178    | 1·1           | 17·1               | 18·2   |
| 1896 ... | 9,587                              | 244                 | 25·5                           | 7             | 181                | 187    | ·6            | 18·9               | 19·5   |
| 1897 ... | 10,328                             | 312                 | 30·2                           | 236           | 254                | 490    | 22·9          | 24·6               | 47·5   |
| 1898 ... | 10,936                             | 294                 | 26·9                           | 9             | 278                | 287    | ·8            | 25·4               | 26·2   |
| 1899 ... | 10,747                             | 235                 | 21·9                           | 11            | 171                | 182    | 1·0           | 15·9               | 16·9   |
| 1900 ... | 12,832                             | 289                 | 22·5                           | 55            | 271                | 326    | 4·3           | 21·1               | 25·4   |
| 1901 ... | 13,020                             | 314                 | 24·1                           | 46            | 237                | 283    | 3·5           | 18·2               | 21·7   |
| 1902 ... | 12,401                             | 272                 | 21·8                           | 7             | 216                | 223    | ·5            | 17·3               | 17·8   |

43. The decline in the rate of mortality as compared with the previous year is shown under all classes of Jails: in Central Jails by a reduction of 3·76; District Jails 7·44 and Sub-Jails 57 per cent.

| Classes of jails.              | 1897.   |             | 1898.   |             | 1899.   |             | 1900.   |             | 1901.   |             | 1902.   |             |

44. In none of the Jails of this class did the mortality exceed 30 per mille, but both the Jails of Trichinopoly and Rajahmundry exceeded the average for Central Jails. In the Trichinopoly Central Jail the death-rate was lower than in any year since 1897 and the Medical Officer reports that 23 of the 29 deaths occurred in persons admitted in indifferent or bad health and that the remaining 6 succumbed to acute inflammatory diseases. As regards Rajahmundry the death-rate, which had been steadily declining since 1899, increased during the year under report, but can hardly be regarded as abnormal seeing that the mortality rate for the municipal town was about 19 per cent. in advance of that for the Jail. Of the causes of mortality, out of a total of 33 deaths there were 7 from pulmonary tuberculosis, but no less than 6 of these were admitted into Jail in indifferent or bad health—actually diagnosed as suffering from phthisis or suspected to be: again dysentery accounts for 6 deaths, but of these only one man was admitted into Jail in good health. Under malaria there are 5 deaths and of these men three were already debilitated by malaria. Pneumonia accounted for

4 deaths and inflammation of intestines for 2, while the remaining 9 deaths were all due to different causes. The health conditions of both the Trichinopoly and Rajahmundry Central Jails, as exhibited in the record of their Vital Statistics, were under very careful observation and both these Jails were twice visited by the Inspector-General during the year. Surgeon-General Sinclair reports in his remarks of inspection—Rajahmundry: "Both the Superintendent and Medical Officer are keenly alive to the importance of maintaining the prisoners in a state of good health and are doing their utmost to the attainment of this end."

45. Of the District Jails only those of Tanjore and Cuddalore show a mortality rate in excess of 30 per mille. As regards the former, the District Jails. Medical Superintendent, Lieutenant-Colonel Nailer, reports the increased mortality as due to the large number of sick admitted to Hospital and that these were in indifferent or bad health on admission to Jail; and as regards Cuddalore, Lieutenant-Colonel Marsden remarks: "the first three deaths in the year were chronic cases that were lingering from the previous year, the cases of tubercular meningitis and septicæmia were found ill and were put under treatment on admission to Jail, and another case of tubercle of lungs and intestines was admitted to Jail in a moribund condition and died on the fourth day. The mortality was not due to any defects in the Jail."

46. The District Jails of Madura and Vizagapatam show a death-rate of only 16.89 and 7.70, respectively, against 84.61 and 25.92 of last year. The Russellkonda Hill Jail and the Civil Jail, Madras, return clean casualty sheets.

47. There were 30 deaths as against 38 in 1901. The districts of Malabar, Salem, Vizagapatam and Cuddapah account for 23. Amongst the causes of death are found cholera (4 cases), bubonic plague (1), traumatic tetanus (2), gunshot (1) and suicide (1).

48. The following table compares the ratio of admissions and deaths from special diseases amongst the convict population of Central and District Jails for a period of four years:—

| Diseases.                                                                          | Ratio per mille of average strength. |         |                  |         |                  |         |                  |         |
|------------------------------------------------------------------------------------|--------------------------------------|---------|------------------|---------|------------------|---------|------------------|---------|
|                                                                                    | 1899.                                |         | 1900.            |         | 1901.            |         | 1902.            |         |
|                                                                                    | Admis-<br>sions.                     | Deaths. | Admis-<br>sions. | Deaths. | Admis-<br>sions. | Deaths. | Admis-<br>sions. | Deaths. |

49. With the exception of Palamcottah District Jail, all Jails in the Presidency enjoyed an immunity from cholera. In Palamcottah, the disease was prevalent in the town and district, and three attacks, all of which proved fatal, occurred in the Jail.

50. Compared with last year there was a material decrease in the number of admissions for this disease. The reduction in admissions approximated 30 per cent. and of deaths over 34 per cent.

51. Although there has been a reduction of 23.6 per cent. in the number of admissions under this head, the rate of mortality has advanced from 7 to 8 per mille (there being 8 deaths during the year as compared with 7 during the year previous). It must, however, be explained in this connection that the Medical Officer, Rajahmundry, brings to notice that in the year under review, trivial ephemeral cases were treated by detention and not as in

previous years by admission to Hospital. In this Jail, where the effects of malaria are most in evidence, not only was prophylaxis by quinine resorted to, but every endeavour was made by the Jail authorities to destroy the larvæ of the anopheles in the vicinity of the Jail.

52. There has been a slight decline in the number of admissions and deaths compared with last year's figures. In the Central Jail, Trichinopoly, this decrease is very marked, but in the Rajahmundry Central Jail there has been a considerable rise both in admissions and deaths as also in the District Jails of Bellary and Cuddalore. It would appear from the reports of Medical Officers that, in almost all fatal cases, the disease was either diagnosed on admission, or that it might be presumed to have been latent, seeing that the patients were in a bad or indifferent state of health. As regards G.O. No. 1118, Public, dated 30th November 1902, it may be stated that patients suffering from tubercular diseases are, in all jails of this Presidency, separated from the general body of prisoners, that measures are taken for the thorough disinfection and destruction of infective excreta, that open air treatment is as far as possible enforced and that plans are being considered for the provision of specially constructed wards for all jails.

53. One case of hydrophobia and two of septicæmia proved fatal; in both, the patients contracted the diseases previous to admission. The prevalence of plague in the vicinity of several jails has been a constant source of anxiety. All possible precautionary measures that could be devised were put into operation with the result that only a single prisoner (who eventually recovered) was attacked.

54. The variations are insignificant and call for no remark.

55. The general results exhibited by this statement are favourable as considerably more than half the number of prisoners gained weight and about one-fifth retained their original weight. The percentage of loss, though exceeding that of the preceding two years, was below the average for the past five years.

Percentage to total discharges of prisoners who lost weight in Jail.

### MISCELLANEOUS STATEMENTS A AND D, AND CONCLUDING REMARKS.

56. The total available accommodation in Central and District Jails at the end of 1902 amounted to 11,157 as compared with 11,117 at the end of 1901. During the year under report, 25 cells were added to the Cannanore Jail, 14 cells to the Nellore Jail and 2 cells to the Madura Jail, while the Barrack accommodation in the hospital at Cuddalore was reduced by one, owing to a previous error in computation of cubical capacity. In consequence of a smaller average population and increased accommodation there was less congestion in jails than in the previous year. In those jails where the permanent accommodation for male convicts was not sufficient, overcrowding was averted by timely transfers to other jails, and in urgent cases by accommodating surplus prisoners in other available wards or in the workshops or in the temporary sheds.

| District Jails ... ..      | 3,158          | 138      | 3,296  | 3,112.35          | 57.98    | 3,170.33  |
| Criminal Leper Ward ... .. | 23             | ...      | 23     | 15.93             | ...      | 15.93     |
| Civil Jail, Madras ... ..  | 81             | ...      | 81     | 28.44             | ...      | 28.44     |
| Total ... ..               | 10,747         | 410      | 11,157 | 10,183.40         | 214.72   | 10,398.21 |

During the year, the Government sanctioned a large number of estimates for the construction of additional cells in various jails and at the close of the year no less than 608 cells were in course of construction. When these are completed, the total cellular accommodation will amount to 3,201 or 27.2 per cent. of the total accommodation. In 1892 out of a total accommodation of 11,275 there were only 1,265, cells equivalent to 11.2 per cent. of the total, so that within the past decade considerable progress has been made in providing cellular accommodation—the best form of incarceration—for criminals.

57. The following table, extracted from statement D, shows the numbers of offences of prisoners sentenced under the Indian Penal Code and under Local and Special Laws, for 1901 and 1902:—

| Year.       | Number of prisoners imprisoned for |                            |        | Percentage of column 2 to 4. | Percentage of column 3 to 4. |
|-------------|------------------------------------|----------------------------|--------|------------------------------|------------------------------|
|             | Offences under Penal Code.         | Offences under other Laws. | Total. |                              |                              |
| 1           | 2                                  | 3                          | 4      | 5                            | 6                            |
| 1901 ... .. | 19,904                             | 15,068                     | 35,032 | 57.0                         | 43.0                         |
| 1902 ... .. | 17,901                             | 12,097                     | 29,998 | 59.7                         | 40.3                         |

The figures for 1902 as distributed between the larger jails and subsidiary jails are as follow:—

|                  | Penal Code. | Other Laws. | Total. |
|------------------|-------------|-------------|--------|
| Jails ... ..     | 13,852      | 3,819       | 17,671 |
| Sub-Jails ... .. | 4,049       | 8,278       | 12,327 |
| Total ... ..     | 17,901      | 12,097      | 29,998 |

There was a slight reduction in the percentage of convictions under other laws as compared with 1901.

58. The imposition of fetters as a punishment for offences against prison discipline continues to find favour with Superintendents who prefer this mode of punishment to most others. There were 4,959 such punishments against 4,596 in 1901, while for purposes of safe custody fetters were resorted to in 162 cases against 167 the year previous.

59. There were 224 visits paid by non-official visitors as compared with 202 in 1901. The Rev. F. J. McCready failed to visit the Central Jail at Rajahmundry during the year. M.R.Ry. G. Narayanaswami Chetti, who has evinced a keen interest in prison reform, paid no less than 50 visits to the prisons in the Presidency Town. M.R.Ry. T. Narasinga Row and Haji Mahomed Nazirudin Sahib paid 32 and 26 visits to the Salem and Presidency Town prisons respectively. The Sessions Judges of Tanjore and Palamcottah omitted to visit the jails at these stations. The Surgeon-General with the Government of Madras inspected every Central and District Jail in the Presidency with the exception of the Cuddalore and Russellkonda Jails. The Sanitary Commissioner visited five jails including Cuddalore.

60. Every Central and District Jail (excepting Mangalore exempted under sanction of Government) was inspected by me once during the year, but the Penitentiary, Rajahmundry, Trichinopoly and Coimbatore Jails were inspected twice. Eighteen sub-jails, the Reformatory and the Lunatic Asylums of Madras, Calicut and Vizagapatam were also visited during the year.

61. (i) A reduction in the number of prisoners as compared with the criminal population of the previous year.

(ii) An exceptionally favourable year as regards general health conditions—the sick rate being the *lowest* during the decade with a correspondingly low death-rate, the latter being lower than that of any year except 1899.

(iii) A considerable reduction in the cost of maintenance of prisoners chiefly under diet owing to a fall in the prices of food-stuffs.

(iv) A considerable improvement in the outturn of manufactures—the cash earnings being much in advance of the previous year.

(v) A special advance in the provision of cellular accommodation in Central and District Jails in the immediate interests of prison discipline and reform.

(vi) Continued evidences of watchful and efficient administration and supervision by Jail Superintendents and Medical Officers.

62. The very favourable results achieved in all branches of the administration during the year under review have been due to assiduous care and constant attention of the Superintendents, Medical Officers and Jail staff generally. Among those officers who have been specially successful or have had to contend with unusual difficulties, I may mention the following:—Messrs. Gadsden, Cloney, Young, Major Vickers, Lt.-Col. Thomas and Mr. H. E. Upshon. Of Jailors, the names of Messrs. Lynsdale, Marshall, Subrahmanya Aiyar and Titus have been specially brought to notice.

Administrative changes and improvements. 63. The principal events of administrative interest were:—

(i) Improved arrangements for reducing the time occupied in the removal of youthful offenders from jails to the Reformatory—G.O., No. 1402, Judicial, dated 15th September 1902.

(ii) The extension of the scheme for the concentration of sub-jail prisoners to sixteen districts in the Presidency with a view to make the imprisonment of petty offenders more deterrent wherever possible—G.O., No. 1786, Judicial, dated 24th November 1902.

(iii) The introduction of the concession sanctioned by the Government of India, whereby a special remission of fifteen days is granted to prisoners for each year of uninterrupted good conduct spent in jail—G.O., No. 1074, Judicial, dated 3th July 1902.

(iv) The adoption of special precautions for guarding long-term convicts and notorious criminals temporarily confined in sub-jails—G.O., No. 1288, Judicial, dated 26th August 1902.

(v) The undertaking of large works of construction in several jails by Superintendents (under Departmental Agency) in the capacity of Public Works Disbursers—particularly at Salem, Coimbatore and Bellary.

(vi) Arrangements for the provision of high power microscopes with a view to placing these instruments within the reach of Medical Officers and Medical Superintendents of Jails—G.O., No. 679, Public, dated 10th July 1902.

(vii) Arrangements for the replacement of snider arms by Martini-Henry carbines and rifles for the use of the Jail Warder Guard—G.O., No. 1700, Judicial, dated 10th November 1902.

(viii) The revision of accommodation in sub-jails by the Agency of the Public Works Department with a view to the rectification of errors reported by inspecting officers.

(ix) The exhibition of jail manufactured articles at the Cocanada Industrial and Delhi Art Exhibitions.

(x) The inspection of certain large manufacturing Jails by a special officer of the Supply and Transport Department with a view to the adaptation of jail-made goods to meet the requirements of the Supply and Transport Department as far as possible.

(xi) The submission of a proposal to Government for the construction of a new Presidency Jail near but outside Madras befitting the Presidency Town and on the latest approved cellular principle—See G.O., No. 19, Judicial, dated 13th January 1903.

(xii) The completion of preliminary arrangements for the celebration of His Majesty's Coronation on 1st January 1903 in regard to the special releases and emissions of sentence in the case of deserving prisoners.

64. The total expenditure incurred on jail buildings by the Jail and Public Works Departments amounted to Rs. 2,43,507-15-2 as compared with Rs. 85,779-10-5 in 1901, and Rs. 95,384-9-2 in 1900. The following table shows the distribution of the expenditure among the several classes of jails :—

|                                                        | By the Jail Department. |    |    | By the Public Works Department. |    |    |
|--------------------------------------------------------|-------------------------|----|----|---------------------------------|----|----|
|                                                        | RS.                     | A. | P. | RS.                             | A. | P. |
| Central Jails                                          | 23,354                  | 7  | 7  | 1,48,470                        | 0  | 0  |
| District Jails                                         | 10,317                  | 8  | 10 | 51,667                          | 2  | 1  |
| Civil Jail, Madras                                     |                         | 5  | 15 | 169                             | 6  | 5  |
| Subsidiary Jails                                       | 1,240                   | 5  | 5  | 8,229                           | 7  | 10 |
| Office of the Inspector-General of Prisons, Ootacamund |                         |    |    | 53                              | 9  | 6  |
| Total                                                  | 34,918                  | 5  | 4  | 2,08,589                        | 9  | 10 |

The reason for the larger expenditure recorded in the year under review will be apparent from what has already been said in paragraph 56 *supra*, regarding the construction of additional cells in several Jails.

65. The expenditure incurred on account of the construction of 16 Warders' huts at the Hill Jail, Russellkonda, and 18 huts at the Sub-Jail, Koraput, amounted to Rs. 1,215-6-8 out of sanctioned estimates for Rs. 11,330. This information is given with reference to G.O., No. 2446, Judicial, dated 6th October 1894.

66. The prescribed rules in regard to the maintenance of service registers were duly observed. All valuable stock is duly entered in a special register. The periodical destruction of office records is being duly carried out.

67. The Annual Reports of the Superintendents of Central Jails, including the Penitentiary, are herewith forwarded (as directed in G.O., No. 491, Judicial, dated 19th March 1874) for perusal and favour of return.

I have the honour to be,

Sir,

Your most obedient servant,

WILLIAM O'HARA, Lieut.-Col., I.M.S.,  
*Inspector-General of Prisons.*

## No. VIII.—(JUDICIAL)—continued.

*Ingredients and Instructions for European and East Indian Diets.*

|                |                                                                                                                                                                  |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| read .. ..     | Brown, best.                                                                                                                                                     |
| ffee .. ..     | To make 1 pint, $\frac{1}{2}$ oz. coffee and $\frac{3}{4}$ oz. sugar.                                                                                            |
| oup .. ..      | In every pint, $4\frac{1}{2}$ oz. meat without bone, 6 oz. fresh vegetables, 1 oz. dhāl meal, 1 oz. rice flour and 1 oz. onions, salt, pepper, parsley and mint. |
| net pudding .. | 5 oz. flour and $\frac{3}{4}$ oz. suet and salt.                                                                                                                 |
| eat .. ..      | Beef or mutton weighed in a raw state exclusive of bone. When meat is issued with bone, an addition of 25 per cent. is made.                                     |
| ulligatany ..  | To make 1 pint, curry-stuff $\frac{1}{2}$ oz., $4\frac{1}{2}$ oz. mutton, 1 oz. dhāl meal, onions and salt.                                                      |
| rucl .. ..     | To make 1 pint, 2 oz. rolong and 1 oz. sugar.                                                                                                                    |
| ea .. ..       | To make 1 pint, $\frac{1}{4}$ oz. tea and $\frac{3}{4}$ oz. sugar.                                                                                               |

Suet pudding will not be issued to prisoners when their sentence does not exceed three months, or until the expiration of three months when their sentence exceeds that period, but the increased ration of rice allowed for females and non-labouring males is issued in lieu of pudding.

For Portuguese and East Indian prisoners for whom the Medical Officer considers the above diets of suitable, a dietary similar to that prescribed for foreign convicts is issued with the addition of 1 pint of coffee a day (made with  $\frac{3}{4}$  lb. coffee and  $\frac{3}{4}$  lb. sugar a week), and four hoppers weighing 2 oz. each when cooked.

\* Curry-powder is prepared according to sanctioned recipe as follows:—

|                        | oz. | lbs. |
|------------------------|-----|------|
| Chillies ... ..        | 3   | 8    |
| Coriander seeds ... .. | 3   | 0    |
| Turmeric ... ..        | 3   | 0    |

## PUNISHMENT DIETS.

## A.—EUROPEANS AND EAST INDIANS.

## BREAD-AND-WATER DIET.

1½ lb. bread per diem with water.

The entire period, for which any single term of this diet is ordered, does not exceed four days. No task of labour is enforced on any day on which this diet is supplied to the prisoner.

No prisoner who has been upon this scale for a period of four days continuously is again placed upon it for a fresh offence until the expiration of an interval of one week, during which interval he receives the ordinary diet of the prison.

## B.—NATIVE AND FOREIGN CONVICTS.

## BREAD-AND-WATER DIET.

Morning meal ... Ragi flour sifted 6 oz. with ¼ oz. salt made into thick coujee.

Evening meal ... Ragi flour sifted 6 oz. with ¼ oz. salt made into an unleavened cake or cakes.

The entire period, for which any single term of this diet is ordered, does not exceed four days. No task of labour is enforced on any day on which this diet is supplied to the prisoner.

No prisoner who has been upon this scale for a period of four days continuously is again placed upon it for a fresh offence until the expiration of an interval of one week, during which interval he receives the ordinary diet of the prison.

## No. IX.—(FINANCIAL).

Statement showing the expenditure in guarding and maintaining the prisoners in the jails and subsidiary jails of the Madras Presidency during the year 1902, excluding the cost of building new jails, of additions, alterations and repairs.

NOTE.—The figures in columns 4, 5, 6, 11, 12 and 13 show the value of stock or machinery after the necessary deductions for depreciation have been made, and those in columns 7 and 14 the amount of bills receivable after deducting the bills written off.

\* Includes Rs. 55 6 remitted into the Bank of Bombay.

STATEMENT E.

Statement showing the cost per head under Diet after allowing for increase or decrease in the value of the stock of rations at the close as compared with that at the beginning of the year.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following paper :—

From the Acting Inspector-General of Prisons, Madras, dated 11th April 1903, No. A.

ORDER—No. 759, Judicial, dated 30th May 1903.

The report on the administration of the Prison department for 1902 is on the whole satisfactory. The daily average population decreased, mortality was low, the cost of maintenance of prisoners diminished, the outturn of manufactures improved and progress was made in the provision of cellular accommodation.

2. Although the total number of convicts admitted during 1902 fell by over 5,000, it is observed that there was no corresponding diminution in the proportion of literate criminals. In 1901 these formed 10·9 per cent. of the total number admitted while in 1902 they constituted 12·4 per cent. The increase is contributed largely by those who are able to both read and write. Turning to the classification of prisoners according to their avocations it is found that the number of persons employed under Government or Municipal or other local bodies, as well as those engaged in commerce and trade, have rateably increased. The decrease in the percentage of persons previously convicted to those admitted is satisfactory. The total number of prisoners who escaped during 1902 was 19 against 31 in 1901. The number of recaptures was 29. A convict who escaped from the jail hospital at Cannanore in June 1892 was recaptured in September last. He had escaped previously from a sub-jail. He was awarded a year's rigorous imprisonment for the two offences.

3. Last year the Government called the attention of all Magistrates to the inexpediency of committing juveniles to prison except when no other alternative was possible. It is observed that there has been a noticeable decrease in the number of male juveniles admitted. At the same time the percentage of juveniles to the total number of prisoners admitted did not fall, and there was an increase of 43 in the number of girls admitted. By G.O., No. 934, Judicial, dated 2nd July 1897, the Government authorised all Magistrates of the first class to exercise the powers conferred by section 5 of Reformatory Schools Act, 1897; such Magistrates have therefore also the power to deal with boys under 15 years of age under section 31 of that Act, while any other Magistrate may under section 9 and section 31 (4) submit his proceedings to the District Magistrate in any case in which he considers it desirable that action should be taken under section 8 or section 31 of the Act. In certain cases in which it is not considered desirable either to order a boy's detention in a reformatory or his discharge after due admonition or his delivery to his parent or guardian, it will frequently be proper to take action under section 5 of the Whipping Act where that section can be applied, while a Magistrate not empowered to award a sentence of whipping may under section 349 of the Code of Criminal Procedure submit to the District or Sub-Divisional Magistrate any case in which he considers that a boy under 16 years of age should be sentenced to whipping. The Government consider that, although the number of boys under 16 years of age who were committed to jail fell from 656 in 1901 to 489 in 1902, the number of boys committed to jail might be

7. The total death-rate was 17·8 per mille, as compared with 21·4 in 1901 and an average of 27·5 during the previous five years. All the jails except the Palamcottah district jail enjoyed immunity from cholera. Among the central jails the death-rate was highest in Trichinopoly and Rajahmundry. In the former, however, the death-rate was lower than in any other year during the last five years, while in the latter it was 19 per cent. lower than the rate in the municipal town. The number of cases of malarial fever decreased in the Rajahmundry jail, but the mortality from this cause was greater than in 1901. The number of admissions to hospitals and of deaths on account of tubercular diseases also rose in this jail. The Governor in Council is glad to learn that steps have been taken to improve the healthiness of the Rajahmundry jail. There was less congestion in jails owing to the decrease in the average daily population as well as to the additional accommodation provided. It is expected that a large number of extra cells will be completed during the current year.

G. S. FORBES,<sup>p</sup>  
Ag. Chief Secretary.
