The above statement exhibits the total value of the trade of the Madras Presidency during the past five years, foreign trade being distinguished from coasting trade. Under interportal trade the real value may be accepted as one-half of that given in the statement, the same figures appearing twice in the trade returns—once as exports at one port and again as imports at another. The variations in trade under the several heads are explained in the portions of the review dealing with the particular class of commodity.

The aggregate value of the foreign trade of the Madras Presidency during the year 1903-1904 amounted to 2,440.10 lakhs of rupees including treasure and Government stores, which is in excess of the aggregate trade of the year 1902-1903 by 154.87 lakhs or about 6.77 per cent. and of the average of the past five years by about 15 per cent. The imports amounted to 916.96 lakhs and the exports to 1,523.14 lakhs. The difference, 606.18 lakhs, represents the balance of trade in favour of this Presidency. Excluding Government transactions, the trade amounted to 2,405.41 lakhs in private merchandise and treasure, of which 883.28 lakhs represent imports and 1,522.13 lakhs exports. The imports show a decrease of 38.40 lakhs and the exports an increase of 200.88 lakhs. Excluding treasure transactions, both the imports and the exports of merchandise have advanced by about 31.12 lakhs and 198.80 lakhs, respectively, over those of the previous year. Under treasure the net transactions decreased by about 71.59 lakhs. The cause of this decrease will be found explained under the head of "Treasure". The increase in the imports of private merchandise is due primarily to large imports of unrefined sugar from Java for the local refineries, which amounted during the year to about 14.67 lakhs. Other commodities which contributed to the increase are metals, hardware, apparel, machinery, oils, cement, carriages, earthenware, glassware, instruments, paper, stationery, umbrellas, etc., a list fairly indicative of the growing needs of the province for articles of European manufacture and of the general prosperity of the people. A regrettable feature, however, was the enormous decrease in the imports of cotton yarns and textile fabrics due to the critical position of the cotton market during the year which occasioned a restricted demand for cotton-goods all over the world.

In exports, the increase was due to extensive shipments of South Indian staples such as coffee, tea, rice, pepper, ginger, cotton, copra, oil-seeds, etc. Among manufactured products, great improvement appears in cocoanut-oil and in hides and skins, tanned. The trade in cotton goods, however, was disorganized, and there was a decrease also in the exports of dye stuffs, chiefly indigo. The exchange market was strong throughout the year, while money passed freely into the country in gold and in Council Bills which were as freely sold to accommodate trade. Bank balances were high during the greater part of the year, and the absence of any stringency in the money market lent a stimulus to trade. Freights were equally favourable.

IMPORTS.

The statement below shows the value of the import trade of the Madras Presidency with foreign countries during the past five years in each of the groups in which articles of commerce are exhibited in the Government trade accounts. This statement excludes Government stores.

The increase of 31.12 lakhs is, it will be seen, spread over several articles, the most conspicuous being articles of food and drink (chiefly unrefined sugar), hardware and cutlery, metals, petroleum, apparel and other manufactured articles. Decreases occur chiefly under yarns and textile fabrics and animals, living.

I.—ANIMALS, LIVING.

The decrease of 2.23 lakhs is due partly to a smaller number of horses having been imported and partly to a decrease in the average value which fell from Rs. 370 to Rs. 308.

II.—ARTICLES OF FOOD AND DRINK.

The principal articles in this group and the values thereof for the two years 1902-1903 and 1903-1904 are as follows:—

	1902-1903.	1903-1904.

Sugar ...	2,17,888	17,03,404
Grain and Pulse ...	12,488	23,267

Spices.—The quantity of betel-nuts imported increased by 277,278 lbs., but the value declined, which was the cause of the decrease of .79 lakh of rupees under "Spices".

Liquors.—

Liquors.	1902-1903.		1903-1904.		Increase or decrease.

Ale, beer, porter, cider and other fermented liquors.—The increase in the imports of ale and beer is presumably due to larger military demands. The increase occurs chiefly in the imports from the United Kingdom which supplied nearly 96 per cent. of the total quantity imported.

Potable spirits.—Brandy, whisky and Colombo arrack are the spirits that are chiefly imported into this Presidency. The increase in these spirits was 15, 10 and 14 per cent., respectively. The appended figures show the quantity imported from the different countries during the year 1902-1903 and 1903-1904.

	Quantity imported in 1902-1903 in gallons.	Quantity imported in 1903-1904 in gallons.
<i>Brandy.</i>

<i>Whisky.</i>		
United Kingdom ...	65,319	73,061
Germany ...	1,010	531
Ceylon ...	338	102

The increased consumption of Colombo arrack is attributable to the continuance of good agricultural seasons combined with industrial activity. Methylated spirit almost

ceased to be imported, the foreign spirit having been almost supplanted by the local product. The quantity imported during the year was 1,052 gallons as against 8,704 gallons in the previous year.

Wines.—The quantity of different wines imported in the two years 1902-1903 and 1903-1904 is given below :—

	1902-1903.	1903-1904.
	GALLS.	GALLS.
Champagne	2,856	2,575
Claret	8,603	12,170
Port	10,644	13,233
Sherry	1,938	1,739
Other sorts	18,149	24,009

Provisions.—There was, on the whole, a decrease of about 1·47 lakhs under this head. Biscuits and condensed milk show large increases. Imports of dates also increased, but in other sorts of provisions the decrease was large, amounting to 2·56 lakhs in the imports from the United Kingdom and the Straits Settlements, owing to decreased imports of oilman stores, sago and tapioca.

Sugar.—In the total imports of this article there was an increase of 14·86 lakhs of rupees, chiefly contributed by large imports of Dutch standard brown sugar from Java for the refineries at Nellikuppam and Samalkot. Importations from that country vary from year to year and appear to be regulated with reference to local prices and supplies of raw material.

Grain and Pulse.—The imports of grain and pulse this year exceeded last year's imports by 11 lakh. Grain and pulse from the Straits Settlements and oats from Victoria contribute to this increase.

III.—METALS AND MANUFACTURES OF METALS.

A. Hardware and Cutlery including plated ware.—There is an increase under every class of article comprised in this group, viz., cutlery, agricultural implements, other implements and tools, sewing machines, enamelled ware and other kinds. The aggregate trade in the year under review amounted to 21·71 lakhs as against 16·59 lakhs in the previous year. The United Kingdom contributed 14·78 lakhs as against 12·74 lakhs in the previous year and Austria-Hungary contributed enamelled ware to the value of 1·44 lakhs as against 57 lakh in the previous year. The increased imports from Russia amounting to 1·34 lakhs represent the value of kerosene oil tins which are now separately assessed for duty. The foreign imports of hardware were supplemented by increased imports from Bombay amounting to a lakh.

B. Metals.—The subjoined statement shows the quantity and value of the imports of the several kinds of metals during the past five years :—

Iron and Steel.—The most noticeable feature is the large increase in the imports of steel. These show an increase under bars, beams, pillars and girders, hoop and "other sorts of steel" amounting to 96, 78, 1·32 and 2·10 lakhs, respectively. Increased demand for baling hoop steel in the cotton districts and for bands for wooden casks for the export of cocoanut oil in Cochin occasioned the increased imports of hoop steel. The stocks noticed last year of rivets, washers, pipes, tubes and faggot-steel having been reduced, there is an increase under the head of "other sorts of steel" this year.—

Other countries	3,951	2,104	— 1,847	11,798	16,512	+ 4,714

The United Kingdom increased its trade in bar, beams, etc., hoop and other sorts of iron, but lost in angle bolt and rod, nails, screws, etc., pipes and tubes, rice bowls and in sheets other than galvanized, while Belgium showed a decrease only in sheets other than galvanized. Under steel the United Kingdom showed very marked progress in bars, beams, etc., hoops, plates and sheets and other sorts of steel.

Copper.—Continued agricultural prosperity resulted in an expansion in the imports of this metal. The development of trade in yellow metal and sheets is shown in the statement below :—

	Mixed or yellow metal for sheathing.	Sheets and other manufactures.

1902-1903	26,215	5,050
1903-1904	27,444	5,819

Coastwise imports from Bombay also increased side by side with foreign imports.

Other metals.—Brass and German silver decreased on account of an over-stocked market. Imports under every description of lead increased. A glut in the market restricted the import of quicksilver, while block tin, in spite of higher prices, maintained a steady increase. Aluminium remained more or less stationary.

C. Machinery and Mill-work.—The increase under this head is about 1·03 lakhs. In machinery other than agricultural machinery and steam-engines, the increase is about 2·62 lakhs due to a recovery after the temporary depression noticed last year. The imports from the United Kingdom amounted to 21·90 lakhs out of the total imports of 22·75 lakhs.

D. Railway Plant and Rolling-stock.—The imports of railway materials during the year consisted of materials for construction, carriages and locomotive engines. The value of the total imports remained stationary. On account of heavy imports in the previous year the last two declined, but there were larger importations of construction material. Of 53.04 lakhs worth of railway materials imported, the United Kingdom supplied 50.08 lakhs and Australia 2.96 lakhs, chiefly wooden sleepers.

IV.—CHEMICALS, DRUGS, MEDICINES AND NARCOTICS AND DYEING AND TANNING MATERIALS.

The trade in these articles for the two years 1902-1903 and 1903-1904 was as follows:—

	1902-1903.	1903-1904.
	RS.	RS.
Chemicals	5,55,230	6,43,404
Drugs, medicines and narcotics	14,65,108	14,56,198
Dyeing and tanning materials	7,58,179	7,76,490

Chemicals.—The increase under this head is in unenumerated chemicals, of which cyanides for gold mines form the largest portion. The very large imports of 1900-1901 and of the following year, combined with the economical use of the chemical as the result of an improved process of working, resulted in smaller imports in 1902-1903. Stocks, however, having run out, large imports of cyanides were made to replace them in the year under review.

Drugs, Medicines and Narcotics.—Camphor fell by 47 lakh owing to large imports stocked in the previous year. Leaf tobacco continues to suffer from the depression noticed last year, while the imports of cigars increased by 30 lakh. Cigarettes continue to grow in favour and the import of cigarette tobacco also increased, thus increasing the imports of tobacco and its compounds by 146,040 lbs. as compared with the previous year.

Dyeing and Tanning Materials.—The increase under this head is small, amounting to only 18 lakh and occurs chiefly under alizarine dyes. A large quantity, however, was imported coastwise from Bombay.

V.—OILS.

The imports of mineral oil amounted to 48.07 lakhs in value as against 45.99 lakhs in the previous year. The increase occurs chiefly in kerosene oil which occupies the most prominent position under this head. The trade in it for two years and the sources of its supply are given below:—

Grand Total	12,671,298	45,18,933	11,510,572	46,57,047

It will be observed that, although the value increased, the quantity decreased by 1,160,726 gallons. This rise in price due probably to the free use of liquid fuel on Russian railways consequent on an inadequate coal supply, induced larger imports of American and Burma oil. Lubricating or vacuum oil hitherto imported from Calcutta is now imported direct and shows an increase of 70 lakh. Among other oils, cocoanut oil from Ceylon shows a falling off due to competition with Cochin oil.

VI.—RAW MATERIALS AND UNMANUFACTURED ARTICLES.

The quantities and values of the principal articles under this head for the past two years are compared below:—

The variations are ascribed to trade fluctuations. The increase in wood is under "timber other than teak" from Ceylon.

VII.—ARTICLES MANUFACTURED AND PARTLY MANUFACTURED.

A.—YARNS AND TEXTILE FABRICS.

Cotton.—The import trade of the province in cotton-goods for the years 1902-1903 and 1903-1904 was as follows:—

	Quantity.	Difference.	Value.	Difference.
	LBS.	LBS.	RS.	RS.

Net decrease	..	..	..	14,14,244

The volume of trade shows a large shrinkage of about 2.81 million lbs. under "twist and yarn" the import of which is the lowest recorded during the last decade, and of 8.71 million yards under piece-goods. The decrease in the aggregate value of cotton-goods, however, has been considerably diminished by a rise of about 12 per cent. in the prices as compared with the previous year. The fall in imports is attributed to large stocks held at the end of the previous year, the uncertainty of the cotton market in consequence of American speculations, and the rise in prices.

Twist and yarn.—The subjoined table presents in detail a view of the fluctuations in the different counts of twist and yarn imported during 1903-1904 as compared with the previous year:—

Unspecified descriptions	1,139,696	10,75,210	1,159,235	12,07,020	+ 19,539	+ 1,31,810

While imports show a distinct advance in the higher counts, those in counts under 50 exhibit a decided fall, particularly in counts 31 to 40 under which greys show a decrease of 523,887 lb. and coloured 1,982,927 lb. This is due to large stocks of greys on hand at the end of the previous year and cautious purchases during the year under review, while coloured twists are losing ground every year in competition with the local dyeing industry.

Of the total value of 65.30 lakhs of "twist and yarn" imported, the United Kingdom supplied 63.66 lakhs.

Cotton Piece-goods.—The trade under this head shows a decrease of 8.71 millions of yards in quantity and 2.49 lakhs of rupees in value, and is distributed as under:—

	1902-1903.		1903-1904.		Increase or decrease.	
	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.
	YDS.	RS.	YDS.	RS.	YDS.	RS.

Under grey goods the most conspicuous decrease is under jaconets and shirtings, while that under coloured and white jaconets and shirtings is also marked. As already remarked, American speculations had a disturbing effect on the Indian market, and local merchants found good business impracticable with the rise in prices. Local requirements were therefore met by stocks left from the previous years' increased importations combined with small and cautious importations during the year. Mulls of all kinds show an increase of 3.56 lakhs of rupees as against a decrease of 6.04 lakhs noticed last year. So also in chadars, dhutis, saris, etc., the grey kinds show an increase of 12.08 lakhs as against a decrease of 8.65 lakhs in the previous year. These are trade fluctuations to stock the market.

Of the total imports of piece-goods the United Kingdom is credited with 201.99 lakhs, Ceylon with 1.26 lakhs and the Straits Settlements with 2.26 lakhs.

Cotton manufactures other than piece-goods.—The imports under this head amounted to 2.67 lakhs during the year as against 1.64 lakhs in the previous year. The increase of a lakh is almost solely confined to fancy coloured handkerchiefs of which a large quantity valued at about 1.32 lakhs was imported during the year, as against .32 lakh in the previous year. There was not a corresponding increase in the actual demand, and the large imports may affect the imports in succeeding years.

Flax, jute, silk and wool.—The import trade in textile fabrics of these materials during the years 1902-1903 and 1903-1904 is as follows:—

	1902-1903.		1903-1904.	
	RS.	RS.	RS.	RS.
Flax ...	74,976	68,044	5,58,772	6,40,403
Jute ...	1,44,473	1,48,033	5,01,947	5,69,760
Silk ...				
Wool ...				

In *Flax*, canvas shows a falling off due to surplus stocks. In *Jute* the increase is due to large imports of old gunny bags, stimulated by increased export trade in grain. In *Silk* and *Wool* the small increase is due to trade fluctuations.

B.—APPAREL.

The increase of 3.52 lakhs under apparel is shared by the United Kingdom, Austria Hungary, France, the Straits Settlements and Ceylon, and is due to larger imports of made-up clothes, uniforms, silk garments, gilt thread and buttons. The imports of boots and shoes from the United Kingdom show a perceptible increase.

C.—OTHER MANUFACTURED ARTICLES.

The articles of importance under this head according to the value of their trade in the two years 1902-1903 and 1903-1904 are stated below:—

	1902-1903.		1903-1904.

Soap ...				
Candles ...				
Earthenware ...				
Cabinetware and furniture ...

Printing materials ...				
Umbrellas ...				

Under the first item there is a slight increase under "fire and other arms" and a decrease under "dynamite and other explosives" owing to unsold stocks of 1901-1902 importations. *Printing paper* shows a higher value owing to a better class of paper being imported for printing purposes. *Glassware* shows a general increase except in bottles, common. The trade in sheet and plate glass recovered from the depression of the previous year, stocks having been reduced. There is also an increase under fancy glassware from Austria-Hungary and under beads and false pearls. Under *carriages* the increase is due to imports of motor cars. The falling off in *matches* is due to heavy imports in the previous year and to the existence of large stocks as noticed in last year's report. The increased imports of *stationery* were due to the small trade done in the previous year. Heavy imports of *cement* were necessitated by railway requirements on the West Coast. There is a gradual expansion in the trade in *books, toys and soap* due to a growing taste among the natives for these goods. The decrease in *paints* is due to large imports in the previous year. The variations in the imports of *earthenware, cabinetware and furniture, leather manufactures and printing materials* are trade fluctuations. *Candles* show a heavy decrease, due to the displacement of foreign tallow and other candles by paraffin wax candles imported from Rangoon for use in the Mysore mines and for consumption in the local markets. The increase in the imports of *tea chests* is due to heavy shipments of tea during the year. In the two preceding years the imports of *umbrellas* were limited. Heavy imports were made in the year under review to replenish stocks.

EXPORTS.

I.—EXPORTS OF FOREIGN MERCHANDISE.

The following figures represent the value of foreign merchandise re-exported during the past five years:—

	RS.
1899-1900 ...	7,20,425
1900-1901 ...	6,36,397

1902-1903 ...	8,92,709
1903-1904 ...	8,57,861

The principal articles that are re-exported to foreign countries are cotton twist and yarn and piece-goods; these go chiefly to Ceylon and the Straits Settlements. The other exports are, for the most part, reshipments of miscellaneous European goods to the original ports of shipment. A large quantity of railway plant and rolling-stock, apparel, books, carriages, hardware and machinery, valued in all 1.67 lakhs, was re-exported during the year under review.

II.—EXPORTS OF INDIAN PRODUCE AND MANUFACTURE.

The statement below shows the value in lakhs of rupees of the export trade of this Presidency with foreign countries in Indian produce and manufactures during the past five years in each of the groups in which articles of commerce are exhibited in the Government trade accounts. The statement excludes Government stores.

I.—ANIMALS, LIVING.

The trade under this head consists mainly of cattle, sheep and poultry which are exported to Ceylon and the Straits Settlements. The small fluctuation calls for no remark.

II.—ARTICLES OF FOOD AND DRINK.

The articles comprised in this group and the value of the trade in each in the two years 1902-1903 and 1903-1904 are given below :—

Coffee.—The increase of 4.79 lakhs in the value of the exports of this commodity is due to late exports of last year's bumper crop.

The following figures exhibit the variations of trade under this head during the past five years :—

	CWT.	RS.
1899-1900	279,293	1,47,79,915
1900-1901	240,236	1,20,51,100
1901-1902	250,987	1,23,58,645
1902-1903	267,205	1,31,47,432
1903-1904	289,476	1,36,26,800

Stocks in Europe were large and prices ruled low during the year. The trade with France which showed a downward tendency recovered to the extent of about 75 per cent., the increase being 9.51 lakhs over the previous year. Exports to the United Kingdom fell by 2.39 lakhs.

Fruits and Vegetables, Fresh.—The increase under this head is 21.35 lakhs, due to an increase in the exports of cocoanut kernels amounting to 23.51 lakhs partly counterbalanced by a decrease of 2.1 lakhs under fresh vegetables. Germany and France took 22.26 lakhs and 13.89 lakhs worth of cocoanut kernels, respectively, and Belgium 3.87 lakhs. The large demand for copra is attributable to its extended use in the manufacture of margarine, nucoline, etc., as noted last year. Vegetables (fresh), which comprise chiefly onions, show a decrease of 2.7 lakhs in the exports to Ceylon, the export trade in that commodity thus reverting to its normal condition. The exports in the previous year were abnormal.

Grain and Pulse.—Paddy, rice, gram and pulse form the chief articles of export. The increase of 24.55 lakhs is due to increased exports of rice and paddy, stimulated by cheap prices here and a dearer market in Burma. Ceylon took from this Presidency 6.06 lakhs, Mauritius 1.23 lakhs, the Straits Settlements 5.18 lakhs and Japan 2.76 lakhs worth of rice and paddy more than in the previous year. The restoration of trade relations with the island of Réunion resulted in exports thereto amounting to 6.63 lakhs.

The increase in trade was confined to the Northern Circars ports, while the southern districts show a falling off, as compared with the previous year. Last year an experimental shipment of gram to the United Kingdom was brought to notice; this year jawar and bajra of the aggregate value of 1.65 lakhs were exported to the United Kingdom for the first time.

Spices.—There was an increase of 26.92 lakhs of rupees under this head, chiefly due to an improvement in trade under chillies, ginger and pepper. The annexed table shows the quantities and values of the principal articles comprised in this group exported during the years 1902-1903 and 1903-1904 :—

	1902-1903.		1903-1904.	
	L.B.	RS.	L.B.	RS.
Pepper	6,084,256	21,34,145	11,728,542	41,45,220
Ginger	2,628,999	6,69,771	4,578,664	10,95,773
Chillies	6,492,274	5,57,250	7,642,232	8,13,763
Cardamoms	82,257	1,21,914	113,349	1,31,347
Other spices	113,329	39,930	73,006	28,500

Pepper.—The increase in the quantity and value of exports of pepper is nearly 100 per cent. due primarily to good crops this season and to increased European demand caused by scanty crops and high prices in the Straits Settlements. Good offers from foreign countries diverted to those countries the usual large exports to the other provinces of India. The United Kingdom took 2.84 lakhs, Austria-Hungary 3.16 lakhs, France 3.76 lakhs, Germany 12.50 lakhs, Holland 4.55 lakhs, Italy 7.08 lakhs and the United States 5.04 lakhs worth of pepper during the year.

Ginger.—In ginger the increase in the exports is about 64 per cent. which is said to be due to scanty supply from Japan and abundant local crops. The United Kingdom alone took 5.51 lakhs worth of ginger as against 2.67 lakhs in the previous year. Next comes the United States with 1.92 lakhs and then Germany with 1.59 lakhs worth of this article.

Chillies.—The trade in chillies is chiefly confined to Ceylon, and the district of Tinnevely enjoys practically the monopoly of supply. There was an abundant crop this year in that district and Ceylon alone took 6.70 lakhs worth of chillies.

Cardamoms.—The increase in the export of cardamoms is not such as to call for special remark.

Sugar.—The increase in the export trade of this commodity is about 93 lakh of rupees and is made up as follows :—

	1902-1903.		1903-1904.		Increase or decrease.	
	CWT.	RS.	CWT.	RS.	CWT.	RS.
Sugar, unrefined	192,992	6,95,106	186,956	7,81,284	— 6,006	+ 86,178
" refined	6,786	42,842	6,677	49,218	— 109	+ 6,376

The price of sugar shows a little improvement this year. The United Kingdom took 6.93 lakhs worth of jaggery:

Tea.—The progress made in tea during the past five years is shown below :—

						L.B.	RS.
1899-1900	...	...	...	...	...	4,419,290	33,54,543
1900-1901	...	...	...	...	...	4,895,216	32,42,814
1901-1902	...	...	...	...	...	5,254,199	33,19,092
1902-1903	...	...	...	...	...	6,482,215	40,01,782
1903-1904	...	...	...	...	...	8,744,706	51,74,382

The increase in the year under review is due to improvement in prices abroad and also to the care bestowed by planters in the selection of tea for shipment. The tea produced at a high elevation was better, and large shipments of a very good type of Travancore and Nilgiri tea were made during the year. The United Kingdom absorbed tea worth about 43.45 lakhs. A new feature in the exports of the year under review is that Canada took 4.98 lakhs worth and Ceylon 2.82 lakhs.

III.—METALS AND MANUFACTURES OF METALS.

The only metal of importance is Manganese ore. The value of exports to the United Kingdom amounted to 4.53 lakhs of rupees as against 3.79 in the previous year; but the exports to the United States ceased, probably owing to the competition of South American ores.

IV.—CHEMICALS, DRUGS, MEDICINES AND NARCOTICS AND DYEING AND TANNING MATERIALS.

The chief articles under this head are cinchona bark and other drugs and medicines, tobacco and its manufactured products, indigo, myrabolams and turmeric, and the values thereof for each of the two years 1902-1903 and 1903-1904 are given below :—

		1902-1903.		1903-1904.	
		Quantity.	Value.	Quantity.	Value.
Cinchona bark	lbs.	1,579,498	RS. 4,00,078	1,108,527	RS. 2,77,148
Other sorts of drugs and medicines. ..	..	..	3,92,774	..	5,02,677

Cigars	..	747,567	9,80,148	495,824	4,71,844
Indigo	..	32,243	49,13,604	24,414	38,39,663
Myrabolams	..	113,012	2,34,277	95,534	1,96,929
Turmeric	..	39,272	2,55,967	21,009	1,16,959

Cinchona Bark.—This industry has been undergoing a gradual decadence. The quantity exported in the year under review is hardly half of what it was five years ago. As was remarked last year, the low prices realised for the article in the English market, to which country all the bark is exported, have led to the decrease in exports. The planters, not being encouraged by remunerative prices to extend its cultivation, are content with exporting what is available from the old plantations. Prices, however, have recently shown a tendency to rise.

Other sorts of drugs and medicines.—The increase in "Other sorts of drugs and medicines" is due to increased exports of senna leaves from the Tinnevely district and nux-vomica from Madras and the Malabar Coast.

Tobacco.—Leaf tobacco shows a slight increase. In the exports of cigars the decrease is very great amounting to 5.08 lakhs of rupees. The countries that take considerable quantities are the United Kingdom, Natal, and the Straits Settlements which took in the year under review 1.77, .26 and 1.16 lakhs, respectively, as against 5.04, 1.28 and 1.14 lakhs in the previous year. The decrease is attributed to disorganization of trade in Natal after the Boer War and to the existence of large stocks of Indian cigars in England.

Indigo.—The indigo crop of 1902 was deficient and that of 1903 was late. Supplies, therefore, of dry leaf indigo from this province were very small in many centres although prices were firm. The distribution of exports in 1902-1903 and 1903-1904 is as follows :—

	1902-1903.	1903-1904.
	In lakhs of rupees.	In lakhs of rupees.
United Kingdom	4.67	3.06
Austria-Hungary	.88	.62
Germany	1.19	.60
Egypt	25.65	22.11
Japan	10.65	5.87
Straits Settlements	2.92	.70
Turkey in Asia	1.36	1.68
United States	.29	1.06
Ceylon	.06	1.47
Other countries	1.46	1.23

The bulk of the trade is with the United Kingdom, Egypt and Japan, and the exports to the Straits Settlements and Ceylon were for transshipment to Japan. Although Madras dry leaf indigo is cheap enough to compete with the chemical product, it is so heavily taxed in Japan and other countries as a natural dye, while the synthetic indigo is admitted on lighter terms as a chemical product, that its export has decreased considerably. The dearth of cotton may also have indirectly affected the export trade in indigo on account of smaller requirements for cotton printing.

Turmeric and myrabolams remain neglected. Prices have gone down and turmeric shows a 50 per cent. decrease.

V.—OILS.

The trade in oils in the two years (1902-1903 and 1903-1904) was as follows :—

	1902-1903.		1903-1904.	
	GALLONS.	RS.	GALLONS.	RS.
Essential	6,258	2,42,319	3,889	1,60,505
Castor	308,354	2,02,308	141,269	1,16,639
Cocoonut	1,987,725	28,54,659	3,335,221	48,14,696
Other sorts	57,584	78,800	74,594	88,819

The decrease in essential oils is due to a smaller quantity of lemon grass oil having been exported from Cochin, probably owing to smaller production. The demand has been good and constant.

Castor oil.—There was a decrease in the area under castor crop during the year under review on account of low prices. The decrease in the exports is chiefly to the United Kingdom which took only .47 lakh worth of oil as against 2.02 lakhs in the previous year.

Cocoonut oil.—The trade in this oil has been making very rapid strides. The increase over the previous year is about 68 per cent. and is shared by all countries. The United Kingdom took 11.49 lakhs, Belgium 3.91 lakhs, Germany 14.05 lakhs, Holland 2.26 lakhs, and the United States 15.56 lakhs while in the previous year they took 6.85 lakhs, 2.69 lakhs, 6.52 lakhs, 1.20 lakhs and 11.02 lakhs, respectively.

The trade in other oils is small.

VI.—RAW MATERIALS AND UNMANUFACTURED ARTICLES.

The following are particulars for the year under review and the previous year of the principal articles under this head of which values are furnished :—

Cotton, Raw.—The increased European demand for raw cotton noticed last year strengthened, in the early part of the year under review, owing to the American crop not having turned out as large as was expected and to speculators there having bought up the available supply. Exports to foreign countries were thereby stimulated to an abnormal extent and showed an increase of 25 per cent. in quantity and 57 per cent. in value. “Tinnevellys” were most eagerly sought after by the continental and English manufacturers on account of their adaptability for substitution in the place of American cotton. The violent and erratic fluctuations in prices in the American market, which has been described as “unprecedented in the history of the trade,” had its effect on local prices which went up as much as 40 per cent. in certain cases, but the quantity available for export from the Tinnevelly district was smaller than in the previous year. The exports during the year of the various commercial descriptions of cotton as compared with the figures of 1902-1903 were as follow :—

		CWT.	RS.
“Cocanadas”	1902-1903	100,406	25,90,097
	1903-1904	130,539	33,93,299

	1903-1904	385,753	1,03,74,745

The following statement shows the distribution of the trade in raw cotton according to countries :—

	1902-1903.		1903-1904.

Straits Settlements	..	..	407	10,676
Total	716,532	1,63,21,810	899,126	2,56,52,392

It will be seen that exports increased very largely in the case of nearly all countries except China and Japan which show heavy decreases. China had an abundant cotton crop and consequently made no purchases in this market. Japan,

which made very large purchases of “Tinnevellys” in the previous year, abandoned this market in the year under review in favour of Bombay and other places where cheaper cotton could be got.

Seeds.—There was a conspicuous advance in the trade in seeds, chiefly under earthnut. The quantity and value of the principal seeds exported during 1902-1903 and 1903-1904 are given below :—

		1902-1903.		1903-1904.	
		Quantity.	Value.	Quantity.	Value.

	Other sorts	3,268	24,544	12,975	81,225

Seeds, essential.—There was an improvement in the price of coriander seed due to better quality. Ceylon took 1·09 lakhs worth and the Straits Settlements 48 lakh worth of this seed. Niger seed declined in price. About 1·57 lakhs worth of this seed was exported to the United Kingdom.

Castor.—Exports of castor seed fell by more than 50 per cent. in quantity and 59 per cent. in value. The low prices obtained for this seed in the foreign markets during the previous year led to a reduction in its cultivation in the year under review. European demand was also slack and so exports largely decreased, France taking 7·55 lakhs, the United Kingdom 5·65 lakhs, and Italy 1·53 lakhs worth less than in the previous year. The sudden drop in the exports to France is probably due to preference being shown for earthnut of which seed France took a very large quantity during the year under review.

Earthnut.—In the last year's review it was remarked that the 1902 crop, though large, did not come to the market for export in 1902-1903, the sellers holding back in expectation of better prices. Prices declined contrary to expectation but the large crop of the season of 1902 found a ready market. France took 86·25 lakhs worth of nuts as against 56·39 lakhs in the previous year, Germany 4·96 lakhs against 3·77 lakhs, Belgium 9·48 lakhs against 61 lakh and Austria-Hungary 2·35 lakhs against 69 lakh. The United Kingdom on the other hand took 2·02 lakhs less.

Rape seed.—Rape seed shows a fall both in quantity and value. Almost the whole quantity was shipped to the United Kingdom. There was not much demand for rape oil in the United Kingdom and, notwithstanding the failure of the Danube valley crop, prices remained unaffected in the home market.

Til or jinjili.—There is a decrease of 11·57 lakhs in the exports of this seed. France took only 5·63 lakhs while in the previous year she had taken 17·91 lakhs worth of seed and Austria-Hungary, which in the previous year had taken seed worth 1·45 lakhs, took none in the year under review. There was an improvement in the exports to Ceylon which amounted to 3·10 lakhs worth against 1·16 lakhs in the previous year. The withdrawal of France from the market, although there had been good crops and prices were easy enough, disconcerted trade in this article. Part of the crop in the Circars has been diverted to the port of Bombay on account of preferential tariffs on the Nizam's Guaranteed Railway.

Hides and Skins, Raw.—The export trade in raw hides and skins has decreased so largely that it seems necessary to examine the causes. The superiority of Madras tannages used to draw supplies of the raw material from Central India, the Punjab and the Bombay Presidency. Of recent years, however, the introduction in America of chrome tanning has caused an enormous demand for raw skins which are

shipped direct from the ports of Kunrachee, Bombay and Calcutta. Madras is thus dependent on its own raw material to supply its tanneries. The quantity available for export is consequently smaller. Raw hides show a decrease of 34 lakh worth and raw skins a decrease of 11.95 lakhs. The United States took 16.34 lakhs worth of skins as against 33.86 lakhs in the previous year, and the United Kingdom 4.77 lakhs as against 5.04 lakhs. Trade with France, however, increased, she having taken 5.29 lakhs worth of skins as against 4.7 lakh last year. The American market is suffering from a plethora of chrome tanned skins produced in 1902 and onwards, of which stocks have not been cleared off owing to the high range of prices. Also the Madras goat skins, except large skins of superior sorts, have been found in America unsuitable for tanning by the chrome process. Hence the decrease in the exports from this Presidency to America. The increased trade with France is due to the success attained there in chrome tanning and the consequent demand for raw skins.

Fodder, Bran and Cattle-food.—The increase under this head is 4.80 lakhs of rupees which occurs chiefly under oil-cake, a product which is more extensively used as manure for coffee and other plantations than as cattle-food. Ceylon took 15.39 lakhs worth of oil-cake, Germany 9.35 lakhs, Java 3.75 lakhs, and the Straits Settlements 1.54 lakhs as against 14.94 lakhs, 4.63 lakhs, 2.99 lakhs and 1.68 lakhs, respectively, in the previous year. The United Kingdom took only 1.5 lakh as against 1.31 lakhs in the previous year. The increase in the case of Germany is about 50 per cent. and is attributable to the extension of the high system of farming adopted in that country.

Wood.—The increase in the exports of wood to the extent of 1.41 lakhs of rupees is due to increased exports of sandal wood.

Silk.—In silk the fluctuation is slight. Some improvement is observed in mulberry silk, while in wild kinds the trade shows a falling off chiefly in chasam or waste.

Bristles and Fibre for Brushes and Brooms.—The improvement observed last year has been kept up, the increase over the previous year's trade being 1.80 lakhs. The United Kingdom, Belgium, Germany and Ceylon took respectively 1.94, 2.25, 2.23 and 2.58 lakhs worth of fibre, chiefly palm.

Jute and Hemp.—Jute and hemp show respectively an increase of 1.53 and .60 lakhs over the figures of the previous year. A steady improvement is observable in the exports of both these fibres. Bimlipatam hemp is very favourably regarded in the London market.

Manures.—This head comprises animal bones, bone meal and blood manure, and a large part goes to Ceylon. A decrease of .22 lakh occurs under other kinds, viz., bone meal, etc., while an increase of .19 lakh occurs under animal bones.

Mica.—There is a slight decrease in the exports of mica amounting to .18 lakh. Though the quantity exported was small, the quality of the material which has received special consideration was good, the value showing a corresponding increase. The United Kingdom absorbed the whole quantity.

VII.—ARTICLES MANUFACTURED AND PARTLY MANUFACTURED.

Cotton Twist and Yarn.—The appended statement shows the quantity and value of the export trade in twist and yarn for the past five years :—

						LB.	RS.

The trade in twist and yarn which recovered in a remarkable manner after the cotton famine of 1900-1901 was again disorganized in the year under review on account of the high range of prices of raw cotton. Almost the whole decrease is in the exports from Tuticorin and the sufferers were spinners of "Tinnevellys" the price of which was prohibitive for spinning for the China market. Dearness of money in China contributed to restrict the exports to that country, which took 12.06 lakhs worth less of twist and yarn than in the previous year.

The trade in grey goods shows a decrease of 1.57 lakhs, chiefly in the China trade, and that in coloured goods recovered to the extent of 3.67 lakhs, the Straits Settlements alone having taken 4.81 lakhs worth of coloured goods more than in the previous year. The stability in the exchange value of the Straits dollar doubtless contributed towards this improvement.

Handkerchiefs and Shawls in the piece.—The value of handkerchiefs exported during the year amounted to 7.01 lakhs as against 6.88 lakhs in the previous year. These are known as "Madras handkerchiefs" and are the products of hand looms around Madras. The trade is chiefly with the United Kingdom whence the goods are re-exported to Africa.

Wool.—Under this head carpets and rugs form the principal articles exported to foreign countries. The exports amounted to 2.80 lakhs against 2.35 lakhs in the previous year. The United Kingdom took almost all the carpets and rugs exported.

B.—APPAREL.

Native cloths and embroidery form the principal articles comprised under this head. The trade is with many countries but chiefly with Ceylon, South Africa, the Straits Settlements and the United Kingdom, and in all amounted to 2.60 lakhs in the year under review as against 3.47 lakhs in the previous year. The decrease occurs in the exports to the United Kingdom and South Africa.

C.—OTHER MANUFACTURED ARTICLES.

Building and Engineering Materials.—Bricks and tiles from the West Coast form the chief exports under this head, which amounted to 1·04 lakhs against 1·37 lakhs in the previous year, Ceylon being the principal customer.

Coir and Rope.—These were exported to the amount of 46·78 and 1·25 lakhs of rupees during the year as against 43·70 and 1·53 lakhs, respectively, in the previous year. The trade in these follows the vicissitudes of the trade in cocoanut oil and copra. The cocoanut crop was plentiful this season. The United Kingdom took 18·33 lakhs, Belgium 4·38 lakhs, France 3·27 lakhs, Germany 13·40 lakhs, Holland 2·90 lakhs and the United States 3·23 lakhs of coir manufactures (excluding rope) consisting of matting and weaving yarn. Calicut and Cochin were the chief ports of export. The foreign demand is steadily kept up.

Hides and Skins, tanned.—The following statement shows the trade in the two classes of leather separately for the past five years:—

	Hides, dressed or tanned.		Skins, dressed or tanned.	
	Quantity.	Value.	Quantity.	Value.
	cwt.	RS.	cwt.	RS.
1899-1900	114,135	67,55,776	140,347	2,05,86,874
1900-1901	219,659	1,23,99,197	166,916	2,24,52,215
1901-1902	120,448	66,93,613	100,451	1,40,11,412
1902-1903	97,049	54,54,662	117,211	1,76,49,183
1903-1904	93,922	54,80,759	124,898	1,89,34,580

This year there was a slight further fall in the exports of tanned hides although the value shows an improvement.

Prices throughout the year were above the normal range. London prices at the end of 1903 showed a rise of 2½ pence per pound or 20 per cent. over the prices at the corresponding period of 1902. The United Kingdom took 52·32 lakhs, and the United States 1·91 lakhs worth of hides as against 52·96 lakhs and 1·44 lakhs, respectively, in the previous year. The high range of prices restricted forward purchases by the manufacturers.

Skins, Dressed or Tanned.—The high range of prices that prevailed during 1902 led to increased supplies in 1903. As a consequence prices declined. Late in the year, however, the market improved in London for the best tannages. On the whole, larger trade was done with the United Kingdom which took 155·09 lakhs worth of skins as against 141·95 lakhs in the previous year. The United States, coming late in the day, purchased 24·27 lakhs worth of skins as against 26·29 lakhs in the previous year. France took 2·75 lakhs, Belgium 1·06 lakhs, Japan 2·31 lakhs and the Straits Settlements 3·00 lakhs as against 74, nil, 2·32 and 4·65 lakhs in the previous year. Shipments to the Straits Settlements for the most part eventually go to Japan, and these may have been affected by the outbreak of war between Japan and Russia.

GEOGRAPHICAL DISTRIBUTION OF FOREIGN TRADE IN MERCHANDISE.

Fluctuations in the trade in specific articles have been explained in the previous portion of the review, and the fluctuation in the total trade alone with each country is dealt with here.

United Kingdom.—Although the total trade with the United Kingdom shows an increase of 39.16 lakhs, there is a decrease in the percentage proportion of the trade with that country as compared with the previous year.

The increase in exports (39.98 lakhs) is the net result of increases under raw cotton (27.84 lakhs), tanned skins (13.14 lakhs), cocoanut oil (4.64 lakhs), ginger (2.84 lakhs) and tea (5.46 lakhs) and of decreases under seeds (7.93 lakhs), cigars (3.27 lakhs), coffee (2.38 lakhs) and indigo (1.61 lakhs).

The decrease in imports, of which cotton twist and yarn and piece-goods show considerable contraction, is counterbalanced by increased imports of liquors, metals, hardware and miscellaneous manufactured articles.

Other European Countries.—*Austria-Hungary* shows an increase of 1.92 lakhs under imports, chiefly contributed by apparel, glassware and enamelled ware. German silver shows a decrease. In the exports thereto cotton and pepper account for an increase of 6.13 lakhs. *Belgium* improved her trade relations by taking larger quantities of cotton, copra, earthnut seeds, cocoanut-oil and hides and skins. In the case of *France*, gold thread contributed a small increase in imports therefrom, while exports thereto increased by 43.75 lakhs, chiefly in coffee, cotton, copra, hides and skins, earthnut seeds and pepper. *Germany* shows an increase of 5.60 lakhs in imports and 50.85 lakhs in exports. A great many manufactured articles, among them chiefly matches and metals account for increased imports, while the large increase in exports is in cotton, oil-cake, copra, cocoanut-oil, earthnut seeds, pepper and sandalwood. The import trade with *Holland* is trivial. Exports show an increase of 13.87 lakhs, chiefly in cotton, cocoanut-oil and pepper. *Italy* took increased quantities

of cotton and pepper, which account for the increase of 6.11 lakhs in exports. *Russian* imports declined by 3.75 lakhs due to smaller importations of kerosene oil. The trade with the other countries of Europe is either small or shows very little variation.

Africa and adjacent islands.—Egypt, Natal, Mauritius and Reunion are the only places in Africa with which any appreciable trade was done during the year under review, and that consists of exports. *Egypt* shows a decrease of 3.89 lakhs, chiefly in indigo; *Natal* a decrease of 2.06 lakhs in cigars and other miscellaneous goods; *Mauritius* and *Reunion* an increase of 1.26 and 7.18 lakhs, respectively, in rice.

America.—The United States and Canada are the two countries in America with which trade is done. The imports from the *United States* show an increase of 7.06 lakhs contributed by hardware and kerosene oil. In the exports, hides and skins declined, but cocoanut-oil, pepper and coir manufactures increased by 8.05 lakhs. *Canada* took 4.98 lakhs worth of tea in the year under review.

Asia.—The year's trade was chiefly with China, Japan, Ceylon, the Straits Settlements, Java, the Philippines and Cochin-China. *China* trade declined by 16.84 lakhs, chiefly in exports of cotton goods. *Japanese* trade also declined both in exports and in imports. The decrease in the exports amounting to 6.42 lakhs is attributable to smaller exports of cotton and indigo. Imports from *Ceylon* show an increase of 4.81 lakhs, due to large imports of old gunny bags, Colombo arrack and betelnuts; and exports thereto show an increase of 10.12 lakhs due to increased exports of oil-cake, grain and pulse and salted fish. In the trade with the *Straits Settlements*, the decrease of 2.64 lakhs in the imports is attributable to smaller imports of betelnuts, tapioca, etc., while the increase of 6.32 lakhs in exports was derived from coloured cotton piece-goods and rice. The improvement in the trade with *Java*, the *Philippines* and *Cochin-China* is due to large imports of unrefined sugar from the first-mentioned country and to large exports of cotton piece-goods and raw cotton, respectively, to the last two.

Australia.—The slight decrease in the trade with Australia is attributable to smaller imports of horses and smaller exports of coffee.

Treasure.—*Gold and silver coin and bullion.*—The subjoined statement shows the quantity in ounces and value in rupees of all descriptions of gold and silver imported into and exported from the Madras Presidency, during the two years 1902-1903 and 1903-1904:—

The net imports of gold during the year under review fell short of that of the year 1902-1903 by 69.43 lakhs and the net imports of silver by 2.16 lakhs.

In the imports of gold, there is a decrease both in coin and in uncoined gold, while in the imports of silver there is an increase in both the descriptions. Large imports of bar gold in the previous year affected the imports in the year under review which fell by 56 lakh. The imports of sovereigns decreased by 74.70 lakhs due to remittances having been made more in Council Bills than in gold and to much of the gold intended for this province having been shipped *via* Bombay on account of favourable freight rates. In bar silver the imports of 1903-1904 exceeded those of the previous year by about 2.71 lakhs. There is reason to believe that there was considerable speculative buying during the year on account of a very sharp advance in the price of bar silver following closely upon large purchases of silver by the Indian Government, the United States and France for coinage in India, the Philippines and Tonquin. The price of bar silver which was 21½d. per oz. in London early in 1903 rose to 28½d. in October of that year. The rise in the imports of Government of India rupees was due to shipments of rupees in the month of January from Ceylon to the west coast ports to finance cocoanut-oil and pepper. There was a large shipment of rupees amounting to 12.80 lakhs to Ceylon from the port of Tuticorin. There were no exports of gold.

The decrease in the imports of gold from Ceylon and Australia is due to shipments having been diverted to Bombay owing to profitable freight rates. Egyptian imports appear to have fallen off in consequence of less trade carried on with that country in indigo, that commodity being paid for in gold.

Government Transactions (Foreign Trade).—Government transactions alone are shown in this paragraph. The total value of imports of Government stores amounted to Rs. 33,67,738 and of exports to Rs. 1,01,025 as against Rs. 39,83,945 and Rs. 2,45,602, respectively, in the previous year. The decrease in the imports is due to smaller imports of arms, ammunition and military stores amounting to 11.05 lakhs, the rearming of the army having been completed. There is an increase in the imports of apparel and cotton and woollen goods amounting to 5.20 lakhs. The exports are small. The transactions are chiefly with the United Kingdom.

Balance of Trade.—The following statement shows the balance of trade in merchandise, treasure and Government transactions during the past five years:—

Years.	Imports.	Exports.	Excess of exports over imports.	Excess of imports over exports.

1903-1904	9,16,95,700	15,23,14,211	6,06,18,511	..

Excluding Government transactions the figures are as follows:—

Years.	Imports.	Exports.	Excess of exports over imports.	Excess of imports over exports.
	RS.	RS.	RS.	RS.
1899-1900	6,08,22,673	12,06,21,320	5,97,98,647	..
1900-1901	7,42,12,132	12,00,54,963	4,58,42,831	..
1901-1902	8,74,80,232	12,00,06,021	3,25,25,729	..
1902-1903	9,21,67,763	13,21,25,736	3,99,57,973	..
1903-1904	8,83,27,962	15,22,13,186	6,38,85,224	..

It will be seen that the balance in favour of the province in the year under report, which is nearly 70 per cent. over that of the previous year, is exceptional. It is due to unprecedented exports of cotton and most of the staples of the Presidency.

Import Duty.—The following statement shows the gross amount of customs duty collected on the several articles of merchandise and on salt imported into the Madras Presidency during each of the past five years, and also refunds and drawbacks and the net collections.

Spirits, wines, articles of food and drink, silver bullion or coin, other metals and cotton manufactures show considerable increase, while petroleum and arms exhibit a large decrease. The reasons assigned for fluctuations in the trade of articles in the previous paragraphs of the review apply also to fluctuations in revenue.

While the trade with other provinces increased by 15.28 lakhs, interportal trade within the presidency declined by 24.88 lakhs. In the former the increase occurs in the exports of cordage, coloured cotton piece-goods, tobacco, rice, jinjili oil, provisions, salt, til seeds, betel-nuts and sugar, and the decrease in the latter under such staples as sugar, fish, tobacco, cocoanut-kernels and spirits.

Bengal Presidency.—There were increased imports of coal (1.58 lakhs), pulse (10.98 lakhs), rice (5.96 lakhs), gunny bags (8.67 lakhs) and paper (.91 lakh). The increase under coal is attributable to competition between Bengal and Singareni coal, that under pulse to a poor crop in this province, that under rice to smaller imports of rice from Burma and that under gunny bags is due to heavy shipments of rice and paddy to foreign ports. In the imports of foreign merchandise, white piece-goods show a decrease of 2.95 lakhs due to high prices ruling at Calcutta. The exports to Bengal of Indian produce and manufactures show a net decrease of 6.57 lakhs. There were decreases in the exports of raw cotton (3.91 lakhs), turmeric (3.74 lakhs), chillies (2.35 lakhs) and pepper (4.23 lakhs) and increases under cocoanut oil (3.02 lakhs), salt (3.56 lakhs) and seeds (4.58 lakhs). These variations are dependent upon local agricultural outputs and are mere interchanges of staples between one province and another.

Bombay Presidency.—Imports of Indian produce and manufacture from Bombay show decreases under rice and paddy (5.85 lakhs), salt (8.67 lakhs) and twist and yarn (1.29 lakhs) while there were increases under gram and pulse (7.23 lakhs), cotton piece-goods (1.41 lakhs) and essential seeds (1.53 lakhs). In the imports of foreign merchandise cotton piece-goods show a decrease of 6.31 lakhs while sugar shows an increase of 1.95 lakhs, the former being due to the general depression in the cotton trade and the latter to increased imports of cheap Mauritius sugar on the West Coast from Bombay. In the exports of Indian produce and manufactures, rice shows an advance of 25.28 lakhs, Bombay having preferred to buy from Madras instead of from Burma where it was dear. In jawar and bajra, the decrease is about 4 lakhs and is attributable to absence of demand on the Bombay side where there was scarcity in the previous year. In cocoanuts and copra, oils and spices there was a decrease of 1.43, 7.71 and 9.38 lakhs, respectively, due to the failure of a Bombay firm of produce exporters who financed and worked the exports of West Coast produce to foreign countries via Bombay.

Burma.—The imports of rice and paddy from Burma show a large decrease amounting to 49.77 lakhs owing to higher prices in Burma and to abundant local crops, while the poor pulse crops here necessitated larger imports of that article, the increase being 4.30 lakhs. In the year under review Burmese kerosene oil, was for the first time imported into this province. The imports amounted to 1,987,676 gallons valued at Rs. 9,93,838. Another article of Burman manufacture imported for the first time and which has already shown signs of considerable expansion is paraffin wax candles, of which large quantities go to Mysore for use in the gold mines. The trade in teak wood has recovered to the extent of 5.86 lakhs and the prices also have risen as the local demand increased.

In the exports of Indian produce and manufactures, the trade in coloured piece-goods shows a remarkable expansion, the increase amounting to 9.48 lakhs, while twist and yarn and grey piece-goods show a slight decrease. Except fish dry, salted, which shows a decrease of about a lakh of rupees, all the other important articles comprised under the head of "Articles of Food and Drink", viz., rice and paddy, sugar, ghi and other provisions, show respectively an increase of 2.29, 1.81, 1.04 and 2.64 lakhs due to increased requirements. The exports of oils under castor, cocoanut and earthnut decreased by .89, 3.00 and .68 lakhs respectively, while til oil shows an increase of 2.04 lakhs.

TRADE WITH INDIAN PORTS NOT BRITISH.

The total trade with foreign ports in India in merchandise is given below for each province or state for 1902-1903 and 1903-1904.

	1902-1903.		1903-1904.

The increase in imports from Kathiawar is in pulse and essential seeds, and that in imports from Travancore is in pepper, copra and wood. The increase in exports to Goa occurs in rice. In the case of other countries, the variations are slight and call for no remark.

INTERPORTAL TRADE OR TRADE WITHIN THE PRESIDENCY.

The statement below shows the total value of the interportal trade and the nature of the commodities interchanged between the several ports of the Presidency. As explained in the opening paragraph of the review, the real value of this trade is only half of what is shown here.

The distinctive feature of the year is smaller exports of Government of India rupees to other centres on Government account. Fifteen lakhs in sovereigns were moved to Burma by the Currency Department owing to excessive gold balance at this centre.

Government Stores (Coasting Trade).—The total value of Government transactions in the coasting trade during the year under review amounted to 36.88 lakhs, of which 23.83 lakhs represent imports and 13.05 lakhs exports. The principal articles of imports were apparel 2.40 lakhs) and arms, ammunition and military stores (15.74 lakhs) while, those of exports were also the same articles to the amount of 2.89 and 4.67 lakhs respectively.

The difference of 49 between the number of vessels entered and cleared is due to some of the vessels, chiefly German, carrying on an interpresidential trade instead of clearing direct to foreign countries and to the re-entry into certain ports before the close of the year under review of a number of fishing vessels from Marichikutty whither they had cleared for pearl-fishing purposes towards the close of the previous official year.

The following statement shows the distribution of the shipping over the more important ports of the Presidency :—

There is an increase of 106 vessels entered and cleared in this year as compared with the previous year. This increase is due to several vessels having directly entered from, and cleared to, foreign countries instead of coastwise. It is also accounted for by the enormous increase in trade in the year under review.

The movements of shipping to and from each foreign country are shown below :—

Shipping—Coasting Trade.

The number and tonnage of vessels engaged in the coasting trade with British ports in other Presidencies and Foreign ports in India are given below :—

Years.	Entered.		Cleared.	
	NO.	TONS.	NO.	TONS.
1901-1902	4,452	1,592,964	4,511	1,814,035

1903-1904	4,091	1,727,095	4,452	2,055,250

When compared with the previous year, there is a decrease of 187 vessels under “Entered” and an increase of 135 vessels under “Cleared” during the year under review. The excess of 361 vessels in the number “Cleared” over those “Entered” during the year is due to a very large number of boats entering at the close of the previous year and clearing during the year under review.

The nationalities of the vessels included in the foregoing statement are shown below :—

There is a decrease of 1,486 vessels under “Entered” and of 1,502 vessels under “Cleared” in the year under review as compared with the previous year. This is due to the opening of the Madura-Pamban Railway and the consequent diversion of the pilgrims traffic to Rameswaram from sea to railway which has materially affected the coasting trade of Pamban.

During the year under review 27 vessels of an aggregate burthen of 1,478 tons were built and 34 vessels of 1,603 tons were registered under Act X of 1841 at the several ports of the Madras Presidency, the bulk of them being on the West Coast and at the Cocanada port on the East Coast.

ADMINISTRATION OF THE CUSTOMS DEPARTMENT.

Personnel of the Department.—There are 145 ports in the Presidency including sub-ports, of which 43 are open to foreign trade and the rest to coasting trade only. Of these, the port of Madras was during the year 1903-1904 under the administrative control of Mr. J. Twigg, I.C.S., Collector of Sea Customs, who is also the Chief Customs Officer for the whole Presidency. The office of the Deputy Collector of Sea Customs was held by Mr. H. C. Sherman and that of the Superintendent of Statistics by Mr. R. M. Thurley. The subordinate ports and also the Land Customs Chowkies were in charge of the Assistant Commissioners of the Salt, Abkari and Customs department who are subject to the general control of the Collector of Sea Customs, Madras, and of the Board of Revenue.

Total Receipts and Disbursements.—The total receipts for the whole Presidency under Sea and Land Customs, Imperial and Provincial, together with Excise Duty on cotton manufactures, amounted to Rs. 53,94,305 during the year 1903-1904, against Rs. 49,65,478 in the previous year, thus showing an increase of Rupees 4,28,827. The Land Customs receipts amounted to Rs. 2,18,809, against Rupees 2,25,934, in the previous year. The disbursements including Drawbacks, Refunds, Establishment and other charges amounted to Rs. 3,55,810, against Rs. 3,46,245 in the previous year, showing an increase of Rs. 9,565. Of those figures, the share of the Madras port and of the subordinate ports is as follows :—

For the purpose of this chapter, financial or treasury figures have been adopted, and variations between these and the statistical figures given in the trade review (pages 24 and 25) will be reconciled later in communication with the various officers of Customs.

Receipts and disbursements for the Presidency as a whole have not been shown in detail as a lump sum representing 5 per cent. of the total charges of the Salt, Abkari and Customs department less “salt purchase and freight and excise licensees’ works” is debited to IX—Customs under G.O., No. 1080, Revenue, dated 25th October 1900, on account of customs charges for outports.

RECEIPTS.

The explanation as regards variations in the collections of import and export duty for the Presidency given at pages 24 and 25 of the review apply to the port of Madras.

Excise duty on Cotton Manufactures.—The decrease is attributed to short work done by the Carnatic Mill owing to strikes.

Warehouse and Wharf Rents.—The increase is due to large importations of iron and steel and to delay by merchants in clearing them.

Fees and Penalties.—The increase is due to the larger number of cases detected and to the infliction of heavy fines in certain cases.

DISBURSEMENTS.

Overtime and holiday allowances to Customs Officers.—The charges were increased by the payment during the year of deductions made during the previous year from the preventive and other officers' overtime fees and allowances.

Drawback.—The increase is due to large exportations of duty paid goods to Singapore and Ceylon.

Refunds.—The decrease under refunds of import duty is due to smaller refunds under arms and petroleum as compared with the previous year. The excess in other refunds is due to repayment of temporary deposits and to larger refunds of excise duty on country cotton manufactures exported to foreign countries.

Cases adjudged under the Sea Customs Act.—The number of cases adjudged by the officers of Customs in the several ports of the Presidency increased from 227 in 1902-1903 to 389 in 1903-1904. The extra duty realized amounted to Rs. 2,582 during the year against Rs. 2,135 in the previous year.

Cases dealt with under the Merchandise Marks Act.—In the year under review there were 104 cases dealt with, viz., 46 cases under section 10, clause (d), 32 under (e) and 26 under (f). Out of the 104 cases, 98 were detected at the port of Madras and disposed of by the Collector and 6 cases by the Superintendents of subordinate ports, 2 in Calicut, 1 in Cochin, 1 in Mangalore, and 2 in Negapatam. There was one unsuccessful appeal to the Board of Revenue against the decision of the Collector. The penalties levied amounted to Rs. 469 against Rs. 1,510 in the previous year, the decrease being due to severe penalties having been imposed in 1902-1903 for false trade descriptions in respect of silver gilt thread and Austrian note paper.

Appeals.—There were 32 appeals preferred under the Sea Customs Act, 6 to the Board of Revenue against the decisions of the Collector of Sea Customs, Madras, and the remaining 26 to the Assistant Commissioners against the decisions of the Superintendents of subordinate ports.

Testing Department.—Two thousand six hundred and fifty-five samples of spirits and wines were tested during the year for obscuration, against 2,199 samples in the previous year. The Madras port contributed 2,438 samples of spirits and one of wine, while the outports sent 188 samples of spirits and 28 of wine. A new liquor "Felixir spirit" resembling whisky was tested and found to be of 17.6 under-proof strength.

Statistical Publications.—The following publications are compiled in the Statistical department and printed and issued for the use of the commercial public:—

(1) A daily list of articles passed for shipment or for home consumption with the quantities and values of articles and the names of exporters and importers.

(2) A monthly statement showing the quantity and value of articles imported and exported at Madras and at the respective outports from and to foreign countries.

(3) Printed copies of import and export manifests of vessels engaged in foreign trade.

The sale-proceeds of these publications amounted to Rs. 6,140 in 1903-1904 against Rs. 6,048 in the previous year, and left a profit of Rs. 413-4-7 after deducting the charges for printing and establishment. Since the compilation of these publications has been taken over by the department, there has been much improvement in their preparation and greater punctuality in their issue. Subscribers who are not members of the local Chamber of Commerce have also been benefited, as the publications are now supplied to them at single rates instead of at double rates which the Chamber of Commerce was charging. Besides these publications, statistical information of a special nature has been supplied to merchants applying for it on payment of nominal fees for compilation. The number of such applications during 1903-1904 was 35 against 44 in the previous year.

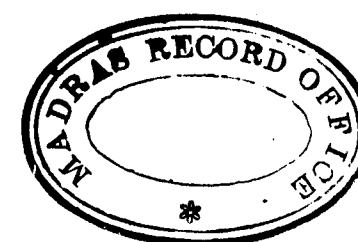

Miscellaneous.—The number of customs documents dealt with in all the custom houses of the Presidency comprising bills of entry, shipping bills, warehouse and clearance passes amounted to 166,069 showing an increase of 9,808 documents over those filed in the previous year. The amount of stamp duties realized in respect of the documents filed at the custom-houses was Rs. 12,029 during the year under review.

This review has been compiled as in the previous year by Mr. R. M. Thurley, Superintendent of Statistics of the Sea-borne Trade for the Presidency.

MADRAS,
The 22nd August 1904.

(Signed) D. D. MURDOCH,
Acting Collector of Sea Customs.
