EXPLANATORY NOTE TO THE TRADE VOLUME OF THE MADRAS PRESIDENCY FOR THE YEAR 1905-1906.

Outline of tables included and arrangement of articles.—The volume is divided into three parts. Part I contains tables relating to trade with foreign countries, Part II to the coasting trade, and Part III to shipping, both foreign and coasting.

Part I. Foreign Trade.—In Part I there are 18 tables, of which tables 1 and 1-A give abstract total values of merchandise and treasure imported and exported for the whole Presidency and at each port respectively for a period of five years. Tables 3 and 4 show the value of the trade with each country. Tables 5, 6 and 7 show the abstract of trade in each article for a period of five years. Tables 8 to 11 deal with customs duty collections, refunds and drawbacks, the articles in tables 9 and 10 being arranged in accordance with the latest tariff schedules with a note against each article of the rate of duty in force from time to time, and in No. 11 in alphabetical order. Table No. 12 shows the value of such dutiable articles as have been passed free for specific institutions or individuals; table No. 13 gives the quantities of dutiable articles remaining in bond at the end of the year; tables Nos. 14 and 15 deal with the imports and exports of treasure; tables Nos. 16, 17 and 17-B detail the particulars of imports and exports from and to each foreign country for the Presidency as a whole; tables 16-A and 17-A give details for the several ports in the Presidency, the value of the annual trade of which is one lakh of rupees or above, and specify all articles, the trade value of which, under each major head, is 50,000 rupees or more, ports and articles of less importance being grouped under 'other ports' and 'other articles' respectively. The articles in tables 5 to 7 and in tables 16 and 17 are arranged alphabetically under the following seven main heads:—

- I. Animals, living.
- II. Articles of food and drink.
- III. A. Hardware and cutlery.
B. Metals.
C. Machinery and Mill work.
D. Railway plant and Rolling stock.
- IV. Chemicals, drugs, medicines and narcotics, and dyeing and tanning materials.
- V. Oils.
- VI. Raw materials and unmanufactured articles.
- VII. Articles manufactured and partly manufactured:—
A. Yarns and textile fabrics.
B. Apparel.
C. Other articles.

The details of trade with each country are shown in table No. 18 which is divided into three parts—18-1 showing imports from each foreign country, 18-2 exports of foreign merchandise thereto, and 18-3 exports of country produce. Only those countries are exhibited, the value of the trade with which is a lakh of rupees or more, and only those articles the trade in which under each major head is not less than 10,000 rupees.

Part II. Coasting Trade.—Tables Nos. 1 and 2 of this part of the volume give respectively the abstract total value of the trade of the Presidency and of the interchange of trade within the Presidency and with other maritime provinces in India, while tables 3 to 6 show in the abstract the trade in each article for a period of five years, a distinction being made between country and foreign produce. In these latter tables the articles are arranged alphabetically under major heads, and those

articles, the aggregate value of which, under a major head, is less than 50,000 rupees are clubbed together under the item "All other articles". Tables Nos. 7 to 10 show particulars of the trade in the current year with each maritime province. The articles are arranged alphabetically, those having a total value of less than 25,000 rupees under each major head being clubbed and shown under the item "All other articles".

Part III. Shipping.—Tables 1 to 9 contain particulars of the tonnage of vessels engaged in the foreign trade and tables 10 to 14 of vessels engaged solely in the coasting trade. The total number and tonnage of vessels arriving from, and clearing to, foreign countries are given in table No. 1, while the Madras port shipping is shown separately in Table 1-A. The shipping is exhibited in tables 2 and 3 according to the trade carried on with different countries and in tables 4 and 5 according to the nationalities of the vessels engaged, while tables Nos. 6 and 7 show the tonnage of the vessels of each nationality engaged in the trade with each country. Vessels entering and clearing in ballast are shown in tables 8 and 9. The total tonnage of the shipping engaged in the coasting trade is exhibited in table No. 10, while the nationalities of the vessels carrying cargoes from and to each maritime province of India are given in tables 11 and 12. Table No. 13 shows the number of vessels built at each port during the year, and No. 14, the number of vessels first registered at each port under the Indian Merchant Shipping Act.

Nature of the Trade recorded.—The trade dealt with in these accounts is the trade registered at British Indian Ports in the Madras Presidency between these ports and foreign countries and other Indian ports, British and non-British. They do not include the foreign and the coasting trade of ports in the French possessions, or of the Native States of Travancore and Cochin.

Explanation of Imports and Exports.—The accounts of both imports and exports are exclusive of foreign merchandise transhipped at ports in this Presidency of which trade returns take no account. The import tables record the quantity and value of goods landed whether they are intended for home consumption, bonding, or re-exportation. Passengers' luggage which is not dutiable is not included in the imports, but dutiable articles in passengers' luggage are included. Imports and exports from and to foreign countries by parcel post are included, but with certain exceptions the contents of foreign registered letters received and despatched are not included. Imports and exports of gold and silver coin and bullion are recorded separately and are not included in the figures of merchandise. Imports and exports of Government stores are also dealt with separately.

Quantities and Values.—The statements of both quantities and values are based on the declarations of importers and exporters in Bills of Entry and Shipping Bills as subsequently checked by the Customs officials. The quantity of goods imported and exported is recorded so far as it is possible to do so. In most cases the quantity is recorded by weight, though in certain instances the quantities are recorded by number or by gallons or yards. When weight is the prescribed denomination different units (tons, cwt., lb., and oz.) are specified according to the nature of the various articles and trade practice. The weight recorded is the net weight of the goods, *i.e.*, not including the weight of the covers or receptacles in which the goods are packed. According to the provisions of the Indian Sea Customs Act, the values of goods imported or exported represent:—

(a) the wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of the duties payable on the importation thereof; or

(b) where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction except as aforesaid.

Classification of the Trade by countries.—Imports are classified as received from the countries whence they were shipped direct to India. This, when transshipment takes place, means the place of transshipment and not the original port of

despatch, except in the case of goods received on a through Bill of Lading. Goods received on a through Bill of Lading are ordinarily credited to the country containing the port at which the Bill of Lading was given. Through Bills of Lading, however, are by no means generally granted. Thus imports are not credited either to the country of production or to the country of original consignment, both of which differ from the country of direct shipment, in the case of merchandise which has its origin or is purchased in one country and is transhipped at the ports of other countries, or conveyed through other countries by rail for shipment to India.

Exports are ordinarily credited to the country containing the port of destination as declared by the exporters in the shipping bills whether carried there direct or after transshipment. From 1903-1904 exporters have been required to give information, as soon after shipment as it is obtainable, of the actual destination of goods consigned to Port Said to await orders for delivery in ports beyond the canal. The distribution of the exports among European countries is thus recorded with greater exactness, but it is still imperfect, and much of the trade shown as to or from Holland and Belgium is in reality trade with Germany. The distribution of trade among eastern countries is, however, far more imperfect; most of the large trade with Hongkong is trade with China, though some of it is with Japan, the Philippines, and America, and a large portion of the trade assigned to the Straits Settlements is really trade with the Far East. Colombo (Ceylon) and Aden are also *entrepôts* of trade, and a considerable proportion of the goods despatched to or received from those ports represents transit trade.

MADRAS,
28th September 1906.

A. R. CUMMING,
Ag. Collector of Sea Customs.
