EXPLANATORY NOTE TO THE TRADE VOLUME OF THE MADRAS PRESIDENCY.

Nature of the trade recorded.—The trade dealt with in these accounts is the trade registered at British Indian ports in the Madras Presidency between these ports and foreign countries and other Indian ports, British and non-British. They do not include the foreign and the coasting trade of ports in the French or Portuguese possessions, or of the Native States of Travancore and Cochin.

The volume is divided into three parts. Part I contains tables relating to trade with foreign countries, Part II those relating to the coasting trade, and Part III those relating to shipping, both foreign and coasting.

PART I.—FOREIGN TRADE.

Explanation of imports and exports.—The accounts of both imports and exports are exclusive of foreign merchandise transhipped at ports within the Presidency of which the trade returns take no account. The import tables record the quantity and value of goods landed whether they are intended for home consumption, bonding, or re-exportation. Only so much of passengers' baggage as is dutiable is included. Imports and exports from and to foreign countries by parcel post are included, but with certain exceptions the contents of foreign registered letters received and despatched are not. Imports and exports of gold and silver coin and bullion are recorded separately and are not included in the figures of merchandise. Imports and exports of Government stores are also dealt with separately.

Quantities and values.—The statements of both quantities and values are based on the declarations of importers and exporters in bills of entry and shipping bills as subsequently checked by the Customs officials. In most cases the quantity is recorded by weight, but in some instances numbers, gallons or yards are shown. When weight is the prescribed denomination different units (tons, cwt., lb., and oz.) are specified according to the nature of the various articles and trade practice. The weight recorded is the net weight of the goods, *i.e.*, not including the weight of the covers or receptacles in which the goods are packed. According to the provisions of the Indian Sea Customs Act, the values of goods imported or exported represent:—

(a) the wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of the duties payable on the importation thereof; or

(b) where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction except as aforesaid.

Classification of the trade by countries.—Imports are classified as received from the countries whence they were shipped direct to India. This, when transshipment takes place, means the place of transshipment and not the original port of despatch, except in the case of goods received on a through bill of lading which are ordinarily credited to the country containing the port at which the bill of lading was given. Through bills of lading, however, are by no means generally granted and in consequence the bulk of the imports of merchandise which has its origin or is purchased in one country and is shipped to India from a port belonging to another is credited neither to the country of production nor to the country of original consignment, both of which differ from the country of direct shipment.

Exports are ordinarily credited to the country containing the port of destination as declared by the exporters in the shipping bills whether carried there direct or after transshipment. From 1903-1904 onwards exporters have been required to give information, as soon after shipment as it is obtainable, as to the actual destination of goods consigned to Port Said to await orders for delivery in ports beyond the Suez Canal. The distribution of the exports among European countries is

thus recorded with greater exactness, but it is still imperfect, and much of the trade shown as to or from Holland or Belgium is in reality trade with Germany. The distribution of trade among eastern countries is, however, far more imperfect; most of the large traffic shown as trade with Hongkong is in reality trade with China, though some of it is with Japan, the Philippines, and America, and a large portion of the trade assigned to the Straits Settlements is really trade with the Far East. Colombo (Ceylon) and Aden are also *entrepôts* of trade, and a considerable proportion of the goods despatched to or received from those ports represents trade with other countries.

Outline of tables included and arrangement of articles.—In Part I there are eighteen tables, of which tables 1 and 1-A give abstract total values of merchandise and treasure imported and exported for the whole Presidency and at each port respectively for a period of five years. In the latter ports having an aggregate trade of less than two lakhs of rupees are lumped together. Table 2 shows the value of total Imports and Exports of Government stores and treasure. Tables 3 and 4 show the value of the trade of the chief port with each country, while tables 3-A and 4-A show figures for the subordinate ports. In the latter tables the names of countries and of subordinate ports the total imports or exports of which are less than one lakh of rupees in value yearly are omitted. Tables 5, 6 and 7 embody abstracts of the imports, exports and re-exports of important articles for the nine principal ports in the Presidency. Articles in which the trade amounts to less than one lakh of rupees in value for each major, subordinate, or detailed head are shown in lump in these tables. Tables 8 to 11 deal with customs duty collections, refunds and drawbacks, the articles being arranged in tables 9 to 11 in accordance with the latest tariff schedules with a note against each article in the two former tables of the rate of duty in force from time to time. Table 12 shows the value of such dutiable articles as have been passed free for specific institutions or individuals. Table 13 gives the quantities of dutiable articles remaining in bond at the end of the year. Tables 14 and 15 deal with imports and exports of treasure. Tables 16 and 17 detail the particulars of imports and exports from and to each foreign country for five years for the Presidency as a whole. Countries and articles having a trade value of less than Rs. 1,000 are grouped under 'other countries' and 'other articles.' Tables 16-A and 17-A give details for the several ports in the Presidency, the value of the annual trade of which is one lakh of rupees or above, and specify all articles, the trade value of which under each major head is Rs. 50,000 or more, ports and articles of less importance being grouped under 'other ports' and 'other articles' respectively. The details of trade with each country are shown in table 18 which is divided into three parts—18-1 showing imports from each foreign country, 18-2 exports of foreign merchandise thereto, and 18-3 exports of country produce. Only those countries are exhibited the value of the trade with which is a lakh of rupees or more, and only those articles the trade in which under each major head is not less than Rs. 10,000.

The countries in tables 3 to 4-A and 14 to 18 are grouped according as they are parts of the 'British Empire' and 'Foreign countries' and the articles in tables 5 to 7 and 16 to 18 are arranged alphabetically under the following seven main heads :—

- I. Animals, living.
- II. Articles of food and drink.
- III. Metals and manufactures of metals—
 - A. Hardware and cutlery.
 - B. Metals.
 - C. Machinery and mill-work.
 - D. Railway plant and rolling-stock.
- IV. Chemicals, drugs, medicines and narcotics and dyeing and tanning materials.
- V. Oils.
- VI. Raw materials and unmanufactured articles.
- VII. Articles manufactured and partly manufactured—
 - A. Yarns and textile fabrics.
 - B. Apparel.
 - C. Other articles.

PART II.—COASTING TRADE.

The nature of the trade recorded.—In these accounts the trade dealt with is the trade of the Madras ports with one another and with other ports in India. The accounts distinguish Indian merchandise from the merchandise of foreign countries.

Explanation of imports and exports.—Merchandise transhipped at customs ports, in Madras, passengers' baggage, and postal transactions are excluded from the accounts of both imports and exports. Imports and exports of gold and silver coin and bullion are recorded separately and are not included in the figures of merchandise. Imports and exports of Government stores are recorded separately, but are not shown in Part II of this volume.

Quantities and values.—Quantities and values are based on the definitions given above under the same heading in Part I.

Outline of tables included and arrangement of articles.—In Part II there are 11 tables. Tables 1 and 1-A of this part of the volume give respectively the abstract total value of the trade of the Presidency and of each of the subordinate ports, while tables 2 and 2-A show total values of interchanges of trade within the Presidency and with other maritime provinces in India. Tables 3 to 6, like the corresponding tables 5 to 7 under foreign trade, show abstracts of imports and exports of country produce and foreign merchandise for the eight most important ports of the Presidency. As in the case of foreign trade articles having a trade of less than one lakh of rupees in value for each major, subordinate or detailed head are shown in lump. The articles are arranged in alphabetical order. Tables 7 to 10 exhibit particulars of the trade for five years with each maritime province. The articles are arranged alphabetically and all detailed heads with a smaller value than Rs. 10,000 are omitted. Table 11 gives particulars of coastwise imports and exports of treasure.

British Indian.—Steamers and square-rigged sailing vessels, flying the British flag and registered under the Indian Merchant Shipping Act, X of 1841, or other enactment for the time being in force for the registration of ships in British India.

Native Craft.—

(i) *British.*—Sailing vessels not square-rigged, flying the British flag but not belonging to any ports in British India or in Native States.

(ii) *British Indian.*—Sailing vessels not square-rigged belonging to ports in British India or in Native States.

(iii) *Foreign.*—Sailing vessels not square-rigged, flying a flag other than the British flag or that of a Native State.

Foreign.—Steamers and square-rigged sailing vessels flying a flag other than the British flag.

Arrangement of the tables.—In Part III tables 1 to 9 are concerned with the tonnage of vessels engaged in the foreign trade and tables 10 to 14 with that of vessels engaged solely in the coasting trade. The total number and tonnage of vessels arriving from and clearing to foreign countries are given in table 1, while the shipping using the Madras port is shown separately in table 1-A. The shipping is exhibited in tables 2 and 3 according to the trade carried on with different countries and in tables 4 and 5 according to the nationalities of the vessels engaged, while tables 6 and 7 show the tonnage of the vessels of each nationality engaged in the trade with each country. Vessels entering and clearing in ballast are shown in tables 8 and 9. The total tonnage of the shipping engaged in the coasting trade is exhibited in table 10, while the nationalities of the vessels carrying cargoes from and to each maritime province of India are given in tables 11 and 12. Table 13 shows the number of vessels built at each port during the year, and 14 the number first registered at each port under the Indian Merchant Shipping Act.

MADRAS,
5th September 1908.

J. S. HEANEY,
Ag. Collector of Sea Customs.
