EXPLANATORY NOTE

TO THE TRADE VOLUME OF THE PROVINCE OF BURMA.

1. The nature of the trade recorded.—The trade dealt with in these accounts is the trade registered at Rangoon and at the subordinate ports of the Province of Burma between these ports and (a) foreign countries and (b) other Indian ports, British and non-British.

The volume is divided into three parts: Part I contains tables relating to trade with foreign countries, Part II to the coasting trade, and Part III to shipping, both foreign and coasting.

PART I.—FOREIGN TRADE.

2. Explanation of Imports and Exports.—The accounts of both imports and exports are exclusive of foreign merchandise transhipped at ports in this Province of which trade returns take no account. The Import tables record the quantity and value of goods landed, whether they are intended for home consumption, bonding or re-exportation. Re-exports of foreign merchandise as distinguished from exports of Indian merchandise are recorded separately.

Passengers' baggage which is not dutiable is not included in the imports, but dutiable articles in passengers' luggage are included.

Imports and exports from and to foreign countries by parcel post are included, but the contents of foreign registered letters received and despatched are not included.

Imports and exports of gold and silver coin and bullion are recorded separately and are not included in the figures of merchandise.

Imports and exports of Government stores are also dealt with separately.

3. Quantities and Values.—The statements of both quantities and values are based on the declarations of importers and exporters in bills of entry and shipping bills, as subsequently checked by the Customs officials. In most cases the quantity is recorded by weight, though in certain instances the quantities are recorded by number or by gallons or yards. When weight is the prescribed denomination, different units (tons, cwt., lbs., ozs.) are specified according to the nature of the various articles and trade practice. The weight recorded is the net weight, *i.e.*, not including the weight of the covers or receptacles in which the goods are packed. According to the provisions of the Indian Sea Customs Act, the "real values" of goods imported and exported represent—

- (a) the wholesale cash price, less trade discount for which goods of the like kind and quality are sold or are capable of being sold at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of the duties payable on the importation thereof; or
- (b) where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction, except as aforesaid.

Note.—For statistical purposes, only "real values" are recorded and not "tariff values."

4. Classification of the trade by countries.—Imports are classified as received from the countries whence they were consigned direct to India. Thus

imports are credited to the country of original consignment, which differs from the country of direct shipment in the case of merchandise which has its origin or is purchased in one country and is transhipped at the ports of other countries or conveyed through other countries by rail for shipment to India.

Exports are ordinarily credited to the country containing the port of final destination as declared by the exporters in the shipping bills, whether carried there direct or after transshipment. Special mention may be made of the exports to Egypt, which, until the year 1903-04, consisted to a large extent of rice, rice-bran, raw hides, etc., consigned to Port Said to await orders for delivery in ports beyond the Canal. From 1903-04, however, exporters have been required to give information, as soon after shipment as it is obtainable, of the actual destination of these consignments, and as the result of the amended classification the recorded exports to Egypt were considerably reduced. The distribution of the exports among European, etc., countries is thus recorded with greater exactness.

In all tables where trade is shown according to countries, the countries included in the British Empire have been grouped separately from foreign countries.

5. Arrangement of the Tables.—In Part I there are 18 tables showing the trade of the whole Province, of the Chief Port (Rangoon) and of the subordinate ports for a period of five years.

Tables Nos. 1 and 1A give abstract total values of private merchandise and treasure imported and exported for the whole Province and at each port respectively, and Table No. 2 gives abstract total values of Government stores and treasure imported and exported for the whole Province and its Chief Port respectively.

Tables Nos. 3 and 4 show the total value of the trade of the Chief Port with each country. Tables Nos. 3A and 4A show the total value of the trade of all the subordinate ports together with each country for five years with details for each subordinate port respectively for one year.

Tables Nos. 5 to 7A show the abstract of trade in each article for the Chief Port and for each of those subordinate ports (namely, Moulmein, Akyab and Bassein) at which the average total value of the annual foreign trade (imports and exports combined) is not less than Rs. 50 lakhs. The figures for the ports with a trade of less than Rs. 50 lakhs each are shown in a combined table "Other subordinate ports" for a period of five years with details for each port included under this head for one year. In these tables figures are shown under a major, subordinate, or detailed head when the value is not less than Rs. 1,00,000, Rs. 50,000 and Rs. 20,000, respectively. But when a detailed head has attained the appropriate minimum and the sub-head and major head are below their respective minima, totals of these heads to which the detailed head belongs are also shown. When the value of the trade is less than the minimum it is merged, in the case of major heads, in the head "Other articles" of the group to which it belongs, and in the case of subordinate or detailed heads in the sub-head "Other sorts" under the major or sub-head, unless special reasons exist for specifying it separately.

Tables Nos. 8 to 11 deal with Customs duty collections, refunds and drawbacks, the articles in Tables Nos. 9 to 11 being arranged in accordance with the latest tariff schedules with a note against each article of the rate of duty in force from time to time.

Table No. 12 shows the value of such dutiable articles as have been passed free for specific institutions; Table No. 13 gives the quantities of dutiable articles remaining in bond at the end of the year, and Tables Nos. 14 and 15 deal with the imports and exports of treasure, private and Government.

The General Tables, Nos. 16 and 17, detail the particulars of imports and exports of private merchandise and Government stores from and to each foreign country for the Province as a whole. In these tables the trade in each article with each country is recorded separately when its value is Rs. 1,000 or more; and when the value of the trade under a major, subordinate, or detailed head is less than Rs. 1,000 it has been merged, in the case of major heads, in the head "Other articles" of the group to which it belongs, and in the case of subordinate or detailed

heads in the sub-head "Other sorts" under the major or sub-head, unless special reasons exist for specifying it separately; similarly, if the value of the trade with any country in any particular article is less than Rs. 1,000, it is grouped under one of the heads "Other British Possessions" or "Other foreign countries."

The details of trade with each country are shown in Table No. 18, which is divided into three parts: 18-1 showing imports from each foreign country, 18-2 exports of foreign merchandise thereto, and 18-3 exports of Indian merchandise. Only those countries are exhibited, the value of the trade with which is a lakh of rupees or more, and only those articles the trade in which under each major head is not less than Rs. 10,000.

In Tables 5 to 7A and 16 to 18-3 articles of trade are grouped under the following main heads:—

- I. Animals living.
- II. Articles of food and drink.
- III. Metals and manufactures of metals.
- IV. Chemicals, Drugs, Medicines, Narcotics, Dyeing and Tanning materials.
- V. Oils.
- VI. Raw materials and unmanufactured articles.
- VII. Articles manufactured and partly manufactured.

The sub-heads and items specified under sub-heads are in alphabetical order.

The term "*Indian merchandise*" comprises all goods which are of the growth, produce, or manufacture of India. Indian merchandise is distinguished from British or Foreign merchandise in the declaration of shippers made in the Shipping Bills from which trade statistics are compiled.

A classified list of articles, the trade in which is separately exhibited in Tables Nos. 16 and 17 (general imports and general exports), and a complete list of all the countries, the trade with which is separately recorded, are appended to this note.

PART II.—COASTING TRADE.

6. The nature of the trade recorded.—In these Accounts the trade dealt with is the trade of the Burmese ports with one another and with other ports in India.

In the General Tables of Imports and Exports the total imports into and total exports from the Province of Burma are divided between the following classes:—

- (1) Imports from and exports to British ports in other Provinces in India.
- (2) Imports from and exports to British ports within the Province (Provincial Trade).
- (3) Imports from and exports to Indian ports not British, *e.g.*, Alleppey, Pondicherry, etc.

Note.—This includes the trade between a Customs and non-Customs Provincial port which is registered at a Customs port.

These groups are combined to show the imports and exports of the Province as a whole in Abstract Table No. 1, and the imports and exports of each port within the Province in Abstract Table No. 1A.

The combined total of exports and imports, however, does not show the actual value of the coasting trade because in the trade which is shown under class (2) above the imports represent the same goods as the exports with an addition to their value on account of freight, insurance, and other shipping charges. But the imports and exports under classes (1) and (3) represent different goods because such transactions are recorded once only. In order, therefore, to ascertain the

total value of the coasting trade of the Province, the value of the imports alone under class (2) must be added to the sum of the imports and exports under classes (1) and (3).

7. Explanation of Imports and Exports.—Merchandise transhipped at customs ports in Burma, passengers' baggage, and postal transactions are excluded from the accounts of both imports and exports.

Imports and exports of gold and silver coin and bullion are recorded separately and are not included in the figures of merchandise.

Imports and exports of Government stores are recorded separately, but are not shown in Part II of this Volume.

8. Quantities and Values.—The remarks made under the same heading in Part I also apply to the coasting trade. As regards values, however, it may be stated that in the Foreign Trade, export and import duties are not included in the values recorded, but in the Coasting Trade, Customs and Excise duties previously paid are for statistical purposes included in the value of the goods exported and imported.

9. Arrangement of the Tables.—In Part II there are ten tables showing the trade of the whole Province, the Chief Port (Rangoon) and of the subordinate ports for a period of five years.

Tables Nos. 1 and 1A give abstract total values of private merchandise and treasure imported and exported for the whole Province and at each port respectively.

Tables Nos. 2 and 2A show the total value of the trade of the Chief Port and of all the subordinate ports combined with each Province for a period of five years with details for each subordinate port for one year.

Tables 3 to 6A show the abstract of trade in each article for the Chief Port and for each of those subordinate ports (namely, Moulmein and Akyab) at which the average total value of the annual coasting trade (imports and exports combined) is not less than Rs. 50 lakhs. The figures for the ports with a trade of less than Rs. 50 lakhs each are shown in a combined table "Other subordinate ports" for a period of five years with details for each port included under this head for one year. In these tables figures are shown under a major, subordinate, or detailed head when the value is not less than Rs. 1,00,000, Rs. 50,000 and Rs. 20,000, respectively. But when a detailed head has attained the appropriate minimum and the sub-head and major head are below their respective minima, totals of these heads to which the detailed head belongs are also shown. When the value of the trade is less than the minimum it is merged, in the case of major heads, in the head "All other articles," and in the case of subordinate or detailed heads in the sub-head "Other sorts" under the major or sub-head, unless special reasons exist for specifying it separately.

The General Tables, Nos. 7 to 10, detail the particulars of imports and exports of private merchandise from and to each Province for Burma as a whole. In these tables the trade in each article with each Province or port is recorded separately when its value is Rs. 10,000 or more, and when the value of the trade under a major, subordinate, or detailed head is less than Rs. 10,000 it has been merged, in the case of major heads, in the head "All other articles," and in the case of subordinate or detailed heads in the sub-head "Other sorts" under the major or sub-head, unless special reasons exist for specifying it separately; similarly, if the value of the trade with any Province or port in any particular article is less than Rs. 10,000, it is grouped under one of the heads "Other Provinces" or "Other Indian Ports, not British."

Table No. 11 deals with the imports and exports of treasure, private and Government.

In the tables of Foreign sea-borne imports and exports, the various articles are grouped under seven main heads; but in the tables of imports and exports of the Coasting trade, the list of articles is arranged in alphabetical order as prescribed in the Statistical List.

For both imports and exports "*Foreign Merchandise*" is distinguished from "*Indian Merchandise*," the latter term comprising all goods which are of the growth, produce, or manufacture of India. This information is based on declarations made by exporters and importers in shipping bills and bills of entry from which trade statistics are compiled.

PART III.—SHIPPING.

10. The nature of the statistics recorded.—The statistics dealt with in these accounts are the shipping registered at Rangoon, and at the subordinate ports of the Province of Burma between these ports and (a) foreign countries and (b) other Indian ports, British and non-British.

11. Explanation of the registration of the vessels entered and cleared.—In the case of a vessel arriving from or clearing to more than one British Indian or foreign port (including foreign Indian ports), she is registered as follows:—

In the case of a vessel arriving from—	Several foreign ports ... Several British Indian ports British Indian and foreign ports.	She is shown as having entered from—	The first foreign port.
			The last British Indian port.
In the case of a vessel clearing to—	Several foreign ports ... Several British Indian ports Foreign and British Indian ports.	She is shown as having cleared to—	The last British Indian port.
			The first foreign port.

It should be mentioned that nearly all the vessels shown as having cleared for Egypt are vessels which merely call at Port Said "for orders" and are destined for various ports in Europe.

The tonnage recorded in these accounts is the "registered" tonnage of a vessel.

His Majesty's ships of war, pleasure yachts, steam boats and launches are not included in the shipping tables.

12. Definitions of the several classes of ships.—Separate figures are given for the following classes of ships:—

British	Foreign
British Indian	Native craft

the definitions for which are as follows:—

British.—Steamers and square-rigged sailing vessels, flying the British flag and registered under the English Merchant Shipping Act of 1894, in any port in the United Kingdom or in a British Possession other than British India.

British Indian.—Steamers and square-rigged sailing vessels, flying the British flag and registered under the Indian Merchant Shipping Act, X of 1841, or other enactment* for the time being in force for the registration of ships in British India.

Native Craft.—

(i) **British.**—Sailing vessels not square-rigged, flying the British flag but not belonging to any ports in British India or in Native States.

(ii) **British Indian.**—Sailing vessels not square-rigged, belonging to ports in British India or in Native States.

(iii) **Foreign.**—Sailing vessels not square-rigged, flying a flag other than the British flag or that of a Native State.

Foreign.—Steamers and square-rigged sailing vessels, flying a flag other than the British flag.

The particular nationality of all steamers and square-rigged vessels falling under class "Foreign" is shown separately in the Foreign Trade only. In the case of Native Craft falling under class (iii) *Foreign*, the figures for all nationalities are grouped together in the Foreign as well as the Coasting Trade.

* Such as the English Merchant Shipping Act of 1894.

13. Arrangements of the Tables.—Tables Nos. 1 to 9 contain particulars of the tonnage of vessels engaged in the Foreign Trade, and Tables Nos. 10 to 14 vessels engaged in the Coasting Trade, *i.e.*, trade with Indian ports, British and non-British.

The total number and tonnage of vessels arriving from and clearing to Foreign Countries are given in Table No. 1, while the shipping of the port of Rangoon is shown separately in Table No. 1A. Tables Nos. 2 and 3 exhibit the shipping according to the trade carried on with different countries, and Tables Nos. 4 and 5 according to the nationalities of the vessels engaged for a period of five years, while Tables Nos. 6 to 9 show the tonnage of the vessels of each nationality engaged in the trade with each country for one year.

The total tonnage of the shipping engaged in the Coasting Trade is exhibited in Table No. 10, while Tables Nos. 11 and 12 show the tonnage of the vessels (with cargoes) of each nationality engaged in the trade with each Province. Table No. 13 shows the number of vessels built at each port, and No. 14 the number of vessels first registered at each port under the English and Indian Merchant Shipping Acts.

In these tables separate figures are shown for steam and sailing vessels as well as for vessels which entered and cleared with cargo and in ballast.

A. S. JUDGE,
Chief Collector of Customs, Burma.

RANGOON, 18th September 1912.
