INTRODUCTORY AND PERSONNEL.

1. PUDUKKOTTAI is the third in importance of the Native States in direct political relations with the Government of Madras. It is bounded on the north and west by Trichinopoly, on the south by Ramnad and Madura and on the east by Tanjore.

The area of the State is 1,178 square miles. The population according to the last Census numbered 4,11,878. Pudukkottai (population 26,852) the only town in the State is situated centrally 33 miles south of Trichinopoly. The State is agricultural and dependent on a somewhat precarious rainfall.

2. His Highness the Raja, whose full name is SRI BRIHADAMBA DAS RAJA SIR MARTHANDA BHAIRAVA TONDAIMAN BAHADUR, G. C. I. E., is eighth in descent from Raghunatha Tondaiman, the founder of the family. He is entitled to a salute of 11 guns. His Highness, who is 39 years of age succeeded his grandfather Ramachandra Tondaiman in 1886 and was invested with powers of administration in 1894.

4. His Highness the Raja returned to Pudukkottai from Europe in the middle of October, 1914. The improvement in His Highness' health enabled His Highness to stay in India and to devote his full attention to the affairs of the State till February 26, 1915, when he left for Australia.

In a public meeting held on November 23, 1914, in the Town Hall at Pudukkottai, His Highness gave an address on the present war which created a deep impression on the minds of the people. A sum of Rs 64,000 was subscribed by the subjects of the State and remitted to the Imperial Indian Relief Fund during the fasli, while smaller sums were contributed to the support of the Madras Hospital Ship and the Ladies' Depot of the Madras War Fund.

Under the commands of His Highness two lakhs of rupees were contributed from State Funds to the Madras War Fund, Rs. 15,000 to the Prince of Wales Relief Fund, Rs. 15,000 to the Imperial Indian Relief Fund and Rs. 500 monthly to the Madras Hospital Ship.

5. M. R. Ry. V. R. Thirumalai Durai Rajah Avergal one of the grandsons of His Highness the late Raja, died at Trichinopoly, on October 27, 1914, and M. R. Ry. Raghunatha Tondaiman Sahib, second son of the late Western Palace Jaghirdar, died at Pudukkottai, on December 29, 1914.

6. Mr. J. T. Gwynn, I. C. S., continued to be Superintendent throughout the fasli. M. R. Ry. Vijaya Raghunatha Durai Rajah Avergal, B. 8. Revenue rose by about 15,000 rupees in the fasli, the increase being contributed by Excise, Stamps, Forests and Land Revenue. Under the latter a fall had been anticipated as the outbreak of the war made a temporary suspension of Chetty Natham Settlement operations advisable but the rise in receipts from the sale of other State lands more than set off this loss.

9. The Expenditure exceeded that of Fasli 1323 by Rs. 4,92,301. The chief factors in this increase are an expenditure of Rs. 2,31,500 in donations to War Funds, rise of Rs. 43,301 in the expenditure on Irrigation, and a rise of Rs. 2,52,327 on other Public Works. In this last item Rs. 1,24,559 represents the increase in the expenditure on the construction and fitting of the New Palaces at Trichinopoly and Pudukkottai.

10. Revenue exceeded and the expenditure fell short of the revised estimate and the fasli closed with a deficit of Rs. 2,17,850, reducing the State Balances from Rs. 30,57,597 to Rs. 28,39,747. Of this balance Rs. 10,00,600 is invested in Government Promissory Notes and Rs. 9,25,000 in fixed deposits with the Bank of Madras, besides an interest bearing current deposit of about 3 lakhs.

11. The expenditure of all departments undergoes a careful audit in the Audit branch of the Darbar Office which is under the control of the Registrar of the Darbar Office, M. R. Ry. G. Krishnaswami Aiyar Avergal, B. A. The great bulk of the expenditure is subject to pre-audit. A local audit of the accounts maintained by the various departments is also carried out periodically by Auditors from the Audit Office.

12. The financial position of the State at the end of the fasli was satisfactory. The State has undertaken to find money for the construction of a railway from Trichinopoly to Pudukkottai, the latest estimate for the cost of which is a little under 20 lakhs, exclusive of loss of interest during construction.

LEGISLATION.

13. In fulfilment of the promise made by His Highness on the occasion of the Silver Jubilee, a Legislative Advisory Council was constituted consisting of the members of the State Council, the State Vakil, two members elected by the members of the Representative Assembly and two members nominated by His Highness. The Council met twice in the year.

The following Regulations were passed in the fasli under review :—

- (1) Regulation No. III of 1914—(Naval and Military News Regulation).
- (2) Regulation No. I of 1915—(Abkari amendment Regulation).
- (3) Regulation No. II of 1915—(Arms Regulation amendment Regulation).
- (4) Regulation No. III of 1915—(Tolls amending Regulation).

Statement No. III.

ADMINISTRATIVE DEPARTMENTS.

DEVASTANAM AND CHARITY.

14. In the year 1897 the lands and other endowments attached to temples, chatframs and other charitable institutions were taken over by the State and in lieu thereof money assignments granted which were fixed according to their importance.

The department is controlled by the Dewan Peishkar.

Hitherto there was no exhaustive list of the several religious and charitable institutions maintained either by State or by private parties or by both combined. In Fasli 1323 the task of compiling a complete list was begun and according to the information so far gathered it is found that there were 97 institutions in the management of the State in all respects and 953 in the management of private individuals of which 100 were subject to the general control of the Sirkar. In addition, State "Katlais" were conducted in 25 temples situated in British territory, chiefly in the districts of Tanjore, Trichinopoly and Madura. Though considerable progress has been made in the preparation of a correct list of these institutions full information has not yet been obtained. The Darbar trust that the Dewan Peishkar will succeed in supplying a complete list before the close of Fasli 1325.

15. The total expenditure of the department was Rs. 1,43,852 against Rs. 1,55,931 in Fasli 1323. The expenditure in Fasli 1323 was inflated by large payments of liabilities incurred in previous faslis. Hence the chief part of the apparent decline in expenditure in this fasli. Of the expenditure in Fasli 1324 Rs. 16,139 represent the charges incurred in the celebration of the annual Dussara festival at Pudukkottai, debit to this head, Rs. 9,722 the expenditure incurred on temples situated outside the State commonly known as "Pararashtam Katlais" and Rs. 5,718 the amount spent on the repairs and improvements to the temples and their appurtenances by the Public Works Department and other agencies. The sum spent on repairs to the temples was inadequate and an attempt will be made to secure greater attention to temple maintenance hereafter. The receipts fell from Rs. 12,906 to 10,712. The apparent fall is due to the fact that the receipts of Fasli 1323 were abnormally high owing to the recoveries made in that fasli of very large arrears which were outstanding.

16. *General remarks.*—Since the advent of the present Dewan Peishkar considerable progress has been made in bringing the Devastanam accounts to a system and writing off the irrecoverable "Vasakkattu" arrears.

Though the preparation of the Registers to show customary temple services rendered by landholders was still unfinished in the fasli it is reported that complete materials for the same have since been collected.

LAND REVENUE.

17. For administrative purposes the State is divided into three Taluks, Alangudi, Tirumayyam and Kolattur each under the control of a Tahsildar.

18. The agricultural season of Fasli 1324 was on the whole fair. The total rainfall was about equal to the average of the last 5 faslis and the yield of both dry and wet crops was fair.

19. The price of the staple food-grains was a little lower than in the last fasli. Pasture and fodder were available and the condition of cattle was good except for an outbreak of anthrax towards the close of Fasli 1323 which continued for some time in the early part of the fasli under review.

20. The extent and tenure of the lands in the State are shown below:—

Items	Extent in acres
1. Occupied lands ryotwari	311778
2. Lands held on Inam tenure.	
(a) Minor Inam	79528
(b) Whole Inam	66671
3. Assessed and unassessed lands occupied without patta	3791
4. Assessed waste lands available for Dharkast	47056
5. (a) Porambores included in the surveyed limits of villages excluding those registered as Forest Poramboke.	182550
(b) Forest Porambores included in the surveyed limits of the villages.	27713
6. Forest blocks not included in the surveyed limits of villages	35204
	754291

5,181 acres came to ryotwari patta during the fasli as a result of assignments of waste land and transfer of Inam or Ekasal lands to Ain. Of this 1,381 acres were waste lands assigned for cultivation. 3,800 acres were cultivated lands at the disposal of the State in which full patta rights were granted during the fasli. 1,369 acres were relinquished, acquired or bought in for arrears or transferred from Ain to Inam as a result of Inam localisation, the correction of mistakes detected at the Inam Survey. The last item represents a considerable area and there has been a net increase in the total area actually occupied.

21. Exclusive of the revenue derived from sale and redemption price of house sites in chetty nathams the correct demand for the fasli stood at Rs. 9,79,548. The items comprised in this sum are shown below compared with the figures for Fasli 1323:—

	Fasli 1324.	Fasli 1323.
Assessment on Ain lands	Rs. 7,07,818	Rs. 6,99,701
Quit-rents and cesses on Inam lands	1,33,784	1,36,531
Assessment on assessed lands occupied without patta.	11,955	11,775
Charge for occupation of poramboke lands	6,540	4,583
Water rate	2,062	1,427
Assessment on trees	22,219	21,601
Kudiswamiem sales	70,261	17,109
Sale of house sites in non-chetty villages.	3,640	3,622
Miscellaneous items of revenue	11,350	14,731
Arrears recoverable in instalments	8,107	...
Miscellaneous items of revenue which do not pass through village accounts.	1,812	438
Total	9,79,548	9,11,518

The progress of the Chinnaranmanai Inam Settlement operations accounts for the drop in the item "Quit-rent and cesses on Inam land" and for the major portion of the increase under "Assessment on Ain lands" as many Inams were transferred to Ain during the course of the operations. The same operations are also responsible for the greater part of the item "Arrears recoverable in instalments." Of the Rs. 70,261 realised in the fasli by Kudiswamiem sales Rs. 40,496—3—0 represents the price of waste lands sold for cultivation while the balance represents the price obtained for the grant of full patta rights in cultivated lands at the disposal of the State. About half the cultivated lands still remaining at the disposal of the State were thus granted on patta in the fasli.

Of the total demand, Rs. 9,70,007 or 99.03 per cent was either collected in the fasli or written off or adjusted from overpayments made in the preceding fasli.

Besides this demand a revenue of Rs. 17,016 was realised in the fasli from sale of house sites and redemption price levied on agricultural lands converted into house sites in chetty nathams.

22. *Arrears.*—The correct arrear demand at the opening of the fasli under all items was Rs. 56,251 and of this the net balance ripe for collection was only Rs. 46,163 the rest representing the amount, recoverable in instalments in future and amounts the collection of which has been deferred pending Inam Survey and Settlement. Out of this demand, Rs. 44,059 was either collected in the fasli or adjusted from excess collections made in the previous fasli or written off, leaving a balance of Rs. 2,104 under all items.

23. *Loans.*—Rs. 4,965 were lent by the State for agricultural purposes and Rs. 4,300 for house building during the fasli. Besides these a loan of one lakh of rupees at 5 per cent interest was sanctioned in this fasli to be granted to Sirdar M. R. Ry. Ramaswami Rangia Thevar Avl., of which Rs. 72,445 was paid to him in the fasli and Rs. 5,000 were lent to five Co-operative societies in different parts of the State. The loan accounts were reduced to order and a watch was kept on the prompt recovery of interest and principal as they fell due.

24. *Land Revenue charges.*—The expenditure under land revenue was Rs. 1,07,704 or 10 74 per cent of the actual collections.

25. *General remarks.*—The pay of the village officers in all the three Taluks was raised at the beginning of the fasli. Collection work was satisfactory. Considerable progress was made in the sale of waste lands and a further increase in the acreage thus brought to occupation is expected in Fasli 1325. Something was done to accelerate the despatch of business in the Revenue offices. The pendency in the Dewan Peishkar's office of papers over 6 months old was reduced in the fasli from 6,276 to 2,016 and a further heavy reduction was made in the months immediately following the close of the fasli. There was a similar and equally needed improvement in the Taluk offices. But there is still much to be done in this direction. The Revenue subordinates have not yet been thoroughly broken of the habit of delay and the Darbar have to request the Dewan Peishkar to keep his eyes constantly open to this aspect of his work. They are however glad to recognise the real improvement already effected by the Dewan Peishkar, M. R. Ry. M. K. Venkatachariar Avergal, B. A., and some of his chief subordinates in this as well as in other directions.

SURVEY AND LAND RECORDS.

26. There was an outlay of Rs. 7,665 during the year incurred chiefly in the endeavour to produce a satisfactory field measurement book which should show the subdivisions effected at Settlement on the field plans prepared at the survey which preceded it. The field measurement books of 146 villages were revised in the fasli as against 71 in Fasli 1323 and the field measurement books of 127 villages were handed over to the Revenue department in the fasli against 11 in the previous fasli. Over one-third of this work has thus been done.

27. A sum of Rs. 14,041 was spent on Inam Survey during the fasli. As it was found necessary to carry out as quickly as possible a simple survey of the Inam lands in the State, to facilitate the work of the Revenue officials, a start was made in Fasli 1323 and field work was completed in 27 villages and fair accounts for 6 villages were handed over to the Revenue department in that fasli. In the fasli under report the temporary establishment was increased with a view to expedite the work and field work was completed in 94 villages of the Kolattur Taluk and Inam records and Paimash sketches for 111 villages were handed over to the Revenue department and preliminary records of 76 villages of the Tirumayyam Taluk were also got ready in the fasli. About one-third of this Inam Survey had thus been carried out by the close of the fasli.

28. *Natham Survey and Settlement.*—Natham Settlement operations were suspended in the fasli temporarily owing to dislocation of business which affected the chetty community at the outbreak of the war. But a sum of Rs. 17,016 was realised by the sale of house sites and the collection of redemption price levied in previous faslis for the conversion of patta land to building site. Fair records for 7 nathams were prepared and handed over to the Revenue department.

CHINNARANMANAI INAM SETTLEMENT.

29. Settlement notices were issued in 230 cases to the parties concerned as against 569 cases in last fasli. Fair accounts for 47 villages were sent to the Revenue department during the fasli. Exclusive of Sarvamanyam Inams, ten villages remained for which the fair accounts had still to be sent. The work of settling the Minor Inams is now almost complete. The settlement of the Sarvamanyam Inams is expected to take about a year. The settlement of the villages already completed has resulted in a permanent increase of about Rs. 5,000 per annum in Land Revenue besides lump sum payments for arrears and for redemption price in the case of wrongfully alienated Inams. The expenditure of the department for the fasli was Rs. 6,287.

30. *General remarks.*—The operations connected with Survey and Settlement were under the control of the Special Inam Settlement Officer, M. R. Ry. B. V. Kameswara Aiyar Avergal and were carried on with care and intelligence but every effort should be made to expedite those operations as far as possible in Fasli 1325.

SALT AND ABKARI.

SALT.

31. By an agreement with the Government of Madras in 1887 the manufacture of earth-salt in the State is prohibited, the State receiving in compensation an annual payment of Rs. 38,000.

32. *Price and consumption of Salt.*—The price of salt ranged from 20.270 to 23.955 Madras seers per rupee. 45,046 maunds of salt manufactured in British salt factories were declared as purchased for sale in the State against 43,006 maunds in Fasli 1323. These figures cannot be taken as an index of the total consumption, as large quantities of salt declared as purchased for sale in other places find their way into the State through the agency of petty traders.

33. *Number and disposal of offences.*—There were no cases of illicit manufacture of earth-salt during the fasli.

ABKARI.

The tree tax realised was Rs. 40,377 against Rs. 34,137 in Fasli 1323. The increase is due to the enhancement of the tree tax in the case of cocoanuts. There was a reduction in the number of toddy shops from 152 to 143 during the fasli; and the income from vend rents fell from Rs. 69,479 to Rs. 59,342 (of which Rs. 388 represented old arrears). The apparent drop is due only to a change from the old system of crediting advance deposits to current receipts. There was a real rise in revenue under this head also. The Forest Reserves consist of several jungles containing no timber trees of value but yielding considerable quantities of fire-wood, green leaves for manuring purposes and other minor produce. In addition there were plantations consisting of casuarina trees, cashew-nuts, mangoes and other fruit-bearing trees. All the waste lands in the State had hitherto been nominally under the charge of the Forest Department. An attempt was made in the fasli to define the limits of the jurisdiction of the Forest and Revenue Departments with a view to ultimately restricting the control of the Forest Department to those areas which it can effectively supervise.

The executive staff consisted of a Forest Officer, four Rangers, two permanent and two temporary, three Foresters and a number of guards and watchers.

49. *General remarks*.—The management of the department continued to be satisfactory under the care of the Forest Officer, M. R. Ry. S. Venkataramiah Avergal.

Subordinate to the Chief Court, for Criminal justice, there were 20 Magistrates' Courts as against 21 in the previous fasli. exercising first, second and third class powers; and for Civil justice, the Chief Court Registrar and 11 Sub-Registrars exercising the powers of Judges of Small Causes. The decrease in the number of Magistrates' Courts was due to the Sub-Registrar of Kolattur not having exercised magisterial powers in the fasli.

56. The Chief Court consists of a Chief Judge and two Puisne Judges. The Chief Judge M. R. Ry. C. Rajagopala Pillai Avl., B. A., B. 96. Vaccination is compulsory throughout the State. The staff consists of one Inspector, one Deputy Inspector and 10 Vaccinators.

Vaccination in the town is direct from the calf to the arm. For work outside the town, Lanoline paste to the extent of 23,784 grains were prepared in the Vaccine Depot against 20,003 in the preceding fasli.

97. *Number of cases vaccinated.*—Including 211 re-vaccinations 9,821 cases were vaccinated against 10,573 in the previous fasli showing a decrease of 752 cases. 95.76 per cent of the vaccinations are reported to have been successful. Of the 1,625 vaccinations performed on infants under one year of age 1,508 cases were successful the percentage being 96.49.

98. *Financial.*—The cost of the department was Rs. 3,269 against Rs. 3,422 in the previous fasli. The average cost of each successful vaccination was 5 annas 7 pies per head as against 5 annas 3 pies in the previous fasli.

99. *General remarks.*—The result of the fasli's work was again disappointing but this was to a great degree due to the prevalence of cholera and small-pox throughout the State during the fasli under report. The staff must show more energy in visiting the remoter villages and produce better results.

THE MUNICIPALITY AND TOWN CONSERVANCY.

100. The conservancy of the Town of Pudukkottai was controlled by the Municipal Council which was called into existence on April 1, 1912.

101. *The constitution of the Municipal Council.*—The Municipal Council consisted of a paid Chairman and 8 members. The first Councillors of the Municipality vacated their seats in the Council on April 1, 1915, their three years' term of office expiring on that date. A new Council was formed comprising of 8 members of whom two were elected and the other 6 were nominated, 3 of the nominees being officials.

The number of meetings held during the year was 35 of which 3 were adjourned for want of quorum.

The public health of the Town was less satisfactory than usual as there were visitations of cholera and small-pox in the latter part of the fasli which caused some anxiety. The municipal authorities did their best to keep these unwelcome visitors in check.

The roads and streets of the Municipality were well maintained and improved. Sanitary arrangements may compare favourably with those of other South Indian towns of equal size, but the possibility of improving them by introducing a thorough drainage scheme will now receive consideration.

102. *Town water-supply scheme.*—Pudukkulam, the fine town water reservoir, with its pipe system under the management of the Municipal Council gave a fair supply of water to the main part of the town. Jewel Filters to replace the old sand filtration system which had proved unsatisfactory were purchased by the Darbar and their installation put in hand. As soon as the installation is complete the Municipal Council will be requested to arrange for the stricter conservation of the catchment area and the reservoir itself so that thoroughly trustworthy water may be obtained. The possibility of extending the pipe system to the remoter parts of the town will also be investigated.

103. *Financial.*—Including the grant of Rs. 13,000 from State Funds the receipts from all heads of Municipal Revenue were Rs. 49,803, which taken with the opening balance of Rs. 16,612 aggregated to Rs. 66,415 and the expenditure amounted to Rs. 53,038 leaving a surplus of Rs. 13,377. The incidence of the taxation per head of population was 7 annas 5 pies. Leaving out of account the State grant, 97 per cent of the current demand was collected in the fasli.

104. *General remarks.*—M. R. Ry. P. R. Ramachandra Row Avergal, B. A., was Municipal Chairman throughout the fasli. The Municipal Council continued to work satisfactorily. The Darbar gladly recognise the good work done by the late Council and eagerly watch the work of the new Council which they trust will be characterised by no less zeal and enthusiasm.

UNION PANCHAYATS AND VILLAGE CONSERVANCY.

105. There were Union Panchayats in 5 villages, Tirumayyam, Ponnamaravathi, Arimalam, Karambakkudi and Annavasal. Each Union has an official chairman and the members are nominated by the Sirkar. The total receipts of all the 5 Unions were Rs. 14,197-1-8 and only Rs. 6,166-14-5 was expended. A large balance was thus left at the credit of the Unions, as they have not yet succeeded in making satisfactory arrangements for carrying out necessary works.

Outside the Unions, village conservancy is in the charge of the Revenue department by which a sum of Rs. 3,800 was spent chiefly in the improvement and conservancy of drinking water ooranis and in the maintenance of village streets and roads.

SCIENTIFIC AND OTHER MINOR DEPARTMENTS.

AGRICULTURE.

106. Two Coimbatore trained agriculturists were at work in the fasli, inducing and instructing the ryots to take to the use of the green manure crops and the practice of single planting. Some 385 acres are reported to have been planted with single seedlings in various villages by ryots who were persuaded to try the experiment. As the results were on the whole satisfactory it is anticipated that the single seedling method will be used over a larger area in Fasli 1325. 352 measures of Kolinji and 542 measures of Daincha seed were sold to ryots and an increased demand for these green manure seeds is expected in Fasli 1325.

The State Farm was used chiefly to demonstrate the method of single seedling planting and the use of green manures and to raise green manure seed. It was cultivated by convict labour, an Agricultural Instructor acting as adviser to the Jailor.

THE SRI MARTHANDA INDUSTRIAL, AGRICULTURAL AND EDUCATIONAL EXHIBITION.

107. In former years there used to be held at the Capital during the Dussara an annual exhibition known as the Sri Saraswathi Exhibition which was purely educational in its object. With a view to stimulate in the people a desire for fresh knowledge regarding things agricultural and industrial, the Darbar decided in 1911 to enlarge the scope of the exhibition by adding to it separate sections for Fine Arts, Agriculture and Industries. The first enlarged exhibition was held at the Capital in December, 1911, under the new designation of "The Sri Marthanda Industrial, Agricultural and Educational Exhibition". The Exhibition of this fasli was held in the Town Hall and was opened on April 23, 1915, by M. R. Ry. Krishnaswami Dorai Rajah Avergal, B. A. The exhibits were varied and interesting. Though there was a fall in the number of exhibits there was a distinct advance in quality. Objects of art, agricultural and industrial products both foreign and local and agricultural implements and industrial machines were on show. Besides there were lectures, demonstrations, conferences and competitions organised to interest and amuse the people of the State. The exhibition was kept open for two weeks and closed on May 7 by Mrs. Gwynn who distributed the prizes to the successful exhibitors and competitors.

VETERINARY HOSPITAL.

108. The Hospital which has accommodation for 4 horses and 10 cattle was under the control of a duly qualified Assistant.

The number of in-patients rose from 67 to 70 while the number of out-patients was 1,024 the same as in the previous fasli, the daily average being 34.86 as against 36.63 in Fasli 1323. The number of operations performed fell from 120 to 110 including 2 castrations.

The Darbar are disappointed to find that the institution has not increased in popularity in the fasli. They expect the Veterinary Assistant to exert himself to make his services more generally useful hereafter.

MUSEUM.

109. The institution was visited by 47,602 persons against 34,793 in Fasli 1323. A number of interesting exhibits were added to the collection.

The thanks of the Darbar are due to Dr. Henderson, Superintendent, Government Museum, Madras, for his kind contribution of a number of exhibits of different varieties.

CO-OPERATIVE SOCIETIES.

110. The Dewan Peishkar was ex-officio Registrar of Co-operative Credit Societies. Including three new societies registered in the fasli there were 14 societies at work in the State. Two of these are Weavers' Unions. The rest are credit societies of the type commonly found in the Madras Presidency. But as the Madras Central Co-operative banks cannot lend money outside British India, the societies have to depend upon the State for their working capital more than is the case in British India. The largest of the societies, the Town Bank, has however succeeded in attracting considerable sums in deposits and is now independent of State aid and has besides begun to

assist in financing the rural societies and in inspecting and auditing their transactions. The accounts for the workings of all societies in Fasli 1323 were audited by the Dewan Peishkar and his staff in the Fasli 1324. Some of the societies were also inspected by non-official members of Co-operative societies in the Madras Presidency. The societies are still young and require supervision and guidance, but some at least give fair promise of growth.

PRESS AND STATIONERY.

111. The value of work turned out by the State Press was Rs. 7,258 against Rs. 6,681 in Fasli 1323. The work of the Press was satisfactory.

112. The value of the Stationery articles on hand at the beginning of the fasli was Rs. 9,121. The purchases made during the fasli amounted to Rs. 22,498. Of the Stationery stock, the issues were valued at Rs. 12,518 leaving a stock on hand at the end of the fasli of the value of Rs. 19,101.

ARCHÆOLOGICAL.

113. The work of deciphering and copying the inscriptions in running hand further progressed during the fasli and the State Archæologist was made to work under the guidance of M. R. Ry. Dewan Bahadur T. Desikachariar Avergal, B. A., B. L., High Court Vakil, Trichinopoly, who has kindly consented as a labour of love to translate the important inscriptions and edit them.

PUBLIC WORKS.

114. For the greater part of the fasli the more important Public Works of the State were under the charge of a single Engineer aided by two Assistant Engineers and one permanent Divisional officer.

Minor Irrigation works :--Tanks with an ayacut of under 200 acres were under the charge of the Dewan Peishkar who had at his disposal a technical staff of one carefully selected Supervisor and 3 Overseers.

115. The total expenditure under Public Works rose from Rs. 3,23,120 to Rs. 6,18,748 as shown in the following table in which the figures of Faslis 1324 and 1323 are compared.

IRRIGATION.

116. The expenditure of the Public Works department rose from Rs. 37,233 to Rs. 50,343. Three long pending original schemes for the utilisation of waste water were taken up and have since been executed and extensive repairs were carried out in some of the larger tanks of the State.

Minor Irrigation.

117. The expenditure on the repairs and improvements to minor tanks rose from Rs. 22,216 to Rs. 47,199. Besides this expenditure on works a sum of Rs. 5,198 was spent in paying compensation for lands acquired for two tanks. The responsibility of the Dewan Peishkar and his Minor Irrigation staff was extended at the beginning of the fasli from tanks with ayacuts of under 50 acres to tanks with ayacuts of under 200 acres and the staff was on the whole successful in its attempt to deal with its enlarged charge. Special vigilance on the part of the Dewan Peishkar is required to see that the quality of the work is scrutinised as closely as the rate of expenditure.

CIVIL BUILDINGS.

118. The expenditure including that incurred by the Minor Irrigation staff rose from Rs. 1,39,161 to Rs. 3,11,221. Of this Rs. 1,97,270 was spent on the New Palaces at Trichinopoly and Pudukkottai as against Rs. 73,309 spent on these works in the previous fasli. The expenditure on other State works rose from Rs. 65,852 in Fasli 1323 to Rs. 1,13,951 in Fasli 1324.

COMMUNICATIONS.

119. Expenditure rose from Rs. 61,654 in Fasli 1323 to Rs. 1,27,034 in Fasli 1324. Of this figure Rs. 32,091 was spent on original works and Rs. 94,943 on maintenance. The roads had fallen into a bad state through neglect in the past few faslis and extensive special repairs, especially on the Trichinopoly road, were necessary to restore them to order. An attempt was also made to break through the old system under which collection of gravel to be spread in the rains was begun only after the 1st of July in each year. Instead, collection work for 1915 was taken up at the beginning of the hot weather. This has resulted in a considerable portion of a second fasli's expenditure falling into Fasli 1324. The expenditure in the fasli has consequently been very heavy. The value of the work done has still to be tested by the coming rains.

WORKSHOP AND STORES.

120. The value of the out-put rose from Rs. 13,868 to Rs. 44,064; of this Rs. 34,003 represents the cost of materials. The increased activity of the Workshop was a consequence of the increased activity of the Public Works department. The greater part of the wood work required for public works had to be executed in the Workshop owing to the dearth of trustworthy artizans. The Sri Marthanda Industrial School attached to the Workshop had on the rolls at the end of the fasli 16 apprentices who received instructions in carpentry, painting, tailoring and blacksmith work.

GENERAL REMARKS.

121. Mr. H. C. Gill was in charge of the Public Works Department till November 30, 1914, when he handed over the Department to M. R. Ry. A. Nilakanta Sastri Avergal, B. C. E., who had previously been in charge of the New Palace Works only for a few months. The Darbar wish to record their satisfaction with the very striking improvement which the latter officer has brought about in the work of the department. The rise in expenditure is hardly so marked as the improvement in the quality of the work done. As regards the subordinates of the

department some weeding out had to be done and more perhaps may yet be necessary. But very many of the subordinates though lacking in experience showed great zeal and a willingness to learn under good instructions.

MILITARY.

122. The strength of the Military force was the same as in Fasli 1323, 110 (Infantry) and 19 (Cavalry). The Commandant was M. R. Ry. K. S. Dorai Rajah Avergal, B. A. The health of the force was good. The expenditure of the department was Rs. 22,573.

MISCELLANEOUS.**TRADE AND INDUSTRY.**

123. The State is entirely agricultural and there are no manufactures of importance.

The principal articles of import were sea-salt and timber from Negapatam and paddy from the Cauvery Delta.

Export consisted chiefly of minor forest produce (such as accacia bark for distilleries and avaram bark for tanneries), of ground-nut and silk cloths woven in one of the suburbs of Pudukkottai. The State is rich in deposit of high grade magnetic-ore, but until the proposed Pudukkottai-Trichinopoly Railway line is constructed, the cost of transport renders the commercial exploitation of the mineral impracticable. Motor car services ran from Tirumayyam to Trichinopoly and from Pudukkottai to Tanjore.

The effects of the war were little felt except by the Nattukkottai Chetty community and in the ground-nut villages of the Alangudi Taluk which found their principal product almost unmarketable. Even here the ryots began to try whether the ground-nut which could not be exported could be used at home for oil, cattle food and manure.

The following table shows the average scale of wages per day in Pudukkottai and the three Taluk stations.

REPRESENTATIVE ASSEMBLY.

124. The Representative Assembly consisting of 9 elected and 21 nominated members met on November 20 and 21, 1914. His Highness was present at the meeting and watched its proceedings with interest. The Assembly serves a useful purpose in bringing before the Darbar the needs and requirements of the various parts of the State which the members represent.

Detailed memorandum explanatory of the important differences between the Revised Estimate and the actuals of Fasli 1324.

RECEIPTS.

1. The increase under "Special offerings to Devasthanams" was partly due to the realisation of vasakkattu arrears.
2. The increase under "Palace receipts" represented the value of an old motor car sold.
3. The rise under "Land Revenue" occurred mainly under Kudiswamiem prices due to acceleration of the sale of waste lands for cultivation and of full patta rights in cultivated lands at the disposal of the State.
4. The increase under "Forest" was due to the activity of the department at the close of the fasli.
5. The fall under "Interest on Government Securities" was due to the credit of a portion of the interest in the next fasli accounts.
6. The rise in the interest on "Bank deposits" was due to the realisation of the interest within the fasli itself of a fixed deposit falling due in the next fasli.
7. The increase under "Court fees" was due to unexpectedly large receipts from Criminal court fines towards the close of the fasli.
8. The increase under "Miscellaneous" mainly represented the unclaimed deposits lapsed to the State which could not be correctly estimated.

EXPENDITURE.

1. The decrease under "Assignments and compensation" was due chiefly to a change in the system of accounting introduced in the end of the fasli, by which the charges are in the first instance debited to a debt head and then to service head.
2. The increase of Rs. 500 in the item "Allowance to the members of His Highness' family" represented the expenses incurred in connection with the marriage of the Zemindar of Gandharvakottai.
3. The fall under "Education" was chiefly due to the provision made for furniture for the College not being utilised and to the shortage of progress in the construction of school buildings.
4. The fall under "Stationery and Printing" was due to the debit in the next fasli of a portion of the Stationery articles purchased in this fasli itself.
5. The rise under "Irrigation" was due to unexpectedly rapid progress with necessary works.
6. The fall under "Communications" was due partly to economies in execution and partly to the fact that less progress than was anticipated was made with the collections of gravel to be used in the cold weather of 1915.
7. The fall under "Town conservancy" was due to the failure to complete the installation of the Jewell filters within the fasli.
8. The increase under "Band" was due to the cost of Band instruments ordered from England having been paid within the fasli.

Detailed memorandum explanatory of the important differences between the actuals of Faslis 1323 and 1324.

RECEIPTS.

1. The fall under "Special offerings to Devasthanams" was due to the realisation of large outstanding vasakkattu arrears in the last fasli; some were realised this fasli also but not so much, as the arrears are dwindling.
2. The increase under "Land Revenue" was due to the large revenue received from sales of waste lands and of patta rights in other lands at the disposal of the Sirkar, the rise here more than counterbalancing the fall in receipts under "Arrears".
3. The fall under "Natham Settlement receipts" was due to postponement of Chetty Natham Settlement operations owing to the dislocation of business which affected the Chetty community at the outbreak of the war.
4. The increase under "Forest" is explained in the body of the report.
5. The fall under "Interest on Government Securities" was due to the accidental postponement of the credit of Rs. 5,000 of the interest to Fasli 1325.

6. The increase under "Law and Justice Courts" was due to large amount of fines levied by Magisterial Courts and also to adjustments of certain wrong debits in the last fasli.

7. The increase under "Miscellaneous" mainly represented the unclaimed deposits lapsed to the State.

8. The fall under "Civil works" was mainly due to the fact that the last fasli's expenditure included the collection of old arrears held over pending decision of a civil suit.

EXPENDITURE.

1. The fall in the expenditure under "Assignments to Religious and Charitable Institutions" was due in part to a change in the system of accounting which had the effect of postponing the debit of some expenditure to the next fasli and in part to the fact that last year's expenditure was inflated by large payments for old liabilities.

2. The increase under "Allowance to the members of His Highness' family" was due to (1) the expenses of the funerals of M. R. Ry. V. R. T. Durai Rajah Avl., (2) the increase of Rs. 100 per mensem in the allowances of each of the five grandsons of His Highness' the late Raja from April 1, 1915 and (3) the expenses in connection with the marriage of the Zemindar of Ghandarvakottai.

3. The expenditure under "Chinnaranmanai allowances" is a return to the normal after special expenditure in the preceding fasli.

4. The fall under "Stables" is due to the fact that Rs 47,500 of the expenditure incurred in Fasli 1323, was abnormal. This fasli's expenditure exceeded the normal by about Rs. 20,000 being the cost of purchase and transport of two new motor cars.

5. The expenditure under "Compensation to Western Palace Jaghire" is a return to the normal after special expenditure incurred in Fasli 1323.

6. The fall under "Allowance to Ranees" was due to a month's allowance of Fasli 1324 having been debited in Fasli 1323.

7. The fall under "Land Revenue" was mainly due to the fact that the figures of last fasli included the cost of acquisition of land for the improvement of nathams and also the payment of considerable arrears of pay to Vattam Establishment.

8. The increase under "Settlement" was due to the entertainment of a large establishment for pushing on the Inam Survey work.

9. The fall under "Law and Justice—Courts" was due to the last year's figure having included an erroneous debit which was adjusted in this fasli by debit to the appropriate heads of account.

10. The increase under "Jails" was due to a rise in the dieting charges and in other expenses.

11. The increase under "Police" was due to the revision of the scale of pay of the force.

12. The increase under "Medical" was due to the debit in this fasli of the cost of medicines indented for for the last fasli which arrived late.

13. The increase under "State contributions and donations" mainly represented the donation to the War Funds.

14. The increase under "Stationery and Printing" was due to the purchase of a greater quantity of Stationery articles partly owing to increased consumption and partly to increase the stock in hand.

15. The fall under "Other miscellaneous" was mainly due to the fact of the last fasli's accounts having been debited with the amount of Survey advances written off.

16. The variations under "Civil works" are explained in the body of the report itself.

17. The increase under "Tools and plant" mainly represented the cost of a steam road roller purchased for the State.

18. The decline in establishment charges was due mainly to the debit to the New Palace of a portion of the pay of the Engineer and of the special establishment entertained for the Palace and partly also to abolition of unnecessary posts.

DEBT HEADS.

These are fluctuating items and call for no remarks, except that the large difference between the Revised Estimate and the actuals under "Advances" was due to the disbursement of a portion of the loan granted to a Military Sirdar having been postponed to the next fasli and the difference under "Suspenses" was due to the articles purchased for store stock having been then and there used up by the D. P. W.
