ANNUAL REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES ACT II OF 1912 FOR THE YEAR 1929-30.

TABLE OF CONTENTS.

Dis. No. A-3626/30.

OFFICE OF THE
REGISTRAR OF CO-OPERATIVE SOCIETIES,
CHEPAUK, MADRAS,
Dated the 5th November 1930.

From
D. N. STRATHIE, Esq., I.C.S.,
REGISTRAR OF CO-OPERATIVE SOCIETIES,
MADRAS,

To
THE SECRETARY TO GOVERNMENT,
DEVELOPMENT DEPARTMENT,
Fort St. George, Madras.

Annual Report on the working of the Co-operative Societies Act (II of 1912) *for the year* 1929-30 (1*st July* 1929 *to* 30*th June* 1930).

SIR,

I have the honour to submit the annual report on the working of the Co-operative Societies Act in the Madras Presidency for the co-operative year ending 30th June 1930.

I.—ADMINISTRATION.

2. Mr. H. M. Hood held charge of the department till 15th December 1929 when he was appointed as the whole-time Chairman of the Madras Provincial Banking Enquiry Committee. A temporary post of Special Officer was created in the department and I joined duty as Special Officer on the 25th November 1929 and continued till 15th December when I took charge from Mr. Hood. Mr. Hood toured for 60 days, while I toured for 86 days in the co-operative year. I inspected a number of Central Banks, District Federations and other societies. I also carried out a systematic inspection of the Deputy and Sub-Deputy Registrars' offices in the districts visited by me.

Joint Registrar.

3. M.R.Ry. Rao Bahadur K. Deivasikhamani Mudaliyar Avargal, Joint Registrar, toured for 162 days and inspected many building and non-credit societies. During his tours he discussed with the Directors of Central Banks and Federations questions

relating to the financing of cultivation operations by credit societies. He also drew up schemes for the rectification and consolidation of credit societies, especially in the districts of South Arcot, Tinnevelly, Malabar, South Kanara and Bellary and made recommendations for more efficient supervision.

Deputy Registrars.

4. At the beginning of the year there were 20 Deputy Registrars, of whom 19 were permanent, and one temporary. Of these 20, 8 had been sanctioned in G.O. No. 1294, dated 30th July 1929 and were then under training. There can be no doubt that the reduction in the number of Deputy Registrars effected in 1925 had had disastrous results. The area in charge of one man was so large as to make it impossible for him to discharge properly even his statutory functions of audit and liquidation. The recent deterioration in the movement generally must be attributed partly to the reduction in Government staff, and the resultant slackening of control. During the year five Deputy Registrars were sanctioned, two for a period of three years for work connected with land mortgage banks, one for one year as Co-operative Assistant to the Commissioner of Labour and two permanently for ordinary district work. The necessary clerical staff was also sanctioned for the two new circles. There are thus 25 Deputy Registrars of whom 20 are in charge of circles.

A redistribution of the charges was made among the twenty Deputy Registrars, and at present all the districts except East and West Gōdāvari, Bellary and Anantapur, Nellore and Chittoor and Kurnool and Cuddapah have a separate Deputy Registrar. The excepted districts are grouped into four circles with headquarters at Rajahmundry, Bellary, Nellore and Cuddapah, each circle being in charge of a Deputy Registrar with two Sub-Deputy Registrars, one working in the Deputy Registrar's office and the other in independent charge of the adjoining district.

During the year there were seven vacancies of Deputy Registrars. These were filled up by promoting Sub-Deputy Registrars. Statutory rules were issued during the year to regulate the method of recruitment, conditions of service, pay, allowance and pension of the gazetted and non-gazetted officers of the department.

The Deputy Registrar sanctioned for work under the Commissioner of Labour entered on his duties towards the close of the co-operative year and took up the examination of the progress made by the depressed classes societies in the charge of the Labour Department. He has been concerting measures to secure closer control by the District Labour Officers over the work of the special co-operative Inspectors working under the Labour Department.

M.R.Ry. Rao Bahadur O. N. Ramaswami Ayyar Avargal and M.R.Ry. V. Sivasubba Rao Pantulu Garu who were appointed to the post of Deputy Registrars for land mortgage banks have been keeping themselves in close touch with the work of the Madras Central Land Mortgage Bank and the primary banks. With the assistance of their Sub-Deputy Registrars, they organized before the end of June, 16 primary land mortgage banks. They scrutinize carefully loan applications from primary banks to the Central Land Mortgage Bank and forward them with their recommendations regarding the sufficiency of the security offered, the repaying capacity of the borrowers and other relevant particulars.

Honorary Assistant Registrars.

5. There were 17 Honorary Assistant Registrars at the end of the year. Their names are given in Appendix No. 12. They toured for 243 days and inspected 330 societies, in 180 of which they attended to the disposal of arbitration references. Their work has been of considerable relief to Deputy Registrars.

Subordinate staff.

6. There were 33 Sub-Deputy Registrars at the beginning of the year. The Government sanctioned during the year 10 posts of Sub-Deputy Registrars temporarily for work in connexion with land mortgage banks. Out of these, six posts were filled up by recruitment from the Revenue Department on the ground that the work connected with the land mortgage banks required men with revenue experience. The remaining posts were filled by promoting Senior Inspectors. Besides these, there were 13 vacancies in the grade of Sub-Deputy Registrars of which one was filled by direct recruitment and the rest by the promotion of Senior Inspectors.

The following staff was also sanctioned during the year :—

(1) 10 Junior Inspectors for audit work.

(2) 22 Junior Inspectors for the supervision of the depressed classes societies.

(3) Five Junior Inspectors for the new Deputy Registrars' offices.

(4) One Junior Inspector for one year for supervising Fishermen societies in the Malabar district.

(5) Two Junior Inspector-clerks for the Registrar's office.

(6) Two Junior Inspectors for the Milk Supply Union, Madras.

(7) Eleven clerks and 24 peons for Deputy Registrars in charge of sections and Special Deputy Registrars for land mortgage banks. The 21 posts of Inspectors sanctioned for leave and training reserve were abolished.

Distribution of staff.

7. The following statement shows the arrangement of the circles and the distribution of the staff :—

Serial number.	District.	Deputy Registrar.	Regis-trar. Sub-Deputy	Senior Inspectors. Credit.	Senior Inspectors. Non-credit.	Junior Inspectors. Audit.	Junior Inspectors. Administration.	Junior Inspectors. Liquidation staff.	Junior Inspectors. Special staff.	Junior Inspectors. Depressed classes. Labour.	Junior Inspectors. Depressed classes. Co-operative.	Clerical staff. Cost of working.

8. The total expenditure incurred on the working of the department amounted to Rs. 10·11 lakhs as against Rs. 8·89 lakhs in the previous year and comprised the following items :—

	LAKHS.
Pay of Registrar	·30
Pay of officers	·98
Pay of establishment	5·58
Allowances	2·31
Contingencies	·56
Grants...	·38

This represents ·56 per cent of the total working capital as compared with ·54 of the previous year.

II.—General Summary.

9. The general summary of progress in respect of share capital, deposits, loans, reserve fund, working capital, arrears under principal, arrear and current interest as compared with the previous year is given in Appendix No. 1.

Season.

10. The south-west monsoon commenced early on the West Coast and gave fairly heavy rainfall with occasional breaks. On the whole the monsoon was up to or above the average in the Presidency, except in Guntūr, the Deccan and the Central districts (*Coimbatore excepted*). The north-east monsoon set in early with heavy rain on 3rd October. There was another heavy rainfall between the 16th and 18th October. On the whole the north-east monsoon was generally up to or above the average, except in West Gōdāvari, Kistna, Guntūr, Nellore, Coimbatore and Madura.

The effect of the season on repayments by members will be dealt with in a succeeding paragraph.

Societies.

11. The number of societies of all classes rose from 15,086 to 15,238, an increase of only 1 per cent. These are distributed as shown below :—

Provincial Bank	1
Central Land Mortgage Bank ...	1
Primary land mortgage banks ...	27
Provincial Co-operative Union and Language Federations.	3
Central banks...	31

Federations	24
Audit unions	12
Supervising Unions	405
Training Institutes	6
Agricultural societies	13,079
Non-agricultural societies	1,649
	15,238

The number of villages including towns affected by the Co-operative movement is 34,087 out of the total number of 53,024 villages and towns in the Presidency.

Members.

12. The number of members in all the societies excluding supervising unions was 974,999 giving an average of 66 members per society as against 64 in the previous two years.

Members are classified as follows :—

Cultivating landholders...	400,842
Non-cultivating landholders	62,820
Tenants	63,824
Field labourers	45,312
Non-agricultural	290,404
Mixed	111,797
Total ...	974,999

Classified according to castes and communities, it is found that the total includes :—

Non-Brahmans	609,560
Brahmans	118,157
Ādi-Drāvidas and Ādi-Āndhras ...	99,425
Christians	75,169
Muhammadans	53,593
Other classes	19,095
Total ...	974,999

There has been a slight fall in membership under field labourers and Muhammadans.

Working capital.

13. The working capital rose from Rs. 1,651·53 lakhs to Rs. 1,799·36 lakhs. The total working capital employed in the movement, not

taking into account the investment of one society in another, amounted to Rs. 933·99 lakhs as against Rs. 908·69 lakhs in the previous year and is made up of the following items :—

	LAKHS.
Paid-up share capital	185·56
Deposits of individuals and institutions.	613·69
Reserve fund	98·51
Loans from Government	36·23
Total ...	933·99

The percentage of total owned capital, that is, share capital plus reserve fund to the total working capital in the movement was 18·5 against 18·9 and 18·4 in the previous years. In Chapter VI on Resources, I have indicated the percentage of total working capital derived from the funds involved in all classes of societies.

Rectification, consolidation and expansion.

14. In accordance with the orders of Government, the Deputy Registrars were instructed to devote their attention to the rectification or liquidation of the existing bad societies rather than to the formation of new societies. In the result, although 1,338 applications for registration of societies were received, only 534 were complied with as against 726 in the previous year and 1,200 in 1927–28. Out of these, 422 societies were registered at the instance of non-officials who had come forward with assurances of success. In the face of the stringent orders of Government on this subject, it may appear that the number of new societies is excessive. It is, however, difficult for Deputy Registrars to reject schemes put forward by enthusiastic co-operative workers—indeed it is sometimes impossible for them to do so under the statutory rules—and even Deputy Registrars must be allowed the opportunity of feeling that they are doing some good in the world apart from the routine and depressing work of audit and liquidation. Most of the 112 societies organized by officials were for depressed classes.

At the same time vigorous steps were taken to weed out all useless and dormant societies which were doing no good to anybody and which could not be rectified. The number of societies the registration of which was cancelled was 383. This figure exceeds the total number of liquidations in the previous three years. Many of these societies were practically non-existent while others had done nothing since the receipt and distribution of the first loan. Apparently, there are a large number of societies to be dealt with in this way and I feel that unless these weeds are uprooted as quickly as possible they will be a great menace to the free and vigorous growth of the movement. Considerations of staff, however, and the heavy responsibilities involved in cancelling societies which have large liabilities prevent more rapid progress in this direction.

The Madras Provincial Co-operative Conference urged on the co-operative organizations the imperative need for undertaking on a systematic and comprehensive scale the work of rectification of rural societies and a programme was drawn up to ensure the completion of that work in each district within a reasonable period. To determine the extent of progress achieved in the matter of rectification and consolidation *it was also suggested in the editorial* notes of the Madras Journal of Co-operation for June 1930, that a triple classification of societies in every district may be made as regards (1) societies started in recent times after the publication of the report of the Townsend Committee, (2) old societies in which the work of rectification has been attempted and (3) other societies. The necessary statistics compiled show the following state of affairs: out of 12,064 old and 1,673 new societies that were actually working on the 30th June last, 6,282 of the former and 185 of the latter accounted for overdues from members exceeding 40 per cent of the total demand; of the 6,282 old societies, only a third were taken up for rectification, the work being distributed between the field staff employed by central banks, the federations and supervising unions. The percentage of societies in which the arrears were reduced to less than 40 by the above three agencies was 45. Of the 1,673 societies started after the publication of the Townsend Committee's report only 185 societies had overdues from members exceeding 40 per cent. Ninety-two of these were selected for rectification work. The arrears in 74 of these societies were reduced to below 40 per cent. Towards the cost of this work the central banks contributed Rs. 45,271, federations Rs. 39,390, while the Madras Central Urban Bank gave a special grant of Rs. 3,000 to the Salem District Urban Bank as its work was under the special personal supervision of M.R.Ry. Diwan Bahadur R. Ramachandra Rao Avargal. The Madras Central Urban Bank has since drawn up a scheme of subventions to central banks for carrying on

rectification and consolidation work under which it proposes to give grants to central banks to the extent of one half of the expenditure reported by them, subject to a maximum of Rs. 2,500 in each case. It is expected that with this liberal assistance the central banks will be able to achieve much better results during the current year.

Classification of societies.

15. The classification of societies audited up to the end of September 1930 is given in Appendix No 5, sections II A and B. I have prepared statistics to show the audit classification for all the societies, the accounts of which were audited for 1927-28 and 1928-29. According to the classification based on the general working of the societies the position is as shown below:—

Year.	Societies which are good in their working and do not depend on outside agency for help except for final audit. A	Societies which are able to manage their affairs themselves and which can afford to have a few defaulters and whose accounts need not be faultless. B.	All other societies that do not come under Class D. C.	Bad societies which will probably have to be liquidated should they fail to come under Class C within two years. D.	Total.
1927-28	260	1,726	8,155	1,264	11,405
1928-29	471	2,343	9,135	1,537	13,486

Classified according *to* collections, *the figures* are as follows:—

Year.	Number of societies in which collections were					Dormant societies.	Societies in which no loans have fallen due.	Total.
	95 per cent.	70 per cent.	55 per cent.	40 per cent.	Below 40 per cent.			
1927-28 ...	1,406	1,398	941	1,040	3,677	1,781	1,167	11,405
1928-29 ...	1,619	1,816	1,007	1,003	3,838	8,223	980	13,486

It will be seen from the above that the number of bad societies (Class D) and of dormant societies is increasing. Judged by both the standards of classification, the number of societies requiring rectification and consolidation is almost the same. The number of C class societies is 9,135 while the number of societies which are either dormant or which show arrears exceeding 40 per cent is 9,071. These figures furnish some indication of the magnitude of the work before the non-official agencies and of the extent of liquidation work that may have to be undertaken by the Department in the near future.

Repayments.

16. In spite of the exhortations of the leaders of the movement and the efforts of the special staff there has been a deterioration in the matter of repayments. In respect of amounts due by agricultural and non-agricultural societies to central banks the percentage of balance to demand rose by 4 under principal, by 15 under arrear interest and by 2 under current interest. As regards repayments by members to agricultural societies the overdues rose by 6 per cent under principal and by 4 under arrear and current interest. In non-agricultural societies the arrears under principal and current interest rose by 3 and 7 per cent, respectively, while the arrears under interest due in previous years was reduced by 18 per cent. The main reasons given for the unsatisfactory recoveries are the low prices ruling in the market for the chief agricultural products such as paddy, cotton, and groundnut and the prevailing economic depression in the country. The non-agricultural societies have fared better apparently because there is a large proportion of members in those societies with fixed salaries such as Government servants, employees of local bodies and firms. The members of agricultural societies have no such fixed income and the low price obtained by them for their produce was probably insufficient to meet all their liabilities. It must be said, however, that this is not the only reason for the heavy overdues. The members have, generally, not yet realized the importance of punctuality and of keeping their credit unimpaired. They think that the payment of the society's dues can be put off as long as possible and do not realize that they are ruining their credit by such default.

A comparison of the figures given in Appendix No. 4, section 1 for 1929–30 and 1928–29 shows that while Anantapur, South Arcot, Chingleput, Chittoor, Coimbatore, Cuddapah, West Gōdāvari and Malabar show a slight reduction in the percentage of short-term loans overdue,

and North Arcot, and Coimbatore, a reduction in the percentage of overdue interest, Salem is the only district which shows a reduction in the percentage of overdues under all headings.

This is largely due to the work of reconstruction undertaken by the bank in the Rasipuram area under the guidance of M.R.Ry. Diwan Bahadur R. Ramachandra Rao Avargal, C.S.I., and is a remarkable example of the results that can be achieved by sustained and devoted effort. Throughout the district too, the supervision work done by the bank under its President, Mr. T. Adinarayana Chettiyar, seems to have been more effective than in other districts. The collections in South Kanara may be said to be steady while in the districts of Chingleput, Coimbatore, Kurnool, Madura, Nellore and the Nilgiris, the fall in the overdues under principal under short term was counterbalanced by an increase in the overdues under long term.

Central Land Mortgage Bank.

17. There were 21 primary land mortgage banks at the beginning of the year. The difficulties encountered by these banks have been described in paragraph 25 of the last year's report. After a careful consideration of the recommendations of the Townsend Committee on Co-operation, the report of the Royal Commission on Agriculture, the resolutions of the Registrars' Conference and after a full discussion in the Legislative Council, the Government sanctioned the scheme for the establishment of a Central Land Mortgage Bank. It was organized and registered on the 12th December 1929. Under the scheme as embodied in the bylaws, the bank is composed of individual non-borrowing members and primary land mortgage banks affiliated to the central bank. The admission of individual members is intended to provide the bank with a disinterested, strong and influential directorate. The Registrar of Co-operative Societies is an ex-officio director and he is empowered to nominate another director with the approval of the Government. In order to finance the primary banks the central bank is empowered to issue interest-bearing debentures on the security of the mortgages executed by the borrowers in favour of primary banks and assigned by them to the central bank. As a safeguard to the investors, the Government have already undertaken to guarantee the interest not exceeding six per cent for the full period (20 years) on all debentures issued during the first five years up to a limit of 50 lakhs of rupees. Proposals to give an unqualified guarantee are under consideration.

There is a trustee for the debenture-holders who has power to intervene at any stage. In order to afford temporary accommodation to debenture-holders in cases of necessity, the Government have empowered the Madras Central Urban Bank and the district central banks to grant loans to non-members on the security of these debentures on certain conditions. Government have lent for a period of three years, in the first instance, the services of two Deputy Registrars of the rank of Deputy Collector to assist the directors of the primary banks and to inspect these banks on behalf of the central bank and the trustee. The Deputy Registrars are assisted in their work by ten other Government officers of the grade of Sub-Deputy Registrars. The chief duties of these officers are to scrutinize loan applications, to verify the title to the lands offered as security and their true market value and to assess the repaying capacity of the borrowers. A loan of Rs. 15,000 was also sanctioned by Government to the central bank in order to meet the initial expenditure. The loan is free of interest and is to be repaid in annual instalments of Rs. 3,000 each.

Before the central bank could begin to function a great deal of spade work had to be undertaken. It was found that the bylaws, trust-deed, debenture forms required many amendments. The work of rectifying these defects was ably done by the first Vice-President Mr. Narayana Ayyar, I.C.S. (retired). In the year under report 124 individuals and 19 banks were admitted as members with 513 and 198 shares to the value of Rs. 51,300 and Rs. 19,100, respectively. A sum of Rs. 46,000 was received as debenture deposits from intending investors. Loans to the extent of 1·44 lakhs were sanctioned to nine banks of which only 42,200 was issued (to three of them) in the year. Debiting the establishment charges against the Government loan, the bank worked at a profit of Rs. 1,358. In accordance with the recommendation of the Townsend Committee that a separate legal enactment should be passed to deal with land mortgage banks, a draft bill to supplement the Co-operative Societies Act and containing necessary provisions to facilitate the working of land mortgage banks has been submitted to Government.

As considerable doubts have been expressed regarding the utility and safety of the Central Land Mortgage Bank scheme, it is perhaps desirable that I should now place on record the impressions I have formed during my few months' experience as Director I have nothing but admiration for the work done by my colleagues on the board. Every loan

application has been carefully scrutinized under the guidance of the President M.R.Ry. Diwan Bahadur M. Ramachandra Rao Avargal who has given freely of his time and his great legal knowledge and the highest standard of efficiency and strictness has been set by him and has been acquiesced in by the other directors. I have no hesitation in saying that every loan sanctioned from the Central Land Mortgage Bank is a sound loan and that if the present standard is maintained, the debenture interest is as safe as the collection of Government's general revenues. Regarding the future usefulness of the bank in clearing agricultural indebtedness, it is impossible to speak with such certainty. The detailed scrutiny of the loan applications has brought out the fact that many of the applicants are beyond redemption. They do not have sufficient repaying capacity to clear their debts even in a period of twenty years. In a large majority of cases these debts were incurred to purchase land. It is well-known that for many years the profits derived from the ownership of land have not exceeded 3 per cent on current market values and the futility of borrowing money at 18, 12 or even 8 per cent for investment in land should now be more widely known. The Central Land Mortgage Bank, while its benefits will not reach the classes most deeply involved in debt, will, however, do great good in reducing the rate of interest now paid by middle class agriculturists.

The delay in extending the area of operations of the Central Land Mortgage Bank and the obstacles put in the way of its speedy development by the recent floatation of the Government loan at 6 per cent have led to a renewed outcry for ten-year loans from the ordinary district central banks. It may, I think, be admitted that the dangers of granting a limited number of ten-year loans on the strength of short-term deposits have been somewhat exaggerated and that there are no strong reasons why central banks should not grant ten-year loans in specially deserving cases after careful scrutiny. The main question is whether the applications will receive the scrutiny they require. Judging from the attitude now adopted towards five-year loans by those central banks which are leading the agitation for the restoration of ten-year loans, the answer must be that they probably will not. It is undoubted that most of the needs of agriculturists for cultivation expenses, illnesses, ceremonies, purchase of bulls, etc., can be met by loans of from one to three years. Yet in these central banks a very large proportion of the loans—for instance 93 per cent in Chingleput and 91 per cent in Chittoor are long term, indicating that the real needs of the ryots have not been carefully considered by the Directors. What I have seen at Board's meetings supports this conclusion. There is not sufficient dissection of the individual applications and investigation into the true purposes for which each loan is required. At one meeting I drew attention to the large number of applications for loans to buy land. The Directors laughed and said that if they showed any hesitation in passing loans for this purpose, the result would simply be the insertion of some other purpose in the application form. Considering that most of the loan applications are prepared for the villagers by the Union supervisors, there is no excuse for this slackness. The supervisors can surely be instructed to make proper enquiries and report the real purpose for which the loan is required. The conclusion seems to be that if ten-year loans are given for proper purposes, after careful scrutiny of the repaying capacity of the applicant and the resources of the bank, the practice of giving such loans might well be resumed. But if ten-year loans are to be merely an excuse for delaying the period of repayment of the ordinary loan now granted by central banks the policy of the Madras Central Urban Bank is sound and should be maintained.

Primary Land Mortgage Banks.

18. Up to the date of the establishment of the Central Land Mortgage Bank, the primary banks were all independent organizations, each making its own financial arrangements. Since then, they have all been affiliated to the central bank and will be financed by it in future. New model bylaws were framed for the primary banks in consultation with the Central Bank directorate. Some of the existing primary banks in the northern districts expressed a desire to retain the power of floating debentures locally. Government were pleased to permit such of the primary banks as desired to have this power to retain it on the following conditions, namely,

(1) that the rate of interest on debentures issued by them should not exceed that offered by the Central Bank and should be fixed with its approval;

(2) that the debenture-holders of the primary bank should have a fixed charge on the mortgaged securities which are earmarked as cover for the debentures; and

(3) that the floating charge of the central bank should not affect the fixed charge of the debenture holders of the primary banks. The Land Mortgage Bank at Tinnevelly was

liquidated during the year as there were no prospects of its successful working. Seven more banks were actually started on their work within the year bringing the total to 27. Since the close of the year, 11 more banks have been started. Care was taken to see that the primary banks were organized only in compact areas where there were satisfactory irrigation facilities, assured crops and suitable men to work them. The 38 banks now working are distributed as follows :—

Five in Coimbatore,
Four in each of the districts of Tanjore, Chingleput, North Arcot and Kistna,
Three in the districts of East and West Gōdāvari and Trichinopoly,
Two in each of the districts of South Arcot and Rāmnād, and
One each in the districts of Ganjām, Nellore, Madura and the Nilgiris.

The number of members in the 27 banks which were working on the last day of the co-operative year was 2,861 with a paid-up share capital of Rs. 1·51 lakhs. Their working capital was Rs. 11·36 lakhs. All except five banks earned profit, the total being Rs. 17,070. Three banks in North Arcot and two in the East Gōdāvari incurred a loss of Rs. 872 in all.

The following table shows the particulars of debentures issued by the primary banks and the amount of debentures taken up by the public and the Government till November 1929 :—

Serial number.	Name of bank.	Total amount of debentures issued.	Amount of debentures taken by	
			Public.	Government.
		RS.	RS.	RS.
1	Ambur	6,000	3,000	3,000
2	Conjeeveram	1,10,400	60,400	50,000
3	Kambiliampatti	66,000	33,000	33,000
4	Pilamedu	20,000	10,000	10,000
5	Gudlavalleru...	2,72,500	2,22,500	50,000
6	Alamuru	1,23,200	73,200	50,000
7	Kulittalai	48,450	26,850	21,600
8	Vadlamannadu	89,500	79,500	10,000
9	Madurantakam	22,000	22,000	...
	Total ...	7,58,050	5,30,450	2,27,600

Since November 1929, the Government have ceased to subscribe to the debentures of primary banks in view of the formation of the Central Land Mortgage Bank.

In regard to payment of interest to debenture-holders there has been no default. In regard to repayments of loans due by members to the primary banks, there has been a reduction in the overdues under principal and interest, the percentages being 13 and 6 as against 16 and 7 in the previous year. The default is particularly noticeable in the Conjeeveram and Pithapuram banks. In the former it is attributed to carelessness on the part of the borrowers and failure to enforce collections. As regards the Pithapuram bank the default is due to the date of repayment having been wrongly fixed without regard to the harvest season.

Central Banks.

19. As in the previous year there were 31 Central Banks including the Christian Central Co-operative Bank. Since the close of the year a separate Central Bank has been registered for the Madras City. The Christian Central Co-operative Bank, Madras, which was originally started for financing co-operative societies intended exclusively for Christians and depressed classes throughout the presidency, was induced during 1921–22 to undertake the financing of all primary societies in the City of Madras. For some time past the co-operators in the City had been feeling that the time had come for organizing a separate bank and with this view the Christian Central Co-operative Bank concurred. The latter also felt that if the Madras societies were separated it would have more freedom to concentrate attention on its legitimate function of financing Christian and depressed classes societies in the mufassal. The Madras District Co-operative Conference which met in February 1930 also passed a resolution urging the registration of a Central Bank for the City societies. This was done on 10th July 1930.

In accordance with the recommendation of the Townsend Committee, Central Banks reduced their lending rate to 7½ per cent. The committee's recommendation that the rate of interest on loans to societies up to the amount of the reserve fund deposited in the Central Bank should not exceed by more than one per cent the rate allowed on such deposits was not accepted, as loans granted by Central Bank did not bear any relation to the reserve fund invested in them.

All local bodies were permitted by the Government to invest in fixed deposits in the Madras Central Urban Bank and such Central Banks as have received for this purpose

the general or special approval of the Registrar for periods not exceeding five years at a time, cash securities taken from their employees. The Government have also permitted the investment in the Provincial Bank and the Central Banks of the security deposits of hospital contractors.

The Madras Central Urban Bank and the Central Banks were exempted from the operation of section 29 (i) of the Co-operative Societies Act to the extent of permitting them to grant loans to non-members on the security of the debentures floated by the Madras Central Land Mortgage Bank and primary land mortgage banks subject to the conditions mentioned below :—

(1) the period of loan in each case shall be restricted to a maximum period of one year ;

(2) no loan should exceed 80 per cent of the face value of the debentures ; and

(3) the concession may be withdrawn by Government at any time.

Mention was made in the last year's report (paragraph 16) of the action taken by the Imperial Bank of India to get Government paper substituted for co-operative societies' promissory notes as cover for the overdrafts given to co-operative banks. The Imperial Bank desired that the process should be completed in five years' time so that at the end of that period the entire overdraft should be covered by Government paper. In view of the recommendations of the minority of the Townsend Committee the Government were requested to permit Central Banks to keep 25 per cent of fluid resource in the shape of undrawn cash credit with the Imperial Bank secured on the promissory notes of co-operative societies. The Government of India were addressed in the matter and they, after consulting the Managing Governors of the Imperial Bank, decided that the Bank could not be urged to accept the recommendation as the change was introduced by them in the interests of sound banking. The considerations which led the Imperial Bank to introduce the change were chiefly the following :—

(1) It is unsound to reckon the undrawn cash credit as fluid resource even to the extent of 25 per cent of the amount required as it may possibly be unavailable when it is most wanted for the very cause that created the want, and

(2) the fact that it has not been found necessary to rely on cash credit on primary societies' pro-notes in other provinces shows that the central banks can do without them.

2

They also pointed out that the loss that might arise to co-operative banks through the continual purchase and sale of Government securities to adjust the fluid resources to the required standard can be avoided by retaining a portion of the fluid resource on deposit with commercial banks.

The Imperial Bank are, however, prepared to sanction overdrafts against Government securities and to make advances from time to time against pro-notes of co-operative societies on terms to be fixed in the light of conditions on which the advance is granted and the purpose for which it is required and to discount suitable agricultural paper. The Government of India are of opinion that these facilities which will be available even in times of great financial stringency are all that the Imperial Bank can be expected to afford and that they should be allowed to use their discretion according to the circumstances prevailing. The effect of these decisions is that within the period of five years allowed by the Imperial Bank, the central banks and the provincial bank will be obliged to hold their entire fluid resource in cash and Government securities. The central banks have, however, been permitted by the Government to reckon the undrawn cash credit with the provincial bank as fluid resource and the advisability of doing this on a large scale is under consideration.

During this year central banks were requested to furnish Government paper as cover to the extent of one-fifth of the overdraft allowed to them by the Imperial Bank, but only five banks were able to do so. The amount of the overdraft allowed to the other banks was, therefore, reduced by one-fifth. Out of a total overdraft of Rs. 31·98 lakhs granted by the Imperial Bank, Rs. 3·61 lakhs were on security of Government paper and the remaining Rs. 28·37 lakhs were on the security of societies' pro-notes. The central banks at Cuddapah and Tinnevelly have furnished full cover in the shape of Government securities for the entire overdraft held by them.

The Townsend Committee recommended that the standard of fluid resource in central banks so far as fixed deposits are concerned should be 30 per cent of fixed deposits falling due within the next six months or 50 per cent of those falling due within the next 30 days whichever is from time to time the higher. The executive committee and the Board of Management of the Provincial Bank and the Bankers' Conference were of opinion that there was no necessity for a

departure from the existing practice under which fluid resource had to be maintained for only 50 per cent of fixed deposits falling due in the next 30 days. The Government directed that the existing practice might be continued for the present.

In opening current accounts, central banks were requested to exercise more caution than they were doing in the past and in particular not to accept large sums at liberal rates of interest.

In paragraph 16 of last year's report, it was observed that collection in societies were dominated not by harvest but by annual returns and that great efforts were made only in May and June followed by a great slump in July. The statistics prepared this year show that there has not been any material improvement as will be seen from the graph in Appendix No. 15.

During my inspections of central banks, I have been impressed by the fact that totally inadequate attention has been paid in the past to the question of bad debts and that central banks generally assumed that all their investments were good until the contrary was proved. The danger involved in such procedure is obvious. While the arrears under principal and interest are increasing, the central banks have been distributing all their income excepting the statutory contribution to reserve fund as profits forgetting the fact that in quite a large number of societies the payments towards interest are being made out of principal collections from a few good members. I have observed that in the case of many societies recommended for liquidation the principal due by members to the society is smaller in amount than that due by the society to the central bank. The panchayats of societies have been none too vigilant either in taking proper security for the loans or in arranging for collection and it would be imprudent to assume that there will be no bad debts even when unlimited liability has been enforced. Central banks apparently rely on unlimited liability to safeguard their interest, but too much reliance on this and too little regard to sound business principles will jeopardize the interests of the bank. It must be remembered that only a few of the central banks hold substantial amounts in the general reserve capable of meeting heavy unforeseen losses. I have, therefore, made a beginning in providing for bad and doubtful debts in a few banks in which an examination of overdue debts showed that such a step was desirable. Such provision has been made in the following banks:—

	RS.
Anantapur	11,011
South Arcot	5,000
South Kanara	3,850
Malabar	5,000
Nellore	4,000
Tanjore	5,000

The necessity to provide higher speed machinery for sanctioning loans and for distributing cash has frequently been pointed out and the endeavours already made in this direction have been dealt with at length in the paragraph on cash facilities in last year's report. But from reports received from the Deputy Registrars, I find there has not been any rapid improvement, though in certain districts the systems recommended are being gradually introduced.

Provincial Co-operative Union and Language Federations.

20. The membership in the Provincial Co-operative Union was 453 composed of 20 honorary members, provincial societies, language federations, central banks, district federations, local and audit unions, urban banks and non-credit societies. The Provincial Co-operative Union is now affiliated to the All-India Co-operative Institutes Association which was inaugurated in Bombay in October 1929 to serve as a common platform for all the apex institutions in different provinces to meet and exchange views and to speak authoritatively on co-operative matters relating to India as a whole. The publications of the Tamil Journal of Co-operation was transferred to the Tamil Nadu Federation at Coimbatore from September 1929.

The chief activities of the Union are (1) publication of the Madras Journal of Co-operation in English and pamphlets on co-operative matters, (2) conducting panchayatdars training classes in the Madras City, (3) co-operative propaganda tours with special references to non-credit activities, (4) continuance of the conduct of rural reconstruction centres, and (5) the holding of the Provincial Conference. The Union conducted panchayatdars' classes in 124 centres in the Madras City at which the total attendance was 5,952, the panchayat members of 54 societies being trained. A sum of Rs. 1,813 was spent in the conduct of these classes of which Rs. 1,200 was given by Government. The Union jointly

with the Provincial Bank submitted a memorandum of answers to the questionnaire of the Madras Provincial Banking Enquiry Committee and also to that of the Indian Central Banking Enquiry Committee.

The Andhra Sahakara Sammelanam did not do much useful work during the year owing to want of sufficient finance and proper working material. There were overdues to the extent of Rs. 3,500 from the subscribers of its Telugu Journal. Its accounts were until recently in a chaotic condition but it is gratifying to see that the present directors are trying to bring them to order and to collect the arrears so as to enable the institution to do some substantial work and justify its existence. The Tamil Nadu Federation at Coimbatore have taken up the publication of the Tamil monthly journal and have also published 5 books relating to rural economics and development. Besides these, 4 leaflets were printed and distributed to unions.

Federations.

21 The number of federations fell from 25 to 24. The federation at Salem had done practically no work since 1922 and in December 1929, it applied for liquidation, the Central Bank having taken over the supervision of the societies through its administrative section. The registration of the federation was therefore cancelled. There is a general feeling among co-operators in this Presidency that federations have failed to justify their existence and an increased tendency for central banks to take the supervision of societies into their own hands. This has led to the Federations in several districts—South Kanara, Malabar, Coimbatore and Srīvilliputtūr—abdicating their functions in favour of the administrative sections of the local Bank. I feel sure that the decisions taken in these districts were wise and that they should lead to better results. The objections to Bank supervision were in my opinion largely theoretical, for in actual practice the same men composed the governing body of the Bank and of the Federation. The Federation Directors therefore either worked in close co-operation with the Bank—in which case a separate organization meant needless additional expenditure on rent, office establishment and travelling allowance—or they spent their time and energies in unfortunate conflicts with the Bank. It is, however, impossible to generalise on the matter as so much depends on local conditions. Either system will work if the men in charge carry on in the proper spirit, while neither Federation nor Bank administrative

section will succeed unless there is some outstanding personality to correct the faults of unions. In the area served by the Madura—Rāmnād Central Bank, the Federation has been a distinct success while its continuance is very desirable in districts like East Gōdāvari which have several small Central Banks.

The Government were pleased to make a provision of Rs. 15,000 in the budget for 1930–31 for granting subsidies to weaker federations to augment their supervision fund in case the amount collected in the ordinary course was inadequate to meet the requirements of supervision in the district. A sum of Rs. 2,950 has been sanctioned to the Cuddapah and Aska Federations. The applications received from federations at Anantapur, Bellary and Kurnool were not complied with as it was found that their expected income was quite sufficient to meet their requirements.

All the federations except those of Berhampore and Ellore conducted training classes for panchayatdars in 1,?05 centres at which 21,113 are said to have participated. The expenditure incurred on this account was Rs. 16,550. The number of societies whose panchayat members were trained was 2,531. Towards the conduct of these classes, the Government contributed a sum of Rs. 16,275 while the federations gave from their own funds a sum of Rs. 7,810 besides a sum of Rs. 660 collected as donations from the public.

Supervision.

22. There were 14,756 primary societies of which 12,006 were affiliated to 405 local supervising unions, the remaining 2,750 remaining unaffiliated. Of these 2,750, 1,469 are depressed classes and Kallar societies under the direct supervision of the special staff and inspectors working under the Labour department and the Kallar Special Officers. Two hundred and ninety-nine are directly supervized by the federations, 55 are under the direct supervision of district banks, and of the remaining 927, 256 are agricultural credit societies and 671 are special types of co-operative societies and non-agricultural societies. The agricultural societies lie scattered and hence could not be brought under the supervision of any local union. The non-agricultural societies are societies of a special nature which do not require any intensive supervision.

Statement D of Appendix No. 1? shows the operations of unions and district federations. It has been held in the reports of previous years that, for a union to function efficiently, the number of affiliated societies should not exceed

30 and should preferably be smaller. Judged by this standard, it would appear necessary to reduce the size of unions in the districts of Ganjām, East Gōdāvari, Guntūr, Madura and Tinnevelly, as they show an average of more than 30 societies for each union. To make supervision more effective in these districts the desirability of organizing more unions or if that is not practicable of increasing the staff of supervisors should be considered.

Training institutes.

23. The six registered co-operative training institutes conducted training classes for co-operative workers at which 865 candidates underwent training as against 612 in the previous year. Of these 486 were declared successful at the common examinations held at each of the centres. A sum of Rs. 22,690 was spent by the institutes on conducting the training classes of which Rs. 19,087 were contributed by the Government. Nothing was done by any of the institutes to arrange for the short refresher courses to which reference was made in paragraph 19 of last year's report. The general feeling was against holding such classes during May and June because the supervisors would be busy with collection work during those months. It had been the practice to depute two Government Inspectors from each district to each session of the co-operative training institutes; but in my opinion this practice had unfortunate results. The men were not properly selected by the Deputy Registrars who, in some cases, used the excuse of institute training to get rid of bad Inspectors, even when these Inspectors were old experienced officers unlikely to derive any benefit from a course of study. The deputation of Inspectors led to a deterioration in the current work in the circles as the staff is insufficient to allow for such vacancies. The same thing is true of the non-official staff. I found that many unions had been left without supervisors for months together while the permanent incumbents were at the institutes. The result was that no work was done in these unions. I regard this as one of the contributing causes for the poor collections this year. The practice of deputing experienced Government Inspectors was therefore stopped and at present Inspectors are deputed for training only in very rare cases with my special sanction. The Banks and federations too were advised not to send for training men who had been in service for years. Every endeavour was made to enforce the rule that vacancies in the department should be given only to men who had attended the institutes and the Banks and federations

adopted the same plan. A practical training for about six weeks in addition to the theoretical training received at the institutes was prescribed for every new Inspector.

In the co-operative classes conducted at the Government Institute of Commerce, out of 33 candidates selected, only 26 came out successful, of whom 4 passed in all the four subjects of Co-operation, Auditing, Banking and Book-keeping, 8 in three subjects, 12 in two subjects and 2 in one subject. The number of passes was 24 in Banking, 22 in Auditing, 11 in Co-operation and 9 in Book-keeping. Of the seven senior Inspectors deputed for training, two were withdrawn in the course of the year as they were promoted as Sub-Deputy Registrars. Of the other five, one passed in all the four subjects, three in three subjects and one in two subjects. All the five have passed in Banking, four in Co-operation and Auditing and two in Book-keeping.

Trading activities.

24. From the figures given in section 1 of Appendix No. 1, it will be seen that there was an increase in the value of goods purchased and sold as owner, the figure being Rs. 27·17 lakhs and Rs. 29·45 lakhs as against Rs. 26·55 lakhs and 28·03 lakhs respectively in the previous year. The value of members products purchased as agent increased by Rs. 2·75 lakhs and value of products sold in this way also increased by Rs. 9·53 lakhs. This appreciable increase is contributed by the five cardamom societies in the Madura district.

The primary societies and the loan and sale societies advanced during the year a sum of Rs. 15·68 lakhs on standing crops and pledge of produce. Of this sum Rs. 8·27 lakhs represent loans given by loan and sale societies on the pledge of produce. The outstanding loans on the pledge of produce and standing crops at the end of the year was Rs. 18·91 lakhs.

Loan and sale societies.

25. The transactions of a few select loan and sale societies are given in paragraph 53. Progress has been slow owing to the difficulty of securing crops, want of transport facilities and the lack of conviction on the part of the people in regard to the utility of these societies. Co-operative action on the part of ryots is very much at a discount but in localities where the ryots have become convinced of the usefulness of this class of societies there have been good results. Resolutions are frequently passed at co-operative conferences urging that Government aid should be given freely for the purpose

of constructing godowns. The fact is however that full use is not made of the existing godowns for the ryots are reluctant to part with their produce. So far, Government have lent a sum of Rs. 14,750 for the construction of 7 godowns at Orattanad North and South in Tanjore, Ambur in North Arcot, Nandyal in Kurnool, Madurantakam in Chingleput, Maripudi in Guntūr and Nangavaram in the Trichinopoly district. The buildings in the first two places were never finished and there is a proposal to sell them. The buildings at Madurantakam and Maripudi are still under construction while the buildings in the Kurnool and Trichinopoly districts have been completed. The latter was well filled when I saw it, but the former does not appear to be used. The development of cotton sale societies in the principal cotton areas is a promising co-operative enterprise and alongside of the development of the pure business side of collecting the cotton, technical assistance is required for grading and keeping under control the production and redistribution of pure seed of good strains and for the cultivation of cotton. There is work for a special Deputy Director of Agriculture in the cotton areas of Tinnevelly, Coimbatore, Bellary and Kurnool. The desirability therefore of appointing an officer of the grade of a Deputy Director of Agriculture to work under the Registrar as recommended by the Townsend Committee on Co-operation was examined by the Agricultural Advisory Committee and on their advice the Government sanctioned the appointment of a Deputy Director of Agriculture for a period of two years. The appointment has just been made.

Labour contract societies.

26. The number of societies for labourers fell from 63 to 59. The largest number of societies was in the Tanjore and Cuddapah districts. During my inspections I have been very dissatisfied with the condition of these societies. Most of them were incurring heavy losses and those that were not were practically under the control of one man, usually an ex-contractor. The total number of members in these societies were 3,540 of whom 2,577 were actual workers, the remaining being outside helpers. They had a paid-up share capital of Rs. 21,337 and a reserve fund of Rs. 28,27-. Twenty-four of them secured contracts to the value of Rs. 1,76,282 as against Rs. 1,63,325 secured by 33 societies in the last year. Work to the value of Rs. 1,01,470 was pending execution at the beginning of the year and the societies completed within the year work valued at Rs. 2,09,960. A

sum of Rs. 74,948 was paid as wages to members and Rs. 46,254 to non-members usually at market rates. Only three of these societies were able to pay bonus to the members, the total bonus amounting to the insignificant figure of Rs. 970.

Land reclamation societies.

27. There were 10 societies at the beginning of the year, five in Tanjore and five in Trichinopoly districts. One was registered in the Trichinopoly district bringing the total to 11. The newly organized society did not start work before the close of the year. Of the other 10 societies, work of reclamation in two societies at Siddhamalli and Tadalankoil in the Tanjore district was completed by the efforts of the members themselves. There were 612 members with a paid-up share capital of Rs. 14,795. The total extent of land to be reclaimed was 2,436 acres of which the extent cleared up to the end of the year was 1,361. Sixty acres were left to be brought under the high level channel scheme under contemplation, leaving 1,015 acres to be reclaimed. The work in respect of the high level channel scheme in Mutharasanallur village has not yet been begun. The total amount of Government loan outstanding at the end of the year was Rs. 2·17 lakhs, a sum of Rs. 1,043 being overdue under principal from the Koviladi society in the Tanjore district.

Irrigation and kudimaramat societies.

28. There were 17 kudimaramat and irrigation societies as in the previous year. The number of kudimaramat societies was ten, of which four were in South Arcot and the rest in Tanjore. Two of the societies in Tanjore, namely Echangudi and Melatoorsethi societies, have not been doing any work for the last three years and they will have to be closed. The societies in Tanjore, intended to do silt clearance, are reported to be unpopular and unattractive to the villagers. The Tadpalli and Kothangudi societies in the Tanjore district executed work to the value of Rs. 917. The Olukkai society in the South Arcot district removed silt from the feeder channel and directed the flood water. The total ayacut benefitted was 775 acres. The Nathapatti Society in the same district repaired part of the irrigation channels. The remaining kudimaramat societies did no work. Of the seven societies for irrigating lands jointly, three in South Arcot district have been liquidated since the close of the year. The Paleru irrigation society in the Kistna district supplied water to the extent of 2,000 acres from an anicut in H.E.H. the Nizam's dominions and levied contributions from members for carrying out necessary repairs to the supply channels. The Peddaganjam Society in Guntūr is said to have brought 130 acres of land under cultivation and benefitted 32 members.

The Vilayur-Raivanallur Irrigation Society in Malabar supplied water to irrigate two crops to the extent of 68 acres at a cost of Rs. 1,000. The number of members benefitted was 58 and it is reported that, but for the work of the society, the whole paddy crop would have failed. The Edathurthi Irrigation society in the same district supplied water to irrigate one crop of paddy in nearly 20 acres. These two societies however worked at a loss.

Agricultural demonstration societies.

29. There were 17 agricultural demonstration societies five in each of the districts of Tanjore and Trichinopoly, four in East Gōdāvari and one in each of the districts of Gānjām, Coimbatore and South Kanara. Of the five societies in Tanjore only three cultivated paddy in 21·21 acres under the improved methods. The net difference in the income per acre between the old and improved methods of cultivation in the several plots demonstrated ranged from Re. 1 to Rs. 27. In Trichinopoly only three out of five societies cultivated 64·56 acres of land using improved methods of cultivation. These derived a net income of about Rs. 57 per acre on the average under improved methods while the income derived by cultivating under the time-honoured methods was about 42 per acre. The societies in the other districts did no work. Six societies also undertook the supply of purer varieties of seeds, manures and implements to the total value of about Rs. 2 lakhs.

There are at present separate societies for all kinds of agricultural improvement, for example, seed societies for propagating improved strains of seed, demonstration societies for showing the advantage of improved methods of cultivation and societies for supplying agricultural requirements. The Director of Agriculture suggested that one general society which will attend to all kinds of agricultural improvements may be formed for one or more villages. Draft by-laws were accordingly prepared to suit the requirements of such a combined society and circulated to all Deputy Registrars, and Deputy Directors of Agriculture. The societies are to be started on the initiative of the Deputy Directors of Agriculture and in consultation with them.

Milk-supply societies.

30. There were 43 milk-supply societies at the beginning of the year, 35 in Chingleput, seven in Madras City and one in Madura. Two

societies were registered bringing the total to 45 at the end of the year. Of these, ten societies, two in Madras and eight in Chingleput have never been started. The total number of members in these societies was 883 with a paid-up share capital of Rs. 2,487. The society in Madura purchased cows for Rs. 438 and maintained them at a cost of about Rs. 400. They collected and sold 1,438 Madras measures of milk at a cost of Rs. 639. The societies in Chingleput and Madras continued their supply of milk to the Madras Milk Supply Union. They supplied milk to the value of Rs. 86,400 but owing to the very low margin between the price paid to the members and the price realized by the sale of milk their profits were negligible.

The Madras Co-operative Milk Supply Union realized Rs. 1,49,348 by the sale of milk and Rs. 7,406 by the sale of other milk products. The Union paid to Government Rs. 1,219, being the interest due on the sum of Rs. 15,000 lent to them. The Union undertook, as mentioned last year, the supply of milk to four of the leading hospitals in the city. It was on the assurance of the milkmen themselves that the contract was taken up. From the commencement of the supply outside forces were at work to break up the Union and to induce the milkmen to strike and discontinue the supply. The result was that the supply of milk was dislocated for a time but the Union tided over the situation by admitting more members who brought in additional cows. Later another attempt was made to frustrate the work of the Union. The milkmen foolishly yielded to the outside influences and went on strike and the Union had to suspend the supply of milk to the hospitals. But it had achieved its main object as the contractors were now compelled to reduce the rates at which they were previously supplying milk to the hospitals and to pay a better price to the milkmen. In the short period during which the contract was worked, there was a saving of about Rs. 45,000 to Government. The Union was persuaded to resume the supply of milk to two hospitals and it has been doing so since February last. It has appointed additional staff for supervising the supply and it is believed that it is now giving satisfaction to the hospital authorities.

Students' societies.

31. There were 68 students' stores societies at the end of the year with 2,689 students and 6,281 associates (minors are not eligible for membership) and 911 teachers to assist them in their working. Their paid-up share capital rose from Rs. 4,510 to

Rs. 5,803. Books and stationery to the value of Rs. 70,210 were sold to the members and other associates as against Rs. 52,700 in the previous year. The savings effected on account of this joint purchase and sale was Rs. 5,744 against Rs. 4,559 in the previous year. A sum of Rs. 1,177 was paid as bonus on purchases made by members. From what I have seen of these societies their success depends on the interest taken by the teachers. The societies are, however, useful to train students in the principles of co-operation. It has been suggested that to facilitate their work, it is desirable to organize a central society at Madras to purchase articles in bulk and to distribute them to the affiliated societies. The Triplicane Stores are prepared to act as the Central Society provided the mufussal societies are willing to join as members of the stores. This offer has been communicated to the societies but has not been generally accepted.

Weavers' societies.

32. There were 39 societies exclusively for weavers and 95 credit societies of which more than 60 per cent of the members were weavers. Their transactions are shown in sections III, A, B and C of the Appendix No. 8. Nearly half the number of societies exclusively for weavers were dormant. In dealing with the subject of forming co-operative societies for handloom weavers as recommended by the Special officer for the survey of Cottage Industries, it was found that the attempts already made had proved a failure as the societies always came into conflict with master weavers. The Textile Advisory Committee discussed these difficulties and considered the desirability of forming a Central Weavers' Co-operative Society. It was at first anticipated that, through a central organization, weavers could get yarn cheap and reduce the number of middlemen between the handloom weaver and the ultimate purchaser to a minimum, and that the weavers would then be enabled to get a larger share of the profits. The Government were informed of the financial assistance required from them and also of the extent of such assistance given by the Governments of Bengal and the Punjab to similar organizations working in those Provinces. The Textile Advisory Committee after considering the scheme recommended that primary societies for weavers should be started and a central society and bank organized for financing the primary societies and conducting the sale of their finished products. The central organization was also intended to arrange for the demonstration of the use of

machine-sized ready made warps and to popularize other improved preparatory processes and methods of weaving. There was to be a business manager to study and collect information in regard to marketing of handloom products and make this information available to the weavers. It was also recommended to the Government that they should make a recurring grant to enable the organization to meet the establishment and other charges during its initial years. This scheme had to be kept in abeyance owing to financial stringency.

Criminal offences.

33. The number of prosecutions for misappropriation of societies' funds, criminal breach of trust, falsification of accounts by office-bearers and staff of co-operative societies increased from 43 to 50. This represents only a fraction of the misappropriations reported. Of the 50, 40 were instituted at the instance of the Department while the remaining were at the instance of the societies themselves. The districts of Tinnevelly, North Arcot, Cuddapah, Malabar and Chingleput contribute the largest number of cases. There were 25 cases pending investigation and trial in courts at the beginning of the year. The accused were convicted in 21 cases and in 9 cases they were acquitted. Five cases were withdrawn, 37 were pending trial by courts at the end of the year, and three were under investigation by the police. These prosecutions reflect badly on the management of societies and greater efforts are necessary to ensure that only honest men are selected as Panchayatdars. The remedies for such lapses on the part of Panchayatdars seem to be constant and closer supervision and a change in the attitude of the public. There exists at present a very evident desire to screen the offenders. If the doings of the society office-bearers are carefully checked as frequently as possible, there should be less occasion for these constant frauds. I hope that the supervising agencies will take all possible steps to efface this blot on the co-operative movement.

III.—Working of Societies.

(a) *Madras Central Urban Bank, Ltd.*

Progress.

34. The Madras Central Urban Bank, Ltd., has continued to make satisfactory progress as will be

seen from the following comparative statement for the last three years:—

	1927–28. RS. IN LAKHS.	1928–29. RS. IN LAKHS.	1929–30. RS. IN LAKHS.
1. Share capital paid up ...	5·96	6·14	6·20
2. Deposits and other borrowings (including overdraft).	125·46	131·88	163·45
3. Working capital	138·42	147·01	179·26
4. Net profits...	2·61	2·43	2·44
5. Reserve fund after audit ...	9·00	9·61	10·22

There was no change in the membership of the bank. The increase in the share capital was contributed by the Central Banks. There has been an appreciable increase of Rs. 31·57 lakhs under deposits and other borrowings which is chiefly contributed by joint stock banks and other institutions. Deposits and borrowings from these sources amounted to Rs. 28·17 lakhs as against Rs. 6·31 lakhs in the previous year. The deposits of individuals, however fell from Rs. 61·75 lakhs to 49·56 lakhs (apparently owing to the opening of fresh avenues for investment) while the deposits of local boards and municipalities, etc., rose from Rs. 22·37 lakhs to Rs. 28·46 lakhs and are made up of the following items:—

	RS.
1. Railway cess	10,45,304
2. Security deposits of employees and contractors of local boards and municipalities	2,28,851
3. Provident fund of employees of local boards and municipalities	12,100
4. Surplus general funds of local boards and municipalities	13,06,975
5. Jail contractors' deposits	1,550
6. Abkari contractors' deposits	2,45,653
7. Security deposits of Government employees	5,300
	28,45,733

The rise is due to the investment of the surplus general funds of local bodies.

The Bank has invested Rs. 58·27 lakhs in Government securities and Rs. 5 lakhs in the Bengal Provincial Co-operative Bank.

Net profits.

35. The Bank made a net divisible profit of Rs. 2·44 lakhs; but this does not take into account the depreciation of Government

securities, the value of which fell by Rs. 1·47 lakhs in the current year making a total depreciation of Rs. 3·36 lakhs. As against this there is already a depreciation reserve of Rs. 1·89 lakhs and the Bank has been advised to reserve the additional amount required.

Loans.

36. The policy of increasing short-term transactions was pursued with the result that a sum of Rs. 92·35 lakhs was issued to Central Banks, Rs. 92·20 on short-term and ·15 on long-term. A sum of Rs. 7·25 lakhs was advanced to individuals on the security of their deposits as against Rs. 9·14 lakhs in the previous year. The total outstanding loans amounted to Rs. 44·47 lakhs under short-term and Rs. 73·96 lakhs under long-term.

The sum of Rs. 637 due from two primary societies directly indebted to the Madras Central Urban Bank has been remitted in full since the close of the year and there is now no society directly indebted to the Bank. There is, however, a sum of Rs. 13,193 due from primary societies under liquidation.

Overdraft and fluid resource.

37. In accordance with the recommendations of the minority report of the Townsend Committee and the orders of Government of India thereon (paragraph 19) that the Provincial Bank and the Central Banks should rely on their own resources for purposes of fluid resource, the Imperial Bank have reduced the overdraft sanctioned on the security of co-operative societies' demand promissory notes from Rs. 17·55 lakhs to Rs. 14·04 lakhs and have sanctioned Rs. 30 lakhs on Government securities as against Rs. 10 lakhs in the previous year. The Madras Central Urban Bank maintained fluid resource in accordance with the prescribed standard except for 10 days in March.

(b) *Central Banks.*

Progress.

38. The operations of the 31 central banks are set forth in Appendix No. 14—Statement A. The more important figures showing their development are extracted in the following comparative statement:—

	1927–28. RS. IN LAKHS.	1928–29. RS. IN LAKHS.	1929–30. RS. IN LAKHS.
1. Share-capital paid up.	48·70	52·09	56·54
2. Deposits and other borrowings including overdraft.	431·18	507·91	550·58
3. Working capital ...	542·94	576·25	627·18
4. Net profits	9·93	10·95	9·62
5. Reserve fund after audit.	15·52	18·99	22·46

There were 3,484 individuals and 12,923 societies as members in the central banks holding a share capital of Rs. 15·14 lakhs and Rs. 41·40 lakhs, respectively. The substantial increase under deposits and other borrowings is noteworthy. An analysis of the various items under deposits shows that the local bodies have withdrawn more than a tenth of their deposits, the amount held at the end of the year being Rs. 152·95 lakhs as against Rs. 171·19 lakhs in the previous year. This amount comprised the following items of deposits:—

	RS. IN LAKHS.
1. Railway cess	51·65
2. Provident fund of employees of local boards and municipalities.	38·26
3 Surplus general funds of local boards and municipalities.	29·50
4. Security deposits of employees and contractors of local boards and municipalities.	17·80
5. Abkāri contractors' deposits ...	10·07
6. Civil Court deposits	2·55
7. Jail contractors' deposits	1·10
8. Lanka toll and ferry contractors ...	·89
9. Religious endowments fund and chatram funds.	·70
10. Security deposits of Government employees.	·43
Total ...	152·95

The fall in the deposits of local bodies was more than compensated by the increase in the deposits of individual members and non-members which amounted to Rs. 200·06 lakhs. There has also been substantial increase under the reserve fund deposits of societies and borrowings from the Provincial Bank, the amount held at the end of the year being Rs. 197·57 lakhs against Rs.156·94 lakhs in the previous year.

39. There was a fall in the net profits by Rs. 1·33 lakhs. This is partly due to the retrenchment of the profits in the case of six central banks with a view to make provision for bad and doubtful debts. Other causes contributing to the decline in the net profits of central banks are the depreciation in Government securities and the unsatisfactory recoveries in many districts.

Net profits.

There was, however, an appreciable increase in the divisible profits in the central banks at Hospet, Cuddapah, Aska, Ellore, Madura, Salem and Vizagapatam. All except the six banks at Anantapur, Calicut, Madras (Christian Central Bank), Srivilliputtur, Mangalore and Tanjore will be in a position to declare the maximum dividend of 9 per cent.

40. Loans to the extent of Rs. 328·10 lakhs were disbursed during the year as against Rs 288·14 lakhs in the previous year. Of this sum Rs. 227·13 lakhs were on short term and Rs. 100·97 lakhs on long term. It is gratifying to note that the central banks are gradually developing their short-term business, the percentage of short-term loans having increased from 59 to 69. Of the Rs. 328·10 lakhs disbursed Rs. 30·39 lakhs were issued to individuals on the security of their deposits. The loans outstanding against societies under short term and long term stood at the beginning of the year in the ratio of approximately 1 : 3. This ratio stands at 1 : 2 in the year under report.

Loans.

41. Section II of Appendix 4 shows the percentage of balance to demand for principal, arrear and current interest due to the central banks. The average percentage of balance to demand under principal for the Presidency was 44 for long-term loans and 13 for short-term loans. The following central banks had overdues exceeding the average :—

Arrears.

	Percentage.	
	Long term.	Short term.
Kurnool	66	51
Cuddapah	78	43
Anantapur	85	18
Chittoor	76	20
Srivilliputtur	58	23
Malabar	62	21
Hospet	64	19
Nellore	47	28
Tinnevelly	47	21

In Vellore, Berhampur, Cocanada, Guntür, South-Kanara and Viziavada the percentage of overdues under short-term loans was above the average; while South Arcot, Madura, Salem and Tanjore exceeded the average under long-term loans. It is desirable that the central banks should consider the situation in detail and take effective steps to expedite collections. Aska continues to hold the distinction of having no arrears under either principal or interest.

With regard to collection of arrear interest, the banks at Co[illegible]alore, Chittoor, Cuddapah, Cocanada, Mangalore, Malabar and Kurnool have done very badly, the percentage being more than 44, the presidency average. Next come the banks at Anantapur, Coimbatore, Madras (Christian Central Bank), Madura, Kumbakonam and Tanjore with more than 30 per cent.

As regards current interest the collections in the central banks at Vellore, Coimbatore, Ramachandrapuram, Sri-Konaseema, Masulipatam, Kumbakonam, Trichinopoly, Rajahmundry, Ellore, Christian Central Bank, Srīvilliputtur and Salem were satisfactory, the percentage being less than 5.

42. In paragraph 19, I have explained the result of the correspondence in regard to the question of the substitution of Government securities instead of societies' pro-notes as cover for overdrafts sanctioned by the Imperial Bank to the central banks. The total overdraft allowed to the various central banks amounted to Rs. 31·98 lakhs as against Rs. 37·16 lakhs in the previous year. Of this Rs. 3·61 lakhs were covered on Government Paper and the balance on societies' pro-notes. All except the central banks of Malabar and South Arcot observed the condition that the drawn portion of the overdraft granted by the Imperial Bank should not exceed the amount of short-term loans falling due to the Bank within the next 12 months. The South Arcot Bank failed to observe this condition for 12 days in the quarter ending March 1930 while the Malabar District Bank failed for 16 days during the previous quarter.

Overdrafts.

43. The half-yearly reviews of the fluid resources maintained by central banks show that the following banks failed to maintain the

Fluid resources.

required standard of fluid resources for the days noted against each :—

Name of bank.		First half-year.		Second half-year.	
		Days.	Deficiency.	Days.	Deficiency.
			RS.		RS.
Hospet Co-operative Central Bank.		14	8,481	Nil.	Nil.
Viziavada	do.	55	55,365	37	71,760
Guntûr	do.	27	87,126	4	31,755
Ellore	do.	7	48,575	Nil.	Nil.
Malabar	do.	18	22,197	Nil.	Nil.
Aska	do.	8	2,352	Nil.	Nil.
Cocanada	do.	40	35,188	Nil.	Nil.
Sri Konaseema	do.	Nil.	Nil.	19	20,061
Rajahmundry	do.	Nil.	Nil.	21	10,758
Masulipatam	do.	Nil.	Nil.	10	44,708
Anantapur	do.	Nil.	Nil.	3	2,465
Cuddalore	do.	Nil.	Nil.	13	26,352

The banks at Viziavada, Ellore, Cocanada and Rajahmundry did not maintain the required standard for some days, even in 1928–29. I have emphasized in my reviews that frequent default in the maintenance of adequate fluid resource is contrary to all principles of sound banking and urged that this important matter should not be neglected.

(c) *Agricultural Societies.*

Progress.

44. Agricultural societies of all types increased by 159, bringing the total to 13,106. Of these, 170 were purchase and sale societies, 396 other special types and the rest were credit societies. The membership in these societies rose from 690,681 to 713,615.

Loans.

45. These societies disbursed Rs. 260·8 lakhs as loans to their members and from the classification of these loans given in Appendix 2, it is noticeable that more loans have been given for cultivation purposes and trade than in the previous year and that there is a corresponding decrease in the loans given for paying off prior debts. If these figures are accurate, they indicate a growing and satisfactory realization on the part of the societies that their true function is the finance of agricultural and of small rural industries. An examination of the figures relating to the last five years shows that there has been a gradual increase in the number and amount

of loans given for productive purposes. The following statement gives particulars :—

Year.		Number of members.	Working capital.	Loans for productive purposes.	
				Number.	Amount.
(1)		(2)	(3)	(4)	(5)
			RS IN LAKHS.		RS. IN LAKHS.
1925–26	...	548,568	407·46	131,765	141·89
1926–27	...	612,220	500·00	148,600	143·98
1927–28	...	662,589	585·76	148,363	151·50
1928–29	...	690,681	629·19	156,110	164·69
1929–30	...	713,615	677·10	174,229	182·42

Year.		Loans for redemption of prior debts.		Loan for non-productive purposes.		Total loans.	
		Number.	Amount.	Number.	Amount.	Number.	Amount.
		(6)	(7)	(8)	(9)	(10)	(11)
			RS. IN LAKHS.		RS. IN LAKHS.		RS. IN LAKHS
1925–26	...	30,631	49·09	3.955	3·06	166,351	167·58
1926–27	...	46,077	89·34	3.388	3·25	198,065	286·57
1927–28	...	47,623	100·04	4,180	4·43	200,166	255·98
1928–29	...	37, 65	82·04	4,356	4·47	198,031	251·18
1929–30	...	26,052	71·77	5,279	6·61	172,944	260·80

It will be observed that loans for productive purposes rose from 65 to 70 per cent, while loans for the payment of prior debts fell from 32 to 27 per cent. There was, however, an increase of one per cent in loans given for non-productive purposes. This is mainly due to marriages which were performed in large numbers by certain classes of people to evade the provisions of the "Child Marriage Restraint Act, 1928."

Another noticeable feature is the preponderance of short-term loans issued during the year. They amounted to Rs. 164·87 lakhs out of the total amount of Rs. 260·80 lakhs disbursed, the percentages being 63 under short term and 37 under long term. The proportion of long-term loans outstanding against members is, however, still high, being 67 per cent of the amount outstanding. I am glad to see that the societies have begun to realize the advantages of developing their short-term transactions. The amount of loans due by agricultural societies to co-operative central banks was Rs. 499·29 lakhs, of which Rs. 145·11 was on short term and Rs. 354·18 on long term, while the amount due by members to these societies was Rs. 591·57 lakhs, of which Rs. 194·75 lakhs was on short term and Rs. 396·82 on long term.

Class (i).—Credit Societies.

Number of societies.

46. The number of agricultural credit societies increased from 12,382 to 12,540 representing an increase of 1·3 per cent, against 3·5 and 8·78 in the last two years.

Of these, 62 societies were on the limited liability basis including 27 land mortgage banks, 19 grain banks, 10 seed societies and 6 societies classified as agricultural banks. As in the previous years, the transactions of land mortgage banks are included under agricultural credit societies, but their magnitude is not such as to make any appreciable difference in the total transactions of credit societies. Separate figures relating to land mortgage banks have, however, been furnished in paragraph 18 of this report.

Members.

47. The number of members rose from 652,285 to 674,590. The progress in other respects is shown below :—

	1928-29. RS. IN LAKHS.	1929-30. RS. IN LAKHS.
Paid-up share capital ...	74·57	80·66
Deposits by members ...	9·38	9·72
Deposits by non-members...	21 81	21·98
Loans from financing banks and other societies.	461·91	494·70
Loans from Government.	10·32	10·21
Reserve fund	39·47	46·89
Working capital	617·46	664·16
Net profits	12·38	11·51

Expansion.

48. The expansion due to the formation of new societies during the year and the expansion during the year and the expansion due to consolidation and development of societies registered before the beginning of the year are shown below :—

Particulars.	Increase.	Accounted for by societies registered	
		During the year.	Before 1st July 1929.
Number of members	22,305	14,536	7,769
	RS.	RS.	RS.
Paid-up share capital	6,08,736	1,12,893	4,95,843
Deposits of individuals	50,112	9,864	40,748
Loans from financing banks	32,90,788	7,75,360	25,15,428
Reserve fund	7,42,277	...	7,42,277

Profits.

49. The total divisible profit earned by agricultural credit societies fell from Rs. 12·38 lakhs to Rs. 11·51 lakhs. Appendix No. 14, Statement B, shows that eleven districts have contributed to this fall and that in the districts of Ganjām, Coimbatore, Guntūr, South Kanara, Nellore, Rāmnād, Salem and Vizagapatam, there has been no appreciable increases in the profits. The total loss not yet recouped by societies on the last day of the year rose from Rs. 11·77 lakhs to Rs. 13·09 lakhs. These have been contributed by 45 per cent of the total number of agricultural credit societies, excluding 249 societies which had not started work in the year. Classified by districts, I find that all the districts except South Arcot, Chingleput, Chittoor, South Kanara, Kistna, Salem and Trichinopoly have contributed largely to the unrecouped loss. If, however, overdue interest were included in the profits, only 952 societies would have worked at a loss amounting to Rs. 34,610. Of these 952 societies, 199 societies, which started work during the year, were responsible for a loss of Rs. 3,535. The remaining loss, namely, Rs. 31,075, related to 753 old societies and the average loss per society comes to Rs. 56 as against Rs. 61 in the previous year.

Arrears.

50. A statement showing the percentage of balance to demand for the last five years is given below :—

Year.	Demand under principal in the year.	Amount overdue.	Percentage of columns (3) to (2).	Interest overdue at the end of the previous year.	Interest overdue at the end of the year out of the amount in column (5).	Percentage of columns (6) to (5).	Interest accrued and fallen due during the year.	Balance overdue at the end of the year out of the amount in column (8).	Percentage of columns (9) to (8).
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
	RS.	RS.		RS.	RS.		RS.	RS.	
1925-26 ...	2,33,56,966	1,07,79,319	46·15	19,45,249	10,47,861	53·87	36,82,186	14,77,600	38·28
1926-27 ...	2,65,62,889	1,21,29,503	45·66	25,04,015	13,49,203	53·88	39,77,837	16,44,556	41·34
1927-28 ...	3,16,74,033	1,35,57,516	42·81	30,17,311	17,22,276	57·08	47,84,582	17,55,731	36·70
1928-29 ...	3,61,11,759	1,47,72,904	40·90	35,08,540	19,32,795	55·08	55,98,868	19,99,231	35·70
1929-30 ...	3,79,72,250	1,76,23,841	47·00	38,00,155	22,47,313	59·00	58,45,372	23,35,395	39·00

Appendix 5, Section I, gives details of overdues by districts and the percentage of balance to demand under principal, arrear interest and current interest. Under long-term loans the arrears were below 30 per cent only in West Gōdāvari and Ganjām. In Kistna, South Kanara and Vizagapatam, the arrears were between 30 and 40 per cent. Under short-term loans the percentage of arrears is below 20 in West Gōdāvari and Trichinopoly and between 20 and 30 in Kistna, Ganjām, Guntūr, Tinnevelly, Madura, Chingleput, Nellore, Coimbatore and East Gōdāvari. The districts of Cuddapah, Anantapur, Kurnool, Chittoor, Nilgiris, South Arcot and Malabar continue to show very heavy overdues. Almost the same results are noticed in respect of arrears under interest and the districts which have made good collections under principal have also done fairly well under interest.

Collection work in unions.

51. In the last two years the names of unions which have kept the arrears under principal and interest below 12 and 10 per cent have been mentioned in this report. The number of such unions in 1927–28 was 18. It rose to 22 during last year, but in the year under report it has fallen to 11. It is regrettable that out of 405 supervising unions only eleven were able to show satisfactory results in collection. The names of the eleven unions are—

District.	Name of union.	Percentage of arrears.	
		Principal (average for short and long-term loans).	Current interest.
1. Ganjām	Bellagunta	8·25	7·77
2. Do.	Boirani	5·18	3·81
3. Do.	Jagannadhaprasad ..	5·83	2·87
4. Do.	Buguda	7·78	5·01
5. Do.	Surada	2·46	1·80
6. West Gōdāvari	Bhimavaram	3·70	8·94
7. Do.	Undi	4·83	5·88
8. Kistna	Gudlavalleru	5·30	5·10
9. South Kanara	Mangalore Town Union ...	9·08	2·92
10. Trichinopoly	Lalgudi	8·78	6·22
11. Do. ...	Karur, North	10·90	5·25

In the societies supervised by 183 unions, the percentage of overdue principal was more than 50 while in 138 unions the overdues under arrear interest was 60 per cent and in 200 unions the overdues under current interest was over 40 per cent.

In paragraph 56 of the last year's report certain unions were referred to as hardly justifying their existence. In the year under report I have had to liquidate the following 12 unions:—

Districts.		
1. Madras ...	...	1. Madras City Local Union.
		2. Public Servants' Union.
		3. Thousand Lights Union.
		4. Pudupet Union.
2. North Arcot ...	...	5. Tiruppattur Supervising Union.
		6. Natrampalli Union.
3. South Arcot ...	...	7. Ulundurpet Union.
		8. Panruti Union.
4. Chingleput ...	...	9. Satyavedu Union.
5. Ganjām ...	...	10. Sourpeta.
6. Madura ...	...	11. Nilakkottai.
7. Salem ...	...	12. Kodaivasal.

Many of the unions have not yet realized their responsibility in the matter of improving collections. They apparently forget that their indifference will produce the most disastrous results on the stability of the movement. The large extension of the co-operative movement during the last decade proceeded on the assumption that the local supervising unions would be able to undertake the efficient supervision of primary societies and, but for the confidence placed in the unions, it is improbable that such a large number of societies would have been registered, as it was obvious that the Government could not be expected to provide all the staff required for their supervision and audit at the expense of the general tax-payer. Although the best unions have rendered valuable service, the great majority of them have not done anything to justify this confidence. Unless there is a vast improvement in the situation the further growth of the movement will have to be curtailed considerably.

The following unions show very unsatisfactory results as the overdues under principal and interest in the societies affiliated to them are over 80 per cent.

Districts.	Name of unions.	Percentage of overdues.	
		Principal (average of short term and long terms loans).	Interest (average of current arrear).
Anantapur	Anantapur	87·57	80·95
	Tanakal	92·80	86·98
	Kambadur	96·45	88·62
	Shettur	94·77	80·42
Arcot, South	Ariyur	96·37	86·40
Cuddapah	Rayachoti	86·50	89·50
	Yerraguntla	93·50	88·10
	Khazipet	90·50	87·00
	Badvel	98·00	89·50
	Pulivendla	88·50	86·50
Kurnool	Dhone	81·41	85·80
Tanjore	Orattanad, South	91·00	82·75

Property statements and Liability registers.

52. The half-yearly inspection reports of central banks by the Deputy Registrars still show that adequate care is not taken to bring the property statements up to date and furnish copies to the central banks. I have repeatedly pointed out in my reviews that the central banks should insist on obtaining these statements promptly not only for societies which apply for loans, but also for all societies financed by them.

Class (ii).—Purchase, purchase and sale.

Progress.

53. The number of societies at the beginning of the year was 133 to which 6 were added during the year. The registration of eleven societies was cancelled leaving 128 at the end of the year. Of these, 73 were loan and sale societies. At the beginning of the year they had on hand goods to the value of Rs. 33,167 and they purchased in the year goods to the value of Rs. 3,53,109. They disposed of stock to the value of Rs. 3,56,670. The value of domestic or agricultural requirements purchased by the societies on behalf of the members was Rs. 1·76 lakhs. They sold, as agent, their members' goods to the value of Rs. 3·55 lakhs. The societies in Bellary, Vizagapatam, Kurnool, Trichinopoly and South Kanara are responsible for this. A sum of Rs. 8·27 lakhs was advanced by these societies on the pledge of produce or goods in 15 districts of which a sum of Rs. 7·43 was realized. A major portion of this sum has been contributed by the loan and sale societies in the districts of Coimbatore, Tinnevelly, Bellary, Anantapur and Tanjore. The amount of savings effected to members was Rs. 8,409. The transactions of a few loan and sale societies which have done good work are indicated below.

Loan and Sale Societies.

Transactions of a few loan and sale societies.

Name of district.	Name of society.	Produce dealt with.	Number of members.		Paid-up share-capital.	Borrowings from the central bank on the security of produce.	Repayments.	Advances to members. Class (iii).—Production.

54. There were no societies under this class.

Class (iv).—Production and sale.

55. One Milk Supply Society was registered in Chingleput district and there were 42 societies under this class consisting of 36 Milk Supply societies, 5 Industrial and Agricultural societies and one Egg Production Society. The working of Milk Supply societies has already been described in paragraph 30.

The five Agricultural and Industrial societies and the Egg Production Society in the districts of South Arcot, Coimbatore, South Kanara and Madura have practically done no work as will be seen from section II of Appendix No. 6. A brief description of their present condition is given below :—

The Kallakurchi Agricultural and Industrial Society in the South Arcot district has one main factory at Kallakurchi and two branches at Sankarapuram and Rishivandiyam. The society's main activities are rice hulling, sugarcanecrushing and groundnut shelling. It earned during the year a net profit of Rs. 1,334 as against Rs. 862 in the previous year. It applied for a loan under the State Aid to Industries Act for the purchase of an oil expeller, but it was advised to abandon the scheme for the extraction of oil and to concentrate on the more effective management of its existing lines of business. At this stage it is undersirable for the society to incur any more capital expenditure.

The Tindivanam Agricultural and Industrial Society in the same district has not been successful. Its chief activity is the production of bone-meal but the income derived is not even sufficient to pay the current working expenses. During the year it sold bone-meal to the value of Rs. 3,656. The total loss incurred by the society so far is Rs. 25,552. The whole of its capital is sunk in expensive machinery and buildings and it has not money for running the business. Private competition has set in and two private firms have been opened in the locality. There is no prospect of reviving the society and the question of cancelling its registration is under consideration.

The Pallapalaiyam Agricultural and Industrial Society in Coimbatore district has failed. The machinery, site and buildings have been sold and the liabilities have been discharged. The registration of the society will be cancelled shortly.

The Udipi Agricultural and Industrial Society turned out some work. The society installed a sugarcanecrushing plant and two mills for extracting coconut oil. It extracted 1,200 maunds of oil and 4,800 maunds of jaggery and the total value of raw materials converted into finished products was Rs. 16,800. The trading account showed a profit of Rs. 1,017, but owing to the heavy interest charges on the borrowed capital of Rs. 4,000 and the depreciation that had to be deducted on the plant, machinery and building it suffered a net loss of Rs. 1,492.

The Melur Agricultural and Industrial Society in Madura district and the Valarpuram Egg Production Society did not do any work.

Class (v).—Insurance Societies.

56. There were five cattle insurance societies at the end of the year of which one in Madras has not started work. The other four societies had 53 members, but no work was done by any of them.

Class (vi).—Other Forms.

57. At the beginning of the year there were 387 societies under this class. Eleven societies were registered, six were liquidated and one was transferred to another class, leaving 391 societies at the end of the year. These are distributed as shown below :—

1. Kudimaramat and irrigation.	17	8. Agricultural implements.	1
2. Agricultural demonstration.	17	9. Arbitration Unions.	1
3. Land reclamation.	11	10. Tenants and Field Labourers' societies.	335
4. Labour contract ..	4		
5 Landholders' lease societies.	2		
6. Salt licensee ...	1	Total ...	391
7. Building societies.	2		

A detailed description of the first four types of societies has been furnished in paragraphs 26, 27, 28 and 29 of the summary. The transactions of the Tenants and Field Labourers' societies are given in paragraph 64.

(d) *Non-Agricultural Societies.*

Class (i.)—Credit Societies.

58. The following table shows the general progress of the societies in this class :—

Progress.

		1928-29.	1929-30.
1. Number of societies	...	1,144	1,151
2 Number of members	...	209,682	221,475
		RS.	RS.
3. Paid-up share capital	...	63,78,576	70,15,966
4. Reserve fund ...	...	15,92,965	18,36,151
5. Deposits by members	...	59,43,630	65,52,641
6. Deposits by non-members.		74,24,419	80,48,129
7. Loans from Government held at the end of the year against Kallar and Depressed Class Societies.		3,534	3,295
8. Loans from Central Banks and other societies at the end of the year.		26,35,799	31,16,494
9. Working capital ...	...	2,39,78,923	2,65,72,676
10. Divisible profit ...	...	9,07,206	9,76,177
		Percentage.	
Arrears—			
Principal	...	17·7	19·2
Interest	...	21·5	22·8

The 1,151 societies can be further classified as follows :—

Government servants	228
Municipal employees superior	52
Do. inferior	44
Local Boards and Railway employees ...	16
Factory employees	11
Thrift societies	128
Other urban societies	672
Total ...	1,151

Out of the 44 municipal inferior employees societies, 19 purchased and distributed during the year cloth and food-stuffs to the value of Rs. 48,562 and the savings effected by members in this way amounted to Rs. 784. The 128 thrift societies are distributed, 121 in South Kanara, 3 in Kurnool, 3 in Madras and 1 in Gōdāvari, East. The 121 societies in South Kanara have always been classified as thrift societies,

but this is not quite correct, inasmuch as they do not confine their transactions purely to the collection of savings but also lend money to members. Their paid-up share capital was Rs. 39,496 and their deposits consisting of fixed, recurring, current, savings and provident funds amounted to Rs. 14,749.

The non-agricultural societies have made comparatively better progress than agricultural societies. The proportion of borrowings from central banks to the entire working capital which was being steadily reduced during the last four years has risen by ·71 per cent in the year under report. This is probably due to the tightness in the money market. I hope that, by affording facilities to open savings banks accounts, every possible effort will be made to encourage the thrift habit in members.

59. The increase during the year on account of (1) the formation of new societies in the year, and (2) the development of societies registered before the year is as follows :—

Expansion.

Particulars.		Total increase or decrease.	Accounted for by societies registered	
			During the year 1929-30.	Before 1st July 1929.
Number of members	No.	11,793	2,094	9,699
Paid-up share capital	Rs.	6,87,390	25,568	6,11,822
Deposits by individuals ...	,,	12,82,721	7,202	12,25,519
Loans from Central Banks ...	,,	4,80,695	45,973	4,34,722
Reserve fund	,,	2,43,186	...	2,43,186

The increase for which new societies are responsible is small.

60. The loans granted by the non-agricultural societies of all classes in 1929-30 amounted to Rs. 2,15,49,378, and are reported to have been for the following purposes :—

Loans.

		RS.
Productive purposes.	1. For trade	34,84,319
	2. For cultivation, improvement and purchase of land.	13,77,712
	3. For payment of kist	66,621
	4. For education	2,71,268
	5. For house building	18,56,795
	6. For manufacture and purchase of carts.	33,935
	7. For food and necessaries of life ...	44,48,236
	8. For purchase of raw materials ...	1,44,660

		Rs.
Non-productive purposes.	9. Paying prior debts	69,40,779
	10. Marriage ceremonies and other non-productive purposes.	29,25,053
	Total ...	2,15,49,378

The size of these loans is indicated by the following figures:—

	No.	RS.
Loans up to Rs. 50 each ...	88,213	22,73,994
Loans from Rs. 51 up to Rs. 100 each.	37,366	31,53,806
Loans from Rs. 101 to Rs. 250 each.	27,711	47,55,756
Loans over Rs. 250 ...	19,654	1,13,65,822
Total ...	172,944	2,15,49,378

In non-agricultural credit societies alone, loans were disbursed to the extent of Rs. 72,38,071 under short term and Rs. 1,34,71,473 under long term. Out of 1,151 societies, only 187 worked at a loss of Rs. 80,072. The remaining societies earned a divisible profit of Rs. 9,76,177.

Fluid resources.

61. The number of banks which had more than Rs. 20,000 as deposits and which had to maintain fluid resources ranged between 110 and 113. A quarterly review is being issued on this matter which showed that only one failed to maintain the required standard in all the four quarters, ten in three quarters, eleven in two quarters and 16 in one quarter. It is regrettable that the Guntūr Urban Bank, the Ambasamudram, the Nanguneri Peace Memorial Co-operative societies and the Nellore Co-operative Society failed in this respect.

Classes (ii), (iii) and (iv)—Societies for purchase, purchase and sale, production, production and sale.

62. The most important among these classes of societies are the stores, trading unions and the school and college societies. There are also societies for several other miscellaneous purposes. The total number of societies under

these classes is 262 and they may be further classified as follows:—

Stores and Trading unions	93
School and College stores...	73
Weavers' societies	39
Coir workers' societies	11
Fishermen societies	9
Milk supply societies in Madras	8
Khaddar cloth stores	7
Miscellaneous	22
Total ...	262

The transactions of these societies are exhibited in Sections I, II, III A and B of Appendix No. 8. The societies classed as purchase, purchase and sale societies bought goods to the value of Rs. 22·53 lakhs which together with the value of goods on hand at the beginning of the year amounted to Rs. 25·37 lakhs. Of these, sales were effected to the value of Rs. 24·38 lakhs. The Triplicane Urban Co-operative Stores alone contributed sales to the extent of Rs. 11·69 lakhs. It had 25 branches in the city. The working capital of these societies rose from Rs. 6·80 lakhs to Rs. 7·53 lakhs. The net profits fell from Rs. 53,850 to Rs. 48,843. A number of societies in 16 districts has also worked at a loss of Rs. 33.662.

Out of the 39 societies exclusively for weavers nearly half the number are dormant and have done practically no work. The others purchased raw materials to the value of Rs. 21,972 and distributed them to the members. The value of finished products sold to the public was Rs. 23,529. The total profit earned by the societies which worked at a profit was Rs. 3,009 and the total loss incurred by others was Rs. 5,852. Section III-C of Appendix VIII shows the transactions of 95 credit societies in which weavers form more than 60 per cent of the members. The transactions of Milk Supply Societies have been dealt with in paragraph 30. Of the two salt production and licencees' societies, one in Tanjore manufactured salt worth Rs. 6,539, sold it for Rs. 7,720 and earned a net profit of Rs. 673. The Andhra Co-operative Ayurvedic Pharmacy in Amalapuram earned a net profit of Rs. 1,003, its total purchases and sales amounting to Rs. 4.591 and Rs. 2,690 respectively. The Calicut Cottage Industries Society working for the benefit of middle class women confined its activities to the manufacture and sale of envelopes. Paper worth Rs. 790 was purchased for the manufacture of envelopes while the sale proceeds amounted to Rs. 204 and the value of stock on hand was Rs. 877. The other societies have not done any work worth the name.

Class vi—Other Forms.

63. The number of societies of this class fell from 245 to 236. Of these 236, 145 were building societies. There were 4,191 members with a paid-up share capital of Rs. 10,71,924. The total amount of Government loans outstanding increased from Rs. 22·09 lakhs to Rs. 24·02 lakhs. A sum of Rs. 7,016 under principal and Rs. 6,732 under interest was overdue at the end of the year as against Rs. 13,570 and Rs. 7,650 respectively last year. The overdues have been contributed by the societies in the districts of Kistna, Ganjām, Vizagapatam, Guntūr, South Arcot, Cuddapah, South Kanara, Tanjore and Malabar, though in the last case, the amount was negligible. The same districts and Gōdāvari West contribute to the overdues also under interest. A sum of Rs. 34·83 lakhs under principal was outstanding against members of which the members' own share capital to the extent of Rs. 10·72 lakhs has been lent to them. Of the sum of Rs. 34·83 lakhs, 5·19 lakhs fell due during the year. The collections amounted to Rs. 2·53 lakhs, the overdue balance being Rs. 2·66 lakhs. Under interest, against a demand of Rs. 3·29 lakhs, a sum of Rs. 2·23 lakhs was collected, the balance being Rs. 1·06 lakhs. A monthly review is now being issued and prompt steps are being taken to refer very bad cases of overdues to arbitration and to bring the houses to sale. The grant of loans has also been restricted to specially deserving cases and where houses are proposed to be built in new areas requiring development and not in isolated tracts. This has been found necessary to facilitate frequent inspections by the Board of Directors who find it more convenient to inspect and value the houses situated in compact areas. The construction of 1,398 houses was completed to the value of Rs. 41·92 lakhs while 223 houses were under construction to the value of Rs. 4·31 lakhs.

Excluding the building societies the remaining 91 societies are classified as follows :—

1. Labour contract societies and Forest Coupe societies	55
2. Societies for purchase of house sites ...	4
3. Printing societies...	4
4. Fishermen societies	21
5. Benefit fund societies	2
6. Cattle breeding societies	2
7. Electric supply society	1
8. Bell metal and brass metal workers ...	2
Total ...	91

An account of some of these societies has already been given in the general summary.

Printing societies.

The number of printing societies fell from six to four owing to the liquidation of two societies in Rāmnād and South Kanara as these had been working at a loss for a series of years. The transactions in these societies were as follows :—

	1929-30.
	RS.
1. Paid-up share capital	30,517
2. Reserve Fund ...	8,387
3. Borrowed capital	17,707
4. Estimated cost of machinery	33,865
5. Printing, binding and other charges incurred in the year	46,503
6. Value of books and forms sold	27,858
7. Value of books and forms on hand at the end of the year	4,052
8. Net profit	4,016

Only one society in Ganjām worked at a loss of Rs. 1,408 as it was unable to secure sufficient work.

Of the 21 fishermen societies, the Trichinopoly Muhammadan fish lease society secured fish contracts for the official year in the Cauvery and Coleroon for the value of Rs. 8,577. The catch was disposed of for Rs. 10,177 to the end of co-operative year. The society, however, sustained a loss of Rs. 692. The Prathikōlanka Fishermen Society in the West Gōdāvari district purchased an oil engine for Rs. 5,000 for irrigating the lanka lands leased by Government. The two benefit fund societies worked at a profit. There have been several applications for the registration of new benefit funds but I have refused registration as I am convinced that they are not sound business propositions. The two cattle breeding societies in the districts of Rāmnād and Chittoor and the Electric Supply Society in Conjeeveram have since the close of the year been liquidated.

The bell metal and brass workers societies in Cuddapah are reported to be mismanaged and the work is at a stand still. The Salt Loaders' Society in Madras executed work to the value of Rs. 9,018 and made a profit of Rs. 943 in the year. The others have not done any appreciable work.

IV.—Societies for Depressed and Backward Classes—Fishermen and Hill-tribes.

64. The number of societies composed wholly or mainly of Adi-Dravidas or Adi-Andhras or Fishermen was 3,054 at the end of the year as against 3,090 at the beginning. The fall is due to the liquidation of societies which had been dormant for a number of years. Of the 3 054 societies, 879 were in charge of the Co-operative Department, 1,781 in charge of the Labour Department, 354 in charge of the Special Kallar Officers at Madura and Tanjore and 40 under the direct supervision of the Fisheries Department. The transactions of the societies in charge of the Co-operative and Labour Departments are given below :—

	1929-30. Co-operative Department.	In charge of the Labour Department.	Kalar Special officers.
Number of societies ...	879	1,781	354
Number of members ...	37,122	75,263	33,850
	RS.	RS.	RS.
Paid-up share capital ...	3,22,035	4,16,280	1,09,985
Deposits of members ...	34,116	33,816	523
Loans from central banks and deposits of non-members	7,21,396	3,13,585	9
Loans from Government ...	2,787	2,68,681	7,25,247
Reserve Fund	1,70,095	1,22,986	58,799
Working capital	12,50,429	11,55,388	8,94,563
Divisible profit	44,417	37,010	16,132

A sum of Rs. 454 was overdue by the societies in charge of the Co-operative Department at the beginning of the year in respect of loans taken from the Government, but it is gratifying to see that not only was this paid off in the year, but there was nothing overdue at the end of the year.

The societies in charge of the Labour Department and the Kallar Special Officers were in arrears to Government, the percentage of balance to demand being 3 and 15 respectively.

In consultation with the Commissioner of Labour, the new District Labour officers were given six weeks' training in co-operative work to enable them to control the work of the special inspectors working under them and to take an intelligent interest in the working of the societies.

The societies for Fishermen in Malabar of which there were 40, were under the control of the Fisheries Department, two inspectors having been sanctioned to work under that department. There were 1,743 members with a paid-up share capital of Rs. 37,524. They raised as loans Rs. 6,512 from the Central Bank and Rs. 800 from Government and they had a reserve fund of Rs. 16,446. Of these 40 societies, five were for non-credit activities. Two of these at Blangad and Palapatti in the Ponnani taluk were financed by Government for the purchase of boats and nets, but they suffered on account of a bad fishing season. The others were for the joint purchase and sale of fish at Tellicherry, Madapalli and Maladi in the North Malabar. The one at Maladi did not do any work. The other two purchased fish worth Rs. 8,730, cured and sold it for Rs. 8,794.

Societies for hill tribes.

65. There were 98 societies at the end of the year of which 15 were in the Ganjām, Vizagapatam and Gōdāvari agencies, 64 in the Nilgiris, 14 in Salem, 3 in Kurnool and 2 in North Arcot. The societies in the Agency purchased as owners the requirements of their members to the extent of Rs. 19,278 as against Rs. 13,116 in the previous year. The sales amounted to Rs 17,783 as against Rs. 13,908 in the previous year. These societies were started with the objects of enabling the hillmen to get a better price for their produce, to purchase their agricultural and domestic requirements jointly and to provide credit facilities. Only the last of these objects has been fulfilled. The 64 societies on the Nilgiris were composed of 1,902 Badagas, 716 Todas and 51 Kotas. In spite of the efforts of the departmental and non-official staff during the last five years, there has not been much improvement in the condition of these societies. Many of them are dormant and only a third of them borrowed Rs. 67,298 during the year under report. There are very heavy arrears due from members. The very slow progress of collections is attributed to the general depression in tea, coffee and potatoes. Various attempts were made in the past four years to

increase the income of the Badagas by providing them with new subsidiary occupations such as poultry farming, silk-worm rearing, bee-keeping and sheep-breeding. These have produced very little result. The occupation that found most favour with them was the growing of tea, but even in this there was a set back owing to the considerable fall in the price of tea. The Badagas, however, find employment as labourers under the Public Works Department and the local bodies and obtain decent wages; but owing to their un-thrifty habits they are unable to make any saving.

Badaga Land Mortgage Bank.

66. The Badaga Land Mortgage Bank referred to in paragraph 75 of the last year's report began to function in January last, when the Special Deputy Tahsildar reported himself for duty. Forty-three members were admitted, but only one loan to the value of Rs. 400 was disbursed by June 1930. Until very recently, the lands of the Badagas had been valueless and the Badagas did not hold any proper title to them. The immemorial custom among the Badagas to cultivate and to own lands jointly without subdivision still continued. It is only during the past five years since the market for tea improved that some competition has set in for lands of the Badagas and single pattas are now available, but only in cases where tea and coffee have been grown in recent years. For these reasons a very large number of applications scrutinized by the Deputy Tahsildar had to be rejected both by the legal adviser and the Board.

Out of the sum of Rs. 50,000 provided by Government for sanctioning loans to the members of this bank in 1930-31, a sum of Rs. 35,000 has already been surrendered as there is no prospect of sanctioning loans on a large scale. The Bank is also handicapped for want of sufficient money for working expenses. Proposals have therefore been submitted to the Government for a grant to meet its expend-iture.

Toda societies.

67. The Toda society to which reference was made in the last year's report continued to work under the guidance and supervision of the Collector of the district. An inspector of the Co-opera-tive Department was in charge of the society. For want of sufficient capital, the Todas could not largely extend their cultivation of potatoes. They raised Rs. 4,023 worth of potatoes this year as against Rs. 9,270 in the previous year. The fall in the outturn is attributed to some extent to the

partial failure of the south-west monsoon and also to the fall in prices. The Toda buffaloes suffered a heavy morta-lity by rinderpest and hence they did not produce any substantial quantities of ghee. The Government have quite recently sanctioned a free grant of Rs. 2,000 and a loan of Rs. 5,000 to this society in the hope of extending and developing its usefulness.

Joint cultivation of lands.

68. The number of societies which took up joint and individual cultivation by members was 842 with a membership of 48,931. The total extent of land in the enjoyment of members at the end of the year was 40,831 acres. A sum of Rs. 88,386 was collected from members out of which Rs. 8,075 was paid to owners for the lease taken. Only the societies in the districts of East and West Gōdāvari, Kistna and Tanjore can be said to have done some work. To ameliorate the condition of the depressed classes members in the Lanka lease-taking societies in the East Gōdāvari, the Christian Central Bank has been working at an intensive scheme to finance the members, secure their produce and sell it in favourable markets. The experiment is being tried in a compact area in and round Peravaram.

The societies in the Kistna district had 22,324 acres of land acquired from Government. A sum of Rs. 12,482 was collected from members as lease amount from lands of which Rs. 5,835 was paid to Government towards land revenue.

V.—Reserve Fund.

Reserve fund.

69. Appendix 1, section 1, shows the growth of the reserve fund held by societies of all classes. The amount held at the end of the year was Rs. 98·51 lakhs against Rs. 84·28 lakhs in the previous year, but if the contributions to reserve fund on account of 1929-30 are also taken into account, the total reserve fund will amount to Rs. 110·95 lakhs as shown below:—

	RS. LAKHS
Madras Central Urban Bank ...	10·22
District Central banks	22·46
Agricultural societies	54·12
Non-agricultural societies	24·15
Total ...	110·95

According to the audit orders for 1928–29, the agricultural and non-agricultural societies should have invested Rs. 68·85 lakhs but only Rs. 54·74 lakhs were actually invested leaving a balance of Rs. 14·11 lakhs.

The Madras Central Urban Bank has invested the entire amount of its reserve fund in Government securities. The central banks have invested their reserve fund in the Provincial Bank while the agricultural and non-agricultural societies have invested their reserve funds in the Central banks. Distributive societies alone are permitted in special cases to utilize their reserve funds in their working capital. In the year under report, rules under the Act were amended permitting well-conducted primary societies to utilize in their business a portion of their reserve after it had reached a certain proportion of their working capital. Thrift societies which have for their main object the accumulation of their members' savings are not required to set apart any portion of their profits towards reserve fund. The recommendations of the Townsend Committee that central banks and primary societies should be encouraged to invest their reserve funds in redeemable Government securities were considered by Government but orders were issued that primary societies may continue to invest their reserve fund in the central banks which finance them.

VI.—Resources.

70. The statement below shows the sources from which the societies of each class derive their funds:—

Types of societies.	Total working capital.	Percentage of total working capital derived from					
		Share capital.	Deposits.	Loans from other societies.	Government.	Reserve fund.	Total.
	RS.						
Provincial— Madras Central Urban Bank.	179·26	0·01	56·29	31·51	...	3·19	100
District Central banks	627·18	3·46	43·53	47·65	...	5·36	100
Agricultural societies .	677·10	12·52	4·77	73·78	1·89	7·04	100
Non-agricultural societies ...	814·49	27·18	47·66	11·02	7·40	6·74	100

The percentage of total working capital derived from deposits has fallen under all classes and appreciably so in district central banks which have to a larger extent depended for their finance on loans from Provincial Bank.

VII.—Supervision Fund.

71. The total demand of supervision fund due by societies of all classes including arrears was Rs. 4·54 lakhs of which only Rs. 2·95 lakhs were collected leaving a balance of Rs. 1·59 lakhs. The districts in which collections have been very unsatisfactory, the percentage of balance to demand being more than 50 are Gōdāvari, East and West, Kistna in the Circars, Tanjore and South Arcot in the South, Chittoor, Bellary, Cuddapah and Kurnool in the Ceded districts and the Nilgiris. Vigorous efforts are necessary in these districts to collect the arrears. The receipts on account of affiliation and delegation fees and supervision fund contributed by societies and central banks besides the special grants given by some central banks for supervision amounted in all to Rs. 14·56 lakhs, while the charges incurred on the maintenance of the non-official staff and in running the supervising institutions was Rs. 13·40 lakhs of which only Rs. 7·56 lakhs was spent on the staff of 626 supervisors. While the percentage of Government expenditure to the total working capital involved in the movement was ·56, the percentage of expenditure by the non-official institutions to the working capital of the societies supervised by them was ·93 (Statement D).

VIII.—Disputes, Civil Suits and Decrees.

72. In the agricultural societies, 5,873 references under arbitration rules and 274 suits were pending disposal at the beginning of the year, while 20,095 references and 990 suits were filed during the year. In 2,137 cases the claims were satisfied before decree and in 17,399 cases decrees were passed leaving a balance of 7,696 cases pending disposal. It has been found that the percentage of cases disposed of by arbitrators to the number received for disposal is the same as for Civil Courts. This is not very satisfactory. The amount involved in suits and decrees was Rs. 64·70 lakhs, while the amount of overdues by members to agricultural societies under principal was Rs. 177·53 lakhs. The amount of arrears involved in suits, references and decrees is only 36 per cent of the overdues. It will be the duty of the special

staff employed on rectification work to induce societies to take action in all cases in which the arrears cannot be realized by persuasion.

In the non-agricultural societies, the total number of cases for disposal by arbitrators and Civil Courts was 8,176, of which in 929 cases the claims were satisfied before decree while in 5,226 cases decrees were passed. Four thousand nine hundred and forty-four cases were disposed of by honorary arbitrators. The number of cases pending disposal by arbitrators and Civil Courts was 1,879 and 142 respectively, the amounts involved being Rs. 3·54 lakhs in the former and Rs. 16,166 in the latter. The total amount involved in claims pending execution at the end of the year was Rs. 15·11 lakhs, while the overdues from members to non-agricultural societies amounted to Rs. 44·43 lakhs. The proportion of amounts covered by references, suits and decrees to the amount of overdues is 41 per cent as against 36 in agricultural societies.

An examination of the statistics relating to collections shows that village panchayat courts were utilized by societies for the execution of decrees to the extent of 35 per cent. The register of immovable properties maintained by societies to record the particulars of immovable properties purchased by societies in auction shows that in 481 out of 7,978 cases executed during the year, properties worth Rs. 1,58,369 were purchased against a sum of Rs. 1,58,048 due to the societies. The income realized from these properties was Rs. 5,128 while the expenses incurred on their account amounted to Rs. 3,442.

IX.—Liquidation.

73. There has been considerable activity in the matter of dissolving bad and dormant societies during the year under report and 383 societies were dissolved. These include 296 agricultural societies, 73 non-agricultural societies, 13 unions and one district federation. The registration of 68 societies more has been cancelled but in their case the orders have taken effect only after the close of the year. The affairs of 129 societies were closed and there were on 30th June 1930, 612 societies undergoing liquidation. Strenuous efforts were made for the recovery of the outstanding assets at least sufficient to discharge the liabilities due to the financing banks and other outside creditors and to bring about final closing of these societies. Now that central banks have their own field staff they are being requested to take all possible steps to collect their dues before the registration of the society is cancelled. This is necessary to lessen the pressure of liquidation work as the staff available for the work is very limited.

In 111 societies the loans due from members were written off to the extent of Rs. 28,752. In 25 of these 111 societies, the societies' liabilities exceeded their assets by Rs. 43,226. Except in the case of the Madras Central Urban Bank outside creditors did not suffer but the members lost their share capital. Unlimited liability was enforced in some other cases and contribution orders were passed for Rs. 16,698 out of which only Rs. 1,930 was realized. There were surplus assets in 30 societies after the final proceedings had been closed and a sum of Rs. 16,509 was thus set free for charitable purposes. The progress of liquidation proceedings is being reviewed monthly and a consolidated quarterly review is also made. The Deputy Registrars are striving hard to expedite collections in the liquidated societies and to close their affairs. The accounts maintained by liquidators (Deputy Registrars and Sub-Deputy Registrars) are being audited once a year, usually by the Senior Inspector of the district, and a report is submitted to me in the prescribed form. Of the 612 societies on the last day of the year, the audit of 275 was completed at the time of writing this report and the reports have been reviewed by me in all cases.

The total assets of societies under liquidation was Rs. 20 lakhs of which 1·15 lakhs was on hand at the end of the year. The total liabilities amount to Rs. 12·02 lakhs of which Rs. 6·91 lakhs are due to central banks and the balance to others. I have collected particulars of the outstanding arrears in societies, the registration of which was cancelled over 5 years ago and find that there are 86 such societies with a sum of Rs. 3·39 lakhs pending collection. On the date of liquidation these societies owed a sum of Rs. 3·57 lakhs to their creditors and during the last 5 years a sum of Rs. 2·62 lakhs has been paid off leaving a balance of Rs. 96,000. The amount due from members of these societies on the date of liquidation was 3·99 lakhs. A sum of Rs. 3·35 lakhs has been collected since liquidation and including amounts accrued since the date of liquidation there is a balance of Rs. 3·39 lakhs pending collection. These particulars do not indicate any alarming state of affairs and probably most of the outstanding arrears will be realized in course of time but the process of realizing them is tedious and difficult.

X.—AUDIT.

74. Audit is conducted by Government Inspectors appointed at the standard rate of one for 60 societies, by certified public accountants and auditors approved by the Registrar under Section 17 of the Act, by Government Inspectors deputed for work under Audit Unions and audit schemes in which definite contributions from societies are received. There were 278 Government Inspectors for audit of whom 26 were Senior Inspectors. The audit of 12 societies is being done by certified auditors. There were 12 audit unions which undertook the audit of 10) societies. The audit of 67 societies included in the audit schemes in the Madras City and Salem is done by Government Inspectors whose pay and allowances are met from contributions collected from the societies. The total amount of contributions levied is Rs. 8,300 and a staff of 3 Senior Inspectors and 3 Junior Inspectors are employed on this work. A sum of Rs. 1,636 was levied as audit fees from other societies out of which Rs. 780 was realized and remitted into the treasury.

The audit of all societies except nine was completed before the close of the year. In regard to the remaining nine societies the account books of five were in Courts in connexion with criminal prosecutions while four were under liquidation. There was delay in the audit of one society in Madras by a private auditor and in another case in South Kanara the office bearers caused delay by evading the production of books. Audit certificates were issued promptly except in a few cases. The figures furnished in the Administration Report are the audited figures for 5,151 societies out of 14,893 for audit on the last day of the year under report. Last year the figure was 4,959. The interim and super audit of societies, to which reference has been made in paragraph 64 of the last year's report, were completed or nearly completed in all the districts except in the districts of Kurnool, South Kanara, Malabar, Cuddapah and Madras in which the arrears ranged between 2 to 6 per cent. A test audit of the audit done by the departmental inspectors was conducted for nearly four per cent of the societies audited.

The practice of holding periodical meetings of inspectors to discuss audit arrangements has been referred to in the reports of the last two years. In the year under report, Government ordered that departmental conferences should not be summoned except with the previous sanction of Government. The necessity for holding four meetings of inspectors to draw up suitable programmes for audit was therefore examined and instructions were issued to discontinue the meetings and to direct the auditors themselves to submit audit programmes once a quarter.

In the course of my tours I observed that very little use was being made of the audit reports which, generally, bring to light all defects in the working of a society. To make the best use of these reports and to concentrate attention on rectification work I have issued instructions that Inspectors should immediately, after audit, write in English on a separate sheet of paper a brief summary of the defects discovered during audit and that the Deputy Registrars should at once communicate a copy of the summary to the banks and federations for necessary action.

XI.—ACT, RULES AND BY-LAWS.

75. In accordance with the recommendations of the Townsend Committee the Government amended rule X so as to provide that when the Reserve Fund of a society exceeds 20 per cent of its working capital the excess may, with the sanction of the Registrar, be used in its own business. Rule VIII-D regarding the levy of fees for audit was amended making it compulsory that societies consisting of more than one thousand members or the transactions of which exceed one lakh of rupees should pay fees for the audit of their accounts if it is done by the Government staff. The bill to amend the Co-operative Societies Act has not yet been introduced in the Legislative Council.

The Madras Co-operative Manual written in 1921 by the late Mr. Hemingway was revised by Mr. Hood and published in August last. The Manual is now published in two volumes, the first part describing the working of the various classes of societies and the second containing the Act, Rules model by-laws and forms. Mr. C. Narayanan Nayar, my Personal Assistant, has rendered much assistance in revising the Manual.

XII.—MISCELLANEOUS.

Conferences.

76. The 18th Provincial Co-operative Conference was held in April 1930 under the Presidency of Professor V. J. Kale of the Fergusson College, Poona. More than 500 delegates were present and many of them took an active part in the deliberations. The Triplicane Urban Co-operative Stores opened a temporary branch of the Stores to give an ocular demonstration of its success in Madras. Magic lantern slides were exhibited to illustrate the benefits of co-operation. The Agricultural and the Industrial Departments also co-operated by exhibiting their various implements and improved methods. Along with the Provincial Conference, a conference of representatives of Building Societies was held under the Presidency of Mr. V. Ramadas Pantulu. There were two departmental conferences of Deputy Registrars in July and November 1929 and 8 District Conferences besides a large number of business conferences by Central Banks, Federations and Unions.

Honours.

77. The Government were pleased to confer the title of Rao Bahadur on M.R.Ry. Rao Sahib O. N. Ramaswami Ayyar Avargal, Deputy Registrar and the title of Rao Sahib on M.R.Ry. R. Ayyakutti Ayyangar Avargal, Vice-President of the Kurnool District Co-operative Bank.

Staff.

78. In regard to recruitment and training of Junior and Senior Inspectors, the Government have ordered that a candidate for appointment as Junior Inspector should in addition to the minimum educational qualifications possess a complete certificate issued by the co-operative training institutes and that a candidate recruited direct as Senior Inspector should hold a complete certificate issued by the Government Institute of Commerce, Madras. As there are many men with high educational qualifications among the Junior Inspectors, I have not considered it desirable to make any direct recruitment as Senior Inspectors.

The shortened period of training given to the new Deputy Registrars has been found sufficient and to the best of my belief they have all filled their posts satisfactorily. The circle charges are now of more manageable dimensions and all Deputy Registrars have responded loyally to my efforts to improve the state of the offices. Special attention has been given to audit and liquidation work and I

believe non-official bodies are now receiving replies more promptly. I have been particularly grateful for the wide experience and sound judgment of the Joint Registrar M.R.Ry. Rao Bahadur K. Deivasikhamani Mudaliyar Avargal.

I regret to record the death of Dr. S. Swaminathan, the first nominated President of the Central Land Mortgage Bank and President of the Provincial Bank for 5 years and also of two Sub-Deputy Registrars Messrs. T. Ramachandra Rao and M. Rajagopala Ayyangar. The death of Dr. Swaminathan was a serious loss to the movement.

There are 52 officers of the department on deputation in foreign service of whom 2 are Sub-Deputy Registrars, 8 Senior Inspectors and 42 Junior Inspectors. They are employed by 15 Central Banks, 16 Federations, 10 Audit Unions and 11 other miscellaneous institutions. Since the co-operative training institutes came into existence, there has been an ample supply of trained candidates for employment under co-operative institutions. A large number of these trained men are being employed but in a few cases the co-operative institutions desire to employ departmental men for various reasons. I am, however, drawing the attention of the non-official institutions to the desirability of appointing trained non-officials in preference to departmental men.

A batch of seven organising and auditing Inspectors from Ceylon underwent training in co-operative work in this Presidency.

Mr. L. D. Gammans of the Malayan Civil Service, the Director of Co-operation in the Straits Settlements and Federated Malay States visited Madras in February 1930 and investigated co-operative matters in this Province.

Libraries.

79. A sum of Rs. 3,350 was distributed by Government for the maintenance of public libraries to 22 co-operative institutions of which 5 were Central Banks, 8 Federations, 2 co-operative training institutes, 3 supervising unions and the remaining 4 credit societies.

Registration Department.

80. Instances of abuse of privilege of obtaining encumbrance certificates free are frequently brought to my notice by the Registration Officers and strict instructions have therefore been issued to societies warning them that persistence of the abuse of the privileges given is likely to result in the abolition or curtailment of the concessions.

Triplicane Urban Stores.

81. His Excellency Sir Frederick Stanley laid the foundation stone of the Silver Jubilee Hall at the premises of the Triplicane Urban Co-operative Stores in commemoration of the Silver Jubilee of the Stores.

Attitude of the Public.

82. Relations between officials and non-officials have been perfectly cordial and I personally wish to thank the leaders of the movement throughout the Presidency for their unfailing courtesy and for the trouble they have taken to make my tours easy and pleasant.

I have the honour to be,
Sir,
Your most obedient servant,

D. N. STRATHIE,
Registrar.

APPENDICES.

APPENDIX No. 1.—*General Summary of Progress of Co-operative Societies in 1929–30.*

SECTION I.—WORKING CAPITAL OF SOCIETIES ON 30TH JUNE 1930.

—	The Madras Central Co-operative Land Mortgage Bank (1).	Provincial Bank (1).	Central Banks (31).	Supervising unions (450).*	Agricultural societies. Credit (12,540).	Agricultural societies. APPENDIX No. 5—SECTION II (a) AND (b)—*Classification of Societies*—1929–30.

District.	Societies which are good in their working and do not depend on outside agency for help except for final audit. A	Societies which are able to manage their affairs themselves and which can afford to have a few defaulters and where accounts need not be faultless. B	All other societies that do not come under class D. C	Bad societies which will be cancelled should they fail to come under class C within two years. D	Total.	Number of societies in which collections of principal to demand by members were: 95 per cent. I	70 per cent. II	55 per cent. III	40 per cent. IV	Below 40 per cent. V	Dormant societies which have not given any loans in the last 12 months. VI	Societies in which no loans have yet fallen due. VII	Total.
