REVENUE DEPARTMENT

G.O. No. 683, 23rd March 1932

Jamabandi report—Fasli 1340 (1930-31)—Recorded

READ—the following paper :—

Proceedings of the Board of Revenue (Land Revenue and Settlement),
No. 104, dated the 21st December 1931.

Order—No. 683, Revenue, dated 23rd March 1932.

Recorded.

2. The season was fairly satisfactory except in the areas affected by floods and cyclones. There was an increase in holdings and assessment over the figures for the previous fasli but the area cultivated fell by 34,516 acres.

3. There was a net increase of Rs. 7,66,184 under remission. The increase was mainly due to the increase in 'seasonal remissions' specially in Tanjore.

4. The net ryotwari demand for the fasli was Rs. 694.93 lakhs and was Rs. 8.89 lakhs less than that for the previous fasli. The decrease under 'remissions' and a decrease under 'miscellaneous revenue' account for this fall. The percentage of collection was 98.15 against 99.27 in the previous fasli.

5. There was a large increase in the number of processes of each kind issued for the recovery of revenue. The increase is ascribed to economic depression and the fall in the prices of food crops.

(By order of the Governor in Council)

J. A. THORNE,
Secretary to Government.

Resolution—No. 104, Press, dated 21st December 1931.

The Board submits its report on the settlement of Land Revenue in the Madras Presidency for fasli 1340 (1930-31) together with the prescribed statements.

2. *Character of the season.*—The south-west monsoon set in about the middle of June. Under the influence of a depression on the Orissa-Ganjam Coast towards the end of the month the monsoon caused widespread and locally heavy rains on the north Madras coast on the last two days of the month. Outside the West Coast the rainfall in the month was generally above the average. It was feeble during July and August. About the second week of September, however, a depression formed in the Bay resulting in a fair amount of rain throughout the Presidency, although the rainfall was generally below the average except in Ganjam, Tinnevely, and the West Coast. On the whole the monsoon was generally below the average. The north-east monsoon began early in October and gave a copious rainfall throughout the month. A depression in the south-west of the Bay developed into a storm on the Coromandel coast by the 23rd of the month. The storm crossed the coast near Negapatam on the 24th October and, weakening into a depression, passed out into the Arabian Sea by the 26th causing extensive and, in some places, unprecedentedly heavy rainfall on its course. The result was that the Cauvery and its tributaries were in floods, roads, railway bridges and crops, especially in Tanjore and Trichinopoly, were damaged and communications between the south and the rest of the Presidency were cut off for about a week. The monsoon was active during the first week of November. On the 15th of the month a depression formed in the southern portion of the Bay of Bengal; the resulting storm moved in a north-westerly direction across the coast near Masulipatam on the 18th and very heavy rains fell, causing floods and breaches in railway lines on the north Madras coast. A deep depression on the 27th November in the south-west of the Bay developed into a very intense storm on the 28th which moved in a north-westerly direction, crossing the Coromandel coast between Cuddalore and Madras on the 29th of November. The rain and wind breached a number of tanks in Chingleput, South Arcot, Chittoor and North Arcot; the railway line was washed away in parts; and crops and property were damaged to some extent. In December and January the monsoon was generally feeble except in Anantapur, Cuddapah, Nellore, Chittoor, Salem, Coimbatore, and Madura. On the whole the north-east monsoon was generally above the average. There were practically no rains in February.

and March. Owing to unsettled conditions in the south of the Bay of Bengal about the middle of the month, the April rainfall was below the average except in Chingleput, South Arcot, Trichinopoly, Tanjore, Madura and on the West Coast. The rainfall in May too was below the average except in Kistna, Kurnool, Bellary, Nellore, Chittoor, Tanjore and South Kanara. The sowings of early crops were generally fair or above normal except in the Carnatic and the central and southern districts. Sowings of the late crops were also generally satisfactory except in the Deccan and on the West Coast.

On the whole the season for the Presidency was fairly satisfactory except in the areas affected by floods and cyclones; both the area cropped and the net area sown were among the highest reported.

3. *Number of ryotwari villages.*—The total number of ryotwari villages in the fasli was 21,610 against 21,955 in the previous fasli. The decrease of 345 villages in the Presidency was the result of a decrease of 351 villages in Malabar and Salem and an increase of 6 villages in Ganjam, West Godavari, Nellore and Ramnad. The decrease of 339 villages in Malabar was due to the adoption, during resurvey in the Ponnani taluk, of the amsam as a unit in place of the desam. In Salem the decrease of twelve villages was due to the changes effected consequent on the resurvey and resettlement operations. The increase of two villages in Ganjam was due to the rectification of the incorrect figure adopted in previous years in the number of villages in Surada taluk. In Nellore the increase of two villages was due to the redistribution of the three bits of Sarvepalli village into five. In each of the districts of West Godavari and Ramnad there was an increase of one village which was due to the resumption of an inam village in Chintalapudi taluk of the former and in Tiruvadanai taluk of the latter.

4. The land revenue of the Presidency is derived from the following sources:—

- (a) Peshkash or revenue from permanently settled estates;
- (b) Shrotriyam jodi or quit-rent levied on inam villages;
- (c) assessment, including water-rate, on lands held under the ryotwari system; and
- (d) miscellaneous revenue.

5. *Peshkash or revenue from permanently settled estates.*—The total amount of peshkash payable during the fasli was Rupees 50,07,785 against Rs. 49,92,767 in the previous fasli. The increase of Rs. 15,018 is the result of—

	RS.
Decrease of peshkash on account of acquisition of lands for public purposes	— 657
Reduction of peshkash on account of resumption of service inams	— 10
Decrease of peshkash on account of rectification of errors	— 83
	— 750
Increase due to the addition of peshkash on Doratanam inams in the Parlakimedi Malialis, Ganjam district	+ 15,763
Increase of peshkash on account of the inclusion of arrears of previous faslis	+ 5
	+ 15,768
Total ...	+ 15,018

6. The quit-rent payable on villages held on shrotriyam or favourable tenure was Rs. 7,54,019 against Rs. 7,54,587 in the previous fasli. The decrease of Rs. 568 is accounted for below:—

	RS.
Decrease of quit-rent due to acquisition of lands for public purposes	— 275
Decrease due to rectification of error	— 1,435
	— 1,710
Increase of quit-rent on certain whole inam villages which was wrongly excluded in previous faslis	+ 1,137
Increase of quit-rent on account of apportionment of jodi	+ 5
	+ 1,142
Total ...	— 568

7. *Holdings.*—The total extent of ryotwari holdings during the fasli was 27,610,000 acres which exceeded that of the previous year (as now revised) by 107,134 acres. There was an increase in all the districts except Tanjore and Ramnad, where there was a decrease of 522 acres and 260 acres respectively. The increase

was marked in the districts of Anantapur (27,845), South Kanara (11,020), Malabar (8,839), North Arcot (8,400), Kurnool (8,080) and Salem (6,834). The increase in Anantapur was due to the assignments made to the labouring classes and to the favourable season. In South Kanara the increase was due to the assignment of waste lands and to the changes consequent on the resurvey of some villages. In Malabar the introduction of the resurvey accounts in the Ponnani taluk and the transfer of unoccupied dry lands to occupied dry contributed to the increase. In North Arcot new assignments accounted for the increase. In Kurnool the increase was the result of assignments of large areas of waste lands and the resumption of artisan and other unenfranchised inams. The increase in Salem was due to assignment of new areas. The increase in the other districts is ascribed to assignments to sival-jama cultivators and in a minor degree to resumption of inams.

The small decrease in Tanjore was due to the acquisition of land for public purposes. The decrease in Ramnad was small and calls for no remarks.

8. *Assessment.*—The total assessment on holdings was Rupees 575.27 lakhs against Rs. 574.29 lakhs (as now revised) in the previous fasli, showing a net increase of Rs. 98,484. There was an increase in all the districts except Tanjore, where there was a decrease of Rs. 1,036. The increase was appreciable in the districts of West Godavari (Rs. 13,209), South Kanara (Rs. 9,904), Salem (Rs. 9,492), North Arcot (Rs. 8,029), Anantapur (Rs. 7,995), South Arcot (Rs. 5,990) and Trichinopoly (Rs. 5,579). The large increase in West Godavari was due to the resumption of an inam village in the Chintalapudi taluk, to the conversion of dry lands to wet and to the transfer of lands from poramboke to ayan. The reasons given in paragraph 7 above account for the increase in the other districts.

The slight decrease in Tanjore was, as already explained, due to the acquisition of land for public purposes.

9. *Cultivation.*—The total area cultivated in ryotwari holdings was 20.87 million acres against 20.90 million acres in the previous fasli. There was a net decrease of 61,671 acres under 'dry' and a net increase of 27,155 acres under 'wet'. The decrease under 'dry' was large in the districts of South Arcot (40,269 acres), Coimbatore (38,859 acres), Trichinopoly (28,846 acres), North Arcot (20,975 acres) and Madura (14,982 acres). The increase under 'wet' was marked in the districts of North Arcot (11,748 acres), West Godavari (8,842 acres) and Chittoor (7,142 acres). The decrease under 'dry' was due to inadequate rainfall during the season of dry cultivation and also to the low price of groundnut especially in South Arcot. The increase under 'wet' was due to

the favourable character of the season. The total 'area cultivated' during the year, including that under 'miscellaneous cultivation' was 21.93 million acres against 21.96 million acres in the previous fasli. There was an increase of 158,860 acres under 'waste charged'. In the area cultivated there was however an appreciable increase under 'dry' in the districts of Anantapur (69,240 acres), Chittoor (34,276 acres) and Kurnool (24,070 acres) due to the more favourable character of the season. Also there was a marked decrease under 'wet' in the Tanjore district (14,771 acres).

10. *Water-rate and second crop charge.*—The revenue derived from these sources amounted to Rs. 36.96 lakhs, against Rupees 32.54 lakhs in the previous fasli. There was a gross increase of Rs. 5,19,337 in certain districts and a gross decrease of Rupees 77,201 in others, resulting in a net increase of Rs. 4,42,136. The increase was marked in the districts of North Arcot (Rs. 1,28,315), Nellore (Rs. 1,18,898), Trichinopoly (Rs. 45,786), South Arcot (Rs. 33,721), Cuddapah (Rs. 30,882) and Anantapur (Rs. 30,571); while the decrease was appreciable in the districts of West Godavari (Rs. 45,972), Tinnevely (Rs. 14,149) and Madura (Rs. 10,512). The increase in North Arcot, Nellore and Cuddapah was due to the more favourable character of the season, as compared with the previous year. In Trichinopoly the increase was due to good rains in dry parts as well as a sufficient supply of water in the rivers. In South Arcot the extension of irrigation in the area under the Toludur Project in the Vriddhachalam taluk and a sufficient supply of water in the irrigation sources contributed to the increase under water-rate and second crop charge. In Anantapur the increase was due to good supplies in irrigation sources. In West Godavari the decrease was due to the conversion of many dry lands charged with water-rate into wet and also to the introduction of the rotation system for second crop. In Tinnevely unfavourable seasonal conditions were the cause of the decrease. In Madura the decrease was due mainly to the late rains and partly to economic depression, which accompanied the fall in prices of food grains, especially paddy.

11. *Remission.*—There was a total net remission during the fasli of Rs. 30,07,794. As compared with the previous year, there was an increase of Rs. 7,66,184. The increase was mostly under 'seasonal remissions' and was due to the unfavourable character of the season and to the inadequate supply of water in irrigation sources.

(i) *Seasonal remissions.*—There was an increase in some districts of Rs. 13,85,388 and a decrease of Rs. 6,25,115 in others, resulting in a net increase of Rs. 7,60,273. The increase

was very marked in Tanjore (Rs. 10,96,580) and was appreciable in the districts of Trichinopoly (Rs. 71,332) and South Arcot (Rs. 67,578) and occurred mainly under the heads 'land submerged or inundated' and 'shavi or loss of produce'.

(a) *Waste remitted*.—Remission under this head amounted to Rs. 2.56 lakhs, or Rs. 86,990 less than in the previous fasli. There was a decrease of Rs. 1,95,572 in some districts and an increase of Rs. 1,08,582 in others. The decrease was marked in the districts of North Arcot (Rs. 64,341), Chittoor (Rs. 38,377) and East Godavari (Rs. 17,493). There was, however, a marked increase in Tanjore (Rs. 77,433).

An amount of Rs. 95 on an extent of 178 acres of dry waste in Bellary was remitted under the authority of G.O. Mis. No. 600, Revenue, dated 16th March 1931, and a dry remission of Rs. 167 on an extent of 80 acres of sanded dry lands in Lalgudi and Trichinopoly taluks was granted under the authority of G.O. Mis. No. 532, Revenue, dated 6th April 1925.

(b) *Shavi and short crop*.—The total amount remitted under this head was Rs. 5,87,596 against Rs. 1,21,194 in the previous fasli, the net increase being Rs. 4,66,402. The increase was large in the districts of Tanjore (Rs. 3,38,240), Kistna (Rs. 38,749) and Bellary (Rs. 37,894), due to the unfavourable character of the season, while in most of the other districts there was a decrease.

(c) *Tirwakammi remissions* (i.e., the remission of the difference between wet and dry assessment on wet lands cultivated with dry crops owing to insufficiency or failure of water-supply) amounted to Rs. 2,60,495 against Rs. 6,19,719 in the previous fasli, showing a net decrease of Rs. 3,59,224. The decrease was appreciable in the districts of North Arcot (Rs. 1,28,890), Chittoor (Rs. 87,490), Madura (Rs. 35,114) and Nellore (Rs. 25,427); while there was a marked increase of Rs. 22,934 in Vizagapatam district. The decrease in the districts noted above was due to the favourable character of the season and to the irrigation sources having received sufficient supplies.

(d) *Injury by floods*.—The amount remitted under this head was Rs. 6,86,036 against Rs. 4,725 in the previous fasli, the net increase being Rs. 6,81,311. The increase was large in Tanjore (Rs. 6,53,745) and Trichinopoly (Rs. 17,794) and was due to the damage caused by the floods of 1930.

(e) *Remission of second crop charge*.—The amount remitted under this head was Rs. 89,035 as against Rs. 36,001 of the previous fasli, the net increase being Rs. 53,034. The increase was marked in the districts of Trichinopoly (Rs. 27,974), Tanjore (Rs. 25,532) and South Arcot (Rs. 16,721).

(ii) *Fixed Remissions* (i.e., abatement of demand granted for reasons unconnected with the season) amounted to Rs. 1.36 lakhs against Rs. 1.34 lakhs in the previous fasli, showing a net increase of Rs. 1,952. The increase occurred under most of the heads.

(iii) *Beriz deduction*.—Deductions made from village collections in favour of inamdars and religious institutions amounted to Rs. 9.84 lakhs against Rs. 9.80 lakhs in the previous fasli, resulting in a net increase of Rs. 3,959. The increase occurred mainly under 'allowances to religious institutions in lieu of cash payments' and was appreciable in Tanjore (Rs. 34,169) under the same head. The increase was due to the fact that arrears of previous years amounting to Rs. 12,415 were disbursed during the fasli under review.

12. *Miscellaneous revenue*.—The revenue under this head amounted to Rs. 112.77 lakhs against Rs. 119.40 lakhs in the previous fasli. There was an increase of Rs. 3,33,206 in some districts and a decrease of Rs. 9,96,834 in others, resulting in a net decrease of Rs. 6,63,628. The decrease occurred under most of the heads. The several items are dealt with below :—

Item 1—*Jodi and quit-rent on minor inams*.—The revenue under this head was Rs. 23.51 lakhs against Rs. 23.50 lakhs in the previous fasli, the net increase being only Rs. 692.

Item 2 (a)—*Second crop charge on minor inam wet lands in ryotwari villages*.—The revenue under this head was Rs. 1.85 lakhs as against Rs. 1.53 lakhs of the previous fasli, showing a net increase of Rs. 32,230. The increase occurred in most of the districts, and was marked in Cuddapah (Rs. 27,104) and Nellore (Rs. 11,249).

Item 2 (b)—*Water-rate on minor inams in ryotwari villages*.—The revenue under this item was Rs. 13.79 lakhs against Rs. 13.85 lakhs in the previous fasli, resulting in a net decrease of Rs. 5,844.

Item 3—*Charge for water in Zamindari and inam villages including tirvakasti and fasalvasti items*.—The revenue under this head was Rs. 24.28 lakhs against Rs. 24.48 lakhs in the previous fasli, the net decrease being Rs. 19,816. The decrease was marked in West Godavari (Rs. 45,364). There was an increase in East Godavari (Rs. 14,120) and Nellore (Rs. 12,704).

Item 4—*Enhanced water-rate on lands irregularly irrigated*.—The revenue under this item was Rs. 4.73 lakhs against Rs. 6.64 lakhs in the previous fasli. There was thus a net decrease of Rs. 1.91 lakhs and it was marked in Guntur (Rs. 57,708), Kistna (Rs. 35,795) and Madura (Rs. 31,638).

Item 5—Charges levied for occupation (with or without application) of assessed and unassessed lands not assigned.—The revenue under this head was Rs. 6.68 lakhs against Rs. 7.55 lakhs in the previous fasli, showing a net decrease of Rs. 87,360. The decrease was large in Kistna (Rs. 39,995) and West Godavari (Rs. 15,168).

Item 6—Charges levied for occupation of poramboke lands.—The revenue derived under this head during the fasli was Rs. 5.63 lakhs against Rs. 6.51 lakhs in the previous fasli, the net decrease being Rs. 88,068. The decrease was appreciable in Guntur (Rs. 25,693), South Arcot (Rs. 20,186) and North Arcot (Rs. 16,812). There was however an increase of Rs. 13,156 in Kistna.

Enhanced charges amounting to Rs. 3,12,097 were levied on an extent of 30,915 acres against Rs. 4,25,323 on an extent of 32,670 acres in the previous year, showing an incidence of Rs. 10 per acre against Rs. 13 per acre in the previous fasli. The highest average rates were Rs. 74 in Ramnad, Rs. 63 in Tinnevely and Rs. 61 in East Godavari and these were evidently due to the levy of prohibitive penalties in the case of persistent encroachments continued from previous faslis.

There were no porambokes to be reclassified in the districts of Madras and Malabar. The work of reclassification is reported to have been practically completed in all the districts. From the reports it is, however, observed that taram assessment was levied on an extent of 99,371 acres of poramboke lands against 88,366 acres in the previous fasli. Such occupation was extensive in the districts of Guntur (14,288 acres), Salem (12,548 acres), Anantapur (11,351 acres), Kistna (9,089 acres), Kurnool (7,541 acres), Tanjore (6,686 acres), Bellary (6,252 acres) and North Arcot (5,011 acres).

In Vizagapatam proposals for the transfer of certain cases of poramboke to ayan have been sanctioned since the date of the last report and some others are pending disposal. In Cuddapah the reclassification of porambokes is reported to have been completed in all the taluks. In Bellary there were unobjectionable occupations mostly by depressed classes and by other longstanding Sivayi-jamadars, pending subdivision and transfer to ayan. The work of assignment is retarded to some extent by the fact that many villages are affected by the Tungabhadra Project, where Government orders prohibiting assignment are in force. In Kurnool the penal provisions of the Land Encroachment Act were freely resorted to in really objectionable cases. An extent of 497 acres of poramboke land was transferred to assessed during the fasli as a result

of inspection. In Chittoor an extent of 6,430 acres of land reserved was assigned to depressed class members to the end of June 1931. An extent of 7,815 acres of land not specially reserved was also assigned to 1,772 members subject to the condition that they should not be alienated. In North Arcot transfer of certain poramboke lands to ayan was sanctioned. Only ordinary rate was charged in cases where the occupation was unobjectionable. In South Arcot drastic steps are being taken to put an end to all objectionable occupations on real porambokes and only taram assessment is usually charged for unobjectionable occupations in 'natham' porambokes for habitation and other domestic purposes, and for cultivation in unreserved forests, swamp and hill porambokes; in that district there was a distinct fall in the unauthorized occupation of porambokes owing to the stringent application of the penal provisions of Act III of 1905. In Tanjore only an extent of 12.28 acres of poramboke was transferred to assessed waste for purposes of assignment, as no assignments can be made in a major portion of the district till the completion of the Cauvery-Mettur Project. In Trichinopoly an extent of 138.74 acres of poramboke land was transferred to assessed waste during the fasli. The remaining cases were such as could not be so transferred. In Madura it is reported that the handling by the Revenue subordinates of cases of poramboke cultivation was unsatisfactory, and clear and detailed instructions on the subject have recently been issued. In the Nilgiris an extent of 580 acres of poramboke land was transferred to assessed waste and assigned during the fasli. The Collectors of the other districts also report that steps have been taken to transfer to ayan poramboke lands, the occupation of which is unobjectionable.

Item 7—Revenue derived from tree tax.—The revenue under this head was Rs. 3.92 lakhs against Rs. 3.85 lakhs in the previous fasli, the net increase being only Rs. 6,557.

Item 8—Commission from estates under Court of Wards management.—The amount of revenue derived under this head was Rs. 43,454 against Rs. 42,122 in the previous fasli, the net increase being Rs. 1,332. The increase was appreciable in Ramnad district (Rs. 1,515).

Item 10—Sale-proceeds of lands sold.—The revenue shown under this head was Rs. 3.85 lakhs against Rs. 7.19 lakhs in the previous fasli, showing a decrease of Rs. 3.34 lakhs. The decrease was large in the districts of Coimbatore (Rs. 1,32,108). The Nilgiris (Rs. 91,305) and South Arcot (Rs. 50,013); and it was probably due to the tightness of the money market.

14 BOARD OF REV. (L.R. & SETT.), No. 104, PRESS, 21ST DEC. 1931

Item 11—*Rent of lankas*.—The revenue under this head was Rs. 6.14 lakhs against Rs. 6.42 lakhs in the previous fasli, the net decrease being Rs. 28,511. The decrease was large in West Godavari (Rs. 13,839) and East Godavari (Rs. 13,153).

Item 12—*Quit-rent and ground-rent*.—The amount of revenue under this head was Rs. 2.20 lakhs against Rs. 2.30 lakhs of the previous fasli, the net decrease being Rs. 9,735.

13. The net ryotwari demand including water-rate, second crop charge and miscellaneous revenue amounted to Rs. 694.93 lakhs against Rs. 703.82 lakhs (as now revised), in the previous fasli. The details for the decrease of Rs. 8.89 lakhs are given below:—

	LAKHS OF RUPEES.
1. Increase in the assessment on the holdings.	+ 0.98
2. Increase under water-rate and second-crop charge	+ 4.42
3. Increase under remission	- 7.66
4. Decrease under Miscellaneous revenue	- 6.63
Total	- 8.89

14. *Total land revenue demand (current)*.—The demands under the several heads are compared below with those of the previous year:—

	Fasli 1339. RS.	Fasli 1340. RS.
Peshkash on permanently-settled estates	49,92,767	50,07,785
Shrotriyam jodi	7,54,587	7,54,019
Ryotwar and miscellaneous	7,04,77,109	6,94,73,276
Total	7,62,24,463	7,52,35,080

The variations under these heads have been explained in the previous paragraphs.

15. *Total demand under cesses (current)*.—The total demand under cesses is given below:—

	Fasli 1339. RS.	Fasli 1340. RS.
Cesses on permanently-settled estates	23,06,500	22,94,025
Cesses on whole inam villages	6,13,319	6,01,330
Cesses on ryotwari and miscellaneous	74,06,459	73,90,811
Total	1,03,26,278	1,02,86,166

BOARD OF REV. (L.R. & SETT.), No. 104, PRESS, 21ST DEC. 1931 15

16. *Demand and collection of land revenue and cesses (current)*.—The current demand under land revenue and cesses during the fasli was Rs. 8,55,21,246. A sum of Rs. 8,39,39,246 or 98.15 per cent was collected within the fasli and Rs. 96,159 was written off the accounts. The percentage of collection during the previous fasli was 99.27.

17. *Demand and collection of arrears*.—The total arrear demand under all the heads amounted to Rs. 8,31,732. A sum of Rs. 5,67,796 or 68.27 per cent was collected (against 64.25 per cent in the previous fasli) and a sum of Rs. 72,912 or 8.77 per cent was written off the accounts.

18. The balance outstanding at the end of the fasli including both arrears and current was Rs. 16,76,865 against Rs. 8,30,262 at the end of the previous fasli. As reported by Collectors in their demand, collection and balance statements for October 1931 the balance at the beginning of fasli 1341 was Rs. 16,76,834. Up to the end of October 1931 a sum of Rs. 10,56,623 was collected and Rs. 11,480 written off the accounts. Proposals had been made to write off Rs. 1,171. The net recoverable balance on 1st November 1931 was Rs. 6,07,860. Of this amount, the collection of Rs. 3,88,072 was covered by suspensions or postponements chiefly in the districts of East Godavari, West Godavari, Kistna and Bellary. Deducting this amount the collectable balance on 1st November 1931 was Rs. 2,19,788.

19. *Reconciliation of differences between the collection of land revenue and cesses as shown in the jamabandi and the Accountant-General's statements and overpayments*.—This is carried out month by month along with the reconciliation of figures of expenditure.

20. *Adjustment to local boards of cesses collected during the fasli*.—Land revenue and cesses are collected together and the distribution of the total collections between 'land revenue' and 'cesses' is effected in the Collector's office after the compilation of the accounts relating to the fasli year.

Statements showing the amounts collected during fasli 1340 on behalf of local boards, the payments made to them during the fasli and the amounts to be finally adjusted either to their credit or debit are being received from Collectors. After verification by the Accountant-General of the amounts shown by Collectors as payments made to local boards, the recovery of the overpayments is being watched by the Board in accordance with the instructions contained in paragraph 3 of G.O. No. 5197, L. & M., dated the 7th December 1926.

21. *Charges debitable to land revenue*.—The charges of the Land Revenue Department are shown in the accounts under the head '22. General Administration.' The district administration

charges excluding village establishments amounted to Rs. 115.05 lakhs during fasli 1340. The village service charges (including those of proprietary estates) during the fasli were 125.90 lakhs. The total charges amounted to 240.95 lakhs or 28.17 per cent of the total land revenue and cesses collected. It must, however, be borne in mind that this amount does not represent merely the cost of collecting the land revenue. The Land Revenue Department performs multifarious duties of which the control and collection of land revenue is only one. The village establishment in particular is the servant of all departments of the Government. Moreover, a considerable portion of the time of the Collector and his subordinate officials is occupied with magisterial work. While the actual cost of collecting the land revenue cannot be estimated with any degree of accuracy, it is certainly far less than the figure shown above.

22. *Processes under Act II of 1864.*—Statement No. 12 gives particulars of coercive processes issued for the realization of Government dues under Act II of 1864. The following extract shows the number of processes of each kind issued during the year as compared with the figures for the three preceding faslis:—

Coercive processes.	Fasli.			
	1337.	1338.	1339.	1340.
Demand notices	848,981	795,320	765,749	1,014,321
Distrain or attachment notices ..	77,395	56,119	49,646	82,873
Sale notices	55,447	48,774	38,086	57,086
Sales (number of defaulters) ..	5,351	4,286	4,868	8,795
Total	987,177	904,499	858,299	1,161,025

The increase under all heads is attributed by Collectors generally to the economic depression and the fall of prices of food-crops. In Chingleput, North Arcot, South Arcot, Tanjore and Trichinopoly the larger number of coercive processes was also due to the damage caused to crops by the floods in November 1930.

23. *Demand notices.*—There was an increase in the number of demand notices issued during the fasli as compared with the three previous faslis.

24. *Distrain or attachment notices.*—There was also an increase in the number of distrain or attachment notices when compared with the previous faslis.

25. There was a slight increase in the percentage of the number of distraints and attachments of personal property to that of demand notices when compared with the last fasli. In respect of real property also there is an increase in percentage over that of last fasli by 0.08.

Percentage of attachment to the total number of demand notices—

Fasli.	Personal property.	Real property.	Total.
1337	8.29	2.99	11.28
1338	6.63	2.56	9.19
1339	6.77	2.03	8.80
1340	7.69	2.11	9.80

The number of defaulters whose immovable property was attached during the fasli was 21,434 against 15,529 in fasli 1339.

26. *Sale notices.*—Out of 99,469 defaulters whose property was attached only 42.66 per cent paid up the arrears before sale notices were issued as against 43.57 in the last fasli. The number of attachments was largest in South Arcot during the fasli (16,702).

27. *Sales.*—The number of defaulters whose property was sold was greater than in fasli 1339 by 1927. There was an increase in the number of sales of both real and personal property. The percentage borne by actual sales to sale notices in the Presidency was only 11.90 against 12.79 in fasli 1339; but the percentage of the number of defaulters whose properties were sold to the total number of holdings was 0.12 against 0.09 in the previous fasli. The statement below shows the particulars of sales in fasli 1340 compared with those for the preceding three faslis.

	Personal property.				Real property.				Total.			
	Fasli 1337.	Fasli 1338.	Fasli 1339.	Fasli 1340.	Fasli 1337.	Fasli 1338.	Fasli 1339.	Fasli 1340.	Fasli 1337.	Fasli 1338.	Fasli 1339.	Fasli 1340.
Percentage of sale of property to—												
(1) the number of holdings.	0.02	0.02	0.02	0.05	0.08	0.06	0.07	0.07	0.10	0.08	0.09	0.12

Value of lands sold.—Immovable property of the value of Rs. 3,76,530 was sold for the recovery of arrears amounting to Rs. 80,481. The sum realized was Rs. 1,13,025. The value of land was noticeably disproportionate to the arrears in Vizagapatam, Cuddapah, Chingleput, North Arcot, South Arcot, Tanjore, Madura, Ramnad, Coimbatore, Salem and South Kanara. The Collector of Chingleput explains that it was partly due to the fact that in cases of default by military assignees the entire extents assigned are generally attached, and that in many cases they had to be bought in by Government for want of bidders. The Collector of South Arcot remarks that the estimates made by Village Officers were not judicious. The Collector of Tanjore points out that smaller plots proportionate to the arrears were not available for attachment. The Collector of Madura remarks that the discrepancy is due to overestimation, attachment of whole holdings for the arrears and combination amongst bidders, which resulted in the lands being bought in by Government for nominal amounts. The other Collectors make no special mention of this point, but the reasons are probably similar to those reported to Government in B.P. Routine No. 2337, dated the 21st April 1927. The prices fetched by lands sold to private individuals amounted on the average to $6\frac{1}{2}$ times the assessment in the case of dry lands and $8\frac{1}{2}$ times the assessment in the case of wet lands. In fasli 1339 immovable property of the estimated value of Rs. 2,65,976 was sold for the recovery of arrears amounting to Rs. 46,716 and the amount realized was Rs. 93,442. The average price fetched for lands sold to private individuals was higher than that fetched during fasli 1340 being $7\frac{1}{2}$ times the assessment in the case of dry lands and $9\frac{1}{2}$ times the assessment in the case of wet lands.

Extent of land sold.—The extent of land sold to private individuals in the fasli was 24,588.89 acres under dry and 2,009.64 acres under wet against 8,483.70 acres and 1,187.92 acres respectively in fasli 1339. The total area bought in by Government for want of bidders was 19,427.12 acres under dry and 1,215.94 acres under wet against 3,669.48 and 1,056.75 acres respectively in fasli 1339.

28. *Process-serving establishment.*—Statement No. 13 gives particulars of processes served by the ordinary village agency and by special establishments and of the fees realized during the year. The total number of processes served by the village agency was 1,033,948 or 252,275 more than in fasli 1339. The number of processes served by the special agency (53,123) exceeded that in the previous fasli by 19,511.

29. *Costs in Civil Suits.*—Rupees 30,941 was awarded to Government as costs during the fasli. Including Rs. 39,609, the revised opening balance, the total demand was Rs. 70,550 of which Rs. 26,293 was collected, Rs. 4,460 written off the accounts, and Rs. 31 recommended to be written off. The net recoverable balance at the end of the fasli was Rs. 39,766 made up of the following items:—

	RS.
(1) Amount collected after the close of the fasli	424
(2) Amount remaining uncollected pending decision of appeals by Civil Courts	21,665
(3) Amount involved in execution proceedings.	11,340
(4) Amount the collection of which is pending for other reasons	6,337

30. *Interest on arrears of land revenue (statement No. 14).*—The total demand on account of arrears of land revenue including the balance at the beginning of the fasli was Rs. 35,098 of which Rs. 13,405 was collected and Rs. 2,563 remitted leaving a balance of Rs. 19,130 against 19,088 in the previous fasli. The balance exceeds Rs. 1,000 in the districts of Chittoor, South Arcot, Tanjore, Madura and Ramnad as in the previous fasli.

31. *Sale of lands under Board's Standing Orders Nos. 15, 16, 21, 22, 45, 90 and 91.*—Under the rules for the sale of occupancy right in lands at the disposal of Government (Standing Order No. 15) 3,654.56 acres assessed at Rs. 5,813 were sold for Rs. 24,506; 10.37 acres, 650 square links and 9,077 square feet of house-sites in towns assessed at Rs. 48-4-0 were sold for Rs. 15,866 under Standing Order No. 21; 14.47 acres and 281 square feet occupied by Government departments were sold for Rs. 614 under Standing Order No. 22 and 375.26 acres of land bought in by Government at sales for arrears of revenue were resold under Standing Order No. 45 for Rs. 5,211. 4.96 acres which had been acquired for public purposes and were subsequently relinquished were sold under Standing Order No. 90 for Rs. 653. One cent of land for which the Railway is not likely to have any further use was sold for Rs. 2-8-0 under Standing Order No. 91. Nine grounds and 24 square feet of lands were sold in Madras for Rs. 231 under the special rules governing the disposal of vacant lands in the city.

32. *Subdivision of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the subdivision of joint liability of shareholders in whole villages or inams.

33. *Transfer of registry of holdings.*—Transfers of revenue registry fall under the following main heads:—

(i) Transfers made with reference to applications and notices received from Sub-Registrars, and

(ii) transfers effected on applications and intimations received from parties, village officers and others.

(i) Under the first head 304,277 applications were received during the fasli as against 372,473 in the previous fasli, the decrease being 68,196 or about 18·31 per cent. The bulk of the decrease occurred in Guntur (9,896), South Arcot (9,544), North Arcot (8,780) and Coimbatore (5,907).

(ii) Under the second head the number received was 153,367 against 161,079 in the previous fasli, showing a net decrease of 7,712. The decrease occurred in most of the districts and was marked in Tinnevely (3,540), Chittoor (2,997), Coimbatore (2,482), Bellary (2,427) and Cuddapah (2,102). There was, however, an appreciable increase in Madura (3,587), Ganjam (2,245) and Anantapur (1,096).

The total number of applications of all kinds including the number pending disposal at the beginning of the fasli was 539,451 of which 470,104 were disposed of during the fasli, leaving a balance of 69,347 (or about 12·9 per cent of the total number) as against 81,800 (or about 13·2 per cent of the total number) in the previous fasli. Of the total number of applications disposed of during the fasli 175,399 or about 37·3 per cent were rejected and 3,624 were transferred to Deputy Tahsildars for disposal. The rejections were chiefly due to defective title, failure to produce documentary evidence and failure to pay subdivision fees. The percentage of pendency was high in the districts of Vizagapatam (25), Anantapur (22), Ganjam (21), Guntur (20), Nellore (18), Cuddapah (17), East Godavari (16), South Arcot (16), Kurnool (15), The Nilgiris (15), Bellary (14), Chittoor (14) and North Arcot (14). The Collector of Cuddapah reports that the pendency was due to the receipt of a large number of applications from the Registration Department which the existing taluk staff could not dispose of expeditiously. The Collectors of Bellary and South Arcot expect that the recent orders abolishing the subdivision fees will facilitate this branch of work; and the Board agrees with them in their expectation.

34. *Jamabandi.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should generally be conducted by the Collector himself once in five years was complied with in all the districts except in the case

of the Vinukonda taluk of the Guntur district. In this case it was conducted by the Personal Assistant Deputy Collector, Guntur, in fasli 1340, this procedure being in accordance with the orders contained in G.O. No. 1050, Revenue, dated 15th May 1931.

35. *Loans and Advances.*—The advances made under the Land Improvement Loans Act during the year amounted to Rs. 4·20 lakhs and those made under the Agriculturists' Loans Act to Rs. 10·56 lakhs making a total of Rs. 14·76 lakhs against Rs. 14·31 lakhs in the previous year. The difference was the net result of an increase in thirteen districts and a decrease in twelve districts. The increase was most marked in Trichinopoly and Tanjore and the decrease in Chittoor.

36. Including the uncollected balance outstanding at the close of the previous year a sum of Rs. 7·79 lakhs was repayable during the year under the Land Improvement Loans Act on account of principal while the amount repayable under the Agriculturists' Loans Act was Rs. 11·51 lakhs. Of these amounts Rs. 6·02 lakhs or 77·3 per cent under the former Act and Rs. 8·92 lakhs or 77·5 per cent under the latter Act were collected. Sums amounting to Rs. 0·51 lakh under the Land Improvement Loans Act and Rs. 0·25 lakh under the Agriculturists' Loans Act were repaid by the borrowers on account of loans the repayment of which had not fallen due, while Rs. 6,158 and Rs. 4,821 were written off as irrecoverable under the Land Improvement Loans and Agriculturists' Loans Act respectively.

37. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts, including the balance remaining unpaid out of sums which fell due in previous years was Rs. 27,24,871 of which a sum of Rs. 6,00,937 or 22·1 per cent was collected without resort to coercive processes, and a sum of Rs. 13,63,579 or 50 per cent after the issue of demand notices. A sum of Rs. 1,50,360 was collected after the attachment of property but before sale, while the amounts realized by the sale of movable and immovable properties were Rs. 5,114 and Rs. 11,751 respectively. A sum of Rs. 12,123 was written off as irrecoverable under both principal and interest under both the Acts. The balance outstanding at the close of the year was Rs. 5,81,007. It was very heavy in Bellary (Rs. 93,914), Anantapur (Rs. 80,482) and Coimbatore (Rs. 1,32,688).

38. The number of wells newly constructed and the number repaired during the year with the aid of loans under the Land

Improvement Loans Act are shown below with the corresponding figures for the previous year:—

Fasli.	Wells newly constructed.			Wells repaired.		
	Num-ber.	Extent of land benefited.	Cost.	Num-ber.	Extent of land benefited.	Cost.
1339		ACS.	RS.		ACS.	RS.
1340	408	1,577	1,80,210	388	1,701	1,32,622
	270	1,253	1,14,515	292	1,445	98,765

The largest number of wells (113) constructed or repaired during the year was in Salem. The numbers were also large in North Arcot (86) and Madura (96).

A sum of Rs. 1,13,050 was spent during the year on the reclamation of 2,412 acres of land against Rs. 89,886 and 1,738 acres in the previous year. The largest amount spent was in Ganjam Rs. 26,825 on 494 acres. Rupees 5,050 were spent in Salem and Tinnevely districts for the installation of oil engines to benefit 31 acres of land. Rupees 18,814 were spent on other improvements such as the removal of nuth grass, the construction of bunds and the lowering of the level of fields, benefiting altogether 703 acres.

The following statement shows the purposes for which the advances made to cultivators under the Agriculturists' Loans Act were utilized during the two faslis 1339 and 1340.

Fasli.	Purchase of seed grain.	Purchase of cattle.		Rebuilding of houses.		Sugar-cane mills.	Purchase of fodder.	Other purposes.
		Number.	Amount.	Number.	Amount.			
1339	RS.		RS.		RS.	RS.	RS.	RS.
1340	8,259	10,876	8,16,308	68	24,080	550	54,560	16,558
	12,585	12,677	9,05,129	85	15,875	400	8,146	26,312

39. *Survey advances.*—The advances drawn by Collectors during the official year 1930-31 under the head 'Revenue Survey Advances—Collectors' amounted to Rs. 1,16,295 as detailed below against Rs. 1,12,482 in the previous year.

District.	RS.	District.	RS.
Ganjam	15,335	Kistna	2,320
Vizagapatam	3,383	Guntur	12,312
East Godavari	2,123	Nellore	4,910
West Godavari	6,826	Cuddapah	7,419

District.	RS.	District.	RS.
Anantapur	1,435	Madura	4,241
Bellary	2,838	Ramnad	1,757
Kurnool	4,938	Tinnevely	11,660
Chittoor	1,734	Coimbatore	10,626
Chingleput	2,039	The Nilgiris	799
North Arcot	3,327	Salem	1,211
South Arcot	2,845	South Kanara	1,545
Tanjore	5,330	Malabar	2,552
Trichinopoly	2,736	Madras	4

Of the total amount of advances outstanding against Collectors including the amounts referred to above, a sum of Rs. 1,05,976 was adjusted during the year leaving a net debit of Rs. 2,45,970 under 'Revenue Survey Advances—Collectors.'

Under the head 'Cost of survey marks—Collectors' a sum of Rs. 80,436 was collected during the year leaving a balance of Rs. 10,844 to be realized. The arrear outstanding at the beginning of the year under 'Cost of survey marks—Survey Officers' was Rs. 1,19,090. Fresh landholders' bills for Rs. 1,36,239 were received from Survey Officers during the year. Of the total demand of Rs. 2,55,329 a sum of Rs. 1,67,803 was collected leaving a balance of Rs. 87,526. The major portion of the balance is outstanding in the district of Malabar where there is an arrear of Rs. 81,229 to be collected. This amount includes a sum of Rs. 39,253 on account of instalments not due in the year. The actual balance for collection at the end of the year was Rs. 41,976 and this has since been reduced to Rs. 14,547.

40. *Junior Civilians.*—The reports from Collectors show generally that their Civilian Divisional Officers possessed an adequate knowledge of the vernaculars and that the progress of Assistant Collectors was satisfactory.

41. *Effect of recent legislation on the people.*—No new enactment affecting the agricultural classes generally was passed during the fasli under report. The Madras Hindu Religious Endowments Act has not been in force for a sufficiently long period to call for any special remarks. The Collector of Cuddapah states that not much useful work has as yet been done under the Act and that the people are only just beginning to realize its advantages. The Collector of North Arcot reports that the introduction of the Village Officers' Restoration Act has facilitated prompt collection of land revenue. The Collectors of Trichinopoly and Madura report that the advantages of the Madras Agricultural Pests and Diseases Act are now more appreciated by the ryots than in previous years.

The Madras Decentralization Act, which empowered Tahsildars and Deputy Tahsildars to charge enhanced assessment in cases of unauthorized occupation and to deal with cases of irregular irrigation, is reported to have worked satisfactorily. The new District Municipalities Act, the Local Boards Act and the Village Courts Act afforded greater opportunities to the people to participate in the administration of local affairs and local self-government than before. The panchayat courts are gradually becoming popular. A number of Collectors report that the Sarda Act not having been enforced rigidly, the significance of its provisions has not yet been fully realized by the people. In Vizagapatam some child marriages took place and in one case the accused was fined Rs. 25. In East Godavari one case ended in acquittal. The Collector of Bellary reports that the Act is a dead letter. The Madras Act I of 1908 and the Land Encroachment Act III of 1905 worked well during the fasli. The Collector of Ganjam reports that the number of suits for the recovery of rents was on the increase. The Collector of Madura reports that the relationship between landlords and tenants was generally good. The legislation regarding the enfranchisement of Devadasi inams is appreciated by the people and enfranchisement proposals are under consideration. The benefits of the Hereditary Village Officers' Amendment Act, 1930, affect only those persons who hold village officers' posts. The Madras Local Boards Amendment Act, 1930, the Madras District Municipalities Amendment Act, 1930, and the Motor Vehicles Taxation Act, 1931, have come into force only recently. Ordinary villagers, however, have been much relieved by the abolition of tolls under the latter Act.

42. *Enhanced water-cess on irregular irrigation.*—The system of publishing a general or collective notice in each village in accordance with B.P. No. 58, Settlement, dated 10th April 1919, is reported to have worked fairly well, and the Tahsildars have generally exercised their powers judiciously. In general, the ryots are aware of the rules and make timely representations to the Jamabandi officers. The system resulted in the prompt investigation of objections and a reduction in the number of water-rate appeals. In cases where Government water was taken without permission deterrent penalties were imposed. The Collector of Coimbatore reports that the Tahsildars and Deputy Tahsildars showed a tendency to apply the rules without due discrimination and that a more judicious method of charging penalty was impressed on them.

43. *Tank-bed cultivation.*—There are no tank-bed lands fit for cultivation in the districts of Madras, the Nilgiris, Malabar and

South Kanara. In their Order Mis. No. 1613, Revenue, dated 2nd September 1922, Government withdrew the special concessions relating to tank-bed cultivation. In Nellore tank-bed cultivation was rigidly repressed in the fasli under report. In cases where the depressed classes and others persisted in occupying these lands the occupiers were evicted, and, where this was not possible, deterrent penalties were imposed. In Cuddapah 197 acres of tank-bed lands were cultivated during the fasli and the revenue derived was Rs. 1,164. Enhanced assessment to an extent of Rs. 875 was imposed for unauthorized occupation. Permission for temporary cultivation of the tank-bed of Nayunicheruvu in the Vemula village of Pulivendla taluk was granted by the Collector and an extent of 17.54 acres cultivated in this tank-bed was charged with the highest dry rate of the village. In Anantapur permission was granted in respect of a few tanks for cultivation of tank-beds with melons and cucumbers. Unauthorized cultivation of an objectionable nature was penalized under the provisions of the Madras Act III of 1905. In Bellary permission was granted to cultivate water-melons in the bed of one tank in Rayadrug taluk. In Kurnool and Chingleput there were no cases of such permission being granted during the fasli, and stray cases of unauthorized cultivation were suitably dealt with. In North Arcot an extent of 174 acres was cultivated with melons and food-grains without permission, and the rule of imposing penalty in addition to the highest dry rate was generally carried out. In Trichinopoly an extent of 21 acres in two taluks was cultivated and an amount of Rs. 30 was realized. In Ramnad and Coimbatore there was tank-bed cultivation in certain taluks. In Salem cucumber cultivation in the bed of a tank in Namakkal taluk was permitted by the Collector and the tank was not adversely affected by the cultivation. In other districts there were no cases of tank-bed cultivation.

44. *Examination of Village and Taluk Accounts.*—The maintenance of these accounts was fairly satisfactory and no general errors of a serious nature were disclosed. Such minor defects as were noticed were duly rectified. The Collector of Anantapur reports that the accounts of Anantapur, Kalyandrug, Gooty and Dharmavaram taluks have not been checked, and that the Revenue Divisional Officers concerned have been instructed to complete the work soon. In Bellary the inspection of Taluk Accounts has yet to be completed in the case of Alur taluk and it is reported that the Revenue Divisional Officer concerned is attending to the work. In Chingleput district the Sub-Collector, Chingleput, and the Revenue Divisional Officer, Saidapet taluk, have still to complete the checking of the accounts.

45. *The taluk and village statistical registers.*—The taluk statistical registers prescribed in the Manual of Taluk Accounts (Special) were maintained in the districts of Malabar, South Kanara and the Nilgiris, and the village statistical registers were maintained in all the ryotwari villages of the other districts. The following statement shows the progress made in the writing up and checking of registers up to and during fasli 1340:—

District.	Number of ryotwari villages.	Number of villages in which registers have been opened.	Number of villages in which the registers have been written up and checked in fasli 1340.
1. Ganjam	1,099	1,099	1,099
2. Vizagapatam	(a) 376	376	376
3. East Godavari	(b) 840	840	840
4. West Godavari	318	348	348
5. Kistna	405	405	405
6. Guntur	758	758	758
7. Nellore	531	531	531
8. Cuddapah	758	758	758
9. Anantapur	751	751	751
10. Bellary	873	873	873
11. Kurnool	695	695	695
12. Chingleput	1,485	1,485	1,485
13. Chittoor	469	469	469
14. North Arcot	1,678	(c) 1,675	1,675
15. South Arcot	2,215	2,215	2,215
16. Tanjore	1,430	1,430	1,430
17. Trichinopoly	709	709	709
18. Madura	702	702	702
19. Ramnad	155	155	155

21. Coimbatore	1,033	1,033	1,033
22. Salem	1,460	1,460	1,460

(a) Includes 104 villages of Palkonda Agency not shown in statement No. 3.

(b) Includes 115 rented villages of the Yellavaram taluk and the villages in the Bhadrachalam and Nugur taluks not shown in statement No. 3.

(c) Statistical registers have not been prescribed in the case of three hill villages in Tirupattur taluk under the control of the Forest Department (vide R.P. Mis. No. 2804, dated 20th December 1923).

46. *Minor Irrigation.*—Statement No. 19 shows for each district the number of irrigation works in charge of the Revenue Department, the number repaired and the amount spent on them during the official year ending 31st March 1931. It also shows the number proposed for repair during the official year ending 31st March 1932.

47. *Conference with ryots.*—In Ganjam informal conferences were held by Revenue Divisional Officers and by the Executive Engineer, Ganjam, at fixed centres, when revenue and irrigation matters were discussed with ryots and action was taken in all cases. At some of these conferences Agricultural Demonstrators were

present and instructed the ryots in improved methods of agriculture. In Vizagapatam no informal conferences were held during the fasli. The Collector, Revenue Divisional Officers and Tahsildars have, however, made enquiries during their tours regarding the needs of the ryots. In East Godavari the settling officers held conferences with the ryots during jamabandi and the officers of the Public Works Department did so when occasion offered. In West Godavari an informal conference was held by the Collector at Narsapur when questions of general importance were discussed. The Collectors of Guntur and South Arcot report that the ryots were given ample opportunity to represent their grievances during the tours of Government officials as well as at the time of jamabandi, and that their requests were duly considered. In Nellore conferences were held during jamabandi when the grievances of ryots were considered. Special irrigation conferences were also held, as usual, in the taluks of Nellore and Kovur. In Cuddapah the Collector and the Revenue Divisional Officers held informal conferences with ryots during their tours as well as at jamabandi, when matters relating to sanitation, education, grazing fees, repairs to irrigation sources, formation of roads, etc., were discussed and action was taken where necessary. The Collector of Anantapur held a conference with the ryots at Hindupur when the usefulness of the Agricultural Department was clearly explained. In Bellary the Collector held a conference of the ryots and village officers at Paramadevanahalli at which the Deputy Director of Agriculture and his assistants demonstrated the use of up-to-date agricultural implements for ploughing, the preservation of green manure throughout the year, etc.; similar conferences were held by the Revenue Divisional Officers and Public Works Department and Agricultural Officers. In Kurnool the Collector held conferences with ryots during the jamabandi of Pattikonda and Kurnool taluks. The local Agricultural Demonstrator held a conference in Kurnool, when special varieties of seed grains, manures and improved agricultural implements were exhibited. The Revenue Divisional Officers of Dhone and Markapur also held similar conferences during the jamabandi of Dhone, Sirvel, Markapur and Cumbum taluks. The Collector of Chingleput reports that irrigation conferences were held at the headquarters of the Revenue Divisions of the district in which the Executive Engineer, the Revenue Divisional Officer and the leading ryots took part. During the general tours of the Collector and the Revenue Divisional Officers interviews were freely granted to the leading ryots. In Chittoor the Collector and the Revenue Divisional Officers held informal conferences during jamabandi, when individual requests for repairs

to irrigation sources and matters relating to forest panchayats were considered. Conferences were held with the leading ryots in North Arcot, when lectures were delivered on village sanitation, agriculture, forest, village panchayat and kudimaramat. In Tanjore conferences with the ryots were held in all the taluks, at some of which officers of the Agricultural Department and Public Works Department were present, while in others officers of the Veterinary and the Co-operative departments took part. At these conferences matters relating to irrigation, drainage and improved cultivation were discussed. In Trichinopoly the Collector held conferences with the ryots during jamabandi at Perambalur and Musiri, at which the Deputy Registrar of Co-operative Societies was present. Lectures were delivered on recent improved methods of ploughing, the use of irrigation pumps, the benefits of co-operation and the treatment of epidemic diseases of cattle. In Madura and Tinnevely irrigation conferences were held by the Executive Engineer at certain centres. In Ramnad the Sub-Collector held a conference at Aruppukkottai at which the ryots' grievances regarding transfer of registry were considered. In Coimbatore and the Nilgiris conferences were held by jamabandi officers, at which no special grievances were brought to notice. In Salem the ryots represented their grievances to the jamabandi officers which were duly considered. In South Kanara ryots' conferences were held and the representations made at them were communicated to the heads of the departments concerned, wherever necessary. The main points of discussion related to the eradication of 'touch-me-not' and the necessity of having public wells in certain villages. In Malabar the Revenue officials have kept in touch with the ryots and the Agricultural Officers have utilized the occasion of jamabandi to hold Agricultural demonstrations, which, however, attracted little attention from the public. The ryots of Malabar, as usual, showed little interest in jamabandi.

48. *Extent to which the inspections of subordinate offices have been carried out by the Board, Collectors and Revenue Divisional Officers.*—The reports received from the Collectors show that there were very few subordinate offices which had not been inspected by themselves and their Revenue Divisional Officers.

The Land Revenue Commissioner has so far made a detailed inspection of the Guntur, South Arcot, Cuddapah, Kurnool, Anantapur and Chingleput Collectors' offices.

A scrutiny of the notes of inspection, both of subordinate offices by Collectors and of Collectors' offices by the Board shows that the administration on the whole is in a thoroughly efficient condition. Collectors' notes on divisional offices have been thorough, and the

Board in reviewing them, has (as in the past) taken the opportunity of pointing out any marked defects. Only rarely has it found it necessary to express its displeasure at the work of individual officers. The systematic recording of the work of all junior Revenue Divisional Officers continued throughout the fasli.

49. *Rent roll (quinquennial).*—Statement No. 20 shows the number of pattas of various values held in the several districts of the Presidency for fasli 1340 (1930–31). Excluding Madras, where the land revenue consists mainly of quit-rent imposed on house-sites, the total number of pattas held during the last fasli of the quinquennium amounted to 5,797,807 or 382,292 more than at the end of the previous quinquennium, i.e., 294,273 under single pattas and 88,019 under joint pattas. There was an increase in all the districts and it was particularly large in Tanjore (39,918), South Arcot (33,497), West Godavari (29,412), Anantapur (29,081), East Godavari (25,913), Malabar (21,299) and Trichinopoly (20,905). These districts alone contributed an increase of 200,025 or about 52 per cent of the total increase. The increase was in the main due to the grant of waste lands on darkhast in the ordinary course and grants to the depressed classes and ex-military men, and partly to the splitting up of joint holdings and the grant of separate pattas, after subdivision, to the several joint owners. The bulk of the increase under single and joint pattas was confined to pattas paying Rs. 10 and less but over Re. 1 a year, which amounted to 232,311 or about 61 per cent of the total increase. Of the total number of pattas held, 3,169,312 or about 55 per cent were assessed at Rs. 10 and less but over Re. 1 a year, the gross assessment thereon being Rs. 1,30,05,233. The average area of and assessment on pattas paying Rs. 10 and less but over Re. 1 work out to about 3 acres and Rs. 4 respectively. The bulk of the land covered by these small holdings is 'dry' (8,792,471 acres).
