2. *Character of the season.*—The South-West Monsoon set in early in the third week of May and caused fairly widespread rains up to the 22nd of the month and slackened thereafter. There was an advance of the Arabian Sea monsoon along the West Coast on the 4th June which was, however, not maintained. It again advanced into Malabar on the 14th June. The rainfall in June was below the normal in East Godavari (Agency), West Godavari, Kistna, Guntur, Bellary, Anantapur, Malabar and South Kanara, normal in Trichinopoly and above the normal elsewhere. The rainfall in July was, however, below the normal in all districts except East Godavari, West Godavari, Kistna, Ramnad and the West Coast where it was above the normal. In August, the monsoon was active between the 10th and 25th, being associated with two depressions in the Bay of Bengal off the Orissa-Circars coast on the 12th and the Orissa coast on the 21st. The heavy rains

in the month interfered with the sowings in the Circars where it damaged the standing crops to some extent, especially in the taluks of Narasapur, Bhimavaram, Tadepalligudem and Ellore of West Godavari and in these places the rules were relaxed to provide for the grant of full remission of wet assessment and water-cess, if the yield of the crops was two annas and less as against one anna in ordinary years. The heavy floods in the river Godavari resulted also in the loss of crops in the riverside and lanka villages of the East Godavari district, necessitating the grant of remission. The rainfall in August was above the normal in the Circars, Kurnool, Bellary and the West Coast and below the normal elsewhere. The Arabian Sea current was weak during the first fortnight of September, revived temporarily in the third week and withdrew finally on the 24th of the month. The Bay current also was not active. Both the branches of the monsoon withdrew at the end of the month. The only notable feature during the month was the formation of a depression in the Bay of Bengal off the Circars coast on the 15th, causing widespread rains along the Orissa-Circar coast on the 16th and 17th. There were, however, numerous thunderstorms during the month. The rainfall in the month was normal in Cuddapah and Coimbatore, above the normal in Chittoor, Salem, Trichinopoly, Madura, Ramnad and Tinnevely and below the normal elsewhere, especially on the West Coast. On the whole, the rainfall during the south-west monsoon (June to September 1940) bordered on or above the normal in the Circars, Cuddapah, Chittoor, Madura, Ramnad, Tinnevely and the West Coast and was defective in the rest of the Province. The rains during the south-west monsoon were timely and well distributed in Kurnool and Salem and were therefore favourable though they were below the normal.

Freshes came down the main rivers in time and continued steady and sufficient throughout the cultivation season.

Sowings of the early crops were above the average in the Deccan and the Carnatic districts and below the average in the Circars. In the rest of the Province, sowings of the early dry crops were below the average but sowings of the early wet crops were above the average.

The condition of the standing crops was generally satisfactory.

The weather was dry from the 1st to the 4th October and became thundery afterwards. As the result of two cyclonic storms, one in the Arabian Sea and the other in the Bay of Bengal, there was a spell of wet weather in the Province between the 7th and the 17th, a few thundershowers continuing thereafter. The north-east monsoon established itself by the end of the month. The rainfall in October was above the normal in Guntur, the Deccan, Nellore, Chittoor, North Arcot, Ramnad and South Kanara, and below the normal in the rest of the Province, especially in Vizagapatam, East Godavari and West Godavari. Conditions became unsettled in the

south-west Bay of Bengal on the 1st November. In association with this disturbance the north-east monsoon was active in the southern half of the Province during the first six days of the month. The activity of the monsoon was confined to the southern districts during the next two days. The heavy rains in the first week of November submerged the standing paddy crop in the coastal taluks of Negapatam, Tirutturaipoondi and Shiyali of Tanjore; and Government granted extra concessions by way of partial remission of assessment. The weather became unsettled in the neighbourhood of Ceylon between the 7th and the 10th and the unsettled conditions rapidly developed into a depression in the south-west Bay of Bengal on the 11th morning. The depression crossed the coast between Madras and Cuddalore on the 11th-12th night. It passed into the Arabian Sea across Malabar on the 13th morning, intensified into a storm by that evening and weakened afterwards. Simultaneously with this weakening, conditions became unsettled in the south-west Bay of Bengal on the 14th. A depression formed by the 15th morning, moved northwards and developed into a storm on the 17th morning. Conditions were again unsettled in the central Bay of Bengal after the 18th, and, moving in a westerly direction, the unsettled conditions became unimportant off the Coromandel coast on the 23rd. In association with these three disturbances, fairly widespread rain fell in the Province between the 11th and the 18th and between the 22nd and 24th and in the southern half of the Province up to the 28th. The rainfall in November was below the normal only in Vizagapatam, East Godavari (Agency) and Bellary and above the normal in the rest of the Province, especially in Nellore, Chingleput, South Arcot, Tanjore and Ramnad. The rainfall in October and November in the Deccan interfered with the sowings but brought good supplies to the irrigation sources. The north-east monsoon in December was generally active in the southern half of the Province, especially in Tinnevely between the 3rd and the 6th and the 11th and the 14th. The rainfall in Tinnevely was very heavy. The Sadyaneri tank in the Tiruchendur taluk breached and flooded wet lands with the result that cultivation was not possible, and remission had to be granted. Good rains were received in the month in Nellore, Chingleput, South Arcot, Coimbatore, Tanjore, Madura and Ramnad. Crops in the Circars and the Deccan were harvested in ideal weather as heavy rains and winds were absent. The rainfall in November and December brought good supplies to the irrigation sources though it damaged standing crops to some extent in parts of the Province. The rains were too heavy for Tinnevelies cotton and resowings had to be done in parts. Practically little rainfall was received in January 1941 outside South Arcot, North Arcot and the southern districts. On the whole, the rainfall during the north-east monsoon (October 1940 to January 1941) was below the normal in Vizagapatam, East Godavari, West Godavari and Kistna and above the normal in the rest of the Province especially in Nellore, South Arcot, Tanjore, Ramnad and Tinnevely.

Sowings of the late crops were above the average in the Carnatic and below the average in the Circars, the Deccan and in the central districts. The variations in the southern districts and the West Coast were small.

The condition of the late crops was generally satisfactory.

There were local thundershowers on the 1st, 2nd and 9th February. March was practically rainless and the Province was under a spell of unusually warm weather throughout the month. Salem, Coimbatore, Trichinopoly, the southern districts and Malabar experienced rainfall in April, mainly during the five days ending on the 15th. Malabar experienced a severe cyclone on the 26th May. The heavy rains received on the next two days worked considerable havoc in South Malabar, especially in Ponnani taluk. The rainfall in May was excessive in Malabar, above the normal in Vizagapatam, Salem, and Tinnevely, normal in Chittoor and below the normal in the rest of the Province. On the whole the rainfall during the hot weather period (February to May 1941) was above the normal only in Salem, Coimbatore, Tanjore, Madura, Tinnevely and Malabar and below the normal in the rest of the Province.

Generally, the season was favourable in the year under review in the Province, especially in Kurnool, Cuddapah, and Salem and was better than in the previous five years. This is corroborated by the fact that (i) the total area cropped, (ii) the area of crops sown more than once, (iii) the area irrigated, (iv) the area of crops irrigated, and (v) the estimated total yield of the main cereals (paddy, cholam, cumbu, ragi, korra, varagu, samai and maize) in the Province in 1940-41 were higher than in any of the previous five faslis. The area under paddy was the highest reported in any year. There were no relief operations under the Famine Code during the year under review.

Remissions of land revenue were appreciably less than in the previous year in most districts. Land revenue in the year under review had to be remitted on a comparatively large scale only in parts of East Godavari (Rs. 37,453), West Godavari (Rs. 89,737), Kistna (Rs. 96,635), Anantapur (Rs. 92,363), Chittoor (Rs. 55,118), North Arcot (Rs. 57,895) and Tanjore (Rs. 58,084). In view of the adverse seasonal conditions in 12 villages of the Bellary taluk, Government sanctioned the remission of dry assessment at four annas in the rupee but the amount involved in the remission was small, being only Rs. 4,142. In the Sankarankoil taluk of Tinnevely the yield of cotton was affected by the heavy rains and consequently, the collection of four annas in the rupee of the March and May kists of the dry assessment of fasli 1349 was further postponed to fasli 1351.

In addition to the seasonal remissions and suspensions referred to above, Government ordered that the land revenue concessions granted for fasli 1349 on account of the fall in the prices of agricultural produce should be repeated for fasli 1350.

Stocks of fodder were generally sufficient.

3. The total number of ryotwari villages in the Presidency was 21,097 against 21,089 in the previous fasli. The increase of 8 villages was due to the following reasons:—

- (i) Resumption of one mokhasa village in the Vizagapatam district.
- (ii) Bifurcation of 2 villages in Gudur and Atmakur taluks of the Nellore district.
- (iii) Bifurcation of 3 villages in Proddatur, Siddhout and Rajampet taluks and resumption of one village in Rajampet taluk of the Cuddapah district.
- (iv) Bifurcation of 2 villages in Karur taluk of the Trichinopoly district.
- (v) Decrease of one village in the Salem district due to regrouping of villages in the Hosur taluk.

4. The land revenue of the Province is derived from the following sources:—

- (i) Peshkash or revenue from permanently settled estates;
- (ii) shrotriyum jodi or quit-rent levited on inam villages;
- (iii) assessment including water-rate on lands held under ryotwari tenure; and
- (iv) miscellaneous revenue.

5. Peshkash or revenue from permanently settled estates.—The total amount of peshkash payable during the fasli was Rs. 47,46,042 as against Rs. 47,49,346 in the previous fasli. The decrease of Rs. 3,304 is explained below:—

	RS.
Increase due to—	
Rectification of errors	+ 193
Decrease due to:—	
(i) Inclusion of arrears payable by the corporation of Madras in the previous fasli but not collected in the present fasli	— 3,314
(ii) Acquisition of land	— 183
Total decrease	— 3,497
Net decrease	— 3,304

6. The quit-rent payable on villages held on shrotriyam or favourable tenure was Rs. 7,33,966 as against Rs. 7,33,985 in the previous fasli. The decrease of Rs. 19 is accounted for as follows:—

	RS.
Increase due to—	
(i) Rectification of errors	+ 133
(ii) Kaval fees, etc., newly levied in the Tanjore district in the fasli as it was omitted in previous years	+ 10
Total increase	+ 143

Decrease due to—	RS.
(i) Acquisition of land	— 25
(ii) Kaval fees in respect of inams attached to zamin villages in the Tanjore district ordered not to be collected as the amount has already been included in the peshkash charged on the zamin ..	— 127
Total decrease ..	— 152
Net decrease ..	— 19

7. The total extent of the ryotwari holdings during the fasli was 27,611,569 acres and exceeded that of the previous fasli 27,605,309 acres (as now revised) by 6,260 acres. There was an increase in all the districts except in the following districts where there was a decrease:

East Godavari (1,868 acres), Guntur (84 acres), Nellore (426 acres), Chingleput (231 acres), South Arcot (57 acres), Tanjore (2,247 acres), Ramnad (363 acres); Tinnevelly (562 acres) and South Kanara (257 acres). The increase was marked in the districts of Malabar (3,697 acres) and Salem (2,352 acres). The increase in Malabar district was mainly due to the transfer of "unoccupied dry lands" to "occupied dry" and "wet" and that in Salem district was mainly due to assignments and resumption of inam lands.

The increase in the other districts was chiefly due to fresh assignments or resumption of minor inams.

8. The total assessment on holdings was Rs. 603.43 lakhs against Rs. 603.01 lakhs (as now revised) in the previous fasli showing a net increase of Rs. 42,630. There was an increase in all districts except the following in which there was a decrease:—

East Godavari (Rs. 541), Guntur (Rs. 47), Bellary (Rs. 812), Kurnool (Rs. 1,465), Chingleput (Rs. 10), Tanjore (Rs. 14,542), Ramnad (Rs. 268), Tinnevelly (Rs. 25), and South Kanara (Rs. 7,274). The decrease in Tanjore was mainly due to the restoration to inam tenure of the lands set apart for the payment of mohini allowances, and that in South Kanara was due to the reclassification as dry of pepper gardens and the reduction of the rate of assessment of kumri lands in certain kumri villages in the Kasaragod taluk. The increase was marked in the districts of Cuddapah (Rs. 49,804), Malabar (Rs. 6,337) and Salem (Rs. 2,069). The increase in Cuddapah was mainly due to the transfer from dry to wet of a large extent, due to the second resettlement. In Malabar it was due to the transfer of "unoccupied dry" land to "occupied dry" and "wet" and of "dry land" to "garden" and "wet" in the plains taluks and of "undeveloped dry" to "developed dry" in the Wynad taluk. The increase in Salem was due to assignments. The increase in the other districts was mainly due to assignments.

9. The total area cultivated in ryotwari holdings was 20.96 million acres against 20.74 million acres in the previous fasli. There was a net increase of 143,186 acres under dry, and 73,716 acres under wet. The total area cultivated during the year including that under "Miscellaneous cultivation" was 21.93 million acres against 21.75 million acres in the previous fasli. There was a decrease of 160,546 acres under "waste charged."

10. *Water-rate and second-crop charge.*—The revenue derived from these sources amounted to Rs. 48.08 lakhs against Rs. 39.97 lakhs in the previous fasli. There was a gross increase of Rs. 8,10,883 spread over all the districts except Cuddapah, where there was a decrease of Rs. 311. The net increase was Rs. 8,10,572. The increase was marked in Nellore (Rs. 1,15,749), Chingleput (Rs. 1,14,503), Tinnevelly (Rs. 71,647), North Arcot (Rs. 71,251), South Arcot (Rs. 70,240), Madura (Rs. 68,808) and East Godavari (Rs. 65,602). The increase in Nellore, Tinnevelly, North Arcot, and East Godavari was chiefly due to the adequacy of the supplies received in irrigation sources. The increase in Chingleput, South Arcot, and Madura was due to better seasonal conditions. The increase in the remaining districts was due to the supply of water being better than in the previous fasli.

11. *Remissions.*—There was a total remission of Rs. 90.30 lakhs, of which Rs. 15.99 lakhs related to seasonal and fixed remissions and Rs. 74.31 lakhs represented the special concession granted under the Press Communiqué issued in G.O. No. P. 3020, Revenue, dated 6th December 1940. As compared with the previous year there was a net decrease of Rs. 17,51,022 under seasonal and fixed remissions. The decrease was marked in Kistna (Rs. 3,03,583), Tinnevelly (Rs. 2,54,139), Tanjore (Rs. 2,00,792), Chingleput (Rs. 1,87,246), Guntur (Rs. 1,39,003) and West Godavari (Rs. 1,00,872).

(i) *Seasonal remissions.*—The amount remitted under this head was Rs. 6,38,350, against Rs. 22,53,650 in the previous fasli, and there was thus a net decrease of Rs. 16,15,300. The decrease which was due to better seasonal conditions was marked in Kistna (Rs. 3,03,208), Tinnevelly (Rs. 2,42,576), Chingleput (Rs. 1,88,122) and Guntur (Rs. 1,38,466).—

(a) *Waste remitted.*—Remissions under this head amounted to Rs. 1.42 lakhs, against Rs. 3.72 lakhs in the previous fasli. There was a decrease of Rs. 240,630 in some districts but an increase of Rs. 10,613 in some others, giving a net decrease of Rs. 2,30,017.

Special dry remissions of Rs. 4,142 in the Bellary taluk of the Bellary district was granted under G.O. Ms. No. 1520, Revenue, dated 5th July 1941. The collection of March and May kists (4 annas in the rupee) of the dry assessment of some villages

12. BOARD OF REVENUE, No. 146, PRESS, 22ND DEC. 1941

in the Sankarankoil taluk of the Tinnevely district was postponed to fasli 1351 under G.O. Ms. No. 429, Revenue, dated 26th February 1941.

(b) *Shavi and short crop*.—The total amount remitted under this head was Rs. 2,05,571 against Rs. 11,36,541 in the previous fasli, the net decrease being Rs. 9,30,970. The decrease which was due to favourable seasonal conditions was marked in Kistna (Rs. 3,06,908), Tinnevely (Rs. 1,18,295), Guntur (Rs. 1,16,749) and Chingleput (Rs. 99,853). There was, however, an increase in East Godavari (Rs. 7,863) and Chittoor (Rs. 398).

(c) *Tirvakammi remissions (i.e., remissions of the difference between wet and dry assessments on wet lands cultivated with dry crops owing to insufficiency or failure of water-supply)*.—The amount remitted under this head was Rs. 1,79,068 against Rs. 5,21,271 in the previous fasli, resulting in a net decrease of Rs. 3,42,203. The decrease was marked in Tinnevely (Rs. 94,497), Ramnad (Rs. 44,495) and Chingleput (Rs. 40,162).

(d) *Injury by floods*.—The amount remitted under this head was Rs. 78,323 against Rs. 1,67,273 in the previous fasli, resulting in a net decrease of Rs. 88,950.

(e) *Remission of second crop charge*.—The amount remitted under this head was Rs. 18,730 against Rs. 45,396 in the previous fasli, the net decrease being Rs. 26,666. The decrease was marked in North Arcot (Rs. 10,010).

(ii) *Fixed remissions (i.e., abatement of demand on account of reasons unconnected with the season)*.—These remissions amounted to Rs. 1.42 lakhs against Rs. 1.40 lakhs in the previous fasli, resulting in a net increase of Rs. 1,889. The increase was marked in East Godavari and South Arcot. In East Godavari, it was chiefly due to the introduction of new rates of assessment and in South Arcot to the alienations of land revenue sanctioned on a large scale for the lands purchased by the District Board for road purposes.

(iii) *Beriz deductions*.—Deductions made in favour of inamdars and religious institutions amounted to Rs. 8.19 lakhs against Rs. 9.57 lakhs in the previous fasli, resulting in a net decrease of Rs. 1,37,611.

(iv) *Special remissions*.—In the Press Communiqué No. 95, dated 6th December 1940, the Government ordered that the land revenue concessions sanctioned for fasli 1347 and repeated in faslis 1348 and 1349 should be continued for fasli 1350 also. The concessions were in the following form:—

(1) Cancellation of percentage enhancement imposed at re-settlement on dry, wet and garden lands in certain tracts re-settled in recent years.

(2) Grant of a remission of two annas in the rupee of the wet assessment in the remaining areas of the Province.

(3) A temporary reduction of water-cess from Rs. 6-4-0 to Rs. 5-12-0 an acre for a first crop with corresponding reductions for other crops in the East and West Godavari and Kistna districts and in the deltaic tracts of the Guntur district.

The actual cost of the concessions granted under these orders came to Rs. 74.31 lakhs.

12. *Miscellaneous Revenue*.—The revenue under this head amounted to Rs. 121.89 lakhs against Rs. 117.64 lakhs in the previous fasli. There was an increase of Rs. 6,91,005 in some districts and a decrease of Rs. 2,66,208 in others, resulting in a net increase of Rs. 4,24,797. The several items are dealt with below:—

There were no porambokes to be reclassified in the district of Madras. The work of reclassification is reported to have been completed in almost all the other districts. Total ..	1,19,23,066	1,20,98,125

16. *Demand and collection of land revenue and cesses (current).*—The current demand under land revenue and cesses during the fasli was Rs. 9,37,03,632. A sum of Rs. 8,42,61,819 or 89.9 per cent was collected within the fasli and Rs. 70,61,847 or 7.5 per cent written off the accounts. The collection of a sum of Rs. 6,16,654 or 0.7 per cent was suspended or postponed. The percentage of collection to collectable demand was therefore 98.0. The percentage of collection to demand during the previous fasli was 90.0, that written off was 7.6 and that suspended or postponed 0.8. The percentage of collection to the collectable demand was 98.4. The land revenue concessions for fasli 1350 have been dealt with in paragraph 11 (iv) above.

17. *The demand and collection of arrears.*—The total arrear demand under all the heads amounted to Rs. 28,92,301. A sum of Rs. 18,82,458 or 65.4 per cent was collected and a sum of Rs. 96,322 or 1.3 per cent written off the accounts. The percentage of collection in the previous fasli was 78.7 and that written off was 3.0.

18. The balance outstanding at the end of the fasli including both arrears and current was Rs. 34,03,485 against Rs. 28,90,283.

at the end of the previous fasli. As reported by the Collectors in their Demand, Collection and Balance statements for October 1941 the balance at the beginning of fasli 1351 was Rs. 34,11,388. Up to the end of October 1941 a sum of Rs. 19,54,581 was collected and Rs. 39,694 written off the accounts. Sanction has been accorded to write off Rs. 25 and proposals have been made to write off Rs. 97,605. The net recoverable balance on 1st November 1941 was thus Rs. 13,19,483. Out of this amount a sum of Rs. 7,12,987 is covered by orders of suspension or postponements in the Presidency. Deducting this amount, the realizable balance on 1st November 1941 was Rs. 6,06,496.

19. *Adjustments to Local Boards of cesses collected during the fasli.*—Land revenue and cesses are collected together and the distribution of the total collections between land revenue and cesses is effected in the Collector's office after the compilation of the accounts relating to the fasli year.

Statements showing the amounts collected during fasli 1350 on behalf of Local Boards, the payments made to them during the fasli and the amounts to be finally adjusted either to their credit or debit are received from the Collectors. After verification, by the Accountant-General, of the amounts shown by Collectors as payments made to Local Boards, the recovery of overpayments is being watched by the Board in accordance with the instructions contained in paragraph (3) of G.O. No. 5197, L. & M., dated 7th December 1926.

20. *Charges debitable to land revenue.*—The charges in the Land Revenue department are shown in the accounts under the head '25. General Administration'. The District Administration charges excluding village establishments amounted to Rs. 106.21 lakhs during fasli 1350. The village service charges including those of proprietary estates during the fasli were Rs. 116.30 lakhs. The total charges amounted to Rs. 222.51 lakhs or 25.8 per cent of the total land revenue and cesses collected.

It has, however, to be borne in mind that the expenditure does not represent merely the cost of collecting the land revenue. The Land Revenue department performs multifarious duties, of which the control and collection of land revenue is only one. The village establishment in particular is the servant of all departments of the Government. Moreover a considerable portion of the time of the Collector and his subordinate officials is occupied with magisterial work. While the actual cost of collecting the land revenue cannot be estimated with any degree of accuracy, it is certainly far less than the amount of expenditure shown above.

21. *Process under Act II of 1864.*—Statement No. 12 gives particulars of coercive processes issued for the realization of the Government dues under Madras Act II of 1864. The following

In cases where Government water was taken without permission, deterrent penalties were imposed.

* Revised figures.

(a) Difference 33 villages.—In Saldapet and Sriperumbudur taluks, the work has not been completed and the Tahsildars have been asked to complete it soon.

(b) Difference 1 village.—A register for Yarada village (recently resumed) will be opened in fasli 1351.

(c) Difference 3 villages.—Statistical registers have not been prescribed for the three Javadi hill villages in Tirupattur taluk, which are under the control of the Forest department.

44. *Minor irrigation.*—Statement No. 19 shows for each district the number of works in charge of the Revenue department, the number repaired and the amount spent on them during the official year ending 31st March 1941. The statement also shows the number proposed for repair during the official year ending 31st March 1942.

45. *Conference with ryots.*—Ryots' conferences were held in all the districts except Chingleput, Chittoor, Coimbatore and Malabar, and the grievances of the ryots were either redressed or steps were taken to redress them.

46. *Extent to which the inspection of subordinate offices has been carried out by the Board, Collectors and Revenue Divisional Officers.*—All subordinate offices were inspected by the Collectors and the Revenue Divisional Officers. The Collectors' inspection of the Revenue Divisional offices was generally thorough. The

Board examined the notes of inspection and issued suitable instructions.

During the fasli under report, the Members of the Board of Revenue inspected the offices of the Collectors of Chittoor, Chingleput, Cuddapah, North Arcot, Trichinopoly, Ramnad, Coimbatore, Kistna, Guntur, West Godavari, Salem, Madura and Tanjore and found that the administration of the districts continued to be efficient.

47. *Administration of charitable and religious service inams.*—The administration of charitable and religious service inams continued to be generally satisfactory in all districts.

In cases of alienation of the inam lands or cessation of the prescribed services every facility was afforded to the inamdars to redeem the inams alienated by them or to revive the service. The inams were resumed only on the failure of the inamdars to avail themselves of the opportunity afforded to them. The principles laid down in paragraphs 7 and 8 of Board's Standing Order No. 54 were duly observed in connexion with the reassignment of the net assessment on the resumed inams. 2,890.53 acres of religious and 62.12 acres of charitable service inams with an assessment of Rs. 2,168-7-4 and Rs. 227-3-0 respectively were resumed in the fasli on account of alienation of the inam lands or cessation of the prescribed services or disappearance of the institutions. As regards resumed religious service inams net assessments amounting to Rs. 2,081-2-8 were reassigned to working incumbents and the balance of Rs. 87-4-8 was credited to the general revenues. In respect of resumed charitable service inams net assessments amounting to Rs. 125-11-5 were reassigned to the working incumbents and the balance of Rs. 101-7-7 was credited to the general revenues.

48. *Rent roll (Quinquennial).*—Statement No. 20 shows the number of pattas of various values held in the several districts of the Presidency for fasli 1350 (1940-41). Excluding Madras, where the land revenue consists mainly of quit-rent imposed on house-sites, the total number of pattas held during the last fasli of the quinquennium was 6,689,824, or 520,242 more than at the end of the previous quinquennium, i.e., 65,843 under single pattas and 454,399 under joint pattas. There was an increase in all the districts except Anantapur and Ramnad. In Anantapur there was a decrease of 5,750 pattas and in Ramnad the decrease was 3,234. The increase was marked in Malabar (148,324), Guntur (71,187), Nellore (67,598), South Arcot (28,969), Tanjore (24,250) and North Arcot (23,474). These districts contributed an increase of 363,802, or about 70 per cent of the total increase. The increase was mainly due to the grant of waste lands on darkhast, and to the splitting up of joint holdings, and the grant of separate pattas

after subdivision to the several joint-holders. The bulk of the increase under single and joint pattas was confined to pattas paying Rs. 10 and less but over Re. 1. This came to 241,317 or about 46 per cent of the total increase. Of the total number of pattas held, 3,652,536 or about 54 per cent, were assessed at Rs. 10 and less but over Re. 1 a year, the gross assessment thereon being Rs. 1,52,49,503. The average extent of land and assessment on pattas paying Rs. 10 and less but over Re. 1, work out to about 3 acres and Rs. 4 respectively. The bulk of the land covered by these small holdings is dry (9,399,485 acres).
