The Board submits its report on the settlement of land revenue in the Madras Presidency for fasli 1352 (1942-43) together with the prescribed statements.

The main features of the fasli were—

(i) On the whole the season was generally fair only in the Godavari, Kistna, South Arcot, Salem, Coimbatore, Trichinopoly, the South, the West Coast and the Nilgiris. It was below the normal in the other districts especially in parts of the Deccan where it was bad—vide paragraph 2.

(ii) The total extent of ryotwari holdings increased by 12,840 acres from 27,633,563 acres in the previous fasli—vide paragraph 7.

(iii) The total assessment on holdings showed an increase of Rs. 6,324 from Rs. 6,03,61,170 in the previous fasli—vide paragraph 8.

(iv) The total area cultivated in ryotwari holdings decreased by 185,884 acres—vide paragraph 9.

(v) The amount of water-rate and second-crop charge increased by Rs. 33,084—vide paragraph 10.

(vi) Season remissions increased by Rs. 21,40,494—vide paragraph 11 (i).

(vii) Fixed remissions decreased by Rs. 20,487—vide paragraph 11 (ii).

(viii) Beriz deductions increased by Rs. 14,153—vide paragraph 11 (iii).

(ix) The amount of revenue remitted in this fasli was Rs. 120.33 lakhs against Rs. 99.79 lakhs in the last fasli. This includes Rs. 72.26 lakhs under general remissions which do not depend on the season—vide paragraph 11.

(x) Miscellaneous revenue increased by Rs. 6,69,841—vide paragraph 12.

(xi) There was a decrease in the number of land sales—vide paragraph 26.

2. *Season.*—The south-west monsoon set in on the Malabar Coast in the second week of June 1942 and was generally active during the rest of the month. Thunderstorms occurred over the Peninsula during the first week of the month. The rainfall in June was above the normal in the Deccan, Nellore, Chingleput, Chittoor, North Arcot, Salem, Malabar, South Kanara and the Nilgiris and below the normal in the other districts of the Province. The early rains gave a good start for the sowing of paddy on the West Coast and of the early dry crops in the Deccan. The monsoon continued to be active on the West Coast in July and the rainfall in the month was above the normal in Malabar, South Kanara and the Nilgiris and below the normal elsewhere. Except for a temporary strengthening in the third week of August 1942, the monsoon was feeble on the West Coast. It was, however, fairly well maintained during the second fortnight of the month in the rest of the Province. The rainfall in August 1942 was normal or bordering on the normal in Kistna, Anantapur, Chingleput and Tinnevely, above the normal in the Circars (except Kistna), Kurnool, Cuddapah, Nellore, South Arcot, the Central districts (except Trichinopoly) Tanjore, Madura and the Nilgiris, and below the normal in the other districts. The monsoon, however, was not so active in September, but thunderstorm activity was fairly pronounced in parts of the Province during the second and last week of the month. The rainfall in the month was normal in Tinnevely, above the normal in South Arcot, Trichinopoly, Tanjore, Madura, and Ramnad and

below the normal in the rest of the Province. On the whole the rainfall during the south-west monsoon (June to September 1942) was below the normal in all the districts except West Godavari, South Arcot, Madura, Malabar, South Kanara and the Nilgiris where it was slightly above the normal.

Freshes came down the main rivers in time and continued steady and generally sufficient for agricultural operations.

Sowings of the early crops were above the average in the south and below the average in the Carnatic. In the rest of the Province, sowings were below the average in the case of early dry crops and above the average in the case of early wet crops.

The condition of the standing crops was generally satisfactory except in parts of the Deccan and Chittoor where the crops were affected by drought.

During the first fortnight of October, local thunder showers occurred in the Peninsula. A weak depression formed in the south-east Arabian sea on the 13th caused fairly widespread rain in and around Malabar during the period 13th to 16th. A trough of low pressure appeared over the Bay of Bengal on the 28th and developed into a depression causing locally heavy rain along the North Madras Coast. The rainfall in October was above the normal in East Godavari (Plain), West Godavari, Madura and Malabar and below the normal in the rest of the Province. Rainfall was generally widespread in the North Madras Coast on the 18th and 19th November as a result of low pressure which lay along and off the Coromandel-Circars Coast during the period. The weather was generally dry over the country in the rest of the month except for occasional and scattered thunder showers in the south of the Peninsula. The rainfall in November was below the normal in all the districts except Vizagapatam and East Godavari (Plains). As a result of the insufficient rainfall, paddy and dry crops began to fade in parts of the Deccan, Chingleput, Chittoor and North Arcot. The north-east monsoon was active during the second week of December 1942, and caused fairly widespread and locally heavy rain in the south of the Peninsula. Thunderstorm activity was pronounced in the third week of the month. There was practically no rainfall in the month in the Circars; it was light in the Deccan and above the normal in the rest of the Province. The rains of December helped to revive the withering crops in the districts of Chingleput, Chittoor and North Arcot. The monsoon strengthened in the first week of January and caused locally heavy rain in the Peninsula and the weather was generally dry thereafter. On the whole, the rainfall during the north-east monsoon (October 1942 to January 1943) was above the normal in Vizagapatam, East Godavari (Plains), Salem, Coimbatore, Trichinopoly, Madura, Ramnad, Tinnevely, Malabar, and the Nilgiris and below the normal in the other districts of the Province.

Sowings of the late crops were restricted or below the average except for dry crops in the Circars, the Carnatic and the Central districts.

As a result of the belated and insufficient rains during the north-east monsoon crops withered or became shavi in parts of the Deccan, Chittoor, Chingleput and North Arcot.

The weather was generally dry in February except for local thunder showers in south-east Madras and Malabar on the 12th and 13th March was practically rainless except for local showers in the south and in Malabar on 22nd and 23rd. Thunderstorm activity was pronounced in April and there

were fairly widespread thunder showers in the Province between the 8th and 10th, 20th and 21st and 27th to 30th. The rainfall in the month was above the normal except in Cuddapah and South Kanara. Thunder showers commenced in parts of the Province in the second week of May and there was unusually heavy rainfall with cyclonic weather between the 17th and 20th. The copious rains brought supplies to irrigation sources in the Carnatic, Chittoor and North Arcot and helped the raising of short duration crops. The monsoon advanced on the West Coast earlier than usual, i.e., in the second fortnight of May 1943 and gave fairly heavy rains. The rainfall in the month was above the normal except in Vizagapatam, East Godavari and West Godavari. The hot weather rains were on the whole considerably in excess of the normal throughout the Province.

On the whole, the season was generally fair only in East Godavari, West Godavari, Kistna, South Arcot, Salem, Coimbatore, Trichinopoly, the South, the West Coast, and the Nilgiris; it was below the normal in the other districts especially in parts of the Deccan where it was disappointing.

Owing to the inadequate and ill-distributed rainfall in both the monsoons, and the consequent failure of crops, relief operations under the Famine Code were found necessary in the districts of Kurnool, Bellary and Anantapur. Severe distress was confined to the Pattikonda taluk of the Kurnool district, the taluks of Alur, Adoni, Bellary, Rayadrug and Siruguppa of the Bellary district and the taluks of Gooty, Tadpatri, Anantapur, Kalyandrug, Penukonda, Dharmavaram and Madakasira of the Anantapur district. Distress was severe in the districts of Bellary and Anantapur and a number of relief works had to be opened. Twenty-six relief works in the Bellary district, fourteen relief works in the Anantapur district and five relief works in the Kurnool district were in progress at the close of the year, the average number of persons relieved daily in all the three districts during the week ending 26th June 1943 being 285,174 of whom 217,226 were workers, 59,248 were dependents and 8,700 received gratuitous relief.

The failure of the north-east monsoon also necessitated the starting of road works in Kurnool and Cuddapah districts. Relief was given to weaving classes in Salem town through relief centres and a large number of weavers were given work in these centres in executing the orders of the Supply department.

Land Revenue had to be remitted on a comparatively large scale in parts of Guntur (Rs. 3,61,957), Kurnool (Rs. 2,62,914), Anantapur (Rs. 6,10,056), Cuddapah (Rs. 3,19,156), Chingleput (Rs. 3,31,487), Chittoor (Rs. 2,31,764) and North Arcot (Rs. 4,76,954). In view of the adverse seasonal conditions, graded remission of assessment on dry lands ranging from 25 to 100 per cent was granted by the Government to 443 villages in the Bellary, Rayadrug, Siruguppa, Adoni, Alur, Hospet, Hadagalli, Harpanahalli, and Kudligi taluks and the Yemmiganur sub-taluk of the Bellary district, to 113 villages in Pattikonda, Koilkuntla, Kurnool, Nandyal and Sirvel taluks of the Kurnool district, to 623 villages in Dharmavaram, Kalyandrug, Anantapur, Gooty, Tadpatri, Madakasira, Hindupur, Kadiri and Penukonda taluks of the Anantapur district, to 202 villages in Jammalamadugu, Pulivendla and Proddatur taluks and Kamalapuram sub-taluk of the Cuddapah district and to 93 villages in Madanapalle taluk of the Chittoor district. The amount involved in the remission was 9,01,549 in the Bellary district, Rs. 4,75,289 in the Anantapur district, Rs. 2,81,833 in the Cuddapah district, Rs. 2,52,000 in the Kurnool district and Rs. 57,724 in the Chittoor district.

In addition to the seasonal remissions referred to above, the Government continued the land revenue concessions for fasli 1352 also. These concessions consisted of:—

(i) the cancellation of the percentage enhancements imposed at resettlement in all areas resettled after 1914;

(ii) a remission of two annas in the rupee of the wet assessment in the remaining areas of the Province;

(iii) a reduction of water-cess in East and West Godavari, Kistna and the deltaic tracts of Guntur from Rs. 6-4-0 to Rs. 5-12-0 per acre for the first crop with corresponding reductions for other crops.

The collection of the loan instalments in all the villages covered by the dry remission proposals and the collection of the unremitted revenue in cases in which dry remission in part is sanctioned in the districts of Kurnool, Bellary and Anantapur were postponed to fasli 1353.

Stocks of fodder were generally sufficient except in parts of the districts of Kurnool, Bellary and Anantapur. Free grazing facilities in the reserved and Panchayat Forests were granted in parts of the districts of Kurnool and Anantapur. Five fodder depots were opened in the taluks of Alur, Bellary and Siruguppa where hill-grass was collected and sold.

3. The total number of ryotwari villages in the Presidency was 21,101 as against 21,099 in the previous fasli. The increase of two villages was due to the bifurcation of two big villages in Chidambaram taluk.

4. The land revenue of the Province is derived from the following sources:—

- (i) Peshkash or revenue from permanently settled estates,
- (ii) Shrotriyam jodi or quit-rent levied on inam villages,
- (iii) Assessment including water-rate on lands held under ryotwari tenure, and
- (iv) Miscellaneous revenue.

5. *Peshkash or revenue from permanently settled estates.*—The total amount of peshkash payable during the fasli was Rs. 47,38,336 (column (3) of Statement No. 10-A) as against Rs. 47,44,000 in the previous fasli. The decrease of Rs. 5,664 is explained below:—

7. The total extent of ryotwari holdings during the fasli was 27,646,403 acres as against 27,633,563 of the previous fasli which shows an increase of 12,840 acres. There was an increase in all the districts except in the following where there was a decrease: East Godavari (60,535 acres), Kistna (1,116 acres), Guntur (72 acres), Nellore (234 acres), Kurnool (668 acres), Chingleput (2,338 acres), Ramnad (82 acres), Coimbatore (56 acres) and the Nilgiris (678 acres). The increase was marked in the districts of West Godavari (61,002 acres) Anantapur (1,838 acres) Chittoor (2,828 acres) North Arcot (2,752 acres), Tanjore (1,277 acres), Madura (1,231 acres) and Malabar (4,140 acres). The increase in the West Godavari district was due to the addition of the holdings in Polavaram taluk transferred to it from East Godavari.

The increase in Malabar was mainly due to the transfer of unoccupied dry lands to occupied dry. The increase in the other districts was chiefly due to fresh assignments and resumption of minor inams.

8. The total assessment on holdings was Rs. 603.67 lakhs as against Rs. 603.61 lakhs in the previous fasli showing a net increase of Rs. 6,324. There was an increase in all the districts except in the following where there was a decrease: East Godavari (Rs. 42,396), Bellary (Rs. 17), Kurnool (Rs. 457), Chingleput (Rs. 5,264), Tanjore (Rs. 7,559), Ramnad (Rs. 33) and The Nilgiris (Rs. 6,874). The decrease in East Godavari was due to the transfer of 83 villages of Polavaram taluk to West Godavari district. The decrease in Chingleput was due to the acquisition of large areas for the Poondi Reservoir Scheme and their transfer to porambores. In Tanjore district the decrease was due to the conversion of ryotwari lands in Kumbakonam taluk into minor inam. The decrease in the Nilgiris was due to the transfer of ground-rent cases of Ootacamund, Coonoor and Kotagiri, towns to miscellaneous accounts. The increase was marked in the districts of West Godavari (Rs. 47,230), Guntur (Rs. 1,414), Chittoor (Rs. 1,859), North Arcot (Rs. 1,914), Trichinopoly (Rs. 1,270), Madura (Rs. 1,669),

Coimbatore (Rs. 1,365), Salem (Rs. 3,042) and Malabar (Rs. 6,117). The increase in West Godavari was due to the transfer of some villages from East Godavari to West Godavari. The increase in Guntur, Trichinopoly and Madura districts was due to the assignment of assessed wastes and their inclusion in holdings. In Chittoor and North Arcot the increase was due to fresh assignments and resumption of minor inam lands. In Coimbatore the increase was due to the increase in the area of developed lands in the Anamalai Hill villages and assignments and transfer of lands from single to double crop. In Malabar the increase was due to fresh assignments and transfers of "unoccupied" dry lands to "occupied" dry and of "dry" lands to "garden" and "wet" in the plains taluks and of "undeveloped dry" lands to "developed dry" in Wynad taluk.

9. (i) The total area cultivated in ryotwari holdings was 20.70 million acres against 20.89 million acres in the previous fasli. There was a net decrease of 185,830 acres under dry and a net decrease of 54 acres under wet. The decrease is marked in the districts of Bellary (243,992 acres), Anantapur (97,103 acres), East Godavari (17,674 acres) and Salem (10,314 acres). The decrease in Bellary, Anantapur and Salem is reported to be due to untimely rains and adverse seasonal conditions, while the decrease in East Godavari is due to relinquishment of certain patta lands.

(ii) The total area cultivated during the fasli including that under "Miscellaneous cultivation" was 21.75 million acres as against 21.83 million acres in the previous fasli. There was an increase of 162,488 acres under waste charged.

10. *Water-rate and second-crop charge.*—The revenue derived from these sources amounted to Rs. 41.84 lakhs against Rs. 41.51 lakhs in the previous fasli. There was a gross increase of Rs. 3,95,282 in some districts and a gross decrease of Rs. 3,62,198 in other districts resulting in a net increase of Rs. 33,084. The increase was marked in the districts of Vizagapatam (Rs. 10,116), East Godavari (Rs. 1,38,945), West Godavari (Rs. 76,918), Guntur (Rs. 23,161), Nellore (Rs. 1,284), Kurnool (Rs. 15,241), South Arcot (Rs. 45,759), Tanjore (Rs. 3,186), Trichinopoly (Rs. 55,714), Madura (Rs. 2,324), Ramnad (Rs. 18,512) and Malabar (Rs. 4,122). The increase in Vizagapatam was due to adequate supply of water in the proper season while in East Godavari the increase was due to the increased area cultivated for the second crop and fasli jasti crops. The increase in West Godavari was due to the favourable season. The increase in the other districts was mainly due to the Grow More Food campaign.

11. *Remissions.*—There was a total remission of Rs. 1,24.02 lakhs, of which Rs. 51.76 lakhs related to seasonal and other remissions and Rs. 72.26 lakhs were the total of the special concessions granted under the Press Communiqué issued in G.O. P. No. 264-S, Revenue, dated 15th December 1942. As compared with the previous year there was an increase of Rs. 23,96,878 under season and fixed remissions. The increase was marked in all the districts except Vizagapatam, West Godavari, Kistna, Guntur, Kurnool, Madras, South Arcot, Tanjore, Trichinopoly, Madura, Ramnad, South Kanara and Malabar.

(i) *Seasonal remissions.*—The amount remitted under this head was Rs. 38,603,36 as against Rs. 17,19,842 (revised figure) in the previous fasli and there was a net increase of Rs. 21,40,494. The increase which was due to unfavourable seasonal conditions was marked in all the

districts except Vizagapatam, West Godavari, Kistna, Guntur, Kurnool, South Arcot, Tanjore, Trichinopoly, Madura, Ramnad, Tinnevely and Malabar where there was a decrease.

The highest district average rate was Rs. 18 in the districts of Tanjore and Coimbatore.

There were no porambokes to be reclassified in the district of Madras. The work of re-classification is reported to have been completed in almost all the other districts. From the reports it is observed that taram assessment was levied on an extent of 115,203 acres against 76,216 acres in the previous fasli. Such occupation was extensive in Guntur (13,116 acres), Nellore (9,885 acres), Anantapur (16,993 acres), Bellary (7,210 acres), Kurnool 6,832 acres), Tanjore (10,752 acres) and Salem (8,331 acres).

Cesses in ryotwari and miscellaneous	98,48,047	1,17,86,378
Total ..	1,29,51,258	1,50,21,313

16. *Demand, collection and balance of land revenue and cesses (current).*—The current demand under land revenue and cesses during the fasli was Rs. 9,15,57,543. A sum of Rs. 8,31,29,439 or 90.9 per cent was collected within the fasli and Rs. 69,63,204 or 7.65 per cent written off the accounts. The collection of a sum of Rs. 1,41,792 or 0.15 per cent was suspended or postponed. The percentage of collection to the collectable demand was 98.4 per cent. The percentage of collection to demand during the previous fasli was 90.0; percentage written off was 7.7 and that suspended or postponed was 0.6.

17. *Demand and collection of arrears.*—The total arrear demand under all the heads amounted to Rs. 24,06,078. A sum of Rs. 19,81,023 or 82.3 per cent was collected and a sum of Rs. 50,895 or 2.1 per cent was written off the accounts. The collection of Rs. 19,742 or 0.83 per cent was postponed or suspended. The percentage of collection in the previous fasli was 83.0 and that written off was 4.4.

18. The balance outstanding at the end of the fasli including both arrears and current was Rs. 18,39,060 against Rs. 24,67,484 at the beginning of the previous fasli. As reported by the Collectors in the demand, collection and balance statements for September 1943, the balance at the beginning of fasli 1353 was Rs. 22,88,738. Up to the end of September 1943, a sum of Rs. 5,93,382 was collected and Rs. 34,041 written off the accounts. Proposals have been made to write off Rs. 10,325. The net recoverable balance on 1st October 1943 was thus Rs. 16,50,999. Out of this amount a sum of Rs. 12,63,397 is covered by orders of suspension or postponements in the Presidency. Deducting this amount, the realizable balance on 1st October 1943 was Rs. 3,87,593.

19. *Adjustments to local boards of cesses collected during the fasli.*—Land revenue and cesses are collected together and the distribution of the total collections between land revenue and cesses is effected in the Collectors' offices after the compilation of the accounts relating to the fasli year.

Statements showing the amounts collected during the fasli on behalf of the local boards, the payments made to them during the fasli, and the accounts to be finally adjusted either to their credit or debit are received from the Collectors. After verification by the Accountant-General of the amounts shown by Collectors as payments made to local boards, the recovery of over-payments is being watched by the Board in accordance with the instructions contained in paragraph 3 of G.O. No. 5197, L. & M., dated 7th December 1926.

20. *Charges debitable to land revenue.*—The charges in the Land Revenue department are shown in the accounts under the head "25. General Administration." The district administration charges excluding village establishments amounted to Rs. 115.81 lakhs during fasli 1352. The village service charges including those of proprietary estates during the fasli were Rs. 123.49 lakhs. The total charges amounted to Rs. 239.30 lakhs or 28.12 per cent of the total land revenue and cess collected.

It has, however, to be borne in mind that the expenditure does not represent merely the cost of collecting the land revenue. The Land Revenue department performs multifarious duties of which the control and collection of land revenue is only one. The village establishment in particular is the servant of all the departments of the Government. Moreover a considerable portion of the time of the Collectors and his subordinate officials is occupied with magisterial work and of late with war-work also. Thus the

actual cost of collecting the land revenue cannot be estimated with any degree of accuracy. It is far less than the amount of expenditure shown above.

21. *Process under Act II of 1864.*—Statement No. 12 gives particulars of coercive processes issued for the realization of the Government dues under Madras Act II of 1864. The percentage borne by the actual number of sales to the number of sale notices in the Province is 13.76 against

14.31 in fasli 1351. The percentage of the number of defaulters whose properties were sold to the total number of holdings is 0.06 as against 0.12 in the previous fasli.

Value of lands sold.—Immovable property of the estimated value of Rs. 1,75,029 [column (21) of Statement No. 12] was sold for the recovery of arrears amounting to Rs. 41,401 [column (20) of Statement No. 12.] The amount realized was Rs. 42,155 [column (22) of Statement No. 12.] The estimated value of lands sold was disproportionate to the amount of arrears in some of the districts. The total area of lands sold is 5,431 acres against the total holdings of 27,646,404 acres.

27. *Process-service establishment.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency and by the special establishment and of the fees realized during the fasli. The total number of processes served by the village agency was 875,183 or less than that in fasli 1351 by 241,016. The Government suspended this scheme for the duration of war in G.O. No. 95, (S), Revenue, dated 11th August 1942.

36. *Debt Conciliation Boards.*—As there was a considerable fall in the number of applications received, the Government ordered the abolition of all Debt Conciliation Boards in the districts and establishment of a single board in each district for the disposal of pending cases only. The number of cases in which the boards were able to arrange amicable settlement was considerably smaller than in the previous year, the number of agreements secured being 62 in fasli 1352 as against 236 in fasli 1351.

37. *Enhanced water-cess on irregular irrigation.*—The system of publishing a general or collective notice in each village in accordance with B.P.

No. 58, Settlement, dated 10th April 1919, is reported to have worked well. The ryots were aware of the rules and made timely representations to the jamabandi officers. The system resulted in prompt investigation of objections and consequent reduction in the number of water-rate appeals. In cases where Government water was taken without permission deterrent penalties were imposed.

38. *Cultivation of tank-bed lands.*—In some districts, tank-bed lands were cultivated with cucumbers, melons, etc. Wherever the cultivation was permitted, ordinary dry rates were charged; and cases of objectionable cultivation were dealt with under the provisions of the Madras Land Encroachment Act.
