Introductory and Personal.

THE Pudukkottai State is bounded on the north and west by the Trichinopoly district, on the south by the Ramnad district and on the east by the Tanjore district. Its area is 1,179 square miles. The population according to the census of 1941 is 4,38,348. The State resembles in its physical features the upland parts of the east coast of the Madras Presidency, and consists for the most part of a plain of somewhat sparsely cultivated dry land, interspersed with a large number of rain-fed tanks and traversed by a few jungle streams. It has no seaboard. Its climate resembles that of the surrounding districts of Trichinopoly, Tanjore and Ramnad, and is healthy. The State is mainly agricultural and is dependent on an extremely precarious rainfall.

The capital of the State is Pudukkottai, a well laid out municipal town containing some imposing public buildings and provided with a protected water-supply, which has been supplemented recently. The population of the town according to the census of 1941 is 34,180.

The State continued to be in direct relations with the Government of India through the Resident for the Madras States with his headquarters at Trivandrum, though direct correspondence between the Pudukkottai State and the Central and Provincial Government was begun from 15—5—47 in view of the closure of the Residency from 15—8—47.

2. His Highness The Raja.—His Highness Sri Brihadamba Das Raja Rajagopala Tondaiman Bahadur, ninth in succession from Ragunatha Tondaiman, the founder of the Ruling House, is the Ruler of the State and is entitled to a salute of eleven guns. 3. Administration.—From 17—1—44, the date on which His Highness assumed charge of the administration, he appointed an Executive Council consisting of a Dewan and two councillors to aid and advise him in the Government of the State. His Highness the Raja presides at the meetings of the Executive Council, and in his absence the Dewan presides. Sir Alexander Tottenham, C.I.E., was appointed Dewan, Janab Khan Bahadur P. Khalifullah Sahib Bahadur, M.A., B.L., First Councillor and M. R. Ry. Rao Sahib M. Paramasivam Pillai Avl., B.A., B.L., Second Councillor. 4. The Legislative Council, constituted on a statutory basis, is composed of 50 members, of whom 35 are elected and 15 nominated by the Darbar, ten of the latter being officials. The Council met twice during the fasli. The Dewan is Ex-officio President. In his absence the First Councillor, and in the absence of both the President and the First Councillor the Second Councillor exercises the functions of the President. If all three are absent the Deputy President, and in his absence the Pro-Deputy President presides. With effect from 17-5-44, the Council has been empowered to elect two of its elected members to be respectively Deputy President and Pro-Deputy President thereof. The expenditure of the fasli fell below the Revised Estimate by Rs. 1,55,573. The decrease was due mainly to restriction of expenditure in almost all the Departments of the State in order to enforce strict economy. It was partly counterbalanced by an increase under 'Civil list', 'Law and Justice' 'Jails' and 'Political'. A sum of Rs. 1,05,548 has been surrendered by the P. W. D. alone. The decreases and increases are further explained in the memorandum prefixed to the Statement II-A in the Appendix.

The expenditure of the fasli was Rs. 4,42,304 higher than that of the preceding fasli. This was the net result of increases and decreases as shown below:—

The increase under 'Religion and charity' was due mainly to increased expenditure under Paditaram of temples and chatrams and Pattaram and Parivattam'. The increase under 'Civil list' was due to the increase of the Civil

list' allotment. The increase under 'Land revenue' occurred mainly under 'Dewan Peishkar's office and Taluk offices—permanent and temporary establishment' pay of the Huzur Treasury officer and 'Vattam establishment' and was due to the enhancement of the rate of dearness allowance, to the revision of the basic pay, to the payment of leave salary to the Huzur Treasury officer and to the continuance or fresh appointments of special hands to cope with the increased work. The increase under 'Salt and Exise' was mainly under "cost of opium and ganja". The increase under forest was chiefly under 'Direction and establishment—Establishment' 'Plantations—Maintenance charges and cutting and carting charges'. The increase under 'Registration' occurred under 'Permanent and Temporary establishment' and was due chiefly to the enhancement of the rate of dearness allowance and to the revision of the basic pay. The increase under 'General Administration' occurred mainly under 'Pay and Travelling allowance of the Dewan' 'Darbar office—establishment' and 'Legislative Council—travelling allowance and contingencies' and was due to the payment of leave salary to the late Dewan, revision of basic pay of the Government servants, increase in the rate of dearness allowance and to the increase in the rate of daily allowance to the Members of the Legislative Council. The increase under 'Law and Justice and Police' was due mainly to the revision of basic pay of the Government servants, to the increase in the rate of dearness allowance, to the increase in the cost of yarn, gingelly seed and food stuffs, to the appointment of a new Superintendent of Police on a higher salary, to the payment of leave salary to the permanent Superintendent of Police, to the increase in the house rent allowance and travelling allowance, to the purchase of new arms and webb equipment, to the cost of training three Sub-Inspectors at Vellore, to the payment of certain travelling allowance bills, and motor warrant bills of the last fasli in Fasli 1356, to the increase in the cost of clothing and to the increase of expenditure under special rewards. It was also due to the increased expenditure under 'Diet and Road money, to prosecutors and witnesses'.

The increase under 'Education' was chiefly under 'College—salaries of Professors and Lecturers, and office establishment, also under State schools—clerks and servants—Permanent establishment—Lower secondary, Elementary schools—and Girl's school—Permanent establishment' and 'Grants—in Aid' and was due mainly to the increase of the rate of dearness allowance, revision of the basic pay and opening of the B. The increase under 'superannuation' was under 'pension and gratuity.' Revision of the basic pay and increase in the rate of dearness allowance and in the cost of Stationery articles were the reasons for the increase under 'Stationery and Printing'. The increase under 'Civil works' occurred chiefly under 'Buildings Repairs and maintenance', 'communications', 'establishment' and 'Tools and Plant' and was due chiefly to the execution of urgently necessary works, to the revision of the basic pay of the Government servants and to the increase of the rate of dearness allowance. The increase under 'other expenditure' occurred mainly under 'Scientific and other minor departments'—Agriculture—'Permanent establishment', 'Co-operative credit societies—Permanent and Temporary establishment' 'Civil supplies', and was due to the revision of basic pay, increase in the rate of dearness allowance, to the cost incurred in training four men at Tanjore as Co-operative Inspectors and to the appointment of a fourth non-credit Inspector and two Peons, and under 'Miscellaneous—Refund of lapsed deposits, other items, Test and Relief works and State Motor garage and Tents.'

The decrease under 'Political' was mainly under 'A.R. P.', 'Expenditure on account of refugees and dependents of persons stranded in enemy territory, Honorary Military Welfare Officer and receipts under II Civil List and savings under 2 Civil List credited to Civil List Reserve'. The decrease under contributions to the Municipality and Unions was due to the absence of any payment of special contribution to the Pudukkottai Municipality as in the previous fasli. The decrease under 'Irrigation' was under 'Irrigation works' and was due to the restriction of the expenditure to the limited extent required. The decrease under 'Military and Band' was under 'Supplies and Services'—Uniforms and boots, 'Purchase and feed of Horses'.

ADMINISTRATIVE DEPARTMENTS.

DEVASTANAM AND CHARITY.

22. *General*.—Originally the State temples, Chatrams (feeding houses) and other charitable institutions possessed landed endowments. In 1897 the State resumed these lands, and instead allotted from general revenues annual sums of money, fixed with reference to the importance of each institution. The general supervision of all the institutions vests in the Darbar, and is exercised through the Dewan Peishkar, assisted by his Personal Assistant.

23. *Number and class of institutions*.—There were 1,147 institutions in the State. Of these 890 were Government institutions, and the rest private. Two private foundations were managed by the State. There were also 31 '*parashtram katalais*' or allotments for services conducted in temples and other religious institutions outside the State.

24. *Financial*.—The aggregate income of the several institutions, including the collections on account of '*Vasakkattu*' arrears, i.e. arrears of fines for failure to render customary services (see below), was Rs. 21,885 against Rs. 18,234 in fasli 1355. The expenditure under religious and charitable institutions was Rs. 1,60,836 against Rs. 1,58,028 in fasli 1355. Rs. 1,42,796 were spent on '*Padittaram*' (allotment for articles required for worship) and '*Establishment*'; Rs. 692 on '*Patram*' (Vessels) and '*Parivattam*' (Clothes), and Rs. 5,826 on '*Tiruppani*' (construction or structural repairs). The expenditure on the Dasara festival was Rs. 6,221. The customary '*uliyams*' or services rendered to the temples by the ryots are of two kinds, major and minor. The *major uliyam* consists in dragging the temple cars and *chaprams* (light cars) during festivals. The *minor uliyam* consists of miscellaneous services, such as carrying the images of the deities in procession, and building sheds and rafts. Default in rendering these services is punishable with fine. The demand on account of such fines is called '*Vasakkattu*'.

The following table gives the demand, collection and balance in respect of '*Vasakkattu*' arrears at the close of the fasli.

...				Demand.	Collected or written off.	Balance.	Excess collection.
Current.				Rs.	Rs.	Rs.	Rs.
Major uliyam	...	...	...	1,931	1,123	925	117
Minor uliyam	...	...	...	310	300	11	1

Minor uliyam	...	...	...	133	125	15	7
Total				2,584	1,760	962	138

The '*Vasakkattu*' arrears relating to *minor uliyam* amounted to Rs. 15 at the close of the fasli, against Rs. 133 at the end of fasli 1355. This sum relates to the period subsequent to fasli 1323 when the system was introduced of making advances in cash to the Dewan Peishkar to enable him to engage coolies, etc., for the performance of the services, and recouping them after the collection of the amounts from the defaulters. The total amount of '*Vasakkattu*' fines, both arrear and current, collected in this fasli was Rs. 1,760.

25. *General remarks*.—607 papers were pending in the Devastanam section at the beginning of the fasli, and 1978 were received during the fasli; of the 2,585 papers for disposal, 2,011 papers or 77 per cent were disposed of, leaving a balance of 574, out of which 255 papers had been pending for more than, and the remaining 319 for less than, six months.

LAND REVENUE, SURVEY AND SETTLEMENT.

26. *Revenue divisions.*—For purposes of Revenue Administration, the State is divided into three taluks, Alangudi, Tirumayyam and Kulattur, each under the control of a Tahsildar. Each taluk is divided into six firkas, each in charge of a Revenue Inspector. There are in all 441 villages in the State. Five of them are uninhabited. The remaining 436 villages consist of 1511 hamlets.

27. *Season and rainfall.*—The season was favourable. The rainfall was heavy from September to December 1946. The average of the rainfall registered at all the rain registering stations in the State was 47.20 inches against 31.21 inches in the preceding fasli, and the average of 38.75 inches for the preceding five faslis.

The following table compares the average rainfall in the months of July to December in the fasli with the average rainfall for the corresponding months of the preceding fasli:—

Months.	Fasli 1355.	Fasli 1356.
July ...	2.14"	1.33"
August ...	6.16"	3.42"
September ...	3.85"	6.19"
October ...	4.36"	4.86"
November ...	5.28"	8.89"
December ...	0.36"	8.45"

The heaviest rainfall was in November 1343 when 8.89 inches were registered against the average rainfall of 7.80 inches for the month furnished by the Director General of Observatories, Simla.

There was a very slight increase in the price of ragi and cumbu compared with the preceding fasli.

The Prices Advisory Committee continued to meet once every month, and fixed the prices of essential foodstuffs. The effect of this measure was salutary and foodstuffs were sold at reasonable prices.

28. *Condition of the people.*—The main occupation of about 80 per cent of the population of the State is agriculture. Since there are no perennial rivers agriculture is entirely dependent on local rainfall. The general condition of the ryots was fair, since generally they were able to find employment.

The following table shows the average daily scale of wages for labourers in the Town of Pudukkottai and in three taluks of the State:—

Place.	Skilled labourers.					Unskilled labourers.		
	Brick-layer.	Stone-cutter.	Car-penter.	Smith.	Painter.	Man-cooly.	Woman-cooly.	Boy or girl-cooly.
	As.	As.	As.	As.	As.	As.	As.	As.
Pudukkottai Town	24—32	28—36	24—32	28—40	20—28	12	6	6
Alangudi	24—28	16—24	24—32	20—24	24—32	10—12	6—8	6

Kulattur	24—28	24—28	24—28	24—28	24	10—12	6	6

29. *Condition of cattle.*—The condition of cattle was satisfactory. Pasture and fodder were sufficient. 2,33,555 acres of assessed waste lands and porambokes, not included in the game preserves, were open to the free grazing of cattle and browsing of goats.

The number of livestock and of agricultural implements and machinery according to the census taken in January 1945 is given in Statement VII.

30. *Occupied area.*—The following table shows the distribution of the occupied area in the State under different tenures.

	Fasli 1355.	Fasli 1356.	Difference.
1. Ryotwari tenure ...	3,47,408	3,50,181	+2,723
2. Inam tenure—			
(a) Minor-inam ...	66,557	66,394	—163
(b) Major-inam ...	62,810	62,827	+17
3. Assessed or unassessed lands occupied without patta.	2,593	2,143	—450
Total ...	4,79,368	4,81,495	+2,127

During the fasli under report, the extent of lands held on ryotwari tenure increased by 2,723 acres. This was the net result of 148 acres going out of occupation and 2,871 acres coming under patta by assignment. The extent of occupied lands under minor-inam tenure decreased by 163 acres. This was the result of transferring some inam lands to ayan assessed waste. The extent of occupied lands under major-inam tenure increased by 17 acres, as a result of transfer from poramboke. There was a decrease of 450 acres in the extent of Government land occupied without patta. This was the result of assignment of some lands occupied unauthorisedly.

At the close of the fasli, the Government had at their disposal 10,271 acres of unoccupied assessed waste lands, against 11,031 acres in the preceding fasli.

The system introduced in fasli 1344 of assigning waste lands free of the initial lump-sum payment, usually called *kudiswamyam*, to the Government, and the cowle system introduced in fasli 1345, under which waste lands assigned for cultivation are only charged one-third of the assessment in the first year, two-thirds in the second year, and the full assessment from the third year onwards, remained in force.

With a view to encouraging ryots to grow more food and to increasing the area under cultivation, only single assessment was charged (no penalty was levied) for the unauthorised cultivation of assessed waste lands, and porambokes, if the occupation was not objectionable, where the porambokes were adjacent to patta lands, and food crop was raised on them. No water cess was levied for the unauthorised conversion of dry lands into wet if the conversion was not objectionable.

The Pudukkottai Uncultivated Lands (Imposition of Penalty) Regulation No. XVIII of 1942 enabled the Government to impose a penal assessment on land-owners who, without reasonable cause, either did not cultivate their lands or failed to cultivate them properly and made a mere show of cultivation. The object of the Regulation was to obtain the maximum cultivated area in the interests of the State subjects as a whole—so as to combat scarcity and rising prices. The Regulation spurred people to cultivate, who might not have done so. In 10 cases action was taken under this Regulation.

31. *House-sites in Grama-nattams.*—The practice of assigning house-sites in village sites in rural areas free remained in force.

32. *Demand and collection:—*

(a) *Current.*—Statement X shows the demand, collection and balance of land revenue for the fasli. The land revenue demand was Rs. 10,09,653 against Rs. 6,08,449 in fasli 1355. A sum of Rs. 10,08,450 or 99.88 per cent of the total demand was either collected in the fasli or adjusted from excess collections in previous faslis. The net balance outstanding at the end of the fasli was Rs. 1,208 i. e., 0.12 per cent of the demand, against 1.98 in the preceding fasli.

(b) *Arrears.*—Statement XI shows the demand, collection and balance under land revenue arrears. There was an arrear of Rs. 12,052 at the beginning of the fasli against Rs. 8,723 in fasli 1355. A sum of Rs. 12,052 or 100 per cent of the total demand, against 100 per cent in fasli 1355 was either collected in the fasli or adjusted from excess collections in previous faslis. Thus the net balance outstanding at the end of the fasli was Nil as in the preceding fasli. Improvement in collections was maintained, and it was largely due to the close attention paid to the matter by Janab Khan Bahadur P. Khalifullah Sahib Bahadur, Dewan.

The system of issuing separate printed and sealed receipts for all payments of land revenue, in addition to acknowledging payments in the ryot's *katchat* when desired, continued in force. Process fees were levied from 1—7—1941 at the following rates.

- (1) Notice of attachment of the moveable and the immoveable properties of the defaulters—4 annas.
- (2) Actual attachment of such properties—A further fee of eight annas.
- (3) Actual sale of such properties—A further fee of four annas.

33. *Village officers.*—The annual special-test examinations for village officers were held in December 1946. The candidates were allowed to answer the question papers with books. Out of 37 candidates that appeared for the Karnams' test one was successful. Out of 18 candidates that appeared for the Moniyams' test three were successful.

34. *Inspection.*—The Dewan Peishkar was on tour for 221 days. He inspected all the Taluk Offices. The Tahsildar of Alangudi was on tour for 269 days, the Tahsildar of Tirumayyam for 249 days and the Tahsildar of Kulattur for 248 days.

FORESTS AND PLANTATIONS.

52. *General*.—The forests in the State consist of scrub jungle containing no timber trees of any value. They yield considerable quantities of firewood, green leaves for manure and certain other minor produce, besides affording pasture. There are two classes 'reserved' and 'unreserved'. The thickly wooded inner belts of the reserved forests, which are specially preserved for shooting, are termed 'game preserves', while the outer belts of such forests, which are not specially reserved for shooting, are termed 'ordinary reserved forests'. The other forests are called 'unreserved'. The area of the 'game preserves' is 32 square miles, of the 'ordinary reserved forests' 51½ square miles, and of the 'unreserved forests' 36½ square miles.

The system of selling green leaves in blocks on a three-year rotation continued during the fasli. 48 blocks were sold against 42 in the previous fasli. Five casuarina plantations were started during the fasli on an extent of 80 acres in the Perungalur East and West, Vaitikkovil, Vellar, Varappur East and Virakkudi topes.

The graft mangoes planted in the Puntope and the Kannutope were thriving.

41 tons 1225½ lb of charcoal were made from casuarina stumps.

An experiment in Artificial Regeneration was made in the Kasba East forest. There was some satisfactory progress.

The prohibition of the transport of casuarina fuel or timber to any place outside the State except under a permit continued in the fasli.

53. *Forest offences.*—The table below shows the number of cases reported and disposed of during the fasli:—

—	Pending at the beginning of the fasli.			Reported during the fasli.	Total.	Disposal.					Pending at the close of the fasli.

54. *Felling operations in plantations and forests*—The over-mature trees in the Kasba East and West forests were cut and transported to the Town fuel depôt for sale. Fuel coupes were opened in Sengirai forest about the close of the fasli, and trees felled and transported to the Town fuel depôt.

There was a balance of two tons 420 lb of casuarina fuel at the topes at the beginning of the fasli. 973 tons 1,540 lb of casuarina fuel were felled. 975 tons 1960 lb of casuarina fuel were transported to the Town Sirkar fuel depot. There was no balance at the topes. Of jungle fuel there was a balance of 197 tons 560 lb at site at the beginning of the fasli. 4,485 tons 1,260 lb of jungle fuel were cut from the Kusba and Sengirai forests. 4,647 tons 1,260 lb were transported to the Town Sirkar fuel depot for sale. The fasli closed with a balance of 35 tons, 560 lb at site. Trees from Sirkar forests and plantations were cut and transported to the Sirkar fuel depot departmentally.

55. *Financial*—The income of the department was derived from the sales of green leaves, firewood and other forest produce, rentals of stone-quarries, fees for the grant of stone-mason licences and miscellaneous revenue such as seigniorage fees, grazing-fees, sale proceeds of wild animals, and fees realised by the composition of forest offences. The total demand for the fasli was Rs. 88,108 against Rs. 99,934 in the previous fasli, as detailed below:—

Heads.	Fasli 1355	Fasli 1356
	Rs.	Rs.
1. Reserve forests	59,669	42,088
2. Plantations	15,772	18,398
3. Quarries	16,814	19,636
4. Miscellaneous	7,679	7,986
Total	99,934	88,108

The fall under 'Reserve forests' was mainly due to the sale of smaller quantity of jungle fuel.

The increase under 'Plantations' was mainly due to the sale of larger quantity of casuarina fuel.

The increase under 'quarries' was due to the sale of larger number of quarries and issue of larger number of stone mason licences.

The increase under 'Miscellaneous' is negligible.

The entire demand of Rs. 88,108 was collected. The percentage of collection to demand was 100 against 100 in the previous fasli. This is satisfactory.

The expenditure of the department was Rs. 83,160 against Rs. 71,429 in the previous fasli. Rs. 27,439 or 33 per cent of the expenditure and 31.1 per cent of the revenue represent establishment charges.

LAW AND ORDER.

69. *General*.—The administration of civil and criminal justice, and to some extent the constitution of the various courts in the State are on the British Indian model. The Chief Court exercises the powers of a High Court both in criminal and civil matters, except that in civil matters a second appeal on questions of law, and in certain circumstances on questions of fact also, lies to a Special court of Second Appeal consisting of two judges which is constituted year after year. The original civil jurisdiction of the Chief Court extends over regular suits of all values. Its small cause jurisdiction, which was limited to suits not exceeding Rs. 200 in value, was extended to suits not exceeding Rs. 500 in value with effect from January 1944. With effect from the same date the small cause jurisdiction of the Registrar, Chief Court was also raised from Rs. 100 to Rs. 200. The nine rural Sub-Registrars are ex-officio Small Cause judges, exercising jurisdiction over suits not exceeding Rs. 100 in value, which arise within their respective registration sub-districts. The Chief Court is the only court in the State competent to try original suits and hear appeals.

Besides the Chief Court, the Rural Small-Cause courts and the Registrar's Small-Cause court, there are nine Village Courts, which try suits of a money value not exceeding Rs. 30, and with the consent of both the parties suits in which the value of the subject-matter does not exceed Rs. 100.

Some panchayats also derived revenue from markets, slaughter houses and cattle-pounds and some from Cinema "Shows" by the levy of entertainment tax.

The Government contributed towards the expenses of the panchayats, having regard to their needs.

190. *Civil buildings.*—The construction of additional accommodation to civil and undertrial prisoners in the Central Jail is nearing completion.

191. *Communications.*—The expenditure under this head was Rs. 1,64,969. The increase in expenditure is due to the increase in rates and the grant of increased Dearness Allowance. The length of roads metalled, gravelled and unmetalled, in the State is compared below with that in the adjoining British districts. It will be observed that the mileage of metalled or gravelled roads per 100 square miles in the State is higher than the corresponding figure for any of the adjoining Madras districts, while the figure for all classes of roads is very much higher in the State than in any of those districts, except Tanjore, which has a considerable mileage of earth roads, with which the State cart-tracks often compare not unfavourably.

A subvention of Rs. 2,810 was received from the Road Development Fund of the Government of India in this fasli.

192. The expenditure on Relief Works that were started in the previous fasli and continued in this fasli was Rs. 25,117 against Rs. 26,000 provided in the Revised Estimate of the fasli 1356.

* Length of earth roads not computed.

193. The value of the work turned out in the workshop was Rs. 62,483 against Rs. 40,815 in the preceding fasli. The Martanda Industrial School attached to the workshop had 13 apprentices on its rolls against 16 in the previous fasli. They were trained in carpentry, smithy, painting and tailoring.

MILITARY AND BAND.

194. The sanctioned strength of the Pudukkottai State Military Forces continued to be 110 infantry, including the Officer-in-charge of Military Forces and 19 Cavalry. 14 places in the infantry and 10 in the Cavalry were kept vacant as a measure of economy. There were six vacancies at the beginning of the fasli, and seven places fell vacant during the fasli owing to dismissal of four, retirement of one, transfer of one to the Police and resignation of one. Of these one place was filled up by recruitment. The strength of the Cavalry was one Duffadar and eight troopers. The discipline and health of the force were good. The force continued to be under the immediate supervision of the Sergeant Major of the Armed Reserve. As a result of the amalgamation of the Military with the Police, the Cavalry was attached to the A Reserve from 1—6—47.

The strength of the band was one Band master, One Sergeant, One Corporal, two Lance-Corporals and 22 musicians. Two places fell vacant during the fasli due to the retirement of one and the death of the other, and none was recruited in their places during the fasli. After the amalgamation of the Military with the Police, the band was attached to the A Reserve from 1—6—47.

195. *Financial*.—The expenditure on the department including the Band was Rs 42,625 against Rs. 19,059 in the previous fasli. The decrease was due to the amalgamation of the Military with the Police.

196. *General*.—M. R. Ry. Rao Sahib T. G. Swaminatha Ayyar Avl., Superintendent of Police, continued to be the Officer-in-charge of the Military Forces up to 14—9—46 when he took leave, and M. R. Ry. Rao Bahadur V. Bhujanga Rao Avl., M. A., succeeded him and continued throughout the fasli.

The District Superintendent of Police, Trichinopoly continued to be the Ex-Officio Inspecting and Advising Officer to the Darbar in matters concerning their Military and Police Forces, up to the end of Febrdary, 1947. With effect from 1—3—47 the above arrangement was terminated.

OTHER MINOR DEPARTMENTS.

AGRICULTURE.

197. The Dewan Peishkar was in charge of the Agriculture Department. The State is divided into two agricultural divisions (East and West)—each in charge of an Agricultural Instructor. There is an Agricultural Demonstration Farm in the Capital in charge of a Manager. The Agricultural Instructor, West Division, and the Agricultural Instructor, East Division, had their headquarters at Annavasa and at Alangudi respectively.

198. *Grow-more-food campaign*.—The general condition of the crops was fair.

The out-turn of paddy cultivation and dry crops was poor due to excessive rainfall.

To encourage the ryots to sink wells and cultivate food crops with the aid of well water, the Darbar have started a well-sinking drive, and the special establishment continued to work.

The subsidy of 20 per cent of the value of the well, subject to a maximum of Rs. 100 allowed in the previous fasli, for new wells where a successful food-crop was raised, with the aid of the water of such wells, was continued to the end of December 46, and in the later half of the fasli, the subsidy was reduced

to 10 per cent subject to a maximum of Rs. 50. Loans are granted to sink new wells according to rules. Subsidy is given at the above rates also in cases where loans are advanced.

402 applications for subsidy under the old scheme to the end of December 46 and 25 applications under the new scheme from 1—1—47 were received, of which 382 and 9 respectively were allowed. An amount of Rs. 26,454 was paid as subsidy. 546 applications for loan under the old scheme and 185 applications in the later half of the fasli were received, of which 233 and 13 cases respectively were sanctioned. The amount sanctioned under loan is Rs. 94,470.

The digging of 726 wells was taken up, and 453 wells were completed.

199. *Tapioca*.—The Darbar continued to encourage the ryots in many villages to grow Tapioca by demonstrating the two varieties Valenca and Butterstick, and many villagers took cuttings for propagation. The yield was fair.

200. *Pumpkins*.—The policy of the Government to encourage the ryots to grow pumpkins on foreshores and waterspread of tanks during the dry season by levying no assessment for such occupation was continued. A free supply of pumpkin seeds was made to the ryots from the Farm to develop vegetable cultivation in the poramboke lands.

The P. W. D. Stores supplied a large number of country plough-shares to Village Panchayats and Co-operative Societies for sale at cheap rates to ryots. As usual, iron ploughs were lent to the ryots for hire.

Vegetable seed was distributed free from the Town Agricultural Farm to those who asked for it to encourage the growing of vegetables in their backyards. Variety of seeds (paddy) was bought and supplied to the ryots.

201. *Improvement of live-stock*.—Export of straw is controlled. The Darbar have controlled the price of cotton seed and gingelly oil cake. The price control on ground-nut cake, which was in force up to Feb. 47, was cancelled in March 47. The export of Ground-nut throughout the fasli and yam upto 17—10—46 was prohibited.

The Government have made provision in the Loan Rules for the grant of loans to buy milch cows.

Consequent on the removal of the ban on the import of cattle into the State there is now free exchange of cattle between the State and the Madras Presidency.

202. *Outturn of the Agricultural Instructors*.—The two Agricultural Instructors toured as usual in their respective charges carrying on propaganda in regard to the extension of cultivation of food grains, the use and stocking of pure and selected paddy seeds, economic sowing and planting, use of superior strains of ragi and varagu and new kinds of cholam and cumbu, use of green leaf (Daincha and Kolinji), and artificial manures, reclamation of waste lands, utilisation of waste land for cashew plantation, cultivation of specially profitable crops such as, sugar-cane, plantains, yam, and turmeric, and fruit culture, the adoption of measures to prevent or combat the several kinds of insect pest in the fields, and the introduction of different kinds of improved agricultural implements. The Agricultural Instructors, East and West Divisions, were on tour for 209 and 300 days respectively. They carried on demonstrations in the use of the improved agricultural implements with the help of the maistries trained in the Madras agricultural stations.

203. *Paddy*.—Economic sowing in seed beds was recommended to ryots to keep the cost of seed at its minimum and to get a greater yield. The ryots, who adopted this method, were able to save nearly four Rupees per acre. The increase in yield can be estimated at Rs. 12 per acre. The above method was followed generally in Vellanur, Pungudi, Pinnangudi, Ammachatram, Kiranur etc. Improved strains of paddy such as Nellore Samba, Poonkar, and AD T. 3 Kuruva got from the surrounding Madras Districts were supplied to the ryots in addition to the local seeds, after fully examining their germinating capacity. The value of seeds got from the Madras Province amounted to about Rs. 40,000.

204. *Economic Irrigation, Planting etc.*—Experiments in economic sowing, transplanting, manuring and irrigation were demonstrated. All the Agricultural

Instructors and the Revenue Inspectors were directed to impress on the ryots the waste resulting from their old methods of cultivation. Ryots were advised to sink new wells and to repair old and abandoned wells to supplement water supply.

Propaganda on storing and preserving manure was widely conducted. The Agricultural Instructor explained to the ryots how to preserve manure without deterioration.

205. *Sugarcane*.—The milling variety-sugarcane (Co. 201) was grown at Karaiyur, Minaveli, Vayalogam, Kiranur, Puliur and Kannangudi in West Division, Kollakudi, Kanninipatti and Unaiyur in East Division, and jaggery was manufactured. The crops were good. The Agricultural Instructors and the maistries demonstrated the preparation of Jaggery and helped the ryots during the milling season in the manufacture of jaggery. Seeds were also supplied to the ryots in Kiranur and Kadayakkudi.

Yam and turmeric were grown at Melur, Pungudi, Karaiyur, Kulattuppatti, Kanninipatti, Unaiyur, Satyamangalam, Arnipatti, Pillamangalam, Kavinad, Kuppayampatti, Kallukkaranpatti and Virachilai. The crops were satisfactory.

206. *Plantains*.—The area under this crop increased during the fasli and brought in a good income. Plantains were grown in Pungudi, Melur, Satyamangalam, Kiranur, Ponnamaravathi, etc. in the West Division and Perungalur, Alangudi, Kavinad, Kaikurichi, Tiruvarangulam, Unaiyur and Adanur in the East Division. Suckering was recommended, and judicious manuring was done with cake and farm yard manure.

Tobacco was cultivated in Kulipirai, Sevalur and Kiranur to a small extent to meet local requirements.

The area under groundnut cultivation increased appreciably during the fasli owing to the rise in prices. The ryots had a good harvest. Improved variety was grown in several places.

Fruit orchards raised in the previous faslis were progressing fairly. They were inspected, and the owners were instructed to give the cultural and manurial treatment needed for vigorous growth and yield.

The flower gardens already raised in many villages continued to be properly tended. The villagers realised the profits of raising roses and other flower plants. The seasonal condition also was favourable.

207. *Sweet potato and Tomatoes*.—Vine cuttings were distributed to the interested villagers in the East Division. Tomato cultivation was carried on in many villages during the fasli. The cultivation was also demonstrated in all school gardens by the Agricultural Instructor.

208. *Kitchen gardening*.—Kitchen garden seeds were supplied to the ryots at Vellanur, Pungudi, Narttamalai, Kiranur, Tirukkalambar, Vendanpatti and other places. The yield was not beneficial due to heavy rains.

Sugarcane crushing and boiling was demonstrated in many places by the Agricultural Instructors and maistries to teach the proper process of manufacturing jaggery.

209. *Manure*.—Propaganda for improving the soil conditions especially of saline lands was carried on and successful results were obtained in Ammachatram, Narttamalai and other places. The demand for Ammonium Sulphate was great. The Government had stocked sufficient quantity of this manure to enable the ryots to utilise it at any time.

210. *Dry Farming*.—Ryots were advised to bund and slope dry wastes to prevent surface erosion and preserve moisture. The methods were generally followed in Kunnandarkovil, Karaiyur, Kiranur, Vellanur and other places.

211. *Cashew*.—The Government purchased cashew seeds and distributed them to Manathurai anti-erosion works, the ryots at Malavarampatti, Manjamviduthi, Rayapatti, Vallattirakottai and Avadayapatti villages. The ryots took advantages of the rain during the North-east Monsoon for sowing the seeds.

212. *Erosion and silting*.—Preventive measures were adopted in several places. Details are given in the chapter on Public Works. Kikuyu grass, Giant Star grass and *Panicum repens* were planted in the areas that are subject to erosion. Musalimutti grass seed was also sown. Several bags of Giant Grass Cutting were supplied to the officers in charge of Anti-erosion works, specially to be planted in tank bunds to avoid formation of gullies.

The ryots at Tondamanoorani were advised to plant Nanal cuttings on the sides of Nattaneri Vari and in places where soil erosion was noticed. Seed beds of anti-erosion grasses were also prepared. Instructions regarding the cultivation of anti-erosion grasses and trees were also given.

213. *The Town Agricultural Farm*.—Work at the Town Agricultural Farm was confined mainly to the maintenance of stud-bulls and a dairy, and the raising of garden crops, such as, sugar-cane, plantains, tomatoes, brinjals, capsicum, elephant yam, pumpkin, tapioca and some English vegetables. The Farm was also a depot for the supply of seed to the public. It supplied seeds of several kinds of vegetables for backyard cultivation.

Early variety of Ragi was popularised and the yield was good. Ragi seeds of this variety were also distributed among farmers for increased cultivation in the villages.

Fodder crops such as Maize, Cholam, Guinea grass and Elephant grass, were grown in the Farm. Ryots were advised to utilise the sewage manure for raising green fodder. 1,000 slips of Guinea grass and 750 of Elephant grass were distributed to the farmers.

The activities of the Town Agricultural Farm related to the inoculation of the benefits of deep tilth for garden crops secured by furrow turning ploughs, reclamation of cultivable waste and fallow lands, conservation of soil moisture, and prevention of soil erosion, demonstration of the collection and preservation of cattle manure without waste, fruit cultivation, and providing advisory services relating to improved method of Agriculture and allied industries. Paddy seeds are also continued to be stocked and supplied to the ryots.

Fruit plants such as grapes, limes, lemons, kidarai, sapodilla, mangoes and Satgur oranges were reared.

214. *Live-stock*.—The farm herd consisted of schindhe cross breed English and local breed cows. 15 cows were delivered during the fasli giving birth to 10 she calves and 5 he calves. One he calf died. 3 Cows with one calf and one bull (Kalyanam), 7 he calves and 4 she calves were also sold in auction. There were 5 stud-bulls at the end of the fasli. The number of services was 392 against 423 in the last fasli.

At the close of the fasli the livestock numbered 54, comprising 17 cows, 12 suckling calves, 16 adult calves, 4 work animals and 5 stud-bulls. The total milk yield of the cows was 14,753 Pudukkottai measures and its value Rs. 5,351 against 15,301 Pudukkottai measures and Rs. 4,372 respectively in the previous fasli. The decrease in milk yield was due to scarcity of good bran and dhall husk. The increase in value was due to increase in the price of milk.

As usual the Government contributed Rs. 1,000 to the All India Cattle Show held by the Government of India.

215. *Poultry and Bee keeping*.—The Poultry and Bee-keeping sections in the Farm were continued. There were birds of the White Leghorn and Rhode Island Red breeds in the Farm. Details are given in the chapter on Rural Improvement.

216. *Financial*.—The receipts of the Department amounted to Rs. 7,520 and the expenditure to Rs. 13,854.

The effect of this concession is that unless a ryot has fallen into arrears in regard to the repayment of a loan under the ordinary rules not more than one instalment will be collected from him in any fasli.

Of the 27 inmates in the Orphanage and Infirmary at the close of the fasli, 21 were boys, 3 girls, 1 man and two women. Almost all the boys and girls were educated free in the State schools. Some were given vocational training. One underwent training in the State Press as Compositor, and three

s weavers. Some boys were trained in bee-keeping till the end of the fasli. There are two looms in the Home, one to weave dhotties for grown up boys and the other towels for the small boys. 31 dhotties and 27 towels were woven in the Home and used by the boys. The boys also ran a vegetable garden. The inmates were responsible for keeping the Home and its premises clean.

The Home provides three meals a day. The average daily strength of the Home was 24 against 28 in the previous fasli. The average cost of meals supplied was Rs. 13—10—6 a head a month against Rs. 11—13—3 in the preceding fasli. The rise in the average cost of meals is due to the rise in the prices of foodstuffs.

Besides maintaining the inmates, the Home also gave compassionate allowances in the shape of cash and rice to 16 persons who could not be admitted into the Home. The expenditure incurred on this account was Rs. 44—8—0 a month.

Three girls who were discharged from the Home are given a monthly allowance of five rupees each per month to enable them to continue their studies.

256. *Evacuees*.—Evacuees from Burma and Malaya and dependents of persons stranded in those countries were given interest free advances for their maintenance on a repayable basis. Advances were also paid in lump to enable the recipients to start some trade. Student-dependents in University classes were given grants to cover tuition fees, boarding fees, cost of books etc.

257. *Military Welfare*.—Mr. J. Kosalarama Naidu M. L. C. continued to be the Honorary Military Welfare Officer and visited the evacuees and dependents of persons stranded abroad and arranged for their comforts and requirements. The Darbar appreciate his services.

Educational concessions by way of free scholarships, payment of cost of books etc., continued to be sanctioned to the children and dependents of soldiers, who had taken part in the war or having taken part in it are dead or have become permanently incapacitated.

258. *Resettlement*—The ex-service personnel are given land for cultivation and house-sites free of value. As regards the educated demobilised, they are taken into Government service according to their educational qualifications and service experience.

259. The vacancies both in Superior and Inferior Services in the State, which were reserved to be filled up permanently by suitable persons with approved war service and others, were filled up in the course of the fasli.

260. *Prices and Supplies Control*.—The Prices Advisory Committee meets once a month or oftener, and advises the Government about the maximum retail prices of foodstuffs and other essential commodities.

The various 'Control Orders', that the Government have introduced under the Defence of India Rules, chief among which may be mentioned the Food Grains Control Order, the Sugar Control Order, the Rationing order, the Paper Control Order, the Yarn Control Order, the Kerosene Control Order, the Rice Mills (Licensing) Order, Motor Vehicles Spare Parts Control Order, Paper Control (Distribution and Economy) Order, and Cotton Cloth and Yarn Control Order, etc., were kept in force under the provisions of the Pudukkottai Essential Supplies temporary powers Regulation even after the lapse of the D. O. I. Rules on 1-10-46. They have prohibited the export of all foodgrains, tamarind, chillies, gingelly oil-cake, charcoal, casuarina and jungle fuel and all sorts of timber to any place outside the State except under a permit. The Drugs control order, the Civil Motor cars Control Order, the commercially imported Transport Motor Vehicles order etc., were repealed in the fasli.

For purposes of sugar, food and cloth supplies, the State has been treated as part of the Madras Province. The Madras Government have allotted quotas to the State.

The Officer-in-charge of Civil Supplies continued to be in immediate charge of the purchase and distribution of the State's quota of foodstuffs and cloth subject to the direct control of the Darbar. The services of co-operative institutions are effectively utilised in effecting an equitable distribution of foodstuffs to the public. The Darbar and the public are greatly indebted to all connected with these institutions for the invaluable work that they have done.

The system of exporting jungle fuel outside the State, on levy of fees at the rate of Rs. 2 a ton for transport to Trichinopoly and Rs. 5 a ton for transport to other districts, continued for some months in the fasli. The export of fuel to places outside the State was stopped by the middle of the fasli except for the Railway Refreshment Rooms. A sum of Rs. 18,761 was realised as permit fees in the fasli under review.

To check hoarding and black-marketing the Darbar have taken the following measures:—

They have issued the Essential Articles (Prevention of Hoarding) Regulation, under which hoarders (which includes producers) of an excessive quantity of any essential article, and traders in any essential article, who refuse either to sell it or to sell it at a fair price, are liable to punishment. The prices of articles fixed by the Controller-General of Civil Supplies, New Delhi, are made applicable to the State from time to time. All merchants are required to exhibit in a conspicuous place in their shops a list showing the stock of each article that they sell, and the price at which they sell it. The enforcement of the Food Grains Declaration and Procurement Order, under which every landholder paying a certain amount of land revenue is bound to declare the produce of his lands, continued in the fasli.

Each year the Rationing and the Procurement staff take stock of all food-grains held by producers. A certain quantity is reserved for the owner's consumption according to circumstances, and the owner is ordered not to dispose of the rest except under the Darbar's orders.

The frozen stock of food-grains was distributed to Ration shops for sale to ration card holders at controlled price. Anyone who fails to sell the frozen stock according to direction is prosecuted.

261. *Grow-More-Food Campaign*:—This is dealt with in the chapter on "Agriculture".

262. *Motor Spirit Rationing*:—There were 143 buses, 9 cars and 6 lorries or vans fitted with gas plants at the end of the Fasli. The pre-rationing consumption was 83,480 gallons a quarter. The average consumption has been 19,930 gallons a quarter in the Fasli. The Darbar have effected a saving of 76.2 percent against £7.8 per cent in the previous fasli. The increase in consumption was due to petrol issued to 4 buses and 12 lorries.

RATIONING.

263. Statutory rationing of food-grains was introduced in the Town and urban areas within five miles from the Town with effect from 22-2-1946, in Tirumayyam Taluk from 1-3-46, in Kulattur Taluk from 8-3-46 and in Alangudi Taluk 15-3-46. There were 622 ration shops in all throughout the State against 634 in the previous fasli. Of the 622 shops, there was no off-take in 68 shops. As usual the procurement was done intensively and steps taken to effect an equitable distribution of rations to the card-holders. As far as possible the rationing of food-grains in the State was done on the lines adopted by the Madras Government.

264. Prosecution was ordered in 99 cases during the fasli for violation of the provisions of the Pudukkottai Rationing Order 1946 and the Regulations issued thereunder, milling order and Rice Preparation Control order; 29 cases were disposed of during the fasli.

The subordinate staff from the A. R. O. downwards were composed of the same strength as in the last fasli with the addition of ten procurement Inspectors, three for Alangudi Taluk, three for Kulattur Taluk and four for Tirumayyam Taluk.

265. M. R. Ry. S. Venkateswara Ayyar Avl., B.A., continued as Rationing Officer till 9-7-46 when Janab M. K. Abdul Rahim Ravuttar, M. A., L.
