

MEDICAL DEPARTMENT

P. No. 296-Stat/M.

OFFICE OF THE DIRECTOR OF MEDICAL SERVICES,
MADRAS,

Dated 25th September 1954.

From

LIEUT.-COL. SANGHAM LAL, M.B.B.S., F.R.C.S., D.O.M.S. (Lond.),

DIRECTOR OF MEDICAL SERVICES,

Madras-6,

To

THE SECRETARY TO GOVERNMENT,

HEALTH, EDUCATION AND LOCAL ADMINISTRATION DEPARTMENT,

Madras-9

Srs,

[Triennial Report on the working of Civil Hospitals and Dispensaries in Madras State for the triennium ending 1953.]

I submit herewith the triennial report of the working of Civil Hospitals and Dispensaries in the Madras State for the years 1951 to 1953. Agreeably to the instructions contained in Government Memo. No. 60620-H-2/54, Health, dated 26th June 1954, the annual statistical returns for the year 1953 have been prepared in two parts, i.e., one relating to all the medical institutions in composite State for the prepartition period from 1st January to 30th September 1953 and the other relating only to those institutions in the residuary State for the post-partition period from 1st October to 31st December 1953.

2. *Administration.*—(a) The head of the Medical administration in the Madras State (in respect of Medical Institutions of modern medicine) was hitherto known as the "Surgeon-General with the Government of Madras". The designation of the post was changed to "Director of Medical Services, Madras" from 28th April 1951.

(b) Dr. J. C. David, M.B.B.S., Ph.D. (Edin.), held charge of the post from 1st January to 27th April 1951 and on his retirement, Dr. K. Vasudeva Rao, M.D., F.R.C.P. (Edin.), T.D.D. (W), D.M.B. (Lond.), assumed charge as the first Director of Medical Services on 28th April 1951 and continued to hold the post till his retirement on the 10th November 1951. Dr. P. Arunachalam, M.D., M.B.C.P. (Lond.), T.D.D. (W), D.M.B. (Lond.), held the post of Director of Medical Services from 10th November 1951 to 14th May 1953 and Dr. M. V. Ramanamurti, F.R.C.S. (Edin.), from 15th May to 16th September 1953. Lieut. Col. Sangham Lal, F.R.C.S. (Eng), D.O.M.S. (Lond.), assumed charge of the post of Director of Medical Services on 17th September 1953 and continued to hold the post till the end of the year 1953.

(c) The post of Deputy Director of Medical Services which was temporarily created in 1949 in lieu of the post of Personal Assistant to the Surgeon General was held by the following officers:—

(1) Dr. K. Vasudeva Rao from 1st January to 27th April 1951 afternoon.

(2) Dr. P. Arunachalam from 28th April 1951 to 10th November 1951 afternoon.

(3) Dr. M. V. Ramanamurti from 10th November 1951 afternoon to 14th May 1953.

Lieut.-Col. Sangham Lal from 6th to 16th September 1953 (a.n.)

The post was vacant from 15th May to 6th September 1953. Dr. M. V. Ramanamurti, Director of Medical Services, Madras, and Dr. C. Raghavachari, M.S., F.R.C.S. (Edin.), Professor of Surgery, Stanley Medical College, Madras, held additional charge of this post from 15th May to 17th June and from 18th June to 6th September 1953 respectively. Consequent on the formation of the Andhra State, the post of Deputy Director of Medical Services was kept in abeyance from 16th September 1953 afternoon and was subsequently abolished with effect from 1st October 1953.

3. *Madras Medical Service.*—(1) The Madras Public Service Commission, Madras, selected 361 candidates for appointment by direct recruitment to the posts of Assistant

Surgeons in the Madras Medical Service. This is the first selection made after the removal of sex discrimination as also after the unification of the cadres of Assistant Surgeons, Classes I and II.

(ii) With the coming into force of the Constitution of India, sex discrimination in Public Service was removed and consequently the Men's and Women's branches of the Madras Medical Service were amalgamated with the result that Women Medical Officers became eligible for appointment to administrative posts such as District Medical Officers, etc. in the Madras Medical Service. There are four Women Civil Surgeons in the General Service in this State at present and three of them are holding posts of District Medical Officers. In addition Women Civil Surgeons are holding posts in teaching and specialists departments.

(iii) In pursuance of the recommendations made by the Upgrading Committee constituted by the Central Government in the year 1948, the Government of India have upgraded the Venereal Diseases department of the Government General Hospital, Madras, the Obstetrics and Gynaecology Department of the Government Women and Children Hospital, Madras, and the Anatomy department of Stanley Medical College, Madras, to serve as All-India post-graduate training centres in the special subjects concerned. The three upgraded departments mentioned above commenced to function (with the appointment of Directors) with effect from 18th September 1952 and 22nd September 1952 respectively. The expenditure on account of the upgraded departments is being shared by the Government of India and the State Government according to specified proportions.

(iv) The Government sanctioned the creation of a post of Dean for the Government Stanley Hospital and the Stanley Medical College, Madras, and this post was filled up with effect from 29th April 1952 afternoon.

(v) The post of Civil Surgeon, Nagapattinam (Tanjore district), was transferred to the Government Wellesly Tuberculosis Sanatorium, Bellary, and one of the posts of Assistant Surgeons in the latter institution was transferred to Government Hospital, Nagapattinam.

(vi) As a result of the formation of the Andhra State with effect from 1st October 1953, it became necessary to revert a few non-Andhra Officers in the category of Civil Surgeons as Assistant Surgeons, as they were surplus to the actual requirements of the residuary State and but for this, the cadre of officers of the Madras Medical Service remained unaffected by the partition of the State.

4. *Training of Medical Officers in foreign countries.*—During the year 1953, eight Medical Officers were deputed abroad for higher studies as detailed below:—

(1) Deputation by Government	..	..	1
(2) Deputation under W.H.O. Fellowship.	..	..	1
(3) Commonwealth Technical Co-operative Scheme	..	..	3 (paid).
	..	..	1 (honorary Medical Officer).
(4) Study leave terms	..	..	2

R

L. 14.211 & NICE

In addition to this, departmental training to Medical Officers such as, training in Radiology, Tuberculosis, etc., were also provided during the year 1953 and as stated below :—

DMR	4
TDD	3
X-ray training for two months	4

5. *House Surgeons and House Physicians.*—The Committee constituted to go into the question of standard of training, curriculum of studies and other cognate matters connected with the College of Indigenous Medicine recommended that G.C.I. Ms. and L.I.M. candidates might be appointed as House Surgeons and House Physicians in the hospitals of Modern Medicine. In pursuance of this recommendation, the Government have decided that G.C.I.Ms. and L.I.Ms. may be posted to selected District Headquarters Hospitals for a period of one year to enable them to obtain practical knowledge of the method of treatment adopted under the modern system of medicine in ordinary cases without aiming at specialization of a high degree. They are to be designated as “Indigenous Medicine House Surgeons” and “Indigenous Medicine House Physicians”. They are to be given out-patient work, general treatment and management of cases and training in minor surgery and midwifery. At the end of satisfactory completion of training, a certificate will be issued to the effect that after qualifying for the G.C.I.M./L.I.M., they have had practical training in the particular institution. The G.C.I.M. and L.I.M. candidates in possession of the certificate of practical training are to have preferential claim for appointment in Local Fund and Municipal dispensaries and also as Rural Medical Practitioners as against G.C.I. Ms./L.I. Ms. without such a certificate.

The Government have also permitted the appointment of a limited number of students of the College of Indigenous Medicine who have failed in modern medicine and surgery as House Surgeons and House Physicians in medical and surgical units and in special departments at the Government Royapettah Hospital, Madras.

Lecture demonstrations in practical aspects of medico-legal work are also given to Indian Medicine House Surgeons.

Further G.C.I.Ms. who have undergone the house surgery are eligible for appointment as Medical Officers in Local Fund dispensaries and hospitals of Indigenous Medicine and Modern Medicine in the scale of Rs. 100—5—150—10—200. Women G.C.I. Ms. are also eligible for appointment in Public Health Department as regular Medical Officers in Maternity and Child Welfare centres run by District Boards. G.C.I.Ms. who have undergone house surgery course are eligible for appointment as Medical Officers under the Community Projects. L.I.Ms. are also eligible for appointment as Medical Officers in the Local Fund Medical Institutions of Modern Medicine and in the Community Projects.

6. *Honorary Medical Officers.*—The request of Honorary Medical Officers' Association to treat Honorary Medical Officers on a par with paid Medical Officers in the matter of selection of candidates for higher studies in foreign countries was turned down by the Government. However, Government have decided that though their general policy is to depute only paid officers abroad for higher studies for the present, in exceptional cases of individual merit, honorary Medical Officers who might be better suited than paid Medical Officers, will also be favourably considered as and when occasion arises.

There were 49 Honorary Medical Officers and 368 Honorary Assistant Medical Officers during the period from 1st January to 30th September 1953 and 49 Honorary Medical Officers and 286 Honorary Assistant Medical Officers from 1st October to 31st December 1953.

7. *Nursing service.*—During the triennium under report, the Government sanctioned a substantial addition of 277 nurses to the strength of the nursing staff in the Medical

Institutions of the State. They also sanctioned on a temporary basis, the employment of a Paediatric nurse in the Government General Hospital, Madras, under the Technical Assistance Programme and a W.H.O. Paediatric Nurse was appointed to the post.

With a view to securing uniformity Government fixed definite scales for employment of servants for the nurses quarters and common mess attached to Government Medical Institutions. They delegated powers to the Chairman, Board of Examiners for Nurses and Midwives to condone, up to certain limits deficiencies in the period of training undergone by nurse-pupils. The power to transfer the nurse pupils from the partial to complete training centres hitherto exercised by the Director of Medical Services was delegated to the President, Regional Committee for the Selection of Nurse-Pupils, Government General Hospital, Madras.

Two Nursing Superintendents and two Nursing Tutor were deputed to undergo Refresher Courses for Nursing Superintendents and Nursing Tutors, respectively conducted in New Delhi during 1952. In the same year, one nurse was deputed for the Refresher course in Paediatric Nursing held in New Delhi. One more nurse from Government General Hospital, Madras was deputed in 1953 to the United Kingdom on a Fellowship granted under the Commonwealth Technical Co-operative Scheme, for higher studies in Physiotherapy. Sanction for the deputation of two more nurses on such Fellowships was also accorded during 1953.

The Government appointed a committee to go into the question of reforming the existing Nurses Training course. The Committee has submitted its report and it is under the consideration of Government. The Government also sanctioned a scheme for the training of nurses in labour ward work and the institution of a three months' course in Paediatric nursing in the Government General Hospital, Madras. As a first step towards solving the problem of unemployment among qualified nurses, the programme for the training of Nurse-Pupils was slowed down by abolishing the partial training centres at the Government Headquarters Hospitals at Salem and Kozhikode as well as the Central Preliminary Training School at Madras.

The course for Diploma in Nursing was continued to be conducted in the Government General Hospital, so that qualified candidates may become available to man the posts of Nursing Tutors and Nursing Administrators. The response from private candidates to undergo the course has been poor during the period under report. The Government approved a scheme to give men-nurse pupils training in Mental diseases in the Government Mental Hospital, Madras. They also sanctioned the post of a Nursing Tutor, II Grade, in that hospital for the purpose.

Consequent on the formation of the Andhra State on 1st October 1953, a few Nursing Officers had to be reverted to lower grades and a few nurses had to be discharged from service, in the order of juniority.

8. *Compounders.*—The Government have recognized the Town General Hospital, Pudukkottai as a training centre for compounders with a view to provide facilities for candidates in and around Pudukkottai for undergoing training in compounding. In the Residuary Madras State, all the headquarters Hospitals (excepting those Chingleput and Ootacamund) are training centres for compounders in addition to the following in the Government Hospitals in Madras City :—

- (1) Government General Hospital, Madras.
- (2) Government Stanley Hospital, Madras.
- (3) Government Royapettah Hospital, Madras.
- (4) Kasturba Gandhi Hospital for Women and Children, Triplicane, Madras.
- (5) Government Hospital for Women and Children, Madras.

In addition to the above, two other private institutions viz., the Christian Medical College Hospital, Vellore, and the Christu Kula Ashramam Hospital, Tirupattur (No Arcot), are recognised training centres for compounders.

9. *Posts paid from contingencies brought on to regular establishment.*—The Government, on the recommendation of the Director of Medical Services, decided that the posts listed below which were hitherto borne on contingent establishment be brought on to the regular establishment and included in the Madras Last Grade Service :—

- (1) Waterman,
- (2) Waterman-cum-cooks,
- (3) Nurses' mess servants,
- (4) Cleaner, Ambulance,
- (5) Coolie—disinfecting,
- (6) Masalachees,
- (7) Bathmen,
- (8) Drainage coolies,
- (9) Sweepers,
- (10) Cook-matties,
- (11) Cleaners,
- (12) Fitter coolies,
- (13) Carpenter boys,
- (14) Bearer,
- (15) Dispensary coolies,
- (16) Sweeper-gardener,
- (17) Sweeper-watchman,
- (18) Latchies,
- (19) Sweepers-cum-waterman and
- (20) Cartmen.

The Government have also directed that the pay of the posts included in the categories specified above be fixed in the time-scale of Rs. 15—1,2—20 and that the services of the existing incumbents should be regularized. Almost all posts borne on contingent establishment have been gradually brought on to regular establishment; the question of bringing the few remaining posts into regular establishment is under the consideration of Government. The change now introduced has removed certain long standing grievances of hospital workers who have been agitating for improvements of their service conditions for a long time.

10. *Medical education.*—The admission of students into the four Medical Colleges, viz., Madras Medical College, Stanley Medical College, Andhra Medical College and Guntur Medical College was made in accordance with the rules laid down by Government from time to time.

The number of seats available for admission in each of the four colleges is given below :—

(1) Madras Medical College, Madras ..	135
(2) Stanley Medical College, Madras ..	100
(3) Andhra Medical College, Visakhapatnam ..	60
(4) Guntur Medical College, Guntur ..	50

The scheme for the establishment of a medical college at Madurai which was deferred had been revived and the college has since been opened in July 1954. In the residuary Madras State there are now three Government Medical Colleges and two colleges maintained by private organizations of which one is affiliated to the Dharwar University. Proposals for starting medical colleges in certain other mufassal stations by private agencies are also under consideration.

The B.D.S. course (4 years) was started in 1953 and 15 candidates were admitted to the course.

11. *Post-graduate training.*—As the three upgraded departments of Anatomy, Stanley Medical College, Venereal diseases, Government General Hospital, Madras and Gynaecology and Obstetrics, Government Hospital for Women and Children, Madras, are All-India centres for post graduate training and research, the final selection of candidates for admission to the courses was conducted by the Central Government at New Delhi. The Director of Medical Services and the Directors of the concerned upgraded departments were co-opted as members of the committee constituted for the selection. Out of the total number of seats available in each upgraded department, a portion was set apart for candidates belonging to this State and the rest was reserved for those coming from other States. The first batch of

students for admission to the course commencing from January 1954 was selected about the end of the year 1953. The number of students admitted to the different upgraded departments is indicated below :—

Name of upgraded department.	Madras quota.	Central quota.
Obstetrics and Gynaecology	6	6
Venereal Diseases	3	3
Anatomy	1	3

12. *Refresher course.*—With a view to improve the professional knowledge of the medical men in the mufassal, refresher courses were instituted in certain selected regional centres, viz., at Visakhapatnam, Guntur, Madras, Bellary, Madurai, Tanjore, Kozhikode and Coimbatore. Specialists in various specialities, both from Madras and Visakhapatnam Medical Colleges delivered a course of lectures at the above centres. Although this course was intended mainly for the benefit of State and Local Fund Medical Officers, private medical practitioners were also allowed to attend the course with the prior permission of the Superintendent of the District Headquarters Hospital at which the course was held. The course extended over a period of ten days in each centre and the number of Medical Officers permitted to attend was limited to 20. This course proved very useful and instructive, as it enabled a large number of medical officers to acquaint themselves with modern developments of medicine and surgery and replenish their knowledge both through lectures and ocular observations of demonstrations given by the specialists. As the refresher course proved to be a success, the Government have since sanctioned the continuance of the course in the subsequent year also.

13. *Visiting team of world's leading medical scientists.*—A team consisting of 14 reputed world's leading medical scientists drawn from eight different countries visited Madras during February 1953 and spent about two months. Their visit was jointly sponsored by the World Health Organization and the Unitarian Service Committee of United States of America. The team was headed by Dr. S. L. Levine (among whom was Sir Alexander Flemming, inventor of wonder-drug penicillin). The main object of the visit was to bring the leading scientists in India and abroad into personal contact with one another thereby stimulating scientific endeavour both in this country and in the home countries of the visiting team and further to enable them to exchange ideas on current problems of medical science. Fourteen Medical Officers were invited from city and the mufassal to collaborate with their opposite members in the particular speciality concerned and help in organizing the work of the team. Nine officers of the Public Health Department also participated in the discussions.

The visiting team of experts delivered lectures and gave practical demonstrations in the Government General Hospital and Stanley Hospital which were attended by Government Medical Officers in the city and a few from mufassal. The lectures and demonstrations given by the team in various specialities on latest methods of treatment have enabled our Medical Officers and private practitioners to get themselves acquainted with the up-to-date methods of treatment. The most notable feature of their demonstrations was in the field of thoracic surgery which department is to be opened at the Government Tuberculosis Sanatorium, Tambaram.

14. *The Pharmacy Act, 1948.*—The first register of Pharmacists was published in the *Fort St. George Gazette* during 1952. An appellate authority to hear appeals in respect of first registration was notified in 1952. In August 1952, the Government notified that a Pharmacy Council for the State of Madras should be constituted and that the said Council should be named “The Madras Pharmacy Council”. Draft rules for the State Pharmacy Council on the model rules framed by the Government of India for the Pharmacy Council of India were submitted to Government for approval. In connexion with the implementation of the Pharmacy Act, 1948, proposals for the nomination of the first President and members of the State Pharmacy Council, the appointment

of the first Registrar of the Council and for the levy of renewal fees under section 34 of the Act were under the consideration of Government.

15. *Dentists Act, 1948.*—There is a proposal under consideration of the Government to provide training courses for the dentists registered in Part B (temporary) in the Madras Medical College, Madras. There are 30 Part (B) temporary dentists and 269 Part (B) permanent dentists registered in the State but the proposed course will be restricted only for the (B) temporary dentists with the equipment and staff available for the B.D.S. Course in the Madras Medical College, Madras. The State Government have requested the Government of India to move the Dental Council of India to take steps to recognize the Madras Medical College, Madras and the Government General Hospital, Madras, for purpose of training dentists who desire to qualify themselves and pass the examinations mentioned in sections 33 and 34 of the Dentists Act, 1948. The final orders of the Government of India, on the proposal under reference, are awaited.

The Madras Dental Council Rules have been deemed to apply to the State of Coorg as well.

16. *The Drugs Act, 1940, and the Madras Drugs Rules, 1945.*—The following licences were issued in 1953:—

Sales licences—

Form 20	Retail regular	802
	Retail restricted	781
	Whole sale	458
Form 21	Retail regular	818
	Retail restricted	145
	Wholesale	407
Form 20-A	Retail	994
	Wholesale	253
Form 21-A	Retail	202
	Wholesale	132

Manufacturing licences.—Form 25—20 (for manufacture of drugs other than biological and special products).

Form 28—7 (for manufacture of biological and special products)

Form 26 (renewal of old licences)—77.

Fourteen prosecutions were launched during the year under report. Of these six cases were convicted while the other eight were acquitted mainly due to the fact that the dealers in drugs are protected by the saving clause under section 19 (3) (a) of the Drugs Act, 1940. Steps have been taken to amend the relevant section of the Act.

On account of the partition of the State, four Drugs Inspectors were allotted to the Andhra State and five were retained in the residuary Madras State. As it was found very difficult by the five District Inspectors in the residuary State to cope with the inspection of sales concerns, another post of Drugs Inspector has been sanctioned with Tanjore as headquarters.

The Drugs Inspectors have been asked to be on the look out for spurious drugs and to bring to the notice of this office and the police authorities about them so as to take action against such dealers.

Dr. V. Iswariah, Professor of Pharmacology, late Sri A. N. Rathnagiriswaran, Professor of Pharmaceutics, Madras Medical College, Madras, and Sri U. Sundar Kini, B.Sc. (Hons.), Oil Chemist, Government Oil Factory, Kozhikode, were appointed as Drugs Inspectors under the Drugs Act, 1940, for purposes of inspection of concerns manufacturing special drugs specified in Schedule C-1 of the Drugs Act, 1945.

The Director, King Institute, Guindy, has been appointed as Inspector of concerns manufacturing sera and vaccines besides item 13 of Schedule C of Drugs Rules, 1945.

The Assistant to the Director of Medical Services (Drugs) who is also the Inspecting Officer of manufacturing concerns in drugs (other than biological and special products) inspected 104 manufacturing concerns in Madras City and in the mufassal during 1953, while the Drugs Inspectors inspected 4,085 sales concerns and

48 manufacturing concerns. One hundred and eleven samples were taken and sent to the Government Analyst (Drugs), King Institute, Guindy, for analysis. Out of them 86 were reported to be of standard quality while 45 were reported otherwise. In the case where the samples were found to be substandard, the manufacturers were instructed either to withdraw such products from the market and destroy them or to rectify them before putting them in the market. In certain cases, prosecutions were also launched.

17. *Dental clinics.*—During the triennium under report, three dental clinics were opened in the following hospitals:—

- (1) Government Hospital, Karkala (South Kanara district).
- (2) Government Women and Children Hospital Madras.
- (3) Government Headquarters Hospital, Machilipatnam.

A part-time Dentist was appointed to the Government Hospital, Karkala, and the question of appointing part-time dentists to the remaining two hospitals is under consideration. The post of Honorary Assistant Medical Officer (Dental) in the Town General Hospital, Pudukkottai (Tiruchirappalli district), was converted into that of a part-time Dental Surgeon during the period. There were 17 dental clinics in the composite State on 30th September 1953.

18. *First Five-year Plan.*—The First five-year plan provides for the expansion of facilities for medical education, improvements to hospitals and dispensaries, extension of medical relief, opening of new tuberculosis sanatoria and clinics, nationalization of anti-leprosy campaign, improvements to Medical College libraries, construction of infectious diseases hospitals, opening of eye departments and eye clinics and a provision for research and a few other items. The Five-year Plan covers the period commencing from the financial year 1951-52 and ending with the financial year 1955-56. All the development schemes that were in the course of execution were included in the first Five-year Plan as it was necessary to complete them before undertaking new schemes or new programmes. With the formation of the Andhra State a few of the schemes (e.g., improvements to the Andhra Medical College and King George Hospital, Visakhapatnam, come solely under the jurisdiction of the Andhra State while a few other schemes (e.g., expansion of medical relief, etc.) are of a general nature applicable to the Governments of Andhra and Madras State.

The schemes included in the Five-year Plan are divided into four main categories, viz.,

- (1) Medical Education.
- (2) Training.
- (3) Hospitals and dispensaries—Extension of medical relief.
- (4) Other schemes.

The schemes coming under the above mentioned four main headings are listed below and their progress is indicated against each item. (Schemes relating to the Madras State are alone furnished.)

(1) *Medical Education.*—(i) *Improvements to Stanley Medical College, Madras.*—The scheme is well in progress and is expected to be completed in 1956-57.

(ii) *Madurai Medical College Scheme.*—The scheme has been in progress without any impediment and is expected to be completed in 1956-57 and on completion 100 students will be admitted every year.

(2) *Training.*—(i) *Training of additional maternity assistants.*—It was originally proposed to train 100 maternity assistants each year; due to financial stringency the scheme was deferred and taken up only in 1952-53. Forty-seven were trained in 1952-53.

(ii) *Training of compounders.*—Two hundred and twenty compounders were trained in the year 1951-53.

(iii) *Training of additional nurses.*—Deferred.

(iv) *Training of C.R.A. candidates.*—Eight C.R.A. candidates are being trained every year.

(3) *Hospitals and dispensaries—Expansion of medical relief.*—(i) *Training of pharmacy candidates.*—Scheme deferred.

(ii) *Headquarters Hospital, Tiruchirappalli.*—Construction of—The buildings are nearing completion. On completion the bed strength will be raised from 275 to 350.

(iii) *Headquarters Hospital, Kozhikode* will be completed during 1953-54. On completion the bed strength will be raised from 271 to 450.

(iv) *Government Hospital, Tuticorin.*—The work is in progress and will be completed after 1956. Hundred beds on completion.

(v) *Hospital in Mangalore.*—Started in 1951. Well in progress. On completion bed strength will be raised from 116 to 350.

(vi) *Improvements to Taluk Headquarters Hospitals and increase of bed strength of badly overcrowded hospitals.*—Scheme began in 1951-52. Will be completed in 1956-57. On completion 500 beds will be available in the institutions (Erode 100 and rest 400).

(vii) *Government General Hospital, Madras.*—Began in 1951-52. Will be completed in 1955-56. On completion will have a bed capacity of 1,147.

(viii) *Establishment of Regional Laboratory at Madurai.*—Deferred.

(ix) *Provincialisation of Local Fund Medical Institutions.*—Scheme started in 1951-52. Will be completed in 1955-56. Due to financial stringency only 3 medical institutions were provincialised during 1952-53 as against the target figure 5.

(x) *Opening of Primary Centres.*—The scheme is kept in abeyance.

(4) *Other Schemes.*—(i) *Tuberculosis Sanatorium and Clinics.*—No budget provision was made during the triennium, 0.21 lakh for 1954-55 and 2.00 lakhs for 1955-56 has been proposed.

(ii) *Anti-Leprosy Campaign.*—Started in 1947. Will be completed in 1967. During the triennium a night segregation and investigation unit was established in South Arcot district. Improvements to Lady Willingdon Leprosy Sanatorium, Tirumani, were also effected. Measures are being taken to control the high incidence of leprosy in Saidapet.

(iii) *Eye Department and Eye Relief Camps.*—Not implemented during the triennium.

(iv) *King Institute, Guindy—Low Temperature Room.*—Scheme not implemented.

(v) *Infectious Diseases Hospital at Madurai.*—Scheme started on 19th December 1953 and is in progress.

(vi) *Improvements to Medical Colleges and King Institute Libraries.*—The scheme started in 1951-52 and is being carried out each year to the extent funds have been provided for.

(vii) *Grant to State Research Committee for promotion of Medical Research.*—Started in 1949-50. Will be completed in 1955-56. Researches have been undertaken and published in scientific journals.

Community Projects (Madras State only).—In the year 1952 four community projects were started in the districts of South Kanara, Malabar, Coimbatore and Madurai and continued to function during the rest of the triennium. In October 1953, four community blocks, one in each of the districts of Chingleput, South Arcot, Tirunelveli and Madurai were inaugurated. In all, there are now 15 community development blocks comprising 1,201 villages with a total population of 2,47,098. The scheme envisages the opening of one secondary health centre and 3 public health centres in each block. The secondary health centres will be provided with an accommodation of 40 beds. The primary health centres will have a dispensary at which consulting room, diagnostic facilities and a ward of 6 beds will be provided.

Staff.—Three Doctors (2 men and 1 woman); 2 Compounders; 1 Lady Technician.

The full complement of staff have not been posted to any centre. No beds have also been provided yet in the primary health centres.

There are five primary health centres working in the State in the following places:—

Coimbatore district ..	(1) Kasipalayam.
	(2) Punja Kolenallai.
Madurai district ..	(1) Vadipatti.
South Kanara district ..	(1) Bajpe.
	(2) Hebri.

The question of upgrading the Government Hospital, Karkal in the South Kanara district and the Government Hospital, Palghat in the Malabar district as secondary health centre is under the consideration of Government.

Rural Reconstruction Schemes.—The Government of India suggested that the N.E.S. as envisaged by the Community Projects Administration should be launched in all States under the scheme an integrated treatment of rural life and problem is designed to increase food production and communications, tackle diseases and illiteracy, etc. The Government accepted the proposals and ordered that the existing Rural Welfare Schemes should be absorbed in the National Extension Service Programmes. Twenty-eight Development blocks under the N.E.S. schemes were established in the State on 2nd October 1953.

Under the scheme improvements to hospitals and dispensaries in rural areas such as opening of out-patient departments, maternity wards, etc., are contemplated. The Schemes are being executed by the Collectors of the respective districts assisted by the Advisory Committees and Block Development Officers. The Medical Department is consulted in the matter of suitability of the stations selected for development, i.e., the administrative approval of the Director of Medical Services is obtained in the matter.

In December 1953 the Government sanctioned two schemes for 1953-54

(1) the construction of one maternity block with four beds to the Local Fund Dispensary at Panruti,

(2) construction of two wards to the Thakkar Bapa Kusta Nivaran Sangh Leprosy Clinic in Devanur village, Tirukkoilur taluk.

19. *Increase of bed strength.*—The sanctioned bed strength of the following Government hospitals was increased as noted against each hospital during the year 1953:—

(1) Government Hospital, Rasipuram, Salem district, from 12 to 23.

(2) Government Hospital, Kasargod, South Kanara, from 26 to 34.

(3) Government Headquarters Hospital, Kurnool, from 128 to 154.

20. *Buildings—I. Medical College Scheme.*—In connexion with the Medical College schemes the following building programmes were under execution during the period under report:—

(i) Reconstruction of the Raja Sir Ramaswamy Mudaliar's Lying-in Hospital, Madras.

(ii) Construction of a new medical block, quarters for nursing staff, reconstruction of the pre-registration block in the King George Hospital, Visakhapatnam and the construction of hostel block, etc., for the Andhra Medical College, Visakhapatnam.

(iii) Construction of Anatomy, Physiology and Pharmacology blocks, Stanley Medical College, Madras.

(iv) Opening of a new Medical College at Madurai.

(v) Expansion of the Medical College at Guntur.

II. Improvements to district headquarters hospitals under the Five-year Plan.—(a) *Headquarters Hospital, Mangalore.*—Construction of a three storeyed building to accommodate the special ward, nurses class room

office block, etc., are nearing completion. Construction of the building to accommodate the medical wards is in progress.

(b) *Lady Goschen Hospital, Mangalore.*—The construction of the maternity ward is in progress.

(c) *Construction of new Headquarters Hospital, Kozhikode.*—The fourth block was occupied.

(d) *Construction of a new Headquarters Hospital, Tiruchirappalli.*—The maternity section was completed and occupied on 23rd September 1953.

The police ward of 9 beds has been completed. The construction of a steam laundry is in progress.

(e) *Construction of a new Headquarters Hospital, Eluru.*—The two main blocks men's ward and women's ward are completed including kitchen. The buildings were occupied on 1st September 1953.

The administration and X-Ray blocks are nearing completion.

III. *Improvements to Taluk Headquarters Hospitals under the Five-year Plan—South Arcot district—Government Hospital, Kallakurichi.*—New maternity ward is nearing completion.

Chingleput district—Government Hospital, Kancheepuram.—Administration block and overhead tank nearing completion.

South Kanara district—Government Hospital, Coondapur.—The following improvements are in progress:—

- (1) Improvements to Out-patient block.
- (2) Bath-room and septic tank latrine.
- (3) Sterilising room.

Madurai district—Government Hospital, Usilampati.—A maternity ward is almost completed.

Malabar district—Government Hospital, Tellicherry.—The following improvements were carried out during the year:—

- (1) Construction of a new septic tank latrine.
- (2) Conversion of one bath-room into a septic tank latrine.
- (3) Replacing the roof of the female surgical ward.

- (4) Repair to old latrine.

Ramanathapuram district—Government Hospital, Srivilliputhur.—Improvements.—Construction of

- (1) Maternity ward
- (2) Children ward
- (3) An operation theatre

Government Hospital, Aruppukottai.—A general ward of 44 beds is in progress (Estimate Rs. 88,000).

Salem district—Government Hospital, Dharmapuri.—Construction of a male ward of 12 beds is in progress.

Tiruchirappalli district—Government Hospital, Lalgudi.—Construction of a ward of six beds, pucca waiting sheds and post-mortem room has been completed.

Government Hospital, Karur.—Construction of a new ward of 12 beds has been completed.

Tirunelveli district—Government Hospital, Tuticorin.—Construction of the new hospital is in rapid progress.

Cuddapah district—Government Dispensary, Badvel (to be converted into hospital).—One ward of 12 beds and Nurse's quarters completed.

Government Hospital, Rajampet.—A maternity ward of 8 beds was completed and occupied.

West Godavari district—Government Dispensary, Kovvur (to be converted into hospital).—General and maternity wards and operation theatre are in rapid progress.

Kurnool district—Government Hospital, Nandigama.—The following buildings have been completed:—

- (1) Operation theatre.
- (2) Maternity ward of 8 beds.
- (3) Two general wards of 6 beds each (one for males and another for females).

Visakhapatnam district—Government Hospital, Srikakulam.—A ward of 24 beds has been completed.

Government Hospital, Palkonda.—A maternity ward of 4 beds is in progress.

Government Hospital, Parvathipur.—A maternity ward of 8 beds is in progress.

Other Building Schemes—Madurai district—Local Fund Hospital, Tirumangalam.—A maternity ward is under construction.

Leprosy Sanatorium.—Building partially completed and occupied. Main Out-patient and administration blocks are under construction.

Ramanathapuram District Headquarters Hospital.—Improvements to existing maternity ward and female and male medical wards.

Tanjore district—Headquarters Hospital.—Construction of 44 residential quarters for the hospital servants (35 for toties and 9 for sweepers) at a cost of Rs. 1,07,000 was completed and the quarters were opened on 27th October 1953 by the Governor.

Nellore district—Government Hospital, Atmakur.—A maternity ward of 4 beds and a small operation room were completed.

Government General Hospital, Madras—Nurses' quarters.—Building nearing completion.

Kasturba Gandhi Hospital for Women and Children, Madras—Nurses' quarters.—Building nearing completion.

DONATION WORKS.

A. New Donations accepted.

Tuberculosis Sanatorium, Tambaram.—(1) Recreation pavilion in the ex-patients colony at a cost of Rs. 3,000 (Donor—Major-General S. L. Bhatia).

(2) Ten bedded ward for children of Defence personnel (Donor—Madras Inter-services Welfare Fund).

(3) Children ward and open air theatre (Donor—Madras Provincial Welfare Fund).

Lady Willingdon Leprosy Sanatorium, Tirumani.—Two sets of rooms cut off donations.

Headquarters Hospital, Vellore.

| (i) General ward of 16 beds for men .. | 24,000 |
| (ii) General ward of 16 beds for women .. | 24,000 |
| (iii) Children's ward of 12 beds .. | 21,000 |
| (Donor—Madras Provincial Welfare Fund.) | |

Government Hospital, Walajabad (North Arcot district).—Maternity ward of 4 beds. (Donor—Central Co-operative Stores, Limited Vellore.)

Headquarters Hospital, Salem.—Children Ward—Rs. 58,250 (Donor—Mr. E. W. Sincock). The building was nearly completed during the year.

Headquarters Hospital, Palayamkottai.—Alterations, improvements and remodelling of the E.N.T., Eye and Medical wards into a single ward (Donations paid by the Hospital-Day Celebration Committee).

Women and Children Hospital, Vannarpet (Tirunelveli district).—Maternity ward of 8 beds and a semi-permanent ward of 8 beds (Donor—Madras Provincial Welfare Fund).

Government Hospital, Ambasamudram (Tirunelveli district).—A ward of 4 beds—Rs. 4,000—(Donor—Srimathi Lakshmi Ammal).

Town General Hospital, Pudukkottai.—(1) Overhead tank (Donor—Sri S. V. Sivaswami Servai).

(2) A general ward (Donor—Ex-Co-operative Medical Union).

Headquarters Hospital, Nellore.—(1) Children's ward of 10 beds (Donor—Sri S. Krishna Reddy).

(2) A ward of 12 beds (Donor—Sri R. V. G. Krishna Reddy).

(3) Tuberculosis Out-patient clinic (Donor—Rotary Club, Nellore).

Government Hospital, Gudur (Nellore district).—A male ward of six beds (Donor—Sri G. Subbarayalu Chetty).

Headquarters Hospital, Cuddapah.—A Tuberculosis Ward (Donor—Madras Provincial Welfare Fund).

Donation works nearing completion or completed during the year.		Donor.
North Arcot district—Headquarters Hospital, Vellore.	Tuberculosis ward of 24 beds.	North Arcot T.B. Association.
Do.	Maternity ward of 20 beds.	Madras Provincial Welfare Fund.
South Arcot district—O. P. R. Primary Centre, Siruvanthadu.	(Medical Side) (opened on 25th January 1953 by the Chief Minister).	A local committee.
Coimbatore district—Headquarters Hospital, Coimbatore.	Semi-permanent ward to accommodate stick destitutes.	Coimbatore Municipality.
Government Hospital, Gobichettipalayam.	Special wards of six beds (opened on 9th December 1953 by the Minister for Finance).	Madras Provincial Welfare Fund.
Local Fund Hospital, Palladam.	Maternity ward ..	Public.
South Kanara district—Tuberculosis Sanatorium, Mudushedde.	All buildings nearly completed.	Madras Provincial Welfare Fund.
Madurai district—Local Fund Hospital, Uthamapalayam.	Maternity ward nearing completion.	Sri Mohamed Meera Rowthar.
Ramanathapuram district—Headquarters Hospital, Ramanathapuram.	Maternity ward ..	Panchayat Board.
Tanjore district—Government Hospital, Tiruvarur.	Leprosy shed ..	Sri T. N. Subapathi Mudaliar.
Krishna district—Local Fund Hospital, Avani-gadda.	Maternity ward of eight beds.	Madras Provincial Welfare Fund.
Nellore district—Government Hospital, Gudur.	A ward of six beds ..	Sri P. V. Raghava Reddi.

Donation Works (in progress).

Coimbatore district—Government Hospital, Udumalpet.	General ward of 16 beds (Rs. 30,000).	Srimathi Nangiri.
Madurai district—Tuberculosis Sanatorium, Austinpetti.	New sanatorium ..	Madras Provincial Welfare Fund.

Provincialization of Hospitals and Dispensaries.

21. During the triennium ending 1953 the following Local Fund Medical institutions were provincialized:—

- (1) Local Fund Hospital, Karkal, South Kanara.
- (2) Local Fund Hospital, Badagara, Malabar district.
- (3) Local Fund Hospital, Chengam, North Arcot district.
- (4) Local Fund Hospital, Gooty, Anantapur district.
- (5) Local Fund Dispensary, Mudukulathur, Ramanathapuram district.
- (6) Local Fund Dispensary, Rampachodavaram, East Godavari district.
- (7) Local Fund Dispensary, Allur, Nellore district.
- (8) Local Fund Dispensary, Rayachoti, Cuddapah district.
- (9) Local Fund Hospital, Printalamma, Malabar district.
- (10) Local Fund Hospital, Mettupalayam, Coimbatore district.

In addition to the above, the following medical institutions under private management (Rajah Saheb of Vizianagaram) were also taken over for maintenance by Government at State expenditure during the triennium under report:—

- (1) Maharajah's Hospital, Vizianagaram (Visakhapatnam district).
- (2) Maharani's Hospital for Women and Children, Vizianagaram (Visakhapatnam district).

22. *Rural medical relief.*—The problem of medical relief in rural areas continued to be a difficult one, as in previous years due mainly to paucity of doctors willing to take up appointment in rural areas. Consequently a number of rural dispensaries of modern medicine continued to remain closed during 1953. A few rural dispensaries of modern medicine were converted into those of indigenous medicine temporarily wherever the circumstances permitted this course being adopted.

The Government have ordered that every retiring Government or Local Fund Assistant Surgeon should be asked three months before his retirement whether he would be willing to work in a rural dispensary which has been closed temporarily and that those who are agreeable might be appointed in the dispensaries. The result of this experiment is being watched. The conditions in rural areas do not attract the medical officers to settle down there and do their practice. It is not merely want of amenities that prevents them to settle down in rural parts, but their reluctance is also due to the meagre rates of subsidy paid and the limited scope for private practice available in rural areas.

With a view to attract medical practitioners to offer their services for work in rural areas and in pursuance of the recommendations of the conference of District Medical Officers held in August 1952, Government have liberalized the conditions of service of Rural Medical Practitioners by increasing the number of days of casual leave and earned leave to be granted to the Rural Medical Practitioners. Previously they were eligible for an aggregate period of leave of absence from duty for 30 days in a year including casual leave and public holidays. According to the revised orders they are now eligible for 15 days casual leave including public holidays, plus earned leave equivalent to 1/11 of the period spent on duty. The Rural Medical Practitioners also have been declared to be eligible for all privileges and concessions conferred to non-gazetted officers in regard to medical treatment in Government hospitals.

23. *Primary health centres.*—A primary centre with medical side only was opened at Siruvanthadu, South Arcot district, in 1953. Up to the end of 30th September 1953, 25 Primary Health Centres were functioning in the composite State. After the formation of the Andhra State 16 Primary Health Centres are functioning in the Madras State.

As the Primary Health Centres were not functioning satisfactorily the question of modification of the scheme of Primary Health Centres was considered by Government. After careful consideration they have decided that mobile medical units should be established in place of Primary Health Centres and the experiment tried in the taluk headquarters hospitals of six taluks in which areas have been selected for operating the Rural Welfare Schemes.

24. *Yaws.*—In view of the wide prevalence of yaws in certain parts of Coimbatore district a proposal is under consideration for taking effective control measures against the disease in this district. A scheme involving a total expenditure of Rs. 53,470 has been submitted to Government for sanction.

The W.H.O. have agreed to consider the question of giving assistance by way of free supply of medicines, etc.

25. *Mobile dispensaries.*—During 1953 two Government mobile dispensaries were functioning, one each in the districts of the Nilgiris and Ramanathapuram. The unit in the Nilgiri district was rendering medical aid to Todas whose population was gradually dwindling for want of sufficient medical aid. To save this ancient and historic race from extinction, the Government sanctioned the establishment of a mobile medical unit in 1952. It is gratifying to note that, the Todas for whose benefit the unit was opened, availed themselves of medical aid provided for them. They are now reported to be free from the diseases which were commonly prevalent among them and their population has increased as a few births have taken place since the inception of the Mobile Medical Unit.

The Mobile Dispensary in Ramanathapuram district was intended to survey the incidence of Kala-Azar reported to be prevalent in certain parts of the district and give treatment to those suffering from this disease.

In Madurai, the Government have as a temporary measure, permitted the use of ambulance van attached to the Erskine Hospital, Madurai, for rendering medical relief in interior villages within a radius of 10 miles from Madurai, duly equipping the van with necessary stock of medicines and some minor surgical instruments out of the hospital stock and utilizing the voluntary services of the honorary Medical Officers and staff of the hospital.

In addition to the above, mobile dispensaries are also maintained by Madurai District Board, the Skipp Van Hospital Committee in the hilly tracts of Kodaikanal, the Ottapalam Mahilla Samajam in the Ottapalam taluk of South Malabar district and the Swedish Mission Hospital, Tirupattur, Ramanathapuram district, for rendering medical aid to the people in rural areas where there are no medical institutions at present. These mobile dispensaries are very popular, as treatment is brought to the very door of patients in the villages instead of their going to distant places where medical institutions exist for purposes of treatment.

26. *Health check-up centre at the Government General Hospital, Madras.*—During August 1953, the Government ordered that a health check-up centre be opened at the Government General Hospital, Madras, subject to certain conditions. The centre could not however be started for want of suitable accommodation in the premises of the Government General Hospital, Madras.

27. *Transfer of destitute incurable patients from Government Hospitals in the mufassal to private institutions for care and maintenance.*—Prior to 1952, there was no proper arrangement for the disposal of destitute patients suffering from incurable diseases in the Government medical institutions in the mufassal. They were being kept in hospitals for indefinite periods and this invariably resulted in a number of beds being occupied by them. To remedy this state of affairs, the Government, on the recommendation of the Director of Medical Services, agreed to the transfer of 40 such patients (to start with) to the following private institutions on payment of a capitation grant of Rs. 15 per mensem per patient:—

Name of the institution.	Number of patients.
1 The Beggar Home, Cuddalore	10
2 The Holy Angel's Convent, Kumbakonam.	20
3 The Prema Samajam, Visakhapatnam.	10

This arrangement relieved to a certain extent the overcrowding of in-patients in certain mufassal Government hospitals.

28. *Construction of a home for incurables in the Madras City.*—Many of the beds in the City State Hospitals are being occupied by persons suffering from certain chronic and incurable diseases. Many cases do not show any sign of improvement even after prolonged stay in hospital. As a result of these cases requiring institutional treatment are denied admission for want of beds. In order to remedy this state of affairs, proposals are under examination for construction of a hospital for incurables either in the Madras City or in one of the suburban areas with a view to transfer such cases from Government hospitals in the City.

29. *Blood bank.*—Blood transfusion plays a very important role in modern treatment and facilities for blood transfusion are absolutely essential in every hospital in which treatment of serious and difficult cases is undertaken.

The total number of blood banks functioning in the composite State at the time of the partition, viz.,

1st October 1953 was 20. After partition of the State the distribution of blood banks was as shown below—
Madras residuary State 15

(excluding King Institute, Guindy).

Andhra	4
Mysore	1 (Bellary).

In the residuary State, blood banks exist at the King Institute, Guindy, Government General Hospital, Government Stanley Hospital and the Government Hospital for Women and Children and also in all the District Headquarters Hospitals (excepting those at Cuddalore, Chingleput, Ramanathapuram and Salem), Government Tuberculosis Sanatorium, Government Hospital, Cochin and the Pasteur Institute, Coonoor. Steps are being taken to provide a blood bank in each of the four remaining district Headquarters Hospitals in the residuary State gradually and after this process is completed, the question of providing blood banks in some of the important taluk headquarters hospitals will be taken up for consideration.

Intensive propaganda work for blood transfusion service is being continued side by side with the training of Medical Officers and nurses to man the blood banks already functioning in the State. The positive copies of the film entitled 'Of one Blood' one in Tamil and the other in Telugu sound tracks which were got printed from the negatives kindly lent by the British Information Service, Madras, were exhibited in the cinema theatres in the several districts with a view to popularize blood transfusion service. The Blood Bank department took part in the exhibitions organized in Madras and in the mufassal for propagating the idea that blood donation is harmless and painless.

The Blood Bank department took part in 4 exhibitions during 1953. Blood was taken at the exhibition stall from voluntary donors to convince the visitors, the simplicity and harmless nature of blood donation.

The system of paying a remuneration of Rs. 5 to each donor (other than voluntary donors) was continued.

During 1953, 17 Medical Officers were deputed to the King Institute, Guindy, to undergo special training for 2 weeks in the technique of blood transfusion and resuscitation. The Government permitted Dr. M. S. Pathak, Blood Transfusion Officer, the Punjab, to receive training for a week in the King Institute, Guindy, to learn the technique of keeping plasma free from fibrin formation.

The statistics of work turned out in the blood banks during 1953 (January–December 1953) are as given below:—

(1) Total number of donors	13,477
(2) Voluntary	875
(3) Paid	11,512
(4) Patients' relatives, etc.	1,090
(5) Total number of transfusions given.	9,319

30. *Eye Bank (Corneal transplantation).*—The scheme for the supply of eyes of destitute patients dying in city hospitals to the Eye Bank maintained in the Government Ophthalmic Hospital, Madras, was sanctioned on a permanent basis in the year 1951. The Stanley Hospital, Madras, was excluded from this scheme, as the eyes of the destitute patients of this hospital were utilized in the Ophthalmic department of the same hospital for transplantation. The Eye Bank continues to do useful work.

31. *Blindness.*—Opening of ophthalmic departments, mobile eye units and camps.

The proposal of the Director of Medical Services for opening ophthalmic departments, ophthalmic mobile units, eye camps and propaganda scheme in Ramanathapuram and Anantapur districts have been deferred by Government for the present.

32. *X-ray.*—New X-ray plants were installed in the undermentioned Government hospitals during the triennium:—

- (1) Government Headquarters Hospital, Vellore.
- (2) Government Hospital, Kodaikanal.
- (3) Government Hospital, Nandyal.
- (4) Government Hospital, Hindupur.

The cost of X-ray plant for the Government Pentland Hospital, Vellore, was met from State funds while the X-ray plants at other hospitals were either donated for or purchased from funds provided by philanthropic citizens or social welfare organizations like the Madras Provincial Welfare Fund and the Skippo Van Roadside Hospital Committee, Kodaikanal.

During the triennium, the Government have sanctioned the purchase of a deep X-ray therapy plant for the Government Hospital for Women and Children, Madras, at a cost of Rs. 64,000 and the employment of certain additional staff required to work it. The plant has been installed in the hospital and is now functioning. Three deep X-ray therapy apparatus in the Barnard Institute of Radiology, Government General Hospital, Madras, were reconditioned at a cost of Rs. 1,50,000.

Radium.—Radium treatment is given in the following institutions:—

- (1) Barnard Institute of Radiology, Government General Hospital, Madras.
- (2) Government Hospital for Women and Children, Madras.
- (3) Government Ophthalmic Hospital, Madras.

It is proposed to provide facilities for radium treatment at the Government Erskine Hospital, Madurai, as soon as a cancer unit is opened there.

The Government accepted the donation of Rs. 40,000 by the East Godavari District Committee of the Madras Provincial Welfare Fund for the purchase of about 250 miligrams of radium for the treatment of general and gynaecological cancer cases in the Government Headquarters Hospital, Kakinada.

33. *Research.*—The Director, King Institute, Guindy, continued to be Secretary of the State Research Committee. During the year 1953–54, the Government sanctioned the payment of a block grant of Rs. 25,000 for promoting medical research and out of this grant the Committee sanctioned grants for nine items of research during 1953.

34. *Leprosy.*—(i) *General.*—The work of the prevention, control and treatment of leprosy was as usual carried out by the Government and other private agencies and associations such as the various Missionary bodies, the Madras State Branch of the Hind Kusht Nivaran Sangh, the Kasturba Gandhi Memorial Trust and the Thakkar Bapa Kusht Nivaran Sangh, etc. These non-Governmental organizations are in receipt of financial assistance from State Government to enable them to carry out their work.

(ii) *Incidence of leprosy.*—The Census of 1951 discloses that in the State as a whole there were 53,088 definite leprosy cases and 18,434 doubtful cases aggregating to a total of 72,122 infected cases, i.e., roughly 0.13 per cent of the population. So far as Madras City is concerned, the infection is heaviest in South Madras Division, the North Madras Division comes next and then the West Madras Division. In the districts, the infection per 10,000 of the population varies from 3 to 47, the most heavily infected districts being South Arcot, North Arcot, Chingleput, East Godavari, Chittoor, Srikakulam, West Godavari, Tiruchirappalli, Madurai and Salem.

(iii) *Survey and training.*—In 1949, a State Leprosy Survey Unit headed by a Health Officer and a district survey unit for the endemic district of South Arcot were established. Surveys are also being done by other Medical Officers, for example, the Medical Officer of the Kandambuli Leprosy Scheme, South Arcot, the Medical Officer

of the Kasturba Gandhi Leprosy Home, Mazavantangal, etc. A special Health Inspector was appointed for a short period to do intensive survey for Sileru area in South Kanara district.

Adequate teaching on leprosy is being provided at the medical colleges. Government have instituted several training courses for Medical Officers, Health Officers, Health Inspectors and other health staff and medical workers. Special mention should be made of the Government's plan to train all Health Inspectors, Sanitary Inspectors and Health Assistants in leprosy because, their training would be of great benefit in the preventive aspect of leprosy.

(iv) *Urban leprosy.*—Leprosy departments have been organized and during the last five years they have been considerably strengthened in the Government General Hospital, Madras, Stanley Hospital, Madras, Erskine Hospital, Madurai, and the Headquarters Hospital, Vellore. Besides, at all headquarters hospitals and in all hospitals and dispensaries in the districts, leprosy out-patient clinics have been working.

(v) *Child leprosy.*—The Silver Jubilee Children's Clinic, Saidapet, for the study of childhood leprosy established in 1937 by the British Empire Leprosy Relief Association was taken over in 1946 by Government. Very important work on the epidemiology of leprosy has been done here and studies here have confirmed that the commonest way in which leprosy spreads is by infection of children who come into close and prolonged contact with infective cases.

The Madras Government are also maintaining the Children's Leprosy Sanatorium, Yethapur, Salem district, and this sanatorium is being expanded with a contribution of Rs. 50,000 from the Hind Kusht Nivaran Sangh, Salem district branch. At the Government Lady Willingdon Leprosy Sanatorium there is a very large children's section.

(vi) *Rural leprosy control.*—In 1951, Government sanctioned a special scheme for leprosy control in the very endemic area of Tirukkoyilur in South Arcot district.

The Night Investigation and Therapeutic Investigation Centre was also started by Government in 1952 in association with the Kasturba Gandhi Leprosy Home, Mazavantangal.

At the instance of Sri T. N. Jagadisan, Honorary Leprosy Prevention and Relief Organizer for Pirka Development, the following scheme for rural leprosy clinics have been sanctioned by Government and are working:—

- (1) Kumbhla (South Kanara).
- (2) Tirumangalam (Madurai).
- (3) Gara (Srikakulam).

(vii) *Voluntary work.*—Voluntary work flourishes in the State to a remarkable degree. The Mission to Lepers, the Catholic Missions, the Salvation Army, the Hind Kusht Nivaran Sangh and its branches, the Kasturba Gandhi Leprosy Home, Mazavantangal, the Thakkar Bapa Kusht Nivaran Sangh, Tirukkoyilur, the Arcot Mission, Wandiwash, the Rural Medical Service of the Christian College, Tambaram, the Madras Medical College and the Stanley Medical College Rural Squads are the main agencies of voluntary leprosy work.

In Madras State, before the separation of Andhra, 19 leprosy sanatoria existed with an accommodation for about 3,500 patients.

(viii) *Leprosy clinics.*—There are also about 20 special leprosy clinics run either by Government or by voluntary agencies, i.e., out-patient clinics established solely for the purpose of treating leprosy patients and run by specially trained staff. Mention should also be made of the two special leprosy clinics run by the Madras Corporation in the City.

35. *Veneral diseases.*—In view of the peculiar nature of the disease and of the fact that people suffering from it are inclined to suppress its exposure, it is not possible to determine the incidence of this disease with any degree of accuracy. The total number of patients treated for

all kinds of venereal diseases in the hospitals and dispensaries in this State during 1953 was 606,670 as against 485,460 patients during 1952 and 455,623 during 1951.

36. *Tuberculosis and B.C.G.*—No detailed survey has ever been conducted in the State with a view to determine the incidence of tuberculosis. It is however roughly estimated that the number of persons suffering from this disease may be from 250,000 to 300,000. There are eight tuberculosis sanatoria in the State. Three of them receive annual maintenance grants from Government. One is a Government managed institution. Among the remaining four, the question of giving an annual recurring maintenance grant to one of them, viz., Gandhi Memorial Tuberculosis Hospital, Sengipatti, Tanjore district, is under the consideration of Government.

A tuberculosis sanatorium at Pariyaram in Malabar district was constructed by the Malabar District Committee of the Madras Provincial Welfare Fund with the aid of grant from Government. The sanatorium was opened by the Chief Minister of Madras State on 23rd November 1953. It has been designed to accommodate 370 beds eventually, but has now only 70 beds. New tuberculosis sanatoria are under construction in the following places:—

- (1) Austinpatti (Madurai district).
- (2) Devakkottai (Ramanathapuram district).
- (3) Mudishedde (South Kanara district).

Proposals are also under consideration for the construction of tuberculosis sanatoria in the districts of South Arcot and North Arcot by private bodies.

The International students' ward in the Government Tuberculosis Sanatorium, Tambaram, was opened on 7th December 1951 by the Hon'ble Raj Kumari Amrit Kaur, Minister for Health, Government of India. The Mahatma Gandhi Memorial Tuberculosis Sanatorium, Tanjore, was also opened on 9th December 1951. The offer of a ward by Group Captain Commanding No. 2 Ground Training School, Indian Air Force Station, Tambaram, for families of Defence Service personnel, was accepted by Government.

A tuberculosis teaching and demonstration centre has been sanctioned for the Madras State. This scheme is being implemented with the financial assistance of the World Health Organization and the Central Government. The buildings required for establishing this centre are being constructed.

B.C.G. vaccination.—During the triennium B.C.G. Teams (two Government and one Corporation) continued to function in the City. The children of Primary and Secondary Schools (aided, Government and Corporation) have been regularly contacted and tuberculin tests carried out among them with the consent of their parents. Medical students, pupil-nurses and other staff of hospitals were also Mantoux tested and vaccination performed to the susceptibles. All the contacts of the patients attending the tuberculosis institute as well as the tuberculosis clinics in the City including the Corporation Tuberculosis Clinic at Pulianthope were regularly tested and vaccinations done to the negatives in the clinics attached to the City State hospitals.

The Tuberculosis Clinic at Ashok Vihar continued to function for the benefit of the public, besides the Government Tuberculosis Institute, Egmore. During the triennium groups of persons who could be observed regularly for a period of two to three years as the orphanages in the City were taken up during this year for tuberculin testing.

The Indian Air Force personnel including the officers and their families have been periodically tested and B.C.G. vaccinations given to these negative reactors. The B.C.G. teams took up the tuberculin testing of the personnel, families and children of the Armed Forces stationed in St. Thomas Mount and Fort St. George areas for the first time.

A combined tuberculin testing B.C.G. vaccination and mass X-ray survey was conducted in the Women's Christian College, Madras, during the triennium under review. With the co-operation of the Civil Welfare League of Jagannathapuram slum area, near Chetput, B.C.G. campaign was conducted among the residents of this and the neighbouring slums.

The personnel of the Special Armed Police Battalion stationed at Red Hills were also included during the triennium in the B.C.G. campaign.

The total number of tuberculin tested were over 75,000 of which over 25,000 were B.C.G. vaccinated. So far no untoward complications, after B.C.G. vaccination or onset of tuberculosis disease among the B.C.G. vaccinated individuals, were brought to notice.

During the triennium, propaganda talks on the problem of tuberculosis and its control with emphasis on B.C.G. were broadcast by Medical Officers from the All-India Radio Studios, Madras, in Tamil, Telugu, Malayalam and Kannada languages.

The B.C.G. campaign in Madras City is completing the fourth year. If the B.C.G. campaign is to effect any perceptible change in the morbidity and mortality of tuberculosis in the country, it has to be expanded to such a scale that all those who need vaccination should be vaccinated within five or seven years.

Ex-patients' Colony, Tambaram.—The ex-patients' colony called "Amrit Nagar Rehabilitation Centre" for ex-patients was opened by Sir Archibald Nye, the High Commissioner for Great Britain in India. At present there are eight cottages providing accommodation for 24 patients, one kitchen room, one store-room and they are treated as an annexe to the Tuberculosis Sanatorium, Tambaram. Some of the patients fit for discharge from sanatorium are transferred and admitted in the colony for rehabilitation. The inmates are attending to gardening work and they are also engaged in spinning in kishan charka and thakli. A radio with an amplifier set has been supplied by the Women Sub-Committee of the Provincial Welfare Fund Madras. They have also supplied some household articles for the use of the ex-patients. They are visiting the colony once in two weeks, supplying old magazines, novels and books for the inmates. A printing press with machinery worth about Rs. 50,000 has been installed in the colony to provide occupation for discharged patients.

37. *Opening of two additional units in Government General Hospital, Madras.*—Specialist Medical Officers who appointed to hold administrative posts were liable to become out of touch with their specialities, as the rule precluded them from engaging themselves in the practice of their profession even as consultants. The result was that their valuable services and rich experience were denied to the general public. Government have since reviewed the position and, as a first step, they have sanctioned the opening of two additional units, one on the medical side and the other on the surgical side in the Government General Hospital, Madras. The medical unit is in charge of the Dean, Government General Hospital Madras, who is a medical specialist and the surgical unit is in charge of the Director of Medical Services who is a surgical specialist, thus enabling these officers to give the benefit of their expert knowledge and experience gained during their long period of service in the clinic line to the public. These units are placed under the immediate charge of Surgical and Medical Registrars in the hospitals respectively. The placing of these units in charge of the two Registrars has also enabled them to do some clinical work which was hitherto denied to them previously.

38. *Neuro-surgical Unit, Government General Hospital, Madras.*—A neuro-surgical unit was opened in the Government General Hospital, Madras, during the triennium under report and it is in charge of a specialist who has the requisite foreign qualification in this speciality.

The bed-strength of the unit is at present only 10 but the daily average attendance of in-patients is about 15.

question of increasing the accommodation and facilities is under consideration. A clinic is also attached to his unit and works for three days in a week.

A separate operation theatre is necessary for the neurological unit and the bed-strength of this unit should be raised from 10 to at least 40.

Even with the limited facilities now available at its disposal, the unit is doing very useful work and is so popular that, apart from patients sent from hospitals of the State, cases also come from other States in India and from Ceylon for treatment.

9. *Grant-in-aid.*—Hitherto no time-limit was fixed by Government for drawing building grants sanctioned to private medical institutions. As this enabled the managers of private institutions to claim payment of grants and when they liked (i.e., even seven or eight years after the grants were sanctioned by Government), the Government have fixed a time-limit of three years for the drawing and drawal of such grants.

10. *Employees' State Insurance Scheme.*—The Government of Madras have communicated to the Government of India early in January 1953 their decision to implement the Employees State Insurance Scheme for the medical care and treatment under the Employees State Insurance Act at one industrial centre in the State, viz., Coimbatore the first instance.

In furtherance of this scheme, Government sanctioned the appointment of the Assistant to the Director of Medical Services (Employees State Insurance) and the officer with a skeleton staff was directed to visit Delhi and Kanpur where a pilot scheme was introduced, to acquaint himself thoroughly with the working of the medical benefits and other insurance schemes under the Act in those places. The officer was also asked to submit a special report to Government on the precise economics of the two alternatives—viz., "Panel system of private doctors" and the "system of paid Government Medical Officers"—with his recommendation as to the system suitable for adoption in the State.

The officer on his return from Delhi and Kanpur submitted a report recommending the paid system for the State. Later he visited Coimbatore and suburbs with a view to assessing the existing medical facilities available and recommended a comprehensive scheme to Government giving a list of places where Employees State Insurance Act should be enforced.

Government agreed to the adoption of the paid system of Medical Officer for this State, but in view of the representations made by the Indian Medical Association, Government reconsidered their decision and agreed to adopt the panel system and action is being taken for the recruitment of doctors under this system.

41. *Visit of high personages.*—The following high personages came to Madras and visited some Medical institutions in 1953:—

- (1) Professor Elies G. E. Berven (former Chief ofadium Hemmet and President of Cancer Society of Stockholm).
- (2) Dr. L. M. Han, Medical Officer, Assistance to Educational Institutions Section, World Health Organization.
- (3) Dr. Macdonald Critchley, Neurologist, London.
- (4) Dr. E. F. Warner, Public Health Consultant, Government of India.
- (5) Dr. Erwin Koba, Chief, Section of Exchange of Scientific Information, World Health Organization.
- (6) Dr. Francis Devereau.
- (7) Mary Mosses, University of Leeds.
- (8) John Gordon, Harvard University.
- (9) Joseph C. Aub, Harvard University.

42. *Medical attendance on Non-Gazetted Officers.*—Non-Gazetted Officers and their families admitted to State medical institutions are exempted from payment of

diet charges and the entire cost of special and expensive drugs administered to them.

The Government have also decided that these concessions should be given to employees of local bodies drawing salaries not exceeding Rs. 300 per mensem.

HOSPITALS AND DISPENSARIES.

Statement A.

43. *Classification of institutions.*—The hospitals and dispensaries in the State are classified as follows:—

- Class I—State Public.
- Class II—State special institutions, viz., Police, Forest, Canals, Railways and others.
- Class III—Local Fund and Municipal.
- Class IV—Private—Aided.
- Class V—Private—Non-aided.
- Class VI—Subsidized rural dispensaries.

At the commencement of the triennium there were 1,222 medical institutions of all classes and 746 institutions at the end of the triennium. Out of 49 medical institutions opened during the year 1953, 11 were State Public, five State special, six Local Fund and Municipal, two private aided and 25 subsidized rural dispensaries. The number of State Public and Local Fund medical institutions working at the end of the triennium was 155 and 356 respectively, as against 246 and 504 institutions respectively at the commencement of the triennium. Of the remaining medical institutions working at the end of the triennium 49 were State special (including railway hospitals and dispensaries), 30 private aided, 43 private non-aided and 110 subsidized rural dispensaries. Of the total number of 746 medical institutions working at the end of 1953, six hundred and eighty-six (686) were general hospitals and dispensaries, 33 institutions were for women and 27 were specialist institutions, such as Tuberculosis, Leprosy, Ophthalmic, mental and infectious diseases hospitals, sanatoria and dispensaries. On account of the partition of the State, 487 Medical institutions came under the control of the Andhra Government.

For want of qualified medical practitioners of modern scientific medicine, a few subsidized rural dispensaries and Local Fund dispensaries were converted into those of Indigenous Medicine. These factors account for the large reduction in the total number of medical institutions of modern medicine, actually functioning in the State at the end of the triennium under report.

Statement B.

44. *Distribution of medical personnel.*—The number of salaried medical officers of the rank of Civil Surgeons employed at the end of the year 1953 was 60 as against 97 in 1952. There were 1,236 Medical Officers of the rank of Civil Assistant Surgeons (including Honorary Assistant Medical Officers) as against 1,815 in 1952 and 1,471 in 1951. In addition to the above classes of Medical Officers, there were 262 Medical Officers belonging to other categories, such as House Surgeons and House Physicians, Rural Medical Practitioners and Medical Officers employed in private institutions at the end of 1953. The total number of salaried Medical Officers of all cases was 1,274 at the end of the year 1953 as compared with 1,993 in 1952. There was a slight decrease in the number of Honorary Medical Officers employed in the hospitals and dispensaries, the figures for the three years 1951 1952 and 1953 being 350, 379, 359 respectively. The total number of nurses during 1953 was 2,452 against 1,870 and 2,202 in 1951 and 1952 respectively.

Statement C.

45. *The number of in-door and out-door patients treated in the State Public, Local Fund, Municipal, private hospitals and dispensaries and the subsidized rural dispensaries—Beds.*—The total number of beds available in all classes of

medical institutions for both sexes during the first nine months of the year 1953 was 23,010 as against 23,741 beds in 1952 and 21,392 beds in 1951. The number of beds available for women alone in 1953 was 10,349, the number for the previous two years being 11,548 in 1952 and 9,898 in 1951. There was an increase of 33 in the number of beds since 1950. The ratio of beds available in 1953 to the population of this State works out to 1:2,477 up to 30th September 1953 and 1:2,191 from 1st October to 31st December 1953.

The total number of in-patients treated in all classes of hospitals during 1953 was 1,023,378 as against 926,965 during 1952 and 813,252 during 1951. There was an increase of 246,317 over that of the year 1949.

Out-patients.—The total number of out-patients during 1953 was 23,785,368 as compared with 21,079,013 and 23,432,008 during 1951 and 1952 respectively. The total number of men out-patients was 9,583,187 and 7,123,741 women and 7,078,470 children as against 9,874,914 men, women 6,985,980 and 6,571,114 children during 1952. There was an increase of 2,900,845 in the number of out-patients during 1953 over the figure for year 1950.

In- and out-patients.—The total number of in- and out-patients treated during 1953 was 24,808,746 as compared with 24,358,973 and 21,892,265 during 1952 and 1951 respectively. There is a considerable increase in the number of patients treated in the hospitals and dispensaries in the State.

Deaths.—The number of deaths in the hospitals during 1953 was 35,115 as against 32,466 in 1952 and 29,683 in 1951. The ratio of deaths per cent in the number of in-patients treated in 1953 was 3.4 per cent.

Daily average.—The daily average number of in-patients during 1953 was 28,690 and that in 1951, 25,179 and 1952, 25,806 respectively. There was a slight increase in the daily average number of out-patients from 147,496 in 1952 to 150,346 in 1953. The daily average for 1951 works out to 137,913.

Statement D.

46. *Various kinds of diseases, etc., of the in- and out-patients treated in the State Public, Local Fund, Municipal, private aided hospitals and dispensaries and subsidized rural dispensaries.*—Among the various diseases treated in the hospitals and dispensaries during the year 1953 those which accounted for the largest number of patients are as shown below:—

(1) Diseases of the digestive system excluding dysentery, diarrhoea, and tumours.	3,729,855
(2) Tuberculosis	236,787
(3) Syphilis	408,862
(4) Gonococcal Infection	197,817
(5) Diseases of respiratory system ..	2,465,700
(6) Diseases of the eye	1,251,155
(7) Malaria	1,216,038
(8) Influenza	806,692
(9) Dysentery	743,277
(10) Other parasite and infectious diseases.	490,575

Statement E.

47. *Surgical operations performed.*—The total number of operations performed in the medical institutions of all classes during the year 1953 was 679,782 of which 657,548 were principal and 22,234 were secondary as compared with 655,693 (629,628 principal and 26,065 secondary) in 1952 and 705,932 (principal 681,303 and 24,629 secondary) in 1951. The total number of deaths among the patients who underwent operations during 1953 was 1,681 as compared with 1,538 in 1952 and 1,567 in 1951. The percentage of deaths to total operations performed was 0.24 in 1953 and in the previous years the percentage was 0.23 in 1952 and 0.22 per cent in 1951, respectively.

Statement F.

48. The cash balance at the commencement of the year 1953 was Rs. 6,70,041 as compared to Rs. 1,46,680 in 1952 and Rs. 4,49,532 in 1951. The total receipts under the various heads, such as, contributions from Government, Local Fund Bodies, fees recovered from patients, charitable collections and other miscellaneous recoveries amounted to Rs. 3,25,31,225 in 1953 as compared to Rs. 3,45,98,365 in 1952 and Rs. 3,37,23,684 in 1951.

Expenditure.—The total expenditure under the various heads such as salaries to staff, medicines, diet charges, buildings, apparatus and other miscellaneous items of expenditure amounted to Rs. 3,21,44,053 during 1953 as compared to Rs. 3,43,95,448 during 1952 and Rs. 3,34,90,721 in 1951.

Statement G.

49. *The amount of invested capital.*—The amount of invested capital at the commencement of the year 1953 was Rs. 15,97,111, the amount invested during the year was Rs. 1,703 and the amount withdrawn during the year was Rs. 3,300. The balance at the end of the year 1953 was Rs. 11,51,951. The closing balance of invested capital at the end of 1952 was Rs. 13,49,391 and at the end of 1951 the amount was Rs. 13,38,936.

50. *Medical Lending Libraries.*—The District Medical Lending Libraries had 1,115 members at the beginning of the year 1953, and 1,054 members at the close of the year. The number of books available at the commencement of the year was 9,048 and at the close of the year there were 9,041 as against 9,681 in 1952 and 10,283 in 1951.

The total receipts during 1953 amounted to Rs. 34,767-14-0 and the total expenditure Rs. 6,546-5-9. The closing balance at the end of 1953 was Rs. 15,450-1-2 as compared to Rs. 28,110-9-7 in 1952 and Rs. 28,167-15-6 in 1951.

51. *Hospital Advisory Committees.*—The Hospital Advisory Committees which have been constituted in order to keep the Director of Medical Services and the Government informed as to the needs of the hospital as viewed by the public, continued to do useful work. The Members took keen interest in providing additional amenities for the patients and made useful suggestions which were considered and given effect to as far as practicable.

Quarterly meetings were regularly held in all Government Hospitals except in certain Taluk Headquarters Hospitals and the respective Superintendents of the Hospital and District Medical Officers forwarded half yearly reports on the attendance of non-official members at the meetings of the Committees and on the work done by the Advisory Committees.

Members of the Guild of Service have been visiting hospitals in the City and Muffasal and made kind enquiries of patients. Sweets to children and books and periodicals to literate patients were distributed by the members of the Guild of Service. In 1951, the Guild presented a Form and Electric Bath for children suffering from poliomyelitis and orthopaedic boots to children.

52. *Revised procedure for inspection of medical institutions.*—The Government have directed that, the District Medical Officers may confine their inspections only to Government hospitals in Taluk headquarters stations and that the inspection of other Government dispensaries, Local Fund and Municipal medical institutions and also rural dispensaries of modern medicine may be done by Assistant District Medical Officers and Senior Assistant Surgeons in charge of Taluk headquarters hospitals in the muffasal.

53. *Inspections.*—The inspection of medical institutions in each district was carried out regularly and satisfactorily by respective District Medical Officers.

The annual verification of the service registers of the establishment and the verification of stock registers was also carried out as usual.

The Director of Medical Services inspected during 1953, 20 headquarters hospitals and 28 Government Hospitals and 5 Local Fund Medical Institutions. During the course of inspections the Director of Medical Services noticed the standing insoluble problem facing the departments, viz., overcrowding in every medical institution which is on the increase year by year. Steps have been taken wherever possible to increase the accommodation in hospitals either in the existing premises or by putting up additional constructions wherever necessary and to employ additional staff.

The Assistant to the Director of Medical Services (Accounts) with his inspection staff inspected 39 medical institutions of which three were City Hospitals, six Headquarters Hospitals, two Women and Children Hospitals, one Mental Hospital and the rest Taluk Headquarters Hospitals. This includes two surprise visits to two City State Hospitals. The financial irregularities, noticed in each of the institutions during the course of inspection were brought to the notice of the Heads of Medical Institutions and detailed instructions issued for the rectification of the same.

54. *General.*—The introduction of various community projects has rendered it possible to provide medical relief in certain rural areas where it was not possible to provide such facilities hitherto.

The scheme worth special mentioning under the Five Year Plan in the field of medical education has materialized, viz., the opening of the Madurai Medical College at Madurai.

A Conference of District Medical Officers convened in 1952 for purpose of discussing problems affecting day to day working of the hospitals, both from the point of view of Medical Officers and of the public. Some of the suggestions of the Conference have been accepted by Government and the rest are under consideration.

The introduction of refresher course for medical officers is a welcome one as it is a right step in the direction of bringing up to date the professional knowledge and

efficiency of Medical Officers serving in the remote places in the mufassal where there are no facilities for improving their knowledge. This scheme has been continued for another year as it has proved to be of great value and it is hoped that it may become a permanent feature of the administration.

The International Seminar on Rabies which was attended by delegates from 26 nations of the world met at Coonoor in July 1952. The holding of this session in India is a great honour conferred on India and particularly Madras is proud of it as Coonoor happens to be situated in this State. The Director of Medical Services had the privilege of welcoming the distinguished delegates to the Seminar.

The deputation of medical and nursing personal abroad to specialize in various special subjects will, besides providing the department with the net work of staff qualified in several subjects, bring in their wake the inception of not only new departments, but also innovations in the existing department.

Further, the main features during the triennium are the establishment of the Madurai Medical College at Madurai, the upgrading of three departments of Venereal Diseases, Gynaecology and Obstetrics and Anatomy in the institution of the B.D.S. Course, and the visit of the Team of Foreign Medical Experts. Special arrangements made for providing medical relief during the severe famine which occurred in 1951-52 are worth mentioning.

I would like to place on record my appreciation of the efficient manner in which the District Medical Officers, Civil Surgeons and Superintendents of Hospitals and the Principals of Medical Colleges, etc., carried out the administration of the Medical Institutions under their control during the triennium under report.

Yours faithfully,

SANGHAM LAL,

Director of Medical Services, Madras.

Private-aided Hospitals and Dispensaries and Subsidized Rural Dispensaries of the Madras State during the period from 30th September 1953.

DEPARTMENT OF HEALTH, EDUCATION AND LOCAL ADMINISTRATION
(Health)

G.O. No. 503, 8th February 1955

Report—Civil Hospitals and Dispensaries of Modern Medicine—Triennial Report for 1951–53—Reviewed.

READ—the following paper:—

From the Director of Medical Services, dated 25th September 1954 and 10th November 1954,
No. P. 296 Statt./M.

Order—No. 503, Health, dated 8th February 1955.

Recorded.

2. *Medical relief.*—At the beginning of 1951, there were 1,232 medical institutions of all classes, but the number was 1,233 at the end of September 1953, when the Madras State was bifurcated and the Madras and Andhra States were formed. There were 746 medical institutions of all classes in the Madras State in December 1953. The number of beds available for both sexes was 21,392 in 1951, 23,741 in 1952, and 23,010 in 1953 (till the end of September). The ratio of beds available in 1953 to the population of the State was 1:2,477 till the end of September 1953 and 1:2,191 from the 1st October till the end of December 1953. The number of in-patients treated during 1953 was 1,023,378 as against 926,965 during 1952 and 813,252 during 1951. The out-patient attendance also increased from 21,079,013 in 1951, and 23,432,008 in 1952 to 23,785,368 in 1953. The percentage of death rate among in-door patients was only 3·4 in 1953. The number of surgical operations performed in 1953 was 679,782 as compared to 655,693 in 1952 and 705,932 in 1951. The percentage of deaths to total operations performed was 0·24 in 1953, 0·23 in 1952 and 0·22 in 1951.

During the triennium, ten Local Fund institutions and two private hospitals at Visakhapatnam were provincialized.

3. *Tuberculosis.*—Though no detailed survey to determine the incidence of tuberculosis in the State has been conducted, it is estimated that between two and a half and three lakhs of persons are infected with the disease. There are eight tuberculosis sanatoria in the State, of which one is a Government institution and three receive annual maintenance grants from Government. A tuberculosis sanatorium at Periyaram (Malabar district) under the management of the Malabar branch of the Madras Provincial Welfare Fund with the aid of the Government was opened in November 1953.

The B.C.G. vaccination teams continued to function vigorously in Madras City. Propaganda talks on the problem of tuberculosis and its control with emphasis on B.C.G. vaccination were made from the A.I.R., Madras, in the languages of the State.

The Amrit Nagar Rehabilitation Centre, a colony for ex-patients, is functioning very satisfactorily. A printing press with machinery worth about Rs. 50,000 has been installed at the centre so as to enable the inmates to do light work and earn for their maintenance.

4. *Leprosy.*—The prevention, control and treatment of leprosy continued to be carried out by the Government and other private agencies and associations. The census of 1951 in this State disclosed the existence of about 72,100 leprosy cases (including about 18,400 doubtful cases), i.e., roughly 0·13 per cent of the population of the State. Special leprosy departments have been organized in the

Government General Hospital, the Stanley Hospital, Madras, the Erskine Hospital, Madurai, and the District Headquarters Hospital, Vellore. Besides, leprosy out-patient clinics have been functioning satisfactorily in all the district headquarters and taluk headquarters hospitals in the State. There are about 20 special leprosy clinics with trained staff run either by Government or by private bodies. The Government sanctioned in 1951 a scheme for leprosy control in the very endemic area of Tirukkoyilur (South Arcot district).

5. *Blood bank.*—Twenty blood banks were functioning in various hospitals at the time of the partition of the State. Four blood banks are now in the Andhra State and one in the Mysore State leaving fifteen in the Madras State excluding the King Institute, Guindy. Intensive propaganda for blood donation continued effectively. The Blood Bank Organization took part in the various exhibitions conducted in this State. The system of giving remuneration to donors of blood, other than voluntary donors, is being continued.

6. *Eye bank.*—The Eye bank in the Government Ophthalmic Hospital, Madras, has been functioning satisfactorily.

7. *Venereal diseases.*—The number of patients treated for venereal diseases in 1953 was 606,679 as against 485,460 in 1952 and 455,623 in 1951. In the Upgraded Venereal Diseases Department of the Government General Hospital, Madras, post-graduate training and research in venereal diseases are being done.

8. *X-ray.*—A deep X-ray therapy plant has been installed in the Government Hospital for Women and Children, Madras. New X-ray diagnostic plants have been installed in the Government Headquarters Hospital, Vellore, and in the Government Hospitals at Kodaikanal, Nandyal and Hindupur.

9. *Cancer.*—Facilities for cancer treatment are available only at the Barnard Institute of Radiology, Government General Hospital, the Government Hospital for Women and Children and the Government Ophthalmic Hospital, Madras. The East Godavari District Committee of the Provincial Welfare Fund donated Rs. 40,000 for the purchase of 250 mgms. of radium for the treatment of cancer cases in the Government Headquarters Hospital, Kakinada.

10. *Rural medical relief.*—The response from medical practitioners to take up appointments in rural areas continued to be poor with the result that a number of rural dispensaries had to be closed or converted into dispensaries of Indigenous Medicine. The conditions of service of the Rural Medical Practitioners have been liberalized.

11. *Primary Health Centres.*—A Primary Centre with the medical side only was operated at Siruvanthadu (South Arcot district) in 1953. Twenty-five Public Health centres were functioning at the time of the partition of the State. After the partition, there were sixteen centres in this State.

12. *Mobile dispensaries.*—Two Government mobile dispensaries have been functioning satisfactorily in the Nilgiris and Ramanathapuram districts. There are four mobile dispensaries under agencies other than the Government, i.e., one by the Madurai District Board and three by private managements.

The Medical Officers attached to the Erskine Hospital, Madurai, are rendering medical relief in interior villages within a radius of ten miles from Madurai by going over to the villages in the Hospital Ambulance van fully equipped.

13. *Dental clinics.*—Dental clinics were opened in the Government Hospital for Women and Children, Madras, the Government Headquarters Hospital, Machilipatnam, and the Government Hospital, Karkala, thus increasing the number of dental clinics from 14 to 17.

14. *Administration of the Drugs Act.*—Various manufacturing concerns were inspected and wherever the samples taken were sub-standard, the manufacturers were instructed either to withdraw such products from the market and destroy them or to rectify them before putting them in the market. Prosecutions were launched in certain cases.

15. *Medical services.*—The Men's and Women's branches in the Madras Medical Service were amalgamated in 1951 and this removed the discrimination of sex in service. The Madras Public Service Commission recruited 361 candidates for appointment as Assistant Surgeons in the Madras Medical Service.

A new post of Dean was created for the Stanley Medical College and Stanley Hospital, Madras, in 1952. The Civil Surgeon in the Government Hospital at Nagapattinam was transferred to the Wellesley Tuberculosis Sanatorium, Bellary, and an Assistant Surgeon from the latter institution was transferred to the hospital.

16. *Honorary Medical Officers.*—There were 49 Honorary Medical Officers and 39 Honorary Assistant Medical

Officers working in the State of whom 82 Honorary Assistant Medical Officers were allotted to the Andhra State after its formation. The Honorary system continued to be popular. The Honorary Officers have been doing useful work.

17. *Nursing staff.*—The strength of the nursing staff was increased from time to time to cope with the increase of work on account of additional beds sanctioned to the various hospitals, consistent with the availability of funds.

The course for the Diploma in Nursing has been continued in the Government General Hospital, Madras. The response from private candidates for admission to this course was poor.

Five members of the nursing staff were sent to New Delhi for undergoing refresher course and one to the United Kingdom for higher studies in Physiotherapy.

18. *Medical education.*—There were 345 seats in all in the Medical Colleges at Madras, Visakhapatnam and Guntur. A private Medical College which is affiliated to the Karnataka University has been opened at Manipal (South Kanara district) from July 1953.

In the Madras Medical College, B.D.S. Degree course has been started from July 1953.

The department of Anatomy in the Stanley Medical College, the Venereal Diseases Department of the Government General Hospital, and the Obstetrics and Gynaecology Department of the Government Hospital for Women and Children, Madras, have been upgraded and made All-India centres for post-graduate training and research.

19. *Buildings.*—Schemes for the improvements of various hospitals which were in progress, have been completed. New schemes sanctioned are in progress.

20. *Advisory Committees.*—The Advisory Committees of the various hospitals in the State continued to do useful work.

21. *General.*—Facilities for medical relief in the State were increased to a great extent consistent with the finances of the State. The medical institutions in the State continued to be very popular. The administration of hospitals and dispensaries was, on the whole, satisfactory.

By order of the Governor.)

K. GHULAM MAHMOOD,
Joint Secretary to Government.
