1. **General.**—The following types of schools exist for primary education in the State :—

- (1) Lower Elementary Schools—Standards I to V.
- (2) Higher Elementary Schools—Standards I to VIII.
- (3) Junior Basic Schools—Grades I to V.
- (4) Senior Basic Schools—Grades I to VIII.
- (5) Primary Departments of Secondary Schools—Classes I to V.
- (6) Primary Schools for Anglo-Indians—Standards I to VI.

This chapter deals mainly with Elementary Schools, i.e., Schools of the Non-Basic type. Details relating to Basic Schools are given in Chapter IV, and those relating to Anglo-Indian Schools are given in Chapter XI.

All Elementary schools are treated as mixed schools open to boys and girls alike. No school is permanently recognised or allowed to continue on the recognised list unless it is a complete school with Standards I to V, exceptions being made in cases where a school is specifically permitted to be a feeder, with Standards I and II or I to III, to an adjoining main school. Incomplete schools, newly opened, are required to open the next higher standards annually, until they have the complete structure of five standards. No school that does not have a minimum average attendance of 20 is continued on the recognised list.

In view of the representations made against the Modified Scheme of Elementary Education in the State Legislature and outside, the scheme was discontinued, and the scheme of elementary education which had been in force prior to the introduction of the Modified Scheme was revived, with effect from the school year 1954-55(a). Government constituted an Elementary Education Committee (b) with Dr. Rm. Alagappa Chettiar, M.A., B.A., LL.B. as Chairman. The terms of reference to the Committee were to examine the present system of elementary education in the State in all its aspects with particular reference to aims, organization and content, its relationship to secondary education and other allied problems and to suggest ways and means for implementing the directive principle contained in Article 45 of the Constitution that the State shall endeavour to provide, within a period of ten years from the commencement of the Constitution, for free and compulsory education for all children until they complete the age of 14 years. To elicit public opinion and to obtain the suggestions of the public for modification and improvement, the Committee prepared a questionnaire and issued it to Teachers' Associations and Unions, Teacher-Managers' and Managers' Associations, Presidents of District Boards, Chairmen of Municipalities, Presidents of Panchayat Boards, leading educationists, members of the State Legislatures and Parliament and prominent citizens in the State. The Committee also

The school-age for which the scheme is applicable comprises the age group 6-12 for both boys and girls. Prior to 1930, the scheme was largely confined to certain municipalities and in some of them it was applicable to boys only, while, in others, it was made applicable to both boys and girls. Under the post-war development plan, compulsion was introduced in a large number of rural areas, and it

$$\frac{a + 2b + 3c}{a + b + c} \times 100$$

was made applicable to both boys and girls. The scheme is in force in 24 municipalities, 223 other 'urban' areas and 685 rural areas (vide details given in Annexure III).

Indian secondary schools may have all or any of the classes in the primary stage or they may have classes from Form I only. At the end of the VI Form course, the students take the S.S.L.C. Public Examination conducted by the Commissioner for Government Examinations. Schools are classified either as boys' schools or as girls' schools. Boys above the age of 12 are not admitted into girls' schools, and in no case are they permitted to study in the upper forms of any girls' school. Girls may be admitted into boys' schools, in areas where there are no girls' schools, but the management should make adequate arrangements for the conveniences necessary for them, and, where there is an appreciable enrolment of girls, the management should appoint, wherever possible, women teachers. The Matriculation schools send up candidates for the Matriculation Examination conducted by the Madras University. The Lawrence School, Lovedale, Nilgiris, is a 'Public School'. Details regarding Anglo-Indian Schools are given in Chapter XI.

6. **New Regulations, etc.**—Government approved the revised S.S.L.C. Scheme under the reorganized scheme of Secondary Education(a). Government constituted a committee(b) during the year, consisting of :

Dr. A. Lakshmanaswamy Mudaliar, Vice-Chancellor, Madras University, as Chairman, and the Director of Public Instruction, Madras, the Principal, Teachers' College, Saidapet, and Sri S. Natarajan, President, South Indian Teachers' Union, Madras, as members, to examine the recommendations of the Secondary Education Commission and to advise the Government in the matter of implementing the recommendations of the Commission and the financial commitments involved. The Committee met five times during the year under report.

Provision was made, with effect from the school-year under report, for the study of Hindi under Part II of the first language in Forms IV to VI of Secondary schools(c). It was left to the option of the student to study Hindi under Part II of the first language or study a classical language or the regional language itself. Students who opt for the study of Hindi under Part II of the first language in forms IV to VI in secondary schools will have to write an examination in Hindi under the S.S.L.C. Scheme, and the marks obtained in the subject will be taken into account for purposes of determining their eligibility for admission to University courses. The provision for the study of Hindi, as a third language, was also continued as heretofore, but pupils who opt for the study of Hindi under Part II of the first language need not study Hindi as a third language. With the provision for

the study of Hindi under Part II of the first language in forms IV to VI in Secondary Schools, students who have studied a classical language in forms I to III under Part II of the first language may take up the study of Hindi in forms IV to VI. Such students will be allowed to study the classical language as a third language in these higher forms. If they do not want to learn a classical language as third language, it was left to them to learn an additional craft or occupy themselves during the period allotted for the study of the third language in any other approved activity.

7. **Medium of instruction.**—Instruction in all the classes of an Indian Secondary School is ordinarily in the Regional Language. Pupils whose mother tongue is different from the regional language may be given instruction through the medium of their mother-tongue or any language other than the regional language, provided that there is a minimum strength of 45 such pupils in the three forms in the respective stages, viz., Forms I to III and IV to VI. Special permission was accorded on a temporary basis in select cases to have the English medium in one or more sections of the higher forms or for only one subject.

8. **School fees, scholarships and free places.**—The school year for purposes of fees is divided into two terms—one, the long term, commencing from the re-opening of the school after the summer vacation and continuing till the Christmas holidays, and the other, the short term, commencing after the Christmas holidays and extending to the beginning of the summer vacation. The standard rates of fees, to be levied in 7 instalments in the long term and 3 in the short term, are prescribed in Rule 89-A of the Madras Educational Rules. In institutions under private management, the rates and levy of fees is, subject to the grant of the concessions under rule 92 of the Madras Educational Rules, G.O. Ms. No. 1250, Education, dated 31st May 1952, and other concessions, left to a large extent to the discretion of the managements. Loss of fee income due to the grant of concessions ordered or permitted by Government was fully compensated by Government at management's rates. Besides the ordinary tuition fees, special fees may be levied for such school activities as Physical Education and games, Library, Literary association and reading room, stationery, excursion and scouting, Visual Education, medical inspection and for practical work in science.

Scholarships and fee concessions in force in secondary schools are given in Annexure II. The scholarships are sanctioned, in the Education Department, by the District Educational Officers or the Inspectresses of Girls' Schools concerned, and, in the Harijan Welfare Department, by the District Collectors in the mufassal and by the Director of Harijan Welfare in the city.

11. **Finance.**—Secondary schools under private management are aided by the State Government. The amount of aid payable in any one year is normally based on two-thirds of the approved net cost for the preceding financial year, i.e., two-thirds of the excess of the approved recurring expenditure over the income from tuition fees reckoned as standard rates, the number of instalments taken into account being 8 as against 10 in the Madras Educational Rules, subject to the condition that at least the local body scales of pay are adopted for the staff. In addition to the above, the management will be paid a grant equal to—

(a) half the expenditure on dearness allowance to staff and servants, paid at Government rates;

(b) the loss of fee income foregone on account of the grant of fee concessions under Rule 92, Madras Educational Rules, at management's rate;

(c) half the expenditure on scholarships and fee remissions, up to a limit of 10 per cent of the fee income, reckoned at standard rates calculated at 10 instalments;

(d) the loss of fee income on account of grant of concessions to children of ex-army men;

(e) the loss of fee income on account of the grant of concessions to children of "Non-Gazetted Officers".

Secondary schools under local bodies are also paid grants from State funds, on lines similar to secondary schools under aided managements, but the basis of assessment is half the net cost instead of two-thirds, the fee income is calculated at standard rates for 10 instalments instead of 8; and only half of the income foregone on the grant of fee concessions to "Non-Gazetted Officers" is reimbursed to the local bodies.

Building and Equipment grant was paid, during the period under the First Five-Year Plan, to 19 high schools selected, one from each educational district, at an approximate cost of Rs. 1.8 lakhs.

The total expenditure on Secondary Education (Direct charges) during the year, from all sources, was Rs. 3,93,65,387. The expenditure, source-wise, and the percentage of expenditure to the total were as detailed below :—

MISCELLANEOUS-I.

[AUDIO-VISUAL EDUCATION—EDUCATIONAL EXHIBITION—PHYSICAL EDUCATION—NATIONAL CADET CORPS—BOY'S SCOUTS AND GIRL GUIDES—JUNIOR RED CROSS.]

1. Audio-visual education—The entire responsibility for imparting audio-visual education has been taken up by the department. Consequently steps were taken during the year to equip a number of schools with projectors, etc., with a view to enable the teachers to use films, filmstrips, etc., effectively for class room instruction. Twenty-five schools were equipped with 16 mm. projectors and 73 schools with 35 mm. filmstrip projectors raising the total number of secondary schools so equipped at the end of the year to 363 (338) and 356 (283) respectively. 31 schools were equipped with radio receiving sets, the total number of secondary schools so equipped at the end of the year being 606 (575).

Consequent on the partition of the Andhra State, 463 films, 553 filmstrips, 2 projectors and other audio-visual equipment were transferred from the Central Film Library, Madras, to the Andhra State. Fifty-six films were added to the stock of the Central Film Library during the year, the total number at the end of the year being 717 (1,124) (silent and sound). The total number of film strips in the library at the end of the year was 1,121 (1,674).

Nearly 27,240 (30,000) film shows were given in educational institutions during the year with films and filmstrips hired at nominal rates from the Central Film Library. Teachers were guided in the selection of films and filmstrips for exhibition in their schools. As many as 160 (200) teachers were trained in the handling and maintenance of projectors in the Central Film Library maintained in the Director's office.

With regard to the purchase of projectors by schools, the department revised during the year the old procedure of allotting a particular model to a particular school. Under the revised procedure, a few models of projectors suitable for school use have been approved and the list of approved models has been communicated to the schools. The schools requiring projectors are permitted to select any one of the models from the approved list. Schools equipped with minimum items of audio-visual equipment such as 16 mm. projectors, 35 mm. filmstrip projectors and radio sets were also permitted to build up film libraries of their own, purchasing films and filmstrips from the list approved by the department. Efforts were taken to extend visual education to schools in non-electrified areas by approving a filmstrip projector working on batteries.

2. Exhibitions.—The department participated in the Congress Exhibition held at Teynampet, Madras, during January-February 1955. A sum of Rs. 12,000 was sanctioned by Government and the District Educational Officer, Madras, was the General Convener of the Exhibition. The work involved about 5.2 lakhs cubic feet of earth work. The cadets also dug a channel for irrigation purposes about 3 miles long for bringing in the overflow water from a nearby river into another existing tank. During Pooja holidays, all the Junior Division Troops under command of the 1st Madras Bn. N.C.C., 4th Madras Bn. N.C.C., Annamalai Indep. Coy. N.C.C. and 3rd Madras Air Sqn.
