ENCLOSURE.

Letter from the Dean, Government Hospital and College of Integrated Medicine, Madras, dated 17th March 1958, No. M.P.F. 423/Stat./57.

[Annual Report and Statistics—Hospitals and Dispensaries of Integrated Medicine in the Madras State for the year 1957 (from 1st January to 31st December 1957). *Reference.*—(1) G.O. Ms. No. 339, Public Health, dated 28th January 1950. (2) Memo. Ref. No. 142424/IM/57, dated 17th February 1958.]

I am submitting herewith the Annual Administration Report on the working of Hospitals and Dispensaries of Integrated Medicine in the State for the period from 1st January to 31st December 1957 together with the statistics relating to them. There are 367 dispensaries of Integrated Medicine in the Madras State; out of these, the statistical report from 240 dispensaries only have been received and these have been compiled and sent.

ANNUAL REPORT OF THE HOSPITALS AND DISPENSARIES OF INTEGRATED MEDICINE IN THE MADRAS STATE FOR THE YEAR 1957.

The total number of hospitals and dispensaries of Integrated Medicine at the end of the year 1957 was 367. Excepting the Hospital of Integrated Medicine at Madras and the dispensary under Devakottai Municipality, Ramanathapuram, other dispensaries are only for treatment of out-door patients. The details of the number of dispensaries and hospitals are shown in Statement 'A'.

The Hospital of Integrated Medicine at Madras and the Ayurvedic Dispensary at Pudukkottai are maintained entirely from State funds. The rest of the dispensaries are maintained by local bodies, the Government paying the subsidy to about 185 rural dispensaries.

2. *Distribution of Medical Officers.*—A detailed statement is furnished in Statement 'B'.

3. *Number of in-door and out-door patients.*—The number of in-door patients treated at the Hospital of Integrated Medicine, Madras, was 8,337 with a daily average attendance of 273. The total number of out-door patients treated in all dispensaries of Integrated Medicine, as far as information received was 3,974,384. Further details are given in Statement 'C'.

4. *Diseases treated—*

(i) Scabies (143)		257,477
(ii) Influenza (105)		222,871
(iii) Other digestive diseases (126)		202,154
(iv) Wounds (168)		195,360
(v) Malaria (43)		155,112
(vi) Inflammatory diseases of the eye (91)		151,459

5. The details regarding operations performed are given in the Statement 'E'.

6. *Labour cases.*—The total number of labour cases conducted was 1,058.

7. *Inspection.*—The dispensaries of Integrated Medicine were inspected both by the respective District Health Officers and Inspecting Medical Officers. The District Medical Officers also inspected some regular Municipal Dispensaries during the period under review.

In spite of repeated reminders issued, many of the Medical Officers in-charge of the dispensaries of Integrated Medicine have not cared to send the statistical returns and particulars due from the Executive Officers of the Local Bodies have not been received. The response this year has slightly improved than last year. The non-co-operative attitude of the Medical Officers and Executive authorities causes not only undue delay in the preparation and submission of the statistical report to Government in time but also the return does not serve the purpose for which it is intended as full particulars cannot be incorporated therein.
