GUIDE TO THE REPORT.

Details of the Board activities are given in ten sections in this report. The activities are grouped generally on a functional basis.

Section I of the report gives the Board activities in general. Operation of the systems is the subject of Section II where production, purchase and delivery of power during the year is discussed in a narrative form. This also covers the maintenance works carried out in the various generating stations and sub-stations. The financial particulars relating to the Board is dealt with in Section III. The statements of operations and maintenance, expenditure on capital works and investments, etc., are found in this section. These statements are supported in the appendices by detailed schedules of fixed assets, individual reserve accounts and statements of cost of power.

The activities of the construction, engineering and technical branches are discussed in Section IV. This gives details about the major projects in progress, transmission lines and sub-stations under construction, technical branch activities, investigation of new schemes, etc.

Section V deals with Rural Electrification works in this Board. This also includes Board works in Community Development Blocks and National Extension Service areas. Section VI deals with manufacture and testing activities. The details of work turned out in testing laboratories in the various systems and works carried out by the Special Maintenance Organization are included in this section. The activities of Mettur workshops also find a place here.

The next Section VII contains reports on the Licensees Electrical Undertakings and Inspectorate.

Personnel administration is discussed at Section VIII while the programme for 1959-60 of the Board forms Section IX.

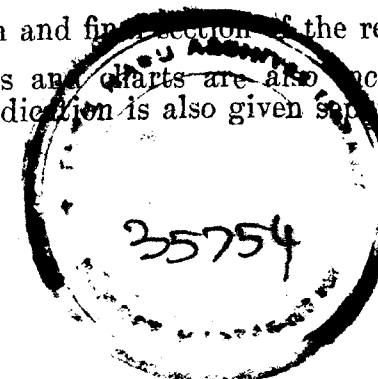

Appendices form the tenth and final section of the report.

Besides, grid map, photos and charts are also included in appropriate places for which indication is also given separately.

With the commissioning of the generating sets at Madras and Periyar, Madras State ranks third in India in generation and utilization of power, Bombay and Bengal leading. In the matter of hydro-electric development Madras is second only to Bombay. Madras continues to lead the rest of India in rural electrification.

The project works relating to the Madras III Stage Extensions were completed while those for the Periyar Hydro-Electric Scheme were nearing completion. The works for the Kundah Project at all sites were in full swing and a beginning was made for the Upper Bhavani works of the Kundah Project and the Sandynallah Dam.

During the year Villupuram-Villivakkam, Sandynallah spur line and Sembatti-Trichy 110 K.V. lines and Sembatti-Karur and Sivaganga-Pudukottai section of the Sivaganga-Tanjore 66 K.V. line were commissioned with new 110 K.V. sub-stations at Acharapakkam and Theni and 66 K.V. sub-stations at Kallupatti, Karaikudi and Pudukottai.

All the generating stations were maintained satisfactorily and were working in parallel.

During the year revision of scales of pay of all the personnel drawing monthly pay up to Rs. 500 was ordered. Increase of dearness allowance at a flat rate of Rs. 5 per mensem has been allowed to all employees provided the total of them, pay and dearness allowance did not exceed Rs. 500.

Before revision of scales of pay an interim relief of Rs. 4 was granted to the Ministerial, Operation Subordinate Service and Work-charged staff who were drawing pay at Rs. 200 per month or less for the period 1st March to 31st December 1958.

Acknowledgment.—The Board is grateful to Montreal Engineering Compansy, Montreal, Consulting Engineers to the Canadian Government, for the Kundah Hydro Electric Scheme, India Supply Mission, Washington, India Stores Department, London, Indian Embassy, Tokyo, Central Water and Power Commission, Posts and Telegraphs Department and other Central authorities and the Government of Madras for their valued help during the year. The thanks of the Board are also due to the several contracting firms who assisted the Board in its various activities.

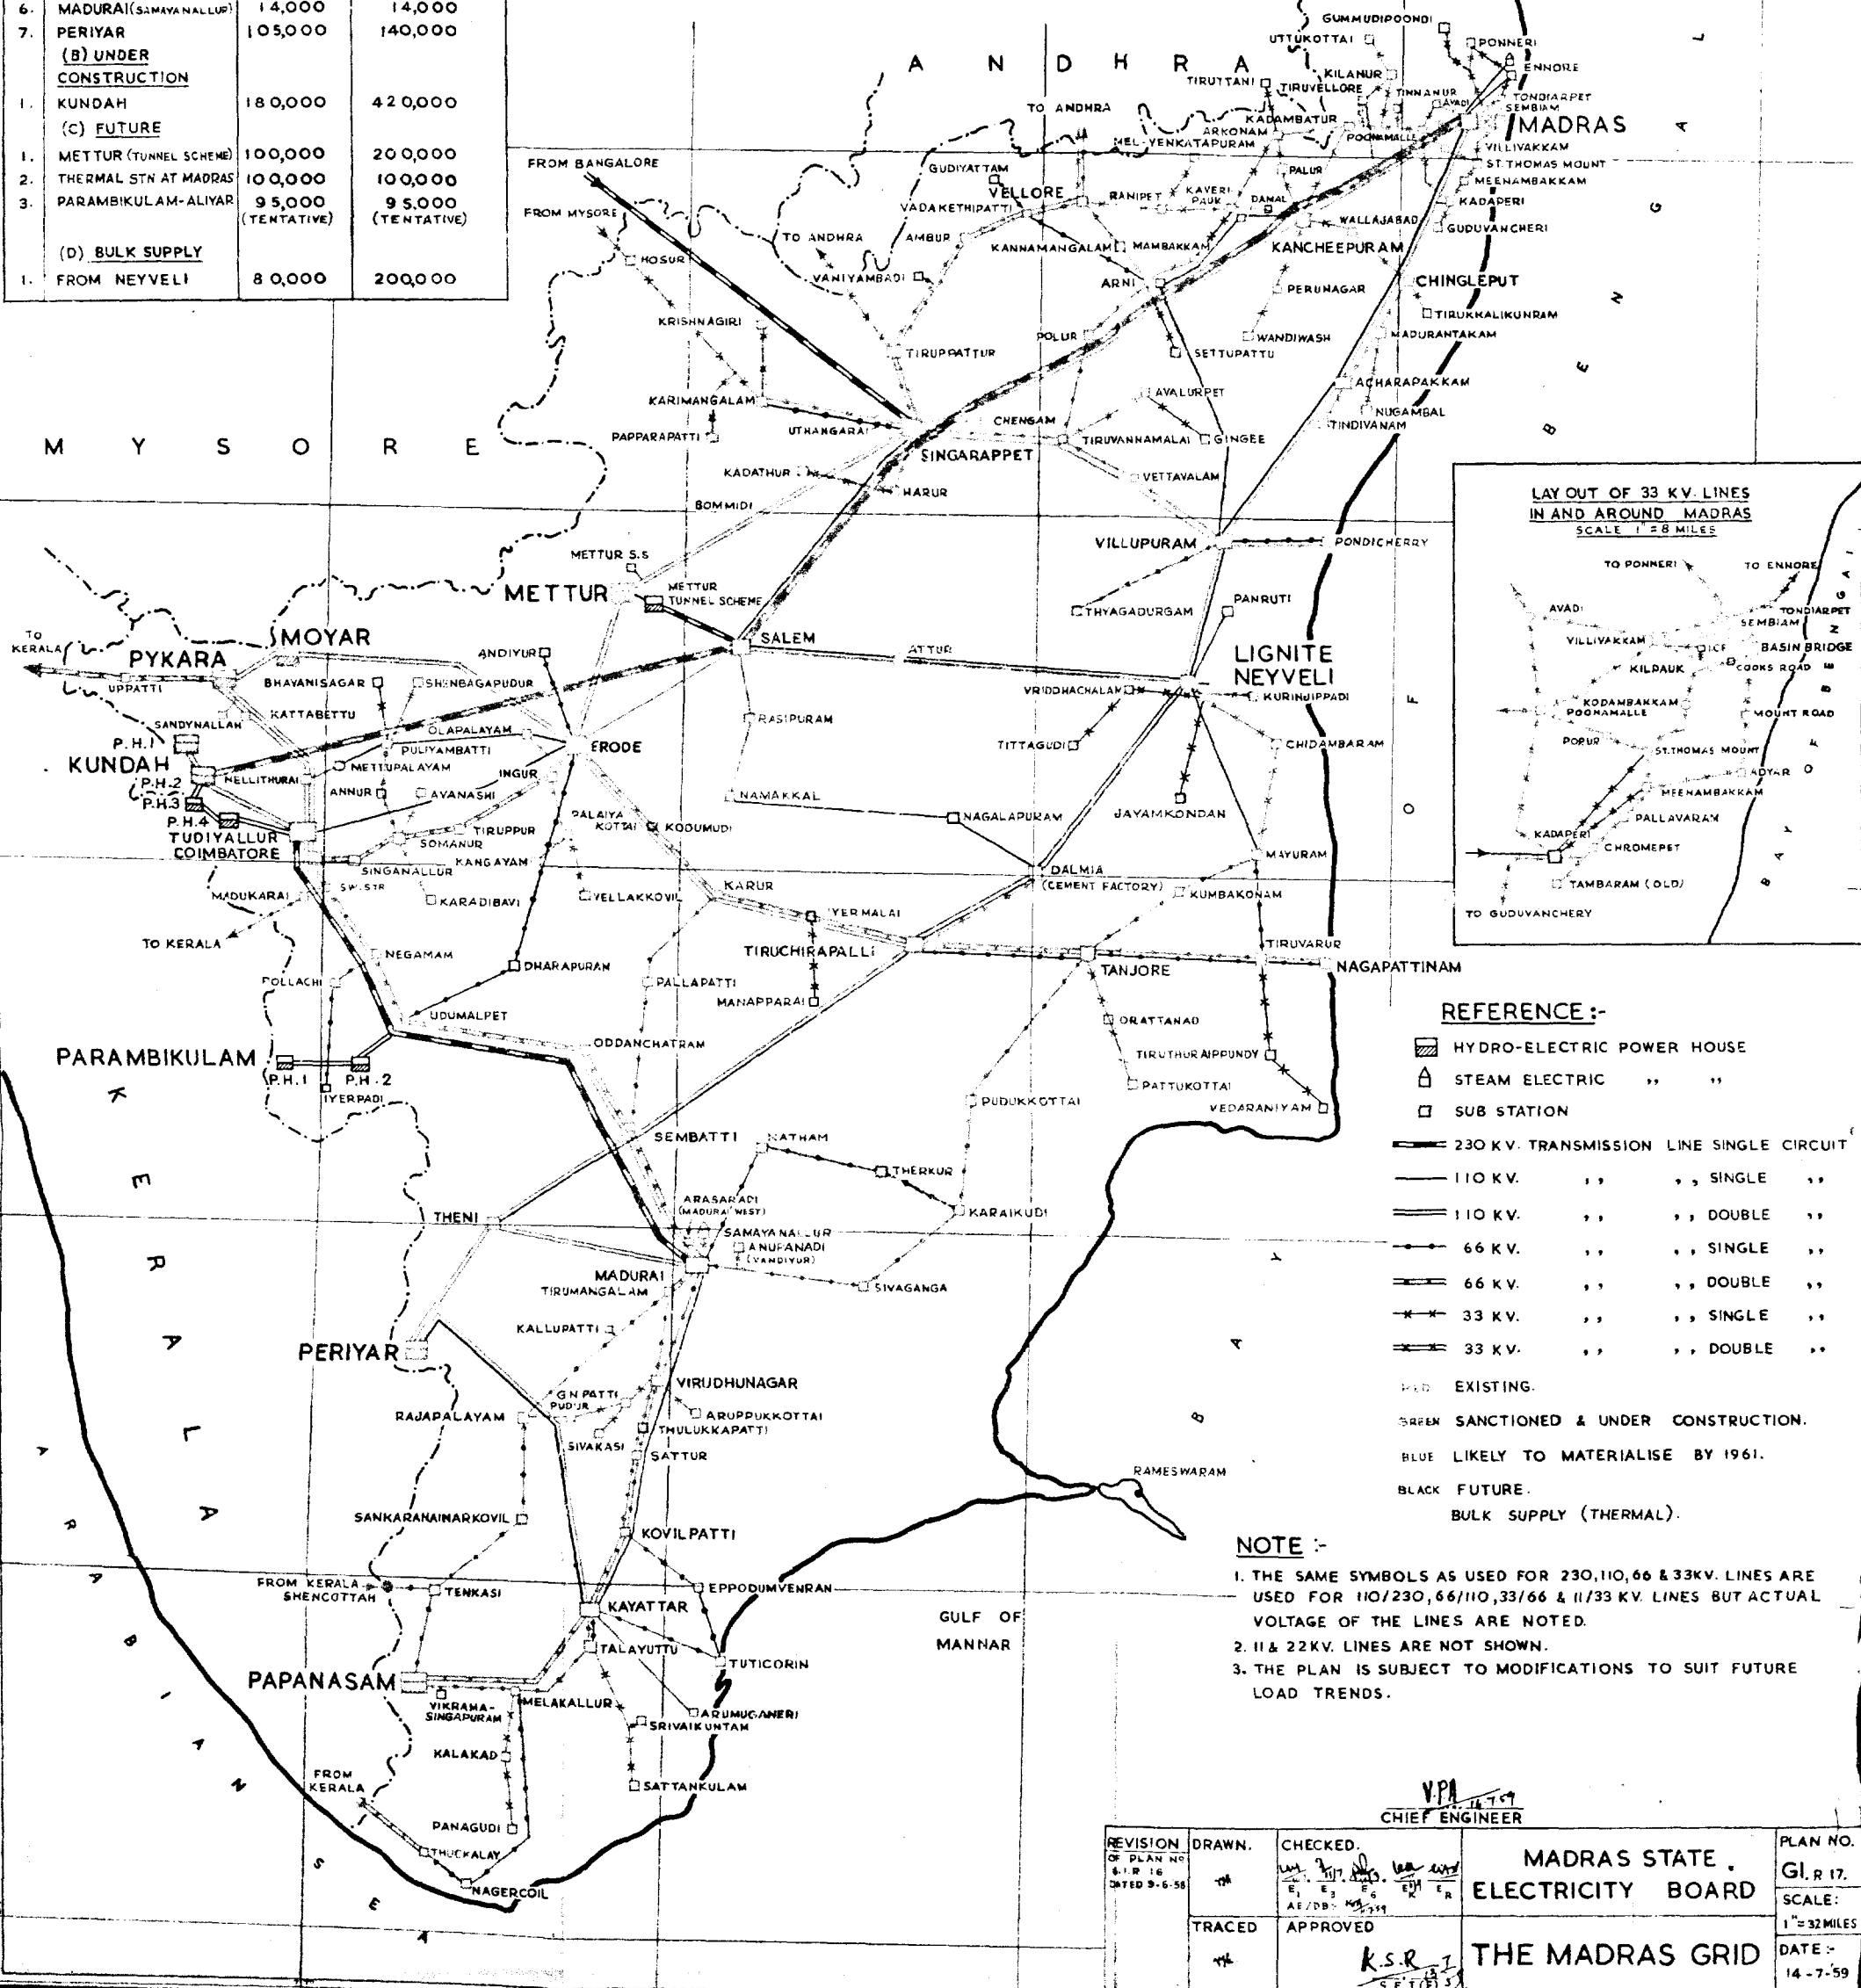

Appreciation of the hard and willing work put in by all the members of the Board is hereby recorded.

V. P. APPADURAI,
Chief Engineer for Electricity.

supply was allowed during day time (from 6 a.m. to 1 p.m. for group I and from 11 a.m. to 6 p.m. for group II) and the rest 8 hours during the night time between 10 p.m. and 6 a.m. the next day.

The grouping restriction on L.T. industrial loads was also relaxed from December 1958.

The other restrictions, namely, the grouping restrictions on agricultural loads, staggering of holidays and recess hours of industrial establishments receiving high tension power supply and not engaged in continuous process, keeping off all L.T. power loads during the evening peak load period and night supply restriction for new H.T. industrial loads continued to be in force during the year. The power supply was satisfactory during the last three quarters of the year.

Supply from Kerala which was availed at Shencottah to an extent of 5,000 K.W. towards end of April 1957 was continued to be availed during the year under report. This was raised to 6,000 K.W. in September 1958 and was subsequently reduced to 3,000 K.W. in March 1959 due to the unsatisfactory supply position in that State. The demand at Thucklay for feeding Kanyakumari district was of the order of 2,000 K.W. Shencottah, Tenkasi, Sankarankoil, Rajapalayam and the entire Kanyakumari district areas were Kerala supply.

Supply was continued to Kerala at Uppati to an extent of 6,000 K.W. and at Paighat and Nilambur to an extent of 1,500 K.W. and 200 K.V.A. respectively.

The following are some of the important works carried out in the Generating Stations :—

Dielectric absorption test was conducted on generators 1, 2, 3 and 4 at Mettur Power House. A new master relay in place of cut-out switch was provided on Salem Transformer 1 and 2 control panels.

In the Samayanallur Power House the commutator of the main and the pilot exciters of the 10 M.W. Turbo set, which were unevenly worn out were skimmed and mica undercut and put back into service satisfactorily.

The operation and maintenance of the Basin Bridge Power Station was satisfactory except for one major breakdown on 12th February 1959 when a bus fault developed on 250 M.V.A. 11 K.V. bus chamber of the 11 K.V. 10 M.V.A. reactor No. 1. This caused interruption to the City supply.

Overhauling of the Turbo Alternator set No. 6 was done between 7th August and 12th November 1958. The Turbo Alternator set No. 4 of 5,000 K.W. capacity which was out for the past two and a half years consequent on the construction of third stage extensions was overhauled and put into service satisfactorily on 3rd August 1958.

The 15,000 K.W. Turbo Alternator set No. 6 was overhauled and put on load on 6th August 1958.

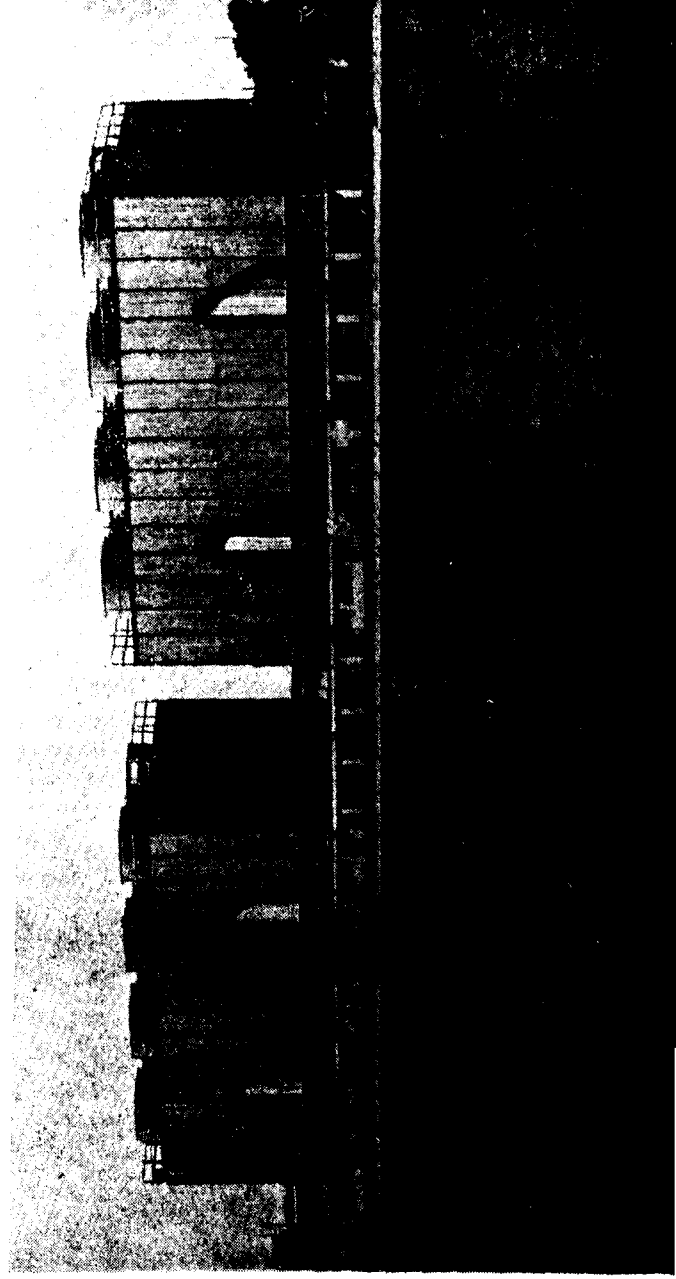

The re-conditioning of the Natural Draught Cooling Tower No. 2 was taken up.

Coal position.—The supply position of coal to Basin Bridge Power House as well as Madurai Thermal Station was fairly satisfactory due to the efforts taken to maintain continuous supply.

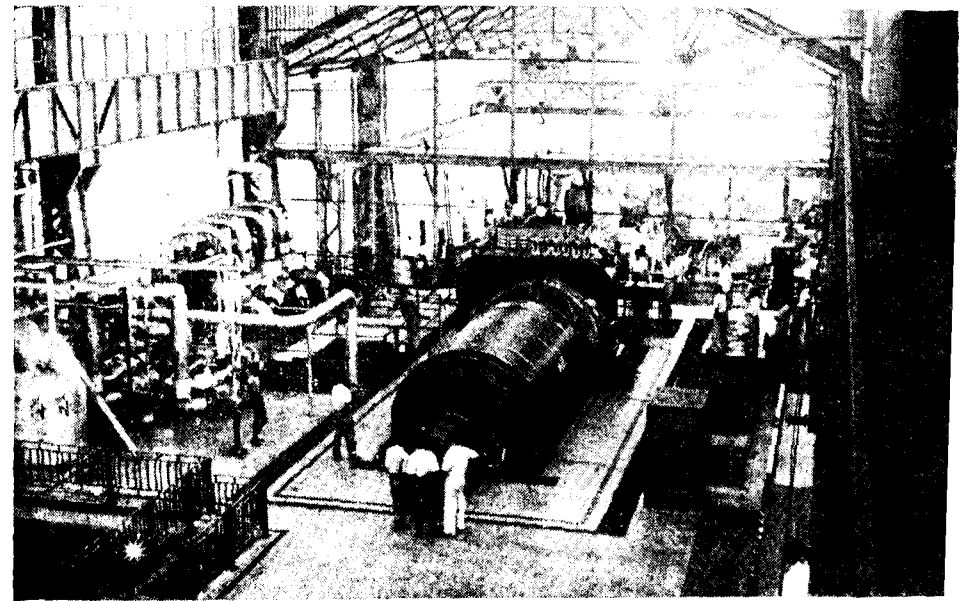

The load conditions in all the areas of the grid have increased considerably making it difficult to avail shut downs on generating units and lines, etc., for purposes of even normal maintenance.

ADMINISTRATION REPORT OF THE MADRAS STATE ELECTRICITY BOARD FOR 1958-59

5

Details of generation and consumption in each system for 1958-59 are furnished below:—

Name of system or power station.	Year of operation.	System demand in M.W.	Percentage of increase in demand over last year.	System consumption in million units.	Station demand in M.W.	Total generation in million units for the year.
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Hydro areas—						
Pykara System	Twen y-Sixth	116.40	36	495.06	71.40	361.46
Moyar	Seventh					159.73
Mettur System	Twenty-Second	103.45	28	501.82	41.50	288.74
Papanasam System	Fifteenth	48.50	22	197.72	28.00	108.77
Madurai Thermal Station. Ninth					13.00	67.87
Periyar	First				72.80	141.26
Total		263.85	..	1,194.60	264.20	1,117.83
Thermal areas—						
Madras System: 'A', 'B', & 'C' Stations..	Eleventh	59.50	18		68.00	332.48
Grand total		322.85	..	1,194.60	332.20	1,490.81

Two graphs showing hydro and thermal power generated, gross revenue and power demand in Madras State from 1932-33 to 1958-59 face this page. Two charts showing power generation and utilization during the year are on the opposite page. Of the total power generated, 70 per cent was from water power and the balance from coal.

Chart No. 3 shows the installed generating capacity, aggregate demand and units generated during the plan periods:

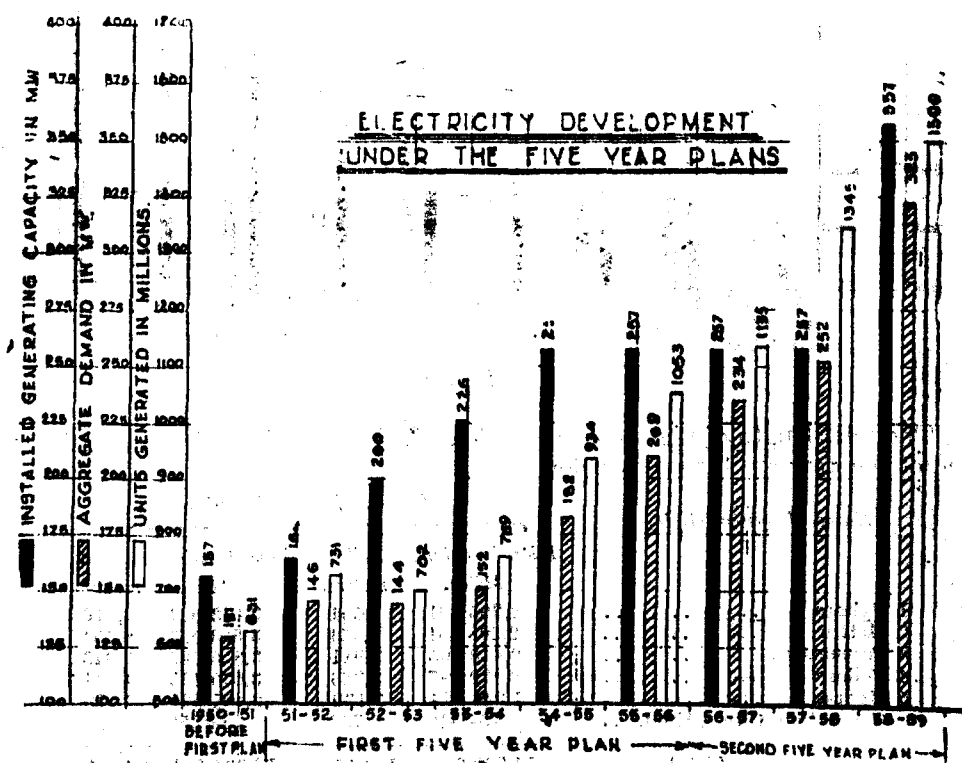

CHART No 3

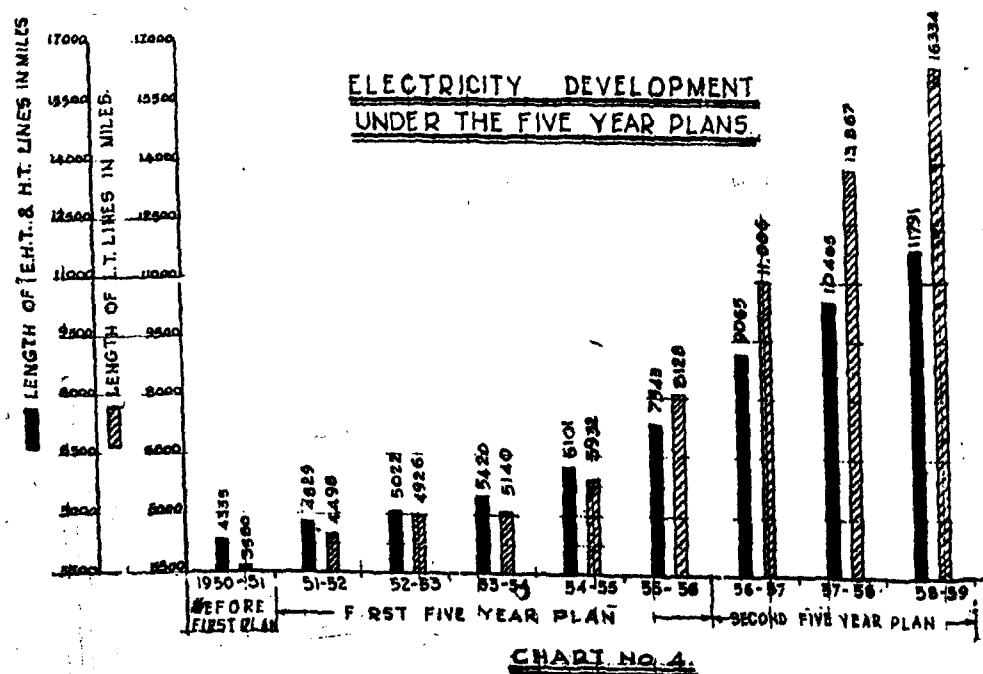

ADMINISTRATION REPORT OF THE
MADRAS STATE ELECTRICITY BOARD FOR 1958-59

The details of load growth in each system and their connected load details are given in Appendices Q and R respectively.

With the commissioning of the 30 M.W. Turbo Alternator set and 33/11 K.V. power transformers, maximum possible export was given to Hydro Stations during the months of May, June and July 1958 as the water position in the Hydro Reservoirs was very critical. Even after July 1958 when normally Madras would be importing power from Hydro areas, the relief availed was not much as compared with previous years.

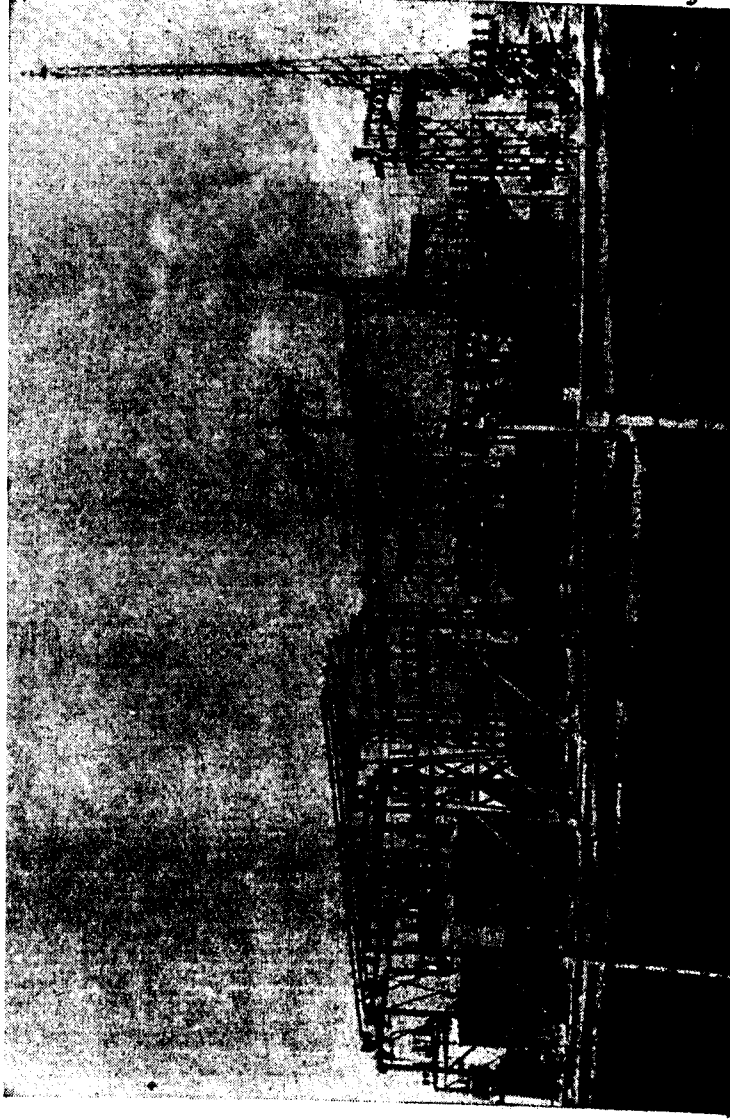

During the year 143.879 million units were exported to the Hydro Systems and 12.405 million units imported from the Hydro Stations.

Lines.—The route mileage of transmission and distribution net work increased by 1,344.076 miles (2,163 kilometers) of H.T. lines and 2,466.749 miles (3,971 kilometers) of L.T. lines during the year. The growth of transmission and distribution systems during the plan period can be seen from Chart No. 4.

The total length of high-tension and low-tension lines in each system at the end of the year are furnished below :—

Name of system/circle.	Length of route in miles.			
	High Tension.	Kilo	Low Tension.	Kilo
	Miles.	meters.	Miles.	meters.
1 Pykara	2,295.721	3,694	3,613.924	5,816
2 Mettur	2,208.551	3,554	3,823.651	6,154
3 Papanasam	2,448.105	3,941	3,820.262	5,343
4 Vellore	2,439.097	3,926	3,070.423	4,941
5 Madras	1,944.924	3,130	2,491.691	4,010
6 Generation Circle, Erode ..	454.410	732	14.050	23
Total ..	11,790.808	18,977	18,834.001	26,237

66,22 K.V. S.S. at Pudukkottai.

The details of transmission lines with their voltages, etc., in each system are in Appendix "S".

The following are the salient features in Distribution System :—

Pykara Electricity System.—The 110/22 K.V., Sandynallah Sub-station with 2 Nos., 3 M.V.A. transformers was energised on 14th September 1958. Both Kundah Project and Cordite Factory 22 K.V. and Ootacamund 11 K.V. loads are fed off from this sub-station.

66 K.V. Metering arrangement was commissioned at Uppatti sub-station for supply of power to Kerala State.

Three Nos. 10 M.V.A. 110 K.V./22-11 K.V. power transformers were erected and commissioned at Coimbatore S.S. for the 11 K. V. loads replacing 3 Nos. 5 M.V.A. power transformers.

At Madukkarai, 2 Nos. 66 K.V. O.M.C.B. and one 66 K.V. potential transformers were commissioned.

One 2,500 K.V.A. 22 K.V. booster was erected and commissioned at Karamadai for improving voltage conditions.

At Udumalpet S.S. 2 Nos. 22 K.V. O.C.Bs. were erected and commissioned for the control of a power transformer and a feeder.

The carrier current telephone equipment was commissioned at Sembatti sub-station.

Three Nos. 22 K.V. O.C.Bs. were commissioned to control Dindigul, Attur, Chinnalapatti feeders off Sembatti sub-station.

At Theni sub-station, 6 Nos. 110 K.V. O.M.C.B. were commissioned.

Carrier current communication in Theni direction up to Periyar was established on 18th June 1958.

Mettur Electricity System.—The South Madras Electric Supply Corporation, Limited, was given one more point of High tension supply at Orathanad during January 1959.

Palacode 33 K.V./11 K.V. temporary sub-station in Dharmapuri taluk was energised on 15th August 1958.

Pudukkottai 66/22 K.V. sub-station was energised on 6th February 1959.

At Tiruchirappalli sub-station the following equipments were energised :—

- (i) 110 K.V. O.M.C.B. on Erode feeder and its control panel.
- (ii) 110 Bus P.Ts.
- (iii) 110 K.V. Erode reference P.T.
- (iv) 110 K.V. Theni reference P.T.
- (v) New control panels of 110 K.V. group control O.M.C.B.

From 24th October 1958, the loads in the Southern area fed off Tiruchirappalli, viz., loads in Tiruchirappalli, Dalmiapuram, Tanjore, Tiruvarur and Nagapattinam were changed over to Periyar supply with the commissioning of the first generator at Periyar Power House in October 1958.

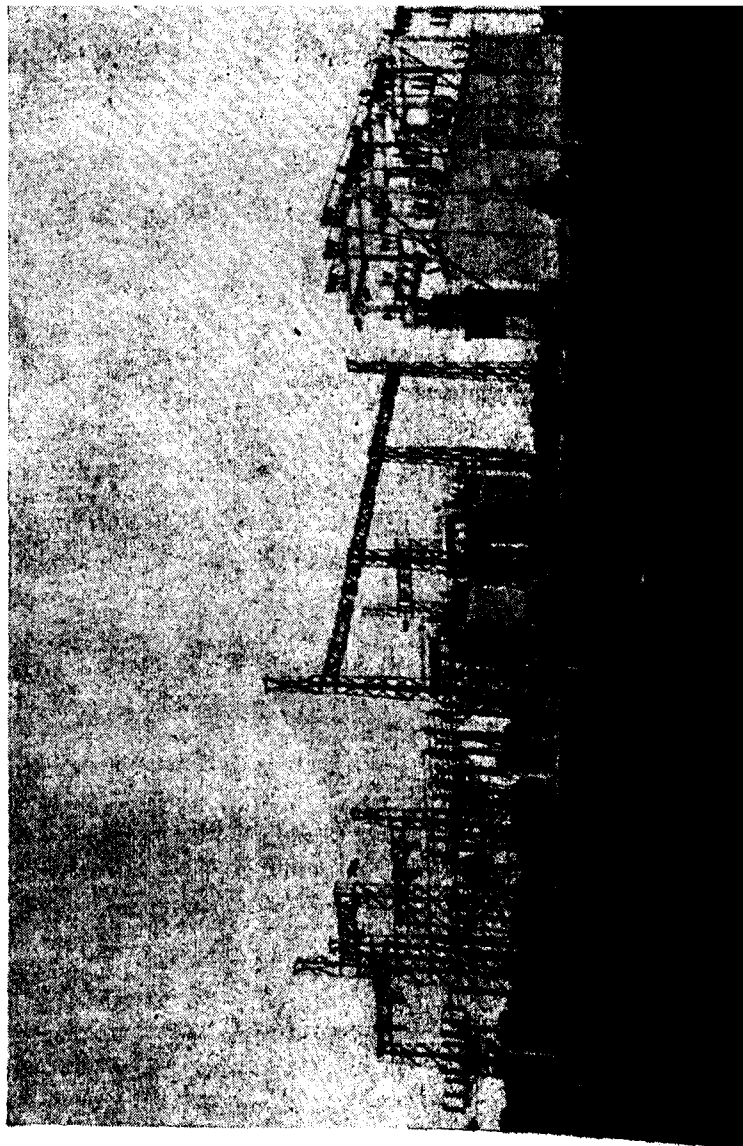

Papanasam Electricity System.—The erection of 2 Nos. 224 K.W. Udipi diesel sets at Rameswaram Power House was completed and one was put into service on 16th July 1958 and the other set on 28th July 1958.

The following new sub-stations were energised during the year :—

Kallupatti 66/11 K.V. sub-station on 21st September 1958.

Karaikudi 66/22 K.V. sub-station on 25th August 1958.

Aruppukottai 33/11 K.V. sub-station on 7th November 1958.

Karaikudi. 66 K.V.S.S.

ADMINISTRATION REPORT OF THE
MADRAS STATE ELECTRICITY BOARD FOR 1958-59

For the first time, Periyar Power House was paralleled with the grid on 15th October 1958 at Pasumalai.

Works connected with the modification to Shencottah and Thuckalay sub-station were progressing satisfactorily.

Sivaganga-Karaikudi reach of the Tanjore-Sivaganga 66 K.V. line was energised on 25th August 1958 and Karaikudi-Pudukkottai reach of the line on 4th February 1959.

Madras Electricity System.—The Acharapakkam 110/33 K.V. sub-station was commissioned into service with 7.5 M.V.A. 110/33 K.V. transformer on 22nd July 1958. Chingleput, Thirukkalikundram, Nugumbal, Madurantakam, Acharapakkam and Tindivanam sub-stations which were till then being fed from Kanchee 110/33 K.V. sub-station were transferred over to Acharapakkam sub-station.

The Villivakkam-Acharapakkam-Villupuram 110 K.V. line was energised on 18th July 1958. With the energisation of this 110 K.V. line, alternate feed to Madras is now made available and the import can be increased.

The change over of D.C. services to A.C. on voluntary basis continued during this year.

Additional power transformers to meet the increased loads were installed at Nugambal, Pallavaram, Perunagar, Sembium and Tondiarpet sub-stations while at Adyar, Korattur, Kadambathur, Kilanur, Ponneri, Porur, Thinnanur, Thirukalikundram and Wallajabad sub-stations, the existing power transformers were replaced by higher capacity transformers.

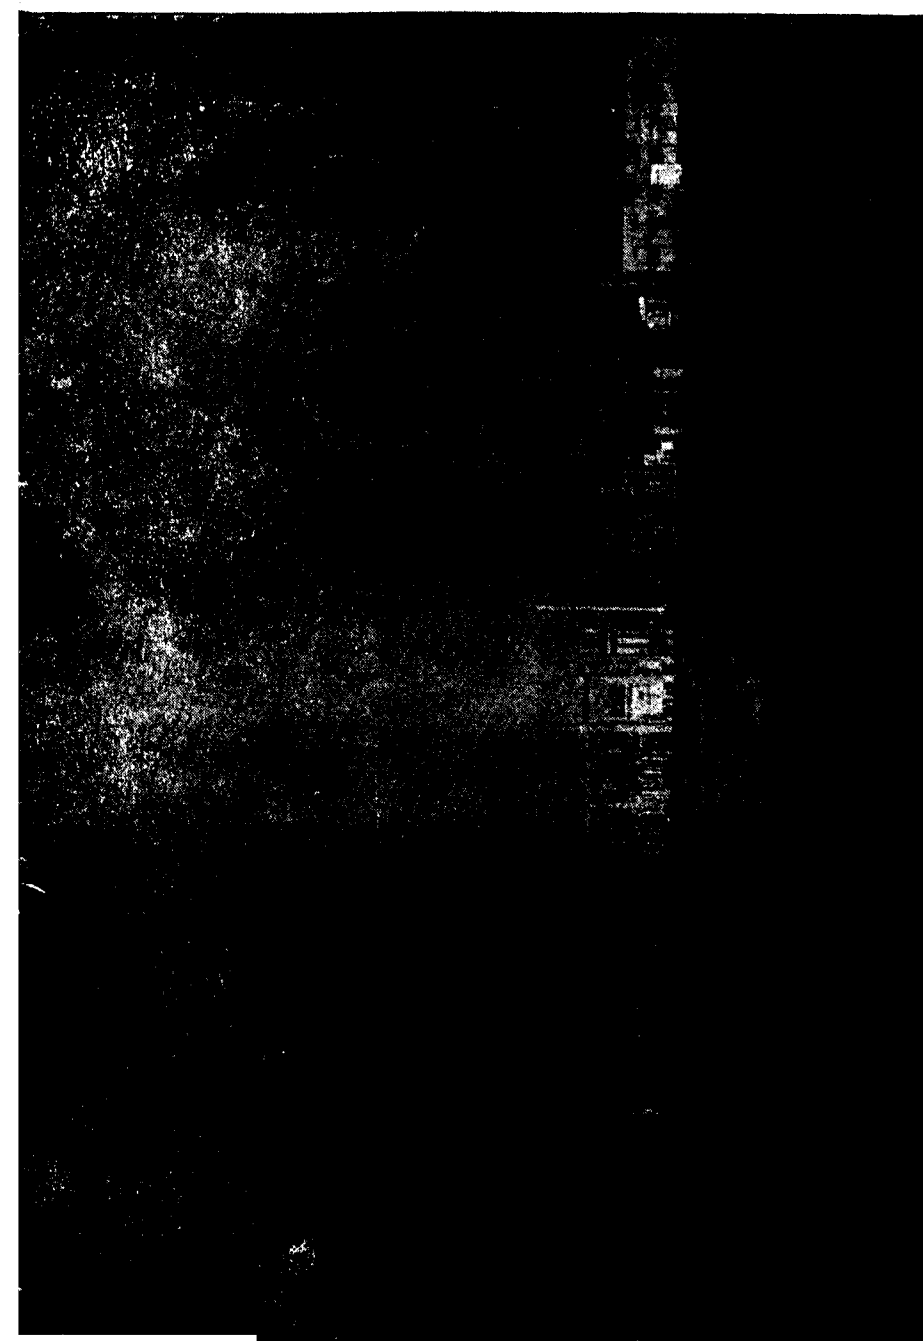

Vellore Electricity System.—One 2,500 K.V.A./22 K.V. booster was commissioned at Ozugur on the Kaveripauk-Sholinghur 11 K.V. feeder to improve the voltage condition beyond Sholinghur on 13th July 1958.

Vellore-Chittoor 66 K.V. line was idly charged on 6th October 1958.

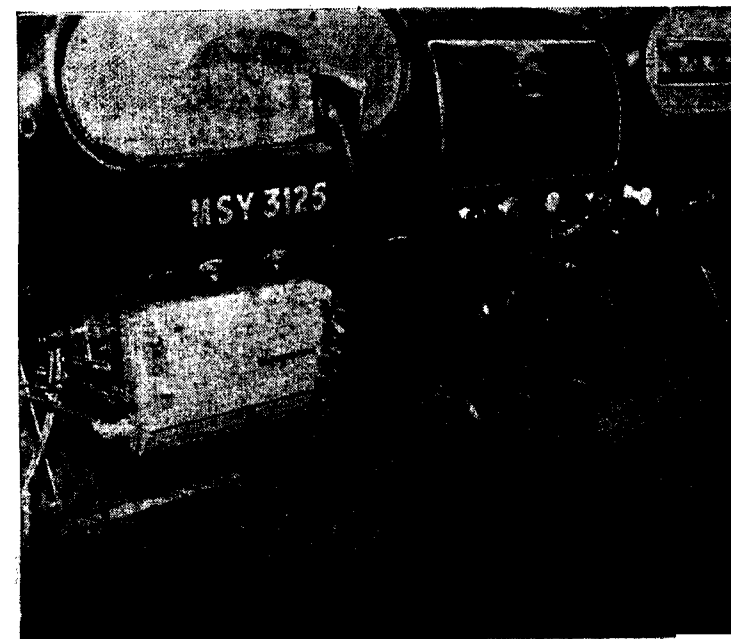

Transformer Erection.—Twenty-three Nos. power transformers with a total capacity of 223,250 K.V.A. were assembled and erected at various sub-stations in the State.

Interruptions and breakdowns.—During the year, breakdowns occurred on main transmission lines of the Board are as per details given below :—

Name of the system.						110 K.V.	66 K.V.

MADRAS ELECTRICITY SYSTEM.
V.H.F. Mobile Unit.

SECTION III—FINANCIAL TRANSACTIONS.

The capital expenditure incurred during 1958/59 amounted to Rs. 1,473 lakhs. The capital outlay on schemes on operation to end of March 1959 was Rs. 8,309 lakhs.

The gross and net revenue earned by the Department during the year were Rs. 1,207 lakhs and Rs. 418 lakhs respectively. The return on operation capital works out to 15.82 per cent gross and 5.47 per cent. The net profit after meeting interest, etc., is Rs. 27 lakhs which works out to 0.36 per cent on operation capital.

ELECTRICITY DEVELOPMENT UNDER THE FIVE YEAR PLANS.

The Accounts Branch handled cash receipts of Rs. 1,052 lakhs and cash payments of Rs. 1,535 lakhs during the year. In addition, payments to the extent of about Rs. 404 lakhs made by other agencies like India Store Department, High Commissioner for India, London, etc., were watched and adjusted.

Stores receipts amounted to Rs. 1,994 lakhs and issues amounted to Rs. 2,080 lakhs. These include transactions of inter stores transfers also. Five thousand six hundred and fifty-seven contractors' bills amounting to Rs. 372 lakhs and eighteen thousand four hundred and forty—suppliers' bills amounting to Rs. 681 lakhs were checked and payments made during the year.

The following table gives the (approximate) financial position of the Department as on 31st March 1959 subject to modification on finalizing annual statement of account :—

Financial position as on 31st March 1959.

	RUPEES IN LAKHS.		RUPEES IN LAKHS.
Fixed assets in operation	7,464	Loan from State Government ..	8,397
Fixed assets under construction ..	1,462	Capital reserve and due to Govern- ment.	611
Service connection	114	Open market loan	220
Stores (including canadian stores) ..	874	Depreciation and Special Reserve ..	1,242
Advance payment to supplies	214	Accounts payable to supplies ..	553
Accounts receivable from consumers ..	153	Accounts payable to others	..
Other items	47	Reserve for bad debts	29
Investments from reserves	705	Pension Fund	14
Inter Departmental transfers pending adjustment.	37	Net surplus	13
Cash	9		
Total ..	11,079	Total ..	11,079

Expenditure on Capital works.—The Budget Estimate for 1958-59 was Rs. 1,191.34 lakhs and the same was raised to Rs. 1,400.00 lakhs in the Revised Estimate for 1958-59.

The provision has been kept up with an excess of about Rs. 73 lakhs.

The Department had spent Rs. 41.64 crores in the first three years as against a total Plan provision of Rs. 53.25 crores. With a budget provision of Rs. 11.08 crores for 1959-60, the total provision would almost have been spent so that it was agreed by the State Government that the total provision would be increased suitably based on requirements.

The details of Revenue receipts and working expenses during 1958-59 were as under :—

<i>Working Expenses.</i>				RUPES IN LAKHS.	<i>Gross Receipts.</i>				RUPES IN LAKHS.
To	Generation	..	..	235.81	By	Domestic light and power	..	244.93	
"	Transmission	..	..	16.75	"	Commercial light and power	..	48.58	
"	Distribution	..	..	63.80	"	Street light	..	27.89	
"	Commercial	..	..	11.53	"	Industrial	..	234.58	
"	Cost of power purchased	..	..	199.10	"	Agricultural	..	199.34	
"	Administration and General charges.	..	..	106.37	"	Traction	..	18.75	
"	Contribution to Reserve funds	..	..	155.94	"	Bulk supply to licensees	..	123.60	
"	Excess receipts over expenditure	..	..	417.51	"	Government Departments.	..	26.54	
					"	Miscellaneous sales	..	23.89	
						Total	..	946.00	
					"	Sales to other systems	..	165.30	
					"	Total sale of power	..	1,111.00	
					"	Miscellaneous Revenue	..	94.28	
					"	Interest on securities	..	0.63	
				<u>1,206.81</u>				<u>1,206.81</u>	
"	Interest on loans and overdrafts	..	..	391.98	"	Net Revenue	..	417.51	
"	Administration and Miscellaneous expenses.	..	..	—1.44	"	By other receipts, sale of specification, etc.	..	0.21	
"	Interest on Bonds and other items	..	..	7.49					
"	Net surplus	..	..	19.69					
				<u>417.72</u>				<u>417.72</u>	

Comparative statements of the elements of operation and maintenance expenses of the Department in relation to units generated and revenue earned are given in separate statements—vide Appendices C1 to C3.

Formation of Revenue Units.—With a view to decentralise the collection and accounting of the revenue receipts, separate revenue units have been established in the following places for the Systems :—

<i>Pykara.</i>	<i>Mettur.</i>	<i>Papanasam.</i>	<i>Madras.</i>	<i>Vellore.</i>
Coonor.	Salem.	Tirunelveli.	Kancheepuram.	Tiruvannamalai.
Palni.		Srivilliputhur.	Mint.	
		Devakottal.		
		Nagercoil.		

Revision of tariff.—The approval of the Board for revision of tariff is awaited.

Audit.—Residential concurrent audit was functioning in all the systems and circles.

Stores.—There were 93 stores (11 Central and 82 sub-stores) with materials worth Rs. 874.43 lakhs. The stores were verified by stock verifiers. A statement showing the reserve limit of stock, in each of the system/circle and actuals are given below :—

Serial number and name of the systems or circle.							Number of Stores.		Reserve limit of Stock Rs. in lakhs.	Actuals as at 31st March 1959. Rs. in lakhs.
(1)							Central.	Sub-stores.		
1	Pykara..	..	..	..	..	..	1	6	150	135.86
2	Mettur ..	..	..	..	..	..	1	9	208	137.78

Total ..							11	82	1,145	874.43

SECTION IV—ENGINEERING AND CONSTRUCTION.

I. MADRAS PLANT EXTENSIONS.

Location—Madras City near Basin Bridge Railway Station.

Installed capacity—60,000 K.W. in three stages.

Steam raising plant—

(a) Five numbers of 80,000 lbs. per hour boilers (steam conditions 425 lbs./square inch and 775°F).

(b) Two numbers 150,000 lbs. per hour boilers/steam conditions 900 lbs. square inch and 925°F). Estimated cost Rs. 856 lakhs.

One 15,000 K.W. unit under the first stage and another 15,000 K.W. unit under the second stage with four numbers 50,000 lbs. per hour (36,320 kilogram per hour) boilers were commissioned during the first plan period. During the first year of the second plan period, one more boiler under the second stage was erected. During this year, the third stage extensions comprising of two set were completed. The turbo set was commissioned into service on 26th April 1958 by Sri S. K. Chettur I.C.S., Chairman of the State Electricity Board.

The two numbers Induced Draught Cooling towers were tested and taken over by the Board. Two more 10 M.V.A. 11/33 K.V. transformers were commissioned thus increasing the capacity of power exchange with hydro areas.

II. PERIYAR HYDRO-ELECTRIC SCHEME.

Location—six miles (9.65 kilometers) from Gudalur village in Madurai district.

Installed capacity—

105,000 K.W. (Initial).

140,000 K.W. (Ultimate).

Gross head—1,263 feet (385 meters).

In service schedule—1958-59.

Estimated cost Rs. 10.09 crores.

Irrigation tunnel.—Widening and concrete lining of tunnel wherever required were completed.

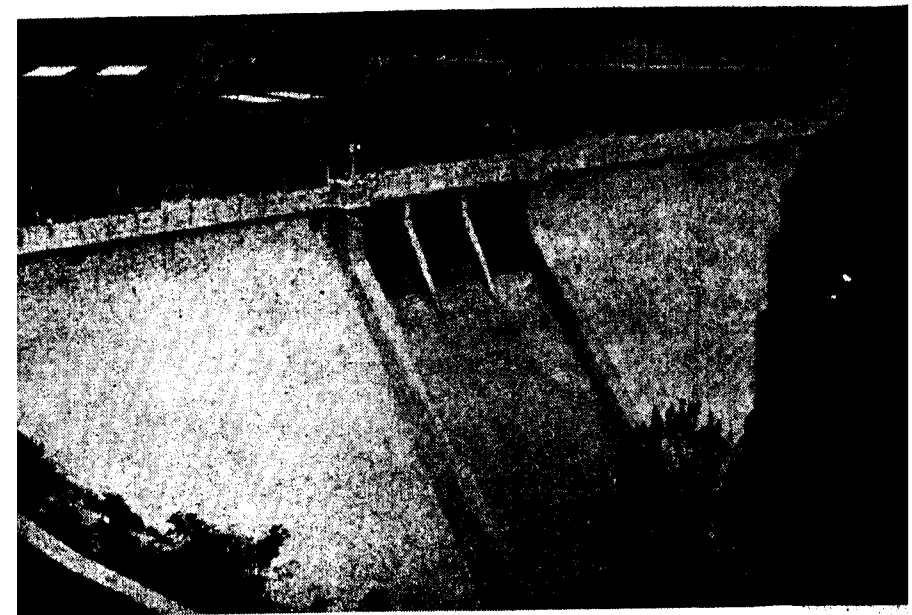

Forebay dam.—Masonry building and concreting was completed. Erection of penstock gate and scour gate with its allied hoists and structures was completed.

Power tunnel, pipe tunnel and surge shaft.—The entire works on the above were completed.

Penstocks.—The erection of the fourth penstock line (6 pipes) and fitting up of drain valves for the three penstocks at the rotary valve were completed.

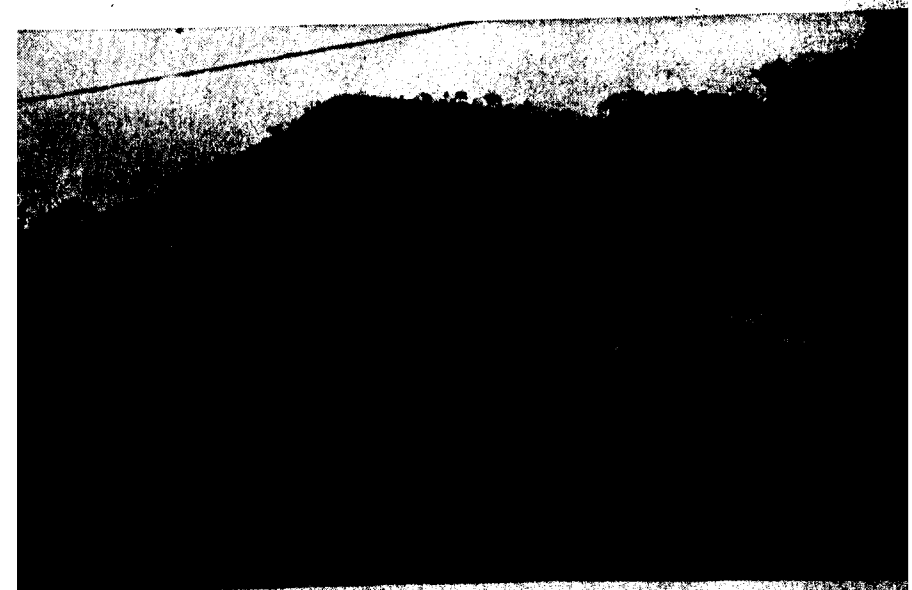

Power-house, Transformer yard, etc.—The outdoor yard was completed except for the works relating to the Kayathar feeder which were in progress.

The erection of first generator was started in the first week of July 1958 and was completed by the first week of October 1958. Sri K. Kamaraj, Chief Minister of Madras, commissioned the machine on 12th October 1958. Erection of the second generator was started in December 1958, after receipt of all

parts. Sri P. Kakkan, Minister of Public Works, commissioned the second unit on 19th February 1959. Ninety-five per cent of erection of No. 3 turbine and 40 per cent erection of the third generator was completed by the end of the year. The third set is expected to go into operation in May 1959.

Transmission lines.—The Sembatti-Tiruchirappalli 110 K.V. line, Sembatti-Karur 66 K.V. line and Sivaganga-Pudukkottai section of the Sivaganga-Tanjore 66 K.V. line were completed and energised thus completing the major transmission lines envisaged in the scheme. A 110 K.V. sub-station at Theni and 66 K.V. sub-station at Karaikudi and Pudukkottai were established.

III. KUNDAH HYDRO-ELECTRIC SCHEME.

Location—

Powerhouse I at Kundapalam about 20 miles (32.18 K.M.) from Ootacamund.

Powerhouse II on the left bank of Pegumbahalla at about 26 miles (41.8 K.M.) from Ootacamund.

Installed capacity—

Powerhouse I—

40,000 K.W. (Initial).

60,000 K.W. (Ultimate).

Powerhouse II—

140,000 K.W. (Initial).

175,000 K.W. (Ultimate).

Gross head—

Powerhouse I—1,180 feet (360 meters).

Powerhouse II—2,470 feet (754 meters).

In service schedule.—First unit in plant I by 1959 and the scheme in all respects by 1960-61.

(i) *Emerald Dam.*—80 per cent excavation and 37 per cent of building masonry were completed.

(ii) *Avalanche Dam.*—80 per cent of excavation and 23 per cent of building masonry were completed.

(iii) *Inter-connecting tunnel.*—The tunnel was bored through on 17th December 1958 and concrete lining was in progress.

(iv) *Tunnel No. I.*—About 15,000 feet (4,572 meters) of excavation in tunnel No. 1 was completed during the year.

(v) *Penstock No. I.*—The grading of penstock slopes was completed. The construction of substructure for all the anchors and saddle piers in all the reaches were completed. Transport of pipes was nearing completion. Erection of pipes was under progress and 2,098 R feet of pipes for one line was completed.

(vi) *Powerhouse No. I and Transformer yard.*—The first stage concreting and the erection of fabricated structural steel were completed. Sixty per cent of the superstructure masonry and second stage concreting were completed. The turbine and generator parts received were transported to site and erection of these was commenced.

(vii) *Kundah Forebay Dam.*—Seventy-five per cent of excavation and 60 per cent of building masonry were completed. The construction of scourvent and intake portion and erection of gates were in progress.

(viii) *Tunnel No. 11.*—Nine thousand six hundred feet (2,926 meters) of excavation and 630 feet (192 meters) of lining were completed.

(xi) *Penstock No. 11.*—The grading of penstock slopes was completed. The construction of substructure and superstructure for the anchors and piers and erection of penstock pipes were under various stages of progress.

(x) *Powerhouse No. 11 and Transformer yard.*—The excavation of column foundation and machine foundation was nearing completion. The first stage concreting and benching the site for transformer yard were in progress.

Transmission Lines—

(i) *Kundah I-Kundah II-Thudialur 110 K.V.D.C. line.*—All the works were completed except for the erection of 28 special towers which were awaited from Canada.

(ii) *Kundah II-Salem-Villivakkam 230 K.V.S.C. line.*—Erection work of the reach between Kundah II to Salem is being done departmentally while that between Salem and Villivakkam has been given on contract. The Salem-Polur reach has been awarded to Messrs. S.A.E., Ltd., and the Polur-Villivakkam reach to Messrs. Kamani Engineering Corporation. To the end of the year 64 per cent of excavation, 41 per cent of stub-setting and 2 per cent of tower erection were completed.

IV. SANDYNALLAH RESERVOIR SCHEME.

The Sandynallah Reservoir Scheme envisages construction of a storage reservoir across the Sandynallah river about six miles (9.65 kilometers) from Ootacamund. The water thus stored will be diverted to Pykara basin through a tunnel and this will result in an additional annual generation of about 54 million units at the existing Pykara and Moyar Power Plants. The scheme is estimated to cost Rs. 125 lakhs, and programmed for completion during 1960-61. During the year, the preliminary works were in progress.

V. TRANSMISSION LINE AND SUB-STATIONS.

The following transmission lines were completed during the year:—

(i) Villivakkam-Villupuram 110 K.V. line.

(ii) Spur line to Sandynallah (110 K.V.)

110 K.V. sub-stations at Acharapakkam and Sandyanallah were established as also the 110 K.V. extensions at Pasumalai, Tiruchirappalli, Salem and Villupuram.

Works on the following lines were in progress:—

(i) *Periyar-Kayathar-Arumuganeri 110 K.V. line.*—Seventy per cent of the towers were erected in the Periyar-Kayathar reach while all the towers and 30 per cent stringing of conductors were completed for the Kayathar-Arumuganeri section.

(ii) *Salem-Attur-Neyveli 110 K.V. line.*—Thirty-five per cent of tower erection and 20 per cent of stringing of conductors were completed for the Salem-Attur reach while stub-setting was in progress for the Attur-Neyveli reach.

(iii) *Nellithorai-Mettupalayam 110 K.V. line.*—Erection of line supports was completed.

(iv) *Melakallur-Nagercoil-Thucklay 66 K.V. line.*—Most of the line supports have been erected and stringing was commenced.

(v) *Kovilpatti-Eppodumvenran 66 K.V. line.*—All line supports have been erected and stringing of conductors was in progress.

KUNDAH HYDRO-ELECTRIC SCHEME.

Tunnel No. 2.

KUNDAH HYDRO-ELECTRIC SCHEME.

Penstock 2.

Sub-stations.—Erection of 110 K.V. sub-stations at Attur and Neyveli, a 110 K.V. switching station at Arumuganeri and 66 K.V. sub-stations at Nagercoil and Eppodumvenran was under progress. Two hundred and thirty K.V. extensions at the existing Salem and Villivakkam Sub-stations and 110 K.V. extensions at Kayathar and Thudialur were also in progress.

VI. TECHNICAL SECTION.

The technical branch comprising of an electrical, a civil and an investigation sections continued to be busy with the preparation of designs, estimates, preparation of scheme reports, issue of specifications, scrutiny of tenders, awarding of contracts for sanctioned works and investigation of new schemes.

The more important works attended to by the three branches are given below :—

Electrical.—A detailed study on the Network analyser at the Indian Institute of Science, Bangalore, with Kundah Plants I and II and Mettur Tunnel Scheme for 1965-66 conditions was carried out during May 1958.

Revised layouts were finalised in respect of Moyar, Pykara and Mettur Powerhouses to bring them in line with modern practice.

Scheme sanctioned.—The following new schemes were got sanctioned during the year :—

	Estimated Cost RUPEES IN LAKHS.
(i) 110 K. V. Extensions—	
Erection of Nellithurai-Mettupalayam 110 K.V. line with 110/22 K.V. as at Mettupalayam.	30.72
(ii) 66 K.V. Extensions—	
(a) Erection of Melakallur Nagercoil-Thucklay 66 K.V. line with 66/11 K.V. as at Nagercoil and Thucklay.	31.25
(b) Erection of Villupuram-Thiayagadurgam 66 K.V. line with 66/22 K.V. sub-station at Thiayagadurgam.	26.29
(c) Establishment of 66/11 K.V. sub-station at Kannamangalam by tapping Arni-Vellore 66 K.V. line.	7.52
(d) Erection of 66 K.V. line from Karaikudi to A. Thekkur 66/11 K.V. Sub-station at the two places.	24.16
(e) Erection of an additional 66 K.V. line from Kayathar to Thalayuthu with extensions at Thalayuthu sub-station.	16.91
	(Gross.) 12.25 (Nett.)
(iii) 33 K.V. Extensions—	
Erection of 33 K.V. line from Neyveli to Serakuppam with 33/11 K.V. sub-station at Serakuppam.	4.34
(iv) Basin Bridge Extensions—	
(a) Installation of an additional High pressure boiler of 150,000 lbs./ 68,100 Kg/hr. hour capacity at Basin Bridge Power house.	70.00
(b) Installation of an additional Induced Draught Cooling tower of capacity 15,000 lbs./ hour 6,810 Kg/hr. with 2 numbers Circulating Water Pumps and motors, etc. at Basin Bridge Power house.	12.85

The last two extensions were sanctioned subject to the availability of foreign exchange.

Technical sanction was accorded for the following schemes :—

(a) 66/11 K.V. sub-station at Kodumudi by tapping Erode-Tiruchirappalli 66 K.V. line.	RUPEES IN LAKHS. 3.34
(b) 33 K.V. line from Noyveli to Jayangondan	4.004
(c) A temporary 33/11 K.V. sub-station at Palacode in Salem district ..	0.389

Scheme reports for the following were submitted to the Board:—

(i) 66 K.V. Extensions—	
66/11 K.V. sub-station at Arasaradi (Madurai West Gate.)	13.53 (Gross). 13.00 (Nett.)
(ii) 33 K.V. Extensions.—	
(a) Erection of 33 K.V. line from Arni to Chetput in North Arcot district with 33/11 K.V. sub-station at Chetput.	9.62
(b) 33/11 K.V. sub-station at Jayangondan in Udayarpalayam taluk ..	3.623

Reports for the following schemes were under preparation :—

	<i>Estimated costs.</i>
	RUPEES IN LAKHS.
(a) Noyveli-Panruti 110 K.V. line with 110/22 K.V. sub-station at Panruti.	14.49
(b) 66/11 K.V. sub station at Thulukkapatti by tapping Virudhunagar-Sattur 66 K.V. line.	6.33
(c) Avalurput-Gingee 33 K.V. line with 33/11 K. V. sub station at Gingee.	8.11

During the year 36 new specifications were issued and contracts were awarded for a number of items.

Rural Extensions.—Seventy-two major schemes estimated to cost Rs. 2.20 crores and nine hundred and forty-six minor schemes estimated to cost Rs. 6.25 crores were sanctioned by the Board.

Code of Technical instructions.—The Chapter on “Distribution lines—Designs and Standards” of the revised Code was finalised and issued to the officers.

General.—During the year the Board participated in the following exhibitions :—

- (1) The ‘India 1958’ exhibition at New Delhi.
- (2) Madurai Chitrai Exhibition.
- (3) All India Khadi, Swadesi and Industrial Exhibition at Teynampet, Madras.
- (4) The Red Cross Centenary Exhibition, Madras.
- (5) Chingleput Health Exhibition.

Civil.—During the year, the Civil Branch was busy preparing scheme reports, designs, specifications, tender sets, estimates, placing of contracts, purchase orders, etc., in respect of all civil works pertaining to all systems and projects under execution of the Madras Electricity Board.

Departmental stall in Red Cross Exhibition, Madras.

The following are some of the important specifications issued during the year :—

(1) *Sandynallah Reservoir Scheme*—

- (1) Construction of diversion tunnel.
- (2) Drilling and grouting the foundation of Sandynallah Dam (Masonry portion).

(2) *Kundah Hydro-Electric Scheme*—

- (1) Heavy duty vehicles for the transport of transformers and other heavy electrical equipments.
- (2) Stone crushers, granulators and screen.
- (3) Construction of residential and non-residential buildings for a number of sub-stations.
- (4) Construction of masonry and R.C.C. work in super-structure for Power House No. 1.
- (5) Mobile Cranes.
- (6) Diversion tunnel from Upper Bhavani Reservoir to Avalanche Basin.

Investigation of new schemes.—A separate Circle was formed in February 1958 for investigation of new schemes to conform to the principle laid down by the Planning Commission and the Government of India. The important schemes investigated and the progress of work in respect of each scheme are given below :—

(i) *Mettur Tunnel Scheme.*—A revised report on tunnel scheme taking into account the suggestions given by Dr. K. L. Rao, and limiting the initial stage to two units of 50,000 K.W. as suggested by the Central Water and Power Commission was prepared and submitted to the Government and the Planning Commission with a request to take up the preliminary works not involving any foreign exchange during the Second Plan period itself.

(ii) *Periyar Pumping Scheme.*—A Scheme for pumping and utilising the dead storage in the Periyar lake for power generation and irrigation during summer months was studied and a report prepared. With this arrangement, a continuous discharge of 700 cusecs (19,824 litres/second) will be available increasing the firm power available at Periyar to 64,000 K.W.

(iii) *Kundah Ultimate Extensions.*—The field investigation for locating two more plants to develop power from the Kundah Basin was in progress.

(iv) *Parambikulam-Aliyar Hydro-Electric Scheme.*—Preliminary works like jungle clearance and formation of paths were in progress to take up detailed investigations.

(v) *Kumbar-Amaravathy and Palar-Parandalur Hydro-Electric Schemes.*—The detailed investigations of these two schemes have been completed in all respects. It was resolved to take up the execution of these schemes beyond Third Five-Year Plan period.

Hydro-Metric Surveys.—Collection and compilation of rainfall and run off figures of the various basin were continued. The number of rainfall stations in the Board rose from 466 to 482 and river flow stations from 42 to 54 during the year. The construction of measuring weirs, rainfall stations, etc., sanctioned under the Five-Year Programme were under various stages of progress.

20

ADMINISTRATION REPORT OF THE

5 Pump lift range	(3.48 to 33.52 meters).	10 to 110 feet
6 Total connected load of pumping installations to the end of 1958-59.		303,495 K.W
7 Power consumption of agricultural services during 1958-59.		300 million units.
8 Consumption of pumping load to total consumption of energy in the State.		25 per cent.
9 Consumption of power for irrigation per acre of land ..		800 units.
10 Cost for the above power		Rs. 42.

The cost of lifting water from wells for irrigation per acre per crop of paddy by different methods are roughly as follows :—

	RS.
By bullocks	500
By diesel engine pump	83
By electric pump	42

This explains the pressing demand for power supply for agriculture where its utility has been well demonstrated.

With a view to encouraging the use of electricity in agriculture, the Board offers electricity at very cheap rates, viz., 0.9 anna per unit, for the first 500 units per installed horsepower per annum and 0.75 anna per unit for all in excess. There is an annual minimum guarantee of Rs. 6 per horsepower connected, but this annual minimum guarantee will be reduced proportionately to the number of days in which the well could not be used due to draught, provided the consumer sends due intimation of the fact as soon as the well becomes dry.

The security deposit towards energy charges is collected for two months in respect of agricultural consumers as compared to the collection of three months charges for other consumers.

No service connection charges are collected for agricultural services and the service line is erected at the cost of the Board. They are generally considered as essential consumers and new connections for agricultural purposes are treated on a priority basis as they help to increase the food production.

Based on representations made by agriculturists, the State Electricity Board has offered many concessions.

During the year supply was extended to 17,073 agricultural pumpsets by the Board and 516 by the licensees.

Details of agricultural services with their connected load in the different areas at the end of 1958-59 are given below :—

Name of system.	Number of services connected in 1958-59.	Connected load in K.W.	Total number of services at the end of the year 1958-59.	Total connected load in K.W. at the end of 1958-59.
(1)	(2)	(3)	(4)	(5)
1 Pykara	2,660	10,433	15,935	67,471
2 Mettur	5,324	19,833	20,228	81,036
3 Papanasam	2,007	6,123	9,406	29,540
4 Madras	2,720	9,367	11,268	44,172
5 Vellore	4,362	14,299	18,827	67,680
Total	17,073	60,055	75,664	289,899
Licensees	516	1,583	4,109	14,531
Grand total	17,589	61,638	79,773	304,430

Besides lighting and agriculture, electricity is used in rural areas for processing of locally grown agricultural products like rice hulling, groundnut decorticating, oil pressing, sugarcane crushing.

The Central Government are giving an assistance to an extent of Rs. 397.5 lakhs for schemes for expansion of power facilities for increasing employment opportunities. Out of this a sum of Rs. 295.29 lakhs was spent till March 1959.

Development Block Areas.—In the Development Block areas about 216 schemes were completed and 535 schemes were in different stages of progress during the year.

An abstract of the details of these schemes is given below :—

	Community Development Blocks.	Stage I, and Pre-extension Blocks.	Stage II	Total.
(1)	(2)	(3)	(4)	
1 Number of villages benefited ..	185	296		841
2 Schemes completed—				
Number	89	127		216
Estimated cost	Rs. 72,99,923	78,31,056		1,51,30,979
Expenditure incurred	Rs. 22,37,869	26,72,553		49,10,422
3 Schemes in progress—				
Number	195	340		535
Estimated cost	Rs. 1,69,12,440	3,01,51,703		4,70,64,143
Expenditure incurred	Rs. 53,83,326	1,11,36,207		1,70,19,533

The total expenditure in Community Development Schemes is Rs. 2,19,29,955.

Subsidy on Rural Electrification Schemes.—Orders of Government for the subsidy of Rs. 116.29 lakhs applied during 1957-58 to meet the deficit in return on un-remunerative schemes in backward areas are awaited.

A sum of Rs. 2 lakhs was placed at the disposal of this Board by the Government of Madras for the electrification of Harijan Colonies and it was almost spent during the year. About 148 Harijan Colonies were electrified during the year.

SECTION VI—MANUFACTURE AND TESTING ACTIVITIES.

An automatic oscillograph under the Canadian Aid for the 230 K.V. sub-station at Salem is being arranged to obtain permanent records of certain voltages and currents under fault conditions so as to aid in the analysis of system troubles, system planning, etc. In addition a portable cathode ray oscillograph for special investigation tests is proposed to be ordered.

Five numbers 11 K.V. and one number 22 K.V. 'Kyle' Auto Reclosers were ordered and installed for trial purposes in unattended sub-stations and rural spur lines in the grid.

The Board has a testing organization in each of the Operating Systems where all the meters and relays are tested and repaired. Telephone equipments are also tested in these sections. For overhaul of transformers, circuit breakers, etc., a special maintenance organization is in existence in each of the systems.

During the year 128,780 meters and 1,356 relays were tested.

Nineteen thousand nine hundred and seventy-two oil samples received from various sections were tested for dielectric strength.

One thousand and sixty-two rubber gloves and guntlet were pressure tested.

One thousand one hundred and fifty-four new distribution transformers were tested and used on works.

Hot line crew training at Bangalore.—In order to do maintenance works on the live line without interruption of supply, a hot line crew training programme sponsored by the Central Water and Power Commission, New Delhi, with the assistance of the American Technical Co-operation Mission Authorities was started at Bangalore for the first time, for a period of six months with effect from 1st February 1958. This has been availed of by the Board and six members of the Board staff were given training there. A second batch of three employees of the Board was also given training there from September 1958 and they completed the course in February 1959.

Technical Training Scheme at Mettur.—The technical training centre at Mettur Dam was started in the year 1947 in order to give intensive training to Operation Subordinate Service and Work-charged members who are considered suitable for the Foreman type of work of the Electricity Board in batches each consisting of 20 members for a period of six weeks. Consequent on the rapid expansion of rural electrification, the period of training was later reduced to one month from 16th August 1956 and the number of trainees increased from 20 to 40 for each batch. The total number of persons trained during the year 1958-59 was 540 and the total number of persons trained so far (since the starting of the scheme in 1947) was 2,585 as on 31st March 1959.

MANUFACTURE.

Mettur Workshops.—The year 1958-59 was the 24th year of operation of Mettur Workshops.

The total turnover of the workshops for the year was Rs. 51.75 lakhs as per details given below :—

Serial number.	Particulars.	Tonnage.	Matric ton.	Value
(1)	(2)	(3)	(4)	(5)
				RS.
				IN LAHKS.
1	Tower materials	2,244	2,280	24.07
2	Line materials	2,374	2,412	27.68
	Total ..	4,618	4,692	51.75

The production cost per ton of the tower materials is Rs. 1,072 as against Rs. 1,168 for line materials.

Tower manufacture.—During the year transmission line materials were manufactured and supplied for the following 110 K.V. lines :—

- (1) Salem-Attur Section of the Salem-Neyveli 110 K.V. line.
- (2) Periyar-Kayathar-Arumuganeri 110 K.V. line.

Sub-station Extensions.—Structure materials for the following four sub-stations were also supplied :—

- (1) Sandynallah Sub-station.
- (2) Melakallur Sub-station.
- (3) Salem Sub-station Extensions.
- (4) Dalmiapuram Sub-station Extensions.

Eleven numbers 110 K.V. switches were manufactured and supplied to Periyar, Kayathar, Arumuganeri and Acharapakkam Sub-stations.

One 35-ton (35.56 metric ton) transformer truck for Thalaiyuthu Sub-station and one 50-ton 50.8 metric ton transformer truck for Salem were supplied during the year.

Eight hundred numbers fabricated poles with Light M.S. Angles were manufactured for use as L.T. line supports owing to paucity of other supports.

Tower tests.—Seven tests were carried out during the year bringing the total so far done to 69. Of these about 60 types of towers were tested for other State Governments.

Manufacture of line supports.—Owing to the general shortage of steel and the increased production of cement, reinforced cement concrete poles have come to be the main stay. The poles are extensively used at all locations including special locations and angles. These are not, however, used at locations where transport is difficult and costly.

Almost the entire requirements of line supports for rural electrification are met from these poles manufactured by the Board.

These poles are cast at a number of centres all over the State in standard lengths of 24 feet (7.34 metres), 27 feet (8.23 metres) and 30 feet (9.14 metres) for use as L.T. and H.T. line supports. The sizes of R.C.C. poles cast are given below :—

Length of pole.	Metre.	Dimension at butt end.	Dimension at top.	Weight per pole.	Approximate cost/pole.
(1)	(2)	(3)	(4)	(5)	(6)
				LB.	RS.
27 feet	8.23	10"×4½"	25.4×11.4 cm.	4½" square. 11.4 cm.	896 407 61
30 feet	9.14	9"×6"	22.86×15.2 cm.	5"×4½" 12.7×11.4 cm.	1,113 510 91

ADMINISTRATION REPORT OF THE
MADRAS STATE ELECTRICITY BOARD FOR 1958-59

The 24 feet (7.31 metres) poles are made by cutting off the bottom 3 feet or 6 feet (0.92 or 1.83 metres) from the 27 feet and 30 feet (8.23 and 9.14 metres) poles respectively.

A new design of 24 feet (7.31 meters) pole with shorter lengths of 18 feet (5.49 meters) attached with channel iron pieces at top and clamping arrangements for joining the extension piece of length 7 feet 1 inch (2.16 metres) is being tried now.

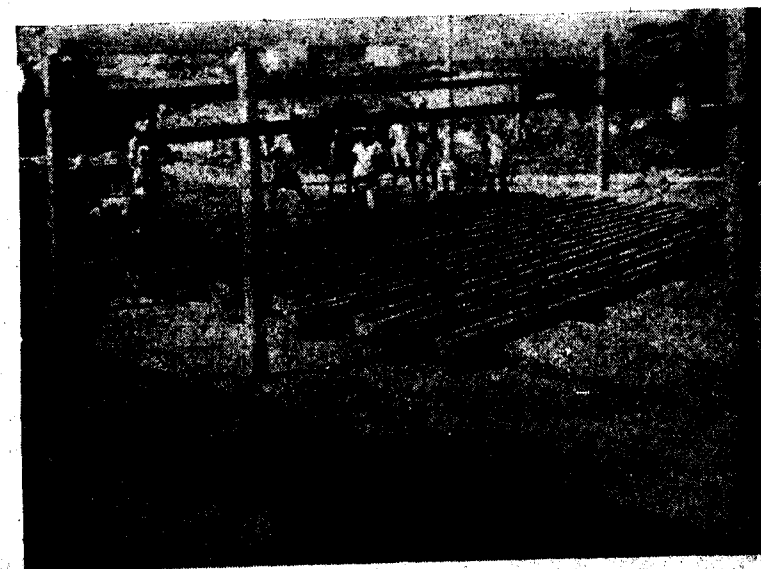

The productivity of each centre varies depending upon the availability of water, size of curing tank, the demand and other conditions. On an average about 150 to 200 poles per month are manufactured at each centre. During 1958-59 about 60,000 numbers poles of different sizes were manufactured in various centres in the Board. The systemwise break up is given below :—

	NO.					
Pykara	...	...	...	...	...	15,000
Mettur	...	...	...	...	...	10,000
Papanasam	...	...	...	...	...	10,000
Madras	...	...	...	...	...	15,000
Vellore	...	...	...	...	...	10,000
Total	...	...	...	...	...	60,000

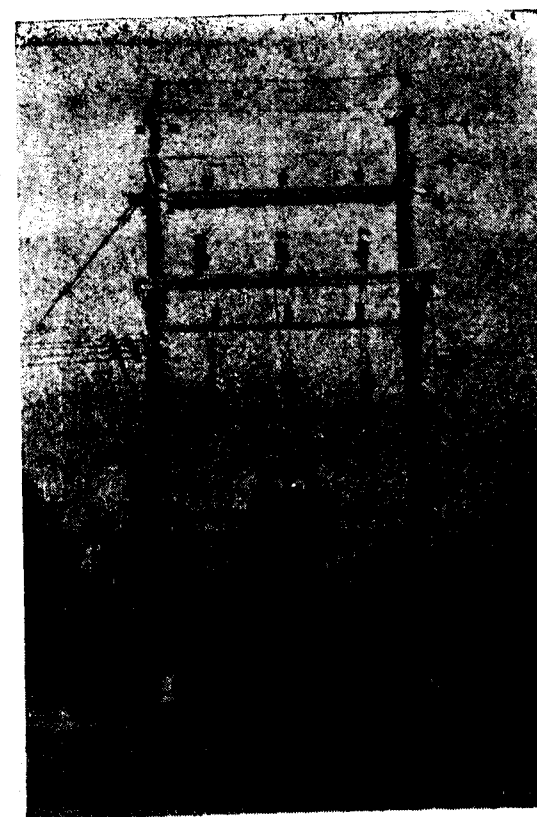

To supplement the regular flow in supply of R.C.C. poles 3,000 numbers poles were ordered on private contractors.

In order to economise the cost of the R.C.C. poles, the coal fly ash available in plenty at Basin Bridge Thermal Station and Samayanallur Power House, is substituted for cement by 30 per cent by weight, and test poles were cast and found to give excellent results.

Wood poles.—During the year 500 numbers teak bluegum and pine wood poles were supplied by the Forest Department and 790 Mangrove poles from the Andamans. In the treatment plants, a total of 5,283 poles were treated during the year.

R.C.C. Pole manufacturing yard; Coimbatore.

KAVALKINAR S. S.
With Palmyrah Supports.

SECTION VII—LICENSEES UNDERTAKING AND
INSPECTORATE.

Electrical Undertaking.—The number of electric Licensee Undertakings at the close of the year was 13. Of these 5 are managed by local bodies and the rest by private companies.

No new licence was granted during the year under review.

Acquisition.—There was no fresh acquisition of electrical undertakings under the provisions of the Madras Electricity Supply Undertakings (Acquisition) Act, 1954. Proposals for payment of final compensation in respect of South Arcot Electrical Undertaking acquired on 1st June 1957 were sent to Government and final compensation was declared by them in G.O. Ms. No. 2595, P.W., dated 26th September 1958. Compensation in respect of Pudukottai enclaves (part of Tiruchirappalli-Srirangam Electrical Undertaking) which was taken over on 1st December 1956 under negotiated purchase terms was also declared and paid by the Madras State Electricity Board.

The following licensees have objected to the amount of final compensation declared for their undertakings and have made representations under section 11 (8) of the Acquisition Act, 1954 :—

- (1) Devakottai.
- (2) Karaikudi.
- (3) Kanadukathan.
- (4) Nattarasankottai.
- (5) Ramachandrapuram.
- (6) Ponnamaravathy.
- (7) Pudukottai Company Electrical Undertaking.
- (8) Pudukottai State.
- (9) South Arcot.

Out of the Local Authority Undertakings taken over in 1951, proposals for payment of additional compensation were sent in respect of Kancheepuram, Dharapuram, Dindigul and Udumalpet Electrical Undertakings. Additional compensation was also declared in respect of Tiruppur Municipal Electrical Undertaking during the year under review.

The number of electrical accidents both in the licensees' and Madras State Electricity Board's areas during the year under review was 354 out of which 140 proved fatal involving the death of 152 persons. Details of the accidents are given in Appendix F-7.

Arbitration.—Regarding arbitration proceedings between the Government and the South Madras Electric Supply Corporation, Limited, in connection with the vesting of land and buildings at Kattuparamakudi in East Ramanathapuram Licensees' area, the licensee has filed a petition in the Madras High Court challenging the award of the arbitrator. Government have ordered that Madras State Electricity Board should contest the case with reference to section 60 of the Electricity (Supply) Act. The Legal Adviser of the Madras State Electricity Board is conducting the case on behalf of the Board. The licensee has moved for a compromise in the matter and the terms of compromise are now under the consideration of the Board.

Loans.—No fresh loans were granted to private licensees during the year.

The Central Government has decided to give financial assistance to private licensees for rural development in the balance period of two years of the Second Five-Year Plan and accordingly invited applications from the State Government. This was circularised to all company licensees in this State and the applications submitted by them were scrutinised and forwarded to Government through the Board. The amounts of loan applied for by the various licensees in this State are given below :—

	Rs.
1 (a) Tiruchirappalli-Sriangam	64,47,300
(b) Mayavaram-Mannargudi-Tiruvarur	16,38,700
2 Vellore	10,00,000
3 Kumbakonam	5,00,000
4 Salem-Erode	24,05,825
5 Tirunelveli-Tuticorin	17,47,112
Total ..	1,37,38,937

So far no loan has been granted to any licensee by the Government.

During the year two licensees, viz., (i) Kumbakonam Electric Supply Company, Limited, and (ii) Nagapattinam Electricity Distribution Company, Limited, have applied for permission under section 9 (2) of the Indian Electricity Act, 1910 to obtain loans of Rs. 2.0 and Rs. 2.5 lakhs respectively from the Madras Industrial Investment Corporation, Limited, and the matter is under consideration.

The permission granted to Messrs. South Madras Electric Supply Corporation, Limited, for obtaining loan from any one of the scheduled banks in this State for Rs. 7 lakhs on the security of licensees' stores was extended up to end of 31st March 1960.

The loan applied for Rs. 20 lakhs and 15 lakhs respectively by Messrs. Salem-Erode Electricity Distribution Co., Limited, and Tirunelveli-Tuticorin Electric Supply Corporation, from the Central Bank of India by mortgaging the assets of the undertaking are under consideration.

No loans from special rates have been sanctioned by the Board.

The Chief Accountant (Audit) and the staff appointed therefor completed the audit of 10 accounts in respect of six electric licensees. Besides this, the audit of two accounts in respect of two licensees was in progress.

The total number of inspections made by the Madras State Electricity Board Staff on behalf of the Government are as follows :—

Nem sign.	H.T. installation.	Cinemas.		
		Permanent.	Temporary.	Total.
42	41	109	569	678

Tariffs of electric licensees.—The hydro-electric energy surcharge and special rates for lavish illumination were continued to be levied during the year as usual in respect of licensees' areas. Consequent on the formation of the State Electricity Board the surcharge order has been re-issued as Madras Electricity Supply (Madras State Electricity Board and Licensees' Areas), Surcharge Order, 1958, so as to authorize the State Electricity Board to levy the surcharge.

In addition to the licensees who converted their tariff into decimal coinage last year, the following licensees have adopted the system of decimal coinage for their tariffs during the current year :—

- (1) Messrs. Salem-Erode Electricity Distribution Company, Limited.
- (2) Messrs. Tirunelveli-Tuticorin Electric Supply Corporation.
- (3) Messrs. Kumbakonam Electric Supply Corporation.
- (4) Messrs. Nagapattinam Electric Supply Company.

The South Madras Electric Supply Corporation and Tirunelveli-Tuticorin Electric Supply Co., Ltd., have revised their tariffs, showing an increase in rates. Pollachi Municipal Electric Licensee has decreased the rates for lighting. Consequent on the conversion of the rates into decimal coinage, there has been slight increase in the rates of Salem-Erode Electricity Distribution Co., Ltd. The Coimbatore Municipal Electrical licensee has increased the rates for fluorescent lamps under the tariff for bazaar lamps and factory lighting.

SECTION VIII—PERSONNEL ADMINISTRATION.

The Board continued to maintain cordial relationship with its staff in general.

The Board had Sri S. K. Chettur, I.C. S. (Secretary to Government, Home Department) as the Chairman, Sri T. K. Palaniappan, Director of Industries and Commerce, and Sri T. A. Verghese, I.C.S., Secretary to Government, Finance Department as ex-officio Members and Sri V. P. Appadurai, Chief Engineer for Electricity, as Technical Member. After the resignation of Sri A. Balakrishnan, Retired Accountant-General, Sri K. R. Rama Iyer, Retired Accountant-General was appointed as Accounts member under section 5 of the Electricity Supply Act.

There was expansion in the Board organisation during the year owing to the increased activities.

All the civil works at Periyar Power Station were completed and the two Civil Divisions attached to that Circle were closed and the staff attached to those Divisions were transferred to the works relating to the Sandynallah and Upper Bhavani Dam.

For the execution of the Sandynallah Scheme and the Upper Bhavani Dam works, a new Circle with three Divisions was formed and this Circle is in charge of three Dams, two tunnels and connected works.

With a view to Commission Power House No. 1 quickly and to accelerate the works on Plant 2 of the Kundah Hydro-Electric Scheme, two erection divisions were formed for attending to the erection of Turbines, Generators, outdoor yard and switchgear in the two Power Houses of Kundah Hydro-Electric Scheme.

A special cadre post of Executive Engineer/Civil was created to look after the Transmissions Line Construction works of Kundah Hydro-Electric Scheme with headquarters at Gobi.

For the Operation and Maintenance of the Periyar Power House, the first unit of which was commissioned on 12th October 1958, a Operation and Maintenance Division with three subdivisions Electrical, Mechanical and Civil was sanctioned. In order to enable the Chief Operation Engineer (North) to concentrate more on the generation of power consequent on the addition of Periyar Power House, the administrative control of the Madras (Distribution) System was transferred to the control of the Chief Operation Engineer/South from September/58.

To cope with the increased Operation and Maintenance work of the Tiruchirappalli and Udumalpet divisions, two divisions were sanctioned and formed with headquarters at Mettur Dam and Theni respectively.

The headquarters of the Koilpatti Operation and Maintenance division was shifted to Virudhunagar. The transformer erection division was shifted to Coimbatore from Tiruchirappalli. The Commercial Division at Cuddalore was shifted to Vellore.

To push up the construction works in the South Arcot area, one of the construction divisions was transferred from the Madras Electricity System to Vellore Electricity System with headquarters at Villupuram.

In order to give relief to the Pykara Electricity System, which was having a heavy jurisdiction, the Tiruppur division was transferred to the control of the Mettur Electricity System from 1st December 1958.

Pursuant to the policy of decentralization of the accounting work and to locate the revenue units as near the consumers as possible, one of the revenue units was shifted from Vellore to Tiruvannamalai.

Due to decrease of construction works in Pykara Electricity System, one Construction division was suppressed with effect from 1st July 1958.

Consequent on completion of a major part of the Madras Plant Extension works, one Electrical division sanctioned for construction was wound up from 1st October 1958.

An organization chart of the Board as on 31st March 1959 is given on the opposite page.

Recruitment.—Consequent on the formation of the Madras State Electricity Board with effect from 1st July 1957 and as per Board's Proceedings Ms. No. 131, dated 11th September 1957, the recruitment to the posts of Supervisors and Junior Engineers in Electrical, Mechanical and Civil Branches, Lower Division Clerks, Typists, Steno-typist and Store-keepers, III Grade was conducted by the Selection Board consisting of Sri T. K. Palaniappan, Director of Industries and Commerce, and Sri V. P. Appadurai, Chief Engineer for Electricity, and ex-officio members of the Madras State Electricity Board.

1. *Technical.*—For about 500 vacancies advertised 549 applications were received and of those 434 candidates who were qualified were called for interview. The interview was conducted at Madras during March 1958 and 184 candidates were selected for the posts of Junior Engineers (Electrical), Junior Engineers (Mechanical), Supervisors (Civil) including Junior Engineers (Civil), Supervisors (Electrical) II Grade and Supervisors (Mechanical) II Grade based on the results of a Viva Voce Test.

2. *Ministerial.*—For 500 vacancies advertised, 7,885 applications were received and of these about 7,000 candidates were called for interview. The interview was conducted at Madras, Madurai, Tiruchirappalli and Coimbatore and about 1,000 candidates were selected for the posts of Lower Division Clerks, Typists, Steno-typists and Store-keepers, II grade based on the results of a Viva Voce Test.

Improvement in Service conditions.—The scales of pay of Assistant Engineers and Junior Engineers were revised as follows from 1st July 1958 :—

Assistant Engineers : Rs. 275—25—500.

Junior Engineers : Rs. 180—10—270.

In February 1958 the Workers' Union gave notice of strike and the Commissioner of Labour took up conciliation proceedings. After the failure of the Conciliation Proceedings, Government of Madras in G.O. Ms. No. 1208, Industries, Labour and Co-operation, dated 28th March 1958 constituted a Negotiating Committee to conduct negotiations on the demands of the Electricity Workers and to settle amicably the dispute between the workers and the Madras State Electricity Board in regard to the demands.

The Committee comprised—

Sri M. V. Harihara Aiyar, Chairman	} Representatives of the Board.
Sri V. P. Appadurai, Chief Engineer for Electricity ..	
Sri N. R. Narasimha Murthy, Chief Operation Engineer (South).	
On the retirement of Sri N. R. N. Murthy, Sri A. R. Narayana Rao, Chief Operation Engineer (North) joined the Committee and on his retirement Sri V. K. Govinda Menon, Chief Operation Engineer (North) joined the Committee.	
Sri T. V. Natesa Mudaliar, Secretary to Board ..	} Representatives of the Union.
Sri V. G. Row	
Sri S. C. Krishnan	
Sri M. K. Manickam	

The Committee was required to examine first and send an interim report containing its recommendations on the quantum of interim relief, if any, to be granted to the workers. Accordingly, the Committee forwarded an interim report, dated 28th April 1958. The Board considered the recommendations in the report and sanctioned in its proceedings Ms. No. 592, dated 4th June 1958, the grant of an interim relief of Rs. 4 per mensem to each of the Workers, Clerks, Accountants, peons, etc., excluding Junior Engineers and Supervisors with over one year of service as on 26th April 1958 and drawing pay at Rs. 200 per mensem or less, for a period of six months with effect from 1st March 1958. The interim relief was subsequently continued from 1st September to 31st December 1958 in Board's Proceedings Ms. No. 1064, dated 30th September 1958; No. 1171, dated 31st October 1958; No. 1262, dated 21st November 1958 and No. 1433, dated 31st December 1958. The Chairman of the Negotiating Committee forwarded the final report of the Committee on the demands on 15th October 1958. The Madras State Electricity Board after careful consideration of the report was unable to accept the majority of the conclusions of the Chairman of the Negotiating Committee expressed therein as the whole report placed a heavy financial burden which was entirely beyond the Board's resources. The Board, however, agreed to discuss the important issues afresh directly with the representatives of the workers and arrive at conclusions capable of implementation by it. Accordingly, the Chairman and Members of the Madras State Electricity Board held a series of detailed discussion with the President and General Secretary of the Tamilnad Electricity Workers' Federation. After negotiations lasting over two months, a settlement was secured and on 3rd February 1959, both the parties signed an agreement incorporating the terms of the settlement.

Revision of scales of pay of all the personnel drawing a monthly of up to Rs. 500 with effect from 1st January 1959 was approved by the Board, as detailed in Appendix T.

Dearness Allowance.—Increase of dearness allowance at a flat rate of Rs. 5 per mensem has been allowed with effect from 1st January 1959 to all employees, provided the total of the present pay and dearness allowance of the employee concerned does not exceed Rs. 500.

Night shift allowance.—Workers who work for four hours and more between 10 p.m. on any day and 6 a.m. the next day have been given the allowance at the following rates—

- | | |
|--|---|
| (i) Workers on a daily wage of less than Rs. 3 (Rupees three). | } 25 nP. (Twenty-five Paise only) per day. |
| (ii) Workers on a daily wage of Rs. 3 (Rupees three) and more. | |
| | } 37 nP. (Thirty-seven Paise only) per day. |
| | |

Permanency of Nominal Muster Roll workers.—About 5,000 Nominal Muster Roll workers are to be absorbed into the Operation Subordinate Service before the end of 1959 in the order of seniority and subject to suitability, and a further 2,000 workers in the succeeding two years.

Rent-free quarters and free electricity.—The Operation Subordinate Service Staff now occupying Board quarters and who were proposed to be completely relieved of the liability to pay rent and electricity charges on a phased programme from 11th September 1960 have been given that relief with effect from 16th February 1959.

Free uniforms.—Workers who have to come into contact with public and who have to exercise authority over them are to be supplied with free uniforms as admissible to similar categories of employees who are given free uniforms.

National and Festival Holidays.—Nominal Muster Roll workers with four years of service and above have been allowed the holidays allowed to the Operation Subordinate Service Staff.

Hospital facilities.—The facilities are to be provided wherever necessary and possible.

Allotment of a room at No. 157, Mount Road for Madras Electricity Workers' Union.—A room has been allotted subject to the condition that no meetings of the Union are held in the room, that no Union flags or posters are exhibited and that if any condition is contravened, the allotment will be cancelled after due notice.

Collection of Union Subscription in Pay Office at No. 157, Mount Road.—The collection of subscription has been permitted on condition that the concession will be withdrawn if there is any trouble.

Uniform travelling allowance and leave facilities.—Nominal Muster Roll workers with 4 years of service and above have been given the same rates of travelling allowance as are allowed to the Operation Subordinate Service Staff.

Postings and transfers.—(1) N. R. Narasimhamurthy, Chief Operation Engineer/South, retired from service on 7th April 1958 forenoon and availed the refused leave for four months from 7th April 1958 forenoon.

(2) Sri V. K. Govinda Menon, Superintending Engineer, Mettur Electricity System was promoted and posted as Chief Operation Engineer/South. He assumed the charge on 25th April 1958.

(3) Sri T. Krishnaswamy, Superintending Engineer (Electrical) (on leave) retired from service on 20th May 1958.

(4) Sri S. Padmanabhan, Divisional Electrical Engineer was promoted as Superintending Engineer, Mettur Electricity System from 17th April 1958.

(5) Sri A. R. Narayana Rao, Chief Operation Engineer/North, retired from service on 17th July 1958 forenoon after extension of service for one month, and he availed the refused leave for 103 days from 17th July 1958 forenoon.

(6) Sri V. K. Govinda Menon was transferred as Chief Operation Engineer/North, from 17th July 1958 forenoon.

(7) Sri C. E. Prager, Superintending Engineer, was promoted as Chief Operation Engineer/South, from 17th July 1958 forenoon.

(8) Sri S. N. Ramachandra Rao, Superintending Engineer, Pykara Electricity System, proceeded on leave on average pay for four months from 1st August 1958 forenoon.

(9) Sri G. S. Rama Iyer, Superintending Engineer, Papanasam Electricity System, was transferred as Superintending Engineer (Distribution), Madras Electricity System, Madras, from 17th July 1958 forenoon.

(10) Sri T. N. Rajagopal, Superintending Engineer (Generation), Hydro Areas, Erode, was transferred as Superintending Engineer, Pykara Electricity System, Coimbatore, from 1st August 1958 forenoon.

(11) Sri N. Nagappa Nayak, Divisional Electrical Engineer, was promoted as Superintending Engineer, Papanasam Electricity System, from 15th July 1958 forenoon.

(12) Sri S. V. Chellam, Divisional Electrical Engineer, was promoted as Superintending Engineer (Generation), Hydro Areas, Erode, from 26th July 1958 forenoon. He retired from service on 15th October 1958.

(13) Sri K. Srinivasaraghavan, Divisional Electrical Engineer, was promoted as Superintending Engineer (Generation), Hydro Areas, Erode, from 8th November 1958. He was reverted as Divisional Electrical Engineer on 8th December 1958 consequent on the return from leave of Sri S. N. Ramachandra Rao.

(14) On expiry of leave on average pay for four months, Sri S. N. Ramachandra Rao was posted as Superintending Engineer (Generation), Hydro Areas, Erode, from 8th December 1958.

Deputation—Sri V. P. Appadurai, Chief Engineer for Electricity, proceeded on deputation to Canada on 26th October 1958 afternoon for inspection of equipments for the Kundah Hydro-Electric Scheme and returned from deputation on 26th November 1958 forenoon and assumed charge on the same date.

Sri V. K. Govinda Menon, Chief Operation Engineer, North, held additional charge of the post of Chief Engineer (Electricity) during the above period.

Foreign training.—On completion of the training under Technical Co-operation Mission Programme in U.S.A., Sri V. Visvanathan returned on 15th September 1958. During his return trip from U.S.A. he visited British Electricity Authority Power Stations, the Atomic Power Station at Calder Hall and other works of manufacturers of Electricity Machinery in United Kingdom and the Power Stations in France, Germany, Sweden and Switzerland. He assumed charge as Executive Engineer (Electrical and Mechanical) Division, Madras, on 22nd September 1958 forenoon.

SECTION IX—PROGRAMME FOR 1959-60.

Some of the important works programmed for the year 1959-60 are discussed below :—

PROJECTS.

1. *Periyar Hydro-Electric Scheme*.—The third 35 M.W. unit is programmed to be commissioned during May 1959. An additional 110 K.V. breaker will be installed at the outdoor yard for the control of the Periyar-Kayathar 110 K.V. feeder.

The Tanjore-Pudukkottai Section of the Tanjore-Sivaganga 66 K.V. line will be completed thus completing the whole line.

2. *Kundah Hydro-Electric Scheme*.—Thirty-five per cent of building masonry will be completed at Emerald and Avalanche dams to store enough water to run the machines at Plant 1. The inter-connecting tunnel, tunnel No. 1 from Avalanche dam to surge shaft, both the penstocks of Plant 1 will all be completed to commission the two 20 M.W. sets at Plant 1.

The Kundapalem forebay dam, tunnel No. 2 and two sets of penstocks out of the four will be completed in all respects and the balance of the two penstock lines and the generating sets in Plant 2 will be in an advanced stage of progress.

Construction of masonry at the Upper Bhavani Dam and excavation of the tunnel that will connect the Upper Bhavani Reservoir to Avalanche-Emerald Reservoir will be under progress.

The Kundah I—Kundah II—Thudialur 110 K.V. D.C. line and Kundah II—Salem—Villivakkam 230 K.V. S.C. line will be completed to convey the power generated at Kundah to the grid.

3. *Sandynallah Reservoir Scheme*.—Construction of the dam and the excavation of the tunnel to divert the water stored to the Pykara basin will be under progress.

Transmission lines and sub-stations.—The following transmission lines will be completed during the year :—

Salem-Attur-Neyveli 110 K.V. line (94 miles) (151 kilometers).

Neyveli-Villupuram 110 K.V. line (24 miles) (38.6 kilometers).

Periyar-Kayathar-Arumuganeri 110 K.V. line (110 miles) (177 kilometers).

Nellithorai-Mettupalayam 110 K.V. line (8 miles) (12.87 kilometers).

Spur line to Tiruvallur (110 K.V.) (2 miles) (3.2 kilometers).

Spur line to Mettur sub-station (110 K.V.) (2 miles) (3.2 kilometers).

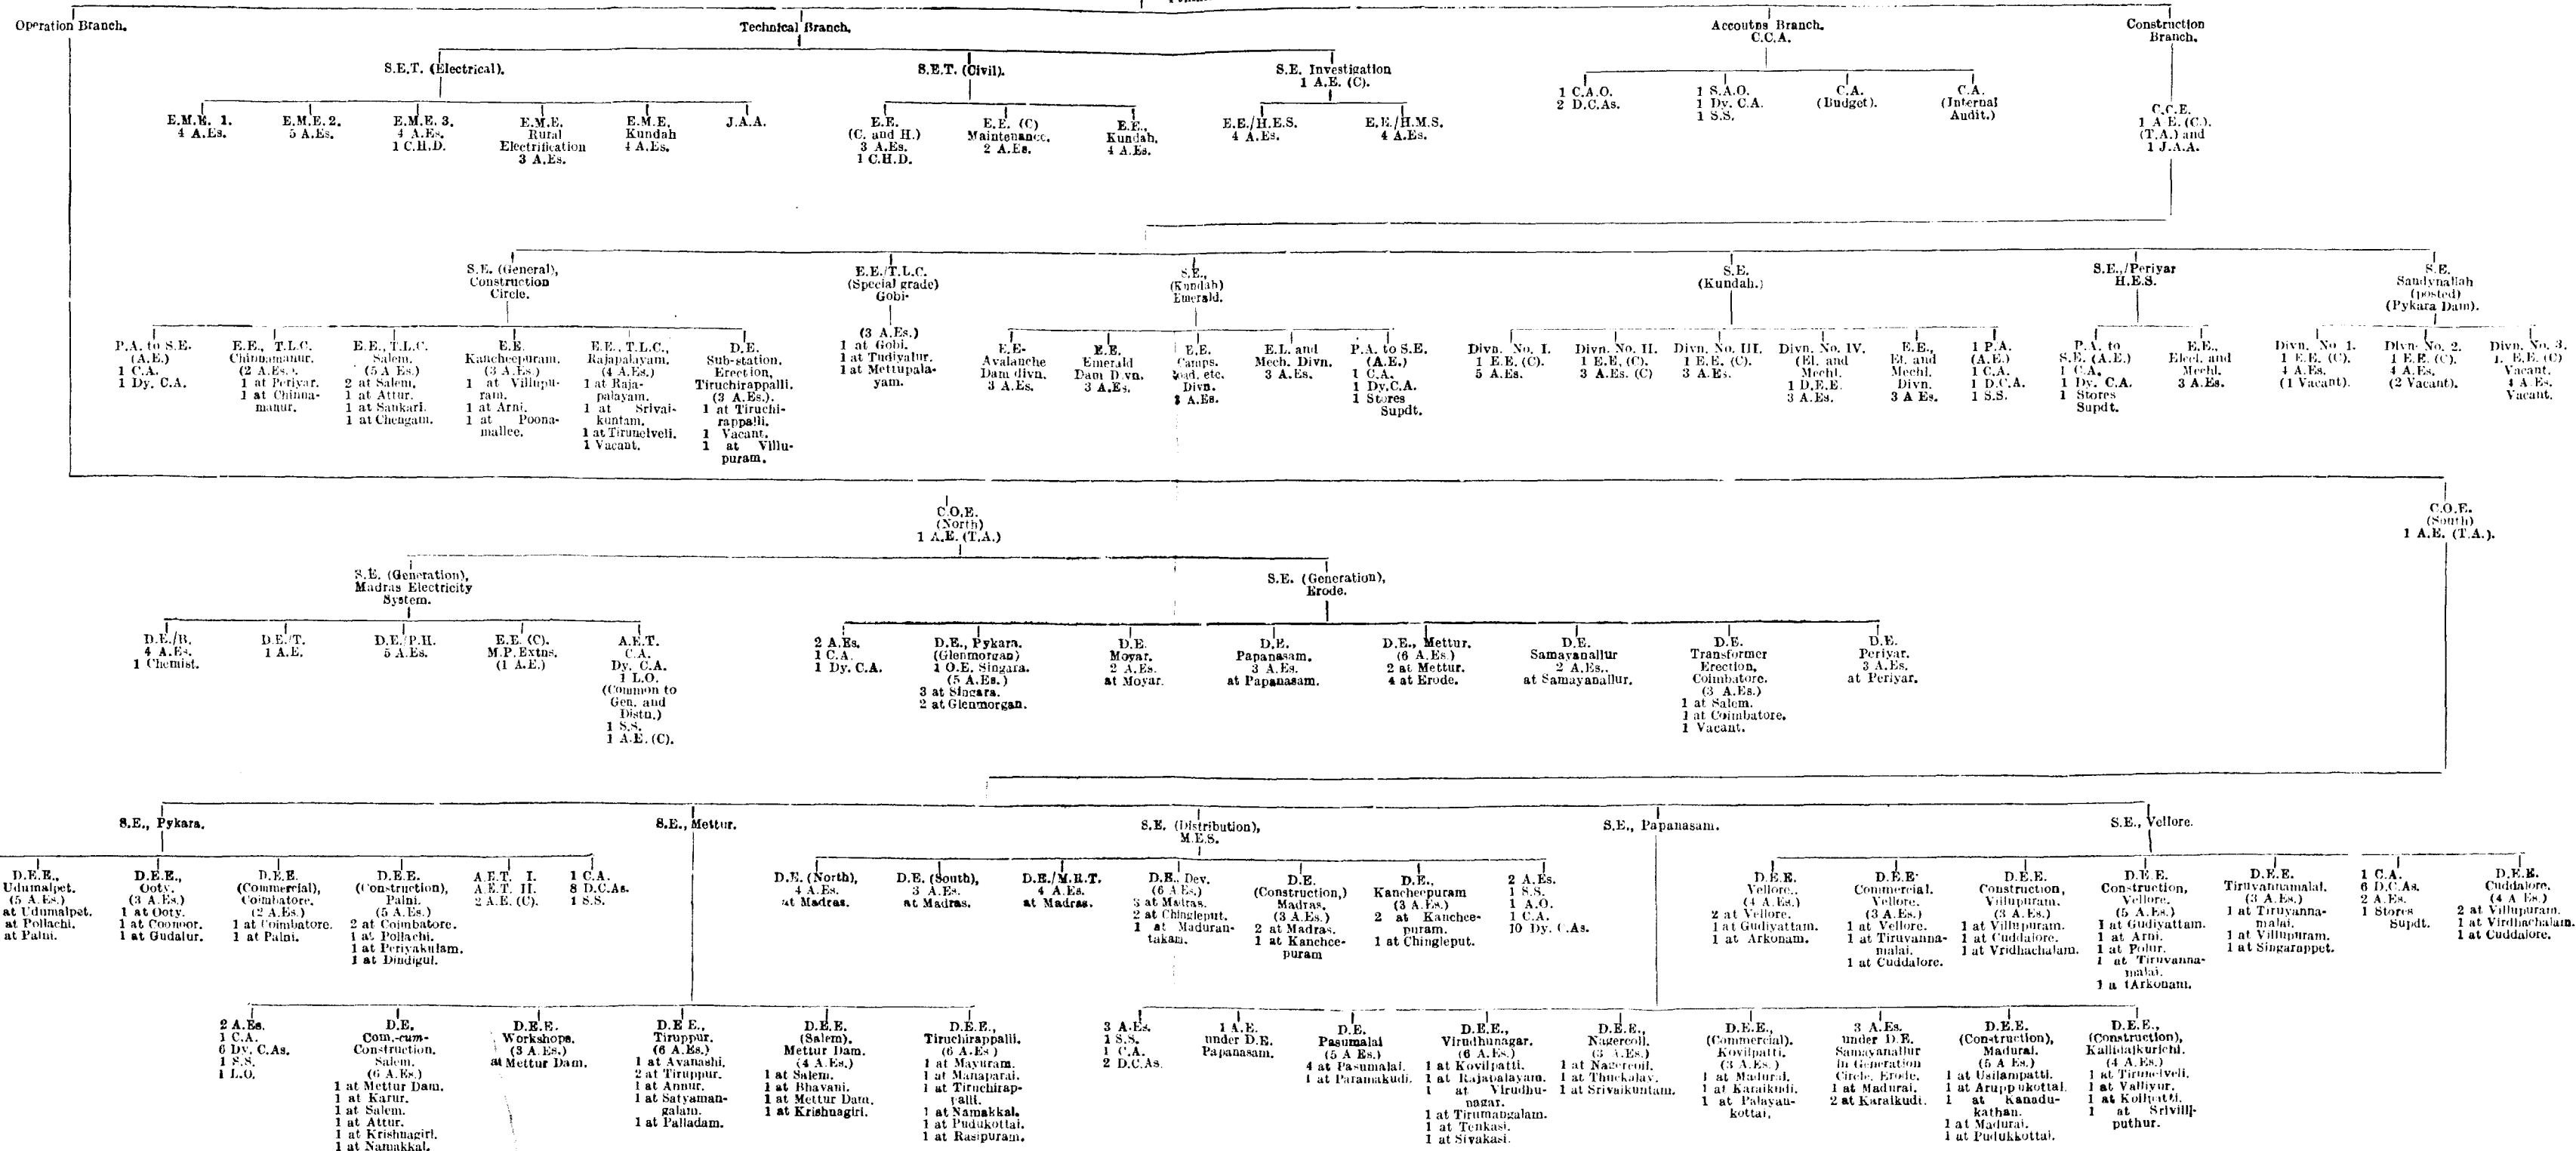

Melakallur-Thucklay 66 K.V. line (54 miles) (86.8 kilometers).

Koilpatti-Eppodumvenram 66 K.V. line (20 miles) (32.18 kilometers).

Villupuram-Thiyagadurgam 66 K.V. line (30 miles) (48.27 kilometers).

Organisation chart as on 31st March 1959.
THE MADRAS STATE ELECTRICITY BOARD.

Chief Engineer for Electricity.
A.E. (T.A.).
1 S.A.A.
4 J.A.A.

ABBREVIATIONS.

C.C.E. = Chief Construction Engineer.
C.O.E. (N) = Chief Operation Engineer (North).
C.O.E. (S) = Chief Operation Engineer (South).
S.E. = Superintending Engineer.
D.E.E. = Divisional Electrical Engineer.
E.E. = Executive Engineer.
E.M.E. = Executive Engineer (Electrical and Mechanical).
A.E. = Assistant Engineer.

T.A. = Technical Assistant.
P.A. = Personal Assistant.
A.O. = Accounts Officer.
C.A. = Chief Accountant.
D.C.A. = Deputy Chief Accountant.
S.A.A. = Senior Assistant, (Administration).
J.A.A. = Junior Assistant, (Administration).
Gen. = Generation.

Distn. = Distribution.
Tech. = Technical.
T.L.C. = Transmission Line Construction.
P.H.E.S. = Periyar Hydro-Electric Scheme.
M.E.S. = Madras Electricity System.
L.O. = Labour Officer.
H.E.S. = Hydro-Electric Surveys.

H.M.S. = Hydro-Metric Surveys.
C. & H. = Civil and Hydraulic.
C.H.D. = Chief Head Draftsman.
A.G.S. = Assistant Generation Superintendent.
S.A.O. = Stores Accounts Officer.
C.A.O. = Construction Accounts Officer.
Acqn. = Acquisition.
O.E. = Operation Engineer.

Divn. = Division.
Com.-cum-Constn. = Commercial-cum-Construction.
M.P. Extns. = Madras Plant Extensions.
M.B.T. = Meter & Relay Testing.
Opern. = Operation.
D.E.R. = Divisional Engineer Roller.
D.E.T. = Divisional Engineer Turbine.
D.E.P.H. = Divisional Engineer Power House.

New 110 K.V. sub-stations at Attur, Neyveli, Arumuganeri, Mettupalayam, Mettur and Tiruvallur and 66 K.V. sub-stations at Nagercoil, Therkur, Natham, Eppodumvenram, Kinnamangalam, Arasaradipady and Thiyagadurgam will be commissioned during the year apart from extensions to a number of existing sub-stations.

Rural Electrification.—Electricity will be extended to yet another 1,000 villages and 15,000 more pumpsets will be connected up to increase the food production.

Improvement works like increase of transformer capacity, increasing the capacity of the line, modernising the protection arrangements to cope up with the increased load, etc., will be done at a number of places required.

Construction of office buildings.—A building for accommodating the Board Office now at Fort St. George will be constructed at 157, Mount Road, Madras-2, and another for accommodating the Office of the Superintending Engineer at Vellore, are also programmed for construction during the year.

APPENDIX A.

LIST OF WORKS UNDERTAKEN

81-A Capital outlay on Electricity Schemes with expenditure to end of March 1959.

PYKARA ELECTRICITY SYSTEM.

Serial number.	Name of the scheme.	Expenditure to end of 1957-58.	Expenditure during 1958-59.	Expenditure to end of 1958-59.

Notes.—(1) The denominator gives the cost in annas per unit generated to end of 1957-58 and for 1958-59, the cost is given in n.p.
 (2) The second set of figures under columns (3), (4) and (14) give the cost excluding cost of power purchased from systems.
 (3) Figures under columns (3) and (4) include interest charges.

NOTES.—(1) The denominator gives the percentage of expenditure to gross revenue.
(2) Figures under columns (3) and (4) include interest charges.

APPENDIX C-3.

STATEMENT SHOWING COST OF OPERATION AND MAINTENANCE EXPENSES AS A PERCENTAGE ON REVENUE PER UNIT SOLD.

System.	Operation and maintenance operation subordinate service and establishment expenses as a percentage on revenue per unit sold.														Revenue realised per unit from miscellaneous revenue other than interest on securities.
	(1)	(2) Units sold to consumers (lacks of units).	Operation and Maintenance.					Operation Subordinate Service.					(13) Cost per unit sold including interest.	(14)	
			Expenses in lacks of Rupees.	Cost, anna per unit sold.	Percentage of cost to revenue per unit sold.	Expenses in lacks of Rupees.	Cost, anna per unit sold.	Percentage of cost to revenue per unit sold.	Expenses in lacks of Rupees.	Cost, anna per unit sold.	Percentage of cost to revenue per unit sold.

LIST OF ELECTRIC SUPPLY UNDERTAKINGS IN SERVICE ON 31ST MARCH 1959.

(a) Local authorities—

1. Coimbatore.
2. Karur.
3. Adurai.
4. Pollachi.
5. Thanjavur.

(b) Company or licensees—

1. Kumbakonam.
2. Mayavaram—Mannargudi—Tiruvarur.
3. Nagapattinam.
4. Shencottah.
5. Salem—Erode.
6. Tiruchirappalli—Srirangam.
7. Tirunelveli—Tuticorin.
8. Vellore.

APPENDIX D-1.

LICENSEES UNDER CONSTRUCTION—Nil.

APPENDIX D-2.

NEW APPLICATIONS FOR LICENCES RECEIVED—Nil.

APPENDIX D-3.

LIST OF UNDERTAKINGS PUT INTO SERVICE—Nil.

APPENDIX D-4.

LIST OF LICENSEES WHO REDUCED THEIR TARIFFS.
Pollachi Municipal Electrical Undertaking.

APPENDIX D-5.

LIST OF LICENSEES WHO INCREASED THEIR TARIFFS.

- 1 South Madras Electric Supply Corporation, Limited.
- 2 Tirunelveli-Tuticorin Electric Supply Company, Limited.
- 3 Coimbatore Municipal Electrical Undertaking.

APPENDIX D-6.

**LIST OF LICENSEES CHARGING MORE THAN 6 ANNAS PER UNIT
FOR LIGHTING AND FANS—Nil.**

APPENDIX E.

TOTAL CAPACITIES OF PLANTS INSTALLED IN ELECTRIC SUPPLY UNDERTAKINGS IN SERVICE IN THE STATE.

Serial number and name of undertakings.	Total installed capacity of plant in generating station.	Details of plant installed.	Type of prime mover.	Voltage of generation.
(1)	(2)	(3)	(4)	(5)
<i>I. Licensee undertakings—Nil.</i>

APPENDIX I.

SUB-STATIONS AND DISTRIBUTION TRANSFORMERS.

Abstract.

I. SUB-STATIONS.

System.	Number of E.H.T. sub-stations.	Capacity in K.V.A.	Number of H.T. sub-stations.	Capacity in K.V.A.
1 Pykara	11	171,250	1	1,250
2 Mettur	17	176,000	6	12,000
3 Papanasam	19	195,500	13	34,600
4 Vellore	11	117,250	16	32,500
5 Madras	3	80,000	35	98,850
Total	61	740,000	71	179,200

Rotary sub-stations 6 with capacity of 13,750 K.W.

Rectifier sub-stations 4 with capacity of 2,750 K.W.

The total number of E.H.T. and H.T. sub-stations in the departmental area is only 127 as 2 stations in Papanasam and 3 stations in Madras are accounted for both under E.H.T. and H.T. sub-stations.

II. DISTRIBUTION TRANSFORMERS.

System.	Energised during 1958-59.		Total as on 31st March 1959.	
	Number.	Capacity in K.V.A.	Number.	Capacity in K.V.A.
1 Pykara	182	14,038	1,543	108,536
2 Mettur	304	23,800	1,688	119,800
3 Papanasam	134	9,240	1,312	78,384
4 Vellore	267	23,360	1,610	117,650
5 Madras	289	20,640	1,665	151,368
Departmental Total	1,176	91,078	7,818	575,738
Licencees	48	4,382	1,050	87,282
Grand total	1,224	95,460	8,877	663,020

1. PYKARA ELECTRICITY SYSTEM.

I. INSTALLED CAPACITIES OF TRANSFORMERS.

Name of Station.	Number.	Voltage ratio.	Capacity in K.V.A.
1 Pykara Power House	3 × 7,810 KVA.	11/66-110 KV.	23,430
	2 × 12,500 KVA.	11/110 KV.	25,000
	2 × 16,000 KVA.	11/110 KV.	32,000
	3 × 5,000 KVA.	11/66 KV.	15,000
Total			95,430
	2 × 2,000 KVA.	11/11-22 KV.	4,000
	1 × 1,000 KVA.	11/11-22 KV.	1,000
Total			5,000

APPENDIX I—cont.

1. PYKARA ELECTRICITY SYSTEM—cont.

II. EXTRA HIGH TENSION SUB-STATIONS 66 KV. AND 110 KV.

Name of station.	Number.	Voltage ratio.	Capacity in K.V.A.	Aggregate capacity in K.V.A.
1 Coimbatore R.S.	2	110/66 K.V.	12,000	24,000
	2	Do.	6,000	12,000
	5	110-66/22-11 KV.	5,000	25,000
	3	66/22-11 KV.	10,000	30,000

APPENDIX N.

PERCENTAGE OF PROGRESS ON CONSTRUCTION WORKS IN 1958-59.

Name of scheme.	Budget Estimate, 1958-59.	Actuals.	Percentage.	Remarks.
(IN LAKHS OF RUPEES.)				
1 Coimbatore-Madukarai Extension.	0.59	3.56	603	Appropriation increased in F.M.G. 1958-59.
2 Nellitturai-Metturpala- yam.	..	1.03	..	Supplementary appropriation obtained.
3 Salem-Namakkal 110 KV. extension.	0.21	0.37	176	Do.
4 Erode-Tiruchirappalli III Circuit 110 KV. line.	3.00	— 2.71	—89	Surrendered during F.M.G. 1958-59 and credit provision made.
5 Singarpet-Villupuram 110 KV. Line Exten- sion.	2.23	0.31	14	Surrendered during F.M.G. 1958-59 and further adjust- ments expected in supple- mental accounts.
6 Neiveli-Villupuram 110 KV. line.	3.76	5.89	157	The provision increased suitably in F.M.G. 1958-59.
7 Neiveli-Transmission Scheme.	32.55	56.44	173	Increased appropriation obtained in F.M.G. 1958-59.
8 Kariamangalam S.S. . . . (token)	..	0.19	..	Provision modified in F.M.G. 1958-59.
9 Mellakkallur-Nagercoil- Thukalay.	..	12.94	..	Appropriation obtained in Supplemental Grant.
10 Kayathar-Arumuganeri.	..	56.43	..	Necessary provision obtained in Supplemental Grant for 1958-59.
11 Periyar Hydro-Electric Scheme.	73.54	201.97	275	Appropriation suitably increased.
12 Kundah Hydro-Electric Scheme.	588.52	583.58	99	Provision kept up.

APPENDIX O.

LINE AND TRANSFORMER LOSS (IN MILLIONS OF UNITS), 1958-59.

Name of systems.	Generation.	Station consumption.	Purchase.		Total power available for sale.	Sale.		Total.	Loss.	
			From other systems.	From other sources.		To other systems.	Within the system.		K.W.H. (6-9).	Per centage of loss.
