2. The Senior Translator to Government is requested to furnish the Controller of Stationery and Printing a Tamil translation of the notifications.

(By order of the Governor)

J. SIVANANDAM,
Secretary to Government.

To the Board of Revenue (Land Revenue).

„ Collector of Tirunelveli.

„ Controller of Stationery and Printing (for publication of the notifications.)

„ Senior Translator to Government-in-charge.

APPENDIX.

NOTIFICATION I.

In exercise of the powers conferred by section 1 of the Madras Irrigation Cess Act, 1865 (Madras Act VII of 1865), the Governor of Madras hereby makes the following rules, the same having been previously published as required under section 3 of the Madras Irrigation Cess (Amendment) Act, 1900 (Madras Act V of 1900) :—

RULES.

1. These rules may be called the Manimuthar Reservoir Irrigation Cess Rules, 1936.

2. They shall come into force from the beginning of fasli 1367.

3. For the purpose of these rules, irrigation with water from the Manimuthar reservoir is said to be regular only when the lands are included in the ayacut of the reservoir.

4. When water is supplied or used from the reservoir for the regular irrigation of dry lands, under its ayacut, water-cess shall be levied at the following rates :—

(i) All lands which are registered as “dry” and which are irrigated from the Tambraparni delta system or under up land tanks fed by the Manimuthar Project canals, will be charged in addition to “dry” assessment, a water cess of Rs. 12.50 NP. per acre in Tambraparni delta area and Rs. 10 per acre in the non-delta area.

NOTE.—For the current irrigation season of fasli 1367, the liability of “dry” lands to pay water-charge shall be restricted to lands which have actually utilized Manimuthar Project water for irrigation.

(ii) When water is raised by lift by man or animal power, the appropriate rate of water-charge will be reduced by one-fourth.

When water is raised by lift by mechanical contrivance, baling remissions at the existing rate will be granted for fasli 1367 only. No such remission will be allowed for subsequent faslis.

(iii) Notwithstanding anything contained in the foregoing rules, the Government reserve the right with or without reasons given, to discontinue either temporarily or permanently the supply of water to any land, to alter the source of supply to any land and to modify the method of charging for water and the rates at their discretion.

5. The usual rates of penalty will be charged for all cases of irregular irrigation.

NOTIFICATION II.

Consequent on the construction of the Manimuthar reservoir, the wet fields registered under the tanks mentioned in the schedule and those in the Tambraparni delta will have the benefit of water from the above reservoir through the main canal and distributaries. The soil classification of the existing wet fields which are now registered under the several recognized sources, will remain unchanged. But in view of the improvements in the conditions of supply brought about by the project, the classification of all the tanks whether in the uplands or in the delta for which Manimuthar water is supplied, will, pending further orders, be treated as Class I sources ; and

(i) The wet assessments on the lands will be determined accordingly.

(ii) When a second wet crop is grown on a single-crop wet land, the usual fasli jasti (as under a Class I source) will be levied, in addition.

The entire ayacut registered under the Perungal channel and under the tanks fed by it and the ayacut under the tanks fed by the Thayarmadam sluice, will also be treated as lands served by a Class I irrigation source, and appropriate assessment will be levied.

SCHEDULE.

Ambasamudram taluk—Left flank of the dam Thayarmadam sluice.
