ADMINISTRATION REPORT OF THE RURAL DEVELOPMENT PROJECTS DEPARTMENT IN MADRAS STATE, 1959-60.

CHAPTER I.

ADMINISTRATION OF THE PROGRAMME.

(i) *Programme and coverage.*—On 31st March 1959, 32 Community Development, 92 stage I, 32 stage II and 20 pre-extension blocks were functioning in the State. During the year, 20 pre-extension blocks entered Stage I. Twenty-six pre-extension blocks were launched during the year for preliminary work connected with Block Survey, preparation of the overall plan, etc. During the year, 20 of the 32 Community Development Blocks entered Stage II, after completing the specified period of three years (or the extended term in certain cases) of intensive development. In this transition, 7 large sized Community Development blocks were bifurcated. In all, there were 26 pre-extension blocks, 112 Stage I, 12 Community Development and 59 Stage II Blocks functioning in the State on 31st March 1960. These 209 blocks were 26,395 square miles in extent and covered 10,163 villages with a (Rural) population of 155 lakhs as will be seen from the table below :—

Serial number.	Item.	Unit.	Total.	Coverage of Community Development Programme in the state.	Percentage of coverage.
(1)	(2)	(3)	(4)	(5)	(6)
1	Area—				
(a)	Total area	Square miles.	50,113	26,395	52.7
(b)	Rural area	„	48,464	26,395	54.5
2	Villages	No.	18,389	10,163	55.3
3	Rural population ..	Lakhs.	227	155	68.8

Details regarding area, villages and population covered by the 209 blocks are given in Annexure I.

(ii) *Administration.*—The Chief Minister of the State was in Charge of the Community Development Programme. The Secretary to Government, Rural Development and Local Administration Department who was also the Development Commissioner of the State was in charge of the implementation of the programme at the State level to co-ordinate the activities of the several heads of departments. He was assisted by the Additional Development

25149

37

Commissioner, who was also the Additional Secretary to Government, in the Rural Development and Local Administration Department. They periodically toured the Community Development areas to inspect the different programmes executed by the Block Development Officers. There were two Deputy Secretaries, one for "Training" and another for "Programme" to assist the Development Commissioner and the Additional Development Commissioner. Besides there were one Under Secretary, two Assistant Secretaries and two Accounts Officers at the State Level. One Assistant Development Commissioner (Training) was in charge of the training programmes except the programme for training the Extension Officers (Statistics).

The Administrative Intelligence Unit set up for dealing with Statistical data regarding progress of achievements under the Community Development Programme continued to function under the control of the Director of Statistics. Since its inception, the Unit has been furnishing statistics for reviewing the progress of Community Development programmes in the State. Preparation of periodical narrative reports, progress statements, etc., for the blocks and for the State as a whole, both for use by the State Government and the Ministry of Community Development, Government of India, formed the major work of the Unit. Similar statements required for the meetings of the Rural Development Board, the State Development Committee and the Informal Consultative Committee were prepared by this Unit.

District level.—At the district level, the Collector functioned as the District Development Officer and this ensured an effective co-ordination of the activities of the various departments in the execution of the Community Development Programme.

Block level.—The Block Development officer was the pivot on which the programme moved. He was assisted by a team of Extension officers and Gramasevaks. The Block Development Officer was also entrusted with the work of conducting a preliminary survey of all villages selected for development during the pre-extension period of one year. Based on the preliminary survey conducted during this period, the Block Development Officers were required to frame the integrated plan of work for the block during the Stage I period. The different Extension Officers were made responsible for executing the programmes pertaining to their departments. The administrative control over these Extension Officers vested with the Block Development Officers, whereas the technical control vested with the District Officers of that technical department for effective discharge of their duties. The key functionary of the programme was the Village Level Worker or the Gramasevak who was given the necessary training to function as a multipurpose worker. His main function was to enlist people's co-operation for the various programmes sponsored by the "extension" agency.

The Block Development Officers continued to be selected by a Standing Committee consisting of the Chief Secretary, the Development Commissioner and the Additional Development Commissioner in view of the very responsible position the Block Development Officers were required to hold.

(iii) *Training Programmes.*—There are 7 Rural Extension Training Centres in this State at the following places for training the required number of Gramasevaks for employment under the Community Development Programme :—

- Rural Extension Training Centre, Aduthurai.
- Rural Extension Training Centre, Pattukkottai.
- Rural Extension Training Centre, Kovilpatti.
- Rural Extension Training Centre, T. Kallupatti.
- Rural Extension Training Centre, Bhavanisagar.
- Rural Extension Training Centre, S.V. Nagaram.
- Rural Extension Training Centre, Krishnagiri.

During 1959-60, 456 Gramasevaks received training. To the Rural Extension Training centres at Bhavanisagar, T. Kallupatti and S.V. Nagaram, a Home Science Wing is also attached for training Gramasevikas in Home Science practices. During 1959-60 the capacity of the Home Science Wings at Bhavanisagar and T. Kallupatti was increased from 25 to 40. The Wing at S.V. Nagaram was started only during 1959-60 with a capacity to train 10 candidates at a time. During 1959-60, 106 Gramasevikas received training in all the three Home Science Wings. The Workshop Wing attached to the Rural Extension Training Centre T. Kallupatti continued to train Rural artisans in Blacksmithy and Carpentry. During 1959-60, 19 artisans received training in the Workshop Wing at T. Kallupatti. Another Workshop Wing was also started at Bhavanisagar during the year under report.

Model Centre for Village Industries, T. Kallupatti.—The Model Centre for Village Industries at T. Kallupatti which was established in 1951 for training local artisans in various village industries such as Ghani Oil Pressing, Paper making, soap making, bee-keeping, chakkies, etc., was converted as a Training Centre for training Gramasevaks in Village Industries, in December 1959. The training is for a period of 3 months, and 30 Gramasevaks are deputed for training in each batch. During 1959-60, 112 Gramasevak received the above training. The three months course has recently been condensed into a two months course and the strength of each batch has also been increased from 30 to 40.

Village Leaders' Training Camps.—The scheme for the conduct of the Village Leaders' Training Camps is in operation in the State from October 1957. During 1959-60 1,431 camps were held and 66,394 village Leaders were trained.

(iv) *Meetings and Seminars.*—During the year under report two meetings of the "State Informal Consultative Committee" were held in June and September 1959.

CHAPTER II.

ACHIEVEMENTS UNDER THE PROGRAMME.

(a) *Agriculture.*—Efforts to increase agricultural production through the Community Development Programme, continued unabated during the year under review. Agricultural "Extension," having taken deep roots in the State, the ryots in the development areas responded in a copious measure in following the improved methods in agriculture, persistently explained to them by the Extension workers in the previous years. The pace in the demand for the use of improved seeds, chemical fertilizers, improved implements, etc., noticed in the previous year, continued steadily during the current year also. During the year 1959-60, 290 lakh maunds of improved strains of paddy were distributed. Other improved (maize and cereals) seeds distributed accounted for 47,236 maunds. 89,125 maunds of improved strains of sugarcane, cotton and groundnut were also distributed during the year. In all 4,25,991 maunds of improved seeds were distributed. The 38 State seed farms functioning in the State on 31st March 1960 were responsible for spreading improved seeds in the development areas in the State. The use of improved strains went hand in hand with the use of chemical fertilizers. During the year under review, 8.93 lakh maunds of ammonium sulphate, 2.63 lakh maunds of super phosphate and 7.78 lakh maunds of other chemical fertilizers were distributed. Other manures such as bone-meal, oil-cake, etc., accounted for 4.53 lakh maunds. In all, 23.92 lakh maunds of fertilizers, were distributed during the year under review.

The intensive drive for the cultivation and use of green manure, propagated in the previous years resulted in noticeable improvement during the year. 81,755 maunds of green manure seeds were distributed during the year as against 49,840 maunds in the previous year which represented an increase of 64.0 per cent over the previous year. The conviction with which the rural masses took to the use of improved implements propagated by the Agricultural Extension Staff proved the efficacy of adopting modern methods in agricultural operations. During the year under report, 23,452 iron ploughs, 1,126 seed drillers and 10,552 other improved implements were distributed. In all 35,130 improved agricultural implements were distributed as against 28,392 implements in the previous year, representing an increase of 23.7 per cent over the previous year.

Demonstration of improved techniques in agriculture formed an important part of the Extension Programme as these were intended, not only to win over more number of ryots to newer methods of agriculture but also to see that the ryots who had taken to it in the previous years continued to adopt them 38,129 demonstration trials and 61,733 other agricultural demonstrations were conducted in the different community development areas of this State during the year under report. 75,607 maunds of chemical pesticides were distributed to the ryots to save the crops from the ravages of insects and other plant diseases.

In addition to chemical fertilizers and manures distributed, compost prepared out of 91,500 compost pits dug during the year under report was also utilised to increase agricultural production. 18,635 acres of land were reclaimed and 16,041 acres of land were bunded and terraced during the year under report.

The Japanese method of cultivation which has been slowly but steadily getting popular with the ryots, made an appreciable mark during the year. The acreage under Japanese method which was 7.05 lakh acres in 1958-59, increased to 9.52 lakh acres in the year under review.

3,376 new katcha wells and 2,414 new pucca wells were constructed during the year under the Minor Irrigation Scheme. 16,667 additional acres of land were expected to be benefited during the year 1959-60. 357 tube wells were constructed and 2,545 pumpsets and 896 oil engines were installed. The foregoing items of development together with renovations to pucca and katcha wells, channels, etc., were expected to irrigate an additional area of 64,853 acres.

Food Production.—The food production department, which dealt with the "Special minor irrigation programmes" viz., the restoration and improvements to minor irrigation sources situated in erstwhile zamin areas, attended to 561 Minor Irrigation Schemes at an estimated cost of Rs. 60.54 lakhs sanctioned for the Community Development areas during the year under review. These Schemes were expected to irrigate 17,976 acres of land to result in an additional food production of 3,94,813 maunds. 187 Minor Irrigation Schemes started in the previous years were completed during the year. A sum of Rs. 39.38 lakhs was spent on these schemes and the area likely to be benefited by these works was 5,627 acres from which an additional food production of 86,453 maunds was anticipated.

(b) *Animal Husbandry.*—Upgrading of cattle and poultry, supply of improved bulls, rams, bucks and birds, protecting cattle from contagious diseases, treatment of cattle and artificial insemination operations were the main items of development in the field of Animal Husbandry during the year. 851 improved bulls, 2,803

improved rams and 108 improved bucks were supplied during the year under review. In all, 3,762 improved animals were supplied during the year as against 2,784 in the previous year representing an increase of 35.1 per cent over the previous year. 74 full-fledged veterinary dispensaries and 185 peripatetic dispensaries were functioning during the year. These dispensaries were responsible for treating 2.99 lakh animals. 11.66 lakh animals were inoculated and vaccinated during the year 1959-60 as against 11.05 lakh animals in the previous year. 134 (Government 8 and Private 126) sheep farms and 40 (Government Nil and Private 40) goat farms were functioning in the Community Development areas on 31st March 1960 as against 85 (Government 10 and Private 75) sheep farms and 6 private goat farms in the year 1958-59. 81 (Government 8 and Private 73) dairy farms including milk co-operative societies were functioning as against 42 (Government 6 and Private 36) dairy farms in the previous year. 1.45 lakh scrub animals were castrated during the year 1959-60. 150 artificial insemination centres (34 main centres and 116 Sub-Centres) were functioning in the Community Development areas during the year as against 139 centres in the previous year. 1.04 lakh animals were artificially inseminated during the year under report.

31,401 improved birds (20,236 male and 10,805 female) were supplied during the year 1959-60. 554 poultry farms (83 Government and 471 private) were functioning during the year. The corresponding figure for the previous year was 447. Ten poultry extension centres and five poultry grading centres were functioning in the block areas during the year under review. 3,98,096 birds were vaccinated. Seven poultry demonstrations and 3 poultry shows were conducted. 1,08,225 eggs were distributed for the purpose of hatching as against 77,244 eggs distributed in the previous year. 20.21 lakh fingerlings were supplied during the year 1959-60.

Considerable attention was paid during the year for fodder production. 2,134 maunds of fodder seeds were supplied as against 1,570 maunds in the previous year. This represents an increase of 35.9 per cent over the previous year. Besides, 4,34,221 fodder roots, cuttings and slips were supplied during the year under review. 76 fodder demonstration centres were functioning as against 59 centres in the previous year. In these centres, demonstrations were conducted to popularise fodder cultivation. 4,649 silage pits were filled during the year.

(c) *Health and Rural Sanitation.*—9,155 rural latrines were constructed during the year under review. Eleven thousand seven hundred rural latrines were in use during the period. Three thousand four hundred and thirty-two water seal slabs were sold during the period. Twenty-two thousand seven hundred and eighty-two soakage pits and 133,181 yards of pucca drains were constructed during the period under report. One lakh ninety-four thousand

five hundred and twenty square yards of village lanes were paved. 26,780 villages were visited by Health Inspectors and 80,755 houses were surveyed during their visits. Besides, 19,426 schools were visited and 40,286 restaurants were inspected. Forty-four thousand two hundred and twenty-two insanitary places were got cleaned during the year under report.

(d) *Medical.*—Including 26 Primary Health Centres started during the year, 77 Primary Health Centres were functioning in the State on 31st March 1960. These were responsible for treating 16.56 lakh persons. Six rural dispensaries were improved and 199 Maternity Centres were opened during the year. Fifty-six thousand five hundred and five labour cases were conducted during the year 1959-60. Eight lakhs thirty thousand and eight hundred visits (both anti-natal and post-natal) were made by Maternity Assistants attached to the Public Health Centres. Besides, the 270 rural dispensaries that were functioning in the State treated 22.26 lakh of persons during the year. There were 33 Training Centres for village dais functioning and 291 persons underwent training in these Centres during the period under report.

(e) *Rural Water Supply.*—Two thousand three hundred and twenty-four new wells were constructed and 3,833 old wells were renovated. Four thousand seven hundred and sixty-seven drinking water wells were disinfected and 983 hand pumps were installed during the period under report as against 2,004 water wells disinfected and 353 handpumps installed during the year ending 1958-59.

(f) *Education and Social Education.*—At the beginning of the official year 1959-60, 10,744 elementary schools with a strength of 11,00,245 students were functioning in the Community Development areas in the State. Besides there were 1,900 basic schools and 2,38,306 students were attending these basic schools.

During the period under review, 727 elementary schools were started. 227 Elementary Schools were converted into basic type during the year. In all, 11,244 elementary schools and 2,132 basic schools were functioning on 31st March 1960. 14.48 lakh students were attending the elementary and basic schools at the end of the period under review. A sum of Rs. 134.72 lakhs was spent by the department of education to increase the educational facilities in the Community Development areas.

For the promotion of adult literacy, 736 adult literacy centres were started during the year 1959-60. In all, 1,424 literacy centres were functioning in the Community Development areas on 31st March 1960 including those centres started during the year. These centres trained 40,010 adults. 1,280 reading rooms and libraries were started during the year. 861 youth clubs with a membership of 15,508 and 989 farmers' unions with a membership of 19,446

were organized during the year 1959-60. 149 Youth Camps (including A.C.C. and N.C.C. Camps) were organized to foster the co-operative and team spirit. Thirteen thousand eight hundred and ten persons participated in these camps during the year. Ten peripatetic camps were held and three hundred and twenty-nine school teachers were trained in these centres. These camps were designed to acquaint the teachers with the development programmes undertaken by the State in the Community Development areas. One thousand five hundred and sixty-eight functional Grama Sahayaks' camps were organized and 72,998 leaders were trained during the year under report. One thousand nine hundred and eight recreation centres and 644 cultural centres that were functioning in the Community Development areas during the period under report provided recreational facilities to the villagers. Two hundred and seventeen children's camps were held and 7,781 children participated in them. Nine thousand five hundred and twelve cultural film shows were organized during the year 1959-60.

(g) *Electricity*.—Under the comprehensive plan for the extension of supply of electricity power, 556 villages were benefited during the year. Three hundred and thirteen schemes at an estimated cost of Rs. 190.6 lakhs were completed during the year. The expenditure on the above schemes, during the year under review was of the order of 78.9 lakhs. The schemes were responsible for giving 12,381 domestic, 8,590 agricultural, 299 industrial and 2,096 street light connections. Besides, 448 schemes estimated to cost Rs. 426.6 lakhs were in progress during the year. A sum of Rs. 128.5 lakhs was expended during the year under report for the schemes in progress. The details relating to each of the six systems in the State are furnished in the Table below:—

Distribution of Electricity in Community Development areas during the official year 1959-60.

Serial number and items.	Units.	Electricity Systems.		
		Pykara.	Mettur.	Papanasani.

(h) * *Communication*.—Six thousand two hundred and thirteen furlongs of katcha roads and 2,000 furlongs of pucca roads were formed during the year, as against 7,426 furlongs of katcha roads and 2,386 furlongs of pucca roads constructed in the previous year. Eight thousand seven hundred and four furlongs of katcha roads and 2,059 furlongs of pucca roads were improved during the year under report. One thousand one hundred and ninety-five culverts were constructed and 169 old culverts were renovated during the year ending March, 1960.

Housing.—During the year under report 3,062 pucca, 2,412 semi-pucca houses and 5,071 katcha houses were constructed under the village housing and other schemes. Besides 493 model houses, 402 buildings for schools, 39 buildings for hospitals and dispensaries and 23 panchayat ghars were constructed. Forty-one model villages were established during the year.

(i) *Co-operation and Panchayats*.—During the year under report 415 credit co-operative societies, 99 industrial societies, 69 farming societies and 405 other types of societies were started. These societies were responsible for a total membership of 1.27 lakhs. Nine hundred and two panchayats were established during the year and these covered 1,402 villages. Besides, 1,002 village councils and vikash mandals were started during the year.

* Particulars furnished by the Highways Department could not be incorporated in the main review as data have been received in respect of 6 divisions only. These have however been shown separately in Annexure V.

(j) *Rural Arts, Crafts and Industries—Carpentry.*—Opening of training centres, distribution of improved implements, construction of sheds for carpentry units and sanction of subsidy to carpenters' co-operative societies were some of the main steps taken to promote this craft. During the year under review, 8 carpentry Training Centres (in Kurinjipadi, Arcot, Chetpet, Mudukalathur, Rajakkamangalam, Radhapuram, Tuticorin and Pattukotai Blocks) were started in the Community Development areas to train artisans. A sum of Rs. 1.71 lakhs was sanctioned for this purpose, out of which a sum of Rs. 52,609 was utilised in six centres during the year. In Chetpet and Kurinjipadi Blocks, training courses have commenced during the year while in other blocks, buildings for the centres were nearing completion. Two out of the 8 centres referred to above were training-cum-service centres. During the year, subsidies amounting to Rs. 10,450 for the construction of workshop and purchase of improved tools were given to the Carpentry Workers' Co-operative Societies in Kallakurichi, Thurinjapuram and Singampuneri Blocks. Tools worth Rs. 50,056 were distributed to the artisans in the different Blocks in the State.

Blacksmithy.—During the year, Training-cum-Service Centres in Black smithy were started in 7 Blocks which were in addition to the 3 centres functioning in Kallakurichi, Kaveripakkam, and Anaikaranchatram Blocks. Of the 7 referred to above, the units in Palladam, Batlagundu and Sembanarkoil Blocks started functioning during the year under report. Arrangements for starting the other 4 units in Sriperumbudur, Paramakudi, Thandoni and Killiyoor were in progress. Three artisans were supplied with improved tools with a view to encourage the village industries in Thiruvidadamarudur Block. A sum of Rs. 2 lakhs was sanctioned for the promotion of the Blacksmithy Industry and a sum of Rs. 41,377 was spent on these Schemes, during the year. Besides tools and appliances worth Rs. 1.17 lakhs were distributed to the artisans during the year.

Bee-keeping.—Bee-keeping as a Cottage Industry was popular in many of the blocks in the Community Development areas. During the year under review 6,716 bee-hives were distributed in the block areas and 250 colonies were formed. A sum of Rs. 1.6 lakhs was sanctioned for promoting the Bee-keeping Industry, out of which a sum of Rs. 66,614 was spent during the year under review. Thirty honey extractors were distributed during the year in Avanashi and Perianaickenpalayam Blocks in Coimbatore district.

Tannery.—Training in tannery, construction of community tanning sheds, establishment of flaying centres and construction of tannery pits were some of the main items of work attended to during the year for promotion of this industry. Fifty-one flaying centres were established during the year. Six centres which offered training in tanning process, etc., were started during the

year. Including this, 11 Centres were functioning in the Community Development areas. Twenty-two tanners underwent training during the year under report. Community tanning sheds were constructed in 6 Blocks. In all, a sum of Rs. 98,140 was sanctioned for 19 Blocks, out of which a sum of Rs. 30,994 was spent during the year under review.

Pottery.—Training of artisans in pottery, supply of potters' wheels, construction of workshops for potters and sanction of subsidy to potters' co-operative societies were the main items of work attended to during the year, to place this industry on a better footing. Pottery Training Centres were opened in Tirupathur, Merkanam, and Usilampatti Blocks. A sum of Rs. 21,794 was sanctioned for this purpose. An expenditure of Rs. 13,541 was incurred during the year. Potters' wheels were supplied to 9 Blocks at half cost. Out of a total amount of Rs. 7,800 sanctioned for this purpose, a sum of Rs. 6,103 was incurred during the year under report. A sum of Rs. 11,700 was sanctioned to 4 potters co-operative societies in four Blocks to encourage this industry on co-operative lines. Apart from this, a workshop for potters costing about Rs. 3,000 was sanctioned in Tirumanur Block and it was under construction during the year under report.

Gur and Khandasari Production.—Schemes for the promotion of Gur and Khandasari were undertaken during the period under review in the 3 Blocks of Arni, Modakurichi and Alangulam. A sum of Rs. 4,320 was sanctioned for this purpose and a sum of Rs. 3,606 was spent during the year. In Modakurichi, a grant was sanctioned to the Jaggery Producers' Co-operative Society with a view to promoting co-operative effort in this field. In Alangulam, plam gur was supplied at half cost to the artisans and 40 pans were also distributed with a view to enable the members to adopt improved methods in jaggery making.

Sericulture.—Development of sericulture was confined to Melmalayanur and Gingee Blocks in South Arcot district and Pennagaram, Hosur and Kaveripattinam Blocks in Salem district. Out of a total amount of Rs. 14,363 sanctioned for these 5 Blocks, a sum of Rs. 3,465 was spent during the year under report. Sericulture appliances were distributed at subsidised rates in the 5 Blocks referred to above.

Cumbly Weaving.—Cumbly Weaving Centres were sanctioned for 7 Blocks (Tirupathur, Lakshminaickenpalayam, Chellampatti, Pennagaram, Hosur, Kaveripattinam and Veppanpalli) during the year. The Centres in Tirupathur, Lakshminaickenpalayam, Pennagaram and Hosur started functioning during the year. Preliminary arrangements were made in other centres for starting the Units. During the year under review, a sum of Rs. 5,878 was spent.

Oil extraction.—One hundred and fifty-eight improved ghanis were introduced during the year for the promotion of this industry in Community Development areas. Subsidies were granted to the Oil Producers' Co-operative Societies and Oil Purchasers' Co-operative Societies to further this industry. The entire amount of Rs. 13,445 sanctioned for this purpose was completely disbursed to the co-operatives during the year.

Palm Leaf Products Industry.—Promotion of this industry was effected by the grant of subsidies to the Palm Leaf Workers' Co-operative Society and the organisation of Training-cum-Service Centres for plan-leaf Products. In Melpuram, a Training-cum-Service Centre started functioning during the year and a sum of Rs. 12,590 was sanctioned for this Centre. A sum of Rs. 25,838 was sanctioned for starting another Training-cum-Service Centre in Tuticorin. In Paramakudi and Uthangarai, grants were given to Palm Leaf Workers' Co-operative Societies.

Bell-metal and Brassware Industry.—These industries were stabilised during the year by the grant of subsidies and the establishment of Training Centres. A training centre for bell-metal workers in Lalgudi and a Training Centre for the production of brassware in Kalayarkoil were started during the year under review. A sum of Rs. 7,000 was given to the Bell-metal Workers' Co-operative Society in Arcot and grants to the extent of Rs. 21,200 were given to Brassware Workers' Co-operative Society in Tiruppur and Virudhunagar Blocks.

Others.—Tailoring and Embroidery Training Centres were started in Orathur, Avanashi and Rajakkamangalam Blocks and a sum of Rs. 16,387 was sanctioned for promotion of these crafts. One hundred and thirty sewing machines were distributed during the year.

In Arcot and Turinapuram Blocks, subsidies to the extent of Rs. 2,000 were given to Hand-pounding of Rice Workers' Co-operative Society and Coir Workers' Co-operative Society respectively. A sum of Rs. 3,804 was sanctioned for setting up a Bone Crushing Unit in Kodumudi Block. A grant of Rs. 16,090 was given to the Basketmakers' Co-operative Society in Devakottai Block. Out of this, a sum of Rs. 12,945 was spent during the year under report. A grant to the extent of Rs. 25,000 was given to Brick Workers' Co-operative Society in Mayuram Block and the Unit started production during the year under review. One thousand eight hundred and sixty-four brick kilns were started during the year. *One thousand five hundred and fifty lakh bricks and 390 lakh tiles were manufactured during the year under report.

Apart from starting Units and Training Centres for promoting crafts and industries, steps were also taken to distribute improved tools to the artisans in respect of all the crafts and industries at 50

per cent cost. A sum of Rs. 1.5 lakhs was sanctioned for this purpose for 40 Blocks. Out of this, a sum of Rs. 0.56 lakh was spent during the year under report.

(k) **Extensive Khadi Scheme in Stage I Blocks.**—The Extensive Khadi Scheme introduced in 19 firkas during the year 1949-50 was being extended year by year as new blocks were formed. The Scheme was in force in 101 Stage I Blocks during the year. Charkas were being introduced at the rate of 1,000 per Block per year at subsidised rates. Under the Scheme, charkas were supplied at subsidised rates and the Khadi Commission gave a subsidy of Rs. 2.50 nP. per charka. The spinners were supplied with other implements at subsidised rates (50 per cent) and cotton where necessary at cost price. Facilities were also provided to enable them to have their yarn woven into khadi. For every new spinner, a free supply of cotton upto one rupee was allowed.

One Extension Officer for Khadi and three Spinning Organisers were in charge of the Khadi Scheme in each Block under the Block Development Officer and they were under the supervisory control of the Director of Khadi.

Comprehensive Khadi Scheme and Comprehensive Community Project and Community Development Khadi Scheme.—The Comprehensive Khadi Scheme introduced in the Community Development areas as early as 1954, was in force in 18 Community Development Blocks during the year. The Comprehensive Community Project and Community Development Khadi Scheme was in force in 49 Stage II Blocks.

The general outline of the Scheme was the same as that of the Extensive Khadi Scheme in Stage I Blocks.

The particulars of achievements in the year 1959-60 are furnished below :—

(1)	(2) Total number of blocks in which khadi scheme has been intro- duced.	(3) Charkas intro- duced.	(4) Hanks purchased,	(5) Spinning wages paid,	(6) Khadi sold,
	NO.	NO.	NO.	RS.	RS.
1959-60	168	35,453	15,33,830	1,91,726.24	2,50,736.17

(l) **Women's Welfare.**—During the official year 1959-60, 13 Women's Welfare Branches were functioning in the Community Development areas. Fourteen slum centres and 13 poor and middle class centres in the Community Development areas stood attached to the 13 Welfare Branches mentioned above. Seven hundred and five Mahila Samities with a total membership of 16,883 were functioning during the year. Five hundred and five voluntary

helpers were working in the 13 Women's Welfare branches during the year under review. The staff of the Women's Welfare Organisation contacted 13,196 families during the period under report. Three hundred and seventy-six persons were hospitalised and 11,807 persons were given first aid and medical aid. Forty-three tuberculosis cases and 43 leprosy cases were investigated by the members of the Women's Welfare Organisation during their house visits. Two thousand and eighty-two Community Centre Meetings were held with an average attendance of 190. Five thousand one hundred and nine persons attended the centre outside centre timings during the year 1959-60. Two hundred and twenty-two cooking demonstrations were conducted. One hundred and one Madhar Sangams were started during the period under review.

During the year 1959-60, Maternity Assistants attended to 3,737 general cases, 483 Ante-natal cases, 61 post-natal cases and 88 deliveries.

Six hundred and ninety-five persons participated in subsidiary industries and crafts such as leaf plate making, knitting, tailoring, poultry keeping, palm leaf-mat making, etc., and earned a sum of Rs. 2,154 as wages. Raw materials worth Rs. 2,492 were purchased and finished articles worth Rs. 4,541 were made by those who participated in subsidiary industries and crafts.

Six hundred and ninety-nine persons participated in spinning and produced 14,745 hanks. Hanks worth Rs. 2,683 were exchanged during the period. A sum of Rs. 2,587 was paid as wages to the participants. Sixteen candidates were in the Tailoring-centre at Tirumanur (Tiruchirappalli district). Fifteen candidates were trained in each of the Tailoring-knitting Centres at Veppanthattai and Pudukottai (Tiruchirappalli district). Three work Centres, one for Tailoring and Knitting in Tirumalaipadi (Tiruchirappalli district), one for Palm Fibre at Veppanthattai Block (Tiruchirappalli district), one for fancy and utility articles in Pudukottai (Tiruchirappalli district) started functioning during the year under report.

(m) *People's contribution*.—A sum of Rs. 70.09 lakhs was received as people's contribution by way of labour, cash and others during the year as against Rs. 78.86 lakhs in the previous year.

CHAPTER III.

IMPACT OF THE COMMUNITY DEVELOPMENT PROGRAMME ON THE ECONOMIC AND SOCIAL LIFE OF THE PEOPLE.

1. The Community Development Programme inaugurated in October, 1952 gained momentum during the Second Plan period. The impact of the programme was more markedly seen during this period in all spheres of economic and social activity.

* Source—Block Developments Officer's Quarterly reports for the Quarter—ended 31st March 1960.

The adoption of improved methods of cultivation, extension of the Japanese method, use of chemical fertilizers, and adherence to the use of improved strains of paddy and other cereals stepped up agricultural production. The programmes under Animal Husbandry enabled the ryots to safeguard their cattle wealth by availing themselves of the preventive and curative methods offered to them and to improve the breed of the animals and birds. Increased agricultural production combined with greater income from livestock had the effect of raising the standard of life in the villages. As the Community Development Programme was gaining momentum in the Second Plan period, the interest of the villagers, without being confined to programmes under Agriculture and Animal Husbandry was extended to Schemes sponsored under Village and Small Scale Industries. This helped the ryots not only to engage themselves in the off-season but also to effectively supplement their income from land and livestock. The growth of Small Scale and Cottage Industries in the countryside created in the people an insight into the advantages of industrial pursuits which indirectly relieved the pressure on land.

2. The co-operative movement considerably expanded under the fillip given to it by the Community Development Programme and this was evident by the large growth of membership in recent years. The co-operatives played an important role in making the ryots realise their avowed objective of building a wholesome economic structure not only for the benefit of individuals but also for the village as a whole by getting rid of the forces of exploitation. Provision of credit at reasonable rates of interest, adequate facilities for marketing at rates advantageous to them saved ryots from falling a prey to anti-social forces in and outside the village. Besides providing cheap credit and facilities for marketing, the co-operative movement adequately furthered the growth of village and cottage industries in an organised way. The establishment of Industrial Co-operative Societies offered the countryside to exploit untapped local wealth with the aid of Government subsidies and this promoted talent which was fast languishing for want of opportunities. Provision of communication facilities increased the economic activity in the villagers. On the civic and social side, programmes under Health and Rural Sanitation enabled the villagers live under hygienic conditions free from disease to the extent possible. Promotion of literacy, provision of recreational facilities, etc., had the effect of raising the culture and social status of the rural masses. The demand for the establishment of social institutions like Youth Clubs, Farmers' Unions, Mahila Samities in the Community Development areas continued unaffected and this had the salutary effect of fostering the co-operative spirit among ryots to undertake development activities and to create conditions for better living. The foregoing were responsible for awakening in the masses the zeal for community work required in executing the different development programmes.

To augment agricultural production, 16 lakh maunds of improved seeds and 138 lakh maunds of fertilizers were distributed in the Community Development areas since the commencement of the programme in October, 1952. Of this, 15 lakhs maunds of improved seeds and 107 lakh maunds of fertilizers were distributed during the Second Plan period. The achievement under the Second Plan was 93 per cent of the total distribution in respect of seeds and 77 per cent in respect of fertilizers. Compost prepared out of 3.93 lakh compost pits dug was utilised for augmenting agricultural production. The number of pits dug (3.21 lakh) during the Second Plan period was more than 4 times the number dug (72,518) in the First Plan period. 1.2 lakhs of improved implements were distributed during the period 1959-60 to enable the ryots to take to modern techniques in agriculture. On this 1.0 lakh of improved implements were distributed in the Second Plan period. The extension work in the field of agriculture resulted in the conduct of as many as 4.12 lakh of demonstrations during the period October 1952 to March 1960. Of this, nearly 3.9 lakh demonstrations were held in the Second Plan period. This had the effect of convincing the ryots about the efficacy of improved methods of agriculture and for their continued adoption. Though the increase in the number of Community Development Blocks partly contributed to the increase in activities in the different fields of development, one will not fail to notice that a substantial part of the increase was due more to the tempo of progress achieved in the Second Plan period. Though the adoption of Japanese method and other improved methods of cultivation on the part of the ryots demanded a more intensive effort and supervision and a comparatively larger investment of funds, the progressive ryots were not hesitant in their outlook towards these improvements as they had sufficiently realised the importance of increased production. 9.33 lakh acres were under the Japanese method during the year ending March, 1960. Improvements under the minor irrigation programmes such as sinking of wells, tube wells and construction of canals received their full share of support from the public as considerable attention was paid to all such schemes. These have naturally brought about beneficial economic results. Next to agriculture, the programmes under Livestock captured the imagination of ryots. The extension of Veterinary Services brought down incidence of cattle disease and mortality. Eight thousand three hundred and seventy-two animals and 94,916 birds were supplied to upgrade the existing stock of animals and birds in the Community Development areas upto 31st March 1960. Of this, 7,840 animals and 97,769 birds were distributed in the Second Plan period.

3. Co-operative Societies and Panchayats, the twin agencies for the execution of Economic and Civic needs in the villages received greater attention and encouragement at the hands of the ryots. These institutions became indispensable instruments of democratic planning. In the effort to step up agricultural production, co-operative societies have been playing a vital role by providing timely

credit for agriculturists. On 31st March, 1960, 2,701 credit co-operative societies were functioning in the State with a total membership of 4.03 lakh persons.

4. The Khadi Scheme made an unique contribution in the Cottage and Small Scale Industries Sector. The Scheme was in operation in 168 Blocks. Khadi worth Rs. 2.51 lakh was sold during the year under report. The following are the village industries that created opportunities for full time and part-time employment in the Community Development areas.

- (1) Village Oil Industry.
- (2) Hand-pounding of paddy.
- (3) Village Tanning and allied industries.
- (4) Village Pottery and Brick Manufacture.
- (5) Bee-keeping.
- (6) Soap-making.
- (7) Hand-made paper.
- (8) Production of gur and khandasari sugar.
- (9) Development of ginning of cotton.
- (10) Cottage Match Factory.
- (11) Palm Gur Industry.
- (12) Ambar Charka.

5. In order to provide adequate facilities for drinking water supply, 9,934 wells were constructed in the Community Development areas between October 1952 to March 1960. Of this 8,306 wells were sunk in the Second Plan period. Besides, 13,327 wells were renovated between 1952 to 1960 in the Community Development areas. Thirty-seven thousand two hundred and twenty-three rural latrines, 7.09 lakh yards of drains and 98,623 soakage pits were constructed and these went a long way in the implementation of the Rural Health Programmes.

6. The Social Education Programme proved successful in creating opportunities for village leadership. One thousand four hundred and twenty-nine Adult Education Centres were functioning for the promotion of adult literacy during the year 1959-60. These were responsible for training 207.4 lakh adults. Two thousand four hundred and ninety-one reading rooms and libraries were functioning as on 31st March 1960. One thousand three hundred and fifty-nine Youth Clubs, 763 Farmers' Unions, 774 Mahila Samities, functioning during the year had also their share of the impact on the social life of the people.

7. The healthy response of the people to the different development programmes was seen in the quantum of cash and other contributions made by them. A sum of Rs. 369 lakhs was realised as people's contribution upto March, 1960. The total gross Government expenditure from 1952 onwards amounted to Rs. 1,027 lakhs.

8. Thus the Community Development Programme in these seven and half years has ushered in a new era in which people do their very best to improve themselves and the community at large.

APPENDIX I.

Statement showing the area, villages and population covered by Community Development, Stage I and Stage II Blocks of Madras State for the year 1959-60.

RURAL DEVELOPMENT AND LOCAL ADMINISTRATION
DEPARTMENT.

G.O. No. 2615, 30th November 1962

Community Development Programme—Statistics of achievements in the Rural Development Department for 1959-60—Recorded.

READ—the following paper :—

Letter from the Director of Statistics, dated 5th
January 1961, No. 10353-N/60.

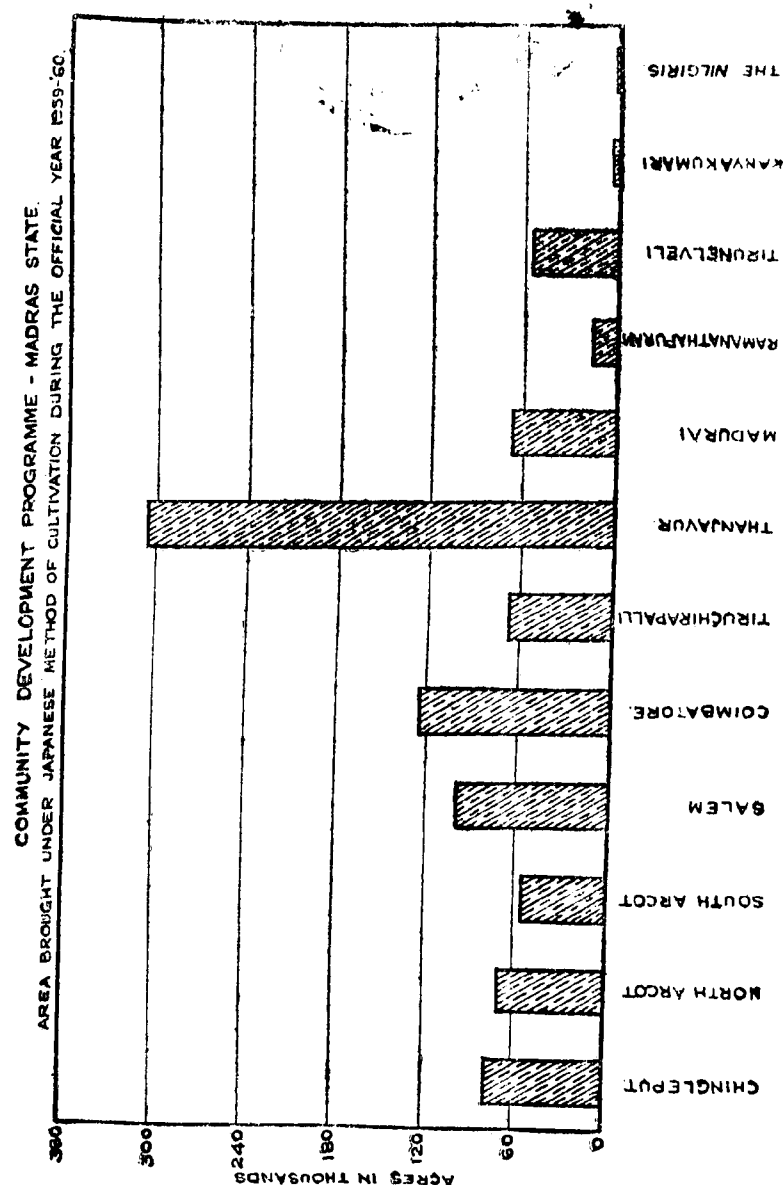

**Order—No. 2615, Rural Development and Local Administration,
dated 30th November 1962.**

The statistical statements relating to the Rural Development Department for the year 1959-60, submitted by the Director of Statistics are recorded with the following remarks :—

(i) During the year under report the Community Development Programme was extended to 26 more blocks and 7 large sized blocks were bifurcated, increasing the total number of blocks from 176 (including 20 pre-extension blocks) as on 31st March 1959 to 209 on 31st March 1960, comprising 26 pre-extension blocks, 112 Stage I, 12 Community Development, and 59 Stage II Blocks, covering 26,395 square miles and 10,163 villages with a population of 155 lakhs.

(ii) The training programme during the year was satisfactory. Four hundred and fifty-six Gramasevaks received training at the Rural Extension Training Centres. One hundred and twelve Gramasevaks were given training in village industries at the Model Centre for Village Industries, T. Kallupatti. Under the Village Leaders' Training Programme 1,431 camps were conducted and 66,394 village leaders were trained.

Agriculture—Efforts to increase agricultural production through the Community Development Programme continued unabated during the year. 2.90 lakhs maunds of improved strains of paddy. 47,236 maunds of improved seeds of maize and cereals, 89,125 maunds of improved strains of sugarcane, cotton and groundnut were distributed during the year. 8.93 lakhs maunds of ammonium sulphate, 2.68 lakhs maunds of super-phosphate, 7.78 lakhs maunds of other chemical fertilisers and 4.53 lakhs maunds of bone-meal, oil-cake, etc., were distributed. Eighty-one

thousand seven hundred and fifty-five maunds of green manure seeds were distributed during the year as against 49,840 maunds in the previous year. The rural masses took to the use of more and more improved implements. During the year 23,452 iron ploughs, 1,126 seeds drillers and 10,552 other improved implements were distributed. Thirty-eight thousand one hundred and twenty-nine demonstration trials and 61,733 other agricultural demonstrations were conducted during the year. Seventy-five thousand six hundred and seven maunds of chemical pesticides were distributed to save the crops from insects and other plant diseases. In addition to chemical fertilisers and manures, compost prepared out of 91,500 compost pits dug during the year was also utilised. Eighteen thousand six hundred and thirty-five acres of land were reclaimed and 16,041 acres of land were bunded and terraced during the year. The acreage under Japanese method which was 7.05 lakhs acres in 1958-59 increased to 9.52 lakhs acres in the year.

Three thousand three hundred and seventy-six new katcha wells and 2,414 new pucca wells were constructed during the year. Sixteen thousand six hundred and sixty-seven additional acres of land were expected to be benefitted during 1959-60. Three hundred and fifty-seven tube wells were constructed and 2,545 pumpsets and 896 oil-engines installed.

Animal Husbandry.—In the field of Animal Husbandry, 851 improved bulls, 2,803 improved rams and 108 improved bucks were supplied during the year.
