APPENDICES.

(Section X.)

APPENDIX A.

List of works undertaken with expenditure to the end of March 1960	37
--	----

APPENDIX B.

Budget provision for Capital Works in 1960-61	46
---	----

APPENDIX C.

Details of establishment charges and fees earned during 1959-60 and estimate for 1960-61	48
--	----

APPENDIX C-1.

Statement showing the units generated, working expenses and the cost per unit generated under each main head of expenses, 1959-60	51
---	----

APPENDIX C-2.

XLI. Receipts from Electricity Schemes—Working expenses—Statement showing gross revenue, working expenses and the proportion of expenses under each main head to gross revenue	64
--	----

APPENDIX C-3.

Statement showing cost of operation and maintenance expenses as a percentage on revenue per unit sold	72
---	----

APPENDIX C-4.

The details of revenue receipts and working expenses of the Board for the year 1959-60—	74
Financial working of the Pykara Electricity System	75
Financial working of the Mettur and Vellore Electricity Systems	76
Financial working of the Papanasam Electricity System	77
Financial working of the Tiruchirappalli Electricity System	78
Financial working of the Madras Electricity System	79

APPENDIX D.

List of electric supply undertakings in service on 31st March 1960	80
--	----

APPENDIX D-1.

Licensees under construction	80
--------------------------------------	----

APPENDIX D-2.

New applications for licences received	80
--	----

APPENDIX D-3.

List of undertakings put into service	80
---	----

APPENDIX D-4.

List of licensees who reduced their tariffs	80
---	----

APPENDIX D-5.

List of licensees who increased their tariffs	80
---	----

APPENDIX D-6.

List of licensees charging more than six annas per unit for lighting and fans	80
---	----

APPENDIX E.

Total capacities of plant installed in electric supply undertakings in service in the State	81
---	----

APPENDIX F.

Table of electric supply costs and records—(Company Licensees)	82
--	----

APPENDIX F-1.

Table of electric supply costs and records—(Local Authorities)	84
--	----

APPENDIX F-2.

Statistical data for the Administration Report for the year ending 31st March 1960— (Company Licensees)	86
--	----

APPENDIX F-3.

Statistical data for the Administration Report for the year ending 31st March 1960— —(Local Authorities)	94
---	----

APPENDIX F-4.

Classification of units sold by licensees—(Companies)	97
---	----

APPENDIX F-5.

Classification of units sold by licensees—(Local Authorities)	97
---	----

APPENDIX F-6.

Statement showing total number of units sold under various categories	98
---	----

APPENDIX F-7.

Accidents	106
-------------------	-----

APPENDIX G.

List of high-tension consumers supplied directly by the Electricity Board—

1 Pykara Electricity System	109
2 Mettur Electricity System	111
3 Papanasam Electricity System	112
4 Madras Electricity System	113
5 Vellore Electricity System	115
6 Tiruchy Electricity System	115

APPENDIX G-1.

List of textile mills and other high-tension consumers in licensees' areas	117
--	-----

APPENDIX H-1.

List of villages and towns supplied with electricity by the Madras State Electricity Board	121
--	-----

APPENDIX H-2.

List of villages and towns supplied with electricity by licensees	193
---	-----

APPENDIX I.

List of power-houses, extra high-tension and distribution transformers—

1 Pykara System	202
2 Moyar Station	203
3 Kundah Hydro Electric Scheme	204
4 Mettur System	204
5 Papanasam System	205
6 Periyar Hydro Electric Scheme	206
7 Madras System	207
8 Vellore System	208
9 Trichy System	209

APPENDIX K.

List of Staff employed	211
--------------------------------	-----

APPENDIX L.

Comparative particulars of operation and maintenance revenue, etc., before and after nationalisation of the electrical undertakings having independent generating stations taken over by Government under the Madras Electricity Supply Undertakings (Acquisition) Act, 1954	212
--	-----

APPENDIX M.

Details of investments	212
--------------------------------	-----

APPENDIX N.

Percentage of progress on construction works in 1959-60	215
---	-----

APPENDIX O.

Lines and transformers losses (in millions of units) 1959-60	215
--	-----

APPENDIX P.

Utilisation of power (in millions of units) and revenue by sale of power (in lakhs of rupees) 1959-60	216
---	-----

APPENDIX Q.

Load development in each System	217
---	-----

APPENDIX R.

Connected load particulars	221
------------------------------------	-----

APPENDIX S.

Length of high-tension and low-tension lines	228
--	-----

ADMINISTRATION REPORT OF THE MADRAS STATE ELECTRICITY BOARD FOR 1959-60.

SECTION I—GENERAL

61
32
19 2 8 15

The report, under review, is the 33rd annual report of the Electricity Department and the third report, after the formation of the Board, covering the record of progress, made during the year 1958-60.

The year under report was the fourth year of the Second Five-Year Plan and was very significant in the power development of the Madras State with the achievements of the Plan targets under generation, transmission and rural electrification.

For the financial and administrative purposes, the organisation of the Board is divided into 12 circles each under the control of a Superintending Engineer. In addition, there are three circles each under the control of a Superintending Engineer for the electrical, civil and investigation sides, directly under the control of the Chief Engineer (Electricity) for engineering, designs and co-ordination of the various schemes and projects. A chart showing the details of the Departmental organisation is given in Section VIII.

During this year, an installed capacity of 55 M.W. was added to the grid. The third generator, 55,000 K.W. capacity under Periyar Hydro-Electric Scheme was commissioned in May 1959 bringing the total installed capacity of the Periyar Power Station to 105,000 K.W. The first unit of 20,000 K.W., capacity in Power Station No. 1 under the mammoth Kundah Hydro-Electric Scheme was also commissioned during the year. This scheme which was started during the middle of 1956 was completed in a record time of a little over 3½ years, thus marking another significant achievement in the electrical development of the State. With the commissioning of these, the installed capacity of the grid increased from 356,500 K.W. to 411,500 K.W. registering an increase of 15.5 per cent. The aggregate power demand which was 322,850 K.W. last year increased by 27 per cent to 408,590 K.W. The entire output of 1,903 million units was by the Board, the increase being 27 per cent when compared to last year.

The power generated at Rameswaram Devasthanam Power House was 0.206 Million units. Kerala supply to the extent of 17.813 million units was availed of at Thuckalay point to feed Kanyakumari district. Supply from Andara State was also availed of to the extent of 2,301 million units. The power exported to hydro systems and the power imported from the hydro areas were 3.12 million units and 28.66 million units respectively.

About 64,000 new consumers were given supply during the course of the year including many important industries which produce various kinds of goods to conserve the much needed foreign exchange. The total number of consumers at the end of the year was 6.71 lakhs. The details of number of consumers with connected load details under various categories (both Departmental and Licensees) are given in Appendix 'R'. During the year 790 D.C. services with a connected load of 771.56 K.W., were changed over to A.C. mains on a voluntary basis. In Madras City the total number of D.C. services so far changed over to A.C. mains, comes to 13,061 with a connected load of 16,086.41 K.W.

One thousand one hundred and eighty-three towns, villages and hamlets have been provided with electricity and 18,573 agricultural pumpsets were connected during the year. At the end of the year, 9,297 towns, villages and hamlets and 97,476 pumpsets were deriving the benefits of electricity. During the year, 132 Harijans' Colonies were also provided with electricity. The names of electrified towns and villages with the particulars of census code number, taluk, district, etc., are given in appendix 'H'. Electrification works in Community Development Stage I, Stage II and pre-extension block areas were under various stages of progress.

The Madras Power grid covers all the districts of the State and comprises of six hydro-electric power stations, two thermal power stations, 21,950 k.m. (13,642 miles) of high tension transmission lines of voltages varying from 11,000 to 110,000 K.V., 30,795 k.m. (19,137 miles) of low tension distribution lines, 66 extra high tension and 68 high tension sub-stations and 8,865 distribution stations.

2,832.763 kilo-meters (1,760.522 miles) of extra high tension and high tension lines and 4,504.791 kilo-meters (2,861.531 miles) of L.T. lines were erected during the year bringing the total at the end of the year to 21,950 kilometres (13,642 miles) and 30,795 kilometres (19,137 miles) respectively. Besides these 16.13 kilometres (29.00 miles) of H.T. lines and 215.61 kilo-meters (134.00 miles) of L.T. lines were erected in Licensees' areas bringing the total at the end of the year to 2,176.53 kilometres (1,352.00 miles) and 4,129.43 kilometers (2,566.00 miles) respectively.

The Live Line maintenance work with Hot line tools procured under the Technical Co-operation Mission aid was started this year in and around Madras City.

The capital expenditure during the year was Rs. 13.79 crores bringing the total expenditure for the first four years of the plan period to Rs. 55.89 crores against the total provision of Rs. 53.06 crores for the Second Five-Year Plan. The gross and net revenue earned by the Department during the year rose from Rs. 1,207 lakhs to Rs. 1,324 lakhs and from Rs. 418 lakhs to Rs. 578 lakhs recording an increase of 99.6 per cent and 38.27 per cent respectively.

The revised tariff came into force from 1st October 1959.)

There was no power cut during the summer season inspite of the daily consumption raising from 48 lakhs units during the last year to 60 lakhs units this year due to phenomenal development.

Madras State still ranks third in India in generation and utilisation of power, Bombay and Bengal leading. In respect of utilisation of power for irrigation purposes, Madras stands first by way of number of consumers, consumption and connected load. In the matter of hydro-electric output Madras leads other States in the recent months. While the bulk of the power in Bombay and West Bengal is consumed by big industries and urban loads, Madras has built up an electricity grid extending into almost all the districts and rural areas. In fact, Madras leads the rest of India in rural electrification with 9,297 towns, villages and hamlets getting electricity supply by March 1960.

The project works relating to the Madras III stage extensions and the Periyar Hydro-Electric Scheme were completed. The works of the Kundah Project are in full swing at the four dam sites, four tunnels, two penstocks and two power house sites. All the head works connected with the Power House I

were completed and the Plant I was commissioned on 25th March 1960 in the presence of the Prime Minister of India. The works connected with Power House II are in good progress and it is expected that the first unit of Power House II will go into operation in September 1960. Major works on Sandynallah scheme were started during this year.

* The Pudukkottai-Tanjore 66 K.V. line, Salem-Attur-Neyveli 110 K.V. line, Periyar-Kayathar-Arumuganeri 110 K.V. line, Melakallur-Nagercoil-Thuckalay 66 K.V. line, Kovilpatti-Eppodumvendran 66 K.V. line, Kundah Power House I—Power House II—Thudiyalur 110 K.V. line, and Kundah Power House II to Salem-Villivakkam 230 K.V. line were commissioned. The 230 K.V. line is now kept energised at 110 K.V. New 110/22 K.V. Sub-station at Attur and 66/11 K.V. Sub-station at Eppoduvendran were also commissioned during the year.

All the generating stations were maintained satisfactorily and were working in Parallel.

A building for accommodating the Electricity Board Secretariat which is now at Fort St. George, is being constructed at 157, Mount Road, Madras-2.

The revision of scales of pay and other benefits sanctioned in Board's Proceedings Ms. No. 236, dated 16th February 1959 and mentioned in detail in the last years' Administration Report (1958-59) have resulted in an additional expenditure of about Rs. 65 lakhs per annum.

Acknowledgment.—The Board is grateful to the Government of Canada, Messrs. Montreal Engineering Company, Montreal, Consulting Engineers to the Canadian Government for the Kundah Hydro-Electric Scheme, India Supply Mission, Washington, India Stores Department, London, Indian Embassy, Tokyo, Central Water and Power Commission, Posts and Telegraphs Department, other central authorities and the Government of Madras for their valued help during the year. The thanks of the Department are also due to the several contracting firms who assisted the Board in its various activities.

Appreciation of the hard and willing work put in by all the members of the Board is hereby recorded.

MADRAS,
1st July 1960.

V. P. APPADURAI,
Chief Engineer for Electricity.

SECTION II—OPERATION OF THE SYSTEMS.

A map of the Madras Grid showing the Power Stations, transmission lines both in operation and under construction and those projected is on the opposite page. It covers all the districts of the State and comprises of—

I. Six Hydro-Electric Stations—

- (1) Pykara 70,200 K.W.
- (2) Mettur 40,000 K.W.
- (3) Papanasam 28,000 K.W.
- (4) Moyar 36,000 K.W.
- (5) Periyar 105,000 K.W.
- (6) Kundah Power House I—20,000 K.W.

II. Two Thermal Power Stations—

(1) Madras 98,500 K.W. and (2) Madurai 14,000 K.W. all interconnected through extra high tension lines with a total installed capacity of 411,500 K.W.

The six hydro-electric stations and the thermal power stations at Samayalalur are in charge of the generation circle at Erode. The thermal station at Basin Bridge, Madras, is under the control of a separate Superintending Engineer. The transmission and distribution of power in the State are divided into six units, with each unit under the control of a Superintending Engineer.

The Trichy Electricity System was formed during the year and it started functioning from 1st July 1959 with Trichy as headquarters.

The third unit of Periyar Hydro-Electric Scheme was commissioned on 28th May 1959 adding 35,000 K.W., of installed capacity to the grid. The three units with a total capacity of 105,000 K.W., continued to work satisfactorily during the second year of operation of the Periyar Power Station.

All the head works connected with the Power House No. 1 under Kundah Hydro-Electric Scheme were completed and the first generator with capacity of 20,000 K.W. was commissioned on 25th March 1960 in the presence of the Prime Minister. The second unit will be commissioned by the end of June 1960.

The demand for power in the State is widespread and insistent. Several new industries besides agriculture are being planned all over the State and power for them is to be provided from the grid. The aggregate power demand rose from 322.85 M.W. to 408.59 M.W., comprising 341.85 M.W. of the hydro systems and 66.74 M.W., of the Madras System, registering an increase of 27 per cent. About 1,903 million units were generated as compared to 1,500 million units during the last year. The increase during the year was 27 per cent.

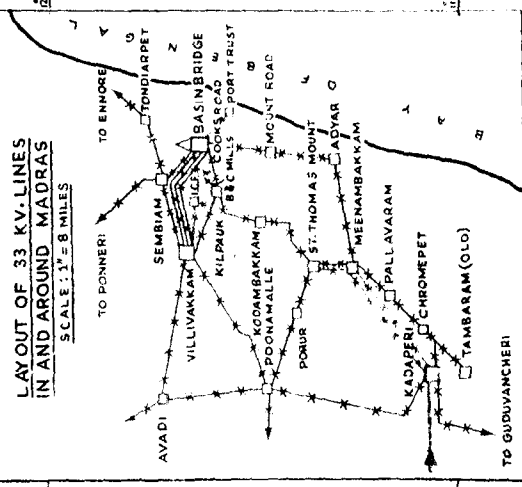

About 0.206 million units of power was generated at Rameswaram Devanahalli Power House besides 17.813 million units and 2.801 million units purchased from Kerala and Andhra States respectively during the year.

			DATE: 21-7-60

MADRAS STATE ELECTRICITY BOARD

THE MADRAS GRID

Shencottah, Tenkasi, Rajapalayam and Sankarankoil area which were on Kerala supply, were changed over to Madras supply from August 1959 when the department stopped taking power from Kerala at Shencottah point. Kanyakumari district continued to avail Kerala power at Thuckalay point to an extent of 2,500 K.W.

Kerala continued to take power at Uppatti to an extent of 6,000 K.W. and at Palghat and Nilambur to an extent of 1,500 K.W. and 200 K.V.A. respectively.

Due to improvements in Power position of the Madras Grid, Andhra supply was discontinued from 14th September 1959. It was later availed from 15th January 1960.

Due to sudden increase in the power consumption of the grid and also to tide over the difficult summer months, restrictions to connect up new agricultural and low tension industrial loads (including additions to existing loads) involving a load of over 5 h.p., were imposed with effect from 5th April 1959. This was later on relaxed with the on set of South-west monsoon and improvement in the storage of water in the reservoirs.

From July 1959, the position improved and the agriculturists were given extra hours of supply during day time.

All high tension industrial services which were getting supply only during nights were permitted partial day supply between 11 a.m. and 6 p.m. in addition to night supply.

The grouping restriction on agricultural pumpsets was completely relaxed in the Ramanathapuram district.

Since then the peak load and power consumption of the grid had a rapid increase more especially after the cessation of rains due to agricultural loads working in full swing. This resulted in tightening the staggering measures of low tension power loads. From the end of December 1959 the grouping restrictions were modified in minor Panchayat and non-panchayat areas reducing the total hours of supply to agricultural low tension industrial loads to 14 from 16. This was however relaxed in January 1960 permitting all low tension industrial load both in urban and rural areas to work for twenty hours a day.

All new loads for industrial purposes taking supply at high tension were given supply during night hours only between 9 a.m. and 6 a.m., the next day in all the systems.

Since the demand on the grid exceeded the generation capacity during summer months, there was a temporary suspension of connecting up of new or additional industrial and agricultural loads for a few weeks. This was lifted immediately after the position improved. The power supply position was otherwise generally satisfactory during the year.

The supply position of coal to both the thermal stations are fairly satisfactory.

The load conditions in all the areas of the grid have increased considerably making it difficult to avail shut downs on generating units and lines, etc., for purposes of even normal maintenance.

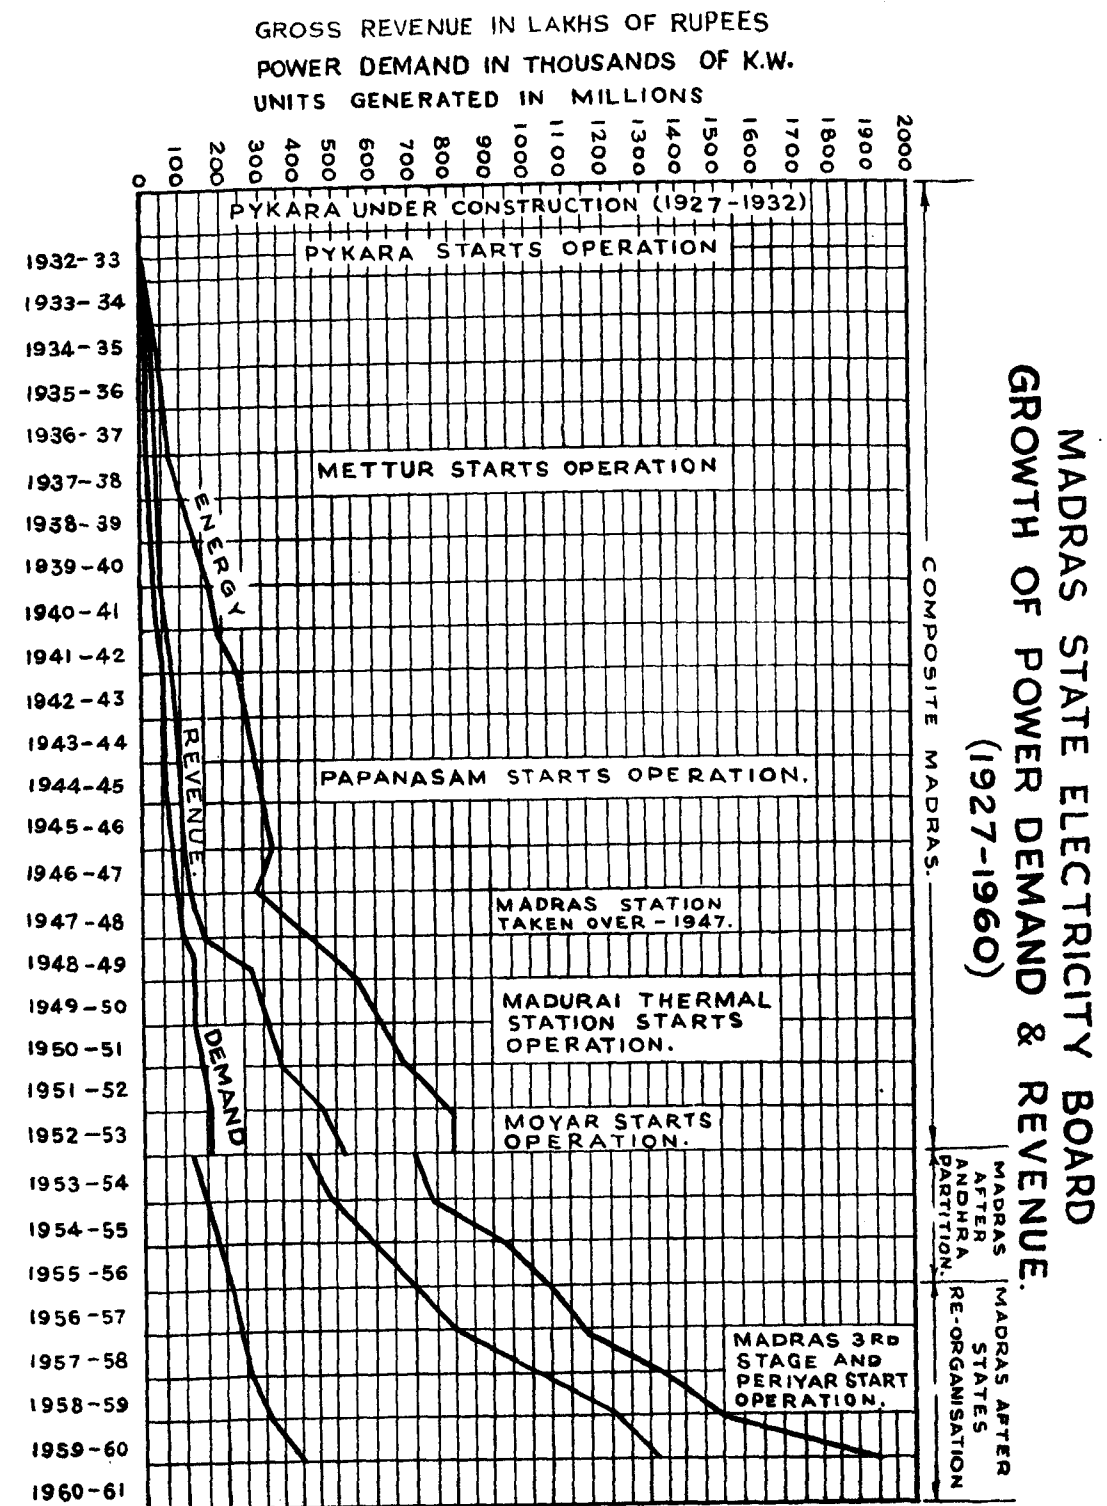

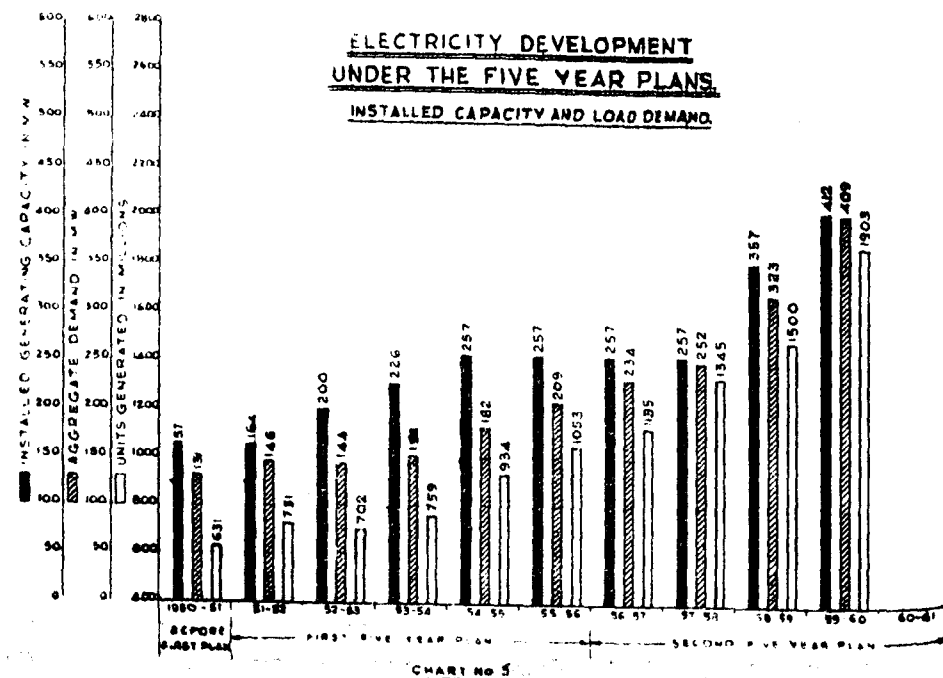

Details of generation and consumption in each System for 1959-60 are furnished below—

Name of the system or power station.	Year of operation.	System demand in M.W.	Percentage of increase in demand over last year.	System consumption in million units.	Station demand in M.W.	Total generation in millions of units for the year.

Two graphs showing hydro and thermal power generated, gross revenue power demand and units generated in Madras State from 1932-33 to 1959-60 face this page.

Two charts showing power generation and utilisation during the year are on the opposite page. Of the total power generated 76 per cent was from water power and the balance from coal.

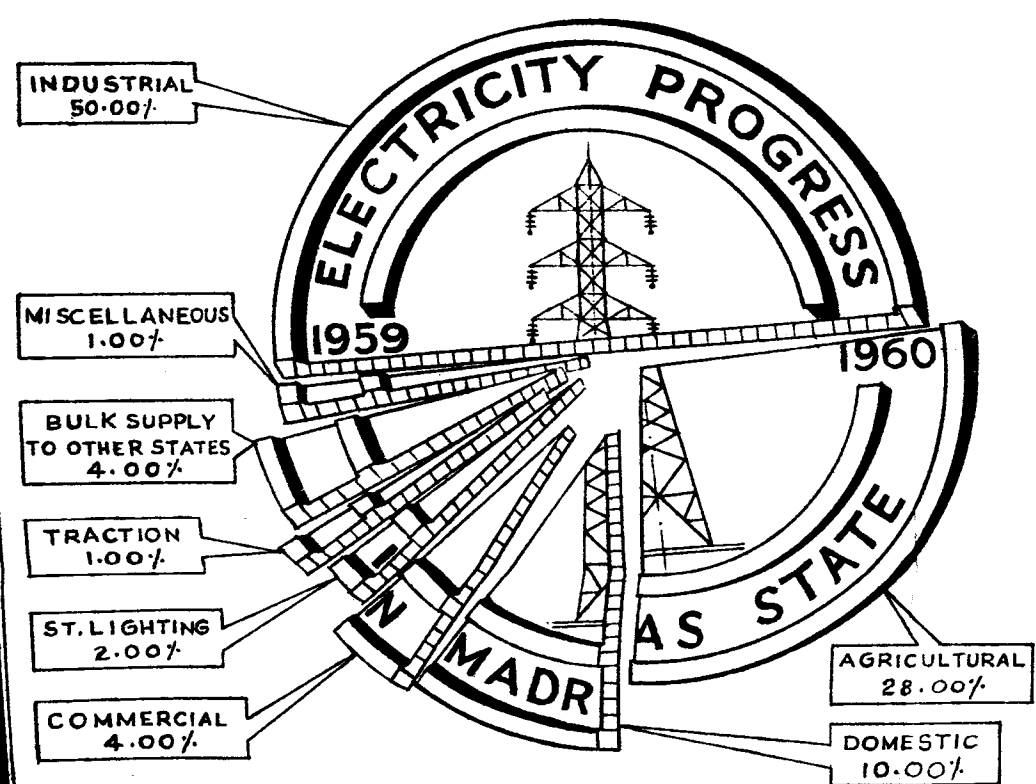

Chart No. 3 shows the installed generating capacity aggregate demand and units generated during the plan periods.

GENERATION 1959-60

UTILISATION 1959-60

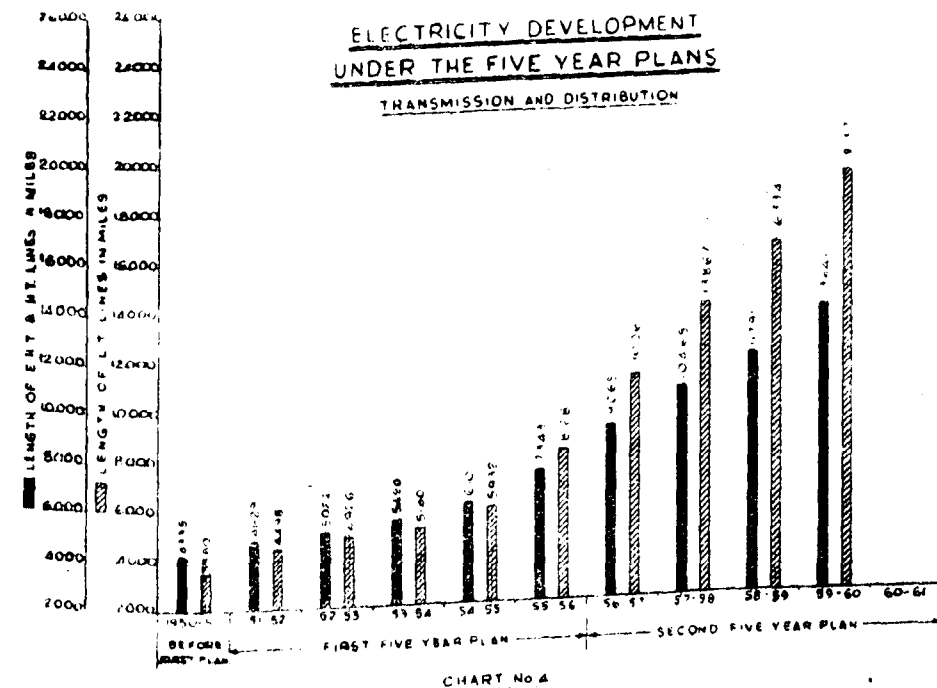

The details of load growth in each system and their connected load details are given in appendices 'Q' and 'R' respectively.

Maximum possible export was given to Hydro Stations whenever the water position in the Hydro Reservoirs was critical. Even after July 1959 when normally Madras would be importing power from hydro areas, the relief availed of was not much as compared with previous years. During the year 63.12 million units were exported to the Hydro Systems and 28.66 million units imported from the hydro stations.

The Madurai Thermal Station was giving maximum relief to the grid during the major portion of the year. The station was shut down however during July, August, September and October 1959.

Lines.—The length of transmission and distribution net work increased by 2,832.763 kilometers (1,760.522 miles) of high tension lines and 4,604.791 kilometers 2,861.531 miles) of low tension lines during the year. The growth of transmission and distribution systems during the plan period can be seen from Chart No. 4.

The total length of high tension and low tension lines in each system at the end of the year are furnished below—

Name of the system/circle.	Length of route in kilometers.			
	High Tension.		Low Tension.	
		MILES.		MILES.
1 Pykara	2,956.168	1,836.139	5,014.220	3,114.424

Total ..	21,949.941	13,642.191	30,795.256	19,137.137

The details of transmission lines with voltages, etc., in each system are in Appendix 'S'.

Generating Stations.—The following are some of the important works carried out in generating stations.

The 11 K.V. bushings of the 7000 K.V.A. Oil Circuit Breaker No. 1 generator in Pykara Power House was found badly charred and the jumper and the connecting rod heated up due to loose contact. The Oil Circuit Breaker was replaced by that of No. 1 auxiliary. The bushings were replaced as also the tension rods which were found cracked.

One A.E.G. Master Clock with two slave clocks were erected and commissioned.

The first and second stages of rationalisation of Pykara Power House layout were completed.

Three Lattice structures were locally fabricated and three neutral isolators were erected for the neutrals of the power transformers 1, 2 and 3 in Moyar Power House. The L.A.-cum-capacitors 1 and 2 from the 11 K.V. bus were shifted to the generator isolator cubicle of machine 1 and 2.

The defective control valve of the rotary valve of machines 1 and 2 at Moyar Power House were reconditioned.

In Mettur Power House, the M.S. end shields of two panels of generator No. 3 were replaced by syndiano asbestos sheet to study the heating of the end shields. Due to excessive heating in the 11 K.V., Oil Circuit Breaker of generator No. 2 the contacts, viz., Red Phase outgoing contact and Yellow Phase incoming contact were replaced by new sets of contacts.

At Papanasam Power House, M.V.A.R. meters were installed for generators 2, 3 and 4. Dielectric absorption tests were carried out on the stator coil of machine Nos. 2 and 3.

Due to eccentric running of the pilot excitor armature in machines Nos. 1 and 3 of Periyar Power House, there was flash over between poles and pilot excitor armature. This was arrested by adjustment of guide bearing clearance and checking the balancing of machines. The leakage of water observed on No. 3 Penstock terminal pipe due to defect on the casting of pipe flange was rectified by Japanese Technicians satisfactorily in August 1959.

In Samayanallur Power House the major overhaul of the Hitachi 10 M.W. turbine was carried out. M.V.A.R. meters were installed on the 10 M.W.; and 4 M.W. sets. Dust collecting equipments were installed in Staumuller boilers and commissioned. Two additional settling tanks for treatment of cooling water have been commissioned.

In Basin Bridge Power Station the last two stage blades of No. 3 unit were found damaged in October 1959. The machine was put back in service after cutting out the last two stages.

In No. 1 set replacing H.P. end pedestal and reblading the last stage of L.P. Rotor were carried out.

The boilers 6 and 7 were let down after the expiry of licence for major repairs and replacement of tubes.

Distribution Systems.—The following are some of the major works carried out in Distribution Systems.—

Pykara Electricity System.—At Coimbatore R.S., erection of the third 10 M.V.A., 110/22-11 K.V., transformer on the 11 K.V. side and one 10 M.V.A., 110/22-11 K.V., transformer on 22 K.V., sides was completed. The 12 M.V.A., auto transformer was erected. The erection of higher capacity Oil Circuit Breakers is in progress.

Work in respect of providing transformer control Oil Circuit Breaker for the fourth transformer was completed, at Udumalpet Substation. Modification work were also completed.

Modification works at Pollachi Substation were in progress and the individual feeder Oil Circuit Breakers are under erection.

At Dharapuram Substation the erection of 2,500 K.V.A. booster was completed.

At Sandynallah Substation a 4 M.V.A., transformer was commissioned replacing a 3 M.V.A., transformer.

Mettur Electricity System.—Salem-Attur 110 K.V., D.C. line and Attur 110/22 K.V., Substation with one 110/22 K.V., 4,000 K.V.A. transformers were energised. Attur-Neyveli portion of Salem-Neyveli 110 K.V. line was charged on 1st November 1959.

One 3 M.V.A. 110/22 K.V. transformer diverted from Sandynallah Substation was commissioned into service at Attur Substation.

The 110 K.V. fault throw switch was commissioned at Rasipuram.

At Tiruppur Substation one 66/11 K.V., 5,000 K.V.A. and one 66/11 K.V., 1,250 K.V.A. transformers were commissioned into service in place of two 2,000 K.V.A., transformers. One 66 K.V. group control oil circuit breaker was commissioned into service. The station capacity was thus increased from 8,000 K.V.A. to 10,250 K.V.A.

At Somanur substation two 2,000 K.V.A., 66/11 K.V. transformers were commissioned releasing one 1,500 K.V.A. unit. The station capacity has been increased from 6,000 K.V.A. to 8,500 K.V.A.

One 66/33 K.V., 1,500 K.V.A. transformer was at Puliampatti substation. One 1,000 K.V.A. transformer was added at Ingur 66/33-11 K.V. substation.

At Salem 110/22 K.V., substation the following additional equipments were energised. One 5,000 K.V.A. transformer in place of one 4,000 K.V.A. transformer 110 K.V. Delle make O.M.C.B. to control Salem-Attur-Neyveli 110 K.V. line. 110 K.V. Canadian Westing House make O.C.B. to control Salem-Rasipuram-Namakal 110 K.V. line.

Carrier current communication was established between Salem and Attur. The Salem-Villivakkam 230 K.V. line was energised at 110 K.V., initially.

Karur-Sembatti 66 K.V., single circuit line and a 66/11 K.V., substation at Pallapatti with two 1,000 K.V.A., transformers were energised.

Papanasam Electricity System.—The changeover of 3.3 K.V. to 22 K.V. Sivaganga Nattarasankottai feeder was completed and the line energised.

One ASEA 110 K. V./110 V.P.T. was erected on 110 K.V. Tudialur line at Pasumalai end.

The second 1,000 K.V.A. transformer was energised at Kallupatty sub-station.

The modification works at Shencottah substation were completed and the two 500 K.V.A., transformers energised.

A mobile V.H.F. set was erected at Sivaganga and Karaikudi sub-station for communication. V.H.F. communication was also established between Koilpatti and Eppoduvendran substations.

V.H.F. communication between Kayathar and Arumuganeri was established.

The Periyar-Kayathar 110 K.V. line was energised.

Extension works at Thalayuthu substation and modifications to Thuckalay substation in connection with the erection of 66 K.V. Melakallur Nagercoil-Thuckalay line were completed.

The erection of Nagercoil substation has been completed except for erection of three 66 K.V., AB switches. The two Reyrolle 250 M.V.A., Kiosks diverted to Nagercoil from Anuppanadi substation for control of 11 K.V. feeders have been erected.

Madras Electricity System.—The Korattur-Salem 230 K.V. line was energised at 110 K.V. at Korattur substation.

The 33 K.V. lines from Ponneri substation to Gummidipundi substation and Tondiarpet substation to Ennore substation were energised.

The Gummidipundi 33/11 K.V., substation was commissioned with two 500 K.V.A., 33/11 K.V., transformers. The substation is of R.C.C. Poles.

The Ennore 33/11 K.V. substation was temporarily energised with one 2,000 K.V.A. 33/11 K.V., transformer.

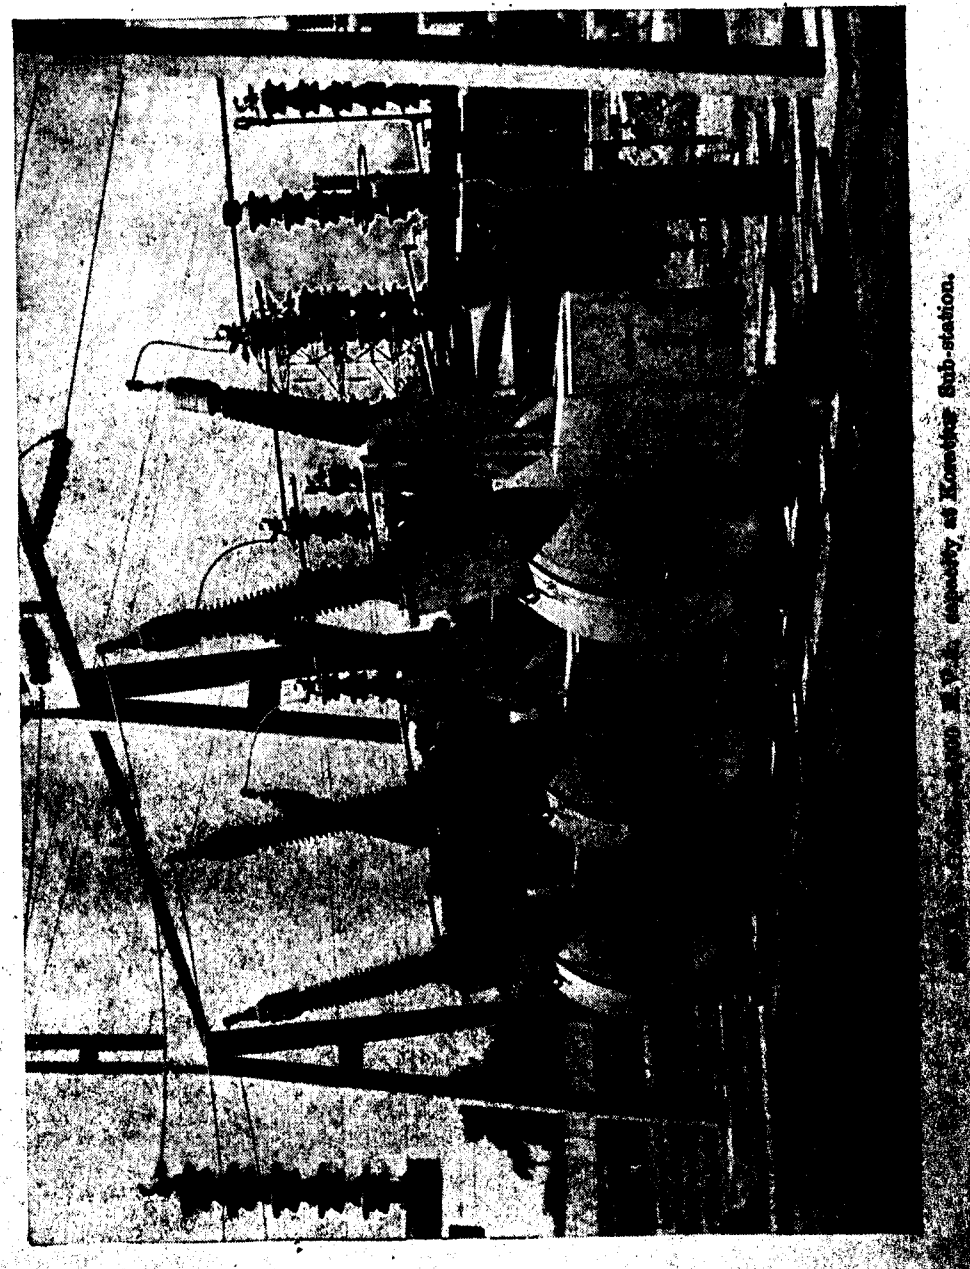

Kodambakkam substation was having three 1,500 K.V.A., 35/11.5 K.V., transformers and due to increase in load these three transformers were replaced by two 3,000 K.V.A., 33/11 K.V., transformers. Similarly the transformers in other substations were also replaced by higher capacity ones wherever necessary.

The changeover of services from D.C. to A.C. on voluntary basis was continued during this year also.

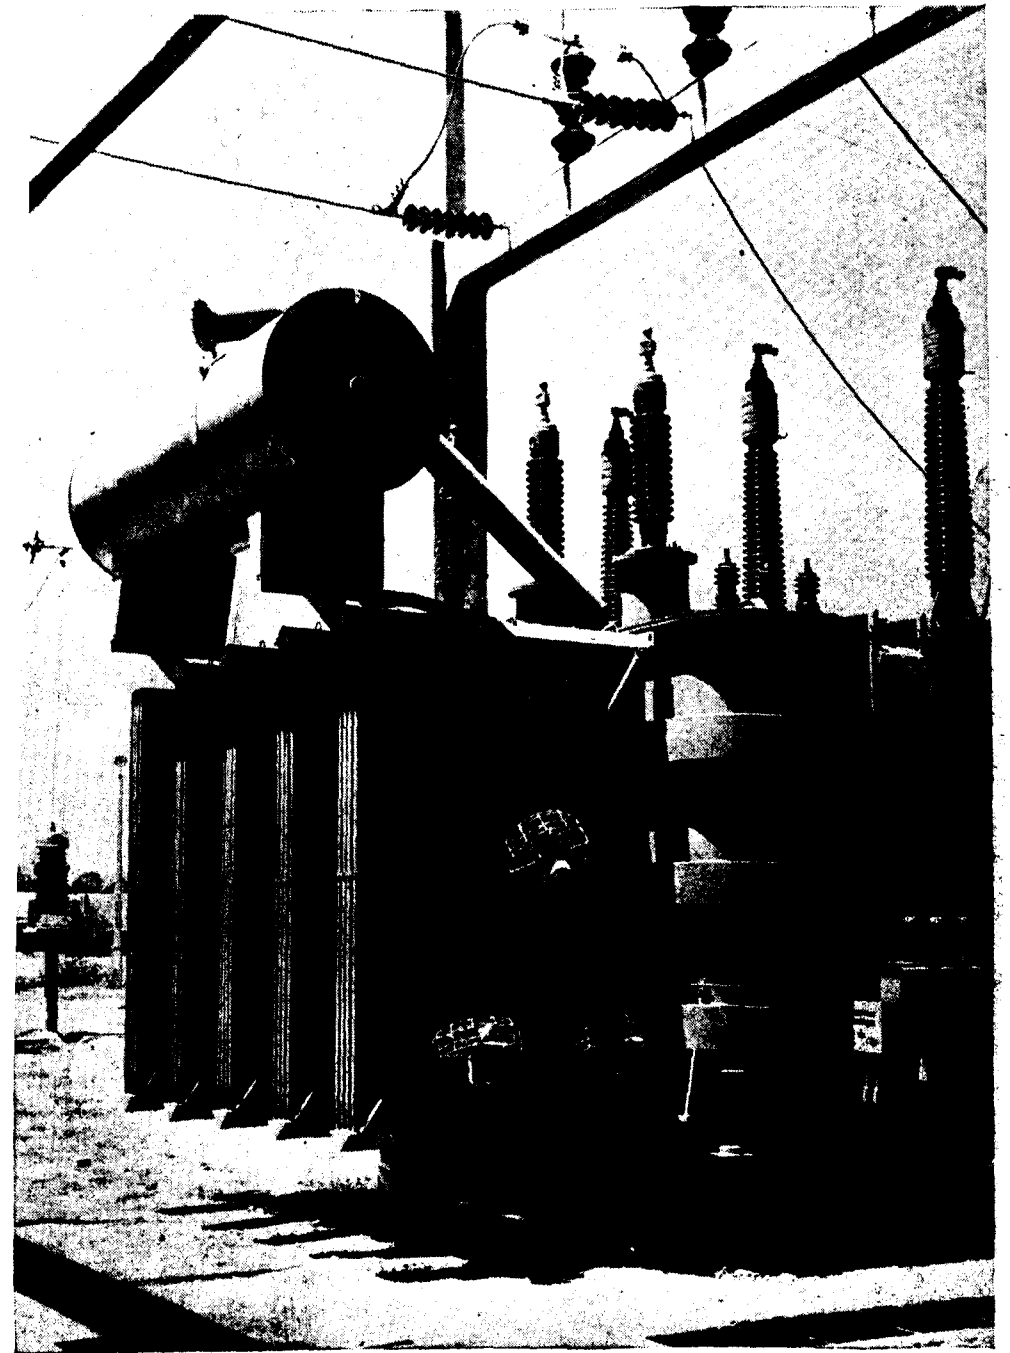

In Korattur, the 750 M.V.A., 33 K.V., breakers controlling the two 25 M.V.A., 110/33 K.V., transformers were replaced by two 1,000 M.V.A. Oil Circuit Breakers.

One 25 M.V.A. synchronous condenser supplied from Canada is being erected. The 50 M.V.A., 230/110/11 K.V. auto transformers are under erection.

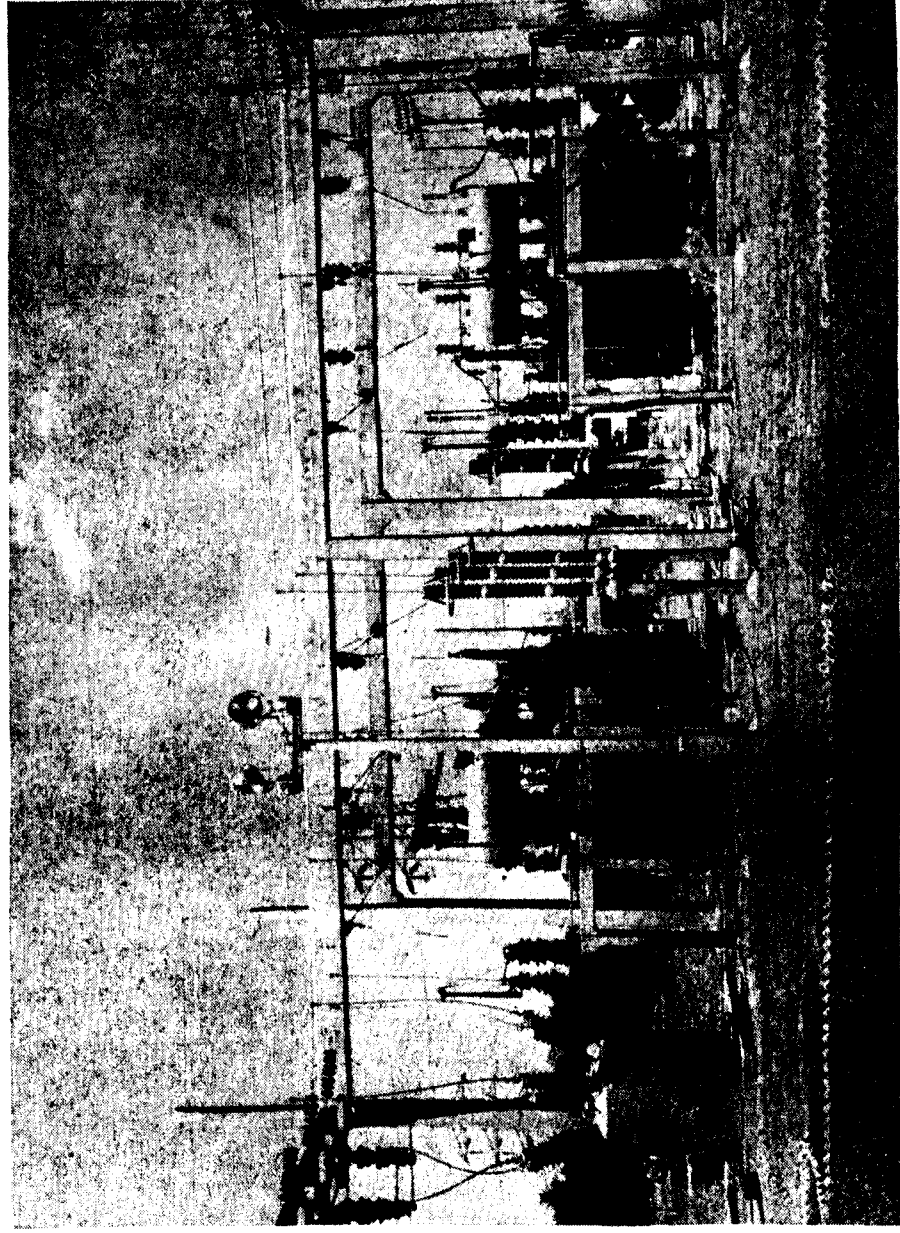

The hot-line maintenance programme was inaugurated at Korattur substation by the Chairman, State Electricity Board on 19th October 1959. The Operation and Maintenance staff who had their specialised training in Bangalore under Technical Co-operation Mission expert are looking after

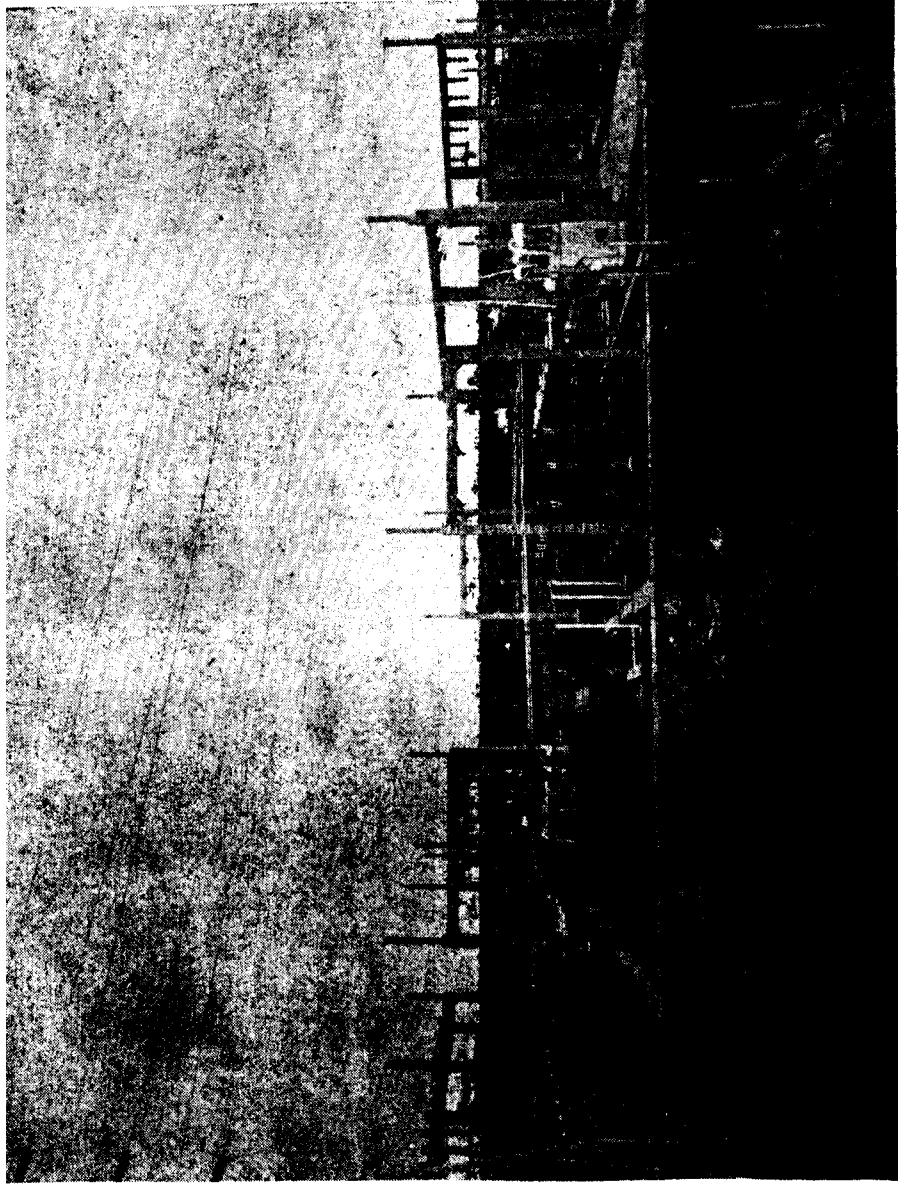

The 230 K.V. line at Korattur substation.

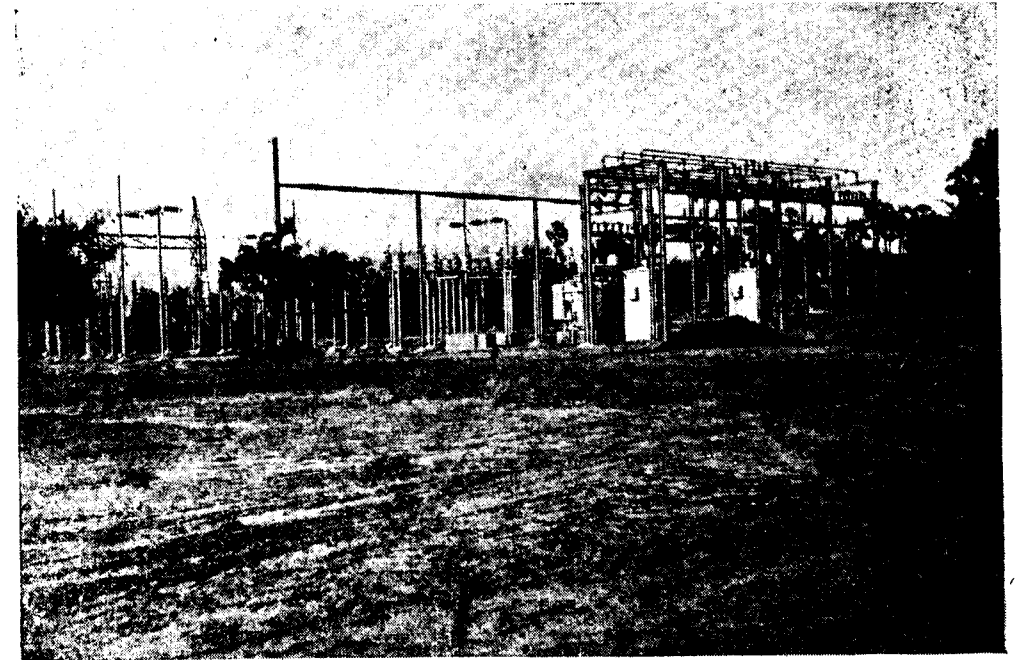

Auto Transformer—50 M.V.A. at Korattur Sub-station. 17

Kayathar 110 K.V. Sub-station.

PAPANASAM ELECTRICITY SYSTEM.
Nagercoil 66/11 K.V. Sub-station.

Gummidipundi 33/11 K.V. Sub-station.

Vellore Electricity System.—Kannamangalam 66/11 K.V. substation was commissioned with two 750 K.V.A., 66/11 K.V., power transformers and one Auto reclose for feeder control. The 230 K.V. line between Polar and Korattur, Polar and Salem was energised 66 K.V., supply from Andhra State was availed at Vellore substation from January 1960.

One 2,000 K.V.A., C & P 33/11 K.V., transformer was commissioned at Perunagar substation in place of the existing 500 K.V.A. unit.

One Magrini 66 K.V., Oil Circuit Breaker was commissioned at Vellore substation on Arni feeder.

Trichy Electricity System.—Trichy Electricity System started functioning from 1st July 1959 with headquarters at Tiruchirappalli.

Two 33 K.V. Oil Circuit Breakers at Neyveli sub-station were commissioned. 11 K.V., 1,000 K.V.A., booster No. 1 and II were Commissioned.

One 22 K.V., 2,500 K.V.A., booster was commissioned at Pondicherry. The second booster 2,500 K.V.A. hired to Pondy Electricity Department was erected at Villianoor.

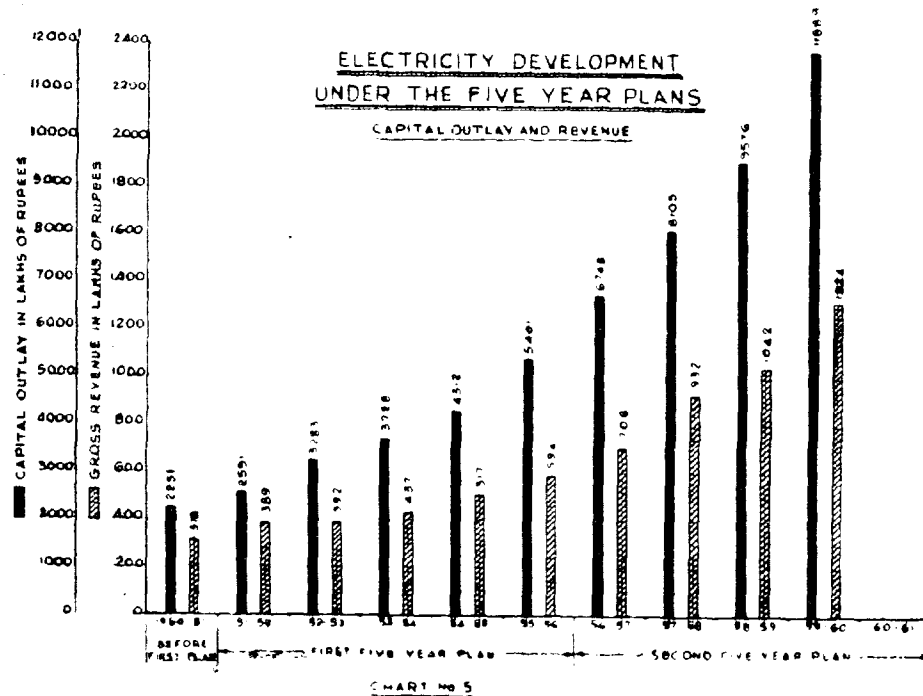

Twenty-six transformers with a total capacity of 148,750 K.V.A., were assembled and erected at various substations in the State.

1987 and 1988. (b) (5) DPP, (b) (5) ACP

SECTION III—FINANCE.

The capital expenditure incurred during 1959-60 amounted to Rs. 1379.00 lakhs. This does not include the debit raised by the Government of India for a sum of Rs. 9.34 crores towards the cost of materials supplied by Government of Canada under the Colombo Plan. Including this, the total expenditure works out to Rs. 23.13 crores. The capital outlay on schemes in operation to end of March 1960 was Rs. 9,280.64 lakhs.

The gross and net revenue earned during the year were Rs. 1,321.08 lakhs including other receipts like sale specifications, application fees, etc., and Rs. 577.51 lakhs respectively. The net Revenue furnished here does not take into account the interest on Loan, Head quarters expenses, etc. The return on operation capital works out to 14.27 per cent gross and 6.22 per cent net. The net profit after meeting interest, etc., is Rs. 27.60 lakhs which works out to 0.30 per cent on operation capital.

The Accounts Branch handled cash receipts of Rs 1.340 lakhs and cash payments of Rs. 1.375 lakhs during the year. In addition payments to the extent of about Rs. 1392 lakhs made by other adjustments and agencies like India Stores Department, High Commissioner for India, London, etc., were watched and adjusted.

Stores receipts amounted to Rs. 2.144 lakhs and issues amounted to Rs. 2.256 lakhs. 6,699 Contractor's bills amounting to Rs. 321.82 lakhs and 18,301 Supplier's bills amounting to Rs. 569.89 lakhs were checked and payments made during the year.

The following table gives the approximate financial position of the Board as on 31st March 1960 :—

Financial position as on 31st March 1960.

	RUPEES IN LAKHS.		RUPEES IN LAKHS.
Fixed assets in operation	8,280	Loan from State Government ..	10,281
Fixed assets under construction ..	2,443	Capital reserve and due to Govern- ment.	466
Service connection	117	Open market loan	550
Stores (including canadian stores) ..	762	Depreciation and Special Reserve ..	1,466
Advance payment to supplies ..	267	Amounts payable to supplies ..	— 20
Accounts receivable from consumers	209	Amounts payable to others ..	1
Other items	68	Reserve for bad debts	29
Investments from reserves ..	681	Pension Fund	20
Inter-departmental transfers pen- ding adjustment	31	Debt—redumption Fund	* 48
Cash	10	Net surplus	28
Total ..	12,868	Total ..	12,868

* Represents sinking fund contribution for the two loans of 1968 and 1971 floated by the State Electricity Board to be incorporated in the commercial accounts for 1959-60.

Expenditure on capital works.—The Budget provision for 1959-60 was 23.26 crores including the Canadian debit of Rs. 9.34 crores for materials supplied for the Kundah Hydro-Electric Project, under the Colombo Plan. The Budget provision has been kept up during the year with a small variation.

The Department had spent Rs. 64.82 crores in the first four years as against a total plan provision of Rs. 53.25 crores. With a budget provision of Rs. 12.08 crores for 1960-61 the final year of the Second Plan period the amount so far spent has exceeded the total provision. It was however agreed by the State Government that the total plan provision would be increased suitably based on the actual requirements.

The details of Revenue receipts and working expenses during 1959-60 were as under :—

Working expenses.	RUPEES IN LAKHS.	Gross receipts.	RUPEES IN LAKHS.
To Generation	257.69	By Domestic Light and power ..	255.68
„ Transmission	10.87	„ Commercial light and power ..	85.53
„ Distribution	68.43	„ Street lights	33.91

Comparative statements of the elements of operation and maintenance expenses of the Board in respect of units generated and revenue earned are given in separate statements—vide Appendices C1 to C3.

Decentralisation of Revenue Accounting System.—Separate Revenue Units were established with a view to decentralise the collection and accounting of the revenue receipts. During the current year Additional Revenue Units have been formed in the following places under the respective systems:—

Mettur.	Vellore.	Papanasam.	Madras.	Tiruchirappalli.
Erode Thiruppur.	Thirupathur.	Kallidaikurichi.	Poonamallee.	Dindigul.

Consequent on the formation of Trichy System and re-organisation of the systems, the Devakottai Revenue Unit under Papanasam system and Villupuram Revenue Unit under Vellore System were transferred under the newly formed Trichy System. The Kancheer unit under Madras System has been attached to Vellore System.

Revision of Tariff.—The revised tariff which was formulated to rationalise the existing tariff structure eliminating the Hydro-Electric and war costs surcharges came into force on 1st October, 1959. Thus for the departments as a whole, a grid tariff has come into effect during the year. The question as to how far the incidence and special guarantee in respect of agricultural services can be reduced is under consideration by the Board. The recommendations of the Committee appointed by Government are being examined.

Audit.—The monthly accounts of construction circle and operation systems were reviewed on the due dates. Audit notes of the Accountant-General disclosed objections mainly under (1) Excess over estimates, (2) want of estimates and (3) Want of stamped acknowledgment.

Systematic action was taken to clear these by enforcing special progress reports. The Residential Concurrent Audit was functioning in all the systems and circles.

Stores.—There were 94 Stores (14 Central and 80 Sub-stores) with materials worth Rs. 762.58 lakhs. The Stores were verified by independent stock verifiers. A statement showing the reserve limit of stock in each of System/Circle and the actuals are given below:—

Name of system or circle.	Number of		Reserve limit of stock.	Actuals as on 31st March 1960.
	Central Stores.	Sub- stores.

SECTION IV--ENGINEERING AND CONSTRUCTION.

I. PERIYAR HYDRO- ELECTRIC SCHEME.

Location—9.65 kilometers (6 miles) from Gudalur village in Madurai district.

Installed capacity—Initial 105,000 K.W.
Ultimate 140,000 K.W.

Gross Head—385 meters (1,263').

In service schedule—1958-59.

Estimated cost—Rs. 10.09 crores.

(a) *Civil Works and Power Station.*—The Scheme involves the construction of a Power Station in Madurai district for utilising the irrigation discharge of the Periyar lake. All the works of the scheme have been completed and the three units of 35,000 K.W., each have been commissioned, the first on 12th October 1958, the second on 17th February 1959 and the third on 28th May 1959 adding 1,05,000 K.W., installed generating capacity to the grid. The Periyar Power Station is the biggest hydro-station of the Madras Grid at present.

(b) *Transmission Lines.*—The following transmission lines included in the scheme have been completed :—

(i) Periyar-Theni-Madurai 110 K.V. Double Circuit line 128.748 kilometers (80 miles).

(ii) Theni-Sembatti 110 K.V. Single Circuit line 56.327 kilometers (35 miles).

(iii) Sembatti-Tiruchirappalli 110 K.V. Single Circuit line 107.826 kilometers (67 miles).

(iv) Sembatti-Karur 66 K.V. Single Circuit line 33.686 kilometers (52 miles).

(v) Thanjavur-Sivaganga 66 K.V. line 128.748 kilometers (80 miles). All works at the various sub-stations in connection with the above extensions have also been completed.

II. KUNDAH HYDRO-ELECTRIC SCHEME.

Location—Power House No. I at Kundapalam about 32.18 kilometers (20 miles) from Ootacamund in Nilgiris district.

Power House No. II on the left bank of Pegumbahalla at about 41.8 kilometers (26 miles) from Ootacamund in Nilgiris district.

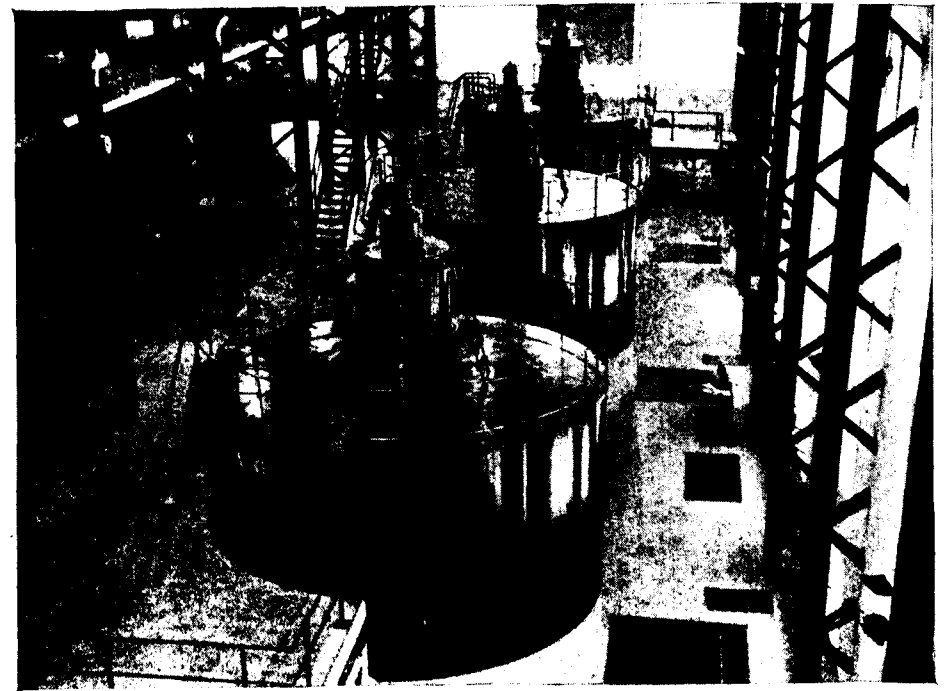

Installed capacity—

Power House No. I—Initial 40,000 K.W.
Ultimate 60,000 K.W.

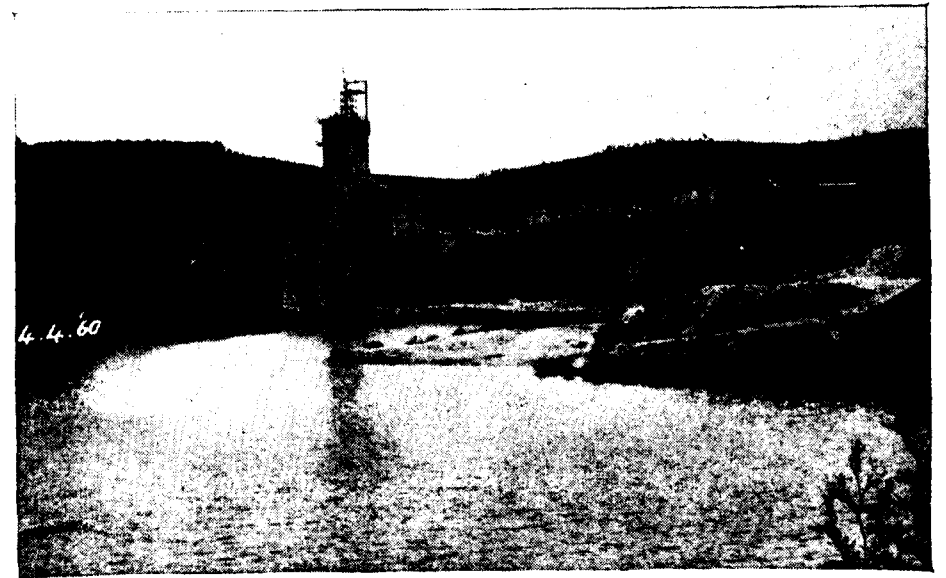

Gross Head—360 meters (1,180').

Power House No. II—Initial 140,000 K.W.
Ultimate 175,000 K.W.

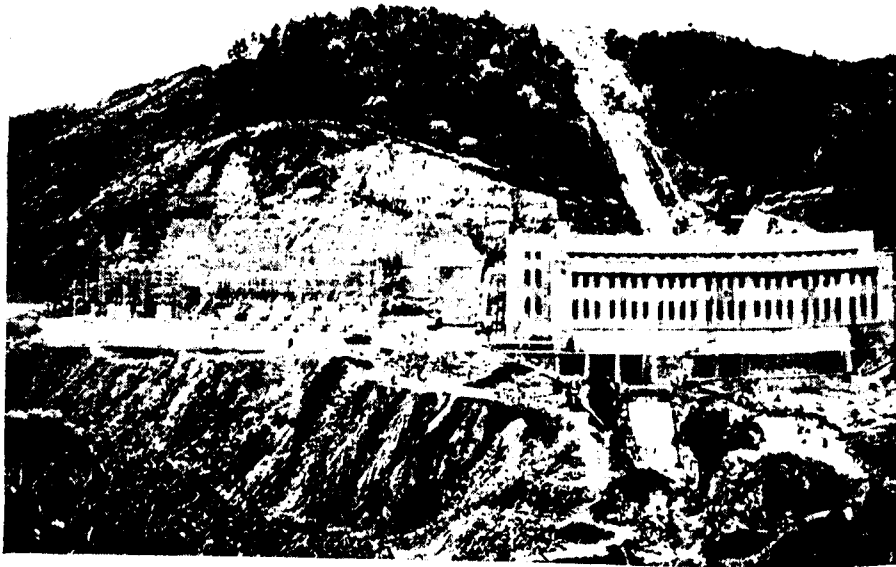

Gross Head—754 meters (2,470').

KUNDAH HYDRO-ELECTRIC SCHEME.
Emerald Dam.

KUNDAH HYDRO ELECTRIC SCHEME.
A view of the Avalanche Face of Interconnecting Tunnel.

KUNDAH HYDRO-ELECTRIC SCHEME.
Canada Dam (Avalanche Dam).

In service schedule.—First unit in Plant I by 1959-60 and the scheme in all respects by 1960-61.

(a) *Head Works and Power Station.*—Sixty per cent of masonry at Avalanche and Emerald Dams and 98 per cent of masonry at the Forebay Dam were completed up to the end of March 1960. Storage of water at the Avalanche-Emerald reservoirs commenced from the last week of January 1960.

All works relating to tunnel No. 1 Penstock No. I were completed and the first unit of 20,000 K.W. in Power House I was commissioned on 25th March 1960. The second unit is almost ready by the end of the year and will be commissioned shortly.

Tunnel No. 2 has been fully excavated and 65 per cent of lining works completed. Seventy-five per cent of erection of Penstocks for the first two lines and 25 per cent for the other two lines have been completed. The building of Power Station II is over and erection of first unit is well under way. This is expected to go into commercial operation early in September 1960 and the other three units before March 1961.

Building of masonry at Upper Bhavani Dam is in progress.

(b) *Transmission lines.*—The following transmission lines provided for under the scheme have been completed :—

(i) Kundah Power House No. I-Kundah Power House No. II-Tudialur 110 K.V. Double Circuit line 48.280 kilometers (30 miles).

(ii) Kundah Power House No. II-Salem-Villivakkam 230 K.V. Single Circuit line 461.881 kilometers (287 miles).

(c) *Sub-stations.*—Works on the 230 K.V. sub-station extensions at Salem and Villivakkam are in good progress.

III. SANDYNALLAH RESERVOIR SCHEME.

This scheme involves the building of a dam across the Sandynallah river about 9.65 kilometers (6 miles) from Ootacamund in the Nilgiris District with a storage capacity of 20 M.C. meters (716 M.C. feet). A pump-house will be erected and the water stored will be pumped into a flume channel for diversion to Pykara basin. This has been found economical than diverting the water stored through a tunnel as originally envisaged. The scheme on completion will enable additional generation to the tune of 54 million units at the existing Pykara and Moyar Power Stations. Works under this scheme are now under the control of a separate circle in order to increase the pace of progress. Building of masonry for the dam and excavation of the flume channel is under good progress.

The scheme is estimated to cost Rs. 125 lakhs and programmed for completion during 1960-61.

IV. TRANSMISSION LINES AND SUB-STATIONS.

This is a new scheme under the Second Plan for erecting transmission lines and distribution feeders to convey the additional power made available during the Second Plan period to the consumer including those in rural areas and is in addition to the transmission lines, etc., included in the major schemes like Periyar and Kundah.

Lines.—The following transmission lines were completed during the year :—

- (i) Salem-Attur-Neyveli 110 K.V. line 135.185 k.m. (84 miles.)
- (ii) Periyar-Kayathar-Arumuganeri 110 K.V. line 135.185 k.m. (84 miles).
- (iii) Kovilpatti-Eppodumvendran 66 K.V. line 32.187 k.m. (20 miles).
- (iv) Melakallur-Thuckalay 66 K.V. line 88.514 k.m. (55 miles).

Works on the following lines were under progress :—

- (i) Villupuram-Thyagadurgam 66 K.V. line 62.764 k.m. (39 miles).
- (ii) Karakudi-Therkur Natham 66 K.V. line 62.764 k.m. (39 miles).

Sub-stations.—New 110 K.V. sub-stations at Attur and Neyveli and a 110 K.V. switching station at Arumuganeri were commissioned during the year. Eppodumvendran 66/11 K.V. sub-station was commissioned on 15th August 1959. The erection of Nagercoil 66 K.V. sub-station has been completed except for the erection of 66 K.V., AB switches. At Kayathar sub-station the 6 M.V.A. auto-transformer was commissioned to give supply to caustic soda plant at Arumuganeri.

V. TECHNICAL SECTION.

The technical branch comprising of an electrical, a civil and an investigation sections continued to be busy with the preparation of designs, estimates, preparation of scheme reports, issue of specifications, scrutiny of tenders, awarding of contracts for sanctioned works and investigation of new schemes.

The very important works attended to by the three branches are given below :—

Electrical.—Revised scheme report for Periyar Hydro-Electric Scheme II stage extensions at an estimated cost of Rs. 94.00 lakhs was submitted for sanction.

Seventeen scheme reports at an estimated cost of Rs. 2,641.51 lakhs were prepared and submitted for sanction. The Kundah III stage extension scheme at an estimated cost of Rs. 2,281.84 lakhs is one among them.

Schemes sanctioned.—The following are some of the new schemes got sanctioned during the year :—

	Estimated cost. (RUPEES IN LAKHS.)
(i) Nevveli-Panruti 110 K.V. extension	14.25
(ii) Establishment of 66 K.V. sub-station at Arasaradi.	13.00
(iii) Establishment of 33/11 K.V. sub-station at China Bazaar, (Madras).	13.82
(iv) Enhancement of transformer capacities at Korattur-Avadi and Poodamallee.	11.61
(v) Establishment of 33/11 K.V. sub-station at B. and C. Mills, Madras.	9.97
(vi) Cherpet, 33 K.V. sub-station, Madras	9.66
(vii) Gingee 33 K.V. sub-station	8.11
(viii) Vridhachalam 33 K.V. sub-station and Tittugudi 33 K.V. sub-station.	11.97
(ix) Jayankondam 33 K.V. sub-station	3.62
(x) Kalavai 33 K.V. sub-station	10.18
Total ..	106.19

Revised estimates were got sanctioned for rationalisation of Pykara Power House under Pykara third stage extensions and prevention of electrical accidents.

Technical sanction for detailed estimates (155 numbers) amounting to Rs. 279.22 lakhs were got sanctioned.

Sixty-two specifications were issued during the year.

Contracts for the supply of coal to Basin Bridge Power House and Madurai Thermal Station, installation of Electrostatic precipitator for Steinmuller Boilers at Basin Bridge—valued Rs. 12,43,968.40, installation of Prefiltration and water softening plant valued Rs. 61,985, and other erection contracts for 230 K.V. lines Power House lighting installations at Kundah, etc., were attended to by the Electrical (Technical) Section.

Rural extensions.—Sixty-four major schemes estimated to cost Rs. 224.426 lakhs and eight hundred and twenty-four minor schemes estimated to cost Rs. 548.958 lakhs were submitted for sanction duly scrutinised.

Fifty-nine major schemes estimated to cost Rs. 180.657 lakhs and eight hundred and thirty-seven minor schemes estimated to cost Rs. 543.310 lakhs were sanctioned by the Board.

Two major schemes and thirty-one minor schemes costing Rs. 6,66,800 and Rs. 19,88,000 respectively were under scrutiny.

About 500 purchase orders to the value of Rs. 408.25 lakhs were placed during the year.

General.—The Board participated in the following exhibitions held at Madras and moffusal during the year 1959-60 :—

- (i) Red Cross Centenary Exhibition, Island Grounds, Madras.
- (ii) All-India Khadi, Swadeshi and Industrial Exhibition, Congress Grounds, Teynampet, Madras.
- (iii) Virudhunagar Municipal Exhibition, Virudhunagar.
- (iv) All-India Industrial Exhibition, Tuticorin.

Civil.—During the year, the civil branch was busy in preparing scheme reports, designs, specifications, tender sets, estimates, placing of contracts purchase orders, etc., in respect of all civil works pertaining to all systems, projects under execution of the Madras Electricity Board.

The following are some of the important specifications issued during the year :—

A. KUNDAL-HYDRO ELECTRIC SCHEME.

I. Construction of residential and non-residential buildings, hospital, post office and school (temporary) in Upper Bhavani Camp.

II. Construction of masonry and R.C.C. works in superstructure for Power House No. II.

III. Construction of special foundation for the River Crossing Towers in the Palar and Vagavati near Kancheepuram.

B. SANDYNALLAH RESERVOIR SCHEME.

IV. Specification for excavation, masonry and drainage system of—

(1) Pumping-cum-diversion tunnel from Sandynallah Reservoir to Pykara Reservoir.

(2) Sandynallah masonry dam.

(3) Pumping main for diverting water from Sandynallah Reservoir to Pykara Reservoir.

C. METTUR TUNNEL SCHEME.

V. Specification for excavation, masonry and drainage of system.

- (i) Low pressure tunnel, surge shaft and penstock tunnels.
- (ii) Construction of permanent quarters.

INVESTIGATION SECTION.

1. *Mettur Tunnel Scheme*.—The Mettur Tunnel Hydro-Electric Scheme which was sent up after a detailed investigation has been approved by the Planning Commission and Central Water and Power Commission during this year. They had also approved the proposal of taking up the preliminary works during the Second Plan period itself.

2. *Periyar Pumping Scheme—Periyar II Stage*.—A scheme for pumping and utilising the dead storage in the Periyar lake for additional power generation during the summer months has been studied and report submitted to the Board. This is being examined by the Central Water and Power Commission.

Arrangements have been made with the Central Water and Power Research Station, Poona, for geophysical survey of mapping rock contours under water.

The scheme provides for the installation of one more 35,000 K.W. unit at Periyar to increase the installed capacity of the station to 140,000 K.W.

3. *Kundah III stage extensions*.—A report on the Kundah III stage extensions involving installation of two more power-houses down below and an auxiliary power-house with a total installed capacity of 195,000 K.W. is under scrutiny by the Central Water and Power Commission. The approval of the Planning Commission is awaited.

Exploration works with core drills were completed for the Pegumbuhalla Forebay Dam and similar works are in progress at Pillur dam-site across Bhavani and along Tunnel No. 3.

In addition a third unit of 20,000 K.W. at Plant No. 1 and a fifth unit of 35,000 K.W. at Plant No. 2 are also envisaged. The total installed capacity that will be added during this stage is thus 240,000 K.W. and the energy output will be 1,125 million units per annum.

4. *Annamalai Hydro Electric Scheme*.—This is an inter-State scheme and is to utilise the waters of Sholiar Parambikulam rivers in the Annamalai Hills.

Detailed investigations on the scheme are in good progress.

5. *Upper Moyar Scheme*.—An estimate for Rs. 3.07 lakhs for the detailed investigation of the "Upper Moyar Scheme" has been prepared and submitted to the Board for sanction.

HYDRO-METRIC SURVEYS.

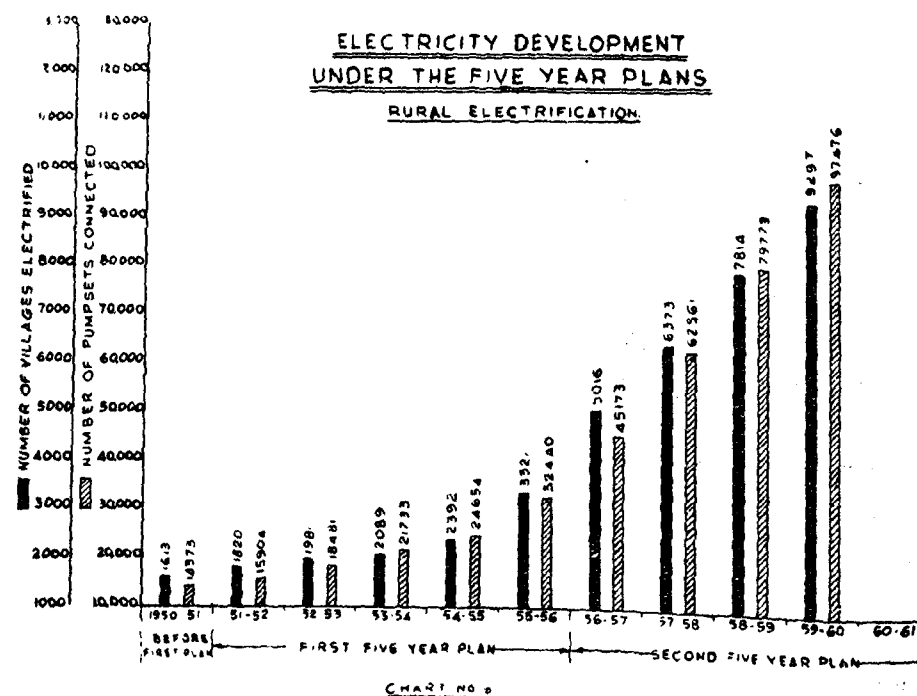

Collection and compilation of rainfall and run off figures of the various basins were continued. The number of rainfall stations under the Electricity Board rose from 482 to 497 and river flow stations from 54 to 55 during the year. The construction of measuring weirs, rainfall stations, etc., sanctioned under the Five-Year Programme were under various stages of progress.

SECTION V—RURAL ELECTRIFICATION.

The present Madras State comprises of an area of 129,583 square kilometers (50,032 square miles) and has as many as 19,911 villages, hamlets and 235 towns. The State population is 33.64 millions, out of which 25.23 millions, i.e., 75 per cent live in villages. To Madras, just as for the rest of India, rural electrification has therefore special significance as it would bring more amenities and prosperity to the rural population thus improving their economic conditions in general.

The Government of Madras and the Madras State Electricity Board have therefore been attaching considerable importance to rural electrification. Madras leads the rest of the States in the matter of number of villages electrified with 9,015 villages and hamlets and 284 towns electrified by 1959-60.

The growth of rural electrification during the Plan period can be seen from Chart No. 6.

During the first four years of the Second Five-Year Plan, 5,129 villages and towns have been extended supply, exceeding the target of 5,000 villages and towns fixed for the entire Second Plan period.

Madras State continued to maintain the lead in rural electrification in the fourth year of the Plan period also. During the year, as many as 1,150 villages hamlets and two towns have been electrified by the Board and 31 villages by private licensees bringing the total number of villages, hamlets and towns served with electricity to 9,013 and 284 respectively as on 31st March 1960.

The Electricity Board spent a sum of Rs. 5.49 crores during this year on rural electrification, 2,832.763 kilometers (1,760.522 miles) of H.T. lines and 4,604.791 kilometers (2,861.531 miles) of L.T. lines were erected during the year.

AGRICULTURAL DEVELOPMENT.

As in the previous year, top priority is given in giving supply to agricultural loads. At present electricity is used in villages chiefly for lift irrigation. About 28 per cent of power consumed in the State is used up by agricultural pumpsets.

The demand for power for agricultural pumpsets is phenomenal in this State, with more than 1,000 additional pumpsets connected every month. The increased use of electricity for pumpsets can be seen from chart No. 6. The achievements every year in connecting up the number of pumpsets surpassed the annual target of 10,000 as seen below :—

Year.	Number of pumpsets.	Connected load in K.W.
1956-57	12,553	47,530
1957-58	16,956	61,442
1958-59	17,073	60,055
1959-60	18,573	62,434

In respect of utilisation of power for irrigation, Madras State ranks first by way of number of consumers, consumption and connected load.

With a view to encouraging the use of electricity in agriculture, the Department offer electricity at very cheap rates, viz., 7 nP. per unit. They are generally considered as essential consumers and new connection for agricultural purposes are treated on a priority basis as they help to increase the food production. Based on the representations made by agriculturists, the State Electricity Board has offered many concessions to the ryots as and when considered necessary.

During the year, supply was extended to 18,573 agricultural pumpsets by the Department and to 599 by the licensees.

Details of agricultural services with their connected load in the different areas at the end of 1959-60 are given below :—

Name of system.	Number of services connected in 1959-60.	Connected load in K.W.	Total number of services at the end of 1959-60.	Connected load in K.W.
(1)	(2)	(3)	(4)	(5)
Pykara	2,987	11,575	14,967	63,574
Mettur	4,298	15,332	23,861	91,991
Papanasam	2,265	6,639	11,407	35,364
Madras	1,915	5,814	7,493	33,235
Vellore	5,478	16,957	24,646	78,993
Tiruchirappalli	1,630	6,057	10,389	42,022
Total	18,573	62,434	92,766	345,179
Licensees	599	1,651	4,710	16,483
Grand total	19,172	64,085	97,476	361,662

Besides lighting and agriculture, electricity is used in rural areas for processing of locally grown agricultural products like rice hulling, groundnut decorticating, oil pressing, sugarcane, crushing, tape weaving, etc. There are more than 6,000 such rural industries having the benefits of electricity at the end of the year.

The Central Government gave assistance to an extent of Rs. 309.79 lakhs for schemes for expansion of power facilities for increasing employment opportunities to end of March 1960, against the promised assistance of Rs. 319.14 lakhs under the programme. A sum of Rs. 339.32 lakhs was spent till March 1960 in this regard.

Seven hundred and eighty-eight Rural Extension Schemes costing Rupees 767.383 lakhs were sent for sanction and 874 schemes costing Rs. 717.3 lakhs were sanctioned during the year.

DEVELOPMENT BLOCK AREAS.

In the Development Block areas about 313 schemes were completed and 458 schemes were in different stages of progress during the year.

An abstract of the details of these schemes is given below :—

	Community Development Blocks.	Stage I, Stage II and Pre-extension Blocks.	Total.
	(1)	(2)	(3)
Number of villages benefited ..	141	415	556
Schemes completed—			
Number	64	249	313
Estimated cost	4,637,470	14,126,423	18,763,893
Expenditure incurred	1,262,157	6,629,287	7,891,444
Schemes in progress—			
Number	81	377	458
Estimated cost	9,223,975	33,437,563	42,661,538
Expenditure incurred	2,931,015	9,917,583	12,848,598

The total expenditure in Community Development Schemes Stage I, Stage II and Pre-extension schemes is Rs. 2,07,40,042.

Harijan Colony Electrification Schemes.—A sum of Rs. 1.5 lakhs was placed at the disposal of the Board by the Government of Madras for the electrification of Harijan Colonies and an expenditure of Rs. 1.59 lakhs was incurred during the year. About 132 Harijan Colonies were electrified during the year.

INSULATION TESTING SYSTEM.

Tests are being conducted on insulating materials (motorettes) under tropical conditions, in collaboration with the Research Institute of Bratislava, Czechoslovakia.

INSULATION CONTAMINATION PROBLEM.

Contamination of insulators is predominant in Ramanathapuram area due to pollution of the atmosphere by salt-laden sea breeze. As a trial measure, Silocone MS4 compound have been ordered for coating the insulators.

High hydro-carbon grease had also been proposed to be applied on insulators for studying their effect on the following lines :—

1. Tondiarpet-Ennore line.
2. K.V. line near Madukkarai Cement Factory.
3. Paranyakudi-Ramanathapuram 22 K.V. line.
4. 11 K.V. line between Nagapattinam sub-station to Nagapattinam Electric Supply Corporation.
5. Chidambaram-Portnovo line.

HOT LINE WORKS IN THE DEPARTMENT.

During the year, hot line maintenance i.e., doing maintenance works on live lines was introduced in the Department.

By this method of maintenance continuity of power supply is ensured and interruption of supply which causes hardship to the domestic consumers and which spells a grave loss to the industrialists and other bulk consumers is avoided.

Two sets of tools, one procured under technical Co-operation Mission Aid and another under the Canadian Aid, are available with the Board at present.

With these tools, two crews of nine trainees who have had specialised training under Technical Co-operation Mission Experts in Bangalore are on the job handling the hot line works, one at Korattur and the other at Coimbatore. Another batch of five trainees has been deputed for training at Bangalore in March 1960 and these trainees are expected to complete the training by October 1960.

TECHNICAL TRAINING SCHEME AT METTUR.

The technical training centre at Mettur Dam was started in 1947 to give intensive training to operation subordinate service and work-charged members who are considered suitable for the Foreman type of work of the Electricity Board in batches, each consisting of 20 members, for a period of six weeks. Consequent on the rapid expansion of rural electrification works, the period of training was later reduced to one month from August 1956 and the number of trainees increased from 20 to 40 for each batch. The total number of persons trained during the year 1959-60 was 382 and the total number of persons trained so far was 2,967 at the end of the year.

SECTION VI—MANUFACTURE AND TESTING ACTIVITIES.

With a view to carry out periodical tests on electrical plant and equipment and also to evolve a high standard of operation and maintenance, the Board has a testing organisation in each of the operating systems where all meters and relays are tested and repaired. Telephone equipments are also tested at these stations. For overhaul of transformers, circuit breakers, etc., a special maintenance organisation is in existence in each of the systems.

One hundred and twenty-three testing resistances, 80 flag relays, 20 alarm bells, 20 Oil Circuit Break inter-locks and 25 auto transformers were made in the testing laboratory at Coimbatore.

Four H.T. portable telephones with H.T. protection and one telephone panel with necessary protection and one wall telephone were rigged up in Mettur Laboratory.

The rapid expansion programme of the Electricity Board resulted in a steady increase in the demand for tested meters. The Meter and Relay testing organisation of the Board continued to show good progress and fully met the increased demand of the tested meters during the year. One lakh thirty-eight thousand four hundred and twenty meters and 1,393 relays were tested and 125 sick transformers repaired during the year. Two lakhs sixty-four thousand five hundred and fifty-two liters (58,195 gallons) of transformer oil were reconditioned and tested for use.

RESEARCH AND STANDARDISATION.

Proposals for the formation of a research division attached to the technical section at Madras have been submitted to the Board in order to make a detailed research on the various problems relating to the operation and maintenance of power systems. To make a beginning towards this, the following special equipments have been purchased :—

- (1) 75 K.V., D.C., Tester.
- (2) 10 K.V., Portable Schering Bridge.
- (3) Faultalyser.
- (4) ' Bin Aural '.

It is proposed to acquire a six element cathode ray oscillograph and a terraohmeter to measure high resistance in connection with the testing of insulation systems.

NET WORK ANALYSER STUDIES.

During June 1959 power system studies at the Net Work Analyser in the Indian Institute of Science, Bangalore, were made to study the operating conditions in Madras grid in 1965-66 with special reference to commissioning of Mettur Tunnel Scheme.

MANUFACTURE OF LINE MATERIALS.

(a) *Mettur Workshops*.—The year 1959-60 was the twenty-fifth year of operation of Mettur Workshops.

The total turnover of the workshop for the year was Rs. 58.02 lakhs and this was made up of the following :—

Particulars.	Tonnes.	Tonnage.	Value.
(1)	(2)	(3)	(4)
1 Tower materials	1,362	1,340	17.08
2 Line materials.. .. .	2,622	2,581	40.94
Total ..	3,984	3,921	58.02

TOWER MANUFACTURE.

During the year transmission line tower materials were manufactured and supplied for the following transmission lines :—

110 K.V. lines—

1. Attur-Neyveli.
2. Neyveli-Tiruchirappalli-Dalmia
3. Spur line to Tiruvallur.
4. Korattur-Ennore line.

110/230 K.V. line—

5. Tudialur-Madurai line.

Structure materials for the following sub-stations were also supplied :—

1. Sembatti sub-station.
2. Karaikudi sub-station.
3. Tiruchirappalli sub-station.
4. A. Therkur sub-station.
5. Natham sub-station.
6. Mettur sub-station.

Three thousand sets of Aluminium arcing horns were manufactured and supplied for the 230 K.V. Kundah-Villivakkam line.

Thirty-six thousand one hundred and thirty-three metal pins for 22 and 33 K.V. insulator shells and 323 sets of R.C.C. formers were manufactured and supplied.

TOWER TEST.

Five tests were carried out during the year, bringing the total so far done to 74. In addition seven tests were carried out for the purposes of finalising a design for the 110 K.V. and 66 K.V. single pole supports fabricated out of R.S.Js.

MADRAS MYLAPORE WORKSHOP.

The workshop at Mylapore, Madras, continued to show progress in production. The total value of production during 1959-60 was about Rs. 15 lakhs. Line materials to Vellore and Tiruchirappalli System were supplied during the year.

The following are some of the more important materials manufactured and supplied from this workshop :—

- (i) 16,000 arcing horns for the 230 K.V. line.
- (ii) 5,000 aluminium cable support clamps to Kundah.
- (iii) A.C. Panels for Acharapakkam, Neyveli and Kayathar sub-stations.
- (iv) The work of fabricating 11 K.V. Kiosks.

utilising the released indoor Oil Circuit Breaker's (capacity varying from 50 to 250 M.V.A.) was further standardised during the year. Twelve kiosks were manufactured and erected in Guduvancheri, Madurantakam, (2) Kadam-bathur, Paramakudi, Arkonam, Perunagar, Gummidipundi, Ponneri, Sunkuvarchatram and Mettur sub-stations.

The programme of scrap utilisation was further standardised during the year. The following are the quantities of scrap materials recovered and utilised :—

	Tonnes.	
(i) Iron and steel scrap	112	(110 tons) approximate.
(ii) Copper scrap	8	(8 ") "
(iii) Aluminium scrap	44	(43 ") "
(iv) Underground cable scrap	36	(35 ") "
(v) Lead scrap	2.5	(2.5 ") "
(vi) Dirty transformer oil	77,281 liters	(17,000 gallons.

Various types of construction and line materials such as agricultural boxes, formers stay rod and bow; street light fixtures phase cross arms and clamps, costing about Rs. 4.9 lakhs were manufactured in the Regional Workshop at Coimbatore.

Wood pole treatment for 741 numbers and fabrication of poles for 616 numbers were also done in this workshop.

MANUFACTURE OF LINE SUPPORTS.

Owing to the general shortage of steel and the increased production of cement, reinforced cement concrete poles are extensively used as line supports at all locations including special locations and angles. These are not however used at locations where transport is difficult and costly.

Almost the entire requirements of line supports for rural electrification are met from these poles manufactured by the Department.

ADMINISTRATION REPORT OF THE
MADRAS STATE ELECTRICITY BOARD FOR 1959-60.

The systemwise break up of R.C.C. poles manufactured during the year is given below :—

Pykara	10,894
Mettur	19,894
Papanasam	17,172
Madras	5,617
Vellore	23,404
Tiruchirappalli	14,862
Total ..	91,843
By contractors	3,200
Grand Total ..	94,843

In order to economise the cost of the R.C.C. poles, the coal fly-ash available at Basin Bridge Thermal Station and Samayanallur Power House is substituted for cement by 30 per cent by weight, and test poles were cast and found to give excellent results.

WOODEN POLES.

During the year 2,274 teak, 2,225 bluegum, 56 wattle, 147 palmyrah and 4,032 other species of wood poles were also purchased and used as line supports.

SECTION VII—LICENSEES UNDERTAKING AND INSPECTORATE.

Electrical Undertakings.—The number of Electric Licensee undertakings at the close of the year was 13. Of these, 5 are managed by local bodies and the rest by private companies.

No new licence was granted during the year.

Acquisition.—There was no fresh acquisition of Electrical Undertakings under the provisions of the Madras Electricity Supply Undertakings (Acquisition) Act, 1954. The Kamachandrapuram and Ponnamaravathy licensees objected to the amount of final compensation declared by Government and have submitted representations.

Proposals for payment of additional compensation were sent in respect of Dindigul, Tiruppur, Kancheepuram, Periakulam (Local Authority Undertakings), East Ramanathapuram, Ambur-Vaniambadi and Natarasankottai Electrical Undertakings while additional compensation was declared in respect of Dindigul undertaking only.

Arbitration.—The East Ramanathapuram Electrical Undertaking has submitted the inventory assets, claim statements, etc., in respect of buildings, etc., at Katuparamakudi,—and the proposals for payment of compensation based on compromised terms have been furnished to the Board.

The Accredited Representative of the South Arcot Electrical Undertaking contended that he should be paid separately for the value of stores taken over by Government/Board and that the arrears of energy charges due to the Government/Board should not be deducted from compensation. The matter was referred to the arbitration, as desired by the Accredited Representative, but the Arbitrator rejected the Accredited Representative's contentions and passed the award in favour of Government/Board. The Accredited Representative filed a petition in the High Court. The Board is contesting the proceedings and filed the counter statement on 24th November 1959.

The above Licensee has also claimed the "General Reserve Fund" and the balance of Net Revenue Account as per balance sheet on the vesting date and requested that the matter be referred to arbitration.

With regard to the non-acceptance of the liability by the Board in respect of final dividends declared by the licensee on equity shares and preference shares for the years 1956 and 1957, the Accredited Representative of the Company requested that the matter be referred to arbitration. The matter has been referred to Government.

The Accredited Representative of the Devakottai Electrical Undertaking contended that (i) Government are not entitled to treat the cyclone damage expenses and supervision charges thereon as expenditure in computing the net annual profit for the year 1955-56 and (ii) Government are not entitled to deduct from the compensation payable the amount of arrears of energy charges, audit fees and electricity duty. This was also referred to arbitration.

Loans.—A programme for granting loans to private licensees to the extent of Rs. 25 lakhs annually commencing from 1960-61 has been formulated by the Government for rural electrification in licensees' areas. This is expected to be granted to licensees as Board's loans.

So far no loans have been granted by the Board to licensees. The Kumbakonam Electric Licensee has applied for a loan of Rs. 5 lakhs from the Board under the Scheme.

The Kumbakonam Electric Supply Corporation and the Negapatam Electric Supply Company were granted permission to obtain loans to an extent of Rs. 2 lakhs and Rs. 2.5 lakhs respectively from the Madras Industrial Investment Corporation, Limited, by mortgaging the assets of the undertakings.

The South Madras Electric Supply Corporation, Limited, was granted permission to obtain a temporary loan of Rs. 7 lakhs on the security of stores from the scheduled banks. The sanction is only up to 31st March 1961.

The following licensees were permitted to get loans from the Central Bank of India, Limited, temporarily for the period during 31st March 1961 by mortgaging the assets of the undertakings—

- (1) Salem-Erode Electricity, Distribution Company, Limited—Rs. 20 lakhs.
- (2) The Tinnevely-Tuticorin Electric Supply Company, Limited Rs. 15 lakhs.

Applications for loans of special rates collected were received from Kumbakonam Electric Supply Corporation, Negapatam Electric Supply Corporation, South Madras Electric Supply Corporation and Tinnevely-Tuticorin Electric Supply Corporation are under consideration of the Board.

The repayment of loan granted by the Government to the South Arcot Electric Licensee which undertaking has already been acquired is still pending.

The Coimbatore Municipality has not yet executed the bond in respect of the loan taken.

The South Madras Electricity Supply Corporation, Limited, applied for permission for the issue of fresh shares to the value of Rs. 14 lakhs. Estimates of capital expenditure for obtaining the concurrence of the Board under paragraph XV of the sixth schedule of the Electricity Supply Act was also submitted by the licensee.

HYDRO-ELECTRIC ENERGY SURCHARGE.

The Madras Electricity Supply Surcharge Order, 1958 has been withdrawn from 1st October 1959 the date on which revised tariffs came into force. As such no hydro-electric energy surcharge is being levied from 1st October 1959.

Accidents.—The number of electrical accidents both in the licensees and Madras State Electricity Board's areas during the year was 371 out of which 167 proved fatal involving the death of 177 persons. Details of the accidents are given in appendix F-7.

Audit.—Nine accounts in respect of eight private electric licensees were audited by the Chief Accountant (Audit) and the staff appointed therefor.

The total number of inspections made by the State Electricity Board staff on behalf of the Government are as follows:—

Neon signs.	H.T. routes.	H.T. Installations.	Cinemas.		Total.
			Permanent.	Travelling.	
79	55	41	102	617	719

In addition to the licensees who converted their tariffs into decimal coinage last year, the Coimbatore Municipality and the Tanjore Municipality have also adopted the system of decimal coinage for their tariffs during this year.

The Madurai Municipality and the Shencottah Electric Supply Agency have submitted proposals for converting their tariffs into decimal coinage and these have been forwarded to Government.

The following licensees have revised their rates of supply during the year—

(1) South Madras Electric Supply Corporation, Limited, Tiruchirappalli.

(2) Kumbakonam Electric Supply Corporation, Limited.

(3) Nagapatam Electric Supply Company, Limited.

(4) Vellore Electric Corporation, Limited.

(5) Salem-Erode Electricity Distribution Company, Limited.

(6) Tinnevely-Tuticorin Electric Supply Company, Limited.

The Coimbatore licensee has increased the H.T. tariff rate by 30 per cent.

SECTION VIII—PERSONNEL ADMINISTRATION.

Sri S. K. Chettur, I.C.S. (Secretary to Government, Home Department) continued to be the part-time Chairman of the Board till 31st July 1959. Sri W. R. S. Sattumanadan, I.C.S., (Chief Secretary to Government) was appointed part-time Chairman of the Board from 1st August 1959 up to 15th November 1959. From 15th November 1959, Sri W. R. S. Sattumanadan was appointed full-time Chairman of the Board for one year. The terms of the other members was extended up to 15th November 1960.

There was considerable expansion in the departmental organisation during the year.

As the work-load of the operating systems had increased considerably, a new operation and maintenance system was formed at Tiruchirappalli during the year and jurisdiction of the systems was reorganised in July 1959.

To attend to the preliminary works connected with the Mettur Tunnel Scheme, one Civil Division was sanctioned with two sub-division and the required field staff.

To attend to the increased civil maintenance works of the board, one more Civil Division was sanctioned under the Superintending Engineer, Technical (Civil).

As the work-load of the Madras System had increased considerably, one more division was sanctioned for attending to the increased Operation and Maintenance Works. One additional division was sanctioned for the Papanasam System also with headquarters at Tirunelveli.

One Unit of Kundah Power House I was commissioned in March 1959. For the Operation Maintenance of the Power House, one division was sanctioned with the required subdivisions on the Electrical and Mechanical side of the Power House.

The construction and commercial works were reorganised during the year. In order to have better co-ordination between commercial and construction works and to reduce the timelag between the investigation of a scheme and its execution, each division was put in charge of investigation as well as construction works.

The headquarters of the Theni Operation and Maintenance Division was shifted to Dindigul. The headquarters of the Hydro-Electric Surveys Division was shifted from Madras to Coimbatore during the year.

Pursuant to the policy of locating the revenue units nearer the consumers, one revenue unit was formed at Tirupattur in Vellore System and one more at Kallidaikurichi in Papanasam System.

Consequent on the completion of the field works of Periyar Hydro-Electric Scheme, the Periyar Circle was closed.

To attend to the Electrical and Mechanical work at Sandynallah and Upper Bhavani Dam works, one Electrical and Mechanical Division was sanctioned.

ORGANISATION.

Consequent on the completion of Periyar-Kayathar-Arunmuganeri Line, and the stringing of the second circuit 110 K.V. line from Theni-Sembatti-Trichy and Thudialur-Mathurai 110/230 K.V., single circuit line, the headquarters of the Executive Engineer, Transmission Line Construction, Chinnamannur and the Executive Engineer, Transmission Line Construction, Rajapalayam, were shifted to Dindigul and Palani respectively.

An organisation chart of the Board as on 31st March 1960 is given on the opposite page.

RECRUITMENT.

Junior Engineers and Supervisors.—Recruitment to the posts of Supervisors and Junior Engineers in the Electrical, Mechanical and Civil Branches was conducted by the Selection Committee consisting of Sri V. P. Appadurai, Chief Engineer for Electricity and Member of the Madras State Electricity Board and Sri K. R. Rama Ayyar, Accounts Member, Madras State Electricity Board. For 470 vacancies advertised, 411 applications were received and of these, 308 candidates who were qualified were called for interview. Two hundred and twenty candidates were selected for the posts of Junior Engineers (Electrical), Junior Engineers (Mechanical), Supervisors (Civil) including Junior Engineers (Civil), Supervisors (Electrical), II Grade and Supervisors (Mechanical), II Grade, based on the results of *viva-voce* Test.

2. Direct recruitment to posts of Tracers, Draftsman, III Grade and Draftsman, II Grade, was conducted by the Chief Engineer for Electricity.

Thirty-five vacancies were advertised for the posts of Tracers. Ninety-two applications were received in response to the advertisement and 63 qualified applicants were given a tracing test and 35 candidates were selected.

For 96 vacancies advertised for the posts of Draftsman, II Grade and Draftsman, III Grade, 87 applications were received. Only 50 candidates were qualified and they were called for interview and of these 35 candidates were selected.

Ministerial.—Applications were invited for 600 posts Lower Division Clerks, Store-keepers, II Grade Typists and Steno-typists, against vacancies expected to arise in future. The last date for receipt of applications was 1st February 1960. Over 13,600 applications had been received. Selection will be made during 1960-61.

Improvement in service conditions.—The revision of scales of pay and other benefits sanctioned in Board's Proceedings Ms. No. 236, dated 16th February 1959 and mentioned in detail in the last year's Administration Report (1958-59) have resulted in an additional expenditure of about Rs 65 lakhs per annum.

Five thousand and eighty-five posts were sanctioned for absorption into Operation Subordinate Service and Construction Subordinate Service from Nominal Muster Roll and Workcharged Establishment during the year 1959-1960 as against the quota of 5,000.

The minimum wages of the Boy Mazdoor, Girl Mazdoor, Women Mazdoor, Women Scavenger in Nominal Muster Roll in Kundah Project were raised in October 1959.

Sanction was accorded for grant of maternity leave benefits to the women scavengers in Nominal Muster Roll employed in Emerald, Kundah and Upper Bhavani Circles and for supply of uniforms to Sanitary workers in Nominal Muster Roll and Workcharged Establishment employed in Avalanches, Emerald, Kundah and Upper Bhavani works.

A uniform procedure of paying all-in-wages, i.e., wages inclusive of Dearness Allowance was introduced for Nominal Muster Roll throughout the Department.

RETIREMENT AND RE-EMPLOYMENT.

1. Sri V. K. Govinda Menon, Chief Operation Engineer, proceeded on leave preparatory to retirement from 13th May 1959 and retired from service on 13th September 1959 forenoon.

2 Sri G. Venkataraman, Chief Construction Engineer, retired from service on 15th July 1959 forenoon. He was re-employed for a period of six months from 15th July 1959 and was again re-employed for a further period of six months from 15th January 1960.

3. Sri H. Raghavendra Rao, Superintending Engineer (Civil) retired from service on 14th June 1959 forenoon. He was re-employed for a period of six months from 14th June 1959 and was again re-employed for a further period of one year from 14th December 1959.

4. Sri N. V. Narayanaswamy, officiating Superintending Engineer (Electrical), on deputation in the Bihar State Electricity Board, retired from service on 15th November 1959.

5. Sri M. R. B. Rao, Special Cadre Divisional Electrical Engineer, retired from service on 14th January 1960. He was re-employed for a period of six months from 22nd January 1960.

POSTINGS AND TRANSFERS.

6. Sri P. A. Krishnan, Superintending Engineer, was promoted as Chief Operation Engineer and posted as Chief Operation Engineer (North), *vice* Sri V. K. Govinda Menon. Sri P. A. Krishnan assumed charge as Chief Operation Engineer (North), on 13th May 1959.

7. Sri K. Srinivasaraghavan, Divisional Electrical Engineer, was re-appointed as Superintending Engineer (Electrical) and posted as Superintending Engineer, Technical (Electrical), Madras from 13th May 1959, *vice* Sri P. A. Krishnan.

8. Sri P. K. Narayana Rao, Divisional Electrical Engineer, was promoted as Superintending Engineer (Electrical) and posted as Superintending Engineer (Generation), Madras Electricity System, *vice* Sri B. V. Ananda Rao, who was transferred. Sri P. K. Narayana Rao, assumed charge as Superintending Engineer (Generation), Madras Electricity System, on 13th May 1959.

9. Sri S. Krishnaswamy, Divisional Electrical Engineer, was promoted as Superintending Engineer (Electrical) and posted as Superintending Engineer (Electrical), Kundah Hydro-Electric Scheme, Circle No. III. He assumed charge as Superintending Engineer, Kundah Hydro-Electric Scheme, III Circle, on 1st August 1959.

10. Sri S. N. Ramachandra Rao, Superintending Engineer (Generation), Hydro Areas, Erode, proceeded on leave for four months from 4th September 1959.

11. Sri T. R. Ramachandran, Divisional Electrical Engineer, was promoted as Superintending Engineer (Electrical) and posted as Superintending Engineer (Generation), Hydro Areas, Erode, *vice* Sri S. N. Ramachandra Rao, Superintending Engineer (Generation), Hydro Areas, Erode, who proceeded on leave. Sri T. R. Ramachandran assumed charge as Superintending Engineer (Generation), Hydro Areas, Erode, on 5th September 1959. On return from leave, Sri S. N. Ramachandra Rao, was posted as Superintending Engineer (Generation), Hydro Areas, Erode, reverting Sri T. R. Ramachandran as Divisional Electrical Engineer.

12. On the formation of a new Operation and Maintenance System with headquarters at Tiruchirappalli Sri B. V. Ananda Rao, Superintending Engineer (Generation), Madras Electricity System, was transferred as Superintending Engineer, Tiruchirappalli Electricity System. He assumed charge at Tiruchirappalli on 20th May 1959.

DEPUTATION.

13. Six officers of the Board, viz., Sarva Sri P. S. Subramanian, Divisional Electrical Engineer, S. Kumaraswamy, Executive Engineer (Civil), Sri A. Subramaniam, Divisional Electrical Engineer, C. Sanjeevi, Assistant Engineer (Electrical), Sri M. Anwar Pasha, Assistant Engineer (Electrical) and R. Balasubramaniam, Assistant Engineer (Electrical), were deputed to Canada under Colombo Plan. These six officers were deputed for training in the Operation and Maintenance of turbines and generators in connection with the Kundah Project under the Colombo Plan.

14. Sri S. Raman, Divisional Electrical Engineer, was deputed to United State of America for a period of about six months under Technical Co-operation Mission Programme for training in latest practices in generating stations, switchgear, transmission and distribution.

15. Sri N. C. Kumaran, Divisional Electrical Engineer and Sri K. S. Swaminathan, Assistant Engineer (Electrical), were deputed to United Kingdom for a period of about six months under the Colombo Plan for training in Design, Construction and Operation and Maintenance of Hydro-Electric Power Stations.

16. Sri R. Ramakrishnamurthy, Assistant Engineer (Electrical) and Sri S. Sivasubramaniam, Assistant Engineer (Electrical), were deputed to United Kingdom for a period of about six months under Colombo Plan, for training in Operation of Power Systems and Relay Tests.

A further batch of Engineers is expected to be sent on deputation for foreign training during 1960-61.

SECTION IX—PROGRAMME FOR 1960-61.

Some of the important works programmed for the year 1960-61 are discussed below.

PROJECTS.

1. *Kundah Hydro-Electric Scheme.*—The balance of 40 per cent work of building masonry will be completed at Emerald and Avalanche Dams. The second unit of 20,000 K.W. will be commissioned in Power House No. 1.

The Kundahpalam Forebay Dam, Tunnel No. 2 and the crection of penstocks for all the four lines will be completed in all respects and all the four generating sets of a total installed capacity of 140,000 K.W. will be commissioned.

Construction of masonry at the Upper Bhavani Dam and excavation of the tunnel that will connect the Upper Bhavani Reservoir at Avalanche Emerald reservoir will be in an advanced stage of progress.

The 230 K.V. Sub-stations at Salem and Villivakkam will be completed.

2. *Sandynallah Reservoir Scheme.*—Building of masonry for the Sandynallah dam will be in an advanced stage of progress while the works relating to flume channel and the pump-house will be completed.

3. *Transmission lines and sub-stations.*—The following transmission lines, will be completed during the year :—

(a) Stringing of second circuit of Theni-Sembatti-Trichy 110 K.V.

(b) Villupuram-Thiyagadurgam 66 K.V. line.

(c) Karaikudi-Therkur-Natham 66 K.V. line.

Work on the following transmission lines will be under advanced stage of progress :—

230 K.V. lines.

(a) Mettur-Salem.

110/230 K.V. lines.

(a) Tudiyalur-Madurai.

(b) Neyveli-Dalmia.

110 K.V. lines.

(a) Conversion of Madurai-Sembatti 66 K.V. line to 110 K.V. line.

(b) Arni-Kaveripakkam-Kanchee.

(c) Villupuram-Arni.

(d) Neyveli-Panrutt.

(e) Villivakkam-Vilupuram stringing of second circuit.

(f) Namakkal-Dalmia.

66 K.V. lines.

(a) Arni-Vadakkathipatti-Gudiyattam.

New 110 K.V. Sub-stations at Mettur Dam, Arni, Mettupalayam, Ennore and Tiruvallur and 66 K.V. sub-stations at Vickramasingapuram, Gudiyattam, Vaniyambadi, Therkur, Natham, Arasarady and Thiyagadurgam will be commissioned during the year apart from extensions to a number of existing sub-stations.

4. *Rural electrification.*—Electricity will be extended to an additional 1,000 villages and towns and not less than 15,000 pumpsets will be connected up during the year.

(iii) Distribution	1,21,14,400
(iv) suspense	9,83,700

A.A. Papanasam Plant Extensions, II Stage 65,92,700

A.C. Establishment of 66/11 K.V.S.S. near Arasadi in Madurai West Area. 7,98,800

A.D. Periyar-Kayathar-Arumuganeri line 11,40,000

A.E. Neiveli Transmission Scheme Second stage 37,84,400

A.F. Melakkallur-Nagaroil-Thuckalay 66 KV. extension 100

A.G. Extension of 66 KV. S.C. line from Karaikudi to A. Therkur and Natham and establishment of 66/11 K.V.S.S. at A. Therkur and Natham. 100

A.H. Periyar-Hydro Electric Scheme 6,58,900

A.J. Kundha-Hydro-Electric Scheme 2,80,45,300

A.K. Sandynallah Reservoir Scheme 30,49,400

A.L. Supply of power to Southern Railway for electrification of track between Madras and Villupuram. 100

A.M. Chingleput Kancheepuram-Arkonam Extension Scheme 100

II. Thermo Electric Schemes—

A. Madras Thermal Scheme—

(i) Transmission	9,48,000
(ii) Distribution	44,06,800
(iii) Suspense	33,68,800

B. Madras Power Station Extensions 1,31,600

Lump-sum provision for payment of compensation for acquisition of Electrical Undertaking of local authorities and private companies. 100

Grand total .. 11,99,34,000

APPENDIX C.

DETAILS OF ESTABLISHMENT CHARGES AND FEES EARNED DURING
1959-60 AND ESTIMATED FOR 1960-61.

<i>Scheme.</i>	<i>Expenditure during 1959-60.</i>	<i>Budget Estimate for 1960-61.</i>
(1)	(2)	(3)
RS.	RS.	RS.
1 Pykara Hydro-Electric Scheme—		
Salaries, allowances and other charges	21,67,899	22,37,000
Add charges payable to Headquarters and others	5,03,694	5,16,100
Total	26,71,593	27,53,100
Less charges recoverable from Government departments and others	(—) 5,04,069	(—) 3,57,500
Total	21,67,524	23,95,600
Operation and maintenance expenses including funds, pension, interest on V.L.C. excluding suspense	82,58,339	98,88,600
Grand total	1,04,25,863	1,22,84,200
Gross Revenue	2,64,39,147	2,58,42,800
Excess receipts over Expenditure	1,60,13,284	1,35,58,600
2 Mettur Hydro-Electric Scheme—		
Salaries, allowances and other charges	18,78,919	20,56,100
Add charges payable to Headquarters and others	1,88,201	1,82,400
Total	20,67,120	22,38,500
Less charges recoverable from Government departments and others	(—) 5,82,162	(—) 5,61,600
Total	14,84,958	16,76,900
Operation and maintenance expenses including funds, pension, interest on S.D. and V.L.C. excluding suspense	1,90,63,965	1,89,12,800
Grand total	2,05,48,923	2,05,89,700
Gross Revenue	1,83,34,575	1,82,43,500
Excess receipts over expenditure	(—) 22,14,348	(—) 23,46,200
3 Vellore Electricity System—		
Salaries, allowances and other charges	17,16,159	18,10,700
Add charges payable to Headquarters and others	1,44,950	1,43,900
Total	18,61,109	19,54,600
Less charges recoverable from Government departments and others	(—) 5,44,741	(—) 5,69,000
Total	13,16,368	13,85,600

NOTES.—(1) The denominator gives the cost in annas per unit generated to end of 1957-58. From 1958-59 the cost is worked out in rupees.
 (2) The second set of figures under columns (3), (4) and (14) give the cost excluding cost of power purchased from systems.
 (3) Figures under columns (3) and (4) from 1954-55 include interest charges.
 (4) Includes Per year generation from March 1959 to end of July 1959.
 * Includes Per year generation from August 1959 to end of March 1960.

APPENDIX G.

HIGH-TENSION CONSUMERS DIRECTLY SUPPLIED BY THE ELECTRICITY BOARD.

1. Pykara Electricity System.

Serial number, name of the consumer and name of the place.

I. Cement.

- 1 The Associated Cement Co., Madukkarai, Coimbatore.

II. Textiles.

- 2 Coimbatore Spinning and Weaving Mills, Coimbatore.
 3 Vasantha Mills, Singanallur, Coimbatore.
 4 Cambodia Mills, Coimbatore.
 5 Rajalakshmi Mills, Uppilipalayam, Coimbatore.
 6 Somasundaram Mills, Coimbatore.
 7 Kaleeswarar Mills, Coimbatore.
 8 Rangavilas Spinning and Weaving Mills, Peelamedu, Coimbatore.
 9 Pankaja Mills, Coimbatore.
 10 Lakshmi Mills, Coimbatore.
 11 Coimbatore Cotton Mills, Singanallur, Coimbatore.
 12 Saradha Mills, Podanur, Coimbatore.
 13 Lotus Mills, Podanur, Coimbatore.
 14 Palani Andavar Mills, Udumalpet.
 15 Janardhana Mills, Singanallur, Coimbatore.
 16 Sri Palamalai Ranganathar Mills, Periyanaickenpalayam, Coimbatore.
 17 Venkatesa Mills, Udumalpet.
 18 Coimbatore Murugan Mills, Coimbatore.
 19 Saroja Mills, Singanallur, Coimbatore.
 20 Coimbatore Pioneer Mills, Coimbatore.
 21 Radhakrishna Mills, Peelamedu, Coimbatore.
 22 Gnanambika Mills, Vellakinar, Coimbatore.
 23 Coimbatore Kamala Mills, Uppilipalayam, Coimbatore.
 24 Vijayalakshmi Mills, Coimbatore.
 25 Thirumoorthy Mills, Udumalpet.
 26 Balasubramania Mills, Singanallur, Coimbatore.
 27 Kothari Textiles, Singanallur, Coimbatore.
 28 Kasthuri Mills, Coimbatore.
 29 Kumaran Mills, Coimbatore.
 30 Jayalakshmi Mills, Singanallur, Coimbatore.
 31 Karthikeye Mills, Udumalpet.
 32 Premier Mills, Udumalpet.
 33 Kadiri Mills, Odderpalayam, Singanallur.
 34 Jagannatha Ginning Factory, Coimbatore.
 35 Kannapiran Mills, Coimbatore.
 36 Sri Devi Weavings, Coimbatore.
 37 Vijayakumar Mills, Coimbatore.
 38 Sri Ramakrishna Mills, Coimbatore.
 39 Jothi Mills, Periyanaickenpalayam, Coimbatore.
 40 Sivananda Mills, Saravanampatti, Coimbatore.
 41 Varadaraja Textiles, Peelamedu.
 42 Rajaratna Mills, Periakalayampudur, Palni.
 43 Chandra Textiles, Peelamedu, Coimbatore.
 44 Vijayakumar Cotton Press, Peelamedu, Coimbatore.
 45 Sri Hari Mills, Singanallur, Coimbatore.

Serial number, name of the consumer and name of the place.

II. Textiles—cont.

- 46 D.P.F. Textiles, Pappanaickenpalayam Coimbatore.
 47 Narasimha Mills, Kannampalayam, Sular.
 48 Pioneer 'B' Mills, Peelamedu, Coimbatore.
 49 Kishnaveni Textiles, Uppilipalayam, Coimbatore.
 50 Prakash Mills, Peelamedu, Coimbatore.
 51 Raveendra Mills, Uppilipalayam, Coimbatore.
 52 Selvaraja Mills, Palladam.
 53 Ramanayana Mills, Coimbatore.
 54 Sujani Textiles, Sowripalayam, Coimbatore.
 55 Vijayeswari Textiles, Pollachi.
 56 Sakthi Textiles, Pollachi.
 57 Anandakumar Mills, Saravanampatti, Coimbatore.
 58 Om Parasakthi Mills, Krishnarayapuram, Ganapathy.
 59 Pioneer Textiles, Vedapatti, Coimbatore.
 60 Bhavani Mills, Limited, Coimbatore.
 61 Suryaprabha Mills, Kuniamuthur, Coimbatore.
 62 Southern Textiles, Sular.
 63 Radhika Mills, Uppilipalayam, Coimbatore.
 64 Sarguna Textiles, Kannampaalyam, Coimbatore.
 65 Premier 'B' Mills, O.K. Mandapam, Podanur.
 66 Gopalakrishna Mills, Ganapathy, Coimbatore.
 67 Kothari Textiles No. 2, K. Vadamathurai.
 68 Kvality Spinning Mills, Pollachi.
 69 Sri Sundara Raja Textiles and Padma Mills, Kalapatty, Coimbatore.*
 70 South India Viscose, Sirumugai, Mettupalayam.*

III. Oil Mills.

- 71 Bharat Mills, Pollachi.
 72 G. Ramaswamy and Co., Coimbatore.
 73 Radhakrishna Oil Mills, Pollachi.
 74 K. Krishnaswamy Gr. "Saradha Mills", Pollachi, Coimbatore.
 75 Coimbatore Oils and Fertilizers, Coimbatore.

IV. Water Works.

- 76 Ambarampalayam Water Works, Pollachi.

V. Other Industries.

- 77 P.S.G. & Sons Charity Industrial Institute, Coimbatore.
 78 Nanco Rubber and Plastic Co., Coimbatore.
 79 Brooke Bond India, Limited, Coimbatore.

* Added during the year 1959-60.

APPENDIX G—cont.

HIGH-TENSION CONSUMERS DIRECTLY SUPPLIED BY THE ELECTRICITY BOARD—cont.

1. Pykara Electricity System—cont.

Serial number, name of the consumer and name of the place.

V. Other Industries—cont.

- 80 Argu Engineering Company, Peelamedu.
- 81 Textools Company, Coimbatore.
- 82 National Manure Works, Udumalpet.
- 83 Praga Industries, Coimbatore.
- 84 Ramakrishna Industries, Peelamedu.
- 85 Amirhind Manufacturers, Podanur.
- 86 Needle Industries, Ketti, The Nilgiris.
- 87 Venkatesa Bleaching Factory, Udumalpet.
- 88 Asbestos Cement, Podanur.
- 89 United Bleachers, Mettupalayam.
- 90 Indo-Swiss Synthetic Germ Factory, Mettupalayam.
- 91 Coimbatore Agro Industries, Podanur.
- 92 Ramakrishna Mission Vidyalaya Industries Section, Periyanaickenpalayam.*
- 93 Stanes Fertilisers, Tudialur.*
- 94 Jaga Button Industries, Coimbatore.*
- 95 Amaravathi Co-operative Sugar Mills, Udumalpet.*
- 96 Kamala Sugar Mills, Udumalpet.*

VI. Municipalities.

- 97 Coimbatore Municipality.
- 98 Pollachi Municipality.

VII. Other States.

- 99 Kerala State, Walayar Point of supply.
- 100 Kerala State, Nilambur Point of supply.
- 101 Calicut, Cannanore Tellicherry Point fed off Uppatti S.S.

VIII. Government Departments.

- 102 Cordite Factory, Aravankadu.
- 103 Central Jail, Coimbatore.
- 104 Agricultural College, Coimbatore.
- 105 Agricultural College, II Point of supply, Coimbatore.
- 106 Forest College, Coimbatore.
- 107 Government Sugarcane Breeding Station, Coimbatore.
- 108 Pykara Dam.
- 109 Sholayar Project (Poringalkuthu).
- 110 Government College of Technology, Coimbatore.
- 111 Cotton and Millet Breeding Station, Coimbatore.
- 112 Amaravathi Project.
- 113 Government Quinine Factory, Chincona.
- 114 Sular Aerodrome, Sular.
- 115 Kundah Circle.
- 116 Parambikulam-Aliyar Project Colony, Pollachi.*
- 117 Aliyar Dam Site, Pollachi.*
- 118 Sandynallah.*
- 119 Thirumoorthinagar Colony, Udumalpet.*

Serial number, name of the consumer and name of the place.

IX. Miscellaneous.

- 120 Dewan Bahadur P. S. G. Rangaswamy Naidu & Sons Estates, Vedapatty, Coimbatore.

X. Railways.

- 121 Podanur Railway Station.

XI. Commercial and Non-Industrial.

- 122 P. S. G. College of Technology, Coimbatore.
- 123 Coimbatore Institute of Technology, Coimbatore.
- 124 Pasteur Institute of Technology, Coonoor, The Nilgiris.
- 125 St. Georges Home, Ootacamund, The Nilgiris.
- 126 South India Textiles Research Association, Peelamedu.
- 127 Nachimuthu Polytechnic, Pollachi.
- 128 Lawrence School, Lovadale, Ootacamund.

XII. Tea Estates, Anamalais.

- 129 Vellamadai Estate.
- 130 Pachamalai Estate.
- 131 Akkamalai Estate.
- 132 Kallayar Estate.
- 133 Monica Estate.
- 134 Iyerpady Estate.
- 135 Urilical Estate.
- 136 Murugalli Estate.
- 137 Anamalai Ropeway Company.
- 138 Injiparai Estate.
- 139 Stanmore Estate.
- 140 Sri Kundra Estate.
- 141 High Forest Estate.
- 142 Karamalai Estate.
- 143 Kadalaparai Estate.
- 144 Sellaiparai Estate.
- 145 Mount Stuart Estate.
- 146 Pannimade Estate.
- 147 Thalmudi Estate.
- 148 Sholayar Estate.
- 149 Nadumalai Estate.
- 150 Waverly Estate.
- 151 Velonie Estate.
- 152 Paralai Estate.

XIII. Tea Estates, The Nilgiris.

- 153 Bengoram Estate.
- 154 Glendale Estate.
- 155 Parkside Estate.
- 156 Nonsuch Estate.
- 157 Prospect Estate.
- 158 Terrace Estate.
- 159 Killkotagiri Estate.
- 160 Tuttapallam Estate.
- 161 Roundarmullai Estate.
- 162 Kilmelfort Estate.

* Added during the year 1959-60.

APPENDIX G—cont.

HIGH-TENSION CONSUMERS DIRECTLY SUPPLIED BY THE ELECTRICITY BOARD—cont.

1. Pykara Electricity System—cont.

Serial number, name of the consumer and name of the place.

Serial number, name of the consumer and name of the place.

XIII. Tea Estates, The Nilgiris—cont.

XIII. Tea Estates, The Nilgiris—cont.

- 163 Dunsandle Estate.
- 164 Terramia Estate.
- 165 Theashola Estate.
- 166 Susses Group Estate.
- 167 Sutton Estate.
- 168 Mailoor Estate.
- 169 New Katteri Estate.
- 170 Mayfield Estate.
- 171 Devashola Estate.
- 172 Woodoriar Estate.
- 173 Rockwood Estate.
- 174 Chamraj Estate.

- 175 Sholur Estate.
- 176 New Hope Estate.
- 177 Seaforth Estate.
- 178 Glenmans Estate.
- 179 Kodanad Estate.
- 180 Springdle Estate.
- 181 Woodlands Estate.
- 182 Curzon Estate.
- 183 Singara Nilgiris Plantations.
- 184 Craigmores Estate.
- 185 Kotada Estate.
- 186 Devarashola Estate.

2. Mettur Electricity System.

I. Textiles.

- 1 Mettur Industries, Limited, Mettur Dam.
- 2 Natesan Spinning Mills, Erode.
- 3 Solar Industries and Trades, Limited, Erode.
- 4 Erode Bleaching and Finishing Factory, Erode.
- 5 Madras State Handloom Weavers' Co-operative Society, Erode.

APPENDIX I

GENERATING STATIONS, SUB-STATIONS AND DISTRIBUTION TRANSFORMERS.

Abstract.

I. GENERATING STATIONS.

Name of the power house.	Number of power transformers.	Capacity in K.V.A.
1 Singara	12	98,430
2 Moyar	3	45,000
3 Kundah I	1	24,000
4 Mettur	7	56,000
5 Papanasam	5	31,000
6 Samayanallur	2	17,500
7 Periyar	6	84,000
8 Madras Electricity System	4	35,000
	40	390,930

APPENDIX I—cont.

GENERATING STATIONS SUB-STATIONS AND DISTRIBUTION TRANSFORMERS—cont.

Abstract—cont.

II. SUB-STATIONS.

System.	Number of E.H.T. sub-stations.	Capacity in K.V.A.	Number of H.T. sub-stations.	Capacity in K.V.A.
1 Pykara	9	170,000	3	8,250
2 Mettur	9	89,750	7	10,250
3 Papanasam	18	185,000	10	32,350
4 Madras Electricity System	1	50,000	24	84,850
5 Vellore	12	123,750	17	41,750
6 Tiruchirappalli	17	182,250	7	8,500
Total	66*	800,750	68*	185,950

III. DISTRIBUTION TRANSFORMERS.

System.	Energised during 1959-60.		Total as on 31st March 1960.	
	Number.	Capacity in K.V.A.	Number.	Capacity in K.V.A.
1 Pykara	176	13,200	1,403	103,375
2 Mettur	210	16,840	1,890	138,653
3 Papanasam	168	11,500	1,368	83,184
4 Madras Electricity system	118	7,796	1,200	119,499
5 Vellore	285	21,255	2,026	147,110
6 Tiruchirappalli	121	9,965	978	69,254
Departmental Total	1,078	80,556	8,865	661,075
Licensees	60	5,913	1,120	94,378
Grand total	1,138	86,469	9,985	755,453

1. PYKARA ELECTRICITY SYSTEM.

(I) INSTALLED CAPACITIES OF TRANSFORMERS.

Name of station.	Number.	Voltage ratio in K.V.	Capacity in K.V.A.	Aggregate capacity in K.V.A.
1 Pykara Power-House	3	11/66-110	7,810	23,430
	2	11/110	12,500	25,000
	2	11/110	16,000	32,000
	3	11/66	5,000	15,000
Total				95,430
	1	11/11-22	2,000	2,000
	1	11/11-22	1,000	1,000
Total				3,000

* Total 130 stations with capacity of 986,700 K.V.A.

This excludes 4 Sub-stations, i.e., one in Papanasam, one in Madras and 2 in Tiruchirappalli accounted both under E.H.T. and H.T. sub-stations and Rotary Sub-stations 6 Nos. with capacity of 18,750 K.W.

Rectifier Sub-stations 4 Nos. with capacity of 2,750 K.W. and Auto transformer stations 4 Nos. with capacity of 6,000 K.W. in Madras System.

APPENDIX I—cont.

1. PYKARA ELECTRICITY SYSTEM—cont.

II. EXTRA HIGH TENSION SUB-STATIONS.

Name of station.	Number.	Voltage ratio in K.V.	Capacity in K.V.A.	Aggregate capacity in K.V.A.

APPENDIX N.

PERCENTAGE OF PROGRESS ON CONSTRUCTION WORKS IN 1959-60.

<i>Name of scheme.</i>	<i>Budget Estimate, 1959-60.</i>	<i>Actuals.</i>	<i>Percentage.</i>	<i>Remarks.</i>
	<i>(IN LAKHS OF RUPEES.)</i>			
1 Nellithorai-Mettupala- yam.	20.64	5.86	28.4	The amount has been reduced in the final provision based on the requirements of the work.
2 Neyveli Transmission ..	25.27	35.15	139.1	The final provision for 1959-60 has been suitably increased.
3 Melakalathur-Nagercoil- Thucklay.	5.05	9.86	195.2	The provision in B.E. has been increased in the final grant based on the progress of work.
4 Kayathar-Arumuganeri.	18.89	16.16	85.5	The final provision has been modified.
5 Railway Electrification Scheme.	Token	Nil.	Nil.	Nil.
6 Kundah Hydro-Electric Scheme.	534.67	1,473.24	275.5	Additional appropriation has been obtained in the final grant to accommodate the loan of Canadian materials sanctioned by the Board.
7 Sandynallah	30.43	32.88	108.1	Provision suitably altered in the final appropriation.

APPENDIX O.

LINE AND TRANSFORMER LOSS (IN MILLIONS OF UNITS), 1959-60.

Total generation	1,903
Station consumption	57
Total units sent out	1,846
Power purchased from other sources	25
Total units available for sale	1,871
Total units sold	1,558
Losses	313
Percentage	16

APPENDIX P.

APPENDIX Q—cont.

LOAD AND REVENUE STATEMENT—cont.

5. VELLORE ELECTRICITY SYSTEM.

There is no separate metering arrangements to obtain the system peak in K.W., etc. The gross revenue for the year is Rs. 144.99 lakhs.

6. TRICHY ELECTRICITY SYSTEM.

There is no separate metering arrangements to obtain the system peak in K.W., etc. The gross revenue for the year is Rs. 139.35 lakhs.

MADRAS STATE ELECTRICITY BOARD

B.P. (Ms.) No. 1011, 31st May 1961

Electricity—Madras State Electricity Board—Administration Report for 1959-60—Recorded.

READ—the following paper :—

Letter from the Chief Engineer (Electricity), dated the 30th June 1960, No. 2/60-60.

Proceedings—(Ms.) No. 1011, dated the 31st May 1961.

Recorded.

2. Sri S. K. Chettur, I.C.S. (Secretary to the Government of Madras in the Home Department), continued to be the part-time Chairman of the Board till 31st July 1959, Sri W. R. S. Sathianathan, I.C.S. (Chief Secretary to the Government of Madras), was appointed part-time Chairman of the Board from 1st August 1959 upto 14th November 1959, and he was appointed full-time Chairman of the Board for one year from 15th November 1959. The term of the other members of the Board, viz., Sri V. P. Appadurai, B.A., M.I.E. (Ind.), Chief Engineer (Electricity), Sri T. A. Varghese, I.C.S., Secretary to the Government of Madras in the Finance Department, Sri T. K. Palaniappan, I.A.S., Secretary to the Government of Madras in the Industries Labour and Co-operation Department, and Sri K. R. Rama Ayyar, Accounts Member, was extended up to 14th November 1960. Sri T. V. Natesa Mudaliar continued to be the Secretary to the Board during the year.

3. The year under review is the fourth year of the Second Five-Year Plan. The first power station of the Kundah Hydro-Electric Scheme, the third generator of 35,000 K.W. capacity under the Periyar Hydro-Electric Scheme were both commissioned during the year. With the commissioning of these units, the installed capacity of the State Grid increased from 356,500 K.W. to 411,500 K.W. registering an increase of 15.5 per cent. The aggregate demand for power on the Board's systems was 408,590 K.W.

as against 322,850 K.W. during 1958-59. The total number of units generated during 1959-60 was about 1,903 million units as indicated below as against 1,500 million units during the previous year:—

Year of operation.		Number of units generated (in millions in 1959-60.)	1958-59.
(1)	(2)	(3)	
<i>Hydro Areas—</i>			
Pykara system	Twenty-seventh	369.135	361.46
Moyar System	Eighth	161.954	159.73
Mettur System	Twenty-third	271.121	283.74
Papanasam system	Sixteenth	113.656	103.77
Madurai Thermal Station	Tenth	49.669	67.37
Periyar	Second	547.505	141.26
<i>Thermal Areas—</i>			
Madras system			
‘A’, ‘B’, ‘C’	Twelfth	389.660	382.48
Total		1,902.700	1,499.81

The total capital outlay on schemes which have come into operation as at the end of the year under review was Rs. 9,280.64 lakhs as against Rs. 8,309 lakhs at the end of 1958-59, and the net revenue earned is Rs. 577.51 lakhs as against Rs. 418 lakhs in 1958-59.

4. The capital expenditure incurred during the year 1959-60 on projects and extensions totalled to Rs. 1,379 lakhs as against Rs. 1,473 lakhs during 1958-59. During the year, the following transmission lines were completed:—

- (i) Periyar-Theni-Madurai 110 K.V. Double Circuit Line (128.748 K.M.).
- (ii) Theni-Sembatti 110 K.V. Single Circuit line (56.327 K.M.).
- (iii) Sembatti-Trichirappalli 110 K.V. Single Circuit line (107.826 K.M.).
- (iv) Sembatti-Karur 66 K.V. Single Circuit line (83.686 K.M.).
- (v) Thanjavur-Sivaganga 66 K.V. line (128.748 K.M.).
- (vi) Kundah P.H. No. I—Kundah P.H. II—Thudiyalur 110 K.V. Double Circuit line (48.280 K.M.).
- (vii) Kundah P.H. No. II—Salem-Villivakkam 230 K.V. Single circuit line (461.881 K.M.).
- (viii) Salem-Attur-Neyveli 110 K.V. line (135.185 K.M.).
- (ix) Periyar-Kayathar-Arumuganeri 110 K.V. line (135.185 K.M.).
- (x) Kovilpatti-Eppodumvenran 66 K.V. line (32.187 K.M.).
- (xi) Melakallur-Thuckalay 66 K.V. line (88.514 K.M.).

5. Rural electrification continued to receive priority and considerable impetus during the year, as in the earlier years. Fifty-nine major schemes costing Rs. 180.657 lakhs and 837 minor schemes costing Rs. 543.310 lakhs were sanctioned by the Board during 1959-60. During 1959-60, supply was extended by the Board to 1,152 villages, hamlets and towns as against 1,397 in 1958-59 and to 31 villages, hamlets and towns by the

electric licensees during the year 1959-60 as against 14 in 1958-59. 18,573 and 599 agricultural pumpsets were connected up by the Board and the Electric Licensees respectively during 1959-60 as against 17,073 and 516 during 1958-59 respectively.

6. In the Development Block areas, about 313 schemes were completed and 458 schemes were in different stages of progress during the year. A subsidy of Rs. 1.5 lakhs was placed by the State Government at the disposal of the Board for the electrification of Harijan colonies and expenditure of Rs. 1.59 lakhs was incurred during the year. About 132 Harijan Colonies were electrified during the year.

7. The route mileage of the Board's transmission and distribution net work increased by about 1,760.522 miles of H.T. lines, and 2,861.531 miles of L.T. lines during the year under review.

8. The live line maintenance work with hot line tools procured under Technical Co-operation Mission aid was started during this year in, and around, Madras City.

9. The revised tariff of the Board came into force with effect from 1st October 1959.

10. The Madras State Electricity Board places on record its appreciation of the continued good work done by the entire staff of the Board during the year.

(By order of the Board)

R. C. JOSEPH,
Secretary to the Board.

To the Chief Engineer (Electricity).

- .. Chief Secretary to the Government of Madras, Public Department, Madras-9 (with covering letter).
.. Secretary to the Government of Madras, Public Works Department, Madras-9.
