**REPORT ON THE WORKING OF THE FACTORIES ACT, 1948, IN THE
STATE OF MADRAS FOR THE YEAR 1958 WITH A NOTE ON
THE ADMINISTRATION OF THE MADRAS MATERNITY BENEFIT
ACT, 1934.**

Part I.

1. *Personnel.*—Sri V. Balasundram, I.A.S., Commissioner of Labour and Director of Employment, continued to be in overall charge of the administration during the year 1958. Sri P. Perianayagam was in charge as Chief Inspector of Factories till 10th February 1958 when Sri P. V. Viswanathan returned from deputation to England. In the enforcement of the various enactments, the Chief Inspector of Factories was assisted by five Inspectors of Factories, Grade I, seven Inspectors of Factories, Grade II, one Inspectress of Factories and 126 Assistant Inspectors of Labour. Sri V. Govind continued to be the Personal Assistant to the Chief Inspector of Factories during the period under review.

2. *Important meetings and conferences.*—(a) Sri P. V. Viswanathan, Chief Inspector of Factories attended the 12th Conference of the Chief Inspectors of Factories at Hyderabad from 10th to 14th September 1958. This conference discussed the various difficulties encountered in the enforcement of the Factories Act in India.

(b) Sri S. Ranganathan, Inspector of Factories, Tiruppur and Sri S. Paramanayakam, Inspector of Factories, Salem attended the 5th Training Course for Junior Inspectors at New Delhi from 6th October to 16th November 1958.

(c) Sri M. A. Natarajan, Inspector of Factories attended an advanced work study course in Productivity for six weeks (First session) from 31st March 1958 to 10th May 1958 and for seven weeks (Second session) from 2nd June 1958 to 19th July 1958.

3. *Factories covered by the Factories Act, 1948.*—The Factories Act 1948 applies to all power factories employing 10 or more persons and to all non-power factories employing 20 or more persons. The Act was extended by a special notification of the Government under Section 85 of the Factories Act to minor Engineering Factories and to certain other categories of factories such as rice mills, oil mills, structural workshops, etc., employing less than 10 workers with power, or less than 20 workers without power.

4. *Number of factories.*—(a) At the beginning of the year, 5,149 factories remained within the purview of the Act. During the year, 563 factories were brought on and 369 factories removed from the registers. At the end of the year, 5,343 factories were covered by the Act in the State of which 5,103 factories were in commission as against 4,941 factories in commission during 1957. There is thus an increase of 162 factories in commission during 1958. The details of the factories in commission are furnished below :—

1	Factories using power and employing 10 or more persons [section 2 (m) (i)]	3,469
2	Factories not using power but employing 20 or more persons [section 2 (m) (ii)]	967
3	Premises notified by the Government under Section 85	667
	Total	5,103

(Vide Statement I and Appendices I and II.)

8. *Industrial pattern in the districts.*—The following is a statement showing the industrial pattern in each district :—

Serial number and name of district	Number of factories.	Number of workers.
1 Coimbatore	957	77,154
2 Madras	827	68,928
3 Madurai	449	34,758
4 Tirunelveli	345	26,525
5 Tiruchirappalli	370	24,198
6 North Arcot	431	18,251
7 Ramanathapuram	293	17,998
8 Salem	464	17,504
9 Chingleput	309	14,869
10 Tanjore	372	8,971
11 South Arcot	146	4,964
12 The Nilgiris	98	3,631
13 Kanyakumari	42	1,505
Total	5,103	319,056

(Vide Chart A, Appendix XIII.)

ANALYSIS.

Coimbatore.—A highly industrialised district in the State Coimbatore has 957 factories with a labour complement of 77,154 roughly a fourth of the State's Factory Population. Cotton mills employ 54·2 per cent of the workers, Ginning factories 13 per cent, knitting mills 2·8 per cent, Handloom factories 1·8 per cent, tea factories 3·6 per cent. Engineering works 9·9 per cent and other industries 14·7 per cent.

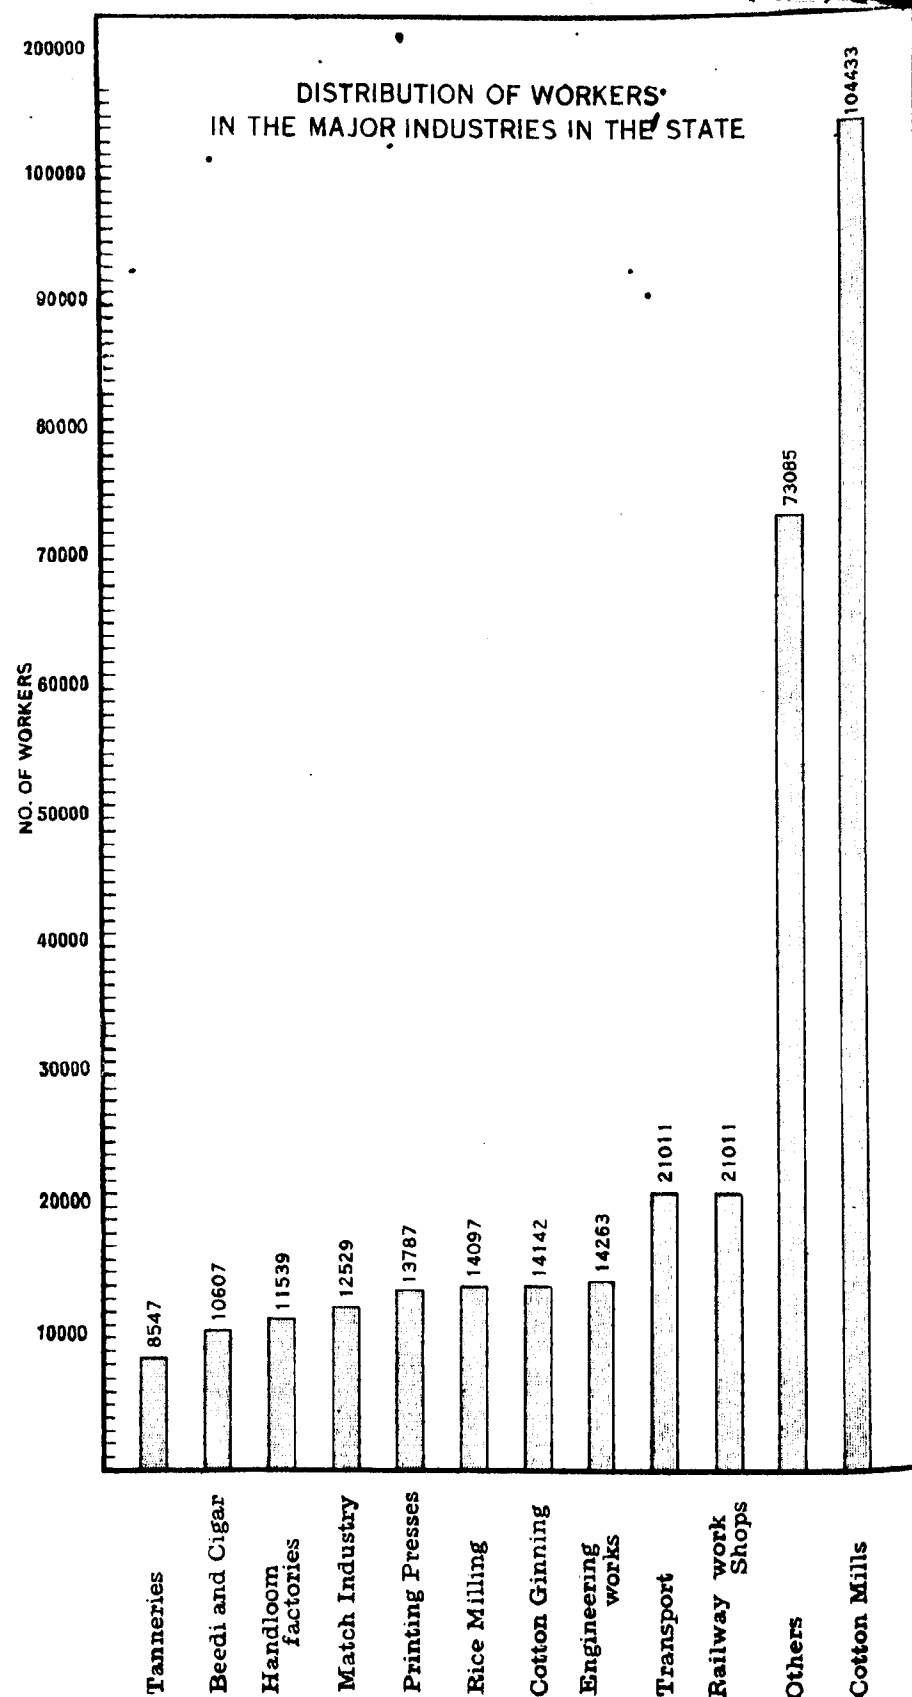

Madras.—Second in the order of employment of Industrial workers, Madras has 827 factories with a labour force of 68,928 workers. 20·7 per cent of the workers are employed in a Textile mill, Transport employs 15·2 per cent, the two Railway workshops 14·4 per cent, printing presses 11·7 per cent, Engineering works 9·5 per cent and other industries 28·5 per cent.

Chingleput.—In this district 24·4 per cent of the workers are reported to be employed in transport, 14·5 per cent in tanneries, 4·8 per cent in rice and oil mills, 2·4 per cent in handloom factories and 53·9 per cent in other miscellaneous industries.

Madurai.—Third in the order of Factory population, the Industrial disposition of its 34,758 workers is cotton mills 54·9 per cent, rice milling 6 per cent, ginning factories 4·3 per cent, handloom factories 3·9 per cent printing presses 2·5 per cent and other miscellaneous industries 28·4 per cent.

Tirunelveli.—Twenty six thousand five hundred and twenty-five workers are found employed in this district, the fourth in the Industrial population of the State. Cotton mills account for a factory population of 56 per cent, match industry 12·3 per cent, Ginning factories 6·7 per cent and miscellaneous industries, the rest.

Tiruchirappalli.—Railway workshops employ about 36 per cent of the workers in this district, cotton mills 16·9 per cent, handloom factories 13·5 per cent, rice mills 5·7 per cent and miscellaneous industries, the rest.

North Arcot.—Peedi making is predominant in the Industrial pattern of the district and accounts for 31 per cent of the workers, Railway workshops 12·8 per cent, tanneries 24·3 per cent, textiles 9·8 per cent, chemical products 7·6 per cent and other miscellaneous industries 14·5 per cent of the workers.

Ramanathapuram.—Match factories, mostly small scale and on cottage industries basis, employ 35·5 per cent of the factory population, cotton mills 18 per cent, ginning factories 13·3 per cent, printing presses 7·6 per cent and other miscellaneous industries 25·6 per cent of its industrial labour.

Salem.—Cotton textiles employ 28·4 per cent, sago factories 13·3 per cent chemicals 4·9 per cent and miscellaneous industries 53·4 per cent of the workers in the district.

Tanjore.—The granary of Madras State as it is popularly known, quite logically employs 35·3 per cent of its workers in rice mills which number 50 per cent of the factories in the district, 13·6 per cent in tobacco industries, 4·8 per cent in printing presses, 8·2 per cent in transport and the rest in miscellaneous industries.

South Arcot.—Factory employment is the lowest in this district. The sugar factory at Nellikuppam accounts for 43·4 per cent of the district factory population. Rice and oil mills employ 23·4 per cent of its factory workers. Industrially backward the progress of South Arcot depends on the success of the lignite mining operation at Neyveli.

Nilgiris.—Nearly 87·3 per cent of the workers are employed in Tea factories

Kanyakumari.—1,505 workers are employed in various miscellaneous industries.

9. *Distribution of factories according to the number of days worked.*—It is seen that 50·5 per cent of the factories in the State work for more than 300 days, 40·9 per cent of the factories for more than 240 but less than 300 days, and 8·6 per cent for less than 240 days as detailed below :—

Serial number and distribution of factories according to the number of days worked.	Number of factories from whom returns were received.	Number of workers.	Percentage.
1 Sixty days or less	80	2,210	0·7
2 More than 60 days but not more than 120 days.	162	5,043	1·6
3 More than 120 days but not more than 180 days.	241	7,038	2·2
4 More than 180 days but not more than 240 days.	330	12,327	4·1
5 More than 240 days but not more than 300 days.	1,225	125,440	40·9
6 More than 300 days	2,555	156,310	50·5
Total ..	4,623	308,368	100·0

[Vide Statement IV].

10. *Casual workers.*—The percentage of temporary labour has been on the decrease. In seasonal factories, such as rice, dhall and oil mills, handloom factories and ginning factories, quite a number of workers are non-permanent to the extent that they are daily paid. The casual workers float from factory to factory in search of employment. Daily allowance and other allowances,

if any, are paid to them as for permanent workers and there has been no discrimination in any of the units in which casual workers are employed regarding other benefits such as leave with wages, maternity benefit, etc.

11. *Registration and licensing of factories.*—During the year under review, licences issued to factories for the year 1957 were renewed for 1958 and also fresh licences were issued to factories newly brought under the purview of the Act during 1958. A sum of Rs. 7,42,636 21 was collected as license fees under the Act.

12. *Plans.*—Attention was paid to stability, ventilation, lighting, etc., when scrutinising plans received for approval. 1981 plans were scrutinised during the year out of which 1034 plans were approved.

13. *Health of workers.*—As in the previous years, special attention was paid by Inspectors of Factories to protection of workers against industrial diseases and to maintenance of their general health. Though it is the endeavour of the Inspectorate to do its best in this regard, it is strongly felt that this work should be attended to by a specialist in this particular field. The appointment of separate Medical Inspectors of Factories is therefore essential.

14. *Sanitation.*—Factory premises and their surroundings were normally well maintained and clean.

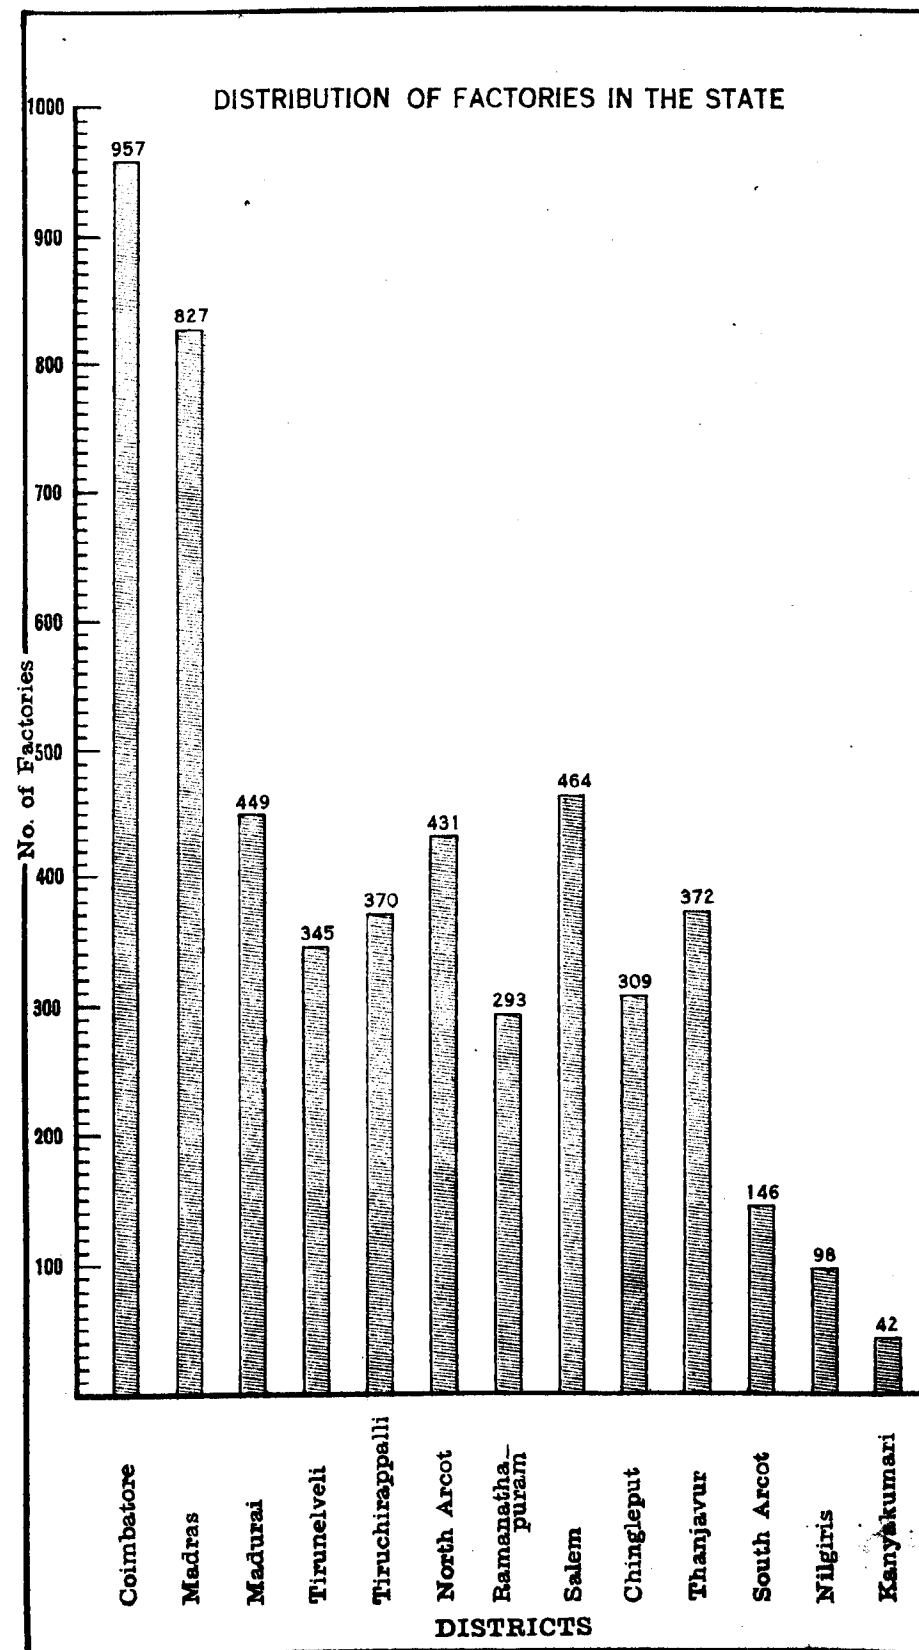

15. *Dust nuisance.*—Adequate steps were taken wherever necessary to mitigate dust nuisance in textile mills, rice mills, decorticating factories, tea and coffee curing factories, and also to prevent, as far as possible, inhalation of dust by employees working in processes emanating dust.

16. *Fencing and other safety measures.*—Fencing and guards for dangerous parts of machinery, etc., were provided and maintained fairly well in almost all factories. Safety posters issued by the Chief Adviser, Factories, New Delhi were distributed to factories free of cost for display in conspicuous places in the factories.

17. *Hours of work.*—Compliance with the provisions of the Act relating to hours of work was generally found to be satisfactory. Irregular employment existed to a certain extent in smaller factories. Surprise visits by the Inspectorate proved effective in several cases in controlling irregular employment beyond scheduled working hours or on weekly holidays.

A distribution of the number of factories and the average daily number of workers employed therein, is compiled separately for men and women workers. The number of factories in the two distributions (one for men and the other for women) is not mutually exclusive because of the fact that factories which employ both men and women workers will occur in both these distributions. It will be seen from Statement X annexed that 92 per cent of the workers in 92 per cent of the factories was found working above 45 and up to 48 hours, 7 per cent above 42 and up to 45 hours, one per cent up to 42 hours and a negligible percentage above 48 hours.

18. *Inspections.*—Of the 5,343 factories which were on the registers during the year, 1,616 factories were inspected once, 3,382 factories were inspected twice, 98 factories thrice and 12 factories more than 3 times. 235 factories were not inspected during the year. The reasons for not inspecting those factories as reported by the Inspectors of Factories are that the factories were found closed during their visits on more than one occasion. The need for increasing the number of Inspectors under the Act is, however, keenly felt.

In addition to the above, the Inspectors have made 8,529 Sunday, surprise, special and night visits to factories to check employment of workers outside their specified hours of work and on their weekly holidays (Vide Statement XI).

19. *Prosecutions and convictions.*—The policy of this department is to resort to penal action only when all persuasive methods have proved to be of no avail. 440 prosecutions were taken up during the year against occupiers and managers of factories for non-compliance with various provisions of the Act. 436 cases were disposed of realising a fine of Rs. 24,416. The prosecutions chiefly relate to Notices, Registers, Returns, Fencing, etc. Full details are furnished in Statement XII.

20. *Notices, registers, etc.*—Nearly 90 per cent of the working factories submitted the annual returns in time. 24 Government and Local Fund factories did not send the returns. The prescribed registers and notices under the Act and Rules were maintained and exhibited in almost all the factories.

21. *Leave and compensatory holidays.*—Several factories distributed leave cards to their workers but much remained to be done in this respect in smaller units. The practice of making cash payments to workers in lieu of leave due to them was reported by some factories. Steps were taken to discourage this practice. An encouraging feature, however, was that workers were generally found to be more conscious of their rights and privileges under the Act in this regard. Exemptions were granted to factories whose leave rules were not less favourable than what is provided for under the Factories Act (Vide Statement XIV).

Rest intervals.—Rest intervals as required by Section 55 of the Factories Act, 1948 were given in all factories.

Weekly holidays.—Sundays or substituted days were observed as weekly holiday in all the factories except those that were exempted from the provisions of Section 52 of the Act on account of the manufacturing processes being of a continuous nature. Compensatory holidays for the weekly holidays so lost by the workers were given in all cases as required by Section 53 of the Act.

Statistics of the number of workers who enjoyed the benefits of the provisions relating to leave with wages and compensatory holidays are shown in Statement XIV. It appears from the figures in Statement XIV that the provisions relating to leave and compensatory holidays were generally well observed.

22. *Complaints.*—The Inspectors enquired into complaints lodged by individual workers, Trade Unions, etc., and took suitable action wherever necessary. 25 per cent of the complaints relate to non-payment of wages in time and 25 per cent relate to weekly holidays. The details of complaints are furnished in Appendix VIII.

23. *Cost of Living Index Figures.*—The consumer price Index Numbers (Cost of Living Index figures) for Industrial workers in the City of Madras and in five other centres in the State, furnished by the Director of Statistics, Madras are given in Appendix IX.

24. *Average daily earnings of workers.*—The average daily earnings of workers for the following industries are at present collected on district-wise basis :—

- 1 Cotton textile industry.
- 2 Printing presses.

- 3 Cement works.
- 4 Sugar industry.

- | | |
|------------------------------|-----------------------------------|
| 5 Foundries. | 9 Rice milling and paddy boiling. |
| 6 Engineering works. | 10 Oil mills. |
| 7 Groundnut decortiating. | 11 Tile factories. |
| 8 Cotton ginning and baling. | 12 Type foundries. |

The details regarding the average daily earnings of workers in the above twelve industries are furnished in Appendix IV.

25. *Miscellaneous.*—There were four cases of fire in factories in this State during the year. The total loss incurred as a result of these accidents is reported to be Rs. 13,000 of which Rs. 1,935 was realised from the insurance company. The details of industries engaged in Multiple Shifts are furnished in Appendix III. It will be seen from Appendix III that 49 per cent of the factories engaged in Multiple Shift come under the category "Food except beverages".

Part II.

LABOUR WELFARE.

1. *Washing facilities.*—Section 42 of the Factories Act, 1948 prescribes necessary and adequate washing facilities, for the use of workers. The standards have been prescribed in Rule 62 of the Madras Factories Rules, 1950. Most of the factories have provided necessary washing facilities.

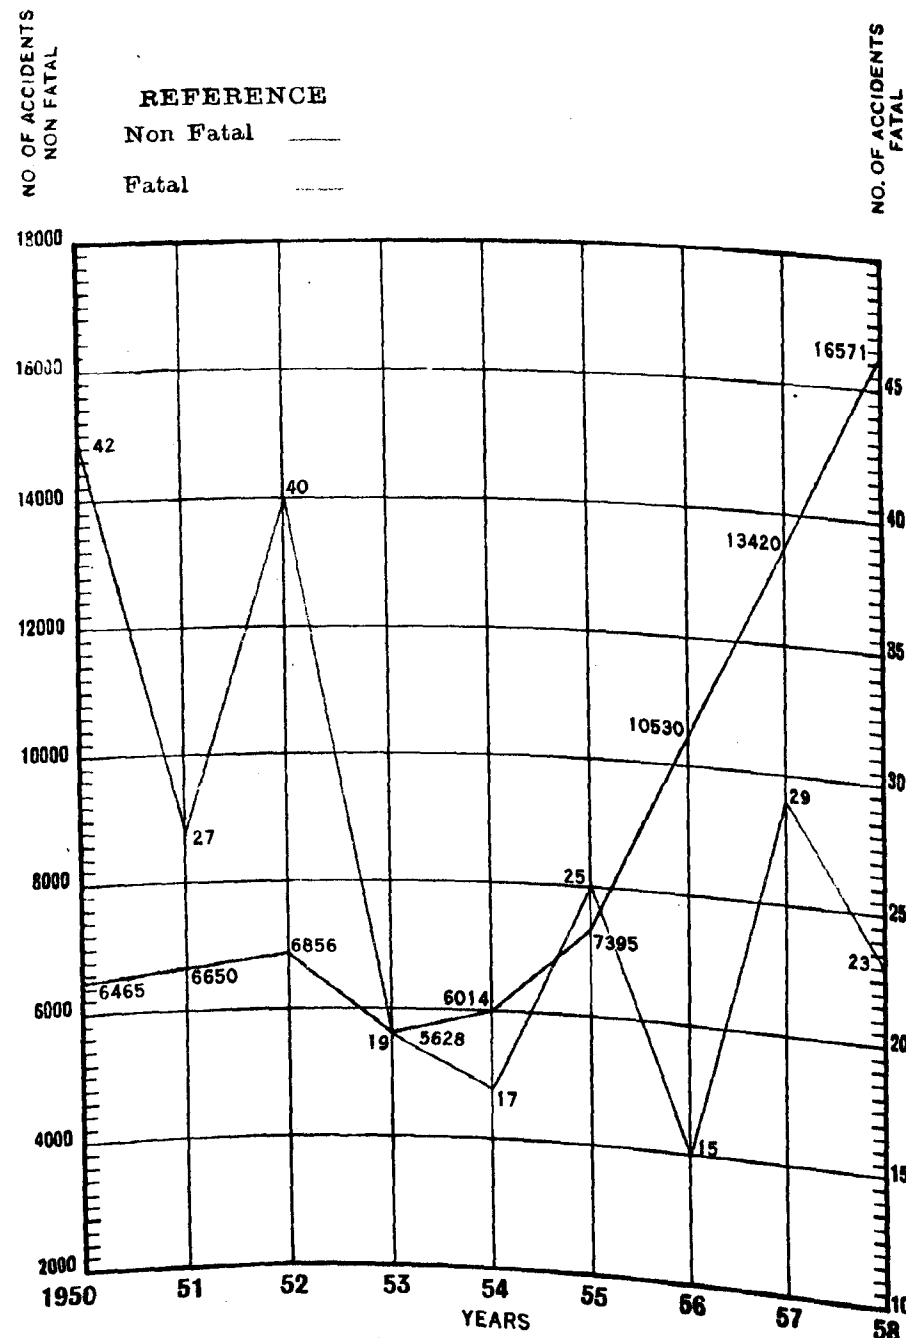

2. *First-aid appliances.*—Every factory should maintain and provide first-aid boxes or cupboards equipped as prescribed under Section 45 of the Factories Act, 1948. Maintenance of an ambulance room has been made obligatory in factories in which more than 500 workers are employed. Almost all the factories have complied with the provisions mentioned above.

3. *Housing.*—Housing contributes in no small measure to the welfare of labour. Though some managements have to a limited extent, provided living quarters voluntarily for their workers, the problem of housing in many industrial areas has not been solved satisfactorily. From the returns received from factories regarding the provision of houses to their workers, it has been found that 5,800 houses have been provided for 8,000 workers which is roughly 3 per cent of the total labour population of the State, covered by the Factories Act, 1948.

4. *Canteen.*—In every factory in which 250 or more workers are employed, a canteen should be maintained by the occupier for the use of workers as per section 46 of the Factories Act, 1948. The Government have notified 279 factories which should provide canteens for their workers. Most of the factories have complied and action is being taken against those who have not yet provided canteens.

5. *Rest-shed and creches.*—Rest rooms and creches are provided in most of the factories which employ more than 150 workers and 50 women workers respectively.

FATAL AND NON FATAL ACCIDENTS

Reproduced from the original drawn with information furnished by the indenter
Reg. No. 20- E '60 (Saka Era 1882) 753 Printed under the Superintendence of Sri K. SAMPATH
Assistant Director of Survey and Land Records
by Hella, at the P. Z. Press, C. S. O., Madras-5

6. *Drinking water.*—There was adequate supply of wholesome drinking water in the factories. Water coolers were installed in some of the big units.

7. *Education.*—Most of the big factories have maintained elementary schools or have donated to schools towards school fees or for the purchase of books for the workers' children.

8. *Medical facilities.*—68 factories have provided dispensaries where workers are treated for minor diseases.

9. *Welfare officers.*—Labour Welfare officers were employed in all factories employing more than 500 workers

(Vide Appendix III.)

Part III.

ACCIDENTS.

Accidents causing death or bodily injuries by reason of which the injured person is disabled for a period of 48 hours or more immediately following the accident are required under the Act, to be reported to the Inspectors of Factories of the respective areas. For statistical purposes, the number of accidents is taken to be equal to the number of persons receiving injuries, as one accident may result in injuries to more than one worker.

2. The number of accidents in factories totals 16,571 of which 23 accidents were fatal. Table I gives the annual total from 1950 to 1958 of accidents to persons employed in factories as defined in the Factories Act, 1948.

TABLE I.

Indices of accident rate (Factories).

Year.	All persons. Total accidents.	Men.	Women.	Young persons.
(1)	(2)	(3)	(4)	(A)
1950	6,465	6,334	119	12
1951	6,650	6,509	128	19
1952	6,856	6,713	120	23
1953	5,628	5,564	56	9
1954	6,014	5,930	77	7
1955	7,395	7,287	108	8
1956	10,530	10,436	90	4
1957	13,420	13,314	108	3
1958	16,571	16,484	87	..

(Vide Graph 1.)

3. *Analysis of accidents.*—The following statement analyses all accidents with reference to their industrial origin :

Serial number and industries.	1957.		1958.	
	Number of accidents.	Percentage.	Number of accidents.	Percentage.
(1)	(2)	(3)	(4)	(5)
1 Transport	5,767	42.9	7,725	46.6
2 Textiles	2,878	21.4	2,903	17.5
3 Engineering	1,382	10.3	1,734	10.4
4 Matches	648	4.8	1,093	6.6
5 Sugar	461	3.4	741	4.5
6 Miscellaneous	2,284	17.2	2,375	14.4

(Vide Chart D.)

"Transport industry" includes Railways and motor workshops and accounts for nearly 50 per cent of the total number of accidents. Two out of every 10 accidents occurred in textiles. Almost all the factories show an increase in the total number of accidents over the previous year.

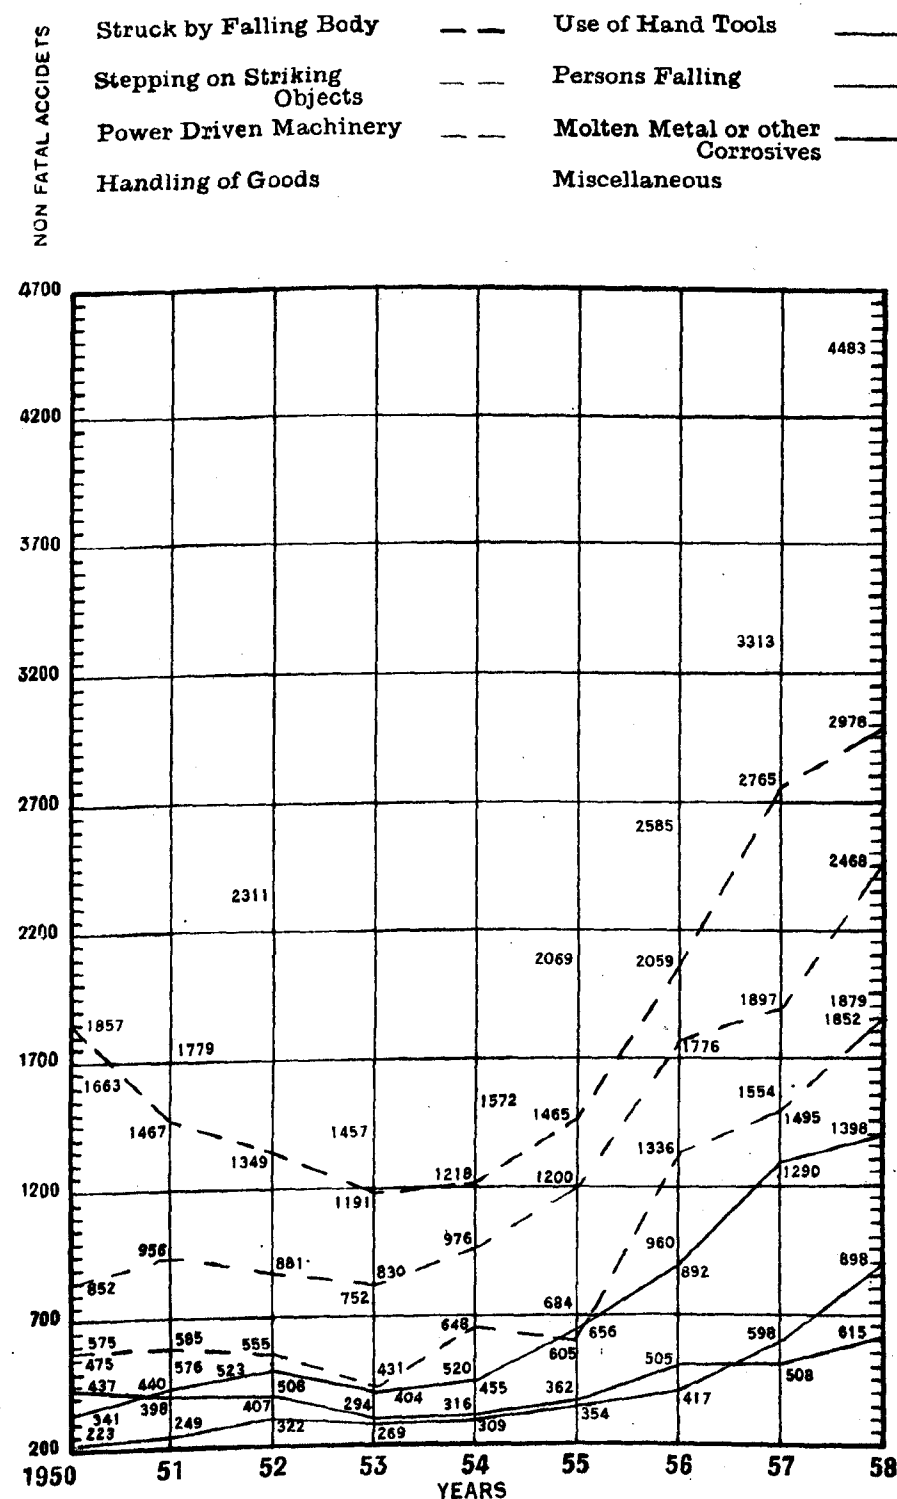

4. *Analysis by causation.*—The accompanying statement attempts to analyse the accidents into eight causation groups. The year to year changes from 1950 are also noted in the Statement.

ANALYSIS OF ACCIDENTS BY CAUSATION.

Causation groups.

Serial number.	Year.	Number of accidents.								Total.
		Struck by falling body.	Stepping on or striking against objects.	Power driven machinery.	Handling of goods.	Use of hand tools.	Persons falling.	Molten metal or other corrosives.	Miscellaneous.	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1	1950 ..	1,857	575	852	475	341	437	223	1,663	6,423
2	1951 ..	1,467	585	956	576	440	398	249	1,779	6,650
3	1952 ..	1,349	555	881	523	508	407	322	2,311	6,855
4	1953 ..	1,191	431	830	752	404	294	269	1,457	5,628
5	1954 ..	1,218	648	976	520	455	316	309	1,572	6,014
6	1955 ..	1,465	605	1,200	684	656	362	354	2,069	7,395
7	1956 ..	2,069	1,336	1,776	960	892	505	417	2,585	10,530
8	1957 ..	2,765	1,495	1,897	1,554	1,290	508	598	3,313	13,420
9	1958 ..	2,978	1,852	2,468	1,879	1,398	615	898	4,483	16,571

ANALYSIS OF ACCIDENTS BY CAUSATION

-  Transport
-  Textiles
-  Engineering works
-  Matches
-  Sugar
-  Miscellaneous

ANALYSIS OF ACCIDENTS BY CAUSATION

REFERENCE

-  Handling of Goods
-  Power Driven Machinery
-  Persons falling
-  Stepping on or striking against objects
-  Struck by falling body
-  Use of hand tools
-  Molten Metal or corrosive substances Etc.
-  Miscellaneous

The details of mandays lost due to accidents are tabulated below from the year 1953. During the year 1958, 256,823 mandays were lost due to industrial accidents.

Serial number.	Year.	Number of mandays lost.
(1)	(2)	(3)
1	1953	62,012
2	1954	65,701
3	1955	81,938
4	1956	88,729
5	1957	118,725
6	1958	256,823

5. *Fatal accidents.*—Twenty-three fatal accidents were reported during this year as against 29 during the previous year. Not less than 75 per cent of the fatal accidents is due to indifference on the part of workers to observe safety precautions, etc. Recently, a study has been undertaken in order to find out the number of accidents caused due to carelessness or negligence on the part of the workers in observing the safety provisions of the Act, in respect of Engineering industry in Madras and in respect of textile industry in Coimbatore district, the results of which are tabulated below :—

Industry.	Accidents caused due to				
	Negligence or carelessness of the worker.	Failure to use safety appliances.	Machinery.	Others.	Total.
(1)	(2)	(3)	(4)	(5)	(6)
Engineering	382	197	224	364	1,167
Textile	248	15	114	283	660

It will be seen from the above that for every 12 accidents in the Engineering Industry, four are due to negligence or carelessness of the workers, two to failure to use safety appliances, two to machinery and four to other causes. Similarly in textiles, for every 50 accidents 19 are due to carelessness of the worker, one to failure to use safety appliances, nine to machinery, and 21 to various other causes.

6. *Steps to minimise the rate of accidents.*—(a) Necessary action has already been taken by issuing circulars regarding safety in factories for the use of the Factory management. Some more are under preparation and will be issued soon.

(b) Safety posters are issued free of cost to the management for display at conspicuous places in the factory.

(c) Films regarding safety in industries will go a long way in creating safety conscientiousness in workers. Government have been addressed for the purchase of projectors.

(d) Bipartite committees in industry-cum-local level to suggest ways and means to reduce the incidence of accidents in factories will very soon be formed by the Government in Coimbatore, Madras and Madurai.

Part IV

OTHER ACTS.

(a) *Madras Maternity Benefit Act.*—The provisions of the Act are applicable to women employed in factories provided they have entered the service under the employer from whom they claim maternity benefit, not later than 35 weeks immediately before the week in which confinement takes place. Of the 2,022 factories which employ women and covered by the Madras Maternity Benefit Act, 1950 factories submitted the returns. Average daily number of women employed was 47,647. 1,872 claims were made during the year, of which 1,093 claims were paid. The total amount of maternity benefit paid was Rs. 78,253-15. The details regarding the amount of maternity benefit paid by the Employees' State Insurance Corporation were not available. The details regarding the claims are furnished in Appendix X—Statement I. No woman was employed in any factory during the six weeks immediately following the day of confinement. Inspections were made by the full time Inspectors and the Inspectress of Factories and the claims made and the benefits given were checked by them. The managers of 20 factories were prosecuted during the year for the contravention of the provisions of the Act. A sum of Rs. 140 was realised as fine (*Vide* Appendix XI—Statement II).

The Government have further amended the Madras Maternity Benefit Act during the year. The salient features of the Madras Maternity Benefit (Amendment) Act, 1958, are furnished below :—

(i) *Qualifying period.*—The woman worker concerned should have entered service at least 35 weeks before the week in which the confinement takes place or in which the notice of pregnancy is given before confinement, whichever is advantageous.

(ii) *Period of benefit.*—The benefit is payable during a period of 12 weeks of which not more than 6 shall precede the date of confinement.

(iii) *Rate of benefit.*—The benefit is payable at the rate of average daily wage subject to a minimum of 12 annas per day.

(iv) *Protection of employment.*—The employer shall not dismiss a woman worker, once a notice of pregnancy has been given, except for gross misconduct.

(v) *Medical benefit.*—A medical bonus of Rs. 10 shall be payable to a woman worker on maternity leave if no pre-natal, confinement and post-natal care is provided for by the employer free of charge.

(vi) *Nursing breaks.*—Nursing breaks shall be allowed to every nursing mother for 15 minutes after a continuous period of work for three hours.

(vii) *Protection of health.*—A woman worker shall be employed on light work during a period of one month prior to proceeding on maternity leave.

(viii) *Miscarriage.*—A provision is made for leave with pay for a period of three weeks from the day of miscarriage.

(ix) *Additional leave.*—In addition to maternity leave for a period of 12 weeks, there is provision for further leave with pay for a period of one month in cases of illness arising out of pregnancy or confinement.

(x) If the Inspector is satisfied that a woman worker is eligible for maternity benefits under the Act, although she has not given the required notice, the Inspector may order the payment of such benefits.

(b) *Employment of Children's Act.*—Most of the establishments are covered either by the Factories Act or the Madras Shops and Establishments Act and action was taken under these Acts.

(c) *Cotton Ginning and Pressing Factories Act.*—The provisions of section 9 of the Act were generally complied with.

(d) *Indian Merchandise Marks Act.*—The provisions of Section 12 of the Act were complied with by all the textile mills in the State.

(e) *Productivity Project in Madras State.*—A Productivity project for industries in Madras was organised by the Madras Institute of Management with the assistance of the staff of the Productivity Centre and I.L.O. Experts during September-November 1957. The first meeting of the Madras Productivity Council was held on 25th September 1958. The Government have permitted Sri M. A. Natarajan, to act as Honorary Secretary of the Madras Productivity Council. The other members nominated to the Council as representatives of the State Government are the Commissioner of Labour, the Director of Industries and Commerce and the Director of Technical Education. At the request of the State Government, two I.L.O. Experts, Mr. J. B. Shearer and Mr. R. L. Mitchel, visited the Madras State Transport undertaking during December 1958 and submitted a preliminary report. Sri M. A. Natarajan assisted them in carrying out the project successfully.

MADRAS-6,

Dated : 29th May 1959.

T. N. LAKSHMINARAYANAN,
Commissioner of Labour (Factories)
and Director of Employment.

STATEMENT I.

Category of factories.	Number of factories on the registers at the beginning of the period.	Number of factories in need of licence during the period.	Number of factories removed from the registers during the period.	Number of factories on the registers at the end of the period.	Number of working factories.	Average daily number of workers employed.
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Factories as defined under Section 2m (i).	3,271	419	162	3,528	3,439	2,72,554
Factories as defined under Section 2m (ii).	1,037	130	175	992	967	32,176
Factories as defined under Section 85(i). With Power.	443	(a) 13 (b) 1	(c) 21 (d) 11	435	394	1,830
Without Power	398			388	273	1,698
Total	5,149	563	369	5,348	5,103	3,08,968

(a), (b), (c) and (d).—For numerical purposes, the factories that were classified either to power or without power are shown under "Additions" and "Removals".

Only one factory was removed from the notification by the Government during the period under report.

IN MADRAS STATE FOR 1958

STATEMENT I-A.—Factories as defined under sections 87 and 93 of the Factories Act and the workers employed therein.

Factories.	Number of working factories.	Average Number of workers employed.
(1)	(2)	(3)
Factories as defined under section 87	316	19,336
Factories as defined under Section 93	2	39

STATEMENT I-B.—Factories carrying on operations declared as dangerous and workers employed in such operations.

Industries.	Number of working factories.	Average daily number of workers employed in dangerous operations.
(1)	(2)	(3)
21. Beverages	33	581
28. Printing, publishing and allied industries	14	4,481
29. Leather and leather products	223	7,338
31. Chemicals and chemical products	16	1,236
33. Non-metallic mineral products	4	331
34. Basic metal industries	6	335
35. Metal Products (Except Machinery, etc.)	10	982
37. Electrical machinery, apparatus, appliances, etc.	4	1,181
38. Transport	4	2,823
39. Miscellaneous industries	1	71
51. Electricity, gas and steam	1	27
Total	316	19,336

REPORT ON THE WORKING OF THE FACTORIES ACT, 1948

STATEMENT II.—Employment in

Industry.	Total number of working factories.	Number of factories submitting returns.	Number of factories not submitting returns.	Estimated average daily number of workers employed.

25 The Madura Mills, Company, Limited, Ambasamudram.	The company paid a monthly subsidy amounting to Rs. 62,000 for the year towards the welfare scheme operated by the Papanasani Labour Welfare Association constituted by the management under a Welfare Scheme.
26 Burmah Shell Tondiapet Installation, Madras.	A cup of tea is supplied to all employees in the afternoons free of cost. Cloth is issued to each workman for Pongal. The cost of the cloth less Rs. 5 is recovered from wages/salaries in instalments.
27 The Madura Mills Company, Limited, Madurai.	The company paid monthly subsidy in all during the year amounting to Rs. 43,500 towards the welfare scheme operated by the "Madura Labour Welfare Association."
28 The East India Distilleries and Sugar Factories, Ltd., Ranipet.	A new Radio set costing Rs. 650 was presented to the Employees' Union. A sum of Rs. 180 was donated to the Ranipet Labour Union in connection with their 30th Annual Conference.
29 The Metal Box Company of India, Limited, Madras-21.	Under the scheme of "Benevolent Fund" three hundred and twenty-four employees were given outright financial assistance amounting to Rs. 5,93. Every Friday during the lunch hour, Tamil broadcast covering current news are made for ten minutes to keep employees posted with latest news. The daily posting of engagements cut out from local papers together with other entertainments, discourses, etc., are posted in the Notice Board for the benefit of the workers. Arrangements are made every month for near relatives, wives and children of the employees to visit the factory. They are conducted through the factory by the members of the Works Committee and the working of the factory is explained to them. After the tour, they are given tea free of cost and they are allowed to see the cinema shows organized for their benefit at a nominal fee of Re. 0.45. With a view to enable employees to see with their own eyes the various development projects undertaken by the Government under the Five Year Plans, the company sponsored a tour of Government Projects in June 1958. Twenty-six employees were selected on the basis of attendance, good conduct and efficiency. The trip took three days to complete and the itinerary included Bhavanisagar Reservoir in Coimbatore district, Pykara and Moyar projects in the Nilgiris district. Two employees participated in the All India Radio Broadcast giving their impression of the tour how they benefited and the efforts being made by the Government towards the successful fulfilment of the Five-Year Plans towards the making of a better and prosperous India. There is a suggestion Scheme under which the workers are encouraged to be interested in what they are doing and thus become more proficient in their work so as to obtain valuable ideas to the running of the business and to recognise that the workers can contribute towards the efficiency and safer working condition. A sum of Rs. 650 was paid as reward to six employees for suggestions meriting

29 The Metal Box Company of India, Limited, Madras-21—cont.	an ward. A fund of paid leave is made available under a Scheme known as "T.B. Leave Bank" to T.B. cases through employees voluntarily surrendering a part of their annual casual leave and the company on its part will pay for this leave which would otherwise not have been taken. Leave is donated for four months in the first instance and the company gives special diet during the period of the treatment. One employee was rehabilitated in 1958.
30 Mettur Industries, Limited, Mettur Dam.	With a view to prevent accidents and to make employees safety conscious, a safety committee has been formed. The proceedings of the committee are minuted and previous meetings minutes are confirmed and discussed. Wages of the workers who work on night shifts are increased by 25 per cent. Cloth is sold to the workers on the occasions like Pongal and Deepavali at 20 yards for each at Ex-mill rates. Two big clock are installed in the Radio tower in the Employees Residential colony. Mirrors are fixed for the convenience of the workers inside the departments of the mills. Khadi uniforms are supplied free of cost to the Watch and Ward Staff. All lights in the mills have been replaced by fluorescent lights so as to get more cool and efficient lighting.
31 Simpson and Group Companies, Madras.	All employees of these companies whose basic salary is Rs. 500 or less are allowed the benefit of leave banking facilities scheme. Under this scheme, the cash value of the unavailed leave of an employee except an obligatory leave of 10 days in a year, is allowed to be kept at his credit being payable either at the time of his leaving the services of the company or at the time when he goes on leave on loss of pay. The amount so paid when he goes on loss of pay is limited to the loss sustained by him by availing leave on loss of pay. The managements are paying a gratuity of seven days basic wages for every year of service in case of termination of service for a reasonable cause, provided the employee has put in service for one year, and in case of resignation of service if he has put in service for five years. In case of death of an employee whilst in service, gratuity equivalent to retrenchment compensation but without notice pay will be paid to the heirs or dependants of the deceased. In case of retirement of an employee owing the medical unfitness, he is paid gratuity to equivalent to retrenchment compensation.
32 Integral Coach Factory, Perambur.	A staff benefit fund has been provided to afford relief to deserving cases of staff in distress, assistance towards sickness, recreational activities and the education of the employees and their children. The amount for this fund is provided by the Railway Administration. No contribution is collected from the employees.

MADRAS DISTRICT.					
1 Madras Electricity System Power Station, Basin Bridge, Madras-12.	9th February 1958	Male	50	While unloading coal from Railway Wagon to lorry stationed on a slight slope, the lorry slipped and went back resulting in the men getting jammed in between the wagon and lorry.	"Transport—Other vehicles—driven by power."
2 The Virkama Engineering Company, 2, Lattice Bridge Road, Adyar, Madras-20.	13th June 1958	Do.	44	The worker accidentally came in contact with the lead wire of an Electric handlamp while he was releasing the twisted wire. He had an electric shock and fell unconscious. He was taken to the Royapettah Hospital immediately, where the doctor examined him and pronounced dead.	"Electricity."
Loco Workshops, Southern Railway, Perambur, Madras-23.	6th September 1958	Do.	29	While working in the Electric drain pump in the deep well pump house, attached to Tiller house, Perambur, the worker sustained an electric shock and died.	"Electricity."
The Vikrama Engineering Company, 2, Lattice Bridge Road, Adyar, Madras-20.	16th October 1958	Do.	58	While returning home by walk, he fell down unconscious outside the factory premises but inside the compound. At once, he was taken to the Doctor's house nearby, who reported that the worker died, due to natural causes, viz., Heart failure supervening on high blood pressure.	"Others."
Madras Port Trust Workshop, Harbour, Madras-1.	1st November 1958	Do.	23	Electric Shock	"Electricity."
The Buckingham and Carnatic Mills, Madras-12.	24th December 1958.	Do.	50	While working in the Pichrome plant, some bags of soda ash fell from a stack on the worker and as a result, he sustained severe injury on the head and later died in the Government General Hospital, Madras.	"Others."

(1)	(2)	(3)	(4)	(5)	(6)
3 Habib & Co., Meddai Tannery, Madavaram.	15th January 1958	Male.	Not known.	The worker while he was washing himself at the end of the day's work faint and fell down: when he was taken to the doctor for treatment, the doctor announced that life was extinct.	"Others."
4 Shaw Wallace & Co., Fertiliser Factory, Avadi.	18th January 1958	Do.	25	The worker was deputed to act as brakeman for their new trailer which was being towed by their tractor to their Kaduvetti factory to collect acid. On the way, about a mile from the factory, the worker seems to have slipped from his seat of the trailer and fallen in between the tractor and the trailer, his head was crushed and he died instantaneously.	"Transport—Other vehicles—driven by power."
5 Binny's Engineering Works, Private, Limited, Meenambakkam.	8th August 1958	Do.	19	While the worker was entering the manhole of mild steel vessel to weld it internally, he appears to have received an electric shock which proved fatal.	"Electricity."
10 Shaw Wallace & Co., Glue Factory, Kaduvetti.	18th September 1958.	Do.	25	On the day of accident, a drum containing crystalline Carboric Acid, which is being used in this factory owing to non-availability of liquid Carboric acid for disinfection of the process vessels in this factory, was being melted engaging three workers—Two for heating the base of the drum with lighted torches, i.e., iron rods with cotton waste soaked in furnace oil and the third to help drain out the melted acid. While the melting was going on, on this occasion, owing probably to uneven melting, some back pressure must have been created inside the drum, since the Carboric Acid at the mouth had not melted entirely; and when this also melted the melted Carboric acid shot out with some force straight at the worker, who was at the moment standing directly in front of the drain cock. One of the two torch bearers heating the base of the drum dropped his lighted torch out of fear and this also accidentally struck the worker on whom the hot acid had	"Explosion."

CHINGLEPUT DISTRICT—cont.				
10 Shaw Wallace & Co., Glue Factory, Kalluratti—cont.				sprayed. The sprayed hot acid as well as the clothes of the worker caught fire instantaneously, resulting in burns and severe shock to the worker. He was admitted into the General Hospital, where he died.
11 T. I. Cycles of India, Limited, Ambattur.	26th October 1958	Male.	24	While seated on the channel and giving connection to the disconnected machine, the worker accidentally slipped off, fell down and died.
NORTH ARCOT DISTRICT.				
12 M. Hajee Md. Ismail Sahib Tannery, A. Tannery, Pernambut.	17th September 1958.	Male.	55	The worker fell down in the lime pit while he was removing the tiles from the pit. He was taken away from the pit immediately and he died on the way to the hospital.
COIMBATORE DISTRICT.				
13 The Central Jail, Coimbatore	27th July 1958	Male.	40	It appears that on 27th July 1958, one convict by name Kalianna Nalar was asked to remove cotton borah in the cotton godown of the Central Jail along with others. The deceased seems to have pulled the cotton borah on a file of 3 borahs, when, the top one weighing about 300 lb. appears to have fallen on him. Due to the impact, he fell on the concrete floor and sustained a head injury. He was rendered First Aid by the Jail Department and then sent to Government Headquarters Hospital where he died.
14 Sri Varadaraja Textiles, Ltd., Peelamedu P.O., Coimbatore-4.	20th August 1958	Do.	22	The worker appears to have fallen from the roof of the Roving Department, while cleaning and dusting the same. It was gathered that the worker was standing on the trusses holding with one hand and dusting with the other hand. Suddenly, he fell down on the floor and sustained severe injuries. Immediately he was taken to the Government Headquarters Hospital where he died.
15 The Lakshmi Mills Co., Ltd., Pappannaickenpalayam, Coimbatore.	26th August 1958	Do.	51	It appears one worker by name Amrasi Gounder of the Lakshmi Mills Co., Ltd., suddenly fell down unconscious at 1.40 p.m. on 26th August 1958 while working in the mixing department and died instantaneously also. It is a death due to natural causes.
NILGIRIS DISTRICT.				
16 Devershola Estate Tea Factory, Devershola Post, Nilgiris.	22nd February 1958	Male.	49	Sri T. N. Peter, Mechanic-cum-Electrician sustained an accident on 22nd February 1958 and he died on 23rd February 1958. One of the machines in the shifting room, viz., "Chota Moore" sifter was to be repaired and therefore, it was stopped. The deceased person had removed the belt from the pulley on the main line shaft as well as from the pulley on the sifter. Holding the belt in his hands, he asked for a plier to remove the pin from the belt fastener so that the entire belt can be removed from the main line shaft. The belt appears to have gripped the shaft and the belt fastener and pin caught on to the sleeve of the shirt of the worker and he was dragged up and knocked against the shaft and ceilings. First Aid was rendered to him at the factory and he was taken to Holdsworth Memorial Hospital, Mysore, where he died.

TIRUCHIRAPPALLI DISTRICT.					
17 The Canvey Sugars and Chemicals, Ltd., Pettavaithalai, Tiruchirappalli.	4th August 1958	..	Male.	22	This new factory had started functioning only two or three days prior to the accident. In the 3 p.m.—11 p.m. shift on 4th August 1958, the Assistant Engineer in charge found that the cane crusher was not functioning properly and that the rollers required scraping and adjustment. For this purpose, he ordered the turbine running the crusher to be shut off. The turbine would appear to have been shut off all right but before the rollers came to a stop a supervisor and the deceased worker climbed over the guard rails of the working platform and stationed themselves on the machine frame-work within lethal reach of the moving rollers; while this was in itself a very dangerous thing to do, it would appear that the deceased courted further disaster by jumping on to the rollers before they actually came to a dead stop. His two legs were drawn in and crushed up to the knees. He was extricated on reversing the turbine by handle, given first aid and rushed to the Government Headquarters Hospital at Tiruchirappalli. In spite of all medical aid including oxygen, blood transfusion, etc., he succumbed to his injuries on 6th August 1958. "Rollers" of crushers, mixers, etc., not for metal or wood working. Nip accidents."

MADURAI DISTRICT.

18 Madurai Thermal Station, Samaya- nallur.	28th January 1958	..	Male.	45	Work such as boiler overhaul and cleaning of condenser and cooling pond etc., in this State owned factory is done by the departmental workers aided by some unskilled casual labour supplied by a contractor. The deceased worker was one of a gang of such casual labour employed through the contractor, for the work of cleaning the condenser under the guidance of a foreman, in the shift 12 midnight to 8 a.m. on the night of 27/28th January 1958. Towards 6 a.m. the work of cleaning was over and while the condenser door was being refitted at the rear end, the foreman had to leave the workspot to fetch a spare stud to replace a worn out one. While he was away on this errand, the rest of the gang stood back on the working platform, waiting for his return. The platform, a permanent fixture (8' x 7'-9") is at a height of 7'-8" from the floor and extends up to the southern wall of the room. But at the time of the accident, it was open at the eastern and western edges without any hand rails though angle iron at the edge served as a too board. While the others in the gang were standing on the platform, the deceased who was earlier caught dozing at work, would appear to have squatted at the west corner of the platform and dozed off. In his sleep, he would appear to have fallen over the open western edge of the platform on to the floor 7' 6" below. Immediately he was rushed to the hospital where he died next morning. "Person falling from a height."
19 Madurai Mills Co., Ltd., Madurai	28th January 1958	..	Do.	49	While passing near the High Speed Reamer machine, the worker staggered, losing his balance and fell on the beam which was revolving and met with his death. "Person falling on the flat."

MADURAI DISTRICT—cont.					
20 Madura Mills Co., Ltd., Madurai	14th July 1958	..	Ma'e.	45	While moving a cotton bale on to a stack (6 feet height) the bale slipped and fell down and hit another bale on the floor which fell on the worker and died.
21 Sri Murugan Rice Mill, Mahalipatty Road, Madurai.	19th November 1958	Do.	26	The worker fell down from the steps leading to the soaking pit from a height of about 5 feet. The worker died.	"Handling goods or other articles". "Person falling from a height".

RAMANATHAPURAM DISTRICT.

22 The Janakiram Mills, Ltd., Rajapalayam.	23rd February 1958	..	Male	26	The worker attended duty as usual at 7 a.m. on 23rd March 1958. After completing his round of all departments to check the working of the motors which forms part of his work, he went to the electrical department for some rest. He was seated on the raised platform inside the department room, away from the electrical installations; but subsequently the worker was attacked by chest pain and he died as a result of a sudden heart attack. The body has been sent for post-mortem examination and the Medical Officer, Rajapalayam to whom the matter has referred has stated that the deceased would appear to have died of shock and asphyxia due to electricity.
					"Electricity".

23 East India Corporation, Ltd., Ginning 26th November 1958 Female. 30 "Handling of goods or articles."

Kumari Poochudi who was a daily paid kappas picker from the heaped up kappas to a height of about 10 feet in the godown and while she was collecting the kappas from the side of the heap, the top portion of the heap fell on her, thus making her to fall on her back on the ground. As there was a basket behind her, her head fell on the top of the basket and the sharp end of a hoop iron used in the basket as a band, pierced her head at the back, to a depth of about one inch. She was immediately given first aid and taken to the Government hospital at about 11 a.m. She was admitted in the hospital as an in-patient and she expired on 27th November 1958 at 5 a.m.

**SALIENT FEATURES OF THE REPORT ON THE WORKING OF THE
MADRAS FACTORIES ACT, 1948, FOR THE YEAR 1958.**

Factories and their inspection.—There were 5149 factories covered by the Factories Act at the beginning of the year 1958. The number of such factories at the end of the year was 5,343 of which 5,103 factories were in commission as against 4,941 factories in commission during 1957. There is thus an increase of 162 factories in commission during 1958. Out of the factories in commission, 3,469 were using power, 957 were not using power and 667 were notified as factories under section 85 (1). The number of workers employed in these factories at the end of the year was 319,056 as against 319,396 workers at the end of 1957. In the Public Sector, there were 150 factories employing 44,129 workers as against 125 factories employing 40,197 workers during 1957. There is thus an increase of 25 factories and of 3,932 workers in the Public Sector.

The total number of visits made by Inspectors during the year was 5,108. Out of 5,343 factories, 1,616 factories were inspected once, 3,382 factories twice, 98 factories thrice and 12 factories more than three times. Two hundred and Thirty Five factories were not inspected during the year for the reason that though the factories were visited more than once they were found closed.

In addition to the above, the Inspectors made 8,529 special and surprise visits to check employment of workers outside their specified hours of work and on their weekly holidays.

Industrial position.—The rice mills continued to occupy a dominant position in the industrial structure of the State but they employed only 14,017 workers while 463 cotton mills including ginning factories employed the largest number of workers, viz., 1,18,580. The largest number of factories are concentrated in Coimbatore, Madras, Salem, Madurai and North Arcot Districts. The factories in Coimbatore employ the largest number of workers and the Districts of Madras, Madurai, Tirunelveli and Tiruchirappalli come next in the order mentioned.

Coimbatore District is the most highly industrialized district in the State, Cotton Mills and engineering works predominate in that district. Textile Mills, Transport Industry, Railway, Workshops, Printing Presses and Engineering Works figure prominently in the industrial set up of Madras City, Cotton Mills, Rice Mills, and Handlooms predominate in Madurai district, Cotton Mills and Match Industries in Tirunelveli District and Railway Workshops, Cotton Mills and Handloom Factories in Tiruchirappalli district.

Plans.—1981 plans relating to factory premises were scrutinised with reference to the stability, ventilation, light, etc., by the Chief Inspector of Factories during the year as against 1,201 during 1957. Of the plans scrutinised 1,634 plans were approved.

Health.—During the year, special attention was paid by the Factory Inspectors towards protection of workers against individual diseases and maintenance of general health.

Casual workers.—The percentage of temporary labour has been on the decrease. The casual workers float from factory to factory in search of employment, daily allowance, etc., are paid to them as for permanent workers. There has been no discrimination in any of the units in which casual workers are employed in regard to the extension of other benefits such as leave with wages, maternity benefits, etc.

Safety measures.—Safety posters issued by the Chief Adviser, Factories, New Delhi, were distributed to factories free of cost for display in conspicuous places.

Accidents.—There were 16,571 accidents during the year as against 13,420 during 1957. Of these, accidents 23 proved fatal. The number of accidents has been on the increase. Transport, textiles and engineering works contributed to a large number of accidents. Analysis of accidents by causation disclosed that "struck by falling bodies", "handling of goods", "power driven machinery" and "stepping on or striking against objects" were some of the causation groups responsible for a large number of accidents. Negligence, carelessness of the workers, failure to use safety appliances, were the main reasons for the fatal accidents.

Prosecution.—The occupiers and managers of 440 factories were prosecuted during the year as against 340 factories during 1957. A fine of Rs. 24,416 was realised in the year as against Rs. 14,973 realised in the year 1957.

Maternity Benefit Act.—The average daily number of women employed in 2,022 factories during the year was 47,647. One thousand eight hundred and seventy-two claims were made for the grant of maternity benefits during the year as against 2,315 in 1957. One thousand ninety-three claims were paid and the total amount of maternity benefit paid exclusive of benefits paid by the Employees' State Insurance Corporation was Rs. 78,253.15 as against Rs. 120,908 in 1957. No woman was employed in any factory during the six weeks immediately following the day of confinement.
