ECLIPSES and other PHŒNOMENA in 1801.

There will be six Eclipses this Year, four of the Sun and two of the Moon: they will happen in the following order, but invisible to these parts of the World.

		h.	m.	
March	14th Sun eclipsed at	8	42	Afternoon.
	30th Moon eclipsed at	10	41	Morning.
April	13th Sun eclipsed at	9	43	Morning.
September	8th Sun eclipsed at	11	1	Morning.
	22d Moon eclipsed at	0	45	Afternoon.
October	8th Sun eclipsed at	1	40	Morning.

The Moon's Shadow in the first and last of these Eclipses of the Sun, will come on the Earth, and traverse a small part of it within the South Polar Circle; and the other two of the Sun within and about the North Polar Circle.—Those of the Moon will be great and total in the Atlantic and Southern Ocean, and those Countries to which the Moon will be conspicuous, as North and South America, West India Islands and part of Europe and Africa.

In the course of this Year there will be several Occultations of the fixed Stars and Planets by the Moon, visible in India; of which, the most remarkable are selected, and the times they will happen are as follow.

February 8th—Antares a Star of the first Magnitude in the Constellation of Scorpio, will be obscured by the Moon.

	h.	m.	
Beginning or Immersion -	1	2	Morning.
Moon rises at Madras -	1	31	
End or Emersion -	1	36	
Apparent Time of Conjunction -	2	52	

Star passes 13m. South of the Moon's Center.

February 16th—The Moon will eclipse the Planet Venus part visible at Madras.

	h.	m.	
Im. of Venus behind the Moon	7	59	Afternoon.
Moon sets at - -	8	29	
Apparent time of true Conjunction	6	41	

Venus passes 3m. South of the Moon's Center

March 18th—The Planet Venus will come again within the Moon's ecliptic limit, and be obscured by her.

	h.	m.	
Venus passes the Meridian -	2	49	Afternoon.
—Im. behind the Moon -	3	31	
—Em. from the Moon -	4	42	
App. time of true Conjunction	3	42	

Although this Occultation happens early in the Afternoon yet as Venus being nearly at her greatest Elongation from the Sun, it may be observed with an ordinary Telescope; her Altitude at Immersion 80 degrees and at Emersion 65 on West by North Azimuth.—To the Eastward, Venus may be seen to emerge from the light part of the Moon, in the Evening after Sun-set.

Venus passes 11m. South of the Moon's Center.

March 19th—The Moon Occults the Pleiades or 7 Stars the brightest of which is of the third Magnitude, and will

	h.	m.	
Immerge behind the Moon at	7	25	Afternoon.
Emerge at - - -	8	35	
App. Time of true Conjunction	6	27	

Star passes the Moon's Center 3m. South

April 30th—Antares, or the Scorpion's Heart, will agn be eclipsed by the Moon.

	h.	m.	
Immersion at - - -	8	1	Afternoon.
Emersion at - - -	8	54	
App. Time of true Conjunction	10	4	

Star passes 9m. South of the Moon's Center,

August 3d—The brighteſt Star in the Pleiades will

	h.	m.	
Immerge behind the light part of the Moon,	2	39	Morning.
Emerge at	3	46	
App. Time of true Conjunction	4	38	

Star paſſes 6m. South of the Moon's Center.

October 25th—The Moon will Occult a Star of the ſecond Magnitude in the Conſtellation of Taurus.

	h.	m.	
Immerſion at	12	0	Morning.
Emerſion at	12	41	
App. Time of true Conjunction	1	24	

Star paſſes 13m. North of the Moon's Center.

December 26th—The Moon makes a near Appulſe to the Planet Jupiter at 1 A. M. and alſo to the Planet Saturn at 4 A. M.—This will be a diſtinct Occultation to the Southern part of the Peninſula and Iſland of Ceylon.

	h.	m.	
Immerſion of Saturn behind the Moon at Columbo	3	55	Morning.
Emerſion at	4	45	
App. time of true Conjunction	4	32	

Saturn paſſes 13m. North of the Moon's Center.
Jupiter Paſſes 30m. North of the Moon's Limb.

At all places in India Weſt of Madras, theſe Occultations will begin ſooner, and at all places Eaſt, later than the times above ſpecified; and they are calculated to apparent time or that ſhewn by the Sun.

Jupiter will be in Oppoſition to the Sun January 20th, and an Evening Star till the 8th Auguſt, when he is in Conjunction with the Sun and becomes a Morning Star to the end of the Year.—His Satellites will not be viſible from the 6th July to the 5th of September.

Venus will be an Evening Star from the commencement

of the year till the 26th May, when ſhe is at her inferior Conjunction with the Sun, and becomes a Morning Star to the year's end.—She will be at her greateſt Elongation Eaſt of the Sun March 16th and greateſt Elongation Weſt of the Sun Auguſt 15th.

The Eclipses of Jupiter's Satellites may be successfully applied in settling the Longitude of Places, particularly the 1st and 2d.——Those in the above Table are fitted to the Meridian of Fort St. George, the Longitude of which, is 80 deg. 28m. 45sec. East from Greenwich.

If an Eclipse at the place of observation, happens before the time mentioned in the Table, that place is to the Westward of Fort St. George, and if after the time, to the Eastward of it.

Under the degree of Latitude or nearest to it of the place required, taken from the foregoing Table of Latitudes, and opposite to the day of the Month or nearest to it, on the left-hand side of the Table, the time of sun-rising will be found; and opposite that on the right-hand is the time of sun-setting.—Any Person who would set his Clock or Watch, by the Sun's rising or setting and this Table, must take the instant when the Sun's lower limb is about his semi-diameter distance from the Horizon; at this time the centre of the Sun will be very near the true points of rising and setting, or that given by the Table.

The Meridional Altitude of the Sun or Star at Madras or any place in North Latitude, is found, by subtracting the Sun or Stars Declination, if North, from the Latitude of the place, or the Latitude from the Declination when this is greatest, and adding them if South, the sum or remainder is the Zenith distance, which taken from 90 leaves the Meridian Altitude.

The two foregoing Tables are calculated at the rate of 12 Fanams 68 Cash per Arcot Rupee and 350 Rupees per 100 Star Pagodas.—They are useful for the readier finding the number of Rupees contained in any sum of Star Pagodas, or the Rupees, Fanams and Cash in any number of Fanams from 13 to 650, and by addition may be carried much higher.

Should the given sum of Star Pagodas, or Madras Fanams not be found in the Tables, then take out the given sum by parts, as in the following Example.

Suppose it was required to find how many Arcot Rupees will pay a bill of Star Pagodas 1359 37 40,—Seek in the first Table for 1300, against it under Rupees you will find 4550, then against 59 stands 206 Rupees 6 Fanams 34 Cash, and opposite 37 Fanams in the first column in the latter Table, will be found 2 Rupees 11 Fanams 24 Cash, which with the 40 Cash as above, will stand thus,

N.B. When the Fanams and Cash exceed 12 68, equal to one Rupee, deduct it therefrom, as in the above Example.

As an authority to the Boat Paymaſter to include the Tarpaulin hire in the Bills, the Maſter Attendant is daily to furnith him with a Liſt of applications. The Boat Paymaſter to bring to account, under a diſtinct head his receipts on this account, and for watering, and pay the Maſter Attendant his dues monthly.

67th.—Theſe Regulations to be affixed at the Offices of the Maſter Attendant, and his Aſſiſtants, on the Beach, at the Exchange, the Sea Cuſtom houſe, and Boat Pay Office, and to be in force, on, and after the firſt day of the enſuing Month.

FORT ST. GEORGE,
March 19th, 1809.

Signals for Ships or Veſſels in the Offing.

SIGNALS reſpecting Ships or Veſſels in the Offing, whether Men of War or Merchantmen, are made from the top of the Fort Square of Fort St. George, on which there are three Signal Staffs. One conſiſting of an upright Maſt, repreſenting the Eaſt Quarter of the Compaſs with a Yard ſlung by the Middle acroſs, the Arms of which pointing to the North and South points of the Compaſs.

Three Claſſes of Veſſels are expreſſed by theſe Signals; Veſſels of three Maſts, of two Maſts, and of one Maſt. An Enſign or Square National Flag, repreſents a Ship of three Maſts, a National Flag with two Points or Swallows Tail, repreſents a Brig or Snow &c. of two Maſts, and a broad National Pendant, terminating in one point, repreſents a Sloop or Cutter of one Maſt.

If either of theſe Flags are hoiſted to the Top of the upright Staff, the Veſſels ſeen are in the Eaſt Quarter of the Compaſs; if hoiſted to the North or South Arms of the Croſs Yard, the Veſſels ſeen are in the North or South Quarters of the Compaſs.

The number of Ships that appear in the Offing, are expreſſed by Pendants. A white Pendant ſignifies one Ship or Veſſel; a red and white Pendant, two Veſſels; a red Pendant pierced with white, three Veſſels; and a yellow Pendant pierced with blue, four Veſſels; when the number

of

of Veſſels exceed four, they are to be conſidered as a Fleet, on which occaſion a long blue and yellow Pendant will be hoiſted.

If the Veſſels in ſight are Men of War in the Eaſt Quarter, one of the numerical Pendants will fly from the National Flag of the upright Staff, if in the North or South Quarters the Pendants will fly at the extremity of the Yard-Arm over the National Flag, hoiſted on the ſtay of the North or South Arms of the Croſs-Yard.

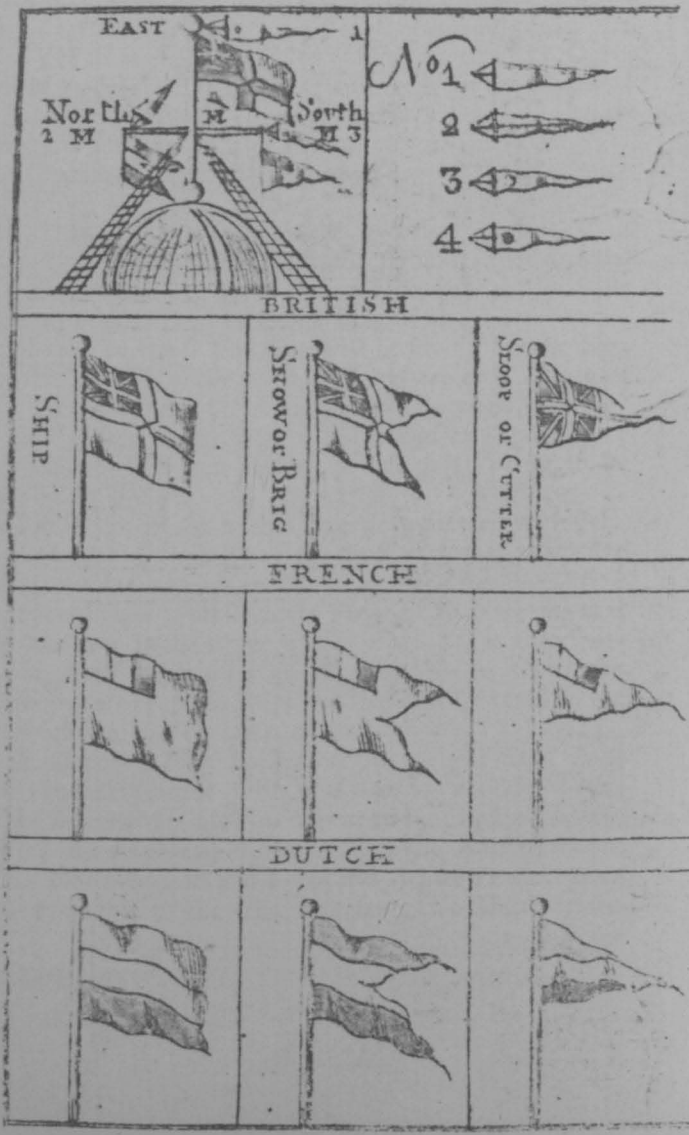

If Merchantmen are ſeen in the North, South or Eaſt Quarters, the Numerical Pendant will fly under the National Flags. If the Ships are Indiamen, a blue Pendant will be diſplayed as uſual under the union Flag of the Fort.

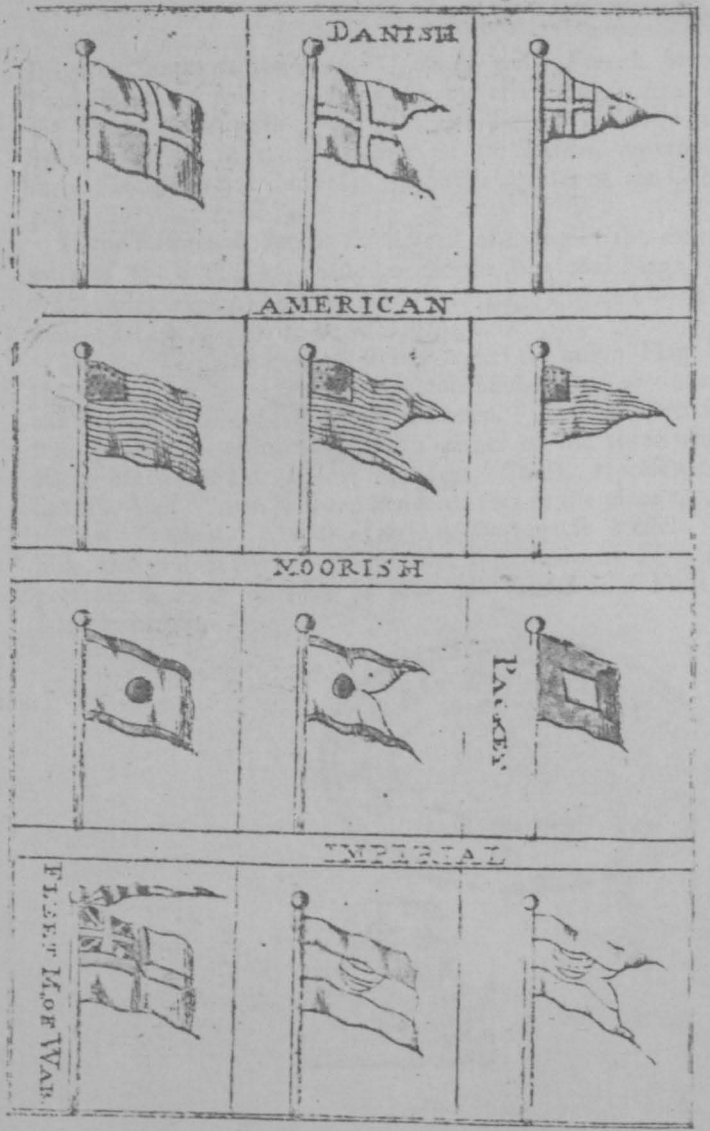

If a Fleet is in ſight, one Gun will be fired after the Signal for the Fleet is made, and if there are two Fleets of different Nations in the ſame point of the Compaſs, the Signal of the firſt ſeen Fleet, will be lowered after a ſpace of 15 Minutes and a freſh Signal hoiſted, which is likewiſe to be accompanied by a Gun.

A Packet is announced with a blue Flag pierced with yellow, hoiſted to the extremity of the Staff or Arms, expreſſive of the Quarter ſhe appears in.

The annexed Plate repreſents the Flags of all Nations, that trade to Madras; in the upper corner of which, is repreſented the Flag Staff and Yard; and the manner in which the Signals are made to expreſs Ships or Veſſels diſcovered in the North, South and Eaſt Quarters of the Compaſs.

The St. George's Flag hoiſted on the upright Staff with a yellow Pendant pierced with blue over it, announces that four ſail of Britiſh Men of War appear to the Eaſtward, the Dutch Flag of two points, or Swallow Tail, hoiſted on the Stay of the Northern Staff and a red and white Pendant over it, at the extremity of the arm, repreſents two Dutch armed

Brigs or Snows on the North Quarter, and a French broad Pendant of one point hoiſted to the ſtay of the South Arm of the Croſs-yard, with a red Pendant pierced with white flying over it at the extremity of the Arms, repreſents three French armed Cutters in the South Quarter of the Compaſs.

If the numerical Pendants, inſtead of flying at the extremity of the Staffs, are hoiſted under the National Flags, in the manner expreſſed by the letter M. they will deſcribe the ſame Claſs of Veſſels to be Merchantmen.

N. B. The blue Pendant flying under the union Flag of the Fort, with the St. George's Colours hoiſted upon any one of the Signal Staffs, expreſſes an Indiamen. A yellow Pendant flying under the union Flag, with either of the three white Flags hoiſted under any of the ſignal Staffs, repreſents a Spaniſh Veſſel; and if a red Pendant flies in the place of the yellow Pendant, it will expreſs a Portugueſe Veſſel. A blue and yellow Pendant flying over the National Flag repreſents a Fleet of Men of War, and under it a Fleet of Merchantmen.

ABSTRACT

Abstract of an act of Parliament passed in the 33d year of the Reign of his Present Majesty.

IN supplying Vacancies in the Civil Service of the Honorable Company it is to be observed.

1st. That no Office, Place, or Employment, the Salary, Perquisites, and Emoluments whereof, shall exceed £. 500 Ster. per Annum, shall be conferred on any Civil servant who shall not have been actually resident in India in the Company's service, for the space of three years, in the whole, antecedent to his appointment to such Office.

2d. That no Place or Employment, the Salary, &c. of which, shall exceed £. 1500 Ster. per Annum, shall be conferred upon any of the said servants, who shall not have been actually resident in India in the Civil Service, for the space of six years, in the whole antecedent to the vacancy to be supplied.

3d. An Office with a salary, &c. of £. 3000 Ster. per Annum is not to be conferred on any Servant who shall not have been 9 years in the whole, resident in India, in the Company's service.

4th. No Office of £. 4000 Ster. per Annum shall be conferred on any Servant, who has not been twelve years, in the whole, resident in India, in the Service.

5th. No person in future shall be deemed capable of holding in the Civil line of the Company's Service, two or more Offices, Places or Employments, the joint amount of the Salaries, Perquisites, and Emolument of which shall exceed in the whole, the sums respectively prescribed by these regulations.

Light house Insurance in London.

The Light House on the Exchange in Fort St. George was erected by the Exchange Committee, with the Sanction of Government, in December 1796; and is of essential service to Ships coming into the Roads in the Night.

The Light is 90 feet above the level of the Sea at high water; it can be seen from the Decks of the Honorable Company's Ships about 17 Miles, and from their Mast heads near 26 Miles.—The South part of Pulicat Shoal bears from the Light house, N. by E. half E. distance about 12 Miles; and to keep clear of the Shoal, the light should always bear to the Westward of S. S. W. three quarters West.

Regulations

Regulations for the Madras Laudable Society.

I. IN case of the death, or removal from Madras of any of the above Directors, another, or others, shall be chosen by the remainder of them, out of the Subscribers, and so on, from time to time, in order that the original number be kept up.

II. The Carnatic bank shall be appointed Secretary and Treasurer to the Society, with an allowance of Star Pagodas sixty by the month; which shall be in lieu of all other charges whatever, and paid by half yearly deductions of ninety Star Pagodas from each class.

III. The Bank shall in all cases act according to the orders of the Directors.

IV. The Society shall consist of four classes, which shall be kept distinct, and separate from each other; and each Member shall pay the following sums, according to the class to which he belongs.

	CLASSES.			
	1st	2d	3d	4th
On or before the 1st of January 1801,	240	180	120	60
on the 1st of January 1802,	120	90	60	30
on the 1st of July do,	120	90	60	30
on the 1st of January 1803,	120	90	60	30
on the 1st of July do,	120	90	60	30
on the 1st of January 1804,	120	90	60	30
on the 1st of July do,	120	90	60	30
on the 1st of January 1805,	120	90	60	30
on the 1st of July do,	120	90	60	30
on the 1st of January 1806,	120	90	60	30
on the 1st of July do,	120	90	60	30
on the 1st of January 1807,	120	90	60	30
And on the 1st of July do,				
Star Pagodas.	1680	1260	840	420

V. Persons who are not admitted on or before the 1st day of January 1801, shall, if admitted before the 1st of April, come in without any other charge, except that of the original subscription, and interest on it, at the rate of eight per cent

If in the first Class,—S. Pags. 5000.
If in the second Class,—S. Pags. 3750.
If in the third Class,—S. Pags. 2500.
If in the fourth Class,—S Pags. 1250

Should it appear to the Directors that the funds of the class to which the deceased Member belonged, will not admit of so large a payment; then, such a sum shall be advanced as the Directors think proper.

XXI. Interest at the rate of 8 per cent per annum shall be computed on the sums paid under the last regulation, from the day on which they may have been paid to the 1st of January 1808; and then, that sum, with the said interest uncompounded, shall be deducted from each share in part of which it was received.

XXII. If at the close of this Society, the shares fall short of, or do not exceed the sums paid under the 20th Regulation, the persons to whom they have been paid shall not be obliged to pay interest for, or refund, any part of the same.

XXIII. If at the close of this Society there should be a class in which no casualty has happened, the funds of that class shall then be equally divided among all the subscribers in it.

XXIV. Any Member, in case of his going to Europe, or desiring it from other motives, may at once pay the amount of all his subscriptions up to the end of the time for which this Society is to exist.—He shall upon the payment receive a discount of 5 per cent: but in case of his death before the expiration of the time, no part of the money shall be refunded.

OBSERVATIONS.

CALCULATING from an average of the casualties which have happened in the several Tontines hitherto established in India

India (a Madras Tontine for 5 years lately closed without one lapse in 40 lives,) it will be found that an allowance of 5 out of 50 is more than we can suppose in seven years.—Let that number be taken, and let it be supposed that those five casualties will happen at such times as to reduce the funds as much as if four subscriptions, with the interest, and compound interest, were deducted from the beginning to the end of the Society.—This is assuming every thing against the funds.—After all, it will be found, that persons entitled from the lapse of a life in this Society will benefit as follows.

	Pagodas.
If the subscriber was in the 1st Class,	20000
If in the 2d.	15000
If in the 3d.	10000
If in the 4th.	5000

The above estimate supposes that 8 per cent. only will be the annual produce for the money.

To insure a man's life at any office in Calcutta; (there is no life Insurance Office in Madras) he must pay for a single year 6 per cent and that in advance.—By this scheme with the above data, it is demonstrable, that he insures for seven years at the rate of less than 1 per cent per annum.

A life cannot now be insured in Calcutta for a longer period than a single year.—By the scheme now proposed it is insured for seven years.—Supposing it as advantageous to be insured from year to year as for seven years certain, the difference of expence will be found enormous.

Take a Subscriber in the first Class and say that he insures his life for seven years in the sum of Pagodas 20000; if he insured in this sum at any office in Calcutta, it would cost him Pagodas 1500 annually; whereas by this scheme, he pays Pagodas 240 only.—The difference is Pagodas 1260 every year; and at the end of seven years will amount to about Pagodas 12300.

But the utmost extent to which a life can be insured in Calcutta

sent per annum, to be computed from the 1st of January 1801, to the day on which they are declared Members.

VI. All persons who are in good health, above the age of 17, and under that of 45 years, shall be eligible to this Society.—Those exceeding 45 years of age shall pay such a premium as the Directors may from time to time establish.

VII. Persons may be admitted at all times, during the continuance of this Society, upon such terms as the Directors shall think reasonable, from a calculation of the funds, and the casualties in that class, to which the person applying wishes to subscribe.

VIII. Any person may become a subscriber to two, or all of the classes; but two shares shall not be held on the same life in any of them.

IX. A person may subscribe upon the lives of others provided those others have not, previous to his application, been nominated to the class in which he wishes to subscribe.

X. All applications for admission shall be made to the Carnatic Bank, and shall be determined on by the Directors of the Laudable Society.

XI. All subscriptions shall be paid within six days of the time at which they become due; interest from the sixth day, at the rate of 10 per cent per annum, shall be added; and if any Member shall not have paid his subscription, with the said interest, within two months of the date on which it became due, he shall forfeit his share.

XII. As often as the sum of Star Pagodas 1500 shall be collected, it shall be laid out, either in the purchase of Company's paper, or in loans approved of by the Directors, for which Company's paper shall be given in security;—and in either case the Company's paper so coming into the possession of this Society, shall be specially indorsed, and rendered not transferable.

XIII. No subscriptions on account of shares shall be demanded

demanded, if they did not become due before the death of the persons on whose lives the shares were held.

XIV. No benefit shall be derived from a casualty which shall have happened by suicide, or the hands of Justice.

XV. The Society shall close on the 1st day of January 1808.

XVI. All money subscribed, together with all the interest which may have accumulated in each class, shall, on the first of January 1808, be divided into as many shares as there may have been casualties; limiting their amount as hereafter provided, and one share in every class to which each deceased Member belonged, shall be considered as his property, and paid according to his disposition of it by will or deed;—or his Heirs, Executors, or Administrators shall be entitled to receive the same.

XVII. Provided always that such shares do not exceed the following sums in each class, viz.

In the 1st Class, the sum of 25,000 Pagodas on one share.
In the 2d Class, the sum of 18,750 Pagodas on one share.
In the 3d Class, the sum of 12,500 Pagodas on one share.
In the 4th Class, the sum of 6,250 Pagodas on one share.

XVIII. Should any surplus funds remain after the division provided for in the preceding clause, the same shall be equally divided among the surviving subscribers in each class in which such surplus may arise.

XIX. A Member subscribing on the life of another person, shall, upon the death of that person, be entitled to the same benefits to which the heirs, &c. of a deceased Member who had a share on his own life, are entitled.

XX. The person or persons entitled to benefit by the lapse of a life in this Society, shall, on application to the Treasurer, immediately receive the following sums;

cutta, is about Pagodas 3000.—At the end of six years the person insured will have paid (interest included) nearly half as much as the sum for which he insures; and a slight indisposition may at that time deprive his Family of this dear-bought security.

It is true that in the offices now established, the money is paid soon after the death of the person whose life is insured; and there is a certainty of receiving the very sum for which the insurance is made.—In this scheme however the chance of receiving as much is greater than that of receiving less, than the sum here stated:—and as to prompt payment, if a Member of this Society dies, those for whose benefit he insured, will receive, if he was in the first Class, Pagodas 5000; if in the 2d, Pagodas 2750; if in the 3d, Pagodas 2500 and if in the 4th, Pagodas 1250, Suppose that at any other Office the premium paid amounted to 240, 180, 120, or 60 Pagodas a year, which will answer to the 1st, 2d, 3d, or 4th, Classes of this Scheme:—He would in the 1st case receive 1000, in the 2d 750, in the 3d 500, in the 4th 250 Pagodas less than he here receives in the 1st instance.—At the conclusion of this Society he will receive in addition, (according to these calculations) if he was in the first Class about 20,000; if in the 2d, about 15000; if in the 3d, about 10000, and if in the 4th about 5000 Pagodas.

A person insuring in the first Class of this Society, pays Pagodas 240 per annum. If he could insure to the same amount at any Office in Calcutta, he would pay for one year Pagodas 1500. The difference is Pagodas 1260.—Take this sum with interest and compound interest until it is expended by half yearly subtractions of 120 Pagodas each;—and it will be found that insurance costs nearly as much elsewhere, for one year, as it costs here for seven.
