The Sun will be centrally eclipsed on the Meridian at 13h. 41' Greenwich time in longitude $154^{\circ} 41' E$ and latitude $11^{\circ} 20' N$.

Digits eclipsed 5.—Digits eclipsed at Sun rising 1½ on the Sun's North Limb.

N. B. Bangalore, Seringapatam, and Mangalore being nearly on the same Parallel of latitude with the Madras Observatory, the preceding times of beginning, middle and end of the Sun's Eclipse may serve to predict the same with sufficient accuracy at those respective places by applying the difference of longitude in time which are as follows.

Bangalore.....	0	10	43 W.
Seringapatam.....	0	14	19 W.
Mangalore.....	0	21	41 W.

September 19.—Sun eclipsed invisible at Madras. Apparent time of conjunction at 4h. 45' Greenwich time. Sun's longitude $61^{\circ} 52' 1''$ Moon's latitude $3^{\circ} 55' S$. The following distances and angles formed by the Madras Church Steeple, the Flag Staff on St. Thomas's Mount and Perumbankum Hill (a small sugar loaf detached hill which lays about 8 miles South of the Mount, and whose position was determined by Major Lambton's Survey) will enable any observer on board of a Ship riding in the Madras Roads to determine its bearing with great precision by taking their angular distance with a common Sextant.

In order to ascertain correctly that the preceding regulation has been acted upon to its full extent, a table will be prepared at the General Post Office shewing the distances and probable time of arrival at each Station, with which the returns to be made by the person in charge at each Station will be compared, and the Collector be held responsible for any delay which may occur.

20.—All public Officers both Civil and Military shall send to the Offices of the Paymaster, or other public Officer from whom he shall receive his pay, a list of the public letters despatched by him during the month preceding, with the following attestation upon honour at the foot of the same.

"I do hereby certify upon my honor that the above is a correct list of all the public letters despatched under my signature during the month of _____ and that they were solely and entirely on the public service."

21.—That no abstract of pay be discharged except it be accompanied by a list to the above effect, and if it be paid without attention to this point, that circumstance alone to be considered as a sufficient cause of retrenchment.

22.—The lists given in by the Officers in the Civil department to be forwarded to the office of the Civil Auditor, with the monthly accounts of the person paying the abstracts, and those in the Military Department, to the office of the Military Auditor General.

23.—That the lists so forwarded do remain in deposit in the office to which they are sent for the purpose of comparing, if required, with the lists which will be ordered to be forwarded direct from the persons in charge of the Subordinate Post Offices to the Post Master General.

24.—With the view of obviating the possibility of misconception with regard to the letters intended to be exempted from postage it is to be unequivocally understood, that with the exception of letters from the Honorable the Governor, Commander in Chief, a Member of Council, His Majesty's Naval Commander in Chief, the Judges of the Supreme Court, or such as are franked by the Chief Secretary to Government, all letters and papers that are not exclusively on the business of the Public Service, & that have not been previously entered as an official record, are to be subject to Postage, and should it come to the knowledge of the Governor in Council, that any of the Officers, Civil or Military, now authorized to address letters on the Service make an improper use of the trust so reposed in them, by conveying letters on their own private concerns under a cover superscribed "on the service," the Governor in Council will consider it to be a disqualification for office.

25.—Should the name of any Public Officer obliged from his situation to carry on a public correspondence be omitted in the list, he will address a letter to Government stating the nature of his public correspondence, when if it is deemed of sufficient importance, his name will be added to the list, or some public Officer already included in the list will be directed to superscribe his letters on the Service.

26.—Any Officer on duty, or leave of absence, at the Presidency, having occasion to correspond on public Service, will carry his letter to the Adjutant General, who upon being satisfied that the letter is exclusively upon the public service, will frank the same.

27.—All Officers similarly situated at the Subordinates will apply to the Commanding Officers of the Stations where they may be.

28.—With a view of preventing the supposition of private letters, and the misappropriation of their Postage, it is directed that in future all receipts granted at the Post Office, for letters delivered to, either at the Presidency or Subordinates shall be upon stamped paper specifying the rate of single postage, date of letter delivered, place of destination, and size of letter, i. e. single, double or more.

Distinct stamps shall be issued for each description of letters which shall have engraved on them the word single, double, triple, quadruple, or packet, and the same shall be repeated in

With this facility of discovery, every individual, both European, and Native, whose letter does not reach its destination will be enabled to obtain redress upon application to the Post Master General.

Orders have likewise been given for the receipt of letters, exclusively on the Public Service, from the Senior Officers of His Majesty's Navy, it being understood that when more than one Ship of war is at the same station all Service letters must be franked by the Senior Officer.

Fort St. George, 6th April 1809.

The following declaration upon honor shall be made by Officers entitled to frank the letters of Soldiers, Sailors or Sepoys.

Notice is further given that no parcel arriving by sea will in future be forwarded to any inland station, unless the person to whom it is addressed, shall give the Post Master General directions to that effect, when such person will be held responsible for the postage of the parcel, whatever may be its amount.

EXTRACT of a general letter from England in the Commercial Department dated 7th September 1808.

Para. 229. IN our letter of the 31st October 1799 we informed you that we had appointed Messrs. Hyde and Marter, Clerks in our Accountant's Office to act as Agents in the clearance of Baggage, Wines and Presents from the Company's Warehouses and that we had been induced to appoint our own Servants to conduct this business in order that they might be accountable to us for the propriety of their conduct.—The increase which has taken place in the Civil and Military establishments of our several Presidencies, and the consequently augmented number of persons returning to Europe have determined us to make a separate department for the purpose of clearing Baggage, Wines, and Presents, and we have appointed Mr. William Mutter and Mr. William Evans to be Warehouse keepers of Baggage subject to our immediate inspection and control, and we have made such arrangements with His Majesty's Board of Customs for ascertaining and paying the duties on Baggage, &c. as will ensure the greatest possible dispatch in the delivery of the articles to the respective proprietors.

230. We have also sanctioned a table of fees and allowances to be received for the discharge of this duty and for reimbursing the expenses attending it, and we have prohibited the Baggage Warehouse-keepers from receiving any other than the authorized allowances, upon pain of our severest displeasure.

231. As we have erected this establishment for the sole purpose of the convenience of our Servants and others who may return to Europe, we direct that our intentions in this respect be made public, and be constantly affixed up in the Export Offices of our several Presidencies, and that it be signified to all our Servants returning to Europe that it is our desire that they apply to our said Warehouse-keepers Messrs. Mutter and Evans to clear and deliver to them their Baggage, Wines, and Presents, as we have directed Messrs. Mutter and Evans to transact every branch of business connected with this department which will render the Agency of all other persons unnecessary.

232. Passengers arriving from India are liable to inconvenience from being ignorant of the law which prohibits Calicoes being printed, painted or stained or dyed, and also Silk Goods from being worn or used in this Country, and such Goods although made into apparel are of necessity taken out of their Baggage and detained by the Officers of the Revenue. We direct therefore that notice hereof be made generally public, and

further that Napkins, &c. which contain a coloured stripe however small are considered to be prohibited and cannot be passed in England as part of their baggage.

EXTRACT of a general letter from England in the Public Department dated 26th August 1801.

HAVING adverted to the immense quantity of baggage brought home by the Passengers arrived in the Company's Ships and being desirous of promoting every regulation that appears to us likely to increase the importation of surplus Tonnage, we have investigated this as one cause, which has occasioned the reduction of that important benefit, both to the Company and owners, the space occupied by the Passengers' baggage in one of the Ships lately arrived having amounted to the immense quantity of 63 Tons, conceiving therefore some regulation necessary to be adopted to correct as much as possible this growing evil and to prevent such immense quantities of baggage being imported, to the ultimate exclusion of the Company's cargo, we have come to the following resolutions, with copies of which you must furnish the Commanders of all Ships in the Company's Service for their information and guidance; and we direct that you adopt every other means which may appear necessary towards carrying the same into effect, viz.

That Gentlemen proceeding to England in the undermentioned stations be restricted from taking with them, a larger Tonnage of baggage and stores, than the following exclusive of their bedding, a table and a sofa or two chairs for their respective cabins, viz.

Gentlemen of Council.....	5	Tons
General Officers.....	5	do.
Colonels in His Majesty's or Company's Service.....	4	do.
Senior Merchants.....	4	do.
Lieutenant Colonels.....	3	do.
Junior Merchants.....	3	do.
Majors.....	2½	do.
Factors.....	2½	do.
Captains.....	2	do.

That Gentlemen proceeding to England in either of the above-mentioned stations who may be permitted to bring home their families with them, be restricted from taking more Tonnage than

one half of the preceding allowance in addition, as the Ladies baggage.

That married Ladies proceeding to their Husbands in England, be restricted from taking more than 2-3ds of the Tonnage prescribed for a Gentleman of the same rank as their Husbands.

That Writers, Lieutenants, Ensigns and other calm Passengers be restricted from taking a larger quantity of baggage and stores than 1 Ton each, exclusive of their bedding, a table and sofa or two chairs.

That married Ladies proceeding to their Husbands in England of either of these last mentioned descriptions be restricted from taking more than a similar quantity of baggage.

That such Gentlemen of either of these last mentioned descriptions who may be permitted to bring home their Wives with them be restricted from taking more than 1 Ton in addition as the Ladies baggage.

That single Ladies be restricted from taking more than the same quantity of baggage and cabin furniture.

That all excess of baggage beyond the abovementioned quantities, on whatever ship it may be brought home, be invariably charged freight at the charter party rate per Ton, & that the said baggage be not delivered from the Company's Warehouse, till such freight shall have been paid into the Company's Treasury.

PASSPORT REGULATIONS.

THE Right Honorable the Governor in Council having reason to be satisfied of the total inefficiency of the present practice of regulating passports, either to prevent the passage of unauthorized travellers, to trace the route and the pretensions of those of doubtful character, or to ensure the free progress of those who are duly authorized; has been pleased to establish the following orders for the regulation and control of all passports granted under the Presidency of Fort St. George.

1st.—That from and after the 1st of June next, the Secretary of Government in the Public Department shall be charged with the general control and direction of all passports granted within the territories of Fort St. George.

2d.—That passports of the prescribed form, capable of being recognized by Natives as well as Europeans, in sewed Books with a Chequer Margin for the insertion of the name of the person and No. and date of the passport (for the purpose of preventing forgeries by comparison when returned) shall be issued by the Secretary of Government to all persons who shall be authorized to grant them, viz. To the Resident in Mysore, and to all Collectors for their respective Districts, with an exception of Sea-ports where there is a Commercial Resident, who shall always regulate the passports of the port where he resides. To the Town Major of Fort St. George for Military persons belonging to that garrison; to the Adjutant General of the Army for all other Military persons leaving the Presidency; and to such Officers Commanding Military Stations as shall be authorized to grant passports. These Stations shall be determined in the first instance, and from time to time when any changes of Stations may occur, by the Secretary of Government in communication with the Adjutant General of the Army. The Secretary of Government will himself regulate the receipts and issue at the Presidency of all Passports to persons not Military.

3d.—That all persons authorized to grant Passports shall keep a register in a prescribed form (bound books or which will be likewise transmitted) of all Passports received, and another of all Passports issued.

the passport to the proper Officer, who shall register its receipt in the same manner as on granting one, & if he deems it necessary, shall issue a new Passport in exchange, noting on the old one the date of its receipt, and on the end of every month sending to the Post at Pondicherry, for the perusal of whom duty appears to have been granted.

5th.—That the Secretary of Government in the Public Department, and Adjutant General, Regular in all Travellers and Passports, shall be enabled from to collect, namely, all public Officers, authorized to grant or receive Passports, shall maintain, not in monthly a copy of each Register of Passports granted and received during the month, and shall be held responsible for the correctness of the exact number of Passports with which they have respectively been intrusted by the Secretary.

6th.—That passports to Military persons shall be granted by Military Officers exclusively, and to all other persons by Civil Officers exclusively, but in cases of necessity, a Military Officer, in the absence of the Civil authority, may grant a Passport in the absence of the Military authority, after procuring a sanction to the effect of an Station, or endorsing his passport with the words "Pass to" noting the letter of sanction in his register, or the particular to the Passport, in the same manner as the Civil authority does, and endorsing the word "ordered" in the column of Remarks.

7th.—Any Traveller stating that he has lost his passport shall immediately be detained until a duplicate has been procured.

8th.—Public Officers having received a passport authorizing them to travel out on the public service shall not be compelled to wait for the exchange of their passport, nor be subjected to any part of the regulations which may apply.

9th.—All public Officers authorized to grant or receive passports, shall report to the Secretary of Government any irregularity of dispatch from the authorized places, which may come to their attention, together with all remarks regarding the conduct and signature of Travellers, which may appear to be necessary to be communicated for the purposes of better regulation. And all public Officers authorized to issue passports shall be empowered, on sufficient information or report of conduct of Travellers, to refuse a grant passport for the continuance of a Journey, thereby communicating reporting the denials to the Secretary of Government by the post of the day, or even by instant mail, further orders the person of the

Passport Regulations.

Traveler, if such a measure shall in their judgment appear to be necessary.

10th—For the convenience of official arrangement all letters relating to passports shall be superscribed "Passport Service."

MEMORANDUM.

Exclusively of the Regulations which shall be published for general information, it may be proper that all persons authorized to grant Passports, should be furnished with instructions for their guidance in granting or refusing them.

The following are suggested to embrace all the material considerations.

1st—To guard against the intrigues of foreigners in the interior of the country either among our own feudatories or subjects, or at the courts of independent Native Powers, constitutes the main object of these regulations. To prevent foreigners from acquiring local information, though an important, is but a secondary consideration, and only these regulations are intended to assist the sentiment of Europeans in India by indirect means.

2d—No Passport of the Foreign Governor, can be considered sufficient to pass a Traveller a single mile through the Company's possessions, but Public Officers stationed near a foreign Settlement, will concert with the foreign Governor, or other authorized authority, according to local circumstances, the terms of forwarding Travellers from such Settlements with the requisite English Passports on proper grounds.

3d—The routes of foreign Travellers for commercial purposes will be generally by the sea side, and every proper facility should be afforded to that kind of communication. But no foreigner shall on any pretence be furnished with a Passport to travel inland, or even to deviate from the road nearest the shore, without the special authority of Government.

4th—English subjects who are not in His Majesty's or the Honourable Company's Service, should in like manner be restricted to the road nearest the shore.

5th—All public Officers who may be authorized to grant passports, will as soon as they are practicable after the receipt of their instructions transmit to the Secretary of Government, descriptions of all Europeans, not in His Majesty's or the Company's service residing within the limits of their respective authority, with their opinion regarding the expediency of issuing the same, and the residences of each such individual. The Secretary will return cer-

ties for such as the Governor in Council may think proper to license, and all Europeans not in the Service, who shall not possess such certificates on the first day of August 1802, shall be sent to the Presidency for the purpose of being embodied for England.

6th—From and after the above date, no Passport shall be granted to any European not in the Service, who resides or stays directly or indirectly at any English port or station, nor to any British subject residing at a foreign settlement, who does not possess such certificate of license, but Mariners or Traders, whether British or Foreign, and residents in India who may desire to pass from one port to another for commercial purposes, shall be furnished with Passports without limitation.

7th—The Certificate should include a description of the person, and shall grant constant permission to reside in the town of " " subject to be sent to Europe at the shortest notice whenever the Government shall think fit.

FORN ST. SECRETARY, 11th April 1802.

NOTICE is hereby given, that from and after the first day of July next, no European person of whatever rank, description, or country will be permitted to travel through the Company's possessions subject to this limitation, unless he shall be regularly furnished with passports for that purpose.

The only exception which the Right Honourable the Governor General in Council has been pleased to make to the foregoing resolution, is in favor of Officers commanding parties of His Majesty's or the Honourable Company's Troops.

All persons about to travel are accordingly required to go out a passport, from the Collector of the district in which they reside, or in places where there may be no Collector, from the Districting Officer of the nearest station, when certificate or passport shall be produced to the said Collector or Commanding Officer who are authorized to grant the same, and to issue the said passport.

All European Persons of all description are hereby warned, that whoever shall be found travelling without a passport will be taken up and confined until a report of his case can be made to the Presidency.

Notice is hereby further given, that a reward of Ten Pagodas will be paid to any person who shall take up and bring into the nearest station any European deserter or vagrant of any description.

FORN ST. SECRETARY, 11th April 1802.

IN addition to the Government advertisement published on the 25th of May 1799, prohibiting foreigners of every description from passing into the Company's dominions, subject to the following regulations, without a regular Passport—The Right Honourable the Governor in Council, is hereby ordered to give notice that from and after the 1st day of June next, viz. 1800, no European or other person, ship, or vessel, who shall be observed passing into the dominions of the said Company, beyond the town of Fort St. George, without being furnished with a regular passport, will be taken as such, and the pleasure of Government shall be thereon.

11—The only exception to the Right Honourable the Governor in Council, has been made in favour of the foregoing Regulations, in favour of British, Dutch, and other parties, of the Majesty of the Honourable Company's Agents.

COLLEGE SCHOOL.

BESIDES the College, the Company maintain a School sub-
 ordinate to it, and under the superintendence of the Prin-
 cipal, into which boys may be admitted at an early age, and in
 which they will be taught the elements of general learning, and
 such other accomplishments as are the usual objects of instruction
 in the larger seminaries of this country. Especial attention will
 be paid also to such parts of education as may serve to qualify
 them for public business, and for the higher departments of
 commercial life.

Though this School be designed as introductory to the College, it
 is not to be understood that the Company is pledged to make it
 the sole channel of an appointment to the College itself; but it is
 nevertheless proper to observe, that those who shall have passed
 through both institutions will enjoy the advantage of an uniform
 system of education, begun in early youth, and continued to
 their departure for the duties of their public stations.

Notwithstanding that an intimate connection is intended to
 subsist between the College and the School, it is nevertheless
 to be understood, that, while the College is exclusively appro-
 priated to persons designed for the civil service of the Company
 abroad, the School will be open to the public at large.

The Reverend M. H. LUSCOMBE, A. M. of the University of
 Cambridge, is appointed Head Master of the School; to whom
 the annual sum of seventy guineas is to be paid for each pupil;
 which, without any additional charge, will include, besides the
 usual course of classical instruction, the French language, writing,
 arithmetic, mathematics, drawing, and dancing.

REGULATIONS

OF THE

Admission of Gentlemen Cadets into the Royal Military Academy at Woolwich, on the East India Company's Establishment.

- I. No cadet to be admitted under fourteen or above sixteen years of age, or below the height of four feet nine inches; a certificate of over-seemster's birth taken from the parish register, and signed by the minister, to be delivered to the Secretary of the East India Company: as likewise an address where he may be sent for on a vacancy.
- II. Every candidate, previously to his admission, must be well grounded in arithmetic, including vulgar fractions, write a very good hand, and be perfectly master of the English and Latin grammars.
- III. All candidates are publicly examined by the proper masters in the Royal Military Academy; and, if found deficient in any of these preparatory parts of learning, will be rejected.
- V. The above qualifications are indispensable at the time of examination; but, the future studies of each candidate will be very maturally forwarded, with a view to obtaining a commission, to be here so learnt to draw, and acquired a knowledge of the French language before he is appointed a Cadet.

REGULATIONS

OF THE

Royal Military College at Marlow.

In conformity to His Majesty's regulations for this institution no cadet can be admitted who is under thirteen, or above fifteen years of age; or who has any mental or bodily defect, which may disqualify him for military service.

Every cadet is to produce a sufficient certificate of the time of his birth.

He is to be well grounded in a knowledge of grammar and of common arithmetic, and shall write a good hand.

Should he be found deficient in any of these elementary parts of learning, he will not be qualified for admission.

Cadets admitted in that class, by whom the sum of £100 per annum is to be paid for education, board, and clothing, are to pay a moiety of that sum half-yearly, in advance, during their continuance at the college. No army agent is however to

by

to be named by such cadets, from whom the half-yearly payments are to be received by the treasurer; and should a cadet leave the college before the expiration of any half year, he will be accounted with for the six months in advance.

Each cadet is to come provided with eight shirts, eight pocket handkerchiefs, eight pair of cotton and eight pair of worsted short stockings, six towels, four night caps, two black velvet stocks, four pair of webbed shoes, three pair of shoes, a bodice, a waist, a waist and nether apron, a large comb, a small comb, a comb-brush, a clothes-brush, a tooth-brush, all deficiencies in which are to be made good, at his charge, at the yearly vacation.

No cadet is to join the junior department with a greater sum of money in his possession than one guinea; and this regulation is considered to be so indispensable, that any deviation therefrom will subject the cadet to be sent away from the college. The parents may, however, if they think proper, make an arrangement for the cadet's receiving an allowance, not exceeding half a crown a week, for pocket money.

All repairs of clothing, linen, shoes, and other articles belonging to the cadets, will be made at the expence of the college.

No perquisites or presents of any kind, are allowed to be received by the Masters, or any other persons from the cadets.

As a certain number of cadets for the Royal Military College, in that class for which the sum of £100 each per annum is to be paid, are to be nominated by the East India Company, the Court of Directors of the said Company have agreed, that one half of such expence, or £50 per annum for each cadet, and no more, shall be paid by the Company, on an engagement, in writing, being entered into by the friends or parents of the cadet, being responsible persons, on his appointment to the college, to refund the amount of the Company's expences on his account, provided he shall enter into any other service or line whatsoever, after his being received into the college, or if he shall not proceed to India, in the Company's military service, or receiving an appointment for that purpose.

The above-mentioned annual payment of £100, to be regulated in the following manner, viz.

The friends or parents of the cadet are to make the first half yearly payment of £50, and the Company to advance the second half yearly payment, in like manner; and the subsequent half yearly payments to be made alternately, by the friends of the cadet and the Company, during the time he shall continue at the college; which payments from the friends of the cadets are to be made into the Company's Treasury.

SIGNALS

for Ships or Vessels in the Offing.

SIGNALS respecting Ships or Vessels in the Offing, whether Men of War, or Merchantmen, are made from the top of the Fort Square of Fort St. George, on which there are three Signal Stacks. One consisting of an upright Mast, representing the East point of the compass with a Yard flag by the middle across the Arms of which pointing to the North and South points of the compass.

Three classes of Vessels are expressed by these Signals; Vessels of three Masts, of two Masts, and of one Mast.

An Ensign, or Square national flag, represents a ship of three masts; a national flag, with two points or swallow's tail, represents a Brig or Snow, &c. of two masts; and a broad national pendant terminating in one point, represents a Sloop or Cutter of one mast.

If either of these flags are hoisted to the top of the upright staff, the vessels seen are in the East Quarter of the compass; if hoisted to the North or South arms of the cross yard, the vessels seen are in the North or South Quarters of the compass.

The number of ships that appear in the offing, are expressed by Pendants. A white pendant signifies one Ship or Vessel; a red and white pendant, two Vessels; a red pendant pierced with white, three Vessels; a yellow pendant pierced with blue, four Vessels; when the number of Vessels exceed four, they are to be considered as a Fleet; on which occasion a long blue and yellow pendant will be hoisted.

If the Vessels in sight are Men of War in the East Quarter, one of the numerical pendants, will fly from the national flag of the upright Staff; if in the North or South Quarters, the Pendants will fly at the extremity of the yard arm over the National flag, hoisted on the stay of the North or South Arms of the Cross Yard.

If Merchantmen are seen in the North, South, or East Quarters, the numerical pendant will fly under the National flag. If the Ships are Indiamen, a blue pendant will be displayed as usual under the Union flag of the Fort.

If a fleet is in sight, one Gun will be fired after the signal for the fleet is made; and if there are two fleets of different nations in the same point of the compass, the signal of the first seen fleet, will be lowered after the space of 15 minutes and a fresh signal hoisted, which is likewise to be accompanied by a Gun.

A Packet is announced with a blue flag pierced with yellow, hoisted to the extremity of the Staff or Arms, expressive of the quarter she is in.

The annexed plate represents the flag of all nations, that trade to Madras; in the upper corner of which is represented the flag staff and yard, and the manner in which the Signals are made to express Ships or Vessels discovered in the North, South, and East Quarters of the compass.

The St. George's flag hoisted on the upright staff with a yellow pendant pierced with blue over it, announces that four and of British Men of War appear to the Eastward; the Dutch flag of two points or swallow's tail hoisted on the stay of the Northern staffs, and a red and white pendant over it at the extremity of the Arm, represents two Dutch armed frigates or Snows in the North Quarter, and a French broad pendant hoisted to the stay of the South Arm of the cross yard, with a red pendant pierced with white flying over it at the extremity of the Arm, represents three French armed cutters in the South Quarter of the compass.

If the numerical Pendants, instead of flying at the extremity of the staff, are hoisted under the National flag, in the manner expressed by the letter M. they will describe the same class of vessels to be Merchantmen.

P. B. The blue Pendant flying under the Union flag of the Fort, with the St. George's Column hoisted upon any one of the Signal staffs, expresses an Indiaman. A yellow Pendant flying under the Union flag with either of the three white flags hoisted under any of the signal staffs, represents a Spanish Vessel; and a red Pendant fixed in the place of the yellow Pendant, it will express a Portuguese. A blue and yellow Pendant, flying over the National Flag, represents a Fleet of men of war, and under it, a Fleet of Merchantmen.

Light House.

THE Light House on the Exchange in Port St. George was erected by the Exchange Committee, with the sanction of Government in December 1796, and is of essential service to ships coming into the roads in the night.

The Light is 90 feet above the level of the Sea at high water; it can be seen from the decks of the Honorable Company's Ships about 17 miles and from their mast heads near 20 miles.

The South part of Pulicat shoal bears from the Light House, N. by E. half E. distance 12 miles; and to keep clear of the shoal, the light should always bear to the Westward S. S. W. 2 N.

Hon. Col. J. H. Stirling, Comptroller of Public Treasures,
H. L. Sherwood, Surgeon.

The object of this Institution, far less benevolent than it is complete and important, is to afford relief to the Native Poor and Poor of all climes and descriptions. As a Refractory, and Native suffering under disease and distress, may be so unfortunate as to meet with accidents and injuries, and have the benefit of medical and surgical treatment. To those not contented with being received into the Institution, or whose situation may not admit of any remedy in the provincial and local hospitals are admitted as outpatients. As an Asylum for the Native Poor, the Institution affords accommodation and subsistence to such as are aged and infirm, and suffering from certain kinds of chronic and incurable disease, as well as a livelihood, and who without such a provision would be compelled to apply to charity for subsistence.

The particular advantages of this Institution are that, excluding many of the Native Poor, infirm and others who are destitute of means for themselves, it is benevolent, it affords relief to all who are really deserving and compassionate, without holding out an incentive to idleness or dependency, and established on the principle that such institutions are the greatest importance to the Public for Charity, to assist a vagrant and poor into industry and labor, and consequently that they are necessary as one of private benevolence.

Advertisement.

NOTICE is hereby given, that, for the purpose of reducing the weight of the mails despatched by tappal, and of affording convenience to the public at large, a Bangy despatch, will, from the beginning of January next, be established on the routes that lead from Fort St. George to Fort William, to Seringapatam, and to Trichinopoly.

The bangy will be despatched three times a week, and the days of despatch from the Presidency, will be Tuesdays, Thursdays and Saturdays. The first bangy will consequently start on Tuesday the 2d of January 1810.

All newspapers and all public despatches exceeding the weight of one ounce, will be reserved for the bangy except in cases where the early receipt of any public despatch may be deemed important, when it must be enclosed with the words "by tappal,"—and in the case of extra newspapers, not exceeding the weight of a single letter, which will still be forwarded by tappal.

When newspapers and public despatches, exceeding the weight of one ounce, may be addressed to, or from stations beyond those

to which the bangy is sent, they will be transmitted, as far as possible, by bangy, and forwarded by tappal only to, or from the final bangy station.

Parcels for the bangy must be delivered at the General Post Office, before the hour of 12 in the forenoon of the day on which the bangies are despatched, and the bangies will be despatched at 4 o'clock in the afternoon.

The bangies will be opened for the receipt of all parcels (with the exceptions hereafter mentioned), and the bangy-postage of a parcel, not exceeding fifty rupees weight, will be three times the tappal-postage of a single letter,—that of a parcel, not exceeding one hundred rupees weight, will be six times the postage of a single letter,—and so on in arithmetical progression—but, no parcel, exceeding one thousand rupees weight, will be received for transmission by bangy.

Newspapers will be charged only with the present rate of postage, and the Government Gazette, will, as at present, pass postfree.

All parcels, whose bulk exceeds the cube of six inches, will be charged with double postage, and none, whose bulk exceeds the cube of one foot, will be received for transmission by bangy.

Every precaution will be adopted for the security of parcels transmitted by bangy, and it is not apprehended that they will be exposed to any considerable degree of risk, but it is proper to notify, that the Post Office will not be held responsible for their safety.

Fort St. George, December 13, 1809.

MADRAS LAND MEASURE.

Land is usually measured with Gunter's Chain of 100 Links, with a Rod of 10 Feet, and reduced to Cawnies, Grounds and Square feet, agreeable to the following Table.

60 feet long and
40 feet broad, make 1 Ground or Mauney, containing
2,400 Square Feet.
24 Grounds or Maunies, make 1 Cawney, equal to
57,600 Square Feet.

The Indian Cawney is in proportion to the English Acre as 1 is to 1.3223 or as 121 is to 160.

To reduce Indian Cawnies to English Acres, multiply the given number of Cawnies by 160, and divide the product by 121; the quotient will give the number of Acres, and the remainder by the Fractional part of an Acre—Or multiply the Cawnies by 1.3223, and the product (cutting off 4 places to the right hand) will be the same, and the figures so cut off are the Decimal part of an Acre.
