PREFACE.

In presenting another year's Almanac for public acceptance, the Compiler begs to state that in getting up the work, he has chiefly aimed at usefulness and accuracy. Authentic information on all subjects, adapted to the pages of a compilation such as this, has been anxiously sought. Nor has the search been vain. Most kindly have the Heads of Departments, Secretaries to Public Institutions, and others whose aid has been solicited, come forward to the Compiler's assistance, and it is his grateful duty thus publicly to acknowledge his obligations, and to thank those to whom he is so largely indebted. In passing the work through the Press, the utmost pains have been taken to preserve it from errors. After the Printer's final corrections have been made, the revised sheets have undergone the Compiler's personal examination and correction, the advantage of which, he ventures to hope, will be apparent to all who may do him the honour to consult the pages of the Almanac.

Whilst, however, the Compiler has principally regarded utility in the selection of matter, and accuracy in the execution of the work, embellishment has not been lost sight of. New type, ordered expressly for the Almanac, has been used; two Maps, prepared at considerable expense, have been introduced; and an improved binding has been adopted.

The Almanac is now before the Public:—by them it must be judged. If, after impartial examination of its contents, public approval,—the meed due to honest and pains-taking endeavours to produce an useful and acceptable publication, be awarded to the Compiler; and if, as the result of his labours, an Institution formed in aid of the SOLDIER'S ORPHAN be benefitted, he will think himself abundantly recompensed.

GARDENER'S CALENDAR.

January.

MADRAS.

Mean temperature 75.6—Average fall of rain 1.29.

The season is too far advanced to sow the generality of Vegetables with much prospect of success—but turnips, carrots, love apples, vegetable marrow, lettuce, endive, radish, mustard and cress, spinach and Nepaul spinach may be sown during all this month, also successive crops of cabbage and knol khole every fortnight. Turnips succeed best when planted in rows: they should be thinned to a distance of six inches from each other. Carrots rarely succeed well when planted at this season, they should be thinned, but not transplanted, except when required for seed. Love apples, when two or three inches high, should be planted out in beds at five inches apart: afterwards transplant in rows two feet from each other, with a frame work to run upon. Vegetable marrow should be sown in rich light soil: earth up the stems as they increase, and peg down the leading branches at a joint. Lettuce and endive should be planted in boxes, and transplanted at one foot apart from each other; they may also be sown in beds, and thinned to the proper distance: a few days before use they should be blanched. Radish and mustard and cress may be sown every week or ten days: the two last throughout the year. Spinage, to be sown in beds and thinned until the plants are one foot apart. Nepaul spinach should be planted in rows, with trellis work to run over. This vegetable continues to flower and bring forth fresh leaves throughout the year, and requires no care. It is an excellent substitute for winter greens. Cabbage and knol khole should be planted in boxes, and transplanted into beds about three or four inches apart in three weeks or a month. They may be transplanted a second or third time: especially the latter. When transplanted for the last time they should be put in well manured trenches at two feet from each other. Horse manure and ground bones are strongly recommended for all the cabbage tribe. With a little care cabbage and knol khole may be procured during every month in the year.

In this month the following vegetables and fruits are procurable in the market in small quantities and at high prices—carrots, turnips, cabbage, knol khole, beet root, salad, negro salad, onions, Bombay and country. Surat onions, beans, country beans, double beans, Vellone beans, French beans, white beans, Goa beans, Europe beans, and peas—the last always dear, and seldom good.

Pumplendse, mamilla and cama orange, chote orange, country orange, pomelgrate, guavas, apples, limes, jack fruit, figs, red plantain, yellow plantain, thurmer fruit, belimbie, and occasionally mangoes.

Also the following native vegetables, greens, roots, and flowers:—cailliana pumpkin, cooday pumpkin, Europe pumpkin, water pumpkin, kanara water pumpkin, moodee water pumpkin, long water pumpkin, bitter water pumpkin (which is a smaller kind and is not used for curry) coody pumpkin, rany pumpkin, white pumpkin, bitter pumpkin (which is used for medicine and not for curry) black brinjal, white brinjal, green brinjal, brown brinjal, (of longer kind) Bombay brinjal, cunnallay brinjal, (of small kind) long and short poralengah, long parakah, catoo parakah, merry parakah, pudy parakah, black, green, and white parakah, cotta parakah, green chillies, black chillies, golah goudah chillies (of smaller kind) Negro or Calfee chillies, country thumathagav, Europe thumathagav, vendakah, &c. &c. burrahacray, serookeray, chokken keeray, kasowok keeray, cootoo vaday keeray, white and red vasa keeray, white, red, green, and moody keeray, vully kelengoo, (or sweet potatoe), alvely Kelen-goo (yams), seroo vully kelengoo, (or sweet potatoe), alvely kelengoo, (yams), seroo vully kelengoo, radish, potatoes.

Yellow, red and white samindae or Christmas flowers, mury gold, Bengul rose, silk rose, China rose, mudiiah yuttem, custary puttay, and cunray flowers.

BANGALORE.

Mean of the thermometer 70—quantity of rain measured—none.

In this month most of the culinary vegetables are in great perfection. Grapes, apples, pine apples, and also a few strawberries and peaches are in season. Such apple trees as have finished bearing may be now pruned, although it would be better to delay it till the ensuing month. Sow seeds of such vegetables as peas, radish, spinage, &c. that do not require more than three months to come to perfection. This is a good month for altering or making a garden, laying walks, &c. Open the roots of vine trees.

February.

MADRAS.

Mean temperature 77.7—Average fall of rain 0.94.

The remarks on last month apply generally to this; but there is less chance of success in rearing vegetables, as they seldom acquire much strength before the hot winds set in. Turnips and carrots rarely succeed; but radish, mustard and cress, lettuce, endive, spinach, and the cabbage tribe should all be planted in this month and throughout the year.

All the fruits, vegetables, and flowers, mentioned as procurable in the market in January may be had in greater perfection and cheaper during this month.

In the beginning of the month peas are plentiful; and with care the following may be obtained of good quality—Jerusalem artichokes, asparagus, Dutch beans, French beans, scarlet runners, beet root, broccoli, cabbage, carrots, cauliflowers, celery (in great perfection), endive, lettuce, knot-hole, onions, parsnips, spinach, turnips, and yams. Also the following fruits—custard apple, Brazil gooseberries, guavas, lemons, mangoes, mulberries, pumplinose, raspberries, sapadella, tomatoes, and occasionally apples.

BANGALORE.

Mean temperature 74½—No rain.

In this month pine apples, peaches, grapes and strawberries may be had in great abundance and perfection—a few apples remain. Dahlia seeds should be sown towards the end of the month, in situations protected from the burning winds of the two ensuing months; the old roots should also be planted in large pots of sand covered with some fermenting vegetable matter to induce them to send out shoots. Very few vegetables can be sown with advantage this month. Graft peaches and apples, and prune apple trees.

March.

MADRAS.

Mean temperature 84.8—Average fall of rain 0.70.

But few vegetables come to any perfection that are sown in this month; but it is desirable to sow successive crops of cabbage and knot-hole which may be planted in beds which are partly from the sun protected, and transplanted into rows as required. With care salad may be grown in this month, and generally throughout the year.

In the market brinjal, carrots and turnips may be procured in considerable quantities and pretty good. Turnips are generally very stringy towards the end of March. Country radish and all kinds of country greens may be had in large quantities; but no fruits can be obtained in the market, except the red and white plantain, which are always in season.

BANGALORE.

Mean temperature 80—quantity of rain measured 2½ inches.

During this month the roots of apple trees should be opened by those who approve of that system, and very strong manure should be applied. Strawberries, grapes and peaches are in season—the ground should be dug about the roots of vines. The dahlias sown last month will require transplanting; and the shoots should be separated from the old roots. Plant tuberose roots. Beet root and celery in perfection. As the winds and hot air of this month are very injurious to vegetation, as few seeds as possible should be sown.

April.

MADRAS.

Mean temperature 83.7—Average fall of rain 0.40.

The remarks on March apply equally to this month; but as the hot season advances the chances of success in rearing most kinds of vegetables diminish. Melons

and cucumbers should be sown during this month. Sow melons in rich light soil, giving the plants plenty of room to run; when they have made four leaves stop them by pinching off the leading bud; they will then produce two lateral shoots, which stop in a similar manner; and so continue to treat each new formed shoot, stopping it at the second or third joint. When the plants begin to show fruit stop the fruiting branches two joints before the fruit; cover the ground with leaves or straw to keep the roots cool, and to prevent the fruit from becoming spotted.

In this month yellow and red plantains, pine apples, grapes, pumplinose, chota and camain orange are procurable in the markets. Carrots, turnips, beans and cabbages are reduced in quantity, and their prices are considerable. Brinjal, radish, water pumpkins, payekah, peerkengah and greens are to be had plentifully.

BANGALORE.

Mean temperature 80½—quantity of rain measured 3½ inches.

Sow all flower seeds to come to perfection in July and August. They will be refreshed by the early rains called mango showers; and there is generally rain in Mysore during June. Sow every kind of vegetable seed. As the mango will be in flower, if requisite, spread some manure round the roots of the trees, slightly stirring the soil. Shift the dahlias. Sow wheat. Plant potatoes. The flower buds should be dry this month, as the scorching sun will very effectually destroy the weeds.

May.

MADRAS.

Mean temperature 86.8—Average fall of rain 0.77.

Melons, cucumbers, love apples, and Nepal spinach may be sown during this month; also successive crops of cabbage tribe and mustard and cress. Mangoes, oranges, pine apples, pumplinose, red and yellow plantains, and grapes, are supplied abundantly. Brinjals, grees, peerkengah, drum stick, or moorungakaw, and in flowers all sorts of malligay flowers are to be had plentifully in the market.

BANGALORE.

Mean temperature 81—quantity of rain measured 3 inches.

Repeat the sowing of last month, or they may be deferred till this month. Transplant the seeds of vegetables sown last month, and prepare the beds for the final transplanting of knot-hole, cabbage, cauliflower, watering the soil richly. The dahlias should now be turned out of the pots into the open ground in a sandy well-manured soil. Sow some cotton seed.

June.

MADRAS.

Mean temperature 83.—Average fall of rain 1.46.

If the season is at all favourable this is a very desirable time to sow the first crop of celery, beet root, and asparagus in boxes, for transplanting towards the latter end of August, or beginning of September.

If the weather should continue very hot during September, without showers, the plant should be kept in the boxes until the end of September, or beginning of October. As it is desirable to get strong celery plants before the monsoon, fresh seed should be sown every fortnight from the middle of June until the end of October. Beet also should be sown in successive crops and transplanted once or twice. This vegetable is not likely to be injured by the heavy rains of the monsoon. Asparagus seed should be sown in boxes towards the latter end of the month, and transplanted in November, in rows two feet apart, and the plants one foot from each other. The soil should be mixed with a large portion of rotten horse manure—it is scarcely possible to make the ground too rich for asparagus. Fresh asparagus seed should be sown whenever procurable, and especially between the end of June and the beginning of December.

In this month mangoes, oranges, pine apples, pumplinose, plantains, pomegranates, cucumbers, melons, green melons, and limes, are abundantly supplied at low prices in the market. Carrots, turnips, cabbage, and other European vegetables, are scarce and dear—but payekaw, podalongah, greens, and brinjals, are procurable in small quantities.

The following fruits and vegetables are also to be had in this month—custard apple, sapadella, lemon, mangostan, parsnip, salad, and vegetable marrow.

BANGALORE.

Mean temperature 76—quantity of rain measured 4 inches.

The directions for this month are very similar in many respects to those given for May and April, in order to have the flowers and vegetables later in the season. Mangoes are in great perfection. Stake the dahlias, put into the ground last month. The Natives plough their grounds and sow the castor. The white grub of the cricket is often very numerous this month, and commits dreadful havoc. This is the best month for sowing seeds from England, &c. provided they arrive in the two or three preceding months, but in general it is advisable to sow them as soon as they are unpacked. The fields for hay should be scratched by the native plough and manured. Cultivars and suckers of chrysanthemums if taken off and planted in small pots will flower in September.

July.

MADRAS.

Mean temperature 83.7—Average fall of rain 3.73.

In this month it is desirable to sow celery, beet, knol khole, cabbage, cauliflower, broccoli, asparagus, endive, lettuce, carrots, and turnips.

Celery.—Sow in boxes in this and the two following months—remove to beds when about three inches high, and into trenches as required, after being a month in the beds. The trenches should be 2½ feet deep, filled up with a foot of light soil and stable manure; and afterwards gradually, as the plant grows, with light soil till within about six inches of the top. Water for the first two months with the hand, after which they may be occasionally flooded.

Another way.—Having sown and transplanted as above, remove into trenches four feet apart, and about 18 inches deep, nearly filled with horse manure and rich earth. As the plant grows, bank up into ridges with light soil. By this method the root of the plant, and not the stem, is watered when flooded.

Knol khole, cabbage, cauliflower, and broccoli.—Sow in boxes during this and five following months. Remove to beds when two inches high, and transplant the cabbage and knole khole twice, and cauliflower and broccoli at least three times, allowing the growth of a couple of new leaves between each planting.

Asparagus.—Sow in beds in July, and remove the plants in November, into raised beds of one or two rows; when the berries become red, cut the plants two inches above the ground and top dress, when they will be ready to cut in ten days. By dressing the beds in succession asparagus may be produced for the table all the year—stable manure is the best and the plant should invariably be watered by the hand, and never flooded except in the hot wind season. Plants if taken care of will produce for 8 or 10 years. They should however be wintered (roots cleared of the earth and exposed for some days) and the ground dressed every second year.

Lettuce and endive.—Sow in boxes or pots surrounded with water till the plants appear, otherwise the small red ant will destroy them; plant out as required, and go up a few days before you cut for use. Black Town or St. Thomé manure is the best.

Carrots.—Sow in a light deep sandy soil.

Turnips.—Sow in a rich soil, well manured.

In the market all Europe vegetables are scarce and dear this month. Brinjal, greens, vandakaw, and other native vegetables are supplied in small quantities. Mangoes, and pine apples are getting out of season. Plantains, cucumbers, and melons are plentiful.

BANGALORE.

Mean temperature 73—quantity of rain measured 4 inches.

Mangoes still continue till towards the end of the month—young plants should then be grafted and the trees pruned as soon they have done bearing, as that is the only time when it can be done with impunity. Cuttings of all trees and shrubs should be put in this month, as well as slips of artichokes, which as soon as they have established themselves should be cut down close to the ground. The Natives generally sow the raggy and cholam, and prepare the ground for rice, and plant cuttings of sugar cane. Flower and vegetable seeds may still be sown, and in regular seasons the cabbage tribe of the first and second sowings should be finally transplanted. The first crop of hay is cut this month.

August.

MADRAS.

Mean temperature 84.9.—Average fall of rain 1.76.

Successive crops of all the vegetables sown in July should be planted this month, more especially celery and beet, which should be fit to transplant a second time before the monsoon. These two vegetables are less likely to suffer by excessive rain than most others. Artichokes should be sown in beds during this month, three inches between each seed, so as to allow the removal of the plants in November without disturbing the roots. To propagate by suckers, take off the suckers, and prick them out six inches apart; and when they become well rooted, transplant into deep rich soil, setting them two feet apart. If large, suckers may be planted at once where they are intended to remain.

To prevent artichokes running to leaf, and producing small heads, when the plants are from ten to fifteen inches high cut them off close to the ground and cover them over with light dry old manure; when they have advanced a few inches repeat the operation. If the young plants are tied up for a few days before being cut off, they will become blanched and may be eaten as salad.

French beans and scarlet runners may be sown during this month and until February; they should be planted in rows two feet apart North and South; they should be well supported with sticks or with an arched bamboo trellis, which is very ornamental.

Europe vegetables continue scarce and dear; brinjals, greens, and other native vegetables are to be had. Mangoes, pine apples, and oranges, are very scarce. Plantains continue in abundance.

BANGALORE.

Mean temperature 74.—quantity of rain measured 5½ inches.

Oranges, loquats, and alligator pears, in season. Insects are excessively numerous and destructive. The orange tribe should be budded and grafted, and propagated by cuttings. Plant beds with early strawberries. Still sow a few vegetable and flower seeds. Continue grafting mangoes. Transplant cotton. Propagate carnations and pinks by layers. Begin collecting seeds of early flowering annuals. Dahlias in perfection.

September.

MADRAS.

Mean temperature 83.7.—Average fall of rain 5.36.

Continue to sow all the vegetables mentioned for August. Transplant cabbage, cauliflower, broccoli, beet, celery, endive, and lettuce. Two or three crops of peas may be sown during this month, if the weather is favourable, but not with much prospect of success. The seed peas that answer best in Madras are those grown at Bangalore.

Peas should be planted in well raised beds in double rows about two feet apart; they should be watered by hand for the first fortnight and afterwards flooded. Peas require no manure, but should be planted in good soil.

Europe vegetables, and all kinds of fruits, except plantains, continue scarce. The following Native vegetables and flowers are abundantly supplied in the Market:—

Brinjals, podalangay, cotta, avaray kow, greens, kearay thundoo, sama thundoo, chicken kearay, greens, vendiah kearay, sohlee kearay, cottamallee kearay, and all sorts of payekow;—in flowers, moor rose, country rose, silk rose, China rose, nandiah vultum, alance flowers, and jencok in mallegay flowers, are extensively supplied. Mallegay flowers, coden sambanghee flower, uchi sambanghee flower, judce mallegay flower, mananda basum flower, are in small quantities.

BANGALORE.

Mean temperature 75—quantity of rain measured 8½ inches.

Alligator pears and loquats still continue. Apples come in. Sow orange seed and alligator pear stones. Young potatoes in season. The American cotton sown early in full fruit. Plant cape bulbs, either in the ground, or in very deep pots well drained. The turnips and cabbages are much infected by a small dark caterpillar which may be destroyed by sprinkling the plants with powdered lime. The rice begins to flower. Put down cuttings of geraniums, roses, violets, heuriscase, &c. Flowers in great perfection. As most of the peach trees will have lost their leaves, the roots should be opened and exposed for 14 days, and then strongly manured by those who adopt a system that shortens the lives of the trees, without producing any sufficient compensation. Main crop of hay cut this month.

October.

MADRAS.

Mean temperature 82.0—Average fall of rain 11.12.

The remarks on last month apply equally to this. Continue to sow all kinds of vegetable seeds in boxes; transplant from the boxes into beds; and immediately after the first heavy fall of rain remove into rows and trenches, more particularly celery, beet, cabbage, knol khol, cauliflower, and broccoli. Care should be taken in finally transplanting all the cabbage tribe to provide against heavy falls of rain, by making trenches to carry off the water. Crops of peas should be sown every week or ten days from the beginning of this month until the 10th of December; peas sown after that time seldom pod.

Onions and leeks should be sown during this month in light rich earth, carefully covering the seed; when leeks are a few inches high plant them in drills, eighteen inches apart, and nine inches plant from plant; as they increase in size draw up the earth to their stems in order to blanch them—leeks are much improved by blanching.

Sow parsnips in rich deep soil: trench the ground two feet deep, and sow the seeds in drills one foot apart, and thin the plants so as to leave at least eight inches from each other.

But few fruits, vegetables, or flowers, are to be obtained in the market this month.

BANGALORE.

Mean temperature 74—quantity of rain measured 5 inches.

Apples and vegetables in great perfection. The main beds for strawberries should be planted. Vines will begin to flower early in the month; the borders should be dug, and well manured. Dahlias will begin to fail in this month; as soon as the leaves begin to wither, they should be taken up with the soil that adheres to them and kept in a dry place; as soon as they have been sufficiently dried they should be packed in boxes of sand till the time for planting arrives. The double tuberoses should be similarly treated.

November.

MADRAS.

Mean temperature 78.9—Average fall of rain 14.12.

This is the month for activity in the vegetable garden, as but few things arrive at much perfection which are not planted before the end of this month. The principal crops of peas should be sown during the first week; and continued every week during the month; also French beans, scarlet runners, broad beans, and

Windsor beans; the two last rarely succeeded in Madras. Sow beet, knol khol, cabbage, broccoli, and cauliflowers, in boxes; transplant from boxes into beds, and remove from beds into rows. Transplant celery and remove into trenches. Plant out artichokes and asparagus. (Broccoli and cauliflower seed planted on the 25th of this month and transplanted on the 26th December, in a sandy soil, with a small quantity of horse dung soil with common manure, produced fine heads on the 18th February. They were watered by hand for the first fortnight, afterwards flooded in the usual way.)

Potatoes should be sown towards the end of this month; they should be planted in light red soil in which no horse dung is mixed. The potato should be cut according to the number of eyes, taking care that each piece is of sufficient size. When planted, not more than one inch, or one and a half inch, of soil should be placed over it; and it should not be watered oftener than once in four days even during the hottest weather. As it grows up, the soil should be banked up to the stalk. Great care should be taken not to give too much water, and not to put too much soil upon the potato when first planted.

It has lately been recommended to plant potatoes whole instead of cutting them as formerly; it is also said that the produce is much increased by taking off the flowers as they form.

In this month pumpkin, brinjal water, pumpkin, haverykaw, vendakaw, podalangaw, and pavalkaw are scarce, and no fruit except plantains.

BANGALORE.

Mean temperature 72—quantity of rain measured 2½ inches.

Apples still in season. This is the last month in which the generality of vegetables can be sown with advantage. Sow the casuarina and other tree seeds. This is a good month to lay in stock of manure and prepare composts for the next year. The larger kinds of perennial water flowers should be taken up and reduced in size, and replanted.

December.

MADRAS.

Mean temperature 76.4—Average fall of rain 4.61.

In the beginning of the month sow French beans, scarlet runners, broad and Windsor beans. Peas sown in this month rarely pod, although they grow luxuriantly. Plant out celery from boxes to beds, and remove from beds to trenches. Sow cabbages and knol khol; and transplant as above. Vegetable marrow may be sown in the early part of this month in light rich soil. Earth up the stems of the plants as they increase in growth, and peg the leading branches down at a joint, and they will strike root.

European vegetables are scarce during the early part of the month; but all sorts of pavalkaw, pumpkin, water pumpkin, brinjals, podalangaw, sweet potato or velley kelengoo, saury kelengoo, yams, ulvally kelingo and leno vully kelingoo, are plentifully supplied in the markets. Fruits are scarce, except plantains, guavas and oranges. The samindee flower and rose are to be had in great abundance.

BANGALORE.

Mean temperature 69—½ inch of rain measured.

Apples still in. Young trees should be grafted and cuttings put down to graft seedlings on. All vegetables in season. A good month for sowing melon and cucumber seed, as well as peas, radish, and spinach; but very few other vegetable seeds. Most of the exotic plants will have ceased flowering: the beds should therefore be dug up and manured with a soil composed of 3d vegetable and 1d well decayed animal manure. Turn out and examine the dahlia roots. Prune the roses.

GENERAL REMARKS.

MADRAS.

Winter and dress figs, mulberries and custard apples. Dress pines in September and remove the suckers and dress again with stable manure, red earth, and sand in January. Sprouts of cabbage, cauliflower, broccoli, and knol khole, taken in February, March and April, and even in May, afford a good vegetable during the hot season.

Plaintains, pine apples, and figs may be watered in the mornings; but every thing else in the evening only. The seed peas that answer best for Madras are those from Bangalore—the common white pea of Mysore. The best carrot, turnip, and onion seed is from Hyderabad. Knol khole, cabbage, beet, and celery, from the Cape. Other seed from Bangalore, and the Neighbourhoods.

Good manure for all sorts of flowers is red earth and sheep's dung, in nearly equal quantities.

BANGALORE.

The meteorological observation of three years, 1834-5-6—our very hot, and one very rainy season—this may therefore be regarded as a very fair average when taken together.

In the year 1839 there will be only two Eclipses, both of the Sun.

I. A total Eclipse of the Sun, March 14—15, 1839, visible to the Western portions of Europe and Africa, and nearly the whole of South America, but invisible at Madras.

II. An Annular Eclipse of the Sun, September 7, 1839, visible to the North Eastern portions of Asia and that part of the Pacific Ocean situated between it and the Western Coast of America, but invisible at Madras.

With reference to the following pages of astronomical matter, it is proper to state : that they are mostly due to the Nautical Almanac, from which by interpolation, the several values have been adapted to the meridian of the Madras Observatory ; which, from the latest observations, appears to be situated in

h. m. s. ° ' "

Longitude $5\ 21\ 8.8 = 80\ 17\ 12$ East of Greenwich.

Latitude $13\ 4\ 8.5$ North.

The elements and ephemeris of *Gambart's* comet are due to Professor *Santini* of Padua, his numbers having been altered only, to adapt them to the meridian of Madras: they are given here, with a view to enable the amateur astronomer to find the comet; since, from its extreme faintness, it will probably be invisible to the unassisted eye. The Meteorological results and remarks have been derived from forty years uninterrupted observation at the Madras Observatory, and as far as an average of observations of this nature can agree with its constituent values; so nearly may the several results here given, be relied upon to represent the expectations of the year.

The places of the fixed stars have been deduced from the catalogue of 2881 stars given in the 2d Vol. of the Madras Results.

During this month the wind blows uniformly and steadily from N. E. with occasionally an inclination towards the East about the middle of the day in the shape of sea breeze. In the mornings for the most part heavy dew is deposited, and occasionally fog, which reaches only to two or three feet above the surface of the ground. The weather is mostly very serene, presenting about twenty days of uninterrupted clearness and five of haze or mist, the remaining days being clouded, with perhaps a single shower of rain. Lightning is almost unknown in this month.

The hottest time of the day is at 1h. 0m. P. M.; the coldest at 4h. 20m. A. M.

The N. E. Monsoon continues with occasional exceptions till the middle of the month, after which eases and S. E. winds as frequently prevail; in the early part of the forenoon it is usually calm until 11 A. M. when the sea breeze sets in, and blows till 10 or 12 P. M. During the whole of this month the weather is without exception always beautifully clear and placid, and is generally considered to be the most healthy period of the year; there are no more than one day of haze, and one of clouds. Rain and lightning does not occur once in seven years.

The hottest time of the day is at 6h. 40m. P. M.; the coldest at 5h. 00m. A. M.

Throughout this month the South or alongshore wind with very unequal force prevails: it is accompanied with a profuse dampness and sultriness, which renders its effects highly prejudicial to health and comfort. On this account the sea breeze which sets in at noon and blows till 10 P. M. is less courted than at other seasons: the sky is however beautifully clear for about twenty-seven days; the remaining four being cloudy: dew less frequently occurs, and is less in quantity than last month; rain and lightning are little known.

The hottest time of the day is at 04. 20 M. P. M.; the coldest at 5h. 0m. A. M.

The South wind which is mentioned as peculiar to the two last months, continues till the middle of this month, relieved sometimes by a land wind from the W. or S. W.; in this interval gales of wind of extreme violence have occasionally been experienced, commencing their career generally at the N. W. and veering to every point of the compass. About the 16th, the regular land or hot winds set in, which are moderated in their effect towards the end of the month by occasional showers. The sea breeze sets in about noon and blows till 9 or 10 P. M. There are about nineteen days in about weather, eight of flying clouds and haze, and four cloudy days, on two or three of which there is rain; the dew is almost imperceptible, and lightning with thunder occur about four times.

The regular westerly winds which terminate about the middle of this month are succeeded by winds of a light and variable nature, mostly from the West and South. Calms, haze, and rain occur in about the same proportions as last month, leaving about eight days of clear weather. Lightning unattended by thunder is very frequent, but thus accompanied, it occurs only once or twice. The sea breeze assumes much the same character as that experienced last month, commencing at 2 or 3 p. m. and continuing till 8 or 10 p. m. Dew is sometimes discovered, but more frequently fails.

The hottest time of the day is at 2 p. m.; the coldest at 3 a. m.

The clouds now begin to assume a more dense appearance than heretofore; calms, lightning, and rain, are very frequent till the 9th, when the N. E. Monsoon, or rainy season, sets in: from this time till the end of the month, the atmosphere assumes a very disturbed appearance; extremely heavy rain with storms of wind, thunder and lightning invariably occur, and gales of wind of a similar nature to those which occur in the earlier part of the year* are sometimes experienced. On these occasions a depression of the Barometer of 4 or 5 tenths of an inch is observed. The sea breeze, or rather a slight modification of the N. E. wind, is perceived towards the middle of the day.

The hottest time of the day is at 1 P. M.; the coldest at 4h. 50m. A. M.

The N. E. Monsoon continues with unabated force, and the state of the weather generally is much the same as that experienced towards the end of last month, save that an increased dampness of the air and the less frequent occurrence of lightning render distinction necessary. The number of clear and cloudy days in this as well as last month, is liable to great uncertainty.

The remarks relative to the sea breeze of last month apply equally to this.

The hottest time of the day is at 0h. 20m. P.M. ; the coldest at 5h. 40m. A.M.

The heavy rains and violent gusts of wind are much moderated at the beginning of the month, and arrive at their close about the 15th; from this time the sky assumes an appearance of tranquillity and clearness which forms a strong contrast with the disturbed state of the preceding month; the N.E. wind, however, continues throughout the month without interruption. There are about thirteen clear days, eleven cloudy, and seven days of flying clouds and haze; of these there are six days in which rain falls. The morning exhibits a copious deposition of dew, and sometimes a ground fog which does not reach more than two or three feet above the surface. The sea breeze sets in at 10 A. M. and blows till 4 P. M.

KING OF DELHI.

His Majesty Aboul Moezzul Surajodeen Mahomed Behadour.

KING OF THE SEIKHS.

His Highness, Maha Rajah Runjeet Singh, King of the Seikhs. His dominions comprise Lahore, Cabul, the Punjab, Cashmere, Peshawour, Moulan, part of Sind, &c.; he is the son of Maha Singh and about fifty-two years of age; has three sons, viz. Kherva Singh, Shair Singh, and Tara Singh; but the two latter are not recognized by him as such.

The Government of the Seikhs had been formerly divided among a number of petty independent chieftains under the Khalsa or Commonwealth, "to the established rules and laws of which, as fixed by Guru Govind, it was their moral and religious duty to conform." The ancestors of Runjit Singh had been in possession of but a few villages, until his father, by feudatory depredations, and the conquest of Lahore, laid the foundation of the present considerable power of his son, who has now subdued almost all the petty Seikh chiefs.

KING OF OUDE.

His Highness Nawab Noosseer Ood Dowlah. The family of the princes of Oude are descended from Meer Mohammed Ameen, of a noble family in Persia, who came to India in the reign of Behadour Shah, and was received into the Imperial service, under the name of Saadut Khan. He was appointed to the Government of Oude in 1719 on the accession of Mehmed Shah to the throne of Delhi. He had no son, and was therefore succeeded by his nephew and son-in-law. On the death of Asoph-ud-dowla without any male issue, his spurious son Vizier Ally, assumed the reins of government, but his illegitimacy being discovered, he was, after a reign of four months deposed, and Saadet Ally, the brother of Asoph-ud-dowla, ascended the musnud on the 21st of January, 1798. He died 9th October 1827 and was succeeded by his son Ghazi-ud-dien Hyder, who died 1837, and was succeeded by his uncle, the present sovereign. In 1819, Ghaziaddin relinquished the title of Nawab, and assumed that of King.

KING OF AVA.

The revolution which occurred at Ava, in 1837 ended in the Prince of Tharawadi's usurping the throne after removing his brother and placing him under surveillance, and seizing his ministers and officers, putting several of them to death, and confining others, as well as the Queen's brother, the Mon-thargah, in irons, and working them on the roads as common felons. He assumed the sovereignty on the 14th of April with the titles of Yatan-Thaing, Kamm-baeng-men, and Shue-Bo Bhuren, King of Yatan-Thaing, Kamm-baeng and Sovereign of Shue-Bo.

This Prince was born of the same mother as the late King on the 6th September 1788. By his principal Queen he has a grown-up son and daughter, the former styled Taung-dweng-gyang men, and the latter said to be highly skilled in astrology. By inferior Queens he has numerous other children, the principal of whom are, Thait-teng-gyih, now Prince of Prome and President of the Livestock, and Thait-teng-byu, now Prince of Pak-han-gyih, and a General. His Uncle, the Prince of Makhin, has also been placed in the Livestock, or Council of State, but he is too timid to interfere much. The name of the present King is Maung Kheng.

KING OF SIAM.

His usual titles are, The God Buddha who dwells over every head, the Lord of life, and Master of the palace. His dominions consist of Siam Proper, of the Shan States of Ch'hang Mai, Lamphun, Lak-hee, Meung Nan, Meuang Fong, Lan-chuang, Luang Phubang, Ch'hang Sen, Ch'hang Rai, and others, of part of the old kingdom of Cambodia, and of the Malay States of Quada and Patani.

The present King is the same person whom Mr. Crawford saw as Prince Krom Chiat at Bangkok in the year 1822. He was the eldest son by an inferior wife of the late King, whom he succeeded on the 21st July 1824, with the general consent of the country, and he is now about 50 years of age. His successor, it is supposed, will be his brother Chao Fa, Lord of Heaven, the eldest son of the late King by his principal Queen. The other members of the Royal Family of Siam are said to amount to nearly three thousand persons.

KING OF NEPAUL.

Maharaja Raj Rajendra Vikram Sah, King of Nepaul, succeeded his father at the early age of two years; is now twenty-three years old; has two infant sons; is the son of Girivan Juddha Vikram Sah, the son of Prithvi Pal Sah, the successor of Ravi Bahadur the son of Sing Purnap, the son of Purni Narain, the Gorkhali conqueror of Nepaul, who subdued it in 1768.

The death of the present Rajah's father is one of those, which Princes whose caprice is the law, have met with. Girivan Juddha Vikram Sah having caused a pagoda, like that of Juggernath, to be erected, ordered similar obedience to be paid to it. This excited dissatisfaction among his people; and one of his brothers took advantage of this opportunity of revenging the death of another brother, who had been put to death by the eradication of his eyes, by order of the Rajah. He accordingly went to the Court, and pretending to remonstrate with him on the injustice of his late order, struck him with his sabre. He was, however, immediately killed by the Cossy Bhansen, who was present, and the infant prince was placed on the musnud. On the night of the same day, three hundred persons, on whom any suspicion fell, were, it is supposed, put to death by the Cossy's order. Nepaul is tributary to China from the year 1792.

NEWAUR OF THE CARNATIC.

His Highness Mahomed Ghous Khan Behadour.

His Highness Prince Arzem Jah Behadour Naib-i-Mookhtar—Regent.

NIZAM OF HYDRABAD.

His Highness Nawab Asoph Jah Moezzul-ul-Moomalik Meer Farkondeh Ali Khan Bahadour Fatch Jung, Nizam of Hyderabad, ascended the musnud on the 24th of May, 1829; is the son and successor of Secundeh Jah, the eldest of the eight sons of Nizam Ali Khan, the younger brother of Salabut Jung, the uncle and successor of Moezzul Jung, the nephew and successor of Nazir Jung, the second son of Nizam-ul-moolk, who obtained the Soubdary of the Deccan in 1717, in the reign of Ruffee-ul-Dijet.

Before the formation of a treaty of perpetual alliance with the English, on the 12th Oct., 1803, the Soubdary of the Deccan had suffered continual disturbance. When Asoph Jah Nizam-ul-moolk returned from Delhi, in 1740, he fought in 1741, his son Nazir Jung who had rebelled against him. Nizam-ul-moolk died in 1762, from which time to the year 1768, a period of 15 years, three princes had ascended the musnud, and were successively assassinated. Moezzul Jung was grandson to Nizam-ul-moolk by his younger daughter's side. Nizam-ali removed his capital from Aurangabad to Hyderabad.

RAJAH OF GWALIOR.

His Highness, Maharajah Janku Rao Scindia, Rajah of Gwalior, succeeded to the Scindia Government on the 13th June, 1827, is now eighteen years of age; was elected by Baiza Bai, the widow of Dowler Rao Scindia; the nephew of Madhaje Scindia, the son of Ranajee Scindia.

The family of Scindia are Sudras, of the tribe of Kumbhee, or cultivators. Ranajee was employed by Peishwa Bajerow, as the bearer of his slippers, from which situation he rose to eminence; and when Bajerow having succeeded his father, Rerwath Row, in the office of Peishwa, in May, 1729, came into Malwa in 1731; Ranajee was a Marhatta chieftain of high rank. So that the Sovereign authority of the Scindia family cannot have existed more than between a hundred and one hundred and ten years. Baiza Bai was expelled in 1833 by the present Rajah.

RAJAH OF BHURTPORE.

His Highness, Maharajah Balwant Singh, Esiah of Bhurtpore, succeeded his father in August, 1824; was displaced by one of his cousins, Durjan Sal, in March, 1825, but reinstated by the British Government, on the 19th of January, 1826; is now a minor in age; the son of Baldeh Singh, the second brother of Ranadhar Singh, the eldest of the four sons of Runjeet Singh, the son of Nary Singh, the brother of Rattun Singh, the brother of Jawahar Singh, the son of Sooraj mull, the founder of the principality, killed in 1763.

The settlement of the Jants (of which tribe the Rajah of Bhurtpore is,) in the banks of the Ganges and Jumna, is dated in 1700, when they migrated from the Doab of the Indus. During Aurengzebe's last march towards the Deccan, Churaman, the Jant, pillaged the baggage of the Army, and with part of the spoil erected the fortress of Bhurtpore. The present prince, like many of his predecessors is,

not legitimately descended, being the son of a female slave of the name of Sahab Romar. When a Rajah has no son, he purchases females, and the boy begotten on any of them, is adopted by the Rajah and the Pant Ranees.

RAJAH OF KOTAH.

His Highness, Maharajah Bishen Singh, Rajah of Kotah. The son of Kishor Rao, the son of Maha Rao Omid Singh.

RAJAH OF INDOOR.

His Highness Maharaja Hurry Rao Holkar, the cousin and successor of Moulhar Rao, the third and adopted son and successor of Jeswant Rao Holkar, the brother of Casi Rao, the eldest of the four sons of Tukajee Holkar, a chief who was elected to the government of the Holkar State by Ahilya Bai, on the death of her son Malleo Row.

The Holkar family are of the Dhoongur or shepherd tribe. The derivation of the name Holkar, or, more properly, Hukkar, is from Hult a village, and Kur, an inhabitant. Moulhar Rao, I. was the first prince of the Holkar family; and the time when he obtained any local authority was in 1728; the district of Indore was assigned to him in 1733. He had only one son, Kundi Row, who died in 1754, many years previous to his father's death, and left one only son Malleo Row. He also died after a reign of nine months after the death of Moulhar Row. The original family being thus extinct, Ahilya Bai elected Tukajee Holkar to the principality. He had four sons, Casi Row and Moulhar Row by his wife, and Jeswant Row and Etojee by his mistress.

RAJAH OF JOYNAGAR OR JYPEEPOOR.

His Highness, the infant son of Maharaja Sewai Singh, Rajah of Joynagar, or Jypeepoor, who is the son of Jagut Singh, the son of Pratap Singh, the son of Madho Singh, the son of Ram Singh, the son of Sewai Jysinh, who lived in the time of Mehemmed Shah. The young prince is about three years of age and Rawul Bairi Saul is the Regent during his minority, appointed by the British government.

RAJAH OF JODHPUR OR MARWAR.

His Highness Maharaja Maun Singh, Rajah of Jodhpur or Marwar is a distant relation of Bhim Singh.

The earliest Rajah of this country on record was Maharaja Jeswant Singh, who having died near Cabul, in 1581, Aurungzebe, one of whose best generals the Maharaja was, gave orders forcibly to convert his children. The family were thus compelled to take refuge in the hills and woods, and on the death of Aurungzebe, regained their former possession. Ajit Singh, the grandson of Jeswant Singh, having rebelled. The Rajah of Jodhpur is of the tribe of Rhatore Rajpoots.

RAJAH OF BOGHELKUND.

His Highness Maharaja Biswanath Singh, Rajah of Boghelkund. The principality of Boghelkund is perhaps the most ancient Hindu dynasty now existing in India.

RAJAH OF BHOONDEE.

His Highness Rao Rajah Ram Singh, Rajah of Bhoondee. The Bhoondee Rajah is of the Hara tribe. During the retreat of Colonel Monson, in 1804, the Bhoondee Rajah greatly assisted him in his distress; and his conduct has been uniformly friendly to the English; yet, at the peace of 1805, he was abandoned by the Government to the vengeance of the Mahrattas.

RAJAH OF OUDEYPORE.

His Highness, Raj Rana Jawan Singh, the son of Rana Bhim Singh, Rajah of Oudeypore.

The family of the Princes of Oudeypore, belong to the Sesodia tribe or Rajpoots, which is considered the most noble of all the Rajpoot tribes. The family is also regarded highly by the Mahomedans, in consequence of a tradition, that he is descended, in the female line, from the celebrated Noushirvan, who was King of Persia at the birth of Mahomed, and thus to have in that line a common origin with the descendants of Hossein, the son of Ali.

RAJAH OF BIKANERE.

His Highness, Maharaj Ratten Singh, Rajah of Bikanere, the son of Surat Singh. The country of Bikanere is governed by the Rhatore Rajpoots, but the cultivators are mostly Jants.

Civil Service Regulations.

ABSENTEE ALLOWANCES.

TO CIVIL SERVANTS WHEN IN EUROPE.

Extract from a Letter from the Honorable the Court of Directors,
 dated 31st December 1824.

19. "That after an actual residence in India in the Civil Service of ten years or upwards a Covenanted Civil Servant of the Company, upon either of the Establishments of Bengal, Madras or Bombay, shall be entitled, whether on account of ill health, or from any other cause, and without reference to his private fortune, to come once to Europe on leave for three years, and to receive for that period from the Company's Cash an allowance of £500 per annum, provided that in no case shall a greater number of servants come home under this Regulation annually than seventeen from Bengal, nine from Madras, and six from Bombay, nor shall a larger number of servants who may have come home under this Regulation be absent in the whole at one time than fifty-one from Bengal, twenty-seven from Madras, and eighteen from Bombay, and that the preference shall be given first to Servants producing Medical Certificates upon oath that a visit to Europe is indispensably necessary for the restoration of health, and then to Servants in their order of seniority according to the rank assigned to them by the Court of Directors in the Gradation List of the Service.

20. "That in cases of Civil Servants compelled by illness, certified upon oath, to come to Europe previous to their completion of an actual residence in the Civil Service of ten years, such Covenanted Servant shall each be presented with the sum of 2,000 Sicca Rupees as Passage Money, and shall be entitled for a period not exceeding three years to an Allowance from the Company's Cash of £250 per annum: but that Servants having received this indulgence shall not in the event of their again coming to Europe after having completed a residence of ten years or upwards be entitled to any Allowance under the first Regulation except their return be again occasioned by illness to be in like manner certified upon oath, and then only to the difference between what they have before drawn, in the shape of Absentee Allowance exclusive of Passage money and that of £500 per annum for three years.

21. "That Servants coming in the first instance to the Cape of Good Hope for the benefit of their health, and being compelled from the same cause to come from thence to Europe without previously returning to India, shall be considered as entitled to the benefit of the foregoing Regulations.

22. "That in all cases, as well in those of Servants coming in the first instance to the Cape, as well as those coming direct from India, the said Allowances be considered as commencing from the date of leaving India, and terminating at the expiration of three years from that date, or at the time of arrival in India, whichever ever may first happen.

23. "That the same be paid quarterly in Europe.

24. "That on no account or plea whatsoever the allowances in question be extended beyond the period of three years: and

25. "That any Servant being in the receipt of Absentee Allowances from a Civil Fund shall not be entitled to receive during the same period of absence the Allowances prescribed by these Regulations beyond such amount as may bring the total of his annual receipts from both sources to the sum hereby limited."

Orders of Government, dated 8th July 1825 and 26th August 1828.

In pursuance of the Honorable Court's instructions, the Governor in Council is prepared to grant the benefit of these Regulations to such Civil Servants as may produce the prescribed Medical Certificate as the cases may arise; every Civil Servant so applying must obtain a Certificate in duplicate from the Trustees to the Civil Fund certifying either that he will receive no allowance from the Fund during his absence from Europe, or, if he is to receive any, the nature and extent of such relief; one copy of which Certificate must be submitted with his application to Government; the other upon his arrival in London, must be produced before the Auditor of East India Accounts.

Civil Servants desirous to avail themselves of these Regulations, and not producing the prescribed Medical Certificate, are hereby required to make known their desire to Government on or before the 1st December of each year, when the indulgence will be granted in order of rank to such extent as the foregoing Regulations and circumstances shall permit.

Every Civil Servant proceeding to Europe under these Regulations whether on sick certificate or otherwise, before receiving his Passage order must have applied for and received from the Secretary to Government in the Public Department a certificate specifying the grant of the permission, and whether granted upon sick certificate or on account of private affairs; also specifying as nearly as possible the date of embarkation for Europe, which Certificate upon his arrival in London, must be produced before the Auditor of India Accounts.

Order of Government, dated 4th November 1825.

The Governor in Council has been pleased to resolve, that in lieu of the medical certificate upon oath prescribed in Paragraphs 19 and 20 of the Regulations of the Honorable Court of Directors for the grant of Absentee Allowance circulated to the Civil Service under date the 8th July last, one of the following forms of medical certificate shall hereafter be adopted, according to the nature of the case: the same to be always signed by the medical officer who has last regularly attended the invalid, and countersigned by the Superintending Surgeon of the District, or other superior Medical authority.

FORMS No. 1.

I do hereby certify that A. B. is in a bad state of health, and that I think it highly advisable for him to return to Europe.

Extra From a Letter from the Honorable Court of Directors in the Public Department, dated 26th April 1826.

5. In your Despatch in this Department dated the 6th of September 1825, Para. 6 and 7, you have brought to our notice two questions raised in respect of the Regulations framed by us for granting Absentee Allowance to Civil Servants when in Europe.

4. The first of these questions is,—

“Whether it is competent for a Civil Servant who may have completed a residence of ten years to proceed to England and there await his turn to the indulgence of the Honorable Court, having previously notified to Government his desire to avail himself of the liberality of the Honorable Court upon the first occasion on which it should be open to him.

5. This question we answer in the negative. In framing the Regulations, it was our object, that whilst each Civil Servant might be enabled once in the course of his service to have the benefit of the Absentee Allowance, the number annually returning to England with that view should be limited, an object which would be defeated if Civil Servants were allowed to come home and wait their turn in England.

6. The other question is “Whether the ten years actual residence in India is to be considered to embrace the period passed at Hertford College,” to which we reply that such is not the intention. We mean the regulation to be construed in the sense which it expresses, “actual residence in India.”

Extract from a General Letter from the Honorable the Court of Directors in the Public Department, dated the 25th July 1827.

Para. 3. “Previous to the enactment, 33d Geo. 3, Cap. 133, it was our practice to forward to you Lists of the relative rank of Writers appointed from time to time to your Establishment. Under the authority of that enactment, Regulations were framed for the government of our College of Haileybury, one of which provided that the relative rank of Writers should be fixed by the College Council, and specified in the College Certificate, subject however to loss of such rank in the event of the Writers failing to proceed to India within a specified time. Lists of the ranks of Writers under this Regulation are now periodically forwarded to you.

4. The offers of the Absentee Allowance are to be made in the order in which Civil Servants have been, or may be, classed under the Rules to which we have adverted, to such of the Servants as shall have actually resided in India in the Civil

Service of your Establishment during a period of not less than ten years, commencing from the date of arrival at Madras.

6. Obedience to our Letter dated the 26th of April 1826, Para. 5, you will perceive that it is not competent for a Civil Servant, having completed a residence of ten years, to come to England, and there wait his turn for the Absentee Allowance. That Allowance is to be granted in each case by the local Government under the Regulations which we have prescribed, and no Civil Servant will be permitted to draw Absentee Allowance in England who shall not, previously to his quitting India, have been admitted to that benefit by the Government of the Presidency to which he may belong.

7. So soon as the aggregate number of Civil Servants absent, and who shall have come home upon the Absentee Allowance of £300 per annum, shall amount to twenty-seven, the same indulgence is only to be granted as Servants included in that number may either return, or quit the Service; so that the total number of Absentees having left Madras upon the allowance of £300 per annum is never to exceed the limit of twenty-seven fixed by our orders dated the 30th December 1824.

Extracts from a Letter from the Honorable Court of Directors in the Public Department, dated 5th December 1827.

Letter from ——— dated

16th October 1826.

Paras. 2 and 6, submit question, whether the Regulation which precludes a Civil Servant from simultaneously receiving Absentee Allowance from the Company and from the Civil Fund is to be constituted as barring the receipt of any sum from the Civil Fund in aid of the expense of Passage to Europe.

Letter from ——— dated

30th March 1827.

Paras. 71 and 72, Court requested to reconsider their decision upon the question of permitting a Civil Servant to come to Europe in anticipation of being admitted to the Absentee Regulations.

2. The receipt of Absentee Allowance from the Company must bar the receipt of any Allowance in any shape from the Civil Fund.

4. We shall not object to the advance to a Servant coming home under the Absentee Regulations, and not entitled to passage Money, of six months allowance in cases in which you may be satisfied that that indulgence is required to enable the party to provide a passage.

7. We adhere to the determination communicated to you in our despatch dated the 26th April 1826, Para. 5. No servant will hereafter receive the Absentee Allowance who shall not have been admitted by the local Government to the benefit of the Regulations previously to leaving India, excepting only such servants as may have been compelled, by ill health to quit India on a voyage to some place within the limits of the Company's Charter, or to the Cape of Good Hope, and as may have been subsequently compelled by the same cause to come to Europe. In such cases where the Servant has resided more than ten years in India the benefit will of course be withheld whenever the number of Absentees limited by the Regulations is complete.

Order of Government, dated 18th November 1828.

The Right Honorable the Governor in Council has been pleased to resolve that all persons who may be permitted to proceed to Europe, with the benefit of the Absentee Allowance, shall vacate their situations, and avail themselves of the indulgence, within three months from the date on which it may be granted.

Extract from a letter from the Honorable Court of Directors in the Public Department, dated 6th May 1829.

Civil Servants who decline to subscribe to the New Annuity Fund are not admissible to the benefit of the Absentee Regulations.

ABSENTEE RULES FOR CIVIL SERVANTS PROCEEDING TO THE CAPE, &c.

Fort St. George, February 27, 1838.

1. Civil Servants proceeding to the Cape of Good Hope, Mauritius, or the Island of St. Helena, or to any place within the limits of the East India Company's Charter, with leave granted by the Governments to which they are respectively attached, under Medical Certificates countersigned by a Member of the Medical Board at the Presidency, shall from the date of embarkation to the date of their return, provided the period of absence do not exceed two years, draw the allowances of their respective offices subject to the following deductions.

If the salary exceeds 2,000 rupees per mensem, one sixth for one year and for the second year one fourth.

If the salary do not exceed 2,000 rupees per mensem, one eighth for one year and one sixth for the second year.

If the salary of office be not more than 500 rupees per mensem, no deduction shall be made for the first year, and if it be only so much more, that the prescribed deduction at the rate of one eighth would reduce the allowance drawn to less than 500 rupees per mensem, only so much shall be deducted as will reduce the salary drawn to 500 rupees per mensem. After the first year, a deduction of one eighth shall be made from the salary of the officers referred to in this Rule.

2. After the close of the second year when the salary of office ceases, Civil Servants who may obtain an extension of leave will draw the subsistence allowance of their rank only, but no such Servant, absent on leave on account of sickness, shall draw a less allowance as a Civil Servant out of employ, than that of a Junior Merchant, viz. Rs. 224 per mensem.

3. The maximum period for which any Civil Servant shall be allowed to draw the salary of office or any part thereof is, two years from the date of embarkation; and the offices of Servants who may not return within that period, will be vacant, and liable to be filled by fresh appointments. Civil Servants who may so overstay the period of two years, provided they obtain an extension of leave, or account to the satisfaction of the Government to which they are attached for the delay of their return, shall as above provided receive the subsistence allowance of a Servant of their rank, subject to the exception above specified in favor of Junior Servants, but if they continue absent in disobedience of an order to return, or without sufficient cause shown, that allowance also will be forfeited.

4. Civil Servants absent on leave on account of sickness duly certified, if they proceed to England without returning to their Presidency, may as heretofore apply to be admitted to furlough by the Honorable the Court of Directors, and the furlough will in such cases take effect from the date of leaving their Presidency, consequently the allowances of office that may have been drawn by themselves or by their Agents after their departure, must in that case be re-adjusted and the difference refunded.

5. Civil Servants desiring to avail themselves of the benefit of Act I. Victoria, Cap 47, and to draw their allowances while absent on account of sickness under the above Rules, will be required to give security in such amount as may be required by the Government for the refund of any excess that may be drawn, either by Agents at the Presidency, or by themselves, in case of their proceeding to Europe on furlough, or otherwise coming under retrenchment.

6. No second leave will be granted to any Civil Servant who has been absent beyond Sea for two years, until three years after the date of return from Sea, but if a Civil Servant is compelled by sickness to proceed to Sea again within this period, after having been absent less than two years, he will be allowed to complete that period, drawing the proportion of salary allowed for the remaining time as if the leave had been continuous.

7. Civil Servants absent from their stations or offices on leave, whether on account of private affairs or from sickness, shall not be subject to any deduction from their authorized allowances for a period not exceeding one month in the year (i.e. after the expiration of 12 months from the date of the termination of their last leave of absence.) If, however, the absence of a Civil Servant shall exceed the term of one month in the year, a deduction of one-third shall be made from his allowances, except in cases of certified ill health, which are provided for by the foregoing clauses, and in the cases specified in clause 14th of these Rules.

8. The official allowances of a Civil Servant quitting his station without leave will entirely cease from the date of his quitting his station to that of his return, or to the date of the leave which may eventually be granted to him; the same rule will apply to the absence of every Public Officer from his station, beyond the period for which leave of absence may have been granted to him.

9. Civil Servants not availing themselves of the leave allowed of one month free from stoppage, in each year, will be permitted to take it accumulatively, after a lapse of three years without leave, i.e. for each year passed without leave of absence, one month will be allowed from deduction, but this indulgence shall not be allowed to extend to a period beyond six months in all; after which the absence, if his leave exceed six months, will be subject to the rules in force respecting stoppages.

10. In returning from beyond the limits of the Presidency, or beyond Sea, if within the period of leave, the usual time will be granted to the absentee for rejoining his station.

11. Civil Officers applying for leave to proceed to Europe shall be exempted from all stoppages for the period limited according to existing rules for their journey from their stations to the place of their embarkation, and for the further period of 4 weeks at the latter place, to enable them to arrange for their passage and settle their public accounts.

3. When the deputation allowance according to the above scale added to his permanent emoluments would exceed the established allowance of the office, the excess shall not be drawn.

4. A principal Officer appointed to act for another principal Officer at the Presidency, or at the same station, or in the same district, shall not be entitled to deputation allowance, except by a special order of Government, when it shall appear to the Governor in Council that the temporary incumbent has a particular claim on account of the duties with which he is charged being much more arduous or responsible than those of his permanent office; in such a case the deputation allowance shall not be drawn until a period of 3 months has elapsed from the date on which he commenced acting, and then not in arrears.

5. An Officer of one grade appointed to act for another of the same grade in another district, shall not be entitled to any deputation allowance.

6. The deputation allowances to be granted hereafter to Government servants out of permanent employ while officiating in situations, are in future to be regulated according to the following scale.

Scale of allowances to be granted to Civil Servants out of employment, nominated to act in the temporary charge of offices either at the Presidency or elsewhere.

When acting in offices, the average monthly emoluments of which may be as follows:	Retard official allowance per mensem.	Add subsistence allowance according to their grade.	Total.
Not exceeding 1,500 Rupees per mensem.....	Rs. 400	Writer or Factor	Rs. 580 13 4
More than 1,500, but not exceeding 2,500 Rupees per mensem.....	700	Junior Merchant	650 12 0
Exceeding 2,500 Rupees per mensem.....	1,500	Senior Merchant	1025 10 8
		Senior Merchant	1826 10 8

In situations of higher emoluments a special allowance will be fixed by Government.

7. Covenanted Civil Servants out of employ deputed to act for a permanent incumbent absent on private affairs or on sick certificate, and Officers acting for others but restricted under the rules to the allowances of their own office, are to be allowed travelling allowance to join their station at the rate of 52 Rupees per hundred miles, payable in the case of absence on private affairs, by the absentee; and in that of absence on sick certificate, by the State—in either case to be drawn through the Office of Audit.

8. No deputation allowance shall be received by a subordinate Officer acting for his principal, or in a superior grade of the same office or department by a special appointment or otherwise, for a period less than 3 months, and not in arrears after 3 months. This rule is not to apply to an Assistant Judge of an Auxiliary Court appointed to act for the Zillah Judge, as the deputation obliges him to move to a different district.

9. No deputation allowance shall be drawn by a Sub Collector acting for an Assistant Judge, whether in his own or another district, or by an Assistant acting for an Head Assistant or a Register of a Zillah or Provincial Court, in the same district.

10. When an Officer holding more than one permanent appointment is relieved from the duties of the principal one, or of both, and appointed to discharge the duties of another office, he shall not draw deputation allowance unless the fixed salary of the office in which he is appointed to act temporarily, shall exceed the emoluments of his permanent appointments, and in that case the deputation allowance shall be limited to the difference.

11. The Governor in Council will determine the amount of the extra deputation allowances to be granted to persons officiating as Secretaries to Government, Residents at Foreign Courts, or Commissioners, as circumstances may, in each instance, render advisable.

OFFICERS NEWLY APPOINTED.

Rules respecting their allowances and the period for joining.

PORT ST. GEORGE, 21st February 1838.

1. No Civil Servant shall draw the allowances of a situation to which he may be newly appointed until he commences the duties of that situation, unless by express order of Government he be prevented from entering upon the same, in which case he will draw the emoluments appertaining to the new appointment.

2. Every Officer appointed to a new situation will draw salary equivalent to the pay and allowances of the one he last held, unless the pay of the employment he last held shall exceed in amount that to which he has been transferred; it being understood, however, that if an Officer so transferred shall be left in temporary charge of his late office, Government will use its discretion in granting the higher allowances to him for such period or not, as the case may be, to be provided for at the time.

3. Officers appointed to new situations shall join their stations in a limited number of days after notice of their appointment reaching them; the time to vary with the distance of the station to which they may be nominated; and the number of days allowed with reference to the distance, to be computed at the rate of 12 miles a day; provided always that one week shall be allowed in addition, to prepare for the journey, over and above the specified number of days.

4. The number of days allowable under the foregoing rule to be calculated by the Civil Auditor from Returns of Distances which he will procure from the office of the Quarter Master General.

5. Officers who may not arrive at their stations within the prescribed period shall forfeit all allowances, except those payable to a servant out of employ, unless Government may, for good and sufficient reason assigned for such delay, specially exempt them from the forfeit.

THE MERIT FOSTERING MINUTE.

Port St. George, February 22, 1834.

The Right Honorable the Governor in Council is pleased to direct that the annexed Order of the Supreme Government, dated 28th January 1834, with requisite alterations in reference to the different denominations of Officers at this Presidency, be declared applicable to Covenanted Servants of this Government in the Judicial and Revenue Departments.

The Right Honorable the Governor in Council is pleased to determine that no Officer, whatever his standing in relation to a vacant situation, will be appointed to succeed to it, unless he be considered by Government properly qualified to do justice to the trust about to be confided to him; and that, in the event of any deficiency in the requisite qualifications, he, as well as all others in the same predicament will be passed over in favour of any junior on the gradation list competent to discharge the functions of the office with real efficiency.

With a view to afford to Government the necessary information in regard to the official character and merits of every Officer employed, the Governor in Council is pleased to direct, that every Officer, Court or Board to whom Covenanted Officers are placed in subordination, shall publicly report half-yearly, on the 1st January and the 1st July, upon their official qualifications and conduct. The reports of the Civil and Criminal Judges and Magistrates upon the Officers subordinate to them respectively, shall be forwarded to the Provincial Courts, and by them with their own comments thereon, and a corresponding statement with respect to all the Civil and Criminal Judges, Assistant Judges, and Joint Criminal Judges, and Magistrates under their jurisdiction, to the Sadr and Foujdary Adawlat. The reports of the Collectors upon their subordinates shall be forwarded to the Board of Revenue. The Sadr and Foujdary Adawlat and the Board of Revenue respectively, shall review the whole of these returns, and submit them to Government with a declaration of their own opinions in confirmation of, or dissent from those expressed by the Provincial Courts, Civil and Criminal Judges, Magistrates, and Collectors respectively. The Sadr and Foujdary Adawlat shall likewise report upon the qualifications and conduct of the Judges of the Provincial Courts of Appeal and Circuit for the information of Government.

These reports should present in regard to each individual, a statement of his general qualifications for the public service, with distinct reference to his temper, discretion, patience, habits of application to public business, and attendance at office, his knowledge of the native languages, and pre-eminently his disposition and behaviour towards the people, high and low, with whom he is brought into official contact.

The controlling Officers will of course be held responsible for the effects of the misconduct of the Covenanted Subordinate Officers which they may fail to report; and it must be remembered by the controlling Officers, that if it shall sometimes be their ungrateful duty to allege incapacity or misconduct on the part of an inferior, they thereby perform a most acceptable service to the people; over whom such an incompetent or unworthy functionary is placed; and that they will also enjoy the opportunity of recording the meritorious qualities of those who are really worthy of such commendation, and of thus supplying the Government with data for the just and beneficial allotment of official rewards.

ABSTRACT OF ACT 33, GEORGE 3, CAP 52, SEC. 70.

precluding the return to their duty of Civil and Military Servants, after an absence of Five Years.

And be it further enacted, that no person who shall have held any Civil or Military Station whatever, in India, in the Service of the said United Company, being under the rank or degree of a Member of Council, or Commander in Chief of the Forces, and who, having departed from India by leave of the Governor General in Council, or Governor in Council, shall not return to India within the space of five years next after such departure, shall be entitled to any rank or restoration of office, or be capable of again serving in India, either in the European or Native Corps of Troops, or in the Civil line of the Company's service, unless in the case of any Civil Servant of the Company, it shall be proved, to the satisfaction of the Court of Directors, that such absence was occasioned by sickness, or infirmity, or unless such person be permitted to return with his rank to India, by a vote or resolution passed by way of ballot, by three parts in four of the Proprietors assembled in General Court, specially convened for that purpose, whereof eight days previous notice of the time and purpose of such meeting shall be given in the London Gazette, or unless in the case of any Military Officer, it shall be proved to the satisfaction of the said Court of Directors, and the Board of Commissioners for the affairs of India, that such absence was occasioned by sickness or infirmity, or some inevitable accident.

Military Service Regulations.

FEES UPON COMMISSIONS.

The Honorable the Vice President in Council is pleased to direct that the following Paras. (3 to 5) of a Military Letter from the Honorable the Court of Directors No. 97, dated the 6th November 1833, the provisions of which are applicable to the three Presidencies, be published in General Orders:

Para. 3. "We direct that Fees upon Commissions granted by His Majesty to the Company's Officers, shall be hereafter collected by and credited to Government, in the same manner as the Fees on Company's Commissions are now collected and credited, and that the Salary to be hereafter granted to the Military Secretary of the Commander in Chief, be Two Thousand Two Hundred and Fifty Rupees, (Rupees 2,250) per month in lieu of Fees and all other Emoluments.

4. We observe a great discrepancy in the rates of Fees levied from Officers of the same rank at our several Presidencies, and that those rates in most instances materially exceed the rates paid by Officers of corresponding rank in His Majesty's Service.

5. We therefore direct, that the Fees on Commissions to be hereafter paid by the Company's Officers shall at all the Presidencies, be the same as those charged to His Majesty's Officers of corresponding rank; and that one moiety of those Fees be charged for the Company's and the other moiety for the King's Commissions."

MILITARY ESTATES.

Fort St George, 15th February 1833.

The special attention of Commanding and other Officers is required to the provisions of the VI. Geo. IV. Cap. LXI, regarding the Estates of European Officers or Soldiers of the Company's Service, and to the following explanatory regulations on the subject.

1. Upon the death of any European Officer or Soldier, whether intestate or otherwise, his effects then in Camp or Garrison are to be secured under the authority of the Commanding Officer of the Regiment or Station to which the deceased belonged, as directed in Section XVI. of the Articles of War; the Committee invariably assembling within four and twenty hours from the time of the casualty.

2. Should there not be Officers present with the Regiment of the description specified in Art. I, Section XVI. of the Articles of War, then the Committee may be composed of such as may be available, the seniors being selected.

3. The Committee are to take a correct inventory of the whole of the effects and account of the credits of the deceased, mentioning especially and in all cases whether any and what amount of cash was found in the deceased's possession, and whether any and what amount of Pay and Allowances was due to the deceased, as also an account of his regimental debts, and the same are to be entered in a book to be kept for that purpose to be entitled "Registers of Estates," which book shall form a regimental record, and a copy of such inventory and account shall be forthwith forwarded to the Secretary to Government in the Military Department, such copy to be attested "a true copy from the entry of the Register."

4. It will be the duty of the Committee in preparing such account of credits and debts, carefully to investigate the latter, and to record their opinions as to the correctness of each claim.

5. Claims coming decidedly within the description of regimental debts, to wit, Regimental Mess Accounts, charges or expenses relating to the illness or funeral of deceased Officers and Soldiers, charges for house rent, servants' wages and house expenses for periods not exceeding one month and the portion of the month in which the casualty may occur, may be discharged by the Commanding Officer without previous reference to the Secretary to Government in the Military Department.

6. All other claims preferred at Regimental Head Quarters, such as accounts with Station Shopkeepers, loans, &c. must be left for adjustment by the person who may eventually administer to the Estate.

7. It will be the duty of the Commanding Officer to draw without delay whatever arrears of pay and allowances may be due to the deceased.

8. In cases of an intestacy it is ordered that within one fortnight after the taking of the inventory a sale of the effects shall take place by public auction to the highest bidder, due notice thereof having been given, and within one fortnight after such sale, the account sale shall be entered in the "Register of Estates" and a copy of such account sale shall be forthwith forwarded to the Secretary to Government in the Military Department, such copy to be attested as directed in para. 3.

9. The Officer Commanding will be accountable for the recovery of the amount of all purchases, and for the correctness of all payments from the proceeds of Estates. It being his province to nominate the auctioneer, and when he may see fit to prohibit the delivery of goods until their value has been received; credit may be given to military persons, but not beyond the second issue of pay after the sale.

10. It is ordered that within one fortnight after such second issue of pay the Officer Commanding shall cause to be entered in the said Register an Account in the form annexed, debiting himself with all the Credits of the Estate and crediting himself with all payments of Regimental Debts, and showing that the balance has been lodged in the Pay Office and a transfer receipt obtained, and a copy of the same, attested as in para. 3, together with all vouchers for all payments, and the Sub-Treasurer's Receipt for the balance is to be forwarded to the Secretary to the Government Military Department as soon as the Sub-Treasurer's Receipt for the balance shall have been received.

11. The Auctioneer shall in no case receive a greater percentage or remuneration than five per cent which shall be paid by the Commanding Officer on the day on which the accounts of the Estate are finally closed, if his accounts are correct, and the amount of purchases recovered, but not otherwise.

12. If there be any house, or article of great value, which may seem to the Officer Commanding to justify the postponement of the sale, or the extension of credit, beyond the time by this order limited, he may, if he sees fit, postpone the sale, or on his own responsibility, make a special agreement for the payment of the price of such house or article of great value, such postponement of the sale, and such special agreement being immediately brought to the notice of the Secretary to the Government in the Military Department, together with the special circumstances which have seemed to such Officer Commanding to justify a departure from the course prescribed in the 8th para. of this order.

13. When any military person indebted to an Estate shall, before the full payment of the account of his purchase, apply for leave of absence on sick certificate or otherwise, it will be the duty of the Officer in charge of the Estate from which such purchases have been made to recover the payment of the debt prior to the departure of the individual from his Station, or to report the default to the Accountant General and to the Secretary to Government in the Military Department.

14. In the case of a will, and no executor named being at the time of the death within the Presidency of Madras, the Officer Commanding shall, together with the copy of the inventory and account of credits and debts mentioned in para. 2, for-

ward to the Secretary to Government in the Military Department a copy of the will. In all other respects the Officer Commanding will proceed as in the case of an intestacy.

15. In the case of a will, in which an executor is named, who at the time of the death of the deceased is within the Presidency of Madras, the Officer Commanding shall, together with the copy of the inventory and account of credits and debts, mentioned in para. 3, forward to the Secretary to Government in the Military Department, a copy of the will.

16. It will in this case be the duty of the Officer Commanding not to direct the sale of any article except live stock, or such as are of a perishable nature, until he shall receive instructions, in writing, from the executor.

17. The Officer Commanding shall forward to such executor a copy of the will, also a copy of the inventory, and account of credits and debts mentioned in para. 3, noticing at the foot of such copy of the inventory the live stock and perishable articles which have been sold, and the prices which were given for the same respectively.

18. The Officer Commanding must, in the first place, take care that all Regimental debts, &c. are paid, and in the next place, he will attend, as to the disposal of the property of the deceased, as nearly as he can, to the wishes of the executor expressed in writing.

19. When an Officer, whether intestate or otherwise, dies at a Station to which he does not properly belong, it will be the duty of the Officer Commanding to take all necessary steps, in conformity with the preceding instructions; and the Commanding Officer of the Corps or Station to which the individual was attached, will likewise on receiving intimation of the Officer's decease, take similar measures with regard to the property which may there be forthcoming.

20. An Officer Commanding, quitting, or being relieved from the charge of a regiment shall render to the Officer succeeding to such charge the account of every estate, whether of an intestate or otherwise, the accounts and balances of which shall not have been then already rendered to the Secretary to Government in the Military Department, or executor, as the case may be; and such succeeding Officer will be responsible for the correctness of the account, unless at the time of receiving charge of the Regiment, he objects to the account, and brings such objection to the notice of the Secretary to Government in the Military Department.

21. In case of any Officer Commanding dying, or being by sickness incapacitated from rendering any account, the next Senior Officer shall direct the assembly of a Committee consisting of three of the Senior Officers of the Station or Regiment, for the purpose of taking an account of all Estates, whether of intestates or otherwise, the accounts and balances of which shall not have been then already rendered to the Military Secretary or Executor, as the case may be; and the Committee so assembled shall render the accounts taken to the Officer succeeding to the command, in case of such death or sickness.

22. Officers Commanding will be held responsible for the strict fulfillment of the several provisions of this order, and any loss which may arise by a deviation therefrom, will be recovered from their pay and allowances under the authority of Government.

23. They will likewise on making over an estate to the Secretary to Government in the Military Department, to the executor, or to the Registrar of the Supreme Court, as the case may be, submit a notification of their having done so for publication in the Fort St. George Gazette.

No furlough will be extended, except in cases of sickness, certified in the manner hereafter mentioned, or in cases, in which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All Officers finding it necessary to solicit a further leave of absence on account of sickness, must, if resident in London or its vicinity, appear before the Company's Examining Physician, Dr. J. E. Hume, 9 Curzon-street, who will report to the Court of Directors his opinion on the state of such Officer's health. And if resident in the country, in any part of the United Kingdom, they must transmit with their letter of application for such leave, a certificate according to the following form, signed by at least two gentlemen, eminent in the medical profession, viz.

I do hereby certify, that I have carefully examined (state the nature of the case, as well as the name of the party,) and I declare, upon my honour, that according to the best of my judgment and belief, ————— is at present unfit for military duty, and that it is absolutely necessary for the recovery of his health, that he should remain at least ————— longer in this country.

Also previously to such extension of furlough being granted, such further proof shall be adduced by personal examination, or by such other evidence as shall be deemed satisfactory.

Officers abroad in any part of Europe, applying to remain a further time from their duty on account of sickness, are to furnish a certificate of two eminent physicians in the above form, with the attestation of a magistrate, that the persons who signed the certificate are physicians.

Officers having obtained an extension of furlough to a given period, must at its expiration apply for permission, either to return to their duty, or to resign a further time in England.

No Officer who has failed to obtain an extension of furlough, will be considered eligible to return to the service after five years' absence under the Act of 33, Geo. III, Cap. 52, Sec. 70.

Every Officer upon leaving India, will receive a printed copy of the General Order on this subject, published agreeably to the Court's instruction, and the plea

authorized to allow Officers to acquire at any time on payment of the upset price, lands which have previously been offered for sale at some general sale and not been bought.

Officers will thus be relieved from delay at the time of establishing themselves in the colony. They will also be enabled by this arrangement, which will permit them to obtain their land at a fixed price, to choose such a quantity as shall be exactly equivalent to the amount of the remission to which they are entitled, instead of being liable to be called upon to pay a balance, which must be the case if they bid for lands at a sale by auction.

Terms upon which the Crown Lands will be disposed of in New South Wales, Van Dieman's Land and the New Settlements of Western Australia.

It has been determined by His Majesty's Government that no land shall in future be disposed of in New South Wales or Van Dieman's Land otherwise than by public sale, and it has therefore been deemed expedient to prepare for the information of settlers the following summary of the rules which it has been thought fit to lay down for regulating the sales of land in those colonies.

1.—A division of the whole territory into counties, hundreds and parishes is in progress. When that division shall be completed, each parish will comprise an area of about twenty-five square miles.

2.—All the lands in the colony, not hitherto granted, and not appropriated for public purposes, will be put up to sale. The price will of course depend upon the quality of the land and its local situation, but no land will be sold below the rate of 3s. per acre.

3.—All persons proposing to purchase lands not advertised for sale, must transmit a written application to the Governor, in a certain prescribed form, which will be delivered at the Surveyor General's Office to all persons applying on payment of the requisite fee of 2s. 6d.

4.—Those persons who are desirous of purchasing will be allowed to select within certain defined limits such portions of land as they may wish to acquire in that manner. These portions of land will be advertised for sale for three calendar months, and will then be sold to the highest bidder, provided that such bidding shall at least amount to the price fixed by article 2.

5.—A deposit of £10 per cent. upon the whole value of the purchase must be paid down at the time of sale, and the remainder must be paid within one calendar month from the day of sale, previous to which the purchaser will not be put in possession of the land, and in case of payment not being made within the prescribed period, the sale will be considered void and the deposit forfeited.

6.—On payment of the money a grant will be made in fee simple, to the purchaser at the nominal quit rent of a pepper corn. Previous to the delivery of such grant, a fee of forty shillings will be payable to the Colonial Secretary for preparing the grant, and another fee of five shillings to the Registrar of the Supreme Court for enrolling it.

7.—The land will generally be put up to sale in lots of one square mile, or 640 acres: but smaller lots than 640 acres may, under particular circumstances be purchased on making application to the Governor, in writing, with full explanations of the reasons for which the parties wish to purchase a smaller quantity.

8.—The Crown reserves to itself the right of making and constructing such roads and bridges as may be necessary for public purposes in all lands purchased as above, and also to such indigenous timber, stone, and other materials, the produce of the land, as may be required for making and keeping the said roads and bridges in repair, and for any other public works. The Crown further reserves to itself all mines of precious metals.

With reference to the foregoing Regulations, the Right Honorable the Governor General of India in Council is pleased to notify for general information, that Officers who, on retiring from the Military Service of the East India Company, may wish to avail themselves of the advantages now extended to them by their Gracious Sovereign, will on signifying their intention to proceed as settlers to any of His Majesty's Australian Colonies, be furnished by the Military Secretary to Government at the Presidency to which they belong, with a Certificate of the following form and tenor:

I do hereby certify, that A. B. late a _____ in the Military Service of the East India Company, on the _____ Establishment, obtained on the _____ of _____, the permission of the Governor _____ in Council, to retire from the service, for the purpose of proceeding as a settler, to His Majesty's Colony of _____, and that the length of service, of the said A. B., at the period of his retirement was _____ years.

Given under my hand, at _____, this _____ day of _____.

Extract from an Advertisement, dated 13th December 1803.

"With a view of affording additional security to the Proprietors of Lands and Houses in Madras, and as a means of preventing clandestine transfers and mortgages of property; His Lordship in Council has been pleased to direct a register to be opened at the Cutcherry of the Collector of Madras, where all persons who purchase property or lend money on mortgages of property may register their purchase or mortgage deeds."

"And it is hereby further notified, that the public register for entering transfers and mortgages of Lands and Houses in Madras, is now opened at the said Cutcherry."

Pursuant to the former of these Advertisements, the Government quit-rent and arrears if any out-standing, is to be paid by the Proprietors in actual possession of the Lands or Houses on which it is due; all persons, therefore, purchasing or taking mortgages of Lands or Houses should be careful to have their deeds regularly registered, and all arrears of quit-rent discharged by the former holders up to the day of the transfer, as otherwise they will be held answerable for the amount.

PENSIONS FROM LORD CLIVE'S FUND.

Extract from a Letter from the Honorable the Court of Directors, dated 9th Oct. 1833.

* Letter dated 2nd Jan. 1833 (No. 13.)

1 to 5.—State that, from the nature of the Orders received from time to time, some doubt exists as to the scale of Pensions which the Court are disposed to recognize as claims from Lord Clive's Fund by Chaplains retiring from ill health before the full period of the Service and by the Widows of Chaplains, and request to be furnished with fresh and explicit instructions on the subject.

12. As by the Regulations announced in that Letter, Chaplains may retire on the full pay of Lieutenant Colonel after 15 years Service (including 3 years for a furlough), we have considered the Widows of those who die in the Service at, or completing that period to be eligible to the benefits of Lord Clive's Fund, in the rank of Lieutenant Colonel.

13. The Widows of Chaplains who have completed 7 years actual service in India are admissible in the rank of Major; and those of Chaplains of less Service, in the rank of Captain, being the ranks the pay of which is recoverable by those classes of Chaplains respectively when on furlough.

14. You will communicate a copy of these Paragraphs to the Governments of Madras and Bombay.

Extract from a Letter from the Honorable the Court of Directors, dated 13th March 1835, Para. 25. "We have to acquaint you that the claims of the Chaplains appointed under the new arrangement, and of their widows, to the benefits of Lord Clive's Fund, will be adjusted upon the principles laid down in our letter to the Government of Bengal, dated 9th October 1833 (No. 93) paras. 11 and 12.

26. Chaplains who have not served seven years in India will therefore be entitled, if admitted to the benefits of Lord Clive's Fund, to a pension of £12 12 6 per annum; and their widows to one moiety of that sum.

27. The widows of Chaplains who have completed seven years actual service in India, if admitted to the benefits of Lord Clive's Fund, are entitled to pensions as the widows of Captains.

28. The widows of Chaplains who have completed fifteen years actual service in India, if admitted to the benefits of Lord Clive's Fund, are entitled to Pensions as the widows of Majors.

29. We are of opinion that Chaplains appointed under the new arrangement should rank as Subscribers to the Military Fund as Captains until they have served fifteen years in India, and subsequently as Majors.

ABSENTEE REGULATIONS.

Extract from the Regulations of the Supreme Government of the 3d January 1838.

11. Chaplains proceeding to any place beyond Sea for the benefit of their health under the Rules prescribed for officers of the Ecclesiastical Department, shall in respect to the proportion of allowances to be drawn during the period of absence, as also in respect to the conditions and period for which such allowances are to be drawn, and likewise in respect to the allowances to be drawn in case of their not returning within two years, be subject to the same precise rules as Civil Servants proceeding to any place beyond Sea on sick leave.

Ecclesiastical Department.

The Right Honorable the Governor in Council authorizes the benefit of para. 9th of the absence Rules, published, to be extended to the Chaplains on this Establishment.

St. George's;
2d October 1838.

(Signed) ROBERT CURRIE,

Secretary to Government.

INCREASE OF CHAPLAINS.

Extracts from Letters from the Honorable the Court of Directors.

Ecclesiastical Department, August 31, 1836.

Para. 1. Our attention has been drawn by the Government of India, on the suggestion of the Lord Bishop of Calcutta, to the necessity of increasing the number of Chaplains, for the purpose of extending the benefit of religious office, more widely than the present Establishment will admit.

2. While we were fully sensible of the importance of the desired object, and very anxious to promote its success, we felt that we should not be justified in making such an addition to the number of Ecclesiastical Chaplains as would result from the appointment of an increased number of Chaplains upon the existing scale of remuneration. We determine therefore to make such new arrangements, with regard to the Chaplains on the Bengal Establishment as should enable us to add to their number, and thus provide more adequately for the spiritual benefit of the European residents, without any serious increase of expense. We have resolved to extend the principle of those arrangements to your Presidency, with the view of accomplishing the same beneficial purpose.

3. We intend that the number of Chaplains under your Government shall be increased from 23 to 29. The salaries are to be apportioned as follows:—The 14 Chaplains at the

* Civil Servants not availing themselves of the leave allowed of 100 days free from stoppage, in each year, will be permitted to take it accumulatively, so that a lapse of three years without leave; i. e. for each year passed without leave of absence, one month will be allowed free from stoppage; but this indulgence shall not be allowed to extend to a period six months in all; after which the absence, if his leave exceed six months, will be subject to the rules in force respecting stoppages.

Para. 11. Chaplains who have not served 7 years in India, are admissible to the benefit of Lord Clive's Fund in the rank of Captain. After completing a Service of 7 years, their retiring allowances are provided for, independently of Lord Clive's Fund, by the Regulations conveyed to you in our Ecclesiastical Letter of 2nd November 1836.

Presidency will receive the same amount as at present; nine will receive Company's 700 per annum, and the remaining 18 Company's Rs. 500 per annum. These salaries will equate their entire emoluments from the Company. The Payments heretofore made on the name of palanquin money will cease and we shall on no account sanction any extra allowance whatever may be the grounds upon which they may be claimed.

4. The Chaplains receiving the lower amount of 500 Rupees per annum, will be termed Assistant Chaplains, and in future all appointments will be made to this class. The Assistant Chaplains will succeed to the higher rank, and the higher rate of salary, according to any prescribed number of years.

5. Any vacancies that they will be supplied in the following manner: on the occurrence of all succeeding vacancies, the same principle will be applied, on the second only one, and appointment of two and one until the establishment attains the full extent of 29 to which we have restricted it, after which each vacancy will give rise only to a single appointment.

6. The principle which we have adopted throughout these arrangements requires that the retiring allowances should be modified so as to meet the intended change.

These allowances will in future be on the following scale.

After 7 years residence .. £121 12 6 per annum.. (full pay of Captain)

If compelled by sickness to retire to Europe before completing 7 years residence .. £127 15 per annum.. (half pay of Captain)

After 15 years service (including 3 years furlough) .. £202 per annum.. (full pay of Major)

After 10 years actual service (if compelled by ill health to quit the service) .. £173 7 6 per annum.. (half pay of Major)

After 7 years actual service .. do. do. do. .. £127 15 per annum.. (half pay of Captain)

The present Chaplain will be entitled to the existing scales of allowances, as well for services on furlough and retirement; these regulations being wholly prospective, and only affecting an appointment made after the date of this despatch.

7. The location of the Chaplains under the new arrangements, will be best regulated by reference to the opinion of the Lord Bishop.

MEDICAL REGULATIONS.

ELIGIBILITY FOR THE SITUATION OF SUPERINTENDING SURGEON.

Fort St. George, 14th January 1834.

The Right Honorable the Governor in Council is pleased to publish the following Regulation of the Supreme Government, and to declare its provisions applicable to this Presidency.

"Every Medical Officer on his promotion to the rank of Surgeon, shall be required to serve for two years as Surgeon with a Regiment of the Line, or a Battalion or Brigade of Artillery, before he can be eligible for any other situation in any department, Civil or Military, and after the performance of such service, he shall be eligible in the due course for the situation of Superintending Surgeon, whatever may have been the nature of his employment, subsequent to the performance of such service."

"Medical Officers who have already attained the rank of Surgeon will be deemed eligible for the situation of Superintending Surgeon, provided they shall have served in their present grade for two years, as Surgeon of a Regt. of the Line, or of a Battalion, or Brigade of Artillery, or as a Garrison Surgeon, or Surgeon to the General Hospital at the Presidency."

By order of the Right Honorable the Governor in Council.

ROBERT CLERK,
 Secy. to Govt.

DISTRICT SURGEONS AT THE PRESIDENCY.

Duties of the District Surgeon.

Difficulties having occasionally been experienced by Europeans residing at the Presidency who may not have the means of providing medical aid for themselves and families, the following local distribution of the duties of Medical Officers at Madras is published for general information.

North West District.

The Officer appointed to the Medical charge of Vepery, and its vicinity, shall be considered also in charge of the sick to the Northward of the Mount Road, and extending to Parsewakam.

South East District.

The Medical Officer, appointed to attend the Sick Officers at St. Thomé, shall extend his assistance to all Europeans, of the description already mentioned, who may reside at St. Thomé, Royapettah, and South of the Mount Road.

Black Town District.

The Surgeon of the Black Town will be prepared to extend his aid to the Black Town and Royapooram, and the European Inhabitants in that vicinity.

The duty of affording medical aid to Officers on sick certificate at the Presidency, will be performed by the several Officers above mentioned within their respective ranges, and by the Garrison Surgeon, who will also co-operate in the treatment of such cases with any of the District Surgeons when required.

NEWLY ARRIVED ASSISTANT SURGEONS.

Assistant Surgeons on arriving from Europe, will be placed, in the first instance, with such of the Company's European Corps, Garrisons, or other fixed Hospitals as may be recommended by the Medical Board, with a view of undergoing a probationary course of Hospital attendance and practice to qualify them for independent charges; and they will invariably continue thus under probation, until they are permitted with the sanction of Government to enter on the general duties of the Army, having been previously reported as duly qualified by the Medical Board.

SURGICAL INSTRUMENTS, &c.

Every Surgeon and Assistant Surgeon, whether in the Military or Civil Department, will be supplied from the Public Stores with Surgical Instruments, and a copy of the Code of Regulations for the Medical Department, and will be held responsible for their proper preservation: their Instruments, &c. are to be considered as attached to the Officer, and not to the charge he holds, and consequently on his removal, he will carry them with him.

Every Medical Officer proceeding on leave beyond the limits of the Presidency of Fort St. George will deliver over his Instruments, &c. to the Medical Storekeeper at the Presidency, if he takes his final departure from thence, or if otherwise, to the Deputy Medical Storekeeper of the Division in which he may be serving; and when a Medical Officer dies, it will be the duty of the Superintending Surgeon, immediately to take measures to secure the Instruments which were in the possession of the deceased Officer.

MEDICAL SCHOOL. Near the General Hospital.

WILLIAM MORTIMER, Esq., M. D., ... Superintendent.
GEORGE HARDING, Esq., ... Asst. Superintendent.

This Institution, which is attached to the Presidency General Hospital, was established by the Right Honorable Sir Frederick Adam, K. C. S., by a General Order of Government dated 13th February 1835, for the instruction in "Medicine and Surgery" of East Indians, and Natives, entering the Medical branch of the Service.

The course of education consists of Materia Medica, and Pharmaceutical Chemistry, Anatomy and Physiology, Surgery, and practice of Physic.

From the want of available accommodation for the number of pupils, it was resolved by Government to erect a building to be appropriated solely to the objects of the Institution, and the foundation of that, now occupied by the School, was laid in December 1836. The building consists of a Theatre, or Lecture Room, a Library, a Museum, and a Laboratory.

Considerable progress has been made in forming the Museum, which in addition to morbid specimens, already possesses most of the Anatomical preparations more immediately required for illustrating the course of instruction in that branch of study.

A Chemical apparatus, sufficient for the purposes of the Institution, has arrived from England, together with a selection of works on the several branches of study; not only to form a Library of reference, but also for the purpose of supplying the pupils with such books as may be required for private study.

Admission to the School was at first confined to students posted to the subordinate grades of the public medical department, but the institution has now been opened to the community at large under the following regulations prescribed by Government.

The pupils belonging to the public Service consist of two classes, namely Europeans, or East Indians, and Natives; the former being in the grade of "Medical Apprentice," and the latter of "Native Medical Pupil," and both are in the pay of Government. They are promoted to the grades of "Assistant Apothecary," and "Second Dresser," as they are required for the public service, after examination, and strictly according to merit.

The present number of pupils is upwards of one hundred and twenty, including five not in the service.

REGULATIONS.

Medical Board Office, 25th August 1838.

The following Regulations, for the admission of Private Students, or persons not in the Public Service, to the benefits of the course of instruction given at the Medical School, having been approved of by the Right Honorable the Governor in Council, are published for general information.

1. Applicants for admission not to be under 15, nor above 20 years of age.
2. To possess a sufficient knowledge of the English language, and of the other branches of an ordinary education, to qualify them for the study; an elementary knowledge of Latin being desirable, but not indispensable.
3. Their qualifications to be ascertained by examination by the Medical Board, after which, if found eligible, their admission will be sanctioned.
4. On being enrolled as Students, they are to be subject, exactly in the same manner as those of the public Service, to all the present rules for the internal conduct of the Institution, and to such others as necessity may suggest, for the class of Pupils to which they belong, for the purpose of securing attention, regular attendance, &c.
5. Private Students to have access in common with the others, to works of reference belonging to the School, but to provide their own stationery, and books required for private study; all other benefits to be gratuitous.
6. Objectionable conduct to be brought to the notice of the Medical Board, and to subject the Students to expulsion, or such other penalty, as may be considered necessary, for the preservation of the discipline of the Institution.

N. B.—As Students can not be admitted to a class after a course of instruction has commenced, it is necessary, that all applicants, should be prepared to enter on their duties with the next Public Class formed subsequent to their admission, of which due intimation will, from time to time, be published in the Port St. George Gazette.

By order.

BUNGALOW REGULATIONS.

FORT ST. GEORGE, September 30, 1836.

The following revised Rules for the preservation of Travellers' Bungalows in the Provinces, are published for general information.

1st. Bungalows are placed under the charge of Collectors,—it is expected that all rules which may be established by them for the preservation and cleanliness of the buildings, shall be implicitly observed and conformed to by travellers.

2d. No person is to remain in any bungalow more than 2 days; unless compelled to do so by sickness, and then he is not to exceed ten days unless he cannot be removed without danger.

3d. The first comer is entitled to the choice of rooms, but no individual is permitted to appropriate to himself more than one room when the others are in demand.

4th. European Soldiers and Sepoys are prohibited from occupying the bungalows, and will use the sheds erected for their accommodation, in the vicinity of the bungalows.

5th. The practice of defacing the walls by drawing or writing is strictly prohibited, and travellers are held responsible that their servants do not in any manner dirty or damage the buildings and furniture.

6th. No horses or other cattle are on any account to be picketted within the walls or hedge surrounding the bungalow.

7th. The person in charge at each bungalow is instructed to assist Traveller's servants in procuring supplies, &c. for ready money.

8th. A book is kept at each bungalow in which each traveller is requested to write his name with remarks if necessary on the conduct of the person in charge. The maltreatment of the Invalid Sepoys or Peons attached to the public bungalows is expressly prohibited.

9th. The person in charge is ordered, on pain of dismissal to report for eventual representation to Government deviations from these rules, either on the part of travellers, or their domestics and followers, and the master is held responsible for any infringement of them.

DIMHUTTY BUNGALOWS.

FORT ST. GEORGE, February 14, 1834.

Certain bungalows at Dimhuty on the Neigherries having been appropriated by the Right Honorable Stephen Rumbold Lushington to the use of all classes of persons to whatsoever Presidencies belonging, who may be compelled to resort to the Hills for the recovery of their health; the following Rules on the subject are published for general information.

1. These bungalows, six in number, are placed under the care of the Officer commanding on the Neigherry Hills, and of the Principal Collector of the District, as Trustees; and it is expected that all Rules which may be established by them for the preservation and order of the Buildings will be implicitly observed and conformed to.

2. With a view to preserve the buildings from decay, and to provide funds necessary to keep them in good repair, the moderate sum of (7) seven Rupees per mensura, and no more, will be charged to each occupant of the bungalows at Dimhatty. The accommodation to be derived from these buildings will be available to all persons on their first arrival on the Hills, and the payment of this rate of rent will be received only for the period of three months—during which time it is presumed that occupants will be able to provide themselves with suitable accommodation on the Hills.

3. In order to secure in succession and for a reasonable period to the classes of persons concerned, the benefit of the accommodation of these bungalows, no persons will be permitted to occupy the buildings beyond the period of three months without the permission of the Officer Commanding on the Neigherry Hills, to whom all applications to take advantage of the benevolent intentions of Mr. Lushington must be invariably addressed.

4. Any person occupying a bungalow at Dimhatty beyond the period of three months will be required to pay half the amount of house rent allowed to him by Government according to his rank. The proceeds of the rents will be disbursed in providing against the inconvenience experienced from the want of fireplaces, cook rooms, out houses, and stabling, and in making other provision for the improvement and preservation of the premises: the payment of rent to be paid monthly to the Paymaster, or other person nominated by the Trustees, according to circumstances.

5. The person who may have been the occupant for the longest period shall be the first to vacate the bungalows after the period of three months, on application being made for admittance by another party.

6. Defacing the walls by writing or drawing, or in any other way, is strictly prohibited, and occupants will be held responsible that their servants do not in any manner damage the buildings, which are to be given over in the same order as when entered.

7. The maltreatment of any persons attached to the bungalows is expressly prohibited. Occupants may bring any misconduct on their part to the notice of the Officer Commanding on the Neigherry Hills, or to the Principal Collector of Coimbatore.

8. The garden, (a valuable one,) it is proposed to place at the disposal of some competent European Pensioner, or other person willing to undertake its cultivation for the profit to be derived from the sale of its produce to the occupants of the bungalows, or others generally, at Kotagerry.

Financial Department, Fort St. George, April 4, 1834.

The Right Honorable the Governor in Council directs that the following Rules of a Savings' Bank, established in Madras under the guarantee and responsibility of Government, be published for general information.

- 1st. The Bank to be denominated "The Government Savings' Bank."
- 2d. All classes, British and Native, may invest their savings in the "Government Savings' Bank."
- 3d. The return of the exact sum deposited, together with the interest due thereon at the undermentioned rate, is secured to the Depositor under guarantee of the Government.
- 4th. The general direction and controul of the Bank shall be vested in a Committee of Management to be nominated by the Governor in Council. The Committee shall meet at such stated periods as may be necessary for the due and efficient controul of the proceedings of the Bank.
- 5th. The Government Agents are charged with the immediate superintendence and execution of all details connected with the Bank. They will be also ex-officio Members of the Committee of Management. The Sub-

Treasurer, as one of the Government Agents, will be ex-officio Secretary to the Bank.

6th. A Register of Deposits will be kept and generally such other accounts as may be determined on and approved of by the Managing Committee.

7th. Any sum not less than one Rupee will be received in deposit.

8th. Whenever any sum deposited by one individual shall amount to 500 *Company's* Rupees, the same will be transferred from the Bank deposit in the General Treasury and subscribed on account of the Depositor to the 4 per cent. Bengal Government Loan until further notice, unless an intimation of its withdrawal, or the withdrawal of a portion of it, be given by the Depositor within one month after it has reached that amount; and all Government Securities shall be handed over to the Government Agency at the expiration of 3 months (subject to all the Rules which obtain in that Department) unless counter instructions be immediately received from the Proprietors.

9th. Interest at 4 per cent. per annum will be allowed on deposits until further notice.

10th. The interest will be calculated on a deposit from the 1st day of the month succeeding that in which it shall be received, and up to the last day of the month preceding that in which it shall be withdrawn. No interest will be allowed for broken periods of a month, nor calculated on fractional parts of a rupee.

11th. The Government reserves to itself the power of lowering or raising the rate of interest, such alteration not to affect deposits above 500 *Company's* Rupees previously invested in Public Securities, and due notice to be given in the Fort St. George Gazette of the intention of Government six months before the alteration shall take effect.

12th. All deposits will be regularly entered in a book at the time they are made, and the Depositor of the deposit made at the Presidency will be furnished with a small book having a duplicate of the entry. This book is to be brought to the Bank whenever any sum is deposited or withdrawn. The account thus kept will be closed on the 30th April of every year, and the balance of interest due at that period will be paid to the Depositor, or carried to account, thenceforward to accumulate at compound yearly interest, until it shall amount to 500 *Company's* Rupees, when the same will be transferred from the account of the Bank, and subscribed on account of the Depositor to the Bengal Government 4 per cent. Loan as per Rule VIII, unless notice of withdrawal be given within one month as above, or unless the rate of interest be altered as provided for in Rule II.

13th. No person or persons to deposit money in trust for any other person or persons, provided, however, that this Rule shall not be construed to prohibit individuals resident out of Madras, who cannot attend personally from making their deposits by any other responsible person; or parents from making deposits on behalf and on account of their children, or females, who according to the manners and customs of the country do not usually make their appearance in public, from making such deposits by the hands of other persons.

14th. No sum deposited to be transferable except on the personal application of the depositor, supported by written sanction. When peculiar circumstances render a deviation from this Rule necessary, the case shall be submitted to the Committee of Management for their sanction.

15th. No person will be allowed to deposit any money without making known his or her name, together with his or her profession, business, occupation, calling, and residence. A duplicate of this description will be enter-

ed in each Depositor's book, to be produced whenever any sum is afterwards deposited or withdrawn.

16th. Depositors will be at liberty at any time to withdraw any sums or portions of sums deposited by them, receiving interest calculated up to the end of the month preceding that in which the withdrawal is made.

17th. As a General Rule, deposits with the interest due thereon, will be repaid to the Depositor personally in all practicable cases. In the case of individuals unable to attend in person the Secretary will exercise his discretion in regard to re-payments of deposits to responsible persons duly authorized by such absentees to receive the same.

18th. Military Officers and Soldiers, European and Native, will be allowed to invest their savings, in the Government Savings Bank through the Paymasters of Corps or Divisions, and Officers and Servants of the Civil Establishments, European and Native, through the Residents, Collectors, and other Officers in charge of Public Treasuries, or who are competent to sign Pay Abstracts of Civil Establishments; and Residents, Collectors, Paymasters, and other Officers in charge of Public Treasuries, are hereby authorized to receive Subscription to the Bank, or to deduct monthly from their Abstracts such sums as the parties within the circle of payment may be desirous of depositing, not being less than one Rupee, nor more than 500 *Company's* Rupees.

19th. The deposits referred to in the preceding Rule are to be brought to the credit of Subscribers on the last day of the month, in which the payment or deduction is made; and Rule 16 or 17 respecting the withdrawal of deposits by parties subscribing through Residents, Collectors, Paymasters, and other Officers in charge of Public Treasuries will be carried into effect under instructions which will be furnished to them by the Accountant General.

20th. In case of a death of a Depositor, the sum at his credit, will be paid to his or her Executor or Assigns; or in case of no will, according to the law on this head, or the Regulations of the Service, if the deceased be Military.

21st. In case of a difference between the Secretary of the Bank and any Depositor, it shall be referred for the decision of the Committee of Management.

22d. A General Statement of the Funds of the Bank shall be annually made out to the 30th April after the 1st May. The same to be submitted for the information of Government, and published in the Fort St. George Gazette.

23d. The Bank to be open on Tuesdays and Fridays, and all balances above 500 Rupees to be paid over at the close of each day's proceedings by the Secretary into the General Treasury, where an account with the Bank will be opened and kept.

The Government Savings Bank will commence business on the 1st Proximo.

Order in the Financial Department dated 13th October 1834 directs payment of all Notes of the Bengal Remittable Loan of 30th June 1822 from No. 888 to the last No. on the Register on 15th January 1836, after which date no interest will be demandable, but transfer to the following Loan is invited.

NEW 5 PER CENT. TRANSFER REMITTABLE LOAN.

NOT PAYABLE BEFORE 22d APRIL 1854 OPENED 13th OCTOBER 1834 NOTES TO BE DATED 31st DECEMBER 1834.

Government Arrangements regarding 6 per Cent. Remittable Paper.

Fort William, Financial Department, 13th October 1834.

1. Notice is hereby given that the Sub-Treasurers of Fort William, Fort St. George, and Bombay, are severally authorized to receive from and after the 15th of this month, any of the Six per Cent. Promissory notes of this Government bearing date the 30th June 1822, that may be tendered for transfer into a new Loan to be opened under the conditions hereinafter stated: and to grant in exchange thereof Certificates or acknowledgements, entitling the Proprietors or their Representatives to receive Promissory Notes of the Supreme Government in the form and manner specified below.

2. A Bonus or Premium of 5 per Cent. will be granted on all transfers made under this Advertisement: that is to say, for every note surrendered for transfer, a new Note will be issued for a principal sum exceeding the principal sum of the Note surrendered in the proportion of 105 for every 100 Sica Rupees; and the Note so issued in Exchange, will bear interest at the rate of 5 per Cent. per annum from the 31st December next ensuing, which will be its date. The interest will be paid half yearly, on the 30th of June and 31st of December of each year, in the manner herein under provided.

3. Transfers into this Loan will be received until the 15th of February next, and not after that date: and the Proprietors of Notes that may be surrendered for transfer, shall receive interest thereon up to the 31st December next, at the rate of 6 per cent. in the same manner as if the Notes had not been surrendered, and with a like privilege to Proprietors resident in Europe to receive the said interest in cash or by Bills at one year's date, and at the exchange of 2s. 1d. for the Sica Rupee. From and after the said 31st December next, interest will be paid as may be stipulated in the new Notes to be given in exchange, and all demand on account of the note surrendered shall cease.

4. The Notes of the 6 per Cent. Loan of the 30th June 1822, that were advertised for payment on the 9th May last, viz. No. 1 to 887, will be received for transfer in like manner with those now or hereafter advertised, and whether tendered before or after the 31st December next, the calculation and adjustment of interest shall be the same; that is to say, at the rate of six per Cent. on the principal sum of the Note to the 31st December next, and from that date at Five per Cent. on the principal sum of the new Note given in exchange, as will be stipulated therein.

5. Promissory Notes of the new Five per Cent. Transfer Loan opened by this Advertisement, will be registered and numbered in the order of the applications made for Promissory Notes in exchange for the Sub-Treasurer's Certificates; that is to say, in the order in which the Notes thereof may be received in the Office of the Accountant General at Calcutta. The accounts of this Loan will be closed on the 15th February next; and whenever it shall be paid off as provided below, if the whole Loan be not at once advertised for payment, but only part thereof, the numbers selected for first payment shall be those last on the register.

6. For the convenience of Proprietors of Notes of the 5 per Cent. Transfer Loan who may be resident in Europe, the Honorable the Court of Directors have made arrangements, whereof they have given public notice in England, to provide that Notes of this Loan shall, at the option of such Proprietors, be registered in the Auditor's Office at the East India House in London, so as to allow of their being sold in England without previous reference, and the employment of Agents to effect the transfer in India. When Notes may be so registered at the India House, the interest payable thereon will be issued in England only at the periods when the Bills for the same would become due, supposing the interest payable in India by the terms of the Notes to have been taken in Bills.

7. It is hereby declared and stipulated, that no part of the Transfer 5 per Cent. Loan opened by this Advertisement, shall be paid off before the 22d April 1854; and whenever it shall be redeemed, a previous notice of fifteen months shall be given by public Advertisement, the period of which shall expire on some date subsequent to that above stated, and not prior thereto. When payment shall be made of the whole or of any part of the Notes of this Loan; it shall be at the option of Proprietors to receive the principal sums due on their notes respectively, either in Cash at the General Treasury at Calcutta, or in Bills to be drawn in India on the Honorable the Court of Directors of the East India Company, payable at 12 months date, and at an exchange of 2s. 1d. for the Sica Rupee, the Court of Directors having the option, when the Bills shall fall due, of postponing payment thereof for one, two or three years, paying interest at the rate of five per Cent. per annum for the period of such postponement. The notice of payment duly advertised as above, and published in the Government Gazette of Calcutta, shall be considered as equivalent to a tender of payment on the date advertised for discharge, and all interest will cease from that date.

8. The interest of the Promissory Notes of the 5 per Cent. Transfer Loan will be paid in Cash to Proprietors resident in India. But Proprietors resident in Europe may take the interest at their option in Cash, or in Bills of one year's date to be drawn on the Honorable Court of Directors at the exchange of 2s. 1d. (Two Shillings and one Penny) for the Sica Rupee.

9. Proprietors residing within the Presidencies of Fort St. George and Bombay, shall be entitled to receive interest at the exchange of One Hundred and Six and a half Madras or Bombay Rupees, for One Hundred Calcutta Sica Rupees, from the General Treasuries of those Presidencies respectively; but before the interest of any Note shall become payable at either of those Presidencies, Notice shall be given to the Accountant General of the Bengal Presidency, and the Notes shall be brought or transmitted to that Officer, that the order for such payment may be inscribed on the face of the Note, after which the interest shall be payable only at the Treasury menti-

oned in the order; but if it be desired to change the Treasury of payment, application may be made to the Accountant General of the Presidency where it may be payable, and the order may by him be cancelled.

10. The Accountant General of Bengal may, on the application of Proprietors, and for their convenience, make the Interest on Notes of this Loan payable at any other Treasuries, or issue under this Presidency by a similar order; but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

11. Notes of this Loan may be consolidated and divided in the usual manner; but if consolidated, they shall be so on the highest number.

12. The Certificates to be granted by the Sub-Treasurers of Bengal, Madras, and Bombay, upon surrender of Notes of the 6 per Cent. Loan of the 30th June 1822, for transfer into the 5 per Cent. Transfer Loan, shall be in the following form:

By an order in the Financial Department of 17th June 1835 an option is given to holders of 6 per cent. Paper and of 5 per cent. Transfer Notes, to transfer on the same conditions as the above into a Book Debt Loan—the following is the order.

Port William, Financial Department, the 17th June, 1835.

Notice is hereby given, that the Honorable the Court of Directors having, in an Advertisement dated East India House, the 17th of September, 1834, notified to Proprietors of Bengal six per cent. Remittable paper, resident in Europe, who had made known, or might make known, before the 1st of December following, at the Auditor's office in the India House, their wish to transfer their notes of that loan into the new five per cent. transfer loan, under the conditions specified in the Courts Advertisement of the 14th May, 1834, that the property in the new loan would be held in the form of stock instead of promissory notes; that stock receipts would be granted in Bengal to the respective proprietors or their Agents, in exchange for the promissory Notes transferred; and that the new stock would be transferable at the place of registry, in books to be kept for that purpose in London and in India;—in pursuance of that notification and the orders of the Honorable Court, the Sub-Treasurer at Port William is authorized to receive any of the six per cent. promissory notes of this Government, bearing date the 30th June 1822, that may be tendered for transfer into the new five per cent loan, in fulfillment of the intention of the proprietors signified at the India House, under the advertisement of the 17th of September last, and to grant stock receipts to the respective Proprietors, or their Agents, in exchange for the promissory notes transferred.

2. A Bonus or premium of 5 per cent. will be granted on all transfers made under this advertisement; that is to say, for every note surrendered for transfer, a stock receipt will be granted for a principal sum exceeding the principal sum of the note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the stock receipt will bear interest at the rate of 5 per cent. per annum, payable, if the Proprietors are resident in India, in cash at the place of Registry, and if resident in Europe, at their option, either in cash in India or by bills on the Court at 12th months' date at 2s. 12. the Sicca Rupee.

3. The transfers under this advertisement will take effect only at the period when the notes surrendered shall fall to be discharged, according to the Notices published from the Financial Department under the dates respectively of the 1st May and 13th October, 1834.

4. The property of the New Loan here advertised is to be transferable, only in books to be kept in Bengal, at Madras, at Bombay, and in London, and not by endorsement of Stock Receipts, on the face of which it is to be declared that they are not transferable. Proprietors of stock Receipts will be entitled to the option, of transferring from the books of Bengal to those

of either Madras, Bombay or London. Having availed themselves of that option, the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected, at the place at which they may have chosen to register it.

5. After transfer has been made to London, the interest payable on the Stock so transferred will be issued in England at the same periods as when the Bills would have become due, had the remittance of interest been previously received by Bills under the option allowed in the Second Article of the present Notice.

6. It is hereby declared and stipulated, that no part of the Transfer Five per Cent Loan opened by this Advertisement shall be paid off before the 22d April 1854, and whenever it shall be redeemed, a previous Notice of fifteen months shall be given by public Advertisement, which notice may be issued at any time after the 21st of January 1853. Payment shall then be made at the option of the Creditors, either in Cash in India, or by Bills upon the Court at twelve months date, and at 2s. 1d. the Sicca Rupee; with power to the Court to postpone payment of those bills for one, two, or three years, upon allowing interest at Five per Cent. per annum for the period of the postponement. The Notice of payment duly advertised as above, and published in the *Government Gazette of Calcutta*, shall be considered as equivalent to a tender of payment on the date advertised for discharge, and all interest will cease from that day.

7. Proprietors who shall transfer to the Books of Madras and Bombay, will be entitled to receive interest at the exchange of One Hundred and Six and a Half Madras or Bombay Rupees, for One Hundred Calcutta Sicca Rupees, from the General Treasuries of those Presidencies respectively.

8. The Accountant General of the Supreme Government may, on the application of Proprietors of Stock registered in the Books of Bengal, and for their convenience, make the interest of such Stock payable at any other Treasuries of Issue under the Bengal or Agra Presidencies; but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

9. Stock of the Five per Cent. Transfer Loan opened by this Advertisement, may be consolidated and divided at the pleasure of the Proprietors in the Books in which it is registered.

10. Proprietors of Six per Cent. Remittable Paper who may transfer into the Five per Cent. Loan now advertised, shall not be subjected on this operation to the Fees prescribed in the Regulations for the Government Agency.

11. Proprietors of the Five per Cent. Transfer Notes issued under the Advertisement of this Department, bearing date the 13th of October last, or their authorised Agents, will be permitted to transfer their property into the Book Debt Loan. For this purpose a period of Four Months will be allowed to the Holders of Five per Cent. Promissory Notes or their Agents, and it is hereby notified, that during the same period fresh Transfers will be allowed to the Book Debt by holders of Six per Cent. Remittable Paper.

12. Forms of Stock Receipts will be published in a future notice.

FOUR PER CENT LOAN OF 1835--STILL OPEN.

This loan was opened by an order in the Financial Department on the 16th September, and is consequent on the assimilation of the currency over India--its subscriptions are all received in their equivalent to Company's Rupees as fixed by the currency act. The following are the Government Orders.

Fort William, Financial Department, the 16th September, 1835.

Notice is hereby given, that the Sub-Treasurers at Fort William, Fort St. George, and Bombay, the several Residents at Native Courts, and several Collectors of Land Revenue under those Presidencies, as well as the Collectors under the Agra Government, have been authorized to receive, until further orders, any sum of money, in even hundreds, of not less than 500, of Company's Rupees, which may be tendered on loan to the East India Company, at an interest of 4 per cent. per annum, subject to the Provisions hereinafter specified.

2. Audited Bills for arrears of Salary, whether the same shall have been advertised for payment or not, will be received in lieu of Cash Subscription without any deduction. Bills of Exchange on the Public Treasuries will also be received in Subscription to this Loan, with a deduction at the rate of 4 per cent per annum, for the period they may have to run. Treasury Notes and all authorized Public Demands will be received as cash at par.

3. The Paymasters of the Army under the several Presidencies are also authorized to transfer any demands, which may be payable by them respectively to this Loan, and to grant Drafts at the Presidencies of Fort William, Fort St. George, and Agra, for the amount, in the usual manner, on the Accountant General; and at the Presidency of Bombay on the Military Pay Master General; which Draft shall be received by the several Officers above mentioned, in payment of subscriptions, on being tendered to them for that purpose.

4. Furruckabad, Lucknow, Madras and Bombay Rupees will be received where respectively current at par with Company's Rupees, in which last mentioned currency all Acknowledgments for the receipt of money into this Loan shall be expressed, and Calcutta Sica Rupees, where these Rupees are current, will be received at the rate of 15 Sica Rupees for 16 Company's Rupees. Interest when paid in these Rupees will be issued at the rates antecedently specified.

5. The several Public Officers authorized to receive Subscriptions into this Loan will grant Acknowledgments in the following form, for all sums received by them respectively:

"I hereby acknowledge that A. B. has this day paid into the East India Company's Treasury the sum of Company's Rupees
"for which he is entitled to receive a Promissory Note, bearing interest
"from the (31st March or 30th September next ensuing of the year in
"which the Subscriptions may be received, as the case may be) of the
"tenor and subject to the conditions specified in the Advertisement published in the Calcutta Gazette of the 3d of October 1835, and immediately the same interest from the date of this Acknowledgment to the
"31st March or 30th September of the year of Subscription as above."

6. The Deputy Accountant General at Fort William will, on the said Acknowledgments being delivered to him, forthwith cause to be prepared and issued to the parties entitled thereto Promissory Notes under the signature of the Secretary to the Government of India in the following form:

Fort William, the 31st March 1836.

"Promissory Note at 4 per cent, for Company's Rupees

"The Governor General of India in Council does hereby acknowledge
"to have received from A. B. the sum of Company's Rupees
"as a Loan to the East India Company, and does hereby promise for and on
"behalf of the said Company, to repay the said Loan by paying the said
"sum of Company's Rupees

" to the said A. B., his Executors or Administrators or his or their order, on demand, at the General Treasury of Fort William, after the expiration of three months' notice of payment to be given by the Governor General of India in Council in the *Calcutta Gazette*, and to pay the Interest according on the said sum of Company's Rupees at the rate of Four per cent. per annum, by half yearly payments at the General Treasury of Fort William, to the said A. B., his Executors, or Administrators, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of the Note,) all further interest shall cease.

" Signed by the authority of the Governor General of India in Council.

" *Accountant General's Office.*
Registered as No. of

" *Secy. to the Government.*

7. The several Officers authorized to receive subscriptions, will on application from the holders of Acknowledgments, transmit them (free of every expense whatever) to the Accountant General in Bengal, to be exchanged for Promissory Notes bearing Interest from the 31st March or 30th September next ensuing after the date of subscription. The Interest accruing on the broken period of the half year, that may intervene between the date of subscription and the 31st March or 30th September next ensuing, as the case may be, will be paid up at the time of granting the acknowledgment.

8. Proprietors of Notes who may require the Interest to be paid at the General Treasury of Fort St. George, shall be entitled to receive it accordingly, provided they previously notify their wish to the Accountant General at Fort William, and present the Notes to him to have an Order for the payment of Interest at the said Treasury, written on the face of them, under the signature of the said Officer, or that of the Deputy Accountant General. And after such Order shall, on the application of the Proprietor, be inscribed on any note, the Interest shall be payable only from the said Treasury, unless the Proprietor shall present the Note with an application for the purpose of transferring the payment to Bengal, to the Accountant General at Fort St. George, who, on such application being so made, will cancel the said Order by a writing inscribed as aforesaid, under the signature of himself or his Deputy. A similar course will be followed, *mutatis mutandis*, in the case of Proprietors of Notes who may desire to have the Interest thereof paid at the General Treasury of Bombay.

9. The Proprietors of Acknowledgments who may desire to have the Interest of the Promissory Notes to be issued in exchange thereof, to be made immediately payable at Madras or Bombay, must express their desire to that effect on the face of the Acknowledgments, before transmitting them to the Accountant General at Fort William, who will make the Interest payable accordingly in the manner and subject to the conditions above stated.

10. The Promissory Notes of this Loan shall not be renewed or subdivided except by the Accountant General. But the Accountant General at Fort St. George and Bombay will, on application of the Proprietors of such Notes, and on payment of the established fees, transmit them to the Accountant General in Bengal for the purpose of being renewed or subdivided free of all further expense. In other respects the practice and rules heretofore in use in regard to the renewal and subdivision of Promissory Notes will be adhered to.

11. The said Notes shall be advertised for payment in the inverse order in which they shall have been placed upon the General Register—that is to say, the Number brought on the Register shall be first liable to be discharged. But all Notes advertised at the same time for payment shall become payable on demand, without regard to priority, at the expiration of the notice. Government shall also be at liberty to advertise other Notes for

payment without waiting for the expiration of pending notices, and to discharge the Notes so subsequently advertised at the expiration of the notice relating to them, notwithstanding the Holders of the Notes comprized in prior advertisements may have omitted by themselves, or their Attornies duly authorized, to apply for payment.

Published by order of the Honorable the Governor General of India in Council.

G. A. BUSHBY, Secy. to the Govt. of India.

TRANSMISSION OF GOVERNMENT SECURITIES BY PUBLIC DAWK.

Fort William, Financial Department, the 4th October 1837.

Notice is hereby given, that, in order to obviate inconvenience and losses which have been found to attend the transmission of Promissory Notes and other Government Securities by the public Dawk, the Accountant General of the Presidency of Fort William in Bengal, has been authorized on the application of parties to grant renewed notes with the signatures and numbers in duplicate, so as to admit of their being cut in half for transmission by separate Dawks, the second half after receipt of intelligence of the arrival of the first. The renewed double signed Notes will be in the names of the parties to whom they may be duly transferred at the time of renewal, and upon evidence being given as to the loss of either half during transmission by the Public Dawk, a duplicate note will be immediately issued under a general guarantee to hold Government harmless on production of the other half, provided it shall be apparent that there has been no endorsement or other assignment made upon the Note before it was cut in half.

By order of the Right Honorable the Governor General of India in Council.

H. T. PRINSEP, Secy. to the Govt. of India.

PUBLIC AGENCY.

"* The Public Agency Regulations, dated Fort William December 31, 1810, having from time to time undergone alteration, it has been judged expedient to print them again in their original form. The following are therefore substituted, being the Regulations now in force.

2d. The Governor General in Council has been pleased to authorize the Accountant General and the Sub-Treasurer, for the time being, to act under the responsibility of the Honorable Company, as Agents (for the purposes hereinafter mentioned) of the public creditors of this Government, whether residing in Europe or elsewhere.

3d. The Officers abovementioned are authorized to receive charge of and to grant receipts in duplicate, for any obligations or Loan Acknowledgements of this Government, which the Proprietor may wish to deposit with them. No Note is to be received in deposit, which shall not appear to be made out in the name of, or be regularly indorsed to, the persons depositing it. Persons desiring to deposit their Government Securities shall make their application to the Accountant General and Sub-Treasurer in the form hereto subjoined, No. 1; and the receipt of those Officers will be given in the form No. 2.

4th. The Officers abovementioned will receive the Interest on any Government Paper which may be deposited with them, and will according to the instructions of the Proprietor, remit the amount, either to England in Bills to be drawn on the Honorable the Court of Directors, if the same shall be payable in such Bills by the terms of the Loan, or to the Presidencies of Fort St. George or Bombay, by Drafts on the Public Treasuries of those Presidencies, or to any of the stations subordinate to this Presidency, by Drafts on the Collectors or on the Residents at Delhi or Lucknow, according to the rates of exchange at which Government may draw at the time, or they may pay the amount at the Residency to any person nominated by the Proprietor to receive such payment. The instructions as to the manner in which the Interest is to be paid, must be made out according to the forms hereto subjoined, Nos. 3, 4, and 5, which are adapted to the several cases above specified. The Proprietor will be at liberty to substitute one of these modes of receiving the Interest for the other, as often he shall think fit; provided that the fresh instructions be delivered at the Treasury one month before the day on which the Interest falls due. Persons having more notes than one in deposit may give separate instructions regarding the Interest on each Note, but the whole of the Interest on each Note must be received in the same manner and at the same time.

5th. When the Principal of any Government Paper so deposited shall become payable, the abovementioned Officers will, according to the instructions of the Proprietor, either pay the amount, with the Interest due upon it, to such person as shall be appointed to receive the payment, or they will reinvest it in any other Loan, to which it may be subscribable at the time, or in the purchase of other Obligations or Loan Acknowledgements of this Government in the market, at the current price of the day.

The instructions for these purposes must be made out according to the forms hereto enjoined, Nos. 6, 7, and 8, which are adapted to the three several cases above specified. The Proprietor may at any time substitute one of these modes of disposing of the principal for the other, provided that the fresh instructions be delivered at the Treasury one month before the day on which the principal falls due. Persons having more Notes than one in deposit may give separate instructions regarding each Note, but the whole amount of each Note must be disposed of in the same manner and at the same time.

6th. If any Loan be opened by the Government of Fort William, into which the Paper deposited may be receivable, the Officers abovementioned are authorized to subscribe the paper so deposited to such Loans, upon re-

ceiving the instructions of Proprietors, for that purpose; although the Notes may not be in course of payment. Instructions for this purpose must be made out according to the form No. 9.

7th. The Officers abovementioned are authorized to receive remittances, from individuals desiring to purchase the public securities for deposits with them, and to invest the amount, according to the instructions of the Proprietor in the Government Securities, either by subscribing the amount to any Loan which may be open for the receipt of cash, or by purchase in the market at the current price of the day; instructions for this purpose shall be made out according to the forms hereto subjoined Nos. 10 and 11.

8th. The Officers abovementioned are further authorized to invest the amount of Interest due on Paper deposited with them in the Government Securities, in either of the modes mentioned in the last Clause, upon receiving the Proprietor's instructions for that purpose; such instructions must be made out in the form hereto subjoined, No. 12.

9th. The same Officers are further authorized at any time, on receiving proper authority and instructions from the Proprietor for that purpose, to indorse any one or more Notes deposited with them, as Attornies of the owner, to such person as he shall direct, or to sell the same on the owner's account at the current price of the day, and to pay over the proceeds in Cash at the Treasury to such person as the Proprietor may appoint to receive the same, provided that the whole amount of each Note sold, shall be payable in one sum, and to the same person. Any fees, which may have become due according to the rates hereinafter prescribed upon the Paper required to be indorsed, are to be paid before the indorsement is made; or in the case of the sale of the Paper, the fee shall be deducted from the amount proceeds before it is paid over. The power of Attorney to indorse, or to sell, must be made out according to the form No. 13; the direction to indorse according to the form No. 14; and the direction to sell, and the order to pay according to the form No. 15.

10th. If Government should at any future period grant a remittance of the principal of any Paper deposited under the terms of this Advertisement, the Officers abovementioned will remit the Principal upon receiving instructions from the Proprietor to that effect, such instructions must be made out according to the form No. 16. The Proprietor may at any time withdraw the Government Securities deposited, or any part of them, from the charge of the abovementioned Officers, and such Securities will be delivered up to the Proprietor himself, or to any other person whom he may authorize to receive them, upon payment of such fees as may have become due to the Accountant General and Sub-Treasurer, according to the rates hereafter specified upon the Paper so required to be delivered up. The authority to receive deposited Paper, must be made out according to the form No. 17.

12th. In each of the cases on which the Officers abovementioned are authorized to invest money in the public securities, it is to be understood, that they will invest as nearly as possible the whole amount, but that they are in no case, and upon no account, to exceed it. Such fractional sum as may remain in their hands above the amount invested, will be payable on demand at the Treasury to the order of the Proprietor: such order is to be made out according to the form No. 18.

13th. The full postage must be paid on all letters directed to the Officers abovementioned, and the full postage on all letters from them will be charged to the persons to whom they are addressed. All letters addressed to them are to be superscribed in the following manner:

"To the Accountant General, and Sub-Treasurer,

Fort St. George."

14th. The responsibility of the Honorable Company is strictly confined to the cases above specified, and to such transactions as shall be conducted according to the prescribed forms. These forms will be printed and furnished in blank at the different Presidencies, and at the India House, to persons

desirous of availing themselves of the agency of the public servants, and no other than the forms so furnished, will be received or acted upon by those Officers.

15th. Commission shall be payable to the Accountant General and Sub-Treasurer on the several transactions above specified, according to the subjoined rates.

On Cash receipts.....	As. 4 per cent.
On buying and selling Company's Paper, Brokerage ..	2 ditto.
On Deposit a fee of one per thousand up to ten thousand Rupees—above ten thousand an additional one Rupee per every ten thousand, not to exceed 20 Rupees on any sum	
On returning Company's Paper on the Principal.....	4 ditto
On Transfer from one Loan to another.....	R. 1 per mille.
On remitting the Principal of Notes.....	As. 4 ditto

16th. Such fees or commission as may have become due on any of the above-mentioned transactions, from any person depositing Paper, will be deducted by the Accountant General and Sub-Treasurer, from the 1st interest received by them, from any Paper in deposit belonging to such person, but if these Officers shall in any instance omit to deduct their fees or commission from the interest coming first into their hands, they shall not be at liberty to make the deduction at any future period.

17th. Government reserves to itself the liberty of withdrawing the authority hereby granted to the Accountant General and Sub-Treasurer upon giving two years notice of their intention so to do in the Calcutta Gazette; and at the expiration of such notice, these Officers will cease to act in the concern of individuals; but any Government Paper which may have been deposited with them, will remain for safe custody at the Treasury until claimed by the Proprietor.

TABLE OF MONEY WEIGHTS AND MEASURES.

Accounts were kept in Madras in Star Pagodas, Fanams and Cash, viz.
 80 Cash to 1 Fanam.
 42, 44 or 45 Fanams, 1 Star Pagoda.
 At the Banks, and all the Houses of Agency kept their Accounts in Fanams the Star Pagoda. The Shops and Bazars at 44 or 45 Fanams exchanged in the Bazar for about 45 Fanams, but it according to circumstances.
 The circulation were the Star Pagoda, the Arcot Rupee 34 = 1 Fanam, and the Doodie, 8 of which = 1 Fanam.
 There was also a copper coin sent out from Europe of 20, 10, 5 and 1 Cash, the former being worth 8.75ths or about the 9th part of a farthing.
 This was altered in January 1819 by a Proclamation, which constituted a Silver Rupee the standard coin. To this the public accounts were altered at an exchange of 350 Rupees per 100 Pagodas: and the new Silver Rupee was made to consist of Rupees, Half, and Quarter Rupees, Double and Single Annas: the Rupee containing 165 grains of pure Silver and 13 grains of alloy, and weighing 180 grains; and the other Coins bearing the due proportion to the same.

12 pice,	=	1 anna,
16 annas,	=	1 rupee,
34 Rupees	exchange in account for	1 Pagoda.

A lac of Rupees is 100,000, a crore of Rupees, 100 lacs, or 10 millions.
 The Act of the Legislative Council of India (passed in 1835) assimilating the currency over the Country, changes the design, but leaves the new coinage of a precisely similar value to that of Madras according to the above Regulation. The following is the Proclamation on the subject.

PROCLAMATION.

The Honorable the Governor General in Council has resolved, that the device of the New Rupee, Double Rupee, Half Rupee and Quarter Rupee, to be issued from the Mints of India, from and after the 1st September 1835, in conformity with Act XVII of the same year, shall be as follows;

On the Obverse, the Head of his Majesty William the Fourth with the words,

WILLIAM III., KING.

On the Reverse the denomination of the Coin in English and Persian in the centre, encircled by a laurel wreath; and around the margin the words,

EAST INDIA COMPANY. 1835.

The new coin shall be milled on the edge, with a serrated or upright milling. The Rupee shall measure in diameter one inch and two-tenths of an inch, or one tenth of a foot. The diameter of the Double Rupee shall be one inch and a half; that of the Half Rupee, or Eight Anna Piece, shall be ninety-five hundredths of an inch; and that of the Quarter Rupee, or Four Anna Piece shall be three quarters of an inch. These measures being severally the relative proportions to the Rupee provided in the Act aforesaid.

The Weight, Standard fineness and value of the New (or Company's) Rupee as defined in the Act, are here repeated for general information.

Weight, 180 grains Troy, or one tala.

Standard quality, eleven twelfths Silver, one twelfth Alloy.

Value, equal to the Madras, Bombay, Farukhabad, and Sonat Rupee; and to fifteen sixteenths of the Calcutta Sicca Rupee.

The weights of the other Silver Coins, viz. the Double, Half, and Quarter Rupees to bear a due proportion thereto.

WEIGHTS.

10 pag. weight	make	1 pollam,
40 pollams,	"	1 vis,
8 vis,	"	1 maund, wt. 25lb. avoird.
20 maunds,	"	1 candy, 500lb. avoird.

MEASURES.

GRAIN OR DRY MEASURE.

8 ollucks,	make	1 measure, or paddy
8 measures,	"	1 marcal,
400 marcols,	"	1 garce, wt. 925 lbs.

Each Parah is to be 2 feet square and 6½ inches deep.

A parah of chubam is 5 marcols.—Milk, Oil, Ghee, &c. or grain measure containing 8 ollucks, 20 ollucks are equal to 1 English gallon.

LAND MEASURE.

Land is usually measured with Gunter's chain of 100 Link rod of 10 feet, and reduced to Cawnies, Grounds and Square feet to the following Table.

60 feet long and 40 feet broad, make one ground or Maun containing 2,400 square feet.

24 Grounds or Mannies; make one Cawnie equal to 57,600 square feet.

The Indian Cawnie is in proportion to the English Acre as 121 is to 160.

To reduce Indian Cawnies to English acres multiply the given number of Cawnies by 160, and divide the product by 121, the quotient will give the number of Acres, and the remainder be the fractional part of an acre.—or multiply the Cawnies by 1.3223, and the product, (cutting off 4 places to the right hand) will be the same, and the figures so cut off are the decimal part of an Acre.

The Covid in Cloth Measure is 18 Inches, but the English yard of 26 Inches is generally used.

W. BANNISTER, Esq., Assay Master, in charge of the Mint.

The Madras Mint was abolished in 1835 by an order of the Government of India. In the year 1837, a Bullion Office was established under the orders of the same authority.

Bullion Office, Fort St. George, June 20, 1837.

The following are the regulations by which Gold and Silver are now purchased by the Assay Master, at the Bullion Office.

2. The Bullion so tendered shall be delivered by the owner or his representative to the Assay Master personally, who will weigh it in the presence of such party, and grant a receipt for the same according to the annexed Form No. 1. The Bullion shall then be melted, cast into bars or ingots, and have stamped thereon consecutive numbers in the presence of the owner or his representative; in the joint custody of whom and of the Assay Master it shall be kept in a box with two different locks and keys, each party keeping a separate key, until it shall have been assayed.

3. The Bullion having been melted, and numbered as aforesaid, the Assay Master shall also cut musters from it in the presence of the owner or his representative, and proceed to assay the musters with all convenient despatch. After assay, the Bullion shall be again weighed by the Assay Master in the presence of the owner or his representative; its value shall then be brought to the public credit by the Assay Master, who will grant, in lieu of the receipt before given, a Bullion Certificate according to the annexed Form No. 2: deducting therefrom the standard value of the Bullion two per cent. seignorage.

DRAWBACK ON CERTIFICATES.

Sea Custom House: Madras, 26th January 1832.

The Right Honorable the Governor in Council having been pleased to sanction the allowance of Drawback on Goods exported to ports not subject to the Government of Fort Saint George, according to the rates mentioned in a sanctioned Table now in this Office, Notice is hereby given, that all Exporters of Goods, applying for the benefit of Drawback on Certificates are required to have their Goods brought to the Export yard of this Office, together with their applications, accompanied by Bills or Certificates in proof of the import or other duty having been previously paid in support of their claim to Drawback thereon. Any inattention to these orders and any difference between the import duty Bills or Certificates and the applications, will invalidate the claim either to Drawback or Certificate, and no Drawback or Certificate will on any account be granted in this Office unless satisfactory proof be given by documents that the import duties have been paid and the quality and value of the Goods correspond with the Bills or Certificates. Care must be taken to bring the Goods to the Export yard previous to presenting the application, in order to prevent delay, as no permit will be given before the Goods are examined and the Packages stamped, with the exportation seal.

SIGNALS

FOR SHIPS OR VESSELS IN THE OFFING.

Signals respecting Ships or Vessels in the Offing, whether Men of War, or Merchantmen, are made from the Garrison Flag Staff, a yard slung across the top-mast, the points of which represent the quarter from which the Vessels are coming in.

Three classes of Vessels are expressed by the Signals; Vessels of three masts, of two masts, and of one mast.

An Ensign, or square National Flag, represents a Ship of three masts; a National Flag, with two points or swallow's tail, represents a Brig or Snow, &c. of two masts; and a broad National Pendant, terminating in one point, represents a Sloop or Cutter of one mast.

If either of these Flags is hoisted to the yard above described, the Vessels seen are on the North or South quarters of the compass.

The number of Ships that appear in the Offing, are expressed by pendants—a white pendant signifies one Ship or Vessel; a red and white pendant, two Vessels; a red pendant, pierced with white, three Vessels; and a yellow pendant pierced with blue, four Vessels. When the number of Vessels exceed four, they are to be considered as a Fleet; on which occasion a long blue and yellow pendant will be hoisted.

If the Vessels in sight are Men of War in the North or South quarters, one of the numerical pendants will fly over the national flag on either side of the yard arms.

If Merchantmen are seen in the North or South quarters, one of the numerical pendants will fly under the national flag on either side of the yard arms.

If the Ships are Indiamen, a blue pendant will be displayed as usual under the Union flag of the Fort.

If a Fleet is in sight, one gun will be fired after the signal of the Fleet is made, and if there are two Fleets of different nations, in the same point of the compass, the signal of the first seen Fleet will be lowered after the space of 15 minutes, and a fresh signal hoisted, which is likewise to be accompanied by a gun.

A Steamer or a Packet is announced with a blue flag pierced with yellow hoisted to the yard arms, expressive of the quarter she is in.

The annexed Plate represents the Flags of all Nations that trade to Madras; and the manner in which the Signals are made, to express Ships or Vessels discovered in the offing.

The St. George's Flag hoisted on either points of the yard arm with a white pendant over it, announces a British Man of War. The French or Tri-coloured Flag of two points or swallow tail hoisted with a red and white pendant over it represents two French armed brigs or Snows, &c.; a broad American pendant hoisted with a red pendant pierced with white flying over it, represents three American armed Cutters, and a Dutch flag hoisted with a yellow pendant, pierced with a blue over it, represents four Dutch Men of War.

The St. George's Colours are varied according to the colour of the Admiral of the Squadron on the Station for the time being.

If the numerical pendant instead of flying over the national Colours is hoisted under them they will describe the same class of Vessels to be Merchantmen.

The blue pendant hoisted under the Union with a white pendant under an English Ensign hoisted on either yard arm, indicates an Indiaman.

N. B.—As Marryat's Code of Signals is so widely in circulation, and as the community at large are anxious of knowing the names of Vessels coming in, the Captains and Commanders of Vessels are required, to answer without delay every signal made to them from the Flag Staff of the Garrison.

LIGHT HOUSE, PORT ST. GEORGE.

The Light House on the Exchange in Port St. George was erected by the Exchange Committee, with the sanction of Government, in December 1796 and is of essential service to Ships, coming to the Roads in the night.

The Light is 90 feet above the level of the Sea at high water, and can be seen from the decks of the Honorable Company's Ships, about 17 miles, and from their mastsheads near 26 miles.

The South part of Pulicat Shoal bears from the Light House N. by E. half E. distance 12 miles; and to keep clear of the Shoal, the light should always bear to the Westward S. S. W. $\frac{1}{2}$ W.

LIGHT HOUSE, PONDICHERRY.

The Pondicherry Light House is situated on the edge of the sea in $11^{\circ} 35' 57''$ N. Latitude and $79^{\circ} 24' 33''$ East Longitude from Greenwich: It is a light of the third magnitude. The illumination is composed of six reflector-lamps, placed on a horizontal circle facing the sea. It was lighted for the first time on the 1st July 1836.

The height above the level of the sea is 29 metres 70^c. It is placed upon a tower of 21 metres in height. The metre is equal to three English feet and 28-100th.

Being on the deck, or poop, of a Ship of 300 or 400 tons, with a clear state of the atmosphere, the light is seen at the distance of 18 miles.

Vessels which anchor during the night at Pondicherry, during the N. E. monsoon, should cast anchor in 10 or 11 fathoms, keeping the light from W. $\frac{1}{2}$ N. W. W. N. W. (the French fathom is 5 feet 5 inches English measure.)

During the S. W. monsoon, vessels should anchor in 6 to 8 fathoms (French) keeping the light from W. to W. $\frac{1}{2}$ N. W.

These two indications for the anchorage are the most suitable for each season. The Light House tax is charged on all trading vessels which anchor in the roads. They pay at the rate of one anna each ton.

The Master-attendant and the Commodore, after having served five years in either of these capacities £150.

A Captain £360; Commander £260; Lieutenant £190; Purser £190.

Every officer retiring from ill health, after ten years service, and before they have completed that of twenty-two years, is granted the following retiring allowance :

A Captain £290; Commander £170; Lieutenant £125; Second Lieutenant £70; Purser £125.

Furlough.

A certain proportion of the Officers (to be determined by the Government, with a due regard to the exigencies of the service) are allowed to come home on furlough for three years, with the pay only of their rank.

No officer under the rank of Captain who has not actually served ten years can be permitted to come home on furlough, unless in cases of ill health, under the like certificates as required from Military Officers.

If the Commodore is permitted to come home on furlough he is to be allowed the pay of a Captain only. Half the remainder of his allowance to be drawn by the Senior Captain in the service, who is to act as Commodore during his absence, in addition to the pay of his rank as Senior Captain.

OVERLAND COMMUNICATION.

Rules established for the engagement of Passengers in the Honorable Company's Armed Steamers with instructions to Passengers, &c.

I. All persons on taking a Passage, either themselves or through their Agents, must bind themselves to comply with these Regulations, a copy of which will be supplied on application at the Superintendent's Office. Should any decline to enter into these engagements, they cannot be permitted to take a Passage.

II. Any applicant for a Passage may be refused without a cause being assigned, either by the Superintendent of the Indian Navy at Bombay, or the Commander of the vessel when away from Bombay; but a report of the rejection is to be communicated confidentially to Government.

III. A list shall be kept in the Office of the Superintendent of the Indian Navy, in which the names of all persons applying for a Passage shall be registered.

Any person desirous of engaging a Passage, is required to deposit in the hands of the Pay Master at the Presidency one third of the amount of the regulated Passage Money, and on the production at the Office of the Superintendent of the Indian Navy of a Certificate of his having done so, his name will be registered in the list. The applicants will stand in the list according to the order in which they pay their deposits, and those who stand first will be allowed priority of choice of accommodation.

IV. When a vessel is away from Bombay, application for Passengers to be made to the Commander. Persons so applying will be furnished with a copy of these Regulations, and called upon for an acknowledgment (as per printed form) of consent to comply therewith before they can be entered on the list of Passengers.

V. Three Cabins shall be set apart for Ladies, the price Rupees 1,000, for each Cabin, which may be appropriated by the subscriber according to either of the three following Rules. If however, there are no Passengers under these denominations, then the Lady shall only pay 1,200 Rupees.

- 1st. Either for a Lady alone or with an attendant.
- 2d. For a Lady and her Husband.
- 3d. For a Lady and two Children.
- 4th. For two Ladies, the original subscriber having the option of nominating her companion from the Cabin or Saloon Passengers.

VI. The remaining Cabins for Passengers will be appropriated as follows:

The person who first engages a Cabin, whether Gentleman or Lady, will be entitled to an entire Cabin on the payment of Rupees 1,000, and so on for the whole of the Cabins allotted for Passengers; but should any one having a right to a Cabin prefer to pay Rupees 800 only, by admitting a second into his berth, he shall be allowed to make his selection from any of the other Passengers, except the Deck Passengers.

VII. The payments made on account of Ladies or Children, will be refunded should no Cabin accommodation be available for them.

VIII. No transfer of accommodation in the Steamers by an individual who has taken his Passage to one who has not taken his passage will be permitted: but after the list has been filled up, any person wishing to stand the chance of coming in, in case of a vacancy by a lapse, may do so by registering his name and paying the usual deposit money, which will be refunded to him should no vacancy occur.

IX. It is to be understood, that the Deck Passengers have no right to sleep in the Saloon, and as there is in some of the Vessels only room at the table for the Passengers who pay the Cabin price, the Deck Passengers who may be in excess of the number that the table can accommodate, will have their meals either on Deck or in the Cabin, according as the majority of them may desire.

X. The following are the rates of Passage Money to the Red Sea:

COSSIER OR SUEZ.	
A Cabin Passage.....	Rs. 800
A Deck ditto.....	600

XI. Short Passages are to be paid for on the person being received on board. It will be necessary for individuals not belonging to the Hon'ble Company's service, to make the requisite arrangements with the Commanders, for the payment of the Passage Money, either upon embarkation, or at Bombay on their arrival.

XII. In the event of an individual not proceeding in the Steamer after his name is entered as a Passenger, he shall forfeit the third of the Passage Money paid into the Treasury.

XIII. Ten days previous to the period on which the Steamer is advertised to depart, each Passenger is to pay the remaining two thirds of his Passage Money into the Treasury, in default of which his Passage will be considered forfeited, together with the amount paid into the Treasury. XIV. The baggage of each Passenger must not exceed three boxes of the following dimensions:

XV. In the event of the Hugh Lindsay or other Steamer of small capacity, stowage being sent to the Red Sea, the baggage of each Passenger must be limited to 4 boxes of the sizes above mentioned.

XVI. All Passengers who are not unwell are expected to take their meals at the public table. The breakfast hour will be half past eight, dinner at three; and tea at sunset, with a sandwich at 9 p. m.

XVII. Independent of the table, Passengers will have the attendance of a Servant.

XVIII. Passengers will be allowed 24 hours after the arrival of the vessel to make their arrangement, but should they remain any time after that on board, it must be at their own expense, paying at the rate of Eight Rupees per diem, and the same on embarkation, should they wish to live on board before the day appointed for sailing, the Commander may receive them upon their paying the same sum.

XIX. Deck Passengers are only to be taken after the Cabins and Saloon berths are filled.

XX. Every Passenger will pledge his word (in the letter, stating his intention of complying with the Regulations, that he will carry no Letters with him whatever on board the Steamer without having paid the usual postage at the Post Office.

XXI. Passengers having occasion to complain of the neglect of Servants, or if improper conduct on the part of any individual on board, will make the same known to the Commander, who will adopt such measures as he may deem necessary on the occasion: all complaints to the Commander, by Passengers must be made either upon the Quarter Deck, or by writing to the Commander, who will exert the general control he has over all on board.

XXII. The vessel being commanded and officered by Commissioned Officers of the Indian Navy, and navigated under Martial Law, it is expected that all Passengers will conduct themselves with the same circumspection as Passengers on board Her Majesty's or the Hon'ble Company's Vessels of War: at the same time, every indulgence and consideration will be given to their comfort, and accommodation, so long as it does not infringe on discipline.

XXIII. It is to be understood, that Government reserves to itself the right of appropriating a Cabin or Cabins for the use of public functionaries proceeding on duty as Passengers in any of the Hon'ble Company's Steamers.

* Not to exceed the following dimensions, viz.:

G. O. H. C. 29th Aug. 1838.

Instructions for the Commanders of the Honorable Company's armed Steamers relative to the conveyance of Passengers, their accommodations, table, &c. &c.

1.—The Commanders are to attend carefully to the comfort and accommodation of Passengers: whilst they do this, they will take care to preserve their Character as Commissioned Officers in the Honorable Company's Service.

2.—All complaints from Passengers either against Officers, Seamen, or Servants, are only to be received on the Quarter Deck, or by letter: if necessary the Commander may have them investigated in private; every attention is to be immediately given to them, and every means taken to give satisfaction.

3.—The Commander will preside at the head of the table, and it is expected that by his example he will prevent any excess of conviviality, which must be prejudicial to the good order so necessary to be preserved on board the Steam Packet.

4.—The Commander is not to receive any present whatever under any circumstances, without the permission of Government, applied for through the Superintendent, and with caution Officers of the service under his command not to receive a present from any Passenger on board; a non-compliance with this order, will subject them to a Court-Martial, and any officer found engaged in any species of trade or mercantile will also subject themselves to a trial for disobedience of orders. This will not prevent the Commander himself taking or granting permission to the Officers taking on board any small quantity of coffee or other useful produce, provided it is for their own use, the application for permission to take on board such produce must be made in writing to the Commander, and an account kept of whatever is received on board either for himself or for others by his permission.

5.—The Commander (if there is no agent appointed by Government) will engage Passengers in the Red Sea agreeable to the 1st Article of the Regulations and Instructions, and he will not reject any applicant without some substantial grounds for so doing; however he will be very careful in ascertaining that those who apply for passages, and not belonging to the Company's Service, have the means of paying for their passage on their arrival at the Presidency; all those taking short passages in the Red Sea will pay the passage money before they are received on board.

6.—The Commander will be particular in directing the Officers of the watch not to speak to the Passengers, but give their sole attention to their duty, upon which the safety of all vessels (but particularly a Steamer) so much depends.

7.—All orders and regulations for the better government of the H. C.'s Vessels of War that do not interfere with these instructions will be duly attended to, and the Commander will be held responsible for any breach thereof.

8.—The Commander is to provide and manage the Mess table, &c. finding every thing for the Passengers according to proportions scale drawn up by a Committee, and with which he is furnished by the directions of Government.

MR. WAGHOEN'S AGENCY IN EGYPT.

Mr. Waghorn's Agencies are now in full operation. By the concurrence and aid of H. H. the Viceroy of Egypt, every previous difficulty has been surmounted, and a stream from His Highness ensures to the undertaking extraordinary facilities, both in Egypt and the Ports of the Red Sea.

Letters from England, if duly registered by his Agents, and addressed to the care of Mr. Waghorn at Alexandria, are sent there through H. M.'s Post Office, and Couriers placed by the Egyptian Government at the disposal of Mr. Waghorn convey them in fifty six hours to Suez; from Suez, if no Steam Vessel be in waiting to proceed direct to India, they are immediately despatched to Mocha, where they are received by the Agent of the Indian Government and forwarded through him to their destination.

Letters from India if duly registered by his Agents and addressed to the care of Mr. Waghorn at Suez, are conveyed by Couriers from thence in fifty six hours to Alexandria; whence they are forwarded by the first opportunity direct to Marseilles, so that they may reach London with the least possible delay.

Passengers, going or returning from India, are provided with conveyances at charges hereafter stated, which include tents and servants, as well as boats and camels, either way, between Alexandria and Suez. Travellers can at their option, either proceed by the earliest conveyance, or prolong their stay in Egypt, without prejudice to their engagements with Mr. Waghorn.

Invalids visiting Egypt can have the attendance of English surgeons, Mr. Laidlaw being in practice at Alexandria, and Mr. A. Walne at Cairo. The latter gentleman would, if it were particularly desired, visit patients at Suez.

English hotels offering every comfort and accommodation have been established, both at Alexandria and Cairo, and the Proprietor of the latter, Mr. Hill, is about to establish one at Suez, besides providing accommodation for travellers between Suez and Cairo.

A reading room containing the most recent periodicals, has been opened at Mr. Waghorn's house in Cairo, of which Passengers, availing themselves of his Agency, will be admitted without additional expense.

A considerable portion of the material for the Rail Road from Cairo to Suez is arrived in Egypt, and there is every reason to hope that this great work will shortly

7. When a letter exceeds in weight a single tola, its weight, double, treble, &c. must be entered in writing on the face thereof, and on bulky parcels the exact weight must in all cases be entered in writing on the same.

8. All Service, Soldiers, or other free letters or packets, received from Seaward at any General Post Office, are to be stamped with the Ship Letter Free Stamp. CORRESPONDENCE WITH MEMBERS OF THE HONORABLE COURT.

Extract from a Letter from the Honorable the Court of Directors.

Public Department, November 8, 1837.

Para. 1. Instances having occurred, of letters addressed by parties in India, to the individual Members of our Court, being transmitted to this country by the Mediterranean Mails, under the impression that such letters are exempt from the duty of postage, it is necessary that we should apprise you, that the privilege of receiving letters so addressed, free of postage, does not attach to letters sent from the East Indies by packet, via Mediterranean; and we direct that you forthwith take the necessary measures for giving public notice thereof, throughout your Presidency.

2. You will however, clearly understand, that the privilege of franking enjoyed by individual Directors, and other public functionaries, so far as respects the Indian duties of postage, continues in full force.

REFUND OF POSTAGE.

Fort St. George, General Post Office, 8th March 1838.

Considerable inconvenience being experienced from persons requiring a refund of the postage levied upon Letters which may not be forwarded to the parties to whom they may be addressed, in consequence of instructions from themselves to detain their letters until their arrival at the Presidency;—Notice is hereby given, that in future, whenever the postage shall have been charged and levied on letters delivered at the General Post Office, for the address of persons at Out-stations, no refund will be made to the writers or senders of such Letters, when they are detained by order of the parties to whom they may be addressed, for delivery at the Presidency.

Fort St. George, April 24, 1838.

The following additional Post Office Rules are re-published for general information.

No. 29.

Fort William, General Department, the 28th March 1838.

In order to provide for the public convenience at Stations from, and to, or between which, a Banghy post has not yet been established, the President in Council, until further orders, authorizes Post Masters at such Out-stations to receive (as an act of indulgence to be exercised at their discretion) packets of reasonable weight at the ordinary banghy rates of Table 4, Schedule A, for despatch, by the letter post of any cross road on which a banghy post may not be established, or to the nearest station whence they can be conveyed by Banghy, provided that the party sending the same shall satisfy the Post Master that the packet contains no letter or writing, and provided that the mail be not thereby loaded above the maximum gross weight to be conveyed by a single runner, viz. 9 seers, or 18lbs.

Banghy parcels of moderate weight, received for transmission to places beyond a Banghy range, will in like manner be received at banghy rates for the whole distance. They will then be forwarded by banghy as far as such banghy post travels, and thence be sent on by letter post, should such transmission be possible without overloading the runners; otherwise their further transmission will be completed by means of extra Banghies to be hired for the purpose.

By order of the Honorable the President in Council.

Art. 4th. Previous to the benefits issuing in full from the Fund either to Subscribers or to Families, a certain amount calculated without interest (or the minimum fixed in Table C,) shall be derived to the Fund from the Subscribers, or in case of his death, from the amount payable to his family. In calculating this minimum for any annuity, all payments made to the Subscriber during his life from the Fund, as far as the amount of his minimum shall be debited against his payments to it, as above, in order that the annuity may not be payable in full until the regulated minimum on its account shall have been *bona fide* realized by the Fund.*

Art. 5th. The deductions on account of minimum required by the preceding Article 4th, to be made from all benefits to Subscribers (equipment allowance excepted,) and from annuities, are to be regulated by the following Table D.

From the 5th Class not to exceed one-fifth of the net amount payable from the Fund.			
5th	do	two-ninths	do
4th	do	one-fourth	do
3d	do	two-sevenths	do
2d	do	one-third	do
1st	do	two-fifths	do
for all children	do	one-fourth	do

Art. 6th. The donation may be paid at once, or by monthly instalments agreeable to Table A, at the option of the Subscriber; if the Subscriber, however, be promoted during the payment of these instalments, he must pay all instalments subsequent in the date of that promotion, at the rate of the donation of the higher rank.

Art. 7th. Officers on their promotion will be required to pay up the amount of donation fixed in Table A, on entering each class agreeable to their condition.

Art. 8th. Donation is in no case to be returned.

Art. 9th. All Subscribers, as well widowers or bachelors, marrying after their admission into the Fund, and who may be desirous that their widows or children shall possess claims to the benefits of the Fund, are required to inform the Secretary of their marriage, and of the payment of the additional donation, as laid in the 6th column of Table A, and unless this information be given within six months and payment of the additional donation made within twenty-four months after such marriage, the Subscriber shall be required to pay double the amount with interest added half yearly.

Art. 10th. In the event of a married subscriber dying before he has reported his marriage, his widow and children will have no claim upon the Fund, but if he shall have duly reported his marriage and not paid up the whole of his additional donation at the period of his death within twenty-four months, his widow and children shall be liable to deduction from their annuities by instalments.

Art. 11th. Any arrears not mentioned by the 6th Article of this Section, equal in amount to six months subscription, shall subject the Subscriber (owing it) to the payment of double the amount of the arrears (unless it shall be made to appear to the satisfaction of the Directors that such arrears arose from unavoidable accident,) and in failure of the payment of the forfeitures specified in this, and the preceding Article (9th) within twelve months after it shall be demanded, to the exclusion of himself and family from the benefits of the Fund (if admitted prior to the 30th April 1823, or if subsequent, to the exclusion of his family alone.)

Art. 12th. Subscribers who may be in the actual receipt of any periodical aid from the Fund, shall not during such period be exempted from the payment of monthly subscription.

Art. 13th. Subscribers who may be prevented drawing pay by a temporary cause, such as captivity, extended furlough, suspension from pay, or the like, shall during such period be exempted from the payment of monthly subscription without forfeiture of their rights, but on the removal of such incapacity, and upon the receipt of pay, they shall be required to pay up all arrears due to the Fund within six months.

Art. 14th. Married Subscribers having daughters and desirous that their annuities should be continued to them until marriage or death, are required within ten

* Thus in the event of a married Captain having received aid from the Fund, the amount of such aid or part thereof, so as not to exceed the sum of 5,000 Rupees, being the amount of his minimum, shall be debited against the amount of his contributions, the clear balance only, if any, being taken to constitute the minimum, to be derived by the Fund ere his family become entitled to receive the annuity in full. Should there be a balance against the Subscriber, however, it will not be charged against the annuity, for which a fresh minimum only will fall to be recovered by the regulated deductions. For example—Supposing a Captain to have received aid to the amount of 4,000 rupees, and his payments to the Fund to amount to 3,500 he will be debited as far as the amount of his minimum, 1,500, which will be considered as being paid; that amount, and the 500 rupees remaining, will be credited to the new minimum required for the annuity.

† Subscribers are particularly requested to observe that they are required to report the date of their marriage to the Secretary, who otherwise has no authority to enter them on the list of married Subscribers.

days from the date of birth of each daughter, to notify the same to the Secretary, stating whether or not it is their intention to pay an additional donation of rupees 250. In the former case, the amount will become due to the Fund from the tenth day after birth, and must be paid within one year from the date thereof, falling in which the annuity will cease on the daughters attaining the age of twenty-one. Subscribers in reporting payment of the donation are to state the Christian name and date of birth of the daughter for whom paid. A posthumous daughter, or a daughter whose father may die before payment of the donation as above, will be entitled to the advantage of this regulation, but the prescribed donation for her will be deducted from her annuity at the rate specified in Table D, and in the case of a daughter born in Europe or elsewhere, while the father is in India, the report must be made as soon as the event comes to his knowledge, the cause of the delay being explained at the time.

Art. 15th. The like option is extended to Subscribers admitted under the provisions of Article 2d, Section 1st, having daughters born anterior to their admission for whom the above sum of rupees 250 is to be paid with compound interest at 8 per cent. calculated from their date of birth, within one year from the date of such Subscribers' admission.

Art. 16th. To obviate the inconvenience which might be occasioned by the neglect of Article 14th, Subscribers may, if they prefer it, notify to the Secretary their wish to avail themselves of the rule for all daughters who may be born to them. In this case the daughters will be entitled to benefit, the donation for each becoming due and payable as before explained.

Art. 17th. Officers retired on half pay, or on Lord Clive's Fund, shall pay full subscription notwithstanding, according to their rank and condition; and they are accordingly required to continue the same towards their respective minimum, or falling so to do, and preferring the payment of half subscription only, their families at their death, will be entitled only to half the benefit derivable from the Fund.

SECTION III.

BENEFITS DERIVABLE FROM THE FUND.

Art. 1st. The benefits derivable from the Fund are two-fold:

1st. Such as are granted to subscribers while living.

2d. Such as are granted to the widows and legitimate children of deceased Subscribers.

Art. 2d. The benefit granted to Subscribers while alive are considered personal, and subject to the decision of the Directors for the time being, who will be guided in their decision on each claim by the Regulations of the Fund, except when they have reason to entertain doubts with respect to any such claim. It will, in such cases, be their duty to call for further information from the claimant; and if this information should not be satisfactory to the Directors, they are authorized to withhold the payment of the claim until the pleasure of the Army at large be known, to whom the case will be immediately referred.

Art. 3d. Eligible individuals who may have applied to the Secretary for permission to subscribe within six months after their admission on the Establishment, will be entitled at any time to the benefits of the Fund.

Art. 4th. A Subscriber of the rank of Captain, who may proceed to Europe on sick certificate, in conformity to the Regulation of the Army, and who may not be allowed passage money from Government, shall be authorized to apply to the Military Fund, for the passage money regulated for his rank, viz. 1400, provided his application shall be accompanied by a solemn declaration upon honour that he does not possess the sum of Madras Rupees (1,500) one thousand and five hundred, or property of any description equal in amount thereto. Passage money is not allowed to field Officers except on Loan.

Art. 5th. A Subscriber under the rank of Field Officer, who may have so proceeded to Europe shall also be entitled on his return to India to receive from the Secretary in England the sum regulated* for the outward passage on the production of a solemn declaration upon honour, that he does not possess the means of paying for the same.

Art. 6th. A Subscriber of whatever rank proceeding to Europe on sick certificate shall be entitled for his equipment to a sum not exceeding Company's rupees (250) two hundred, and if married in addition thereto rupees (200) two hundred for his wife, and rupees (100) one hundred for each child, his application being accompanied by a solemn declaration upon honour that he does not possess, if a Subaltern, the sum of Madras Rupees (1000) one thousand, a Captain rupees (1500) one thousand five hundred, or a Field Officer, rupees (2000) two thousand.

Art. 7th. Subscribers being Subalterns proceeding to England on sick certificate, who shall make a solemn declaration upon honour that they possess no other income beyond the regulated pay of their rank, exclusive of any pension for wounds of which they may be in receipt, shall be allowed the sum of £21 7 6 per annum, for a Lieutenant, and £44 3 9 for Cornet, 2d Lieutenant, or Ensign, commencing from the date of arrival in England, continuing so long as they shall be in the receipt of pay there, and ceasing from the date of embarkation to return to India. The declaration to be renewed half-yearly.

Art. 8th. Income allowance to sick Subaltern Officers at home will be increased to such Officers as are married or to widowers having offspring, as follows: £20 for his wife, and £10 per annum to each of his children. The latter allowance, however, to be reduced in the case of a plurality of children, in the manner prescribed by the 19th Article of this Section, provided, however, that such additional allowance for the whole family never exceed the sum of £48 15 0. A Captain of Artillery, Engineers, or Infantry, in like manner, being at home on sick certificate with a family, will be entitled to a similar allowance for his family, provided he make the declaration upon honour prescribed for Subalterns. Captains of Cavalry are not entitled to income allowance.

Art. 9th. Subscribers proceeding to England on sick certificate, conformably to the Regulations, from any place not under the Presidency of Port St. George, shall be entitled to the personal benefits which have been above enumerated, provided they shall have complied with the Local Regulations, and shall make immediate communication of the circumstances to the Directors of the Fund.

Art. 10th. The personal benefits above enumerated are issuable in one instance only, and if required a second time, they will be granted only on loan under the Regulations established in the 3th Section, that is to say, a Subscriber having once proceeded to Europe on the Fund, has no further claim to gratuitous aid.

Art. 11th. The second class of benefits, (namely those granted to widows and children of deceased Subscribers,) are absolute, not dependent on the decision of the Directors, but controlled solely by the Regulations of the Institution.

Art. 12th. The widows and legitimate children of deceased Subscribers shall be entitled to receive the annuities specified in the annexed Table E, provided they shall have paid up previous to their decease, the minimum required by Section 2d; but in cases where the minimum may not have been paid up, the annuities of the widows and children will be subject to a deduction, in the proportion specified in Table D, until such minimum may have been made good, when the annuities will be paid in full.

ESSENTIAL BENEFITS OF THE FUND.

Art. 1st. Independent of the benefits which have been recited, the Fund is considered as holding out the prospect of eventual benefits under the following circumstances:—

Art. 2d. If at any future period it shall be found, that the funds of the Institution afford a considerable surplus, after providing for the actual and probable applications for relief under the preceding articles, it shall then, and not otherwise, be competent for the Directors of the Institution, as the permission of the Honourable Court of Directors has been obtained, to afford the aid of the Fund in the following cases, viz. Art. 33d. With the view of securing the Fund against decay and ultimate failure, the original intention in regard to donation shall be strictly adhered to, namely, that the donations paid by Officers be "for the purpose of forming a capital," and that the subscriptions of Officers, the Company's donation, the interest on the capital, and all other profits, be alone available to defray the expenses of the Fund, and the books and accounts of the Fund shall be kept to that effect.

Art. 34th. Should the subscriptions of Officers, the Company's Donation, the interest on the capital, and all other profits available to defray the expenses of the Fund, fall short of the demands upon it, so that the total amount of the former will not defray the amount of the annuities and other claims, then it shall be in the power of the Directors to make a proportionate deduction according to Table D, from the annuities of all widows and children, until the state of the Fund shall afford the means of complete payment.

Art. 35th. The Secretary shall lay before the Directors of the regular monthly meeting in November of each year, an estimated state of the Fund for the current year; and the Directors having taken the same into consideration, shall declare what deduction, if any, may be required on annuities for the ensuing year, on the principle of the preceding Article.

QUEEN'S MILITARY FUND.

Regulations of a General Military Fund, for the benefit of Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820 and revised in 1827.

Under the protection and countenance of the most Noble the Marquis of Hastings, Commander in Chief in India, the above named Fund was established in the year 1820, for the purpose of sending home, in comfort and respectability, the families of deceased officers in Her Majesty's Regiments, serving in India, who may have

been left destitute; and of preventing the painful and degrading practice of appealing to the public for subscriptions on such occasions; and also of providing relief in such cases as may require it, until they can be conveniently sent home.

It having since been found advisable to make some alterations in the rules and regulations then established, the following revised regulations, passed with the general consent of the Officers of the Army, have been approved of by His Excellency the Right Honourable Viscount Combermere, Commander-in-Chief in India, who has been pleased to become Patron to the Institution.

1st. That the Committee of general management formed at Calcutta shall consist of the following persons for the time being subscribers; viz:

The Major General Commanding the Presidency Division.
The Adjutant General of Her Majesty's Forces in India.
The Quarter Master General of Her Majesty's Forces in India.
The Inspector of Hospitals.
The Commandant of Fort William.
The Assistant Adjutant General of Her Majesty's Forces in India.
The Two Senior Officers of Her Majesty's Regiments quartered in Fort William.
The Senior Subalterns of ditto.
The Commandant of the Depot at Chinsurah.
The Military Secretary to the Commander-in-Chief.
The Major of Brigade of Her Majesty's Forces.
The Paymaster of Her Majesty's Troops; and,
The Paymaster of Her Majesty's Regiments quartered in Fort William.

2d. That a sub-committee for inquiring into all circumstances connected with this fund, and acting under the General committee, shall be formed at Madras and Bombay, composed as follows:—such Officers being Subscribers:

The Senior Officers of Her Majesty's Army at the Presidency.
All Officers of the General Staff.
The two Senior Officers of Her Majesty's Regiment stationed at the Presidency.
The two Senior Subalterns of ditto.
And that the Major of Brigade or Queen's Troops may be good enough to act as Honorary Secretary.

3d. That every Officer shall pay monthly according to his rank, as specified in the margin:

STAFF.	
Commander-in-Chief,	30
General Officer,	20
Adjutant-General, Quarter Master General, Inspector of Hospitals, Military Secretary in Bengal,	12
Deputy Adjutant General, Deputy Quarter Master General, Deputy Inspector of Hospitals, Military Secretary Madras and Bombay,	10
Assistant Adjutant General, and Assistant Quarter Master General,	8
Majors of Brigade and other staff	6
REGIMENTARY.	
Lieutenant Colonel (if Commanding Station or Corps, 2 extra),	8
Major, (ditto ditto),	6

order and direct when the fund was established, that 1000 Rs. may be granted to the Paymaster of Her Majesty's Regiments by the Government of Madras and Bombay, on the Government of Bengal, at the exchange 1000 Calcutta Silver Rupees for every 1100 Madras Rupees, and 1000 Calcutta Silver Rupees for every 800 Bombay Rupees, payable at sight to the General Agents in Calcutta, thereby avoiding Commission, double agency, and risks of exchange.

7th. That all grants of assistance from this fund shall be regulated and assigned Committees of subscribers, as herein declared.

8th. That in order to ascertain the circumstances of any widow or family, who may have become destitute by the death of any Regimental Officer, such widow

shall memorialise or represent, the case of herself and family, through the commanding officer of the corps the casualty occurred, in order to its being brought to the consideration of a committee, and the commanding officer shall, as far as his knowledge shall enable him, state his opinion of any case so received.

GENERAL COMMITTEE.

President.—A Field Officer, (if practicable,) 1 Captain, Surgeon, or Paymaster; 2 Lieutenants, or 1 Lieutenant and 1 Quarter Master or Assist. Surg.

9th. That whenever there may be mixed corps of Her Majesty's service, no more than one stationed together at the same time, every application for relief from this fund shall be heard and decided on by a general committee composed as equally as possible of Officers from such corps present, being subscribers to the fund.

10th. As it may often happen, that officers die while the corps they belong to is stationed by itself or remotely detached, it shall be in the power of every commanding officer of a regiment so situated, to assemble a committee of any two officers (being subscribers,) to hear and decide upon the case of any widows and children, so become destitute, and seeking relief from this fund. It shall also be competent for the Commander-in-Chief at either Presidency to assemble a special committee, to report on the case of any lady who may become a widow, whilst the regiment, to which her husband belonged, shall be at another distant station, or on service beyond sea.

11th. That such general, special, or regimental committees, as the case shall be, having duly examined into the circumstances of the parties seeking relief, shall report their opinion on, and recommend the amount to be granted, whether for passage money or maintenance, strictly in conformity with the regulations annexed. The opinion and recommendation of such committees shall be forwarded to the sub-committee, or such person as may be appointed by the Commander-in-Chief; if at the Presidency of Madras or Bombay, by the officer commanding the Corps in which the casualty may have occurred.

12th. The sub-committee at Madras and Bombay will, on satisfying themselves with the accuracy of the statements laid before them, draw upon the Agents at Calcutta, for the amount of the sum which may be awarded; but in the final adjustment of the accounts of such sub-committee, the general committee will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the rules laid down.

13th. The sub-committee will, on drawing for any sum on the general agents, transmit the report of the station committee, as well as their own opinion and explanations of the award as a voucher, and they will afterwards, as soon as possible, transmit the proper receipts and certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

14th. The object of this Fund being clearly confined to sending home distressed families of deceased officers, with a view of preventing those painful appeals for assistance to the public, at once so humiliating to respectable individuals and the Queen's service in India, it is earnestly hoped that all ranks of staff and regimental officers will support it.

15th. But to prevent doubts and misconceptions, which might possibly arise hereafter, it is distinctly declared, that no widow who is not in distressed circumstances, or no lady continuing to reside in this country after the death of her husband can expect any provision or pension for herself or children from the fund, further than is stated in the 8th clause of the schedule of awards. It is also declared, that no widow is entitled to passage money or allowance for travelling, unless she shall actually proceed to sea or on her journey in the manner for which any allowance may have been drawn; and should she have received such allowances, she will be required to refund; and further that no widow, under any circumstances, shall be entitled to any assistance from this Fund, unless the application shall be made in the usual form within six months after the demise of her husband.

16th. Orphan children are eligible for the benefits of this fund, but awards for them must be specially made by a general or sub-committee, and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

17th. That the general agents in Calcutta shall furnish an annual account of the money and disbursements of this Fund, agreeably to forms annexed, to the Adjutant General of Her Majesty's Forces; and that that officer be applied to, to circulate the same amongst the subscribers and the several officers of government at the three Presidencies.

18th. That commanding officers of Her Majesty's regiments be requested to pay particular attention in causing the regular quarterly remittances to be made to the general agents, who are requested, from time to time, to apprise commanding officers whenever any corps may fail in making such remittances.

19th. That no general rule or regulation of this fund shall be altered, except recommended by the general committee, and approved by a majority of the subscribers.

20th. In taking the opinion of the regiment and Staff officers of Her Majesty's forces in India a very general wish has been expressed, that all widows should have their passage to England, &c. &c. defrayed. The funds will not now admit of it, but should the positive standing balance of the fund amount to forty thousand Rupees (40,000), the committee will again put the question for the sense of the subscribers, with a provision that such charge should again cease on the balance falling to thirty thousand Rupees (30,000); and as in that event all married officers will have access to the Fund, their subscriptions should then be augmented. An officer ceases to be a subscriber on leaving India, all claims on the fund must, in like manner, cease in the same period; but an officer going to sea for the benefit of his health, being entitled to his company's allowances, will be considered as a subscriber, during his absence.

Para. 1. In reference to our despatch in this Department, dated the 5th of October 1823 (No. 43) and to your Letter in reply dated the 3d of August 1823 (No. 50), we think it right to explain that in requiring the expectants from the Annuities from the Fund of 1800 who were in England at the time that the arrangements for extending the Fund were made at your Presidency in 1814, to make certain payments to enable them to annuities upon the Fund of 1814, we never contemplated requiring from them a reimbursement of the allowances granted to them at home under the Regulations of 1800, and which they cannot be called upon to repay, not having ever returned to India.

2. You will inform the Trustees accordingly that the only payments which we require of such expectants are the sum of 2,000 Pagodas for the support of the annuity branch, and such arrears, if any, as may be due under the provisions of the Fund of 1800.

FOURTH MADRAS LAUDABLE SOCIETY.

The Laudable Society is an Association for the purpose of providing a Fund for the Insurance of Lives, with this difference from ordinary Life Insurance Offices, that the Funds of the Society accumulate for the benefit of the Insured, and not of the Insurers. It does not profess to insure any specific sum to the representatives of the Deceased, but merely their proportion of such sum as the accumulation of the subscription shall eventually yield.

Regulations of the Fourth Madras Laudable Society.

Article 1.—The object of this Association is to provide a Fund for the Insurance of Lives. This Fund is to be portioned into shares; and an individual may subscribe for a certain number of shares, either on his or her own life, or on the life of any other individual. In the former case the general Estate of the deceased, or some person or persons as he or she may by will or assignment have appointed, shall benefit in the event of a lapse: in the latter, the person who may have subscribed on the life of the deceased, shall benefit to the extent of the shares subscribed for, unless, in either case, such shares be especially declared at the time of subscription to be for the benefit of any other person or persons, or be subsequently made over according to the form hereafter prescribed for the benefit of any other person or persons, in which case, such person or persons shall be entitled to benefit in the event of a lapse, and no other.

Article 2.—In the case of a person subscribing on the life of another, the party subscribing, and not the party on whose life the subscription is made, shall be considered a Member of the Society, and have a voice in the management of its concerns. Copartners, or other bodies of individuals, may hold one or more shares jointly on any given life, either for their own benefit or for that of others; but in such case the parties writing in the Subscription shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by the deputation of one of their number, on all matters thereto relating.

Article 3.—The great principle of this Society is, the equal division of its accumulated funds among the parties entitled to benefit by lapse of lives subscribed according to the number of shares which those parties may respectively hold.

Article 4.—The Fourth Madras Society shall commence on the 1st January, 1838, and shall close on the 31st December 1840 at midnight.

Article 5.—Not more than three shares can be subscribed for, on any one life, whether those shares be held by one or more individuals.

Article 6.—Persons shall be at liberty to subscribe for half, quarter, or eighth of shares, either on their own lives or on the lives of others, and in case of lapse, the estate of the deceased, or the parties for whose advantages the subscription is declared to be, or who may have become entitled to such advantages by Will or Assignment, shall benefit by the funds in a like fractional proportion.

Article 7.—The following are the Rates of Subscription to be paid half yearly on each share, half share, quarter share, and eighth of share, according to the age of the parties whose lives are subscribed on, at the time of admission into the Society, viz.

Article 8.—All persons entering the Society, between the 1st January and the 30th June in the year 1838, shall pay on admission their full Subscription in advance for that year, or for the remaining part thereof, computing the same from the date of

their becoming Members, until the 1st January 1839, and paying for any number of days less than a month, one whole month's Subscriptions. The subsequent half yearly Subscription shall be payable on the 1st of January and 1st of July in each year, commencing with the 1st January, 1839.

Article 9.—All persons who may be admitted into the Society subsequent to the 30th June 1838, shall, in the first place, pay their proportion of the current half yearly Subscription, to be calculated agreeably to the above Rule from the 1st day of the month of their admission, until the next following period of payment; and, in the second place, shall pay a Premium of Admission to be regulated agreeably to the following scale, viz.

For admission during the second half of the 1st year of the Society A premium equal to 25 per cent. on one-half year's Subscription.
During the 2d Year 50 per cent. on do.
3d Year 75 per cent. on do.

Article 10.—Five persons residing in Madras, shall be nominated Directors of the Fourth Madras Laudable Society, whose business it will be to superintend and control the management of the funds, to examine the Accounts, to decide on all applications for admission, and generally to transact the current business of the Society. The concurrent opinion of three of the five Directors shall be decisive, on all matters, relating to the concerns of the Society, not at variance with these fundamental Regulations, which can be altered only by a majority of the Members residing in Madras. No question, however, shall be proposed to the Members at large, without the concurrence of a majority of the Directors. In case of the death or removal from Madras of any of the Directors, another or others shall be chosen, by a majority of the Members of the Society then residing in Madras, or by a majority of such Members residing at Madras as may attend at a General Meeting to be convened for that purpose.

Article 11.—A Meeting of the Directors shall be convened half yearly, when a statement of the Accounts of the Society shall be laid before them by the Secretaries, and no account, which shall once have been submitted to, and passed by the Directors at such Meeting, shall afterwards be called in question, unless for some special and manifest error to the amount of five hundred rupees or upwards.

Article 12.—In the election of Directors, as well as on all other questions relative to the concerns of the Society, which may be proposed for the decision of the Members at large, a Member holding three shares on any one life shall be entitled to three votes; one holding from two to three shares to two votes, and one holding one share or less than two shares, to one vote only. Members holding more than three shares on different lives shall be entitled to three votes only. Those holding three shares to three votes; two shares to two votes, and less than two shares to one vote.

Article 13.—Messrs. Arbuthnot and Co. shall officiate as Secretaries and Treasurers to the Society, and shall charge a Commission of two and half per cent. on all Receipts of Subscriptions, to be paid out of the funds of the Society, and they shall charge a fee of Madras Rupee one on each Certificate of admission, and one Rupee for the registry of each assignment of shares in lieu of all charges, Advertisements, Printing, and Law expenses excepted.

Article 14.—The Secretaries and Treasurers shall act in all cases according to the orders of the Directors.

Article 15.—All applications for admission into the Society from persons at or belonging to the Presidency of Fort St. George, shall be made by letter to the Secretaries, and shall be accompanied by a certificate of health, signed by a Medical Gentleman in the King's or Company's Service, and by an affidavit sworn to and signed by the individual on whose life the shares are applied for; such letters, certificate and affidavit to be according to the following forms, printed copies of which may be had on application to the Secretaries, viz.

same by his countersignature; or if the party be residing at a station where there
is no Magistrate it may then be attested by the Principal Civil, or Military Officer,
of the Station. In case of an application for Shares on the Life of a Minor under
fourteen years of age, an Affidavit to the same effect as above must be produced
from the Parent, Guardian, or next of Kin of the party, or of the person under
whose protection he or she may be residing.

Article 16.—All applications for admission accompanied by the above prescribed
format Certificate and Affidavit, which may be transmitted to the Secretaries
shall be submitted by them to the Directors for their decision; and the Directors
shall in all instances be at full liberty to reject any such applications without
assigning any reason unto the applicant for so doing.

Article 17.—In all cases, it shall rest with the Committee to judge whether with
reference to the circumstances of situation and distance, the interval which may
have elapsed between the date of Certificate and Affidavit of Health, and the time
of their presentation be reasonable or otherwise, and to admit or reject such Cer-
tificates and Affidavits accordingly. In no case however is the party subscribing to
have any hand in the rules of the Society, in the event of the life lapsing be-
tween the date of the Certificate, and the time on which the applicant may be ad-
mitted a minor, unless where the Directors may at the instance of such applicant
have originally permitted the subscription to take effect from the date of the cer-
tificate and affidavit of health, which shall in all cases be in their discretion to do, at
the moment of subscription being paid up. In the event however, of a person dying
between the date of his Certificate and Affidavit of Health, and his admission, and
the lapse of his life was not collected from the date of the Certificate and Affi-
davit the amount of premium paid for such Insurance shall be refunded.

Article 18.—No subscription on any life shall be considered as entitling the party
or parties concerned to a seat by the Society until the life subscribed on shall have
been approved by the Directors, the amount of the first subscription and premium
of admission paid, and a certificate of admission granted under the signature of
the Secretaries and any share of the Directors, agreeably to the form annexed to
these regulations. And, any applicant shall be liable to pay the amount of Subscrip-
tion and premium of admission within two months after the life subscribed on shall
have been approved by the Directors, such applicant shall forfeit his claim to be
admitted, except on a fresh application accompanied by a new certificate and
affidavit of health.

Article 19.—All subscriptions (except the first which is to be paid on admission)
shall be paid within one month of the time at which they become due—if not paid
within that time, a penalty of two per cent. on the amount of the instalment shall
be added; and any member who shall not have paid his Subscriptions together
with the said penalty within two months of the day on which such Subscriptions
shall have become due, shall be considered to have absolutely and entirely forfeited
his share or shares.

Article 20.—Any Member shall be at liberty at any time to pay up his Subscrip-
tion for the whole unexpired period between the time of such payment, and the
close of the Society, or for any part thereof; and, in the event of the lapse of the
life subscribed on, such Member or his representatives shall be entitled to re-
ceive back any part of the subscription money so paid up, which would not have
been due at the time of the life taking place, forfeiting, however, to the Society
all interest which may have intermediately accrued thereon.

Article 21.—No subsequent increase of Shares on any life shall be allowed, ex-
cept on a fresh application to be again approved of by the Directors, and accom-
panied by a Certificate and Affidavit as above. The Subscription on the addi-
tional Shares to be according to the age of the party at the time of making the new
application.

Article 22.—A member desiring to transfer his interest in any Share or Shares
which he may hold in the Society, shall be at liberty to do so by an endorsement,
to be written on the original certificate, which endorsement however shall not be
valid, until the Certificate bearing the same shall have been produced to the
Secretaries and the transfer duly registered by them in a General Book of Registry
to be kept in the office of the Society.

Article 23.—As often as sum, exceeding Rupees one thousand shall be collected,
it shall be laid out in the purchase of Government Paper, and Public Securities
purchased for the Society shall be specially endorsed to three or more of the Direc-
tors, and the interest only shall be made payable to the Secretaries and Treasurers.

Article 24.—The person or persons entitled to benefit by the lapse of a life in the
Society, shall, on making application to the Secretaries in writing, accompanied by
each proof of the casualty as may be satisfactory to a majority of the Directors,
immediately receive the sum of three thousand Madras Rupees on each share, (one
thousand and five hundred Rupees on each half share, seven hundred and fifty
Rupees on each quarter share; or three hundred and seventy five Rupees of each
eighth of a share, which he or they may have held, or be entitled to, on the lapse
of a life; provided that in the opinion of the Directors, the state of the funds of the
Society will admit of so large a payment being made. Should the Directors, think
however, that the funds will not allow of an immediate payment to this amount,
then such sum only shall be advanced as they may deem proper; and the balance of
the prescribed advance shall be paid as soon as the Directors shall be of opinion
that the funds will safely admit of it.

Article 25.—At the expiration of the Society on the 31st December 1840, it is pro-
posed, that a New Society, but subject to such further alterations as experience
may suggest, shall be immediately instituted, into which Society all Members then
holding shares on unexpired lives in the Fourth Madras Laudable Society shall
be at liberty to transfer those shares without any renewed certificate of health,
in consideration of a sum of money to be paid to such new Society out of the
funds of the Fourth Madras Laudable Society. To entitle Members of the Fourth
Laudable Society to transfer the shares held by them into the ensuing or Fifth
Laudable Society, no regular form of application shall be necessary; but a Cer-
tificate of admission into the new Society shall be immediately issued to them on the
simple payment of the usual first year's Subscription in advance, subject however
to the established penalty of two per cent. in the event of the payment being delayed
beyond the term of one month from the commencement of the new Society, and to the
Directors, accompanied by the regular certificate of health, &c., if not made good
within the second month from that period. The rates of Subscriptions for Members
transferring their shares from the Fourth to the Fifth Laudable Society shall be ac-
cording to the respective ages of the parties on whose lives the Shares are held,
on the 1st of January, 1841.

Article 26.—It is proposed to render the institution of the Laudable Society per-
manent by establishing a New Society in succession to each Society as it expires,
and arranging the transfer of the shares appertaining to the above principle.

Article 27.—Upon the transfer to the Fifth Laudable Society of any share or
shares in the Fourth Laudable Society which may stand assigned by endorsement or
otherwise for the benefit of any other person or persons than the person or persons

originally interested therein, or upon any subsequent transfer of any share or shares consequent from the fourth or any succeeding Society to the Society next ensuing, such share or shares shall continue in all respects subject to the lien of the assignee and shall be declared to stand for the benefit of such assignee in the Certificate of Admission to be issued from the New Society.

Article 28.—Within one month and fifteen days after the 31st December, 1840, the accounts of the Fourth Laudable Society shall be made up, and the balance of funds actually on hand, after deducting the payment of ten per cent to the New Society, shall be divided by the number of shares held on lives subscribed upon in this Society which may have passed between its commencement and its close as the parties entitled to benefit, by such lapses, shall each receive his or their proportions of the said funds, according to the numbers of shares respectively held by them on the several lapses of lives, the holders of half, quarter or eighth of shares, dividing according to those fractional proportions.

Article 29.—With respect to any lapses of lives in this Society which may not be ascertained on or prior to the 15th February 1841 such lapses shall be at the risk of the next ensuing Laudable Society, and the Dividends, to which the parties claiming to benefit by such lapses may be entitled, shall be paid out of the funds, and agreeably to the Regulations of the said ensuing Society, on the said lapses being ascertained. But it is hereby expressly provided, with respect to any lapses which may have occurred at any place to the Eastward of the Cape of Good Hope, that notice of such lapses accompanied by satisfactory proof of the same must be given to the Secretaries to the Fourth Laudable Society within one year from the expiration of the Fourth Society on the 31st December, 1840, or within two years, if the lapses have occurred in Europe or elsewhere beyond the Cape of Good Hope, and that in the event of the party or parties interested neglecting to prefer his or their claim on account of any such lapse within the period here described, he or they shall entirely forfeit all right and title to any benefit whatever, by reason of such lapses from the funds of the Fourth or any succeeding Society.

Article 30. Any mis-statement in the Affidavit of Health makes the policy void, as does also in cases when a person effects an insurance on his own life, but not so in the case of creditors effecting an insurance on the lives of their debtors.

CERTIFICATE OF ADMISSION.

We do hereby certify that _____ has been duly admitted to hold _____ share in the Fourth Madras Laudable Society on the life of _____ for the benefit of _____ who shall be entitled, in the event of a lapse of the aforesaid life, to receive such proportion of the funds of the said Society, as by the established Regulations thereof, published in the Madras Herald of _____ may become due to _____ by virtue of this subscription, and at such time or times as the said Regulations direct—subject moreover to all the several provisions and exceptions, by the said Regulations prescribed.

The Directors of this Society have caused investigation to be made with great care into the existing Institutions for Life Assurance, &c. &c., and they trust they have been fortunate in selecting from each what as a whole will place their Establishment on the most secure, judicious, and satisfactory footing both to the Proprietors and the assured.

The plan of this Society is to transact all its business on such terms as to leave, in all human probability, a small but certain excess of profit on the general results of its transactions. A small portion of that profit is set apart as a compensation to the Proprietors, who have advanced the capital necessary for defraying the unavoidable expense of the Institution, and who have pledged the Subscribed amount of their capital in order to afford that responsibility, which relieves the assured from any contingency of loss to which they might be liable without the intervention of such a guarantee.

The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but Members of the Military Service holding offices purely Civil, and subject to no extra risk, will be admitted to Assurance, or continuance of Assurance, at Civil rates of Premium, while engaged in duties purely Civil. In all cases it will be in the discretion of the Directors, whether to require the higher or the lower rate of Premium, and that discretion will be regulated by the circumstances of each particular case.

Persons assured with this Society for the whole term of life, will be entitled to three-fourths of the profits, after they shall have made five complete annual payments; in every subsequent year a similar division will take place the profits being estimated from the average of the five preceding years: thus one year's average profits will be annually divided. Separate Tables, both Military and Civil, have been adopted for the whole of life at reduced rates for such persons as may prefer a lower rate of premium to participation in the general profits.

Premiums are *ordinarily payable half-yearly in advance*; but Policy holders are at liberty to make arrangements with the Society to pay their Premiums in one *sum*, in annual or quarterly payments, or during a given number of years; viz. 5, 10, 15, or 20 annual payments. Many persons may wish to avail themselves of a present season of prosperity and at the latter course and although their contributions will thus cease with the expiration of the term they may fix upon, their share of the profits will continue to be added to their Policies annually during the remainder of life.

An insurer on a policy for a whole life having paid premiums in India for a period of not less than five years, shall on returning to England, be entitled to continue his policy on the payment of the English rates of the Society corresponding with the age at which he originally assured.

An insurer on a whole life policy shall be entitled on his return to England to continue a period less than five years, shall be entitled on payment of the Indian rate of premium the same at English rates in like manner on payment of the Indian rate of premium for one year after arrival in England.

In either case no reference will be had to the state of health of the party but the conditions of the assurance will be those of the Home Policies.

When application is made for assuring a life subject to more than ordinary hazard, an augmented Premium will be charged proportioned to the increased risk, which will be regulated by the strictest attention to justice between the Society and the assured, according to the circumstances of the case.

The parent Institution being in London, with a similar establishment in Calcutta for granting Policies, Premiums, as well as Claims, are payable in either country at the entire option of the Policy holder. The establishment of Sub-Agencies at Madras and Bombay, under the management of the Calcutta Branch, affords similar facilities to persons residing at either of the Sister Presidencies.

Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued on the date of the approval of the risk by the Directors; no assurance to be binding on the Society until the first premium shall have been actually paid to the Agents.

Every proposal for Assurance will be immediately attended to, and the Assurance completed generally within a few days after the application is made.

The accounts of this Society, after being investigated by auditors, chosen as well by the Assured as by the Proprietors, will be laid before a General Meeting to be convened for that purpose; in like manner the accounts of the Parent Society will be regularly transmitted to India for the same purpose, the India Branch enjoying reciprocal advantages with the Parent Society.

All Policies becoming Claims on the Society will be discharged within 3 months after proof of the Assured's death has been furnished to the Directors, either in London or Calcutta.

The Directors of the India Branch of the Society are empowered, after a lapse of any number of years, to treat for the purchase of Policies, or to advance, if required on any Policy by way of loan two-thirds of its estimated value, and also to appropriate the profits of the operation of the assured in the augmentation of the amount of Policies in diminution of the Annual Premiums, or in permitting them to accumulate till all further payment of Premiums becomes unnecessary.

All applications for assurance must be accompanied by a Medical Fee of Eight Rupees.

The Tables, Blank Forms, and other particulars requisite to enable persons to effect Assurances, may be had on application to the Agents.

By order of the Directors,
HALL, BAIRD & CO., Agents,
Madras Branch.

This Table is inserted as a guide to persons assured in India, under Tables Nos. 3 and 4.

MESSRS. HALL, BAINBRIDGE AND CO. Agents,
Madras Branch.

Instructions to Persons desirous of effecting an Assurance on their Lives in the Universal Assurance Society.

1.—The Person on whose Life the Assurance is to be effected must wait on his usual Medical Attendant with the accompanying letters, and transmit the same to the Directors of the Society agreeably to the instructions given.

2.—In case of the absence of the usual Medical Attendant, and the Certifying Surgeon cannot of his own knowledge answer the queries put to him as to the general habits of the person applying for assurance, such other Certificate or Certificates may be furnished as may be presumed calculated to satisfy the Directors.

3.—The Report of the Surgeon will be considered as strictly confidential. The

Official Medical Adviser of the Society will alone be consulted when the advisableness of any risk admits of doubt.

4.—An Affidavit, of which the form is annexed, must be taken before a MAGISTRATE, or, where there is no Magistrate before the PRINCIPAL CIVIL or MILITARY OFFICER OF THE STATION, or a solemn declaration according to the usual form made before either of the DIRECTORS or the AGENTS OF THE SOCIETY in CALCUTTA, MADRAS, or BOMBAY, as soon as possible after the party has appeared before the Surgeon for examination.

5.—Applicants being conscious of any of the diseases enumerated in the Declaration and Affidavit, may note the same that the Directors may consider whether an additional premium will cover the additional risk.

6.—Should the Directors agree to take a risk more or less objectionable, a rate of premium higher than ordinary will be stipulated for accordingly, to which the applicant may of course assent or not, as he may judge expedient. But whether a risk be altogether declined, or a rate of premium higher than the ordinary be proposed, the Officers of the Society are prohibited from offering any explanations on the subject.

7.—These instructions, with the declaration of the Medical Reporter, and the Affidavit or declaration hereunto annexed, must, when duly attested, be forwarded along with the report, without any unnecessary delay, to the Directors of the Society.

HALL BAINBRIDGE, AND CO.
Agents.

N. B.—Persons residing in or near Madras are also required to appear before the Medical Officer of the Society, Dr T. M. LANE.

CONDITIONS.

1.—The Payment of Premiums must be made within twenty-eight days after the day they shall become due, or the Policy will be void; but upon proof being given, to the satisfaction of the Managing Committee or Directors, that the party whose Life has been assured continues in good health, the Policy may be revived at any period within three months, on payment of a fine of one-half per cent. on the sum assured, or at any period within six months, on the payment of such fine as the Directors may think reasonable.

2.—Assurances shall be void if the parties whose lives have been assured shall, without having obtained the previous written consent of the Managing Committee or Directors for the time being, go to any of the excepted places enumerated to law, or enter into, or engage, in any Military, Maritime, or other hazardous service, or employment whatever, other than those declared regular professional duties or services; but no additional premium will be demanded from any assured proceeding on public duty in obedience to the orders of his superiors to any of the excepted places.

3.—If the assured shall die by duelling, by their own hands, or by the hands of justice, this Policy shall become void as far as respects such persons; but, in such cases, the Managing Committee or Directors are empowered to allow to the representatives of the persons so dying, any part of the sum assured as they shall think fit; the Assurance, however, shall remain in force so far as any other person or persons shall have acquired a bona fide interest therein, by assignment, or by legal or equitable lien; the extent of such interest to be proved to the satisfaction of the Directors.

4.—When the application for Assurance makes no mention of the date from which the Assurance is desired to take effect the Policy will be issued on the date of approval of the risk by the Directors. No Assurance to be issued on the Society seal and unless the first Premium shall have been actually paid to the Agents.

5.—In case of lapse of Life within the first six months of any year of the time covered by the Policy, the premium for the following six months, if not already paid, will be credited from the sum assured, it being agreed that premiums for the whole of every year shall be paid.

6.—Claimants must make proof of the decease of the person on whose life the Policy is effected, and give such other information respecting the same (particularly as to the cause or other occasion of death, &c.) as the Directors may reasonably require.

7.—No receipts are to be taken for any Premium of Assurance or Deposit, but such as are granted and issued from the Office, and signed by the Agents of the Society.

8.—The places excepted, and above referred to, are declared to be Arracan, the Sunderbunds of Bengal, Assam, and all places subject to periodical visitations of

the plague. Upon the lives of persons insured, resorting to any of the above excepted places, additional Premium will be demandable at the discretion of the Managing Committee or Directors.

FIRST NEW CALCUTTA LAUDABLE SOCIETY.

ESTABLISHED 1ST JANUARY 1835, FOR THE TERM OF FIVE YEARS.

B. Harding, Esq. } { Captain J. W. Ouseley,

Secretary.—James Cullen, Esq.

Agents, Madras.—Messrs. Biny and Co.

In conformity with Article 27th of the Regulations of the Seventh Laidable Society, this Society was established in succession thereto, for the term of 5 years from the 1st January 1833.

It is conducted under the Provisions, Rules, and Regulations, adopted at a general meeting of the members of the Seventh Laidable Society and Thirteenth Supplementary Laidable Society, held on the 20th, and published in the *Madras Gazette* of the 31st December 1834, printed copies of which may be had on application to the Secretary, as well as blank forms for effecting New Insurances. The Thirteenth Supplementary Laidable Society on its expiration on the 30th June, 1833, was embodied with this association.

The object of the Society is to provide a fund for the insurance of lives, whereby individuals may secure a provision for their families after their death, or creditors may guard themselves against loss, in the event of the decease of their debtors.

In its constitution this association differs from an office for the insurance of lives, (as such offices have been generally constituted in Europe,) in that the whole fund of the society accumulates for the benefit of the insured, and of them alone; and no insurer reaps a profit from the institution, and that the charges of management are regulated on so economical a scale as scarcely to form a sensible burden on the establishment.

The New Laidable Society is to be considered as having commenced on the 1st of January, 1833, and shall close its first term at 5 years' on the 31st of December, 1839, at mid-night; but the Society shall nevertheless be considered perpetual or subsisting and renewable from time to time, in periods of five, or such number of years as shall be agreed on hereafter, until a majority of the subscribers or shareholders, at any general meeting, called by public advertisement for the purpose, shall decide on its being brought to a final close.

" J. Brass	" R. E. Johnston
" J. D'Vaz	" B. Lacey
" J. Fonseca	" F. Orme, Esq.

SECRETARY AND TREASURER.

Mr. P. Cariburn.

This fund was established in March 1834, for the benefit of the Widows and Orphans of persons, not in the covenant service of Government, and who have no fund to look to, for making a provision for their families. The object is secured by the payment of a Donation, (equal to 2 years subscription,) as entrance money; and a Monthly subscription; and the benefit enjoyed by the Widow and Orphan, is equal to six times the amount of the monthly subscription. Its funds at present amount to about 34,000 Rupees, invested in Government Securities in the names of Trustees, and the only liability on it, at the end of its fifth year of existence, is a monthly pension of 30 Rupees paid to the Orphans of a deceased subscriber. Its subscription list is comparatively small, there being only seventy two subscribers at present in connexion with the Institution. It promises however to prove a great blessing to the East Indian Community, by whom it is to be hoped it will be more generally supported; especially, as it is the only Provident Society of the kind at Madras, for securing a maintenance to their families, in their hour of need and distress.

Chronological Table.

A. D.

- 1204 After the capture of Constantinople by the Crusaders, in the 4th Crusade, during their quarrel with the Greek empire, the Venetians, who had always partially competed with the Greeks for a share of Oriental trade, now obtained a grant of a portion of the Peloponnesus, with several of the best islands of the Archipelago. They soon secured to themselves a monopoly of that portion of the trade via the Euxine. But in 57 years, the Greeks rose in rebellion, and expelled the Latin emperor; and having been aided by the Genoese, they bestowed on them the suburb, Pera, at Constantinople, as a reward. This transferred the overland trade to the Genoese, and forced the Venetians to revisit Alexandria, and procure Indian articles by the Red Sea.
- 1453 The Turks conquered Constantinople; and by the expulsion of the Genoese from Pera, the Venetians enjoyed the whole trade: while Constantinople was no longer a mart for Eastern produce, nor open to the countries of the West.
- 1497 The Portuguese navigator, Vasco da Gama, doubled the Cape of Good Hope on the 20th November, and on the 22d May of the following year, arrived at Calicut on the Malabar Coast, returning by the same Cape to Lisbon, in September 1499.
- 1500 In consequence of Vasco da Gama's success, a Portuguese expedition, under Pedro Alvarez Cabral, arrived at Calicut, on the 13th September; formed the first European factory in India at that place, and returned to Lisbon on July 1st, 1501.
- 1501 In the homeward voyage, discovered the Island of St. Helena.
- 1503 Alphonso de Albuquerque erected the first European fortress in India, at Cochin, and re-established the Factory at Calicut; he settled a trade at Coulan, and a factory at St. Thome.
- 1506 Alphonso de Albuquerque, the founder of the Portuguese Eastern Empire, now commenced a career on a larger scale, with a squadron of 16 ships, having troops on board. He defeated the Tamerin of Calicut, formed a settlement at Goa, which he fortified, sailed to the Straits of Malacca, and took the place of that name in February, 1510; reduced the Molucca, and Banda islands, at that time the gardens of the East for cloves, nutmegs, &c. and at last in 1544, finally reduced Ormus, the chief seat of Persian commerce. In 12 years, he raised the Portuguese Empire in India to the greatest height it had ever attained; all the principal emporia from the Cape to the China frontier, an extent of 12,000 miles of coast, being in his possession.
- 1517 The Portuguese got possession of Point de Galle and Columbo.
- 1518 Albuquerque recalled. The decline of the Portuguese Empire may be dated from this event.
- 1527 An English merchant, Robert Thorne, long resident in Spain, asserted the practicability of a north-west passage to India. His attempt and six others, in the succeeding reigns, failed.
- 1530 Sultan Baber, the eighth in descent from Tamerlane, died near Agra. He had seized the empire, and re-established the dynasty of the Moguls. The Portuguese driven by the natives from Ternate.
- 1531 The Portuguese viceroy burned the principal towns from Dia to the Red Sea.
- 1536 They built a strong citadel, at Diu, by permission of the king of Cambaya.
- 1538 The Grand Seignior attacked the Portuguese at Diu from Suez, and failed; but at this time the increased military forces sent from Portugal to India evince the decline of their real power in the East. The natives were recovering from their first panic, and found their oppressors less formidable.

- 1542 The celebrated Father Francis Xavier, the Jesuit Missionary, arrived in India.
- 1558 Mr. Anthony Wilkinson, agent to the Russia Company, crossed the Caspian Sea into Persia, and opened a considerable trade for Eastern produce. In India, the Portuguese viceroy, Francisco Barreto, was succeeded for 4 years by Don Constantine Angauza, one of the royal family.
- 1569 Don Louis D'Ataide recovered, in great measure, the Portuguese power.
- 1563 Three British agents were employed in the Persian capital, and the traffic was flourishing. Before this time the Venetians had essayed to undermine and oppose the Portuguese ascendancy, but in vain; while the humiliation, at this period, of Venice itself, soon left Portugal without a competitor of any consequence.
- 1577 At length an Englishman, Francis Drake, son of a poor Kentish clergyman, with five ships and 164 seamen, sailed from Plymouth on the 13th December, commissioned by Queen Elizabeth. He passed the Straits of Magellan, ravaged the west coast of America, crossed the Pacific, touched at the Moluccas, and stopped at Ternate for some time, whence, after much friendly intercourse, he steered away for the Cape of Good Hope, and arrived at Plymouth on the 26th September, 1580. Drake entertained the Queen at Deptford, and was knighted.
- 1579 Again, in India, the Portuguese power was almost dissolved, and Don Louis D'Ataide was a second time sent as viceroy. His exertions were successful once more, but he soon died—in 1580.
- 1586 Thomas Cavendish sailed 21st July, 1586, with three ships, via Straits of Magellan, and visited, after capturing a Spanish merchantman, the Ladrones, and Philippines, acquiring much knowledge of the Indian Archipelago. He returned to Plymouth 9th September, 1588. This year the Portuguese took possession of Macao, as a station for the China trade.
- 1589 Divers English merchants petitioned the Queen for permission to make a voyage with three ships, and as many pinnaces, by the way of the Cape of Good Hope.
- 1591 A squadron sailed, under Captain Haymond, and from disease and a storm, it proved an abortive enterprise: only one officer, Captain James Lancaster, and a few seamen, returned.
- 1593—An Englishman, Stevens, went to Goa with the Portuguese by the way of the Cape of Good Hope. He wrote an account of his voyage.
- 1595 In the meantime, the Dutch, having gone round the hitherto interdicted Cape, openly opposed the Portuguese in the Eastern seas. They supplanted the Portuguese in the Spice trade; in a very few years expelled by force their rivals from the Moluccas, formed establishments at Java and Sumatra, and swept the Chinese and Pacific oceans with an overpowering force. During the year 1595, they took possession of the Maurilins, then first occupied, but abandoned it thirteen years afterwards. Bantam allowed to be occupied that year by the Dutch, as their first factory, as a reward from the king for their aid against the Portuguese.
- 1599 The English determining to keep pace with their rivals, an association of "Merchant Adventurers" was formed this year, a fund raised to be managed by a committee of 15 persons, and the Queen again more earnestly petitioned for a charter. Her Majesty referred it to her council, and John Middenhall, a merchant, was sent, via Constantinople, on an embassy to the Great Mogul. The first authentic deed of the Company is preserved, and is entitled "The names of such persons as have written with their own hands, to venture in the pretended voyage to the East Indies, (the which it maie please the Lorde to prosper,) and the somes that they will adventure, the xxij

- September, 1599." The fund subscribed was £30133 6 8 divided into 101 shares, varying from £100 to £5,000.
- 1600 A corporation formed in London entitled "Governors and Company of merchants of London trading to the East Indies." Their original petition, as now extant, stated that no "gentleman was to be employed in any place of charge." This corporation is the origin of the present Company, and of the British empire in India. Their capital was £70,000. There were 215 sharers, and the Earl of Cumberland at their head, forming the Company. The first Court of Committees or 17 Directors was held on the 28d September, 1600. The number was changed to 24, and then their first regular meeting was held on the 31st October.
- 1601 The earliest ship purchased was the Susan of 240 tons, for £1,600, thus the first Indiaman in the service. The Company fitted her out with three others, the Malice-scurge of 600 tons, the Hector of 200, the Ascension of 260, and a pinnace of 100 tons, freighted with cloth, tin, lead, cutlery, glass, amounting to £5,360, and with £28,742 in bullion. The fleet was commanded by Captain James Lancaster as "General or Admiral," and Captain Davies, second in command, called "Pilot Major," the latter to have £100 wages, £200 in credit, and if the voyage gave cent. per cent. £500 at the end, if 200 per cent. £1000, if 400 per cent. £2000. The scale of remuneration to Captain Lancaster or others does not appear. They sailed on the 2d May. The French this year endeavoured to obtain a footing in India, sending out three ships from St. Maloes, but they failed to reach their destination.
- 1602 Captain Lancaster, who had been furnished with general letters from queen Elizabeth "to the greates and mightie kings of—our loving brother greetings," arrived at Acheen, and formed with its king the first treaty of the Company in the East; with permission to settle a factory, our first establishment.
- 1603 The English fleet returned in September, having made a successful voyage. After touching at Acheen, they captured in the Straits of Malacca a Portuguese ship of 900 tons; then put into Bantam in Java, setting there a factory or "house of trade," from whence to England.
- 1604 King James granted a license to Sir Edward Michelborne and others, to trade to the East; the first violation of the exclusive privileges of the Company, who designated the parties interlopers or private traders. A French East India Company chartered this year; it failed, and was afterwards dissolved.

- 1606 Cloves purchased at Amboyna for £2948 13 sold afterwards in England for £36,287.

PROSPECTUS

OF

MRS. LIDDELL'S ESTABLISHMENT FOR YOUNG LADIES, MADRAS.

Mrs. LIDDELL begs to announce, for the information of Parents and Guardians residing at a distance from the Presidency, that it was her object, on arriving at Madras, to combine, if possible, the system of Education which is pursued at the best Schools of London and Paris, with the domestic comforts and arrangements of an English Family; and, after an experience of five years, the success which has attended her endeavours enables her to promise with confidence, to the Pupils entrusted to her care, all the advantages of a European Education.

The usual routine of Education consists of Instruction in the English and French Languages, History, Geography, Use of the Globes, Writing, Arithmetic, and plain and Ornamental Needle Work; to which are added, when required, Lessons on the Piano Forte, and Harp, and in Singing, Italian, Drawing, and Dancing.

In order to divest her Pupils, and more particularly the younger ones, of the peculiarities of phraseology and pronunciation, which are so readily acquired by children in India, the use of the Native Languages is entirely prohibited in the Establishment; and, in the study of the English Language, constant pains are taken to impress upon the Pupils the importance of giving every syllable its full and distinct pronunciation.

French is included in the general course of study, as it now forms a necessary portion of Polite Education, and has been found, by long experience, to greatly facilitate the acquisition of the grammatical construction of the English Language.

The promotion of health being of paramount importance, a commodious and airy House has been chosen, with an extensive play-ground, in which daily exercise is strictly enjoined; and it will be satisfactory for Parents to know that only one Table is kept, where great attention is paid to the behaviour and manners of the Pupils, and at which Mrs. LIDDELL invariably presides.

In conclusion, Mrs. LIDDELL begs to observe that it is her constant endeavour to instil religious principles into the minds of the young Ladies entrusted to her charge; and, by the daily exercises of devotion, and regular attendance at Divine Worship in the Established Church, to lay the surest groundwork for that moral character which all parents desire that their children should possess.
