ADVERTISMENT.

With reference to the following pages of Astronomical matter, it is proper to state, that they are mostly due to the Nautical Almanac, from which, by interpolation, the several values have been adapted to the meridian of the Madras Observatory. From the latest observations, the Observatory appears to be situated in

	h. m. s.	°	′	″	
Longitude	5 21 8.8 =	80	17	12	East of Greenwich.
Latitude		13	4	8,5	North.

The meteorological results and remarks have been derived from forty years uninterrupted observations at the Madras Observatory, and as far as an average of observations of this nature can agree with its constituent values, so nearly may the several results here given, be relied upon to represent the expectations of the year.

The places of the fixed stars have been deduced from the Catalogue of 2831 stars given in the 2d Vol. of the Madras Results.

MADRAS OBSERVATORY,
20th September 1843.

During this month the wind blows uniformly and steadily from N. E. with occasionally an inclination towards the East about the middle of the day in the shape of sea breeze. In the mornings for the most part heavy dew is deposited, and occasionally fog, which reaches only two or three feet above the surface of the ground. The weather is mostly very serene, presenting about twenty days of uninterrupted clearness and five of haze or mist, the remaining days being cloudy, with perhaps a single shower of rain. Lightning is almost unknown in this month.

Jupiter, by reason of his proximity to the Sun, is invisible at the beginning of the month, but may be seen at a later period towards the east, a little before sun-rise.

		H.	M.	
Rises on the	1st at	4	9	Morning.
——	15th at	3	10	Morning.

Georgium arrives at conjunction with the Sun on the 24th: remains invisible throughout the month.

Throughout this month the South or alongshore wind with very unequal force prevails: it is accompanied with a profuse dampness and sultriness, which renders its effects highly prejudical to health and comfort. On this account the sea breeze which sets in at noon and blows till 10 P. M. is less courted than at other seasons: the sky is however beautifully clear for about twenty-seven days, the remaining four being cloudy. Dew is frequently observed, and is less in quantity than last month. Rain and lightning are little known.

The hottest time of the day is at 0h. 22m. P. M.; the coldest at 5h. 0m. A. M.

Dew is very little in quantity and of infrequent occurrence.

The hottest time of the day is about noon; the coldest at 44 50m. A. M.

The South wind which is mentioned as peculiar to the two last months, continues till the middle of this month, relieved sometimes by a land wind from the W. or W. N. W.: in this interval gales of wind of extreme violence have occasionally been experienced, commencing their career generally at the N. W. and veering to every point of the compass. About the 15th, the regular land or sea winds set in, which are moderated in their effect towards the end of the month by occasional showers. The sea breeze sets in about noon and blows till 9 or 10 P. M. There are about nineteen days of clear weather, eight of flying clouds and haze, and four cloudy days, on two or three of which there is rain. The dew is almost imperceptible, and lightning with thunder occurs about four times. The hottest time of the day is at 1h. 30m. P. M.; the coldest at 5h. 30m. A. M.

* In this statement the rain which fell during four gales of wind has been omitted. On the 3d May 1811, during the gale which then blew, there fell 5.5 inches; on the 8th, 9th and 10th May 1809, 11.00 inches; on the 7th, 8th and 9th May 1807, 23.37 inches; and on 19th May 1811, 2.6 inches.

Calms, haze, and rain occur in about the same proportions as last month, having about eight days of clear weather. Lightning unattended by thunder is very frequent, but thunder-gusts occur only about once or twice. The sea breeze maintains nearly the same character as that experienced last month, commencing at 2 P. M. and continuing till 9 or 10 P. M. New formations decrease, but more frequently fails. The land-wind sets in at 10 P. M. and ceases at 10 A. M.

The clouds now begin to assume a more dense appearance than heretofore. Calms, lightning and rain are very frequent till the 19th, when the N. E. Monsoon, or rainy season, sets in. From this time till the end of the month, the atmosphere assumes a very disturbed appearance; extremely heavy rain with storms of wind, thunder and lightning invariably occur, and gales of wind of a similar nature to those which occur in the earlier part of the year* are sometimes experienced. On these occasions a depression of the barometer of 3 or 5 tenths of an inch is observed. The sea breeze, or rather a slight modification of the N. E. wind, is perceived towards the middle of the day.

The hottest time of the day is at 1 p. m.; the coldest at 4h. 56m. A. M.

* See remark for month of May.

The N. E. Monsoon continues with unabated force, and the state of the weather generally is much the same as that experienced towards the end of last month, save that an increased dampness of the air and the less frequent occurrence of lightning renders a distinction necessary. The number of clear and cloudy days in this as well as in last month, is liable to great uncertainty.

The remarks relative to the sea breeze of last month apply equally to this. The hottest time of the day is at 0h. 20m. P. M.; the coldest at 5h. 40m. A. M.

The heavy rains and violent gusts of wind are much moderated at the beginning of the month, and arrive at their close about the 15th: from this time the sky assumes an appearance of tranquility and clearness, which forms a strong contrast with the disturbed state of the preceding month; the N. E. wind, however, continues throughout the month without interruption. There are about thirteen clear days, eleven cloudy, and seven days of lying clouds and haze: of these there are six days on which rain falls. The morning exhibits a copious deposition of dew, and sometimes a ground fog which does not reach more than two or three feet above the surface. The sea breeze sets in at 10 A. M. and blows till 4 P. M.

The hottest time of the day is one hour, P. M., the coldest 2h. 30m. A. M.

EXPLANATORY NOTES FOR THE YEAR.

1. DOMINICAL LETTER.—The seven days of the week, reckoned as beginning on the 1st of January, are designated by the first seven letters of the alphabet, A, B, C, D, E, F, G; and the one of these which denotes Sunday is the *dominical* letter. Thus, if the year begin on Sunday, A is the dominical letter; if it begin on Monday, that letter is G; if on Tuesday, it is F; and so on generally. To find the dominical letter, call New Year's Day A, the next day B, and so on till you come to the first Sunday, and the letter that answers to it is the dominical letter. If there were 364 days, or exactly 52 weeks in the year, the dominical letter would be always the same; but the year contains 365¼ days,—an excess of 1¼ day over the 52 weeks. The day is taken into the account every year, and the one-fourth makes a day in every four years; so that the dominical letter falls backward *one letter* for each of the three years in which the date or number of the year cannot be divided, without remainder, by 4, and *two letters* every fourth year, when the date can be so divided; as in the year 1828, it was divisible by 4, and, therefore, February contained 29 days. The year began on Tuesday; count forward Tuesday is Sunday, inclusive, is six days; and the sixth letter from A inclusive is F. Therefore, at first F is the dominical letter; but the 29th of February, which was added, or *intercalated*, threw the 1st day of March a day later in the week than it would otherwise have been; and, therefore, the Sunday letter for March and all the remaining months was E. The years which have the 29 days in February, and the two dominical letters, are called *bissextiles*, for the reason already given, or *leap years*; because the day of the month, after February, *leaps* over a day of the week. In law, the 28th and 29th of February are accounted *one day*.

2. THE GOLDEN NUMBER.—At the end of every nineteen years, the new and full moons happen at very nearly the same times of the year. The ancients discovered this, and reckoned the nineteen years, or "cycle of the moon" as it is called, so that it terminated the year before the Christian era. The cycle was marked by the Greeks with letters of gold. Therefore, to find the golden number, or number of the year in this cycle, add 1 to the date, divide by 19, the quotient is the number of cycles of the moon since the birth of Christ, and *the remainder is the golden number*. For example, if the year were 1828, add 1, is 1829, divide by 19, is 99 cycles, and there remains 5, *the golden number* for that year.

3. THE CYCLE OF THE SUN is the number of years that elapse before the Sundays throughout the year happen on the same days of the month. If there were 364 days in the year, that would happen every year; if 365, it would happen every seventh year; but because the one-fourth of a day makes an alteration of a day every fourth year, the cycle must extend to 28 years. Nine years of this cycle had elapsed before the birth of Christ; therefore, to find the cycle of the sun, add 9 to the date, divide by 28, the quotient is the number of cycles since the birth of Christ, and the remainder is the cycle of the sun; as, for the year 1828, add 9, is 1837, divide by 28, the quotient is 65 cycles, and the remainder is 17, the cycle of the sun.

4. THE EPACT is the moon's age for the first day of January, or the *equation* between the beginning of the solar and the lunar year. The time from one new moon to another is about 29½ days. Thus there are, in a year, twelve revolutions of the moon, and 11 days over, therefore, the twelfth new moon will take place 11 days earlier each year than it did the year before. In the lunar cycle of 19 years, there are 12 new moons in each, of 12 and 13 in each of 7; because the 11 days of yearly difference in three years exceed a lunar month by 3½ days. If it were not for the odd minutes and seconds, the age of the moon on the 1st of January could always be found by multiplying the golden number by 11, and dividing by 30; then the remainder would be the *epact*, or age of the moon on the 1st of January. The following method will answer for the age of the moon's age on the 1st of January, till the end of the present century. Take 4 from the golden number, multiply what is left by 11, divide by 30; the remainder is the *epact*, or moon's age, on the 1st of January: as for 1828, the golden number is 5,—take away 1, leaves 4; multiply by 11, is 44; divide by 30, remains 14, the *epact*, or moon's age, on the 1st of January.

5. THE NUMBER OF DIRECTION is the number of days after the 22d of March, including both days upon which Easter Sunday takes place. For instance, the Number of Direction for 1828 is 16, Easter Sunday is April 6, being 16 days inclusive from March 22.

6. EASTER is directed to be celebrated on the 1st Sunday after the full moon that happens next after the 21st of March; which being the fourteenth day of the first Jewish month, corresponds to their first day of the week after the Passover, the anniversary of the resurrection of Christ. The time at which this day must happen varies with the year; but the limits within which it must fall, are the 22d of March, and the 25th of April inclusive, making a period of 35 days.

In order to find Easter, the first thing to be done is to find *Easter-limit*, that is, the number of days after the first of March, on which the full moon, preceding Easter, shall happen. To do this, add 6 to the epact, and subtract the sum, if less than 30, or the remainder when 30 is taken away; if more, from 50: the remainder is the day after the first of March, on which the full moon, preceding Easter, happens. Thus, for 1828, the epact was 14, add 6 is 20, subtract this from 50 leaves 30 days after the 1st of March, when the full moon preceding Easter took place, which was the 31st, or last day of March, when the following Sunday was Easter-day. To find the day itself, add 4 to the number of the dominical letter; subtract the sum from the limit, and the remainder, from the next number of 7s that is greater than itself; this last remainder, added to the limit, will give the number of days from the first of March to Easter-day, including both: if less than 31, it will show on what day of March Easter fell, and if greater, take 31 from it, and the remainder will show upon what day of April. Thus, for 1828, the dominical letter was F., the number of which is 5; add 4 to 5 is 9; take this from 30 (the limit) leaves 21; take this from 28, (the number of 7s next greater,) there remains 7; add this to 30, (the limit,) gives 37 days from the first of March to Easter, both included; take 31, (the days in March,) from 37, leaves 6; therefore, Easter-day fell on the 6th of April.

On what day did it fall in 1829?

The Dominical letter for that year was D.

The Golden number: 1829—19 leaves 6; then 6—1=5×11=55—30 leaves 25, *the epact*.

Then for *Easter-limit*.

25+6=31, take away 30 leaves 1; and 50—1=19 days after the first of March is the Easter full moon. Again:

Dis 4, add 4=8 and 49—8=41, 42—41=1, and 49+1=50 days from March 1st is Easter, including both. Take away 31 for March, leaves 19, the day of April on which Easter happened in 1829.

The reasons of some of the calculations here are omitted, as they would have swelled the article to too great a bulk.

7. THE ROMAN INDICTION. The cycle of indiction has no connection with the motions of the Sun and Moon, further than its consisting of 15 years. It was established by the Emperor Constantine, in the year 312, to regulate certain payments by the subjects of the empire: therefore, to find it for any year, subtract 312 from the date, divide by 15, and the remainder is the Indiction; as from 1828, subtract 312, leaves 1516; divide by 15 leaves 1, the Roman Indiction.

8. SEPTUAGESIMA SUNDAY is the ninth Sunday before Easter.

9. SHROVE SUNDAY is the seventh before Easter.

10. WHIT SUNDAY is the seventh after Easter.

11. TRINITY SUNDAY is the eighth after Easter.

12. ADVENT SUNDAY is the Sunday nearest the 30th of November, whether before or after.

When Easter is known, any of the days that depend on it can be easily found. As for 1828, Easter was April 6, Whit Sunday was 7 weeks, or 49 days, after; then 6 from 30 (days in April) leaves 24: 24 from 49 leaves 25; therefore, Whit Sunday 1828, was the 25th of May.

THE DAYS OF THE CALENDAR.

JANUARY.

1. *Circumcision.*—This festival was originally called the Octave of Christmas, and the first mention found of it is in the year 487. It was instituted by the Church, to commemorate the ceremony under the Jewish law to which Christ submitted, on the eighth day of the nativity; and was introduced into the Liturgy of the Church of England in 550.

6. *Epiphany.*—The word epiphany signifies *appearance* or *apparition*. This festival is kept in commemoration of the "manifestation" of the Saviour of mankind to the Gentiles, and appears to have been first observed, as a separate feast, in the year 813. The primitive Christians celebrated the Feast of the Nativity for twelve days, observing the first and last with the greatest solemnity. From the circumstance of this festival being twelve days after Christmas it is vulgarly called "Twelfth day."

8. *Plough Monday* is the first Monday after the Epiphany, and received this appellation from its having been fixed upon by our forefathers, as the period when they returned to the duties of agriculture, after the festivities of Christmas.

30. *King Charles the First's Martyrdom.*—The death of Charles I. is celebrated as a fast in the Church.

FEBRUARY.

2. *Purification, or Candlemas.*—This is a festival of the Churches of England and Rome: by the latter it is observed with great pomp. The name is derived from the ceremony which the Romish Church dictates to be observed on this day, namely, a blessing of candles by the clergy, and a distribution of them amongst the people, by whom they are afterwards carried lighted in solemn procession. The more important observances were of course given up in England at the Reformation; but it was still, about the close of the eighteenth century, customary in some places to light up churches with candles on this day.

4. *Septuagesima Sunday.*—Septuagesima Sunday is a Sunday dependant upon Lent, as that season is upon Easter. It is to be considered as the preparation for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of Quadragesima, and the three weeks preceding having been appropriated to the gradual introduction of the Lent fast, the three Sundays of these weeks were called by names significant of their situation; and reckoning by *decades* (tenths), the Sunday preceding Quadragesima received its present title of Quinquagesima, the second Sexagesima, and the third Septuagesima.

14. *St. Valentine.*—The *practice* of "choosing a Valentine," as it is called, on this day, is too well known to need explanation. The origin of this custom has been much controverted: it is indisputably of very ancient date. Valentine was a Bishop of the Church, who suffered martyrdom under Claudius II. at Rome, A. D. 271.

20. *Shrove-Tuesday.*—This festival may occur on any day between the 2d of February and the 8th of March, being the day antecedent to that commencing Lent. (In the present year it falls on the 20th of February.) Throughout Christian Europe, it has been customary, from early times, to preface the solemnity and sober living of the forty days of Lent with one, two, or more days of unlimited merriment, sport, feasting, and playing of practical jokes, as if men were anxious to season themselves for what they felt to be a period of dulness, by giving themselves the full gust of satiety with every thing cheerful. In Rome, as is well known, this merry prologue to Lent is called the Carnival, meaning the farewell to flesh—no such food being used during the ensuing forty days. In England, the same period is styled Shrove-tide, from its being customary, in an early age, for the people to confess their sins, and be *shrived*, or *shrove*, at that time. They also had the name of Collop-Monday for the day before Shrove Tuesday, while Ash-Wednesday was the title of the first day of Lent. In Scotland, where no religious observance of this season has been in use for centuries, Shrove-Tuesday is slightly known as St. Fasten's Eve or Fastren's E'en.

21. *Ash-Wednesday.*—The primitive Christians did not commence their Lent, until the Sunday now called the first in Lent. Pope Felix III. in the year 487, first added the four days preceding the old Lent Sunday, to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which gives it the name of *Dies Cinerum* or Ash Wednesday. At the Reformation, this practice was abolished, "as being a mere shadow, or vain show."

25. *Quadragesima, or first Sunday in Lent.*—Ercombert, King of Kent, first appointed the fast of Lent in England, in the year 641. Succeeding generations marked the distinctions between the various foods. We find flesh to have been early prohibited during Lent, though Henry VIII. published a proclamation, in 1543, allowing the use of *white meats*, which continued in force until, by proclamations of James I. in 1619, and 1625, and by Charles I. in 1627 and 1631, flesh was again wholly forbidden.

MARCH.

17. *St. Patrick.*—St. Patrick, from the eminent services he rendered the Irish in converting them from idolatry, is called the Apostle and Father of the Hibernian Church, and is the patron or tutelar saint of that island.

25. *Annunciation or Lady Day.*—The reformed Church celebrates this day as a joyful festival, from the connexion between the circumstance commemorated, and the incarnation. "Our Lady" is the ancient and popular name of the Virgin Mary.

31. *Palm Sunday.*—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. In the ancient Church, Palm Sunday, with the whole of the week which it commences, was held in strict devotion, and observed with greater rigour, as to fasting and humiliation, than any other part of the Lent season. The festival commemorates our Saviour's triumphal entry into Jerusalem when branches of palm were spread before him.

APRIL.

6. *Maunday Thursday.*—The name of Maunday Thursday has occasioned some trouble to antiquaries. Denton conceives *Maunday* to be corrupted from the *mandate* of our Saviour to his disciples, "Do this in remembrance of me," or from his other mandate, after he had washed their feet, to "love one another."

With better reason it is thought to be derived from the Saxon word, *mand*, which afterwards became *maund*,—a name for a basket, and subsequently for any gift or offering contained in the basket. Thus Shakspeare says, "A thousand favours from her *mand* she drew;" and Hall, in his "Satires," speaks of "a *maund* charged with household merchandise." So also Drayton tells of "a little *mannd* being made of osiers small."

"Maunday Thursday," says Archdeacon Nares, "the day preceding Good Friday, on which the King distributes alms to a certain number of poor persons at Whitehall, is so named from the maunds in which the gifts were contained." These gifts consist of the provisions, clothing, and the well-known maundy-money presented by the Sovereign on this day to as many old men and women as he may be years old, at the Chapel Royal, Whitehall. Anciently, on Maundy Thursday, the Kings and Queens of England washed and kissed the feet, also, of as many poor men and women as they were years old, besides bestowing their maundy on each. This was in imitation of CHRIST'S washing his disciples' feet. Queen Elizabeth performed this at Greenwich when she was 30 years of age, on which occasion the feet of the same number of poor persons were first washed by the yeomen of the laundry, with warm water and sweet herbs, afterwards by the sub-almoner, and lastly by the Queen herself, the person who washed making each time a cross on the pauper's foot, above the toes, and kissing it. The ceremony was performed by the Queen, kneeling, being attended by 30 ladies and gentlewomen. Clothes, victuals, and money were then distributed among the poor. James II. is said to have been the last of our monarchs who performed this ceremony in person. It was afterwards performed by the almoner. This day was also called *Shere* Thursday, and by corruption *Cheer* Thursday. Shere Thursday signified that it was the day on which the clergy were wont to shere, or shear their heads, or get themselves shaven or shorn, and to clip their beards against Easter day. In the Legend of St. Brandon, it is related that he sailed with his monks to the island of Sheep, "and on Shere thursdaye, after supper, he washe their feet and kyssed them, lyke as our Lorde dyd to his disciples."

3. *Good Friday.*—From the earliest records of Christianity, this day has been held as a solemn fast, in remembrance of the Crucifixion. Its appellation of *Good* appears to be peculiar to the Church of England. Our Saxon forefathers denominated it Long Friday, from the length of the offices and fastings on that day.

5. *Easter Day.*—Easter (from the Saxon *oster*, rising, referring to the Resurrection) is observed with much ceremonial, not only throughout Catholic Europe, and in the countries where the Greek church is established, but in Turkey and the Mohammedan countries along the coast of Africa. The festival is an engraftment upon the Jewish Passover, the name of which (*pascha*) is still applied to it in almost every country besides England.

23. *Saint George.*—Edward III. at the battle of Cressy, in the year 1347, joined to England's then supposed principal guardian, St. Edward the Confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year, the order of the Garter was established, dedicated to St. George, and the saint himself has, from that period, been considered as protector of England.

25. *St. Mark the Evangelist.*—On this day the reformed Church holds a festival in commemoration of the benefits the Christian religion has received from the exertions of this Evangelist.

MAY.

1. *St. Philip and St. James.*—The Church, on this day, commemorates the sufferings of St. Philip; and also of St. James the Less, the first Bishop of Jerusalem.

12. *Rogation Sunday.*—Rogation Sunday received and retains its title from the Monday, Tuesday, and Wednesday immediately following it, which are called *Rogation Days*, derived from the Latin *rogare* to beseech. The earliest Christians appropriated extraordinary prayers and supplications for those three days; a preparation for the devout observance of our Saviour's Ascension, on the day next succeeding to them, denominated Holy Thursday, or Ascension Day. The whole week in which these days happen is styled Rogation Week; and in some parts it is still known by the other names of Crop Week, Grass Week, and Gang or Procession Week. The perambulations of parishes are made in this week.

16. *Ascension-Day or Holy Thursday*, is the day on which the Church celebrates the ascension of our Saviour, the fortieth day after his resurrection from the dead.

26. *Whit Sunday.*—On this day is celebrated the descent of the Holy Ghost upon the Apostles, in the visible appearance of fiery cloven tongues, and in those miraculous powers which were then conferred upon them. Whitsuntide is seven weeks after Easter.

JUNE.

2. *Trinity Sunday.*—Trinity Sunday is a festival observed by the Latin and Protestant Churches on the Sunday next following Pentecost, or Whitsuntide, of which, originally, it was merely an octave.

24. *St. John the Baptist—Midsummer day.*—Considering the part borne by the Baptist in the transactions in which Christianity is founded, it is not wonderful that the day set apart for the observance of his Nativity should be, in all ages and most parts of Europe, one of the most popular of religious festivals. It enjoys the greater distinction that it is considered as Midsummer day, and therefore has inherited a number of observances from heathen times.

29. *St. Peter the Apostle.* The feast of St. Peter was instituted in the year 813, perhaps to celebrate the martyrdom of the Apostle, who suffered at Rome about 64.

JULY.

25. *St. James.*—This apostle is called James the Great, to distinguish him from the other apostle, who is called the Less.

AUGUST.

1. *Lammas Day.*—Lammas is one of the four cross Quarter-days of the year, as they are now denominated. Whitsuntide was formerly the first of these quarters, Lammas the second, Martinmas the next, and Candlemas the last; and such partition of the year was once equally common with the present divisions of Lady-day, Midsummer, Michaelmas, and Christmas. Some rents are yet payable at these ancient quarterly days in England, and they continue generally in Scotland.

24. *St. Bartholomew the Apostle.*—The proper name of this apostle was Nathaniel, by which, and not by that of Bartholomew, he is mentioned by St. John. The festival of St. Bartholomew was instituted A. D. 1130.

SEPTEMBER.

21. *St. Matthew.*—This Evangelist's festival is of great antiquity.

29. *St. Michael.*—This festival was in the year 487 established in honour of Michael, the reputed guardian of the Church, under the title of "St. Michael and all Angels."

OCTOBER.

18. *St. Luke the Evangelist.*—The festival held in commemoration of this Evangelist, was first instituted by the Christian Church in the year 1130.

28. *St. Simon and St. Jude Apostles.*—The two Apostles, St. Simon and St. Jude, are jointly commemorated by the Church on this day, as appears to have been the usage from the year 1091, when their feast was first instituted.

NOVEMBER.

1. *All Saints.*—All Saints, or All Hallows, in the Protestant Church, is a day of general commemoration of all those saints and martyrs, in honour of whom, individually, no particular day has been expressly assigned.

4. *King William landed.*—"On the 3d of November," says Burnet, who was in the fleet, "we passed between Dover and Calais, and before night saw the Isle of Wight. The next day the 4th, being the day on which the Prince was both born and married, he fancied, if he could land that day, it would look auspicious to the army, and animate the soldiers; but others, who considered the day following was Gunpowder Treason day, thought our landing that day might have a good effect on the minds of the English nation. 'And Divine Providence so ordered it, that after all hopes of our landing at Torbay were given up, and Russell bid me *go to my prayers for all was lost*, the wind suddenly shifted, and carried us into the *desired haven*. Here the Prince, Marshal Schomberg, and the foot soldiers, landed on November the 5th." The Almanac is thus at variance with the historian.

5. This day is commonly called *Gunpowder Treason*, and has been kept as an anniversary in commemoration of the great plot of 1605.

11. *St. Martin.*—This anniversary is still one of the four cross Quarter Days.

DECEMBER.

1. *Advent Sunday.*—Advent in the Calendar properly signifies the *approach of the Feast of the Nativity*. It includes four Sundays, the first of which is always the nearest Sunday to Saint Andrew, whether before or after. Advent was instituted by the Council of Tours, in the 6th century.

25. *Christmas Day.*—Christmas Day is a festival of the Church, universally observed on the 25th of December, in memory of the Nativity of our Saviour; and it has been denominated Christ*mass*, from the appellative Christ having been added to the name of Jesus, to express that he was the Messiah, or the Anointed.

26. *St. Stephen.*—He was the *first Martyr* to the Christian faith. Lardner and Doddridge think his death was rather the effect of popular fury than the result of a legal sentence.

27. *St. John the Evangelist.*—This day is observed as a festival by the Reformed Church in commemoration of this distinguished Apostle and Evangelist.

28. *Innocents.*—This festival is kept to commemorate the slaughter of the Jewish children by Herod. This is also called *Childermas Day* (from child and mass,) on account of the *masses* said in the Romish Church for the souls of the Innocents.

THE PLANETARY SYSTEM.

The planetary system includes all those heavenly bodies which change their place in the firmament with respect to each other, and which revolve in orbits round the sun as the centre of their motion; and when the sun himself is included in the number, the whole assemblage is denominated the Solar System.

When we look at the general assemblage of stars in a clear night, we soon perceive that, though they all appear to rise and set, by far the greater number of them maintain the same relative position with regard to each other. These are, therefore, called fixed stars. But among them we shall find a few which continually change their places in the general system, and appear to move not only among the other glittering bodies, but with regard to each other; being sometimes in company, sometimes widely separated, and at other times they are altogether invisible, as is the case also with our moon. These are termed Planets, from a Greek word which signifies, a wanderer. They are nine and twenty in number, exclusive of comets, and consist of eleven primary planets, and eighteen secondaries, satellites, or moons: the former revolve round the sun as a centre, and the latter round the primaries to which they belong, and accompany them in their annual journey round the sun. The two planets whose orbits are within that of the earth, (Mercury and Venus) are termed inferior, or interior planets; and all the others, whose orbits are beyond that of the earth, are called superior, or exterior planets.

At first view, and to common observation, all the fixed stars and planets, and even the sun itself, appear, from their rising and setting, and progress through the heavens, to perform a daily revolution round the earth. But there is nothing in which the senses are more liable to be deceived than in what relates to bodies in motion; and from various considerations, it is now rendered in the highest degree probable, that these general appearances are owing to the rotation of the earth upon its own axis, once in every twenty four hours. This principle lies at the foundation of the true system of astronomy, and without it the changes which are daily observed, and which have long been calculated and predicted with so much accuracy, cannot possibly be accounted for.

According to the Newtonian philosophy, now generally prevalent among astronomers, the motions of the planets round the Sun, as the centre of the system, is occasioned by the combined operation of two forces impressed upon them by the Creator at the commencement of time. The projectile or centrifugal force alone would have propelled them in straight lines: but the sun possessing and exerting an attractive or centripetal force upon these bodies, counteracts the projectile force, and occasions them to revolve around him in orbits nearly circular. Nothing within the range of our observation is more demonstrative, on a great scale, of the wisdom and power of God, than the adjustment of these antagonist forces in the planetary system: the least excess or deficiency in the one or the other would have occasioned confusion and dismay; the planets would have either run off into infinite space, or been drawn from their courses to the body of the sun: but now, even the variations in their rate of motion, and slight deviations in their path, can all be accounted for, and shown to be in perfect harmony with the general system.

The orbits of the planets are not exactly circular, but elliptical, being somewhat longer in one direction than another. An ellipsis, or oval, has two centres, as every person knows who has had occasion to draw one; and mathematicians have shown that a body placed at one of these centres, or foci, will exert its influence on surrounding bodies in the same manner as if it were in the centre of a circle, with this difference, that when the revolving body is at the end of the ellipse nearest the focus, it will move more rapidly than when at the other extremity; and this will account for the different velocities observable in the motions of the planets in different parts of their orbits.

It is a principle in the Newtonian philosophy, that all matter is endowed with the power of attraction, so that every particle of it attracts, and is attracted by, every other particle; and that the measure of this force is in exact proportion to the quantity of matter each body contains, and operates in the inverse ratio of the squares of the distances, decreasing as the squares of the distances increase: so that if a body exert a certain force, or produce a certain effect, at the distance of one yard, it would produce only one fourth of it at the distance of two yards, and so on. As the sun, then, acts upon the planets, and the planets upon the sun, and upon each other, in the direct and inverse ratios that have been mentioned, and as the relative positions and distances of these bodies are continually changing, there is a constant tendency to irregularity in the general system, arising from the mutual operation of these bodies upon each other. The calculation of these disturbing forces, and of the effects they produce, is one of the most difficult problems in the science of astronomy. Yet so nicely are these contending influences balanced and adjusted; so well are all tendencies to disorder provided for, checked

or counteracted, that the harmony of the universe is unbroken; and the knowledge of these facts increases our admiration of the great Governor of all.

MERCURY.

Mercury is the nearest planet to the sun: it emits a very bright light, and yet from its nearness to the sun, it is so often lost in the splendour of that great luminary's beams as to be but seldom visible to us. The measure of a planet's apparent distance from the sun is called its *elongation*: the greatest elongation of Mercury is not more than 28 degrees, or about as far as the moon appears to be from the sun on the second day after new moon. In some of its revolutions, the elongation is not more than 18 degrees, one tenth of a semicircle. Mercury is computed to be 37 millions of miles from the sun, and to revolve round him in 87 days 23 hours and nearly 16 minutes, which is the measure of its year—one-fourth of ours. On account of its apparent swiftness, this planet, in ancient times, received its name from the fabled messenger of the gods. Its diameter is about 3000 miles, and its motion in its orbit 110,660 miles per hour: the disc of the sun would appear from it about seven times the size it does to us. Mercury, like the moon, changes its phases according to its several positions with respect to the sun and earth. He never appears quite round or full, because his enlightened side is never turned directly towards us, except when he is so near the sun as to become invisible. The most favourable times for observation are when the planet passes before the sun, or makes what is called a *transit* across his disc. M. Schroeter has discerned mountains in Mercury; and fixes the period of his rotation on his axis, that is, the length of his day, at 24½ of our days.

VENUS.

This planet is the brightest, and in appearance the largest of all the primary planets visible above us, though in reality much smaller than some of them. Her light is so considerable, that in a dusky place she sometimes projects a sensible shade. The diameter of Venus is about 7,700 miles; according to Herschel, more than 8,000; her distance from the sun 59 millions of miles; her year, or the period of her revolution round the sun, 224 7/10 days; and her rate of motion more than 80,000 miles an hour. She is never seen farther from the sun than 48 degrees, and is visible only three or four hours in the morning or evening, as she is before or after the sun. In the former case, she is called phosphorus or lucifer, or the morning star; in the latter, hesperus or vesper, or the evening star. From her surface, the sun would appear almost twice as large as he does to us. When viewed through a telescope, Venus is seldom seen with a full face; but has changing phases, like the moon, from the fine thin crescent to the enlightened hemisphere. The illuminated part is constantly turned towards the sun; and hence its horns are turned towards the east when it is a morning star, and towards the west when it is an evening star. The transits of Venus over the sun's disc occur but seldom: there was one in 1761, and another in 1769: the next will be in 1874. M. Schroeter has measured the altitude of some of the mountains in Venus, and finds them much higher than any on the earth's surface. The length of her day is about 23 hours 20 minutes.

THE EARTH AND MOON.

The third planet in order from the sun is our earth, accompanied by the moon, and revolving in its orbit, at the distance of about 95 millions of miles, in about 365¼ days, at the rate of nearly 70,000 miles per hour. It turns round upon its axis from west to east in 24 hours, which occasions the apparent diurnal motion of the sun and all the heavenly bodies round it from east to west in the same time. Its axis is inclined 23½ degrees to the plane of its orbit, and keeps in the same direction throughout its annual course, which causes the return of the seasons, with all their beneficial and agreeable vicissitudes.

The moon.—Next to the sun, the moon is, in our view, the largest and most splendid body in the heavens; not on account of her size, for she is much smaller than most of the primary planets, but on account of her nearness to us. To a spectator in the sun, she would be scarcely visible without the aid of a telescope. The diameter of the moon is 2,160 miles; and her distance from the earth, round which she revolves in an elliptical but irregular orbit, is 240,000 miles. Moving at the rate of about 2,300 miles in an hour, she goes round the earth in 27 days 7 hours 43 minutes, and revolves upon her axis in the same period. As the earth is advancing in her orbit round the sun during the moon's revolution, the period from change to change, or from one new moon to another, is extended, and consists about 29 days and a half. Nothing can be more variable than the appearances of the moon; and the inequality of her motions is as great as the variety of her phases. She comes to the meridian, or south, every day later than the preceding, and the differences are very unequal: she has also very different altitudes when on the meridian. Sometimes she enlightens us the whole night; at other times she does not appear till late at night, or early in the morning; and frequently she is absent altogether. Sometimes she keeps in the southern region of the heavens; at others, she rises higher and higher in the northern hemisphere. But all these mutations of the "changeful moon," are ascribed to known and certain causes constantly

and effectually operating, and are predicted with as much accuracy as those of the other planetary bodies, though attended with more labour in the computation.

Though the same face of the moon is always turned towards us, it is not with perfect uniformity, for she sometimes turns a little more of the one side, and sometimes of the other, which is termed her *libration*; and the same thing takes place in another direction, by a motion like a kind of wavering or vacillation, whence it happens that sometimes the one, and sometimes the other, pole of the moon, becomes visible.

The orbit of the moon is not parallel with that of the earth, but is inclined to it in an angle of 5 degrees 18 minutes, cutting it in two points which are diametrically opposite to each other; these points are called her nodes. These nodes do not occur successively in the same parts of the orbit, but have a motion westward, contrary to the order of the signs, making a complete revolution in about nineteen years, which constitutes the lunar cycle, when each node returns to that point of the ecliptic from which it had receded.

From the nature of the moon's motion, it will appear obvious, that she is once every month between the earth and the sun, or in conjunction; and once on the opposite side of the earth, or in opposition. In the former case, when in or near the nodes, so as to be sufficiently in a line with both, an eclipse of the sun takes place; in the latter, an eclipse of the moon.

The remaining planets are beyond the orbit of the earth, or farther from the sun than we are, and hence they exhibit some phenomena very different from those of Mercury and Venus; in particular they come to our meridian both at noon and midnight, which the others do not; and are never seen crossing the sun's disc, as the interior planets are.

MARS.

This planet, which occupies the orbit next to that of the earth, has a dusky reddish hue, and is not near so bright as Venus, though sometimes nearly equal to her in apparent magnitude. When in opposition to the sun, he is five times nearer to us than when in conjunction, whence he appears much larger at some periods than at others. The diameter of Mars is about 5,500 miles, his distance from the sun 145 millions of miles, his revolution nearly 687 of our days, his rate of motion more than 55,000 miles per hour, and his rotation on his axis, 24 hours 40 minutes. The sun, viewed from Mars, would appear one-third less in diameter than he does from the earth; Mercury would scarcely be seen, except when passing over the sun's disc; Venus would appear about the same distance from the sun as Mercury from us, and the earth about the size of Venus to us, and never more than 48 degrees from the sun, and would be, by turns, a morning and evening star to Mars. The figure of Mars is a spheroid, or flattened sphere, the equatorial diameter being to the polar as 131 to 127; and there is reason to believe that all the other planets, including our earth, are of the same figure. Mars appears to have a considerable atmosphere, to which some ascribe the ruddiness of its aspect. In many respects our earth bears a greater analogy to Mars than to any other planet in the system.

THE NEWLY DISCOVERED PLANETS.

Before the commencement of the present century, the orbit of Jupiter was always placed next in order to that of Mars; but the great relative distance between these orbits, and some unexplained disturbances in the motion of the two planets, had led to the conjecture that another planet would sometime be discerned rolling between them. This conjecture has been more than realized; instead of one, four have been discovered, viz. Ceres, Pallas, Juno and Vesta.

CERES. This planet was discovered by M. Piazzi, on the 1st of January, 1801, at Palermo, in Sicily. It is of a ruddy colour, though not very deep, and appears about the size of a star of the eighth magnitude. Its mean distance from the sun is about 260 millions of miles, and its revolution occupies 4 years 7 months and 10 days. Its diameter is not known.

PALLAS was discovered on the 28th of March, 1802, by Dr. Olbers, of Bremen. It is less ruddy than Ceres, but appears nearly of the same magnitude, and performs its annual revolution in about the same period. It is remarkably distinguished from all the other primary planets, by the immense inclination of its orbit to that of the ecliptic. Its mean distance is about 266 millions of miles.

JUNO, discovered on the 1st of September, 1804, by Mr. Harding at Lilienthal, near Bremen. Is of a reddish colour, and is free from the nebulosity which surrounds the two preceding planets. Its distance from the sun is about 250 millions of miles, and it performs its revolution in five years and a half. It is distinguished from all the other planets, by the eccentricity of its orbit, which is so great that it passes through that half of its orbit which is nearest the sun, in half the time that it employs in describing the other. Its diurnal rotation occupies 27 hours.

VESTA, discovered by Dr. Olbers, on the 29th of March, 1807, is of the 5th or 6th magnitude, and may be seen in a clear evening by the naked eye. Its light is more intense, purer and whiter, than any of the other three; and it is very similar in its appearance to the Georgium Sidus.

These Planets are so different from the other bodies in the system, in the shape and inclination of their orbits, and some other particulars, that they have been considered as mere fragments of some larger planet that has been burst asunder, by an internal convulsion; and hence it has been thought not improbable that other similar bodies may yet be discovered in the same space. Dr. Herschel called them asteroids.

JUPITER.

This magnificent planet is by far the largest in the system, though from its immense distance it appears to us somewhat less than Venus, both in size and brightness. His diameter is more than 89,000 miles, and his magnitude more than 1,300 times that of the earth. His mean distance from the sun is 490 millions of miles; his revolution occupies 11 years 315 days 14½ hours, at a velocity of more than 29,000 miles per hour; and his rotation on his axis only 9 hours, 56 minutes, by which his equatorial parts are carried round 25 times faster than the like parts of our earth. Jupiter is surrounded by faint substances called zones or belts, which are changeable in their appearance. It is difficult to account for them; but it has been supposed that his clouds partaking of the great velocity of his diurnal motion, are formed into strata parallel with the equator, that the body of Jupiter reflects less light than the clouds, and that the belts are nothing more than the body of the planet seen through the parallel interstices which lie between the different strata of clouds. The axis of Jupiter is so nearly perpendicular to his orbit, that he has no sensible change of seasons, which is a great advantage to a planet having so long a year, and appears wisely ordered by the Author of nature. This planet is attended by four satellites, or moons, which are frequently eclipsed in the shadow of their primary, or hid behind his body; and the great utility of these eclipses and occultations to geography and navigation, has occasioned the motions of these satellites to be very diligently and accurately observed. They revolve round the planet at different distances, and in very different periods; and he has, consequently, four different kinds of months, which altogether amount to some thousands in a year. From Jupiter the sun would appear with less than one fifth of the diameter he does to us; and Mercury, Venus, the Earth, and Mars would be invisible, because they would appear to accompany the sun, and rise and set with him.

SATURN.

Until the discovery of Georgium Sidus, Saturn was reckoned the most remote planet in our system: he shines with a pale feeble light, less bright than Jupiter, though less ruddy than Mars. The uninformed eye imagines not, when it is directed to this little speck of light, that it is looking upon a large and glorious globe, one of the most stupendous of the planets, whose diameter is 78,000 miles, and its magnitude more than 900 times that of our earth. His great distance will account for the latter, being more than 900 millions of miles from the sun, and more than 800 millions from the earth when nearest to it. His revolution in this vast orbit is performed in about 29 years and a half, which is the length of his year; and his rate of motion is rather more than 22,000 miles per hour. He turns upon his axis in 10 hours 16 minutes, which is the length of his day.

A very remarkable circumstance distinguishes this planet from all others; it is surrounded by a thin broad ring, as an artificial globe is by an horizon. The ring appears double when seen through a good telescope. The inner ring is nearly three times the breadth of the outer one; the former being 20,000 miles, and the latter about 7000. The nearest edge of the interior ring is about 34,000 miles from the surface of the planet; and the dark space between the two rings is nearly 3,000 miles broad. This ring assumes different appearances; sometimes being seen quite open, at others, only as a line upon the equator. It casts a deep shadow upon the planet; it is sharply defined, both in its inner and outer edge, and appears to be more luminous than Saturn himself. It is probably a solid body, equal in density to the planet. Its purpose is not known. Belts are also seen upon the surface of Saturn; these are in general parallel to the ring.

This planet is surrounded with no fewer than seven satellites, which supply him with light during the absence of the sun; but they are so small, and at such a distance from the earth, that they can only be seen with excellent telescopes.

GEORGIUM SIDUS.

The existence of this planet was conjectured before it was discovered. From inequalities in the motion of Jupiter and Saturn, which could not be accounted for from their mutual action, it was inferred by some astronomers that there existed beyond the orbit of Saturn another planet, by the action of which these irregularities were produced. Dr. Herschel confirmed this happy conjecture on the 13th of March, 1781, by the discovery of a new planet, which, in honour of his royal patron, he called the Georgium Sidus; though, on the continent, it is better known by the name of Herschel, or Uranus. This planet revolves at the amazing distance of 1800 millions of miles from the sun, in about 83 of our years and a half, at the rate of 16,000 miles per hour. Its diameter is more than 35,000 miles; the time of its rotation unknown. Its light is of a bluish white colour; and its brilliancy between that of the moon and Venus. From its distance, it is scarcely

discernible by the naked eye; in the absence of the moon, however, it is sometimes seen as a star of the fifth magnitude. With a telescope magnifying 200 times, it shows a well-defined visible disc. Though not known as a planet till observed by Dr. Herschel, there is reason to think it had been seen before, but was considered as a fixed star. It is attended by six satellites, all of which were discovered at different times by Dr. Herschel. It is a remarkable circumstance that they all move in a retrograde direction, (contrary to that in which all the other planets move,) and in orbits lying in the same plane, and almost perpendicular to the ecliptic.

Such is a very brief account of the different planetary bodies, both primary and secondary, which compose our system of worlds. Those of our readers who are unacquainted with astronomy, will have been struck with the great magnitudes of some of these bodies, and the amazing distances at which they move round the great central luminary. But while the numbers used to express them will excite an idea of the vastness of creation, of which after all our system is but a minute portion, it will have been found difficult so to retain and compare these numbers as to acquire a clear conception of relative magnitude and space. Such great numbers are a burden to the memory, and perplex rather than elucidate. A shorter way has, therefore, been resorted to, at least with respect to the relative distances of the planets from the sun, which may be thus stated: if that of Mercury be denoted by 4, that of Venus will be expressed by 7, of the Earth by 10, of Mars by 16, of Ceres, &c., by 28, of Jupiter by 52, of Saturn by 100, and of Georgium Sidus by 196. A comparison of the accounts will also show that the nearer any planet is to the sun, the more rapid is its motion in its orbit. The following scale will nearly express the ratio of velocities: Mercury 111, Venus 84, the Earth 75, Mars 50, Jupiter 30, Saturn 23, Georgium Sidus 16. Their periodic times, too, or the lengths of their year, are in harmony with the other phenomena which they exhibit, and all combine to show the wondrous skill and the surpassing power of Him who created, sustains, and governs them all.

Besides the bodies which revolve completely round the sun within the sphere of our observation, there are others, of whose courses a part only is visible to us, but which we conclude from analogy perform such revolutions also. These are the comets, which have generally a nebulous light, either surrounding them as a coma, or beard, or stretched out to a considerable length, as a tail. Their orbits are so eccentric, that in their remoter situations they are invisible, though at other times they approach nearer to the sun than any of the planets. These very singular and erratic bodies, it will be proper to notice in a separate article.—*London Weekly Visitor.*

COMETS.

In the preceding sketch of the planetary system, we alluded to these singular bodies, as forming in some sense a portion of it; we now resume the subject. No branch of astronomy is so imperfect as that which relates to comets. The reason is obvious. These illustrious strangers, although they attract much curiosity and attention than the regular luminaries of heaven, are yet generally so unexpected in their appearance, remain so short a time visible to us, are so unequal in their movements, and so eccentric in their courses, that it is difficult accurately to determine their orbits, their periods, or their nature.

The name of comets is derived from the hairy appearance which some of them exhibit when in certain positions with regard to the sun; as κομητης, *cometa*, is formed from κομη, *coma*, hair. That they ought to be ranked among the heavenly bodies, was allowed by the most eminent of the ancient philosophers; particularly by the Pythagoreans, and the whole Italian sect. The Peripatetics, however, maintained that they were nothing more than a peculiar kind of meteors within our atmosphere. The former opinion is now generally admitted, and is evidently the most correct; because, when seen from different places, they appear at the same distance from fixed stars which are near them, which could not be unless their parallax was very small, and, consequently, their distance very great.

It appears that comets describe curve lines about the sun; and that their orbits, like those of planets, are probably elliptical or nearly so. But for the ease of computation, they are considered as parabolas, or rather those parts of them which are visible to us, and which do not differ so much from ellipses, especially in that small portion of them, as to occasion any sensible error by the change. In making these computations, it will be necessary, as in the case of the planets, to distribute the inequalities of their motions among the different parts of their orbits, and thus to obtain a result as correct as possible upon the whole. Still, in such very eccentric orbits as those in which comets move, and the irregularity of their appearance, it is very difficult to obtain the necessary data with desirable accuracy, and hence the utmost caution is necessary in every part of the process, and even then too much dependence must not be placed upon the results.

There are on record accounts of more than 500 comets which have been observed since the commencement of the Christian era, and more than a hundred before that time. Of 98 comets whose elements have been observed and calculated previously to the year 1808, 24 have passed between the sun and the orbit of Mercury; 33 between the orbits of Venus and the earth; 16 between the orbits of the earth and Mars; three between the orbits of Mars and Ceres; and one between those of Ceres and Jupiter. Their orbits are inclined to the ecliptic in every variety of angle; and their courses also differ in direction, nearly one-half of them moving from west to east, and the other half the contrary way; a few appear to be confined within the limits of our system, while the greater number range far beyond it.

It is owing to the difficulties above mentioned, that among so large a number of comets as have been observed, there are only three, or at most four, whose returns have been satisfactorily ascertained: these are Dr. Halley's, Encke's, Biela's, and a fourth, whose orbit is passed through in twenty years. The first appeared in 1682, then in 1759, after a period of more than seventy-six years, and again in 1835. Its orbit extends about twice as far as Georgium Sidus. The period of Encke's comet, is three years and a quarter, and its orbit is included within that of Jupiter. Biela's extends not so far as Saturn, and performs its revolution in six years and three quarters. The length of the period is sometimes affected by the action of the planet Jupiter, if the comets pass near it.

Very remarkable comets appeared in the years 1807, 1808, 1811, 1819, 1825 and 1843; but among them all, the most splendid was that of 1811, which appeared in all its brilliance during several months of the summer and autumn of that year, and was accompanied by a magnificent train of light, or tail, as it is usually termed, subtending several degrees to the eye, and probably was some millions of miles in length. In the course of the year 1825, five comets were visible.

But what are comets? Many have been observed, and the orbits and motions of some have been calculated. But what is their nature, their substance, or the purpose they were intended to answer in the general system?—are questions not yet decided, nor very likely to be. So varied are their aspects, and so distinct are they from all other bodies, to which in some respects they yet bear an analogy, that we need not wonder at the scantiness of our knowledge in relation to them. Sir Isaac Newton considered them to be compact, solid, fixed, and durable bodies, capable of bearing exceedingly great degrees of heat and cold without dissolution; in fact, a kind of planets which move in very oblique and eccentric orbits, every way with the greatest freedom; persevering in their motions even against the course and direction of the planets. Their tail he supposed to be a very thin and slender vapour, emitted by the head or nucleus of the comet, ignited or heated by the sun. With this hypothesis, the phenomena of some of the larger comets appear very well to agree; but Dr. Hamilton, Dr. Halley, and the Abbe Maun, have advanced several objections against it, and maintain that the tail of a comet is formed of matter which has not the power of refracting and reflecting light, but that it is a lucid or self-shining substance. With respect to the body of a comet, Dr. Herschel has affirmed that, after a diligent examination of several by the most powerful of his telescopes, he could not perceive the least appearance of any solid nucleus, as they seemed to be mere collections of vapours condensed about the centre of each. As to the uses of these singular bodies—these temporary planets, if they be such—some have supposed that they were intended to supply the waste of the sun occasioned by the constant emission of his beams; and the ignorant, in former ages, have beheld them with superstitious veneration, as tokens of the Divine displeasure, as omens of evil, and precursors of the most dreadful calamities; and as malignant demons,

> "that from their horrid hair
> Shook pestilence and wars."

But the most singular supposition, was that uttered in the beginning of the last century by the celebrated William Whiston. He imagined them to be the prison-houses of those who are condemned to future punishment; and that thus "wheeled from the remotest limits of the system, the chilling regions of darkness and cold, the comet wafted them into the very vicinity of the sun, and thus alternately hurried its wretched tenants to the terrifying extremes of perishing cold and devouring fire."

But, speculation apart, there is one truth which philosophy, reason, and revelation concur to establish,—that He who made these and all the other wonders of creation, holds them under his immediate and absolute control, appoints their courses, regulates their motions, and makes them subservient to his glory.—*London Weekly Visitor.*

GARDENER'S CALENDAR.

JANUARY.

MADRAS.

Mean temperature 75.6—*Average fall of rain* 1.29.

The season is too far advanced to sow the generality of vegetables with much prospect of success; but turnips, carrots, love apples, vegetable marrow, lettuce, endive, radish, mustard and cress, spinage and Nepaul spinage may be sown during all this month; also successive crops of cabbage and knol khole every fortnight. Turnips are said to succeed best when placed in rows: they should be thinned to a distance of six inches from each other. Carrots rarely succeed well when planted at this season; they should be thinned, but not transplanted, except when required for seed. Love apples, when two or three inches high, should be planted out in beds at five inches apart: afterwards transplant in rows two feet from each other, with a frame work to run upon. Vegetable marrow should be sown in rich light soil: earth up the stems as they increase, and peg down the leading branches at a joint. Lettuce and endive should be planted in boxes, and transplanted at one foot apart from each other; they may also be sown in beds, and thinned to the proper distance; a few days before use they should be blanched. Radish and mustard and cress may be sown every week or ten days: the two last throughout the year. Spinage, to be sown in beds, and thinned until the plants are one foot apart. Nepaul spinage should be planted in rows with trellis work to run over. This vegetable continues to flower and bring forth fresh leaves throughout the year, and requires no care. Cabbage and knol khole should be planted in boxes, and transplanted into beds about three or four inches apart in three weeks or a month. They may be transplanted a second or third time, especially the latter. When transplanted for the last time they should be put in well manured trenches at two feet from each other. Horse manure and ground bones are strongly recommended for all the cabbage tribe. With care cabbage and knol khole may be procured during every month in the year.

Cape or English seed potatoes may be planted during the first week of this month; and if the season prove cool they may be expected to arrive at considerable perfection. The early part of December is a more favourable time for planting potatoes; but it's hardly possible to procure fresh seed-potatoes from England before the beginning of January.

In this month the following vegetables and fruits are sometimes procurable in the market, in small quantities and at high prices,—carrots, turnips, cabbage, knol khole, beet root, salad, negro salad, Bombay and country onions, Surat onions, beans, country beans, dooli-lo beans, Vellore beans, French beans, white beans, Goa beans, and peas, (the last always dear, and seldom good,) pumplenose, Malta and rama orange, shote orange, country orange, pomegranate, guavas, apples, limes, jack fruit, fyz, red plantain, yellow plantain, thurmerica fruit, bilimbe, and occasionally mangoes.

BANGALORE.

Mean of the thermometer 70—*Quantity of rain measured*—*none.*

In this month most of the culinary vegetables are in great perfection. Grapes, apples, pine apples, and also a few strawberries and peaches are in season. Such apple trees as have finished bearing may now be pruned, although it would be better to delay it until the ensuing month. Sow seeds of such vegetables as peas, radish, spinage, &c. that do not require more than three months to come to perfection. This is a good month for altering or making a garden, laying walks, &c. Open the roots of vine trees.

FEBRUARY.

MADRAS.

Mean temperature 77.7—*Average fall of rain* 0.01.

The remarks on last month apply generally to this; but there is less chance of success in rearing vegetables, as they seldom acquire much strength before the hot winds set in. Turnips and carrots rarely succeed: but radish, mustard and cress, lettuce, endive, spinage, and the cabbage tribe should all be planted in this month and throughout the year.

All the fruits, vegetables, and flowers, mentioned as procurable in the market in January, may be had in greater perfection and cheaper during this month.

In the beginning of the month peas are plentiful; and with care the following may be obtained of good quality,—Jerusalem artichokes, asparagus, dutlia beans, French beans, scarlet runners, beet root, broccoli, cabbage, carrots, cauliflowers, celery (in great perfection,) endive, lettuce, knol khole, onions, parsnips, spinage, turnips, and yams; also the following fruits,—custard apple, Brazil gooseberries, guavas, lemons, mangoes, mulberries, pumplenose, raspberries, sapadello, tomatos, and occasionally apples.

BANGALORE.

Mean temperature 74½—*No rain.*

In this month pine apples, peaches, grapes, and strawberries may be had in great abundance and perfection. A few apples remain. Dahlia seeds should be sown towards the end of the month, in situations protected from the burning winds of the two ensuing months: the old roots should also be planted in large pots of sand covered with some fermenting vegetable matter, to induce them to send out shoots. Very few vegetables can be sown with advantage this month. Graft peaches and apples, and prune apple trees.

MARCH.

MADRAS.

Mean temperature 80.8—*Average fall of rain* 0.30.

But few vegetables come to any perfection that are sown in this month; but it is desirable to sow successive crops of cabbage and knol khole, which may be planted in beds which are partly protected from the sun, and transplanted into rows as required. With care salad may be grown in this month, and generally throughout the year.

In the market brinjals, carrots and turnips may be procured in considerable quantities and pretty good. Turnips are generally very stringy towards the end of March. Country radish and all kinds of country greens may be had in large quantities; but no fruits can be obtained in the market, except the red and white plantain, which are always in season.

BANGALORE.

Mean temperature 80—*Quantity of rain measured* 2½ *inches.*

During this month the roots of apple trees should be opened by those who approve of that system, and very strong manure should be applied. Strawberries, grapes and peaches are in season. The ground should be dug about the roots of vines. The dahlias sown last month will require transplanting, and the shoots should be separated from the old roots. Plant tuberose roots. Beet root and celery are in perfection. As the winds and hot air of this month are very injurious to vegetation, as few seeds as possible should be sown.

APRIL.

MADRAS.

Mean temperature 83.7—*Average fall of rain* 0.40.

The remarks on March apply equally to this month; but as the hot season advances the chances of success in rearing most kinds of vegetables diminish. Melons and cucumbers should be sown during this month. Sow melons in rich light soil, giving the plants plenty of room to run. When they have made four leaves stop them by pinching off the leading bud; they will then produce two lateral shoots, which stop in a similar manner, and so continue to treat each new formed shoot, stopping it at the second or third joint. When the plants begin to show fruit stop the fruiting branches two joints before the fruit. Cover the ground with leaves or straw, to keep the roots cool, and to prevent the fruit from becoming spotted.

In this month yellow and red plantains, pine apples, grapes, pumplenooses, shota and camala oranges are procurable in the market. Carrots, turnips, beans and cabbages are reduced in quantity, and their prices are considerable. Brinjal, radish, water pumkins, pavekah, peerkengah and greens are to be had in abundance.

BANGALORE.

Mean temperature 80½—*Quantity of rain measured* 3½ *inches.*

Sow all flower seeds to come to perfection in July and August. They will be refreshed by the early rains called mango showers, and there is generally rain in Mysore during June. Sow every kind of vegetable seed. As the mango will be in flower, if requisite, spread some manure round the roots of the trees, slightly stirring the soil. Shift the dahlias. Sow wheat. Plant potatoes. The flower buds should be dry this month, as the scorching sun will very effectually destroy the weeds.

MAY.

MADRAS.

Mean temperature 86.8—*Average fall of rain* 0.77.

Melons, cucumbers, love apples, and Nepaul spinage may be sown during this month; also successive crops of the cabbage tribe and mustard and cress. Mangoes, oranges, pine apples, pumplenoses, red and yellow plantains, and grapes are supplied abundantly. Brinjals, greens, peckengah, drum stick or moorungakaw, and in flowers all sorts of mallgay flowers are to be had plentifully in the market.

BANGALORE.

Mean temperature 81—*Quantity of rain measured* 3 *inches.*

Repeat the sowing of last month, or it may be deferred till this month. Transplant the seeds of vegetables sown last month, and prepare the beds for the final transplanting of knol-khole, cabbage, and cauliflower, watering the soil richly. The dahlias should now be turned out of the pots into the open ground in a sandy well manured soil. Sow some cotton seed.

JUNE.

MADRAS.

Mean temperature 88—*Average fall of rain* 1.46.

If the season is at all favourable, this is a very desirable time to sow the first crop of celery, beet root, and asparagus in boxes, for transplanting towards the latter end of August or beginning of September.

Cabbage seed may be sown in boxes in all this month. If the weather be favorable for transplanting, they should be put out in beds in the following month, and finally transplanted in August. In ordinary seasons good cabbages may be procured in this manner during the whole of October, November and December, by which time peas and other vegetables become abundant. If the weather should continue very hot during September, without showers, the plant should be kept in the boxes until the end of September, or beginning of October.

As it is desirable to get strong celery plants before the monsoon, fresh seed should be sown every fortnight from the middle of June until the end of October. Beet also should be sown in successive crops and transplanted once or twice. This vegetable is not likely to be injured by the heavy rains of the monsoon. Asparagus seed should be sown in boxes towards the latter end of the month, and transplanted in November, in rows two feet apart, and the plants one foot from each other. The soil should be mixed with a large portion of rotten horse manure: it is scarcely possible to make the ground too rich for asparagus. Fresh asparagus seed should be sown whenever procurable, and especially between the end of June and the beginning of December.

In this month mangoes, oranges, pine apples, pumplenoses, plantains, pomegranates, encumbers, melons, green melons, and limes, are abundantly supplied at low prices, in the market. Carrots, turnips, cabbage, and other European vegetables are scarce and dear; but parekah, podalongah, greens and brinjals, are procurable in small quantities.

The following fruits and vegetables are also to be had in this month:—custard apples, sapadilla, lemons, mangostan, parsnips, salad, and vegetable marrow.

BANGALORE.

Mean temperature 76—*Quantity of rain measured* 4 *inches.*

The directions for this month are very similar in many respects to those given for May and April, in order to have the flowers and vegetables later in the season.

Mangoes are in great perfection. Stake the dahlias put into the ground last month. The Natives plough their ground and sow the eastnut. The white grub of the cricket is often very numerous this month and commits dreadful havoc. This is the best month for sowing seeds from England, &c. provided they arrive in the two or three preceding months, but in general it is advisable to sow them as soon as they are unpacked. The beds for hay should be scratched by the native plough and manured. Cuttings and suckers of chrysanthemums, if taken off and planted in small pots, will flower in September.

JULY.

MADRAS.

Mean temperature 85.7—*Average fall of rain* 3.73.

In this month it is desirable to sow celery, beet, knol-khole, cabbage, cauliflower, brocoli, asparagus, onions, lettuce, carrots, and turnips.

Celery.—Sow in boxes in this and the two following months. Remove to beds when about three inches high, and into trenches, as required, after being a month in the beds. The trenches should be 2½ feet deep, filled up with a foot of light soil and stable manure, and afterwards gradually, as the plant grows, with light soil, till within about six inches of the top. Water for the first two months with the hand, after which they may be occasionally flooded.

Another way.—Having sown and transplanted as above, remove into trenches four feet apart, and about 18 inches deep, nearly filled with horse manure and rich earth. As the plant grows, bank up into ridges, with light soil. By this method the root of the plant, and not the stem, is watered when flooded.

Knol-khole, cabbage, cauliflower, and *brocoli.*—Sow in boxes during this and five following months. Remove in beds when two inches high, and transplant the cabbage and knol-khole twice, and cauliflower and brocoli at least three times, allowing the growth of a couple of new leaves between each planting.

Asparagus.—Sow in beds in July, and remove the plants in November, into raised beds of one or two rows. When the berries become red cut the plants two inches above the ground and dress the tops, when they will be ready to cut in ten days. By dressing the beds in succession, asparagus may be produced for the table all the year:—stable manure is the best, and the plant should invariably be watered by the hand, and never flooded except in the hot wind season. Plants if taken care of will produce for 8 or 10 years; they should however be wintered (roots cleared of the earth and exposed for some days) and the ground dressed every second year.

Lettuce and Endive.—Sow in boxes and pots surrounded with water till the plants appear, otherwise the small red ant will destroy them; plant out as required, and tie up a few days before you cut for use. Black town or St. Thomé manure is the best.

Carrots.—Sow in a light deep sandy soil.

Turnips.—Sow in a rich soil well manured.

Peas.—Should the fall of rain be considerable throughout June, and in the early part of this month, a few peas may be sown once a fortnight until the monsoon, but the plants die so soon after they begin to pod, even in the most favourable seasons, that the produce is generally less in quantity than the seed sown.

In the Market all European vegetables are scarce and dear this month. Brinjals, greens, vandakaw, and other native vegetables are supplied in small quantities. Mangoes, and pine apples are getting out of season. Plantains, cucumbers, and melons are plentiful.

BANGALORE.

Mean temperature 75—*Quantity of rain measured* 4 *inches.*

Mangoes still continue till towards the end of the month; young plants should then be grafted and the trees pruned as soon as they have done bearing, as that is the only time when it can be done with impunity. Cuttings of all trees and shrubs should be put in this month, as well as slips of artichokes, which as soon as they have established themselves should be cut down close to the ground. The Natives generally sow the raggy and cholum, and prepare the ground for rice, and plant cuttings of sugar cane. Flower and vegetable seeds may still be sown, and in regular seasons the cabbage tribe of the first and second sowings should be finally transplanted. The first crop of hay is cut this month.

AUGUST.

MADRAS.

Mean temperature 84.6—*Average fall of rain* 4.76.

Successive crops of all the vegetables sown in July should be planted this month, more especially celery and beet, which should be fit to transplant a second time before the monsoon. These two vegetables are less likely to suffer by excessive rain than most others. Artichokes should be sown in beds during this month, three inches between each seed, so as to allow the removal of the plants in November without disturbing the roots. To propagate by suckers, take off the suckers and prick them out six inches apart; and when they become well rooted, transplant into deep rich soil, setting them two feet apart. If large, suckers may be planted at once where they are intended to remain.

To prevent artichokes running to leaf, and producing small heads, when the plants are from ten to fifteen inches high cut them off close to the ground, and cover them over with light dry old manure; when they have advanced a few inches repeat the operation. If the young plants are tied up for a few days before being cut off, they will become blanched and may be eaten as salad.

French beans and scarlet runners may be sown during this month and until February. They should be planted in rows two feet apart north and south, and be well supported with sticks, or with an arched bamboo trellis, which is very ornamental.

Europe vegetables continue scarce and dear. Brinjals, greens, and other native vegetables are to be had. Mangoes, pine apples, and oranges, are very scarce. Plantains continue in abundance.

BANGALORE.

Mean temperature 71—*Quantity of rain measured* 5½ *inches.*

Oranges, loquats, and alligator pears in season. Insects are excessively numerous and destructive. The orange tribe should be budded and marches, and propagated by cuttles. Plant beds with early strawberries. Still sow a few vegetable and flower seeds. Continue grafting mangoes. Transplant cuttings. Propagate carnations and pinks by layers. Begin collecting seeds of early flowering annuals. Dahlias are in perfection.

SEPTEMBER.

MADRAS.

Mean temperature 83.1—*Average fall of rain* 5.30.

Continue to sow all the vegetables mentioned for August. Transplant cabbage, cauliflower, broccoli, beet, celery, endive, and lettuce. Two or three crops of peas may be sown during this month, if the weather is favourable, but not with much prospect of success. The seed peas that answer best in Madras are those grown at Bangalore.

Peas should be planted in well raised beds in double rows about two feet apart. They should be watered by hand for the first fortnight and afterwards flooded. Peas require no manure, but should be planted in good soil.

BANGALORE.

Mean temperature 75—*Quantity of rain measured* 8½ *inches.*

Alligator pears and loquats still continue. Apples come in. Sow orange seed and alligator pear stones. Young potatoes in season. The American cotton sown early in fall fruit. Plant Cape bulbs, either in the ground, or in very deep pots well drained. The turnips and cabbages are much infested by a small dull caterpillar, which may be destroyed by sprinkling the plants with powdered lime. The rice begins to flower. Put down cuttings of geraniums, roses, violets, wallflowers, &c. Flowers are in great perfection. As most of the peach trees will have lost their leaves, the roots should be opened and exposed for fourteen days, and then strongly manured. The principal crop of hay is cut this month.

OCTOBER.

MADRAS.

Mean temperature 82.0—*Average fall of rain* 11.12.

The remarks on last month apply equally to this. Continue to sow all kinds of vegetable seeds in boxes; transplant from the boxes into beds, and immediately after the first heavy fall of rain remove into rows and trenches, more particularly celery, beet, cabbage, knol khole, cauliflower, and broccoli. Care should be taken in finally transplanting all the cabbage tribe to provide against heavy falls of rain, by making trenches to carry off the water. Crops of peas should be sown every week or ten days from the beginning of this month until the 10th of December; peas sown after that time seldom pod.

Onions and leeks should be sown during this month in light rich earth, carefully covering the seed. When leeks are a few inches high plant them in drills, eighteen inches apart, and nine inches plant from plant. As they increase in size draw up the earth to their stems in order to blench them; leeks are much improved by blanching.

Sow parsnips in rich deep soil. Trench the ground two feet deep, sow the seeds in drills one foot apart, and thin the plants so as to leave eight inches from each other.

But few fruits, vegetables, or flowers, are procurable in the market this month; but cabbages, carrots, and spinage may be produced from your own garden with ordinary attention.

BANGALORE.

Mean temperature 74—*Quantity of rain measured* 4 *inches.*

Apples and vegetables are in great perfection. The main beds for strawberries should be planted. Vines will begin to flower early in the month; the borders should be dug, and well manured. Dahlias will begin to fall in this month. As soon as the leaves begin to wither, they should be taken up with the soil that adheres to them, and kept in a dry place. As soon as they have been sufficiently dried, they should be packed in boxes of sand till the time for planting arrives. The double tuberoses should be similarly treated.

NOVEMBER.

MADRAS.

Mean temperature 78.9—*Average fall of rain* 14.19.

This is the month for activity in the vegetable gardens, as but few things arrive at much perfection which are not planted before the end of this month. The principal crops of peas should be sown during the first week, and continued every three days during the month; also French beans, scarlet runners, broad beans, and Windsor beans: the two last have rarely succeeded in Madras. Sow beet, knol khole, cabbage, brocoli, and cauliflower, in boxes: transplant from boxes into beds, and remove from beds into rows. Transplant celery and remove into trenches. Plant out artichokes and asparagus. (Brocoli and cauliflower seed planted on the 25th of this month, and transplanted on the 20th December, in a sandy soil, with a small quantity of horse dung soil with common manure, produced fine heads on the 18th of February. They were watered by hand for the first fortnight and afterwards flooded in the usual way.)

Potatoes should be sown towards the end of this month. They should be planted in light red soil in which no horse dung is mixed. The potatoes should be cut according to the number of eyes, taking care that each piece is of sufficient size. When planted, not more than one inch or one and a half inch of soil should be placed over it; and it should not be watered oftener than once in four days even during the hottest weather. As it grows up, the soil should be banked up to the stalk. Great care should be taken not to give too much water, and not to put too much soil upon the potatoe when first planted.

It has lately been recommended to plant potatoes whole instead of cutting them as formerly. It is also said that the produce is much increased by taking off the flowers as they form; but potatoes flower so seldom in Madras that it is hardly possible to offer a practical opinion on the subject.

BANGALORE.

Mean temperature 73—*Quantity of rain measured* 2¼ *inches.*

Apples are still in season. This is the last month in which the generality of vegetables can be sown with advantage. Sow the casuarina and other tree seeds. This is a good month to lay in a stock of manure and prepare composts for the next year. The larger kinds of perennial water flowers should be taken up and reduced in size and replanted.

DECEMBER.

MADRAS.

Mean temperature 76·4—*Average fall of rain* 4.61.

In the beginning of the month sow French beans, scarlet runners, broad and Windsor beans. Peas sown in this month rarely pod, although they grow luxuriantly. Plant out celery from boxes to beds, and remove from beds to trenches. Sow cabbages and knol khols; and transplant as above. Vegetable marrow may be sown in the early part of this month in light rich soil. Earth up the stems of the plants as they increase in growth, and peg the leading branches down at a joint, and they will strike root.

Potatoes may be planted until the end of this month; but those sown during the first fortnight are most likely to succeed. Seed potatoes procured from England, or the Cape, are infinitely preferable to those grown in this country. When potatoes are planted whole the produce is finer than when they are divided into two or three pieces; but the same number of potatoes yield a larger crop by the latter than by the former method. Cape potatoes planted on the 18th of December, made their appearance on the 30th of that month, and were ripe on the 16th of March. Potatoes should be planted in beds fully exposed to the sun. In rather shady places the crop is small, and when altogether excluded from the direct rays of the sun, they produce nothing.

Europe vegetables are scarce during the early part of the month; but all sorts of pavelkah, pumpkin, water pumpkin, brinjals, pedalangaw, sweet potatoe or velly kelingoo, saury kelingoo, yams, aivelly kelingoo and lemon velly kelingoo, are plentifully supplied in the markets. Fruits are scarce, except plantains, guavas and oranges. The ramundee flower and rose are to be had in great abundance.

BANGALORE.

Mean temperature 69—¼ *inches of rain measured.*

Apples are still in. Young trees should be grafted, and cuttings put down for graft seedlings on. All vegetables in season. A good month for sowing melon and cucumber seed, as well as peas, radish, and spinage; but very few other vegetable seeds. Most of the exotic plants will have ceased flowering; the beds should therefore be dug up and manured with a soil composed of ⅓ vegetable and ⅓ well decayed animal manure. Turn out and examine the dahlia roots. Prune the roses.

GENERAL REMARKS.

MADRAS.

Winter and dress figs, mulberries and custard apples. Dress plots in September and remove the suckers, and dress again with stable manure, red earth, and sand in January. Sprouts of cabbage, cauliflower, brocoli, and knol khole, taken in February, March, and April, and even in May, afford a good vegetable during the hot season.

Plantains, pine apples, and figs may be watered in the mornings; but every thing else in the evening only. The seed peas that answer best for Madras are those from Bangalore,—the common white pea of Mysory. The best carrot, turnip, and onion seed is from Hyderabad, knol khole from the Cape, and cabbage, cauliflower, beet, and celery, from England: other seeds from Bangalore, and the Neilgherries.

Good manure for all sorts of flowers, is red earth and sheep's dung, in nearly equal quantities.

BANGALORE.

The meteorological observation of three years,—1834-5-6—was one very hot, and one very rainy season;—this may therefore be regarded as a very fair average when taken together.

CIVIL SERVICE REGULATIONS.

ABSENTEE ALLOWANCES,

TO CIVIL SERVANTS WHEN IN EUROPE.

Extracts from a letter from the Honorable the Court of Directors, dated 31st December 1824.

19. "That after an actual residence in India in the Civil Service of ten years or upwards, a Covenanted Civil Servant of the Company, upon either of the Establishments of Bengal, Madras, or Bombay, shall be entitled, whether on account of ill health, or from any other cause, and without reference to his private fortune, to come home to Europe on leave for three years, and to receive for that period from the Company's Cash an allowance of £500 per annum, provided that in no case shall a greater number of Servants come home under this Regulation annually than seventeen from Bengal, nine from Madras, and six from Bombay; nor shall a larger number of Servants who may have come home under this Regulation be absent in the whole at one time than fifty-one from Bengal, twenty-seven from Madras, and eighteen from Bombay, and that the preference shall be given first to Servants, producing Medical Certificates upon oath that a visit to Europe is indispensably necessary for the restoration of health, and then to Servants in their order of seniority according to the rank assigned to them by the Court of Directors in the Gradation list of the Service.

20. "That in cases of Civil Servants compelled by illness, certified upon oath, to come to Europe previous to their completion of an actual residence in the Civil Service of ten years, such Covenanted Servants shall each be presented with the sum of 2,000 Sicca Rupees as Passage Money, and shall be entitled for a period not exceeding three years to an Allowance from the Company's Cash of £350 per annum; but that Servants having received this indulgence shall not in the event of their again coming to Europe, after having completed a residence of ten years or upwards, be entitled to any Allowance under the first Regulation, except their return be again occasioned by illness, to be in like manner certified upon oath, and then only to the difference between what they have before drawn, in the shape of Absentee Allowance, exclusive of Passage money, and that of £500 per annum for three years.

21. "That Servants coming in the first instance to the Cape of Gope Hope for the benefit of their health, and there being compelled from the same cause to come from thence to Europe without previously returning to India, shall be considered as entitled to the benefit of the foregoing Regulations.

22. "That in all cases, as well as those of Servants coming in the first instance to the Cape, as of those coming direct from India, the said Allowances be considered as commencing from the date of leaving India, and terminating at the expiration of three years from that date, or at the time of arrival in India, whichever may first happen.

23. "That the same be paid quarterly in Europe.

24. "That on no account or plea whatsoever the allowances in question be extended beyond the period of three years; and

25. "That any Servant being in the receipt of Absentee Allowance from a Civil Fund shall not be entitled to receive during the same period of absence the Allowances prescribed by these Regulations beyond such amount as may bring the total of his annual receipts from both sources to the sum hereby limited."

Orders of Government, dated 9th July 1825 and 8th August 1828.

In pursuance of the Honorable Court's instructions, the Governor in Council is prepared to grant the benefit of these Regulations to such Civil Servants as may produce the prescribed Medical Certificate as the cases may arise. Every Civil Servant so applying, must obtain a Certificate in duplicate from the Trustees to the Civil Fund, notifying either that he will receive no allowance from the Fund during his absence from Europe, or, if he is to receive any, the nature and extent of such relief; one copy of which Certificate must be submitted with his application to Government; the other upon his arrival in London, must be produced before the Auditor of Past India Accounts.

Civil Servants desirous to avail themselves of these Regulations, and not producing the prescribed Medical Certificate, are hereby required to make known their desire to Government on or before the 1st December of each year, when the indulgence will be granted in order of rank to such extent as the foregoing Regulations and circumstances shall permit.

Every Civil Servant proceeding to Europe under these Regulations, whether on sick certificate or otherwise, before receiving his passage order must have applied for and received from the Secretary to Government in the Public Department a certificate specifying the grant of the permission, and whether granted upon sick certificate, or on account of private affairs; also specifying as nearly as possible the date of embarkation for Europe, which Certificate upon his arrival in London, must be produced before the Auditor of India Accounts.

Order of Government, dated 4th November 1825.

The Governor in Council has been pleased to resolve, that in lieu of the medical certificate upon oath prescribed in Paragraphs 19 and 20 of the Regulations of the Honorable Court of Directors for the grant of Absentee Allowance, promulgated in the Civil Service, under date the 8th July last, one of the following forms of medical certificate shall hereafter be adopted, according to the nature of the case; the same to be always signed by the medical officer who has last regularly attended the Invalid, and countersigned by the Superintending Surgeon of the District, or other superior medical authority.

Form—No. 1.

I do hereby certify that A. B. is in a bad state of health, and that I think it highly advisable for him to return to Europe.

(Signed) C. D.
Surgeon or Assistant Surgeon.

Station and Date.

(Signed)
Superintending Surgeon.

No. 2.

I do hereby certify that A. B. is in a very bad state of health, and that I think an immediate return to Europe is necessary for his recovery.

Signed and Countersigned as above.

No. 3.

I do hereby certify that A. B. is in an extremely ill state of health, and that I think an immediate return to Europe is absolutely necessary for his recovery.

Signed and Countersigned as above.

Extracts from a letter from the Honorable Court of Directors in the Public Department, dated 30th April 1828.

3. In your Despatch in this Department, dated the 6th of September 1825, Para. 6 (No. 1,) you have brought to our notice two questions raised necessarily in the Regulations framed by us for granting Absentee Allowance to Civil Servants who are in Europe.

4. The first of these questions is—

"Whether it is competent for a Civil Servant who may have completed a residence of ten years to proceed to England, and there await his turn to the indulgence of the Honorable Court, having previously notified to Government his desire to avail himself of the liberality of the Honorable Court upon the first occasion on which it should be open to him."

5. This question we answer in the negative. In framing the Regulations, it was our object, that while such civil servant might be enabled once in the course of his service to have the benefit of the Absentee Allowance, the number annually returning to England with that view should be limited, an object which would be defeated if Civil Servants were allowed to come home and wait their turn in England.

6. The other question is "Whether the ten years actual residence in India is to be considered to embrace the period passed at Hertford College," to which we reply that such is not the intention. We mean the regulation to be construed in the sense which it expresses, "actual residence in India."

Extract from a General Letter from the Honorable the Court of Directors in the Public Department, dated the 25th July 1827.

Para. 3. "Previous to the enactment 53d Geo. 3. Cap. 155, it was our practice to forward to you Lists of the relative rank of Writers appointed from time to time to your Establishments. Under the authority of that enactment regulations were framed for the government of our College of Hertford, one of which provides that the relative rank of Writers should be fixed by the College Council, and specified in the College certificate, subject however to loss of such rank in the event

of the Writers failing to proceed to India within a specified time. Lists of the rank of Writers under this regulation are now periodically forwarded to you.

4. The offers of the Absentee Allowance are to be made in the order in which Civil Servants have been, or may be classed under the Rules to which we have adverted, to such of the Servants as shall have actually resided in India in the Civil Service of your Establishment during a period of not less than ten years, commencing from the date of arrival at Madras.

6. On reference to our letter dated 26th of April 1826, Para. 5, you will perceive that it is not competent for a Civil Servant, having completed a residence of ten years, to come to England, and there wait his turn for the Absentee Allowance. That Allowance is to be granted in each case by the local government under the Regulations which we have prescribed, and no Civil Servant will be permitted to draw Absentee Allowance in England who shall not, previously to his quitting India, have been admitted to that benefit by the Government of the Presidency to which he may belong.

7. So soon as the aggregate number of Civil Servants absent, and who shall have come home upon the Absentee Allowance of £500 per annum, shall amount to twenty-seven, the same indulgence is only to be granted as Servants included in that number may either return, or quit the Service; so that the total number of absentees having left Madras upon the allowance of £500 per annum is never to exceed the limit of twenty-seven fixed by our orders dated the 30th December 1824.

Extracts from a letter from the Honorable Court of Directors in the Public Department, dated 5th December 1827.

Letter from ——— dated 16th October 1826.

Paras. 2 and 6, submit question, whether the regulation which precludes a Civil Servant from simultaneously receiving Absentee Allowance from the Company and from the Civil Fund is to be constituted as barring the receipt of any sum from the Civil Fund in aid of the expense of Passage to Europe.

2. The receipt of Absentee Allowance from the Company must bar the receipt of any allowance in any shape from the Civil Fund.

Letter from ——— dated 30th March 1827.

Paras. 71 & 72.—Court requested to re-consider their decision upon the question of permitting a Civil Servant to come to Europe in anticipation of being admitted to the Absentee Regulations.

4. We shall not object to the advance to a Servant coming home under the Absentee Regulations, and not entitled to passage money, of six months' allowance in cases in which you may be satisfied that that indulgence is required to enable the party to provide a passage.

5. We adhere to the determination communicated to you in our despatch dated the 26th April 1826, Para. 5. No servant will hereafter receive the Absentee Allowance who shall not have been admitted by the local Government to the benefit of the Regulations previously to leaving India, excepting only such servants as may have been compelled by ill health, to quit India on a voyage to some place within the limits of the Company's Charter, as to the Cape of Good Hope, and as may have been subsequently compelled by the same cause to come to Europe. In such cases where the Servant has resided more than ten years in India the benefit will of course be withheld whenever the number of Absentees limited by the Regulations is complete.

Order of Government, dated 18th November 1828.

The Right Honorable the Governor in Council has been placed to resolve that all persons who may be permitted to proceed to Europe, with the benefit of the Absentee Allowances, shall vacate their situations, and avail themselves of the indulgence, within three months from the date on which it may be granted.

Extract from a letter from the Honorable Court of Directors in the Public Department, dated 6th May 1829.

Civil Servants who decline to subscribe to the New Annuity Fund are not admissible to the benefit of the Absentee Regulations.

CIVIL SERVANTS PROCEEDING TO ENGLAND UNDER THE ABSENTEE REGULATIONS OR ON SPECIAL LEAVE OF ABSENCE.

Extract from a letter from the Honorable the Court of Directors.

Para 1. We have to acquaint you that we have adopted the following Regulations with respect to the grant of certificates of leave to Members of the Indian Civil Establishments repairing to this Country under the Absentee Regulations, or on special leave of absence, viz.

That Civil Servants coming to England under the Absentee Regulations, or on special leave, shall immediately on their arrival, report themselves with their address by letter to our Secretary, forwarding at the same time the certificates which they received in India.

That in all cases of leave, Civil Servants be required to join the Establishment to which they belong at the expiration of the term for which leave may have been granted, unless they shall have obtained an extension of it from us six months before the expiration of the said leave.

That extensions of leave will not in future be granted by us except in cases of sickness certified to as hereinafter directed, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.

That when under any such circumstances a Civil Servant shall have obtained an extension of leave to a given period, he must at the expiration thereof apply for and obtain our permission either to return to his duty, or to reside a further time in Europe, failing in which he shall be liable to be struck off the List of Civil Servants.

That the Act of the 33d Geo. 3d, Cap. 52, Sec. 70, as it respects Civil Servants applies only to cases of sickness, or infirmity, and that no Civil Servant be hereafter considered eligible to return to the service after 5 years' absence under that enactment, who has failed to certify agreeably to the foregoing Regulations, an extension of leave under the circumstances referred to in the Act.

2. We desire that the foregoing Regulations be published for general information, and that each Civil Servant returning to this Country under the Absentee Regulations, or on special leave, be furnished with a copy for his guidance.

(A true copy.)

(Signed) JAMES C. MELVILL, *Secretary.*

East India House, London, the 4th Septr. 1840.

CIVIL SERVANTS QUITTING INDIA.

Chief Secretary's Office, Fort St. George, January 3, 1832.

In order to prevent embarrassment at the time of sailing, Gentlemen of the Civil Service quitting India are requested to observe, that applications for permission to be received on board must be accompanied by a Certificate from the Office of the Accountant General, that there are no demands against the applicants on the Books of this Presidency. Commanders of Vessels receiving persons from India without permission are liable to heavy penalty.

FURLOUGH REGULATIONS.

FORT ST. GEORGE, *October 8, 1830.*

First. A furlough granted to a Civil Servant, whether under a Sick Certificate, or otherwise, in conformity with the Rules of the Honorable Court's despatch, dated 31st December 1834, and communicated to the Service on the 8th July 1835, shall be considered to have lapsed on the occurrence of any of the following events:—

1st. On the death of the party in the course of three years from the date of his leaving the Presidency.

2d. On his retirement from the service by the acceptance of an annuity granted under the rules of the Madras Annuity Fund.

3d. On return to India before the expiration of three years.

4th. On the expiration of three years from the date when the ship sailed in which the party proceeded to Europe.

Second. Civil Servants will be entitled to proceed to Europe on furlough on sick certificate, at any time of the year, provided there shall not be at the period of their applying for the certificate, 10 individuals in the enjoyment of the furlough.

Third. On the 1st December next ensuing, and on every subsequent 1st December, the number of furloughs to be tendered to Civil Servants of 10 years standing, and not claiming the indulgence on the ground of ill health, shall be calculated as follows:—

Complement of 27 furloughs as on the 1st December 1835.

Complement		27
Already taken		18
Total available on the 1st December 1835		9
Deduct taken within the year up to this day:		
On sick certificate	2	
Without certificate	3	
Total taken in the year		5
Remain available for 1st December 1836		4
Add lapses since last 1st December:		
Retired on Pension	1	
Absent more than 3 years	3	
Deaths	1	
Returned to India	3	
		7
Total available to meet present applications		11

Fourth. If the applications received by Government before the 1st December of any year should not equal in number the available furloughs, calculated as above, the same may be over to be taken by Servants, either on sick certificate or otherwise, at any time of the year following, until the number shall be complete: when it may be so, further certificates on account of lapsing furloughs shall not be granted, except on the applications being accompanied by sick certificates, the lapses in the course of the year being reserved to meet the demands of the Service according to the principle laid down by the Honorable Court of Directors, that is, with due preference to cases of sickness, and to seniority.

FORT ST. GEORGE, *December 27, 1836.*

Civil Servants admitted to the benefit of the Furlough Regulations, are reminded that, in order to obtain the prescribed Furlough Certificate from the Secretary to Government in the Public Department, they must previously submit to that authority a Certificate from the Trustees of the Civil Fund, that they will receive no allowance from that Fund during their absence; and also a Certificate from the Accountant General, (who will receive a Certificate from the Civil Auditor) of their being no public demands against them.

FORT ST. GEORGE, *August 29, 1837.*

The Governor in Council has resolved, with a view of assimilating the Rules of this Presidency with those of Bengal, and of enabling Civil Servants who may be desirous to return to England by way of Suez to make the passage of the Red Sea at the most favourable season of the year, to alter the period fixed for the grant of the Furlough allowance to Civil Servants of ten years standing, not claiming the indulgence on the ground of ill health, from the 1st December to the 1st November of every year.

JUDICIAL OFFICERS—ABSENCE OF FROM THEIR STATIONS.

FORT ST. GEORGE, *November 10, 1841.*

The Right Honorable the Governor in Council, deeming it very desirable that some additional Rules respecting absence from Stations should be laid down for the guidance of all Judicial Officers, resolves to establish the following for that purpose.

1. That any Judge or Register being absent from the Station of the Court to which he belongs without leave, for more than five days (excepting under the

Rules of the 29th of January 1840), shall be declared liable, not only to the loss of his allowances during his absence, but to the loss of his appointment.

2. That on occasions of holy days or otherwise, when a Judicial Officer can be absent from his Station without impediment to the performance of his duty, he may be absent for a period not exceeding two days, but that on such occasions he shall report the circumstance to the Sudr Udalut, which Court shall check any immoderate use of such indulgence.

Published by order of the Right Honorable the Governor in Council.

Acting Secy. to Govt.

LEAVE OF ABSENCE—RULES FOR THE GRANT OF, AND FOR REGULATING DEDUCTIONS FROM SALARIES, AND DEPUTATION ALLOWANCES.

FORT ST. GEORGE, *February* 21, 1840.

The following Rules for the grant of leave of absence, and for regulating deductions from Salaries and Deputation Allowances, are re-published for general information.

FORT WILLIAM: FINANCIAL DEPARTMENT, *the* 29*th January* 1840.

The following Rules for the grant of leave of absence, and for regulating deductions from Salaries and Deputation Allowances having been approved and passed by the Hon'ble Court of Directors, are published for general information, and will take effect on all the Presidencies, Settlements and Stations under the Government of India from the date of the arrival of the *Gazette* containing them, in respect to all leaves of absence granted after that date. The notes show the interpretation put by the Council of India upon the rules in their application to cases not specifically mentioned.

*Rules for application for leave of absence, and for fixing the local limits within which it may be granted.**

SEC. I. No leave of absence from any office or station can be granted, but by the Government of the Presidency under which the employment is held, and the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted, must be made publicly through the regular channel in the Department to which the applicant may belong.†

Note.—This rule must be considered as superseding the rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant leave of absence in Bengal.

SEC. II. The official allowances of the holder of a Civil Office quitting his Station without leave will entirely cease from the date of his quitting until his return, or in the event of his subsequently obtaining leave, to the date of such leave being granted to him.‡

SEC. III. No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

SEC. IV. Upon application duly made the Government of each Presidency may grant leave of absence to any place or places in the Continent of India, whether

* Great inconvenience to the public service being occasioned by the frequent absence of Civil Functionaries from their Stations upon leave on private affairs, the nature of the private affairs requiring the absence of any Public Officer in the Civil Department is to be invariably stated in the application. *Vide* Order of the Madras Government, dated January 28, 1842.

† Applications for leave of absence under these Regulations are to be sent to the Office of Audit previous to their final submission to Government, and to contain a specification of the particular Section of the Absentee Rules under which the indulgence of leave is solicited.

The collective or individual authorities, thro' whom these applications must pass, are to adopt this course in all cases which they may be disposed to recommend; and it will be for the Office of Audit, in forwarding them to Government, to object in such instance whether the provisions of the Rules have been conformed to, and what, if any, objection exists to a compliance with the applications. *Vide* Resolution of the Madras Government of the 20th of November 1840.

‡ This applies to all unauthorized absence, whether antecedent to the grant of leave, or subsequent to the termination. *Vide* Order of the Government of India dated 11th January 1811, and published in the Fort St. George Gazette, of the 14th of April of the same year.

within the Territories subject to the Government of the East India Company, or not, to any Civil or Military Servant holding a Civil appointment, subject to all the conditions prescribed in the rules that may be applicable to his case. Upon similar application the Government of each Presidency may also grant leave to such persons subject to the like conditions, to proceed to the Island of St. Helena, the Colony of the Cape of Good Hope, or to any place situate between the 30th Degree of North Latitude, and the 50th Degree of South Latitude, such place being likewise between the 30th and 180th Degrees of Longitude, East of Greenwich, excepting however any Islands in the Mediterranean or Levant, and excepting all places within the said geographical limits which may form part of Europe. Provided also, that if at any time the Government of India shall deem it expedient to exclude any place or places within the limits above described from the operation of these rules, such exclusion shall be officially communicated to the subordinate Governments, and all leaves subsequently granted shall be regulated accordingly. A Servant passing the limits herein prescribed will incur the immediate forfeiture of his office or employment, and of all official allowances whatever from the date of his quitting India.

CHAPTER II.

Rules for Sick Leave.

SEC. V. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a Certificate from the Medical Officer by whom the applicant has been attended, distinctly stating from personal observation the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place either within the Territories subject to the Government of the East India Company, or beyond them, but within the limits laid down in Section IV. as the case may be, and such Certificate must be submitted to the consideration of the Medical Board, and if satisfactory shall be countersigned by one of its Members.* An application for an extension of leave must, if the applicant be in India, be accompanied by a Certificate from the Medical officer by whom the applicant is attended, shewing sufficient reason for the extension solicited, and such Certificate like the former must be examined and countersigned by a Member of the Medical Board. If the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a Certificate to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance and the period of it to be stated, and the Certificate to be countersigned by the principal Medical authority of the Colony or Country. When any of the required particulars are neglected leave will be refused.†

SEC. VI. *(Revised—Vide Amended Rules, page* 215.*)*

---

* In cases of extreme urgency, which, owing to the distance of the residence of the Medical Board, preclude the previous reference to that authority, the certificate of the Medical attendant required from applicants for leave of absence on account of ill health, shall be submitted by them for the consideration and counter-signature of the Superintending Surgeon of the Division, which officer in these cases will be responsible for the prescribed regularity of the certificate, instead of the Medical Board. *Vide* Resolutions of the Government of India, of the 24th of June 1840, published in the Fort St. George Gazette for 1840, page 193.

† The following Resolution of the Governor of Madras in Council, calling the attention of Medical Officers in the Provinces to this Section, is extracted from the Fort St. George Gazette for 1841, page 200.

" Para. 1. The Right Honorable the Governor in Council having noticed with dissatisfaction the very lax and imperfect manner in which Certificates, in support of applications for sick leave, have on several occasions been prepared by Medical Officers in the Provinces, which has in consequence led in some instances to the refusal of the leave applied for; his Lordship in Council resolves to call the attention of these Officers to Section V of the Absentee Rules, published on the 21st February 1840, at page 142 of the Official Gazette; and to require them to conform strictly to the orders therein conveyed; and it is directed that Certificates of the accompanying Form, in duplicate, be in future furnished in every instance where leave is recommended, whether it be to Europe, or within the limits laid down in Section IV. of the aforesaid regulations.

2. In order to obviate the delay, and inconvenience which in particular cases may attend the return to the Provinces of a Medical Certificate forwarded to the Presidency for the counter-signature of a Member of the Medical Board, the Right Honorable the Governor in Council is pleased to notify, that persons soliciting leave of absence, under Section V. of the regulation already quoted in Para. 1 (or in emergent cases, the Medical Officer in attendance), may forward the Certificates to the Medical Board direct, for the purpose of being transmitted with the counter-signature of one of its Members, or their opinion, to the Sudr Adalut, when the applicant may be in the Judicial Department; to the Board of Revenue, when in the Revenue Department; to the Civil Auditor in all other cases: for submission to Government, with the application, to be made in conformity with the Notice published in the Fort St. George Gazette of the 4th December last, page 848." In ordinary cases however, Certificates are to be sent through Superintending Surgeons to the Medical Board, by whom they will be returned, for the purpose of being transmitted through the regular channel, in the Department to which the applicant for leave may belong.

* Vide second note at the foot of page 210.

Sec. VII. Civil Servants absent on leave on account of sickness, duly certified, if they proceed to England without returning to their Presidency, may, as heretofore, apply to be admitted to Furlough by the Hon'ble the Court of Directors, and the Furlough will in such cases take effect from the date of leaving their Presidency, consequently the allowances of office that may have been drawn by themselves, or by their Agents after their departure, must in that case be readjusted, and the difference refunded.

Sec. VIII. No second leave will be granted to any Civil or Military Servant holding a Civil Appointment who has been absent under the above rules for two years, until three years at the least shall have passed after the date of such servant's return, but if such a Servant is compelled by sickness again to absent himself from his Station within three years, after having been absent under the above rule for less than two years, he will be allowed to complete that period, subject to the limitations and conditions heretofore prescribed, drawing the proportion of Salary allowed for the remaining time as if the leave had been continuous.

Note.—This rule applies to all descriptions of leave on account of health excepting those granted under Sec. XII.

Thus a second leave within the Presidency, no less than a second leave to sea, will be computed as forming part of the period of two years, if taken before three years have elapsed since returned from the first leave, and the deductions will be made upon computation of the accumulated period of absence under all such leaves taken, without the intervention of three years of consecutive service.

Sec. IX. Military Officers employed in the Civil Department, and drawing a Civil allowance, may obtain leave under Medical Certificate on precisely the same conditions as Civil Servants (except as to allowances). Such Officers, in common with those holding Staff Situations in the Military Department, will draw the Military Pay and Allowances of their rank while absent on leave under Medical Certificate, in the form and manner prescribed in General Orders in the Military Department, and likewise one half of the difference between such Allowances and the Civil Pay of the Offices to which they stand appointed.

Sec. X. Civil or Military Servants holding Civil appointments who may desire to avail themselves of the benefit of the Act 1 Vic., Cap. 47, and to draw their allowances while absent on account of sickness under the above rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn, either by the Agents at the Presidency, or by themselves in case of their proceeding to Europe on Furlough, or otherwise coming under retrenchment.

3. Judicial and Revenue Officers forwarding applications for leave of absence on sick certificate to the Sudr Adalut, or Board of Revenue, will notify to those authorities the transmission of their Medical Certificates to the Medical Board, for the purpose of being forwarded as above directed. Officers in other branches of the Civil Service will in like manner make this communication to the Civil Auditor.

4. The Civil Auditor will not hereafter submit to Government applications for sick leave, unless they are accompanied by Certificates of the form now prescribed.

"*Rules for leave preparatory to embarkation and for joining Stations.*"

Sec. XIII. (*Rescinded—Vide Amended Rules, page 215.*)

Sec. XIV. There shall be allowed to Officers appointed to any new Offices the periods of one month, two months, or three months, for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last mentioned distance. Officers not joining their station within the said periods respectively, shall forfeit their Salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the Office shall be vacated, unless otherwise specially ordered by Government.

Note.—This rule is only applicable to Civil Servants. Military Officers appointed to Civil Offices will draw Salary only from the date of joining as heretofore, the rule in force in respect to Staff Situations being applicable to them.

Sec. XV. Upon the first appointment of any Civil Servant who shall be reported qualified for the Public Service by the Examiners appointed by the Government, to any Civil situation, there shall be allowed for travelling expenses to the Station an allowance at the rate of 8 Annas per mile by the direct Post road according to the Polymetrical Tables of the Post Office, the Bill for which allowance will be passed by the Civil Auditor after the Officer shall have joined the Station, if required in advance an order of the Government shall be necessary.

Sec. XVI. The Salary of Office will be payable from the date only of the Officer joining, but in the case of Junior Civil Servants, the Salary of Assistant will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding rule through delay in joining the Station to which they may be appointed.*

Note. This Rule also is only applicable to Civil Servants. Military Servants drawing as in the case of Staff Situations

Sec. XVII. In case of a change of Office when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the one Officer till the date of joining the other. Rule Sec. XIV. regulating the time and distance for joining Stations shall be applicable, and the Officer will, for the periods allowed in that rule respectively draw out of the salary of the office he is about to join a sum equal to that of his previous situation.

---

* The following Extracts from a Resolution passed by the Governor General of India in Council on the 10th of June 1841 (published in the Fort St. George Gazette for 1841, page 935,) claims the particular attention of Officers appointed to new situations, but who by the express order of Government may be prevented from entering immediately on the duties thereof.

"1. The Governor General in Council remarks that the Rule referred to, No. XVI. of the Regulations of the 31st January 1838, requires in case of a change of Office, when an Officer is appointed to a higher situation, that he shall not draw the higher salary until he joins.

2. His Lordship in Council considers it expedient strictly to maintain this Rule as one of general practice, and that no exception ought to be allowed otherwise than under special circumstances and exigencies of the public service.

3. His Lordship in Council is further of opinion that as a general rule Officers ought not to be appointed to situations for the duties of which they are not immediately available.

4. When an Officer for the convenience of the public service has been detained by an order of the Government in a situation of inferior emolument after he has been promoted, in such case the practice under the Bengal Presidency is to pass on to the higher salary of his new appointment, during the period of his being so detained. This exception to the Rule XVI. corresponds with the exception provided for in Rule XX. under the Chapter for Deputation Allowances, in which it is declared that no Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating, but that the prohibition does not apply to the case of an Officer who may be deputed for special reasons to act in an office of inferior emolument to his own.

5. In order to ensure uniformity of practice at all the Presidencies in the application of Rules XIV. XVI. and XVII., it is hereby explained that Rule XIV. refers to the appointment of Civil Servants previously not holding any permanent situation, such as Servants for the first time appointed to a fixed situation after their return from furlough.

6. These servants are entitled under Rule XIV. to the allowances of their new office from the day of appointment, provided they do not come under forfeiture by exceeding the time prescribed for joining their Stations.

7. And Rules XVI. and XVII. are to be construed as applying to cases where there is a change of office with increase of salary; a special course being prescribed with regard to Junior Civil Servants: they under Rule XVI. are authorized to draw the salary of Assistant from the date of their being reported qualified for the public service, unless forfeited through delay in joining the Station to which they have been appointed."

CHAPTER V.

"Rules for Deputation Allowances.

Sec. XVIII. *(Revised—Vide Amended Rules, page 215.)*

Sec. XIX. *(Revised—Vide Amended Rules, page 215.)*

Sec. XX. No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance according to the prescribed scale, added to the permanent emoluments of the Officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn.* But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments, on being deputed to officiate for another shall be relieved only from one, he shall receive no Deputation Allowance unless the emoluments of the office in which he is deputed to act, exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

LEAVE OF ABSENCE, &c.—AMENDED RULES.

Fort St. George, May 31, 1843.

In re-publishing the following Rules, the Most Noble the Governor in Council directs that effect may be given to them in respect to all Deputation Allowances and leave of absence granted within the limits of this Presidency, subsequent to the 30th May 1843.

FORT WILLIAM: *Financial Department, 17th May* 1843.

The Honorable the President in Council, with the concurrence of the Right Honorable the Governor General, has revised the Rules published on 23th January 1840, for the grant of leave of absence, and for regulating deductions from Salaries and Deputation Allowances. The following Rules will have effect from this date for regulating Deputation Allowances, and the terms on which leave of

* When an Officer has been temporarily holding a Civil or Military Staff appointment, in consequence of the absence of the Chief Incumbent on Sick leave within the limits prescribed in these rules, and the latter proceed to Europe, or elsewhere by way of the appointment during absence, the locum tenens shall not be entitled to any higher allowances by reason of such vacancy; and in the event of his being permanently appointed to the office in which he has been officiating, he shall receive the full salary of that office only from the date of his permanent appointment. Vide Order of the Indian Government published in the Fort St. George Gazette for 1831, page 688.

absence will be given to places situated within the limits of the respective Presidencies, to which the Applicants are attached.

Sec. VI. (Amended.) Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their Offices for the period of two years, subject to a deduction of ½d for the whole term of such absence, save and excepted that for the first year, if the Salary be not more than 500 Rupees per mensem, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of ½d would reduce the allowance below that sum, only the excess beyond Rupees 500 shall be deducted, but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain any Civil Office or employment, nor be permitted to draw any portion of official Salary for a longer period than two years, but a Civil Servant who may, on account of sickness duly certified, obtain an extension of leave beyond two years shall, if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistence allowance, and if the period of such actual residence be 12 years, the highest rate of subsistence allowance, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that allowance also shall be forfeited. The period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

Sec. XI. (Amended.) The Government of each Presidency may grant to Civil or Military Servants holding Civil appointments leave of absence for one month in each year without deduction from the Salaries and Emoluments drawn by such Servants. Such leave however will only be granted when the Government is satisfied that no inconvenience or expense will arise from the departure of the Officer seeking it. No second leave can be granted under this rule until the completion of eleven months from the expiration of the last leave.

Sec. XII. (Amended.) The Government of each Presidency may, on sufficient cause being shewn, grant to a Civil or Military Officer holding a Civil Office special leave of absence on private affairs. Provided however that if any Officer to whom such leave shall be granted shall be absent from his Station for any period exceeding that to which under the last rule he may be entitled without deduction, the Absentee if a Civil Servant shall for the period in excess draw no more than one-half of his Salary and Allowances, and if a Military Officer only so much of the Salary and Allowances of any Civil Office to which he may stand appointed as added to the Military Pay and Allowances which he may be entitled to draw shall equal one-half of his entire Military and Civil emoluments. After an absence of three months (exclusive of any period which may be granted under Sec. XI.) any Office held by the Absentee shall become vacant.

Sec. XIII. is rescinded.

Sec. XVIII. (Amended.) The sum of Company's Rupees 52,200 per annum, having been fixed under the orders of the Court of Directors as the Maximum Salary of Civil Office for the Offices of Government under the situation of Member of Council—Civil and Military Servants holding Office in the Political Department, who may draw larger Allowances than this annual sum as a consolidated personal and sumptuary allowance in consideration of the necessary expenses of their position, will in all cases of absence be treated in respect to deductions as drawing only the Allowance thus limited, and the excess above the monthly salary yielded by that annual sum, shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties to meet the necessary expenses of his position.

Note.—This rule will equally apply in case of a Political Resident taking a leave of one month for which in other cases he would suffer no deduction.

—The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.

Note.—Military persons acting for other Military persons holding Civil Office, will, as in the case of Staff, draw half the difference between the incumbent's Military Allowances and the consolidated Civil Salary as at present, that is, will draw the amount retrenched from the Absentee, but when acting for a Civil Servant they will draw at the rates and under the same rules as Civil Servants.

Section XIX. (Amended.) Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an Office according to the following rates, and subject to the limitations and conditions hereinafter laid down.

To Civil Servants not holding any substantive Appointment.

At the rate of 25 per cent. on the monthly Salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an Office of inferior emolument when Officiating for a Superior.

At the rate of 10 per cent. upon the monthly Salary of the appointment officiated in, in all cases to which the Salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the Salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 10 per cent upon Company's Rupees 2,000, and of 5 per cent. on the amount in which the monthly Salary may exceed Company's Rupees 2,000: provided however that no lower rate of Deputation Allowance shall be given than 100 Rupees per mensem.

The Deputation Allowance shall in all cases be in addition to the Salary of the substantive appointment held by the Officer on deputation.

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be reported as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

Sec. XXI. (Amended.) No Subordinate Officer acting for his Principal or for any other person holding a superior appointment in the same Office or Establishment, at the same Station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the Allowance is not to be drawn in arrear. But a servant previously out of employment, or who may be deputed to act for a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Sec. XXII. (Amended.) Civil Servants, if deputed to act at a distance from the stations where they are employed, or Military Officers holding Civil Office who may be so deputed, or who may be ordered by Government on Special duty, shall be permitted to draw travelling allowances at the rate sanctioned in the case of a first appointment.

Sec. XXIV. (Amended.) The Government of each Presidency may grant to Chaplains and Assistant Chaplains special leave of absence on private affairs, but if such absence shall exceed the period to which the Absentees may be entitled under the following Rule, they shall for the period in excess be subjected to the deduction of one-half of their Allowances, and after an absence of four months all Allowances shall be discontinued.

Sec. XXV. (Amended.) Leave of absence for one month in each year, under the principle sanctioned in Sec. XI. may be granted to Chaplains or Assistant Chaplains by the Bishop of the Diocese, or when the Diocese may be vacant (but not otherwise) by the Archdeacon or other Ecclesiastical functionary performing the duties of an Archdeacon or Commissary: and such leave being consistent with the rule will be recognized by the Civil Auditor after it has been published in the Government Gazette of the Presidency with the authority of Government. Information of every leave so granted by the Bishop or other Ecclesiastical Officer above mentioned, shall be immediately transmitted to the proper Secretary to Government for the purpose of notification in the Gazette.

Sec. XXVI. is rescinded.

Sec. XXVIII. (Amended.) The Mint Master, the Assay Master, and Deputy or Assistant Assay Master of any Mint in India may obtain leave of absence under such certificate, or on private affairs, subject to the conditions in the Rules forming Chapters I. to V. The Absentee if in the enjoyment of any Military pay or allowance shall, during his absence, be subject to the deductions prescribed in the case of Military Officers holding Civil employments. If not a Military Officer, the Absentee shall be subject to the same deductions as a Civil Servant under similar circumstances, but no Officer of the Mint or Assay Department can be permitted to draw any portion of Salary for a longer period than two years, if absent under sick certificate, nor for a longer period than four months if absent on private affairs.

The Rules published on the 29th of January 1840, not affected by the above alterations, remain in force.

OFFICIAL NOTIFICATIONS OF CIVIL APPOINTMENTS.

Fort St. George, February 26, 1841.

The Right Honorable the Governor in Council resolves that in future, when Official Notifications of appointments by Government in the Civil Department are inserted in the Fort St. George Gazette, no separate communication of the same shall be made in reference to the parties concerned, except when special instructions are required. All officers are to act on such notifications in the same manner as if they had been communicated by letter from the Secretary's office, and to join their Stations within the period prescribed by the Rules published at page 142 of the Gazette for 1843, unless otherwise directed; taking, when necessary, the Oaths of Office in the manner prescribed in the Notification of the 19th May 1836, or making the prescribed Declaration before any Court of Record, or any Justice of the Peace, previously to entering upon the duties of the Office to which they may be appointed. The Judges of the Courts, or Justices of the Peace, before whom such Oaths or Declarations may, under this authority, be subscribed and recorded, will notify the same by letter to the Secretary to Government on the same day.

Revenue Officers on their first appointment are required, before entering on their duties, to take and subscribe the restrictive Oath of Caveats prescribed by Act of Parliament referred to in Regulation I and II of 1803; and Magisterial, Judicial and other Officers will, on every change of appointment, make and subscribe the Declaration prescribed by Act No. XXI of 1837, which dispenses with the oaths required to be taken by the general regulations of this Presidency.

Public Officers in reporting to the Civil Auditor their assumption of Office are to certify that they have conformed to all the requisitions of the Law and orders of Government in respect of Oaths or Declarations of Office, and the Civil Auditor is hereby required to bring to the notice of Government any omission in this respect.

Extract from an Advertisement, dated 13th December 1803.

"With a view of affording additional security to the Proprietors of Lands and Houses in Madras, and as a means of preventing clandestine transfers and mortgages of property: His Lordship in Council has been pleased to direct a register to be opened at the Cutcherry of the Collector of Madras, where all persons who purchase property, or lend money on mortgages of property, may register their purchase or mortgage deeds."

Pursuant to the former of these Advertisements, the Government quit rent, and arrears, if any out standing, is to be paid by the Proprietors in actual possession of the Lands or Houses on which it is due; all persons, therefore, purchasing or taking mortgages of Lands or Houses should be careful to have their deeds regularly registered, and all arrears of quit-rent discharged by the former holders up to the day of the transfer, as otherwise they will be held answerable for the amount.

MILITARY SERVICE REGULATIONS.

FEES UPON COMMISSIONS.

Fort William, 26th April 1834.

The Honorable the Vice-President in Council is pleased to direct that the following Paras. (3 & 5) of a Military Letter from the Honorable the Court of Directors, No. 97, dated the 6th November 1833, the provisions of which are applicable to the three Presidencies, be published in General Orders:

Para. 3. "We direct that Fees upon Commissions granted by His Majesty to the Company's Officers, shall be hereafter collected by one uniform rule in the same manner as the Fees on Company's Commissions are now collected and credited, and that the Sum to be hereafter granted to the Military Secretary of the Commander in Chief, be Two Thousand Two Hundred and Fifty Rupees (Rupees 2,250) per month, in lieu of Fees and all other Emoluments.

4. We observe a great discrepancy in the rates of Fees levied from Officers of the same rank at our several Presidencies, and that those rates in some instances materially exceed the rates paid by Officers of corresponding rank in His Majesty's Service.

5. We therefore direct, that the Fees on Commissions to be hereafter paid by the Company's Officers shall, at all the Presidencies, be the same as those charged to His Majesty's Officers of corresponding rank; and that one moiety of those Fees be charged for the Company's and the other moiety for the King's Commissions."

MESSING OF OFFICERS PROCEEDING BY GOVERNMENT TROOP SHIPS.

FORT ST. GEORGE, *3d December* 1839.

No. 186 of 1839.—The following General Orders by the Honorable the President of the Council of India in Council, are published for the information of the Army.

GENERAL ORDERS BY THE HONORABLE THE PRESIDENT IN COUNCIL.

Fort William, 18th November 1839.

No. 195 of 1839.—The Hon'ble the President in Council having taken into consideration, as a general question, the terms upon which Officers proceeding on duty, or on account of sickness, on board Government Troopships, or Government Vessels of any kind when used as Troop Ships, or of Transports hired by Government, ought to be messed at the Captain's Table, or if the Vessel be a Ship of War of the East India Company, in the Ward-room, has resolved, that the rate for a Subaltern shall not exceed (4) four Rupees per diem, and for a Captain or superior Officer, (5) five Rupees. It shall be incumbent therefore on the Masters or Commanders of Vessels employed as Troop Ships or Transports, to provide such a Table at the rates stated as may above, under the control of the Marine Board or Head of Department through whom the Vessel is engaged or superintended.

The rates above laid down are intended to be in modification of the previously established rate of (8) eight Rupees per diem, of which six Rupees were made payable by Government, and two by the Officer embarking.

It is not considered necessary to settle the rates of Passage and Table Money for the Wives and Children of Officers, which may continue as heretofore adjusted in accordance with established custom.

It is to be understood that the above rates provide only for the Table Allowances without Wines, for which the Commander may have his separate charge, or the Officers may make their own provision.

When Officers are ordered to proceed on Service on board Ship, the Government will pay the Table-Allowance at the rate stated. Officers proceeding to Sea under circumstances which do not entitle them to have their Table Money paid by Government, will be entitled to be received and messed on board of any Government or hired Vessel employed on Transport Service, at the rates specified, which will be realized through the Marine Board or Head of Department.

These rules, however, will have no application to cases of Officers taking their passage on their private account, otherwise than in the course of service, nor to other than military persons when provided with passage and accommodation on board of Government or hired Vessels. Sick Officers returning from Service will have to pay their own Table Money.

The President in Council directs that these Rules shall be made applicable to Government Steamers at Bombay, as well as to those belonging to the Pool of Calcutta, wherever these Vessels are used as Transports, or for the conveyance of Troops and Officers on Service.

18. The Officer Commanding will be accountable for the recovery of the amount of all purchases, and for the correctness of all payments from the proceeds of Estates, it being his province to nominate the Auctioneer, and when he may see fit to prohibit the delivery of goods until their value has been received; credit may be given to Military persons, but not beyond the second issue of Pay after the sale.

19. It is ordered that within one fortnight after such second issue of Pay, the Officer Commanding shall cause to be entered in the said Register an account in the form annexed, debiting himself with all the credits of the Estate and crediting himself with all payments of Regimental debts, and shewing that the balance has been lodged in the Pay Office and a transfer receipt obtained, and a copy of the same, attested as in para. 3, together with all vouchers for all payments and the Sub Treasurer's receipt for the balance, is to be forwarded to the Secretary to the Government in the Military Department as soon as the Sub Treasurer's receipt for the balance shall have been received.

20. The Auctioneer shall in no case receive a greater per centage or remuneration than 5 per cent. which shall be paid by the Commanding Officer on the day on which the accounts of the Estate are finally closed, if his accounts are correct, and the amount of purchases recovered, but not otherwise.

21. If there be any house or article of great value which may seem to the Officer Commanding to justify the postponement of the sale or the extension of credit beyond the time by this Order limited, he may, if he sees fit, postpone the

sold, etc., on his own responsibility, make a special Agreement for the payment of the price of such house or articles of great value, such postponement of the sale and such special agreement being immediately brought to the notice of the Secretary to the Government in the Military Department, together with the special circumstances which have occurred to such Officer Commanding to justify a departure from the terms prescribed in the 19th para. of this Order.

23. When any Military person subject to an Estate shall, before the full payment of the account of his purchases, apply for leave of absence on sick certificate or otherwise, it will be the duty of the Officer in charge of the Estate from which such purchases have been made to recover the payment of the debt prior to the departure of the individual from his station, or to report the default to the Accountant General and to the Secretary to Government in the Military Department.

24. An Officer Commanding, quitting or being relieved from the charge of a Regiment, shall render to the Officer succeeding to such charge, the account of every Estate, whether of an Intestate or otherwise, the Accounts and balance of which shall not have been already rendered to the Secretary to Government in the Military Department, or Executor, as the case may be; and such succeeding Officer will be responsible for the correctness of the account, unless, at the time of receiving charge of the Regiment, he objects to the account and balance and transmits his objections to the Secretary to Government in the Military Department.

25. In case of any Officer Commanding dying, or being by sickness incapacitated from rendering any account, the next Senior Officer shall direct the assembly of a Committee consisting of three of the Senior Officers of the Station or Regiment, for the purpose of taking an account of all Estates, whether of Intestates or otherwise, the accounts and balances of which shall not have been already rendered to the Military Secretary, or Executor, as the case may be; and the Committee so assembled shall render the accounts taken to the Officer succeeding to the Command, in case of such death or sickness.

26. The Officer Commanding will be held responsible for the strict fulfilment of the several provisions of this Order, and any loss which may arise by a deviation therefrom, will be recovered from their pay and allowances under the authority of Government.

27. They will likewise on making over an Estate to the Secretary to Government in the Military Department, to the Executor, or to the Registrar of the Supreme Court, as the case may be, submit a certificate of their having done so for production at the Fort St. George Gazette. No charge for Advertisements inserted in that paper will be hereafter admitted against the Estate of any deceased Officer or Soldier.

28. Such parts of the foregoing Rules as are applicable to the cases of Soldiers dying in the Service, and are in conformity with the Mutiny Act and Articles of War relating thereto, are hereby extended to such cases.

Officers (of whatever rank) must be ten years in India, before they can be entitled (except in case of certified sickness, and as hereafter specified,) to their vacation, to be absent on furlough, and the same rule is applicable to Assistant Sur-

geons, and Veterinary Surgeons. The furlough to be granted by the Commander in Chief at each Presidency, with the approbation of the respective Governments.*

Officers who have not served ten years in India, but whose presence in England is required by urgent private affairs, may be allowed a furlough for one year without pay.

A Cornet is (appointed previously to the 1st September 1838,) after seven years' residence in India, is allowed to go home on furlough and receive the pay of Major, £291 per annum. Should he go home from sickness prior to this period of service, he is allowed the pay of Captain only, viz. £191, 13s. 5d. per annum.

If appointed subsequently to that date, after seven years' residence in India, the pay of Captain, viz. £191, 13s per annum; and if compelled by ill-health to go home prior to this period of service, the half pay of Captain, at £127 15s. per annum.

A Cornet or of Sixes is allowed furlough pay only in case of going home from sickness.

Officers going to England on furlough, are required immediately to report their arrival by letter to the Secretary, stating the name of the ship in which they came, and their address, forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of the return of the officer to his presidency.

Officers are required to join the Establishment to which they belong at the expiration of the three years' furlough, unless they shall have obtained an extension of leave from the Court six months before the expiration of that period. No furlough will be exceeded, except in cases of sickness, certified in the manner hereafter mentioned, or in cases in which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All Officers finding it necessary to solicit a further leave of absence on account of ill-health, if resident in London or its vicinity, appear before the Company's Examining Physician, Dr. J. R. Hume, 9 Cornwall street, who will report to the Court of Directors his opinion on the state of such Officers' health, and if resident in the country, in any part of the United Kingdom, they must transmit with their letter of application for such leave, a certificate according to the following form, signed by at least two gentlemen, eminent in the medical profession, viz.:

I hereby certify, that I have carefully examined, (state the nature of the case as well as the name of the party,) and I declare, upon my honour, that according to the best of my information and belief, ——— is at present unfit for military duty, and that it is absolutely necessary for the recovery of his health, that he should remain at least ——— longer in this country.

After permission to such extension of furlough before granted, such further proof shall be made of the same examination, or by such other evidence as shall be deemed satisfactory.

Officers abroad in any part of Europe, applying for remain a further time from their duty on account of ill-health, are to furnish a certificate of two eminent physicians in the district, with the attestation of a magistrate, that the persons who signed the certificate are physicians.

Officers having obtained an extension of furlough to a given period must at its expiration apply for permission either to return to their duty, or to reside a further time in England.

No Officer who has failed to obtain an extension of furlough, will be considered eligible to return to the service after five years absence under the Act of 28 Geo. III. Cap. 32, Sec. 10.

Every Officer upon leaving India, will receive a printed copy of the General Order on this subject, in which he will observe that his conduct in accordance with the regulations will not be accepted as any postponement of the breach of them. Officers therefore, who shall go home on furlough, and who shall not at the time appointed, or within such further time as the Court may allow, return to their duty, will be liable to have their return to the Presidency to which they belong within the period of three years from the commencement of their furlough, will respect themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No Officer on furlough can receive pay for more than two years and a half from the period of his quitting India until he returns, except Colonels of Regiments, and those of the rank of Lieutenant Colonel regimentally, when promoted to that of Major General; the latter are only allowed to draw the pay of their Brevet rank beyond the above period.

* A second furlough is not to be granted to officers when the public service will admit of their absence, neither will they receive any other retiring pay when absent in Europe on such furlough, except in cases of sickness, certified in the manner directed in the case of the extension as published in the Bengal code, and is applicable to all the presidencies. Any officer who shall have gone home on furlough on full pay, and who shall not return to his duty at the expiration of his furlough, shall be liable to have his return to the Presidency to which he belongs within the period of three years from the commencement of his furlough, will respect themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe. GENERAL ORDER BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 29*th September* 1841.

No. 920 of 1841.—The Right Hon'ble the Governor General of India in Council is pleased to publish for general information, the following paragraph of a letter from the Hon'ble the Court of Directors to the Governor in Council at Bombay, No. 42, dated 4th August 1841, on the subject of the extension of Furloughs to New South Wales, or any other of Her Majesty's Colonies: the Rule therein laid down being applicable to all the Presidencies:

"Para. 2. In future cases when Officers may be granted a Furlough on sick certificate, or on private affairs, to New South Wales, or any other Colony, we desire that they may be separately informed, that any applications which they may have occasion to prefer for extended leave are to be addressed to us in sufficient time to allow of their receiving our reply by the period when they should embark on their return, so as to ensure their arrival within the original term of Furlough; that if the application is preferred on account of health, it should be supported by Certificates from the Medical Staff Officers, or other undoubted medical testimony on the spot, shewing that the applicants are then incapable from ill-health to return to the performance of military duty in India, and specifying the term for which they consider additional leave absolutely necessary for the recovery of the applicant's health, and that if the application is preferred on the ground of urgent private affairs, it will be required, that the nature of those affairs should be specified, and that the necessity for his continued absence should be certified by his professional adviser on the spot."

OFFICERS RETURNING TO THEIR DUTY VIA BOMBAY.

Extract from a letter from the Honorable the Court of Directors, dated 18th Oct. 1837.

"Referring to our Military Letter of the 15th Aug. last, we have now to apprize you that Officers returning to their duty on the Bengal or Madras Establishments via Bombay, will be granted the same advantages as Officers coming to England by the same route, viz. that when their Regiments shall be stationed at posts nearer to Bombay than to the Capitals of their respective Presidencies, their Indian allowances shall commence from the date of their landing at Bombay, provided that no avoidable delay take place in their joining their Regiments."*

Fort St. George, 27th March 1838.

With reference to G. O. G. 2d January 1838, No. 13, the Right Honorable the Governor in Council deems it necessary for the guidance of the Pay Department, to specify a limit beyond which Indian allowances shall not be passed to Officers of this Establishment returning to their duty via Bombay. It is therefore declared that, except in cases of certified sickness, one month in addition to the regulated period according to distance, be the utmost extent allowed.

OFFICERS EMBARKING FOR EUROPE FROM CALCUTTA OR BOMBAY.

Fort St. George, 27th March 1838.

Officers who may be permitted to proceed to another Presidency for the purpose of embarking thence for Europe on furlough, or medical certificate, or of retiring

from the service,* provided the port of departure for Europe shall not be more distant from the place which they shall have quitted in their own Presidency than any port of embarkation within such Presidency, shall be permitted to draw, in like manner as above, their Pay and allowances up to the date of despatch of the vessel on which they embark, provided it take place prior to the expiration of 3 months from the date of publication of their leave in General Orders, beyond which period they will be entitled to pay only, unless sanctioned by Government on application explaining the cause of detention.

Extracts from a letter from the Honorable the Court of Directors in the Military Department, under date the 19th April 1839.

PARA. 2. "The decisions passed by you under which Officers serving at posts nearer to Madras than to Bombay are not admitted to the indulgence of receiving Indian allowances after quitting the limits of their own Presidency, were in accordance with our orders, and have our approbation.

3. "With reference to the further communication on this subject made in your letter of the 31st December 1838, we have to apprise you that Officers of the Madras Establishment, serving in the Northern Circars, were not contemplated as ever requiring to traverse the Peninsula for the purpose of proceeding to England via Bombay. Officers so situated being nearer to Madras than Bombay, are not entitled to the benefit of the arrangement. You will now revise the Regulations on this subject, and declare that Officers whose Corps are serving to the North of the Kistnah, and also of the Toombuddra, (the Southern Mahratta Country being now occupied by Madras Troops) are, excepting those in the Northern Circars, entitled to it's benefits.

OFFICERS ABSENT AT THE CAPE—ALLOWANCES TO THEM.

Extracts from a Letter from the Hon. the Court of Directors, dated the 16th Aug. 1837.

5. With reference to the second subject, viz. the issue of the absentee allowances of Officers who are absent at the Cape of Good Hope, we now empower you to frame a Regulation by which our Officers who are entitled under existing Rules to draw Indian allowances upon their actual return to India from leave of absence to any place within the limits of the Company's Charter, or the Cape of Good Hope, or the Mauritius, or the Island of St. Helena, shall be entitled through their Agents at their respective Presidencies, to draw their allowances from month to month, upon their giving sufficient security to refund the whole amount in the event of their proceeding to England without previously returning to India, or such part of the amount as may have been over issued on any other account.

6. You will take measures for introducing similar Regulations at the Presidencies of Madras and Bombay, to the Governments of which we shall send copies of the present Dispatch."

Art. 6th. The Secretary must be an officer of the Army and a subscriber, to be nominated by the Directors, and liable to removal by the same authority.

Art. 7th. A monthly allowance of Rupees 200 is fixed as the Secretary's salary, and Rupees 300 on the amount of his Office Establishment.

Art. 8th. The Directors of the Fund will hold regular monthly meetings, but no meeting of the Directors consisting of a smaller number than five, shall be competent to the transaction of business. Special Meetings will be held whenever required by any urgent or particular business, and it will rest with any Director, or with the Secretary, to represent the occurrence of such necessity to the President, who will convene a special meeting within ten days from the date of his receiving the application; but no special meeting shall be called, with the view of reconsidering resolutions which may have been already adopted by a former meeting of Directors, unless at the requisition of a number of Directors greater than that which attended such meeting.

Art. 9th. The Secretary will invariably lay before the Directors, either at the regular or special meetings, all letters that may have been received by him since the last meeting;—minutes of the proceedings of all meetings will be recorded and authenticated by the signatures of the Directors present. The Secretary will also submit to the Directors who attend, drafts of all the letters which, in these meetings, he may have been desired to write;—letters demanding an immediate answer, when such may be of an ordinary nature, may be replied to by the Secretary, without waiting for a meeting of the Directors; but every letter proposed to be despatched by the Secretary, must previously receive the special sanction of three Directors, signified by their initials to the drafts, which will be sent to them for consideration.

Art. 10th. The Secretary will keep the following books:

An annual Ledger, exhibiting the accounts of Donations and Subscriptions, as rendered by Paymasters.

A Cash Book, showing the monthly receipts and payments, and balancing the accounts of the Fund at the end of each month.

A Book containing an annual Account Current of the transactions of the Fund in Europe, also annually made up.

A Book containing an Annual Statement of Accounts, arising from the audits of the two preceding Accounts Current.

A Book of the proceedings of the Directors.

A Book containing copies of all letters despatched.

A Book containing a list of Subscribers.

Art. 11th. The Secretary's Office in India is solely one of check and audit of accounts, and he is prohibited from receiving Cash or Bills in liquidation of sums due to the Fund, which are invariably to be lodged by the respective parties in the Offices of Paymasters.*

Art. 12th. In cases when the amount of such payments exceeds the ordinary monthly subscription and interest of donation, subscribers will report the circumstance to the Secretary.

Art. 13th. All the books, correspondence, &c., of the Fund, are open to the inspection of any Subscriber, at the Military Fund Office in Fort St. George, from 11 to 5 o'clock every day (Sundays excepted.)

Art. 14th. When any new regulations shall appear to the Directors to be advisable, such regulation shall be circulated to corps for consideration, in the manner detailed in the 1st Article of this Section, and the affirmative or negative of the majority of votes laid down in Article 4th, shall decide its adoption or rejection.

Art. 15th. If any subscriber or claimant on the Fund, shall be desirous to appeal from the decision of the Directors to that of the subscribers at large, upon any subject which may not be specifically decided by the regulations, whatever, provided it be approved by *three Directors*, shall be referred and decided upon in the

* The particular attention of Subscribers is requested to this rule. Payments may be made by them to their Agents into any military Pay Office, but they cannot in any way be received by the Secretary.

manner prescribed in the preceding Article, and the decision shall be final in all cases whatever: any further agitation of the question, by process of law or otherwise, being deemed in itself to be an absolute forfeiture of all claims on the Fund.

Art. 16th. When a reference shall be made to the Subscribers at large, respecting either a proposed regulation, or any appeal, the result of such reference shall be communicated to corps for the information of Subscribers.

Art. 17th. In order to prevent litigation respecting the disposition of this institution, it shall be required that every application for the benefits of the Fund, shall be accompanied by an obligation of the party applying, to conform unconditionally to the decision of the Directors, and of a majority of the Army, in cases which admit a reference to the general suffrage.

Art. 18th. Generally all payments due from the Fund are to be made half-yearly, on the 30th of June, and on the 31st December; but in cases when pensioners or claimants on the Fund are about to embark to Europe, all arrears are to be paid up to the latest date practicable.

Art. 19th. Any arrear which may be due to the Fund by a Subscriber, or by an Annuitant who may have received an over payment, loan, or advance, shall in all cases be deducted from the first payments to be made from the Fund, to the person owing such arrear.

Art. 20th. All income derived from the Madras Military Fund is declared to be unalienable; and the fact of attempting the alienation of such income, in any manner, or under any pretence, shall be deemed in itself a forfeiture of all future benefits from the Fund.

Art. 21st. Dismission from the service shall be in all cases considered a forfeiture of all claims on the Fund, and of all subscriptions already paid; but temporary suspension from rank and pay is not to be considered a forfeiture of such claims, provided the subscription be continued during such suspension, or, if the subscription be discontinued, provided the arrears so arising and interest on the amount, shall be paid up within a period equal to that of the suspension, and immediately succeeding it.

Art. 22d. If a Subscriber who may be dismissed from the Service by a Court Martial, or otherwise, shall afterwards be restored to the service, he shall be readmissible to the Fund, on payment of the arrears that may have accumulated, with interest thereon, in the same manner as if he had suffered only temporary suspension.

Art. 23d. All property belonging to the Military Fund at any period shall be invariably vested in the Honorable Company's Securities.

Art. 24th. When interest may be chargeable, according to these regulations, on sums either receivable or payable by the Military Fund, on account with subscribers to that Fund, or their families or representatives, that interest shall be always calculated at the rate of 8 per cent. per annum.

Art. 25th. The Honorable Court of Directors having made it obligatory on Cadets and Chaplains, to become Members of the Military Fund, it will be the duty of the Secretary to communicate to each Cadet and Chaplain entering the Service, that his name has been enrolled in the list of Subscribers, in conformity with the condition of his appointment; at the same time requiring the parties to state, whether they are married or not, when the Secretary will inform them of the amount of donation they will be required to pay; such communication to be made on the promulgation of the order admitting any Cadet or Chaplain into the service.

Art. 26th. The management of the affairs of the Fund in England will be conducted by a Committee of 24 Officers, Subscribers resident in that country, of whom three to form a quorum.

Art. 27th. The Committee will have Agents to conduct their proceedings, with a salary of £225 per annum, including Office Establishment and all contingencies.

Art. 28th. The Agents to be nominated by the Directors in India, and liable to removal by order of a majority.

Art. 29th. It shall be a part of the duty of the Agents, to furnish every Cadet and Chaplain, on his application, with a printed copy of the Regulations of the Fund, and every information requisite relative to the existence and objects of the institution.

Art. 30th. When vacancies occur in the number of the Committee at home, they are empowered to elect Officers, (Subscribers to the Fund) to fill them.

Art. 31st. All payments on account of the Fund in England, will be made in the same manner as pay is issued to Officers upon furlough, upon certificates to be executed by the Agents.

Art. 32d. The Agents' drafts will invariably be drawn in favor of the parties who are entitled to receive the pensions, &c., or their order.

Art. 33d. With the view of securing the Fund against decay and ultimate failure, the original intention in regard to donation shall be strictly adhered to, namely, that the donations paid by Officers be "for the purpose of forming a capital," and that the subscriptions of Officers, the Company's donation, the interest on the capital, and all other profits, be alone available to defray the ex-

penses of the Fund, and the books and accounts of the Fund shall be kept to that effect.

Art. 34th. Should the subscriptions of Officers, the Company's donation, the interest on the capital, and all other profits available to defray the expenses of the Fund, fall short of the demands upon it, so that the total amount of the former will not defray the amount of the annuities and other claims, then it shall be in the power of the Directors to make a proportionate deduction, according to Table D, from the annuities of all widows and children, until the state of the Fund shall afford the means of complete payment.

Art. 35th. The Secretary shall lay before the Directors at the regular monthly meeting in November each year, an estimated state of the Fund for the current year; that the Directors having taken the same into consideration, shall declare what deduction, if any, may be required on annuities for the ensuing year, on the principle of the preceding Article.

MEDICAL REGULATIONS.

ELIGIBILITY FOR THE SITUATION OF SUPERINTENDING SURGEON.

FORT ST. GEORGE, 9th June 1835.

No. 226 of 1835.—The following General Orders by the Honorable the Governor General of India in Council, under date the 25th May 1835, No. 28, by which G. O. G. No. 22, dated the 14th January 1834, is cancelled, is published for the information of the Army.

"GENERAL ORDERS BY THE HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 25th May 1835.

No. 128 of 1835.—The following Regulation, on the subject of the eligibility of Surgeons to the situation of Superintending Surgeon, is substituted for that published in General Orders of the 19th March 1833, which is hereby rescinded.

2. No Medical Officer is to be considered eligible to the situation of Superintending Surgeon, who shall not have served for two years in the military branch of his profession, at some period subsequently to his promotion to the rank of Surgeon, unless he shall have held for a similar period the appointment of a Marine or Presidency Surgeon, or Surgeon to the General Hospital in Bengal, or some corresponding situation at either of the other Presidencies.

3. Surgeons in the Company's Service, who have served in that rank for two years with the Troops commanded by British Officers in the Nizam's Army, or the Army of any other Native state, shall be considered eligible to the situation of Superintending Surgeon, in like manner as if they had served for the same period with a Regiment of the Line.

WM. CLEMENT, Colonel,
Secy. to the Govt. of India, Mily. Dept."

ROBERT CLERK,
Secretary to Government.

SUPERINTENDING SURGEONS, PENSIONS TO MEDICAL OFFICERS, THE MEDICAL BOARD, &c.

FORT ST. GEORGE, 15th July 1842.

No. 326 of 1842.—The following General Order by the Honorable the President in Council, is published for the information of the Army.

"GENERAL ORDERS BY THE PRESIDENT IN COUNCIL.

FORT WILLIAM, *July 1st*, 1842.

No. 760 of 1842.—In obedience to the Orders of the Honorable the Court of Directors, in their Military Letter to the Government of India, No. 6, under date the 4th May 1842, the following Regulations are to have effect in the Medical Department of the three Presidencies from the 16th instant.

The selection of Superintending Surgeon to be considered a Staff Appointment, for which each is to be fitted by a zealous and able discharge of their professional duties, and the appointment to future vacancies will be made from the Seniors eligible, and the appointment to take effect in succession, whenever it may be the opinion of Government, from any disqualification, that seniority is required for the maintenance of the public interests.

The present system by which all Pensions in the Medical Service, superior to that of Surgeon of Captain's full pay after 17 years service in India, are dependent on promotion to the Staff Appointment of Superintending Surgeon, is abolished, and in its stead, the principle of granting Good Pensions according to length of service established, upon the following scale, viz.

After 23 years Service, 3 years Furlough included, as at present				£700	a year
" 25	"	"	"	£800	"
" 27	"	"	"	£900	"
" 29	"	"	"	£1000	"
" 31	"	"	"	£1100	"
" 33	"	"	"	£1200	"

The present Regulations by which Superintending Surgeons are entitled on quitting Furlough Pensions of £800 and £900 a year, and Members of the Medical

Board to Pensions of £800 and £700 a year, according to period of Service in those ranks respectively, will cease to be the rule of the Service for Medical Officers, after the date of the introduction of the new arrangement; but individuals then in the Service, and who may be appointed to the offices of Superintending Surgeon and Member of the Board within ten years from that date, will be allowed the option of retiring upon Pensions upon the old scale of length of service in those Ranks, instead of the new scale of length of service in India.

The designations of 1st, 2d and 3d Members of the Medical Board is abolished, and the following Titles are substituted:

Physician General.....1st Member,
Surgeon General.....2d Member,
Inspector General of Hospitals.....3d Member.

The Members of the Board will accordingly be commissioned with these Titles when appointed to the respective positions abovementioned, and when retiring from the Service, will be placed on the Retired List with the Title then held by them.

The Regulation which fixes the rank of Brigadier General as the relative Army Rank of the Members of the Medical Board, will equally apply to these Members under the new Titles now established.

All Surgeons of 9 years' Service, to be designated "Senior Surgeons," and their relative Rank with Officers of the Army to be that of Major. This arrangement, like all others having reference only to the rank and designation of Medical Officers, confers no claim whatever to superior allowances, and will make no change whatever in the nature of their employment.

W. M. N. STUART, Major.
Offg. Secy. to the Govt. of India, Mily. Dept."

S. W. STEEL, Lt. Col., Secy. to Govt.

FORT ST. GEORGE, 25th July 1843.

No. 113 of 1843.—Under instructions from the Honorable the Court of Directors, received through the Government of India, the Most Noble the Governor in Council is pleased to publish the following regulations on certain points connected with the Medical Rules published in G. O. G. No. 196, dated 15th July 1842.

1st. The Physician General, Surgeon General and Inspector General of Hospitals will, collectively, continue to perform the duties of the Medical Board, as heretofore,—their period of service, reckoning from the date of promotion to Inspector General of Hospitals, will be five years, after which they will be required, as was the case with a Member of the Medical Board, to retire; and, as vacancies occur, the Inspector General will be promoted to the rank of Surgeon General, and the Surgeon General to that of Physician General.

2d. No alteration has been made in the regulation which prescribes that "vacancies in the Medical Board shall be filled up by selection from the "Superintending Surgeons, of such as shall be most distinguished for professional "acquirements and the zealous discharge of their duties, due regard being had to "seniority in the Service, when the qualifications of the individuals appear to be "adequate to the correct performance of the duties" of the office."

3d. A Superintending Surgeon, in virtue of his Staff appointment, is to rank over all Garrison and Regimental Surgeons within his Division, who may be senior to him in the list of Surgeons; but, in such cases, if Medical Officers desire it, they will be transferred to a Division, the Superintending Surgeon of which is their senior in the Service.

4th. The situation of Superintending Surgeon being considered a Staff appointment, the Government will be at liberty, should the interests of the public service require it, to remand him to the rank of Regimental Surgeon, or rather to remove him from his Staff appointment.

5th. The regulation published in G. O. G. No. 226, dated 9th June 1835, which provides that no Medical Officer shall be considered eligible to the situation of Superintending Surgeon, who shall not have served for two years in the military branch of his profession, at some period subsequently to his promotion to the rank of Surgeon, continues still in force.

6th. A Medical Officer holding the appointment of Superintending Surgeon before his embarkation to Europe, will, on his return to India, be entitled to resume his appointment as a Superintending Surgeon.

S. W. STEEL, Lt. Col. Secy. to Govt.

DISTRICT SURGEONS AT THE PRESIDENCY.

DUTIES OF THE DISTRICT SURGEON.

Difficulties having occasionally been experienced by Europeans residing at the Presidency, who may not have the means of providing medical aid for themselves and families, the following local distribution of the duties of Medical Officers at Madras is published for general information.

North West District.

The Officer appointed to the Medical charge of Vepery, and its vicinity, shall be considered also in charge of the sick to the Northward of the Mount Road, and extending to Purseewaukum.

South East District.

The Medical Officer appointed to attend the sick Officers at St. Thomé, shall extend his assistance to all Europeans, of the description already mentioned, who may reside at St. Thomé, Royapettah, and South of the Mount Road.

Black Town District.

The Surgeon of the Black Town will be prepared to extend his aid to the Black Town and Royapooram, and the European Inhabitants in that vicinity.

The duty of affording medical aid to Officers on sick certificate at the Presidency, will be performed by the several Officers above mentioned within their respective ranges, and by the Garrison Surgeon, who will also co-operate in the treatment of such cases with any of the District Surgeons when required.

NEWLY ARRIVED ASSISTANT SURGEONS.

Assistant Surgeons on arriving from Europe, will be placed, in the first instance, with some of the Company's European Corps, Garrisons, or other fixed Hospitals as may be recommended by the Medical Board, with a view of undergoing a probationary course of hospital attendance and practice to qualify them for independent charges; and they will invariably continue thus under probation, until they are permitted with the sanction of Government to enter on the general duties of the Army, having been previously reported as duly qualified by the Medical Board.

SURGICAL INSTRUMENTS, &c.

Every Surgeon and Assistant Surgeon, whether in the Military or Civil Department, will be supplied from the public stores with Surgical instruments, and a copy of the Code of Regulations for the Medical Department, and will be held responsible for their proper preservation; their instruments, &c. are to be considered as attached to the Officer, and not to the charge he holds, and consequently on his removal he will carry them with him.

Every Medical Officer proceeding on leave beyond the limits of the Presidency of Fort St. George will deliver over his instruments, &c. to the Medical Storekeeper at the Presidency, if he takes his final departure from thence, or if otherwise, to the Deputy Medical Storekeeper of the Division at which he may be serving; and when a Medical Officer dies, it will be the duty of the Superintending Surgeon, immediately to take measures to secure the instruments which were in the possession of the deceased Officer.

PROMOTION OF INDIVIDUALS IN THE SUBORDINATE GRADES OF THE MEDICAL DEPARTMENT.

Fort St. George, 16th July 1839.

No. 111 of 1839.—The Right Honorable the Governor in Council is pleased to establish the following regulations for the promotion of individuals in the subordinate grades of the Medical Department.

1. No Medical Apprentice shall be promoted to the rank of Assistant Apothecary until reported qualified by the Superintendent of the Medical School—and any individual who shall fail to qualify himself by the expiration of the prescribed course of instruction will be removed from the Service.

2. No Assistant Apothecary shall be promoted to the rank of 2d Apothecary, nor any 2d Apothecary to the rank of Apothecary, until he shall have passed his examination for the superior grade before a Board of Medical Officers at the Presidency.

3. The Board will be composed of a Member of the Medical Board as President, with the Superintendent of the Medical School, or his Assistant, and the Senior Surgeon holding a fixed Medical appointment at the Presidency as Members.

4. The examination will embrace the following points,—Pharmacy, and Materia Medica, reading and writing prescriptions, minor operations of Surgery, general principles and practice of vaccination, with such a knowledge of the nature and treatment of diseases in general as is considered sufficient to qualify the individuals for such charges as may usually devolve upon them.

5. In the extent to which the examination is to be carried in the several particulars above specified, the Board will be guided in each case by the opportunities which the individual may have enjoyed of acquiring professional knowledge, as having had the advantage of previous instruction in the Medical School, or otherwise; but under no circumstances is any individual to be passed for the superior grade, unless found perfectly qualified for the duties which he will actually be required to perform.

6. Each individual passed by the Board will receive a certificate of qualification for the next superior grade.

7. The examination will take place half yearly, in the months of January and July, and for the convenience of individuals who may desire to obtain certificates of qualification in anticipation of their promotion, Assistant Apothecaries from No. 1 to No. 10, and 2d Apothecaries from No. 1 to No. 5, inclusive, will be allowed to present themselves before the Board for the purpose, which will obviate the necessity of their proceeding to the Presidency on their subsequent promotion.

8. Second Apothecaries and Assistant Apothecaries succeeding to promotion when at distant Stations, not having already passed, will be appointed to *act* in the superior grade, until an opportunity may offer for their undergoing the prescribed examination at the Presidency.

9. The assembly of the Board of Examiners and all subsidiary details will be under the direction of the Commander in Chief.

S. W. Steel, Lt. Col., *Secy. to Govt.*

Fort St. George, 15th October 1841.

No. 181 of 1841.—In order to give just consideration to the claims of Medical Subordinates who may, by the exigencies of the Service, be continued for a protracted period under the provisions of Para. 8, G.O. G. 19th July 1839, No. 111, and become unfit for further service before an opportunity offers of their undergoing the required examination, the Right Honorable the Governor in Council is pleased to direct that they shall, in the first instance, be transferred to the Pension Establishment in the rank which they have permanently attained; but that any Medical subordinate so situated shall be entitled to the Pension of the rank in which he was acting, from the date of his transfer to the Pension Establishment, provided that he shall, immediately, or within the shortest practicable period, pass the examination required for a Medical Subordinate of that grade.

TRIPLICANE DISPENSARY.

Fort St. George, November 7, 1843.

The Most Noble the Governor in Council having sanctioned the establishment of a Public Dispensary on the south side of Madras, for the purpose of affording medical assistance to the poorer classes of the Inhabitants of Triplicane, Royapettah and St. Thomé, notice is hereby given that the house adjoining Hafiz Ahmed Khan's Mosque has been secured for that purpose, and that the Institution was opened to the Public on the 1st instant.

All serious accidents, as well as cases of an emergent nature, will be received into the Dispensary as in-patients, accommodation having been provided for a limited number of such; and persons not requiring hospital treatment, will be supplied with medicines and medical advice gratis, on application.

By order of the Most Noble the Governor in Council.

MEDICAL SCHOOL.

Near the General Hospital.

GEORGE HARDING, Esq. ..... *Superintendent.*
JAMES SHAW, Esq. ..... *Assistant Superintendent.*

This Institution, which is attached to the Presidency General Hospital, was established by the Right Honorable Sir Frederick Adam, K.C.B., by a General Order of Government, dated 12th February 1835, for the instruction in "Medicine and Surgery" of East Indians, and Natives, entering the Medical branch of the Service.

The course of education consists of Materia Medica and Pharmaceutical Chemistry, Anatomy and Physiology, Surgery, and Practice of Medicine.

From the want of available accommodation for the number of Pupils, it was resolved by Government to erect a building to be appropriated solely to the objects of the Institution, and the foundation of that now occupied by the School was laid in December 1836.

Considerable progress has been made in forming a Museum, which, in addition to morbid specimens, possesses numerous *Anatomical* preparations for illustrating that branch of the course of instruction.

Chemical apparatus, sufficient for the purposes of the Institution, has been supplied, together with a selection of works on the several branches of study, for the purpose of forming a library of reference, and of providing the pupils with such books as may be required for private study.

Admission to the School was, at first, confined to students belonging to the subordinate grades of the public medical department, but the institution has now been opened to the community at large, under the following regulations, prescribed by Government.

The pupils belonging to the public service consist of two classes, namely, Europeans or East Indians, and Natives, the former being in the grade of "*Medical Apprentice*" and the latter of "*Native Medical Pupil.*" They are promoted to the grades of "*Assistant Apothecary,*" and "*Second Dresser,*" as they are required for the public service, after examination, and strictly according to merit.

Regulations.

Medical Board Office, 25th August 1838.

The following Regulations, for the admission of Private Students, or persons not in the Public Service, to the benefits of the course of instruction given at the Medical School, having been approved of by the Right Honorable the Governor in Council, are published for general information.

1. Applicants for admission not to be under 15, nor above 20 years of age.

2. To possess a sufficient knowledge of the English language, and of the other branches of an ordinary education, to qualify them for the study, an elementary knowledge of Latin being desirable but not indispensable.

3. Their qualifications to be ascertained by examination by the Medical Board, after which, if found eligible, their admission will be sanctioned.

4. On being enrolled as Students, they are to be subject, exactly in the same manner as those of the public service, to all the present rules for the internal conduct of the Institution, and to such others as necessity may suggest, for the class of Pupils to which they belong, for the purpose of securing attention, regular attendance, &c.

5. Private Students to have access, in common with the others, to works of reference belonging to the school, but to provide their own stationery, and books required for private study: all other benefits to be gratuitous.

6. Objectionable conduct to be brought to the notice of the Medical Board, and to subject the Students to expulsion, or such other penalty as may be considered necessary for the preservation of the discipline of the Institution.

N. B.—As Students cannot be admitted to a class after a course of instruction has commenced, it is necessary that all applicants should be prepared to enter on their duties with the next Public Class formed subsequently to their admission, of which due intimation will, from time to time, be published in the Fort St. George Gazette.

Chaplains' Visits to Out-Stations.

Extracts from Court's Despatch ——— 1842.

"In section 27 of the Regulations respecting leave of absence and Deputation and travelling allowances which we have recently approved, you will find a rule on the subject of travelling allowances on joining a Station, and when any change of place except at the desire of the Chaplain and Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding, we think it desirable that for every circle of stations the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject.

The frequency of ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than 3 or 4 members of the English Church, and though it might not be right to exclude these few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be allowed, while to others, visits twice, thrice or four times a year might be expedient, and to others again which might be more populous, it might be desirable that visits should be made once in six weeks or once a month.

4. When a circle of Stations may from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty should be specially appointed thereto, and thereforeare be entitled to charge travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

5. We should lament that the practice of visiting stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense and much visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges, not exceeding those authorized in our Despatch of the 30th October 1839, as are referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains absenting from their duty are subjected to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund meeting to a certain extent the extra charges, incurred by occasional or provisional visits of the Clergy to Stations at which they do not reside."

Parties desirous of being married should apply direct to some Surrogate residing near them, but from places where there is no Surrogate application should be made to the Registrar, who will procure a commission, under the hand and seal of the Lord Bishop, or his Commissary, authorizing some person to administer the usual oaths and grant the license under the episcopal seal. None but a Clergyman of the Church of England can marry by virtue of an episcopal license. Where on account of distance no clergyman can be obtained to marry the parties, they must state the fact, and apply to the Town Major of Fort St. George, who will obtain the permission of the Right Honorable the Governor for their marriage, under which any magistrate is authorized by the G. O. of Government to marry them.

In the case of a minor in H. M. or the Honorable Company's service, the written consent of the Governor must be obtained previous to the publication of banns or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese and Archdeaconry of Madras.

RULE.

"As necessity of Marriages, or Baptisms may occur, when individuals, from friendship, or the ties of consanguinity, or other cause, may be connected with, and incline more to one Chaplain than to another, the regular Chaplain of the District or the week is, on these occasions, to give way, and expect no account of the emoluments arising out of such special calls: the accommodation is mutual, and each in his turn will reap the advantages of it."

Rules for Chaplains and Assistant Chaplains.

FORT ST. GEORGE, *June* 2, 1840.

The following Rules for the guidance of Chaplains and Assistant Chaplains, revised under instructions from the Honorable Court of Directors, are published for general information, in modification of the Order of Government dated 30th July 1839.

1. Every Chaplain and Assistant Chaplain, on his arrival at the Presidency from England or elsewhere, shall report the same to the Secretary to Government in the General Department, as well as to the Chief Ecclesiastical authority in the Diocese.

2. Every Chaplain and Assistant Chaplain must report his arrival at his Station to the Chief Ecclesiastical authority in the Diocese, to the Civil Auditor, and to the Chief Civil or Military authority of the Station.

3. Funerals are to be appointed at sun-rise and sun-set, and the Clergyman is to attend at the latter time if he receives notice of a funeral before 3 o'clock P. M., but if the notice arrives after that hour, the interment is to take place on the morning following: cases however may occur which may require a deviation from the general rule.

4. Commanding Officers, in concurrence with the Chaplain, will fix the time for officiating at divine service on Sunday with the Soldiery.

5. Attested copies of the Registers of Baptisms, Marriages and Funerals, must be transmitted regularly every 3 months to the Registrar of the Archdeaconry, viz. on the [31st March, 30th June, 30th September, and 31st December.*]

6. All Marriage Certificates of Europeans, being Soldiers, or persons employed in the Military Department, under the rank of Commissioned Officer, shall specify distinctly the birth of the female, whether European, Indo Briton, Native, &c.

7. The Chaplain is to enter carefully all the Marriages, Baptisms, and Burials of Soldiers and their Children in the Regimental Register Book of the respective European Corps, as well as in the usual Register kept by the Station Chaplain.

8. The Chaplain of every Station, where any of Her Majesty's Regiments are stationed, must forward to the Registrar of the Archdeaconry, for transmission to the Chaplain General's Office, half yearly, and for any broken period that may occur previous to his leaving the Station in which he is employed, a copy duly signed by himself and by the Officer in Command of the Station, of the Regimental Registers of Marriages and Baptisms now kept in conformity with the general Regulations on this subject.

9. The Chaplain at a Military Station is to visit regularly, at least twice in each week, European Hospital or Hospitals. He is carefully to superintend and inspect the European Regimental and other Schools, visiting them for this purpose not less than once a week, and to represent any matter concerning their management to the Commanding Officer, which may require his notice. Provided, however, that in the performance of the above duties he shall not interfere with the religious persuasion of those who do not profess the tenets of the Church of England. He is to report to the Commanding Officer on the 1st of January and the 1st of July in each year, and oftener if necessary, the state of the European Regimental Schools, the qualifications and conduct of the Master, and the proficiency of the scholars.

10. All communications from the Clergy are to be addressed to Government through the Lord Bishop, in order that he may make such remarks thereon as his Lordship may think proper: when the Diocese shall be vacant, communications are to be addressed through the Archdeacon, or other Chief Ecclesiastical authority. All applications for change of station must be made direct to the Right Honorable the Governor, or his Private Secretary, and to the Lord Bishop or Chief Ecclesiastical authority in the Diocese.

11. A Chaplain directed to visit the Out-Stations of his District periodically, is permitted to draw a travelling allowance at the rate of 200 Rupees per mensem, calculated at the rate of one day's allowance for every 10 miles, allowing for a halt on the 7th day: provided however that the allowance drawn on this account shall in no case exceed 200 Rupees per mensem. The documents required in support of the travelling expenses of Chaplains will be—1st, the order or authority of the Lord Bishop for proceeding on such journey; and 2dly, their own declaration on honor that the journey so authorized has been performed.

* Dates altered (under authority) subsequently to the promulgation of these Rules.—*Compiler.*

12. Any Chaplain leaving his Station, whether with or without the order Government, shall be bound to report the circumstance to the Civil Auditor.

13. Any Chaplain who may be removed from any Station to another, shall like manner report to the Civil Auditor the date of his departure from the one and of his arrival at the other, and the Civil Auditor is restricted from passing the bill of any Chaplain appointed to a new station for the allowance pertaining to such Station (without the special orders of Government), until he shall have received a report of his arrival at the place of his appointment.

14. Any Chaplain returning to the Presidency after a sea voyage for the recovery of his health, or otherwise, shall (unless the contrary is specially sanctioned by Government) be required to rejoin his station within the time that may be prescribed for travelling to the Station to which he stands appointed.

15. When a Chaplain proposes to quit his principal Station for the occasion of visiting any of his appointed smaller Stations, or when he intends to apply for temporary leave of absence, he must give timely notice to the Chief Civil and Military resident authorities (and state in his application for leave that such has been done), in order that if there be any cogent reason against the absence of the Chaplain, they may be submitted to the Governor in Council.

In reference to the foregoing revised Rules for the guidance of Chaplains and Assistant Chaplains, the Right Honorable the Governor in Council directs the republication of the following Rules for regulating the absence and travelling allowances of Chaplains and Assistant Chaplains, which forms Chapter VI. of the General Rules for the grant of leave of absence, and for regulating deductions from salaries and deputation allowances, promulgated on the 21st Feb. 1840.

HENRY UMPHELBY, *Secretary to Govt.*

FORT ST. GEORGE, 20th *September*, 1842.

No. 173 of 1842.—The Right Honorable the Governor in Council has been pleased, in the Ecclesiastical Department, under date the 13th instant, to direct that the following Rule for the guidance of Chaplains be re-established under this Presidency.

"The practice of baptizing, in private houses is to be avoided by the Chaplain as much as possible, and the Clergyman is to attend at the place appointed for divine service on some fixed day and hour in each week, for the purpose of baptizing Soldiers' Children; *however*, this is not to be considered as authorizing the Clergyman to decline attending at any hour or place to administer private baptism to such infants as may be in a weak or precarious state of health."

Rank, Furlough, and Retiring Allowances of Chaplains.

APPOINTED PRIOR TO AUGUST 31, 1836.

Extracts of an Ecclesiastical General Letter to the Supreme Government, dated the 28th November 1838.

Para. 96. We have lately directed our attention to the regulations under which Chaplains are permitted to retire from the service, and have examined the desire to promote the respectability and comfort of that class of our servants, we have resolved that the retiring pay of Chaplains after a service of twenty years, including three years Furlough, be augmented from £365 per annum, the pay of Major, to £365 per annum, the pay of Lieutenant Colonel, and that in cases of bad health certified in conformity with existing regulations, Chaplains shall be allowed to retire after ten years actual service upon £200, the half pay of Lieutenant Colonel, instead of £173 7 6, the half pay of Major, and on the production of similar certificate after seven years actual service upon £182 10 0, the half pay of Major, instead of £127 15 0, the half pay of Captain.

97. We have further to acquaint you that we have determined to abolish the designation of Junior Chaplains, and to order that the Chaplains be hereafter distinguished only by the title appropriate to the rank which they are placed, such as Chaplains at the Presidency and District Chaplains.

Rank, Furlough, and Retiring Allowances of Chaplains.

APPOINTED SUBSEQUENTLY TO AUGUST 31, 1836.

Extracts from a Letter from the Honorable the Court of Directors.

ECCLESIASTICAL DEPARTMENT, *August* 31, 1836.

Para. 1. Our attention has been drawn by the Government of India, on the suggestion of the Lord Bishop of Calcutta, to the necessity of increasing the number of Chaplains, for the purpose of extending the benefit of religious offices more widely than the present Establishment will admit.

2. While we were fully sensible of the importance of the desired object, and very anxious to promote its success, we felt that we should not be justified in making such an addition to the amount of Ecclesiastical charges, as would result from the appointment of an increased number of Chaplains upon the existing scale of remuneration. We determine therefore to make such new arrangements, with regard to the Chaplains on the Bengal Establishment, as should enable us to add to their number, and thus provide more adequately for the spiritual benefit of the European residents, without any serious increase of expense. We have resolved to extend the principle of those arrangements to your Presidency, with the view of accomplishing the same beneficial purpose.

3. We intend that the number of Chaplains under your Government shall be increased from 25 to 29. The salaries are to be apportioned as follows:—the two Chaplains at the Presidency will receive the same amount as at present; nine will receive Company's Rupees 700 per mensem, and the remaining 18 Company's Rs. 500 per mensem. These salaries will constitute their entire emoluments from the Company. The payments heretofore made under the name of palanquin money will cease, and we shall on no account sanction any extra allowances, whatever may be the grounds upon which they may be claimed.

4. The Chaplains receiving the lower amount of 500 Rupees per mensem will be termed Assistant Chaplains, and in future all appointments will be made to this class. The Assistant Chaplains will succeed to the higher rank, and the higher rate of salary according to seniority, as vacancies occur in the superior class, after it shall have been reduced by casualties to the prescribed number of nine.

5. As vacancies arise they will be supplied in the following manner; on the occurrence of the first vacancy two Assistant Chaplains will be appointed, on the second only one, and on all succeeding vacancies, the same principle will be acted upon, viz. that of an alternate appointment of two and one until the establishment attains the full extent of 29, to which we have restricted it, after which each vacancy will give rise only to a single appointment.

6. The principle which we have adopted throughout these arrangements requires that the furlough and retiring allowances should be modified so as to meet the intended changes. These allowances will in future be on the following scale.

Furlough Allowances.

After 7 years' residence.....£191 12 6 per annum..(full pay of Captain)
If compelled by sickness to retire to Europe before completing 7 years residence.....£127 15 0 per annum..(half pay of Captain)

Retiring Allowances.

After 18 years' service (including 3 years' furlough).....£292 0 0 per annum..(full pay of Major)
After 10 years' actual service (if compelled by ill health to quit the service).....£173 7 6 per annum..(half pay of Major)
After 7 years' actual service (do. do. do.).....£127 15 0 per annum..(half pay of Captain)

The present Chaplains will be entitled to the existing scale of allowances as well for services as on furlough and retirement; these regulations being to have prospective, and only affecting an appointment made after the date of this despatch.

7. The location of the Chaplains under the new arrangements will be best regulated by reference to the opinion of the Lord Bishop.

No. 21367

Additional Chaplains.

London, 23d August 1841.

Para. 1. In our Despatch of the 31st August 1836, we announced our intention of raising the number of Chaplains on your Establishment at large to 32, by the appointment of two and one Assistant Chaplains alternately on the occurrence of vacancies in the list of Chaplains, until the full number to which the establishment was restricted should be attained; and accordingly three Assistant Chaplains have been appointed in excess of the number of actual vacancies.

2. Notwithstanding the increase thus effected, the establishment still appears to be inadequate to the wants of the service, and the communication from the Lord Bishop now under our notice solicits a further augmentation to the number of Chaplains.

3. Having given a full consideration to his Lordship's letter, and adverting to the arrangement made for giving increased efficiency to the Bengal Establishment, we are determined on completing the Establishment at your Presidency at once to the full number authorized in our Despatch of the 31st August 1836, and also on making some provision for outstanding exemption cases with this view we shall allot six Madras Assistant Chaplaincies to the present season.

Pensions from Lord Clive's Fund.

Extracts from a Letter from the Hon'ble the Court of Directors, dated 9th October 1833.

Letter dated 22d January 1833; (No. 15.)

Paras. 1 to 9—State that, from the nature of not served 7 years in India are allowable in the benefit of Lord Clive's Fund in the case of Captain. After the Orders received from time to time, some doubt exists as to the scale of Pension sions which the Court are disposed to re-consider, completing a service of 7 years, cognize as claimable from Lord Clive's Fund retiring allowances are granted by Chaplains retiring from ill health beyond the independently of Lord Clive's Fund before the full period of the Service, and Clive's Fund; by the Regulations by the widows of Chaplains, and requested to be furnished with fresh and explicit instructions on the subject.

12. As by the Regulations annexed to our Letter, Chaplains may retire on the full pay of Lieutenant Colonel after 18 years' Service, (including 2 years Furlough) we have considered the Widows of those who die in the service after completing that period to be eligible to the benefits of Lord Clive's Fund on the rank of Lieutenant Colonel.

13. The Widows of Chaplains who have completed 7 years actual service in India are admissible to the rank of Major; and those of Chaplains of 10 years, in the rank of Captain, being the ranks the pay of which is receivable by those classes of Chaplains respectively when on furlough.

14. You will communicate a copy of these Paragraphs to the Governments of Madras and Bombay.

Extracts from a Letter from the Honorable the Court of Directors, dated 16th March 1836.

Para. 25. We have to acquaint you that the pensions of the Chaplains appointed under the new arrangement, and of their widows, to the benefit of Lord Clive's Fund, will be adjusted upon the principles laid down in our letter to the Government of Bengal, dated 9th October 1833, (No. 27, paras. 12 and 13.

26. Chaplains who have not served seven years in India will therefore be entitled, if admitted to the benefits of Lord Clive's Fund, to a pension of £45 per annum; and their widows to one moiety of that sum.

27. The widows of Chaplains who have completed seven years actual service in India, if admitted to the benefits of Lord Clive's Fund, are entitled to Pensions as the widows of Captains.

28. The widows of Chaplains who have completed fifteen years actual service in India, if admitted to the benefits of Lord Clive's Fund, are entitled to Pensions as the widows of Majors.

29. We are of opinion that Chaplains appointed under the new arrangement should rank as Subscribers to the Military Fund as Chaplains until they have served fifteen years in India, and subsequently as Majors.

Chaplains—to what Tribunals amenable.

Extracts from Court's Letter to the Supreme Government of the 23d May 1827.

Para. 22 of Ecclesiastical Letter from Bengal of the 31st December 1824.

In reference to a question submitted by the Government of Bombay relative to the extent to which Military Chaplains are to be held responsible to the Military Authorities, and correspondence with the Lord Bishop as to the liability of the Company's Chaplains to Martial Law, Court's Orders on the subject are requested.

Para. 2. From the best consideration we have been able to apply to the several documents to which we have been referred in this paragraph, we are induced to think that considerable misapprehension has existed on the subject to which they relate.

3. When our Ecclesiastical Establishment was placed on the footing on which it now stands, it became a necessary part of the arrangement that the Indian Clergy should be submitted to the general superintendence of the Bishop, and restored subject to the Ecclesiastical Jurisdiction for all offences of Ecclesiastical cognizance, but it was never intended to except this portion of our Servants from the Jurisdiction of the temporary Courts in the event of their being charged with any offences of a Civil nature, or any crimes against the peace and well being of Society.

4. We wish it therefore to be distinctly understood that the Chaplains on our Establishments are amenable to the Ecclesiastical Tribunals for such offences only as would render the Clergy of the Established Church amenable to the Ecclesiastical Tribunals in England, and for all other offences they are liable to be tried as all other Europeans in India are,—by the Ordinary Tribunals of the Country.

5. If however the offence should be committed out of the Jurisdiction of the Ordinary Court, and in places where the rest of the community are subject to Military Law, in such a case, and in such a case alone, we deem it right that our Chaplains should be subject also to Military Law for all offences of temporal cognizance.

Ecclesiastical Ceremonies

BY WHOM TO BE PERFORMED AT STATIONS WHERE THERE IS NO CLERGYMAN.

G. O. G. 27th March 1805, No. 41.

* * * * *

3. His Lordship in Council is pleased to direct that the Marriage and Baptismal Ceremonies shall in all cases (where no clergyman may have been appointed) be performed by the Magistrate of the Zillah at those stations where a Zillah Court may have been established, or where no Zillah Court may have been established by the Collector of the Station, or if the Collector should be absent at an inconvenient distance, by the Commercial Resident residing at, or in the vicinity of the place, where the performance of any of the above Ceremonies may be required.

4. If no Civil Servant of the Company should be in the vicinity, His Lordship in Council is pleased to direct that the stated Ceremonies shall be performed by the Senior Officer on the spot, who will be careful to pay strict attention to the Forms which have been prescribed.

5. His Lordship in Council has been pleased to resolve that no Marriages shall in future take place at any of the Subordinate Stations (among persons of the description Covenanted Officers and Gentlemen) without a License from the Governor of Fort St. George, according to the mode observed at the Presidency; and all applications on this subject are required to be addressed to the Town Major of Fort St. George.

His Lordship in Council directs that Funeral Ceremonies shall be performed by the Civil Magistrate, or by any Civilian belonging to the Honorable Company's Service, or by the Commanding Officer of the Troops, or by such inferior Officer as shall be ordered by the Commanding Officer for that duty, whose name shall be specified in the Regimental Orderly Book.

G. O. G. 25th October 1812.

Adverting to the supplemental arrangement recently made by the Honorable the Court of Directors to the establishment of Chaplains, the Honorable the Governor in Council is of opinion, that no necessity can in future exist, for the performance of the ceremony of marriage by any Military officers, and accordingly directs that all Military Officers do consider themselves precluded from discharging that part of the duty eventually assigned to them, in the General Orders dated the 27th of March 1805.

The Governor in Council likewise directs that the same restriction may be considered applicable to the ceremony of Baptism, except in the case of such children as may be in a weak or precarious state of health.

Returns of Sacred Offices performed by Magistrates, &c.

G. O. G. 17th August 1820, No. 148.

The Right Honorable the Governor in Council is pleased to direct, that the Returns of Sacred Offices performed by Magistrates, Revenue or Military Officers, hitherto forwarded to the Senior Chaplain of the Presidency, shall, from and

after the 1st proximo, be transmitted to the Registrar of the Archdeaconry of Madras, agreeably to the Forms prescribed in G. O. by Government, dated 22d April 1828.

The Governor in Council is further pleased to direct, that no such Offices shall be performed by any person in the absence of a Chaplain, without complying with the Regulations of Government contained in the above G. O.'s by Government.

Size of Monuments at Out-Stations.

FORT ST. GEORGE, *May* 8, 1832.

Great inconvenience having arisen at many Stations, from the general practice which prevails among all classes of erecting Tombs of unreasonable dimensions over the remains of Relatives and Friends, the Right Honorable the Governor in Council has been pleased to resolve, that the size of Monuments hereafter to be erected in the Burial ground of any Out-Station, shall be limited to seven feet by three and a half.

Official Returns of the Clergy.

Ecclesiastical Department.

With a view to ensure regularity and completeness in the Official Returns of the Reverend the Clergy, it is directed by the Archdeacon, under instructions from the Honorable the Court of Directors, and with the approbation of Government, that in future the following regulations be observed, viz.

1. That when any Chaplain or Minister applies for permission to return to Europe, or for any permanent leave of absence from his Station, he shall forward with his application a declaration that he has duly made his Official Returns to the Registrar, or is prepared to do so, up to the day on which his departure from his Station is to take place.

2. That the same rule is to apply to Clergymen removing from one Station to another, and that every Chaplain so removing shall before quitting his Station not only forward his Returns up to the day of his departure, but transmit also a declaration to the authorities that he has done so.

3. That, in case of the death of a Chaplain at his Station, a copy of the entries in the Registers from the date of his last Quarterly Returns to the period of his demise shall be made by the local public authority in whose official possession the original public Registers may happen for the time to be lodged or come, and be immediately forwarded by such local Officer to the Registrar; the same being, however, first duly examined and authenticated by the Chief lay public authority of the Station; this being considered the best mode at present of providing for the completeness of the General Quarterly Returns which are transmitted to England by the orders of the Honorable the Court of Directors.

By direction of the Venerable the Archdeacon of Madras, Commissary to the Lord Bishop, dated this second day of October 1843.

FREDE. ORME, *Registrar of the Archdeaconry of Madras.*

REGULATIONS FOR PALANKEEN BEARERS.

Fort St. George, *June* 7, 1842.

The following Rules for the employment of Palankeen Bearers, in substitution of those hitherto in force, are published for general information.

Regulations for Palankeen Bearers employed at Madras and its vicinity.

Para 1. Palankeen Bearers of all descriptions (6 in a set) to be paid, exclusive of the Palankeen, at the rate of 3¾ Annas each per day, or Rupees 6 for a month, allowing the Head Bearer seven.

2. The daily hire of Palankeen Bearers is 3¾ Annas each. If employed for four hours, or a shorter period, they are only entitled to half hire, but if above four hours, then they are entitled to full hire—their employment in any other manner must be by agreement between them and the party requiring their services.

3. A set of Bearers required to go beyond the precincts of Madras or St. Thomas's Mount, Pulaveram, Poonamallee, Red Hills, and Ennore, or any place not exceeding 12 miles, if supplied by the Public Authorities, shall consist of 10, but if required for a greater distance of 12.

4. Bearers hired to go beyond the precincts of Madras, to be paid according to the distance, calculating the rate of hire at 3¾ Annas each for every 10 English miles.

5. If a person, going beyond the precincts of Madras, remains at a place, he must for the first day pay each bearer 1 Anna batta. If he remains more than one day he must pay each Bearer 2¼ Annas per day.

6. Palankeens duly numbered are stationed at the places specified in Table A, and all persons hiring a Palankeen and Bearers, will be enabled to ascertain the particular Palankeen and Bearers to pay employ, and in the event of any loss of property or misconduct on the part of the Bearers, the number of the Palankeen should be immediately reported, with the matter of complaint, to the Post Master General or his Deputy, or to either of the Police Offices.

Regulations for Posted Bearers.

7. Travellers within the frontier will be furnished with Dawk Bearers on application to the Post Master General, or his Deputy, at the Presidency, between the hours of 10 A. M. and 5 P. M. (or at all hours on emergency,*) and at out stations, to the Collector or Assistant Collector, Post Master, or other authority, duly posted in the Fort St. George Gazette, stating the places at which they will halt and the number of hours they will remain at each place. The Officer addressed will receive the deposit for the entire distance, post the Bearers through the direct authorities, and inform the applicant on what day the bearers will be in readiness. In some places 10 days notice will be requisite. Officers laying the Dawk will furnish the Traveller with a list of places where the Bearers are posted in his district, and the same rule will be observed by each authority on his entering his range.

8. The application for a Dawk should be accompanied by a sum, as a deposit, equal to 12 Annas per mile for each Palankeen, for the whole distance the Dawk is to be laid, otherwise it will not be attended to; and the public authorities are prohibited from issuing instructions to post Bearers until the deposit has been made. The balance, after defraying the expences incurred for Bearers, &c. will be returned to the applicant by the Post Master General.† When the Traveller proceeds by Dawk beyond the frontier, he will be required to pay, as a deposit to cover expences, 50 Rupees for every hundred miles, in addition to the sum of 12 Annas per mile.

9. At the conclusion of the Dawk the Traveller is requested to countersign each of the lists of stages furnished to him, and return the same, post not paid, to the authorities respectively who issued them, from the nearest Post Office, for official record, noting upon them any cause of complaint, which will be attended to. If the document is to be returned to or at Madras, it should be sent to the Post Master General.

10. If Bearers are detained on the road they are to receive 1 Anna each for the first day, and 3¾ Annas for each succeeding day, from the party for whom they are posted, whether they are used or not, and after remaining 3 full days they will be discharged, and without further instructions return to their homes, unless notice is given for their further retention, and the party ordering them will be charged with batta for the same, and in addition to half hire for going out and returning both inclusive. Bearers carrying an empty Palankeen shall be entitled to half hire for the distance they convey the same, in excess of any remuneration to which they may be entitled under these rules.

11. All applications on the subject of posting Bearers (except when made on service by one Public Officer to another) shall be post paid and superscribed "Bearer Service," in order that no delay may occur in their being opened by the proper authority. If this rule is infringed, it will be charged to the account of the party.

12. A set of Dawk Bearers comprises fourteen men; viz. twelve Palankeen Bearers, one Masaljee and a Cowry cooly, for which the charge shall be at the rate of 5 Annas per set, except in the Provinces, for every mile they carry a loaded Palankeen, exclusive of the charge for torch and oil, and this charge shall be the same, whether a Cowry cooly be employed or not. As Cowry coolies are not to be procured in some places, 2 coolies will be employed, and a charge made for the second at the rate 4 P. Cent. cents per mile. Torches and oil should be provided with the Bearers and charged in account. It is expected if the Bearers behave themselves well, some small gratuity will be awarded them by the Traveller.

13. The rate of hire to be paid to the Bearers in the Provinces will be fixed by the local authorities, 2 Annas per mile being added for each set to such rate and carried to the credit of the Bearers' Fund. When Bearers are brought from a distance, the Traveller will only be required to pay the regular hire and charges of batta.

14. Sets of Bearers posted from Madras or out stations, shall receive full hire for the distance they carry the loaded Palankeen, and half hire for proceeding to their post for such part of the road over which they do not return loaded. If the Bearers return backwards and forwards, for the convenience of different Travellers, they shall receive half hire one way and full hire the other, for each time they traverse the road at all places where from local usage and custom this payment has hitherto obtained.

15. When Bearers are sent to a distance exceeding 90 miles, to bring a Traveller back by stages, they are to receive ½ hire for going out and full hire for returning.

16. In case a set of Bearers which has been posted for any Traveller, and has received hire to such post may be subsequently required for any other Traveller, such person shall pay the set the established rate for every mile they carry him; and if the set be detained, he will be liable to the charge for detention specified in para. 10.

17. When a set of Bearers is posted, or a Dawk laid, for a Traveller, either by the Post Master General, or the authorities in the interior, no other Traveller shall employ them, without the authority or knowledge of the officer who posted the set, or laid the Dawk; and should any individual so act in violation of the orders of Government, he will be liable, in addition to the regulated hire of the bearers used, to all and every extra charge incurred by the Traveller for whom the set was originally posted, or Dawk laid.

18. In order to provide Bearers for the convenience of Travellers at Stations where there are now none, and to prevent their being put to the expense of payment of batta, for procuring them from distant Stations, 8 Annas per mile will be charged for each set of Bearers. Five Annas or such other sum as may be fixed will be paid to the Bearers, and 3 Annas carried to the credit of a Fund,

---

* All applications for relays should specify the routes by which travellers desire to travel, the names of halting places, and the number of hours they purpose to halt at each; in default of which no charge that may be incurred consequent upon such omissions will be remitted: (Vide Post Master General's notification published in the Fort St. George Gazette of the 8th November 1836.)

† To avoid the delay and delay occasioned in remitting the balance of deposits made by travellers on arriving at their stage, they should at the time of making a deposit, whether at the Presidency or in the interior, state in writing where, and to whom, any surplus balance will be paid. It shall practicable it is desirable that the balance should be paid to the Agent of the Post at Madras. (Vide Post Master General's notice published in the Fort St. George Gazette of the 28 January 1840.)

from the proceeds of which one set or more of Bearers will be posted at monthly pay in different stages. If more sets are required than those permanently fixed on the road, the Traveller will be charged only five Annas per mile for each additional set which may be brought from a distance, together with such batta as they may be entitled to under Rules 10, 13 and 14. It is proposed that only one set of Dawk Bearers be permanently stationed on each road for the present.

19. In order to facilitate the keeping of accounts, all fractional portions of a mile will be struck out. If the fractional part exceed the half, the Bearers will enjoy the benefit of a full mile: if less than the half, they will not be entitled to any hire for the same.

20. All charges of hire shall be made agreeably to the Table of distances and routes in the Madras Road Book.

21. The load for a Cowry coolly shall not exceed 50 lbs. weight, divided as nearly as possible into two equal portions of 25 lbs. each.

22. It is to be understood, that although Government has directed its Public Servants to lay Dawk Bearers for the convenience of the public, and will cause due pains to be taken to ensure regularity and a punctual attendance to all requisitions, yet that neither Government, nor any of its Officers, are to be held responsible to the Traveller, for any unavoidable disappointment he may meet with on his journey, or for the expenses consequent thereon.

23. In cases of surcharge, or a charge being made which to the parties complaining appears irregular, it will be the duty of the Post Master General at Madras to investigate the matter with a view to afford redress. The decision by the Post Master General at the presidency, in all references relative to Dawk bearers, to be considered final, except in instances when the bearers are posted by him, or his Deputy, in which case the party considering himself aggrieved will be permitted to appeal to Government.

24. It is to be understood that nothing in the foregoing Rules is intended to interfere with Travellers applying to private individuals to post their Bearers, should they prefer making their own arrangements, without the intervention of the Public Authorities, but that no Public Officer will attend to a requisition until the required deposit indicated in para. 8 is made.

Note.—The rate of hire fixed will be reduced, if after trial such be found practicable.

And it is hereby enacted, that the Zillah Courts established under this Act, shall exercise within the limits assigned to them respectively, by the Order in Council by which they are constituted, the same Civil jurisdiction as is now exercised by the Provincial Courts of Appeal, except the original jurisdiction vested in those Courts in suits for an amount or value less than 10,000 Company's rupees, and shall be vested with the same authority, and shall be subject to the same rules and restrictions as such Provincial Courts of Appeal, except as hereinafter mentioned.

IV. And it is hereby enacted, that the original jurisdiction vested in the Provincial Courts of Appeal in suits for an amount or value less than 10,000 Company's rupees, shall be transferred to the subordinate Zillah Courts constituted according to Regulations I and VII, of 1827.

Regulation VII, of 1827, that in all cases, in which a Principal Sudder Ameen has occasion to call upon a Collector, Subordinate Collector, or Assistant Collector, or other European Officer of Government, to do any thing in any matter before his Court, he shall transmit to such Officer an Extract from the Proceedings of the Court containing a brief Abstract of the case, and specifying what is required to be done by him, with a request that he will comply therewith, and that he will return an answer stating what he has done within a certain time, and such Officer shall comply with the requisition so conveyed to him, in the same manner as if it had been accompanied by a precept from the Zillah Judge.

Second.—Provided, that if such Officer does not comply with such requisition the Principal Sudder Ameen shall report the case to the Zillah Judge, who shall proceed thereon as if the requisition had been made by a precept from himself.

VIII. *First.* And it is hereby enacted, that Appeals shall lie to the Zillah Court from all decrees of orders of Subordinate Civil Courts constituted according to Regulations I and VII, of 1827, and of Sudder Ameens and District Moonsiffs, in cases in which Appeals are now allowable, but such Appeals must be preferred within the period of 30 days, to be calculated as prescribed in the existing Regulations.

Third. Provided also, that the Judge of any Zillah Court may refer to any Subordinate Judge or Principal Sudder Ameen in the Zillah, any Appeals from District Moonsiffs which may be filed in the Zillah Court.

Fourth. Provided also, that if any such Appeal from a decision or order of a District Moonsiff, which may have been under this Section referred for decision, or preferred in the first instance, to a Subordinate Judge or Principal Sudder Ameen, be dismissed without any decision being come to on its merits, it shall be competent to the party aggrieved by such order of dismissal to prefer a Summary Appeal from it to the Judge of the Zillah, and it shall be the duty of the said Zillah Judge to hold such proceedings on such Summary Appeal as he may consider proper; and, having satisfied himself that the order dismissing the Appeal has been passed without sufficient cause being shewn for such dismissal, it shall be competent for such Zillah Judge to issue his Precept to the Court by which the Appeal may have been dismissed, requiring that the Appeal shall be again admitted on the file, and a decision passed upon it after mature consideration of its merits.

IX. And it is hereby enacted, that Appeals, Regular, and Summary, from decisions and orders of the Zillah Courts, shall lie to the Sudr Udalut, under the same rules and restrictions as are applicable to similar Appeals to the Sudr Udalut from the Provincial Courts of Appeal.

On the other hand, if a single Judge shall be of opinion that the decision or order appealed against ought to be altered, or reversed, as being manifestly unjust or at variance with some Regulation in force, or in opposition to the Hindoo or Mohamedan Law or other Law applicable to the case, or as having been passed without sufficient investigation of the merits, or as grounded on an assumption obviously erroneous, or irrelevant with reference to the points at issue, it shall likewise be competent to a single Judge to issue an injunction pointing out the irregularity, illegality, or other defect, apparent in the proceedings, decision, or order, appealed against, and requiring that the Court by which the same may have been held, or passed, shall revise the case, and proceed thereon in such manner as may appear conformable to justice and to the Regulations.

Third.—A single Judge of the Sudr Udalut may exercise his discretion in calling for the proceedings of the Lower Courts, or such parts of them as may appear necessary, and may further order a report in English, or in the Vernacular language commonly used in the Court, as the occasion may render advisable, on any points requiring explanation, prior to passing a determination on the case or matter in Appeal.

Fourth.—It shall further be competent to a single Judge to direct, that the execution of any judgment or order passed by any inferior Court, in all cases in which that measure may appear to him expedient, may be stayed until a final decision has been passed thereon.

XI. And it is hereby enacted, that the provisions of Clause 2d, of the foregoing Section, shall be applicable to the Judges of Zillah Courts, and to subordinate Judges and Principal Sudder Ameens.

XII. And it is hereby enacted, that any provisions of the existing Regulations which require inferior Courts to furnish the Sudr Udalut with translations of papers written in the Vernacular languages of the country, which they may transmit to that Court in Appeals and other cases, be rescinded.

XIII. And it is hereby enacted, in modification of Sections XIII and XIV, Regulation V, of 1809, that all processes and orders therein described which may issue from the Sudr Udalut, shall be directed to the Zillah Courts established under this Act.

XVI. And it is hereby enacted, in modification of Section VI, Regulation III, 1833, that the power of suspending Sudder Ameens from Office, thereby vested in the Zillah, Assistant, and Native Judges, shall for the future be vested in the Judges of Zillah Courts established under this Act.

XVII. *First.*—And it is hereby enacted, that all parts of Regulations VI and VII, 1816, in which the Zillah Judge is mentioned, shall be understood as applicable to the Judges of the Zillah Courts established under this Act, excepting Section LVI, Regulation VI, 1816, which shall be applicable to the Subordinate Judges and Principal Sudder Ameens, as extended by Section V, Regulation III, of 1833. And all parts of Regulation VI, of 1816, in which the Provincial Court is mentioned, shall be understood as applicable to the Sudr Udalut.

Second.—Provided, that District Moonsiffs may be employed by Subordinate Judges and Principal Sudder Ameens, as well as by Judges of Zillah Courts, in

the manner and for the purposes specified in Sections LX, and LXI, Regulation VI, 1816.

XVIII. And it is hereby enacted, that when a Zillah Judge sees reasons for calling up under Section LIV, Regulation VI, 1816, any cause that may be depending before a District Moonsiff, he may refer it for trial to the Subordinate Judge, or Principal Sudder Ameen, of the Zillah, or to a Sudder Ameen, or another District Moonsiff.

XIX. And it is hereby enacted, that when a District Moonsiff shall forward to a Zillah Judge under Clause 2d, Section III, Regulation I, 1829, a Suit instituted in his Court, in which he is directly or indirectly a party, or otherwise personally interested, the Judge may refer it for trial either to a Sudder Ameen, or another District Moonsiff.

XX. And it is hereby enacted, that the Judges of Zillah Courts may refer to the Subordinate Judges, and Principal Sudder Ameens, applications for the executions of decisions of District Punchayets preferred under Section XVII, Regulation VII, 1816.

XXI. And it is hereby enacted, that it shall be competent to Judges of Zillah Courts to pass orders of their own authority on complaints preferred under Section XI, Regulation VII, 1816, according to Clause 4 thereof.

XXIII. And it is hereby enacted, that Civil Actions and Criminal prosecutions under Clauses 1 and 2, Section VIII, Regulation VI, 1816, with respect to District Moonsiffs, and as extended by Section XIII, Regulation VIII, 1816, with respect to Sudder Ameens, shall be brought before the Zillah Courts established under this Act.

XXIV. And it is hereby enacted, that Section III, Regulation VIII, 1816, be rescinded.

XXV. And it is hereby enacted, that the Judges of the Zillah Courts established under this Act shall exercise within the limits assigned to those Courts respectively, the same Criminal jurisdiction as is now exercised by the Judges of the Courts of Circuit; and shall be vested with the same authority, and subject to the same rules and restrictions, as far as they are applicable and consistent with this Act.

XXVII. And it is hereby enacted, that the said Judges shall hold permanent Sessions in the said Zillah Courts for the trial of all persons accused of crimes and offences now cognizable by the Courts of Circuit, who shall be committed for trial by the Subordinate Judges, or Principal Sudder Ameens, of the Zillahs respectively.

XXXI. And it is hereby enacted, that except in cases in which the Session

Judge thinks proper to proceed as authorized in Section XXXII, of this Act, the Mohamedan Law Officer attached to the Zillah Court shall sit with the Session Judge for the trial of persons charged with crimes now cognizable by Courts of Circuit, in like manner and subject to the like Regulations as are now applicable to Law Officers sitting with the Courts of Circuit.

Second.—Provided, that the Law Officer may be one of the Assessors or Jury.

XXXV. And it is hereby enacted, that it shall be competent to the Court of Foujdaree Udalut on a review of the Abstract Statements of Prisoners, punished without reference, to mitigate the sentence passed on any prisoner when such sentence may appear on the Session Judge's own shewing of the facts, manifestly illegal or too severe, and it shall not be necessary for the Court to call for the proceedings in such cases, unless they shall see special reasons for so doing. It shall further be competent to the Court in like manner to annul the sentence passed in any case when such sentence may be in opposition to any Law or Regulation in force, and to require the Session Judge to pass a new sentence according to Law.

XXXVI. And it is hereby enacted, in modification of Section II, Regulation III, 1833, that the authority to overrule judgments passed by Sudder Ameens in Criminal cases shall be vested in the Session Judges.

ACT No. XV of 1843.—*Passed on the 5th August.*

An Act for the more extensive employment of Uncovenanted Agency in the Judicial Department.

Whereas the exigencies of the public service require that the Police and Criminal Branch of the Judicial Department should be strengthened by the more extensive employment of uncovenanted Agency;

I. It is hereby enacted, that it shall be competent to the Local Governments of both Divisions of the Bengal Presidency to appoint in any Zillah or District one or more Uncovenanted Deputy Magistrates with the powers hereinafter specified.

II. And it is hereby enacted, that every person appointed to the Office of Deputy Magistrate under this Act, shall, previously to entering upon the execution of the duties of his Office, make and subscribe before the Magistrate of the District to which he may be appointed, a declaration according to Act XXI. 1837.

III. And it is hereby enacted, that a Deputy Magistrate appointed under this Act, shall be capable of being employed as a Judicial Officer or as an Officer of Police, or both, at the discretion of the Local Government. As a Judicial Officer he shall exercise the powers of a Covenanted Assistant under Regulations XIII. 1797, IX. 1807, or III. 1821, or the full powers of a Magistrate according to such orders as may from time to time be issued in that respect by the Local Government, and in such cases he shall be subject to such authority in regard to Appeals from his decisions and judicial orders as is provided for the decisions and orders of a Covenanted Assistant under the above Regulations, or of a Magistrate respectively. As an Officer of Police he shall be in all respects subordinate to the Magistrate under whom he may be placed; he shall exercise such powers as the Government, or the Magistrate with the sanction of Government, may commit to him, and shall obey all orders that may be issued, and perform all duties that may be assigned to him by that functionary, who shall be at all times competent, subject to such orders as he may receive from the Local Government, to extend, limit or resume the powers committed to such Deputy.

IV. And it is hereby enacted, that nothing in this Act contained shall be held to disqualify any Uncovenanted Officer in the Revenue and Judicial Departments, from holding at the same time with any other Office the Office of Deputy Magistrate.

V. And it is hereby enacted, that a Deputy Magistrate appointed under this Act, shall not be dismissed from Office for misconduct, without the sanction of the Local Government. Whenever there may be reason to believe that a Deputy Magistrate is disqualified by neglect, incapacity, or corruption, for continuance in Office, a report shall be submitted by the Local Magistrate for the consideration and orders of the Local Government, which shall be competent to suspend him, and order a further enquiry into his conduct, or to direct his immediate dismissal, as may appear just and proper.

VI. And it is hereby declared, that no native of the Territories subject to the Government of the East India Company, nor any natural born subject of Her Ma-

jesty resident therein, is by reason only of his religion, place of birth, descent, color, or any of them, disabled from holding the Office of Deputy Collector under Regulation IX. of 1833.

Rewards for the Apprehension of Offenders.

ACT No. XVI OF 1843.—*Passed on the 12th August.*

An Act regarding the offering of Rewards for the Apprehension of Offenders.

Whereas inconvenience has been experienced from the Rules in force which provide that Magistrates shall apply to the Courts of Sudder Nizamut Adawlut and the Courts of Circuit, as Courts exercising the powers of the old Courts of Circuit, when it may appear advisable to offer a reward for the apprehension of a known offender, or the discovery of unknown offenders in cases of magnitude. And whereas it is expedient that all such applications should be made to such Officer or Officers as from time to time may be empowered by the Local Governments to authorize the grant of rewards;

It is hereby enacted, that Sections 2 and 3, Regulation IX. of 1808, and Sections XVI. and XVII. Regulation XVI. 1810 of the Bengal Code, be and the same are hereby repealed.

Appointment of Official Trustees.

ACT No. XVII. OF 1843.—*Passed on the 19th August.*

An Act for the Appointment of Official Trustees in certain cases.

Whereas the property of Infants, Femes Coverts and others vested in Trustees, is exposed to peculiar risks and burthens in the Territories subject to the Government of the East India Company, not only from the insolvency of Trustees, but from the frequent difficulties occasioned by their death, or absence, or refusal, or incapacity to act:

I. It is hereby enacted, that in all cases in which any property is subject to any Trust, and there shall be no Trustee willing to act, or capable of acting within the jurisdiction of Her Majesty's Courts in the said Territories, it shall be lawful for the Supreme Court of each of the Presidencies in the said Territories, on petition, to appoint the Registrar, or such other Officer of the Court, as the Court may from time to time select as the Official Trustee, under the provisions of this Act to be a Trustee of such Property, and that upon such appointment such Property shall vest in such Officer and his successors in office, and shall be held by them upon the same Trusts as the same was held previous to such appointment.

II. And it is hereby further enacted, that such Officer shall cause such Property to be invested in Government Securities or otherwise, as the Court shall direct, and that he shall be entitled to a Commission of one per cent. upon the amount thereof.

III. And it is hereby further enacted, that it shall be lawful for the Court to make any orders respecting such Property so vested in such Official Trustee or the Interest or Produce thereof, and that all such orders shall be made on petition unless the Court shall direct a Bill to be filed.

IV. And it is hereby provided, that nothing in this Act contained shall prevent the Re-transfer of the said Property to the Original or any subsequently appointed Trustees, or otherwise, as the Court shall direct.

V. And it is hereby further enacted, that where any Infant or Lunatic shall be entitled to any Gift, or Legacy, or Residue, or Share thereof, it shall be lawful for the Executor or Administrator, by whom such Legacy or Residue may be payable or transferable, or the party by whom such Gift shall be made, or any Trustee thereof, to pay or transfer the same to the Official Trustee appointed under this Act, and that the receipt of such Official Trustee shall be a discharge for the same, and that the same shall be subject to the like Provisions as are contained in this Act, as to other Property vested in such Official Trustee under the Provisions thereof.

VI. And it is hereby further enacted, that the Provisions of this Act, except as to the Commission to be allowed under the same, shall extend to any Property of Infants or Lunatics in the hands of the Ecclesiastical Registrar of such of the said Courts as Official Administrator.

Custody of Thugs and Dacoits.

ACT No. XVIII OF 1843.—*Passed on the 9th September.*

An Act for the better custody of persons convicted of Thuggee and Dacoity.

Whereas it often happens that the offences of Thuggee and Dacoity are committed by gangs, as well within the Territories subject to the Government of the East India Company, as in those of Native Princes or States in alliance with the said Company, and it may be necessary for the safety of persons and property within the Territories subject to the Government of the East India Company, that persons convicted of the like offences within the Territories of such Princes or States, should be kept in secure custody, which cannot always be done within the last mentioned Territories:

It is hereby enacted, that it shall be lawful for the local Government of any part of the Territories subject to the Government of the East India Company, to authorize the reception and detention in any part of those Territories, for the periods specified in their respective sentences, of persons sentenced to imprisonment or transportation for the offences of Thuggee, Dacoity, or the offences of belonging to any gang of Thugs or Dacoits, within the Territories of any Native Prince or State in alliance with the said Company. Provided always that such sentences shall have been pronounced after trial before a Tribunal, in which a Covenanted Servant of the East India Company, duly authorized in that behalf by such Prince or State, shall be one of the presiding Judges. And it is hereby enacted, that every Servant of the East India Company so authorized as aforesaid, shall forward with every Prisoner a certificate of his conviction, and a copy of the proceedings held at the trial, that the same may be forthcoming for reference at the place where the sentence of imprisonment may be carried into effect.

Registration of Deeds.

ACT No. XIX. OF 1843.—*Passed on the 28th October.*

An Act for amending the Law respecting the Registration of certain Deeds.

Whereas doubts have arisen as to the true meaning and construction of Act No. I. of 1843:

I. It is hereby enacted, that the said Act is repealed, except in so far as it repeals all provisions contained in any Regulation or Regulations of the Bengal, Madras, or Bombay Codes, touching the knowledge or notice had by parties to registered conveyances and other instruments affecting titles to land and other interests therein, of the existence of unregistered conveyances or other instruments affecting such titles or other interests therein.

II. And it is hereby enacted, that from the First day of May last past, every deed of sale or gift of lands, houses or other real property, a memorial of which has been or shall be duly registered according to law, shall, provided its authenticity be established to the satisfaction of the Court, invalidate any other deed of sale or gift for the same property which may not have been registered, and whether such second or other deed shall have been executed prior or subsequent to the registered deed—and that from the said day every deed of mortgage on land, houses and other real property, as well as certificates of the discharge of such incumbrances, a memorial of which has been or shall be duly registered according to law, and provided its authenticity be established to the satisfaction of the Court, shall be satisfied in preference to any other mortgage on the same property which may not have been registered, and whether such second or other mortgage shall have been executed prior or subsequent to the registered mortgage, any knowledge or notice of any such unregistered deed or certificate alleged to be had by any party to such registered deed or certificate notwithstanding. Provided always that nothing in this Section contained shall be construed to extend to any deed or certificate made before the said First day of May last past.

III. And it is hereby declared and enacted, that no conveyance or other instrument affecting title to land, or any interest in the same, whether made before or after the said First day of May last past, other than such deeds or certificates as aforesaid, are or shall be in any respect void for want of registration, any Act, Regulation, or Law to the contrary notwithstanding.

ACT No. XX. of 1843.—*Passed on the 20th October.*

An Act for providing for the exercise of certain powers by the Governor General during his absence from the Council of India.

I. Whereas it is expedient that the Governor General should visit the North Western Provinces and other parts of India unaccompanied by any Member of the Council of India, It is enacted that during the absence of the Governor General from the Council of India, it shall be lawful for the Governor General alone to exercise all the powers which may be exercised by the Governor General in Council, except always the power of making Laws and Regulations.

II. And it is further enacted, that this Act shall commence from the day on which it shall be notified by an Order published in the Official Gazette, that the Governor General has quitted Calcutta for the purpose of so proceeding as aforesaid.

Emigration of Labourers to the Mauritius.

ACT No. XXI. of 1843.—*Passed on the 31st November.*

An Act for regulating the Emigration of Labourers from India to Mauritius.

I. Whereas it has been represented that the demands of the Island of Mauritius for Agricultural labor will by the end of this year be greatly diminished, and it is desirable that effectual measures should be adopted for providing a larger proportion of Female Emigrants to that Island than has been procured under the present system of Emigration, it is therefore enacted, that from and after the 1st day of January next ensuing, Emigration to Mauritius shall only lawfully take place under the provisions of the Act No. 15 of 1842 from the Port of Calcutta.

II. And it is hereby enacted, that it shall be competent to the Governor General in Council to nominate a proper person to act as Protector of Emigrants at Calcutta, and that no Emigrant shall be permitted to embark without a Certificate from the Agent appointed by the Government of Mauritius, countersigned by the Protector, to the effect that such person has been engaged by him as an Emigrant to that Island on the part of the said Government.

Jurisdiction of the Dewanny Adawlut of the Twenty-four Pergunnahs.

ACT No. XXII. of 1843.—*Passed on the 18th November.*

An Act for amending the Law relating to the Jurisdiction of the Dewanny Adawlut of the Zillah of the Twenty-four Pergunnahs.

Whereas by Section XVII. of Regulation III. of 1793 of the Bengal Code, it was amongst other things provided that the Dewanny Adawlut of the Zillah of the Twenty-four Pergunnahs should not receive or entertain any suit whatever against a person who might be an inhabitant of Calcutta at the time the suit might be instituted, or might become a resident within the limits of the Town after the suit might be commenced:

And whereas inconvenience has arisen in consequence of Persons escaping from the Jurisdiction of the Dewanny Adawlut of the said Zillah of the Twenty-four Pergunnahs after suits have been commenced therein, and it is expedient to prevent such inconveniences:

It is therefore hereby enacted, that so much of the said Regulation as is hereinbefore recited be repealed.

Jurisdiction of the Zillah Courts in the Nawaub Viziers' Provinces.

ACT No. XXIII. of 1843.—*Passed on the 18th November.*

An Act for amending the Law relating to the Jurisdiction of the Zillah Courts in the Provinces ceded by the Nawaub Vizier, and in some other places.

Whereas by Section XII. of Regulation II. of 1803 of the Bengal Code, it was amongst other things provided that the Zillah Courts in the Provinces ceded by the Nawaub Vizier to the Hon'ble the East India Company, should not entertain any suit whatever against any individual actually resident, or being within the limits of the Town of Calcutta, unless such suit should relate to real property situated without the limits of Calcutta, or to the public revenue:

And whereas so much of the said Regulation as is hereinbefore recited has been extended by other Regulations to other Provinces, Zillahs and Pergunnahs:

And whereas the provisions of the hereinbefore recited part of the said Regulation are inconvenient:

It is hereby enacted, that so much of the said Regulation as is hereinbefore recited be repealed, as well with regard to the Provinces ceded by the Nawaub Vizier to the East India Company, as to the other Provinces, Zillahs and Pergunnahs to which it may have been extended.

Prevention of Dacoity.

ACT No. XXIV. of 1843.—*Passed on the 18th November.*

An Act for the better prevention of the crime of Dacoity.

Whereas it has been considered necessary to adopt more stringent measures for the conviction of professional Dacoits, who belong to certain Tribes, systematically employed in carrying on their lawless pursuits in different parts of the country, and for this purpose to extend the provisions of Acts XXX. of 1836, XVIII. of 1837, and XVIII. of 1839, for the prevention of Thuggee, to persons concerned in the perpetration of Dacoity:

I. It is hereby enacted, that whosoever shall be proved to have belonged either before or after the passing of this Act to any gang of Dacoits, either within or without the Territories of the East India Company, shall be punished with transportation for life, or with imprisonment for any less term with hard labor.

II. And it is hereby enacted, that any person accused of the offence of Dacoity, with or without murder, or of having belonged to a gang of Dacoits, or of the offence of unlawfully and knowingly receiving or buying property stolen or plundered by Dacoity, may be committed by any Magistrate within the Territories of the East India Company, and may be tried by any Court which would have been competent to try him if his offence had been committed within the Zillah where that Court sits.

III. And it is hereby enacted, that no Court shall, on trial of the offences specified in this Act, require any Futwa from any Law Officer.

ACT No. XXV. of 1843.—*Passed on the 23d November.*

An Act for making the Provisions of 5 and 6 Vic. C. 47, Sec. XI. applicable to India.

Whereas doubts have arisen as to whether so much of an Act passed in the 5th and 6th year of the reign of Her Majesty Queen Victoria, entitled "an Act to amend the Laws relating to the Customs," as provides "that from and after the 5th day of January 1843, any Articles of Foreign Manufacture, and any packages of such Articles imported into the United Kingdom, or into the British possessions abroad, bearing any names, brands or marks purporting to be the names, brands or marks of Manufacturers resident in the United Kingdom, shall be forfeited," is applicable to the Territories subject to the Government of the East India Company:

RULES.

Financial Department, Fort St. George, April 4, 1834.

The Right Honorable the Governor in Council directs that the following

Rules of a Savings' Bank, established in Madras under the guarantee and responsibility of Government, be published for general information.

1st. The Bank to be denominated "the Government Savings' Bank."

2d. All classes, British and Native, may invest their savings in the Government Savings' Bank.

3d. The return of the exact sum deposited, together with the interest due thereon at the undermentioned rate, is secured to the Depositor under guarantee of the Government.

4th. The general direction and control of the Bank shall be vested in a Committee of Management to be nominated by the Governor in Council. The Committee shall meet at such stated periods as may be necessary for the due and efficient control of the proceedings of the Bank.

5th. The Government Agents are charged with the immediate superintendence and execution of all details connected with the Bank. They will be also ex-officio Members of the Committee of Management. The Sub-Treasurer, as one of the Government Agents, will be ex-officio Secretary to the Bank.

6th. A Register of Deposits will be kept, and generally such other accounts as may be determined on and approved of by the Managing Committee.

7th. Any sum not less than one Rupee will be received in deposit.

8th. Whenever any sum deposited by one individual shall amount to 500 *Company's* Rupees, the same will be transferred from the Bank deposit in the General Treasury, and subscribed on account of the Depositor to the *four* per cent. Bengal Government Loan *of the 1st February* 1843, until further notice, unless an intimation of its withdrawal, or the withdrawal of a portion of it, be given by the Depositor within one month after it has reached that amount; and all Government Securities shall be handed over to the Government Agency at the expiration of 3 months (subject to all the Rules which obtain in that Department) unless counter instructions be immediately received from the Proprietors.

9th. Interest at 4 per cent. per annum will be allowed on deposits until further notice.

10th. The interest will be calculated on a deposit from the 1st day of the month succeeding that in which it shall be received, and up to the last day of the month preceding that in which it shall be withdrawn. No interest will be allowed for broken periods of a month, nor calculated on fractional parts of a Rupee.

11th. The Government reserves to itself the power of lowering or raising the rate of interest, such alteration not to affect deposits above 500 *Company's* Rupees previously invested in Public Securities, and due notice to be given in the Fort St. George Gazette of the intention of Government six months before the alteration shall take effect.

12th. All deposits will be regularly entered in a book at the time they are made, and the Depositor of the deposit made at the Presidency will be furnished with a small book bearing a duplicate of the entry. This book is to be brought to the Bank whenever any sum is deposited or withdrawn. The account thus kept will be closed on the 30th April of every year, and the balance of interest due at that period will be paid to the Depositor, or carried to account, thenceforward to accumulate at compound yearly interest, until it shall amount to 500 *Company's* Rupees, when the same will be transferred from the account of the Bank, and subscribed on account of the Depositor to the Bengal Government *four* per cent Loan, as per Rule VIII., unless notice of withdrawal be given within one month as above, or unless the rate of interest be altered as provided for in Rule XI.

13th. *No person or persons to deposit money for the benefit of any other person or persons, except Parents on behalf of, and on account of their Children being minors. If such deposits are made in the Children's names, they cannot be withdrawn without an authority from the Children,—no trust will be allowed to*

appear on any deposit. Provided however, that this Rule shall not be construed to prohibit Individuals resident out of Madras, or Females, who according to the manners and customs of the country do not usually make their appearance in public, from making their deposits in their own names, by the hands of other persons as Agents on their behalf.

14th. No sum deposited to be transferable, excepting on the personal application of the depositor, supported by written sanction. When peculiar circumstances render a deviation from this Rule necessary, the case shall be submitted to the Committee of Management for their sanction.

15th. No person will be allowed to deposit any money without making known his or her name, together with his or her profession, business, occupation, calling, and residence. A duplicate of this description will be entered in each Depositor's book, to be produced whenever any sum is afterwards deposited or withdrawn.

16th. Depositors will be at liberty at any time to withdraw any sums or portions of sums deposited by them, receiving interest calculated up to the end of the month preceding that in which the withdrawal is made.

17th. As a general rule, deposits, with the interest due thereon, will be repaid to the Depositors personally in all practicable cases. In the cases of individuals unable to attend in person, the Secretary will exercise his discretion in regard to repayments of deposits to responsible persons duly authorized by such depositors to receive the same.

18th. Military Officers and Soldiers, European and Native, will be allowed to invest their savings in the Government Savings' Bank, through the Paymasters of Corps or Divisions; and Officers and Servants of the Civil Establishments, European and Native, through the Residents, Collectors, and other Officers in charge of Public Treasuries, or who are competent to sign Pay Abstracts of Civil Establishments; and Residents, Collectors, Paymasters, and other Officers in charge of Public Treasuries, are hereby authorized to receive Subscription to the Bank, or to deduct monthly from their Abstracts such sums as the parties within their circle of payment may be desirous of depositing, not being less than one rupee, nor more than 500 *Company's* rupees.

19th. The deposits referred to in the preceding rule are to be brought to the credit of Subscribers on the last day of the month in which the payment or deduction is made; and Rules XVI. and XVII. respecting the withdrawal of deposits by parties subscribing through Residents, Collectors, Paymasters, and other Officers in charge of Public Treasuries, will be carried into effect under instructions which will be furnished to them by the Accountant General.

20th. In case of the death of a Depositor, the sum at his credit will be paid to his or her Executors or Assigns; or in case of no will, according to the law on this head, or the Regulations of the Service, if the deceased be Military.

21st. In case of any difference between the Secretary of the Bank and any Depositor, it shall be referred for the decision of the Committee of Management.

22d. A general statement of the Funds of the Bank shall be annually made out to the 30th April after the 1st May. The same to be submitted for the information of Government, and published in the Fort St. George Gazette.

23d. The Bank will be open on Tuesdays and Fridays, and all balances above 200 Rupees to be paid over at the close of each day's proceedings by the Secretary into the General Treasury, where an account with the Bank will be opened and kept.

The Government Savings' Bank will commence business on the 1st proximo.

FORT ST. GEORGE, 3d *January* 1842.

GOVERNMENT LOANS.

NEW 5 PER CENT. TRANSFER REMITTABLE LOAN.

NOT PAYABLE BEFORE 22D APRIL 1851, OPENED 13TH OCTOBER 1834, NOTES TO BE DATED 31ST DECEMBER 1834.

Government Arrangements regarding 6 per Cent. Remittable Paper.

Fort William, Financial Department, 13th October 1834.

1. Notice is hereby given that the Sub-Treasurers of Fort William, Fort St. George, and Bombay, are severally authorized to receive from and after the 15th of this month, any of the Six per Cent. Promissory Notes of this Government bearing date the 30th June 1822, that may be tendered for transfer into a new Loan to be created under the conditions hereinafter stated, and to grant in exchange thereof Certificates or acknowledgments, entitling the Proprietors, or their Representatives, to receive Promissory Notes of the Supreme Government in the form and manner specified below.

2. A Bonus or Premium of 5 per Cent. will be granted on all transfers made under this Advertisement: that is to say, for every note surrendered for transfer, a new Note will be issued for a principal sum exceeding the principal sum of the Note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the note so issued in exchange will bear interest at the rate of 5 per cent. per annum from the 31st December next ensuing, which will be its date. The interest will be paid half-yearly, on the 30th of June and 31st of December of each year, in the manner hereinunder provided.

3. Transfers into this Loan will be received until the 15th of February next, and not after that date; and the Proprietors of Notes that may be surrendered for transfer shall receive interest thereon up to 31st December next, at the rate of 6 per Cent. in the same manner as if the Notes had not been surrendered, and with a like privilege to Proprietors resident in Europe to receive the said interest in cash, or by bills at one year's date, and at the exchange of 2s. 1d. for the Sicca Rupee. From and after the said 31st December next, interest will be paid as may be stipulated in the new Notes to be given in exchange, and all demand on account of the note surrendered shall cease.

4. The Notes of the 6 per Cent. Loan of the 30th June 1822, that were advertised for payment on the 9th May last; viz. No. 1 to 887, will be received for transfer in like manner with those now or hereafter advertised, and whether tendered before or after the 31st December next, the calculation and adjustment of interest shall be the same; that is to say, at the rate of 6 per Cent. on the principal sum of the Note to the 31st December next, and from that date at Five per Cent. on the principal sum of the new Note given in exchange, as will be stipulated therein.

5. Promissory Notes of the new Five per Cent. Transfer Loan opened by this Advertisement, will be registered and numbered in the order of the applications made for Promissory Notes in exchange for the Sub-Treasurer's Certificates: that is to say, in the order in which the Notice thereof may be received in the Office of the Accountant General at Calcutta. The accounts of this Loan will be closed on the 15th February next; and whenever it shall be paid off as provided below, if the whole Loan be not at once advertised for payment, but only part thereof, the numbers selected for first payment shall be those first on the register.

6. For the convenience of Proprietors of Notes of the 3 per Cent. Transfer Loan who may be resident in Europe, the Honorable the Court of Directors have made arrangements, whereof they have given public notice in England, to provide that Notes of this Loan shall, at the option of such Proprietors, be registered in the

Auditor's Office at the East India House in London, so as to allow of their being sold in England without previous reference, and the employment of Agents to effect the transfer in India. When Notes may be so registered at the India House the interest payable thereon will be issued in England only at the periods when the Bills for the same would become due, supposing the interest payable in India by the terms of the Notes to have been taken in Bills.

7. It is hereby declared and stipulated, that no part of the Transfer 5 per Cent. Loan opened by this Advertisement, shall be paid off before the 23d April 1854; and whenever it shall be redeemed, a previous notice of fifteen months shall be given by public Advertisement, the period of which shall expire on some date subsequent to that above stated, and not prior thereto. When payment shall be made of the whole or of any part of the Notes of this Loan, it shall be at the option of Proprietors to receive the principal sums due on their Notes respectively, either in cash at the General Treasury at Calcutta, or in Bills to be drawn in India on the Honorable the Court of Directors of the East India Company, payable at 12 months date, and at an exchange of 2s. 1d. for the Sicca Rupee, the Court of Directors having the option when the Bills shall fall due, of postponing payment thereof for one, two or three years, paying interest at the rate of 5 per cent. per annum for the period of such postponement. The notice of payment duly advertised as above, and published in the Government Gazette of Calcutta, shall be considered as equivalent to a tender of payment on the date advertised for discharge, and all interest will cease from that date.

8. The interest of the Promissory Notes of the 5 per cent. Transfer Loan will be paid in cash to Proprietors resident in India. But Proprietors resident in Europe may take the interest at their option in Cash, or in Bills of one year's date to be drawn on the Honorable Court of Directors, at the exchange of 2s. 1d. (Two Shillings one Penny,) for the Sicca Rupee.

9. Proprietors residing within the Presidencies of Fort St. George and Bombay, shall be entitled to receive interest at the exchange of one hundred and six and a half Madras and Bombay Rupees, for one hundred Calcutta Sicca Rupees, from the General Treasuries of those Presidencies respectively; but before the interest of any Note shall become payable at either of those Presidencies, notice shall be given to the Accountant General of the Bengal Presidency, and the Notes shall be brought or transmitted to that Officer, that the order for such payment may be inscribed on the face of the note, after which the interest shall be payable only at the Treasury mentioned in the order; but if it be desired to change the Treasury of payment, application may be made to the Accountant General of the Presidency where it may be payable, and the order may by him be executed.

10. The Accountant General of Bengal may, on the application of Proprietors, and for their convenience, make the Interest on Notes of this Loan payable at any other Treasuries, or issue under this Presidency by a similar order; but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

11. Notes of this Loan may be consolidated and divided in the usual manner; but if consolidated, they shall be so on the highest number.

12. The Certificates to be granted by the Sub Treasurers of Bengal, Madras and Bombay, upon surrender of Notes of the 6 per cent. Loan of the 30th June 1832 for transfer into the 5 per cent. Transfer Loan, shall be in the following form:

FORT WILLIAM, FINANCIAL DEPARTMENT, THE 17th *June* 1835.

Notice is hereby given, that the Honorable the Court of Directors having, in an Advertisement dated East India House, the 17th of September 1834, notified to Proprietors of Bengal six per cent. Transfer Loan, under the conditions specified in the Court's Advertisement of the 14th May 1834, that the property in the new loan would be held in the form of stock instead of promissory notes; that stock receipts would be granted in Bengal to the respective Proprietors, or their Agents, in exchange for the Promissory Notes transferred; and that the new stock would be transferrable at the place of registry, in books to be kept for that purpose in London and in India; in pursuance of that notification and the orders of the Honorable Court, the Sub-Treasurer at Fort William is authorized to receive any of the six per cent. Promissory Notes of this Government, bearing date the 30th June 1832 that may be tendered for transfer into the New five per cent. Loan, in fulfilment of the intention of the Proprietors signified at the India House, under the advertisement of the 17th of September last, and to grant stock receipts to the respective Proprietors, or their Agents, in exchange for the Promissory Notes transferred.

2. A Bonus or premium of 5 per cent, will be granted on all transfers made under this Advertisement; that is to say, for every note surrendered for transfer a stock receipt will be granted for a principal sum exceeding the principal sum of the note surrendered, in the proportion of 10s for every 100 Sicca Rupees; and the stock receipt will bear interest at the rate of five per cent per annum, payable, if the Proprietors are resident in India, in cash at the place of Registry, and if resident in Europe, at their option, either in cash in India, or by bills on the Court at 12 months' date, at 2s. 1d. the Sicca Rupee.

3. The transfers under this advertisement will take effect only at the period when the notes to be transferred shall fall to be discharged, according to the Notices published from the Financial Department under the dates respectively of the 9th May and 13th October 1834.

4. The property of the New Loan here advertised is to be transferrable only in books to be kept in Bengal, at Madras, at Bombay, and in London, and only by

endorsement of Stock Receipts, on the face of which it is to be declared that they are not transferrable. Proprietors of Stock Receipts will be entitled to the option of transferring from the books of Bengal to those of either Madras, Bombay, or London. Having availed themselves of that option, the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected at the place at which they may have chosen to register it.

5. After transfer has been made to London, the interest payable on the Stock so transferred will be issued in England at the same periods as when the bills would have become due, had the remittance of interest been previously received by bills under the option allowed in the second article of the present Notice.

6. It is hereby declared and stipulated, that no part of the Transfer Five per Cent. Loan opened by this Advertisement shall be paid off before the 22d of April 1854, and whenever it shall be redeemed, a previous Notice of fifteen months shall be given by Public Advertisement, which notice may be issued at any time after the 21st January 1852. Payment shall then be made at the option of the Creditors, either in Cash in India, or by Bills upon the Court at twelve months' date, and at 2s. 1d. the Sicca Rupee; with power to the Court to postpone payments of those bills for one, two, or three years, upon allowing Interest at Five per Cent. per annum, for the period of postponement. The Notice of payment duly advertised, as above, and published in the Government Gazette of Calcutta, shall be considered as equivalent to a tender of payment on the date advertised for discharge, and all interest will cease from that day.

7. Proprietors who shall transfer to the Books of Madras and Bombay, will be entitled to receive interest at the exchange of One Hundred and Six and a half Madras or Bombay Rupees, for One Hundred Calcutta Sicca Rupees, from the General Treasuries of those Presidencies respectively.

8. The Accountant General of the Supreme Government may, on the application of Proprietors of Stock registered in the Books of Bengal, and for their convenience, make the Interest of such Stock payable at any other Treasuries of Issue under the Bengal or Agra Presidencies; but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

9. Stock of the Five per Cent Transfer Loan opened by this Advertisement, may be consolidated and divided at the pleasure of the Proprietors in the Books in which it is registered.

10. Proprietors of Six per Cent Remittable Paper who may transfer into the Five per Cent Loan now advertised, shall not be subjected on this operation to the fees prescribed in the Regulations for the Government Agency.

11. Proprietors of the Five per cent Transfer Notes issued under the Advertisement of this Department, bearing date 13th of October last, or their Attorneys and Agents, will be permitted to transfer their property into the Book Debt Loan. For this purpose a period of four months will be allowed to the holders of Five per Cent Promissory Notes, or their Agents, and it is hereby notified, that during the same period fresh Transfers will be allowed to the Book Debt by holders of Six per Cent Remittable Paper.

EXTRACTS FROM THE REGULATIONS.

Art. 1.—The object of this Association is to provide a Fund for the Assurance of Lives to which an individual may subscribe to a certain extent, either on his or her own life, or on the life of any other person. In the former case, the General Estate of the deceased shall benefit in the event of a lapse—in the latter, the person who may have subscribed on the life of the deceased shall benefit to the extent of the amount subscribed for, unless in either case such amount be especially declared at the time of subscription to be for the benefit of any other person or persons, or be subsequently made over according to the form hereafter prescribed for the benefit of any other person or persons, to which case such person or persons shall be entitled to benefit in the event of a lapse, and no other.

Art. 2.—In the case of a person subscribing on the life of another, the Party subscribing, and not the Party on whose life the subscription is made, shall be considered a Member of the Society and have a voice in the management of its concerns. Copartners or other bodies of Individuals may hold Assurances jointly on any given Life, but in such case the Parties uniting in the subscriptions shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by deputation of one of their number on all matters thereto relating.

Art. 3.—No smaller sum than Five hundred, nor larger than Eighteen thousand Company's Rupees can be subscribed for on one Life; except in the case of those parties whose interest in the late Fifth Madras Laudable Society have been transferred by them to this Society at the valuation of Six thousand and four hundred Company's Rupees per share, in accordance with the Resolutions passed at a General Meeting of the said late Fifth Madras Laudable Society held on the 30th November 1841, shall exceed the above mentioned limit of Eighteen thousand Company's Rupees.

Art. 4.—The following are the rates of Subscription to be paid for Assurance in the Society according to the age of the Person upon whose Life the Assurance is effected; but the Premia for Military Lives upon all Policies obtained in this Society by transfer from the late 5th Madras Laudable Society, shall be charged at the rate for Civil Lives.

Art. 5.—All persons desirous to hold Assurance in the Society shall pay a Premium, calculated according to the above Table of rates, in advance to the 30th June or 31st December next ensuing, according as the Policy may be issued in the first or second half of the year, and thereafterward for six months in advance, but in case of a loss occurring before the full current year's Pre-

mium shall have been paid, the Premium for the remaining portion of the year will be deducted from the Sum Assured, it being agreed that Premium for the whole of every year shall in all cases be paid. The Premia so paid shall be carried to the credit of a Fund denominated the Premium Fund.

Art. 8.—In the election of Directors, as well as in all other questions relative to the concerns of the Society which may be proposed for the decision of the Members at large, a Member holding assurance to the extent of Six thousand Rupees shall be entitled to one vote, if to the extent of Rupees Twelve thousand to two votes, and if to the extent of Rupees Eighteen thousand to three votes.

Art. 9.—Messrs. Arbuthnot and Co. shall officiate as Secretaries and Treasurers to the Society, and shall charge a commission of two and a half per cent on all receipts of subscriptions, to be paid out of the Funds of the Society, and they shall charge a Fee of one Rupee on each certificate of admission, and one Rupee for the registry of each assignement of shares, in lieu of all charges, Advertisements, Printing, and Law expences excepted.

Art. 11.—All applications to be admitted to hold Assurance in the Society from persons at or belonging to the Presidency of Fort St. George, shall be made by letter to the Secretaries, and shall be accompanied by a Certificate of Health, signed by a medical gentleman in the Queen's or Company's Service, or of otherwise ascertained professional acquirements, and by an affidavit sworn to and signed by the individual on whose life the Assurance is applied for, such Letter, Certificate and Affidavit to be of the prescribed forms, printed copies of which may be had on application to the Secretaries.

Art. 12.—All applications for admission accompanied by the prescribed forms of Certificate and Affidavit which may be transmitted to the Secretaries, shall be submitted by them to the Directors for their decision, and the Directors shall in all instances be at full liberty to reject any such applications without assigning any reason unto the Applicant for so doing.

Art. 13.—In all cases, it shall rest with the Directors to judge whether with reference to the circumstances of situation and distance, the interval which may have elapsed between the date of Certificate and Affidavit of Health, and the time of their presentment, be reasonable or otherwise, and to admit or reject such Certificate and Affidavit accordingly. In no case, however, is the Party subscribing to have any claim on the Funds of the Society in the event of the life lapsing between the date of the Certificate, and the date on which the Applicant may be admitted a Member, unless where the Directors may at the instance of such Applicant, have originally permitted the subscription to take effect from the date of the Certificate and Affidavit of Health, which it shall at all times be in their discretion to do, on the arrears of Subscription being paid up. In the event however of a person dying between the dates of the Certificate and Affidavit of Health, and his admission, and the Assurance of his life was not effected from the date of the Certificate and Affidavit, the amount of Premium paid for such Assurance shall be refunded.

Art. 14.—No subscription on any life shall be considered as entitling the Party or Parties concerned to benefit by the Society, until the life subscribed on shall have been approved by the Directors, the amount of the first subscription, and Premium of admission paid, and a Certificate of admission granted under the signature of the Secretaries and any three of the Directors agreeably to the prescribed form, and if any Applicant shall omit to pay the amount of subscription and Premium of admission within two months after the life subscribed on shall have been approved by the Directors, such Applicant shall forfeit his claim to be admitted, except on a fresh application, accompanied by a new Certificate and Affidavit of Health.

Art. 15.—All subscriptions except the first (which is to be paid on admission) shall be paid within one month of the time at which they become due. If not paid within that time, a penalty of two per cent on the amount of the instalment shall be added, and any Member who shall not have paid his subscription, together with the said penalty, within two months of the day on which such subscription shall have become due, shall be considered to have absolutely and entirely forfeited his assurance.

Art. 16.—No subsequent increase of Assurance on any life shall be allowed except on a fresh application to be agreed upon and approved of by the Directors, and accompanied by a Certificate and Affidavit as above. The Subscription on the additional Assurance to be according to the age of the party at the time of making the new application.

Art. 17.—A Member desiring to transfer his interest in any Assurance which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original Certificate, which endorsement however shall not be valid until the Certificate bearing the same shall have been produced to the Secretaries, and the transfer duly registered by them in a General Book of Registry to be kept in the Office of the Society.

Art. 19.—A statement of the Society's accounts shall be prepared on the 30th June and 31st December in each year, for the purpose of ascertaining the then state of the Funds, when, after a reservation for the Premium Fund to the extent of 1 per cent on the amount of outstanding risks, any surplus which may remain shall be held to be the individual property of the surviving Policy holders in the ratio of the amounts of Premium respectively paid, and the said surplus shall either be paid to them, or applied in reduction of Premium, subject to retention to individual credits to the extent of 10 per cent on each individual's risk, which shall be carried to a Fund denominated the *Guarantee Fund*, and should the premium of any individual at the close of the term not amount to 10 per cent on his individual risk, his future surplus shall be added thereto until it does so.

Art. 20.—The person or persons entitled to benefit by the lapse of a life in the Society shall, on making application to the Secretaries in writing, accompanied by such proof of the casualty as shall be satisfactory to the Directors, immediately receive the amount assured, together with the accrued credit of the deceased in the Guarantee Fund, the whole however subject to arrears of subscription or to any other sum due to the Society.

Art. 21.—All claims shall be paid out of the Premium Fund until exhausted, in which event, but not otherwise, the Guarantee Fund shall be available to make good all payments for which the Society is responsible, and in the event of the Guarantee Fund being thus trenched upon, the amount which shall be so used at the commencement of the succeeding third year out of the current profits, so that every surviving Subscriber at the time of the repayment to the Guarantee Fund shall have his full amount made up to him as it stood at the time the Fund was drawn upon; and in case of lapse after the Guarantee Fund shall have been so trenched upon, and before the repayment of the next Quinquennial Profits, the full amount to the credit of the lapsed shall be paid, notwithstanding the temporary reduction in the total amount of the Guarantee Fund.

Art. 22.—In the event of a party being desirous to withdraw from the Society, the amount to his credit in the Guarantee Fund shall be repaid to him, subject to a fee of 25 per cent to be carried to the Premium Fund, and a proportionate payment shall be made in the event of a party reducing the amount of his Assurance; provided that in such case no payment shall be made unless the amount to his credit shall equal 10 per cent on his reduced rate.

Art. 23.—Any misstatement in the Affidavit of Health annexed the policy void, in case subsisting at the time when a person effects an Assurance on his own life, or on that of another, or in the case of a person effecting an Assurance on the life of the latter.

AGENTS.

Messrs. Hall, Bainbridge and Co.

The plan of this Society is to transact all its business on such terms as to leave, in all human probability, a small, but certain excess of profit on the general result of its transactions. A small portion of that profit is set apart as a compensation to the Proprietors, who have advanced the Capital necessary for defraying the unavoidable expenses of the Institution, and who have pledged the subscribed amount of their Capital in order to afford that responsibility which relieves the Assured from any contingency of loss, to which they might be liable without the intervention of such a guarantee.

ADVANTAGES OFFERED BY THIS SOCIETY.

The profits are declared in each year, on the second Wednesday in May, on which date all persons assured in the Society for the whole term of life, whose Policies have been in existence five complete years, are entitled to participate.

The practice of annual division, as observed by Mr. Babbage, "distributes the profits with more regularity and justice than any other," and is especially advantageous to persons of advanced years, who cannot hope to participate in many quinquennial, septennial, or decennial divisions.

One fifth of the ascertained profits of the five preceding years is divided between the Policy-holders, and Share-holders.—three-fourths to the former and one-fourth to the latter. The remaining four-fifths are set apart to enter into the average of the succeeding years, and thus to provide against unforeseen contingencies.

The third division of profits was declared on the 13th May 1842, in London, and on the 21st August in India, amounting to a reduction of 60 per cent. on the annual premium of all Policies entitled to participation.

The following table will show the operation of the reduction made by the Society.

Age when Policy was issued.	Date of Policy.	Sum Assured.	Original Premium	Reduction.	Annual Premium payable in 1842.
20	May 1835.	Co.'s Rs. 10,000	Rs. 420	Rs. 252	Rs. 168
30	"	" 10,000	" 480	" 288	" 192
40	"	" 10,000	" 590	" 354	" 236
50	"	" 10,000	" 740	" 444	" 296
60	"	" 10,000	" 1,030	" 618	" 412

This system of reduction in the Premiums affords immediate benefit to the Assured, or enables them to secure a considerable bonus by effecting a new Policy.

Separate tables, both Civil and Military, have been adopted for the *whole of life*, at reduced rates for such persons as may prefer a lower rate of Premium to participation in the general profits.

The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but Members of the Military Service holding offices purely Civil, and subject to no extra risk, will be charged the Civil rate of premium only while engaged in duties purely Civil. It will be in the discretion of the Directors in each particular case to say, whether the higher or the lower rate of Premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

When application is made for assuring a life subject to more than ordinary hazard, an augmented Premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest discretion to justice between the Society and the Assured, according to circumstances.

Premiums are ordinarily payable half-yearly in advance; but Policy-holders are at liberty to make arrangements with the Society to pay their premiums in one amount, in annual or quarterly payments, or for a given number of years, viz. 5, 10, 15, or 20. Some persons may wish to avail themselves of a present season of prosperity, and adopt the latter course, in which case (although their contributions will cease with the expiration of the term they may fix upon) their share of the profits will continue to be added to their Policies annually during the remainder of life.

The Parent Institution being in London, with a similar establishment in Calcutta for granting Policies, Premiums, as well as Claims, are payable in either country, at the option of the Policy-holders. The appointment of Sub-Committees at Madras and Bombay, with power to grant Policies, affords similar facilities to persons residing at either of the other Presidencies.

All Policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death, of the Assured shall have been furnished to the Directors either in London or Calcutta.

The Directors of the Indian Branch of the Society are empowered to treat for the purchase of Policies, on which Premium shall have been paid for a period of not less than five years; or to advance, if required, on such Policies, by way of loan, two-thirds of the estimated value.

The accounts of this Society, after being investigated by Auditors, chosen as well by the Assurers as the Proprietors, are laid before General Meetings appointed twice a year for that purpose;—to like inspect the accounts of the Parent Society are regularly transmitted to India for inspection, the Indian Branch enjoying reciprocal advantages with the Parent Society.

Where the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued on the date of approval of the risk by the Directors, but no Assurance to be binding on the Society until the 1st Premium shall have been actually paid to the Agents.

Every proposal for Assurance will be immediately attended to, and the Assurance completed generally, within a few days after the application is made.

All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees.

The Tables, Blank Forms, and other particulars requisite to enable persons to effect Assurances, may be had on application to the Agents.

* * *Premiums are received in half yearly payments for the convenience of the assured, but in case of lapse, the full premium of the current year will be charged.*

Any person assured for the whole term of life, under Tables 3 and 4, will upon his return to Europe for a continuance be permitted to pay Premiums according to the English rate for the age at which he originally assured, provided he has already paid the Indian Premiums on his Policy for five clear years.

In case the party should not have paid the Indian Premiums for five clear years, he will be required to pay one year's Indian Premium after his return to Europe, and will then be admitted at the English rate for the age at which he originally assured.

Parties visiting England *on Furlough, or for a temporary residence* will be required to pay the Indian Premiums during residence in England; without reference to the number of years the same may previously have been paid in India.

When a party applies to pay premiums in London for a new Insurance, he shall be required to state if he desires to continue his policy in Europe, in which case the premiums are to be received in such an amount as will purchase a Bill of the East India Company for the amount of premium due in Madras, according to the terms of the Policy—or should he be entitled to be reckoned to the English rate, the premium must still be calculated in Madras and received in Sterling money according to the Exchange of the day.

The preferable course is for the party to leave the Policy at the office to be endorsed as covering a certain sum of Sterling money, to be calculated at the rate of 2s. the Rupee, after which the premium will always be received in Sterling money without reference to the state of the Exchange.

The object of this Fund is to afford relief to the Widows and Orphans of persons not in the uncovenanted service of Government, and others, who have no similar institution to look to for making a provision for their families. It consists of two branches, namely, a Widows' branch and a Children's branch. The benefits of the former are secured by the payment of a donation (equal to two years' subscription, as entrance money,) and a monthly subscription, for which the widow will enjoy a pension equal to six times the rate of subscription. In the Children's branch, a monthly subscription on account of each child, will secure a pension equal to four times the account of that subscription, until a specified age. The capital of the fund amounts to about one lac and a quarter of Rupees; it has about 250 subscribers in its connexion, and its present liabilities do not exceed 3,000 Rupees per annum. The following are its principal rules, affording all needful information regarding its constitution and plan of operation, namely,

1. That the Fund shall be reopened to the public on the 1st August 1841, from which date, Civilians not exceeding the age of 35 years, shall be eligible for admission as subscribers.

2. That all applications for admission into the Fund, shall be accompanied by a medical certificate of health of the form laid down in the appendix.

3. That Subscribers to this branch shall pay a donation as entrance money equal to twenty four months' subscription of their class in four years, and a monthly subscription at the rate affixed to that class.

4. That Subscribers to this branch shall be divided into six classes, and pay a monthly subscription at the following rates:

First Class	12	Rupees per mensem.
Second do	2	do. do.
Third do	2	do. do.
Fourth do	3	do. do.
Fifth do	2	do. do.
Sixth do	1	do. do.

5. That Widows shall not receive any pension from the Fund, unless it has actually received on their account as follows:

First Class	600 Rupees.
Second do	400 do.
Third do	300 do.
Fourth do	180 do.
Fifth do	120 do.
Sixth do	60 do.

and in the event of the death of Subscribers before completing the above sums according to their respective classes, all payments made by them shall be forfeited to the Fund.

6. That Widows shall not receive their full amount of pension unless the Fund has received on their account as follows:

First Class	2,000 Rupees.
Second do	1,400 do.
Third do	1,000 do.
Fourth do	600 do.
Fifth do	400 do.
Sixth do	200 do.

and in the event of Subscribers dying previously to their paying the full account of the above sums, according to the classes in which they may belong, their Widows shall, notwithstanding, be admitted to the benefits of the Fund, but a deduction from the Widows' quarterly pension of one-sixth of the amount shall be made, until the full sum of the class is completed.

7. That for each child, a subscription, at the option of the subscribers, shall be paid to the Fund at any of the following rates, namely, 4, 8, or 12 Annas, or from 1 to 12 Rupees per month.

8. That for the above payment, every child shall be entitled to a pension equal to four times the rate of subscription received on his or her account.

9. That the above pension shall be continued to the boys till they are 18 years of age, and to the girls till they are 21 years of age. This pension to cease in the event of their marriage within the above specified ages.

10. That no donation shall be required for admission into this branch, and that in consequence, the children of those Subscribers only who have completed the payment of the amount fixed by rule 5, shall be entitled to the benefits of this branch, on payment of the subscription required by rule 7.

11. That six months' subscription on account of each child shall be paid into the Fund, before the full benefit of this branch is enjoyed. In the event of lapse before payment of the above subscription is completed, the difference shall be deducted from the Childrens' pension.

COMMERCIAL TABLES.

TABLES OF MONEY, WEIGHTS AND MEASURES.

MONEY.

Accounts were formerly kept in Madras in Star Pagodas, Fanams, and Cash, viz.

80 Cash to 1 Fanam.
42, 44 or 45 Fanams, 1 Star Pagoda:

Government, the Banks, and all the Houses of Agency kept their accounts at 42 Fanams the Star Pagoda: the Shops and Bazars at 44 or 45.

The Star Pagoda exchanged in the Bazar for about 45 Fanams, but it fluctuated according to circumstances.

The coins in circulation were the Star Pagoda, the Arcot Rupee—3½=1 Star Pagoda;—(it exchanged in the Bazar for 12 Fanams 60 Cash;) the double and single Fanam, and the Doodie, 8 of which=1 Fanam.

There was also a copper coin sent out from Europe of 20, 10, 5, and 1 Cash value, the latter being worth 8,75ths, or about the 9th part, of a farthing.

This Currency was altered in January 1818, by a Proclamation which constituted the Silver Rupee the standard coin. To this the public accounts were all converted at an exchange of 350 Rupees per 100 Pagodas; and the new Silver coinage was made to consist of Rupees, Half, and Quarter Rupees, Double and Single Annas; the Rupee containing 165 grains of pure silver and 15 grains of alloy, and weighing 180 grains, and the other Coins bearing the due proportion to the same.

12 pice = 1 anna,
16 annas = 1 rupee,
3½ rupees exchange in account for 1 pagoda.

A lac of Rupees is 100,000: a crore of Rupees 100 lacs, or 10 millions.

The Act of the Legislative Council of India (passed in 1835) assimilating the currency over the Country, changes the design, but leaves the new coinage of a precisely similar value to that of Madras according to the above Regulation. The following is the Proclamation on the subject:

Proclamation.

The Honorable the Governor General in Council has resolved, that the device of the New Rupee, Double Rupee, Half Rupee and Quarter Rupee, to be issued from the Mints of India, from and after the 1st September 1835, in conformity with Act XVII of the same year, shall be as follows;

On the Obverse, the head of his Majesty William the Fourth with the words,

William I I I I, King.

On the Reverse the denomination of the Coin in English and Persian in the centre, encircled by a laurel wreath, and around the margin the words,

East India Company, 1835.

The new coin shall be milled on the edge, with a serrated or upright milling.

The Rupee shall measure in diameter one inch and two-tenths of an inch, or *one tenth of a foot*. The diameter of the Double Rupee shall be one inch and a half; that of the Half Rupee, or *Eight Anna Piece*, shall be ninety-five hundredths of an inch; and that of the Quarter Rupee, or *Four Anna Piece*, shall be three quarters of an inch; these measures being severally the relative proportions to the Rupee provided in the Act aforesaid.

The weight, standard fineness, and value of the new (or Company's) Rupee, as defined in the Act, are here repeated for general information.

Weight, 180 grains Troy, or *one tola*.

Standard Quality, eleven-twelfths Silver, one twelfth Alloy.

Value, equal to the Madras, Bombay, Furukhabad, and Sonat Rupee; and to fifteen sixteenths of the Calcutta Sicca Rupee.

The weights of the other Silver Coins, viz. the Double, Half, and Quarter Rupees to bear a due proportion thereto.

The following Proclamation of the Government of India, respecting a new gold coinage, was issued on the 13th January 1841.

Proclamation.

The Governor General in Council is pleased to notify that the Gold Coins henceforth to be issued from the Government Mints at the different Presidencies in India, in conformity with Act No. XVII. of 1835, shall bear the following Devices:

On the Obverse—The Head of Her Majesty Queen Victoria, with the words *Victoria Regina*, 1841.

On the Reverse—A Lion and a Palm Tree in the centre with the designation of the Coin in English and Persian below, and around the margin the words *East India Company*.

The coin will be milled on the edge like the Rupee.

The weight and standard will be according to the Act as follows:

Weight of the Gold Mohur or Fifteen Rupee Piece—180 Grains troy.

Standard of ditto 11 or 165 Grains pure Gold, 1 or 15 Grains alloy.

The other Gold Coins, viz. the Five Rupee, Ten Rupee and Thirty Rupee, or double Gold Mohur Pieces, will be of the same standard as the Gold Mohur, or 15 Rupee Piece, and of proportionate weight.

Officers in charge of Public Treasuries are hereby authorized freely to receive these Gold Coins at the rates, until further orders, respectively denoted by the denomination of the Pieces, until they shall have passed the limits of lightness allowed for wear laid down in the annexed table, when they will only be receivable as Bullion, and be subject to a deduction of one per cent. for seignorage:

	THE PIECE FOR			
	30 Rs.	15 Rs.	10 Rs.	5 Rs.
Standard Weight.....	360 gn.	180 gn.	120 gn.	60 gn.
Limit for Wearage.....	3 „	1½ „	1 „	½ „
Minimum Weight.....	357	178½	119	59½

The Gold Coin received in Public Treasuries will be disposed of as may be ordered by the Accountant General, or the Accountant of the Presidency.

WEIGHTS.

19 rutti weight = make 1 pollam,
40 pollams, „ 1 viss,
8 viss, „ 1 maund, wt. 25lb. avoir.
20 maunds „ 1 candy, 500lb. avoir.

MEASURES.

Grain or Dry Measure.

8 ollucks, make 1 measure, or pudy,
8 measures, „ 1 marcal,
400 marcals, „ 1 garce, wt. 9256lbs.

Each parah is to be 2 feet square and 6½ inches deep.

A parah of cummu is 5 marcals.—Milk, Oil, Ghee, &c. are sold by the grain measure, containing 8 ollucks: 20 ollucks are equal to 1 English gallon.

Land Measure.

Land is usually measured with Gunter's chain of 100 Links, or with a rod of 10 feet, and reduced to Cawnies, Grounds and Square feet, agreeably to the following table.

60 feet long and 40 feet broad, make 1 ground or mannie, containing 2,400 square feet.

24 Grounds, or Mannies, make one Cawnie, equal to 57,600 square feet.

The Indian Cawnie is in proportion to the English Acre as 1 to 1,2225, or as 121 is to 100.

To reduce Indian Cawnies to English Acres, multiply the given number of Cawnies by 100, and divide the product by 121, the quotient will give the number of Acres, and the remainder be the fractional part of an acre;—or multiply the Cawnies by 1,9123, and the product, (cutting off 4 places to the right hand) will be the same, and the figures so cut off are the decimal part of an Acre.

The Covid in Cloth Measure is 18 Inches, but the English yard of 36 Inches is generally used.

A Captain £300; Commander £250; Lieutenant £190; Purser £190.

Every Officer retiring from ill-health after ten years service, and before he has completed that of twenty-two years, is granted the following retiring allowance:

Furlough.

A certain proportion of the Officers (to be determined by the Government, with due regard to the exigencies of the service) are allowed to go home on furlough for three years, with the pay only of their rank.

No Officer under the rank of Captain who has not actually served ten years can be permitted to go home on furlough, unless in cases of ill health, under the like certificates as required from Military Officers.

The regulations for drawing pay on furlough and retirement by the Officers are, as far as circumstances will admit, the same as those for the Military Officers.

PROJECTED BREAKWATER, &c.

Notice to Commanders of Ships and others.

Madras: Master Attendant's Office, 14th May 1839.

By a recent survey of the site of the projected Breakwater, the extreme length of the work from N. N. E. to S. S. W. was found to be about 70 feet, extreme breadth from E. S. E. to W. S. W. about 35 feet. The soundings upon it were found to vary from 25 to 12 feet. The work is laid down to feel water, bearing from the Master Attendant's Flag Staff S. E. b. E. ½ E. distant from the shore 500 yards. The stones do not appear to have been moved by the action of the sea from where they were originally placed. As it is now considered a danger, a coast buoy is laid down on the south end, and it is in contemplation to lay down another at the north east end, to mark the two extremes to seaward.

By order of the Marine Board.

H. D. E. DALRYMPLE, *Acting Master Attendant.*

SIGNALS FOR SHIPS OR VESSELS IN THE OFFING

Signals respecting Ships or Vessels in the Offing, whether Men of War, or Merchantmen, are made from the Garrison Flag Staff, a yard slung across the topmast, the points of which represent the quarter from which the Vessels are coming in.

Three classes of Vessels are expressed by the Signals ;—Vessels of three masts, two masts, and one mast.

An Ensign, or square National Flag, represents a Ship of three masts; a National Flag, with two points or swallow's tail, represents a Brig or Snow, &c. of two masts; and a broad National Pendant terminating in one point, represents a Sloop or Cutter of one mast.

If either of these Flags is hoisted to the yard in the manner described, the Vessels seen are on the North or South quarters of the compass.

The number of Ships that appear in the Offing, are expressed by pendants, — a white pendant, signifies one Ship or Vessel; a red and white pendant, two Vessels; a red pendant, pierced with white, three Vessels; and a yellow pendant pierced with blue, four Vessels. When the number of Vessels exceeds four, they are to be considered as a Fleet : on which occasion a long blue and yellow pendant will be hoisted.

If the Vessels in sight are Men of War in the North or South quarters, one of the numerical pendants will fly over the national flag on either side of the yard arm.

If Merchantmen are seen in the North or South quarters, one of the numerical pendants will fly under the national flag on either side of the yard arm.

If a Fleet is in sight, one gun will be fired after the signal of the Fleet is made, and if there are two Fleets of different nations, in the same point of the compass, the signal of the first seen Fleet will be lowered after the space of 15 minutes, and a fresh signal hoisted, which is likewise to be accompanied by a gun.

A Steamer or a Packet is announced with a blue flag pierced with yellow hoisted to the main cross, expressive of the quarter she is in.

The annexed Plate represents the Flags of all Nations that trade to Madras ; and the manner in which the Signals are made, to express ships or Vessels discovered in the offing.

The St. George's Flag hoisted on either points of the yard arm, with a white pendant over it, announces a British Man of War. The French or Treecoloured Flag over two points of swallow tail hoisted with a red and white pendant over it, represents two French armed Ships or Snows, &c.; a broad American pendant hoisted with a red pendant pierced with white flying over it, represents three American armed Cutters; and a Dutch flag hoisted with a yellow pendant pierced with a blue over it, represents four Dutch Men-of War.

The St. George's Colours are carried according to the colour of the Admiral of the Squadron on the station for the time being.

If the numerical pendants, instead of flying over the national Colours, is hoisted half mast down, they will express the same class of Vessels to be merchantmen.

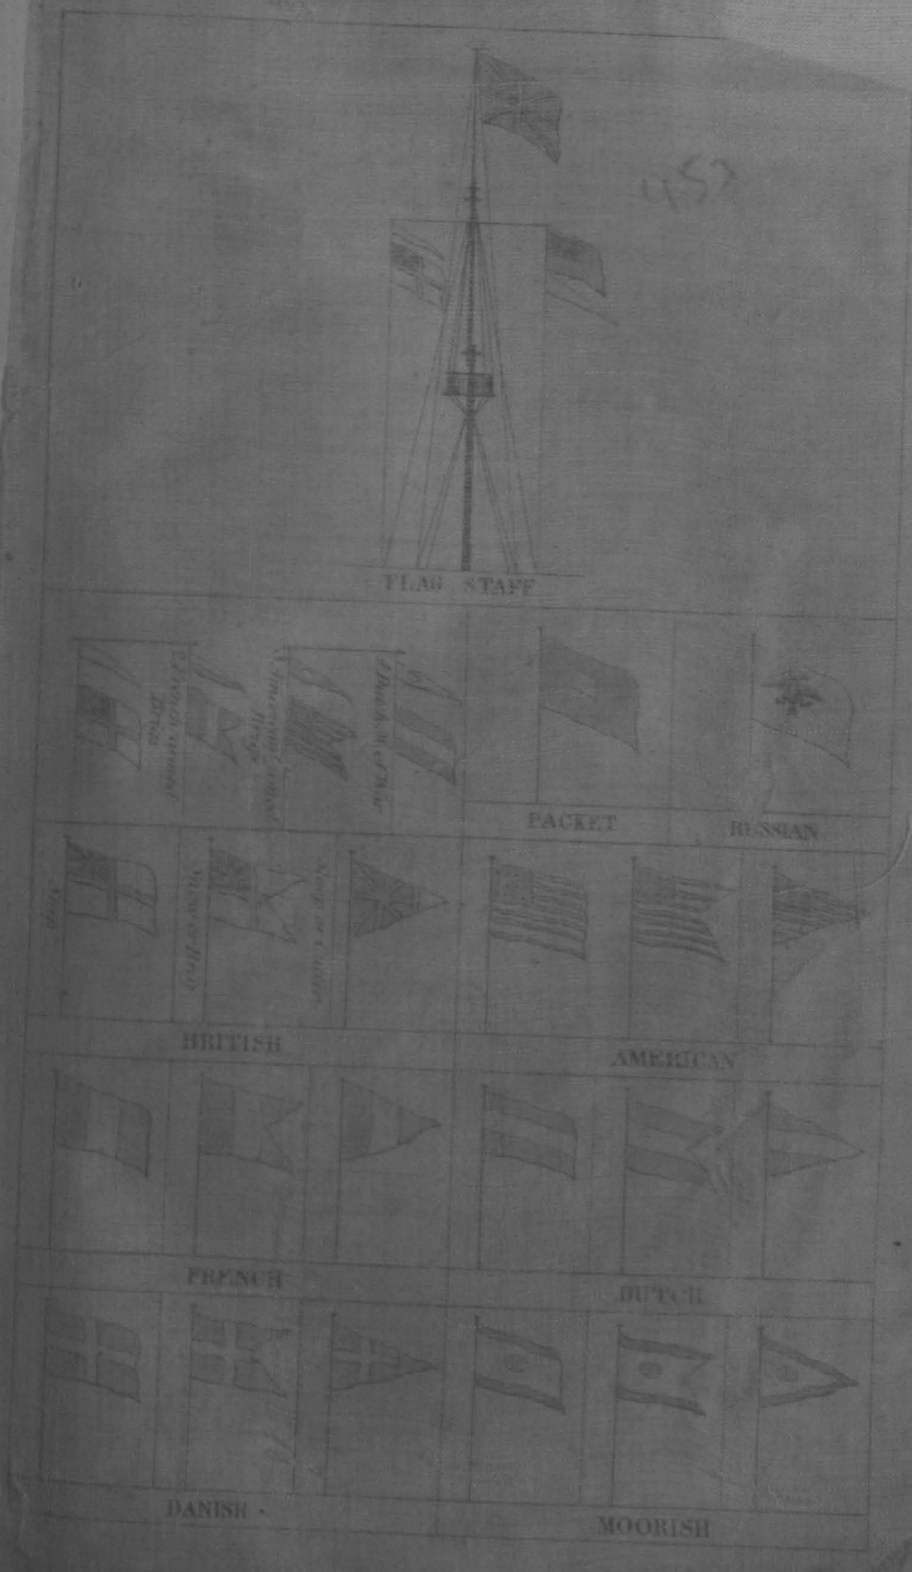
LIGHT HOUSE, MADRAS.

*** At the time this Department of the Almanac was passing through the Press the new Light House on the Madras Pod made was fast drawing to a completion, and was advertised to be opened on the 1st January 1844. The following is the Advertisement.

NOTICE.

Marine Board Office : Madras, 9th October 1843.

Notice is hereby given, that on and after the 1st day of January 1844, a Light will be exhibited on the New Light House erected at Madras immediately to the Northward of the Walls of Fort St. George ; and that on and after the said 1st day of January 1844, the Light hereofore usually exhibited on the Old Light House within the Walls of Fort St. George, will be discontinued. The New Light to be exhibited will be elevated 125 feet above the mean level of the Sea,—and may be seen from the Deck of a Ship at the distance of 20 miles. The Light is of the Revolving Description, and the duration of the Flashes to that of the Eclipses or Darkness, in the ratio of 1 to 2, and as the nature of the Motion is Revolving instead of Intermitting, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted that the duration of the Flashes will vary from 0" to 4", and that of the Eclipses from 0" to 2", the sum of the duration of Light and Darkness being, however, at every position, the constant ratio of 2 to 1. From the South Eastern extremity of the



Paliacat Shoal the New Light House bears S. 23° W., and is distant 3 miles; but no Ship or Vessel when heading in from the Northward for the Madras Roadstead should bring the Light to bear to the Southward of S. 28° W. (S. 62° S. W. ¼ W. magnetic) unless her position is well ascertained. Commanders of Vessels are hereby warned of the serious risk they incur by incautiously approaching the dangerous reefs and of the Paliacat Shoals, as hazy weather or other causes may obscure the Light. Frequent soundings therefore and a constant look out are absolutely required for. The limits of the Madras Roadstead (in 8 or 9 fathoms) are contained within the following bearings, viz. from the Northward the Light House will bear S. 50° W. and from the Southward N. 81° W. (or from S. W. ½ W. to S. W. ¼ S.

The New Light House at Madras is in Latitude 13° 5' 10" North, and in Longitude 80° 20' East of Greenwich.

Published by order of the Marine Board at Fort St. George.

LIGHT HOUSE, PONDICHERRY.

The Pondicherry Light House is situated on the edge of the sea in 11° 55' 51" N. Latitude and 79° 52' 33" East Longitude from Greenwich. It is a light of the third magnitude. The illumination is composed of six reflectors lamps placed on a horizontal circle facing the sea. It was lighted for the first time on the 1st July 1836.

The height above the level of the sea is 29 mètres 80. It is placed upon a tower of 21 mètres in height. The mètre is equal to three English feet and 28-100th. Being on the deck of a ship of 300 or 400 tons, with a clear state of the atmosphere, the light is seen at the distance of 16 miles.

Vessels which anchor during the night at Pondicherry during the N. E. monsoon, should cast anchor in 10 or 11 fathoms, keeping the light from W. ¼ N.W. W. N.W. (The French fathom is 5 feet 5 inches English measure.)

During the S. W. monsoon, vessels should anchor in 6 to 8 fathoms (French) Keeping the light from W. to W. ¼ N. W.

These two indications for the anchorage are the most suitable for ensuring safety. The Light House dues are charged on all trading vessels which anchor in the roads, every year at the rate of one anna each ton.

LIGHT HOUSE, MASULIPATAM.

Marine Board Office, Madras, 17th May 1841.

With reference to the Advertisement which appeared in the Fort St. George Gazette of the 26th October 1840, notifying that a Light would be exhibited on the 1st December last, the Light has been exhibited, and that it will in future be continued on the Flag Staff at Masulipatam, at an elevation of about 35 feet above the level of the sea.

The bearings of the Light are as follows:

Point Dora bearing West is 6 Fathoms, the Light bears N. 72° W.

Point Narsapore bearing West by 7 Fathoms, the Light bears W. ¼ S.

In standing into the River from Point Dora, it is advisable to shape a course East Point Northerly, to avoid the Flat which extends a short distance off the W.n. Shore from Point Dora to the Roadstead.

The Light is clearly visible 13 miles from the Deck of a 700 Ton ship and 20 or more from the Top Mast Head.

By order of the Marine Board.

John Robert Bayson, *Acting Secretary.*

FLAG STAFF LIGHT AT MANGALORE.

Madras, Marine Board Office, October 29, 1842.

Notice is hereby given that a Light is now, and will henceforth be exhibited on the Flag Staff at Mangalore, at an elevation of about 20 feet above the level of the Sea.

The height of the Mast to the Vane is 92 feet, and to the yard arm 50 feet.

The attention of Mariners is particularly directed to the annexed instructions for anchoring with safety in the Mangalore Roadstead, and in which the Leading Land Marks will be found to be unmistakeable, and not obscure.

By order of the Marine Board.

J. C. Boyles, *Acting Secretary.*

Instructions for anchoring in the Mangalore Roadstead.

The best anchorage in the Mangalore Roads is with the Flag Staff bearing from N. by W. ½ W. to E. by E., in from 5 to 6 fathoms muddy bottom.

In approaching Mangalore from the northward, caution is necessary to avoid the St. Mary Isles, and a dangerous ledge of rocks called the Pessetra rocks which do not appear to be very accurately laid down: the latter are mostly above water, and extend 1 or 2 miles from the coast and to the southward of the St. Mary Isles. 15 or 10 fathoms is a good depth of soundings to keep in the parallel of these dangers, and when certain of having passed them, Ships or Vessels may haul in for the Mangalore Roadstead, to 7, 6 and 5 fathoms; and from the excellent light now exhibited on the Flag staff, a proper position for anchorage can be taken up by night, whilst the conspicuous buildings on Flag Staff hill, render just situation discernible by day. A few miles to the northward of Mangalore, there is a remarkable hill near the Coast, having a peak at each extremity. This hill, called the Asses' Ears, is a good land mark. Coming from the southward, Ships or Vessels should haul close round Mount Delhie, which bold headland may be approached within one mile, and is 18 leagues south of Mangalore: they may safely coast along until the Flag Staff is seen by night, or the buildings about the Flag Staff are visible by day, when they can anchor according to the above directions. Attention to the lead, and a good look out are always requisite. It is necessary to observe that the promontory of Mount Delhie extends to the southward of that point, about 2 miles in a direction S. W. by W. from the Coast; but this remarkable headland does not project above 200 yards from the Coast on its northern side. It forms a deep bay to the southward, affording shelter from North Westerns, and a good anchorage in from 4 to 5½ fathoms mud; but there is no light or bay to the northward of Mount Delhie.

By order of the Marine Board,

J. H. Bowen, *Acting Secretary.*

INSTRUCTIONS FOR TUTICORREEN ROADSTEAD.

Ships making the land about Tuticorren must be careful not to get too far to the northward, as some spits, with only (17) seventeen feet on them, lie at a distance of (5) five miles off Vypar, having from (4) four to (8) 8½ fathoms on each side. Tuticorren, keep some large conspicuous trees at Puluruntoddy (trees and Tuticorren, keep some large conspicuous trees at Puluruntoddy (trees and ten miles off and which no other object on shore is perceptible) to the northward of west; these are seven miles south of Tuticorren.

The best anchorage in the Roadstead, is in from (5) five and a half to (6) six and a half fathoms, east, with the Obelisk on Hare Island from W. N. W. to W. by S. distant about 1 mile. During the months of August and September, when strong winds are to windward from the land, Vessels keep under weigh, but should not approach nearer, as a ledge extends from north to south of a distance of 3 miles and a half from the beach, with uneven soundings from 10 to 20 feet on it.

The N. E. Monsoon sets in about the latter end of October with heavy rain, but it does not set in the middle of November; it then blows steadily and strong from W. N. W. to W. S. W. Moderate weather about the middle of May, blowing with great violence until the end of July. Few vessels anchor on the Coast during this time, as a favorable wind for proceeding cannot be had. The currents set with the wind, viz. in the S. W. in the N. E. Monsoon, and upwards, at an average of about a knot per hour. During the months of [illegible] there is generally a heavy swell on the coast, which runs very high as well as the wind are very boisterous.

OVERLAND COMMUNICATION.

RULES FOR THE ENGAGEMENT OF PASSAGES AND ACCOMMODATION OF PASSENGERS IN THE GOVERNMENT STEAM PACKETS BETWEEN BOMBAY AND SUEZ.

Bombay Castle, 6th *December* 1841.

1. Application for passage is to be made at the Office of the Master Attendant in Bombay, and at other Ports to the Commander.

2. The Vessel which conveys the Mail intended to reach Suez on the 19th of any month is to be designated the Steamer of that month: for instance the January Steamer is the one which is destined to reach Suez on the 19th January, although leaving Bombay possibly before the end of December.

3. Passengers are to be divided into two classes, viz.

First Class, who sit at the Commander's Table and are entitled to all the privileges of the quarter deck.

Second Class, who are not entitled to walk aft of the paddle boxes, whose berth is forward, and who either arrange for their own provision, or mess with the Warrant Officers, or Engineers.

4. Every passenger of the 1st class shall pay the following sum, as Table Money, for the voyage from Bombay to Suez, or from Suez to Bombay, viz.

A Lady or Gentleman	Rs. 200
A Child of ten years of age and above five years	,, 100
A Child five years and under	,, 80
A Child one year and under	,, 50
A Child under one year and with the mother	Free

These rates apply to the Steamers of every month throughout the year, with the exception of those of July and August, in which the Table Money from Bombay to Suez will be as follows: viz.

A Lady or Gentleman	Rs. 200
A Child under 10	,, 150
A Child under 5	,, 120
A Child under 1	,, 75
Do with the mother	Free

But the rate from Suez to Bombay will be the same in all months. It is to be understood, that for the above sums, the passengers are to be provided with a plain substantial table, but no person is entitled to more than one pint of wine and one bottle of beer per diem. Cabin passengers have the first choice of seats at the table, and after them the saloon passengers in preference to those on the deck, whose priority will be arranged according to their standing on the passage list. The seats will be arranged by the Commander, and once taken they cannot be changed without his permission during the voyage.

5. In addition to the Table Money the following sums will be charged for the accommodation engaged by first class passengers, viz.

A treble cabin	Rs. 1,000
A double cabin	,, 600
A single cabin	,, 300
A saloon berth	,, 250
A deck passage	,, 200

6. Every second class passenger shall pay Rupees 150

7. For each European Servant 50 Rupees must be paid as subsistence money, and 50 Rupees as passage money; for Native Servants the charge will be one half the rate for an European; but none are to be considered and taken as Servants unless they actually accompany their Masters or Mistresses.

8. Three lists for each month's Steamer will be kept at the Master Attendant's Office, viz. one for cabin passengers, one for saloon, and one for deck passengers. A statement of the number of each class which each packet is calculated to accommodate, will be open at the same place, to the inspection of the public.

9. Every applicant may register his name in whichever of the lists he pleases, but the name of the packet will not be declared until 10 days prior to the appointed day of sailing, when choice of accommodation will be given, according to priority of standing on the lists, Ladies having the preference for the first three cabins.

10. In the event of a greater number of names having been registered than the Steamer, when decided, is calculated to accommodate, the supernumerary names on the cabin lists may be transferred to that of the saloon or the deck, and those of saloon lists to that of the deck, or they may be withdrawn and the deposit repaid, at the option of the parties. In the case of a transfer under this rule, the name will be placed in the same position in which it would have stood by virtue of register, and the arrangement can be for a saloon or a deck passage instead of a cabin, or for a deck instead of for a saloon. Should any of the cabin or saloon berths remain open after the vessel has left the harbour, the saloon or deck passengers may be allowed to take them on paying into the hands of the Commander the required difference of price.

11. Ladies and children can take passages in cabins only, and female servants cannot be accommodated otherwise than in the cabin engaged for the family they accompany.

12. A passenger who has engaged a cabin into make what arrangement he likes as to its occupation; he may either keep it entirely to himself, or admit to share it with any one that he pleases, provided only that the name of the person so admitted (if an adult) must have been previously on one of the lists, and subject to the following restrictions, viz.:—

A treble cabin cannot be appropriated to the accommodation of more than

Four Ladies,
Three Gentlemen,
Six Children,
One Lady and four Children,
Two Ladies and three Children,
Three Ladies and two Children,
One Gentlemen and three Children,
Two Gentlemen and two Children,
A Lady and her husband with two Children.

A double cabin cannot be appropriated to more than

Three Ladies,
Two Gentlemen,
Four Children,
A Lady and three Children,
Two Ladies and two children,
A Gentleman with two Children,
A Lady and her husband with one Child;

A single cabin cannot be appropriated to more than

Two Ladies,
One Gentleman,
Three Children,
One Lady and two Children:

Children under 3 years of age may be taken extra to the complement of a cabin on payment of fifty Rupees for each addition.

13. Passages for intermediate places can be engaged only when there is accommodation to spare after the entire number of passengers, unless the parties are willing to pay the price of the whole voyage, in which case they may register their names in the same manner as all passengers. The vacant accommodation will be declared three days before the sailing of the Vessel. The passage between Aden and Mocha and Bombay and Suez respectively, will be counted as one half of the passage between Bombay and Suez; between Judda and Suez, will be counted as one third, and between Judda and Bombay as two-thirds. Cossier and Suez are considered to be alike.

14. The engagement of a passage will not be considered valid unless a deposit of the following sums be made at the time of application, viz.:—

For a Cabin passage	Rs. 300
For a Saloon	150
For a Deck	75

This deposit, should the party not proceed, will invariably be forfeited, except under the provisions of Art. 10, and in cases where, by the production of a Medical Certificate, it is satisfactorily shewn that the person who engaged his passage is unable to undertake the voyage. A deposit is not required on the registry of the vacant accommodation, except when the children are to occupy a cabin by themselves, in which case the same deposit must be made as for the cabin passage of grown up persons, viz. 300 Rupees.

15. To prevent unnecessary trouble the Master Attendant is empowered to receive no applications for the deposit money.

16. Ten days prior to the appointed day of sailing, each passenger must pay to the Master Attendant the remaining portion of the passage money, in default of which the deposit will be considered forfeited, and any claim to passage invalid. When the cabins are finally allotted, an adjustment will be made with the party or parties to whom they are appropriated, the difference between the value of the place occupied by each individual and the deposit made under Art. 14 being paid up or returned, as the case may be. When the passage money has been paid up, no portion of it can on any plea be returned except under the provisions specified in Art. 14.

17. Persons who from non-arrival at Bombay, may have omitted to pay the balance of the passage money may be re-admitted as passengers, if before the period of departure the balance is paid. They however will be placed at the bottom of the list of the class of passengers in which they are registered.

18. No transfer of accommodation in the Steamers by an individual who has taken a passage to one who has not taken his passage will be permitted, but after the list has been filled up any person wishing to attend the chance of succeeding to a vacancy caused by a lapse of any kind may do so, by registering his name and paying the required sum, which will be refunded to him should no vacancy occur.

19. It is to be understood that Government reserves to itself the right of appropriating a cabin or cabins for the use of public functionaries, or others proceeding on duty, or by special order of Government, as passengers in any of the Honorable Company's Steamers.

20. Passengers on a Steamer that may from accident or other cause be obliged to return to Port, will be entitled to the refund of the amount that has been paid, deducting therefrom the sum for the table allowance of the Commander according to the number of days that the vessel may have been at sea, calculating the average time occupied in a voyage to or from Suez to be 18 days, and Aden 19 days.

21. It is necessary for passengers not belonging to the Honorable Company's Service, to make the requisite arrangements at Suez or other intermediate Port with the Commander before, or at least at the time of their embarkation, for the payment of the passage money.

22. For the convenience of passengers from the Red Sea to India, the Commanders of the Honorable Company's Packets are authorized to receive payment of passage money at Suez, or any Port between Suez and Bombay, in Sovereigns, Spanish Dollars, or German Crowns, at the following rates of exchange; viz.: Sovereigns at ten Rupees each, Spanish Dollars at two Rupees and three Annas each, German Crowns at two Rupees and two Annas each.

23. The baggage of each passenger must not exceed four boxes of the following dimensions, viz.:—

Length	2 Feet 5 Inches.
Breadth	1 " 5 "
Depth	1 " 3 "

and the total weight must not be more than four cwt. Second class passengers are allowed half the above quantity.

24. Each cabin passenger may, if he pleases, put all his baggage into his cabin. The Saloon and deck passengers will be allowed to keep one box or bag above. The rest of the baggage is to be in the baggage-room, and passengers will be allowed access to it twice a week, on a day and hour fixed by the Commander, who will appoint a person to have charge of the baggage.

25. Any applicant may be refused a passage without any cause being assigned, either by the authorities at Bombay, or by the Commander of the vessel when away from Bombay, but a report of the rejection is to be communicated to Government.

26. All persons who take passage either themselves or through their Agents, will be considered as thereby binding themselves to comply with these Rules, which will be shown by the Master Attendant, or by the Commander of the Vessel, to parties who engage passage.

By order of the Hon'ble the Governor in Council,

P. St. Massey, Lieut.-Col., Sec. to Govt.

JAMES STEUART, *Master Attendant.*

Colombo, 26th August 1841.

NEW HINTS TO OVERLAND TRAVELLERS.

Do not encumber yourself with unnecessary baggage; the Steamer supplies you with bedding and soap and towels, so that wearing apparel is all you require to take with you.

Provide yourself with a good straw hat covered with white cloth, and slightly padded with loose cotton (the best protection against the sun:—with a pair of spectacles (coloured glasses) to mitigate the glare; also with an umbrella, which at various times is indispensable to your comfort, and if you can without making it too heavy, cover the top with thin white cloth. At the present season it is not of such importance, but in the early part of the year a shawl to wrap round the neck and a good cloak or top-coat are very necessary, to guard you against the chill air of the desert during any night travelling.

Above all things take a small supply of good water with you—half a dozen bottles will be sufficient unless you meditate a stay in Egypt, and then proportion your supply to what your wants are likely to be. When you reach Suez you will find the treasure you possess in your water. Get two strong cane work baskets made to fit your bottles, so that you can sling two, Gilpin-fashion, in safety across your spare donkey if you have to ride through the desert. A pocket pistol (I speak to the initiated) is a very useful thing to have with you in case of need.

If you go on shore at Galle (and all will be tempted to visit the green Isle) you will early find the advantages of hat, spectacles, and umbrella. The landing is very easy, in smooth water, and alongside a wooden pier. There are several respectable hotels, all of an inferior character, but not unendurable. A ride of 4 miles into the country along a beautiful road and in the midst of the most luxuriant vegetation, will give you an opportunity of seeing a cinnamon plantation.

At Aden you will find a very decent bungalow, started as an hotel by two enterprising Parsees from Bombay about two or three months ago. It is conveniently situated almost opposite to the anchorage ground of the Steamers: the people are very attentive, and provide a very good table. The town is nearly 3 miles from this, too distant a head quarters during your stay at Aden, unless you are very certain of the exact time of the Steamer's departure.

At Suez you will stay as short a time as you possibly can: you will try to get a seat in one of the vans if you are wise, and if you succeed you will be lucky. But as the ladies and their legal or constituted guardians are admitted to have the preference, the odds are that you are condemned to a position on the stern of a small donkey, for your desert trip of 81 miles. You have a spare one with you, and change about from one to the other as either gets tired; this however is generally a very nominal relief, as your Arab attendant manages to fall sufficiently in the rear with the led animal to enable him to give his legs without the risk of your interference. You must lay your account to some half dozen falls on your journey, but there is no authenticated account of any particular injury having ever resulted from these. At the resting station, if you are a merciful man, you will

take immediate care that your jackasses are supplied with water; otherwise they will try to do them out of it, and failing in this, to make you pay for it, which you are not bound to do. Beat Suez (as I have already said) you will first discover the inestimable value of the water you have brought with you: strong coffee, brandy even, will scarce obliterate the repulsive taste of the brackish water of Suez.

Speaking still of the trip across the desert, I would recommend ladies and invalids to take a supply of good biscuits, for the biscuit bread supplied in the desert is very indifferent indeed. A few tins of portable soups would also be useful.

Arrived at Cairo, bid your people conduct you to the French hotel "Hotel de l'Orient," but they dont know that,—for Colombo's, or rather Koulun's, hotel, and they will lead you to it. It is a new place, and therefore clean,—the only cause of the contingency that is, generally speaking, to be found in Egypt:—it is well got up, all in good order, and the attendance and supplies very respectable. Hill's hotel on the other hand is comparatively, some will say positively, a dirty, (may I be pardoned the term I am going to use, but it is a decidedly opposite one) lousy concern:—however, you may perhaps have to go to it, because you see Customs's accommodations limited, and the odds of early arrival and consequent choice are in favour of the passengers "per van."

You will probably be long enough at Cairo to enable you to make a hurried trip out to the Pyramids; to visit Ibrahim Pacha's celebrated garden; and strolling the city, to inspect Sultan Hassan's mosque. Ascend to the citadel and enjoy the interesting and picturesque view afforded from its height: see Joseph's well, the Pacha's palace, and the new mosque building by Mahomet Ali; and visit the slave market, the Turkish bazar, and last, but not I think least remarkable, the so-called "Jews' quarter" of the city. Who can look upon that most wretched and dilapidated collection of buildings, the narrow dividing streets of which scarcely admit you when mounted on your little donkey to pass through, while the overhanging mass of ruins seems to threaten at every step to bury you under its fall, without feelings of the profoundest pity and sorrow for the abject race of that singular and most interesting people, who went forth from out of that self same land invested with all the attributes of might and of power, the chosen of the Most High, the marks of the especial interposition of his Divine hand?

At Boulac, the port of Cairo, about a mile and a half or two miles from the city, you embark in a steamer on the Nile. There are three of them—choose the "Cairo" if you can: you will not see a finer specimen of a river steamer in Europe, and she goes down the river at the rate of 16 miles an hour. There are very few sleeping berths, but of course you may secure one. If you are sharper than your fellow passengers that have a good number start, you will get a berth in the after cabin, which is preferable to the fore cabin. At Atfeh you are transferred to the passage boats on the Mahmoudieh canal, having to walk about 300 yards from the river to the canal. These passage boats are comfortable enough: they are rigged as Alexandria by steamers at a very decent rate. On board of these, as well as in the Nile steamers and on the desert, you are boarded at the expense of the Company, and you have only to pay your own expenses in case you require to carry wine or fine sea stores, which has already cost his passage throughout, during sixty days, 15 napoleons, what has already cost his passage throughout, during sixty days, in addition to the above, the hotel charges at Suez, Cairo and Alexandria.

At Alexandria the French hotel (Grey's, or some such name,) has again the preference over Hill's, which is dirty and ill managed. Mr. Hill's death led to his concern an efficient head for their establishments in Egypt. From Alexandria onwards I have no "hints" to offer: you are conveyed on one of the Company's fine steamers, your fare is at Upper Gallerland, and you are on the right side of the Isthmus.

But, lastly, there are two useful supplies I have omitted to recommend. First, a good stick, because of the dogs, which are a great nuisance in the cities of Egypt, and for any other necessary purpose; and second, a stock of small coins. You will be pestered at every town in Egypt, even by sentries, for backsheesh, actually the poor wretches are so miserable that the desire would be often unsatisfactory to yourself. Do not however encourage this, as it is usually the practice with Englishmen, thereby giving a most contrast pretext where discriminating charity might take but small account.

RULES FOR USING POST OFFICE STAMPS.

1. 2. All letters and packets whatever, received at any Post Office by post for delivery at such office, are in like manner to be stamped with the appropriate Office Stamp, and marked with the date of the month and year; but the amount of postage paid or due, is not to be entered on the stamp of delivery, as the stamp of despatch regulates the levy of postage.

3. The stamp for all Service, Soldiers', or other free letters or packets, is an oval, 1¼ inch long, by 1 inch wide, bearing the name of the office and the word "Free" and must be stamped red.

4. The stamp for all letters or packets on which postage has been paid in advance, is an oblong, 1¼ inch long by ¾ inch wide, bearing the name of the office and the word "paid," and must also be stamped red.

7. When a letter exceeds in weight a single rate, its weight, double, treble, &c. must be entered in writing on the face thereof, and so likewise parcels the exact weight must in all cases be entered in writing on the case.

8. All Service, Soldiers', or other free letters or packets, received from Seaward at any General Post Office, are to be stamped with the Ship Letter Free Stamp. The latter is an octagonal Stamp of similar dimensions, but with the words "Steam Letter bearing." Both these Stamps are to be stamped black.

At Ports or Stations where newspapers are published in India, Newspaper Stamps are provided, with which all newspapers received at such Stations for Transmission by Post are to be appropriately stamped, whether "Post Paid" or "Bearing," as the case may be, and the Postage paid or due, as the case may be, noted in writing thereon. At Offices of Delivery where Newspaper Stamps may not be provided, Newspapers will be marked with the usual Office Stamp, in like manner as other Packets.

LETTERS ADDRESSED TO THE CARE OF AGENTS IN EGYPT.

Fort St. George, General Post Office, 2nd March 1839.

It is hereby notified, that letters for places in the United Kingdom of Great Britain, superscribed to the care of Mr. Waghorn, or other parties in Egypt, and which require to be forwarded by the Steamers from Bombay, are liable to Steam as well as inland postage. Fort St. George, General Post Office, 12th September 1838.

It is hereby notified for general information, that immediately upon the arrival of the Overland Mails during the day, the Flag No. 2, and during the night, a signal Lanthorn will be hoisted at the mast head of the Flag Staff.

As these signals are designed to afford information to the public with the view of insuring early delivery of their overland letters, it is requested, that immediately upon the signal being made, they will send their servants to the General Post Office to take charge of their letters, with sufficient money, part in small coins, to defray the postage that may be due on them.

A. F. Bruce, *Post Master General.*

PUBLIC LETTERS.

Fort St. George, General Post Office, 1st June 1840.

Notice is hereby given, that arrangements have been made to despatch the Mails positively at 8 o'clock P. M. daily, from this date, as explained in Section XXV of the Rules for the management of the Post Office Department, passed by the Governor General of India in Council on the 30th August 1837, but the receipt of several Letters from some of the Public Departments at the Presidency, at a very late hour in the evening, being calculated to impede or frustrate the design, the Post Master General requests, that all Public Letters may be delivered daily before the General Post Office be closed, and begs to intimate, that Letters put into the General Post Office after that hour, unless in a case of great emergency, the same being communicated by an Official Memorandum from the Head of the Department to the Post Master General, will be detained at the Office for transmission by the following day's Mail.

LETTERS, &c. FOR THE UNITED KINGDOM, EXCEPT THOSE SPECIFICALLY MARKED TO BE FORWARDED THROUGH FRANCE.

Fort St. George, General Post Office, 8th June 1840.

PARA. 1. Under instructions from the Honorable the Court of Directors, communicated through Government, it is hereby notified, for general information, that all Letters and Newspapers for the United Kingdom, except Soldiers' and

Sailors' Letters, and except those specifically marked "via Falmouth," will be forwarded through France. Soldiers' and Sailors' Letters, certified by their Commanding Officers, will be forwarded by way of Falmouth, whether so directed or not, as if sent through France they become liable to a heavy rate of postage; and Letters and Newspapers specially marked "via Falmouth," will be forwarded as indicated by such mark.

2. Letters for the United Kingdom, weighing less than a quarter of an ounce and passing through France are charged single postage, which amounts to 2s. 8d. or 1R. 3as. 4p. By the Falmouth route Letters of half an ounce in weight are subject to single postage only, which has been reduced to 1 shilling or 8annas. Newspapers if sent via Falmouth are free of postage, but transmitted by the way of Marseilles, they are charged 2d. or 1 anna and ½ piece each.

3. Newspapers or Gazettes sent by the Public Officers to the Authorities in England should be left open at the ends, in order that they may not be charged as Letters.

4. All printed publications which may be sent to the Authorities in England should be transmitted as enclosures to the Letters from Government.

A. F. Bruce, *Post Master General.*

LETTER DELIVERERS.

Fort St. George, General Post Office, 9th July 1840.

With reference to Section XXIV of the rules for the management of the Post Office Department, it is hereby notified, that under the sanction of Government, the issue of Badges and Belts to the Letter deliverers will be discontinued at the Presidency, in lieu of which they will be provided with medals duly lettered and numbered, which are to be worn on the right arm. In addition to which they will be supplied with hand bells, which are designed to be rung in the Streets with the view of affording speedy announcement of their arrival with Letters, and to put an end to the detention of deliverers at the doors of Houses. As the medals and bells are now under manufacture, until their completion the Letter deliverers are necessarily obliged to distribute Letters without Bells and Badges.

A. F. Bruce, *Post Master General.*

Fort St. George, General Post Office, 3d September 1840.

Adverting to my notification dated the 9th July last, it is hereby notified that the Letter deliverers will, from this date, be supplied with hand bells; and, as the object of them is to announce their approach with Letters to parties interested, both in the streets and at the doors of dwelling houses, it is requested, that any person observing the deliverers failing to ring the bells in the course of their tour of delivery, information of the same may be given to the Post Master General, in order that the conduct of such deliverers may be enquired into, and, if necessary, punishment inflicted.

A. F. Bruce, *Post Master General.*

SEALING OF LETTERS.

London, General Post Office, August 1840.—The practice of sealing letters passing to and from the East with wax, is attended with much inconvenience and frequently with serious injury to the letters, in consequence of the melting of the wax, and adhesion of the letters to each other. In the case of a mail recently received from India considerable delay was occasioned at the office of exchange, notwithstanding the greatest care was taken in separating the letters, which, owing to the cause already mentioned, adhered closely together, many were much damaged and thirty the public are therefore recommended, as all possible means to use gums in preference to wax in sealing their letters sent to India or other warm climates; and also to advise their correspondents in those countries to pursue the same course.

(By command) "W. L. Mackillop, Secretary."

MURRY DOSS PILLAY, *Deputy Post Master.*

† affixed to any name denotes, that there is no Post Office at that Station: letters to it must therefore be sent to the nearest Post Office, which is mentioned under parenthesis.

The average time occupied in the travelling of the Dawk, Runghy, and Express Mails from Madras to the several Post Office Stations throughout India might have been approximately shewn in the Schedule, but as great disparity in the rate of running occurs from causes beyond the control of Runners—such as the state of the weather, rivers, nullahs, the accidents incident to night travelling, and the detention of Mails at a Post Office at a point of junction, or where several Mails from different roads meet together to start at a given hour, it was on this account considered preferable to omit it, rather than embody the same inaccurately in a Schedule that may be relied on as correct in all other particulars, for the information which it affords for the guidance of the Post Office Department and the public.

Vide Section VI. of the Rules for the management of the Post Office Department.

In all complaints of overcharge, or unnecessary delay in delivering Letters, Papers, or Parcels, the covers or envelopes bearing the Post Office Stamp must be presented for inspection; and as all Post Office Peons wear a medal on the right arm regularly lettered and numbered, when any complaints are preferred against any individual, the number of the medal should be specified. Vide Clause XXIV of the Post Office Rules.

No Receipts will be granted by a Post Office for Letters, &c. received into it, unless they are presented ready written, either in books or in separate slips of paper, along with the letters, &c. Receipts so presented will be duly stamped in all cases. Vide Section XXXII of the Post Office Rules.

Letters once delivered into any Post Office cannot be recalled by the Sender under any circumstances whatever. ORDINANCES.

Ordinance No. I.—Members proceeding to Europe are entitled to a refund of their subscription from the end of the month in which they embark.

Ordinance No. II.—The playing of Music in any of the Public or Private Rooms of the Club is altogether prohibited.

Ordinance No. III.—No Liquor or supplies of any kind to be brought into the Club House by Members for consumption there, under the penalty contained in Para. 5 of Rule VIII.

The General Committee find it necessary to explain, that it is expected that all Subscribers frequenting the Public and Dining Rooms of the Club, will invariably appear in them properly dressed, and that the use of slippers, or such other dishabille in these Rooms, as well as the practice of lying at full length, or sleeping upon the couches, which are intended only for the convenience of sitting on, will be avoided. The General Committee trust that every Subscriber will maintain the character of the Club, by bringing any irregularity of this nature which may fall under his observation, immediately to the notice of the Manager for their information.

An erroneous impression appearing to exist on the part of Members arriving at the Club, as to the degree of attendance that they are entitled to expect from the Peons, and other Public Servants of the Establishment, in their private apartments, the Committee of Management wish it to be known, that Members requiring Tea, Coffee, (or such Meals as are allowed by the Rules in cases of sickness) in their Bed Rooms, must send their own private servants, and not make use of the public peons, &c. for this purpose.

The Servants sent for such things, will receive them, from appointed Servants of the Club at the Cook Rooms; to whom they will return them unbroken and undamaged, at the responsibility of the Member who sent.

The above notice is not intended to interfere with Peons bringing Soda Water or Wine and Water to Members in their Bed Rooms at any hour of the day, as on these occasions it is presumed that there will be no delay.

With reference to Rule VII, Para 10.

Ordinance I.—That persons received as Honorary Members, on arriving at Madras, shall be admitted to the Club free of subscription for three days from the date of their card of admission.

Ordinance II.—That subscription for the ensuing quarter shall not be charged to Honorary Members admitted to the Club subsequent to the 15th of the last month of the quarter in which they are received.

4. Honorary Members shall be persons eminent for their knowledge of or for the encouragement they have given to, agriculture or horticulture.

5. Extraordinary Members shall be chosen from the Ordinary Members of the Society, or others, as an honorary distinction, for important services rendered to the Society, or to agricultural science among us, and shall be entitled to all its advantages without further payment of subscriptions.

The Garden shall be under the management of the General Committee, but more immediately under the direction of the Secretary, through whom it will be the duty of Members of the Committee, or of the Society, to convey all orders to the Superintendent of the Garden; but it shall be competent to the Committee to delegate this duty to one of their own Members in case of need arising.

29. The objects of the garden are, 1st, to subject to the test of careful experiment all proposals having for their purpose the improvement of agriculture and horticulture; 2dly, the introduction and propagation of new and useful plants of all kinds, but more especially those possessed of commercial value, which are likely, in the event of successful introduction, to extend and improve the commercial resources of the country; and 3dly, the formation of an orchard, of the most valuable fruit trees of all countries, that can be made to thrive in this climate.

30. All produce of the garden of a perishable nature—fruits, vegetables, &c. shall be sold for the benefit of the institution; to Members first, and then to the community wishing to have their supplies from that source.

31. Ornamental and fruit trees, and shrubs, shall, so often as the stock in the garden will permit, be supplied to Members on payment. Non-subscribers will be permitted to receive such plants from the garden, when there is a superfluity; and the Committee may direct the publication of lists of such superfluities from time to time in the newspapers.

32. The Secretary shall annually, in January, prepare for transmission to England and the Cape, lists of seeds of whatever sorts may be required, both for the garden and for Members. Of the seed so procured a portion will be distributed in equal shares to all Members desiring them, *gratis*; the remainder, after supplying the garden, shall be sold for its benefit, first to subscribers who may have paid a larger sum than their shares might entitle them to, and secondly, any that may remain, to non-subscribers desirous of supplying themselves from the Society's stock.

33. Members receiving growing plants or seed from the Society must defray all expenses of package and conveyance.

34. Any motion having for its object the alteration of existing laws, or the enactment of new ones, shall first be submitted to the General Committee, by whom it will be referred to the next General Meeting, when, if two thirds of the Members present vote in its favour, it will be held carried. The purport of such motion to be stated in the printed circulars calling the Meeting at which it is to be considered.

the Attorney and Solicitor General, and of the Company's Standing Counsel,

In reply to these questions, the Law Officers of the Crown and the
have given the following opinion.

"1st. We think there is a difference between the case of a deceas
missioned Officer and the case of a deceased Non-Commissioned O
Private Soldier.

With respect to a deceased Commissioned Officer, there appears to be
stantial question, since the Articles of War applicable to the case of Com
ed Officers only authorize the collection of *Effects* in *Camp or Quarters*.

With respect to the case of a Non-Commissioned Officer or Private Sol
we are of opinion that both in the case of Her Majesty's Forces and in those
the East India Company's Forces, the Officers appointed to collect the Effect
the deceased Soldier are entitled to demand, and, without taking out Letters
Administration, to receive and take possession of all the personal property of
description of such deceased Officer or Soldier without reference to its amount
value, or to its being in Camp or Quarters or elsewhere. We consider that
Officers, who by the 129th Article of War for Her Majesty's Forces, and by
the Articles of War for that Company's Forces, are directed to act in the matte
in accordance with the first Section of the Statute 6th Geo. 4th C. 61, and are there
enabled by that Statute to ask, demand and receive any of the deceased
Soldier's *effects*, an expression which we think reaches and includes any of his personal

2d. Our opinion on the first question supersedes this question as respects the
case of a Commissioned Officer.

In the case of a Soldier not being a Commissioned Officer, we are of opinion
that the Government Agents may lawfully and safely deliver over, and are bound
upon demand to deliver over, a Promissory Note of the kind described to be
Officer appointed under the Articles of War, and that the amount of the Note
security, makes no difference in the case. This answer however should be
by noticing that, if there were a legal personal representative demanding
we think the Government Agents would be warranted in delivering the
Note to such legal personal representative in preference to the

We are of opinion that the Officer may, by indorsement or otherwise, as
give a discharge for the amount secured by the Note, as if he had been
executor, or had duly obtained Letters of Administration of the Effects
at the last Indorsee of the Note. We are also of opinion that the East
may pay over the amount of the Note to the Officer, when indorsed, and
liable for the due application by the latter of the amount which they shall

We do not understand that under this third question any opinion is requ
as to the right to indorse the Note for the purpose of negociation, as dis
distinguished from an indorsement for the purpose of obtaining payment o
We do not however appear to us that there would be any difference between
