The N. E. MONSOON continues with occasional exceptions till the middle of the month, after which calms and S. E. winds as frequently prevail. In the forenoon it is usually calm until about 11 A. M. when a gentle sea breeze sets in which blows till sun set. During the whole of this month the weather is without exception always beautifully clear and placid, and it is generally considered to be the most healthy period of the year; there are no more than one day of haze and one of clouds. Rain or lightning does not occur once in seven years.

The hottest time of the day is at 0h. 40m. P. M., the coldest at 5h. 40m. A. M.

Throughout this month the South or sloumbers wind with very modest force prevails; it is accompanied with a profuse dampness and saltiness, which renders its effects highly prejudicial to health and comfort. On this account the sea breeze which sets in at noon and blows till sun-set, takes a varied turn in other seasons: this may be, however, benefitting clear for about twenty-seven days, the remaining four being cloudy. Dew less frequently occurs, and is less in quantity than last month. Hails and lightning are little known.

The hottest time of the day is at 0h. 10m. P. M.; the coldest at 5h. 6m. A. M.

The South wind which is mentioned as peculiar to the two last months, continues till the middle of this month, relieved occasionally by a land wind from the W. or N. W.; in this interval gales of wind of extreme violence have occasionally been experienced, commencing their career generally at the S. W. and ending to every point of the compass. About the 15th the regular land or bal monsoon by which we are visited in the other seasons of the year, sets in, and continues with occasional cessations. The sea breeze sets in about noon and blows till sun set. The night there is another days of about weather, night of flying clouds and rain, and barometric rise, as two or three of which there is rain. The sky is always unserene, and lightning with thunder occurs about four times.

The hottest time of the day is at 1h. 15m. A. M. [illegible] at 4h. 30m. P. M.

* In this statement the rain of 3 consecutive days preceding the 31st May 1841, and the rain of 3 days following, viz. the 1st, 2d and 3d May 1841, is included; as the 31st May 1841 is below, while the 1st May 1841 is above the mean.

The regular westerly winds which terminate about the middle of this month are succeeded by winds of a light and variable nature, mostly from the West and South. Calms, haze and rain occur in about the same proportions as last month, leaving about eight days of clear weather. Lightning unattended by thunder is very frequent, but thus accompanied it occurs only once or twice. The sea breeze assumes much the same character as that experienced last month, commencing at 2 or 3 P. M., and continues till 8 or 10 P. M. Dew is sometimes discovered, but more frequently fails.

The hottest time of the day is at 2h. P. M.; the coldest at 5h. A. M.

The clouds now begin to assume a more dense appearance than heretofore. Calms, light-winds and squalls are very frequent till the 14th, when the N. E. monsoon, or rainy season sets in. From this time till the end of the month the atmosphere assumes a very disturbed appearance; extremely heavy rain with storms of wind, thunder and lightning, invariably occur, and gales of wind of a similar nature to those which occur in the earlier part of the year are sometimes experienced. On these occasions a depression of the barometer of 4 or 5 tenths of an inch is observed.† The sea breeze, or rather a slight modification of the N. E. wind, is perceived towards the middle of the day.

The hottest time of the day is at 1h. P.M.; the coldest at 4h. 30m. A. M.

* See remarks for the month of May.

† On 30th October 1839, during the hurricane which then raged, the barometer fell to 28,453 Inches.

The N. E. Monsoon continues with moderate force, and the state of the weather generally is much the same as that experienced towards the end of last month, save a increased dampness of the air and a less degree of sweltering. The number of clear and cloudy days in this as well as in last month, is not to be so great as in July.

The remarks relative to the sea breeze of last month apply equally to this.

The heavy rains and violent gusts of wind are much moderated at the beginning of the month and cease at their close about the 15th. From this time the sky assumes an appearance of tranquility and clearness which forms a strong contrast with the disturbed state of the preceding months; the N. E. wind, however, continues throughout the month without interruption. There are about thirteen clear days, eleven cloudy, and seven of lying clouds and haze: of these there are six days on which rain falls. The morning exhibits a copious deposition of dew, and sometimes a ground fog which does not reach more than two or three feet above the surface. The sea breeze sets in at 10 A. M., and blows till 4 P. M.

The hottest time of the day is at 0h. 56m. P. M.; the coldest at 5h. 53m. A. M.

Under the degrees of Latitude of the given place and opposite to the day of the month, on the *left hand side*, will be found the time of the Sun's centre rising, and on the *right hand side* the time of setting. In consequence of refraction, which causes the heavenly bodies when in the horizon to appear elevated about 2' above their true place, the observed time of the sun rising will appear about two minutes earlier, and the time of *setting* the same quantity *later* than that which is here given.

THE CALENDAR AND ITS SUCCESSIVE REFORMS.

The divisions of time, such as they are presented in the Calendar, are composed of days, weeks, months and years. The modes of determining these divisions, have been various amongst the nations of antiquity, and there are still variations in these modes in the modern world.

The manner of reckoning the days by the ancient Jews, and which subsists amongst that people at the present time, is to commence the day at a certain hour of the evening, and to finish it on the next evening at the same hour. Thus their sabbath begins on the afternoon of Friday, and is completed on the afternoon of Saturday. The Roman Catholic Church also commences its festivals in the evening; and this custom is retained amongst ourselves in some of our popular observances, such as the eve of St. John and Christmas eve.

The civil day now commences at 12 o'clock at midnight, and lasts till the same hour of the following night. The civil day is distinguished from the astronomical day, which begins at noon, and is counted up to 24 hours, terminating at the succeeding noon. This mode of reckoning the day is that used in the Nautical Almanac, and it sometimes leads to mistakes with persons not familiar with this manner of computation: a little consideration will obviate the difficulty. Thus, January 10, fifteen hours in astronomical time. January 11, 3 in the morning, civil time. In France and in most of the states of Europe, as with us, the hours are counted up to 12, from midnight till noon, and from noon till midnight. In parts of Italy, and of Germany, the day is held to commence about sun-set, and the hours are counted on till the next sun-set. This mode is very inconvenient to travellers, as the noon of the "Italian hours" at the summer solstice is 16 o'clock and 19 o'clock at the winter solstice.

The English names of the days of the week are derived from the Saxons; and they partly adopted these names from the more civilised nations of antiquity. The following ingenious origin of the ancient names has been suggested in connexion with astronomical sciences. The planetary arrangement of Ptolemy was thus 1, Saturn; 2, Jupiter; 3, Mars; 4, the Sun; 5, Venus; 6, Mercury; 7, the Moon. Each of these planets was supposed to preside, successively, over each hour of the 24 of each day, in the order above given. In this way Saturn would preside over the first hour of the first day; Jupiter over the second hour; Mars over the third; the Sun over the fourth, and so on. Thus the Sun presiding over the fourth, eleventh, and eighteenth hours of the first day, would preside over the first hour of the second day, and carrying on the series, the Moon would preside over the first hour of the third day, Mars over the first hour of the fourth day, Mercury over the first hour of the fifth day, Jupiter over the first hour of the sixth day, and Venus over the first hour of the seventh day. Hence, the names of the days yet used in the learned professions throughout Europe. The present English names are derived from the Saxon:—

Latin.	*English.*	*Saxon.*
Dies Saturni,	Saturday,	Saturn's day,
Dies Solis,	Sunday,	Sun's day,
Dies Lunæ,	Monday,	Moon's day,
Dies Martis,	Tuesday,	Tiw's day,
Dies Mercurii,	Wednesday,	Woden's day,
Dies Jovis,	Thursday,	Thor's day,
Dies Veneris.	Friday.	Friya's day.

Tiw, Woden, Thor, and Friya were deities of the Pagan Saxons. Thor was

the god of thunder, as well as the ancient Jove; and Friya was a goddess, the *wife* of Woden.

Almost all nations have regulated their months, in a great degree, by the evolution of the moon. Some have endeavoured to unite this division with the annual course of the sun, by an augmentation of days at the end of each year, or by adding a thirteen month at the end of every third year. The Jews and the Athenians followed this latter method; the Macedonians, and some nations of Asia, assigned their months 30 and 31 days; the Turks and the Arabs have 29 and 30 days, the months of the Anglo-Saxons were governed by the revolutions of the moon. Their common year consisted of twelve lunar months, three months being appropriated to each of the four seasons; but every third year contained an additional lunar month, which was given to the summer season. The names of their lunar months either had reference to their religious ceremonies, or to the natural appearances of the year.

A considerable variation prevailed, generally, amongst the nations of antiquity and still partially prevails, with regard to the commencement of the year. The Jews dated the beginning of the sacred year in the month of March; the Athenians in the month of June, the Macedonians on the 24th September; the Christians of Egypt and Ethiopia on the 29th or 30th of August, and the Persians and Armenians on the 11th of August. The Jewish civil year begins on the first day of the month *Tisri*, which year corresponds with our 9th of September; the Mahomedans begin on the first of the month *Moharem*, which year corresponds with our 14th of July. Nearly all the nations of the Christian world now commence the year on the 1st of January; but as recently as 1752, even in England, the year did not legally and generally commence till the 25th of March. In Scotland, at that period, the year began on the 1st of January. The difference caused great practical inconveniences, and January and February, and part of March, sometimes bore two dates, as we often find in old records, as 1711-12. This practice often leads to chronological mistakes; for instance, we popularly say,—"The Revolution of 1688," that great event happening in February of the year 1688, according to the then mode of computation; but if the year were held to begin, as it does now, on the 1st of January, it would be "The Revolution of 1689." In the anniversaries given in the *British Almanac*, the alterations of style, made in 1752, have not been followed, as any correction of date would have embarrassed the reader in historical and biographical references.

The year, properly so called, is the solar year or the period of time in which the sun passes through the twelve signs of the Zodiac. The period comprises 365 days, 5 hours, and 48 minutes, 51 seconds, 6 decimals, and is called the astronomical year.

The Calendar is a table of the days of the year, arranged to assist the distribution of time, and to indicate remarkable days connected with devotion or business. If every nation had adopted the same division of time, and a uniform calendar had been general throughout civilized states, history would present much fewer difficulties and contradictions. The progress of astronomical science has necessarily produced great changes in the manner of dividing time; and thus, whilst some nations have been ready to give their calendar every possible advantage of a scientific construction, the prejudices of others have rendered them unwilling to depart from their accustomed mode, however inaccurate. It may be curious and instructive to trace, very briefly, the changes of the calendar, ordinarily called, the changes of style.

The Romans called the first days of each month, *Calends*, from a word which signified *called*; because the Pontiffs, on those days, called the people together, to apprise them of the days of festival in that month. Hence we derive the name of CALENDAR.

The Roman Calendar, which has, in great part, been adopted by almost all nations, is stated to have been introduced by Romulus, the founder of this city. He divided the year into ten months only: Mars, Aprilis, Maius, Junius, Quintilis, (afterwards called Julius,) Sextilis, (afterwards called Augustus,) September, October, November, December. Mar, Maius, Quintius, and Octobe, contained 31 days, and each of the six other months 30 days, so that the ten months comprised 304 days. The year of Romulus was, therefore, of 60 days' less duration than the lunar year, and of 61 days less than the solar year; and its commencement of course did not correspond with any fixed season. Numa Pompilius corrected this calendar, by adding two months, Januarius, and Februarius, which he placed before Mars. Julius Cæsar, being desirous to render the calendar still more correct, consulted the astronomers of his time, who fixed the solar year, as 365 days, 6 hours, comprising, as they thought, the period from one vernal equinox to another. The six hours were set aside, and at the end of four years, forming a day, the fourth year was made to consist of 366 days. The day thus added, was called intercalary, and was added to the month of February, by doubling the 24th of that month, or according to their way of reckoning, the *sexta* of the Calends of March. Hence the year was called Bissextile. This almost perfect arrangement, which was denominated the Julian style, prevailed generally throughout the Christian world, till the time of Pope Gregory XIII. The calendar of Julius Cæsar was defective in this particular; that the solar year, consisting of 365 days, 5 hours, and 49 minutes, and not of 365 days, 6 hours, as was supposed in the time of Julius Cæsar; there was a difference between the apparent year and the real year, of eleven minutes. This difference at the time of Gregory XIII., had amounted to ten entire days, the vernal equinox falling on the 11th, instead of the 21st of March, at which period it fell correctly at the time of the Council of Nice, in the year 325. To obviate this inconvenience, Gregory ordained, in 1582, that the 15th October should be counted instead of the 5th, for the future; and to prevent the recurrence of this error, it was further determined that the year beginning a century, should not be Bissextile, with the exception of the beginning of each fourth century. Thus 1700 and 1800 have not been Bissextile, nor will 1900 be so; but the year 2000 will be Bissextile. In this manner, three days are retrenched in 400 years; because the lapse of the 11 minutes makes three days in about that period. The year of the calendar is thus made, as nearly as possible, to correspond with the true solar year; and future errors of chronology are avoided.

The adoption of this change, which is called the Gregorian, or New Style, (the Julian being called the Old Style,) was for some time resisted by States not under the authority of the See of Rome. The change of the style in England, was established by an Act of Parliament passed in 1752. It was then enacted, that the year should commence on the 1st January, instead of March 25th; and that in the year 1752, the days should be numbered as usual until September 24th, when the day following should be accounted the 14th of September, omitting 11 days. The Gregorian principle of dropping one day in every hundredth year, except the fourth hundredth, was also enacted. The alteration was, for a long time, opposed by the prejudices of individuals; and even now, with some persons the Old Style is so pertinaciously adhered to, that rents are made payable on the old quarter days, instead of the new. For this reason, and not in deference to the prejudice, the old festivals are mentioned in the *British Almanac*. The Russians still retain the Old Style, thus creating an inconvenience in their public and commercial intercourse with other nations, which, it is trusted, the growing intelligence of the people will eventually correct.

During the period in which France was a Republic, the authorities intro-

duced an entire change in the calendar, which was in existence more than twelve years; and it is important to be noticed, as all the public acts of the French nation were dated according to this altered style. The National Convention, by a decree of the 5th October, 1793, established a new Era, which was called, in the place of the Christian Era, the Era of the French. The commencement of each year, of the first "Vendimiaire," was fixed at the midnight commencing the day, on which the autumnal equinox fell, as determined at the Observatory at Paris. This Era commenced on the 22d of September 1792, being the epoch of the foundation of the Republic, but its establishment was not decreed till the 4th "Frimaire" of the year II (4th November 1793.) Two days afterwards the public acts were thus dated. This calendar existed till the 10th "Nivose," year XIV (the 31st December 1805), when the Gregorian mode of computation was restored.

THE DAYS OF THE CALENDAR.

JANUARY.

1. *New Year's Day—Circumcision.*—This festival was originally called the Octave of Christmas; and the first mention found of it is in the year 487. It was instituted by the Church, to commemorate the ceremony under the Jewish law, to which Christ submitted, on the 8th day of the Nativity; and was introduced into the Liturgy of the Church of England in 550.

6. *Epiphany.*—The word Epiphany signifies *appearance* or *apparition*. This festival is kept in commemoration of the "Manifestation" of the Saviour of mankind to the Gentiles, and appears to have been first observed, as a separate feast in the year 813. The primitive Christians celebrated the Feast of the Nativity for 12 days, observing the first and last with the greatest solemnity. From the circumstance of this festival being twelve days after Christmas, it is vulgarly called "Twelfth day."

11. *Plough Monday* is the first Monday after the Epiphany, and received this appellation from its having been fixed upon by our forefathers, as the period when they returned to the duties of agriculture, after the festivities of Christmas.

30. *King Charles the First's Martyrdom.*—The death of Charles I. is celebrated as a fast of the Church.

31. *Septuagesima Sunday.*—Septuagesima Sunday, is a Sunday dependent upon Lent, as that season is upon Easter. It is to be considered as the preparation for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of Quadragesima, and the three weeks preceding, having been appropriated to the gradual introduction of the Lent Fast, the three Sundays of these weeks were called by names significant of their situation; and reckoning by *Decades* (tenths), the Sunday preceding Quadragesima, received its present title of Quinquagesima, the second Sexagesima, and the third Septuagesima.

FEBRUARY.

2. *Purification.*—This day is kept in the reformed Church, as a solemn festival, in memory of the Purification of the Virgin Mary, who submitted to the injunction of the law, under which she lived, and presented the infant Jesus in the Temple. The festival was celebrated in the Christian Churches with an abundance of light, and was originally called "Candlemas Day," as well as the Day of Purification. The practice of lighting the Churches has been discontinued in this country since the second year of Edward the VI. In the Romish Church, the original name and all its attendant ceremonies, are still retained.

14. *St. Valentine.*—The practice of "choosing a Valentine," as it is called on this day, is too well known to need explanation. The origin of this custom has been much controverted; it is undisputably of very ancient date. Valentine was a presbyter of the Church, who suffered martyrdom under Claudius II. at Rome, A. D. 271.

14. *Shrove Sunday.*—After the people had made the confession required at this season, by the discipline of the ancient Church, they were permitted to indulge in festive amusements, although not allowed to partake of any repast beyond the usual substitutes for flesh; and hence arose the custom, yet preserved, of eating pancakes and fritters at Shrovetide. On these days of authorized indulgence, the most wanton recreations were tolerated, provided a due regard was paid to the abstinence commanded by the Church; and from this origin sprang the Popish Carnival. From the loose pastimes of the age in which the Carnival originated, are also to be traced the nearly exploded diversions of cock-fighting, and cock-throwing.

17. *Ash Wednesday.*—The primitive Christians did not commence their Lent until the Sunday now called the first in Lent. Pope Felix III in the year 487, first added the four days preceding the old Lent Sunday, to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the name of *Dies Cinerum*, or Ash Wednesday. At the Reformation, this practice was abolished, "as being a mere shadow or vain show."

21. *Quadragesima, or first Sunday in Lent.*—Ercombert, King of Kent, first appointed the fast of Lent in the year 641; succeeding generations marked the distinctions between the various foods. We find flesh to have been early prohibited during Lent, though Henry VIII published a proclamation in 1543, allowing the use of *white meats*, which continued in force until, by proclamations of James I, in 1619 and 1625, and by Charles I, in 1627 and 1631, flesh was again wholly forbidden.

MARCH.

14. *Mid-lent Sunday.*—This day received its appellation, because it is the middle Sunday between Quadragesima and Easter Sunday. It is by some called the Mothering Sunday, a term expressive of the ancient usage of visiting the Mother, or Cathedral Churches of the several dioceses, when voluntary offerings were made, which are now called Easter Offerings.

17. *St. Patrick.*—St. Patrick, from the greatest services he rendered the Irish, in converting them from Idolatry, is called the Apostle and Father of the Hibernian Church, and is the Patron or Tutelar Saint of that island.

25. *Annunciation or Lady Day.*—The reformed Church celebrates this day as a joyful festival from the connection between the circumstance commemorated and the incarnation. "Our Lady" is the ancient and popular name of the Virgin Mary.

28. *Palm Sunday.*—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. In the ancient Church, Palm Sunday, with the whole of the week, which it commences was held in strict devotion, and observed with greater rigour as to fasting and humiliation than any other part of the Lent season. The festival commemorates our Saviour's triumphal entry into Jerusalem, when branches of palm were spread before him.

APRIL.

1. *Maundy Thursday.*—Edward III in the year 1363, appears to have been the first English monarch, who introduced into this country the practice of feeding, clothing, and distributing money to indigent persons on Maundy Thursday. The custom has continued without intermission to the present period; and yearly, on this day, the Lord Almoner, or in his absence, the sub-almoner attends for that purpose, in Whitehall Chapel.

2. *Good Friday.*—From the earliest records of Christianity, this day has been held as a solemn fast, in remembrance of the Crucifixion. Its appellation of *Good* appears to be peculiar to the Church of England. Our Saxon forefathers denominated it Long Friday, from the length of the Offices and fastings on that day.

4. *Easter Sunday.*—Is a moveable festival, held in commemoration of the Resurrection, and being the most important and most ancient in observance, governs the whole of the other moveable feasts throughout the year.

23. *Saint George.*—Edward III at the battle of Cressie, in the year 1346 joined to England's then supposed principal guardian, St. Edward the Confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year, the order of the Garter was established, dedicated to St. George; and the Saint himself has, from that period, been considered as protector of England.

25. *St. Mark the Evangelist.*—On this day the reformed Church holds a festival in commemoration of the benefits the Christian religion has received from the exertions of this Evangelist.

MAY.

1. *St. Philip and St. James, Apostles.*—The Church, on this day, commemorates the sufferings of St. Philip, and also of St. James the Less, the first Bishop of Jerusalem.

9. *Rogation Sunday.*—Rogation Sunday received and retains its title from the Monday, Tuesday and Wednesday immediately following it, which are called *Rogation Days*, derived from the Latin *Rogare*, to beseech. The earliest Christians appropriated extraordinary prayers and supplications for those three days; a preparation for the devout observance of our Saviour's Ascension, on the day next succeeding to them, denominated Holy Thursday or Ascension Day. The whole week, in which these days happen, is styled Rogation Week; and in some parts it is still known by the other names of Crop-Week, Grass-Week, and Gang or Procession-Week. The perambulations of parishes are made in this week.

13. *Ascension-Day or Holy Thursday.*—is the day on which the Church celebrates the Ascension of our Saviour, the fortieth day after his resurrection from the dead.

28. *Whit-Sunday.*—On this day is celebrated the descent of the Holy Ghost upon the Apostles, in the visible appearance of fiery cloven tongues, and in those miraculous powers, which were then conferred upon them. Whitsuntide is seven weeks after Easter.

30. *Trinity Sunday.*—Trinity Sunday is a festival observed by the Latin and Protestant Churches on the Sunday next following Pentecost, or Whitsuntide, of which, originally, it was merely an Octave.

JUNE.

24. *St. John the Baptist.*—The reformed Church holds a festival on this day, in commemoration of the "Nativity of St. John the Baptist."

29. *St. Peter the Apostle.*—The Feast of St. Peter was instituted in the year 813, perhaps to celebrate the martyrdom of the Apostle, who suffered at Rome about 64.

JULY.

3. *Dog-days begin.*—The Canicular, or Dog-days, commence on the 3d of July, and end on the 11th of August. Common opinion has been accustomed to regard the rising and setting with the Sun, or Sirius, or the Dog-star, as the cause of excessive heat, and consequent calamities, instead of viewing it as the sign when such effects might be expected. Of this notion, Dr. Hutton says, "the star not only varies in its rising, in every one year as the latitude varies, but is always later and later every year, in all latitudes; so that in time the star may, by the same rule, come to be charged with bringing frost and snow."

25. *St. James.*—This Apostle is called James the Great, to distinguish him from the other Apostle, who is called the Less.

AUGUST.

1. *Lammas Day.*—Lammas is one of the four Cross Quarter-days of the year, as they are now denominated. Whitsuntide was formerly the first of these quarters, Lammas the second, Martinmas the next, and Candlemas the last; and such partition of the year was once equally common with the present divisions of Lady-day, Midsummer, Michaelmas and Christmas. Some rents are yet payable at these ancient quarterly days in England, and they continue general in Scotland.

24. *St. Bartholomew the Apostle.*—The proper name of this Apostle was Nathaniel, by which, and not by that of Bartholomew, he is mentioned by St. John. The festival of St. Bartholomew was instituted A. D. 1130.

SEPTEMBER.

21. *St. Matthew.*—This Evangelist's festival is of great antiquity.

29. *St. Michael.*—This festival was, in the year 487, established in honor of Michael, the reputed Guardian of the Church, under the title of "St. Michael and all Angels."

OCTOBER.

18. *St. Luke the Evangelist.*—The festival held in commemoration of this Evangelist, was first instituted by the Christian Church in the year 1130.

28. *St. Simon and St. Jude, Apostles.*—The two Apostles, St. Simon and St. Jude, are *jointly* commemorated by the Church on this day, as appears to have been the usage from the year 109, when their feast was first instituted.

NOVEMBER.

1. *All Saints.*—All Saints, or All Hallows, in the Protestant Church, is a day of general commemoration of all those saints and martyrs, in honour of whom, individually, no particular day has been expressly assigned.

4. *King William Landed.*—"On the 3rd November," says Burnett, who was in the fleet, "we passed between Dover and Calais, and before night, saw the Isle of Wight. The next day, the 4th, being the day, on which the Prince was both born and married, he fancied, if he could land that day, it would look auspicious to the army, and animate the soldiers; but others, who considered the day following was Gunpowder Treason day, thought our landing that day might have a good effect on the minds of the English nation. And Divine Providence so ordered it, that after all hopes of our landing at Torbay were given up, and Russell bid me *go to say prayers for all was lost*, the wind suddenly shifted, and carried us into the *desired haven*. Here the Prince, Marshal Schomberg, and the foot soldiers, landed on November the 5th." The Almanac is thus at variance with the historian.

5. This day is commonly called *Gunpowder Treason*, and has been kept as an anniversary in commemoration of the great plot of 1605.

9. *Lord Mayor's Day.*—Our Almanacs style this the "Lord Mayor's Day," in allusion to its being the period when the chief magistrate elect of the city of London annually enters upon his high and important office. Until the 9th May 1214, the office of chief magistrate of London was held for life.

11. *St. Martin.*—This anniversary is still one of the four Cross-Quarter-Days.

28. *Advent Sunday.*—Advent in the Calendar properly signifies the *approach of the Feast of the Nativity*. It includes four Sundays; the first of which is always the nearest Sunday to Saint Andrew, whether before or after. Advent was instituted by the Council of Tours, in the sixth century.

DECEMBER.

25. *Christmas Day.*—Christmas Day is a festival of the Church, universally observed on the 25th December, in memory of the nativity of our Saviour; and it has been denominated Christ *Mass*, from the appellative, Christ having been added to the name of Jesus, to express that he was the Messiah, or the anointed.

26. *St. Stephen.*—He was *the first martyr* to the Christian faith. Lardner and Doddridge think his death was rather the effect of popular fury than the result of a legal sentence.

27. *St. John the Evangelist.*—This festival is kept to commemorate the slaughter of the Jewish children by Herod. This is also called *Childmass Day* (from Child and Mass) on account of the *Masses* said in the Romish Church for the souls of the Innocents.

Madras, the 185

(Signature.)

Note.—The total value whether "Market" or "Tariff," weight and quantity, must be written in words as well as figures.

All articles not enumerated in the Tariff and subject to duty ad valorem, will be passed upon the Market value declared and determined in the mode prescribed by Sections XXI, XXII and XXIII of the Act VI of 1844. It shall be competent to importers to produce their Invoices in support of the Market value put upon their goods, and the same will be duly considered, but not implicitly accepted by the Collector; at the same time it is to be distinctly understood, that the Collector of Sea Customs will be at full liberty to reject any such values, and to take on behalf of Government, in the mode prescribed by Section XXIII Act VI of 1844, any articles which he may consider to be undervalued.

The market and Tariff value upon goods to be thus assessed to be inserted by the Importer, and the total amount of the value to be written in words as well as figures.

With the view of exhibiting the precise nature of the Imports and Exports it is necessary that the articles be enumerated as distinctly as possible, according to their varieties, and further that goods, if Foreign, be described so, and their places of production invariably stated.

A Bill will be furnished for the amount of duty paid.

After 3½ o'clock in the afternoon, no cash can be received or bills of duties settled. Parties therefore who are desirous of clearing goods or private packages, are recommended to apply early in the day for the same. This rule is necessary to enable the accounts of the day to be closed in the evening, which could not be done were duty received until a late hour.

CLEARANCE OF GOODS.

The interest accruing on the broken period of the half-year that may intervene between the date of subscription and the 31st March, or 30th September, next ensuing, as the case may be, will be paid up at the time of granting the acknowledgment.

8. Proprietors of notes who may require the interest to be paid at the General Treasury of Fort St. George, shall be entitled to receive it accordingly, provided they previously notify their wish to the Accountant General at Fort William, and procure their notes to him to have an order for the payment of interest at the said treasury written on the face of them, under the signature of the said officer, or that of the Deputy Accountant General. And after such order shall, on the application of the proprietor, be inscribed on any note, the interest shall be payable only from the said treasury, unless the proprietors shall present the note with an application, for the purpose of transferring the payment to Bengal, to the Accountant General of Fort St. George, who, on such application being so made, will cancel the said order by a writing inscribed as aforesaid, under the signature of himself or his deputy. The proprietors of acknowledgment, who may desire to have the interest of the Promissory Notes to be issued in exchange thereof, to be made immediately payable at Madras or Bombay, must express their desire to that effect on the face of the acknowledgments before transmitting them to the Accountant General at Fort William, who will make the interest payable accordingly in the manner and subject to the conditions above stated.

10. The promissory Notes of this loan shall not be renewed or subdivided except by the Accountant General. But the Accountants General at Fort St. George and Bombay, will, on application of the proprietors of such notes, and the payment of the established fee, transmit them to the Accountant General in Bengal, for the purpose of being renewed, or subdivided, free of all further expense. In other respects the practice and rules heretofore in use in regard to the renewal and subdivision of Promissory Notes will be adhered to.

11. The said notes shall be advertised for payment in the inverse order in which they shall have been placed upon the General Register—that is to say, the notes last brought on the Register shall be first liable to be discharged. But all notes advertised at the same time for payment shall become payable on demand, without regard to priority, at the expiration of the notice. Government shall also be at liberty to advertise other notes for payment without waiting for the expiration of pending notices, and to discharge the notes so subsequently advertised at the expiration of the notice relating to them, notwithstanding the holders of notes comprised in prior advertisements may have omitted by themselves, or their attorneys duly authorized, to apply for payment.

CHARGES FOR REFINING UNDER STANDARD GOLD.

	Car.	Grs.		Car.	Grs.	
From	0	0½ W.	to	1	1 W.	½ per cent.
From	1	1 W.	to	7	2 W.	1 per cent.
From	2	2½ W.	to	5	0 W.	1½ per cent.
From	3	3½ W.	to	3	3 W.	2 per cent.
From	5	0½ W.	to	2	2 W.	2½ per cent.

It is however to be understood that the refining charge for under Standard Silver is not to be levied where the Mint sustains no loss by the remission, and in regard to Gold the Mint Committee will regulate the refinage charge so that it shall not exceed the cost actually incurred in reducing the Gold to Standard.

Parties bringing Bullion to the Mint for Coinage shall be at liberty to withdraw the same within two days of the Assay report being made, if dissatisfied with the valuation, but on payment of fees for Assay, viz. four Rupees for each sample of Gold and two Rupees for each of Silver, together with the actual charges of melting the same, or they may be allowed a re-trial, but if the second Assay give the same result, they shall become liable to double fees upon withdrawing their Bullion, otherwise only to the authorized fees for the extra Assay.

FORT ST. GEORGE, MINT, 6th *March* 1854.

Notice is hereby given that after the 1st August next, all Bullion tendered to the Mint for Coinage, which may be found to be brittle and unfit for that purpose, will be rejected by the Mint Master, unless the cost of its refinage, amounting to 1½ per cent be paid, in addition to the usual seigniorage of 2 per cent.

MADRAS AND FURRUCKABAD RUPEES.

FORT ST. GEORGE, *March* 24, 1843.

1st. It is hereby notified that Madras Rupees, i. e. Rupees of the Madras Mint previous to the Coinage of 1835, and the different sorts of the Furruckabad Rupee will be received at the Madras Mint at their par value for Company's Rupees without deduction for seigniorage, provided they have not lost by fair wear more than the regulated limit of lightness, viz. one and half per cent; and light Madras or Furruckabad Rupees which may have fallen in weight below that limit, will also be received at the Madras Mint without charge for seigniorage according to their bullion weight.

2d. The above principle will also be observed in receiving the Madras and Furruckabad Rupees in payment of public demands at the Treasuries of the Collectors, &c. in the Districts under this Presidency, and in receiving the Madras Rupees at the General Treasury.

By order of the Most Honorable the Governor in Council.

J. F. THOMAS, *Acting Chief Secretary.*

CORRECTION OF YARD MEASURES.

NOTICE.

An Imperial Standard Yard Measure, made according to the Standard of Great Britain, conformably to the Acts of the 5th Geo. 4th, Cap. 74, and the P. C. 5th and 6th Wm. 4th, Cap. 63, and compared with, and verified by Her Majesty's Standard Measure in the Exchequer at Westminster, having been received from the Honorable the Court of Directors, and deposited in the Assay Office at the Mint, it is hereby notified, for general information, that Yard Measures in use with Public Departments, and those belonging to Private Individuals, will on application to the Mint Committee, be compared with and, when necessary, corrected by the above standard Yard Measure.

FORT ST. GEORGE, 3*d January* 1842.

No. 20.

FORT WILLIAM, *Financial Department, the* 22*d December* 1852.

NOTIFICATION.—By Section 9, Act XVII of 1835 of the Government of India, it was enacted that thenceforward no Gold Coin should be a legal tender for payment in any of the Territories of the East India Company, and accordingly Gold ceased, from the date of the passing of the Act, to be a legal tender of payment in the Company's territories in India.

But by a Proclamation issued on the 13th January 1841, Officers in charge of Public Treasuries were authorized freely to receive Gold Coins struck in conformity with the provisions of the same Act XVII of 1835, at the rates indicated by the denomination of the pieces, until they should have passed certain limits of lightness set forth in a table published with the Proclamation or until further orders; and Gold Coins have been thus received in liquidation of public demands up to the present date.

Notice is now given, that so much of the Proclamation of the 13th January 1841, as authorized the receipt of Gold Coins into the Public Treasuries of Government, will be withdrawn and cancelled from the 1st January 1853, and that on, and after that date, no Gold Coin will be received on account of payments due, or in any way be made to the Government in any Public Treasury within the Territories of the East India Company.

Gold will continue as heretofore to be received into any of the Mints within the Territories of the East India Company for Coinage, under the Act and rules at present in force for the Coinage of Gold, but Mint Certificates for Gold Coins will be discharged in Gold only, and no such Certificate for Gold will be accepted in any Public Treasury in liquidation of public demands, or on account of any payment to the Government whatever.

Colonial Newspapers or Prices Current posted in India for Great Britain are not subject in India to any charge for Postage, but Newspapers posted in India, addressed to any British Colony or Possession, or any Foreign Port, or any Port in India, are, if sent by Her Majesty's Steamers, or *viâ* Southampton through England, liable to a Postage charge of One Penny, (9 Pie,) which must be prepaid in Cash. Newspapers sent through Great Britain *viâ* Marseilles are liable to a Postage charge of Pence Three, Annas 2 and if addressed to British North America *viâ* the United States, a further charge of One Penny must be levied on account of the United States in addition to all other Postage.

Newspapers and Prices Current brought to India by Her Majesty's Packets from a Foreign Port, except a French Port, without having passed through Great Britain, are chargeable with One Penny (9 Pie) on delivery.

Must be paid by Stamps.

211. All Steam Postage, if pre-paid, must be paid by means of Postage Stamps affixed to the Letter; (according to present Rules the combined rates include Steam and Inland Postage in the case of letters to *all* places *but Foreign Europe and Ceylon and Hong Kong*, on which letter the Indian Rates are independent of the Steam Postage) and if credited to the English Post Office.

Inland Postage must be pre-paid.

212. No letter or other article can be despatched to any place not within the Territories under the Government of the East India Company, unless the full amount of Inland Postage is pre-paid. *(A. Sect. XIX.)* Every precaution should be taken to keep the public informed of the existence of this Rule and the necessity for its strict observance.

Steam Letters to be received by Post Office Clerks.

213. Pre-payment of Steam postage is, as shewn in the Table, also in many cases compulsory; it is therefore necessary that Ship and Steam Letters should, at Provincial Post Offices, be received by a Clerk, who will see that they are sufficiently stamped, and reject any on which the correct amount of postage is not paid. Any Letter received as sufficiently stamped must not, in any case, be detained. At the Presidency Post Offices, these letters only, the pre-payment of Steam Postage on which is compulsory, will be received at the Window by a Clerk; Inland Postage is not chargeable on Ship and Steam Letters despatched from a Presidency Town, and there is no reason for departing from the usual course in respect to any Letters on which pre-payment is not compulsory.

Unpaid Letters for Foreign Europe to be sent *viâ* Southampton.

214. Letters on which Steam postage is unpaid, or partially paid, addressed to Foreign Europe, *viâ* Marseilles or Trieste, if found in the Letter Box, should be sent to England *viâ* Southampton.

Partially pre-paid Letters.

215. Overland Letters received for despatch by Her Majesty's Mails, partially pre-paid, will, when the pre-payment is optional, be sent bearing the difference between the proper charge and the sum in even Shillings or Eight Annas, which may have been paid. Fractions of a Shilling or of Eight Annas will not be taken into account. Thus a Letter, the Postage charge on which is One Shilling or Eight Annas, must be sent bearing One Shilling, if less than Eight Annas, be paid thereon. A letter chargeable with One Rupee or Two Shillings on which Twelve Annas may have been paid, will be sent bearing One Shilling.

Provincial Offices not to keep a separate account of Steam Letters despatched.

216. It is no longer necessary for any office in the interior to keep a separate account of paid Steam Letters despatched, such Letters, whether Southampton, Red Sea, or British Packet, will be sent with one Steam Postage Chulan to the Presidency Post Office, and be also entered in the ordinary Despatch Register and Letter Chulan.

Mode in which Steam Letters are to be packed.

217. The General Letter Chulan of the day will show the total number of *Covers, Steam Letters inclusive*, despatched on that day. The several descriptions of Steam Letters should be separately tied with fine twine, and be labelled according as they belong to one or other of the undermentioned classes of Letters, *viz*:—

Marseilles.	British Packet, paid.
Red Sea.	Ditto unpaid.
Southampton, paid.	Soldiers' Letters.
Ditto, unpaid.	Newspapers.

Account to be kept of postage on letters received and forwarded.

218. Although it will not be necessary for Post Offices in the interior any longer to submit accounts of Steam Letters despatched, it will still be necessary to prepare and submit an account to the postage collected on unpaid letters received, and the sum to be deducted on account of postage on re-directed steam letters despatched.

Recovery of steam postage.

219. Steam postage will be recovered in the same manner as Indian Inland Postage.—*(A Sect. XXVII.)*

NEWSPAPERS.

Definition.

220. Any periodical, published at regular intervals not exceeding twenty-eight days, may be considered a newspaper, provided that it is a medium of current intelligence.

Conditions to be observed.

221. When the following conditions are strictly observed, newspapers and other printed and engraved papers not weighing more than twelve tolas are entitled to be conveyed by letter post at newspaper rates. The conditions to be observed are the following:—

(1.) There must not be more than one newspaper or printed paper in one cover, an extra or supplement of the same date is to be considered part of the newspaper.

(2.) The newspaper or other printed paper must be without a cover or in a short cover open at both ends.

(3.) There must be no word printed on such newspaper, pamphlet, or other printed or engraved paper after its publication, or upon the cover thereof, nor any writing or mark upon it or upon the cover of it, except the name and address of the person to whom it is sent, and the name and address of the sender.

(4.) There must be no paper or thing enclosed in or with any such newspaper, pamphlet, or other printed or engraved paper.—*(A Sects. VII and VIII.)*

Penalty for non-observance of conditions.

222. If the above conditions are not observed, the newspaper, together with the enclosure, if any, must be charged with postage at the rate which would be charged on an unstamped letter of equal weight.—*(A. Sect. IX.)*

If not more than twelve tolas in weight to be sent by letter post.

223. Unless expressly directed to be sent by book or banghy post, every newspaper or other article weighing less than twelve tolahs must be conveyed by letter post.—*(A. Sect. XIV.)*

Packets must be pre-paid.

224. Packets of newspapers, &c. whether imported or published in India cannot, in any case, be sent by banghy at book post rates, unless the postage is pre-paid in full.

225. Unpaid packets of *imported* newspapers, weighing *less* than twelve tolahs provided they otherwise conform to the conditions prescribed in Section VIII. of the Post Office Act, may be sent by letter post, at a charge of single newspaper postage for each newspaper contained in the packet. For the rules regarding Steam Postage on newspapers see para. 210.

Packets of imported paper weighing less than twelve tolahs.

226. Unpaid packets of imported or Indian newspapers, &c. weighing *more* than twelve tolahs, must be sent by banghy post, and charged banghy rates.

If more than twelve tolahs must be conveyed by banghy.

227. Newspapers imported by ship are not liable to ship postage, nor are Captains of ships entitled to any gratuity on such newspapers.

Bounty not to be paid on newspapers.

228. A single newspaper, weighing more than twelve tolahs, must be conveyed by banghy post; if unpaid, it will be chargeable with newspaper rates of postage, provided that the necessary conditions are observed; if pre-paid and so directed, it can be sent at Book Post Rates.

A single newspaper weighing more than twelve tolahs.

229. Whenever the Post-Master General of any Presidency shall have notified in the *Official Gazette*, that the Banghy Post is conveyed in the same carriage with the Letter Post along any line of road, it shall not be lawful to send by the Banghy Post any Packet of Newspapers. (*Act Sect. XVI.*)

When Banghy Parcels and Letter Mails are conveyed in the same carriage, Newspaper Packets not to be sent by Banghy.

230. The prohibition contained in the above extract will apply only to the Stations between which Mails and Banghies are conveyed in the same carriage, it cannot be taken to prohibit the despatch of packets of Newspapers in all cases in which they are liable to be conveyed a portion of the distance in the same carriage as the Mails.

Limitation of the Rule.

231. Newspapers posted for despatch by letter Mail may be pre-paid or not at the option of the sender, if not paid they are not liable to double Postage on delivery. Newspapers are not liable to forward Postage if not delivered, but if a Newspaper is delivered at the house of the addressee and is received, and subsequently sent to the Post Office re-directed, Forward Postage must be charged, as in this case the presumption will be that the cover has been received and the Paper read and reclosed.

Unpaid Newspapers not charged with double Postage or liable to Forward Postage.

232. Newspapers, &c. not printed and published in India whether posted in India or received by Mail from any other country, must be charged as imported Newspapers. The place at which they may be posted does not affect the fact of their having been imported.

Imported Newspapers.

RULES RELATING TO THE REGISTRATION OF LETTERS SENT THROUGH THE POST OFFICE.

Approved of by the Hon'ble the President of the Council of India in Council, on the 10th August 1855.

1. The system of Registration is applicable to all descriptions of Letters without distinction, but in the case of letters for Foreign countries from India, extends only to the port of despatch.

2. A Post-master, Deputy Post-master, receiver, or other Officer, on being applied to register a Letter, will demand a Registry Fee of Four Annas, and will write distinctly, on the front of the Letter "*Registered Letter*;" he will also stamp the Letter plainly, and enter the address and number of it on the left hand side of the Receipt Book with which he is furnished; he will next enter the number and address of the Letter upon the Receipt, so as to correspond with the entry in the counterpart. The Receipt will then be stamped with the dated Office Seal, torn out of the book, and given to the Poster.

3. The Registration Fee of Four Annas must be paid before a Receipt is given.

4. The full address of Registered Letters must be entered on the Letter Chellaun, and the Letter itself must be enclosed in one of the green printed covers that are furnished for the purpose.

5. This green cover must be enclosed, unsealed, in the Bag or Packet addressed to the Delivering Office, or, when a Sorting Office intervenes, in the Packet in which Letters for the Delivering Office are usually sent.

6. No letter can be received in order to be registered, unless it is brought to the Post Office half an hour before the closing of the Box for the particular Mail or Bag by which it is to be despatched.

7. When from any cause, a Registered Letter cannot be delivered, it must be sent back, without delay, with the original green cover, to be returned to the sender. When a Registered Letter has to be re-directed, and forwarded, the original green cover must be returned to the Office of Despatch, and the Letter sent to its new address with a fresh cover. The full direction of the Letter must also be entered in the Letter Chellaun with which it may be forwarded.

8. On the delivery of a Registered Letter to the party to whom it is addressed, a Receipt in duplicate must be taken by the Delivery Peon or Letter Carrier, one of which Receipts must be returned to the Posting Office by the first Post, the duplicate must be carefully preserved by the Postmaster of the Delivering Office as the voucher for the safe delivery of the Letter; he will be held responsible for it if he cannot, when required, produce the Receipt as proof of the delivery.

9. The portion of the cover returned to the Posting Office must bear a clear impression of the dated Office Stamp, shewing the day on which the Registered Letter reached the Post-master's hands; it may be sent open in the Bag or Packet.

10. No Letters can be refused to be registered, provided they are posted in sufficient time, and the Registration Fee is paid in advance, and that the other Regulations in force with each class of Letters are duly complied with.

11. Any neglect of these Regulations, which shall involve the loss of a Registered Letter will not only render the party guilty of such neglect liable to be called on to make good the amount of the loss sustained in consequence, but will be punished by dismissal from the Service.

12. That there may be no misconception as regards the course to be pursued with Registered Letters, it must be distinctly understood, *that the person*

to whose possession such Letter is last traced will be held responsible for it, as a matter of course, until he shall have discharged himself of the responsibility by a satisfactory explanation.

13. It will therefore be necessary for every Officer, on opening a Bag or Packet, immediately to seek the Letter Bill, and in the event of a Registered Letter being entered on it to certify its arrival, by attaching his initials to such entry; he will then place the Letter in its proper channel for disposal, taking an acknowledgment, by initials or otherwise, from the person into whose hands it may be given for delivery or despatch; each officer who may receive the Registered Letter will pursue the same course, until it reaches the party for whom it is intended, when the usual Official Receipt is obtained on its delivery.

14. Should any entry be made on the Letter Bill of a Registered Letter, and such Letter (although it ought from its being separate from the others to be distinctly seen) cannot be found in the bag, the opener of the bag must immediately report the circumstance, calling in, if possible, another person to verify the fact, before he has touched the other Letters.

15. With regard to the despatch of registered Letters, the same precautions must be observed, the Clerk who receives the Letter for despatch from the Poster must obtain a discharge from the Officer to whom he delivers it, and this Officer, and all others through whose hands it may pass, must pursue the same course. The Despatching Clerk will enter the Letter on the Bill, carefully checking it into the Bag or Packet, and will only be exonerated from his liability by the signature of the Receiving Clerk at the Office to which the Bag is addressed.

16. Every irregularity connected with Registered Letters must be instantly reported to the Inspecting Post-master and by that day's Post to the Post-master General, in order that innocent parties may not be involved in heavy responsibilities, which in reality do not attach to them.

17. Each Post-master will be responsible that every party employed in any Office in his Division is made acquainted with these Regulations, and will take their signatures as an acknowledgment of having perused and understood them.

6. The rate of hire to be paid to the Bearers will be fixed by the local authorities. When Bearers are brought from a distance, the Traveller will be required to pay them the regular hire and travelling hire.

7. Sets of Bearers shall receive (3) three Pice each Bearer for every mile they travel to their post, which allowance is called travelling hire, except for such part of the road as they travel over again with a loaded Palankeen, for which part they shall not be entitled to travelling hire, unless the distance which they travel to their post exceeds 40 miles, in which case they shall be entitled to travelling hire for the whole distance, notwithstanding they return over a part or the whole of it with a loaded Palankeen.

8. If Bearers are detained on the road, they are to receive (1) one Anna each for the first day, and (3½) three and half Annas for each succeeding day, from the party for whom they are posted, whether they are used or not, and after remaining 3 full days they will be discharged and without further instructions return to their homes, unless notice is given for their further retention. Bearers carrying an empty Palankeen shall be entitled to (1) one Anna and (6) six Pice per mile, for the distance they convey the same, in addition to any travelling hire to which they may be entitled under these Rules.

9. When a Dâk has been ordered and circumstances may cause the Traveller to postpone his journey, or to abandon it altogether, he will be liable to all charges actually incurred in like manner as if he had employed it.

10. When Bearers are posted for a Traveller, no other Traveller shall employ them, without the authority of the Officer who posted them; but should any individual so act in violation of the orders of Government, he will be liable, in addition to the hire of the Bearers used by all and every extra charge incurred, by the Traveller for whom the Dâk was originally laid.

11. In order to facilitate the keeping of accounts, all fractional portions of a mile will be struck out. If the fractional part exceed the half, the Bearers will enjoy the benefit of a full mile—if less than the half, they will not be entitled to any hire for the same.

12. All charges of hire shall be made agreeably to the Table of distances and routes in the Madras Road Book.

13. The load for a Cawady Cooly shall not exceed 50 lbs. weight, divided as nearly as possible, into two equal portions of 25 lbs. each.

14. All applications on the subject of posting Bearers (except when made on service by one Public Officer to another) shall be post paid, and superscribed "Bearer Service." In order that no delay may occur in their being opened by the proper authority. If this is infringed, the Traveller will be held responsible for any charge that may be incurred consequent thereon.

15. In all cases of charges being made which to the parties concerned may appear irregular, the decision of the Post Master General shall be final, unless the charge complained of was made by the Deputy Post Master General, when alone an appeal is permitted to Government. Travellers are not however on this plea to withhold payment from the Bearers of any sum entered in the Memorandum presented by them—all such objections will be subsequently adjusted.

16. It is to be understood, that although Government has directed its Public Servants to lay Dák Bearers for the convenience of the Public, and will cause due pains to be taken to ensure regularity and a punctual attendance to all requisitions, yet that neither Government nor any of its Officers are to be held responsible to the Traveller, for any unavoidable disappointment he may meet with on his journey, or for the expenses consequent thereon.

17. All parties availing themselves of the services of the Officers of Government for laying Dáks are to be held as ipso facto binding themselves to adhere to the above Regulations.

18. Nothing in the foregoing Rules is intended to interfere with Travellers applying to private individuals to rent their Bearers, should they prefer making their own arrangements without the intervention of the Public Authorities.

Published by order of the Right Honorable the Governor in Council.

H. C. Montgomery, *Chief Secretary.*

Offices open from sunrise to sunset.

Messages between Madras and Bombay, or Ootacamund and Bombay, are charged two distance rates, and messages between Madras and Calcutta, 3 distance rates; between other Stations, messages are charged at the rate of one Rupee for every sixteen words transmitted four hundred miles.

One Rupee is the minimum rate for Telegraph messages, excepting between Madras and the Mount, and Poonamallee, between which offices, the charge is four annas for every sixteen words.

Messages may be repeated at an extra charge of one half the amount.

When there is any interruption to communication, information is given to all Stations, and the Assistants in charge are required to intimate the fact to parties presenting messages for transmission over any section of the line along which there is no Telegraph communication.

A refund may be obtained for money paid for *repeated* messages in case of non-delivery, unreasonable delay or gross error on condition the matter is represented within two months after the occurrence of the error.

Bulletins of Mail News are given free to the Madras Press, and delivered to Subscribers on pre-payment of two Rupees per mensem, they are given free also at Bellary and Ootacamund.

There is a line from Bellary to Hyderabad with a Repeating Station at Kurnool and an Office at Secunderabad under the superintendence of another Deputy Superintendent.

Persons writing on matters relating to these Lines and Offices should address their letters to Mr. W. Mayes, Deputy Superintendent, Hyderabad.

The Telegraph extends beyond Berwarrah to Calcutta. Persons enquiring on matters connected with the Line to the north of Ellore should address Lieut. J. R. Magrath, Asst. Superintendent of Electric Telegraph in India.

There is a Telegraph Office at Vizagapatam.

Telegraph Messages should invariably be addressed thus:—

Telegraph Message.

To

The Assistant in Charge,

or Signaller on duty,

——— Office.

The omission of the words "Telegraph Message" and "Signaller on duty" might sometimes cause much delay in the transmission of Messages.

Persons in Madras wishing to avail themselves of the Telegraph should send their private Messages to the Black Town Office, Popham's Broadway, as such messages will not be received at the Office in Fort St. George—which is opened only for the transmission of Private Service Messages.

RULES FOR THE TRANSMISSION OF MESSAGES BY THE ELECTRIC TELEGRAPH.

(Passed by the Governor General of India in Council on the 5th January 1855, and modified by the Hon'ble the President in Council on 4th May 1855.)

RULES.

I. Messages on the Public Service shall take precedence of all others.

II. Service Messages shall be charged for at the same rate as private Messages, but the former shall be paid for by transfer in account, covered by a *pro forma* receipt, without cash payment.

III. A return shall be made every quarter to the Government of India and to the local Governments, showing number and cost of Messages transmitted by each Department during the preceding quarter.

IV. No Government Officer shall employ the Telegraph except on urgent and important occasions, and no Message shall be sent on Service by the Electric Telegraph unless the saving of the time effected by the Telegraph is of real importance.

V. At the seats of the local Governments authority to despatch Messages is vested in the head of the Government and in his Private Secretary. All other Service Messages, Civil and Military, shall be sent under the authority only of the Chief Secretary to Government, and of the Chief Military Officer, respectively.

VI. At Calcutta, Messages will be sent under the signature of the Governor General, of his Private Secretary, and of the Secretaries to Government. The power of communication along the river is also vested in the Superintendent of Marine and the Master Attendant.

VII. At Telegraph Stations not being seats of Government, no Service Message shall be sent unless it be signed by the Chief Civil or Military Officer of the station, each for his own Department.

VIII. The Officer who signs the Message will be responsible for the necessity of sending it by the Telegraph, and if on the periodical inspection of the Station-books it shall be discovered that Messages of a trifling nature have been despatched, the officer who authorized them will be made to pay for them.

IX. Officers, whose signatures will authorize Messages to be sent free, are bound in honor not to send private communications under cover of that authority.

X. All Service Messages must be conveyed in few and as short words as possible.

XI. Messages will be received for transmission by Electric Telegraph at the undermentioned rates of charge and subject to the following rules:—

Messages of 16 words and under, including the name of the sender, the name of the person addressed, the date (if inserted), and the names of the places of despatch and destination (unless they be also the names of telegraph stations,) will be sent a single distance along the line for one rupee.

Messages, as above, exceeding 16 words, but not exceeding 24 words, will be sent a single distance along the line for one rupee and eight annas.

Messages, as above, exceeding 24 words, but not exceeding 32 words, will be sent a single distance along the line for two rupees.

And for every additional 16 words, or fraction thereof above 32 words, there shall be charged, for a single distance an additional rupee.

A single distance is commonly any distance not exceeding 400 miles; and for every additional single distance above 400 miles, there will be made an additional charge equal to the charge made on the same Message for a single distance.

No charge is made for stops, or for prepositions or such words as "and Co." "Mr." and "Mrs." occurring in the address of a Message.

The name of the sender, of the person addressed and of the place of address, must be written on the face of every Message.

The date may be written or not at the opinion of the sender.

A single distance from Calcutta will include Benares, Mirzapore, and all intermediate stations.

A double rate from Calcutta will include Agra and the intermediate Stations at Allahabad and Cawnpore.

A treble rate from Calcutta will include Meerut, Delhi, Loodianna, Lahore, Gwalior, Seepree and Indore.

A quadruple rate from Calcutta will include Peshawur and Bombay. Six rates include Madras.

Peon hire, at the rate of 4 annas per mile, will be charged for extra, if the Message be sent to any place at a distance beyond half a mile from a Telegraph Station.

XII. No message, however brief, will be charged for at less than a single rate, and the reply will in every case be charged for separately.

XIII. Mercantile or other Messages involving important results, will only be received on condition of being repeated back from each Receiving Station, and half price will be charged for repetition according to the practice in Europe.

XIV. The sender of a Message may pre-pay the charge for a reply, which must be limited to the number of words so pre-paid for.

XV. All Messages must be in the English language and must be pre-paid in cash, including Peon hire, excepting Message, sent from River Stations below Calcutta.

XVI. No unpaid Message, with the above exception, shall on any account be transmitted. A violation of this rule will subject the Signaller or Assistant in charge of the Station whence the Message may be sent, to dismissal from Office.

XVII. Messages in cypher will be charged for at triple rates under special rules which may be learned at different Telegraph Offices.

XVIII. All communications in cypher must also be repeated back to obtain accuracy, and the repetition will be charged for in addition at single rate.

XIX. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the latter will take precedence of the former.

XX. Subscriptions for daily Messages of 48 words or more, will be received at an abatement of one-fourth of the above-named rates.

XXI. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller, in the Telegraph Department, will be punished by dismissal from Office, forfeiture of arrears of pay, and a declaration in the *Official Gazette* of the incapability of the delinquent to serve the Government in any public capacity.

Clause 2d.—All persons employed in the Telegraph Office are hereby desired to keep secret all the messages transmitted by Electric Telegraph, except news messages intended for publication.

XXII. Officers in charge of Telegraph Stations may refuse to transmit a Message which may be of a decidedly objectionable character. Should the character of the Message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the Chief Civil Officer if it occur at a Mofussil Station.

XXIII. Private Messages shall be transmitted in the order of their receipt in the Telegraph Office. Should two or more Messages be tendered for transmission at the same time, the shortest shall have the precedence without reference to its relative importance.

XXIV. No Message or Messages, beyond 200 words in all, can be sent at one time by one individual or firm; and no second Message can be sent by the individual or firm till after the lapse of three hours unless the line be free and not required by any one else.

XXV. Private Messages will, until otherwise notified only be received between sunrise and sunset.

XXVI. During the receipt of Messages signalled as "Confidential," visitors shall be excluded from the Signalling Room. A violation of this rule shall subject the Assistant in charge to dismissal from Office.

XXVII. News and Messages shall be conveyed in the following order:—

1st.—Intelligence of the English Mails.

2nd.—Messages for the Press.

3rd.—Messages for Subscribers.

4th.—Messages for Non-Subscribers.

XXVIII. Overland intelligence, or other Public news of great importance shall be given to the Press free of charge, at the seats of the different Governments, and at all other places on the line where Newspapers are published, and where there are regular Repeating Stations. The intelligence of news will ordinarily be given in two Messages; the first in as few syllables as possible, and containing not more than 25 or 30 words, the second Message will be full, but shall not exceed 640 words.

XXIX. Messages will, under these rules, be received by Post from Europe or elsewhere for transmission, if money be deposited beforehand sufficient to pay for the transmission.

XXX. Messages will also be sent to the Post Office in letters, bearing postage, when instructions to that effect are sent with the Message.

XXXI. The accuracy of Messages is not guaranteed.

XXXII. The foregoing Rules are provisional, and the rates are open to revision.

CECIL BEADON,

Secy. to Govt. of India.

DESPATCH OF MESSAGES BY POST AND TELEGRAPH, FROM PLACES NOT HAVING TELEGRAPH STATIONS—PRE-PAYMENT BY STAMPS.

All Post Masters will be provided with copies of the preceding rules and a Table of distances, showing the rates to be charged for a Message of 16 words between any two places on the lines.

Thus, the distance between Meerut and Calcutta is marked in the Table as 3, which means that a message of 16 paid words is charged at 3 rupees—a message of 17 to 24 words Rs. 4-8—a message from 33 to 48 words rupees 9—the charge for any given number of words being multiplied by the *number* in the Table—and half added in case of *repetition*. Thus a repeated Message of 32 words between Meerut and Bombay will be charged—

32 words at single rate Rs. 2; sent 3 distances Rs. 6; add one half for repetition—total, Rs. 9.

The Post Masters will explain the rules and rates to applicants, and inform them of the nearest Telegraph Stations from which their Messages can be despatched.

The message is then to be written on a stamp of the required value, according to the subjoined form, in which the numbered words are those charged for—the words not numbered are passed free. The stamps are procurable from all civil treasuries, and from the regular licensed vendors.

The message must be written on the stamped paper, and if two stamps are required the message must be written across both.

The stamped messages are then to be sent by post under envelopes, marked conspicuously "ELECTRIC TELEGRAPH DESPATCH;" all such despatches will have priority of delivery at the receiving Post Offices to Telegraph messengers, who will be kept always in attendance.

It is strongly advised that such messages be sent as *Registered* letters—a copy of the message should also be sent by post to the party, addressed in the usual manner.

The sender of a message must accept all risk of delay, non-delivery or error.—No refund will be made of fees.—*Orders of Governor General in Council, No. 375, dated 30th March, 1854, para. 3.*

Complaints regarding missing or inaccurate messages will receive immediate attention, and all cases of neglect on the part of the Assistant be severely punished.

In the address of a message the names of the places are not charged if there be telegraph stations at such places—but names of places having no telegraph stations—of quarters, streets, or houses, and all such special directions, will be charged word for word—[*Orders of the Hon'ble the President in Council, dated 4th May* 1855.]

In the *address* of a message the words Mr.—Mrs.—Miss—Messrs.—and Co.—From, For, To, are passed free—but all these words in the body of the message are charged for.—[*Orders above quoted.*]

Dates are optional, and may be given without name of the month, as "Wednesday"—or 23d—&c.—&c.

Numbers are in all cases charged for word by word as if written in full—thus 1855, are *four* words.

The name of the sender of a message must be given in all cases, and be written on the face of the message.—[*Orders of Government, dated 4th May* 1855.]

In names, each initial is counted as a word, and it is strongly advised that the Christian names be spelt in full.

No charge is made for the stop; notes of interrogation, admiration, and inverted commas are not transmitted.

Senders of messages are advised to use the shortest and most familiar words they can select. The more intelligible a message is, the greater is the certainty of its being transmitted free of error.

Senders are also *advised* to specify the streets and numbers of the residences of the persons they address, especially with reference to Calcutta, Bombay and Madras. The Telegraph offices have necessarily but small delivering establishments, and many messages sent merely to "Calcutta," "Bombay" or "Madras," miscarry through this omission.

Messages which must be *repeated* include all those sent on mercantile, banking and money business of every kind; and law matters, freight, shipping, insurances, and markets.

Repetition is also *recommended* in the case of family messages and special urgency.

FORM No. 1.

From Meerut.

REMARKS.

To avoid all chance of error in the rates at which it is wished to sell articles for Government this kind should be sent in the following manner. Sell five thousand or below two thousand five hundred bags at Rs. three and half or twice one and three quarters each bag. The contractor on finding that the last mentioned does not agree with the first applies for the correction of the message.

Parties can receive "Bearers Interpose" from distant stations by depositing money at the offices as security for the payment of those messages.

Note. The distances computed first, up to 100 miles as one, beyond so and either separate as 150, 200, &c according to the lengths of wire between Telegraph Stations.

The ordinary time for conveying messages from Madras to the most distant stations is from 4 to 5 hours; but much depends on the work on the line.

MADRAS RAILWAY COMPANY.

1. The Deed of Settlement of this Company was signed on the 26th July, 1852; it was completely registered in September of that year, and was incorporated under the above name by Act of Parliament XVI and XVII, Vic. Ch. 46, for the purpose of making and constructing one or more Line of Railway in the Madras Presidency.

2. In December 1852 a contract was entered into between that Company and the East India Company to the following effect, viz. to construct an experimental Line of Railway, to commence at Madras and to take a direction towards the Western Coast of India, the estimated cost of which was 500,000 pounds sterling.

3. The East India Company engage to pay a sum equal to 4½ per cent. per annum on the capital raised by the Company and paid into their Treasury, to be expended in the construction and management of the works. Should the working expenses of the Line absorb the whole receipts of the Traffic, the Shareholders will, by the agreement, still receive their 4½ per cent. interest, should the receipts be in excess, the amount will be carried to the credit of the guaranteed interest until it amounts to 4½ per cent.; and should further profits be realized, half the excess is to go to the Shareholders of the Railway Company, and the remainder is to be paid over to the Government to reimburse them for the amount paid under their guarantee during the period of the construction of the Railway, and such other time as they may have been called upon to make payments on that account. Should the profits amount to more than 10 per cent., the rates of tolls are to be reduced.

On the other hand, if the Railway in its working should prove unprofitable, or from any other motive it may be deemed advisable within 99 years, the Railway Company have the power to abandon the Line to the East India Company after three months' trial of the working and six months' notice and the sum expended on the construction of the Line is to be reimbursed to them on an Annuity Commutation, i. e., instead of paying a gross sum of money it shall be at the option of the East India Company to pay an annuity to be reckoned from the time when the gross amount would be payable and to continue during the residue of the said term of 99 years. The East India Company grant a free lease of the Lands over which the Railway will pass for 99 years, and reserve to themselves the option of purchasing at the expiration of twenty five and fifty years; Mails are to be carried free; Soldiers and Government Stores at the lowest rate charged for similar goods; the works to be constructed under the supervision of the Government.

4. By Acts of Parliament XVII and XVIII, Vic. Cn 29, the Company were empowered to enter into further contracts with the East India Company for the extension of the said experimental Line of Railway to the Western Coast of India, and for a Branch Line to Bangalore and to the foot of the Hills towards Ootacamund respectively, and power was given to the Railway Company to raise such amount as might be deemed necessary for carrying into effect the said contract. The East India Company have engaged to pay 5 per cent. on the capital, viz., £500,000 raised by the said Company, termed *First Extension Shares*; and have as a further increase of the Capital guaranteed to pay 4½ per cent. upon £1,000,000 sterling, termed *Second Extension Shares*, or such amount as might be paid into their Treasury, so raised by the Directors of the Company, and subsequently, have engaged to pay 5 per cent. on an additional million for the Cuddapah Line.

5. By Act of Parliament XVIII, Vic Sess. 1854-55, the Board of Directors of the Company are empowered to establish Offices in India for the issue and registration of Shares. Registers will be kept in Offices in India for the transfer of Shares, but none of such Shares are ever to be on the Register of more than one Office at one and the same time. Shares however, may be transferred from one Register to another at the option of the holder, that is, from the Register at Madras, to the Register in London or vice versa.

The Company have also engaged to construct a Line of Railway from Madras to join the Trunk Line from Bombay; estimated cost of construction £2,000,000.

after an additional service of five years from the date of their last return to duty.

Referring to Rule 9.—Absence for six months under this Rule does not preclude an Officer from taking his Furlough to Europe after ten years' service.

3. C. his second furlough on private affairs will not be claimable till the expiration of six years from return to duty from such sick leave as well as 10 years from the date of return to duty from furlough on private affairs.

months, is bestowed by the Honorable Court, in order to enable such Officers to regain their health, and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of resuming to duty, the principle on which this rule is founded is infringed, and the indulgence of the Honorable Court is abused: wherefore the Right Honorable the Governor General in Council hereby notifies for general information, that, if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for considering that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining Office, will not be granted in future.

G. O. G. 15th April 1856, No. 119.

The foregoing was declared in a Notification, No. 1122, dated 16th April 1856, reproduced in G. O. G. 2d May 1856, No. 130, to be applicable to all Military Officers holding Political or Civil appointments, either under the Government of India or under any of the Subordinate Governments.

With reference to paragraphs 15 and 16.

6. If an Officer having proceeded on leave in India on Medical Certificate and also beyond the Indian Seas to the full extent, proceeds on leave on Medical Certificate out of India without having returned to duty, the existing Regulation which precludes receipt of Indian allowances for a longer period than two years of continuous absence from duty, is a bar to his receiving Indian allowances for the first six months or for any part of his first absence.

G. O. C. C. 18th November 1856, No. 92.

14. An Officer's claim to half Staff Salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service to Europe or elsewhere.

15. No portion of Command Allowance, Medical Staff Allowance, which under the Old Rules was inadmissible to Officers proceeding to Europe or Stations at the Cape or elsewhere, will be allowed by the present Regulations.

16. † All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of 6 months to Regimental rate of Indian Pay and Allowances as was allowed under the Old Regulations to Officers proceeding to the Cape on medical certificate, and for the remaining period of their leave they will receive Furlough pay only.

17. If the leave on sick certificate be extended, Furlough will not be granted under any circumstances for a longer period than three years from the commencement of the absence.

Staff Officers.

18. The term Staff Officer applies to all Officers holding [illegible] as Assistants to the Commander-in-Chief, Military (General or Regimental) Political or Civil Secretaries, Officers commanding Divisions, Members of the Medical Board, Superintendents of Stud Farms, who, under the Old Rules, were entitled to draw half Staff Allowances when proceeding to the Cape.

† Vide proviso of rule 13.

With reference to para. 19. *G. O. G. G. 4th September 1855, No. 904.*

The following paragraph of a Military letter, from the Honorable the Court of Directors to the Government of India, No. 81, dated 27th June 1855, is published for general information:—

Letter dated 5th April 1855, No. 82.

Submit the question whether as Officers are, on their first application for leave of absence or Furlough, to declare whether they will abide by the old or accept the new Furlough Rules. Staff Officers who apply for leaves to the Hills or elsewhere in India are to vacate their Office like those who take leave to the Cape or elsewhere beyond sea. Government observe, that if this were so, the Rule would have the effect of debarring such Officers from all leave, however short, in excess of the privilege leave of one month in six.

G. O. G. 18th September 1856, No. 237

7. Staff Officers applying for leave in India are not required, by the new Furlough Rules, to vacate their Staff appointments. We therefore approve and confirm the view you have taken of this question.

With reference to para. 19.

1. The Commander-in-Chief directs it to be notified that under a decision of the Government of India, the new furlough regulations are held, not to affect the rules heretofore in force with respect to leave in India, and that consequently a Staff Officer obtaining leave of absence in India on private affairs for six months, or on medical certificate for two years, retains during such absence a moiety of his Staff salary as sanctioned by the regulations for the grant of leave in India which are still in force.

G. O. C. C. 31 October 1856, No. 75.

2. A Staff as well as a Regimental Officer is required, when first applying for leave, whether in or out of India, to declare by which of the furlough regulations he wishes to abide. A Staff Officer having made his election can take his leave in India as above stated, and should he afterwards require to proceed to England, the retention or otherwise of his appointment will depend upon which of the rules he first elected, and from which he cannot afterwards change.

3. In the event of a Staff Officer electing the new furlough regulations and taking leave in India, the whole of the leave he has previously enjoyed from the date of his entering the Service, excepting the periods allowed by those rules to reckon as service, must be reckoned against his period of service for retirement.

19. ‡ Staff Officers, absent on leave beyond the periods stated in Rules 9 and 11 respectively, cannot retain their appointments and allowances except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Hon'ble the Court of Directors, with the reason given for it, and to be subject to their approbation.

20. The privilege of retaining Staff appointments during leave of absence on sick certificate, or on furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs, until he has been six years in the discharge of the duties of his appointment, from the date of last return to it.

With reference to para. 21. *G. O. C. C. 24 July 1856.*

His Excellency the Commander-in-Chief directs it to be published in General Orders for the information of the Army, that the Government

21. This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or

22. Officers commanding Troops of Horse Artillery [illegible] Officers generally in employment, will be allowed [illegible] with respect to allowances and [illegible] Officers under the Old Regulations [illegible] leave to the Cape to such Officers under the Old Regulations [illegible] those advantages, the time for their [illegible] New Regulations.

With reference to para. 24 *M. C. Nos. 652, 2765 Feb.* 1855. 7. It is not [illegible] persons on Officers' [illegible] Staff and draw advances [illegible] Officers pro- this para [illegible] exception to allowed either to take [illegible] who may the advance or to draw pay and allowances [illegible] on arrears in England.

G. 206 they are serving, to *March* 1855. undergo an examination in the Native languages before the Half-yearly Committees, will for the future be considered as absent from their Regimental duty and such absence will not interfere with their enjoyment of temporary leave under the order marginally cited.

The following Extract From Bengal Army List, dated 1st October 1855.

With reference to para. 28 and 31. Orders by His Excellency the Commander-in-Chief of the Bombay Army is published at this Presidency.

HEAD QUARTERS, ADJUTANT-GENERAL'S OFFICE, 17th September 1855.

G. O. G. 19th Oct. 1855. No. 265. 1. With the sanction of Government, the following decision of the Government of India, having reference to rule 25 of the new Furlough Regulations, is published to the Army:—

"Short leave on private affairs for periods not exceeding 30 days, which have "been granted to Officers in General Orders "previously to 8th December 1854, are to "be counted as privileged, provided they "do not exceed an aggregate of 60 days in "each half year."

The Right Honorable the Governor in Council is pleased to direct the publication of the following Bengal rule, and to sanction its extension to the Officers of this Presidency.

G. O. G. 13th June 1856. No. 193. "Should an Officer who is on privilege "leave not rejoin his Corps, but be absent "in continuation, on not more than five "months' leave on private affairs, or one "year and eleven months' leave on Medical "Certificate, he will retain his full salary or

or Stations, after their return to India, nor the leave of one month's absence in six months as authorized by the Regulations. The last pay certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental pay and allowances and Staff salary to which they would have been entitled under the Old Regulations if proceeding to sea on medical certificate. This information is necessary in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

Officers of H. M.'s Service.

27. Officers of Her Majesty's Service in India, whether employed Regimentally or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on furlough or leave of absence.

28. In the case of Officers of Her Majesty's Service on Furlough or sick certificate in England or elsewhere, who may retire or exchange into Regiments not on the Indian establishment, the grant to those Officers of Indian allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India.

Periods of absence allowed to be counted as Service for Retiring Pensions.

29. In order that all Officers quitting India on Furlough, or sick certificate, may be placed on an exact equality as regards loss of time, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their corps or station after their return to India, will be considered as time counting for service for the Retiring Pension.

With reference to para. 29. *M. C. No.* 2702, *20th October* 1856.

31. An Officer returning from Europe or Sea is allowed to count as service one month for preparation at the port of debarkation and marching distance to his Corps or Department in addition.

With reference to para. 29. *M. C. No.* 2702, *20th October* 1856.

32. An Officer going to Europe or Sea is allowed to count as service in addition to marching distance to the Presidency or nearest port of embarkation, the same period for preparation prior to embarkation as allowed to Officers returning from Europe, viz. one month.

With reference to para. 29. *M. C. No.* 901, *18th April* 1856.

33. Officers obtaining leave preparatory to final leave out of India, but who after arriving at the Presidency or other port of embarkation abandon their intention of leaving the country, cannot reckon as service the period they may have been absent from duty on such preparatory leave which then assumes the nature of ordinary leave in India.

With reference to para. 29. *M. C. No.* 2702, *20th October* 1856.

G. O. C. C. 18th Nov. 1856, No. 92.

34. An Officer who proceeds on *furlough* to the Presidency or other port, (not preparatory to applying for leave to proceed to Europe or elsewhere) and while there obtains a *Sick Certificate* to Europe or other place out of India, is not entitled to count as service the period allowed by regulation for proceeding from the Station of his Regiment or appointment to the port of embarkation; but he can reckon as service the period of one month allowed at the Presidency or port of embarkation preparatory to embarkation.

With reference to para. 29. *M. C. No.* 2702, *20th October* 1856.

35. If instead of being at the port of embarkation, he is at another port, or an Inland Station, when he obtains the Sick Certificate to quit India, he will be allowed the time authorized for travelling from the station at which he may be when he obtains his Sick Certificate, to the port of embarkation.

G. O. G. 15th Sept. 1857, No. 290.

of wounds received in action shall be allowed to reckon as service for pension both under the old and new Regulations.

three years, or six months in six years shall be allowed to reckon, whether the leave shall have been spent in India or out of the country, except in case of wounds or illness contracted by service in the Field, duly certified by a Medical Board, when such case will be separately considered with reference to the time to be allowed.

34. Officers to be entitled to retire as Lieutenant-Colonels must have served 28 years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.

35. Officers to be entitled to retire as Colonels, must have served thirty-two years, out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.

19. In reply to the question now put to us, we have much satisfaction in stating that we are prepared to extend the benefits of the exception above specified to the time required for retirement on full pay. Every claim to this benevolent exception must be duly certified by a Medical Board, and be forwarded to us for our decision, accompanied by the opinion thereon of the Government and Commander-in-Chief of the Presidency to which the Officer belongs.

36. The scale for Medical Officers and Veterinary Surgeons, of privileged Furlough, and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years.	Months.	
1	8	in 17 and under 20 years' service.
2	0	in 20 " " 25 " "
3	6	in 25 " " 30 " "
4	0	in 30 and upwards.

37. It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on full pay, until he has completed the *full term of service* above specified, whether he be in England at the close of his service or elsewhere.

38. The privileged time of absence may, with the permission of the local Government, be taken at any time subject to these Regulations. If therefore, at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough, or sick certificate in Europe, or elsewhere, he will be entitled to retire on full pay of a Captain without returning to India, and so in the other terms of service for the higher pensions. In like manner a Medical Officer on Furlough, or sick certificate in Europe, or elsewhere, at the end of seventeen years' service, to ten years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate pension, without returning to India, and so in the other terms of service for the higher pensions.

39. These rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full pay.

No. 385 of 1854.—The Right Honorable the Governor General of India in Council

is pleased to direct, that the following paragraphs of a Military Letter from the Honorable the Court of Directors to the Government of India, No. 2, dated 2d January 1856, be published in General Orders:—

Letter dated 3d September 1855, No. 201.

Letter from Captain Skinner, transferred from the Nizam's Army to an unattached Commission in the Company's Service, requesting information as to the amount of pension he will be entitled to on retirement. The Auditor General's views on the subject recapitulated by Government.

Mem. No. 306.

Enquiry as to how the New Furlough Rules are to apply to Captain Skinner, and other unattached Officers.

Para. 2.—We concur with the views on this subject which are expressed in the Military Auditor General's Report of the 18th July 1855.—Captain Skinner will be accordingly entitled to count his service for retirement from the date of his first commission in the Army of his Highness the Nizam. He will be also entitled to the benefits of the New Furlough Regulations as an Officer of that standing in the Service.

3. All unattached Officers are entitled to the benefit of the New Furlough Regulations from the date of their first commissions.

G. O. C. C., 27th *April* 1857.

No. 16.—The Commander-in-Chief directs it to be notified that by a recent decision of the Government of India, unattached Officers of the Veteran Establishment are allowed the benefit of the New Furlough regulations, and these Officers can take leave in India on the same terms as they did prior to the publication of the New Furlough rules.

G. O. C. C., 29th *August* 1857.

No. 44.—The Provincial Commander-in-Chief directs the publication of the following [illegible] the Government of India:

A Warrant Officer on the Veteran Establishment is entitled, without loss of Warrant, to the same absence on allowance as if on leave in India, for the first six months of sick furlough, but thereafter, as well as when on furlough on private affairs he is restricted to the furlough pay of his Commission or of his Warrant, whichever may be the superior emolument.

A Warrant Officer holding a Commission on the Veteran Establishment has a footing in the Effective Army in virtue of his Warrant, rather than of his Commission and his Warrant being analogous to the Regimental Commission rather than to the Staff appointment of an European Officer, is not forfeited by any furlough which may be granted him, even if it exceed six months on private affairs or 15 months on medical certificate under the new Rules.

INVALID ESTABLISHMENT.

FORT ST. GEORGE, 19th *July* 1857.

No. 813 of 1857.—The Right Hon'ble the Governor General of India in Council is pleased, under instructions from the Hon'ble the Court of Directors, to promulgate the following Rules to be observed at the three Presidencies for the transfer to the Invalid Establishment of Officers who may be declared to be unfit for further service:

1. The Invalid Establishment will consist of

1st.—*The Invalid Battalion.*

For Officers who, although disqualified for further active service, are still equal to the discharge of garrison duties.

2d.—*The Invalid Pension List.*

For Officers disqualified for both active and garrison duties.

2. Officers who, from age, wounds, or decline of health, become unfit for active service, are eligible for transfer to the Invalid Establishment, provided their conduct and habits are such as not to affect the character of that Institution, which is designed as an honorable retreat to the worn-out or disabled, but deserving Officer.

3. Officers who may be desirous of being transferred to the Invalid Establishment, will be required to appear before the Standing Medical Committee at the Head Quarters of the Division, presided over by the Superintending Surgeon, or in his absence by the Senior Surgeon, furnished with a statement of their case prepared by the Medical Officer by whom they may have been attended. The Committee is to enquire rightly into each case, and should it be satisfied of the unfitness of the officer, it is, in recording its opinion, to certify either that the applicant is "permanently disqualified for the performance of further active service but is still equal to the discharge of Garrison Duties,"

or that he is "permanently disqualified for the performance of both Active and Garrison Duties," as the case may be.

4. The applicant, if reported equal to the discharge of garrison duties, will then be required to proceed to the Presidency to be finally examined by a Medical Officer to be specially appointed for the purpose, or by a special Medical Committee, as may from time to time be ordered.

5. After this final examination, the Report on each case, accompanied by the Certificates hereafter specified, is to be forwarded in the usual manner to Army Head Quarters, to be submitted to Government with the opinion of the Commander-in-Chief

6. In the event of the Commander-in-Chief being led to believe that any Officer's health is so thoroughly lost as to precludo all hops of his being able to perform further active service in India, such officer shall be directed to appear before the standing Medical Committee at the Head Quarters of the Division. If the Committee is of opinion that the Officer is permanently disqualified for active Military duties in India, and this opinion is confirmed at the final examination at the Presidency, the Government on receiving a Report on the case, which is to be prepared and submitted as directed in paras. 3 to 5, will place the Officer on the Invalid Establishment, notwithstanding that he may not himself have applied to be transferred from the Effective List. Such transfer will, however, be subject to the approval of the Hon'ble the Court of Directors; and until the receipt of such approval, no promotions will be made in succession to the Officer so placed on the Invalid Establishment.

7. All Officers of and below the Regimental rank of Lieutenant-Colonel, whether they may or may not have served the prescribed period for retirement on full pay, may be compulsorily removed to the Invalid Pension List when they may become wholly unfit for any further service, Effective and Garrison. The examination of Officers in such cases will be conducted in the manner laid down in Para. 6.

8. In the event of an Officer failing, from any cause, whether it be Leave or Sick Certificate in India or otherwise, to join an Invalid Battalion, or other Military duty on which he may be ordered, within two years of his transfer to the Invalid Establishment, except he be absent on Furlough on Sick leave to Europe, or be nominated to some other public duty, he will, at the expiration of that time, be required to appear before the MedicalCommittee at the Head Quarters of the Division in which he may be residing, for the purpose of being examined as to his continued fitness for Garrison Duty. If found unfit at such examination, or at any subsequent examination, which is to be repeated at the end of every two years, he will be transferred to the Invalid Pension List.

9. The Pay and Allowances of Officers hereafter transferred to the Invalid Battalion will be—

	Pay and Indian Allowances.	*House Rent.*	*Total.*
Lieutenant-Colonel	547 14 0	100	647 14 0
Major	410 14 6	80	490 14 6
Captain	249 1 0	50	299 1 0
Lieutenant	145 12 0	30	175 12 0
Ensign	107 1 11	25	132 1 11

Extra batta will in no case be allowed, whether the officer be employed within or beyond 200 miles of the Presidency.

10. Officers on the Invalid Pension List will draw the following consolidated allowance :—

	Per annum.
Lieutenant-Colonel	Rupees 200
Major	" 170
Captain	" 130
Lieutenant and Ensign	" 100

Or the rate of full pay pension to which they are entitled at the time of their transfer to the Invalid Pension List.

11. The above rates will be issued as long as the Officers are resident in India. If granted Furlough or Sick leave out of India, their allowances will be regulated by the Rules they may have adopted, but their Furlough pay will be according to their rank and for the ordinary duration of such Furlough as at present authorized

12. Officers on the Invalid Establishment are allowed the distinction of wearing the Military Uniform.

13. Officers on the Invalid Establishment will retain the rank they held when on the Effective strength of the Army, but their transfer will be made only in the rank they held in their Regiments. After removal to the Invalid Establishment, they have no further claim to promotion, but on retirement on full pay, those who may be of, and above, the rank of Captain will receive one step of Brevet rank.

14. Officers on the Invalid Pension List are permitted to reside at any place in India they may choose.

15. Officers on the Invalid Establishment are eligible to Furlough and Sick leave out of India, under the new, or old Rules, whichever they may have adopted; and leave in India will be granted to officers of the Invalid Battalion under the same Rules as are applicable to Effective officers.

16. Officers of the Invalid Establishment are eligible to hold situations under Government

17. Officers of the Invalid Battalion may retire on the pension of their rank after the prescribed period of service, or on the pension to which they were entitled on their removal to the Invalid Establishment. Officers on the Invalid Pension List may retire upon the rate of pension to which they were entitled when they joined that Establishment.

The above rules are not to be applied to Officers on the present Invalid Establishment of the three Presidencies.

QUEEN'S MILITARY FUND.

Regulations of a General Military Fund, for the benefit of Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820.

Preamble. Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the above named Fund was established in the year 1820, for the purpose of sending home in comfort and respectability, the Families of deceased Officers in her Majesty's Service in India, who may have been left destitute: and of preventing the painful and degrading practice of appealing to the public for subscriptions on such occasions: and also of providing relief in such cases as may require it, until they can be conveniently sent home.

His Excellency General Viscount Gough, G. C. B., Commander-in-Chief in India in the year 1845, with reference to several cases, arising out of the death of Officers on the voyage from India to England leaving their Widows and Children in circumstances of great distress, and with advertence also, to the manifest justice of allowing all Widows and Children of Officers, being subscribers to the Fund, who may die at the Cape of Good Hope, the Mauritius, New South Wales, or Australia, the benefits of the Military Fund,—directed the introduction of Rules 21 and 22, after they had been proposed for the consideration or the whole body of subscribers and carried by a large majority.

It having since been found advisable to make some alterations and additions to the Rules and Regulations, in reference to the state of the Fund and the generally expressed wish of the subscribers, His Excellency General Sir William Gomm, K. C. B., assembled a special Board of Officers at Simla in June 1851, for this purpose, and directed the minute of their Proceedings to be published and circulated for the consideration of the body of subscribers serving in India, who almost unanimously agreed to the alterations proposed.

In the year 1856, a further modification of these Rules became necessary and the alterations, as approved by the body of subscribers in India, with but one or two exceptions, embodied, with the sanction of His Excellency General the Honorable G. Anson, Commander-in-Chief in India, in the original code sanctioned by General Sir W. M. Gomm, in December 1852.—

	A Field Officer (if practicable.)
	1 Captain, or Surgeon, or Pay Master.
	2 Lieutenants, or 1 Lieut. and 1 Quarter Master, 1 Ensign or Assistant Surgeon.

Rule 10th.—As it may often happen that Officers die while the corps they belong to is stationed by itself, or remotely detached, it shall be in the power of every Commanding Officer of a Regiment so situated, to assemble a committee of any five Officers being subscribers to hear and decide upon the case of any Widows and Children so become destitute, and seeking relief from this Fund. Rule 11th.—That such station, Regimental or special committees as the case shall be, having duly examined into the circumstances of the party seeking relief, shall report their opinion on and recommend the amount to be granted whether for passage money or maintenance, strictly in conformity with the Regulations annexed. ceipts and certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

Appeal to all Officers to support the Fund.

Rule 14th.—The object of this Fund being clearly confined to sending Home Families of deceased Officers, and with a view of preventing those painful appeals for assistance to the Public, at once so humiliating to respectable individuals and the Queen's service in India, it is earnestly hoped that all ranks of Staff and Regimental Officers will support it.

Limit of time as to application.

Rules 15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no Widow continuing to reside in this country after the death of her husband, can expect any provision or pension for herself or children from the Fund further than is stated in the 7th clause of the Schedule of awards. It is also declared, that no Widow is entitled to passage money or allowance for travelling, unless she actually proceed to Sea or on her journey in the manner for which any allowance may have been drawn, and should she have received such allowance, she will be required to refund; and further, that no Widow, under any circumstances, shall be entitled to any assistance from this Fund, unless the application shall be made in the usual form within six months after the demise of her husband.

Orphan Children.

Rule 16th.—Orphan Children are eligible for the benefits of this Fund, but awards for them must be specially made by a station or Sub-committee and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

Annual account to be furnished by Secretary.

Rule 17th.—That the Honorary Secretary, acting for the Committee of General Management, shall furnish an Annual Account of the Receipts and Disbursements of this Fund, to the Adjutant General of Her Majesty's Forces in India; and that that Officer be applied to, to circulate the same amongst the subscribers, and the several Officers of Government at the three Presidencies.

Comg. Officers to cause regular Remittances quarterly of Subscriptions.

Rule 18th.—That Commanding Officers of Her Majesty's Regiments be requested to pay particular attention in causing the regular quarterly remittances to be made to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the committee of General Management Army Head Quarters, who is requested from time to time to apprise commanding officers whenever any corps may fail in making such remittances.

Alteration of Rules.

Rule 19th.—That no general Rule or Regulation of this Fund shall be altered, except recommended by the General committee, and approved by a majority of the subscribers.

Officers on leave drawing Indian Pay.

Rule 20th.—In taking the opinion of the Regimental and Staff Officers of Her Majesty's Forces in India, a very general wish was expressed and carried by a majority that *all* Widows of Subscribers should have their passage to England, &c. &c. defrayed. As an Officer ceases to be a subscriber on leaving India, all claims on the Fund must in like manner cease from the same period; but an Officer going to Sea for the benefit of his health, being entitled to his company's allowances will be considered as a subscriber during his absence.

Rule 21st.—That all Widows of Officers, who were subscribers to the Fund, shall be entitled to the amount granted to Widows and Children for passage money to England, if their husbands die on their passage to England, or during their absence on sick certificate, at the Cape of Good Hope, the Mauritius, New South Wales, or Australia.

Special Grants.

Rule 22d.—That no special grants in cases of great distress (not provided for in the Regulations of the Fund) shall be passed by the General committee without the sanction of the majority of subscribers; which sanction is to be declared in the General Abstract of Accounts published annually for the information of subscribers.

COMMITTEE OF MANAGEMENT.

The Rev. H. Taylor, B. C. L.—*Chairman.*

The Deputy Paymaster and Staff Officer Poonamallee.
Staff Surgeon Poonamallee.
The Rev. the Chaplain of Poonamallee.
The Brigade Major Queen's Troops.
The Presidency Paymaster.

Lieut. Col. W. P. Macdonald, *Secretary and Treasurer.*

RULES.

I. This Fund is designated 'Taylor's Fund' to perpetuate the name of its Reverend Founder, and its object is to afford relief to the Widows and legitimate Offspring of European Pensioners.

II. The Capital by which this Fund is to be supported, has been derived from the liberal contributions of the Public, and is invested in Government Securities in the names of three of the Committee.

III. The interest of this capital together with subscriptions, to be applied to the proposed object, and after discharging such claims, all surplus in the hands of the Treasurer, will be half-yearly added to the Capital in even hundreds, together with the entrance donations of subscribers, and all contributions received from private Individuals or other sources.

IV. To entitle a Widow to the benefits of this Fund, her Husband must have paid his entrance Donation, which has been in the first instance fixed at the small amount of Eight Rupees, but will be 12 from the 1st January 1840.

V. The monthly subscription is Eight Annas, to be paid quarterly in advance.

VI. Subscribers, who are 12 months in arrears, will be struck off the Books if their subscriptions are not *immediately* paid up on demand, and any subscriber dying with a half-year's subscriptions due to the Fund, will deprive his Widow of all claim on the Fund ; if the amount due is less than this period, the same will be deducted from the Widow's Pension.

VII. The monthly Pension to a Widow will be 3½ Rupees, and 1 Rupee for each child under or above the age at which they can be admitted into the Government Asylums, when the Pension shall cease, except, however, those cases in which the Guardians or Friends of Children of different persuasions shall wish to educate them at schools attached to their own respective Churches, when, on the Directors being satisfied that the education of the Orphans is being so conducted, the pension shall continue. The maximum payment, however, is never to be in excess of the Widows' Pension, and all such Pensions to cease at the age of 14.

VIII. The Committee will at once remove from the Pension List, any Widow known to be living a life of incontinence, or guilty of other notorious misconduct.

IX. The Children's allowance will be continued in the event of the mother again marrying, but on her death their cases to be specially considered.

X. Marriages considered by the Committee as death-bed marriages, will altogether exclude the Widow from Pension.

XI. To prevent abuse of this Charity, no claims to Pension will be admitted where the husband may have been more than thirty years older than the claimant, and any attempt to deceive the Committee in regard to children, will involve the immediate expulsion of a subscriber or of a Widow on the Fund.

XII. Pensioners married, who do not join this Fund within a period of 12 months from date of transfer to the Pension Establishment, and Pensioners unmarried, who do not join within 6 months from date of marriage, will not be admitted subscribers on this Fund.

XIII. In the event of a pensioner subscriber to the Fund finally leaving India with his family and thus disconnecting himself with the Fund, the whole amount of his payments to the Fund shall be refunded to him. In the event of a Pensioner subscriber to the Fund quitting India leaving his family in the country and *making arrangements for the regular payment of his quarterly subscriptions*, they will be eligible to the benefits of the Institution in the event of his death.

XIV. The Secretary shall keep a Register of Subscribers, their Wives and Children; it is therefore incumbent on subscribers to report their marriages, and the births and deaths of Children in default of which their families will be liable to a forfeiture of benefits, for this Register must be the Committee's guide in regulating claims to Pension.

XV. Should the subscriptions and interest of Capital fall short of the demand for Payment of Pensions, it will be in the power of the Committee to direct a proportionate deduction from Pensions; in like manner should the prosperous state of the Funds justify an increase in Pensions, it shall be competent to the Committee to direct the same to the extent of Rupees 5 in lieu of 3½, with the same limit for Children.

XVI. The affairs of this Fund shall be conducted by a Committee to meet Quarterly, 3 of whom shall be sufficient to act in the name and behalf of the whole, save that no Rule shall be altered until submitted individually for consideration, and be confirmed at the next Quarterly Meeting.

LOAN RULES.

1. Loans are granted to Officers, Civil or Military, who can arrange for the regular payment of their stipulated monthly instalments, on the security of two or more approved sureties.

2. Loans on personal security, not repayable within one year, must be further protected by Life Insurance, with a margin at all times sufficient to cover the balance due, including premium of Insurance, interest up to date of adjustment of Policy in event of elapse, and any other charges.

3. Life insurance effected by or through the Bank, is reduced half-yearly, according to the gradual liquidation of the claims against the debtor, and all policies will be taken out in the Family Endowment Society, the rates of which for short risks are lower than those of any other office in India.

4. Applications for loans must only be for such sums as can be re-paid by monthly instalments within three years.

5. When a debtor dies, the balance (after discharging his own debt in full) of any Policy of Assurance upon his life will, at the discretion of the Directors, be detained as security for the repayment of the balance of any account for which he may be responsible as a security, or of any sum due by him on which the Bank may have a lien or otherwise.

6. The Mortgage of real property in the Hill Stations and larger Military Cantonments, is occasionally taken in place of Life Assurance, provided that the property be officially registered (with power to sell) in the Station Books, as belonged to the Bank, and that the amount advanced thereon be regulated by previous official report as to its convertible value at the time.

7. Regimental loans granted to Corps to facilitate the establishment and maintenance of Messes, Bands, Libraries, and other Regimental purposes.

8. Loans are granted on the security of Government Paper, on the Stock of the Calcutta, Madras, Bombay, and Mofussil Banks, and on the shares of other approved Joint Stock concerns, where the parties borrowing give to the bank a power to sell the notes or shares forming such security, if on one month's notice to close the account, the loan—which will, in the first instance, be for three months and thereafter renewable for a similar term or terms—shall not then be re-paid in full.

9. Parties desirous of taking advances in Calcutta, Bombay, Madras, or Agra, should apply to the Branch Agents of the Bank at those Presidencies respectively.

10. Interest on loans is charged from the date on which the amount, wholly or in part, is placed as a floating balance at the disposal of the borrower, according to notice given, and is allowed at the same rate, upon all remittances from the date of their realization.

11. When loans are not liquidated as agreed upon, a penal interest of two per cent. per annum additional will be chargeable.

12. It is a condition of every loan that the party borrowing shall be subject to the general rules of the Bank, in respect of such transactions.

13. Constituents of the service, when writing to the Bank, are requested to add their rank or official designation, to obviate the delay of reference, and with the same view applicants for loans are also requested, in naming their sureties, to furnish a similar detail regarding them.

14. All loan accounts with the Bank are brought up periodically to the 30th of June and 31st of December, and interest thereon is debited or credited to those dates half-yearly.

15. When parties already indebted to the Bank require further accommodation the balance due on the former account will be deducted from the new loan, as a general rule, two accounts, with different sureties and different terms of payment cannot be kept open at the same time.

16. The Directors give a preference to applications for loans repayable within a short date.

17. The Bank renders accounts, once every half year, as above.

18. On each loan Account a charge of one Rupee eight Annas is made to cover the expense of Loan Documents. No letters *bearing postage*, will be received by the Bank, except from Pay Masters, Deputy Pay Masters, or other public authorities, or from places where no postage can be levied.

RULES.

Financial Department, Fort St. George, April 4, 1834.

The Right Honorable the Governor in Council directs that the following Rules of a Savings' Bank, established in Madras under the guarantee and responsibility of Government, be published for General information.

1st. The Bank to be denominated the "Government Savings' Bank."

All classes, British and Native, may invest their savings in the Government Savings' Bank.

3d. The return of the exact sum deposited, together with the interest due thereon at the undermentioned rate, is secured to the Depositor under guarantee of the Government.

4th. The general direction and control of the Bank shall be vested in a Committee of Management, to be nominated by the Governor in Council. The Committee shall meet at such stated periods as may be necessary for the due and efficient control of the proceedings of the Bank.

5th. The Government Agents are charged with the immediate superintendence and execution of all details connected with the Bank. They will be also ex-officio Members of the Committee of Management. The Sub-Treasurer, as one of the Government Agents, will be ex-officio Secretary to the Bank.

6th. A Register of Deposits will be kept, and generally such other accounts as may be determined on and approved of by the Managing Committee.

7th. Any sum not less than one Rupee will be received in deposit.

8th. Whenever any sum deposited by one individual shall amount to 1,500 *Company's* Rupees, the same will be transferred from the Bank deposit in the General Treasury, and subscribed on account to the Depositor to such Bengal Government Loan as may be open, until further notice, unless an intimation of its withdrawal, or the withdrawal of a portion of it, be given by the Depositor within one month after it has reached that amount; and all Government Securities shall be handed over to the Government Agency at the expiration of three months (subject to all the Rules which obtain in that Department) unless counter instructions be immediately received from the Proprietors.

9th. Interest at 4 per cent per annum will be allowed on deposits until further notice.

10th. The interest will be calculated on a deposit from the first day of the month succeeding that in which it shall be received, and up to the last day of the month preceding that in which it shall be withdrawn. No interest will be allowed for broken periods of a month, nor calculated on fractional parts of a Rupee.

11th. The Government reserves to itself the power of lowering or raising the rate of interest, such alteration not to affect deposits above 500 *Company's* Rupees previously invested in Public Securities, and due notice to be given in the Fort St. George Gazette, of the intention of Government six months before the alteration shall take effect.

12th. All deposits will be regularly entered in a book at the time they are made, and the Depositor of the deposit made at the Presidency will be furnished with a small book having a duplicate of the entry. This book is to be brought to the Bank whenever any sum is deposited or withdrawn. The account thus kept will be closed on the 30th April of every year, and the interest accumulated due at that period will be paid to the Depositor, or carried to account, to go forward to accumulate at compound yearly interest, until it shall amount to 1,500 *Company's* Rupees, when the same will be transferred from the account of the Bank, and subscribed on account of the Depositor to the Bengal Government Loan, as per Rule VIII, unless notice of withdrawal be given within one month as above, or unless the rate of interest be altered as provided for in Rule XI.

13th. *No person or persons to deposit money for the benefit of any other person or persons, except Parents on behalf of, and on account of their children being minors. If such deposits are made in the children's names, they cannot be withdrawn without an authority from the children—no trust will be allowed to appear on any deposit. Provided, however, that this Rule shall not be construed to prohibit Individuals resident out of Madras, or females, who, according to the manners and customs of the country, do not usually make their appearance in public, from making their deposits in their own names, by the hands of other persons as Agents on their behalf.*

14th. No sum deposited to be transferable, excepting on the personal application of the Depositor, supported by written sanction. When peculiar circumstances render a deviation from this rule necessary, the case shall be submitted to the Committee of Management for their sanction.

15th. No person will be allowed to deposit any money without making known his or her name, together with his or her profession, business, occupation, calling, and residence. A duplicate of this description will be entered in each Depositor's book, to be produced whenever any sum is afterwards deposited or withdrawn.

16th. Depositors will be at liberty at any time to withdraw any sums or portions of sums deposited by them, receiving interest calculated up to the end of the month preceding that in which the withdrawal is made: but no person will be permitted to deposit or withdraw money more than once during the month. An exception will, however, be allowed in cases in which good and sufficient reasons may be assigned.

17th. As a general rule, deposits, with the interest due thereon, will be repaid to the Depositors personally in all practicable cases. In the cases of individuals unable to attend in person, the Secretary will exercise his discretion in regard to repayments of deposits to responsible persons duly authorized by such absentees to receive the same.

18th. Military Officers and Soldiers, European and Native, will be allowed to invest their savings in the Government Savings' Bank, through the Paymasters of Corps or Divisions; and Officers and servants of the Civil Establishments, European and Native, through the Residents, Collectors, and other Officers in charge of Public Treasuries, or who are competent to sign Pay Abstracts of Civil Establishments; and Residents, Collectors, Paymasters, and other Officers in charge of Public Treasuries, are hereby authorized to receive subscriptions to the Bank, or to deduct monthly from their abstracts such sums as the parties within their circle of payment may be desirous of depositing, not being less than one Rupee, per mensem than 1,500 *Company's* Rupees.

19th. The deposits referred to in the preceding rule are to be brought to the credit of Subscribers on the last day of the month in which the payment or deduction is made. The Rules XVI and XVII, respecting the withdrawal of deposits by parties subscribing through Residents, Collectors, Paymasters and other Officers in charge of Public Treasuries, will be carried into effect under instructions which will be furnished to them by the Accountant General.*

20th. In case of the death of a Depositor, the sum at his credit will be paid to his or her Executors or Assigns; or in case of no will, according to the law on this head, or the Regulations of the Service if the deceased be Military.

21st. In case of any difference between the Secretary of the Bank and any Depositor, it shall be referred for the decision of the Committee of Management.

22d. A general statement of the Funds of the Bank shall be annually made out to the 30th April after the 1st May. The same to be submitted for the information of Government, and published in the *Fort St. George Gazette*.

23d. The Bank to be open on Tuesdays and Fridays, and all balances above 500 Rupees to be paid over at the close of each day's proceedings by the Secretary into the General Treasury, where an account with the Bank will be opened and kept.

The Government Savings' Bank will commence business on the 1st proximo.

Agents and Secretaries.....Messrs. Parry and Co.

Solicitors.....Messrs. Wilkins and Shaw.

Advantages offered by the Albion.

I. FOUR FIFTHS, or 80 per cent of the entire Profits arising from all Policies issued upon the Participating Scale of Premium, will be apportioned triennially among the holders of such Policies, either in

Augmentation of the sum insured, or in

Reduction of the future Annual Premium.

II. LOW PREMIUMS, compared with those usually charged for Insuring the Lives of Europeans, resident in India. Thus at the age of 20, the lowest Military Premium usually charged for an Insurance of 10,000 Rupees, would insure from 10,500 to 11,250 Rupees in the Albion, thereby securing to the Policy-holder an immediate Bonus of from 500 to 1,250 Rupees, or an immediate and permanent reduction of Premium, varying from 4½ to 11 per cent.

III. PERFECT SECURITY, arising from a large Capital, totally independent of the Premium Fund, and the accumulated profits of nearly half a century. In all Societies for Mutual Insurance, the Premium Fund constitutes the only Capital, and the Members are mutually liable for any deficiency that may at any time be found to exist in the assets of the Association.

IV. No charge in addition to the Premium, either for Medical Fees, Entrance Money or otherwise.

AGENTS AND SECRETARIES.

Messrs. Parry and Co.

The attention of the Assuring classes in India is invited to an entirely new set of Tables, constructed for the especial use of the Church of England Company. The rates are quite as low as the average rates of the cheapest offices in India. They have, in fact, been reduced to the fullest extent compatible with the stability of the Institution, and the security of its Policy-holders.

The distinguished success which attended the establishment of the CHURCH OF ENGLAND ASSURANCE COMPANY in England, Scotland and Ireland, induced the Directors several years ago, to open Branch Offices of the Company, at Calcutta and Madras, with a view of extending the peculiar advantages of this establishment to Europeans residing in all parts of India. They felt satisfied that these advantages would be duly appreciated by the Anglo-Indian public, and that the same decided success would attend the Company's establishment in the East, and the same powerful support be given to it by the Clergy and Laity in the three Presidencies of India, as had already marked its progress in all parts of the United Kingdom in Europe.

These anticipated prospects of success the Directors have the gratification of being enabled to state have been fully realised.

The high credit enjoyed by the Company in Europe, and the connection of many of its Directors with men of eminence and influence in India, have enabled the Company to proceed in a continued career of prosperity such as to satisfy the most sanguine expectations of all persons interested in its welfare.

In every institution of this kind the two main objects of Policy-holders are SECURITY and ECONOMY.

The highest attainable economy has been afforded to Policy-holders by means of an entirely new set of Tables computed for the especial use of the Indian Branches of this Institution. No labour or expense has been spared in the construction of these Tables; and the Directors have much gratification in directing attention to them, being confident that they will meet the views, and satisfy the expectations of the Assuring classes in India.

The security of Policy holders in India is made complete by the responsibility of the whole body of Proprietors, both in England and in India, to the extent of the subscribed capital; whilst for their immediate protection and advantage, an adequate fund has been invested in Indian Securities, so as to be always immediately available, to provide for whatever casualties may arise. The premiums may be paid either annually, half-yearly, or quarterly; and Policies, which have become forfeited by non-payment of the Premiums, may be revived within 12 months, upon proof of the same state of health, and the payment of the premiums in arrear, with interest thereon, but without the exaction of any fine. The age will be admitted in all cases where satisfactory evidence is furnished in regard to it, previously to the Assurance being completed.

After the arrival in England, Assurers will, if in approved health, be permitted during the remainder of their abode there, to pay their Renewal Premiums according to the reduced scale of Great Britain.

Policies effected by parties on their own lives, and assigned as a *bonâ fide* security to others, will not be rendered void in the event of death by suicide, duelling or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The necessary Forms of Proposal, and every requisite information as to the mode of effecting Assurances may be obtained either by Letter or personal application, to

These have been framed with much care, with the view of making the Company's Policies available securities of the most perfect kind, with as much freedom to the Policy-holder as may safely be granted. The Directors invite particular attention to them.

ACE AND INTEREST admitted on the Company Policies in all cases where proof is given satisfactory to the Directors.

THIRTY DAYS OF GRACE allowed for payment of Premiums, and in the event of death taking place during the currency of these days, before payment of the Premium, the risk binding on the Company, if payment be made before the days of grace expire.

ASSURANCES FORFEITED may be revived within three months of the date at which the Premium became due, on proof of health satisfactory to the Directors, and payment of a fine of ten per cent on the Premium in arrear.

MILITARY MEN holding appointments of a civil character, not requiring military service, charged the rate applicable to the Civilians.

PERSONS ASSURED THROUGH THE INDIAN BRANCHES of the Company have permission to reside in any part of world, so long as they continue to pay the original rate of Premium stipulated in their Policies.

PERSONS ASSURED FOR THE WHOLE TERM OF LIFE returning to Europe or other climate considered equally healthy by the Directors, pay the reduced Premium applicable to Europe, according to the Company's published Rates (Table No. II), commencing with the first Annual Premium due, after their arrival within such limits has been duly reported.

PERSONS ASSURED paying a reduced rate of Premium for residence in Europe or elsewhere, desirous of returning to India, require to make application to the Directors for permission to do so, paying the original rate of Premium required in terms of their Policy. If desirous to proceed to any other part of the world instead of returning to India, the terms will be specially arranged.

NO EXPENSES in connexion with obtaining Policies; and all Medical Fees paid by the Company.

The local Boards in India are empowered to accept Proposals and issue Policies; and every facility is afforded for the despatch of business

REGULATIONS OF THE MADRAS EQUITABLE ASSURANCE SOCIETY.

Art. 1.—The object of this Association is to provide a Fund for the Assurance of Lives to which an individual may subscribe to a certain extent, either on his or her own life or on the life of any other person. In the former case, the General Estate of the deceased shall benefit in the event of a lapse—in the latter, the person who may have subscribed on the life of the deceased shall benefit to the extent of the amount subscribed for, unless in either case such amount be especially declared at the time of subscription to be for the benefit of any other person or persons or be subsequently made over according to the form hereafter prescribed for the benefit of any other person or persons, in which case such person or persons shall be entitled to benefit in the event of a lapse and no other.

Art. 2.—In the case of a person subscribing on the life of another, the Party subscribing, and not the Party on whose life the subscription is made, shall be considered a Member of the Society and have a voice in the management of its concerns. Co-partners or other bodies of individuals may hold Assurance jointly on any given Life, but in such case the Parties uniting in the subscriptions shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by deputation of one of their number on all matters thereto relating.

Art. 3.—No smaller sum than five hundred, nor larger than Thirty Thousand Company's Rupees can be subscribed for on one life.

Art. 12. The Medical Officer of the Society shall be appointed from time to time by the Directors and shall receive an annual salary for his services of one thousand Rupees payable half yearly in arrears at the making up of the accounts of the Society.

Art. 13. All applications for admission accompanied by the above prescribed forms of Certificate and Affidavit which may be transmitted to the Secretaries, shall be submitted by them to the Directors for their decision, and the Directors shall in all instances be at full liberty to reject any such applications without assigning any reason to the applicant for so doing.

Art. 14. In all cases, it shall rest with the Directors to judge whether with reference to the circumstances of situation and distance, the interval which may have elapsed between the date of Certificate and Affidavit of Health, and the time of their presentment, be reasonable or otherwise and to admit or reject such Certificate and Affidavit accordingly. In no case, however, is the party subscribing to have any claim on the Funds of the Society in the event of the life lapsing between the date of the certificate, and the date on which the applicant may be admitted a Member, unless where the Directors may at the instance of such applicant, have originally permitted the subscription to take effect from the date of the Certificate and Affidavit of Health, which it shall at all times be in their discretion to do, on the arrears of subscription being paid up. In the event, however, of a person dying between the dates of the certificate and Affidavit of Health, and his admission, and the assurance of his life was not effected from the date of the Certificate and Affidavit, the amount of premium paid for such assurance shall be returned.

Art. 15. No subscription on any life shall be considered as entitling the party or parties concerned to benefit by the Society until the life subscribed on shall have been approved of by the Directors, the amount of the first subscription, and premium of admission paid, and a certificate of admission granted under the signature of the Secretaries and any three of the Directors agreeable to the form annexed to these regulations—and if any applicant shall omit to pay the amount of subscription and premium of admission within two months after the life subscribed or shall have been approved of by the Directors, such applicant shall forfeit his claim to be admitted except on a fresh application, accompanied by a new Certificate and Affidavit of Health.

Art. 16. All subscriptions except the first (which is to be paid on admission,) shall be paid within one month of the time at which they become due.—If not paid within that time, the policy shall be void, but upon proof being given to the satisfaction of the Directors that the party whose life has been assured continues in good health, the policy may be revived by payment of the premium due together with a penalty of two per cent on the amount thereof to any

period within three months of the date at which the policy may have so become void. If a party assured shall die within the one month mentioned in this Article and the premium is tendered after death, but within such month, the premium shall be accepted, and the policy held to be in force, unless an intention to drop the policy shall have been intimated to the Secretaries by the holder, previously to the premium being so tendered.

Art. 17. No subsequent increase of Assurance on any life shall be allowed except on a fresh application to be again approved of by the Directors, and accompanied by a Certificate and Affidavit as above. The Subscription on the additional Assurance to be according to the age of the party at the time of making the new application.

Art. 18. A Member desiring to transfer his interest in any Assurance which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original Certificate, which endorsement however shall not be valid until the Certificate, bearing the same shall have been produced to the Secretaries, and the transfer duly registered by them in a General Book of Registry to be kept in the office of the Society.

Art. 19. As often as a sum exceeding Rupees One Thousand shall be collected, it shall be laid out in the purchase of Government Paper. All public Securities purchased for the Society shall be especially endorsed to three or more of the Directors, and the interest only shall be made payable to the Secretaries and Treasurers.

Art. 20. A statement of the Society's accounts shall be prepared on the 30th June and 31st December in each year for the purpose of ascertaining the then state of the Funds, when, after a reservation for the Premium Fund to the extent of 1 per cent on the amount of outstanding risks, any surplus which may remain shall be held to be the individual property of the Policy holders in the ratio of the amount of Premium respectively paid, and the said surplus shall either be paid to them or applied in reduction of Premium subject to retention to individual credit to the extent of 10 per cent on each individual's risk, which shall be carried to a Fund denominated the *Guarantee Fund*, and should the surplus of any individual at the close of the term, not amount to 10 per cent on his individual risk, his future surplus shall be added thereto until it does so.

Art. 21. The person or persons entitled to benefit by the lapse of a life in the Society shall, on making application to the Secretaries in writing accompanied by such proof of the casualty as shall be satisfactory to the Directors, immediately receive the amount Assured, together with the amount at credit of the lapsed life in the Guarantee Fund, the whole however subject to arrears of subscription or to any other sum due to the Society, and in the event of any Premia having been paid on such lapsed life beyond the Premia due thereon no such Premia shall be returned except such as may have been paid for the current half-year and not included in the division of the funds of the Society.

Art. 22. All lapses shall be paid out of the Premium Fund until exhausted, in which event but not otherwise, the Guarantee Fund shall be available to make good all payments for which the Society is responsible, and in the event of the Guarantee Fund being thus trenched upon, the amount withdrawn shall be made good at the commencement of the succeeding half-year out of the current Premia, so that every surviving subscriber at the time of the repayment to the Guarantee Fund shall have his full amount made up to him as it stood at the time the Fund was drawn upon; and in case of lapse after the Guarantee Fund, shall have been so trenched upon, and before the payment of the next half-year's Premia, the full amount to the credit of the lapsed shall be paid, notwithstanding the temporary reduction in the total amount of the Guarantee Fund.

Art. 23. In the event of a party being desirous to withdraw from the Society, the amount to his credit in the guarantee Fund shall be paid to him subject to a fine of 25 per cent to be carried to the Premium Fund. and a proportionate payment shall be made in the event of the party reducing the amount

of his Assurance, provided that in such case no payment shall be made unless the amount at his credit shall equal 10 per cent on his reduced risk.

Art. 24. Any mis-statement in the Affidavit of Health makes the Policy void, as does suicide in cases when a person effects an Assurance on his own life, but not so in the case of creditors effecting an Assurance on the lives of their Debtors.

Rs. 1,800 annually, less than in other offices, some of which require Co.'s Rs. 2,400 Rs. 50,000 for Co.'s Rs. 2,950 annually, while some other Offices charge Co.'s Rs in the MEDICAL, INVALID, and GENERAL.

RETURNED TO THE ASSURED.

ABSTRACT OF INDIAN PROSPECTUS.

SECURITY.

A capital of half a million sterling, fully subscribed by an influential body of Proprietors, in 10,000 shares of £50 each.

DATA.

Mr. Neison, the Resident Actuary of this Company, in order to prepare a report on the Bengal Military Fund, was, by a resolution of the Hon'ble Court, of date September 1847, permitted to examine the records of the India House for the period from 1760 to 1847. Two years elapsed before his investigation was completed, and the result fully established the following facts :—(1) That the said records afford the only satisfactory data whence to calculate the Premiums for Assurance of the Lives of Europeans in India. (2) That the climate of this country is by no means so fatal in its effects to Europeans as has been hitherto supposed. (3) That the rates of Premium, which have been for many years, and are now charged by some Life Offices in this country, are exorbitant.

The Directors solicit the attention of the Public to the fact, that this is the only Company whose rates are deduced from the records of the India House.

PREMIUMS.

These are generally lower than the rates of any other Company, as will appear from a reference to the subjoined Tabular view of the Annual Premiums for Assurance of Co.'s Rs. 1,000 at death, with profits, in each of the Life Offices in India.

PROFITS.

Are ascertained at regular intervals of five years, and an entire two-thirds divided amongst Policy-Holders on the participating scale. At the Twelfth Annual General Meeting of the Society, held in the Office in London, on 24th November 1853, the first Bonus on Indian Policies arising out of the Profits up to 30th June 1853, was declared, and nearly 2 per cent per annum was added to the amount assured by Policies effected on the participating scale. Notwithstanding the very moderate Premiums of this Company, ample additions have been made to the mathematical rates for India to cover contingencies and charges of management, and it is confidently hoped that even larger profits than as above will be returned to the Assured at this Branch.

THE GENERAL ADVANTAGES,

Not already noticed, afforded by this Society, may be briefly enumerated as follows :

Policies issued for any amount from Rs. 500 to 80,000.

Policies held by parties on their own lives indisputable on any ground whatever, except fraud or non-payment of the premiums, but subject to forfeiture during the period of twelve months from their date, in the event of the life assured dying by his own hands, or by duelling, or by the hands of justice.

Assignment of Policies recorded without charge, and from the date of such recording, the assurance not subject to forfeiture *on any ground whatever*, except fraud or non-payment of the due premiums.

Age and interest admitted on the Policies in all cases where satisfactory proof is given.

Assurances may be revived within three months of the date on which the premium became due, on satisfactory proof of health and payment of moderate fine.

Policies on which five annual premiums have been paid, purchased at a fair value.

Two-thirds of the estimated value will be advanced on the security of policies on which, at least, five years' premiums have been paid.

Civil rates charged on the lives of Military officers holding Civil appointments, for the term of such appointments. But Engineers on road or rail are charged Military Rates.

Immediate reduction to English rates on the Assured proceeding to Europe or any other part of the world which the Directors may consider equally healthy, there permanently to reside ; and if such residence be temporary only, the said reduction to take effect after one year's residence.

The whole of the funds of the Indian Branch invested in Government, Real, and Indian Securities.

Claims paid three months after proof of death, or discounted immediately after such proof, if preferred.

Policies may, at the time of being effected, be made payable in London at the rate of Two Shillings sterling per Company's Rupee.

In addition to the advantages already mentioned the following is a summary of what are more particularly the

ADVANTAGES TO THE EUROPEAN RESIDENTS IN INDIA.

Notwithstanding the material modifications which have been made in the terms of other offices since this Society commenced operations in India, the rates of premium will be found generally lower than those of any other Company, and especially favorable for Military men.

There is no charge for Entry-Money, Policy or Medical Fees, nor any expense whatever beyond the Premium, in obtaining Policies.

Premiums may be paid in one sum, or by yearly, half-yearly, quarterly, or monthly payments.

Fifteen days of grace allowed for payment of Premiums, and in the event of death taking place during the currency of these days, the risk binding on the Company, if payment of the Premium be made before the days of grace expire.

In all cases this Company pay the Medical Examiner 10 Rupees for his report.

Persons assured with the Society through the Indian branch, have permission to proceed to and reside in any part of the world, except the West Coast of Africa, without prejudice to the assurance, so long as they continue to pay the original rate of Premium applicable to India, stipulated in their Policies.

This Society transacts generally every description of business involved in the contingencies of European life in India. Rates of Premium for all kinds of Assurance, may be ascertained from either of the Secretaries.

Full particulars as to the Constitution, Conditions, and rates of the Company, together with Forms and Instructions to parties wishing to effect Assurances, will be forwarded free to any part of India, on application being made to either of the Secretaries or to any of the Agents of the Society.

Receipts for Premiums are not considered binding on the Company, unless signed by two Directors.

Secretary in Madras.

FAMILY ENDOWMENT LIFE ASSURANCE AND ANNUITY SOCIETY.

(No. 12, Chatham Place, Blackfriars, London.)

CAPITAL, £500,000—ESTABLISHED BY ACT OF PARLIAMENT,

19TH MAY 1836.

Agents in Madras.....Messrs. Binny and Co.

Deferred Annuities and Endowments for India.

GENERAL RULES.

All Premiums must be paid in advance—every facility will be given for their regular payment or remittance ; but 12 per cent interest will be charged on all arrears, and the contract forfeited after six months' non-payment of Premium.

The first half-yearly payment of Annuities will be made, if claimed in India, six months, and if in London, 12 months after the expiration of the period of deferment, and parties, whose Annuities have commenced in India, will on their return to England have to comply with the English period of payment, which is, as above, six months later.

An officer proceeding on furlough and having subscribed for a Deferred Annuity, may at his option, continue his payments during furlough, the Annuity becoming payable at the same terms as if he had remained in India, or he may discontinue his subscription during the period of furlough, in which case the period of deferment will be extended for an equal time, or *lastly*, he may surrender his contract to the Society, who will be prepared to purchase it at a fair valuation.

The Annuities will be paid in London at the Exchange of 2s. per Rupee.

For the present the Directors have limited the Annuities on any one life to 3,000 Rupees, and the endowments to 30,000 Rupees.

Forms of Proposal and full information may be obtained at the offices of the Society in London, and of the Secretaries and Agents in India.

Life Assurance.

The advantages of this Society are as follows :

A lower and more economical scale of premiums for Life Assurance than hitherto demanded by the established offices in India.

The Tables of Premium have been accurately prepared, after reference to all the various and best reports and statistical documents recently available, and particularly, that last prepared by Mr. Griffith Davis in 1844, based on Dodwell and Miles' Army Lists, and the investigations of Mr. Woolhouse, Actuary of the National Loan Fund Life Assurance Society.

To the actual or mathematical risk thus deduced, an ample per centage has been added to the scale of Premiums for the safety of the Society and the benefit of the Assured ; and it will be found by reference to the subjoined Tables that, notwithstanding a considerable per centage thus added, the rates of Premium will be cheaper at all ages to the holders of Policies than those hitherto offered to the public in India.

The whole of the Funds of this Society in India at present are invested in Government Paper. The Directors are limited to such investment, and to loans on security of Government Paper or Bank of Bengal shares only.

All holders of Policies in India on the profit scale, who may have paid five Annual Premiums will be entitled at the expiration of the fifth year *to a year's profit*, calculated on the average of the preceding five years, such profit to be

paid in cash, or to go in diminution of the future Premiums payable, or to be added to the sum assured by the Policy at the option of the Holder, after the calculation of the profits shall have been made in London.

After the expiration of 1851, the profits will be declared annually, and the payers of five complete Annual Premiums, be regularly entitled to a participation therein with a like option as to the mode of application.

Parties assured in India for life shall, on their return to England for a *permanency*, and on the first half yearly Premium becoming due, be entitled to come upon the English rates of Premium, and be placed under the rules and conditions of the Society there obtaining.

All parties assured for life or for terms other than for life, whatever the number of payments or the permanency or otherwise of their residence in Europe, shall after completing a full year from the date of quitting India, and on the first half-yearly Premium thereafter becoming due, be entitled to a reduction of their Premium to the English rates, and reduced rates being continued during their further residence in Europe.

Parties in the Military Service holding Civil Offices, and thus subject to no greater risk, thus members of the Civil Service, will be charged at the rate of Premium of a civil life, but on return to their military duties the higher rate will be charged—due notice of such return must be given to the Secretaries.

Premiums are payable half-yearly in advance, but arrangements may be made with the Secretaries for the payment of the Premiums annually or for a given number of years.

Assurance will be computed from the date of the Certificates, but no Assurance to be binding on the Society, until the first *six month's* premium shall have been actually paid to the Secretaries.

Policies becoming claims upon the Society will be paid three months after satisfactory proof of the death of the party assured shall have been received at the Society's Office.

Policies granted by the Indian Branch, will be paid in India or London, at the option of the Holder, at the exchange of two Shillings per Company's rupee provided notice shall have been given to the Secretaries, at least *three months* previous to a lapse occurring, of the place at which it is desired the payment may be made. If no notice shall have been given, the payment will be made at the place at which the last Premium previous to lapse may have been paid.

All payments or receipts on accounts of the Society of Sterling money in India, or of Rupees in England, will be made also at the fixed rate of two Shillings per Company's Rupee.

In cases of lives of more than ordinary hazard, an increased rate of Premium will be charged proportionate to the risk ; such increased rate will be regulated by the strictest attention to justice between the Society and the Assured.

All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees.

Notice of Assignments of Policies will be duly registered at the office of the Agents.

Applications for Assurance to be made to the Secretaries, Messrs. GORDON, STUART and Co., who are prepared to grant Policies, to the extent of 30,000 Rupees on any life ; approved of by the Directors, and who will afford information regarding the business generally, and rules of the Society in London, as relates to Assurance on Lives or survivorships, the purchase and sale of Annuities and reversionary Interests, the granting Endowment on existing children and other ordinary business of the Family Endowment Society.

COINAGE-BRITISH INDIAN.

Under the proclamation of the Governor General in Council, dated 11th November 1840, the coins now issued from the Company's Mints are:—

1st. The Rupee, to have on the obverse, the head of Her Majesty Victoria, with the words, Victoria Queen. On the reverse, the denomination of the coin in English and Persian in the centre, encircled by a wreath, and around the margin the words, East India Company. The coin to be milled on the edge with a serrated or upright milling. Weight—180 grains Troy, or one tola standard quality—eleven twelfths silver, one twelfth alloy. Value—the same as the Company's rupee of 1835, the Madras, Bombay, Furruckabad, and Surat rupee, are equal to fifteen sixteenths of the late Sicca Rupee.

2. Half and quarter rupees, and two anna pieces, to bear in all respects a due proportion to the rupee.

☞ Money changers, shroffs, and others, are required to take notice of the Provision in Act No. XVII of 1835, against clipping, filing, punching, or otherwise defacing the legal coin. The silver coins issued from the Mints of Government, under Act XVII of 1835, if not cut, clipped, marked, or otherwise wilfully impaired, are legal tender for their full value, until by gradual wear, they have lost two per cent of their original weight.

The above are the only legal coins, now in circulation through the whole of the Company's territories, besides the copper coin, namely, the half anna copper coin, weighing 200 grains: the quarter anna weighing 100 grains, and the one pie, weighing 33 and 1-3d grains.

Silver is the legal currency of the country. Gold was also a legal tender at 15 rupees to a Gold Mohur: but by an order of the Government of India dated 22d December 1852, gold coins were forbidden to be received in the Government Treasuries. Copper coins are only a legal tender the extent of one rupee.

The following table exhibits the scheme of the British India monetary system:

Bank Notes of the bank of Madras for Company's Rupees, in even sums to any amount, not less than 10 Rupees are in circulation, and may be received at the Government Treasuries in payment of Revenue.

ACT NO. XXV OF 1856

FOR THE ASSESSMENT AND COLLECTION OF MUNICIPAL RATES AND TAXES.

LEGISLATIVE COUNCIL.

The 20th December 1856.

THE following Act, passed by the Legislative Council, received the assent of the Right Honorable the Governor General on the 19th December 1856, and is hereby promulgated for general information :—

ACT No. XXV OF 1856.

An Act to comprise in one Act the provisions necessary for the assessment and collection of Municipal rates and taxes in the Towns of Calcutta, Madras, and Bombay, and the several stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca.

WHEREAS it is expedient to comprise in one Act the provisions necessary for the assessment and collection of certain rates and taxes to be imposed by special Acts for the Towns of Calcutta, Madras, and Bombay, and the Settlement of Prince of Wales' Island, Singapore, and Malacca, for raising funds for Municipal purposes, it is enacted as follows :—

Preamble.

I. The provisions of this Act, save so far as they may be expressly varied or excepted by the special Act for any of the said Towns or for the said Settlement, shall apply to the assessment and collection of the rates and taxes imposed by such special Act, and to the Commissioners appointed thereby for the conservancy and improvement of such Town or of any station of the said Settlement ; and such special Act, and such provisions of this Act as shall not be expressly varied or excepted by the special Act, shall be construed together as forming one Act.

Application of Act.

II. The Commissioners may from time to time appoint such officers as they shall think necessary and proper to assist in the execution of this and the special Act, and may from time to time remove any of such officers, and appoint others in their places, and may, with the sanction of the local Government, pay such salaries and allowance to the said officers respectively as the Commissioners shall think reasonable. Provided that no person shall be appointed to or removed from any office, the monthly salary of which exceeds two hundred Rupees, without the sanction of the local Government.

Appointment of officers.

III. The rate or rates imposed upon houses, buildings, and lands according to the annual value thereof, in any of the said Towns or in the said Settlement, by the special Act, shall be assessed in the manner hereinafter provided.

Assessment upon annual value of property.

IV. The estimated gross annual rent at which the houses, buildings, and lands liable to the rate might reasonably be expected to let from year to year shall, for the purposes of the rate, be held and deemed to be the annual value of such houses, buildings, and lands. The value of a house or building so estimated shall not include the value of any machinery contained therein.

Annual value how to be ascertained.

V. For the purpose of such assessment as aforesaid, the Commissioners shall from year to year cause a valuation to be made of all houses, buildings, and lands liable to the rate. Such valuation, estimated as is hereinbefore provided, shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written in distinct columns the name of the owner of the property ; or, if the occupier, and not the owner, is the person liable to pay the rate, the name of the occupier ; a designation of the property either by name or number sufficient to identify the same, together with the name of the street or district in which such property is situate, and the amount of the rate assessed thereon.

Valuation to be made and entered in a book.

VI. When the name of the owner or occupier is not known, it shall be sufficient to designate him in the said book, and also in any notice or other proceeding under this Act, as "the owner" or "the occupier" of the property on which the rate is assessed without further description.

Description of owner or occupier if name unknown.

VII. In order to enable the Commissioners to arrive at a fair valuation of any houses, buildings, or lands liable to the rate, it shall be lawful for the Commissioners to require the owner or occupier of such houses, buildings, or lands to furnish them with returns of the rent or annual value thereof; and for the like purpose, it shall be lawful for the Commissioners, or any person or persons appointed by them for that purpose, at any time to enter and inspect such houses, buildings, or lands after having given forty-eight hours previous notice of such their intention to the occupier thereof; and whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required so to do, or knowingly makes a false or incorrect return; and whoever hinders, obstructs, or prevents, any one of the Commissioners or any person appointed by them as aforesaid from entering or inspecting any such houses, buildings, or lands, shall be liable, on conviction before a Magistrate, to a penalty not exceeding two hundred Rupees.

Returns may be required for purpose of valuation.

Power to enter houses, &c.

VIII. When the valuation has been completed, the Commissioners shall give public notice thereof, and of the place where the said book containing the valuation and the rate assessed, or a copy of the said book, may be inspected, in the *Government Gazette* (if any), and by advertisement in some newspaper circulating within the Town or station, and also by placards posted up in conspicuous places throughout the same; and the person in whose custody such book may be shall permit every person claiming to be the owner or occupier of property included in the assessment, or the agent of such owner or occupier, to inspect the book and to make extracts therefrom without payment of any fee; and any such person who wilfully neglects or refuses to permit the same, shall be liable, on conviction before a Magistrate, to a penalty of fifty Rupees.

Public notice of valuation to be given.

IX. The Commissioners shall, at the time and in the manner in the preceding Section mentioned, give public notice of a day, not being less than fifteen days from the publication of such notice, when they will proceed to revise the said valuation and assessment; and in all cases in which any property is for the first time assessed, or in which the valuation of any property previously assessed is increased, shall give special notice thereof to the owners or occupiers of such property. All complaints against such valuation and assessment shall be made on or before the day fixed in the notice; and all complaints so made shall be enquired into by the Commissioners, and such amendments shall thereupon be made in the said book as to the Commissioners shall appear just and proper.

Notice of time of revising assessment.

X. After the complaints have been enquired into, and after the revision of the valuation and assessment has been completed, the amendments made in the said book shall be authenticated by the signatures of two of the Commissioners, who shall at the same time certify under their signatures that no valid objection has been made to the valuation and assessment in the said book entered, except in the cases in which amendments have been made as shown therein; and thereupon, and subject to such alterations and amendments as may thereafter be duly made, the rate so assessed shall be deemed to be the rate for the whole year in and for which the assessment is made, and such year shall commence on the 1st day of January.

After revision assessment book to be signed.

Rate assessed to be deemed the rate for the whole year.

XI. Provided always, that the Commissioners, upon the representation of parties or other information, may at any time amend the said book by inserting therein the name of any person whose name ought to be so inserted, or any property not liable to the rate; or by striking out the name of any person or any property not liable to the rate, or by reducing the amount of the rate; and in all cases in which any property is inserted as liable to the rate, the amendment shall be considered to have been made at the time when the person interested first received notice thereof.

Alteration or amendment of assessment.

XII. It shall not be necessary to prepare a new book every year, but the Commissioners may adopt the valuation and assessment contained in the book for the preceding year, with such alterations as may, in particular cases, be deemed necessary.

New assessment book need not be prepared yearly.

as the valuation and assessment for the year following. Provided always, that public notice of such valuation and assessment shall be given in the manner prescribed in Section VIII of this Act; and the provisions of the said Section and of the three following Sections shall be applicable to the said valuation and assessment, and to the book or books in which it is contained.

XIII. The taxes imposed upon vehicles and animals in any of the said Towns or in the said Settlement by the special Act, shall be assessed in the manner hereinafter provided.

Taxes upon vehicles and animals.

XIV. The Commissioners shall, from time to time, cause to be prepared and entered in distinct columns in a book to be kept at the office of the Commissioners, and to be open to the inspection of any person interested therein, a list of the persons liable to the payment of such taxes, a description of the vehicles and animals in respect of which they are liable, and the amount of the taxes assessed thereon.

List of persons liable to the Tax to be entered in a book.

XV. In order to enable the Commissioners to make such list, the Commissioners, or any officer authorized by them, may send to all persons supposed to be liable to the payment of such taxes a schedule to be filled up with such information respecting the vehicles and animals kept by them as the Commissioners may judge necessary for the assessment of the taxes. The schedule shall be filled up in writing, and signed, and dated, and returned to the office of the Commissioners by every person to whom it is sent, whether or not liable to the payment of such taxes; and whoever refuses, neglects, or omits, duly to fill up and return such schedule within one week from the receipt thereof, or knowingly gives therein any incorrect or false return, shall be liable, on conviction before a Magistrate, to a penalty not exceeding two hundred Rupees.

Returns may be required for purpose of making list.

XVI. The Commissioners may summon any person supposed to be liable to the payment of such taxes, or any servant of such person, and may examine such person or his servant as to the number and description of the horses and carriages in respect of which such person is liable to be assessed. If the person summoned shall without lawful excuse, fail to appear in pursuance of the summons, or shall refuse to answer any lawful question of the Commissioners, or knowingly give an incorrect answer, he shall be liable, on conviction before a Magistrate, to a penalty not exceeding two hundred Rupees.

Power to summon persons liable to the payment of the taxes.

XVII. Appeals against any rate or tax assessed under the provisions of this or the special Act, shall be heard and determined, in the Towns of Calcutta and Madras, by two Magistrates, in the Town of Bombay by the Court of Petty Sessions, and in the said Settlement by Her Majesty's Court of Judicature. But no such appeal shall be heard, unless the amount of the rate or tax has been deposited with the Commissioners; and no appeal against a rate assessed by the Commissioners under Section X shall be heard, unless complaint has been previously made to the Commissioners as hereinbefore provided. The mode of proceeding in such appeals shall be the same as that prescribed for the determination of matters referred to two Magistrates, by Act XIV of 1856, or as near thereto as may be. Provided that such Magistrates, and such Court of Petty Sessions, may, if they shall think fit, state a case for the opinion of the Supreme Court.

Hearing of appeals.

XVIII. DIRECTIONS FOR MAKING A WILL.

A Will cannot be made in language too simple or concise; must be written with Ink, on Paper or Parchment, and, if contained on one sheet, ought to be signed at the end by the Testator, in the presence of two or more Witnesses; but if written on more than one sheet, the Testator and the Witnesses must sign each sheet.

The Witnesses (1), must rigidly comply with every particular required by the Attestation clause, at the end of which clause they must sign their names (2.)

The signature of the Testator must be acknowledged by him, in the presence of the Witnesses; and in order that this be properly done he must (after having signed the Will) take it in his hand and say, "I acknowledge this to be my last Will and Testament, and request you to witness it."

The following form may suffice as a general guide.

WILL.

This is the last will and Testament of me, Charles Smith, of Hendon Hall, near Boston, in the Country of Lincoln, Farmer. After payment of all my just debts, Funeral and Testamentary expenses, I give, devise, and bequeath unto (2) also to (2) And as to the residue and remainder (3) of all my real and personal Estate, I give, devise, and bequeath the same unto (2) And I hereby appoint (2) and (2) Executors of this my Will, as witness my hand this day of 18

ATTESTATION.

Signed and acknowledged by the said Charles Smith, the Testator, as and for his last Will and Testament, in the presence of us, being present at the same time, who at his request, in his presence and in the presence of each other, have hereunto subscribed our names as Witnesses. } _____ _____ _____

A CODICIL to a Will is to *be made with the same regulations* as the Will itself, and may be written thus:—

This is a Codicil of my last will and Testament, bearing date the day of 18 , and I direct it may be taken as part thereof. I give, devise, and bequeath, &c. As witness my hand this day of

---

It may be useful to remark that Personal* Property left WITHOUT A WILL is divisible as under:—

If the Deceased leave Children and no Widow, the whole property is to be divided equally amongst the Children.

---

(1) These must be parties not interested in the Will, or their claim to such interest becomes forfeited.

(2) In all cases where a name is given, it is indispensable to describe clearly the Christian name (in full), the surname, residence, trade or profession.

(3) The Residue becomes the property of the next of Kin, unless otherwise provided for.

(*a*) Obliterations or alterations of any sort in a Will ought, if possible, to be avoided as dangerous; when of necessity made, ought to be signed by the Testator and Witnesses in the margin, or as near to the alteration as possible, and the alterations specially noticed in the Attestation Clause as having been made *before* the Will was signed.

(*b*) Marriage after making a Will render the Will void.

(*c*) If a person wish to dispose of all his property in one gift, the words "all my real and personal estate," may be used.

(*c*) It is not indispensable for a Witness to know the contents of a Will, which, if desired, may be so to prevent any other than the Signature and Attestation Clause being read.

* These rules do not apply to *Real* Estates.

If he leave a Widow and Children, the former is entitled to one-third,* and the latter to the remaining two-thirds.

If he leave a Widow and no Children, the former is entitled to half, and the next to Kin to the remainder, as under :—

A Father the whole amount.

If no father, a Mother, Brothers and Sisters, or their issue, equal portions.

If none, Uncles, Aunts, Nephews, and Nieces, equal portions, &c.

BRIEF DIRECTIONS TO EXECUTORS.

Having caused the property to be described and valued, take the Inventory, with the Will, to your Proctor (this ought to be done within six months after decease of Testator.) In due course the Will be deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you, with Certificate of its having been proved. You may then collect the Debts and satisfy all demands upon the estate; the latter in conformity with the following order, in which is shewn the precedence required by law :—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the crown, on record or specialty.—3. Debts which by particular statutes are given precedence over others.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts as Leases, Bonds, and the like.—6. Bills of Exchange and so forth.—7. Book Debts.—8, and last, (usually about twelve months after decease, as the Executor is liable to the claims of all Creditors, who seldom fail to declare themselves before that period) the Legacies and Succession.‡ Great care ought to be taken not to pay to parties unqualified to give a proper discharge, a Minor for example or a married woman; in the latter case, the joint receipt of herself and husband must be taken, unless the legacy be left for her separate and special use.

RATES OF DUTY, (*English.*)

Payable on Legacies, Successions, Annuities, and Residues, of the amount of £20 and upwards. No duty under that amount.

Husband or Wife of Deceased, no duty.

Children of Deceased and their Descendants, or Father, or Mother, or any lineal Ancestor of Deceased, £1 per cent.

Brother or Sister of Deceased, or their Descendants, £3 per cent.

Brother or Sister of the Father or Mother of Deceased, and their Descendants, £5 per cent.

Brother or Sister or Grandfather or Grandmother of Deceased, and their Descendants, £6 per cent.

To any other degree of relationship, or to any stranger in blood to Deceased, £10 per cent.

---

*. There are a few local and trifling departures from this rule.

‡ The new law upon Successions is, in effect, to subject to all Hereditary Property to the same duties as Legacies.

BATTA REGULATIONS FOR THE ROYAL NAVY.

REGULATIONS RESPECTING BATTA AND OTHER ALLOWANCES MADE BY THE EAST INDIA COMPANY TO OFFICERS OF THE ROYAL NAVY SERVING ON THE EAST INDIA STATION.

Despatch from the Honorable the Court of Directors to the Government of Fort St. George in the Marine Department, dated 10th March, No. 3 of 1852.

Para. 1. Having received frequent representations as to the operation of the Regulations respecting Batta and other allowances made by the East India Company to Officers of the Royal Navy serving on the East India Station, we have thought proper to revise those Regulations, and we direct that, in lieu of them, the following be henceforth adopted. The Batta payable shall be according to the subjoined scale, viz. :

To the Commander-in-Chief, not being below the rank of Rear Admiral, at the rate of.....	Rs. 30,000	per annum.
To a Commodore succeeding to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of.....	„ 15,000	„
To a Captain, succeeding to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of.....	„ 10,000	„
To the Secretary to the Commander-in-Chief at the rate of.....	„ 1,200	„
To the Second in Command not being below the rank of Commodore at the rate of.....	„ 10,000	„
To the Secretary of the Second in Command at the rate of.....	„ 800	„
To every Captain at the rate of.....	„ 5,000	„
To every Commander at the rate of.....	„ 2,500	„
To a Lieutenant Commanding a Vessel of War, but not a Transport at the rate of.....	„ 850	„
To the Ward Room, or Lieutenant's Mess of a First, Second, or Third Rate Ship at the rate of.....	„ 2,500	„
To the do. do. of a Fourth Rate Ship at the rate of.....	„ 2,000	„
To the do. do. of a Fifth Rate Ship at the rate of.....	„ 1,700	„
To the do. do. of a Sixth Rate Ship at the rate of.....	„ 1,250	„
To the do. do. of a Sloop or other Vessel commanded by a Commander at the rate of.....	„ 850	„

2. The rate of a Ship is to be determined according to the classification inserted in the Navy List, published by authority of the Board of Admiralty.

NOTE.—The allowance is never to be issued to two Officers at the same time.

3. Payment of Batta to the Naval Commander-in-Chief shall commence from the date of his arrival at the first Port within the limits of his command, and shall cease on his departure from the last Port within those limits, and during the same period the Secretary and the Flag Lieutenant of the Commander-in-Chief, shall also be entitled to Batta.

4. Batta shall not however be paid to any Officers except while serving in that part of the Indian seas (or in the Gulfs or Bays communicating therewith) in

cluded within the 10th parallel of South Latitude, and the 105th degree of East Longitude; payment commencing on the arrival of the Ship on board which they may be serving, at the first Port within the said limits, and ceasing on her departure from the last Port within the same.

5. Further, in supersession of our orders of the 11th April 1848 addressed to your Presidency, and of all other orders hitherto issued relative to the accommodation of Officers of Her Majesty's Navy, when required to be on shore upon the public service, we direct that allowances in lieu of House rent and accommodation on shore, be paid to the Officers specified according to the subjoined scale, viz.:

To the Naval Commander-in-Chief, not being below the rank of Rear Admiral at the rate of	Rs.	3,500 per annum.
To the second in Command, not being below the rank of Commodore at the rate of	"	2,500 "
To a Commodore or Captain succeeding to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of	"	2,500 "
To each Captain at the rate of	"	1,000 "

6. These allowances being payable to the Officers in question whether actually resident on shore or not, for any period during which, according to the regulations laid down in this Despatch they may be entitled to Batta. These allowances being thus rendered continuous are intended to provide for the accommodation on shore of Naval Officers of superior rank in whatever part of the Company's territories they may happen to be; and as it has hitherto been customary to issue payments of Batta to Navy Officers at Madras only, it will be more convenient if the payment of allowances in lieu of House rent likewise, be henceforth paid only at the same place.

7. In accordance with our letter to the Government of Madras of 21st May 1844, the practice of requiring from Agents drawing Batta for Naval Officers, to give security for its refund, if overdrawn, must be carefully continued.

8. We shall communicate a copy of this Despatch to the Lord's Commissioners of the Admiralty.

The foregoing Rules were ordered to take effect from the 10th March 1852, the date of the Honorable Court's Despatch, agreeably to the instructions contained in para, 9 of their Despatch dated 22d June, No. 10, of 1853.

The following remarks on this light are furnished by the Master Attendant at Singapore.

The Light will illuminate about 233 degrees of the horizon viz: from Saint John's Island proceeding Southerly to the North Westward near the Sultan Shoal.

Vessels losing the Light when to the Eastward or Westward will thereby be warned of the dangers respectively of middle Island or of the Sultan Shoal, as laid down in the Chart of the Straits of Singapore, by Messrs Corgulon and Thomson, corrected up to 1855.

By order,

JOHN J. FRANKLIN, *Secretary.*

EAST INDIAN EMIGRATION SOCIETY.

Established January 3, 1852.

This Society was formed with the view to promote the Emigration to Australia of eligible persons belonging to the East Indian Community, to whom such a change of life would be desirable.

COMMITTEE.

The Honorable Sir W. W. Burton, Kt., *Chairman, (Sydney, N. S. W.)*

Captain C. Biden.	H. Mead, Esq. (*Europe.*)
P. Carstairs, Esq. (*Europe.*)	James Ouchterlony, Esq.
T. G. Clarke, Esq.	George Richardson, Esq.
Stephen Clarke, Esq.	Arthur M. Ritchie, Esq. (*Hon. Secy.*)
Dr. Cleghorn.	Alexander M. Ritchie, Esq.
J. J. Franklin, Esq.	W. A. Serle, Esq.
Dr. Hunter.	

The first band of Emigrants, consisting of about 50 young men, chiefly of East Indian descent, left Madras for Sydney, under the protection of this Society, in the Ship "*William Prowse,*" in December 1852: and the result of this partial experiment having proved highly satisfactory to the Colonists, as well as to the Emigrants themselves; the Society with the aid of the Madras and Colonial Governments, embarked 100 more with 24 Compositors to the same destination on the 30th August 1854, per Ship "*Palmyra.*" These emigrants were also all provided with suitable situations. But from despatches since then received from the Government of New South Wales the Society have for the present determined to discontinue active operations.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

RULES FOR THE GRANT OF LEAVE TO CHAPLAINS AND ASSISTANT CHAPLAINS.

(From New Furlough Regulations.)

Section XXXI. "Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also privilege leave and leave for short periods on Private Affairs and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications :—

1*st*.—Chaplains being allowed to retire after twenty years' service, the period of Furlough on Private Affairs, is in their case limited to the present term of three years. The Furlough may however either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one-year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence, of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of Service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2*ndly*.—No Furlough or Leave of Absence, whether on Private Affairs or on Sick Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as Service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

Section XXXII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

MODIFICATIONS OF AND CONSTRUCTIONS UPON THE RULES FOR REGULATING THE FURLOUGHS AND LEAVES OF ABSENCE OF CHAPLAINS AND ASSISTANT CHAPLAINS.

Extract from a Despatch from the Honorable the Court of Directors addressed to the Government of India in the Financial Department, dated 5th March, No. 21 of 1856.

Fort St. George, *May* 20, 1856.

The following Notification by the Government of India is republished for general information :

Fort William, Financial Department, *the 29th April* 1856.

Notification.—The Right Honorable the Governor General in Council is pleased to direct that the following paras. of a Financial Despatch from the Honorable the Court of Directors, No. 21 of 1856, dated the 5th March, having reference to two Memorials from certain Chaplains and Assistant Chaplains on the Bengal and Bombay Establishments, regarding the provisions of the New Absentee Rules and the present system of promotion and retirement of Chaplains, be published for general information :—

Letter from, dated 30th August 1855, *No.* 115.
Forward a Memorial from the Chaplains and Assistant Chaplains on the Bombay Establishment, regarding the New Absentee Rules.

Letter from, dated 30th August 1855, *No.* 116.
Forward a Memorial from certain Chaplains and Assistant Chaplains on the Bengal Establishment on the same subject, and also with reference to the system of promotion and retirement of Chaplains.

Para 2. The requests which are submitted by the Memorialists have reference principally to the provisions of the New Absentee Rules, but the Memorial from Bengal contains also certain specific requests in regard to the present system of promotion and retirement of Chaplains. The Rules under which the furloughs and leaves of absence of our Chaplains and Assistant Chaplains are for the future to be regulated, occupied our serious attention when the general question was before us, and we are not prepared now to sanction their revision.

3. The construction which was placed upon the Rules by your Government Resolution of the 10th February 1855 has been somewhat modified by us (*vide* Financial Despatch, dated 5th September 1855, No. 78,) and you are also aware that we have determined that the New Rules shall not have retrospective effect so as to deprive Chaplains of the privilege of counting as Service leave already taken under the Old Rules. The knowledge that these modifications had been made was not in the possession of the Memorialists at the time their memorials were framed.

4. Adverting, however, to the allowances which were drawn by Chaplains and Assistant Chaplains under the Old Rules, when absent in India under Medical certificate, we have resolved to grant to them, during absence under such certificate only, within the limit of one year, their full salaries, subject to a reduction of one-third for the whole term of regulated absence, save and except that if the salary be not more than Rupees 500 per month no deduction shall be made, and if it be only so much more than Rupees 500 that the prescribed deduction of one-third would reduce the allowance below that sum, only the excess beyond Rupees 500 shall be deducted.

5. With reference, moreover, to the "privilege" leave to Chaplains, which, in accordance with the Rule of the Military Service, may be taken for one month in each six months, we are willing to comply with the request of the Memorialists, that such leave may be allowed to accumulate up to three months as a maximum period. Chaplains will thus be enabled to take three months' leave without deduction of allowances after eighteen months' continuous duty, provided the convenience of the Public Service will allow of the grant.

By order of the Right Honorable the Governor General of India in Council.

Secy. to the Govt. of India.

By order of the Right Honorable the Governor in Council.

Extract from a Despatch from the Honorable the Court of Directors addressed to the Government of Fort St. George, dated 17th September, No. 24 of 1856.

Letter from, in Ecclesiastical Department, dated 6th May 1856, No. 8.
Forwarded a further Memorial from Chaplains and Assistant Chaplains on the subject of the new Furlough Regulations.

Para. 11. The requests preferred in this Memorial may be summed up under three heads; 1st. That the option of continuing under the Old Rules may be allowed to Chaplains. 2d. That the present rate of Furlough pay may be increased, and 3d. That the question regarding the terms on which leave may be taken in India by Chaplains, may be reconsidered.

12. In our Despatch in this Department to the Government of India, dated the 5th March 1856, we intimated that we had resolved to grant to Chaplains and Assistant Chaplains during absence in India under Medical Certificate, within the limit of one year, their full salaries subject to a reduction of one third for the whole term of regulated absence, save and except that if the salary be not more than Rupees 500 per month no deduction shall be made; and if it be only so much more than Rupees 500 that the prescribed deduction of one third would reduce the allowance below that sum, only the excess beyond Rupees 500 shall be deducted.

13. We have also determined that Chaplains and Assistant Chaplains may be allowed to accumulate their "privilege" leave up to three months as a maximum period. They will thus be enabled, provided the convenience of the Public Service will allow of it, to take three months' leave without deduction of salary, after eighteen months' continuous duty.

14. We must adhere to our decision withholding from Chaplains the option of adhering to the old Civil Absentee Rules, and we cannot accede to the request of the Memorialists for an increase of the established rate of Furlough pay.

ABSENTEE ALLOWANCES TO CHAPLAINS AND ASSISTANT CHAPLAINS.

Fort St. George, *December 11th*, 1855.

The following Despatch from the Honorable the Court of Directors is published for general information.

Financial Department No. 78 of 1855.

Our Governor General of India in Council.

Para. 1.—We concur with you in considering that (as in the case of Civil Servants) a period of one, two or three months, according as the distance to be travelled may not exceed 300 or 600 miles, or to be in excess of the distance last mentioned, is sufficient to allow to Chaplains and Assistant Chaplains on the occasion of their appointment to any new station.

Letter from, dated 18th January 1856, No. 9.
Forward papers, with reference to which the Court's decision is requested on a question which has risen relative to the time to be allowed to a Chaplain or Assistant Chaplain, under the New Absentee Rules, to join any Station to which he may be gazetted.

2. We have already apprized you in para. 4 of our Despatch, dated 2d May 1855, No. 34, that you have correctly interpreted our intention in regard to the conditions of Chaplains' leave, whether taken in India or beyond Sea.

Letter from, dated 26th January 1856, No. 31.
Submit papers having reference to an enquiry made by the Bengal Civil Auditor, in regard to the Allowances of Chaplains and Assistant Chaplains while on leave for short periods on Medical certificate and on private affairs—whether, under the new Military Furlough Rules, they are to be treated as Regimental or as Staff Officers; and if the latter, what amount of deductions from salary they are to be subjected to.

3. With respect to the allowances of Chaplains and Assistant Chaplains whilst absent on leave in India for short periods, either of private affairs or medical certificate we consider that they should be treated as

Staff Officers, and as the latter receive the pay and allowances of their Regimental rank, together with half-batta pay, we approve of your suggestion that Chaplains be granted during such short absences, furlough pay, and in addition thereto, half the difference between the full pay and their furlough pay.

4. The allowances to be received by Chaplains during their absence *beyond sea* on sick leave were specially fixed in our Ecclesiastical Despatch, dated the 14th June 1854, and with reference to that part of your Resolution* of the 10th February 1855, which relates to the sick leave to Europe, granted to the Reverend F. G. Lugard, of the Madras Ecclesiastical Establishment, we must observe that Mr. Lugard should, in accordance with our intention, receive salary at the rate of £600 per annum for the first six months of his leave, and subsequently the furlough pay of his standing.

* Referred to in letter from the Government of India, dated 19th February 1856, No. 17.

5. Our first remark on this reference must be to point out a misapprehension into which you have fallen with regard to the construction of Section III of the Military Furlough Rules. You consider that this Section provides for the retrospective computation of the time of service for retirement in cases of furloughs and leaves of absence beyond Sea only, but this is an error, the wording of the Rule, to which we would draw your particular attention, is altogether opposed to such a construction:

Letter from, dated 19th February 1856, No. 17.
Forward copy of a letter from the Government of Madras and enclosures, submitting questions relating to the terms of leave of absence to Chaplains, and refer for decision the question whether leave of absence already taken in India under the old Rules is to be allowed to reckon as Indian Service, in addition to the three years period of so to count under Section XXXI of the New Absentee Rule. The case of Military Officers is adverted to.

"To those Officers who adopt them, the new Regulations will apply retrospectively in respect of furlough and leave of absence beyond Sea and in computing their time of service for retirement, so that their furloughs or leaves of absence, whether under the Old or the New Rules, and whether on private affairs or on sick certificate, *within or beyond India*, will count for service to the authorized extent only, in computing the time for retirement on full pay."

6. With regard, however, to Chaplains and Assistant Chaplains, as the option of abiding by the old Rules is withheld from them, in common with Military Staff Officers,† we shall not, in their case, require retrospective application of the Rule in respect of leave taken by them in India up to the date of the promulgation of the new Rules; but any such leave taken *in future* will count as part of the maximum period of three years which Chaplains are permitted to reckon as Indian Service for the Retiring Pension. It is to be understood that the leave ordinarily called "Privilege" leave is not included in the above computation.

† Military Staff Officers may, however, retain the advantages of the old Rules by giving up their staff appointments.

TRAVELLING ALLOWANCE TO ECCLESIASTICAL OFFICERS

NOTIFICATION.

Fort St. George, *18th February* 1856.

By direction of the Right Honorable the Governor in Council and in accordance with instructions received from the Government of India, the following Rule declaring the travelling allowance to be made to Ecclesiastical Officers will in future be observed.

1. On joining a station in the interior after arrival in India, a Chaplain or Assistant Chaplain will be allowed the same rate of traveling charges, and be subject to the same Rules in receipt to joining his station as a Civil Servant; on any subsequent transfer from one station to another, the same allowance will be made if the transfer take place not at the desire of the Chaplain removed, but by order of Government.

F. Lushington,
Civil Auditor.

No. 663.

Extract from the Proceedings of the Most Noble the Governor General of India in Council, in the Financial Department, under date the 10*th February* 1855.

Read an Endorsement from the Home Department, No. 94, dated the 18th Ultimo, transferring for consideration and orders a Despatch from the Government of Fort Saint George, No. 1, dated the 9th Idem with enclosure, submitting with reference to the new Civil Absentee Rules, certain questions from the Venerable the Archdeacon of Madras—connected with the Chaplains of the Indian Establishments.

RESOLUTION.

With reference to the 1st of the points submitted by the Archdeacon, viz. for what periods leave of absence can be obtained by Military Officers, and consequently by Chaplains, *within the limits of India*, both on medical certificate and on private affairs *without* loss of allowances, and should they, in such cases *be* subject to any deductions from their salary, in what proportions and under what rules those deductions are to be made, the Most Noble the Governor General in Council observes that no leave either on medical certificate or on private affairs can be taken without loss of allowances with exception to the ordinary indulgence of one month's leave in 6 months; and that in all other cases Chaplains and Assistant Chaplains absent on leave in India for the prescribed period on private affairs or on medical certificate will, as in the case of the superior class of Warrant Officers, for whom no specific rate of net Indian Pay is prescribed, be allowed Furlough Pay, and in addition thereto half the difference between their full or Indian Pay and Furlough Pay, subject to the orders of the Honorable Court as prescribed in the Resolution of the 26th Ultimo.

Copy herewith forwarded.

With regard to the 2d point, whether, with reference to the 2d modification of the Military Rules to which Chaplains are now made subject, leave of absence *in India*, on medical certificate or on private affairs, in addition to 3 years' furlough will or will not "be allowed to count as service" in the period "which qualifies Chaplains for their retiring pensions," and if it will *not* so count, whether this rule has retrospective effect, His Lordship in Council considers that the rule which applies to Military Officers will also be applicable to Chaplains and Assistant Chaplains; and as it was ruled, on the 19th Ultimo, that Chaplains must come under the new Military Furlough Rules with the exceptions specified in the Honorable Court's Despatch, No. 2, of the 14th June 1154, it would seem clear from Rule 30 of the new Military Rules and the second part of Section XXXII of the Civil Rules, that no leave of absence, taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs, beyond 3 years' furlough; (with exception to the leave allowed under Rule 29 of the new Military Rules and the ordinary indulgence leave) can be allowed to count as service *for the future*, except possibly in the case of a Chaplain who has served 30 years, but it is not clear that this Rule is intended to have retrospective effect, inasmuch as Rule 3 of the Military Rules is made to apply retrospectively to cases of furlough and leave of absence beyond Sea *only*, and the question will therefore be referred to the Honorable Court for decision.

A copy of this rule is herewith sent.

With respect to the 3d point whether the new rules are *obligatory* on Chaplains now in the service, or whether the choice of continuing under the former regulations is conceded to them as to Military Officers, His Lordship in Council would direct the attention of the Government of Madras to the 2d para. of this Resolution, and would state that all Chaplains must be brought under the new Military Rules without the option of availing themselves of leave under the old Military Regulations.

With respect to other questions, viz. the amount of salary to which the Reverend F. G. Lugard, Chaplain of Vepery, will be entitled for the first 6 months on proceeding to England on medical certificate, and whether he can retain his appointment during absence from India and if so for what period, His Lordship in Council observes that para. 2d of the Honorable Court's Despatch of the 14th June last, places Chaplains essentially on the footing of Military Officers in staff employ (who alone draw a moiety of their Staff salary during the first 6 months of their absence on sick leave out of India) and as Military Officers holding Staff appointments are allowed to be absent under Rule 13 of the Military Rules for a period of 12 months without losing their appointments, Mr. Lugard should be allowed to do the same. His allowances for the first 6 months of his absence being regulated by the rule laid down for allowances to Chaplains during absence on leave on medical certificate and private affairs in India in the Resolution of the 26th Ultimo referred to above, viz. Furlough pay, and in addition thereto half the difference between his full or Indian Pay and Furlough Pay, provided however that the two united do not exceed the limit of 600£ per annum prescribed in Section XXXIII of the new Civil Absentee Rules for cases of absentees out of India.

ORDER.

Letter from Govt. of Madras, No. 1, dated the 9th January 1855.

Ordered, that a Copy of the foregoing Resolution be forwarded to the Home Department for communication to the Government of Fort St George, and that the paper noted in the margin be returned.

Ordered also, that a copy be sent to the Civil Auditor for his information.

FORT, WILLIAM, FINANCIAL DEPARTMENT, *the 26th January* 1855.

RESOLUTION.

The Most Noble the Governor General in Council observes that under orders from the Government of Bengal, dated the 20th October last, the Reverend I. Coley, Chaplain of Darjeeling, was allowed leave on medical certificate for three months, commencing from the 1st October, and that on the 22d November following the Civil Auditor was informed from this Department (with reference to an enquiry on the subject) that the salary bills of Mr. Coley, during the period of his absence, must be audited in the *Civil* Audit Department, the amount of salary to be drawn being regulated by the rules in force in the Military Department.

With advertence to the above decision the Military Department now forwards for orders a letter from the Civil Auditor requesting explicit instructions in regard to the allowances of Chaplains and Assistant Chaplains while on leave for short periods on medical certificate and on private affairs, whether under the provisions of the New Military Furlough Rules they are to be treated as Regimental or as Staff Officers, and, if the latter, what amount of deductions from salary they are to be subjected to.

It is remarked by the Military Auditor General on this subject that the rules for the grant of furlough and leave of absence to Military Officers as established in the Honorable Court's Military Despatch, No. 18, dated 30th December 1853, and explained in their subsequent Despatch, No. 35, dated 30th September 1854, refer only to absence beyond India on medical certificate or on private affairs in India, and not to leaves of absence, whether on Sick Certificate or on private affairs in India or for brief periods to Ceylon, the Mauritius, or other places out of India. It appears further to the Military Auditor General that in strict keeping with this decision, the modifications in the Furlough Rules for Chaplains and Assistant Chaplains (see Honorable Court's Military Despatch, No. 2, dated 14th June 1854,) affect them only when they are absent beyond India, that they did not alter the rules then prevailing for Ecclesiastical Servants when absent within their own Presidency or in India,—nor did they authorize any change in the rates* of Absentee Pay of Chaplains, &c. during leave of absence for certain prescribed periods in India.

* ¾ds pay when absent on leave on private affairs continuously for more than one month in the year—5-6ths pay on leave on medical certificate if absent continuously for more than one month in the year; and ⅞ths if absent on leave beyond the Presidency.

The Most Noble the Governor General in Council observes however that it was considered in this Department when the question was under notice how Chaplains were to be treated in cases of applications for leave to India, that as they had been declared by the Honorable the Court of Directors to be subject to the rules prescribed for Military Officers in regard to furlough on private affairs and on medical certificate (with exception to the modifications stated in Section XXXIII of the Civil Absentee Rules) it must have been intended by the Honorable Court that they should be subject to the same rules as respects other descriptions of leave, or can any sufficient reasons be now discovered for supposing that the conclusion

then arrived at was incorrect. His Lordship in Council directs therefore that the orders of the 29th September shall continue to be abided by until the views of the Honorable Court are known; and meanwhile the allowances of Chaplains and Assistant Chaplains may be regulated in all cases by the Military Rules with the exception specified in XXXIII of the new rules for the grant of leave of absence to Civil Servants, Chaplains, &c. and, further, as suggested by Military Auditor General, Chaplains and Assistant Chaplains absent on leave in India for the prescribed periods on private affairs or on medical certificate may, as in the case of the superior class of Warrant Officers for whom no specific rate of net Indian Pay is prescribed, be allowed furlough Pay, and in addition thereto half the difference between their full or Indian Pay and furlough pay, subject to the orders of the Honorable Court.

CHAPLAINS—TO WHAT TRIBUNALS AMENABLE.

Extracts from Court's Letter to the Supreme Government of the

22d May 1827.

Para. 22 of Ecclesiastical Letter from Bengal of the 31st December 1824.

In reference to a question submitted by the Government of Bombay relative to the extent to which Military Chaplains are to be held responsible to the Military Authorities, and correspondence with the Lord Bishop as to the liability of the Company's Chaplains in Martial Law, Court's Orders on the subject are requested.

Para. 2. From the best consideration we have been able to apply to the several documents to which we have been referred in this paragraph, we are induced to think that considerable misapprehension has existed on the subject to which they relate.

3. When our Ecclesiastical Establishment was placed on the footing on which it now stands, it became a necessary part of the arrangement that the Indian Clergy should be submitted to the general superintendence of the Bishop and rendered subject to the Ecclesiastical Jurisdiction for all offences of Ecclesiastical cognizance, but it was never intended to except this portion of our servants from the Jurisdiction of the temporal Courts in the event of their being charged with any offences of a Civil nature, or any crimes against the peace and well being of society.

4. We wish it therefore to be distinctly understood, that the Chaplains on our Establishments are amenable to the Ecclesiastical Tribunals for such offences only as would render the Clergy of the Established Church amenable to the Ecclesiastical Tribunals in England, and for all other offences they are liable to be tried as all other Europeans in India are—by the Ordinary Tribunals of the country.

5. If however the offence should be committed out of the Jurisdiction of the Ordinary Court, and in places where the rest of the community are subject to Military Law, in such a case, and in such a case alone we deem it right that our Chaplains should be subject also to Military Law for all offences of temporal cognizance.

FURLOUGH FOR THREE YEARS AFTER SEVEN YEARS' SERVICE.

Extract from Letter from the Honorable the Court of Directors.

Financial Department, 29th October, 1856.

17*th December* 1857.

1. The Reverend ——————, an Assistant Chaplain on your Ecclesiastical Establishment has addressed us on the subject of his furlough, stating that your Government acting on the opinion of the Military Auditor General, have granted him a furlough for two years only, whereas he had applied for one for three years.

2. Mr. ——— —— having served for seven years, is entitled to take his furlough in one period of three years, if he prefers this course to that of dividing the furlough, we have therefore complied with his request for a furlough for the full period.

ORDER REGARDING PRIVILEGE LEAVE.

FORT ST. GEORGE, *October* 14, 1856.

The following Extract from the Proceedings of the Right Honorable the Governor General, of India in Council is published for general information.

No. 4193.

Extract from the Proceedings of the Right Honorable the Governor General of India in Council in the Financial Department, under date the 5th September 1856.

Read an endorsement from the Home Department, No. 1295, dated the 20th ultimo, forwarding for consideration and orders a Despatch from the Secretary to the Government of Bombay No. 253, dated the 1st idem, soliciting information on certain points connected with Leave of Absence to Chaplains and Assistant Chaplains.

RESOLUTION.—The Right Honorable the Governor General in Council observes that the points on which information is solicited by the Government of Combay are these :

1*st*.—As to the date from which the Honorable Court's recent Orders of 5th March 1856, for regulating the allowances of Chaplains and Assistant Chaplains during their absence in India on Leave on Medical certificate are to take effect ?

2*d*.—As to the period from which the premission to accumulate Privilege Leave to the extent of three months after eighteen months continuous duty is to be reckoned ?

In regard to the first point, His Lordship in Council remarks that it has already been settled with reference to Archdeacon Shortland's case that the Orders of the Honorable Court above referred to are to take retrospective effect from the commencment of the new Furlough System, and he accordingly directs that the Government of Bombay be referred to the Extract from the Proceedings of the Government No. 3918, dated the 22d ultimo, which contains the above decision.

In respect to the 2d point, His Lordship in Council is pleased to rule, that service before as well as after the introduction of the new Rules may be reckoned as qualifying for Privilege Leave in the same manner as in the case of Covenanted Civil Servants.

ORDER.—Ordered that a Copy of the foregoing Resolution be sent to the Home Department for communication to the Government of Bombay.

Ordered also, that a copy be sent to the Departments* and the Governments† noted in the margin, and also to the Civil Auditor at Fort William for their information and guidance.

RULES REGARDING PREPARATORY LEAVE.

FORT ST. GEORGE, *20th February* 1857.

The following Notification by the Government of India is republished for general information.

No. 9.

FORT WILLIAM, Financial Department, *the 30th January* 1857.

Read again, the Government Notification in this Department, No. 51, dated 14th November 1854, on certain points connected with the Covenanted Civil Service Absentee Rules.

Read an Endorsement from the Home Department, No. 79, dated 16th January 1857, forwarding for consideration and orders a letter from the Government of Bombay on the same subject.

Resolution.—The Right Honorable the Governor General in Council remarks, that it has been resolved by this Government, that "Officers intending to take Furlough, or to retire from the Service, will in future be required to continue to serve, unless disabled by Sickness, for a period of three months after return to duty from Privilege Leave under the Civil Absentee Rules, failing which its advantages will be forfeited; that the period of preparatory leave prior to Furlough on Private Affairs, during which the Absentee shall be allowed a moiety of his allowance, shall be governed by the Rules* applicable to similar leave in case of Medical certificate, extending to one, two, or three months, according to circumstances; and that Officers stationed at the Presidency Towns† will be allowed preparatory leave for a period not exceeding one month."

*Clause VI. of the Covenanted Civil Service Absentee Rules.

†Calcutta, Madras, Bombay.

The Government of Bombay now report that, on a reference from the Archdeacon at that Presidency, they have recently held that the Rules above quoted are to be considered applicable to Chaplains and Assistant Chaplains.

The Governor General in Council is of opinion, that the view expressed in the letter from the Government of Bombay is correct.

Order—Ordered, that a copy of the foregoing Resolution be forwarded to the Home Department, for communication to the Government of Bombay, and that the paper noted in the margin be returned, copy being kept for record in this Office.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extract from Court's Despatch, 12th April 1842.

"In Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a rule on the subject of travelling allowances on joining a Station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding, we think it desirable that for every circle of stations the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than 3 or 4 members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, three or four times a year might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of Stations may from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

9. We should lament that the practice of visiting stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to: and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

The revised Plan, determining the Circle of Out-stations for the several Chaplaincies under this Presidency, is published for general information in lieu of the one sanctioned under date 19th October 1852.

OFFICIAL RETURNS OF THE CLERGY.

Ecclesiastical Department.

With a view to ensure regularity and completeness in the Official Returns of the Reverend the Clergy, it is directed by the Archdeacon, under instructions from the Honorable the Court of Directors, and with the approbation of Government, that in future the following regulations be observed, viz:

1. That when any Chaplain or Minister applies for permission to return to Europe, or for any permanent leave of absence from his station, he shall forward with his application a declaration that he has duly made his Official Returns to the Registrar, or is prepared to do so, up to the day on which his departure from his Station is to take place.

2. That the same rule is to apply to Clergymen removing from one Station to another; and that every Chaplain so removing shall before quitting his Station, not only forward his Returns up to the day of his departure, but transmit also a declaration to the Authorities that he has done so.

3. That, in case of the death of a Chaplain at his Station, a copy of the entries in the Registers from the date of his last Quarterly Returns to the period of his demise, shall be made by the local public authority in whose official session the original public Registers may happen for the time be lodged or come, and be immediately forwarded by such local Officer to the Registrar; the same being, however, first duly examined and authenticated by the Chief lay public authority of the Station; this being considered the best mode at present of providing for the completeness of the General Quarterly Returns which are transmitted to England by the orders of the Honorable the Court of Directors.

By direction of the Venerable the Archdeacon of Madras, Commissary to the Bishop, dated the second day of October 1843.

FRED. ORME, *Registrar of the Archdeaconry of Madras.*

TABLE OF FEES.

Whereas a certain Table of Fees to our Registrars was lately intended to be adopted and certified by our late will beloved John Mathias, Lord Bishop of Calcutta, in and for our several Archdeaconries; and whereas in consequence of the death of the said John Mathias, and of the Archdeaconries of Madras and Bombay having been since made separate dioceses, and in consequence also of our disapproval of many of the Items in such Table from the curtailments in the stipends of the Clergy;—We Daniel, Lord Bishop of Calcutta have thought fit to revoke, and accordingly do revoke and cancel a certain instrument under seal bearing date the Twentieth day of July 1831, underwhich it was intended to certify such Fees: And whereas we still consider that a reasonable certain and consistent Table for all the business hitherto usually charged for and to be done, should be certified and established to prevent exaction, and contention, and in order that nothing may be unreasonably demanded or exacted or unlawfully taken by those employed, but such as seem to us suitable, customary and unobjectionable in their nature, and at the same time afford a moderate professional remuneration to those Registrars whose services are thus rendered: We therefore as far as we lawfully may and can, having considered and given our best consideration to the subject, do certify the foregoing graduated scale to be in our opinion reasonable and such as may not be (with reference to the usages in the Dioceses elsewhere) improperly taken by our Registrars and Secretaries for business considered to be of a voluntary and private kind, and where the acts done are not exclusively for Government objects or of the State, and of a nature for which public provision is made.

And we order that a Table of these Fees be placed up in some conspicuous part of the Registry.

In testimony whereof we have affixed our hand and Seal dated this thirty-first day of May, in the Year of Our Lord One Thousand Eight hundred and Forty-two, and in the Eleventh of Our Consecration.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission, under the episcopal seal, authorizing some person to administer the usual oath, and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of an episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them, must state the fact, and apply to the Town Major, Fort St. George, who will obtain the permission of the Right Honorable the Governor for their marriage, under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M. or the Honorable Company's Services, the written consent of the Governor must be obtained previous to the publication of banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese (F. Orme, Esq.)

FORT ST. GEORGE, 15*th November* 1853.

The following Rules for the management of the Burial Ground for the interment of the dead of all Christian denominations, not members of the Church of England, are published for general information:

I. That the Burial ground be designated the "Pursewaukum General Cemetery;" this designation being inscribed in larger letters over the entrance; and that the right of interment belongs to all Christians not members of the Church of England.

II. That the management of the "Pursewaukum General Cemetery" be confided to a Committee, selected from the Ministers labouring in Madras, those at present being connected with the London Mission, American Mission, Wesleyan Mission, the General Assembly's Mission, the Free Church Mission and the Baptist Mission, and such other Missionaries and other lay persons as may hereafter be deemed by Government entitled to take part in the management.

III. That the Committee keep the Burial ground in order, free from all rank vegetation: the trees and shrubs in it being nearly lopped from the fees realized, making over to Government annually any sums that may accrue after the payment of all expenses on this account, and rendering for the same period, an account, or receipts and disbursements to the Inspector General of Ordnance &c. for submission to Government, and for publication in the official Gazette.

IV. That the Committe nominate their own Secretary and fill up vacancies, both being subject to the approval of the Inspector General of Ordnance & Magazines under the authority of Government.

V. That all applications for permission to inter must be in writing to the Secretary to the Committee of Management, with particulars of the name of the deceased, date and cause of death, age, late profession or employment.

VI. That applications for the interment of children shall, besides containing the name of the child, also contain the names of the parents, their profession, &c., and the Committee will register all Burials according to the established form, submitting the same quarterly to the Inspector General of Ord. and Mag.

VII. That the Committee to whom the management of the Burial ground is entrusted, be careful to have the graves so arranged, that there shall be no waste of space.

VIII. That the charge for monuments be as follows:

A first class monument, with ground not exceeding 10 feet by 6,	Rupees	40	0 0
A second class monument with ground not exceeding 7 feet by 3	"	25	0 0
A head stone monument	"	5	0 0

The charge to Native Christians wishing to erect a monument to be reduced to one half of the above amounts.

IX. The charge for monuments will be appropriated by the Committee, in liquidation of the expenses incurred in keeping the ground, walls, and gate, and the balance made over to Government, as proposed in Rule III.

X. Applications for the erection of monuments must, like those for interments, be made to the Secretary to the Committee, and all charges for monuments must in every case be paid for in advance.

BRITISH AND INDIAN ACTS FOR MARRIAGES IN INDIA.

ANNO DECIMO QUARTO & DECIMO QUINTO

VICTORIÆ REGINÆ.

CAP. XL.

AN ACT FOR MARRIAGES IN INDIA.

[24*th July* 1851.]

Whereas it is expedient to amend the Law of Marriages in *India*: Be it enacted by the Queen's Most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, as follows:

Marriage of Christians in India may be solemnized under this Act.

Notice of intended Marriage to be given to the Marriage Registrar for the District.

I. In every Case of Marriage intended to be solemnized in *India* after the Commencement of this Act, where One or both of the parties is or are a Person or Persons professing the Christian Religion, such Marriage may be solemnized under the Provisions of this Act; and where such Marriage is intended to be so solemnized, One of the Parties shall give Notice in Writing to the Marriage Registrar to be appointed under the Provisions of this Act for the District within which the Parties shall have dwelt for such Period then next preceding as by such Laws or Regulations as hereinafter mentioned may be required, or, if the Parties dwell in the Districts of different Marriage Registrars, shall give the like Notice to the Marriage Registrars for each District; and every such Notice shall be in such Form and contain such particulars as may be prescribed by such Laws or Regulations, and shall be open for Inspection and published as by such Laws or Regulations may be provided.

Certificate of Notice to be issued on Request.

II. The Marriage Registrar, upon being requested so to do by or on behalf of the Party by whom the Notice was given, and One of the Parties intending Marriage having made Oath or Declaration as hereinafter required, shall issue under his Hand a Certificate of such Notice having been given, and of such Oath or Declaration having been made; provided no lawful Impediment according to the Law of *England* be shown to the Satisfaction of the Marriage Registrar why such Certificate should not issue, and the Issue of such Certificate have not been sooner forbidden, in manner hereinafter mentioned, by any person or persons by this Act authorized in that Behalf; provided always, that where by such Oath or Declaration it appears that One of the Parties intending Marriage (not being a Widower or Widow) is under Twenty-one years of Age, the Marriage Registrar shall not issue such Certificate until the Expiration of such period after the giving of such Notice as may be in this Behalf provided by such Laws or Regulations as hereinafter mentioned.

Proviso.

Who to give consent if Parties under Age.

III. The Father, if living, of any Party under Twenty-one years of Age, such Party not being a Widower or Widow, or, if the Father be Dead, the Guardian or Guardians of the Person of the Party so under Age lawfully appointed, or One of them, and in case there be no such Guardian, then the Mother of such Party, if unmarried, shall have Authority to give Consent to the Marriage of such Party; and such Consent is hereby required for the Marriage of such Party so under Age, unless there be no Person authorized to give such Consent resident in India.

IV. Every Person whose Consent to a Marriage is required as aforesaid is hereby authorized to forbid, in such Manner as may be provided by such Laws or Regulations as hereinafter mentioned, the issue of the Marriage Registrar's Certificate; and in case the Issue of any such Certificate be so forbidden the Notice and all Proceedings thereupon shall be utterly void: Provided always, that (subject to such Laws and Regulations) if either of the Parties intending Marriage allege that the Person forbidden the Issue of such Certificate is not authorized by Law so to do, the Marriage Registrar shall examine into such Allegation, and if he be satisfied that such person is not authorized as aforesaid shall act in like Manner, and the like Proceedings may be had under this Act in relation to such Marriage, as if the Issue of such Certificate had not been forbidden by such Person.

Issue of Registrar's Certificate may be forbidden.

V. If any person whose Consent is necessary to any Marriage under this Act shall be non compos mentis, or if any such person (other than the father) shall, without just Cause, withhold his or her Consent to a Marriage, the Parties intending Marriage may apply by Petition, where the Person whose Consent is necessary is resident within any of the Towns of *Calcutta*, *Madras* and *Bombay*, to the Supreme Court of Judicature established by Royal Charter in the Presidency or Place in which such Person is resident, or if such Person be not resident within any of the said Towns, then to the Judge of the Zillah or like District within which such Person is resident, or to such other Person as may for this Purpose be appointed under the Laws or Regulations hereinafter mentioned; and the said Supreme Court or any Judge thereof or such Judge of the Zillah or District, or such other Person, shall be empowered to examine the Allegations of the Petition in a Summary way; and if upon such Examination such Marriage appear proper, such Supreme Court or any Judge thereof, or such Judge of the Zillah or District, or such other person, shall declare the same to be so, and such Declaration shall be as good and effectual as if the Person whose Consent was needed had consented to the Marriage; and in case such Person has forbidden the Issue of the Marriage Registrar's Certificate, such Certificate shall be issued, and the like proceedings may be had under this Act in relation to the Marriage, as if the Issue of such Certificate had not been forbidden by such Person, anything hereinbefore contained to the contrary notwithstanding.

Supreme Court or Judge of the Zillah or District may relieve where Consent improperly withheld.

VI. Before any such Certificate as aforesaid shall be issued by any Marriage Registrar, One of the Parties intending Marriage shall appear personally before such Marriage Registrar, and shall make Oath, or shall make his or her solemn Declaration instead of an Oath, that he or she believeth that there is not any Impediment of Kindred or Affinity or other lawful Hindrance to the said Marriage, and that both the Parties to the intended Marriage have, (or (where the Parties have dwelt in the Districts of different Marriage Registrars) that the Party making such Oath or Declaration hath, for the Period required by such Laws or Regulations as are hereinafter mentioned, had their, his, or her usual Place of Abode within the District of such Marriage Registrar, and where either or each of the Parties, not being a Widower or Widow, is under the age of Twenty-one years, that the Consent of the Person or Persons whose Consent to such Marriage is required by Law has been obtained thereto, or that there is no Person resident within the Territories under the Government of the *East India* Company having Authority to give such Consent, as the case may be: Provided always, that where under the foregoing Provision the said Supreme Court or a Judge thereof, or such Judge of the Zillah or like District, or such other Person as aforesaid, declares the Marriage to be proper, it shall not be necessary to make Oath or declare that such Consent has been obtained to such Marriage.

Oath or Declaration to be made before Issue of Certificate.

VII. Any person may, in manner provided by such Laws or Regulations, enter a Protest with the Marriage Registrar against the Issue of a Certificate for the Marriage of any Person named therein; and if any Protest be so entered no Certificate shall issue until the Marriage Registrar have examined into the Matter of the Protest, and is satisfied that it ought not to obstruct the Issue of the Certificate for the said Marriage, or until the Protest be withdrawn by the Party who entered the same.

Protest against Issue of Certificate may be entered.

VIII. In all Cases whatsoever where the Marriage Registrar has refused such Certificate as aforesaid, it shall be lawful for either of the Parties intending Marriage to apply by Petition, where the District of such Registrar is within any of the Towns of *Calcutta*, *Madras*, and *Bombay*, to the Supreme Court of Judicature established by Royal Charter in the Presidency or Place within which such District is comprised, or if such District be not within any of the said Towns then to the Judge of the Zillah or like District within which the same is comprised, or to such other Person as may for this Purpose be appointed by the Laws or Regulations hereinafter mentioned; and the said Supreme Court or any Judge thereof, or such Judge of the Zillah or like District, or such other Person, shall be empowered to examine the Allegations of the Petition in a summary way, and shall decide thereon; and the Decision of such Supreme Court or a Judge thereof, or of such Judge of the Zillah or like District, or of such other Person, shall be final, and the Marriage Registrar to whom the Application was originally made shall proceed in accordance therewith, anything hereinbefore contained notwithstanding.

Appeal where Registrar refuses Certificate.

IX. After the Issue of the Certificate of the Marriage Registrar, or, where Notice is required to be given under this Act to the Marriage Registrars for different Districts, after the Issue of the Certificates of the Marriage Registrars for such Districts, Marriage may be solemnized between and by the Parties described in such Certificate or Certificates, according to such Form and Ceremony as they may see fit to adopt; provided nevertheless, that every such Marriage shall be solemnized between such Hours as shall be fixed by the Laws or Regulations hereinafter mentioned, in the Presence of some Marriage Registrar, to whom shall be delivered such Certificate or Certificates as aforesaid, and of Two or more Witnesses; provided also, that in some part of the Ceremony each of the Parties shall declare,

After Issue of Certificate Marriage may be solemnized in the Presence of Marriage Registrar and Two Witnesses.

'I do solemnly declare, That I know not of any lawful Impediment why 'I, *A. B.* may not be joined in Matrimony to *C. D.*, or shall declare to the like Effect:

And each of the Parties shall say to the other,

'I call upon these Persons here present to witness, That I, *A. B.*, do 'take thee, *C, D.*, to be my lawful wedded Wife [*or* Husband]'; or Words to the like Effect.

Provided also, that there may be no lawful Impediment to the Marriage of such Parties.

X. Whenever a Marriage is not had within three Calendar Months after the Notice shall have been so entered by the Marriage Registrar, the Notice and the Certificate which may have been issued thereupon, and all other Proceedings thereupon, shall be utterly void; and no Person shall proceed to solemnize the Marriage, nor shall any Marriage Registrar register the same, until due Notice shall have been given, and Entry made, and Certificate thereof given, at the Time and in the Manner aforesaid.

When Marriage is not had within Three Months after Notice a new Notice required.

Marriages to be registered.

XI. After the Solemnization of any Marriage under this Act the Marriage Registrar present at the Solemnization thereof shall forthwith register such Marriage in duplicate, that is to say, in a Marriage Register Book according to the Form of Schedule to this Act annexed, and also in a Certificate attached to the Marriage Register Book as a Counterfoil; and the Entry of such Marriage in both the Certificate and the Marriage Register Book shall be signed by the Person, by or before whom the Marriage has been solemnized, if there be any such Person, and by the Marriage Registrar present at such Marriage, whether or not the Marriage is solemnized by him, and also by the Parties married, and attested by two witnesses; and every such Entry shall be made in Order from the Beginning to the End of the Book, and the number of the Certificate shall correspond with that of the Entry in the Marriage Register Book.

Certificates of Marriage to be transmitted periodically to the Secretary to the Government, &c.

XII. The Marriage Registrar shall forthwith separate the Certificate from the Marriage Register Book, and transmit it, at the End of every Month, to the Secretary to the Government of the Presidency or place within which he resides, or to such other Officer as may for this Purpose be appointed under the Laws or Regulations hereinafter mentioned; and if no Marriages have been registered during such month, the Marriage Registrar shall certify such Fact under his Hand, and such Certificate shall be transmitted as aforesaid; and the Marriage Registrar shall keep safely the said Register Book until it be filled, and shall then transmit the same to the Secretary to the Government, or to such other Officer as aforesaid to be kept by him with the Records of his Office; provided that with regard to those Marriages so certified, of which it may appear to the Governor General in Council desirable that Evidence should be transmitted to *England*, the Secretary to the Government, or such other Officer as aforesaid, shall, at the End of every Three Calendar Months in each Year, send all the Certificates of Marriages sent to him as aforesaid during the Three Months, signed by him, to the Secretary of the *East India* Company, for the Purpose of being delivered to the Registrar General of Births, Deaths, and Marriages in *England*.

Proof of Residence of Parties or Consent not necessary to establish Marriage.

XIII. After any marriage has been solemnized under this Act, it shall not be necessary, in support of such Marriage, to give any Proof in respect of the Dwelling of the Parties, or of the Consent of any Person whose Consent thereunto is required by Law, nor shall any Evidence be given to prove the contrary, in any Suit touching the Validity of such Marriage.

Registrar may ask certain Particulars of Parties.

XIV. It shall be lawful for the Marriage Registrar before whom any Marriage is solemnized according to the Provisions of this Act to ask of the Parties to be married the several Particulars required to be registered touching such Marriage.

Persons vexatiously entering Protests liable to costs and Damages.

XV. Every person who shall enter a Protest with the Marriage Registrar, against the issue of any Certificate on Grounds with such Marriage Registrar, or the Supreme Court of the Presidency or Place, or any Judge thereof, or the Judge of the Zillah or like District, or other Person, to whom upon the Refusal of such Certificate an Application is authorized by this Act, declare to be frivolous, and such as ought not to obstruct the Issue of the Certificate, shall be liable for the Costs of all Proceedings in relation thereto, and for Damages, to be recovered by Suit by the Party against whose Marriage such Protest was entered.

Punishment of Person making false Oath or Declaration.

XVI. Every Person who shall knowingly and wilfully make any false Oath or false declaration, or sign any false Notice or Certificate, required by this Act, or by any such Laws or Regulations as hereinafter mentioned, for the Purpose of procuring any Marriage, and every Person who shall forbid the issue of any Marriage Registrar's Certificate by falsely representing himself or herself to be a Person whose Consent to such Marriage is required by Law, knowing such Representation to be false, shall on Conviction, be liable to be punished in such manner as by such Laws or Regulation may be provided.

Limitation of Prosecution.

RULES RELATIVE TO THE MANAGEMENT OF OUT-STATION CEMETERIES IN THE SEVERAL DISTRICTS OF THE PRESIDENCY OF FORT ST. GEORGE.

SANCTIONED BY THE RIGHT HONORABLE THE GOVERNOR IN COUNCIL ON THE 5TH MAY 1857.

1. The Cemetery at all Zillah Stations, where there is no resident Chaplain, shall be under the charge of the Judge, and, in his absence, in that of the Sub Judge, where there is such an Officer; at any other Out-station in the District it shall be similarly under the charge of the Collectors or any of his Covenanted Assistants, who may have his Head Quarters there; at any Military Station where there is no Chaplain resident and which is not a Zillah Station, nor the Head Quarters of the Collector of the District, nor of one of his Assistants, it shall be, in like manner, in charge of the Commanding Officer, subject in all these several cases to the Regulations of Government, and to the Ecclesiastical Jurisdiction of the Lord Bishop and Archdeacon.

2. All Cemeteries are to be maintained in a state becoming their sacred object, the paths and the interior of the ground generally kept properly clean, weeds and long grass cut, and, as far as practicable, suitable trees and shrubs planted. The walls and other enclosures, and the gate, are also to be kept in efficient repair.

3. All Out-station Cemeteries, *as well those disused, those still in use*, are to be inspected annually by the Collector or one of his Assistants, and a brief Report of their condition made to Government through the Department of Public Works, with particular notice of the older Monuments and Grave Stones.

4. In each Cemetery, lines 10 feet apart, parallel with the paths, shall be marked out, within which all graves shall be dug, care being taken that the Graves are as near together as may be conveniently practicable.

No Monument shall be erected, the dimensions of which exceed 9 feet long, and 4½ broad; and the Officer in charge of the Cemetery shall be responsible for these Rules being strictly obeyed, for the general cleanliness and neatness of the Cemetery.

5. In the absence of a Clergyman of the Church of England, or other person deputed by the Chaplain of the District, the Officer in charge of the Cemetery, or some suitable Officer appointed by him, shall read the Burial Service at the interment of all baptized persons who were Members of the Church of England, agreeably to the Book of Common Prayer; forwarding a Return of the same, *in duplicate*, by the first Post, one copy to the Registrar of the Archdeaconry, Madras, and the other, to be deposited in the Office of the Collector of the District.

Printed Forms of these Returns are to be obtained from the Registrar of the Archdeaconry for use in the various Out-stations.

6. A portion of each Out-station Cemetery, *if not consecrated*, shall be divided off by a pathway or gravel walk; *if consecrated*, a new piece of ground similarly defined shall be added, for the interment of all persons of Christian parentage who were *not* members of the Church of England (whether Protestant or Roman Catholic), and any person may be admitted to officiate therein, and any religious service used, which the parties may approve.

7. On the periodical visits of the Reverend Chaplain to his Out-stations, the key of the Cemetery shall be placed at his disposal by the Officer in charge, with a view to his personal inspection of it, and to his representation to the Officer in charge of it, and, if necessary, to Government through the Archdeacon, in the event of his observing, or becoming acquainted with, any irregularity, or want of attention to the present regulations.

By Order of the Right Honorable the Governor in Council.

I.—The Committee shall be designated the Madras Corresponding Committee of the Colonial Church and School Society.

II.—The objects of the Committee shall be two-fold, First, to provide Clergymen for important stations at present without them. Second, to render such Lay aid to Chaplains, or other Clergymen, in the discharge of their pastoral duties, as they may be desirous to accept, and the Committee may have it in its power to afford.

III.—All ordained persons that may be supported by this Committee shall be under the ecclesiastical jurisdiction of the Diocesan.

IV.—It shall be considered as a fundamental principle of the Committee that no persons shall be maintained by its Funds, but such as are believed, after the fullest inquiry, to be men of true piety and sound Evangelical principles, as well as attached to the doctrines and discipline of the Church of England.

V.—This Committee shall have a President, 2 Vice Presidents, and be composed of 12 Members of the Church of England, including a Treasurer and Secretary. Three Members to form a quorum. The President and Vice Presidents to have a vote as other Members of the Committee.

VI.—In case of any vacancy, the remaining Members of the Committee shall elect one to fill it,—this nomination being subject to the approval of the Parent Committee.

VII.—No Clergyman or Layman shall be taken upon the Society's list in this country, but with the consent of two thirds of those Members of the Corresponding Committee who shall be residing in Madras or within 20 miles of Madras.

VIII.—An Annual Meeting of the Subscribers shall be held when the Proceedings of the foregoing year shall be reported, and the Accounts presented, and the Report and Statements of Accounts shall be published and furnished to every Subscriber.

IX.—In conformity with Rule IV. of "Rules for the formation and guidance of Corresponding Committees in connection with the Committee of the Colonial Church and School Society," this Committee shall be considered subject to re-appointment annually by the Parent Committee.

X.—A Reserve Fund of Rupees 10,000 shall be held as a Capital to meet emergencies, the interest being applied to current expenses, and the principal made available as a temporary resource only when urgently required.

XI.—The Reserve Fund shall on no occasion be expended to such an extent, as to disable the Committee from meeting its standing engagements with Agents on its list, for Passage money, &c.; nor shall its operations be extended, until the sum withdrawn from the Reserve Fund has been replaced.

XII.—The whole of the Funds obtained by this Committee, in excess of the Reserve Fund, which are not of a special nature, shall be held available for current expenses, subject to the revision of the Parent Committee.

BY-LAWS.

1.—Before a permanent engagement is made with any Clergyman or Layman in this country, he shall be required to satisfy the Committee in regard to his doctrines and general character by testimonials from, and if practicable by reference to, one Clerical and one Lay friend at least; the testimonials to extend over not less than 18 months last past. He shall also furnish the Committee with replies to the paper of questions adopted by the Home Committee, and to such other inquiries as seem necessary, together with a Medical certificate of health.

Qualifications of Agents.

2.—The engagement if made with any Agent in England shall be in the first instance for a term of 5 years, renewable for such period as may be agreeable to both parties. This period to be exclusive of time spent in England on Sick Certificate.

Engagement in England.

3.—The period of engagement made with Agents in India shall be fixed according to circumstances. If no engagement for any specified times should exist six months' notice of retirement, or of the Committee's desire to terminate the connection, shall be given and received.

Engagement in India.

4.—The Passage money and Outfit from England shall be for a married man £180, for a Bachelor £120. Passage money and outfit.

5.—If an Agent has been brought from England by the Society, he shall be entitled to Passage money home after the expiration of his engagment, if still in connection with the Society; or in case of sickness, at an earlier date, on a certificate from two Medical Gentlemen.

6.—If an Agent shall relinquish his engagement before the time, he shall refund his Passage money and Outfit, in such proportion to the whole amount advanced, as the unexpired portion of his service bears to the whole period of his engagment.

Dissolution of Engagement.

7.—The Committee shall be at liberty to dissolve their connection with any Agent who shall preach or avow important doctrinal views at variance with what he professed to hold on joining the Society, or who shall be found guilty of any immoral, or unworthy conduct. In such case two months' notice or two months' salary shall be given with the regulated Passage money, if he have come out from England in connection with the Society.

13. After the expiration of seven years of service in India (including Privilege leave, but not leave on Sick Certificate) a Furlough not exceeding two years may be taken, on an Agent giving six months' Notice of his intention. OBJECTS OF THE SOCIETY.

The object of this Society is to supply those stations in the Diocese at which Europeans and their descendants reside, and for whom no stated public means of grace are provided, with the regular ministrations of the Church.

Its field of operations at present embraces the stations of Cochin, the Shevaroy Hills, Salem, and Nellore. Up to last August a Clergyman employed by the Society had spiritual charge of Madura, but was obliged to return to Europe on Sick Certificate.

Notwithstanding the liberality of the Government in increasing the number of chaplains at this Presidency, there are still several stations for which no adequate spiritual provision has been made. The Society is therefore anxious to extend its field of operations, and to be enabled, by additional subscriptions from the Christian community, to send to England for more Clergymen to supply the lack of labourers in this great Harvest field.

A perusal of the annual report, to which is annexed a copy of the Rules, will shew the principles of the Society, and the importance of the work in which it is engaged.

Any person willing to assist in promoting the object which this Society is endeavouring by God's Blessing to carry out zealously and successfully, and wishing to receive more explicit information regarding its operations, may communicate their wish to the Acting Secretary, and a copy of the Report will be immediately forwarded to their address.

Contributions or donations may be paid either to the Acting Secretary, or to the Treasurers of the Society, Messrs Arbuthnot and Co. Madras.

Rev. C. R. DRURY, Acting Secretary,
Assistant Chaplain, Poonamallee.

19.—That a General Annual Meeting of the Society be held in the month of January; when the Annual Report shall be presented to the Subscribers with a Statement of the Accounts; and that the Committee shall have power to call a Special General Meeting at their discretion; and no Fundamental Rule shall be altered or rescinded but on the recommendation of the Committee at a General Meeting of the Society after fourteen days' notice of the proposed alteration shall have been given in the *Fort St. George Gazette*.

M., the Rev. R. B. Blyth, A. M., the Rev. A. B. Campbell, the Rev. W. Moffat, (*Europe*) and the Rev. A. Venkataramiah.

The Rev. P. Rajahgopaul and Mr. Whitely superintend the Triplicane Branch School on the Mount Road. Eight Branch Schools for males exist in connection with it. These are at Triplicane, in Black Town, Conjeveram, Wallajahad, Chingleput, Nellore, Goodoor and Caligherry. The average attendance during 1857 at all the Schools has been above 1500 Hindus and Mahomedans on a roll of upwards of 1700. The Hindu pupils are of all castes and classes, from the Brahman to the Pariah, no distinction being made by the Missionaries.

The Female Institution for Converts and Boarding Girls is under the charge of Mrs. Anderson. There are besides eleven Day Schools for Hindu and Mahomedan girls, in connection with the Mission. These Schools contain above 600 pupils, making the entire number of pupils on the roll about 2400.

The education given embraces a knowledge of the Scriptures, and all the branches of an enlarged secular course of instruction. This is communicated through the medium of English, Tamil, Telugu and Hindustani; and instruction is also systematically given in these tongues, by competent Moonshees. The Committees of Foreign Missions of the Free Church and of the Edinburgh *Medical* Missionary Society have united in sending Mr. D. H. Paterson, Surgeon, as a Medical Missionary to co-operate with the Missionaries of the Free Church in Madras. In March last he opened a Dispensary in Black Town, and during the year delivered a course of Lectures in Physiology.

LONDON MISSIONARY SOCIETY'S NATIVE ENGLISH INSTITUTION.

17, *Armenian Street, Black Town.*

This institution was established in 1851 for the purpose of training Preachers, Catechists and Teachers, to assist at the numerous stations occupied by the London Missionary Society in Southern India, and also to give a good Scriptural and general education to Native boys.

There are two public services for preaching the Gospel in Tamil held each Lord's day in the large Hall of the Institution—the one at 11 A. M., and the other at 4 P. M.

The number of boys at present (October 1857) attending the Institution is 400, chiefly from the more respectable classes among the Hindoos and Mahomedans.

The studies pursued have comprised the Scriptures, Ancient and English History, History of India, English Grammar and Composition—Milton, Evidences of Christianity, General Geography and Geography of India, Use of the Globes, Euclid, as far as the 6th Book, Algebra, Natural Philosophy, Arithmetic, Tamil, Telugu and Hindustani.

In connection with the Institution there are 8 smaller branch Schools in Madras and the immediate vicinity, with a regular attendance of 450 boys and girls, so that in connection with the Madras station of the London Missionary Society 850 Children of both sexes are receiving a good Christian Education. Particular attention is paid in all these Schools of the Vernaculars, and Tamil, Telugu and Hindustani are taught by efficient Moonshees.

In connection with the Institution are :

THE PLAN.

1. That the Society be denominated The Madras Tract and Book Society.

2. That its *primary* object be the circulation of Religious Tracts in English and the Native languages, on the same principles with those of the Religious Tract Society in London.

3. That a *secondary* object be the publication of School Books, and other elementary and useful works, in the Vernacular languages; and in English, with or without a Vernacular translation.

4. That the ordinary income of the Society be devoted to its primary object, the circulation of Tracts and Books *strictly Religious*, and that a Special Fund be formed for other Publications under the name of *Book Fund*, to which distinct contributions, in money or Paper, may be made.

5. That the Tracts to be circulated by this Society, be those published by the Religious Tract Society in London, and such others as local circumstances may require, though always of the same tenor with the former.

6. That this Society pay annually, or half-yearly, so much money into the Funds of the Religious Tract Society in London, as the amount of its receipts may warrant; and that the above Society be requested to supply this Society with such Tracts as they may require.

7. That each Subscriber be entitled to receive Tracts, estimated at reduced prices, to the amount of one-half of his subscription.

8. That each Subscriber of one fanam or upwards, per month, shall be considered a member of the Society.

9. That the business of the Society be conducted by a Committee, consisting of as many members as convenient, together with the Treasurer, Secretary, Assistant Secretary, and Depositary; five of the members to constitute a quorum.

10. That there be an Annual Meeting of the Subscribers as early in each year as may be convenient, when the Committee, and other Office-bearers, shall be chosen, the accounts presented, and the proceedings of the foregoing year reported.

11. That the Committee be authorized to nominate Corresponding Members, from among such persons at out-stations, as shall feel inclined to co-operate with the Society.

Educational Notification.

1. With reference to paras. 51 to 62, of the Honorable Court of Directors Educational Despatch to the Government of India, dated the 19th July 1854, the Director of Public Instruction gives notice that he is prepared to receive application for Grants-in-aid of Schools, either already established or proposed to be established by private subscriptions or endowments.

2. These grants will be made with a special view to the extension and improvement of the secular education of the people, and will be given impartially to all schools, whether male or female, Anglo-Vernacular, or Vernacular (so far as the requirments of each particular district, as compared with others and the Funds at the disposal of Government may render it desirable) which submit to the conditions mentioned below. It will be essential to the consideration of applications for that the schools on behalf of which they are preferred, should be under the management of one or more persons who, in the capacity of proprietors, patrons, trustees, or members of a committee, elected by the society or association by which the school may have been founded, will be prepared to undertake the general superintendence of the school, and to be answerable for its permanence for some given time.

3. No grants will exceed the amount of funds raised from local or other sources for the purposes for which the grant is sought; and as a general principle, except in the case of Normal Schools for training teachers, grants will be made only for specific purposes, and not in the form of simple contributions in aid of the general expenses of a school.

4. Except in the case of Normal Schools for training teachers, grants will be restricted to those schools in which some fee, however small, is exacted from the scholars.

5. All applications for grants must be accompanied by a declaration that the applicants are prepared to subject the school, on behalf of which the application is made, to the inspector of a Government Inspection, such inspection and examination having no reference to religious instruction, but only to secular education. The applicants must further declare their willingness to conform to the conditions hereinafter specified for the regulation of such grants, and no grant will be made until it shall have been ascertained from the report of an Inspector.

1st. That the case is deserving of assistance.

2d. That the grant applied for will not supersede the efforts of associations or individuals.

6. The following are the specific objects for which grants will be given:—

1st. The erection, enlargement, or repair of school buildings.

2d. The provision of school furniture.

3rd. The augmentation of the salaries of the teachers, or provision of additional teachers.

4th. The provision of stipends for pupil teachers, and of gratuities to teachers who undertake to instruct them.

5th. The provision of school books, maps, and school apparatus at reduced prices according to the circumstances of the case.

7. The following are the conditions upon which grants will be made for the objects above specified :—

1st. It will be a condition of all grants toward the erection, enlargement or repair of school buildings, that such rules as shall be laid down in regard to the dimensions and arrangements of the school buildings, with reference to the the number of scholars they are designed to accommodate, shall be duly observed and that the permanent assignment of the buildings for school purposes shall be adequately secured.

2nd. Applications for grants for the provision of school furniture must be accompanied by a declaration on the part of the applicants that they will be personally responsible for the due preservation of the furniture of the school, and for its being reserved for the purpose for which it is supplied.

3rd. Applications for grants in augmentation of the salaries of teachers, or for providing additional teachers, like other applications for aid will be referred to a Government Inspector for report on the merits of the school and qualifications of the teachers, and their continuance will depend upon the periodical reports of the Inspector on the merits and proficiency of the teachers as ascertained at his periodical examinations of the school.

4th. Grants for the payment of stipends to pupil teachers will be made only to those schools in regard to which the Inspector may report that the master is competent to instruct such pupil teachers; and the continuance of such stipends as well as the amount of gratuities to be assigned to the masters for the instruction of the pupil teachers, will depend upon the proficiency of the latter.

5th. Grants of school books, maps, or apparatus at reduced prices will be accompanied by the condition that the books shall be appropriated bona fide to the use of the masters and scholars, and that due means shall be taken for their preservation.

8. Grants will also be given in aid of scholarships and of stipends for normal students, the rules for which will be notified hereafter.

9. No payments will be made by Government, until the proportion of funds, which under the conditions of the grant is to be contributed from local or other sources, shall have been actually paid.

10. It is to be distinctly understood that grants-in-aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any school on the ground that any particular religious doctrines are taught or not taught therein.

11. The Government of India have intimated that the foregoing rules are to be considered provisional and that they may be eventually superseded by a code of rules applicable to the whole of India.

Office of the Director of Public Instruction, August 17th, 1855.

A. J. ARBUTHNOT,
Director of Public Instruction.

THE GOVERNMENT NORMAL SCHOOL. 234

This Institution has been established by Government for the purpose of supplying well qualified Masters for the Schools now in existence or hereafter to be established in the Presidency.

It was opened in presence of the Governor of Madras, the Director of Public Instruction, and several leading men of the Presidency in March 1856.

This Institution has been entirely re-organized since its establishment and now consists of two Departments—an English and a Vernacular—containing together, upwards of 450 students and pupils.

In the English Department that language is the medium of Instruction. This division embraces two Normal classes (for particulars of which see notices) and two Elementary Schools, one named the Practising, the other the Model.

Tamil is the medium of instruction.

In the Vernacular Department, which includes a Normal class, to which twelve Scholarships are attached, and a Practising School.

The present Educational staff is :

Principal.
Vice-Principal.
Vernacular Assistant Training Master.
Normal Master.
Master of Model School.
Writing Master.
Four Pundits.
Two Assistants.

Twenty-five Government Scholarships of 30, 20 or 15 Rupees per mensem ; 25 of 4 Rupees, and 12 of 3 Rupees per mensem are attached to the Institution and are awarded, when vacant, to such candidates for admission as pass the most satisfactory examination in certain prescribed subjects. (See Notices.)

The site of the Institution is the building in Vepery formerly occupied by the Grammar School.

Some years must elapse before its success can be rightly judged of, as more depends on the character of the men whom it sends out than on their attainments as shewn in an examination. The possession of accurate and extensive knowledge is a necessary characteristic of a School Master, but of little use, rather injurious indeed, unless under the guidance of sound principles.

EDUCATIONAL NOTICE.

1. It is hereby notified for general information that a Government Normal School for training Teachers was opened at Madras on the 3d March 1856, in the premises at Vepery, formerly occupied by the Vepery Grammar School.

2. The design of the institution is to provide competent Teachers for employment as Masters or under Masters in the Anglo-vernacular Schools which have been or may be hereafter established throughout the Presidency (whether public or private), and to raise up a class of training Masters with a view to the eventual improvement and extension of vernacular education by the establishment of Schools in the Provinces for the training of Teachers for vernacular Schools.

3. Candidates for admission as students to the Normal School must be at least 17 years of age, and free from any bodily infirmity tending to impair their usefulness as School-masters.

4. They will be required to produce certificates of moral character and conduct, and to show, on examination, a competent knowledge of the following subjects :

English, comprehending a competent knowledge of Grammar, and ability to read and explain any moderately easy passage from a standard prose author.

Writing, from Dictation.

History, including an acquaintance with the leading facts in the Histories of England and India.

General Geography, and particularly the Geography of India.

Arithmetic, comprehending the four simple and compound rules, Reduction, Vulgar Fractions, Simple Proportion and Simple Interest.

The Tamil or Telugu Language, (at the Candidate's election) including translation into English and vice versa. Candidates will also be required to answer such grammatical questions bearing on the passages selected for translation from the vernacular languages as may test their ability to parse and their knowledge of the construction of the vernacular languages selected.

5. Twenty-five Scholarships of the amounts noted in the margin are attached to the Normal School, and such as are vacant awarded on the result of examinations held half-yearly in June and January.

Ten Scholarships of Rupees 15 per mensem.

The passages selected for translation will be somewhat more difficult than those given in the examination for admission and for Scholarships of the 3d Class.

FOR SCHOLARSHIPS OF THE 1ST CLASS.

The Tamil or Telugu Language, (at the candidate's election) including translation into English and vice versa with grammatical questions and an abstract or precis in the vernacular language of a passage selected from a standard English author, such as may test the candidate's facility and correctness of expression in vernacular composition.

7. Each scholar will be considered a probationer for the first two months after his election, to enable the Principal of the Normal School to form an opinion as to his aptitude for the art of teaching. Subject to this proviso and to the condition of the scholarship holder manifesting due proficiency at the periodical examinations of the Institution, each scholarship will be tenable for two years; at the end of which period, or sooner, if he obtains a certificate of qualification, the holder will be appointed as a teacher in a school, on a salary of Rupees 50 per mensem or higher, according to the grade of his certificate; or in the event of there being no vacancy at the time of his passing his final examination, he will be allowed to retain his scholarship until a vacancy occurs.

Government Normal School. J. TOWNSHEND FOWLER,

GOVERNMENT NORMAL SCHOOL.

A Preparatory Normal Class has now been added to this institution consisting of not more than twenty-five Students; having for its object the earlier Education of those intending to become School-masters than is posible while they enter into the Normal Class Proper without any perparation by a special course of previous study.

Twenty-five Scholarships of Rs. 4 per mensem each, are available for this Class, and are awarded to such Candidates as pass a satisfactory Examination in the following subjects.

Tamil or Telugu.	Reading, Grammar, Paraphrase, and Translation, the Exercises being selected from easy authors.
English.	As in the Vernacular.
Arithmetic.	The first four rules Simple and Compound, reduction, proportion and Vulgar fractions.
History.	India (Morris') England (Gleig's school series) or Outlines published by Parker.
Geography.	The General Outlines of Asia and Europe; India more particularly.

Any one passing a good examination in these Five subjects is admitted, but for those who have read further, papers are added, in

Algebra, to the end of Division; and Euclid, to the end of the first book

Candidates for admission into the Preparatory Normal Class must be at least 17 years of age, and free from any bodily infirmity tending to impair their future usefulness as Masters.

The Students of this Class are examined half yearly, when such as prove competent are promoted to the Normal Class, on Scholarships varying from Rupees 15 to Rupees 30 per mensem.

None are admitted but such as intend to become Schoolmasters; and each student is considered a probationer for the first two months after his election, to enable the Principal to satisfy himself of his aptitude for the art of Teaching. Subject to this proviso and to the condition of the Scholarship-holder shewing due proficiency at the periodical Examinations, each Scholarship is tenable until its holder is promoted to the Normal Class. This generally takes place at the end of the first year, or in the middle of the second.

The object of this Institution is to afford to Sons of Christians in Madras and in the Mofussil a thorough liberal and Christian education. The generous bequest of the late Captain Doveton, united with the funds formerly collected for a Protestant College, has enabled the Committee to make arrangements for the efficient carrying out the object they profess.

It is intended ultimately to unite a complete Collegiate course of instruction to the schools already in operation; but at present it is thought advisable to confine the efforts of the Officers of the Institution to the Schools alone. In the Primary School, it is the attempt of the Masters to give a thorough Classical and Mathematical education, equal in every respect to that given in the Public Schools in England.

The number of scholars at present on the roll of the Institution is 211; of whom 109 are in the High School, and 102 in the Primary School.

THE Agricultural and Horticultural Society of Madras was established on the 15th July 1835, chiefly by the erection of Dr. Wight. Its success has been mostly gratifying, and its sphere of usefulness is now widely extended.

The Garden at present occupies a space of about 12 acres, originally granted by Government. A large portion is laid out as an ornamental pleasure ground, forming an agreeable promenade for the Public; and the remainder is devoted to nurseries for the propagation of such trees, shrubs, and plants, as are in general request. An extension of the nursery for seedlings and cuttings is now in progress, with the view of forming a ground work for a system of practical Indian Arboriculture, and of enabling the Society to meet public demands.

The number of ordinary Members fluctuates from 70 to 100, besides 4 Honorary, and 2 Extraordinary. An extensive correspondence is maintained with Botanists, Planters, and Agriculturists in various parts of the world. Large importations of seeds are made annually from England—these are distributed gratuitously to Members, and also to the poorer classes, Ryots, Pensioners, and Market Gardeners.

Annual shows of Horticultural produce take place, which are numerously attended— and on these occasions medals and pecuniary rewards are awarded to successful exhibitors many of whom are Natives.

A Subscription of Rupees 7 per quarter entitles a Member to a large supply, annually, of Flower and Vegetable Seeds suited to the climate. Grafts of Fruit trees and shrubs are also destributed to Subscribers, according to the available Stock in the Garden.

Memorandum.—All Ladies and Gentlemen visiting the Society's Garden will be shown every attention, although they may not be Subscribing Members On Tuesday Evenings, with the permission of the Right Honorable the Governor the Garrison Band attends at the Gardens, and seats are arranged for Visitors.

Mr. G. Williams.....North Canara.
Mr. S. Muller.....In charge of Accounts.
J. T. Maclagan Esq.....

There are Conservancy Establishments for the planting and preservation of Forests in Canara, and Coimbatore. In all they pay their expenses and return a profit. A separate Establishment for the entire Presidency is being organized. At present Overseers are located at Huillial, Ancola and Sircee, and others are to be stationed at Palghat and Pootoor. An extensive Teak Plantation exists on the banks of the Nellumboor River in Malabar. Periodical sales of Timber by auction take place on account of Government. Means have been taken to stop the destruction of Forests by fire and stray Cattle. Nurseries have also been established.

GENERAL INSTRUCTIONS TO ASSISTANTS.

1. To keep a Diary of work done.

2. To obtain a complete knowledge of the quantity and quality of Timber in each Forest of the District, and to prepare a Forest Chart according to a fixed scale, indicating as far as possible the number and size of the more valuable Forest trees within their respective ranges.

3. To prevent any kind of depredation or damage being committed in the Forests, to aid in which the Civil Authorities will give every support in their power. It will be the duty of the Assistants also to make circuits of the Government Forests, and to prevent private individuals cutting or damaging trees of any description in them, and to complain to the nearest Police Official against all who violate the order—to be dealt with according to the offence.

4. To improve the Forests by clearing, planting, and by unremitting attention to young trees. To see that Teak and other fine Timber is carefully seasoned, and to take care that no trees are felled except under the Orders of the Forest Department, and when felled that the Timber is properly protected. If Forests are being worked by Contract to watch against injury to seedlings and undersized trees, also to see that trees are cut near the root (always within two feet) and to guard against wastage of timber from any cause whatever.

5. To present Monthly Returns and Half yearly Statements of the work done.

6. To supply Tabular Statements of the quantity and description of the seasoned and green Timber contained in their respective Districts. Personally to pay the Establishment, and to take every care of the health of the employees. Also to report every instance of neglect on the part of their Subordinates.

7. To give details of all sales effected whether by notification or otherwise.

8. To transmit to the Office of the Department as opportunity offers, any new or remarkable production of the Forests.

9. The services of the Assistants belong entirely to Government, and they are strictly prohibited from engaging in private transactions of any kind whatever.

This Institution was established in the year 1808, for the purpose of affording to old, infirm and deceased Natives, assistance in food, clothing, lodging and medical attendance. Since that period it has entertained nearly 300 persons daily; and during the famines which devastated the country in 1824 and 1833, it was the means of saving vast numbers from starvation and death. Throughout the famine of the latter year no less than 30,000 individuals were on an average maintained every day. Wretchedness under every variety of form is here admitted; and the bare existence of wretchedness alone is sufficient to obtain immediate relief.

EVENTS—1857.

ORIENTAL.

THE INDIAN MUTINIES DURING 1857:

COMPILED FROM THE MOST AUTHENTIC SOURCES.

THE commencement of the excitement in the Native Army of Bengal, resulting in the fearful disasters that form the subject of these pages, must be dated from the commencement of the year. The cartridges used with the Enfield Rifles recently introduced had the ball end greased for the purpose of lubricating the bore of the barrel; and this grease, it was rumoured, consisted of the fat of pigs and cows. Reports were also secretly and widely circulated that a forcible conversion to Christianity of their Hindu and Mussulmaun Soldiers, was contemplated by the Government, and that the first step towards this end was the employment of the new cartridges, the biting of which would be destructive of caste. The absurdity of the report proved no obstacle to its reception. The minds of the Sepoys were filled with ill-grounded fears and bad feelings. The uneasiness manifested itself first at Dum Dum, among the men attached to the School of Musketry, but as the strongest assurances were at once given, that no intention of interfering in the most distant manner with their caste had, or ever would be entertained by Government, that their religious scruples should be, as they always had been, carefully respected, and that all reasonable objections to the composition of the grease should meet with attention, the men appeared satisfied and for the time the agitation subsided.

1857.

Uneasiness felt at Dum Dum.

This appearance of content soon proved temporary. In February the prevalence of injurious rumours among the Sepoys at Dinapore, Dum Dum, Barrackpore, and Fort William, was known to the authorities. From Regiment to Regiment disaffected communications were understood to be passing; malicious projects to undermine the loyalty of the Native Army were believ-

ed to be in progress, though conducted with such secrecy as to escape detection, and the disturbed feeling, toward the end of the month, began to show itself in overt acts of Mutiny. In the meantime to strengthen the European Force in the neighbourhood of Calcutta, orders were sent to Burmah for the transfer to Bengal of H. M. 84th Regiment. On the 19th February the 84th reached Calcutta and were posted at Chinsurah. The 34th B. N. I. were the first to display signs of dissatisfaction. Secret meetings were held and groups of earnest talkers in the Lines and Bazaar showed plainly that all was not right. The Commanding Officer, Lt. Col. WHEELER, held parades for the purpose of soothing by explanation the excited minds of his men, and quiet seemed to be restored. The calm was but superficial. On the 26th February a detachment of the 34th with European Invalids halted at Berhampore, where the 19th B. N. I. were stationed. The day following, the latter Corps refused to receive the percussion caps for blank firing on the morning of the 27th, alleging their ignorance of the mode in which the cartridges had been prepared. This refusal was followed up by the Sepoys breaking open the Bells of Arms, in the middle of the night and seizing their arms, which they refused to lay down until confronted by a detachment of Artillery and 11th Irregular Cavalry. Lt. Col. Mitchell, the Officer Commanding the 19th, on being informed that the men were prepared to lodge their arms, withdrew the Artillery and Cavalry, and order was re-established. In a petition forwarded a few days after the outbreak from the whole Regiment to the General Commanding the Division, it was alleged, that the objection to take the cartridges proceeded from religious scruples. A Court of Enquiry was at once held on the conduct of the 19th and of its Commanding Officer, and the proceedings transmitted for the Orders of Government.

February 26th. 19th B. N. I. Mutiny at Berhampore.

The Madras Presidency was for a moment disturbed by the 1st Regiment M. N. I., in consequence of some deficiency in the arrangements for the conveyance of their families, unanimously refusing to march from Vizianagrum. However on the arrival of the Brigadier the men shouldered arms and marched out of the Cantonment.

1st M. N. I. at Vizianagrum refuse to obey orders

The arrest on the 10th March of two Sepoys of the 2d B. N. I. Grenadiers, for mutinous conduct whilst on duty in Fort William, was evidence that the spirit of disaffection was still spreading. These men quitted their own Guard and proceeded to the Mint Guard in Calcutta, to prevail upon the Soobadar in command to march with his Guard into the Fort in order to take part in a combination to seize the place. The Soobadar at once placed them in confinement. On a clear conviction of the offence before a Native General Court Martial they were both sentenced to transportation for the term of fourteen years. The same Court Martial also sentenced to be dismissed from the Service, a Jemadar of the 70th B. N. I. an Officer of thirty-three years' Service, for having about the same time made use of mutinous expressions, and allowed an illegal meeting of Non-commissioned Officers and Sepoys of the 70th to be held in his hut, in the lines of the Regiment at Barrackpore.

An instance of "passive Mutiny" occurred on the 26th of this month in the 63d B. N. I. forming part of the Southal Field Force, in Camp at Soorce. About thirty men, belonging to the Grenadier, 2d and Light Companies, declined to accept their furloughs on the ground that the Barrackpore Regiments would not take theirs. The men had up to the 26th appeared ready to avail themselves of the indulgence, and in excellent spirits at the prospect of its near approach. The untoward change in their purposes was ascribed to the arrival on the previous evening in Camp of two Sepoys, incog. from Barrackpore. The refractory Sepoys having in the course of a few hours returned to a sense of their duty and expressed penitence, Government thought fit to pass over their offence, though Major General Hearsey urged the summary dismissal of the men who had taken the lead in the affair.

63d B. N. I. at Soorce refuse to take furloughs.

A still more flagrant violation of discipline occurred on the 29th of this month at Barrackpore. A Sepoy of the 34th B. N. I. intoxicated with "bhang," fired at Lieut. Baugh, Adjutant of the Regiment; killed the horse on which the Adjutant was mounted, and with his tulwar severely wounded both him and the Serjeant Major whilst they were endeavouring to apprehend him. This violent outrage was perpetrated about 5 P. M. in front of the Quarter Guard of the Regiment, and in presence of crowds of Sepoys belonging both to the 34th N. I. and 43d N. I. who, with the exception of a single man, quietly looked on whilst an English Officer was cut down by their mutinous comrade. The Guard was drawn up under the Jemadar, by whose orders it refused to lend any assistance. Major General Hearsey, Commanding the Barrackpore Division, on receiving intelligence of the affair galloped at once to the scene of disturbance, when the mutineer shot himself. The wound not being fatal, the man was made a prisoner and reserved for a more ignominious end.

March 31st. 19th B. N. I. disbanded at Barrackpore.

Batteries from Dum Dum, the 19th B. N. I. were marched in from Berhampore, and, in presence of the whole body of Troops at the Station, disbanded on the 31st March. How widely extended were the efforts now being made to tamper with the fidelity of the Native Army, may be gathered from the fact, that about the time when these occurrences were transpiring near Calcutta, an attempt was discovered to seduce from their allegiance the men of the Musketry Depôt at Sealkote. A letter calling upon the men to imitate their brethren at Barrackpore in resisting the design of Government to break their caste, fell into the hands of the authorities. The incendiary missive had been written as from Barrackpore. Fortunately it failed to elicit then the desired demonstration.

Mutinous letter discovered at Sealkote.

April 8th. Execution of a Sepoy at Barrackpore, for firing at Lieut. Baugh.

The first execution of a Sepoy in connection with these disturbances took place on the 8th April at Barrackpore. The spectacle was rendered as impressive as possible. All the Troops of the Station were assembled in front of the gallows. The 70th B. N. I., 43d B. N. I., 34th B. N. I., and 2d B. N. I. were formed up on the two sides, the European Troops in front, when Mungul Pandy, the Sepoy of the 34th who cut down the Adjutant, was brought forward and hung before their faces. The 34th appeared considerably disheartened; no attempt to interrupt the execution was made, and at the conclusion, the authorities concurred in thinking that the further spread of disaffection was checked, and that there was no reason to fear fresh outbreaks. This execution was followed on the 21st by that of the Jemadar of the Guard, who refused to render assistance on the occasion of the murderous attack on Lieutenant Baugh.

April 21st. Jemadar of 34th N. I. executed.

Excitement at Benares, and other large stations.

Benares was now disturbed by flying rumours of an intended rising among the Sepoys. The causes of discontent were those assigned in other places, —the objectionable cartridges, and unsatisfied demands for increase of pay. The absence of European Troops at the Station increased the sense of insecurity and was strongly deplored. At most of the Stations in the North West, incendiarism began to make its appearance. At Delhi, Jullundur, Meerut, Umballa, and Dinapore, the almost daily recurrence of fires excited the worst apprehensions. It was felt that the mutinous spirit was fast spreading through the whole Army. Strong measures of repression were loudly demanded in the public journals, and the opinion was fast gaining ground that the merciful policy of the Authorities towards the first offenders would turn out to be ill-requited.

The month of May was ushered in by a revolt in the 7th Regiment of Oude Infantry near Lucknow. After unavailing attempts on the part of the Commanding Officer to re-establish discipline, the matter was reported to Brigadier Grey, who went down to the lines, expostulated and warned, but the Regiment doggedly refused to have anything to do with the new cartridge. On the following day, the 3d, a letter was intercepted from the 7th to the 48th B. N. I. in the Lucknow Cantonments, which left no doubt of the mutinous spirit of the former Corps. With his usual energy and decision Sir Henry Lawrence proceeded, accompanied by his Staff and a strong body of Troops, to the lines of the 7th, about seven miles from Lucknow, resolved to teach them a severe lesson if they did not at once return to their duty. But the Mutineers terrified at the approach of the force fled, throwing away their arms and accoutrements. The Cavalry pursued and captured some of the fugitives; most of the others returned subsequently, and the whole Regiment was disarmed. The Commissioner of Oude, with the sanction of Government, disposed of the affair by dismissing some fifteen Sepoys and the Native Officers, with one or two exceptions, and forgiving the rest. At a grand military Durbar held for the purpose, a Subadar, Havildar Major, and two Sepoys who had rendered conspicuous service in bringing to light the treasonable designs of the 7th, received valuable presents from the hands of Sir Henry Lawrence, who addressed the assembled Officers and Sepoys in eloquent, stirring language, well adapted to the occasion. After this event fires occasionly broke out, but quiet seemed restored to Lucknow.

May 3d. Mutiny at Lucknow.

On the 6th took place the disbandment of the 34th B. N. I. at Barrackpore, the three Companies stationed at Chittagong, whose conduct had been unexceptionable, were, however, excepted. The General Order of the Government read to the assembled Troops, briefly recapitulated the offences of which the 34th had been guilty: the attack upon the Adjutant and Serjeant Major; the refusal of the Quarter Guard to do its duty, and the sullen withholding of all assistance by the men of the Regiment; it denounced them as silent spectators of a long continued act of insolent Mutiny and thereby liable to the punishment of Mutineers; their further services were declared rejected and the Regiment was disbanded. The Order contained in conclusion, a strong reiteration of the assurances previously given, that the obnoxious cartridges contained nothing whatever offensive to the religious scruples of Hindoos or Musselmans, which should continue to be as carefully respected as they had been up to that time by the British Government. This Order was read at the head of every Regiment in Bengal. The 34th were then stripped of their arms, accoutrements, and red coats; paid up in full of all demands and

dismissed to their homes. Their bearing on the occasion was characterized by extreme levity and recklessness, evidence sufficient that they had drunk deep into the spirit of disaffection. Their fate was regretted by none, for it was felt to be richly deserved. A few exemptions were made, of men whose innocence could be clearly established; the number dismissed amounting to 363, of whom 135 were Brahmins,—100 Rajpoots;—50 Hindus of inferior Castes;—49 Musselmauns;—and 29 Sikhs.

And now the dark cloud that had been long felt to be gathering silently and ominously over Upper India,—

May 9th. Mutiny at Meerut.

of which the explosions at Berhampore, Barrackpore, and Lucknow were presages, warning wise men to put on their cloaks,—burst at Meerut. On the 9th of May some eighty-five men belonging to the 3d Light Cavalry were sent to Jail in pursuance of the sentence of a Court Martial, for having refused to use their cartridges. These cartridges were not the new ones, unctuous with caste-destroying fat of swine or cows, but the old, unanointed cartridges, that had been bitten without detriment to caste many a long day. In this instance it was clear that the cartridges were the merest pretext; discontent and disloyalty must have been long smouldering in the breasts of the Sepoys, and could be fanned into a blaze by one trifle as well as by another. On the day following, the Sepoys of the 3d *en masse* burst open the doors of the jail and set their comrades at liberty. The 3d Light Cavalry were at once joined by the 11th and 20th B. N. I. by the people of the city, the bazaars, and adjoining villages. This formidable body of insurgents fired the Cantonments and Civil lines, and commenced to pillage. Before the European Troops, the 6th Dragoon Guards, H. M. 60th Rifles, and the Horse Artillery, could reach the principal scene of disturbance, night had fallen, and under cover of the darkness the Mutineers effected a safe retreat out of Meerut. But during the brief hour that their madness ruled, the property and lives of Europeans were indiscriminately sacrificed. These pages are not the place for a record of the names of all the victims, helpless women and children as well as brave men; of the diabolical fury first let loose at Meerut; or of the revolting barbarities there commenced which have since filled so many hearts with sorrow, darkened the homes of Britain, and made the ears of all Christendom to tingle. The object of this narrative is to present only a chronological detail of the leading events of this memorable rebellion; not to furnish a picture of the dreadful occurrences themselves. It is but too well known that the history of modern civilization can produce no tragedy of such proportions, of such intense pathetic interest, as that which was now enacted in Hindostan.

The Mutineers marched at once upon Delhi, having first occupied the bridge over the Hindun, and broken

the telegraphic communication between Delhi and Agra, also between Meerut and Allyghur

They arrived at Delhi on the 11th. The Native Troops forming the garrison of Delhi, headed by the 38th N. I. at once fraternized with the men from Meerut. The combined Regiments, the 11th and 20th from Meerut, and the 38th, 54th and 74th in Delhi, having shot their Officers and killed all the Europeans that ill chance threw in their way, took possession of the city, and made some attempt to organize a regular Government, beginning by proclaiming the heir apparent to the Mogul throne, King of Delhi, and taking all measures to strengthen their position. The number of lives lost is not even yet accurately known, some that were at first supposed to have been killed having since been ascertained to have reached places of shelter. Among those that fell were the Commissioner, Mr. Frazer and his Assistant Captain Douglas. One of the most conspicuous acts of gallantry that this Rebellion has witnessed, though deeds of cool and chivalrous daring have not been few or far between,—was performed on this occasion by Lieut. Willoughby of the Bengal Artillery, Deputy Commissary at Delhi, who at the risk of his own life, which has since been forfeited to his gallantry, blew up the Magazine. The European residents who had escaped the tulwars of the Sepoys, made the best of their way to the nearest places of refuge, and Delhi again for a brief space became the seat of Mahommedan misrule.

On the 13th disaffection broke out in the Regiments stationed at Ferozepore, the 45th and 57th B. N. I.

May 13th. Outbreak at Ferozepore.

Brigadier James with H. M. 61st, aided by the 10th Light Cavalry who remained loyal, having first blown up the Magazine, succeeded in reducing the revolters and defending the Station without loss of life. On the same day on which the 45th and 57th broke out at Ferozepore, the Native corps at Meean Meer, the camp of Lahore, were

disarmed by Brigadier Corbett, with the assistance of H. M. 81st and a strong force of Horse and Foot Artillery. The Native portion of the Lahore garrison consisted of the 8th Light Cavalry, the 16th, 26th, and 49th Regiments of Infantry.

The Commander-in-Chief on the 14th issued an Order to the Army informing them, that it had never been the

intention of Government to force them to use any Cartridges to which there could be any objection. His Excellency explained that the new rifle was a great improvement upon the old Musket, but that this advantage would be sacrificed if the weapon were used with reluctance; under these circumstances, notwithstanding the perfectly harmless nature of the cartridges, he announced that the use of the new cartridges was to be from that time discontinued in the Native Army. On the same day an Order was promul-

gated by the Governor General in Council, authorizing Officers commanding Divisions, Brigades, or Stations, to appoint Courts Martial for the trial of Native Officers or Soldiers, and to confirm and carry into effect at once, or commute, or remit all sentences passed by such Courts on the offenders brought before them. Courts Martial assembled under this authority to consist of five Commissioned Officers, either European or Native, or both. This Order was confirmed by Act XIX of 1857, passed by the Legislative Council on the 16th May.

At the urgent desire of the Lieut. Governor of the North West Provinces, Martial Law was proclaimed in Meerut and the adjoining districts. A strong body of the Bhurtpore Horse and Foot, under English Officers, with six guns marched from Bhurtpore and took up a position in advance of Muttra to keep open the communications with Delhi. On the 16th the Sappers and Miners who had been marched into Meerut from Roorkee, to help in defending the Station, mutinied—and having shot their Officers, went off to swell the mutinous force in Delhi. They were, however, followed by the Carabineers and Horse Artillery, and the greater part cut up. Troops were now being concentrated, as fast and in as large numbers as circumstances would allow, from Meerut, from Umballa, and from the Hills, for the purpose of retaking Delhi. The Maharajah Scindia, of Gwalior, on hearing of the events that had taken place, immediately came forward and offered the services of the whole or any part of his Troops to the Lieutenant Governor of the North West Provinces. In accordance with a requisition from the Governor General, the 1st Madras Fusiliers left Madras on the 18th under their gallant Commanding Officer, Colonel Neill, for service in Bengal. H. M. 35th Regiment was also ordered up with all expedition from Pegu. At the same time an order was issued by the Governor General in Council in which, in order that instances of conspicuous gallantry and loyalty might be promptly rewarded, the Commander-in-Chief, Lieutenant Governors, Officers Commanding Divisions, Brigades and Stations, were empowered to promote Soldiers to the Commissioned or Non-commissioned ranks of the Army, who had by eminent services merited such distinction.

On the 20th four Companies of the 9th B. N. I. stationed at Allyghur after behaving very well for some time, suddenly broke out. Their Officers were obliged to leave them, but no European was injured. The Treasury was plundered and the prisoners in the jail liberated. A detachment of the 1st Irregular Gwalior Cavalry marched from Gwalior to Allyghur and escorted the Europeans in safety to Hattrass. At

Matters were all this time being managed with admirable and successful vigour in the Punjaub under Sir John Lawrence, General Reed, and Brigadier Chamberlain. Hanging, blowing away from guns, disbandment, followed sharp upon the first appearance of disaffection, and as a consequence the Punjaub, with Dhost Mahomed on the frontier, was kept in order The 21st, 24th, 37th and 51st Regts. of Native Infantry and the 5th. Light Cavalry were disarmed at Peshawur on the 22d. The 55th B. N. I. mutinied at Murdaun three days after, but they were pursued, the greater part cut up, some caught and brought back to expiate their crime by a public execution. The 5th B. N. I. were also disarmed at Umballa.

Mutiny of 55th B. N. I.

The 70th B. N. I. having presented a loyal address to the Government praying to be led against Delhi, the Governor General went down to Barrackpore to address the Regiment in person. Lord Canning promised to accede to the request of the Regiment.

The advanced guard of the force collected for the reduction of Delhi under the Commander-in-Chief, reached Kurnaul on the 21st, the main body still remaining for some days at Umballah. The cause of the delay was the absence of heavy Artillery at that station, which rendered it necessary to wait until a Siege Train could be brought from the nearest Arsenal, which happened to be Phillour. When the guns were within a short distance of the camp General Anson advanced and had reached Kurnaul, when he was attacked by Cholera and died there on the 27th. Major General Sir Henry Barnard, at the head of the Sirhind Division, succeeded to the Command of the Force, and Sir Patrick Grant, was summoned from the Command of the Madras Army to be Acting Commander-in-Chief in Bengal, Major General Reed, the Senior Officer in Bengal, being appointed Provincial Commander-in-Chief until the arrival of General Grant at Calcutta.

May 27th. Death of Genl. Anson at Kurnaul.

In the meantime every large Station in Upper India had its fit of excitement; Agra, Benares, Allahabad, Bareilly, Cawnpore, with others, were visited with a panic of more or less severity according to circumstances. The usual Military demonstrations on the Queen's Birth-day were limited to a General Salute, the *feu-de-joie* being

prohibited. The Officers of Government, both Civil and Military, pursued the most conciliatory policy, and instances of cool daring and unruffled presence of mind under very critical circumstances, occurred too numerous for mention. At Allahabad two men, apparently discharged Sepoys, were apprehended by some men of the 6th Bengal Native Infantry in the act of tampering with the Sepoys. The informers were immediately promoted, and the 6th Native Infantry Volunteered to march against the insurgents at Delhi.

At Cawnpore the agitation prevailing during the latter part of this month was extreme, as the garrison was composed entirely of Native Troops, with the exception of one Company of European Artillery. The Sepoy corps there were the 1st, 53d, and 56th B. N. I. the 2d Light Cavalry, and two Companies of Native Artillery. The tone of feeling among these Troops being unsatisfactory, the Europeans, including not only the Civil and Military Officers with their families, but a number of people who had come to Cawnpore from other Stations for safety, took possession of a large barrack, and under the leadership of Sir Hugh Wheeler proceeded to form an intrenched camp, placing guns in position and strengthening the place in every possible way to meet any attack. Two guns and three hundred men were brought in to their aid by the Maharajah of Bhittoor. By the end of the month a detachment of H. M. 84th Foot arrived at Cawnpore, and confidence was restored for a time.

The Station of Nusseerabad having been drained of the Bombay Troops in the beginning of the year, with the exception of the 1st Bombay Lancers, to supply the exigencies of the Persian War, was garrisoned by the 15th Bengal Infantry, and the 30th, with a Company of Native Bengal Artillery.

May 28th. 15th B. N. I., 30th B. N. I. mutiny at Nusseerabad.

The Bengalees had long been in a wavering state and on the 28th broke out into open mutiny. The Bombay Cavalry, though numbering only at the time about 250 sabres, with admirable gallantry and loyalty charged the Mutineers again and again. Their bravery, however, was not rewarded with success. The Mutineers marched off with the Guns, colours flying and drums beating, to Delhi, and the Lancers were obliged, having lost several of their Officers, to retire upon Ajmere, escorting the Officers and families of the revolted Regiments.

At this time too the Native Regiments at Agra began to manifest symptoms of disaffection. A detachment consisting of a Company of the 44th B. N. I. and one of the 67th B. N. I., the Regiments stationed at Agra, had been despatched to Muttra to bring treasure to Agra. On their way back to

the latter Station the men mutinied, seized the treasure, and proceeded to Delhi. Mr. Colvin at once resolved upon disarming the remainder of the 44th and 67th, which was effected at Agra without disturbance on the 31st. The Lieut. Governor also issued a Proclamation offering pardon to all who would lay down their arms. This being disapproved of by the Supreme Government, it was withdrawn and another substituted, offering pardon only to such mutineers as had not been concerned in the commission of any outrage, on condition of their delivering up their arms to the nearest Civil or Military authority.

After a good deal of uneasiness and many sinister rumours, the Troops at Lucknow broke out on the night of the 30th. Sir Henry Lawrence, who had a short time before been created Major General, had displayed his usual foresight and energy in making all necessary defensive preparations. With the help of the guns of the European Field Battery and the Bayonets of the Queen's 32d, the Revolters, who were Sepoys of the 7th Light Cavalry, the 13th, 48th, and 71st Bengal Native Infantry, were driven out of Cantonments and pursued to the distance of fifteen miles. No disturbance took place in the city of Lucknow. Martial Law was at once proclaimed. Brigadier Handscomb was killed on the spot by a musket shot, on the first breaking out of the revolt.

Mutiny at Lucknow.

On the 30th a detachment of the European force, consisting of the 6th Carabineers, 60th Rifles, and Horse Artillery, started from Meerut under the command of Brigadier Wilson, and took up a position at Ghazee-ood-deen-nugger, about fifteen miles from Delhi. The Mutineers soon made their appearance and a smart engagement followed. The mutineers were repulsed with the loss of their guns, but they returned to the attack on the following day with great pluck. Having suffered a second defeat, and numbers having fallen beneath the sabres of the Dragoons, no further attempt was made to dispossess the Brigadier. The Force from Umballa was known to be fast approaching and the Mutineers betook themselves to the work of preparing for its reception.

May 31st. Action at Ghazee-ood-deen-nugger.

The Station of Bareilly after having been kept for some days in a state of excitement, witnessed on the last day of May the outbreak of the 8th Irregular Cavalry, and the 18th and 68th Native Infantry. Up to within an hour of the attack of the Sepoys, the Officers of the 18th and 68th persisted in declaring that their men were staunch and could be confidently depended on. Brigadier Sibbald was killed at the commencement of the Mutiny; the rest of the Officers were allowed to quit the Station, some proceeding to Moradabad,

some to Nynee Tal. The whole of the prisoners in the Jail, about 4,000 in number, were released. This Mutiny was attended with circumstances of peculiar atrocity and treachery. Only the day before the outbreak the men had earnestly assured their Officers of their fidelity, and had entreated them to send for their wives and families from the Hills, whither they had been despatched for security; promising to protect them with their own lives.

Arrival of European Troops at Calcutta.

By the commencement of June reinforcements of European Troops from Bombay and Ceylon were beginning to arrive at Calcutta, and were despatched with all speed to the Upper Provinces. By Dak and Bullock Trains detachments of H. M.'s 84th and the Madras Fusiliers proceeded daily to Benares and Allahabad, but the force at the command of Government was unhappily too small to admit of supplying aid even in the smallest quantity to a tithe of the places whence requisitions for assistance came. In addition to the Regiments just named, the Queen's 39th from Burmah, the 37th from Ceylon, the 76th from Bombay, the 64th and 78th from Persia, and the 5th from the Mauritius, altogether about 8000 British Soldiers arrived in Bengal in the course of the month. A Regiment of Europeans was also sent up the Indus from Kurrachee to strengthen Mooltan. Still each day brought in tidings of new revolts and massacres. On the 3d the Native Artillery, the 72nd B. N. I., the 1st Gwalior Cavalry and 7th Gwalior Infantry mutinied at Neemuch. The greater part of the Officers and their families escaped. A Bombay column nder Major General Woodburn was formed and moved at once upon Neemuch. On the evening of the same day the 17th B. N. I. stationed at Azimghur, mutinied. Treasure to the amount of seven and a half laks of rupees had that day passed through the Station escorted by some of the 13th Irregular Cavalry *en route* to Benares. This excited the cupidity of the men, who went in pursuit of it. The Officers escaped to Ghazeepore.

June 3d. Mutiny at Neemuch.

The Mutiny of the 41st B. Native Infantry at Seetapore broke out on the 3d of this month. The Colonel, though warned by a friendly Sepoy, would not believe but that his men were staunch; as in so many other cases paying dearly for his confidence. He was shot by his own men in the commencement of the outbreak. A few faithful Sepoys assisted the Officers and their families to escape in their buggies, and the party, consisting altogether of about 50 Europeans managed to reach Lucknow, after being two days and a night on the road. The Station of Seetapore was burnt to the ground.

Mutiny of the 29th N. I. and 28th N. I.

The news of the Mutiny of the 17th N. I. at Azimghur soon reached Benares and threw that Station into commotion. It was at once resolved by the authorities that the 37th Native Infantry should be deprived of their arms. Fortunately Lieut. Col. Neill had arrived at the Station the day before with a portion of the Madras Fusiliers, and his decision and boldness effected with comparative safety what would otherwise have proved a very disastrous and bloody business. A party of H. M. 10th and of the Fusiliers, with three guns, the Loodianah Regiment, Sikhs, and a squadron of the 13th Irregular Cavalry, was drawn up to disarm the 37th. These opened fire on the approach of the Europeans, killing and wounding many; at the same time the Sikhs, owing to a false alarm raised by one of the Troopers of the 13th, fired upon their own Officers. The guns quickly dispersed the Sikhs and the Irregular Cavalry, while the Europeans under the gallant Neill made a dash upon the 37th and drove them out of their lines. The next day the Cantonments were protected by guards judiciously planted and order and security were restored to Benares. The lives of the Civilians and their families were saved. About 100 of the Mutineers were killed, and 200 wounded; the rest fled, throwing down their arms.

June 4th. 37th B. N. I. mutiny at Benares.

The Mutiny of the Hurrianah Light Infantry and 4th Irregular Cavalry at Hansi and Hissar, occurred about the same period. The women and children that fell into the hands of the Sepoys at these places were wretchedly treated. The levies of the Bhurtpore Rajah also, who were employed to keep open the road between Agra and Delhi proved faithless, and their Officers, Captain Nixon and Captain Munbee of the Bombay Army, had great difficulty in reaching Bhurtpore with their lives.

The 6th Native Infantry at Allahabad had continued to behave remarkably well. They had volunteered to be led against the Delhi Mutineers, and were thanked and complimented in General Orders for their fidelity. This effusion of loyalty and approbation took place only a day or two before. On the 6th the "loyal" and bepraised 6th became the assassins of their own Officers, and after setting fire to the Church and every Bungalow in the place, looting the Treasury, marched off to Delhi. Very few Christians managed to escape; the liberated prisoners, to the number of 3000, having joined the Mutineers in the perpetration of all sorts of outrages. Colonel Simpson and Lieut. Sikhs from the Ferozepore Regiment, got into the Fort, when with the assistance of some Pensioners, a few European Volunteers, and the Sikhs who remained faithful, the Main Guard was disarmed and the Fort of Allahabad was saved. It was closely invested by the Rebels, but held against them by the determined band inside, until on the 11th, Lieut. Col. Neill with a detachment of Madras Fusiliers, who with great difficulty had made their way from Benares, succeeded in getting into the Fort by crossing the Ganges in boats. Another detachment of Fusiliers under Major Stevenson arriving the next day, Col. Neill now in Command of Allahabad, took measures for driving away the besiegers. By shot, shell, and sorties, the Rebels were beaten off into the surrounding villages. The communication between Benares and Allahabad was opened by a body of the Fusiliers and 13th Irregular Cavalry under Captain Fraser. The villages in the neighbourhood were then destroyed one after another by Col. Neill, and in spite of severe losses by sickness, cholera having broken out among his men, by exposure, and by incessant fatigue, the gallant defenders of Allahabad held good their position, and though in straitened circumstances effected the dispersion of the Rebels.

Mutiny at Jhansi.

The Mutiny at Jhansi followed close upon those just recorded. The Left Wing of the 12th B. N. I. was stationed there. On the first appearance of insubordination the few Europeans who happened to be in the place took refuge in a small Fort, or Magazine, which was intrenched and defended by two guns, where they managed to defend themselves for some time. But the numbers and perseverance of the Mutineers finally prevailed; the Fort was taken, and nearly the whole of its brave defenders fell victims to the fiendish cruelty of the 12th. The most horrible accounts are given of the treatment which such as fell alive into the hands of the Sepoys met with. Young children were torn asunder; and in one instance four were deliberately massacred before the eyes of their parents.

June 6th. Force from Meerut and Umballa join.

On the 6th the Force from Umballa was joined by that under Brigadier Wilson from Meerut, and the combined force under General Barnard advanced upon Delhi. The Army consisted of the 9th Lancers, 6th Carabineers, H. M. 75th and 60th, the 1st and 2d Fusiliers, three Troops of Horse Artillery, a Field Battery, Siege Train, the Punjab Guide Corps, the Goorkhas of the Sirmoor Battalion; a Detachment of Artillery Recruits, and the Head Quarters of the Sappers and Miners.

June 8th. Rebels driven within the walls of Delhi.

On approaching the city the General found the forces of the Mutineers strongly posted in an intrenched position on the heights above the Cantonments. An attack was at once made upon them, and notwithstanding a very stubborn resistance the position was carried, and the Rebels driven to take shelter within the walls of the city. In his despatch announcing this success General Barnard speaks warmly in praise of the Ghoorkha Battalion and the Contingent troops of the Native Rajahs, who had lent assistance. The only Officer killed was Colonel Chester, the Adjutant General, "esteemed for every qualification which could adorn the Soldier." The siege of Delhi commenced at once. The Rebels on the following days harrassed the besiegers by occasional sorties, but were repulsed with severe loss. In one of these sorties the Mutinous 60th, late of the Umballa Garrison, were conspicuous. The Corps of Guides, both Cavalry and Infantry, displayed distinguished gallantry on all these occasions. The Cavalry had made the astonishing march of 750 miles in 28 days, to reach Delhi. On the 12th, the 15th, and the 19th attacks were made upon the British Force, not only with resolution but with great judgment, but the affair of the 19th was the most formidable. The besiegers were on that occasion assailed both in front and rear. The Mutineers from Nusseerabad, had managed to evade all pursuit and with six guns appeared before Delhi on the 19th, and supported the attack of the Rebels from the city. They were completely routed, but several English Officers were killed and severely wounded; among the former Colonel Yule of the 9th Lancers. The operations of the siege were for some time almost brought to a stand still for want of reinforcements; the Force assembled under the walls being quite inadequate to the task of reducing the city.

Commencement of the siege of Delhi.

June 8th. Execution at Umballa. Mutiny of 36th and 61st at Jullunder.

A Subadar, Jemadar, and Pay Havildar were this day hung at Umballa in front of about 150 of their Regiment, the 5th B. N. I., for concealment of mutiny. The 5th had been previously disarmed. At Jullunder on the same date the 36th and 61st Native Infantry mutinied, and were joined by some men of the 6th Light Cavalry. The Mutineers then proceeded to Phillour, where the 3d Native Infantry fraternized. The united Corps then crossed the Sutlej a little above Loodianah, and eventually entered that town; but being hotly pursued by a body of Troops from Jullunder, consisting of a detachment of H. M. 8th Foot and some European Artillery, with a few of the 6th Light Cavalry who were true to their salt, they were obliged to decamp, and to render pursuit more difficult broke up into small parties. The majority of them succeeded in joining their companions in Delhi.

10th B. N. I. at Futteyghur mutiny.

The 10th B. N. I. after remaining staunch till the utmost confidence was placed in them, mutinied at Futteyghur on the arrival of the mutinous 41st from Seetapore. The European residents set off in boats from Futteyghur, and reached Bhittoor in safety, when they

were stopped by Nana Sahib's people, and placed in confinement. On the approach of General Havelock they were all barbarously murdered.

June 9th. Rising at Fyzabad.

A rising took place at Fyzabad on the 9th. This place is situated on a branch of the Ganges in the heart of Oude, and was garrisoned by the 6th Oude Irregular Infantry and the 22d B. N. I. The 6th gave the signal which was immediately responded to by the 22d. They took possession of the Battery, but offered no violence to their Officers, who were allowed to take their departure quietly by boat, and subsequently reached Dinapore. The behaviour of the 22d Sepoys to their Officers was almost romantic. They placed sentries over their Bungalows, over the Magazines, and public property, to prevent the towns people from looting; provided their Officers with boats, and presented them with money. All public property was seized in the name of the King of Oude. Another regiment of Oude Irregular Infantry, the 1st, under the command of Captain Thompson mutinied the day following at Pershadeepoor.

June 10th. 1st Oude Infantry mutiny.

Up to the 9th the conduct of the men had been most exemplary. They used their cartridges, ridiculing the notion of there being any thing objectionable in the composition of them. However, on the 9th, a Sowar of the 3d Irregular Cavalry made his appearance with a report that the Mutinous Troops from Sultanpore were approaching to attack the station. The report proved false, but in the night the regiment mutinied. They behaved very quietly, allowing the whole of the Europeans in the Station to leave without molestation.

Murder of Sir N. Leslie at Rohnee.

In contrast with the generous treatment of their Officers by the men of the Regiments just named, stands out that of the 5th Irregular Cavalry, a party of whom made a sudden attack upon their Officers, Major Macdonald, the Commandant, Sir Norman Leslie, the Adjutant and the Surgeon, Dr. Grant. Whilst these Gentleman were sitting at Tea in the verandah of Major Macdonald's house four men rushed in with drawn swords and made a murderous attack upon them. The Adjutant's wounds were so severe as to cause almost instant death, but the Commandant and Surgeon escaped with a few slight scratches.

June 13th. Attempted Insurrection at Nagpore.

The discovery of a plot to murder the Europeans at Nagpore threw the Station into great alarm during the night of the 13th. The originators of the scheme were the IrregularCavalry, who with the rabble of the city had planned very completely the surprise and attack. Parties of men had been distributed over the Cantonment in advantageous places, when the 1st N. I. to whom at the last moment the plot had been communicated in the hope of gaining their co-operation, gave the alarm to their Officers. The Arsenal, which was to be seized at once by the Insurgents, was instantly put into a condition of defence, the guns were loaded, and the troops that could be depended upon all under arms. A force was marched in from Kamptee under Colonel Cumberlege, and on the 17th the Russalah was disarmed. The trial of the ringleaders commenced the same day, and three were subsequently executed. Until confidence was restored all the Christian inhabitants took up their quarters on the Seetabuldee Hill, which had been well fortified.

June 13th. 1st Cavalry, Hyderabad Contingent, mutiny at Aurungabad.

At this time a plot was discovered among the 1st Cavalry, Hyderabad Contingent, at Aurungabad, to kill their Officers. On being addressed by their Commandant, Captain Abbott, they declared their refusal to march out of the limits of the Hyderabad Territories or to fight against men of their own religion. After being remonstrated with they apparently returned to a sense of their duty and the excitement subsided. A message, however, was sent to Major General Woodburn, at the head of the Moveable Column at Ahmednuggur, and he at once marched upon Aurungabad. The leaders in the revolt immediately fled, and perfect order was restored. Sixty four of the mutinous troopers were taken prisoners, brought to trial, and many executed.

June 14th. Gwalior Contingent revolt.

At Gwalior indications of unsettled feeling now warned the residents to be on their guard. On the 13th several bungalows were set on fire, when some of the Sepoys remarked that the spectacle of the day following would be still more wonderful. The next day on the parade ground the Officers were shot at, but happily few were hit. The Mutineers then went off to the house of the Brigadier and summoned him to appear, firing a few shots into the windows to quicken his movements. He, however, was saved through the intervention of a faithful Sepoy. The Officers fled to Agra, or to the Maharajah, who not being able in the temper of the troops to guarantee their safety at Gwalior, sent them off under a strong escort to Agra. At the same time the troops of the Contingent stationd at Sepree broke out, but the Officers, in like manner to those at Gwalior, managed to reach Agra in safety. The revolters marched towards Jhansi. Of the entire Gwalior Contingent there is no record of one Regiment having proved faithful. The unwavering fidelity of the Maharajah elicited repeated expressions of approbation and gratitude from the British Government.

On the 14th of this month two Companies of the 1st Native

Infantry seized the treasury at Banda, the Troops of the Nawab of Banda fraternizing with them. On the same day at Nowgong the Head Quarters wing of the 12th N. I. and of the 14th Irregular Cavalry, followed the example that had been set by the Left Wing of each corps at Jhansi, and broke out into open mutiny. Most of the Europeans from these Stations succeeded in reaching places of safety. Some days before the rising of the 1st, the residents at the large Station of Futtehpore, between Allahabad and Cawnpore, had fled across the Ganges to Banda for security. The Nawab of Banda hospitably entertained them and provided for their protection, until the insubordination of the Troops made it impossible for him to guarantee their safety any longer.

June 14th. Disarming of the Barrackpore troops.

On the 13th it came to the knowledge of Major General Hearsey that the Native Troops at Barrackpore intended to rise on the evening of that day. He accordingly sent for European Troops from Fort William and Dum Dum in order to disarm the Sepoys. The regiments disarmed were the 2d Grenadiers, the 34th, the 43d and the 70th. Besides disarming the Sepoys the Governor General in Council now deemed it expedient to disarm the Press, and an Act was passed by the Legislative Council, Act XV of 1857, to regulate the establishment of Printing Presses and to restrain in certain cases the circulation of printed books and papers Under this Act no person can print books or papers without a license which may be revoked at the pleasure of the Government. This was followed by another Act XVI, empowering Commissioners and Courts Martial to punish summarily all heinous offences in disturbed districts.

Passing of Acts XV. and XVI.

A follower of King of Oude tries to excite mutiny in Fort William.

On the day on which the Barrackpore Troops were disarmed, a Court Martial sat at Fort William for the trial of a man, said to be a follower of the King of Oude, who had been trying to tamper with the Sepoys in the Fort. A Sepoy of the 43d gave the information to the authorities, and arrangements were made accordingly to secure the man. The Court Martial sentenced him to death. On the night of the 14th, though guarded by European Soldiers, he effected his escape. At daybreak on the 15th a detachment of European Soldiers made a prisoner of the King of Oude, with his Prime Minister, and a part of his retinue. They were lodged at once in safe custody in the Fort. In consequence of the alarm pervading all classes of European society in Calcutta, a Volunteer Guard of Cavalry and Infantry, drawn from all classes of Christian citizens, was now formed with the sanction of Government, for the maintenance of peace and security.

June 15th King of Oude made prisoner.

It is now time to trace the progress of affairs at Cawnpore, where the gallant Sir Hugh Wheeler was holding out with the aid of about 150 fighting men, to defend the entrenched camp, containing from 400 to 500 women and non-combatants, against the Native garrison. That garrison consisted of the 1st, 53d and 56th Native Infantry, and the 2d Light Cavalry. General Wheeler's preparations, by intrenching the Hospital and placing guns in position, as well as the arrival of a small party of Europeans belonging to H. M. 84th and the Madras Fusiliers, have already been mentioned. Sir Henry Lawrence had also sent about 70 men of H. M. 32d—all he could spare, as he was himself in a very critical position. Still in spite of unmistakeable indications of disaffection, there were Officers who ridiculed these preparations, and persisted in reposing confidence in the good will of the Sepoys up to the very hour when they rose and massacred every European, man, woman, and child, whom the ruffians could lay hands upon. One of the first acts of the Mutineers was to seize the treasure, amounting to about six lakhs, to open the jails and let loose all the prisoners. They then gutted and set fire to every house, and proceeded to invest the intrenched camp. Fortunately the rebels had no guns, and here General Wheeler possessed an advantage over them; a superiority too soon to be extinguished by the appearance of the notorious Dhoondoopunt Nanajee, the self styled Maharajah of Bhittoor, now perhaps better known to the European world as NANA SAHEB. This hell hound had been allowed to keep six guns at his castle of Bhittoor, about six miles from Cawnpore, and these guns he now brought, having placed himself at the head of the rebels, and turned them against his quondam friends in the hospital. He also managed to procure guns from other quarters, to which General Wheeler's, being only of small calibre, were able to make but a feeble reply. However, in spite of all odds the devoted Garrison under their gallant leader kept up their spirits, and from time to time made sallies against the besiegers which thinned the ranks of both parties. Towards the end of the month, from confinement, from insufficient food, from exposure, from fatigue, and from the insufferable stench of numbers of unburied corpses, disease broke out and daily reduced the numbers of this heroic band. Had it not been for the number of women and children requiring protection, the Soldiers could without great loss or difficulty have cut their way through their enemies and reached a place of safety. On the 26th of June there were but two days' provisions remaining; the water was expended; the ammunition was almost all spent; the enemy had received reinforcements from

Oude; when it was determined to make one grand assault on the enemy's position. It was made; and bravely the half-starved, despairing Soldiers charged the dense crowds of their treacherous and blood-thirsty foes. In that sally the brave Wheeler was mortally wounded. With this event expired the last feeble hopes of the Garrison. No means of further resistance were left; submission alone remained. In this emergency an embassy was sent to treat with Nana Saheb, and brought back favourable conditions. The Garrison were to be allowed to proceed with their Arms and what property they could take with them, in boats down the river to Allahabad. The terms pleased the poor people who thought their lives not worth a day's purchase, and they were gladly accepted. Leaving the intrenched camp they were safely conducted on board the boats which had been provided, but had scarcely pushed off from the shore when, at a signal given by the faithless wretch Nana Saheb, the traitors of traitors on the banks opened the guns upon their helpless victims, and destroyed every living soul. The defence and massacre of Cawnpore, the fiendish treachery and cruelty of Nana Saheb and his band of "mild Hindus," are now matters of history, and will henceforth take their place by the side of the heroism of Saragossa and the savagery of St. Bartholomew's day.

June 27th. Destroyed by the treachery of Nana Saheb.

Meanwhile Lucknow was being held with equal determination and bravery by the Commissioner, Sir Henry Lawrence. The whole of the Contingent having gone, H. M. 32d and the Artillery, with such of the Lucknow Troops as had not proved traitors, retired within the Capital, confident of being able to defend themselves till a relieving force could find its way up. Cholera unfortunately made its appearence at an early date and carried off eight Europeans. Pressing messages for assistance were received at Benares; and Colonel Neill pushed forward with all possible expedition. But the operations of the Commissioner's and Quarter Master General's Departments were very inadequate to the urgency of the occasion. On the 27th of June he wrote that he had a strong position in the Residency but that as the rebels held all the boats on the Cawnpore side of the river, it was impossible for him to send help to Sir Hugh Wheeler. With an additional European Regiment and 100 Artillery men he would be able, he said, to restore British supremacy in Oude. At that date he had supplies for two and a half months, and expressed his conviction of being able to hold his own until aid arrived. In a short week after the date of his letter the writer, one of

the ablest soldiers and diplomatists that the East India Company ever numbered among its servants, was in his grave. In a brilliant sortie made by the Garrison headed by Sir Henry Lawrence, he was wounded. The wound was not very severe, but his weak state of health prevented him from resisting, as a good constitution might have done, its effects—and he expired on the 4th of July. Major Banks succeeded to the Command of the Garrison, which did not relax in its efforts to hold out.

July 4th. Death of Sir Henry Lawrence.

Brigadier General Havelock had on the 1st of July reached Allahabad, and instant preparations were made for the relief of Cawnpore and Lucknow. A column had left Allahabad under Major Renaud the day before General Havelock's arrival, consisting of 400 European Soldiers, 300 Sikhs, 120 Irregular Cavalry, and two Guns. It was followed on the 7th by General Havelock's column, and in eight days from that time Cawnpore was in the occupation of a British Force. During those eight days these brave Troops had marched 126 miles, and defeated Nana Sahib's army in four engagements. At Futtehpore on the 13th, at Pundoo Nuddy twice on the 15th, at Cawnpore on the 16th, the Insurgents fled before the bayonets of the 78th Highlanders and 1st Madras Fusiliers. All this was in the month of July on the plains of Hindostan. Never did Soldiers endure more, fight harder, die more cheerfully, or triumph more gloriously. The scene that met the eyes of the relieving force at Cawnpore, it is not for these pages to attempt to describe. It never can be adequately described. The whole history of Nana Sahib's villainous treachery and devilish malice was written in characters of horror and blood, that will not bear translation into words. After a brief rest at Cawnpore the force advanced, now strengthened by the accession of General Neill and a detachment of Madras Fusiliers, all thirsting for vengeance, and on the 19th took and burnt to the ground Nana Sahib's Palace at Bhittoor, took 16 guns, and blew up his powder magazine. General Neill being left in command at Cawnpore, on the 21st the force crossed the Ganges and took up a position at the head of the road to Lucknow. The road was tolerably clear of the enemy until within about 20 miles of Lucknow, where, on the 27th with only an interval of two hours, the force was twice engaged, and though the numbers were 13,000, to 1,500, the enemy was thoroughly beaten. On the day but one following Oonao was carried by assault. It was a place defended by a swamp, and all the houses were loopholed. The enemy's loss wa sheavy; that of the British 88 killed and wounded. The Madras Fusiliers here, too, greatly distinguished themselves.

July 17th Re-taking of Cawnpore.

General Havelock marches towards Lucknow.

But at this point a temporary stop was put to this series of brilliant successes. A strong body of the enemy, about 25,000 men, well supplied with guns, occupying an intrenched position, lay between General Havelock and Lucknow; while his own force thinned by sickness and encumbered with wounded, did not amount to much more than 1000. Under these circumstances he thought it most prudent to fall back on Cawnpore, and retreated to within 12 miles of that station. He was subsequently obliged to take up his position again in Cawnpore.

July 1st. Mutinies at Indore and Mhow.

The Troops of Holkar were not slow in following the example of those of Scindia. Indore itself was the scene of the rising; two of Holkar's own Regiments mutinying on the 1st of this month. Colonel Durand had previously observed suspicious symptoms, and despatched a message to Mhow for the European Battery there under the command of Captain Hungerford. Before, however, the assistance could arrive, the Resident was compelled to betake himself to flight. The Battery made the best of its way back to Mhow, but as soon as the news of the Indore rising reached the Station, the 23d Native Infantry and the Right Wing of the 1st Light Cavalry (of which the left had mutinied at Neemuch) rose and killed their Commanding Officers, Colonel Platt of the 23d and Major Harris of the 1st. The rest of the Officers with their wives and children got safely into the Fort, and held out steadily against all who chose to try their strength against its walls. Holkar, like Scindia, gave the most unmistakeable evidence of his sincere loyalty and attachment to the British Government, by sending his treasure and raising fresh levies. Colonel Durand escaped to Sehore in the Bhopal territory. Several of the East Indian Clerks and Telegraph people lost their lives.

July 2d Loyal address to Lord Harris.

While these scenes of insurrection and bloodshed were taking place in other parts of India, the Presidency of Madras fortunately remained undisturbed, and not only was able to provide for its own defence to but furnish Troops for the help of Bengal and the North West. On the 2d an address was presented to Lord Harris by the Hindu and Mahommedan inhabitants of Madras, expressing their abhorrence of the atrocities perpetrated by their countrymen in other parts of India, and their warm attachment to British rule. sallies and repulses. On the 18th of June, on the 23d the Centenary of Plassey, and on the 30th there was hard fighting. On every occasion the rebels were repulsed with loss. Still the absence of reinforcements rendered any attempt to take the place worse than madness.

July 5th. Death of Sir H. Barnard.

On the 5th July General Barnard was carried off by dysentery, when the command of the besieging force was assumed by General Reed; Sir Patrick Grant having arrived at Calcutta on the 17th June and entered upon the duties of Acting Commander-in-Chief in Bengal. Owing to severe indisposition General Reed was under the necessity of resigning the Command, and he was succeeded by Brigadier General Wilson of the Bengal Artillery. However, from the Punjaub and from Calcutta additions were gradually made to the force. Brigadier General Chamberlain effected a junction with the Army at Delhi and assumed charge of the Adjutant General's Office. On the 14th July there was a sharp engagement in which Brigadier Chamberlain was wounded in the arm with a grape shot. Sorties were made from the city every third or fourth day.

July 5th. Agra attacked by the Mutineers.

Agra was menaced on the 5th of this month by about 8000 mutineers. The main part of this force had marched from Neemuch, but the ranks were swollen *en route* by the Malwa Contingent and other Troops who had set up for themselves. The city of Agra was at once abandoned by the Europeans, who all took refuge within the Fort. Besides six guns there was the 2d Bengal European Regiment, with a Corps of Volunteers. This little band moved out to give fight to the mutineers who had taken up a position in the village of Shahgunge. After an obstinate engagement the rebels were dislodged and were on the point of retreating, when the ammunition of the Europeans became expended, and they were obliged to make a retreat into the Fort. The loss was severe on both sides. Among the killed was the brave Captain D'Oyly, whose last words were, "Say I died fighting my guns." The populace joined the insurgents and burned down the city and the European habitations. The battle of Shahgunge was among the most bravely contested fights of this eventful war.

The battle of Shahgunge.

The 14th Native Infantry were disarmed at Jhelum on the 7th and made rather an obstinate resistance. H. M. 24th had been ordered in from Murree to assist at the process. The Sepoys fired upon them, killing and wounding several Officers and men.

July 7th. 14th B. N. I. disarmed at Jhelum.

At Saugor the 3d Irregular Cavalry, 31st and 42d Native Infantry having displayed signs of uneasiness the Brigadier, Colonel Sage, ordered all the ladies and children, with the Officers and a small

party of European Artillery into the Fort. Including 159 women and children, the number amounted to 290 souls. Fortunately they were well supplied and expected to be able to maintain their position, when help came from a most unexpected quarter. The 31st and about 40 men of the Irregulars under their Native Officers, attacked the mutinous 42d and 3d—and after an obstinate fight completely defeated them. This took place on the 8th. On the day following, they chased the rebels out of Saugor, retook a large signal gun and six elephants belonging to the Commissariat, which they handed over to the Authorities. The Europeans looked on from the walls of the Fort, none of the Officers being allowed to join the combatants, sorely to their vexation.

July 8th. The mutinous 42d driven out of Saugor by the 31st.

The 9th Light Cavalry and 46th Native Infantry at Sealkote broke out on the 9th July. The Cavalry took the lead and galloped down to the Infantry lines, when the rising became general. The Officers had just time to mount their horses, and to their speed owed their safety. Brigadier Brind, Commanding Sealkote, with Dr. Graham, the Superintending Surgeon, and Captain Bishop of the 46th N. I. were amongst the killed; such as got off with their lives made their way to Lahore. On the 11th the 10th Light Cavalry were disarmed at Ferozepore. They surrendered their weapons without any murmur, or any coercive demonstration being required. Two squadrons of the 4th Native Lancers were disarmed at Umballah in like manner.

July 11th. 6th Gwalior Contingent disarmed at Asseergurh.

The budmashes of Hyderabad, touched with sympathy for the mutineers of the 1st Nizam's Cavalry who were imprisoned at that place, demanded their release. At the outset of their proceedings they requested the Cazi's benediction, which that functionary refusing, they at once cut his throat, and marched off to the Palace of the Nizam, threatening him with a like fate if their very reasonable request was not acceded to. A telegraphic message was despatched to Brigadier Coffin, at Secunderabad, and in less than an hour the Troops, Artillery, Cavalry, and Infantry, were under arms and ready for business. The European residents at Bolarum and Chudder Ghat at once sought refuge in Secunderabad. A detachment of Artillery and of the 7th Light Cavalry and some of the Infantry marched off to Hyderabad, and succeeded in quelling the disturbance. Many of the Insurgents lost their lives.

July 17th. Outbreak at Hyderabad.

The 12th Irregular Cavalry mutinied at Segowlie on the 23d. They murdered their Commandant, Major Holmes, the Surgeon, Dr. Garner, with their wives, and a little child of Dr. Garner's. The Major and his wife were killed whilst taking their evening drive. Dr. and Mrs. Garner retreated to their Bungalow and secured the doors. It was set fire to, and they with their infant son perished in the flames. The Mutineers made off for Oude.

July 23d. Mutiny at Segowlie.

Much to the surprise of everybody, the Regiments at Dinapore, the 7th, 8th and 40th Native Infantry, now broke out. Whilst Regiment after Regiment around them was proving faithless, the Dinapore troops had distinguished themselves for fidelity. A very short time before, when several conspirators were executed at Patna, the people of that city were kept from rising by the presence and steadfastness of the very Sepoys that now at the last moment, when European troops were collecting in Bengal and the scale was about to turn in favor of law, and order, and vengeance, most unaccountably threw in their lot with the revolters. The Officer Commanding the Station was General Lloyd, and for some reason that waits for explanation, he not only omitted to deprive the Sepoys of their arms at the first appearance of disaffection, but allowed them to march out of the place in leisurely order, having first loaded themselves with all the ammunition and spoil they could conveniently carry away. General Lloyd, whilst this was going on, was on board a Steamer in the river. Intense dissatisfaction was excited by this conduct, and he was subsequently suspended by the Commander-in-Chief preparatory to being brought before a Court Martial. The Mutineers having crossed the river, H. M. 10th Regiment looking on, but from want of orders unable to act, made their way to Arrah, where they were joined by a large body of men under a Zemindar, Koor Singh, plundered the Treasury and destroyed the property. The Europeans of the Station, a dozen in number, fortified themselves in a house, and with the help of 50 Sikhs, maintained their position for a week against the incessant attacks of upwards of 3,000 rebels. After the Mutineers had made a clear escape Captain Dunbar was ordered in pursuit with 300 men of H. M. 10th. This party was drawn into an ambuscade not far from Arrah, and two thirds of it slaughtered by the Sepoys. The survivors were obliged to retreat to Dinapore. Still the Englishmen and Sikhs held on, till after a week of unintermitting fighting their indomitable bravery reaped its reward in the arrival of a relieving force under Major Eyre, by whom the Insurgents were defeated. They retreated in a body, ravaging the country but

keeping out of the way of the British troops. They were finally met with, well beaten, and their camp taken, at a place near Futtehpore, by a British force under Colonel Powell of H. M. 53d Foot, who was himself killed in the action.

July 30th. Mutiny of the 26th B. N. I. at Meean Meer.

The 26th B. N. I. that had been previously disarmed at Meean Meer, mutinied on the 30th of July and marched off up the left bank of the Ravee. They sought to inveigle the English Officers into their lines for the purpose of killing them. The Commanding Officer, Major Spencer, with a European and two Native Non-commissioned Officers, lost his life in attempting to restore order. The Mutineers were pursued by the Police under the Depnty Commissioner of Umritsur, and though they had marched with the utmost rapidity, they were overtaken, 150 were killed on the spot, 35 were drowned attempting to cross the Ravee, 41 died from fatigue, and 237 were summarily executed on the 1st August.

July 31. Disarming of the Poona population.

On the last day of this month all the Native population of Poona were disarmed. At sunrise strong detachments of the 5th N. I., the Poona Police Battalion, and the City and Cantonment Police took up positions guarding all the outlets from the Bazaar. Other parties ransacked the houses, huts, and compounds, and carried off every offensive weapon. Many formidable implements were found concealed in the dwellings of persons who wore a very innocent look.

The 27th Bombay Infantry mutiny at Kolapore.

At Kolapore on the same day a Bombay Regiment, the 27th Native Infantry mutinied. The mutiny, however, did not include the whole Regiment; about 300 were implicated; the rest of the men stood firm and even assisted the British troops against their comrades. The Officers of the Corps had received a hint in time from a Jemadar, and the Jemadar's mother succeeded in warning the ladies, who managed to reach a place of safety. The poor woman paid with her life for the pleasure of doing this deed of kindness, being murdered by the mutineers. They carried off Rs. 45,000 from the Regimental Treasury, and marched away. A party of the Southern Mahratta Horse were despatched by Colonel Malcolm in pursuit and most of the rebels were cut up or captured; the latter were at once blown away from guns. After this affair in the 27th it was discovered that a small conspiracy was hatching in the 29th Bombay Infantry at Belgaum. The vicinity of Kolapore and Belgaum renders it most probable that communications on the subject of revolt had taken place between the 27th and 29th Regiment. A Jemadar of the 29th gave information to the Adjutant of the presence of two men in the lines who were trying to induce the Sepoys to mutiny, when they were arrested and blown away from

guns. Some of the Regiment, the Havildar Major among them, were suspected of connivance and brought to trial.

July 31st. 14th N.I. disbanded at Rawul Pindee.

On the morning of the 31st the detachment of the 14th B. N. I. at Rawal Pindee had the order for their disbandment read to them. As they appeared likely to give trouble they were all put in the jail for security.

August 1st. 8th B. N. I. mutiny at Hazareebaugh.

The month of August was opened with the mutiny of the 8th Bangal Native Infantry at Hazareebaugh. Two hundred men of the Ramghur Battalion and two guns were brought in to disarm the 8th, but on the 2d the Ramghur men fraternized with the Mutineers and carried off the guns. Two days after, the Head Quarters of the Battalion followed the example that had been set them at Hazareebaugh. The Irregular Cavalry attached to the Battalion remained staunch, and protected the Officers.

August 2d. 63d B. N. I. and 11th Irregular Cavalry disarmed at Berhampore.

Great apprehensions prevailing at Berhampore that the 63d Native Infantry and 11th Irregular Cavalry were meditating a rise, Colonel Campbell with H. M. 90th Light Infantry, was despatched in Steamers to that Station to disarm the troops. The affair was managed with coolness and success; but the conduct of the Sepoys was such as to establish clearly the necessity of the precaution that had been taken. Though the men delivered up their arms without resistance, it was in a very reckless fashion, many of them throwing their accoutrements into the air, and some proceeding to the length of loading their pieces. The presence of the 90th, however, cooled their courage and no open act of violence was committed. The Horses of the Cavalry, as well as their arms, were taken from them.

Lord Elgin arrives at Calcutta.

The disarming of the Berhampore Regiments was followed by that of the Governor General's Body Guard at Calcutta. Lord Elgin arrived at Calcutta on the 8th in H. M. Steamer *Shannon*, with 700 Marines and Artillery men. The European soldiers were at once despatched in Steamers to the Upper Provinces; the Sailors, formed into a Naval Brigade under Captain Peel, quickly followed them. Sir James Outram was appointed to the command of the Dinapore and Cawnpore Divisions; and Mr. John Peter Grant to the Lieutenant-Governorship of the Central Provinces of Fort William in Bengal. Detachments of Madras Troops were fast arriving, and being forwarded up country with all possible expedition; and among other acceptable arrivals was that of the new Commander-in-Chief, Sir Colin Campbell. Though arriving on the 14th, Sir Colin did not take his seat in Council till the 31st. General Grant left for Madras on the 23d.

Sir Colin Campbell arrives at Calcutta.

On the 17th General Hearsey addressed the assembled 2d, 43d, 70th and part of the 19th and 34th Regiments at Barrackpore, on the subject of volunteering for China. Rewards and Pensions were held out liberally by way of inducement. However the General's eloquence elicited no response; the Sepoys heard but made no sign. Suspicious characters were apprehended about Calcutta, and in other places. The Merchants and other inhabitants of Calcutta addressed a Petition to the Governor General praying that Martial Law might be proclaimed at once throughout the Bengal Presidency, but Government declined to accede to the prayer of the Petition.

August 24th. Defeat of Insurgents near Allygurh.

A signal victory over a large force of the Insurgents numbering between 5,000 and 6,000 men, under the command of the Naib Soubah of the King of Delhi, was won by Major Montgomery on the 24th August. Major Montgomery moved out from Hattrass with three guns, a party of the 3d Bengal Europeans, some Militia Cavalry and Jat Horse. After a sharp engagement of two hours, the rebels fled leaving 300 dead upon the field.

August 10th. 12th Bombay N. I. disarmed at Nusseerabad.

A disturbance took place on this date at Nusseerabad, when a Trooper of the 1st Bombay Lancers rode furiously through the Cantonments, firing his carbine and calling upon the men of the 12th Bombay Infantry and Joudhpoor Legion to mutiny. A commotion was occasioned, and the Troops in garrison were ordered under arms at once. Some of the 12th evincing a reluctance to obey orders, the Brigadier at the head of a detachment of H. M. 83d and the Horse Artillery, marched down to the 12th lines and disarmed the Regiment. The conduct of the 12th very much surprised their Officers, who had a firm belief in their loyalty.

August 15. Execution of a Nawab at Nagpore.

A Nawab, residing at Nagpore, a man of great influence and wealth was executed on the 16th, for having endeavoured to induce by large bribes a rising at that Station, with the view of exterminating all the European residents.

August 12. Successes of Generals Neill and Havelock.

On the 12th August General Havelock defeated and dispersed a detachment of about 4,000 of the rebel army and captured six field guns. The loss of the enemy was estimated at 300. General Neill also defeated the enemy in the neighbourhood of Cawnpore on the 15th; and on the day following General Havelock advanced to Bhittoor, which had been re-occupied by the enemy, carried his position and captured two guns. Meanwhile Sir James Outram was making the best of his way up to Cawnpore with H. M. 10th, 90th, and 5th Regiments.

August 18th. Insubordination of the 8th Madras Light Cavalry.

The 8th Madras Light Cavalry that had volunteered for service in Bengal was marched down from Bangalore for the purpose of embarking at Madras. When the Corps reached Streepermatoor it put forward a claim for the old rates of Pension, and evinced a disinclination to proceed unless the demand was acceded to. It was at once resolved to disarm the Corps, which was done, the horses were taken from them and shipped to Bengal, and the 8th Light Cavalry sent to do dismounted duty at Arcot.

August 20th. Day of humiliation at Madras.

The 20th of this month having been appointed a day of Humiliation at Madras, by the Bishop of the Diocese, with the consent of Lord Harris, services were held in all the Churches and other places of Christian Worship, and were numerously attended.

August 19th. 10th Light Cavalry try to seize the guns at Ferozepoor.

The 10th Light Cavalry who had been disarmed at Ferozepoor broke out on the 19th and attempted to capture the guns by surprise while the Gunners were at dinner. The alarm was given and the Guns were saved. The Mutineers managed to get clear off with the loss of only about thirty of their number. The loss of life on the part of the Europeans amounted to three, Veterinary Surgeon Wilson and two Artillery men.

August 21st. Mutiny at Mount Aboo of the Joudhpoor Legion.

A portion of the Joudhpoor Legion stationed at Mount Aboo caught the prevalent infection on this date. They made an attack on the Sanatarium Barracks and the house of the Commandant, Captain Hale. That Officer managed to escape by a back way; when the Mutineers began to plunder. They were, however, soon driven out by Captain Hale and a few Europeans whom he had collected together. The Guard of the 17th Bombay Native Infantry was then disarmed.

August 27th. Attempt to stir up the 50th B. N. I. at Nagode to Mutiny.

The 50th Bengal Native Infantry had up to this time remained faithful. On the 27th an attempt was made by some Mahommedans to induce the Regiment to rise, but it was only partially successful. The majority of the Corps remained steady. Fourteen of the worst characters finding themselves unsupported, and fearing of course punishment, left the Station during the night.

Siege of Delhi, Sorties from city.

The fighting before the walls of Delhi went on as before at intervals of three or four days. On the 1st and 2d of August the Rebels, reinforced by the Mutineers from Neemuch, made a desperate attempt to carry the British position. They were driven back as usual with immense loss. On the 8th their powder manufactory in the city

was blown up by a shell. Their supplies of caps and powder were thought to be failing. On the 6th, 7th and 8th skirmishing went on.

Brigadier Nicholson's reinforcement arrive.

Brigadier Nicholson arrived in Camp now in advance of his Force, which reached Delhi on the 15th, raising the strength of the besieging Force to 11,000 fighting men. On the 25th Brigadier Nicholson attacked the Bareilly and Neemuch Divisions of the enemy, who were endeavouring to outflank the British Army and attack their rear. They were entirely routed near "Escape Bridge," losing their ammunition, equipage and baggage.

Batteries erected.

Actions of minor importance took place until the siege train, that had been long expected, arrived and was got into position. On the 8th September two large Batteries at once opened fire upon the walls of the city with terrible effect; and on the 14th

the assault took place. The British Troops advanced through the trench near the Cashmere gate and in a short time the City was again in the possession of the English. The Palace for some little time held out, defended by the King with about 2000 men; but that too was on the 20th taken.

September 20th. Palace taken.

The loss on the side of the British as well as on that of the Rebels was very severe. As to the varied Military arrangements so admirably made by General Wilson, are they not all written in the Despatches? The King of Delhi, his Queen, and his two Sons were taken prisoners. The two Princes were at once shot. The Rebels fled in every direction; but three columns were despatched in different directions in pursuit.

Colonel Greathed defeats a body of Mutineers at Boolandshuhur.

On the 28th Colonel Greathed's column came up with the Jhansi and other Mutineers at Boolundshuhur, defeated them and captured two guns and much ammunition. He proceeded to Cawnpore the same day and joined Colonel Hope Grant, in command of that Station.

On this day another valuable life was added to the list of those which the rebellion of this year has cost to the State. Mr. John Colvin, the able Lieutenant Governor of the North West Provinces, worn out by anxiety, fatigue, and sickness, after lingering for a few days, in a helpless state of health, expired on the 9th. A testimony to the great abilities and public usefulness of Mr. Colvin appeared in a General Order of the Supreme Government.

September 9th. Death of Mr. John Colvin.

Another Bombay Regiment, the 21st Native Infantry, was disarmed on this date at Kurrachee. On the night of the 14th some treasonable conversation was overheard by two Native Officers, who made an immediate report to the Commanding Officer. The 2d European Light Infantry, with Troop

The Dinapore Mutineers, who had escaped being cut up, reached Banda in the early part of this month. Being without money and stores, they came to the resolution of making an attack on Nagode, and if possible inducing the 50th B. N. I. that up to this time had continued true, to throw in their lot with them. The Mutineers arrived at Nagode on the 17th of September, when the Officers of the 50th marched off their Corps in an opposite direction. But the temptation proved too strong for the fidelity of the 50th. After marching a short distance, they turned round with a shout and went back to Nagode, fraternizing with the Dinapore Insurgents. About 100 remained faithful and accompanied their Officers towards Myhere.

On the 25th General Havelock Forced his way into Lucknow, after a long and desperate opposition, and got into the Residency. The loss on the side of the relieving Force was very severe, and among the killed was the gallant General Neill. The relievers, however, instantly became in need of relief themselves, for the Force of the enemy was so overpowering that

September 20th. Rebels defeated near Azimghur by Capt. Boileau.

A gallant action took place near Azimghur on this date. The Rebels were encamped, about 1,200 in number, at Mundree ten miles distant from Azimghur. Captain G. W. Boileau with a Force of Goorkhas moved out and attacked them, captured their guns, and dispersed the Mutineers. The Insurgents managed to escape, owing to the fields of sugarcane which covered the country, affording an excellent shelter. The loss on the part of the enemy was estimated at 200.

Part of the Mutineers of the 52d B. N. I. were encountered on the 25th by the Madras moveable Column under Colonel Miller, on the Saugor road about 20 miles from Jubbulpore. They were thoroughly beaten. Eighteen who were taken prisoners were immediately hung. After suffering this defeat the Mutineers barbarously murdered Lieut McGregor of the 52d, who had the misfortune to be a prisoner in their hands. On the 9th two Companies of the 32d Native Infantry, quartered at Deoghur, broke out. They killed their Commanding Officer, Lieutenant Cooper, and released the Prisoners in the Jail. The Head Quarters of the 32d displayed great indignation on learning the conduct of the Deoghur detachment and requested to be led against the mutineers to inflict punishment upon them. The example of the Companies at Deoghur was soon after followed by those at Rampore Haut.

October 15th. Revolt of the Kotah Contingent at Kotah.

At Kotah on the 15th the Contingent revolted and murdered the Political Agent, Major Charles Burton and his two sons. Their servants, both public and domestic, deserted them on the approach of the mutineers. Major Burton had lived at Kotah thirteen years in the capacity of Agent, and was popular with all classes. It is said that the Rajah was confined by the townspeople in his palace during the conflict, which lasted five hours, and prevented from sending any aid. The houses of the Surgeon and another European resident were attacked at the same time as the Residency, and both gentlemen murdered. The Contingent refusing to believe that Delhi had fallen, trooped off to the centre of rebellion.

Execution of two traitors at Bombay.

On this date also a Drill Havildar of the Marine Battalion, and a Private of the 10th Bombay Native Infantry, were blown away from guns at Bombay. They had been found guilty of attending a meeting held for seditious purposes in a house at Bombay, and using there treasonable language. The 10th N. I. were present at the spectacle, but evinced no sympathy with the mutineers.

October 17th. Two companies of 32d B. N. I. mutiny.

Two other Companies of the 32d B. N. I. stationed at Rampore Haut, mutinied on the 17th. They made a search for their Officers but did not kill any one; the Lieutenants in command of the detachment being luckily away from their quarters. After leaving Rampore Haut they plundered several stations in the vicinity. The defection of the 32d left but two Regiments in the Bengal Army, the 31st B. N. I. and the 73d B. N. I. with their honor untarnished.

On Sunday morning the 8th November, the Malwa Contingent at Mahidpoor was attacked by a rebel force of from 4000 to 5000, chiefly the budmashes of the city. The other Officers were obliged to fly for their lives.

Nov. 16th. Joudhpoor Legion defeated by Col. Gerard.

The mutinous Joudhpoor Legion came in for a beating on the 16th. A column left Delhi under the command of Colonel Gerard, and came up with the mutineers, who had been strongly reinforced by the offscourings of the surrounding districts, at Narnool, about eighty miles south west of Delhi. The Carabineers and Guides of the British Column made a dashing charge on the guns and Cavalry of the Legion. The latter fought well; they had about 5000 men in the field. They were, however, repulsed, leaving behind them all their guns. The loss on the side of the Column was seventy killed and wounded. The Commandant, Colonel Gerard, received a mortal wound in the engagement.

November 18th. Three Companies of 34th B. N. I. mutiny at Chittagong.

The three Companies of the 34th B. N. I., who, when the Regiment was disbanded in May, were exempted for their fidelity from the stigma and the punishment that fell on their comrades; who, while Corps after Corps on all sides of them was helping to swell the ranks of disaffection, still continued true; who knew that Delhi was again the seat of

British power, that Cawnpore was again garrisoned by British Troops, that Lucknow had been relieved; who heard every day of some new vengeance taken on their mutinous brethren, at this, the eleventh hour, cast off their allegiance. On the night of the 18th they broke out at Chittagong, robbed the Treasury of two lakhs and eighty-thousand rupees, broke open the jail, burnt down their lines, and marched off towards Dacca. With the exception of one of the guard at the jail who was killed, no blood was shed; the Europeans succeeding in keeping out of their way. At Dacca the 73d Native Infantry were stationed. This Regiment and the 31st, it has already been mentioned, were the only entire Regiments remaining untouched by the plague spot. But, sad to say, after so long resisting the infernal soliciting to evil, the 73d at last ran away from their duty when on the receipt of the news from Chittagong, it was resolved by the Authorities at Dacca to disarm them. A party of Sailors was ordered out for the purpose of disarming the 73d, who fired upon them. The salute was at once returned with interest; the Mutineers were charged, bayoneted, and dispersed.

Mutiny of the 73d B. N. I. at Dacca.

Nov. 21st. Malwa Field Force drive Rebels out of Mundesore.

Neemuch was at this period relieved, and Mundesore evacuated by the Rebel Forces that had been holding it. On the 21st the Insurgents attempted to take the Fort of Neemuch by escalade, but they were vigorously repulsed, and drew off to aid their brethren at Mundesore, who were threatened by the Malwa Field Force. The Neemuch body and that at Mundesore were both attacked on the 23d, and after a sharp engagement were soundly thrashed and fled towards Nagurh. The 14th Light Dragoons were unfortunately too much knocked up with four days previous marching and skirmishing to go in pursuit of the Rebels.

Relief of Lucknow by the Commander-in-Chief.

Sir Colin Campbell with his Staff, left Calcutta on the 27th October *en-route* to Cawnpore, which His Excellency intends to make his Head Quarters. On his way up Sir Colin had a very narrow escape from being captured by a body of the Rebels. On the 7th November he reached Cawnpore, having travelled 700 miles through hosts of enemies in seven days. After collecting guns and Troops and placing Cawnpore in a position of defence, he started for Lucknow, whither detachments of Troops had been forwarded almost daily for some time previous. On the 15th he took Jellalabad, a fort two miles below the Alumbagh. On the day following he attacked the Dilkhoosha and carried it after a fierce opposition. On the 17th he reached, after desperate fighting and terrific slaughter, the Residency, and for the second time Lucknow was relieved. Thirty-six Officers are reported to have been killed or wounded; among the latter

Commander-in-Chief reaches Cawnpore.

Sir Colin Campbell himself. The gallant Havelock sunk under his exertions in this struggle. On the 20th commenced the removal of the women and children, the sick and the wounded, to Cawnpore.

With this achievement the narrative fitly closes. British India has at last got to the "beginning of the end" of this fearful rebellion. The Army that Britain has sent for the re-asserting of her power and the repression of crime, is now fast arriving on the shores of Hindostan. In every direction avenging columns are scouring the country, and each day brings in tidings of rebel forces attacked, dispersed and cut up. The work of retribution has commenced, and the next Chapter in this dismal history will be of the vengeance inflicted for the Mutinies of 1857.
