JUPITER.—Mean distance from the Sun 495,917,000 miles; performs its revolution in 4,331 days 15 hours; its true diameter is 88,000 miles, and its bulk is 1,281 times that of the Earth. Jupiter has four satellites or moons.

SATURN.—Distance from the Sun is above 909,000,000 miles; the length of its year is 10,755 days; its true diameter is 73,000 miles; its bulk is 995 times that of the Earth. Saturn has eight satellites, and is also surrounded with a double ring.

URANUS.—Mean distance from the Sun is about 1,829,000,000 miles; it performs its revolution in about 84 years. This planet has six satellites.

NEPTUNE is 2,864,000,000 miles from the Sun, and performs its revolution in 60,000 days; its diameter is about 35,000 miles.

PALLAS.—Mean distance from the Sun about 264,400,000 miles; length of year 1,685 days.

SURFACE OF THE MOON.

We find upon the moon's surface a range of mountains, lifting themselves above a level country, and extending nearly two hundred miles. This mountain range comes into the sunlight just after the moon has passed its first quarter, and is then one of the finest objects that the telescope reveals to the eye of man. The brilliancy of the illuminated heights and ridges, the absolute blackness of the deep, rocky chasms, the lofty peaks, the rugged precipices, and the deep shadows, all combine to increase the natural grandeur of this extensive mountain range. Let it not be imagined that details in such a scene, such as actual individual rocks, of definite form and outline, are to be seen; but as lights and shades produce the forms of every surface, so these lights and shadows on the moon bring out the absolute forms in the most distinct and perfect manner. The contrast between the dark and illuminated parts of the moon are far deeper and stronger than on the earth. This arises from the fact that the sunlight on the moon is not reflected or refracted by an atmosphere such as surrounds the earth. The twilight which attends the setting sun and the dawn, which so beautifully announces the coming of day, does not exist for the lunarians. If any eye beholds the rising of the mighty orb of day from those lofty lunar summits which are first illumined by horizontal beams, no gentle flashings, or rosy tints, or purple hues, but from intense darkness there is an instantaneous burst of brilliant sunlight. The beauty of our dawns and twilights is due to the atmosphere which surrounds the Earth, and while we cannot affirm that no such atmosphere surrounds our satellite, we are certain that whatever gaseous envelope may surround the moon on its hither side, its density cannot compare with that of the terrestrial atmosphere. Under very favorable circumstances, with the great refractor of the Cincinnati Observatory, the author has either seen, or fancied he saw, a faint penumbra edging the dark mountain shadows, and clinging to the black outline, as it slowly crept up the mountain side, as the sun rose higher and higher.

Some of the mountains of the moon reach an elevation of 8,000 to 10,000 feet above the general level. Here and there we find insulated peaks rising abruptly from extended plains to a height of 6,000 or 7,000 feet, and in the early lunar morning flinging their long, sharp, black shadows to a vast distance.

But the most remarkable feature presented in the lunar surface is the tremendous depths of some of the cavities, and their immense magnitude. Some of them extend beneath the general level of the country to a depth of 10,000 to 17,000 feet, and their rough, mis-shapen, precipitous sides exhibit scenes of rugged sublimity to which earth presents no parallel. Of these cup-shaped cavities, especially in the southern portion of the lunar hemisphere, the number is beyond credibility; and, in case we admit them to be the extinct craters of once active volcanoes, we are forced to the conclusion, that convulsions, such as the earth is a stranger to, have shaken the outer crust of our satellite into a hideousness of form unknown in any region of our planet. Some of these deep cavities are nearly circular in figure, and with diameters of all magnitudes up to twenty miles.

Before the power of the telescope had reached its present condition, the darker spots of the moon were assumed to be seas and oceans; but the power now applied to the moon demonstrates that there cannot exist at this time any considerable body of water on the hemisphere visible from the earth.—*Professor Mitchel's Popular Astronomy.*

The *enlightened part* of the Moon's disc is denoted by the versed sine of the angular distance of the Moon from the Sun.

The above Table is introduced with a view to preserve some uniformity in referring to the principal *lunar spots*. Much confusion has arisen from the various names given to the same spots on the moon, by different authors. The present list is taken from the plate in *Russel's Description of the Selenographia*, who has proposed these spots as a basis from which the situation of other less remarkable spots may be determined. The latitudes are computed from a line passing through Censorinus; the longitude of which is assumed equal to 32° west: and the positions are taken from the table in the *Recueil de Tables Astronomiques*, Berlin 1776.—*B. The above Eclipses of the Satellites of Jupiter are given to the mean time of Madras.

The Immersion (Im.) denotes the instant of the disappearance of the Satellite, by entering into the shadow of Jupiter; and the Emersion (Em.) the instant of its re-appearance, at coming out of the shadow. They generally happen, when the satellite is apparently at some distance from the body of Jupiter, except near the opposition of Jupiter to the Sun, when the eclipse takes place near to the body of the planet. Before the opposition, the Immersions and Emersions happen on the western side, but after opposition on the eastern side, of the Planet. With an inverting telescope, however, the appearances will be directly the contrary. Before the opposition, the Immersions only of the first Satellite are visible; and after the opposition, the Emersions only. It is seldom also, that the Immersion and Emersion of the second Satellite can be observed at the same eclipse, but both phenomena are generally visible with the third and fourth Satellites. The fourth Satellite does not enter the shadow of Jupiter in 1863, and is therefore omitted.

To find the time, at which the Immersion or Emersion of any of the Satellites will take place under any other meridian than that of Madras, it is merely necessary to *add* the difference of Longitude (*in time*) to the time of the phenomenon at Madras, if the meridian be *east* of Madras; or to *subtract*, if it be *west*, and the sum or difference will be the time required. But this determines only the instant of the occurrence of the phenomenon: Jupiter may be below the horizon at this time; or he may be above it, and the intensity of Sun light, or even the brightness of twilight, may be such as to render the Satellites invisible. To have the eclipses visible, it has generally been considered, that the Sun should be at least 8° below the horizon, and Jupiter not less than 8° above it, at the same time. Adopting these limits, it is then necessary to ascertain the position of the Sun and Jupiter, with respect to the horizon at the time of the phenomenon. This may be readily accomplished by means of a celestial globe, or by the times of the Sun's rising and setting and of Jupiter's rising and setting given in this Almanac.

The eclipses of Jupiter's Satellites, especially of the first, afford us perhaps the readiest means of determining the Longitude; all that is necessary to be known being the exact time of observation; the difference between this time and the time at Madras shews the difference of Longitude at once and it is *east* or *west* of Madras, according as the time of observation is *greater* or *less* than the Madras time. Suppose the Immersion of Jupiter's first Satellite to be observed on January 21st, 1863, at Trevandrum at *6h. 5m. 2·1s.* mean time at that place; by reference to page 27 it appears that the Immersion will take place at Madras at *6h. 17m. 59·4s.* Madras mean time, the difference *12m. 57·3s.* is the difference of Longitude between Trevandrum and Madras; and because the Trevandrum time is less than that at Madras, we infer that Trevandrum is to the *west* of Madras.

Independent of defects in the tables, there are difficulties attending the observation of these phenomena, which unfit them for *accurate* determinations of Longitude. Different Telescopes give different results; and care should be taken to have recourse to those corresponding observations which have been made under circumstances the most similar, and particularly with telescopes of the same quality and power. When extreme accuracy is not required, the eclipses of the Satellites will always afford a good approximation towards the difference of meridians, and observations of them should on no account be neglected, especially when the Immersion and Emersion of the same Satellite are both visible.

The *Equation of Time* is the difference between apparent and mean time, and therefore serves for the conversion of either time into the other. The numbers above given, show, for Madras apparent noon, the distance of the mean sun from the meridian, or the portion of time to be *added to or subtracted from* (according to the signs) Madras apparent noon to obtain the corresponding mean time at the same meridian, or the time which ought to be shown by the mean time clock.

Where time is deduced from observation of the Sun, the *immediate* result is apparent time; to convert it into mean time, the equation of time is necessary, and it is to be applied to apparent time, according to the signs.

STAMP DUTIES

PAYABLE ON DEEDS AND OTHER INSTRUMENTS.

Act X of 1862 provides the stamp duties that have to be paid on Deeds, Instruments and Writings, and Law Papers. Below is given a list of the former ordinarily and generally executed with the amount of the stamp to be impressed on each as contained in Schedule A of the Act.

The stamp must be impressed on the paper itself, except in the case of the transfer of shares of any Banking Corporation or Joint Stock Company, which, by any law applicable to such Corporation, can be effected by simple endorsement, of Receipts, Shop Bills, Bills of Exchange, and applications to Collectors of Customs. In these cases *adhesive* stamps, which should be obliterated in such a manner as to show that they had been used, may be employed.

If a Deed, Instrument or other writing be not stamped or be insufficiently stamped, it is invalid as creating, transferring, or extinguishing any right or obligation; but when executed inadvertently, without intention to evade the stamp duty or otherwise to defraud Government, on paper not bearing a proper stamp, such deed, &c., may be admitted in evidence before a Civil Court or duly stamped by the Collector of Stamps on payment of the prescribed stamp duty and a penalty.

Drafts or orders for payment of money on demand drawn without stamp may be stamped by an adhesive stamp by the person receiving them; but this does not relieve the drawees from the penalty incurred for issuing them unstamped.

The value of the stamp affixed to receipts is to be paid by the person granting them under a penalty, in case of refusal, not exceeding 100 Rupees, and so also is the expense of providing stamps for Bills of Exchange, Bonds, &c., to be met by the person drawing or making them.

Appeals from the Collectors of Stamps lie to the Board of Revenue.

The following Notification was issued by the Commissioners for the Town of Madras in regard to the imposition of the tax for the current year 1862-63.

NOTIFICATION.

Consequent upon the passing of Act No. XVI. of 1862, by the Governor General of India in Council, the Income Tax Commissioners for the Town of Madras hereby notify, that, for the Income Tax year 1862-63, commencing on the 1st August 1862, no person will be chargeable to any Duty under Acts XXXII. and XXXIX. of 1860, whose annual profits or income, from whatever sources derived, do not amount to 500 Rupees. All profits and incomes amounting to Rupees 500 and upwards per annum, will be assessable to the Income Tax as before.

2. Any arrears of Income Tax Duty that may be due for the years 1860-61 and 1861-62, from parties whose incomes are not liable to the Tax during 1862-63, must be liquidated at once, and the amounts paid to the Collector of Income Tax in the usual manner.

3. With reference to the above Notice,* published in the Fort St. George Gazette of the 1st August 1862, those persons who may wish to be assessed "anew," instead of having the assessment of last year confirmed, should apply, without delay, to the Commissioners or to the Assessor of their Division (or to the Special Commissioner should they wish to be assessed by that officer) for Forms of Returns.

4. In these Returns must be entered their Income or Profits for the past year, and these Returns must be sent in to the Commissioners, Assessor, or Special Commissioner, on or before the 1st October 1862; that is within two months from the 31st July 1862.

5. The Commissioners will deal with these Returns in the same manner as has been usual during the past year, under the provisions of Sections LIII, LIV, Part IV, of Act XXXII. of 1860.

6. It will not be required that parties should make a written application for re-assessment. They may, if more convenient to themselves, apply in person at the Income Tax Office to be newly assessed. Their names will at once be registered as having thus applied, and they will be furnished with the necessary Forms of Returns.

7. Unless parties claim within the period above mentioned to be assessed "anew," the assessments made for the past Income Tax year 1861-62 will be maintained for 1862-63, and bills for the same presented, quarterly, by the Income Tax Collector.

8. In cases where the Commissioners have reason to believe that parties have not been assessed, during the past years, but are liable for the current year 1862-63 (commencing 1st August 1862), or in cases where parties have made a fraudulent or obviously inadequate Return for the past Income Tax years, the Commissioners will issue to all such parties special notices as provided in Section XXXVIII, Act XXXII. of 1860, accompanied by Forms of Returns in which must be entered the Income or Profits from all sources soever derived during the past year or years, and this Return must be forwarded to the Commissioners or Assessor within the time specified in the special notice.

9. Any parties failing to make such Returns will render themselves liable to the penalties of a fine not exceeding 200 Rupees, and to an assessment of treble the amount with which they be justly chargeable.

10. The Returns made in compliance with these special Notices will be disposed of by the Board of Commissioners, as provided in Part IV of Act XXXII. of 1860, Section LIII and LIV.

11. Any information required by parties to enable them to fill in their Returns, or on any subject connected with the Income Tax, can be obtained at the Income Tax Office, Government House.

Letters are registered on the payment of a fee of 4 annas in stamps, and a receipt for them is furnished. No letter exceeding 12 tolahs in weight can be transmitted by the letter post on a line of road where there is a Banghy dâk, nor can a letter of less weight than 12 tolahs be sent as a Banghy parcel, on a line where the Banghy and Letter Mails are conveyed in the same carriage. Letters, &c., damaged or bearing the appearance of having been opened and reclosed, or otherwise improperly dealt with, will not be received for transmission unless the writer or sender thereof attest with his full signature that they were posted in that state. Letters cannot be recalled except with permission of Government. Those posted for dispatch to any place to which a post communication has not been established by Government, must be prepaid according to the above rates: if they be not they will be dealt with as unclaimed letters. Letters on private affairs addressed to Government must be prepaid, and those having stamps, but obliterated, will be treated as unpaid. Forward or redirected letters are charged with a single rate of postage in addition to that paid or due on them. The postage on letters, &c., rejected unopened by the addressee, if unpaid is recoverable from the senders. Unclaimed letters, packets and parcels, *i. e.*, those which for any reason cannot be delivered to the addressee, are returned through the Dead Letter office; but if the senders cannot be traced and they remain unclaimed for a year, they are destroyed, and the valuables, &c., found in them are made over to Government.

(2) *Newspapers, &c.* The postage on Newspapers, Pamphlets or other printed or engraved papers and proof sheets put up in short covers, each by itself, and conveyed by the letter post packet, is, for every packet not exceeding in weight 6 tolas, one anna, and for every additional 6 tolas or fractions thereof one anna more. The packet must be prepaid in full by stamps. The name and address of the person to whom the parcel is forwarded and the name and address of the sender are alone to be written or printed on it. If there be any other words or marks on it or any thing enclosed therein, the packet will be rated as a letter. Newspapers, &c., may be recalled. A packet of newspapers cannot be sent as a Banghy parcel on lines where there are both Letter and Banghy mails, nor at Book Post rates unless prepaid.

(3) *Banghy Postage* is charged according to the following scale on parcels sent by the Banghy dâk, provided "several letters" are not enclosed in them. The rate is the same whether the parcel be prepaid or not.

Each Banghy parcel must not exceed 3 feet in length or 1 foot in breadth and depth, or 600 tolahs in weight. The Officer in charge of the Post Office has discretionary power to receive or not a parcel exceeding this weight for transmission on a line where there are no foot-runners, but no parcel exceeding 2,000 tolahs in weight can be transmitted under any circumstances whatever. It must be securely packed in cloth, wax-cloth or tin, and bear distinct impressions of some device fixed at intervals not exceeding 3 inches along the line of sewing. No parcel will be forwarded to Ceylon exceeding 3 lbs. in weight or to other places to which a post communication has not been established by Government unless Ship and Inland Banghy postage have been prepaid in full. A Custom House pass must accompany parcels addressed to any Foreign Port. Banghy parcels and Book-post articles cannot be transmitted by private steamers and sailing vessels. They may be sent as goods through the Custom House or otherwise as the sender wishes.

Where there is no Banghy dâk established on any line of road, parcels, certified, under the full signature and address of the sender, above 12 tolahs in weight but not exceeding 40 tolahs, and not containing any letter or other written communication, newspaper or other printed or engraved paper, will be received and transmitted by the Letter Post at Banghy rates.

(4) *Book Post.*—Packets, made up in wax-cloth and open at both ends, consisting of Books, Publications or works of Literature or Art, either printed or in manuscript, Newspapers, &c., may be forwarded, if prepared, by Book-Post, *i.e.*, Banghy dâk at the rate of one anna for every 20 tolahs, but they must not exceed 120 tolahs in weight. Books are charged as if posted afresh when re-directed. A fee of 4 annas is charged when a book is registered.

SHIP POSTAGE.—(1) *Letters* forwarded and received by private sailing vessels are subject, in addition to the ordinary inland postage when transmitted from or to the interior, to a charge of one anna without reference to weight. Unpaid letters received from any place not under the Indian Government are liable to single rates of postage on delivery, but if reposted by an agent they are, if unpaid, liable to double rates of postage. When sent beyond H. M.'s Indian territories the inland postage must be prepaid, if not paid or insufficiently paid, such letters, &c., are treated as unclaimed. Ship postage alone is levied when deliveries are made in Presidency towns, except in regard to newspapers received from beyond H. M.'s Indian possessions, on which no postage is charged. When sent to the interior they will be liable to Inland postage. Letters sent to and from the United Kingdom are charged when not exceeding ½ oz. 4 annas; 1 oz. 8 annas, and so on, adding 8 annas for every oz. or fraction thereof. Newspapers not exceeding 4 oz. are charged 8 pice. The payment of postage on letters is optional, but on newspapers compulsory.

(2) *Banghy Parcels* received from seaward are charged at the rate of 3 annas for every 100 tolahs, and when transmitted to or from the interior, inland postage according to the scale laid down in para. 3 is also levied. When they exceed 2,000 tolahs they are made over to the Collector of Customs for publication in his list of unclaimed packages.

GOVERNMENT STEAMERS.—*Letters, Parcels,* &c., transmitted by this opportunity, are liable to Indian rates of postage, but when sent to places beyond H. M.'s Indian territories, they must be prepaid. No parcel exceeding 600 tolahs in weight can be forwarded.

HER MAJESTY'S MAIL.—(1) *Letters (a)* The payment of postage on letters to the United Kingdom, Malta, Gibraltar, Azores, Cape de Verd Isles, Madeira, Portugal, Spain, Calcutta, Ceylon, Bombay, Aden, Malacca, Penang, Singapore, Hong Kong, is optional; but on those to Re-Union, Australian Colonies, Cape of Good Hope, China (except Hong Kong), Manilla, Batavia, Java, Mauritius or any place not a British colony, compulsory. In the former case so far as the United Kingdom is concerned unpaid or insufficiently paid letters will be forwarded, charged with a fine of 4 annas in addition to the ordinary postage; in the latter, they will be returned to the sender through the dead letter office. Unpaid letters sent to and paid letters received from Ceylon, Hong Kong, Malta, Gibraltar, Azores, Cape de Verd Isles, Madeira, Portugal and Spain from and for the Mofussil, are subject to inland postage.

The following table gives the rates of postage on letters to the United Kingdom, America, &c. They include Inland postage except in the case of those noted above.

Suggestions to the Public, &c.

By careful attention to the following suggestions, much facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the Public.

1st. Post all letters, &c., as early as practicable, especially when sent in large numbers.

2nd. Make the address legible and complete.

3rd. See that every Letter, Newspaper, or other packet sent by post is securely folded and sealed,—and when prepaid, see that there is no possibility of the removal of the stamp by dishonest servants.

4th. Never trust your servants with money to purchase stamps for the purpose of affixing them to the letters, &c.

5th. Never send money or any other article of value through the post, and where necessity obliges the transmission of important documents it would be as well to do so on a registered letter. Any person who sends such documents in an unregistered letter not only runs a risk of losing his property, but exposes to temptation, every one through whose hands his letter passes.

6th. When complaint is made of Letters, or Newspapers lost, miscarried or delayed, furnish information as precise as possible regarding all the facts of the case, and enclose whatever documents may throw light upon it. The day, and hour, at which the letter or newspaper, was posted, as well as the office at which, and the person by whom this was done, should always be stated; and when possible, the cover, or wrapper, in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps.

7th. See that every letter contains the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found.

8th. To obviate the necessity of opening unclaimed letters, parties would do well to write their names in full with places of residence on the cover of letters.

GOVERNMENT ELECTRIC TELEGRAPH DEPARTMENT.

RULES.

21*st December*, 1859.—Under sanction of the Government of India, the following revised Rules are substituted for those previously in operation.

I. Messages are received for despatch at all hours day and night, with exception of Sundays, Christmas day, New-year's day, and Good Friday, when the Offices will be closed between the hours of 8 and 16 (or 4 P. M.)

Messages tendered for transmission on ordinary days between 18*h.* (or 6 P. M.) and 6*h.* of the following day, and between 6*h.* and 8*h.* and 16*h.* and 18*h.* (or 4 P. M. and 6 P. M.) on the above named holidays will be charged double the ordinary rate.

II. Messages are transmitted by Telegraph between all the Stations enumerated in the accompanying list, at the rate of sixteen words for one Rupee for each distance of 400 miles or under; 2 Rupees for all distances between 400 and 800 miles; and so on.*

III. The distances are estimated by the direct Map line, & not by the actual length of wire.

IV. On the main lines no message, however short, is sent for less than one Rupee.

V. For each word above 16, one anna additional is charged for each rate of distance. Thus for 16 words from Calcutta to Bombay (3 distances), the charge for 16 words or under is 3 Rupees; for 19 words, 3 Rupees 9 Annas.

VI. The stations in the Pegu Circle are as yet unconnected with the lines on the Continent of India, and can only be regarded as local offices. Where short local lines exist under 100 miles in length, and not forming part of the main trunk system, 16 words are transmitted for 8 annas, and 2 pice for each word over 16.

VII. Peon hire for the delivery of messages, at the rate of 2 annas per mile, will be charged for all distances beyond two miles from the Telegraph Station.

VIII. The *names* of sender and addressee are charged in the address. Initials count each as one word, and it is recommended that the Christian name should always be spelt in full.

Compound names, such as McNaughten, O'Donnell, DeSalis, Von Meyern, St. Clair, count as one word, provided the prefix be no more than one syllable.

IX. In the *address* of a message, the words *From, To, Mr., Mrs., Messrs., and Co.*, and all ordinary *prefix* designations, such as *Capt., Lieut.-Colonel, Sir, Lord, Baboo, Rajah, Nawaub*, are passed free, provided the designation be no more than two words, as *Major-General, Lieut-Colonel*.

Affix designations are charged for, word by word. Thus, "From Bangalore, from Mr. *Brown*, To Calcutta, to Lieut.-Col. *Smith, commanding 60th Rifles*:" the words in italics are charged the others are sent free

X. The names of towns from and to, if Telegraph Stations, are also sent free; but are charged for if not Telegraph Stations. Names of quarters, or streets, or numbers of houses, must be paid for.

Messages addressed to large cities, such as Calcutta, Bombay, and Madras, should always have the residence of the addressee specified by street and number, and messages to such names as Smith, Jones, Brown, &c., should have the Christian name or profession of the addressee, to prevent mis-delivery.

XI. Dates are optional, but if given are charged for word by word.

XII. In the body of a message every word is charged. Stops, inverted commas, and notes of interrogation, are free.

XIII. The accuracy of messages is not guaranteed, and the sender and receiver have to accept all risk arising from errors and delays.

XIV. Senders of messages are *advised* to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.

XV. The accurate transmission of messages is rendered much more certain by their being repeated back from each repeating Station. This repetition is charged for at half price extra, and is advised in all messages of great importance.

XVI. The errors which chiefly occur are in the numerals, such as *sixteen, sixty—thirteen, thirty*—owing to the sound and first three or four letters being similar. To obviate this,

* A single rate extra is charged on all Messages between any station in Ceylon and the Continent of India.

it is recommended that in all financial or money messages the sum be given in two forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1000." When this is done, an error is of very rare occurrence.*

XVII. Messages in cypher are transmitted at the ordinary charge, but must be in numbers and these written in full, as in a cheque, or in ordinary English words of concealed meaning.

Figures are telegraphed as if written in full, as in a cheque, and charged for according to the number of words; thus, "Rupees fifteen hundred and sixty-four," count as six words.

XVIII. Should a message in cypher be tendered for transmission simultaneously with a message in ordinary language, the latter will take precedence of the former.

XIX. All messages must be in the English language.

XX. The name of the sender must be written on the face of every message.

XXI. When a message is delivered in an unintelligible state, a refund of the cost will be made to the sender if application be made within two months from the date of despatch, provided the message has been paid for at repetition price.

XXII. Refunds will also be made in all cases of non-delivery or unjustifiable delay of messages, whether repeated or not. By unjustifiable delay is meant that arising from neglect in the Offices. When a message is detained by an interruption on any section of the line, and is sent on by next post to the nearest Telegraph Station, the time occupied by the post is not allowed to count as delay in the Telegraph Department.

Expresses are never started for private messages, but only for Mail News or Government despatches of great importance. But when an express is required for these purposes, advantage is taken of the opportunity to send on all private messages on hand.

XXIII. "Complaints respecting errors, or delays or neglect in the delivery of Messages and applications for refund, should be addressed to the Officiating Director General of Telegraphs in India, Complaint Office, Calcutta. An exact copy of the message complained of and the receipt of the despatching Office, should in all cases accompany the complaint."

XXIV. The Deputy Superintendents are authorized to make refunds for messages transmitted within their respective Circles. The Chief Superintendent will attend to all complaints, and order refunds for messages sent from one Circle to another.

XXV. Private messages shall be despatched in the order of their receipt in the Telegraph Office. Should two or more messages be tendered simultaneously, the shortest shall have the precedence, without reference to its relative importance.

XXVI. No message or messages of more than 200 words in all can be sent at one time by any individual or firm, and no second message by the same individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.

XXVII. When two or more lines of equal length extend between any two places, messages are to be sent in turn by each line which is in good working order. Senders cannot choose the line, but they may send by 2 or 3 lines on the payment of double or triple price.

XXVIII. Messages will be forwarded by post to places not having Telegraph Stations, but only in *registered* letters, the registration fee to be paid by the sender of the message.

XXIX. Messages will be received by post from Europe or elsewhere for transmisson, if money be deposited before-hand at the despatching Station sufficient to pay for the transmission. Such messages should always be addressed as per margin, and *not* to the Superintendent or Deputy Superintendent. This mistake often causes the letter to be sent by post to the Head Quarters of the Department. All such letters should invariably have the words "*Telegraph Message for Despatch*," written conspicuously outside.

"To the Assistant in charge, Telegraph Office."

XXX. Postmasters at places of importance not having Telegraph Stations, will be provided with copies of the Rules, and with Tables of distances and charges, and with forms on which the message should be written.

XXXI. Messages so sent by post must be prepaid by Telegraph stamps, and will be transmitted from the nearest Telegraph Station, where the stamp will be cancelled by being written across by the Assistant in charge.

XXXII. The stamped messages should be despatched marked conspicuously "*Telegraph message*."

XXXIII. Adhesive Telegraph stamps will be procurable from the Civil Treasuries and private vendors. They should be affixed on the face of the message, so as to be *inside* when the message is folded up for transmission by the post. The usual postage must of course be paid in addition.

XXXIV. In cases of extreme pressure of business, Assistants in charge of Offices may refuse to receive for despatch any messages beyond the number which experience shews may

* The accidental omission of the word NOT, causing in many cases the total change of the intended meaning of a message, this word is always signalled, in slow time, twice over by the sender, and once back by the receiver, at each station. The same precaution is taken in signalling the words *our* and *your*.

be cleared off within the day. The messages in such cases are not to be received and kept for despatch the following day, but must be returned so as to prevent accumulation.

XXXV. In case of interruptions on any line, Assistants in charge of Offices have the power to refuse the receipt of messages for transmission.

XXXVI. When an interruption occurs, notice to that effect is to be posted conspicuously at the entrance of each Office, and communicated to the Press for public information.

XXXVII. In every such case all persons tendering messages for places beyond the interrupted section, are to be informed of the interruption, advised not to leave the message, and acquainted that a refund will not be made in case of delay from this cause.

XXXVIII. The sender of a message may prepay the charge for a reply, which must be limited to the number of words so prepaid for.

XXXIX. Messages are sent "bearing" from seaports, when received by mail steamers or other vessels, for despatch, and addressed to well known firms or individuals; but no message whether paid or bearing will be received for transmission from any vessel until her name has been known, bearing messages will not be delivered to the addressee till payment has been obtained.

XL. Assistants in charge of Telegraph Stations are authorized to refuse to transmit a message which may be of a decidedly objectionable character. Should the character of the message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the chief Civil Officer if at a provincial station.

XLI. To secure secrecy as much as possible, all persons *not actually on duty* in the Signal Room, whether belonging to the Telegraph Department or not, and without reference to official rank in any case, are strictly prohibited from entering the Signal Room. The only exception to this rule is for senders of messages, who may be allowed to see their messages despatched, if they attend the Office at the time of their turn for transmission.

XLII. Violation of secrecy on the part of any person in the Department will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the official Gazette of the incapacity of the delinquent to serve the Government in any capacity. It is a violation of secrecy to mention the fact that any message has been received or despatched by any particular person or firm.

XLIII. Service messages from all public functionaries must be paid for in cash prior to despatch, the rates being the same for distance and number of words as those charged to private individuals.*

XLIV. Service messages have no right of precedence, and take their turn of despatch with private messages, except in cases of pressing public emergency and importance, when priority may be claimed on special grounds.

XLV. The sums paid by public functionaries for the despatch of messages will be recovered from Government by the senders, in their own Departments, by contingent bills countersigned as usual.

XLVI. On certain emergent occasions of great importance, the public functionaries named below have the power of "clearing the line," that is, of suspending the receipt and despatch of all other messages till the one for which the line is cleared has passed on :—

The Governor General of India.	Commissioners of Scinde, Oude and Pegue, and such other Commissioners, Residents, Political Agents and Military Officers, as may receive the power from the Government of India by special order.
Governor of Bombay.	
Governor of Madras.	
Governor of Ceylon.	
Com.-in-Chief, India, Madras, and Bombay.	
Lt.-Governors of Bengal, N. W. P. & Punjaub.	Superintendent of Telegraphs in India.

The messages so sent are however to be paid for in cash in ordinary cases.

XLVII. Overland Intelligence is given gratuitously to the public at all stations in which the Morse or American instruments are in use. The news will be given in two Bulletins, the first as brief as possible, containing part of the summary published in the *Home News*; then, the Commercial Intelligence compiled for the Chambers of Commerce; next, private commercial messages from England and the Continent; lastly, the details of general intelligence, limited to 400 words; these not to contain any of the items already signalled in the first Bulletin.

XLVIII. No unpaid messages, except those on the actual business of the Telegraph itself, as specified in the departmental Regulations, shall on any account whatever be transmitted. A violation of this rule will subject the signaller or Assistant in Charge of the Station the message is sent from, to dismissal from the public service.

☞ Messages are forwarded along the *Railway Telegraph* lines at a charge equal and in addition to that levied for Government line.

* The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

The Company's Rates of Passage Money are for the sea passage only. They include Steward's Fees, Table, Wines, &c., for First-class Passengers. Bedding, Linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense, together with the attendance of experienced male and female servants.

Railway tickets for the journey through Egypt, entitling the holders thereof to the privileges secured by a recent convention between His Highness the Viceroy of Egypt and the Company, are issued by the Agents of the Company on behalf of the Egyptian Government at the following rates, viz.:—

For First class Passengers...£ 7 0 0 | For Second class Passengers.....£ 3 10 0

Children above 3 and under 10 years half fare.

Or it is optional with the passengers to pay the Company for the sea passage only, and to pay their own transit through Egypt upon arrival at Alexandria or Suez, as the case may be. For full particulars see the Special Hand-book of Information on this subject.

Servants soliciting gratuities will be dismissed from the Company's service.

Half the amount of Passage Money, when the passage exceeds £20, is required to be paid on securing passage, and the balance a fortnight before embarkation.

Passengers not embarking after engaging passage, to forfeit the deposit of half the amount of Passage Money.

In case, however, of a passenger being unavoidably prevented from availing himself of a passage at the period for which it is taken, a transfer of the passage can be effected to a subsequent Steamer, on sufficient notice being given, without forfeiture of any portion of the deposit paid, and accommodation will be allotted as similar as circumstances will permit.

In remitting a sum of money to the Company on account of passage, if by Cheque it is recommended, for the sake of security, to write across the Cheque the name of the Company's Bankers, "*Messrs. Williams, Deacon and Co.*" If by Order, Letter of Credit, or otherwise, it should be in favor of the "*Peninsular and Oriental Steam Navigation Company.*"

Passengers must comply with the regulations established on board the Steamers for general comfort and safety.

No Berth or Cabin is to be occupied by a passenger without application to the Agent on shore, or to the Purser on board. It is to be understood that a Passenger occupying a cabin of two or more berths, on the departure of the vessel (unless he shall have paid an additional sum for its exclusive occupation), is not to object to the vacant berth or berths being filled up at the intermediate ports, if required.

Passengers will have to defray their own expenses for hotels, in the event of any detention.

The steamers employed eastward of Suez do not possess Second class accommodation, with the exception of a few Berths for the Servants of First Class Passengers. Persons who are admitted on board the Steamers as Second Class Passengers must therefore understand that the Company do not guarantee them cabins or berths, and that they must accept such accommodation in this respect as circumstances may enable the Company to provide for them.

The attention of passengers by the Overland Route to and from India, China, &c., is respectfully requested to the under-noted Regulations in reference to Baggage; much trouble and loss is occasionally caused by their neglect, and the Egyptian Transit Administration will not accept any responsibility unless they are strictly complied with:—

All baggage should be addressed in paint, in full, and in addition passengers will be supplied on Board the Steamers with printed "Destination Lables," which should be affixed to all Packages, however trifling, before arrival at Alexandria or Suez.

A passenger taking a whole cabin will be entitled to take in the steamers, free of freight, 4½ cwt.; and a married couple, paying for reserved accommodation, will be entitled to take 9 cwt.

The charge for conveyance of extra baggage, should there be room in the vessel, will be at the rate of 10s. per cwt. between Southampton, Gibraltar, Marseilles, Malta, or Alexandria; £1 per cwt. between Suez, India, China, the Mauritius and Australia, with 6s. per cwt. for Transit expenses through Egypt.

} Exclusive of the charge for transport made by the Transit Administration of Egypt.

Caution to Passengers—Goods of a Dangerous Nature.

The Company will not receive on board of their vessels any goods of a dangerous or damaging nature. If any such good be shipped without notice, the shippers will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.—(See Extract from the Merchant Shipping Act, at page 14.)

Passengers not proceeding by the Peninsular and Oriental Company's Steamers, but shipping their baggage from Southampton, will be charged at the rate of 10s. per cwt. between Southampton and Malta or Alexandria.

N. B.—The baggage of passengers proceeding *via* Trieste must be shipped at Southampton so as to ensure its arrival at Alexandria a week in advance of the passengers to whom it may belong. Non-compliance with this regulation is likely to involve loss or detention of the baggage in Egypt.

Passengers requiring information respecting their baggage during the voyage, can obtain it by application to the Officer in charge.

Passengers who may miss any package of baggage on arrival at their destination are recommended to apply, *without delay*, to the Company's Agent, giving full particulars *in writing*, when application will at once be made to the Missing Baggage Depôts at Bombay or Southampton.

Baggage can be occasionally had up from the baggage-room during the passage by application to the Officer in charge.

1. The object of this undertaking is to provide means of transport at the terminal and intermediate stations along the lines of the Indian Railways and Steamers, similar to the establishment of Messrs. Pickford and Co. and others engaged in connection with the various lines of railways in Great Britain, collecting for despatch by rail, and distributing on its arrival, the enormous amount of merchandise and produce conveyed upon these lines, for which the existing primitive native means of conveyance by bullock hackery are totally inadequate, and the native carriers possessing neither the capital, skill, or enterprise required to organize the system necessary for the purpose. The means of transport by land and water provided by the Company will be adapted to the circumstances of each locality.

2. The carrying business on a well organized system is acknowledged to be one of the safest and most simple of commercial enterprises, and the profits have been such as to induce some of the Railway Companies in England to become their own carriers; but the great principle of the division of labour cannot be disregarded on railways in a new country like India, where their construction and working must for many years exclusively engross the time and attention of the Railway Company's officers.

3. Mr. Palmer, the Chief Agent of the East Indian Railway Company in Calcutta, writes as follows:—

"I think it would be very advantageous to this Railway to have the assistance of a well-"organized Carrying Company.—The want of some such Company is already very much felt."

The Agent of the Eastern Bengal Railway Company in Calcutta, in reply to a communication from the Government Consulting-Engineer, inquiring as to the advisability of establishing a carrying department in connection with that Railway, says (after stating that he should prefer to see such an undertaking established independently of the Railway)—

"Such a Company, conducted on the principles which guide the leading carrying firms "of Great Britain, as Pickford and Co., would not only yield a good return to the partners, "but accommodate largely and beneficially both the Public and the Railway Companies."

The Agent of the Madras Railway Company says—

"What is wanted (for the full development of the traffic of the Railway) is a class of "trustworthy business men, well known in America by the name of 'Forwarders,' whose "business is to get goods on to their destination."

4. The profitable character of the undertaking may be estimated from the facts that the tonnage of goods to be carried, already very large, must constantly increase; that the existing means of transport to and from the Railways on bullocks and small native carts is, as already stated, totally inadequate; that the comparative expenses in England and India are as three to one in favour of India in the keep of cattle, and as five to one in wages, the charges being only one-third of the English charges for the keep of the horses and bullocks, and the drivers and attendants costing only one-fifth of the charge in England. From the absence of any organized system, all persons requiring to convey goods to or from the Railways are at present compelled to engage their own carts and drivers, and to send their own servants in charge for security.

5. An undertaking so directly and materially promoting the interests of the shareholders in the various Railways in India, by its effect in developing traffic, will secure from their Directors all possible facilities for the construction of the sidings, warehouses, sheds, turntables, cranes, and other arrangements which may be required by this Company, upon the plan adopted and found to succeed so well in England. The shares have been made small in amount, in order to admit of as large a number as possible of those interested in the Indian railways participating in the profits and benefits confidently anticipated.

6. Messrs. Pickford & Co. have liberally placed at the Board's disposal all the valuable information which their long and successful experience enables them to supply, and have otherwise rendered to the Company and promised to continue all the assistance in their power.

7. The nature of the undertaking is such that the business may be commenced at once, and a quick return of profits may be looked for. Satisfactory estimates have been obtained for the supply of the wagons, carts, &c., required at first. Hereafter it is intended that the ironwork alone shall be sent out from this country, and the vehicles be constructed on the spot. As no great works will be required, and no buildings erected, until the business of the Company calls for their construction, there will be no delay in the profitable employment of the capital.

8. It is proposed to despatch qualified and experienced persons to India by an early mail, to make the necessary arrangements for commencing business during the ensuing cold season, but to limit active operations at the outset to the Chief Presidency Stations, and to extend the business of the Company only as the success of its first operations shall be found to warrant.

9. Estimates, carefully prepared, based on a comparison of the outgoings and returns of similar establishments in England, with the present Indian rates, after making due allowance for the additional expense of European superintendence and improved stock, and liberal deductions on account of depreciation and renewals, show a profit fully equal to 25 per cent. upon the capital employed. These estimates have been made upon the safe principle of calculating the expenditure in excess of what is anticipated, and the returns at the lowest existing scale of charges; and they are based upon the assumption that only about 104,000 tons are carried annually by the Company at all their stations, while the export trade of Calcutta alone, for one year, exceeded 725,000 tons.

A deposit of 10*s. per share must be made on application, and* 10*s. on allotment. If no allotment is made, the deposit will be returned without deduction.*

do hereby declare that the contents and value are truly stated.

Madras, the 18 . (Signature.)

Note.—The total value whether "Market" or "Tariff" weight and quantity must be written in words as well as figures.

All articles not enumerated in the Tariff and subject to duty *ad valorem*, will be passed upon the market value declared and determined in the mode prescribed by Sections XXI, XXII and XXIII of Act VI of 1844. It shall be competent to importers to produce their invoices in support of the market value put upon their goods, and the same will be duly considered, but not implicitly accepted by the Collector; at the same time it is to be distinctly understood, that the Collector of Sea Customs will be at full liberty to reject any such values, and to take on behalf of Government, in the mode prescribed by Section XXIII, Act VI of 1844, any articles which he may consider to be undervalued.

The amount of undervaluation which the subordinate officers of Customs may pass, without report to the Collector, shall be within 15 per cent.

When the undervaluation shall not exceed 30 per cent., the Collector shall be at liberty to permit emendation of certificate, if satisfied that there was no intention to defraud; and

In case of detention of goods undervalued, 15 days shall be allowed for appeal to the

Board of Revenue; and the goods remain unsold in the meanwhile, unless they shall be of a perishable nature, in which case they shall be sold without delay and their proceeds remain for the above period in deposit. In cases appealed, the Board shall have power to permit emendation of value when the undervaluation exceeds 30 per cent.

The market and tariff value upon goods to be thus assessed to be inserted by the importer, and the total amount of the value to be written in words as well as figures.

With the view of exhibiting the precise nature of the imports and exports, it is necessary that the articles be enumerated as distinctly as possible, according to their varieties, and further that goods, if foreign, be described so, and their places of production invariably stated.

A bill will be furnished for the amount of duty paid.

After 3½ o'clock in the afternoon, no cash can be received or bills of duties settled. Parties, therefore, who are desirous of clearing goods or private packages, are recommended to apply early in the day for the same. This rule is necessary to enable the accounts of the day to be closed in the evening, which could not be done were duty received until a late hour.

UNCOVENANTED SERVICE RULES.

AGE OF ADMISSION INTO THE SERVICE.

Fort St. George, November 28, 1856.—The following Notification by the Government of India, is republished for general information.

Fort William, Financial Department, the 29th October, 1856, No. 49.—Notification —With reference to instructions received from the Hon'ble the Court of Directors, the Right Hon'ble the Governor General in Council is pleased to resolve, that no person is to be admitted into the service of Government, as a writer or clerk, at an earlier age than 16 years.

By order of the Governor in-Council.

T. PYCROFT, Chief Secretary.

Examination Rules.

I.—GENERAL TEST.

NOTIFICATION.—*Fort St. George, 26th April,* 1861.—His Excellency the Governor in Council deeming it expedient that the regulations now in force for testing the qualifications of candidates for employment in the Uncovenanted Civil Service of this Presidency should be so far altered as to allow of persons who have been admitted into the public service, on the ground of their having passed an elementary examination in those branches of knowledge which usually form the basis of a general education, being promoted without passing any further literary test; and that the University examinations should be more closely and more obviously connected with those prescribed for the public service; and also that more effective provision should be made for testing the professional qualifications of candidates for employment in particular offices or departments,—directs that the following regulations shall be substituted for those contained in the notification dated the 4th March, 1858.

I. No person (not being a graduate or a matriculated student of the University of Madras, or a passed candidate according to one or other of the tests laid down in the above notification,) who had not been employed in the public service on or before the 1st January, 1859, and has not been continuously employed ever since,* shall be appointed to any situation, the salary of which may exceed Rs. 25, without having passed a satisfactory examination in the following subjects:—

1. *Hand-writing*, including the ability to copy rapidly and in a good clear hand a manuscript or lithographed paper.
2. *Orthography*, to include writing from dictation.
3. *Composition and Grammar*, including ability to write a simple letter in good grammatical language; to correct a passage written in an ungrammatical style; and to answer questions on grammar.
4. *Arithmetic*, the first four rules, simple and compound, with ability to apply the rules in practical cases.
5. *Geography*, including the elements of general geography and a somewhat more accurate knowledge of the geography of India.
6. *History*, including a knowledge of the leading facts of the history of India.

II. For the purposes of these examinations, the Uncovenanted Civil Service shall be divided into three branches, English, Vernacular, and Anglo-Vernacular, the first of which shall include all appointments, the duties of which are conducted entirely in the English language; the second, all appointments, the duties of which are conducted entirely in the Vernacular languages; and the third, all appointments requiring a knowledge both of English and of a Vernacular language.

III. Candidates for employment in the English branch shall be required to execute the test in hand-writing, orthography and composition in the English language; and candidates for employment in the Vernacular branch, shall be required to execute the same test in the Vernacular language of the District in which they seek employment.

IV. It shall be optional with candidates to perform the test in arithmetic, geography and history, either in English or in a Vernacular language, at their discretion.

V. Candidates for appointments in the Anglo-vernacular branch must pass the test in hand-writing, orthography and composition, both in English and in the Vernacular language of the District in which they seek employment. They may pass these tests either at the same examination, or at two different examinations, as they may think proper.

VI. The foregoing test shall not apply to persons who have passed the Matriculation examination of the Madras University, except that it shall be necessary for such persons, if candidates for employment either in the Vernacular or in the Anglo-vernacular branch of the service, and if the second language in which they have passed the University examination be not the Vernacular of the district in which they seek employment, to pass in such language the test laid down in Rule I.

VII. The examinations shall be held annually, both at Madras and in the Provinces, at the same time and place as the University Matriculation examinations, and in the lists of passed candidates, which shall not be published until after the close of the University Degree examinations, the candidates shall be ranked in the following classes:—

1st. Graduates of the University of Madras in the Faculty of Arts.
2nd. Matriculated students of the University of Madras.
3rd. Passed candidates examined according to the service test.

VIII. The candidates entered in each class shall be ranked in the order of proficiency in a register prepared in the annexed form (Appendix A.†)

IX. In order that the fitness of candidates for particular situations, demanding special qualifications, may be adequately tested, the several controlling Boards and heads of departments shall, from time to time, with the sanction of Government, and after

* For exceptions to this rule, see page 104.

† Not printed in this Almanac as not necessary for general information.—ED.

communicating with the officer appointed to direct the Uncovenanted Civil Service examinations, prescribe such special tests as they may deem requisite for particular offices or classes of offices in their respective departments; and persons desiring to pass such tests, shall be examined at the periodical examinations provided for in the preceding rules.

X. At the close of the said examination, a separate register of candidates passed according to a special test, shall be published.

XI. The examinations provided for in the foregoing rules shall be conducted by means of printed papers. They shall be open to all comers, whose age may exceed 18 years, on presenting an application prepared in the prescribed form and paying a fee of Rs. 3-8; provided that candidates who may have previously passed the University Matriculation examination or the general service test, shall not be required to pay a further fee in order to be admitted either to the examination in a second language or to the special test examination.

XII. The general direction of the system of examination provided for in these rules shall be entrusted to an officer, who shall be styled Commissioner for the Uncovenanted Civil Service Examinations. It will be his duty to appoint examiners, to nominate officers to superintend the examinations in the Provinces, and to determine on the reports of the examiners what candidates shall be registered as eligible for employment in the public service, or for particular offices and departments. The functions of the examiners will be confined to preparing the questions under the instructions of the Commissioners and examining and reporting on the answers.

XIII. It is to be distinctly understood that the Government do not undertake to provide appointments for all persons who may pass the prescribed examinations under these rules. Appointments will, as before, be regulated by the requirements of the public service, and will be made by the same authorities as heretofore. It is likewise to be understood that it will still, as before, be open to Government and, with their sanction, to the controlling Courts and Boards, whenever they may see necessary, to prescribe the period of service which must be passed in one grade of appointment before promotion to a higher grade altogether irrespective of these rules.

Certain Classes admissible without Examination.

NOTIFICATION.—*Fort St. George, May* 6, 1859.—The following Proceedings of the Madras Government, in the Public department, dated 2nd May, 1859, No. 630, are published for general information.

The ——————— enquiries whether the three undermentioned classes of public servants are required to pass the Uncovenanted Civil Service examination before they can be re-employed in the service of Government.

I. Persons not now in the service, but who were so formerly, resigned their appointments, and now seek re-employment.

II. Persons who have lost their posts from the reduction of establishments.

III. Persons who have been dismissed from the service, but whose re-employment has, on appeal, been either sanctioned or ordered by the Board or Government.

2. The Government reply that persons of the first of the above classes are not eligible to re-employment, unless they pass the examination.

3. In respect to parties of the second class, no general rule can be laid down. Such cases should be referred by heads of offices, from time to time, for the orders of Government as they occur. It is to be observed, however, that none are to be submitted, unless the previous service of the party on the regular (not hungamy or temporary) establishment, amount to at least five years, nor unless his conduct has been good.

4. Cases falling under the third class are, also, to be referred, on the occasion arising, for the decision of Government.

5. The above are to be taken in supercession of all previous orders on the subject.

Temporary Appointments.

Men who have not passed the examination may be employed as substitutes for periods not exceeding one month. When the period may be longer and when there may be a difficulty in a passed candidate, the case should be reported for the orders of Government.—*Notification, Fort St. George Gazette, 26th March,* 1857.

Volunteers in Public Offices.

Notification, August 31, 1859.—The following Proceedings of the Madras Government in the Revenue department, dated 20th August, 1859, No. 1123, is published for the information and guidance of subordinate offices.

In their order of 13th March, 1848, No. 268, Revenue department, the Government directed that the employment of volunteers in the public offices at the Presidency should be restricted to the narrowest possible limits, and the Court of Sudder Udalut have recently, in their circular dated 11th June, 1859, prohibited the employment of such persons in the Courts.

2. The Honorable the Governor in Council now resolves to extend the rule of March 1848 to the Collectors' offices also, if the aid of "Volunteers" cannot be altogether dispensed with there, as has been done in the Judicial department. There cannot be the same need of such unpaid assistants now that there was some years ago, since the Collectorate presses have so much reduced the copying work in Collectors offices.

3. Collectors will be instructed very strictly to limit the number of volunteers, employed either in their own offices or in those of their subordinates. None should be allowed but such as are registered after enquiry as to qualification and character; and none should hereafter be so registered who have not passed the Uncovenanted Service examination.

4. Volunteers admitted into the offices at the Presidency also will be so only in accordance with the preceding rule.

By order of the Honorable the Governor in Council.

T. PYCROFT, Chief Secretary.

ABSENTEE RULES.

General Orders by the Most Noble the Governor General of India in Council. Fort William, 28th February, 1856—No. 340 of 1856.—The following Notification, issued from the Financial department, is published in General Orders.

No. 9, dated 22d February, 1856.—Read a despatch from the Hon'ble the Court of Directors, No. 107 of 1855, dated the 5th December.

Resolution.—The Hon'ble the Court of Directors having approved, with certain modifications, of a Code of rules recommended by this Government for regulating leave of absence and acting allowances to public officers in India not in the Covenanted Service of the East India Company, the Most Noble the Governor General in Council is pleased

to resolve, that the following rules, together with the despatch above adverted to, be published in the *Official Gazette* for general information, and be held applicable from the date of the publication of the notification, to all officers in the Uncovenanted Service of the Government, who may be in the receipt of salaries of Rupees 100 a month and upwards.

Financial department—Our Governor General of India in Council, No. 107 of 1855.

1. We have carefully considered the papers accompanying your letter noted in the margin, relative to the proposed enactment of rules for the regulation of leave of absence, &c., to the large and increasing classes of public officers not in the Covenanted Service of the East India Company, but, nevertheless, in many cases performing duties of great importance and responsibility. It is scarcely necessary to observe that we desire to treat them in this, as in all other respects, with the utmost liberality and consideration that may be consistent with the interest of the Public Service.

Letter from, dated 28th July 1855, No. 101.

Forward the report of a Special Committee, (consisting of the Military Auditor General, the Secretary to the Government of Bengal, and the Accountant to the Government of Bengal, which was appointed by the Government to consider the subject of framing a Code of rules for the regulation of leave of absence and acting allowances for the Uncovenanted Service, and express an earnest hope that the proposed Code may receive the Court's sanction.

2. Adopting as a principle to be inviolably maintained, that in each separate case of absence of an Uncovenanted officer, the expense occasioned thereby is to be defrayed out of the absentee's salary, we are prepared to concur in the grant to Uncovenanted servants (receiving Rupees 100 per month and upwards,) of the advantages as respects sick leave and leave on private affairs proposed in the code under consideration. The advantages may be concisely stated, as follows:—

1*st.*—*Sick Leave.*—The grant of leave for three years altogether, during the entire period of service, of which two years only may be continuous or reckon as service for pension. During one year of absence, the absentee to be subjected to the deduction of half, and during the remaining period, of two-thirds, of his allowances, provided that he shall in no case draw a larger sum than Rs. 6,000 (£600) per annum.

The maximum being thus fixed, we shall leave it to the Local Government, in the exercise of their discretion to determine in each case, how far the advantages of the rules should be modified with reference to the length of service of the applicant and other circumstances.

We desire, however, that, after a continuous absence of two years on sick certificate, an interval of two years shall elapse before further leave on that account is granted.

2*nd.*—*Leave on private affairs.*—The grant of leave for one month in each year without deduction; for six months on sufficient cause being shown with deduction of half allowances, provided the rate of Rupees 6,000 (£600) per annum be not exceeded, and under special circumstances, for twelve months without forfeiture of appointment, but without pay and without the leave counting as service for pension.

This latter advantage may, we think, be fairly conceded in special cases to Uncovenanted servants, since a regular furlough on private affairs cannot be granted to them, and the loss of their appointments involves practically the loss to them of the service. But it should not be allowed more than once during the period of service.

3*rd.*—We accede to your suggestion that heads of offices in cases of urgency may be authorized to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

4*th.*—The Rules proposed regarding the allowances of persons appointed to act for absentees appear unobjectionable.—We are your affectionate friends.

(Signed) E. MACNAGHTEN, W. H. SYKES, and eight other Directors.

Rules for Regulating Leave of Absence and Acting Allowances to Public Officers in India not in the Covenanted Service.

Published by the Government of India under date 28th February, 1856, No. 340, as applicable to those on the receipt of salaries of 100 Rs. and upwards.

☞ The orders of the Supreme and Local Governments issued since the promulgation of the original Rules are inserted under their proper heads enclosed in brackets.

CHAPTER I.—*Rules for Application of Leave of Absence.*

Section I. Leave of absence to officers not in the Covenanted Service of the East India Company, receiving their appointments direct from Government, will be granted by the Government only* under which office is held, on application made publicly through the regular channel in the department to which the applicant may belong; but in respect of all other officers, it will be optional with the local Government to delegate to heads of offices or departments, power to act upon the rules without special reference to higher authority.

Section II. Absence without leave will render the absentee liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section III. No leave† of absence shall have any retrospective effect, except in cases of severe illness to be attested by medical certificate conforming in every respect to the directions contained in Section IV.

CHAPTER II.—*Rules for Sick Leave.*‡

Section IV. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a statement of the case from the medical man by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the causes by which it has been probably produced, and the period during which it has existed so far as the knowledge of the medical officer extends; and by a certificate from the chief medical officer of the station or district, or if at a presidency town, from a presidency or other official surgeon, certifying, after careful personal investigation, the necessity for temporary removal, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must, in the first instance, be countersigned by the Superintending Surgeon of the division in which the applicant may be located; and in cases of leave beyond sea, be afterwards submitted, with the statement of the case, for the consideration and countersignature of the Director General of the Medical department.

The certificate shall be given in the following form:—

I, A. B., Surgeon at or of —— do hereby certify that E. F. (here enter designation of office) is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery; and that the circumstances of his case are such as to render leave of absence for the period of —— absolutely necessary (or highly desirable.)

The following form shall be observed by the Superintending Surgeon and Director General of the Medical department in countersigning the certificate:—

I (or we) do hereby certify that according to the best of my (or our) professional judgment, after careful consideration of his case, I (or we) believe the state of health of E. F. to be such, as to render leave of absence for a period of —— absolutely necessary (or highly desirable) for his recovery.

* In their Proceedings of 17th October, 1861, No. 506, the Madras Government resolved "to vest the Civil and Session Judges, Collectors and Magistrates, and Agents to the Governor, District Engineers, above mentioned authorities through the prescribed channel and be settled by them after reference to the Audit Office, Director of Public Instruction, Inspector General of Police, Superintendent of Marine except to Master Attendant of Madras, Principal Inspector General Medical Department as regards Civil Medical Officers, Director of Revenue Settlement, Superintendent of Revenue Survey, Inam Commissioner, Conservator of Forests, Court of Sudder Adawlut, the Board of Revenue, and the Chief Engineer, Public Works Department, with the power to grant *privilege* leave to the full extent to all Officers subordinate to them under the grades noted in the margin, a previous reference however being made to Government when it is necessary to appoint an Officer to act for the Absentee. Applications for such leave should be submitted to the

2. The controlling authorities named in the margin are also vested with power to grant leave similarly to all Officers subordinate to them, subject to the same provisions.

3. Notifications of the grant of privilege leave by the several authorities will be forwarded *direct* to the Superintendent of the Government Press to be published in the Fort Saint George Gazette."

† From the resolution of the Government of India dated 12th April, 1860, No. 3279, it may be inferred that *privilege* leave may, as a special case, be granted retrospectively.

‡ The mere fact of the presentation of a Medical Certificate is no bar to the grant of privilege instead of sick leave.—*Gazette, 11th May*, 1860, *page* 1050.

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the medical officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Director General of the Medical Department, or by the Superintending Surgeon of the division in which the applicant may be located. In like manner, if the applicant shall have proceeded beyond the territories under the Government of Her Majesty's Government of India, he must furnish a certificate and statement to the required effect from a Surgeon or Physician at the place of his temporary residence, by whom he has been attended; such attendance and the period of it to be stated, and the certificate to be countersigned by the examining Physician of the East India House if the absentee is in Europe, or by the principal medical authority of the colony or country to which the absentee may have proceeded; or some sufficient reason stated for the want of such countersignature if not produced.

The Officer countersigning must either personally examine the applicant, or state some sufficient reason why he has been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section V. Leave of absence will be granted under the following limitations to servants who may be declared, by a sufficient medical certificate, to require leave for the restoration of their health:—

Clause 1. The limit to leave on medical certificate is fixed at three years during the entire period of service, of which not more than two years may be continuous and two years only will be permitted to reckon as service qualifying for pension.*

Clause 2. Leave of absence on medical certificate will not be granted for a longer period than twelve months at any one time, which may, however, be extended, if necessary, under renewed medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on medical certificate, an interval of two years shall elapse before further leave on that account is granted.

Clause 3. During one year of the entire period of absence under this rule, the absentee will be subjected to a deduction of one-half, and during the remainder to a deduction of two-thirds of his allowances, provided, however, that he shall in no case draw a larger sum than Rupees 6,000 (£600) per annum.

Clause 4. In cases of extreme urgency, the heads of offices are authorized to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

[The leave granted under Section V to an Uncovenanted servant proceeding to Europe shall be computed from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the ports of his own presidency to the date of his arrival at any port within the presidency to which he belongs or at any other port which is not more distant from his station than the ports of his own presidency.—*Notification of Government of India, 11th July*, 1856, *No.* 36, *Gazette*, 1*st August* 1856.]

Section VI. Parties who may desire to draw their allowances while absent on leave, will be required to give security in such amount and form, as may be fixed by Government for the refund of any excess that may be drawn in case of their coming under retrenchment.

CHAPTER III.—*Rules for leave on Private Affairs.*

Section VII. [Clause 1. Leave of absence may be granted for one month in each calendar year without deduction from salary, provided that the indulgence can be granted without injury to the public service, or additional expense to Government. Those servants who may not have occasion to apply for the whole month's leave at once, may divide it into two instalments. No second leave shall be granted under this rule, until the completion of eleven months from the expiration of the last leave, if taken at one time, or from the date of return from any sick leave or leave on private affairs, or if the leave be taken in instalments, until the completion of six months from the expiration of the last instalment. Uncovenanted servants not availing themselves of the indulgence in any one year, may, at the option of the local Government, obtain under the like conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months, from the termination of their former leave, and if two years elapse without enjoyment of the privilege leave for three months may, in like manner, at the option of the local Government, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this rule for any period exceeding three months. If a servant shall not return at the expiration of the period of leave granted him under this rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

* Servants who have enjoyed the advantage of reckoning as service for pension all authorised leave beyond the limit fixed by the rules are not now to be deprived of counting their past leave as service.—*Court's Despatch, 13th May, No. 38 of 1856.*

Clause 2. Officers of the Judicial department taking leave during the authorized closing of the Civil Courts, will be allowed to draw full salary during such leave, but will not be held entitled, in addition thereto, to privilege leave under the 1st clause of this rule.—*Notification of Government of India, 27th June*, 1857, *No.* 25, *Gazette*, 28*th July*, 1857.]

[Instalments of privilege leave can only be taken in the same Calendar year at any interval, any balance remaining unavailed of being forfeited. The period required to lapse between the time an Officer returns to duty and again becomes eligible for privilege leave is calculated from the expiration of one month after the commencement of the first instalment of leave taken in the year, the subsequent instalment not being taken into account.—*Res. of Govt. of India, 12th April*, 1860, *No.* 3279, *Gazette*, 11*th May*, 1860, *p.* 1050.]

[When servants absent on leave under Section VII are granted extended leave under Medical Certificate, they are considered liable to the rules applicable to leave of absence on Medical Certificate for the whole period of their absence.—*Gazette*, 4*th Sept.*, 1857.]

[The mere fact of the presentation of a Medical Certificate is no bar to the grant of privilege leave.—*Gazette*, 11*th May* 1860, *p.* 1050.]

[No leave can be granted under Section VIII to X in continuation of that under Section VII.—*Notification, Fort Saint George Gazette*, 26*th September*, 1856.]

Section VIII. In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one half the absentee's salary being deducted for such period of absence, provided the rate of Rupees 6,000 (£600) per annum be not exceeded.

Clause 2. The leave granted under this section will be computed from the date of the absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause 3. Leave taken under this and the preceding section will reckon as service qualifying for pension.

[Clause 4. If an officer while absent on leave under this section, obtains an extension of leave on medical certificate, he will be liable for the whole period of his absence to the rules applicable to leave on medical certificate.—*Resolution of Government of India, 26th April*, 1862, *No.* 74, *Gazette*, 16th *May*, 1862, *page* 758.]

Section IX. In addition to the leave which may be granted under the preceding rules on medical certificate, or private affairs, Government may at any time, under special circumstances and at its discretion, grant leave of absence once during the period of service not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay; such period of absence not to count as service towards pension.*

Section X. No leave of absence on private affairs shall be claimable by any party whatever under these rules, as a matter of right; such leave will be granted only at the pleasure of the Government or its authorized officers when the concession of the indulgence in no way interferes with the interests of the public service, and it shall be the duty of the Government in every instance, (except in the case of leave granted under Section VII,) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

[☞ The salary of servants absent on privilege or special leave on the last day of the month is not to be included in the Pay abstracts of the District or office, unless the absentee return to duty before the abstract is despatched.—*Not.* 1*st July and* 27*th September*, 1857.]

[The salary of an officer who may die while absent on privilege leave is to be passed up to the date of death.—*G. I. 7th May* 1861, *No.* 5418. *Fin. Dept.*]

* Servants who have enjoyed the advantage of reckoning as service for pension all authorized leave beyond the limit fixed by the rules are not now to be deprived of counting their past leave as service.—*Court's Despatch, 13th May, No. 38 of 1856.*

Preparatory Leave.

[The Government is authorized to grant, as a general rule, to Uncovenanted officers proceeding beyond sea, on medical certificate, special leave for the interval elapsing between departure from station and the commencement of reckoning absence or between the end of reckoning absence, and re-arrival at station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance, on the condition that during this additional period, the absentee shall be entitled to draw the same rate of allowances as are granted by the clause noted in the margin. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatarium.—*Notification of Government of India, 14th October*, 1857, *No.* 42.]

In the case of Uncovenanted servants, Clause 3 of Section V of the absentee rules for the Uncovenanted Service.

[A separate application for preparatory leave need not be submitted by officers proceeding to Europe on sick leave. The Civil Paymaster is authorized to pass the allowances of such officers for the period occupied in travelling to and from the port of embarkation when satisfied that the conditions upon which such leave is permitted by the existing orders of the Supreme Government have been duly fulfilled.—*Notification of Government of India, 17th April*, 1857, *No.* 18, *Gazette* 1st *May*, 1857.]

[Leave may be granted on separate application preparatory to furlough on private affairs, or for return to station after the expiration of furlough, only on the terms of Section IX of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, without forfeiture of appointments, but without pay; the period of absence not counting as service towards pension.

If the furlough, however, be enjoyed in India, no preparatory leave is to be granted; the furlough being reckoned from the date of the absentee's quitting his post to the date of his return thereto.—*Notification of Government of India, 22nd January*, 1857, *No.* 4, *and 17th April* 1857, *No.* 18, *Gazette, February*, 1857, *and* 1st *May*, 1857.]

[The absentee is not entitled to any pay for the time intervening between the expiring of his preparatory leave and the date of embarkation: nor is he at liberty to reckon his sick leave from date of expiring of preparatory leave instead of from the date of embarkation; but every special case of this description will be considered on its merits.—*Letter from Government of India, 17th April*, 1862, *No.* 2882, *published on page* 803 *of Gazette, 23rd May*, 1862.]

[If the officer be at a Presidency town he is allowed one month's preparatory leave.—*Letter of Government of India, 7th September*, 1861, *No.* 11,369, *Gazette, October* 1861, *page* 519.]

Occasional Leave.

[It is left to Heads of Offices, subject to the orders of the local Government, to grant, at their discretion, casual leave of absence from office in cases of sickness, death of near relatives, &c., on condition that the local Government shall see that the discretionary power to be placed in the Heads of Offices is not abused. Such casual absences from office are not to be reported to the Civil Auditor, but systematically entered in a book to be kept in each office, and when an application for privilege leave is received, the leave should be granted or refused with some reference to the entries in this book.—*Proc. of Supreme Government, 28th Sept.*, 1858, *Fin. Dept., No.* 5670, *Fort St. George Gazette, 18th Nov.*, 1858.

[This leave is granted without loss of salary and without being taken into account as part of the two years allowed by Clause 1 of Section V.—*Proc. of Govt. of India, 12th June*, 1857, *Fin. Dept., No.* 2527, *Gazette, 17th July*, 1857.]

Leave before Retirement.

[Uncovenanted servants about to resign the service, who are residents in India, and have no voyage to prepare for, have not, in the opinion of the Governor General in Council, any reasonable claim to a month's "preparatory" leave; but he thinks that this indulgence, which is granted on half-pay to Covenanted servants, may be extended to *European* Uncovenanted servants, intending to proceed to Europe immediately on retirement, on the understanding, however, that it shall be subjected to the same condition as the leave to Covenanted officers, viz., that it shall be granted only in case it can be given without detriment to the public service.—*Notification of Government of India, 29th April*, 1859, *No.* 36.]

CHAPTER IV.—*Rules for Allowances, &c.*

Section XI. No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it.

[Arrival on a Sunday entitles the relieving officer to the salary of his appointment for that day, but on other days it is necessary in order to enable the relieving officer to draw the current day's allowance, that he should take charge of the duties of the office before noon.—*Not. of Govt. of India, 26th March*, 1862, *No.* 49, *Gazette, 15th April*, 1862, *page* 594.]

Section XII. An officer holding a situation, appointed to one of equal or higher value, will, until he joins, draw so much of the salary of his new office as may be equal to the salary of his former situation; provided he does not exceed the time allowed for joining under the following rules; should he do so, no salary will be past to him for such period in excess.

Section XIII. The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sunday excepted), together with a week* to prepare for the journey; but on occasions of emergency, it will be optional with the Government to prescribe the period within which any journey is to be performed.

[For the portion of the journey traversable by railway 100 miles a day are allowed; for the portion traversable by steamer 100 miles a day or the time actually occupied in the voyage, when by accident the duration of the voyage exceeds the time calculated at the rate of 100 miles a day.—*Not. of Govt. of India, 30th March*, 1861, *No.* 65, *Gazette, 14th May*, 1862, *page* 675.]

Section XIV. A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument, will be subject to deduction at the same rate; but no additional expense is on any account to be incurred by the absence of any officer on leave.

[When Covenanted officers, Civil or Military, officiate for Uncovenanted officers, and when Uncovenanted officers act for Covenanted officers, Civil or Military, the deputation allowances in such cases will be regulated according to the principle laid down in Chapter VI, Sections 25, 26 and 27† of the Covenanted Civil Absentee Rules, it being understood, however, that Section 27 shall not apply to *Ministerial* officers acting for Covenanted officers, who are entitled to acting allowance from the date they commence to officiate, and not after the expiration of one month, as in the case of other Uncovenanted officers of superior grade.

---

* The Notification published at page 519 of the 2nd Volume of the Gazette for 1861, read with that inserted on page 676 of the 1st Vol., seems to extend this period to a fortnight, when the officer proceeds by the Railway or Steamer.

† CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

* * * * * * *

Section XXV. Deputation allowances shall be granted to Civil servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereafter laid down:—

To Civil servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation allowance being in addition to the Subsistence allowance of their respective ranks.

To Civil servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided however that no lower rate of Deputation allowance shall be given than Rupees 200 per mensem.

The Deputation allowance shall in all cases be in addition to the salary of the substantive appointment held by the officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjaub, Nagpore and other places, where appointments are by classes, the amount of Deputation allowances, payable at the above rates, will be calculated, not upon the salary of the individual officer holding the substantive appointment in which the officer deputed may be temporarily officiating, but, on the average rate of salary attached to the particular classes to which the appointment may belong.

A Civil servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the officer to be relieved, subject to the prescribed deductions.

A Civil servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation allowance on the reduced salary.

An Officer officiating in more than one appointment will be entitled to Deputation allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appoint-

When an officer of the Uncovenanted Service acts for another of the same service, or when a Military officer acts for another Military officer, he shall be governed by the rules of the respective services to which he belongs.—*Notification of Government of India, 9th May*, 1859, *No.* 638, *Fort Saint George Gazette, 27th idem, page* 1074.]

[When an officer officiates in another appointment continuing at the same time to discharge the duties of his own post, he is permitted to draw the full salary of his substantive and a moiety of the acting appointment.—*Resolution of Government of India, 16th March*, 1860, *Gazette, 17th April*, 1860, *page* 843.]

[The deductions are invariably to be made in accordance with these rules from the salaries of all absentees, whether they are in receipts of 100 Rs. or less, except when special directions are issued by Heads of Offices to make larger deductions which may be necessary in cases of officers whose duties cannot be otherwise provided for without extra expense to Government.—*Proceedings of Government of India, 9th November* 1857, *No.* 4696, *and Proceedings of Madras Government, 30th idem, No.* 764.]

Heads of Offices are required to be guided by the spirit of the rules above prescribed in granting leave of absence to servants, whose salaries are less than 100 Rupees a month.—*Notification of Government of India, 6th February*, 1857, *No.* 11, *Gazette, 20th idem, page* 342.

DISMISSAL OF UNCOVENANTED SERVANTS.

Para. 1. In the Resolution of the Most Noble the Governor General in Council forwarded with Mr. Under Secretary Couper's Letter of the 24th February last, the local Governments are directed "to issue the necessary orders for the establishment of a rule to prevent the arbitrary dismissal of Uncovenanted servants, based on the suggestions of the Honorable Court."

2. The Right Honorable the Governor in Council considers a rule of this nature highly desirable—for, so long as the Uncovenanted servant can be dismissed without full enquiry, and proof of misconduct, at the will of his superior, his tenure of his office is so uncertain that it leads almost necessarily to the habit of looking at office as temporary, and the temptation therefore is to make the most of it whilst it is held.

3. This power of arbitrary dismissal also confirms in the whole body of the Native servants the habit of servile dependence on a superior, which strikes at the root of all independence and manliness of character.

4. The Governor in Council resolves therefore, in compliance with the orders of the Government of India, to lay down for the guidance of the Heads of all Offices in the Revenue, Judicial, Military and Public branches of the Service, the following general principles by which the dismissal of Uncovenanted servants should in future be regulated.

5. Persons appointed to permanent situations in any Department, shall not be dismissed, but for fraud and dishonesty—continued and wilful negligence—offences involving moral disgrace—and proved incompetency.

6. As under the present rules for the Revenue and Judicial Departments, fines exceeding 10 Rupees cannot be inflicted without the sanction of the Board of Revenue and the Court of Sudder Adawlut respectively, it is simply consistent to provide the same control

---

ment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation allowance in addition to the higher salary to which he has been promoted.

Section XXVI. No Civil servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation allowance, according to the prescribed scale, added to the permanent emoluments of the officiating servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no deputation allowance, unless the emoluments of the office in which he is deputed, to act exceed the united emoluments of his permanent appointments, and in that case the Deputation allowance shall be limited to the difference.

Section XXVII. No subordinate officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. But a servant previously out of employment, or who may be deputed to act from a different station, shall be entitled to Deputation allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

over the dismissals of persons receiving upwards of 10 Rupees—but it will be sufficient to require returns to be made of such dismissals, specifying the cause of dismissal as falling within one or other of the Heads in the above category, and to provide that no dismissal shall be final until the expiration of three months from the date on which the return shall be transmitted, giving the party a right of appeal at any time within that period. It should be understood that dismissals not appealed from nor objected to by the Controlling Board upon their own review of the returns are to be taken as confirmed.

7. The rule should be more definite than it is in the Judicial Department as to what servants may be dismissed *without the previous consent* of the controlling authority. In the Revenue Department, Tahsildars cannot be dismissed without previous sanction—and this rule ought to be extended to some other responsible situations—such as Talook Sheristadars, Peishcar, Hoozoor Head Gomastah and the like. A similar rule should be applied to protect Officers of the same grades in the Judicial Department.

8. The Governor in Council considers it but just and proper that greater protection should be given to *old* servants, and with this view he directs that the previous sanction of the controlling authority should be indispensable to the dismissal of any servant of 15 years standing receiving a certain salary, say 25 Rupees a month—but the amount will be determined on the report of or according to the opinion of the Court of Sudder Adawlut and Board of Revenue, who will confer together and report on this point.

9. In every case the specific grounds upon which it is proposed to dismiss any servant should be reduced to writing and furnished to him, and the answer or defence or explanation of the party taken in writing, and the final decision of the superior recorded in writing. It will not be absolutely necessary for every head of charge to be formally proved by evidence, but where a specific fraudulent act is charged, of course it should be so proved in the presence of the party accused and subject to his cross examination, and so with other specific acts susceptible of proof by the evidence of witnesses upon which accusations within the category are built—but the charges will often be matter of inference from circumstances not capable of formal proof but not less leading to a moral conviction. The rule therefore on this head ought not to be rigorous.

10. As connected with this subject, the Governor in Council takes the opportunity of declaring the practice of Officers introducing their own dependants or followers from other Districts into high and responsible trust under them in a new office, thus superceding the old servants of the office, to be very objectionable—and he accordingly resolves that this source of arbitrary removal be at once checked. With regard to the highest offices in the Revenue Department, they are subject to the confirmation of the Board of Revenue, and it will be the duty of the Board to prevent the appointment of a follower of the Collector without good and sufficient reason being assigned, contrary to the declared sense of Government on the subject. The appointment of Deputy Sheristadar should also be made subject to the confirmation of the Board—but it will be sufficient when an Officer of that grade is appointed that the appointment shall be reported to the Board with a statement of his previous services, that the Board may interfere if the appointment shall appear objectionable on the ground of the declaration of Government.

11. This course should also be followed in regard to the appointment of the Sheristadars and other principal Ministerial Officers of the Judicial Courts.

12. With regard to offices which are subject to no controlling authority, the Government will directly exercise the same measure of control as is proposed to be exercised by the Sudder Court and the Board of Revenue respectively in regard to the Heads of Offices subordinate to them.

13. The Court of Sudder Adawlut and the Board of Revenue as well as other controlling authorities will accordingly prepare and submit subsidiary rules for giving effect to the foregoing views and orders of Government.

14. The Government of India require the transmission to them of a half yearly list of all dismissals (with the cause briefly set forth) of Uncovenanted servants holding office with a salary above 10 Rupees per mensem. To enable this Government therefore implicitly to obey those orders, Heads of all Offices in the Revenue, Judicial, Military and Public branches of the Service must consider it their very special duty to furnish the Government regularly with the required half yearly Returns—and those officers who have hitherto neglected to obey the orders of this Government on the subject, dated 18th November 1851, No. 1064, will immediately submit their Returns for the entire year of 1853. With these Returns and those already received for that year, a General Return will be prepared in this office to be laid before the Government of India.—*Ext. Min. of Cons., 5th May* 1854, *Public Department, No.* 421.

CIVIL PENSION AND GRATUITY RULES.

The following revised Rules for the Grant of Pensions and gratuities to superannuated and discharged Public Servants, were published for general information on the 15th of May. Subsequent modifications and amendments are inserted under their respective heads within brackets, the date of the order of Government being quoted in support.

I.—*Rules relative to the grant of Superannuation Pensions to Subordinate Officers in the Civil Department.*

First. Superannuation Pensions will be granted only to the superior classes of Public Servants indicated in the annexed list.* Inferior Servants,—Peons, including Jemadars and Duffadars, Lascars, Boatmen, Artificers, Labourers and Menials are to have no claim to such provision.

* Vide Appendix No. I.

Second. With the exception of Native Judges and Law Officers, the applicant must have been employed in the Public Service for a period of at least twenty years.

Appendix No. I, Clauses 1 and 2.

Third. The Public Servant, whatever may have been the period of his service, must be incapacitated for further employment by old age, protracted ill health, loss of sight, or other bodily or mental infirmity [except in the case of those who are thrown out of employ by the reduction or abolition of Establishment after having served continuously for 20 years and more.—*Gazette, 25th November* 1862, *page* 839.]

Fourth. The character, conduct and past services of the Public Servant must be favorably certified by the Officer or Officers under whom he may have been employed, and must appear to be such as to entitle him to the favorable consideration of Government.

[Any Uncovenanted servant belonging to a class recognised by the present rules who, though not possessed of a medical certificate of incapacity, and who can produce unquestionable testimonials of a faithful and efficient discharge of his duties during a period of 35 years, may be permitted to retire from the service on a pension equal to half the average salary which he may have received during the last five years of his service. These pensions are to be regarded as the rewards of good service and they will not in any case be claimable as of right.—*Notification, Gazette*, 21*st July*, 1854.]

Fifth. Whenever it may be judged expedient to grant a Pension to a Public Officer whose case may come within the foregoing provisions, the amount of the Pension shall be limited as follows:—

1st. If the period during which the individual may have been actually employed in the Public Service shall be more than twenty years, but less than thirty years, the amount of the Pension shall not exceed one-third of the monthly salary or authorized official allowances of such individual, calculated on an average of five years previously to the date of the application for such pension.

2nd. If the period of actual service shall have been thirty years or upwards, the amount of the Pension shall not exceed one half of the salary or authorized allowances of the individual, calculated in the manner above stated.

3rd. For Law Officers and Native Judges [and Principals and Head Masters of Colleges and Schools—*Vide Ext. Min. of Cons., 12th June*, 1855, *No.* 153, *S. Pub.*.] the period of 15 years shall be substituted for that specified in Clause 1st, and 22 years for the term mentioned in the 2nd Clause.

4th. The rates of Superannuation Pensions shall be fixed on a graduated scale within the prescribed limitations with reference to the responsibility and arduousness of the employment, the degree of merit of the individual, and the nature and length of his service.

Appendix No. II, Clause 3.

[Uncovenanted Servants, appointed after May 1855, receiving salaries of 700 to 2,000 Rupees monthly, are not allowed a larger pension than £400 or Rupees 4,000 per annum, nor will a larger pension than £500 or Rupees 5,000 per annum be allowed to those receiving salaries above that amount. H. Ct. 28th Feb., No. 21 of 1855, Fl. G. I. 19th May 1855, No. 1934, Fl. M. G. 12th June 1855, No. 153. S. Pub. Dt.]

Sixth. A Pension will hereafter be granted by Government to the family, or any member of the family of a deceased Public servant, only when such servant shall have been killed in the execution of his public duty, or shall have died in consequence of wounds or accidents sustained therein.

Seventh. Should cases arise which are not sufficiently provided for in these rules, or in which, from special circumstances, Government may be pleased to deviate from them in favor of a claimant to a pension, such pension shall be considered only as temporary and provisional, until the grant shall have received the sanction of the Honorable the Court of Directors.

Eighth. Whenever an application may be made to Government with a view of obtaining the grant of a Pension in favor of any officer employed in the Public Service, the application shall contain full and specific information on the following points.

1st. The name, class or caste, age and proposed place of residence of the individual for whom the pension may be solicited, the situation in which he may be employed at the time when the application may be made, the total period during which the individual may have been employed in the Public Service, and various official situations in which he may, from time to time, have been so employed.

2nd. The monthly amount of the salary or official allowances of the individual in question, on an average of five years previously to the date of the application.

Appendix No. II, Clause 4.

3rd. The causes by which the individual may have been rendered incapable of discharging any longer the duties of his office, whether by extreme old age, protracted illness, loss of sight, or other bodily or mental infirmity.

4th. His general character, conduct, and past services in the official situations which he may have held.

[5th. The date from which the pension is to be paid.

6th. Whether provided for in the budget.—*Pro. of Govt., 9th May*, 1862, *Fin. Dept., No.* 34.]

Ninth. If the officer making the application shall be unable, from his personal or official knowledge, to supply the whole of the specific information above required, he shall endeavour to obtain it from the records of the Office in which the applicant may have been previously employed, or he shall call upon the individual in whose favor the application may be made, to furnish a written statement, (to be verified by his oath or solemn declaration if required) on such of the points above noticed as may be necessary.

Tenth. If the individual shall be rendered incapable of further service by protracted illness, loss of sight, or other bodily or mental infirmity, a medical certificate by a European Medical Officer in the service of Government to that effect, shall be also transmitted with the application. The certificate shall contain a clause certifying that the state of health by which the applicant is rendered unfit for further service has not been occasioned by intemperance or other irregular habits.

Eleventh. Each application for a pension under the foregoing rules, shall be made by the Head of the Office under whom the individual recommended to be pensioned may be employed, [upon demi paper in the printed form annexed, and not in manuscript.

Appendix III.

Applications for Pensions or Gratuities shall be forwarded by Heads of Offices direct to the Civil Paymaster for verification, instead of to the Chief Secretary to Government, and the Civil Paymaster after filling up the blank form upon the back of each application will transmit it in due course for the final orders of Government.

Heads of Offices are warned to be careful that applications for Pension are sent up in as complete a form as possible, so as to avoid unnecessary delay and correspondence upon points that may have been omitted. Explanation should invariably be given of the circumstances under which individuals may have been removed from, and restored to, the Public Service, and the orders of Government, or the Board of Revenue, if any, should be quoted.

The Civil Paymaster will return to the transmitting Officer for correction all applications for Pension in which this Rule may not hereafter be attended to.—*Pro. of Govt., 26th April*, 1862, *Pension Department, No.* 137.]

Twelfth. Lapses of Pensions shall be communicated to the Civil Paymaster as soon as possible after their occurrence, and it shall be the duty of the several Officers in charge of Treasuries from which Pensions are paid, to appoint a proper person of their establishment to report all lapses to them and, along with themselves, to be responsible to Government for the fulfilment of this rule.

Appendix No. II, Clause 10.

Thirteenth. No Pension shall be payable in arrear for a period exceeding six months, without the express sanction of Government obtained through the Civil Auditor, unless the cause of the suspension of payment shall have been the neglect, order or act of some Public Officer, and beyond the control of the Pensioner;—when the Civil Auditor on a reference being made to him, shall exercise his discretion in passing arrears for payment, or submit a representation of the case for the information and orders of Government, as he shall consider proper.

Fourteenth. It shall be the duty of the Civil Paymaster to exercise a vigilant control over this class as over all other Civil Pensions, and with that view to bring to the notice of Government all instances in which, in the granting of Superannuation Pensions, any of these rules may be departed from, unless he shall be distinctly informed that a special exception has been made in the individual instance.

Fifteenth. It shall further be the duty of the Civil Paymaster to lay before Government at the end of each official year, a statement exhibiting a comparison between the amount of Pensions that have lapsed, and the amount of Pensions granted during the year; and as a check against the fraudulent continuance of Pensions beyond the actual term of the Pensioners lives, that officer shall, from time to time, compare the periodical decrement of life; and where lapses do not occur in the proportion that might be anticipated, it shall be his business to institute such enquiry as may appear necessary to ascertain whether, and in what particular instances, fraud has actually been committed, and to submit to Government the result of his investigation.

II.—*General Rules as to Civil Pensions of every description.*

1. The 12th, 13th, 14th and 15th rules respecting Superannuation Pensions, are hereby extended to all other Civil Pensions.

2. In conformity with Act VI of 1849, Pensions are not liable to attachment or sequestration in satisfaction of any decree or order of Court.

3. The custom of mortgaging Pension Certificates, by which great distress has been occasioned to Pensioners, is prohibited. Superannuation, Family and other Civil Pension Certificates are not transferable, and the Pensions are payable only to the individuals in whose names they have been granted, or to their authorized Vakeels, in the particular instances specified below in rule 5.

4. Payment of all Civil Pensions is forbidden, except upon production of the Pension Certificate, and as a description of the Pensioner will be entered in all Certificates, it will be the duty of the Officer paying the Pension, with the exceptions specified in the following rule, to see that the party attending to receive it, corresponds in personal appearance with the description given in the Certificate. On payment being made, *the receipt of the Pensioner is to be written on the back of the Certificate, signed or marked in presence of the paying Officer, and attested by the initials of the payer.*

Appendix No. II, Clauses 12, 13 & 14.

5. From the personal attendance required by the foregoing rule, none are excepted, but females whose caste or condition in society would render their appearance in public improper, or such Pensioners unable to attend, producing evidence of this fact satisfactory to the paying Officer, who alone are permitted to nominate Vakeels, whose evidence and profession must be described, and who in all practicable cases, should be individuals in the receipt of Pay or Pensions from Government. But to guard against the abuses to which this indulgence is liable, the Officer by whom such Pensions are paid, will, in his monthly returns, note the individuals who have been allowed to appoint Vakeels, and must ascertain by the best means in his power, that their principals are alive, by making enquiries among the most respectable Natives of the same caste, and by watching whether the usual proportion of casualties occur.

6. The indulgence of receiving their stipends quarterly, instead of monthly, may be extended to such persons as desire it.

7. Officers paying Civil Pensions will be held responsible for the amount of all irregular payments on this account which may be made under their authority; and also for all refunds thereof, the non-recovery of which may arise from neglect or inattention on their part.

8. The payment of all Civil Pensioners will be confined to the Station or District which they may select on first being entered on the Pension list. If, in any *special case*, a change of payment should afterwards be solicited or become expedient, an application is

to be made through the Officer paying the pensioner, to the Secretary to Government in the Public Department, who will issue the necessary orders and transfer certificate; but without his previous authority no removal is to take place.

9. Any casualty occurring by death or removal from one District to another is to be carefully notified to the Civil Auditor, and in the former case the Pension Certificate of the deceased is to be forwarded to the Secretary to Government in the Public Department, to be cancelled.

10. To prevent pensions being overdrawn or continued beyond the period for which they are granted, through ignorance on the part of the holder or inadvertence on that of a Native Officer, in all future Pension Certificates, the columns shall be filled up by the paying Officer, in the language of the Pensioner, and in that of the District where the Pension is payable, as well as in English.

11. Depositions taken to establish the rights of claimants to pensions must always be recorded and signed; and all persons in the receipt of Pay or Pensions from Government are informed that, in event of their giving false evidence, or being in any way concerned in an attempt to defraud the Public to their own personal advantage, or that of others, or who being cognizant of such frauds, shall fail to divulge them, will be totally deprived of the bounty of Government and subject to such further punishment as the Law may authorize.

III.—*Rules respecting Gratuities to discharged Servants.*

[An individual who has served less than 5 years has no claims to gratuity. A gratuity of three months' pay is allowed to one who has served 5 and less than 10 years, 4 months pay for one who has served 10 and less than 15 years, 5 months pay for one who has served 15 and less than 20 years, and 6 months pay for one who has served 20 and upwards.—*Government of India Not., 6th June* 1862, *No.* 3999.]

[The Government of India have ruled, 30th September 1858, No. 2183, that servants on 10 Rupees a month and under should receive gratuities in about the same proportion as has been provided for persons on salaries in excess* of 10 Rupees and less than 25 Rupees a month, that is, that the gratuities shall be calculated at 5 months' pay.]

* "See Clause 3, Section II, of the "Rules dated 13th November, 1857, "No. 4212 A."

[For the future, when an Uncovenanted servant is thrown out of employ by the abolition of his appointment, his claim to gratuity shall at once be considered, and decided on; but instead of receiving in one sum the whole gratuity which may be sanctioned, he shall continue after his discharge to draw his salary from month to month until the amount of the gratuity be exhausted. If he should, in the meantime, be readmitted to the Government service, he may be permitted either to draw the unexhausted balance of the gratuity on the understanding that his previous service will not be allowed to count towards pension, or to refund by convenient instalments the amount already paid to him and thus to recover the privilege of reckoning his service.—*Gazette, 3rd October* 1862, *page* 503.]

Fort St. George, April 14th, 1835.—The Right Honorable the Governor in Council is pleased to notify that the Honorable the Court of Directors have been pleased to declare "Claims to pension founded on occasional employment as a substitute copyist for others on the fixed establishment of a public office to be inadmissible," and to direct that no application for a pension shall be entertained in behalf of an individual after he has finally quitted the public service.

Fort St. George, December 19th, 1837.—It is hereby notified for the information of persons holding subordinate situations in the public service, that employment in extra or temporary establishments does not confer any claim to pension or gratuity, the superannuation Pension regulations being applicable only to persons who have been employed for the prescribed term of years in a fixed establishment.

By order of the Right Honorable the Governor in Council.

ROBERT CLERK, Secretary to Government.

REVISED RULES RESPECTING PETITIONS.

1. Persons having cause of complaint against any servant of Government, Civil or Military, shall, in the first instance, seek redress from the officer in whom the local authority is vested, who, if unable to grant the redress sought, shall pass an order in writing to that effect. If dissatisfied with this decision, the Petitioner shall be at liberty to address the Board or Court, or superior Civil or Military authority, by which the local authority is controlled; or he may address the Government, in cases wherein there is no intermediate authority.

2. The Government will not receive a petition on any matter, unless it shall appear that the Petitioner has first applied to the local authority, and also to the Board or other controlling authority, where such exists. The petitions addressed to such local and controling authorities, or copies of them, and the answers or orders of those authorities respectively, if any shall have been passed, must be annexed to the petition addressed to Government.

3. In order to enable Government to maintain the foregoing rule, without injustice or hardship to complaining parties, all Heads of Offices will understand that a party affected by an order, is entitled to have, on application, a copy of the order, which should contain full details of the grounds of the decision. This is to be furnished to him, on plain paper, and without payment.

4. Government will receive petitions only from principals; addresses running in the name of a vakeel or agent will receive no attention. Anonymous petitions will be totally disregarded.

5. The Government having passed an order on an appeal made to it, will not notice a second petition on the same subject, unless it contain some new and important matter.

6. As the Right Honorable the Governor in Council never interferes with the distribution of subordinate appointments, applications for situations in the gift of Heads of Departments will also remain unnoticed.

JUDICIAL DEPARTMENT.—7. Petitions will not be received by Government regarding any matter which forms the subject of judicial proceedings in a Court, or which properly falls within the jurisdiction of the Courts, or containing complaints relating to the administration of civil or criminal justice, in cases in which another mode of obtaining redress is open to the complainant under the regulations, and in which by the regulations a subordinate authority is competent to pass a final decision.

MILITARY DEPARTMENT.—8. The mode and channels through which all ranks of effective Military should make known any complaint or grievance to superior authority are clearly laid down by the regulations of the Service.

9. The foregoing general regulations for petitions are applicable in the Military department to the following classes:—

1st. Persons, not in the public service, residing within the limits of Military bazaars! camp followers.

2nd. Contractors for Military supplies; Abkari contractors.

SCHOOL OF INDUSTRIAL ARTS.

Alex. Hunter, Esq., M. D., Superintendent.

This school was established by Dr. A. Hunter on the 1st May 1850, and was supported till March 1855, partly by fees from pupils, by payments for drawing, engraving and work turned out in the school aided by small contributions from the public, and the proceeds of the worthy Doctor's private practice, while Medical Officer in the first district.

In March 1855, the school was taken up by Government, and an Assistant, Mr. Archibald Cole, was sent from the Government School of Design in London.

The branches of instruction are drawing, wood and copper-plate engraving, modelling, casting in plaster of Paris, and the manufacture of building materials and pottery.

The number of pupils who have been under instruction in the different departments, has been upwards of 2,280, and of these a great number have obtained remunerative employ.

A trifling fee is charged for the artistic instructions. The pupils in the industrial department are paid for their labour.

The following gentlemen formed a Committee who brought the school to the notice of Government in July 1853.—J. D. Bourdillon, Esq., Rev. A. R. Symonds, Colonel J. T. Smith, Colonel F. C. Cotton, Colonel G. Balfour, Edward Elliot, Esq., and Edward Balfour, Esq.

Another Committee consisting of the following gentlemen was appointed to report to Government on the present condition of the school. Hon'ble E. Maltby, Esq., Chairman, Colonel Maitland, Dr. Mudge, W. S. Wright, Esq., Colonel Worster, Alwar Chetty, Colonel Hamilton, Mr. Deschamps, C. V. Conniah Chetty, Colonel Hitchins, Colonel Carpendale, Dr. Duff, Asof Jung Bahadoor, and W. S. Grant, who acted as Secretary.

Artistic Department.

During the past year a great many lessons in drawing and engraving have been printed and distributed to other schools; and teachers have been supplied from both departments. The branches of instruction are Practical Geometry, Perspective, free hand drawing-Machine, Plan and Botanical Drawing, Wood and Copper-plate Engraving. Eight Teachers are employed besides the Superintendent who gives daily lectures.

Branch Schools have been established at Bangalore, the Government Normal School and the Civil Orphan Asylums, Madras; and Teachers have been sent to the School of Arts, Calcutta, and to Schools established by His Highness the Rajah of Travancore and His Highness the Rajah of Vizianagram.

Industrial Department.

In this Department considerable progress has lately been made in the manufacture of building, draining and ventilating materials, also in Modelling, Casting in Plaster and making of Terracottas and improved Pottery. Important assistance has been rendered to several public institutions from the Industrial Department in the shape of firebricks, tiles, water pipes, building and archbricks supplied in considerable quantities. Several Europeans, East Indians and Natives have obtained remunerative situations during the past year as Teachers in the Public Works and other departments. A good deal of Machinery has been made and paid for out of the proceeds of work in the School. Two European and four East Indian Teachers are employed besides a Native Modeller, two Native Potters, a Carpenter and Blacksmith. The number of pupils under instruction daily in this department is about 71 Natives and 15 East Indians. Two classes from the Engineering College attend for two months during each Session to learn the manufacture of building materials both by hand and by machinery.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some person to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of an Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them, must state the fact, and apply to the Town Major, Fort St. George, who will obtain the permission of the Right Honorable the Governor for their marriage, under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M. British or Indian Services, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese (R. Murphy L.L. D., Eur.) G. E. Cower, Esq., Acting.

Office—33, New Broad Street, E. E.

The contracts of the Company with the Government comprehend about 850 miles of Railway, consisting of

1st. The Main Line, returning S. W. from Madras to Beypoor on the Malabar Coast, with its branch to Bangalore, making together about 489 miles.

2nd. The Bellary or N. W. Line, extending from the Arconum station, at 42 miles from Madras on the Main Line, by Cuddapah and Bellary to Moodgul, where it will form a junction with the Great Indian Peninsula Company's Line coming from Bombay. Its length will be about 325 miles.

Main or S. W. Line.

The Main Line has been opened throughout to Beypoor, a distance of 405½ miles. The trains commenced to run from one side of the Peninsula to the other, on the 12th May 1862.

Bangalore Branch.

It leaves the Main Line at Jalarrpett, 132 miles from Madras, ascends by a very favorable pass to the table-land of Mysore, and having reached the level, pursues an easy course through a productive and well-peopled country to Bangalore. The length of this Line as now surveyed and set out, is stated to be 84½ miles, which have been divided into four Districts for construction. It will probably be completed, and opened for traffic before the close of the year 1863.

Salt Cotaur Branch.

This Branch leaves the Main Line between Madras and Perambore, and runs to the extensive Salt Depôts opposite the People's Park, a distance of one and a half mile.

Bellary or N. W. Railway.

This Line leaving the Main Line at Arconum, 42 miles from Madras, proceeds by Cuddapah, Gooty and Bellary to the town of Moodgul, the chief place in the Raichoor Doab, where it is to form a junction with the Railway coming southward from Bombay. The entire distance from Madras is about 367 miles. A distance of 17 miles in the 1st District from the junction station at Arconum to Naggery has been opened for Traffic, and an additional opening to Pootoor, a distance of 9 miles from Naggery was opened on 8th December 1861.

A further opening to Triputty took place on the 15th September 1862.

Capital of the Company—Finance.

The Main Line, its cost with the branches, was roughly estimated at £4,000,000.

Of this capital, the first half million termed "Original Capital" was raised on a guaranteed interest at 4½ per cent. per annum; the next half million, termed "First Extension Capital" on a guarantee of 5 per cent.; then a million termed "Second Extension" at 4½ per cent.; and the last million termed "Third Extension" at 5 per cent.

The Company have also under further power raised another million on Debentures at five per cent. for five years not convertible into stock, but renewable at the option of the holder under the title of "Fourth Extension Capital." One million at 5 per cent. has been authorised for the North West Line.

The object of this Fund is to afford relief to the Widows and Orphans of persons not in the Covenanted service of Government, and others, who have no similar institution to look to for making a provision for their families. It consists of two Branches, namely, a Widows' branch and a Children's branch. The benefits of the former are secured by the payment of a donation (equal to two years' subscription) as entrance money, and a monthly subscription, for which the Widow will enjoy a pension equal to six times the rate of subscription under certain restrictions. In the children's branch, a monthly subscription, and a donation equal to one year's subscription on account of each child, will secure a pension equal to four times the amount of that subscription, until a specified age. This has been increased at the Annual Meeting of the 4th February 1862, by 50 per cent. to all orphans who may loose both parents from that date, and extending the pension to boys to 21 years, and to Girls until marriage on payment of an additional premium for that purpose.

A Gratuity branch has been added to the Fund for granting donations not exceeding 1,000 Rs. to widows within one month after the decease of their husbands; but this branch will not come into operation until 50 subscribers shall have joined; and in case of death in the meantime, all sums subscribed by the husband will be returned to the widow.

The capital of the Fund exceeds eight lacs of Rupees invested in Government Securities.

Further particulars can be obtained on application to the Secretary Mr. J. M. Wilson, No. 28, Second-line Beach, Madras.

Entrance Donations in both branches, and the amount of subscription for children from birth till date of joining, may be paid at once or by 12 equal monthly instalments.

Increased payments on entrance are required in one sum in the Widows' Branch after the age of 40, and no person can be admitted or transferred to a higher class above the age of 55 years; delay in joining after being admitted by the Committee necessitates a fresh Medical Certificate being submitted. Subscriptions in the Children's Branch *in all cases* commence from the date of birth of each child, and continue until the age at which pensions terminate, viz., 15, 18, or 21 years as the case may be. Transfers from a lower to a higher class are permitted in the Widows' Branch on payment in one sum of difference of donation and of subscription according to age and period of connexion with the fund,—and in the Children's Branch on payment in one sum or by 12 equal monthly instalments, of difference of donation and of subscription from the date of birth of each child. Subscribers to the Children's Branch must also belong to the Widows' Branch and to the same class in both branches.

The full pension in the Children's Branch is secured as soon as the entrance donation and subscription from date of birth have been paid in full. In the Widows' Branch, full and reduced pensions are respectively secured when the total payments in that branch amount to the sums specified in the foregoing table. Subscribers are allowed at any time, on furnishing a medical certificate in the prescribed form, to pay in one sum, or by such instalments as they may find convenient, the difference required to entitle their widows to pension.

Pensioners may reside at any Station or in any country they choose. Widows marrying lose pension during coverture, but revert to the fund on again becoming widows. Pension is forfeited by incontinence. No pension is paid to families of subscriper who die with six months' subscription in arrears, and Subscribers' names are struck off the books when 12 months subscription is in arrears. Subscriptions due for a period exceeding 6 months are not received unless accompanied by a medical certificate.

The regulations at length may be had on application to the Treasurer:—price 4 Annas—from out stations 5 Annas must be remitted to cover postage.

The object of this institution is to afford a thoroughly liberal and Christian education. The generous bequest of the late Captain Doveton, united with the funds formerly collected for a Protestant College, has enabled the Committee to make arrangements for the efficient carrying out of the object they profess.

It is intended ultimately to unite a complete collegiate course of instruction to the schools already in operation; but at present it is thought advisable to confine the efforts of the officers of the institution to the schools alone. In the Primary School, the instruction is elementary: in the High School, it is the attempt of the Masters to give a thorough classical and mathematical education equal in every respect to that given in the public schools in England.

The number of scholars at present on the roll of the institution is 105, of whom 2 are students in the College, 41 are pupils in the High School, and 62 in the Primary School.

Central School, Popham's Broadway, opposite Church Mission Chapel.
Miss Jessey Hogg, Superintendent.
Average number of girls 110.

This association has now for thirty-two years carried on with varied success its efforts to provide an elementary Vernacular education, upon a Christian basis, to the Female children of poorer Native inhabitants of Madras. From 1829, the time of its foundation and when some fifteen or sixteen village schools were maintained by it, to 1856, when, through many changes, its operations were confined to the maintenance of a larger and more efficient school in Popham's Broadway, (known generally as the Central School,) evidences have not been wanting of useful results. A general testimony has been borne by the parents of the girls brought under the influence of this Society's schools, to the improvement effected in their character and habits; and not a few have given evidence of yet a higher influence for good upon them, by the open embracement of Christianity, followed, in the great majority of cases, by a life of consistent probity and piety.

Madras London Missionary Society's Native English Institution.

ARMENIAN STREET—BLACK TOWN.

This Institution was established in 1851 for the purpose of training Preachers, Catechists and Teachers, to assist at the numerous stations occupied by the London Missionary Society in Southern India, and also to give a good Scriptural and general education to the Native youth of Madras.

There is a class of 8 Christian young men—Converts and others—preparing for Mission work among their countrymen. These are at present studying Dick's Theology, Evidences of Christianity and Greek Testament. They support themselves as Teachers in the Institution. During the year five have left this class for Mission work among their countrymen.

There are two public services for preaching the Gospel in Tamil, held each Lord's day in the large hall of the Institution,—one at 11 A. M., the other in adjoining native chapel at 4 P. M. In the morning the attendance is about 250, in the afternoon about 110. A Tamil prayer Meeting is also held every Sabbath and every Wednesday morning from 7 to 8 o'clock.

There is also a Native Church connected with the Institution which at present (October 1862) numbers 42 communicants.

The number of boys at present (October 1862) attending the Institution is about 475 chiefly from the more respectable classes among the Hindus and Mahomedans. All these pay a monthly school fee of 4 Annas each.

The studies pursued have comprised the Scriptures, Ancient and English History, History of India, English Grammar, and Composition; Milton, Evidences of Christianity, General Geography and Geography of India, Euclid, as far as the 4th Book, Algebra, Natural Philosophy, Arithmetic, Tamil, Telugu and Hindustani.

In connection with the Institution there are eight smaller Branch Schools in Madras and the immediate vicinity with a regular attendance of 450 boys, so that in connection with the Madras station of the London Missionary Society 925 young men and boys are receiving a good Christian education. Particular attention is paid in all these Schools to the Vernacular—and Tamil, Telugu and Hindustani are taught by efficient Moonshees.

In connection with the Institution are:—

Missionaries—Rev. George Hall, B. A., Rev. J P. Ashton, M. A., Rev. S. Winfred, Mr. N. Cornelius, *Head Master.*

Girls' Schools.

The Society supports a boarding school for girls at Vepery where 65 girls receive board and education. At New Town and Pursavakum there are 2 day schools for girls with an attendance of about 100. General Assembly's Institution and School of the Free Church of Scotland.

Commenced by the Rev. J. Anderson, in Black Town, 3rd April 1837.

Free General Assembly's Institution, Esplanade, Black Town, for Native Education, and for raising up Native Teachers and Preachers, under the superintendence of Rev. A. B. Campbell, the Rev. W. Miller, and Mr. J. Houston. The Rev. A. Blake and Mr. Walker superintend the Triplicane Branch School on the Mount Road. The Mission in 1856 opened a new Branch School in Black Town, under the superintendence of Mr. Huffton and the Missionaries; this School is now attended by upwards of 200 boys. The Rev. S. Ramanoojum is engaged as an Evangelist in and around Wallajahbad. His circle embraces 60 Villages which he regularly visits. Mr. Zaccheus is labouring in Conjeveram and the Villages around.

The Parent Institution is designed to fulfil the threefold end of a College for rearing up Native Preachers, a Normal Seminary for training Teachers, and a School for general instruction. Seven Branch Schools for males exist in connection with it. These are at Triplicane, in Black Town, at Conjeveram, Trivellore, Wallajahbad, Chingleput, and Nellore. The average attendance at all these eight Schools during 1862, has been above 1,400 Hindus and Mahomedans, on a roll of above 1,600. The Hindu *pupils* are of all castes and classes, from the Brahmin to the Pariah, no distinction being made by the Missionaries.

The Female Institution for Convert and Boarding Girls is under the charge of Mrs. Anderson, and Charlotte Govindurajuloo who acts as Matron of the Institution. There are besides 10 Day Schools for Hindu and Mahomedan girls in connection with the Mission. These Schools contain about 800 pupils, making the entire number of pupils on the roll about 2,400.

The education given embraces a knowledge of the Scriptures and all the branches of an enlarged regular course of instruction. The essential character of the Central Institution, with its seven branch Schools for youths and ten for girls, is that of being Seminaries for teaching Christian knowledge. This is communicated through the medium of English, Tamil, Telugu and Hindustani; and instruction is also systematically given in these tongues, by competent munshies.

The Committees of Foreign Missions of the Free Church and of the Edinburgh Medical Missionary Society, united in sending Mr. D. H. Paterson, Surgeon, as a Medical Missionary, to co-operate with the Missionaries of the Free Church in Madras. In March 1857, he opened a Dispensary in Black Town with encouraging success. Last year it was attended by 5,394 patients.

The Free Church Mission employs upwards of 20 Christian Agents, Evangelists and Teachers. It also employs in its Schools 130 Teachers.

In 145 Village congregations, there are 6,447 Christian adherents, of whom 1,109 are Members of the Church.

The American Board sent its first Missionaries to India in 1812. With much difficulty on account of opposition from the Government, they commenced a Mission at Bombay the next year. In 1816 a Mission was commenced in North Ceylon. There are now in all the Missions here named, 30 ordained American Missionaries, about 1,900 Church Members, and including these and the baptized children, more than 8,000 Christian adherents.

BANGALORE FREE COMMUNION BAPTIST CHURCH.

(Formed 26th November 1854.)

Pastor—Edmund Marsden. | Deacon———.

This Church was formed in November 1854, by the Rev. T. C. Page (formerly of Madras) then temporarily residing at Bangalore. It enjoyed the pastoral superintendence of that esteemed servant of Christ for the first few months of its existence, but was for some time subsequently to his departure from the station without a Minister. In June 1855, Mr. Marsden was providentially brought to the place, and, on the earnest and unanimous invitation of the Church, consented, as a temporary measure, to take the oversight of it; but having, at the close of that year, determined on relinquishing secular pursuits, agreed to become its stated Pastor. On the 30th March 1856, the union between himself and the Church was publicly recognized, he having been previously set apart for the work of the Gospel ministry at Madras. The Church consists at present (Dec. 1862) of 40 members, including Europeans, East Indians, and Natives, of whom about half are non-residents. Up to the 9th of June 1862, it was a Strict Communion Church, but on that date, by a Resolution *passed quite unanimously*, its communion was opened to Christians generally, regardless of all denominational distinctions.

Besides watching over this little Christian Society, Mr. Marsden devotes a considerable portion of his time to evangelistic visitation among the residents of Bangalore, *particularly the Military*, of whom there is always a very large number at the station. Last year there were in this way about 400 persons plied and pressed with the Gospel offer, and during the last 7 years, or first septennial period, about 3,300 persons. Though not bearing the *name*, Mr. Marsden, to the fullest extent of his ability, is doing the *work* of a TOWN MISSIONARY.

Mr. Marsden receives scarcely any pecuniary aid from the Church with which he is pastorally connected, the members being generally extremely poor, nor does he draw a salary from any Society, for he belongs to none; but is dependent (under God) for the principal part of his outward support upon the free-will offerings of his fellow Christians.

J. J. Ammann, C. Trion, G. Plebst, S. Lionberger.

On the 31st of October 1834, the first Missionaries sent by the Society to India landed at Mangalore to establish a Mission in Canara. In 1837 a second province, the Southern Mahratta country, was occupied by the commencement of a Mission at Dharwar. In 1839 the work was extended to the province of Malabar, where a station was established at Tellicherry. In 1846 the Nilagiris were taken up, and in 1853 a footing was gained in Coorg.

The number of stations scattered over these districts amounts at present to sixteen. Four are situated in Canara, viz., Mangalore, Mulki, Udapy and Honore, with Sirey. In the Southern Mahratta country there are four stations, viz., Dharwar, Hubly, Bettigherry, near Gaddak and Guledagudda, in the Belgaum Collectorate. Malasmaudra, another station in close vicinity to Bettigherry, has been united with the latter. In Malabar there are six stations, viz., Cannanore, Tellicherry, Chombala, Calicut, Codacal and Palghat. The Nilgiris and Coorg count still each for one station.

Fifty-one Missionaries, eleven of whom are ordained, are employed on the different stations of this Mission, exclusive of four who are recruiting their health at home. They are assisted by 55 Catechists and Christian Schoolmasters and 6 Schoolmistresses.

At the beginning of 1862, Canara had 1,106 converts and catechumens, the Southern Maharatta country 250, Malabar 1,474, the Niligiris 47 and Coorg 120. Total 2,997. Of these 1,420 were communicants.

The various school establishments were attended by 2,591 pupils. Of these 511 belonged to Canara, 689 to the Southern Mahratta country, 1,162 to Malabar, 120 to the Nilagiris, and 109 to Coorg.

Members of the first class, (except Regimental Officers belonging to Corps and the Garrison of Madras, and other persons not permanently stationed or resident at the Presidency, who may become members of either class without payment of entrance donation) pay an entrance donation of Rupees 20 and a quarterly subscription of Rupees 22. Members of the second class pay an entrance donation of Rupees 10, and a quarterly subscription of the same amount, and are entiled to the use of the Stock Library on a written application. New books and periodicals are available for this class after circulation among the first class.

The subscription to the Quarterly Journal published by the Society, is in addition to the above sums, but is optional.

The Society receives monthly supplies of new books and periodicals, including every work of note published at home.

Gentlemen wishing to join the Society should intimate their wish to the Secretary, and forward a recommendation signed by one Member of either class, when their names will be enrolled and catalogues furnished to them.

GOVERNMENT CENTRAL MUSEUM.

PANTHEON ROAD.

Instituted by the Madras Government, 14th August 1851.

Captain Jesse Mitchell, Superintendent; P. Rungasawmy Moodeliar, Curator; C. Authecasavooloo Naidoo, Assistant Curator.

This is a Museum of Natural History and Economic Geology. It has also a Miscellaneous department, illustrating the manners, customs and manufactures of various people.

A Zoological Garden is attached, but this is in course of removal to the People's Park, to which all the living animals will be removed as soon as the necessary buildings have been erected.

A Library and Reading Room is attached to the Museum. It is intended that it shall contain such standard works of reference, particularly in the Natural Sciences, as from their costliness or bulk are not usually found in private Libraries, especially in India, or are not readily accessible. The efforts of the Superintendent are at present directed to the completion of a Natural History Library as the most important to the Museum.

The Library contains at present about 1,438 miscellaneous works, 27,311 numbers of the London Patent Office Papers, descriptive of Patents for Inventions, that have been granted from A. D. 1617 to A. D. 1861, and 850 Vols. of Standard Works of reference, chiefly on the subjects of Botany, Geology, Paleontology and Zoology. Donations of works of the above description will be thankfully received by the officer in charge.

The Museum is opened gratuitously to the public daily from 6 A. M. to 6 P. M. with the exception of Sundays, one week in January, and four days after the Easter holidays.

Tickets of admission to the Reading room may be obtained by any person of known respectability on application to the Superintendent.

The Bank of Madras, Treasurers.

This Society which has been established nearly a quarter of a century, owes its existence in great part to the exertions of Dr. Wight, formerly a Surgeon in the Madras Army, and whose valuable contributions to Botanical Science have gained for him a widely spread and well earned celebrity.

The Company's gardens are situated opposite to the chief entrance to the Cathedral; and an additional piece of ground on the east of the Cathedral was purchased in the year 1856-57. This is chiefly employed as a nursery for young plants, and for experiments in Agriculture and Horticulture.

The Botanical garden occupies a space of about 24 acres, which were originally granted by the local Government. It is laid out in a highly ornamental manner, and is much resorted to as a fashionable promenade. It is open at all times to the public and forms a healthful place of recreation for the inhabitants of Madras. During the past year, considerable alterations have been effected in it, whereby its general appearance and condition have been much improved—additional walks have been made, allowing free access to every part of it—the hedges have been thinned and trimmed: by this the apparent size of the garden has been much increased; and the removal of low brushwood and some of the unnecessary timber of low spreading trees, has tended to promote the free circulation of air. A large artificial tank has also been made for the exhibition of water flowers. The old nursery and rubbish yard have been converted into a beautiful flower garden, and an aviary, fountains and ornamental cisterns are now in course of construction, which will add greatly to the beauty and attraction of the gardens.

In this garden may be seen, such plants of almost every country, as seem worthy of cultivation, as affording ornamental flowers or being of economic value. Among those introduced during the past year, are the Vanilla plant and several varieties of English garden-flowers, and some handsome flowering shrubs, &c.; among the more useful ones, recently introduced, we may mention the Manilla hemp, the Sorghum, the Ife plant, and West India Ginger, as of especial importance.

A nursery, for seedlings and cuttings of useful and ornamental trees, is being raised to meet the requirements of the members who are supplied from it gratis. European vegetable and flower seeds are also similarly distributed; but all these advantages are open to the general public on payment.

The general affairs of the Society are managed by the Committee who meet once in each month, and who compile annually, in the month of July, a report of the year's proceedings, which is submitted to a general meeting of the subscribers at large. Publicity is also given to the proceedings of each meeting of the Committee, in the newspapers; and these records, during the past year, will be found, upon examination, to afford much useful information, upon several important points connected with Agriculture and Horticulture. These papers may also be found in a collected form in the Madras Journal of Literature and Science.

Persons of all nations are eligible as members of the Society, and have a voice in the annual election of the Committee and office bearers.

The rate of subscription is 7 Rupees a quarter, no entrance fee being demanded, and the subscription being allowed to lapse, temporarily, should a member be absent from Madras more than three months.

Up-country subscribers are entitled to all those advantages, of members, which it is possible to place at their disposal.

By the kind permission of the Honorable the Governor, the Garrison Band attends at the gardens every Tuesday evening, when seats are arranged for the accommodation of visitors; this being also done morning and evening on each week day.

The Society varies in the number of its members, but now consists of about 100 present members, 10 absent, 4 honorary, and 2 extraordinary members.

An annual show is purposed to be held about the middle of February 1863, when a large number of prizes will be awarded for ornamental flowers of various kinds, fruits, vegetables and several articles of importance in connection with Botanical Science.

Lists of the prizes to be then distributed, and all information may be obtained on application, to the Honorary Secretary, Mount-road, or the Superintendent at the Gardens, by whom lists of members, and the rules of the Society, will be supplied gratis to any one anxious to peruse them.

PEOPLE'S PARK, MADRAS.

Dr. C. M. Duff,	J. Rohde, Esq.	

Surgeon Major J. W. Mudge, M.D., Honorary Secretary.

We need scarcely remind our readers that the People's Park of Madras owes its origin to Sir Charles Trevelyan, K.C.B., our late talented and energetic Governor. His Excellency shortly after his arrival perceiving the urgent necessity which existed of providing a place for out-door amusement and exercise for the great body of the middle classes of Madras, (who are almost exclusively Eurasians), suggested the idea of the now intended Park. The sanction of Government was readily granted, and prizes were offered for the most suitable designs for laying out the Park. The idea of the competition for the prizes was eagerly laid hold of by the public, and within three months of the first announcement no less than sixteen plans, all of them meritorious and some of them possessing very great excellence, were submitted to a Committee appointed by the Government to award prizes for the best designs. The first prize was granted to Mr. Robert Baldrey, who, under the suitable motto of "Trees and Water for a hot climate," contributed a design, not only possessing high artistic merit, but also fulfilling almost all the requirements of a Public Park. To Captain Brooks of Poonamallee, a prize of 100 Rupees was allotted, and to Captain C. P. Taylor and J. W. Addis, Esq., rewards of 50 Rupees each were subsequently presented.

The Park is now established as one of the Institutions of Madras and has been opened to the Public. An undertaking of this kind must necessarily require some time for its completion, but enough has been done to assure us of the general effect of the whole. It must be considered an unqualified boon to the community. Trees are growing up. The first instalment of a Zoological collection has been introduced. The Tigers' and Panthers' cages daily attract hundreds of visitors. Other buildings are passing through the necessary steps to sanction and erection. A Giraffe, a Dear and several members of the Bear tribe will then find accommodation. A handsome Aviary has been put up and various other works are in contemplation. The grass which has been carefully planted in the cultivated portions of the Park already returns a revenue to Government, and hay of the best description is produced in considerable quantity.

Grants for the prosecution of the works are made from the funds of the Department of Public Works on Budget estimates submitted in the usual way, and any proceeds arising from the sale of hay or other sources are paid into the Treasury and credited to the general revenue of the State.

A Band plays weekly in the Park.

MADRAS SCREW PILE PIER.

This important work constructed by Mr. Frederick Johnson, Civil Engineer, of North Street, Westminster, London, pursuant to the terms of a Contract entered into between the Council of India and himself, under date the 9th of November 1858, has been completed and was opened for public traffic on the 1st December 1861.

The dimensions of the structure are as follows:

Extreme length, 160 from high water mark, 1,000 feet.

Breadth throughout, 40 feet. Beside its main body, the Pier has a cross or T shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's Patent Screw Piles, of solid wrought Iron, respectively 6 inches, and 8 inches in diameter, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These piles are screwed down into the sand, to the depths undermentioned, that is to say:—the first 25 rows, 11 feet; the second 25 rows, 13 feet; and all the remainder 15 feet.

The whole structure is securely tied together by transverse T braces of wrought Iron and by longitudinal tension rods of the same material.

Round the Pier Head, and at a distance within it of 200 feet on each side of the main structure, the Iron Piles are protected by fender Piles of timber placed at short intervals and secured to the Iron Screw Piles by strong wrought Iron bands. The timber used in the work, is principally well creosoted Baltic timber, but the planking of the platform is of teak wood; a space of one inch being allowed between the several planks, which measure six inches by four. The level of the platform is 15 feet above high water mark throughout.

Four lines of railway are laid down along the main Pier, with the necessary Turntables, &c., and the rest of the space available is fitted up for the service of foot passengers.

As provided for in the contract the Pier Head is furnished with six fixed cranes, varying in their lifting power from 3 to 10 tons, and 8 moveable cranes of 30 hundred weight each are likewise placed on the Railways, traversing from point to point as necessity arises.

The total cost of the work, as agreed on in Mr. Johnson's original Contract, was £103,616, but a second contract was subsequently entered into for the extension of the structure shoreward a length of 80 feet, at an extra charge of £4,332.

The Pier has been constructed under the immediate general superintendence of the Contractor's agent Mr. Leander Miller, but the works were of course executed by his able Engineer in charge, Mr. Gibson, whose rapid and most efficient way of having carried them on entitles him to the highest credit. The progress of the undertaking had been considerably retarded by the singular misfortune of the wreck of two of the Vessels laden with Pier materials.

The following Order by Government, dated 29th November 1861, bearing on the above subject, has been issued:—

1. The Governor in Council considers the establishment proposed to be somewhat in excess of present requirements.

2. The two Boatswains will be needed, and are sanctioned.

3. One Dafadar and six Peons, are ample to preserve order and protect property on the Pier.

4. The proposed rate of the toll and the arrangements for levying it are sanctioned experimentally from the 1st January next.

	Rs.	A.
2 Boatswains at Rupees 35	70	0
1 Dafadar	10	8
6 Peons at Rupees 7	42	0
For December 1861	122	8
4 Toll-takers at Rupees 15	60	0
From 1st January 1862	182	8

5. The establishment sanctioned under these orders will cost Rupees 122½ for December and Rupees 182½ thereafter monthly.

6. The Committee are requested to forward a monthly abstract of the receipts and charges. For the first month a Treasury order will be passed for the pay of the establishment.

☒ *Fort Saint George, 26th June* 1860, *No.* 287 *of* 1860.—Notice is hereby given, that under instructions from the Government of India, the Military Branch of the Government Savings' Bank at Madras has been abolished from the 1st May 1860, and that in accordance with the Royal Warrant and Regulations regarding Regimental Savings' Banks, Regimental Savings' Banks shall be established in lieu thereof in the Regiments of the British and Indian Armies serving under the Madras Presidency, the accounts of which will be audited annually and adjusted by the Secretary to the Government Savings' Bank.

Regimental Savings' Bank.

1. To afford to the Soldiers of the Army facilities for depositing their Savings, there shall be established in every Regiment and depot of Regular European Artillery, Cavalry and Infantry, a Regimental Savings' Bank, for the safe custody and increase of such savings, and the following Regulations shall be observed and obeyed wherever the Troops may be serving.

2. Officers Commanding Troops and Companies shall receive as Public money, to be applied to the payment of those public services which it is their duty to defray, such sums as the Soldiers under their command may from time to time desire, and be entitled to deposit in the Savings' Bank of the Regiment.

3. The maximum of each Soldier's deposit shall be limited to Rupees 300 in any one year, and to Rupees 3,000 in the whole.

4. The rate of interest upon deposit shall be Rupees 3-12-0 per cent. per annum, but no interest shall be allowed upon a less sum than Rupees 2-8-0, nor upon any sums other than multiples of Rupees 2-8-0, or which have not remained in deposit for at least one month, to be reckoned from the last monthly muster day; and interest shall only be allowed upon sums withdrawn up to the muster day preceding the day the deposit is withdrawn, unless such day shall be the muster day. Interest on all sums in deposit shall be added to the principal quarterly, and shall thenceforward bear interest.

5. When a Soldier shall be desirous of withdrawing the whole or any part of his deposit, he shall give at least seven days' notice to the Captain or Officer Commanding the Troop or Company to which he belongs, in order that the necessary arrangements may be made for repayment of the amount at the next day of monthly muster: but if such Captain or Officer Commanding shall be satisfied of the urgency of the case, and that the immediate withdrawal of the deposit would be for the advantage of the Soldier, he may direct payment to be forthwith made. Whenever the Officer Commanding the Troop or Company shall have grounds for believing that the Soldier intends to make an improper use of his money, he will be permitted to withhold the privilege of withdrawing the deposit until the Commanding Officer of the Regiment shall determine whether it should then be issued or not, and should the Officer Commanding deem it essential to the discipline of the Regiment to withhold from a Soldier the privilege of withdrawing his deposits, he shall report specially to the Commander in Chief and to the Secretary at War, the circumstances under which he has felt himself compelled to exercise this power.

6. All moneys deposited by the Soldier in the Regimental Savings' Bank shall be held strictly in trust for his own use and benefit, and shall on no account be transferable to any third party, either by endorsement, conveyance, or otherwise, and shall not be affected by any debts contracted by him, nor be made available for any purpose whatever, except under his own order signified to the Officer Commanding his Troop or Company; and such moneys shall, if possible, be paid to the Soldier personally; and in all cases his receipt shall be obtained and shall be attached to the Troop or Company Savings' Bank Ledger.

7. Upon the discharge of a Soldier, his deposits may remain at interest in the Regimental Savings' Bank, for a period not exceeding six months, after which time interest shall cease; but if required by the Soldier, the principal may be retained without interest for longer period for Security.

8. At the death of a Soldier, interest on his deposits shall cease from the muster day next after his death, and the amount of his deposits with the interest accumulated thereon, shall be added to his other effects, and be reported to the Secretary at war to be disposed of in the usual manner to the legal representative of the deceased, as prescribed in the Articles of War.

9. A Soldier convicted by a Court Martial of desertion or recorded by a Board of Officers in the usual manner as a deserter, shall forfeit to the Public all moneys he may have in the Regimental Savings' Bank; and such forfeiture shall only be remitted by the Secretary at War.

10. To prevent parties not in Military employ from availing themselves of the advantages afforded by these Banks, no Soldier is, on any pretence whatever, to deposit in his own name the money of another person, whether a Soldier or not, and in case any Soldier shall so deposit the money of another person, in addition to any punishment which a Court Martial may award for the fraud thus committed, all sums so deposited shall be forfeited to the Public, and one-half of the amount not exceeding Rupees 50, shall be allowed to the informer.

11. In the Orderly Room of every Regiment or Depot of Artillery, Cavalry and Infantry, there shall be kept under lock and key, under the inspection of the Commanding Officer, the Officer Second in Command, and the Adjutant, a Regimental Savings' Bank Ledger, in which shall be entered the Savings' Bank account of every Soldier.

12. The entries shall be made in the Regimental Ledger by Troops or Companies, so that the amount of each Troop or Company shall be kept separate; and upon the trans-

fer of a Soldier from one Troop or Company to another, a transfer of his account shall be made in the Regimental Savings' Bank Ledger.

13. A Non-Commissioned Officer shall be selected by the Officer Commanding to act as Clerk to the Regimental Savings' Bank, and such Clerk shall make all the entries in the Regimental Savings' Bank Ledger, and shall receive an allowance according to the following scale:—

		Per month.		
If the Depositors are under 100	Rupees	8	0	0
If 100 and under 150	„	10	0	0
If 150 and under 200	„	15	0	0
If 200 and upwards	„	20	0	0

14. Each Captain, or Officer Commanding a Troop or Company, shall keep a Savings' Bank Ledger for the accounts of the Non-Commissioned Officers and Men of his Troop or Company.

15. Deposits of savings (not under Eight Annas) can only be made and entered in the Troop or Company ledgers and in the Regimental ledger once in each month, viz., on the day of monthly settlement, when all sums withdrawn will be also entered. The Captain or Officer Commanding the Troop or Company will, by his signature in the Troop or Company ledger, acknowledge the receipt of all deposits made, and the Soldier will, in like manner, acknowledge the receipt of all sums withdrawn.

16. At the end of every quarter, the Troop or Company Ledgers are to be compared with the Regimental ledger by the Officer Commanding, the Officer Second in Command and the Adjutant; and the Officer Commanding will transmit to the Secretary to the Government Savings' Bank, each quarter, a certificate in the form prescribed, that this comparison has been made. Should a Troop or Company be absent from Head Quarters, the comparison of the ledger of that Troop or Company with the Regimental ledger, may be deferred until its return to Head Quarters; but such delay must be reported upon the Quarterly certificate, and a certificate duly signed that the comparison has been made must be transmitted to the Secretary to the Government Savings' Bank upon the return of the said Troop or Company to Head Quarters.

NOTE.—In addition to the Annual Certificate transmitted under existing Rules by Royal Regiments in India, to the Secretary at War.

17. The Regimental Savings' Bank Ledger (certified by the Commanding Officer, Second in Command, and the Adjutant, to have been compared with the several Troop or Company Ledgers) and the monthly statements of each Troop or Company are to be transmitted to the Secretary to the Government Savings' Bank at the end of each year, so soon as the balances of each Depositor shall have been carried forward into the Regimental ledger of the succeeding year.

18. The Secretary to the Government Savings' Bank after auditing the Savings' Bank Ledger, and satisfying himself that the money has been duly brought to account by the Paymaster, will furnish the Officer Commanding the Regiment with a declaration that the account of Regimental Savings' Bank to that date has been audited and found correct. The declaration of the Secretary to the Government Savings' Bank, will be preserved in the Orderly Room, and the Commanding Officer will notify to the Officers Commanding Troops or Companies that the account of the Regimental Savings' Bank has been audited to that date and admitted to be correct.

19. During active operations in the Field, or whenever circumstances may render it impracticable to attend to the details of the Savings' Banks, the General Officer in Command may direct the temporary suspension of this Regulation; but all sums then actually in deposit under the provision of it, shall bear interest in the same manner as if it had not been suspended.

EXPLANATORY DIRECTIONS (MADRAS) REGIMENTAL SAVINGS' BANK.

1. The Captain of each Troop or Company is responsible that the deposits he receives, and the withdrawals he pays, are duly entered in each man's account in the Ledger of his Troop or Company, and that statements of his receipts and payments in the Form No. 2, are sent monthly to the Orderly Room; also that the amount of deposits and withdrawals are duly debited against him and credited to him by the Paymaster in the Company's Monthly Abstract of Account.

2. The Officer in Command, the Officer Second in Command, and the Adjutant are responsible for the correctness of the Regimental Savings' Bank Ledger, which is to be prepared in the Orderly Room by the Savings' Bank Clerk under their direction from the Statements No. 2, transmitted by the Captains. They are to transmit monthly to the Paymaster in the Form No. 3, the account of the deposits received and the withdrawals paid by each Captain.

3. The responsibility of the Paymaster with respect to the Savings' Bank is limited to the following points:—He is to debit and credit the respective Captains with such Sums as are shown by the accounts (Form No. 3) transmitted to him from the Orderly Room, to have been deposited and withdrawn; he is to forward to the Paymaster of the Division for countersignature and transmission to the Secretary to the Government Savings' Bank the Form No. 3, and to see that he is correctly debited and credited with the accounts of deposits and withdrawals as shown in Form No. 3; he is to note for special credit the deposits forfeited by Deserters in the place provided for this purpose in Form No. 3; he is to take care that the balances of deposits reported to be due to deceased men are duly carried to their Non-Effective accounts; he is to annex to the Non-Effective accounts of all Deserters and Deceased men the prescribed certificates stating whether they had any moneys in the Regimental Savings' Bank.

4. If a Soldier deposit more than Rupees 300 in any one year, interest can only be allowed upon Rupees 300 until after the next 30th April, from which date interest may be allowed upon any further sum not exceeding Rupees 300 for that year. Interest is not allowed upon any deposit for the month in which it is made, if it be made after the day of monthly settlement. The whole amount to be deposited by a Soldier must not exceed Rupees 3,000.

5. If a Soldier be permanently transferred from one Troop or Company to another, or to another Regiment serving in Madras, the Captain is not to consider the amount of the Soldier's account as money withdrawn from the Savings' Bank, but is to transmit the certificate (Form A) to the Captain to whom the Soldier is transferred, and will close the Account of such Soldier in his own Troop or Company ledger in the manner prescribed in Form B. The certificate A, will be the authority to the Captain, receiving the transferred man to open in his own Troop or Company Ledger an Account (but not as a new deposit in the Savings' Bank) in the manner prescribed in Form C. The Certificate A, is to be annexed to the Regimental Savings' Bank Ledger.

6. The Captain making the transfer, and the Captain receiving such transfer, will each bring forward into his Annual Abstract the account of the Soldier, as it is shown by his own transactions with the man, in the Troop or Company Ledger of each Captain, in the manner prescribed in the Form E.

7. Regimental Paymasters, on receiving intimation, of the intended embarkation to England of Invalid or other Soldiers, shall, within fifteen days of the Soldier's embarkation, forward to the Secretary to the Government Savings' Bank at the Presidency concerned, a correct Statement of their Savings' Bank balances in quadruplicate.

8. The Secretary to the Government Savings' Bank will fill up the Certificate in the Form, and furnish the Brigade Major with a copy of the Statements to be forwarded to the War Department by the next Mail viâ Marseilles, and two copies will be sent to the Accountant General for transmission to the Secretary of State for India, through Government. The Secretary to the Government Savings' Bank will also supply the Regimental Paymaster with a copy of his Certificate.

9. This rule is applicable as well to Regiments returning Home as to individual Soldiers.

10. When a Soldier has been convicted of desertion or recorded by a Board of Officers as a Deserter, the amount of his deposits is to be withdrawn by the Captain from the Regimental Savings' Bank and placed in the hands of the Paymaster, to be by him noted for special credit to the public in Form 3.

11. Upon the death of a Soldier the Captain is to make up his Accounts to the next day of monthly muster, and is to withdraw the amount from the Regimental Savings' Bank, and credit it to Non-effective Account of the Soldier with his other effects.

12. The monthly allowance to the Savings' Bank Clerk is to be vouched by a certificate of the number of accounts open in the Regimental Savings' Bank Ledger.

13. When a Regiment is transferred to the Madras Establishment, a new Regimental Savings' Bank Ledger must be opened, as well as new Ledgers for each Troop, or Company.

14. The account of each depositor is to be opened with the amount in Indian currency, and a Bill drawn by the Officer Commanding on the Paymaster General furnished to the Accountant General, Madras, for the aggregate of the opening balances which must correspond with the amount advised by the War Department as due to the depositors of the Regiment.

15. Deposits made from Pay issued in sterling money subsequent to the closing of the Savings' Bank accounts rendered to the War Office, must be credited in the Indian currency, the conversion being effected at the rate of 2*s.* ¼*d.* the Rupee.

16. When a Regiment is removed from the Indian Establishment, the Regimental Savings' Bank ledger must be closed to the end of the month in which the Head Quarters of the Regiment is to embark, and transmitted to the Secretary to the Government Savings' Bank for special audit; the Secretary to the Savings' Bank will furnish the Officer Commanding with a certificate of the amount due to the depositors of the Regiment. This certificate must accompany the Regimental Savings' Bank Ledger, to be furnished to the War Office as a Voucher.

17. All Forms will be supplied, on application to the Secretary to the Government Savings' Bank, to whom all communications on the subject of Regimental Savings' Bank are to be addressed.

The foregoing Rules are to be considered applicable to European Regiments of the Indian Army as far as may be practicable, the Divisional Paymaster occupying the position of the Regimental Paymaster in Her Majesty's British Regiments.

The remittance of Savings' Bank balances of Invalids and Time-expired men will continue to be made as at present.

With a view to obviate delay in the payment of Savings' Bank balances to Invalids, time expired men, &c., on arrival in England, His Excellency the Governor in Council, under instructions from the Secretary of State for India, directs the adoption of the following Rules in supersession of the former Regulations on the subject.

Para. 7 of G. O. G., dated 26th June 1860, No. 237, Revised Pay Code, Para. 91, page 348.

1. On the departure of Soldiers from their Regiments for the purpose of embarkation, Officers Commanding Regiments or Details, will immediately furnish the Secretary to the Government Savings' Bank with correct Statements of the Savings' Bank balances of such individuals.

2. On the receipt from the Fort Adjutant, Fort St. George, of a Roll of the men actually embarking on board any Vessel, which Roll should be furnished to the Secretary to the Government Savings' Bank, at least five days before the date of embarkation, the latter Functionary will forward to the Fort Adjutant, a list of the Savings' Bank balances to the credit of the soldiers about to embark.

3. This list will be handed over by the Fort Adjutant to the Officer proceeding in Command of the men; or, if an Officer do not accompany them, to the Officer Commanding the Vessel, with instructions to deliver it at the India Office on arrival in England.

4. A duplicate of the above list will be submitted by the Secretary to the Government Savings' Bank, through the Military Accountant, to Government in the Financial Department, for transmission, in the usual course, to the Home Government.

5. Should Invalids or others embark at Bombay or any other Port than Madras, List of Savings' Bank balances should be given to the men by Officers Commanding Regiments, for delivery as above; Statements being also forwarded, as explained in para. 1 of this Order, to the Secretary to the Government Savings' Bank, who will transmit to Government, through the Military Accountant, a duplicate of the Statements as before directed.—*G. O. No.* 101, *28th Feb.* 1862—*vide Gazette* 17*th June* 1862, *page* 942.

MADRAS MINT.

Regulations for the purchase of Bullion.

The following are the Regulations by which Gold and Silver are purchased by the Mint Master.

Sealed Tenders of Gold and Silver, specifying the weight and description of the Bullion tendered, will be received daily, Sundays and holidays excepted, from ten till four o'clock at the Mint; the Tenders to be addressed to the Mint Master.

All private Bullion tendered to the Mint for Coinage shall be weighed in the presence of the Mint Master or his Deputy, and the owner or his agent as notified in the written tender, the Mint Master granting a receipt for the weight of the Bullion. It shall then be melted in the presence of the owner or his agent, and again weighed in his presence and that of the Mint Master or an Assistant in his confidence, the musters for Assay being previously taken in the presence of the Mint Master, or his Deputy, under the direction of the

Assay Master or his Deputy, who, upon giving an acknowledgment for the weight of the samples and duplicates, shall remove them for Assay, and after that has been completed, issue his certificate of the quality and value upon the weight of the parcel given in the Mint Master's receipt, which shall be filed in the Assay Office, when exchanged with the owner of the Bullion for the Certificate, due advice of which Certificate is to be furnished to the Bank of Madras.

These certificates will be payable on demand at the Bank, in accordance with clause 2 of Section IX of Act XIX of 1861, at the rate of 979 Rupees per 1,000 Tolas of Standard Silver fit for Coinage, but any persons who prefer applying at the Mint for Notes in exchange for Coin or Bullion may apply there instead of at the Bank, provided they apply for not less than Rupees 2,000 at a time. They will in such case receive the Notes at the office of the Commissioner at the Bank one clear working day after their applications.

A charge of one per cent. will be levied as seignorage on all Gold tendered for Coinage,* and a charge for refining will be added on all Bullion below certain standards, agreeably to the following scale.

Parties bringing Bullion to the Mint for Coinage shall be at liberty to withdraw the same within two days of the Assay report being made, if dissatisfied with the valuation, but on payment of fees for Assay, viz., four Rupees for each sample of gold and two Rupees for each of silver, together with the actual charges of melting the same, or they may be allowed a re-trial, but if the second assay give the same result, they shall become liable to double fees upon withdrawing their Bullion, otherwise only to the authorised fees for the extra assay. Gold shall be returned as a matter of right to all parties who may deliver in gold to the Mint for Coinage.

All Bullion, which may be found brittle, will be returned unless an additional charge of 1½ per cent. be paid.

Under Act XIII of 1862 to provide for a new Silver and Copper Coinage for India the new Rupee exhibits as its obverse a well executed likeness of Her Majesty, wearing the Imperial Crown and a rich Indian robe over the shoulders. Around the neck are shown several strings of pearls. The simple legend "Victoria Queen" completes the design. The reverse consists of a scroll pattern passing round the entire circumference of the coin and enclosing the words "One Rupee, India" and the date "1862". The half rupee, quarter rupee, and two Anna pieces, are reduced fac-similes of the rupee, both as regards their obverse and reverse, their respective values being imprinted upon them.

* The Assay Master is at liberty to levy the usual fees on the assay of all private Bullion brought to him for that purpose, and appropriate the same to his own use, agreeably to the usage of the Mints of Calcutta and Bombay.

The obverse of the largest coin of the Copper Currency, the half Anna, is identical with that of the Rupee. Its reverse is a little different. A continuous wreath runs in an undulating form round the circumference, but it is of a simpler and less ornamental character. The value of the coin and the word "India" figure, with the date, in the centre. The subordinate denominations of the copper series are copies, in design, of the half anna. The slight difference observable in the wreaths of the reverse faces of the Silver and the Copper series, has been made solely with a view to prevent the chances of the latter being tampered with by use of the electrotype or other means, and passed for Silver.

The present power of the Mint is capable of giving a daily outturn of 3,00,000 pieces of Silver and Copper in eight working hours or an average of (80,000,000) 8 crores pieces annually. The value fluctuates according to the amount of Bullion received.

At the Mint Foundry cast iron works of every description are made for the Ordnance and Engineer Departments as well as for private establishments and shipping.

TABLE OF FEES.

Whereas a certain Table of Fees to our Registrars was lately intended to be adopted and certified by our late well beloved John Mathias, Lord Bishop of Calcutta, in and for our several Archdeaconries; and whereas in consequence of the death of the said John Mathias, and of the Archdeaconries of Madras and Bombay having been since made separate dioceses, and in consequence also of our disapproval of many of the Items in such Table from the curtailments in the stipends of the Clergy;—We Daniel, Lord Bishop of Calcutta have thought fit to revoke, and accordingly do revoke and cancel a certain instrument under seal bearing date the Twentieth day of July 1831, under which it was intended to certify such Fees: And whereas we still consider that a reasonable certain and consistent Table for all the business hitherto usually charged for and to be done, should be certified and established to prevent exaction, and contention, and in order that nothing may be unreasonably demanded or exacted or unlawfully taken by those employed, but such as seem to us suitable, customary and unobjectionable in their nature, and at the same time afford a moderate professional remuneration to those Registrars whose services are thus rendered: We therefore as far as we lawfully may and can, having considered and given our best consideration to the subject, do certify the foregoing graduated scale to be in our opinion reasonable and such as may not be (with reference to the usages in the Dioceses elsewhere) improperly taken by our Registrars and Secretaries for business considered to be of a voluntary and private kind, and where the acts done are not exclusively for Government objects or of the State, and of a nature for which public provision is made.

And we order that a Table of these Fees be placed up in some conspicuous part of the Registry.

In testimony whereof we have affixed our hand and Seal dated this thirty-first day of May, in the Year of Our Lord One Thousand Eight hundred and forty-two and in the Eleventh of Our Consecration.

THE MADRAS INAM COMMISSION.

Objects and Progress made in the settlement of Inams.

☞ *For Establishments see under the Head of Governmental Establishments.*

The Madras Inam Commission was organized in the Official year 1859-60. The main object of the Commission is to effect a satisfactory settlement of an enormous mass of property which has hitherto remained in a state of precariousness and uncertainty, to elicit

order out of confusion, and thus to substitute contentment for vexation in the minds of a large and important portion of the population.

This object is proposed to be attained by an investigation into the original titles of Inamdars conducted on the following principles:—

Proved possession of an Inam for 50 years is to constitute valid title. In the case of personal grants, whether hereditary or conditional, an option is allowed to the holders to convert their terminable tenures into permanent freeholds, upon reasonable terms, in commutation of the reversionary rights of Government in the Inams. These terms are the immediate and permanent charge of an annual quit rent of one-eighth of the full assessment, in the case of Inamdars having heirs competent to continue the family, of one-fourth when there are only terminable heirs, and a half when the incumbent is without heirs altogether.

The enfranchisement of the tenure is compulsory on alienees; but the terms of commutation, in their case, are the same as those offered to the descendants of the original grantee.

The Inamdars are further allowed to absolve themselves at any time, from the quit rent thus stipulated for, by the payment once for all of twenty times its amount.

Inams of more recent standing than 50 years are also recognized and admitted to a compromise. The terms of the compromise are the immediate imposition of a quit rent on the Inam equal to a quarter, half, or two-thirds of its full assessment according to length of possession and other circumstances attending the grant.

The resumption of an Inam is totally disclaimed; except when it has been satisfactorily proved that the Inam was obtained through fraud.

Inams held for religious and charitable objects are confirmed tax free, if old, and continued so long as the conditions are fulfilled.

On the validity of an Inam being established on the foregoing principles, a Title Deed is issued to the Inamdars specifying the terms of his future tenure, which is to secure him and his successors from any further scrutiny by Government, regarding the origin of the Inam.

Inams held for Police Service, now no longer required, are also confirmed subject to a quit rent not exceeding half of the assessment according to the nature of the service of which the holders are relieved. The quit rent accruing from this source is intended to meet the cost of the new Village Police.

This system of adjudication based as it is on principles of liberality and justice, is not only highly acceptable to the great body of Inamdars concerned but has also been practically found most admirably adapted to accomplish the great object held in view. It at once realizes all the interest which the Government fairly possesses in the Inam tenures, while it secures to the Inamdars an indefeasable right in his property, which he never before possessed, and which now enables him to transmit it without interference to his posterity.

The results of the settlement are already before the public in the several published reports of the Commissioner and in the general administration Report of the past official year.

The settlement has met with no opposition. The enquiry has been brought to a close in the Godavery, Krishna and Madras Districts, the Ceded Districts and Kurnool, North Arcot, Nellore, and South Arcot and has far advanced in Ganjam, Vizagapatam, Tanjore and Coimbatore.

The number of claims decided by the Deputy Collectors from the commencement of the undertaking to the end of September last is 2,71,757 exclusive of Village service Inams. The number of cases already reviewed and confirmed by the Commission is 2,52,092, comprising an extent of 33,53,282 acres assessed at Rs. 42,19,580 and already charged with a Jodi of Rs. 4,19,721. The permanent annual addition made to the Revenue of Government in the shape of Quit Rent is 8,40,626. The personal grants enfranchised from which the additional Quit Rent is mostly derivable bear an estimated value of Rs. 25,90,136 upon which Quit Rent charged inclusive of the Jodi already paid is Rs. 7,10,680. The personal grants confirmed on the present restricted tenure owing to the unwillingness of the holders to enfranchise them are only 5,667. In few cases only has the Quit Rent been redeemed, but this is not to be regretted since the little capital that exists in the country can probably be turned to a more profitable account in private hands.

During the progress of the settlement in the several Districts above mentioned, various special and exceptional tenures and long pending questions of importance came under the consideration of the Commissioner; and the result has been that several existing taxes arbitrarily imposed by the former Governments have been abolished and a uniform rate substituted in their stead conformably to the rules of enfranchisement. The effect of this will be, that while the future Quit Rent thus substituted will be double the amount of the cesses abolished, its pressure upon the Inamdars will not on the whole, be felt so heavily

owing to the alleviating circumstances attending the present settlement which secures to the holders of Inam property a perfect security of title.

Similarly all the measures either carried through or initiated by the Commission up to the present time have for their object the recognition and confirmation of existing rights and the enhancement of the value of Inam land hitherto greatly depreciated by the conditions attached to its tenure.

The important question taken up and settled by the Commission during the past year is the enfranchisement of the Village service Inams at 5-8th of their assessments in the Ceded Districts and Kurnool, the object being to provide, with the proceeds thereof, for the certain and ready remuneration in money of the Village Revenue and Police establishments. These Inams have hitherto been diverted from their proper object, having been all along considered as private property and enjoyed in numerous shares by all the members of a family, some of whom only were the actual office-holders. The consequence of this was that the service was most inefficiently performed. With a view to put a stop to this state of things and to provide for the efficient performance of the Village service, the Village Establishments are now being revised under the rules laid down by Government, their remuneration being fixed at rates determined according to the circumstances of each Village and paid from the proceeds of the enfranchisement of the Service Inams. This reform has been generally carried out with success in the Districts above named.

...OF THE COFFEE ESTATES IN THE COORG COUNTRY.

...uated between *Mercara* and *Cannanore*, 50 miles from the latter ...e former. This new but highly favored district is now commanding the attention of all whose minds lean towards Coffee. "Wild wastes" are disappearing; smiling cultivation abounding on all sides, everlasting verdure, grace and majesty of form, height and amptitude of growth are the distinguishing attributes of forest trees. The Elevation is 3,500 feet above sea-level, but there is forest land situated 5,000 feet and upwards. The general aspect of estates is eastern. Cooly labour is abundant: the rate of wages for *able bodied* is 5 Rs. a month, excepting for about two months in the felling season when "SUPERIOR" men get 6 Rs. for doing *axe work* ONLY. The first settler is a Doctor Maxwell, in the neighbourhood of Perimbady. His labours are now being crowned with success. His estate has many advantages in the way of situation over other plantations. In the same neighbourhood are the estates of Messrs. MacGregor and Brown—the former gentleman, a Ceylon Planter, of great experience.

Nearer to "Verajeuderpett", a place famous in Indian History, are the Estates of Mr Geo. Anderson. "Woodside" is second to none in Coorg. This estate is now giving its first crop. To the energy and ability of the proprietor its success in a great measure is due.—Mr. Anderson's Assistant is a Mr. Blandford.

There are also the Estates of Mr. D. Rose, Mr. H. P. Minchin, Mr. J. Stewart and Mr. Donald Stewart, "*The Planter*" of Coorg. The latter gentleman has great possessions, and was formerly a Ceylon planter. To him is due the best thanks of the community for his willingness at all times to impart information. Mr. Stewart is much esteemed and respected by all.

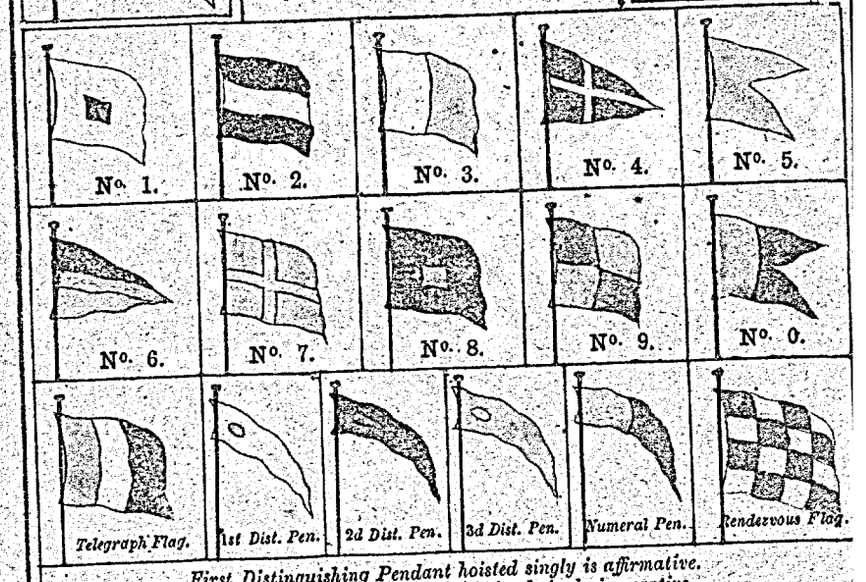

Coffee Estates are now being formed at and around the German Mission Station at Anandapore, situated 8 miles from Verajeuderpett. The neighbourhood although not possessing the heavy forest which abounds elsewhere, is nevertheless very well spoken of. It is partly forest and bamboo soil. The Anandapoor Estate is a standing evidence of what may be done in coffee growing in this locality. Captain James, Mr. J. P. Hunt, and Mr. Gillibrand have lately settled in the neighbourhood of Anandapoor, and are well pleased with their prospects: labour abundant and cheap: sufficient rainfall and elevation good.

The natives of Coorg are daily opening their eyes to the profits derived from coffee cultivation, and it is not uncommon to see their threshing floors for rice, filled with Coffee. Little however can be said in favour of these consumers of betel mixture—whether it is that the mildness of the climate or the fertility of the soil render active exertion unnecessary, but these people seem to regard *sloth* as the chief luxury. Jungles have risen to an enormous price. Forest which might have been purchased two years ago for 1,500 Rupees is now valued at least six times that amount. But the lease of these cardamom jungles expires in three years, and unless the greater portion is under proper coffee cultivation, the Government will put up the same to auction and the highest bidder obtains. Some Coorg natives are insane enough to suppose that if they put in seed coffee on the ground regardless of the underwood or timber being cut that they will be in such a case entitled equally with the European Planter to hold their jungles *as* coffee *plantations*; but surely Government won't be taken in by such a silly trick. Almost daily exceedingly fine offers for jungles are made by Europeans to these Coorgs, but they will accept nothing in reason. The cardamoms scarce pay their rent to Government. It is altogether a dog in the manger case. But who can sympathise with these people by and bye when opposed at auction by the Europeans.

TABLE OF ROUTES TO SOME OF THE PRINCIPAL STATIONS,

IN THE MADRAS PRESIDENCY.

Travelling in India is both tedious and expensive, the means of communication and of locomotion being exceedingly defective. Throughout the Presidency there are only about 4,000 miles of so called made roads, a large portion of which is unbridged and, where the soil is sufficiently firm for light traffic, totally unmade. In some parts of the country the roads are almost impassable during the wet season in consequence of their being carried through paddy fields and tracts of loamy land without any attempt at metalizing them. The southern and western "trunk roads" are generally in good condition and admit of being used by four wheeled conveyances to some distance from Madras, but the northern road cannot be traversed without difficulty and danger, especially during the monsoon.

The present mode of travelling is either by Palanqueen, Coach or Cart, and when by the two former, bearers, or bullocks are not unfrequently posted about 10 miles apart to accelerate the progress of the traveller, the journey being continued both by day and night. Cart travelling is most wearisome as the bullocks seldom go more than from 2 to 2½ miles an hour. When this mode of travelling is adopted the night is the best time for making the journey if the roads be good, and stages of about 25 or 30 miles may be made at a stretch with convenience and comparative comfort. If the journey be a long one, it will be found advantageous to change carts and bullocks at intervals of 150 to 200 miles. This would remove the unpleasantness of travelling with jaded cattle unequal to long stages. Travelling by "Transit" is certainly to be preferred to Cart or Palanqueen, for then the journey is performed more expeditiously and with less worry and annoyance. The rate of travelling by the horse transit is from 5 to 6 miles an hour, and by bullocks 4½ to 5 miles.

Arrangements for posting bearers are effected through the Post Master, and for bullocks through the Collectors of the districts through which the journey lies. Timely notice should be given and full particulars of date when, and place where the bearers or bullocks are to be posted. Any want of precision in this respect will only result in vexatious delays and disappointments.

In the northern countries where bearers are easily procurable and at low rates, travelling by palanqueen will be found most convenient; in the north-west, west and south, coaches and carts are usually used.

Generally throughout India on the main roads and at principal stations, Government have erected and maintain rest houses or "Bungalows," to which travellers may resort, on the payment of a small fee. They are situated generally at a distance of 10 to 15 miles apart and are provided with a few necessary articles of furniture and crockery. To the first class bungalows, which are usually those at which a traveller proceeding by dák or transit is likely to alight for a meal and rest, a cook and maty are attached. These are a handy set of fellows and always ready to do the needful in serving up a meal or so in expectation of receiving a small inam or present. The other bungalows are in charge of Peons or pensioned Sepoys, who procure for the traveller on payment, such supplies as fowls, eggs, milk, &c. In the Nagpore and Saugor territories there are no bungalows except in a few places. Along the line of Railway there are at Arcot, Vellore, Tripatore, and Salem, Refreshment Rooms, opened and maintained by enterprizing characters, where the traveller may obtain a breakfast or tiffin the instant the train arrives, and if he be smart, he can dispose of his meal before it starts again. Arrangements are being made to establish similar Rooms at other stations on the line which has been just opened between Salem and Beypore, and doubtless they will be soon completed. The stations at which they are likely to be established are Coimbatore, Palghaut, and Beypore.

Travellers should never fail to take with them ample supplies of biscuits, bread, sugar, tea, &c., and of condiments for making a curry or stew, as the former are never and the latter seldom readily obtainable at Bungalow stations. In some places even fowls and eggs are scarce. Mutton is a dainty that is scarcely ever procurable on the line of march, except a sheep be purchased and slaughtered on the traveller's own account.

The following is a table of the routes to most of the principal military and civil stations in the Madras Presidency and of those garrisoned by its forces. Intermediate stages, where there are no bungalows, have been omitted in cases where the distances between two Bungalow stations is not greater than can be travelled at one stretch by a single pair of bullocks; but when this cannot be done, the usual stages are given, leaving it with the traveller, from local enquiries, to select his next stage. In lines of road, as through the Nagpore and

Saugor territories, where there are no Bungalows at all, the stages given in the list, which are generally not more than 30 miles apart, have been chosen with reference to their facilities for affording supplies, &c. Where there are two or three lines of road to the same station, the shortest has been generally selected.

It has been found impracticable, from the want of reliable and accurate information, to distinguish the class to which the Bungalows at each station belong.

I—To Nellore, Ongole & Masulipatam.
