RETROSPECT, 1863.

EUROPEAN.

A REVIEW of the history of the year now drawing to a close, is calculated to awaken feelings of lively gratitude to the Supreme Disposer of events, for the many and signal blessings conferred upon our nation during this period of time.

We have been favoured with peace at home, and abroad; with the exception of the insurrectionary movement of the Maories in New Zealand, and the recent disturbances on our North West frontier. We have been blessed with an abundant harvest, the distress in the manufacturing districts has considerably decreased, and taxation diminished to the amount of three and a half millions—proves alike the satisfactory state of the Revenue, and the flourishing state of our Commercial interests—while the many excellent Institutions established for the diffusion of our glorious Christianity, have to rejoice in augmented incomes, enabling them to enlarge their operations and increase their usefulness.

We have then much to be thankful for; but the event that has called forth the liveliest demonstrations of joy from all classes, was the marriage of the Prince of Wales to the Princess Alexandra of Denmark. Like the union of our beloved Queen with the illustrious Prince, whose loss she still so deeply mourns, this alliance seems to have been formed from motives of affection; (too often subordinated in royal marriages to considerations of political expediency,) though there were other reasons which rendered the connexion with the Royal Family of Denmark peculiarly desirable, their attachment to the Protestant faith, and the high character of the nation, as a brave and enterprising people—once the terror of our Saxon forefathers; a valiant and sturdy foe at the battle of Copenhagen, but now united to us by the ties of brotherhood.

The enthusiastic reception given to the Princess on her landing at Gravesend, and the hearty cheers with which the Royal Pair were every where greeted in their procession through the Metropolis, must have afforded her a most gratifying proof of the deep interest felt in her welfare by the people of England, and their heartfelt desire for her future happiness. The royal nuptials were celebrated at Windsor on a scale of great magnificence. The marriage ceremony was performed by the Archbishop of Canterbury on the 10th of March 1863, in the presence of a large assemblage of the nobility and gentry of England, and the representatives of the Sovereigns of other nations. Among distinguished foreigners the Maharajah Dhuleep Sing was conspicuous for the rich dress and costly jewels he wore on the

occasion. The day was kept as a public holiday throughout the kingdom, and occasioned rejoicing in the remote parts of our Empire. All the large towns were brilliantly illuminated, and amidst the universal festivity, the poor were not forgotten, but in many places they were liberally regaled by public subscription. The inhabitants of Madras will not soon forget the pleasing sight presented in the gathering of the different schools in the grounds of Government House on the occasion, and the pleasure derived from seeing the enjoyment of a large number of the young, in the different amusements and good cheer provided for their entertainment. The marriage presents received by their Royal Highnesses, were both numerous and costly; but there was one worthy of special notice—a Bible richly bound, and beautifully embossed with golden clasps, concealing a Pearl; and a Reading Desk—purchased by the subscriptions of the various Sunday Schools, and presented to the Princess, as a token of their humble regard. May she indeed be enriched by the possession of the Pearl of great price, discovered in its sacred pages; and long live the cherished object of the esteem and affection of Her Majesty's loyal subjects.

The discovery of the sources of the Nile by Captains Speke and Grant, formerly of the Indian Army, has attracted a large amount of public interest. These enterprising travellers were honored with the congratulation of the Queen, and the plaudits of many large assemblies, who listened with much interest to the interesting narrative of their arduous undertaking. They received a perfect ovation at the Dinner, and Annual Meeting of the Geographical Society. One of our leading journals observes "the source of the Nile was a puzzle long before the time of Moses. The origin is suggested on the most ancient monuments of Egypt; it excited the curiosity of Rameses and Sesostris; confounded the wisdom of the Ptolemies; won attention during the Roman occupation; amused the leisure of the Schoolmen; tantalized the Portuguese Jesuits in the Sixteenth century; engaged the adventurous spirit of Bruce; aroused the wonder and baffled the resources of Mahomet Ali, and defied the zeal, the ability, and endurance of the brothers D'Abbadie. At length the mystery is solved, and the source of the Nile is found by a couple of Englishmen, to be a lake about 4-degrees south of the Equator, very near the position which Dr. Beke, so long ago as 1846, assigned to it theoretically. It is curious that the fact has been discovered, not by following the waters of the river from its mouth, the natural course of discovery, but by descending upon it from above."

Directing our attention to the Continent this year will be a memorable one in the annals of Poland, for the heroic and protracted struggle against Russian Domination, occasioned by the oppressive mode in which the constitution was enforced. Many lives have been sacrificed in what is termed a fruitless effort to obtain their national freedom, and much valuable property wantonly destroyed

by the Russian Soldiers. England, France and Austria, conjointly remonstrated with the Russian Government, on the unconstitutional course pursued towards the Poles, as an infraction of the Treaty of Vienna, and urged the necessity of the establishment of a Constitutional Government in Poland, as essential to the peace of Europe; but being unprepared to enforce their recommendation, by a declaration of war if rejected, Prince Gortschakoff has coolly intimated in reply, the intention of his august Master to carry out his own plans for the administration of the government of his Empire, and the pacification of Poland. The atrocities perpetrated by the Russian Generals Mouravieff and Berge will add a deeper stain to the cruel treatment of that unhappy country by her powerful and unprincipled oppressor.

The Emperor of the French has recently proposed the assembly of a Congress for a general settlement of European affairs, and has addressed autograph letters to the Sovereigns of Europe, to which favourable replies have been received from some of the Powers. The assent of England, Austria and Prussia conditional on preliminary explanations. This new plan for the peaceful adjustment of international differences, it is to be hoped, will be attended with success, especially in bringing the powerful influence of public opinion to bear upon cases of oppression.

We noticed in our last Summary the unanimous desire of the people of Greece, that Prince Alfred should become their King; but the throne being declined for him by the British Government, an offer was made of it to the Duke of Saxe Coburg-Gotha, but with no better success. The Greeks have, however, at last obtained a Sovereign in the person of Prince William of Denmark brother of the Princess of Wales, who has lately received a very cordial reception at Athens, and ascended the throne under the title of King George 1st. We hope the reign of his youthful Majesty may be more prosperous than that of his predecessor.

The Pope still retains possession of the metropolis of Italy, sustained by the power of French bayonets, though it is thought his Imperial Ally would be glad of a favourable opportunity to withdraw his protection. The present state of things cannot last long, and his holiness may yet be glad of the asylum offered him by the British Government in Malta, and content himself with the exercise of his spiritual functions.

America is still suffering from the scourge of war, the prospect of peace seems to be as remote as ever. Many sanguinary battles have been fought without any decided advantage to either party, and much valuable property has been destroyed. The President has lately ordered the enrolment of 300,000 volunteers but from the difficulty already experienced in raising recruits, it is doubted whether he will be able to obtain the required number. The South appear as firm as ever in their determination not to yield, and to maintain

which will not only carry water to lands now impoverished for want of the rains which every year flow to the sea instead of fertilizing the soil, but will also provide means of communication, so that the products of the fields may, at a maximum of convenience and minimum of cost, be conveyed to the coast, there to be sold for the mutual benefit of the cultivator and the consumer. A scheme is also said to be in preparation for the improvement of the great Ganges canal, which has, through carelessness on the part of its original engineers, become practically useless. In every part of the country works of the utmost importance, demanding capital only to be reckoned by tens of millions sterling, are being rapidly commenced; so that, if India be blessed with peace, the compiler of twenty years hence will have to record the successful working of plans for the benefit of millions of people, which will be without parallel in any other country of the earth.

Turning for a moment from such matters, we ought to notice, as one of the chief events of the year, the wonderful enthusiasm which pervaded the whole country on the occasion of the marriage of the Prince of Wales. Addresses of the most gratulatory character were showered upon the happy couple from all parts of India, while in some places the general joy took a more substantial form in the shape of magnificent presents of Indian productions. The most beautiful and appropriate mark of joy was that, however, given by Sir W. and Lady Denison. All the children of the various Orphan Asylums of Madras, to the number of several hundreds, were invited to spend a pleasant evening in the grounds of the Government House, where, in addition to the pleasure of roaming about the park, they were entertained by bands of music, tumblers, jugglers, and the usual accompaniments of a school treat. A substantial tea prepared them for the pleasures of the night, which comprised speeches, dancing, exhibition of magic lantern, and a beautiful display of fireworks; the whole treat was at the expense of His Excellency.

Within a few weeks of these joyous proceedings, all India was startled by the news that Nana Sahib had been at last captured at Ajmere, in the disguise of a fakir. At first appearances were greatly in favor of this imposition, but when the prisoner was removed to Calcutta and confronted with persons who had been well acquainted with the real Nana, it was at once discovered that a mistake had been made. He was accordingly set free, and the Nana remains untraced. Two villainous murderers during the mutiny have, however, been captured and brought to justice—Kishen Rao, and that arch-traitor Zohoor-Hussain—and, so far, justice has been satisfied, though the insufficiency of the sentence against the latter has caused great indignation throughout the land.

The first approaches to that local government which only can properly provide for internal progress, have been made by the appointment of a Municipality at Calcutta, and honorary Magistrates in Oude and the Punjab. As yet, though there is every appearance of success

in the labors of all of these bodies, sufficient time has not elapsed to show the real effects that will be produced. In the Punjab especially, there are great hopes that the leading members of the native community may be largely imbued with the spirit of self-government, thus providing the best preservative against future disorder. In the course of a year or two it is expected that regular corporations will be established in all the larger towns.

Nor have the Government been slow to recognize the great need for moral and intellectual progress among the masses. In Madras, Mr. Arbutnot's Education Act bids fair to be of lasting benefit in providing a simple vernacular education for the lower classes. Throughout the Godavery district the scheme is firmly established, and is doing great good; and already other districts have applied for its application to them. The most important of these places is Sydapet, where a large proportion of the population came forward voluntarily to ask to be permitted to tax themselves to provide schools for their children. The various Universities are also growing rapidly in usefulness and importance, especially that of Bombay, where public spirited merchants have devoted large sums towards suitable buildings, the establishment of a library, and the endowment of Professors and Scholarships. The returns of the candidates for academical honors in 1863 show a large increase, not only in the number of applicants, but also of those who have successfully passed the various examinations.

The usually uneventful course of Missionary labor has been chequered by many circumstances which have for a while somewhat saddened those who look upon it as the great civilizing and Christianizing element of the present day. Two fine men, one in the prime of youth and the other in a green maturity, the Reverend Messrs. Scudder and Hislop, have perished by drowning: the one while earnestly engaged in the pursuit of scientific knowledge, and the other while hastening to cross a furious stream which lay between him and his work. Mr. Hislop had worked long and well in the Nagpore territory, and had gathered round him a goodly band of converts, who, in their turn, were working among the masses around; he was further distinguished as the most accurate observer of nature that Central India has yet seen, when he was thus prematurely cut off, leaving a wife and family who have been temporarily aided by the subscriptions of those who respected their husband and father. Another venerated name, that of Dr. Duff, has also ceased to be borne upon the roll of Indian Missionaries. After thirty years of most successful and arduous labor, in the course of which he has done more for education than any other man in India, he has succumbed to toils which were too much for his strength, and, amidst the applause of all the great and good in the land, he leaves us for another sphere of usefulness at Home. His friends and pupils, of whom there are upwards of a thousand in attendance at the Central Institution under his more immediate charge, have resolved to commemorate his brilliant career by the erection of a hall somewhat resembling

ling in character our own Memorial Hall, which will be one of the principal ornaments of Calcutta. As if these things were not enough to depress the cause of Missions, the American Missionaries in Burmah have quarrelled amongst themselves concerning some ridiculous proceedings on the part of Mrs. Mason, so well known for her previous usefulness among the Karens. After a course of recrimination extending over a whole year, and through which the Mission cause must have greatly suffered, it appears probable that the matter will be settled by reference to arbitration. It is fervently to be hoped that nothing may interfere with the progress of so remarkable a work as has been carried on among the Karens, mainly by the instrumentality of Dr. and Mrs. Mason, and which has only been second to the great work of the Church Missionary Societies in Tinnevely.

The year concludes in Madras by many important changes among its leading journals. Upon returning to this country, Mr. Vans Agnew, the senior partner in the well known firm of Arbuthnot and Co., and who had always distinguished himself by his energy and ability, has, in furtherance of a great scheme for improving Madras journalistic literature, bought the *Madras Times* and *Examiner* newspapers; and while, in all probability, the latter will be absorbed in the Tri-weekly edition of its great contemporary, the *Times* is to appear under the editorial care of Mr. Lawson, late Editor of the *Daily News*, a spirited journal which has been commenced and carried on during the year. The latter, which has attained a considerable circulation, will be carried on under the temporary care of its late chief, until other arrangements can be made. The *Observer* is, also in all probability, about to alter its character, preparatory to a greatly increased circulation and usefulness, and the *Carnatic Telegraph* becomes a Tri-weekly journal.

ADJUSTMENT OF THE YEAR.

Almost all the nations of antiquity originally estimated the year by 12 Lunar months, which is more than 10 days less than the Solar year.

This is a very short period of time would lead to much confusion and complication, and cause the rapid deviation of the Seasons, so that one Season would be substituted for the other, the Summer for the Winter months, the dry Monsoon for the wet one.

As all the more important arrangements and business of civilized life depends on the return of the Seasons, it was of the utmost importance that some invariable and uniform standard of time should be adopted.

Their return being regulated by the tropical year, that is the interval between two successive arrivals of the Sun at the vernal equinox, this is the year in common use.

It consists of 365d. 5h. 48m. and 45s.7., but for practical purposes, of 365 days; the odd hours, &c. being thrown out.

To bring in these, an extra day is added to every fourth year, which is given to the month of February.

This allowance, however, is a little too much, and occasions an error of about a whole day in 130 years, to counteract which, it has been settled by Act of Parliament (24 Geo. II, 1754) that the Years 1800, 1900, 2100, 2200, 2400, and every hundredth year of our Lord which shall happen in time to come, shall be computed as each consisting of 365 days only, excepting every fourth hundredth year, when of the year 2500 shall be the first.

If this method be adhered to, the present mode of reckoning will not vary a single day from true time in less than 5000 years.

Julius Cæsar was the first person who seems to have attained to any accuracy on the length of the year, and fixed it at 365 days and 6 hours; introducing a day every fourth year (called Leap year), which accordingly consists of 366 days, while the three others have only 365 days each. From him it was called the Julian Year, and it continued in general use till the year 1582, when Pope Gregory XIII. undertook to rectify the error, which at that time amounted to ten days. He accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 5th day was called the 15th. This alteration took place throughout the greater part of Europe, and the year was afterwards called the Gregorian Year of New style.

In England the method of reckoning after the New Style was not admitted into our Calendar till the year 1752, when the error amounted to nearly 11 days, which were taken from the month of September, by calling the 3rd of that month the 14th.

By the same Act of Parliament referred to, the legal beginning of the year was changed from the 25th of March to the 1st of January, so that the succeeding months of January, February, and March up to the 24th day, which, by the Old Style, would have been reckoned part of the year 1752, were accounted as the three first months of 1753, and is the reason we sometimes meet with such a date as this—

March 18th. 1774—75 :

that is, according to Old Style it is 1774, according to the New 1775.

EXPLANATION.—Look for the year in the first part of the table, and opposite it will be found the Domical letter. When there are two letters together the first is for January and February, the second for the rest of the year. In a line with the month, in the second part of the table, find the Domical letter of the year and down the same column with the letter find the day of the week, and the figure on the left gives the day of the month. Thus for the Sunday in September 1859, opposite 1859 in the left column is D, in the 5th. In a line with September find D, and descend the column to "Sun"—on the left is 6, 13, 20 and 27, the required dates.

To find the age of the 14th day of August. Take from this table the age of the last day of July and add 14, total 226. In Leap years, 1 must be added for the months after February.

SIGNS OF THE WEATHER.

Extracted from a Manual of the Barometer, compiled by Rear-Admiral Fitzroy, and published by the Board of Trade.

"To know the state of the air, the barometer and thermometer should be watched.

"The words should not be so much regarded for weather indications as the rising or falling of the mercury; for if it stand as changeable, and then rise towards fair, it presages a change of wind or weather, though not so great as if the mercury had risen higher; and, on the contrary, if the mercury stand above fair and then fall, it presages a change, though not so great a degree as if it had stood lower; besides which, the direction and force of wind are not therein noticed.

"It is not from the point at which the mercury may stand that we are alone to form a judgment of the state of the weather, but from its rising or falling; and from the movements of immediately preceding days as well as hours.

"It should always be remembered that the state of the air foretells coming weather, rather than shows the weather that is present—(an invaluable fact, too often overlooked).

"If the barometer has been about its ordinary height, say near 30 inches (at the sea-level), and is slowly, or rising, while the thermometer falls, and dampness becomes less, north-westerly, northerly, or north-easterly wind, or less wind, less rain or snow may be expected. On the contrary, if a fall takes place with a rising thermometer and increased dampness, wind and rain may be expected from the south-eastward, southward, or south-westward.

"A fall with a low thermometer foretells snow.

"When the barometer is rather below its ordinary height, say down to near 29 inches (at the sea-level), a rise foretells less wind, or a change in its direction towards the northward, or less wet; but when it has been very low, about 28 inches, the first rising usually precedes or indicates strong wind.

"Indications of approaching changes of weather, and the direction and force of winds, are shown less by the height of the barometer than by its falling or rising. Nevertheless a height of more than thirty (30 0) inches (at the level of the sea) is indicative of fine weather and moderate winds.

"A rapid rise of the barometer indicates unsettled weather; a slow movement, the contrary; a steady barometer, with decrease, foretells very fine weather. A rapid and considerable fall is a sign of stormy weather and rain (or snow). Alternate rising and sinking indicates unsettled and threatening weather. A sudden fall of the barometer, with a westerly wind, sometimes followed by a violent storm from N. W., or N., or N. E. A barometer begins to rise considerably before the subsidence of a gale, sometimes even at its commencement. Although it falls lowest before high winds, it frequently rises very much before heavy rain.

"The longer a change of wind or weather is foretold before it takes place, the longer the present weather will last, and, conversely, the shorter the warning, the less time whatever causes the warning, whether wind or a lot of rain or snow, will continue.

"A few of the more marked signs of weather, are the following:—Weather clear or cloudy—a raw sky at sunset betokens fine weather; a red sky in the morning bad weather, or much wind (perhaps rain); a grey sky in the morning fine weather; a high dawn, wind, or low dawn, fair weather. Following of delicate clouds foretells fine weather, with moderate or light breezes; long, sharp, only looking clouds, wind. A dark, gloomy blue sky is windy, but a light blue or blue sky indicates fine weather. A bright yellow sky at sunset presages wind; a pale yellow, wet;—and thus by the prevalence of red, yellow, or grey tints, the coming weather may be foretold very nearly; indeed, it aided by instruments, almost exactly. Small watery-looking clouds foretell rain. High upper clouds crossing the sun, moon, or stars, in a direction different from that of the lower clouds, or the wind than left below, foretell a change of wind. After fine clear weather, the first sign in the sky of a coming change are usually light streaks, mists, whiffs, or mottled patches of white distant clouds. There is an indication of fine weather (so is fog). Remarkable denseness of atmosphere near the horizon, distant objects, such as hills, unusually visible, or raised (by refraction), and what is called "a good hearing off," may be mentioned among the signs of wet, if not wind, to be expected."

The Proper Motion of Stars.—The two stars, Sirius and Procyon, have long been affected with peculiar proper motions of their own through space which could not well be accounted for, but it now appears, from the researches of Bessel and others, that these anomalous perturbations are explained and satisfied by the existence of invisible masses round which these stars may be conceived to revolve—Sirius in 36, and Procyon in 49 years. This theory was started by Bessel many years ago, and is now confirmed by Professor Gould and Sir John Herschel. When the regular proper motion of any star is only a few thousandths of an arc of a circle, it is not safe to jump at hasty conclusions, but as in this case it is highly probable that the same law of cause should hold for both systems. Bessel's hypothesis becomes greatly strengthened. In the opinion of the eminent astronomer just named above, "the presence of an invisible mass in the neighbourhood of Sirius, compatible with its magnitude, is entitled to be received as an established fact in astronomy."

"A 'high dawn' is when the first indications of daylight are seen above a bank of clouds. A 'low dawn' is when the day breaks so or near the horizon, the first streaks of light being very low down."

RULES TO FIND THE LEAP YEAR, EPOCH, &c.

To find the Leap Year.

RULE.—Divide the given year by 4; and if there be no remainder, it is Leap year; but if 1, 2, or 3 remain, they show it is so many years after Leap year.

To find the Epoch.

RULE.—Divide the given year by 19; multiply the remainder by 11, and the product will be the Epoch, if it does not exceed 29; but if it does, then divide the product by 30, and deduct 3, the last remainder will be the Epoch.

To find the Moon's Age.

RULE.—To the Epoch of the year add the number for the month, and the day of the month, the sum, if it does not exceed 30, is the Moon's age; but if it does, subtract 30 from it, and the remainder will be the Moon's age.

To find the Length of the Day and Night.

RULE.—Having the time of Sunrise and Sunset on any particular day, double the time of Sunset, and it will be the length of the given day, and double the time of Sunrise, and it will give the length of the night.

26th Im. of II	1 43 15.7	8th Im. of II	17 30 11.0			

The above Eclipses of the Satellites of Jupiter are given to the mean time of Madras.

The Immersion (Im.) denotes the instant of the disappearance of the Satellite, by entering into the shadow of Jupiter; and the Emergence (Em.) the instant of its re-appearance, at coming out of the shadow. They generally happen, when the Satellite is apparently at some distance from the body of Jupiter, except near the opposition of Jupiter to the Sun, when the eclipse takes place near to the body of the Planet. Before the opposition, the Immersions and Emergences happen on the western side, but after opposition on the eastern side, of the Planet. With an inverting telescope, however, the appearances will be directly the contrary. Before the opposition, the Immersions only of the first Satellite are visible; and after the opposition the Emergences only. It is seldom also, that the Immersion and Emergence of the second Satellite can be observed at the same eclipse; but both phenomena are generally visible with the third and fourth Satellites. The fourth Satellite does not enter the shadow of Jupiter in 1864, and is therefore omitted.

To find the time, at which the Immersion or Emergence of any of the Satellites will take place under any other meridian than that of Madras, it is merely necessary to add the difference of Longitude (in time) to the time of the phenomenon at Madras, if the meridian be east of Madras; or to subtract, if it be west, and the sum or difference will be the time required. But this determines only the instant of the occurrence of the phenomenon: Jupiter may be below the horizon at this time; or he may be above it, and the intensity of Sun light, or even the brightness of twilight, may be such as to render the Satellites invisible. To have the eclipses visible, it has generally been considered, that the Sun should be at least 8° below the horizon, and Jupiter not less than 8° above it, at the same time. Adopting these limits, it is then necessary to ascertain the position of the Sun and Jupiter, with respect to the horizon, at the time of the phenomenon. This may be readily accomplished by means of a celestial globe, or by the times of the Sun's rising and setting, and of Jupiter's rising and setting, given in this Almanac.

The Eclipses of Jupiter's Satellites, especially of the first, afford us perhaps the readiest means of determining the Longitude; all that is necessary to be known being the exact time of observation; the difference between this time and the time at Madras, shews the difference of Longitude at once and it is east or west of Madras, according as the time of observation is greater or less than the Madras time. Suppose the Immersion of Jupiter's 1st Sat. to be observed on January 22, 1864, at Trevandrum at 14h. 28m. 15s.7 Mean Time at that place; by reference to page 34, it appears that the Immersion will take place at Madras, at 14h. 41m. 14s.0 Madras Mean Time, the difference 12m. 58s.3 is the difference of Longitude between Trevandrum and Madras; and because the Trevandrum time is less than that at Madras, we infer that Trevandrum is to the west of Madras.

Independent of defects in the tables, there are difficulties attending the observation of these phenomena, which unfit them for accurate determinations of Longitude. Different Telescopes give different results; and care should be taken to have recourse to those corresponding observations which have been made under circumstances the most similar, and particularly with telescopes of the same quality and power. When extreme accuracy is not required, the eclipses of the Satellites will always afford a good approximation towards the difference of meridians, and observations of them should on no account be neglected, especially when the Immersion and Emergence of the same Satellite are both visible.

The above Table contains the decimal fraction of a day of 24h. It is useful for finding what part of a day, any number of hours, minutes, and seconds are, and consequently may be, conveniently employed in many calculations, where daily differences are involved, such as the daily rate of a clock, or chronometer, the change of which, in any given number of hours, &c., may be thereby readily obtained.

EXAMPLE.—Suppose a clock or chronometer gains 3s.54 in 24h., what is the correction to be made on this account for an interval of 3h. 30m. 25s.

$$\begin{aligned}
 3h. &= 0.1250d. & d. & s. & s. \\
 30m. &= 0.5000 & 0.1461 \times 3.54 &= 0.517 &= \text{corr. for the given interval.} \\
 25s. &= 0.0069 \\

PLANETARY PHENOMENA.

MERCURY will be an evening Star, during the early part of January, the whole months of April, May and August, and the first part of September; a morning Star in February, March, and June, and during the first part of July, as well as in October, and the first part of November. He arrives at his inferior conjunction with the Sun on January 25th, May 23rd, and September 24th; at his superior on April 3rd, July 17th and November 10th; at his greatest eastern elongation, on January 9th, April 30th, August 28th and December 22nd; and at his greatest western elongation on February 19th, June 18th and October 9th. He is stationary on January 16th, February 6th, May 12th, June 4th, September 13th, October 2nd and December 30th. When in superior conjunction, that is, when the Sun is exactly between the Earth and Mercury, the latter appears perfectly round but very small—not more than 5" in diameter;—but when in the opposite portion of his orbit or near his inferior conjunction, he presents the form of a slender and brilliant crescent, nearly 12" in diameter.

VENUS (the largest of the inferior planets) will be a morning Star from January to June inclusive; an evening Star from the middle of August to the end of December. Her telescopic appearance, at the commencement of the year, will be that of a half moon about 20" in diameter; diminishing slowly both in brilliancy and size until her superior conjunction, which takes place on July 17th, she then appears perfectly round, not more than 10" in apparent diameter. By the end of October she will turn somewhat gibbous, but her diameter will not exceed 12"; and at the latter end of December her size and figure will be nearly the same as at the beginning of January.

MAFUS* with his fiery reddish hue, will be fine and viewable this year. He will be a morning Star until June, rising after midnight. His apparent diameter, which in May will not exceed 5", will increase gradually to 10" early in September and to 17" at the time of opposition about the end of November. The planet will afterwards diminish both in intensity of light and in apparent size, until the end of the year, when he will be a little more than 13" in diameter.

Astronomers will take much interest in observing Mars together with the Stars situated near his path about the time of opposition with a view to the determination of his parallax from the corresponding observations of differences of declinations between the planet and the Stars made at places differing considerably in latitude, such as the observatories in the northern and southern hemispheres.

* This planet, while in opposition with the Sun in 1862, was so conspicuous, that extraordinary observations were made of it for determining the Solar parallax.

JUPITER with his magnificent pure white light adorns the sky in the morning throughout January and from the middle of December. He will be an evening Star from the month of August till the early part of November. He may be seen all night from the middle of April to the end of May. His interesting belts and eclipses and other phenomena of four Satellites are well worthy of examination. His greatest apparent diameter will be nearly $48''$, when in opposition in May; his least, under $30''$, when in near conjunction with the Sun in November.

The eclipses of Jupiter's Satellites, best observable throughout India and elsewhere, are given in tables on pages 24 and 35 in Madras Mean Time. Between opposition and conjunction, that is from May till November of the current year, the eclipses will occur on the eastern side of the planet, but in the other portions of the year, to the west of the primary. When the immersion and emersion of the same Satellite are given, it must be remembered that both phenomena take place on the same side of the planet, but the emersion is always to the east of the spot at which the Satellite vanished. Any good pocket telescope, if steadily supported, might render the Satellites visible and their eclipses observable.

SATURN with his pale brightness will be a morning Star from the middle of October to the end of December; an evening Star from the middle of July till the end of September. He is in quadrature with the Sun on January 8th and July 3rd, and becomes stationary on January 28th and June 14th, when his apparent diameter will be $16''$ nearly.

SATURN is attended by eight Satellites, five of which may be readily seen with any good telescope; but the remaining three require the best instruments yet constructed to render them discernible.

URANUS AND NEPTUNE are both readily visible with a mere pocket glass, when their positions are well known: (see page 36 for the Declination of Planets) though neither are distinguishable from the fixed Stars except with superior instruments, charged with high magnifying powers. Uranus will be in opposition on December 19th as a Star of the sixth magnitude, the faintest visible without telescopic aid in the absence of moonlight, in right ascension 5h. 48m. and north declination $23^{\circ} 38'$. His apparent diameter, is about $4''$. Neptune, never more than $2\frac{1}{2}''$ in diameter, and only of about the eighth magnitude as compared with the fixed Stars, will be in opposition on September 30th, in right ascension 0h. 27m. and north declination $1^{\circ} 20'$.

The **MINOR PLANETS** between Mars and Jupiter, are now seventy-seven in number: seventy-four having been discovered within the last eighteen years. The only one ever visible to the unaided sight is Vesta, which under certain conditions can, for a brief time when near opposition, acquire a brilliancy equal to Stars of the fifth magnitude. A complete historical table of them will be found on pages 22 and 23.

ECLIPSE OF THE SUN.

TRACK OF THE MOON'S SHADOW AND PENUMBRA UPON THE SURFACE OF THE EARTH DURING THE ECLIPSE OF THE SUN, 6th MAY 1864.

ECLIPSES OF THE SUN.

IN THE YEAR

1864,

THERE WILL BE

TWO ECLIPSES, BOTH OF THE SUN,

AND NEITHER OF THEM

VISIBLE IN MADRAS.

I.—An Eclipse of the Sun, May 6, 1864, invisible at Madras.

The line of central Eclipse will pass between Asia and Australia across the North Pacific Ocean to the United States of America. A partial Eclipse will be seen from a part of North America.

II.—An Annular Eclipse of the Sun, October 30, 1864, invisible at Madras.

Begins on the Earth generally, October 30d. 0h. 31m. 1, Mean Time at Greenwich, in Longitude $100^{\circ} 14' W.$ and Latitude $6^{\circ} 25' N.$

Central Eclipse at Noon, October 30d. 3h. 35m. 2, in Longitude $57^{\circ} 52' W.$ and Latitude $24^{\circ} 56' S.$

Ends on the Earth generally, October 30d. 6h. 29m. 5, in Longitude $6^{\circ} 26' W.$ and Latitude $19^{\circ} 25' S.$

The line of central Eclipse will pass across South America to the East of Africa. There will be a partial Eclipse at the Cape of Good Hope; the first contact will occur at 62' from the northern point of the Sun's disc towards the west, at 5h. 28m. 0 mean time at the Cape, and the Sun will set at 6h. 25m, or 3m. 5 before the time of greatest phase.

PANTHER ROAD.

Instituted by the Madras Government, 14th August 1851.

Captain Jesse Mitchell, Superintendent; P. Rungasawmy Moodeliar, Curator; C. Anthracasavooloo Naidoo, Assistant Curator.

This is a Museum of Natural History and Economic Geology. It has also a Miscellaneous department illustrating the manners, customs and manufactures of various people.

A Library and Reading Room is attached to the Museum. It is intended that it shall contain such standard works of reference, particularly in the Natural Sciences, as from their costliness or bulk are not usually found in private Libraries, especially in India, or are not readily accessible. The efforts of the Superintendent are at present directed to the completion of a Natural History Library as the most important to the Museum.

The Library contains at present about 1,504 miscellaneous works, 31,115 numbers of the London Patent Office Papers, descriptive of Patents for Inventions that have been granted from A. D. 1617 to A. D. 1851, and 1,059 vols. of standard works of reference chiefly on the subjects of Botany, Geology, Paleontology and Zoology. Donations of works of the above description will be thankfully received by the Officer in charge.

The Museum is opened gratuitously to the public daily from 8 A. M. to 6 P. M. with the exception of Sundays, the vacation in January, and after the Easter holidays.

We need scarcely remind our readers that the People's Park of Madras owes its origin to Sir Charles Trevelyan, K. C. B., our late talented and energetic Governor. His Excellency shortly after his arrival perceiving the urgent necessity which existed of providing a place for out-door amusement and exercise for the great body of the middle classes of Madras, (who are almost exclusively Parasians) suggested the idea of the now intended Park. The sanction of Government was readily granted, and prizes were offered for the most suitable designs for laying out the Park. The idea of the competition for the prizes was eagerly laid hold of by the public, and within three months of the announcement no less than sixteen plans, all of them meritorious and some of them possessing very great excellence, were submitted to a Committee appointed by the Government to award prizes for the best designs. The first prize was granted to Mr. Robert Baldrey, who, under the suitable motto of "Trees and Water for a hot climate," contributed a design, not only possessing high artistic merit, but also fulfilling almost all the requirements of a Public Park. To Captain Brooks of Poonamallee, a prize of 100 Rupees was allotted, and to Captain C. P. Taylor, and J. W. Addis, Esq., rewards of 50 Rupees each were subsequently presented.

The Park is now established as one of the Institutions of Madras and has been opened to the Public. It must be considered an unqualified boon to the community. Trees are growing up. The first instalment of a Zoological collection has been introduced. The Tigers' and Panthers' cages daily attract hundreds of visitors. A handsome Aviary has been put up. A Giraffe, a Bear, several specimens of the Sambur, Nilgherry and spotted Deer are to be seen in appropriate enclosures, a large building for Monkeys is nearly completed, and a handsome roof to the Band stand has been erected. All the main roads are finished, and the course of a few months will see the Park completed, and various other works are in contemplation. The grass which has been carefully planted in the cultivated portions of the Park already returns a revenue to Government, and hay of the best description is produced in considerable quantity.

Grants for the prosecution of the works are made from the funds of the Department of Public Works on Budget estimates submitted in the usual way, and any proceeds arising from the sale of hay or other sources are paid into the Treasury and credited to the general revenue of the State.

A Band plays weekly in the Park.

All profits and incomes amounting to Rupees 500 and upwards per annum, will be assessable to the Income Tax as before.

2. Any arrears of Income Tax Duty that may be due for the years 1860-61 and 1861-62, from parties whose incomes are not liable to the Tax during 1862-63, must be liquidated at once, and the amounts paid to the Collector of Income Tax in the usual manner.

Their names will at once be registered as having thus applied, and they will be furnished with the necessary Forms of Returns.

8. In cases where the Commissioners have reason to believe that parties have not been assessed, during the past years, but are liable for the current year 1862-63 (commencing 1st August 1862), or in cases where parties have made a fraudulent or obviously inadequate Return for the past Income Tax years, the Commissioners will issue to all such parties special notices as provided in Section XXXVIII, Act XXXII of 1860, accompanied by Forms of Returns in which must be entered the Income or Profits from all sources soever derived during the past year or years, and this Return must be forwarded to the Commissioners or Assessor within the time specified in the special notice.

By order,

Office of the Income Tax Commission, } N. MORISON, Secy. to the
Madras, 6th September 1863. } Income Tax Commission.

INAM COMMISSION.

1. THE MADRAS INAM COMMISSION was organized in the official year 1859-60. The main object of the Commission is to effect a satisfactory settlement of an enormous mass of property which has hitherto remained in a state of precariousness and uncertainty, to elicit order out of confusion, and thus to substitute contentment for vexation in the minds of a large and important portion of the population.

2. This object is proposed to be attained by an investigation into the original titles of Inamdars conducted on the following principles:—

3. Proved possession of an Inam for 50 years is to constitute valid title. In the case of personal grants, whether hereditary or conditional, an option is allowed to the holders to convert their terminable tenures into permanent freeholds, upon reasonable terms, in compensation of the reversionary rights of Government in the Inams. These terms are the immediate and permanent charge of an annual quit-rent of one-eighth of the full assessment, in the case of Inamdars having heirs competent to continue the family, of one-fourth when there are only terminable heirs, and a half when the incumbent is without heirs altogether.

4. The enfranchisement of the tenure is compulsory; but the terms of compensation, in their case, are the same as those offered to the descendants of the original grantee.

5. The Inamdars are further allowed to absolve themselves at any time, from the quit-rent thus stipulated for, by the payment once for all of twenty times its amount.

6. Inams of more recent standing than 50 years are also recognized and admitted to a compromise. The terms of the compromise are the immediate imposition of a quit-rent on the Inam equal to a quarter, half, or two-thirds of its full assessment according to length of possession and other circumstances attending the grant.

7. The assumption of an Inam is totally disclaimed; except when it has been satisfactorily proved that the Inam was obtained through fraud.

8. Inams held for religious and charitable objects are confirmed tax free, if old, and continued so long as the conditions are fulfilled.

9. On the validity of an Inam being established on the foregoing principles, a Title Deed is issued to the Inamdars specifying the terms of his future tenure, which is to secure him and his successors from any further scrutiny by Government, regarding the origin of the Inam.

10. Inams held for Police service, now no longer required, are also confirmed subject to a quit-rent not exceeding half of the assessment according to the nature of the service of which the holders are relieved. The quit-rent accruing from this source is intended to meet the cost of the new Village Police.

11. The system of adjudication based as it is on principles of liberality and justice, is not only highly acceptable to the great body of Inamdars concerned, but has also been practically found most admirably adapted to accomplish the great object held in view. It at once restores all the interest which the Government fairly possesses in the Inam tenures, while it secures to the Inamdar an indefeasible right in his property, which he never before possessed, and which now enables him to transmit it without interference to his posterity.

12. The results of the settlement are already before the public in the several published reports of the Commissioner, and in the general administration Report of the past official year.

13. The settlement has met with no opposition. The enquiry has been brought to a close in the Godavari, Krishna and Madras Districts, the Ceded Districts and Kurnool, North Arcot, Nellore, South Arcot, Ganjam, Vizagapatam, Tanjore and Coimbatore.

14. The number of claims decided by the Deputy Collectors from the commencement of the undertaking to the end of September last is 3,19,554, exclusive of Village Service Inams. The number of cases already reviewed and confirmed by the Commission is 3,07,767 comprising an extent of 45,17,199 acres assessed at Rupees 58,78,176 and already charged with a Jodi of Rupees 6,13,179. The permanent annual addition made to the Revenue of Government in the shape of Quit-Rent is 11,17,992. The personal grants enfranchised from which the additional Quit-Rent is mostly derivable bear an estimated value of Rupees 34,47,241, upon which Quit-Rent charged inclusive of the Jodi already paid is Rupees 5,30,079. The personal grants confirmed on the present restricted tenure owing to the unwillingness of the holders to enfranchise there are only 6,145. In few cases only has the Quit-Rent been redeemed, but this is not to be regretted, since the little capital that exists in the Country can probably be turned to a more profitable account in private hands.

15. During the progress of the settlement in the several Districts above mentioned, various special and exceptional tenures and long pending questions of importance came under the consideration of the Commissioner; and the result has been that several existing taxes, arbitrarily imposed by the former Governments have been abolished, and a uniform rate substituted in their stead, conformably to the rules of enfranchisement. The effect of this will be, that while the future Quit-Rent then substituted will be double the amount of the cesses abolished, its pressure upon the Inamdars will not on the whole be felt so heavily, owing to the alleviating circumstances attending the present settlement which secures to the holders of Inam property a perfect security of title.

16. Similarly all the measures either carried through or initiated by the Commission up to the present time have for their object the recognition and confirmation of existing rights and the enhancement of the value of Inam land hitherto greatly devalued by the conditions attached to its tenure.

17. An important question taken up and settled by the Commission is the enfranchisement of the Village Service Inams at 5th of their Assessment in the Ceded Districts and Kurnool, the object being to provide, with the proceeds thereof, for the certain and ready remuneration in money of the Village Revenue and Police Establishments. These Inams have hitherto been diverted from their proper object having been all along considered as private property and enjoyed in numerous shares by all the members of a family, some of whom only were the actual office-holders. The consequence of this was that the service was most inefficiently performed. With a view to put a stop to this state of things and to provide for the efficient performance of the Village service, the Village Establishments are now being revised under the rules laid down by Government, their remuneration being fixed at rates determined according to the circumstances of each Village and paid from the proceeds of the enfranchisement of the Service Inams. This reform has been generally carried out with success in the Districts above named.

18. Under Regulation IV of 1831 and other restrictive Enactments Inam lands were exempted from the jurisdiction of the Civil Tribunals except under the sanction of Government previously obtained. But this restriction has now been withdrawn, since the Inams have been enfranchised and placed in the same position as other descriptions of landed property, and Act IV of 1832 (Madras) has been accordingly passed, declaring all such Inams exempt from the operation of the above restrictive Enactments, and amenable to Courts for debts and other liabilities as other Ryotwar lands without the interference of Government.

REGULATIONS FOR THE PURCHASE OF BULLION.

The following are the Regulations by which Gold and Silver are purchased
by the Mint Master :—

Sealed Tenders of Gold and Silver, specifying the weight and description
of the Bullion tendered, will be received daily, Sundays and Holidays excepted,
from ten till four o'clock at the Mint ; the tenders to be addressed to the Mint
Master.

All private Bullion tendered to the Mint for Coinage shall be weighed in the presence of the Mint Master or his Deputy, and the owner or his agent, as notified in the written tender, the Mint Master granting a receipt for the weight of the Bullion. It shall then be melted in the presence of the owner or his agent, and again weighed in his presence and that of the Mint Master or an Assistant in his confidence, the mass so formed being previously taken in the presence of the Mint Master, or his Deputy, under the direction of the Assay Master or his Deputy, who upon giving an acknowledgment for the weight of the samples and duplicates, shall remove them for Assay, and after that has been completed, issue his certificate of the quality and value upon the weight of the parcel given in the Mint Master's receipt, which shall be filed in the Assay office, when exchanged with the owner of the Bullion for the Certificate, due advice of which Certificate is to be furnished to the Bank of Madras.

These Certificates will be payable on demand at the Bank, in accordance with Clause 2 of Section IX, of Act XIX of 1861, at the rate of 970 Rupees per 1,000 Tolas of Standard silver fit for coinage, but any persons who prefer applying at the Mint for notes in exchange for coin or Bullion may apply there instead of at the Bank, provided they apply for not less than Rupees 2,000 at a time. They will in such case receive the notes at the Office of the Commissioner at the Bank one clear working day after their applications.

A charge of one per cent. will be levied as Seigniorage on all Gold tendered for coinage,* and a charge for refining will be added on all Bullion below certain standards, agreeably to the following scale:

* The Assay Master is at liberty to levy the usual fees on the assay of all private Bullion brought to him for that purpose, and appropriate the same to his own use, agreeably to the usage of the Mints of Calcutta and Bombay.

Parties bringing Bullion to the Mint for Coinage shall be at liberty to withdraw the same within two days of the Assay report being made, if dissatisfied with the valuation, but on payment of fees for Assay, viz. four Rupees for each sample of gold and two Rupees for each of silver, together with the actual charges of melting the same, or they may be allowed a re-trial; but if the second assay give the same result, they shall become liable to double fees upon withdrawing their Bullion, otherwise only to the authorized fees for the extra Assay. Gold shall be returned as a matter of right to all parties who may deliver in gold to the Mint for Coinage.

All Bullion, which may be found brittle, will be returned unless an additional charge of 1½ per cent. be paid.

Under Act XIII of 1862 to provide for a new silver and copper Coinage for India, the new Rupee exhibits as its obverse a well executed likeness of Her Majesty, wearing the Imperial Crown and a rich Indian robe over the shoulders. Around the neck are shown several strings of pearls. The simple legend "Victoria Queen" completes the design. The reverse consists of a scroll pattern passing round the entire circumference of the Coin and enclosing the words "One Rupee, India" and the date "1862." The half rupee, quarter rupee, and two anna pieces, are reduced fac similes of the rupee, both as regards their obverse and reverse, their respective values being imprinted upon them.

The obverse of the largest Coin of the copper currency, the half anna, is identical with that of the rupee. Its reverse is a little different. A continuous wreath runs in an undulating form round the circumference, but it is of a simpler and less ornamental character. The value of the Coin and the word "Indis" figure, with the date, in the centre. The subordinate denominations of the copper series are copies, in design, of the half anna. The slight difference observable in the wreaths of the reverse faces of the silver and the copper series, has been made solely with a view to prevent the chances of the latter being tampered with by use of the electrotype or other means, and passed for silver.

The present power of the Mint is capable of giving a daily out-turn of 200,000 pieces of Silver and Copper in eight working hours or an average of 80,000,000, 8 crores pieces annually. The value fluctuates according to the amount of Bullion received.

At the Mint Foundry cast iron works of every description are made for the Ordnance and Engineer Departments as well as for Private Establishments and Shipping.

PUELLA KINNEY SURVEY.

Lieut. H. St. M. Wynd 1st Assistant Superintendent.

The mode of Survey pursued is to take main circuits by the traverse system of about 100 or 200 square miles, connected, where practicable, with stations of the Great Trigonometrical Survey, and then by the same method to take the circuit of each village boundary, or of sub-divisions of the villages, where they are large. The whole of the Government lands, except hilly and jungly tracts never likely to come under cultivation, are then measured in the detail of fields. The Topographical features of the country are delineated, and the whole is recorded in the form of Village maps on the scale of 16 inches to the mile, in Talook maps of 2 inches to the mile and District maps of half inch to the mile.

The duties of the Settlement Department divide themselves into two branches, viz. the Demarcation of boundaries for the Survey, and the Classification and Assessment of the lands.

The exterior boundaries of Villages are marked by masonry pillars at the tri-junctions and the two adjacent stations, as well as at other prominent points; the intermediate bends of minor importance are marked with earthen mounds, or with stones, where they are available. The masonry pillars thus employed are considered quite sufficient to admit of the theodolite stations of the traverse of the village boundaries being retraced in case of such a step being necessary at any future time. Where the villages are large they are marked out in divisions of 250 to 400 acres, in order to facilitate the check on the aggregated measurements of fields, and also to give more permanency to the Survey, by affording the means of retracing any obliterated portions from starting points in the interior of the village area, instead of trusting only to the marks on the exterior of the village boundary. The marks on these sub-divisions are earthen mounds, or stakes where procurable. Trees also are planted on these as well as the exterior boundaries.

The boundaries of the fields are marked by earthen ridges about half a yard high, and extending about 2 yards from each corner in the direction of each side of the field; with intermediate ridges of 2 or 3 yards in any long distances. Where the fields are small, they are clubbed together for demarcation, provided the area of such aggregated patches does not exceed 2 acres of irrigated, or 4 acres of dry land.

The Demarcation establishment prepare on the ground rough sketches of the boundaries of the villages, and of their sub-divisions and also of the fields in each village, showing the relative position of each field; corresponding with these sketches, a Field Register is prepared giving the numbers of the fields, the names of the owners or occupants, the nature of the tenure and other necessary particulars. The village when thus demarcated are handed over to the Survey Department along with the Sketches and Registers above described.

For the classification of soils, the following four great series are adopted:—

1st. The *Alluvial and Exceptional* series which provides for the rich island soils of extraordinary fertility, and for garden and other soils permanently improved, and ranking above the ordinary cultivation.

2nd. The *Kallar* series, comprising what is called the black cotton soil, with all its varieties under the head of Masab and other native terms, which are not very definite.

3rd. The *Red Ferruginous* series, originating from sandstone, laterite, &c., and possessing distinct characteristics in its constitution and fertility.

4th. The *Argillaceous* series, comprising chiefly the sandy tracts originally deposited from the sea in littoral districts.

Classes are then assigned to each series to take in all its varieties of fertility, and grain values in the staple produce are allotted to each class. The grain value is commuted at what is considered a moderate and fair price, a certain deduction made for expenses of cultivation, &c., and eventually after taking into account the circumstances of proximity to the homestead, to markets, roads, canals, &c., as well as the sources and sufficiency of irrigation and drainage, an assessment is fixed approximately in the ratio of the net profits.

RULES.—This Department is controlled by Act VIII of 1860.

Messages are transmitted on the Telegraph Lines in India, at the following Rates:—for distances of 400 miles, or less, messages of 16 words and under, are charged one Rupee; over 16 words, the charge increases at the rate of one anna for every additional word; peon hire is charged at the rate of 2 annas per mile, measured from each Telegraph Office; cypher messages are sent at the ordinary price, but can only be received in numbers written in full, or in common English words of concealed meaning; the rates are doubled for distances over 400 miles, and under 800 miles; tripled for distances over 800, and less than 1,200; quadrupled for distances over 1,200, and less than 1,800; and so on an additional rate is charged for each distance of 400 miles, or part of 400 miles; when the messages are to be repeated, one half extra is charged, and it is only for "Repeated" messages that Refunds of Charges are granted on account of inaccuracies or delays;—the repetition of Mercantile or other messages involving important results is optional, and not compulsory as heretofore; no enquiry respecting this message will be attended to without the production of this paper.

All messages must be paid for in cash at the place from which they are despatched, and before transmission, except messages between India, England, and China. Answers, however, may be prepaid by the sender of the message as at present.

Messages are received at all Telegraph stations by night as well as by day: the charge for all messages sent between sunset and sunrise being double the usual rate.

Messages, which must be prepaid, are transmitted at the following rate:—For 16 words and under, including the name of the sender and the name of the person addressed, the date and the names of places of despatch and destination, unless they be also the names of Telegraph stations, is charged one rupee for a single distance. No charge is made for stops, or for prepositions or such words as "and Co." "Mr." and "Mrs." occurring in the address of a message. No message or messages beyond 200 words in all can be sent at one time by one individual or Firm; and no second message can be sent till after the lapse of three hours unless the line be free and not required by any one else. The sender of a message may prepay the charge for a reply.

* Opened during the residence of the Governor.
* Opened during the Monsoon.

Private messages are transmitted in the order of their receipt at the office. When two or more messages are tendered at the same time, the shorter take precedence. So does a message in ordinary language precede one in cyphers. Messages are sent to the Post Office in letters bearing postage, if instructions to that effect be given. Messages may be sent from places not having Telegraph stations by Post and Telegraph, but these must be written on station paper, to be had at the Civil Treasuries or of vendors, of the value at which the message is charged for, and must be superscribed conspicuously "Electric Telegraph Despatch." Subscriptions for daily message of 48 words or more are received at an abatement of one-fourth of the usual rate.

A single distance is commonly any distance not exceeding 400 miles; and for every additional single distance, a charge equal to a single distance will be made.

Peon hire, at the rate of 2 annas per mile, will be charged, if the message be sent to a place beyond half 2 miles distant from a Telegraph station.

One Rupee is the minimum rate for messages however brief, excepting when sent between Madras, and the Mount and Poonamallee, when the charge is 8 annas for 16 words.

A message may be repeated at an extra charge of half the amount otherwise payable for it, and a refund obtained of money so paid in case of non-delivery, unreasonable delay, or gross error.

All messages for despatch should be directed to the "Assistant in Charge of the Telegraph Office," and the envelope should be marked outside, "Message for Despatch."

It often happens that the message is directed to the Superintendent, Deputy Superintendent, or other Officer who may be in some distant part of the country. Even in such a case if it bears the mark "Message for despatch" it is at once opened, and all is well—but without this distinguishing mark, it is of course forwarded to its address, and a delay of days or even weeks may result.

REVISED RULES.

I. Messages are received for despatch at all hours day and night, with exception of Sundays, Christmas day, New Year's day, Good Friday and the Queen's Birth day, when the Offices will be closed between the hours of 5 and 16 (or 4 p. m.).

Private Messages intended for transmission on ordinary days, between 18 hours (or 6 p. m.) and 6 hours of the following day, and between 5 hours and 16 hours, and 16 hours and 18 hours on the above named holidays will be charged double the ordinary rate.

II. Messages are transmitted by Telegraph between all the Stations enumerated in the accompanying list, at the rate of 16 words for one Rupee for each distance of 100 miles or under; 2 Rupees for all distances between 400 and 800 miles; and so on.*

III. The distances are estimated by the direct Map line, and not by the actual length of wire.

* A single rate extra is charged on all Messages between any station in Ceylon, North of Colombo, and two rates on Messages for Colombo and stations South of it, and the Continent of India.

IV. No message, however short, is sent for less than one Rupee.

V. For each word above 16, one anna additional is charged for each rate of distance. Thus for 16 words from Calcutta to Bombay (3 distances), the charge for 16 words or under is 3 Rupees; for 19 words, 3 Rupees 9 annas.

VI. Peon hire for the delivery of private messages, at the rate of two annas per mile, will be charged for all distances beyond two miles from the Telegraph Station.

VII. The names of sender and addressee are charged in the address. Initials count each as one word, and it is recommended that the Christian name should always be spelt in full.

Compound names such as McNaughten, O'Donnell, DeSalis, Von Meyern, St. Clair count as one word, provided the prefix be no more than one syllable.

VIII. In the address of a message, the words *From, To, Mr., Mrs., Messrs., and Co.* and all ordinary prefix designations, such as *Capt., Lieut.-Colonel, Sir, Lord, Baboo, Rajah, Nawab,* are passed free, provided the designation be no more than two words, as *Major-General, Lieut.-Colonel.*

Affix designations are charged for, word by word. Thus, "From, Bangalore, from Mr. Brown, To Calcutta, to Lieut.-Col. Smith, commanding 60th Rifles," the words in italics are charged, the others are sent free.

IX. The names of towns from and to, if Telegraph Stations, are also sent free; but are charged for if not Telegraph Stations. Names of quarters, or streets, or numbers of houses, must be paid for.

Messages addressed to large cities such as Calcutta, Bombay, and Madras, should always have the residence of the addressee specified by Street and number, and messages to such names as Smith, Jones, Brown, &c., should have the Christian name or profession of the addressee, to prevent misdelivery.

X. The day, hour and minute of receipt of a message into a Telegraph Office for transmission, is in every instance added by the Department, following immediately the text of the message, and is telegraphed free of charge. Senders may date their messages if they think fit, but the senders' date will be charged for, and will, in view to avoid confusion, if given at the end, be transferred to the beginning of the text of the message.

XI. In the body of a message every word is charged. Stops, inverted commas, and notes of interrogation, are free.

XII. The accuracy of messages is not guaranteed, and the sender and receiver have to accept all risk arising from errors and delays.

XIII. Senders of messages are advised to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.

XIV. The accurate transmission of messages is rendered much more certain by being repeated back from each repeating Station. This repetition is charged for at half price extra, and is advised in all messages of great importance.

XV. The errors which chiefly occur are in the numerals, such as *sixteen, sixty-thirteen, thirty*, owing to the sound and first three or four letters being similar. To obviate this, it is recommended that in all financial or money messages the sum be given in two forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1000." When this is done, an error is of very rare occurrence.

* Circular Order No. 886, dated 19th November 1859.—"Under the orders of the Hon'ble the President in Council, dated 18th November 1859, peon hire is not to be charged in future for Service Messages, and no extra charge is to be made on such messages when they are sent by night."

* The accidental omission of the word *Not*, causing in many cases the total change of the intended meaning of the message, this word is always signalled, in slow time, twice over by the sender, and once back by the receiver, at each station. The same precaution is taken in signalling the words *our* and *your*.

XVI. Messages in cypher are transmitted at the ordinary charge, but must be in numbers, and these written in full, as in a cheque, or in ordinary English words of concealed meaning.

Figures are telegraphed as if written in full, as in a cheque, and charged for according to the number of words; thus, "Rupees fifteen hundred and sixty-four," count as six words.

XVII. Should a message in cypher be tendered for transmission simultaneously with a message in ordinary language, the latter will take precedence of the former.

XVIII. All messages must be in the English language.

XIX. The name of the sender must be written on the face of every message.

XX. "When a Message is delivered in an unintelligible state, a refund of the cost of portion rendered unintelligible will be made to the sender if application be made within 3 months of the date of despatch, provided the message has not been transmitted beyond the limits of India or Ceylon, and within 6 months in the case of Messages for countries beyond India as Egypt or Europe. Such refunds will be made irrespective of whether the Message has been paid for at repetition price or not, but no refund will be given for an error in an unreplicated Message arising from wrong figures being given, unless the precaution advised in XVI of these rules shall have been adopted. Refunds on account of Messages which have not reached their destination will be made subject to the above limits as respects time."

XXI. Refunds will also be made in all cases of non-delivery or unjustifiable delay of messages, whether repeated or not. "By unjustifiable delay is meant that arising from neglect in the Offices. When a message is detained by an interruption on any section of the line, and is sent on by next post to the nearest Telegraph Station, the time occupied by the post is not allowed to count as delay in the Telegraph Department."

Expresses are never started for private messages, but only for Mail News or Government despatches of great importance. But when an express is required for these purposes, advantage is taken of the opportunity to send on all private messages on hand.

XXII. Complaints respecting errors or delays or neglects in the delivery of Messages, and applications for refund should be addressed to the Director General of Telegraphs in India, Complaint Office, Calcutta; an exact copy of the Message complained of and the receipt of the despatching Office should in all cases accompany the complaints.

XXIII. Private Messages shall be despatched in the order of their receipt in the Telegraph Office. Should two or more messages be tendered simultaneously, the shortest shall have the precedence, without reference to its relative importance.

XXIV. No message or messages of more than 200 words in all can be sent at one time by any individual or firm, and no second message by the same individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.

XXV. Senders cannot choose the line, but they may send by two or three lines on the payment of double or triple price.

XXVI. Messages will be forwarded by post to places not having Telegraph Stations, but only in registered letters, the registration fee to be paid by the sender of the message.

* An exception will be made to Clause XX of the rules of the Department in cases where the signature has been omitted, and it has been afterwards impossible to make good the omission.

Messages received from passing ships are very likely to be sent without signature from ignorance of the rules of the Department by passengers and others who may, probably, be arriving in India. In all such cases the transmission of the Messages must not be withheld, but they must bear at foot a note as follows: "Received unsigned." This foot note must be entered in the fair copy of the Message sent out for delivery as a caution to the receiver.

XXVII. Messages will be received by post from Europe or elsewhere for transmission, if money be deposited before-hand at the despatching Station sufficient to pay for the transmission. Such messages should always be addressed "To the Assistant in charge of the Telegraph Office, Superintendent." This mistake often causes the letter to be sent by post to the Head Quarters of the Department. All such letters should invariably have the words "Telegraph Message for Despatch," written conspicuously outside.

XXVIII. Postmasters at places of importance not having Telegraph Stations, will be provided with copies of the Rules, and with Tables of distances and charges, and with forms on which the message should be written.

XXIX. Messages so sent by post must be prepaid by Telegraph stamps, and will be transmitted from the nearest Telegraph Station, where the stamp will be cancelled by being written across by the Assistant in Charge.

XXX. The stamped messages should be despatched marked conspicuously "Telegraph message."

XXXI. Adhesive Telegraph stamps will be procurable from the Civil Treasuries and private vendors. They should be affixed on the face of the message, so as to be inside when the message is folded up for transmission by the post. The usual postage must of course be paid in addition.

XXXII. In cases of extreme pressure of business, Assistants in charge of Offices may refuse to receive for despatch any messages beyond the number which experience shows may be cleared off within the day. The messages in such cases are not to be received and kept for despatch the following day, but must be returned so as to prevent accumulation.

XXXIII. In case of interruptions on any line, Assistants in charge of Offices have the power to refuse the receipt of messages for transmission.

XXXIV. When an interruption occurs, notice to that effect is to be posted conspicuously at the entrance of each Office, and communicated to the Press for public information.

XXXV. In every such case all persons tendering messages for places beyond the interrupted section, are to be informed of the interruption, advised not to leave the message, and acquainted that a refund will not be made in case of delay from this cause.

XXXVI. "The sender of a message may prepay the charge for a reply, which must be limited to the number of words so prepaid for."

XXXVII. Messages are sent "Bearing" from Sea Ports when received by Mail Steamers or other vessels, but no Message whether "paid" or "bearing" will be received for transmission from any vessel until her name has been made known.

"Bearing" Messages will not be delivered to the addressee till payment has been obtained.

XXXVIII. Assistants in charge of Telegraph Stations are authorized to refuse to transmit a message which may be of a decidedly objectionable character. Should the character of the message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the chief Civil Officer if at a provincial station.

XXXIX. To secure secrecy as much as possible, all persons not actually on duty in the Signal Room, whether belonging to the Telegraph Department or not, and without reference to official rank in any case, are strictly prohibited from entering the Signal Room. The only exception to this rule is for senders of messages, who may be allowed to see their messages despatched, if they attend the Office at the time of their turn for transmission.

XL. Violation of secrecy on the part of any Person in the Telegraph Department, will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the official Gazette of the incapacity of the delinquent to serve in any official capacity.

It is a violation of secrecy to mention the fact that any message has been received or despatched by any particular person or firm.

XLI. Service messages from all public functionaries must be paid for in cash prior to despatch, the rates being the same for distance and number of words as those charged to private individuals.*†

XLII. Service messages have no right of precedence, and take their turn of despatch with private messages, except in cases of pressing public emergency and importance, when priority may be claimed on special grounds.

XLIII. The sums paid by public functionaries for the despatch of messages will be recovered from Government by the sunders, in their own Departments, by contingent bills countersigned as usual.

XLIV. On certain emergent occasions of great importance, the public functionaries named below have the power of "clearing the line," that is of suspending the receipt and despatch of all other messages till the one for which the line is cleared has passed on :-

The Governor General of India.

Governor of Bombay.

Governor of Madras.

Governor of Ceylon.

Commanders-in-Chief, India, Madras, and Bombay.

Lieutenant-Governors of Bengal, N. W. Provinces, and Punjab.

Commissioners of Sindh, Oude and British Burmah, and such other Commissioners, Residents, Political Agents and Military Officers, as may receive the power from the Government of India by special order.

Director General of Telegraphs in India.

The Governors of Pondicherry and Goa shall also continue to enjoy the privilege of free transmission of Messages conceded to their Governments.—*Home Department, No. 691, 1st April 1859.*

The messages so sent are however to be paid for in cash as in ordinary cases.

XLV. No unpaid messages except those on the actual business of the Telegraph itself, as specified in the departmental Regulations, shall on any account whatever be transmitted. A violation of this rule will subject the Signaller or Assistant in Charge of the Station the message is sent from, to dismissal from the public service.

W. B. O'SHAUGHNESSY,

Sept., Etc. Telegraphs in India and Ceylon.

* The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

One exception only will be made in the rules of cash payment:—Officers in command of Troops employed in operations in the field may send their messages without payment; but this privilege does not extend to the case of Troops marching to join or to the Movable Columns while halted and with funds available for contingent expenses.

† Circular Order, No. 886, dated 19th November 1859, under the orders of the Hon'ble the President in Council, dated 18th November 1859, post hire is not to be charged in future for Service Messages, and no extra charge is to be made on such messages when they are sent by night.

CIVIL SERVICE REGULATIONS.

RULES FOR THE GRANT OF LEAVE OF ABSENCE FOR REGULATING DEDUCTIONS FROM SALARIES AND DEPUTATION ALLOWANCES, AND FOR LIMITING THE PERIOD OF SERVICE OF CIVIL SERVANTS.

Application through what channel to be submitted, and what to specify, &c.

Applications for leave of absence, excepting those for privilege leave specially provided for in the Order of 17th October 1861, No. 506, [vide note page 136] are to be forwarded by Heads of Departments in every case in original to the Civil Paymaster, or if the applicant be a Chaplain, or Military or Medical Officer in Civil employ, to the Controller of Military Finance, who will submit the application to Government with a report as to the eligibility or otherwise of the applicant to the leave solicited.—*Notification, Gazette, 14th January 1862.*—If the application be from a Military man in Civil employ for leave to Europe it has to be transmitted through the Commander-in-Chief, *Prinsep's Government.* Under this arrangement no separate letter to Government is necessary. Any opinion or recommendation of Heads of Departments should be superscribed on the application itself. On the leave being granted, it will be notified in the Fort Saint George Gazette. If the applicant be declared ineligible to the leave, or the Government decline to grant it, a copy of the order of Government will be furnished to the Head of the Department for communication to the applicant.—*Notification, Gazette, 14th January 1862.*

Applications for leave of absence should specify the particular Section of the Absentee Rules under which the indulgence is solicited, and the destination to which the applicant purposed to proceed.—*Notification, 28th March 1833.*—And all Officers holding appointments directly under the Supreme Government, to whatever Presidency they may belong, must in making application for preparatory leave, declare from what port it is their intention to embark, and whether they desire to obtain a Furlough on private affairs, or on Medical Certificate, or with a view of ultimate retirement from the Service of Government. A copy of such application will be communicated in due course to the Local Government, in order to provide against any other furlough being granted other than that contemplated. In cases, in which Medical Certificates may be produced, setting forth the urgent necessity of immediate embarkation, the Local Government shall be at liberty to use its discretion in granting permission for such embarkation. But the term, for which leave is taken, and the conditions on which it is taken, must be understood to rest ultimately with the Government of India, and shall not depend on the Local Government.—*Notification, 5th October 1855.*

In order to obtain the prescribed Furlough Certificate from the Secretary to Government in the Public Department, Civil Servants must previously submit to that authority a Certificate from the Trustees of the Civil Fund, that they will receive no allowance from that Fund during their absence; and also a Certificate from the Accountant General (who will require a Certificate from the Civil Auditor) of there being no public demands against them.—*Notification, 27th December 1836.*

Applications for permission to proceed to Europe, whether under a Furlough Regulation or otherwise, should invariably be accompanied by a Certificate from the Accountant General, that there are no public demands against the applicant.—*Notification, 3rd September 1856.*

Civil Servants applying for permission to resign the Service are invariably to submit with their applications a Certificate from the Accountant General of there being no public demands against them.—*Notification, 23d Mar. 1855.*

Application for extension of leave or return to duty while in England.

Civil Servants are to join the establishment to which they belong at the expiration of the term for which leave may have been granted, unless they shall have obtained an extension of 1½ months before the expiration of the said leave.

[Extensions of leave will not be granted by the Home Authorities except in cases of sickness certified to their satisfaction, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.]

When under any such circumstances a Civil Servant obtains an extension of leave to a given period, he must at the expiration thereof apply for and obtain permission, either to return to his duty, or to reside a further time in Europe, failing in which, he will be liable to be struck off the List of Civil Servants.

The Act of the 33d, Geo. 3d, Chap. 53, Sec. 70, as it respects Civil Servants applies only to cases of sickness, or inevitable accident or infirmity, and no Civil Servant is considered eligible to return to the service after 5 years' absence, under that enactment, who has failed to obtain agreeably to the foregoing Regulations an extension of leave under the circumstances referred to in the Act.—*Court's Disp.* 5th September 1840 and 25th April No. 31 of 1856.]

Every Covenanted or Uncovenanted Civil Servant is to forward to the Office of the Secretary of State, immediately on arrival in England, Certificates stating the exact nature of his leave, the date of the departure of the vessel in which he embarked for Europe, and whether his Absence allowance is to be drawn in that country or not, and the substantive appointment held by him.—*Despatch dated 15th March 1860, No. 17, and Notification, Gazette, 6th September 1862.*—For form, vide page 145.

When a Member of either the Covenanted or Uncovenanted Service is permitted by the Home Authorities to return to duty by a particular Vessel, it is equivalent to granting him an extension of leave until the arrival of that Vessel in India.—*Notification, 15th December 1862.*

Cancelment of leave—return to duty.

The resumption of the duties of Office at a date previous to that which leave of absence extends, virtually cancels the unexpired portion of leave and renders unnecessary special application for such leave being cancelled.

In cases where it is not intended to take advantage of leave obtained, special application for cancelling such leave is requisite and should be made to Government.—*Notification, 28th September 1847.*

Civil Servants or Military Officers in Civil employ, absent on Medical Certificate or on Private affairs for any protracted period, shall in future apply to Government and obtain permission to resume charge of their office, when they may desire to do so at any time earlier than one month prior to the termination of their leave, forwarding with their application to Government, in cases of sick leave, a certificate from a Medical Officer stating that the party has sufficiently recovered to be able to return to duty.—*Notification, 28th March 1851.*

ABSENTEE RULES, &c.

Dated 8th June 1855.

CHAPTER I.

Rules for application for leave of absence.

Section I. No leave of Absence from any Office or Station can be granted, but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. (a.) The application must be made publicly through the regular channel in the Department to which the applicant may belong. (b.)

(a.) In their Proc. of 17th October 1851. (East St. George Gazette, 18th Idem) the Governor in Council resolved to vest the Court of Sudder Adalat, the Board of Revenue, and the Chief Engineer, Public Works Department, with the power to grant privilege leave in the full extent to all officers subordinate to them under the grades noted in the margin, a previous reference however being made to Government when it is necessary to appoint an Officer to act for the Absentee when it is necessary to be submitted to the above mentioned authorities through the prescribed channel, and be settled by them after reference to the Audit Office.

Director of Public Instruction.
Inspector General of Police.
Superintendent of Marine, except to Master Attendant of Madras.
Principal Inspector, General Medical Department and Revenue Office, Madras.
Superintendent of Revenue Settlement.
Superintendent of Revenue Survey.
Inspector of Forests.
Conservator of Forests.
(b.) In regard to the course to be pursued in submitting applications for leave to Government

Section II. The official allowances of the holder of a Civil Office, quitting his station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III. No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

[All leave granted under the old rules which counted as "Service" and "Residence" or as "Service" under those rules all counts as such, notwithstanding that a portion of such leave had not expired on the date on which the new rules came into operation.]

CHAPTER II.

Rules for sick leave.

Section IV. Upon application duly made, the Government may grant Leave of Absence on Medical Certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

[Medical leave to a sanatorium within the Presidency may be extended to leave to Europe; but the Officer will not be entitled to a fresh preparatory leave for reaching the port of embarkation, having once been allowed such leave to proceed from his station to the sanatorium. The leave in such cases must reckon from the date of arrival at the sanatorium to the date of return to the port of embarkation. The 3 years' interval does not apply to leave of absence on Medical Certificate taken under the new rules.—*Government of India, 2nd October 1856, No. 4338.*]

Section V. When an application for Leave of Absence is made on the ground of ill health, it must be accompanied by a Certificate and a Statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV.; and, in case of the applicant visiting the Presidency preparatory to obtaining leave, the Certificate must be countersigned by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanatorium or other place without visiting the Presidency, the Certificate must, in the first instance, be counter-signed by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the Statement of the case for the consideration and counter-signature of the Members of the Medical Board:—

The Certificate shall be given in the following form:—

I, A. B., Surgeon at or of ——— do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to Sea, (or to such place as the Surgeon may think proper, expressing it in the Certificate.)

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in counter-signing the Surgeon's Certificate.

We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render Leave of Absence for a period of ——— absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a Statement showing sufficient reason for the extension solicited; and such Certificates must be counter-signed by the members of the Medical Board, or by the Superintending Surgeon of the Division, in which the applicant may be located, as the case may be, on perusal of the Statement. In like manner, if the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he

must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance, and the period of it, to be stated, and the Certificate to be countersigned by the Examining Physician of the East India Company if the applicant is in England, or if not in England, by the principal Medical Officer of the Colony or the Country to which the absence may have been occasioned, or some sufficient reason stated for the want of such countersignature if the Certificate is to be countersigned. The Medical Board of Superintending Surgeons will not receive a Certificate as above mentioned must either personally examine the applicant or state some sufficient reason why they, or he, have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VII. (a) The following conditions will be annexed to leaves of Absence granted to Civil Servants who may be granted a sufficient Medical Certificate to receive such leave for the recovery of their health:—

1st.—The Total period of absence, with the privilege afterwards provided, shall not (save as specially excepted in Clause 4 of this Section and in Section VIII of the Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2ndly.—The office of the absentee will be considered to be vacated. He shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section, from the day of his arrival hereat to the date of his quitting the Sanatorium; if to any place beyond the Presidency, but within the Continent of India, from the date of his leaving the Station of his own Presidency, to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the ports of his own Presidency to the date of his arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his station than the ports of his own Presidency.

3rdly.—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum, during that period. In cases in which the extension of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the salary of the absentee may not be of that amount, the full salary will be granted.

4thly.—If the leave on Medical Certificate be taken beyond Sea, Special Leave for the interval elapsing between departure from Station and the commencement of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 500 miles, or be in excess of the last mentioned distances on the condition that during this additional period, the Absentee shall be entitled to draw the same rates of allowances as are granted by the Clause of this Section. If the leave on Medical Certificate be taken in India, the Preparatory Leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatorium. [Notification, Government of India, Gazette, 14th October 1857, No. 42.]

[One month's preparatory leave is allowed in the case of an Officer proceeding from a Presidency Town.—Proceedings, Government of India, 19th June 1861, No. 135.]

5thly.—If the absentee shall apply, under Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months, at any one time, and it shall appear to the Hon'ble the Court of Directors to be absolutely necessary, after examination by their Medical Officer in England, that he should do so, the leave which may have been granted in India will, under the orders of the Hon'ble Court, be extended to the limit of two years, with permission to retain office and half salary within the limits assigned during such extension. (b) If the absentee be in India, the leave may be

(a) Civil Servants who may have had leave under the old Rules to the extent of 4 years, will nevertheless be permitted to take one additional sick leave under the provisions of this section. The 15 months with the privilege of retaining office and of counting the leave as "absence" provided that 4 years shall have expired from the date of return from the previous leave of absence.

(b) Vide para. 125, in respect of Officers on leave in Europe.

extended to the limit aforesaid, under the orders of the Government of India, or the Subordinate Governments, upon the Certificate of the Board of Medical Officers to be submitted to report on the state of the absentee's health.

6thly.—If the absentee be compelled by the state of his health, under the Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of extension under Clause 4, he will, before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum, if above ten years' standing at the time when the leave was granted, or of £250 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowances must cease until he reports his return to his Presidency.

Section VII. If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken, shall be again compelled by the same cause to apply for leave of Absence, the Government of India and the Subordinate Governments may, on special grounds, grant Leave of Absence for one further period not exceeding six months, during which the absentee may retain his office and half his salary under the limits above enjoined.

Section VIII. If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further Leave of Absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the Subordinate Government, will, however, respectively exercise a discretionary power to grant in such last-mentioned case, a sick absentee allowance, not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Section IX. A Civil Servant who has taken Sick Leave under the Rules of the 17th May 1843, will not be debarred by that circumstance, from taking such leave again under the above Rules, with the privilege of retaining Office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of the 17th May 1843.

Section X. None of the above mentioned Rules, will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under Medical Certificate for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months, his office will be vacated.

Section XI. Civil Servants who may desire to draw their allowance while absent on account of sickness under the above Rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchment. (a)

CHAPTER III.

Privilege Leave.

Section XII. The Government may grant to Civil Servants leave of absence to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the salaries and emoluments drawn by such servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule, until the completion of eleven months from the expiration of the last leave, if taken at one time; or from the date of return from any Sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. (b) Servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months, from the termination of their former leave; and if two

(a) Vide post page 141.

(b) The privilege of taking leave in instalments is confined to the one month's leave. A short leave serves to break in on the 21 or 22 months of one person's service required to qualify for 2 or 3 months' leave respectively within that leave.—Proc. of Govt. of India, 26th September 1853, No. 6363.

years elapse without enjoyment of the privilege, leave for three months may, in like manner be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted, his office will become vacant.

Civil Servants absent from their Stations under Medical certificate cannot be admitted to leave under this Rule, in continuation of their Sick leave; and if, while absent under this Rule, they be granted extended leave under Medical Certificate, they shall be considered liable to the Rules applicable to leave of absence on Medical Certificate for the whole period of their absence. (and so also in the case of Furlough on private affairs.—*Cour's Despatch, 6th February 1856, No. 11.*)

Civil servants, who have been absent on Medical Certificate during any portion of a calendar year, are not entitled to leave under this Rule during that year; nor can leave under this Rule be taken in connection with, or continuation of, leave granted under Section XIV Clause I.

[A Civil Servant must return to his duty at the expiration of his "privilege" leave to entitle him to the advantage thereof, and his allowance will not be payable till he shall have rejoined his appointment.—*Not. of Government of India, 11th July 1856; Gazette, 29th idem.*—The object of the indulgence should be kept in view and the advantage of leave with full salary should be reserved for those servants who, having been at their stations for eleven consecutive months (or longer if the leave be accumulative) require a little relaxation, and after enjoying it return to their duty.—*Cour's Despatch, 6th February 1856, No. 11.*]

Section XIII. As a general Rule, when leave is granted under Section XII, such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month, but as an exception to this Rule, it shall be discretionary with the several Local Governments, when good cause is shown for the indulgence and it is attended with no public inconvenience, to sanction leave of absence under this Rule to such parties as may not have occasion to apply for the whole at once in two instalments only, which are not to exceed in the aggregate one month within one calendar year.

[Judges who take leave during the adjournment of their Courts are not entitled to privilege leave in addition, and then, if whilst absent during the recess, they take leave on Medical Certificate or on Private Affairs, the period of such absence must form part of the leave they may obtain. Absence during the recess is thus put on the same footing with Privilege leave.—*Not. 18th August 1862.*]

Special Leave.

Section XIV, Clause 1.—The Government may, on sufficient cause being shown, grant to a Civil Servant Special leave of absence on private affairs for six months to any place in India, Europe or elsewhere, without any restriction whatever as to the places to which he may resort, provided however that the absence shall draw no more than one half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

Clause 2.—The leave granted under this Section, will be computed from the date of the absentee's quitting his station to the date of his return thereto, and if taken to Europe or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of his return to duty from a former leave. No portion of the half salary allowed to be drawn will be payable till the absentee shall have returned to his duty. (a)

Clause 3.—It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

(a) For the interval elapsing in the case of leave taken to Europe or beyond Indian limits, between departure from station to arrival at the Port of embarkation, or between return to Port and arrival at station, the Government may grant, at the same terms and conditions as the Special leave, such an additional period of leave as may be considered to be absolutely required to enable the absentee to reach the Port of embarkation, or to return from the Port of debarkation to his station.—*Gaz. of India, 22nd December 1855, No. 24, Financial.*

CHAPTER IV.

Furlough on Private Affairs. (a.)

Section XV. In the place of the period of three years (in one term) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service or into two periods, which may either be of one or two years respectively, or of eighteen months each, provided that, in every case, the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four or thirty-six months, in order that Government may make its arrangements accordingly. In case of a division, into two periods, the first Furlough must be taken after a residence of not less than seven years, and the second Furlough after a further residence in India of seven years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Section XVI. The Furlough Allowance granted during the periods mentioned in the last Section, will be at the rate of £500 per annum, and the receipt of it will not, on any ground whatever, be permitted for any longer period than three years.

Section XVII. Civil Servants who may have been compelled by sickness to quit their duty under Medical Certificate, before completing seven years' residence in India, will be entitled to receive during their Furlough on Private Affairs, taken subsequently to their completion of that period of residence, the ordinary Furlough allowance of £500 per annum for three years.

Section XVIII, Clause 1.—In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years, will count as service in India in the twenty-five years entitling to the annuity, the present qualification of twenty-two years residence being retained.

Clause 2. Absence on Medical Certificate to the extent of one year will reckon as Service and residence in India, and be so computed in addition to the three years of absence which under the Clause next preceding are allowed to be reckoned as Indian Service. All periods of short leave of Absence on Private Affairs taken under Sections XII and XIV of these Rules will also count as service and residence.

Section XIX. Military Officers employed in the Civil Department, will be subject to the Rules laid down in General Orders No. 1150, dated 17th November 1854, for the grant of leave of Absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

Rules for Joining Stations.

Section XX. There shall be allowed to Officers appointed to any new Office the period of one month, two months, or three months

NOTE.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed. Officers not joining their station within the said periods, respectively, shall forfeit their salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

[For the portion of the journey traversable by Railway, one hundred miles a day are allowed; for that by Steamer, one hundred miles a day, or the time actually occupied in the voyage when, by accident, the duration of the voyage exceeds the time calculated at the rate of one hundred miles a day.—*Not. Govt. of India 30th March 1861, No. 85.*—In addition a fortnight's leave for preparation is allowed.—*Pro. Govt. of India, 10th June 1861, No. 186.*]

Section XXI. Upon the first appointment of any Civil Servant who shall be reported qualified for Public Service by the Examiners appointed by the Government to any Civil Station, there shall be allowed for travelling expenses to the station, an

(a) Civil Servants, who have not availed themselves of their furlough, but who may from time to time have been absent on medical leave under the old rules, or out of employ within the Indian limits, will be permitted to take a furlough for 3 years with the privilege of counting that period as "Service."—*Not.*

allowance at the rate of 8 annas per mile, by the direct Post Road, according to the Polyometrical Table of the Post Office, the bill for which allowance will be passed by the Civil Auditor, after the Officer shall have joined the station; if required in advance, an order of the Government shall be necessary.

Section XXII. The salary of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding Rule, through delay in joining the Station to which they may be appointed.

Section XXIII. In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XX, regulating the time and distance for joining Station, shall be applicable, and the Officer will, for the periods alleged in that Rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

CHAPTER VI

Rules for Deputation Allowances.*

Section XXIV. The sum of Company's Rupees 33,200 per annum having been fixed under the orders of the Court of Directors, as the maximum salary of Civil Officers for the offices of Government under the sanction of Member of Council, Civil Servants who draw larger allowances than this annual sum, as a compensation for personal and temporary allowances, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited, and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position; provided however, that in the cases of Civil Servants appointed to offices of the description referred to, subsequent to 24 June 1854, the sum of Rupees 50,000 shall be held to be the maximum salary, under the Government Resolution, No. 353 of that date.

Section XXV. Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument at the rate of 30 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the excess in which the monthly salary may exceed Company's Rupees 2,000, provided however, that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore and other places where appointments are by classes, the amount of Deputation Allowances, payable at the above rates, will be calculated, not upon the salary of the individual Officer holding the substantive appointment, in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular class to which the appointment is held by.

* For the Deputation Allowance to Officers of Police and to Commissioned Officers in the General Department of Armies.—See page 143.

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

A Civil Servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to a higher salary to which he has been promoted.

Section XXVI. No Civil Servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance, according to the prescribed scale added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII. No Subordinate Officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation Allowance until after the expiration of one month, and thereafter the allowance is not to be drawn in arrears. But a Servant previously out of employment, or who may be deputed to act from a different station shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Section XXVIII. Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII

Rules for limiting the period of Service.

Section XXIX. After thirty-five years' service (a) no Civil Servant shall be appointed to any new Office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred for the decision of the Hon'ble the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII

Rules for the grant of leave of absence to Law Officers.

Section XXX. The East India Company's Law Officers may obtain Sick Leave and Short Leave on Private Affairs under the conditions prescribed in the case of Civil Servants, both as respects the period of absence and the limitation of allowances during such absence. Leave will, however, only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof. (3)

If any Law Officer shall quit his duty, save on leave under Medical Certificate, or on short leave on Private Affairs, he will be considered to have vacated his appointment.

(a) Except in special cases, the period of Service is to be taken to commence from the date of the arrival of the Servant in India.—*Addition, Gazette, 25th March 1863.*

(3) This Section has been made applicable to the Administrator General.—*Court's Despatch, No. 4 of 1855.*

CHAPTER IX

Rules for Chaplains and Assistant Chaplains.

Section XXXI. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also Privilege leave and leave for short periods on Private Affairs, and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after 20 years' service, the period of Furlough on Private Affairs, or in their case, limited to the present term of three years. The Furlough may, however, either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1856, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or Leave of absence, whether on Private Affairs or on Sick Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as service in India in the twenty years which qualify Chaplains for their retiring Pensions.

Section XXXII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowances during Sick leave to any place out of India, they shall receive salary (but at the rate not exceeding £400 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Military and Medical Officers in Civil Employ.

[These officers shall be subject in respect of "Privilege" leave and short leave on Private Affairs, to the same rules as officers holding Military and Staff appointments.—*Court's Despatch No. 40 of 1855. Gazette, 10th August 1856.*]

SECURITY AND EMPLOYMENT OF AGENTS DURING ABSENCE.

Security from Civil Servants and Military Officers holding civil appointments on leave under Medical Certificate, or on private affairs, retaining their appointments, shall not be taken. Security shall be taken in cases of Furlough or of resignation of the Service, as heretofore.—*Notification, Gazette, 29th February 1856.*

Every party who may be desirous of employing an Agent or Agents to draw his salary from the public Treasury during his absence from the Presidency, will be required to furnish such Agent or Agents with a Power of Attorney, which Power of Attorney will so long as it may require to be used upon, be lodged with the Department through which payment is made. On the presentation thereof by the Officers to the Collector of the District where they may be located, or the Sub-Treasurer if at the Presidency, he will disburse the amount to the Officers. To enable the Collector or the Sub-Treasurer, as the case may be, to discharge the Abstracts in question, the Collector of the District to which the Officers may stand permanently appointed, will forward on the 1st of each month a Bill of Exchange drawn by him on, and in favor of, the Collector, or on, and in favor of, the Sub-Treasurer, as the case may be, for the net amount of Salary due for a past month.

DEPUTATION ALLOWANCE TO POLICE & C. OFFICERS.

In every case in which the amount of Pay and allowances to be drawn for a past month, by an Officer absent on duty or on leave as above mentioned, may differ from that actually drawn from the preceding month, a copy of the Abstract which may have to be sent to the Civil Auditor on the 1st of the month, should be despatched by him previously to the Collector of the District to which he may stand permanently appointed, so as to reach him on the 1st of the month, in view to his regulating the amount of the Bill of Exchange which is to be forwarded by him on that account on the 2nd of the month, as provided for in the preceding para.—*Notification, 3d September 1856.*

DEPUTATION ALLOWANCE TO ACTING OFFICERS IN THE POLICE DEPARTMENT.

The present Rules regarding deputation allowances to Officers of Police having been found to be unsuitable, His Honor the President in Council resolves that Resolution Nos. 3284. and 206, dated September 30th, 1862, January 3rd, 1863, be rescinded.

His Honor in Council is also pleased to determine that, in accordance with the principle of the Order No. 3390, dated July 25th, 1863, in the Financial Department, there shall be one uniform rate of acting allowances for Convenanted and Unconvenanted Officers of Police, and that no acting allowances shall be granted to Officers of Police officiating for other Officers in another grade of the same class as their own.

The following Rules are accordingly promulgated for general information and guidance:—

Rule I.—An Officer of Police officiating for another Officer in the same class will not receive deputation allowance.

Rule II.—An Officer of Police officiating for another Officer of Police in a higher class than his own will draw the full salary of his own office, and an allowance at the rate of twenty per cent. on the mean between the maximum and the minimum salary of the class in which he officiates, provided his total allowances do not exceed the minimum salary of such higher class.

Rule III.—An Officer of Police officiating at the same Station for an Officer of a higher class than his own will not be entitled to any deputation allowance during the first month he may thus officiate according to the Convenanted Civil Service Rules.

Rule IV.—Any Officer holding a substantive appointment in another Department of the Government Service and officiating for an Officer of Police will draw salary and acting allowances at the rates prescribed in Rule II.

Rule V.—Any person not holding a substantive appointment in the Public Service, and officiating for an Officer of Police will receive at the rate of fifty per cent. on the mean between the maximum and the minimum salary of the class to which he is appointed.

The 7th August 1863.

The following Resolution No. 3390 of 25th July 1863, will be substituted for that bearing the same number and date which was published in the *Cuttack Gazette* dated 1st August 1863, page 2190:—

No. 3390. The 25th July 1863.

Read again the Financial Resolution No. 6G, dated the 29th August 1862, sanctioning a classification of the appointments in the General Department of Account in substitution of the arrangement introduced by Financial Resolution No. 84, dated the 13th May 1862.

RESOLUTION.—The Hon'ble the President in Council observes that, under the Financial Resolution of the 13th May 1862, Covenanted Officers who entered the General Department of Account before that date are allowed to retain their privileges, and therefore when such Covenanted Officers are appointed to act for other Covenanted Officers in the Department, they are entitled to draw deputation allowances on the same terms as those allowed to Covenanted Officers in other branches of the Service.

But this Rule cannot be held to apply to Covenanted Officers entering the Financial Department after that date, nor does it seem proper to preserve a separate Rule for calculating the acting allowances of Uncovenanted Officers in the Department, as by the Resolution abovementioned all distinction between the Covenanted and Uncovenanted Service was abolished.

In considering what would be a suitable standard to introduce in these circumstances, His Honor in Council observes that, as the acting allowance Rules of the Covenanted Service are based upon a simple consistent principle, they may with advantage be taken as the basis of the Rules which shall be applicable to all the Officers of the Financial Department other than those specially noticed in the 1st paragraph.

His Honor in Council desires accordingly that the following Rules be observed in future.

1st.—No Officer will receive any deputation allowance for officiating for another Officer in the same class as himself.

2nd.—An Officer appointed to officiate for another Officer in a higher class than his own will draw, irrespective of any saving from the salary of the appointment in which he officiates, the full salary of his own appointment, with an additional allowance at the rate of twenty per cent. on the mean between the minimum and maximum salary of the class in which he officiates, provided the total allowance to be so drawn shall not exceed the minimum salary of such higher class.

3rd.—When the Officer thus appointed to act is in the receipt of the maximum salary of his own class he will receive no additional allowance on his first appointment to act, inasmuch as the maximum salary of any class is always the same as the minimum of that immediately above it; but he will be eligible, whilst officiating, to the yearly increase of salary allowed to those permanently appointed to the higher class.

4th.—An Officer officiating at the same Station for an Officer of a higher class than his own will not be entitled to any deputation allowance during the first month he may thus officiate, according to the Covenanted Civil Service Rules.

5th.—Any person holding a substantive appointment in another Department of the Government Service, and officiating for an Officer of the Financial Department, will draw salary and acting allowances at the rates prescribed in Rule 2.

6th.—Any person not holding a substantive appointment in the Public Service, and officiating in the Financial Department, will receive at the rate of fifty per cent. on the mean between the maximum and the minimum salary of the class to which he is appointed.

Officers acting in an appointment shall receive more than one-half of the Staff salary attached thereto until he shall have acted six months in it, counting from the date of his joining the appointment. At the expiration of this period he will be allowed the full Staff salary in all cases, if it be available, but not otherwise.

2. This order applies to all cases including those of Officers officiating for Staff Officers absent on furlough under Rules 9 and 13 of Government General Order, No. 1150, dated 17th November 1854; but it is not to affect the allowances in their present appointments of those to whom, under any rule or part of heretofore in force, full Staff salary is now actually paid. —*Not. of Govt. of India, 10th August 1863, No. 3635.*

RULES RESPECTING SALARIES, &c. OF THE JUDGES OF THE HIGH COURT

Fort St. George, 25th August 1862.

Regulations by the Secretary of State in Council of India, under the provisions of 24 and 25 Victoria, Cap. 1, Section 6, respecting the salaries, furloughs, retiring pensions,

and (where necessary) expenses for equipment and voyage of the Chief Justice and Puisne Judges of the High Court of Judicature for the Presidency of Madras.

SALARIES.

The Chief Justice shall be paid a salary of Company's rupees 60,000 per annum, and each Puisne Judge a salary of Company's rupees 45,000 per annum, such salaries being payable only in India.

FURLONGHS.*

1. A furlough for a period of one year, with an allowance of £1,000, payable by quarterly payments, shall be allowed to the Chief Justice and to each Puisne Judge of the High Court, after seven years' actual service as Chief Justice or Chief Justice and Judge, or Judge of the said Court.

2. The furlough granted under these Rules to a Judge selected from the Covenanted Civil Service shall be exclusive of the furlough to which such Judge is entitled under the Rules applicable to furloughs allowed to Members of such service.

3. If a Judge of the High Court, selected from the Covenanted Civil Service, who has not taken his furlough under the Rules applicable to his branch of the service, before his appointment to the High Court shall take such furlough within one year after expiration of his furlough under these Rules, the furlough taken by him as Judge of the High Court shall be reckoned as so much time of his furlough under the Rules applicable to the Covenanted Service, and the amount drawn by him shall be adjusted, with reference to such Rules, by deductions from the allowances payable to him as a Civil Servant on furlough.

4. A Chief Justice, or Puisne Judge, during his absence on furlough, shall retain his office; but such furlough shall not be reckoned as actual service in calculating the period of service entitling the Chief Justice, or Puisne Judge, to a pension.

5. Leave may be granted by the Governor General in Council to the Chief Justice, or any Puisne Judge of the High Court who may not be a Member of the Covenanted Civil Service, under Medical Certificate, once during the term of his service, either for a period of six months on half salary, payable on return and resumption of his duties, or for a period of fifteen months on an allowance of £1,000 per annum. Such Chief Justice or Puisne Judge, during his absence shall retain his office; but if his absence shall, under any circumstances, exceed fifteen months, his office shall be vacated.

6. If any Judge of the High Court who has taken leave of absence, under the foregoing Rule, for a period of six months, shall desire to extend his absence beyond such period he shall be permitted to do so under due Medical Certificate, his allowance for the entire period of absence being calculated at the rate of £1,000 per annum.

7. Leave of absence, under Medical Certificate, to Judges of the High Court who are Members of the Covenanted Civil Service, will be regulated by the Rules "for sick leave" applicable to the Civil Service generally.

8. No more than six months of the leave granted under Medical Certificate shall be reckoned as actual service in calculating the period of service entitling the Chief Justice, or Puisne Judge to a pension.

9. Short leave on private affairs may be granted to the Judges of the High Court, under the rules applicable to Covenanted Civil Servants.

RETIRING PENSIONS.

1. A Chief Justice, after an actual service of twelve years as Judge of the High Court, of which at least six shall have been in the office of Chief Justice, shall receive a pension not exceeding £1,500 per annum.

2. A Puisne Judge on the same terms as to length of service, shall receive a pension not exceeding £1,200 per annum.

3. A Chief Justice or Puisne Judge, compelled to retire, on Medical Certificate, after seven years' actual service, shall receive a pension not exceeding one-half the amount of pension allowed for the full period of service.

4. In the event of a Judge of the High Court, selected from the Covenanted or Uncovenanted services, receiving a pension under these rules, he will not be entitled to any pension or retiring allowance under the rules applicable to Covenanted and Uncovenanted servants respectively.

* Revised Rules as published in Fort Saint George Gazette, 14th April 1863, page 610.

5. When a Judge of the High Court, selected from the Covenanted or Uncovenanted branches of the Civil Service, is permitted to retire before completing the full period of service entitling him to the pension of a Judge of that Court, he shall, on retiring, receive such a pension as he would be entitled to under the rules applicable to Covenanted and Uncovenanted servants respectively, reckoning the period during which he shall have served as Judge of a High Court towards his time for such pension.

6. Provided, however, that if a Judge of the High Court, selected from the Covenanted or Uncovenanted branches of the Civil Service, shall be compelled to retire on Medical Certificate, after seven years' actual service, he shall be allowed the option of taking his pension or retiring allowance either under these rules, or under the rules applicable to the service to which he belongs.

7. A Judge of the High Court, selected from the Covenanted Civil Service, shall be required to continue his subscriptions to the Civil Service Annuity and Provident funds.

For the purpose of defraying the expenses of equipment and voyage from England, there shall be allowed to a Chief Justice the sum of £1,000, to a Puisne Judge £800. But such allowance shall not be made to any person appointed to the office of Chief Justice or Puisne Judge, who, having been in India, may be at the time of his said appointment, in the United Kingdom, with the intention of returning to India.

The foregoing rules will not apply to the Judges who have been transferred to the High Court from the Supreme Court, who will be however at liberty to avail themselves of the privileges as to furlough, if they assent to the periods of service prescribed by the rules, to qualify for the pension of a Judge of the High Court. Nor will the rules respecting salaries affect those Judges of the late Sudder Court who are at present in receipt of higher allowances than exceed forty-five thousand per annum.

LEAVE OF ABSENCE.

All the Officers and servants of the High Court at the three Presidencies, Covenanted or Uncovenanted, who claim the privilege of being pensioned by the State, are subject to the general Leave of Absence Rules applicable to either branch of service.

The power of granting leave, under the general Regulations hereby ordered for adoption, to the Officers and servants of the Court, appointed by the Court and entitled to pension, vests in the Judges of the High Courts, subject in every case to the report of the Civil Paymaster that the applicant is entitled to leave. If the Civil Paymaster should report against the application, and the Court should take a different view from that recorded by the Civil Paymaster, a reference to the arbitration of Government is necessary.—*Proc. of Govt. of India, 6th April 1862, No. 2352.*

Despatch from the Right Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor General of India in Council.

INDIA OFFICE,
London, 25th November 1862.

TO HIS EXCELLENCY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD.—1. The Memorials from the Covenanted Civil Servants of the several Governments in India, on the subject of their retiring annuities, and of the pensions of their widows and orphans, together with your Financial Letter, dated the 7th March 1862, No. 40, the Financial Letter from Madras, dated the 8th February 1862, No. 2, the Public Letter from Bombay, dated the 19th April 1862, No. 23, and the several Minutes of Members of the respective Governments in India, in reference thereto, have been considered by me in Council.

2. It does not appear to be necessary to give a detailed reply to the observations of your Government, or to the requests contained in the several Memorials, as the result of the consideration by Her Majesty's Government of these observations and Memorials will be apparent from the decision which I have now to communicate.

3. In regard to the period of service which is, in future, to be required as a qualification for an annuity, Her Majesty's Government see no reason for altering the period of 25 years' service, and 22 years' residence (including one year's sick leave, if such has been taken, as at present); but they cannot allow any future special leave of absence from India on private affairs to count as residence.

RETIRING ANNUITIES AND PENSIONS.

4. No sufficient ground appears to have been assigned for increasing or altering the amount of the full annuity, which must therefore remain at 1,000*l.*, or of the amount of the per-centage of deduction from salaries, which will continue at four per cent. amount of subscriptions to accumulate, as at present, at six per cent. interest.

5. Her Majesty's Government are of opinion that there is ground for making some alteration in the terms on which annuities are granted, and they have decided that a Civil Servant, who has completed the prescribed period of service and residence, shall be granted by Government an annuity of 500*l.*; and that he shall have the option of taking in addition an annuity of the amount, not exceeding 400*l.*, which his accumulated subscriptions, with interest, will purchase, according to the Table now in force, or of adding to his subscriptions such a sum as will purchase an annuity of any amount which he may desire, not exceeding the full annuity of 1,000*l.* They have also decided that annuities, without limitation as to number, may be granted on application, at any time, to Covenanted Civil Servants who may have completed the prescribed periods of service and residence, and whose resignations of the service have been accepted; and that those Civil Servants who have obtained annuities since the Memorials were sent in, be admitted from this date to the benefit of the arrangement now sanctioned.

6. It must be clearly understood that, in the event of the death of a subscriber, his accumulated subscriptions will lapse, and that no refund of subscriptions can, under any circumstances, be allowed.

7. Her Majesty's Government are also disposed to make some provisions for Covenanted Civil Servants who, having devoted a proportion of their lives, and energies, and especially those years during which men qualify for a profession, to the service of Government, are deprived of the fruits of their labour by sickness, which may compel them to resign the service before they have become entitled to an annuity. In any such cases, which clearly proved by medical certificate, the following pensions may be granted:

If under 5 years' service, a grant of 500*l.*
Of 5 years' service and under 10, an annuity of 150*l.*
Of 10 years' service and under 15, an annuity of 250*l.*
Of 15 years' service and under 20, an annuity of 350*l.*
Of 20 years' service and under 25, an annuity of 450*l.*

8. Her Majesty's Government are willing to sanction the payment of all the annuities quarterly, and to the date of decease, with the same option as to payment in India or England as at present.

9. These changes will inevitably derange the calculations on which the Civil Service Annuity Funds were constituted. It is, therefore, important to consider whether any advantage could attend retaining Boards of Managers and the machinery of the Funds. Practically, all that will be required under the changes now sanctioned, will be, an account showing the amount deducted from the salary of each Civil servant, and the interest thereon; and for that object the maintenance of the Funds does not appear to be necessary.

10. Before giving final orders on this point, however, Her Majesty's Government are desirous of being furnished with your opinion as to the expediency of closing the Funds.

11. It only remains for me to convey to you the decision of Her Majesty's Government as to The Bengal Civil Fund; The Madras Civil Fund, Charity Branch; The Bombay Civil Fund, Provident Branch.

12. There appears to be no ground for making any change in the management of these Funds, which will, consequently, as heretofore, remain with the Subscribers. In regard to the assistance from the State, Her Majesty's Government have no intention of withdrawing the aid which has been hitherto granted, and they see no reason for increasing it. If the Subscribers prefer it, there would apparently be no objection to granting, in lieu of the former indirect aid, an annual sum equal to the average of the donations during the past few years, the future interest on the balance of the Funds being in that case fixed at 3 per cent., and the remittance of the sums required by the Funds in England being made at the same rate of exchange as that fixed annually for the adjustment of transactions with the British Exchequer.

13. These changes may severally be brought into immediate operation, and a copy of this Despatch will be forwarded to the Governments of Madras and Bombay respectively, for the information and guidance of those Governments.—*Published in Gazette of January 1863, page 17.*

PUBLIC OFFICERS INTERDICTED FROM PECUNIARY DEALINGS WITH NATIVES RESIDING WITHIN THEIR JURISDICTION.

With reference to the Notification dated the 25th July 1854, No. 3200, "absolutely prohibiting the Officers of Government, of whatever rank or class, from selling or being concerned in the sale of property of any amount or description to Native Princes and Chiefs, or to their relatives or Ministers, or to any Native Gentlemen of rank or opulence residing under the protection of the British Government," the Governor General in Council is pleased to notify that the Notification in question was not intended to apply in its full strictness to any but Political Officers, and Officers discharging Political as well as ordinary civil functions, whether employed directly under the Government of India, or under any of the Local Governments, and that in regard to all other Officers, the order of the 31st October 1821 is to be considered as still in force.

But His Lordship in Council is strongly impressed with a sense of the necessity for discouraging as much as possible pecuniary dealings of every description between Public Officers and Natives under the authority or residing within their jurisdiction, or in their vicinity, and the permission of Government will never be given to any transaction of the kind if it should appear to afford even a plausible ground for suspicion of improper motives on the part either of the buyer or seller.—*Nat. Gazette, 7th March 1855.*

FOUR ST. GEORGE, 6th January 1863.—The following letter from J. W. S. Wylie, Esquire, Under-Secretary to the Government of India, Financial Department, to the Officiating Civil Paymaster Punjab, Fort William, Council Chamber, the 6th December 1862, is published for general information:—

(Financial Department.)

SIR,—In reply to your letter No. 786, dated 6th ultimo, I am directed to inform you that under the circumstances stated in the Punjab Government's letter of the 1st idem, His Excellency the Governor General in Council has been pleased to direct that the present wording of the Certificate required to enable an officer to draw a travelling, or tentage allowances, whilst actually employed in tents at a distance from his station shall be changed to the effect that the officer "was absent from his station on public duty, and bona fide entitled to the tentage charged in his bill."

FOUR ST. GEORGE, 6th February 1863.—The following letter from the Secretary to the Government of India, in the Financial Department, No. 1389 G., dated the 6th ultimo, to the address of the Officiating Chief Commissioner of the Central Provinces, is re-published for the general observance of the directions contained therein:—

SIR.—Your Assistant Secretary's letter No. 1324, dated the 22nd October last, to the address of the Government of India, in the Home Department, having been transferred to this Department for disposal, I am directed to inform you in reply that His Excellency the Governor General in Council is pleased to sanction the gratuities proposed to be given to the Police Burkundazes of the Saugor and Jubbulpore Divisions, who have been discharged in consequence of the reductions recently effected in the Establishments belonging to the Central Provinces.

2. I am instructed to take the opportunity to point out that in recommending the grant of gratuities in cases like the present, the local Officers should be careful to satisfy themselves of the correctness of the rates of pay and the periods of service shown in the Statements, and to certify that they have done so at the foot of the Statements.

3. The necessity for such a Certificate and care will be obvious when it is remembered that the Civil Paymasters are not generally possessed of the means of reporting upon such cases, and that this Department has no means of readily detecting any errors in the data on which the proposals of the local Government are based.

POSSESSION OF LANDED PROPERTY IN INDIA BY THE PUBLIC SERVANTS OF THE STATE.

1. Extract from the Secretary of State's Despatch, No. 22, dated the 10th August 1861.

1.—I have had under my consideration in Council your Excellency's letters dated the 25th, 26th, and 31st October 1860, (Nos. 37, 38, and 39,) and 8th March (No. 5) 1861 on the subject of the possession of landed property in India by the Public Servants of the State.

4.—I have carefully considered in Council the entire subject, and I am now prepared on the part of Her Majesty's Government to lay down the following Rules for your future guidance. I should premise that these Rules refer only to the acquisition or possession of lands intended to be applied to agricultural purposes, and are not to be construed to include lands occupied merely by buildings for residence and their usual appurtenances.

5.—Officers of the Covenanted Civil Service are at liberty to acquire and possess lands anywhere out of the Presidency to which they are attached, but are absolutely precluded from holding lands within their own Presidency. Thus, an Officer of the Bengal Civil Service may hold lands in Madras or Bombay; but cannot be permitted to hold lands in any part of the Bengal Presidency, notwithstanding that, at the time of their acquisition, he may himself be actually employed in a different Lieutenant-Governorship from that in which the lands may happen to be situated.

6.—Regimental Military Officers may hold lands in any part of India, with the distinct understanding however, that a Military Officer possessing land will be disqualified for temporary employment in any Civil capacity in the District within which his land is situated; but Military Officers who are placed in permanent employment in the Civil administration must, like the Officers of the Covenanted Service, be prevented from holding land in the Presidency to any part of which they may be sent.

7.—No restrictions are to be placed on the possession or acquisition of lands by Uncovenanted Officers of any description, whether of European, Indo-British or Native descent, beyond those now in force.

8.—Officers of all classes (including candidates for office) must, however, be required to make a declaration of the fact of their being in possession of, or of their having acquired landed property, stating the District within which it is situated, with such other particulars as you may consider necessary, of which registers should be kept at the seat of Government of each Presidency or Lieutenant-Governorship. Although Uncovenanted Officers are not to be precluded from holding land, it may, nevertheless, be inexpedient that appointments which necessarily confer a considerable amount of power and influence on their occupants, such as those of Sadler Ameen, Deputy Collector, and Tahsildar, should be filled by persons holding landed property within their jurisdiction; and it is right that the several Governments should always have at hand the information necessary to guide their judgment in selecting individuals for such offices.

9.—It will, moreover, be incumbent on the several Local Governments to take care that no Officer who may be in possession of landed property in India or elsewhere, to whatever class of the Service he may belong, shall apply any portion of the time and attention which ought to be devoted to his public duties, whether Civil or Military to the management of that property, and that longer or more frequent leaves of absence are not to be permitted on that account.

2. Secretary of State's Despatch, No. 22, dated 30th November 1861.

With reference to the letter from your Excellency in Council, dated the 1st October last, (No. 16,) which has been considered by me in Council, I have resolved to accede to your recommendation for a modification of the terms of my Despatch of the 10th August last, (No. 22,) so far as to permit Officers of the Bengal Civil Service, attached to the Lower Provinces, to acquire and hold land in the Upper Provinces including the Panjab and Oude. Similarly, Officers attached to the Upper Provinces may be permitted to acquire and hold lands in the Lower Provinces of Bengal. It will of course be understood that such Officers possessing lands in either Division are absolutely precluded from employment under the Local Government of the Division in which their lands are situated.

MODIFIED RULES FOR EXAMINATION OF ASSISTANTS.

NOTIFICATION.—FOUR ST. GEORGE, May 26, 1854.—The following revised Rules for the examination of Assistants in the Civil Service, are herewith published for general information.

The first examination to be held under these Rules will take place in the month of December next at certain Stations hereafter to be determined, and all Assistants who may not have attained substantively the rank of Head Assistant before that time, will be required to present themselves for examination.

RULES.

I. *Half-yearly Examinations of Assistants.*—A half-yearly examination of Assistants, liable under these Rules to examination, shall be held in the months of June and December of each year, at such central Stations as may be fixed by Government.

II. *Two qualifying Standards.*—At these half-yearly examinations, there shall be two standards of qualification, according to the one or the other of which the Assistants shall be examined. An Assistant must be examined and found qualified according to the first standard before he will be authorized to hear and determine any criminal cases except those specially referred to him by the Magistrate, or before he will be vested with a distinct Police charge. An Assistant who has been found, at some previous examination, qualified according to the first standard, must be found qualified according to the second standard, before he will be considered by Government capable of holding the office of Head Assistant, and before he will be permitted to draw the increased allowance of 50 Pagodas per mensem.

III. *Effect of passing by each Standard.*—An Assistant who has passed according to the first standard of examination and who has been six months at a Station as an Assistant, will be permitted to exercise the ordinary powers vested in Magistrates by the Regulations of the Madras Code and may be vested with a distinct Police charge. An Assistant who has passed according to the second standard and who shall have been exercising the ordinary powers vested in Magistrates for at least one year, may, if the Government see fit be permitted to draw the increased allowance of 50 Pagodas per mensem although he may not have served six years.

IV. *Promotion of Assistants.*—The Government will promote to a Head Assistantship no Assistant, who shall not have been examined under these rules and found qualified according to the second standard. All Assistants will be promoted under ordinary circumstances in the order of their passing the examination now prescribed, according to the second standard of qualification.

V. *What Assistants are to be examined.*—All Assistants who may not have attained substantively, the rank of Head Assistant before the month of December next, shall be subjected to examination. All Assistants who have not passed according to the first standard of qualification fixed by the present rules, and who have been more than six months at their Stations as Assistants shall be subjected to half-yearly examination. All Assistants who have passed according to that standard but have not passed according to the second standard, and who have been more than two years at their Stations as Assistants shall be subjected to half-yearly examination. All other Assistants who have not passed according to the second standard of qualification, may be examined at any half-yearly examination, with the special permission of the Collector of their District previously obtained. Assistants examined under these rules will draw the usual travelling allowance to and from their respective Stations.

VI. *Central Examination Committee.*—The Government will constitute a Committee to be called the Central Examination Committee, by whose instructions the Local Committee shall be guided, and with whom they shall correspond on all matters connected with these half-yearly examinations. The Central Examination Committee will consist of one Judge of the Sudder Court, who shall be the President thereof, and of one Member of the Board of Revenue, both nominated by Government; also the Register of the Sudder Court, the Secretary to the Board of Revenue, and such other Members as the Government, from time to time, may appoint. A Secretary to the Committee will be nominated by Government.

VII. *Duty of the Central Examination Committee.*—It shall be the duty of the Central Examination Committee to fix on every occasion the half-yearly examination days, which shall be the same for every Local Committee Station. It shall be the duty of the same Committee to prepare before hand, for each examination, sets of questions to be put to the Assistants under examination, a sufficient number of copies of each of which sets shall be forwarded to each Local Committee, in a sealed packet, not to be opened until the moment of examination. The Central Examination Committee, from time to time, shall lay down such Rules as may appear to them best for the guidance of the Divisional Committees, in order to ensure a fair and uniform method of fixing the degree of attainment upon each point of examination which the several Assistants examined may reach.

VIII. *Divisional Examination Committees.*—At the several Stations where the examination is to be held, a Committee consisting of Public Officers, to be called the

Divisional Examination Committee, shall on each occasion be constituted by Government, and the Judge of the Station if not absent on leave, shall be a Member. The Commissioner for the Northern Circars shall whenever practicable attend the examinations held within his Division and shall be Ex-Officio President of the Divisional Examination Committee. In other cases the Government shall appoint a President of the Committee.

IX. *Duty of the Divisional Examination Committees and Reports of the Examinations.*—The examinations shall be conducted by the Divisional Examination Committee, who after due deliberation in respect of each Assistant examined, will record the result, stating their opinion as to whether the standard of qualification has been attained or not; which result in case of difference of opinion, will be determined by a majority, and shall deliver the record to the President. The President shall transmit the record to the Central Examination Committee with his own Report, wherein he shall state his agreement or disagreement with the Divisional Committee in each case. The President will be responsible for the fairness, impartiality, and proper strictness of the examination. The written answers of the Assistants, and the other papers written by them either in the Vernacular or in English, shall be forwarded with the record. The Central Examination Committee, after taking all the Reports into consideration and perusing any of the examination papers that it may seem them proper to peruse, shall report to Government the names of such Assistants as in their opinion have proved their qualifications according to one or other of the standards in force, noting especially, in the order of their merit any Assistants who, with reference to the length of their residence in India, may have passed with great distinctions.

X. *Principal object of the first Standard.*—The principal object of the first standard of examination shall be to test the proficiency, for practical purposes, of the Assistant in the Vernacular language of his District. For this purpose at least three papers which he has never seen before, taken from Official Records very much at hazard, and written by different persons in a plain running hand, must be read aloud by the Assistant correctly, and without great difficulty, and after being read aloud, their contents must be correctly explained by him in English. An English judgment or other Official paper to be furnished by the Central Committee, must be translated by him into the Vernacular, without assistance. The translation must be substantially correct in meaning, and intelligible to a Native; tolerably correct in grammar and spelling, and free from any very bad errors of idiom. He must dictate off-hand, with some fluency, the translation into the Vernacular of an English report, or other Official paper also to be furnished by the Central Committee, whereof the translation will be written down exactly as dictated. The dictated paper must in like manner be intelligible and substantially correct. He must then be tested in conversation with two or three Natives in such manner and to such extent as shall suffice to satisfy the Committee as to the degree of his power of understanding Natives of different classes and of making himself understood by them—such conversation or colloquial examination to be confined to the ordinary duties and business of a Court or Catcherry, and not to embrace abstract or peculiar subjects. An Assistant must pass successfully through every step of this branch of the examination, in order to qualify according to the first standard.

XI. *Second object of the first Standard.*—The next object of the first standard of qualification shall be to test the Assistant's general acquaintance with the leading principles of the Systems of Revenue Administration and Criminal Justice and especially with so much of the laws and Rules of Procedure as it is necessary for an Officer to know, in order to exercise properly the highest functions of an Assistant to a Collector and Magistrate. For this purpose, a set of questions on Revenue, Magisterial and Police subjects shall be furnished by the Central Committee. These questions should be so framed as not to involve points of difficulty or rare occurrence; and to show rather the possession, or the want of a general and intelligent acquaintance with the subjects of Examination and the fundamental laws applicable thereto, than of a knowledge of a string of points of detail and dates of orders, which may be soon learned for the occasion, and are generally as soon forgotten again. These questions must be all answered without book. The Assistant should also be examined generally as to his knowledge of Catcherry Accounts—both the English Accounts kept at the Hoozoor and the Native Accounts Talook and Village—of Hukummunnah of his District, and of its past revenue history as to be learnt from the records.

XII. *Third object of the first Standard.*—The next object of the first standard of Examination shall be to test the power which the Assistant may have acquired to deal with conflicting arguments and evidence, in actual cases. For this purpose two decided

cases, with the final proceeding in each withdrawn which the Assistant has never before seen, one from the Collector's and one from the Magistrate's Office, of the nature of cases coming before Assistants exercising the highest functions of an Assistant to a Collector and Magistrate, shall be given to the Assistant. The papers may be read over to him by a Native Officer; and the explanation of any difficult word or phrase may be asked for and given in the Vernacular, the circumstances being in each case as needed. The Assistant may now refer to all his books, and may take his notes as the case is read over. At the conclusion of each case he must write in English a brief but precise description upon the questions at issue, with a sufficient statement of the grounds on which it is founded.

XIII. *Fourth object of the first Standard.*—The last object of the first standard of Examination shall be to ascertain how the Assistant has been employed, and how he has done his duty at his Station. For this purpose the Collector and Magistrate under whom he has been employed shall furnish the Committee with a report upon these points. It shall be the duty of such Officers, to make over to their Assistants from time to time cases for report. The reports shall be written in English on one side of a sheet of paper; and after the case is decided, the Officer who decides it shall note on the other side of the sheet his remarks upon the report. These reports with the notes thereon, shall be submitted to the Divisional Examination Committee. Such Officers shall also require their Assistants to make English Minutes of the cases given to them for decision, which Minutes also shall be submitted to the same Committee. But these reports and Minutes need not be sent up to the Central Examination Committee. The opinion formed of them by the Divisional Committee, however, shall be entered in the record submitted to the Central Committee.

XIV. *Second Standard.*—The second standard of Examination shall be similar in its nature to the first, but more difficult in degree. In the Vernacular portion of it, the reading of a common office running hand must be tolerably read; the papers selected as tests should be of a more difficult description of office papers, the translation, dictation, and conversation should be fluent, generally correct and readily intelligible; and the Assistant should be tested in his power of explaining himself clearly, and with sufficient propriety in the Vernacular, in an argument or topic of some difficulty such as may occur in official business. In this Examination it will be necessary for the Assistant to pass in two Vernacular languages of which one shall be the language of the District in which the Assistant is stationed at the time of the Examination, and the other any one of the languages, including Hindustani prevailing in the Madras territories, which the Assistant may prefer. Provided that ordinarily and except on special grounds no Assistant shall be promoted in any District in the Vernacular of which he has not passed. The test described in this Rule shall be strictly enforced in respect of the language of the District in which the Assistant is stationed at the time of examination, but will be relaxed in respect of the second language, and in respect of any other language which an Assistant must pass before he can be promoted in any District in which it prevails. Ability to write the language will not be required but only a fair colloquial acquaintance with it on the part of the Examinee and power to translate correctly in official papers read to him; to dictate orders in the language and read ordinary papers. The questions of law and practice should be selected from the whole field of the duties of a Magistrate and Collector; but they shall be arranged in two classes, one class comprehending important and lending points, in answering which no books shall be allowed; and the other class comprehending less general and less common points, in answering which the assistance of books shall be allowed. No Guides, Digest or Summaries, however, shall be permitted to be used, the Assistant being confined to the original laws, Circular Orders, and constructions. The object of this class of questions is to test the Assistant's knowledge of where readily to find the law or practice on the less common points that arise in business. In preparing these questions, nice and difficult points should be avoided; the object being not to evoke subtlety or ingenuity, but only to ascertain whether the acquisitions and capacity of the person examined are adequate to enable him to perform fully the important functions of an Indian Magistrate and Collector, or not. The trial cases should be selected from those possessing enough of complexity to test the Assistant's ability to master all ordinary difficulties and especially to test his power of minute attention to and just appreciation of evidence.

XV. *Object of the second Standard.*—It shall be the object to make this second standard such that a man who has passed a College examination, being of ordinary understanding and capability, who duly applies himself with proper diligence to his business, and makes it his daily object to familiarize himself with the language of the Country, may pass it after two or three years of Mofussil experience.

EXAMINATION RULES.

I.—GENERAL TEST.

NOTIFICATION.—FORT ST. GEORGE, 26th April 1861.—His Excellency the Governor in Council deeming it expedient that the regulations now in force for testing the qualifications of candidates for employment in the Uncovenanted Civil Service of this Presidency should be so far altered as to allow of persons who have been admitted into the public service, on the ground of their having passed an elementary examination in those branches of knowledge which usually form the basis of a general education, being promoted without passing any further literary test; and that the University examinations should be more closely and more obviously connected with those prescribed for the public service; and also that more effective provision should be made for testing the professional qualifications of candidates for employment in particular offices or departments,—directs that the following regulations shall be substituted for those contained in the Notification dated the 4th March 1858.

I. No person (not being a graduate or a matriculated student of the University of Madras, or a passed candidate according to one or other of the tests laid down in the above Notification,) who had not been employed in the public service on or before the 1st January 1860, and has not been continuously employed ever since,* shall be appointed to any situation, the salary of which may exceed Rs. 25, without having passed a satisfactory examination in the following subjects:—

1. *Hand-writing*, including the ability to copy rapidly and in a good clear hand a manuscript or Lithographed paper.
2. *Orthography*, to include writing from dictation.
3. *Composition and Grammar*, including ability to write a simple letter in good grammatical language; to correct a passage written in an ungrammatical style; and to answer questions on grammar.
4. *Arithmetic*, the first four rules, simple and compound, with ability to apply the rules in practical cases.
5. *Geography*, including the elements of general geography and a somewhat more accurate knowledge of the geography of India.
6. *History*, including a knowledge of the leading facts of the history of India.

II. For the purposes of these examinations, the Uncovenanted Civil Service shall be divided into three branches, English, Vernacular, and Anglo-

* For exception to this rule, see page 157.

Vernacular, the first of which shall include all appointments, the duties of which are conducted entirely in the English language; the second, all appointments, the duties of which are conducted entirely in the Vernacular languages; and the third, all appointments requiring a knowledge both of English and of a Vernacular language.

III. Candidates for employment in the English branch shall be required to execute the test in hand-writing, orthography and composition in the English language; and candidates for employment in the Vernacular branch shall be required to execute the same test in the Vernacular language of the District in which they seek employment.

IV. It shall be optional with candidates to perform the test in arithmetic, geography and history, either in English or in a Vernacular language, at their discretion.

V. Candidates for appointments in the Anglo-Vernacular branch must pass the test in hand-writing, orthography and composition, both in English and in the Vernacular language of the District in which they seek employment. They may pass these tests either at the same examination, or at two different examinations, as they may think proper.

VI. The foregoing test shall not apply to persons who have passed the matriculation examination of the Madras University, except that it shall be necessary for such persons, if candidates for employment either in the Vernacular or in the Anglo-Vernacular branch of the service, and if the second language in which they have passed the University examination be not the Vernacular of the district in which they seek employment, to pass in such language the test laid down in Rule I.

VII. The examinations shall be held annually, both at Madras and in the Provinces, at the same time and place as the University Matriculation examinations, and in the lists of passed candidates, which shall not be published until after the close of the University Degree examinations, the candidates shall be ranked in the following classes:—

- 1st. Graduates of the University of Madras in the Faculty of Arts.
- 2nd. Matriculated students of the University of Madras.
- 3rd. Passed candidates examined according to the service test.

VIII. The candidates entered in each class shall be ranked in the order of proficiency in a register prepared in the annexed form (Appendix A*)

IX. In order that the fitness of candidates for particular situations, demanding special qualifications, may be adequately tested, the several controlling Boards and heads of departments shall, from time to time, with the sanction of Government, and after communicating with the officer appointed to direct the Uncovenanted Civil Service examinations, prescribe such special tests as they may deem requisite for particular offices or classes of offices in their respective departments; and persons desiring to pass such tests, shall be examined at the periodical examinations provided for in the preceding rules.

X. At the close of the said examination, a separate register of candidates passed according to a special test, shall be published.

XI. The examinations provided for in the foregoing rules shall be conducted by means of printed papers. They shall be open to all comers, whose age may exceed 18 years, on presenting an application prepared in the prescribed form and paying a fee of Rs. 3-8; provided that candidates who may have previously passed the University Matriculation examination or the general service test, shall not be required to pay a further fee in order to be admitted either to the examination in a second language or to the special test examination.

* Not printed in this Almanac, as not necessary for general information. —Ed.

XII. The general direction of the system of examination provided for in these rules shall be entrusted to an officer, who shall be styled Commissioner for the Uncovenanted Civil Service Examinations. It will be his duty to appoint examiners, to nominate officers to superintend the examinations in the Provinces, and to determine on the reports of the examiners what candidate shall be registered as eligible for employment in the public service, or for particular offices and departments. The functions of the examiners will be confined to preparing the questions under the instructions of the Commissioners and examining and reporting on the answers.

XIII. It is to be distinctly understood that the Government do not undertake to provide appointments for all persons who may pass the prescribed examinations under these rules. Appointments will, as before, be regulated by the requirements of the public service, and will be made by the same authorities as heretofore. It is likewise to be understood that it will still be before, be open to Government and, with their sanction, to the controlling Courts and Boards, whenever they may see necessary to prescribe the period of service which must be passed in one grade of appointment before promotion to a higher grade altogether irrespective of these rules.

Certain classes admissible without Examination.

NOTIFICATION.—FORT ST. GEORGE, May 6, 1859.—The following Proceedings of the Madras Government, in the Public Department, dated 2d May 1859, No. 680, are published for general information.

The—enquires whether the three undermentioned classes of public servants are required to pass the Uncovenanted Civil Service examination before they can be re-employed in the service of Government.

- I. Persons not now in the service, but who were so formerly, resigned their appointments, and now seek re-employment.
 - II. Persons who have lost their posts from the reduction of establishments.
 - III. Persons who have been dismissed from the service, but whose re-employment has, on appeal, been either sanctioned or ordered by the Board or Government.
2. The Government reply that persons of the first of the above classes are not eligible to re-employment, unless they pass the examination.
 3. In respect to parties of the second class, no general rule can be laid down. Such cases should be referred by heads of offices, from time to time for the orders of Government as they occur. NOTIFICATION, August 31, 1859.—The following Proceedings of the Madras Government in the Revenue Department, dated 20th August 1859, No. 1123, is published for the information and guidance of subordinate officers.

In their order of 13th March 1848, No. 268, Revenue Department, the Government directed that the employment of Volunteers in the public offices at the Presidency should be restricted to the narrowest possible limits, and the Court of Sudder Udalt have recently, in their Circular dated 11th June 1859, prohibited the employment of such persons in the Courts.

2. The Honorable the Governor in Council now resolves to extend the rule of March 1848 to the Collectors' offices also, if the aid of "Volunteers" cannot be altogether dispensed with there, as has been done in the Judicial department. There cannot be the same need of such unpaid assistants now that there was some years ago, since the Collectorate Presses have so much reduced the copying work in Collectors' offices.

3. Collectors will be instructed very strictly to limit the number of Volunteers employed either in their own offices or in those of their subordinates. None should be allowed but such as are registered after enquiry as to qualification and character; and none should hereafter be so registered who have not passed the Uncovenanted Service Examination.

4. Volunteers admitted into the offices at the Presidency also will be so only in accordance with the preceding rule.

By order of the Honorable the Governor in Council.

6. Applications for leave on Medical Certificate must be accompanied by a statement from the Medical man by whom the applicant has been attended—distinctly stating, from personal observation, the nature of the disease, its symptoms, causes, and duration, so far as the knowledge of the Medical Officer extends, and by a Certificate from the Chief Medical Officer of the Station or District; or, if at a Presidency Town, from a Presidency or other Official Surgeon, certifying, after careful personal investigation,

In cases of leave beyond sea, the Certificate must be also submitted, with the statement of the case, for the countersignature of the Principal Inspector-General of the Medical Department.

7. An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such Certificate must be countersigned by the Principal Inspector-General of the Medical Department, or by the Superintending Surgeon of the Division in which the applicant may be residing. Payments of Absentee Allowances.

22. Officers absent on privilege leave cannot draw pay until their return to duty.

23. Officers proceeding to England on furlough, or on private affairs, or on Medical Certificate, must obtain Certificates from the Civil Paymaster—in the Form given below—for submission to the India Office on their arrival in London:—

Name, Service and Designation of the party obtaining leave.	Salary of Substantive Office.	Nature and period of the leave.	Date of intended departure from Calcutta or other Port.	Rate of allowance to be drawn in England or not.	Days from which the first payment is to commence.
				In England.	
				In Calcutta.	

24. But if they desire to draw their allowances through their Agents in India, the latter must execute a guarantee to refund over-payments. When Officers remain in India, and draw their allowances themselves, and attach to their Bills the Certificates attested by a Deputy Magistrate or a Covenanted District Officer, they will not be required to furnish any security.

DEPUTATION ALLOWANCE.

(under Rules of 28th February 1856, No. 340.)

Section XIV. A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument, will be subject to deduction at the same rate; but no additional expense is on any account to be incurred by the absence of any officer on leave.

[When Covenanted officers, Civil or Military, officiate for Uncovenanted officers, and when Uncovenanted officers act for Covenanted officers, Civil or Military, the deputation allowances in such cases will be regulated according to the principle laid down in Chapter VI, Sections 25, 26, and 27* of the Covenanted Civil Absentee Rules, it being understood, however, that Section 27 shall not apply to Ministerial officers acting for Covenanted officers, who

CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

Section XXV. Deputation allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereafter laid down:—

To Civil servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation allowance being in addition to the subsistence allowance of their respective ranks.

To Civil servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided, however, that no lower rate of Deputation allowance shall be given than Rupees 200 per mensem.

The Deputation allowance shall in all cases be in addition to the salary of the substantive appointment held by the officer on Deputation.

The above rates are granted provisionally, subject to future revision.

are entitled to acting allowance from the date they commence to officiate, and not after the expiration of one month, as in the case of other Uncovenanted officers of superior grade.

When an officer of the Uncovenanted Service acts for another of the same service, or when a Military officer acts for another Military officer, he shall be governed by the rules of the respective services to which he belongs.—*Notification of Government of India, 9th May 1859, No. 638, Fort Saint George Gazette, 27th idem, page 1074.*

[When an officer officiates in another appointment continuing at the same time to discharge the duties of his own post, he is permitted to draw the full salary of his substantive and a moiety of the acting appointment.—*Resolution of Government of India, 16th March 1860, Gazette, 17th April 1860, page 843.*]

[The deductions are invariably to be made in accordance with these rules from the salaries of all absentees, whether they are in receipts of 100 Rupees or less, except when special directions are issued by Heads of Offices to make larger deductions which may be necessary in cases of officers whose duties cannot be otherwise provided for without extra expense to Government.—*Proceedings of Government of India, 9th November 1857, No. 4696, and Proceedings of Madras Government, 30th idem, No. 764.*]

Heads of Offices are required to be guided by the spirit of the rules above prescribed in granting leave of absence to servants, whose salaries are less than 100 Rupees a month.—*Notification of Government of India, 6th February 1857, No. 11, Gazette, 20th idem, page 342.*

In the Punjab, Nagpore and other places, where appointments are by classes, the amount of Deputation allowances payable at the above rates, will be calculated, not upon the salary of the individual officer holding the substantive appointment, in which the officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular classes to which the appointment may belong.

A Civil servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the officer to be relieved, subject to the prescribed deductions.

A Civil servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation allowance on the reduced salary.

An officer officiating in more than one appointment will be entitled to Deputation allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation allowance in addition to the higher salary to which he has been promoted.

Section XXVI. No Civil servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation allowance, according to the prescribed scale, added to the permanent emoluments of the officiating servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any officer deputed for special reasons to act in an office of inferior emolument to his own. In case where an officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no deputation allowance, unless the emoluments of the office in which he is deputed to act, exceed the united emoluments of his permanent appointments, and in that case the Deputation allowance shall be limited to this difference.

Section XXVII. No subordinate officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation allowance until after the expiration of one month, and then the allowance is not to be drawn in arrears. But a servant previously out of employment or who may be deputed to act from a different station, shall be entitled to Deputation allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

The following Form shall be observed by the Superintending Surgeon and the Principal Inspector General of the Medical Department in countersigning the Certificate:—

I do hereby certify that, according to the best of my professional judgment, after careful consideration of his case, I believe the state of health of E. F. to be such as to render leave of absence, for a period of absolutely necessary (or highly desirable) for his recovery.

Dismissal of Uncovenanted Servants.

Para. 1. In the Resolution of the Most Noble the Governor General in Council forwarded with Mr. Under Secretary Couper's Letter of the 24th February last, the Local Governments are directed "to issue the necessary orders for the establishment of a rule to prevent the arbitrary dismissal of uncovenanted servants, based on the suggestions of the Honorable Council."

The Right Honorable the Governor in Council considers a rule of this nature highly desirable—for so long as the Uncovenanted servant can be dismissed without full enquiry, and proof of misconduct, at the will of his superior, his tenure of office is so uncertain that it leads almost necessarily to the habit of looking at office as temporary, and the temptation therefore is to make the most of it whilst it is held.

2. This power of arbitrary dismissal also confirms in the whole body of the Native servants the habit of servile dependence on a superior, which strikes at the root of all independence and manliness of character.

3. The Governor in Council resolves, therefore, in compliance with the orders of the Government of India, to lay down for the guidance of the Heads of all Offices in the Revenue, Judicial, Military and Public branches of the Service, the following general principles by which the dismissal of Uncovenanted servants should in future be regulated.

4. Persons appointed to permanent situations in any Department, shall not be dismissed, but for fraud and dishonesty—continued and wilful negligence—offences involving moral disgrace—and proved incompetency.

5. As under the present rules for the Revenue and Judicial Departments, fines exceeding 10 Rupees cannot be inflicted without the sanction of the Board of Revenue and the Court of Sudder Adawlut respectively, it is simply consistent to provide the same control over the dismissals of persons receiving upwards of 10 Rupees—but it will be sufficient to require returns to be made of such dismissals, specifying the cause of dismissals as falling within one or other of the Heads in the above category, and to provide that no dismissal shall be final until the expiration of three months from the date on which the return shall be transmitted, giving the party a right of appeal at any time within that period. It should be understood that dismissal not appealed from, nor objected to by the Controlling Board upon their own review of the returns, are to be taken as confirmed.

6. The rule should be more definite than it is in the Judicial Department as to what servants may be dismissed without the previous consent of the controlling authority. In the Revenue Department, Tahsildars cannot be dismissed without previous sanction—and this rule ought to be extended to some other responsible situations—such as Talook Sheristadars, Peishcar, Hoosoor Head Gomastah and the like. A similar rule should be applied to protect Officers of the same grades in the Judicial Department.

7. The Governor in Council considers that just and proper that great protection should be given to old servants, and with this view he directs that the previous sanction of the controlling authority should be indispensable for the dismissal of any servant of 15 years standing receiving a certain salary say 25 Rupees a month—but the amount will be determined on the report or according to the opinion of the Court of Sudder Adawlut and Board of Revenue, who will confer together and report on this point.

8. In every case the specific grounds upon which it is proposed to dismiss any servant should be reduced to writing and furnished to him, and the answer or defence or explanation of the party taken in writing, and the final decision of the superior recorded in writing. It will not be absolutely necessary in every head of charge to be formally proved by evidence, but where a specific fraudulent act is charged, of course it should be so proved in the presence of the party accused and subject to his cross examination, and so with other specific acts susceptible of proof by the evidence of witnesses upon which accusations within the category are built. But the charges will often be matters of inference from circumstances not capable of formal proof but not less leading to a moral conviction. The rule therefore on this head ought not to be rigorous.

9. As connected with this subject, the Governor in Council takes the opportunity of declaring the practice of Officers introducing their own dependents or followers from other Districts into high and responsible trust and them in a new office, thus superseding the old servants of the office, to be very objectionable—and he accordingly resolves that this source of arbitrary removal be at once checked. With regard to the highest offices in the Revenue Department, they are subject to the confirmation of the Board of Revenue, and it will be the duty of the Board to prevent the appointment of a follower of the Collector without good and sufficient reason being assigned, contrary to the declaration of Government on the subject. The appointment of Deputy Sheristadars should also be made subject to the confirmation of the Board—but it will be sufficient when an Officer of that grade is appointed that the appointment should be reported to the Board with a statement of his previous services, that the Board may interfere if the appointment shall appear objectionable on the ground of the declaration of Government.

10. This course should also be followed in regard to the appointment of the Sheristadars and other principal Ministerial Officers of the Judicial Courts.

11. With regard to offices which are subject to no controlling authority the Government will directly exercise the same measure of control as is proposed to be exercised by the Sudder Court and the Board of Revenue respectively in regard to the Heads of Offices subordinate to them.

12. The Court of Sudder Adawlut and the Board of Revenue as well as other controlling authorities will accordingly prepare and submit subsidiary rules for giving effect to the foregoing views and orders of Government.

13. The Government of India require the transmission to them of a half-yearly list of all dismissals (with the cause briefly set forth) of Uncovenanted servants holding office with a salary above 10 Rupees per mensem. To enable this Government therefore implicitly to obey those orders, Heads of all offices in the Revenue, Judicial, Military and Public branches of the Service must consider it their very special duty to furnish the Government regularly with the required half-yearly Returns—and those officers who have hitherto neglected to obey the orders of this Government on the subject, dated 18th November 1851, No. 1064, will immediately submit their Returns for the entire year of 1853. With these Returns and those already received for that year, a General Return will be prepared in this office to be laid before the Government of India.—*Ex. Min. of Cons., 5th May 1854, Public Department, No. 421.*

Pension Rules for Uncovenanted Servants other than Educational Officers, Law Officers, and Judges, receiving more than Rupees 10 (₹) a month, and belonging to Classes eligible to Pension under the Rules of Government.

Published in Fort St. George's Gazette Supplement, 28th June 1863.

Applications for pension must be submitted in a letter to Government by the Head of the Office or Department in which the applicant may be employed, who shall certify that the character, conduct, and past service of the applicant are such as to entitle him to the favorable consideration of Government.

2. Every application shall be accompanied by a Register prepared according to Form A, in the Appendix; (and by an accurate statement of all the leaves other than Privilege and Preparatory leaves obtained by the applicant during the whole period of his service.—*Government of India Notification, 25th August 1863. Gazette, 28th September, p. 540.*) In cases of other than a Good Service Pension every application shall be accompanied by a Medical Certificate, stating the applicant's incapacity for further Service, with the cause thereof, and that it has not been induced by irregular or intemperate habits.

3. Applicants for a Superannuation Allowance must be examined by the Principal Inspector General of the Medical Department, if serving at the Presidency, or by a Military Invaliding Committee, if serving elsewhere within a moderate distance (b) of a Station at which a Military Invaliding Committee is periodically assembled. It is optional, however, with the Local Government to accept the Certificate of a single Medical Officer, or to convene a Special Invaliding Committee at a convenient Civil Station, if the applicant be serving at an inconvenient distance from a Station where a Military Invaliding Committee can be assembled.

4. Good Service and Superannuation Allowances on retirement, sanctioned under these Rules by the Local Governments, will be reported to the Government of India in Quarterly Returns in the Form given in Appendix B.

ALLOWANCES ON RETIREMENT.

5. On production by an applicant of such Medical Certificates as shall satisfy the Government, under which he may be serving, of his incapacity to serve longer in India, he will be allowed—

I. Under fifteen years' service—a gratuity not exceeding twelve months' salary; (c)

II. After fifteen years' service—one-third of his average salary, (and of his personal allowance, if any,) during the previous five years: Provided, that in no case shall a pension be granted exceeding the sum of 3,000 Rs. per annum, whatever the amount of salary, nor of 2,000 Rs. per annum, if the salary shall not exceed 12,000 Rs. per annum.

III. After twenty-five years' service, one-half of his average salary, (and of his personal allowance, if any,) during the previous five years: Provided, however, that in no case shall a pension be granted exceeding 5,000 Rs. per annum, whatever the amount of salary; nor exceeding 4,000 Rs. per annum, if the salary shall not exceed 12,000 Rs. per annum.

(a) When salary is drawn in Silver Rupees, they should be converted to Rupees (Government) and the minimum of 10 preserved.—*Notification of Government of India, 17th July 1863, Gazette, 26th Idem, p. 165.*

(b) I.e. within 50 miles of such station. The certificate of a single Medical Officer will be accepted only in cases where there is no station containing two Medical Officers within 50 miles of the place where the applicant for pension is serving.—*Notification, Gazette, 14th August 1863, No. 265.*

(c) To persons belonging to grades which do not qualify for pension, the old gratuity rules are still applicable. For these Rules, see page 176.

6. After thirty years' service or upwards a pension may be granted, without production of Medical Certificate, of the same amount and subject to the same limitation as that sanctioned for twenty-five years' service on Medical Certificate. This pension—as the reward of faithful, efficient discharge of duty for thirty years—is termed a Good Service Pension.

7. Pensions of the full amount authorized in paragraphs 5 and 6 are to be granted only as the reward of approved service. In any case in which an Uncovenanted Servant, without having incurred the penalty of removal from Government employ, shall, nevertheless, in the opinion of the Government under which he has been serving not be entitled to the full amount of pension, the Local Government will make such a reduction in the amount of pension as it shall consider just.

8. The foregoing rates of pension and gratuity are applicable also, without the production of a Medical Certificate of unfitness for service, to Officers discharged on reduction of Establishment.

SERVICE TOWARDS PENSION.

9. Dismissal for misconduct entails forfeiture of the benefit of past service.

10. Service as a substitute does not count towards pension.

11. Periods of service before the age of 22, or of absence on other than privilege leave and preparatory leave, shall not count towards pension.

12. The whole of the service, in virtue of which pension is claimed, must have been passed in an eligible grade and on a permanent Establishment; but claims barred by this Rule will be specially considered if the promotion from an ineligible grade was bestowed as a reward for meritorious service or for good conduct.

13. The period of service must be continuous; but in case of the abolition of the office held by an Officer, and his being subsequently employed by Government, his first period of service is to be taken into account.

Gratuities.

14. When an Officer is discharged with a gratuity under these Rules on reduction of Establishment, the gratuity will not be given to him in one sum, but in monthly instalments of a month's pay until the full amount is exhausted. Should he be re-employed before or after the period for which gratuity is allowed, he will have the option of refunding the gratuity and recovering his former service, or of forfeiting that service by retaining the gratuity. In the latter case, any balance of gratuity remaining undrawn at the date of his re-employment may be paid to him.

[An accurate statement of all the leave other than privilege and preparatory leaves obtained by the applicant during the whole period of his service, should be submitted by the Head of the Department with his application.—*Proceedings of Government of India, 26th August 1863. Gazette, 22nd September, page 540.*]

[In recommending the grant of gratuities in cases of Police Burkundazes discharged in consequence of reductions of establishments, the local Officers should be careful to satisfy themselves of the correctness of the rates of pay and the periods of service shown in the Statements, and to certify that they have done so at the foot of the Statements.—*Not. Fort St. George Gazette, 6th February 1863, page 201.*]

[The following Rules are applicable to persons belonging to grades which do not qualify for pension.—Pro. of Mad. Govt., 28th Sept. 1863, Fin. Railway Dept., No. 497.]

[An individual who has served less than 5 years has no claims to gratuity. A gratuity of three months' pay is allowed to one who has served 5 and less than 10 years, 4 months' pay for one who has served 10 and less than 15 years, 5 months' pay for one who has served 15 and less than 20 years, and 6 months' pay for one who has served 20 and upwards.—Government of India Not., 6th June 1862, No. 3,991.]

[The Government of India have ruled, 30th September 1858, No. 2183, that servants on 10 Rupees a month and under should receive gratuities in about the same proportion as has been provided for persons on salaries in excess* of 10 Rupees and less than 25 Rupees a month, that is, that the gratuities shall be calculated at 5 months' pay.]

[For the future, when an Uncovenanted servant is thrown out of employ by the abolition of his appointment, his claim to gratuity shall at once be considered, and decided on; but instead of receiving in one sum the whole gratuity which may be sanctioned, he shall continue after his discharge to draw his salary from month to month until the amount of the gratuity be exhausted. If he should, in the meantime, be re-admitted to the Government service, he may be permitted either to draw the unexhausted balance of the gratuity on the understanding that his previous service will not be allowed to count towards pension, or to refund by convenient instalments the amount already paid to him, and thus to recover the privilege of reckoning his service.—Gazette, 3d October 1862, page 503.]

Payment of Pensions.

15. Payment of pension will commence from the date on which the applicant ceases to be borne on the Establishment, or from that of his application, whichever may be the later date.

16. No pension shall be payable in arrear, for a period exceeding six months, without the express sanction of the Government, obtained through the Civil Pay-Master, unless the cause of the suspension of payment shall have been the neglect, order, or act of some public Officer and beyond the control of the Pensioner, when the Civil Pay-Master, on a reference being made to him, shall exercise his discretion in passing arrears for payment or submit a representation of the case for the information and orders of Government, as he shall consider proper.

17. An Officer shall, on retirement, have the option of drawing his pension either in India or from the Home Treasury. After exercising his option on retirement, he may at a subsequent period, change the place of payment from England to India, or vice versa. This change can, however, be allowed but once. The payments in England will be made at the rate of exchange which is annually fixed in communication with the Lords of the Treasury for the adjustment of transactions between the British and Indian Exchequers.

At these hours the pions quit the office with the packets and are conveyed in Accelerators into the more distant parts of the city. On Sundays there is only one delivery, viz. at 11 A. M.—To payers of a fee of Rs. 12 per annum a window ticket is furnished for delivery at the Post Office of all letters, &c. arriving by the overland mails, &c. to their address.

In the Provinces the hours of delivery at each station depend on the time of the arrival of the mails there. In commercial towns should an important mail arrive after 6 P. M., it may be opened and letters delivered to persons who may send for them.

INLAND POSTAGE.—(1) Letters. The postage on letters prepaid is disbursed by stamps which are recommended to be attached at the upper right hand corner of the letter on the side on which the address is written. The rates of postage are, for letters

not exceeding in weight $\frac{1}{2}$ tolah, half anna; $\frac{1}{4}$ tolah, one anna; 1 tolah, two annas; 1 $\frac{1}{2}$ tolahs, three annas; 2 tolahs, four annas; and for every tolah in weight above two tolahs, two additional annas. Every fraction of a tolah above two is charged as an additional tolah. On letters sent bearing double postage is payable; and on those underpaid a charge is made equal to twice the difference between the value of the stamp put on and the regulated amount of postage payable. Letters are registered on the payment of a fee of 4 annas in stamps, and a receipt for them is furnished. No letter exceeding 12 tolahs in weight can be transmitted by the letter post on a line of road where there is a Banghy dāk, nor can a letter of less weight than 12 tolahs be sent as a Banghy parcel, on a line where the Banghy and Letter Mails are conveyed in the same carriage. Letters posted for delivery through the *Mysore Anchay*, i. e. the separate Post Office of the Mysore Government, must be prepaid; if not they will be returned to the senders through the Dead Letter Office, except in the case of redirected letters and unpaid imported letters. Letters, &c., damaged or bearing the appearance of having been opened and reclosed, or otherwise improperly dealt with, will not be received for transmission unless the writer or sender thereof attest with his full signature that they were posted in that state. Letters cannot be recalled except with permission of Government. Those posted for despatch to any place to which a post communication has not been established by Government, must be prepaid according to the above rates: if they be not they will be dealt with as unclaimed letters. Letters on private affairs addressed to Government must be prepaid, and those having stamps, but obliterated, will be treated as unpaid. Forward or redirected letters are charged with a single rate of postage in addition to that paid, or due on them. The postage on letters, &c., rejected unopened by the addressee, if unpaid, is recoverable from the sender. Unclaimed letters, packets and parcels, i. e. those which for any reason cannot be delivered to the addressee, are returned through the Dead Letter Office; but if the senders cannot be traced and they remain unclaimed for a year, they are destroyed, and the valuables, &c., found in them are made over to Government.

(2) *Newspapers, &c.* The postage on Newspapers, Pamphlets or other printed or engraved papers and proof sheets put up in short covers, each by itself, and conveyed by the letter post packet, is, for every packet not exceeding in weight 6 tolahs one anna, and for every additional 6 tolahs or fractions thereof one anna more. The packet must be prepaid in full by stamps. The name and address of the person to whom the parcel is forwarded and the name and address of the sender are alone to be written or printed on it. If there be any other words or marks on it or any thing enclosed therein, the packet will be treated as a letter. Newspapers, &c., may be recalled. A packet of newspapers cannot be sent as a Banghy parcel on lines where there are both Letter and Banghy mails, nor at Book Post rates unless prepaid.

Prepayment is compulsory on all newspapers, books and parcels posted for delivery through the *Mysore Government* Post Office, except in the case of (1) redirected parcels, &c., charged with forward bearing postage, and (2) unpaid imported papers, &c.

(3) *Banghy Postage* is charged according to the following scale on parcels sent by the Banghy dāk, provided "several letters" are not enclosed in them. The rate is the same whether the parcel be prepaid or not. If posted for delivery through *Mysore Government* Post Office prepayment is compulsory, except as described in the preceding para.

Each Banghy parcel must not exceed 3 feet in length or 1 foot in breadth and depth, or 600 tolahs in weight. The Officer in charge of the Post Office has discretionary power to receive or not a parcel exceeding this weight for transmission on a line where there are no foot-runners, but no parcel exceeding 2,000 tolahs in weight can be transmitted under any circumstances whatever. It must be securely packed in cloth, wax-cloth or tin, and bear distinct impression of some device fixed at intervals not exceeding 3 inches along the line of sawing. No parcel will be forwarded to Ceylon exceeding 3 lbs. in weight or to other places to which a post communication has not been established by Government unless Ship and Inland Banghy postage have been prepaid in full. A Custom House pass must accompany parcels addressed to any Foreign Port. Banghy parcels and Book post articles cannot be transmitted by private steamers and sailing vessels. They may be sent as goods through the Custom House or otherwise as the sender wishes.

Where there is no Banghy dāk established on any line of road, parcels, certified, under the full signature and address of the sender, above 12 tolahs in weight but not exceeding 40 tolahs, and not containing any letters or other written communication, Newspaper, or other printed or engraved paper, will be received and transmitted by the Letter Post at Banghy rates.

(4) *Book Post.*—Packets, made up in wax-cloth and open at both ends, consisting of Books, Publications or works of Literature or Art, either printed or in manuscript, Newspapers, &c., may be forwarded, if prepaid, by Book-Post, i. e. Banghy dāk, at the rate of one anna for every 20 tolahs, but they must not exceed 120 tolahs in weight. Books are charged as if posted afresh when re-directed. A fee of 4 annas is charged when a book is registered. When the packets are within 12 tolahs in weight they are invariably sent with the Letter Mails. If therefore it is desired to secure the despatch of the packet, "per Book-Post" should not be superscribed thereon.

SHIP POSTAGE.—(1) Letters forwarded and received by private sailing vessels are subject, in addition to the ordinary inland postage when transmitted from or to the interior, to a charge of one anna without reference to weight. Unpaid letters received from any place not under the Indian Government are liable to single rates of postage on delivery, but if re-posted by an agent they are, if unpaid, liable to double rates of postage. When sent beyond H. M.'s Indian territories the inland postage must be prepaid, if not paid or insufficiently paid, such letters, &c., are treated as unclaimed. Ship postage alone is levied when deliveries are made in Presidency towns, except in regard to newspapers received from beyond H. M.'s Indian possessions, on which no postage is charged. When sent to the interior they will be liable to inland postage. Letters sent to and from the United Kingdom are charged when not exceeding $\frac{1}{2}$ oz. 4 annas; 1 oz. 8 annas, and so on, adding 8 annas for every oz. or fraction thereof. Newspapers not exceeding 4 oz. are charged 8 pice. The payment of postage on letters is optional, but on newspapers compulsory.

(2) *Banghy Parcels* received from seaward are charged at the rate of 8 annas for every 100 tolahs, and when transmitted to or from the interior, inland postage according to the scale laid down in para. 3 is also levied. When they exceed 2,000 tolahs they are made over to the Collector of Customs for publication in his list of unclaimed packages.

GOVERNMENT STEAMERS.—Letters, Parcels, &c., transmitted by this opportunity, are liable to Indian rates of postage, but when sent to places beyond H. M.'s Indian territories, they must be prepaid. No parcel exceeding 600 tolahs in weight can be forwarded.

HIS MAJESTY'S MAIL.—(1) *Letters.* (a) The payment of postage on letters to the United Kingdom, Malta, Gibraltar, Calcutta, Ceylon, Bombay, Aden, Malacca, Penang, Singapore, Hong-Kong, and Re-Union, is optional; but on those to Azores, Cape de Verd Isles, Madeira and Portugal through the United Kingdom, Australian Colonies, Cape of Good Hope, China (except Hong-Kong), Manila, Batavia, Java, Mauritius or any place not a British colony, compulsory. In the former case so far as the United Kingdom is concerned, unpaid or insufficiently paid letters will be forwarded, charged with a fine of 4 annas in addition to the ordinary postage; in the latter, they will be returned to the sender through the Dead Letter Office. Unpaid letters sent to and paid letters received from Ceylon, Hong-Kong, Malia, Gibraltar, Azores, Cape de Verd Isles, Madeira, Portugal and Spain from and for the Mofussil, are subject to inland postage.

The following table gives the rates of postage on letters to the United Kingdom, America, &c. They include inland postage except in the case of those noted above.

Suggestions to the Public, &c.

By careful attention to the following suggestions, much facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the Public.

1st. Post all letters, &c., as early as practicable, especially when sent in large numbers.

2nd. Make the address legible and complete.

3rd. See that every Letter, Newspaper, or other packet sent by post is securely folded and sealed,—and when prepaid, see that there is no possibility of the removal of the stamp by dishonest servants.

4th. Never trust your servants with money to purchase stamps for the purpose of affixing them to the letters, &c.

5th. Never send money or any other article of value through the post, and where necessity obliges the transmission of important documents it would be as well to do so in a registered letter. Any person who sends such documents in an unregistered letter not only runs a risk of losing his property, but exposes to temptation, every one through whose hands his letter passes.

6th. When complaint is made of Letters or Newspapers lost, miscarried or delayed, furnish information as precise as possible regarding all the facts of the case, and enclose whatever documents may throw light upon it. The day, and hour, at which the letter or newspaper, was posted, as well as the office at which, and the person by whom this was done, should always be stated; and when possible, the cover, or wrapper, in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps.

7th. See that every letter contains the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found.

8th. To obviate the necessity of opening unclaimed letters, parties would do well to write their names in full with address of residence on the back of letters.

REGISTRATION OF LETTERS.

Camp Nages Tall, 21st October 1862.

NOTICE.—With the sanction of His Excellency the Governor General in Council, the following Rules are published for information:—

Rules relating to the Registration of Letters sent through the Post Office.

1. By the payment of a fee of 4 As. in addition to the ordinary postage, both of which must be prepaid in Stamps, any letter, Newspaper, Pamphlet or Book may be registered to any place under the Government of India, or in the United Kingdom and Colonies.

2. Information regarding the Foreign Countries to which letters can be registered, and the conditions thereof, will be found in the "Steam Postage Schedule for the Post Office in India."

3. Letters intended to be registered must be brought to the Post Office at least half an hour before the time fixed for closing the Mail. If brought after that time they will be stamped "Too late," and retained for the following Mail.

4. A Post Master or other Official on being applied to to register a letter will grant a receipt and retain a copy on the counterpart of the Cheque Book for the purpose, the dated Office Stamp should be affixed to the receipt and also to the copy.

5. So soon as a letter is registered, the postage label thereon should be defaced, and the special Stamp "Registered" should be affixed, the address and weight should then be entered in the yellow cover, after which the letter and cover should be folded up together, and placed under lock and key, until the time for closing the Mail.

6. On opening a Mail Packet, the Post Master should carefully examine the registered letters, and compare the weight of each, with the entries thereof in the Cheque and yellow cover, the Office dated Stamp should then be affixed to them, and also to the yellow cover, after which they should be disposed of as prescribed in the Rules for opening and distributing the Mail.

7. In disposing of a registered letter, care must be taken to ensure proof of transfer by each Official through whose hands it passes from the time of receipt to that of delivery, an acknowledgment must therefore be taken by initials or otherwise from each person into whose hands it may be given for custody, despatch, or delivery.

8. On delivery of a registered letter, the Postman should obtain the signature of the addressee on the yellow cover, the "original" receipt will be retained in the Delivery Office, and the "duplicate" returned to the Office of Despatch by the first Mail.

9. The "duplicate" receipt on being returned should be pasted to the counterpart in the Cheque Book; when not received back within the proper time, it should be called for, and a note of the requisition made on the duplicate receipt.

10. On a registered letter having to be re-directed, the duplicate portion of the yellow cover should be receipted and returned to the Office of Despatch, with a remark showing the Office to which it has been forwarded.

11. When a registered letter cannot be delivered, it should be forwarded without delay, together with the original yellow cover, to the Office of Despatch, in view to be returned to the sender, and, if he cannot be found, it should be sent to the Dead Letter Office.

12. When a registered letter is found to be missing, the Post Master must immediately submit a full and clear report of the circumstance to the Inspecting Post Master and Post Master General, and also to the Office of Despatch, in view to a searching inquiry being at once instituted to ascertain where and how it disappeared.

13. The Post Master General will, without delay, bring to the notice of the Director General the loss, or theft, of a registered letter, and on completion of the inquiry instituted thereon, report the result.

14. By Section 49 of the Postal Act, Government does not guarantee, and is not responsible for the safety of a registered letter, but any Official through whose neglect it may be lost or made away with, will be called to strict account, and may be required to make good any loss.

15. Registration makes the transmission of a letter more secure by rendering it practicable to trace it from one official to another. If, therefore, by neglect of prescribed precautions, it is lost or made away with, the officials of the Post Office will have no ground for complaint, if held responsible for the consequences of their neglect.

16. As registration does not involve a receipt for the contents of a letter, and an abstraction thereof may take place before, as well as after the cover is posted, and even after delivery, it is recommended that the addressee who expects valuable enclosures should, at the time of granting a receipt, open the letter in the presence of the Postman.

17. A letter containing Bank Notes, Postage Stamps, or other valuable articles, should, as a rule, be registered, and should be securely folded or enclosed in a substantial envelope, and always sealed with wax, in order to prevent as far as possible its being tampered with.

N.B.—A letter is not ordinarily of importance to any person excepting the addressee, but if valuable articles are enclosed therein, otherwise, and temptation is thrown in the way of the numerous persons in the Post Office through whose hands it passes. Hence the precaution of registering such letters is recommended.

R. Clerk, Esq.	D. Elliott, Esq.	

Half-yearly General Meetings are held in the months of January and July of each year, on a day to be fixed by the Trustees and notified in the Official Gazette.

Under the old Rules of the Civil Fund Subscriptions at 2½ per cent. are payable by all Members of the Covenanted Civil Service on their allowances for a period of 16 years, and a Donation of £300 is payable at option on the birth of a daughter to secure to her the benefits of the Subsidiary Rules after the age of 19.

The Pensions granted to Widows under the old Rules of the Civil Fund, are continued till re-marriage or death, and are revived on 2nd Widowhood.

The daughters of deceased Members for whom the benefits of the Subsidiary Rules have been secured, are allowed pensions till marriage or death, but those for whom the above benefits have not been secured, are granted pensions up to the age of 19 only or till marriage if married at an earlier age when in either case a Donation of £300 is paid to them or to their guardians. But if such daughters are proved to be in indigent circumstances, then, instead of the Donation, a pension of £50 per annum is allowed to them after the age of 19 till marriage or death.

Pensions to Sons are granted up to the age of 19, when a Donation of £390 is paid to them or to their guardians, but if such sons are proved to labor under mental or bodily infirmity, then, instead of the Donation, a pension of £50 per annum, is granted to them till recovery.

The whole amount of pensions allowed under these Rules, to each family (Widows and Children) is reducible by any private income in excess of £45 private income—which amount is allowed for the benefit of the whole family of a deceased Subscriber. The individual pension is reducible by the individual share of the private income in excess of £45 equally divided between the whole family.

Under the Rules of the Provident branch of the Civil Fund, lately adopted by the Service, the following Subscriptions and Donations are payable by Subscribers to this branch.

Subscriptions at 2½ per cent. on the allowances of Subscribers for 16 years as before, and at the same rate for the whole further term of Service, in the cases of married men and Widowers with families; but at 1 per cent. after 16 years for the whole further period of Service, in the cases of Bachelors and Widowers without families.

On each marriage and by each married man entering the Service's

Donation of Rupees 1,500 0 0

On birth of each daughter a Donation of 500 0 0

On birth of each son a Donation of 250 0 0

The Annuities granted to widows under these rules, are reduced to one-half on re-marriage and continued at that rate during second marriage and until death; but if the second husband happen to be a Subscriber to this branch, then the widow on second widowhood reverts to the full Annuity.

The Annuities to daughters of deceased Members are continued till marriage or death and a Donation of £300 is paid to them on marriage.

The Annuities to sons are continued up to the age of 21, when a Donation of £300 is paid; but if such son is proved to labor under mental or bodily infirmity, then instead of the Donation and without reference to age, an Annuity of £125 is granted until recovery.

The Annuities granted from this branch of the Fund to the families of deceased Subscribers are not affected by any amount of private income they may possess or inherit.

DUTIES PAYABLE ON DEEDS AND OTHER INSTRUMENTS.

Act X of 1862 provides the Stamp Duties that have to be paid on Deeds, Instruments and Writings, and Law Papers. Below is given a list of the former ordinarily and generally executed with the amount of the Stamp to be impressed on each as contained in Schedule A of the Act.

The Stamp must be impressed on the paper itself, except in the case of the transfer of shares of any Banking Corporation or Joint Stock Company, which by any law applicable to such Corporation can be effected by simple endorsement of Receipts, Shop Bills, Bills of Exchange, and applications to Collectors of Customs. In these cases adhesive stamps, which should be obliterated in such a manner as to show that they had been used, may be employed.

If a Deed, Instrument or other writing be not stamped or insufficiently stamped, it is invalid as creating, transferring, or extinguishing any right or obligation; but when executed inadvertently, without intention to evade the stamp duty or otherwise to defraud Government on paper not bearing a proper stamp, such Deed, &c. may be admitted in evidence before a Civil Court or duly stamped by the Collector of Stamps on payment of the prescribed stamp duty and a penalty.

Drafts or orders for payment of money on demand drawn without stamp may be stamped by an adhesive stamp by the person receiving them; but this does not relieve the drawee from the penalty incurred for issuing them unstamped.

The value of the stamp affixed to receipts is to be paid by the person granting them under a penalty in case of refusal not exceeding 100 Rupees, and so also is the expense of providing stamps for Bills of Exchange, Bonds, &c., to be met by the person drawing or making them.

Appeals from the Collectors of Stamps lie to the Board of Revenue.

DOCUMENTS.

AGREEMENT, on any Minute or Memorandum of an Agreement, not being of the nature of a Bond or other Obligation for the payment of money, or of a Conveyance, or of a Deed of Mortgage, Gift, or Dower, and not being otherwise provided for in this Schedule, whether the same be only evidence of a contract or obligatory upon the parties.....

PROPER STAMPS.

1 Rupee.

NOTE.—If two or more letters are offered in evidence to prove an Agreement between the parties who shall have written such letters, it will be sufficient if any one of such letters be stamped as an Agreement.

If the Agreement, or Minute or Memorandum be of the nature of a Bond or other Obligation for the payment of money or of a Conveyance, or of a Deed of Mortgage, Gift, or Dower.

The same Stamp as prescribed by this Schedule for such Instrument.

Agreement for an annual or periodical payment not otherwise charged for in this Schedule.

QUEEN'S MILITARY FUND.

Regulations of a General Military Fund, for the benefit of Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820.

Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the above named Fund was established in the year 1820, for the purpose of sending home in comfort and respectability, the Families of deceased Officers in Her Majesty's Service in India, who may have been left destitute; and of preventing the painful and degrading practice of appealing to the public for subscriptions on such occasions; and also of providing relief in such cases as may require it, until they can be conveniently sent home.

His Excellency General Viscount Gough, G. C. B., Commander-in-Chief in India in the year 1845, with reference to several cases, arising out of the death of Officers on the voyage from India to England leaving their Widows and Children in circumstances of great distress, and with adverting also, to the manifest justice of allowing all Widows and Children of Officers, being subscribers to the Fund, who may die at the Cape of Good Hope, the Mauritius, New South Wales, or Australia, the benefits of the Military Fund, directed the introduction of Rules 21 and 22, after they had been proposed for the consideration of the whole body of Subscribers and carried by a large majority.

It having since been found advisable to make some alterations and additions to the Rules and Regulations, in reference to the state of the Fund and the generally expressed wish of the subscribers, His Excellency General Sir William Gomm, K. C. B., assembled a special Board of officers at Simla in June 1851, for this purpose, and directed the minutes of their Proceedings to be published and circulated for the consideration of the body of subscribers serving in India, who almost unanimously agreed to the alterations proposed.

In the year 1856, a further modification of these Rules became necessary, and the alterations, as approved by the body of subscribers in India, with but one or two exceptions, were embodied with the sanction of His Excellency General the Honorable G. Anson, Commander-in-Chief in India, in the original code sanctioned by General Sir W. M. Gomm, in December 1852.

The opinion and recommendation of such Committee shall be forwarded to the Honorary Secretary Army Head Quarters by the Officer Commanding the Corps in which the casualty may have occurred, and the Paymaster of the Regiment under the above authority can at once advance to the widow the amount of "Maintenance" awarded by the Committee, reimbursing himself by a deduction from his next regimental remittance or by drawing a Bill on the Secretary; the residue of the award to be adjusted by the Secretary under the sanction of the General Committee of Management.

Rule 12th.—The Sub-Committees at Madras and Bombay will in cases of special award in those Presidencies, on satisfying themselves with the accuracy of the statements laid before them, draw upon the Honorary Secretary at Army Head Quarters for the amount which may be awarded; but in the final adjustment of the accounts of such Sub-Committee, the General Committee will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rates laid down.

Rule 13th.—The Sub-Committee will, on drawing for any sum on the Honorary Secretary in cases of special awards, transmit the Report of the station Committees as well as their own opinion and explanation of the award as a voucher, and they will afterwards, as soon as possible, transmit the proper Receipts and Certificates, showing that the money has been appropriated in the manner and for the purposes which it was awarded.

Rule 14th.—The object of this Fund being clearly confined to sending Home Families of deceased Officers, and with a view of preventing those painful appeals for assistance to the Public, at once so humiliating to respectable individuals and the Queen's Service in India, it is earnestly hoped that all ranks of Staff and Regimental Officers will support it.

Rule 15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no Widow continuing to reside in this country after the death of her husband, can expect any provision or pension for herself or children from the Fund further than is stated in the 7th Clause of the Schedule of awards.

It is also declared that no Widow is entitled to passage money or allowance for travelling, unless she actually proceed to Sea or on her journey in the manner for which any allowance may have been drawn, and should she have received such allowance, she will be required to refund; and further, that no widow, under any circumstances, shall be entitled to any assistance from this Fund, unless the application shall be made in the usual form within six months after the demise of her husband.

Rule 16th.—Orphan Children are eligible for the benefits of this Fund, but awards for them must be specially made by a station or Sub-Committee and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

Rule 17th.—That the Honorary Secretary, acting for the Committee of General Management, shall furnish an Annual Account of the Receipts and Disbursements of this Fund, to the Adjutant General of Her Majesty's Forces in India; and that that Officer be applied for, to circulate the same amongst the subscribers, and the several Officers of Government at the same Presidency.

Rule 18th.—That Commanding Officers of Her Majesty's Regiments be requested to pay particular attention to causing the regular quarterly remittances to be made to the Honorary Secretary of the Queen's Military Widows' Fund, Acting for the Committee of General Management at Army Head Quarters, who is requested from time to time to apprise Commanding Officers whenever any Corps may fail in making such remittances.

Rule 19th.—That no General Rule or Regulation of this Fund shall be altered, except recommended by the General Committee, and approved by a majority of the subscribers.

Rule 20th.—In taking the opinion of the Regimental and Staff Officers of Her Majesty's Forces in India, a very general wish was expressed and carried by a majority that all Widows of Subscribers should have their passage to England, &c. &c. defrayed. As an Officer ceases to be a subscriber on leaving India, all claims on the Fund must in like manner cease from the same period; but an Officer going to Sea for the benefit of his health, being entitled to his Company's allowance, will be considered as a subscriber during his absence.

Rule 21st.—That all Widows of Officers, who were subscribers to the Fund, shall be entitled to the amount granted to Widows and Children for passage money to England, if their husbands die on their passage to England, or during their absence on Sick certificate, at the Cape of Good Hope, the Mauritius, New South Wales, or Australia.

Rule 22nd.—That no special grants in cases of great distress (not provided for in the Regulations of the Fund) shall be passed by the General Committee without the sanction of the Majority of subscribers, which sanction is to be declared in the General Abstract of Accounts, published annually for the information of subscribers.

Rules for awards to be paid to the Widows and Children of Officers from the General Fund for Her Majesty's Service.

Rule 1st.—The same amount of passage Money shall be allowed to all Widows without reference to the rank of the deceased husband, and the passage of a widow shall be Rupees 1,500.
For each Child above 12 years of age Rupees 500.
For each Child under 12 years of age " 200.

But this allowance is not claimable unless the Widow and Children embark within 12 months from the decease of the husband or father.

Rule 2nd.—The following shall be the scale of Award for all Widows to defray the expenses of their journey in England, the amount to be paid to them in Bills at sight, if practicable, or in cash at the current rate of exchange, &c. &c.

For every Widow (et vide)	0 0	When the journey can be
For every Child above 12 years of age	0 0	accomplished by Rail-

For every Child above 12 years of age	1 0	be performed by Rail-
For every Child under 12 years of age	0 0	way, or for any portion
		of it that cannot be so

Rule 3d.—An Officer dying at any one of the three Presidencies, or within 14 days' march of the same, his widow will be entitled to the allowance, as shown in the following Scale, for two months from date of decease of her husband, provided she does not embark within 30 days of such decease, in which case maintenance for one month only will be granted: should it however be certified by a Medical Officer that she is unable from the illness of herself or any of her Children to proceed to Sea within the said period of two months, the allowance may be extended to such period as may be deemed necessary by the Medical Officer, not exceeding four months in the whole.

This Fund was established in 1830, for the benefit, primarily, of the Widows and Orphans of the Warrant and Subordinate ranks of the Army, but is open to all classes of European and their descendants, Civil as well as Military.

The accumulated Capital now amounting to upwards of one Lac of Rupees is invested in Government Securities which are lodged in the Bank of Madras in the joint names of Lieut. Colonel J. L. Barrow, Principal Commissary of Ordnance, Lieut. I. Curran, Gun Carriage Manufactory, and Mr. W. Pike.—During the last 10 years the amount paid in Pensions has exceeded Rupees 54,000,—while during the same period an increase of Rupees 50,000 has been made of the Capital.

The following is a brief abstract of the rules of the Fund:—

Entrance Donations in both branches, and the amount of subscription for children from birth till date of joining, may be paid at once or by 12 equal monthly instalments.

Increased payments on entrance are required in one sum in the Widows' Branch after the age of 40, and no person can be admitted or transferred to a higher class above the age of 55 years; delay in joining after being admitted by the Committee necessitates a fresh Medical Certificate being submitted. Subscriptions in the Children's Branch in all cases commence from the date of birth of each child, and continue until the age at which pensions terminate, viz., 15, 18, or 21 years as the case may be. Transfers from a lower to a higher class are permitted (on production of the prescribed Medical Certificate) in the Widows' Branch on payment in one sum of difference of donation and of subscription according to age and period of connection with the Fund,—and in the Children's Branch on payment in one sum, or by 12 equal monthly instalments, or difference of donation and of subscription from the date of birth of each child. Subscribers to the Children's Branch must also belong to the Widows' branch, and to the same class in both branches.

The full pension in the Children's Branch is secured as soon as entrance donation and subscription from date of birth have been paid in full. In the Widows' Branch full and reduced pensions are respectively secured when the total payments in that branch amount to the sums specified in the foregoing table. Subscribers are allowed at any time, on furnishing a medical certificate in the prescribed form, to pay in one sum, or by such instalments as they may find convenient, the difference required to entitle their widows to immediate pension.

Pensioners may reside at any Station or in any country they choose. Widows marrying loose pension during coverture but revert to the Fund on again becoming widows. Pension is forfeited by incontinence. No pension is paid to families of Subscribers who die with six months' subscription in arrears, and Subscribers' names are struck off the books when 12 months in arrears. Subscriptions due for a period exceeding 6 months are not received unless accompanied by a medical certificate.

The regulations at length may be had on application to the Treasurer:—price 4 annas,—from out stations 5 annas must be remitted to cover postage.

RULES.

I.—This Fund is designated 'Taylor's Fund' to perpetuate the name of its Reverend Founder, and its object is to afford relief to the Widows and legitimate Offspring of European Pensioners.

II.—The Capital by which this Fund is to be supported, has been derived from the liberal contributions of the Public, and is invested in Government Securities in the names of three of the Committee.

III.—The interest of this Capital together with subscriptions, to be applied to the proposed object, and after discharging such claims, all surplus in the hands of the

Treasurer will be half yearly added to the Capital in even hundreds, together with the entrance donations of subscribers, and all contributions received from private individuals or other sources.

IV.—To entitle a Widow to the benefits of this Fund, her Husband must have paid his entrance Donation, which has been fixed at 12 Rupees.

V.—The monthly subscription is Eight Annas, to be paid quarterly in advance.

VI.—Subscribers, who are 12 months in arrears, will be struck off the Books, if their subscriptions are not immediately paid upon demand, and any subscriber, dying with a half-year's subscription due to the Fund, will deprive his Widow of all claim on the Fund; if the amount due is less than this period, the same will be deducted from the Widow's Pension.

VII.—The monthly Pension to a Widow will be 12 Rupees, and 1 Rupee for each child under or above the age at which they can be admitted into the Government Asylums, when the Pension shall cease, except however, those cases in which the Guardians or Friends of Children of different persuasions shall wish to educate them at schools attached to their own respective Churches, when on the Directors being satisfied that the education of the Orphans is being so conducted, the pension shall continue. The maximum payment, however, is never to be in excess of the Widow's Pension, and all such Pensions to cease at the age of 14.

VIII.—The Committee will at once remove from the Pension List, any Widows known to be living a life of incontinence, or guilty of other notorious misconduct.

IX.—The Children's allowance will be continued in the event of the mother again marrying, but on her death their cases to be specially considered.

X.—Marriages considered by the Committee as death-bed marriages, will altogether exclude the Widow from Pension.

XI.—To prevent abuse of this Charity, no claims to Pension will be admitted where the husband may have been more than thirty years older than the claimant, and any attempt to deceive the Committee in regard to children, will involve the immediate expulsion of a subscriber or of a Widow on the Fund.

XII.—Pensioners married, who do not join this Fund within a period of 12 months from date of transfer to the Pension Establishment, and Pensioners unmarried who do not join within 6 months from date of marriage, will not be admitted subscribers on this Fund.

XIII.—In the event of a Pensioner subscriber to the Fund finally leaving India with his family, and thus disconnecting himself with the Fund, the whole amount of his payments to the Fund shall be refunded to him. In the event of a Pensioner subscriber to the Fund quitting India, leaving his family in the country, and making arrangements for the regular payment of his quarterly subscriptions, they will be eligible to the benefits of the institution in the event of his death.

XIV.—The Secretary shall keep a Register of Subscribers, their Wives and Children; it is therefore incumbent on subscribers to report their marriages, and the births and deaths of Children, in default of which their families will be liable to a forfeiture of benefits, for this Register must be the Committee's guide in regulating claims to Pensions.

XV.—Should the subscriptions and interest of Capital fall short of the demand for payment of Pensions, it will be in the power of the Committee to direct a proportionate deduction from Pensions; in like manner should the prosperous state of the Funds, justify an increase in Pensions, it shall be competent to the Committee to direct the same to the extent of Rupees 5 in lieu to 3½ with the same limit for Children.

XVI.—The affairs of this Fund shall be conducted by a Committee to meet Quarterly, 3 of whom shall be sufficient to act in the name and behalf of the whole, save that no Rule shall be altered until submitted individually for consideration, and be confirmed at the next Quarterly Meeting.

Superintendent of the Lying in Hospital and Dispensary.	

2. The Garrison Surgeon is not required to attend on the Staff, and all Officers will obtain medical aid from the Surgeon of the District in which they may be residing.

Garrison Assistant.

4. For the various appointments above enumerated, Consolidated Salaries are drawn, of Rupees 1,600 for Surgeons, and Rupees 750 for Assistant Surgeons, which include pay and ordinary regimental allowances, and are payable in the Military Department.

5. When absent on general leave, Surgeons and Assistant Surgeons forfeit respectively Rupees 312-15-0, and Rupees 337-2-6, being the moiety of the remainder of their consolidated salaries after deducting pay and regimental allowances.

6. When an Officer of the Presidency Medical Staff is granted leave of absence and another Officer of the Presidency Medical Staff is appointed to act for him in addition to his other duties, the latter draws in addition to his permanent salary, the moiety of the Staff allowance forfeited by the former; but such arrangement shall not extend

beyond six months from the date when the absentee proceeded on leave. Should an Officer of the Presidency Medical Staff be detached from the Presidency on duty with the Honorable the Governor or the Commander-in-Chief, whereby the whole or a moiety of his staff salary becomes available, a similar arrangement may be made.

7. The fundamental principle of the arrangements of the Presidency Medical duties being that the Medical Officers at the Presidency shall receive a fixed amount of salary, according to their rank as Surgeons, or Assistant Surgeons, without reference to the particular duties which they may be required to discharge; any extra payment for the permanent or temporary discharge of duties in addition to those of their more immediate appointments cannot, with the exceptions provided for in the preceding para, be sanctioned to those Officers. The Officers placed in medical charge of the Governor's Body Guard is however allowed head money for such charge.

8. The salary of the Principal of the Medical College is Rupees 400 per mensem, which is payable in addition to his salary as an Officer of the Presidency Medical Staff. The seven Professors of the Medical College draw, if holding another appointment, Rupees 150, otherwise Rupees 300, per mensem. These salaries, as also the allowances of the Assistant Professors, &c., attached to the Medical College, are paid in the Civil Department.

9. The salary of the Officers of the Presidency Medical Staff and Professors are payable from a fixed monthly sum allotted for the Presidency Medical duties, which is under no circumstances to be exceeded; consequently an Officer appointed to the Presidency Medical Staff, or Professor in the Medical College, whether permanently or temporarily, can be paid only the actual amount of staff salary available, if less than the full, or moiety of salary which may be claimable under the general rules. An Assistant Surgeon appointed to act on the Presidency Medical Staff during the absence of a Surgeon, will be entitled to draw the moiety of salary forfeited by the Surgeon, if it be available.

General Directions.

Every plaint should be presented at the Registrar's office with the written documents relied upon and the description of documents required to be produced.

The Registrar upon examination and enquiry will either receive, file, and register the plaint, &c., or in cases of doubt refer the plaint to a Judge.
 Sec. 30. He is in no case to reject the plaint, but he may retain it under Section XXX without reference to a Judge, and he may also allow the plaint to be amended.

In cases of doubt, the Registrar will either direct the party to present the plaint, &c., before a Judge, or he will himself refer to a Judge, and in the latter case he will retain the plaint, &c., and appoint a time for the party to attend again at the Registry when the plaint, &c. will be received and filed, or the party directed to appear and present the plaint, &c., before a Judge.

Where the suit comes within Section XXXIV of the Code, if the party is prepared to give security to the satisfaction of the Registrar at the time of presenting the plaint, the Registrar will take the same, and if necessary he will appoint another time for the purpose where a dispute arises as to the sufficiency of the Security offered, and it becomes necessary to take evidence, the parties must be directed to appear before a Judge.
 Sec. 34.

The original summons to appear and answer the plaint should be issued to the party presenting the plaint and should be for the appearance of the defendant in person or by an Attorney duly instructed, &c. If the personal appearance of the defendant is considered indispensable, an application may be made to a Judge.

Except in plain and simple cases, the Registrar should as a general rule issue the summons for the settlement of issues only or for the final disposal of the suit according to the desire of the party presenting the plaint, unless he sees reason to refer to a Judge, and in that case he will appoint another time for the party to apply to receive the summons.

In cases in which the question in dispute is confined to a single transaction or subject matter of complaint arising between the immediate parties to the suit, the summons might properly be for the final disposal of the suit.

A reasonable time to state in the summons for the Defendant's appearance will be eight days after service if he reside within the limits of Madras, if beyond these limits and within twelve miles of the Court house ten days, if beyond twelve miles and within twenty-five miles, fourteen days.

The original summons and copies for service will be delivered by the party presenting the plaints to the Sheriff with instructions of the service, and the Sheriff will be responsible for the due service and return of the same to the Registrar's office.

It will be the duty of the Registrar to attend the Judge and act in all respects as Registrar upon the settlement of issues.

Before the day appointed for the settlement of issues the Registrar should prepare a list of the cases for the day and affix a copy in a conspicuous part of the Court house, and on the day he will call on the cases in the order in which they stand in the list.

The Registrar is to see that the notices delivered under Section CVII exactly correspond, and if so he may return one to the party for delivery to the Sheriff for service.

If dissatisfied with this decision, the Petitioner shall be at liberty to address the Board or Court, or superior Civil or Military authority, by which the local authority is controlled; or he may address the Government, in cases wherein there is no intermediate authority.

2. This is to be furnished to him, on plain paper, and without payment.

4. Government will receive petitions only from principals; addresses running in the name of a vakeel or agent will receive no attention. Anonymous petitions will be totally disregarded.

5. The Government having passed an order on an appeal made to it, will not notice a second petition on the same subject, unless it contain some new and important matter.
