RETROSPECT, 1863.

EUROPEAN.

A REVIEW of the history of the year now drawing to a close, is calculated to awaken feelings of lively gratitude to the Supreme Disposer of events, for the many and signal blessings conferred upon our nation during this period of time.

We have been favoured with peace at home, and abroad; with the exception of the insurrectionary movement of the Maories in New Zealand, and the recent disturbances on our North West frontier. We have been blessed with an abundant harvest, the distress in the manufacturing districts has considerably decreased, and taxation diminished to the amount of three and a half millions—proves alike the satisfactory state of the Revenue, and the flourishing state of our Commercial interests—while the many excellent Institutions established for the diffusion of our glorious Christianity, have to rejoice in augmented incomes, enabling them to enlarge their operations and increase their usefulness.

We have then much to be thankful for; but the event that has called forth the liveliest demonstrations of joy from all classes, was the marriage of the Prince of Wales to the Princess Alexandra of Denmark. Like the union of our beloved Queen with the Illustrious Prince, whose loss she still so deeply mourns, this alliance seems to have been formed from motives of affection; (too often subordinated in royal marriages to considerations of political expediency,) though there were other reasons which rendered the connexion with the Royal Family of Denmark peculiarly desirable, their attachment to the Protestant faith, and the high character of the nation, as a brave and enterprising people—once the terror of our Saxon forefathers: a valiant and sturdy foe at the battle of Copenhagen, but now united to us by the ties of brotherhood.

The enthusiastic reception given to the Princess on her landing at Gravesend, and the hearty cheers with which the Royal Pair were every where greeted in their procession through the Metropolis, must have afforded her a most gratifying proof of the deep interest felt in her welfare by the people of England, and their heartfelt desire for her future happiness. The royal nuptials were celebrated at Windsor on a scale of great magnificence. The marriage ceremony was performed by the Archbishop of Canterbury on the 10th of March 1863, in the presence of a large assemblage of the nobility and gentry of England, and the representatives of the Sovereigns of other nations. Among distinguished foreigners, the Maharajah Dhuleep Sing was conspicuous for the rich dress and costly jewels he wore on the

occasion. The day was kept as a public holiday throughout the kingdom, and occasioned rejoicing in the remote parts of our Empire. All the large towns were brilliantly illuminated, and amidst the universal festivity, the poor were not forgotten, but in many places they were liberally regaled by public subscription. The inhabitants of Madras will not soon forget the pleasing sight presented in the gathering of the different schools in the grounds of Government House on the occasion, and the pleasure derived from seeing the enjoyment of a large number of the young, in the different amusements and good cheer provided for their entertainment. The marriage presents received by their Royal Highnesses, were both numerous and costly; but there was one worthy of special notice—a Bible richly bound, and beautifully embossed with golden clasps, concealing a Pearl; and a Reading Desk—purchased by the subscriptions of the various Sunday Schools, and presented to the Princess, as a token of their humble regard. May she indeed be enriched by the possession of the Pearl of great price, discovered in its sacred pages; and long live the cherished object of the esteem and affection of Her Majesty's loyal subjects.

The discovery of the sources of the Nile by Captains Speke and Grant, formerly of the Indian Army, has attracted a large amount of public interest. These enterprizing travellers were honored with the congratulation of the Queen, and the plaudits of many large assemblies, who listened with much interest to the interesting narrative of their arduous undertaking. They received a perfect ovation at the Dinner, and Annual Meeting of the Geographical Society. One of our leading journals observes "the source of the Nile was a puzzle long before the time of Moses. The enigma is suggested on the most ancient monuments of Egypt; it excited the curiosity of Rameses and Sesostris; confounded the wisdom of the Ptolemies; won attention during the Roman occupation; amused the leisure of the Schoolmen; tantalized the Portuguese Jesuits in the Sixteenth century; engaged the adventurous spirit of Bruce; aroused the wonder and baffled the resources of Mahomet Ali, and defied the zeal, the ability, and endurance of the brothers D'Abbadie. At length the mystery is solved, and the source of the Nile is found by a couple of Englishmen, to be a lake about 4 degrees south of the Equator, very near the position which Dr. Beke, so long ago as 1846, assigned to it theoretically. It is curious that the fact has been discovered, not by following the waters of the river from its mouth, the natural course of discovery, but by descending upon it from above."

Directing our attention to the Continent this year will be a memorable one in the annals of Poland, for the heroic and protracted struggle against Russian Despotism, occasioned by the oppressive mode in which the conscription Act was enforced. Many lives have been sacrificed in what is feared will prove a fruitless effort to obtain their national freedom, and much valuable property wantonly destroyed

by the Russian Soldiers. England, France and Austria, conjointly remonstrated with the Russian Government, on the unconstitutional course pursued towards the Poles, as an infraction of the Treaty of Vienna, and urged the necessity of the establishment of a Constitutional Government in Poland, as essential to the peace of Europe; but being unprepared to enforce their recommendation, by a declaration of war if rejected, Prince Gortshakoff has cooly intimated in reply, the intention of his august Master to carry out his own plans for the administration of the government of his Empire, and the pacification of Poland. The atrocities perpetrated by the Russian Generals Mouravieff and Bergs will add a deeper stain to the cruel treatment of that unhappy country by her powerful and unprincipled oppressor.

The Emperor of the French has recently proposed the assembly of a Congress for a general settlement of European affairs, and has addressed autograph letters to the Sovereigns of Europe, to which favourable replies have been received from some of the Powers. The assent of England, Austria and Prussia conditional on preliminary explanations. This new plan for the peaceful adjustment of international differences, it is to be hoped, will be attended with success, especially in bringing the powerful influence of public opinion to bear upon cases of oppression.

We noticed in our last Summary the unanimous desire of the people of Greece, that Prince Alfred should become their King; but the throne being declined for him by the British Government, an offer was made of it to the Duke of Saxe Coburg-Gotha, but with no better success. The Greeks have, however, at last obtained a Sovereign in the person of Prince William of Denmark brother of the Princess of Wales, who has lately received a very cordial reception at Athens, and ascended the throne under the title of King George 1st. We hope the reign of his youthful Majesty may be more prosperous than that of his predecessor.

The Pope still retains possession of the metropolis of Italy, sustained by the power of French bayonets, though it is thought his Imperial Ally would be glad of a favourable opportunity to withdraw his protection. The present state of things cannot last long, and his holiness may yet be glad of the asylum offered him by the British Government in Malta, and content himself with the exercise of his spiritual functions.

America is still suffering from the scourge of war, the prospect of peace seems to be as remote as ever. Many sanguinary battles have been fought without any decided advantage to either party, and much valuable property has been destroyed. The President has lately ordered the enrolment of 300,000 volunteers but from the difficulty already experienced in raising recruits, it is doubted whether he will be able to obtain the required number. The South appear as firm as ever in their determination not to yield, and to maintain

the iniquitous system of slavery. It is a matter for deep regret that in an address lately issued by the Clergy of the Confederate States to their Brethren in other lands, an attempt should be made to vindicate this monstrous evil, condemned alike by public opinion, the voice of humanity, and the sacred law, enjoining all men to love their neighbour as themselves!

Mexico has been captured by the French army, and a protectorate established. What effect this may ultimately have upon the war it is impossible to calculate. The Emperor is thought to be favourable to an alliance with the Southern States, though he has been careful to preserve a friendly aspect towards the Federal Government. The throne of Mexico has been offered to the Archduke Maximilian, but he has wisely intimated his acceptance of it depends upon the suffrages of the people, and the concurrence of other Governments.

The Obituary records the names of many public men, who have highly distinguished themselves in the service of their country. We had last year to chronicle the death of the Earl of Canning, late Viceroy of India; we have now to notice with unfeigned regret the recent decease of his noble successor, the Earl of Elgin, whose sudden removal after so short a term of office in this country, all deeply deplore. Two other illustrious men, whose heroic deeds will ever form a bright page in Indian History, have also been taken from their well earned honours, Lord Clyde and Sir James Outram. Both eminent for their valour, integrity, and generosity—for their wisdom in Council, as well as for their vigour and prowess in the battle field, and their humanity to the conquered foe.

The Church has lost a valued prelate in Archbishop Whately. The vacant See of Dublin has found a worthy successor in Dr. Trench, late Dean of Westminster, whose theological works are held in high and deserved repute. Among other names of note are Lord Lyndhurst at the advanced age of 92, the Marquis of Normanby, the Earl of Mornington, Sir Cresswell Cresswell, Sir George Bonham, the Rev. Dr. Raffles of Liverpool, Alderman Humphrey, and Mrs. Trollope.

By the last mail we have received intelligence of the death of the King of Denmark, who has been succeeded by Prince Christian, the father of the Princess of Wales.

RETROSPECT, 1863.

INDIA.

NEVER before has any compiler had to perform the sad duty that has fallen upon us, of commencing our retrospect, for two years in succession, with almost the same words and those announcing the death of our Governor General. "India has lost a Viceroy—whose conduct has furnished a rare illustration of the dignity of duty—amidst a strange combination of public success and private sorrow." Lord Elgin came amongst us with apparently every chance of a long and useful career, and, while he lived, did enough to prove that had he lived longer he would have attained a high place in the list of the great men who have swayed the destinies of this vast country. His treatment of the native dependent princes, while scrupulously conscientious in the preservation of their rights, was sufficiently firm and commanding to ensure at least some regard to good government in their respective territories; at the same time, by rigid neutrality in the very dangerous intestine disputes in Affghanistan, he gained the friendship of a ruler who had been distinguished for bitter hostility to our interests. Unlike Lord Canning, he died in India, having previously lost one of his sons in England. While on the march from Simla to Lahore, excessive fatigue and excitement, occasioned by a visit to the celebrated Rotang twig bridge, developed a disease of the heart from which he had long previously suffered, and which ought to have prevented his appointment to so onerous a post as that of Governor General. After a protracted and painful sickness he died at Dhurrumsala in the Kangra valley, where his remains were buried. His grave will be marked by an ornamental cross, the design of which was approved by His Excellency shortly before his lamented death.

To fill the vacancy caused by Lord Elgin's death, our own Governor became acting Governor General, and left Madras, a few weeks back, to commence the important duties of his high post. Mr. Maltby therefore became acting Governor, and from his long experience in all departments of Government is expected to make an excellent ruler.

One of the most remarkable events in the early part of the year was the Missionary Conference at Lahore, when ministers and laymen, both European and Native, spent several days in earnest consideration of the great questions of Missionary labor. Sir Herbert Edwardes and many of the highest officials of the Punjab joined in the discussions, which were characterized by the greatest harmony and a most thorough appreciation of the importance of the work. Among the various subjects discussed were "How far polygamy ought to be

tolerated among converts?" What were the proper limits of controversy with unbelievers?" How could greater harmony be made to exist between the European Missionary and his converts ?" and others of equal weight. Their deliberations have been published.

About the close of these proceedings Sir Charles Trevelyan landed in Calcutta, as the third Financial Minister of this country. His reception was very warm, both here and in Bengal, and great expectations were raised as to his measures. Nor were these disappointed. The Budget brought forward by Sir Charles, in an eloquent speech, was perhaps the most satisfactory ever proposed in India. The Treasury exhibited a large surplus, although many extra expenses had been incurred; almost every department of revenue showing a large increase. Nine-tenths of the payers of Income tax were relieved by the abolition of the lower rates, while all classes were benefited by a general reduction of one per cent.; the same opportunity was also taken for greatly reducing the customs duties on cotton, iron and other goods, thus increasing the trade and consequent material progress of the country. Nor were these the only matters in which progress was made. A largely increased grant fell to the share of the Educational Department, and public works were pushed on with greatly increased energy. Throughout the latter part of the year this progress has been so continued that it is expected that the next Budget will be even more jubilant than the last.

At the same time that the home and internal trade were thus encouraged, successful measures were adopted for extending the commerce of India with other nations. A commercial treaty of great importance was concluded with Burmah, and though it has, as yet, been prevented from having its full effect through the obstinacy of the Burmese authorities, it must eventually prove most beneficial both to British and Native Burmah. China too has been more perfectly opened to the productions of India, and mutual exchange benefits both countries. Commercial treaties are also being negotiated with Bhootan and other independent States on the northern frontier, preparatory to the opening of an inland trade with the people of Central Asia.

We have, however, been troubled by two small wars in the States to the north-west and north-east of our territory. The corrupt oppression of Hindu underlings, while professing to collect the Income Tax from the semi-barbarous tribes in Jynteah and its neighbourhood, led to an insurrection of considerable proportions, which was with great difficulty suppressed by Major Houghton and General Showers. The partial success of the rebels in the earlier part of the outbreak was entirely owing to the rugged nature of the country, and the ignorance of the British commanders respecting the whereabouts of their hidden foes. Another frontier war of larger proportion is being waged against a number of warlike tribes inhabiting the recesses of the mountains to the west of Peshawur. Upon the suppression of the mutiny in the Punjab in 1857-58, large bodies of rebellious

sepoys crossed the frontier and fixed themselves at a place called Sittana, from whence they made frequent incursions into British territory. Sir Neville Chamberlain was sent, in command of a small force, against this troublesome set; but, unfortunately, other tribes of the vicinity, especially those of Boneir and Swat, were allowed to imagine that his arms were directed against them. They consequently united their forces, and attacked the British while passing through a narrow defile called the Umbeylah pass. After several weeks fighting, it was found impossible to move forward against such opposition. Attempts are being made to overcome this opposition by pacific means; but, if these do not succeed, an overwhelming force will be marched through the hostile valleys, till the original object of the expedition be attained.

Serious disturbances were also feared in Affghanistan and Beloochistan, owing, in the one case, to the misgovernment of the Khan and his consequent deposition by a rising of his nobles; and, in the other, to the death of the aged Ameer, Dost Mahomed, whose numerous children exhibit every inclination to struggle for the chiefship. At present, however, Shere Ali Khan has succeeded in maintaining the position to which he was nominated by Dost Mahomed. Studious non-interference has preserved us, as yet, from any evil consequences from this disorder. One of the Burmese princes also fled for his life into British territory, an asylum from which he could not be driven even on the demand of the Burmese King and the threa of hostilities.

Among internal improvements, the opening of the Bhore Ghaut Incline on the Bombay Railway is perhaps the chief, and is at once an example of the results of energetic perseverance, kind treatment of the natives, and the requirements of modern civilization. Taken altogether it is the greatest engineering achievement the world has yet seen, exceeding in many respects the famous Semmering incline over the Alps. By it a heavily loaded train can be drawn over the top of a lofty range of mountains where, previously, there were no means of communication except by a solitary and very steep road, and a few mountain tracks only passable by pack bullocks. More than one million pounds sterling was spent on this gigantic work, in the employment of over 40,000 men of all ranks and abilities. Another very hazardous bu highly important work in the cause of progress has been the laying the Telegraph from Kurrachee, through the barren wild distri known as the Mekran, to the Persian Gulf, in order to complete semi-girdling of the world with the Electric wire from Londor Calcutta, and finally on to Shanghai. Mr. Walton and his assis have performed their work most bravely and well, and are now w the arrival of the sub-marine cable which is to carry their labors Bussora, and thence to Bagdad, where in a short time it will by another line from Constantinople, thus completing the chai two great Irrigation Companies are also busily prosecuting their

which will not only carry water to lands now impoverished for want of the rains which every year flow to the sea instead of fertilizing the soil, but will also provide means of communication, so that the products of the fields may, at a maximum of convenience and minimum of cost, be conveyed to the coast, there to be sold for the mutual benefit of the cultivator and the consumer. A scheme is also said to be in preparation for the improvement of the great Ganges canal, which has, through carelessness on the part of its original engineers, become practically useless. In every part of the country works of the utmost importance, demanding capital only to be reckoned by tens of millions sterling, are being rapidly commenced; so that, if India be blessed with peace, the compiler of twenty years hence will have to record the successful working of plans for the benefit of millions of people, which will be without parallel in any other country of the earth.

Turning for a moment from such matters, we ought to notice, as one of the chief events of the year, the wonderful enthusiasm which pervaded the whole country on the occasion of the marriage of the Prince of Wales. Addresses of the most gratulatory character were showered upon the happy couple from all parts of India, while in some places the general joy took a more substantial form in the shape of magnificent presents of Indian productions. The most beautiful and appropriate mark of joy was that, however, given by Sir W. and Lady Denison. All the children of the various Orphan Asylums of Madras, o the number of several hundreds, were invited to spend a pleasant evening in the grounds of the Government House, where, in addition to the pleasure of roaming about the park, they were entertained by bands of music, tumblers, jugglers, and the usual accompaniments of a school treat. A substantial tea prepared them for the pleasures of the night, which comprised speeches, huzzaing, exhibition of magic lantern, and a beautiful display of fireworks; the whole treat was at the expense of His Excellency.

Within a few weeks of these joyous proceedings, all India was startled by the news that Nana Sahib had been at last captured at Ajmere, in the disguise of a fakeer. At first appearances were greatly in favor of this supposition, but when the prisoner was removed to Cawnpore and confronted with persons who had been well acquainted with the real Nana, it was at once discovered that a mistake had been ade. He was accordingly set free, and the Nana remains uncaught. vo villanous murderers during the mutiny have, however, been cap-ed and brought to justice—Kishen Rao, and that arch-traitor Zahr--Hosein—and, so far, justice has been satisfied, though the insuffi-cy of the sentence against the latter has caused great indignation ghout the land.

he first approaches to that local government which only can ly provide for internal progress, have been made by the appoint-a Municipality at Calcutta, and honorary Magistrates in Oude e Punjab. As yet, though there is every appearance of success

in the labors of all of these bodies, sufficient time has not elapsed to show the real effects that will be produced. In the Punjab especially, there are great hopes that the leading members of the native community may be largely imbued with the spirit of self-government, thus providing the best preservative against future disorder. In the course of a year or two it is expected that regular corporations will be established in all the larger towns.

Nor have the Government been slow to recognize the great need for moral and intellectual progress among the masses. In Madras, Mr. Arbuthnot's Education Act bids fai to be of lasting benefit in providing a simple vernacular education for the lower classes. Throughout the Godavery district the scheme is firmly established, and is doing great good; and already other districts have applied for its application to them. The most important of these places is Sydapett, where a large proportion of the population came forward voluntarily to ask to be permitted to tax themselves to provide schools for their children. The various Universities are also growing rapidly in usefulness and importance, especially that of Bombay, where public spirited merchants have devoted large sums towards suitable buildings, the establishment of a library, and the endowment of Professors and Scholarships. The returns of the candidates for academical honors in 1863 show a large increase, not only in the number of applicants, but also of those who have successfully passed the various examinations.

The usually uneventful course of Missionary labor has been chequered by many circumstances which have for a while somewhat saddened those who look upon it as the great civilizing and Christianizing element of the present day. Two fine men, one in the prime of youth and the other in a green maturity, the Reverend Messrs. Scudder and Hislop, have perished by drowning; the one while earnestly engaged in the pursuit of scientific knowledge, and the other while hastening to cross a furious steam which lay between him and his work. Mr. Hislop had worked long and well in the Nagpore territory, and had gathered round him a goodly band of converts, who, in their turn, were working among the masses around; he was further distinguished as the most accurate observer of nature that Central India has yet seen, when he was thus prematurely cut off, leaving a wife and family who have been temporarily aided by the subscriptions of those who respected their husband and father. Another venerated name, that of Dr. Duff, has also ceased to be borne upon the roll of Indian Missionaries. After thirty years of most successful and arduous labor, in the course of which he has done more for education than any other man in India, he has succumbed to toils which were too much for his strength, and, amidst the applause of all the great and good in the land, he leaves us for another sphere of usefulness at Home. His friends and pupils, of whom there are upwards of a thousand in attendance at the Central Institution under his more immediate charge, have resolved to commemorate his brilliant career by the erection of a hall somewhat resemb-

ling in character our own Memorial Hall, which will be one of the principal ornaments of Calcutta. As if these things were not enough to depress the cause of Missions, the American Missionaries in Burmah have quarrelled amongst themselves concerning some ridiculous proceedings on the part of Mrs. Mason, so well known for her previous usefulness among the Karens. After a course of recrimination extending over a whole year, and through which the Mission cause must have greatly suffered, it appears probable that the matter will be settled by reference to arbitration. It is fervently to be hoped that nothing may interfere with the progress of so remarkable a work as has been carried on among the Karens, mainly by the instrumentality of Dr. and Mrs. Mason, and which has only been second to the great work of the Church Missionary Societies in Tinnevelly.

The year concludes in Madras by many important changes among its leading journals. Upon returning to this country, Mr. Vans Agnew, the senior partner in the well known firm of Arbuthnot and Co., and who had always distinguished himself by his energy and ability, has, in furtherance of a great scheme for improving Madras journalistic literature, bought the *Madras Times* and *Examiner* newspapers; and while, in all probability, the latter will be absorbed in the Tri-weekly edition of its great contemporary, the *Times* is to appear under the editorial care of Mr. Lawson, late Editor of the *Daily News*, a spirited journal which has been commenced and carried on during the year. The latter, which has attained a considerable circulation, will be carried on under the temporary care of its late chief, until other arrangements can be made. The *Observer* is, also in all probability, about to alter its character, preparatory to a greatly increased circulation and usefulness, and the *Carnatic Telegraph* becomes a Tri-weekly journal.

† The former is dependent on the Longitude of the Madras Observatory which is 5h. 20m. 57s·3 as determined by the late T. G. Taylor, Esq., F. R. A. S. & F. R. S.; and the latter on the difference of Longitude as determined by the Great Trigonometrical Survey.

ADJUSTMENT OF THE YEAR.

Almost all the nations of antiquity originally estimated the year by 12 Lunar months, which is more than 10 days less than the Solar year.

This in a very short period of time would lead to much confusion and complication, and cause the rapid deviation of the Seasons, so that one Season would be substituted for the other, the Summer for the Winter months, the dry Monsoon for the wet one.

As all the more important arrangements and business of cultivated life depends on the return of the Seasons, it was of the utmost importance that some invariable and uniform standard of time should be adopted.

Their return being regulated by the tropical year, that is the interval between two successive arrivals of the Sun at the vernal equinox, this is the year in common use.

It consists of 365d. 5h. 48m. and 49s·7., but for practical purposes, of 365 days; the odd hours, &c., being thrown out.

To bring in these, an extra day is added to every fourth year, which is given to the month of February.

This allowance, however, is a little too much, and occasions an error of about a whole day in 130 years, to counteract which, it has been settled by Act of Parliament (24 Geo. II, 1751) that the Years 1800, 1900, 2100, 2200, 2300, and every hundredth year of our Lord which shall happen in time to come, shall be computed as each consisting of 365 days only, excepting every fourth hundredth year, whereof the year 2000 shall be the first.

If this method be adhered to, the present mode of reckoning will not vary a single day from true time in less than 5000 years.

Julius Cæsar was the first person who seems to have attained to any accuracy on the length of the year, and fixed it at 365 days and 6 hours; introducing a day every fourth year, (called Leap year,) which accordingly consists of 366 days, while the three others have only 365 days each. From him it was called the Julian Year, and it continued in general use till the year 1582, when Pope Gregory XIII. undertook to rectify the error, which at the time amounted to ten days. He accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 5th day was called the 15th. This alteration took place throughout the greater part of Europe, and the year was afterwards called the Gregorian Year, or New Style.

In England the method of reckoning after the New Style was not admitted into our Calendar till the year 1752, when the error amounted to nearly 11 days, which were taken from the month of September, by calling the 3rd of that month the 14th.

By the same Act of Parliament referred to, the Legal beginning of the year was changed from the 25th of March to the 1st of January, so that the succeeding months of January, February, and March up to the 24th day, which, by the Old Style, would have been reckoned part of the year 1752, were accounted as the three first months of 1753, and is the reason we sometimes meet with such a date as this—

March 15th, 1774—75;

that is, according to Old Style it is 1774, according to the New 1775.

Explanation.—Look for the year in the first part of the table, and opposite it will be found the Dominical letter. When there are two letters together the first is for January and February, the second for the rest of the year. In a line with the month, in the second part of the table, find the Dominical letter of the year and down the same column with the letter find the day of the week, and the figures on the left give the day of the month. Thus for the Sundays in September 1863. Opposite 1863 in the 3rd column is D in the 5th. In a line with September find D, and descend the column to "Sun"—on the left is 6, 13, 20 and 27, the required dates.

To find the age of the 14th day of August. Take from this table the age of the last day of July and add 14, total 226. In Leap years, 1 must be added for the months after February.

SIGNS OF THE WEATHER.

Extracted from a Manual of the Barometer, compiled by Rear-Admiral Fitzroy, and published by the Board of Trade.

"To know the state of the air, the barometer and thermometer should be watched.

"The words should not be so much regarded for weather indications as the rising or falling of the mercury; for if it stand at changeable, and then rise towards fair, it presages a change of wind or weather, though not so great as if the mercury had risen higher; and, on the contrary, if the mercury stand above fair and then fall, it presages a change, though not to so great a degree as if it had stood lower: besides which, the direction and force of wind are not therein noticed.

"It is not from the point at which the mercury may stand that we are alone to form a judgment of the state of the weather, but from its rising or falling; and from the movements of immediately preceding days as well as hours.

"It should always be remembered that the state of the air foretells coming weather, rather than shows the weather that is present—(an invaluable fact, too often overlooked).

"If the barometer has been about its ordinary height, say near 30 inches (at the sea-level), and is steady, or rising, while the thermometer falls, and dampness becomes less, north-westerly, northerly, or north-easterly wind, or less wind, less rain or snow may be expected. On the contrary, if a fall takes place with a rising thermometer and increased dampness, wind and rain may be expected from the south-eastward, southward, or south-westward.

"A fall with a low thermometer foretells snow.

"When the barometer is rather below its ordinary height, say down to near 29½ inches (at the sea-level), a rise foretells less wind, or a change in its direction towards the northward, or less wet; but when it has been very low, about 29 inches, the first rising usually precedes or indicates strong wind.

"Indications of approaching changes of weather, and the direction and force of winds, are shown less by the height of the barometer than by its falling or rising. Nevertheless, a height of more than thirty (30·0) inches (at the level of the sea) is indicative of fine weather and moderate winds.

"A rapid rise of the barometer indicates unsettled weather; a slow movement, the contrary; a steady barometer, with dryness, foretells very fine weather. A rapid and considerable fall is a sign of stormy weather and rain (or snow). Alternate rising and sinking indicates unsettled and threatening weather. A sudden fall of the barometer, with a westerly wind, is sometimes followed by a violent storm from N. W., or N., or N. E. A barometer begins to rise considerably before the conclusion of a gale, sometimes even at its commencement. Although it falls lowest before high winds, it frequently sinks very much before heavy rain.

"The longer a change of wind or weather is foretold before it takes place, the longer the presaged weather will last, and, conversely, the shorter the warning, the less time whatever causes the warning, whether wind or a fall of rain or snow, will continue.

"A few of the more marked signs of weather, are the following:—Whether clear or cloudy—a rosy sky at sunset presages fine weather; a red sky in the morning bad weather, or much wind (perhaps rain); a grey sky in the morning, fine weather; a high dawn, wind; a low dawn, fair weather.* Soft-looking or delicate clouds foretell fine weather, with moderate or light breezes; hard-edged, oily-looking clouds, wind. A dark, gloomy blue sky is windy, but a light, bright blue sky indicates fine weather. A bright yellow sky at sunset presages wind; a pale yellow, wet:—and thus by the prevalence of red, yellow, or grey tints, the coming weather may be foretold very nearly: indeed, if aided by instruments, almost exactly. Small inky-looking clouds foretell rain. High upper clouds crossing the sun, moon, or stars, in a direction different from that of the lower clouds, or the wind than felt below, foretell a change of wind. After fine clear weather, the first signs in the sky of a coming change are usually light streaks, curls, whisps, or mottled patches of white distant cloud. Dew is an indication of fine weather; so is fog. Remarkable clearness of atmosphere near the horizon, distant objects, such as hills, unusually visible, or raised (by refraction), and what is called 'a good hearing day,' may be mentioned among the signs of wet, if not wind, to be expected."

The Proper Motions of Stars.—The two stars, Sirius and Procyon, have long been affected with peculiar proper motions of their own through space which could not well be accounted for; but it now appears, from the researches of Safford and Auwers, that these anomalous perturbations are explained and satisfied by the existence of invisible masses round which these stars may be conceived to revolve—Sirius in 50, and Procyon in 40 years. This theory was started by Bessel many years ago, and is now endorsed by Professor Bond and Sir John Herschel. Where the regular proper motion of any star is only in one element, right ascension or declination, it is not safe to jump at hasty conclusions, but as in this case it is highly improbable that the same law of error should hold for both elements. Bessel's hypothesis becomes greatly strengthened. In the opinion of the eminent American astronomer named above, "the presence of an invisible mass in the neighbourhood of Sirius; comparable with it in magnitude, is entitled to be received as an established fact in astronomy."

* "A 'high dawn' is when the first indications of daylight are seen above a bank of clouds. A 'low dawn' is when the day breaks on or near the horizon, the first streaks of light being very low down."

RULES TO FIND THE LEAP YEAR, EPACT, &c.

To find the Leap Year.

RULE.—Divide the given year by 4, and if there be no remainder, it is Leap year; but if 1, 2, or 3 remain, they show it is so many years after Leap year.

To find the Epact.

RULE.—Divide the given year by 19, multiply the remainder by 11, and the product will be the Epact, if it does not exceed 29; but if it does, then divide the product by 30, and deduct 5, the last remainder will be the Epact.

To find the Moon's Age.

RULE.—To the Epact of the year add the number for the month, and the day of the month, the sum, if it does not exceed 30, is the Moon's age; but if it does, subtract 30 from it, and the remainder will be the Moon's age.

To find the Length of the Day and Night.

RULE.—Having the time of Sunrise and Sunset on any particular day, double the time of Sunset, and it will be the length of the given day, and double the time of Sunrise, and it will give the length of the night.

The Satellites of Jupiter are invisible during the months of Nov. and Dec., Jupiter being too near to the Sun.

The above Eclipses of the Satellites of Jupiter are given to the mean time of Madras.

The Immersion (Im.) denotes the instant of the disappearance of the Satellite, by entering into the shadow of Jupiter; and the Emersion (Em.) the instant of its re-appearance, at coming out of the shadow. They generally happen, when the Satellite is apparently at some distance from the body of Jupiter, except near the opposition of Jupiter to the Sun, when the eclipse takes place near to the body of the Planet. Before the opposition, the Immersions and Emersions happen on the western side, but after opposition on the eastern side, of the Planet. With an inverting telescope, however, the appearances will be directly the contrary. Before the opposition, the Immersions only of the first Satellite are visible; and after the opposition the Emersions only. It is seldom also, that the Immersion and Emersion of the second Satellite can be observed at the same eclipse; but both phenomena are generally visible with the third and fourth Satellites. The fourth Satellite does not enter the shadow of Jupiter in 1864, and is therefore omitted.

To find the time, at which the Immersion or Emersion of any of the Satellites will take place under any other meridian than that of Madras, it is merely necessary to *add* the difference of Longitude (*in time*) to the time of the phenomenon at Madras, if the meridian be *east* of Madras; or to *subtract*, if it be *west*, and the sum or difference will be the time required. But this determines only the instant of the occurrence of the phenomenon: Jupiter may be below the horizon at this time; or he may be above it, and the intensity of Sun light, or even the brightness of twilight, may be such as to render the Satellites invisible. To have the eclipses visible, it has generally been considered, that the Sun should be at least 8° below the horizon, and Jupiter not less than 8° above it, at the same time. Adopting these limits, it is then necessary to ascertain the position of the Sun and Jupiter, with respect to the horizon, at the time of the phenomenon. This may be readily accomplished by means of a celestial globe, or by the times of the Sun's rising and setting, and of Jupiter's rising and setting, given in this Almanac.

The Eclipses of Jupiter's Satellites, especially of the first, afford us perhaps the readiest means of determining the Longitude; all that is necessary to be known being the exact time of observation; the difference between this time and the time at Madras, shews the difference of Longitude at once and it is *east* or *west* of Madras, according as the time of observation is *greater* or *less* than the Madras time. Suppose the Immersion of Jupiter's 1st Sat. to be observed on January 22, 1864, at Trevandrum at 14*h*. 28*m*. 15*s*.7 Mean Time at that place; by reference to page 34, it appears that the Immersion will take place at Madras, at 14*h*. 41*m*. 11*s*.0 Madras Mean Time, the difference 12*m*. 58*s*.3 is the difference of Longitude between Trevandrum and Madras; and because the Trevandrum time is less than that at Madras, we infer that Trevandrum is to the *west* of Madras.

Independent of defects in the tables, there are difficulties attending the observation of these phenomena, which unfit them for *accurate* determinations of Longitude. Different Telescopes give different results; and care should be taken to have recourse to those corresponding observations which have been made under circumstances the most similar, and particularly with telescopes of the same quality and power. When extreme accuracy is not required, the eclipses of the Satellites will always afford a good approximation towards the difference of meridians, and observations of them should on no account be neglected, especially when the Immersion and Emersion of the same Satellite are both visible.

The above Table contains the decimal fraction of a day of 24*h*. It is useful for finding what part of a day, any number of hours, minutes, and seconds are, and consequently may be, conveniently employed in many calculations, where daily differences are involved, such as the daily rate of a clock, or chronometer, the change of which, in any given number of hours, &c., may be thereby readily obtained.

EXAMPLE.—Suppose a clock or a chronometer gains 3*s*·54 in 24*h*., what is the correction to be made on this account for an interval of 3*h*. 30*m*. 25*s*.

3*h*. = 0·1250*d*.	*d*.	*s*.	*s*.
30*m*. = ·0208	0·1461	× 3·54	= 0·517 = corr. for the given interval.
25*s*. = ·0003

PLANETARY PHENOMENA.

MERCURY will be an evening Star, during the early part of January, the whole months of April, May and August, and the first part of September; a morning Star in February, March, and June, and during the first part of July, as well as in October, and the first part of November. He arrives at his inferior conjunction with the Sun on January 25th, May 23rd, and September 24th; at his superior on April 3rd, July 17th and November 10th; at his greatest eastern elongation, on January 9th, April 30th, August 28th and December 22nd; and at his greatest western elongation on February 18th, June 18th and October 9th. He is stationary on January 10th, February 6th, May 12th, June 4th, September 11th, October 2nd and December 30th. When in superior conjunction, that is, when the Sun is exactly between the Earth and Mercury, the latter appears perfectly round but very small—not more than 5′ in diameter—but when in the opposite portion of his orbit or near his inferior conjunction, he presents the form of a slender and brilliant crescent, nearly 12″ in diameter.

VENUS (the largest of the inferior planets) will be a morning Star from January to June inclusive; an evening Star from the middle of August to the end of December. Her telescopic appearance, at the commencement of the year, will be that of a half moon about 20″ in diameter; diminishing slowly both in brilliancy and size until her superior conjunction, which takes place on July 17th, she then appears perfectly round, not more than 10″ in apparent diameter. By the end of October she will turn somewhat gibbous, but her diameter will not exceed 12″; and at the latter end of December her size and figure will be nearly the same as at the beginning of January.

MARS* with his fiery reddish hue, will be fine and viewable this year. He will be a morning Star until June, rising after midnight. His apparent diameter, which in May will not exceed 5″, will increase gradually to 10″ early in September and to 17″ at the time of opposition about the end of November. The planet will afterwards diminish both in intensity of light and in apparent size, until the end of the year, when he will be a little more than 12″ in diameter.

Astronomers will take much interest in observing Mars together with the Stars situated near his path about the time of opposition with a view to the determination of his parallax from the corresponding observations of differences of declinations between the planet and the Stars made at places differing considerably in latitude, such as the observatories in the northern and southern hemispheres.

* This planet, while in opposition with the Sun in 1862, was so conspicuous, that extraordinary observations were made of it for determining the Solar parallax.

JUPITER with his magnificent pure white light adorns the sky in the morning throughout January and from the middle of December. He will be an evening Star from the month of August till the early part of November. He may be seen all night from the middle of April to the end of May. His interesting belts and eclipses and other phenomena of four Satellites are well worthy of examination. His greatest apparent diameter will be nearly 42", when in opposition in May; his least, under 30", when in near conjunction with the Sun in November.

The eclipses of Jupiter's Satellites, best observable throughout India and elsewhere, are given in tables on pages 34 and 35 in Madras Mean Time. Between opposition and conjunction, that is from May till November of the current year, the eclipses will occur on the eastern side of the planet, but in the other portions of the year, to the west of the primary. When the immersion and emersion of the same Satellite are given, it must be remembered that both phenomena take place on the same side of the planet, but the emersion is always to the east of the spot at which the Satellite vanished. Any good pocket telescope, if steadily supported, might render the Satellites visible and their eclipses observable.

SATURN with his pale brightness will be a morning Star from the middle of October to the end of December; an evening Star from the middle of July till the end of September. He is in quadrature with the Sun on January 8th and July 3rd, and becomes stationary on January 28th and June 14th, when his apparent diameter will be 16" nearly.

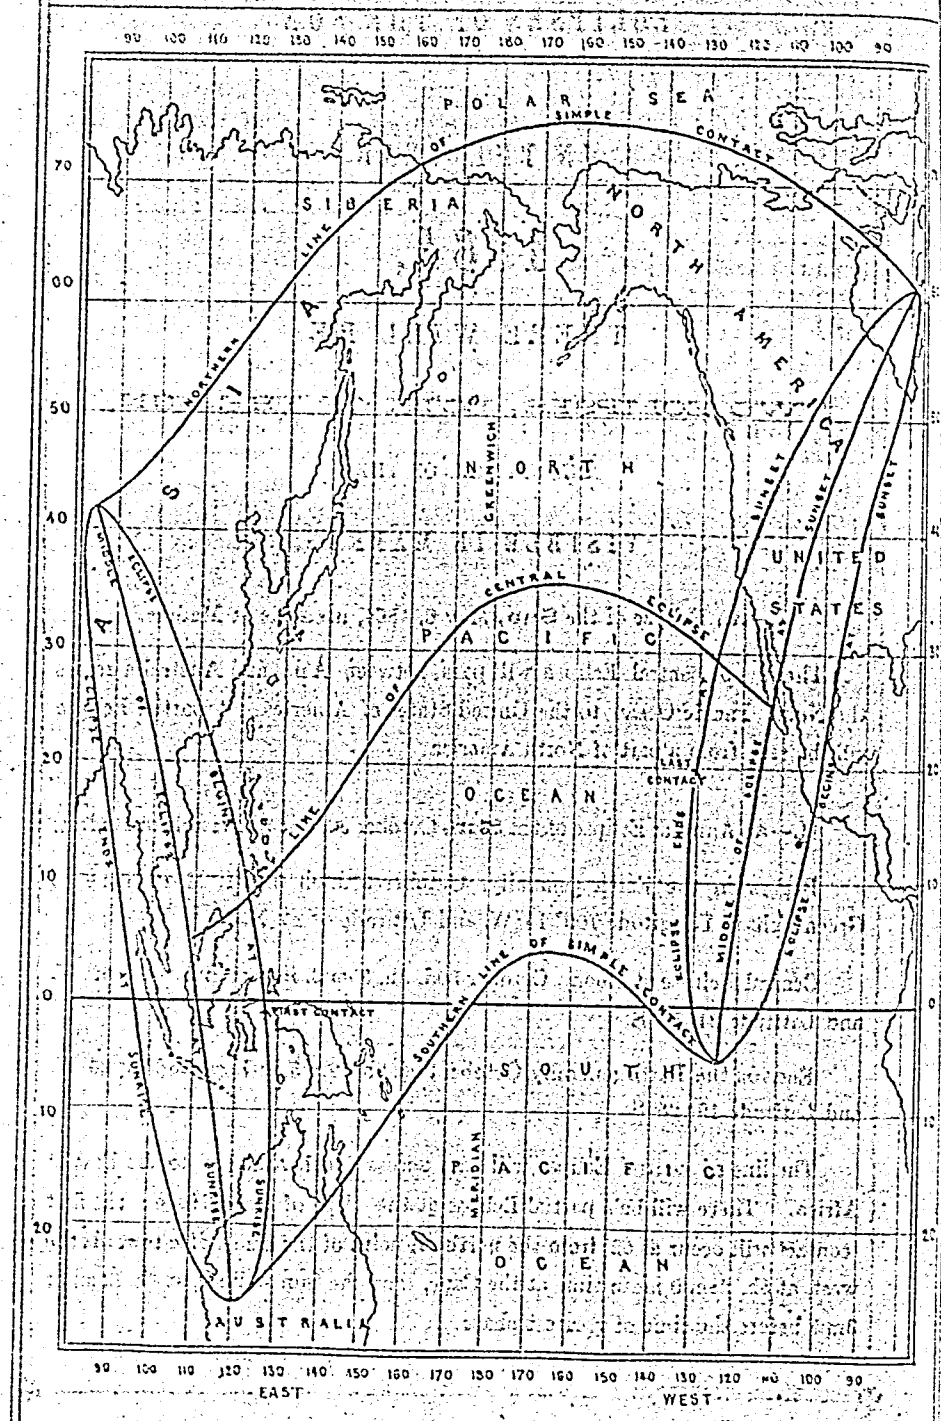
SATURN is attended by eight Satellites, five of which may be readily seen with any good telescope; but the remaining three require the best instruments yet constructed to render them discernible.

URANUS AND NEPTUNE are both readily visible with a mere pocket glass, when their positions are well known: (see page 38 for the Declination of Planets) though neither are distinguishable from the fixed Stars except with superior instruments, charged with high magnifying powers. Uranus will be in opposition on December 19th as a Star of the sixth magnitude, the faintest visible without telescopic aid in the absence of moonlight, in right ascension 5h. 48m. and north declination 23° 38'. His apparent diameter, is about 4". Neptune, never more than 2½" in diameter, and only of about the eighth magnitude as compared with the fixed Stars, will be in opposition on September 30th, in right ascension 0h. 27m. and north declination 1° 20'.

THE MINOR PLANETS between Mars and Jupiter, are now seventy-seven in number; seventy-four having been discovered within the last eighteen years. The only one ever visible to the unaided sight is Vesta, which under certain conditions can, for a brief time when near opposition, acquire a brilliancy equal to Stars of the fifth magnitude. A complete historical table of them will be found on pages 22 and 23.

ECLIPSE OF THE SUN.

TRACK OF THE MOONS SHADOW AND PENUMBRA UPON THE SURFACE OF THE EARTH DURING THE ECLIPSE OF THE SUN, 6TH MAY 1864.



A. BARRON, CHROMO LITHOG: MADRAS.

ECLIPSES OF THE SUN.

IN THE YEAR

1864,

THERE WILL BE

TWO ECLIPSES, BOTH OF THE SUN,

AND NEITHER OF THEM

VISIBLE IN MADRAS.

I.—An Eclipse of the **Sun**, May 6, 1864, invisible at Madras.

The line of central Eclipse will pass between Asia and Australia across the North Pacific Ocean to the United States of America. A partial Eclipse will be seen from a part of North America.

II.—An Annular Eclipse of the **Sun**, October 30, 1864, invisible at Madras.

Begins on the Earth generally, October 30d. 0h. 31m·1, Mean Time at Greenwich, in Longitude 100° 14′ W. and Latitude 6° 25′ N.

Central Eclipse at Noon, October 30d. 3h. 35m·2, in Longitude 57° 52′ W. and Latitude 24° 56′ S.

Ends on the Earth generally, October 30d. 6h. 29m·5, in Longitude 6° 26′ W. and Latitude 19° 25′ S.

The line of central Eclipse will pass across South America to the East of Africa. There will be a partial Eclipse at the Cape of Good Hope; the first contact will occur at 62° from the northern point of the Sun's disc towards the west, at 5h. 23m·0 mean time at the Cape, and the Sun will set at 6h. 25m, or 3m·5 before the time of greatest phase.

GOVERNMENT CENTRAL MUSEUM.

PANTHEON ROAD.

Instituted by the Madras Government, 14th August 1851.

Captain Jesse Mitchell, Superintendent: P. Rungasawmy Moodeliar, Curator; C. Authecasavooloo Naidoo, Assistant Curator.

This is a Museum of Natural History and Economic Geology. It has also a Miscellaneous department illustrating the manners, customs and manufactures of various people.

A Library and Reading Room is attached to the Museum. It is intended that it shall contain such standard works of reference, particularly in the Natural Sciences, as from their costliness or bulk are not usually found in private Libraries, especially in India, or are not readily accessible. The efforts of the Superintendent are at present directed to the completion of a Natural History Library as the most important to the Museum.

The Library contains at present about 1,504 miscellaneous works, 31,115 numbers of the London Patent Office Papers, descriptive of Patents for Inventions that have been granted from A. D. 1617 to A. D. 1861, and 1,059 vols. of standard works of reference chiefly on the subjects of Botany, Geology, Paleontology and Zoology. Donations of works of the above description will be thankfully received by the Officer in charge.

The Museum is opened gratuitously to the public daily from 6 A. M. to 6 P. M. with the exception of Sundays, the vacation in January, and after the Easter holidays.

Tickets of admission to the Reading room may be obtained by any person of known respectability on application to the Superintendent.

Visitors to the Government Central Museum since its establishment.

PEOPLE'S PARK, MADRAS.

INSTITUTED IN 1859.

COMMITTEE OF MANAGEMENT.

Colonel W. P. Macdonald, *President.*

MEMBERS.

Col. W. K. Worster,	Col. G. W. Y. Simpson,	Major Bell, *(Europe.)*
Col. H. W. Hitchins,	A. J. Arbuthnot, Esq.	Dr. H. B. Montgomery.
Dr. C. M. Duff,	J. Rohde, Esq.	

Surgeon Major J. W. Mudge, M. D., Honorary Secretary.

We need scarcely remind our readers that the People's Park of Madras owes its origin to Sir Charles Trevelyan, K. C. B., our late talented and energetic Governor. His Excellency shortly after his arrival perceiving the urgent necessity which existed of providing a place for out-door amusement and exercise for the great body of the middle classes of Madras, (who are almost exclusively Eurasians) suggested the idea of the now intended Park. The sanction of Government was readily granted, and prizes were offered for the most suitable designs for laying out the Park. The idea of the competition for the prizes was eagerly laid hold of by the public, and within three months of the announcement no less than sixteen plans, all of them meritorious and some of them possessing very great excellence, were submitted to a Committee appointed by the Government to award prizes for the best designs. The first prize was granted to Mr. Robert Baldrey, who, under the suitable motto of "Trees and Water for a hot climate," contributed a design, not only possessing high artistic merit, but also fulfilling almost all the requirements of a Public Park. To Captain Brooks of Poonamallee, a prize of 100 Rupees was allotted, and to Captain C. P. Taylor, and J. W. Addis, Esq., rewards of 50 Rupees each were subsequently presented.

The Park is now established as one of the Institutions of Madras and has been opened to the Public. It must be considered an unqualified boon to the community. Trees are growing up. The first instalment of a Zoological collection has been introduced. The Tigers' and Panthers' cages daily attract hundreds of visitors. A handsome Aviary has been put up. A Giraffe, a Bear, several specimens of the Sambur, Neilgherry and spotted Deer are to be seen in appropriate enclosures, a large building for Monkeys is nearly completed, and a handsome roof to the Band stand has been erected. All the main roads are finished, and the course of a few months will see the Park completed, and various other works are in contemplation. The grass which has been carefully planted in the cultivated portions of the Park already returns a revenue to Government, and hay of the best description is produced in considerable quantity.

Grants for the prosecution of the works are made from the funds of the Department of Public Works on Budget estimates submitted in the usual way, and any proceeds arising from the sale of hay or other sources are paid into the Treasury and credited to the general revenue of the State.

A Band plays weekly in the Park.

NOTIFICATION.

Consequent upon the passing of Act No. XVI of 1862, by the Governor General of India in Council, the Income Tax Commissioners for the Town of Madras hereby notify, that, for the Income Tax year 1862-63, commencing on the 1st August 1862, no person will be chargeable to any Duty under Acts XXXII and XXXIX of 1860, whose annual profits or income, from whatever sources derived, do not amount to 500 Rupees. All profits and incomes amounting to Rupees 500 and upwards per annum, will be assessable to the Income Tax as before.

2. Any arrears of Income Tax Duty that may be due for the years 1860-61 and 1861-62, from parties whose incomes are not liable to the Tax during 1862-63, must be liquidated at once, and the amounts paid to the Collector of Income Tax in the usual manner.

3. With reference to the above Notice,* published in the Fort St. George Gazette of the 1st August 1862, those persons who may wish to be assessed "anew," instead of having the assessment of last year confirmed, should apply, without delay, to the Commissioners or to the Assessor of their division (or to the Special Commissioner should they wish to be assessed by that officer) for Forms of Returns.

4. In these Returns must be entered their Income or Profits for the past year, and these returns must be sent in to the Commissioners, Assessor, or Special Commissioner, on or before the 1st October 1862; that is within two months from the 31st July 1862.

Their names will at once be registered as having thus applied, and they will be furnished with the necessary Forms of Returns.

7. Unless parties claim within the period above mentioned to be assessed "anew," the assessments made for the past Income Tax year 1861-62 will be maintained for 1862-63, and bills for the same presented, quarterly, by the Income Tax Collector.

8. In cases where the Commissioners have reason to believe that parties have not been assessed, during the past years, but are liable for the current year 1862-63 (commencing 1st August 1862), or in cases where parties have made a fraudulent or obviously inadequate Return for the past Income Tax years, the Commissioners will issue to all such parties special notices as provided in Section XXXVIII. Act XXXII of 1860, accompanied by Forms of Returns in which must be entered the Income or Profits from all sources soever derived during the past year or years, and this Return must be forwarded to the Commissioners or Assessor within the time specified in the special notice.

9. Any parties failing to make such Returns will render themselves liable to the penalties of a fine not exceeding 200 Rupees, and to an assessment of treble the amount with which they may be justly chargeable.

10. The Returns made in compliance with these special Notices will be disposed of by the Board of Commissioners, as provided in part IV of Act XXXII of 1860, Sections LIII and LIV.

11. Any information required by parties to enable them to fill in their Returns, or on any subject connected with the Income Tax, can be obtained at the Income Tax Office, Government House.

Office of the Income Tax Commission, Madras, 6th September 1863. } N. MORISON, *Secy. to the Income Tax Commission.*

INAM COMMISSION.

1. The Madras Inam Commission was organized in the official year 1859-60. The main object of the Commission is to effect a satisfactory settlement of an enormous mass of property which has hitherto remained in a state of precariousness and uncertainty, to elicit order out of confusion, and thus to substitute contentment for vexation in the minds of a large and important portion of the population.

2. This object is proposed to be attained by an investigation into the original titles of Inamdars conducted on the following principles :—

3. Proved possession of an Inam for 50 years is to constitute valid title. In the case of personal grants, whether hereditary or conditional, an option is allowed to the holders to convert their terminable tenures into permanent freeholds, upon reasonable terms, in commutation of the reversionary rights of Government in the Inams. These terms are the immediate and permanent charge of an annual quit-rent of one-eighth of the full assessment, in the case of Inamdars having heirs competent to continue the family, of one-fourth when there are only terminable heirs, and a half when the incumbent is without heirs altogether.

4. The enfranchisement of the tenure is compulsory on aliences ; but the terms of commutation, in their case, are the same as those offered to the descendants of the original grantee.

5. The Inamdars are further allowed to absolve themselves at any time, from the quit-rent thus stipulated for, by the payment once for all of twenty times its amount.

6. Inams of more recent standing than 50 years are also recognized and admitted to a compromise. The terms of the compromise are the immediate imposition of a quit-rent on the Inam equal to a quarter, half, or two-thirds of its full assessment according to length of possession and other circumstances attending the grant.

7. The resumption of an Inam is totally disclaimed ; except when it has been satisfactorily proved that the Inam was obtained through fraud.

8. Inams held for religious and charitable objects are confirmed tax free, if old, and continued so long as the conditions are fulfilled.

9. On the validity of an Inam being established on the foregoing principles, a Title Deed is issued to the Inamdars specifying the terms of his future tenure, which is to secure him and his successors from any further scrutiny by Government, regarding the origin of the Inam.

10. Inam held for Police service, now no longer required, are also confirmed subject to a quit-rent not exceeding half of the assessment according to the nature of the service of which the holders are relieved. The quit-rent accruing from this source is intended to meet the cost of the new Village Police.

11. The system of adjudication based as it is on principles of liberality and justice, is not only highly acceptable to the great body of Inamdars concerned, but has also been practically found most admirably adapted to accomplish the great object held in view. It at once realizes all the interest which the Government fairly possesses in the Inam tenures, while it secures to the Inamdar an indefeasable right in his property, which he never before possessed, and which now enables him to transmit it without interference to his posterity.

12. The results of the settlement are already before the public in the several published reports of the Commissioner, and in the general administration Report of the past official year.

13. The settlement has met with no opposition. The enquiry has been brought to a close in the Godavari, Krishna and Madras Districts, the Ceded Districts and Kurnool, North Arcot, Nellore, South Arcot, Ganjam, Vizagapatam, Tanjore and Coimbatore.

14. The number of claims decided by the Deputy Collectors from the commencement of the undertaking to the end of September last is 3,19,554, exclusive of Village Service Inams. The number of cases already reviewed and confirmed by the Commission is 3,07,767 comprising an extent of 45,17,199 acres assessed at Rupees 58,78,176 and already charged with a Jodi of Rupees 6,13,179. The permanent annual addition made to the Revenue of Government in the shape of Quit-Rent is 11,17,993. The personal grants enfranchised from which the additional Quit-Rent is mostly derivable bear an estimated value of Rupees 34,47,211, upon which Quit-Rent charged inclusive of the Jodi already paid is Rupees 5,30,079. The personal grants confirmed on the present restricted tenure owing to the unwillingness of the holders to enfranchise them are only 6,145. In few cases only has the Quit-Rent been redeemed, but this is not to be regretted, since the little capital that exists in the Country can probably be turned to a more profitable account in private hands.

15. During the progress of the settlement in the several Districts above mentioned, various special and exceptional tenures and long pending questions of importance came under the consideration of the Commissioner ; and the result has been that several existing taxes arbitrarily imposed by the former Governments have been abolished, and a uniform rate substituted in their stead, conformably to the rules of enfranchisement. The effect of this will be, that while the future Quit-Rent then substituted will be double the amount of the cesses abolished, its pressure upon the Inamdars will not on the whole be felt so heavily, owing to the alleviating circumstances attending the present settlement which secures to the holders of Inam property a perfect security of title.

16. Similarly all the measures either carried through or initiated by the Commission up to the present time have for their object the recognition and confirmation of existing rights and the enhancement of the value of Inam land hitherto greatly depreciated by the conditions attached to its tenure.

17. An important question taken up and settled by the Commission is the enfranchisement of the Village Service Inams at 8th of their Assessment in the Ceded Districts and Kurnool, the object being to provide, with the proceeds thereof, for the certain and ready remuneration in money of the Village Revenue and Police Establishments. These Inams have hitherto been diverted from their proper object having been all along considered as private property and enjoyed in numerous shares by all the members of a family, some of whom only were the actual office-holders. The consequence of this was that the service was most inefficiently performed. With a view to put a stop to this state of things and to provide for the efficient performance of the Village service, the Village Establishments are now being revised under the rules laid down by Government, their remuneration being fixed at rates determined according to the circumstances of each Village and paid from the proceeds of the enfranchisement of the Service Inams. This reform has been generally carried out with success in the Districts above named.

18. Under Regulation IV of 1831 and other restrictive Enactments Inam lands were exempted from the jurisdiction of the Civil Tribunals except under the sanction of Government previously obtained. But this restriction has now been withdrawn, since the Inams have been enfranchised and placed in the same position as other descriptions of landed property, and Act IV of 1862 (Madras) has been accordingly passed, declaring all such Inams exempt from the operation of the above restrictive Enactments, and amenable to Courts for debts and other liabilities as other Ryotwar lands without the interference of Government.

They will in such case receive the notes at the Office of the Commissioner at the Bank one clear working day after their applications.

A charge of one per cent. will be levied as Seignorage on all Gold tendered for coinage,* and a charge for refining will be added on all Bullion below certain standards, agreeably to the following scale :

* The Assay Master is at liberty to levy the usual fees on the assay of all private Bullion brought to him for that purpose, and appropriate the same to his own use, agreeably to the usage of the Mints of Calcutta and Bombay.

126-e

Parties bringing Bullion to the Mint for Coinage shall be at liberty to withdraw the same within two days of the Assay report being made, if dissatisfied with the valuation, but on payment of fees for Assay, viz. four Rupees for each sample of gold and two Rupees for each of silver, together with the actual charges of melting the same, or they may be allowed a re-trial; but if the second assay give the same result, they shall become liable to double fees upon withdrawing their Bullion, otherwise only to the authorized fees for the extra Assay. Gold shall be returned as a matter of right to all parties who may deliver in gold to the Mint for Coinage.

All Bullion, which may be found brittle, will be returned unless an additional charge of 1½ per cent. be paid.

Under Act XIII of 1862 to provide for a new silver and copper Coinage for India, the new Rupee exhibits as its obverse a well executed likeness of Her Majesty, wearing the Imperial Crown and a rich Indian robe over the shoulders. Around the neck are shown several strings of pearls. The simple legend "Victoria Queen" completes the design. The reverse consists of a scroll pattern passing round the entire circumference of the Coin and enclosing the words "One Rupee, India" and the date "1862." The half rupee, quarter rupee, and two anna pieces, are reduced fac similes of the rupee, both as regards their obverse and reverse, their respective values being imprinted upon them.

The obverse of the largest Coin of the copper currency, the half anna, is identical with that of the rupee. Its reverse is a little different. A continuous wreath runs in an undulating form round the circumference, but it is of a simpler and less ornamental character. The value of the Coin and the word "India" figure, with the date, in the centre. The subordinate denominations of the copper series are copies, in design, of the half anna. The slight difference observable in the wreaths of the reverse faces of the silver and the copper series, has been made solely with a view to prevent the chances of the latter being tampered with by use of the electrotype or other means, and passed for silver.

The present power of the Mint is capable of giving a daily out-turn of 300,000 pieces of Silver and Copper in eight working hours or an average of 80,000,000, 8 crores pieces annually. The value fluctuates according to the amount of Bullion received.

At the Mint Foundry cast iron works of every description are made for the Ordnance and Engineer Departments as well as for Private Establishments and Shipping.

PURLA KIMEDY SURVEY.

Lieut. H. St. M. Wynch... ...1st Assistant Superintendent.

The mode of Survey pursued is to take main circuits by the traverse system of about 100 or 200 square miles, connected, where practicable, with stations of the Great Trigonometrical Survey, and then by the same method to take the circuit of each village boundary, or of sub-divisions of the villages, where they are large. The whole of the Government lands, except hilly and jungly tracts never likely to come under cultivation, are then measured in the detail of fields. The Topographical features of the country are delineated, and the whole is recorded in the form of Village maps on the scale of 16 inches to the mile, in Talook maps of 2 inches to the mile and District maps of half inch to the mile.

The duties of the Settlement Department divide themselves into two branches, *viz.* the Demarcation of boundaries for the Survey, and the Classification and Assessment of the lands.

The exterior boundaries of Villages are marked by masonry pillars at the tri-junctions and the two adjacent stations, as well as at other prominent points; the intermediate bends of minor importance are marked with earthen mounds, or with stones, where they are available. The masonry pillars thus employed are considered quite sufficient to admit of the theodolite stations of the traverse of the village boundaries being retraced in case of such a step being necessary at any future time. Where the villages are large they are marked out in divisions of 200 to 400 acres, in order to facilitate the check on the aggregated measurements of fields, and also to give more permanency to the Survey, by affording the means of retracing any obliterated portions from starting points in the interior of the village area, instead of trusting only to the marks on the exterior of the village boundary. The marks on these sub-divisions are earthen mounds, or stones where procurable. Trees also are planted on these as well as the exterior boundaries.

The boundaries of the fields are marked by earthen ridges about half a yard high, and extending about 2 yards from each corner in the direction of each side of the field, with intermediate ridges of 2 or 3 yards in any long distances. Where the fields are small, they are clubbed together for demarcation, provided the area of such aggregated patches does not exceed 2 acres of irrigated, or 4 acres of dry land.

The Demarcation establishment prepare on the ground rough sketches of the boundaries of the villages, and of their sub-divisions and also of the fields in each village, showing the relative position of each field; corresponding with these sketches, a Field Register is prepared giving the numbers of the fields, the names of the owners or occupants, the nature of the tenure and other necessary particulars. The village when thus demarcated are handed over to the Survey Department along with the Sketches and Registers above described.

For the classification of soils, the following four great series are adopted :—

1st. The *Alluvial and Exceptional* series which provides for the rich island soils of extraordinary fertility, and for garden and other soils permanently improved, and ranking above the ordinary cultivation.

2nd. The *Regar* series, comprising what is called the black cotton soil, with all its varieties under the head of Masab and other native terms, which are not very definite.

3rd. The *Red Ferruginous* series, originating from sandstone, laterite, &c., and possessing distinct characteristics in its constitution and fertility.

4th. The *Arenaceous* series, comprising chiefly the sandy tracts originally deposited from the sea in littoral districts.

Classes are then assigned to each series to take in all its varieties of fertility, and grain values in the staple produce are allotted to each class. The grain value is commuted at what is considered a moderate and fair price, a certain deduction made for expenses of cultivation, &c., and eventually after taking into account the circumstances of proximity to the homestead, to markets, roads, canals, &c., as well as the sources and sufficiency of irrigation and drainage, an assessment is fixed approximately in the ratio of the net profits.

RULES.—This Department is controlled by Act VIII of 1860.

Messages are transmitted on the Telegraph Lines in India, at the following Rates:—for distances of 400 miles, or less, messages of 16 words and under, are charged one Rupee; over 16 words, the charge increases at the rate of one anna for every additional word; peon hire is charged at the rate of 2 annas per mile, measured from each Telegraph Office; cypher messages are sent at the ordinary price, but can only be received in numbers written in full, or in common English words of concealed meaning; the rates are doubled for distances over 400 miles, and under 800 miles; tripled for distances over 800, and less than 1,200; quadrupled for distances over 1,200, and less than 1,600; and so on an additional rate is charged for each distance of 400 miles, or part of 400 miles; when the messages are to be repeated, one half extra is charged, and it is only for "Repeated" messages that Refunds of Charges are granted on account of inaccuracies or delays;—the repetition of Mercantile or other messages involving important results is optional, and not compulsory as heretofore; no enquiry respecting this message will be attended to without the production of this paper.

All messages must be paid for in cash at the place from which they are despatched, and before transmission, except messages between India, England, and China. Answers, however, may be prepaid by the sender of the message as at present.

Messages are received at all Telegraph stations by night as well as by day: the charge for all messages sent between sunset and sunrise being double the usual rate.

Messages, which must be prepaid, are transmitted at the following rate:—For 16 words and under, including the name of the sender and the name of the person addressed, the date and the names of places of despatch and destination, unless they be also the names of Telegraph stations, is charged one rupee for a single distance. No charge is made for stops, or for prepositions or such words as "and Co." "Mr." and "Mrs." occurring in the address of a message. No message or messages beyond 200 words in all can be sent at one time by one individual or Firm; and no second message can be sent till after the lapse of three hours unless the line be free and not required by any one else. The sender of a message may prepay the charge for a reply.

* Opened during the residence of the Governor.
† Opened during the Monsoon.

Private messages are transmitted in the order of their receipt at the office. When two or more messages are tendered at the same time, the shorter take precedence. So does a message in ordinary language precede one in cyphers. Messages are sent to the Post Office in letters bearing postage, if instructions to that effect be given. Messages may be sent from places not having Telegraph stations by Post and Telegraph, but these must be written on stamp paper, to be had at the Civil Treasuries or of vendors, of the value at which the message is charged for, and must be superscribed conspicuously "Electric Telegraph Despatch." Subscriptions for daily message of 48 words or more are received at an abatement of one-fourth of the usual rate.

A single distance is commonly any distance not exceeding 400 miles; and for every additional single distance, a charge equal to a single distance will be made.

Peon hire, at the rate of 2 annas per mile, will be charged, if the message be sent to a place beyond half 2 miles distant from a Telegraph station.

One Rupee is the minimum rate for messages however brief, excepting when sent between Madras, and the Mount and Poonamallee, when the charge is 8 annas for 16 words.

A message may be repeated at an extra charge of half the amount otherwise payable for it, and a refund obtained of money so paid in case of non-delivery, unreasonable delay, or gross error.

All messages for despatch should be directed to the "Assistant in Charge of the Telegraph Office," and the envelope should be marked outside, "Message for Despatch."

It often happens that the message is directed to the Superintendent, Deputy Superintendent, or other Officer who may be in some distant part of the country. Even in such a case if it bears the mark "Message for despatch" it is at once opened, and all is well—but without this distinguishing mark, it is of course forwarded to its address, and a delay of days or even weeks may result.

REVISED RULES.

I. Messages are received for despatch at all hours day and night, with exception of Sundays, Christmas day, New Year's day, Good Friday and the Queen's Birth day, when the Offices will be closed between the hours of 8 and 16 (or 4 P. M.)*

Private Messages tendered for transmission on ordinary days, between 18 hours (or 6 P. M.) and 6 hours of the following day, and between 6 hours and 8 hours, and 16 hours and 18 hours on the above named holidays will be charged double the ordinary rate.

II. Messages are transmitted by Telegraph between all the Stations enumerated in the accompanying list, at the rate of 16 words for one Rupee for each distance of 400 miles or under; 2 Rupees for all distances between 400 and 800 miles; and so on.*

III. The distances are estimated by the direct Map line, and not by the actual length of wire.

* A single rate extra is charged on all Messages between any station in Ceylon, North of Colombo, and two rates on Messages for Colombo and stations South of it, and the Continent of India

IV. No message, however short, is sent for less than one Rupee.

V. For each word above 16, one anna additional is charged for each rate of distance. Thus for 16 words from Calcutta to Bombay (3 distances), the charge for 16 words or under is 3 Rupees; for 19 words, 3 Rupees 9 annas.

VI. Peon hire for the delivery of private* messages, at the rate of two annas per mile, will be charged for all distances beyond two miles from the Telegraph Station.

VII. The *names* of sender and addressee are charged in the address. Initials count each as one word, and it is recommended that the Christian name should always be spelt in full.

Compound names such as McNaughten, O'Donnell, DeSalis, Von Meyern, St. Clair, count as one word, provided the prefix be no more than one syllable.

VIII. In the *address* of a message, the words *From, To, Mr., Mrs., Messrs.*, and *Co.*, and all ordinary *prefix* designations, such as *Capt., Lieut.-Colonel, Sir, Lord, Baboo, Rajah, Nawaub*, are passed free, provided the designation be no more than two words, as *Major-General, Lieut.-Colonel.*

Affix designations are charged for, word by word. Thus, "From Bangalore, from Mr. *Brown*, To Calcutta, to Lieut.-Col. *Smith, commanding 60th Rifles*:" the words in italics are charged, the others are sent free.

IX. The names of towns from and to, if Telegraph Stations, are also sent free; but are charged for if not Telegraph Stations. Names of quarters, or streets, or numbers of houses, must be paid for.

Messages addressed to large cities such as Calcutta, Bombay, and Madras, should always have the residence of the addressee specified by Street and number, and messages to such names as Smith, Jones, Brown, &c., should have the Christian name or profession of the addressee, to prevent misdelivery.

X. The day, hour and minute of receipt of a message into a Telegraph Office for transmission, is in every instance added by the Department, following immediately the text of the message, and is telegraphed free of charge. Senders may date their messages if they think fit, but the senders' date will be charged for, and will, in view to avoid confusion, if given at the end, be transferred to the beginning of the text of the message.

XI. In the body of a message every word is charged. Stops, inverted commas, and notes of interrogation, are free.

XII. The accuracy of messages is not guaranteed, and the sender and receiver have to accept all risk arising from errors and delays.

XIII. Senders of messages are *advised* to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.

XIV. The accurate transmission of messages is rendered much more certain by being repeated back from each repeating Station. This repetition is charged for at half price extra, and is advised in all messages of great importance.

XV. The errors which chiefly occur are in the numerals, such as *sixteen, sixty—thirteen, thirty*, owing to the sound and first three or four letters being similar. To obviate this, it is recommended that in all financial or money messages the sum be given in two forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1000." When this is done, an error is of very rare occurrence.†

* Circular Order No. 886, dated 19th November 1859.—"Under the orders of the Hon'ble the President in Council, dated 18th November 1859, peon hire is not to be charged in future for Service Messages, and no extra charge is to be made on such messages when they are sent by night."

† The accidental omission of the word Not, causing in many cases the total change of the intended meaning of the message, this word is always signalled, in slow time, twice over by the sender, and once back by the receiver, at each station. The same precaution is taken in signalling the words *cur* and *your*.

XVI. Messages in cypher are transmitted at the ordinary charge, but must be in numbers, and these written in full, as in a cheque, or in ordinary English words of concealed meaning.

Figures are telegraphed as if written in full, as in a cheque, and charged for according to the number of words; thus, "Rupees fifteen hundred and sixty-four," count as six words.

XVII. Should a message in cypher be tendered for transmission simultaneously with a message in ordinary language, the latter will take precedence of the former.

XVIII. All messages must be in the English language.

XIX. The name of the sender must be written on the face of every message.*

XX. "When a Message is delivered in an unintelligible state, a refund of the cost of portion rendered unintelligible will be made to the sender if application be made within 3 months of the date of despatch, provided the message has not been transmitted beyond the limits of India or Ceylon, and within 6 months in the case of Messages for countries beyond India as Egypt or Europe. Such refunds will be made irrespective of whether the Message has been paid for at repetition price or not, but no refund will be given for an error in an unrepented Message arising from wrong figures being given, unless the precaution advised in XVI of these rules shall have been adopted. Refunds on account of Messages which have not reached their destination will be made subject to the above limits as respects time."

XXI. Refunds will also be made in all cases of non-delivery or unjustifiable delay of messages, whether repeated or not. By unjustifiable delay is meant that arising from neglect in the Offices. When a message is detained by an interruption on any section of the line, and is sent on by next post to the nearest Telegraph Station, the time occupied by the post is not allowed to count as delay in the Telegraph Department.

Expresses are never started for private messages, but only for Mail News or Government despatches of great importance. But when an express is required for these purposes, advantage is taken of the opportunity to send on all private messages on hand.

XXII. Complaints respecting errors or delays or neglects in the delivery of Messages, and applications for refund should be addressed to the Director General of Telegraphs in India, Complaint Office, Calcutta; an exact copy of the Message complained of and the receipt of the despatching Office should in all cases accompany the complaints.

XXIII. Private Messages shall be despatched in the order of their receipt in the Telegraph Office. Should two or more messages be tendered simultaneously, the shortest shall have the precedence, without reference to its relative importance.

XXIV. No message or messages of more than 200 words in all can be sent at one time by any individual or firm, and no second message by the same individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.

XXV. Senders cannot choose the line, but they may send by two or three lines on the payment of double or triple price.

XXVI. Messages will be forwarded by post to places not having Telegraph Stations, but only in *registered* letters, the registration fee to be paid by the sender of the message.

* An exception will be made to Clause XX of the rules of the Department in cases where the signature has been omitted, and it has been afterwards impossible to make good the omission.

Messages received from passing ships are very likely to be sent without signature from ignorance of the rules of the Department by passengers and others who may, probably, be arriving in India. In all such cases the transmission of the Message must not be withheld, but they must bear at foot a note as follows: "Received unsigned." This foot note must be entered in the fair copy of the Message sent out for delivery as a caution to the receiver."

XXVII. Messages will be received by post from Europe or elsewhere for transmission, if money be deposited before-hand at the despatching Station sufficient to pay for the transmission. Such messages should always be addressed as per margin, and *not* to the Superintendent or Deputy Superintendent. This mistake often causes the letter to be sent by post to the Head Quarters of the Department. All such letters should invariably have the words "*Telegraph Message for Despatch*," written conspicuously outside.

"To the Assistant in charge ——— Telegraph Office."

XXVIII. Postmasters at places of importance not having Telegraph Stations, will be provided with copies of the Rules, and with Tables of distances and charges, and with forms on which the message should be written.

XXIX. Messages so sent by post must be prepaid by Telegraph stamps, and will be transmitted from the nearest Telegraph Station, where the stamp will be cancelled by being written across by the Assistant in Charge.

XXX. The stamped messages should be despatched marked conspicuously "*Telegraph message.*"

XXXI. Adhesive Telegraph stamps will be procurable from the Civil Treasuries and private vendors. They should be affixed on the face of the message, so as to be *inside* when the message is folded up for transmission by the post. The usual postage must of course be paid in addition.

XXXII. In cases of extreme pressure of business, Assistants in charge of Offices may refuse to receive for despatch any messages beyond the number which experience shews may be cleared off within the day. The messages in such cases are not to be received and kept for despatch the following day, but must be returned so as to prevent accumulation.

XXXIII. In case of interruptions on any line, Assistants in charge of Offices have the power to refuse the receipt of messages for transmission.

XXXIV. When an interruption occurs, notice to that effect is to be posted conspicuously at the entrance of each Office, and communicated to the Press for public information.

XXXV. In every such case all persons tendering messages for places beyond the interrupted section, are to be informed of the interruption, advised not to leave the message, and acquainted that a refund will not be made in case of delay from this cause.

XXXVI. The sender of a message may prepay the charge for a reply, which must be limited to the number of words so prepaid for.

XXXVII. Messages are sent "Bearing" from Sea Ports when received by Mail Steamers or other vessels, but no Message whether "paid" or "bearing" will be received for transmission from any vessel until her name has been made known.

"Bearing" Messages will not be delivered to the addressee till payment has been obtained.

XXXVIII. Assistants in charge of Telegraph Stations are authorized to refuse to transmit a message which may be of a decidedly objectionable character. Should the character of the message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the chief Civil Officer if at a provincial station.

XXXIX. To secure secrecy as much as possible, all persons *not actually on duty* in the Signal Room, whether belonging to the Telegraph Department or not, and without reference to official rank in any case, are strictly prohibited from entering the Signal Room. The only exception to this rule is for senders of messages, who may be allowed to see their messages despatched, if they attend the Office at the time of their turn for transmission.

XL. Violation of secrecy on the part of any Person in the Telegraph Department, will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the official Gazette of the incapability of the delinquent to serve in any official capacity.

It is a violation of secrecy to mention the fact that any message has been received or despatched by any particular person or firm.

XLI. Service messages from all public functionaries must be paid for in cash prior to despatch, the rates being the same for distance and number of words as those charged to private individuals.*†

XLII. Service messages have no right of precedence, and take their turn of despatch with private messages, except in cases of pressing public emergency and importance, when priority may be claimed on special grounds.

XLIII. The sums paid by public functionaries for the despatch of messages will be recovered from Government by the senders, in their own Departments, by contingent bills countersigned as usual.

XLIV. On certain emergent occasions of great importance, the public functionaries named below have the power of "clearing the line," that is, of suspending the receipt and despatch of all other messages till the one for which the line is cleared has passed on :—

The Governor General of India.
Governor of Bombay.
Governor of Madras.
Governor of Ceylon.
Commanders-in-Chief, India, Madras, and Bombay.
Lieutenant-Governors of Bengal, N. W. Provinces, and Punjab.

Commissioners of Scinde, Oude and British Burmah, and such other Commissioners, Residents, Political Agents and Military Officers, as may receive the power from the Government of India by special order.

Director General of Telegraphs in India.

The Governors of Pondicherry and Goa shall also continue to enjoy the privilege of free transmission of Messages conceded to their Governments.—*Home Department, No.* 691, 1*st April* 1859.

The messages so sent are however to be paid for in cash as in ordinary cases.

XLV. No unpaid messages except those on the actual business of the Telegraph itself, as specified in the departmental Regulations, shall on any account whatever be transmitted. A violation of this rule will subject the Signaller or Assistant in Charge of the Station the message is sent from, to dismissal from the public service.

W. B. O'SHAUGHNESSY,
Supt., Elec. Telegraphs in India and Ceylon.

* The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

One exception only will be made in the rules of cash payment:—Officers in command of Troops employed in operations in the field may send their messages without payment: but this privilege does not extend to the case of Troops marching to join or to the Moveable Columns while halted and with funds available for contingent expenses.

† Circular Order, No. 886, dated 19th November 1859.—"Under the orders of the Hon'ble the President in Council, dated 18th November 1859, peon hire is not to be charged in future for Service Messages, and no extra charge is to be made on such messages when they are sent by night."

RULES FOR THE GRANT OF LEAVE OF ABSENCE FOR REGULATING DEDUCTIONS FROM SALARIES AND DEPUTATION ALLOWANCES. AND FOR LIMITING THE PERIOD OF SERVICE OF CIVIL SERVANTS.

Application through what channel to be submitted, and what to specify, &c.

Applications for leave of absence, excepting those for privilege leave specially provided for in the Order of 17th October 1861, No. 506, [vide note page 136] are to be forwarded by Heads of Departments in every case *in original* to the Civil Paymaster, or if the applicant be a Chaplain, or Military or Medical Officer in Civil employ, to the Controller of Military Finance, who will submit the application to Government with a report as to the eligibility or otherwise of the applicant to the leave solicited.—*Notification, Gazette,* 14*th January* 1862.—If the application be from a Military man in Civil employ for leave to Europe it has to be transmitted through the Commander-in-Chief. *Proc. of Government.* Under this arrangement *no separate letter to Government is necessary.* Any opinion or recommendation of Heads of Departments should be *superscribed on the application itself.* On the leave being granted, it will be notified in the Fort Saint George Gazette. If the applicant be declared ineligible to the leave, or the Government decline to grant it, a copy of the order of Government will be furnished to the Head of the Department for communication to the applicant.—*Notification, Gazette,* 14*th January* 1862.

Applications for leave of absence should specify the particular Section of the Absentee Rules under which the indulgence is solicited, and the destination to which the applicant purposes to proceed.—*Notification,* 23*rd March* 1835.—And all Officers holding appointments directly under the Supreme Government, to whatever Presidency they may belong, must in making application for preparatory leave, declare from what port it is their intention to embark, and whether they desire to obtain a Furlough on private affairs, or on Medical Certificate, or with a view of ultimate retirement from the Service of Government. A copy of such application will be communicated in due course to the Local Government, in order to provide against any other furlough being granted other than that contemplated. In cases, in which Medical Certificates may be produced, setting forth the urgent necessity of *immediate embarkation,* the Local Government shall be at liberty to use its discretion in granting permission for such embarkation. But the term, for which leave is taken, and the conditions on which it is taken, must be understood to rest ultimately with the Government of India, and shall not depend on the Local Government.—*Notification, 5th October* 1855.

In order to obtain the prescribed Furlough Certificate from the Secretary to Government in the Public Department, Civil Servants must previously submit to that authority a Certificate from the Trustees of the Civil Fund, that they will receive no allowance from that Fund during their absence ; and also a Certificate from the Accountant General (who will require a Certificate from the Civil Auditor) of there being no public demands against them.—*Notification,* 27*th December* 1836.

Applications for permission to proceed to Europe, whether under a Furlough Regulation or otherwise, should invariably be accompanied by a Certificate from the Accountant General, that there are no public demands against the applicant.—*Notification,* 3*rd September* 1850.

Civil Servants applying for permission to resign the Service are invariably to submit with their applications a Certificate from the Accountant General of there being no public demands against them.—*Notification,* 23*d Mar.* 1855.

Application for extension of leave or return to duty while in England.

Civil Servants are to join the establishment to which they belong at the expiration of the term for which leave may have been granted, unless they shall have obtained an extension of it 3 months before the expiration of the said leave.

[Extensions of leave will not be granted by the Home Authorities except in cases of sickness certified to their satisfaction, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.

When under any such circumstances a Civil Servant obtains an extension of leave to a given period, he must at the expiration thereof apply for and obtain permission, either to return to his duty, or to reside a further time in Europe, failing in which, he will be liable to be struck off the List of Civil Servants.

The Act of the 33d, Geo. 3d, Chap. 52, Sec. 70, as it respects Civil Servants applies only to cases of sickness, or inevitable accident or infirmity, and no Civil Servant is considered eligible to return to the service after 5 years' absence, under that enactment, who has failed to obtain agreeably to the foregoing Regulations an extension of leave under the circumstances referred to in the Act.—*Court's Desp. 4th September* 1840 *and 25th April No.* 31 *of* 1856.]

Every Covenanted or Uncovenanted Civil Servant is to forward to the Office of the Secretary of State, immediately on arrival in England, Certificates stating the exact nature of his leave, the date of the departure of the vessel in which he embarked for Europe, and whether his Absentee allowance is to be drawn in that country or not, and the substantive appointment held by him.—*Despatch dated 15th March* 1860, *No.* 17, *and* Notification, Gazette, 6th September 1862.—For form, vide page 145.

When a Member of either the Covenanted or Uncovenanted Service is permitted by the Home Authorities to return to duty by a particular Vessel, it is equivalent to granting him an extension of leave until the arrival of that Vessel in India.—*Notification, 19th December* 1862.

Cancelment of leave—return to duty.

The resumption of the duties of Office at a date previous to that which leave of absence extends, virtually cancels the unexpired portion of leave and renders unnecessary special application for such leave being cancelled.

In cases where it is not intended to take advantage of leave obtained, special application for cancelling such leave is requisite and should be made to Government.—*Notification, 28th September* 1847.

Civil Servants or Military Officers in Civil employ, absent on Medical Certificate or on Private affairs for any protracted period, shall in future apply to Government and obtain permission to resume charge of their office, when they may desire to do so at any time earlier than one month prior to the termination of their leave, forwarding with their application to Government, in cases of sick leave, a certificate from a Medical Officer stating that the party has sufficiently recovered to be able to return to duty.—*Notification, 28th March* 1851.

ABSENTEE RULES, &c.

Dated 8th June 1855.

CHAPTER I.

Rules for application for leave of absence.

Section I. No leave of Absence from any Office or Station can be granted, but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. (*a.*) The application must be made publicly through the regular channel in the Department to which the applicant may belong. (*b*)

(*a.*) In their Proc. of 17th October 1862, (*Fort St. George Gazette, 18th Idem*) the Governor in Council resolved to vest the Court of Sudur Adawlut, the Board of Revenue, and the Chief Engineer, Public Works Department, with the power to grant *privilege* leave to the full extent to all officers subordinate to them under the grades noted in the margin, a previous reference however being made to Government when it is necessary to appoint an Officer to act for the Absentee. Applications for such leave should be submitted to the above mentioned authorities through the prescribed channel, and be settled by them after reference to the Audit Office.

2. The controlling authorities named in the margin are also vested with power to grant leave similarly to all Officers subordinate to them, subject to the same provisions.

3. Notifications of the grant of privilege leave by the several authorities will be forwarded *direct* to the Superintendent of the Government Press, to be published in the Fort St. George Gazette.

(*b.*) In regard to the course to be pursued in submitting applications for leave to Government —*Vide infra, page* 136.

Section II. The official allowances of the holder of a Civil Office quitting his station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III. No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

☞ [All leave granted under the old rules which counted as "Service" and "Residence," or as "Service" under those rules still count as such, notwithstanding that a portion of such leave had not expired on the date on which the new rules came into operation.]

CHAPTER II.

Rules for sick leave.

Section IV. Upon application duly made, the Government may grant Leave of Absence on Medical Certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

[Medical leave to a sanatarium within the Presidency may be extended to leave to Europe; but the Officer will not be entitled to a fresh preparatory leave for reaching the port of embarkation, having once been allowed such leave to proceed from his station to the sanatarium. The leave in such cases must reckon from the date of arrival at the sanatarium to the date of return to the port of embarkation. The 3 years' interval does not apply to leave of absence on Medical Certificate taken under the new rules.—*Government of India, 3rd October* 1856, *No.* 4538.]

Section V. When an application for Leave of Absence is made on the ground of ill health, it must be accompanied by a Certificate and a Statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV.; and, in case of the applicant visiting the Presidency preparatory to obtaining leave, the Certificate must be countersigned by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanatarium or other place without visiting the Presidency, the Certificate must, in the first instance, be counter-signed by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the Statement of the case for the consideration and counter-signature of the Members of the Medical Board:—

The Certificate shall be given in the following form:—

I, A. B., Surgeon at or of———do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to Sea, (or to such place as the Surgeon may think proper, expressing it in the Certificate.)

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in counter-signing the Surgeon's Certificate.

We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render Leave of Absence for a period of———absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a Statement showing sufficient reason for the extension solicited; and such Certificate must be counter-signed by the members of the Medical Board, or by the Superintending Surgeon of the Division, in which the applicant may be located, as the case may be, on perusal of the Statement. In like manner, if the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he

must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance, and the period of it to be stated, and the Certificate to be counter-signed by the Examining Physician of the East India Company if the applicant is in England, or if not in England, by the principal Medical authority of the Colony or the Country to which the absentee may have proceeded or some sufficient reason stated for the want of such counter-signature if the Certificate be not so counter-signed. The Medical Board or Superintending Surgeon, before counter-signing a Certificate as abovementioned must either personally examine the applicant or state some sufficient reason why they, or he, have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI. (*a*) The following conditions will in future attach to leaves of Absence granted to Civil Servants who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health:—

1*st.*—The Total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Clause 5 of this Section and in Section VII of the Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2*ndly.*—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanatarium within the Presidency, from the date of his arrival thereat to the date of his quitting the Sanatarium; if to any place beyond the Presidency, but within the Continent of India, from the date of his leaving the frontier of his own Presidency, to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the ports of his own Presidency to the date of his arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his station than the ports of his own Presidency.

3*rdly.*—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum, during that period. In cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the salary of the absentee may not be of that amount, the full salary will be granted.

4*thly.*—If the leave on Medical Certificate be taken *beyond Sea*, Special Leave for the interval elapsing between departure from Station and the commencement of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance, on the condition that during this additional period, the Absentees shall be entitled to draw the same rates of allowances as are granted by the Clause of this Section. If the leave on Medical Certificate be taken *in India*, the Preparatory Leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatarium. [*Notification. Government of India, Gazette, 14th October* 1857, *No.* 42.]

[One month's preparatory leave is allowed in the case of an Officer proceeding from a Presidency Town.—*Proceedings, Government of India, 10th June* 1861, *No.* 185.]

5*thly.*—If the absentee shall apply, under Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months, at any one time, and it shall appear to the Hon'ble the Court of Directors to be absolutely necessary, after examination by their Medical Officer in England, that he should do so, the leave which may have been granted in India will, under the orders of the Hon'ble Court, be extended to the limit of two years, with permission to retain office and half salary within the limits enjoined during such extension. (*b*) If the absentee be in India, the leave may be

(*a*) Civil Servants who may have had leave under the old Rules to the extent of 4 years, will nevertheless be permitted to take one additional sick leave under the provisions of this sec.:—viz. for 15 months with the privilege of retaining office and of counting the leave as "absence" provided that 3 years shall have expired from the date of return from the previous leave of absence.

(*b*) Vide ante p. 135, in respect of Officers on leave in Europe.

extended to the limit aforesaid, unders the orders of the Governmer of India, or the Subordinate Governments, upon the Certificate of the Board of Medical Officers to be summoned to report on the state of the absentee's health.

6*thly.*—If the absentee be compelled by the state of his health, under due Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of extension under Clause 5, he will, as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum, if above ten years' standing at the time when the leave was granted, or of £250 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowances must cease until he reports his return to his Presidency.

Section VII. If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken, shall be again compelled by the same cause to apply for Leave of Absence, the Government of India and the Subordinate Governments may, on special grounds, grant Leave of Absence for one further period not exceeding six months, during which the absentee may retain his office and half his salary under the limits above enjoined.

Section VIII. If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further Leave of Absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the Subordinate Government, will, however, respectively exercise a discretionary power to grant in such last mentioned case, a sick absentee allowance, not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Section IX. A Civil Servant who has taken Sick Leave under the Rules of the 17th May 1843, will not be debarred by that circumstance, from taking such leave again under the above Rules, with the privilege of retaining Office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of the 17th May 1843.

Section X. None of the above mentioned Rules, will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under Medical Certificate for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months, his office will be vacated.

Section XI. Civil Servants who may desire to draw their allowance while absent on account of sickness under the above Rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchment.(*a*)

CHAPTER III.

Privilege Leave.

Section XII. The Government may grant to Civil Servants leave of absence to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the salaries and emoluments drawn by such servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule, until the completion of eleven months from the expiration of the last leave, if taken at one time; or from the date of return from any Sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. (*b*) Servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two sucessive months, to commence at or after the expiration of twenty-two months, from the termination of their former leave; and if two

(*a*) Vide post page 144.

(*b*) The privilege of taking leave in instalments is confined to the one month's leave. A short leave so as to break in on the 22 or 23 months of continuous service required to qualify for 2 or 3 months' leave respectively vitiates that leave.—*Pro. of Govt. of India, 26th September* 1863, *No.* 4,363.

years elapse without enjoyment of the privilege, leave for three months may, in like manner be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted, his office will become vacant.

Civil Servants absent from their Stations under Medical certificate cannot be admitted to leave under this Rule, in continuation of their Sick leave: and if, while absent under this Rule, they be granted extended leave under Medical Certificate, they shall be considered liable to the Rules applicable to leave of absence on Medical Certificate for the whole period of their absence, [and so also in the case of Furlough on private affairs.—*Court's Despatch, 6th February* 1856, *No.* 11.]

Civil servants, who have been absent on Medical Certificate during any portion of a calendar year, are not entitled to leave under this Rule during that year; nor can leave under this Rule be taken in connection with, or continuation of, leave granted under Section XIV Clause I.

[A Civil Servant must return to his duty at the expiration of his "privilege" leave to entitle him to the advantage thereof; and his allowance will not be payable till he shall have rejoined his appointment.—*Not. of Government of India, 11th July* 1856, *Gazette, 29th idem.*—The object of the indulgence should be kept in view and the advantage of leave with full salary should be reserved for those servants who, having been at their stations for eleven consecutive months (or longer if the leave be accumulative) require a little relaxation, and after enjoying it return to their duty.—*Court's Despatch, 6th February* 1856, *No.* 11.]

Section XIII. As a general Rule, when leave is granted under Section XII, such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month, but as an exception to this Rule, it shall be discretional with the several Local Governments, when good cause is shown for the indulgence and it is attended with no public inconvenience, to sanction leave of absence under this Rule to such parties as may not have occasion to apply for the whole at once in two instalments only, which are not to exceed in the aggregate one month within one calendar year.

[Judges who take leave during the adjournment of their Courts are not entitled to privilege leave in addition, and that, if whilst absent during the recess, they take leave on Medical Certificate or on Private Affairs, the period of such absence must form part of the leave they may obtain. Absence during the recess is thus put on the same footing with Privilege leave.—*Not.*—*13th August* 1862.]

Special Leave.

Section XIV. Clause 1.—The Government may, on sufficient cause being shown, grant to a Civil Servant Special leave of absence on private affairs for six months to any place in India, Europe or elsewhere, without any restriction whatever as to the places to which he may resort, provided however that the absentee shall draw no more than one half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

Clause 2.—The leave granted under this Section, will be computed from the date of the absentee's quitting his station to the date of his return thereto, and if taken to Europe or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of his return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty. (*a*)

Clause 3.—It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

(*a*) For the interval elapsing in the case of leave taken to Europe or beyond Indian limits, between departure from station to arrival at the Port of embarkation, or between return to Port and re-arrival at station, the Government may grant, on the same terms and conditions as the Special leave, such an additional period of leave as may be considered to be absolutely required to enable the absentee to reach the Port of embarkation, or to return from the Port of debarkation to his station.—*Govt. of India, 22nd December* 1855, *No.* 34, *Financial.*

CHAPTER IV.

Furlough on Private Affairs. (*a.*)

Section XV. In the place of the period of three years (in one term) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service or into two periods, which may either be of one or two years respectively, or of eighteen months each, provided that, in every case, the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four or thirty-six months, in order that Government may make its arrangements accordingly. In case of a division, into two periods, the first Furlough must be taken after a residence of not less than seven years, and the second Furlough after a further residence in India of seven years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Section XVI. The Furlough Allowance granted during the periods mentioned in the last Section, will be at the rate of £500 per annum, and the receipt of it will not, on any ground whatever, be permitted for any longer period than three years.

Section XVII. Civil Servants who may have been compelled by sickness to quit their duty under Medical Certificate, before completing seven years' residence in India, will be entitled to receive during their Furlough on Private Affairs, taken subsequently to their completion of that period of residence, the ordinary Furlough allowance of £500 per annum for three years.

Section XVIII. Clause 1.—In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years, will count as service in India in the twenty-five years entitling to the annuity, the present qualification of twenty-two years residence being retained.

Clause 2. Absence on Medical Certificate to the extent of one year will reckon as Service and residence in India, and be so computed in addition to the three years of absence which under the Clause next preceding are allowed to be reckoned as Indian Service. All periods of short leave of Absence on Private Affairs taken under Sections XII and XIV of these Rules will also count as service and residence.

Section XIX. Military Officers employed in the Civil Department, will be subject to the Rules laid down in General Orders No. 1150, dated 17th November 1854, for the grant of leave of Absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

Rules for Joining Stations.

Section XX. There shall be allowed to Officers appointed to any new Office the period of one month, two months, or three months for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last-mentioned distance. Officers not joining their station within the said periods, respectively, shall forfeit their salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

NOTE.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed.

[For the portion of the journey traversable by Railway, one hundred miles a day are allowed; for that by Steamer, one hundred miles a day, or the time actually occupied in the voyage when, by accident, the duration of the voyage exceeds the time calculated at the rate of one hundred miles a day.—*Not. Govt. of India* 30*th March* 1861, No. 65.—In addition a fortnight's leave for preparation is allowed.—*Pro. Govt. of India,* 10*th June* 1861, *No.* 185.]

Section XXI. Upon the first appointment of any Civil Servant who shall be reported qualified for Public Service by the Examiners appointed by the Government to any Civil Station, there shall be allowed for travelling expenses to the station, an

(*a*) Civil Servants, who have not availed themselves of their furlough, but who may from time to time have been absent on medical leave under the old rules or out of employ within the Indian limits, will be permitted to take a furlough for 3 years with the privilege of counting that period as "Service."—*Not.*

allowance at the rate of 6 annas per mile, by the direct Post Road, according to the Polymetrical Table of the Post Office, the bill for which allowance will be passed by the Civil Auditor, after the Officer shall have joined the station : if required in advance, an order of the Government shall be necessary.

Section XXII. The salary of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding Rule, through delay in joining the Station to which they may be appointed.

Section XXIII. In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XX, regulating the time and distance for joining Station, shall be applicable, and the Officer will, for the periods allowed in that Rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

CHAPTER VI.

*Rules for Deputation Allowances.**

Section XXIV. The sum of Company's Rupees 52,200 per annum having been fixed under the orders of the Court of Directors, as the maximum salary of Civil Office for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger allowances than this annual sum, as a consolidated personal and sumptuary allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited, and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position ; provided however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to 2d June 1854, the sum of Rupees 50,000 shall be held to be the maximum salary, under the Government Resolution, No. 563 of that date.

NOTE.—This Rule will equally apply in case of a Political Resident taking a leave of one, two, or three months, for which in other cases he would suffer no deduction The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.

Section XXV. Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down :—

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided however that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore and other places where appointments are by classes, the amount of Deputation Allowances, payable at the above rates, will be calculated, not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular *class* to which the appointment may belong.

* For the Deputation Allowance to Officers of Police and to Covenanted Officers in the General Department of Account—See page 145.

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

A Civil Servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to a higher salary to which he has been promoted.

Section XXVI. No Civil Servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance, according to the prescribed scale added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII. No Subordinate Officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. But a Servant previously out of employment, or who may be deputed to act from a different station shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Section XXVIII. Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII.

Rules for limiting the period of Service.

Section XXIX. After thirty-five years' service (*a*) no Civil Servant shall be appointed to any new Office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred for the decision of the Hon'ble the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII.

Rules for the grant of leave of absence to Law Officers.

Section XXX. The East India Company's Law Officers may obtain Sick Leave and Short Leave on Private Affairs under the conditions prescribed in the case of Civil Servants, both as respects the period of absence and the limitation of allowances during such absence. Leave will, however, only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof. (*b*)

If any Law Officer shall quit his duty, save on leave under Medical Certificate, or on short leave on Private Affairs, he will be considered to have vacated his appointment.

(*a*) Except in special cases, the period of Service is to be taken to commence from the date of the arrival of the Servant in India.—*Notification, Gazette, 28th March 1855.*

(*b*) This Section has been made applicable to the Administrator General.—*Court's Despatch, No. 9 of 1855.*

CHAPTER IX.

Rules for Chaplains and Assistant Chaplains.

Section XXXI. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also Privilege leave and leave for short periods on Private Affairs, and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications :—

1*st.*—Chaplains being allowed to retire after 20 years' service, the period of Furlough on Private Affairs, is in their case limited to the present term of three years. The Furlough may, however, either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2*ndly.*—No Furlough or Leave of absence, whether on Private Affairs or on Sick Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as service in India in the twenty years which qualify Chaplains for their retiring Pensions.

Section XXXII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowances during Sick leave to any place out of India, they shall receive salary (but at the rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Military and Medical Officers in Civil Employ.

[These officers shall be subject in respect of "Privilege" leave and short leave on Private Affairs, to the same rules as officers holding Military and Staff appointments.—*Court's Despatch No.* 40 *of* 1855.—*Gazette*, 10*th August* 1855.]

SECURITY AND EMPLOYMENT OF AGENTS DURING ABSENCE.

Security from Civil Servants and Military Officers holding civil appointments on leave under Medical Certificate, or on private affairs, retaining their appointments, shall not be taken. Security shall be taken in cases of Furlough or of resignation of the Service, as heretofore.—*Notification*, *Gazette*, 29*th February* 1856.

Every party who may be desirous of employing an Agent or Agents to draw his salary from the public Treasury during his absence from the Presidency, will be required to furnish such Agent or Agents with a Power of Attorney, which Power of Attorney will so long as it may require to be acted upon, be lodged with the Department through which payment is made. The Agent or Agents who may be authorized to draw the salary of an Absentee will be required to produce security for the refund of any sum which may eventually be found to have been overdrawn.

Forms of Powers of Attorney and Bonds of Indemnity prepared by the Honorable Company's Solicitor, may be obtained on payment at the Fort St. George Gazette Press.—*Notification*, 9*th May* 1844.

HOW SALARY OF ABSENTEES TO BE DRAWN.

Officers who may be temporarily absent on duty, or on leave, in another District, or at the Presidency, as the case may be, should forward their Abstracts for Pay and other allowances due for a past month, on the 1st of the succeeding month to the Civil Auditor, who will pass and return the papers to them. On the presentment thereof by the Officers to the Collector of the District where they may be located, or the Sub-Treasurer if at the Presidency, he will disburse the amount to the Officers. To enable the Collector or the Sub-Treasurer, as the case may be, to discharge the Abstracts in question, the Collector of the District to which the Officers may stand permanently appointed, will forward on the 2nd of each month a Bill of Exchange drawn by him on, and in favor of, the Collector, or on, and in favor of, the Sub-Treasurer, as the case may be, for the net amount of Salary due for a past month.

In every case in which the amount of Pay and allowances to be drawn for a past month, by an Officer absent on duty or on leave as above mentioned, may differ from that actually drawn from the preceding month, a copy of the Abstract which may have to be sent to the Civil Auditor on the 1st of the month, should be despatched by him previously to the Collector of the District to which he may stand permanently appointed, so as to reach him on the 1st of the month, in view to his regulating the amount of the Bill of Exchange which is to be forwarded by him on that account on the 2nd of the month, as provided for in the preceding para.—*Notification*, 3*d September* 1856.

No Absentee Allowance will be issued in Europe to any Civil Servant who shall omit to transmit the following Certificate to the Office of the Secretary of State.—*Desp. of Secy. of State*, 16*th March* 1861, *No.* 219, 31*st July* 1862, *No.* 46.

DEPUTATION ALLOWANCE TO ACTING OFFICERS IN THE POLICE DEPARTMENT.

The present Rules regarding deputation allowances to Officers of Police having been found to be unsuitable, His Honor the President in Council resolves that Resolution Nos. 628G. and 20G., dated September 30th, 1862, January 3rd, 1863, be rescinded.

His Honor in Council is also pleased to determine that, in accordance with the principle of the Order No. 3390, dated July 25th, 1863, in the Financial Department, there shall be one uniform rate of acting allowances for Convenanted and Uncovenanted Officers of Police, and that no acting allowances shall be granted to Officers of Police officiating for other Officers in another grade of the same class as their own.

The following Rules are accordingly promulgated for general information and guidance :—

Rule I.—An Officer of Police officiating for another Officer in the same class will not receive deputation allowance.

Rule II.—An Officer of Police officiating for another Officer of Police in a higher class than his own will draw the full salary of his own office, and an allowance at the rate of twenty per cent. on the mean between the maximum and the minimum salary of the class in which he officiates, provided his total allowances do not exceed the minimum salary of such higher class.

Rule III.—An Officer of Police officiating at the same Station for an Officer of a higher class than his own will not be entitled to any deputation allowance during the first month he may thus officiate according to the Covenanted Civil Service Rules.

Rule IV.—Any Officer holding a substantive appointment in another Department of the Government Service and officiating for an Officer of Police will draw salary and acting allowances at the rates prescribed in Rule II.

Rule V.—Any person not holding a substantive appointment in the Public Service, and officiating for an Officer of Police will receive at the rate of fifty per cent. on the mean between the maximum and the minimum salary of the class to which he is appointed.

The 7th August 1863.

The following Resolution No. 3390 of 25th July 1863, will be substituted for that bearing the same number and date which was published in the *Calcutta Gazette* dated 1st August 1863, page 2190 :—

No. 3390. *The 25th July* 1863.

Read again the Financial Resolution No. 6G., dated the 29th August 1862, sanctioning a classification of the appointments in the General Department of Account in substitution of the arrangement introduced by Financial Resolution No. 84, dated the 13th May 1862.

Resolution.—The Hon'ble the President in Council observes that, under the Financial Resolution of the 13th May 1862, Covenanted Officers who entered the General Department of Account before that date are allowed to retain their privileges, and therefore when such Covenanted Officers are appointed to act for other Covenanted Officers in the Department, they are entitled to draw deputation allowances on the same terms as those allowed to Covenanted Officers in other branches of the Service.

But this Rule cannot be held to apply to Covenanted Officers entering the Financial Department after that date, nor does it seem proper to preserve a separate Rule for calculating the acting allowances of Uncovenanted Officers in the Department, as by the Resolution abovementioned all distinction between the Covenanted and Uncovenanted Service was abolished.

In considering what would be a suitable standard to introduce under these circumstances, His Honor in Council observes that, as the acting allowance Rules of the Covenanted Service are based upon a simple consistent principle, they may with advantage be taken as the basis of the Rules which shall be applicable to all the Officers of the Financial Department other than those specially noticed in the 1st paragraph.

His Honor in Council desires accordingly that the following Rules be observed in future.

1*st*.—No Officer will receive any deputation allowance for officiating for another Officer in the same class as himself.

2*nd*.—An Officer appointed to officiate for another Officer in a higher class than his own will draw, irrespective of any saving from the salary of the appointment in which he officiates, the full salary of his own appointment, with an additional allowance at the rate of twenty per cent. on the mean between the minimum and maximum salary of the class in which he officiates, provided the total allowance to be so drawn shall not exceed the minimum salary of such higher class.

3*rd*.—When the Officer thus appointed to act is in the receipt of the maximum salary of his own class he will receive no additional allowance on his first appointment to act, inasmuch as the maximum salary of any class is always the same as the minimum of that immediately above it; but he will be eligible, whilst officiating, to the yearly increase of salary allowed to those permanently appointed to the higher class.

4*th*.—An Officer officiating at the same Station for an Officer of a higher class than his own will not be entitled to any deputation allowance during the first month he may thus officiate according to the Covenanted Civil Service Rules.

5*th*.—Any person holding a substantive appointment in another Department of the Government Service, and officiating for an Officer of the Financial Department, will draw salary and acting allowances at the rates prescribed in Rule 2.

6*th*.—Any person not holding a substantive appointment in the Public Service, and officiating in the Financial Department, will receive at the rate of fifty per cent. on the mean between the maximum and the minimum salary of the class to which he is appointed.

Officer acting in an appointment shall receive more than one-half of the Staff salary attached thereto until he shall have acted six months in it, counting from the date of his joining the appointment. At the expiration of this period he will be allowed the full Staff salary in all cases, if it be available, but not otherwise.

"2. This order applies to all cases including those of Officers officiating for Staff Officers absent on furlo, under Rules 9 and 13 of Government General Order, No. 1150, dated 17th November 1854; but it is not to affect the allowances in their present appointments of those to whom, under any rule or practice heretofore in force, full Staff salary is now actually passed."—*Not. of Govt. of India*, 10*th August* 1863, *No.* 3655.

RULES RESPECTING SALARIES, &c. OF THE JUDGES OF THE HIGH COURT.

Fort St. George, the 15th August 1862.

Regulations by the Secretary of State in Council of India, under the provisions of 24 and 25 Victoria, Cap. 104, Section 6, respecting the salaries, furloughs, retiring pensions,

and (where necessary) expenses for equipment and voyage of the Chief Justice and Puisne Judges of the High Court of Judicature for the Presidency of Madras.

Salaries.

The Chief Justice shall be paid a salary of Company's rupees 60,000 per annum, and each Puisne Judge a salary of Company's rupees 45,000 per annum, such salaries being payable only in India.

Furloughs.*

1. A furlough for a period of one year, with an allowance of £1,000, payable by quarterly payments, shall be allowed to the Chief Justice and to each Puisne Judge of the High Court, after seven years' actual service as Chief Justice or Chief Justice and Judge, or Judge of the said Court.

2. The furlough granted under these Rules to a Judge selected from the Covenanted Civil Service shall be exclusive of the furlough to which such Judge is entitled under the Rules applicable to furloughs allowed to Members of such service.

3. If a Judge of the High Court, selected from the Covenanted Civil Service, who has not taken his furlough under the Rules applicable to his branch of the service, before his appointment to the High Court shall take such furlough within one year after expiration of his furlough under these Rules, the furlough taken by him as Judge of the High Court shall be reckoned as so much time of his furlough under the Rules applicable to the Covenanted Service, and the amount drawn by him shall be adjusted, with reference to such Rules, by deductions from the allowances payable to him as a Civil Servant on furlough.

4. A Chief Justice, or Puisne Judge, during his absence on furlough, shall retain his office; but such furlough shall not be reckoned as actual service in calculating the period of service entitling the Chief Justice, or Puisne Judge, to a pension.

5. Leave may be granted by the Governor General in Council to the Chief Justice, or any Puisne Judge of the High Court who may not be a Member of the Covenanted Civil Service, under Medical Certificate, once during the term of his service, either for a period of six months on half salary, payable on return and resumption of his duties, or for a period of fifteen months on an allowance of £1,000 per annum. Such Chief Justice or Puisne Judge, during his absence shall retain his office; but if his absence shall, under any circumstances, exceed fifteen months, his office shall be vacated.

6. If any Judge of the High Court who has taken leave of absence, under the foregoing Rule, for a period of six months, shall desire to extend his absence beyond such period he shall be permitted to do so under due Medical Certificate, his allowance for the entire period of absence being calculated at the rate of £1,000 per annum.

7. Leave of absence, under Medical Certificate, to Judges of the High Court who are Members of the Covenanted Civil Service, will be regulated by the Rules "for sick leave" applicable to the Civil Service generally.

8. No more than six months of the leave granted under Medical Certificate shall be reckoned as actual service in calculating the period of service entitling the Chief Justice, or Puisne Judge to a pension.

9. Short leave on private affairs may be granted to the Judges of the High Court, under the rules applicable to Covenanted Civil Servants.

Retiring Pensions.

1. A Chief Justice, after an actual service of twelve years as Judge of the High Court, of which at least six shall have been in the office of Chief Justice, shall receive a pension not exceeding £1,500 per annum.

2. A Puisne Judge on the same terms as to length of service, shall receive a pension not exceeding £1,200 per annum.

3. A Chief Justice or Puisne Judge, compelled to retire, on Medical Certificate, after seven years' actual service, shall receive a pension not exceeding one-half the amount of pension allowed for the full period of service.

4. In the event of a Judge of the High Court, selected from the Covenanted or Uncovenanted services, receiving a pension under these rules, he will not be entitled to any pension or retiring allowance under the rules applicable to Covenanted and Uncovenanted servants respectively.

* Revised Rules as published in Fort Saint George Gazette, 14th April 1863, page 610.

5. When a Judge of the High Court, selected from the Covenanted or Uncovenanted branches of the Civil Service, is permitted to retire before completing the full period of service entitling him to the pension of a Judge of that Court, he shall, on retiring, receive such a pension as he would be entitled to under the rules applicable to Covenanted and Uncovenanted servants respectively, reckoning the period during which he shall have served as Judge of a High Court towards his time for such pension.

6. Provided, however, that if a Judge of the High Court, selected from the Covenanted or Uncovenanted branches of the Civil Service, shall be compelled to retire on Medical Certificate, after seven years' actual service, he shall be allowed the option of taking his pension or retiring allowance either under these rules, or under the rules applicable to the service to which he belongs.

7. A Judge of the High Court, selected from the Covenanted Civil Service, shall be required to continue his subscriptions to the Civil Service Annuity and Provident funds.

For the purpose of defraying the expenses of equipment and voyage from England, there shall be allowed to a Chief Justice the sum of £1,000, to a Puisne Judge £800. But such allowance shall not be made to any person appointed to the office of Chief Justice or Puisne Judge, who, having been in India, may be at the time of his said appointment, in the United Kingdom, with the intention of returning to India.

The foregoing rules will not apply to the Judges who have been transferred to the High Court from the Supreme Court, who will be however at liberty to avail themselves of the privileges as to furlough, if they assent to the periods of service prescribed by the rules, to qualify for the pension of a Judge of the High Court. Nor will the rules respecting salaries affect those Judges of the late Sudder Court who are at present in receipt of higher allowances than rupees forty-five thousand per annum.

Leave of Absence.

All the Officers and servants of the High Court at the three Presidencies, Covenanted or Uncovenanted, who claim the privilege of being pensioned by the State, are subject to the general Leave of Absence Rules applicable to either branch of service.

The power of granting leave, under the general Regulations hereby ordered for adoption, to the Officers and servants of the Court, appointed by the Court and entitled to pension, vests in the Judges of the High Courts, subject in every case to the report of the Civil Paymaster that the applicant is entitled to leave. If the Civil Paymaster should report against the application, and the Court should take a different view from that recorded by the Civil Paymaster, a reference to the arbitrament of Government is necessary.—*Proc. of Govt. of India, 6th April* 1863, No. 2252.

Retiring Annuities and Pensions to Widows and Orphans.

Despatch from the Right Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor General of India in Council.

Financial.
No. 193.

India Office,
London, 25th November 1862.

To His Excellency the Right Honorable the Governor General of India in Council.

My Lord,—1. The Memorials from the Covenanted Civil Servants of the several Governments in India, on the subject of their retiring annuities, and of the pensions of their widows and orphans, together with your Financial Letter, dated the 7th March 1862, No. 40, the Financial Letter from Madras, dated the 8th February 1862, No. 2, the Public Letter from Bombay, dated the 12th April 1862, No. 13, and the several Minutes of Members of the respective Governments in India, in reference thereto, have been considered by me in Council.

2. It does not appear to be necessary to give a detailed reply to the observations of your Government, or to the requests contained in the several Memorials, as the result of the consideration by Her Majesty's Government of those observations and Memorials will be apparent from the decision which I have now to communicate.

3. In regard to the period of service which is, in future, to be required as a qualification for an annuity, Her Majesty's Government see no reason for altering the period of 25 years' service, and 22 years' residence (including one year's sick leave, if such has been taken, as at present); but they cannot allow any future special leave of absence from India on private affairs to count as residence.

4. No sufficient ground appears to have been assigned for increasing or altering the amount of the full annuity, which must therefore remain at 1,000*l.*, or of the amount of the per-centage of deduction from salaries, which will continue at four per cent., the amount of subscriptions to accumulate, as at present, at six per cent. interest.

5. Her Majesty's Government are of opinion that there is ground for making some alteration in the terms on which annuities are granted, and they have decided that a Civil Servant, who has completed the prescribed period of service and residence, shall be granted by Government an annuity of 600*l.*; and that he shall have the option of taking in addition an annuity of the amount, not exceeding 400*l.*, which his accumulated subscriptions, with interest, will purchase, according to the Table now in force, or of adding to his subscriptions such a sum as will purchase an annuity of any amount which, added to the 600*l.* granted by Government, will not exceed the full annuity of 1000*l.* They have also decided that annuities, without limitation as to number, may be granted on application, at any time, to Covenanted Civil Servants who may have completed the prescribed periods of service and residence, and whose resignations of the service have been accepted; and that those Civil Servants who have obtained annuities since the Memorials were sent in, be admitted from this date to the benefit of the arrangement now sanctioned.

6. It must be clearly understood that, in the event of the death of a subscriber, his accumulated subscriptions will lapse, and that no refund of subscriptions can, under any circumstances, be allowed.

7. Her Majesty's Government are also disposed to make some provisions for Covenanted Civil Servants who, having devoted a proportion of their lives, and energies, and especially those years during which men qualify for a profession, to the service of Government, are deprived of the fruits of their labour by sickness, which may compel them to resign the service before they have become entitled to an annuity. In any such cases, when clearly proved by medical certificate, the following pensions may be granted:

If under 5 years' service, a grant of 500*l.*
Of 5 years' service and under 10, an annuity of 150*l.*
Of 10 years' service and under 15, an annuity of 250*l.*
Of 15 years' service and under 20, an annuity of 350*l.*
Of 20 years' service and under 25, an annuity of 450*l.*

8. Her Majesty's Government are willing to sanction the payment of all the annuities quarterly, and to the date of decease, with the same option as to payment in India or England as at present.

9. These changes will inevitably derange the calculations on which the Civil Service Annuity Funds were constituted. It is, therefore, important to consider whether any advantage could attend retaining Boards of Managers and the machinery of the Funds. Practically, all that will be required under the changes now sanctioned will be, an account showing the amount deducted from the salary of each Civil servant, and the interest thereon, and for that object the maintenance of the Funds does not appear to be necessary.

10. Before giving final orders on this point, however, Her Majesty's Government are desirous of being furnished with your opinion as to the expediency of closing the Funds.

11. It only remains for me to convey to you the decision of Her Majesty's Government as to The Bengal Civil Fund; The Madras Civil Fund, Charity Branch; The Bombay Civil Fund, Provident Branch.

12. There appears to be no ground for making any change in the management of these Funds, which will, consequently, as heretofore, remain with the Subscribers. In regard to the assistance from the State, Her Majesty's Government have no intention of withdrawing the aid which has been hitherto granted, and they see no reason for increasing it. If the Subscribers prefer it, there would apparently be no objection to granting, in lieu of the present indirect aids, an annual sum equal to the average of the donations during the past five years, the future interest on the balance of the Funds being in that case fixed at 5 per cent., and the remittance of the sums required by the Funds in England being made at the same rate of exchange as that fixed annually for the adjustment of transactions with the British Exchequer.

13. These changes may severally be brought into immediate operation, and a copy of this Despatch will be forwarded to the Governments of Madras and Bombay respectively, for the information and guidance of those Governments.—*Published in Gazette 9th January* 1863, *page* 17.

PUBLIC OFFICERS INTERDICTED FROM PECUNIARY DEALINGS WITH NATIVES RESIDING WITHIN THEIR JURISDICTION.

With reference to the Notification dated the 25th July 1854, No. 3200, "absolutely prohibiting the Officers of Government, of whatever rank or class, from selling or being concerned in the sale of property of any amount or description to Native Princes and Chiefs, or to their relatives or Ministers, or to any Native Gentlemen of rank or opulence residing under the protection of the British Government," the Governor General in Council is pleased to notify that the Notification in question was not intended to apply in its full strictness to any but Political Officers, and Officers discharging Political as well as ordinary civil functions, whether employed directly under the Government of India, or under any of the Local Governments, and that in regard to all other Officers, the order of the 31st October 1821 is to be considered as still in force.

But His Lordship in Council is strongly impressed with a sense of the necessity for discouraging as much as possible pecuniary dealings of every description between Public Officers and Natives under the authority or residing within their jurisdiction, or in their vicinity, and the permission of Government will never be given to any transaction of the kind if it should appear to afford even a plausible ground for suspicion of improper motives on the part either of the buyer or seller.—*Not., Gazette, 7th March* 1856.

FORT ST. GEORGE, *6th January* 1863.—The following letter from J. W. S. Wylie, Esquire, Under-Secretary to the Government of India, Financial Department, to the Officiating Civil Paymaster Punjaub, Fort William, Council Chamber, the 6th December 1862, is published for general information :—

(Financial Department.)

SIR,—In reply to your letter No. 786, dated 6th ultimo, I am directed to inform you that under the circumstances stated in the Punjaub Government's letter of the 1st idem, His Excellency the Governor General in Council has been pleased to direct that the present wording of the Certificate required to enable an officer to draw a travelling, or tentage allowance, whilst actually employed in tents at a distance from his station shall be changed to the effect that the officer "was absent from his station on public duty, and *bonâ fide* entitled to the tentage charged in his bill."

FORT ST. GEORGE, *6th February* 1863.—The following letter from the Secretary to the Government of India, in the Financial Department, No. 1389 G., dated the 6th ultimo, to the address of the Officiating Chief Commissioner of the Central Provinces, is re-published for the general observance of the directions contained therein :—

SIR,—Your Assistant Secretary's letter No. 1324, dated the 22nd October last, to the address of the Government of India, in the Home Department, having been transferred to this Department for disposal, I am directed to inform you in reply that His Excellency the Governor General in Council is pleased to sanction the gratuities proposed to be given to the Police Burkendazes of the Saugor and Jubbulpore Divisions, who have been discharged in consequence of the reductions recently effected in the Establishments belonging to the Central Provinces.

2. I am instructed to take the opportunity to point out that in recommending the grant of gratuities in cases like the present, the local Officers should be careful to satisfy themselves of the correctness of the rates of pay and the periods of service shewn in the Statements, and to certify that they have done so at the foot of the Statements.

3. The necessity for such a Certificate and care will be obvious when it is remembered that the Civil Paymasters are not generally possessed of the means of reporting upon such cases, and that this Department has no means of readily detecting any errors in the data on which the proposals of the local Government are based.

POSSESSION OF LANDED PROPERTY IN INDIA BY THE PUBLIC SERVANTS OF THE STATE.

1. *Extract from the Secretary of State's Despatch, No. 22, dated the 10th August* 1861.

1.—I have had under my consideration in Council your Excellency's letters dated the 25th, 26th, and 31st October 1860, (Nos. 37, 38, and 39,) and 8th March (No. 5) 1861 on the subject of the possession of landed property in India by the Public Servants of the State.

* * * * * * *

4.—I have carefully considered in Council the entire subject, and I am now prepared on the part of Her Majesty's Government to lay down the following Rules for your future guidance. I should premise that these Rules refer only to the acquisition or possession of lands intended to be applied to agricultural purposes, and are not to be construed to include lands occupied merely by buildings for residence and their usual appurtenances.

5.—Officers of the Covenanted Civil Service are at liberty to acquire and possess lands anywhere out of the Presidency to which they are attached, but are absolutely precluded from holding lands within their own Presidency. Thus, an Officer of the Bengal Civil Service may hold lands in Madras or Bombay, but cannot be permitted to hold lands in any part of the Bengal Presidency, notwithstanding that, at the time of their acquisition, he may himself be actually employed in a different Lieutenant-Governorship from that in which the lands may happen to be situated.

6.—Regimental Military Officers may hold lands in any part of India, with the distinct understanding however, that a Military Officer possessing land will be disqualified for temporary employment in any Civil capacity in the District within which his land is situated; but Military Officers who are placed in permanent employment in the Civil administration must, like the Officers of the Covenanted Service, be prevented from holding land in the Presidency to any part of which they may be sent.

7.—No restrictions are to be placed on the possession or acquisition of lands by Uncovenanted Officers of any description, whether of European, Indo-British or Native descent, beyond those now in force.

8.—Officers of all classes (including candidates for office) must, however, be required to, make a declaration of the fact of their being in possession of, or of their having acquired landed property, stating the District within which it is situated, with such other particulars as you may consider necessary, of which registers should be kept at the seat of Government of each Presidency or Lieutenant-Governorship. Although Uncovenanted Officers are not to be precluded from holding land, it may, nevertheless, be inexpedient that appointments which necessarily confer a considerable amount of power and influence on their occupants, such as those of Sudder Ameen, Deputy Collector, and Tahsildar, should be filled by persons holding landed property within their jurisdiction; and it is right that the several Governments should always have at hand the information necessary to guide their judgment in selecting individuals for such offices.

9.—It will, moreover, be incumbent on the several Local Governments to take care that no Officer who may be in possession of landed property in India or elsewhere, to whatever class of the Service he may belong, shall apply any portion of the time and attention which ought to be devoted to his public duties, whether Civil or Military to the management of that property, and that longer or more frequent leaves of absence are not to be permitted on that account.

2. *Secretary of State's Despatch, No. 29, dated 30th November* 1861.

With reference to the letter from your Excellency in Council, dated the 1st October last, (No. 16,) which has been considered by me in Council, I have resolved to accede to your recommendation for a modification of the terms of my Despatch of the 10th August last, (No. 22.) so far as to permit Officers of the Bengal Civil Service, attached to the Lower Provinces, to acquire and hold land in the Upper Provinces including the Punjaub and Oude. Similarly, Officers attached to the Upper Provinces may be permitted to acquire and hold lands in the Lower Provinces of Bengal. It will of course be understood that such Officers possessing lands in either Division are absolutely precluded from employment under the Local Government of the Division in which their lands are situated.

MODIFIED RULES FOR EXAMINATION OF ASSISTANTS.

NOTIFICATION.—FORT ST. GEORGE, *May* 26, 1854.—The following revised Rules for the examination of Assistants in the Civil Service, are herewith published for general information.

The first examination to be held under these Rules will take place in the month of December next at certain Stations hereafter to be determined, and all Assistants who may not have attained substantively the rank of Head Assistant before that time, will be required to present themselves for examination.

RULES.

I. *Half-yearly Examinations of Assistants.*—A half-yearly examination of Assistants, liable under these Rules to examination, shall be held in the months of June and December of each year, at such central Stations as may be fixed by Government.

II. *Two qualifying Standards.*—At these half-yearly examinations, there shall be two standards of qualification, according to the one or the other of which the Assistants shall be examined. An Assistant must be examined and found qualified according to the first standard before he will be authorized to hear and determine any criminal cases except those specially referred to him by the Magistrate, or before he will be vested with a distinct Police charge. An Assistant who has been found, at some previous examination, qualified according to the first standard, must be found qualified according to the second standard before he will be considered by Government capable of holding the office of Head Assistant, and before he will be permitted to draw the increased allowance of 50 Pagodas per mensem.

III. *Effect of passing by each Standard.*—An Assistant who has passed according to the first standard of examination and who has been six months at a Station as an Assistant, will be invested to exercise the ordinary powers vested in Magistrates by the Regulations and Madras Code and may be vested with a distinct Police charge. An Assistant who has passed according to the second standard and who shall have been exercising the ordinary powers vested in Magistrates for at least one year, may, if the Government so order, be permitted to draw the increased allowance of 50 Pagodas per mensem although he may not have served six years.

IV. *Promotion of Assistants.*—The Government will promote to a Head Assistantship no Assistant who shall not have been examined under these rules and found qualified according to the second standard. All Assistants will be promoted under ordinary circumstances in the order of their passing the examination now prescribed according to the second standard of qualification.

V. *What Assistants are to be examined.*—All Assistants who may not have attained substantively, the rank of Head Assistant before the month of December next, shall be subjected to examination. All Assistants who have not passed according to the first standard of qualification prescribed by the present rules, and who have been more than six months at their Stations as Assistants shall be subjected to half-yearly examination. All Assistants who have passed according to that standard but have not passed according to the second standard and who have been more than two years at their Stations as Assistants shall be subjected to half-yearly examination. All other Assistants who have not passed according to the second standard of qualification, may be examined at any half-yearly examination with the special permission of the Collector of their District, previously obtained. Assistants examined under these rules will draw the usual travelling allowance to and from their respective Stations.

VI. *Local Examination Committee.*—The Government will constitute a Committee to be called the Central Examination Committee, by whose instructions the Local Committees shall be guided, and with whom they shall correspond on all matters connected with the half-yearly examinations. The Central Examination Committee will consist of a Judge of the Sudder Court, who shall be President thereof, and of one Member of the Board of Revenue, both nominated by Government; also the Register of the Sudder Court, the Secretary to the Board of Revenue, and such other Members as Government, from time to time, may appoint. A Secretary to the Committee shall be nominated by Government.

VII. *Duty of the Central Examination Committee.*—It shall be the duty of the Central Examination Committee to fix on every occasion the half-yearly examination days, which shall be the same for every Local Committee Station. It shall be the duty of the same Committee to prepare before hand, for each examination, sets of questions to be put to the Assistants under examination, a sufficient number of copies of each of which sets shall be forwarded to each Local Committee, in a sealed packet, not to be opened until the moment of examination. The Central Examination Committee from time to time, shall lay down such Rules as may appear to them best for the guidance of the Divisional Committees, in order to ensure a fair and uniform method of fixing the degree of attainment upon each point of examination which the several Assistants examined may reach.

VIII. *Divisional Examination Committees.*—At the several Stations where the examination is to be held, a Committee consisting of Public Officers, to be called the Divisional Examination Committee, shall on each occasion be constituted by Government, and the Judge of the Station if not absent on leave, shall be a Member. The Commissioner for the Northern Circars shall whenever practicable attend the examinations held within his Division and shall be Ex-Officio President of the Divisional Examination Committee. In other cases the Government shall appoint a President of the Committee.

IX. *Duty of the Divisional Examination Committees and Reports of the Examinations.*—The examinations shall be conducted by the Divisional Examination Committees, who after due deliberation in respect of each Assistant examined, will record the result, stating their opinion as to whether the standard of qualification has been attained or not; which result in case of difference of opinion, will be determined by a majority and shall deliver the record to the President. The President shall transmit the record to the Central Examination Committee with his own Report, wherein he shall express his agreement or disagreement with the Divisional Committee in each case. The President will be responsible for the fairness, impartiality, and proper strictness of the examination. The written answers of the Assistants, and the other papers written by them either in the Vernacular or in English, shall be forwarded with the Report to the Central Examination Committee, after taking all the Reports into consideration and perusing any of the examination papers that it may seem them proper to peruse, shall report to Government the names of such Assistants as in the opinion have proved their qualifications according to one or other of the standards prescribed, noticing especially, in the order of their merit any Assistants who, without reference to the length of their residence in India, may have passed with great distinction.

X. *Principal object of the first Standard.*—The principal object of the first standard of examination shall be to test the proficiency, for practical purposes, of the Assistant in the Vernacular language of his District. For this purpose a set of three papers which he has never seen before, taken from Official Records will be given at hazard, and written by different persons in a plain running hand, must be read aloud by the Assistant correctly, and without great difficulty, and after being read their contents must be correctly explained by him in English. An English judgment or other Official paper to be furnished by the Central Committee, must be translated by him into the Vernacular, without assistance. The translation must be substantially correct in meaning, and intelligible to a Native; tolerably correct in grammar and spelling, and free from any very bad errors of idiom. He must dictate off-hand with some fluency, the translation into the Vernacular of an English report, or other official paper also to be furnished by the Central Committee, whereof the Translation will be written down exactly as dictated. The dictated paper must in like manner be intelligible and substantially correct. He must then be tested in conversation with one or three Natives in such manner and to such extent as shall suffice to satisfy the Committee as to the degree of his power of understanding Natives of different classes, and of making himself understood by them—such conversation or colloquial examination to be confined to the ordinary duties and business of a Court or Cutcherry, and not to embrace abstruse or peculiar subjects. An Assistant must pass successfully every step of this branch of the examination, in order to qualify according to the standard.

XI. *Second object of the first Standard.*—The next object of the standard of qualification shall be to test the Assistant's general acquaintance with the leading principals of the Systems of Revenue Administration and Criminal Jurisprudence, especially with so much of the laws and Rules of Procedure as it is necessary for an Officer to know, in order to exercise properly the highest functions of a Magistrate. For this purpose, a set of questions on Revenue, Magisterial and Police subjects shall be furnished by the Central Committee. These questions should be so framed as not to involve points of difficulty or rare occurrence, and to show rather the possession, or the want of a general and intelligent acquaintance with the subjects of Examination and the fundamental laws applicable thereto, than of a knowledge of a string of points of detail and dates of orders, which may be soon learned for the occasion, and are generally as soon forgotten again. These questions must be all answered without book. The Assistant should also be examined generally as to his knowledge of Cutcherry Accounts—both the English Accounts kept at the Hoozoor and the Native Accounts Talook and Village—of Hookumnamah of his District, and of its past revenue history as to be learnt from the records.

XII. *Third object of the first Standard.*—The next object of the first standard of Examination shall be to test the power which the Assistant may have acquired to deal with conflicting arguments and evidence, in actual cases. For this purpose two decided

cases, with the final proceeding in each withdrawn which the Assistant has never before seen, one from the Collector's and one from the Magistrate's Office, of the nature of cases coming before Assistants exercising the highest functions of an Assistant to a Collector and Magistrate, shall be given to the Assistant. The papers may be read over to him by a Native Officer; and the explanation of any difficult word or phrase may be asked for and given in the Vernacular, the circumstances being in each case noted. The Assistant may now refer to all his books, and may take his notes as the case is read over. At the conclusion of each case he must write in English a brief but precise description upon the questions at issue, with a sufficient statement of the grounds on which it is founded.

XIII. *Fourth object of the first Standard.*—The last object of the first standard of Examination shall be to ascertain how the Assistant has been employed, and how he has done his duty at his Station. For this purpose the Collector and Magistrate under whom he has been employed shall furnish the Committee with a report upon these points. It shall be the duty of such Officers, to make over to their Assistants from time to time cases for report. The reports shall be written in English on one side of a sheet of paper; and after the case is decided, the Officer who decides it shall note on the other side of the sheet his remarks upon the report. These reports with the notes thereon, shall be submitted to the Divisional Examination Committee. Such Officers shall also require their Assistants to make English Minutes of the cases given to them for decision, which Minutes also shall be submitted to the same Committee. But these reports and Minutes need not be sent up to the Central Examination Committee. The opinion formed of them by the Divisional Committee, however, shall be entered in the record submitted to the Central Committee.

XIV. *Second Standard.*—The second standard of Examination shall be similar in its nature to the first, but more difficult in degree. In the Vernacular portion of it, the reading of a common office running hand must be tolerably read; the papers selected as tests should be of a more difficult description of office papers, the translation, dictation, and conversation should be fluent, generally correct and readily intelligible; and the Assistant should be tested in his power of explaining himself clearly, and with sufficient propriety in the Vernacular, in an argument or topic of some difficulty such as may occur in official business. In this Examination it will be necessary for the Assistant to pass in two Vernacular languages of which one shall be the language of the District in which the Assistant is stationed at the time of the Examination, and the other any one of the languages, including Hindustani prevailing in the Madras territories, which the Assistant may prefer. Provided that ordinarily and except on special grounds, no Assistant shall be promoted in any District, in the Vernacular of which he has not passed. The test described in this Rule shall be strictly enforced in respect of the language of the District in which the Assistant is stationed at the time of examination, but will be relaxed in respect of the second language, and in respect of any other language which an Assistant must pass before he can be promoted in any District in which it prevails. Ability to write the language will not be required but only a fair colloquial acquaintance with it on the part of the Examinee and power to translate correctly an official paper read to him; to dictate orders in the language and read ordinary urzees. The questions of law and practice should be selected from the whole field of the duties of a Magistrate and Collector; but they shall be arranged in two classes, one class comprehending important and leading points, in answering which no books shall be allowed; and the other class comprehending less general and less common points, in answering which the assistance of books shall be allowed. No Guides, Digest or Summaries, however, shall be permitted to be used, the Assistant being confined to the original laws, Circular Orders, and constructions. The object of this class of questions is to test the Assistant's knowledge of where readily to find the law or practice on the less common points that arise in business. In preparing these questions, nice and difficult points should be avoided; the object being not to evoke subtlety or ingenuity, but only to ascertain whether the acquisitions and capacity of the person examined are adequate to enable him to perform fitly the important functions of an Indian Magistrate and Collector, or not. The trial cases should be selected from those possessing enough of complexity to test the Assistant's ability to master all ordinary difficulties and especially to test his power of minute attention to and just appreciation of evidence.

XV. *Object of the second Standard.*—It shall be the object to make this second standard such that a man who has passed a College examination, being of ordinary understanding and capability, who fairly applies himself with proper diligence to his business, and makes it his daily object to familiarize himself with the language of the Country, may pass it after two or three years of Mofussil experience.

EXAMINATION RULES.

I.—GENERAL TEST.

NOTIFICATION.—FORT ST. GEORGE, *26th April* 1861.—His Excellency the Governor in Council deeming it expedient that the regulations now in force for testing the qualifications of candidates for employment in the Uncovenanted Civil Service of this Presidency should be so far altered as to allow of persons who have been admitted into the public service, on the ground of their having passed an elementary examination in those branches of knowledge which usually form the basis of a general education, being promoted without passing any further literary test; and that the University examinations should be more closely and more obviously connected with those prescribed for the public service; and also that more effective provision should be made for testing the professional qualifications of candidates for employment in particular offices or departments,—directs that the following regulations shall be substituted for those contained in the Notification dated the 4th March 1858.

I. No person (not being a graduate or a matriculated student of the University of Madras, or a passed candidate according to one or other of the tests laid down in the above Notification,) who had not been employed in the public service on or before the 1st January 1859, and has not been continuously employed ever since,* shall be appointed to any situation, the salary of which may exceed Rs. 25, without having passed a satisfactory examination in the following subjects:—

III. Candidates for employment in the English branch shall be required to execute the test in hand-writing, orthography and composition in the English language; and candidates for employment in the Vernacular branch, shall be required to execute the same test in the Vernacular language of the District in which they seek employment.

IV. It shall be optional with candidates to perform the test in arithmetic, geography and history, either in English or in a Vernacular language, at their discretion.

V. Candidates for appointments in the Anglo-Vernacular branch must pass the test in hand-writing, orthography and composition, both in English and in the Vernacular language of the District in which they seek employment. They may pass these tests either at the same examination, or at two different examinations, as they may think proper.

VI. The foregoing test shall not apply to persons who have passed the matriculation examination of the Madras University, except that it shall be necessary for such persons, if candidates for employment either in the Vernacular or in the Anglo-Vernacular branch of the service, and if the second language in which they have passed the University examination be not the Vernacular of the district in which they seek employment, to pass in such language the test laid down in Rule I.

3rd. Passed candidates examined according to the service test.

VIII. The candidates entered in each class shall be ranked in the order of proficiency in a register prepared in the annexed form (Appendix A.*)

IX. In order that the fitness of candidates for particular situations, demanding special qualifications, may be adequately tested, the several controlling Boards and heads of departments shall, from time to time, with the sanction of Government, and after communicating with the officer appointed to direct the Uncovenanted Civil Service examinations, prescribe such special tests as they may deem requisite for particular offices or classes of offices in their respective departments; and persons desiring to pass such tests, shall be examined at the periodical examinations provided for in the preceding rules.

X. At the close of the said examination, a separate register of candidates passed according to a special test, shall be published.

XI. The examinations provided for in the foregoing rules shall be conducted by means of printed papers. They shall be open to all comers, whose age may exceed 18 years, on presenting an application prepared in the prescribed form and paying a fee of Rs. 3-8; provided that candidates who may have previously passed the University Matriculation examination or the general service test, shall not be required to pay a further fee in order to be admitted either to the examination in a second language or to the special test examination.

* Not printed in this Almanac, as not necessary for general information.—Ed.

XII. The general direction of the system of examination provided for in these rules shall be entrusted to an officer, who shall be styled Commissioner for the Uncovenanted Civil Service Examinations. It will be his duty to appoint examiners, to nominate officers to superintend the examinations in the Provinces, and to determine on the reports of the examiners what candidates shall be registered as eligible for employment in the public service, or for particular offices and departments. The functions of the examiners will be confined to preparing the questions under the instructions of the Commissioners and examining and reporting on the answers.

XIII. It is to be distinctly understood that the Government do not undertake to provide appointments for all persons who may pass the prescribed examinations under these rules. Appointments will, as before, be regulated by the requirements of the public service, and will be made by the same authorities as heretofore. It is likewise to be understood that it will still, as before, be open to Government and, with their sanction, to the controlling Courts and Boards, whenever they may see necessary to prescribe the period of service which must be passed in one grade of appointment before promotion to a higher grade altogether irrespective of these rules.

Certain classes admissible without Examination.

3. In respect to parties of the second class, no general rule can be laid down. Such cases should be referred by heads of offices, from time to time, for the orders of Government as they occur. It is to be observed, however, that none are to be submitted, unless the previous service of the party on the regular (not hungamy or temporary) establishment, amount to at the least five years, or unless his conduct has been good.

Volunteers in Public Offices.

Notification, August 31, 1859.—The following Proceedings of the Madras Government in the Revenue Department, dated 20th August 1859, No. 1125, is published for the information and guidance of subordinate officers.

In their order of 13th March 1848, No. 268, Revenue Department, the Government directed that the employment of Volunteers in the public offices at the Presidency should be restricted to the narrowest possible limits, and the Court of Sudder Udalut have recently, in their Circular dated 11th June 1859, prohibited the employment of such persons in the Courts.

2. The Honorable the Governor in Council now resolves to extend the rule of March 1848 to the Collectors' offices also, if the aid of "Volunteers" cannot be altogether dispensed with there, as has been done in the Judicial department. There cannot be the same need of such unpaid assistants now that there was some years ago, since the Collectorate Presses have so much reduced the copying work in Collectors' offices.

3. Collectors will be instructed very strictly to limit the number of Volunteers employed either in their own offices or in those of their subordinates. None should be allowed but such as are registered after enquiry as to qualification and character; and none should hereafter be so registered who have not passed the Uncovenanted Service Examination.

4. Volunteers admitted into the offices at the Presidency also will be so only in accordance with the preceding rule.

By order of the Honorable the Governor in Council.

T. Pycroft, *Chief Secretary.*

Rules for regulating Leave of Absence to Uncovenanted Servants.

(Published in Fort Saint George Gazette, 26th June 1863.)

☞ *Passages under brackets indicate the modifications that have taken place since the publication of the rules and the old rules still unrescinded.*

These Rules are applicable to all Officers of the Uncovenanted Civil Service receiving salaries of not less than Rupees 100 a month, whether they receive their appointments direct from Government or from Heads of Offices and Departments.

The following are the kinds of leave allowed :—

I. Leave on Medical Certificate.
II. Leave on Private Affairs and Furlo'.
III. Privilege Leave.
IV. Preparatory or Additional Leave.

General Rules.

1. All applications for leave must be made publicly, through the regular channel, in the Department to which the applicant belongs.

2. Officers appointed by Government can obtain privilege leave from the Heads of their respective Departments—when the latter are duly authorised to exercise this power—but in other cases leave must be granted by the Government. (*a*)

3. Officers appointed by Heads of Offices and Departments can obtain any leave under these Rules without reference to Government ; but the Authorities granting such leave must furnish to the Civil or Military Audit Office which passes the Pay Bill of their Establishment, a monthly Return of the leave granted by them according to the Form given in Appendix A.

4. Absence without leave will involve loss of salary, and render the absentee liable to loss of appointment.

5. No leave of absence shall have retrospective effect, except in case of severe illness, to be attested by a Medical Certificate in the prescribed Form.

Applications for leave on Medical Certificate.

6. Applications for leave on Medical Certificate must be accompanied by a statement from the Medical man by whom the applicant has been attended—distinctly stating, from personal observation, the nature of the disease, its symptoms, causes, and duration, so far as the knowledge of the Medical Officer extends, and by a Certificate from the Chief Medical Officer of the Station or District ; or, if at a Presidency Town, from a Presidency or other Official Surgeon, certifying, after careful personal investigation, the necessity for temporary removal, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the Certificate must be countersigned by the Superintending Surgeon of the Division in which the applicant may be employed. In cases of leave beyond sea, the Certificate must be also submitted, with the statement of the case, for the countersignature of the Principal Inspector-General of the Medical Department.

Extension of leave on Medical Certificate.

7. An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement shewing sufficient reason for the extension solicited ; and such Certificate must be countersigned by the Principal Inspector-General of the Medical Department, or by the Superintending Surgeon of the Division in which the applicant may be residing. If the applicant shall have proceeded beyond the Territories under the Government of India, he must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended ; such attendance, and the period of it, to be stated, and the Certificate to be countersigned, after *personal* examination, by the examining Physician of the India Office, if the absentee is in England—or by the Principal Medical Authority of the Colony or country to which the absentee may have proceeded.

8. If any of the above particulars be neglected, or the omission of any one of them unsatisfactorily explained, the leave will be refused.

Application for leave on Private Affairs.

9. Leave on Private Affairs and furlo' will be granted by Government, or by authorised Officers, on sufficient cause being shewn, and when the concession of the indulgence may in no way interfere with the interest of the Public Service.

Extension of leave to date of arrival of vessel.

10. When an Officer on leave in England is permitted by the Home Government to return to duty by a particular vessel, this permission, if necessary, will be held equivalent to an extension of leave until the arrival in India of the vessel on which the Officer is permitted to return.

Leave on Medical Certificate.

11. Leave on Medical Certificate, with allowances, is limited to the extent of three years in two periods—of which not more than two years may be taken at one time. Should any further leave be applied for on medical certificate, it may be granted, but without any allowance.*

[Leave of absence, on Medical Certificate taken for short periods within Indian limits shall not bar a further leave of absence either in India or elsewhere : provided that the whole of the periods of absence shall not exceed three years during entire service of Government.—*Not. Government of India, 16th July* 1863, *Gazette, 28th idem, page* 165.]

Leave on private affairs and furlo'.

12. Leave on private affairs and furlo', with retention of office, may be granted as follows :—

1*st.*—*Leave on private affairs*—for six months in one period, which leave may be repeated after intervals of six years.

2*nd.*—*Or* a FURLO'—for one year after ten years' service, and a second furlo', also for one year, after eighteen years' service in India—such absence being limited to two years during the whole period of service.

(*a*) In their Proceedings of 17th October 1861, No. 506, the Madras Government resolved "to vest the Court of Sudder Adawlut, the Board of Revenue, and the Chief Engineer, Public Works Department, with the power to grant *privilege* leave to the full extent to all Officers subordinate to them under the grades noted in the margin, a previous reference however being made to Government when it is necessary to appoint an Officer to act for the Absentee.

Civil and Session Judges.
Collectors and Magistrates, and Agents to the Governor.
District Engineers.

Applications for such leave should be submitted to the above mentioned authorities through the prescribed channel, and be settled by them after reference to the Audit Office.

Director of Public Instruction.
Inspector General of Police.
Superintendent of Marine, except to Master Attendant of Madras.
Principal Inspector General, Medical Department, as regards Civil Medical Officers.
Director of Revenue Settlement.
Superintendent of Revenue Survey.
Inam Commissioner.
Conservator of Forests.

2. The controlling authorities named in the margin are also vested with power to grant leave similarly to all Officers subordinate to them, subject to the same provisions.

3. Notifications of the grant of privilege leave by the several authorities will be forwarded *direct* to the Superintendent of the Government Press to be published in the Fort St. George Gazette.

*This rule is considered to apply to cases of leave of absence to England or to places beyond Indian limits.—*Not. of Government of India, 16th July* 1863, *Gazette, 28th July* 1863, *page* 165.

13. On taking leave under the preceding Rule, for the first time, an Officer must decide whether he will apply for leave on private affairs, or for furlo', and having once exercised his option and obtained leave accordingly, he will not, during the remainder of his service, be eligible to the other description of leave.

14. Furlo', and leave on private affairs, taken in India, will reckon from the date of leaving office to the date of return thereto. Furlo', and leave on private affairs, taken beyond India will reckon from the sailing of the vessel on which the Officer embarks to the date of his return to India.

15. Furlo', or leave on private affairs, cannot be taken in continuation of privilege leave.

Privilege leave.

16. Privilege leave, *(a)* when it can be granted without injury to the public service and without additional expense to the State, may be allowed for not more than one month in each Calendar year—to be taken either in one period or in not more than two instalments. This leave is not allowed to accumulate, and will therefore lapse if not taken within the year.

[Uncovenanted Officers who were entitled to accumulated privilege leave under the old rules, when the new rules were issued, are allowed two or three months leave in the same manner as if the old rule still remained in force.—*Notification of Government of India*, 31*st July* 1863, *Gazette*, 18*th August following, page* 293.]

17. Privilege leave for one month in each Calendar year may be allowed to Officers who have not been absent on leave for eleven months immediately preceding; unless they took their last privilege leave in two instalments, in which case the indulgence will not be available until eleven months after the expiration of the first instalment, and six months after expiration of the second instalment of the previous year's privilege leave.

Preparatory leave.

18. Preparatory, or additional leave, is allowed to Officers proceeding to or from a Sanatarium on medical certificate, or to or from the port of embarkation from India to Europe on private affairs, furlo', or medical certificate, and is limited to such period as the authority granting leave may think sufficient. Officers proceeding from Presidency towns on sick leave beyond Sea will be allowed fourteen days for preparation.

Preparatory Leave.

[The Government is authorized to grant, as a general rule, to Uncovenanted officers proceeding beyond sea, on medical certificate, special leave for the interval elapsing between departure from station and the commencement of reckoning absence or between the end of reckoning absence, and re-arrival at station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distance, on the condition that during this additional period, the absentee shall be entitled to draw the same rate of allowances as are granted by the Clause noted in the margin. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatarium.—*Notification of Government of India*, 14*th October* 1857, *No.* 42.]

In the case of Uncovenanted servants, Clause 3 of Section V of the absentee rules for the Uncovenanted Service.

[A separate application for preparatory leave need not be submitted by officers proceeding to Europe on sick leave. The Civil Paymaster is authorized to pass the allowances of such officers for the period occupied in travelling to and from the port of embarkation when satisfied that the conditions upon which such leave is permitted by the existing orders of the Supreme Government have been duly fulfilled.—*Notification of Government of India*, 17*th April* 1857, *No.* 18, *Gazette*, 1*st May* 1857.]

(a) The mere fact of the presentation of a Medical Certificate is no bar to the grant of Privilege instead of Sick leave.—*Gazette*, 11*th May* 1860, *page* 1050.

[Leave may be granted on separate application preparatory to furlough on private affairs, or for return to station after the expiration of furlough only on the terms of Section IX of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, without forfeiture of appointment, but without pay; the period of absence not counting as service towards pension.

If the furlough, however, be enjoyed in India, no preparatory leave is to be granted; the furlough being reckoned from the date of the absentee's quitting his post to the date of his return thereto.—*Notification of Government of India*, 22*nd January* 1857, *No.* 4, *and* 17*th April* 1857, *No.* 18, *Gazette, February* 1857, *and* 1*st May* 1857.]

[The absentee is not entitled to any pay for the time intervening between the expiring of his preparatory leave and the date of embarkation: nor is he at liberty to reckon his sick leave from date of expiring of preparatory leave instead of from the date of embarkation; but every special case of this description will be considered on its merits.—*Letter from Government of India*, 17*th April* 1862, *No.* 2882, *published on page* 803 *of Gazette*, 23*rd May* 1862.]

[If the officer be at a Presidency town he is allowed one month's preparatory leave.—*Letter of Government of India*, 7*th September* 1861, *No.* 11,369, *Gazette, October* 1861, *page* 519.]

19. Officers retiring from the service on Pension will be allowed fourteen days' leave on half pay—provided the indulgence can be given without detriment or extra expense to the Public Service.

Occasional Leave.

[It is left to Heads of Offices, subject to the orders of the local Government, to grant, at their discretion, casual leave of absence from office in cases of sickness, death of near relatives, &c., on condition that the local Government shall see that the discretionary power to be placed in the Heads of Offices is not abused. Such casual absences from office are not to be reported to the Civil Auditor, but systematically entered in a book to be kept in each office, and when an application for privilege leave is received, the leave should be granted or refused with some reference to the entries in this book.—*Pro. of Supreme Government*, 28*th Sept.* 1858, *Fin. Dept., No.* 5670, *Fort Saint George Gazette*, 18*th Nov.* 1858.]

[This leave is granted without loss of salary and without being taken into account as part of the two years allowed by Clause 1 of Section V.—*Pro. of Govt. of India*, 12*th June* 1857, *Fin. Dept., No.* 2527, *Gazette*, 17*th July* 1857.]

Absentee Pay.

20. Absentee pay, if at half salary, shall in no case exceed 6,000 *Rs.* or 600*£* per annum—or if at one-fourth salary, shall not exceed 300*£* per annum. Within these limitations Absentee Pay will be given as follows:—

I. To an Officer absent on sick leave in or out of India—half salary for the first fifteen months of each period of absence, and one-fourth salary during the remainder of his absence on allowances.

[If taken for short periods, half salary during the first 15 months taken from time to time, and after the completion of 15 months, one-fourth salary for all other periods to the limit of 3 years.—*Not. of Govt. of India*, 10*th July* 1863, *Gazette*, 28*th idem, page* 165.]

II. To an Officer on leave on private affairs—one-half of his salary for a period not exceeding six months of continuous absence, and for any further period of preparatory leave which may be granted to him. But if an Officer, absent on private affairs obtain an extension of leave on Medical Certificate, he will be subject for the whole period of his absence to the Rules for sick leave.

III. To an officer proceeding on furlo' whose salary does not exceed 200 *Rs.* per month—one-half of his salary: Provided, however, that it shall not exceed 800 *Rs.* or 80£ per annum. If the absentee's salary shall be above 200 *Rs.*, and not exceeding *Rs.* 400 per month, he may be granted an allowance of..... ..... 1,300 *Rs.*, or 130 £

Do.	400 do.	do.	700	do.	2,000 ,,	or 200 ,,
Do.	700 do.	do.	1,200	do.	3,000 ,,	or 300 ,,
Do.	1,200 do.				4,000 ,,	or 400 ,,

IV. To an Officer on preparatory leave—one-half salary before commencement of other leave, and—on return from leave—one-half, or one-fourth salary, or furlo' pay, according to the rate of salary he may be then drawing.

V. To an Officer on privilege leave—full pay.

21. An Officer who overstays privilege leave by not more than one month will forfeit pay for the period in excess; but if he exceed his leave by more than one month his office will become vacant. An Officer on privilege leave who may resign the service, or who may obtain sick leave without first rejoining, will, in the former case, forfeit his salary for the period of privilege leave, and in the latter case be subject to the Rule for sick leave for the whole period of his absence.

Rules for joining Office.

Time allowed for joining an appointment will be fixed by the Authority conferring the appointment.

An Officer entering the service of the Government is not entitled to any salary before joining his appointment; but when transferred from one appointment to another, of equal or higher value, he will draw so much of the salary of his new office as may be equal to that of his former appointment.

[Advancement to a higher class during privilege leave, does not bar payment of the higher salary from date of advancement if the promotion does not involve any increase or change of duties or responsibilities.—*Proceedings Government of India, 29th July* 1863—*Proceedings Madras Government, 29th August* 1863, *No.* 552.]

[Arrival on a Sunday entitles the relieving officer to the salary of his appointment for that day, but on other days it is necessary in order to enable the relieving officer to draw the current day's allowance, that he should take charge of the duties of the office before noon.—*Not. of Govt. of India, 26th March* 1862, *No.* 49, *Gazette, 15th April* 1862, *page* 594.]

[For the portion of the journey traversable by railway 100 miles a day are allowed; for the portion traversable by steamer 100 miles a day or the time actually occupied in the voyage, when by accident the duration of the voyage exceeds the time calculated at the rate of 100 miles a day.—*Not. of Govt. of India, 30th March* 1861, *No.* 65, *Gazette, 14th May* 1862, *page* 675.]

Payments of Absentee Allowances.

22. Officers absent on privilege leave cannot draw pay until their return to duty.

23. Officers proceeding to England on furlo', or on private affairs, or on Medical Certificate, must obtain Certificates from the Civil Paymaster—in the Form given below—for submission to the India Office on their arrival in London:—

Name, Service and Designation of the party obtaining leave.	Salary of Substantive Office.	Nature and period of the leave.	Date of intended departure of vessel from Calcutta or other Port.	Rate of allowance to be drawn in England or not.	Date from which the first payment is to commence.

24. But if they desire to draw their allowances through their Agents in India, the latter must execute a guarantee to refund over-payments. When Officers remain in India, and draw their allowances themselves, and attach to their Bills life-Certificates attested by a Deputy Magistrate, or a Covenanted District Officer, they will not be required to furnish any security.

DEPUTATION ALLOWANCE

[*under Rules of 28th February* 1856, *No.* 340.]

Section XIV. A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument, will be subject to deduction at the same rate; but no additional expense is on any account to be incurred by the absence of any officer on leave.

[When Covenanted officers, Civil or Military, officiate for Uncovenanted officers, and when Uncovenanted officers act for Covenanted officers, Civil or Military, the deputation allowances in such cases will be regulated according to the principle laid down in Chapter VI. Sections 25, 26, and 27* of the Covenanted Civil Absentee Rules, it being understood, however, that Section 27 shall not apply to *Ministerial* officers acting for Covenanted officers, who

*CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

* * * * * *

Section XXV. Deputation allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereafter laid down:—

To Civil servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation allowance being in addition to the subsistence allowance of their respective ranks.

To Civil servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided, however, that no lower rate of Deputation allowance shall be given than Rupees 200 per mensem.

The Deputation allowance shall in all cases be in addition to the salary of the substantive appointment held by the officer on Deputation.

The above rates are granted provisionally, subject to future revision.

are entitled to acting allowance from the date they commence to officiate, and not after the expiration of one month, as in the case of other Uncovenanted officers of superior grade.

When an officer of the Uncovenanted Service acts for another of the same service, or when a Military officer acts for another Military officer, he shall be governed by the rules of the respective services to which he belongs.—*Notification of Government of India, 9th May* 1859, *No.* 638, *Fort Saint George Gazette, 27th idem, page* 1074.]

[When an officer officiates in another appointment continuing at the same time to discharge the duties of his own post, he is permitted to draw the full salary of his substantive and a moiety of the acting appointment.—*Resolution of Government of India, 16th March* 1860, *Gazette, 17th April* 1860, *page* 843.]

[The deductions are invariably to be made in accordance with these rules from the salaries of all absentees, whether they are in receipts of 100 Rupees or less, except when special directions are issued by Heads of Offices to make larger deductions which may be necessary in cases of officers whose duties cannot be otherwise provided for without extra expense to Government.—*Proceedings of Government of India, 9th November* 1857, *No.* 4696, *and Proceedings of Madras Government, 30th idem, No.* 764.]

Heads of Offices are required to be guided by the spirit of the rules above prescribed in granting leave of absence to servants, whose salaries are less than 100 Rupees a month.—*Notification of Government of India, 6th February* 1857, *No* 11, *Gazette, 20th idem, page* 342.

In the Punjaub, Nagpore and other places, where appointments are by classes, the amount of Deputation allowances, payable at the above rates, will be calculated, not upon the salary of the individual officer holding the substantive appointment in which the officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular classes to which the appointment may belong.

A Civil servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the officer to be relieved, subject to the prescribed deductions.

A Civil servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation allowance on the reduced salary.

An officer officiating in more than one appointment will be entitled to Deputation allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation allowance in addition to the higher salary to which he has been promoted.

Section XXVI. No Civil servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation allowance, according to the prescribed scale, added to the permanent emoluments of the officiating servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no deputation allowance, unless the emoluments of the office in which he is deputed to act, exceed the united emoluments of his permanent appointments, and in that case the Deputation allowance shall be limited to the difference.

Section XXVII. No subordinate officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. absolutely necessary (or highly desirable.)

The following Form shall be observed by the Superintending Surgeon and the Principal Inspector General of the Medical Department in countersigning the Certificate :—

I do hereby certify that, according to the best of my professional judgment, after careful consideration of his case, I believe the state of health of E. F. to be such as to render leave of absence, for a period of
absolutely necessary (or highly desirable) for his recovery.

Dismissal of Uncovenanted Servants.

Para. 1. In the Resolution of the Most Noble the Governor General in Council forwarded with Mr. Under Secretary Couper's Letter of the 24th February last, the local Governments are directed "to issue the necessary orders for the establishment of a rule to prevent the arbitrary dismissal of Uncovenanted servants, based on the suggestions of the Honorable Court."

2. The Right Honorable the Governor in Council considers a rule of this nature highly desirable—for so long as the Uncovenanted servant can be dismissed without full enquiry, and proof of misconduct, at the will of his superior, his tenure of office is so uncertain that it leads almost necessarily to the habit of looking at office as temporary, and the temptation therefore is to make the most of it whilst it is held.

3. This power of arbitrary dismissal also confirms in the whole body of the Native servants the habit of servile dependence on a superior, which strikes at the root of all independence and manliness of character.

4. The Governor in Council resolves therefore, in compliance with the orders of the Government of India, to lay down for the guidance of the Heads of all Offices in the Revenue, Judicial, Military and Public branches of the Service, the following general principles by which the dismissal of Uncovenanted servants should in future be regulated.

5. Persons appointed to permanent situations in any Department, shall not be dismissed, but for fraud and dishonesty—continued and wilful negligence—offences involving moral disgrace—and proved incompetency.

6. As under the present rules for the Revenue and Judicial Departments, fines exceeding 10 Rupees cannot be inflicted without the sanction of the Board of Revenue and the Court of Sudder Adawlut respectively, it is simply consistent to provide the same control over the dismissals of persons receiving upwards of 10 Rupees—but it will be sufficient to require returns to be made of such dismissals, specifying the cause of dismissals as falling within one or other of the Heads in the above category, and to provide that no dismissal shall be final until the expiration of three months from the date on which the return shall be transmitted, giving the party a right of appeal at any time within that period. It should be understood that dismissal not appealed from nor objected to by the Controlling Board upon their own review of the returns, are to be taken as confirmed.

7. The rule should be more definite than it is in the Judicial Department as to what servants may be dismissed *without the previous consent* of the controlling authority. In the Revenue Department, Tahsildars cannot be dismissed without previous sanction—and this rule ought to be extended to some other responsible situations—such as Talook Sheristadars, Peishcar, Hoozoor Head Gomastah and the like. A similar rule should be applied to protect Officers of the same grades in the Judicial Department.

8. The Governor in Council considers it but just and proper that greater protection should be given to *old* servants, and with this view he directs that the previous sanction of the controlling authority should be indispensable to the dismissal of any servant of 15 years' standing receiving a certain salary, say 25 Rupees a month—but the amount will be determined on the report of or according to the opinion of the Court of Sudder Adawlut and Board of Revenue, who will confer together and report on this point.

9. In every case the specific grounds upon which it is proposed to dismiss any servant should be reduced to writing and furnished to him, and the answer or defence or explanation of the party taken in writing, and the final decision of the superior recorded in writing. It will not be absolutely necessary for every head of charge to be formally proved by evidence, but where a specific fraudulent act is charged, of course it should be so proved in the presence of the party accused and subject to his cross examination, and so with other specific acts susceptible of proof by the evidence of witnesses upon which accusations within the category are built—but the charges will often be matter of inference from circumstances not capable of formal proof but not less leading to a moral conviction. The rule therefore on this head ought not to be rigorous.

10. As connected with this subject, the Governor in Council takes the opportunity of declaring the practice of Officers introducing their own dependants or followers from other Districts into high and responsible trust under them in a new office, thus supercceding the old servants of the office, to be very objectionable—and he accordingly resolves that this source of arbitrary removal be at once checked. With regard to the highest offices in the Revenue Department, they are subject to the confirmation of the Board of Revenue, and it will be the duty of the Board to prevent the appointment of a follower of the Collector without good and sufficient reason being assigned, contrary to the declared sense of Government on the subject. The appointment of Deputy Sheristadar should also be made subject to the confirmation of the Board—but it will be sufficient when an Officer of that grade is appointed that the appointment shall be reported to the Board with a statement of his previous services, that the Board may interfere if the appointment shall appear objectionable on the ground of the declaration of Government.

11. This course should also be followed in regard to the appointment of the Sheristadars and other principal Ministerial Officers of the Judicial Courts.

12. With regard to offices which are subject to no controlling authority, the Government will directly exercise the same measure of control as is proposed to be exercised by the Sudder Court and the Board of Revenue respectively in regard to the Heads of Offices subordinate to them.

13. The Court of Sudder Adawlut and the Board of Revenue as well as other controlling authorities will accordingly prepare and submit subsidiary rules for giving effect to the foregoing views and orders of Government.

14. The Government of India require the transmission to them of a half-yearly list of all dismissals (with the cause briefly set forth) of Uncovenanted servants holding office with a salary above 10 Rupees per mensem. To enable this Government therefore implicity to obey those orders, Heads of all offices in the Revenue, Judicial, Military and Public branches of the Service must consider it their very special duty to furnish the Government regularly with the required half-yearly Returns—and those officers who have hitherto neglected to obey the orders of this Government on the subject, dated 18th November 1851, No. 1064, will immediately submit their Returns for the entire year of 1853. With these Returns and those already received for that year, a General Return will be prepared in this office to be laid before the Government of India.—*Ex. Min. of Cons., 5th May* 1854, *Public Department, No.* 421.

Pension Rules for Uncovenanted Servants other than Educational Officers, Law Officers, and Native Judges, receiving more than Rupees 10 (*a*) a month, and belonging to Classes eligible to Pension under the Orders of Government.

Published in Fort St. George Gazette Supplement, 26th June 1863.

Applications for pension must be submitted in a letter to Government by the Head of the Office or Department in which the applicant may be employed, who shall certify that the character, conduct, and past service of the applicant are such as to entitle him to the favorable consideration of Government.

2. Every application shall be accompanied by a Register prepared according to Form A, in the Appendix; [and by an accurate statement of all the leaves other than Privilege and Preparatory leaves obtained by the applicant during the whole period of his service.—*Government of India Notification, 25th August* 1863.—*Gazette, 22d September, p.* 540.] In cases of other than a Good Service Pension every application shall be accompanied by a Medical Certificate, stating the applicant's incapacity for further Service, with the cause thereof, and that it has not been induced by irregular or intemperate habits.

3. Applicants for a Superannuation Allowance must be examined by the Principal Inspector General of the Medical Department, if serving at the Presidency, or by a Military Invaliding Committee, if serving elsewhere within a moderate distance (*b*) of a Station at which a Military Invaliding Committee is periodically assembled. It is optional, however, with the Local Government to accept the Certificate of a single Medical Officer, or to convene a Special Invaliding Committee at a convenient Civil Station, if the applicant be serving at an inconvenient distance from a Station where a Military Invaliding Committee can be assembled.

4. Good Service and Superannuation Allowances on retirement, sanctioned under these Rules by the Local Governments, will be reported to the Government of India in Quarterly Returns in the Form given in Appendix B.

Allowances on Retirement.

5. On production by an applicant of such Medical Certificates as shall satisfy the Government, under which he may be serving, of his incapacity to serve longer in India, he will be allowed—

I. Under fifteen years' service—a gratuity not exceeding twelve months' salary.(*c*)

II. After fifteen years' service—one-third of his average salary, (and of his personal allowance, if any,) during the previous five years: Provided, that in no case shall a pension be granted exceeding the sum of 3,000 *Rs.* per annum, whatever the amount of salary, nor of 2,000 *Rs.* per annum, if the salary shall not exceed 12,000 *Rs.* per annum.

III. After twenty-five years' service, one-half of his average salary, (and of his personal allowance, if any,) during the previous five years: Provided, however, that in no case shall a pension be granted exceeding 5,000 *Rs.* per annum, whatever the amount of salary; nor exceeding 4,000 *Rs.* per annum, if the salary shall not exceed 12,000 *Rs.* per annum.

(*a*) When salary is drawn in Sicca Rupees, they should be converted to Rupees (Government) and the minimum of 10 preserved—*Notification of Government of India, 17th July* 1863, *Gazette, 25th Idem, p.* 165.

(*b*) i. e. within 50 miles of such station. The certificate of a single Medical Officer will be accepted only in cases where there is no station containing two Medical Officers within 50 miles of the place where the applicant for pension is serving.—*Notification, Gazette, 4th August* 1863, *No.* 205.

(*c*) To persons belonging to grades which do not qualify for pension, the old gratuity rules are still applicable. For those Rules, see page 176.

6. After thirty years' service or upwards a pension may be granted, without production of Medical Certificate, of the same amount and subject to the same limitation as that sanctioned for twenty-five years' service on Medical Certificate. This pension—as the reward of faithful, efficient discharge of duty for thirty years—is termed a Good Service Pension.

7. Pensions of the full amount authorized in paragraphs 5 and 6 are to be granted only as the reward of approved service. In any case in which an Uncovenanted Servant, without having incurred the penalty of removal from Government employ, shall, nevertheless, in the opinion of the Government under which he has been serving not be entitled to the full amount of pension, the Local Government will make such a reduction in the amount of pension as it shall consider just.

8. The foregoing rates of pension and gratuity are applicable also, without the production of a Medical Certificate of unfitness for service, to Officers discharged on reduction of Establishment.

Service towards Pension.

9. Dismissal for misconduct entails forfeiture of the benefit of past service.

10. Service as a substitute does not count towards pension.

11. Periods of service before the age of 22, or of absence on other than privilege leave and preparatory leave, shall not count towards pension.

12. The whole of the service, in virtue of which pension is claimed, must have been passed in an eligible grade and on a permanent Establishment; but claims barred by this Rule will be specially considered if the promotion from an ineligible grade was bestowed as a reward for meritorious service or for good conduct.

13. The period of service must be continuous; but in case of the abolition of the office held by an Officer, and his being subsequently employed by Government, his first period of service is to be taken into account.

Gratuities.

14. When an Officer is discharged with a gratuity under these Rules on reduction of Establishment, the gratuity will not be given to him in one sum, but in monthly instalments of a month's pay until the full amount is exhausted. Should he be re-employed before or after the period for which gratuity is allowed, he will have the option of refunding the gratuity and recovering his former service, or of forfeiting that service by retaining the gratuity. In the latter case, any balance of gratuity remaining undrawn at the date of his re-employment may be paid to him.

[An accurate statement of all the leave other than privilege and preparatory leaves obtained by the applicant during the whole period of his service, should be submitted by the Head of the Department with his application.—*Proceedings of Government of India, 25th August* 1863.—*Gazette, 22nd September, page* 540.]

[In recommending the grant of gratuities in cases of Police Burkundazes discharged in consequence of reductions of establishments, the local Officers should be careful to satisfy themselves of the correctness of the rates of pay and the periods of service shewn in the Statements, and to certify that they have done so at the foot of the Statements.—*Not. Fort St. George Gazette, 6th February* 1863, *page* 201.]

[*The following Rules are applicable to persons belonging to grades which do not qualify for pension.*—Pro. of Mad. Govt., 28th Sept. 1863, Fin. Railway Dept., No. 497.]

[An individual who has served less than 5 years has no claims to gratuity. A gratuity of three months' pay is allowed to one who has served 5 and less than 10 years, 4 months' pay for one who has served 10 and less than 15 years, 5 months' pay for one who has served 15 and less than 20 years, and 6 months' pay for one who has served 20 and upwards.—*Government of India Not., 6th June* 1862, *No.* 3,999.]

[The Government of India have ruled, 30th September 1858, No. 2183, that servants on 10 Rupees a month and under should receive gratuities in about the same proportion as has been provided for persons on salaries in excess* of 10 Rupees and less than 25 Rupees a month, that is, that the gratuities shall be calculated at 5 months' pay.]

* "See Clause 3, Section "II, of the Rules dated 13th November 1857, No. 4912A."

[For the future, when an Uncovenanted servant is thrown out of employ by the abolition of his appointment, his claim to gratuity shall at once be considered, and decided on; but instead of receiving in one sum the whole gratuity which may be sanctioned, he shall continue after his discharge to draw his salary from month to month until the amount of the gratuity be exhausted. If he should, in the meantime, be re-admitted to the Government service, he may be permitted either to draw the unexhausted balance of the gratuity on the understanding that his previous service will not be allowed to count towards pension, or to refund by convenient instalments the amount already paid to him, and thus to recover the privilege of reckoning his service.—*Gazette, 3d October* 1862, *page* 503.]

Payment of Pensions.

15. Payment of pension will commence from the date on which the applicant ceases to be borne on the Establishment, or from that of his application, whichever may be the later date.

16. No pension shall be payable in arrear, for a period exceeding six months, without the express sanction of the Government, obtained through the Civil Pay-Master,—unless the cause of the suspension of payment shall have been the neglect, order, or act of some public Officer and beyond the control of the Pensioner, when the Civil Pay-Master, on a reference being made to him, shall exercise his discretion in passing arrears for payment or submit a representation of the case for the information and orders of Government, as he shall consider proper.

18. An Officer shall, on retirement, have the option of drawing his pension either in India or from the Home Treasury. After exercising his option on retirement, he may at a subsequent period, change the place of payment from England to India, or *vice versâ*. This change can, however, be allowed but once. The payments in England will be made at the rate of exchange which is annually fixed in communication with the Lords of the Treasury for the adjustment of transactions between the British and Indian Exchequers.

Suggestions to the Public, &c.

By careful attention to the following suggestions, much facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the Public.

1st. Post all letters, &c., as early as practicable, especially when sent in large numbers.

2nd. Make the address legible and complete.

3rd. See that every Letter, Newspaper, or other packet sent by post is securely folded and sealed,—and when prepaid, see that there is no possibility of the removal of the stamp by dishonest servants.

4th. Never trust your servants with money to purchase stamps for the purpose of affixing them to the letters, &c.

5th. Never send money or any other article of value through the post, and where necessity obliges the transmission of important documents it would be as well to do so in a registered letter. Any person who sends such documents in an unregistered letter not only runs a risk of losing his property, but exposes to temptation, every one through whose hands his letter passes.

6th. When complaint is made of Letters or Newspapers lost, miscarried or delayed, furnish information as precise as possible regarding all the facts of the case, and enclose whatever documents may throw light upon it. The day, and hour, at which the letter or newspaper, was posted, as well as the the office at which, and the person by whom this was done, should always be stated; and when possible, the cover, or wrapper, in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps.

7th. See that every letter contains the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found.

8th. To obviate the necessity of opening unclaimed letters, parties would do well to write their names in full with places of residence on the cover of letters.

REGISTRATION OF LETTERS.

Camp Nynee Tall, 21st October 1862.

NOTICE.—With the sanction of His Excellency the Governor General in Council, the following Rules are published for information:—

Rules relating to the Registration of Letters sent through the Post Office.

1. By the payment of a fee of 4 As. in addition to the ordinary postage, *both of which must be prepaid in Stamps*, any letter, Newspaper, Pamphlet or Book may be registered to any place under the Government of India, or in the United Kingdom and Colonies.

2. Information regarding the Foreign Countries to which letters can be registered, and the conditions thereof, will be found in the "Steam Postage Schedule for the Post Office in India."

3. Letters intended to be registered must be brought to the Post Office at least half an hour before the time fixed for closing the Mail,—if brought after that time they will be stamped "Too late," and retained for the following Mail.

4. A Post Master or other Official on being applied to to register a letter will grant a receipt and retain a copy on the counterpart of the Cheque Book for the purpose, the dated Office Stamp should be affixed to the receipt and also to the copy.

5. So soon as a letter is registered, the postage labels thereon should be defaced, and the special Stamp "*Registered*" should be affixed, the address and weight should then be entered in the *yellow cover*, after which the letter and cover should be folded up together, and placed under lock and key, until the time for closing the Mail.

6. On opening a Mail Packet, the Post Master should carefully examine the registered letters, and compare the weight of each, with the entries thereof in the Chulan and yellow cover, the Office dated Stamp should then be affixed to them, and also to the yellow cover, after which they should be disposed of as prescribed in the Rules for opening and distributing the Mail.

7. In disposing of a registered letter, care must be taken to ensure *proof* of transfer by each Official through whose hands it passes from the time of receipt to that of delivery, an acknowledgment must therefore be taken by initials or otherwise from each person into whose hands it may be given for *custody, despatch*, or *delivery*.

8. On delivery of a registered letter, the Postman should obtain the signature of the addressee on the yellow cover, the "original" receipt will be retained in the Delivery Office, and the "duplicate" returned to the Office of Despatch *by the first Mail*.

9. The "duplicate" receipt on being returned should be pasted to the counterpart in the Cheque Book; when not received back within the proper time, it should be called for, and a note of the requisition made on the duplicate receipt.

10. On a registered letter having to be *re-directed*, the duplicate portion of the yellow cover should be receipted and returned to the Office of Despatch, with a remark showing the Office to which it has been forwarded.

11. When a registered letter cannot be delivered, it should be forwarded without delay, together with the original yellow cover, to the Office of Despatch, in view to be returned to the sender, and, if he cannot be found, it should be sent to the Dead Letter Office.

12. When a registered letter is found to be missing, the Post Master must *immediately* submit a full and clear report of the circumstance to the Inspecting Post Master and Post Master General, and also to the Office of Despatch, in view to a searching inquiry being at once instituted to ascertain *where* and *how*, it disappeared.

13. The Post Master General will, without delay, bring to the notice of the Director General the loss, or heft, of a registered letter, and on completion of the inquiry instituted thereon, report the result.

14. By Section 49 of the Postal Act, Government does not guarantee, and is not responsible for the safety of a registered letter, but any Official through whose neglect it may be lost or made away with, will be called to strict account, and may be required to make good any loss.

15. Registration makes the transmission of a letter more secure by rendering it practicable to trace it from one official to another. If, therefore, by neglect of prescribed precautions, it is lost or made away with, the officials of the Post Office will have no ground for complaint, if held responsible for the consequences of their neglect.

16. As registration does not involve a receipt for the *contents* of a letter, and as abstraction thereof may take place *before*, as well as *after the cover is posted, and even after delivery*, it is recommended that the addressee who expects valuable enclosures should, at the time of granting a receipt, open the letter *in the presence of the Postman*.

17. A letter containing Bank Notes, Postage Stamps, or other valuable articles, should, as a rule, be registered, and should be securely folded or enclosed in a substantial envelope, and *always sealed with wax*, in order to prevent as far as possible its being tampered with.

N. B.—A letter is not ordinarily of importance to any person excepting the addressee, but if valuable articles are enclosed the case is otherwise, and temptation is thrown in the way of the numerous persons in the Post Office through whose hands it passes. Hence the precaution of registering such letters is recommended.

R. Clerk, Esq.	D. Elliott, Esq.	

Half-yearly General Meetings are held in the months of January and July of each year, on a day to be fixed by the Trustees and notified in the Official Gazette.

Under the old Rules of the Civil Fund Subscriptions at 2½ per cent. are payable by all Members of the Covenanted Civil Service on their allowances for a period of 16 years, and a Donation of £30 is payable at option on the birth of a daughter to secure to her the benefits of the Subsidiary Rules after the age of 19.

The Pensions granted to Widows under the old Rules of the Civil Fund, are continued till re-marriage or death, and are revived on 2nd Widowhood.

The daughters of deceased Members for whom the benefits of the Subsidiary Rules have been secured, are allowed pensions till marriage or death, but those for whom the above benefits have not been secured, are granted pensions up to the age of 19 only or till marriage if married at an earlier age when in either case a Donation of £300 is paid to them or to their guardians. But if such daughters are proved to be in indigent circumstances, then, instead of the Donation, a pension of £50 per annum is allowed to them after the age of 19 till marriage or death.

Pensions to Sons are granted up to the age of 19, when a Donation of £390 is paid to them or to their guardians, but if such sons are proved to labor under mental or bodily infirmity, then, instead of the Donation, a pension of £50 per annum, is granted to them till recovery.

The whole amount of pensions allowed under these Rules, to each family (Widows and Children) is reducible by any private income in excess of £45 private income—which amount is allowed for the benefit of the *whole* family of a deceased Subscriber. The individual pension is reducible by the individual share of the private income in excess of £45 equally divided between the whole family.

Under the Rules of the Provident branch of the Civil Fund, lately adopted by the Service, the following Subscriptions and Donations are payable by Subscribers to this branch.

Subscriptions at 2½ per cent. on the allowances of Subscribers for 16 years as before, and at the same rate for the whole further term of Service, in the cases of married men and Widowers with families; but at 1 per cent. after 16 years for the whole further period of Service, in the cases of Bachelors and Widowers without families.

On each marriage and by each married man entering the Service a Donation of Rupees 1,500 0 0

On birth of each daughter a Donation of „ 500 0 0

On birth of each son a Donation of „ 250 0 0

DUTIES PAYABLE ON DEEDS AND OTHER INSTRUMENTS.

Act X of 1862 provides the Stamp Duties that have to be paid on Deeds, Instruments and Writings, and Law Papers. Below is given a list of the former ordinarily and generally executed with the amount of the Stamp to be impressed on each as contained in Schedule A of the Act.

The Stamp must be impressed on the paper itself, except in the case of the transfer of shares of any Banking Corporation or Joint Stock Company, which by any law applicable to such Corporation can be effected by simple endorsement of Receipts, Shop Bills, Bills of Exchange, and applications to Collectors of Customs. In these cases adhesive stamps, which should be obliterated in such a manner as to show that they had been used, may be employed.

If a Deed, Instrument or other writing be not stamped or insufficiently stamped, it is invalid as creating, transferring, or extinguishing any right or obligation; but when executed inadvertently, without intention to evade the stamp duty or otherwise to defraud Government on paper not bearing a proper stamp, such deed, &c., may be admitted in evidence before a Civil Court or duly stamped by the Collector of Stamps on payment of the prescribed stamp duty and a penalty.

Drafts or orders for payment of money on demand drawn without stamp may be stamped by an adhesive stamp by the person receiving them; but this does not relieve the drawee from the penalty incurred for issuing them unstamped.

The value of the stamp affixed to receipts is to be paid by the person granting them under a penalty in case of refusal not exceeding 100 Rupees, and so also is the expense of providing stamps for Bills of Exchange, Bonds, &c., to be met by the person drawing or making them.

Appeals from the Collectors of Stamps lie to the Board of Revenue.

PENSIONS TO WIDOWS.

The Widows of Commissioned and Warrant Officers of the Indian Forces are entitled to the following pensions, upon providing satisfactory evidence, that their husbands did not die possessed of property to the amount stated opposite to their respective ranks. The pensions continue during widowhood, but terminate *finally* on re-marriage, which cancels all claim to reversion to the Pension previously drawn in right of their *former* deceased husbands. Should the second husband have been an European Officer, or Soldier, the Widow will be entitled to pension on his account.

QUEEN'S MILITARY FUND.

Regulations of a General Military Fund, for the benefit of Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820.

Preamble.

Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the above named Fund was established in the year 1820, for the purpose of sending home in comfort and respectability, the Families of deceased Officers in Her Majesty's Service in India, who may have been left destitute: and of preventing the painful and degrading practice of appealing to the public for subscriptions on such occasions: and also of providing relief in such cases as may require it, until they can be conveniently sent home.

His Excellency General Viscount Gough, G. C. B., Commander-in-Chief in India in the year 1845, with reference to several cases, arising out of the death of Officers on the voyage from India to England leaving their Widows and Children in circumstances of great distress, and with advertence also, to the manifest justice of allowing all Widows and Children of Officers, being subscribers to the Fund, who may die at the Cape of Good Hope, the Mauritius, New South Wales, or Australia, the benefits of the Military Fund,—directed the introduction of Rules 21 and 22, after they had been proposed for the consideration of the whole body of Subscribers and carried by a large majority.

It having since been found advisable to make some alterations and additions to the Rules and Regulations, in reference to the state of the Fund and the generally expressed wish of the subscribers, His Excellency General Sir William Gomm, K. C. B., assembled a special Board of officers at Simla in June 1851, for this purpose, and directed the result of their Proceedings to be published and circulated for the consideration of the body of subscribers serving in India, who almost unanimously agreed to the alterations propo[illegible]

In the year 1856, a further modification of these Rules became necessary, and the alterations, as approved by the body of subscribers in India, with but one or two exceptions, were embodied with the sanction of His Excellency General the Honorable G. Anson, Commander-in-Chief in India, in the original code sanctioned by General Sir W. M. Gomm, in December 1852.

Rule 6th.—That in order to obviate the difficulties which would arise from the occasional remote situations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor General in Council was pleased to order and direct when the Fund was established, that Bills may be granted to the Paymasters of Her Majesty's Regiments by the Governments of Madras and Bombay, on the Government of Bengal payable at sight, to the Agent or Agents of the Queen's Military Fund, acting for the Committee of General Management, thereby avoiding commission, double Agency, and risks of exchange.

Rule 9th.—That whenever there may be mixed Corps of Her Majesty's Service, or more than one stationed together at the same time, every application for relief from this Fund shall be heard and decided on by a station Committee, composed, as equally as possible, of Officers from such Corps present, being Subscribers to the Fund.

Rule 10th.—As it may often happen that Officers die while the Corps they belong to is stationed by itself, or remotely detached, it shall be in the power of every Commanding Officer of a Regiment so situated, to assemble a Committee of any five Officers being subscribers to hear and decide upon the case of any Widows and Children so become destitute, and seeking relief from this Fund. It shall also be competent for the Commander-in-Chief at either Presidency to assemble a special Committee to report on the case of any Lady who may become a Widow, whilst the Regiment to which her husband belonged, shall be at another distant station, or on Service, beyond Sea.

Paymaster authorized to afford immediate relief to prevent distress or inconvenience.

Rule 11th.—That such station, Regimental or special Committee as the case shall be having duly examined into the circumstances of the party seeking relief, shall report their opinion on and recommend the amount to be granted whether for passage money or maintenance, strictly in conformity with the Regulations annexed. The opinion and recommendation of such Committees shall be forwarded to the Honorary Secretary Army Head Quarters by the Officer Commanding the Corps in which the casualty may have occurred, and the Paymaster of the Regiment under the above authority can at once advance to the widow the amount of "Maintenance" awarded by the Committee, reimbursing himself by a deduction from his next regimental remittance or by drawing a Bill on the Secretary ; the residue of the award to be adjusted by the Secretary under the sanction of the General Committee of Management.

Rule 12th.—The Sub-Committees at Madras and Bombay will in cases of special award in those Presidencies, on satisfying themselves with the accuracy of the statements laid before them, draw upon the Honorary Secretary at Army Head Quarters for the amount which may be awarded ; but in the final adjustment of the accounts of such Sub-Committee, the General Committee will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rules laid down.

Rule 13th.—The Sub-Committee will, on drawing for any sum on the Honorary Secretary in cases of special awards, transmit the Report of the station Committees as well as their own opinion and explanation of the award as a voucher, and they will afterwards, as soon as possible, transmit the proper Receipts and Certificates, showing that the money has been appropriated in the manner and for the purposes which it was awarded.

Appeal to all Officers to support the Fund.

Rule 14th.—The object of this Fund being clearly confined to sending Home Families of deceased Officers, and with a view of preventing those painful appeals for assistance to the Public, at once so humiliating to respectable individuals and the Queen's Service in India, it is earnestly hoped that all ranks of Staff and Regimental Officers will support it.

Limit of times as to application.

Rule 15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no Widow continuing to reside in this country after the death of her husband, can expect any provision or pension for herself or children from the Fund further than is stated in the 7th Clause of the Schedule of awards. It is also declared that no Widow is entitled to passage money or allowance for travelling, unless she actually proceed to Sea or on her journey in the manner for which any allowance may have been drawn, and should she have received such allowance, she will be required to refund ; and further, that no widow, under any circumstances, shall be entitled to any assistance from this Fund, unless the application shall be made in the usual form within six months after the demise of her husband.

Rule 16th.—Orphan Children are eligible for the benefits of this Fund, but awards for them must be specially made by a station or Sub-Committee and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

Orphan Children.

Rule 17th.—That the Honorary Secretary, acting for the Committee of General Management, shall furnish an Annual Account of the Receipts and Disbursements of this Fund, to the Adjutant General of Her Majesty's Forces in India; and that that Officer be applied for, to circulate the same amongst the subscribers, and the several Officers of Government at the three Presidencies.

Annual account to be furnished by Secretary.

Rule 18th.—That Commanding Officers of Her Majesty's Regiments be requested to pay particular attention in causing the regular quarterly remittances to be made to the Honorary Secretary of the Queen's Military Widows' Fund, Acting for the Committee of General Management at Army Head Quarters, who is requested from time to time to apprise Commanding Officers whenever any Corps may fail in making such remittances.

Comg. Officers to cause regular Remittances quarterly of Subscriptions.

Rule 19th.—That no General Rule or Regulation of this Fund shall be altered, except recommended by the General Committee, and approved by a majority of the subscribers.

Alteration of Rules.

Rule 20th.—In taking the opinion of the Regimental and Staff Officers of Her Majesty's Forces in India, a very general wish was expressed and carried by a majority that *all* Widows of Subscribers should have their passage to England, &c. &c. defrayed. As an Officer ceases to be a subscriber on leaving India, all claims on the Fund must in like manner cease from the same period; but an Officer going to Sea for the benefit of his health, while entitled to his Company's allowance will be considered as a subscriber during his absence.

Officers on leave drawing Indian Pay.

Rule 21st.—That all Widows of Officers, who were subscribers to the Fund, shall be entitled to the amount granted to Widows and Children for passage money to England, if their husbands die on their passage to England or during their absence on Sick certificate, at the Cape of Good Hope, the Mauritius, New South Wales, or Australia.

Rule 22nd.—That no special grants in cases of great distress (not provided for in the Regulations of the Fund) shall be passed by the General Committee without the sanction of the Majority of subscribers; which sanction is to be declared in the General Abstract of Accounts, published annually for the information of subscribers.

Entrance Donations in both branches, and the amount of subscription for children from birth till date of joining, may be paid at once or by 12 equal monthly instalments.

Increased payments on entrance are required in one sum in the Widows' Branch after the age of 40, and no person can be admitted or transferred to a higher class above the age of 55 years; delay in joining after being admitted by the Committee necessitates a fresh Medical Certificate being submitted. Subscriptions in the Children's Branch *in all cases* commence from the date of birth of each child, and continue until the age at which pensions terminate, viz., 15, 18, or 21 years as the case may be. Transfers from a lower to a higher class are permitted (on production of the prescribed Medical Certificate) in the Widow's Branch on payment in one sum of difference of donation and of subscription according to age and period of connection with the Fund,—and in the Children's Branch on payment in one sum or by 12 equal monthly instalments, or difference of donation and of subscription from the date of birth of each child. Subscribers to the Children's Branch must also belong to the Widow's branch, and to the same class in both branches.

The full pension in the Children's Branch is secured as soon as entrance donation and subscription from date of birth have been paid in full. In the Widow's Branch full and reduced pensions are respectively secured when the total payments in that branch amount to the sums specified in the foregoing table. Subscribers are allowed at any time, on furnishing a medical certificate in the prescribed form, to pay in one sum, or by such instalments as they may find convenient, the difference required to entitle their widows to immediate pension.

Pensioners may reside at any Station or in any country they choose. Widows marrying loose pension during converture but revert to the Fund on again becoming widows. Pension is forfeited by incontinence. No pension is paid to families of Subscribers who die with six months' subscription in arrears, and Subscribers' names are struck off the books when 12 months in arrears. Subscriptions due for a period exceeding 6 months are not received unless accompanied by a medical certificate.

The regulations at length may be had on application to the Treasurer:—price 4 annas:—from out stations 5 annas must be remitted to cover postage.

RULES.

I.—This Fund is designated 'Taylor's Fund' to perpetuate the name of its Reverend Founder, and its object is to afford relief to the Widows and legitimate Offspring of European Pensioners.

II.—The Capital by which this Fund is to be supported, has been derived from the liberal contributions of the Public, and is invested in Government Securities in the names of three of the Committee.

III.—The interest of this Capital together with subscriptions, to be applied to the proposed object, and after discharging such claims, all surplus in the hands of the

Treasurer will be half yearly added to the Capital in even hundreds, together with the entrance donations of subscribers, and all contributions received from private Individuals or other sources.

IV.—To entitle a Widow to the benefits of this Fund, her Husband must have paid his entrance Donation, which has been fixed at 12 Rupees.

V.—The monthly subscription is Eight Annas, to be paid quarterly in advance.

VI.—Subscribers, who are 12 months in arrears, will be struck off the Books, if their subscriptions are not *immediately* paid upon demand, and any subscriber, dying with a half-year's subscription due to the Fund, will deprive his Widow of all claim on the Fund; if the amount due is less than this period, the same will be deducted from the Widow's Pension.

VII.—The monthly Pension to a Widow will be 3½ Rupees, and 1 Rupee for each child under or above the age at which they can be admitted into the Government Asylums, when the Pension shall cease, except however, those cases in which the Guardians or Friends of Children of different persuasions shall wish to educate them at schools attached to their own respective Churches, when on the Directors being satisfied that the education of the Orphans is being so conducted, the pension shall continue. The maximum payment, however, is never to be in excess of the Widow's Pension, and all such Pensions to cease at the age of 14.

VIII.—The Committee will at once remove from the Pension List, any Widows known to be living a life of incontinence, or guilty of other notorious misconduct.

IX.—The Children's allowance will be continued in the event of the mother again marrying, but on her death their cases to be specially considered.

X.—Marriages considered by the Committee as death-bed marriages, will altogether exclude the Widow from Pension.

XI.—To prevent abuse of this Charity, no claims to Pension will be admitted where the husband may have been more than thirty years older than the claimant, and any attempt to deceive the Committee in regard to children, will involve the immediate expulsion of a subscriber or of a Widow on the Fund.

XII.—Pensioners married, who do not join this Fund within a period of 12 months from date of transfer to the Pension Establishment, and Pensioners unmarried who do not join within 6 months from date of marriage, will not be admitted subscribers on this Fund.

XIII.—In the event of a Pensioner subscriber to the Fund finally leaving India with his family, and thus disconnecting himself with the Fund, the whole amount of his payments to the Fund shall be refunded to him. In the event of a Pensioner subscriber to the Fund quitting India, leaving his family in the country and *making arrangements for the regular payment of his quarterly subscriptions*, they will be eligible to the benefits of the institution in the event of his death.

XIV.—The Secretary shall keep a Register of Subscribers, their Wives and Children; it is therefore incumbent on subscribers to report their marriages, and the births and deaths of Children, in default of which their families will be liable to a forfeiture of benefits, for this Register must be the Committee's guide in regulating claims to Pension.

XV.—Should the subscriptions and interest of Capital fall short of the demand for payment of Pensions, it will be in the power of the Committee to direct a proportionate deduction from Pensions; in like manner should the prosperous state of the Funds justify an increase in Pensions, it shall be competent to the Committee to direct the same to the extent of Rupees 5 in lieu to 3½ with the same limit for Children.

XVI.—The affairs of this Fund shall be conducted by a Committee to meet Quarterly, 3 of whom shall be sufficient to act in the name and behalf of the whole, save that no Rule shall be altered until submitted individually for consideration, and be confirmed at the next Quarterly Meeting.

3. The appointments noted in the margin are restricted to Surgeons and Assistant Surgeons respectively—all others are tenable by Officers of either grade.

4. For the various appointments above enumerated, Consolidated Salaries are drawn, of Rupees 1,000 for Surgeons, and Rupees 700 for Assistant Surgeons, which include pay and ordinary regimental allowances, and are payable in the Military Department.

5. When absent on general leave, Surgeons and Assistant Surgeons forfeit respectively Rupees 312-15-6, and Rupees 237-2-0, being the moiety of the remainder of their consolidated salaries after deducting pay and regimental allowances.

6. When an Officer of the Presidency Medical Staff is granted leave of absence and another Officer of the Presidency Medical Staff is appointed to act for him in addition to his other duties, the latter draws in addition to his permanent salary, the moiety of the Staff allowance forfeited by the former ; but such arrangement shall not extend beyond six months from the date when the absentee proceeded on leave. Should an Officer of the Presidency Medical Staff be detached from the Presidency on duty with the Honorable the Governor or the Commander-in-Chief, whereby the whole or a moiety of his staff salary becomes available, a similar arrangement may be made.

7. The fundamental principle of the arrangements of the Presidency Medical duties being that the Medical Officers at the Presidency shall receive a fixed amount of salary, according to their rank as Surgeons, or Assistant Surgeons, without reference to the particular duties which they may be required to discharge ; any extra payment for the permanent or temporary discharge of duties in addition to those of their more immediate appointments cannot, with the exceptions provided for in the preceding para. be sanctioned to those Officers. The Officers placed in medical charge of the Governor's Body Guard is however allowed head money for such charge.

8. The salary of the Principal of the Medical College is Rupees 400 per mensem, which is payable in addition to his salary as an Officer of the Presidency Medical Staff. The seven Professors of the Medical College draw, if holding another appointment, Rupees 150, otherwise Rupees 300, per mensem. These salaries, as also the allowances of the Assistant Professors, &c., attached to the Medical College, are paid in the Civil Department.

9. The salary of the Officers of the Presidency Medical Staff and Professors are payable from a fixed monthly sum allotted for the Presidency Medical duties, which is under no circumstances to be exceeded ; consequently an Officer appointed to the Presidency Medical Staff, or Professor in the Medical College, whether permanently or temporarily, can be paid only the actual amount of staff salary available, if less than the full, or moiety of salary which may be claimable under the general rules. An Assistant Surgeon appointed to act on the Presidency Medical Staff during the absence of a Surgeon, will be entitled to draw the moiety of salary forfeited by the Surgeon, if it be available.

General Directions.

Every plaint should be presented at the Registrar's office with the written documents relied upon and the description of documents required to be produced.

Sec. 30. The Registrar upon examination and enquiry will either receive, file, and register the plaint, &c., or in cases of doubt refer the plaint to a Judge. He is in no case to reject the plaint, but he may retain it under Section XXX without reference to a Judge, and he may also allow the plaint to be amended.

In cases of doubt, the Registrar will either direct the party to present the plaint, &c. before a Judge, or he will himself refer to a Judge, and in the latter case he will retain the plaint, &c., and appoint a time for the party to attend again at the Registry when the plaint, &c. will be received and filed, or the party directed to appear and present the plaint, &c., before a Judge.

Sec. 34. Where the suit comes within Section XXXIV of the Code, if the party is prepared to give security to the satisfaction of the Registrar at the time of presenting the plaint, the Registrar will take the same, and if necessary he will appoint another time for the purpose where a dispute arises as to the sufficiency of the Security offered, and it becomes necessary to take evidence, the parties must be directed to appear before a Judge.

The original summons to appear and answer the plaint should be issued to the party presenting the plaint and should be for the appearance of the defendant in person or by an Attorney duly instructed, &c. If the personal appearance of the defendant is considered indispensable, an application may be made to a Judge.

Except in plain and simple cases, the Registrar should as a *general rule* issue the summons for the settlement of issues only or for the final disposal of the suit according to the desire of the party presenting the plaint, unless he sees reason to refer to a Judge, and in that case he will appoint another time for the party to apply to receive the summons.

In cases in which the question in dispute is confined to a single transaction or subject matter of complaint arising between the immediate parties to the suit, the summons might properly be for the final disposal of the suit.

A reasonable time to state in the summons for the Defendant's appearance will be eight days after service if he reside within the limits of Madras, if beyond these limits and within twelve miles of the Court house ten days, if beyond twelve miles and within twenty-five miles, fourteen days.

The original summons and copies for service will be delivered by the party presenting the plaint to the Sheriff with instructions of the service, and the Sheriff will be responsible for the due service and return of the same to the Registrar's office.

It will be the duty of the Registrar to attend the Judge and act in all respects as Registrar upon the settlement of issues.

Before the day appointed for the settlement of issues the Registrar should prepare a list of the cases for the day and affix a copy in a conspicuous part of the Court house, and on the day he will call on the cases in the order in which they stand in the list.

Sec. 107. The Registrar is to see that the notices delivered under Section CVII exactly correspond, and if so he may return one to the party for delivery to the Sheriff for service.

(Sgned) B. Brooks, *Deputy Registrar.*

Sec. 34. Proceedings under Section xxxiv.—Where it appears from the plaint that the plaintiff resides out of the British territories in India, the plaint should be accompanied with an affidavit that the Plaintiff is possessed of land or other immoveable property, within such territories, independent of the property in the suit, or the plaintiff must furnish security for costs to the satisfaction of the Registrar to be taken in the form of a bond.

Sec. 35. Proceedings under Section xxxv.—Where security is sought under this Section, the defendant should (unless the Plaintiff agrees to furnish security without any order), take out a Judge's Summons, and upon such Summons, a Judge will make the order or not.

Written Statements.—The written statements of the parties should be headed in the Court, and with the number and title of the suit, and it should bear the date of the day on which it is tendered. The narrative of facts should be divided into paragraphs, and numbered consecutively, and each paragraph should contain as nearly as may be, a separate and distinct statement of facts.

Sec. 136. Section cxxxvi.—The application for return of exhibits, under this Section, should be made to the Registrar, and in case of any doubt as to whether the party applying is the proper person to receive them, or any other sufficient doubt, he will refer the party to a Judge, and in that case, the party should be prepared with an affidavit to produce before the Judge.

Sec. 128. Section cxxviii.—The rules of the late Supreme Court as to translations of documents, should be observed, as regards the production of documents, under this Section.

Sec. 141. Section cxli.—Where a party desires to amend the issues, &c., under this Section, Judges summons should be taken out, and served on the opposite party.

Sec. 146. Section cxlvi.—Applications for time before the day of hearing, should be by Judges summons, and upon affidavit.

Sec. 151. Section cli.—Upon application for the original summons, the Registrar will inform the party applying, of the proper sum,* and endorse the same on the process, and direct the party to hand the amount over to the serving officer, entrusted with the service of the summons.

* A Scale must be prepared.

Sec. 158. Section clviii.—The Registrar will transmit the summons upon the statement of the party applying for it.

(Signed) B. Brooks, *Deputy Registrar.*

In the case of a Purdah woman, there should be an affidavit, by any person competent to make it, of the signature or mark, to the verification of the plaint, and of the identity of the party, who so signs or places her mark to it.

In such case, and in all cases in which the party appears in person, and the signature to the verification of the plaint is in the Vernacular, or the person verifying is a marksman, the plaint and verification must be explained by the Court Interpreter and the verification must either be signed or marked, or the signature or mark acknowledged, before the Interpreter, who will certify to the above effect on the plaint.

Where the party appears by attorney, except in the case of a Purdah woman, the above explanation by the Court Interpreter, will not be required. (Pro. H. C., 19th September, 1862.)

REVISED PETITION RULES.

1. Persons having cause of complaint against any servant of Government, Civil or Military, shall in the first instance, seek redress from the officer in whom the local authority is vested, who, if unable to grant the redress sought, shall pass an order in writing to that effect. If dissatisfied with this decision, the Petitioner shall be at liberty to address the Board or Court, or superior Civil or Military authority, by which the local authority is controlled; or he may address the Government, in cases wherein there is no intermediate authority.

2. The Government will not receive a petition on any matter, unless it shall appear that the Petitioner has first applied to the local authority, and also to the Board or other controlling authorities, where such exist. The petition addressed to such local and controlling authorities, or, copies of them and the answers or orders of those authorities respectively, if any shall have been passed, must be annexed to the petition addressed to Government.

3. In order to enable Government to maintain the foregoing rule, without injustice or hardship to complaining parties, all Heads of Offices will understand that a party affected by an order, is entitled to have, on application, a copy of the order, which should contain full details of the grounds of the decision. This is to be furnished to him, on plain paper, and without payment.

4. Government will receive petitions only from principals; addresses running in the name of a vakeel or agent will receive no attention. Anonymous petitions will be totally disregarded.

5. The Government having passed an order on an appeal made to it, will not notice a second petition on the same subject, unless it contain some new and important matter.

6. As the Right Honorable the Governor in Council never interferes with the distribution of subordinate appointments, applications for situations in the gift of Heads of Departments will also remain unnoticed.

Judicial Department.—7. Petitions will not be received by Government regarding any matter which forms the subject of judicial proceedings in a Court, or which properly falls within the jurisdiction of the Courts, or containing complaints relating to the administration of civil or criminal justice, in cases in which another mode of obtaining redress is open to the complainant under the regulations, and in which by the regulations a subordinate authority is competent to pass a final decision.

UNIVERSAL LIFE ASSURANCE SOCIETY OF LONDON, CALCUTTA, MADRAS, BOMBAY.

ESTABLISHED IN 1834.

Empowered by Special Act of Parliament.

Subscribed Capital £500,000, in 5,000 shares of £100 each.

Invested Capital £750,000, of which one half is held by the Indian Branches.

SURGEON.—H. W. PORTEOUS, Esq.

THE UNIVERSAL is not only based on *Sound Principals as to its rates* and possesses *a large invested Capital*, but also offers all other advantages *compatible with perfect security* which could be sought for in any Assurance Office by a prudent Assurer.

A most laborious investigation into the rates of this Society has been going on during the last three years, founded on the superintendence of two of the most eminent Actuaries in London.

After proceeding minutely into the subject by tracing out from the Records of the East India Company the individual movements of each person, commencing with his first leaving England, his return on leave, and is again visiting India, up to the time of his final retirement from that Country, and also minutely working out the results of the UNIVERSAL'S *own* twenty-eight years' experience, it has been found that the existing rates of the UNIVERSAL would not bear any material modification. This result is highly satisfactory, inasmuch as it fully confirms the accuracy of the existing rates, founded so far back as the year 1834, and shows the stability of the office.

Lower rates adopted by other offices more recently established, are PROVED to be unremunerative, it being now found that, on the recent valuations of such offices, there are NO PROFITS WHATEVER TO DIVIDE among the Assurers, in reduction of their premiums. The UNIVERSAL, instead of entering into a ruinous race of competition, has adhered to its steady and prudent course, and the result shows that, it was enabled to declare at the annual valuation in 1862, a reduction of premium of 45 per cent. and in 1863 a reduction of 47½ per cent. The following examples show the reduction on policies taken out previous to May 1858.

CIVIL.						MILITARY OR NAVAL.				
Age.	Date of Policy.	Sum Assured.	Amount of Premium.	Reduction after 6 years.	Reduced Premium.	Age, 12th May 1856.	Amount Assured.	Amount of Premium.	Reduction after 6 years.	Reduced Premium.
	12th May 1858.	Rs.	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.	Rs.
20	"	10,000	420	199½	220½	20	10,000	470	223½	246½
30	"	10,000	480	228	252	30	10,000	540	256½	283½
40	"	10,000	590	280½	309½	40	10,000	630	299¼	330¾
50	"	10,000	740	351½	388½	50	10,000	770	365¾	404¼

This large return to the Policy holders, the Board confidently hope, will not only be maintained but if the support of the Indian community is freely accorded, be materially increased.

In all Assurance operations, the first and paramount object is SECURITY, on which may depend the ultimate happiness or misery of thousands: and it must be borne in mind that Assurers are not too highly rated by the UNIVERSAL to obtain this, to them, essential object, inasmuch as, if their subscriptions prove more than adequate to cover the general risks, THE EXCESS IS RETURNED to them (when entitled to participate in profits) ANNUALLY IN THE SHAPE OF PROFITS, without having to wait, as in other offices, for the subsequent periodical return of five years before another valuation takes place; an advantage of vital importance in a country like India, where so many of the Assured may not outlive such subsequent periods of expectation.

The profits are declared in each year on the second Wednesday in May, from which date all persons who may have assured for the whole term of Life on the participating scale, and on whose Policies six complete annual, or twelve complete half-yearly original premiums have been paid, are entitled to participate in the profits of succeeding years in either of the modes provided by the Deed of Settlement, viz.: by a reduction of the annual or half-yearly premiums as they fall due, or by an equivalent addition on the sum assured by way of a bonus. Each assurer on his first becoming entitled to participate in the profits, has the option of selecting either of the foregoing methods, and three months from the date of declaration of the profits is allowed for his making that selection, which however, when once determined on, cannot be altered in after years.

Rates for other ages, can be ascertained from the Agents.

On return of Assurers to Europe their Premiums are reduced to the English rates both on participating and non-participating Scales.

The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but Members of the Military Service holding offices purely Civil, and subject to no extra risk, will be charged the Civil rate of premium only while engaged in duties purely Civil. It will be in the discretion of the Directors in each particular instance to say whether the higher or the lower rate of Premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

When application is made for assuring a life subject to more than ordinary hazard, an augmented Premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice between the Society and the Assured, according to circumstances.

All Policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death of the Assured, shall have been furnished to the Directors.

The Directors of the Indian Branches of the Society are empowered to treat for the purchase of Policies for the whole term of life on which Premiums shall have been paid for a period of not less than five years, or to advance, if required, on such Policies by way of loan, two-thirds of the estimated value.

No fees or stamps charged on Policies. Medical referees are remunerated by the Society by a fee of 16 *Rupees* on proposals for Assurance above Co.'s Rs. 2,500, and by a fee of 10 Rupees on proposals below that amount.

The Tables, Blank Forms, and other particulars, requisite to enable persons to effect Assurances may be had on application to

RETIRING PROVISIONS

COMBINED WITH LIFE ASSURANCE.

The closing of the "MILITARY FUND" renders it necessary for Military Officers to make some other provision for the support of their surviving families; and one of the best arrangements for this purpose, will be found in the adoption of either of the following Tables, A or B, which have been specially calculated for the use of this Institution, and which will enable them to effect their object (at an early period of life) with little more expense than that of an ordinary Life Assurance.

These Tables present the means of effecting Assurances, which are payable either *to the Holder of the Policy on his attaining 55 or 60 years of age, or to his representatives at his death if happening previously.* Thus the Holder of a Policy may, upon the same becoming payable in his life time, either invest the sum assured in a Government Annuity, for the benefit of himself or for any member or members of his family, or otherwise dispose of it if he thinks proper.

The payment of a FIXED SUM, instead of an ANNUITY, is considered by the Company the safest and the best mode of assurance, as it leaves the holder entirely at liberty to select that mode of provision for himself or for his family which he may consider most advantageous.

Similar Assurances may be effected at *lower Rates* of Premium on the lives of CIVIL SERVANTS and others not exposed to *Military Risks.*

BANKING AGENTS IN BOMBAY.

MESSRS. REMINGTON AND CO.

About 70 years ago public attention in England was first attracted to the subject of Indian Steel. The scientific gentlemen who examined it, soon discovered that it possessed valuable qualities and it was stated that for all the purposes of fine Cutlery the Indian Steel when properly prepared was infinitely superior to the best Cast Steel made in England. In the year 1818 Mr. J. M. Heath then in the Civil Service of the East India Company on the Madras Establishment became acquainted with these facts and being at that time stationed in a part of India where the manufacture of Steel was extensively carried on by the natives, he had ample means of examining the native processes, and observing their great defects, it appeared to him, that if, by such imperfect means, an article could be produced, which was declared by competent judges, to possess the highest qualities,

it was fair to infer that an undertaking for manufacturing Iron and Steel, from the same materials, according to the most perfect processes in use in Europe, ought to prove one of large individual emolument, and great national importance. Impressed with this view Mr. Heath determined to resign the Company's Civil Service and to give his whole attention to the object of establishing Iron Works on the European plan, and proceeded to England in 1825 for the purpose of obtaining information. Mr. Heath returned to Madras in 1830 and erected works at Porto Novo about 100 miles south of Madras; but the means at his disposal were only sufficient to enable him to prove that Pig Iron could be made without difficulty within the Tropics; a result which previously to his operations had been pronounced impracticable; upwards of two years having elapsed, after his return to India, without being able to obtain the co-operation he required, and considering the undertaking to be deserving of the encouragement of Government, on public grounds, he laid the subject before Sir Frederick Adam, on his assuming the Government of Madras, with a request that he would appoint a Committee to examine and report upon the results he had obtained. Such a Committee was appointed, and in consequence of their Report, the Madras Government determined on giving large pecuniary assistance to the undertaking and extensive grants of privileges in respect to Ore and Fuel. Confidence being thus established in its merits a few gentlemen at Madras were induced to come forward, in 1833, to form the Indian Iron and Steel Company. Furnaces, Forges, and Rolling Mills were erected at Porto Novo, and similar works were afterwards established at Beypore. In the endeavour to originate and establish the manufacture of Iron and Steel in a country like this, with new materials, and in such a peculiar climate, many difficulties had to be overcome and the success of the undertaking in a pecuniary point of view was far from satisfactory. Nevertheless the Company had succeeded in manufacturing Iron of a very superior quality which sold readily in England and India at very high prices, under these circumstances it was considered that the capital hitherto employed was not adequate to the full development of the undertaking as an investment, or to the increasing demand for the commodity for Railways and other public works, and the effective extension of the Company's operations were strongly urged to meet the exigencies of this new state of things. A new Company called the East Indian Iron Company was therefore formed in 1853 with a capital of £400,000. Mr. James Beaumont a talented and energetic Manager from the Abersychan Iron works was engaged as General Manager, and operations in India were carried on with renewed energy and vigour, two Subsidiary works were erected, at Poolamputty in the Salem District, and at Trinomally in the South Arcot District, and large quantities of a very superior quality of Pig Iron were sent to England as ballast in cotton and tea Ships (the Indian Pigs are readily sold at Rupees 66¼ per ton in London) owing however to large quantities of Sugar and other dead weight cargo being produced on the Coromandel Coast much difficulty was experienced in getting the Pig Iron shipped to England at ballast freights, this added to the repeated failures to manufacture wrought iron upon a satisfactory commercial scale, by the ordinary but laborious puddling process, led to a financial crisis, and induced Mr. Beaumont to report his inability to carry on the undertaking to a profitable issue, and it became a question for the Directors and Shareholders to decide as to the advisability of winding up the concern rather than expose themselves to the risk of further losses. As it was quite evident that their former ill-success was due to their inability to manufacture bar iron on a satisfactory Commercial basis, owing to the difficulty of supplying the required fuel, and of carrying on the laborious work of puddling and reheating on a large scale in such a hot climate, and as Mr. Bessemer was at the same time astonishing the World by exhibiting specimens of Iron and Steel made direct from Crude iron by simply forcing through molten crude metal powerful jets of atmospheric air for a few minutes only, it was suggested that this wonderfully simple process was pre-eminently adapted for India, and Mr. William Maylor M. Inst. Mech. Engs. (one of the East Indian Iron Company's former Managers) was selected to report upon this important process as carried on in Sheffield and in Sweden; it did not escape observation that Mr. Bessemer had to contend with many practical difficulties, which it was believed time and experience alone would surmount. Mr. Maylor having been appointed to succeed Mr. Beaumont as General Manager proceeded to India at the end of 1859 for the purpose of introducing this novel method of manufacturing Steel and Iron. So far Mr. Maylor has been eminently successful as shewn by the reports from the Officers of the Madras and Bombay Government Departments, the Madras and Great Indian Peninsula Railway Companies, and other parties, upon the various samples supplied to them, and by the orders received for further supplies. The Jurors of the late International Exhibition also awarded to this Company a first Class medal for their specimens of Iron and Steel.

Regulations, Relative to Passengers Arriving by Sea

AT THE PORT OF MARSEILLES.

ARTICLE 1.

Captains of ships are informed that Passengers (with the exception of British subjects) will not be allowed to enter into France unless they are bearers of Passports, delivered by the authorities of the country to which they belong, and bearing the "Visâ" of a French Diplomatic or Consular Agent. The French Visâ must be renewed every year.

ARTICLE 2.

No Passenger (unless a British subject) can land at the Port of Marseilles until his Passport has undergone examination, for which purpose a Commissary of Police, specially appointed, will proceed on board immediately the ship arrives. A List of Passengers must be handed at the same time to him by the Commander of the Ship.

ARTICLE 3.

Passengers (except English) not possessing Passports properly "visé" will have to remain on board, and will be obliged to return to the place of embarkation at the cost of the Captain. All expenses that the surveillance of such Passengers remaining on board may occasion, will likewise be charged to the Captain, independent of any further proceedings that may be instituted for non-compliance with the Police Regulations.

ARTICLE 4.

By decision of the Emperor of the French, under date of 15th December 1860, the subjects of Her Britannic Majesty are allowed to enter and travel in the territory of the Empire without passport, on simply declaring their nationality.

Conditions, Regulations, and General Information.

PASSENGERS.

The Company's Rates of Passage Money are for the sea passage only. They include Stewards' Fees, Table, Wines, &c., for First-class Passengers. Bedding, Linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense, together with the attendance of experienced male and female Servants.

Railway tickets for the journey through Egypt, entitling the holders thereof to the privileges secured by a recent convention between His Highness the Viceroy of Egypt and the Company, are issued by the Agents of the Company on behalf of the Egyptian Government at the following rates, viz :—

For First-class Passengers....£7 0 0 | For Second-class Passengers....£3 10 0

Children above 3 and under 10 years half fare.

Or it is optional with the Passengers to pay the Company for the sea passage only, and to pay their own transit through Egypt upon arrival at Alexandria or Suez, as the case may be. *For full particulars see the Special Hand-book of Information on this subject.*

Servants soliciting gratuities will be dismissed from the Company's service.

Half the amount of Passage Money, when the passage exceeds £20, is required to be paid on securing passage, and the balance a fortnight before embarkation.

Passengers not embarking after engaging passage, to forfeit the deposit of half the amount of Passage Money.

In case, however, of a Passenger being unavoidably prevented from availing himself of a passage at the period for which it is taken, a transfer of the passage can be effected to a subsequent Steamer, on sufficient notice being given, without forfeiture of any portion of the deposit paid, and accommodation will be allotted as similar as circumstances will permit.

In remitting a sum of money to the Company on account of passage, if by Cheque it is recommended, for the sake of security, to write across the Cheque the name of the Company's Bankers, "*Messrs. Williams, Deacon, and Co.*;" if by Order, Letter of Credit, or otherwise, it should be in favour of the "*Peninsular and Oriental Steam Navigation Company.*"

Passengers must comply with the regulations established on board the Steamers for general comfort and safety.

No Berth or Cabin is to be occupied by a Passenger without application to the Agent on shore, or to the Purser on board. It is to be understood that a Passenger occupying a Cabin of two or more Berths, on the departure of the Vessel (unless he shall have paid an additional sum for its exclusive occupation), is not to object to the vacant Berth or Berths being filled up at the intermediate Ports, if required.

Passengers will have to defray their own expenses for Hotels, in the event of any detention.

The Steamers employed eastward of Suez do not possess Second-class accommodation, with the exception of a few Berths for the Servants of First-class Passengers. Persons who are admitted on board these Steamers as Second-class Passengers must therefore understand that the Company do not guarantee them Cabins or Berths, and that they must accept such accommodation in this respect as circumstances may enable the Company to provide for them.

Railway Trains from the Waterloo Bridge Station, to Southampton, in the Morning at 6-15 (Parl.), 8, 10.15 (mail), 11 o'clock (Express). Afternoon, 1.10, 3 (Express), 4.10 and 5 o'clock. Evening, 30 minutes past 8 o'clock—mail. Sunday Trains, morning, at 9.15, and 10.15. Afternoon, 5 o'clock. Evening, 30 minutes past 8 o'clock—mail. BAGGAGE.

The attention of Passengers by the Overland Route to and from India, China, &c., is respectfully requested to the under-noted Regulations in reference to Baggage; much trouble and loss is occasionally caused by their neglect, and the Egyptian Transit Administration will not accept any responsibility unless they are strictly complied with.

All Baggage should be addressed in Paint, in full, and in addition Passengers will be supplied on Board the Steamers with printed "Destination Labels," which should be affixed to all Packages, however trifling, before arrival at Alexandria or Suez.

All Baggage should be packed in Leather Portmanteaux or Trunks, with addresses in full painted on the top and end, and fastened securely with case locks, padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of deal cases, bandboxes, carpet bags, or other unsuitable and insecure Packages.

Packages containing Jewellery, Plate, or other valuables, must be specially booked and Freight paid thereon.

Packages, containing Parcels, Specie or Merchandise, are liable to seizure and confiscation in Egypt, and to detention for Freight by the Agents of the Company.

First-class Passengers are allowed 336 *lbs. of personal* Baggage free of Freight, and Children (over three and under ten years) and Servants 168 lbs. each.

A Passenger taking a whole Cabin will be entitled to take in the Steamers, free of Freight, 4½ cwt.; and a married couple, paying for reserved accommodation, will be entitled to take 9 cwt.

The charge for conveyance of extra Baggage, should there be room in the Vessel, will be at the rate of 10*s.* per cwt. between Southampton, Gibraltar, Marseilles, Malta, or Alexandria; £1 per cwt. between Suez, India, China, the Mauritius, and Australia, with 6*s.* per cwt. for Transit expenses through Egypt.

Passengers passing through Egypt will be charged by the Transit Administration 6*s.* per cwt. for conveyance of Baggage through, should it exceed, for First-class Passengers, 336 lbs. each, and Children (over three and under ten years) and Servants 168 lbs. each. This amount is collected on board the Company's Steamers for the convenience of Passengers.

The Company cannot engage to take any excess of Baggage over the regulated allowance, unless shipped at Southampton on the day before sailing, and Freight paid thereon.

All Baggage must be shipped not later than noon on the day previous to sailing, except Carpet Bags or Hat Boxes.

The Insurance of Baggage can be effected on very moderate terms.

Passengers embarking at Marseilles for India, China, the Mauritius, and Australia, can have 336 lbs. of their Baggage conveyed by the Steamer from Southampton free of charge; all in excess of that weight will be charged for at the rates mentioned above.

Passengers embarking at Marseilles for Malta and Alexandria, can also have their Baggage conveyed by the Steamer from Southampton at the rate of 10*s.* per cwt.

Passengers outwards, proceeding *via* Trieste, and joining the Steamers of the Peninsular and Oriental Company at Suez, and Passengers homewards who have been conveyed to Suez in the Peninsular and Oriental Company's Steamers, can ship their Baggage by the Company's vessels from Southampton to Alexandria, and *vice versa*, subject to the follwing charge, payable in advance :—

For the regulated allowance of 3 cwt., 10*s.* per cwt.
For any excess over 3 cwt., 20*s.* per cwt.
} Exclusive of the charge for transport made by the Transit Administration of Egypt.

CAUTION TO PASSENGERS.—GOODS OF A DANGEROUS NATURE.

The Company will not receive on board of their vessels and goods of a dangerous or damaging nature. If any such goods be shipped without notice, the Shippers will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.—(See Extract from the Merchant Shipping Act, at page 14.)

Passengers not proceeding by the Peninsular and Oriental Company's Steamers, but shipping their Baggage from Southampton, will be charged at the rate of 10*s.* per cwt. between Southampton and Malta or Alexandria.

N. B.—The Baggage of Passengers proceeding via *Trieste must be shipped at Southampton so as to ensure its arrival at Alexandria a week in advance of the Passengers to whom it may belong. Non-compliance with this is likely to involve loss or detention of the Baggage in Egypt.*

Passengers requiring information respecting their Baggage during the voyage, can obtain it by application to the Officer in charge.

Passengers who may miss any package of Baggage on arrival at their destination are recommended to apply, *without delay*, to the Company's Agent, giving full particulars, *in writing*, when application will at once be made to the Missing Baggage Depots at Bombay or Southampton.

Baggage can be occasionally had up from the baggage-room during the passage by application to the Officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabins, but only small Portmanteaux, or Carpet Bags.

NOTICE.—All parties are requested to take notice that the Company do not hold themselves liable for detention or delay of Passengers arising from accident or from extraordinary or unavoidable circumstances or from circumstances arising out of or connected with the employment of the Company's vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable for damage to or loss or detention of Passengers' Baggage or for any consequences arising from the restrictions of quarrantine wheresoever imposed. In all cases in which the Company's Steamers may be placed in quarrantine First-class Passengers will be charged Ten shillings, and Second-class Passengers five shillings per diem for their maintenance on board during the detention of the ship.

The want of a direct First-class Auxiliary Steam Line to India, especially for families and invalids, has been long known and felt, and such a Line must command a sure trade for Passengers and Cargo; ample proof of which is rendered in the following document, signed by the principal East India Merchants, Banking Firms, Exporters and Importers, Colonial Brokers. Wholesale Warehousemen, Manufacturers, and Shippers, and others interested in East Indian Commerce and intercourse :—

"We the undersigned Merchants and others, interested in commercial intercourse with the East Indies, consider that regular Monthly Communication, out and home, with Madras and Calcutta, by such First-class Auxiliary Steam Clipper Ships as were formerly

employed in conveying Goods and Passengers on that route, has now become indispensable to the trade between London and the East :—

The Directors of this Company have determined to avoid all ports of call outwards and homewards, except the Cape and Madras. It is estimated that the voyage to Madras and vice versâ will, as a rule, be accomplished within 70 days out, and 65 home, thus affording a comfortable, economical, and regular mode of transport to that large and increasing class whose means will not admit of their proceeding Overland; and who, with their families, so much prefer being spared the expense and inconvenience of repeatedly changing their conveyance between the ports of departure and arrival.

It is intended to despatch a Steamer of this Line on the 20th of each month from the Victoria Docks, London, to Calcutta, calling at the Cape and Madras, and to return from Calcutta, calling at Madras and the Cape, thence to London direct, about the 20th of every month.

These fine Ships have just been refitted with every comfort for the Indian Line; the Cabins are spacious, and well ventilated; the Table will be most liberally supplied; the wishes of Passengers consulted, and at once attended to.—An experienced Surgeon will accompany each of the Company's Ships.

GENERAL REMARKS.

Passage Accommodation.—The Steamers of this Line are fitted out with every comfort for the Indian Voyage for First Class Passengers. European Servants will be provided with good accommodation and fare, whilst Native attendance will have suitable room and food, and will meet with every attention.

For the convenience of Families requiring more than one Cabin, they can be made to lead one into another.

The Saloons are fitted in the most elegant and comfortable style; and both the Table and Cabins are attended by experienced male and female Servants of the Company.

When any party has paid for only half a Cabin, and occupies an entire one during the Voyage to Madras, they must not object to another Passenger occupying the spare Berth during the remainder of the Passage to England.

Rates of Passage.—Notwithstanding that these Ships are built and fitted out to make quick and comfortable voyages, the rates of Passage charged are not more than those of the First-class sailing Vessels. The rates do not include Wines, Beer, and Spirits, the prices charged for which can be ascertained at the Office of the Agents and on Board the respective Steamers.

Each Cabin is fitted with two Bunks and a Wash-stand, for which no charge is made; but Passengers will have to provide themselves with Cabin Linen, Bedding, Lamp, &c.

When Passengers require more accommodation than is allotted for the rates advertised, an increase will have to be paid, for instance—the rate for a married couple in one Cabin is 1,350; but if they occupy two, it will be Rupees 2,000.

Return Tickets for the voyages between Calcutta and Madras and London, available for twelve months, *but not transferable*, will be granted at a reduction of 10 per cent. on the gross amount, which must be paid for before embarking.

Parties purposing to make a voyage by the Line can register their names at the Agent's Office for the Steamer and accommodation they would desire, and a priority of choice will be given to those whose names stand first in the Passengers' Register Book, but no Cabin or Berth can be actually secured until half the Passage Money is paid.

In case parties fail to pay the balance for the accommodation secured, their Deposit Money will be forfeited, but by giving early information of their inability to proceed in the Steamer they had engaged for, the Agents will give them a similar accommodation to that secured in any subsequent Ship as circumstances will admit of.

When the deposit is made, a simple Receipt will be given, stating the accommodation secured; but upon the balance of the Passage Money being paid, Passengers will have to sign the Passage Tickets of the Company, accepting the conditions endorsed thereon, and without which no Ticket is valid. The Passage Receipt or Ticket must be shown to the Purser on board, at his request, and given up at the end of the voyage.

Baggage.—Any reasonable amount of *personal* Baggage is allowed free. Other effects are charged for at the rate of Rupees 6 per ton of 50 cubic feet.

When entire Cabins are not taken by one party, the amount of Baggage to be allowed in the Cabin will, under the superintendence of the Purser, be restricted for the comfort of the individual Passengers occupying them.

It is necessary before giving the balance of the Baggage into the care of the Officer appointed to such duty, that it be distinctly marked in paint on both the top and ends, to be more readily seen in the Baggage Hold, when required. Every care will be taken by the Officer in charge of Passengers' Luggage and Effects, but the Company do not hold themselves responsible for any damage, nor can they be liable for the delay or detention of their Ships, arising from accident or from extraordinary or unavoidable circumstances.

Regulations.—Passengers are expected for the general comfort of all on board, to comply with the Printed Regulations in the Saloon; and to obtain Meals or Wines, &c., out of the appointed times, an order by the Doctor must be granted.

Freights.—In London, the principal Merchants, Bankers, Exporters and Importers, Colonial Brokers, Wholesale Warehouse-men, Sellers and Shippers, interested in East Indian Commerce and intercourse, declare such a Line as the East India and London Shipping Company's to have become indispensable to the increasing trade and interchanges between England and the East. To Exporters and Importers this Service opens out a wanted and most desirable mode of transmitting their Merchandise with regularity, quickness and care, at rates but little above those of the ordinary class of Sailing Vessels, which commands from them their fullest support and encouragement to an undertaking which is likely to prove to their especial benefit. From this Port, Shippers of valuable staples, such as Indigo, Silk, &c., as well as of small Packages and Parcels, will be able to send them forward by these splendid Steamers at the market rate of Freight of the day. From London, Agents of the large establishments here and Madras, who send forward large Parcels of Stationary, Fancy Goods, Chemicals, Haberdashery, and Hosiery, Provisions, Oilman's Stores, &c., will, by this Line, be able to avoid heavy expense, and ship their Goods regularly in the finest Vessels afloat, at but little over the rate of ordinary Ships.

The Mercantile Firms in Burmah will have peculiar advantages in Importing by this Line, as they will have the opportunity of transhipping their Goods either from Madras or Calcutta, as the sailing of the *Calcutta and Burmah Company's* Steamers from either Port may be most opportune.

Bills of Lading must be in the Company's printed form, which can be obtained from the undersigned.

WEIGHTS AND MEASURES.

COINAGE—BRITISH INDIAN.

Under the Proclamation of the Governor General in Council, dated 11th November 1840, the coins now issued from the Company's Mints are as follows :—

1st. The Rupee, to have on the adverse, the head of Her Majesty Victoria, with the words, Victoria Queen. On the reverse, the denomination of the coin in English encircled by a wreath. The coin will be milled on the edge with a serrated or upright milling. Weight—180 grains Troy, or one tola standard quality—eleven-twelfths silver, one-twelfth alloy. Value—the same as the Company's rupee of 1835, the Madras, Bombay, Furruckabad, and Sonat Rupee, and equal to fifteen-sixteenths of the late Sicca Rupee.

2nd. Double, half, and quarter rupees, and two anna pieces, to bear in all respects a due proportion to this Rupee.

Money changers, sarafs, and others, are required to take notice of the Provision in Act No. XVII of 1835, against clipping, filing, punching, or otherwise defacing the legal coin. The silver coins issued from the Mints of Government, under Act XVII of 1835, if not cut, clipped, marked, or otherwise wilfully impaired, are legal tender for their full value, until, by gradual wear, they have lost two per cent. of their original weight.

In Madras since the 13th December 1844, the rate of Seignorage duty charged at the Mint for the coinage of gold, independent of the refinage charges on under standard gold, (which are to be taken in addition to the duty, on the scale authorized by Government order, dated 6th November 1841), has been reduced from 2 to 1 per cent.

The above are the only legal coins now in circulation throughout the whole of the Company's territories, besides the copper coin, namely, the half anna copper coin, weighing 200 grains; the quarter anna weighing 100 grains; and the one pie, weighing 33 and 1-3rd grains.

Silver is the legal currency of the country, and gold was also a legal tender at 15 rupees to a Gold Mohur; but by an order of the Government of India dated 22d December 1852, gold coin was forbidden to be received in the Government Treasuries. Copper coins are only a legal tender to the extent of one Rupee.

The following table exhibits the scheme of the British India monetory system :—

	Rupee.	*Anna.*	*Pysa.*	*Pie.*
Currency Notes of the Government of India, in even sums to any amount, not less than 10 Rs. are in circulation, and may be received at the Government Treasuries in payment of Revenue.	1	16	64	192
		1	4	12
			1	3

100,000 Rupees = 1 Lakh.
100 Lakhs..... = 1 Crore, equal in value to 1 million sterling.

The old Madras Currency was

10 Cash..... .... = 1 Doodie.
80 Cash..... .... = 1 Fanam.
42 Fanams..... .... = 1 Star Pagoda.

The value of the Arcot rupee was fanams 12, cash 60, at which rate 44-6 fanams = 1 Rupee. The usual rate of conversion when great nicety is not required, is one fanam = 1 anna 3 pie. The correct value of one rupee is 12 fanams 68-57 cash.

There were formerly a great variety of coins current in South India, as every petty Prince issued his own. The Hindu dynasties nearly all had, as the basis of their currency, a gold coin worth about four rupees, and a smaller gold or silver coin (Pana S.) of one-tenth of its value, with copper coins representing a greater or less proportion of the latter. It seems that formerly this gold coin was stamped with the effigy of a boar, (Varaha in Sanscrit). This, with its corresponding name in the vernacular, continued to be given to this coin, though the device was changed. The coin in use at Madras had a representation of a pagoda and hence the English there adopted the name pagoda. The rupee and anna sub-division seems to have been introduced by the Moghul dynasty.

Nearly all the multifarious Native Indian coins are rapidly disappearing, and accounts are kept throughout our territories in British Indian currency. This is a great public convenience.

In Mysore, however, the revenue accounts are still kept in the Cantaroy currency. The Varaha being fixed at Rs. 2-14-8.

The Canara revenue accounts are still kept in Bahadary currency. But as the Varaha is taken as four rupees, its conversion is perfectly simple, the fanam being just 4 annas.

British Money.

4 Farthings .....= Penny. | 5 Shillings..... ... = 1 Crown.
12 Pence..... ... = Shilling. | 20 Shillings..... ..... = 1 Pound.

The coins in use are farthings, half pence, and pence in copper—four pence, six pence, half crown, and crown in silver—half sovereigns and sovereigns in gold. Gold is a legal tender to any amount. Silver only to the amount of 40 shillings. Copper to the amount of 12 pence. The rupee at par is 2 shillings. A rupee converted into British money will be about 1s. 11*d.* at the London Mint, price of silver.

British currency has been extended to all the colonies of the crown.

* The average weight of the Gold Star Pagoda is 52·4 grains. Therefore 10 such Pagodas weigh 524 grains, which is 23 grains less than an ounce and a quarter Avoirdupois.

† The old Madras Cutcha Seer was 8 Pollams or 24 Rs. (The Pucka Seer is 80 Rs.) the Maund of 25lbs. and Candy of 500lbs. are used for weighing iron, tin, tobacco, ghee, oil, jaggery, tamarind, sugar.

The Cutcha Seer of 90 Star Pagodas or 11¼ oz. Avoirdupois, the Maund of 28lbs. and Candy of 562lbs. 8 oz. are used by Merchants in dealing with one another. For weighing brass, copper and zinc, the Seer weighs 9 oz. Avoirdupois, the Maund 22½lbs. and the Candy 450lbs.

The Maund for Cotton weighs 24lbs. and the Candy 480lbs.

A Maund of 28lbs. is used in Mysore and the Western Coast.

The Seer of 2lbs. used in dealing with persons from Hyderabad, Calcutta, &c., is called Pucca weight.

The viss used at Condapilly for weighing ghee is 3lbs. 6oz. Avoirdupois.

REVISED WEIGHTS AND MEASURES.

The Weights and Measures recognized by Government are as follows :—

(Vide Fort Saint George Gazette, 20th October 1846.)

Weights.		*Avoirdupois.*			
			lbs.	oz.	drs.
180 Grains	= 1 Tola	=	0	0	6·58
3 Tolas	= 1 Pollam	=	0	1	3·75

8 Measures = 1 Marcal.	10·3	9·6	800
4 Measures = ½ Marcal.	8·2	7·6	400

The Parah of 5 Marcals (used for Chunam, &c.) is a square measure, the sides 20 inches and depth 10, containing 4000 cubic ins. The old Parah was 24×24 +6½=3744 cubic inches.

The "Garce" is 400 Marcals or 185·2 cubic feet or 5·152 Tons of water. According to the *old* Measure of Madras the Puddee or "Measure" was 93¾ cubic inches, and the Marcal 750 cubic inches.

Car. Paddy weighs about	83 Tolas	the 100 cubic inches.	
Raw Rice	„	114	„ „
Horse Gram	„	120	„ „

The Standard Madras Puddee or "Measure" is generally a Cylinder, 4 inches in diameter and 8 inches deep, containing 100 cubic inches as in the above table. Now 100 cubic inches of *water* at 80° weigh 3·6 lbs. Avoirdupois, or 140 Tolas exactly.

1 Garce = 144 Bushels.

Where the Seer is spoken of as a Measure, it is usual to calculate 2 Madras Measures to 3 Seers.

SALT.

Salt continues to be sold in the Madras Presidency by the Garce and Marcal. But the accounts are kept in Indian Maunds : 120 Maunds being reckoned to a Garce.

80 Tolas	=	1 Seer.
40 Seers	=	1 Indian Maund.
35 Seers	=	72lbs. Avoirdupois.

At 120 Rs. a Garce, one measure of Salt, costs 7 1/10 Pice, and a Marcal As. 4, P. 9·6.

MADRAS LAND MEASURE.

1 Munne or Ground (60 feet × 40 feet) = 2400 square feet.
24 Grounds = 57,600 square feet or 1 Cawnie

or

1 Kol or rod = 24 feet.
1 square Kol or Goolee = 576 square feet.
100 Goolees = 57,600 square feet or Cawnie.

In some districts the Cawnie is divided into Annas or sixteenths, each Anna being 3600 square feet or a square of 60 feet each way.

A cawnie is 6400 square yards.
An Acre is 4840 square yards.
And 640 Acres or 484 Cawnies = 1 square mile.

In Salem, Bellary and Cuddapah and the Palnad division of Guntoor, the English Acre is used ; it is divided into 40 Goontahs each Goontah being a square of 33 feet each way.

In Madras, North Arcot, South Arcot and Chingleput, the Cawnie is used.

The Cawnie is also used in the measurement of *Wet* Land in Coimbatore, and the Madura Division of Madura.

In Tanjore the measurements are in Vaylies, each Valie being divided into 20 Mows, and each Mow into 100 Goontahs or Goolies of 144 square feet.

* This is the distance that would be walked in an average ghurri of 24 minutes at the rate of 3¾ English miles per hour.

English miles have now been measured and marked on many of the principal roads in South India ; as from Madras to Bangalore, Madras to Nellore, and all over Mysore. The sooner Native measures of distance fall into disuse the better, they have no understood standard, and must be uncertain.

A Vallie is exactly 5 Cawnies or 6 $\frac{5}{16}$ Acres, or 288,000 square feet.

In some Districts other Measurements are used, as,

Districts.		*Name of Measures.*

A table was circulated with the *Bombay Courier* of the 8th December 1835, containing a summary of the exact quantities of the principal Weights and Measures of Bengal, Madras, Bombay and Ceylon, as laid down in Captain T. B. Jervis' Essays on the Primitive Standard. From this the following is extracted :

Dry Measures.

	Cubic Inches.
The Parah Measure of Behar now fallen into disuse, the Mun or Parah of the Mahratta Empire, the Concan, Madras, Ceylon and Bombay = half the Cubic Cubit, or $\frac{1}{16}$th the Cubic Pendulum (struck)	3735·4131
The Garce of Madras, Telingana, the Carnatic and Ceylon, = 400 Marcals	29883·3053
The Marcal of do. do.	747·03263

Weights.

	Troy Grains
The Bengal Bazar Seer, the heavy or Pucka Seer of the Mahratta Empire, the Concan, and Malwa	14400
The Light or Kucha Seer of the Concan and the Mahratta Empire	540
The Seer of 72 Tolas	5250
The Pucka Seer of 72 Tolas	13500
The Tola throughout India North of the Krishna	187·0
The Massa throughout India North of the Krishna	15·625
The Ancient Hoon or Pagoda South of the Krishna	54·6875
The Ancient Fanam or Panam South of the Krishna	5·46875
The Ancient Pollam of the South of India	546·875
The Modern Star, Ikery, Anandray, Sooltanee, and Porto Novo Pagoda	52·5
The Fanam of the above currency	525

Primitive Standard.

The Proposed Universal Standard is the mean length of the Pendulum, which vibrates Seconds, in latitude 45°, at the level of the Ocean, at the temperature of 39½ degrees of Fahrenheit, = 39·09785 English Inches.

Practically however it seems impossible to define accurately the weights and measures of this country, with the exception of those that have been rectified by the orders of Government. There is in scarcely any one of them a recognised and well understood standard ; so that though the same names be in use, the actual weights or measures differ in different Districts and even in different parts of the same District.

* Divided into 168 Puddees. It is supposed to require 1 Cottah or Kotay (21 Tinnevelly Marcals) of seed.

† Divided into 32 Goontahs.

‡ Divided into 100 Goontahs.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some persons to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of an Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them, must state the fact, and apply to the Town Major, Fort St. George, who will obtain the permission of the Right Honorable the Governor for their marriage, under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M. or the Honorable Company's Services, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese (R. Murphy, LL. D.)

A PRECIS OF THE NEW ABSENTEE AND FURLOUGH RULES,

as affecting the position of Chaplains and Assistant Chaplains.

1. Chaplains and Assistant Chaplains are allowed to take furlough on private affairs and on medical certificate; also, leave for short periods on private affairs or on medical certificate, in or out of India, on the same terms and conditions as Military Staff Officers, with certain modifications included in the following rules:—

Civil Auditor's Manual, para. 105, Chapter X, page 19.

LEAVE OUT OF INDIA.

2. All applications from Chaplains and Assistant Chaplains for leave of absence from whatever cause, whether on private affairs, or on medical certificate, are to be submitted (with the prescribed medical certificate duly countersigned, if the leave applied for be on sick certificate,) through the constituted Ecclesiastical authority, viz. the Bishop, or, in his absence from the Diocese, the Archdeacon, to the Military Auditor General for report as to the applicant's eligibility, under regulation, for the leave solicited.

Civil Auditor's Manual, para. 106, Chapter X, page 20.

3. Chaplains and Assistant Chaplains who have applied for leave, either on private affairs or on medical certificate, must not commence availing themselves of it until they are actually in receipt of the Orders of Government granting the leave. In cases of serious illness, however, Chaplains and Assistant Chaplains may quit their stations in anticipation of leave, on an emergent medical certificate duly granted by the proper Medical Officer.

Civil Auditor's Manual, para. 107, Chapter X, page 20.
Minutes of Consultation, 7th August 1858, No. 261, Ecclesiastical Department.

4. Chaplains and Assistant Chaplains permitted to proceed to Europe on furlough, are required to vacate their situations, and avail themselves of the indulgence, within three months from the date on which it has been granted.

Civil Auditor's Manual, para. 109, Chapter X, page 20.

5. In cases where it is not intended to take advantage of leave obtained, special application for cancelling such leave is requisite, and is required to be made to Government through the Bishop, or, in his absence from the Diocese, through the Archdeacon.

Civil Auditor's Manual, para. 110, Chapter X, page 20.

6. A Chaplain or Assistant Chaplain proceeding to Europe or elsewhere, out of India, on medical certificate for fifteen months, does not thereby forfeit his appointment at any particular station, and is entitled to receive, for the first six months of his absence, pay at the rate of £600 per annum. For the remaining nine months, and for any further period of leave, he receives the furlough pay of his standing.

"Last para. of the Resolution of the Govt. of India, dated 10th Feb. 1855, No. 663." Vide Ex. M. C. 9th March 1855, No. 76.

Civil Auditor's Manual, para. 122, Chapter X, page 23.

7. A furlough of three years is allowed to Chaplains and Assistant Chaplains, which may be taken in one period, or be divided into two periods, whether of 18 months each, or of two years and one year respectively. Chaplains and Assistant Chaplains having served seven years, are entitled to take their furlough in one period of three years, if they prefer this course to that of dividing the furlough.

Civil Auditor's Manual, para. 125, Chapter X, page 23. Do. para. 125, (*a*)

8. When divided, the first furlough may be taken after seven years' residence *in actual service*, and the second after a further residence of eight years in the case of Chaplains appointed before 11th January 1854, and of ten years in the case of Chaplains appointed subsequently.

Civil Auditor's Manual, para. 126, Chapter X, page 23. Extract Minutes of Con., 4th January 1859, No. 2.

9. The furlough pay of Chaplains having seven years' service as above, is £191, 12*s*. 6*d*. per annum, and that of Chaplains having less service, £127 15*s*. per annum. Chaplains appointed prior to September 1836, are entitled to furlough pay at £292 per annum.

After the expiration of six months, during which Staff salary may be drawn as above by the Archdeacon, the full Staff salary will be drawn by the Acting Archdeacon.

11. Chaplains and Assistant Chaplains are allowed to take their furloughs or any portion of them in India, on the same terms on which a furlough to Europe is granted.

Fort St. George Gazette, 31st December 1857, page 1114.

Civil Auditor's Manual, para. 129, Chapter X, page 23.

13. A preparatory leave is granted prior to leave to Europe &c., on furlough on private affairs, for periods of one, two, or three months, according as the distance does not exceed 300, or 600 miles, or is in excess of the last mentioned distance. During such absence, a moiety of his allowance is payable to the absentee. Chaplains and Assistant Chaplains stationed at the Presidency town, are allowed preparatory leave on the same terms for a period not exceeding one month.

Civil Auditor's Manual, para. 130, (*a*) Chapter X, page 24. Secretary of State's letter, 21th July 1860, No. 113, published in the Fort St. George Gazette, 21st September 1860, page 534.

Letter from Secretary to Govt. of India to Civil Auditor, Madras, 8th October 1860, No. 10,282.

14. Chaplains and Assistant Chaplains in the provinces are allowed leave preparatory to embarkation, on *medical certificate*, for four, six or eight weeks, according as the distance from their stations to the port of embarkation is 300, or 600 miles, or in excess of the last mentioned distance. Those at the Presidency are allowed fifteen days. During this leave they are allowed pay at the rate of Rupees 416-10-8 per mensem.

15. Chaplains and Assistant Chaplains intending to take furlough, or to retire from the service, are required to continue to serve, unless disabled by sickness, for a period of three months after return to duty from privilege leave, failing which, its advantages will be forfeited.

Civil Auditor's Manual, para. 115 (*a*) Chapter X, page 21.

16. Advances of the pay, &c., to which a Chaplain or Assistant Chaplain is entitled during absence on medical certificate, may be made to him in India for 3 months from date of embarkation.

Civil Auditor's Manual, para. 133, Chapter X, page 24.

17. Payment in continuation, when any allowance in addition to furlough pay is claimable, is made in England at the rate of exchange fixed annually for re-payment of advances made on account of Her Majesty's Government.

Civil Auditor's Manual, para. 134, Chapter X, page 24.

18. But furlough pay will continue to be issued for six months in advance when required.

Civil Auditor's Manual, para. 135, Chapter X, page 24.

19. No recoveries will be effected from the estates of Chaplains or Assistant Chaplains who, having received advances on proceeding to Europe, may die before the expiration of the period for which the advances were made.

Ex. Min. of Con., Eccl. Dept., 26th May 1858, No. 172.

20. The certificate issued to a Chaplain or Assistant Chaplain who is granted furlough, on private affairs, or leave of absence on sick certificate, is required to specify the time he has been absent on leave within Indian limits, as well as the time of his previous absence in Europe; but is not required to include the periods allowed for proceeding to the Presidency or port of embarkation, or for enabling Chaplains to rejoin their stations after their return to India, or the leave of one month's absence in six months authorized by the regulations.

Civil Auditor's Manual, para. 131, Chapter X, page 24.

21. The last Pay Certificate of a Chaplain or Assistant Chaplain proceeding to England on sick certificate, is required to specify the rate of furlough pay and allowances to which he is entitled during absence.

Civil Auditor's Manual, para. 132, Chapter X, page 24.

22. Chaplains or Assistant Chaplains applying for leave to proceed to Europe on furlough or on medical certificate, must specify in their applications whether they desire to draw their absentee allowances in India or England.

23. Chaplains and Assistant Chaplains on leave in England are required to apply to the Home Government for permission to return to duty, or to remain absent longer, at least three months before the date of the expiration of their leave.

Civil Auditor's Manual, para. 136, Chapter X, page 24.

24. Chaplains and Assistant Chaplains upon furlough allowance, when permitted by the Home Government to return to their duty, may draw an advance of six months of that allowance, unless they have received it for more than two and a half years, in which case the advance is limited to the difference between what has been already drawn and three years' allowance.

Civil Auditor's Manual, para. 137, Chapter X, page 24.

25. Whenever, on the other hand, the Chaplain or Assistant Chaplain returns to India, after the period up to which he has been paid his furlough allowance, but within the term of his leave, the amount due for the interval is claimable on arrival.

Civil Auditor's Manual, para. 140, Chapter X, page 25.

26. The retrenchment of the excess amount, or payment of the amount claimed, is calculated, when the equivalent of a £ in Indian currency is not specified by the rules in force, at the rate of 2*s.* per Rupee.

Desp. from the Secy. of State for India, 25th May 1860, No. 36, para. 6.
Pro. of Govt. Fml. Dept., 28th June 1860, No. 313.

LEAVE IN INDIA.

27. Chaplains and Assistant Chaplains are allowed privilege leave, without pecuniary loss or loss of service, for 60 days consecutively in the course of each year, or 30 days consecutively in each half-year, as may be preferred by them.

Civil Auditor's Manual, para. 113, Chapter X, page 21.

28. This leave is allowed to accumulate up to three months as a maximum period; privilege leave being available to Chaplains for one month after five months' service. They are thus enabled to take three months' leave, without deduction of allowances after fifteen months' consecutive duty, provided the convenience of the public service admits of the grant.

Civil Auditor's Manual, para. 115, Chapter X, page 21.

29. These leaves will be calculated so as to include the day of departure as one of leave, and the day of return as one of duty; thus, a Chaplain proceeding on the 5th August on 60 days' privilege leave and rejoining on the 4th October, will have been absent 60 days only; and an Officer proceeding on the 5th August on privilege leave for 30 days, and rejoining on the 4th September, will have been absent 30 days only.

Extract Minutes of Consultation, 20th January 1857, No. 202, Military Department.

30. The privilege leave is allowed to run into the special and sick leaves in India, but without lengthening out those leaves beyond the periods prescribed in paragraphs 33 and 35. In such cases, however, absentees will be subject to deductions from salary after the first two months' absence.

Civil Auditor's Manual, para. 115, (*b*) Chap. X, page 21.
Despatch from the Secretary of State for India, published in Fort St. George Gazette, 16th August 1859, page 277.

31. This leave is granted by the authority and at the convenience of the Bishop of the Diocese, or, when the Diocese is vacant, by the Archdeacon or other Ecclesiastical functionary performing the duties of an Archdeacon or Commissary: and a report of every leave so granted by the Bishop or other Ecclesiastical Officer abovementioned, is required to be made through the Military Auditor General to Government, for the purpose of being notified in the Official Gazette.

Civil Auditor's Manual, para. 116, Chapter X, page 21.

32. Chaplains and Assistant Chaplains who have obtained leave of absence under privilege leave, are required to avail themselves of it within two months from its insertion in the Gazette: on failure to do so, a fresh application is required to be made, and permission obtained under it, before the station can be quitted.

Civil Auditor's Manual, para. 108, Chapter X, page 20.

33. Chaplains and Assistant Chaplains are allowed special leave of absence in India, on private affairs for six, seven or eight months, according as the place they intend to visit is within, or in excess of 500 and 600 miles distance from their station.

Civil Auditor's Manual, para. 117, Chapter X, page 22.

34. During such absence, they are allowed the furlough pay of their standing, and, in addition thereto, half the difference between their full or Indian pay and furlough pay.

Civil Auditor's Manual, para. 118, Chapter X, page 22.

35. Chaplains and Assistant Chaplains are allowed two years' leave of absence in India on medical certificate.

Civil Auditor's Manual, para. 119, Chapter X, page 22.

36. During the first year of such absence they draw their full salaries, subject to a deduction of one-third, save and except that, when the salary is not more than Rupees 500 per month, no deduction is made; and, when it is only so much more than Rupees 500, that the prescribed deduction of one-third reduces the allowance below that sum, only the excess beyond Rupees 500 is deducted.

Civil Auditor's Manual, para. 120, Chapter X, page 22.

37. During the second year of absence, they are allowed the furlough pay of their standing and, in addition thereto, half the difference between their full or Indian pay and furlough pay.

Civil Auditor's Manual, para. 121, Chapter X, page 22.

38. Resumption of the duties of office at a date previous to that to which leave of absence extends, virtually cancels the unexpired portion of leave and renders unnecessary special application for such leave being cancelled.

Civil Auditor's Manual, para. 111, Chapter X, page 21.

39. But when Chaplains and Assistant Chaplains, absent on medical certificate or on private affairs, for any protracted period, are desirous to resume charge of their office at any time earlier than one month prior to the termination of their leave, they are required to apply to Government for permission to do so, forwarding, with their application to Government in cases of sick leave, a certificate from a Medical Officer, that they have sufficiently recovered to be able to return to duty.

Civil Auditor's Manual, para. 112, Chapter X, page 21.

40. No leave of absence, beyond the three years' furlough, taken in or out of India, whether on sick leave or on private affairs, since the 1st October 1854 (being the date from which the *new* Civil Service Absentee Rules had effect), is allowed to count as service, except the ordinary indulgence leave of one month in every six months, and the period allowed by regulation for proceeding to the Presidency, or to the nearest port of embarkation, as well as the time for rejoining station after return to India.

Civil Auditor's Manual, para. 144, Chapter X, page 25.

41. The preceding rule is declared not to have retrospective effect, so as to deprive Chaplains and Assistant Chaplains of the privilege of counting as service leave already taken under the former rules.

Civil Auditor's Manual, para. 145, Chapter X, page 26.

42. In case of a Chaplain retiring from the service while in Europe, &c., his claim to salary under the rules in paragraphs 6 and 9, for the first six months of his absence, from India, is not affected thereby.

SPIRITUAL CHARGE OF TROOPS ON BOARDSHIP.

Fort St. George, 11th June 1863, No. 141.

Read the following Despatch from the Right Honorable Sir C. WOOD, Bart, Secretary of State for India; to His Excellency the Honorable the Governor in Council, Fort Saint George, dated India Office, London, 24th April 1863, No. 6.

I have resolved in Council that, whenever a Chaplain, about to return to his duty in India, may be willing to undertake the Spiritual charge of Troops on boardship, he may be permitted to do so, and that the Governments in India, on receiving from the Officer in command of the Troops on board, a statement testifying to the due discharge of his duties by such Chaplain, be empowered to pay to him the sum of one hundred Pounds (£100); it being clearly understood that the leave of absence of the Chaplain is not to be prolonged on this account, and that the time so spent on boardship is not to count as service in India.

2. The principle of this rule is applicable to the case of Chaplains returning to this country from India; and you are accordingly authorized to permit any Chaplain on the regular establishment, who may be proceeding to England, to undertake the Spiritual charge of Troops and their families on the voyage to this country, on the understanding that on his arrival in this country the sum of one hundred Pounds (£100) will be paid to him on the production of the requisite Certificate from the Commanding Officer of the Troops on board.

Chaplain's Register of his visits and services in Hospital.

FORT ST. GEORGE, 31st October 1863, No. 87.—Government having directed that the following Rules are to be observed in every Military Hospital, they are published accordingly for general information.

I. A book shall be placed in every European Military Hospital to be entitled, the Chaplain's Register of his visits and services in the Hospital.

II. This book is to be provided by the Chaplain, and each visit and service performed at the Hospital is to be entered in it.

III. It is to be kept for the information of the Bishop, and is to be open to the inspection of the *Military* and *Hospital* authorities.

IV. It is not to be removed from the Hospital, the Medical Officer in charge is to arrange for its safe custody and production when required by the Chaplain, or for inspection.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extract from Court's Despatch, 12th April 1842.

"In Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a rule on the subject of travelling allowances on joining a station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding, we think it desirable that for every circle of stations the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of Ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, three or four times a year might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of stations may, from the deficiency of our establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

9. We should lament that the practice of visiting stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to: and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

The revised Plan, determining the Circle of Out-stations for the several Chaplaincies under this Presidency, is published for general information in lieu of the one sanctioned under date 19th October 1852.

General Assembly's Institution and Schools of the Free Church of Scotland.

Commenced by the Rev. J. Anderson, in Black Town, 3rd April 1837.

Free General Assembly's Institution, Esplanade, Black Town, for Native Education, and for raising up Native Teachers and Preachers, under the Superintendence of Rev. W. Miller, and Mr. W. Carslaw. The Rev. A. Venkataramiah, superintends the Triplicane Branch School on the Mount Road. The Mission in 1856, opened a new branch School in Black Town, under the Superintendence of Mr. Hufflton and the Missionaries; this School is now attended by upwards of 200 Boys. The Rev. S. Ramanujum is engaged as an Evangelist in and around Wallajahbad. His circle embraces 60 Villages which he regularly visits. Messrs. Zaccheus and Ragavulu are labouring in Conjeveram and the Villages around.

The Parent Institution is designed to fulfil the threefold end of a College for rearing up Native Preachers, a Normal Seminary for Training Teachers, and a School for general instruction. Seven Branch Schools for males exist in connection with it. These are at Triplicane, in Black Town, at Conjeveram, Trivellore, Wallajahbad, Chingleput, and Nellore. The average attendance at all these Schools during 1863 has been above 1,250, Hindus and Mahomedans, on a roll of about 1,600. The Hindu pupils are of all castes and classes, from the Brahmin to the Pariah, no distinction being made by the Missionaries.

The Female Institution for Convert and Boarding Girls is under the charge of Mrs. Anderson assisted by Charlotte Govindurajuloo who acts as Matron of the Institution. There are besides 9 Day Schools for Hindu and Mahomedan girls in connection with the Mission. These Schools contain about 750 pupils, making the entire number of pupils on the roll about 2,350.

The education given embraces a knowledge of the Scriptures and all the branches of an enlarged regular course of instruction. The essential character of the Central Institution, with its nine Branch Schools for youths and eleven for girls, is that of being Seminaries for teaching Christian knowledge. This is communicated through the medium of English, Tamil, Telugu and Hindustani; and instruction is also systematically given in these tongues, by competent Munshees.

The Free Church Mission employs upwards of 20 Christian Agents, Evangelists and Teachers. It also employs in its Schools 130 Teachers.

At both Stations, there are ten Vernacular Day Schools—seven for boys and two for girls—containing, in the former 310, and in the latter 75 pupils; mostly from caste families. The whole number under instruction, is upwards of 575, of both sexes. A Native Church is formed at each Station. The Printing Establishment is efficient and has a Type Foundery and Bindery. There are 70 resident Church members, and 18 absent, and 30 baptized adherents, making 118 in all, thus connected with the Mission.

In 145 Village congregations, there are 6,447 Christian adherents, of whom 1,109 are members of the Church.

The American Board sent its first Missionaries to India in 1812. With much difficulty on account of opposition from the Government, they commenced a Mission at Bombay the next year. There are now in all the Missions here named, 50 ordained American Missionaries, about 1,900 Church members, and including these and the baptized children, not far from 7,000 Christian adherents.

The Mission was established in 1847 and has been supported by the members of the Church, in connection with the Mission, with the assistance of kind friends.

The Minister is supported by voluntary contributions; besides his Ministerial labours, connected with the Church, he is engaged in house to house visitation, and when time permits, he itinerates, visiting and preaching to Soldiers and others at the Military Stations near Madras.

There is a Sabbath School in connection with the Church, in which about 80 children are regularly taught the vital truths of religion.

There is a neat, airy commodious Chapel, and Minister's house, eligibly situated in New Town, purchased by the Church and Congregation with the assistance of kind and generous friends in India and England.

A Day School has lately been opened, and it is hoped will prove the means of materially increasing the usefulness of the Mission. As a School room has to be built, the kind aid of Christian friends is much needed and respectfully solicited. The Treasurer, Dr. vanSomeren, will gladly receive subscriptions and contributions.

BANGALORE FREE COMMUNION BAPTIST CHURCH.

(Formed 26th November 1854.)

Pastor.—EDMUND MARSDEN. | *Deacon* ——

This Church was formed in November 1854, by the Rev. T. C. Page (formerly of Madras) then temporarily residing at Bangalore. It enjoyed the pastoral superintendence of that esteemed servant of Christ for the first few months of its existence, but was for some time subsequently to his departure from the Station without a Minister. In June 1855, Mr. Marsden was providentially brought to the place, and, on the earnest and unanimous invitation of the Church consented, as a temporary measure, to take the oversight of it; but having, at the close of that year, determined on relinquishing secular pursuits, agreed to become its stated Pastor. On the 30th March 1856, the union between himself and the Church was publicly recognized, he having been previously set apart for the work of the Gospel ministry at Madras. The Church consists at present (November 1863) of 48 members, (including Europeans, East Indians, and Natives) of whom rather more than half are non-resident. Up to the 9th of June 1862, the Church was a Strict Communion one, but on that date, by a Resolution, *passed quite unanimously*, its Communion was opened to Christians generally, regardless of all denominational distinctions. Several have availed themselves of this change, to unite with the Church in its monthly commemoration of the death of Jesus. On late occasion there were 17 of these visiting communicants.

Besides watching over this little Christian Society, Mr. Marsden devotes a considerable portion of his time to evangelistic visitation among the residents of Bangalore, *particularly the Military*, of whom there is always a very large number at the station. Last year there were in this way about 570 persons never operated upon before, besides many others come into contact with in years gone by, plied and pressed with the Gospel offer, and during the first septennial period, which terminated 31st August 1862, about 3,300 persons. A very large proportion of these were *Soldiers* though not bearing the *name*, Mr. Marsden, to the fullest extent of his ability, is doing the *work* of a TOWN MISSIONARY.

Mr. Marsden receives scarcely any pecuniary aid from the Church with which he is pastorally connected, the members being generally extremely poor, nor does he draw a salary from any Society, for he belongs to none; but is dependent (under God) for the principal part of his outward support upon the free will offerings of his fellow Christians.

☞Looking to the Lord for help, the Church resolved sometime back to endeavour to obtain a more suitable place of worship than the room in which the services are at present held, which is very small and confined, is most undesirably situated, and has an exceedingly bad approach to it. A subscription for a convenient building, to hold about 150 persons, and to be denominated EBENEZER CHAPEL, has been commenced, and amounts at this date (25th November 1853) to about Rs. 1,400. This, when realized, with what may come in from the sale of the old premises, will probably give a sum of about Rs. 1,800. But at least Rs. 3,000 more will be required before building operations could be justifiably commenced. The Pastor and his little flock have contributed the principal part of what has been subscribed, and are unable to give more: they therefore earnestly solicit help from those of their fellow Christians who have not already assisted them. *Contributions will be very thankfully received, either by the Rev. Mr. Marsden, or Mr. Thomas Owen, Saddler, Bangalore.*

SHEVAROYS MISSION.

Missionary, Rev. W. Herre.

This Mission has been established in April 1863. Its object is to carry the Gospel to the Malayalees for whom nothing has been done yet, but attention is also paid to the numerous Coolies, who come from the plains for work in the Coffee plantations or elsewhere and who assemble in large numbers at the weekly fair at Yercaud. For these and for the little native congregation, which numbers above 60 souls, weekly services are regularly held both at Yercaud and on the Green Hills. Divine Service in English is also held by the Missionary for European and East Indian residents on the Green Hills on every Sunday except the last of the month, when it is conducted by the Chaplain at Yercaud;—for their Children a Sunday School has been commenced with some measure of encouragement.

"As this Mission is unconnected with any Society, it is peculiarly thrown upon the prayers and liberality of the people of God in this land."

The Indian Mission of the Basel Evangelical Missionary Society.

On the 31st of October 1834, the first Missionaries sent by the Basel Society to India, landed at Mangalore, to establish a Mission in Canara. In 1837, a second province, the Southern Mahratta country was occupied by the commencement of a Mission at Dharwar.

In 1839, the work was extended to the province of Malabar, where a station was established at Tellicherry. In 1846, the Nilagaris were taken up, and in 1853 a footing was gained in Coorg.

The number of stations scattered over these five districts, amounts at present to fourteen. Three are situated in Canara, viz., Mangalore, Mulky and Oodupy. In Malabar there are likewise five stations, viz., Cannanore, Tellicherry, Chombala (to the south of Mahi,) Calicut and Palghat. The Nilagaris and Coorg count each for one station.

Forty-five Missionaries, ten of whom are laymen, are employed on the different stations of this Mission exclusive of nine who are recruiting their health at home. They are assisted by 55 Catechists and Christian Schoolmasters, and 6 Schoolmistresses.

At the beginning of 1862, Canara had 1,226 converts and catechumen, and Coorg, the Southern Mahratta Country 250, Malabar 1,474, the Nilagaris 47 in connexion with this Mission. Total 2,997. Of these 1,420 were communicants.

The various School-establishments were attended by 2,591 pupils. Of these 620 belonged to Canara and Coorg, 689 to the Southern Mahratta country, 1,162 to Malabar and 120 to the Nilagaris.

D. 1688, and in the fourth year of the Reign of King James the 2nd. The present Church was built by the Armenian Community at their own expense, in the year 1712, alterations and additions made to it by them from time to time. In the year 1833, the British Government was pleased to grant the sum of Rupees (5,000) five thousand from the late Lottery Fund for the repairs of the Church, out of which fund, the community was enabled to erect a substantial and extensive Verandah 113 feet in length, by 10 in breadth, on the East side of it. Government was further pleased to grant a donation of Rupees (2,000) two thousand from Dr. Woolley's Estate to the Church, in the year 1839.

The benefits of instruction have been since thrown open, to the community at large. The Medical College has been recognized by the Royal Colleges of Surgeons of England, Dublin and Edinburgh, as one of the Colonial Schools of Medicine and Surgery. It is under the supervision of the Director of Public Instruction.

The course of education consists of Anatomy, Botany, Chemistry and Pharmacy, Physiology, Materia Medica, Surgery and Practice of Medicine, Midwifery and Diseases of Women and Children, Diseases of the Eye, and Medical Jurisprudence with Clinical instruction in Medicine, Surgery, &c.

A building has been appropriated solely to the objects of the Institution, the foundation of which was laid in December 1836.

There exists a separate building for conducting Practical Anatomy ; there is also a Laboratory, where practical Chemistry is taught.

A Museum has been formed, which, in addition to morbid specimens, possesses numerous preparations, models and specimens for illustrating the different branches of the course of instruction.

The Institution is supplied from time to time with a selection of works on the several branches of study, for the purpose of forming a Library of reference.

The course of instruction extends from 1st August to 31st March inclusive, and the Annual Examination of the College is held in April.

1. Stipendiary and private students, and Lane Scholars, who form the *Senior Department* of the College, and whose period of study extends to 5 years.

2. Military students, divided into 3 classes, who study for 3 years, and qualify as Assistant Apothecaries. These form the *Second Department.*

3. Government students, forming the *Junior Department* of the College ; these are divided into 3 classes, the *Junior* of which forms the *English Class.* Their period of professional study extends to 2 years ; they are designed to become Hospital Assistants in Government employ.

Under the Superintendence of the Principal, Medical College.

TEACHERS.—Messrs. J. J. Wood, R. Wilkins, R. Harvey, Assistant Apothecaries.

The School opens at 10 A. M. and closes at 2 P. M., daily, except on Saturdays and Sundays.

THE PRIMARY MEDICAL SCHOOL was opened on the 1st November 1857, with the main object of providing for the Subordinate branch of the Medical Service, a sufficient number of well educated Native lads. The majority of the Native pupils who attended the oral lectures delivered at the Medical College, having been found unable, from an imperfect acquaintance with the English language, to profit, to any creditable extent thereby recourse has been had to the Tutorial system, as a preliminary in qualifying the Native mind to appreciate and take in the instruction conveyed by lectures.

* The College is affiliated to the University, but the Curriculum has not yet been adapted to the requirements of the University of Madras.

The Native pupils who attend the Primary Medical School, are divided into three classes, two of which receive instruction on Professional subjects, and the third class is taught the rudiments of English. The period of instruction is limited to three years. The professional subjects taught are—Elements of Materia Medica, Anatomy and Physiology; Outlines of Pathology, Surgery and Vaccination; Practical instruction in miscellaneous Hospital duties.

Instruction in English consists of Grammar, writing to Dictation, the Elements of Geography and Arithmetic.

It has in view, moreover, to bring those placed in it under such moral and religious influence and training, as may, by God's blessing, at the same time that their minds are disciplined and their understandings informed, also affect their hearts, have a salutary effect upon their feelings and disposition, and inculcate right and gentlemanly habits.

The object of this Institution is to afford a thoroughly liberal and Christian education. The generous bequest of the late Captain Doveton, united with the funds formerly collected for a Protestant College, has enabled the Committee to make arrangements for the efficient carrying out of the object they profess.

It is intended ultimately to unite a complete collegiate course of instruction to the schools already in operation ; but at present it is thought advisable to confine the efforts of the officers of the Institution to the schools alone. In the Primary School, the instruction is elementary : in the High School, it is the attempt of the Masters to give a thorough clasical and mathematical education equal in every respect to that given in the public schools in England.

The number of scholars at present on the roll of the Institution is 124, of whom three are students in the College, 59 are pupils in the High School, and 62 in the Primary School.

The following gentlemen are the educational officers of the Institution :—

THE MILITARY MALE ORPHAN ASYLUM.

EGMORE.

Instituted A. D. 1788.

This important institution was founded as far back as A. D. 1788. It was established for the relief of Orphans belonging to the Military classes, in pursuance of a recommendation of the Honorable East India Company's Directors, dated March 14th, 1786, addressed to Sir A. Campbell, Governor of Madras. The Chaplains of the Fort Church, the Revs. R. Leslie and Dr. A. Bell, with their Church-wardens, were authorized at once to act in the matter. Having the promise of assistance from Government, and encouraged by the subscriptions which flowed in, they obtained the grant of the old Egmore Redoubt, and its adjacent buildings, and were before long gladdened by seeing a school of 70 boys in active operation. Dr. A. Bell, famous as the originator of the "Madras System of Education," was the first Superintendent, and carefully watched over its earliest years, till he returned to Europe in 1796. The Rev. R. Kerr succeeded Dr. Bell, and from that time till 1855 the appointment of Superintendent was generally filled by one of the Government Chaplains ; whilst a Staff of competent Masters carried on the education of the boys. This Institution has been of immense advantage to the Madras Presidency, as may easily be supposed. Nearly 3,400 youths have passed through its training since 1788 ; of whom many have risen to positions of wealth and influence ; some as tradesman and merchants, others as Missionaries of the Church of England to the heathen, others again in the Uncovenanted Civil Service and Medical Department. John Doveton, the founder of Doveton College was indebted to its fostering care in early life, having been one of its inmates from 1808 to 1816. The number of pupils on the rolls has varied at different times ; within the last twelve months it has been from 250 to 273. Children who have lost either one or both parents have the first claim upon its bounty ; but, in addition, a limited number whose parents are either invalided or pensioned from the Military or Medical Services are received, and also a few boarders from whom payment is demanded according to a fixed scale.

THE MILITARY FEMALE ORPHAN ASYLUM.

POONAMALLEE ROAD.

Instituted A. D. 1786.

This Institution was founded in the year 1786, under the auspices of Lady Campbell, and the Rev. C. Guericke. Liberal donations were received from the public, and considerable assistance is granted annually by Government. At one time as many as 350 girls were supported in the Institution, but partly from a decrease in the funds, and partly from an increase in expenditure on the comfort and education of the Children, it has been found necessary to limit the number of inmates to 220. The girls receive a plain useful education. They are taught every description of household work, washing, and needlework, and the care of the sick; and the most promising are trained as teachers to supply the classes in the Institution, and to provide for the wants of army and other schools. The girls are expected to take such situations as are selected for them. The control of the Asylum is entrusted to a board of Lady Directresses, and the finances are regulated by a board of Governors. The number of children who have passed through the school since its commencement is 2,600. The Orphans of European soldiers have the first claim on the charity. A limited number of children whose parents are alive are received as boarders, on a small monthly payment.

Central School, Popham's Broadway, opposite Church Mission Chapel.

Miss Jessy Hogg, Superintendent.

Average number of girls 110.

This association has now for thirty years carried on with varied success, its efforts to provide an elementary Vernacular education, upon a Christian basis, to the Female children of poorer Native inhabitants of Madras. From 1822, the time of its foundation and when some fifteen or sixteen village schools were maintained by it, to 1856, when, through many changes, its operations were confined to the maintenance of a larger and more efficient school in Popham's Broadway, (known generally as the Central School,) evidences have not been wanting of useful results. A general testimony has been borne by the parents of the girls brought under the influence of this Society's schools, to the improvement effected in their character and habits: and not a few have given evidence of yet a higher influence for good upon them, by the open embracement of Christianity, followed, in the great majority of cases, by a life of consistent probity and piety.

WESLEYAN ANGLO-VERNACULAR INSTITUTION, ROYAPETTAH.

This Institution was founded in 1850, with the object of giving a superior Christian Education to Hindus of all castes. For upwards of ten years it has been managed by a European Missionary, who has devoted the greater part of each day to its interests. The Bible is taught an hour daily in all the classes that can read it, and the elementary truths of Christianity are conveyed, through the medium of the Vernacular languages, to the minds of the younger pupils. The standard of secular instruction is equal to the requirements of the B. A. degree of the Madras University. Ten of the students have already matriculated from this Institution, and several others are preparing for the higher examinations. A new building, of which a sketch appears in this Almanac, is now almost finished, at a cost of Rs. 20,000.

Wesleyan Girls' Boarding School.

This School is about as old as the above one. It is under the Superintendence of the European Missionaries, and under the immediate management of a European Lady, set apart to this work. It contains fifty Boarders, who are fed, clothed, and educated at the expense of the Mission, with the aid of local contributions. The Girls are nearly all taught English as a language, but their lessons are mostly given in Tamil; special attention is paid to needle-work, and to instruction in the duties of domestic life. The school receives a Government grant of Rs. 300 per annum.

The objects contemplated in the Establishment of the Institution were two-fold. 1st. To do honor to the memory of a great and good man—the late Sir H. M. Lawrence. 2ndly. "To benefit the children of the European Soldiery, by providing for them a refuge from the debilitating effects of a tropical climate, and demoralizing influence of a Barrack life."

In consequence of the liberal assistance furnished by the Madras Government, 150 Boys have been elected to the Male branch, and every effort is being made to secure accommodation for about half the number of Girls. It is not the intention of Government to do more than furnish a Grant-in-aid to these Institutions, and hence if they are to increase in size, and open their doors for the admission of a considerably larger number of children, the Army, and a benevolent public in general, must come forward to furnish the means.

The children enjoy excellent health; and the climate seems to be especially suited to the constitution of such as are of Eurasian origin; their robust make, and tinged cheeks giving them a vigorous appearance which they never attain to in the low country.

The boys receive such a training as will fit them for usefulness hereafter in various lines of life; whilst the Girls (of whom there are upwards of 30) are employed in such occupations as will tend to qualify them to become useful wives and mothers.

The Bank of Madras, Treasurers.

This Society which has been established nearly a quarter of a century, owes its existence in great part to the exertions of Dr. Wight, formerly a Surgeon in the Madras Army, and whose valuable contributions to Botanical Science have gained for him a widely spread and well-earned celebrity.

The Company's gardens are situated opposite to the chief entrance to the Cathedral; and an additional piece of ground on the east of the Cathedral was purchased in the year 1856-57. This is at present chiefly employed as a nursery for young plants and for experiments in Agriculture and Horticulture.

The Botanical Garden occupies a space of about 24 acres, which were originally granted by the local Government. It is laid out in a highly ornamental manner, and is much resorted to as a fashionable promenade. It is open at all times to the public and forms a healthful place of recreation for the inhabitants of Madras. During the past year, considerable alterations have been effected in it, whereby its general appearance and condition have been much improved. Additional walks have been made, allowing free access to every part of it—the hedges have been thinned and trimmed: by this the apparent size of the garden has been much increased; and the removal of low brushwood, and some of the unnecessary timber of low spreading trees, has tended to promote the free circulation of air. A large artificial tank has also been made for the exhibition of water flowers. The old nursery and rubbish-yard have been converted into a beautiful flower garden, and fountains and ornamental cisterns are now in course of construction which will add greatly to the beauty and attraction of these gardens.

In this garden may be seen, such plants, of almost every country, as seem worthy of cultivation, as affording ornamental flowers or being of economic value. Among those introduced during the past year, are the vanilla plants and some handsome flowering shrubs, several varieties of English garden flowers, &c. &c.; among the more useful ones, recently introduced, we may mention the Manilla hemp, the Sorghum, the Ife plant, nine species of grape vine, and West India Ginger, as of especial importance.

A nursery, for seedlings and cuttings of useful and ornamental trees, is being raised to meet the requirements of the Members who are supplied from it gratis. European vegetable and flower seeds are also similarly distributed; but all these advantages are open to the general public on payment.

The general affairs of the Society are managed by the Committee who meet once in each month, and who compile annually, in the month of July, a report of the year's proceedings which is submitted to a general meeting of the Subscribers at large. Publicity is also given to the proceedings of each meeting of the Committee, in the Newspapers; and these records, during the past year, will be found, upon examination, to afford much useful information, upon several important points connected with Agriculture and Horticulture. These papers may also be found in a collected form in the Madras Journal of Literature and Science.

Persons of all nations are eligible as Members of the Society, and have a voice in the annual election of the Committee and Office-bearers.

The rate of subscription is 7 Rupees a quarter, no entrance fee being demanded, and the subscription being allowed to lapse, temporarily, should a Member be absent from Madras more than three months.

Up-country Subscribers are entitled to all those advantages, of Members, which it is possible to place at their disposal.

Seats are arranged for the accommodation of visitors; this being also done morning and evening on each day.

The Society varies in the number of its Members, but now consists of about 100 present Members, 16 absent, 6 honorary, and 2 extraordinary Members.

An annual show is purposed to be held about the beginning of February 1864, when a large number of prizes will be awarded for ornamental flowers of various kinds, fruits, vegetables and several articles of importance in connection with Botanical science.

Lists of the prizes to be then distributed, and all information may be obtained on application from the Honorary Secretary by whom lists of Members, rules of the Society will be supplied gratis to any one anxious to peruse them.

SCHOOL OF INDUSTRIAL ARTS.

This School was established by Dr. A. Hunter on the 1st May 1850, and was supported till March 1855, partly by fees from pupils, by payments for drawing, engraving and work turned out in the school aided by small contributions from the public, and the proceeds of the worthy Doctor's private practice, while Medical Officer in the 1st District.

In March 1855, the school was taken up by Government, and an Assistant, Mr Archibald Cole, was sent from the Government School of Design in London.

The branches of instruction are drawing, wood and copper-plate engraving, modelling, casting in plaster of Paris, and the manufacture of building materials and pottery.

The number of pupils who have been under instruction in the different departments, has been upwards of 2,586, and of these a great number have obtained remunerative employ.

A trifling fee is charged for the artistic instructions. The pupils in the industrial department are paid for their labor.

MADRAS SCREW PILE PIER.

This important work has been completed by Mr. Frederick Johnson, Civil Engineer, of North Street, Westminster, London, pursuant to the terms of a Contract entered into between the Council of India, and himself, under date the 9th of November 1858.

The dimensions of the structure are as follows :—

Extreme length, from high water mark, 1,000 feet.

Breadth throughout, 40 feet. Beside its main body, the Pier has a cross or T shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's Patent Screw Piles, of solid wrought Iron, respectively 6 inches, and 8 inches in diamater, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These piles are screwed down into the sand, to the depths undermentioned, that is to say—the first 25 rows, 11 feet ; the second 25 rows 13 feet, and all the remainder 15 feet.

The whole structure is securely tied together by transverse T braces of of wrought Iron, and by longitudinal tension rods of the same material.

Round the Pier Head, and at a distance within it of 200 feet on each side of the main structure, the Iron Piles are protected by fender Piles of timber placed at short intervals, and secured to the Iron Screw Piles by strong wrought Iron bands. The timber used in the work, is principally well creosoted Baltic timber, but the planking of the platform is of teak wood ; a space of one inch being allowed between the several planks, which measure six inches by four. The level of the platform is 15 feet above high water mark throughout.

Four lines of railway are laid down along the main Pier, with the necessary Turn-tables, &c., and the rest of the space available fitted up for the service of foot passengers.

The Pier Head is furnished with six fixed cranes, varying in their lifting power from 3 to 10 tons, and 8 moveable cranes of 30 hundred weight each are placed on the Railways, traversing from point to point as necessity arises.

It is proposed to dispense with the Screw Moorings provided for in the Contract, and in lieu of them to put down Bridle Moorings with one arm Anchors.

The total cost of the works, as agreed on in Mr. Johnson's original Contract, was £103,616, but a second Contract was subsequently entered into for the extension of the structure shoreward a length of 80 feet, at an extra charge of £4,332.

The following Order by Government, dated 29th November 1861, bearing on the above subject has been issued :—

1. The Governor in Council considers the establishment proposed to be somewhat in excess of present requirements.

2. The two Boatswains will be needed, and are sanctioned.

3. One Duffadar and six Peons are ample to preserve order and protect property on the Pier.

4. The proposed rate of the toll and the arrangements for levying it are sanctioned experimentally from the 1st January next.

This Institution was established in the year 1808, for the purpose of affording to old, infirm and diseased Natives, assistance in food, clothing, and lodging and medical attendance. Since that period it has entertained nearly 300 persons daily; and during the famines which devastated the country in 1824 and 1833, it was the means of saving vast numbers from starvation and death. Throughout the famine of the latter year no less than 30,000 individuals were on an average maintained every day. Wretchedness under every variety of form is here admitted; and the bare existence of wretchedness alone is sufficient to obtain immediate relief.

Mr. J. M. Wilson, *Secretary and Treasurer.*

This useful Institution consists of two branches, a Widows' Branch, and a Children's Branch, and its benefits are available by every class of the Christian community of this Country.

The object of this Fund is to afford relief to the Widows and Orphans of persons not in the Covenanted service of Government, and others, who have no similar institution to look to for making a provision for their families. It consists of two branches, namely, a Widows' branch and a Children's branch. The benefits of the former are secured by the payment of a donation (equal to two years' subscription as entrance money,) and a monthly subscription for which the Widow will enjoy a pension, equal to six times the rate of subscription subject to the provisions of Rules 5 and 6 which follow. In the Children's branch, a monthly subscription on account of each child and a donation equal to twelve months' subscription will secure a pension equal to four times the amount of that subscription until the age of 18 to boys and 21 to girls. This has been increased at the Annual Meeting of the 4th February 1862, by 50 per cent. To all Orphans who may lose both parents from that date, and extending the pension to boys to 21 years, and to girls until marriage on payment of an additional premium for that purpose.

The capital of the Fund amounts to Rupees 8,36,100.

The following are its principal rules affording all needful information regarding its constitution and plan of operation, namely :—

1. That Christians not exceeding the age of 55 years, shall be eligible for admission as subscribers.

2. That all applications for admission into the Fund, shall be accompanied by a medical certificate and declaration of health, according to form.

3. That Subscribers to this Branch shall pay a donation as entrance money equal to twenty-four months' subscription of their class in four years, and a monthly Subscription at the rate affixed to that class.

4. That Subscribers to this branch shall be divided into six classes, and pay a monthly subscription at the following rates :—

First Class	10	Rupees	per mensem.
Second do	7	do.	do.
Third do	5	do.	do.
Fourth do	3	do.	do.
Fifth do	2	do.	do.
Sixth do	1	do.	do.

Subscribers omitting to pay their Subscriptions or fall in arrears in the payment of the instalments on account of their donation for six consecutive months shall cease to be members of the Fund, and no refund of past payments shall be made in such cases.

5. That Widows shall not receive any pension from the Fund, unless it has actually received on their account as follows, additional to all other special payments required by regulations :—

First Class	600	Rupees.
Second do	420	do.
Third do	300	do.
Fourth do	180	do.
Fifth do	120	do.
Sixth do	60	do.

and in the event of the death of subscribers before completing the above sums, according to their respective classes, all payments made by them shall be forfeited to the Fund.

6. That Widows shall not receive their full amount of pension unless the Fund has received on their account as follows :—

First Class	2,000	Rupees.
Second do	1,400	do.
Third do	1,000	do.
Fourth do	600	do.
Fifth do	400	do.
Sixth do	200	do.

and in the event of Subscribers dying previously to their paying the full amount, according to the classes to which they may belong, their Widows shall, notwithstanding under the foregoing Rule be admitted to the benefits of the Fund, but a deduction from the Widow's monthly pension of one-sixth of the amount shall be made until the full sum of the class is completed as above.

7. That for each child, a subscription at the option of the Subscribers shall be paid to the Fund at any of the following rates, namely 4, 8, or 12 Annas, or from 1 to 10 Rupees per month, and a donation equal to 12 months' subscription.

8. That for the above payment, every child shall be entitled to a pension, equal to four times the rate of subscription received on his or her account, and in cases where it shall have lost both parents, the pension to be increased 50 per cent.

9. That the above pension shall be continued to the boys, till they are 18 years of age, and to the girls, till they are 21 years of age. The pension to cease in the event of their marriage within the above specified age.

10. That Subscribers shall be at liberty to secure for their daughters, provided these are not older than 15 years, an extension of their pensions till marriage, or for life on payment of a regulated premium for that purpose, no applications for daughters after they have completed the age of 21 years will be entertained.

11. That six months' subscription on account of each child shall be paid into the Fund before the full benefit of this branch is enjoyed. In the event of lapse before payment of the above subscription is completed, the difference shall be deducted from the Children's pension.

12. That all persons in Military, Medical, and Marine employ, shall pay a premium equal to 50 per cent. of the donation of the class they may enter, additional to all other payments required by the regulations.

A Gratuity Branch has lately been added to the Fund for granting donations not exceeding 1,000 Rupees to widows, within one month after the decease of their husbands, but this branch will not come into operation until 50 Subscribers shall have joined, and in case of death in the mean time, all sums paid by the husband will be returned to the Widow.

N. B.—All particulars in respect of the Fund can be obtained on application to Mr. J. M. Wilson, the Secretary, at the Office, No. 28, Second Line Beach, Madras.

SOUTH MADRAS NATIVE LITERARY SOCIETY.

A Society has just been formed, under the above designation. It is intended specially for educated Natives, and to this class its Members will chiefly belong; but Europeans and East Indians will not be excluded. Its Reading-room, and Lecture-hall will be in the new premises of the Anglo-Vernacular Institution, Royapettah, but all Natives whose attainments in English are sufficiently advanced, are invited to an equal share in the privileges of the Society, with the Teachers and Students of the Royapettah Institution. It has been resolved,

I. To establish, at once, a standard library, to consist of

1.—Books of reference, in Theology, Literature, Law, and Science (Mathematical and Physical), including the last edition of the Encyclopædia Britannica.

2.—Critical editions of our English Classics.

3.—The best works on the Hindu Religion, Literature, Philosophy, &c.; viz., those of Wilson, Colebrooke, Max Muller, &c.

4.—A careful assortment of Travels, Biography, and light reading, of the best kind.

N. B.—As it may be thought that the above scheme is too comprehensive to be practicable, it may be well to state that a considerable number of important Works on the above subjects are *now ready to be put into the library*, whilst several others have been promised as gifts, and also that the life-memberships referred to at Rule 10, have nearly all been taken up.

II. To establish a Circulating Library of periodicals &c., to be sent in rotation to the houses of the first class Members. The following periodicals and newspapers have been *already ordered*, and will be ready for circulation early in the first quarter of 1864, viz. *Evening Mail, Illustrated London News, Chambers' Edinburgh Journal, Punch Notes and Queries, Frazer's Magazine, Blackwood's Magazine, The Quarterly, The Edinburgh Review.* In addition to these, *the London Athenæum, the Cornhill Magazine*, and the *London Quarterly* will be lent. It is expected that the *Friend of India*, and the principal local papers will be placed on the table of the reading-room.

III. To arrange, as soon as possible, a course of monthly lectures, for which the spacious Hall, and valuable scientific apparatus of the Institution will afford peculiar facilities.

IV. To establish fortnightly discussion classes, under the control of the European Missionaries.

In conclusion, it is to be observed, that the above Society is not a mere *project*, it is now a *fact*; and it is believed that the possession of a library, and the advantage of European influence and direction will afford every guarantee of *permanence*. Any person wishing to enjoy the use of the periodicals from the 1st January 1864, will be good enough to communicate, *at once*, with the President or one of the Secretaries, who will also be happy to afford any further information that may be required.

ROYAPETTAH, *8th December* 1863. A. BURGESS, *President.*

EMIGRATION DEPOT.

Mr. H. Barton.....Colonial Emigration Agent.
Mr. J. Leal..... .....Manager and Interpreter, Mauritius Agency.
Mr. G. Brown.....Apothecary and Superintendent of Mauritius Depot.

NEILGHERRY PUBLIC LIBRARY.

The Members of H. M.'s Services, and the Public generally, are invited to contribute towards a Public Library and Reading Room which has been established at Ootacamund, on the Neilgherry Hills.

The Managing Committee have no doubt that an Institution so greatly needed will be well supported by Residents and Visitors: but the providing of a suitable building and of a stock of standard works, &c., involves an expense which it is not reasonable to expect should be entirely borne by those who now are, or at any one time may be, residing on the Hills.

It is not merely for their own benefit, or that of the present residents on the Neilgherries, that the projectors of the Institution have set it on foot—few of these can ever hope to enjoy its full advantages: their object is to supply an essential requisite at this most important Sanatarium. For what is unquestionably a *public* undertaking, the Managing Committee ask for *public* aid. Contributions, in money or books, will be received on account of the Library, by

J. Hall, Esq., *Treasurer*, Ootacamund.

II. Applications for land under these rules shall be addressed to the Collector of the District in which the lands are situated and shall comprise the following particulars :—

(*a*) The estimated area of the land applied for.

(*b*) The situation of the land and its boundaries as accurately as can be stated.

III. No lot shall exceed 500 Acres unless otherwise specially ordered by Government. Within Towns, Villages, Hill stations, Railway stations, and Sanitaria the maximum extent of a lot shall be 10 Acres. But any person may apply for several contiguous lots, each not exceeding the above limits.

IV. Every lot shall be compact and shall include no more than one tract of land capable of being surrounded by a ring fence, and when the land touches a public road, navigable River, Canal, Backwater, Railway or Tramway, the length of the road or water frontage shall not exceed one-half of the depth of the lot.

V. No lot shall be sold until it has been surveyed and durable boundary marks have been erected.

VI. If on receipt of an application under Rule II the Collector has reason to believe that the land applied for is saleable under these Rules, he shall call upon the applicant to deposit with him the estimated cost of surveying the land and of marking it out with durable boundary marks, unless the land is already surveyed and demarcated. The Collector will refund to the depositor any portion of his deposit which may not be actually expended in the survey and demarcation, and the depositor shall pay any deficiency.

VII. If the applicant fails to deposit the sum required under Rule VI within six weeks from the date of demand, his application shall be null and void.

VIII. On receipt of the deposit required under Rule VI, the Collector shall as soon as possible cause the land applied for to be surveyed and marked out, and shall exclude from the lot all excess which may be found on survey beyond the limits prescribed in Rule III, and shall advertise the lot for sale on a given day (to be fixed so as to admit of the notice required in Rule IX being given) at the minimum price prescribed for the locality or for the peculiar descriptions of land selected, as the case may be, together with the actual cost of survey and demarcation.

IX. The advertisement shall be in English and in the Vernacular of the District, and shall specify the locality, extent and boundaries of the lot, the upset price, and the place, time, and conditions of sale. It shall be posted for three clear months on the land itself as well as in the neighbouring villages, in the Offices of the Collector and the Tahsildar of the Talook, the Moonsiff's Court (if there be one) and the nearest Police Office. X. The Collector shall send written notice of the place and time of sale, as also of any alteration under the provisions of Rule IX, to the applicant; but no sale shall be disturbed in consequence of the non-receipt of such notice or delayed in consequence of the non-appearance of the applicant.

XI. An applicant withdrawing his application prior to the sale of the land will be entitled to the refund of so much only of his deposit under Rule VI as may not be expended. If after survey at the request of an applicant, it should prove that the lands are not saleable under these Rules, the applicant must still pay the expense of surveying them, as well as of surveying any excess beyond the limits prescribed in Rule III.

XII. On the withdrawal of an application, it shall be discretional with the Collector to proceed with the sale of the land or not, as he considers best for the public interests.

In the latter case the land will remain hypothecated to Government as security for the punctual discharge of the unpaid principal and interest as they fall due, and on default of any such payment the Government may re-enter, and re-possess themselves of the land or, at their option, the land may be re-sold at the expense and risk of the defaulter. When the purchaser elects to pay the purchase money by instalments, he shall not receive possession until he has duly executed the Deed marked B annexed to these Rules. When the conditions of Deed B have been duly fulfilled, a deed in the form A will be issued in lieu of it.

XVI. The sale shall be conducted under and subject to the following conditions of sale.

A Register of such reserves will be maintained in the Collector's Office, and will be open to inspection by intending applicants at such times and under such Rules as the Collector may prescribe by Notification in the District Gazette.

XIX. Lands sold under these Rules shall be for ever free from all demand on the part of the State on account of Land Revenue, but shall nevertheless continue subject to all general taxes and local rates payable by law or custom.

XX. The existing and customary rights of Government, of other proprietors and of the public in existing roads and paths and in streams running through or bounding lands sold under these Rules are reserved and in no way affected by the sale of such lands under these Rules.

XXI. Nothing contained in these Rules shall be held to debar the Government from granting unassessed waste lands on Puttah, Cowle or otherwise at their discretion as heretofore.

XXII. It shall be competent to the Government to except the whole or any part of any District from the operation of these Rules.

Provisions for such claims if preferred within time.

If within three years after any lands have been delivered by the Government to the purchaser, or otherwise dealt with, any claimant or objector shall prefer a claim to the land so delivered or otherwise dealt with, or an objection to such sale, or to compensation or damages in respect thereof, in the Court constituted under this Act for the District in which the land is situate, and shall show good and sufficient reason for not having preferred his claim or objection to the Collector or other Officer as aforesaid within the period limited under Section I of this Act, such Court shall file the claim or objection, making the claimant or objector plaintiff, and the Collector of the District or other Officer as afore-

The report of the Officer employed to give delivery, or to take possession on the part of Government, of the land sold or otherwise dealt with, shall be conclusive evidence as to the date on which such delivery was made, or possession was taken.

If claim established, possession not to be given, but compensation.

XIX. In any case in which the land has been sold, if the Court shall be of opinion that the claim of the claimant is established, the Court shall not award the claimant possession of the land in dispute, but shall order him to receive from the Government Treasury, by way of compensation, a sum equal to the price at which the land was sold, in addition to the costs of suit.

When land has not been absolutely sold, or has been otherwise dealt with.

XX. If the land shall have been sold subject to any condition or reservation, or shall not have been sold, but shall have been otherwise dealt with on account of the Government, and the Court shall be of opinion that the claim to such land, or the objection of an objector is established, the Court shall award the claimant or objector to receive such sum in respect of his interest in such land as shall be awarded in that behalf under the provisions of Act VI of 1857 (*for the acquisition of lands for public purposes*), and thereupon the Local Government shall proceed under the said Act to obtain an award of the value of such interest.

Award under the two last Sections to be in full satisfaction.

XXI. Government not barred from awarding compensation for land absolutely sold, though claim be not preferred in time.

XXII. Nothing in this Act shall be held to prevent the Local Government from awarding to any claimant of waste land sold on account of Government, on proof to the satisfaction of the Local Government, of the claim of such claimant (notwithstanding that he may not have preferred his claim either to the Collector or other Officer as aforesaid, or to the proper Court constituted under this Act within the period prescribed by this Act), such amount of compensation for the said land, within the limit as to amount mentioned in Section XIX of this Act, if the land have been sold not subject to any condition or reservation, as to such Local Government may seem proper.

I. Proprietors of lands occupied for dwelling Houses or Factories, of Coffee lands in the Wynad, of lands on the Neilgherries and the Puluy, or Shevaroy Hills, and of lands occupied or intended for Gardens or Plantations properly so called, such lands being subject to assessment, quit-rent, or other public Land tax, if desirous of redeeming such assessment, &c., must apply by letter to the Collector of the District in which the lands are situated. This rule is applicable to the kinds of land above designated, situated in Zemindaries, as well as to lands in Government Talooks; but does not necessarily include lands classed as Baghayet or Totacal. Applications relating to these last kinds of land must be referred by the Collector, with full particulars, for the decision of the Board of Revenue.

II. In Estates held under the Regulations of 1802, the registered Zemindar shall alone be held to have the right to redeem the Land Revenue under these Rules, a corresponding reduction being made in the annual Peshkush. In the case of Ryotwary lands, the registered proprietor holding directly from Government shall alone have the right to redeem.

In other cases the person entitled to pay the assessment shall be held, as a general rule, to possess the right, but all doubtful cases shall be referred to the Board of Revenue for decision.

III. Inam lands and lands purchased under the Rules dated respectively 6th, 7th and 9th March 1863, Nos. 478A, 482A, and 488A, for the sale of waste lands on the Neilgherries, on the Shevaroy Hills, and in the Wynad Talook of Malabar, will be dealt with according to the deeds under which they are held, and will not be affected by these Rules. Grama Nattam land is also excluded from their operation.

IV. Grants of unassessed waste land already made for terms of years under previous rules, and in which no right of occupancy or proprietorship exists except that of the grantees, or such as has been derived from them, may, at the option of the grantees or of their representatives, be brought within the operation of these Rules, and the grantees or their representatives may, at their option, redeem the future Land tax on such grants, or on any compact part of them.

V. The redemption of the assessment on lands held in shares, on Cowles or on leases, and generally, of lands held on peculiar tenures, shall not be allowed without the sanction of the Board of Revenue.

VI. The rate of redemption shall be twenty-five times the *full* annual assessment on the land in addition to the actual cost of survey and durable demarcation, except where the Government title on which the land may be already held shall contain an express provision for redemption at a lower rate.

VII. The assessment on which the redemption shall be calculated, shall, in the case of lands settled under Regulation XXV of 1802, be the permanent assessment. In the case of other lands, it shall be the survey or recognized standard assessment. Where lands are held in perpetuity at specified rates, such rates shall form the basis of the calculation.

VIII. The redemption of the Land Revenue under these rules shall in no way affect sub-tenures, right of occupancy, or other subordinate rights whatever.

IX. Lands of which the assessment is redeemed under these rules, shall continue liable to General, Local, and Municipal taxes, in common with other lands.

X. It is to be understood that the freedom of tenure conferred by redemption is absolute only as against Government. It will be given on *prima facie* evidence

of the right of the applicant to be recognized as proprietor, and other persons contesting that right, and claiming the land will be as free as before to sue the holder in the Civil Courts.

XI. Applications to redeem the assessment under these rules must state the situation of the lands, their extent so far as known, their assessment, and the applicant's title to be recognized as their proprietor.

XII. Immediately on receipt of an application for permission to redeem the assessment, the Collector, if he admits the application, shall cause durable boundary pillars or marks to be erected, clearly defining the limits of the land, and shall have it surveyed, and a plan of it prepared as soon as possible.

The boundary pillars are to be erected and maintained at the expense of the applicant, who shall also bear the cost of the survey and plan of the land.

XIII. When the land concerned has been already scientifically surveyed, and the particulars are on record, its re-survey shall not be necessary. The applicant shall in such cases be charged only with the cost of putting up durable boundary marks, and of preparing a plan of the land.

XIV. In all cases where a Collector refuses to permit an applicant to redeem his assessment, it shall be opened to the applicant to appeal to the Board of Revenue.

XV. On payment of the redemption money in full, with all cost of survey and demarcation, the party permitted to redeem the assessment shall be furnished by the Collector with a Title Deed in the form annexed, marked A.*

It is to be understood that the current demand will continue up to the date on which the redemption money is proffered in full, together with the cost, actual or estimated, of demarcation and survey, or of demarcation only, as the case may be.

XVI. Proprietors of lands of which the asessment is capable of being redeemed under these rules, but who are unable or unwilling to redeem the tax, shall, on application and on payment of the cost of survey and of durable demarcation, be granted titles of permanent settlement under the Seal of Government in the annexed form B.† in lieu of the yearly Puttahs hitherto granted; and tenures on such titles shall be convertible at will into freehold, on payment down of twenty-five times the full annual assessment as above provided.

XVII. The Rules of August and September 1859 will cease to operate from and after the publication of these Rules, except in so far as concerns lands already dealt with under those rules.

WORKS OF PUBLIC UTILITY CONSTRUCTED BY PRIVATE PERSONS OR COMPANIES.

The following Circular from the officiating Secretary to the Government of India, Public Works Department, dated Fort William, 10th July 1863, No. 41, to the Secretary to the Government of Madras, was considered by Government on the 17th instant, and it was ordered that the same should be communicated to Superintending Engineers of Divisions for information and guidance:—

I am directed to request that you will inform the Honorable the Governor in Council that the Honorable the President in Council having had under consideration, in communication with His Excellency the Governor General, the XVth Section of Act No. XXII of 1863, for works of public utility to be constructed by private persons or Companies, which requires that special or general instructions should be given by the Governor General of India in Council as to the conditions under which "Local Governments" shall make agreements with private persons or Companies undertaking works under the Act, is pleased to order the following rules to be issued for guidance:

I. No agreement under Act No. XXII of 1863 shall be finally entered into, without approval of the Government of India, in the following cases:

1st.—Where any opposition is made under Sections XI and XII.

2nd.—Where any pecuniary concession on the part of the Government is proposed, or the gift of land at the cost of the Government intended, involving any direct outlay beyond the ordinary power of sanction of the Local Government.

3rd.—Where any payment at all by the State in the form of an annuity is contemplated.

4th—In the case of any Railway or Tramway.

5th.—In the case of any works for irrigation.

SECTION IV.— Projectors of work to make preliminary application, accompanied by a statement explanatory of the object and nature of the works proposed.

SECTION V.— Power of Local Government to reject applications or call for further information on it.

II. All applications and amended applications, which shall be accepted by a Local Government, under Sections IV and V as a basis for further proceedings, should be specially reported to the Government of India, as early as practicable, for information.

III. On the definitive registry of any work under Sections XVIII to XX, a complete record of the conditions entered into, and all other information necessary to explain the nature of the work as finally approved by the Local Government, should be reported to the Government of India.

SECTIONS XVIII, XIX and XX.
XVIII.—Definitive registry of works.
XIX.—Registry of existing works.
XX.—Appropriation of public land and roads to public works.

IV. When conditions are varied under Section XXI, they should also be reported to the Government of India, and where the original conditions called for the special approval of the Government of India, no change should be made without its assent.

SECTION XXI.—Local Government may, with the consent of the owners of any work, vary conditions of agreement.

V. All Bye-Laws under Section XIV should be specially reported to the Government of India from time to time.

SECTION XIV.—Power of owners to make Bye-Laws and Regulations.

2. I am instructed by the Honorable the President in Council with these orders to append a copy of the Note on the Act drawn out by the Secretary in this Department, which it is thought may be useful as drawing more particular attention to the chief matter dealt with in the Act, and as explaining the general views of the Government of India in relating to the provisions of the Act.

NOTE ON ACT XXII OF 1863, to provide for taking Land for Works of public utility to be constructed by private persons or Companies.

1. A Bill "to provide for the construction by Companies and private persons of Branch Railways, Iron Tramways, common roads, or canals, as feeders to Public Railways," was brought into the Legislative Council of India on 29th June 1861, and was read a second time on the 13th July 1861. The Bill was referred to a Select Committee, but no report was made on it, and the changes since introduced into the constitution of the Legislative Council led to the Bill being dropped. A Bill, substantially the same as that above referred to, was however introduced into the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations, in February 1862, under the title of a Bill "to promote the construction of lines and communication as feeders to Railways, High Roads, Navigable Rivers and Canals." This Bill in like manner was referred to a Select Committee of the Bengal Council, but this Committee made no Report. About the same time the Honorable Mr. Ritchie obtained leave to introduce a Bill into the Legislative Council of the Governor General, almost identical with that introduced in the Bengal Council. It was intended to have been applicable to the North-West Provinces and the Punjab, but might have been extended by any other Local Government to the territories under it. The Council adjourned, however, before the Bill could be proceeded with. More recently the Bombay Government introduced into its Council a Bill in no way differing from the two Bills just mentioned, and this Bill was advanced several stages, substantially in the shape it first had given to it.

2. The above statement of facts would be in itself sufficient to show that one Bill for all parts of British India was all that was necessary for the general purposes aimed at. There is, moreover, but one form of procedure for taking land for public purposes at the public expense, and experience has shown that the Law on this subject (Act VI of 1857) sufficiently answers all the objects for which it was intended. There can be no local influences that can affect the mode in which projectors of Public Works should submit their proposals to the Government, with a view of obtaining land under compulsory process, and the immediate consequence is, that there can be no good reason for having more than one Law on this subject. Under these circumstances it appeared obvious that one Law should be made applicable to all India.

3. The general propriety of some such Act as this was shown some years ago by the refusal of certain land-holders to allow a branch line of Railway to be made to a colliery through their land. The Government was of opinion that the Act for taking land for public purposes could not be made applicable to such a case, and the necessity for some such power as that proposed to be given in the present Act was forced on the notice of the Government. The Bill first sketched out under the circumstances just mentioned, had reference only to Branch Railways. But it was manifest that other similar works might be required, for which it was expedient to provide. Thus the scope of the Bill was extended first to feeders of Railways, and lastly to feeders of Railways, Roads, Canals or Rivers.

4. The Advocate General has lately stated it to be his opinion that the Act (VI of 1857) for taking land for public purposes, cannot safely be applied to the case of private Companies undertaking works for their own profit.

5. The present Act therefore has been extended still further than any of the Bills before mentioned, and is made applicable to all the descriptions of Public

Works enumerated in the Act, and allows the Governor General in Council to bring any other sort of work or any individual work, within its scope, at any future time.

General scope of the Act.

6. There can in truth be no real ground of fact for excluding from the scope of such an Act as this, any work of character that truly constitutes it a Public Work. The only truly ground for the State interposing to assist the construction of a Public Work is that it will be so far a public benefit as to justify such interposition. Nothing more is necessary and nothing less is sufficient. The legislature will determine in the first place what general classes of works are fairly to be placed in the category of Public Works in this sense, and the Government of India may reasonably be left to extend the list hereafter, should it be found that anything has been omitted. With such precautions there can be no practical risk of any improper use being made of the powers given under the Act.

Preamble.

7. The former Bills were designated as intended "to provide for the construction," or "to promote the construction" of such works as have been spoken of. But this does not fairly explain the real nature of the powers given by the Legislature in these matters in the present Act. It is true that the Government may reasonably promote such works in any way in its power when they appear likely to be profitable, and amongst other things may, under suitable circumstances, provide the requisite land at its own cost. The interposition of the Legislature, however, is of a different character. It is essentially intended to enable projectors of Public Works to do that which in most cases they could not otherwise do, viz., obtain the requisite land for their purposes, and at reasonable rates. The end is distinctly an interference with private rights of property for the public advantage. To justify such interference, then, a sufficient public advantage must be shown to be anticipated. But something more is necessary. If the State, acting in behalf of the public, sets aside private rights, it is entitled, or rather bound, at the same time to take complete security that these private rights are not set aside lightly, and that the alleged advantage shall, so far as practicable, be really assured to the public. Of course the full consideration of the necessity for the interference and the greatest care in seeing that it is not needlessly exaggerated, combined with a complete equitable compensation for the loss inflicted on individuals, are also no less obligatory on the State in such proceedings. The Preamble of this Act has accordingly been framed in this sense, the Act being "to provide for taking land" and "for regulating the construction and use of works on land so taken."

Chief objects of the Act.

8. The principal ends of the Act, therefore, will be to enable the Government to take the land required for works of proved public utility in cases in which the promoters claim assistance for that purpose; to ensure the Government proceeding with all proper caution in determining whether the work be really one of sufficient public utility to justify the application of the compulsory law; to provide for the minimum of interference with private property and the equitable adjustment of all claims for compensation: and to secure to the public the reasonable use of the works when they are completed.

SECTION II.—Classes of Works to which applicable.

9. In reciting the various classes of works to be included within the Act, it has not been thought expedient to add mines, but in any case that may occur in which really necessary surface rights cannot be readily or reasonably obtained by persons engaged in mining, without recourse to compulsory process, the special powers of the Government of India may be invoked. The Government is already under contract with more than one Company engaged in such works, and may have to supply land to them which otherwise it might find difficult or impracticable to obtain.

10. It will be understood that the regularly constituted Local Governments will exercise completely all powers given under the Act. The Chief Commissioners of territories administered by the Governor General in Council will act under such limitations as the Government of India directs.

SECTION III.—Power of Local Governments.

11. The general course of procedure proposed to be enjoined under this Act will be as follows:—The projectors of any work may apply to Government for permission to proceed under the law. If satisfied prima facie that the project is reasonable, the Government, after allowing sufficient time for opponents to appear, will determine whether a provisional title shall be given to the projectors. A reasonable time will be allowed the projectors after this to complete their arrangements by making a deposit as caution money for the prosecution of the work to maturity, and settling with the Government the exact terms on which the works are to be made available to the Public. These matters being disposed of, the work will be definitively registered and the promoters will be entitled to complete their surveys and carry out the work, the Government providing the land, under whatever terms have been agreed upon. The essential point to the projectors will be to obtain the provisional registry. This will be equivalent to having the Preamble of a Bill in England passed before a Committee of the House of Commons. What follows will be matter of discussion and negotiation, in relation to the details, which however important, are still secondary.

General course of procedure.

12. It may be observed that it was essential that this function of determining whether the work is bona fide a Public Work, should devolve on the Executive Government. There is no sufficient means of obtaining any tribunal fitted to dispose finally of such matters in this country, and the responsibility is obviously one that should rest on the Government in the present condition of Society in India.

Decision as to character of the work left to Executive Government.

13. There is a considerable difference between the present arrangements, and those proposed by the former Bills. The old Bills provided for a single process in which the projectors were assured nothing till the whole was completed. They might be put to great expense with no practical result, and would be forced to produce a perfectly mature scheme, before they had any security from the Government that it would be accepted. Under the Act as it now stands, the projectors of a work will be able to give a sufficiently approximate view of the nature of their scheme to enable the Government to judge of its general merits, at a very small expense, and will receive at an early stage of their proceedings a definite statement of the views of the Government, and an opportunity of making arrangements for raising the necessary money after the terms offered by the Government are distinctly known. Considering that India is altogether dependant on England for the capital for these works, this modification of the procedure is quite essential; under the old Bills, it would have been almost impracticable to carry any scheme out, from the impossibility of raising the money before any definite bargain had been made with the Government.

Chief differences from old Bills.

14. On examining the Clauses of the Act more in detail, it will further be seen that though provision is thus made for a progressive advance in the negotiations, there is nothing at all to impede the most speedy completion of the preliminaries, if the projectors were in a position to hasten them.

Procedure not necessarily tedious.

15. The first step is the submission of a preliminary application, explaining the general object of the work and its locality. This will be published for the information of all concerned. Besides the application will be required a Statement, showing generally the first estimate of the cost, and the means by which the projectors propose to provide the necessary funds for the construction and working. This latter Statement is only for the information of the Government, which is responsible for the proper exercise of the power placed in its hands by the law. There seems no sort of necessity for the promoters making public this part of their proposal, unless they desire to do so.

SECTION IV.—Preliminary application of Projectors.

16. The Government must obviously have a power of rejecting an unsatisfactory application, and of calling for additional information. It will of course rest altogether with the promoters to decide to what extent they will comply with any such call, the Government on its side retaining its right to decline action until satisfied on all points that it thinks important.

SECTION V.—Power of Government to reject, or call for further information.

17. To enable the promoters of a project to submit it in a properly complete form, the Government will further be empowered to authorize them to undertake such surveys as may be requisite for the end in view, under such restrictions as to time and place, and so forth, as seem proper. To protect the persons engaged on such surveys, which are undertaken in behalf of what the Government has reason to consider, on prima facie evidence, a work of public utility, the Act declares that the Surveyors are to be considered in the light of public servants while so employed, within the definition and under the sections of the Penal Code. It seems desirable to avoid as far as possible special penal legislation, and the extension of the class of Public Servants in this manner seems unobjectionable in principle and convenient in practice. The work inostensibly to be a Public Work, and the Surveys necessary are virtually made in behalf of the public. No powers of doing any thing beyond simple surveying, which will of course include levelling, or measuring, or the like operations, are given in this part of the Act. A power to revoke any authority given under Section VI is added in Section VIII.

SECTIONS VI and VIII.—Preliminary Survey.

18. As surveys may be authorized in localities where serious damage to crops or other property might easily arise if great care was not taken, a power has been placed in the hands of the Government, of demanding such a deposit of caution money as the circumstances of the case seem to call for, to cover possible claims for damage which the Government would be bound to use every effort to make good, as the survey was undertaken under its authority. It seems impossible to fix any constant sum for such a purpose, and the amount might reasonably be left to the discretion of the Government, which could have no cause for demanding any unreasonable sum. In many cases the caution money need not be claimed at all.

SECTION VII.—Deposit of caution Money to cover damage in Preliminary Survey.

19. The publication of the proposal of the promoters is of course a very important point to ensure all persons likely to be interested in the proposed work either as landholders whose property was likely to be taken or affected, or as adverse Companies, or as interested in any way in the matter in hand. Besides the publication in the Gazette and one or more Newspapers, it seems proper that a translation of the application should be made public in the vernacular language of the Districts where the work was proposed to be undertaken.

SECTION IX.—Publication of project in Newspapers and Gazette.

20. It has been thought to be the best course to leave it to the Civil Executive District Officers to determine what will be the most convenient way of making the substance of the projector's scheme known in the localities likely to be affected by it. The Government may properly be trusted to instruct its Officers to see that this duty is carried out efficiently, and it would only lead to needless complexity to lay down any special system of notification.

SECTION X.—Mode of publication at the locality.

21. When a reasonable time has been permitted to elapse after the publication of the proposed scheme, and four months seem a sufficient period, the Government will proceed to consider any objections that have been made against the proposed work on any ground. As the responsibility for this decision falls on the Government, it seems right to prescribe no particular course of procedure, though the Act empowers the Government to appoint a Commission for the purpose of obtaining the best advice it can before disposing of any proposal. In very many cases there would be no difficulty whatever in coming to a conclusion at once on the general merits of a project, and in the few instances in which further enquiry was necessary, it would be better to leave the Government free to select the course that seemed most likely to lead to a satisfactory conclusion. The Government may at any time call for more information from the projectors, and if they decline to furnish it, their case will be disposed of on the information that has been submitted. And the same course will naturally arise in respect to opponents. If the grounds of their opposition do not seem sufficient, the Government may, without objection, if in any case it seems expedient, inform them that more proof is necessary, and if they fail to furnish it, the question will be settled on the facts actually before the Government. In this way no expense is forced on any one, though the Government, when so disposed, as it might be important matters, has power to undertake an enquiry by means of a Commission.

SECTIONS XI, XIII and XIV.—Government decision on the project how to be come to.

22. It may be remarked that throughout this Act a large discretion has been placed in the hands of the Government, which will represent and protect the public interest in all matters connected with any project under discussion. It is obviously necessary that in these matters the final decision of the essential point whether the work shall be allowed or not, must rest with the Government, which can therefore have no possible motive to throw obstacles in the way of projectors in any minor matters of mere detail or of procedure. If the scheme be in the estimation of the Government a reasonable one, it would receive due encouragement; if unreasonable, they have the power to decline sanction, simply on their own responsibility.

Discretionary power of Government.

23. It has not been thought necessary to fix any particular system for the submission to the Government of any objections that persons may have to make against any project. For the reasons before given, it seems better to leave these details to the Government. If any special procedure were found to be convenient hereafter, it will be better settled by the Government than by the Legislature. It cannot involve any question of principle; and viewing the very various conditions of various parts of even the same Province, that which would be suitable in the one case might altogether fail in another.

Objections how to be made.

24. To ensure as far as possible the protection of the interests of Capitalists coming forward for the construction of Railways, a special Clause has been introduced to guard any previously existing line against a concession being made, without the knowledge of its owners, to a new Company, of any new line that might fairly be held to be a branch or a prolongation of the previously existing line, and to the construction of which

SECTION XII.—Protection of existing interests in case of Railways.

the old Company had an equitable claim. One of the greatest evils of the uncontrolled liberty with which English Railway Companies have been allowed to carry out their lines, is the ruinous competition that so often arises among them in their efforts to obtain possession of the traffic of a District, and the essential cause of the present depressed state of much English Railway Stock is, that many lines have been constructed to do the work that might perfectly well have been performed by one. The condition of the chief French Railways is in striking contrast to this. In a country very much poorer, their profits are very much larger. It is very important that India should guard against the risk of the competing lines as far as is practicable. Several of the projectors who have lately applied to the Government on such subjects have asked for protection against competition. The Government, however, cannot place the interests of the public in such a matter in the hands of the Railway projectors themselves, or powers given to ensure their protection from improper competition would inevitably be made a ground for monopoly prices or neglect of public interests. It is essential that the Government in behalf of the public should retain in its hands the power of admitting competition, when any Company neglected its duties to the public, or was unable from any cause to carry on the traffic of a District so as to meet properly the public convenience. It will obviously always be an important object of the Government to do what is in its power to stimulate the introduction into India of capital for the construction of Railways. Any thing that tends to show that such adventures are profitable will facilitate the ends the Government has in view; and *vice versa*. It will therefore be almost as important to the Government as to the projectors that these works should pay, and the Government will always feel that in giving complete protection to all equitable interests arising out of an already existing work, it is in truth doing that which is in the long run conducive to the prosperity of the community.

25. The course to be followed, in case an opposing Company were held to have established its claim to construct a line of Railway brought forward by any other parties, has purposely not been alluded to in the Act. The procedure prescribed only has relation to the project put forward. In such a case as this, the project would be rejected and the matter would drop. It may however be convenient to allude what would probably occur in the event supposed. In the first place the question would turn on whether the line was really required or not by the public. If not, it would be a simple case of rejection. If, however, it were admitted that the line was required, but that the existing Company had a better claim to construct it than the new Company, then the Government, acting in behalf of the public, might reasonably enquire whether the old existing Company would engage to carry out the lines on terms as favourable for the public as were offered by the new Company; or on terms sufficiently favourable, for the fact of the old Company being in possession of the ground, might make it equitable to admit it, even though its terms were somewhat less good. It must be left to Government to satisfy itself on these points. If the interests of the public appeared, on the whole, better served by leaving the line in the hands of the old Company, with or without conditions, the Government would be in a possession to arrange matters in that way. On the contrary if the old Company could not satisfy the Government that the work might safely be left to them, the Government would assign it to the new Company.

Procedure in case of objections purposely not defined.

26. As the powers put in force under this Act are exercised only in consideration of the proposed work being a work of public utility, the Government in behalf of the public, will, before concluding any final agreement, specify the exact conditions which it will in each case expect to be complied with to give the most complete assurance that the work will be made available as a Public Work in the way contemplated. These conditions will conveniently be made to contain the special advantages, if any, offered

SECTION XV.—Special conditions under which works are authorized.

by the Government to the projectors; either as to the grant of land or as to any pecuniary grant of any sort. On the part of the projectors, they will define the general character and object of the work to be undertaken; the time to be allowed for its construction; the manner in which it is to be made available for the public; the terms on which the Company undertaking the work may fix the charges for the use of it; the arrangements under which the property is to be vested in the Company with reference to the following possible event:—1st, the lapse of the term for which the grant is made: 2nd, the Government desiring to purchase; 3rd, the Company desiring to abandon it; 4th, the occurrence of a breach of contract. There may further be other matters which it may be desirable to specify to prevent subsequent differences. It will be understood that the nature of these conditions will very much depend on the character and circumstances of each work, and that they will be matters for negotiation or arrangement between the Government and the Company in each case. The conditions suitable for a Railway would be in many respects unsuitable for a Canal. In some cases there might be no objection to the Tariff of charges being left entirely to the discretion of the Company; in others this could not be permitted, as it might establish a tyrannical monopoly. And so forth. The essential aim of the conditions would be to fix on a fair basis the terms on which the State acting in behalf of the Public could rightly put in force the compulsory powers of the law in behalf of the Company.

27. The conditions are distinctly *special*. They will not be designed to give the Government or its Officers any *general* power of control or interference, but only to settle beforehand with the Promoters in a definite form what are to be the specific ends to be accomplished. The Government will only claim a right to interfere if these engagements are not acted up to.

28. Having arrived at this stage, the projectors of a work would obtain a provisional registry, which would secure to them for a specified time, but not less than 6 months, an absolute right to proceed, if at the end of that time they accepted the conditions offered by the Government, and further paid a deposit of 10 per cent. on the estimated cost of the work as caution money. This would allow them time to ascertain in a definite manner whether money could be raised on the terms offered. If they desired it, they might suggest any modification of the terms offered by the Government to enable them to enter the money market with better prospects of success, and the Government might make any further concession, or might extend the time at first fixed for the protection of the projectors.

SECTION XVI.—Provisional Registry.

29. The deposit of caution money before the Government proceeds to the actual taking possession of any land for the projectors will be a necessary precaution as security that the project is taken up in good faith. A scheme of this short in the hands of unscrupulous persons might be made a terrible engine of oppression in a country such as India, and every possible protection should be given to the Public in carrying out the provisions of the law.

SECTION XVII.—Deposit of Caution Money to secure construction.

30. The formal completion of an agreement between the projectors and the Government, embodying the special conditions finally settled, would, after the deposit of the caution money, conclude the preliminary Proceedings, the work would then be definitely registered as coming under the Act, and the Company constructing it would be absolutely vested with the privileges it confers. The exact nature of the agreement would be made generally known by the publication of the conditions in the Official Gazette.

SECTION XVIII.—Definitive Registry.

31. As the Government has already entered into agreements with Companies engaged in objects identical with those contemplated by this Act, and as there may be a legal difficulty in taking land for such Companies, a provision has been made for permitting their registry under the Act, on the publication of the terms of their agreement with the Government. The registry will be optional, both with the Company and the Government.

SECTION XIX.—Registry of existing works.

32. In like manner, as the Government may have land already in its possession, which it may wish to transfer to a Company for the purpose of constructing a Public Work, or as it may think it expedient to transfer a public road to such a Company for such a purpose, power is given to do this on the proviso that the Company is to be registered under this Act, and the work thus secured to the use of the Public.

SECTION XX.—Appropriation of public land and roads to Public Works.

33. The power to vary the conditions of agreement between the Company and the Government must be given in some form, and the discretion must be allowed to rest with the Government, as in all other similar cases in the procedure under this Act. Of course the changes made from time to time should be published as the original conditions were published.

SECTION XXI.—Power to vary conditions.

34. After the completion of the final registry, the Company will proceed to execute the work. The first thing to be done will be to survey the ground exactly, and mark out the boundaries of the work and the land to be taken. In such a survey, some license must be given to remove obstructions, though at the risk of the Company. In the merely preliminary survey, this power was not given, but the work having arrived at this stage of maturity, it may be assumed that the surveys, which will be final, will only extend over the land actually to be occupied.

SECTION XXII.—Final survey.

35. It will be requisite that Drawings of the proposed work should be submitted to the Government for general approval, both as regards the character of the work itself, and to admit of a satisfactory consideration of the quantity of land that will be required for it. As the works that may be undertaken under this Act are very various, it is better to leave the detailed rules for the submission of the plans, &c., to the Government, to be settled according to circumstances and the character of the undertaking. Rules might conveniently be laid down for the great classes of works, as Railways, Canals, &c., but it is better not to tie the hands of the Executive Government prematurely in such matters, and the real convenience of all parties will certainly be best met by the course suggested. The Government can have no object to gain by interfering in matters of detail, and it will no doubt so issue its instructions to the Commissioners as will secure to the projectors all fair freedom in carrying out their scheme.

SECTION XXIII.—Submission of Designs and Plans, and appointment of Commissioners to examine them.

36. After public notice has been given that Commissioners have been appointed to settle in detail the boundaries of the land to be taken up for the work, and sufficient time allowed for persons interested to come forward and guard their rights, the position of the work will be determined in concert between the Company's Agents and the Commissioners appointed by the Government. This will enable the Company to lay out the boundaries of the land that they consider necessary for their purposes. The Commissioners will, so far as practicable, act in harmony with the Company's Agents, but if, for any reason, a difference arises that cannot otherwise be settled, it must be referred to the Government, with which the final decision on all disputed points must remain on this as on other occasions.

SECTION XXIV.—Determination of Boundaries of Land.

SECTION XXV.—Extension of periods allowed for perliminary proceedings.

37. It is expedient that the Government should have the power to extend the periods allowed by the Law for any of these preliminary operations, considering the difficulties that may arise in enterprises such as are contemplated. No abuse of such a power is at all likely to arise.

SECTION XXVI.—Declaration to be made as to land required as though to be taken under Act VI of 1857.

38. We now have arrived at that stage in which the land required for the public is definitely marked out with the approval of the properly qualified Officers of Government. All that remains to be done is to declare in a formal way that the specified land is so required, and to proceed to take possession of it as though it had been required for a public purpose under Act VI of 1857. All the provisions of that Act will be applicable to the case of land taken under this Act, and this will ensure one system of procedure, and will secure completely the due regard for the rights of all persons whose property is interfered with.

SECTION XXVII.—Regarding the Boundaries of the Land.

39. Section IV of Act VI of 1857 refers to certain boundaries and measurements which it has been thought convenient to declare shall be held to be the boundaries fixed by the Commissioners, and the measurements submitted by the Company's Agents.

SECTION XXVIII.—Land taken for an extension of a Work.

40. As it may be necessary from time to time to take up small pieces of land to add to works already existing under this Act, and as it would often be needless to call upon a Company to go through the forms laid down for preliminary procedure in such cases, the Government has been entrusted with a power of dispensing with so much of those forms as they think fit, only taking care that the real rights of the persons interested are duly secured.

SECTION XXIX.—Land may be taken temporarily.

41. To prevent doubts it has been declared that land may be taken temporarily under this Act, as under Act VI of 1857. It is right to remark that the powers under that Act, and Act II of 1861, which extends it, secure to any one whose land is taken temporarily, the right of giving it up absolutely, and of being paid accordingly, if he shall insist upon it.

SECTION XXX.—The Government alone to be responsible to owners of land for payment.

42. The land being taken will vest absolutely in the Government, and they will be completely responsible to the owners for the payment of all claims for compensation. No other system could be adopted in this country, and it would be obviously impossible to think of leaving the adjustment of such claims to the Company. The Government, on the other hand will have secured to them the right of disposing of the land when taken as may be necessary; if this were not defined, a doubt might perhaps arise whether land thus taken could be applied otherwise than to public purposes. The Company will be in no way responsible to the owners of the land, and will make their own bargain with the Government as to the terms on which they are to be put in possession of the land.

SECTION XXXI.—Company only to obtain possession of land on completion of its engagements, and its title not to be vitiated by reason of informality of procedure.

43. The Company is to come into final possession only on having completed all its engagements in behalf of the land, so that if it were bound to pay and failed to do so, the land would remain the property of Government, which might dispose of it again in the manner that seemed best for the public interests. When the land has once come into the possession of the Government or the Company under this Act, their title will not be liable to be questioned on the ground of any of the proceedings under which it was taken.

SECTION XXXII.—Payment for preliminary expenses.

44. Unless the arrangement between the Government and the Company provides for the grant of the land to the letter free of cost, the expenses should clearly be borne by the Company. To prevent disputes, the Government is authorized to declare finally the sum due on this account; of course it would not take advantage of this power unfairly, and such a power seems a reasonable one to give to the Government, which otherwise might have difficulty in recovering outlay forced upon it by this Act, in which in fact it was not in any way beneficially interested, and which had been incurred ministerially in behalf of the Company. The power of recovering summarily by distress in case of necessity seems also essential for the Government, both in respect of preliminary expenses and actual cost of land.

SECTION XXXIII.—Payment for damages done in survey, &c.

45. In like manner the Company will be held responsible for all damages done by their Agents in any preliminary proceedings, and the final adjustment of the compensation to be paid for the land they require will be a good opportunity to take of summarily disposing of all claims of this nature then remaining unsettled.

SECTION XXXIV.—The proper use of every work to be secured to the Public.

46. As before explained, it will usually be an essential part of the arrangement between the Government and the Company that the use of the work for which the land is taken by compulsory process shall be secured to the public on certain terms to be defined in the special conditions of the agreement between the Government and the Company. To obviate as far as possible the necessity for any interference on the part of the Government with the operations of the Company, and to place in the hands of the public a power of self-protection against any improper neglect of the Company to carry out the terms of their agreement with the Government, as to the public use of the work, it has been thought the best plan to provide by the Act that after the publication of the special conditions applicable to any work, any person shall be able to sue the Company for any damage he may receive at their hands, from their neglect of their agreement, as though he had been a party to the agreement. This obviates the necessity for introducing any of the penal clauses that were inserted in the old Drafts to enforce the proper working of lines of Railway, &c. It will however be very necessary for the Government to see that all that is intended to be required of a Company in this sense is specifically stated in the conditions, or the necessary protection of the public interests will not be secured.

SECTION XXXV.—Powers to levy Tolls, &c.

47. As the Company will be bound to perform the services they engage to perform, it is also right in their behalf to authorize the levy by them of such payments for their services as may be agreed to in the conditions, and to give them all reasonable privileges for their protection in realizing those payments in a summary manner.

SECTION XXXVI.—Government Inspectors.

48. The Government having obtained a right to see that the Company carries out its bargain completely according to the term of the agreement, it will be necessary that Official Inspectors should be appointed to perform this duty. These Inspectors are invested with power of examining all works and working; but not the Books or private affairs of the Company, unless for any cause such a right is specially given by the agreement.

SECTION XXXVII.—Powers of Government to order remedy of defects.

49. Such Inspectors will report to the Government any instances of neglect on the part of the Company or their servants involving breach of contract, or danger to the public or servants of the Company, and the Government, if it shall think the case to call for such a summary proceeding (which may readily be possible), will have the power to order the stoppage of the

use of the work until the defect, whatever it be, has been remedied. The penalty for neglecting to obey such orders as are referred to in this and the following Sections is noted in Section LII.

SECTION XXXVIII.—Powers to order necessary works to be constructed.

50. A similar power is given to the Government to stop all operations in constructing any work, if the Company's Agents, while so engaged, neglect the precautions necessary to ensure the safety or legal rights of the public or the neighbouring proprietors, by stopping roads, lines of drainage, and so forth.

SECTION XXXIX.—These powers not to be exercised contrary to terms of agreement.

51. At the same time as the Government has had the opportunity of considering in detail the matters that it holds to be rightfully made obligatory on the Company, and as the special conditions should enumerate them, and would, in case of debt, prescribe what works the Company should execute and what it need not execute, it has been considered but equitable to the Company to protect them against the issue of any order under the foregoing Section that might make them liable to construct anything or undertake anything at variance with the special conditions.

SECTION XL.—Railways of standard guage of five feet six inches, to conform to fixed dimensions.

52. To admit of the Rolling-stock of all Companies that construct Railways on the standard Indian guage of five feet six inches, to run on one another's lines with safety, it will be essential that the same standard dimensions for the fixed structures and Rolling-stock should be adopted on all such lines. To admit of a relaxation of this Rule in any case in which it may be expedient, such a power will be vested in the Governor General in Council only, the Local Governments not being granted any such power, so that no conflict of authority shall be possible in a measure that may involve the lives of the passengers on such Railways.

SECTION XLI.—Application of Railway Act to Railways under this Act.

53. In the Railway Act No. XVIII of 1854, it is declared that the provisions of that Act are to be considered applicable to every Railway constructed by a Company under "the superintendence and control" of the Government; and further that every Railway shall be presumed to be a Railway under that Act until the contrary be proved. It is expedient to remove all doubts as to the application of the Act to Railways constructed under this Act. Its provisions are on the whole quite as suitable and quite as necessary in the case of these Railways as of those constructed under the guarantee and control of the Government. The only possible exception is in respect to fences. It may happen that a Railway Company engages to run its Trains at a low speed, or that some other special condition attaches to the traffic on some lines; and that the Government is satisfied that for it continuous fencing is not at first necessary, or is not likely to be necessary at all. Under these similar circumstances, as the fencing is very expensive, and often costly to maintain, it is declared that the Government should have the power of determining to what extent the fencing should be insisted on, and of relieving the Company from the penalties that may be inflicted under Act XVIII of 1854, for not keeping up the fences.

SECTION XLII.—Power of Government to decide questions of interference of works with Public Rights.

54. In connection with this subject also it has been thought proper to confer on the Executive Government the power of determining all questions that arise as to the proper manner of dealing with any public right of way, or other public right which may appear to be interfered with by any work constructed under this Act. It is not expedient to trust to the personal judgment of Magisterial or Judicial Officers questions which are in fact mainly of a technical and engineering nature, and which will probably be better decided on professional than legal grounds. The expense of erecting such a work as an overbridge across a Railway, for instance, would be very great, and it would be a great hardship if such a work were ordered to be provided on insufficient grounds. It would detract from the sense of security that Capitalists would otherwise feel if they were at the mercy of the local Courts in such questions as these. In a country in the present condition of India, the due protection of rights of way and other analogous matters may quite safely be left to the Executive Government. The section in no way effects personal rights, for any interference with which a Company must of course be as liable as any individual.

SECTION XLIII.—Junctions of lines of Railway.

55. It further has been held necessary to entrust to the Government the decision of the arrangements under which a Branch or new line of Railway shall be permitted to join with any other pre-existing line. Such junctions where possible, without danger to the public, or injury to existing interests should obviously be encouraged, as commonly tending to the convenience of the public. But as differences may arise between two Companies which will obviously be better decided by arbitration, and on a professional judgment, than by recourse to a Court of Law, the Government will best have the power to settle such matters.

SECTION XLIV.—Joint working of lines of Railway.

56. In like manner, when a junction has been formed, the traffic over the line used in common by two or more Railway Companies will call for regulation, and the details, if they cannot be amicably settled by the Companies, will be referred to the Government for its final decision.

SECTION XLV.—Bye-laws.

57. Although under the Railway Act a Railway Company under this Act would be authorized to make certain rules and regulations, a general power of the sort will be commonly necessary in case of all public works undertaken under this Act. Such a power of framing Bye-laws for the guidance of their servants and agents, and for the maintenance of order on their works, is given by the Law of England to all Joint Stock Companies, and is in itself reasonable and proper when sufficiently guarded and restricted.

SECTION XLVI.—Penalties affecting the Public.

58. As respects the public, it seems desirable that reasonable measures should be taken to inform them of the existence of prohibitions against certain acts which the Bye-laws make offences. It may, however, for the present at least, best be left to the Local Government to determine what sort of publication shall be demanded. No general rules on such a subject could be framed of any value.

SECTION XLVII.—Bye-laws in case of Railways of standard guage.

59. As the Railway Rules and Regulations now in force on the lines under Government control contain directions for signals, and for matters of discipline of various sorts, which must be alike if several Companies use one line in common, and as it is obviously essential, in behalf of the public safety, that on such lines of Railway as are in connection with the guaranteed lines, the same set of Rules shall be adopted, it will be necessary to insist on complete uniformity of system on all Railways of the guage of five feet six inches, unless with the sanction of the Governor General in Council, as in the case of the fixed structures. If the Local Governments had any discretion, a conflict of authority might lead to fatal results.

SECTION XLVIII.—Government lien on Land and Works.

60. Inasmuch as the land given to a Company under this Act will be specifically taken for the purpose of being applied to Public Works, it is declared, in behalf of the public, that the land cannot be alienated in any way not consonant with the terms of the agreement with the Government. Such a stipulation will bring with it advantages and disadvantages

to the Company, but it seems a requisite addition to any arrangement by which land is taken under compulsory process on the plea of its being required for Public Works. The same protection should also be given to any part of the property which lapses to the State under any of the conditions.

61. For a similar reason the Government has received authority to take possession of the land and other property, to which it is entitled under the terms of the agreement, in the event of the Company failing from any cause to carry out its engagements. It will be right to give the Government a summary power in this respect, as otherwise the property might be wasted before its rights were asserted in ordinary course of Law. Provision has been made however for allowing a bonâ fide creditor of the Company to put in a claim for the restoration of any property lately delivered to the Company, for which payment had not been made, or for payment of any sum that remained due for such property, if the Government preferred to deal with the case in that way.

SECTION XLIX.—Government power of re-entry on Land in case of Company failing to carry out its engagements—

62. It may be remarked that these two Sections are somewhat exceptional in their character. But the grant of land under this Act is not by ordinary sale. It is an essential part of the preliminary proceedings under which a Company becomes entitled to obtain land under this Act, to show that the land is to be applied to a Public Work. This, therefore, is a condition precedent which must not be avoided ever after, whatever be its consequences to the Company or its creditors, unless with the approval of the Government, which acts in behalf of the State interests. It may be presumed that a Court of Justice might however interpose, if necessary, to see that the Government performed in an equitable way its part of the contract. In case of the bankruptcy of a Company, for instance, or any other failure on their part to meet their engagements, by which their creditors might be left without remedy, it is presumed that a properly qualified Court might, if it saw occasion, on hearing all parties including the Government, appoint a Receiver, and cause the work to be managed in behalf of the creditors till their claims were met in an equitable manner.

Necessary for securing the public interests in land taken under the Act.

63. The general Act for taking land for public purposes, No. VI of 1857, makes no provision for the rights in mines under land taken by its authority. To meet this defect a Section has been added to this Act, stating that unless compensation is specially made for mines, the right in them does not pass. In the former Drafts this Section was extended to all land taken before or afterwards under Act VI of 1857. This however was objectionable. If the general law requires amendment, it should be by a separate Act; the present Act plainly should only apply to the special class of works for which it is framed.

SECTION L.—Right in Mines under land taken by this Act.

64. Protection must be given to Companies in possession of land taken under the foregoing stipulation, against the possible destruction or injury of their works by the extension of mines under those works. On the other hand, the proprietors of the mines must be compensated for any loss that they may incur in avoiding the Company's works, or in taking any special precautions, which otherwise would not have been necessary. These provisions are found in the English law.

SECTION LI.—Protection against injury from working Mines under land taken by this Act.

65. As before remarked, it has been thought to be the best way of dealing with all offences under this Act to bring them within the provisions of the Penal Code. It is inexpedient to create new offences where existing legislation is sufficient to meet the requirements of the case, and the Penal Code appears fully to provide every remedy that is called for to enforce the working of this Act. The protection of Surveyors is sufficiently ensured by declaring them to be Public Servants. The Government Inspectors are obviously Public Servants, and all orders issued by the Government under the provisions of this Act will be lawful orders, to disobey which will amount to disobedience or contempt of the lawful authority of a Public Servant, which is punishable under the Penal Code. The same remarks apply to the destruction of Land Marks, permanent or temporary. The Section of the Penal Code that makes wilful injury to a Land Mark erected by a Public Servant penal, apparently has reference to permanent Land Marks. But the removal or defacing of any Land Marks is obviously an obstruction of those persons whose duty it is to erect them.

SECTION LII.—Punishment of offences under the Act.

66. As regards the penalties to be recovered under the Bye-laws of a Company, (which can never exceed a fine of 50 Rupees), it has been thought best to adopt the procedure already laid down for the case of offences under the Railway Act No. XVIII of 1854, which Act, under any circumstances, must be read with this Act.

SECTION LIII.—Recovery of Penalties under Bye-laws.

REVISED TABLE OF STAFF SALARIES.

FORT SAINT GEORGE, *6th November* 1863.

No. 392 of 1863.—The following Extracts from General Orders by the Government of India, are re-published :—

Simla, the 13th October 1863.

No. 156A. of 1863.—Under the authority and direction of the Right Hon'ble the Secretary of State for India, as conveyed in his Despatch No. 311, dated the 31st August last, a revised Table of Staff salaries for the three Presidencies is published, and the Extracts of Sir Charles Wood's Despatch on the subject, as given below, are promulgated for general information.

2. Officers whose appointments are not specified in the Table of revised salaries will draw pay as at present, and further orders will hereafter be issued with respect to the Office Establishment of those Staff Officers who have hitherto drawn an Office allowance, such as Assistant Adjutant Generals of Divisions and Majors of Brigade.

3. With reference to paragraph 29 of Sir C. Wood's Despatch, it is announced that the Despatch was received by his Excellency the Governor General on the 30th September. Increased pay, where granted by this order, is therefore claimable for the month of September.

Para. 1.—" Your several letters noted in the margin, relating to the salaries to be attached to offices held by Military Officers in India, have been under my consideration in Council, and I have now to communicate to your Lordship the decision which, after an attentive perusal of the several papers which accompanied your letter, Her Majesty's Government have arrived at upon this subject.

Financial Despatch No. 70, May 20th, 1862.
Military Despatch No. 10, January 3rd, 1863.
Military Despatch No. 34, January 19th, 1863.
Financial Despatch No. 23, Feby. 19th, 1863.
Military Despatch No. 160, May 22nd, 1863.

2. The Committee of Secretaries appointed by your Government to consider the subject, have gone very carefully into the whole question, and have submitted a very valuable Report, which has greatly tended to facilitate and simplify the consideration of this important matter.

3. They observe of the Royal Warrant for the formation of the Staff Corps in India that, after fixing the scale of pay to be received by Officers attached to them while in India, and when out of India, it further provides that every Officer when in active employment will also receive, in addition to the above pay, such a sum as will make his total pay and allowances up to the sum assigned by the Government of India, with the approval of the Secretary of State for India in Council, as the consolidated pay of the office which he may hold.

4. Having consulted the several Governments, as well as the Chief Political and Military Officers of the Government, the Committee propose for adoption the following principles :—

1*st*.—That the Salaries of Military Officers holding appointments connected with the Civil administration of the country should be consolidated and fixed without reference to the rank of the incumbent.

2*nd*.—That in the case of Military Officers in Staff employ, a certain salary should be fixed for every appointment, and that the incumbent should receive such fixed salary in addition to the Staff Corps pay of his rank.

3*rd*.—That this latter principle should apply to the Department of Public Works.

5. I concur generally in the principles here laid down, with some exceptions to be hereafter pointed out, as regards the Officers in Military Staff employ.

10. I have considered it necessary to deviate in some respects from the rates of salary proposed by the Committee, and I now forward, for the information of your Government, a Table of salaries which Her Majesty's Government have resolved upon, for the several Offices enumerated in their Report.

11. You will observe from the Table that, while adhering generally to the principle of allotting a Staff salary in addition to Staff Corps pay, it has been determined to fix the salaries of some few of the higher Offices at a consolidated sum.

12. In the case of the other appointments it is to be understood that the Staff salary now fixed, plus the Staff Corps pay due to the Officer's rank, will constitute the maximum amount to be drawn by an Officer of that rank holding the office in question, whether such Officer belong to the Staff Corps or not. In the case of appointments held by Officers belonging to Her Majesty's British Forces, such maximum amount will include any pay or half-pay that may be paid to them in England.

13. I approve of the Rule proposed by the Committee that in all cases where any allowance for "office" is made, as in the case of Assistants Adjutant General, Brigade Majors, and others, it should be distinctly understood that the allowance is to be drawn only by Officers actually discharging the duties of the appointment, and that no further charge can be allowed for providing an office.

14. It is desirable that, whenever possible, the Public Offices should be located in public buildings, and it should be a standing Rule that all bills for Office allowance should be supported by a Certificate from the proper authority, that no public building was available for such Office.

15. I am of opinion, however, that Office Establishment should, as a general rule, be maintained according to a regulated scale, and should be paid on abstracts, supported by the usual monthly Muster Roll.

18. The principle laid down in the 4th Clause of the same paragraph has, you will perceive, been observed in the rate of salary allotted to the heads and Subordinate Members of Departments at the several Presidencies; but I have extended to the Deputies of the Army Department at Head Quarters in Bengal the benefit of the Rule which gives to the Chief of those Departments a higher rate of salary than at Madras or Bombay.

19. In the 2nd Clause of the 10th paragraph, the Committee observe that, "referring generally to the expensive "rates of living in Presidency Towns, we think that the principle "of allowing house rent may be generally adopted at the rates "marginally shown, and we would recommend that it should be "made applicable to the Presidency Town of Madras, as well as "to Calcutta and Bombay."

	Rs.
Colonel	125
Major	100
Captain	75
Lieutenant	40

20. I approve of the proposed scale, which will apply to Officers at each Presidency not drawing consolidated salaries.

29. The scale of salaries now sanctioned, will be brought into operation and made to apply in all cases where there is no reduction in the present aggregate salary, on the payment due on the first of the month succeeding the receipt of this order.

30. Reduction of salaries effected by this order are not to be made to affect present permanent incumbents, or those who are officiating for such permanent incumbents, being temporarily absent from their duties.

4. Separate orders will be issued regarding the Staff salaries to be allowed to Officers serving with Native Corps.

No. 157 A. of 1863.—His Excellency the Governor General is pleased to publish the following extracts of a Despatch from the Right Hon'ble the Secretary of State for India, No. 311, dated 31st August 1863, regarding the absentee and acting allowances of Military Officers in Civil employ, the provisions of which are applicable to all the Presidencies.

Para. 31.—With your Despatch, No. 23, in the Financial Department, you forward a further Report from the Committee of Secretaries regarding the absentee and acting allowances of Military Officers in Civil employ, with a note thereon by your Financial Secretary.

Para. 32.—You concur generally in the recommendations of the Secretaries, with the amendments noted by the Financial Secretary, and propose the adoption of the following principles :—

1st.—That every Military Officer in Civil employ when on leave should draw pay under the Military Rules; and

2nd.—That every Military Officer when acting in any Civil appointment should draw his Civil pay under the Civil Rules.

Para. 33.—Upon these two principles you propose the following Rules for the Officer on leave :—

A Military Officer in Civil employ on leave, either in India or in England, shall draw precisely the pay which he would be entitled to draw under the Military Leave Rules, except when on privilege leave as hereafter specially provided.

Such pay shall be provided from the Civil Department excepting only in cases where the allowances so drawn would exceed the entire Civil pay of the appointment, when the excess will be paid by the Military Department. The Staff salary of any Officer shall be held to be the difference between the Indian pay and allowances of his rank and the full salary of his permanent appointment.

Para. 34.—For the Acting Officer your Government proposed the following Rules:—

A Military Officer acting for another in Civil employ shall draw deputation allowance under the rule by which the allowance is granted to Covenanted Civil Servants.

If the Officer be in Military Staff employ, such deputation allowance will be given in addition to his Military pay and allowances, plus half the Staff pay of his substantive appointment.

If the Officer hold no substantive Staff appointment, Civil or Military, it will be given in addition to his Military pay and allowances.

A Military Officer in Civil employ performing the duties of his substantive appointment, and at the same time officiating in another, is entitled to his substantive salary, and in addition to a deputation allowance of 20 and 10 per cent. on the Staff salary of the appointment in which he is officiating, provided the pay of the substantive appointment, with the addition of the deputation allowance, does not exceed the pay of the higher appointment.

A subordinate acting for his principal or for any other Officer at the same Station, is not entitled to deputation allowance for the first month while so acting, unless he is required to act on two occasions within a brief period (say twelve months), in which case he draws deputation allowance for the whole period during which he may have held the appointment in excess of one month as if he had acted continuously.

A Military Officer proceeding from one Civil appointment to another, shall be allowed to draw, during the authorized period of transit, out of the salary of the office he is about to join, a sum equal to that of his previous situation. This Rule to be preceded by an Order making the Civil Rules for joining time applicable to Military Officers in Civil employ.

A Military Officer in Civil employ can take three months' cumulative privilege leave (under the Civil Rules only) but he must earn it by thirty-three months' continuous service in the Civil Department alone.

Para. 35.—These several Rules are approved of.

CAMP MEEAN MEER, THE 29TH OCTOBER 1863.

No. 161 *A of* 1863.—In continuation of General Order No. 156 A. of the 13th instant, the annexed scale of Staff salaries hereafter to be allowed to Officers serving with Native Regiments under the new organization is published for general information, and with reference to this scale an extract (paragraphs 23, 24, 25, 26, 27, 28, 29, and 30) of Sir Charles Wood's Despatch, No 311 of the 31st August last, is also published for information and guidance.

2. Detailed instructions will be issued by his Excellency the Commander-in-Chief for the guidance of Officers serving with Native Corps under the new organization, and the present system of payment of Troops and Companies and for repair of Arms, &c., will continue until a further order is issued by Government on the subject, the same Officers as at present drawing any allowances now authorized for the payment of Companies and repair of Arms.

The new system of placing European Officers in charge of Squadrons and Wings will, in all other respects, be brought into operation as soon as His Excellency the Commander-in-Chief can issue the necessary subsidiary orders.

3. The Despatch of the Secretary of State having been received by the Right Hon'ble the Governor General on the 30th ultimo increased pay is claimable from 1st September by Commandants, Adjutants, and Doing Duty Officers, as well as Seconds in Command of Cavalry; but when higher pay may accrue from Seconds in Command or others obtaining new appointments, as Wing or Squadron Officers or Quarter-Masters, such increased pay will only become due from the date of Officers assuming charge of the duties of such new appointments under the orders of the Commander-in-Chief.

4. With reference to paragraph 26 of Sir Charles Wood's Despatch, instructions will hereafter be issued as to the scale of Office Establishment to be maintained by Adjutants. Meanwhile the allowance of Rupees 50 per mensem will be passed.

5. The pay now authorized is to be drawn in addition to Staff Corps pay only.

6. The rules now laid down are applicable to such Corps under their Excellencies the Commanders-in-Chief of the Bengal and Bombay Armies as now are or may hereafter be placed on the new organization, and to the Punjaub Irregular Force.

In other Irregular Corps no alteration is made in the Establishment, position or duties of Officers, but Commandants, Adjutants, Seconds in Command, and Doing Duty Officers are entitled to the increased pay.

7. The Corps of Regular Infantry on the Bengal Establishment will, under the orders of the Commander-in-Chief, be placed on the new organization from the 1st January next.

Extract, Secretary of State's letter No. 311, dated 31st August 1863, paragraphs 23 to 30.

Para. 23. I have given much and careful consideration to these proposals.

24. I am of opinion that the salaries attached to these Regimental appointments should be such as to place them at least on a footing of equality with the average of the Staff appointments commonly held by Officers of similar rank and standing in the Service, and while they should not be so far superior to the latter as to induce those to seek them whose natural tastes and qualifications might not otherwise incline them to this important branch of the Service, it is important, on the other hand, that young Officers, who, on first joining the Staff Corps, will frequently be employed with native Troops, should not, if naturally fitted for Military Service, be tempted to relinquish it by the attraction of superior emoluments of other Staff employments.

25. With these principles in view, and making due allowance for the advantages enjoyed by Staff Corps Officers in regard to promotion, and the comparatively early period at which they will attain the pay for the higher ranks, I am willing to sanction the scale of Staff allowance proposed by your Government for the Officers serving in different capacities with Native Regiments, which, though liberal, will probably not be found excessive.

26. In the case of the Regimental Adjutant, however, it appears desirable that an Office Establishment should be prescribed, which should be maintained and paid upon Abstracts supported by the usual Muster Rolls.

27. I learn from your Despatch No. 10, dated 3rd January 1863, that you have completed the Native Regiments in Bengal to six regularly attached and paid European Officers, exclusive of the Medical Officers, as announced in your General Order of the 12th December 1862, it being distinctly understood that the appointments made under that decision are held subject to such modifications as may be found necessary on receipt of my further instructions on the general question, and that you have authorized the Government of Bombay to extend the rule to such Regiments in that Presidency as are formed and officered according to the new organization.

28. I approve of these proceedings and shall await the result of your reference to the Government of Madras upon the introduction of the new system into the Army, of that Presidency.

29. The scale of salaries now sanctioned will be brought into operation and made to apply in all cases where there is no reduction in the present aggregate salary on the payment due on the 1st of the month succeeding the receipt of this Order.

30. Reductions of salaries effected by this Order are not to be made to affect present permanent incumbents, or those who are officiating for such permanent incumbents being temporarily absent from their duties.

3rd.—English Composition and Correspondence.

4th.—Precis Writing.

The Examination is to be conducted by any Officer of Government, who may be willing to undertake it at the request of the Paymaster.

7th.—In addition to the above Examination, every 1st, 2d, and 3d Class Clerk must have proved that he possesses a competent knowledge of routine of Office duties, and of the Pay and Audit Regulations.

8th.—Clerks of every grade are to be employed from time to time upon any duties which their respective qualifications, or the circumstances of the Public Service may require, as it is desirable they should in the course of their service, gain as extensive an acquaintance with the duties of the office as possible.

9th.—No Clerk will be allowed any extra allowance for acting for another within the office.

10th.—The Clerks, when necessary, are to be considered available for transfer from one office to another.

11th.—The prospects held out by this new system of paring Clerks must command a superior class of men, whose interest it will be to attach themselves to the office. It is therefore doubly incumbent on Paymasters to prevent, any but intelligent promising men entering the office. One year's probation is required in the case of every one entering the office, and if, in that time, the Clerk does not answer the expectations formed of him on admission, he must be at once discharged.

12th.—The fixed establishment of each office will be,—One 1st Class Clerk, two 2nd, three 3d, Nine 4th Class Clerks.

13th.—When the amount of work in any office calls for a larger establishment than the above, an addition of Fourth Class Clerks will be authorized on the necessity being shown.

14th. The additional establishment will be liable, when occasion requires, to be reduced or be transferred to some other Pay Office according to circumstances.

15th.—In arranging the existing establishment to the new system, those who receive a higher rate of pay than they can claim under the above rules, will be entitled to a continuance of such higher rate, and all whose pay will be increased will be allowed the higher rate from the 1st November.

16th.—Service for increase of pay in each class will reckon in all cases from the 1st November 1863. Thus, a senior Clerk who now receives Rupees 200 a month must serve one year from that date to be entitled to Rupees 220 per mensem, twelve months after he will draw Rupees 240 per mensem; and on the 1st November 1866, he will be entitled to the maximum of Rupees 250 per mensem.

17th.—The increases in other classes will be regulated in a corresponding manner.

18th.—The work of each Pay Office will be divided into three branches, the General, Audit and Pay, and the Accounting, Compiling and Recording.

19th.—It is intended to divide the Royal Artillery so that the Meerut and Allahabad Circles shall each have a number of Batteries equal to two Brigades, and the Lucknow, Lahore and the Trans Ravee Circles, Batteries equal to one Brigade each.

20th.—The Lucknow Circle will receive the Stations of Segowlie, Hummeerpore, and Bandah from Allahabad, and Bareilly, Almorah, and Nyneé Tal from Meerut; and the Lahore Circle will receive Dera Ghazeekhan Dera Ismael Khan, and Rajanpore from Rawul Pindee.

21st.—Paymasters are requested to prepare a scheme for re-organizing their offices in the manner above detailed, and to submit a statement detailing the arrangements they propose, and also to state whether any, and what circumstances will necessitate a larger establishment than that fixed of 15 Clerks, and what number of additional Clerks they consider requisite.

DEATH OF THE RIGHT HON'BLE JAMES, EARL OF ELGIN AND KINCARDING, K.T., G.C.B., & G.M.S.I.,

HER MAJESTY'S VICEROY AND GOVERNOR-GENERAL OF INDIA,

DIED NOVEMBER 20, 1863.

Madras saw yesterday morning, the 23d, a sad sight—the Flags of Fort St. George, Marine Office and the ships in port hoisted half-mast high and soon heard the announcement of the Fort St. George Gazette Extraordinary that His Excellency the Earl of Elgin and Kincardine, Her Majesty's Viceroy and Governor General of India, was dead. It would seem to be almost a rule in the economy of human progress, that great sacrifice is the price of distinguished service to mankind. The honoured father of the nobleman just deceased suffered but the common fate of all benefactors of mankind, when for that collection of Sculptured Marbles now treasured and well known in the British Museum, which will embalm his name as long as the arts are dear to the civilized world, he was satirized and traduced by the ignorance, envy and malice of the presumptuous dunces of that age. His still more illustrious son has now added a worthy name to a worthy list of celebrities, whose invaluable lives have been offered at the shrine of India's regeneration. Those who know the risk to life in this climate when powers, whatever may be their natural vigour, that have passed their meridian strength, are called to the responsibilities of high office must have felt when they saw Lord Elgin step on our beach, that he would in all probability never return home.

The Right Honourable the Earl of Elgin and Kincardine was a descendant of the Scottish Royal Family of Bruce. Genealogical writers trace the lineage of this noble stock to a period nearly a thousand years back. Among the comparatively recent members of the family to whom the late Earl was indebted for the honours and estates he inherited, were Sir Edward Bruce of Kinloss, who was appointed a Lord of the Session in 1597, and, in company with the Earl of Mar, was accredited by James VI to the Court of Elizabeth, to congratulate Her Majesty upon the suppression of Essex's rebellion. He then placed the affairs of his royal master in such a train with Secretary Cecil as to pave the way for a peaceable succession of the Scottish Monarch to the English throne. Upon his return in February 1602, he was created a Peer of Scotland, as Baron Bruce of Kinloss, in the county of Elgin. Accompanying King James into England, on his accession, he was sworn a member of the new monarch's Privy Council, and constituted Master of the Rolls for life. From his successor the family honours passed to Thomas, third Baron, who was advanced to an Earldom, June 21st, 1633, as Earl of Elgin, and further raised to the dignity of an English Peerage in 1640, as Baron Bruce of Whorlton, county of York. The next Earl achieved additional dignities by his royalty to the Charleses, having been created, in March 1664, Baron Bruce of Skelton, county of York Viscount Bruce of Ampthill, county of Bedford, and Earl of Alesbury. By this time a junior branch of the family had attained a Peerage as Baron Bruce of Torrey and Earl of Kincardine, a dignity which subsequently became incorporated with that of Elgin. The joint title of Earl of Elgin and Kincardine was assumed by Charles Bruce, with Earl of Kincardine, on the death of the fourth Earl of Elgin without surviving male issue.

The father of the late Peer was born in 1777 and achieved considerable distinction in the diplomatic service of his Sovereign. He was Envoy to Brussels in 1792, and in the following year accompanied the Prussian army during its operations in Germany. In 1795 he was appointed Envoy Extraordinary at Berlin, and in 1799 sent to Constantinople as Ambassador. While in Turkey he conceived the idea of sending to England a variety of valuable records of Athenian art, and carried out his plan despite the refusal of Government assistance and the malicious obloquy that was attempted to be cast on him in the matter of the "Tweddell papers." Engaging six artists at his own expense, he sent them to Athens in August 1800, where they secured a large number of casts, monuments, statues,

bas-reliefs, medals and fragments of Architecture, of the best age of Athenian art. They were taken to England, purchased by Government, and deposited in the British Museum in 1816, where they are well known as the "Elgin Marbles."

The late Earl of Elgin was born in Parklane, London, in July 1811, and educated at Christ Church, Oxford, where he distinguished himself among many scholars who afterwards achieved renown in art, literature, and science. He won first class honours in classics, in 1832, became a Fellow of Merton College and graduated Master of Arts in 1835, and attained the further distinction of D. C. L. in 1856. He was elected to the House of Commons as M. P., for the city of Southampton at the general election of 1841. On the death of his father in 1842, he succeeded to the Earldom, as eighth Earl of Elgin and Kincardine. In March 1842, he accepted the important appointment of Governor of Jamaica, which he ably filled until August 1846, when he resigned it to succeed Lord Cathcart in the Government of Canada. In Canada, as in Jamaica, his Lordship achieved general popularity among those he governed. He won the respect of the Canadians not only by his neutral and dignified attitude in reference to the various political questions that were fiercely agitated at the time, but by his zealous exertions to promote the agricultural, commercial and manufacturing interests of the province. Large classes in Canada that were previously disaffected, he succeeded in converting into loyal subjects. Enthusiastic ovations were offered to him by the citizens of adjacent States; and the successful negotiation of the Treaty for Reciprocity of trade between British America and the United States was mainly the fruit of his zeal and ability. During his absence in Canada and in acknowledgment of his eminent diplomatic services, the Home Government conferred upon Lord Elgin the dignity of an English peerage, and on his return to England in 1854 he was received in a most flattering manner both by the Government and the public. In the autumn of the same year he was nominated to the Lord-Lieutenancy of Fifeshire. The unexpected renewal in 1857, of difficulties on the coast of China afforded another field for the exercise of the Earl's diplomatic talents, and the consummate ability and complete success with which he conducted the embassy are fresh in the recollection of us all. While in the East, and after the ratification of his celebrated treaty of Tien-tsin his Lordship visited India and Japan; in the former country he afforded valuable assistance at the crisis of the rebellion, and in the latter, negotiated an important treaty with the Japanese Government. None of us can have forgotten that when on his way to China the ill-fated "Malabar" was wrecked in Galle Harbour, his Lordship faced the danger with the utmost calmness and was the last man to leave the wreck. In 1861 he was appointed to the highest office in the land which to the sorrow of all Englishmen, has proved his grave.

In paying our tribute of respect and sorrow to the memory of the departed Statesman we can only express an earnest hope that the ranks of the British Aristocracy may never lack men of equal ability and integrity, men oppressed by no cowardly sloth but ready, nay anxious, to serve their Sovereign, and to maintain the power and prestige of their country throughout its wide dominions. So long as such men live to support and adorn their class, faction may clamour in vain against the vices it occasionally exhibits or the privileges it enjoys.—Adapted from the *Illustrated News of the World.*
